Geagte Waterverbruikers

Dear Water-users

## **WATER ONDERBREKINGS / WATERBESPARINGSMAATREËLS: FRANSCHHOEK**

## **WATER INTERRUPTIONS/ CONSERVATION MEASURES - FRANSCHHOEK**

Vanweë die uitsonderlike hitte die afgelope tyd word daar tans 'n uitsonderlike hoë behoefte aan drinkwater in Franschhoek ervaar.

Due to the excessive heat a very high demand for drinking water is experienced in Franschhoek.

Die situasie is vererger deur pype wat ook gebars het.

The situation has been further aggravated by burst pipes.

Alhoewel water beskikbaar behoort te wees, sal swak toevoer steeds ondervind word.

Water supply should be available but poor pressure will still be experienced.

Vorige kennisgewings om waterbesparing te beklemtoon is tot dusver geïgnoreer. Indien daar nie gehoor gegee word aan die versoek om water te bespaar nie sal 'n algehele verbod op enige vorm van besproeiing ingestel word.

Previous notices to adhere to water conservation measures have thus far been ignored. Should this situation continue, it will leave the Municipality with no choice but to restrict all irrigation activities.

In die lig hiervan word u vriendelik versoek om alle besproeiing en natlei van tuine tot 'n absolute minimum te beperk.

Bearing this in mind you are kindly requested to limit all irrigation activities and watering of gardens to an absolute minimum.

Ons dank u by voorbaat vir u samewerking. Vir enige navrae skakel asseblief 021 808 8209.

Thank you for your co-operation. Any enquiries can be directed to 021 808 8209.

**André van Niekerk**
