MINUTES **4TH MEETING OF THE COUNCIL OF STELLENBOSCH MUNICIPALITY** **2022-04-26**

1.	OPENING AND WELCOME

The Speaker, Cllr Q Smit welcomed all present at the 4th Council meeting.

2.	MAYORAL ADDRESS

Speaker;

Deputy Mayor;
Chief Whip of the Ruling Party;
Members of the Mayoral Committee;
Councillors;
Municipal Manager and Senior Management;
Ward Committee Members;
Members of the public;
Members of the media present;
All protocol observed

Good morning, Goeiemore, Molweni, Assalamu alaikum;

GENERAL

FREEDOM DAY

- Former President, Nelson Mandela once said that – **For to be free is not merely to cast off one's chains, but to live in a way that respects and enhances the freedom of others;**
- Speaker, tomorrow our beautiful country will celebrate Freedom Day;
- Tomorrow should also serve as a reminder of the battles that were fought in order to enjoy the Freedoms we have today.

IDP & BUDGET

- Between 4 – 28 April, residents are encouraged to participate in the IDP and Budget process by providing inputs on the IDP – our key planning document that outlines our plans for the next year.
- Residents are also able to provide inputs by visiting our IDP offices for verbal/written submissions, could send a WhatsApp to our dedicated IDP line (0674271556), could make use of a specially designed IDP form on our municipal website (www.stellenbosch.gov.za) or by simply emailing submissions to our IDP email address (idp@stellenbosch.gov.za).
- As has been the case in the past, online IDP public participation meetings were also held between 20 – 26 April across all 23 wards of the municipality. Thank you for participating in this important process.
- Last night, meetings were held with residents of Kayamandi and Cloetesville and I thank each member of the community who participated.
- Tonight, there are quite a few wards who will be meeting: Wards 7, 8, 9, 10, 11, 22 & 23 (Mainly Stellenbosch central area, CBD, University, Onderpapegaaiberg, Die Boord and Plankenburg) who have been grouped together due to their proximity.
- Also taking place tonight will be ward 20 and 21 – this is Vlottenburg, Raithy, Jamestown, Paradyskloof, Technopark)
- It is your democratic right to participate, to make your voice heard and to have your say on how your money should be spent.

DURBAN FLOODS

- Speaker, in the beginning of April KwaZulu-Natal faced devastating floods that severely damaged infrastructure, homes, roads and many people lost not only their possessions, but also loved once;
- I would like to ask everyone to keep the families and business owners in our thoughts and prayers as they, in many instances have to start over.

- Although we may be far removed from the devastation on the other side of the country, these are our fellow South Africans, our families, our friends and I ask that we keep them in our thoughts and prayers during this very difficult time.

RAMADAN

- The month of Ramadan will come to an end soon;
- I would like to use this opportunity to wish all our Muslim colleagues well in their preparation for their Eid Celebrations.
- May your Eid be full of love, laughter, and light. Eid Mubarak!

EASTER

- I also hope that everyone who celebrated Easter enjoyed a well-deserved break and had time to spend with family and friends.
- Ek glo dat hierdie vir u 'n tyd was waarin u opnuut opnuut verseker was van God se genade, liefde en verlossing.

HARVEST PARADE

- On Saturday, 9 April we once again hosted the Harvest Parade together with the Stellenbosch Wine Routes;
- This is always a highlight on our events calendar but something that hasn't occurred for 2 years due to the lockdown and restrictions on the gathering of people;
- Thank you very much for everyone who took part in the celebration, as well as everyone who was part of the planning and execution;
- Weereens baie geluk aan Kaapzight Wynplaas vir die span met die beste gees, en Beyerskloof Wynplaas vir die span met die beste vlot.

LOADSHEDDING

- South Africa's energy crisis is an economic crisis! It has become imperative for municipalities to start investing in alternate energy sources.
- Speaker, I am happy to report that on 6 April we installed the first solar panels on the main building roof;
- This is a big step for the municipality in our ongoing fight against the devastating effects of load shedding we have experienced again the past couple of weeks;
- This is an ongoing process and the rest of the panels will be installed at various municipal properties including the Town Hall Complex, administration buildings, the Van Der Stel Sport Grounds and the Beltana Municipal Depot;
- I received an update just yesterday that the installation of solar panels on the 5 municipal buildings is progressing very well and should be completed by the end of June.

WORKERS DAY

- On Monday 01 May our country will celebrate Workers Day;
- **You have the power to change this world if you have the power to work with commitment and dedication;**
- This holiday serves as a celebration of workers' rights and reminder of the fight for fair employment standards.

SPORT

- Gisteraand het Tukkies ons almal se harte in die doodsnikke van die Varsitybeker Eindstryd laat oortyd werk toe hulle 'n laat drie gedruk het om die toernooi te wen;
- Maties het deurlopend goed gespeel en voorgeloop en as oud-Matie moet ek self se....daai aangee het vir my maar ook bietjie vorentoe gelyk maar kom ons los dit daar;
- Dit was wonderlik om soveel studente, inwoners en gees by die Danie Craven Stadion te sien;
- Geluk met jul oorwinning, Tukkies en dankie vir 'n puik seisoen, Maties. Ons is baie trots op julle!
- Julle manne het ongelooflik mooi gespeel en ons is baie trots op julle. Dit was 'n puik seisoen en julle het die universitiet sowel as die dorp se naam hoog gehou soos wat jul week na week op die veld gedraf het.
- While we are busy talking about our town's sporting hero's, a special mention must also be made to the Stellenbosch Football Club, who secured 3 points on the PSL log after beating the mighty Kaizer Chiefs at the Danie Craven Stadium this past Saturday.

- What a remarkable achievement – dit maak mens sommer trots om jouself 'n Stellenbosser te noem. Sterkte vir die res van julle seisoen.

CLOSING

- With Freedom Day coming up tomorrow and Worker's Day being commemorated on 1 May, many residents will be taking a few extra leave days. For those who will be traveling for the long weekend, please be safe and enjoy the time spent with family and friends;
- Maya Angelo once said – **You will face many defeats in life, but never let yourself be defeated;**
- Keep chasing your dreams and continue to work hard for what you want.

Baie dankie, Thank you very much, Enkosi kakhulu."

3. COMMUNICATION BY THE SPEAKER

CENSUS

- Western Cape is substantially behind scheduled in data collection. As a result StatsSA has granted an extension in the Western Cape until 30 April 2022. Please encourage residents to be counted as this will directly impact our budget. Online link has been circulated to all Councillors

WESTERN CAPE LOCAL GOVERNMENT: CAPACITY BUILDING TRAINING

- The following 5 Councillors were nominated to take part in the WC LG Capacity Building Training during May 2022:
  1. Cllr R Pheiffer;
  2. Cllr I De Wet (Ms);
  3. Cllr O Jooste;
  4. Cllr A Ferns (Ms); and
  5. Cllr N Olayi.

  Nomination forms will be send to the above mentioned Councillors to submit by not later than the 28th of April 2022.

PUBLIC PROTECTOR REPORT

- The Speaker informed the meeting that the Public Protector's Report will only serve before Council after further engagements/discussions between the Public Protector and the Municipal Manager, for any additional submissions or addendums that might be added to the Report.

- All councillors were reminded that the Public Protector Report is a confidential document and must be treated as such.

- The Speaker congratulated everyone who celebrated their birthdays during the month of April.

4. COMMUNICATION BY THE MUNICIPAL MANAGER

"Good morning Honourable Speaker, Councillors as well as Colleagues and members of the public,

- "Freedom Day will be celebrated on 27 April. I would like to reflect on Tata Madiba's book, "A long road to Freedom". On one of the quotes on the book it reads: *"But I can only rest for a moment, for with freedom come responsibilities,*". As a nation we need to

realise that responsibility and take accountability, because as a municipality, a nation, a country, we are all responsible for the freedom we want to see one day.

- We are towards the end of Ramadan and I would like to encourage our Muslim citizens to use this time for reflection and I would like to wish them well and the best for next week when they celebrate Eid Mubarak.
- On 1 May we will celebrate May Day or Worker's Day as it is commonly known. This is not an ordinary day, it is a day that we cherish the extra ordinary people – the workers of Stellenbosch Municipality – and I salute you. Never underestimate the little responsibility that you have in terms of what you do and how that makes this machinery and municipality work to its best.
- Covid is still with us, the covid infections are rising, please make sure that you look after yourselves, take the necessary boosters, vaccinate and make sure that we look after our health..
- Last night was indeed very sad to see how Maties lost against Tukkies in the Varsity Cup, but to the team, please note that we can only grow from this. Lets just built on what we did last night.
- Our thoughts and prayers are with the people of KZN through this difficult time, we know that most of the infrastructure, health and disaster help is going to the people in KZN and if there are anybody that can assist, please do so, they are looking for bottled water. That can be delivered at our Fire Station which will find it's way to KZN.
- Congratulations to the Stellenbosch Football Club for winning the match against the mighty Kaizer Chiefs at the Danie Craven Stadium. It was indeed a memorable time, because it was the first in a long time that they played in Stellenbosch with spectators – what a show you gave us! Thank you, we are proud to be associated with you as a team!!
- For those that are going on leave this long weekend, please travel safely.

Thank you very much".

5. DISCLOSURE OF INTERESTS

NONE

6. APPLICATIONS FOR LEAVE OF ABSENCE

6.1 The following applications for leave of absence were approved in terms of the Rules Of Order By-law of Council:-

Cllr I De Taillerfer (Ms) – 26 April 2022
Cllr ZR Ndalasi – 26 April 2022
Cllr L Nkamisa – 26 April 2022

7. CONFIRMATION OF THE MINUTES OF THE PREVIOUS MEETING

7.1 3RD COUNCIL MEETING: 2022-03-30

The minutes of the 3rd Council Meeting: 2022-03-30 was **confirmed, subject to the following correction:**

Page 31: Change the word swap to swop.

8.	STATUTORY MATTERS

8.1	ADJUSTMENTS BUDGET FOR 2021/2022 ADDITIONAL ALLOCATION

Collaborator No: 728333
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 19 April 2022 and 26 April 2022

1. SUBJECT: ADJUSTMENTS BUDGET FOR 2021/2022 ADDITIONAL ALLOCATION

2. PURPOSE

To table the adjustments budget for the 2021/2022 financial year to Council for approval. The adjustments budget emanates from an additional allocation received from National Government.

3. DELEGATED AUTHORITY

Council has the delegated authority to revise an approved annual budget through an adjustments budget in terms of Section 28 of the Municipal Financial Management Act 56 of 2003.

4. EXECUTIVE SUMMARY

Additional allocation from National Government

Minister of Finance, Enoch Godongwana published, in accordance with sections 18 and 19 of the Division of Revenue Act, 2021 (Act No. 9 of 2021) as amended by the Division of Revenue Amendment Act 2021 (Act No. 17 of 2021) Government Gazette No 46095 on 25 March 2022. This Government Gazette included an additional allocation of R5.4million for Integrated National Electrification Programme (Municipal) Grant to be transferred to Stellenbosch Municipality, for the 2021/2022 financial year.

Other Allocations

A funding allocation letter was received from Cape Winelands District Municipality to Stellenbosch Municipality for the amount of R 484 000 for the CBD safety and parking project.

This adjustments budget addresses an adjustment in terms of section 28 (2) b of the MFMA and is further explained as required by section 28. Regulation 23 (3) of the Municipal Budget & Reporting Regulations (17 April 2009) also has reference.

Attached as **APPENDIX 1** is an executive summary by the Accounting Officer.

4TH COUNCIL MEETING: 2022-04-26: ITEM 8.1

RESOLVED (nem con)

(a) that the Adjustments Budget as prescribed by the Budgeting and Reporting Regulations, as set out in **APPENDICES 1 and 2** be approved; and

(b) that the Service Delivery and Budget Implementation Plan be adjusted accordingly inclusive of the non-financial information (performance measurement).

8.2	MFMA SECTION 52 REPORTING UP TO MARCH 2022

Collaborator No: 728337
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 19 April 2022 and 26 April 2022

1. SUBJECT: MFMA SECTION 52 REPORTING UP TO MARCH 2022

2. PURPOSE

To comply with section 52(d) of the Municipal Finance Management Act and report to Council on the budget; financial and service delivery budget implementation plan by the Municipality for quarter 3 of the 2021/22 financial year.

3. DELEGATED AUTHORITY

THE EXECUTIVE MAYOR TO SUBMIT TO COUNCIL

In terms of section 52 (d) of the Municipal Finance Management Act:

"The mayor of a municipality—

(d) must, within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget as well as the non-financial performance of the municipality;"

4. EXECUTIVE SUMMARY

The Executive Mayor must provide general political guidance over the fiscal and financial affairs of the Municipality and is required by Section 52(d) of the Municipal Finance Management Act to submit a report on the implementation of the budget and the financial and non-financial performance of the Municipality, to the Council within 30 days after end of each quarter.

The Section 52 report is a summary of the budget performance. It compares the implementation of the budget to the commitments made and contained in the Service Delivery and Budget Implementation Plan (SDBIP) and is intended to enable Council to give effect to their oversight responsibility.

This report provides the overall performance of the Municipality for the period 1 July 2021 to 31 March 2022.

4TH COUNCIL MEETING: 2022-04-26: ITEM 8.2

NOTED

the Section 52 Report (including Quarterly Performance Report) – Third Quarter.

8.3	OVERSIGHT ROLE OF COUNCIL: SUPPLY CHAIN MANAGEMENT POLICY-REPORT ON THE IMPLEMENTATION OF THE SUPPLY CHAIN MANAGEMENT POLICY OF STELLENBOSCH MUNICIPALITY: QUARTER 3 (01 JANUARY 2022 - 31 MARCH 2022)

Collaborator No: 728329
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 19 April 2022 and 26 April 2022

1. SUBJECT: OVERSIGHT ROLE OF COUNCIL: SUPPLY CHAIN MANAGEMENT POLICY-REPORT ON THE IMPLEMENTATION OF THE SUPPLY CHAIN MANAGEMENT POLICY OF STELLENBOSCH MUNICIPALITY: QUARTER 3 (01 JANUARY 2022 - 31 MARCH 2022)

2. PURPOSE

To submit to Executive Management a report for the period 01 January 2022 - 31 March 2022 on the implementation of Council's Supply Chain Management Policy. The report covers the performance of the various delegated functions and the implementation thereof.

3. FOR DECISION BY MUNICIPAL COUNCIL

Section 6 (3) & 4 of the SCM Policy 2021/2022, determines that the Accounting Officer must within 10 days at the end of each quarter; submit a report on the implementation of the SCM Policy to the Executive Mayor. This report must be made public in accordance with section 21A of the Municipal Systems Act (32 of 2000).

4. EXECUTIVE SUMMARY

On a quarterly basis the Accounting Officer must submit a report on the implementation of the Supply Chain Management Policy to the Executive Mayor. In terms of the SCM Regulations and Council's SCM Policy the SCM unit has been delegated to perform powers and functions that related to the procurement of goods and services, disposal of goods no longer needed, the selection of contractors to provide assistance in the provision of municipal services.

4TH COUNCIL MEETING: 2022-04-26: ITEM 8.3

NOTED

(a) the Supply Chain Management Policy-Report on the Implementation of the Supply Chain Management Policy of Stellenbosch Municipality: Quarter 3 (01 January 2022 - 31 March 2022); and

(b) that the report be made public in accordance with section 21A of the Municipal Systems Act.

8.4	MONTHLY FINANCIAL STATUTORY REPORTING: DEVIATIONS FOR MARCH 2022

Collaborator No: 728331
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 19 April 2022

1. SUBJECT: MONTHLY FINANCIAL STATUTORY REPORTING: DEVIATIONS FOR MARCH 2022

2. PURPOSE

To comply with Regulation 36(2) of the Municipal Supply Chain Management Regulations and Section 36 of the Supply Chain Management Policy 2021/2022 to report the deviations to Council.

3. DELEGATED AUTHORITY

Council

FOR NOTING.

4. EXECUTIVE SUMMARY

Regulation 36(2) of the Municipal Supply Chain Management Regulations and Section 36 of the Supply Chain Management Policy (2021/2022) stipulate that SCM deviations be reported to Council. In compliance thereto, this report presents to Council the SCM deviations that occurred during March 2022.

4TH COUNCIL MEETING: 2022-04-26: ITEM 8.4

NOTED

the following Monthly Financial Statutory Reporting: Deviations for March 2022:

DEVIATION NUMBER	CONTRACT DATE	NAME OF CONTRAC= TOR	CONTRACT DESCRIP= TION	REASON	SUBSTANTIATION WHY SCM PROCESS COULD NOT BE FOLLOWED	TOTAL CONTRACT PRICE R
D/SM 08/22	03 March 2022	PTV Africa (Pty) Ltd	Traffic signal synchronisatio n	Exceptional case and it is impractical or impossible to follow the official procurement processes	The Municipality in collaboration with the Stellenbosch University (SU) had developed a Traffic Engineering system that has the ability to adapt in real time to changing traffic patterns. Currently there are no service providers that have developed software (and related licensing) that meets the following requirements: • Ability to integrate transportation data with traffic engineering. • Ability to link with traffic signals and detectors on the roadways. • Ability to support operational traffic management by adapting in real time to changing traffic patterns.	R 1 899 473,40 (VAT Incl)

					Traffic Synchronization systems by current market providers are not able to integrate transport data with traffic engineering seamlessly (and in real time) and are not able to adapt traffic signals in real time to changing traffic patterns. The current market is therefore not able to meet the Municipality's needs.	
D/SM 09/22	10 March 2022	Van Vuuren Transformers (Pty) Ltd	Repairs to primary transformer 10MVA (66/11kV) no 1 at Jan Marais Substation	Emergency	Transferring all the Jan Marais load to other substations, should both transformers be out of service for some reason, the stability of the electricity network in the area will be severely compromised. This is due to other substations will be loaded to the maximum and might cause overloading problems on the cables supplying the Jan Marais areas. Due to the urgency of the matter an inspection was requested, and a quotation was requested from Van Vuuren Transformers PTY (LTD). Van Vuuren Transformers PTY (LTD) has been a service provider for transformer work in Stellenbosch areas and well known to the Department. It is considered that he would be able to speedily repair the transformer.	R 234 346,85 (VAT Incl)

The following Councillors requested that their dissent be noted:

Cllrs M Danana; N Mananga-Gugushe (Ms); E Masimini; R Nalumango (Ms); M Nkopane (Ms); N Ntsunguzi (Ms); M Rataza and A Tomose.

9.	REPORT BY THE MUNICIPAL MANAGER RE OUTSTANDING RESOLUTIONS

4TH COUNCIL MEETING: 2022-04-26: ITEM 9

NOTED

the report by the Municipal Manager re outstanding resolutions taken at previous meetings of Council.

11.2.1	**REPORT BACK ON THE REMOVAL OF RESTRICTIVE CONDITIONS AND FALL-BACK CLAUSE: ERF 6128, STELLENBOSCH**

Collaborator No:
IDP KPA Ref No: **Good Governance**
Meeting Date: **19 and 26 April 2022**

1. SUBJECT: REPORT BACK ON THE REMOVAL OF RESTRICTIVE CONDITIONS AND FALL-BACK CLAUSE: ERF 6128, STELLENBOSCH

2. PURPOSE

To report back on the mandate given by Council to enter into discussions with the Owners of Erf 6128 as well to request Council to consider a request for the removal of restrictive conditions from the Title Deed of erf 6128, Stellenbosch, to allow the owner to apply for the rezoning of the erf from Light Industrial to General Business Zone, in order to accommodate the planned retail shops and offices, as per their application.

3. DELEGATED AUTHORITY

The Municipal Council must consider the matter.

4. EXECUTIVE SUMMARY

The current owners of erf 6128, Stellenbosch bought the property in 2013 for an amount of R12 000 000. The property was registered in their name on 3 March 2014.

They have subsequently demolished the existing buildings, with the view of redeveloping the site for retail shops and offices which will service the community and upgrade the visual impact of the entrance to Stellenbosch.

With the submission of their building plans, they were, however informed that the property must first be rezoned from Light Industrial to General Business Zone to accommodate the proposed development. They have subsequently submitted a rezoning application to this effect, together with an application for the relaxation of the restrictive title deed conditions B.1 and 2, i.e. that the property may only be used for industrial purposes, failing which the property shall revert to the Municipality, subject to certain conditions. It should also be noted that the restriction on the title deed condition in terms of the fall-back clause is only applicable on a portion of the property. The proposed development also is in line with the Municipalities SDF.

The Planning and Development Department has requested that Council consider the matter, i.e. whether they are going to enforce the title deed conditions (buy back the property) or whether the conditions can be removed from the title deed of the erf.

Council at a Special in-committee meeting of 2021-09-29 item 12.4.2 mandated the Municipal Manager to enter into discussions with landowners to facilitate an amicable solution given by the buy-back clause. The Municipal Manager subsequently met with

the owner on 10 March 2022. An agreement, subject to council approval, was reached that an item will be re-submitted to Council to request Council to approve that the restrictive conditions contained in paragraph 2.B.1 and 2.B.2 of the title Deed T10083/2014, as set out in paragraph 6.2.1, be removed, subject thereto that the necessary processes set out in Section 33(4) of the Stellenbosch Land-use Planning By-law be followed.

The re-development of the property is in line with Council's approved SDF as well as the broader objectives of the IDP. It will service the Community of Stellenbosch, upgrade the visual impact of the entrance to Stellenbosch and help with the prevention of crime and security in the area. It should also be noted that the property is currently on the market to be sold.

4TH COUNCIL MEETING: 2022-04-26: ITEM 10.2.1

RESOLVED

that this matter be referred back to the Administration for further discussions.

11.4.1	PROPOSED SOCIAL HOUSING DEVELOPMENT OF FARM 81/2 AND FARM 81/9, STELLENBOSCH

Collaborator No: 728209
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 19 April 2022

1. SUBJECT: PROPOSED SOCIAL HOUSING DEVELOPMENT OF FARM 81/2 AND FARM 81/9, STELLENBOSCH

2. PURPOSE

To provide feedback on the professional studies that were conducted following the desktop / feasibility report which served before the 29th Council Meeting on 24 July 2019, Item 7.4.1 (see attached **ANNEXURE 1** – agenda item and minutes) in order to determine a more realistic developable area on Farm 81/2 and Farm 81/9.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Stellenbosch Municipality was identified by the Western Cape Provincial Administration as one of "Leader Towns" in the province that have the necessary capacity to partake in the Social Housing Programme.

Stellenbosch Municipality's Division Integrated Human Settlements is currently in process to commence with a process of granting long-term use rights to qualifying accredited entities (Social Housing Institutions (SHIs) and/or Other Development Agencies (ODAs)) on land identified and approved by the Municipality for the purpose of developing Social Housing estates.
Council approved, in principle that a Land Availability Agreement (long-term use rights) be entered into with Social Housing Institutions (SHIs) and/or Other Development Agencies (ODAs).

Notwithstanding the above, the Division Integrated Human Settlements can report on the following progress:

1) The Public Participation Process completed and approved by Council on 29 July 2020, Item 11.4.1;

2) Geotechnical assessment (attached as **ANNEXURE 2**), flood line determination (attached as **ANNEXURE 3**) and a Traffic Impact Assessment (TIA) (attached as **ANNEXURE 4**) investigation that has been completed during April 2021; and

3) The Request for Proposals for the appointment of a suitable Social Housing Institution (SHI) or Other Development Agency (ODA) is currently being finalised by the Department: Housing Development.

4TH COUNCIL MEETING: 2022-04-26: ITEM 10.4.1

RESOLVED (nem con)

(a) that the progress report be noted;

(b) that the yield as per the initial desktop study report be revised taking into account the subsequent specialist studies that were conducted;

(c) that a minimum of 250 (two hundred and fifty) Social Housing units with a concept density of low to medium 1 to 4 storey walk up buildings be considered as practical and feasible; and

(d) that Council approves in principle for the purpose of a tender process, the outcome of the developable area as identified following the investigations as depicted in figure 2.

Collaborator No:
IDP KPA Ref No: **Good Governance and Compliance**
Meeting Date: **19 April 2022**

1. SUBJECT: LEASING OF PARKING AREAS (CHECKERS/ STELMARK/ STELLENBOSCH MALL) TO RETAILERS ADJACENT TO THE PARKING AREAS APPROVAL OF INFORMATION STATEMENT

2. PURPOSE

To request approval from Council of the information statements following an in-principle council resolution to rent the parking areas at Pick -and- Pay and Checkers to the retail outlets mentioned for parking purposes

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Requests were received from the retailers situated at the mayor retail areas Pick-and-Pay, Checkers and Eikestad Mall Council that they will be willing to manage these areas whilst renting the properties. This follows on a process where the municipality managed these areas and it became clear that such an arrangement is not sustainable. Council review, rescind and amend the decision on 26 February 2020 to allow for the management of off-street parking at the two of the single level areas adjacent to the retail outlets of Pick and Pay, Checkers by the retail outlets at which these areas are situated. This decision is a pilot and after the advertising of council's intention to lease the areas and the management thereof to them for public for comment. The comments will be brought back to council before a final decision on the leasing and management of these areas by the proposed companies.

The Asset Transfer Regulations requires that the public participation process takes the form of an information statement that is published an that Council must approve. Attached hereto is the information statement for Council approval and before publication.

4TH COUNCIL MEETING: 2022-04-26: ITEM 10.5.1

RESOLVED (nem con)

that Council approves the Information statement.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

When Council constituted in November 2021 the rules of order By-law promulgated in July 2019 was approved to be used for meetings and it was further resolved that the Rules of Order By-Law must be revised before June 2022. The Rules committee met during February and March 2022 to discuss changes to the existing document. The draft revised Draft Rules of Order By-Law is attached indicating the changes through track changes.

Council's approval of the draft document is requested before it is advertised for public comment. All comments received will be discussed by the Rules Committee before the final draft revised By-law will be submitted to Council for consideration and promulgation.

4TH COUNCIL MEETING: 2022-04-26: ITEM 13.1

RESOLVED (nem con)

that the draft revised Stellenbosch Municipality Rules of Order By-law (**APPENDIX 1**) be advertised for public comments for 30 days, after which it be resubmitted to Council for final approval.

IDP KPA Ref No: **Good governance and Compliance**
Meeting Date: **26 April 2022**

1. FEEDBACK: RECRUITMENT AND SELECTION PROCESS OF THE DIRECTOR: INFRASTRUCTURE SERVICES: APPOINTMENT OF ACTING DIRECTOR INFRASTRUCTURE SERVICES

2. PURPOSE OF REPORT

To provide feedback to Council and to obtain Council's approval to appoint Mr Deon Louw as acting Director: Infrastructure Services after the termination of his contract on 30 April 2022.

3. DELEGATED AUTHORITY

Municipal Council

4. EXECUTIVE SUMMARY

The contract period of Mr Deon Louw, Director Infrastructure Services comes to an end on 30 April 2022. The post has been advertised for a second time Nationally. The 2nd round process has not been finalised and arrangements therefore needs to be made for an acting Director Infrastructure Services.

Mr Louw has been earmarked to take up a position as Project Manager in the Infrastructure Project Management Unit with specific attention to Project Manager: Energy Resilience Development. Stellenbosch has made strides in the development of alternative energy under the management of Mr Louw. Mr Louw is an electrical engineer, and the municipality would gain immensely from his expertise in the field. The project management position is a temporary contract, but he has indicated that he would be willing to act as Director: Infrastructure whilst the process to fill the position is continuing.

The Systems act (section 56(1)(a)(ii) makes provision that a person may be appointed by Council to act as a Manager directly accountable to the Municipal Manager provided that he/she has the necessary skills, qualifications and competencies. As Mr Louw has been appointed in the post of Director: Infrastructure for the past 5 years he possesses all of the above.

5. RECOMMENDATIONS

a) that Council takes note that Mr Deon Louw is appointed from the 1 May 2022 as project manager for the: Energy Resilience Development;

b) that Council take note the 2nd round recruitment process for director infrastructure has not been completed;

c) that Mr Deon Louw be appointed as acting Director: Infrastructure Services for a period of 3 months;

d) that should the post not be filled within the three months the Municipal Manager be mandated to apply to the MEC for a further acting period of 3 months for Mr Louw.

e) that Mr Louw be paid an acting allowance in accordance with Council's approved acting policy.

6. DISCUSSION / CONTENTS

6.1 Background

Council at a Special meeting on 2022-12-10 in item 10.1 resolved that the Municipal Manager may commence with the recruitment and selection process of the Director: Infrastructure Services position as the contract period of Mr Deon Louw, Director: Infrastructure Services comes to an end on 30 April 2022.

6.2 Discussion

A second round of advertisements were published in March 2022 with a closing date of 22 March 2022. The process is not finalised and as Mr Louw's contract comes to an end on 30 April 2022 an acting arrangement must now be put in place.

Mr Louw has been earmarked to take up a position as Project Manager in the Infrastructure Project Management Unit with specific attention to Project Manager: Energy Resilience Development. The project management position is a temporary contract, but he has indicated that he would be willing to act as Director: Infrastructure whilst the process to fill the position is continuing.

The Systems act (Section 56(1)(a)(ii) makes provision that a person may be appointed by Council to act as a Manager directly accountable to the Municipal Manager provided that he/she has the necessary skills, qualifications and competencies. As Mr Louw has been appointed in the post of Director Infrastructure for the past 5 years he possesses all of the above.

6.3 Financial Implications

The post is budgeted for. The costs for the acting allowance will be carried from the savings on the post of Director Infrastructure that will eb vacant from 30 April 2022.

6.4 Legal Implications

The content and recommendations comply with the provisions of the legislation and Council Policy.

6.5 Staff Implications

The post of Director Infrastructure services is vacant from 1 April 2022.

6.6 Previous / Relevant Council Resolutions

Special Council Meeting: 2021-12-10: Item 10.1 and 2nd Council Meeting: 2022-01-28: Item 13

SPECIAL COUNCIL: 2022-02-16: ITEM 8.11.4

RESOLVED (majority vote)

(a) that as recommended by Council approves the re-advertisement in order to continue recruitment and selection process of the Director Infrastructure Services; within the budgetary framework;

(b) that the advertisement indicates a minimum of 10 years and/or open a negotiated period for the preferred candidate;

(c) that the current selection panel remain unchanged to ensure continuity of the process;

(d) that the independent external consultant appointed to assist with the recruitment and selection process in line with abovementioned Regulations, Roy Steele and Associates CC, continue with the process;

(e) that should a suitably qualified candidate not be appointed during this round; the Municipal Manager be mandated to commence with the next round/s of the recruitment and selection process; and

(f) that should the recruitment and selection process not be finalised by the end of Mr Deon Louw's, the current Director Infrastructure Services, contract of employment, an Acting Director Infrastructure Service be appointed for 3 months, within the legal framework.

6.7 Risk Implications

The process of the recruitment and selection process has to be finalised to ensure stability and continuity within the organisation.

6.8 Comments from Senior Management

Comments from Departments are not applicable as this process is governed by Regulations. The appointment of a S56 Senior Manager is prescribed by law and only Council can consider the outcome of such process in deciding on whether to make an appointment or not.

4TH COUNCIL MEETING: 2022-04-26: ITEM 13.2

RESOLVED (majority vote)

(a) that Council takes note that Mr Deon Louw is appointed from the1 May 2022 as project manager for the: Energy Resilience Development;

(b) that Council take note the 2nd round recruitment process for director infrastructure has not been completed;

(c) that Mr Deon Louw be appointed as acting Director Infrastructure Services for a period of 3 months;

(d) that should the post not be filled within the three months the Municipal Manager be mandated to apply to the MEC for a further acting period of 3 months for Mr Louw; and

(e) that Mr Louw be paid an acting allowance in accordance with Council's approved acting policy.

13.3	ESTABLISHMENT OF APPEAL COMMITTEE (SECTION 62: SYSTEMS ACT)

Collaborator No:
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 26 April 2022

1. SUBJECT: ESTABLISHMENT OF APPEAL COMMITTEE (SECTION 62: SYSTEMS ACT)

2. PURPOSE OF REPORT

For Council to establish an Appeal Committee in terms of Section 62 of the Municipal Systems Act.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Section 62 of the Local Government Municipal Systems Act no 32/2000 as amended from time to time provides in section 62 a process for affected parties to deal with what they believe is an infringement of their rights by decisions through delegated authority. A copy of the extract of the section is attached as **APPENDIX 1.**

By virtue of the termination of the 2016-2021 Council's term of office, the former Section 62 Council Appeal Committee has dissolved, which necessitates the establishment of a new Appeal Committee. The item served before Council on 15 November 2021 and it was resolved to have the item stand over to a later date. As this committee deals with appeals in terms of section 62 (excluding Supply Chain matter appeals) we need to establish the committee to ensure that the committee is ready if and when appeals are registered.

4TH COUNCIL MEETING: 2022-04-26: ITEM 13.3

RESOLVED (majority vote)

(a) that Council establishes a Section 62 Appeals Committee which comprises of the following Councillors:

(i) DA: Cllr Q Smit;
(ii) DA: Cllr P Crawley (Ms);
(iii) DA: Cllr P Johnson;
(iv) DA: Cllr Pheiffer;
(v) ANC: Cllr M Nkopane (Ms)
(vi) ANC: Cllr M Danana; and
(vii) GOOD: Cllr M van Stade

(b) that Council appoints the Speaker, Cllr Q Smit as the Chairperson for the Section 62 Council Appeal Committee.

8.1	ADOPTION OF THE INTEGRATED DEVELOPMENT PLAN (IDP) AND BUDGET PROCESS PLAN FOR 2022 – 2027

Collaborator No: 729652
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 18 May 2022 & 25 May 2022

1. SUBJECT: ADOPTION OF THE INTEGRATED DEVELOPMENT PLAN (IDP) AND BUDGET PROCESS PLAN FOR 2022 – 2027

2. PURPOSE

To submit the following to Council for adoption the IDP and Budget Process Plan for 2022 – 2027, attached as **ANNEXURE A.**

3. DELEGATED AUTHORITY

Council.

4. EXECUTIVE SUMMARY

According to Section 28(1) of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), each municipal council must adopt a process set out in writing to guide the planning, drafting, adoption and review of its IDP after the start of its elected term within a prescribed period. With the local government election being concluded and the inauguration of the Council in November 2021, an IDP and Budget Process Plan 2022 – 2027 had to be drafted for the development of the new 5-year plan, the Fifth Generation IDP 2022 – 2027.

A Revised SDF / IDP / Budget Time Schedule for 2022/23 was approved by Council on 30 March 2022 to guide the planning, drafting and adoption of the Fifth Generation IDP 2022 – 2027. This in effect moved the adoption of the IDP and Budget Process Plan to May 2022. The approval and adoption of the IDP and Budget Process Plan are subjected to the adoption of the Cape Winelands District Municipality's (CWDM's) Integrated Development Planning District Framework (MSA S27 Framework) by the CWDM. The MSA Section 27 Framework was adopted by the CWDM Council on 28 April 2022. This was to ensure compliance and alignment between the MSA Section 27 Framework of the CWDM and the IDP and Budget Process Plan for 2022 – 2027 of the Stellenbosch Municipality.

The draft IDP and Budget Process Plan for 2022 – 2027 of the Stellenbosch Municipality has been published for public input and comments for a period of 21 days from 04 – 28 April 2022, however, no input or comments have been received on the draft Process Plan by the due date of 28 April 2022.

5. RECOMMENDATIONS

(a) that the IDP and Budget Process Plan 2022 – 2027 of the Stellenbosch Municipality to guide the planning, drafting, adoption and review of the Fifth Generation IDP 2022 – 2027 be adopted in terms of Section 28(1) of the MSA, attached as **ANNEXURE A; and**

(b) that an advertisement be placed on the official website of the municipality and in the local newspapers notifying the public that the IDP and Budget Process Plan 2022 – 2027 has been adopted by the Council.

6. DISCUSSION

6.1 Background

The IDP and Budget Process Plan 2022 – 2027 is compiled in terms of Sections 28 and 29(1) of the MSA; which specifies that:

Section 28:

(1) Each municipal council must adopt a process set out in writing to guide the planning, drafting, adoption and review of its IDP.

(2) The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.

(3) A municipality must give notice to the local community of particulars of the process it intends to follow.

Section 29(1):

The process must—

(a) be in accordance with a predetermined programme specifying timeframes for the different steps;

(b) through appropriate mechanisms, processes and procedures allow for—

(i) the local community to be consulted on its development needs and priorities;

(ii) the local community to participate in the drafting of the IDP; and

(iii) organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the integrated development plan;

(c) provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and

(d) be consistent with any other matters that may be prescribed by regulation.

The process set out below will be followed for the planning, drafting, adoption and review of the **Fifth Generation IDP 2022 – 2027**:

Phases	Time Frame	Tasks	Responsible
Analysis	September - October	**External Analysis** • Review sector plans and priorities implementation of sector plans recommendations.	All departments
		• Review / amendment of Spatial Development Framework.	Planning and Economic development
		• Socio-Economic Analysis. • Public participation: Community needs analysis and inputs.	IDP/PMS/PP Section
		Internal Analysis • Review Long Term Financial Plan. • IDP needs analysis.	Finance IDP/PMS/PP Section

Phases	Time Frame	Tasks	Responsible
Strategy and action	October – November	**Strategic Planning** MayCo and management consider the external and internal analysis and strategies around the 5-year development priorities and operational strategies (programmes / projects / activities and actions).	Executive Management Council
Project and programme Identification	November - December	Details of the possible solutions are discussed to determine what is needed (budget, timing, how long, when, by who).	Executive Management Senior Managers / Managers Project Managers
Integration	December – February	Identified projects are integrated and budgeted for through internal meetings. Intergovernmental alignment – align municipality strategy with national, provincial and district municipality development policies and planning instruments.	Executive Management / Senior Managers / Managers IDP/PMS/PP Section Financial Management Services
Approval	March – April	▪ Draft IDP is tabled at Council for approval. ▪ Consultation with the public and stakeholders on the draft IDP and Budget.	IDP/PMS/PP Section Council
	May	▪ Adoption of final IDP document and budget.	Council

The final Fifth Generation IDP 2022 – 2027 will be submitted to Council in May 2022 for consideration and adoption.

6.2 Financial Implications

There are no financial implications beyond that which was approved in the 2021/22 MTREF Budget.

6.3 Legal Implications

In accordance with Section 28(1):

(1) Each municipal council must adopt a process set out in writing to guide the planning, drafting, adoption and review of its IDP.

(2) The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.

(3) A municipality must give notice to the local community of particulars of the process it intends to follow.

Section 29(1) of the MS further specifies that:

The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must –

(a) be in accordance with a predetermined programme specifying timeframes for the different steps;

(b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for
  (i) the local community to be consulted on its development needs and priorities;
  (ii) the local community to participate in the drafting of the integrated development plan; and
  (iii) organs of state, including traditional authorities and other role players to be identified and consulted on the drafting of the integrated development plan;

(c) provide for the identification of all plan and planning requirements binding on the municipality in terms of national and provincial legislation; and

(d) be consistent with any other matters that may be prescribed by regulation.

In accordance with Section 21(b) of the MFMA "the mayor of a municipality must –

at least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for –

(i) the preparation, tabling and approval of the annual budget;
(ii) the annual review of-
  (aa) the integrated development plan in terms of section 34 of the Municipal Systems Act; and
  (bb) the budget-related policies;
(iii) the tabling and adoption of any amendments to the integrated development plan and budget-related policies; and
(iv) any consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).

Section 41 of the MSA also states that:

(1) A municipality must in terms of its performance management system and in accordance with any regulations and guidelines that may be prescribed –
  (a) set appropriate key performance indicators as a yardstick for measuring performance, including outcomes and impact, with regard to the municipality's development priorities and objectives set out in its integrated development plan".

6.4 Staff Implications

This report has no additional staff implications for the municipality.

6.5 Risk Implication

This report has no direct risk implications for the municipality.

6.6 Previous / Relevant Council Resolutions

None.

IDP Process Plan

Compiled in terms of

Section 28 and 29 of the Local Government: Municipal Systems Act, 2000
(Act No. 32 of 2000)

Adopted by Council on ……

The Integrated Development Plan (IDP) is a municipality's principal strategic plan that deals with the most critical development needs of the municipal area (external focus) as well as the most critical governance needs of the organisation (internal focus).

The **Integrated Development Plan**–

- is adopted by the council within one year after a municipal election and remains in force for the council's elected term (a period of five years);
- is drafted and reviewed annually in consultation with the local community as well as interested organs of state and other role players;
- guides and informs all planning and development, and all decisions with regard to planning, management and development;
- forms the framework and basis for the municipality's medium term expenditure framework, annual budgets and performance management system; and
- seeks to promote integration by balancing the economic, ecological and social pillars of sustainability without compromising the institutional capacity required in the implementation, and by coordinating actions across sectors and spheres of government.

1. Introduction and Background

1.1 Purpose of the 5th Generation IDP Process Plan / Time Schedule

Integrated development planning is the key tool for local government to manage with its role and function in terms of the SA Constitution and other applicable legislation. In contrast to the role municipal strategic planning has played in the past, integrated development planning is seen as a function of municipal management, as part of an integrated system of planning and delivery.

The Integrated Development Plan (IDP) Process Plan / Time Schedule is the first process of the newly elected Council that paves the way and articulates the progressive activities and processes which the municipality will embarked on in the drafting, adoption, and review of its 5th Generation Integrated Development Plan (IDP) for the implementation period 2022 – 2027. The process plan enhances integration and alignment between the IDP and the Budget, thereby ensuring the development of an IDP-based budget.

To ensure certain minimum quality standards of the IDP, and proper coordination between all stakeholders, including the Council, administration, different spheres of government, institutional structures, ward committees and various community-based organisations, the preparation of the Process Plan / Time Schedule has been regulated in the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA).

The IDP Process Plan incorporates all municipal planning, budgeting, performance management, performance reporting and public and stakeholder engagement processes. The preparation of a Process Plan, which is the IDP Process set out in writing, requires the adoption by Council. This plan has to include the following:

- A **programme** specifying the time frames for the different planning steps;
- Appropriate **mechanisms, processes and procedures** for consultation and participation of local communities, organs of state, traditional authorities and other role players in the IDP drafting process;
- An indication of the **organisational arrangements** for the IDP process;
- **Binding plans and planning requirements**, i.e. policy and legislation; and
- Mechanisms and procedures for **vertical and horizontal alignment**.

1.2 Area of the IDP

The IDP will be applicable to the Stellenbosch Municipal Area which includes the following towns and settlements: Jamestown, Raithby, Vlottenburg and surrounding areas, Franschhoek area, Groendal, Mooiwater, La Motte, Wemmershoek, Lanquedoc, Pniël, Johannesdal, Kylemore, Stellenbosch (Cloetesville, Ida's Valley, Central Town, Kayamandi and surrounding farms), Klapmuts, De Novo and surrounding farm areas. Stellenbosch covers an area of approximately 900 km².

1.3 Preparation for the process

The Process Plan should encapsulate the following:

- The relationship between the District Framework, Process Plan and Time Schedule;
- The distribution of roles and responsibilities in the IDP development process;
- Institutional arrangements for the process;
- Mechanisms for public participation;
- Specific activities to be undertaken with timeframes and resources requirements;
- Mechanisms and procedures for alignment with external stakeholders; and

- Relevant and binding planning and policies requirements at national and provincial spheres.

1.4 Relationship between the District Framework / Process Plan / Time Schedule

The objective of the District Framework (Section 27 Framework) is to ensure that the district and local municipalities in a specific demarcated area, as well as the National and Provincial planning processes are mutually linked to inform and complement each other, thereby culminating into a regulatory framework which seeks to direct efficient, effective and economically driven planning initiatives and innovations in response to the prevailing socio-economic realities through accurate, credible and sustainable resource allocation.

The table below serves to provide a high - level distinction between the IDP District Framework, IDP Process Plan / Time Schedule adopted in terms of section 21 of the MFMA.

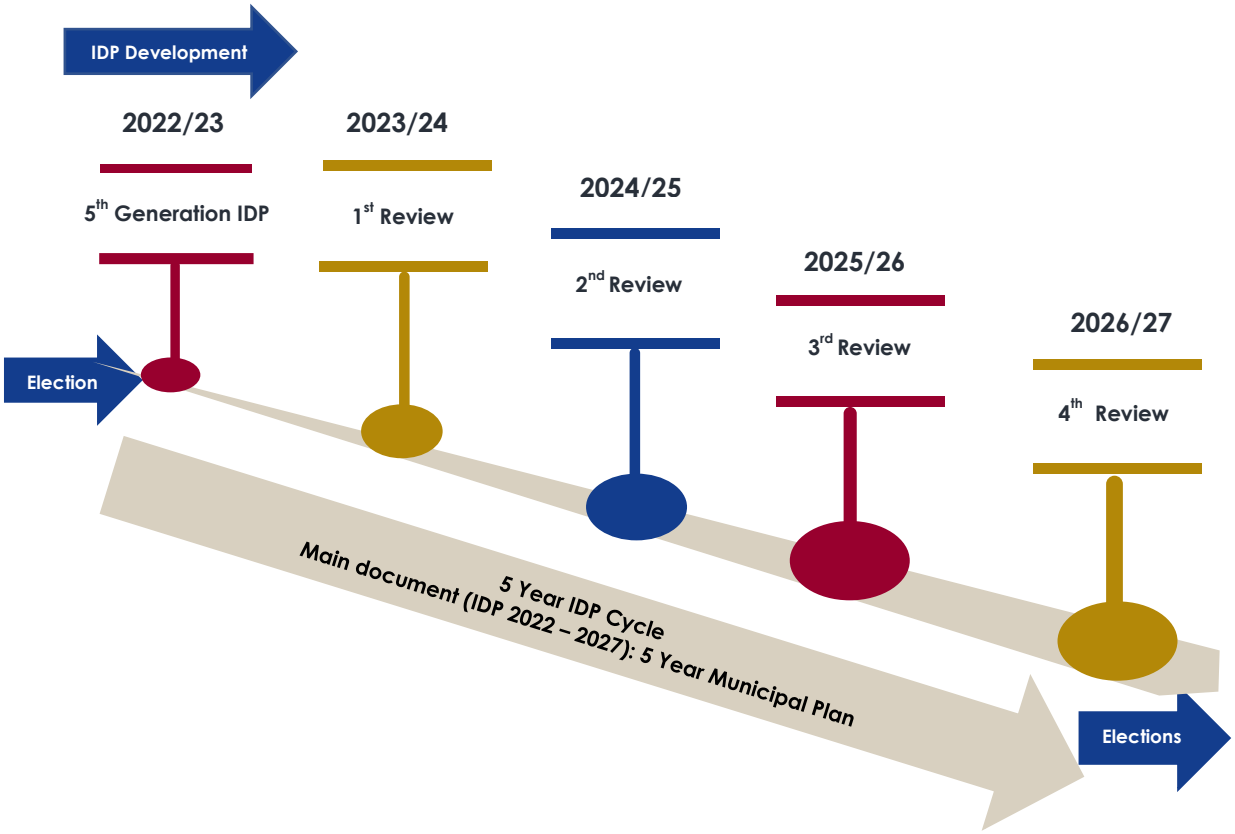

Table 1: Relationship between District Framework, Process Plan and Time Schedule

District Framework	Process Plan (Five Year)	Time Schedule (Annually)
The **District Framework** in accordance with section 27 of the MSA must be adopted by the district municipality within a prescribed period after the start of its elected term. The Framework, amongst others, obligates both the district and the local municipalities in its area on binding legislation, IDP matters which require alignment and procedures for consultation during the process of drafting their respective IDPs.	The **IDP Process Plan** in accordance with section 28 of the MSA is a process that is set out in writing to guide the planning, drafting, adoption and review of its initial 5-year IDP after the start of Council's elected term. It contain events to be undertaken in the process of developing the actual IDP and supporting IDP processes of the Local municipalities to ensure alignment.	In accordance with section 21 of the MFMA the Council must adopt a **Time Schedule** outlining key deadliness for the tabling and adoption of the annual review / amendment of the IDP, any amendments to the IDP and consultative processes which form part of the annual IDP and Budget review.

	May	Adoption of final IDP document and budget.	Council

3. Legal Context

3.1 IDP Process Plan / Time Schedule

In accordance with the MSA, Section 28:

(a) Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan;
(b) The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process; and
(c) A municipality must give notice to the local community of particulars of the process it intends to follow.

Section 29(1) of the MSA prescribes that:

The process must –
(a) be in accordance with a predetermined programme specifying timeframes for the different steps;
(b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for –
    (i) the local community to be consulted on its development needs and priorities;
    (ii) the local community to participate in the drafting of the integrated development plan; and
    (iii) organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the integrated development plan;
(c) provide for the identification of all plans and planning requirements binding on the municipality in terms of national and provincial legislation; and
(d) be consistent with any other matters that may be prescribed by regulation.

3.2 Integrated Development Plan (IDP)

The MSA obligates all municipalities to undertake a process of preparing and implementing IDPs. According to Chapter 5 and Section 25(1) of the MSA.

Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, all-inclusive and strategic plan for the development of the municipality which;

(a) Links integrates and coordinates plans and considers proposals for the development of the municipality;
(b) Aligns the resources and capacity of the municipality with the implementation of the plan;
(c) Complies with the provisions of this Chapter; and
(d) Is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

In terms of Section 32 of the MSA:

A municipal council must

(a) review its Integrated Development Plan
    (i) annually in accordance with an assessment of its performance measurements in terms of section 41;
    (ii) to the extent that changing circumstances so demand;
(b) may amend its integrated development plan in accordance with a prescribed process.

3.3 Annual Budget

The Annual Budget and the IDP are inextricably linked to one another, this has been formalised through the promulgation of the Local Government: Municipal Finance Management Act, 2003 (Act No.56 of 2003) (MFMA) and the related budget regulations. Therefore, it is important that the Budget and IDP processes be coordinated in a manner that will ensure that the IDP and budget related policies and the final budget are mutually consistent and credible. Credibility refers to the municipality's ability and capacity to spend and deliver services in accordance with its approved budget.

Chapter 4 and Section 21(1) of the MFMA indicates that:

The Mayor of a municipality must;

At least 10 months before the start of the budget year, table to the municipal council a time schedule outlining key deadlines for –

(i) The preparation, tabling and approval of the annual budget;
(ii) The annual review of -
(aa) The integrated development plan in terms of section 34 of the Municipal Systems Act; and
(bb) the budget-related policies.
(iii) The tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and
(iv) The consultative processes form part of the processes referred to in subparagraphs (i), (ii) and (iii).

3.4 The Service Delivery and Budget Implementation Plan (SDBIP)

The Service Delivery and Budget Implementation Plan (SDBIP) is an implementation plan of the approved IDP and Medium-Term Revenue and Expenditure Framework (MTREF). Therefore, only

projects that are budgeted for are implemented. The SDBIP serves to address the development objectives as derived from the approved IDP.

Section 1 of the MFMA defines the SDBIP as:

"a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include (as part of the top-layer) the following:

(a) projections for each month of-
    (i) revenue to be collected, by source; and
    (ii) operational and capital expenditure, by vote;
(b) service delivery targets and performance indicators for each quarter"

3.5 Spatial Development Framework (SDF)

In terms of Section 20(2) of the Spatial Planning and Land Use Management Act, 2013 (Act No. of 2013) (SPLUMA) a municipal SDF must be prepared as part of the municipal IDP.

This preparation for the IDP compilation process is a task of municipal management. Individual tasks may be delegated but the process remains the accountability of the Management Team.

4. Annual Review and Amendment Process of the Integrated Development Plan

MSA Section 34: Annual review and amendment of integrated development plan:

A municipal council must review its integrated development plan-

(a) annually in accordance with an assessment of its performance measurements in terms of section 41; and
(b) to the extent that changing circumstances so demand; and may amend its integrated development plan in accordance with a prescribed process.

4.1 Review

On an annual basis, municipalities are required to review how they have performed against the pre-determined objectives outlined in the IDP. This is a form of institutional performance review and will inform how the municipality adjusts its focus and operations to meet the targets. If there are minor adjustments, there is no need to formally amend the IDP.

4.2 What the review is not

- The Review is not a replacement of the 5-year IDP; and
- The Review is not meant to interfere with the long-term strategic orientation of the municipality to accommodate new changes and additional demands.

4.3 Amendment

Within the term of office, a municipal IDP may need to be amended when there have been significant unexpected changes within the municipality that require a reorganisation of the municipal priorities and budgets. It is noted that IDP amendments should only be required under exceptional circumstances and should not be done without significant justification. The process for amending a municipal IDP is laid out in section 3 of the regulations and is similar to that of adopting a new IDP.

Table 3: Process to amend IDP

Review	
Council to review the IDP based on: a) Assessment of performance measures; and b) Demand based on changing circumstances.	Annually
Amendment (if required)	
a) A council member or committee introduces a proposal to amend the IDP; b) A memo detailing the reasons to amend; c) Give reasonable notice to members of council; d) Publish proposed amendment for 21 days; e) Consultations between the district and locals; and f) Council adopt the IDP.	If / when required

5. Components for inclusion in the IDP document

The following key components to be included in the 5th Generation IDP 2022 – 2027:

5.1 Legally required content

Section 26 of the MSA: Core components of integrated development plans

An integrated development plan must reflect-

(a) the municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
(b) an assessment of the existing level of development in the municipality, which must include an identification of communities that do not have access to basic municipal services;
(c) the council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;
(d) the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
(e) a spatial development framework which must include the provision of basic guidelines for a land-use management system for the municipality;
(f) the council's operational strategies;
(g) applicable disaster management plans;
(h) a financial plan, which must include a budget projection for at least the next three years; and
(i) the key performance indicators and performance targets determined in terms of section 41.

Regulation 2 of the 2001 Municipal Planning and Performance Management Regulations: Detail of integrated development plan

(1) A municipality's integrated development plan must at least identify-
  (a) the institutional framework, which must include an organogram, required for-
    (i) the implementation of the integrated development plan; and
    (ii) addressing the municipality's internal transformation needs, as informed by the strategies and programmes set out in the integrated development plan;
  (b) any investment initiatives in the municipality;
  (c) any development initiatives in the municipality, including infrastructure, physical, social, economic and institutional development;
  (d) all known projects, plans and programmes to be implemented within the municipality by any organ of state; and
  (e) the key performance indicators set by the municipality.

(2) An integrated development plan may-

(a) have attached to it maps, statistics and other appropriate documents; or

(b) refer to maps, statistics and other appropriate documents that are not attached, provided they are open for public inspection at the Offices of the municipality in question.

(b) A financial plan reflected in a municipality's integrated development plan must at least-

(a) include the budget projection required by section 26(h) of the Act;

(b) indicate the financial resources that are available for capital project developments and operational expenditure; and

(c) include a financial strategy that defines sound financial management and expenditure control, as well as ways and means of increasing revenues and external funding for the municipality and its development priorities and objectives, which strategy may address the following:

(i) revenue-raising strategies;

(ii) asset management strategies;

(iii) financial management strategies;

(iv) capital financing strategies;

(v) operational financing strategies; and

(vi) strategies that would enhance cost-effectiveness.

(3) A spatial development framework reflected in a municipality's integrated development plan must-

(a) give effect to the principles contained in Chapter 1 of the Development Facilitation Act, 1995 (Act No. 67 of 1995);

(b) set out objectives that reflect the desired spatial form of the municipality;

(c) contain strategies and policies regarding the manner in which to achieve the objectives referred to in paragraph (b), which strategies and policies must-

(i) indicate desired patterns of land use within the municipality;

(ii) address the spatial reconstruction of the municipality; and

(iii) provide strategic guidance in respect of the location and nature of development within the municipality.

(d) set out basic guidelines for a land use management system in the municipality;

(e) set out a capital investment framework for the municipality's development programmes;

(f) contain a strategic assessment of the environmental impact of the spatial development framework;

(g) identify programmes and projects for the development of land within the municipality;

(h) be aligned with the spatial development frameworks reflected in the integrated development plans of neighbouring municipalities; and

(i) provide a visual representation of the desired spatial form of the municipality, which representation -

(i) must indicate where public and private land development and infrastructure investment should take place;

(ii) must indicate desired or undesired utilisation of space in a particular area;

(iii) may delineate the urban edge;

(iv) must identify areas where strategic intervention is required; and

(v) must indicate areas where priority spending is required.

5.2 Proposed table of contents for the 5th Generation IDP 2022 – 2027

The table below is a proposed table of contents for the IDP:

Table 4: Proposed table of content

Heading/s	Content
Governance and Institutional arrangements	Context Integrated development planning Legal status of the IDP Fifth Generation IDP Relationship between the IDP, budget, performance management and risk management The IDP and ward-based plans The planning processes The Council, MayCo and Executive Management
State of the Greater Stellenbosch	Socio-economic analysis of the municipal area Clear development vision
Vision, Objectives and Strategies	Strategic Policy Context; and Alignment with national and provincial objectives
Spatial Development Framework	An indication of the spatial pattern of development in the municipality – this should provide a spatial summary of the problems, opportunities, strategies and programmes and must reflect the SDF
One Plan	This section details the capital budget and programmes of other spheres of government-aligned to the IDP objectives of Stellenbosch Municipality
Term projects, programmes and initiatives	Summary of the key projects, programmes and initiatives identified by the Executive Mayor and MayCo that is aligned to IDP objectives and sector plans of Stellenbosch Municipality
Sector Plans and Implementation	Sectoral plans and implementation of strategies Sector plan alignment
Community Participation	Public expression and needs identification of the community and stakeholders
Financial Plan	A strategic framework for financial management, key financial policies and strategies are outlined in this section. To provide an overview of the 3-year municipal budget, as well as analysis and explanation thereof. To provide insight on the allocated funds for operations and maintenance costs of municipal fixed assets. To give an overview of the projects with committed funding, which are not on the municipal budget but from other service providers (MTREF allocations inclusive of sector departments' allocations / projects).
Organisational Scorecard; 5 years and 1 year	Contains Council's development objectives, strategies, indicators, and targets for the entire term of Council. One-year implementation plan – Service Delivery Budget Implementation Plan (SDBIP).

6. Matters, Mechanisms and Procedures for Alignment and Consultation

6.1 Horizontal and Vertical Alignment

- **Framework / Process Plan:** In terms of Chapter 5, Section 26 of the MSA, District Municipalities are required to prepare and adopt a Framework Plan, which indicates how the District and Local Municipalities will align their IDPs. The Framework Plan provides the linkage and binding relationships to be established between the district and local municipalities in the region and in so doing, proper consultation, coordination and alignment of the IDP process within the district and the various local municipalities can be maintained.

- **Sector Department alignment:** This is essential to ensure that the district and local municipalities' priorities are reflected in the different provincial departments' project prioritisation process and in turn, that the provincial department's projects are reflected in the IDP. Regular and strategic meetings with the Sector Departments would be required during the different phases of the IDP Review.

- **Horizontal / Vertical alignment:** This focus on addressing issues at both District and Local municipal levels, while vertical alignment will focus on issues that affect the municipalities from the National and Provincial departments, and other organisations. Planning, therefore, needs to be informed by all stakeholders in order to effectively and efficiently allocate resources.

- Mechanisms that will ensure alignment of matters between the Cape Winelands District Municipality and Stellenbosch Municipality will be done by way of participating in the District IDP Managers Forum and the District Public Participation Forum.

6.2 Intergovernmental Relations (IGR) Structures

The following IGR structures will be utilised to drive the IDP processes in joint planning initiatives with CWDM:

- District IDP Managers Forum;
- District Public Participation Forum;
- Joint District Metro Approach;
- District Co – ordinating Forum (DCF);
- Municipal Managers Forum; and
- Provincial IDP Indaba's, MGRO, LGMTEC and Indaba Working Group.

6.3 Binding plans, planning requirements and policy on National, Provincial and Local Level

The Integrated Development Planning process is guided by a number of legal and policy documents that impose a range of demands and requirements on the Municipality. The list below contains some of the most important IDP source documents:

6.3.1 Acts

- Constitution of the Republic of South Africa, Act 108 of 1996
- Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (MSA)
- Local Government: Municipal Structures Act, 117 (Act 117 of 1998) (MSA)
- Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003)

- Disaster Management Act, 2002 (Act 57 of 2002)
- Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013)
- The Housing Act, 1997 (Act 107 of 1997)

6.3.2 Policy Frameworks

The following policy frameworks must be taken into consideration throughout the planning, development, adoption, implementation and Performance Management processes of the municipal IDPs within the Cape Winelands region. In addition, policy directives across the spheres of government also need to be considered, namely:

- The State of the Nation Address;
- The State of the Province Address;
- Sustainable Development Goals;
- National Development Plan;
- Medium Term Strategic Framework;
- Provincial Strategic Plan;
- National Spatial Development Plan (NSDP);
- Provincial Spatial Development Framework; and
- One Plan outcomes.

6.3.3 Municipal Sector Plan

- Environmental Management Plans
- Air Quality Management Plan;
- Integrated Human Settlements Plan (Housing Pipeline);
- Comprehensive Integrated Transport Plan (CITP);
- Integrated Waste Management Plan (IWMP);
- Electrical Master Plan;
- Water Services Development Plan (WSDP);
- Long Term Water Conservation and Water Demand Management Strategy;
- Safety and Security Strategy;
- Local Economic Development Strategy;
- Disaster Management Plan;
- Community Development Strategy;
- Human Resources Strategy; and
- Information Communication Technology Strategy.

6.3.4 Planning Tools

- Key Performance Areas and targets;
- IDP District Framework and Process Plan;
- Joint District and Metro Approach planning initiatives; and
- Public participation programmes.

6.3.5 The Municipality to also consider the following documents:

- Cape Winelands District Municipality: Integrated Development Plan;
- Spatial Development Framework;
- Existing approved Water Services Plans;
- Existing approved Disaster Management Plans; and
- One Plan outcomes.

7. Roles and Responsibilities in the IDP Process Plan

One of the prerequisites of a well organised IDP process is for all role players to be fully aware of their own as well as other role player's responsibilities. This section deals with the roles which the municipality has to play in the IDP and Budget processes in relation to the roles which external role players are expected to play.

7.1 Roles and Responsibilities within Government Spheres

Table 5: Roles and responsibilities within government spheres

Role Player	Roles and Responsibilities
Stellenbosch Municipality	↓ Prepare and adopt the IDP Process Plan. ↓ Undertake the overall management and co-ordination of the IDP process which includes ensuring that: - all relevant role-players are appropriately involved; - appropriate mechanisms and procedures for community participation are applied; - events are undertaken in accordance with the approved time schedule; - the IDP relates to the real burning issues in the municipality; and - the sector planning requirements are satisfied. ↓ Prepare and adopt the IDP. ↓ Adjust the IDP in accordance with the MEC's proposal. ↓ Ensure that the annual business plans, budget, and performance management system are linked to and based on the IDP.
Cape Winelands District Municipality	↓ Prepare the IDP District Framework (MSA, Section 27 Framework), as a mechanism to ensure alignment and integration between IDP's. ↓ Ensure alignment of the IDP between the municipality and the district municipality (Integrated District and Local Planning). ↓ Fulfilling a co-ordination and facilitation role in respect of ensuring alignment between district and local planning within the region. ↓ Preparation of joint strategy workshops between municipality, provincial and national government. ↓ Facilitate engagements and planning sessions on district wide development and service delivery matters. ↓ Coordinate District Public Participation and Integrated Development Planning engagements to share information and best practices.
Western Cape Provincial Government (IDP Directorate) & Western Cape Provincial Treasury	↓ Ensure horizontal alignment of the IDP between the municipality and the district municipality. ↓ Ensuring vertical and sector alignment between provincial sector departments/ provincial strategic plans and the IDP process at the local / district level. ↓ Facilitate SIME and LGMTEC and Joint Planning Interventions. ↓ Guiding the provincial sector departments' participation in and their required contribution to the municipal IDP process; and ↓ Guiding them in assessing draft IDPs and aligning their sector programmes and budgets with the IDPs. ↓ Efficient financial management of Provincial IDP grants. ↓ Monitor the IDP progress. ↓ Provide guidance to municipalities in compiling the IDP. ↓ Coordinate and manage the MEC's assessment of the IDP. ↓ Provide IDP related training where required. ↓ Share best practices in relation to the IDP document content, strategic alignment, and spatial mapping. ↓ Provincial Treasury must provide views and comments on the draft budget and any budget-related policies and documentation for consideration by the council when tabling the budget. ↓ Conduct Medium Term Revenue and Expenditure Framework (MTREF) budget and IDP assessment.
National Government	↓ National Treasury issues guidelines on the manner in which municipal councils should process their annual budgets, including guidelines on the formation of a committee of the council to consider the budget (Section 23(3) of the MFMA).

Role Player	Roles and Responsibilities
	▪ Assessments of IDP, Budget and SDBIP.

7.2 Roles and Responsibilities of Political Office Bearers and Ward Committees

Table 6: Roles and responsibilities of political office bearers and ward committees

Role Player	Roles and Responsibilities
Council	▪ Approve and adopt the process and framework plans, as well as IDP and budget. ▪ Monitor the implementation and approve any amendments of the plan when and if required.
Executive Mayor and Mayoral Committee	▪ Consider the IDP and Budget timetable and Process Plan and submit to Council for approval. ▪ The Mayor must at least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget, the annual review of the IDP and budget-related policies, the tabling and adoption of any amendments to the IDP and budget-related policies and consultative processes. (MFMA section 21(1)(b)). ▪ Overall management, coordination and monitoring of the IDP process. ▪ Assign and delegate responsibilities in this regard to the Municipal Manager. ▪ Submit the draft IDP to Council for approval. ▪ Submit final IDP and Budget to Council for adoption. ▪ Provide political guidance in IDP and Budget (in terms of section 53(a) of the MFMA. ▪ Exercise close oversight on Budget Preparation Process.
Speaker	▪ Overall monitoring of the public participation processes. ▪ Oversight of the ward committee system.
Ward Councillors	▪ Form a link between the Municipality and residents. ▪ Assist to communicate the IDP process to their respective wards. ▪ Play an active role during public consultation and participation. ▪ Monitor the implementation of the IDP with respect to their wards. ▪ Provide feedback to their communities on the adopted IDP, Budget and SDBIP. ▪ Encourage residents to take part in the IDP process.
Ward Committees	▪ Assist the ward councillor in identifying the challenges and needs of residents. ▪ Provide a mechanism for discussion and negotiation between the stakeholders within the ward. ▪ Advise and make recommendations to the ward councillor on matters and policy affecting the ward. ▪ Disseminate information in the ward. ▪ Ensure constructive and harmonious interaction between the Municipality and community. ▪ Interact with other forums and organisations on matters affecting the ward. ▪ Draw up a ward plan that offers suggestions on how to improve service delivery in their respective ward. ▪ Monitor the implementation process concerning its area.

7.3 Roles and Responsibilities of the Administration

Table 7: Roles and responsibilities of Administration

Role Player	Roles and Responsibilities
Municipal Manager	▪ Managing the entire IDP process as assigned by the Executive Mayor. ▪ Fulfil the duties of the Accounting Officer as set out in Sections 68 and 69 of the MFMA.
Chief Financial Officer	▪ The CFO must perform such budgeting duties as delegated by the accounting officer. (MFMA section 81(e).

Role Player	Roles and Responsibilities
Directors / Senior Managers / Managers	▪ Provide technical, sector and financial information for analysis for determining priority issues, throughout the IDP Budget process. ▪ Provide technical expertise in consideration and finalisation of strategies and identification of projects. ▪ Provide departmental, operational, and capital budgetary information. ▪ Preparation of project proposals, integration of projects and sector programmes.
Manager: IDP, Performance Management and Public Participation	▪ Prepare an IDP process plan and monitor the timeous implementation thereof. ▪ Day to day management and coordination of the IDP process. ▪ Ensure stakeholder engagement in the IDP process by organising meetings for engagement. ▪ Ensure that the IDP process is participatory and that planning is ward-based oriented. ▪ Respond to public and MEC comments on Draft IDP and SDBIP. ▪ Compilation of comprehensive and presentable IDP document that complies with all legislative requirements. ▪ Amend the IDP document in accordance with the comments of the MEC.
Senior Manager / Manager: Financial Management Services	▪ Responsible for the Management, planning and compilation of Budget. ▪ Day to day management and coordination of the Budget process.

8. Public Participation: IDP Process

8.1 Public Participation

The Stellenbosch Municipality will create appropriate mechanisms and procedures as in accordance with Chapter 4 of the MSA for continuous engagement and communication with the local community, stakeholders and interested parties.

8.2 Communication Approach

Utilising multi-lingual media outlets is an effective and established way in which Stellenbosch Municipality informs the local community on the municipality's public participation efforts and on how to get involved in proposed municipal projects.

The following communication methods and strategies will be used during the public participation process:

- Municipal website;
- Social media;
- Stellenbosch Citizen App;
- SMS Notifications;
- WhatsApp Notifications;
- Email; and
- Online Public Meetings.

8.2.1 Municipal Website

The municipal website will be the official online platform to publish public participation notices and information on engagements.

8.2.2 Social Media

The Stellenbosch Municipality have two social media accounts, Facebook and Twitter. Both platforms are primarily used to share municipal information on a regular basis. Said platforms are also used to

do marketing campaigns and or to create public awareness around issues pertinent to the business of the municipality.

Facebook and Twitter will be used to inform residents of the public participation process and the means available to the community, businesses, and stakeholders to participate in the development, review and or amendment of the **5th Generation IDP 2022 – 2027**.

General information regarding the importance of public participation will be conveyed regularly on social media posts and on the municipal website. In these information pieces, members of the community will be encouraged to participate in the public participation process.

8.2.3 Stellenbosch Citizen App

The Stellenbosch Citizen App will also be utilised to solicit public input during public participation processes. Residents will be offered the opportunity to submit their inputs on the IDP remotely via **cell phone** or **computer**.

8.2.4 SMS Notifications

The municipality has a vast database of cell phone numbers accumulated over a number of years through its public participation efforts.

In addition, the cell phone number on the accounts and complaints database will also be used to inform the local community of the municipality's public participation efforts.

8.2.5 WhatsApp Notifications

Technology has been heralded to connect people to their local government, improve public participation, and hold governments to account.

In a resource-constrained context, existing technologies such as social media and WhatsApp can serve as direct lines between the municipality and the local community and equitably surface the needs of the community; not just those with "inside access" — reinforcing an inclusive and actionable dialogue between the municipality and its residents.

In contrast to SMS messaging, WhatsApp messaging is more cost-effective and multi-faceted in its application. It can send location data, messages and large attachments at a fraction of the cost.

WhatsApp messaging will also be harnessed to broaden the municipality's reach, especially the rural community within the Stellenbosch Municipal area.

8.2.6 Email

Stellenbosch Municipality has a vast database of email addresses accumulated over a number of years through its public participation engagements. This database is regularly updated to add additional new email addresses. Emails will be used to keep the community informed about public participation engagements and platforms for engagements.

8.2.7 Virtual Public Meetings and Stakeholder Engagements

New public participation methods have broadened the municipality's ability to reach its community and other stakeholders in a more efficient and effective manner. Therefore, online / hybrid public participation meetings for the respective wards / areas will be used as a platform for public participation engagements.

9. Conclusion

The 2022 – 2027 IDP and Budget Process Plan will guide the planning, drafting, adoption and review of Stellenbosch Municipality's IDP, including any related planning instruments as envisaged in Section 28(1) of the MSA.

1. INTRODUCTION

Section 27(1) of the Local Government: Municipal Systems Act, 2000 (Act32 of 2000), states that:

"Each district municipality, within a prescribed period after the start of its elected term and after following a consultative process with the local Municipalities within its area, must adopt a framework for integrated development planning in the area as a whole."

The Cape Winelands District Municipality (CWDM) is responsible for drafting the District IDP Framework Plan, a mechanism to ensure alignment and integration between the IDP's of the Cape Winelands District Municipality and Local municipalities of:

- Stellenbosch
- Drakenstein
- Witzenberg
- Breede Valley
- Langeberg

The Cape Winelands District Integrated Development Planning District Framework aims to bind both the district municipality and the 5 local municipalities (B Municipalities) through consultation, coordination and alignment between the planning processes. The Framework also identifies the plans and planning requirements binding in terms of provincial and national legislation matters to be included in the IDPs requiring alignment and must specify the principles and approach to be adopted in respect of those matters. This approach requires the district municipality to have a planning framework which is applicable to all stakeholders that plan to implement programmes and projects within the boundaries of the district. In so doing, extensive consultation, coordination and alignment of the IDP processes within the District Municipality and its various Local municipalities must be maintained.

The Framework also aims to establish structures that could be of use to improve municipal IDP processes and at the same time provide the mechanisms that could be utilised and monitor and evaluated the IDP formulation process.

Furthermore, the IDP District Framework serves to guide and inform the Process Plan of the District and its Local municipalities. The IDP District Framework provides the linkage for binding relationships to be established between the District and Local municipalities in the Cape Winelands. In so doing, proper consultation, coordination and alignment of the IDP process of the District Municipality and its various Local municipalities must be maintained.

2. Legal Context of District Framework

There are several pieces of legislation which craft the architecture within which the IDP District Framework will function. These include the Constitution of the Republic of South Africa, Act 108 of 1996, the Local Government: Municipal Structures Act, 1998 (Act 117 of 1998), including the Municipal Structures Amendment Act, B51-2000, the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), and the White Paper on Local Government, 1998.

According to Section 153 of The Constitution of the Republic of South Africa, 1996, a municipality must-

(a) *Structure and manage its administration, budgeting and planning processes to give priority to the basic needs of the community, and promote the social and economic development of the community; and*
(b) Participate in national and provincial development programmes.

This Constitutional provision illustrates the need for integrating the planning, budgeting, implementation and reporting processes of all public institutions, within this context specific reference is drawn to municipalities.

Section 27(2) of the Municipal Systems Act, 2000 (Act 32 of 2000), states that the Framework Plan must at least:

(a) identify the plans and planning requirements binding in terms of national and provincial legislation on the district municipality and local municipalities or on any specific municipality;

(b) identify the matters to be included in the integrated development plans of the district municipality and the local municipalities that require alignment;

(c) specify the principles to be applied and coordinate the approach to be adopted in respect of those matters; and

(d) determine procedures -

(i) for consultation between the district municipality and the local municipalities during the process of drafting their respective integrated development plans; and

(ii) *to effect essential amendments to the framework*

3. PURPOSE AND OBJECTIVES OF THE IDP DISTRICT FRAMEWORK

The drafting of a new five-year Integrated Development Plan (2022-2027) necessitates the adoption of an Integrated Development Planning District Framework which guides the process of drafting, reviewing and amending the Integrated Development Plan (IDP) adopted by Council.

The objective of the District Framework is to ensure that the District and Local municipalities in its area, as well as the National and Provincial planning processes, are mutually linked to inform and complement each other, thereby culminating into a regulatory framework which seeks to direct efficient, effective and economically driven planning initiatives and innovations in response to the prevailing socio-economic realities through accurate, credible and sustainable resource allocation.

IDP DISTRICT FRAMEWORK vs IDP PROCESS PLAN

The IDP District Framework has a lifespan of 5 years linked to the newly elected Council's term of office. The IDP District Framework serves as a mechanism to ensure alignment and integration between the IDP of the District Municipality and those of the Local Municipalities within the Cape Winelands region. It aims to ensure that processes of the District and Local Municipalities are mutually linked and inform one another while the Process Plans of all municipalities within the region need to be informed by the IDP District Framework with particular reference to the development of IDPs and Budgets.

The IDP Process Plan is a process set out in writing to guide the planning, drafting, adoption and review of its IDP; it contains events to be undertaken in the process of

developing the actual District IDP, supporting IDP processes of the Local municipalities to ensure alignment.

The table below serves to provide a high-level distinction between the IDP District Framework, IDP Process Plan and the Time Schedule adopted in terms of Section 21 of the Municipal Finance Management Act.

IDP Framework (Five Year)	IDP Process Plan (Five Year)	Time Schedule (Annually)
The District Framework in accordance with Section 27 of the MSA must be adopted by the district municipality within a prescribed period after the start of its elected term. The Framework, amongst others, obligates both the district and the local municipalities in its area on binding legislation, IDP matters which require alignment and procedures for consultation during the process of drafting their respective IDPs.	The IDP Process Plan in accordance with Section 28 of the MSA is a process set out in writing to guide the planning, drafting, adoption and review of its initial 5-year IDP after the start of Councils elected term. It contains events to be undertaken in the process of developing the actual IDP and supporting IDP processes of the Local municipalities to ensure alignment.	In accordance with Section 21 of the MFMA the Council must adopt a time schedule outlining key deadliness for the tabling and adoption of the annual review/amendment of the IDP, any amendments to the IDP and consultative processes which form part of the annual IDP and Budget review.

4. POLICY PRINCIPLES FOR INTEGRATED DEVELOPMENT PLANNING

The policy principles reflected below is incumbent upon the District and Local Municipalities of the Cape Winelands with a view to fostering a consultative and participatory approach to the planning, drafting, adoption and implementation involved in the development of IDPs.

The Framework accepts that existing, approved policy and strategies will be taken into consideration in future development planning within the Cape Winelands region.

The following policy principles will apply to ensure the above:

- Strategies arising from existing, approved development plans and policies both at district and local level that have been implemented in part and as a whole will be continued;

- The IDP process both at district and local levels will be informed by the agreed policy and principles of integrated development in the Cape Winelands region and these will be taken into consideration when IDPs have been approved and implemented at all levels;
- The IDP District Framework will serve as a tool to inform the Process Plans of both the District and Local municipalities within the region;
- Community and stakeholder involvement should be entrenched in the preparatory phase to approval and implementation of the IDPs within the region;
- All Local Municipalities within the Cape Winelands region shall inform the District Municipality on the phases undertaken throughout the drafting, review and/or amendment processes of the IDPs.
- Local municipalities shall submit the draft and approved IDPs to the District Municipality, the District shall similarly submit their tabled and adopted IDP to all the Local Municipalities within the region;
- The district municipality to facilitate community needs and priorities applicable to the district functions and provide regular feedback to LM’s.
- District municipality to attend IDP engagements of LM’s if and when required.
- Furthermore, it is a requirement that future budgets of both the district and the local municipalities will be guided by the IDPs in order to effectively support the integrated

development process financially. It is, however, accepted that unfunded mandates and disasters may have an effect on the allocation of funds in the budget.

5. ROLES AND RESPONSIBILITIES

DISTRICT MUNICIPALITY

The functions and powers of municipalities are clearly prescribed in Chapter 5 of the Local Government: Municipal Structures Act, 1998 (Act 117 of 1998). Section 84(1)(a) of the Act states that:

> *"A District municipality has the following functions and powers: Integrated Development Planning for the district municipality as a whole, including a framework for integrated development plans of all municipalities in the area of the district municipality"*

The role-player tasked with executing the function of crating the IDP District Framework rests with the IDP Co-ordinator of the Cape Winelands District Municipality.

Further to the above, Section 27(1) of the Local Government: Municipal Systems Act, 2000 (Act32 of 2000), states that:

"Each district municipality, within a prescribed period after the start of its elected term and after following a consultative process with the local Municipalities within its area, must adopt a framework for integrated development planning in the area as a whole."

The Cape Winelands District Municipality is responsible for drafting the Framework, as mechanism to ensure alignment and integration between the IDP's of the District Municipality and Local municipalities of:

- Breede Valley Municipality;
- Drakenstein Municipality;
- Langeberg Municipality;
- Stellenbosch Municipality and
- Witzenberg Municipality.

The District Municipality is further entrusted with fulfilling a co-ordination and facilitation role in respect of ensuring alignment between District and Local planning within the region.

LOCAL MUNICIPALITIES

In respect of the legislative prescripts emanating from Chapter 5 of the Municipal Structures Act, Section 81(1) by implication involves the participation of all of the local municipalities within the Cape Winelands region in the planning, development and adoption of the IDP District Framework for the area as a whole. The role-players therefore include the IDP Manager's of all local municipalities within the Cape Winelands District.

PROVINCIAL GOVERNMENT

The role of the Western Cape Department of Local government is derived from Section 31 of the Municipal Systems Act, which in addition to monitoring and support, imply that the department may assist municipalities with facilitation, co-ordination and alignment during he planning, drafting, adoption and review of its integrated development plans. This particular function includes but is however not limited to ensuring:

- Horizontal alignment between the Metropolitan and the District Municipality;
- Vertical/sectoral alignment between provincial departmental strategic and sector plans with the IDPs of the municipalities within the Cape Winelands District and
- Facilitating dispute resolutions related to the IDP process as and when circumstances so demand.

The role-players responsible for managing this particular processes includes the Provincial IDP Co-ordinator deployed to the Cape Winelands region from the IDP Directorate of the Western Cape Department of Local Government as well as sector departments tasked with planning alignment and integration of sector plans into the IDPs.

6. ORGANISATIONAL ARRANGEMENTS, FRAMEWORK PROGRAMME AND TIMEFRAMES

The following structures will be utilized to drive the IDP processes within the Cape Winelands District to ensure continued liaison and coordination throughout the IDP process:

- District IDP Managers' Forum
- Provincial IDP Managers' Forum
- Joint District and Metro Approach task team
- Strategic Integrated Municipal Engagements
- District Co-ordinating Forum
- Municipal Managers' Forum
- District Communications' Forum
- Disaster Management Advisory Forum
- Regional Air Quality Management Committee
- Provincial IDP Indaba's, MGRO, LGMTEC and Indaba Working Group
- Provincial IDP Managers' Forum and Public Participation and Communications Forum/

Key activities and responsibilities to be undertaken throughout the 5 -year IDP Cycle (2022-2027) of the IDP, Budget and Performance Management is to be summarised in the process plans of the municipalities within the district.

To effect ***continued liaison and coordination*** the following *modus operandi* will apply:–

- Meetings of the IDP coordinators/managers of the district and local municipalities to discuss and coordinate IDP related issues as these occur. These meetings will also give the IDP coordinator of the CW District Municipality the opportunity to monitor progress and/or problems at local level and to make provision for assistance/support in time. Meetings will take place at least quarterly and/or as circumstances so demand.

- Workshops presented under the auspices of the CWDM to discuss problems/issues of regional interest with all interested parties and to determine IDP strategies in this regard will only be arranged when a specific matter requiring consultation has been identified.

- Policy and other serious issues that cannot be dealt with by the IDP coordinators/managers alone, will be referred to the District ~~Coordinated~~ Co-ordinating Forum (DCF).

- Delegated councillors of local municipalities serving in the CWDM Council must also regularly report to their councils on matters of local interest.

Information obtained through any public participation process which may impact on the IDP of another municipality (local or district), or which have to be included in the relevant municipality's IDP, must be relayed to the designated official responsible for IDP of the relevant municipality as soon as possible***.***

Feedback to the public must be regarded equally important as participation, and must be undertaken in a structured way both at district and local level as determined in each municipality's Process Plan, but with a minimum requirement of feedback twice a year.

Mechanisms for participation

The following mechanisms for participation will be utilized:

District IDP Managers' Forum, District Public Participation Forum and District Communication Forum
This Forums will represent all stakeholders and will be as inclusive as possible. Efforts will be made to bring additional organisations into above mentioned forums and ensure their continued participation throughout the process.

Media
Local newspapers and the CWDM's internal and external newsletters will be used to inform the community of the progress of the IDP.

Social media

The District's website and facebook will also be utilised to communicate and inform the community. All relevant documents will be placed on the website for communities and service providers to download.

Radio Slots

The community radio stations will be utilised to make public announcements where necessary. Radio slots will also be used for public participation sessions when we need to adhere to Covid-19 regulations.

Assistance by the Cape Winelands District Municipality

In the event that do not have sufficient capacity and expertise to undertake the IDP process, including the co-planning, co-budgeting and co-implementation processes on their own, the District Municipality will assist local municipalities as follows:

- Assistance to build capacity locally, on request for example by means of training;
- Assistance with facilitation of workshops;
- Providing information/data gathered at district level that is relevant to local IDP processes, in particular with regard to binding legislation, and information already gathered in rural areas.

7. MATTERS, MECHANISMS AND PROCEDURES FOR ALIGNMENT AND CONSULTATION

HORIZONTAL AND VERTICAL ALIGNMENT

Horizontal and vertical alignment within an IDP must be achieved by way of:

- Framework/Process Plan: The main responsibility of horizontal alignment lies with the Cape Winelands District Municipality. Legislation requires of District Municipalities to prepare and adopt an IDP District Framework which indicates how the District and Local Municipalities will

align their IDPs. The Framework Plan provides the linkages and binding relationships to be established between the District and Local Municipalities in the region and in doing so, proper consultation, coordination and alignment of the IDP process within the district and the various Local Municipalities can be maintained.

- Sector Department alignment: This is essential to ensure that the District and Local Municipalities' priorities are reflected in the different departments' project prioritisation process and in turn, that the department's projects are reflected in the IDP. Regular and strategic meetings with the Sector Departments would be required during the course of the IDP Review.
- Horizontal alignment will focus on addressing issues at both District and Local municipal level, while Vertical alignment will focus on issues that affect the municipalities from National and Provincial departments, and other organisations. Planning therefore needs to be informed by all stakeholders in order to effectively and efficiently allocate resources.
- Mechanisms have been put in place to assist in ensuring alignment of matters between the District and Local municipalities in Cape Winelands. This will be done by way of scheduled District IDP Managers' Fora, followed by the District Public Participation and Communication Fora. Proper and effective communication between the different spheres of government is therefore crucial in order to achieve successful alignment of matters.

Alignment with Sector Departments will take place through:

- The existing National, Provincial and municipal transversal planning interface structures or as initiated by Provincial and National Government in consultation with Local Government.
- Provincial IDP Engagements
- District and local based IGR forums
- Western Cape District Integrated Forum

The following alignment activities are envisaged between the CWDM and the five local municipalities on the one hand and between local government levels and role-players at national, provincial and corporate service-delivery levels on the other hand:–

PHASE	TIME	ALIGNMENT ACTIVITY	SPHERE	RESPONSIBILITY	STRUCTURES
Analysis	Sept-October	Information on new priorities to CWDM	Local	Local IDP coordinators	Community issues brought to Municipality's attention through ward committee /public meetings/ stakeholders meetings
Strategies	October - Nov	Joint decision-making on localised guidelines. District-level strategic workshops.	Local, CWDM and other spheres	CWDM IDP Coordinator	Issues are being discussed. Find possible solutions through internal IDP and Budget meetings.
Project plan	Nov - Dec	Technical planning input	Local, CWDM and other spheres	Technical functionaries	Details of the possible solutions are discussed to determine what is needed(budget, timing, how long, when, by who)
Integration	Dec - Feb	Facilitation of non-line function programmes	CWDM and other spheres	CWDM and functionaries from other spheres	Identified projects are integrated

					and budgeted for through internal meetings.
Approval	March - May	Submission of draft IDP	Local, CWDM and other spheres	IDP Coordinators	Draft Plan is tabled at Council and discussed at Ward committee/ public meetings/ stakeholder meetings
Approval	March - May	Comment on draft IDP	Local, CWDM and other spheres	IDP Forums Other role-players	Public comment before final approval by Council in May.

Some of the above-mentioned still requires final clarification of functions. **Joint strategic workshops** on each of the above-mentioned issues will be held at district level to ensure alignment.

In each of the above-mentioned spheres it is important that the district and local municipalities together find clarity on the way in which they will tackle the challenges of development at regional level and which strategies or development approach they will follow. Each individual municipality must also be sure about its own resources and capacity to deliver within the developmental approach. These aspects will be addressed at the joint strategic workshops.

Joint strategic workshops will also consider the following aspects:

- Regional economic development;
- Human development in the region;
- The Spatial Development Framework for the region;
- The sustainable utilisation of scarce resources, with special reference to environmental viability;
- Proactive consultation and coordination between district and local municipalities on delivery programmes and projects in the district, to ensure an integrated approach throughout and the achievement of common district objectives in the process;
- Action-specific principles, e.g. bioregional planning principles, will be fundamental to all spatial planning in the district;
- Information sharing among municipalities in the region;
- Priorities identified by more than one local municipality which as such can be regarded as partial regional priorities;
- Proactive definition of components, strategies and programmes of the IDP/IDPs arising from non-municipal line functions, as well as crosscutting dimensions such as poverty, gender issues, etc. that have to be addressed;
- Coordination of actions and implementation of IDP strategies.

Facilitation process in regional context:

These refer to aspects which are not necessarily municipal line functions. They should nevertheless be included in IDPs on the express understanding that the relevant local municipality or district municipality, as overall representative, will relay such matters to the

various sector role-players at provincial and national levels and will act as facilitator(s) in the promotion processes.

The following steps will be used to encourage the facilitation process (with continued emphasis on the importance of feedback):–

- CWDM acts as facilitator/convenor to promote matters that may represent a district-wide problem or have a district-wide impact, while each local municipality is individually responsible for matters that are relevant locally.

- Representatives/specialists of each issue that come to the fore are identified in the various towns (each town need not be represented). Advertisements inviting experts to participate can be published in the local papers.

- The group that is identified forms a special study group for example to address problems in education etc.

- CWDM or the local municipality concerned assists the study group with arrangement of meetings and other supporting actions in performing their task.

- When the study group makes a recommendation, district-wide actions are further facilitated with the support of CWDM, and local actions with the support of the relevant local municipality. The relevant local municipality or CWDM together with the study group negotiate with other spheres of government to ensure the implementation of the components.

- A dynamic checklist is formalised with the aid of the study group to monitor that the crosscutting dimensions mentioned above are incorporated in all strategies and projects.

- Joint strategic workshop(s) is/are presented by CWDM for the proactive identification and definition of crosscutting dimensions and actions that may arise from non-municipal line functions and for the coordination and implementation of actions.

Binding plans, planning requirements and policy on national, provincial and local levels

To ensure that both the district and local municipalities are aware of all relevant binding national and provincial legislation, policy, programmes, strategies and available funds and that these are considered in the various IDP processes, the Framework contains the following information:–

Policy Frameworks

The following policy frameworks must be taken into considering throughout the planning, development, adoption, implementation and Performance Management processes of the municipal IDPs within the Cape Winelands region. In addition, policy directives across the spheres of government also need to be taken into account, namely the State of the Nation Address, State of the Province Address and the State of the District Address.

- Sustainable Development Goals
- National Development Plan
- Medium Term Strategic Framework
- Provincial Strategic Plan
- National Spatial Development Plan (NSDP)
- Provincial Spatial Development Framework
- One Plan outcomes.

Sector Plans

- 4.2.1 Water Services Development Plans
- 4.2.2 Integrated Waste Management Plan
- 4.2.3 Integrated Transport Plans
- 4.2.4 Land Development Objectives

- 4.2.5 Housing Strategy (Plan)
- 4.2.6 Local Economic Development Strategies
- 4.2.7 Integrated Infrastructure Planning
- 4.2.8 Integrated Energy Planning
- 4.2.9 Spatial Development Framework
- 4.2.10 Environmental Implementation Management Plans

Policy

- Public Sector Procurement Reform in SA
- Integrated Pollution and Waste Management for SA
- Land Reform Strategies
- Rural Development Framework
- Draft White Paper on Spatial Planning and Land Use Management, 2001
- Urbanisation Policy
- Farm Worker Housing and Fringe Policy
- Bio-regional Planning Policy and Guide
- Guidelines for Subdivision of Agricultural Land

Planning tools

- Key Performance Areas and targets;
- IDP District Framework;
- Joint District and Metro Approach planning initiatives and
- Public Participation programmes.

All municipalities must locally take into account the following:

- IDP: Cape Winelands District Municipality
- IDPs of all five Local municipalities within the region
- Existing approved Spatial Development Frameworks (SDFs) and/or structure plans (link to SPLUMA)
- Existing approved Water Services Plans
- Existing approved Disaster Management Plans
- HIV/AIDS Strategies

- One Plan outcomes

Components for inclusion in integrated development plans

Clear *analysis* of municipal reality & clear development *strategy*

- Socio-economic analysis of municipal area:
  (Ward-based profiling within the municipal area)
- Clear development vision

Vision, Objectives and Strategies

- Clear **economic development** strategy (to broaden economic participation through skills development and higher investment rate)
- Clear strategy for people development (skills / health / education)
- Clear actions for development of natural resource base
- Action for integrated human settlement (spatial planning logic)
- Sectoral plans in support (water, transport, energy, land reform)

Targeted basic *services and infrastructure* investment

- Basic service provision that address national targets for basic service provision (water, sanitation, electricity, waste removal/sanitation)
- Clear medium to long term infrastructure provision strategy: Targeting of services and infrastructure to specific areas
- Maintenance of infrastructure is addressed, MIG and other infrastructure grants are optimally utilized

Community involvement in planning and delivery

- Municipal-wide engagement on IDP and related task teams
- Communication on IDP through council and ward structures

Institutional *delivery capacity* within municipality

- Clear project and service delivery plans
- Budget linked to IDP priorities and projects
- Clear performance indicators for IDP implementation: services/project.
- Internal skills, systems and implementation responsibilities.

Alignment with national/provincial programmes

- IDP addresses national & provincial strategies (economic, social and environmental
- District and Local IDP have shared strategic priorities
- Sharing of resources between spheres of government in the IDP
- One Plan strategic framework outcomes

1. Strategic issues: **Improve LED plans to enable critical trade off decisions to be made and ensure implementation**	Analysis Strategy	Rigorous analysis of the economic reality of the municipality Clear economic development strategy
	Infrastructure Investment	Targeted economic infrastructure investment strategy or plans ED responses linked to community priorities
2. Implementation issues: **Ensure local implementation capacity,& identify actions to reach commitment between the national, provincial and local sphere on the priority actions**	Delivery Capacity	Institutional delivery capacity of municipality Skilled human resources, implementation systems (i.e. project management, budget and performance management through clear key performance indicators)
	Alignment	Intergovernmental commitment to delivery on IDP (between the 3 government spheres & between district and local municipalities)

8. PROCEDURES AND PRINCIPLES FOR MONITORING THE PLANNING PROCESS AND AMENDMENT OF THE FRAMEWORK

Procedures and principles for monitoring the planning process

The following procedures and principles will apply to the monitoring of the planning process:

- Each municipality is responsible for monitoring its own process and for ensuring that the agreed principles and programmes for the Framework are adhered to.

- Each municipality will use its IDP Steering Committee or approximate structure together with the IDP coordinator/manager concerned as the responsible monitoring agent. The monitoring agent is responsible for reporting on progress/problems upward to the Council and executive committee concerned and downward to departmental heads, officials and functionaries. The DCF must also monitor the process.

- Sections 83 and 84(1)(a) of the Municipal Structures Act empower the CWDM to monitor the process at district and local level. The IDP coordinator of the CWDM monitors the processes at local municipalities by way of regular liaison and enquiries.

The following procedures and principles will apply to addressing any departure/amendment to the District Framework and/or the planning process as such:–

- The District IDP Managers' Forum meets after each phase in the IDP process to evaluate progress and to identify where changes, amendments or departures to/from both the District Framework and the planning process are required.

- Each municipality must notify the CWDM within five (5) working days of any departure from its Action Plan that may have an impact on district-level activities and programmes (e.g. the identification of local priorities are delayed and therefore the district-level strategic workshop on priorities would have to be postponed).

Requests to amend the District Framework must include:–

- The wording of the proposed amendment;
- Motivation for the amendment;

- Expected implications of the amendment.

CWDM's IDP coordinator deals with the process and ensures that all proposals for departure/amendment are reported to role-players and that their comment is invited.

The role players entrusted with the preparation of the District Framework continues with the mandate to consider proposals for the amendment of the Framework, to define proposals for amendment and ensure approval by the municipal Council.
Any amendments to the District Framework must be considered by the DCF before approval.

9. CONCLUSION

In conclusion, the Cape Winelands District Section 27 Framework Plan must be used as the tool for the district to ensure that interrelated parallel planning processes within the district are used to obtain maximum advantage for the district as a whole, thus leading to credible and sustainable integrated development planning and development within the District and meeting the socio-economic challenges through risk mitigation, accurate and concise budgeting and performance monitoring alignment towards a predetermined outcome which seeks to overcome the triple challenges of poverty, inequality and unemployment.

ANNEXURE "A"

Framework for contextualising and applying the NSDP at district level

a. Developing a shared analysis

The objective is for various state and non-state stakeholders to better understand an areas growth and development potential with the aim of fostering greater growth and development. Understanding and area implies more than gathering data is the case with most planning initiatives currently. Generating appropriate and relevant data is important, but of crucial importance is to develop, analyse and interpet socio economic data with the necessary rigour and insight. This entails a comprehensive and incisive analysis of current and future trends with respect to poverty, inequality, economic development and ecological sustainability in **spatial terms**, the forces and factors driving these trends and the strategic implications thereof. Failure to understand issues of development and inequality in spatial terms means that policy and planning decisions will be made in an empirical and analytical vacuum. The district has a pivotal role to play in getting various stakeholders to develop a shared understanding of the essential characteristics, trends and dynamics of the district space economy.

Insightful and rigorous analysis supports proper planning and effective decision making in number of ways. These include:

- Identifying the determinants of poverty and social exclusion and how poverty, inequality and exclusion are reproduced;
- Identifying the special and long-term, hard to replicate unique characteristics that comprise the area's competitive and comparative advantages.
- The presence of or potential for the emergence of distinct industrial districts or territorial complexes;
- The boarder set of social relations binding firms and workers to each other as well as the actor-rationalities which operate within the region's dominant institutions and their impact on the distribution of resources and opportunity and innovation.

- Use of renewable and non-renewable resources and the risks and opportunities this poses for the area's growth and development trajectory.

b. Shared socio-economic vision or development trajectory

The shared analysis above is likely to generate varying challenges and competing demands. It provides the basis of interpreting the strategic direction, promoting policy coordination and fitting government actions into a spatial terms of reference. The District will need to develop trajectory among various stakeholders. By a shared vision and development trajectory we don't mean arriving at a short, crisp and politically correct vision statement. What is implied here is a strategic dialogue with stakeholders within and outside of government which states that given our shared understanding of the features and characteristics of the district/metro space economy, what are the longterm social and economic outcomes we would strive to achieve and how should the NSDP principles be contextualised and applied to put the area on a firm development path?

It must be remembered that districts are not neutral arbiters merely mediating the varied interests in society. Instead districts should consciously and actively seek to ensure that the development trajectory is underscored by the fundamental values of socio-material citizenship underpinning our constitution. Our government is committed to the objectives of social and economic justice and democratic nation building. Districts have to be vigilant in ensuring that the development trajectory reconciles and is underscored by our basic aspirations of accelerated and shared growth poverty reduction, sustainable resource use protection of biodiversity and social cohesion. In this regard the shared development trajectory or vision is more than a short and catchy statement, but a compelling story of the strategic outcomes to be achieved.

c. Priority interventions and Critical strategies

Translating the development trajectory into clear goals (long, medium and short-term), priority interventions for reaching the goals and backed by coherent objectives and strategies is an important part of good planning and strategy making. The shared analysis and development should inform the planning processes of spheres of government and all sectors in so far as these are in charge of implementing of financing projects at local levels.
These interventions, objectives and strategies should find concrete expression in the IDP's which should spell out the 5 year plans for achieving the developmental goals and objectives of the area.

d. Building the institutional base for multi-stakeholder co-operation and action

A central theme running through this framework is that achieving the long-term development outcomes in a district or metro depends on the mobilisation of collective action by a range of role players both inside and outside of government. A governance framework that enables the district to draw together

government and extra-government institutions into a participatory and integrated decision-making process is therefore important.

Such a governance framework must accomplish at least the following minimum requirements:

- It must enable the district/metro to identify with various agencies and spheres of government the critical or priority intergovernmental actions to achieve the development goals and outcomes;
- These intergovernmental priority actions must be integrated into the IDP of the district so that the IDP becomes the local expression of the plans of all spheres of government;
- Drawing on the Intergovernmental Relations Framework Act as a facilitative piece of legislation, appropriate intergovernmental forums will have to be established and protocols and or service level agreements hammered out to tie commitments into firm agreements;
- Proper mechanisms for monitoring and promoting accountability need to be developed;
- The IDPs incorporating the 5 year development goals and objectives should be cascaded up within government and provide government with rigorous appreciation of the development potential of each district and metro which would feed into an iterative process of review, refinement and further elaboration of the NSDP.

Implementing the framework

As already stated, the framework for contextualising and applying the NSDP must be seen as an integral part of developing more credible IDPs. As such it is part of the IDP development process and not a new process or something extraneous to the IDP development process.

ANNEXURE "B"

Principles of the National Environmental Management Act 107 of 1998

1) The principles set out in this section apply throughout the Republic to the actions of all organs of state that may significantly affect the environment and—

(a) shall apply alongside all other appropriate and relevant considerations, including the State's responsibility to respect, protect, promote and fulfil the social and economic rights in Chapter 2 of the Constitution and in particular the basic needs of categories of persons disadvantaged by unfair discrimination;

(b) serve as the general framework within which environmental management and implementation plans must be formulated;

(c) serve as guidelines by reference to which any organ of state must exercise any function when taking any decision in terms of this Act or any statutory provision concerning the protection of the environment;

(d) serve as principles by reference to which a conciliator appointed under this Act must make recommendations; and

(e) guide the interpretation, administration and implementation of this Act, and any other law concerned with the protection or management of the environment.

(2) Environmental management must place people and their needs at the forefront of its concern, and serve their physical, psychological, developmental, cultural and social interests equitably.

(3) Development must be socially, environmentally and economically sustainable.

(4) (a) Sustainable development requires the consideration of all relevant factors including the following:

(i) That the disturbance of ecosystems and loss of biological diversity are avoided, or, where they cannot be altogether avoided, are minimised and remedied;

(ii) that pollution and degradation of the environment are avoided, or, where they cannot be altogether avoided, are minimised and remedied;

(iii) that the disturbance of landscapes and sites that constitute the nation's cultural heritage is avoided, or where it cannot be altogether avoided, is minimised and remedied;

(iv) that waste is avoided, or where it cannot be altogether avoided, minimised and re-used or recycled where possible and otherwise disposed of in a responsible manner;

(v) that the use and exploitation of non-renewable natural resources is responsible and equitable, and takes into account the consequences of the depletion of the resource;

(vi) that the development, use and exploitation of renewable resources and the ecosystems of which they are part do not exceed the level beyond which their integrity is jeopardised;

(vii) that a risk-averse and cautious approach is applied, which takes into account the limits of current knowledge about the consequences of decisions and actions; and

(viii) that negative impacts on the environment and on people‘s environmental rights be anticipated and prevented, and where they cannot be altogether prevented, are minimised and remedied.

(b) Environmental management must be integrated, acknowledging that all elements of the environment are linked and interrelated, and it must take into account the effects of decisions on all aspects of the environment and all people in the environment by pursuing the selection of the best practicable environmental option.

(c) Environmental justice must be pursued so that adverse environmental impacts shall not be distributed in such a manner as to unfairly discriminate against any person, particularly vulnerable and disadvantaged persons.

(d) Equitable access to environmental resources, benefits and services to meet basic human needs and ensure human well-being must be pursued and special measures may be taken to ensure access thereto by categories of persons disadvantaged by unfair discrimination.

(e) Responsibility for the environmental health and safety consequences of a policy, programme, project, product, process, service or activity exists throughout its life cycle.

(f) The participation of all interested and affected parties in environmental governance must be promoted, and all people must have the opportunity to develop the understanding, skills and capacity necessary for achieving equitable and effective participation, and participation by vulnerable and disadvantaged persons must be ensured.

(g) Decisions must take into account the interests, needs and values of all interested and affected parties, and this includes recognising all forms of knowledge, including traditional and ordinary knowledge.

(h) Community well-being and empowerment must be promoted through environmental education, the raising of environmental awareness, the sharing of knowledge and experience and other appropriate means

.

(i) The social, economic and environmental impacts of activities, including disadvantages and benefits, must be considered, assessed and evaluated, and decisions must be appropriate in the light of such consideration and assessment

(j) The right of workers to refuse work that is harmful to human health or the environment and to be informed of dangers must be respected and protected.

(k) Decisions must be taken in an open and transparent manner, and access to information must be provided in accordance with the law.

(l) There must be inter-governmental co-ordination and harmonisation of policies, legislation and actions relating to the environment.

(m) Actual or potential conflicts of interest between organs of state should be resolved through conflict resolution procedures.

(n) Global and international responsibilities relating to the environment must be discharged in the national interest.

(o) The environment is held in public trust for the people, the beneficial use of environmental resources must serve the public interest and the environment must be protected as the people‘s common heritage

.

(p) The costs of remedying pollution, environmental degradation and consequent adverse health effects and of preventing, controlling or minimising further pollution, environmental damage or adverse health effects must be paid for by those responsible for harming the environment.

(q) The vital role of women and youth in environmental management and development must be recognised and their full participation therein must be promoted.

(r) Sensitive, vulnerable, highly dynamic or stressed ecosystems, such as coastal shores, estuaries, wetlands, and similar systems require specific attention in management and planning procedures, especially where they are subject to significant humanresource usage and development pressure.

8.2	ADOPTION OF THE FIFTH GENERATION INTEGRATED DEVELOPMENT PLAN (IDP) 2022 – 2027

Collaborator No: 729727
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 18 May 2022 & 25 May 2022

1. SUBJECT: ADOPTION OF THE FIFTH GENERATION INTEGRATED DEVELOPMENT PLAN (IDP) 2022 – 2027

2. PURPOSE

To submit the following to Council for consideration and adoption:

(a) The Fifth Generation IDP 2022 – 2027, attached as **ANNEXURE A** (will be distributed under separate cover); and

(b) The IDP and Budget public participation inputs, written submissions and Provincial Government SIME Assessment Report on the Draft Fifth Generation IDP 2022 – 2027 and Draft MTREF 2022 – 2025, attached as **ANNEXURE B**.

3. DELEGATED AUTHORITY

Council.

4. EXECUTIVE SUMMARY

In terms of Section 25(1) of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), each municipal council must after the start of its elected term, within a prescribed period adopt a single, inclusive strategic plan. In this instance, this strategic plan refers to the Fifth Generation IDP 2022 – 2027. The IDP informs the budget of the municipality and also details the municipality's actions to address the vision, mission, strategic objectives and needs of the community.

The municipal IDP must:

- link, integrate and co-ordinate plans and consider proposals for the development of the municipality;
- align the resources and capacity of the municipality with the implementation of the plan;
- forms the policy framework and general basis on which annual budgets must be based; and
- is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

5. RECOMMENDATIONS

(a) that the Fifth Generation IDP 2022 – 2027 for Stellenbosch Municipality, attached as **ANNEXURE A**, be adopted in terms of Section 25(1) of the MSA;

(b) that the IDP and Budget public participation inputs, written submissions and Provincial Government SIME Assessment Report on the Draft Fifth Generation IDP 2022 – 2027 and Draft MTREF 2022 – 2025, attached as **ANNEXURE B**, be noted; and

(c) that an advertisement be placed on the official website of the municipality and in the local newspapers notifying the public that the final Fifth Generation IDP 2022 – 2027 has been adopted by Council.

6. DISCUSSION

6.1 Background

In terms of the provisions of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), each Council must, within the prescribed period after the start of its elected term, adopt a single, inclusive, strategic plan. The Fifth Generation IDP 2022 – 2027 serves as this instrument for the period 2022 – 2027.

A Revised SDF / IDP / Budget Time Schedule for 2022/23 was approved by Council on 30 March 2022 to guide the planning and development of the Fifth Generation IDP 2022 – 2027.

The following processes were followed in accordance with the time schedule:

DATE	ACTION(S)
July / August 2021	Approval of the mSDF / IDP / Budget Process Plan / Time Schedule
September 2021 – November 2021	• Approval of the mSDF / IDP / Budget Process Plan / Time Schedule for 2022/23. • Pre-recorded video presentations explaining the processes to be followed for the next five years of the 5th Generation IDP 2022 - 2027. Feedback was also provided on the implementation of projects per ward. • A link to access the pre-recorded videos was published on the municipal Youtube Channel, shared via Facebook, Twitter, WhatsApp, Stellenbosch Citizen App and on the municipal website. • An electronic written submission form was created on the municipal website for the community and stakeholders to provide input into the development of the 5th Generation IDP 2022 – 2027.
December 2021 - February 2022	• An Online Sector Engagement was held on 11 January 2022 to determine the sector needs and collectively devise plans to address the needs. • MayCo and management had a strategic session from 13 – 14 January 2022 to consider the external and internal analysis and strategies around the 5 - year development priorities and operational strategies (programmes / projects / activities and actions). • Departmental sessions were held with all departments to set their 5 – year implementation plans for the 5th Generation IDP 2022 – 2027.
March 2022 – April 2022	• The Process Plan for 2022 – 2027 to guide the planning, drafting, adoption and review of the 5th Generation IDP 2022 – 2027 was approved by the Council on 30 March 2022, for public comment for a period of 21 days. • A second revision of the SDF / IDP / Budget Time Schedule for 2022/23 was submitted to the Council on 30 March 2022 for consideration and approval, which in effect moved the adoption of the Process Plan to May 2022. This was done to ensure compliance and alignment between the MSA Section 27 Framework of the CWDM and the Process Plan for 2022 – 2027 of the Stellenbosch Municipality. • The draft 5th Generation IDP 2022 – 2027 and draft MTREF 2022/23 – 2024/25 for Stellenbosch Municipality was submitted to the Council on 30 March 2022 for consideration and approval to be released for public comments. • The IDP and Budget public participation process within the Stellenbosch Municipal area commenced on 04 April 2022 – 28 April 2022. • Inputs and comments on the draft 5th Generation IDP 2022 – 2027 and draft MTREF 2022/23 – 2024/25 will be compiled and distributed to the directorates for consideration in finalising the IDP and Budget.
May – June 2022	• Adoption of the final IDP and Budget, Tariffs and Budget-related policies. • Submit adopted IDP to Cape Winelands District Municipality, Provincial Government and National Treasury. • Approval of SDBIP by the Executive Mayor within 28 days after adoption of the IDP and Budget.

6.2 Financial Implications

The IDP and the Budget have been aligned, considering ward priorities and public needs identified through the public participation period outlined above.

6.3 Legal Implications

The recommendations in this report comply with all applicable legislation.

Section 25(1):

The municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality which—

(a) links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality;

(b) aligns the resources and capacity of the municipality with the implementation of the plan;

(c) forms the policy framework and general basis on which annual budgets must be based;

(d) complies with the provisions of this Chapter; and

(e) is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

Section 26:

An integrated development plan must reflect—

(a) the municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;

(b) an assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;

(c) the council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;

(d) the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;

(e) a spatial development framework which must include the provision of basic guidelines for a land-use management system for the municipality;

(f) the council's operational strategies;

(g) applicable disaster management plans;

(h) a financial plan, which must include a budget projection for at least the next three years; and

(i) the key performance indicators and performance targets determined in terms of section 41.

Section 35(1):

An integrated development plan adopted by the council of a municipality—

(a) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development, in the municipality;

(b) binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's integrated development plan and national or provincial legislation, in which case such legislation prevails; and

(c) binds all other persons to the extent that those parts of the integrated development plan that impose duties or affect the rights of those persons have been passed as a by-law.

Section 36:

A municipality must give effect to its integrated development plan and conduct its affairs in a manner that is consistent with its integrated development plan.

Section 34:

"**Annual review and amendment of the integrated development plan**

A municipal council-

(a) must review its integrated development plan-

(i) annually in accordance with an assessment of its performance measurements in terms of Section 41; and

(ii) to the extent that changing circumstances so demand; and

(a) may amend its integrated development plan in accordance with a prescribed process."

The first review of the Fifth Generation IDP 2022 - 2027 will be done during the 2022/23 financial year.

6.4 Staff Implications

This report has no additional staff implications for the Municipality.

6.5 Risk Implication

This report has no direct risk implications for the Municipality.

6.6 Previous / Relevant Council Resolutions

None.

Integrated Development Plan for 2022 – 2027

Compiled in terms of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)

The Integrated Development Plan is the municipality's principal five-year strategic plan that deals with the most critical development needs of the municipal area (external focus) as well as the most critical governance needs of the organisation (internal focus).

The Integrated Development Plan –

- is adopted by the council within one year after a municipal election and remains in force for the council's elected term (five years);
- is drafted and reviewed annually in consultation with the local community as well as interested organs of state and other role players;
- guides and informs all planning and development, and all decisions concerning planning, management and development;
- forms the framework and basis for the municipality's medium-term expenditure framework, annual budgets and performance management system; and
- seeks to promote integration by balancing the economic, ecological and social pillars of sustainability without compromising the institutional capacity required in the implementation, and by coordinating actions across sectors and spheres of government.

STRATEGIC OVERVIEW

Vision, Mission and Values

Foreword by the Executive Mayor

Cllr Adv Gesie van Deventer
Executive Mayor

And just like that, the 5th Generation Integrated Development Plan Process (IDP) has kicked off for the 2022 – 2027 term.

Local Government remains the closest Government body to our residents and communities, and as councillors in council, we were elected to serve the needs of our various communities or so-called 14 dorpies.

The importance of public participation in this process cannot be understated. We are however fortunate in Stellenbosch that our residents have, over the years, used this platform to engage the municipality on their relevant needs and add their valuable inputs.

This in turn greatly assists the municipality to plan accordingly and ensure sustainable growth throughout the WC024.

It further allows us, as a municipality, to continuously plan ahead, work diligently and deliver the services we are responsible for. The IDP creates the framework within which the municipality will fulfil its mandate and apply its budget.

This process is crucial for short, medium and long-term planning to enable us to implement projects and align them to the district, provincial and national governments.

As the first Mayor ever to be elected for a second term in Stellenbosch, I am grateful that I can continue the good work we have achieved thus far in the previous term, although we still have a lot to improve on.

The previous terms presented many challenges that prevented us from completing all our envisioned projects. The devastating effects that the COVID-19 pandemic had on our revenue stream, local businesses, tourism industry and communities cannot be ignored. The Western Cape also experienced the worst drought season in 2018, which required us to put certain measures in place to ensure that our residents had running water.

We had to make huge financial decisions to ensure that the municipality remained financially sound during this time, which we have been able to do.

While we are currently enjoying relaxed restrictions and starting to notice a slight increase in our revenue stream.

In my recent Adjustments Budget speech, I used a quote that remains true to me in my daily life. – "***Storms come and goes, and after every storm, there are new lessons to learn from".***

The storm is slowly passing, and we have learned a lot. There are a lot of exciting projects planned for the first review of the 5th Generation IDP, and I look forward to engaging the communities on these projects.

While we have a lot to look forward to, it remains important to reflect on what has been achieved during the 4th Generation IDP.

The storm is slowly passing, and we have learned a lot. There are a lot of exciting projects planned for the first review of the 5th Generation IDP, and I look forward to engaging the communities on these projects.

While we have a lot to look forward to, it remains important to reflect on what has been achieved during the 4th Generation IDP.

These are some of my biggest highlights from the previous term:

- We have successfully transferred more than 2 200 title deeds;
- Completed an update and reviewed the housing demand database;
- Started the first housing development in Ida's Valley in over 40 years;
- Commenced with feasibility studies to co-generate electricity and keep the lights on when load-shedding hits;
- Built and opened a brand new, world-class Material Waste Recovery Facility;
- Built the new Stellenbosch Wastewater Treatment Works, which was also the largest capital expenditure project in the history of the municipality;
- Increased the number of active neighbourhood watches to over 40;
- Opened a new library in Groendal;
- Constructed new taxi ranks in Klapmuts, Franschhoek and Kayamandi;
- Launched our 24-hour WhatsApp service – Let's Fix It.

These are just some of the highlights from the previous term. I would like to thank all role players who assisted and worked tirelessly to ensure that we continue to deliver world-class services, sustainable development and sound financial management.

Our aim for this term remains to be focused on the needs of our communities. They are the foundation of our municipality and their needs must at all times remain our priority.

Here are some of my priorities identified for this term, that will also be open for public participation.

- Non-negotiable, as always will be clean, accountable and responsive government with zero tolerance for corruption and illegal actions;
- First and foremost, we need to rekindle our local economy following the aftermath of the COVID-19 disaster. We have to look at new and creative policies to achieve this and create an environment conducive to business development, investment and job creation;
- Excellent service delivery for all areas within the greater Stellenbosch.
- A key priority will be to rid our beautiful municipality of the devastating effects of load shedding. It is killing our local economy and making the lives of our residents unbearable;
- We have researched it carefully and scientifically with the help of the CSIR and the US. The tender has been awarded and the first stakeholder meeting has been held;
- The burning issue of housing for our residents in all categories remains of utmost importance. All categories from rental stock, BNG, GAP housing, upgrade of informal settlements and mixed-use developments. We shall seek every possible opportunity in all ten dorpies across the municipality;
- We will continue with the projects started, that have not been completed. Ida's Valley, Cloetesville Soekmekaar, Longlands, Jamestown, Kayamandi.
- We shall seek new housing opportunities in Johannesdal, erf 64, La Motte Bosbou, and La Coline.
- I also acknowledge the plight of all still living in old Forestry towns and will lobby without a stop to the National Government to transfer those parcels of land to us to enable us to assist our residents. We shall expand our rental stock. Rural nodes like De Novo and Vaaldraai will also be pursued.
- Special attention will be paid to the plight of our backyarders who have been waiting for many years for better living conditions.

- The fantastic ADAM TAS live, work and play corridor will start implementation. This is an exciting project 7x bigger than the Waterfront, a great showcase of working with private partners, and a project changing the special configuration of the old order.
- We shall continue to expand our safety nets to create safer environments in our communities. More cameras to the existing 320, more law enforcement officers to be our eyes and ears on the ground, more Neighbourhood watches, and more vehicles and equipment.
- Planning systems and procedures will be streamlined to facilitate desirable growth,
- The burning issue of transfer of land to new farmers will be a priority. Stellenbosch Municipality possesses property that can achieve land reform for new farmers and create livelihoods and job creation. It must be stressed that it will be used to enhance the lives of our residents responsibly.
- My quest to hand over ownership of every possible title deed will continue with the same enthusiasm.

We will remain committed to the continuous updating and development of our IDP as well as the accompanying budget.

It is only through extensive public participation, to make sure that the community expresses their needs and that we plan and address them accordingly that we will be able to take our beautiful municipality to new highs and continue our journey to become one of the top municipalities in the country.

Hellen Keller once said that ***"Alone we can do so little, together we can do so much***".

Let's work together and remain committed to the development of our town.

_____

CLLR ADV GESIE VAN DEVENTER
EXECUTIVE MAYOR

Overview by the Municipal Manager

Geraldine Mettler
Municipal Manager

As we table the 5th Generation Integrated Development Plan, I am reminded of the great progress that has been made in positioning the Stellenbosch Municipality as one of the best-run municipalities in South Africa.

The inputs from our communities form the backbone of the entire IDP process and as such, new and innovative ways of communicating with our residents are always needed. Residents were provided with many different ways of interacting with us on the IDP and ward priorities. The Stellenbosch Citizen App, interactive pages on our municipal website, emails and a dedicated WhatsApp line became important tools to engage with communities.

Now that the worst of the COVID-19 lockdown regulations have been lifted and life has started to return to normal, we again look forward to engaging

With residents face-to-face at public participation meetings being planned across all areas.

The IDP provides us with a roadmap of where we are and where we want to be. It helps us to evaluate community needs, identify ward priorities and recommit to our strategic objectives.

It is therefore critical for us to reach as many residents as possible.

There are various key priorities that I would like the administration to focus on as part of the 5th Generation IDP and I would like to list some here:

- Fostering a customer-centric approach to basic services;
- E-governance (SMART CITY);
- Bulk infrastructure upgrades to ensure sufficient bulk capacity, critically important for economic development;
- Critical road infrastructure upgrades from a safety and development point of view;
- Clean, green electricity generation to ensure economic sustainability;
- Financial viability and sustainability through long term financial planning and prudent financial management;
- A zero-tolerance approach to corruption;
- Focus on social housing and gap housing to address the plight of backyarders and to provide dignified living opportunities to as many residents as possible;
- Finalising the Inclusionary Housing Policy to enable developers to assist with housing provision, especially in the gap market;
- Continuing with wealth creation through our title deed programme;
- The Adam Tas Corridor development - an excellent private-public partnership for sustainable urban development and inclusive growth;
- Improvements to business processes in our Planning Department;
- Establishment of a land invasion unit; and
- Continuing to improve on a safer environment, through adding to our existing cameras and surveillance networks as well as supporting and creating more neighbourhood watches.

We will continue to grow and develop our urban centres to realise a spatial future of which we can all be proud. Stellenbosch Municipality in collaboration with the Stellenbosch University and stakeholders are in the process of planning for the first smart city in the Cape Winelands. The objective is to promote social and technological innovation, entrepreneurship and the optimisation of existing infrastructure on a scale never seen before.

What we have achieved in the municipality is because of our commitment to working together, good governance practices, transparency and organisational stability. The fiscal discipline, operational restraint and sound corporate governance have positioned the municipality to weather the COVID-19, economic hardship and energy crisis storms. The IDP stands firm on the building blocks of the past term and aims to address the needs of our residents for the next five years in the same manner with the provision of quality services.

The years ahead should be a significant period of growth and development for our residents, now that so much groundwork has been completed. Together with the residents and stakeholders of the Stellenbosch Municipality, we can make our towns places of excellence and opportunity for all.

Let's work together to get things done!

_____

GERALDINE METTLER
MUNICIPAL MANAGER

CHAPTER 1:

Governance and Institutional Arrangements

1.1 Integrated Development Planning

The Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) mandates South African municipalities to formulate a five-year Integrated Development Plan (IDP) to inform the municipal budget and guide all development within the municipal area. The IDP is considered the municipality's principal strategic plan that deals with the most critical development needs of the municipal area as well as the most critical governance needs of the organisation.

As the principal planning instrument that guides and informs the municipal budget, the planning process has to provide a forum for identifying, unpacking and resolving the real issues that face the residents of Stellenbosch Municipality. Identifying these issues in consultation with communities makes it possible for the municipality to propose realistic and workable solutions that can be budgeted for, implemented and monitored in a controlled environment. These issues may be over-arching issues that affect the whole municipality or may only affect specific communities. It is therefore crucially important that the IDP be developed after the completion of a public participation process in which community stakeholders were thoroughly consulted. The plan is also developed in partnership with the provincial and national governments as well as the district municipality.

At the heart of the IDP lies the improvement in the provision of basic municipal services and expanding livelihood opportunities for the people of the Stellenbosch Municipality. The IDP also focuses on expanding and transforming municipal capacity, enterprise development and crucially, exploring new ways of working and living together. This is especially relevant in an ever-changing environment.

1.2 Compilation and Legal Status of the 5th Generation Integrated Development Plan (IDP) 2022 – 2027

SECTION 35(1) OF THE MSA

An IDP is adopted by the council of a municipality:

(a) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development, in the municipality;

(b) binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's integrated development plan and national or provincial legislation, in which case such legislation prevails; and

(c) binds all other persons to the extent that those parts of the integrated development plan that impose duties or affect the rights of those persons have been passed as a by-law.

CHAPTER 5 AND SECTION 26 OF THE MSA

Core components of IDPs: An integrated development plan must reflect-

(a) The municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;

(b) An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;

(c) The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;

(d) The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;

(e) A spatial development framework which must include the provision of basic guidelines for a land-use management system for the municipality;

(f) The council's operational strategies;

(g) Applicable disaster management plans;

(h) A financial plan, which must include a budget projection for at least the next three years; and

(i) The key performance indicators and performance targets determined in terms of section 41.

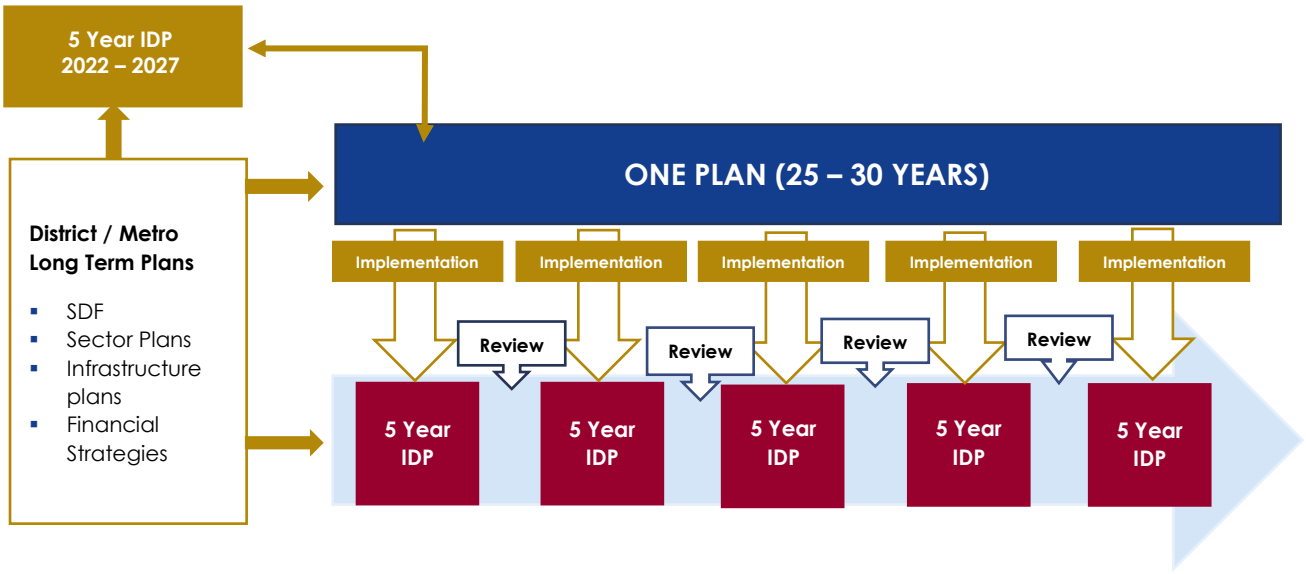
The IDP is informed by a leadership agenda – as contained in national and provincial policy documents – as well as the needs of local citizens and public, private and community organisations. It directs and is informed by different aspects of the municipality's work, including how the municipality is structured politically and administratively, the municipal budget, the sector plans and service delivery and budget implementation plans of different municipal services, and how the municipality manages its performance.

The 5th Generation IDP 2022 – 2027 outlines the following chapters:

- Chapter 1: Governance and Institutional Arrangements
- Chapter 2: State of the Greater Stellenbosch Area;
- Chapter 3: The Strategic Policy Context;
- Chapter 4: Spatial Development Framework;
- Chapter 5: One Plan: Service Delivery, Budget, Programme and Projects;
- Chapter 6: Sector Planning and Implementation;
- Chapter 7: Council Term Projects 2022 – 2027;
- Chapter 8: Public Interest and Expression of Needs (Community Participation);
- Chapter 9: Financial Plan;
- Chapter 10: Organisational Scorecard (5 Years); and
- Chapter 11: Implementation, Monitoring and Review (1- year).

1.3 Relationship between the IDP, Budget, Performance management and Risk Management

The IDP Process, together with the performance management process, should be seamlessly integrated, where the IDP ensures that the planning stage for performance management occurs and performance management fulfils the implementation, monitoring and evaluation of the IDP process. This is prescribed according to the Performance Management Guide for Municipalities, DPLG, 2001.



The role of the Budget is to attach money to the objectives that are contained in the IDP and the Budget gets monitored through the Service Delivery Budget Implementation Plan (SDBIP). The IDP, therefore, provides the strategic direction for the municipality, whereas the Budget should ensure the implementation of the IDP.

Risk Management is one of management's core responsibilities according to section 62 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) and is an integral part of the internal processes of a municipality. It is a systematic process to identify, evaluate and address risks continuously before such risks can impact negatively on the service delivery capacity of the Stellenbosch Municipality. Risk management provides reasonable assurance that the institution will be successful in achieving its goals and objectives.

1.4 Relationship between the IDP and One Plan

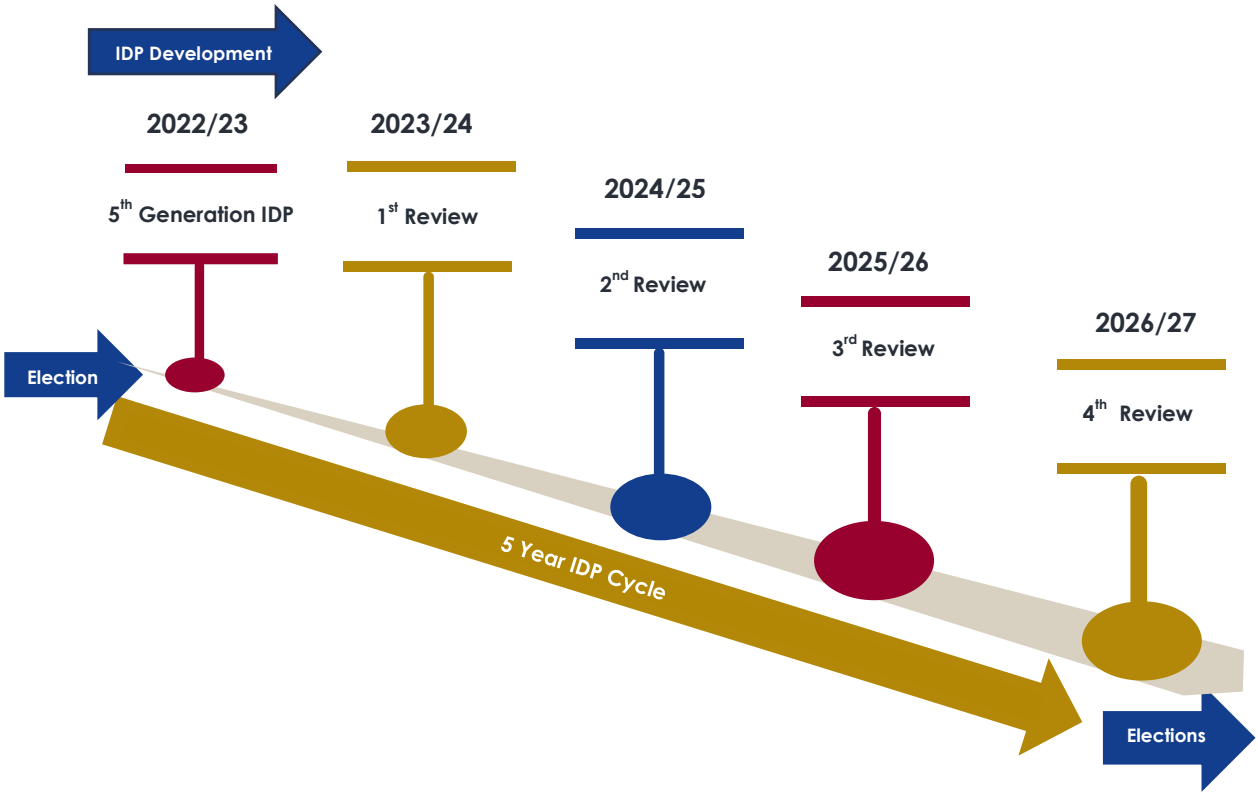
The One Plan does not replace the Integrated Development Plan (IDP) of the municipality as the "single, inclusive and strategic plan for the development of the municipality". It is envisaged that the One Plan will strengthen and enhance the IDP and other plans of the municipalities. It is foreseen to provide greater certainty and direction for the IDP. During the development of the One Plan, the IDP informed the One Plan. However, after approval of the One Plan, the IDP will be directed by the strategies and priorities outlined in the One Plan. In this regard, the IDP will be the vehicle through which implementation of the One Plan will happen at the local government level.

Figure 1: Relationship between One Plan and IDP

1.5 The IDP and Ward Plans

The **twenty -three (23)** ward plans, include:

- A consensus on priorities for the relevant ward(s);
- An implementation plan; and
- The capital budget is available for the relevant wards, including the small capital budget.



Ward plans help to ensure that the IDP is more targeted and relevant to addressing the priorities of all groups, including the most vulnerable. These plans provide Ward Committees with a systematic planning and implementation tool to perform their roles and responsibilities. They form the basis for dialogue between the municipality and Ward Committees regarding the identification of priorities and budget requests and will also be used by Ward Committees for ongoing monitoring and evaluation throughout the year. The information is however on a detail level and not duplicated in the IDP, but a detailed Ward Plan is available on request.

1.6 The IDP Planning Process (five-year cycle)

According to the MSA, every new council that comes into office after the local government elections have to prepare its IDP that will guide them for the five years that they are in office. The IDP is, therefore, linked to the five-year term of office of Councillors. This does, however, not restrict all proposals in the IDP to five years. The strategic goals that are part of the municipality's strategy all have a longer than five-year horizon, similar to the Spatial Development Framework (SDF) of the municipality.

A clear distinction must also be made between the main IDP which is compiled every five years (or if a new council comes into power within the five-year period and does not accept the previous council's IDP) and the annual review of the IDP. The annual review is not a replacement for the five-year IDP, and its purpose is not to interfere with the long-term strategic orientation of the municipality. The annual review reflects and reports on progress made concerning the five-year strategy (and strategic goals) and proposes adjustments to the strategy, if necessary, because of changing internal and external circumstances that impact the appropriateness of the IDP.

Figure 2: Five–Year IDP Development and review cycle

1.7 Roles and Responsibilities

Section 53 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) stipulates inter alia that the respective roles and areas of responsibility of each political structure and political office bearer of the municipality and the Municipal Manager must be defined.

Figure 3: Roles and Responsibilities

Executive Mayor and Municipal Council

In terms of the MSA and the MFMA, the Executive Mayor must:

- Manage the drafting of the IDP;
- Assign responsibilities in this regard to the Municipal Manager;
- Submit the draft plan to the municipal council for adoption; and
- Co-ordinate the annual revision of the IDP and determine how the IDP is to be taken into account or revised for the purposes of the Budget.

The Municipal Council

- The Council is the ultimate decision-making authority.
- Decisions to approve or amend the municipality's IDP may not be delegated and have to be taken by the full Council.

Proportional Councillors, Ward Councillors and Ward Committee Members

- Assist with public participation process.
- Assist the ward councillor (who is the chairperson) in identifying challenges and needs of residents.
- Provide a mechanism for discussion and negotiation between different stakeholders in the ward;
- Interact with other forums and organisations on matters affecting the ward;
- Draw up a ward plan that offers suggestions on how to improve service delivery in the particular ward;
- Disseminate information in the ward; and
- Monitor the implementation process concerning its area

Municipal Manager and Management Team

- Provide technical / sector expertise and information;
- Provide inputs related to the various planning steps;
- Summarise / digest / process inputs from the participation process;
- Discuss and comment on inputs from specialists; and
- Address inputs from and give feedback to the community.

1.8 Municipal Council

The Council performs both legislative and executive functions. It focuses on legislative, oversight and participatory roles, and has delegated its executive function to the Executive Mayor and the Mayoral Committee. Its primary role is to debate issues publicly as well as facilitate political debates and discussions. Apart from their functions as policymakers, Councillors are also actively involved with community work and in the various social programmes in the municipal area.

Stellenbosch Municipality is represented by 45 councillors of whom 23 were elected directly as ward councillors. The rest of the councillors were elected based on the proportion of votes cast for the different political parties. The political composition of the Council is as follows:

Table 1: Council Political Representation

Political Party	Number of Councillors
Democratic Alliance (DA)	**28**
African National Congress (ANC)	**8**
GOOD	**3**
Economic Freedom Fighters (EFF)	**2**
African Christian Democratic Party (ACDP)	**1**
People's Democratic Movement (PDM)	**1**
Patriotic Alliance (PA)	**1**
Vryheidsfront Plus (VF)	**1**
Total	**45**

Below is a table that categorises the Councillors within their respective political parties and wards.

Table 2: Ward Councillors and Proportional Councillors

No.	Name of Councillor	Capacity	Political Party	Ward Councillor and Proportional (PR)
1.	G van Deventer (Adv)	Executive Mayor	DA	PR

1.8.1 Executive Mayor and Mayoral Committee (MayCo)

The Executive Mayor of the municipality, assisted by the Mayoral Committee, heads the political executive arm of the municipality. The Executive Mayor is at the centre of the system of governance since executive powers are vested in the executive mayor to oversee the day-to-day affairs. This encompasses an overarching strategic and political responsibility. The key element of the executive model is that executive power is vested in the Executive Mayor, in addition, delegated powers by the Council were assigned. Although accountable for the strategic direction and performance of the municipality, the Executive Mayor operates in consultation with the Mayoral Committee.

Table 3: Executive Mayor and Mayoral Committee (MayCo)

Name of member	Portfolio
Alderman G van Deventer	Executive Mayor
Cllr J Fasser	Deputy Executive Mayor, including Integrated Human Settlements
Cllr P Johnson	MayCo member: Financial Services
Cllr Z Dalling	MayCo member: Infrastructure Services
Cllr R Badenhorst	MayCo member: Protection Services
Cllr L Mkamisa	MayCo member: Corporate Services
Cllr R Adams	MayCo member: Youth, Sport and Culture
Cllr J Williams	MayCo member: Rural Management
Cllr R du Toit	MayCo member: Local Economic Development and Tourism
Cllr J Joon	MayCo member: Community Development (Parks, Open Spaces and Environment)
Cllr C van Wyk	MayCo member: Planning

1.8.2 The Administration

The Municipal Manager is the Chief Accounting Officer of the municipality. The Municipal Manager is the head of the administration and primarily has to serve as the chief custodian of service delivery. The Municipal Manager is assisted by the Management Team that reports directly to the Municipal Manager. The structure of the Management Team is outlined in the diagram below:

Figure 5: Municipal Management Team

Geraldine Mettler
Municipal Manager
Strategic Management; Internal Audit; Corporate Governance; Risk Management; Intergovernmental Relations; International Relations; Integrated Development Planning; Organisational Performance Management; Communications; and Knowledge Management.

Annalene de Beer
Director: Corporate Services
Administrative Services; Legal and Compliance; Human Resources Management; Individual Performance Management; Information and Communication Technology; Councillor's Support; Committee Services; Municipal Court; and Properties Management and Municipal Building Maintenance.

Anthony Barnes
Director: Planning and Economic Development
Development Management; Development Planning; Integrated Human Settlements; Building Management; Heritage Resource Management; Spatial Planning and Land Use Management; Local Economic Development and Tourism, Housing Development; Informal Settlements; and Housing Administration.

Kevin Carolus
Chief Financial Officer
Revenue Management; Expenditure Management; Budget Preparation and Management; Management of Financial Statements; Supply Chain Management; Financial Systems; and Asset Management.

Deon Louw
Acting Director: Infrastructure Services
Roads, Transport and Storm Water; Water and Wastewater Services; Electrical Services; Waste Management; and Infrastructure Planning, Development and Implementation.

Gary Boshoff
Director: Community and Protection Services
Community Development; Protection Services; Disaster Management and Fire Services, Traffic and Law Enforcement Services; Library Services; Parks and Cemeteries; Recreation, Sport and Halls; and Environmental Management.

1.9 First Year Process Followed

The table below, reflects the preparation for the 5th Generation Integrated Development Plan 2022 – 2027.

Table 4: Preparation for the first year of the 5th Generation IDP 2022 – 2027

Date	Action(s)
July / August 2021	• Approval of the mSDF / IDP / Budget Process Plan / Time Schedule. • Cape Winelands District Municipality hosted a discussion session on the Section 27 Framework.
September 2021 – November 2021	• With the Local Government Elections completed in November 2021, it was critical for the municipality to carefully manage the process to ensure compliance with legislation and the successful development of the 5th Generation IDP 2022 – 2027, therefore an Amended mSDF / IDP / Budget Process Plan / Time Schedule was submitted to Council on 23 November 2021 for consideration and approval. • The IDP public participation period started on **29 November 2021** and ended on **12 January 2022**. • A link to access IDP pre-recorded videos was published on the municipal Youtube Channel, shared via Facebook, Twitter, WhatsApp, Stellenbosch Citizen App and on the municipal website. Feedback was also provided on the implementation of projects per ward. • An electronic written submission form was created on the municipal website for the community and stakeholders to provide input into the development of the 5th Generation IDP 2022 – 2027. This website link (URL) was shared via Facebook, Twitter, WhatsApp and the Stellenbosch Citizen App. • Hard copies of the submission form were also made available at all libraries and ward offices.
December 2021 - February 2022	• An Online Sector Engagement was held on **11 January 2022** to determine the sector needs and collectively devise plans to address the needs. • MayCo and management had a strategic session from **13 – 14 January 2022** to consider the external and internal analysis and strategies around the 5-year development priorities and operational strategies (programmes / projects / activities and actions). • Departmental sessions were held with all departments to set their 5 – year implementation plans for the 5th Generation IDP 2022 – 2027.
March 2022 – April 2022	• The Process Plan for 2022 – 2027 to guide the planning, drafting, adoption and review of the 5th Generation IDP 2022 – 2027 was approved by the Council on **30 March 2022**, for public comment for 21 days. • A second revision of the SDF / IDP / Budget Time Schedule for 2022/23 was submitted to the Council on **30 March 2022** for consideration and approval, which in effect moved the adoption of the Process Plan to May 2022. This was done to ensure compliance and alignment between the MSA Section 27 Framework of the CWDM and the Process Plan for 2022 – 2027 of the Stellenbosch Municipality. • The draft 5th Generation IDP 2022 – 2027 and draft MTREF 2022/23 – 2024/25 for Stellenbosch Municipality was submitted to the Council on **30 March 2022** for consideration and approval to be released for public comments. • The IDP and Budget public participation process within the Stellenbosch Municipal area commenced on **04 – 28 April 2022.** • Inputs and comments on the draft 5th Generation IDP 2022 – 2027 and draft MTREF 2022/23 – 2024/25 will be compiled and distributed to the directorates for consideration in finalising the IDP and Budget.
May – June 2022	• Adoption of the final IDP and Budget, Tariffs and Budget related policies. • Submit adopted IDP to Cape Winelands District Municipality, Provincial Government and National Treasury. • Approval of SDBIP by the Executive Mayor within 28 days after adoption of the IDP and Budget.

1.10 Corporate Governance

Corporate Governance is the set of processes, practices, policies, laws and stakeholders affecting the way an institution is directed, administered and controlled. Corporate governance also encompasses the relationships among the many stakeholders involved and the goals for which the institution is governed.

1.11 Risk Management

Section 62 of the MFMA, states that the Accounting Officer should take all reasonable steps to ensure that the municipality has and maintains effective, efficient and transparent systems of financial and

risk management and internal control, as well as the effective, efficient and economical use of the resources of the municipality.

Certain risks have also been revised to ensure that the municipality can appropriately respond to the impact of these risks on municipal service delivery taking into account the changing external and internal factors. Provision was also made for ineffective service delivery due to geopolitical instability and the impact of Ukraine and the Russian war on global commodities in particular fuel.

The top **5 strategic** risks identified include:

- R **01** Availability and cost of electricity
- I **02** COVID-19 Pandemic
- S **03** Increased risk of land invasion
- K **04** Scarcity of landfill space
- S **05** Economic downturn due to civil unrest and crime

The municipal risks have been aligned to the Integrated Development Plan (IDP) through linkages to the Strategic Focus Areas (SFAs). The following table depicts these linkages:

Table 5: Risk and IDP Alignment

Strategic Risks						
Risk Item	**Risk Description**	**Risk Background**	**Strategic Focus Areas**	**Impact Rating**	**Likelihood Ratings**	**Directorate**
1	Availability and cost of electricity.	Unavailability of suitable land; costs of SLAs and alternative waste disposal; legislative requirements i.e. EIA applications and approvals etc	Green and Sustainable Valley, Dignified Living	**10**	**10**	Directorate: Infrastructure Services
2	Increased risk of land invasion.	Legal precedents set under disaster management declaration limiting the municipal scope to evict. Illegal invasions and land grabs. Compromising housing development and housing opportunities	Dignified Living, Safe Valley, Financial Sustainability, Good Governance and Compliance	**10**	**10**	All Directorates
3	COVID - 19 Pandemic.	Manage the COVID-19 pandemic within the context of the prescribed regulations, taking the possible 4th wave and intensity of new infections into account.	Safe Valley, Dignified Living	**10**	**8**	All Directorates
4	Scarcity of landfill space.	Unavailability of suitable land; costs of SLAs and alternative waste disposal; legislative requirements i.e. EIA applications and approvals etc.	Green and Sustainable Valley	**10**	**8**	Directorate: Infrastructure Services
5	Economic downturn due to civil unrest and crime.	Increase in criminal activities, civil unrest, and reputational risk due to perceived increase in the said activities.	Dignified Living, Safe Valley	**10**	**8**	Directorate: Community and Protection Services

Strategic Risks						
Risk Item	**Risk Description**	**Risk Background**	**Strategic Focus Areas**	**Impact Rating**	**Likelihood Ratings**	**Directorate**
Operational Risks						
1	Insufficient burial space in the greater Stellenbosch	Planning and funding; land availability. Insufficient funding.	Dignified Living	**8**	**8**	Directorate: Community and Protection Services
2	Timeous Capital Spending	A steady increase in budget allocation; growing population and demand for services; demand management.	Good Governance and Compliance	**10**	**4**	Directorate: Financial Services
3	Business Continuity	Disasters, electricity outages; hacking of systems.	Good Governance and Compliance	**8**	**4**	Directorate: Corporate Services
4	Climate Change	Changing weather patterns, unpredictable rainfall, flash floods, drought natural disasters, fires (seasonal and other).	Green and Sustainable Valley; Safe Valley	**8**	**4**	Office of the Municipal Manager
5	High Vacancy Rate	A skilled and capable workforce is necessary to support growth objectives, and quality and timeous service delivery needs to be provided by all departments.	Good Governance and Compliance	**8**	**4**	Directorate: Corporate Services

1.12 Anti – Corruption and Anti – Fraud

SECTION 83(C) OF THE MSA

Refers to the implementation of effective bidding structures to minimise the possibility of fraud and corruption.

SECTION 115(1) OF THE MFMA

States that the accounting officer must take reasonable steps to ensure that mechanisms and separation of duties in a supply chain management system are in place to minimise the likelihood of corruption and fraud.

SECTION 62(1) OF THE MFMA

States the following "the accounting officer of a municipality is responsible for managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure: –

(a) That the resources of the municipality are used affectively, efficiently and economically;
(b) That the full and proper records of the financial affairs are kept in accordance with any prescribed norms and standards;
(c) That the municipality has and maintains effective, efficient and transparent systems –
    (i) Of financial and risk management and internal control;
    (ii) Of internal audit operating in accordance with any prescribed norms and standards;
(d) That unauthorised, irregular of fruitless and wasteful expenditure and other losses are prevented; and
(e) That disciplinary or, when appropriate, criminal proceedings are instituted against any official of the municipality who has allegedly committed an act of financial or an offence in terms of Chapter 15."

1.13 Audit and Performance Audit Committee (APAC)

The Municipal Audit and Performance Audit Committee (APAC) (refer to Table below for members of the Audit Committee), appointed in terms of section 166 of the MFMA, has also been appointed as the Performance Audit Committee. Section 166(2) of the MFMA states that an audit committee is an independent advisory body that must:

(a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to: –

- internal financial control and internal audit;
- risk management;
- accounting policies;
- the adequacy, reliability and accuracy of financial reporting information;
- performance management;
- effective governance;
- compliance with this Act, the annual Division of Revenue Act, 2013 (Act No. 2 of 2013) and any other applicable legislation;
- performance evaluation; and
- any other issues referred to it by the municipality.

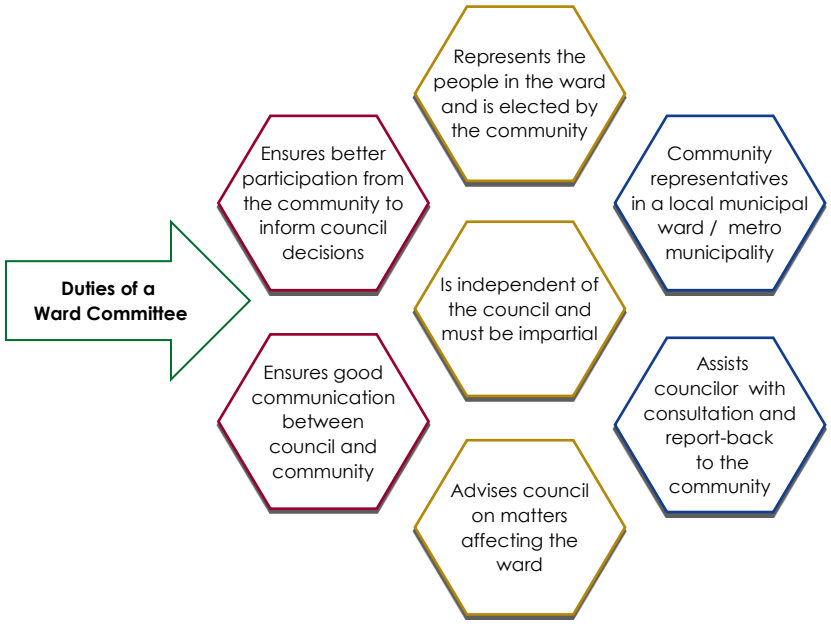

Table 6: Members of the Audit Committee

Name of representative	Capacity
Dr NL Mortimer (Mr)	Chairperson
J Williams (Ms)	Member
V Botto (Mr)	Member
T Lesihla (Mr)	Member

1.14 Ward Committees

Stellenbosch Municipality has a Ward Committee system in place, which plays a crucial role in achieving the aims of local governance and democracy, as mentioned in the Constitution of 1996. A Ward Committee is independent of the council and not politically aligned. The figure below depicts the main duties of the Ward Committees.

Figure 6: Main duties of the Ward Committee (insert new diagram)

1.15 Stakeholders

To ensure effective service delivery, high levels of cooperation must exist between all three spheres of government. Effective inter-governmental relations (IGR) structures are especially important to the developmental role of municipalities. This role can only be fulfilled through the active involvement of all spheres of government in the setting of priorities, resource allocation and development planning.

The demonstration of the importance of partnerships for the municipality is illustrated in the table below.

Table 7: Key Stakeholders

Name of Partner	Purpose of MOU / MOA
@ Heart	The @heart partnership is a long-standing relationship built on experience with youth work and HCT testing from a municipal facility.
City of Cape Town and Drakenstein Municipality	Partnership through the Greater Cape Metro Regional Spatial Implementation Framework has been initiated to improve coordination around the development of the Klapmuts area.
Community structures (Forums, ECD centres, religious fraternities, etc.)	Aim to promote and implement: • platforms to share knowledge; • disaster risk reduction initiatives; • community safety programmes; and • campaigns to promote safe resilient sustainable communities.
CSIR (Council of Scientific and Industrial Research)	A partnership aimed at multidisciplinary research and development by supporting innovation in Stellenbosch.
Department of Education	Aims to promote a culture of prevention, preparedness and resilience at all levels through knowledge, innovation and education.
Department Social Development, DCAS, Cape Winelands District Municipality	Joint implementation of programmes focusing on common issues within WC024.
Disaster Management Advisory Forum	An advisory forum on all safety issues as well as remedial measures implemented to address and alleviate and / or minimise risks.
Executive Mayor and Rector Forum	A partnership with the University of Stellenbosch to ensure aligned development planning and that the municipality draws from the University's expertise and resources.
Memorandum of Cooperation between the Stellenbosch Municipality and Stellenbosch University (SU)	Cooperation in terms of closed-circuit television in the interest of the security of the town and the campus with a view to a crime-free university town.
Genius of Space	This initiative developed from and forms part of the Western Cape 110% Green Initiative. The Biomimicry Genius of Space project is a registered flagship project of 110% Green. This initiative combines two priorities of the Western Cape Government – the Berg River and the Green Economy – to find an innovative solution to water pollution in the Berg River.
Green Cape	The Green Cape partnership represents cooperation with the Province's 110% green initiatives, focusing on alternative waste management initiatives and energy efficiency.
HeartFlow	Helping people on the fringes of society. Provide paper coupons that can be exchanged for a stay at the night-shelter, a blanket or a meal. The programme was extended to include an electronic app through which said coupons can be bought to benefit people living on the street.
ICLEI (International Council for Local Environmental Initiatives)	A partnership between the City of Cape Town, ECLEI and Stellenbosch Municipality to discuss developments in Transport, Waste and Electricity Generation, towards ensuring sustainability.
IMESA (Institute for Municipal Engineers South Africa)	A partnership with IMESA aimed at strengthening knowledge and capacity related to municipal infrastructure and service delivery.
Infrastructure Innovation Committee (IIC)	A partnership with the University and other stakeholders aimed at exploring sustainable and innovative infrastructure provisions to meet the needs of the municipality and achieve future sustainability.
Integrated Development Committee (IDC)	A partnership with the University and other stakeholders aimed at exploring spatial and urban planning possibilities for Stellenbosch to meet the needs of the municipality and University.

Name of Partner	Purpose of MOU / MOA
IPC (Integrated Planning Committee)	The Integrated Planning Committee is a working group between the City of Cape Town, Stellenbosch, Saldanha Bay, Overstrand, Theewaterskloof, and Drakenstein Municipality that discuss all transport-related matters to effectively promote regional planning.
Landfill Monitoring Committee	A partnership with the Devon Valley residents, whereby residents monitor the Stellenbosch landfill site.
LTAB (Land Transport Advisory Board)	A partnership was formed between political leaders to discuss Land Transport related matters that affect transport in the area.
NMT (Non-motorised Transport) Working Group	A working group that discusses all Non-Motorised Transport matters in the Stellenbosch area. The group consists of NMT users, officials, representatives from the University and the disabled fraternity.
Provincial Disaster Management Centre, Cape Winelands District Municipal Disaster Management Centre	Aims to promote the development, implementation and maintenance of effective services within its area of jurisdiction.
Provincial Waste Management Officer's Forum	Quarterly Meetings (All designated Waste Management Officers of Western Cape engage with the Provincial Government's Waste Management Department (D:EA&DP on issues relating to policy, best practice, etc.)
Ranyaka	Sustainable and integrated solutions to the challenges facing towns, neighbourhoods and communities.
Roads Safety Management	Assisting with schools and education, special projects, e.g. Learners license classes.
Safety Forum	An advisory forum to the Executive Mayor on all safety issues as well as remedial measures implemented to address and alleviate threats.
SALGA Municipal Benchmarking Committee	A partnership aimed at improving efficiency and effectiveness through comparative process benchmarking, peer-to-peer operational knowledge sharing, and interactive performance improvements.
SCORE	Youth Sport Development at the Indoor Sport Centre, Franschhoek.
Stellenbosch Alternate Energy Research	A joint working relationship is being launched among the University of Stellenbosch, Council for Scientific and Industrial Research, Western Cape Government and the municipality to investigate the generation of alternate electricity to combat load shedding from Eskom.
Visit Stellenbosch	A partnership with the umbrella tourism body for the Greater Stellenbosch area aimed at growing and sustaining the municipality's tourism industry and broadening tourism-related benefits.
Social Housing Regulatory Authority (SHRA)	An informal working partnership on promoting and implementing Social Housing within the Stellenbosch Municipal area.
Stellenbosch Gotland Municipality Partnership	A partnership with Gotland municipality focusing on programmes in local economic development.
Stellenbosch Heritage Foundation	The initiative is aimed at providing support to the municipality on the interactive website of the Heritage Foundation and assisting with the compilation of the heritage inventory.
Stellenbosch Infrastructure Task Team (SITT)	A partnership with the University of Stellenbosch and other stakeholders aimed at exploring sustainable infrastructure provision to meet the needs of the municipality.
Stellenbosch Night Shelter	A partnership to enable appropriate management of the municipal night shelter.
Stellenbosch River Collaborative Steering Committee	A partnership was formed between various role-players to improve the water quality in the Eerste River catchment, with the focus being on the Plankenbrug river.
Mobility Forum and NMT Working Group	A Mobility Forum and NMT Working Group were established to discuss transport-related matters that affect the Stellenbosch, including all relevant governmental institutions and other role-players.
University of Stellenbosch – Student Representative Council	A partnership with the University, whereby students provide: • relief aid (clothing, food); • placement of students to assist during incidents / disasters; and • awareness programmes.
University of Stellenbosch – Department of Geography and Environmental Studies	A partnership with the University and other stakeholders focusing on strengthening community-based risk assessment capabilities in disaster-prone areas.
University of Stellenbosch – Maties Sport: Community Interaction	A partnership striving for excellence in meeting the needs of the youth through innovative and sustainable programmes to disseminate information on risk avoidance, hazards and their effects and preventative activities.

Name of Partner	Purpose of MOU / MOA
Western Cape Planning Heads Forum	A partnership with all local municipalities within the Western Cape and the Western Cape Government Department of Environmental Affairs and Development Planning is aimed at the sharing of best practices and improving coordination on matters related to the Spatial Planning and Land Use Management sector.
Western Cape Government Department of Environmental Affairs and Development Planning.	A partnership around the implementation of the Adam Tas Corridor Catalytic initiative.
Western Cape Government Department of Environmental Affairs and Development Planning.	A Partnership around the development of an Inclusionary Housing Policy Framework for Stellenbosch Municipality.
Western Cape Government Department of Environmental Affairs and Development Planning.	A Partnership through the Greater Cape Metro Regional Spatial Implementation Framework has been initiated to improve coordination around the development of the Klapmuts area.
Western Cape Department of Public Works, Roads and Transport	As part of the Provincial Sustainable Transport Programme (PSTP) the Western Cape Department of Public Works, Roads and Transport identified Stellenbosch as a priority municipality for the development of a sustainable transport system. The emphasis will be on the development of a public transport system and the development of infrastructure to improve non-motorised transport.
Western Cape Recycling Action Group Forum	Quarterly Meetings (meetings involving the private sector, industries and government in terms of waste minimisation initiatives).
WOF (Working on Fire)	A partnership aimed at promoting capacity building through various programmes helps to develop social cohesion.

CHAPTER 2:

State of the Greater Stellenbosch Area

2.1 Introduction

Stellenbosch Municipality is located at the edge of the City of Cape Town but still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town's central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa's top (air) links to the global economy, and not much further away from Cape Town harbour, the shipping portal to both the Atlantic and the Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it can sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality's area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as a number of rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniël, Johannesdal, Languedoc, Groot Drakenstein, Muldersvlei, Klapmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vlottenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes a number of informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and several prestigious schools. It has a strong business sector, varying from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars abound and the area is the home of the very first Wine Route in South Africa. A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over many generations. The Municipal area has a nuseveralatres, which include the Stellenbosch University's HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorp Street at Theatre and Aan de Braak Theatre.

2.2 Ward Demarcation

The Stellenbosch Municipality is currently structured into the following **23** wards:

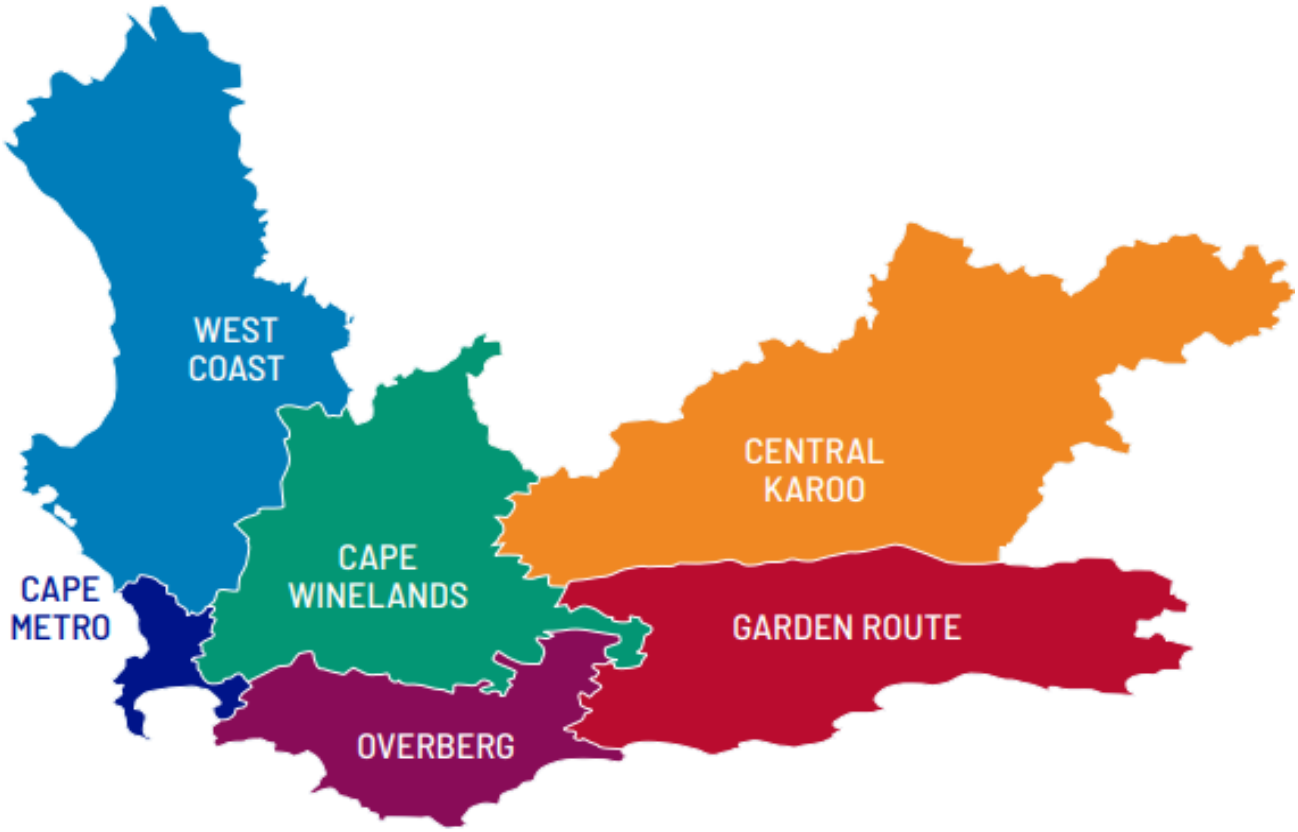

Table 8: Municipal ward demarcation

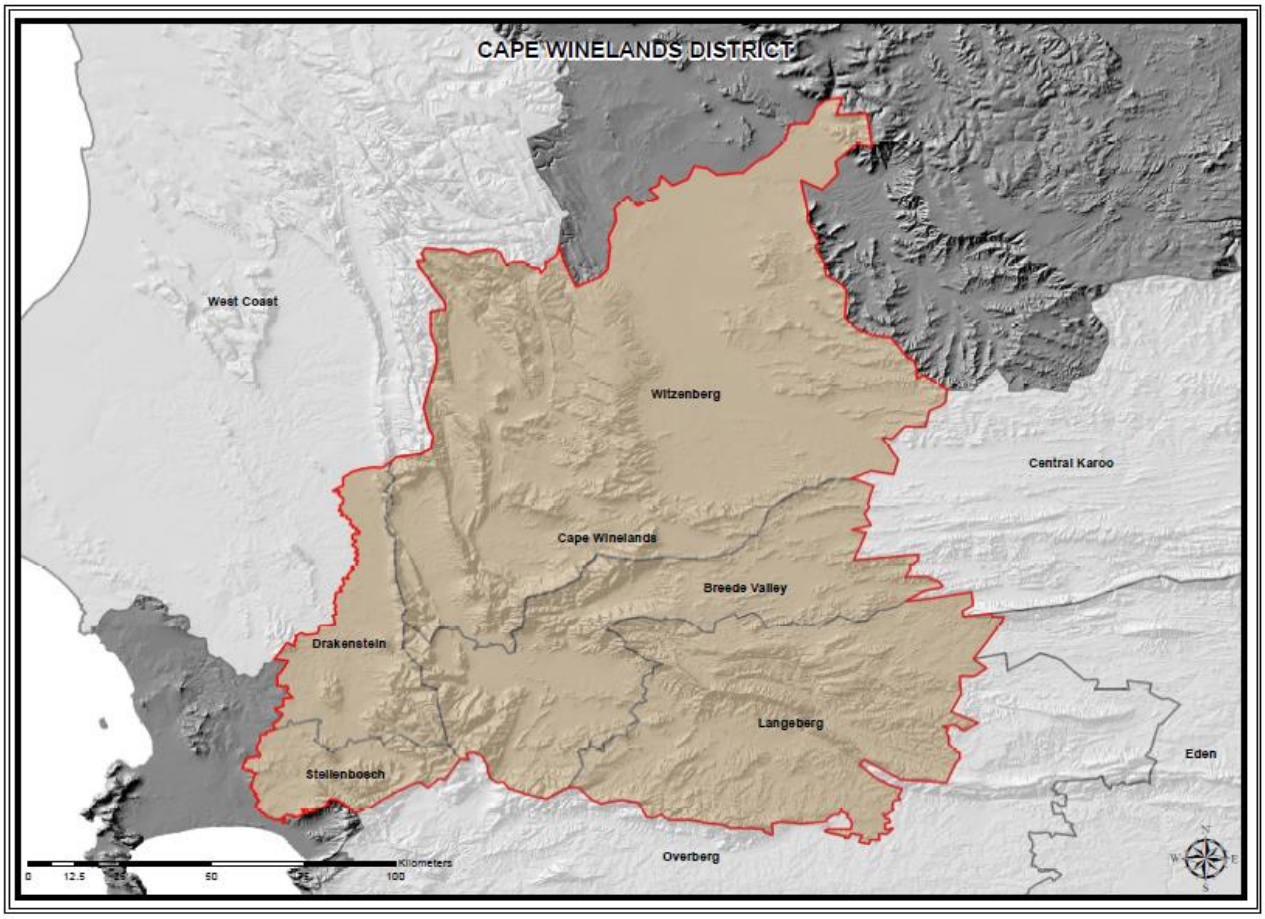
Ward	Areas
1	Mooiwater, Franschhoek Town and Surrounding Farms
2	Langrug, La Motte, Dennegeur, Groendal
3	Lanquedoc, Wemmershoek to La Motte Wine Farm and Leopard Leap Wine Farm
4	Kylemore, Johannesdal, Pniël and Surrounding Farms
5	Ida's Valley (Hillside Village, La Gratitude Park (Kreefgat), The Ridge, La Roche, Lindida, Bloekomlaan(Moses / Martin) Lindley)
6	The Hydro, Rustenberg and Surrounding Farms, Kelsey Farm
7	Mostersdrift, Karindal, Rozendal, Uniepark, Simanswyk and Unirversiteitsoord
8	Stellenbosch University campus and university residence area; Coetzenburg, (partially:) Koloniesland
9	Stellenbosch CBD, Part of US campus (residential areas within both these areas), Southern border is the Eerste River, Northern border is Merriman Street, Eastern border is Die Laan and the Western border is Bird Street
10	Tennantville, Lakay Street, Titus Street, Langsuid Street up to Lakay Street, Tennant Street, Lapan Street, Bell Street, Bird Street, La Colline (Dr Malan Street, Dan Pienaar Street, Paul Roos Street, Tobruk Park, Irene Park, La Colline Road, Conde Street, Taylor Street, Mount Albert Street), Kromrivier Road, Jan Celliers Street, Hammanshand, Ds Botha Street, Voorplein Street, Bird Street, Langenhoven Street, Du Toit Station, Ryneveld Street, Karee Street, Olienhout Street, Banghoek Rd, Acedemia, Bosman Street, Smuts Rd, Joubert Street, De Beer Rd, De Villiers Rd from Ryneveld Street to Cluver Rd on the lefthand side
11	Boundaries of the ward are: Kridge Rd, Herte Street, Skone Uitsig Rd onto Alexander Street onto Du Toit Street toward Merriman Avenue towards Adam Tas Rd onto George Blake Street, Mark Street, Distillery Rd, Santhagen Rd, Swawel Avenue, Kanarie Rd, Tarentaal Rd, Bokmakierie Rd, Fisant Rd, Devon Valley Rd, Kiewiet Rd, Dagbreek Rd, Pelikaan Street, Patrys Rd, Hammerkop Rd, Loerie Rd, Muldersvlei Landgoed, and all areas in Onder Papegaaiberg and businesses
12	Kayamandi: Zone A, Chris Hani Drive, 10th and 13th Street, School Crescent, Snake Valley, Enkanini, Watergang, Watergang TRA 2 and Watergang Informal Settlements
13	Kayamandi: Zone J, Red Bricks, Zone K and L, Hostels, Dairy and University Hostels, Old Bricks Houses Red Roofs, Zwelitsha, Costaland
14	Kayamandi: Zone P, I, F, D and O, Costaland, Marikana, Watergang, Smarties (Mgabadeli Street), Monde Crescent
15	Kayamandi: Zone M, N, O, 4th and 5th Avenue, 10th, 12th and 14th Street, Long Street, Retreat Street, Forest Drive
16	The borders are Tenant Rd, Long streets, Crombi Rd to end of Gabriels Rd. Asalea Rd, 2nd Road, Noble Rd, Bailey Rd, Eike Street, Curry Street, Hoop Rd, Pansy Rd, West Rd, Laai Rd, Anthony Rd, Carriem Rd, Archilles Rd, Bergstedt Rd, Davidse Rd, Cupido Rd, Pearce Rd, Robyn Rd, Gonzalves Rd, Hercules Rd, Chippendale Rd, Afrika Rd, Arnolds Rd, September Rd, Jakaranda Street, Short Rd, Quarry Rd, Middle Rd, Primrose Street, Pine (Bo en Onder), North End, Vredelust, Gemsbok, Daffodil Single, Steps, Sylvia Street, Eiland Street, Last Street (White City), Frikkadel Dorp, September Street
17	A part of Cloetesville (Lakay Rd towards Langstraat -Suid Rd, Kloof Street, Fir Street, Fontein Rd, Williams R towards Gabriels Rd towards February Rd, Valentyn Rd, Pool Rd, Raziet Rd, Ortell Rd, Rhode Rd, King Rd, Hine Rd, Hendrikse Rd, Rhode Rd), as well as Welgevonden, Green Oaks, Stellita Park, Weltevrede, Welgevonden Estate (Red Oak Rd, Belladonna Street, Wildeklawer Welgevonden Boulevard, Olive Rd, Sonnedou Rd, Mountain Silver Rd, Silver Oak Rd, Froetang Rd, Katbos Rd, Everlasting, Fynbos Street, Sourfig Street, Scarlet Cresent, Pin Oak Street, Evergreen, Autumn Close, Nenta, Cherrywood, Candelabra, Froetang, Candelabra, Kouter, Protea Street, Minaret, Gooseberry, Honeybush), Klein Welgevonden (La Belle Vie, Chablis) and the Municipal Flats in Rhode, Kloof and Long Streets, Bertha Wines and Weltevreden Estate, 15 Weltevreden Estate,) The borders of the ward are the R44 Klapmuts road and Long streets.
18	Klapmuts Town Centre, Bennitsville, Weltevrede Park, Klapmuts New Houses, Mandela City and La Rochelle Informal Settlement, Klapmuts Farms (The Purple Windmill, Arra Vineyards, Hidden Gems Wines, Gravel Junction Wine and Spirtis Company, Wine Estate Le Bonheur, Anura Vinyard, Dalewood Farms, Blueberry Bar, Klapmust Transfer Station, Trophy SA, DKL Transport Pty, Welgelee Estate)
19	De Novo, Kromme Rhee, Vaaldraai, Muldersvlei, Koelenhof and surrounding Farms, Koelenhof Station, Slayley, Hunting, Koelenhof Farms, Poultrey / Mariendahl, De Hoop, Nooitgedacht Village, Bottelary and Surrounding Farms, De Waalshof, Weltevrede 1, Weltevrede 2, Smartie Town.
20	Vlottenberg, Raithby, Mooiberge, Lynedoch
21	Brandwacht Aan Rivier, Paradyskloof, Stellenbosch Golf Course, Blaauwklippen / Stellenzicht Farms, De Zalze, Jamestown, Mountainview, Stellenbosch Airfield
22	Die Boord, Dalsig, Brandwacht, Krigeville, Libertas Farm

Ward	Areas
23	Dorp Street, Krige, Hamman Streets, Schroder Rd, Die Braak, Bird Street from Dorp Street, Denniseg area, Muller Rd, Banghoek Road, Reyneveld Street, Plankenburg Industrial area and Kayamandi Corridor.

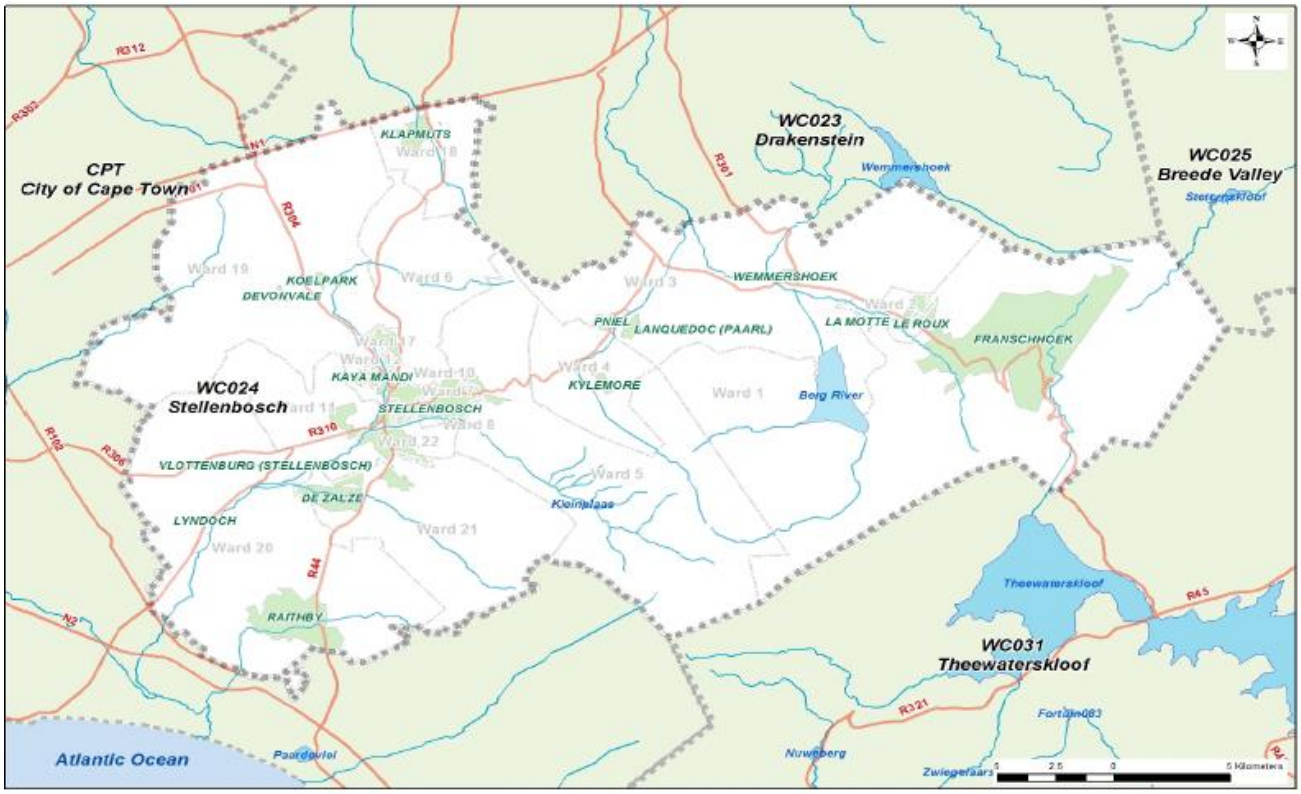
Below is a map of the Cape Winelands District in relation to the provincial district boundaries:



Map 1: Locality of Cape Winelands in relation to Provincial Boundaries

The Western Cape Province, makes up 10.6% of the country's land surface and encompasses an area of 129 462 km2. The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed Garden Route, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

Below is a map of the municipalities in relation to the Cape Winelands District:



Map 2: Locality map of Stellenbosch Municipality in relation to Cape Winelands District Boundaries

The Cape Winelands District Municipality is located within close proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second-largest container port in the country and a comprehensive road and rail network. This gives the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg and Witzenberg.

Below is a map of the Stellenbosch Municipality's area of jurisdiction:

Map 3: Locality map of municipal boundaries

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to the City of Cape Town and Drakenstein Municipality. As a local authority, Stellenbosch Municipality governs the towns of Stellenbosch, Pniël, Klapmuts, Kylemore, Jamestown, Raithby, Ida's Valley, Cloetesville, Kayamandi and Vlottenburg, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, Stellenbosch Municipality (SM) forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschhoek, and Klapmuts. There are also several smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniël, Johannesdal, Lanquedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vlottenburg. Stellenbosch is a sought-after space, offering opportunity and quality of living, yet in close proximity to city life. This has placed the municipal area under constant development pressure.

2.3 Stellenbosch Municipality at a Glance

Table 9: Stellenbosch Municipality - Summarised Statistics

Demographics			**Population Estimates 2021: Estimated households 2020**	
Population 196 036			**Households** 50 328	
Education	**2020**		**Poverty**	**2020**
Matric Pass	85.1%		Gini Coefficient	0.61
Retention Rate	73.1%		Human Development Index	0.74
Learner–Teacher Ratio	26.8 %			

Health				**2020/21**
Primary Health Care Facilities	Immunisation Rate	Maternal Mortality Ratio (per 100 000 live births)	Teenage Pregnancies Delivery rate to women u/18	
8 (excl. mobile / satellite	52.7%	57.3	11.4%	

Safety and Security				**Actual number of reported cases in 2020/21**

2.4 Socio – Economic Context

2.4.1 Population and Age Cohorts

Stellenbosch's population totals **196 036** persons in **2021**, the second most populated municipal area in the Cape Winelands District (CWD). This total is expected to grow to **209 854** by **2025**, equating to an average annual growth rate of 1.7 per cent for the period.

Stellenbosch has an ageing population. Between 2021 and 2025, the highest population growth is estimated for the aged cohort, with expected growth for the period reaching an average annual rate of 3.6 per cent. This is more than double the growth in the working age cohort working-age). The size of the aged cohort is however relatively small in comparison to the working age category. As such, the dependency ratio remains mostly unchanged between 2021 and 2025.

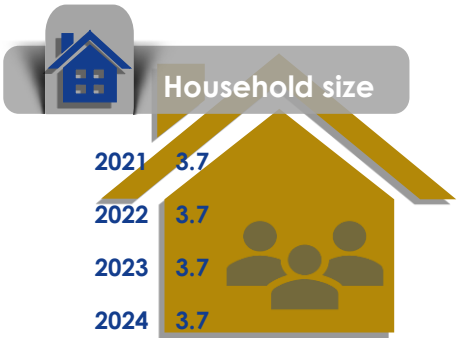
Figure 7: Age Cohorts and Dependency Ration

Source: Western Cape, Social – Economic Profile 2021

2.4.2 Sex Ratio

The overall sex ratio (SR) depicts the number of males per 100 females in the population. The data indicates that there are notably more females than males in the Stellenbosch municipal area with a ratio of 95.8 males per 100 females in 2021. The increasing SR for Stellenbosch could be attributed to a wide range of factors such as a decrease in female mortality rates as well as the potential inflow of working females to the municipal area.

Figure 8: Sex Ratio



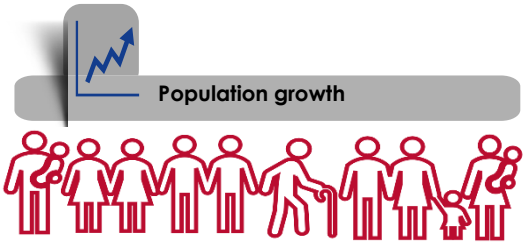
Source: Western Cape, Social – Economic Profile 2021

2.4.3 Household Size

Household size refers to the number of people per household. The actual size of households in the municipal area is trending downwards between 2021 and 2025. Contributing factors to a stagnation in household size growth could include, but are not limited to, lower fertility rates, occurrences of divorces, an ageing population etc.

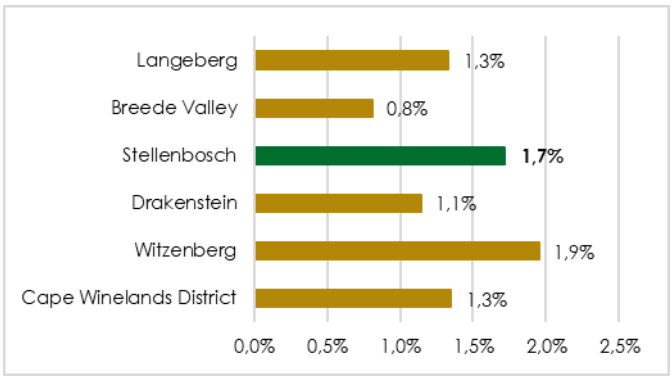
Figure 9: Household size

Source: Western Cape, Social – Economic Profile 2021



2.4.4 Population Density

Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision-makers to mitigate environmental, health and service delivery risks. In 2021, the population density of the Cape Winelands District was 44 persons per square kilometer.



In order of highest to lowest, the various local municipal areas compare as follows:

- Witzenburg 14 people/km^2
- Drakenstein 192 people/km^2
- Stellenbosch 236 people/km^2
- Breede Valley 51 people/km^2
- Langeberg 27 people/km

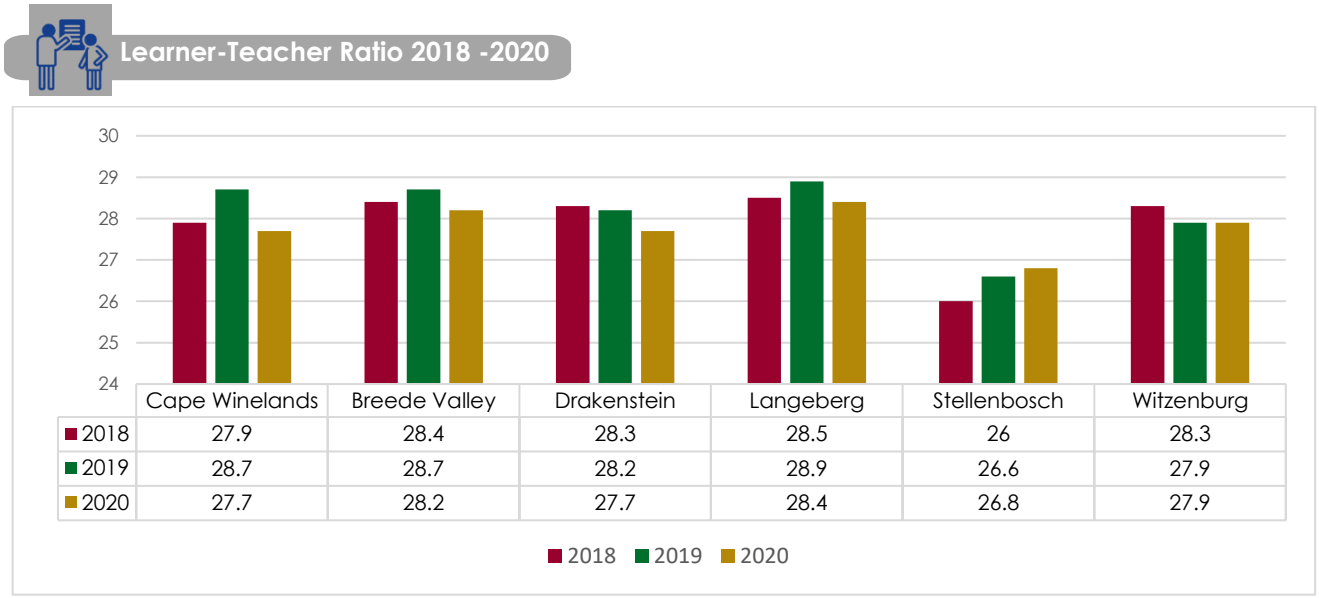
2.5 Education

2.5.1 Learner enrolment, the learner-teacher ratio and learner retention rate

Learner enrolment in the Stellenbosch municipal area increased by 1.7 per cent from 27 087 in 2018 to 28 033 in 2020. The growth rate in learners is slightly above the Western Cape average of 2.1 per cent across the same period.



Graph 1: Learner enrolment

	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenberg
2018	146495	33389	49268	18374	27087	18377
2019	148136	34062	49606	18474	27491	18503
2020	150125	34542	50186	18659	28033	18705

Source: Western Cape, Social – Economic Profile 2021

Graph 2: Learner – Teacher Ratio 2018 – 2020

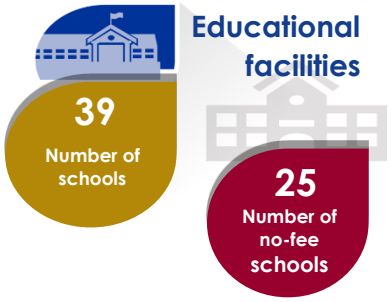
	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenburg
2018	27.9	28.4	28.3	28.5	26	28.3
2019	28.7	28.7	28.2	28.9	26.6	27.9
2020	27.7	28.2	27.7	28.4	26.8	27.9

Source: Western Cape, Social – Economic Profile 2021

The learner-teacher ratio in the Stellenbosch municipal area has gradually been on the rise from 26.0 in 2018 to 26.6 in 2019 and 26.8 in 2020. This is still below the Provincial average of 30.3. It is commonly assumed that children receive less personalised attention in larger class environments and that high learner-teacher ratios are detrimental to improved educational outcomes. Although the Stellenbosch municipal area has the highest learner retention rate (73.1 per cent) in the Cape Winelands District, school drop-outs remain a grave concern. The learner retention rate is influenced by a wide array of factors, including economic influences such as unemployment, poverty / very low household income, as well as social concerns such as teenage pregnancies. Retention rates should be kept in mind when considering education outcomes / results, as low retention rates are likely to skew outcomes, as drop-outs are automatically excluded from any outcomes / results. Being able to retain learners is essential for overall positive education outcomes.

Graph 3: Learner retention

	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenburg
2018	67.7	64.7	72.6	56.3	72.5	62.5
2019	69.4	69.8	72.4	60.3	75.5	59.8
2020	67.2	68.9	66.4	58.3	73.1	65.4



Source: Western Cape, Social – Economic Profile 2021

2.5.2 Number of schools and no – fee schools

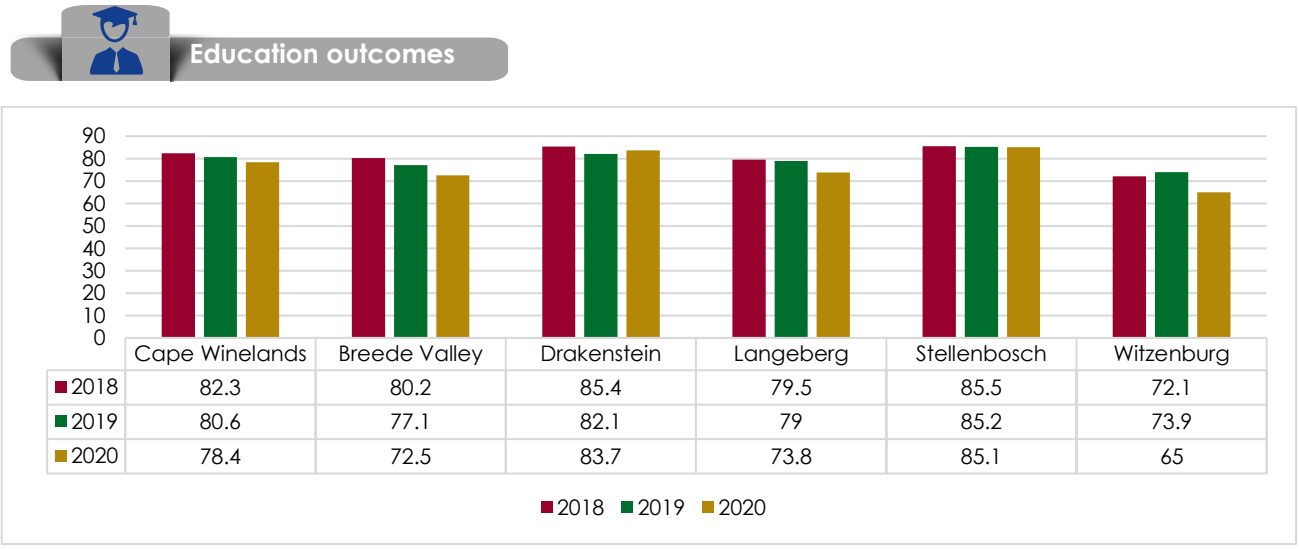
Figure 11: Number of schools and no – fee schools

In 2020, the Stellenbosch municipal area had a total of 39 public ordinary schools. The number of schools has remained constant since 2018.

The number of no-fee schools has also remained steady at 39 between 2018 and 2020. This translates into a total of 64.1 per cent of schools being registered with the Western Cape Department of Education as no-fee schools.

Source: Western Cape, Social – Economic Profile 2021

2.5.3 Schools with libraries/media centres



The number of schools with libraries / media centres decreased from 29 in 2018 and 2019 to 22 in 2020. The availability of library facilities within schools contributes towards narrowing the academic attainment gap by allowing students access to information which is in turn directly linked to improved education

2.5.4 Education outcomes (matric pass rate)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagements in the labour market, policy decisions and choices in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans may be realised. Education outcomes across the entire South Africa and Western Cape on general deteriorated as a result of COVID-19. The matric pass rate for Stellenbosch however increased ever so slightly from 85.0 per cent in 2019 to 85.1 per cent in 2020.

Graph 4: Education outcomes (matric pass rate)

	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenburg
2018	82.3	80.2	85.4	79.5	85.5	72.1
2019	80.6	77.1	82.1	79	85.2	73.9
2020	78.4	72.5	83.7	73.8	85.1	65

2.6 Health

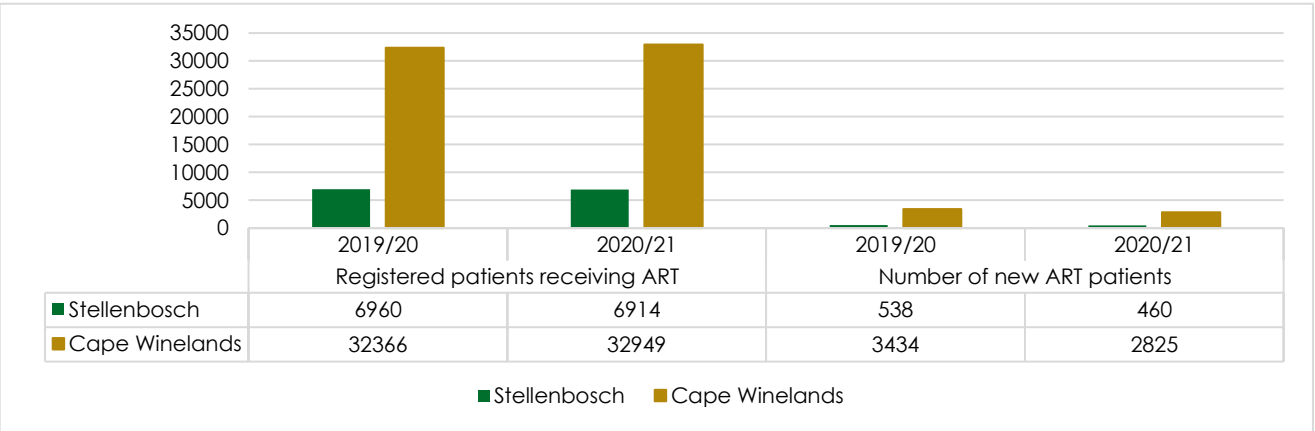
2.6.1 Health Facilities

In 2020, the Stellenbosch municipal area had 8 primary healthcare facilities, which comprised of 7 fixed clinics and 1 community day centre; there were also 6 mobile/satellite clinics. In addition to these primary healthcare facilities, there is also a district hospital, 9 ART treatment sites and 13 TB clinics.

Table 10: Health facilities

Healthcare facilities

Area	Community Health Centres[2]	Community Day Centres[3]	Regional hospitals	District Hospitals	PHC Clinics (Satellite and Mobile)	PHC Clinics (Fixed)
Stellenbosch	0	1	0	1	6	7
Cape Winelands District	0	5	2	4	33	39



Source: Western Cape, Social – Economic Profile 2021

2.6.2 HIV / AIDS and Tuberculosis

The number of clients (patients) that remain committed to their antiretroviral treatment (ART) plan in the Stellenbosch municipal area decreased by 46 patients between 2019/20 and 2020/21. In total, 6 914 registered patients received antiretroviral treatment in the Stellenbosch municipal area in 2020/21. In turn, the number of new patients receiving ART also declined from 538 in 2019/20 to 460 in 2020/21. There has been an average annual decline of 7.8 per cent between 2016/17 (1 173) and 2020/21 (849) in the number of registered patients receiving TB treatment in the Stellenbosch municipal area.

Graph 5: HIV / AIDS

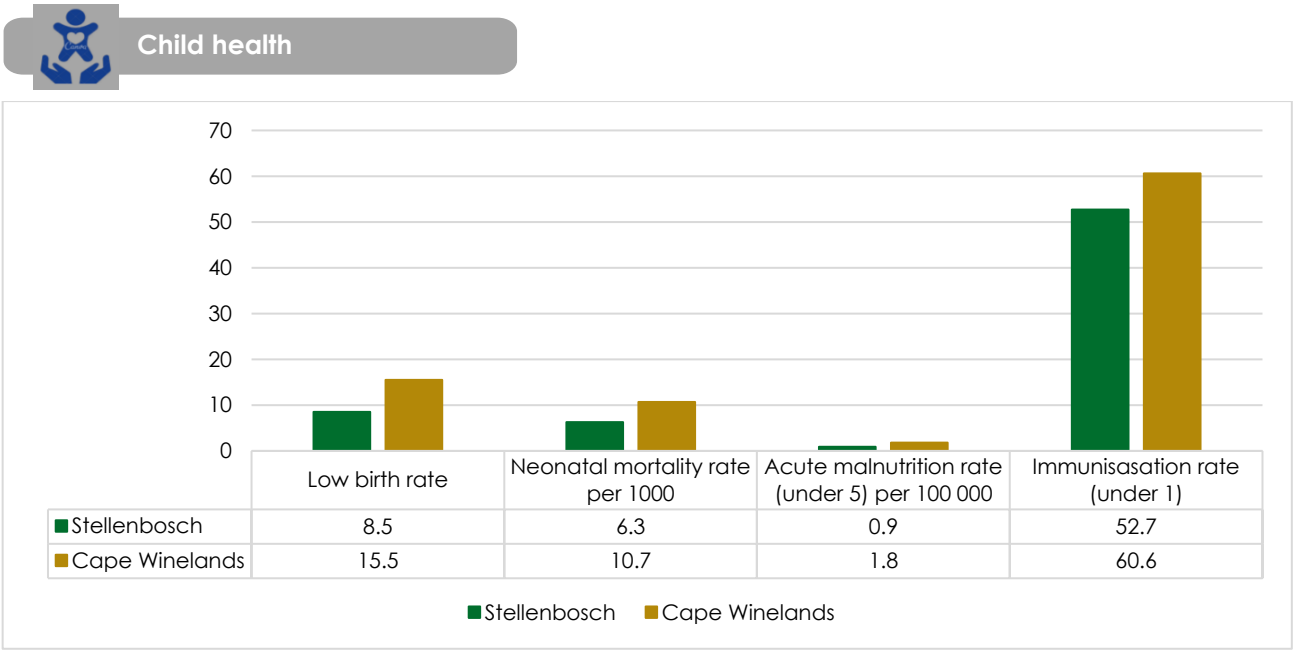
[2] **Community Health Centre:** A facility that normally provides primary health care services, 24 hour maternity, accident and emergency services and beds where health care users can be observed for a maximum of 48 hours and which normally has a procedure room but not an operating theatre.

[3] **Community Day Centre:** A health facility that provides a comprehensive health care services during day hours, including mother and child health, chronic diseases care, women's health, HIV and TB care, men's health, acute services, physio therapy, mental health services and oral health care.

Graph 6: Tuberculosis

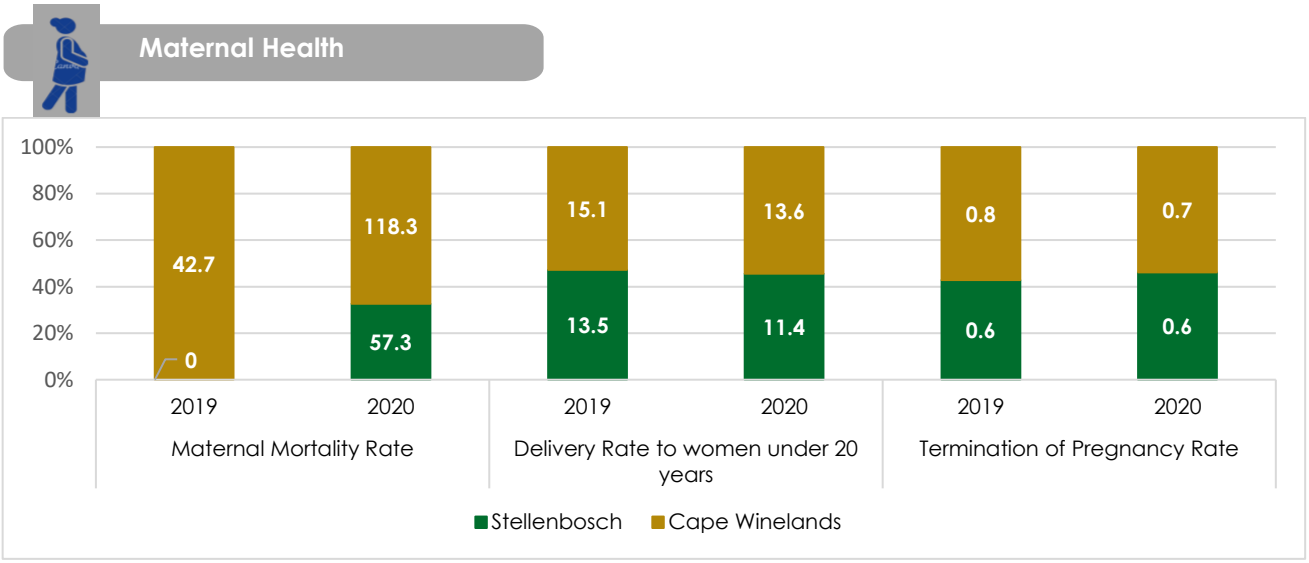


Source: Western Cape, Social – Economic Profile 2021

2.6.3 Child Health

The immunisation coverage rate for children under the age of one in the municipal area declined slightly from 55.1 per cent in 2019/20 to 52.7 per cent in 2020/21. The overall CWD rate also declined from 63.1 to 60.6 per cent across the same period. The number of malnourished children under five years of age (severe acute malnutrition) per 100 000 people in the municipal area declined notably from 2.6 in 2019/20 to 0.9 in 2020/21. The Western Cape average from 1.6 to 0.9. The CWD rate also declined from 3.3 to 1.8 per cent. The neonatal mortality rate (deaths per 1 000 live births before 28 days of life) for the municipal area increased from 5.2 in 2019/20 to 6.3 in 2020/21. The rate was still notably below the CWD average of 10.7. A total of 8.5 per cent of all babies born in facility in the municipal area in 2020/21 weighed less than 2 5000 grams. This is slightly worse than the 8.2 per cent recorded in 2019/20. This total was the lowest amongst all other local municipalities in the district.

Graph 7: Child health



Source: Western Cape, Social – Economic Profile 2021

2.6.4 Maternal Health

In 2020/21, the Stellenbosch municipal area recorded the lowest number of maternal deaths (57.3) and teenage pregnancies (11.4 per cent) in the CWD. Although the number of teenage pregnancies decreased between 2019/20 and 2020/21, there was a significant deterioration in the maternal mortality rate (increase) in the municipal area. The termination of pregnancy rate (0.6 per cent) remained unchanged across this period.

Graph 8: Maternal health

2.7 Poverty

2.7.1 GDPR Per Capita

An increase in the real regional gross domestic product (GDPR) per capita, i.e. GDPR per person is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDPR per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDPR per capita indicator.

GDPR per capita for the Stellenbosch municipal area was at R89 378 in 2020 (current prices) higher than the CWD (R72 778) and Western Cape (R84 967) averages. Constraint growth, coupled with growing population numbers, has resulted in a downward trend in GDPR per capita across most local municipal areas.

Graph 9: GDP Per Capita

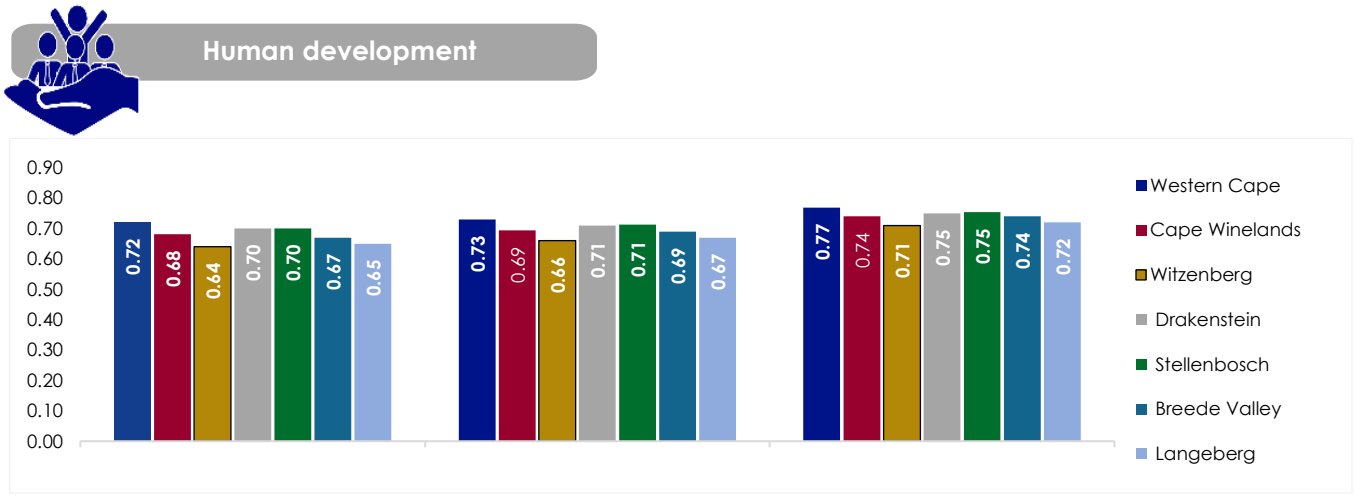
	Western Cape	Cape Winelands	Witzenberg	Drakenstein	Stellenbosch	Breede Valley	Langeberg
2014	74 414	62 170	56 749	66 611	76 984	54 194	48 733
2017	85 816	73 038	68 436	77 611	90 125	63 584	57 912
2020	84 967	72 778	69 780	76 561	89 378	63 334	58 431

Source: Western Cape, Social – Economic Profile 2021

2.7.2 Income Inequality

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. However, between 2014 and 2020, income inequality in the Stellenbosch municipal area has worsened, with the Gini coefficient increasing from 0.614 in 2014 to 0.631 in 2020. Worsening income inequality was also observed across the CWD (0.590 in 2014 and 0.615 in 2020) as well as the Western Cape Province (0.603 in 2014 and 0.625 in 2020).

Graph 10: Income Inequality



Source: Western Cape, Social – Economic Profile 2021

2.7.3 Human Development

The Human Development Index (HDI) is a composite indicator reflecting on education levels, health, and income. It is a measure of peoples' ability to live a long and healthy life, to communicate, participate in the community and to have sufficient means to be able to afford a decent living. The HDI is represented by a number between 0 and 1, where 1 indicates a high level of human development and 0 represents no human development. The United Nations uses the HDI to assess the relative level of socio-economic development within countries.

An overall improvement in human development is observed across the entire Western Cape with HDI levels increasing in all districts between 2014, 2017 and 2020. It is interesting to note that despite general economic hardship impacting on households, the HDI score for the Stellenbosch municipal area increase significantly more in recent times i.e., HDI in Stellenbosch was 0.704 in 2014 and increased to 0.709 in 2017; the increase was however more pronounced in 2020 at 0.751. The HDI score for the municipal area was in 2020 higher than the CWD average of 0.740.

Graph 11: Human development

Source: Western Cape, Social – Economic Profile 2021

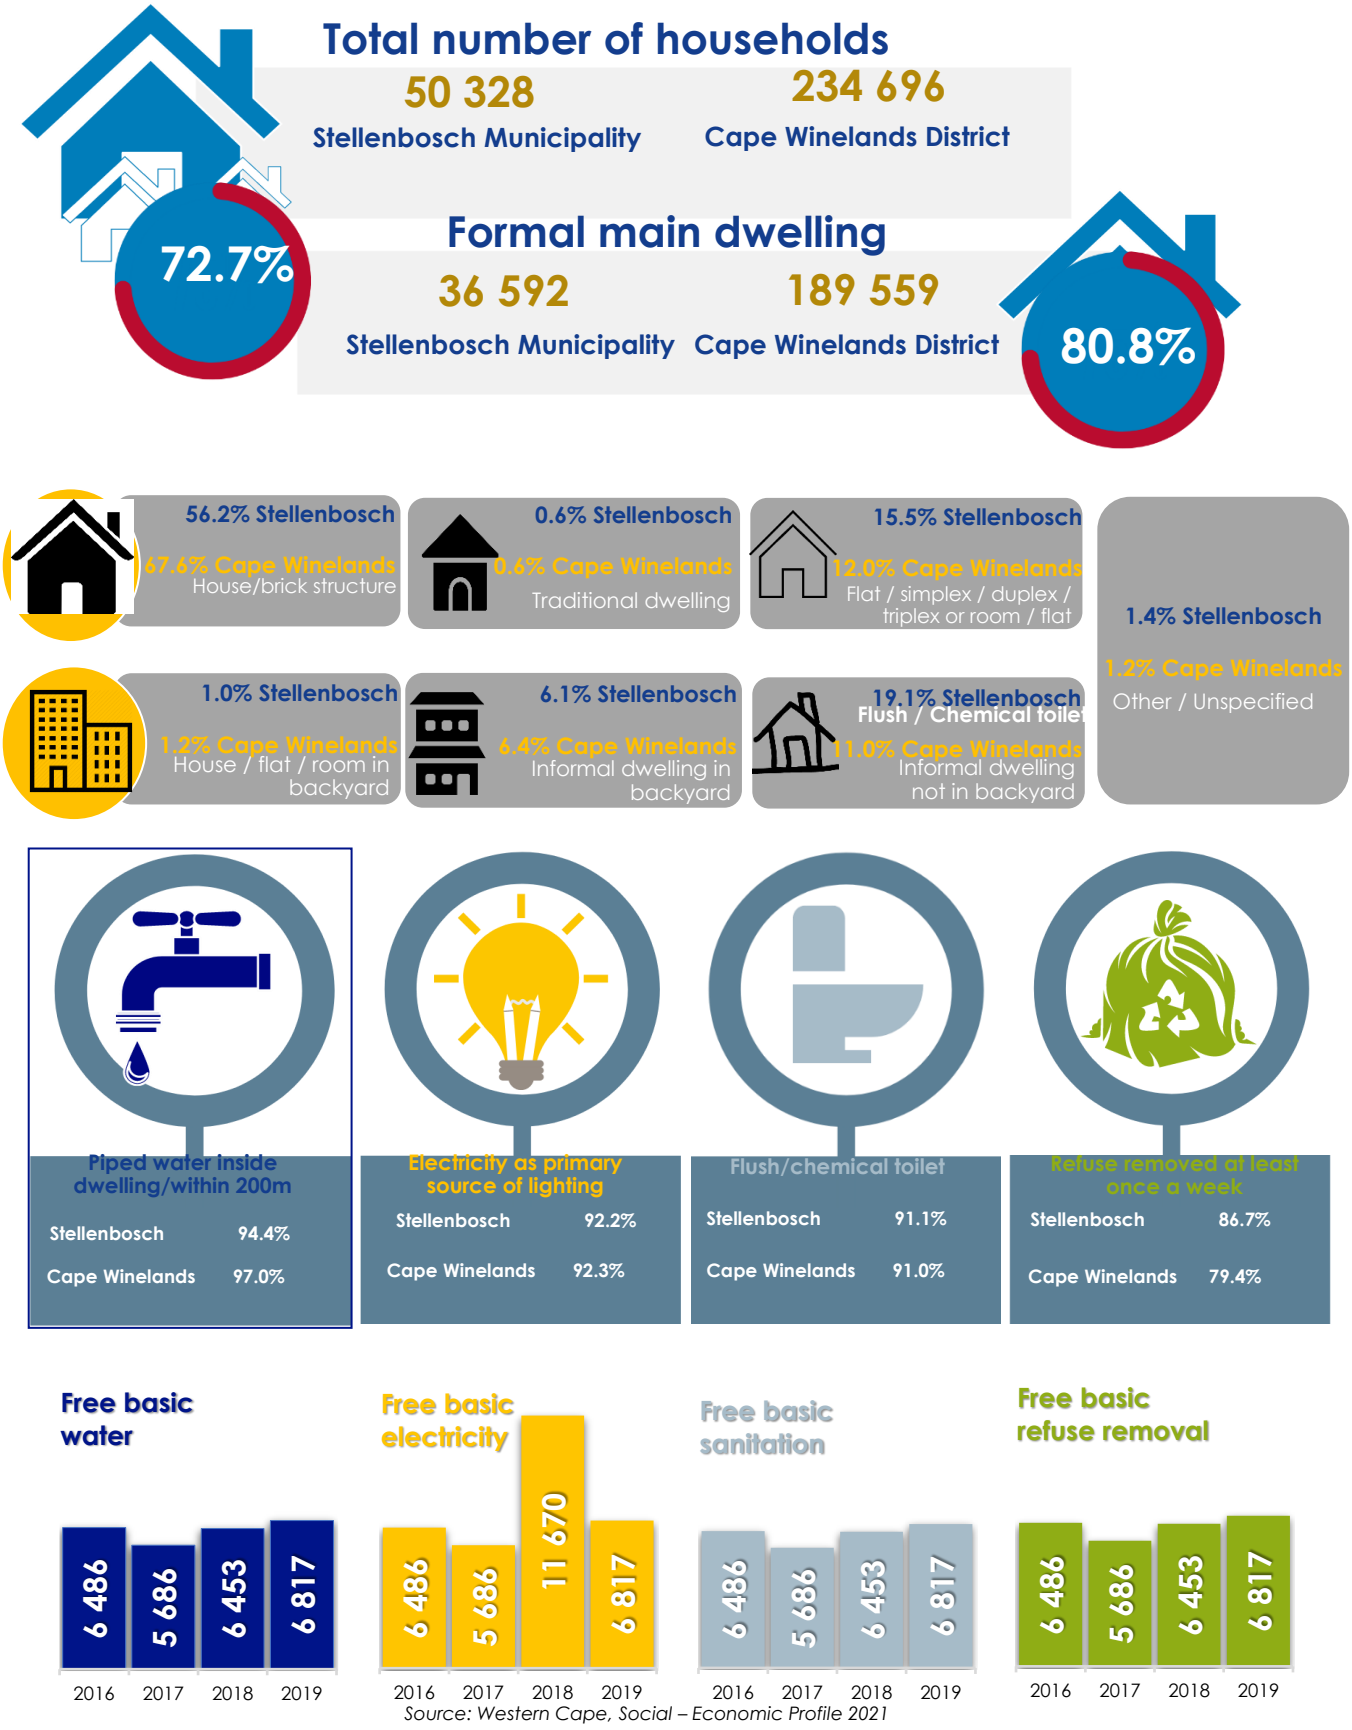
2.8 Basic Service Delivery

The Constitution stipulates that every citizen has the right to access to adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living.

This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2020. The latest official statistics were collected by Statistics South Africa for the 2016 Community Survey; the 2022 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities survey findings.

2.8.1 Housing and household services

With a total of 50 328 households in the Stellenbosch municipal area, 72.7 per cent had access to formal housing, the lowest access level when compared with other municipalities in the CWD area; the CWD average was 80.8 per cent. The municipal area also had the highest percentage of people living in informal settlements at 25.2 per cent. In comparison, 17.4 per cent of people across the CWD resided in informal settlements. Access levels to basic services in the municipal area were as follows in 2019:



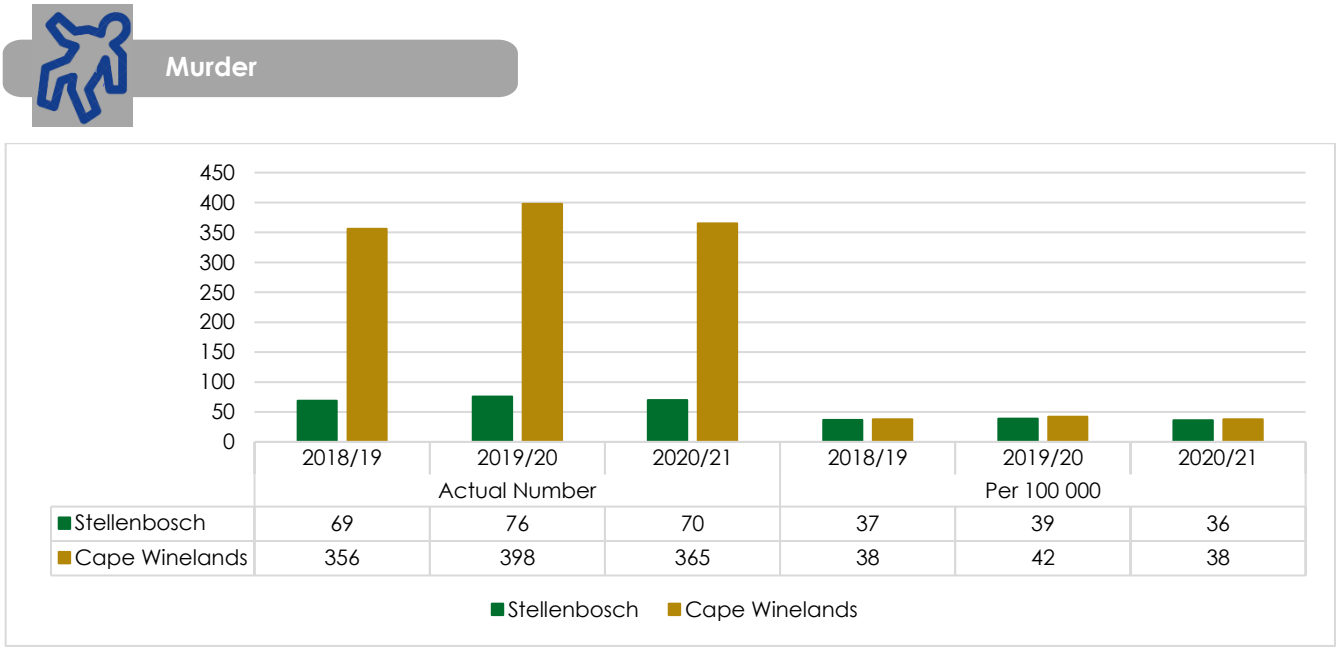
- Piped water inside / within 200 m of the dwelling: 94.4 per cent;
- Flush or chemical toilet: 91.1 per cent;
- Electricity (for lighting): 92.2 per cent; and
- Refuse at least weekly by local authority: 86.7 per cent.

While access to electricity and sanitation services was on par with the CWD average, access to piped water was notably below the district average. Access to refuse removal services was however above the district average.

2.8.2 Free Basic Services

According to the Department of Local Government, the number of registered indigent households in the Stellenbosch municipal area increased from 6 813 in 2019 to 7 011 in 2020 (2.9 per cent increase). Municipalities provide a package of free basic services to households that are financially vulnerable and struggle to pay for services. The number of households receiving free basic services in the Stellenbosch municipal area has shown an overall increasing trend between 2017 and 2019. The stressed economic conditions continue to exert pressure on household income levels, which in turn is likely to see the number of indigent households and the demand for free basic services increase.

Figure 12: Basic Services



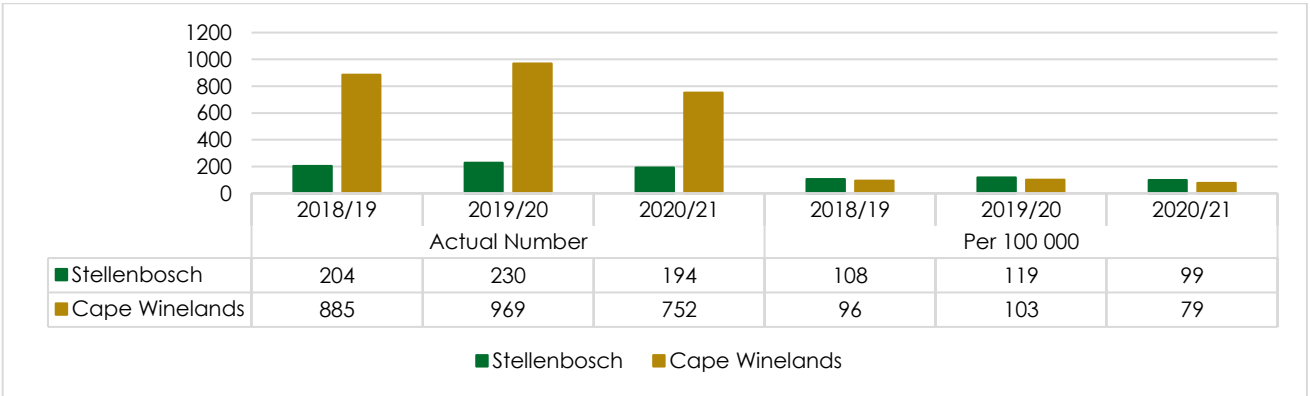
Source: Western Cape, Social – Economic Profile 2021

2.9 Safety and Security

2.9.1 Murder

The number of actual murders in the Stellenbosch municipal area decreased from 76 in 2019/20 to 70 in 2020/21. This amounted to a decrease in the murder rate from 39 occurrences per 100 000 people to 36 (-9.2 per cent) which was still slightly below the District average of 38. In comparison, the Provincial average was 53 in 2020/21.

Graph 12: Murder Statistics

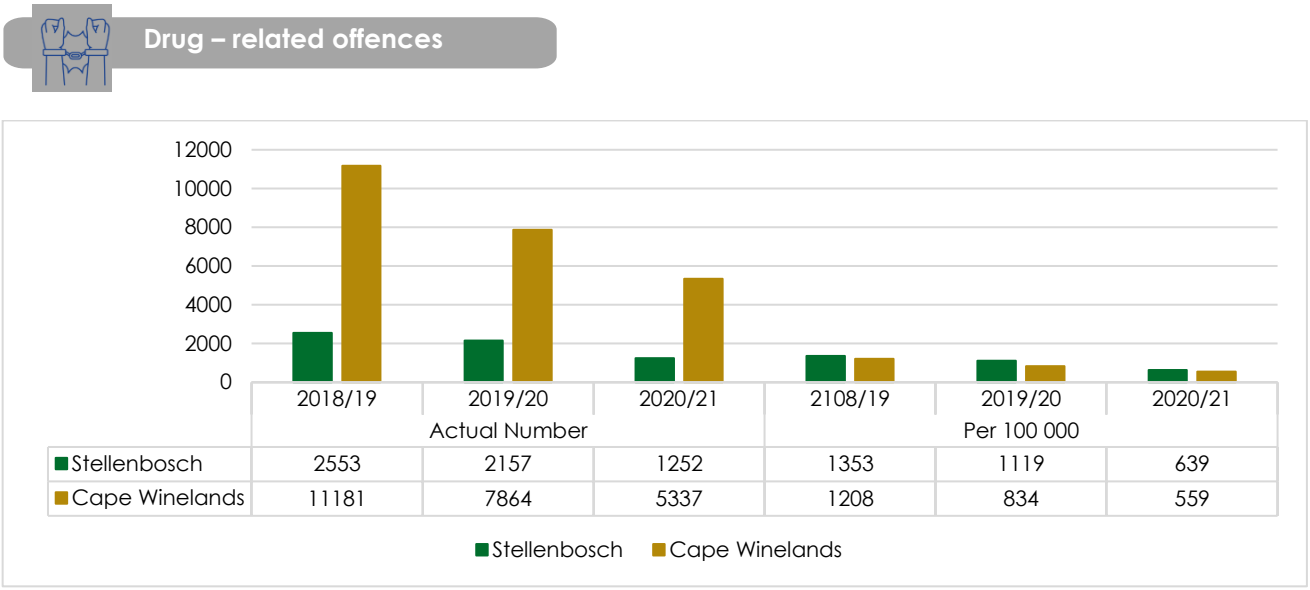


Source: Western Cape, Social – Economic Profile 2021

2.9.2 Sexual Offences

Sexual offences in the municipal area decreased by 17.1 per cent from 119 occurrences per 100 000 people in 2019/20 to 99 in 2020/21 but were still the highest amongst the various municipal areas of the District. Across the same period, the CWD sexual offences rate decreased from 103 occurrences per 100 000 people to 79 (23.4 per cent decline).

Graph 13: Sexual Offences



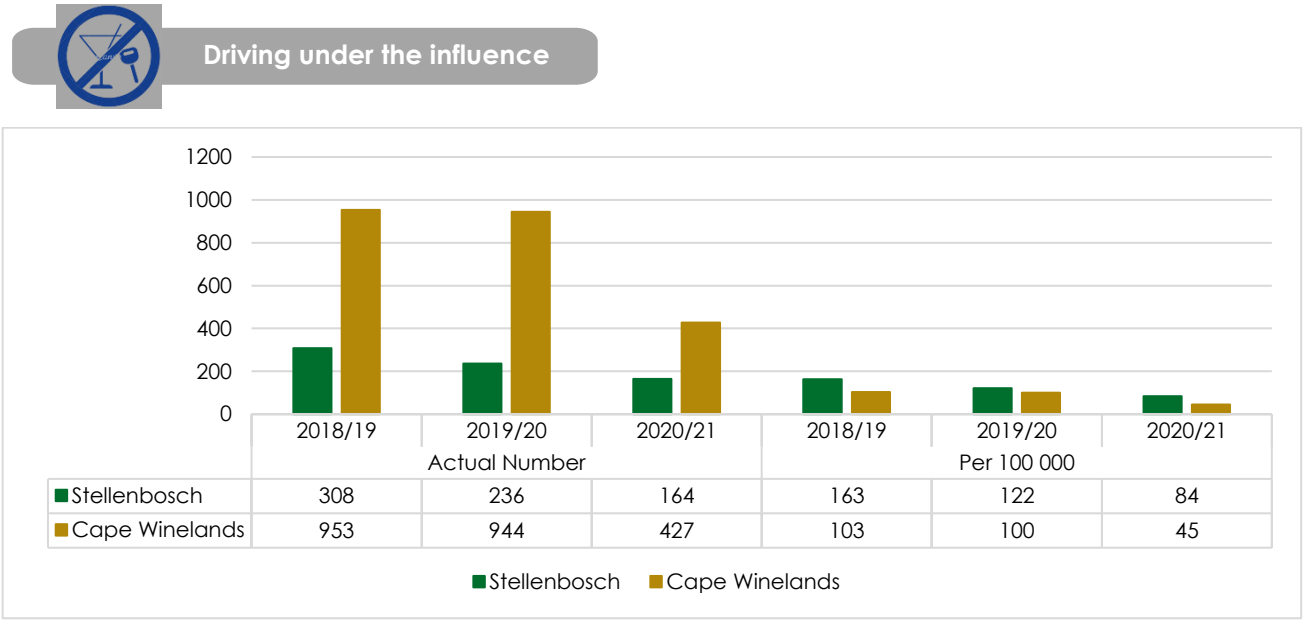
Source: Western Cape, Social – Economic Profile 2021

2.9.3 Drug – related Offences

Occurrences of drug-related crimes declined significantly across the entire Western Cape - the drug-related crime rate in the Province decreased by 29.8 per cent from 890 occurrences per 100 000 people in 2019/20 to 625 in 2020/21. Mirroring this trend, the rate in the CWD decreased substantially from 834 to 559 (33.1per cent) while it decreased from 1 119 in 2019/20 to 639 in 2020/21. The municipal area had the second-highest drug-related crime rate in the CWD.

Graph 14: Drug – related Offences

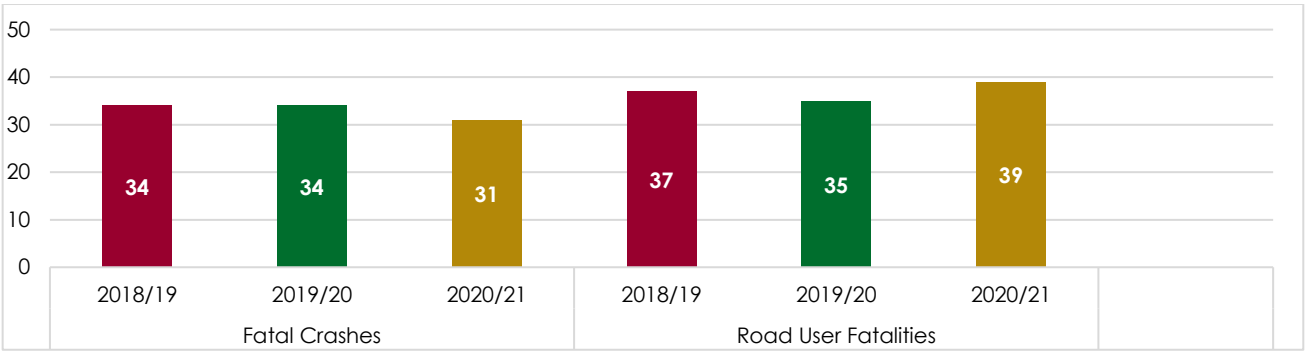
Source: Western Cape, Social – Economic Profile 2021



2.9.4 Driving under the influence (DUI)

Restrictions on the sale of alcohol and limited personal movement outside of a person's dwelling were always going to impact on the number of reported cases of driving under the influence (DUI) and residential burglaries. The total number of DUI cases reported in the Stellenbosch municipal area decreased from 236 in 2019/20 to 164 in 2020/21.

Expressed per 100 000 people, the DUI rate was 84 occurrences in 2020/21 (31.7 per cent decrease). The DUI rate in the CWD in turn declined by 55.4 per cent from 100 to 45 occurrences across the same period.

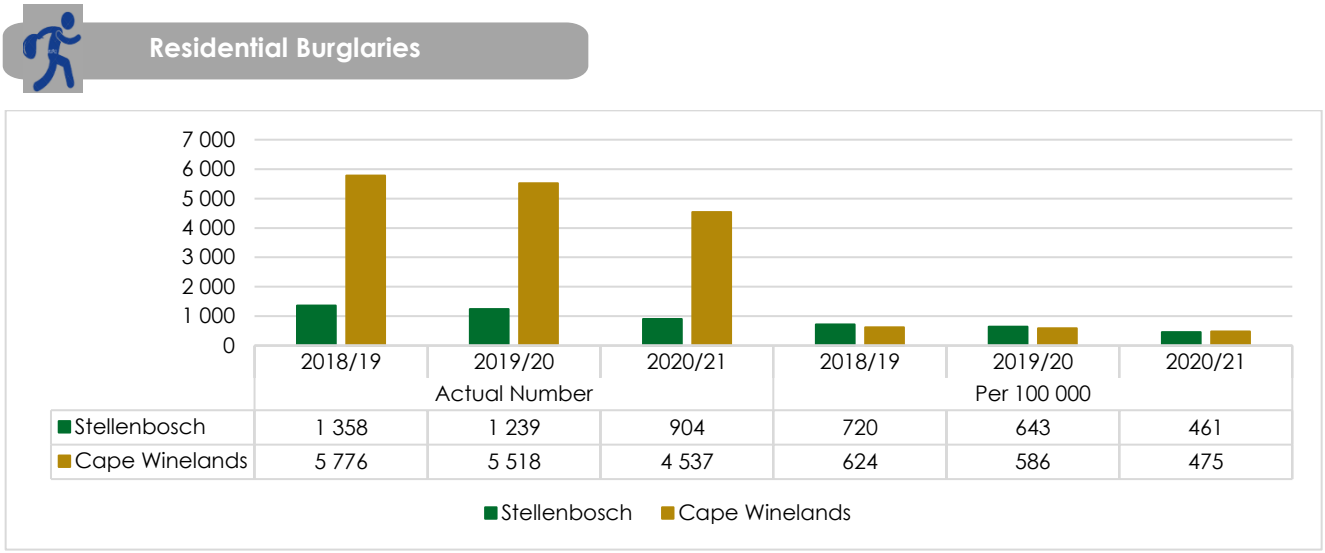


The number of road user fatalities in the Stellenbosch area decreased from 34 in 2019/20 to 31 in 2020/21. The number of fatal crashes decreased from 35 to 39 for the same reference period.

Graph 15: Driving under the influence

Source: Western Cape, Social – Economic Profile 2021

Graph 16: Fatal Crashes and Road User Fatalities



Source: Western Cape, Social – Economic Profile 2021

2.9.5 Residential Burglaries

Residential burglaries in the municipal area decreased sharply from 1 239 reported cases in 2019/20 to 904 in 2020/21. The burglary rate per 100 000 people subsequently decreased by 31.3 per cent from 643 occurrences in 2019/20 to 461 in 2020/21. Across the same period, the burglary rate in the CWD decreased by 18.9 per cent from 586 to 475 occurrences.

Graph 17: Residential Burglaries

Source: Western Cape, Social – Economic Profile 2021

2.10 Economy and Labour Market Performance

2.10.1 Sectoral Overview

In 2019, the economy of the Stellenbosch municipal area was valued at R16.759 billion (current prices) and employed 78 449 people. Historical trends between 2015 and 2019 indicate that the municipal area realised an average annual growth rate of 0.9 per cent which can mostly be attributed to the tertiary sector which registered a positive annual growth rate of 1.9 per cent. The economy is expected to contract by 6.7 per cent in 2020 with 4 659 jobs being shed.

In terms of sectoral contribution, the finance, insurance, real estate and business services (R3.634 billion), wholesale and retail trade, catering and accommodation (R3.530 billion) and the manufacturing (R2.779 billion) sectors were the main drivers that contributed to the positive growth. The former two sectors on average grew by 2.4 and 2.1 per cent respectively between 2015 and 2019, while the manufacturing sector declined by 0.9 per cent. The fastest-growing sector across this period was, however, the transport, storage and communication sector (3.1 per cent). Except for agriculture, all sectors in the municipal area are expected to have contracted in 2020. The agriculture, forestry and fishing sector, which provides inputs for the manufacturing sector and purchase goods and services from a large portion of the tertiary sector industries, declined by 4.2 per cent between 2015 and 2019. The largest decline is anticipated to be observed in the construction sector which is expected to decline by 19.8 per cent.

The wholesale and retail trade, catering and accommodation (20 675); finance, insurance, real estate and business (13 509) and agriculture (10 610) sectors were in 2019 the largest sources of job creation. Although these sectors experienced positive average job creation between 2015 and 2019, all three are set to shed a significant number of jobs in 2020. The highest number of job losses are expected to be experienced in the wholesale and retail trade, catering and accommodation (-1 298) sector. General government is the only sector to experience job creation in 2020.

Table 12: Economic Sector Overview

2.10.2 Formal and Informal Employment

It is estimated that total employment in the municipal area will in 2020 amount to 73 790 workers, of which 54 341 (73.6 per cent) are in the formal sector while 19 476 (26.4 per cent) are informally employed. Most of the formally employed consisted of semi-skilled (43.5 per cent) and low-skilled (32.1 per cent) workers. Average annual growth in the skilled (0.4 per cent) and semi-skilled (0.5 per cent) categories were relatively equal while low-skilled employment contracted at an average annual rate of 1.4 per cent. The growth in the skilled cohort reflects the market demand for more skilled labour and the ability to sustain and slightly expand the demand for skilled employment even during times of economic hardship. The growth in the skilled and semi-skilled cohorts evidently reflects the need to capacitate and empower low-skilled workers to be absorbed in the labour market. Overall, formal and informal employment contracted by 0.4 and 2.1 per cent respectively between 2016 and 2020.

Table 13: Skills Levels Formal Employment

Skill Levels Formal employment	Skill Level Contribution 2020 (%)	Average growth (%) 2016 - 2020	Number of jobs	
			2019	2020
Skilled	24.4	0.4	13 818	13 254
Semi-skilled	43.5	0.5	24 883	23 607
Low-skilled	32.1	-1.4	18 639	17 453
TOTAL	**100.0**	**-0.2**	**57 340**	**54 314**

2.10.3 Unemployment

To protect South African citizens from COVID-19, the government announced a national lockdown in March 2020 that brought about a shutdown of the economy, which in turn resulted in a shock in the labour market and a big change in the way people went about doing their work.

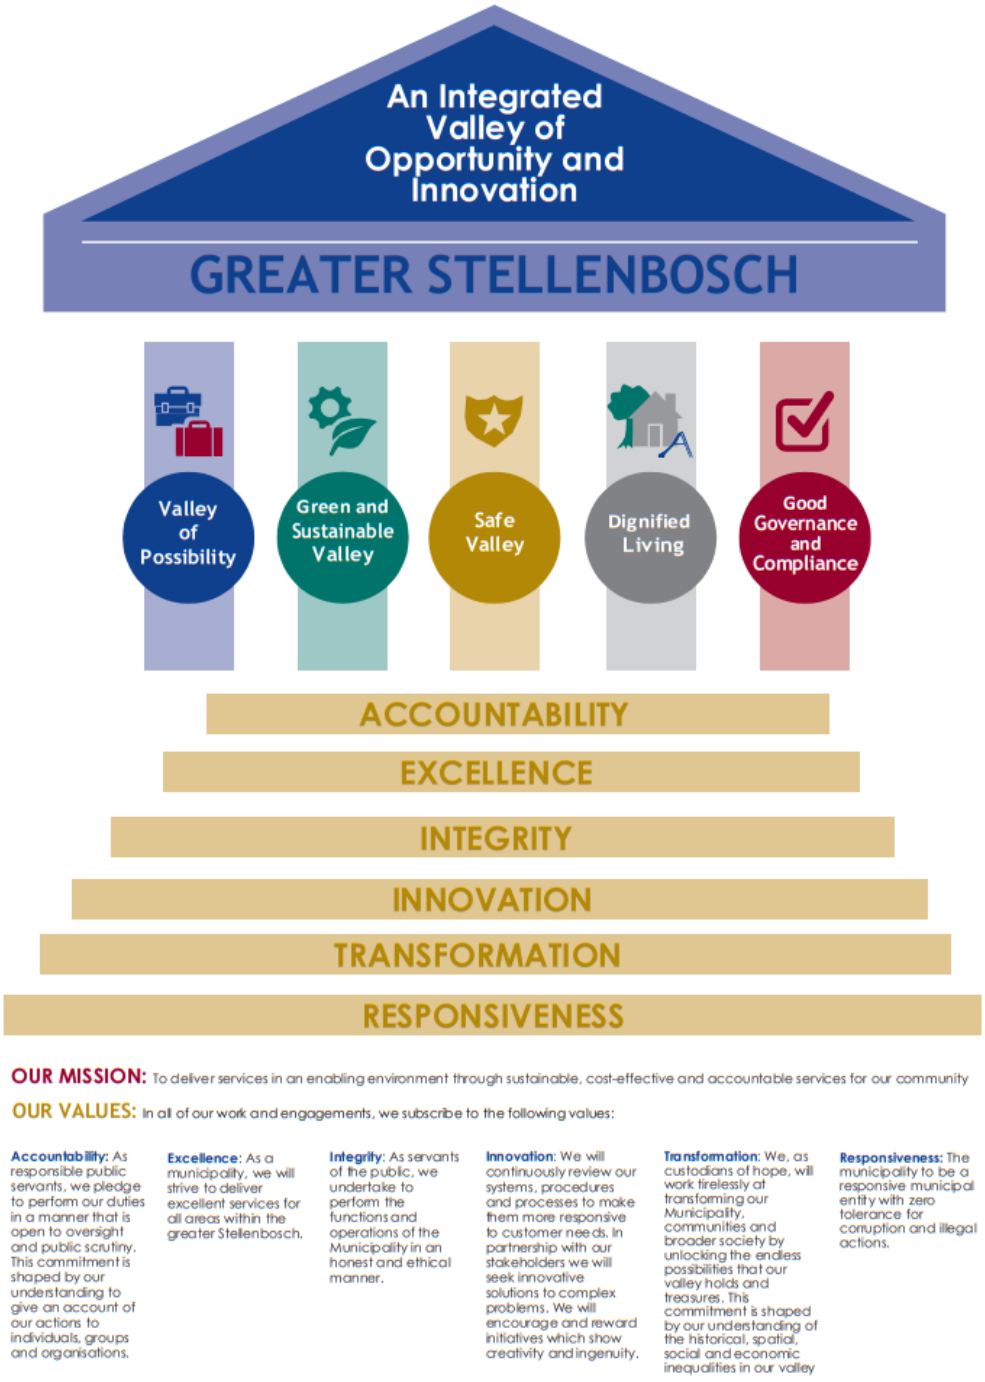
According to the Quarterly Labour Force Survey (StatsSA,2021), the number of unemployed persons in South Africa decreased by 183 000 from July 2021 to September 2021, following an increase of 584 000 from April 2021 to June 2021. This was the second decrease in unemployment since the COVID-19 national lockdown in March 2020. The decrease in unemployment can be noted that during July 2021 and September 2021, the national lockdown regulations were relaxed, which allowed travelling and played a role in people actively looking for work.

The official unemployment[4] rate in South Africa increased by 0,5 of a percentage points to 34,9 per cent from July 2021 to September 2021.

The official unemployment rate increased in all the nine provinces, with the largest increase recorded in Mpumalanga (up by 9,7 percentage points), followed by North West (up by 7,4 percentage points), Limpopo (up by 6,2 percentage points) and Western Cape (up by 4,7 percentage points).

The expanded unemployment rate[5] in South Africa increased by 2,2 percentage points to 46,6 per cent (12.5 million people) from July 2021 to September 2021, due to the fact that people were available for work, but did not actively look for work during the national lockdown.

[4] Definition: Official unemployment (aged 15–64 years): Were not employed in the reference week, actively looked for work or tried to start a business in the four weeks preceding the survey interview; and were available for work, i.e. would have been able to start work or a business in the reference week; or Had not actively looked for work in the past four weeks, but had a job or business to start at a definite date in the future and were available.



[5] Definition: Expanded unemployment rate (aged 15–64 years): were not employed in the reference week; and were available to work but did not look for work either because they are discouraged from looking for work .

CHAPTER 3:

Strategic Policy Context

3.1 Municipal Vision and Strategy

Figure 13: Municipal Vision and Strategy

VISION

We describe the vision of where we want to be as a municipality and the Greater Stellenbosch area as the **"An Integrated Valley of Opportunity and Innovation"**

MISSION

Our mission is to deliver services in an enabling environment through sustainable, cost-effective and accountable services for our community

VALUES

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the municipality in an honest and ethical manner.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

Excellence: As a municipality, we will strive to deliver excellent services for all areas within the greater Stellenbosch.

Responsiveness: The municipality is a responsive municipal entity with zero tolerance for corruption and illegal actions.

3.2 Strategic Focus Areas (SFAs)

3.2.1 Strategic Focus Area 1: Valley of Possibility

The Stellenbosch area offers ample possibilities to their stakeholders. The unlocking of these possibilities to encourage opportunity for enterprise, creativity and business development in our cities, towns and villages are an urgent issue in South Africa. Unemployment, poverty, income inequality, and skills shortages are major concerns impacting the economy. This strategic focus area has three broad dimensions that address these challenges: The first relates to the provision of services to citizens, and how these services can assist them to facilitate development and job creation. The second relates to the internal working of the municipality and how municipal procurement of services aids in fostering opportunities for enterprise development and creativity. The third dimension asserts that efficient infrastructure and services lie at the heart of the municipality's mandate. Infrastructure and services of different kinds fulfil the basic needs of citizens and also enable enterprise and business development. Without appropriate, well-maintained infrastructure, the greater Stellenbosch area will fail as a place of living, work and learning.

3.2.2 Strategic Focus Area 2: Green and Sustainable Valley

Several dimensions to the environment underpinned its importance for the greater Stellenbosch area and the people living within it. The first is an ecological dimension, which recognises that the natural environment and its processes provide the setting in which and the basic resources with which, human life is played out.

The second is an economic and productive dimension, which recognises that the natural environment underpins vitally important tourism and agricultural economy. The third is a psychological, social, and recreational dimension, which recognises that human life is qualitatively affected by a sense of place, and the need for places of 'escape' from urban life. The fourth is a cultural dimension, which recognises the inextricable relationship between the characteristics of a place, peoples' activities in that place, and the emergence of cultural expressions and forms.

There are at least three reasons why the spatial direction is important. Firstly, we live our lives in geographic spaces; how activities and infrastructure are organised in space fundamentally impact people's access to opportunity. For example, prioritising new urban development on agricultural land may harm the overall viability of agriculture and food security of an area. Another example is the location of housing for poor people far away from work opportunities, which impacts disposable income, work productivity and transport infrastructure provision. Secondly, the Municipal strategy has over the last decade taken a strong sectoral approach. The approach looks at development in sectors as reflected in the LED plans, plans for creative industries, small enterprises, tourism, and so on. Unfortunately, much of this work is silent on the impact of space on specific sectors and has assisted to hide spatial inequity in our settlements. Thirdly, the municipal government has considerable influence over the space economy of settlements. Under its mandate, local government can determine the nature and location of key infrastructure and where settlement is to occur and where not. Local government cannot grow the economy, but it impacts economic success through the provision and maintenance of infrastructure and how activities are organised in space.

3.2.3 Strategic Focus Area 3: Safe Valley

Establishing safety and law-abiding behaviour in greater Stellenbosch is an absolute priority. All our efforts to improve services, opportunities and sound a financial position – including affordable rates – will come to nothing if by-laws are not respected, our assets are vandalised, or our neighbourhoods, roads, business areas and recreational facilities are not safe. Safety and security, together with cleanliness, are often cited as the most important factors in getting investment into a city or town. A safe and secure greater Stellenbosch area is thus not only a functional necessity but underpins elements of economic and social development strategies.

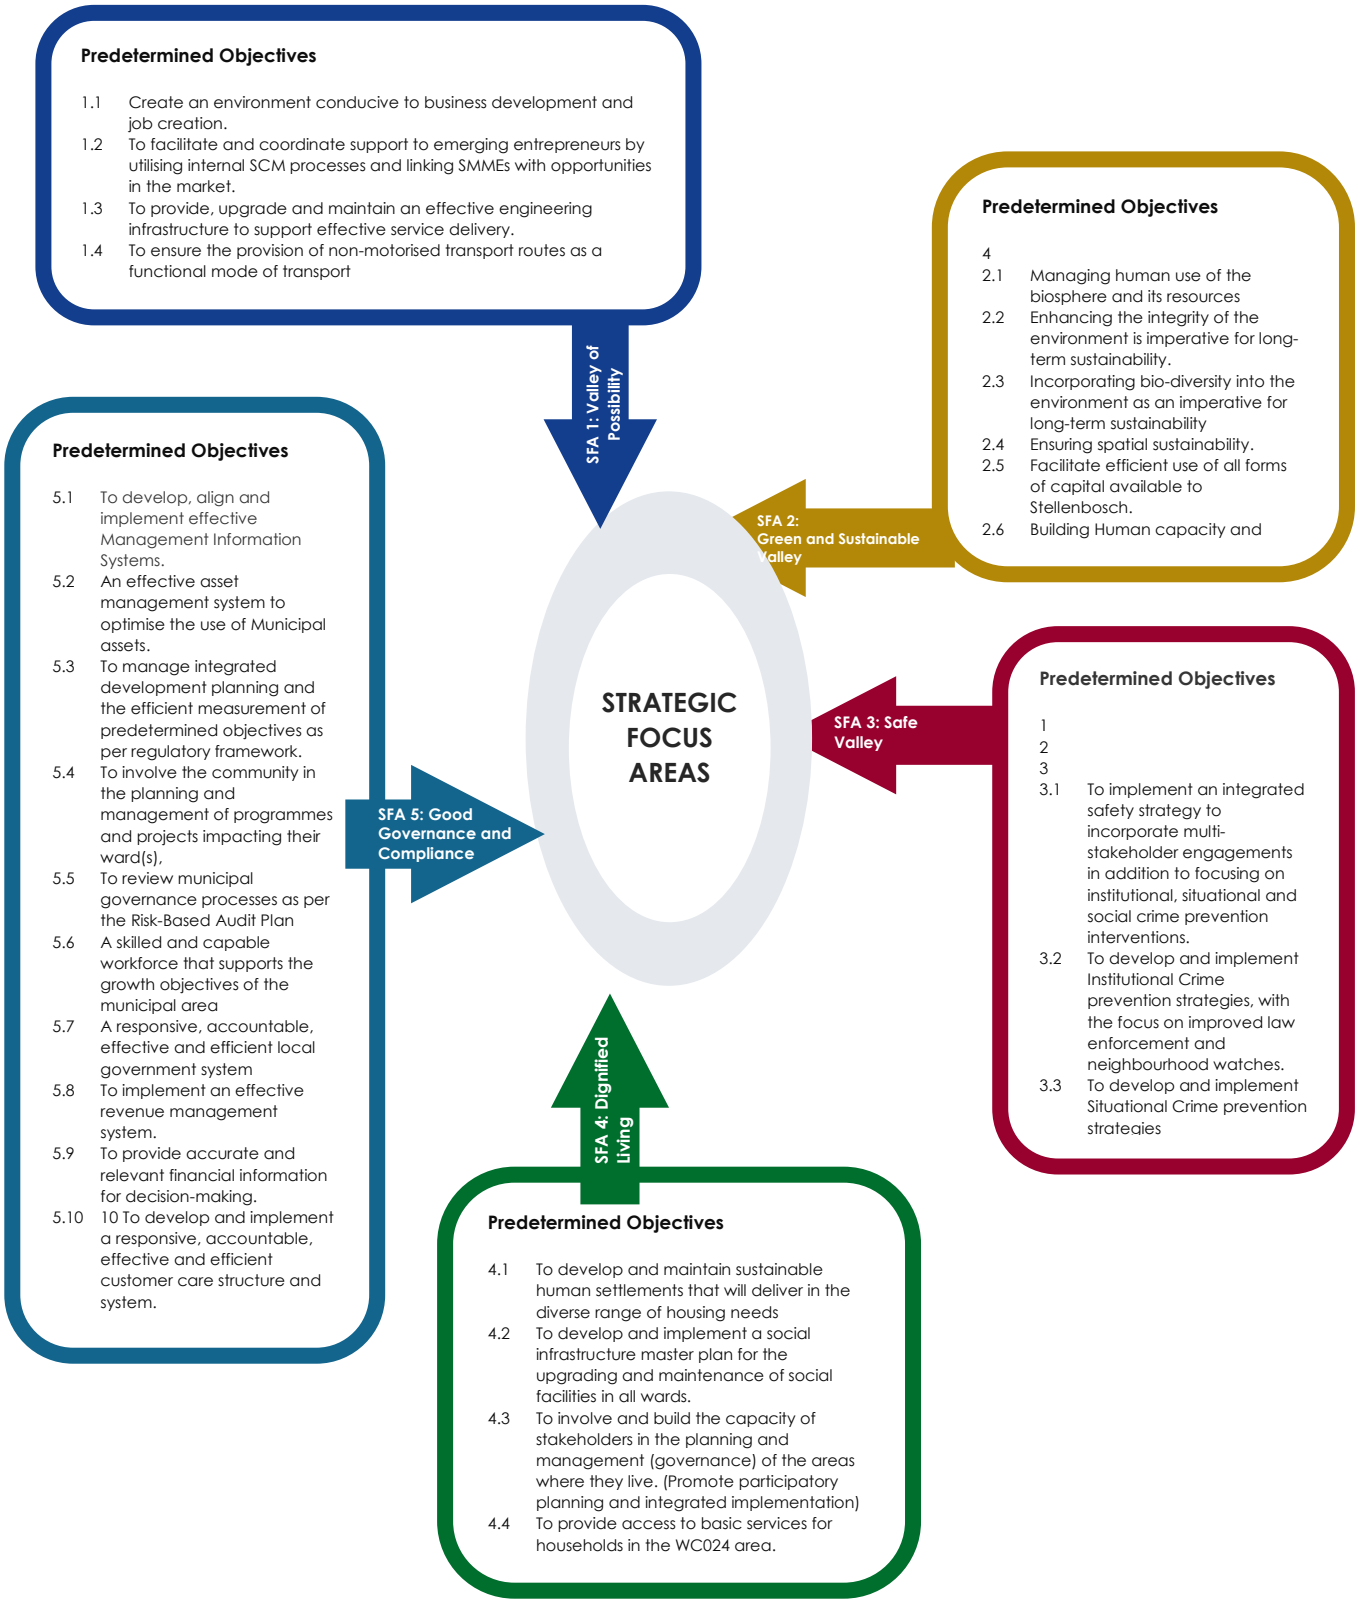
3.2.4 Strategic Focus Area 4: Dignified Living

All our citizens should have access to a dignified life, irrespective of their relative material wealth or their background. By a dignified life, we mean, inter alia, access to shelter, ethical administration of municipal housing, and sufficient choice in housing opportunities for different income groups, including young people. We also mean neighbourhoods with accessible public facilities and services. Support for vulnerable groups, including the youth, women and the elderly is critical, as is a close working relationship with other government and social agencies that focus on the needs of these groups.

3.2.5 Strategic Focus Area 5: Good Governance and Compliance

As more people become urbanised, towns and cities have become increasingly important foci of political and economic power and service provision. As the 13th largest economy nationally, the greater Stellenbosch area and municipality is a significant seat of power and deliverer of services. Deciding what to do, when, where and to whose benefit it is, however, is a difficult task. The range of

services to be provided is wide in scope, and the needs of citizens and enterprises vary significantly. Given the depth of need in many communities and limited resources, tough choices have to be made. To succeed, municipalities have to develop appropriate policy- and decision-making structures and plan carefully for the long and short term (across territorial areas and sectors). They should also ensure synergy between the work of the political and administrative spheres of the municipality, their work and that of other spheres of government, civil society and the business sector. Municipalities should communicate well, and monitor processes and procedures in a structured manner. It is also important that excellence in service delivery contributions, external and internal to the organisation, needs to be recognised and built upon.



We cannot serve the needs of our citizens without a skilled and customer-focused administration in all the different functional areas and at all levels of the municipality. Given the rapid change in all facets of society, the opportunity must exist for staff to develop their skills, whether in specific functional areas or management. To ensure the best use of public resources, regular performance management is essential. The information must be readily available, and contact between citizens and the municipality should be responsive and as efficient as possible.

The facilities that house the administration also need to be organised in a manner that facilitates integrated and joint work among the staff themselves, and between staff, political leadership and other sectors of the community.

A sound financial basis is central to implementing any strategy. The greater Stellenbosch area is no exception. To deliver on the needs of its citizens, the municipality is required to manage revenue streams sustainably. It also needs to ensure that funds available are utilised for identified projects and that value for money is achieved. In procuring goods and services, ethical conduct is essential to ensure the integrity of the municipality. It is most important that the use of municipal resources supports agreed-upon objectives; in other words, the municipal budget and ongoing expenditure must be strategy-led.

3.3 Strategic Objectives and Pre – determined Objectives

Figure 14: Strategic Focus Areas and Predetermined Objectives

3.4 Core Principles in Executing Strategy

The municipality comprises three core components:

- Democratically elected political leadership;
- The administration, comprising officials; and
- Citizens, as individuals, interest groups and organisations (public, community-based and private).

For sustainable municipal management, political leadership and the administration work closely together. Ultimately, democratically elected political leadership is responsible for policy direction. The administration provides advice and implements policy.

International best practice shows that the only way to carry out sustainable urban management is to engage in meaningful partnerships with communities, where communities take full responsibility for the development of their neighbourhoods. Stellenbosch Municipality is committed to ensuring that the real social and economic development of our poorest communities is realised through proper community input and ownership. It is not generally realised that communities are legally part of the municipality. This being the case, however, means that local communities cannot simply play the role of critics or passive bystanders. It is vital that local communities play an active part in the planning and implementation of projects and programmes in their neighbourhoods.

A component of community participation focuses on ward-based planning, where the desired outcome is to have a ward-based plan for each of the 23 wards. Ward-based plans are a form of participatory planning designed to promote community action, with clear linkages to the IDP. Such plans mobilise communities and citizens to take responsibility for their destiny and capture what communities see as their desired outcomes. They also help to speed up the implementation of the IDP. This ensures that the IDP objectives become the collective responsibility of community members, ward councillors, ward committees, the business community, NGOs and CBOs and all other stakeholders in the greater Stellenbosch. This presents an opportunity for visionary local leaders to implement a shared agenda and show tangible and measurable results through collectively addressing the above-mentioned ward priorities.

3.4.1 Alignment with institutional structures and processes

Conventional strategic planning processes aimed at guiding development and management decisions are time-consuming. Preparing a detailed strategic framework and implementation programme can take months. Unfortunately, these processes do not provide for the "now" – the need to guide decisions today. For municipalities, the "now" has become extremely important. Every month counts. We believe that our challenges have become so significant that if we do not find an integrated and commonly shared response to them fast, we may lose much of what is special about an area and be poorly prepared to meet future challenges successfully. We often find that the fact that a strategy is "under preparation" is used as an excuse for inaction or even poor decision-making. The arm's length approach also appears to neglect local experiential knowledge – what people know through working with services issues daily. With this in mind, we have provided for regular, informal but structured engagements between the MayCo and Director's Forum to discuss strategic matters and how to best respond to these issues.

These planning methods bridge the gap between local experiential knowledge, the technical requirements of strategy preparation, and the need for strategic frameworks to be available to deal with immediate decision-making. This process is aimed at getting an initial position through intense, structured information-sharing and planning workshops on how to direct the development and management of the municipality. Written up as an initial strategy, provision is made for influencing the

decisions of today and the nature of further work in a manner that supports the strategy. The strategy becomes the broad strategic framework, elaborated on in further technical work.

3.4.2 The tools of governance

Policy: defining / framing the position of government and direction for action concerning issues where clear choices exist (for example, to focus on private or public transport, to grow a settlement outwards or contain it inwards).

Plan making: indicating where resources should focus functionally or spatially, in what form, and when.

Legislation: directing, constraining and rewarding (potentially) the behaviour of different actors in society (in the interest of all citizens).

Regulation: elaborating on behaviour outlined in legislation through guidelines, standards, and so on.

Fiscal measures: fees, charges and taxes for services as a means for raising government revenue, and directing action in support of policy and legislation (through fiscal "incentives").

Financial measures: the priorities and areas of government spending, including investments in infrastructure, facilities and programmes to support spatial and sectoral or functional area policy and plans.

Institutional measures: arrangements for decision-making, the allocation of powers, responsibilities, agreements and relationships between government and other actors, human resource capacity / competency, and measurement systems within government and between government and other actors.

Asset management: the approach taken to the management of government assets (land, public facilities, and so on).

Knowledge and information management: the government's investment in and dissemination of knowledge about existing / anticipated conditions that require management.

Advocacy: the positions that government take on issues, "positive" and "negative". This could be through the media, public meetings / engagements, at events, and so on.

3.5 Global Policy Direction

The Stellenbosch Municipality's strategic planning does not occur within a vacuum. Various key policy directives are employed that range from a global reach to more specific directives applicable to the municipality and its neighbouring municipalities. All these directives are considered when framing future strategic planning and resource allocation. The sections below outline key policy directives considered when framing Stellenbosch Municipality's 5th Generation IDP 2022 – 2027.

3.5.1 Sustainable Development Goals (SDGs)

Figure 15: Sustainable Development Goals (SDGs)

The Sustainable Development Goals (SDGs), officially known as *Transforming our world: the 2030 Agenda for Sustainable Development* is a set of seventeen aspirational "Global Goals" with 169 targets between them. The Agenda is an action plan for people, the planet, and prosperity, with a focus on strengthening peace and partnerships. The SDGs are integrated and indivisible and balance the three dimensions of sustainable development: the **economic, social** and **environmental**. The Goals are the following:

Sustainable Development Goals (SDGs) 2030

- Goal 1: End poverty in all its forms everywhere.
- Goal 2: End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.
- Goal 3: Ensure healthy lives and promote well-being for all ages.
- Goal 4: Ensure inclusive and equitable quality education and promote life-long learning opportunities for all.
- Goal 5: Achieve gender equality and empower all women and girls.
- Goal 6: Ensure availability and sustainable management of water and sanitation for all.
- Goal 7: Ensure access to affordable, reliable, sustainable, and modern energy for all.
- Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
- Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialisation, and foster innovation.
- Goal 10: Reduce inequality within and among countries.
- Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable.
- Goal 12: Ensure sustainable consumption and production patterns.
- Goal 13: Take urgent action to combat climate change and its impacts.
- Goal 14: Conserve and sustainably use the oceans, seas, and marine resources for sustainable development.
- Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat deforestation, halt and reverse land degradation, and halt biodiversity loss.
- Goal 16: Promote peaceful and inclusive societies for sustainable development, to provide access to justice for all, and build effective, accountable and inclusive institutions at all levels.
- Goal 17: Strengthen the means of implementation and revitalise the global partnership for sustainable development.

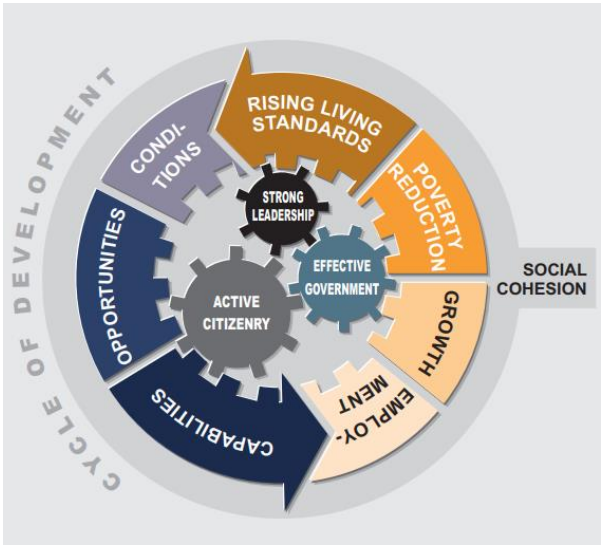
3.6 National Policy Direction

Based on the National Government's election manifesto and Medium-Term Strategic Framework, a set of twelve outcomes were developed through extensive consultation and discussion at both Ministerial and administrative levels. These outcomes reflect the desired development impacts sought nationally, given the government's policy priorities indicated below:

National Strategic Outcomes

- Goal 1: Improved quality of basic education.
- Goal 2: A long, healthy life for all South Africans.
- Goal 3: All people in SA are and feel safe

- Goal 4: Decent employment through inclusive economic growth.
- Goal 5: A skilled and capable workforce to support an inclusive growth path
- Goal 6: An efficient, competitive and responsive economic infrastructure network.
- Goal 7: Vibrant, equitable and sustainable rural communities with food security for all.
- Goal 8: Sustainable human settlements and improved quality of household life.
- Goal 9: A responsive, accountable, effective and efficient local government system.
- Goal 10: Environmental assets and natural resources that are well protected and continually enhanced.
- Goal 11: Create a better SA and contribute to a better and safer Africa and World.
- Goal 12: An efficient, effective and development-oriented public service and an empowered, fair and inclusive citizenship.



3.6.1 National Development Plan (NDP) – 2030

The President appointed a National Planning Commission in May 2010 to draft a vision and plan for the country. On 9 June 2011, the Commission released a diagnostic document and elements of a vision statement. On 11 November 2011, the vision statement and the plan were released for consideration. The Commission consulted widely on the draft plan. The National Development Plan was adopted by Cabinet in September 2012.

An approach to change

The graphic below demonstrates the close link between capabilities, opportunities and employment on social and living conditions. It shows how leadership, an active citizenry and effective government can help drive development in a socially cohesive environment.

Figure 16: National Development Plan – An approach to change

The plan focuses on the critical capabilities needed to transform the economy and society. Achieving these capabilities is not automatic, nor will they emerge if the country continues on its present trajectory. Rising levels of frustration and impatience suggest that time is of the essence: failure to act will threaten democratic gains. In particular, South Africa must find ways to urgently reduce alarming levels of youth unemployment and provide young people with broader opportunities.

Progress over the next two decades means doing things differently. Given the complexity of national development, the plan sets out six interlinked priorities:

- Uniting all South Africans around a common programme to achieve prosperity and equity.

- Promoting active citizenry to strengthen development, democracy and accountability;
- Bringing about faster economic growth, higher investment and greater labour absorption;
- Focusing on key capabilities of people and the state;
- Building a capable and developmental state; and
- Encouraging strong leadership throughout society to work together to solve problems.

The Plan in brief

By 2030

- Eliminate income poverty – Reduce the proportion of households with a monthly income below R419 per person (in 2009 prices) from 39% to zero; and
- Reduce inequality – The Gini coefficient should fall from 0.69 to 0.6.

Enabling milestones

- Increase employment from 13 million in 2010 to 24 million in 2030.
- Raise per capita income from R50 000 in 2010 to R120 000 by 2030.
- Increase the share of national income of the bottom 40% from 6% to 10%.
- Establish a competitive base of infrastructure, human resources and regulatory frameworks.
- Ensure that skilled, technical, professional and managerial posts better reflect the country's racial, gender and disability makeup
- Broaden ownership of assets to historically disadvantaged groups.
- Increase the quality of education so that all children have at least two years of preschool education and all children in grade 3 can read and write.
- Provide affordable access to quality health care while promoting health and wellbeing.
- Establish effective, safe and affordable public transport.
- Produce sufficient energy to support the industry at competitive prices, ensuring access for poor households, while reducing carbon emissions per unit of power by about one-third.
- Ensure that all South Africans have access to clean running water in their homes.
- Make high-speed broadband internet universally available at competitive prices.
- Realise a food trade surplus, with one-third produced by small-scale farmers or households.
- Ensure household food and nutrition security.
- Entrench a social security system covering all working people, with social protection for the poor and other groups in need, such as children and people with disabilities.
- Realise a developmental, capable and ethical state that treats citizens with dignity.
- Ensure that all people live safely, with an independent and fair criminal justice system.
- Broaden social cohesion and unity while redressing the inequities of the past.
- Play a leading role in continental development, economic integration and human rights.

3.6.2 Medium Term Strategic Framework 2019 – 2024 (MTSF)

The MTSF is a high-level strategic document to guide the five-year implementation and monitoring of the National Development Plan (NDP) 2030. It identifies the priorities to be undertaken during the 2019 – 2024 period to put the country on a positive trajectory towards the achievement of the 2030 vision. It sets targets for implementation of the priorities and interventions for the five–year period and states the outcomes and indicators to be monitored.

The implementation of the MTSF 2019-2024 was however disrupted by the outbreak of the COVID-19 pandemic and the declaration of a National State of Disaster on 15 March 2020. The government had to reprioritise its plans and budgets in response to the pandemic, which has had a devastating impact on the health, social and economic aspects of the lives of South Africans. The President launched the Economic Reconstruction and Recovery Plan (ERRP) on 15 October 2020, which sought to restore much needed economic growth and employment. The combination of all these factors

has meant that the MTSF 2019-2024 had to be revised to include critical interventions that are part of the government's relief and recovery efforts.

The Revised MTSF 2019 – 2024 also prioritises government commitments to prevail over the coronavirus pandemic and to work towards recovery. These commitments are to defeat the coronavirus pandemic, to accelerate our economic recovery and implement economic reforms to create sustainable jobs and drive inclusive growth and lastly to fight corruption and strengthen the capacity of the state. These commitments are included in the Revised MTSF 2019-2024 and will provide the focus for annual and strategic plans.

The MTSF 2019 – 2024 aims to address the challenges of **unemployment**, **inequality**, and **poverty** through the three pillars of the NDP.

Figure 17: Three NDP Pillars

The priorities, which will be achieved through more focused implementation, coordination and integration by the various levels of government including state-owned enterprises, the private sector and civil society, are as follows:

Priority 1: A capable, ethical and developmental state;
Priority 2: Economic transformation and job creation;
Priority 3: Education, skills and health;
Priority 4: Consolidating the social wage through reliable and quality basic services;
Priority 5: Spatial integration, human settlements and local government;
Priority 6: Social cohesion and safe communities; and
Priority 7: A better Africa and world.

3.6.3 National District Development Model and One Plan

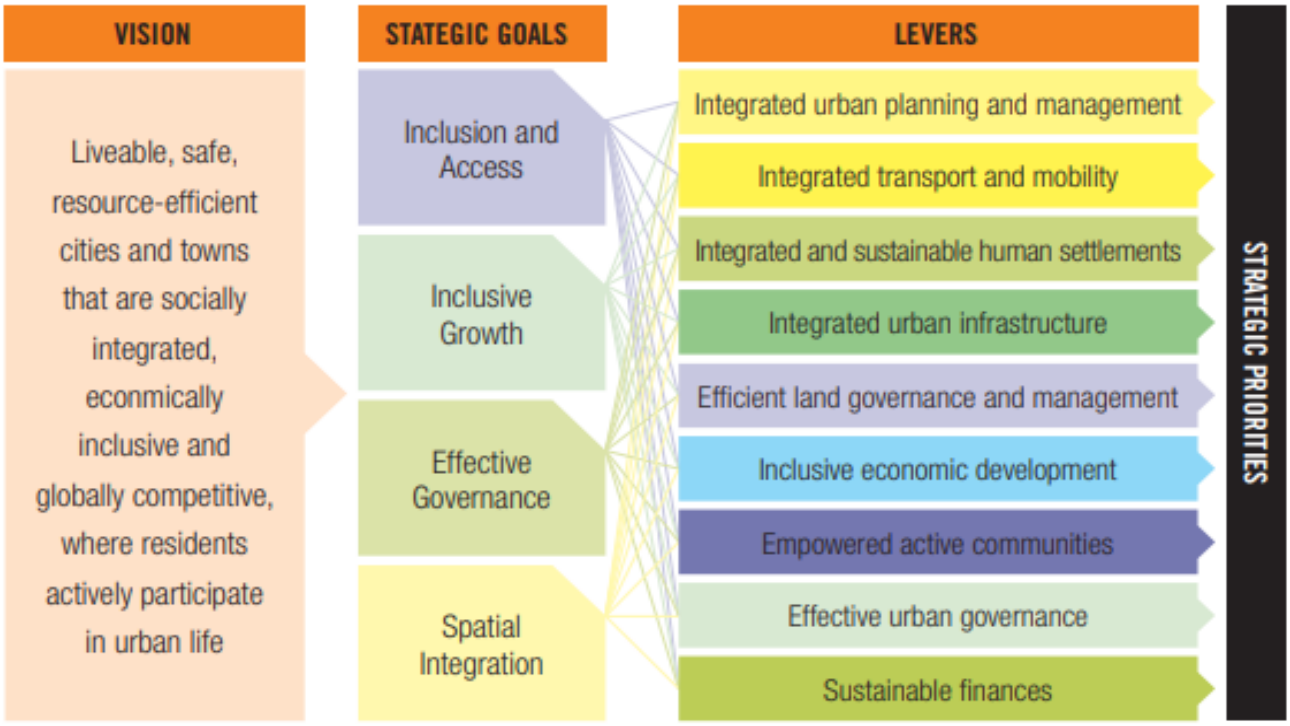
Cabinet approved the District Development Model (DDM) as an All of Government and Society Approach providing a method by which all three spheres of government and state entities work in unison in an impact-oriented way to speed up service delivery so ensuring that municipalities are properly supported and adequately resourced. The DDM is an intergovernmental approach focusing on 44 districts and 8 metropolitan spaces for more effective joint planning, budgeting and implementation over multi-year planning and electoral cycles. Although each sphere, sector or entity has its distinct constitutional powers, functions and responsibilities, they cooperate and undertake collaborative planning, budgeting and implementation processes converging developmental efforts at the district / metropolitan level.

The objectives of the DDM are to:

- solve the silos at a horizontal and vertical level;
- maximise impact and align plans and resources at our disposal through the development of "One District, One Plan and One Budget";

- narrow the distance between people and government by strengthening the coordination role and capacities at the district level;
- ensure inclusivity through gender-responsive budgeting based on the needs and aspirations of our people and communities at a local level;
- build government capacity to support to municipalities;
- strengthen monitoring and evaluation at district and local levels;
- implement a balanced approach towards development between urban and rural areas;
- ensure sustainable development whilst accelerating initiatives to promote poverty eradication, employment and equality; and
- exercise oversight over budgets and projects in an accountable and transparent manner.

Nationally, the DDM is expressed through the development of a One Plan. The One Plan is defined as an intergovernmental plan setting out a 25-30 years long-term strategic framework (consisting of short, medium and long-term actions) to guide investment and delivery about each of the districts and metropolitan spaces. This plan for each space is to be jointly developed and agreed to by all three spheres of government.



3.6.4 Integrated Urban Development Framework (IUDF)

The National Development Plan (NPD) indicated that by 2030 South Africa should observe meaningful and measurable progress in creating more functionally integrated, balanced and vibrant urban settlements. To attain this goal, the Department of Cooperative Governance, working in collaboration with other national departments and other role-players, developed the Integrated Urban Development Framework (IUDF) to transform and restructure South Africa's urban spaces.

The IUDF aims to guide the development of **inclusive**, **resilient** and **liveable urban settlements**, while directly addressing the unique conditions and challenges facing South Africa's cities and towns.

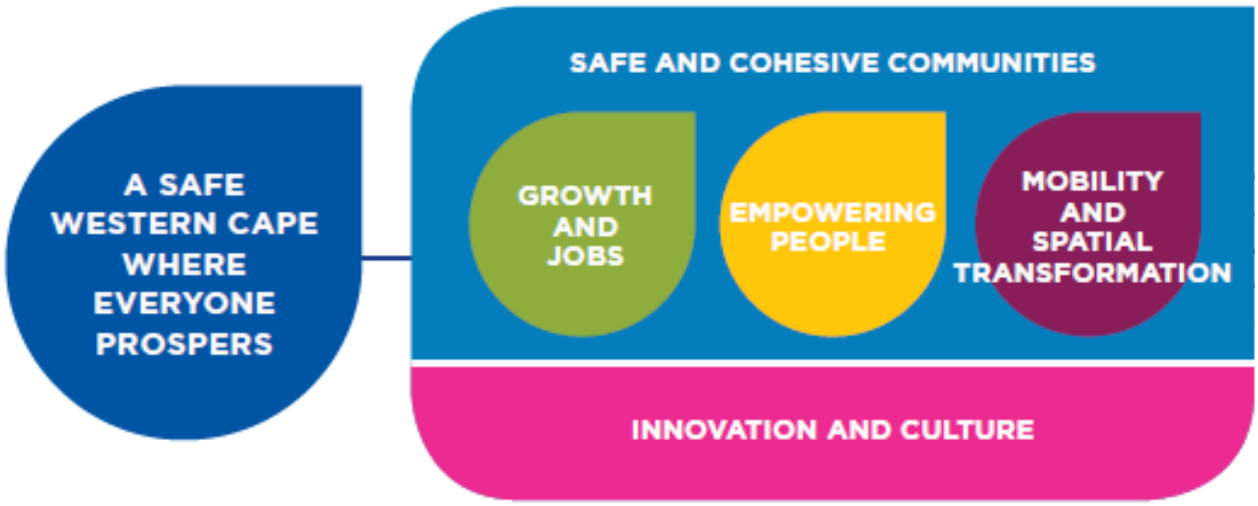
To achieve the transformation vision, four (4) overall strategic goals were introduced:

Figure 18: UIDF Strategic Goals and Levers

Source: Integrated Urban Development Framework

The above IUDF strategic goals give rise to nine (9) policy levers, the implementation of which depends on its integration into the municipal development planning tools such as the Spatial Development Framework (SDF) and Integrated Development Plan (IDP).

3.7 Provincial Policy Direction



3.7.1 The Western Cape Government Provincial Strategic Plan 2019 – 2024

The Western Cape Provincial Government (WCG) committed itself, through its recently adopted Vision Inspired Priorities (VIPs), to building a values-based competent state that enables opportunity and promotes responsibility in a safer Western Cape.

The VIPs are as follows:

1. Safe and Cohesive Communities **(VIP 1)**;
2. Growth and Jobs **(VIP 2)**;
3. Empowering People **(VIP 3)**;
4. Mobility and Spatial Transformation **(VIP4)**; and
5. Innovation and Culture **(VIP 5)**.

Figure 19: WCG: Vision Inspired Priorities (VIPs)

3.8 The Cape Winelands District Municipality (CWDM) Strategic Focus

The Cape Winelands District Municipality has set the following strategic objectives for their District:

Table 15: CWDM Strategic Objective 2022 – 2027

SOs	Strategic Objective 2022 – 2027
SO 1	Creating an environment and forging partnerships that ensure social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.
SO 2	Promoting sustainable infrastructure services and a transport system which fosters social and economic opportunities.
SO 3	Providing effective and efficient financial and strategic support services to the Cape Winelands District Municipality.

3.9 Local Policy Direction

3.9.1 Stellenbosch Municipality

The intent of the Strategic goals for the 5th Generation IDP 2022 – 2027 will remain the same as the strategic goals of the 4th Generation IDP 2017 – 2022.

The table below indicates how the municipality's Strategic Focus Areas are aligned to National, Provincial and District Plans.

Table 16: Horizontal Alignment Matrix

Strategic Focus Areas (SFAs)	Sustainable Development Goals (SDGs)	National Strategic Outcomes	Medium Term Strategic Framework	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
SFA 1- Valley of Possibility	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all (8)	Ensuring decent employment through inclusive economic growth (4)	Economic transformation and job creation (2)	Growth and Jobs (VIP 2)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
SFA 2- Green and Sustainable Valley	Take urgent action to combat climate change (13) Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss (15)	Ensuring that the environmental assets and natural resources are well protected and continually enhanced (10)	Social cohesion and safe communities (6) Spatial integration, human settlements and local government (5)	Empowering People (VIP 3)	Creating an environment and forging partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment.
	Make cities and human settlements inclusive, safe, resilient and sustainable(11)	Ensuring vibrant, equitable and sustainable rural communities with food security for all (7) Promoting sustainable human settlements and improved quality of household life (8)	Social cohesion and safe communities (6)	Mobility and Spatial Transformation (VIP 4)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
SFA 3- Safe Valley	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels (16)	Ensuring all people in South Africa are and feel safe (3)	Social cohesion and safe communities (6)	Safe and Cohesive Communities (VIP 1)	Creating an environment and forging partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District.

Strategic Focus Areas (SFAs)	Sustainable Development Goals (SDGs)	National Strategic Outcomes	Medium Term Strategic Framework	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
SFA 4- Dignified Living	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all (4) Ensure healthy lives and promote well-being for all at all ages (3)	Providing improved quality of basic education (1) Enabling a long, healthy life for all South Africans (2)	Education, skills and health (3)	Growth and Jobs (VIP 2)	Creating an environment and forging partnerships that ensure the health, safety, social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.
	Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation (9)	Setting up an efficient, competitive and responsive economic infrastructure network (6)	A capable, ethical and developmental state (1)	Empowering People (VIP 3)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
SFA 5- Good Governance and Compliance	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels (16)	Achieving an accountable, effective and efficient local government system (9) Creating a better South Africa and a better and safer Africa and the world (11) Building an efficient, effective and development-oriented public service and an empowered fair and inclusive citizenship (12)	A capable, ethical and developmental state (1) Education, skills and health (3) Social cohesion and safe communities (6)	Innovation and Culture (VIP 5)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
		Achieving a responsive, accountable, effective and efficient local government system (9)	A capable, ethical and developmental state (1)	Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	To provide an effective and efficient financial and strategic support service to the Cape Winelands District Municipality.

CHAPTER 4:

Spatial Development Framework

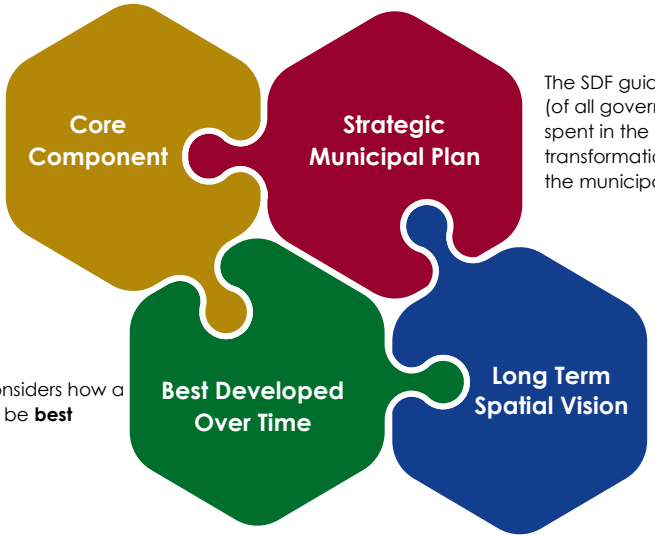
4.1 The Purpose of the Spatial Development Framework

Spatial Development Frameworks (SDFs) serve to provide strategic direction and align the efforts of all government spheres as they apply within the municipal area. The SDF serves to give a coherent spatial direction to the municipal Integrated Development Plan (IDP), and provide a planned and integrated approach to achieve the shared spatial development vision, goals, and objectives for sector plans of government over a short term (5 years), as well as over a strategically longer-term (10 – 20 years), to achieve the desired spatial growth and development pattern of the municipality. Most importantly, the SDF outlines the municipality's spatial agenda to its own service departments, ensuring that their sector plans, programmes, and projects are grounded in a sound and common spatial logic.

In essence, the SDF is a spatial contract between all spheres of government, as well as the private sector, which is binding and must assist in integrating, coordinating, aligning, and expressing development efforts and should be actively supported through the specific arrangement of prioritising, mobilising, sequencing, and implementing of investment in priority spatial structuring areas to achieve the legislated development principles of sustainable development. Therefore, the SDF indicates where and how the municipality intends to channel public investment, influence, and other resources at its disposal. In broad terms, this includes where infrastructure and public facility investment will be prioritised, where private sector partners will be sought in development, and how the municipality will view development applications through its spatial planning and land use management system.

4.2 The focus of the SDFs

At its core, SDFs deal with the art and science of shaping places at different scales (or areas of influence, from large regions to municipal jurisdictions or neighbourhood precincts). The SDF aims to:



- Enable a vision for the future of regions and places that is based on evidence, local distinctiveness and community derived objectives;
- Translate this vision into a set of policies, priorities, programmes, and land allocations together with the public-sector resources to deliver them;
- Create a framework for private investment and regeneration that promotes economic, environmental and social well-being for a specific region or area; and
- Coordinate and deliver the public-sector components of this vision with other agencies and processes to ensure implementation.

In the case of Stellenbosch Municipality, the SDF must answer the following questions: "How is Stellenbosch going to develop over the next ten to thirty years? What kind of development will take place, where will it take place, and who will be responsible for what aspect of the development?"

4.3 The relationship between the SDF and IDP

Figure 20: Relationship: SDF and IDP

The SDF is a **core component** that is part of the IDP. Council adopted to amend the SDF for the **new 5-year IDP term → 29 September 2021.**

The SDF guides on **where** and **when the** budget (of all government and private sector) should be spent in the municipal space to **achieve** spatial transformation and developmental outcomes of the municipality.

Importantly the SDF considers how a municipal area should be **best developed over time**.

The SDF provides a map of the **long-term spatial vision** and a path to get there.

4.4 The Legislative Framework of Municipal SDFs

With the enactment of the Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA), a new planning regime was introduced in South Africa. The coherent legislative system has been designed to spatially transform the country in its democratic era. In broad terms, SPLUMA differentiates between two components of the planning system:

- Spatial Development Frameworks; and
- The Land Use Management System (LUMS).

Section 12(1) of SPLUMA sets out general provisions which apply to the preparation of all scales of SDFs. These provisions require that all SDFs must:

- Interpret and represent the spatial development vision of the responsible sphere of government and competent authority;
- Be informed by a long-term spatial development vision;
- Represent the integration and trade-off of all relevant sector policies and plans;
- Guide planning and development decisions across all sectors of government;
- Guide a provincial department or municipality in taking any decision or exercising any discretion in terms of this Act or any other law relating to spatial planning and land use management systems;
- Contribute to a coherent, planned approach to spatial development in the national, provincial and municipal spheres;
- Provide clear and accessible information to the public and private sector and provide direction for investment purposes;
- Include previously disadvantaged areas, areas under traditional leadership, rural areas, informal settlements, slums and land holdings of state-owned enterprises and government agencies and address their inclusion and integration into the spatial, economic, social and environmental objectives of the relevant sphere;
- Address historical spatial imbalances in development;
- Identify the long-term risks of spatial patterns of growth and development and the policies and strategies necessary to mitigate those risks;
- Provide direction for strategic developments, infrastructure investment, promote efficient, sustainable and planned investments by all sectors and indicate priority areas for investment in land development;
- Promote a rational and predictable land development environment to create trust and

stimulate investment;
- Take cognisance of any environmental management instrument adopted by the relevant environmental management authority;
- Give effect to national legislation and policies on mineral resources and sustainable utilisation and protection of agricultural resources; and
- Consider and, where necessary, incorporate the outcomes of substantial public engagement, including direct participation in the process through public meetings, public exhibitions, public debates and discourses in the media and any other forum or mechanisms that promote such direct involvement.

Chapter 2 of SPLUMA sets out the development principles that must guide the preparation, adoption and implementation of any SDF, policy or by-law concerning spatial planning and the development or use of land. The table below summarises the five SPLUMA principles and what they mean.

Table 18: SPLUMA and Development Principles

Principle	Meaning
Spatial justice	- Past spatial and other development imbalances must be redressed through improved access to and use of land. - SDFs (and associated policies) must address the inclusion of persons and areas that were previously excluded, with an emphasis on informal settlements, and areas characterised by widespread poverty and deprivation. - Spatial planning mechanisms, including zoning scheme by-laws, must incorporate provisions that enable redress in access to land by disadvantaged communities and persons. - Land use management systems must include all areas of a municipality and specifically include provisions that are flexible and appropriate for the management of disadvantaged areas and informal settlements. - Land development procedures must include provisions that accommodate access to secure tenure and the incremental upgrading of informal areas. - In considering an application, a Municipal Planning Tribunal may not impede or restrict the exercise of its discretion solely because the value of land or property is affected by the outcome of the application.
Spatial sustainability	- Promote land development that is within the fiscal, institutional and administrative means of government. - Give special consideration to the protection of prime and unique agricultural land. - Uphold consistency of land use measures in accordance with environmental management instruments. - Promote and stimulate the effective and equitable functioning of land markets. - Consider all current and future costs to all parties for the provision of infrastructure and social services in land developments. - Promote land development in locations that are sustainable, limit urban sprawl, and result in communities that are viable.
Efficiency	- Land development must optimise the use of existing resources and infrastructure. - Decision-making procedures must be designed to minimise negative financial, social, economic or environmental impacts. - Development application procedures must be efficient, streamlined, and timeframes adhered to by all parties.
Spatial resilience	- The flexibility of spatial plans, policies and land use management systems accommodate to ensure sustainable livelihoods in communities most likely to suffer the impacts of economic and environmental shocks.
Good administration	- All spheres of government must ensure an integrated approach to land use and land development, guided by spatial planning and land use management systems. - All government departments must provide their sector inputs and comply with any other prescribed requirements during the preparation or amendment of SDFs. - The requirements of any law relating to land development and land use must be met timeously. - Transparent processes of public participation are incorporated within the preparation and amendment of spatial plans, policies, land use schemes and development applications to afford all parties the opportunity to provide inputs on matters affecting them.

Principle	Meaning
	⁂ Policies, legislation and procedures must be clearly set to inform and empower members of the public.

At the municipal sphere of government, aligned with SPLUMA, and the Western Cape Land Use Planning Act, 2014 (Act No. 3 of 2014) (LUPA), the Stellenbosch Municipal Land Use Planning By-law (dated 1 December 2015) further outlines minimum standards for SDFs, both in the preparation process and content. In support of SPLUMA, the Department of Rural Development and Land Reform prepared a detailed process and content "Guidelines for the Development of Provincial, Regional and Municipal Spatial Development Frameworks and Precinct Plans". The Stellenbosch Municipality follows these legislative frameworks and guidelines in its work on the SDF, which is subject to an extensive review every five years, with less comprehensive reviews annually.

4.5 Stellenbosch Municipality's work on its SDF

The Stellenbosch Municipality's work on the longer-term SDF has taken place with the input and oversight of an Intergovernmental Steering Committee (ISC), as prescribed in LUPA, and comprising representatives across spheres of government and sectors. Further, it should be noted that the approved longer-term SDF (dated November 2019), as well as specific sector documents and area studies, sought inputs from various organisations and individuals as part of public participation processes undertaken during various stages of preparing these studies. The extensive review of the SDF as part of the IDP process, as noted in the previous section is currently underway through the legislated project committee process in terms of LUPA and the Stellenbosch Municipal Land Use Planning By-law, which will produce a five-year spatial development plan, which will not detract from the longer-term spatial development vision contained in the adopted and approved SDF.

The sections below provide an overview of the spatial challenges, opportunities, strategies and programmes as reflected in the SDF over the longer term.

4.6 The Spatial Challenges and Opportunities identified in the SDF

The Stellenbosch Municipality SDF attempts to address the spatial dimensions of varied challenges, documented in this IDP and numerous studies and documents produced to date, and dealing with spatial and non-spatial matters.

Framed as a question, the key challenge revolves around how to achieve, through managing the spatial distribution and form of development – primarily land use activities and associated structures, both new and existing – shared and inclusive growth, increased access to opportunities (particularly for disadvantaged citizens), improved sustainability by minimising ecological footprints, and maintenance of the unique sense of place of the settlements and surrounding lands which constitute the municipality.

In addressing these challenges, the SDF has two tasks. The first relates to how activities should be organised and accommodated in space to best address challenges. The second is to guide how other sectors, services, or functional areas, should adjust their focus and work to support the recommended organisation and accommodation of activities in space.

Without re-stating the varied challenges of the municipality outlined in full in the IDP and sector documents, the table below lists specific spatial challenges addressed by the SDF, following the broad themes contained in the SDF Guidelines.

Table 19: Spatial Challenges

Theme	Spatial Challenges
Bio-physical context	• The degradation of key ecological assets and loss of productive agricultural land has been ongoing. • The condition of the river systems within the municipality has deteriorated. • Climate change is likely to have a significant impact on the natural resource base of the municipal area, which will include a reduction in water, increased temperatures, increased fire risks, and increased incidences of extreme weather events. This in turn will impact agricultural production, scenic landscapes, the liveability of urban areas and the ability to provide basic services such as water and sewerage treatment.
Socio-economic context	• The population in the municipality will continue to grow above the average provincial rate, and urbanisation rates will increase with settlements absorbing the bulk of growth. • The ability of the economy to absorb growth, particularly with regard to job creation, is concerning. • The informal sector will continue to provide livelihoods to a significant proportion of residents. • The growing youthful population, large student population, and the seasonal influx of labour are likely to increase the municipality's dependency ratio, in addition to a smaller base from which the municipality can collect revenue to provide services and opportunities that will improve the lives of the poor. • Inequality in the municipal area, and particularly in the historic towns such as Stellenbosch and Franschhoek, remains significant and current development patterns are not addressing the issue. • Crime rates remain high and the market response i.e. private security provision for those who can afford it, is likely to exacerbate inequality. • Upgrading and provision of basic services and housing will remain the focus of the municipality, including other government agencies for the foreseeable future. The focus on these priority areas can lead to foregoing investment in other areas that would likely have more socio-economic spin-offs and result in improved place-making. • The municipality's inability to provide basic services (e.g. refuse removal) leads to dumping, environmental degradation and resulting health-related problems.
Built environment context	• Infrastructure backlogs – especially in poor areas – and essential municipal infrastructure requires significant investment and maintenance. This applies to all basic services (electricity, water supply, wastewater management and solid waste disposal). • The need for housing and shelter – both for the lower-income groups and those with employment – has not been adequately met. The existing housing pipeline will not meet the need of those requiring state assistance, and little is built which is affordable to ordinary workers. A pattern of intermittent land invasions and associated responsive basic infrastructure provision, as well as daily inward commuting of ordinary workers and students, is likely to continue. • Property and land are inordinately expensive in the municipality, locking out both the poor and lower / middle-income workers from the property market. Without significant intervention in the property market, this situation is likely to worsen. • Inequality in the municipality is particularly evident in the structure of settlements, with low-density development accommodating the wealthy, while the poor are accommodated in high density, poor quality peripheral areas. Significant numbers of people live in informal shelters. Many new developments reinforce a pattern of low overall densities and are located in peripheral areas, entrenching dependency on private transport, amongst other inefficiencies. • New high-density development mostly focuses on the student market, and target groups using private vehicles. • Numerous heritage resources located within the settlements are assets of immense value. Many of these, are underutilised and have the potential to become vehicles for innovative development that can contribute to creating a more inclusive economy. • The existing industrial / manufacturing operations and land holdings in the centre of Stellenbosch town impede large scale restructuring of the settlement. • The planned move of Distell – occupying large tracts of strategic land in Stellenbosch town – to Klapmuts presents very significant opportunities for the future development of Stellenbosch, Klapmuts, and the broader regional space economy. If not rigorously managed as a shared initiative between the public and private sectors, the opportunity may be lost. The municipality should focus maximum effort on utilising the opportunity presented to address the needs of the town. • Transport planning practice at the provincial level has maintained a regional mobility lens with the bulk of planning effort and funding allocated to road infrastructure rehabilitation and expansions that provide for and respond to demand-side growth, largely attributed to unconstrained low

Theme	Spatial Challenges
	occupancy private vehicles at the cost of local mobility. Too little focus is placed on progressively improving the efficiency of use of existing road space through shifting modes and altering travel patterns. This regional mobility and growth approach's focus has very high financial, economic, social, and environmental costs, as it is unsustainable and exclusionary to most of the population. The regional focus on private vehicle growth has an adverse consequence for managing transport at the localised level where trips are generated. The provision of public transport, non-motorised modes and travel demand management programmes are generally considered as local municipal functions, and not a core responsibility or competency of the Province. Given the extent of transport issues in the municipality, the municipality has limited institutional capacity and funding for the management of transport issues. As a result, sustainable transport approaches have been extensively overlooked in favour of traditional engineering solutions. The municipality continuously update the online housing demand database and associated mobile application to provide a valuable source for planning and delivery.
Institutional context	The limited capital budget of the municipality, given the extent and depth of community needs. Limited funds to address critical issues especially related to infrastructure augmentation and maintenance places the municipality in a tenuous position to reverse backlogs or negative trends in shelter or infrastructure needs. Private sector investment is not structured to contribute to the long-term maintenance of common assets or address the developmental needs of the municipal area. The growth in rates of income will largely be used to maintain existing infrastructure and services and will likely not focus on new productive investments. The limited professional resources of the municipality, specifically concerning the rigorous and dedicated full-time management of large-scale projects. Sector planning remains fragmented, and most developments follow a business-as-usual pattern.

4.7 The Spatial Proposals of the SDF

4.7.1 Spatial development 20 -year vision statement

In line with the SM's vision as the "valley of opportunity and innovation" (as contained in the IDP), the vision for spatial development and management is described as follows:

"we envisage a municipal area even more special than it is today; a place of natural beauty, rich in the way it preserves and exposes elements of history and culture, its produce from the land, the quality of its institutions, and the mindfulness and innovations of its people.

It is a future Stellenbosch municipal area that remains familiar; it has retained what differentiates the municipality from other places, its landscapes, historic buildings and settlement patterns, and the specialness of its institutions. It is resilient; it has adapted to the needs of today without losing what is special from the past. It is inclusive; it has accommodated the needs of citizens from all walks of life without fear. It is diverse and therefore productive. In adapting to new needs, and accommodating new people, it has become the stage for new expressions of culture, new businesses, and new ways of doing.

In form, it comprises a set of compact settlements, large and small, surrounded by natural and productive landscapes, and linked by means of public transport. Internally, settlements are relatively dense, cyclable and walkable. Each portrays a unique character, closely linked to its surrounding landscape, the reach and extent of its public institutions, and the capacity and opportunity of its infrastructure. Each provides for a range of citizens from all walks of life, with significant choice in place of residence."

4.7.2 Strategic Focus and Spatial Alignment between the IDP and SDF

The table below illustrates how work on the SDF relates – in terms of its focus and contribution – to achieving the five municipal strategic focus areas as contained in the IDP.

Table 20: IDP Strategic Focus Areas and the SDF

IDP Strategic Focus Area	Related concerns of the SDF	SDF Strategic Direction
SFA1: Valley of possibility	The way settlements, nature and agriculture are spatially developed and managed to enhance individual and collective livelihood opportunities and enterprise development, and overcome inequity and exclusion.	Containment of settlements to protect nature / agricultural areas and enable public and non-motorised transport and movement. A focus on public and non-motorised transport and movement.
SFA2: Green and Sustainable Valley	The way settlements, nature and agricultural areas are spatially developed and managed to maintain and enhance natural resources and ensure a future balance between human settlement and its use of natural resources and opportunity.	Protection of natural areas, agricultural areas, and river corridors.
SFA3: Safe Valley	The way settlements, nature and agricultural areas are spatially developed and managed to ensure individual and collective safety in living, in movement, at work, institutions, and play.	Denser settlements with diverse activity to ensure surveillance.
SFA4: Dignified Living	The way settlements, nature and agricultural areas are spatially developed and managed to ensure equal access to shelter, facilities and services, notwithstanding material wealth, age, gender, or physical ability.	A specific focus on the needs of "ordinary" citizens, experiencing limited access to opportunity because of restricted available material resources.
SFA5: Good Governance and Compliance	The way settlements, nature and agricultural areas are spatially developed and managed to ensure individual and collective participation – based on accessible information and open processes – in matters related to spatial planning and land use management.	Presenting information, including opportunities and choices in a manner that assists its internalisation by all.

4.7.3 Spatial Proposals and Structuring elements of the SDF

The conceptual framework extracted from the SDF shows the expression of the seven key principles, which include:

Maintain and grow the assets of Stellenbosch's natural environment and farming areas

- The spatial policies that relate to this principle, focus on protective actions or alternatively called urban management.
- The intent is to protect and expand priority conservation areas, establish ecological linkages, and preserve high-potential agricultural land within the municipality.
- Resist the subdivision of viable agricultural land, unless it forms part of a new balanced, integrated, and inclusive settlement supportive of the SDF objectives (including settlement hierarchy), and rural guidelines.
- Support compatible and sustainable rural activities outside the urban edge (including tourism) if these activities are of a nature and form appropriate in a rural context, generate positive socio-economic returns, and do not compromise the environment, agricultural sustainability, or the ability of the municipality to deliver on its mandate.

Respect, preserve and grow our cultural heritage

- The spatial policies that relate to this principle, focus on protective actions around specific spatial elements e.g. scenic landscapes, scenic routes, and special places of arrival, whilst also focussing on improving the landscape and public amenities associated with these cultural assets.
- The intent is to preserve significant cultural and historic assets within the municipality and to grow the opportunity for new or emerging forms of cultural expression through expanding the use of cultural assets or supporting new uses for areas or structures of historic value.
- As far as possible, protect cultural landscape assets – including undeveloped ridgelines, view corridors, scenic routes, and vistas – from development.

Direct growth to areas of lesser natural and cultural significance as well as movement opportunity

- The spatial policies that relate to this principle, focus on protective actions around specific spatial elements e.g. maintaining the urban edge and following the defined settlement hierarchy.
- In addition to the abovementioned, spatial policies are directed at urban restructuring and spatial transformation (also referred to as change and new development actions) and include, informal settlement upgrading; residential densification and infill development; mixed land use and improved economic opportunity; improved access and mobility; improved access to community facilities; and improved landscaping and public amenities.

The spatial policies are spatially targeted in priority development areas and include Baden Powell Adam Tas-R304 corridor for growth and new development; Stellenbosch town and Klapmuts. Clarify and respect the different roles and functions of existing settlements

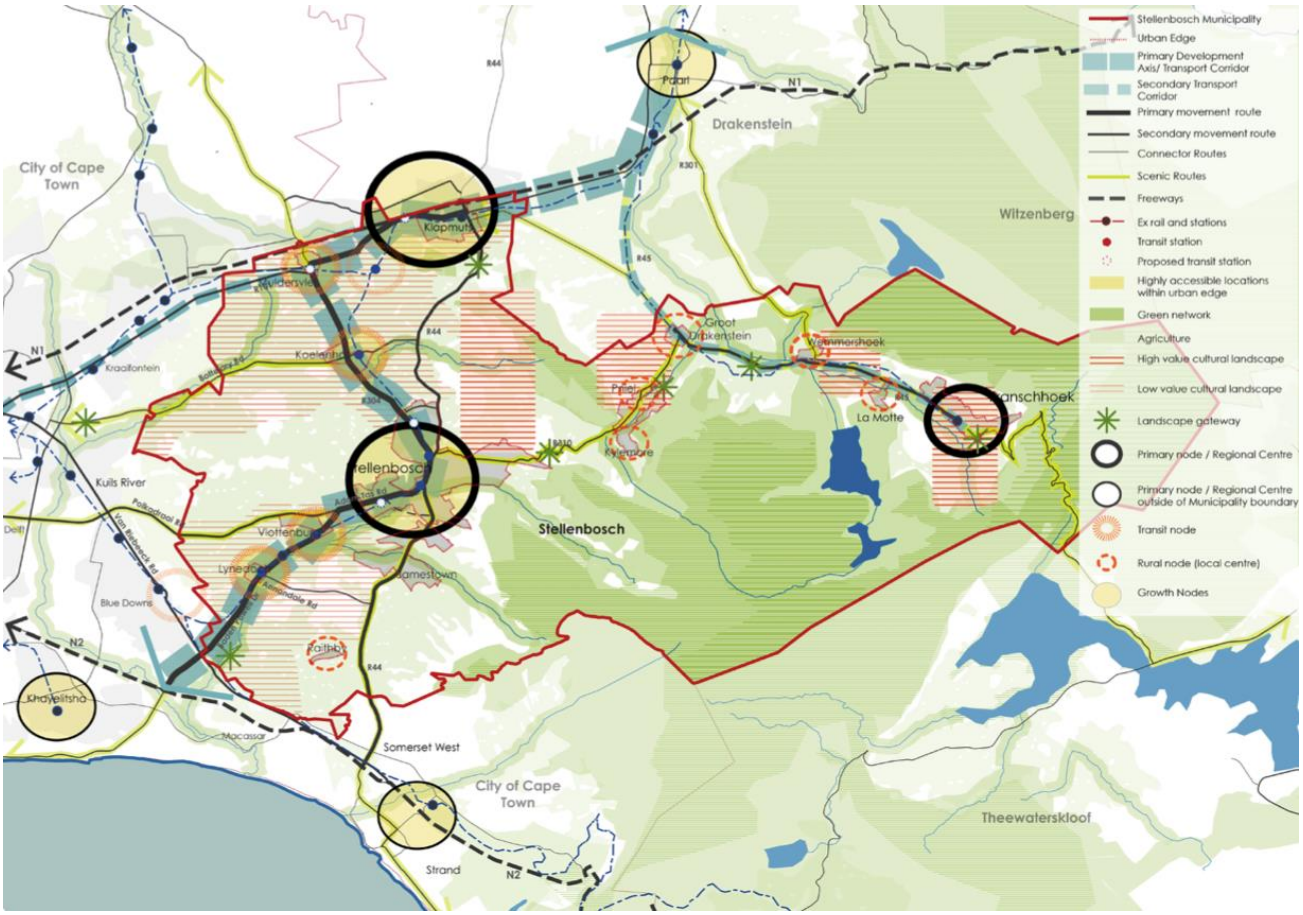
- The spatial policies that relate to this principle, focus on protective actions around specific spatial elements e.g. maintaining the urban edge and following the defined settlement hierarchy. In clarifying and respecting the different roles and potentials for settlements within the municipality, the natural and cultural assets are protected, whilst ensuring that the capacity of existing infrastructure can accommodate change and growth.
- The spatial policies that are directed at urban restructuring and spatial transformation within the hierarchy of settlements focus on new growth and development primarily in larger settlements (as referenced in principle 3 above), to:

  a) Minimise associated impacts on the environment, agricultural land, and natural resources.
  b) Maximise the livelihood opportunity (also referred to as quality of life) through building on the availability of existing public facilities and commercial opportunities.
  c) Maximise the sustainability of new facilities and commercial opportunities.
  d) Enable the provision of infrastructure in the most efficient and cost-effective way.
  e) Minimise the need for inter-settlement movement.
  f) Maximise opportunity for and use of non-motorised and public transport.
  g) Minimise growth in smaller settlements where opportunity is limited while improving access to local services and facilities (required daily).
  h) Maintain and enhance the unique historic, cultural, and settlement characteristics of different settlements.

Clarify and respect the roles and functions of different elements of movement structure

- The spatial policies that are directed at urban restructuring and spatial transformation within the hierarchy of settlements ensure a balanced approach to transport in the municipality, that appropriately serves regional mobility needs and local level accessibility improvements.
- The spatial policies actively promote compact, dense, mixed-use development, which reduces and promotes non-motorised and public transport.

Ensure balanced, sustainable communities



- The spatial policies that are directed at urban restructuring and spatial transformation within the hierarchy of settlements (including maintaining the urban edge), work towards and maintain - for each settlement – a compact urban form and structure to achieve better efficiency in service delivery and resource use, the viability of non-motorised and public transport, and facilitate inclusion, integration, and entrepreneurship development.
- Adopting a conservative view towards the extension of existing urban edges over the SDF period.
- Actively support infill development and adaptive re-use of existing structures.

- Support increased densities in new, infill, and redevelopment projects.
- Rationalise space standards – especially for social facilities – and release surplus land for other uses, specifically housing.
- Support the general upgrading and transformation of existing informal settlements.
- Expand housing opportunities for a broader range of groups – including lower-income groups and students – particularly in settlements forming part of the Baden Powell-Adam Tas-R304 corridor.
- Provide and maintain a system of accessible social facilities, integrated with public space and non-motorised transport (NMT) routes.
- Provide and maintain an urban open space / public space system integrated with public transport / NMT, social facilities, and linked to natural assets.
- Ensure work and commercial opportunities are accessible through public transport and NMT to all communities and provide opportunities to emerging and small entrepreneurs.
- Ensure that all settlements are balanced and sustainable, providing for different groups, maintaining minimal development footprints, walkability, and so on.

Focus collective energy on a few catalytic areas that offer extensive opportunity and address present risk

- The spatial policies focussed on major development efforts with regards to new mixed-use, industrial, residential and significant changes in access and mobility are spatially targeted in the Adam Tas Corridor (Stellenbosch town) and Klapmuts.

Figure 21: Consolidated Concept for the Municipal Area

4.8 Implementation Framework

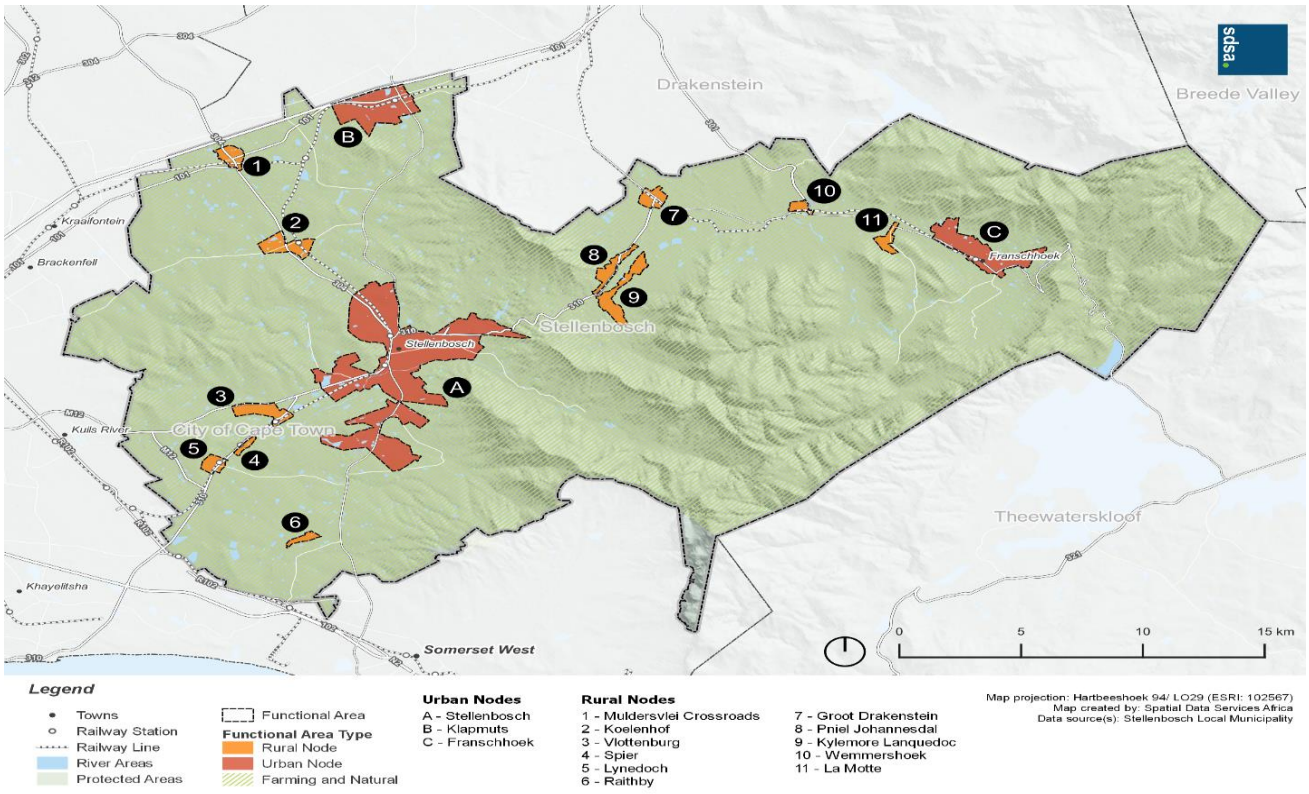
The SPLUMA guidelines require, as part of the *m*SDF, a high-level Implementation Framework setting out the required measures that will support the adoption of the SDF proposals while aligning the capital investment and budgeting process moving forward. The *m*SDF Implementation Framework comprises the following sections:

- A proposed settlement hierarchy.
- Priority development areas and themes.
- A policy framework (linked to strategies).
- Guidelines, studies, and information supporting the policies.
- Implications for sector planning and specific development themes, including:
  - Movement;
  - Housing; and
  - Local economic development.
- Implications for inter-municipal planning
- Land use management and regulations.
- Catalytic initiatives.
- Further planning work.
- Institutional arrangements.
- Checklists in support of decision-making.
- A municipal leadership and advocacy agenda related to spatial development and management.

4.8.1 Settlement hierarchy, priority development areas and themes

In terms of the SDF concept, prioritisation of development – at a broad level – is done through two main spatial structuring elements. The first is spatial and targeted at significant future growth in functional and priority development areas. The second is sectoral or thematic, focused on the kind of development to be prioritised.

The functional and priority development areas are categorised into urban and rural nodes and are depicted in the figure … below, with the detailed description provided in the table:



The spatial areas for priority development over the *SDF* planning period are:

- Stellenbosch Town;
- Klapmuts; and
- Franschhoek (maintenance).

In terms of sectoral or thematic focus, the spatial development priority in all settlements should be to:

- Upgrade the servicing and transformation of informal settlements;
- Provide housing for lower-income groups in well-located areas (specifically through infill of vacant and underutilised land or redevelopment of existing building footprints);
- Expand and improve public and NMT routes;
- Improve public and community facilities and places (e.g. through clustering, framing them with infill development to improve edges and surveillance, prioritisation for landscaping, and so on); and
- Expand the recognition, restoration, and exposure of historically and culturally significant precincts and places (both in the form and use of precincts and places).

Figure 22: Functional and priority development areas

The proposed settlement hierarchy for SM, supporting the spatial plan and proposals for the settlement as a whole, is outlined in the table below.

Table 21: Proposed settlement hierarchy for the Stellenbosch Municipality

Settlement	Role	Development and Land Use Management Focus
Primary urban settlements		
Stellenbosch town (Urban node - A)	A significant centre comprising extensive education, commercial and government services with a reach both locally and beyond the borders of the municipality, tourism attractions, places of residence, and associated community facilities.	Broadening of residential opportunity for lower-income groups, students, and the lower to middle housing market segments. Upgrade of informal settlements. Retention of University functions in the town. Enablement of the Adam Tas Corridor. Sensitive residential infill and compaction. Drive to established "balanced" precincts. Public transport development, travel demand management, parking controls, and NMT improvements.
Klapmuts (Urban node - B)	Focus on economic development (utilising a favourable location for manufacturing, logistics, and warehousing enterprises) and associated residential opportunities	Support for development of RE / Farm 736 as a lever to economic development utilising a favourable location for manufacturing, logistics, and warehousing enterprises. Balanced housing provision in Klapmuts South, focused on those who can benefit from employment provision through unlocking Klapmuts North. Establishing the Klapmuts town centre. NMT improvements.
Franschhoek (Urban node - C)	Secondary service centre, significant tourist destination, and place of residence.	Upgrade of informal settlements. NMT improvements. Sensitive infill within urban edge providing inclusive housing and extended commercial opportunity (also for small and emerging entrepreneurs). Retention of historic character.
Secondary urban settlements		
La Motte (Rural node – 11)	Contained rural settlement.	Diversification of existing activities to curtail the need for movement.

Settlement	Role	Development and Land Use Management Focus
		Sensitive location of diversified uses closer to the R45. Limited further housing development.
Wemmershoek (Rural node – 10)	Contained rural settlement.	Possible extension of residential opportunity linked to re-use of the saw-mill site and local employment opportunity.
Groot Drakenstein (Rural node – 7)	Contained rural settlement.	Accommodation of sensitive private and public sector initiatives offering expanded livelihood (including tourism) and residential opportunity.
Dwars River Valley (Rural nodes – 8 and 9)	Contained historic rural settlements.	Accommodation of sensitive private and public sector initiatives offering expanded livelihood (including tourism) and residential opportunity.
Jonkershoek (Rural node)	Contained, but a dispersed collection of institutional, recreational and residential uses.	Potential future consolidated, inclusive settlement linked to rail / bus.
Muldersvlei (Rural node – 1)	Contained rural settlement.	Potential future consolidated, inclusive settlement linked to rail / bus.
Koelenhof (Rural node – 2)	Contained rural settlement.	Potential future consolidated, inclusive settlement linked to rail / bus.
Vlottenburg (Rural node – 3)	Contained rural settlement.	Gradual expansion of unique development model based focused on sustainable living and education.
Lynedoch (Rural node – 5)	Contained village and institutional cluster.	Containment and limited expansion of existing offering.
Spier (Rural node – 4)	Contained tourism and cultural centre.	Protection of unique historic settlement structure and form.
Raithby (Rural node – 6)	Contained historic rural settlement.	Potential future consolidated, inclusive settlement linked to rail/ bus.

Over the longer term, Muldersvlei / Koelenhof and Vlottenburg / Lynedoch along the Baden Powell-Adam Tas-R304 could possibly accommodate more growth and be established as inclusive settlements offering a range of opportunities. However, much work needs to be done to ensure the appropriate make-up of these settlements (including each providing opportunity for a range of income groups) and integration with the corridor in terms of public transport. They are therefore not prioritised for significant development over the *SDF* period. Should significant development be enabled in these areas now, it is likely to be focused on private vehicular use and higher-income groups (in gated developments), and will in all probability reduce the potential of initiatives to transform Stellenbosch town and Klapmuts.

The focus on Stellenbosch town and Klapmuts does not exclude all development focus in Franschhoek and the smaller settlements. Rather, it is argued that these settlements should not accommodate significant growth as the pre-conditions for accommodating such growth do not exist to the same extent as in Stellenbosch town and Klapmuts.

What should be emphasised in Franschhoek and smaller settlements are improving conditions for existing residents and natural growth within a context of retaining what is uniquely special in each (from the perspective of history, settlement structure and form, relationship with nature and agriculture, and so on).

4.8.2 Policy Framework

The table below sets out specific spatial policies to support the SDF concept and settlement plans. In using the policy framework, it is important to note that one specific policy or guideline should not be highlighted or used exclusively to support a specific initiative. Rather, each policy supports the other; each "frames" the other. Thus, initiatives or proposals should be evaluated in terms of the policy framework as a whole.

Further, the successful implementation of spatial policy and guidelines is often dependent on related, supportive, non-spatial policy. This implies policy alignment across municipal functional areas and

services. The table also includes specific work guidelines which begin to frame the work to be undertaken – or continued – in support of proposed policies.

The table also includes specific work guidelines which begin to frame the work to be undertaken – or continued – in support of proposed policies.

Table 22: Specific work guidelines

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
1.	Maintain and grow the assets of SM's natural environment.	• As far as is possible, protect and expand priority conservation areas, establish ecological linkages, and preserve high-potential agricultural land within the municipality. • Resist the subdivision of viable agricultural land unless it forms part of a new balanced, integrated, and inclusive settlement supportive of the *m*SDF objectives, an agri-village in line with provincial policy for the settlement of farmworkers, or the formalisation of the "urban" component of existing forestry settlements (for example Jonkershoek and La Motte). • Support compatible and sustainable rural activities outside the urban edge (including tourism) if these activities are of a nature and form appropriate in a rural context, generate positive socio-economic returns, and do not compromise the environment, agricultural sustainability, or the ability of the municipality to deliver on its mandate.	• Proactively maintain and upgrade municipal infrastructure services to limit / mitigate risk to ecological services. • Support initiatives to protect water resources, rehabilitate degraded aquatic systems, retrofit or implement water demand management systems, and mainstream water conservation. • Support energy diversification and energy efficiency initiatives to enable a transition to a low carbon, sustainable energy future. • Support initiatives to extend public access to natural assets without compromising the integrity of natural areas or ecological services. • Support initiatives by the private sector to extend environmental stewardship. • Assist in initiatives to diversify, strengthen, and open up new opportunities and jobs in the rural economy, including the identification of strategically located land for land reform purposes. • Support initiatives to utilise municipally-owned agricultural land for small scale agriculture, forge partnerships with non-governmental or public benefit organisations to assume management responsibilities for commonages, and provide basic agricultural services to commonages.	• Prepare and implement management plans for municipal nature reserves and other ecological assets. • Prepare and implement invasive species control plans for municipal properties. • Prepare and implement initiatives for the rehabilitation of rivers and wetlands in urban areas. • Develop resource-efficient strategies for all municipal services and land and building development (e.g. compulsory green energy installations in building development, greywater circulation, sustainable urban drainage, etc.). • Utilise and contribute to municipal and provincial mapping and planning initiatives that inform land-use decision-making supportive of ecological integrity, securing natural resources, and protecting agricultural land of high value. • Delineate and manage urban edges and watercourse setbacks in a manner that diverts urban growth pressures away from important natural and agricultural assets. • Apply biodiversity offsets in cases where development in areas of endangered and irreplaceable biodiversity cannot be avoided. • Actively engage with adjoining municipalities and provincial government to ensure that the integrity of SM's natural environment is maintained (specifically in relation to land use management in adjoining municipal areas).

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
2.	Respect, preserve and grow the cultural heritage of SM.	• Preserve significant cultural and historic assets within the municipality and grow the opportunity for new or emerging forms of cultural expression through expanding the use of existing cultural assets or supporting new uses for areas or structures of historic value. • As far as is possible, protect cultural landscape assets – including undeveloped ridgelines, view corridors, scenic routes, and vistas – from development. • Support alternative uses for historic structures and places that will enable their preservation (subject to adherence to general *m*SDF strategy and policies).	• Support the transfer of municipal assets of cultural and historic value to organisations geared to manage these assets sustainably in the interest of the broader community. • Manage heritage places and structures in terms of the recommendations of municipal heritage studies.	• Maintain and utilise municipal and inter-governmental evaluation and mapping initiatives to inform land-use decision-making supportive of cultural integrity, and securing historic places and structures. • Actively engage – continuously – with adjoining municipalities and provincial government to ensure that the integrity of SM's heritage is maintained (specifically in relation to land use management in adjoining municipal areas).
3.	Direct significant growth or new development in SM to areas: • Not identified as of the most critical natural or cultural significance. • Where the most opportunity exists in existing infrastructure investment, whether reconfigured, augmented, or expanded.	• Prioritise the targeted settlements on the Baden Powell-Adam Tas-R304 corridor for growth / new development. • Over the *m*SDF period, focus on Stellenbosch town and Klapmuts to accommodate significant new growth.	• Align the policy and planning of all municipal services to support accommodating significant growth and new development as proposed in specific areas. • Progressively utilise the municipality's significant asset of land as a resource to direct major growth or new development to areas not identified as of the most critical natural or cultural significance. • Allocate municipal funds for land acquisition in areas identified as most suitable for growth or new development (specifically for development as lower-income housing).	• Together with the WCG, undertake inter-service investigations to determine the exact location, size, nature, and form of new settlement areas to accommodate new growth. • Develop specific framework planning, land use management, infrastructure, financial, and urban design provisions and directives to ensure the optimal development of identified settlement areas to accommodate new growth.
4.	Clarify and respect the different roles and potentials of settlements in SM and maintain the identity of each.	• Ensure that each settlement – large and small – remains a distinct entity, surrounded by natural open space and agricultural land. • Maintain a clear hierarchy of settlements that (in general terms) focuses on new growth and development in larger settlements to: – Minimise associated impacts on the environment, agricultural land, and natural resources. – Maximise livelihood opportunities through building on the availability of existing public facilities and	• Align the policy and planning of all municipal services to support the proposed settlement hierarchy and development / management approach. • Reinforce the role of Stellenbosch town as a regional service and tourism centre focused on higher-order educational, health, government, and commercial uses, as well as unique historic assets. • Reinforce the role of Klapmuts as a potential regional logistics / warehousing / manufacturing hub – with associated residential opportunity – based on its location at the intersection of the N1 and regional north / south movement routes.	• Support the re-location of land extensive manufacturing, logistics, and warehousing enterprises from Stellenbosch town to Klapmuts. • Maintain the nature and form of small rural settlements while enabling small changes towards improving livelihood opportunities.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		commercial opportunities. – Maximise the sustainability of new facilities and commercial opportunities. – Enable the provision of infrastructure in the most efficient and cost-effective way. – Minimise the need for inter-settlement movement. – Maximise opportunity for and use of non-motorised and public transport. • Minimise growth in smaller settlements where opportunity is limited while improving access to local services and facilities (required daily). • Maintain and enhance the unique historic, cultural, and settlement characteristics of different settlements.	• Maintain Franschhoek as a centre for tourism and culture with limited growth potential.	
5.	Ensure a balanced approach to transport in SM, that appropriately serves regional mobility needs and local level accessibility improvements.	• Actively promote compact, dense, mixed-use development which reduces car dependence and enables and promotes the use of public and NMT.	• Shift municipal resources to include a greater focus on non-motorised, shared vehicle travel, and public transport solutions. • Establish measures to ensure that there is inter-service agreement on the settlement hierarchy, settlement roles, and associated function, modes of transport to be carried out, and development / management approach to be followed in relation to different sections of the municipal movement network. • Work with the provincial and national government to affirm the proposed categorisation of movement forms, and associated infrastructure and management needs in Stellenbosch. • Proactively seek management of travel demand among key stakeholders in SM, in a manner that significantly higher passenger volumes are gradually achieved from existing transport infrastructure. • Proactively allocate resources to improve NMT in the municipal area. • Strengthen the role played by rail-based public transport, including advocating for a new, lighter, frequent rail service on the Eerste River / Klapmuts rail line as the backbone of transport movement along the Baden Powell-Adam Tas-R304 corridor.	• Assess future transport development / improvements in relation to impact on the complete settlement system. • Guard against needed / required vehicular routes of necessity resulting in the development of undeveloped land traversed by the route.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
6.	Develop all settlements as balanced, inclusive, appropriately serviced, communities, negotiable through NMT and exhibiting a positive relationship with surrounding nature and agricultural land.	• Work towards and maintain – for each settlement in the municipality – a compact form and structure to achieve better efficiency in service delivery and resource use, the viability of public and NMT, and facilitate inclusion, integration, and entrepreneurship development. • Adopt a conservative view towards the extension of existing urban edges over the *m*SDF period. • Actively support infill development and the adaptive re-use of existing structures. • Support increased densities in new, infill, and redevelopment projects. • Rationalise space standards – especially for social facilities – and release surplus land for other uses, specifically housing.	• Proactively drive transport demand management programmes (specifically in and around Stellenbosch town) to curtail private vehicle use. • Shift more transport resources to the development and operation of effective public transport services and comprehensive provision of NMT.	• Review the delineation of restructuring zones to support the *m*SDF objectives • Support development which emphasises public transport / NMT as opposed to private vehicular use. • Integrate spatial planning, transport planning (emphasis on public and NMT), and social facilities planning. • Move away from self-reinforcing conditions for development in terms of car parking minimum standards, and ensure the active participation and collaboration between landowner, developer, and municipality towards the provision of alternatives to car use. • Actively engage – continuously – with adjoining municipalities and provincial government to ensure that the integrity of SM's settlements as contained, balanced communities is maintained (specifically in relation to land use management in adjoining municipal areas).
		Support the general upgrading and transformation of existing informal settlements.	• Prioritise basic residential services for poor households, specifically in informal settlements, backyard dwellings, and a minimum level of basic services to marginalised rural settlements. • Resist existing informal settlements being the only viable settlement option for poor households by supporting the identification and servicing of alternative areas for settlement. • Ensure that asset management best practice is followed to maintain existing infrastructure investment and prevent greater replacement cost in future. • Reinforce basic service delivery with good quality urban management to support household and economic asset development.	• Put in place an inter-governmental portfolio of land (existing and earmarked for purchase), an agreed land preparation programme, and a release strategy, for publicly assisted, lower-income housing (including the BNG, FLISP, social / rental, and GAP markets). • Identify alternative settlement locations for poor households, over and above existing informal settlements. • To assist the municipality in housing provision, support initiatives to house farmworkers on farms (in a manner which secures tenure).
		Expand housing opportunities for a broader range of groups – including lower-income groups and students – particularly in settlements forming part of the Baden Powell-Adam Tas-R304 corridor.	• The planning of infrastructure and social facilities should accommodate the likelihood of back-yarding and its contribution to livelihood strategies.	• Develop an inclusionary housing policy and guidelines. • Prioritise infill housing opportunities on public land for the BNG, FLISP, social / rental, and GAP markets.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
				• Where possible, proactively plan for back-yarding opportunity in lower income housing projects. • Actively support the development of student housing in Stellenbosch town.
		Provide and maintain a system of accessible social facilities, integrated with public space and public and NMT routes.	• Reinforce social facilities with good quality urban management to ensure service excellence and sustainability. • Focus on fewer but better social facilities.	• Cluster social facilities. • Locate facilities in association with public space and public and NMT routes.
		Provide and maintain an urban open space / public space system integrated with public transport / NMT, social facilities, and linked to natural assets (e.g. river corridors).	• Prioritise open / public space development in poor and denser neighbourhoods of the municipality. • Reinforce open / public space with good quality urban management to ensure use and safety.	Ensure that the edges between building development and open spaces promote activity and passive surveillance.
		Ensure work and commercial opportunity accessible through public and NMT to all communities and providing opportunities for emerging and small entrepreneurs.		• Avoid large retail malls and office parks in peripheral locations reliant on private vehicular access and which detract from the viability of established commercial and work areas, and lock out small entrepreneurs.
7.	Actively seek conditions to enable the private and community sectors to align their resources and initiatives with the *m*SDF principles and proposals.	Conscious of public resource constraints, actively seek and support private and community sector partnership to expand livelihood opportunities, settlement opportunity for ordinary citizens, and the national imperative to expand participation in the economy.	Develop an incentives package to support private and community sector partnerships in achieving the *m*SDF principles and proposals.	• Enable private and community sector participation by making known the municipality's spatial principles and intent in user friendly communiques and guidelines. • Require private landowners in key areas to plan and coordinate development collectively (beyond individual property boundaries and interests) to ensure appropriate infrastructure arrangements, the provision of inclusionary housing, public facilities, and so on.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
8.	Focus major development energy in SM on a few catalytic development areas that offer extensive, inclusive opportunity.	Focus major development effort in SM on: • Unlocking development in Klapmuts North. • The Adam Tas Corridor (in Stellenbosch Town).	• Clearly communicate municipal objectives and principles – across functional areas and services – for development and urban management in catalytic areas. • Seek landowner, provincial government, and national government support to develop catalytic areas in the best public interest. • Support the establishment of institutional arrangements solely dedicated to enabling the development of catalytic areas and proceed with work to detail the broader plan and activity programme. • Align municipal infrastructure and social services planning to support development in catalytic areas. • Use municipal and government-owned land assets to support development in catalytic areas.	• Ensure that catalytic areas be developed as inclusive, appropriately serviced communities, negotiable through NMT and exhibiting a positive relationship with surrounding nature and agricultural land. • Prepare land use management measures to enable development in catalytic areas. • Define catalytic areas as "restructuring" or other special-measure areas to enable benefit from national and provincial support and incentives.

4.9 Catalytic Initiatives - Adam Tas Corridor (ATC)

The most strategically located land in Stellenbosch town comprises large industrial spaces, including land previously occupied by Cape Sawmills and Distell facilities. A significant proportion of these have been vacated or will be vacated in the foreseeable future in response to changes in the operating context of manufacturing enterprises. Thoughtful redevelopment of these spaces – at scale – can contribute meaningfully to meeting existing challenges and SDF objectives.

In simple terms, the concept is to launch a process of re-imagining and re-purposing the land around the Adam Tas Road within the Stellenbosch town to enable the maximum potential of this space. This will entail the redevelopment of the Adam Tas Corridor which includes, the area stretching along the R310 and R44 along the foot of Papegaaiberg, from the dis-used Cape Sawmills site to the west of Kayamandi and Cloetesville along the north part of this corridor.

It forms the western edge of the town but is not well integrated with the rest of Stellenbosch, largely because of the barrier/severance effect of the R44 and the railway line. Much of the area was historically utilised for light industrial and manufacturing purposes. It includes the dis-used Sawmill site, the government-owned Droë Dyke area, Distell's Adam Tas facility, Oude Libertas, various Remgro property assets, Bosman's Crossing, the rail station, Bergkelder complex, Van der Stel sports complex, the George Blake Road area, and parts of Kayamandi and Cloetesville. Under-utilised and dis-used land in the area measures more than 300ha.

Conceptually, a linear new district within Stellenbosch is envisaged adjacent to and straddling (in places) Adam Tas Road, the R44, and the railway line. Overall, development should be residentially-led with a strong mixed-use basis, high density and should favour non-motorised ("NMT") access to the centre of Stellenbosch Town. It is estimated that Adam Tas Corridor through a preliminary development conceptual framework that the ATC will produce approximately 3 million square metres of bulk within a 293ha area, with 69% earmarked for residential usage.

A central movement system (with an emphasis on public transport and NMT) forms the spine of the area and is linked to adjacent districts south and west of the corridor. The corridor retains west-east and north-south vehicular movement (both destined for Stellenbosch town and through movement) as well as the rail line. Remote parking facilities will enable ease of access within the corridor concept, with passengers transferring via public transport, cycling and walking to reach destinations within the town of Stellenbosch.

The corridor is not envisaged as homogenous along its length, with uses and built form responding to existing conditions and its relationship with surrounding areas. Conceptually, three (3) areas could be defined, each linked through a sub-district.

- Grow Stellenbosch town – and accommodate existing demand – in a manner which prevents sprawl, and creates conditions for efficient, creative living and working;
- Stimulate and act as a catalyst for the development of improved public transport and NMT;
- Rethink and reconstruct infrastructure, and particularly the movement system, including the possible partial grade separation of east-west and north-south movement systems, in turn, integrating the east and west of town and releasing land for development;
- Integrate Kayamandi and Stellenbosch town seamlessly;
- Shift new development focus to the west of town, with Die Braak and Rhenish complex forming the centre and seam between the new west and east of Stellenbosch town;
- Investigating options for alternative parking provision initiatives in and around the town whilst the corridor provides for and promotes a greater focus -on non-motorised transport;
- Accommodate uses that meet urgent needs, specifically higher density housing and university expansion, also assisting in establishing a compact, less sprawling town, public transport, and NMT; and
- Increases land value east of the R44 and in the area between Kayamandi and the Bergkelder complex.

Along the corridor as a whole – depending on local conditions – significant re-use of existing buildings is envisaged. This is seen as a fundamental prerequisite for diversity, in built character and activity (as re-purpose offers the opportunity for great a variety of spaces). Aspects of the industrial history of the area should remain visible. A range of housing typologies accommodates different income groups and family types.

Redevelopment in terms of the concept offers the opportunity to:

- Re-imagine the future use of the land encompassed in the ATC;
- Grow Stellenbosch town – and accommodate existing demand – in a manner which prevents sprawl, and creates conditions for efficient, creative living and working;
- Stimulate and act as a catalyst for the development of improved public transport and NMT;
- Reconstruct infrastructure, and particularly the movement system, including the possible partial grade separation of east-west and north-south movement systems, in turn, integrating the east and west of town and releasing land for development;
- Integrate Kayamandi and Stellenbosch town seamlessly;
- Shift new development focus to the west of town, with Die Braak and Rhenish complex forming the centre and seam between the new west and east of Stellenbosch town;
- Investigate options for alternative parking provision initiatives in and around the town whilst the corridor provides for and promotes a greater focus -for non-motorised transport; and
- Accommodate uses that meet urgent needs, specifically higher density housing and university expansion, also assisting in establishing a compact, less sprawling town, public transport, and NMT.

Existing manufacturing enterprises can gradually relocate to the north, closer to the N1 logistics corridor (as planned by Distell for their operations).

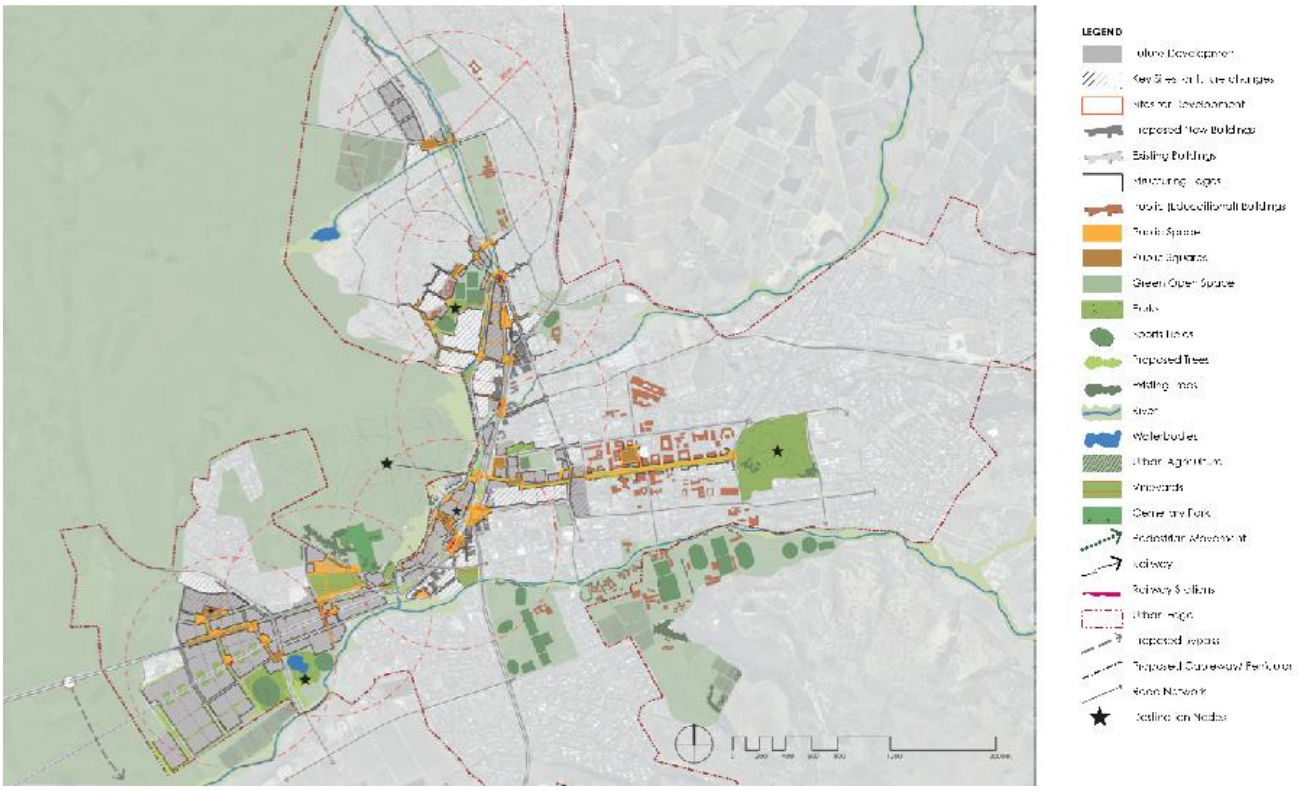
A Local Spatial Development Framework ("LSDF") is currently being drafted and will be used as the enabling planning framework to realise the implementation of the Adam Tas Corridor over the next 3 – 20 years. This LSDF will include an Implementation Framework that will provide guidance in respect of the following:

- Most appropriate Land Use Strategy;
- Action Areas / Catalytic Projects;
- Framework for Investment; and

- Other enabling Interventions.

The LSDF and its Implementation Framework will spell out – in broad terms – what activities should ideally happen where (and in what form), where to start, and what infrastructure is anticipated by when. However, a spatial plan is not enough. The preparation of the plan has to be situated within a broader surround of development and transport objectives, institutional arrangements and agreements, and parallel professional work streams, which is currently being initiated in conjunction with the Western Cape Government: Department of Environmental Affairs and Development Planning ("DEA&DP") as the coordinator within WCG.

Institutional arrangements are critical, which includes all spheres of government, private stakeholder involvement and established partnerships. It would include a broad agreement between landowners and the municipality to pursue the corridor development concepts.



Critical also, both for the Adam Tas Corridor and the broader Baden Powell-Adam Tas-R304 development corridor is to explore the feasibility of introducing a more reliable and frequent rail service along the Eerste River-Stellenbosch-Muldersvlei-Klapmuts rail line. The aim should be to have a more frequent passenger service along the corridor.

The Adam Tas Corridor is the start of Stellenbosch's emerging urban transformation district and the vision is to create an integrated urban development corridor that is liveable, safe, resource-efficient, socially integrated, economically inclusive and globally competitive, in which all citizens can actively participate. The Adam Tas Corridor concept will require sustained, committed work over a prolonged period, trade-offs, and a departure of current norms, i.e. investigation of overlay zones e.g. Urban Development Zones ("UDZ"), Special Rating Areas ("SRA"), etc., to be included within the Stellenbosch Municipality Zoning Scheme By-law, 2019.

The emerging objectives for the Adam Tas Corridor are as follows:

- Re-purposing and transforming Stellenbosch Town, using existing under-utilised assets in a manner to benefit all and address critical needs;
- Establishing a process and plan which gives certainty and sufficient flexibility to accommodate the unknown while enabling a "*starting through sharing, learning by doing and using small steps to inform the next methodology*";
- Broadening opportunity for a range of stakeholders, while accommodating varying degrees of readiness and material means; and
- To place Stellenbosch in the heart of the most important urban development project in the province.

Figure 23: Adam Tas Corridor

4.9.1 Development of Klapmuts

The Greater Cape Metro Regional Spatial Implementation Framework (RSIF) contains very specific policy directives related to Klapmuts, aimed at addressing pressing sub-regional and local space economy issues. Key policy objectives include:

- Using infrastructure assets (e.g. key movement routes) as "drivers" of economic development and job creation;
- Recognition that existing infrastructure in the area (i.e. N1, R101, R44 and the Paarl-Bellville railway line and station) dictate the location of certain transport, modal change or break-of-bulk land uses;
- Recognition of the Klapmuts area as a significant new regional economic node within metropolitan area and spatial target for developing a "consolidated platform for export of processed agri-food products (e.g. inland packaging and containerisation port)" and "an inter-municipal growth management priority";
- The consolidation of and support for existing and emerging regional economic nodes as they offer the best prospects to generate jobs and stimulate innovation;
- The clustering of economic infrastructure and facilities along public transport routes;
- Maintaining valuable agricultural and nature assets; and
- Providing work opportunity in proximity to living areas.

There is no doubt that Klapmuts is a potentially significant centre for economic activity and residence within the metropolitan region and SM, located as it is on the N1 transport corridor which carries 93% of metropolitan freight traffic. To date, the settlement is characterised by residential use and limited commercial and work-related activity. Public sector resource constraints have prevented the infrastructure investment required to enable and unlock the full potential of the area for private sector economic development as envisaged in the GCM RSIF.

The decision by Distell Limited to relocate to and consolidate its operations in Klapmuts is critical to commence more balanced development of the settlement. Distell Limited proposes to develop a

beverage production, bottling, warehousing and distribution facility on Paarl Farm 736/RE, located north of the N1, consolidating certain existing cellars, processing plants, and distribution centres in the Greater Cape Town area. The farm measures some 200 ha in extent. The beverage production, bottling, warehousing and distribution facility will take up approximately 53 ha.

The project proposal includes commercial and mixed-use development on the remainder of the site which is not environmentally sensitive to provide opportunities both for Distell's suppliers to co-locate, and for other business development in the Klapmuts North area. The site does not have municipal services, and the proposed development will therefore require the installation of bulk service infrastructure, including water, wastewater treatment, storm water, electricity, and internal roads.

Significant progress has been made in planning for a "Innovation Precinct" or "Smart City" district west of but contiguous to Klapmuts south. This include a land agreement with the University of Stellenbosch to possibly establish university related activities in this area. The urban edge has been adjusted in recognition of the opportunity associated with this initiative (See Figure 55 for the concept Development Framework).

A number of issues require specific care in managing the development of Klapmuts over the short to medium term.

- The first is speculative applications for land use change on the back of the proposed Distell development. Already, a draft local plan prepared by DM has indicated very extensive development east of Farm 736/RE. Distell will not fund the extensive infrastructure required to unlock development here, and arguably, land use change to the east of Farm 736/RE could detract from the opportunity inherent in Farm 736/RE;
- The second is the linkages between Klapmuts north and south, specifically along Groenfontein Road and a possible NMT crossing over the N1 linking residential areas south of the N1 directly with Farm 736/RE. Without these linkages, residents to the south of the N1 will not be able to benefit from the opportunity enabled north of the N1; and
- The third is speculative higher income residential development in the Klapmuts area, based on the area's regional vehicular accessibility. Higher income development is not a problem in and of itself, but ideally it should not be in the form of low-density gated communities.

Given that management of Klapmuts is split between DM and SM (respectively responsible for the area north and south of the N1), special arrangements will be required to ensure that the settlement as a whole develops responsibly, in a manner which ensures thoughtful prioritisation, infrastructure investment, and opportunity for a range of income groups.

Arguably, recent LSDF planning work commissioned by DM for the area east of Farm 736/RE begins to illustrate the problem of insufficient coordinated planning. The LSDF envisages a very significant extent of development for Klapmuts North. Specifically, in terms of a 20-year growth trajectory, Commercial Office development of 912 354m² is envisaged, Commercial Retail development of 187 839m², and General Light Industrial Development of 370 120m². A number of issues emerge:

Firstly, the realism of these land use projections within the context of the regional economy is questioned. To Illustrate:

- Considering the envisaged Commercial Office allocation, it is noted that Cape Town CBD currently has some 940 000m² of office space, Sandton in Gauteng is larger at over 1,2m m² of Commercial Office space, Midrand at some 640 000m², and Century City (some 20 years in the making) at some 340 000m²;
- In relation to Commercial Retail space, it is noted that more of this use is envisaged for Klapmuts North than Century City's current 140 000m²;
- While 370 120m² is provided for General Light Industrial Development, the proposed Distell distribution centre alone will comprise 125 000m², and many new logistic centres recently completed in the Kraaifontein / Brackenfell area range in size between 45 000m² and 120 000m².

The master plan prepared as part of the acquisition process of Farm 736/RE foresee significantly lighter industrial floor area than the 370 120m² indicated in the LSDF.

Secondly, these land use allocations need to be viewed against the policy context, which sees Klapmuts as a regional freight/ logistics hub – with a focus on job creation – and establishing a balanced community. It would appear that the LSDF over-emphasises commercial office and retail development, "exploiting" the areas' access to regional vehicular routes, and private vehicular access, at the expense of job creation at scale – and establishing a regional light industrial hub – serving an existing poorer community in proximity to a freight movement corridor.

Thirdly, it is maintained that the infrastructure service requirements – and affordability – of the projected land use allocations are understated. For example, it is known that any development north of the N1 over and above the proposed Distell distribution centre of 125 000m² will involve very costly reconfiguration and augmentation of intersections with the N1. It would be irresponsible to create expectations around land use without these associated requirements being resolved to a fair degree of detail.

Finally, Farm 736/RE is remarkably unique; comprising some of the least valuable agricultural land within the Paarl/ Stellenbosch area. It would appear that the LSDF, given the development process for Farm 736/RE, assumes that adjacent land to the east, of higher agricultural value, should also be developed.

4.9.2 Alternative rail service along the Baden Powell Drive-Adam Tas-R304 corridor

As indicated above, it is critical, both for the Adam Tas Corridor and the broader Baden Powell-Adam Tas-R304 development corridor to explore the feasibility of introducing a more frequent and reliable rail service along the Eerste River-Stellenbosch-Muldersvlei-Klapmuts rail line. The aim should be to have a more frequent passenger service along the corridor, connecting larger and smaller settlements. Lighter rail stock – possibly in the form of a "tram" system has been suggested - offering the advantage of safe at grade crossing of the rail line and other modes of transport, in turn, enabling "lighter" infrastructure support for settlement development and concomitant cost savings. Alternatively, the viability of regular bus service along this route should be explored. The SM should commence engagements with PRASA in this regard.

As argued elsewhere in this document, Stellenbosch town and Klapmuts should be the focus for significant settlement growth. It is here, by virtue of settlement location in relation to broader regional networks and existing opportunities within settlements, that the needs of most people can be met, in a compact settlement form while protecting the municipality's natural and agricultural assets.

Over the longer term, Muldersvlei / Koelenhof and Vlottenburg along the Baden Powell-Adam Tas-R304 corridor could possibly accommodate more growth, and be established as inclusive settlements offering a range of opportunities. However, much work needs to be done to ensure the appropriate make-up of these settlements (including each providing opportunity for a range of income groups) and integration with the corridor in terms of public transport.

The smaller settlements are therefore not prioritised for significant development over the *SDF* period. Should significant development be enabled in these areas now, it is likely to be focused on private vehicular use and higher-income groups, and will in all probability reduce the potential of initiatives to transform Stellenbosch town and Klapmuts.

4.10 Institutional Arrangements

The SM has dedicated staff resources for spatial planning, land use management, and environmental management organised as the Planning and Economic Development Directorate. Work occurs within the framework set by annually approved Service Delivery and Budget Implementation Plans (aligned with the IDP), decision-making processes and procedures set by Council, and a suite of legislation and regulations guiding spatial planning, land use management, and environmental management

(including SPLUMA, LUPA, and the National Environmental Management Act, 1998 (Act No. 107 of 1998)).

The Planning and Economic Development Directorate will facilitate the implementation of the SDF in terms of institutional alignment, including:

- The extent to which the main argument and strategies of the SDF are incorporated into Annual Reports, annual IDP Reviews, future municipal IDPs, and so on;
- The annual review of the SDF as part of the IDP review process.
- The extent to which the main argument and strategies of the SDF inform sector planning and resource allocation;
- The extent to which the main argument and strategies of the SDF inform land use management decision-making;
- Alignment with and progress in implementing the municipality's Human Settlement Plan and Comprehensive Integrated Transport Plan; and
- The mutual responsiveness of the SDF and national, provincial and regional plans, programmes and actions (including the extent to which SDF implementation can benefit from national and provincial programmes and funding).

Over and above institutional arrangements in place, it appears that two aspects require specific focus in support of the *m*SDF.

4.10.1 Inter-municipal planning

The first relates to inter-municipal planning. As indicated elsewhere in the *SDF*, SM (and other adjoining municipalities) appears to experience increasing challenges related to development pressure in Cape Town. This pressure is of different kinds. The first is pressure on the agricultural edges of Stellenbosch through residential expansion within Cape Town. The second is migration to SM (whether in the form of corporate decentralisation, or both higher and lower-income home seekers), leading to pressure on available resources, service capacity, and land within and around the settlements of SM. While municipal planners do liaise on matters of common concern, there appears to be a need for greater high-level agreement on spatial planning for "both sides" of municipal boundaries. The spatial implications of pressure related to migration to SM could be managed locally, should there be an agreement to redevelop existing settlement footprints rather than enabling further greenfields development (as a general rule). However, the municipality's increased resource needs to accommodate new growth – a non-spatial issue – should be acknowledged and addressed. These challenges and opportunities.

4.10.2 Private Sector Joint Planning

The second relates to joint planning and action resourced by the private sector, increasingly needed for a number of reasons:

- The municipal human and financial resource base is simply too small to achieve the vision of the SDF or implement associated strategies and plans;
- Many matters critical to implementing the SDF fall outside the direct control or core business of the municipality. For example, the municipality does not necessarily own the land associated with projects critical to achieving SDF objectives;
- It is increasingly evident that individual landowners are finding it difficult to develop – to make the most of what they have – individually. Specifically, the transport and movement implications of individual proposals require strong and dedicated integration;
- Individual landowners do not necessarily control the extent of land required to undertake inclusive development, focusing on opportunity for a range of income groups. Inclusive development often requires cross-subsidisation, in turn, enabled by larger land parcels and development yields; and
- The municipality's focus is often – and understandably so – on the "immediate", or shorter-term

challenges. Much of what is needed to implement the SDF or catalytic projects requires a longer-term view, a committed focus on one challenge, and cushioning from the daily and considerable demands of municipal management.

Partnerships are needed, with different agencies and individuals working in concert with the municipality to implement agreed objectives. Further, partnerships are required between individual corporations and owners of the land. The Adam Tas corridor is a prime example: making the most of the disused sawmill site, Bergkelder complex, Van der Stel complex, Die Braak and Rhenish complex – in a manner which contributes to agreed objectives for developing Stellenbosch town – is only possible if various landowners, the municipality, University, and investors work together, including undertaking joint planning, the "pooling" of land resources, sharing of professional costs, infrastructure investment, and so on. The municipality simply does not have the resources – and is overburdened with varied demands in different locations – to lead the work and investment involved.

4.10.3 Further Planning Work

As indicated above, over the longer term, Muldersvlei / Koelenhof and Vlottenburg along the Baden Powell-Adam Tas-R304 corridor could possibly accommodate more growth, and be established as inclusive settlements offering a range of opportunities. However, these settlements are not prioritised for development at this stage. Critical pre-conditions for significant development include:

- The measures required to ensure that settlements provide for a range of housing types and income groups (in a balanced manner);
- Establishing regular public transport services between settlements, including services between the expanded smaller settlements and Stellenbosch town; and
- Understanding to what extent settlements can provide local employment, in this way minimising the need for transport to other settlements.

4.10.4 Other local planning initiatives

Ideally, each of the settlements in SM should have an LSDF, applying the principles of the *SDF* in more detail. The priority for LSDFs should be determined by the position and role of settlements in the SM settlement hierarchy.

The SM has appointed service providers to investigate and establish the rights for two regional cemetery sites in the municipal area. All the specialist studies have been completed and the Land Use Planning and Environmental applications were submitted and in progress. The first is the proposed Calcutta Memorial Park, located ±10km northwest of Stellenbosch to the east of the R304, on Remainder of Farm 29, Stellenbosch RD. The second is Louws Bos Memorial Park located southwest of Stellenbosch town and south of Annandale Road, on Remainder of Farm 502, Stellenbosch.

4.10.5 Checklists in Support of Decision-Making

To further assist in aligning day-to-day land use and building development management decision-making and detailed planning – public and private – with the *SDF*, it is proposed that a "checklist" of questions be employed.

If the initiators of development proposals, applicants, officials, and decision-makers all, in general terms, address the same questions in the conceptualisation, assessment, and decision-making related to proposals, a common, shared "culture" could be established where key tenets of the SDF is considered and followed on a continuous basis.

Although focused on the location, nature, and form of activities in space, the checklist incorporates questions addressing issues beyond space, including matters of resource management, finance, institutional sustainability, and so on.

It is not envisaged that the checklist is followed slavishly in considering every development proposal.

Yet, its use is important in ensuring that relevant issues be addressed and discussed to enable decision-making in line with the *SDF* and broader provincial and national planning policy. If, in assessing a proposal or project, posing a question result in a negative answer, the proposal probably requires very careful consideration, further work, or change.

The checklist should not be viewed as static. Rather, it should be reviewed periodically and in parallel with the *SDF* review – perhaps under the leadership of the Municipal Planning Tribunal and with input from all stakeholders – to reflect the municipal spatial planning agenda and challenges.

It is proposed that the questions – together with the SPLUMA principles, and the key SDF strategies and policies – are packaged in an easy-to- use and accessible form to facilitate wide usage.

4.10.6 Partnerships

Arguably, the municipal budget is simply too small to achieve the vision of the SDFs or implement associated strategies and plans. Also, many matters critical to implementing the SDF, fall outside the direct control or core business of the municipality. For example, the municipality does not necessarily own the land associated with projects critical to achieving SDF objectives.

Even if the municipal budget is increased ten-fold, or its staff resources significantly enhanced, it would still not have the control to do what is needed for the capacity to drive critical projects. The municipality's focus is often – and understandably so – on the "immediate", or the shorter-term challenges. Much what is needed requires a longer-term view, a committed focus on one challenge, and cushioning from the daily and considerable demands of municipal management.

Partnerships are needed, with different agencies and individuals working in concert with the municipality to implement agreed objectives. Further, partnerships are required between individual corporations and owners of the land. It is increasingly evident that individual landowners are finding it increasingly difficult to develop – to make the most of what they have – individually. Specifically, the transport and movement implications of individual proposals require strong and dedicated integration. The Adam Tas corridor is a prime example: making the most of the disused sawmill site, Bergkelder complex, Van der Stel complex, Die Braak and Rhenish complex – in a manner which contributes to agreed objectives for developing Stellenbosch town – is only possible if various landowners, the municipality, University, and investors work together, including undertaking joint planning, the "pooling" of land resources, sharing of professional costs, infrastructure investment, and so on.

The municipality simply does not have the resources – and is overburdened with varied demands in different locations – to lead the work and investment involved.

There appears to be an opportunity to establish a new partnership with business, to the side of the municipality, to drive major integrated projects, and specifically the Adam Tas Corridor. Fortunately, Stellenbosch has established (private sector) institutions with an astounding track record in achieving urban development / management objectives (e.g. Historiese Huise). Their work can be expanded, to assist in meeting new challenges, in partnership with the municipality.

CHAPTER 5:

One Plan: Service delivery, budget, programmes and projects

5.1 Introduction

Cabinet approved the District Development Model (DDM) as an All of Government and Society Approach providing a method by which all three spheres of government and state entities work in unison in an impact-oriented way, where there is higher performance and accountability for coherent and effective service delivery and development outcomes.

The DDM is an intergovernmental approach focusing on 44 districts and 8 metropolitan spaces for more effective joint planning, budgeting and implementation over multi-year planning and electoral cycles. Although each sphere, sector or entity has its distinct constitutional powers, functions and responsibilities, they cooperate and undertake collaborative planning, budgeting and implementation processes converging developmental efforts at the district/metropolitan level.

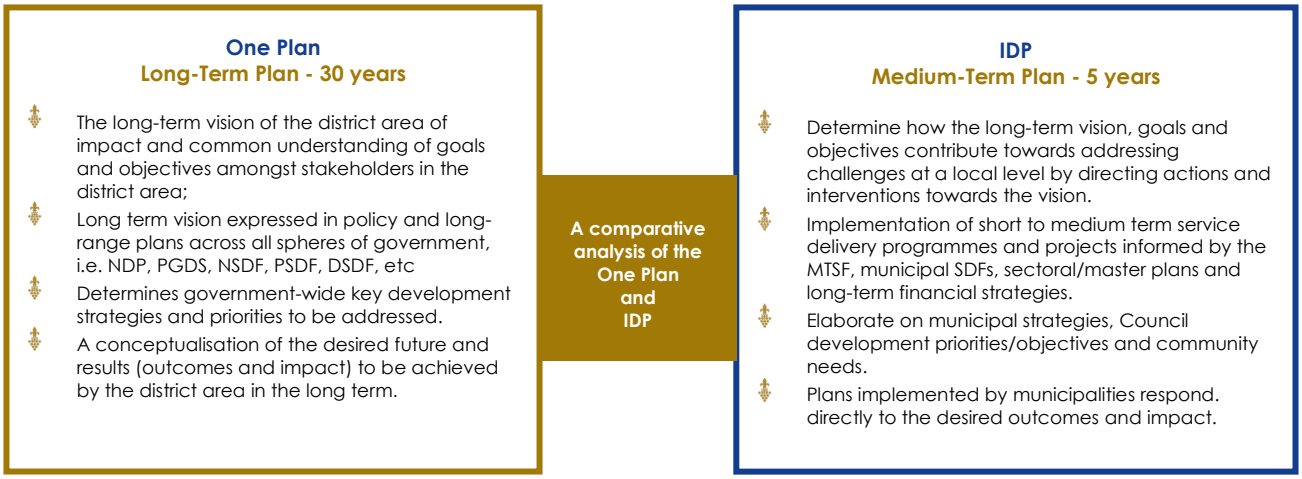
It is acknowledged that the DDM introduces a new planning instrument in the form of the **One Plan**. This process comes into a planning environment where there are existing planning instruments at local, provincial, and national levels of government. However, the One Plan is not meant to replace any of the existing prescribed development, departmental strategic and annual performance plans that each sphere, department and state entity is responsible for or required to develop. The One Plan is rather informed by these plans and once in place, it will guide the review of these plans and budgets.

The Western Cape Government specific approach to the DDM is called the **Joint District and Metro Approach (JDMA)**. The JDMA envisages for the three spheres of government to converge, using Intergovernmental (IGR) engagements, to develop similar Western Cape strategic, development and planning priorities with aligned budgets and accelerated implementation for service delivery.

The **Joint District and Metro Approach (JDMA)** -

- is a geographical (district) and team-based and citizen-focused approach;
- has the output of a single implementation plan to provide planning and strategic priorities, developmental initiatives, service delivery and capacity building;
- has the desired outcome of improving the living conditions (lives) of citizens;
- has a horizontal interface (between provincial departments) and a vertical interface (national, provincial and local government spheres);
- does not exclude local municipalities;
- is not a functions and power debate; and
- promotes collaboration using the District Coordinating Forum as the governance instrument for co-planning, co-budgeting, and co-implementation to strengthen service delivery to communities.

This chapter will provide details from all three spheres of government to give effect to the objectives and strategies contained in the 5th Generation Integrated Development Plan.



5.2 Relationship between the One Plan and Integrated Development Plan (IDP)

The One Plan does not replace the Integrated Development Plans of municipalities as the "single, inclusive and strategic plan for the development of the municipality" but is meant to strengthen and

enhance the IDPs and other plans of the municipalities. It is foreseen to provide greater certainty and direction for the IDPs. The IDP will be the vehicle through which implementation of the One Plan will happen at the local government level.

Below is a comparative analysis of the One Plan and IDP:

Figure 24: Comparative analysis of the One Plan and IDP

5.3 National and Provincial Government Priorities

5.3.1 State of the Nation Address (SONA) 2022

President Cyril Ramaphosa presented the State of the Nation Address (SONA) on 10 February 2022.

The following are key highlights from the SONA:

- **Growing the economy and jobs**

The government's biggest immediate priority is to ensure that South Africa emerges from the COVID - 19 pandemic with an economy that creates more jobs and provides more opportunities for those who have been excluded, especially women and young people.

A broad range of programmes and policies will be put in place to support the growth of small businesses, develop infrastructure for faster economic growth, encourage investment from inside and outside of South Africa. These measures will enable businesses to grow and create jobs alongside expanded public employment and social protection.

- **Building better livers**

Reducing the impact of poverty through social support and expanding access to services such as healthcare and education is vital to the achievement of a better quality of life for all South Africans.

- **Fighting corruption**

Corruption undermines the delivery of services, hampers job creation and investor confidence, and damages public trust in the government.

- **Making communities safer**

Crime has a severe impact on the quality of life of all South Africans, particularly the poor. High levels of crime also efforts to stimulate growth, increase investment and reduce poverty.

- **Making government work**

To address South Africa's social and economic challenges, and to deliver the basic services that enhance the quality of life for all citizens, the government is working to strengthen the capabilities and resources of provinces and municipalities across the country.

This means improving coordination between national, provincial and local governments and ensuring that public servants at all levels have the skills and support they need to do their jobs.

5.3.2 State of the Province Address (SOPA)

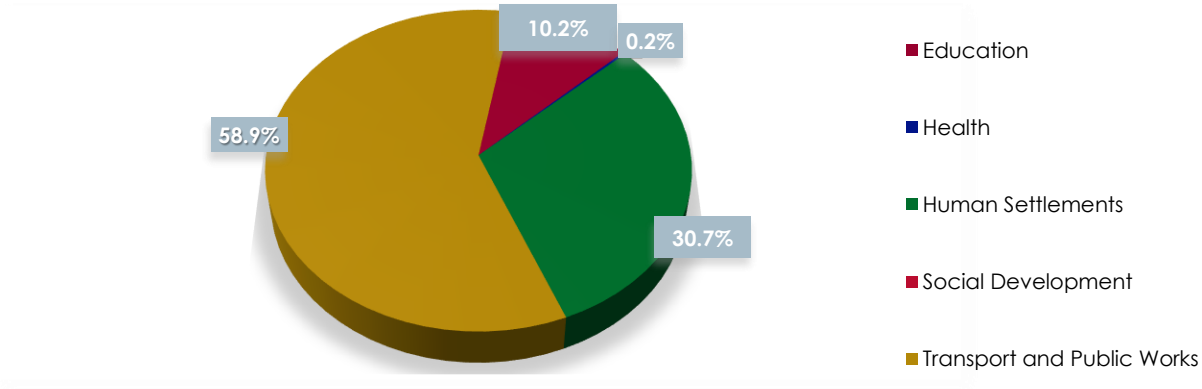
The State of the Province Address (SOPA) was delivered by Honourable, Premier Alan Winde on Tuesday, 15 February 2022.

The following are key highlights from the SOPA:

- Job Creation;
- Promoting the dignity and wellbeing of residents; and
- Promoting and improving safety, focussing on what we will be doing in the fight against Gender-Based Violence (GBV)

5.4 Status Quo on Public Infrastructure Spend

This section reflects on provincial and municipal infrastructure priorities within the Stellenbosch area for 2021/22.



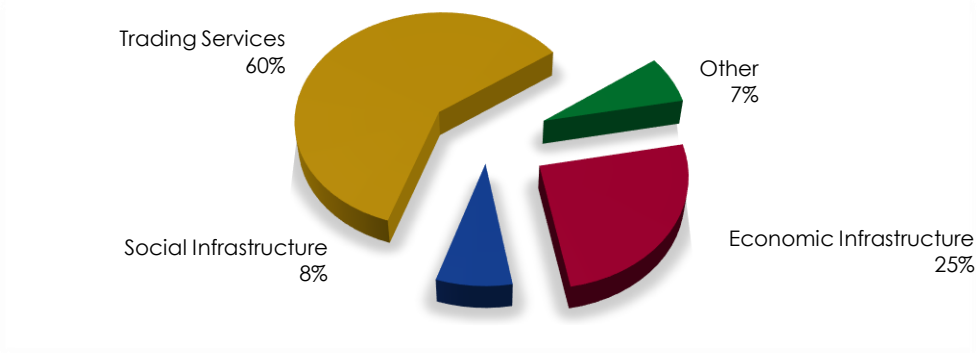
5.4.1 Social Infrastructure

Spending on social infrastructure aids in social development and has the spill-over effect of enabling economic growth. A total of 41.1 per cent of the total WCG infrastructure allocation towards the Stellenbosch municipal area will be spent on social infrastructure. As displayed in the pie chart, the WCG will be spending 10.2 per cent (R17.0 million) of the total infrastructure budget in the municipal area on the Education function. Spending on education is crucial as it can serve to improve education outcomes and skills levels within a community, and more importantly, alleviate poverty through increased long-term income for individuals. A healthy and resilient community increases productivity and reduces pressures on government resources.

The WCG will in 2021/22 spend R344 000 on Health-related infrastructure within the municipal area. An allocation has also been made by the WCG towards the Housing function (R51.4 million; 25.1 per cent) to improve the quality of life of individuals within the municipal area. The municipality allocated R9.9 million towards the Housing function.

Community safety is a cornerstone of the Western Cape Economic Recovery Plan. Crime has a negative impact on the quality of life of individuals, but also on the economy by deterring private investment and causing business losses. It further creates a burden on government resources in terms of justice system costs, victim assistance and replacement of assets. The municipality has as such allocated R15.6 million (3.3 per cent) of its capital budget towards the Public Safety function.

Figure 25: Provincial Infrastructure Spend



Source: Western Cape, Social – Economic Profile 2021

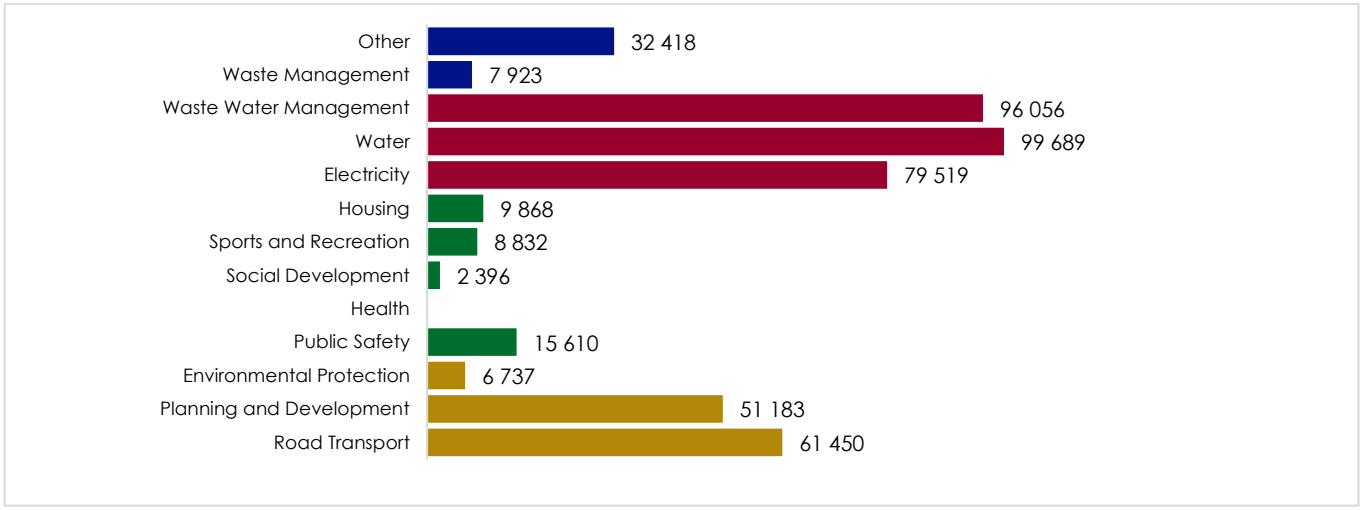
5.4.2 Economic Infrastructure

Economic infrastructure is defined as infrastructure that promotes economic activity. Considering the sluggish economic growth throughout the Country, spending on economic infrastructure is crucial to stimulating economic activity. The WCG will in 2020/21 spend R98.6 million on economic infrastructure, more specifically towards road transport and public works. Road transport infrastructure goes a long way towards unlocking the region's economic potential, especially due to it having the largest natural port in Africa and being a tourist destination.

The municipality assists in this regard with its own contribution of R61.5 million (13.0 per cent of total municipal infrastructure spending) towards road transport.

Figure 26: Municipal Infrastructure Spend

Source: Western Cape, Social – Economic Profile 2021



5.4.3 Trading Services

Basic services are crucial to improving the living conditions of citizens within the municipal area and enabling economic activity for businesses via access to water, electricity, sanitation and refuse removal. The municipality will in 2021/22 channel R283.2 million towards trading services to reduce backlogs, improve service delivery standards, provide for future residential developments and to roll-out basic services to informal settlements.

The 2021/22 trading services budget is mostly focused on water (R100.0 million; 35.2 per cent), wastewater management (R96.1 million; 33.9 per cent) and electricity services (R79.5 million; 28.1 per

cent). A smaller allocation of R7.9 million (2.8 per cent) has been made towards the solid waste management function.

Figure 27: Trading Services

Source: Western Cape, Social – Economic Profile 2021

5.5 Intergovernmental Budgetary Allocation

The infrastructure projects and related capital projects listed below are in various stages of implementation, with certain projects being in the planning phases, other in implementation with construction in progress and some in the close – up phase of the project.

5.6 Cape Winelands District (CWD) JDMA Implementation Plan

A **CWDM JDMA profile** was developed in 2020 and updated in November 2021. The Cape Winelands District Profile - 2020 Perspective is a first-generation knowledge product to provide information and evidence to government stakeholders and also to:

- Provide an information source that at a glance highlight what needs to be maintained, the strengths and challenges facing the Cape Winelands District (i.e. set the context and provide the government with an intergovernmental understanding of key development trends and patterns within the District); and
- Assist in informing catalytic or strategic projects for the Joint District and Metro Approach Implementation Plan for the longer-term development of this geographical area that is both focussed and targeted, but also implementation-ready, resilient, coordinated and integrated.

Given the above, the following Strategic Priorities have been identified for inclusion in the CWD JDMA Implementation Plan and approved by the District Coordinating Forum (DCF).

- Waste minimisation and management solutions
  - Regional Landfill
  - Waste Diversion Strategies
  - Integrated Waste Management Plan
  - Waste Conference
- Resource Resilience
  - Climate Change, Water Management and Wildfire Urban Interphase Risks
  - Municipal Energy Resilience Programme
- Infrastructure management and development
  - N1 Eastern by-pass
  - ESKOM Infrastructure delays (Witzenberg)
  - Provision of Basic Services for Prioritised Informal Settlements (Drakenstein)
- Economic Recovery, long term unemployment and its consequences
- Urbanisation
  - Mega Human Settlements monitoring (TRANSHEX, Vlakkeland and Vredebes)
  - Land invasions – Kluitjieskraal
- Community Safety, Risk Reduction and improved Disaster Response
  - District Plan
  - Area-based Plan (Witzenberg)
  - SANTAM support
- Municipal Business Sustainability
  - Research on Financial Sustainability:
  - Shared Service Model development
  - Revenue Collection: ESKOM (Witzenberg)
  - External Stakeholder involvement
  - Communication and IGR
  - Data Governance and Profile update
  - Operational Support

5.6.1 Cape Winelands District Joint District Approach

The following Strategic Projects is applicable to the Stellenbosch municipal area:

Figure 28: Cape Winelands District Joint District Approach

IMPLEMENTATION PLAN: CAPE WINELANDS DISTRICT JOINT DISTRICT APPROACH					
Municipal Priority	**Key Initiative (s)**	**Municipalities Involved**	**Project**	**Project lead and team ((link to existing technical structures and / or projects)**	**Action/s**
Provincial Priority (Vision Inspired Priority 2) – Growth and Jobs					
Waste minimisation and management solutions (priority project)	Integrated Waste Management Plan	All municipalities	Review of Integrated Waste Management Plan	CWDM, DEA, PT, DLG and DEDAT	• Update the JDMA Implementation Plan in terms of DEADP lead on Waste. • Western Cape Provincial Government to assist with Supply Chain Management challenges. • Waste Management Conference will be arranged as soon as the new Council is fully functional.
Waste minimisation and management solutions (priority project)	Establishment of Regional Waste Management Facility	All municipalities	Regional Waste Management Facility: Conduct a section 78 investigation and implement the recommendations		
Resource Resilience	Water Governance and Water Service Development Plan Joint Strategy: Bulk Storage Facilities (to provide for drought) Local Economic Development / Growth and Development Strategy (for the District to address risks associated with Climate Change / Water Security)	All municipalities	Municipal Energy Resilience Programme	DEDAT, Stellenbosch Municipality and Drakenstein Municipality	• Specific pioneering projects for Drakenstein and Stellenbosch were identified. • DEDAT did a proxy to cost supply studies required by NERSA. • The next step is to compile a roadmap on the pioneering projects and the implementation thereof. • DEDAT to establish a MER Fund, to assist municipalities to prepare for the studies and enable them to look at new generation capacity specifically for Renewable energy. • Wheeling support for individual municipalities is in process of being finalised.

IMPLEMENTATION PLAN: CAPE WINELANDS DISTRICT JOINT DISTRICT APPROACH					
Municipal Priority	**Key Initiative (s)**	**Municipalities Involved**	**Project**	**Project lead and team ((link to existing technical structures and / or projects)**	**Action/s**
Provincial Priority (Vision Inspired Priority 2) – Growth and Jobs					
Economic Recovery, long term unemployment and its consequences (priority project)	Address factors associated with Youth unemployment	All municipalities	Economic Recovery Plan	CWDM, DLG, DEDAT, LED officials in local municipalities: Drakenstein, BVW, Witzenberg, Langeberg, Stellenbosch and provincial officials and associated institutions Sub team further proposed to ensure that skills development and socio-economic challenges are addressed in long term DHET, DRDLR, DoTP, DoA, LGSETA, DoE, DLG, DEA&DP, DLG CWD, DLG Training, DEDAT, DSD, DoH, DTPW, CWDM SDF, Community Safety and PT	Further off-line discussions will be held regarding unemployment.
Municipal Business Sustainability (priority project)	Saving costs across certain functions	All municipalities	Shared Service Model Development	CWDM, DLG and all local municipalities	Follow up on progress with the appointed service provider.
Data Governance and JDMA Profile	Towards developing a Dynamic Profile and sharing data	All municipalities	Data Governance and JDMA Profile	CWDM , DLG, DoTP , DEA&DP, PT, DSD, STATS SA , CWDM, Drakenstein Municipality, Stellenbosch Municipality, Breede Valley Municipality, Witzenberg Municipality	Data Governance is a transversal JDMA Project. CEI is busy drawing up Memorandum of Understanding (MOU) for Metros and non-Metros. Provincial governance structures are being set up and aligned to local government in the Western Cape. This is being done with support from the Department of the Premier and will address monitoring and evaluation,

5.7 Agricultural Interventions

In support of the Western Cape Department of Agriculture Strategic Plan the municipality have identified two priority interventions on which the municipality will embark on in the **period 2022 – 2027**.

Table 25: Agricultural Interventions for 2022 – 2027

Project Rating					
☺	Project completed.	😐	Project in progress.	☹	Not completed / No budget available / District Function / Provincial Function

Table 26: Agricultural Interventions

Proposed Municipal Actions in Support of the Strategic Focus Areas of the Western Cape Department of Agriculture					Progress Rating				
Priority Area	**Desired Municipal Deliverable**	**Status Quo within Municipality**	**Proposed Local Intervention (appropriate municipal action)**	**Timeframe to deliver (Short / medium / long term or on going)**	**2022/23**	**2023/24**	**2024/25**	**2025/26**	**2026/27**
Farmer Support	Lease agreement for use of commonage land (e.g. Terms of the lease, roles and responsibilities of each party, preference for individual agreements, and need for longer leases)	In 2018, two (2) land parcels were identified and advertised for emerging farmers. Process to be finalised.	Through the Municipal Agricultural Land Policy, the municipality aims to identify and allocate an additional 10 parcels of land for emerging farmers	Medium / long term	n/a	n/a	n/a	n/a	n/a
Market Access	Infrastructural development that supports agriculture development value chain and market access	Through the Municipal Agricultural Land Policy, the municipality aims to identify and allocate an additional 10 parcels of land for emerging farmers.	Ensuring vibrant, equitable and sustainable rural communities with food security for all	Medium / long term	n/a	n/a	n/a	n/a	n/a

5.8 Stellenbosch Municipality Operational Support Plan

The projects listed in the table below were identified as projects / programmes / initiatives that would require the assistance and funding from other spheres of government:

Table 27: Stellenbosch Municipality Operational Support Plan

Project / Programme/ Initiative	Responsible Internal Department/ Agency	Action/s	Estimated Funds
Climate Change Adaptation Strategy (Alien Clearing, River Management and Wildfire Management	Department Community Service	Implementation of Alien Clearing, River Management and Wildfire Management Plans.	R2 000 000

Project / Programme/ Initiative	Responsible Internal Department/ Agency	Action/s	Estimated Funds
Mega-human settlement project monitoring	Department: Housing Development	Kayamandi Town Centre: To obtain development rights/township establishment. Jamestown: Housing (Phase 2, 3 and 4): To obtain development rights/township establishment. Erf 7001 and other possible sites for mix-used development in Cloetesville: To obtain development rights/township establishment.	R2 000 000 R1 500 000 R1 000 000
Stellenbosch Municipality: Resource Resilience: Municipal Energy Resilience	Municipality / DLG / Water Services	Financial support is required for the development of pico hydropower units.	n/a
Stellenbosch Municipality: Resource Management Resilience: Water Management Resilience	Stellenbosch Municipality and DLG	Financial support is required for the development of real time management control centres.	n/a
Improvements to public transport facilities in rural and semi-rural areas within the Stellenbosch Municipal area	Department: Roads, Stormwater and Transport	Upgrading and implementing new Taxi and Bus stops in rural and semi-rural areas within the Stellenbosch municipal area.	n/a
Improvements to the NMT network in rural and semi-rural residential settlements located within the Stellenbosch Municipal area	Department: Roads, Stormwater and Transport	Construction of Sidewalks and NMT facilities in rural and semi-rural residential settlements located within the Stellenbosch Municipal area.	n/a
Compilation of the Adam Tas Corridor Local Spatial Development Framework	Department: Development Planning (Spatial Planning)	Compilation of a Local SDF for the Adam Tas Corridor Study Area. The Compilation of a Land Use Framework to develop a Development Incentive Overlay Zone (Urban Development Zone).	n/a
Compilation of a Klapmuts Local Spatial Development Framework	Department: Development Planning (Spatial Planning)	Inclusion of Klapmuts within the Cape Metro Regional Spatial Implementation Framework ("RSIF") in partnership with WCG; CoCT; Cape Winelands District and Drakenstein Municipality which focusses on the following themes: Smart City Concept; Economic Development and Job Creation; and Cost effective Services	n/a
Other Projects, policies, frameworks, programmes and housing pipeline projects outside of the priority areas	Department: Development Planning (Spatial Planning)	Draft Economic Development Strategy (an Approach to Stimulate Economic Growth). Inclusionary Housing Policy. Jamestown Housing Project. De Novo. Vaaldraai. Jonkershoek. Erf 7001, Stellenbosch (Soekmekaar).	n/a

CHAPTER 6:

Sector Plans and Implementation

6.1 Introduction

The municipality has a number of medium- and longer-term sector plans that direct the implementation of the different functional areas. These plans form an integral part of the Integrated Development Plan (IDP).

Although the time-periods for sector plans and the IDP differ (e.g., the *m*SDF has a 20-year horizon, IDP has a 5-year horizon and sector plan can be revised annually), the IDP and sector plans inform each other mutually. Like the IDP, sector plans are subject to periodic review. Alignment between sector plans and the IDP allows for more effective budgeting integration.

Other service delivery implementation processes include:

Figure 29: **Service delivery implementation plans**

The sections below expand on key sector plans of the Stellenbosch Municipality.

6.2 The relationship between the Sector Plans and Strategies

Sector plans need to support and reinforce each other to have meaning and assist in sustainable development of the municipal area. The table below illustrates how different key sector plans inform and direct each other.

Table 28: The relationship between sector plan

Sector Plan	Spatial Development Framework	Human Settlements Plan	Integrated Transport Plan	Infrastructure Master Plans
Municipal Spatial Development Framework (*m*SDF)		• Identifies areas for satisfaction of human settlement needs • Designates areas for developmental needs • Indicates areas desirable for specific nature and form of urban development • Indicates areas desirable for conservation • Spatially reflects distribution of community facilities • Identifies areas to be protected from settlement (e.g. heritage, agriculture and natural) • Designates housing priority / restructuring areas • Integrates settlement patterns with infrastructure plans	• Identifies areas for satisfaction of human settlement needs • Indicates areas desirable for conservation • Spatially reflects distribution of community facilities • Identifies areas to be protected from settlement (e.g. heritage, agriculture and natural) • Designates housing priority / restructuring areas • Indicates areas desirable for densification / specific land use / integrated networks • Spatially reflects Council's approved nature and form of urban development	• Identifies municipal growth direction • Identifies areas to be protected from development (e.g. heritage, agriculture and natural) • Identifies priority development areas • Identifies infrastructure priority areas
Human Settlements Plan	• Identifies current settlements and interventions that should be accommodated in future planning • Determines settlement needs • Quantifies extent of demand for various housing typologies		• Identifies current settlements and interventions that should be accommodated in future planning • Determines settlement needs • Quantifies extent of demand for various housing typologies	• Identifies current settlements and interventions which should be accommodated in future planning • Determines settlement infrastructure needs • Quantifies extent of demand for services according to various housing typologies
Integrated Transport Plan	• Determines most efficient responses to transport challenges.	• Identifies transport and roads priority areas.	•	• Determines most efficient responses to transport challenges.

Sector Plan	Spatial Development Framework	Human Settlements Plan	Integrated Transport Plan	Infrastructure Master Plans
	• Identifies transport and traffic priority areas. • Shapes future planning according to most appropriate modal changes and challenges. • Identifies need for services not provided by the municipality, e.g. SANRAL, Provincial Roads, PRASA, Transnet.	• Determines development parameters, e.g. parking ratios, access and standards • Shapes settlement planning according to most appropriate modal changes and challenges.		• Identifies transport and traffic priority areas. • Shapes future planning according to most appropriate modal changes and challenges.
Infrastructure Master Plans	• Identifies existing infrastructure capacity / constraints. • Identifies interventions required to support growth / infill. • Designates priority infrastructure development areas / corridors. • Provides for services not provided by the municipality, e.g. Telkom, Eskom, raw water supply.	• Identifies existing infrastructure capacity or / constraints. • Identifies interventions required to support growth / infill. • Provides for services not provided by the municipality, e.g. Telkom, Eskom, raw water supply.	• Identifies existing infrastructure capacity or / constraints. • Identifies interventions required to support growth / infill. • Provides for services not provided by the municipality, e.g. SANRAL, Provincial Roads, PRASA, Transnet.	

6.3 Sector Plans and Implementation Strategies

6.3.1 Air Quality Management Plan

The Stellenbosch Local Municipality Air Quality Management Plan (AQMP) has been completed with the input of the DEA&DP.

6.3.1.1 Vision, Mission and Goals

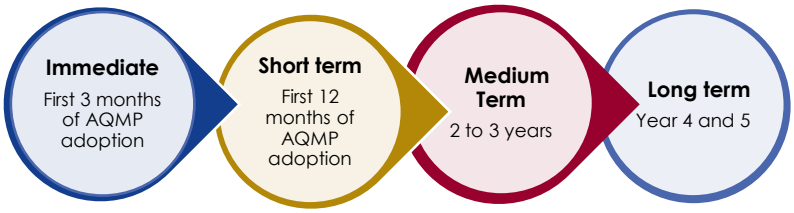
Aligned with the Cape Winelands District Municipality (CWDM) vision for air quality management the vision for the Stellenbosch Municipality, as defined in the AQMP is: Air quality in the Stellenbosch Municipality is clean and healthy.

The mission statement to achieving the stated vision is:

Air quality in the Stellenbosch Municipality is co-operatively managed for the benefit of present and future generations according to the principles of sustainable development to safeguard health and quality of life, promoting economic and social development.

The goals to achieve the mission of the AQMP are listed below and their linkages to the Western Cape Provincial AQMP (DEA&DP, 2010) and the CWDM AQMP (CWDM, 2012) are highlighted. The three goals for the Stellenbosch Municipality AQMP are:

- **Goal 1:** Air quality governance meets requirements to effectively implement the AQMP: This goal addresses the regulatory framework and the institutional capacity required in the Stellenbosch Municipality to carry out the air quality function. This links directly to the goal of the AQMP for the Western Cape to 'Ensure effective and consistent air quality management and the goal in the CWDM AQMP of 'Effective air quality management;



- **Goal 2:** Reduce atmospheric emissions of harmful pollutants: This goal aims to manage activities that impact air quality to reduce the emissions of harmful pollutants and associated impacts on human health and well-being. This links directly to the Provincial AQMP goal to 'Ensure effective and consistent compliance monitoring and enforcement and 'To ensure that health-based air quality standards are attained and continually met'. It also links to the CWDMAQMP goal of 'Effective air quality management through an 'Emission reduction strategy'; and

- **Goal 3:** Systems and tools are established to effectively implement the AQMP: This goal refers to the systems and tools required for effective AQMP implementation, the cornerstone of which is an Air Quality Management System (AQMS). The development of AQMS links directly to the Provincial AQMP goal 'To ensure effective and consistent air quality management through the development of AQM systems. It also links to the CWDM AQMP goal to develop and AQMS. An AQMS is a fundamental unit towards the management of air quality in an area, incorporating the necessary technical elements that provide information on the status of air quality (D: EA&DP, 2010). Included in this goal is the need for stakeholders to actively participate in AQM in the Stellenbosch Municipality, which links to the Provincial AQMP goal 'To continually engage with stakeholders to raise awareness with respect to air quality. It also links to the CWDM AQMP goal to 'Promote communication in relation to Air Quality Management.

6.3.1.2 Time frames

The timeframes defined for the Implementation of the AQMP are:

Figure 30: **AQMP Time frames**

The following immediate items were included in the AQMP, all with reference to **Goal 1** above:

Table 29: Items in AQMP

Objective	Activity	Responsibility
Sufficient capacity and competence exist to perform the air quality management function.	Identify capacity and competency needs.	Council
The AQMP is included in the IDP.	Prepare air quality input for inclusion in the IDP. Ensure adequate funding in the IDP for AQMP implementation.	Air Quality Officer, Council
A regulatory framework exists in the municipality for air quality management.	Develop air quality by-law.	Air Quality Officer, Council

Stellenbosch Municipality relies on data from the province's monitoring station situated at CWDM in Stellenbosch town to determine air quality or atmospheric emissions. This data is reported on by the relevant Environmental Health Official from CWDM.

6.3.2 Environmental Management Plan

Stellenbosch Municipality is continuously developing its capacity to protect the environment within its boundaries and to strive towards a municipality and communities that recognise the vital importance of their rich natural capital and manage these in a manner that ensures sustainability and fulfils the needs of all concerned.

To this effect, Stellenbosch Municipality has developed the Stellenbosch Environmental Management Framework (SEMF) approved by Council as a sector plan to the Municipal Spatial Development Framework. The SEMF is a municipal strategic environmental management policy that responds to and complies with the relevant statutes and directives.

Stellenbosch Municipality also implemented its Invasive Alien Plant Management Plan (prepared in terms of the National Environmental Management: Biodiversity Act, 2004 (Act No.10 of 2004), completed during the 2017/18 financial year. This document will be reviewed and updated during the 2022/23 financial year.

The Stellenbosch Municipality owns various properties regarded as nature areas. Three of these areas have formally been designated to be conservation areas. These are Mont Rochelle Nature Reserve, Jan Marais Park (Nature Reserve) and Papegaaiberg Nature Reserve. The Stellenbosch Municipality is in the process of putting environmental management plans (EMPs) in place for all of these areas, including areas that are not formally declared as protected areas. The status of these are as follow:

- Mont Rochelle Nature Reserve: Draft prepared and advertised for public input during the second half of the 2021 financial year. Final document prepared and submitted to Council for approval;
- Papegaaiberg Nature Reserve: Approved EMP in place, currently up for 5-year review;
- Jan Marais Nature Reserve: Final draft EMP prepared, to be advertised for public input in the 2022/23 financial year;
- Paradyskloof Nature Area: Approved by Council in 2019, to be reviewed in 2024; and
- Ida's Valley / Botmaskop Nature Area: The first draft is being finalised after which it will be advertised for public input with Council's permission.

6.3.3 Integrated Human Settlement Plan

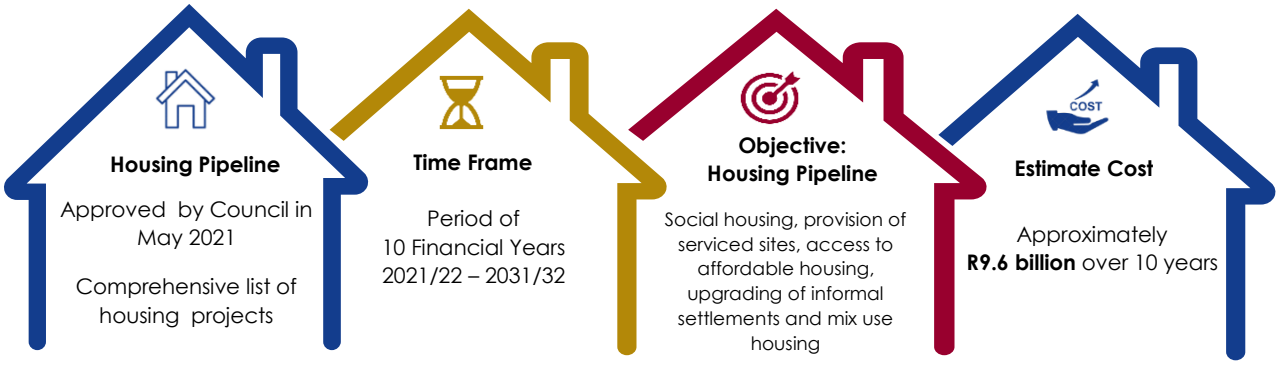
6.3.3.1 Overview

An Integrated Human Settlement Plan (IHSP) is the road map for the provision of all forms of housing within a municipal area. This plan is closely linked to the municipal IDP and the Municipal SDF.

Accordingly, Stellenbosch Municipality developed an IHSP to be aligned with the IDP and the *m*SDF. Stellenbosch Municipality originally approved an IHSP in 2008. A service provider was appointed to develop and align the new IHSP with the long-term vision as envisaged in the IDP and the mSDF, which will be concluded in the 5th Generation IDP 2022 – 2027. A key component of the IHSP is the Housing Pipeline. The Housing Pipeline has a dual function i.e.

(i) it is the roadmap for all Council's housing-related projects; and
(ii) it is the official communication document between the Provincial Department of Human Settlements (PDoHS) and the municipality.

The IHSP and the Housing Pipeline has a ten (10) year development horizon. Notwithstanding this, the Housing Pipeline must be reviewed and approved annually by the Municipal Council.



In the absence of an approved IHSP, the Housing Pipeline serves as the housing implementation strategy for the municipality.

6.3.3.2 Housing Pipeline

The PDoHS requires that every municipality must have a Housing Pipeline. The Housing Pipeline is premised on a **ten-year horizon** and serves as the planning and budgeting tool for the implementation of Human Settlements initiatives. Each municipality's Housing Pipeline is an integral component of the Department of Human Settlements' Business Plan.

It is required that the Housing Pipeline must be annually reviewed. The latest review of the Housing Pipeline was approved by Council in May 2021. This revision includes the following:

Figure 31: Housing Pipeline Time Frame, Objective and Estimate Cost

The objective of the Housing Pipeline is to provide more emphasis on the following housing types or programmes:

- Social housing (the National Minister of Human Settlements approved Stellenbosch as a restructuring town and restructuring zones in November 2016);
- Provision of serviced sites;
- Access to affordable housing (GAP housing);
- Upgrading of Informal settlements; and

- Mixed-use housing (formalised homeownership employer housing - especially farmworker housing).

The estimated cost of this programme will be approximately **R9.6 billion** over **10 years**.

- Upgrading of informal settlements, (La Rochelle, Klapmuts, Langrug and Franschhoek);
- Access to basic services (ABS);
- Jamestown, Farm 527 (phases 2, 3 and 4);
- Longlands Development;
- Upgrading of Zone O;
- Ida's Valley (Erf 9445 also known as Oak Tree Village) - A key aspect of this project was to utilise municipal land provided at a reduced cost for formal home-ownership to cross-subsidise other housing types;
- Enumeration of people on farms and backyarders;
- Rectification of Cloetesville subsidy houses at The Steps and Orlean Lounge;
- Erf 7001, Cloetesville (known as "Soek-mekaar");
- Upgrade of the Kayamandi CBD; and
- Northern extension.

6.3.3.3 Upgrading of Informal Settlements

The municipality manages and coordinates the upgrading of informal settlements through the following broad objectives:

- In-situ upgrading of informal settlements;
- Upgrade informal settlements by the provision of basic services;
- Develop emergency housing sites geared to accommodate evictees;
- Enumerate / undertake demographic surveys of identified informal settlements;
- Facilitate tenure security in informal settlements;
- Assist in short-term job creation through linkages with Expanded Public Works Programme (EPWP) and longer-term job creation through upgrading programmes;
- Facilitate capacity-building and training for residents and stakeholders through direct service provision and partnerships with outside agencies; and
- Manage the provision of services and development programmes to informal settlements.

6.3.3.4 Informal backyard dwellings

The municipality through the Housing Pipeline is actively attempting to address the needs and plight of backyard dwellers within the municipal area. Currently, it is required to be registered on the Housing Demand Database and hopefully, this will result in a permanent dwelling in one of the Council's housing projects. This process is long and tedious and the chance of actually obtaining a formal house is very slim. Therefore, Council is actively researching ways in which the service (and basic services) to backyard dwellers can be improved through its various housing programmes.

6.3.3.5 Social Housing

Stellenbosch Municipality was approved as a Restructuring Town in March 2017, by the National Minister of Human Settlements. This approval included the confirmation of the various Restructuring Zones within the municipality and the latter culminated in a Council decision instructing the administration to attract Social Housing Institutions (SHIs) and / or Other Development Agency (ODAs) to effect the municipality's social housing programme.

This programme aims to ensure improved quality of life for communities through a Rental housing programme. This process of integration speaks to the importance of:

- Economic sustainability: affordability, access to economic opportunities, and promoting job creation via the multiplier effect associated with building medium density housing stock. etc.;
- Social sustainability: social integration between various income groups, access to educational, recreational and health facilities, etc.; and
- Ecological sustainability: conservation of scarce resources.

The figure below depicts areas that have been declared as Restructuring Zones for Stellenbosch Municipality.

Figure 32: Restructuring Zones as indicated in green

6.3.3.6 The Western Cape Housing Delivery Model

In 2020, the National Department of Human Settlements (NDoHS) issued a letter to the Provincial Department of Human Settlements (PDoHS) regarding the new directives in human settlements projects. The letter stated that the delivery of top structures was fiscally unsustainable and therefore there is a need to downscale on the delivery of top structures to prioritise the delivery of enhanced service sites. The four newly prioritised categories for top structure on the letter were:

- The elderly;
- Military veterans;
- Persons with disabilities; and
- Child headed households.

In light of the correspondence received from the NDoHS, the PDoHS added to the above its existing priority categories of:

- Backyard residents and

- Person, longest on the waiting list.

After consultation with the National Department, the PDoHS confirmed that all new projects application received from municipalities, which include top structures, must adhere to the above criteria. All the supporting applicable beneficiary approval information must be attached to the top structure project application.

Furthermore, the Provincial Department of Human Settlements informed the municipality they will be appointing a service provider in the 2022/23 financial year to undertake a study and develop the Housing Delivery Model for the Western Cape Province in line with the directives and strategic objectives of the National Department of Human Settlements.

6.3.3.7 Priority Human Settlements and Housing Development Areas (PDSHDA)

In 2020, the Minister of Human Settlements Gazetted the declaration of the Priority Human Settlements and Housing Development Areas (PHSHDA's). The PHSHDAs intends to advance Human Settlements Spatial Transformation and Consolidation by ensuring that the delivery of housing is used to restructure and revitalise towns and cities, strengthen the livelihood prospects of households and overcome apartheid spatial patterns by fostering integrated urban forms.

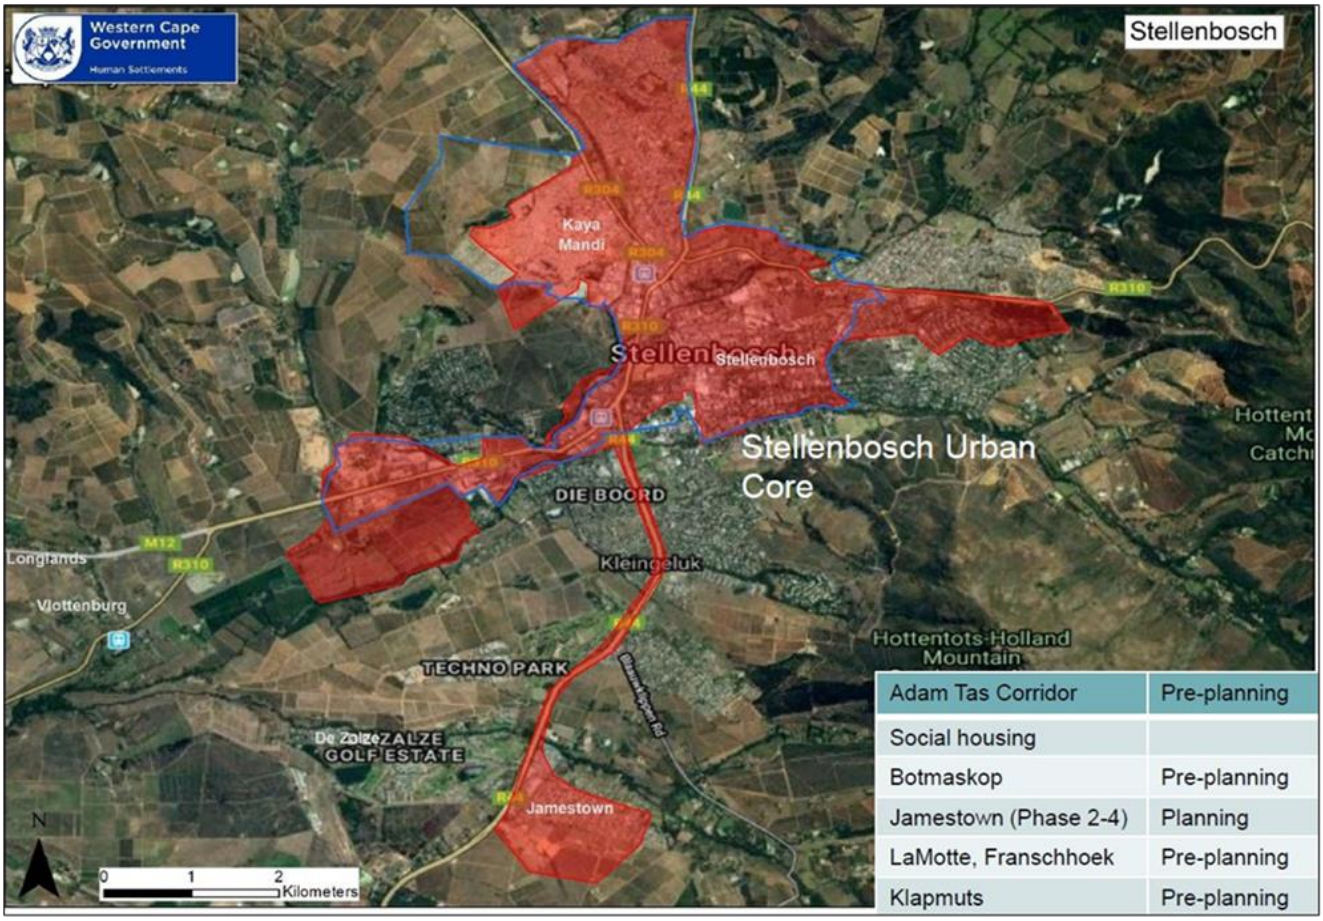
The PHSHDA's are underpinned by the principles of the National Development Plan (NDP) and allied objectives on the National Spatial Development Framework (NSDF) and the Integrated Urban Development Framework (IUDF) which includes:

- **Spatial Justice:** reversing segregated development and creation of poverty pockets in the peripheral areas, integrate previously excluded groups and resuscitate declining areas;
- **Spatial efficiency:** consolidating spaces and promoting densification and efficient communicating patterns;
- **Access to connectivity, economic and social infrastructure:** ensure the attainment of basic services, job opportunities, transport networks, education, recreation, health and welfare to facilitate and catalyse increased investment and productivity;
- **Access to adequate accommodation:** emphasis is on provision of affordable and fiscally sustainable shelter in areas of high need; and
- **Provision of quality housing options:** ensure that different housing typologies are delivered to attract different market segments of appropriate quality and innovation.

Emphasis is placed on synchronising national housing programmes in these priority human settlements and housing development areas namely:

- **Integrated Residential Development Programme** provides a tool to plan, fund and develop integrated settlements that include all the necessary land uses and housing types and price categories to create integrated communities. It provides for subsidised, as well as finance linked housing, social and rental housing, commercial, institutional and other land uses to be developed.
- **Social Housing Programme in Restructuring Zones** provides for Social Housing located in specific, defined localities (mostly urban) which have been identified as areas of opportunity (largely economic) where the poor have limited or inadequate access to accommodation, and where the provision of social housing can contribute to redressing structural, economic, social and spatial dysfunctionalities. It is also aimed to improve and contribute to the overall functioning of the housing sector and in particular the rental sub - component thereof, especially insofar as social housing is able to contribute to widening the range of housing options available to the poor.
- **Informal Settlements Upgrading Programme** provides for the structured in situ upgrading of informal settlements to address the social and economic exclusion of communities. It remains evident that informal settlements provide new migrants and the urban poor an affordable point

of access into towns and cities, although they are also associated with high degrees of physical and social vulnerability.



- **Finance Linked Individual Subsidy Programme** provides for the creation of an inclusive and vibrant residential property market which can provide state assistance to households who are unable to independently access housing credit to become upwardly mobile and progress up the housing ladder.
- **The Special Presidential Package (SPP) Programme on Revitalisation of Distressed Mining Communities** by developing and implementing human settlements spatial transformation plans for identified mining areas.
- **Enhanced People's Housing Process** provides for a process in which beneficiaries actively participate in decision - making over the housing process and housing product and make a contribution in such a way that:
    - Beneficiaries are empowered individually and collectively;
    - Various partnerships are created;
    - Social capital is retained and expanded upon, and 4) housing is valued as an asset far beyond its monetary value; and
    - Housing is valued as an asset far beyond its monetary value.

The current status of the PHSHDA for Stellenbosch Municipality, namely:

- The "Stellenbosch Urban Core Priority Human Settlements and Housing Development Area (PHSHDA) was formally gazette on 15 May 2020 (Government Gazette No. 43316) and consists of the neighborhoods of Jamestown, Kayamandi and Central Stellenbosch;
- To date the Housing Development Agency (HDA) with assistance from the Provincial Department of Human Settlements (PDoHS) have undertaken a Status Quo Analysis in preparation for the drafting of the Stellenbosch PHSHDA Development Plan. The Status Quo Analysis has been completed and will inform the drafting of the Development Plan going forward; and
- The PDoHS, Stellenbosch Municipality and HDA will proceed with the drafting of the Stellenbosch PHSHDA Development Plan in the near future.

The figure below depicts areas that have been declared as Priority Human Settlements and Housing Development Areas (PDSHDA):

Figure 33: Priority Human Settlements and Housing Development Areas (PDSHDA)

Adam Tas Corridor	Pre-planning
Social housing	
Botmaskop	Pre-planning
Jamestown (Phase 2-4)	Planning
LaMotte, Franschhoek	Pre-planning
Klapmuts	Pre-planning

The approved Housing Pipeline is available on request at the Directorate: Planning and Economic Development, on 021 808 8462 or via email at: lester.vanstavel@stellenbosch.gov.za.

6.3.4 Comprehensive Integrated Transport Plan

The National Land Transport Act, 2009 (Act No. 5 of 2009) (NLTA), requires "Type 1" planning authorities (the country's major cities and towns (including Stellenbosch Municipality), to prepare Comprehensive Integrated Transport Plan (CITP). Generally, a CITP is considered as a mechanism by which planning authorities can plan for, develop, manage, integrate and provide for all modes of transport in their areas of jurisdiction.

CITPs must, inter alia:

This CITP will also be revised and updated on an annual basis.

Figure 34: Comprehensive Integrated Transport Plan (CITP)

The CITP is valid for a **five-year period** and the latest completed CITP has been prepared and adopted by Council on 28 April 2021 for the 2016-2021 period, the CITP is currently being reviewed and will be valid for the period 2022 to 2027.

6.3.4.1 Strategic Interventions

The following areas of strategic intervention have been highlighted:

- "Towards Car-Free Living" refers to strategies that encourage more effective modes of travel such as public transport, NMT and other mechanisms to increase the number of passengers per vehicle. The municipality in collaboration with the Provincial Transport Department is investigating strategies that would improve public transport services within and around Stellenbosch.
- "Travel Demand Management" refers to strategies that manage overall demand for travel during peak periods such as congestion pricing and parking management.
- "Infrastructure and Operational Enhancements" refer to capacity improvements to transport infrastructure but only as part of the overarching transport philosophy in Stellenbosch. The municipality continues to roll out its infrastructure enhancement initiatives such as the Main Road Intersection Improvement Programme, the Traffic Signal Optimisation Programme as well as the implementation of Public Transport Facility upgrades.
- "Optimal Land-Use and Interconnected nodes" refers to integrated land use and transport planning which supports and promotes transit orientated development (ATC).

6.3.4.3 Integrated Waste Management Plan (IWMP)

This third-generation IWMP was developed in 2020. The development of the IWMP is necessary as it is an integral tool to identify current needs and act as a guide towards sustainable waste management. With regular updates of this document the changing needs, as well as progress in the waste management sector, can be tracked and strategies adapted accordingly.

Figure 35: Integrated Waste Management (IWMP) Purpose, Scope and Status Quo

6.3.4.4 Implementation Plan: Integrated Waste Management Plan (IWMP)

Based on the gaps and needs identified, aligned goals of the IWMP and planned projects by the municipality, the plan contains the objectives, timeline and resources required for the implementation of the IWMP. The gaps and needs identified are linked to the main goals contained in the Western Cape Provincial IWMP.

6.3.5 Electrical Master Plan

With the approval of the SDF in November 2019, which was almost within the time that the Master Plan was due for an update, the review was not done. The complete update was planned for September 2020, but due to the COVID-19 pandemic, the updating of the Master Plan was delayed.

In October 2020 the Minister of DME announced that municipalities will in future be allowed to purchase electricity from other sources of electricity and also to generate their own electricity. This drastically changed the whole concept of the Stellenbosch Municipality's Master Plan. Where the municipality previously had one supplier of electricity the municipality would have major intake points from this one supplier. From these points, networks will flow to consumers and the size of cables will be determined by the electricity needs of these consumers. Since the municipality may now receive electricity from multiple points the municipal network design will not fit this new policy. The entire Master Plan must now change as cables in certain areas may now be too big and in few places too small. The whole system of intake points must first be established and once that is known, the network itself must be redesigned with the knowledge of existing and future intake points and methods of energy acquirements.

To understand what the energy sources for electricity would look like an **Energy Master Plan** has been launched and is currently conducted by the Council of Scientific and Industrial Research (CSIR) and which will form the basis where electricity is likely to be generated or purchased. Once this Master Plan has been completed and the SDF has been updated, it would be the ideal time to draft an entire new Electricity Master Plan. The following time frames are envisaged:

- Complete **Energy Master Plan** by December 2022; and
- Complete the **Electricity Master Plan** by June 2023.

The plans aim to provide the Stellenbosch Municipality with a clear view and a long-term plan for the development of electrical infrastructure required to support the envisaged demand growth in Stellenbosch and surrounding areas. The municipality also evaluated the long-term viability of existing infrastructure and expansion and refurbishment requirements thereof, where new infrastructure should be located and which components, either existing or new, will be required.

Apart from spatial changes, the **Electrical Master Plan** is to contain the following main elements:

- Documented assessments of primary equipment at all 66/11 kV substations and 11 kV switching substations within the municipal area;
- Site-specific assessments to provide a systematic estimate of the life remaining in substation facilities, and planning to extend the life of facilities to meet future needs;
- Development of a geographical load forecast based on regional demographic and historical load growth patterns, as informed by the SDF. (The anticipated long-term load forecast was directly used as input to the expansion plan.);
- Development of network strengthening and expansion options and technical evaluations to ensure that load and performance criteria are met over the short, medium and term (2028);
- Preparation of cost estimates of the technically viable expansion and strengthening options; and
- The Electrical Master Plan is updated every five years and is used in medium-term project planning, prioritisation and budgeting.

6.3.6 Water Services Development Plan

As a Water Services Authority (WSA), the Stellenbosch Municipality has a duty in terms of sections 12 and 13 of the Water Services Act, 1997 (Act No. 108 of 1997) to prepare and maintain a Water Services Development Plan (WSDP). The municipality prepared a comprehensive WSDP in 2007, 2012 and 2019 that is valid for a period of five years. The revision and updating of the WSDP will commence in the 2022/23 financial year.

Where the Department of Water and Sanitation is the custodian of South Africa's water resources, Stellenbosch Municipality's Water Services sees itself as an extension of this custodianship. Water Services is responsible to act in line with the Water Services Act, as well as the implementation of Municipal By-Laws, policies and procedures.

As part of the WSDP package, the municipality maintains:

- Water and Sewer Master Plans;
- Water Resources Study;
- Annual water audit;
- A Water Safety Plan;
- A drinking water quality sampling programme;
- Water and sewer pipe replacement prioritisation programme; and
- A Water Demand Management (WDM) Strategy.

The Water Master Plan, Sanitation Master Plan, Bulk Water Resources / Drought Intervention Plan, Asset Register and Pipe Replacement Prioritised Programme were updated in 2019.

A brand-new Master Plan is envisaged to be commenced with and completed in 2022. Since water management has drastically changed with the advent of drought, the use of greywater, the increasing cleansing of rivers, it is needed to be redone. It will also align the Water Master Plan with the latest changes to the SDF.

The Water Conservation and Water Demand Management (WC and WDM) strategy is a comprehensive study, which includes a 10-year financial plan. The strategy has two goals: the municipality will prioritise the implementation of WC&WDM, and will ensure ongoing planning, management, monitoring and an enabling environment. The WC&WDM initiatives include a water pipe replacement programme, indigent domestic leak repair and meter replacement programme, Stellenbosch water meter audit and Stellenbosch in-house water services operation and maintenance.

Poverty reduction and improved water management are closely linked. Section 4B of the Constitution lists water and sanitation services, limited to potable water supply systems and domestic wastewater and sewerage disposal systems, as a local government function.

Access to basic water is defined as 25 liters of potable water per day supplied within 200 meters of a household.

Due to the severe drought experienced recently and very low rainfall recorded in recent years, the municipalities in the Western Cape had to enforce water restrictions and still have restrictions in place.

Stellenbosch Municipality supplies water to its consumers through the following water supply systems:

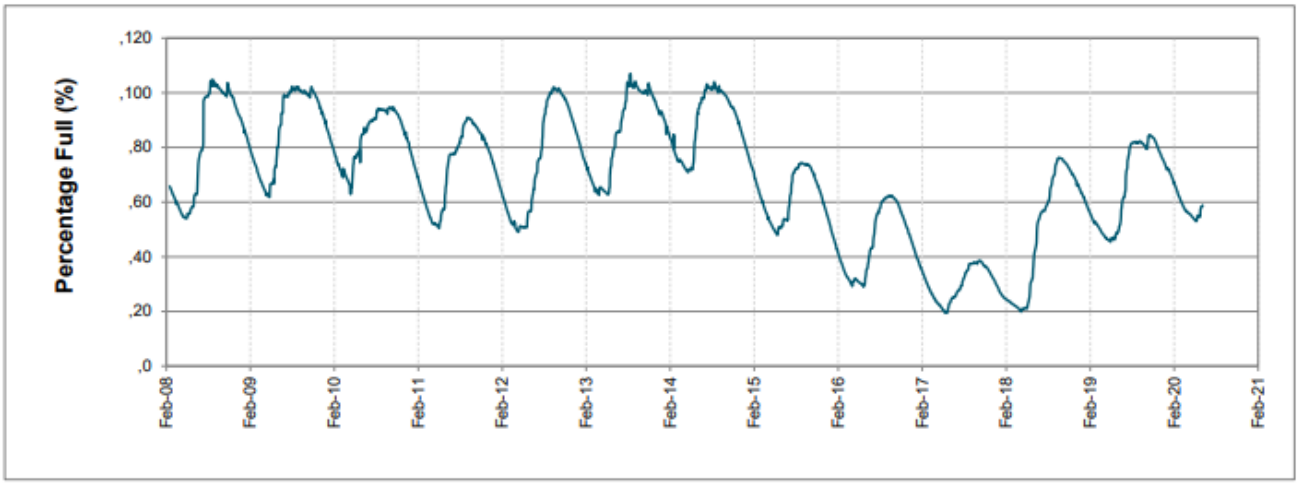
- Stellenbosch (Jonkershoek and Theewaterskloof tunnel);
- Franschhoek;
- Wemmershoek (treated water imported from the City of Cape Town);
- Blackheath (treated water imported from the City of Cape Town);
- Faure (treated water imported from the City of Cape Town); and
- Other own sources (Boreholes).

The total population supplied with water in the Stellenbosch Municipal area amount to approximately 199 800 people. Water is also supplied to a fairly extensive industrial area.

Emergency water is supplied to farm communities that do not get water from the farms that they stay on.

Stellenbosch Municipality manages three water treatment works, namely Ida's Valley, Paradyskloof and Franschhoek. The potable water supply from these works amounts to 15.1 Ml/d on average and

a further 6.8 Ml/d was obtained from the City of Cape Town during the financial year, ensuring a supply of approximately 21.9 Ml/d to the municipal area.



Areas supplied from the Wemmershoek Water Treatment Works include half of Franschhoek town, La Motte, Wemmershoek, Pniël, Boschendal, Johannesdal, Kylemore, Lanquedoc, Klapmuts, Koelenhof, Elsenburg, Devon Valley and Muldersvlei. Areas supplied from Blackheath water treatment works include Polkadraai, Spier and Vlottenburg. Areas supplied from Faure water treatment works are Faure, Jamestown, De Zalze, Raithby and Lynedoch. Although these water treatment works fall within the sphere of responsibility of the City of Cape Town, their impact with regard to water quality and quantity needs to be monitored and considered by Stellenbosch Municipality.

Stellenbosch Municipality supplies potable water to the entire municipal area through a network and infrastructure consisting of 56 reservoirs / holding tanks and water towers, 36 water pump stations, 35 pressure reducing valve installations, 667 kilometers of pipeline and 79 water supply zones. The network is fully controlled and operated by a telemetry system.

The bulk water input into the water network for 2019/20 was 8 015 027 Ml, with an annual average daily demand of 21.9 kl/day. About 40% of the water supplied is purified from own water sources at the Ida's Valley and Franschhoek water treatment plants. The balance is supplied by the City of Cape Town and the Paradyskloof Water Treatment Plant, where raw water supplied by the Department of Water and Sanitation is purified. Potable water supplied from the City of Cape Town is analysed on a monthly basis by the City of Cape Town.

Figure 36: WCWSS Storage Record (2008 – present)

Ida's Valley and Paradyskloof Water Treatment Works are equipped with some analytical capabilities and routine plant analyses are performed in-house. A full water quality monitoring programme is further performed for the municipality by an accredited external laboratory / contractor. Maintenance of equipment is performed in-house and by specialist contractors.

6.3.6.1 Basic Services and Level of Services

- There is no basic water and sanitation services backlog in the urban areas of the municipality. A small number of the households on farms are still without basic water and sanitation services.
- The clinics, hospitals and schools in the municipal area have adequate and safe water supply and sanitation services.
- All indigent households receive free basic water (the first six kilolitres of water) and sanitation services.
- All the formal households in urban areas of the municipality are provided with water connections

and waterborne sanitation facilities inside the houses (higher level of service). Communal standpipes and ablution facilities are provided in the informal areas as a temporary emergency service. Communal standpipes represent the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of its already vulnerable and poor users.

- A sustainable type of water and sanitation facility needs to be provided to the households on those farms with current services below minimum service level standard. Stellenbosch Municipality is committed to supporting the private landowners as far as possible with regard to addressing the current services backlog on farms, as identified through the Cape Winelands Rural Survey of Service Levels.
- From a water services perspective, the most significant challenges are the augmentation of the existing water sources, the replacement and upgrading of old infrastructure to accommodate development, the provision of sustainable basic services to informal settlements, and to ensure the provision of basic services to rural communities located on private farms.

6.3.6.2 Maintenance of Infrastructure

Both water infrastructure and sanitation infrastructure require serious remedial investment. About 38,6% of the water supply infrastructure is in a poor or very poor condition and the condition backlog is in access of R300 million. The bulk of the backlog is made up of the old Asbestos Cemen (AC) water reticulation pipeline assets. About 43.4% of the sanitation infrastructure is in a poor or very poor condition and the condition backlog is in the order of R250 million. The bulk of the backlog consists of the old Asbestos Cement (AC) and Pic Fibre sewer reticulation assets in the Stellenbosch area.

Wastewater Treatment Works

An Infrastructure Asset Register is in place for all water and sanitation infrastructure. It is critical that an Infrastructure Asset Management Plan is developed and implemented, based on the principle of preventative maintenance to ensure that damage to assets is prevented before it occurs. Assets must be rehabilitated and / or replaced before the end of their economic life and the necessary capital funds must be allocated for this purpose. Maintenance activities have been increasingly focused on reactive maintenance as opposed to preventative maintenance.

6.3.6.3 Implementation Plan: Water Services Development Plan

Table 34: Water Services Development Interventions

Funding Type								Project Rating

TBC	Upgrading of the Wemmershoek WWTW	Number of Wemmershoek WWTWs upgraded by 31 March	Wemmershoek WWTW Upgrade will increase capacity from 5MLD to 8MLD and will improve the quality of effluent discharged into the Berg River. The project consists of upgrading grit removal, adding additional activated sludge treatment processes and doubling the sludge handling capacity by installing an additional belt press. Phase 1 planned completion is October 2022. Phase 2 is to commence in early 2022/23 financial year and has a two-year construction period.	1	n/a	n/a	1	n/a	n/a	▲	n/a	n/a	n/a	n/a	n/a
TBC	Upgrading of the Pniël WWTW	Number of Pniël WWTWs upgraded by 31 December	Pniël WWTW Upgrade started construction in February 2020 and current completion is planned for December 2022. The upgrading consists of a new activated sludge plant incorporating existing refurbished infrastructure. This project will increase capacity from 1.4 MLD to 4.5MLD. The advanced plant will increase the quality of effluent and will allow development in Kylemore, Pniël, Lanquedoc and Boschendal.	1	1	n/a	n/a	n/a	n/a	▲	n/a	n/a	n/a	n/a	n/a

6.3.6.4 Water Demand Management (WDM)

Stellenbosch Municipality is actively implementing their adopted WDM Strategy to reduce the current percentage of non-revenue water and to keep the future water demand as low as possible. The municipality has a block step tariff system that discourages wasteful or inefficient use of water. The restriction of water use by indigent households and non-payers were prioritised with the implementation of the Leak Repair Programme and includes the repairs to private leaks and the installation of Water Demand Management Devices. These devices restrict users to 400 litres per day. More than 1 600 devices have been installed with savings in excess of 450 000 litres of water per day.

6.3.6.5 Climate Change

In terms of adapting to climate change, water systems will need to be more robust and newer or alternative sources of supply may need to be found. Increased skills will be required from water managers and long-term water projections are required. Although an overall decrease in rainfall is not generally forecast, increased variability in the climate and frequency of extreme events, as well as increased temperature and wind could have an impact on water sources, particularly surface waters. It is, therefore advisable for the municipality to maintain a conservative approach to the management of water sources, including the following actions:

- Establish assurance of supply levels of all water sources;
- Increase assurance of supply of the water resources by ensuring that there is at least 10% additional capacity (headroom), when considering the maximum 24-hour demand on the peak month of the year;
- Do not undertake new developments unless a proper investigation of the implication on water sources and sustainability in the long term has been undertaken.
- Vigorous implementation of WDM measures, especially in terms of increased water efficiency, frequent monitoring of the water supply system from the sources to the consumers, and regular and adequate system maintenance and repairs; and
- IRIS monitoring system including the Blue Drop Awards system is active in the municipality and in the past with the Blue Drop system, SM was awarded for four of the municipality's five water supply systems. Three awards were received in conjunction with the City of Cape Town, which supplies water to these systems – from where Stellenbosch manages distribution to end-users. A further Blue Drop Award (the fourth consecutive award) recognised the Stellenbosch water supply system for water treated by the municipality's Ida's Valley and Paradyskloof water treatment plants. The Department of Water Affairs acknowledged this exceptional performance by awarding a silver award to Stellenbosch.

The municipality did not receive a Blue Drop Award for the Franschhoek water supply system which receives water from its own Franschhoek water treatment works. This was expected because of certain infrastructure challenges in this system. Projects have been initiated to address these issues.

6.3.6.6 Level of Service

In the rural area, the responsibility lies with the landowner to manage storm water over his land. In the urban area, the responsibility lies with the local municipality. The objective in storm water management is to be able to accommodate a 1:5-year storm in the residential areas and 1: 2 in the urban areas as contemplated in the Guideline for Human Settlements Planning and Design. The Water Act, 1998 (Act No. 36 of 1998) determines that flood lines should be indicated on development plans.

Flood line determination has been done in the past but this information is outdated. The municipality is currently busy compiling a hydrological model to determine the latest flood lines on the rivers in Stellenbosch and Franschhoek for the urban area. It is a development condition for all future developments to do a flood-line determination.

6.3.6.7 Risk Mitigation – COVID – 19 Influence on Water Services

Household water supplies may fall victim to the COVID-19 pandemic – if users can no longer pay their bills, and municipalities' revenue streams dry up.

"In the short term there will still be water for people to wash their hands. However, the long-term consequences could be devastating if municipalities are not able to fund their ongoing operations while funds for the President's Infrastructure Investment initiative will also be affected," says Mike Muller, Chair of the Technical Subcommittee for the Water Institute of Southern Africa (WISA).

As the lockdown impacts individuals and companies across the spectrum, prompting job losses and reduced working hours, the Water Institute of South Africa (WISA) warns that proactive interventions to address "the elephant in the room" are already overdue.

"If people are faced with the choice of paying their rates or feeding their children, they are going to choose the latter. And this non-payment, in a scenario already under serious financial pressure, could have a devastating effect on the general cash standing of municipalities," Dan Naidoo, WISA non-executive director, cautioned at a WISA Board meeting held online recently.

To clarify the depth of the negative knock-on effect, he points out that local government is the main driver of South Africa's economy.

"Service delivery, including the provision of water, is the cornerstone of all economies. Non-payment affects the entire value chain upstream, and if our five big metros are already reporting tough times, how can we expect the smaller, poorer municipalities to survive?

Water is a prime focus usually, and more so now as we battle the COVID-19 pandemic. But water is not free, and the country must be sure that it has the capacity to fund and maintain this critical infrastructure into the future."[6]

The infrastructure capital implementation is hampered by the pandemic that lower the income from water and wastewater services due to the lockdown. The capital implementation program is thus delayed.

6.3.6.8 Risk Mitigation – Drought Response Plan

Water is probably the most fundamental and indispensable of natural resources – fundamental to life, the environment, food production, hygiene and power generation.

Due to the threat of re-occurring droughts and very low rainfall recorded in recent years, the municipalities in the Western Cape had to enforce water restrictions. Stellenbosch Municipality implemented water restrictions to lower water consumption.

The success of this initiative is largely dependent on the cooperation of the consumer taking ownership of the new smart meter. The use of the water demand management device (smart meter) has been implemented nationally with huge success and a reduction in water losses.

The project is currently underway and has been received with a positive reaction from the community.

The new Water Services By-Laws were also finalised and approved by Council and promulgated. This will contribute to increasing management and control of water and sanitation-related aspects within the municipality.

During the last official Blue Drop certification (2012), Stellenbosch Municipality achieved Blue Drop certifications for four of its five water supply systems, with a total **Blue Drop score of 95.56%.**

[6] WISA, Jun 30, 2020

The municipality achieved a platinum award for the Stellenbosch Water Supply System for achieving Blue Drop accreditation three times, every year since the programme's inception in 2009.

The following planning documents are continuously updated to include the latest planning: the Water Master Plan, Drought Response Plan, Water Services Audit Report and the Pipe Replacement Study and Model and all projects and daily operations are done in line with the aforementioned studies and guidelines.

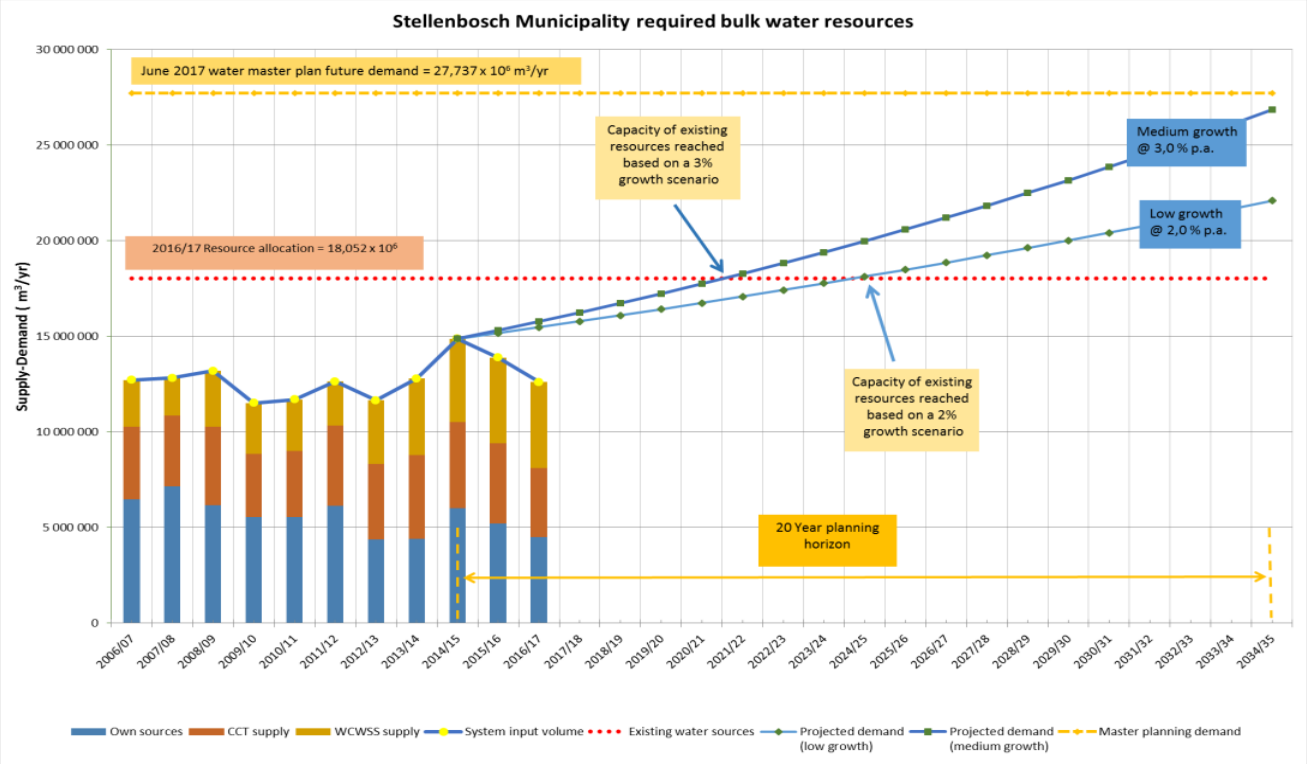
6.3.6.9 Backlogs in Water and Sanitation Services

A municipality as a Water Services Authority (WSA) has a duty to all its customers or potential customers in its area of jurisdiction to progressively ensure efficient, affordable, economical and sustainable access to water and sanitation services to promote sustainable livelihoods and economic development. To ensure this it is important that the backlogs within the water and sanitation infrastructure should be addressed. Backlogs could be defined in three broad categories:

- Backlogs regarding access to basic water and sanitation services. (Basic water and sanitation services in terms of RDP standards);
- Conditional backlogs (lack of maintenance); and
- Capacity backlogs (increase in consumers).

6.3.6.10 Backlogs – Access to Basic Levels of Services

All indigent households receive free basic water (the first ten kilolitres of water) and sanitation services.



All the formal households in urban areas of the municipality are provided with water connections and waterborne sanitation facilities inside the houses (higher level of service). Communal standpipes and ablution facilities are provided in the informal areas as a temporary emergency service. Communal standpipes represent the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of its already vulnerable and poor users.

A sustainable type of water and sanitation facility needs to be provided to the households with current services levels below RDP standard. Stellenbosch Municipality is committed to supporting the private landowners as far as possible with regard to addressing the current services backlog on farms.

6.3.6.11 Conditional and Capacity Backlogs of Infrastructure

Resolving inequality and growing the economy will require access to water and sanitation services for the 20 000 new residential units proposed for Stellenbosch Municipality. This will require a doubling of infrastructural service points over the next 10 years.

Figure 37: Water supply and accommodating growth (Total for WCO24)

Updated growth in demand: 20-year planning horizon

Detailed water balance and future water demand projection models were developed as part of the WSDP process, to plan adequately for the augmentation of the existing water sources.

Groundwater is now seen as a potential water source and will be investigated and evaluated after the new water resources study is completed.

Based on the municipality's IWA Water Balance sheet for the 2020/21 financial year, the municipality recorded 18.1% for "non-revenue" water which is a decrease of 2.4 % from the previous financial year and 9.9% for Real Network Losses.[7] The no-revenue water for the financial year 2020/21 is 18.1% that is below the target set of 25%. The real physical network losses are at 9.9% that is well below the best practice value of 15%.

[7] Refer to the municipality's IWA Water Balance Sheet

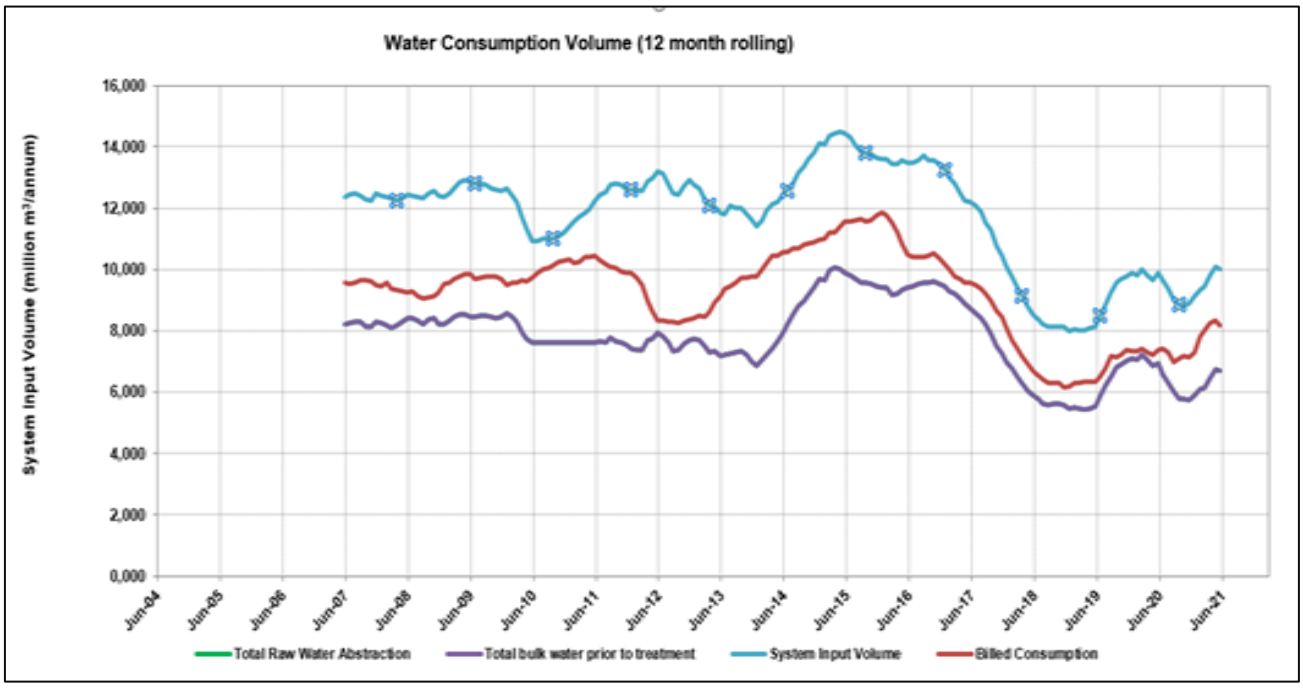


Figure 38: Water Losses July 2020 to June 2021

System input volume: July 2020 to June 2021 ; kl * (water demand in reticulation system)				**10 003 874**	**100%**
Potable	Authorised consumption 85,1%	Revenue water 81,9%	Billed metered (normal) *	7 701 782	77,0%
			Billed unmetered	486 778	4,9%
		Non-revenue water 18,1%	Un-billed metered	300 116	3,0%
			Un-billed unmetered	20 008	0,2%
	UAW 14,9%		Apparent losses	500 194	5,0%
			Real network losses	994 996	9,9%
Non-revenue water (NRW) ; kl				**1 815 314**	**18,1%**
Real network losses ; kl				**994 996**	**9,9%**

6.3.6.12 Borehole Drilling in WCO24

Part of the drought mitigation plan was to manufacture and install water purification plants in the Stellenbosch Municipality water networks at strategic positions. The containerised water purification plants treat water up to SANS 241 standards before it is included in the water supply networks. This water is however more expensive compared to our Ida's Valley WTP supply and not used unless necessary.

Figure 39: Stellenbosch Bulk Water Consumption

6.3.7 Long Term Water Conservation and Water Demand Management Strategy

A comprehensive Water Conservation and Water Demand Management (WC & WDM) Strategy which includes a 10-year financial plan has been developed. The strategy has two goals. The municipality will:

- Prioritise the implementation of WC & WDM Strategy; and
- Ensure ongoing planning, management, monitoring and enabling environment.

This long-term WC & WDM Strategy were approved by Council on Tuesday, 25 February 2014 and was since implemented. Water Conservation and Water Demand Management (WC/WDM) are more cost-effective and have a less environmental impact when compared with developing new sources of supply, provided there is scope for implementing WC/WDM measures. The payback period for the implementation of WC/WDM in this municipality is 3 years which is considerably less than the 20 years that one would expect with major infrastructure projects. The updating of the long-term plan is underway.

The results of the successful implementation of the strategy are evident with declining input volumes and lower water losses recorded since implementation started. The active Leak Repair Programme, the installation of Water Demand Management Device, active replacement of faulty water meters and the replacement of asbestos cement pipelines all contributed to below-average Real Network Losses and Non-revenue Water Losses. It is, therefore, an effective way of delaying the development of infrastructure for new water resources and reducing the need to upgrade or construct new bulk water infrastructure.

WC / WDM involves measures which:

Figure 40: WC / WDM Measures

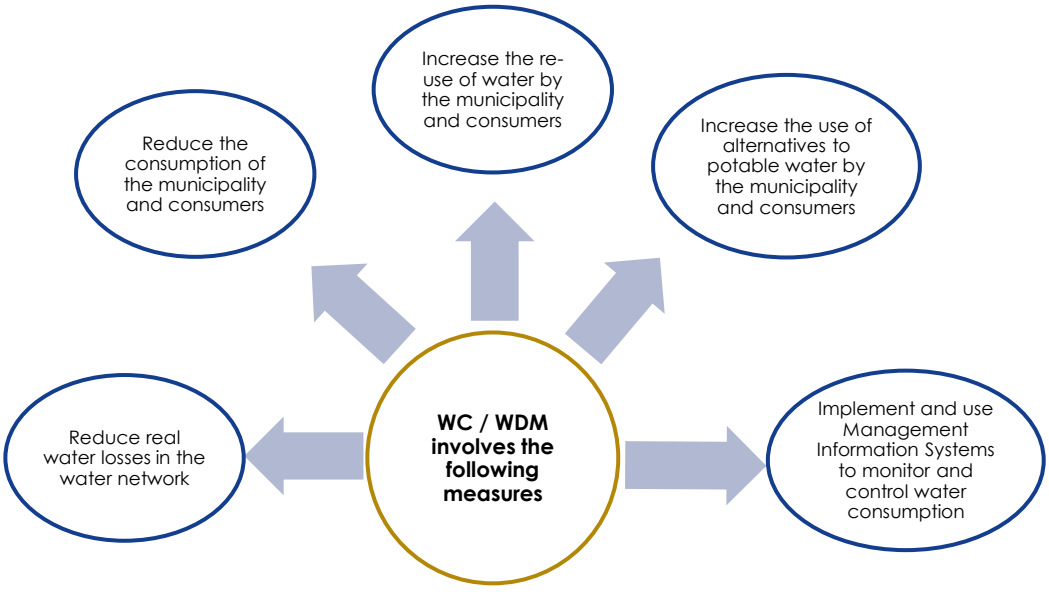

Figure 41: Stellenbosch Bulk Water input volumes

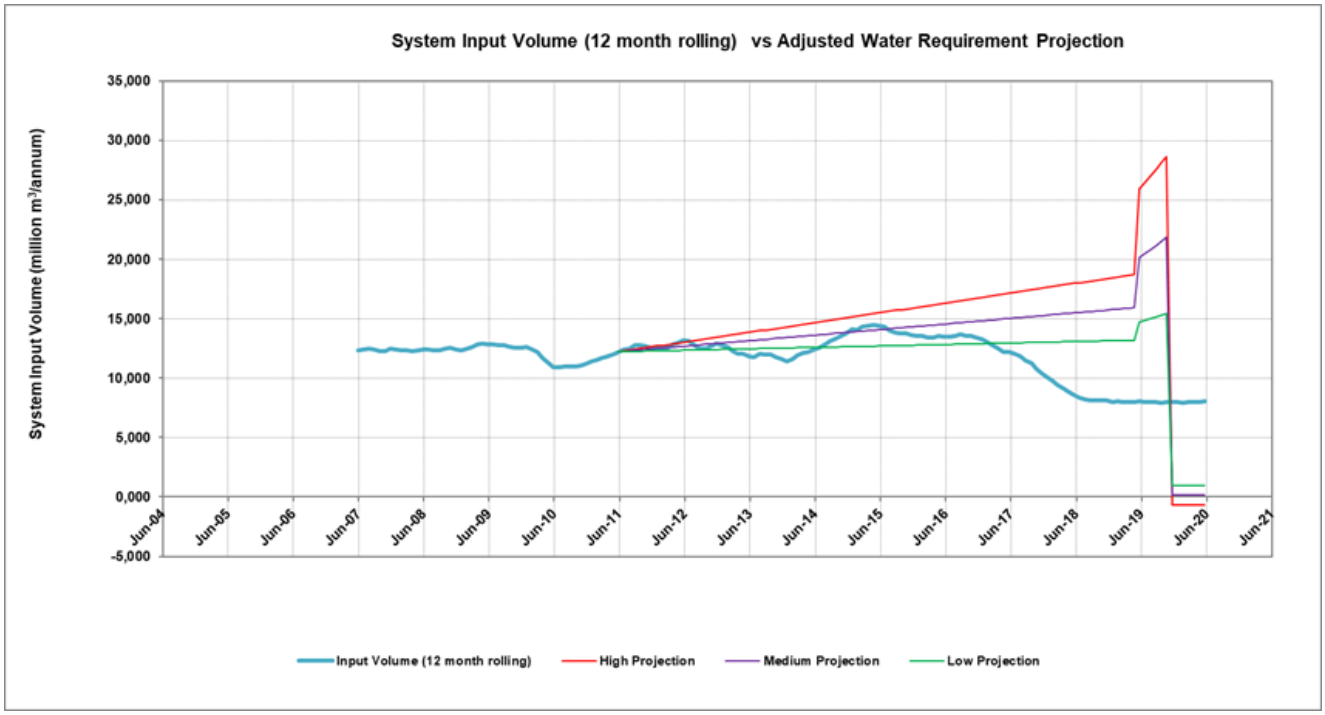

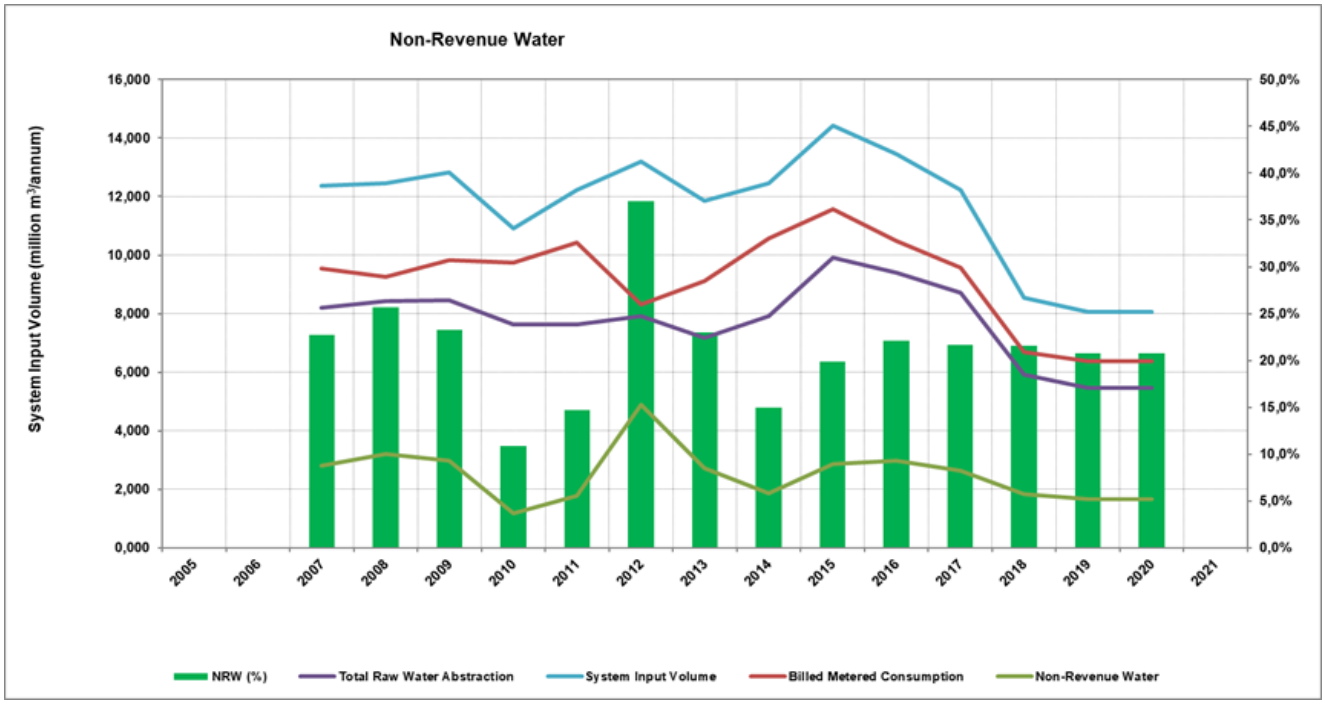

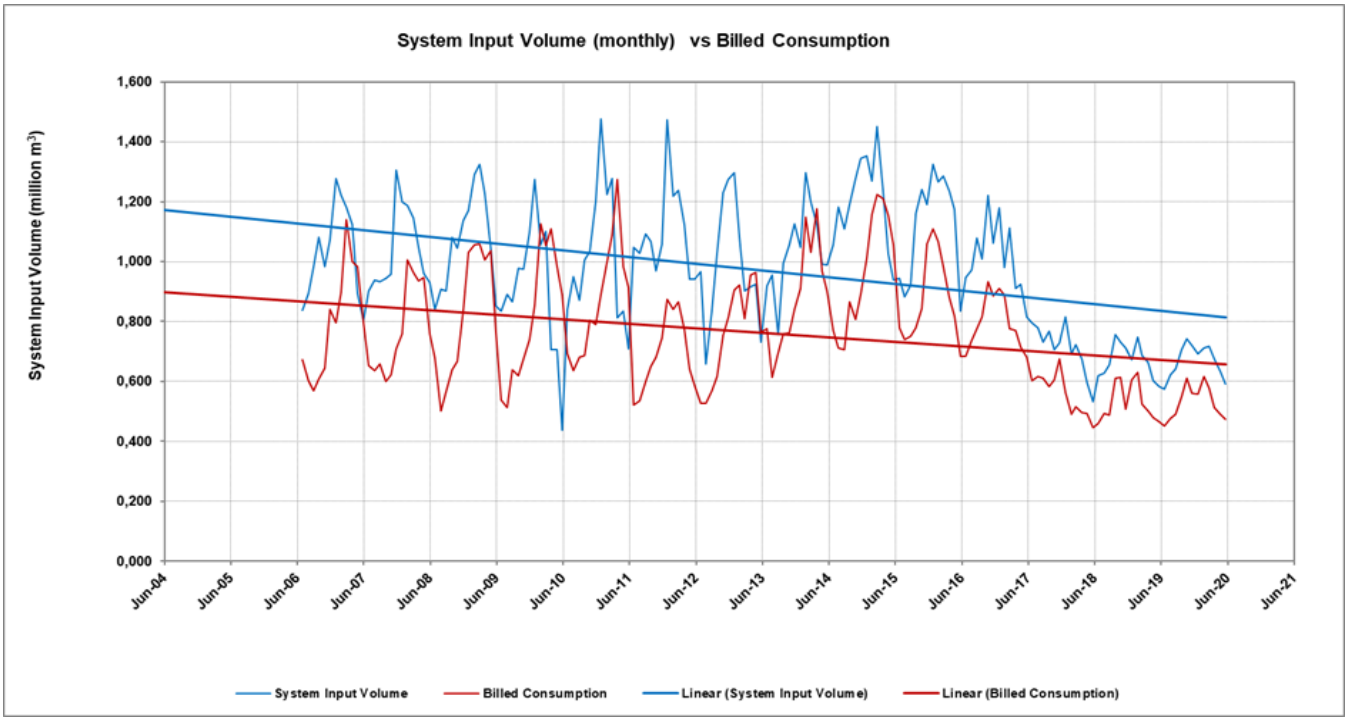

Figure 42: Stellenbosch Bulk Water Sales

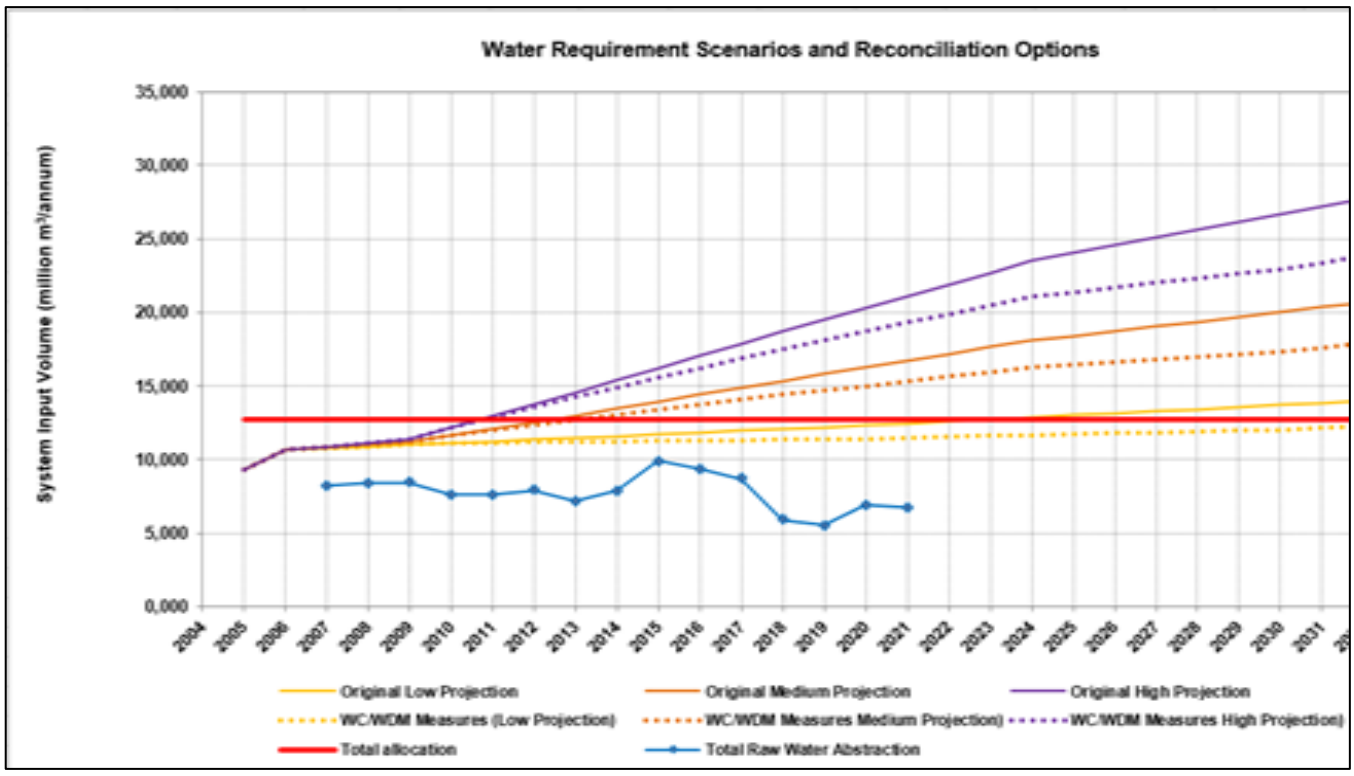
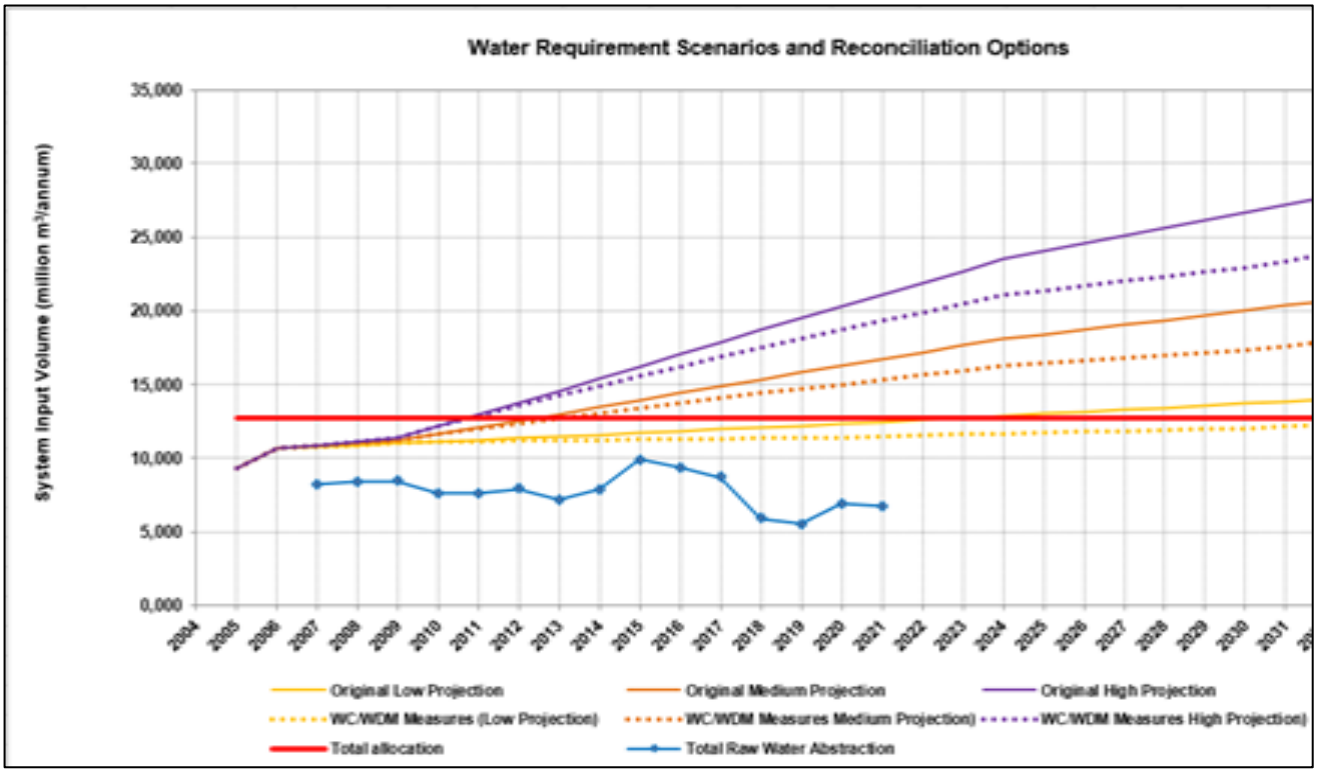
The unrestricted growth in water demand versus the growth in water demand assuming WC&WDM is implemented as shown in the figure below.

Figure 43: Unrestricted versus WDM growth in demand





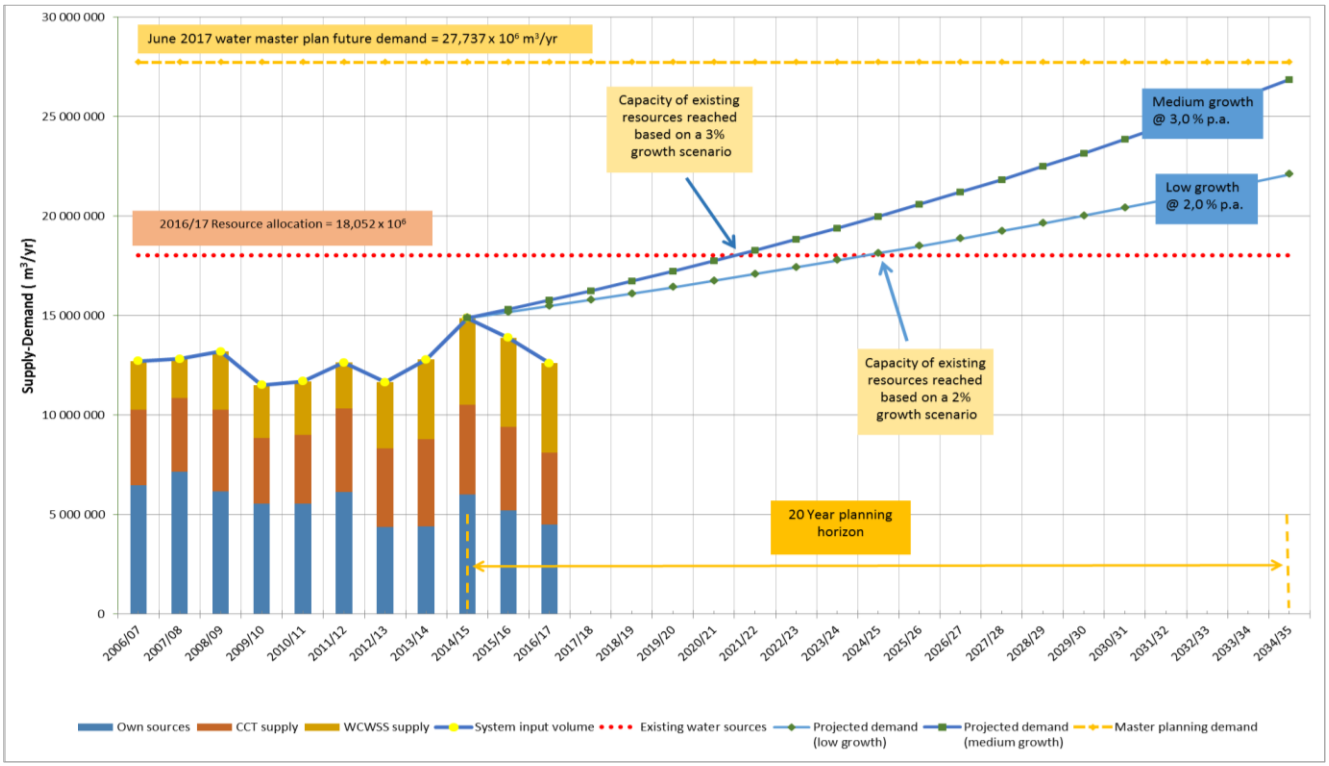


Figure 44: Unrestricted versus WDM growth in demand

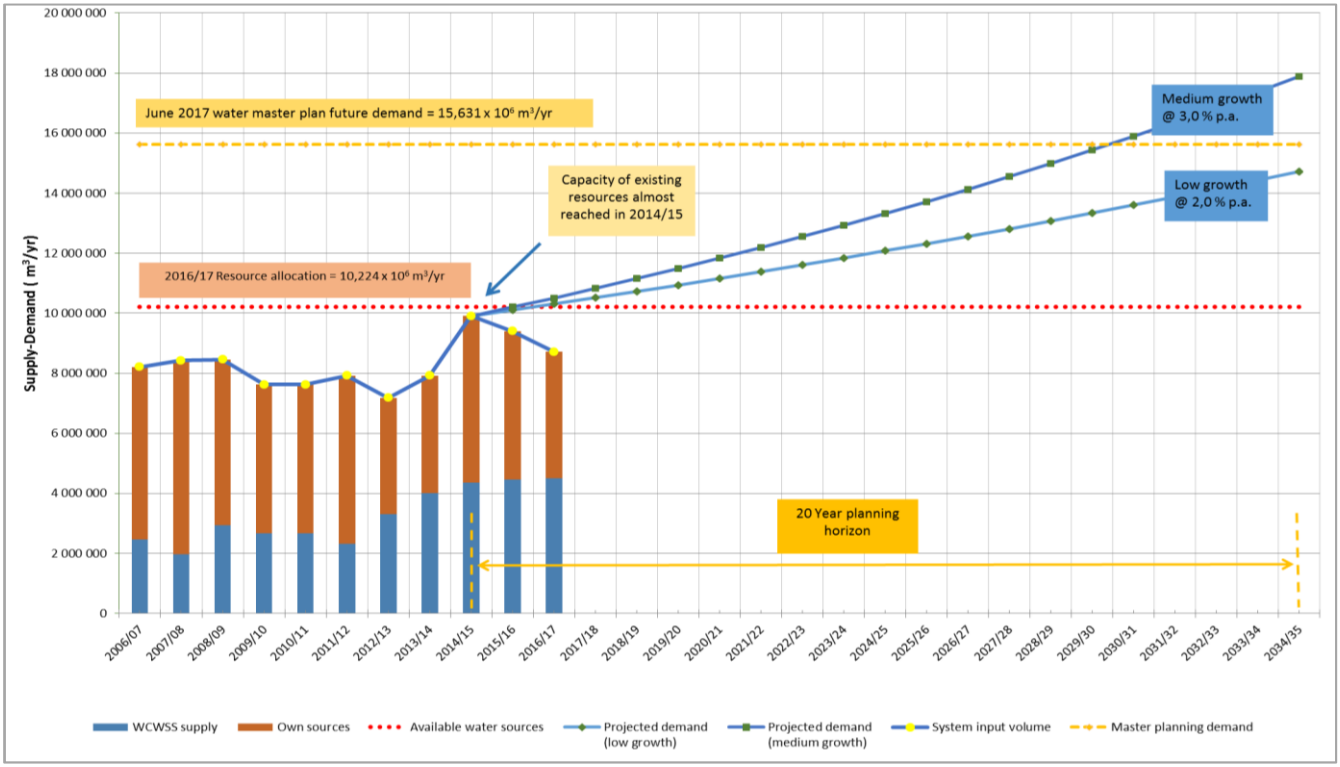
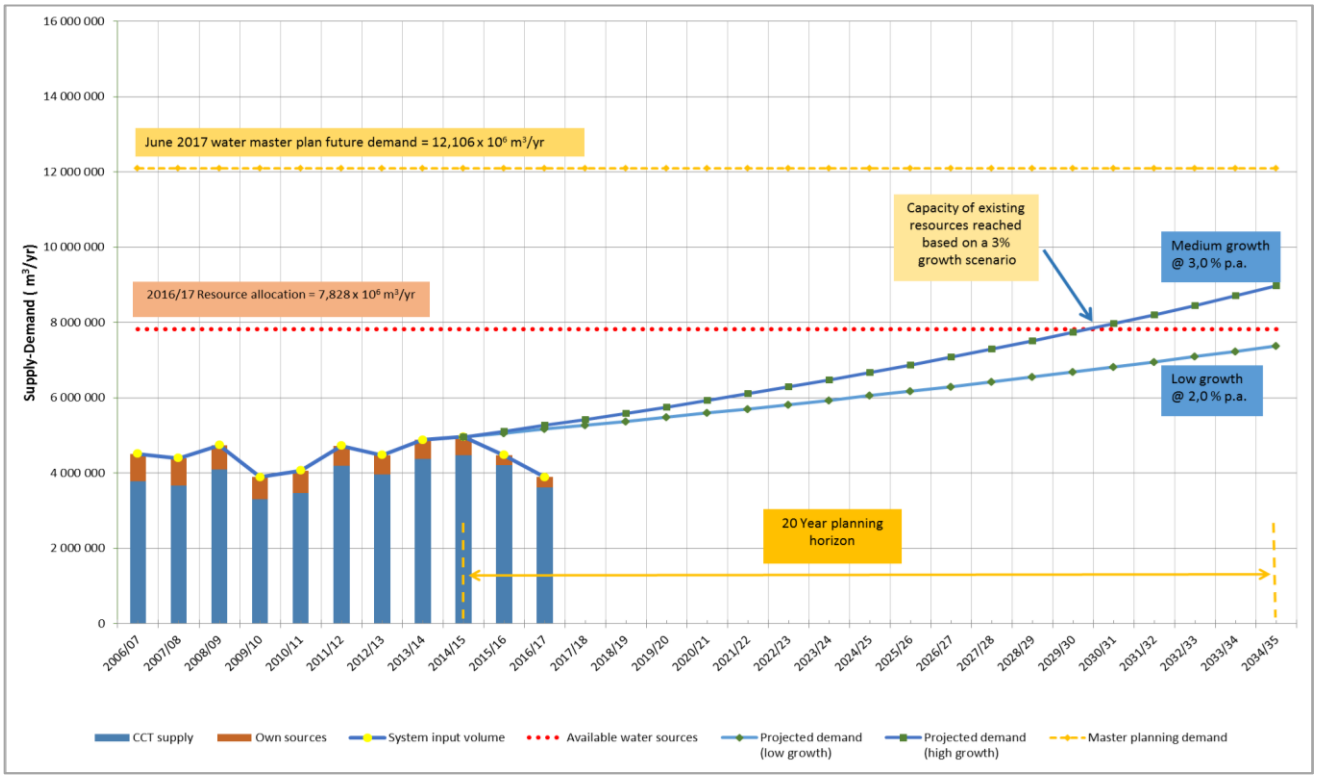




Note that each town in the municipality has water supplies independent of each other. When implementing WC/WDM in the municipality it is critical to implement in those towns where the existing supply will become inadequate for the demand the soonest. This will enable the municipality to delay the implementation of expensive infrastructure. The estimated budget required is about R40 million over 10 years.

The municipality embarked on a Drought Intervention Programme that accelerated and expanded some of the WC/WDM plans and programmes.

Figure 45: Updated growth in demand 20-year planning horizon

6.3.8 Safety and Security Strategy

Strengthening partnerships and using the platform of the Stellenbosch Safety Partnership (SSP) which was a re-brand from the old Stellenbosch Safety Initiative (SSI). The SSP forms the basis of the Stellenbosch Municipality Safety and Security Strategy. The breakdown of silos (between internal departments and private institutions with similar objectives) is of critical importance as no strategy from any role-player can succeed, unless a multi-disciplinary, integrated approach is embraced as part of the process. The SSP has become critical for successful crime prevention, and it is now envisaged that the SSP structure will include public, private, and community-based stakeholders in safety and security.

Extensive stakeholder consultation and participation is the foundation of the municipal Safety and Security Strategy recognising the important role that each and every stakeholder must play to make WC024 the safest municipality in South Africa. The Directorate: Community and Protection Services will be embarking on extensive safety and security meetings with all 23 wards in 2022.

To achieve this, the following role players have been identified as key stakeholders and partners for success:

- South African Police Services;
- Department of Community Safety (DOCS);
- Cape Winelands District Municipality;
- Neighbourhood watches and Farm Watches;
- Community Policing Forums (CPFs);
- Private and corporate businesses;
- Private security companies;
- Department of Correctional Services;
- Department of Justice;
- University of Stellenbosch (Campus Control); and
- Stellenbosch Municipality
  - Law Enforcement

- Traffic Services
- Fire and Rescue
- Disaster Management.

Building collaborative relationships with our community stakeholders and highlighting Council's commitment to maintaining strong partnerships with primary Law Enforcement Agencies, remains the foundation of ensuring safety throughout the Greater Stellenbosch.

Communities are being mobilised and supported to establish neighbourhood watches and formalise their respective neighbourhood watches which will be issued with equipment from DOCS and the municipality to aid in their fight against crime and to be the eyes and ears on the ground. Training will also be provided by the municipality to enhance the training that neighbourhood watches receive from DOCS. Radios will be provided to enable communication with the municipality's Protection Services control room.

The municipality's control room and joint operations centre (JOC) is envisaged to house role-players from neighbourhood watches, security companies, SAPS, Municipal Law Enforcement Officers from Protection Services with a link to the University of Stellenbosch control room and cameras which has been established and in place. The municipality created and launched a state-of-the-art central control room which will provide seating for representatives from all the key members of the SSP. The SSP is open to any registered entity which contributes toward safety and security initiatives within the boundaries of Stellenbosch. One dedicated emergency number will be provided to residents within the municipal boundaries which will enhance response to emergency services required. The number is **021 808 8999**. A WhatsApp number to report general and safety complaints within the municipal boundaries of Stellenbosch is also made available for reporting purposes. The number is **079 622 4722**.

Initiatives have and will continue to be launched as it contributes and make communities aware in terms of crime prevention tips and other preventative tips for example fire safety, what to do in case of disasters etc. This will be a joint approach between role-players and supplemented based on crime patterns and situations experienced. Training will also be provided to enhance safety initiatives for example road safety (crossing of roads) etc.

The Community Safety Forum (CSF) was approved by Council on 30 March 2022. The CSF is a multi-stakeholder forum that will address matters of community safety and security in the WC024. The purpose of CSF is to promote the development of communities in a safe environment and have access to high-quality services at local government level, through multi-agency collaboration between the different spheres of government and communities. The CSF as a multi-sectoral structure would champion the coordination, integration, and implementation of crime and violence prevention community safety initiatives. The CSF will have three Clusters, namely: Law Enforcement, Social Cohesion and Crime Prevention through Environmental design.

Fire Services

The Stellenbosch Municipal Fire and Rescue section is dedicated towards the provision of services that seek to safeguard the public against fire and other natural and man-made disasters and emergencies.

The role of the Fire and Rescue Services is to deal pro -actively and reactively with the following:

- The pro-active provision of general fire safety guidance and assistance in respect of venues and its users;
- Protection and rescue of life and property from any threatening danger;
- Prevent the outbreak or spread of fire;
- Extinguish fire;

- Any other duties as stipulated in the Fire Brigade Services Act;
- Through the Department of Planning and Development and Building Department, consolidate initial structural damage assessments from other departments, conduct evaluations of structures, support efforts of property owners to address structural issues;
- Assist SAPS with inspections at licensed premises to combat illegal activities identified by crime intelligence;
- Determine slide (land) danger areas of informal settlements, oversee the direction, management and cordoning-off of identified slopes and stabilise;
- Activate the Disaster Management Unit in case of any life-threatening incident, for example, flooding, loss of residence due to fire, etc; and
- Conduct annual evacuation drills at designated buildings and premises.

Traffic Services

The traffic services operational response plan seek to address all the factors (human, vehicle, and roads / environment) that contribute to accidents (crashes) on the roads within the WC024 area. This approach is based on reliable research data which have been accumulated locally, nationally, and internationally. In analysing the data, the Section: Traffic Services can ascertain the frequency of accidents, where and when (time of day) it occurs and the severity (type) of accidents. Through this approach the Section: Traffic Services can deploy resources more efficiently and effectively to mitigate the risk of fatalities on the roads within the boundaries of WCO24.

Stellenbosch Traffic Services has aligned itself to the national strategy of the Department of Transport to improve road safety and mitigate fatalities on South African roads. The municipality has identified ten goals which are being prioritised as municipal priorities:

- To achieve a measurable improvement in road user behaviour – including skill, safer decisions, and better regard for other road users.
- To reduce the incidence of traffic offences, including speeding, drunk-driving, and drug-driving, dangerous overtaking, etc.
- To ensure that unfit road users are identified and appropriately sanctioned.
- To ensure that un-roadworthy (including overloaded) vehicles are appropriately sanctioned.
- To improve the safety level of public transport vehicles and drivers.
- To reduce the incidence of dangerous driving.
- To reduce the risk-taking behaviour of pedestrians.
- To develop education programmes for vehicle road users to enhance their road safety knowledge.
- Identify and address key vehicle road user crash sites on a rolling basis.
- Ensure that all road safety interventions are intelligence led.

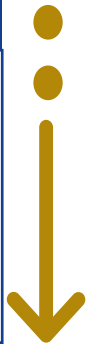
Law Enforcement

With the review of the Safety Strategy, the municipality has to adapt to the changing environment of crime in its area and actively pursued closer working relationships with SAPS, private security, neighbourhood watches active in the WC024 area to be able to make an impact. It is common knowledge that criminals become smarter and migrate from neighbourhood municipalities which means that the municipality has to think smarter to always be one step ahead.

The municipality has completed all 3 phases of the action plan as identified during the previous review. This includes the installation of License Plate Recognition cameras (LPR) at all the main entrances and exits to Stellenbosch and Franschhoek towns. These LPR cameras are supplemented with additional LPR cameras within residential areas which make it possible to track the direction of suspect vehicles

linked to crime picked up by these. The municipality continuously invests in CCTV to enhance safety. The municipality also has a CCTV Master Plan which is a ''living'' document and frequently updated based on needs identified concerning safety.

The focus of Law Enforcement



- Effective monitoring and surveillance of CCTV cameras;
- Zero tolerance approach towards petty crime - visible policing focussing on CBDs;
- Weekly operational planning with SAPS and safety partners;
- Amendment of the structure of Law Enforcement to accommodate identified needs;
- Provisions for the establishment of a Tactical Response Unit (TRU);
- Strengthening coordination of communication Strategies between neighbouring municipalities;
- Social Crime Prevention Strategies in conjunction with the Section: Community Development in terms of Council's Street People Policy and Social Justice SOP;
- Consult with the CWDM in terms of sharing of resources and information flow;
- Use of innovative technology to improve enforcement strategies;
- Compiling a security and safety camera master plan for WC024;
- Completion of the municipal control room – Joint Operating Centre (JOC);
- Issuing of radios to all neighbourhood watches to be able to communicate with and through the Stellenbosch Municipality control room (JOC);
- Provide training to Neighbourhood watches;
- Implementation of the externally funded law enforcement (Rent-a-Cop) policy;
- Implementation of the Reservist policy;
- Establishing a training agreement with the Stellenbosch University to train Peace Officers;
- Implementation of the community safety forum; and
- Acquiring LEAP officers to support facility protection plans.

6.3.8.1 Disaster Management

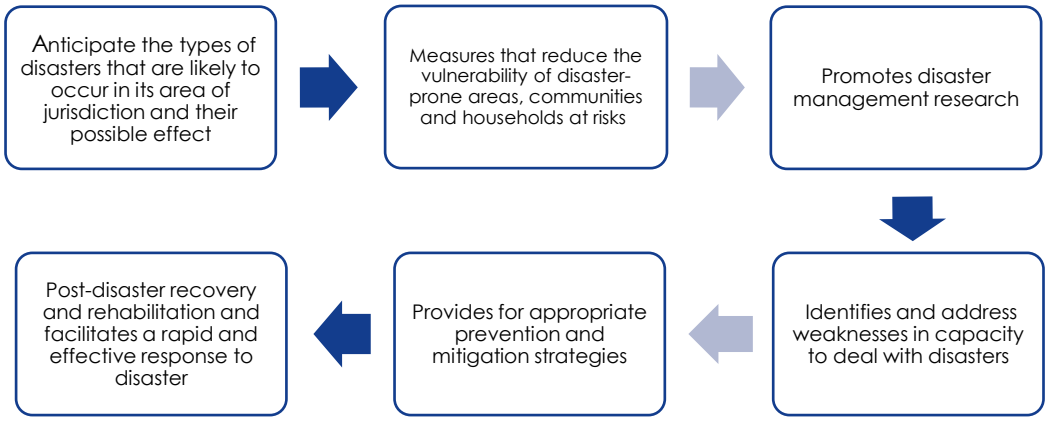
The National Disaster Management Centre (NDMC) provided a set of guidelines; developed in terms of section 19(a) of the Disaster Management Act, 2002 (Act No. 57 of 2002) (DMA) and section 3.6 of the National Disaster Management Framework, 2005 (NDMF) provides a uniform structure and checklist to organs of state to develop a Disaster Management Plan.

This plan confirms the arrangements for managing disaster risks and for preparing for – and responding to disasters within the Greater Stellenbosch Municipality as required by the Disaster Management Act.

SECTION 53(1) DISASTER MANAGEMENT ACT, 2002 (ACT NO. 57 OF 2002)
a) Prepare a disaster management plan for its area according to the circumstances prevailing in the area; b) Co - ordinate and align the implementation of its plan with those of other organs of state and institutional role-players; and c) Regularly review and updae its plan; and through appriopriate mechanisms, processes and procedures established in terms of Chapter 4 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) to consult the local community on the prepartation or amendment of its plan.

6.3.8.1.1 The purpose of the Stellenbosch Municipality Disaster Management

The purpose of Stellenbosch Municipality Disaster Management is to ensure coordination of multi-disciplinary and multi-sectorial risk reduction through the integrated institutional capacity for Disaster



Risk Management, Risk Assessment, Response and Recovery and implementation of measures aimed at:

- Preventing or reducing the risk of disasters;
- Mitigating the severity or consequences of disasters;
- Emergency preparedness;
- Rapid and effective response to disasters; and
- Post-disaster recovery and rehabilitation.

6.8.3.1.2 Annual review of the Disaster Management Plan

Cognisance must be taken that a risk profile changes over time, and it becomes necessary for the comprehensive Disaster Risk Assessment to be reviewed annually, and:

Figure 46: Annual review of the Disaster Management Plan

6.8.3.1.3 Risk assessment throughout WCO24

A comprehensive Disaster Risk Assessment for purposes of identifying all possible hazards that could impact the community and environment of Greater Stellenbosch was undertaken and completed. Currently, hazards identified that poses a risk to the WCO24 are listed in the table below.

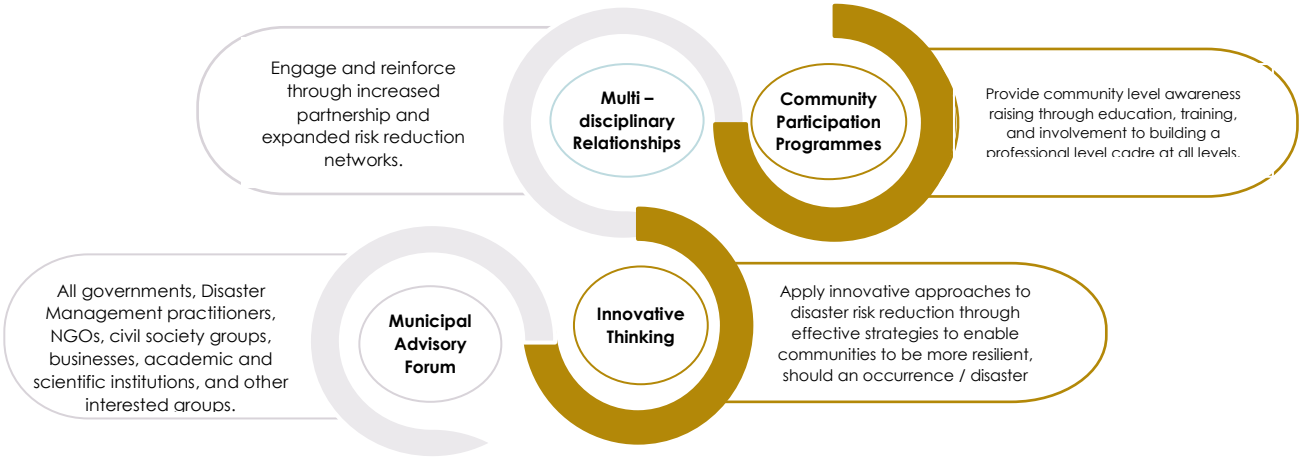


Table 35: Hazards identified

No.	Current hazards identified which posed a risk on the WCO24
1.	Aircraft accidents
2.	Alien invasive species
3.	Chemical spills: Hazmat
4.	Chlorine stations
5.	Climate change: (high / strong winds, severe heat / cold)
6.	Communicable disease: (Coronavirus)
7.	Crime
8.	Dam Wall Failure: Ida's Valley
9.	Drought
10.	Environmental pollution: (air, water, ground contamination, pesticides)
11.	Erosion
12.	Explosive storage: (fuel, gas)
13.	Fire – Veld and Runaway Fires
14.	Floods
15.	Gail force winds and thunderstorms
16.	General road accidents
17.	Hazardous material (Hazmat) road accident risk

No.	Current hazards identified which posed a risk on the WCO24
18.	Infrastructure Decay : No / dysfunctional infrastructure / service delivery (sewerage, toilets, grey water, electricity)
19.	Insufficient hydrants
20.	IT – Failure of system: Access to info
21.	Population density – informal areas
22.	Poverty
23.	Power failure
24.	Rock Falls
25.	Seismic: Earthquakes
26.	Strikes and Social conflict
27.	Structural decay
28.	Substance abuse
29.	Transport incidents (road, railway accidents)

6.8.3.1.4 Risk reduction strategies

Figure 47: Risk reduction strategies

The Key Elements of the 2022/23 programme include:

- Targeting communities at greatest risk from fire (people with disabilities, elderly etc.);
- Developing strong collaborations with individuals and community organisations;
- Conducting door-to-door visits (e.g. using home visitation programmes);
- Monitoring and evaluating the programme (site visits, surveys, data collection); and
- Annual simulation exercises conducted to evaluate and improve on an effective and efficient service delivery system.

The municipality engages at numerous platforms through partnering stakeholders to gain access to new resources, information, expertise and skills to facilitate service delivery.

6.3.9 Local Economic Development Strategy

Local Economic Development (LED) is not an explicit municipal function as defined in the Constitution of the Republic of South Africa, 1996. Instead, it is an obligation imposed on local government in terms of sections 152 and 153 of the Constitution that stipulates the objectives of local government are to promote social and economic development to strive, within its financial and administrative capacity.

Stellenbosch Municipality is thus legally compelled to promote social and economic development in its area of jurisdiction and should play the leading role in municipal sector planning.

The focus on individual economic sectors and spatial planning as the key focus areas, rather than on social and economic development results tends to delink economic growth benefits (increase in indicators like GDP, per capita income, etc.) into local economic development benefits (improvement in the life expectancy rate, infant mortality rate, literacy rate and poverty rate).

Local economic development is the means of systematic identification, development and utilisation of economic opportunity, to benefit local businesses and create opportunities for local communities to improve the lives of residents.

The growth of the informal economy reduces the demand for jobs while increasing the number of entrepreneurs and potential contributors to the private sector demand.

The health of the entire economy is important. The economy does not divide neatly into 'formal sector' and 'informal sector'. Rather, the different sectors, such as manufacturing, tourism, services, and construction, are on a continuum that has a more formal and a more informal end.

The great challenge to local government, in its support for economic development, is to enable job opportunities at different points along the continuum, while ensuring health and safety, orderly planning and management. All work, whether in the more formal or more informal ends of the continuum, have to be valued, especially when unemployment is high, and when there is a highly probable link between unemployment and crime. The numbers of people relying on the informal economy for work can and will increase and the formal economy struggles to grow and make meaningful progress in global markets.

Given the above, Local Economic Development is therefore a multi-stakeholder effort in support of creating economic opportunities for both the private sector and the local community.

6.3.9.1 Strategic approach

The strategic approach to LED in broad is to create economic opportunities for all citizens residing in the Stellenbosch Municipal area. However, the recent disruptive trends in the economy affected not only Stellenbosch but South Africa and the world as a whole. These economic shocks included the extended drought experienced and thereafter the COVID-19 pandemic. These events have highlighted the vulnerability of the society, the municipality's systems to deal with it as well the revenue streams of the municipality. The municipality needs to think and approach LED differently and as the "new normal "is here to stay, hence, the municipality with all the role players in society must review its strategy going forward to ensure the municipality build better resilience in its economy to deal with future shocks and ensure better livelihoods for all.

Lastly, technology changes especially connectivity is becoming more important for business and government to do business, this was highlighted by the lockdowns experience that forced the municipalities to work remotely.

The following ways of doing business must be seen within the context of the "new normal":

- To maximise prospects of sustained economic growth, stakeholders must be permitted to strengthen their competitiveness and collaboration within the local business environment. Networking, local government responsiveness to business needs, effective service delivery and business-oriented organisational structuring will be used to address this aspect;
- New business development or investment and expansion of existing businesses will be actively promoted, as the consequence of increased investment more often than not resulting in new jobs and local economic growth. Spatial development framework planning, the Integrated Zoning Scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect;
- It appears that the formal economy is rapidly becoming more informal, as seen in the increase in the number of occupational practices and businesses run from residential premises. The informal economy offers diverse opportunities for absorbing those who have lost their jobs, and for new entrants into the economy. The integrated zoning scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect;
- Create an enabling environment. An enabling environment refers to "a set of policies, institutions, support services and other conditions that collectively improve or create a general business setting where enterprises and business activities can start, develop and thrive." Spatial Development Framework planning, the integrated zoning scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect; and
- The formal and informal parts of the economy are mutually interdependent. The good health of one depends on the good health of the other. It is difficult to promote the growth of smaller enterprises if the overall rate of economic growth is slow. Dedicated networking projects to create opportunities for the informal economy to contribute to the demands of the formal economy will be used to address this aspect.

6.3.10 Community Development Strategy

Moreover, Schedule 4b and 5b lists the functions of local government to include the following which has relevance to the community development functions:

- Child care facilities;
- Building regulations (with reference to SANS 10400S);
- Municipal Planning (with reference to ECD registration applications and provision to be made for social infrastructure inclusive of education and health services);
- Municipal public works (accessibility);
- Local amenities (with reference to the contribution to social development);
- Local sport fields (with reference to the contribution to social development);
- Municipal parks and recreation (with reference to the contribution to social development); and
- Municipal roads (accessibility).

The White Paper on Local Government (1998:23-26) identifies four interrelated characteristics of the role and function of Local Government related to community development:

- Maximising social development and economic growth: The role and function of the Local Government are to promote the development of communities so that the basic needs of the poor and vulnerable are met. It involves regulation of service delivery. This means that the Local Government is not directly responsible for services, but rather to take steps (i.e. strategies) to encourage good service delivery that addresses the specific needs of the specific community. It could therefore be viewed as a facilitation role. Partnerships between organisations could be encouraged, training opportunities could be provided and facilities could be developed to support existing service providers in the community;
- Integrating and coordinating: Coordination should include national and provincial departments, trade unions, community groups and private sector institutions. "Developmental Local Government must provide a vision and leadership for all those who have a role to play in achieving local prosperity." An IDP could contribute to proper coordination;
- Democratising Development: Local Government practices should be aimed at the involvement of "…citizens and community groups in the design and delivery of municipal programmes".

Coordination should lead to democratic "…leadership, encouragement, practical support and resources for community action". Another key aspect is that democratic development should aim to involve all community groups; and

- Leading and learning: Community development should lead to networks, partnerships, and coalitions. To this extent, a Memorandum of Understanding (MOU) was signed with DSD.
- It includes training opportunities and awareness programmes. The ultimate aim is to empower communities and to create opportunities for sustainable change and growth. The emphasis is therefore on capacity building within communities.

The above characteristics are aimed at the improvement of service delivery within the constraints of available resources. As mentioned before, partnerships with businesses and Non-profit Organisations (NGOs) becomes a key aspect of this developmental model (White Paper on Local Government, 1998:35). These services are aimed at specific vulnerable groups and social issues also highlighted in policy documents.

Further to the above, the department gives effect to the strategic goal of Dignified Living in the IDP of Stellenbosch Municipality through:

- The implementation of critical key performance areas and processes associated with the creation of a conducive environment for community / social development forging relations with international, national, provincial and local stakeholders and the generation of current social data; and
- The development of six vulnerable groups (youth, gender, children, elderly, people living on the street, people living with disability) within the municipal area through strategy and policy development and monitoring and reporting on the intended goals of the department's key performance areas.

6.3.11 Human Resource Strategy

High quality and a responsive Stellenbosch Municipality, with a focus on skills identification, supply, demand, retention, employability and social mobility, is essential if the municipality is to realise its IDP ambitions. As such Stellenbosch Municipality needs to be pre-emptive in terms of its human resource requirements and more responsive to service delivery improvement and best practice. The strategic role of Human Resource Management and Development (HRM&D) is ultimately to facilitate performance improvement through people. The table below provides a clarification of roles and involves the following:

- Understanding the business environment within which HRM&D operates;
- Partnering with management in effective people practices;
- Enabling change and transition;
- Engaging constructively with internal and external stakeholders' groups; and
- Delivering on service level commitments.

Table 39: Clarifying the role of HRM&D vis-à-vis Manager and employees

HRM	Line Managers	Employees
• Develops HRM&D strategies, principles, policies and procedures in line with business requirements. • Ensures consistency and standardisation of processes and practices across the municipality. • Provides expert advisory services. • Ensure application of appropriate best practice HRM&D service. • Partners line management in effective people practices • Enables change and transition. • Facilitates assimilation of culture and values. • Build capacity of line managers to effectively manage people. • Ensure good corporate governance around HRM&D practices. • Delivers on service level agreements. • Measures and reports on the effectiveness of HRM&D services within municipality. • Interaction and negotiations with trade unions and feedback.	• Partners with HRM&D in developing and implementing HRM&D strategies to achieve results. • Manage people according HRM&D principles, policies and procedures. • Complies with HRM&D legal requirements. • Proactively engages and partners with HRM&D around business and people challenges and solutions. • Initiate and leads change. • Drives the organisational values. • Takes responsibility for being informed of HRM&D matters and building own people management skills. • Follows fair and procedural HRM&D practices and processes. • Ensures high performance through effective performance management and retention practices. • Communicates and gives feedback on service level expectations. • Tracks and measures the impact of HRM&D strategies in functional areas. • Measure and reports on the effectiveness of people management within functional areas.	• Partners with line and HRM&D to: • Remain relevant to local; government by taking responsibility for own performance development and career planning; • Taking advantage for appropriate opportunities for development; • Remain informed of HRM&D policy and procedure; • Discuss expectations; • Take personal accountability for and support change initiatives; • Live the organisational values; • Participate in HRM&D surveys and feedback mechanisms; and • Provides feedback to / and liaises with Unions and relevant employee forums.

This HRM&D Framework provides Stellenbosch Municipality with the structure to plan, implement, monitor and improve its HRM&D standards. This framework does not operate in isolation and will be central to all activities involving the human resources of Stellenbosch Municipality. It is, therefore, not an HR document but must be "owned" by Council, management, staff and trade unions. Since the field of HR management is a dynamic discipline, it is envisaged that this framework will change and develop over time to reflect the realities of the municipality's environment.

Table 40: Key Strategies

Strategic Focus Area (SFA)	Key strategies	Alignment with HR Standards
SFA 1: Valley of Possibility	Ensuring that infrastructure and services planning and resourcing occurs over the long term in a sustainable manner, and draws on the expertise of other service delivery agencies, the private sector, and the University.	Strategic HR Management.
SFA 2: A Green and Sustainable Valley	Focusing more strongly on the environmental planning and management function, including appropriate resourcing.	Strategic HR Management. Talent Management. Learning and Development.
SFA3: A Safe Valley	Securing adequate permanently employed HR, facilities and equipment (specifically fleet) to undertake the specialist functions of traffic management, fire and rescue services, and disaster and event management on a 24/7 basis and to comply with legal standards. Establishing adequate, integrated law enforcement capacity, present in every ward of the municipality.	Strategic HR Management. Learning and Development.
SFA 4: Dignified Living	Ensuring the delivery of a comprehensive range of services to vulnerable groups, and the coordinated cooperation of service providers at all levels in the delivery and management of services to these groups	Learning and Development.
SFA 5: Good Governance and Compliance	Ensuring that functional areas have the capacity and readiness to deliver services in terms of short-, medium- and longer-term objectives and targets. Ensuring that all staff has the opportunity for leadership development within their functional areas, and municipal management generally. Ensuring regular performance management of staff at all levels within the organisation. Undertaking strategic planning for the longer and shorter terms, the municipality as a whole, and local areas Implementing regular auditing of processes. Celebrating excellence in service delivery, external and internal to the municipality. Renewing intergovernmental efforts to establish a municipal court in Stellenbosch.	Strategic HR Management. Talent Management. Learning and Development. Performance Management/ Reward and Recognition. Strategic HR Management. HR Risk Management. Reward and Recognition. Talent Management.

6.3.12 ICT Strategy

6.3.12.1 Background

Information and Communication Technology (ICT) Systems and Services are playing an ever-increasing role as a strategic enabler of organisational transformation and service delivery in the public sector. There is also a growing acknowledgement at corporate governance level that ICT services and systems form an integral part of the municipal service delivery value chain.

The continuous alignment of ICT services and systems with the strategic goals and objectives of the municipality, as well as statements of direction from National Government and the Western Cape Provincial Government impose major challenges on the Department: ICT and its resources.

This document aims to articulate and describe changes in the Stellenbosch Municipality's ICT Strategy with the view to ensure alignment with the Stellenbosch Municipality's Strategy. Emphasis is placed on identifying the municipality's new requirements and opportunities for Information and Communication Technology to move towards meeting the ICT related requirements of the municipality and management.

The successful implementation of the municipality's IDP and the achievement of its strategic objectives are highly dependent on a number of critical enabling resources to be managed effectively to support the IDP, including finances, human resources and information technology.

The achievement of the strategic objectives of the municipality's IDP is indirectly dependent on various information technology services, without which the core and supporting functions of the municipality will not be able to operate. The vital ICT related services include:

- Provisioning of the Municipal Financial Management and Payroll Management software applications;
- Hosting of the Municipal Web-site;
- E-mail and internet services;
- Data storage;
- Data recovery;
- ICT planning;
- Provisioning of network, wireless networks and telephony services;
- End-user support for the ICT environment;
- Disaster Recovery Management;
- Business Continuity;
- ICT Risk Management;
- ICT Contract Management; and
- Public Wi-Fi.

6.3.12.2 The Mission and Vision of ICT

ICT's mission is to provide ICT infrastructure and ICT business systems solutions that will assist the Stellenbosch Municipality to deliver sustainable services that are operationally efficient and cost effective to all its stakeholders and communities which includes:

- Cost effective solutions;
- Quality Service Delivery;
- Ongoing performance monitoring; and
- Aligned to business processes.

The vision of the ICT Department is to be a trusted and reliable Information and Communication Technology partner to support the Stellenbosch Municipality management and end-users to achieve their objectives.

6.3.12.3 Success Factors to Adopt in getting closer to the community

The Department: ICT will continue to strive in achieving its goals to close the gap between the municipality and the community by improving services and engagement. These goals include:

- Understanding the needs of the community;
- Always deliver a consistent and quality service; and
- Manage the relationships with vendors and stakeholders providing a service to the public.

CHAPTER 7:

Council Term Projects 2022 – 2027

7.1 Smart City

As cities compete for global investment and talent, efficient cities with less red tape barriers, ICT competitiveness comes centre stage. A smart city is adaptable to change and demands that emanate from growth, and in response applies information and communication technologies to enhance performance and urban services to respond to demand whilst reducing consumption, waste and costs. Smart cities need to capitalise on digital technology to facilitate speed of information to support more efficient delivery of goods and service and contribute to the greater vibrancy of cities.

A **smart city** is a municipality that uses information and communication technologies to increase operational efficiency, share information with the public and improve both the quality of government services and citizen welfare.

7.1.1 Guiding principles to create inclusive smart cities

For a smart city to be inclusive, it should adhere to six interdependent principles. The principles provide guidance when decisions have to be made regarding the identification, planning and implementation of smart initiatives and technologies.

Decisions on the nature and purpose of a smart initiative or technology should be guided by the following principles:

1. It should be smart for all;
2. It should use technology as an enabler rather than a driver;
3. It should be shaped by, and respond to, the local context;
4. It should be informed by the real needs of the community;
5. It should embrace innovation, partnership and collaboration; and
6. It should be sustainable, resilient and safe.

7.1.2 A smart city as a holistic ecosystem

Global best practices recommend three primary categories when determining the benefits and priorities for the design and implementation of the smart city roadmap. The smart city roadmap includes the following:

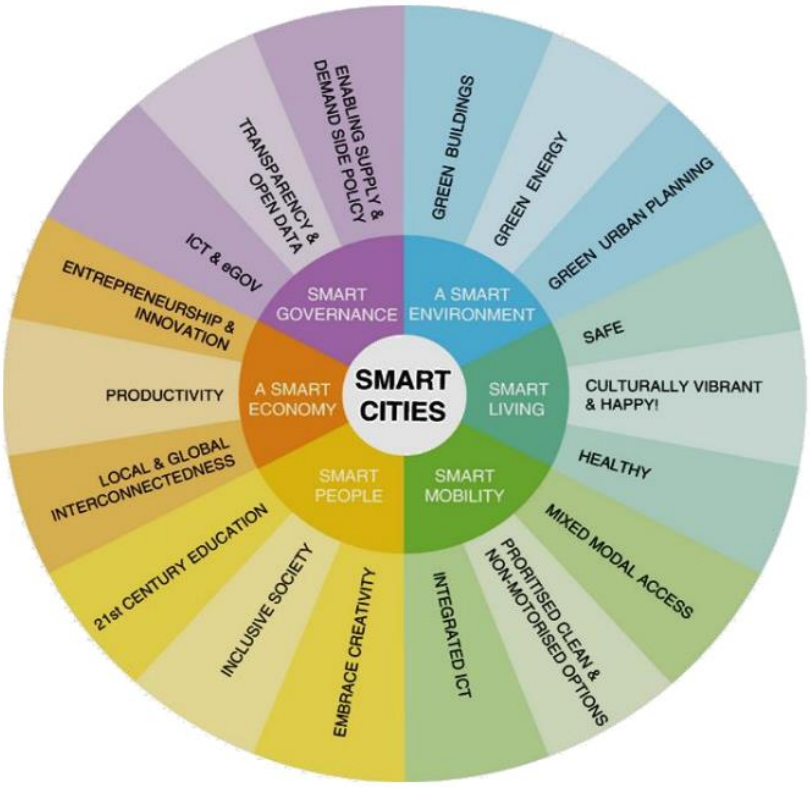
Smart Governance

Transform the institutional systems, processes and organisational structure to one of high-performance organisation to effectively deliver basic services.

Smart Livelihood

Implementation and integration of innovative digital platforms to enable social upliftment.

Smart Economy



Grow and diversify the local economy through the attraction of new investment, skills development and facilitation of an enabling environment for small business growth and job creation.

7.1.3 The nature and purpose of a proposed smart city initiative

With the implementation of smart city initiatives, it should be guided by a clear understanding of the nature and purpose of the proposed interventions. These initiatives could be focussed on benefitting different target services in municipal driven smart city initiatives, addressing the needs of the entire city (municipal area). Smart City initiatives should be aimed at improving the lives of the people residing in the city, especially on the different services that are delivered to the residents in the municipal area.

Smart city initiatives can by placed within a specific smart city theme, the figure below indicates the different smart city themes:

Figure 48: Smart City components and initiatives

Source: A South African Smart Cities Framework

Realising the goal and implementation of smart city initiatives will need collaboration of internal and external stakeholders. Within the next five-years (2022 – 2027) Stellenbosch Municipality will place emphasis on Smart Governance with the focus on E- governance. The aim is to formulate a Smart City Framework for approval by Council in the 2023/24 financial year.

The purpose of the Smart City Framework will be to guide decision – making and provide internal stakeholders with a structured framework when identifying, planning and implementing the smart city initiatives which are appropriate to the theme of Smart Governance.

The legacy projects will be undertaken by the administration and political leadership, which will remain applicable for the duration of the political term under leadership of the Executive Mayor and respective portfolios of the Mayoral Committee Members.

7.2 Political Leadership: Five – Year Plans

7.2.1 Executive Mayor

In developing the 5th Generation IDP 2022 – 2027, the Stellenbosch Municipality ensured for proper alignment and integration with the IDP, Budget, SDF and sector plans. There is no fundamental shift on the outstanding projects / programmes and initiatives that was planned in the 4th Generation IDP 2017 – 2022. All outstanding plans have been taken into consideration for the new strategic document.

The 5th Generation IDP 2022 – 2027 will be the Municipality's road map for the next five years, with the focus on the implementation of projects / programmes and initiatives. It is an exciting journey in working together with the administration, communities, and other spheres of government in making greater Stellenbosch a valley of opportunity . In order for this to happen, the following mayoral outcomes for the period 2022 – 2027 have been set:

Mayoral Outcome 1: Clean, accountable and responsive local government;

Mayoral Outcome 2: Outcome 2: Excellent service delivery in all areas within the Greater Stellenbosch Municipal Area;

Mayoral Outcome 3: LED post the COVID-19 Pandemic and transfer of land to new farmers;

Mayoral Outcome 4: Provide housing opportunities for all residents in all housing categories (rental stock, BNG, GAP housing, upgrade of informal settlements and mixed-use developments);

Mayoral Outcome 5: Development of the Adam Tas Corridor and town establishment of all ten dorpies across the municipality area;

Mayoral Outcome 6: Streamline planning systems and procedures to facilitate desirable growth;

Mayoral Outcome 7: To create safer environments in our communities;

Mayoral Outcome 8: Expansion of the green economy with innovative projects, creating a new reality of service delivery and job creation;

Mayoral Outcome 9: Alternative Energy.

7.2.1.1 Mayoral Outcome 1: Clean, accountable and responsive local government

7.3 Mayoral Portfolios

The mayoral portfolios are an instrument to assist the Executive Mayor in achieving the mayoral outcomes for the period 2022-2027. In support of the mayoral outcomes, each portfolio have set performance based strategic priorities that are aligned and will give effect to the mayoral outcomes. The performance based strategic priorities for the 5th Generation IDP 2022 – 2027, have a focused approached on the implementation of the strategic projects/ programmes and initiatives with set targets and time frames.

The following portfolio performance-based implementation plans are listed below:

1. Portfolio: Human Settlements;
2. Portfolio: Rural Management;
3. Portfolio: Youth, Sport and Culture;
4. Portfolio: Planning;
5. Portfolio: Local Economic Development;
6. Portfolio: Financial Services;
7. Portfolio: Protection Services;
8. Portfolio: Corporate Services;
9. Portfolio: Infrastructure Services; and
10. Portfolio: Community Development (Parks, Open Spaces and Environment).

7.3.1 Portfolio: Human Settlements

CHAPTER 8:

Public Interest and Expression of Needs

8.1 Community Participation

Chapter 4 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) requires municipalities to create a culture of community participation. According to section 16(1)(a)(i) of the MSA, "A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in the preparation, implementation and review of its integrated development plan in terms of Chapter 5". It is therefore essential to have effective public participation structures in place.

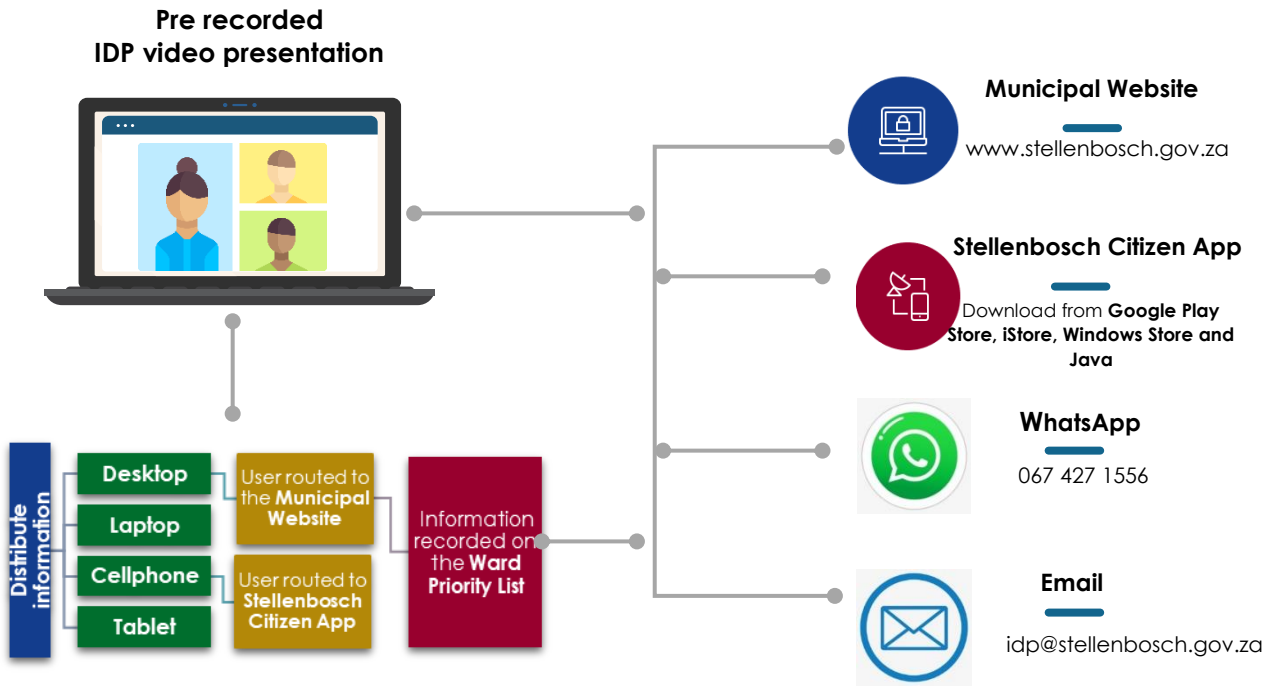
The SDF, IDP, Budget, Sector Plans as well as major municipal policies, by-laws and decisions should be engaged to ensure that they are designed and implemented for and with the community. This also adds to the credibility of the needs reflected in the IDP, the Budget calculated in addressing these needs and the SDBIP drafted in implementing programmes and projects which reflects the communities' needs.

In the spirit of the commitment made by the municipality's Executive Mayor (Cllr Adv Gesie van Deventer) and our Municipal Manager (Ms Geraldine Mettler) the Stellenbosch Municipality's methodology has been adjusted with regards to public participation processes for November 2021 – January 2022 to respond appropriately to the health threat posed by COVID-19 and the national disaster regulations. We are therefore confident that this goal was accomplished.

The growing trend of mature and constructive discussions from the public, the level of complexity and the investment made in understanding the municipality's business is encouraging. The direct participation and involvement of the ward councillors, communities and stakeholders in the identification of ward-based priorities and their involvement in the public participation process has added great value to the maturity and quality of the discussions between the public and the municipality. Ward Councillors are a critical link in connecting the municipality with the public. As members in Council, and recipients of all the decisions taken by Council, it positions Councillors strategically to ensure that the municipality not only understand the needs of the community better, but also to provide the public with honest and accurate feedback of the municipality's initiatives. These endeavours are supported by well-functioning Ward Committees. Councillors are, however, encouraged to always adhere to the code of ethics for Councillors and to always act with the utmost integrity and accountability toward their constituents and the municipality, as this is the only way in which to form a responsible local government.

Public participation takes place through various means and platforms and is often tailored to suit a specific audience or community. Importantly, communities from different socio-economic backgrounds use different platforms to communicate. It is important to cater for all scenarios and to utilise all available platforms to its optimum potential, given that a certain degree of apathy exists in certain communities.

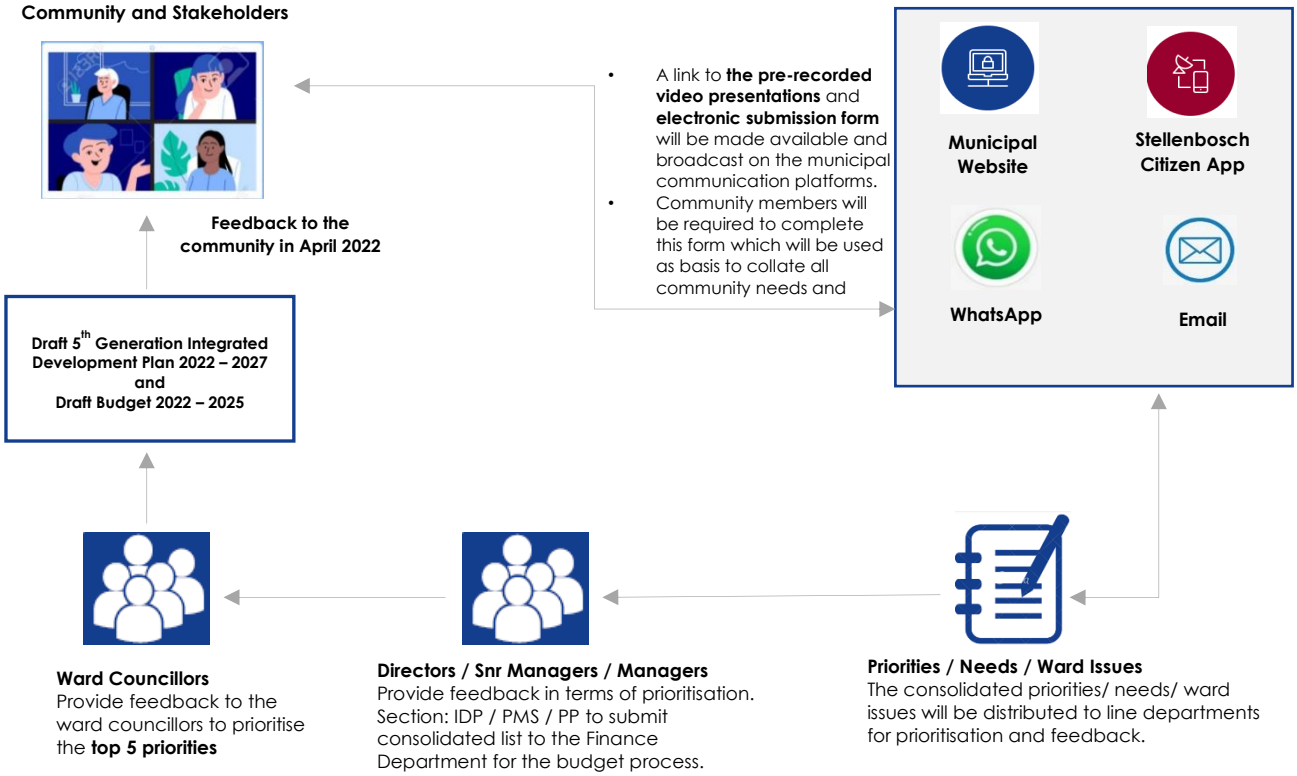
The maturity level that public participation process has achieved during the COVID -19 pandemic, has reached new heights from both the community members and the administration. Further feedback will be provided on the comments captured on written submissions made via the various platforms created for public participation. To ensure that the public participation process is a



two-way process, all comments have been carefully considered and discussed with internal departments.

8.2 Public Participation in the drafting of the 5th Generation IDP 2022 – 2027

The adjusted methodology used for public participation from **29 November 2021 until 12 January 2022** during the analysis phase to determine the needs of the community in developing the 5th Generation IDP 2022 – 2027, Stellenbosch Municipality has embarked on the following approach.

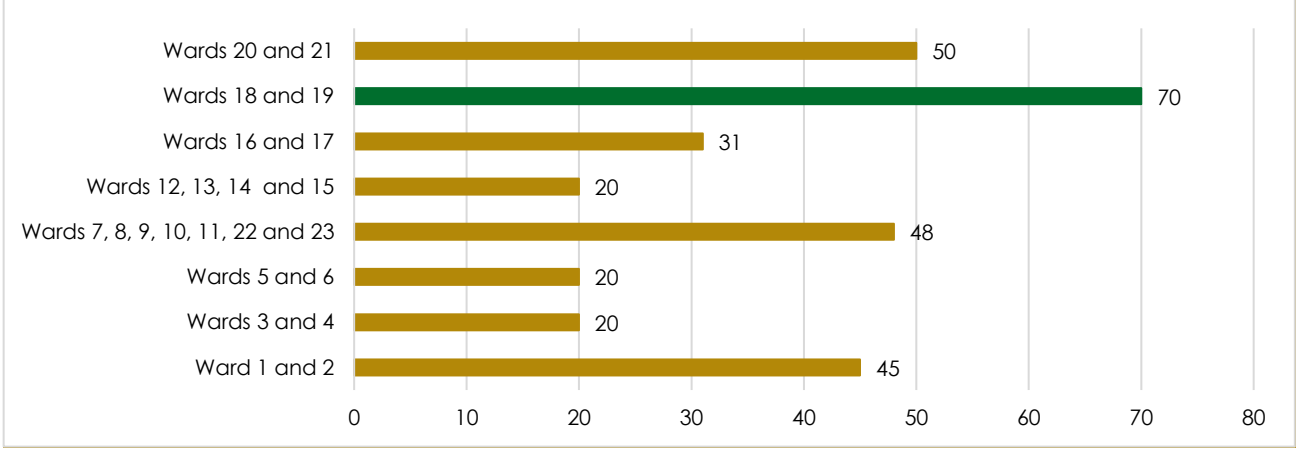


A notice was published in the local newspaper and on the municipal website to announce the start of the public participation process for the development of the 5th Generation IDP 2022 – 2027. At the start of the process a link to **pre-recorded IDP video presentations** and an **electronic submission form** was made available on the municipal website, the Stellenbosch Citizen App, broadcast via WhatsApp, Facebook, the municipal Youtube channel and email. The process flow below indicates the public participation approached followed.

Figure 49: IDP Public Participation Approach – November 2021

The electronic submission form made available on the various platforms created for the purpose of public participation, followed the process below:

Figure 50: Process Flow for electronic submissions

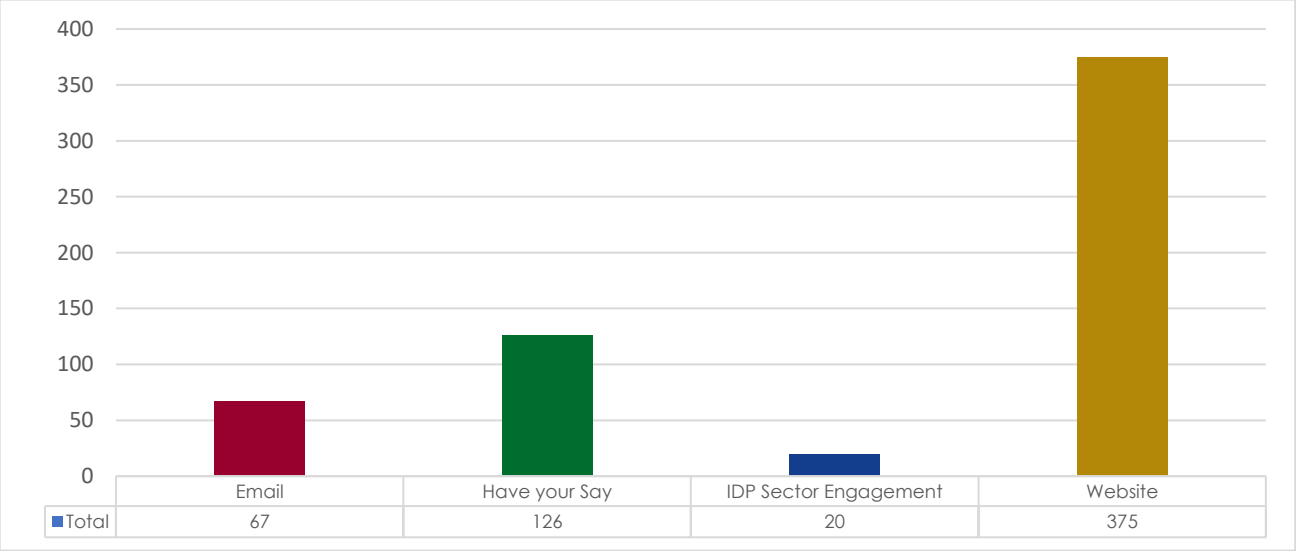


8.3 IDP Pre -Recording Video Presentations

A total of eight (8) IDP Pre – recorded video presentations were published on the Stellenbosch municipal Youtube Channel to view. The pre – recorded video presentation provided feedback on projects / initiatives and programmes undertaken during the 4th Generation IDP 2017 – 2022, but also encouraged community members and stakeholders to submit their inputs and needs for the drafting of the 5th Generation IDP 2022 – 2027.

The graph below indicates the number of views on the Youtube channel per pre – recorded video presentation.

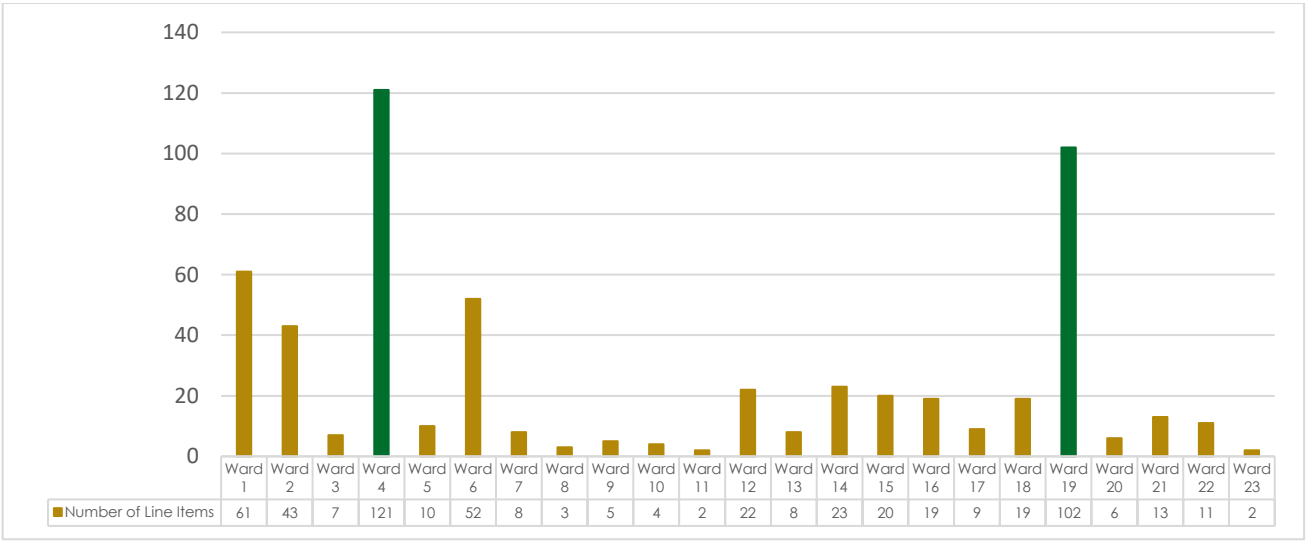
Graph 18: Number of views per pre – recorded video presentation



Wards 18 and 19 with a total number of **70 views** had the most views, followed by Wards 7, 8, 9, 10, 11, 22 and 23 with **48 views**.

8.4 Public Participation Statistics: November 2021 – January 2022

The graphs below graphs indicates the number of electronic submissions received on the various communication platforms.

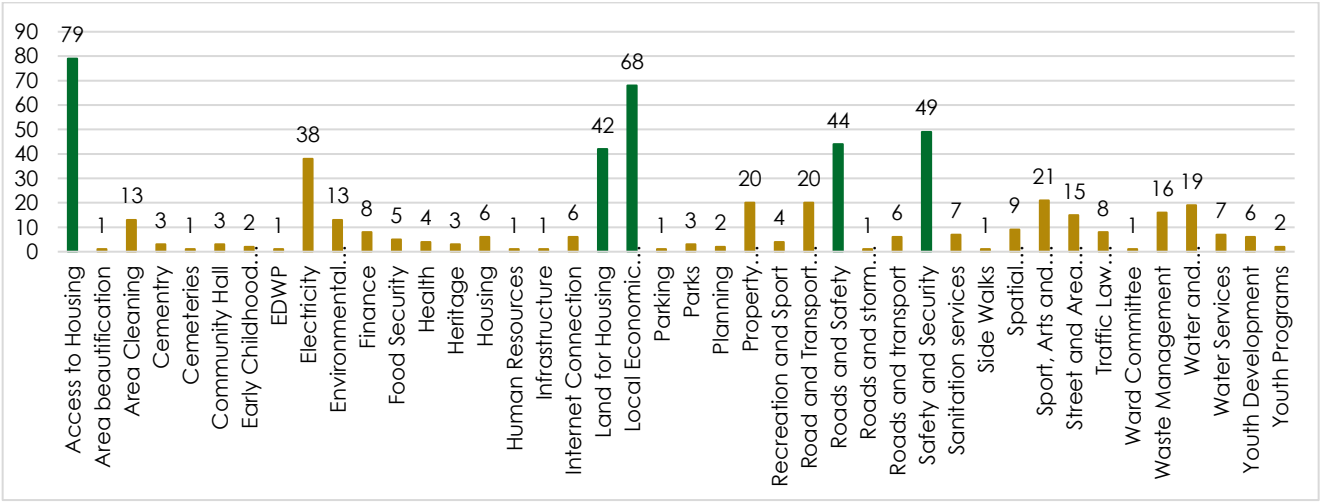


Graph 19: Total number of individual electronic submissions per platform (Nov 2021 – Jan 2022)

As noted from the graph above, the electronic form which was made available on the municipal website, WhatsApp and the Stellenbosch Citizen App was the most popular platform used by the community and stakeholders to submit their needs and priorities. A total of **375** electronic submissions were received via the electronic form on the municipal website, with 'Have Your Say' written submissions as the second popular platform.

The graph (green bars) below indicates that **Ward 4** and **Ward 19** have the highest number of line items / inputs per ward received and capture during the public participation period from 29 November 2021 until 12 January 2022.

Graph 20: Total number of line items per ward (Nov 2021 – Jan 2022)



8.5 Summary of Needs and Priorities

The graph below present a summary of the key priorities and needs raised by communities during the public participation period from 29 November 2021 – 12 January 2022. It also depicts the **top 5 priorities** identified for WCO24 by community members and range as follows:

1. Access to Housing;
2. Local Economic Development;
3. Safety and Security;
4. Roads and Safety; and
5. Land for housing.

Graph 21: Number of community inputs per priority area

The table below indicates which priority areas were raised in the different wards:

Table 62: Priority areas per Ward

Community Need / Priority	Wards
Access to Housing	1,2,3,4,6,10,12,14,15,16,17,18,19,20,22,23

Youth Development	6,5, 12,16,19

8.6 Online IDP and BUDGET Public Participation Engagements: April 2022

Stellenbosch Municipality held online public participation meetings. The Stellenbosch Municipality encouraged and invited all members of the public, to participate in the IDP and Budget public participation process to comment on the draft 5th Generation Integrated Development Plan 2022 – 2027 and Medium-Term Revenue and Expenditure Framework 2022 – 2025 (Draft Budget). The public participation period were between 04 – 28 April 2022.

For the community to provide inputs and comments on the Draft 5th Generation IDP 2022 – 2027 and Medium-Term Revenue and Expenditure Framework 2022 – 2025 (Draft Budget), the following mechanisms, processes and procedures for public participation was approved by Council:

- Live MS Teams meeting question and answer section;
- Municipal Website: www.stellenbosch.gov.za;
- Stellenbosch Citizen App: Download from Google Play Store, iStore, Windows Store and Java;
- WhatsApp: 067 427 1556; and
- Email: idp@stellenbosch.gov.za
- Hard copies of the submission form will also be available at all libraries and ward offices during normal office hours.

Should the community wanted to submit their inputs verbally during the online public participation meeting, the community members were requested to reserve their place as the MS Teams platform can only allow 250 participants in the meetings. Members of the community were allowed to register using the following link: **idp@stellenbosch.gov.za / WhatsApp: 067 427 1556**

CHAPTER 9:

Financial Plan

To achieve delivery on the 5th Generation IDP strategic focus areas and objectives, it is essential to align the municipal budget with the strategy. The sections below expand on aspects of the Stellenbosch Municipality's medium-term financial planning and the extent to which it is possible to align the budget to all the priorities of the wards, given our financial constraints and the need to concentrate on basic service delivery.

9.1 Introduction

The long-term financial viability of municipalities depends largely on:

- the extent to which improved and sustainable revenue capacity can be achieved; and
- the sound **financial management of its resources.**

These imperatives necessitate proper multi-year financial planning. Future impacts of revenue and expenditure streams and the financial implications for the community (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programmes, projects and sundry service delivery actions.

9.2 Capital and Operating Budget Estimates

9.2.1 Budget Assumptions

The selected key assumptions relating to this budget are as follows:

- Government grants for the years 2022/23 to 2024/25 are as per the Division of Revenue Act and Provincial Gazette (capital and operational); and
- The inflation **rate has been estimated at 4.8% for 2022/23.**

9.2.2 Operating Budget Estimates

A municipality is a non-profit organisation and it should break even after contributing to the different funds and reserves and meeting normal operating expenses. With the structuring of rates and tariffs, both the user-pay principle and the full cost recovery principle are applied. It should be noted that the surplus is calculated in terms of the accrual principle and therefore is not 100% cash-backed.

Table 87: Operating Budget Estimates

9.3 Financial Management Arrangements

For the effective and efficient financial management of the municipality, all role-players, inclusive of the municipal councillors, must provide an environment conducive to good management. Local government legislation and National Treasury circulars articulate and provide regulatory structure. Council and officials define this environment by developing and accepting policy guidelines to govern financial decision-making and fiscal discipline.

The management arrangements of Stellenbosch Municipality are reflected in the policy documents listed in the table below:

Table 89: Management Arrangements

Document	Purpose	Status
Delegation Register	To provide for administrative, managerial and institutional arrangements in respect of the delegation of responsibilities.	In place
Credit Control and Debt Collection Policy	• To establish consolidated, sound and practically executable credit control measures to be applied in respect of all property owners and consumers. • To regulate the actions about arrear accounts, including extensions granted, written arrangements to pay-off arrears, the monitoring thereof and legal actions associated with unpaid accounts.	In place
Indigent Policy	To subsidise indigent households with a specified level of income enabling them to pay for a basic package of municipal services.	In place
Irrecoverable Debt Policy	To provide a framework for the writing off of irrecoverable debt, to ensure that Council is in a position where it is not carrying debt that has been prescribed or which is irrecoverable on its books.	In place
Tariff Policy	To provide a framework to determine rates and tariffs to finance expenditure.	In place
Rates Policy	To ensure that all the stipulations of the Municipal Property Rates Act are effected administratively and also lay-out and stipulate all the requirements for rebates for all qualifying property owners.	In place
Special Rating Areas Policy	To strike an appropriate balance between facilitating self/funded community initiatives that aim to improve and/or upgrade neighbourhoods.	In place
Supply Chain Management Policy	To provide a system of procurement that gives effect to the principles of: Fairness; Equity; Transparency; Competitiveness; and Cost-effectiveness.	In place
Budget Implementation and Monitoring Policy	• Sets out the budgeting principles that Stellenbosch Municipality will follow in preparing each annual budget. • To give effect to the requirements and stipulations of the Municipal Finance Management Act (MFMA) and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets.	In place

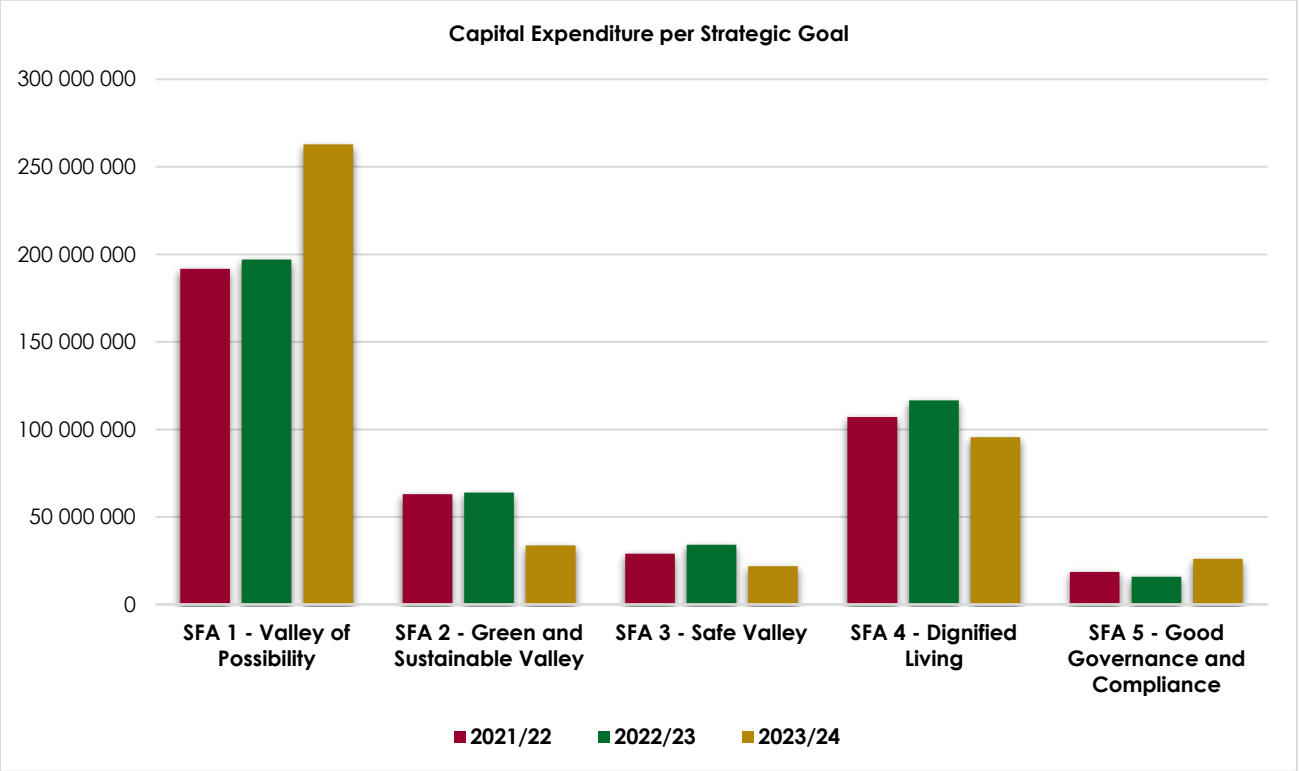
Document	Purpose	Status
Borrowing, Funding and Reserves Policy	To provide a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year non-cash-backed liabilities.	In place
Cash Management and Investment Policy	To regulate and provide directives in respect of the investment of funds and to maximise returns from authorised investments, consistent with the primary objective of minimising risk.	In place
Travel and Subsistence Policy	To set out the basis for the payment of subsistence, travel allowance, and hourly rate when applying for official travelling.	In place
Accounting Policy	To provide the accounting framework applicable to the finances of the municipality and is informed by the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003).	In place
Grant-in-aid Policy	To provide the framework for grants-in-aid to NGOs, CBOs or NPOs and bodies that are used by the government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the MFMA	In place
Development Contributions for Bulk Engineering Services	• Local government has the discretionary power when granting development approvals to impose conditions about the provision of engineering services and the payment of money that is directly related to requirements resulting from those approvals in respect of the provision of the necessary services to the land to be developed. • To provide the framework for the calculation of these contributions.	In place
Petty Cash Policy	To stipulate clear processes and procedures to ensure that all transactions are processed effectively and efficiently in a bid to ensure prudent financial control. All purchases below R2 000 are regulated by this policy.	In place
Asset Management Policy	The Municipal Manager as Accounting Officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.	In place
Liquidity Policy	The documented policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to ensure that its current and future liquidity position is managed prudently.	In place
Virement Policy	The policy sets out the virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year.	In place

9.4 Financial Strategies and Programmes

The optimal use of available resources, the maximum raising of revenue and the sustainable delivery of services are the key elements to a successful financial strategy. The municipality has developed and implemented various strategies in this regard. The table below summarises the key strategies:

Table 90: Key Financial Strategies

Strategy	Currently in Place
Financial viability and sustainability through long term financial planning	• Long term financial planning tool effective implementation and monitoring.
COVID-19 Policy Initiatives and Incentives to enhance vaccinations	• Revise budget and related policies
Clean Audit	• Audit Action Plan • Annual Financial Statement compilation standard operating procedure • Monthly Reconciliations • Training Sessions • Participation in Forums
Staffing	• Revise Organogram • Fill critical vacancies
Capital expenditure	• Implementation of Project Management System including in-year reporting
Revenue Enhancement Strategy	• Implementation of Revenue Enhancement Strategy • Roll-out of WMD and Pre-payment Water Meters • Data cleansing • Validity of registered indigent households
Billing system enhancement	• Web-based billing system • Review Municipal Account Lay-out • Investigate payment methods
Debt management	• Debt Review Committee • Quarterly Report on Debt and Possible Debt to be written off



9.5 Medium – Term Capital Expenditure per Strategic Focus Area

The proposed capital expenditure per strategic focus area over the medium term is illustrated in the table below:

Table 91: Capital Expenditure per Strategic Focus Area

Strategic Goal	2022/23	2023/24	2024/25
SFA 1 - Valley of Possibility	191 730 912	197 000 000	262 808 033
SFA 2 - Green and Sustainable Valley	62 965 928	63 850 000	33 700 000
SFA 3 - Safe Valley	28 900 000	34 093 375	21 799 000
SFA 4 - Dignified Living	107 081 030	116 552 030	95 600 000
SFA 5 - Good Governance and Compliance	18 595 334	15 774 000	26 096 402

Figure 51: Capital Expenditure per Strategic Focus Area

Source: Capital Budget 2022/23

The most capital intensive strategic focus area is Valley of Possibility with an allocation of R191,7 million in the upcoming financial year, totaling R651,5 million over the MTREF. Water projects dominates this strategic objective receiving an investment of R46,5 million in 2022/23, and it is increasing over the outer years.

The second most capital intensive strategic focus area is Dignified Living, with a total allocation of R319,2 million for the duration of the MTREF. Project highlights include:

- Upgrade of WWTW Wemmershoek;
- Sewerpipe Replacement: Dorp Straat;
- Langrug Franschhoek Mooiwater Dam Rehab and Basic Services;
- Kayamandi: Zone O (±711 services);
- Kayamandi Town Centre; and
- Extension of Cemetery Infrastructure.

The Green and Sustainable Valley strategic focus area receives the 3rd highest capital investment with the total MTREF budget amounting to R160,5 million. Solid Waste Management takes centre stage as part of the broader Green and Sustainable Valley Strategy, for the expansion of the landfill site.

The municipality is also making a concerted effort to improve ICT infrastructure platforms, allocating R16,8 million for this purpose over the multi-year budget period.

9.6 Medium – Term Operational Expenditure

The proposed Operational Expenditure per Strategic Focus Area over the medium term is illustrated in the table below.

Table 92: Operational Expenditure per Strategic Focus Area

Operational Expenditure	2022/23	2023/24	2024/25
SFA 1 - Valley of Possibility	129 039 705	121 697 842	127 989 381
SFA 2 - Green and Sustainable Valley	9 202 266	9 592 357	9 966 451
SFA 3 - Safe Valley	6 675 544	6 983 403	7 316 457
SFA 4 - Dignified Living	738 564 142	765 714 934	810 631 830

CHAPTER 10:

Organisational Scorecard (5 – years)

The Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their strategic planning tool, the Integrated Development Plan (IDP). The SDBIP is a contract between Council, administration and the community. It gives effect to the IDP and budget of the municipality.

The municipal budget shall give effect to the Strategic Focus Areas as contained in the IDP. The Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) shall contain details on the execution of the budget and information on programmes and projects. Quarterly, half-yearly and annual performance reports must also be submitted to Council as a means to monitor the implementation of the predetermined objectives as contained in the IDP.

The SDBIP is a one – year detailed implementation plan which gives effect to the IDP and Budget of the municipality. It is a contract between the administration, Council and community expressing the goals and objectives set by Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis of measuring the performance in service delivery against end year targets and implementing budget.
Indicators developed for the Stellenbosch Municipality addresses the Strategic Focus Areas of the municipality. The municipality utilises the one-year TL SDBIP to ensure that it delivers of its service delivery mandate by indicating clear indicators and targets. These indicators also forms the basis of the performance plans of the Directors, hence, the Directors are being evaluated on the approved TL SDBIP indicators.

The **five** necessary components are:

- Monthly projections of revenue to be collected for each month;
- Monthly projections of expenditure (operating and capital) and revenue for each vote;
- Quarterly projections of service delivery targets and performance indicators;
- Ward information for expenditure and service delivery; and
- Detailed capital works plan broken down by ward over three years.

10.1 Five-Year Top-Level Service Delivery and Budget Implementation Plan (SDBIP)

The SDBIP gives effect to the Integrated Development Plan (IDP) and is essentially the management and implementation tool setting out the quarterly service delivery targets.

The Top Layer SDBIP include the main service delivery indicators of the municipality. The following table reflects the 5 Year Implementation Plan of the Integrated Development Plan:

The TL SDBIP must be approved by the Executive Mayor within 28 days after the adoption of the Municipal Budget, to be tabled in Council during May 2022.*

**TBC – Baseline cannot be determined at this stage, only at 30 June 2022.*

CHAPTER 11:

Implementation, Monitoring and Review (1 – year)

The Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their strategic planning tool, the Integrated Development Plan (IDP). The SDBIP is a contract between Council, administration and the community. It gives effect to the IDP and budget of the municipality.

The municipal budget shall give effect to the Strategic Focus Areas as contained in the IDP. The Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) shall contain details on the execution of the budget and information on programmes and projects. Quarterly, half-yearly and annual performance reports must also be submitted to Council as a means to monitor the implementation of the predetermined objectives as contained in the IDP.

The SDBIP is a one – year detailed implementation plan which gives effect to the IDP and Budget of the municipality. It is a contract between the administration, Council and community expressing the goals and objectives set by Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis of measuring the performance in service delivery against end year targets and implementing budget.

Indicators developed for the Stellenbosch Municipality addresses the Strategic Focus Areas of the municipality. The municipality utilises the one-year TL SDBIP to ensure that it delivers of its service delivery mandate by indicating clear indicators and targets. These indicators also forms the basis of the performance plans of the Directors, hence, the Directors are being evaluated on the approved TL SDBIP indicators.

The **five** necessary components are:

- Monthly projections of revenue to be collected for each month;
- Monthly projections of expenditure (operating and capital) and revenue for each vote;
- Quarterly projections of service delivery targets and performance indicators;
- Ward information for expenditure and service delivery; and
- Detailed capital works plan broken down by ward over three years.

***Note**: This Chapter, the one-year Municipal Scorecard, will be updated in accordance with the approved Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) 2022/23 during June 2022,* and **is subject to change**. *The TL SDBIP 2022/23 must be approved by the Executive Mayor within 28 days after the adoption of the Municipal Budget to be tabled in Council in May 2022.*

Draft 5th Generation Integrated Development Plan 2022 -2027 and Draft Budget 2022/23: Comments and Inputs: 4 - 28 April 2022													
Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
77	4	IDP - APR77	Whatsapp	Ralphton Adams	Road and Transport Services	Speed bumps in Johannesdal	Installation of Speed bumps in Johannesdal		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
78	4	IDP - APR78	Whatsapp	Ralphton Adams	Streetlights	The streetlights in Kylemore needs urgent attention. I have reported it several times and 5 months later it has not been fixed. It is almost winter and it is getting dark earlier. Please see this gets urgent attention.	Maintenace and replacement of streetlights in Kylemore		Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
79	4	IDP - APR79	Whatsapp	Ralphton Adams	Streetlights	Street lights at the y junction at Kerk street and Swart Street has not been working for a long time now and as winter approaching it's darker late in the mornings there was quite a few mugging cases been reported.			Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
80	4	IDP - APR80	Whatsapp	Ralphton Adams	Streetlights	The street lights in the y junction of Swart and Church Street hasn't been working for a long time. Lot of people have been mugged lately while waiting for taxis hope you would be so kind to look into this.	Maintenance and replacement of streetlights		Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
81	4	IDP - APR81	Email	Ralphton Adams	Law Enforcement	Warning signs to be erected as this will ultimately help the law enforcement officers to enforce the bylaws on these individuals. I have mentioned that everything that is illegal takes place at night at this space, from old men having sex with young girls to drugs to making fire in a public open space running the risk of a veldfire.	Visibility and help by law enforcement to stop illegal activities		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
82	4	IDP - APR82	Email	Ralphton Adams	Road and Transport Services	The spinning and dicing of cars up and down the road day and night is also unacceptable. We have small kids and very old pensioners living here.proper speed hump must be build to break the speed of these drunken drivers.(it still bother me that these people are allowed to drive under the influence alchohol and drugs in the presence of law enforcement.) Perhaps traffic must come on board and more roadblocks must be planned randomly in Kylemore	Construction of speed bumps and road blocks		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
83	4	IDP - APR83	Email	Ralphton Adams	Streetlights	The streetlight needs to fixed	Fixing and maintenance of streetlights		Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
84	4	IDP - APR84	Email	Ralphton Adams	CCTV Cameras	Tap into the cctv cameras of the farm directly opposite the school to help monitor and gather information on these matters?	Installation of CCTV Cameras		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
85	4	IDP - APR85	PP Meeting	Ralphton Adams	Road and Transport Services	Some roads only have sidewalks on the one side. Some roads have potholes in. What is being done about past IDP projects that have not been completed or addressed?	Upgrading, fixing, repaving and maintenance of roads	It has been added to a list again, looked at and cooperated. The departments will look at the list again. We have carried out work on the sidewalks and repaving of roads.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard

Draft 5th Generation Integrated Development Plan 2022 -2027 and Draft Budget 2022/23: Comments and Inputs: 4 - 28 April 2022													
Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
86	4	IDP - APR86	PP Meeting	Ralphton Adams	Streetlights	When will the lights be fixed on Kylemore?	Fixing and maintenance of streetlights	95 percent of the districts lights have been repaired. We are in the process to repair the remaining streetlights. We do not have a complete date yet. Eskom must still sign over the maintenance of streetlights to the municipality (formal takeover). Will give a detailed feedback regarding this as soon as possible.	Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
87	4	IDP - APR87	PP Meeting	Ralphton Adams	Road and Transport Services	The entrance of Kylemore has the same issue with gravel being washed into the road when it rains. Is there any plans to resolve this issue?	Upgrading, fixing, repaving and maintenance of roads	The entrance to Kylemore is a provincial road and the provincial government has authority of what occurs there. Therefore, we can engage the provincial government and see what we can do to resolve the issue. There are speculations of the upgrading of that intersection, so we will start working with the provincial government to see what is there to do and what options there are of upgrading that intersection.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
88	4	IDP - APR88	PP Meeting	Ralphton Adams	Electrical Services	The Electricity poles that are on the edge of the pavement, bordering being in the road, are there any plans to move these?	Moving of electricity poles.	Once we have completed the takeover of streetlights from Eskom, we will see if we will be able to move the streetlights in a position that the community would love and still provide the same lighting level. At the moment it is out of our control. We have signed the memorandum of agreement with the provincial municipality to have the jurisdiction to those roads.	Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
89	4	IDP - APR89	PP Meeting	Ralphton Adams	Streetlights	The streetlights previously repaired by Eskom have broken again, especially in Rooi Street. Any plans of resolving this.	Repairing and maintenance of street lights.	Once we have completed the takeover of streetlights from Eskom, we will see if we will be able to move the streetlights in a position that the community would love and still provide the same lighting level. At the moment it is out of our control. We have signed the memorandum of agreement with the provincial municipality to have the jurisdiction to those roads.	Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
90	4	IDP - APR90	PP Meeting	Ralphton Adams	Electrical Services	Apart from loadshedding, we have many other power interruptions in the valley, especially in winter. Is there any chance that the upgrading of the electrical system can be prioritized?	Upgrading of electrical system	We have conducted an extensive investigation in terms of the areas that requires repairs in Pniel. We have prioritized those areas that are severely impacted in terms of damaged infrastructure, but unfortunately, we do not do repairs with the available budge that we have in hand, but all areas are certainly being considered. About R3.5mil was spent in the previous financial year. R3.2mil is being spent in this financial year and about another R3.5mil is planned for the coming financial year up until 2024. Unfortunately, we prioritize the worst affected areas first with the applicable budget	Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane

Draft 5th Generation Integrated Development Plan 2022 -2027 and Draft Budget 2022/23: Comments and Inputs: 4 - 28 April 2022													
Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
91	4	IDP - APR91	PP Meeting	Ralphton Adams	Road and Transport Services	Regarding the parking at the Kylemore high school, people are having social events and gathering there where they drink and smoke. I have submitted my complaint in February and has not received any feedback. I requested for the putting up of Warning signs by law enforcement.	Installation of warning signs	We have received the request. The property does not belong to the municipality; it belongs to the education department. It is in the process of getting the wording correct and there will be a sign there, stating 'road reserved.' Wording must be according to the legislative. After that, the law enforcement can apply to the matter and do some rounds there. A 24/7 Whatsapp number is available that you can report to. The sign is in the process of being created.	Directorate: Community and Protection Services	Department: Protection Services		Rikus Badenhorst	Charl Kitching
92	4	IDP - APR92	PP Meeting	Ralphton Adams	Streetlights	The second last streetlight in School Street has been off for the past few months, can we have it fixed please at number 75 School Street, Kylemore.	Fixing and maintenance of streetlights	At the moment the streetlights belong to Eskom and we are in the process of a takeover. We will communicate with Eskom regarding the matter of the broken lights and we will try to see if we cannot repair the streetlights ourselves.	Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
93	4	IDP - APR93	PP Meeting	Ralphton Adams	Road and Transport Services	Is it possible for a proper speed bump to be constructed in the same location? Can you also investigate street bumps in silvermyn street Pniel, it feels too high.	Constrcution of speed bump	We will have a look at it and do a bit of an assessment then we will be able to provide feedback in due course. The speed bump, in terms of the municipality's traffic calming process. So once that is complete we will be able to give feedback to the community regarding the construction of the speed bump.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
94	4	IDP - APR94	PP Meeting	Ralphton Adams	Road and Transport Services	I have asked via my ward counsillor for a speed hump in Rooi street, between no 8 and 10 as the cars speed either from the corner up, or fly over the bump at no 14 Rooi Street as these are very low and not sufficient to slow the vehicles down	Constructiona nd improvements of speed humps	We know in the Pniel area speed humps that were previously constructed and we came through with the reroad rehabilitation program and some of the streer bumps are lower than the others. We have started with the rebuilding of certain speed humps in pniel last month. The process of making the speed humps bigger to the correct size will continue. We will roll out another programme in October, where more of the speedbumps are a little lower and brought up to the correct size.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
95	4	IDP - APR95	PP Meeting	Ralphton Adams	Storm water management	Silvermine street changes into a river in winter with the storm water that flows down street because of insufficient infrastructure and it becomes very dangerous for the cars in the mainroad	Storm water management		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
96	4	IDP - APR96	Have Your Say	Ralphton Adams	Safety and Security	Fencing of the Pniel Ward Councillor building in Pastorie Avenue.	Fencing of building		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
97	4	IDP - APR97	Have Your Say	Ralphton Adams	Governance	Please have physical public participation meetings, as a lot of people do not have access to online meetings.	Physical Public Participation Meetings		Office of the Municipal Manager	Section: IDP/PMS/PP	IDP/PMS/Public Participation	Gesie van Deventer	Gurswin Cain
98	4	IDP - APR98	Have Your Say	Ralphton Adams	Area Cleaning	We need people to clean the town and roads. Appoint umeployed people	Cleaning of town and roads		Directorate: Community and Protection Services	Department: Community Services	Environmental Management	Joseph Joon	Albert van der Merwe

387	7	IDP - APR387	PP Meeting	Annemarie Ferns	Property Management	Beltana is becoming a huge frustration in ward 7. It has been coming on for several months but has increased. The Red Ants play an important role, but at night they drop the metal sheets at Beltana. It is causing a noise and the request is to find an alternative space for the dropping off of metal sheets.		The Directorate: Infrastructure has taken responsibility and is looking at noise control. Protection Services: Beltana is the only site where the Red Ants and Law Enforcement can offload the metal sheets. All items need to be protected behind locks. If a person come to release its items, there is a release fee that needs to be paid. There is no other alternative, but it has been taken up with the management of the staff to kindly consider the residents in and around the area, until such time the municipality can find an alternative space that is	Directorate: Infrastructure Services	Office of the Director: Infrastructure Services	Office of the Director: Infrastructure Services	Zelda Dalling	Deon Louw
388	7	IDP - APR388	PP Meeting	Annemarie Ferns	Road and Transport Services	Can the Municipality reverse the direction of Jana Street between Endler and Jonkershoek. Will it necessiate a public participation process.		When the direction of a street or road is change it is best to inform the public about it. If the public agree then the road could be reversed.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
389	8	IDP - APR389	PP Meeting	Carli van Wyk	Road and Transport Services	The municipality to collaborate with the University to co - plan on NMT and put budgets togther.		In the medium term the Municipality want to have a cycle lanes that are linked in the CBD. Will look at it and see how plans can be combined.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
390	8	IDP - APR390	Website	Carli van Wyk	Area Cleaning	Invasive trees growing on open plots in Sonnonstral street on the right side. Opens to crimal activity. Owners Need to clear the plots. 391	8	IDP - APR391	Website	Carli van Wyk	Environment Management and Protection	Along helshoogte pass lots on invasive species. Taken over fybos plants. Hardly see any fynbos			Directorate: Community and Protection Services	Department: Community Services	Community Services	Ralphton Adams	Albert van der Merwe
392	9	IDP - APR392	Email	Zelda Dalling	Youth development	We have the necessary funding in place and people from different departments to help and assist , However we are struggling with a building to start our program. I'd like to suggest that we do get the following building that has literally been standing and haven't been used (in Merriman Avenue there's a few buildings that's been shut down and closed) if we can get that building, we can gladly start to impact and change our greater stellenbosch community	Finding and restorating of a building for youth program		Directorate: Community and Protection Services	Section: Community Development	Community Development	Ralphton Adams	Michelle Aalbers

Draft 5th Generation Integrated Development Plan 2022 -2027 and Draft Budget 2022/23: Comments and Inputs: 4 - 28 April 2022													
Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
393	11	IDP - APR393	Website	Johannie Serdyn	Road and Transport Services	My first priority for the Onder-Papegaaiberg/Bosman's Crossing area is excellent NMT infrastructure. This includes a railway footbridge to connect Bosman's Crossing (and the wider Onder-Papegaaiberg area) to Lower Dorp Street and the rest of town for pedestrians/cyclists. This priority also includes safer pedestrian/cyclist crossings at the Lower Dorp Street–Adam Tas Road (R310) intersection and the Dorp Street–Strand Road (R44) intersection. Much-needed NMT infrastructure in Onder-Papegaaiberg also includes the upgrading (widening to provide for both pedestrians and cyclists) of the path along Distillery Road and Flamingo Street. A further opportunity for NMT infrastructure is to leverage the new section of the Eerste River pedestrian and cycling path between the Distell Cricket Club and Piet Retief Street. There is great potential for extending the path along Distillery Road with an underpass under the Adam Tas Road Bridge to connect it to the new section of the Eerste River path so the Distillery Road path meets the Eerste River path between Millenia Park (Remgro) and Distell.	Installation of NMT Infrastructure.		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
394	11	IDP - APR394	Website	Johannie Serdyn	Beautification	My second priority for the ward is a mural on the retaining wall along Distillery Road into Bosman's Crossing. The mural would be visible from Adam Tas Road (R310), the western entrance into Stellenbosch. Therefore, I believe the mural could be a high-impact, highly visible public artwork in the form of signage, featuring the words "Bosman's Crossing" on top of decorative graphic elements inspired by the buildings and other features of the precinct. This mural would not only serve as signage to indicate where the Bosman's Crossing precinct is located, but it is also a great opportunity to pay homage to the history of the Steenebrug bridge (in light of the current rehabilitation of the Distillery Road bridge).	Painting of a mural at Bosman's Crossing		Directorate: Corporate Services	Section: Properties Management and Municipal Building Maintenance	Culture	Lwando Nkamisa	Albert van der Merwe
395	11	IDP - APR395	Email	Johannie Serdyn	Safety and Security	New Roadside Fence on Oude Libertas Road (Cabernet Estate to Bokmakierie)	Fencing		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
396	11	IDP - APR396	Email	Johannie Serdyn	Safety and Security	With increasing criminal incidents and overall desire by the residents of Nagtegaal Road (they already submitted a petition to this effect as well), it will be desirable to close Nagtegaal Street. This will help contain "walk-in" and "drive-in" crimes by limiting the number of entrances and open borders of Onderpapegaaiberg. (note the red line on House Horizon's side is being planned with private funding and where access could potentially be moved to the main guarded gate at HH for better access control to ensure the safety of residents using the area).	Closure of Nagtegaal Street		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching

Draft 5th Generation Integrated Development Plan 2022 -2027 and Draft Budget 2022/23: Comments and Inputs: 4 - 28 April 2022													
Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
397	11	IDP - APR397	Email	Johannie Serdyn	Safety and Security	Although the feedback on the IDP event was that fencing is complete on the Papegaaiberg Reserve, there would be benefits by restricting the borders to specific entrances to control poaching and movement which influences fauna and flora in the reserve, as well as assist in the overall safety strategy of Onderpapegaaiberg and Bosman's Crossing. Should you want more detail feels free to get in touch with me.	Fencing of Papegaaibern Nature Resreve		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
398	11	IDP - APR398	PP Meeting	Johannie Serdyn	Environment Management and Protection	Onder Pappegaaiberg fence seems to be imcomplete as far as we can see - invasion of the reserve demonstrates that		As Mr Snyman is aware the fence has been erected and on a montly bases panel are removed. The Municipality will have to look at ways to secure the fence otherwise it will become wasteful expenditure. The department is in discussion with the ward councillor and will continue with the newly elected ward committee.	Directorate: Community and Protection Services	Department: Community Services	Facilities	Joseph Joon	Albert van der Merwe
399	11	IDP - APR399	PP Meeting	Johannie Serdyn	Safety and Security	Is there budget for the ongoing training and extension of the staffing of the new control room?		The control room is manned by permanent staff of the Municipality. The municipality have also extended the opportunity to role-players to join in the Safety Partnership and enter into an agreement which allows security companies and neighbourhood watches to take up a seat and assist with monitoring of cameras etc, SAPS has taken up a seat in the control room. The control room should be seen as a joint safety and security control room for Stellenbosch Municipality in a whole.	Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
400	11	IDP - APR400	Website	Johannie Serdyn	Sport, Arts and Culture	My second priority for the ward is a mural on the retaining wall along Distillery Road into Bosman's Crossing. 401	11	IDP - APR401	Website	Johannie Serdyn	Road and Transport Services	My first priority for the Onder-Papegaaiberg/Bosman's Crossing area is excellent NMT infrastructure. This includes a railway footbridge to connect Bosman's Crossing (and the wider Onder-Papegaaiberg area) to Lower Dorp Street and the rest of town for pedestrians/cyclists. This priority also includes safer pedestrian/cyclist crossings at the Lower Dorp Street–Adam Tas Road (R310) intersection and the Dorp Street–Strand Road (R44) intersection. Much-needed NMT infrastructure in Onder-Papegaaiberg also includes the upgrading (widening to provide for both pedestrians and cyclists) of the path along Distillery Road and Flamingo Street. A further opportunity for NMT infrastructure is to leverage the new section of the Eerste River pedestrian and cycling path between the Distell Cricket Club and Piet Retief Street. There is great potential for extending the path along Distillery Road with an underpass under the Adam Tas Road Bridge to connect it to the new section of the Eerste River path so the Distillery Road path meets the Eerste River path between Millenia Park (Remgro) and Distell.			Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
402	12	IDP - APR402	PP Meeting	Ayanda Tomose	Land for housing and housing development	Reserving land for schools	Identification of land for the building of schools		Directorate: Corporate Services	Section: Properties Management	Properties Management	Lwando Nkamisa	Piet Smit
403	12	IDP - APR403	PP Meeting	Ayanda Tomose	Spatial Planning	It is perplexing that 72 years after the promulgation of the Group Areas Act, the Stellenbosch Municipality finds befitting to maintain the legacy of this draconian law. To be precise this is vividly shown by the fact that its spatial planning remains undisturbed. You must be reminded that the township was not built to develop Black people instead was styled in a way of concentration camp to ensure that Black people are kept in the lowest strata of society		he Adam Tas Corridor " is the start of Stellenbosch's emerging urban transformation district and the vision is to create an integrated urban development corridor that is liveable, safe, resource-efficient, socially integrated, economically inclusive and globally competitive, in which all citizens can actively participate." This corridor encompasses an area of 359ha of both public and private land, and is aimed to addressed at spatial transforming Stellenbosch Town. The municipality has tabled the Adam Tas Corridor Local Spatial Development Framework to Council to approve that the aforementioned spatial plan be advertised for public comment, and if approved the spatial plan will be placed in the local newspapers on 05 & 06 May 2022	Directorate: PED	Department: Development Planning	Spatial Planning	Carli van Wyk	Craig Alexander
404	12	IDP - APR404	PP Meeting	Ayanda Tomose	Sport Facilities	Kayamandi Sportsground: What criteria was used to allocate a budget of R300 000 to the Sportsground. A bridge for kids to go share sports facilities with Cloetesville instead of upgrading our sports facilities.		Due to various reasons the capital budget of the Municipality was severly impacted by COVID -19. The R300 000 was primarly the focus for the next 3 financial years. The allocated budget is for small upgrades. That was the criteria used for the budget. Across the sport facilities in the municipality there will be no new projects.	Directorate: Community and Protection Services	Department: Community Services	Community Services	Ralphton Adams	Albert van der Merwe

414	12	IDP - APR414	PP Meeting	Ayanda Tomose	Finance	Local contractors are not given an opportunity to be part of the projects in Kayamandi.	Appointment of local labour and contractors	A supply chain management process is followed which is captured within the policy that was approved by Council. An open compatitve cost effective process should be followed when appointing service providers. The tender or formal quotation process is open to everyone in the country to take part in the process. When it is labour intensive projects it is specified that appointed contractors make use of local labours within the communities. Open days are also held to alllow local contractors to register on the Suppliers Database or central database. Various training programmes are also done with the Department: Local Economic Development and Tourism. Contractors are encouraged to take part in this training programmes.	Directorate: Financial Services	Department: Supply Chain Management	Supply Chain Management	Peter Johnson	Dalleel Jacobs
415	12	IDP - APR415	PP Meeting	Ayanda Tomose	Development	Upgrading of the Kayamandi Corridor: The community was not aware the project and no local contractors are used.	Employment for local contractors	The Kayamanid Corridor upgrade is only for the structural maintenance upgrades that was identified. Planning was done over the past two years and the municipality recently went out on tender and the tender was awarded.	Directorate: Corporate Services	Section: Properties Management and Municipal Building Maintenance	Property Management	Lwando Nkamisa	Piet Smit
416	12	IDP - APR416	PP Meeting	Ayanda Tomose	Safety and Security	No access roads in Kayamandi for SAPS to follow up on crime activities and criminals		Interms of access roads in Kayamandi it is challenging. There is certain areas that is formalised to make it easier for SAPS. The community and neighbourhood watches are requested to assist SAPS and the municipality if they see criminal activities. The problem with access roads will not be solved overnight, becasue the erection of illegal buildings makes it difficult.	Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
417	12	IDP - APR417	PP Meeting	Ayanda Tomose	Sport Facilities	What are the plans for the youth in terms of sport and recreaton	Sport development of youth	The Municipality is in the final stage of review the sport facility management. For future the importance will be to prioritise in terms of the budget what are the sport facilities that need to be upgraded and this will be based on a needs analysis. The analysis will be informed by the consultations with the Sport Councils.	Directorate: Community and Protection Services	Department: Community Services	Community Services	Ralphton Adams	Albert van der Merwe
418	12	IDP - APR418	PP Meeting	Ayanda Tomose	Governance	Requesting for more engagements on the issues of the community, not only waiting for the IDP meetings. 425	12	IDP - APR425	Email	Ayanda Tomose	Finance	The failure of councillors in doing their job has also cost the community some donations, for example a donation that was made was for an education centre to be built in Kayamandi to assist the underprivileged learners to have access to resources that will assist their learning. That donation was directed elsewhere, and those who needed it the most did not even get the opportunity to benefit from it. The role of councillors is pivotal to the development of communities such as Kayamandi. However, we also won't hold them fully accountable because they are also run and controlled by people who do not see us as human or deserving.	Ensuring the right finances is used for the right projects as allocated		Directorate: Financial Services	Department: Financial Management Services	Budget Office	Peter Johnson	Monique Steyl
426	12	IDP - APR426	Have Your Say	Ayanda Tomose	Development	The actions planned for the development of Kayamandi do not address the stated risk of land invasion as well as the discontent of the inhabitants of Kayamandi. The risk is identified but nothing is planned to remedy the risk. I ask that you reprioritise the development plans to give much greater attention to the development of Kayamandi	Implementation of development plans in Kayamandi		Directorate: PED	Department: Development Planning	Spatial Planning	Carli van Wyk	Craig Alexander
427	14	IDP - APR427	Email	Maxwell Danana	Informal Human Settlements	The Northern Extension of Kayamandi is problematic, as are other plans to expand the urban edge. WC024 has limited pooportunities for unskilled labour, growth of Kayamandi will lead to a swelling of the ranks of the unemployed and increase in crime in our area, already a growing problem. It is therefore encouraging to see that the municipality is taking steps to prevent land invasions and more informal structures.	Preventing the increase of informal settlements		Directorate: PED	Department: Integrated Human Settlements	Housing Development	Jeremy Fasser	Lester van Stavel
428	14	IDP - APR428	Email	Maxwell Danana	Safety and Security	However, more attention has to be given to surrounding farm security, farmes cannot be expected to absorb the costs of increased security measures themselves. 460	18	IDP - APR460	PP Meeting	JC Anthony	Land for housing and housing development	Started a process with the municipality about a piece of land for a place of worship and we are still waiting for an outcome.	Land for worship	The Municipality is working with the housing list, so what you have stated is not the case. There will be a project steering committee that will be established who will determine who will be the beneficiaries of the 100 opportunities. We cannot ignore the current families staying there and they will be taken into account and consideration when that development is taking place. The main objective will be the families that have been staying there for many years.	Directorate: PED	Department: Development Management	Spatial Planning	Carli van Wyk	Craig Alexander
461	18	IDP - APR461	PP Meeting	JC Anthony	Local Economic Development	Three years ago, a small business hub was established at the Klapmust Multi-purpose centre. Applications were taken by the LED Department. No outcome came from this. When will these business hubs be operational?	Establishment of a small business hub	From the moving of the LED Offices to the new location, we have gone through some of the files. We have obtained those applications and we will make sure that the hub will be appointed before the end of the financial year	Directorate: PED	Department: Development Planning	Local Economic Development and Tourism	Rozette du Toit	Craig Alexander
462	18	IDP - APR462	PP Meeting	JC Anthony	Community Services	Here is a deaf community in Klapmuts. There is no interpreters within the IDP Processes. They should be part of the IDP Processes and they are excluded at the moment.	Accommodation for people with disabilities during municipal processes	We are currently busy with the process through Alberts trying to include people with disabilities more. We can only do this process if we can put the presentation in Braille, making it possible for them to understand what is going on, and give their feedback. Visual representations will be given. We do have a policy to see how we can adjust our municipal processes, including IDP Processes to make provisions for some sorts of disability. The IDP Department have progress with strides and with this team meeting, we have a platform that is typing up the meeting and questions. The IDP must send the transcripts to the ward councilors to distribute to the ward	Directorate: Community and Protection Services	Department: Community Services	Community Services	Ralphton Adams	Albert van der Merwe
463	18	IDP - APR463	Walk -in	JC Anthony	Land for housing and housing development	The municipality to identify land for development.			Directorate: PED	Department: Integrated Human Settlements	Housing Development	Jeremy Fasser	Lester van Stavel

Building of houses for farm workers and pensioners		Directorate: PED	Department: Integrated Human Settlements	Housing Development	Jeremy Fasser	Lester van Stavel
565	20	IDP - APR565	Email	Joseph Joon	CCTV Cameras	SECURITY CAMERAS ON ENTRANCES AND WITHIN RAITHBY ALSO R44/ WINERY ROAD INTERSECTION This has been a long outstanding request- going back more than 4 years and was raised at a Community Meeting again with the Executive Mayor in October 2021. Apparently, the delay is now way leave authorisation. Surely this could have been applied for some time ago. It will be appreciated, as this obviously cannot now be in this 2021/2022 Financial year, if this can be escalated to the Premier/ or whoever needs to give approval and ensure that the project is programmed and completed WITHIN THE FIRST MONTH OF THE Financial year 2022/2023. Crime is on the increase, and, on a monthly basis, cable theft renders the village without electricity for days on end.	Installation of CCTV Cameras		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
566	20	IDP - APR566	Email	Joseph Joon	Streetlights	STREET LIGHTS: RAITHBY ROAD :This has been an ongoing problem in that the streetlights entering Raithby from the R44 side have only been installed for about 200 metres and as the street is used by many commuters on foot, it is very dangerously dark in the mornings and evenings. WATSON WAY: HERMAN STREET: SHAW STREET: RAITHBY PARK Numerous requests have been escalated for these continued outages to be attended to over the past 5 years. We were assured a few months ago that the lights were to be taken over by the Municipality from Eskom. This however will not be the case, despite it being advised to the residents at the meeting that Jamestown is now being services by the Municipality. Kindly at least give a better IDP update on the progress in trying to assist Raithby Residents in this regard on the IDP. This was again raised at the public meeting with the Executive Mayor in October 2021	Installation and Maintenance if Streetlights		Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane

568	20	IDP - APR568	Email	Joseph Joon	Recreation Facilities	RAITHBY PLAYGROUND: As discussed above the playground is very dark without lighting and is becoming a place for undesirable behaviour and loitering. On numerous occasions officials have been asked and have visited this site to find a way of clearing the devil thorns that are injuring childe at play. Also the grounds and surrounding are completely neglected and need beautification in some way as to make it attractive and not an eyesore. Kindly also possibly placing extra benches/ making an area for the elderly to enjoy.	Upgrading and maintenance of play parks		Directorate: Community and Protection Services	Department: Community Services	Parks and Open Spaces	Joseph Joon	Albert van der Merwe
569	20	IDP - APR569	Email	Joseph Joon	Road and Transport Services	PAVEMENT ALONG RAITHBY ROAD: As discussed in point 2 above further to this there is a dire need for a pavement on both sides of the Road. Pedestrians comprise students coming to school, residents walking to Winery Road to catch transport and workers coming in and cyclists. If there is vehicle coming into Raithby or going out the pedestrian has to jump out of the road and very often into the ditch. Sadly there have been a number of accidents along this road.	Uprgarding of pavements and making it pedastrian friendly		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
570	20	IDP - APR570	Email	Joseph Joon	Sport facilities	RAITHBY SPORTS FIELD WATER AND WATER DRAINAGE: The irrigation water for the Raithby Sports Field is a problem in that the valve for the Theewaterskloof water is in the property of the Winelands Village Estate. It is in their locked gated area and they are inconvenienced to have to switch the water on and off. The valve switch should be placed on the Pump on the Sports field and managed by the Sports Council. This has been a longstanding complaint by both the Raithby Sports and the HOA of Winelands Village. It needs urgent attention. Rain water from the Hamlet behind the Sports field drains onto and floods the field from the corner when it rains. The pipe needs to be connected to a water conservation tank for the Sports Council to manage and use. This complaint has been escalated on numerous occasions and needs urgent attention before the Winter rains.	Upgarding and fixing of Raithby sport field's irrigation system		Directorate: Community and Protection Services	Department: Community Services	Community Services	Ralphton Adams	Albert van der Merwe
571	20	IDP - APR571	Email	Joseph Joon	Road and Transport Services	SIGNAGE AND LINE PAINTING IN RAITHBY: The signage in Raithby is old and dilapidated and needs to be replaced. Also ,the traffic calming humps and the street markings need to be painted. Provincial signage off the R44 does not indicate RAITHBY and only FIRGROVE which is under City of Cape Town and well past Raithby.	Painting of road and transport signs		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard

572	20	IDP - APR572	Email	Joseph Joon	Area Cleaning	RECYCLE PROGRAMME FOR RAITHBY: There is an illegible sign outside the Sports Field in Raithby Road which advises "Raithby is a recycling village". As previously requested , please can this programme be reinstalled with Recycle Bins. Raithby residents take pride and care for the environment and it can be noticed on refuse day the number of recycling bags are put out. However extra refuse bins are needed in the village.	Installation of recycling bins within the residential area		Directorate: Community and Protection Services	Department: Community Services	Environmental Management	Joseph Joon	Albert van der Merwe
573	20	IDP - APR573	Email	Joseph Joon	Road and Transport Services	R44/ WINERY ROAD INTERSECTION This intersection continues to be a very dangerous death trap for motorists trying to feed into the R44 toward Stellenbosch or crossing to go to Somerset West or crossing to go right into Winery Road. Cyclists and motor cyclists have also recently been killed. This very emotional unacceptable situation has been raised on numerous occasions to no avail. Further deaths should be avoided. Despite it being a Provincial Road, the residents look upon the Stellenbosch Municipality to hear their plight.	Road safety measures should be implemented		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
574	20	IDP - APR574	Email	Joseph Joon	Area Cleaning	ALIEN ERADICATION IN BIODIVERSITY AREA and RIVER/ STREAM The Biodiversity in North of Raithby is now being inundated with the Port Jackson and other aliens. This area needs urgent attention. The river/ stream that runs along the south side of Raithby is also blocked with alien vegetation and is creating a flood danger in the Winter months when there is heavy rainfall.	Removal of alienated trees in the river		Directorate: Community and Protection Services	Department: Community Services	Environmental Management	Joseph Joon	Albert van der Merwe
575	20	IDP - APR575	Email	Joseph Joon	Beautification	BEAUTIFICATION OF TOWN: RAITHBY is a very historical and lovely village within Stellenbosch. The 3 new estates are increasing the rates base considerably. Most of the village houses are old but kept neat by their owners. It is time that the village itself is given an uplift in beautifying the village for all to enjoy.	Beautification of the town		Directorate: Community and Protection Services	Department: Community Services	Environmental Management	Joseph Joon	Albert van der Merwe

Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
621	21	IDP - APR584	PP Meeting	Rikus Badenhorst	Local Economic Development	Request is for the municipality to look for avialable land, for people to sell their vegetables / vegetable market.		Mr Barnes will discuss the matter with the responsible senior manager for possible land to establish a vegetable market.	Directorate: PED	Department: Development Planning	Local Economic Development and Tourism	Rozette du Toit	Craig Alexander
622	21	IDP - APR585	PP Meeting	Rikus Badenhorst	Law Enforcement	How do the law enforcement officers enforce bylaws within the municipality? Request is for signage for example: owners to keep their dogs on leases and that they clean up after walks.		An order for signage for parks and open areas has been signed off. The ability of law enforcement to respond when residents disobey bylaws the limited law enforcement officers are active. Residents are encourage to contact the municipality.	Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
623	21	IDP - APR586	PP Meeting	Rikus Badenhorst	Road and Transport Services	The municipality to clarify what the transport development for School Street in Jamestown entails .		There is a redevelopment of the Jamestown transport network, with the housing development coming into the area. The street is actually a reserve that is from the City of Cape Town, entitled for the City of Cape Town bulkwater line. It will be converted into a NMT facility. The streets will be realigned to the front of the schools. Detailed concepts was done for the realignment of the entire School Street. With the upgrade of the R44, Provincial Government did indicate that they will close the second exist - called Valley Rd. With the housing development the road network will change and the municipality is looking for other access roads going onto the Blaauwklippen Rd / Stellenrust Rd.	Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard
624	21	IDP - APR587	PP Meeting	Rikus Badenhorst	Electrical Services	When will the street lights in Jamestown receive attention.		Streetlights in Jamestown is now maintained by Stelmun so you can bring defective lights under attention of the Dept via LetsFixIt WhatsApp 0769510768. If not repaired pls let me know with the relevant reference number you will receive when reporting.	Directorate: Infrastructure Services	Department: Electrical Services	Operations and Maintenance	Zelda Dalling	Nombulelo Zwane
625	22	IDP - APR588	Website	Ester Groenewald	Road and Transport Services	A number of roads in the Dalsig/Brandwacht suburbs are old and not properly maintained and need repairs of potholes and cracks. In actual fact, some roads need urgent re-surfacing.	Upgrading and maintenance of Roads.		Directorate: Infrastructure Services	Department: Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Zelda Dalling	Johan Fullard

Draft 5th Generation Integrated Development Plan 2022 -2027 and Draft Budget 2022/23: Comments and Inputs: 4 - 28 April 2022													
Number	**Ward**	**Ref no**	**Source**	**Councillor**	**Community Need/ Ward Priority**	**Description of ward issue (Author: community member/ stakeholder)**	**Project Identification *(ProjectName)***	**Departmental Actions / Feedback (be specific on information and time lines)**	**Linkage to Directorate**	**Department**	**Section**	**Responsible Portfolio Councillor**	**Responsible Senior Manager/ Manager**
626	22	IDP - APR589	Website	Ester Groenewald	CCTV Cameras	The incidence of crime in the area, although sporadic is increasing. Especially petty crime during the day and early hours (03:00 to 05:00) of the day. This trend is exacerbated by the high number of garbage scratchers using shopping trollies on days that garbage is collected. Nothing is done by the municipality to stop this activity. The municipality installed a number of very expensive and latest technology cameras at the two entrances of the suburb which are monitored in a municipal control room. Notwithstanding this measure, no success or positive results have ever been received with regard to this initiative. The suburb needs many more cameras at strategic points with effective monitoring and feedback to the residents. The initiative must be dealt with as a pre-active measure and NOT as a reactive exercise.	Monitoring of CCTV cameras and active patrols by law enforcement		Directorate: Community and Protection Services	Department: Protection Services	Law Enforcement and Events Management	Rikus Badenhorst	Charl Kitching
627	22	IDP - APR590	PP Meeting	Esther Groenewald	Waste Management	Whether Stellenbosch Municipality have a collaboration agreement with the CWDM regarding waste management	In terms of the Constition landfill and waste collection is a local government competence. In terms of the MSA the district is suppose to do the landfill, but by tradision most municipalities are doing the landfilling. Currently the municipality is working in collaboration with the district to see. The best way to reduce landfill is to treat waste. For example the organic waste that can be treated to methane to generate electricity.		Directorate: Infrastructure Services	Department: Waste Management	Waste Minimisation and Disposal	Zelda Dalling	Clayton Hendricks
628	22	IDP - APR591	PP Meeting	Esther Groenewald	Waste Management	Potential of launching a compitition to unlock innovative potential to bring the municipality closer to a solution regarding recycling challenge	The municipality are currently busy seeking means of effectively promoting recycling. Further discussion with happen with Cllr Groenewald regarding the proposal of the compitition.		Directorate: Infrastructure Services	Department: Waste Management	Waste Minimisation and Disposal	Zelda Dalling	Clayton Hendricks
629	22	IDP - APR592	PP Meeting	Esther Groenewald	Waste Management	Whether the municipality is aware that the homeless people have become the selection panel of waste - the overflow of the waste collected are becoming the problem in the rivers	The trolly mission is a problem that is experience throughout the municipal area. The waste pickers are supporting recycling in a way that the municipality do not want them to be active in. The problem should be addressed holisticly but aslo promote recycling.		Directorate: Infrastructure Services	Department: Waste Management	Waste Minimisation and Disposal	Zelda Dalling	Clayton Hendricks
630	22	IDP - APR593	Website	Esther Groenewald	Safety and Security	The incidence of crime in the area, although sporadic is increasing. Especially petty crime during the day and early hours (03:00 to 05:00) of the day. This trend is exacerbated by the high number of garbage scratchers using shopping trollies on days that garbage is collected. Nothing is done by the municipality to stop this activity. The municipality installed a number of very expensive and latest technology cameras at the two entrances of the suburb which are monitored in a municipal control room. Notwithstanding this measure, no success or positive results have ever been received with regard to this initiative. The suburb needs many more cameras at strategic points with effective monitoring and feedback to the residents. The initiative must be dealt with as a pre-active measure and NOT as a reactive exercise. Subject: [EX] Comment on the Draft 5th generation IDP 2022 - 2227

This is the most comprehensive draft IDP document I have seen in all the years that I have been involved in community affairs.
It is heartening to see that Stellenbosch Municipality's 5th generation IDP 2022-2027 is aligned with national, provincial, district and local development plans and priorities. However, despite assurances, it is not clear how the US, which has its own IDP, fits into this integrated plan.

Public participation in planning and development is much better but can still be improved - too much weight is given to ward inputs, and too little to sectoral inputs and that of community organisations. I take note of the district public particpation forum, but have never been made aware of this forum and have therefore made no input - who, from from the public, has made or makes inputs at this forum, where does it meet, who is on their contact list, where do the publicise this forum ?

I am concerned that the One Plan goal will undermine local outonomy and lead to centralisation, in the process undermining our local democratic processes.
If the manner in which BEE and transformation has been approached by national government to date is indicative of what one could expect in this One Plan objective, fears of centralised planning and development, already more than adequately provided for in our constitution and existing laws, is not unfounded.
What is disheartening, although not unexpected, is that Stellenbosch municipality's inability to address the pig farm issue on the Papegaaiberg Nature Reserve and offer more meaningful assistance to the Borcherd family on Avondrust farm, adjacent to Bloekombos informal settlement, has not been ackowledged in the annual report, and is not addressed in the 5th Generation IDP.

A mature government admits to lack of success in certain instance and does not only claim successes.

A further positive aspect of plans for the future is the emphasis on the preservation of our natural and agricultural landscape, wine and fruit farming in particular. While it is technically correct to state that finance, construction, technology and tourism are leading sectors in the local economy, the socio-economic contribution of the agricultural sector is not given the weight it deserves, particularly in the employment sphere and indirect contribution to tourism and business in general.
A concern is the use of the term “high potential agricultural land” - flourishing vines have been planted amongst stones next to STIAS, adjacent to Jan Marais park, and there are countless examples of productive, profitable farming on low potential (per technical definition) soil, fertilised through drip irrigation - the Israelis farm in the desert and we have adopted their farming technology in arid areas in South Africa.
The “ low potential soil” argument was used by the owner of Brandwacht farm to rezone productive land which has been developed into a fenced luxury security estate and the same owner is neglecting to farm the rest of the farm, despite it being a condition of rezoning. Other developers are now following this precedent - Longlands Manor is an example.

Where is community safety in the sector plans on pg, 587/588 of the council agenda and in the policies?

The Northern Extension of Kayamandi is problematic, as are other plans to expand the urban edge. WC024 has limited pooportunities for unskilled labour, growth of Kayamandi will lead to a swelling of the ranks of the unemployed and increase in crime in our area, already a growing problem. It is therefore encouraging to see that the municipality is taking steps to prevent land invasions and more informal structures.
However, more attention has to be given to surrounding farm security, farmes cannot be expected to absorb the costs of increased security measures themselves.

The inclusion of Stellenbosch, one of several towns chosen to participate in the provincial MER programme, and municipal efforts in this regard are most welcome. What is puzzling is the lack of reference to successes by other significant actors in Stellenbosch in the electricity management sphere - the US, which received an award for the most energy efficient building in SA, and Paul Roos Gymnasium, which installed solar panels on its school hall roof, leading to significant savings in its energy bill. This is a community endeavor and should be recognised as such, credit should be given to all.

As correctly pointed out in the draft IDP, the municipality does not have a crime prevention and policing mandate - the directorate protection services role is limited to protection of municipal assets, traffic offences, transgression of bylaws, and disaster responses. The SSP is an outstanding example of collaborative governance, involving the private sector, SAPS and the municipality. However, policing and crime prevention remains the duty of SAPS, who are funded by the taxpayer, all other partners can support their activities, but at their own risk, and expense. In view of increasing energy costs, the private sector is going to have difficulty in maintaining the current level of support - vehicle movements will have to be managed more efficiently.
Therefore surveillance (personal and through a camera infrastructure), precise communication and optimal use of response assets is critical. Increasing farm attacks also require an integration of the agricultural sector in any safety and security planning. What is also apparent is that a regional approach will have to be adopted to community safety and security, with provincial, district and local roleplayers collaborating.
It is encouraging to see that provincial government has placed community safety at the top of its priorities, with economic growth and employment as second most important priority.
Stellenbosch has placed innovation high on its list of priorities, in tune with a university town.
Environmental management is a critical sphere which requires more substance in management and resources.
An audit of infrastructure - cameras and communication and management, is necessary - US, municipal and civic networks should be integrated, with due regard to privacy concerns and legislation, notably POPIA.

The rural safety plan requires urgent attention.

Thankfully housing is receiving attention, this has been a burning issue for many years.
However, development of some of the sites designated for development, like the Pine forest at Helshoogte, will have a major impact on town ambience - worse that what we are now seeing at the Drosdy premises on Bird Street, an ugly edifice, destroying the cultural - historic character of the oldest precints in Stellenbosch, Die Braak and bordering buildings.

Taking into account local and district government focus on spatial awareness in sustainable development policies and plans, I believe it essential that landscape and urban designers are involved in strategic planning, especially within the the One Plan context, and that planning is bottom-up, rather than top-down. A federal, decentralised, devolved planning approach is vital for the diversity of our regions and peoples.

The work guidelines in the MSDF are commendable (pages 714 - 720), also the ATC project. Hopefully the Remgro plans for the R44.Dorps street intersection will be integrated into the ARC planning in a holistic manner.ida

Finally, I find it alarming that the municipality perseveres with doing business with relatives of employees, in the past financial year to the tune of more than R50m! Surely this practice, given ANC transgressions in this regard, should be stopped? Companies that have competitions for prizes forbid their employees to participate in the competition - is a tender not a prize, and tender process type of competition?

André Pelser
Former Chairman of the Stellenbosch Ratepayers Association Director of the Winelands Safety Initiative Stellenbosch

Attachments: IDP Inputs.pages

Good morning/Goeiemôre,

Herewith a further input, which I drafted some time ago, and addresses issues that I may have missed in my recent submission.

Vriendelike groete,

André Pelser

IDP Inputs

The underlying non-negotiable principle in the SA Constitution and Structure and Systems act is sustainable development. (Human well-being, Environmental Integrity and Economic viability (in the long term – to ensure sustainable job creation and not short-term jobless development).

The IDP, together with the SDF, as strategic management framework and plan for the Municipality (municipality defined as Council, administration and Community/stakeholders.

The IDP must be based on the 7 principles as taken up in the MSDF and statement/principles quoted below:

• maintain and grow our natural assets;

• respect and grow our cultural heritage;

• direct growth to areas of less natural and cultural significance as well as movement opportunity;

• clarify and respect the different roles and functions of settlements;

• clarify and respect the roles and functions of different elements of the movement structure;

• ensure balanced, sustainable communities;

• focus collective energy on critical catalytic projects;

“Even if difficult, it is a matter of now or never. We cannot behave and live like before. We cannot afford to lose more nature and agricultural land and prioritise building roads for private cars more than public transport. If we do that, the system will fail. Material wealth will not assist.”

“Containing settlement footprints by curtailing the further development of peripheral dormitory housing projects.”

“Containment of settlements to protect nature / agricultural areas and enable public and non-motorised transport and movement.”

“A focus on public and non-motorised transport and movement.”

“Allow future opportunity to build on existing infrastructure investment”

Furthermore, the core principles of the smart city concept be part of an IDP if we are serious to ensure a long-term future for our town, settlements and environs:

i. Mixed land uses
ii. Take advantage of compact building design
iii. Create a range of housing opportunities and choices
iv. Create walkable neighbourhoods
v. Foster distinctive, attractive communities with strong sense of place
vi. Preserve open space, farmland, natural beauty and critical environment areas
vii. Strengthen and direct development towards existing communities
viii. Provide a variety of transportation modes
ix. Make development decisions predictable, fair and cost effective
x. Encourage community and stakeholder collaboration in development decisions.

Some of these principles are already part of the IDP/SDF but not implemented

In the context of the above the following are of utmost importance for long term and sustainable survival of our towns and environs:

- Preservation of agricultural land at all cost
- Housing developments and opportunities must provide a range of housing opportunities and focused on the need for medium cost housing (opportunities already lost in Die Weides and now Dennesig area as well) – Town and group housing – (student hokkies already oversupplied)
- No expansion of the urban edge
- Preserve the scenic beauty and heritage/culture of our towns and environs to ensure a well-managed tourism industry and sustainable job creation.
- Manage our CBD’s to be safe and clean and pedestrian friendly.

It must be taken into account that the economic drivers of Stellenbosch (WC024) are Tourism and agricultural (wine-industry) in particular.

……etc

Ek dink die die volgende moet as uitstaande sake op rekord geplaas word:

- die varkplaas op Papegaaiberg
- Fish Camp in Jonkershoek
- die gat op die h/v Molteno en Bird straat
- persele in Papegaaiberg wat nie ontwikkel word wie
- Jamestown ontwikkeling wat nie van stapel bestuur word nie (530 eenhede). Ek het dit in gister se aanlyjn gesprek geopper.
- Azania uitbreiding/plakkery

- gebrek aan integrasie van veiligheidsnetwerke in STB - van US, munisipale en JSRA kamera netwerke, insluiting van privaat kameras en privaat sekuriteit opskamers
- versterking van bou inspeksie afdeling
- groot verhoging van boetes, ook versterking van boetestelsel om gereelde oortreders op Rooilys te sit en te verbied om verdere besigheid met die munisipaliteit te doen vir ’n tydperk.
- insluiting van die US in die IDP en SDF prosesse, deursigtigheid
- goedkeurings moet aan speradtums gekoppel word en verval indien daar nie binnen die bepaalde typ ontwikkel word nie.
- Waar is die Erfenis Inventaris? in bg. plan?
- daar moet sterk op sonering gefokus word, binne bg. konteks. Aansoeke vir hersonering moet openbaar gemaak word
- Aansoeke om wysigng van aansoeke en goedkeuring van planne moet deursigtig wees en die praktyk van TV3 en ander om eerste aansoeke goedgekeur te kry en kort daarna ’n gewysigde aansoek in die dien met die doel om deursigtigheid te vermy en kriteria te omseil moet stopgesit word.
- “Stakeholders” moet geken word in enige wysigings en na goedkeuring aksies van ontwikkelaars , nie die munisipale webwerk hoef dop te hou nie.
- alle munisipale beleide moet op die munisipale webwerk geplaas word.
- die Omgewingsbestuursplan moet eerbiedig word.

Gte,
A

20-04-2022

To Whom it May Concerned.

Dear Stellenbosch Municipality, IDP.

We as the above mention Soccer Club, would like to table our grievances on the IDP platform that held on the 20th of April 2022.

We are Affiliated in the Stellenbosch Local Football Association since 2007, and most of our players come from areas surrounding Stellenbosch , like Idas Valley, Kylemore, Cloetesville and Jonkershoek.We have the following divisions U/9. U11. U13.U15 and Seniors.

We have applied since 2016 at the Ida's Valley Sports board for the use of the sports field and until today, our club don't have their owned home field for games as well as practices. **Their reasons for not excepting us was, there is not enough space to accommodate us, Their field is already crowded and that we consider joining an existing team** (Soccer Teams Currently Ida's Valley. Nelsons. Victoria Swifts. United)

We applied numerous times for the use of field, even no responds or feedback was received regarding our request via written or verbally.

In 2018 we merge with Lanquedoc FC just for the use of the field. Transport cost becomes a big concerned, but it was for the love of the game. In 2019-2020 we Join Jonkershoek and help uplift and develop sport. as the Chairman of Celtic I was nominated as the sport board Chairperson of Jonkershoek Field. A big Help was received From Councellor Donavan Joubert in our yearly Community Sports day, Still Jonkershoek wasn't our Home, nothing better than home.

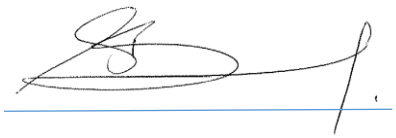
In April 2021 we applied again at Ida's Valley Sports Board, On The 22 Of October 2021 we received a meeting invitation from Ida's Valley sport board, meeting held on the 25 October 22 at 19H45.at Ida's Valley Sports Ground.

We attend the meeting as per requested date, and our meeting started at 21 H 15. Mr Rhodes Chair our Meeting, **He mention the same reasons 10 years ago. Their reasons for not excepting us was, there is not enough space to accommodate us, their field is already crowded and that we consider joining an existing team**.

In that meeting Ida's valley Club that was out of compliance for more than 2 years, could easily find their spot on the usage of field, I personally feel that is discrimination against my team, I would like that the higher authorities in Our Municipality investigate this matter.

as we currently practice next to Ida's Valley Library with over 45 kids every Friday around 17.00. Our kids come from a poorer and we are trying to encourage them to do sport to keep them out of trouble. The kids love the game and no matter what the circumstance they still come to practice and sacrifice a lot just to play the game they love even it they have to walk a distance to come and practice

One of the kids that is a 8 years old boy stays 20 Meters away from the Ida's Valley Sports field, but has to walk 12 minutes (1,0 km) to the field were we practice.



We did request Ida's Valley Sport Board to at leased give us written feedback within the next 7 working days. We hereby confirm that up to now, we haven't received any correspondence of the meeting held with them.

Our Club has been through so many, and we can't keep quiet anymore.

We hope you hear our hearts plea,let our kids play the game they love.

Yours in sport

Chairman

Sam Block.

Subject: [EX] IDP inputs

Good day

I am a resident at Kayamandi and will like to make following submission.

1. Ward 15 Forest drive partial closure & cleaning of the drain in the street.
2. Ward 15 request that municipality identify the vacant plots within this Ward and request whoever the plots belong to to secure them as they became dumping site for backyard dwellers and a health hazard to children.

3. To re-fence the play park and find better way of security around the park.
4. A business zone for the community of Kayamandi will be appreciated.
5. An indoor sport center for the Kayamandi youth as well as a pool.
6. A play area in Kayamandi suitable for disabled children, youth and adults.
7. A second library for Kayamandi as the area has grown a lot.
8.Upgrade & renovation of the hostel area and the entrance of Kayamandi next to the Corridor.
9. I dentification of a suitable site and request to Western Cape government Health for building of a day care center.

I hope that the inputs will be helpful.

Regards,

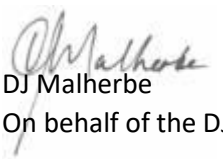
Dear Ms. Mettler,

Re: Comments: Draft Fifth Generation IDP 2022 – 2027 (Ward 1)

Please find herewith my written objection to the following proposals as tabled under section 8.6.1. Ward Priorities: Ward 1 (pp. 229-230). My comments and proposals in the green columns should be read together with the Notice of Objection of 24 February, submitted to the mayor and yourself.



Note: I am a co-signee of the Notice of Objection and is a trustee of the DJ Malherbe Family Trust, owner of Erf 427.

IDP Ref No	Ward Priority	Priority Ranking (1-5)	Description of Ward Priority	Linkage to Directorate	Linkage to Department	Comment	Proposal
TBC	Infrastructure Services	2	Establishment of parking area at the back of Franschhoek Town Hall / Franschhoek Municipal Offices for use of Taxis during the day and public after operating hours	Infrastructure Services	Roads, Transport and Storm Water (RTS)	This area is located next to a residential area and all the neighbouring property owners have demanded that no taxi rank/facility is to be situated in this neighbourhood. The construction of a Franschhoek Taxi Rank across the Franschhoek Wine Tram Terminal (PRASA Property) should offer ample parking space for taxis and will be a viable alternative to this ward priority. (Refer to Notice of Objection, 24 February 2022.)	Optimising existing parking by formalising this area ensuring an additional 16 parking bays (±32 parking bays in total) for passenger vehicles only.
TBC	Infrastructure Services	2	Upgrading of the Municipal Parking area on the corner of Dirkie Uys- and La Rochelle Street	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Erf 1538 (old tennis courts): This development should be viewed with the other two proposals (below), which will have an immediate and severe negative effect on the value of adjacent properties, conflicting with municipal policy that states, “structures … not be unsightly or objectionable … [or] derogate from the value of adjoining or neighbouring properties.” (Refer to Notice of Objection, 24 February 2022.)	Option 1: Attractive retirement complex with ample parking (in basement and on Dirkie Uys Str ±30 parking bays). Together with Franschhoek Hospice and the Fleur de Lis old age home this will provide a harmonious care-hub for the town. Presentations in this regard were made in the past by Prof Isak Rust for the NGK and ACVV, and by Dr Kotie Kruger and Dawid Malherbe for the ATKV Sake. Option 2: Landscaped parking area for passenger vehicles (±30 parking bays). Strictly NO taxis, NO delivery trucks, NO busses, and NO public amenities.

TBC	Infrastructure Services	2	Removal of the parking bays on the west side of Hugenote Street between Berg and De La Rey Street and widening the sidewalks	Infrastructure Services	Roads, Transport and Storm Water (RTS)	For more than a century, people who frequented or visited Franschhoek by car, could park opposite, near or next to their preferred destination in the main street. Removing the existing parking bays on the western side of Huguenot Street will have a deleterious effect on the touristic and residential appeal of Franschhoek. This proposed change will endanger Franschhoek's ambience and character by drastically increasing (and channelling) the traffic into the quiet neighbourhoods. (Refer to Notice of Objection, 24 February 2022.)	Keep parking as is. The narrow main street is a natural traffic pacifier, ensuring thoroughfare traffic drive slowly and safely through town.
TBC	Infrastructure Services	2	Closure of the southeast side of Church Street and conversion of the existing road into a public amenity area	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Removing the existing parking bays in Church Street (to create a public amenity area and new focal point for the village) are ill-advised and will also have a deleterious effect on the touristic and residential appeal of Franschhoek. This will furthermore drastically increase the traffic in the quiet neighbourhoods, forcing vehicles to use, amongst others, Dirkie Uys Str and to park on Erf 1538. Bringing herewith neighbourhood-unfriendly transportation such as taxis, delivery trucks, and busses into the area; putting at risk the safety of scholars, residents, and elderly pedestrians, not to mention the accompanying menace of littering, loitering and noise pollution. (Refer to Notice of Objection, 24 February 2022.)	Retain the status quo and existing parking but add an additional 10 diagonal parking bays next to informal traders (±50 parking bays in total).

Please register the DJ Malherbe Family Trust as an affected party. The trustees strongly oppose the priorities as set out in above mentioned IDP.

Yours truly,

DJ Malherbe
On behalf of the DJ Malherbe Family Trust

Notice of Objection

24 February 2022

Attention: Stellenbosch Mayor, Stellenbosch Municipal Manager and Chairperson of FHRPA

Dear Advocate van Deventer, Ms Mettler and Ms Alberts,

RE: FRANSCHHOEK MASTER PLAN, submitted by Franschhoek Heritage & Ratepayers Association (June 2021)

The undersigned owners and official representatives of the properties bordering the old tennis courts (Erf 1538; Addendum 1), and other parties of interest (the co-signed) strongly object to the plans for Ward 1, as proposed in the above-mentioned master plan (Addendum 2) and communicated in an article published in Franschhoek Tatler of February 2022 (Addendum 3).

Franschhoek is an historic Boland town known for its vibrant tree-lined main street with cafés and shops, and its charming and peaceful neighbourhoods within walking distance from commercial amenities. For more than a century, people who frequented or visited Franschhoek by car, could park opposite or next to their preferred destination in the main street. Removing the existing parking bays on the western side of Huguenot Street and in Church Street (to create a *public amenity area and* new *focal point for the village*) are ill-advised and will have a deleterious effect on the touristic *and* residential appeal of Franschhoek.

The proposed changes will endanger Franschhoek's ambience and character by drastically increasing the traffic in the quiet neighbourhood. Forcing vehicles to use, amongst others, Dirkie Uys Str and to park on Erf 1538. Bringing herewith neighbourhood-unfriendly transportation such as taxis, delivery trucks, and busses into the area; putting at risk the safety of scholars, residents, and elderly pedestrians, not to mention the accompanying menace of littering, loitering and noise pollution. This will have an immediate and severe negative effect on the value of adjacent properties, conflicting with municipal policy that states, "structures ... not be unsightly or objectionable ... [or] derogate from the value of adjoining or neighbouring properties."

To work towards a better outcome for the town of Franschhoek *and its residents* we propose the following changes to the mentioned "master plan":

- Huguenot Str/Main Str: Keep parking as is.
- Erf 1538 (the old tennis courts):
  - Option 1: Attractive retirement complex with ample parking (in basement and on Dirkie Uys Str ±30 parking bays). Together with Franschhoek Hospice and the Fleur de Lis old age home this will provide a harmonious care-hub for the town. Presentations in this regard were made in the past by Prof Isak Rust for the NGK and ACVV, and by Dr Kotie Kruger and Dawid Malherbe for the ATKV Sake.
  - Option 2: Landscaped parking area for passenger vehicles (±30 parking bays). Strictly NO taxis, NO delivery trucks, NO busses, and NO public amenities.
- Church Str: Retain the status quo and existing parking but add an additional 10 diagonal parking bays next to informal traders (±50 parking bays in total).
- Town Hall (eastern side adjacent to Dirkie Uys Str): Optimising existing parking by formalising this area ensuring an additional 16 parking bays (±32 parking bays in total).
- Other supplementary parking options - private and public - exist and can be further investigated.

We request your soonest response to our objection.

Yours truly,

The undersigned

Mr L Hugo (Huis Fredagh, DRC)

Mr M vom Ende

Ms A Gouws (Fleur de Lis, Franschhoek ACVV)

Mr DJ Malherbe (DJ Malherbe Family Trust)

Ms C Douglas (Franschoek Hospice)

Ms M Foster

We, the co-signed parties of interest, support the above-mentioned Notice of Objection and approve of the proposals herein tabled by the six owners or official representatives of the properties bordering the old tennis courts.

Addendum 2: Excerpt from Franschhoek Masterplan (June 2021)

CENTRE – THE OLD TENNIS COURTS & INFORMAL TRADERS

The Old Tennis Courts

The Informal Traders on Church Street

STATUS

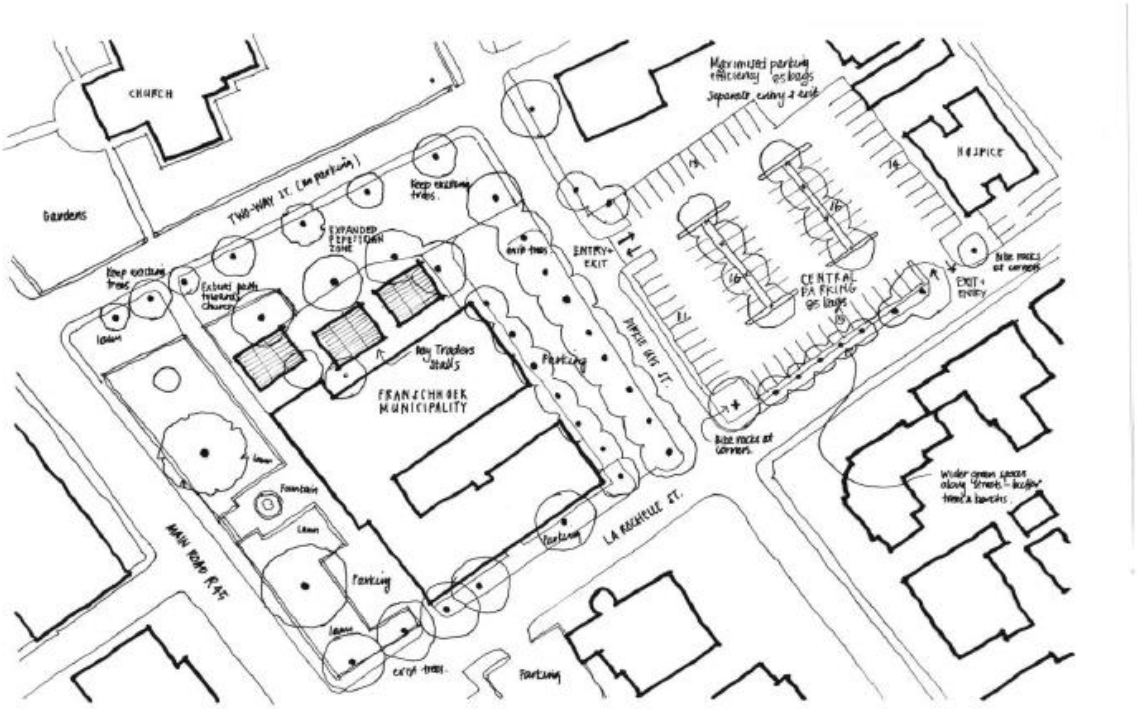
The first iteration of the following proposal was submitted to the Municipality on 2nd March 2021 and modified after subsequent discussions.

After confirming funding and a time table with the Municipality, the FHRPA will commence work on a detailed plan for a central village garden and concept plans making Huguenot Street more pedestrian friendly.

GOAL

To strengthen the quality of the village centre by creating a focal point that:

- is available to the public as a central village garden on the informal traders' side of Church Street where residents and visitors can meet, relax and enjoy views of the Church, the Town Hall and the mountains;
- in collaboration with the Dutch Reformed Church can be used together with their grounds for festivals and events.



COMPONENTS:

The proposal has been specifically developed with a view to minimizing cost. All existing trees and services will be retained.

- The unused Old Tennis Court Car Park will be levelled, and laid out to provide +/- 80 bays with entries and exits from/to Dirkie Uys and La Rochelle Streets;
- The 40 bays in Church Street will be removed to the Old Tennis Court Car Park.
- The informal traders' side of Church Street will then be closed and laid out as the central village garden with new trees and landscaping.
- Additional amenities may include a tourist information kiosk, band-stand, fountain, seating, giant chess board and a coffee station added incrementally and possibly funded by private contributions.
- The other side of Church Street will be a two-way street connecting Huguenot Street to Dirkie Uys Street and the Old Tennis Court Car Park;

DELIVERY:

The Association is ready to assist the Municipality in further developing the designing of this concept as soon as the IDP process is completed and funding is approved.

FHRDA - HERITAGE COMMITTEE
CONCEPT PLAN
Central Village Parking & Landscape (1:500)
1 APRIL 2021

Addendum 3: An Agenda for Franschhoek, Franschhoek Tatler, p.3 (February 2022)

An Agenda for Franschhoek

As required, the new Stellenbosch municipal council elected in November 2021 is preparing an Integrated Development Programme (IDP) for the next 5 years. It will be a rolling programme reviewed and adjusted annually. Come the next municipal elections in 2027, the council can be judged on how far and well it has fulfilled its IDP.

In response to the call for proposals for inclusion in the IDP, the Franschhoek Heritage & Ratepayers Association (FHRPA) submitted a list of development and other projects – an Agenda for Franschhoek.

Top of the list for Ward 2 is the very long overdue development of Erf 412 – the open space in Groendal by the R45 – for middle income housing and as an economic hub as proposed in a submission first made to the council in 2003 and also last year by the FHRPA. Its other proposals for Ward 2 include a traffic circle at the intersection of the R45 and Le Roux Street, speed bumps before the intersection of Le Roux and Stiebeuel Streets in Groendal, street lights on the R45 from Robertsvlei Road up to the R301, security cameras at crime hotspots and an upgrade of the sewage system in Blossom Street in Groendal.

The FHRPA's IDP proposals for Ward 1 include the upgrading of the "tennis court" car park to provide +/- 80 bays, removal of parking bays on the west side of Huguenot Street and widening the sidewalk, converting the side of Church Street by the informal traders into a public amenity area and focal point for the village, paving the Reservoir Street sidewalk up to the Fransche Hoek Estate, development of an amphitheatre and wine museum in the old Circus Ground, development of a taxi holding area, policies to limit and control short term letting of houses and flats as well as "formula restaurants" in the Historic Area.

The FHRPA also proposed a beautification scheme with flowers and plants from the entrance to Groendal to the Monument to enhance our visitors' experience.

Many other proposals for both wards were submitted by residents. They will all be considered by the new Ward Committees when they meet after their election on 24th January. The Ward Councillors will then rank them in priority on a scale of 1 to 5 and submit the list to the administration which will draft the IDP. After approval of the draft IDP by Council it will be published for public comment and then adopted by Council.

To: Gurswin Cain
Subject: [EX] Proposal to IDP stellenbosch :ECO project application for the IDP draft stellenbosch municipality ❤️

Hello Mr Cain , Hope that you are well 😀! Natalie Fortuin from CWDM has sent me your contact details , I have met with numerous Ward council members (Joseph joon, Annemarie ferne , Reginald and Mayco commitee member) to discuss the project proposal and I have also sent it to them .
Mr Cain I believe this is what the communities of stellenbosch needs, Our Youth is busy dying within the hands of gangsters control , they tend to see no vision beyond being a gangster.
Young children are busy abandoning their parents just to be on the street . Our Youth and children needs to be held away from the thing's that's holding them BACK !
IT IS TIME THAT THE MUNICIPALITY ACT ON THEIR WORD ! For long enough we haven't seen development among our Youth , we are tired of seeing Youth get lost within the brutality of this world.
#BE THE CHANGE YOU WANT TO SEE ☝
Our communities needs a GO TO PLACE (A PLACE FOR THE BROKEN AND ABUSE WOMEN AND CHILDREN , A PLACE WHERE THE OUTCASTS ARE WELCOME, A PLACE EVERYONE WILL CALL HOME)
We need to be the hands and the feet of our communities. Sir This is Really what we need ❤️. This project would honestly impact the lives of our future leaders to come

Here I have attached the proposal, please let me know when you are available for me to do a walk-in at your offices.

PROPOSAL BY :ETHAN SCHEEPERS

I'M WHITING THIS PROPOSAL AIMING TO UPLIFT AND EXPOSE HIDDEN TALENT WHITIN OUR STELLENBOSCH MUNICIPALITY COMMUNITY.

INTRODUCTION:

This is an dream for the greater stellenbosch municipality community by an individual from stellenbosch, AIMING to help Children and the Youth within our community reaches it's full potential and development skills .

With the helping hands from our communities I believe this project AIMING to provide valuable guidance and mentorship to the children.

I believe the need to educate tomorrow's leaders is highly important therefore we'll make sure our children remain safe and

well taken care of.
(BE the change you want to see)
We believe in making in the change our government needs.

●We AIMING to employ 4 individuals running the project with the help and support of our stellenbosch municipality, community and it's religious organizations.

●we believe that children we will help will then one day be able to give back and serve stellenbosch municipality for helping them when needed .

●Children is the future leaders of tomorrow.

●We'll also help them grow spiritual and emotional (we'll likely get the Stellenbosch university to stap in)

▢ HELPING HANDS

-stellenbosch municipality

-Communities of stellenbosch

-STELLENBOSCH UNIVERSITY

-Religious organizations of stellenbosch

VISION FOR 2022

in 2022 we'd like to get the project up and running. We believe to equip our future leaders and role models.

For the rest of 2022 we dreaming to achieve our goal by helping the less fortunate children & unemployed youth reach their full potential and get their appetite back for reaching their dreams . Mentorship programs will help us stay connected to the Youth.

The change of a nation starts with taking one Step at a time .

- ***MISSION FOR 2022***

-To do what we dream to achieve
-project running
-empower 7 individuals with work within the project
-30 children will be apart of our program.

- -Daycare& After school care registered with 50 children from stellenbosch municipality communities (less fortunate and not in school)

GOALS FOR 2022

- get some role play in action , we AIMING to host an show where the children perform their talents and what they're learned throughout the year to sat thank you to stellenbosch municipality and everyone who's involved and that helped.
-That the Youth may know that they are loved by Jesus and that the love of God has never left their site .

PROJECT MANAGEMENT

1. project manager: Ethan Scheepers
2. Project development: Emily Flandorp
3. Children's facilitator: Ethan Scheepers and Juff Amy .
4 . Culture and sports: Nikita Andrew's
5. Helping hands : Robert Brown & Emily neft

Dear Ms. Mettler,

Re: Comments: Draft Fifth Generation IDP 2022 – 2027 (Ward 1)

Please find herewith my written objection to the following proposals as tabled under section 8.6.1. Ward Priorities: Ward 1 (pp. 229-230). My comments and proposals in the green columns should be read together with the Notice of Objection of 24 February, submitted to the mayor and yourself.

Note: I am a co-signee of the Notice of Objection *Colleen Douglas* CEO of *Erf 253*.

IDP Ref No	Ward Priority	Priority Ranking (1-5)	Description of Ward Priority	Linkage to Directorate	Linkage to Department	Comment	Proposal
TBC	Infrastructure Services	2	Establishment of parking area at the back of Franschhoek Town Hall / Franschhoek Municipal Offices for use of Taxis during the day and public after operating hours	Infrastructure Services	Roads, Transport and Storm Water (RTS)	This area is located next to a residential area and all the neighbouring property owners have demanded that no taxi rank/facility is to be situated in this neighbourhood. The construction of a Franschhoek Taxi Rank across the Franschhoek Wine Tram Terminal (PRASA Property) should offer ample parking space for taxis and will be a viable alternative to this ward priority. (Refer to Notice of Objection, 24 February 2022.)	Optimising existing parking by formalising this area ensuring an additional 16 parking bays (±32 parking bays in total) for passenger vehicles only.
TBC	Infrastructure Services	2	Upgrading of the Municipal Parking area on the corner of Dirkie Uys- and La Rochelle Street	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Erf 1538 (old tennis courts): This development should be viewed with the other two proposals (below), which will have an immediate and severe negative effect on the value of adjacent properties, conflicting with municipal policy that states, "structures ... not be unsightly or objectionable ... [or] derogate from the value of adjoining or neighbouring properties." (Refer to Notice of Objection, 24 February 2022.)	Option 1: Attractive retirement complex with ample parking (in basement and on Dirkie Uys Str ±30 parking bays). Together with Franschhoek Hospice and the Fleur de Lis old age home this will provide a harmonious care-hub for the town. Presentations in this regard were made in the past by Prof Isak Rust for the NGK and ACVV, and by Dr Kotie Kruger and Dawid Malherbe for the ATKV Sake. Option 2: Landscaped parking area for passenger vehicles (±30 parking bays). Strictly NO taxis, NO delivery

							trucks, NO busses, and NO public amenities.
TBC	Infrastructure Services	2	Removal of the parking bays on the west side of Hugenote Street between Berg and De La Rey Street and widening the sidewalks	Infrastructure Services	Roads, Transport and Storm Water (RTS)	For more than a century, people who frequented or visited Franschhoek by car, could park opposite, near or next to their preferred destination in the main street. Removing the existing parking bays on the western side of Huguenot Street will have a deleterious effect on the touristic and residential appeal of Franschhoek. This proposed change will endanger Franschhoek's ambience and character by drastically increasing (and channelling) the traffic into the quiet neighbourhoods. (Refer to Notice of Objection, 24 February 2022.)	Keep parking as is. The narrow main street is a natural traffic pacifier, ensuring thoroughfare traffic drive slowly and safely through town.
TBC	Infrastructure Services	2	Closure of the southeast side of Church Street and conversion of the existing road into a public amenity area	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Removing the existing parking bays in Church Street (to create a public amenity area and new focal point for the village) are ill-advised and will also have a deleterious effect on the touristic and residential appeal of Franschhoek. This will furthermore drastically increase the traffic in the quiet neighbourhoods, forcing vehicles to use, amongst others, Dirkie Uys Str and to park on Erf 1538. Bringing herewith neighbourhood-unfriendly transportation such as taxis, delivery trucks, and busses into the area; putting at risk the safety of scholars, residents, and elderly pedestrians, not to mention the accompanying menace of littering, loitering and noise pollution. (Refer to Notice of Objection, 24 February 2022.)	Retain the status quo and existing parking but add an additional 10 diagonal parking bays next to informal traders (±50 parking bays in total).

Please register *FRANSCHHOEK HOSPICE* as an affected party. We Franschhoek Hospce strongly oppose the priorities as set out in above mentioned IDP.

The construction of a Franschhoek Taxi Rank across the Franschhoek Wine Tram Terminal (PRASA Property) should offer ample parking space for taxis and will be a viable alternative to this ward priority. (Refer to Notice of Objection, 24 February 2022.)	Optimising existing parking by formalising this area ensuring an additional 16 parking bays (±32 parking bays in total) for passenger vehicles only.
TBC	Infrastructure Services	2	Upgrading of the Municipal Parking area on the corner of Dirkie Uys- and La Rochelle Street	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Erf 1538 (old tennis courts): This development should be viewed with the other two proposals (below), which will have an immediate and severe negative effect on the value of adjacent properties, conflicting with municipal policy that states, "structures ... not be unsightly or objectionable ... [or] derogate from the value of adjoining or neighbouring properties." (Refer to Notice of Objection, 24 February 2022.)	Option 1: Attractive retirement complex with ample parking (in basement and on Dirkie Uys Str ±30 parking bays). Together with Franschhoek Hospice and the Fleur de Lis old age home this will provide a harmonious care-hub for the town. Presentations in this regard were made in the past by Prof Isak Rust for the NGK and ACVV, and by Dr Kotie Kruger and Dawid Malherbe for the ATKV Sake. Option 2: Landscaped parking area for passenger vehicles (±30 parking bays). Strictly NO taxis, NO delivery

							trucks, NO busses, and NO public amenities.
TBC	Infrastructure Services	2	Removal of the parking bays on the west side of Hugenote Street between Berg and De La Rey Street and widening the sidewalks	Infrastructure Services	Roads, Transport and Storm Water (RTS)	For more than a century, people who frequented or visited Franschhoek by car, could park opposite, near or next to their preferred destination in the main street. Removing the existing parking bays on the western side of Huguenot Street will have a deleterious effect on the touristic and residential appeal of Franschhoek. This proposed change will endanger Franschhoek's ambience and character by drastically increasing (and channelling) the traffic into the quiet neighbourhoods. (Refer to Notice of Objection, 24 February 2022.)	Keep parking as is. The narrow main street is a natural traffic pacifier, ensuring thoroughfare traffic drive slowly and safely through town.
TBC	Infrastructure Services	2	Closure of the southeast side of Church Street and conversion of the existing road into a public amenity area	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Removing the existing parking bays in Church Street (to create a public amenity area and new focal point for the village) are ill-advised and will also have a deleterious effect on the touristic and residential appeal of Franschhoek. This will furthermore drastically increase the traffic in the quiet neighbourhoods, forcing vehicles to use, amongst others, Dirkie Uys Str and to park on Erf 1538. Bringing herewith neighbourhood-unfriendly transportation such as taxis, delivery trucks, and busses into the area; putting at risk the safety of scholars, residents, and elderly pedestrians, not to mention the accompanying menace of littering, loitering and noise pollution. (Refer to Notice of Objection, 24 February 2022.)	Retain the status quo and existing parking but add an additional 10 diagonal parking bays next to informal traders (±50 parking bays in total).

Please register *FRANSCHHOEK HOSPICE* as an affected party. The trustees strongly oppose the priorities as set out in above mentioned IDP.

Yours truly,

DJ Malherbe
On behalf of the DJ Malherbe Family Trust

The Municipal Manager

Stellenbosch Municipality

Stellenbosch

Per email.

COMMENTS ON THE DRAFT IDP 2022-2028 FOR STELLENBOSCH

I have read the IDP with the aim to comment specifically on the proposed development in Kayamandi. The IDP for the period 2018 to 2022 stated a number of actions and aims for the redevelopment of Kayamandi but the present municipal administration failed dismally to implement the planned actions for Kayamandi.

The question now is what the Municipal management plan for the next five years for Kayamandi.

Why is it needed to focus on Kayamandi? The aim is for Stellenbosch to be a Smart City. A smart City with a neglected neighbourhood like Kayamandi where almost half of the town's population lives in desperate and perilous conditions. The 2022 IDP, like the previous IDPs does not follow a logical and responsible route towards equitable and just human development.

It is stated on page 31` of the IDP that "increased risk of land invasion "is the highest strategic risk for Stellenbosch. The seriousness of land invasion is acknowledged by the authors of the IDP. The AZANIA land invasion is still very much in our minds and the glare of the shack houses high on the hill to the west is a daily reminder of what has and can again happen in our town.

The actions planned for the development of Kayamandi do not address the stated risk of land invasion as well as the discontent of the inhabitants of Kayamandi. The risk is identified but nothing is planned to remedy the risk. **This is a gross oversight in the IDP.**

As a resident of Stellenbosch I am not content with only a statement of the high risk of regarding the unstable and dissatisfied community that is a direct neighbour. As Dr Anton Rupert said many years ago "a man cannot sleep peacefully if your neighbour is in pain and dissatisfied with life.

The actions planned in the 2022 IDP for Kayamandi are the same old actions as before.

•	Human Settlements	Infrastructure Transfers - Capital	200510	3258 - ISSP Kayamandi Town Centre (1000 sites) UISP	R3 000 000

This is a negligible amount to be spent over five years.

• Human Settlements	Infrastructure Transfers - Capital	200136		ISSP Kayamandi Zone O (711 units) IRDP4	R49 140 000

This looks like a serious attempt to improve the conditions. The question is do the Municipality have plans ready to implement the development in five years.

Planning and Economic Development	Department: Integrated Human Settlements	NKPA 1	SFA 4	Obtaining development rights for mixed-use development for Northern Extention, Kayamandi	Percentage of the Northern Extention, Kayamandi Capital Budget actually spent 30 June	12,13,14,15	90%

Is this linked to the Aurecon study? If so, what happens after the study? Are we going to wait for another five years for something to happen on the ground?

Dear Municipal Manager and staff, I understand that you have to look at all the demands for development in the Stellenbosch area .This is a daunting task, BUT, you must prioritise. Kayamandi development is a priority. If the development of Kayamandi is not addressed the rest of the beautiful plans will not succeed. No Smart City, no corridor, no Klapmuts! Look around the world and realise the seriousness of revolt by the unsatisfied and poor masses.

1. I ask that you reprioritise the development plans to give much greater attention to the development of Kayamandi
2. I suggest that you partner with the huge potential of intellectual and planning capabilities in our town, In the IDP it is stated that the Municipality do not have the expertise and manpower to undertake all the massive tasks. Use the resources available in our town- University, NGOs, retired professionals, etc.
3. You also state in the IDP that processes should be streamlined. JUST DO IT!!. All the Municipal regulations and bylaws, developed over so many years are a block to development. Be brave and lead SALGA and other municipalities to help South Africa accelerate development. Again -- mobilise and incorporate the expertise in our town.

Let it not be said of this Stellenbosch Municipal administration-" to little too late"

Regards

DJ Janse van Rensburg Pr Eng

PUBLIC COMMENT: DRAFT 5TH GENERATION INTEGRATED DEVELOPMENT PLAN (IDP)2022 - 2027 AND DRAFT BUDGET 2022/23

Ward 6

1 Youth Employment
2 a Frail Care Centre is a priority
3 There has neve been a frail care centre in Idas Valley and it is a serious problem for the elderly and their families
4 Food parcels on monthly bacis
5 Besienswaardigheids besoeke for the elderly
6 Community swimming pool in Idasvalley
7 Stilte bord buite Noah house vir motors wat sound polution
8 Block of Municipal flats for the elderly
9 Outings for the eldery to different parks etc.
10 Indoor sports facillities for the communities
11 Solar Panel Geysor
12 Idasvalley Gemeenskap saal
13 Idasvalley markie die verhuring is te duur
14 Idasvalley Wetstoepasser meer sigbaar wees
15 Idasvalley Dam Risiko Analise Grond Audit
16 Verswakte sorg eenheid in Idasvalley
17 Frail care Centre , daar is nerens om heen te gaan as ek afhanklik en siek word nie. Hier by Noah huis is daar nie so 'n diens nie.
18 Benodig van ligte. Meer sekuriteit in straat Botmanskop
19 Meer Beligting in bring, Meer Polisie in ons omgewing
20 Nuutvoorbij - Swak paaie, Beligting is swak in woonbuur, krag bo normale bedrag
21 High rates of electricity , safety on farm, lights not working, safety of children, transport for elderly and children
22 Nuutvoorbij - Krag tariewe is nie bekostigbaar nie,
23 Nuutvoorbij - krag eenhede is te min vir die geld waarvoor jy betaal.
24 Nuutvoorbij- Opknapping van gemeenskap saal.
25 Nuutvoorbij - Herstel van paaie
26 Nuutvoorbij - Stormwater pype regmaak, want alles is verstop
27 Nuutvoorbij - Polisie moet sigbaar wees - Dwelms uitoei uit ons gemeenskap
28 Nuutvoorbij - streets needs urgent fixing,
29 Nuutvoorbij - we want the meter boxes installing in our house to be removed, it were put in agains our wishes
30 Nuutvoorbij - we don’t see the purpose of putting in water meters we don’t want it
31 Nuutvoorbij - water leakage at houses
32 Nuutvoorbij - dirty streets (need to be clean)
33 Nuutvoorbij - No play area for kids
34 Nuutvoorbij- street lights not working , is dark at night
35 Nuutvoorbij - krane wat stukkend is
36 Nuutvoorbij - Cloetesville se gemeenskap se kinder kom plunder ook ons saal wat 'n veilgheids gevaar is, straatligte is dood
37 Nuutvoorbij - Sekuriteit by ons plaasingang sodat ons kan beheer wie in en uit beweeg
38 Nuutvoorbij- die groots is geplunder daar is 'n kleinsaaltjie op die plaas maar mag nie dit nie gebruik nie. 'n buitepersoon is in beheer daarvan.
39 Nuutvoorbij - clinic you make appointment for 8:00 but you only get helped at 12:00
40 Nuutvoorbij - safety of r44 to cross the road
41 Nuutvoorbij - prepaid electricity so expensive
42 Nuutvoorbij - playing ground for kids
43 Nuutvoorbij - Our tarr road is so bat it has potholes
44 Nuutvoorbij - transport for the kids to the tennis court
45 Idasvallei markie was goed afgeloop het 'n reunie daar gehou, maar die bedrag daarvan verbonde is buitersporig ek dink as die bedrag verminder word sal daar meer funksies gehou kan word want ons mense is nie by die vermoe vir die bedrag van R3500.00 minder in geld verband dan kan daar elke week 'n funksie of 2 wees. Anders is dit soos die mense se 'n wit olifant, want jy betaal eintlik net vir 'n dak want daar is nie eers 'n venster of 'n deur nie.
46 in Rustenburg road is 'n balletskool gelee wat baie probleme veroorsaak in die verband dat die parkering 'n probleem is vir ons bewoners want die mense gee nie om waar hulle parkeer of hoe hulle parkeer nie.

Subject: [EX] Suggestion - Groendal Sports Ground Club House and Facilities Upgrade and Fixing

Good Day

I am a resident of Franschhoek.

I would like to suggest that the sports facilities at the clubhouse of Groendal Sports Grounds to be fixed/cleaned and upgraded. Especially the cloakrooms where the rugby/sports players get changed and also the bathrooms and toilets.

For years now these facilities have been in a very bad and disgusting way.

I do know that the small Hall has been upgraded but the rest of the building is still disgusting. Sorry, but that is the only way I can describe it.

I hope this would be put onto the IDP Development Budget.

Vriendelike Groete/Kind regards
Lezel Alberts

To: idp
Subject: [EX] IDP proposal

Greetings,

I hope this email finds you well. Here is my follow-up email to share a few ideas of how the coming budget can be implemented.

As I had mentioned in my previous email, Kayamandi has been neglected time after time, and it has caused so many issues, and because of that neglect, crime and poverty is at a high. Therefore, It is important to make Kayamandi livable again, the neglect of this community is causing many socio issues. Here are a few of my ideas/requests.

Requests:

Rental flats (to eradicate shacks) and give people housing options. This is something to consider- how to make livable housing that is going to eradicate the shack situation and also contribute to the economic health of our community.

Proper sport centers- our children also deserve a proper, sport centre so they can partake in extra curricular activities they are passionate about.

Thing we would like to see in the sport center includes: An outdoor field (we have one that was not completed and needs improvement), a gymnasium (for kids to practice various sports they are and possibly be interested in, such as, netball, basketball, volleyball etc.), and a swimming pool, at least. This sport centre needs to be well managed and guarded, this will open up job opportunities for people, which aids in the economic health of this town.

Health care- We need a bigger and well resourced clinic, we need to start working towards a dental clinic since we do not have one.

Parks- we need park that have swings and slides, jungle gym, fitness equipment, fun activity stations that are kid friendly. Benches and tables, a green path for cyclists (including bike racks), joggers, appropriate lighting, a few trees for shade. You could make eco- parks/ partially eco-parks, where everything from benches to fitness equipment is made out of recycled material. The parks should have litter bins for waste + recycling.

It would be good to also include green paths that make it possible for people to walk or cycle to De Toit. from various points of the township.

Natural environment- There aren't a lot of green spaces, so having parks that are green will help foster a clean and safe environment for our children and youth to relax and enjoy.

Economic health- by investing in the community, and making sure these development plans are implemented and the money set to benefit the people is actually benefiting the people, we invest in the whole town at large. We are giving people their basic rights, so they can be resources in their communities. Thus, shaping people who can contribute to the economy of this town.

The face of Kayamandi, that is the entrance, it is appalling and it is affecting local business, Especially for community members who are in the tourism sector, they cannot run their business efficiently. The entrance is so dirty, filled with inhumane housing that tourists are becoming weary of exploring the township. The entrance makes it seem like the township is crime ridden slums. Fixing the entrance is of importance and emergency. And fixing it would be good to attract future community investors and encourage local business development.

The failure of councillors in doing their job too has cost Kayamandi a lot. So I hope the councillors that we have now will do their job to make sure that plans are implemented, and the community members of Kayamandi are treated with dignity by receiving what's due to them.

The failure of councillors in doing their job has also cost the community some donations, for example a donation that was made was for an education centre to be built in Kayamandi to assist the underprivileged learners to have access to resources that will assist their learning. That donation was directed elsewhere, and those who needed it the most did not even get the opportunity to benefit from it. The role of councillors is pivotal to the development of communities such as Kayamandi. However, we also won't hold them fully accountable because they are also run and controlled by people who do not see us as human or deserving.

Yours Sincerely,

Lillian Ngwexana

Subject: [EX] Re: IDP priorities for Ward 11

Kindly note that the quality of the fence for new installations should ideally be of a better quality, since the current fence can be cut with a standard cutting pliers.

Kindly acknowledge receipt of both e-mails.

Groete / Regards
Marius Snyman

On Thu, 28 Apr 2022 at 12:05, Marius Snyman wrote:
Dear Councillor Serdyn and Stellenbosch IDP department

I herewith wish to submit additional priorities as mentioned during the IDP online briefing session and discussed with ward committee members.

The following measures are intended to enhance the overall security of the Onderpapegaaiberg neighborhood.

1. New Roadside Fence on Oude Libertas Road (Cabernet Estate to Bokmakierie)

2. Closure of Nagtegaal Street

With increasing criminal incidents and overall desire by the residents of Nagtegaal Road (they already submitted a petition to this effect as well), it will be desirable to close Nagtegaal Street. This will help contain "walk-in" and "drive-in" crimes by limiting the number of entrances and open borders of Onderpapegaaiberg. (note the red line on House Horizon's side is being planned with private funding and where access could potentially be moved to the main guarded gate at HH for better access control to ensure the safety of residents using the area).

3. Papegaaiberg Reserve Fencing

Although the feedback on the IDP event was that fencing is complete on the Papegaaiberg Reserve, there would be benefits by restricting the borders to specific entrances to control poaching and movement which influences fauna and flora in the reserve, as well as assist in the overall safety strategy of Onderpapegaaiberg and Bosman's Crossing. Should you want more detail feels free to get in touch with me.

Groete / Regards
Marius Snyman

Dear Ms. Mettler,

Re: Comments: Draft Fifth Generation IDP 2022 – 2027 (Ward 1)

Please find herewith my written objection to the following proposals as tabled under section 8.6.1. Ward Priorities: Ward 1 (pp. 229-230). My comments and proposals in the green columns should be read together with the Notice of Objection of 24 February, submitted to the mayor and yourself.

Note: I am a co-signee of the Notice of Objection [Izak Oosthuizen] owner of Erf 269 (20 Dirkie Uys Street – Maison du Cap).

IDP Ref No	Ward Priority	Priority Ranking (1-5)	Description of Ward Priority	Linkage to Directorate	Linkage to Department	Comment	Proposal
TBC	Infrastructure Services	2	Establishment of parking area at the back of Franschhoek Town Hall / Franschhoek Municipal Offices for use of Taxis during the day and public after operating hours	Infrastructure Services	Roads, Transport and Storm Water (RTS)	This area is located next to a residential area and all the neighbouring property owners have demanded that no taxi rank/facility is to be situated in this neighbourhood. The construction of a Franschhoek Taxi Rank across the Franschhoek Wine Tram Terminal (PRASA Property) should offer ample parking space for taxis and will be a viable alternative to this ward priority. (Refer to Notice of Objection, 24 February 2022.)	Optimising existing parking by formalising this area ensuring an additional 16 parking bays (±32 parking bays in total) for passenger vehicles only.
TBC	Infrastructure Services	2	Upgrading of the Municipal Parking area on the corner of Dirkie Uys- and La Rochelle Street	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Erf 1538 (old tennis courts): This development should be viewed with the other two proposals (below), which will have an immediate and severe negative effect on the value of adjacent properties, conflicting with municipal policy that states, "structures … not be unsightly or objectionable … [or] derogate from the value of adjoining or neighbouring properties." (Refer to Notice of Objection, 24 February 2022.)	Option 1: Attractive retirement complex with ample parking (in basement and on Dirkie Uys Str ±30 parking bays). Together with Franschhoek Hospice and the Fleur de Lis old age home this will provide a harmonious care-hub for the town. Presentations in this regard were made in the past by Prof Isak Rust for the NGK and ACVV, and by Dr Kotie Kruger and Dawid Malherbe for the ATKV Sake. Option 2: Landscaped parking area for passenger vehicles (±30 parking bays). Strictly NO taxis, NO delivery trucks, NO busses, and NO public amenities.

TBC	Infrastructure Services	2	Removal of the parking bays on the west side of Hugenote Street between Berg and De La Rey Street and widening the sidewalks	Infrastructure Services	Roads, Transport and Storm Water (RTS)	For more than a century, people who frequented or visited Franschhoek by car, could park opposite, near or next to their preferred destination in the main street. Removing the existing parking bays on the western side of Huguenot Street will have a deleterious effect on the touristic and residential appeal of Franschhoek. This proposed change will endanger Franschhoek's ambience and character by drastically increasing (and channelling) the traffic into the quiet neighbourhoods. (Refer to Notice of Objection, 24 February 2022.)	Keep parking as is. The narrow main street is a natural traffic pacifier, ensuring thoroughfare traffic drive slowly and safely through town.
TBC	Infrastructure Services	2	Closure of the southeast side of Church Street and conversion of the existing road into a public amenity area	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Removing the existing parking bays in Church Street (to create a public amenity area and new focal point for the village) are ill-advised and will also have a deleterious effect on the touristic and residential appeal of Franschhoek. This will furthermore drastically increase the traffic in the quiet neighbourhoods, forcing vehicles to use, amongst others, Dirkie Uys Str and to park on Erf 1538. Bringing herewith neighbourhood-unfriendly transportation such as taxis, delivery trucks, and busses into the area; putting at risk the safety of scholars, residents, and elderly pedestrians, not to mention the accompanying menace of littering, loitering and noise pollution. (Refer to Notice of Objection, 24 February 2022.)	Retain the status quo and existing parking but add an additional 10 diagonal parking bays next to informal traders (±50 parking bays in total).

Please register Izak Oosthuizen as an affected party. The trustees strongly oppose the priorities as set out in above mentioned IDP.

Yours truly,

Subject: STELLENBOSCH IDP : WARD 20 RAITHBY INPUT

Dear Executive Mayor, Deputy Mayor, Director Boschoff and IDP officials

Thank you for your IDP presentation on Ward 20 on Tuesday 26th April.
However, also as a resident of Raithby I was disappointed to note that concerns and projects that have been long outstanding are still not on the IDP for this Heritage Village of Stellenbosch.
Kindly can consideration be given to the following input :

1: SECURITY CAMERAS ON ENTRANCES AND WITHIN RAITHBY ALSO R44/ WINERY ROAD INTERSECTION
This has been a long outstanding request- going back more than 4 years and was raised at a Community Meeting again with the Executive Mayor in October 2021. Apparently, the delay is now way leave authorisation. Surely this could have been applied for some time ago. It will be appreciated, as this obviously cannot now be in this 2021/2022 Financial year, if this can be escalated to the Premier/ or whoever needs to give approval and ensure that the project is programmed and completed WITHIN THE FIRST MONTH OF THE Financial year 2022/2023.
Crime is on the increase, and, on a monthly basis, cable theft renders the village without electricity for days on end.

2: STREET LIGHTS:
RAITHBY ROAD :This has been an ongoing problem in that the streetlights entering Raithby from the R44 side have only been installed for about 200 metres and as the street is used by many commuters on foot, it is very dangerously dark in the mornings and evenings.
WATSON WAY: HERMAN STREET: SHAW STREET: RAITHBY PARK
Numerous requests have been escalated for these continued outages to be attended to over the past 5 years.

We were assured a few months ago that the lights were to be taken over by the Municipality from Eskom. This however will not be the case, despite it being advised to the residents at the meeting that Jamestown is now being services by the Municipality.
Kindly at least give a better IDP update on the progress in trying to assist Raithby Residents in this regard on the IDP.
This was again raised at the public meeting with the Executive Mayor in October 2021

3: WATER PIPES: UPGRADE AND REMOVAL OF ASBESTOS PIPES IN MAIN ROAD/ WATSON WAY RAITHBY

The removal of all dangerous , aged ASBESTOS water pipes in Raithby needs urgent attention. Raithby often has burst pipes in particular in Winter with heavy rains. This then renders the whole of Raithby without water and albeit the escalation is attended to expediently as possible, the breakage/ leakage of thousands of litres of water is a common occurrence.

4: RAITHBY PLAYGROUND:
As discussed above the playground is very dark without lighting and is becoming a place for undesirable behaviour and loitering.
On numerous occasions officials have been asked and have visited this site to find a way of clearing the devil thorns that are injuring childe at play. Also the grounds and surrounding are completely neglected and need beautification in some way as to make it attractive and not an eyesore.
Kindly also possibly placing extra benches/ making an area for the elderly to enjoy.

5: PAVEMENT ALONG RAITHBY ROAD:
As discussed in point 2 above further to this there is a dire need for a pavement on both sides of the Road. Pedestrians comprise students coming to school, residents walking to Winery Road to catch transport and workers coming in and cyclists.
If there is vehicle coming into Raithby or going out the pedestrian has to jump out of the road and very often into the ditch. Sadly there have been a number of accidents along this road.

6: RAITHBY SPORTS FIELD WATER AND WATER DRAINAGE:
The irrigation water for the Raithby Sports Field is a problem in that the valve for the Theewaterskloof water is in the property of the Winelands Village Estate. It is in their locked gated area and they are inconvenienced to have to switch the water on and off.
The valve switch should be placed on the Pump on the Sports field and managed by the Sports Council. This has been a longstanding complaint by both the Raithby Sports and the HOA of Winelands Village. It needs urgent attention.
Rain water from the Hamlet behind the Sports field drains onto and floods the field from the corner when it rains. The pipe needs to be connected to a water conservation tank for the Sports Council to manage and use.
This complaint has been escalated on numerous occasions and needs urgent attention before the Winter rains.

7: SIGNAGE AND LINE PAINTING IN RAITHBY:
The signage in Raithby is old and dilapidated and needs to be replaced. Also ,the traffic calming humps and the street markings need to be painted.

Provincial signage off the R44 does not indicate RAITHBY and only FIRGROVE which is under City of Cape Town and well past Raithby.

8: RECYCLE PROGRAMME FOR RAITHBY:

There is an illegible sign outside the Sports Field in Raithby Road which advises “Raithby is a recycling village”. As previously requested , please can this programme be reinstalled with Recycle Bins. Raithby residents take pride and care for the environment and it can be noticed on refuse day the number of recycling bags are put out. However extra refuse bins are needed in the village.

9: R44/ WINERY ROAD INTERSECTION
This intersection continues to be a very dangerous death trap for motorists trying to feed into the R44 toward Stellenbosch or crossing to go to Somerset West or crossing to go right into Winery Road. Cyclists and motor cyclists have also recently been killed.
This very emotional unacceptable situation has been raised on numerous occasions to no avail. Further deaths should be avoided.
Despite it being a Provincial Road, the residents look upon the Stellenbosch Municipality to hear their plight.

10: ALIEN ERADICATION IN BIODIVERSITY AREA and RIVER/ STREAM
The Biodiversity in North of Raithby is now being inundated with the Port Jackson and other aliens. This area needs urgent attention.
The river/ stream that runs along the south side of Raithby is also blocked with alien vegetation and is creating a flood danger in the Winter months when there is heavy rainfall.

11: BEAUTIFICATION OF TOWN:
RAITHBY is a very historical and lovely village within Stellenbosch. The 3 new estates are increasing the rates base considerably. Most of the village houses are old but kept neat by their owners.
It is time that the village itself is given an uplift in beautifying the village for all to enjoy.
Fortunately , the Forward Foundation have painted the whole wall which was unsightly around the Sports Field at their costs.
However, a programme to “Beautify Raithby” will be appreciated.

The above is as a result of engagements I have had with residents in the area as a concerned Resident and Ratepayer.

Kind regards / Vriendelike groete

SANCO (Klapmuts)

South African National Civic Organisation
WCO24, Ward 18, Klapmuts
Email: sancoward18wco24@ gmail.com

Date: 28 April 2022

Dear Municipal Manager: Ms Geraldine Mettler
Executive Mayor: Ms Gesie van Denventer
Speaker: Mr Quinton Smit

Re: 5th Generation 2022 – 2027, online IDP Public Participation process of Ward 18, Klapmuts

We, the community organization SANCO in collaboration with the Klapmuts Community Development Forum hereby acts on behalf of the community regarding the said matter. We feel aggrieved and wish to forward our objections as follows;

1. The IDP public participation were not properly advertised as well as conducted and as a result only a maximum of 10 people attended the online IDP and the rest were all officials of Stellenbosch Municipality.
2. No loud hailing were done in our ward pertaining to the online IDP meeting which took place on the 21st of April 2022, irrespective of the fact that it was scheduled to take place online. It was however on a short notice advertised and therefore can been seen as an unreasonable and unfair process.
3. The online IDP meeting was scheduled to take place at 18:00 and therefor the time (18:00) were to early for most of the residents of Klapmuts because a lot of people were still working or were either on their way from work to home.
4. Most of the people in the community could not partake or attend the meeting because it was online and they have limited or no resources and data to participate in the public process. The Stellenbosch municipality therefore was obligated to put other alternatives in place in order for an efficient, effective and fair IDP public participation process.
5. Our previous IDP meeting was held in the Multi-Purpose Centre, Klapmuts under the Disaster Management regulations and now during the time that the Disaster Management regulations were terminated by the President of our country yet we as the community of Klapmuts couldn't receive full and accurate services to exercise our rights to fully participate in IDP process as

per the norm in our community hall. Why not? And this while the majority of our people are poor backyarders, or living in informal settlements and many lost their employments during the Covid-19 pandemic.

Therefore, in light of the above concerns, the community of Klapmuts hereby request that the IDP meeting be reviewed and be rescheduled to take place in our Multi – Purpose Centre in order for the residents of Klapmuts and all relevant Stake-holders to attend and exercise their rights fairly in order for the 5th Generation 2022 - 2027 IDP Public Participation to be passed in an orderly and fair manner.

We thank you for attending to our letter of objections and urgently await feedback from your office on the way forward regarding the above.

Kind regards,
Mrs. MC Jason
SANCO- Deputy Chairperson

Good day

This email relates to the IDP online discussion of 26 April 2022 for Jamestown. I would like to raise the concern to the effect that the absence of speed humps in part of Jamestown has. Vehicles tend now to route to streets like the mentioned to exceed the speed limit. These roads have seen increase in traffic and speed due to the mentioned. Please bring this to the attention to the relevant departments.

Kind regards/Vriendelike groete

Subject: [EX] Re: Public Comment on the Draft 5th Generation IDP 2022 – 2027 and Draft Budget 2022/23 – 2024/25
Attachments: 0.png; 1.jpg; 3.png; 2.png

Good evening

Thanks for the opportunity to raise my concerns. I sincerely hope that the matter of the noise complaint can come to an end.

I look forward to seeing the warning signs to be erected as this will ultimately help the law enforcement officers to enforce the bylaws on these individuals.
I have mentioned that everything that is illegal takes place at night at this space, from old men having sex with young girls to drugs to making fire in a public open space running the risk of a veldfire.
The spinning and dicing of cars up and down the road day and night is also unacceptable. We have small kids and very old pensioners living here.

The streetlight needs to fixed and a proper speed hump must be build to break the speed of these drunken drivers.(it still bother me that these people are allowed to drive under the influence alchohol and drugs in the presence of law enforcement.)
Perhaps traffic must come on board and more roadblocks must be planned randomly in Kylemore.

Isn't it possible to tap into the cctv cameras of the farm directly opposite the school to help monitor and gather information on these matters?

Can you please give me a date and time for the investigation for the building of the speed hump that will be conducted as this is a very urgent matter of concern for the safety of the children that lives here.

Councillor Adams, I hope that we can count on your assistance to speed up this matter.

I look forward to hearing from your offices within the next 7 working days.

Regards
Wade Thys

IDP Public Participation Period 4 April 2022 - 28 April 2022

Members of the community can participate in the Draft 5th Generation IDP 2022 – 2027 and Draft Budget 2022/23 – 2024/25 by using the following platforms:

- Municipal Website: www.stellenbosch.gov.za;
- Stellenbosch Citizen App: Download from Google Play Store, iStore, Windows Store and Java;
- WhatsApp: 067 427 1556;
- Email: idp@stellenbosch.gov.za; and
- "Have your Say" forms will also be available at all libraries and ward offices during normal office hours.

Should you wish to submit your inputs **verbally** during an online public participation meeting, please see in the table below the MS Teams link for your specific ward.

- Send a WhatsApp to 0674271556
- Use our website form: bit.ly/3x8Wpa9
- Email idp@stellenbosch.gov.za
- View and share this video on our Youtube channel here: https://www.youtube.com/watch?v=ONpq8fP5610

Attend your online IDP ward meeting, as per the schedule below:

ONLINE IDP AND BUDGET PUBLIC PARTICIPATION MEETING SCHEDULE: 20 APRIL 2022 – 26 APRIL 2022

Date	Wards	Ward Councillor/s	Meeting Type: MS Teams Link	Times

Dear Ms Mettler,

STELLENBOSCH BRIDGE DEVELOPMENT, KLAPMUTS: PROPOSAL RE BULK INFRASTRUCTURE FUNDING for 2022-2025 IDP Budget purposes

Our previous letters dated 12 January 2022 (attached) and 9 February 2022 (attached) and the discussions on Thursday, 14 April 2022 with yourselves, refer.

In view of the capital budget constraints of the municipality, as explained at the meeting, we revisited our proposal for funding as set out in the threshold table attached to the previous letter in order to accommodate the municipal budget constraints. The revised threshold table is therefore attached for your favourable consideration and input into the current IDP budget process.

The funding now requested to be included in the 2022/2023 capital budget of the municipality (Year 1) is only **R 10,0 million** instead of the previously proposed R 50, 5 million.

Stellenbosch Bridge will still make provision for the funding of the R 37,9144 million during year 1 as indicated in the threshold table as well as any shortfall during year one relating to the implementation of the railway underpass.

Based on the discussions with regard to access to the N1 the threshold table has been changed to bring the implementation of the N1/Hoopenberg Road interchange forward to year 2 (2023/2024) and rather postpone the upgrade of the N1/R44 interchange as this intechange upgrade is also a condition of approval for another proposed development in Klapmuts.

The municipality is also requested to budget for R 20 million for the 2023/2024 financial year (Year 2) and R 20,5 million for the 2024/2025 financial year (Year 3) in order to provide for the shortfall relating to the funding of the railway underpass of R 50,5 million originally proposed to be budgeted for during Year 1 (R 10,0 million +R 20,0 million + R 20,5 million = R 50,5 million). Stellenbosch Bridge Properties commit to spending R 116 652 666.67 over the next three years excluding all costs relating to electrical infrastructure which we have to fund ourselves.

We trust that by amending the threshold table to provide for the above mentioned proposals will make it possible for council to include those amounts in the three year capital budget. Thank you for your past commitment to the Klapmuts area. Together, we can make this exciting project happen in the near future. NB – The Stellenbosch University donation agreement was signed by both parties on 17 December 2021 and we are confident that this initiative also has great momentum.

We firmly believe the Stellenbosch Bridge project will transform Klapmuts and surrounding areas and become another landmark town for Stellenbosch Municipality.

We understand that you are considering our proposal on 18 and 19 May and would appreciate formal feedback before the end of May 2022.

Regards

KLAUS-GUSTAV GÖBEL

Your Ref: **COMMENTS: REVISED 5TH GENERATION IDP 2022-2027**

Date: 12th January 2021

Municipal Manager
Stellenbosch Municipality
PO Box 17
Stellenbosch
7599

Dear Ms Mettler,

RE: NOTICE FOR PUBLIC COMMENT - 5th GENERATION INTEGRATED DEVELOPMENT PLAN (IDP) PUBLIC PARTICIPATION

STELLENBOSCH BRIDGE DEVELOPMENT, KLAPMUTS – PROVISION OF BULK INFRASTRUCTURE IN LIEU OF DC'S

Further to our virtual meeting on 11 November 2021 with yourselves and our Messrs Klaus Göbel, Lorne Dawson, Shaun Seeliger and our civil engineering consultant, Mr Piet van Blerk from UDS Africa, refers.

During the course of the meeting the topic of funding of bulk infrastructure for the Stellenbosch Bridge development was discussed and it was requested by yourselves that Stellenbosch Bridge submit a formal proposal letter for the proposed funding of bulk infrastructure required for the development. If supported by yourselves and Mr Deon Louw, the letter will be submitted to council for consideration. This letter is thus in response to your request.

A. BACKGROUND

The Stellenbosch Bridge development is a 'mixed-use innovation precinct'/'smart city' proposed in Klapmuts, with the purpose of developing accompanying land uses to support a live-work-play principle. The said land uses include residential, business, industrial, institutional, etc.

Planning approval has been received for the first two applications consisting of Application 1 (1 577 residential units and 28 000 m² GLA commercial development) and Application 2

Stellenbosch Bridge Properties (Pty) Ltd, Cuthberts Building, 33 Plein Street, Stellenbosch, 7600
VAT No: 4170211983, Reg No: 2003/024513/07

Directors: SR Seeliger (Executive Chairman), KG Göbel (Executive), R Göbel (Executive), JS Loftie-Eaton, J De V Du Toit, HD Edeling, DE Kriel, A Roux

www.stellenboschbridge.co.za

(76 925 m² GLA light industrial). The developer will submit the third application, i.e. Application 3, in the short term (first quarter of 2022). A further application, Application 4, will follow thereafter. It is anticipated that the implementation of the proposed development of Application 1 and 2 will take between 3 to 7 years.

We can also now inform you that an agreement has been reached with the Stellenbosch University for a donation to the university of 30ha of land and 60 000m² of bulk. This agreement was signed by both parties on 17th December 2021. The agreement is confidential but on written request a copy may be made available for the municipality to analyse and evaluate.

Stellenbosch Bridge intends to start with the implementation of the approved development during 2022 but only once written agreement regarding bulk infrastructure spending requirements has been agreed with the Stellenbosch Municipality. The provision of bulk services to the development can commence during the second part of 2022 and the first bulk infrastructure required will consist of the construction of the railway underpass that will connect Stellenbosch Bridge development with the Old Paarl Road at a cost of ± R 50 million (VAT excluded).

The connection from Stellenbosch Bridge to the existing Klapmuts via Stellengate Boulevard will follow during the later phases of the development. Other bulk roads infrastructure required for the development and other developments in the area will include, inter alia, the upgrading of the N1/R44 interchange, intersections along the R44 and Old Paarl Road and a new interchange at the existing Hoopenberg Road road-over-road bridge across the N1.

These very costly road upgrades will not only provide the Stellenbosch Bridge development with the required access but also unlock the greater Klapmuts area as a result of the much improved accessibility and the additional traffic capacity it will provide for other developments in the Klapmuts area, which to date has not significant development due to the above mentioned infrastructure constraints.

A major concern, however, is the funding of these road upgrades and it was for that reason that a meeting was called for with the municipal manager to discuss the funding thereof.

B. SOURCES OF FUNDING

The fact that the road upgrades involve four (4) road authorities not only complicates the approval process but also the funding of these upgrades. The four road authorities involved are Stellenbosch Municipality, Drakenstein Municipality, PGWC (Provincial Government Western Cape) and SANRAL (South African National Road Agency Limited).

The current DC Policy (Development Charges Policy) of the Stellenbosch Municipality states (Clause 14.6) that only 20% of the cost of upgrades on Provincial Roads may be off-set against DC's. The funding of road upgrades such as the R44, the N1/R44 interchange (± R 30 million, excluding VAT) and the N1/Hoopenberg Road interchange (± R 25 million VAT excluded for half-diamond interchange only) are thus problematic. The remaining 80% of the costs would thus have to be funded by the developer or some agreement with regard to the apportionment of the costs would have to be reached with the other road authorities/developers. This in itself

is problematic as the PGWC has already indicated to our civil engineering consultant that funding is not currently available for these upgrades, notwithstanding the fact that all these upgrades, except the N1/Hoopenburg Road interchange, are as a result of background traffic – thus an existing traffic problem and not related to the Stellenbosch Bridge development.

It should be noted that Stellenbosch Bridge has already had discussions with other developers in the area such as Distell who has environmental authorisation for a development to the north of the N1 within the Drakenstein Municipal area, in order to try and co-ordinate required road upgrades that cannot be funded by the Stellenbosch Municipality as per the DC Policy.

If the current DC-rates as per the Stellenbosch Municipality DC Policy (2021/2022) are applied to the proposed Stellenbosch Bridge development and the costs of the road upgrades, mentioned above, added, the development will not be feasible.

C. PROPOSED FUNDING

In studying the Stellenbosch Municipality DC Policy (2021/2022) the following clauses are considered relevant:

Clause 4.1.1 (Page 7): "Development charges should be reasonable, balanced and practical so as to be equitable to all stakeholders".
Clause 4.1.1.1 (Page 7): "The Municipality should recover from applicants a contribution that is as close as possible to be full and actual costs of capital infrastructure assets that are needed to mitigate the impacts of land development and to provide services to new land developments".
Clause 4.1.1.2 (Page 7): "Development charges are levied to recover the infrastructure costs incurred or to be incurred due to land development".
Clause 4.1.1.4 (Page 7): "Development charges are not an additional revenue source to be used to deal with historical backlogs in provision of services, ……..".
Clause 8.1 (Page 13): "Subject to the provisions of this policy, a development charge should be calculated with reference to the estimated increased load placed on the external engineering services networks that results from the development in a specific impact zone".
Clause 8.3.2 (Page 14): it is stated that the Municipality must apply a formula, which formula will -
Sub clause 8.7.2.1 (it appears that the numbering in the policy is incorrect and should be 8.3.2.1) (Page 14) – Be aimed at determining the impact of the proposed land use on municipal infrastructure services, taking into account current and planned capacity, relative to the impact of the land use occurring at the date of the approval of the land development application;

Based, inter alia, on the above-mentioned clauses from the Stellenbosch Municipality DC Policy (2021/2022), it is requested that the council considers and approve the following:

1. That the Stellenbosch Bridge development does not pay DC's as per the DC's table contained in the DC Policy but that Stellenbosch Bridge Properties will instead fund all the bulk infrastructure required in order to mitigate the impact of the proposed Stellenbosch Bridge development on bulk services in Klapmuts. We believe that the 2020/2021 DC policy makes provision for such a request to be favourably considered by Council.

2. All required bulk infrastructure requirements will be as determined in the Traffic Impact Statements (TIS's) and Engineering Services Reports conducted for each SDP submission and agreed with the Municipality's Directorate: Infrastructure Services.

It should also be noted that Stellenbosch Bridge Properties will still have to internally fund the electricity bulk services costs in consultation with Eskom before implementation can start.

The infrastructure costs that Stellenbosch Bridge Properties are prepared to spend plus the donation of land for educational purposes already executed, has the ability to transform Klapmuts and the surrounding community and in the process create much needed job opportunities. We are more than willing to do a full presentation on the proposed development with the different role players involved to better explain the potential impact we envisage.

We trust that the above will be sufficient for you to submit to council for consideration. Should any additional information be required, please contact the undersigned.

Kind regards,

Klaus-Gustav Göbel
Executive Director

Dear Ms Mettler,

RE: NOTICE FOR PUBLIC COMMENT - 5th GENERATION INTEGRATED DEVELOPMENT PLAN (IDP) PUBLIC PARTICIPATION

STELLENBOSCH BRIDGE DEVELOPMENT, KLAPMUTS

PROPOSAL TO MAYCO:
REFER ATTACHED THRESHOLD TABLE RE BULK INFRASTRUCTURE FUNDING FOR KLAPMUTS AND SPECIFICALLY THE STELLENBOSCH BRIDGE DEVELOPMENT

As requested, this letter follows on the letter submitted on January 12th 2022 (refer Annexure 1) but, goes into more detail regarding the following:

- the specific funding that is required / requested from the Stellenbosch Municipality (via the current IDP process)
- as well as a further proposal regarding the bulk infrastructure costs that the land owner Stellenbosch Bridge Properties propose to pay in lieu of DC's payable.

The detail numbers are set-out in the attached Theshold Table (refer Annexure 2) which we propose to be formally approved by the Stellenbosch Mayco and that thereafter the relevant municipality capital costs to be included in the current IDP budget. The current Theshold Table proposal in principle remains in line with the proposal submitted on 8 June 2018 (refer Annexure 3).

Our company (previously named Stellenbosch Wine and Country Estate) is proud to have been involved in the Klapmuts area since 2005, played a huge role in the Klapmuts community, the 2008-2020 SDF growth plan, funded many professional studies on behalf of the Municipality and the Developer's forum during 2009-2010. The conclusion of these studies was used to plan

Stellenbosch Bridge Properties (Pty) Ltd, Cuthberts Building, 33 Plein Street, Stellenbosch, 7600
VAT No: 4170211983, Reg No: 2003/024513/07

Directors: SR Seeliger (Executive Chairman), KG Göbel (Executive), R Göbel Executive), JS Loftie-Eaton, J De V Du Toit, HD Edeling, DE Kriel, A Roux

www.stellenboschbridge.co.za

and implement most of the bulk infrastructure currently servicing the Klapmuts area. We are also very pleased that the Klapmuts area has become a huge focus area for the Stellenbosch Municipality as is evidenced from the 2 August 2019 MSDF plans.

We look forward to contribute our part in making this a reality on the ground. To this extent we re-iterate the fact that our donation agreement with the Stellenbosch University has been signed on 17 December 2021. Our donation to the SU of 30ha of land including 60 000m2 of bulk goes a long way towards showing our commitment to making this project a reality.

A. FINANCIAL SUMMARY

The total estimated DC's payable by Stellenbosch Bridge (excluding electricity costs via Eskom) are as follows:

- Application 1 Approved = R 106 024 000
- Applications 1 and 2 Approved = R 166 060 000
- Proposed Applications 1,2 and 3 = R 409 334 000
- Proposed Applications 1,2,3 and 4 = R 640 000 000

From the above financial numbers it is very important for Stellenbosch Municipality as well as the Klapmuts node to get this development out of the ground ie "start". However, it is understandable that due to the size of the project and its initial infrastructure requirements (refer Annexure 4) a more innovative approach is required as well as a joint effort by all role players to get the project working.

Currently the situation is as follows:

- We have made a substantial donation to the US in order to make the whole Klapmuts area attractive for other educational companies to expand or relocate too;
- We must pay all of the above required DC costs;
- We must pay all upgrades on National and Provincial roads infrastructure that is required and even roads that currently have a historical traffic back log – this is in addition to the above mentioned DC's – (refer Annexure 4)
- We must engage with Eskom to build a substation in order to get sufficient electrical supply to our development – and then hand over the substation to Eskom afterwards;
- An informal settlement has been allowed to develop on municipal land right opposite the proposed entrance road to the Stellenbosch Bridge project. This will also require immediate attention and action by all role players in the area.

It goes without saying that if the above requirements are not changed or altered then the Stellenbosch Bridge development can not be economically feasible and therefore can not start.

B. APPROVAL REQUIRED

1. The attached threshold table be approved in principle;
2. The underpass costs be approved for the 2022-2023 IDP period so that we can start with this project in September 2022;

3. All costs for roads to be built and funded by Stellenbosch Bridge as per the Theshold Table to be off-set against DC's payable to the Municipality;
4. DC's off-sets to be allowed ie if we spend more money on roads than the DC's calculation then we will be allowed to get a credit against the future DC's payable.

We trust that the above will be sufficient for you to submit to council for consideration. Should any additional information be required, please contact the undersigned.

Kind regards,

Klaus-Gustav Göbel
Executive Director

STELLENBOSCH
Wine & Country Estate

Attention: Director: Deon Louw 8 June 2018

Stellenbosch Municipality

1st Floor, Ecclesia Building

Dear Mr Louw

MAYCO PROPOSAL RE DEVELOPMENT CONTRIBUTIONS, SERVICES CAPACITY & TAXATION HOLIDAY RE KLAPMUTS INNOVATION HUB AS PER DRAFT SPECIAL DEVELOPMENT AREA REPORT – JUNE 2017

Our company has a longstanding and positive relationship with the Stellenbosch Municipality regarding development initiatives in Klapmuts area since 2004. Specifically, being a party to the Memorandum of Service Agreement dated 25 September 2009 that funded the EIA processes regarding upgrading of the current Klapmuts wastewater treatment works and also allowing the Municipality to register a water pipeline servitude over our property portion 5 of Farm 742 Klapmuts, which currently supply the Klapmuts town.

We also experienced a very positive and constructive engagement with Stellenbosch Municipality in our most recent dealings with the Stellenbosch University wanting to expand their academic footprint on part of our land extending approximately 30ha. We remain excited about the prospects of creating a "Stellenbosch Smart City" on 160ha of our 253ha property and is appreciative of the vision and commitment from the Stellenbosch Municipality, specifically planning and engineering divisions, in this regard.

Following our discussion on 11 May 2018, I would appreciate if you can table the following 4 proposals at your next Mayoral Committee which I understand is scheduled for 11 July 2018, for consideration and or approval.

1. Taxation holiday (5-10 years) for corporate or institutional clients wanting to relocate their offices or businesses to the Klapmuts Special Area and more specifically on our property adjacent to the Education Hub being established NOTE: the ability to attract foreign multi-national corporates are real and a tax incentive will go a long way towards showing them the appreciation they deserve to risk new capital in our town, Western Cape province and South-Africa ;
2. Providing cash flow via the IDP budget to open the entrance underneath the N1 railway line. This cash flow cost has been a big barrier to start the development phase and with the support of the municipality can fast track the expected future growth. Our company would be willing to repay the Municipality all or a big portion of these costs once our development has reached certain milestones that can be agreed upon in advance;

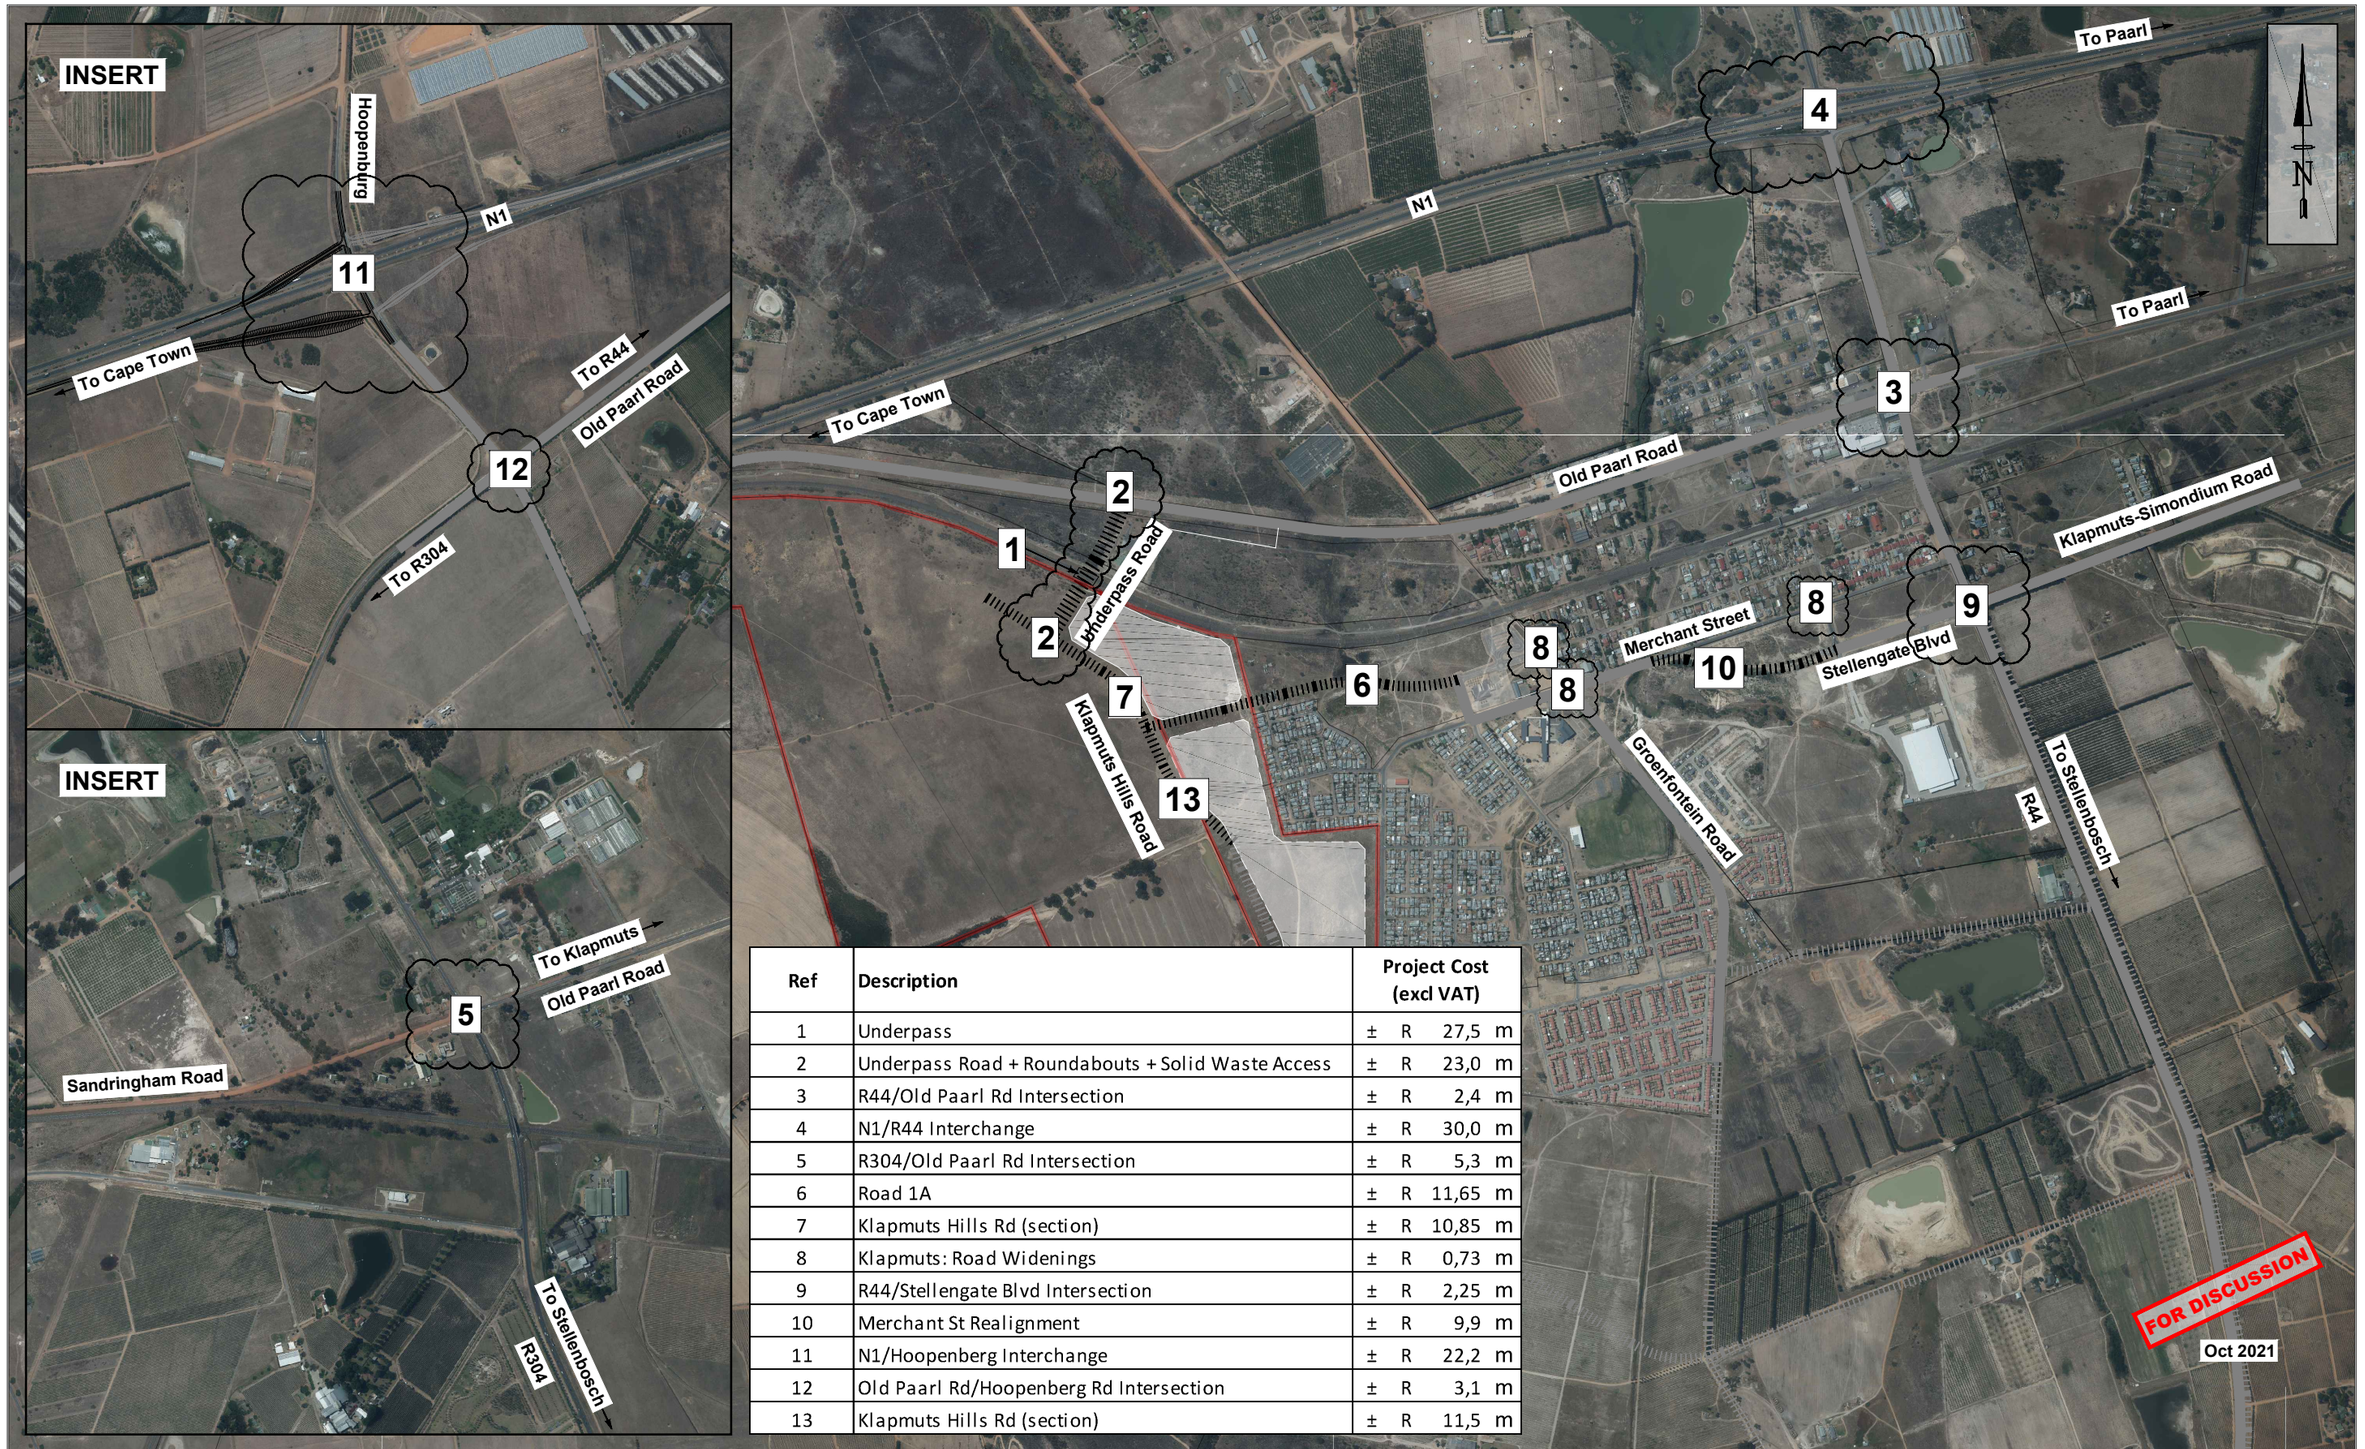
STELLENBOSCH
Wine & Country Estate

3. Bulk Services Availability: We would like written confirmation from the municipality that our project will be supplied with bulk services prior to new entrants in the Klapmuts Special Area, specifically regarding sewerage, water and electricity. Also, we would appreciate if the Municipality can extend the five year water availability given to us in the water pipeline servitude agreement clause 1.7. Extension required would be from June 2019 changed to be in line with our current ROD extension period;
4. 30ha donation: Our company presently comprises 100% of individual tax paying shareholders and I personally have been invested in the company since 2005. Our company donation of 30ha to the University of Stellenbosch for higher educational purposes will play a big part in making the Klapmuts Special Area successful for all stakeholders including Stellenbosch Municipality. All the ancillary housing developments, retail and corporates will result in Stellenbosch Municipality rate payers for a very long period if not forever. Therefore, we humbly request the Municipality to consider giving our company a Development Contribution rebate based on the market value of our 30ha donation.

Please feel free to contact me with any questions and or uncertainties regarding above proposals. If need be, I am more than willing to come and have a further discussion about the proposals before it gets presented to the Mayco.

The above could be the start of a very interesting Public Private Partnership (PPP) for the area and may even be an example for the rest of South-Africa.

Look forward to your response.



Regards

Klaus-Gustav Göbel CA(SA); CFA

Re:- Erf. 770/3 urban edge inclusion

To whom it may concern

I hereby request that erf. 770/3 be included in the urban edge.
This property is situated next to the existing urban edge and borders along R101.
The property is 5 hectares in total, which also houses four existing buildings.
The remaining ground is insufficient to do decent farming.
The soil is unsuitable for farming.
It is serviced by an existing provincial road.
The property is suitable for light industry.

I trust that this request will receive your favorable response.
Kind regards

Gordon Wentzel

SECTION 1: INTRODUCTION

The 2022/23 MTREF municipal planning and budgeting process takes place amidst a national and provincial economic recovery that follows a sharp economic contraction in 2020. Several fiscal, economic and social risks exist that could threaten municipal sustainability and economic growth.

The strategic theme for the 2022 SIME is '*Enabling Sustainability and Growth*'.

Key enablers that facilitate sustainability and growth include, but are not limited to the following:

- **Innovation**: Introducing new ideas, methods or processes or reviewing existing practices to achieve outcomes in more efficient and effective ways. In a post-pandemic environment, municipalities are confronted with increasing citizen demands and expectations; a rapidly changing technological environment and a constrained fiscus. We cannot continue with the status quo, but have to innovate i.e., to explore different and better ways of doing things in order to enhance service delivery.

- **Partnerships**: Partnerships calls for the integration of expertise and resources in order to drive allocative efficiency and enhance productive efficiency. Enabling sustainability and growth requires a collective effort between spheres of government (across and within spheres) as well as with the private sector and civil society.

- **Good governance**: Municipalities must build on and/or reinforce the foundations and successes of good governance that is necessary for improved performance. These need to be leveraged along with extensive risk management, in order to ensure financial, operational, social, economic and environmental sustainability. To this extent, SIME is an extension/continuation of TIME.

The importance of the integrated planning and budgeting assessment is stipulated in Chapter 5 of the Local Government Municipal Systems Act 32 of 2000 (MSA), the MSA Regulations and the Local Government Municipal Finance Management Act 56 of 2003 (MFMA). These annual provincial assessments afford the provincial sphere of government an opportunity to exercise its monitoring and support role to municipalities as stipulated by the Constitution. In addition, the assessments provide an indication of the ability and readiness of municipalities to deliver on their legislative and constitutional mandates.

This report encapsulates comments by the Western Cape Provincial Government on the draft 2022/23 MTREF Budget, 2022/23 Integrated Development Plan (IDP) and Spatial Development Framework (SDF).

The assessment covers the following key areas:

- Conformance with the MFMA, MSA & Municipal Budget and Reporting Regulations (MBRR);

- Public value creation and responsiveness of draft budget, IDP and SDF; and

- Credibility and sustainability of the Budget.

The MBRR A-Schedules, budget documentation, IDP and SDF submitted by the Municipality are the primary sources for the analysis. The quality of this assessment report therefore depends on the credibility of the information contained in the documents submitted by the Municipality.

The Provincial Government plans to meet the executives of your Municipality on 6 May 2022 where the key findings and recommendations of this report will be presented and deliberated upon. The planned engagement will contextualise the Municipality's challenges and responses as taken up in the draft budget, IDP, LED, SDF and various other strategies and plans. All the information related to the assessment and analysis of the annual budget, IDP and SDF are found in the report below.

SECTION 2: PUBLIC VALUE CREATION INTEGRATED PLANNING

2.1 INTRODUCTION

In terms of section 25(1) of the Municipal Systems Act, 2000 (the MSA), each municipal council must, within a prescribed period after the start of its elected term and through a participative process, adopt a single, inclusive and strategic plan for the development of the Municipality – the Integrated Development Plan (IDP).

An IDP is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regards to planning, management, and development in a municipality. An IDP provides the strategic direction for all the activities of a municipality over five years linked to the council term of office.

In terms of section 25 (3) of the MSA, a municipal council may adopt the IDP of its predecessor, with or without amendments. Before taking such a decision the council must comply with section 29(1)(b)(i), (c) and (d).

Based on Council Resolution ref: 72681 dated 30 March 2022, the Stellenbosch Municipality (The Municipality) intends to adopt a new five-year IDP by the end of May 2022, in line with section 25(1) of the MSA.

2.2 INTEGRATED PLANNING ANALYSIS

2.2.1 IDP Overview

The new vision of the Municipality is to create an "Integrated Valley of Opportunity and Innovation", which represents a shift from the predecessor's vision contained in the 2017-2022 IDP. The vision is envisaged for realisation through a mission statement that shifts slightly from focussing on creating an enabling environment, to delivering cost effective, accountable and sustainable services within an enabling environment. The values of the Municipality have been revised to include innovation, excellence and responsiveness while the Strategic Focus Areas contained in the tabled IDP have not changed from the five identified in the predecessor's IDP.

The strategic direction further demonstrates alignment to the strategic intent of the National Development Plan, Medium Term Strategic Framework, Provincial Strategic Plan and the Cape Winelands District Municipality. The change of the Municipality's strategy was undertaken to bring it in line with the priorities of the newly elected municipal council.

The tabled IDP contains a comprehensive situational analysis in Chapter 2, referencing the latest information from the 2021 Municipal Economic Review and Outlook (MERO), the 2021 Socio-Economic Profile (LG-SEP) and the Quarterly Labour Force Survey. The situational analysis covers aspects such as education, health, poverty, basic service delivery, safety and security, and the economy.

The MERO Indicates that the wholesale and retail trade, catering and accommodation sector is the largest employment sector within the Municipality at 26.4 per cent, contributing 21.1 per cent to Gross Domestic Product per Region (GDPR) while the finance, insurance, real estate and business services sector is the largest contributor to GDPR at 21.7 per cent and contributes 17.2 per cent to employment.

The economic pressures arising from the COVID–19 pandemic had a negative impact on most economic sectors in the municipal area and according to the MERO, the local economy contracted by 6.7 per cent, translating into a net loss of 4 659 jobs, with most job losses (1 289) occurring in the trade sector. The Municipality reflects on the economic shocks and will be adjusting the strategic approach underpinning the Local Economic Development (LED) Strategy through leveraging technology in order to navigate some of

the complexities arising from the pandemic. In addition, the Municipality will continue with initiatives to grow the economy through the Expanded Public Works Programme, reviewing of the tourism policy and business outreaches to Small, Medium and Micro Enterprises (SMMEs). While the Municipality has strategies, structures and systems in place to promote economic resilience, the easing of the Disaster Management Act Regulations relating to COVID–19 is expected to contribute towards alleviating distresses in value chains throughout the local economy.

The LG-SEP provides a socio-economic overview in respect of access levels to basic services. To this end, 92.2 per cent of households have access to electricity, 94.4 per cent of households have access to water and 86.7 per cent of households have access to refuse removal at least once per week. The Municipality identifies landfill air space as one of the top five strategic risks confronting the municipal area, due to reasons such as the unavailability of suitable land, costs of Service Level Agreements and legislative requirements, i.e. environmental impact assessment applications and approvals. The Municipality may have to consider exploring opportunities within the economy where solid waste can be repurposed through skills development initiatives, for absorption into the local economy via the SMMEs sector. Opportunities such as these may reduce the challenge of illegal dumping and minimize the risk of civil disobedience due to a perceived lack of service delivery by the citizens.

2.2.2 IDP Process

In terms of section 27 of the MSA each district Municipality must, within a prescribed period after the start of its elected term and following a consultative process with the local municipalities within its area, adopt a framework for integrated development planning in the area as a whole.

The District Framework binds both the district Municipality and the local municipalities in the area of the district. Section 27(2) sets out the minimum matters that must be covered in the framework.

Section 28 of the MSA determines that a municipality must, within a prescribed period after the start of its elected term, adopt a Process Plan in writing to guide the planning, drafting, adoption and review of its IDP. A municipality must also consult the community before adopting such process and give notice to the local community of the process it intends to follow.

The District Framework lays the foundation to ensure alignment of the IDPs within a district, the alignment of all the IDPs with national and provincial sector plans and strategies, and for proper and sound consultation between district and local municipalities during the process of developing and adopting an IDP. The Process Plan builds on this foundation by ensuring that the process of developing, adopting and reviewing a municipal IDP happens in a planned, structured and managed manner with provision for community input.

The tabled IDP reflects alignment to the developmental strategies, structures and processes in the District Framework adopted by the Cape Winelands District Municipality.

Based on Council resolution ref: 726651 dated 30 March 2022, the Municipality tabled the Process Plan with the tabled IDP to serve before council.

An assessment of the tabled IDP and the Process Plan reflects that the Municipality followed a prescribed process when planning and drafting the tabled IDP by consulting the local community on their development needs and priorities. This process was undertaken prior to the tabling of the IDP, as required by section 29 of the MSA.

2.2.3 IDP Compliance

Section 26 of the MSA refers to the core components of an IDP and states that an IDP must reflect:

- the municipal council's vision for the long-term development of the Municipality;
- an assessment of the existing level of development in the Municipality;
- the council's development priorities and objectives for its elected term;
- the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the Municipality in terms of legislation;
- a Spatial Development Framework;
- the council's operational strategies;
- applicable disaster management plans;
- a financial plan; and
- the key performance indicators and performance targets determined in terms of section 41 of the MSA.

The tabled IDP reflects compliance with all the above requirements of section 26 of the MSA.

2.2.4 IDP Alignment

According to Section 32 of the MSA the MEC may within 30 days of receiving a copy of an IDP, or within such reasonable period as may be approved, request a municipality to adjust the plan or amendment in accordance with the MEC's proposal if it is in conflict with or is not aligned with or negates any of the development strategies of other affected municipalities or organs of state.

Section 26 of the MSA further requires that IDPs must be aligned with and not negate the national and provincial development plans and planning requirements binding on the Municipality in terms of legislation.

The tabled IDP reflects integration of all municipal sector plans and alignment with the Joint District and Metro Approach (JDMA). Furthermore, the Municipality's catalytic projects as well as social support received is extensively reflected in the JDMA Implementation Plan. Furthermore, the tabled IDP reflects alignment with the National Development Plan, National Strategic Outcomes the Medium Term Strategic Framework, Western Cape Provincial Strategic Plan: 2019 – 2024, as well as with the strategic objectives of the Cape Winelands District Municipality.

To assess alignment between the tabled IDP with national and provincial plans, various sector departments formed part of the assessment process and their feedback is captured below:

Economic Development

The Municipality's LED Strategy identifies 5 strategic risks which may impede the drive towards achieving economic goals and objectives. It is noted that risk management processes have been put in place with a view to risk mitigation and resilience. The tabled IDP reflects on the JDMA economic development priorities and reflects a sound understanding of how the tabled IDP and JDMA relate to each other. Furthermore, the tabled IDP acknowledges the interdependent role of the JDMA and IDP in informing catalytic that is both focused and targeted, but also implementation-ready, resilient, coordinated and integrated. In addition, the Municipality highlights the need to align economic development strategies with the Spatial Development Framework (SDF) and ensure that service standards are maintained to expedite land development approvals and authorizations to reduce turnaround time for investors.

The tabled IDP reflects on the importance of effective local business networking and sector consultation to improve the Municipality's responsiveness to local businesses, entrepreneurs, and the economic environment. However, it is not clear whether initiatives of this nature are being implemented. The Municipality is encouraged to explore opportunities of potential partnerships with existing and new business networks and private sector in the area.

The Department of Local Government has partnered with the Municipality by expanding public employment initiatives in the municipal area. The financial assistance of R1.8 million through the Local Government Public Employment Support Grant is aimed to support citizens in mitigating the economic challenges arising from the COVID-19 pandemic.

The initiatives undertaken by the Municipality to grow the economy and create jobs, aligns to the strategic intent of the Western Cape Recovery Plan and the Cape Winelands JDMA Implementation Plan.

Municipal Infrastructure, Human Settlements and Transport

The tabled IDP provides an indication of projected capital expenditure relating to housing projects, for implementation in the municipal area. These projects align to the Business Plan of the Western Cape Department of Human Settlements. However, tabled IDP does not reflect on the shift in housing policy from the prioritization of top structures to serviced sites. In addition, the Municipality should note the new beneficiary selection criteria where top structure beneficiaries are prioritized, i.e., the Elderly (60 years and older); households headed by disabled persons, individuals on the waiting list for 15 years or longer and households living in backyards or backyarders and households headed by military veterans.

It is noted that both a Priority Human Settlements and Housing Development Area (PHSHDA) and a restructuring zone have been gazetted for Stellenbosch, and it is recommended that these are reflected in the adopted IDP.

With reference to the Comprehensive Integrated Transport Plan (CITP), the tabled IDP indicates that safety and security concerns at public transport facilities are one of the main deterrents for potential public transport users. As a strategy, the CITP proposes the maintenance and improvement of lighting at public transport facilities, to improve safety of commuters at night. In addition, the strategic interventions in the CITP, identifies priority projects in terms of non-motorised transport, cycling, public transport improvements, road and infrastructure maintenance etc. Furthermore, the capital budget is inclusive of projects related to integrated transport, based on the transport needs contained within the CITP.

In respect of creating integrated and sustainable human settlements, social housing development and integrated transport systems are being pursued. To this end, the Municipality demonstrates alignment to the strategic intent of the Western Cape Provincial Strategic Plan with reference to Vision Inspired Priority 4 – Mobility and Spatial Transformation, as well as with the strategic direction of the Department of Transport and Public Works 2020-2025 Strategic Plan.

Social Services and Amenities

The tabled IDP reflects that the spending pattern on social infrastructure remains a priority for the Municipality. Coupled to this commitment, the Municipality intends to advance child protection in Stellenbosch through the establishment of a child protection forum. In addition, the Municipality places a premium on the development of the youth and to this effect, the Municipality will establish a Youth Forum, coupled with governance training and the compilation of a Youth Policy. These initiatives aimed towards sustainable social development demonstrate alignment to the strategic direction of the Western Cape Recovery Plan with a focus on dignity and well-being, as well as the vision of the Western Cape Department of Social Development 2020-2025 Strategic Plan.

Safe and Cohesive Communities

In respect of fostering a more integrated and safer Stellenbosch, the tabled IDP reflects a dedicated chapter towards addressing matters relating to crime and safety. The Municipality has a Strategic Focus Area directly linked to community safety – Safe Valley and to this effect is in the process of implementing an Integrated Safety Strategy which is driven through the incorporation of multiple stakeholder engagements in addition to focusing on institutional, situational and social crime prevention interventions. Some of the initiatives undertaken through the Integrated Safety Strategy includes the development and implementation of institutional crime prevention strategies with focus on improved law enforcement, neighbourhood watch expansion and support, implementation of situational crime prevention strategies and surveillance cameras. The initiatives undertaken by the Municipality to increase the safety of citizens in the municipal space, aligns to the strategic intent of the Western Cape Recovery Plan with a focus on safety, as well as the Western Cape Safety Plan.

2.2.5 Key findings and recommendations

2.2.5.1 Key findings

- Stellenbosch has been declared as a Priority Human Settlements and Housing Development Area and a restructuring zone as gazetted. There does not reflect in the tabled IDP.

2.3 ENVIRONMENTAL AND PLANNING ANALYSIS

2.3.1 Spatial Planning

Strategic spatial risks:

- The growth of the City of Cape Town into the Stellenbosch Municipality poses a risk. This growth has the potential to severely undermine the agricultural activity on the western side of Stellenbosch and the Stellenbosch MSDF. The Municipality is strongly encouraged to maintain regular dialogue with the City of Cape Town, so that, in particular, private sector development pressures coming from the City, are shared with Stellenbosch Municipality as far in advance as possible and the Municipality plays its role in directing the long-term growth of the Cape Town urban area, including the implications of development at de Novo.

- Pollution of rivers through agricultural run-off, storm water and waste-water discharge may have a knock-on effect on farmers ability to export their products given the high risk of contamination.

- Climate Change is anticipated to have a significant impact on the natural resource base of the Municipality, resulting in a reduction in water flow which will impact on agricultural production, increased temperatures, increased risk of fires and increased incidents of extreme weather events. In response to this the Integrated Development Plan has highlighted the need for an Adaptation Strategy which includes an Alien Clearing Plan, a River Management Plan and Wildfire Management Plans.

- Property and land are prohibitively expensive with the poor and lower/ middle income workers locked out of the property market. One outcome of this is the daily inward commuting of ordinary workers and students (in particular) and the clogging up of the town centre – severely detracting from the qualities of Stellenbosch town. The current unsustainable commuting patterns into and out of the town of Stellenbosch pose a further strategic risk to the sustainability of the Municipality.

- The MSDF is clear that the spatial areas for priority development are Stellenbosch Town and Klapmuts and to a lesser extent – Franschhoek. The Municipality runs the risk of undermining the strategic development of these areas by trying to spread its limited resources across all settlements. An example of trying to spread municipal human and financial resources across the Municipality is reflected in Mayoral Outcome 5: "Development of the Adam Tas Corridor and town establishment of all ten dorpies across the municipal area". Part of this Outcome has the "development of Local Spatial Development Frameworks for 10 small towns within the next 5 years" as a KPI. While smaller settlements cannot be ignored the focus must remain on Klapmuts and Stellenbosch town if the Municipality is to succeed in implementing the strategic spatial path set out in the MSDF. Smaller settlements represent a longer - term possibility in terms of accommodating growth. Permitting significant development in these smaller settlements now is likely to increase private vehicle use and undermine spatial transformation initiatives in the town of Stellenbosch and Klapmuts.

Spatial opportunities for growth and development:

- There is a demand for affordable housing provision for those who do not qualify for government subsidised housing. The provision of affordable well-located housing will assist with spatial transformation. The approach to this should be multi-pronged. The Municipality's work on an inclusionary housing policy is commended.

- Strategic parcels of vacant and underutilised land identified in the 2017 Land Audit should form part of a land packaging and release programme. Part of this programme could be undertaken to address the need for affordable housing referred to in the bullet above.

- The implementation of the Adam Tas Corridor, which has the potential to transform the town of Stellenbosch, is a significant spatial opportunity requiring consistent commitment and focus from all parties concerned.

- The MSDF acknowledges the need to work with the private sector in spatially transforming the Municipality. In the town of Stellenbosch in particular the private sector, including the University of Stellenbosch represents a significant resource for the Municipality and ultimately for the development of Stellenbosch, which has not been sufficiently tapped into.

- Klapmuts represents an opportunity for economic generation and the development of Klapmuts provides an opportunity to restructure the town of Stellenbosch. Furthermore, the development of Klapmuts provides the Municipality with an opportunity to promote integrated, inclusive and sustainable development vs the provision of a middle-class dormitory suburb.

Spatial Governance:

- While the proposal from Stellenbosch Municipality to realign the Municipal Boundary at Klapmuts, to include Klapmuts North in their Municipal area is acknowledged, this proposal does not have the necessary support from Drakenstein Municipality. The development of Klapmuts as a node should be taken forward in the proposed Intergovernmental Working Group between Stellenbosch, Drakenstein and the City of Cape Town.

Implementation of the MSDF through the IDP:

- A substantial part of the Municipality's own capital budget allocated to "Housing Development" is going to Erf 64 Kylemore. (This amount is roughly 50% of the Municipality's Housing Development budget.) This seems to be at odds with the strategic spatial direction of the Municipality highlighted in both the MSDF and the IDP, which focuses on the town of Stellenbosch and Klapmuts.

- Another area of concern is that the MTREF budget has allocated R11 000 000 to an Adam Tas- Techno Park link road. The need for this link road is not included in the MSDF or the IDP. It is uncertain exactly why R11 000 000 has been proposed under "Transport Planning" in the MTREF for this link road? (In the past there has been pressure from private sector developers to link Techno Park to Baden Powell Drive at Vlottenberg.) The MTREF budget does include spending on public and non-motorised transport, but regardless of this, spending R11 million on a link road that is not included in the MSDF, is questioned i.e., could this spending on road infrastructure not be better spent on much needed public transport?

- A further area of concern is an amount of R104 569 470 on the MTREF Budget for a "New Reservoir and Pipeline for Vlottenburg" within the Department "Water and Waste Water Services: Water". It is uncertain if this water infrastructure will only serve the Vlottenburg area, or if it will serve Stellenbosch more broadly. If the answer is the former, then this infrastructure spend demonstrates a complete lack of alignment with the MSDF.

- The Municipal CEF was developed alongside the MSDF, rather than as part of the MSDF. One of the consequences of this is that the Priority Development Areas in the CEF are far broader than those defined in the MSDF. The CEF views each settlement as a Priority Development Area, whereas the MSDF focuses on Stellenbosch Town and Klapmuts. Consequently, from a CEF point of view, planned capital expenditure is spread across the municipal space, with clusters of spending in Stellenbosch town, Klapmuts, the Dwars River Valley and Franschhoek and surrounds. Furthermore, the CEF is of the view that the potential in Vlottenburg is "unprecedented" and the CEF supports the capital projects within this node being accommodated in the budget. The MSDF does not share the view that Vlottenburg should be a focus for spending at this point in time. Instead, the MSDF promotes spending in Klapmuts and the town of Stellenbosch.

- The MSDF and the IDP are well aligned. It is at the level of the Municipal budget, particularly around "Housing Development", the Techno Park Road link and possibly the provision of water infrastructure in Vlottenburg, where misalignment is evident.
- The three catalytic initiatives requiring investment are: The Adam Tas Corridor, the development of Klapmuts and an alternative rail service along the Baden Powel Drive/ Adam Tas/ R304 corridor.
- In terms of the Draft Capital Budget for the MTREF, water related projects dominate the expenditure, followed by WWTW, sewer pipe replacements, solid waste management and then ICT. The capital projects above R50 million over the three-year MTREF are:
    - Bien don 66/11kV substation new: R52 600 000
    - Expansion of the landfill site (New cells): R85 000 000
    - New Reservoir & Pipeline: Vlottenburg: R104 569 470
    - Upgrade of WWTW Wemmershoek: R52 500 000
    - Total Amount: R294 669 470
- The total WCG Human Settlements budget for the MTREF period is R189 883 000. Approximately 39% of this is being spent outside of the Adam Tas Corridor, Klapmuts or Franschhoek. (R1 250 000 is being spent at La Motte for 1000 IRDP sites; R2 900 000 is being spent in Jamestown for 1044 IRDP sites; R68 980 000 is being spent in Vlottenburg for 106 IRDP units.) However, if one includes the whole of the town of Stellenbosch in this calculation rather than just sites in the Adam Tas corridor, less than one percent of the Human Settlements budget is being spent outside of the areas of Klapmuts, the town of Stellenbosch and Franschhoek. The WCG Human Settlements budget is therefore very much aligned to the strategic spatial direction of the Municipality. Overall, the Provincial MTREF spend is in line with the MSDF.
- Other than the issues mentioned under 4.1 above, the budget, IDP and MSDF appear to be aligned, with spending largely focused on Stellenbosch town, Klapmuts and Franschhoek. The following amounts are to be spent in the Adam Tas Corridor over the MTREF:
    - R3 500 000 (Human Settlements grant)
    - R11 000 000 Traffic Engineering
    - R12 500 000 Transport Planning
    - This amounts to R27 million over the next 3 years.
- There may well be other amounts also being spent in support of the development of the Adam Tas Corridor which have not been included, as in terms of the information in the MTREF they cannot be spatially linked to the Adam Tas Corridor specifically.
- The Municipality is adopting a new IDP in May 2022. The current MSDF will be readopted with a view to adopting an amended MSDF in May 2023. It is recommended that an amendment to the MSDF includes strengthening the monitoring and evaluation section of the Implementation Plan. Such a section will assist in determining to what extent the MSDF is being implemented in future annual reviews of the MSDF.

a) Regulatory Planning

Municipalities are reminded that various mechanisms exist for integration of regulatory processes to streamline application processes.

Municipalities are encouraged to consider these mechanisms as part of their Municipal Land Assembly Programme, and to contact the Department should they require support in this regard.

The 2020/2021 survey conducted by the Directorate Development Management Region 2 as part of the Municipal Land Use Management Performance Monitoring Strategy identified three vacant planning positions, including two Principal Planning posts, in the Stellenbosch Municipal Land Use Management Component. Stellenbosch Municipality has not, to date, been able to fill all the identified staff vacancies and it was indicated that the Municipality would rather investigate alternative strategies to overcome this challenge and put in place systems and structures to ensure that new backlogs are not created.

These systems and structures have not been realised and the capacity of the Land Use Management Component is still constrained. These capacity problems hamper the finalisation of town planning applications within legislated timeframes and create planning backlogs. Complaints about service delivery in the land use management component has reached Wesgro, the Premier as well as Minister Bredell during the past 12 months. The Municipality is again therefore requested to revisit their strategy to address this challenge.

Due to a reallocation of resources, the professional capacity assistance provided to Stellenbosch Municipality with regards the assessment and preparation of submissions to the Planning Appeals Authority was concluded on 31 October 2021.

b) Biodiversity Management

The Department and CapeNature work together to ensure biodiversity governance in the Western Cape. The Western Cape the Provincial Biodiversity Strategy and Action Plan (PBSAP 2016), which is currently under review, is a strategic mechanism of the Western Cape Provincial Government that aims to ensure that all stakeholders active in the province, including the national and provincial government entities, local and district authorities, non-governmental organisations (NGOs), business and society as a whole, act in a coordinated and collaborative manner with regards to biodiversity conservation, its sustainable use, and the fair and equitable sharing of benefits arising from the use and value of ecosystems goods and services.

The PBSAP implementation is strengthened by the assent of Western Cape Biodiversity Act, Act No. 6 of 2021 on 14 December 2021. The act will come into operation on a date determined by the Premier by proclamation in the Provincial Gazette. Current provincial biodiversity and conservation laws are still in place and must be observed until such time as it being wholly or in part repealed through the making of regulations in the Act.

Municipalities are herewith informed of the following implications of the Act:

i) Biodiversity Spatial Plan

CapeNature must prepare a Provincial Biodiversity Spatial Plan within one year of the commencement of this Act and submit it to the Provincial Minister for adoption after following a public participation process.

In terms of Section 36 of the Act, the purpose of a Biodiversity Spatial Plan is to—

(a) set biodiversity targets.

(b) spatially identify one or more categories of biodiversity priority areas that will ensure the continued existence and functioning of biodiversity and ecosystems, including the delivery of ecosystem services.

(c) provide guidelines that set out the desired management objectives for land and resource use in each category of biodiversity priority area.

(d) provide spatial planning and land use decision-making guidelines to ensure environmentally sustainable development and resource use and ecological and spatial resilience in the Province; and

(e) ensure that the ecological infrastructure in the Province is maintained, ecosystem fragmentation and loss are avoided, and the resilience of ecosystems and human communities to the impacts of climate change is strengthened.

When a municipality adopts or amends its spatial development framework in terms of the Local Government: Municipal Systems Act in respect of land use matters in areas identified in the Biodiversity Spatial Plan as biodiversity priority areas, it must indicate how the land use planning categories in the spatial development framework have considered the desired management objectives in the guidelines contemplated in section 36(e) of the Act.

ii) Alien and Invasive Species (AIS) Management

According to the NEM:BA Alien and Invasive Species regulations any landowner, occupier of land, person in control of land or any person in control of a listed category 1a, 1b and 3 invasive species must prevent the escape and spread of the species, including its growth, or spread of propagules, and must control any specimen that escapes or spreads.

Further to that all management authorities of protected areas and organs of state in all spheres of government must prepare Invasive Species Monitoring, Control and Eradication Plans and submit it to the Minister via the Department of Forestry, Fisheries and the Environment. In this sense it is imperative that Municipalities actively plan to manage and eradicate Alien invasive Species within their jurisdiction and control. Due to the negative impacts of AIS in terms of water losses, fire and flood risks as well as loss of biodiversity, it is prudent to plan and budget for AIS eradication and follow-up clearing activities on an ongoing basis. This will benefit Municipalities with significant savings down the line in terms of the cost of disasters and ensure an environment that is safe, sustainable and provides for the ecosystem goods and services of its people (Water, soil, natural products and ecotourism assets to mention a few).

iii) Enforcement Matters

The following specific matter is highlighted to support the Municipality in prioritising relevant budget allocation:

Description	**Action Required**
Infilling of a wetland and an in-stream dam for the remainder of Farm 527, Portion 7, Stellenbosch	PCN and PD issued on 21 August 2019. Municipality to allocate budget for the Rehabilitation Plan or for the submission of the S24G Application.

c) Waste Management

It is noted with concern that several Municipalities are experiencing ongoing challenges in terms of waste management facilities, which has resulted in significant pollution and degradation of the environment, as well as potentially impacting negatively on the health and wellbeing of the residents.

This culminated in enforcement action taken against certain Municipalities who are non-compliant with their Waste Management Licenses and have contravened the relevant environmental legislation. These Municipalities are therefore advised to comply with the relevant enforcement notices issued by the Department's Directorate: Environmental Law Enforcement and to ensure that its draft budget adequately funds remedial measures and infrastructure repairs/upgrades required to address the causes and impacts of non-compliance with relevant Waste Management Licenses, and to prevent future non-compliance and pollution of the environment.

The following specific matter is highlighted in order to support the Municipality in prioritising relevant budget allocation:

Description	**Action Required**
Illegal dumping of a waste on ERF No. 3229 Franschhoek	PCN and Directive issued on 18 May 2018. Municipality to implement the actions required by the Department to make it conducive to be used as a TRA.

Waste Management Planning

The Department will be finalising its Western Cape Integrated Waste Management Plan (2022 – 2027) in the 2022/23 financial year. The Plan will focus on resource efficiency and the circular waste economy while having a gender-responsive approach and taking into cognisance human rights and the needs of other vulnerable groups.

The Stellenbosch Municipality's 3rd generation Integrated Waste Management Plan (IWMP) dated September 2020 – 2025 has been assessed and endorsed by the Department.

Information Management

Period January to March 2022: Stellenbosch Municipality has two (2) Waste Management Facilities registered on the IPWIS namely: D04073-01 - Stellenbosch Municipality Waste Management, D04073-02 - Stellenbosch Municipality Waste Management (waste recovery).

The monthly reporting status for this period were as follow: Stellenbosch Municipality Waste Management - 2/3, Stellenbosch Municipality Waste Management - 1/3 and the Municipality is compliant.

6802 tons of waste were disposed and 5066T of waste diverted during this period. The Municipality did not report on Food, Garden nor Wood Waste.

The IPWIS report for March 2022 was not due yet at the time of compilation of the data extract, however there is room for improvement in the frequency of reporting.

Waste Minimisation & Policy Development

The Municipality's By-law was adopted by Council in November 2020, and it is aligned with the NEM: WA. They are also busy workshopping the bylaw to equip themselves to understand it well and be able to answer any questions.

They have a dedicated Waste Minimisation Manager and have various waste minimisation initiatives, including split bag system, drop offs and a new MRF which opened during 2021. The MRF service provider is also responsible for awareness and education to ensure high quantity of recyclables are received and that correct items are placed in bags. They also have e-waste initiatives.

There is brick recovery happening at the landfill, allowing reclaimers to recover bricks from builders' rubble and resell. Other Construction and Demolition (C&D) is crushed and used for cover material or roads. Garden waste is chipped and sent off site for treatment. The Municipality does not have an organic waste diversion plan, but they are to be included in the district plan.

They have an active #WasteWednesdays campaign on Facebook to share interesting information/details/statistics/awareness about waste in the Municipality (e.g., which area has the highest recycling rate; what materials are accepted at the MRF; special waste days).

Waste Licensing

The Stellenbosch Municipality has reached capacity at the Devon Valley Waste Disposal Facility (WDF). The only waste entering the Facility is garden waste, which is chipped and sent off site for treatment, and waste that is collected by the Municipality during public area cleaning initiatives.

Currently, recyclables are transported to the Kraaifontein Materials Recovery Facility (MRF) and non-recyclables to the Vissershok WDF. The waste is transported to Klapmuts Waste Transfer Station (WTS), from where it is transported to Vissershok WDF. The Klapmuts WTS is under pressure with the amount of waste being handled there and the Municipality must improve the housekeeping at Klapmuts WTS.

The Municipality recently completed work on a material recover facility. Recyclables will now be sorted at this Facility and no longer be sent to Kraaifontein MRF.

The compliance score at Devon Valley decreased from 98.53% (2020) to 84.81% (2021) in the last two consecutive audits.

The Municipality performs internal audits at the Devon Valley WDF, Klapmuts WTS and the Integrated WMF in Stellenbosch and these reports have been forwarded to the Department. External audits are also performed at these Facilities and these reports are also sent to the Department.

The Municipality has reportedly developed an organic waste diversion plan, but the plan must still be sent to the Department for review and comment.

d) Pollution Control

It is noted with concern that a number of Municipalities are experiencing ongoing challenges in terms of sewage spillages or breakdowns of key bulk sewage infrastructure, which has resulted in significant pollution and degradation of the environment, as well as potentially impacting negatively on the health and wellbeing of the local residents.

This culminated in enforcement action taken against certain Municipalities who have contravened the relevant environmental legislation. These Municipalities are therefore advised to comply with the relevant enforcement notices issued by the Department's Directorate: Environmental Law Enforcement and to ensure that its draft budget adequately funds remedial measures and repair/upgrade works required to address the causes and impacts of the pollution, and to prevent/minimise such incidents in the future.

The following specific matter is highlighted in order to support the Municipality in prioritising relevant budget allocation:

Description	**Action Required**
Pollution of the Berg River due to non-compliant effluent discharges from the Wemmershoek Wastewater Treatment Works (WWTW), Franschhoek.	PD issued on 08 April 2021. Representations to the notice was received on 04 May 2021. Mitigation plan is being implemented, however, the 6-month audit report is overdue.

Stellenbosch WWTW

- The focus on wastewater treatment has been adequately dealt with including the upgrade of the Wemmershoek WWTW and further funds being allocated to the Devon Valley expansion. Raithby has funds allocated to equipment upgrading and maintenance, and Pniel has progressed significantly over the last few years. However, proper preventative maintenance must be factored into the facilities to ensure longevity of their operations.

- There appears to be a misalignment between Table SA37 in the budget where funds are projected up until 2024/25 for the upgrade of the Wemmershoek WWTW, and Table 34 in the 5th Generation IDP (pg 140) where the upgrade is indicated to be completed in 2023/24. Kindly align these two tables.

- Distell's relocation to Klapmuts and the management of the effluent wastewater from the facility must be addressed so as not to cause environmental pollution (The situation in Worcester was not ideal). The disposal of wastewater from the facility must meet the municipal requirements in terms of the discharge of effluent bylaws, as well as the solid particles in the effluent stream must be dealt with and not be allowed to evaporate onsite where it causes nuisance problems for residents.

- The management and improvement of the condition of the Plankenbrug River is not mentioned in this document. Although the servicing of additional properties in Kayamandi will contribute to reducing pollutants flowing into the river, further improvement of the river is needed and must receive attention, especially since housing projects will take years to complete.

- Page 143 - section (6.3.7.4) WDM-the water demand management devices mentioned here restricts users to 400 litres per day. Does this consider the number of persons per residential unit? Too little water will result in problems with the disposal of toilet waste.

- The WSDP provided is not up to date as it reflects the previous 5 years.

e) Sustainability and Climate Change

The Climate Change Directorate within DEA&DP led the revision of the Western Cape Climate Change Response Strategy. The 2022 Strategy lists four guiding objectives for climate change response, namely: 1) Responding to the climate emergency, 2) Transitioning in an equitable and inclusive manner to net zero emissions by 2050, 3) Reducing climate risks and increasing resilience, and 4) Enabling a Just Transition through public sector, private sector and civil society collaboration. Each of the Guiding Objectives is supported by a preliminary list of key responses, which are still to be detailed in an Implementation Plan. The Strategy and Implementation Plan is provisionally aligned to the prescriptions of the Climate Change Bill, 2022, currently being gazetted for public consultation through Parliament. The Bill places obligations on District and Metro municipalities for coordination of climate change responses.

In the Stellenbosch IDP, through the Strategic Focus Area 2 – Green and Sustainable Valley, there are perhaps missed opportunities to highlight/develop specific planning mechanisms for reducing exposure of sectors vulnerable to climate change, as well as creating linkages between existing development priorities and climate resilience. Furthermore, although the IDP and SDF does acknowledge a transition to a low carbon and reduction of greenhouse gas emissions within national and provincial priorities, as a municipality, it does not identify clear policies, or systems to promote it these features. This could be addressed by mainstreaming these features into sector plans, such as the integrated transport and waste management plans.

On the municipal risks side, it is important that spatial planning address specific spatial climate risks, and reduce vulnerability whilst avoiding environmental hazards. Some of these are: water catchment recharge zones, flood lines, agricultural lands, critical biodiversity areas (CBAs) and ecological support areas in addition to ecosystems that provide buffers (e.g., wetlands, river buffers, forests, vegetation on steep slopes, buffers to natural areas (from fires), etc. Many of the above-mentioned are highlighted within the SDF of the Municipality. However, it is important that the strategic direction and implementation of the SDF address these features as part of a pathway to respond as well as build resilience to climate change.

Potential exists to incorporate and emphasise aspects related to renewable energy and energy efficiency better within the Electrical Master Plan of the Municipality, as well as its energy related initiatives and policy frameworks, such as the SDF implementation framework.

SECTION 3: ECONOMIC SUSTAINABILITY

This section examines to what extent the tabled 2022/23 MTREF Budget is responsive from a socio-economic perspective as well as the Municipality's ability to meet the community expectations for services from its limited resources to contribute towards achieving economic sustainability and growth and maximizing benefits for its residents.

This is done by an analysis of the budgetary allocations to the strategic objectives and the municipal and provincial expenditure to determine their respective responsiveness to the socio-economic reality of the municipal area.

3.1 Municipal Budget Analysis

This section analyses the responsiveness of the budget and strategic objectives to the socio-economic reality of the Municipality.

3.2.1 Key budget priorities in terms of IDP Strategic Objectives

The 2022/23 MTREF budget breakdown in terms of the strategic objectives are indicated in the table below. Stellenbosch Municipality budgeted for a total operating expenditure of R2.111 billion and a total capital budget of R405.27 million in the 2022/23 financial year.

Table 1 Strategic Objectives for the 2022/23 Medium Term Revenue & Expenditure Framework

Strategic Objective	2022/23 Medium Term Revenue & Expenditure Framework OPEX				2022/23 Medium Term Revenue & Expenditure Framework CAPEX			
R thousand	Budget Year 2022/23	Budget Year 2023/24	Budget Year 2024/25	Average Annual Growth	Budget Year 2022/23	Budget Year 2023/24	Budget Year 2024/25	Average Annual Growth
Valley of Possibility	136 536	123 777	130 162	-2.4%	187 731	199 000	264 808	18.8%
Green and Sustainable Valley	9 202	9 592	9 966	4.1%	62 966	63 850	33 700	-26.8%
Safe Valley	6 676	6 983	7 316	4.7%	28 900	34 093	21 799	-13.2%
Dignified Living	146 654	136 971	144 837	-0.6%	107 081	116 552	95 600	-5.5%
Good Governance and Compliance	1 812 094	1 930 741	2 049 979	6.4%	18 595	15 774	26 096	18.5%
Total Expenditure	**2 111 162**	**2 208 064**	**2 342 260**	**5.3%**	**405 273**	**429 269**	**442 003**	**4.4%**

Source: Stellenbosch Municipality, A-Schedules

Comments:

- Stellenbosch Municipality's 5th Generation Integrated Development Plan (IDP) indicates that the Municipality's vision is to be 'An Integrated Valley of Opportunity and Innovation." While the five strategic objectives remain the same as the previous terms IDP, it is clear that the priorities of the Municipality are shifting to areas that are aligned to new opportunities and innovative plans and policies.
- Solid alignment of the Municipality's IDP is demonstrated. The new IDP aligns to Global, National and Provincial and District strategies, also included in the 5th generation IDP are alignment to the National District Development Plan as well as the One Plan. The Municipality's budget allocations are also aligned to its strategic objectives as indicated in supporting Schedules SA5 and SA6.
- Of the Municipality's total 2022/23 operating expenditure budget of R2.111 billion, R1.812 billion (85.8 per cent) is directed towards Strategic Objective "Good Governance and Compliance". The majority share

of the capital expenditure budget, R187.73 million (46.3 per cent) is allocated to the 'Valley of Possibility' strategic objective, followed by R107.08 million (26.4 per cent) to the 'Dignified Living' strategic objective.

- The remaining 14.2 per cent of the operating expenditure budget is allocated across the remaining 4 strategic objectives, with "Valley of Possibility" and Dignified Living allocated 6.47 per cent and 6.95 per cent respectively; whereas "Safe Valley" and "Green and Sustainable Valley" receive marginal allocations.

- In respect of the remaining capital expenditure budget, "Green and Sustainable Valley" is allocated 15.5 per cent, "Safe Valley" 7.1 per cent and 'Good Governance and Compliance' receives a 4.2 per cent allocation for the 2022/23 financial year.

- It is interesting to note from its budgetary allocation to its strategic objectives where the Municipality's budget priorities lie over the 2022/23 MTREF. Delivering on its service delivery mandate is key, with significant expenditure in the development of efficient systems to achieve its planned targets. Investment in key infrastructure projects that will enable economic growth is also a priority for the Municipality over the new 5 Year IDP term.

3.2.2 Responsiveness of Expenditure

3.2.2.1 Responsiveness of Trading Services Expenditure

- Stellenbosch Municipality's operating budget for *Trading Services* increases by 7.4 per cent in the 2022/23 financial year when compared to the previous year, with a total trading services expenditure budget of R1.144 billion. Keeping pace with inflation as well as NERSA approved tariff increases remains a challenge in order to balance cost-reflective tariffs with affordability.

- Capital budget allocations for basic service delivery increase by 13.4 per cent in the 2022/23 financial year with a total budget of R239.79 million. This will ensure the timeous and effective upkeep of the existing basic services network to enable operational sustainability as well as allow for proactive investment in catalytic projects that will reduce operational costs in the medium to long-term.

Table 2 Trading Services Expenditure Analysis: 2022/23 (R'000)

Functional Area	Operating Expenditure	Capital Expenditure
Energy Sources	**678 614**	**77 471**
Community needs (IDP)/Current reality: • According to the 2021 Socio-economic Profile (SEP-LG), 92.2 per cent of formal households within the has access to electricity as a primary source of lighting. • The biggest challenge currently facing the Municipality's basic service delivery mandate is ageing electricity infrastructure which must urgently be upgraded in order to keep up with current demand. • Several wards listed electrification high up on their priority needs list including streetlighting and the supply of electricity to backyard dwellers and informal settlements.		
Expenditure Analysis: • The operating revenue budget for energy function increases by 8.8 per cent in 2022/23. The Municipality proposes a tariff increase of only 7.91 per cent, which is lower than the new tariff hike proposed by Eskom of 8.61 per cent. The overall increase in the operating budget does however appear relatively low given the need to uphold existing service level standards amidst rising costs while also providing for maintenance backlogs. • The capital budget for energy decreases by 1.83 per cent from the 2021 budget. The energy budget, however, does receive the largest share of the trading services budget, 32.2 per cent of the total budget is allocated to energy.		

Functional Area	Operating Expenditure	Capital Expenditure
● There are several capital-intensive electricity projects planned for the MTREF. The largest of these in terms of budgetary allocation is the R24.05 million for bulk infrastructure for the Ekanani Informal Phase 2 project followed by R14.2 million for development of the Laterra substation. Several other electricity upgrades and infrastructure projects are planned over the MTREF. ● A key priority for the Municipality is the development of clean, green energy generation to ensure future economic sustainability. A new strategy for green energy is to be submitted to the MayCo by 31 March 2023 as well as an amendment to the policy that will allow the Municipality to purchase electricity directly from the public. This will go a long way to sustain electricity provision during periods of loadshedding and have positive impact on the local economy.		

Functional Area	Operating Expenditure	Capital Expenditure
Water Management	**131 172**	**46 669**
Community needs (IDP)/Current reality: ● According to the 2021 SEP-LG profile, service access to piped water (inside or within 200m of dwelling), included 94.4 per cent of households in the Stellenbosch area. ● There are no basic water and sanitation services backlog in the urban areas of the Municipality. A small number of the households on farms are still without basic water and sanitation services. ● From a water services perspective, the most significant challenges are the augmentation of the existing water sources, the replacement and upgrading of old infrastructure to accommodate development, the provision of sustainable basic services to informal settlements, and to ensure the provision of basic services to rural communities located on private farms. ● Both water infrastructure and sanitation infrastructure require serious remedial investment. Approximately 39 per cent of the water supply infrastructure is in a poor or very poor condition and the condition backlog is in excess of R300 million. The bulk of the backlog is made up of the old water reticulation pipeline assets.		
Expenditure Analysis: ● The operating expenditure budget allocation for water management increases by 6.3 per cent in 2022/23 when compared to the 2021/22 adjustment budget. This corresponds to the 8.8 per cent increase in water management revenue. ● The capital budget allocation for water management decreases by 12.6 per cent in the 2022/23 budget from the 2021/22 adjustment budget. ● Several major water infrastructure projects are in the pipeline for the 2022/23 financial year. The larger allocations include R20.57 million for the New Reservoir and Pipeline: Vlottenburg, R13.35 million for Kayamandi (711 sites), bulk water infrastructure for Jamestown and Klapmuts (R6.0 million and R5.0 million respectively) as well as the Dam rehab for Langrug with an allocation of R4.5 million. ● The Municipality prepared a comprehensive Water Services Development Plan in 2007, 2012 and 2019 that is valid for a period of five years. The 2022/23 budget has an allocation of R1.0 million for the updating of the Water Master Plan to continuously stay abreast of changing water conditions in the municipal area as in the case of the recent drought experienced in the Western Cape.		

Source: 2022 Western Cape EPRE (Provincial spend), National Treasury Database (Municipal spend)

Functional Area	Operating Expenditure	Capital Expenditure
Waste Water Management	**197 262**	**57 300**

Community needs (IDP)/Current reality:

- According to the 2021 SEP-LG profile, 91.1 per cent of households have access to adequate sanitation (flush/chemical toilet).
- There are still households within the municipal area with services levels below the recommended standard. The Municipality has committed to supporting the private landowners as far as possible with regard to addressing the current services backlog on farms.
- About 43.4 per cent of the sanitation infrastructure is in a poor or very poor condition. It is estimated that it will cost at least R250 million to address. The bulk of the backlog consists of the old sewer reticulation assets in the municipal area.

Expenditure Analysis:

- The proposed tariff increase for sanitation services is 6.5 per cent in the 2022/23 tabled budget, the operating expenditure budget allocation for waste water management, increases by 12.6 per cent.
- The capital expenditure budget allocation decreases by 19.5 per cent R57.3 million when compared to the 2021 adjustment budget.
- Major allocations include the final phase of the upgrading of the WWTW Wemmershoek (R17.5 million), the Upgrade of the WWTW Pniel (R14.0 million) and the Upgrade of the WWTW: Klapmuts (R7.5 million).
- The rest of the capital budget is allocated between the respective communities to upgrade much needed sewer networks and replace sewer pipe infrastructure.

Functional Area	Operating Expenditure	Capital Expenditure
Waste Management	**137 843**	**58 345**

Community needs (IDP)/Current reality:

- 86.7 per cent of households have their refuse removed at least once a week as per the 2020 SEP-LG.
- Scarcity of landfill space remains one of the top five strategic risks in the municipal area. The unavailability of suitable land; costs of SLAs and alternative waste disposal; legislative requirements are all tedious processes and costly exercises that hamper the development of new landfill sites.
- Inadequate waste removal services can lead to dumping, environmental degradation and resulting health-related problems.

Expenditure Analysis:

- The operating budget for solid waste management increased by 8.0 per cent in 2022/23. This is an above inflationary increase that takes into account the transport of the waste from the landfill site.
- The capital budget allocation for waste management is R58.35 million for 2022/23, constituting a 636.4 per cent increase on the 2021/22 adjustment budget. The is mainly due to the allocation for the 2022/23 financial year of R44.0 million for the expansion of the landfill site to include new cells. This project will continue in 2024 bringing the total allocation over the 2022/23 MTREF to R85.0 million.
- The Municipality also has two major landfill gas to energy capital projects planned for the MTREF. In the 2022/23 financial year, R8.0 million is allocated to the project and R17.0 million in the following financial year. While this project has significant capital investment, no details related to the specific project/s are forthcoming in the IDP.

3.2.2.2 Responsiveness of Economic Expenditure

Table 3 Economic Expenditure Analysis: 2022/23 (R'000)

- Allocations for economic expenditure refer to expenditure on economic infrastructure i.e., assets and facilities that support the development of other sectors within the economy. Road Transport and Public Works is highlighted below.

Functional Area	Operating Expenditure	Capital Expenditure
Road Transport and Public Works	**107 911**	**64 135**
Community needs (IDP)/Current reality: • Road infrastructure upgrades remain a critical priority for the municipal area from a development perspective as access to markets for agricultural produce are mainly via road transport. • The Municipality currently faces several transport issues with regards to the provision of public transport and developing infrastructure capacity for other modes of transport including non-motorised transport.		
Expenditure Analysis: • Overall, the WCG will spend R324 256 million on road transport and public works infrastructure within Stellenbosch municipal area in 2022/23. This investment includes R120.0 million for the refurbishment of the Spier Road; R64.0 million for the Kuilsriver-Stellenbosch Road and approximately R72 million for the resealing and regravelling of roads in the municipal area. • The Municipality does have a Comprehensive Integrated Transport Plan (CITP) in place, the latest one having been adopted in 2021 for the 2016-2021 period. The CITP is currently being reviewed and will be valid for the period 2022 to 2027, a budgetary allocation of R600 000 has been allocated to the review. • All the proposed projects in the CTIP for the next 5 years are to be funded through municipal own funding according to the IDP. Planning for public transport hub developments and non-motorised transport projects also feature in the 2022/23 budget to address the issue of various modes of transport within the municipal area. • The capital expenditure budget for roads has increased by 3.1 per cent from the previous financial year to R64.14 million. • Economic infrastructure such as roads is by nature capital intensive. Major projects over the MTREF include R15.0 million for a Bridge construction, R9.0 million for the pedestrian bridge in Kayamandi and R3.0 million for the Adam Tas Technopark link road. • The road allocations directly address these needs and responds well to the notion that government should create an enabling environment conducive of growth and development. Regular road maintenance and upkeep also has positive economic and social spin-offs i.e. enhancing the longevity of current assets will ensure sustainable access to economic opportunities which will significantly improve the economic and social standing of businesses and private citizens		

Source: 2022 Western Cape EPRE (Provincial spend), National Treasury Database (Municipal spend)

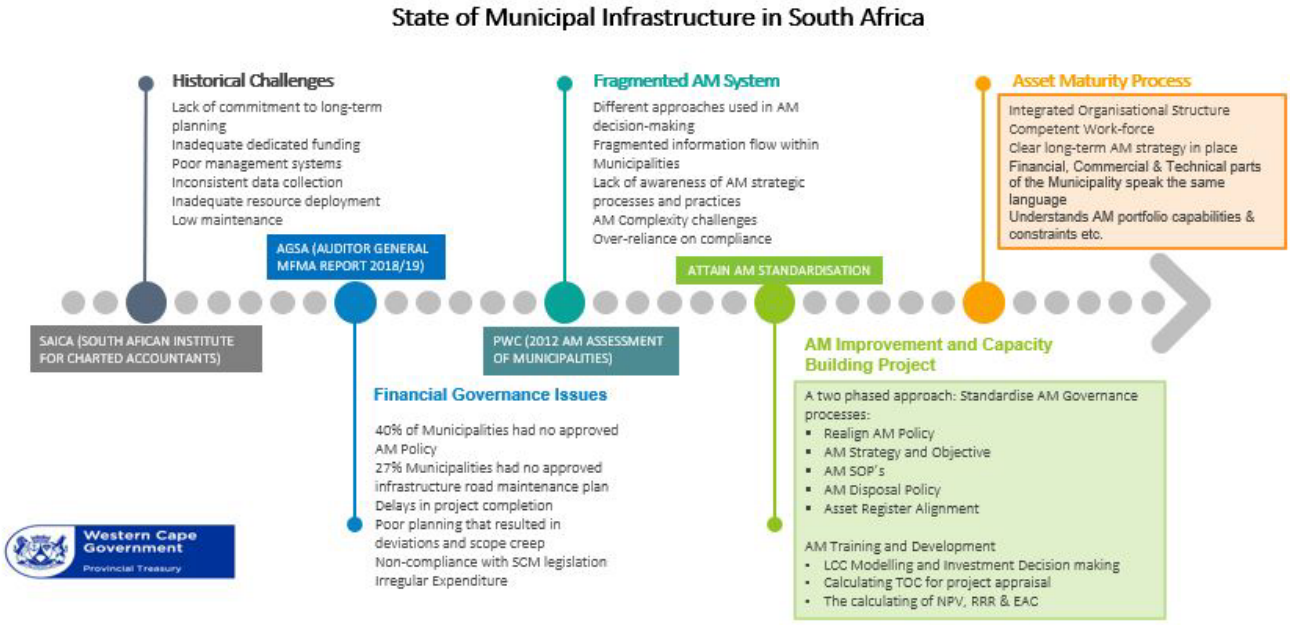
3.2.2.3 Responsiveness of Social Expenditure

Table 4 Social Expenditure Analysis: 2022/23 (R'000)

Functional Area	Operating Expenditure	Capital Expenditure
Housing	**33 571**	**15 185**
Community needs (IDP)/Current reality: • As per the 2022 SEP-LG, there are a total of 50 328 households in the Stellenbosch municipal area, 72.7 per cent had access to formal housing, the lowest access level when compared with other municipalities in the CWD area; the CWD average was 80.8 per cent. The municipal area also had the highest percentage of people living in informal settlements at 25.2 per cent. • The demand for housing continues to grow within the municipal area. The shortage not only exists within the low-cost housing market but also across all housing categories, including student accommodation, rental stock and gap markets. • The lack of available housing is also exacerbating the issue of land invasion in the municipal area..		
Expenditure Analysis: • The Provincial Department of Human Settlement's spend in Stellenbosch Municipality totals R97.98 million for 2022/23, of which the bulk (R68.98 million) is allocated towards the Vlottenburg Longlands Development project (106 units), R13.4 million to the Kayamandi Zone O (711 units) and R4.5 million to the Langrug Mooiwater Dam (300 sites). • The Municipality's capital budget allocation to the housing function increases by 54 per cent to R15.19 million for the 2022/23 financial year. Significant allocations are made to the Jamestown Housing project (R3.6 million) and the Kayamandi Town Centre (R3.0 million). • The key focus are for the Municipality over the MTREF will be to address the issue of gap housing and social housing. The policy response to address this issue includes finalising the inclusionary housing policy to provide developers to also respond to the addressing the housing crisis. The target for finalising the inclusionary housing policy has been set for end March 2023. • The Municipality keeps its Housing Demand Database updated; it completed a review of the database in 2021. This bodes well for efficient planning and budgeting for the housing function.		

Source: 2022 Western Cape EPRE (Provincial spend), National Treasury Database (Municipal spend)

Additional considerations:



- Alignment of numbers of households should be checked across budget, IDP and SDBIP. Targets in the draft Top-Layer SDBIP are set at the provision of basic services to 25 500 households in the municipal area while actual number of households are 50 328 (SEP-LG 2020) and 52 448 (Tabled Budget Schedule A10).

- The Expanded Public Works Programme Grant has decreased by R121 000 in the 2022/23 financial year, to R5.87 million. However. The target set for the number of job opportunities to be created in 2022/23 has increased from 1300 jobs in 2021 to 1400 jobs in 2022. The Municipality should take cognisance of whether this will be feasible.

3.2 Utilising Procurement as a Lever to Enhance Local Economic Development

3.3.1 Asset Management Governance and Capacitation Project

This project was necessitated by the challenges that were highlighted by AGSA during their 2018/19 audit report for MFMA in the Western Cape, SAICA and Price Waterhouse Coopers (PWC) assessment which is depicted below:

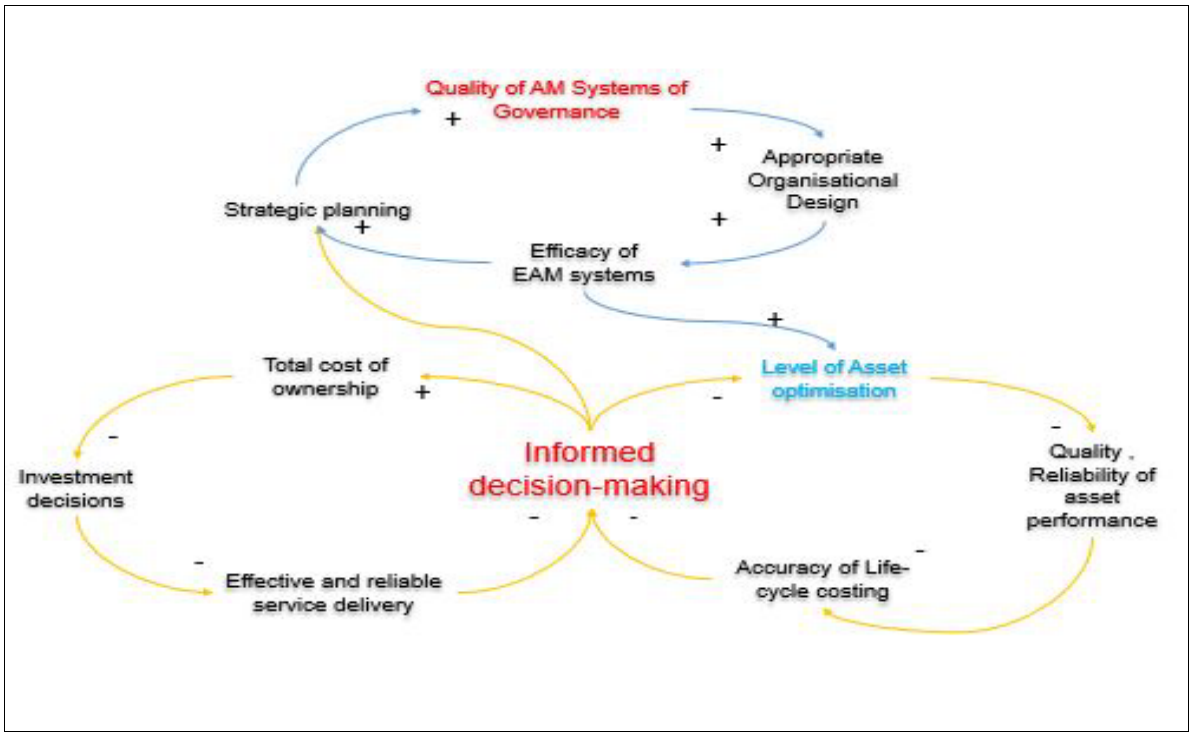
This project focused specifically targeted the Municipal Asset Management Governance Framework, Policies and Strategies as this is the bedrock of all assets related initiatives and provides a mechanism decision-making and gives clear understanding and oversight of each other's expectations, objectives, performance, risk appetite, and reporting requirements. The Framework would review municipal current:

- Policy and Strategy Development
- Asset Management Planning and Implementation
- Capability and Capacity Development
- Performance Improvement and
- Knowledge Management

Cape Winelands District Municipalities including Overstrand and Cape Agulhas Municipalities were piloted in the initial roll-out of the project. This project has now been implemented in the West Coast District and will overtime be rollout out to other districts of the Western Cape

As part of this Governance Framework attention was given to the **Operations and Maintenance Works Order Management** processes; this is the cornerstone of good Repairs and Maintenance Practices, and the Works Order Management document is the prerequisite to a Computerized Maintenance Management system (CMMS) that was found lacking at all piloted municipalities. The reason for the focus on this area is because of the inherent benefits thereof being:

- Cutting downtime of operation equipment
- Extent asset life
- increase availability and performance of equipment.



- Boost employee productivity.
- Reduce overtime.
- Improve municipal services.
- Reduce the maintenance backlogs.
- Improve safety.

The causal loop diagram below provides a snapshot of the aim and purpose of the Asset Management Governance and Capacitation Project. Starting with improving the quality of Asset Management system of Governance it is envisaged that this would have a knock-on effect of the other processes with the Asset Management system as is depicted in the diagram below. The causal loop diagram also illustrates the aimed interconnectedness of the various processes in the Asset Management System and the relationship with SCM with the ultimate purpose to mature the Asset Management System in municipalities overtime. This will depend on the capability, capacitation levels and culture that exists within various municipalities and districts.

The loop suggests that Asset Management System of Governance will impact Municipal Strategic Planning with appropriate alignment to the organisational design that should positively impact the efficacy of the Enterprise Asset Management Systems (EAM). This should translate into greater level of optimisation that impacts on:

- The quality and reliability of asset performance
- Accuracy of lifecycle costing into
- Better informed decision-making
- That positive effect Total Cost of Ownership (TCO)
- Help municipalities make informed Investment Decisions
- Hence deliver on effective and reliable service delivery

Figure 1

The benefits are asset's longevity beyond design life, integrated solutions that balance cost, risk and performance over the asset life cycle that are needed to optimise asset reliability, availability and quality, at minimum cost. All the elements in the causal loop becomes necessary to understand the risks, benefits of delaying new capital expenditure and the impact on strategic objectives. The aim of Asset optimization is to find the balance between efficiency and reliability by making strategic improvements to the effectiveness of your overall asset management methodology by providing more holistic adjustments to your Asset Management Governance Framework

The District Asset Management Steering Committee approach for CWDM will aim to share best and right practices and standardised Asset Management processes, in order to keep the continuity and improve the maturity within the region. The collective knowledge of the individual pilot projects will be shared among all municipalities on platform to improve the other portfolios within individual Municipalities.

To achieve this; collaboration among all municipalities on the platform will be key, so it is proposed that it would be essential for other District Municipalities to start playing that collaborative role within their respective districts, in order to start building momentum, so when the project is rolled out in that particular District, the process to standardisation and maturity would be easier

3.3.2 Procurement Planning

Demand Management and procurement planning has become a national concern, hence National Treasury issued MFMA Circular No. 94 requiring the Accounting Officer to submit the procurement plan together with the Budget, Service Delivery and Budget Implementation Plan (SDBIP) to address the weak planning processes, as slow spending of capital budgets has a negative impact on service delivery.

Procurement planning in the Local Government sphere is an evolving process that needs to be enhanced overtime as the current system, manual or otherwise, has attributed to poor service delivery by not meeting the intended municipal service delivery goals.

PT is currently assessing all procurement plans of Western Cape Municipalities to ensure the compilation of a demand plan and procurement plans aligned with the IDP, SDBIP, and linked to the annual budget to ensure that funding for the acquisition of goods and services are available.

In times of fiscal austerity, efficient resource allocation and integrity in public spending is essential to ensure sound service delivery and transparency. Thus, procurement planning can be a useful recognition of procurement tool to improve institutional efficiency through savings and economies of scale. One of the ways to utilize procurement plans to achieve savings and economies of scale is to consider joint procurement for common goods and services.

3.3 3 Municipal Supplier Evidence Bank (SEB)

In the Draft Public Procurement Bill for public comment, under **Chapter 2**, **Part 3** – Use of Technology, reads *"Institutions must, to the extent possible, use information and communication technology to implement any of the procurement methods in this act."*

PT is currently doing research with the planned roll-out of supplier evidence bank (SEB) system to the municipalities to enhance their master supplier database and provide a reliable house for documentation of suppliers' information. The SEB is a central repository of governance documents required in the Supply Chain Management process that augments the CSD as this information is not available on the current CSD system.

There are numerous benefits that comes with this web-based solution for Provincial Treasury, municipalities and suppliers as it will provide a single point of reference, reduce the repetitive process of submitting documentation and house documentation. The benefits for municipalities and suppliers will include at least the following SCM Governance requirements:

- The SEB will provide for LESS RED TAPE making it easier to do business with municipalities and streamline the activation process.
- Focused on improving performance, compliance and developing a credible centralised data source has emerged.
- The main function of the SEB, is that governance documents submitted only ONCE to the WCSEB instead of each tender (BBBEE + tax compliance status extracted from CSD, MBD 4, 8 and 9 consolidated into ONE document: MBD4, inclusive of municipal services accounts.)
- The SEB will also flag suppliers listed on the NT tender defaulters register and restricted suppliers' list, potential conflict of interest, suspended suppliers and any supplier expired documentations.

Furthermore, the SEB is designed to accommodate local SMME's to render service with the Municipality especially for formal and informal quotation as there's no need for local supplies to visit the municipal office notice boards to check for advertised tender/RFQs, the system generates the email and send it to supplies based on their commodity/industry classification. Overtime Provincial Treasury will purpose to integrate other applications and solutions with the SEB via a BI solution as part of the e-vision in order bring about better efficiencies in governance and data analytics.

SECTION 4: FINANCIAL SUSTAINABILITY

4.1 CREDIBILITY OF FUNDED BUDGET

4.1.1 Observations on the Current Financial Year

Table 5 Audit and current year performance

WC024 - Stellenbosch	2018/19				2019/20				2020/21				Current year 2021/22

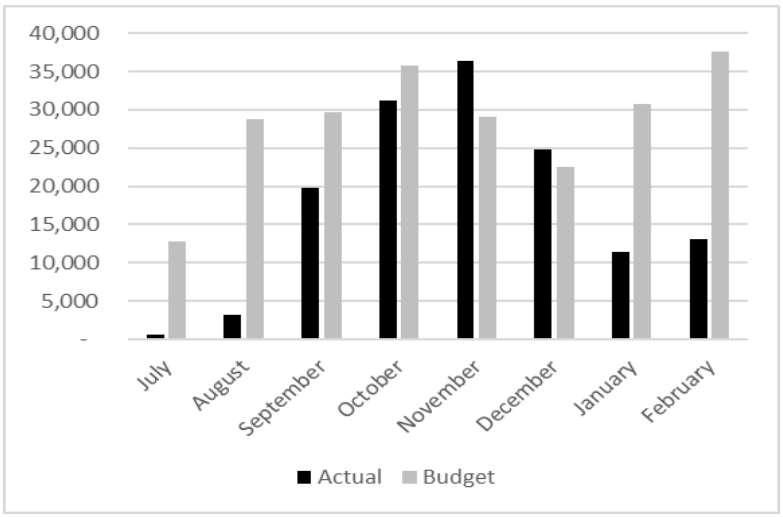
Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- The table above sets out the Municipality's past and current operating and capital budget performance as per data submitted by the municipality to the National Treasury Database.



- The Stellenbosch Municipality marginally underperformed on its total operating revenue budget in the 2018/19, 2019/20 and 2020/21 financial years. Despite the adverse effects of the COVID-19 pandemic, the Municipality maintained real growth in the total operating revenue year-on-year in 2020/21. It was however noted that Service Charges underperformed by five (5) per cent in 2019/20 and eight (8) per cent in 2020/21 whilst Investment Revenue underperformed by four (4) per cent in 2019/20 and 15 per cent in 2020/21 in the last two (2) financial years which is an indication of the pressures the Municipality was under in terms of actual performance against budget. A downwards adjustment was observed in the current 2021/22 adjustment budget for these line items and may indicate the continuous impact of the COVID-19 pandemic.

- Debtors outstanding for more than 90 days remain high, amounting to R 215.84 million or 68 per cent of the total outstanding debtors as at the end of February 2022. Given the impact of COVID-19, strategies to reduce or recover accumulated debtors over 90 days must be revised. Notwithstanding the large outstanding debtors, the collection rate remains above the NT norm of 95 per cent and is projected at 96 per cent over the MTREF period.

- The Operating Expenditure budget was underspent by twelve (12) per cent, seven (7) per cent, and one (1) per cent in the 2018/19, 2019/20, and 202/21 financial years respectively. Careful monitoring of the implementation of the budget is encouraged to prevent the continuation of the negative trends, especially against items that have a direct impact on service delivery.

- The Municipality reduced the capital budget in the current financial year by 16.2 per cent, however, the slow implementation of the capital program remains a risk.

Graph 1 2021/22 YTD Capital Expenditure

The current year's performance as at the end of February 2022 was 35% indicating an underperformance of 38.2%. Strategies to improve spending during the first six (6) months must be reviewed in the ensuing MTREF years. In addition, given the current underperformance, stringent measures to intensify monitoring of capital performance over the next four (4) months must be implemented.

Source: Stellenbosch Municipality 2021/22 In year C-schedules- mSCOA data

4.2 REVIEW OF THE NEW (2022/23) MTREF

4.2.1 Review of the Budget Assumptions

- The budget assumptions listed in the budget document are used as a benchmark in predicting the expected operating revenue and expenditure as well as the capital expenditure given the current realities facing the municipality and its ability to manage its financial administration. These include amongst other policy decisions of different spheres of government affecting municipal operations, external factors influencing municipal revenue and expenditure patterns and the management of internal factors to minimise the impact on both the municipality and its clients that they serve.

- Below is a summary of some of the assumptions considered:

Table 6 Budget assumptions for the 2022/23 MTREF Budget:

Budget Assumptions for 2022/23 MTREF	National Treasury Norm	2022/23	2023/24	2024/25
Tariff Percentage Increase:				
Electricty	Nersa has approved 7.47%.	7.9%	6.0%	6.0%
Water	CPI index inflation with lower limit of 3 to 6 % target band. Municipality to justify all increases in excess of the projected inflation target for 2022/23 MTREF.	6.2%	6.0%	6.0%
Sanitation		6.5%	6.0%	6.0%
Refuse		8.0%	8.0%	8.0%
Property Rates		6.2%	6.0%	6.0%
Collection Rates				
Water	MFMA Circular no. 71 norms of 95%	96%	96%	96%
Electricty		96%	96%	96%
Sanitation		96%	96%	96%
Refuse		96%	96%	96%
Employee Related Costs				
Salaries and wages and relate	MFMA Circular no. 112 and 115 guidance of 4.9%	4.9%	4.4%	4.5%
Notch Increment		2.5%	2.5%	2.5%
Other Assumptions				
Bulk Purchases - Electricity	NERSA has approved a 9.6 per cent tariff increase for Eskom.	8.61%	7.00%	7.00%

Source: Stellenbosch Municipality 2022/23 MTREF Budget

- The budget assumptions are deemed credible and in line with the NT guidance and norms. However, all the trading services tariffs and property rates are increasing at rates higher than the Consumer Price Index of 4.8 per cent. The Municipality's reasons provided in the budget document for the above inflation tariff increases are noted and the Municipality is encouraged to balance affordable tariffs against increasing demands in costs to ensure sustainable cash surpluses.

- The Municipality considered the macroeconomic context informed by the Medium-Term Budget Policy Statement (MTBPS), the Provincial Budget, Municipal Economic Review and Outlook (MERO) documents as well as the municipal strategic plans and policies to inform the budget. The Municipality should also consider how its long-term financial plan informs the budget to ensure long-term sustainability.

- The Municipality is projecting a zero per cent growth in consumption on table SA9 (Social, economic and demographic statistics and assumptions) which is concerning as a stagnant consumption growth is a potential risk to maintaining sustainable revenue sources. The Municipality is encouraged to closely monitor revenue projections during the in-year performance to accurately inform assumptions over the MTREF period. Strategies to protect revenue sources should be developed.

- The collection rate is projected at 96 per cent which is above the NT norm and in line with current collection rate reported of 96 per cent as at the end of February 2022.

- The 8.61 per cent increase in electricity bulk purchases are slightly below the 9.61 per cent approved in the municipal benchmark published on 30 March 2022. The final budget must be correctly aligned to the latest guidelines. The municipalities cannot transfer the full increase in electricity bulk purchases (increasing by 9.61 per cent) to consumers (increasing by 7.47 per cent) which places pressure on profit margins. This will exert pressure on the municipal operating budget to absorb costs from other operating

revenue sources and internal efficiencies in all departments must be identified to manage the impact on the surplus/ deficit.

- The Municipality has over the last two (2) financial years shown great resilience to remain financially stable under exceptionally uncertain economic conditions. The Municipality's continued success depends on its ability to recognise when to adapt and adjust plans during any uncertainty. Some of the current uncertainties include amongst others the impact of oil prices and other commodities as well as the impact of ESKOM load shedding on industries. The Municipality is encouraged to continue with ongoing assessments of assumptions to ensure that revenue and expenditure projections and policy decisions are accurately informed over the MTREF.

- Balancing affordability and increasing spending demands is key to maintaining a healthy funding position with active contributions to the capital replacement reserve fund.

4.2.2 Budget Overview

Table 7 Budget overview for the 2022/23 MTREF Budget

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- The Municipality tabled an operating surplus over the entire 2022/23 MTREF budget with an increasing trajectory according to the municipal tabled budget. The Treasury recalculation indicates a different result due to a higher projected Debt impairment amount based on the 96 per cent projected collection rates. The Municipality is encouraged to revise the Debt impairment provisions in line with past performance and the projected collection rate.

- The Municipality is commended for maintaining a cash surplus after commitments but excluding any reserves. The Municipality's budget is reflected as funded over the 2022/23 MTREF in line with section 18 of the MFMA.

4.2.3 Operating Revenue Budget

Table 8 Operating Revenue for 2022/23 MTREF Budget:

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- The Municipality is budgeting for a total Operating revenue budget amounting to R6.79 billion over the 2022/23 MTREF period, with projected increases of 6.8 per cent, 6.8 per cent and 6.5 per cent over the MTREF period.

- **Property Rates** are a steady source of revenue for the Municipality and contribute 20.8 per cent to the total operating revenue budget. The anticipated increase of 5.8 per cent from the current year to the 2022/23 financial year is due to interim valuations that were performed together with the tariff increase of 6.2 per cent.

- It is concerning that the Municipality do not anticipate any increases in the number of properties (SA12 a and SA12b comparison) indicating that the municipal area may be stagnating in terms of property growth potential.

- Balance sheet budgeting as per mSCOA circulars No.10 and No.11 were applied when preparing the budget, however some consideration should be given to the following technical mSCOA matters for updating in the final budget:

  - It is noted that the monthly billing(A6) is correctly aligned to the revenue (A4) for Property rates.

  - The Assets: Current Assets: cash at the bank (R422.93 million) for levies is aligned with the collections budgeted for Receivables from Non-exchange Transactions: Property Rates (R422.93 million).

  - The Municipality did not account for Debt impairment linked to Property rates collection.

An analysis of the four major services over the MTREF is partly informed by the table below:

Table 9 Operating Revenue for 2022/23 MTREF Budget:

Description R thousand	2018/19 Audited Outcome	2019/20 Audited Outcome	2020/21 Audited Outcome	Adjustment budget 2021/22	Budget Year 2022/23	Budget Year 2023/24	Budget Year 2024/25

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- For this analysis the revenue projections on table A4 of the budget were used as this is the revenue generated from the services less all subsidies provided by the Municipality. In addition to this, the cost of free basic services (SA1) funded from LGEs was added to provide for all revenue billed. Table A2 of the budget provides the expenditure information less the National Treasury capital grant allocation for each of the trading services. The reasoning behind this is that theoretically for cost reflectiveness the revenue generated from the service should be able to cover the full cost of the service before transfers. This may become crucial going forward given the low economic backdrop, under-collection of tax revenue and shifts in governments priorities.

- The aggregated **Service Charges** budget amounts to R1.145 billion or 58 per cent of the total operating revenue budget, however, this should be viewed in line with costs associated with the provision and distribution of the services as well as distribution losses. The revenue cost of Free Basic Services (FBS) is expected to increase by 104.8 per cent in 2022/23, the envisaged increase in the revenue cost of FBS is not in line with the projected increases in the number of indigent households in the area.

- The **Electricity revenue** budget contributes 40.1 per cent of the total operating revenue over the MTREF budget and is the largest source of revenue for the Municipality. This income source is projected to increase by 7.8 per cent, 7.3 per cent, and 7.6 per cent over the MTREF period.

- The Municipality is projecting to maintain a surplus of 27 per cent over the MTREF period with increasing actual surplus amounts over the MTREF period of R185.8 million, R198.4 million, and R210.24 million. The steady surpluses should also be viewed in line with the electricity distribution losses of between 7.55 per cent and 9.68 per cent over the last three (3) audited years. Strategies to reduce these losses must be explored including increased spending on planned Repairs and maintenance which is currently below

the recommended norm. The Municipality indicated a decline in consumption of electricity as consumers are migrating off the grid and increasingly utilising alternative energy sources. This is a risk to the revenue budget and the Municipality is encouraged to stay abreast with developments of the Municipal Energy Resilience project and develop strategies to protect revenue sources.

- **Bulk purchases** are projected to increase at a slightly higher rate of 8.61 per cent when compared to the 7.9 per cent electricity tariff increase in 2022/23 which will exert pressure on the Municipality to maintain sufficient profits to contribute to other cross-subsidised costs and future capital infrastructure expansion. Notwithstanding these pressures, the Stellenbosch Municipality has limited control over the declining consumption effects of consumers exploring alternative electricity sources.

- **Water Service** revenue is projected at R176.78 million, R186.97 million, and R198.19 million contributing 8.3 per cent to the total operating revenue over the MTREF period. A 6.2 per cent tariff increase was proposed for water consumption contributing towards a 6.2 per cent increase in the 2022/23 water revenue given the zero per cent expected growth in consumer consumption.

- Steady surpluses across the MTREF period is projected as well as a declining trajectory in water distribution losses water distribution losses from 28 per cent in 2018/19 to 18.1 percent in 2020/21, which is commendable. Although these losses are within the NT norm of 15 to 30 per cent, water remains a scarce commodity and all efforts to further reduce distribution losses are recommended.

- The **Sanitation revenue** budget is projected to increase by six (6) per cent to R109.13 million in 2022/23 due to the 6.5 per cent increase in sanitation tariffs. The Municipality projects significant deficits of 39 per cent in 2022/23 which increases over the MTREF period to deficits of 40 per cent in 2023/24 and 2024/25. The Municipality is reminded that cost-reflective tariff setting is a requirement of Section 74(2) of the Municipal Systems Act, 2000 (Act No.32 of 2000) which states that tariffs must "reflect the costs reasonably associated with rendering the service". This is meant to assist municipalities to generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in infrastructure that promotes local economic development.

- The **Refuse removal** budget is projected to increase by eight (8) per cent over the MTREF period. No significant risks are noted regarding the projected revenue. The Municipality projects deficits of 17 per cent in 2022/23, this improves significantly to surpluses of 17 per cent and 20 per cent in the 2023/24 and 2024/25 financial years respectively. The reduction on operational costs of the refuse function in 2023/24 must be reviewed and aligned to increasing fuel costs and increasing Employee related costs.

- Balance sheet budgeting for trading service as per mSCOA circulars No.10 and No.11 was applied by the Municipality when preparing the budget, however some consideration should be given to the following technical mSCOA matters for updating in the final budget:

    - It is noted that the monthly billing(A6) is incorrectly aligned to the revenue (A4) for all trading services as the Municipality did not account for OUTPUT VAT in the sales.

    - The Municipality did not account for Debt impairment for each trading service collection.

- **Transfers and subsidies** budgeted at R223.25 million contribute 10.5 per cent of the total operating revenue. This is an increase of 9.6 per cent when compared to the 2021/22 adjustment budget due to an increased equitable share allocation.

Benchmarking is the practice of comparing business processes and performance metrics to industry bests and best practices from other institutions.

The main aim of the benchmarking exercise is to:

- Promote continuous improvement by maintaining a competitive edge;

- Support partnering to share information and best practices; and
- Drive adaptation based on customer needs after examination of the best.

The table below compares the Municipality's Operating budget performance as projected in the draft 2022/23 MTREF Budget against the expected norms, the provincial average, the highest point, and the lowest point in the province for each indicator.

Table 10 Municipal Benchmarking – Operating Revenue

PT: Municipal Budget and Benchmarking Engagement - 2022/23 Draft Budget (Per Mun Own Budgeted Figures)

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- The Municipality's Operating expenditure Budget amounts to R2.1 billion in 2022/23, R2.2 billion in 2023/24 and R2.34 billion in 2024/25. The largest cost drivers remain Employee Related Costs (ERC) which makes up 29.6 per cent of the total operating expenditure budget in 2022/23 and reduces over the MTREF period to 28.6 per cent of the total operating expenditure in the two outer years which is commendable.

- The **Bulk Purchases** budget amount is projected to be R551.41 million in the 2022/23 financial year, the Bulk purchases budget is projected to increase by 8.6 per cent over the two outer years to R588.89 million and R660.45 million. The assumption of the 8.6 per cent bulk purchases tariff increase must be reviewed and aligned to the latest guideline increase of 9.61 per cent.

- The **Contracted Services** budget amount was reduced to by 5.8 per cent from the 2021/22 adjustments budget amount to R278.93 million in 2022/23, the Contracted services budget gradually increases by 2.8 per cent and 5.4 per cent to R286.761 million and R302.17 million in the two outer years.

- **Finance Charges** are calculated on the maximum possible borrowings drawn down up to the end of the 2022/2023 financial year. The budget amount for this expenditure item is expected to increase by 50.7 per cent to R67.8 million in the 2022/23 financial year, increase by 19.2 per cent to R80.82 million in 2023/24 and increase by five (5) per cent to R84.83 million in 2024/25. The Municipality is planning to take up more loans over the MTREF period contributing to the expected increased capital costs. Given the limited growth in the consumer base, these loans will add additional pressure on tariffs already increasing above CPI.

- **Debt impairment** is budgeted at R88.15 million which is a 16.3 per cent decrease from the current year. The 2020/21 Audited Annual Financial Statements indicate an under provision of R34.77 million and R51.12 million in the 2019/20 financial year which indicates a trend of under provision by the Municipality. The Municipality is encouraged to revise the assumptions informing the Debt impairment calculation towards a realistic and accurate budget as discussed with the finance team.

- Balance sheet budgeting for expenditure items as guided by mSCOA circulars No.10 and No.11 was applied, however some consideration should be given to the following technical mSCOA matters for updating in the final budget:
    - It is noted that the Liabilities: Payables: Deposits(A6) are not aligned to the Liabilities: Payables Withdrawals (A6) for all Services. No alignment is identified between the expenditure; All services except bulk purchases and Liabilities: Withdrawals.
    - The Municipality did not account for INPUT VAT on expenses on Table A6.
- **COVID-19**: As a result of the lifting of the State of Disaster on Monday, 04 April 2022, it is no longer a requirement to manually report the COVID-19 related expenditure on a weekly basis. Reporting on the expenditure will be monitored through the submission of the mSCOA data strings as articulated in mSCOA Circular No. 9 dated 09 June 2020. The Municipality failed to budget in line with the aforementioned circular.
- **Water Inventory**: It is noted that the Municipality correctly accounted for bulk water purchases amounting to R33.54 million as inventory as per the requirements of GRAP 12.
- Balance sheet budgeting for Water Inventory as per mSCOA circulars No.10 and No.11 was applied, however some consideration should be given to the following technical mSCOA matters for updating in the final budget:
    - It is noted that the Liabilities: Payables: Bulk Water: Deposits(A6) are incorrectly budgeted against Liabilities: Payables: Inventory: Deposits(A6) which should align with the Liabilities: Payables: Bulk Water: Deposits(A6) (A6). Alignment is identified between the expenditure: Water inventory consumed (A4) and Liabilities: Deposits.
    - No Assets: Inventory: Water: System Input Volume: Bulk Purchases were provided for in the data strings. As well as the Gains and losses linked to water losses in table A4
    - The Municipality did not account for Input VAT on the purchase of Water inventory
- The Municipality is commended for not incurring any unauthorised and fruitless expenditure in 2020/21. Irregular and fruitless expenditure was incurred in 2020/21 of R89.765 million and R53.98 million was written off.

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

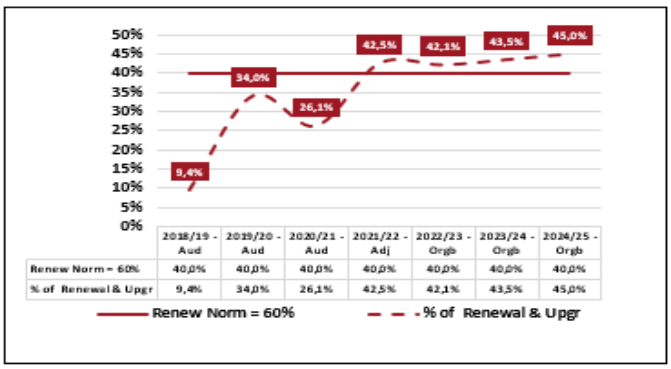
- The Municipality's capital budget is projected at R405.27 million in 2022/23, R429.27 million in 2023/24 and R442.0 million in 2024/25. This represents an increasing trajectory of 1.8 per cent in 2023/24, 5.9 per cent in 2023/24 and three (3) per cent in 2024/25. Real growth (1.5 per cent) is projected in first outer year of the MTREF (2023/24)and could indicate the potential to unlock future growth.

- The Municipality has appropriated the bulk (64.4 per cent) of its capital budget towards projects relating to the Trading services function, this is followed by a 20.9 per cent allocation towards projects relating to the Economic and environmental services function. At the end of the 2020/21 financial year, the Municipality's capital spending was reported to be 87 per cent of the capital budget and underperformance against the current 2021/22 adjusted capital budget has been noted. The Municipality's ability to fully spend the capital budget remains a risk to the overall credibility of the capital budget and the overall sustainability of the long-term funding model.

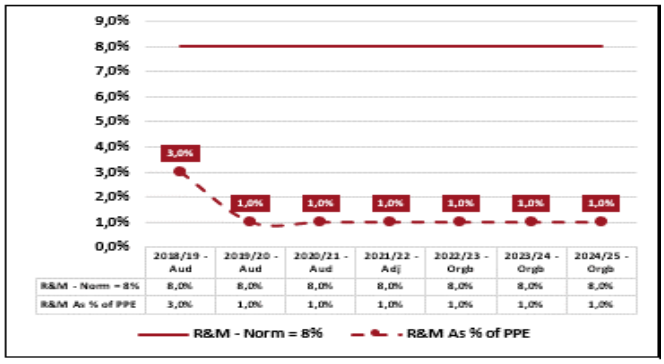
- The Municipality incorporated Section 16(3) of the MFMA into the budgeting process, which allows for the appropriation of large capital projects over multiple years, enabling municipalities to improve planning and spending. This is an excellent tool to improve spending patterns over the MTREF period.

- The Municipality proposed four (4) projects with a value above R50 million, these projects are the Bien don 66/11 KV substation with a value of R52.6 million, Expansion of the landfill site (New sites) with a project value of R85 million, New Reservoir and Pipeline Vlottenberg with a project value of R104.67 million and Upgrade of WWTW Wemmershoek with a value of R52.5 million.

- MBRR section 13(footnote 7), read together with MFMA Section 19 stipulates that where the total projected cost of a capital project is above R50 million, these values must be approved individually by the council in terms of MFMA section 19(1)(b) of the MFMA. The Municipality listed the above projects individually in the budget document; however, they should be approved individually by the council in the council resolution of the final budget.



- The projected cost covering all financial years until the project is operational and the future operational costs and revenue on the project, including municipal tax and tariff implications must be stipulated. The Municipality did not provide a breakdown of the operation costs for council to assess the impact on the operating budget and how future tariffs will be affected.



- The Municipality has an infrastructure growth plan in place which indicates planned capital expenditure of R6.1 billion over a 10-year period. For 2022/23 the budgeted capital expenditure is R405.27 million which is 6.7 per cent of the planned capital expenditure of R628.84 million for 2022/23 in the infrastructure growth plan. The Municipality should consider a Policy relating to dealing with infrastructure investment and capital projects to give guidance towards the implementation of the infrastructure growth plan as well as the Capital Expenditure Framework to unlock potential growth,

- Provincial Treasury encourages the Municipality to continuously monitor the implementation strategies with the management of the capital budget and apply project management principles to ensure adherence to the procurement plan and avoid escalation of costs.

- **Municipal asset replacement, renewal & depreciation management & repairs and maintenance plans:**

Graph 2 Asset Management

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- Budgeted Repairs and maintenance amount to 0.5 per cent (rounded to one in the graph) as a percentage of Property, Plant, and Equipment (PPE) which is far below the NT norm of eight (8) per cent. It is concerning that Repairs and maintenance were reduced significantly in the current budget year to R81.06 million and only R26.71 million in the 2022/23 budget year compared to the 2020/21 audited outcome of R338.92 million. It is further noted that 61.2 per cent of the R26.71 million will be allocated toward municipal buildings. The Municipality's borrowing and funding and reserves policy state that "repair and maintenance should constitute between five (5) per cent and eight (8) per cent of total operating expenditure and should annually be increased incrementally until the required targets are achieved." The Municipality should revise the budget allocation in line with its policy to ensure adequate provision to repairs and maintenance.

- Renewal and upgrading of existing assets as a percentage of total capital expenditure amounts to 42.1 per cent, 43.5 per cent, and 45 per cent over the MTREF which is in line with the NT national guide of 40 per cent. The Municipality should find the right balance between upgrading, renewing of assets and maintaining it to extend the life span of each asset.

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule

- The table above compares the Municipality's Capital performance as projected in the draft 2022/23 MTREF Budget against the expected norms, the provincial average, and the highest and the lowest percentages in the province for each indicator.

Capital budget Funding mix:

Graph 3 Capital Expenditure Funding Mix

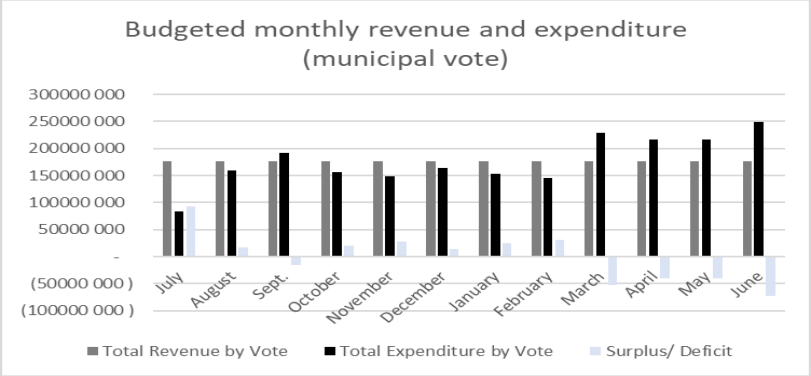
Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

- Capital Transfers represent R132.48 million or 32.7 per cent, R95.63 million or 22.3 per cent and R95.85 million or 21.7 per cent of the capital budget funding sources for the 2022/23, 2023/24, and 2024/25 financial years respectively. These capital funding contributions are mainly in respect of the Integrated Urban Development Grant (IUDG) and Integrated National Electrification Programme (INEP) from National and provincial government.

- The Municipality projects to fund 32.8 per cent of the R405.27 million capital budget from its own Internally Generated Funds in the 2022/23 financial year which will increase to 40.4 per cent for 2023/24 and further increases to 46.4 per cent in the second outer year.

- The policy guide indicates that the Municipality endeavors to effectively utilise and maintain the Capital Replacement Reserve for the funding of capital replacement and renewal for future financial years. Although the Municipality is contributing large amounts to the capital budget, no Capital Replacement Reserve (CRR) is budgeted for or maintained and as a result the A8 table (Cash backed reserves/accumulated surplus reconciliation) tabled by the Municipality presents zero reserves which is a risk to the overall sustainability of the Municipality's capital programme. The Municipality generates sufficient cash in the year to contribute to the capital budget however the policy guidance on the appropriation of capital funding resources on a sustainable basis in the longer term must be implemented.

- The Municipality is commended for the tabled Development Charges policy and the contributions that flows from this revenue source towards the capital budget.

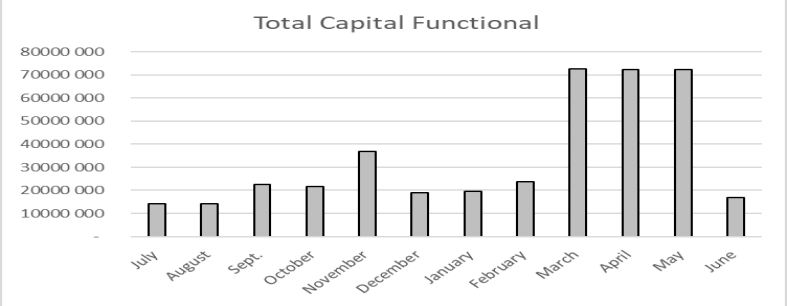


- The Municipality anticipates taking up borrowings in each of the financial years within the MTREF, amounting to R140 million in 2022/23, R160 million in 2023/24, and R141 million in 2024/25 which contributes to a good funding mix to spread a portion of the financial burden over a longer period. The Municipality is encouraged to time the drawdowns and align them to the procurement plans to prevent large unspent amounts at year-end.

- The aggressive contributions from municipal own funds towards capital investments is an indication of the need to respond to the infrastructure requirements. It is important that the right balance between actual implementation of the capital budget and the return on investment either in the form of economic growth or direct revenue generation or enhancement is achieved through out the MTREF period and beyond. This will ensure a sustainable trend to the overall development in the municipal area.

Forecasting and Multi-Year Budgeting

The credibility of forecasting and the level of multi-year budgeting is assessed utilising the following graphs:



Graph 4 Forecasting and Multi-Year Budgeting

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

On the assessment of supporting Tables SA25 to SA27, it is evident that Stellenbosch Municipality used seasonal projections to project its spending and operating revenue except in month 12 when a considerable amount of funds will be spent.

Graph 5 Monthly Capital Budgeting

Source: Stellenbosch Municipality 2022/23 MTREF Draft Budget A1-Schedule – mSCOA data strings

The capital expenditure presented in supporting Tables SA28 to SA29 starts up slow and progressively increases over the months and shows a slower expenditure at year end, which is a sign of adequate planning.

Actual trends from previous years however do not align to this and strategies to implement capital spending in accordance with procurement plans should be strictly implemented.

mSCOA Implementation

According to MFMA Circular No.115, it is imperative that municipalities prepare their 2022/23 MTREF budget in their financial systems and that the A1-Schedule be produced directly from their financial system, as this will eliminate alignment problems. The Municipality is commended for the correct alignment between budget document and A1 schedule system extract. A few misalignments on the Audited information were noted and strategies to align audit information must be explored.

The Municipality is commended for implementing guidance from NT via mSCOA circulars No. 10, 11 and 12.

To ensure that the relevant budget data strings are accurate, a segment use analysis was conducted on the 2022/23 draft budget data strings (TABB), the following finding were identified,

Table 15 mSCOA Segment Analysis

mSCOA Western Cape TABB Segment Analysis		
No	**Segment**	**Stellenbosch Municipality**
1	**Project Segment**	
1.1	Use of the Project Segment	Adequate use of segment
2	**Fund Segment**	
2.1	Use of Fund Segment	Adequate use of segment
3	**Function Segment**	
3.1	**Use of Function Segment**	Adequate use of segment
4	**Costing Segment**	
4.1	**Use of Costing Segment**	Adequate use of the costing segment
5	**Region Segment**	
5.1	**Use of Region Segment**	limited Split of region per ward / Municipality
6	**Item Segment :**	
6.1	**Service Charges**	No Alignment between Monthly billings and Revenue plus VAT
6.2	**Fines, penalties and forfeits**	No Alignment between Monthly billings and Revenue plus VAT
6.3	**Employee Related Costs**	Current Liabilities: Salary Control withdrawals do not align with the Expenditure of employee-related costs and councilor remuneration.
6.4	**Senior Management**	Appropriately used the available options
6.4.1	Municipal Staff	Appropriately used the available options
6.4.2	Councillors Remuneration	Appropriately used the available options
6,5	**Operational Maintenance**	Sufficient use of funding segment
6,7	**Debt Impairment**	Limited use of available options
6,8	**Contracted Services**	Adequate use of segments. Misalignment of balance sheet budgeting
7,1	Outsourced	Appropriately used the available options
7.1.1	**Consultants and Professional Services**	Appropriately used the available options
7.1.2	**Contractors**	Appropriately used the available options
8.	**Inventory Consumed**	Inventory consumed budget Adequately
9	**Water Inventory**	Water inventory not in line with guidance from circular 107,109
10	COVID - 19 Budget	Did not budget for COVID-19 in line with Circular 9

Source: Stellenbosch MTREF Draft Budget A1-Schedule – mSCOA data strings

In terms of the allocation of the budget across the segments, the Municipality has used all six regulated segments. A separate segment use analysis report was shared by the provincial treasury for correction. The Provincial Treasury is available should any clarity be required.

4.2.5 Table A6 – Financial Position

- **Working Capital**

The National Treasury outcome of the A6 (Budgeted Financial Position) indicates that the Municipality has reported a positive working capital that demonstrates that the Municipality has enough funds to meet its short-term liabilities over the MTREF period.

- **Current Ratio**

The National Treasury outcome indicates that the Municipality reported current ratios of 1.1:1, 1.3:1 and 1.5:1 for the 2022/23, 2023/24 and 2024/25 financial years respectively. The ratio shows an upward trend analysis.

However, the outcomes display that the Municipality cannot meet its short-term obligations without collecting additional revenue, except for the outer 2024/25 financial year. In contrast to the data strings and the National Treasury outcome, the Municipality reported favourable current ratios of 1.7:1, 1.8:1 and 1.7:1

for the 2022/23, 2023/24 and 2024/25 financial years respectively when analysing the Municipality's submitted budget which indicates that the Municipality can indeed meet its short-term obligations without collecting additional revenue.

- **Liquidity ratio**

The municipality's liquidity ratio reduced significantly in the 2020/21 financial year to 0.79 :1 in 2020/21 from 1.07:1 in 2019/20. Is it evident that the COVID-19 pandemic had a significant impact on the cash flow position, however an increasing anticipated liquidity ratio is reported to be 0.63:1, 0.74:1, and 0.92;1 for the 2022/23, 2023/24 and 2024/25 years respectively. This ratio which is below the National Treasury acceptable norm of 1:1, indicating that the Municipality does not have adequate cash and cash equivalents to settle its short-term debts over the MTREF years. The Municipality is encouraged to continuously strive towards positive liquidity ratio's given the current uncertainties globally and nationally.

- **Cash Cover Ratio**

The Municipality reflects a cost coverage ratio outcome of 2.36 months, 2.74 months, and 3.04 months for the 2022/23, 2023/24 and 2024/25 respectively which indicates that the Municipality is demonstrating that there are adequate cash resources to meet its monthly fixed operating commitments from available cash.

4.2.6 Table A7 – Cash Management

The outcome of the National Treasury calculation based on the funding tool indicates that the Municipality reported a positive cash flow as per the A7 (Budgeted Cash Flow Statement) of R347.56 million, R419.54 million and R494.52 million for 2022/23, 2023/24 and 2024/24 respectively. The current liabilities exceed the available cash and cash equivalents over the MTREF which raises a concern in respect of the Municipality's financial health and liquidity position. Differences are noted on tables A6 and A7 when comparing the data strings submission to the budget submitted by the Municipality. This raises a concern in respect of the credibility of the data strings submitted even though the Municipality reported positive cash and cash equivalents balances over the MTREF period. The credibility of the data submitted distorts the quality of the reporting and this must be corrected in the final budget.

4.2.7 Table A8 – Application of Cash and Investments

WC024 - Stellenbosch	Table A8 Cash backed reserves/accumulated surplus reconciliation			CURRENT YEAR					MEDIUM TERM REVENUE & EXPENDITURE FRAMEWORK					
Description	2018/19	2019/20	2020/21	2021/22	2021/22	2021/22	2021/22	2021/22	2022/23	2022/23	2023/24	2023/24	2024/25	2024/25

Reserves to be backed by cash/investments	121 841	(149 686)	153 094	-	(206 285)	-	(206 285)	-	(206 285)	-	(206 285)	-	(206 285)	-
Total Application of cash and investments:	291 873	633 191	802 332	423 535	157 074	226 850	157 074	120 025	(211 052)	263 199	(235 674)	270 497	(229 280)	278 833
Surplus(shortfall)	(293 760)	87 144	2 028 702	(110 372)	200 804	62 038	200 804	1 423 599	514 307	84 355	530 931	149 047	510 789	215 685

The Municipality has taken into consideration the required applications to the reported cash and cash equivalents as reflected in table A8 (cash backed reserves/accumulated surplus reconciliation) which depicts that the Municipality will achieve an overall outcome of R84.36 million (2022/23), R149.05 million (2023/24) and R215.69 million (2024/25). The outcome of table A8 above shows that the Municipality's budget is funded and sustainable over the MTREF period.

4.3 REVIEW OF THE HISTORICAL INFORMATION

4.3.1 The Financial Performance as per the Audited Annual Financial Statements

The assessment of the financial health and performance is an integrated process involving a review of a municipality's audited annual financial statements, audit report and ratio analysis. The results of the ratio analysis are used to support financial decisions and to identify factors which may influence the financial stability of the Municipality.

Adverse ratios highlight areas where attention may be required to ensure sustainability. The assessment trend analysis is based on the 2019, 2020 and 2021 audited financial statements although the table provides for a full five-year horizon (2017 to 2021) in order to have a more solid context when looking at the 2022/23 budget.

The analysis is conducted as per National Treasury MFMA Circular No.71. Provincial Treasury has analysed these ratios and the following items are highlighted.

Table 16 Financial ratios and norms

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
Asset Management										
1.	Capital Expenditure to Total Expenditure: **10% - 20%**	24.92%	24.12%	24.64%	19.69%	17.82%	-8.05%	16.39%	This ratio measures the level of Capital Investment opposed to total spend to deliver services. The ratio result shows a steady downwards trajectory from above the norm in 2017 to 2019, to within the norm in the last two reporting years. Projections based on the CAGR indicates a possible continued decline in capital investment. It is encouraged that the Municipality stay within the norm, as at this level of infrastructure investment, the risk of both over and under investment is limited. It is imperative that the Municipality balance its infrastructure investment with the service delivery needs of the community it serves.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
2.	Capital Expenditure Budget Implementation Indicator: **95 – 100%**	90.55%	86.76%	87.53%	66.16%	81.24%	-3%	79.07%	This ratio measures the Municipality's implementation of its Capital budget, and the effectiveness of controls to ensure spending as planned. The ratio results have fluctuated below the norm over the period, with a significant reduction to below the norm in the 2020 year; this could likely be linked to effects of the National State of Disaster. An improvement is observed in the last year, yet projections based on the CAGR indicate possible continued underperformance in implementation of capital budget. The Municipality is therefore encouraged to revisit monitoring and control mechanisms, strengthening these to enable optimal application. Furthermore, it is encouraged that project planning consider capacity and other limitations, learnt from prior implementation shortcomings.	
3.	Impairment of Property, Plant and Equipment, Investment Property, and Intangible Assets (Carrying Value): **0%**	0.01%	0.12%	0.03%	0.00%	0.00%	N/A	N/A	This ratio measures the efficacy of the municipal asset preservation strategy in deterring the incurrence of impairment of assets.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
									The ratio result has decreased over the period, showing no incurrence in the last two years. This shows an effective asset preservation strategy but may also possibly indicate ineffective impairment testing. It is encouraged that the reason for the results be investigated, and appropriate measures put in place to optimise asset preservation programs.	
4.	Repairs and Maintenance as a % of Property, Plant and Equipment, Investment Property (Carrying Value): **8%**	1.20%	0.83%	1.12%	1.03%	1.42%	4%	1.49%	Repairs and Maintenance is a crucial part of an organisations Asset Preservation strategy. Adequate expenditure in this regard is thus essential and varies dependent on each organisation's preservation program and the condition of its asset base. The ratio result has fluctuated below the norm over the period measured. The result poses risk to the sustainability of service delivery. Despite the NT norm, it is encouraged that the Municipality devote more of its cash resources to repairing and maintaining its asset fleet, in line with an updated asset masterplan, thus reducing the risks of asset degradation, potential breakdowns and downtime of service delivery and early replacement of infrastructure assets.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
5.	Own funded Capital Expenditure (Internally generated funds + Borrowings) to Total Capital Expenditure :**(None)**	75.93%	82.11%	82.16%	69.35%	75.86%	0%	75.85%	This ratio is a grant dependency ratio, measuring reliance on grant funding for capital investment programs. The ratio has fluctuated over the period, showing a reduction in 2020, and an increase in 2021. Projections indicate a continuation of the last year trend in future periods. With pressures on the national fiscus, it is imperative that the Municipality maintain a higher own-funded capital expenditure ratio. Although no norm is proposed, this ratio is critical in determining the optimal funding mix for Capital Investment programs. Funding decisions are influenced by the fiscal policy and ability to raise revenue from diverse sources. It is therefore encouraged that the Municipality utilise economic reserves and other revenue streams optimally, and that careful consideration is given to ensure that affordable borrowings be directed to service delivery, thus allowing the opportunity to increase internal revenue generation capacity and improving funding mix.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
Revenue Management and Cost Coverage										
6.	Operating Revenue Budget: **95% - 100%**	112.65%	99.70%	94.80%	97.87%	94.07%	-4.40%	89.93%	A decline is observed in implementing its operating budget, falling below the norm in the last year, with projections indicating a continued declining trajectory. This indicates greater usage of economic reserves to fund operations as opposed to using these reserves for capital investment which enables stability of service delivery. The result suggests the emergence of possible weaknesses in revenue realisation via weakened credit control or weaknesses in budget setting which does not take changing economic conditions into account. It is therefore suggested that management investigate these possible weaknesses, strengthen financial and control strategies. This would result in a strengthened going-concern position of the organisation and safeguard service delivery.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
7.	Service Charges and Property Rates Revenue Budget: **95% - 100%**	108.50%	102.12%	91.74%	89.82%	90.08%	-4.55%	85.98%	This ratio measures the efficacy of billing implementation and credit control. The ratio results show a downwards trajectory falling below the norm in periods 2019 to 2021. This suggests ineffective implementation of billing and credit control, weaknesses in compilation of the budget or other issues of financial control and management. Ineffective credit control could result in an inability to recoup cost incurred and thereby an increased likelihood of debt impairment and write-off. It is imperative that management investigate weaknesses and implement strategies to correct these results, seeking to reducing the risks exposure of the Municipality.	
8.	Revenue Growth (%) - Excluding capital grants: **= CPI**	12.25% 5.1%	3.92% 4.6%	0.43% 4.5%	5.72% 2.2%	0.00% 4.9%	-100.00 %	0.00%	This ratio measures the overall Revenue growth (excluding capital grants) and assists in determining whether increased expenditure will be funded by the increased revenue base or by use of other revenue sources. The ratio shows a declining operational revenue growth, with an increase above CPI in 2020. In the last year, there is no growth. It is to be noted that this growth was experienced during a time when economic decline was observed. Management must investigate these results, taking cognisance of revenue base growth and the local economic conditions, assessing the affordability of municipal charges, and implement remedial actions informed by their investigation.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
9.	Cash/Cost Coverage Ratio (Excluding Unspent Conditional Grants): **1 - 3 months**	5 Months	4 Months	4 Months	3 Months	2 Months	-19.31%	2 Months	This ratio is a liquidity test, measuring the ability of the organisation to cover its monthly fixed operating expenditure. The ratio has shown a descending trajectory over the period yet stayed within the norm over the measured period. This implies a more vulnerable position, with a greater risk of economic shock absorption and its capacity to meet service delivery or financial commitments. This ratio should be considered alongside debtor's management ratios and grant dependency ratios. It is crucial that management work on rebuilding cash reserves, thus reducing vulnerability of the organisation in order to adapt to the current constrained fiscal environment.	
Liability Management										
10.	Debt (Total Borrowings)/ Revenue: **45%**	12.36%	11.48%	20.97%	18.38%	21.56%	14.91%	24.8%	This ratio serves to provide assurance that revenue generated will cover financial obligations. The ratio result has fluctuated over the period, staying well within the norm. Projections indicate improved debt coverage in future. A result below the norm indicates capacity to take up further borrowings, yet this should be considered with cognisance of cash flow and revenue growth projections read with the economic outlook, in deciding acceptance of further debt exposure.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
11.	Capital Cost (Interest Paid and Redemption) as a % of Total Operating Expenditure: **6% - 8%**	2.40%	1.38%	2.09%	3.44%	3.03%	6.08%	3.2%	The ratio shows an increased trajectory since 2018 yet remains within the norm. Projections indicate that the result will remain within the norm in future based on historical trends. This further indicates capacity to take up further borrowings for capital expansion programs, but could also suggest cash flow constraints experienced, and thereby suggest inability to access further borrowings. It is recommended that the Municipality carefully consider borrowings as a funding mechanism for capital expansion, taking cognisance of the effect further borrowings would have on its position to service these debts.	
12.	Capital Cost (Interest Paid and Redemption) as a % of Total Operating Revenue:	2.06%	1.17%	1.94%	3.27%	3.05%	10.33%	3.4%	This ratio measures the ability of servicing current borrowings with current operating revenues. Although no norm is provided for this ratio, it is crucial that management consider the results with other Liability Management ratios, considering revenue growth and economic outlook results in deciding to take up further borrowings.	
Working Capital										
13.	Net debtors' days: **≤ 30 days**	24	3	51	29	37	11.03%	37	The ratio has fluctuated over the period, showing inefficiencies in 2019 and 2021. The latter results could be resulting from the effects of the National State of Disaster, but may also indicate weaknesses in debtor management.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
									It is therefore essential that management investigate possible weaknesses that lead to results in the latter years, left unresolved, projections indicate further weakening in debt collection which risk increased impairment and probable write-off of debtors.	
14.	Creditors Payment Period (Trade Creditors):**30 days**	66	57	53	70	73	2.74%	73	The ratio illustrates the number of days it takes to pay trade creditors, by the Municipality. MFMA S 99(2)(b) requires payment of trade creditors within 30 days of receiving the relevant invoice or statement. The ratio has shown deterioration over the period, which is in contravention of the legal prescript. It is therefore recommended that management investigate the results and implement measures to correct, thereby conforming to the legal prescript.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
Expenditure Management										
15.	Operating Expenditure Budget: **95% - 100%**	90.73%	86.59%	87.76%	91.40%	95.03%	1.16%	96.14%	This ratio measures the extent to which the Operating Budget has been spent during the period, assessing the effectiveness of controls in place to ensure that expenditure is incurred as planned and approved in the approved budget for the period. The ratio has fluctuated over the period and returned to within the norm in the current period. This indicates that improvement has been implemented and controls have been effected thus ensuring spending is in accordance with planning. Projections based on historical trends indicate that this trajectory will continue. It is thus encouraged that management continually monitor spending against budget and implement corrections where needed to ensure planning is effected as intended.	
16.	Remuneration as a % of Total Operating Expenditure: **25% - 40%**	32.34%	33.62%	30.69%	30.26%	31.05%	-1.01%	30.74%	This ratio measures the extent of staff remuneration to Total Operating Expenditure, as well as an indication of resource prioritisation. The ratio result has been stable over the period with negligible fluctuations, whilst staying within the norm. This indicates effective management of human resources, with a focus on spending on essential and service delivery related expenditures. It is recommended that management continually monitor spending against budget and implement corrections where needed to ensure planning is effected as intended.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
17.	Contracted Services as a % of Total Operating Expenditure: **2% - 5%**	11.33%	9.17%	10.06%	14.26%	12.56%	2.62%	12.89%	This ratio measures the extent to which resources are committed to contracted services to perform municipal related functions. It is important when analysing this ratio, that consideration is given to components of contracted services (outsourced services, Consultants and Professional services and Contractors). The ratio has fluctuated over the measured period with all results being above the norm. It is essential that management consider the contracted services and ensure that these be informed by a needs assessment, and consultancy agreements include a measurable transfer of skill.	
18.	Irregular, Fruitless and Wasteful and Unauthorised Expenditure/ Total Operating Expenditure: **0%**	0.16%	2.46%	2.94%	1.86%	4.95%	N/A	N/A	This ratio measures the incurrence of Irregular, Fruitless and Wasteful and Unauthorised expenditure. Any incurrence represents inadequate controls and inadequate Expenditure Management practices. The result has been above the norm, with a significant increase in the last year. It is imperative that these expenditures be investigated, and monies recovered where possible. Management must further report these to the correct oversight structures and avail support in the investigation that may ensue. Controls and other weaknesses that lead to the incurrence of these expenditures must be part of the investigations, thereby reducing the risk of further increases in this regard.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
Grant Dependency										
19.	Own Source Revenue to Total Operating Revenue (Including Agency Revenue): **None**	98.78%	91.28%	90.57%	91.33%	90.07%	-2.28%	88.01%	This ratio measures self-sufficiency in spending program funding mix. No norm is prescribed for this ratio. The ratio has fluctuated, in downwards trajectory over the period, indicating that the Municipality is becoming less self-sufficient. Although the ratio results remain high, it is recommended that the Municipality consider the funding mix used for spending programs in their fiscal policy and the focus of this policy be in alignment with the long-term financial plan, driving more self-sufficiency and building cash reserves.	
Going Concern										
20.	Total Liabilities to Total Assets: **<50%**	15.50%	14.56%	16.18%	18.38%	21.56%	8.60%	23.42%	The ratio has fluctuated over the period yet shows an increased trajectory. It is therefore encouraged that the Municipality continually monitor this position, alongside risk related to being able to meet financial commitments as they fall due and its ability to withstand economic shock.	
21.	Total Debt to Total Assets	3.19%	2.87%	5.00%	4.17%	5.14%	12.60%	5.78%	This ratio measures the extent to which assets can cover debt It is encouraged that the Municipality monitor this position, taking cognisance to the fact that if service delivery assets are removed from the equation, this result would be significantly worsened.	
22.	Current Ratio: **1.5 - 2:1**	2.19	2.02	2.09	1.82	1.49	-9.17%	1.35	The ratio results have shown a descending trajectory over the period, with projections showing further reduction in results for future periods.	

Financial ratios & norms		2017 Audited	2018 Audited	2019 Audited	2020 Audited	2021 Audited	CAGR	Projection	Comments	Overall assess-ment
									Although the results remain above the norm, the continued worsened results indicate more difficulty in meeting obligations as they become due. Furthermore, the equation considers Inventory, which is a less liquid short-term asset. Taking this into account suggests a position more vulnerable than before. It is therefore encouraged that management work on rebuilding short-term reserves, thus reducing the vulnerable short-term position.	

	Favourable
	Unfavourable
	Needs Improvement

For detail of ratio calculations, please see **Annexure A.**

SUMMARY AND FINDINGS FROM HISTORICAL TRENDS

Based on the ratio analysis in the table above, the following findings have been observed based on the historical performance of the Municipality. Where the analysis of historic patterns has already been discussed earlier in this chapter, those findings are not repeated below.

4.3.2 Asset Management

- Assets are the source whereby the Municipality meets its mandate to deliver services. Management is further mandated to preserve assets, thereby ensuring continued service delivery.
- Capital investment remains a priority for the Municipality, with actual capital spending against budget continuing a good result. Investing in capital, specifically those relating to service delivery needs, is essential to secure good quality of services is maintained with an ever-growing customer base. It is therefore imperative that planning & budgeting for the expansion, replacement, renovations, and preservation of these assets remain a priority.
- The budget (both Capital and Operational) is the vehicle through which the asset preservation strategy is funded. A well implemented asset preservation strategy, realised thought planned repairs and maintenance and a plan which informs on interventions to replace, renovate, upgrade, and renew assets are vital in safeguarding service deliver. Although an 8% norm is impracticable the under expenditure poses risk to the sustainability of service delivery.

4.3.3 Revenue Management and Cost Coverage

- Revenue Management in the organisation has concerning results with Consumer debtor revenue compared to budget and Revenue Growth not meeting their respective norms. Furthermore, Operating Revenue to Budget shows a descending trend, projected to continue unless addressed.
- Cash/Cost coverage ratio remains within the norm suggesting that the Municipality will be able to cover its fixed operating expenditure for some time, however when analysed over the review period, the Municipality finds itself in a more vulnerable position. It is therefore essential that cash reserves be built so as to migrate this vulnerable position.
- Current year results indicate that the Municipality must focus on revenue management by, strengthening controls, billing, and debt collection. A degree of fiscal consolidation alongside these efforts will enable the Municipality to rebuild economic reserves, which in turn would result in a migration to a more resilient position allowing it to better withstand economic shocks.

4.3.4 Liability Management

- The Municipality has managed their liabilities well, supported by the Debt to Revenue ratio, which remains well below the norm, easing any concerns as to whether the Municipality would be able to generate sufficient revenue to service debt obligations.
- Cost of Capital Ratios which measures the cost of servicing borrowings, illustrated either as a percentage of Total Operating Expenditure or Total Operating Revenue, both illustrate a capacity to take up further borrowings, which would expand options in the funding mix decision for Capital Investment programs.
- Liability Management ratio can however not be read in isolation, but considerations should be given to Working Capital Ratios. It if furthermore imperative that management consider the low revenue growth with no growth in the current year, as a factor in funding decision making.

4.3.5 Expenditure Management

- Budget management is a key competency of expenditure management, which should conform to the principle of spending only on what is needed, in accordance with an approved budget, whilst striving to attain value for money; this thereby makes expenditure management and supply chain management partners in goal attainment; both focused on acquiring what is needed, when its needed and paying commitments timely whilst attaining value for money. With slow economic recovery resulting from the National Lockdown and economic pressures still weighing on businesses and communities alike, it is highly recommended to apply prudency in spending decision making.
- Ratio analysis shows improved implementation of Operating Budgets in the current year, with a return to being within the norm, indicative of more effective budget controls in place. Management of staff remuneration further substantiates the assumption of improved controls, with little fluctuation observed in the latter.
- The level of Contracted services costs incurred in the current year is of concern, with ratio exceeding the norm in all five years measured. Interpreted alongside the Remuneration ratio, it suggests that management has done some work in attaining the staff required for operation. It is though imperative, with aim to capacitate staff to perform functions currently outsourced, that a consultancy reduction plan be in place, with a focus area the transfer of skill. In order to ensure consultants, meet the term of service acquisition, it is imperative, as part of Contract management, that measures are in place to ensure terms are met, i.e. transfer of skill, intellectual property, etc. Furthermore, the contracting of consultants should be driven by a needs analysis, thereby ensuring

we maximise internal capacity and only obtain what cannot be performed with the current staff compliment.

- Irregular, Unauthorised, Fruitless and Wasteful expenditure has been increasing year on year. In all the periods measured, the ratio result has stayed above the recommended norm. The occurrence of Irregular, Unauthorised, Fruitless and Wasteful expenditure indicates inadequate control and management of Working Capital. It is therefore essential that management investigate these occurrences to firstly recover monies where negligence is at fault, and two improve controls with the intent of minimising the reoccurrence of these types of events.

4.3.6 Grant Dependency

- The ratio measuring grant dependency illustrates that the Municipality remains largely independent and thereby does not rely heavily on grants to fund it Capital Investment programs; the funding mix of the Municipality remains lent to own funding (i.e. Operational revenue including borrowings). It is however worth noting that this position has fluctuated over the period, showing a descending trajectory, illustrating deterioration to becoming more grant reliant in Capital Investment funding.

- The 2021/22 National Budget allocated more money to the municipal space, amongst others to fund Capital Investment programs. With deterioration in cash reserves observed, it is recommended that the Municipality fully utilise the opportunity of grants available for funding Capital Programs. This would offer the ability to rebuild reserves, putting the Municipality in an overall better position to resist economic shocks and becoming more self-sustainability.

4.3.7 Working Capital

- Working capital management is a business strategy, designed to measure and ensure efficient operations and use of assets and liabilities. The primary purpose of this analysis is to establish the ability to meet short-term operational costs and short-term obligations. Efficiency in working capital management enables smoothening of the cash conversion cycle, and the reinvestment of this cash in the next cycle.

- The collection ratio measures the efficiency of accounts receivable management and illustrates possible weaknesses to be addressed. The aim is to have a collection ratio as low as possible, optimally below 30 days. In analysing the results, the Municipality has a deteriorating net debtors days ratio/collection ratio, falling below the norm in 2019 and 2021. It is important to note that the effects of the National State of Disaster could be part of the deterioration, yet considering the result obtained in 2020, it is imperative that management revisit the controls in place, testing for adequacy, as an inefficiency and inadequacy in this ratio would affect the cash available to fund operations.

- Creditors Payment Period is another crucial part of working capital management. Principally the aim is to delay paying creditors for as long as possible, without incurring interests or penalties. MFMA S99(2)(b) however requires payment of creditors within 30 days of receipts of invoice or statement. In analysing the ratio results, the Municipality has seen a significant deterioration in average creditor payment days, going above the norm. This is also in non-compliance with the MFMA section mentioned above. It is therefore essential that management investigate the root causes that lead to this result and implement improved controls to ensure compliance.

- When considering the net-effect of working capital analysis, results indicate that debtors pay 36 days before trade creditors are paid, a principle which is aligned to the financial management best practice. This result is however in non-compliance with the MFMA. It is therefore essential that management establish if the delay in paying trade creditors stems from delays in receipt of invoice or statement, or there be some other control deficiency. It is furthermore encouraged that funds be managed in such a way as to avoid penalties and maximise return by way of investing instrument.

4.3.8 Going Concern

- Going Concern is the underlying assumption in Financial Statement preparation which assesses the ability of the organisation to continue operation for the foreseeable future, and access to resources to enable this operation. It is therefore a measure between Assets and Liabilities, and Debt and Assets. Consideration should be given to both short-term and long-term Assets and Liabilities and the effect these may have on operation.

- Analysis of the ratio results supports the assumption that the Municipality continue to be a going concern. This illustrated by the Net Asset Position being well within the norm.

- The analysis on debt in the organisation illustrates a Debt to Asset ratio on the increase. The ratio measures the debt exposure of the Municipality. If one removes service delivery assets from this equation, the position is significantly worsened (removing service delivery assets due to the incapability to attach in relation to unpaid debt). It is therefore essential to consider the funding strategies and the risk exposure this would bring to the organisation.

- The current ratio stays well within the norm, however, has deteriorated over the period, projected to continue in this direction. This illustrates a worsened position and the probability that the Municipality would have more difficulty in meeting its obligations as they fall due.

- An overall assessment is that the Municipality has been affected by the National State of Disaster and the economic challenges that it brought. It is clear that the organisation had to delve into their cash reserves to sustain itself through this period, yet this has resulted in a worsened overall position.

4.3.9 mSCOA Implementation

- The Municipality has successfully submitted the AUDA data strings on the LG database.

- Upon analysis of the AUDA data strings, differences were noted between information contained in the audited AFS and information contained in the AUDA data strings, and these differences were communicated to the Municipality on the 15th of March 2022. It is recommended that the Municipality look at the comments provided, together with the raw and mapped data-strings per the LG Database to correct these errors. Furthermore, the Municipality should look at their mapping used to compile the AFS as a guide on how to correct the misalignments identified.

SECTION 5: KEY FINDINGS, RISKS AND RECOMMENDATIONS

This section outlines the main recommendations based on the SIME Assessment.

Public Value Creation

Integrated Planning

It is recommended that the Municipality:

- reflect the declaration of Stellenbosch as a Priority Human Settlements and Housing Development Area and a restructuring zone in the 2022-2027 IDP; and
- consider the other suggestions and recommendations of provincial sector departments included in section 2.2.4 of this report dealing with IDP Alignment.

Environmental Affairs and Development Planning

- The Municipality is adopting a new IDP in May 2022. The current MSDF will be readopted with a view to adopting an amended MSDF in May 2023. It is recommended that an amendment to the MSDF includes strengthening the monitoring and evaluation section of the Implementation Plan. Such a section will assist in determining to what extent the MSDF is being implemented in future annual reviews of the MSDF.

Waste Management

- The Municipality must align its current IWMP and IDP with the Western Cape Integrated Waste Management Plan (2022-27) due for completion in the 2022/23 financial year.
- Stellenbosch Municipality must start reporting current and backdated data on waste diversion on the IPWIS for the waste activity with WIR Number: D04073-02. Reports for this waste recovery activity is outstanding from February 2020 to date.
- Reporting on the IPWIS must be updated and continuous and regular waste reporting must be submitted to the IPWIS. Waste diversion initiatives must be reported to the IPWIS. Continuous and regular waste reporting must be submitted to the IPWIS. Municipalities are reminded to report on organic waste to the IPWIS.
- Furthermore, it is recommended that the Municipality expand its management of organic waste and that it develops its Organic Waste Plan. The Municipality must endeavour to send the organic waste diversion plan to the Department for inputs as soon as possible. The variation process which included the height increase and incorporation of a new cell needs to be concluded and this will then improve the waste management within the Municipality.

Economic Sustainability

- The Municipality has two major landfill gas to energy capital projects planned for the MTREF. While this project has significant capital investment and will have a positive impact on energy generation, no details related to the specific project/s are forthcoming in the IDP. The Municipality is requested to include more information regarding these particular projects in its IDP.
- The Expanded Public Works Programme Grant has decreased by R121 000 in the 2022/23 financial year, to R5.87 million. However. The target set for the number of job opportunities to be created in 2022/23 has increased from 1300 jobs in 2021 to 1400 jobs in 2022. The Municipality should take cognisance of whether this will be feasible given the rising costs and amend targets in its draft SDBIP if necessary.

- Alignment of numbers of households should be checked across budget, IDP and SDBIP. Targets in the draft Top-Layer SDBIP are set at the provision of basic services to 25 500 households in the municipal area while actual number of households are 50 328 (SEP-LG 2020) and 52 448 (Tabled Budget Schedule A10). This is important for efficient planning and budgeting.

Supply Chain Management

- Key Risks identified with the Asset Management system of Governance and Capacitation Project
  - Need for better Management of data and information Standards
  - Silos of data where one department has access to critical data, but other departments have no access
  - Where there these silos of data exist, duplication of data is created that impacts on the reliability of the information needed for decision-making
  - Critical information on the PC`s of certain engineers and files, that is not necessarily shared with the rest of the Municipality.
  - Reliability and Credibility of data (The Source - where data is coming from, is not singular but have multiple inputs making it messy)
- Outdated Asset Management Maintenance Strategic Plans
  - Propensity to use the Deviations route for emergency Repairs and Maintenance.
  - Statistical data suggest that emergency work can cost municipalities between 20% and 30% more as opposed to planned works
  - Equipment availability not translated into key objectives for the Municipality.
  - Early detection of failure not necessary build into maintenance systems
- The Need to Build Capability in Municipalities
  - Most of the Engineers are near retirement which requires a contingency plan for Mentorship and knowledge Management
  - Need for maintenance planners, because without them, we don't expect well planned and efficiently executed maintenance
  - Need for securing intellectual property and devising SOP`s based on them
  - The ability to translate maintenance strategies into business and economic benefits

Key Recommendations

- Collaboration is key to success and continuity in Asset Management
  - To improve the maturity levels within the various regions, there will a need for community of practice
  - Share collective right practices and knowledge among participating municipalities within a Joint District Approach
  - Strategic priorities would be best achieved if coordinated through a District Asset Management Steercom process
  - A phase-in approach of right practices will be required to build maturity overtime

- Procurement Planning
    - PT to amend the existing **Treasury Circular Mun No. 18/2019,** to make it mandatory for municipalities to submit procurement plans on an annual basis by the 30th of June.
    - There should be a standardised format for the procurement plans template across the municipalities.
    - The municipalities should be encouraged to utilised mSCOA segmentations on their procurement plans to ensure alignment between the budgeted items and IDP strategic objectives.
    - The municipalities should priorities uploading/capturing their procurement plans on the National Treasury e-Tender portal every new financial year.

Financial Sustainability

The mSCOA tabled budget (TABB) data strings are used as the source to assess whether the 2022/23 MTREF budget is credible, sustainable and funded.

The overall cash flow planning of the Municipality contributes towards the sustainability of the budget, and in terms of cash flow planning, the budget is funded. Managing long-term stability requires sound financial planning, implementation, and reporting. The Municipality must ensure that attention is given to the alignment of information and segment errors identified in terms of the mSCOA data strings and MBRR A1-Schedules.

- The above analysis of the ratio results supports the assumption that the Municipality continues to be a going concern. It is evident that COVID-19 had a significant impact on the municipal finance position with a deteriorated operating deficit budget to R6.7 million in 2020/21 from a R88.06 million operating surplus in 2019/20 and a deteriorated cash position to R334.08 million in 2020/21 from R417.84 million in 2019/20.
- A positive trend is observed with the increase in the anticipated cash flow over the MTREF period as the Municipality anticipates recovering from the impact of the lock down. With slow economic recovery resulting from the National Lockdown and economic pressures still weighing on businesses and communities alike, it is highly recommended that prudency is applied in spending decision making. Effectively managing its working capital, containing costs, and maintaining high collection rates must be prioritised.
- An operating surplus was tabled by the Municipality. It is recommended that the assumptions on Debt impairment are reviewed in line with the targeted collection rate and past trends.
- The Municipality indicated no growth in the number of properties as well as consumer consumption which could indicate a risk to the long-term sustainability model. Increasing expenditure such as repayment of loans will add additional pressure on consumers with increasing tariffs. Although the tariff increases above CPI are motivated in the budget document, it is recommended that the Municipality ensure a balance between affordable tariffs and increasing demands in costs to ensure sustainable cash surpluses.
- Service charges and Property rates account for approximately 78.8 per cent of the Municipality's total operating revenue budget, which forms a stable and predictable revenue base for the Municipality. Any changes in bulk purchases, consumption usage, or changes in the projected revenue base will adversely affect the overall revenue recovered and will apply pressure on cash-backed surpluses, operational expenditure, and the ability to contribute to capital investment.

- The full increase in electricity bulk purchases is not transferrable to consumers which places pressure on profit margins and the operating budget to absorb costs from other operating revenue sources. It is recommended that Internal efficiencies in all departments be identified to manage the impact on the operating surplus/ deficit.

- The Repairs and maintenance ratio of 0.5 per cent is below the NT norm allocation and should be revised in line with the municipal policy and improved asset management.

- The Economic services do not break even in 2022/23 and strategies towards sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in infrastructure that promotes local economic development must be implemented.

- Debt impairment is budgeted at R88.15 million which is a 16.3 per cent decrease from the current year, however the 2020/21 Audited Annual Financial Statements indicate an overspending of R34.77 million and R51.12 million in the 2019/20 financial year indicating a trend of under provision by the Municipality.

- The municipal funding and reserve policy indicates that the Municipality will endeavor to effectively utilize and maintain the Capital Replacement Reserve. The zero budgeted reserves indicate risks to the overall sustainability especially multi-year projects. The Municipality is advised to review its contribution to capital funding mix over the MTREF.

- Capital Investment remains a high priority with large amounts invested over the past few years. The continuation of large contributions from municipal own funds towards capital investments is an indication of the need to respond to the infrastructure needs. It is important that the right balance between actual implementation of the capital budget and the return on investment either in the form of economic growth or direct revenue generation or enhancement is achieved through out the MTREF period and beyond.

Own Revenue Assessments, Tariff Analysis and Trading Service Overview

- The Municipality is requested to provide some clarity regarding the high costs in terms of indigent support with regard to provision of refuse services.

- The Municipality is requested to provide insights as to the calculation of the cost coverage of trading services and how the Municipality envisages the balance between cost reflective tariffs and affordability of tariffs over the medium to long term.

- The Municipality is required to provide insights regarding the significant surplus anticipated in respect of refuse service provisioning. (Generally, most municipalities find it challenging to generate significant surpluses from refuse service provisioning).

- For the Municipality to provide some clarity regarding the general/ systemic deficit in respect of sanitation.

Ratio calculations

Table 1 MFMA Circular 71 Ratios 2020/21

No.	RATIO	FORMULA	DATA SOURCE	NORM/ RANGE	INPUT DESCRIPTION	2021
1. FINANCIAL POSITION						
A. Asset Management/Utilisation						
1	Capital Expenditure to Total Expenditure	Total Capital Expenditure / Total Expenditure (Total Operating expenditure + Capital expenditure) × 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In-Year reports, IDP and AR	10% - 20%		17.8%
					Total Operating Expenditure	1 812 391 946
					Taxation Expense	
					Total Capital Expenditure	392 971 491
2	Impairment of Property, Plant and Equipment, Investment Property and Intangible assets (Carrying Value)	Property, Plant and Equipment + Investment Property + Intangible Assets Impairment/(Total Property, Plant and Equipment + Investment Property + Intangible Assets) × 100	Statement of Financial Position, Notes to the AFS and AR	0%		0,0%
					PPE, Investment Property and Intangible Impairment	
					PPE at carrying value	5 452 746 752
					Investment at carrying value	412 395 781
					Intangible Assets at carrying value	7 222 189
3	Repairs and Maintenance as a % of Property, Plant and Equipment and Investment Property (Carrying Value)	Total Repairs and Maintenance Expenditure/ Property, Plant and Equipment and Investment Property (Carrying value) x 100	Statement of Financial Position, Statement of Financial Performance, IDP, Budgets and In-Year Reports	8%		1.4%
					Total Repairs and Maintenance Expenditure	83 549 815
					PPE at carrying value	5 452 746 752
					Investment Property at Carrying value	412 395 781
B. Debtors Management						
1	Collection Rate	(Gross Debtors Closing Balance + Billed Revenue - Gross Debtors Opening Balance - Bad Debts Written Off)/Billed Revenue x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget , In-Year Reports, IDP and AR	95%		93.7%
					Gross Debtors closing balance	329 423 677
					Gross Debtors opening balance	275 211 817
					Bad debts written Off	29 054 256
					Billed Revenue	1 319 673 016

No.	RATIO	FORMULA	DATA SOURCE	NORM/ RANGE	INPUT DESCRIPTION	2021
2	Bad Debts Written-off as % of Provision for Bad Debt	Bad Debts Written-off/Provision for Bad debts x 100	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	100%		14.8%
					Consumer Debtors Bad debts written off	29 054 256
					Consumer Debtors Current bad debt Provision	196 670 772
3	Net Debtors Days	((Gross Debtors - Bad debt Provision)/ Actual Billed Revenue)) × 365	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget and AR	30 days		37 days
					Gross debtors	329 423 677
					Bad debts Provision	196 670 772
					Billed Revenue	1 319 673 016
C. distruidity Management						
1	Cash / Cost Coverage Ratio (Excl. Unspent Conditional Grants)	((Cash and Cash Equivalents - Unspent Conditional Grants - Overdraft) + Short Term Investment) / Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, Provision for Bad Debts, Impairment and Loss on Disposal of Assets)	Statement of Financial Position, Statement of Financial Performance, Notes to the AFS, Budget, In year Reports and AR	1 - 3 Months		2 Months
					Cash and cash equivalents	111 896 629
					Unspent Conditional Grants	14 695 527
					Overdraft	
					Short Term Investments	222 186 762
					Total Annual Operational Expenditure	1 812 391 946
2	Current Ratio	Current Assets / Current Liabilities	Statement of Financial Position, Budget, IDP and AR	1.5 - 2:1		1.5
					Current Assets	632 405 055
					Current Liabilities	425 141 437
D. Liability Management						
1	Capital Cost(Interest Paid and Redemption) as a % of Total Operating Expenditure	Capital Cost(Interest Paid and Redemption) / Total Operating Expenditure x 00	Statement of Financial Position, Statement of Cash Flows, Statement of Financial Performance, Budget, IDP, In-Year Reports and AR	6% - 8%		3.0%
					Interest Paid	28 233 434
					Redemption	26 752 931
					Total Operating Expenditure	1 812 391 946
					Taxation Expense

8.3	MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK 2022/2023-2024/2025

Collaborator No: 729655
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 18 May 2022 & 25 May 2022

1. SUBJECT: MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK 2022/2023-2024/2025

2. PURPOSE

The purpose of this report is as follows:

a) To consider the views/submissions of the local community in terms of Section 23(1) (a) of Municipal Finance Management Act (Act 56 of 2003), herein after called the MFMA and to allow the Executive Mayor to respond to the views of the public envisaged in terms of Section 23 (2) (a) and (b).

b) To approve the Medium Term Revenue and Expenditure Framework (inclusive of property rates charges and taxes, tariffs and service charges), annexures and proposed amendments to the budget related policies, by-laws and other policies to Council for approval in terms of Section 16(2) of the Municipal Finance Management Act, (Act 56 of 2003).

That Council specifically note and consider the need to take up external loans to fund critically needed refurbishment of infrastructure to the amount of R441 million of which over the MTREF R140 million will be required in year one, R160 million in year two and R141 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirms approval of same in order for the Chief Financial Officer to attend to the necessary legislative requirements.

3. DELEGATED AUTHORITY

FOR APPROVAL BY MUNICIPAL COUNCIL

EXECUTIVE SUMMARY

BUDGET

Attached as **APPENDIX 1** is an executive summary by the Accounting Officer.

4. RECOMMENDATIONS

It is recommended to Council,

(a) that the High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved;

(b) that the Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved;

(c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved;

(d) that the three-year Capital Budget for 2022/2023, 2023/2024 and 2024/2025, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved;

(e) that the proposed rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3, be approved;

(f) that the new policy and the proposed amendments to the existing budget related policies, by-laws and other policies as set out in APPENDICES 4 - 31, be approved;

(g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R441 millions of which R140 million will be required in year one, R160 million in year two and R141 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;

(h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially; and

(i) that Council takes note of MFMA circulars 112 and 115 that was published to guide the MTREF for 2022/2023 to 2024/2025 as set out in APPENDICES 32 – 33.

(j) that Council takes note that the public comments and submissions were considered with the compilation of the final budget.

4. DISCUSSION / CONTENTS

4.1. Background/ Legislative Framework

Section 23 of the MFMA (Act No 56 of 2003) prescribes to municipalities the process to be followed when the Annual Budget is tabled for approval, which is as follow:

(1) "The municipal council must consider any views of the local community, the National Treasury, the relevant Provincial Treasury and any provincial or national organs of state or municipalities which made submissions on the budget.

(2) After considering all budget submissions, the council must give the mayor an opportunity—
   (a) to respond to the submissions; and
   (b) if necessary, to revise the budget and table amendments for consideration by the council.

ANNEXURE B to the Council Item for the Integrated Development Plan includes the input and comments received during the IDP and Budget Public Participation Process.

6.2 Discussion

Over the past year, rising vaccination rates have sustained confidence and the global economic recovery, despite the rapid spread of the Omicron virus. Looking ahead to this year, global growth will be slower as the rebound from the pandemic fades. Growth in emerging market and developing economies will continue to lag that in advanced economies, due to a slower pace of vaccinations and other headwinds. South Africa's economy rebounded strongly from the pandemic in 2021, but going forward the growth rate will, like global growth, slow and remain subject to various risks.

The Omicron variant of the coronavirus caused many countries to impose restrictions to manage its spread. In addition, continued imbalances in global value chains have limited the pace of the world's economic recovery.

The South African economy has not been shielded from these global developments. Statistics SA has revised South Africa's economic growth estimate for 2021 to 4.8 per cent, from 5.1 per cent at the time of the 2021 *Medium Term Budget Policy Statement* (MTBPS).

This revision reflects a combination of the impact of changes in the global environment, along with South Africa's own unique challenges. Commodity prices, which have supported South Africa's economic recovery, slowed in the second half of 2021.

Also, violent unrest in July, and restrictions imposed to manage the third wave of COVID-19 further eroded the gains South Africa made in the first half of the year.

Industrial action in the manufacturing sector, and the re-emergence of loadshedding, also slowed the pace of the recovery.

Real Gross Domestic Product (GDP) growth of 2.1 per cent is projected for 2022. Over the next three years, GDP growth is expected to average 1.8 per cent.

Headline inflation is expected to remain between 3 to 6 per cent target range over the 2022/23 MTEF.

Stats SA figures reflects the impact of the pandemic and slow recovery of the economy on a national level as follow:

- South Africa's gross domestic product (GDP) increased by 1,2% in the fourth quarter of 2021.

- The personal services industry increased by 2,7%, contributing 0,4 of a percentage point to GDP growth. Increased economic activities were reported for community and other producers.

- The manufacturing industry increased by 2,8% in the fourth quarter, contributing 0,3 of a percentage point to GDP growth. Eight of the ten manufacturing divisions reported positive growth rates in the fourth quarter. The petroleum, chemical products, rubber and plastic products division made the largest contribution to the increase in the fourth quarter. The food and beverages division and textiles, clothing, leather and footwear division also made significant contributions to growth.

- The trade, catering and accommodation industry increased by 2,9%, contributing 0,3 of a percentage point to GDP growth. Increased economic activities were reported for retail trade, motor trade, and catering and accommodation services.

- The agriculture, forestry and fishing industry increased by 12,2% and contributed 0,3 of a percentage point to GDP growth. The increase was mainly due to increased production of animal products

- The transport, storage and communication industry increased by 2,2%, contributing 0,2 of a percentage point. Increased economic activity was reported for land transport and transport support services.

- Manufacturing production increased by 2,9% in January 2022 compared with January 2021. The largest positive contributions were made by the food and beverages devision (11,5% and contributing 2,5 percentage points);

- Mining production increased by 0,1% year-on-year in January 2022.

- After recording eighteen months of positive year-on-year growth, South African mineral sales at current prices pulled back in January 2022, decreasing by 8,2%.
- Electricity generation (production) decreased by 1,1% year-on-year in January 2022
- Electricity distribution (consumption) decreased by 0,2% year-on-year in January 2022.

The aforementioned are just some of the national points which reflects directly on our own economy and how it has been affected.

The 2022 Medium Term Budget Policy Statement (MTBPS) sets the course for fiscal consolidation and economic recovery as follow:

- Government expects to achieve a primary surplus – where revenue exceeds non-interest expenditure – by 2024/25. In 2024/25, main budget non-interest expenditure will grow slightly above CPI inflation.

- The consolidated budget deficit is projected to narrow from 6 per cent of GDP in 2022/23 to 4.2 per cent of GDP in 2024/25.

- Gross loan debt will stabilise at 75.1 per cent of GDP in 2024/25.

- Debt-service costs consume an increasing share of GDP and revenue and are expected to average R333.4 billion a year over the medium term.

The economy began to bounce back from the pandemic lockdowns in 2021, but the recovery weakened in the second half of the year. GDP growth is expected to average 1.8 per cent over the next three years. Significant risks to the outlook include the emergence of new COVID-19 variants in the context of low vaccination levels, rising global inflation, and continued disruptions to power supply.

Longstanding structural constraints entrench South Africa's high levels of poverty and unemployment. Government continues to advance a multifaceted strategy to achieve higher and sustained economic growth rates. These reforms are intended to build private-sector confidence and investment. The combined impact of structural reforms, support for small business and new infrastructure investment will enable higher rates of growth and job creation over the long term. Over the next three years, government will introduce additional measures to improve the delivery of public infrastructure and attract private capital.

Over the medium term, government will devote considerable attention to strengthening the fight against corruption flowing from the reports of the State Capture Commission, cutting red tape for small businesses and strengthening the green transition. In line with government's international and domestic commitments to climate change adaptation and mitigation, the National Treasury plans to pilot a climate budget tagging methodology, which can inform future spending priorities and budget reforms.

The 2022 Budget continues to consolidate the public finances while providing immediate support for the pandemic response, job creation and social protection, as outlined in the 2021 *Medium Term Budget Policy Statement* (MTBPS).

The 2022 Budget Review extends government's support to poor and vulnerable South Africans, while staying on course to restore the health of the public finances. This approach is supported by economic reforms to bolster investment, growth and employment.

The key interventions outlined in the MTBPS to support growth are:

- Energy Security;
- Aligning with the National Development Plan's infrastructure goals;
- Promoting industrial growth;
- Strengthening enabling conditions

The President of South Africa, in his State of the Nation Address (SONA), on 10th February 2022 spoke about the fire that engulfed the Parliament, where the fire was symbolic of the devastation caused by the COVID-19 pandemic, by rising unemployment and deepening poverty. The President spoke to the devastation of a pandemic that over the past two years has taken the lives of tens of thousands of South Africans, put two million people out of work and brought misery to families.

The President stated that within 100 days a comprehensive social compact to grow our economy, create jobs and combat hunger will be finalised.

This work will be built on the foundation of the Economic Reconstruction and Recovery Plan (ERRP), which remains our common programme to rebuild the economy,

It will remain focused on the priorities identified in the SoNA last year:

- overcoming the COVID-19 pandemic,
- a massive rollout of infrastructure,
- a substantial increase in local production,
- an employment stimulus to create jobs and support livelihoods,
- the rapid expansion of our energy generation capacity.

During the SONA the President stated it is Government's intention to end the national state of disaster as soon as they have finalised other measures under the National Health Act, 2003 (Act 61 0f 2003) and other legislation to contain the pandemic.

Nearly all restrictions on economic and social activity have already been lifted.

The following focus areas were also highlighted, amongst others, during the State Of Nation Address:

- Covid-19 vaccinations;
- Address the challenges of unemployment, poverty and inequality;
- Electricity crises;
- Modernising VISA process;
- A comprehensive turnaround plan is being implemented to streamline the process for water use license applications;
- New small business loan scheme;
- Cutting red tape for business;
- Building bridges;
- Investment conference in March 2022;

- Regulating sale of scrap metal;
- **Finalising mining exploration strategy;**
- **Formalising cannabis industry;**
- **Climate change;**
- **Social employment fund;**
- **Expand criteria for employment tax incentive;**
- Extension of the R350 Social Relief of Distress (SRD) Grant for one further year
- Fill vacancies in security cluster;
- Hire extra 12 000 police officers.

Government's central economic policy priority remains to promote faster, job-creating growth. Various programmes and initiatives will be established and the existing one's improved upon to ensure effective implementation of the strategic priorities.

As a means to combat unemployment, the municipality will employ the following measures:

- Full participation in the Expanded Public Works Programme;
- Providing support to small businesses, which will create employment in the medium to long term;
- Establishment of Informal Traders;
- Promoting Internships and in-service training opportunities;
- Filling of critical vacancies within the municipality; and
- Developing partnerships with academic institutions for training opportunities.

The Western Cape Premier in his State of the Province address, on 15th February 2022, reiterated the following sentiments highlighted during the State of the Nation Address, including but not limited to, normalising our COVID-19 response, lessons learnt from COVID-19, ending the National State of Disaster, economic growth recovery initiatives, unemployment, especially the youth, education, building of safer communities, sustainable infrastructure development, implementation of related initiatives, provision of housing (dignified living), finding alternative energy sources to assist and reduce the strain on the electrical grid and provision of services to the poor households. The Premier stated that nearly two years of loss was caused by a global pandemic that not only took many loved ones away but took away many jobs and many hopes too. He stated that this year, things have to change. We have to get up, get out, and "set sail" again.

The Premiers' speech focused, amongst others, on the following areas:

- Normalising our COVID-19 response and looking to the future. The data provided by the Department of Health shows us that:
  - 90% of people surveyed in a seroprevalence study in November 2021 had protection against COVID-19, either through vaccination or through prior infection.
  - That the Omicron variant has caused less severe disease because of prior immunity and is less virulent than previous strains.
  - And that 59.7% of residents over 50, and 68.5% of residents over 60 specifically are now also fully vaccinated in the Western Cape.
- Dignity through jobs and safety.
- A new department of infrastructure to be created in the Western Cape: This Infrastructure Department will be tasked with leading the change, working together with local governments in the Western Cape, the National Government as well as the private sector to ensure that we collectively complete quality, catalytic infrastructure projects that will help create jobs in an inclusive way. They will also take forward the establishment of a Schedule 3D Infrastructure Entity.

- Health Infrastructure**:** Planning five mega health infrastructure projects over the medium-to-long term that will significantly modernise this platform to ensure that we have a pipeline right into the future. These include the Belhar, Klipfontein and Helderberg Regional Hospitals, the Tygerberg Central Hospital development and the Swartland District Hospital.
- Education Infrastructure: Investing in education infrastructure that will benefit generations to come, while creating jobs for our residents.
- Economic Infrastructure: The continuing of investment in economic growth over the next financial year by launching 3 new road upgrade projects. This is in addition to 91 road projects currently in progress in various phases, worth approximately R3 billion.
- Energy and resilience: One area of concern has been Eskom's load shedding. A number of steps has been taken to ensure that the Western Cape Government leverage new, green infrastructure in the province to become energy resilient:
    - It is now legal in 24 Western Cape municipalities to produce Solar PV energy, with 19 of these municipalities allowing you to be compensated for feeding back into the grid.
    - Additionally, wheeling (which is the private-to-private trading of energy) across municipal networks is being explored in 7 Western Cape municipalities given the recent unlocking of national electricity regulations.
    - A successful Request for Information for the Municipal Energy Resilience (MER) initiative has been issued, which has solicited information from more than 100 potential energy generation projects.
    - This information has informed five potential pioneering projects based on Solar PV and wind energy. And a roadmap to implement these projects has been extensively defined through technical, financial and legal analysis.
- Social Housing Infrastructure: Investment in social infrastructure will help address the painful legacy of our divided past, by improving basic service delivery, building integrated communities and enabling our residents to live with dignity.
- Social Services infrastructure: investing in infrastructure that expands important government services to our people, so that residents are connected, informed and receive important social services.
- Sustainable growth: The need to grow sustainably and respond to the challenges created by Climate Change, while protecting important ecosystems in our province.#
- Infrastructure projects supported by National Government: Five priority projects have been submitted for registration and are being considered for support by National Government, namely:
    - The Wingfield Interchange between the N1 and N7.
    - Investment in Saldanha Bay Port Infrastructure.
    - The Belhar and Klipfontein Regional Hospitals, which forms part of our health platform upgrade.
    - The Tygerberg Hospital public-private partnership, which I previously mentioned.
    - And enabling the expansion of Biovac by relocating our EMS building to another location, providing Biovac with the necessary space to expand.
- Premier to take responsibility for coordinating response to joblessness pandemic through extended jobs cabinet.
- Department of Community Safety to increase focus on Police Oversight
- A first for South Africa: Violence Prevention Unit to be established in Western Cape Department of Health
- Acceleration of the Province's response to Gender Based Violence in the Western Cape.
- Focussing on recovering lost learning time, and comprehensive health services in the Western Cape.
- Focussing on supporting the vulnerable with improved social services, using an all-of-society approach.

The Premier stated that while the challenges that face our province are serious and, at times, can seem overwhelming, we must never forget what a truly special place we live in and that we have everything we need to succeed.

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier's State of the Province address, the SONA and the 2022 Budget Review.

National Treasury encourages municipalities to maintain tariff increases and adopt a tariff setting methodology at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. Cost reflective tariff setting is a requirement of Section 74 (2) of the Municipal Systems Act, 2000 (Act No.32 of 2000), wherein it states that tariffs "must reflect the cost reasonably associated with rendering the service". The municipalities must therefore generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development.

The municipality must first assess the budget, before the tariff setting process, to determine whether it is effective and efficient and must ensure that it is credible for financial sustainability. In sum, the cost considered when setting a cost reflective tariff must include day-to-day operations and maintenance costs, capital financing cost and provision for bad debt, which are collectively referred to as direct costs, and governance and administration costs referred to as indirect costs.

Tariff increases by Eskom and Water Boards is above inflation and should be considered as such while determining cost reflective tariffs. In the instance of bulk tariff increases for electricity, municipalities are encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

Local government confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving their own revenue collections, working more efficiently and implementing cost-containment measures. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary. Cost Containment Regulations were issued on 07 June 2019. The implementation of cost containment measures are important as it will assist municipalities to reprioritise expenditure and to free up resources targeted towards service delivery. It will also be used to eliminate wastage of public resources on non-service delivery items. The main object of the regulations is to ensure that the resources of municipalities are used in an effective, efficient and economical manner.

As a result of the COVID-19 pandemic, the economic landscape, weak tariff setting and increases in key cost drivers to provide basic municipal services, municipalities are under pressure to generate additional revenue. Additional revenue need to be generated because the consumer's ability to pay for services received, continues to decline, which in turn leads to limited revenue collection. The effects of slow growth and economic challenges experienced these past years coupled with the COVID pandemic since 2020, continues to place pressure on the finances of the average consumer (levels of

disposable income and savings). This typically results in greater difficulty for the municipality with regards to the revenue collection, which have a direct impact on the municipality's ability to provide effective and efficient services, but also to budget accurately for service delivery over the short to medium term. It is as a result of above challenges, alongside continued unemployment and slow growth that a more conservative approach is advised for revenue projections.

Municipalities are required to consider the following during the compilation of the 2022/2023 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulation read with MFMA Circular No.82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates; and
- Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taking into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. As a result of excellent financial discipline, the Stellenbosch Municipality has taken the theme of "Driving efficiencies-doing more with less", to heart. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and 'nice to have' items with regards to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2022/2023 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- COVID pandemic and the impact thereof on financial sustainability and the economy;
- Aging infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The increased cost of bulk electricity and procuring water inventory, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Attracting economic investment;
- Water Conservation;
- Electricity/ Load shedding;

- Borrowing for multi-year capital projects and refinancing of existing loans;
- Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook;
- Limited resources to deal with all key priorities;
- Transitional period of newly elected council;
- Compilation of new five year Integrated Development Plan;
- Slowdown in new developments;
- Decline in reserves available to fund capital programmes.

The following budget principles and guidelines directly informed the compilation of the 2022/2023 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable as possible and should ideally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) were used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income. The municipality were mindful of the estimated headline inflation for 2022/2023 of between 3% to 6% forming the basis of the extensive income modelling exercise, but also taking into account the principles of economical services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases. Inflation is forecast to fluctuate around 4.4% over the medium term in line with moderating inflation expectations.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.

Russia's invasion of Ukraine and tightening sanctions on Russia have sent commodity prices soaring, and will have adverse implications for South Africa's headline consumer price inflation (CPI). The invasion has directly led to higher oil and grain prices, which directly push up prices of key goods within the CPI such as fuel and bread.

It is expected that fuel prices will increase substantially in the next financial year and this will be provided for in the budget.

The total budget quantum for the 2022/2023 year is R2 511 338 013 which R2 102 064 809 (84%), is allocated to the operating budget and R409 273 204 (16%) to capital investment.

Budget documentation in line with the budget and reporting regulations is attached as **APPENDIX 1 – PART 1**. The report serves as an overview of the budget as a whole, budget assumptions used to compile the budget, funding sources used to fund the capital budget, different income categories to fund priorities of the municipalities, as well as the different expenditure items, including non-cash items.

CAPITAL BUDGET 2022/2023 – 2024/2025

The capital budget is infrastructure orientated and addresses the huge backlog and urgent need to upgrade/refurbish Council's infrastructure as addressed by the different master plans. It is directed by the IDP (Integrated Development Plan) and the needs of the community. It's also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the "back to basics" approach. Council's attention is however drawn to the fact that not all needs identified by the community can realistically be funded by the municipality. Critical and committed programmes/projects were the focal point for the capital budget.

The main capital projects that the municipality will be investing in, which constitute more than 70% of the capital budget, include:

- Expansion of the landfill site (New cells)
- New Reservoir & Pipeline: Vlottenburg
- Upgrade of WWTW Wemmershoek
- Bien don 66/11kV substation new
- Water Treatment Works: Idasvalley
- Bulk Sewer Upgrade: Dwarsriver Area (Kylemore, Boschendal, Pniel)
- Kayamandi(Costa grounds)new substation 11 kV switching station
- STB Switchgear (11kV) SF6
- Landfill Gas To Energy
- Enkanini Informal Phase 3
- Transfer Station: Stellenbosch Planning and Design
- Bulk Water Supply Pipeline & Reservoir - Jamestown
- Sewerpipe Replacement: Dorp Straat
- Bridge Construction
- Lanquedoc Access road and Bridge
- Reseal Roads - Stellenbosch & Surrrounding
- Langrug Franschhoek Mooiwater Dam Rehab & Basic Services
- Kayamandi: Zone O (±711 services)
- Sewerpipe Replacement
- Upgrade of WWTW: Klapmuts
- Extension of Cemetery Infrastructure
- Kayamandi Town Centre
- Waterpipe Replacement
- Laterra Substation
- Upgrade of WWTW: Pniel & Decommissioning Of Franschhoek
- Jamestown: Housing
- Main Road Intersection Improvements: Franschhoek
- Upgrade and Expansion of IT Infrastructure Platforms
- Electrification INEP
- Water Conservation & Demand Management
- Franschhoek Sewer Network Upgrade

- General Systems Improvements - Stellenbosch
- New Development Bulk Sewer Supply WC024
- Adam Tas - Technopark Link Road
- Electricity Network: Pniel
- Upgrade of Sport Facilities
- Bulk Water Supply Pipe Line & Pumpstations: Franschhoek
- Structural Improvement: General
- Replace Switchgear - Franschhoek
- Network Cable Replace 11 Kv
- Adhoc Reconstruction Of Roads (WC024)
- Khayamandi Pedestrian Bridge (R304, River and Railway Line)
- Substation 66kV equipment
- Replace Control Panels 66 kV & Circuit breakers
- Ad-Hoc Provision of Streetlighting
- Dwarsriver Bulk Supply Augmentation and Network Upgrades

The detailed capital budgets for 2022/2023, 2023/2024 and 2024/2025 are attached as **APPENDIX 1.**

OPERATING BUDGET 2022/2023 – 2024/2025

The basis of the operating budget is aligned to the principle of total potential income (less income forgone as an expense where applicable) from all our services as well as a projection of total direct income. The extent, to which tariffs and levies are proposed to increase, is in the main influenced by:

- The increase in bulk purchases (water and electricity)
- Employee related costs, as per SALGBC wage agreement
- Councillor remuneration, as per SALGA upper limits
- Service delivery challenges
- Repairs and maintenance
- Operational projects impacting job creation and economic development
- Contractual commitments
- Day to day operational costs (fuel & oil, telephones, bank costs, etc)
- Finance costs, influenced by level of borrowing

Taking all of these issues into consideration and to ensure the sustainability of our operations from realistically anticipated income flows, the following tariff and property tax increases are proposed for 2022/2023:

Electricity	**7.9%**
Sanitation	**6.5%**
Refuse removal	**8%**
Water	**6.2%**
Rates	**6.2%**

The impact of the proposed tariff increases on the monthly services account for the various consumer categories is summarized in **APPENDIX 2.**

HIGH LEVEL CAPITAL AND OPERATING BUDGET FOR 2022/2023 – 2024/2025

The high level budget depicting the total budget is attached as **APPENDIX 1 – PART 1 – SECTION C.**

TARIFFS

Council's attention is further drawn to the fact that the Tariff List attached as **APPENDIX 3** includes Sundry Tariffs as a basket of services and charges, i.e. Land Use Management Fees, Development contributions, Technical Charges, etc. In this regard, the proposed tariff list must be consulted for the detail.

BUDGET RELATED POLICIES & BY-LAWS

The following budget related policies are new:

Development Charges Policy **(Appendix 4)**

The following budget related policies and by-laws were revised:

Rates Policy **(Appendix 5)**

Rates By-Law **(Appendix 6)**

Indigent Policy **(Appendix 7)**

Tariff Policy **(Appendix 8)**

Tariff By-law **(Appendix 9)**

Credit Control and Debt Collection Policy **(Appendix 10)**

Credit Control and Debt Collection By- Law **(Appendix 11)**

Special Ratings Area Policy **(Appendix 12)**

Irrecoverable Debt Policy **(Appendix 13)**

Travel and Subsistency Policy **(Appendix 14)**

Cash Management and Investment Policy **(Appendix 15)**

Supply Chain Management Policy **(Appendix 16)**

Wayleave Policy **(Appendix 17)**

Liquidity Policy **(Appendix 29)**

Inventory Management Policy **(Appendix 30)**

Preferential Procurement Policy **(Appendix 31)**

OTHER SUPPORTING DOCUMENTATION

The additional information as prescribed by the budget and reporting regulations are attached as **APPENDIX 1 – PART 2 – SECTION P.**

4.2. Financial Implications

Financial impact already discussed above.

4.3. External Loan for 2022/2023

That Council specifically note and consider the need to take up external loans to fund critically needed refurbishment of infrastructure to the amount of R 441 million of which over the MTREF R140 million will be required in year one, R160 million in year two and R141 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary).

6.4 Legal Implications

Legal Services

The item at my disposal is compliant with the relevant legislative framework.

6.5 Staff Implications

None

6.6 Previous / Relevant Council Resolutions

6.7 Risk Implications

None

6.8 Comments from Senior Management

6.8.1 Director: Infrastructure Services

Noted

6.8.2 *Director: Planning and Development Services*

Noted

6.8.3 Director: Community and Protection Services

Noted

6.8.4 Director: Corporate Services

Noted

6.8.5 Chief Financial Officer

Noted

6.8.6 *Municipal Manager*

Noted

RECOMMENDATIONS FROM THE EXECUTIVE MAYOR, IN CONSULTATION WITH THE EXECUTIVE MAYORAL COMMITTEE, TO COUNCIL: 2022-05-18: ITEM 6.3

(a) that the High-Level Budget Summary, as set out in **APPENDIX 1 – PART 1 – SECTION C**; be approved;

(b) that the Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in **APPENDIX 1 – PART 1 – SECTION D**, be approved;

(c) that the proposed Grants-In-Aid allocations as set out in **APPENDIX 1 – PART 2 – SECTION J**, be approved;

(d) that the three-year Capital Budget for 2022/2023, 2023/2024 and 2024/2025, as set out in **APPENDIX 1 – PART 2 – SECTION N**, be approved for public release;

(e) that the proposed rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in **APPENDIX 3**, be approved;

(f) that the new policy and the proposed amendments to the existing budget related policies, by-laws and other policies as set out in **APPENDICES 4 - 3**1, be approved;

(g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R441 millions of which R140 million will be required in year one, R160 million in year two and R141 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;

(h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially;

(i) that Council takes note of MFMA circulars 112 and 115 that was published to guide the MTREF for 2022/2023 to 2024/2025 as set out in **APPENDICES 32 – 33**; and

(j) that Council takes note that the public comments and submissions were considered with the compilation of the final budget.

APPENDIX 1

STELLENBOSCH MUNICIPALITY

MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK FOR THE FINANCIAL PERIOD 2022/2023 TO 2024/2025

Vision:

We describe the vision of where we want to be as a Municipality and the Greater Stellenbosch area as the

"An Integrated Valley of Opportunity and Innovation"

Mission:

Our mission is to deliver services in an enabling environment through sustainable, cost-effective and accountable services for our community.

Our Values

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

Excellence: As a municipality, we will strive to deliver excellent services for all areas within the greater Stellenbosch.

Responsiveness: The municipality to be a responsive municipal entity with zero tolerance for corruption and illegal actions.

PART A

A: RESOLUTIONS

It is recommended to Council,

a) that the High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved;
b) that the Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved;
c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved;
d) that the three-year Capital Budget for 2022/2023, 2023/2024 and 2024/2025, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved;
e) that the proposed rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3, be approved;
f) that the new policy and the proposed amendments to existing budget related policies, by-laws and other policies as set out in APPENDICES 4 - 31, be approved;
g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R441 millions of which R140 million will be required in year one, R160 million in year two and R141 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;
h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially;
i) that Council takes note of MFMA circulars 112 and 115 that was published to guide the MTREF for 2022/2023 to 2024/2025 as set out in APPENDICES 32 – 33;
j) that Council takes note that the public comments and submissions were considered with the compilation of the final budget.

B: EXECUTIVE SUMMARY

Municipalities are facing many challenges, the two main challenges being the COVID -19 pandemic and its impact and on the other hand the weak economy, that has become weaker as a result of the aforementioned pandemic. The pandemic and the restrictions implemented to slow the spread thereof, caused widespread social and economic distress and continues to take a toll on global growth.

The world economy is expected to grow 4.4 per cent this year, lower than the 4.9 per cent that was anticipated with the tabling of the *Medium-Term Budget Policy Statement* (MTBPS).

Significant risks to the economic outlook include new COVID-19 variants, such as the Omicron variant that caused many countries, including South Africa, to impose restrictions to manage the spread. Continues interruptions in power supply, rising inflation and fiscal risks are also some of the risks highlighted in the Budget 2022 Review. The aforementioned risks resulted in the revision of the economic growth estimate for 2021 from 5.1 per cent, at the time of the MTBPS, to 4.8 per cent. This revision reflects a combination of the impact of changes on the global environment, along with the local challenges. The economy began to bounce back from the pandemic lockdowns in 2021, but the recovery weakened in the second half of the year. The projected GDP growth for 2022 is 2.1 per cent reducing to an average of 1.8 per cent in 2023 and 2024.

A more rapid implementation of economic reforms, complemented by fiscal consolidation, will ease investor concerns and support faster recovery and higher levels of economic growth over the long term. The reduction of regulatory constraints, providing effective services, and coordinating and sequencing economic interventions will bolster public and private investment, which will increase resilience and support economic transformation.

The medium-term outlook for economic growth is moderately stronger than at the time of the 2021 Medium Term Budget Policy Statement. The economy is expected to reach pre-pandemic levels of GDP this year. Reforms to boost investment, GDP growth and employment are under way. Faster implementation of these reforms will bolster confidence and economic recovery.

Stats SA figures reflects the impact of the pandemic and slow recovery of the economy on a national level as follow:

- South Africa’s gross domestic product (GDP) increased by 1,2% in the fourth quarter of 2021.

- The personal services industry increased by 2,7%, contributing 0,4 of a percentage point to GDP growth. Increased economic activities were reported for community and other producers.
- The manufacturing industry increased by 2,8% in the fourth quarter, contributing 0,3 of a percentage point to GDP growth. Eight of the ten manufacturing divisions reported positive growth rates in the fourth quarter. The petroleum, chemical products, rubber and plastic products division made the largest contribution to the increase in the fourth quarter. The food and beverages division and textiles, clothing, leather and footwear division also made significant contributions to growth.
- The trade, catering and accommodation industry increased by 2,9%, contributing 0,3 of a percentage point to GDP growth. Increased economic activities were reported for retail trade, motor trade, and catering and accommodation services.
- The agriculture, forestry and fishing industry increased by 12,2% and contributed 0,3 of a percentage point to GDP growth. The increase was mainly due to increased production of animal products
- The transport, storage and communication industry increased by 2,2%, contributing 0,2 of a percentage point. Increased economic activity was reported for land transport and transport support services.
- Manufacturing production increased by 2,9% in January 2022 compared with January 2021. The largest positive contributions were made by the food and beverages devision (11,5% and contributing 2,5 percentage points);
- Mining production increased by 0,1% year-on-year in January 2022.
- After recording eighteen months of positive year-on-year growth, South African mineral sales at current prices pulled back in January 2022, decreasing by 8,2%.
- Electricity generation (production) decreased by 1,1% year-on-year in January 2022
- Electricity distribution (consumption) decreased by 0,2% year-on-year in January 2022.

The aforementioned are just some of the national points which reflects directly on our own economy and how it has been affected.

The 2021 *Medium Term Budget Policy Statement* (MTBPS) detailed notable progress on structural reforms through Operation Vulindlela. Progress was made on several key reforms outlined in its

October 2020 economic recovery plan, which are critical to economic recovery, namely, electricity, transport, tourism, water, telecommunications and infrastructure. It is clearly reflected in the MTBPS that the fiscal strategy for fiscal consolidation and economic recovery remains broadly unchanged, with a focus on achieving a primary budget surplus, where revenue exceeds non-interest spending from 2024/2025. The same goal was reiterated in the 2022 *Budget Review* however it was envisioned that the aforementioned could be achieved as early as 2023/2024.

Broad structural change is required to achieve a faster recovery, characterized by growing investment in job creation. Government's economic reforms aims to remove barriers to growth, lower cost of doing business, and bolster confidence and investment. The economic recovery plan focuses on high impact reforms, namely, speeding up the expansion of electricity generation, creating jobs, rolling out infrastructure aligned with the National Development Plan, amongst others.

Longstanding structural constraints entrench South Africa's high levels of poverty and unemployment. Government continues to advance a multifaceted strategy to achieve higher and sustained economic growth rates. These reforms are intended to build private-sector confidence and investment. Government's recovery plans places emphasis on raising the economy's long-term growth rate; structural reforms that will lower the barriers to faster, inclusive growth by improving access to reliable electricity, water and sanitation services; enabling digital services that are cost-effective; promoting green economy and supporting industries with high employment potential such as agriculture and tourism. As a result of these circumstances, the 2022 Budget strikes a difficult balance between providing immediate support for the economy and shoring up the country's public finances.

Medium-term fiscal policy focuses on extending temporary support in response to the COVID-19 pandemic, narrowing the budget deficit, stabilizing debt and exercising continued restraint in non-interest expenditure growth, while improving the composition of expenditure. Global uncertainties and an uneven domestic recovery will weigh on the economic outlook over the medium term. While the outlook for 2022 has been revised upward, persistent structural constraints continue to inhibit the pace of the recovery from COVID-19 and longer-term growth. Accelerated implementation of reforms is necessary to create jobs and encourage investment over the medium term. Over the medium term, government will devote considerable attention to strengthening the fight against corruption flowing from the reports of the State Capture Commission, cutting red tape for small businesses and strengthening the green transition. In line with government's international and domestic commitments to climate change adaptation and mitigation, the National Treasury plans to pilot a climate budget tagging methodology, which can inform future spending priorities and budget reforms.

The 2022 *Budget Review* extends government's support to poor and vulnerable South Africans, while staying on course to restore the health of the public finances. This approach is supported by economic reforms to bolster investment, growth and employment. The 2022 *Budget Review* supports economic recovery through immediate fiscal support and medium-term fiscal reforms. The government's budget continues to consolidate the public finances while providing immediate support for the pandemic response, job creation and social protection, as outlined in the 2021 *Medium Term Budget Policy Statement* (MTBPS). The aforementioned budget extends government's support to poor and vulnerable South Africans, while staying on course to restore the health of the public finances. This approach is supported by economic reforms to bolster investment, growth and employment. Over the next MTREF period municipalities will have to adjust to significant changes in expenditure plans while improving accountability. Transfers that focus on infrastructure, service delivery and COVID-19 spending are protected in the 2022 Budget. The aforementioned budget also includes funding for initiatives to improve municipal revenue collection and support financially distressed municipalities.

Municipalities must exercise caution when preparing their 2022/2023 MTREF budgets. It is advised that municipalities follow a conservative approach when projecting revenue and to eliminate waste and unnecessary expenditure. It is imperative that municipalities should ensure the following, namely, that budgets they adopt are realistic and funded, that debts owned are collected and that their creditors are paid within 30 days of receipt of invoice. Legislation governing local planning and budgeting places emphasis on community participation in decision-making. The partnerships between municipalities and its stakeholders relies on the households and businesses recognizing the value of, and paying for, municipal services. Therefore, the sustainability of the municipality will heavily depend on how they collect and spent their own revenues.

The 2022 Budget is framed by the two policy objectives set out in the 2021 Medium Term Budget Policy Statement (MTBPS), namely, promoting economic recovery and returning the public finances to a sustainable position. The budget addresses urgent economic needs while targeting long-term structural shortcomings and boosting infrastructure spending. It provides continued support to the economy and public health in the short term without adding to long-term spending pressures. Capital spending is the fastest-growing component of non-interest spending. A series of economic and fiscal measures are outlined in the 2022 budget, that will be implemented to move the economy onto a new trajectory and reduce the long-term risks to South Africa's public finances. The central economic policy goal of the government is to accelerate inclusive growth and create jobs. The main objective is to ensure sustainable finances by containing the budget deficit and stabilizing public debt. The Constitution requires the national budget and related budget processes to promote values such as transparency, accountability, as well as effective management of the economy to these requirements

in a difficult environment in which economic growth remains weak, public debt and debt service costs have accelerated, and governance and operational concerns are manifest across the public sector. The 2022 Budget confronts these challenges by addressing the central risks of the economy and its public finances, supporting growth-enhancing reforms and maintaining real growth in expenditure on social and economic priorities.

The President of South Africa, in his State of the Nation Address (SONA), on 10th February 2022 conceded that unemployment, poverty and inequality remains a national challenge and that job creation remains at the center of the national agenda of 2022. He also emphasized that the Economic Reconstruction and Recovery Plan (ERRP) remains the government's common programme to rebuild the economy. During the SONA the following priorities listed in the previous year's SONA were reiterated:

- Overcoming the COVID-19 pandemic;
- A massive rollout of infrastructure;
- A substantial increase in local production;
- An employment stimulus to create jobs and support livelihoods; and
- The rapid expansion of our energy generation capacity.

Implementation of a capacity building initiative, aligned to Back to Basics strategy, where the main focus will be on improving service delivery, accountability and financial management. It is always important that local government be effective and efficient, and this will be measured by its ability to perform the basic mandate of service delivery. The "Back to Basics" programme was launched to promote good governance and effective administration through cutting wastage, spending public funds prudently, hiring competent staff, and ensuring transparency and accountability in local government.

The following focus areas were highlighted, amongst others, during the State Of Nation Address:

- Water Sector: prioritise institutional reforms to ensure future water security, investment in water resources and maintenance of existing assets;
- Undertaking far-reaching measures to unleash the potential of small businesses, micro businesses and informal businesses;
- Focus on accelerating vaccine rollout;
- Fight against corruption;
- Infrastructure being central to economic reconstruction and recovery: introduction of an innovative social infrastructure delivery mechanism;
- Agriculture and related initiatives;
- Electricity crises and the focus on renewable energy production;

- Job creation and expansion of public and social employment through the Presidential Employment Stimulus progamme;
- Safety and Security;
- State-owned Enterprises (SOE's): embarking on several measures to make the SOE's more efficient , competitive , accountable and sustainable;
- Digital Migration; and
- Socio-economic support.

Government's central economic policy priority remains to promote faster, job-creating growth. Various programmes and initiatives will be established and the existing one's improved upon to ensure effective implementation of the strategic priorities.

As a means to combat unemployment, the municipality will employ the following measures:

- Full participation in the Expanded Public Works Programme;
- Providing support to small businesses, which will create employment in the medium to long term;
- Establishment of Informal Traders;
- Promoting Internships and in-service training opportunities;
- Filling of critical vacancies within the municipality; and
- Developing partnerships with academic institutions for training opportunities.

The Western Cape Premier in his State of the Province address, on 15th February 2022, reiterated the following sentiments highlighted during the State of the Nation Address, including but not limited to, the challenges that are faced, the recovery plans and initiatives that were implemented to address these challenges with regards to the COVID-19 pandemic and the way forward, ending of the National State of Disaster, economic growth recovery initiatives , unemployment and job creation, improving education, building of safer communities, recovering our comprehensive health services, sustainable infrastructure development, implementation of related initiatives, provision of housing (dignified living), decreasing homelessness, finding alternative energy sources to assist and reduce the strain on the electrical grid and provision of services to the poor households.

The Premier stated that whilst the COVID-19 pandemic has caused significant damage, and the resources at our disposal might not be sufficient to address certain challenges, it is not the same threat as last year and it has definitely not gone away. It is still present and we as a country must learn to live with the virus. This pandemic has led to job crisis, humanitarian crisis and a dignity crisis and as a result of this government commits to continue fighting for the economy and for job creation.

The biggest priority for the Western Cape, going forward will be to create an environment where the private sector creates a lot of jobs, to fight against the pandemic of joblessness.

The Premiers' speech focused, amongst others, on the following areas:

- Having a budget forward approach to the pandemic;
- Normalizing COVID-19 responses and looking to the future;
- End of the National State of Disaster;
- • A new department of infrastructure to be created in the Western Cape;
- Job creation initiatives;
- Safety and Well-being;
- Improvement on health-, education-, economic-, social housing- and social services Infrastructure;
- Boosting the spending on Infrastructure;
- Sustainable Growth;
- Infrastructure projects supported by National Government;
- Safety and Security
- Increased focus on police oversight; and
- Long -term fiscal sustainability

During his Statement of the Province Address the Premier highlighted the importance of finding ways to live with the pandemic and the impact thereof on the economy, minimize unemployment by creating an environment that encourages job creation, through investment and growth and creating an environment which raises the quality of education and prepares generations for a digital future. The Premier mentioned the successes achieved through the implementation of various initiatives with focus on job creation, improvement of education and creation of an environment which encourages expanding social services through partnership with private partners, building of partnerships to foster safer communities, investments in new initiatives and maintenance of existing transport infrastructure and implementation of various youth development programmes which in return will boost employment opportunities. All of the above focus areas are important, however, the basis of all of this is economic growth and job creation. In essence little else is possible if there is no growth or job opportunities.

The same sentiments were reiterated by the Minister of Finance and Economic Opportunities in his speech on the 14th March 2022. The Minister tabled "A Budget to Push Forward" and placed emphasis on the aforementioned focus areas of the Premier as well other areas such as the provision of support to vulnerable municipalities, improving the efficiency of expenditure by

improving value for money in procurement, mitigating existing risk such as drought, fire and flooding, but also new risks, such as cyber-attacks and ensure the long-term fiscal sustainability of the Western Cape.

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier's State of the Province address, the SONA and the 2022 Budget Review.

Local government confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving their own revenue collections, working more efficiently and implementing cost-containment measures. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary. Cost Containment Regulations were issued on 07 June 2019. The implementation of cost containment measures is important as it will assist municipalities to reprioritize expenditure and to free up resources targeted towards service delivery. It will also be used to eliminate wastage of public resources on non-service delivery items. The main object of the regulations is to ensure that the resources of municipalities are used in an effective, efficient and economical manner.

Municipalities face a very difficult fiscal environment, where the weak economic growth has put immense pressure on the consumer's ability to pay for services rendered by the municipalities, while the transfers from national government are increasing at a much slower pace than in the past. As a result of the COVID-19 pandemic, the economic landscape, weak tariff setting and increases in key cost drivers to provide basic municipal services, municipalities are under pressure to generate additional revenue. Additional revenue needs to be generated because the consumer's ability to pay for services received, continues to decline, which in turn leads to limited revenue collection. The effects of slow growth and economic challenges experienced these past years coupled with the COVID pandemic since 2020, continues to place pressure on the finances of the average consumer (levels of disposable income and savings). This typically results in greater difficulty for the municipality with regards to the revenue collection, which have a direct impact on the municipality's ability to provide effective and efficient services, but also to budget accurately for service delivery over the short to medium term. It is as a result of above challenges, alongside continued unemployment and slow growth that a more conservative approach is advised for revenue projections.

Some municipalities have managed these challenges well, whilst others have fallen into financial distress and face liquidity problems. Province advises the new leadership to decisively address unfunded budgets through reducing non-priority spending and improving revenue management and

address service delivery failures by ensuring adequate maintenance, upgrade and renewal of existing assets to enable reliable service delivery. The main focus of the municipalities should be placed om collecting the revenues owned to them and eliminating wasteful and non-core spending, as per the cost containment regulation. Furthermore, the municipality must have continuous communication with the community and other stakeholders to improve the reputation of the municipality. This in return will attract more investment in the local economy, which may result in reducing unemployment and create more job opportunities. It should be noted that consumers are more willing to pay for services if they are reliable and if the environment is well maintained.

National Treasury encourages municipalities to maintain tariff increases and adopt a tariff setting methodology at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. Cost reflective tariff setting is a requirement of Section 74 (2) of the Municipal Systems Act, 2000 (Act No.32 of 2000, wherein it states that tariffs “must reflect the cost reasonably associated with rendering the service”. The municipalities must therefore generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development. The onus is placed on the municipality to comply with Section 18 of the MFMA and ensure that they fund their 2022/2023 budget from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable.

The municipality must first assess the budget, before the tariff setting process, to determine whether it is effective and efficient and must ensure that it is credible for financial sustainability. In sum, the cost considered when setting a cost reflective tariff must include day-to-day operations and maintenance costs, capital financing cost and provision for bad debt, which are collectively referred to as direct costs, and governance and administration costs referred to as indirect costs.

Tariff increases by Eskom and Water Boards is above inflation and should be considered as such while determining cost reflective tariffs. In the instance of bulk tariff increases for electricity, municipalities are encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a

process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

The damaging impact of the COVID-19 pandemic, the economic landscape, weak tariff setting and increases in key cost drivers for the provision of basic municipal services has put municipalities under immense pressure to generate revenue. Less revenue are collected because the ability of the consumer to pay for services is declining as the result of various economic challenges and issues.

It is as a result of the aforementioned that municipalities are therefore required to consider the following during the compilation of the 2022/2023 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulation read with MFMA Circular No.82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control use of costly water tankers and fix water infrastructure to enable the sustainable provision of water;
- Prioritize the filing of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taking into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. As a result of excellent financial discipline, the Stellenbosch Municipality has taken the theme of "Creating sustainable infrastructure to enable economic growth and job opportunities post Covid-19 pandemic", to heart. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and 'nice to have' items with regards

to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The following budget principles and guidelines directly informed the compilation of the 2022/2023 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable as possible and should ideally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) were used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

The main challenges experienced during the compilation of the 2022/2023 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- COVID pandemic and the impact thereof on financial sustainability and the economy;
- Aging infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The increased cost of bulk water and electricity, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Attracting economic investment;
- Water Conservation;
- Electricity/ Load shedding;
- Borrowing for multi-year capital projects and refinancing of existing loans;
- Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook;

- Limited resources to deal with all key priorities;
- Transitional period of newly elected council;
- Compilation of new five-year Integrated Development Plan;
- Slowdown in new developments; and the
- Decline in reserves available to fund capital programmes.

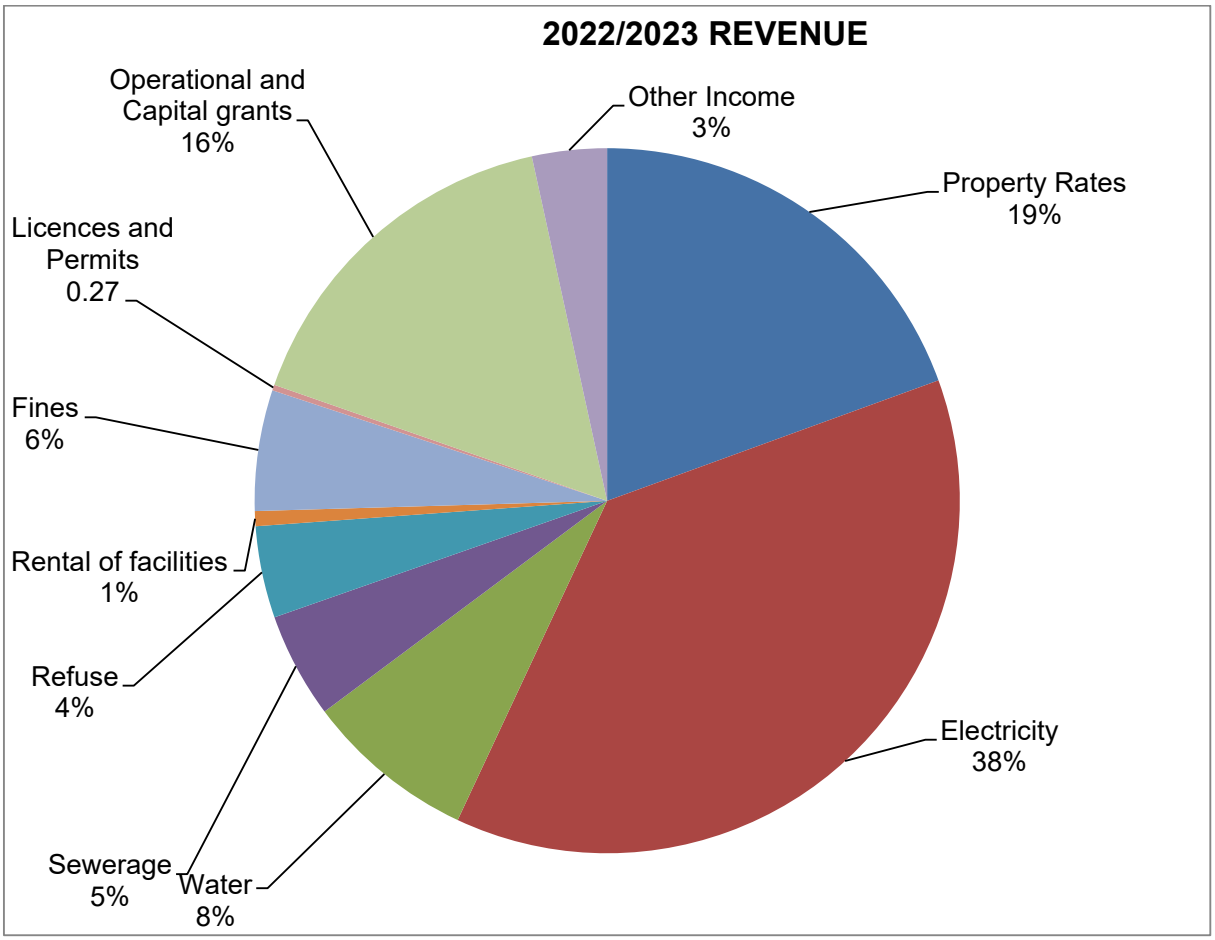
Russia's invasion of Ukraine and tightening sanctions on Russia have sent commodity prices soaring and will have adverse implications for South Africa's headline consumer price inflation (CPI). The invasion has directly led to higher oil and grain prices, which directly push up prices of key goods within the CPI such as fuel and bread.

It is expected that fuel prices will increase substantially in the next financial year, and this will be provided for in the budget.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income. The municipality were mindful of the estimated headline inflation for 2022/2023 of between 3% to 6% forming the basis of the extensive income modelling exercise, but also taking into account the principles of economical services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases. Inflation is forecast to fluctuate around 4.5% over the medium term in line with moderating inflation expectations.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.



The total budget quantum for the 2022/2023 year is R2 511 338 013 of which R2 102 064 809 (84%), is allocated to the operating budget and R409 273 204 (16%) to capital investment.

OPERATING BUDGET – REVENUE

Overall revenue budget increase was limited to 6.62% resulting in annual operating revenue increasing from R2 116 590 768 in 2021/2022 to R2 256 812 246 in 2022/2023. Taking cognisance of the economic conditions, the resultant low employment levels and levels of disposable income, it was important to keep services affordable by critically looking at the costs associated with providing the service.

Accordingly, management investigated potential pitfalls and amongst others found that spiralling expenditure on employee costs did not keep trend with realistically anticipated revenue streams, compounded by the decline in electricity surpluses as a result of higher input costs to provide the service.

REVENUE CATEGORIES	2021/2022	2022/2023	% INCR
Property Rates	415,667,656	438,941,448	5.60%
Electricity	787,275,170	846,763,143	7.56%
Water	166,399,723	176,782,707	6.24%
Sewerage	102,956,558	109,133,951	6.00%
Refuse	87,936,447	94,971,363	8.00%
Rental of facilities	10,811,501	15,537,894	43.72%
Fines	120,164,832	124,955,174	3.99%
Licences and Permits	5,778,049	5,934,010	2.70%
Operational + Capital grants	337,576,396	366,410,000	8.54%
Other Income	82,024,436	77,382,557	-5.66%
Operating Revenue	**2,116,590,768**	**2,256,812,246**	**6.62%**

- Average tariff increases:

Property Rates	6.20%
Electricity	7.90%
Water	6.20%
Sanitation	6.50%
Refuse removal	8.00%

- The Municipality succeeded in accessing the EPWP Incentive Grant for Municipalities in a bid to give some relief to the poorest of the poor by means of contract employment opportunities over the short term. The allocation for the 2022/23 financial year is R 4 928 000.

Rates

In the 2022/2023 financial year, the Property Rates Tariff paid by owners will increase with 6.20%, whilst total rates also increased with 6.20%. The increase in total rates is due to interim valuations that were performed. Rates rebates to senior citizens and disabled persons are also available as per the requirements of the amended Rates Policy to qualifying ratepayers with a monthly income of R15 000 or less.

Electricity

According to NERSA, the inclining block rate tariff structure is commonly used to charge for water usage. The feature of this tariff structure is that the more you use, the higher the average price. The objective of the inclining block tariff is to provide protection for lower usage customers against high price increases resulting in a reduction in tariffs to these customers. This means that higher consumption customers will see increasingly punitive charges based on their electricity usage. The municipality is implementing the directive from NERSA as part of the Municipality's Licensing Agreement and as a result had to deal with the negative impact of a declining Electricity surplus, year-on year, putting more pressure on the level and quality of services provided.

Council's attention is further drawn to the fact that the proposed electricity tariff is at 7.90% whereas the increase in electricity bulk purchases for the 2022/2023 financial year is 8.61% as approved by NERSA (National Electricity Regulator of South Africa) for implementation by all municipalities. Although the proposed tariffs increase with 7.90%, the municipality is experiencing a decrease in electricity demand as consumers are utilising alternative energy sources.

Municipalities are urged to examine the cost structure of providing electricity services and to apply to NERSA for electricity tariff increases that reflect the total cost of providing the service, so that they work towards achieving fully cost-reflective tariffs that will help them achieve financial sustainability.

Water

Taking cognizance of the challenges that the country is currently experiencing due to the severe drought, the plight of the poor and the affordability of basic services, the average tariff increase for the rest of the consumptive water scales is 6.20%. The tariff is designed to cater for current and future capital investment in basic water infrastructure and the need to generate surpluses. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2022/2023 and not based on the approved budget for the same year.**

Sewerage (Sanitation)

The proposed increase in this tariff is 6.50%. Sanitation services is classified as an economical service. This means that the service charges for sanitation must cover the cost of providing the service, i.e. it must at least break even. This tariff increase is necessitated by operational requirements, maintenance of existing aging infrastructure, new infrastructure financing/provision and to ensure that the service is delivered in a sustainable manner. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2022/2023 and not based on the approved budget for the same year.**

Refuse (Solid Waste)

Refuse removal services, like sanitation are also classified as an economical service. This means that the service charges for refuse must cover the cost of providing the service, i.e. it must at least break even. The municipality will implement an above inflation tariff increase as this service does not break even and to provide for the additional expenditure for the transport of the waste from the Stellenbosch Landfill Site. The solid waste tariffs were modelled to give effect to the principle of the service charge being cost reflective as the service cannot be cross-subsidized. It is proposed that the tariff increases by 8.00% as a result of the before mentioned. The very nature of this tariff does not lend it to financing the expansion of the landfill site and therefore the proposed extension by way of constructing the new cell, was funded from council's own reserves.

It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2022/2023 and not based on the approved budget for the same year.

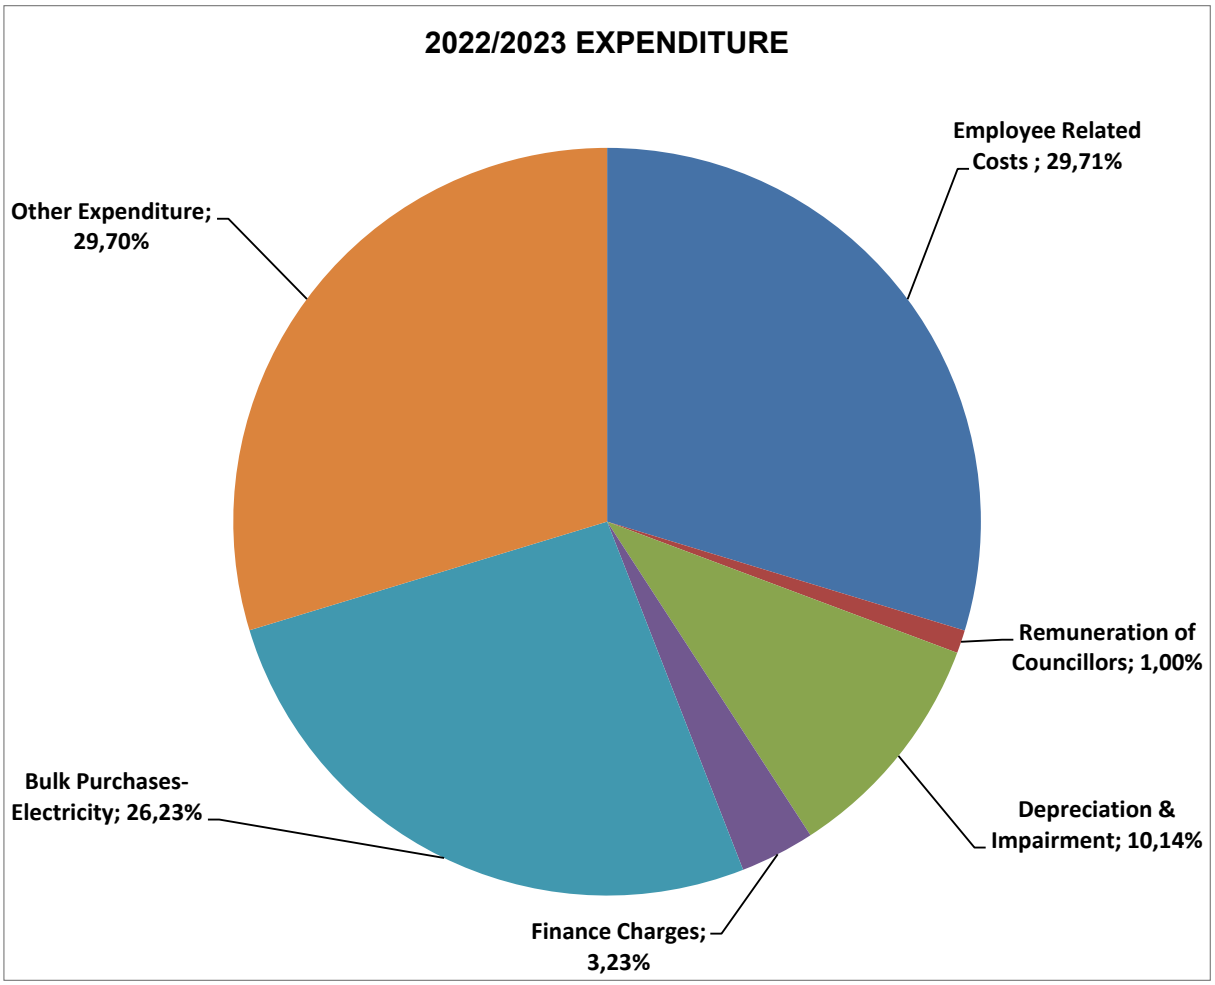
Debt Management

The municipality is currently executing all credit control and debt collection procedures as required in the approved Credit Control and Debt Collection policy. These internal procedures followed include the disconnection of services, where there are services that can be disconnected, the issuing of final notices, the conclusion of reasonable agreements where the settlement of the accounts is not possible and also the follow up on defaulting debtors not honoring arrangements. The municipality continuously enforces the above procedures to ensure that debt which is collectable is collected and all debt that is regarded as not recoverable, be written off.

The municipality developed a revenue enhancement strategy. The document focuses on the formulation and implementation of strategies to improve financial management and controls within

the municipality. The objective of any successful revenue enhancement strategy is to build and improve on current payment levels and then to recover arrear debt.

The municipality has also promulgated the Credit Control and Debt Collection By-Law on the 4th of March 2011 to strengthen the internal credit control and debt collection procedures through handing over of all debt over 90 days to the appointed attorneys.



A zero-tolerance approach will be followed where consumers are able to pay for services, as this indirectly denies paying consumers the level and standard of service that they are entitled to.

OPERATING BUDGET - EXPENDITURE

The budget sees an increase in annual operating expenditure from R1 977 195 012 in 2021/2022 to R2 102 064 809 in 2022/2023. This 6.29% increase is primarily due to increases in several expenditure categories, examples which are included in the table below:

EXPENDITURE CATEGORIES	2021/2022	2022/2023	% INCR.
Employee Related Costs	578,245,894	624,463,763	7.99%
Remuneration of Councillors	20,059,305	21,062,270	5.00%
Depreciation & Impairment	211,541,195	213,118,310	0.75%
Finance Charges	44,976,262	67,799,365	50.74%
Bulk Purchases Electricity	507,699,460	551,412,384	8.61%
Other Expenditure	615,156,896	624,208,717	1.47%
Total Expenditure	**1,977,679,012**	**2,102,064,809**	**6.29%**

Council to note the upward pressure of external borrowing interest (Finance Charges) on future tariffs. In this regard, strong political will and strategic leadership is required to ensure that the municipality maintains the position of being responsive to its communities by ensuring that service charges are kept affordable and realistic by amongst other, critically investigating funding choices and expenditure decisions.

Explanation of significant expenditure variances:

Finance Charges

The interest payable for the 2022/2023 financial year has been calculated on the maximum amount of possible borrowings drawn down up to the end of the 2022/2023 financial year.

Bulk Purchases

The municipal tariff guideline increase issued by NERSA setting the bulk purchase increase at 8.61%.

Other expenditure

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions. These interventions include amongst other, measures to limited telephone usage and filling of critical vacancies that will result in a decrease in consulting fees.

CAPITAL BUDGET

The capital budget increased from R 403 507 636 in 2021/2022 to R409 273 204 in 2022/2023.

DIRECTORATE	2021/2022	2022/2023	% INCR.
Municipal Manager	44,000	40,000	-9.09%
Planning and Economic Development	17,209,720	15,185,000	-11.76%

CAPITAL PROJECTS ABOVE R50 MILLION INCLUDED IN THE THREE YEAR MTREF

Project Description	2022/2023	2023/2024	2024/2025	MTREF Total
Bien don 66/11kV substation new	2 600 000	25 000 000	25 000 000	52 600 000
Expansion of the landfill site (New cells)	44 000 000	41 000 000	-	85 000 000
New Reservoir & Pipeline: Vlottenburg	20 569 470	39 000 000	45 000 000	104 569 470
Upgrade of WWTW Wemmershoek	17 500 000	17 500 000	17 500 000	52 500 000
	84 669 470	**122 500 000**	**87 500 000**	**294 669 470**

Major capital expenditure is planned in the following areas during the 2022/2023 financial year:

- Expansion of the landfill site (New cells)
- New Reservoir & Pipeline: Vlottenburg
- Upgrade of WWTW Wemmershoek
- Bien don 66/11kV substation new
- Water Treatment Works: Idasvalley
- Bulk Sewer Upgrade: Dwarsriver Area (Kylemore, Boschendal, Pniel)
- Kayamandi(Costa grounds)new substation 11 kV switching station
- STB Switchgear (11kV) SF6
- Landfill Gas To Energy
- Enkanini Informal Phase 3
- Transfer Station: Stellenbosch Planning and Design
- Bulk Water Supply Pipeline & Reservoir - Jamestown
- Sewerpipe Replacement: Dorp Straat
- Bridge Construction
- Lanquedoc Access road and Bridge
- Reseal Roads - Stellenbosch & Surrrounding
- Langrug Franschhoek Mooiwater Dam Rehab & Basic Services
- Kayamandi: Zone O (±711 services)
- Sewerpipe Replacement
- Upgrade of WWTW: Klapmuts
- Extension of Cemetery Infrastructure
- Kayamandi Town Centre
- Waterpipe Replacement
- Laterra Substation
- Upgrade of WWTW: Pniel & Decommissioning Of Franschhoek
- Jamestown: Housing
- Main Road Intersection Improvements: Franschhoek
- Upgrade and Expansion of IT Infrastructure Platforms
- Electrification INEP
- Water Conservation & Demand Management
- Franschhoek Sewer Network Upgrade
- General Systems Improvements - Stellenbosch
- New Development Bulk Sewer Supply WC024
- Adam Tas - Technopark Link Road
- Electricity Network: Pniel

- Upgrade of Sport Facilities
- Bulk Water Supply Pipe Line & Pumpstations: Franschhoek
- Structural Improvement: General
- Replace Switchgear - Franschhoek
- Network Cable Replace 11 Kv
- Adhoc Reconstruction of Roads (WC024)
- Khayamandi Pedestrian Bridge (R304, River and Railway Line)
- Substation 66kV equipment
- Replace Control Panels 66 kV & Circuit breakers
- Ad-Hoc Provision of Streetlighting
- Dwarsriver Bulk Supply Augmentation and Network Upgrades

C: HIGH LEVEL BUDGET SUMMARY

	Operating Income R	Operating Expenditure R	Capital Expenditure R	Total Budget R
Municipal Manager	-	27,432,083	40,000	27,472,083
Planning & Economic Development	21,315,262	74,717,884	15,185,000	89,902,884

References

1. Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purposes

2. Total Revenue by functional classification must reconcile to Total Operating Revenue shown in Budgeted Financial Performance (revenue and expenditure)

3. Total Expenditure by Functional Classification must reconcile to Total Operating Expenditure shown in Budgeted Financial Performance (revenue and expenditure)

4. All amounts must be classified under a functional classification . The GFS function 'Other' is only for Abbatoirs, Air Transport, Forestry, Licensing and Regulation, Markets and Tourism - and if used must be supported by footnotes. Nothing else may be placed under 'Other'. Assign associate share to relevant classification.

References

1. Government Finance Statistics Functions and Sub-functions are standardised to assist national and international accounts and comparison

2. Total Revenue by Functional Classification must reconcile to total operating revenue shown in Financial Performance (revenue and expenditure)

3. Total Expenditure by Functional Classification must reconcile to total operating expenditure shown in Financial Performance (revenue and expenditure)

4. All amounts must be classified under a Functional classification. The GFS function 'Other' is only for Abbatoirs, Air Transport, Forestry, Licensing and Regulation, Markets and Tourism - and if used must be supported by footnotes. Nothing else may be placed under 'Other'. Assign associate share to relevant classification

References

1. Classifications are revenue sources and expenditure type

2. Detail to be provided in Table SA1

3. Previously described as 'bad or doubtful debts' - amounts shown should reflect the change in the provision for debt impairment

4. Expenditure type components previously shown under repairs and maintenance should be allocated back to the originating expenditure group/item; e.g. employee costs

5. Repairs & maintenance detailed in Table A9 and Table SA34c

6. Contributions are funds provided by external organisations to assist with infrastructure development; e.g. developer contributions (detail to be provided in Table SA1)

7. Equity method (Includes Joint Ventures)

8. All materials not part of 'bulk' e.g road making materials, pipe, cable etc.

References

1. Municipalities may choose to appropriate for capital expenditure for three years or for one year (if one year appropriation projected expenditure required for yr2 and yr3).

2. Include capital component of PPP unitary payment. Note that capital transfers are only appropriated to municipalities for the budget year

3. Capital expenditure by functional classification must reconcile to the appropriations by vote

4. Must reconcile to supporting table SA20 and to Budgeted Financial Performance (revenue and expenditure)

5. Must reconcile to Budgeted Financial Performance (revenue and expenditure)

6. Include finance leases and PPP capital funding component of unitary payment - total borrowing/repayments to reconcile to changes in Table SA17

7. Total Capital Funding must balance with Total Capital Expenditure

8. Include any capitalised interest (MFMA section 46) as part of relevant capital budget

References

1. Include services provided by another entity; e.g. Eskom

2. Stand distance <= 200m from dwelling

3. Stand distance > 200m from dwelling

Description	Ref	2018/19	2019/20	2020/21	Current Year 2021/22			2022/23 Medium Term Revenue & Expenditure Framework		
		Outcome	Outcome	Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Budget Year 2022/23	Budget Year +1 2023/24	Budget Year +2 2024/25

4. Borehole, spring, rain-water tank etc.

5. Must agree to total number of households in municipal area (informal settlements receiving services must be included)

6. Include value of subsidy provided by municipality above provincial subsidy level

7. Show number of households receiving at least these levels of services completely free (informal settlements must be included)

8. Must reflect the cost to the municipality of providing the Free Basic Service

9. Reflect the cost to the municipality in terms of 'revenue foregone' of providing free services (note this will not equal 'Revenue Foregone' on SA1)

PART 2

A: OVERVIEW OF STELLENBOSCH MUNICIPALITY

Background

Stellenbosch Municipality is located in the heart of the Cape Winelands. It is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers approximately 900 km².

STATE OF THE GREATER STELLENBOSCH AREA

Introduction

Stellenbosch Municipality is located at the edge of the City of Cape Town, but still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town's central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa's top (air) links to the global economy, and not much further away from Cape Town harbour, the shipping portal to both the Atlantic and the Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it is able to sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality's area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as a number of rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniël, Johannesdal, Languedoc, Groot Drakenstein, Muldersvlei, Klapmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vlottenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes a number of informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect its heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and a number of prestigious schools. It has a strong business sector, varying from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars abound and the area is the home of the very first Wine Route in South Africa. A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over

many generations. The Municipal area has a number of theatres, which include the Stellenbosch University's HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorp Street at Theatre and Aan de Braak Theatre.

Ward Demarcation

The Stellenbosch Municipality is currently structured into the following **23** wards:

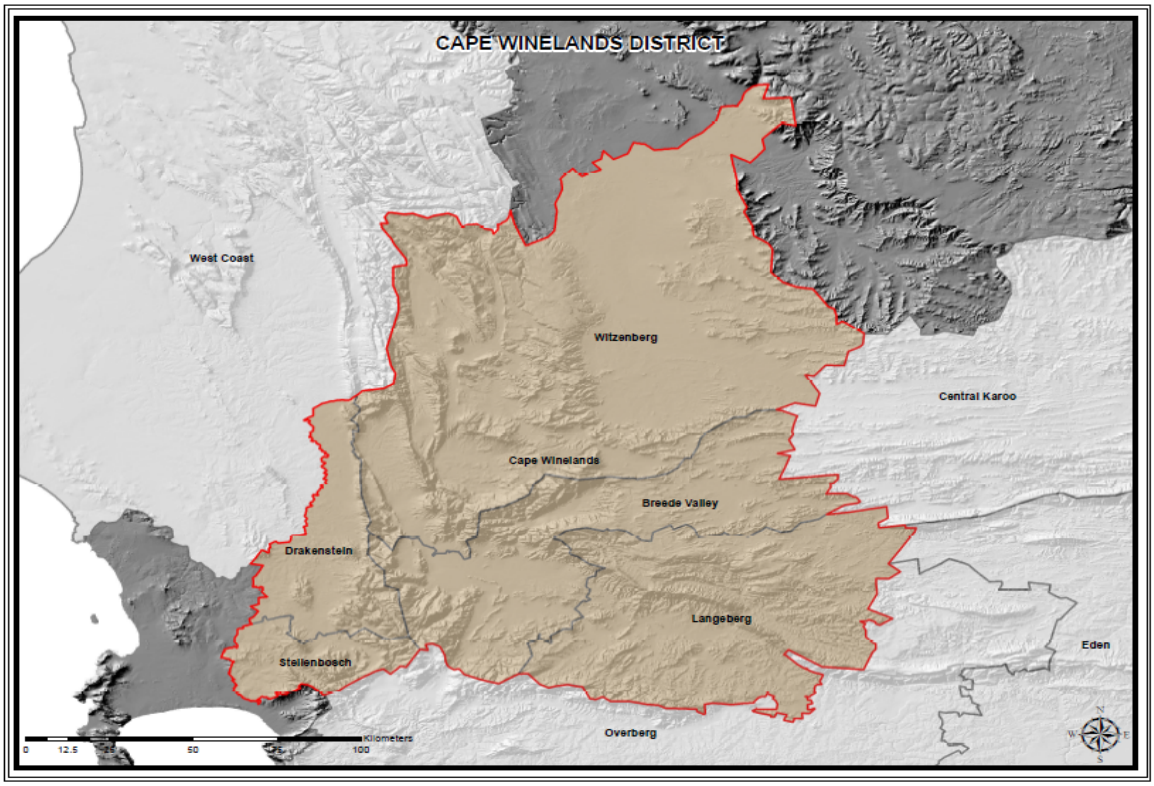
Table 1: Municipal ward population

Ward	Areas
1	Mooiwater, Franschhoek Town and Surrounding Farms
2	Langrug, La Motte, Dennegeur, Groendal
3	Lanquedoc, Wemmershoek to La Motte Wine Farm and Leopard Leap Wine Farm
4	Kylemore, Johannesdal, Pniël and Surrounding Farms
5	Ida's Valley (Hillside Village, La Gratitude Park (Kreefgat), The Ridge, La Roche, Lindida, Bloekomlaan(Moses / Martin) Lindley)
6	The Hydro, Rustenberg and Surrounding Farms, Kelsey Farm
7	Mostersdrift, Karindal, Rozendal, Uniepark, Simanswyk and Unirversiteitsoord
8	Stellenbosch University campus and university residence area; Coetzenburg, (partially:) Koloniesland
9	Stellenbosch CBD, Part of US campus (residential areas within both these areas), Southern border is the Eerste River, Northern border is Merriman Street, Eastern border is Die Laan and Western border is Bird Streeet
10	Tennantville, Lakay Street, Titus Street, Langsuid Street up to Lakay Street, Tennant Street, Lapan Street, Bell Street, Bird Street, La Colline (Dr Malan Street, Dan Pienaar Street, Paul Roos Street, Tobruk Park, Irene Park, La Colline Road, Conde Street, Taylor Street, Mount Albert Street), Kromrivier Road, Jan Celliers Street, Hammanshand, Ds Botha Street, Voorplein Street, Bird Street, Langenhoven Street, Du Toit Station, Ryneveld Street, Karee Street, Olienhout Street, Banghoek Rd, Acedemia, Bosman Street, Smuts Rd, Joubert Street, De Beer Rd, De Villiers Rd from Ryneveld Street to Cluver Rd on the lefthand side
11	Boundaries of the ward are: Kridge Rd, Herte Street, Skone Uitsig Rd onto Alexander Street onto Du Toit Street toward Merriman Avenue towards Adam Tas Rd onto George Blake Street, Mark Street, Distillery Rd, Santhagen Rd, Swawel Avenue, Kanarie Rd, Tarentaal Rd, Bokmakierie Rd, Fisant Rd, Devon Valley Rd, Kiewiet Rd, Dagbreek Rd, Pelikaan Street, Patrys Rd, Hammerkop Rd, Loerie Rd, Muldersvlei Landgoed, and all areas in Onder Papegaaiberg and businesses

Ward	Areas
12	Kayamandi: Zone A, Chris Hani Drive, 10th and 13th Street, School Crescent, Snake Valley, Enkanini, Watergang, Watergang TRA 2 and Watergang Informal Settlements
13	Kayamandi: Zone J, Red Bricks, Zone K and L, Hostels, Dairy and Univsity Hostels, Old Bricks Houses Red Roofs, Zwelitsha, Costaland
14	Kayamandi: Zone P, I, F, D and O, Costaland, Marikana, Watergang, Smarties (Mgabadeli Street), Monde Crescent
15	Kayamandi: Zone M, N, O, 4th and 5th Avenue, 10th, 12th and 14th Street, Long Street, Retreat Street, Forest Drive
16	The borders are Tenant Rd, Long streets, Crombi Rd to end of Gabriels Rd. Asalea Rd, 2nd Road, Noble Rd, Bailey Rd, Eike Street, Curry Street, Hoop Rd, Pansy Rd, West Rd, Laai Rd, Anthony Rd, Carriem Rd, Archilles Rd, Bergstedt Rd, Davidse Rd, Cupido Rd, Pearce Rd, Robyn Rd, Gonzalves Rd, Hercules Rd, Chippendale Rd, Afrika Rd, Arnolds Rd, September Rd, Jakaranda Street, Short Rd, Quarry Rd, Middle Rd, Primrose Street, Pine (Bo en Onder), North End, Vredelust, Gemsbok, Daffodil Single, Steps, Sylvia Street, Eiland Street, Last Street (White City), Frikkadel Dorp, September Street
17	A part of Cloetesville (Lakay Rd towards Langstraat -Suid Rd, Kloof Street, Fir Street, Fontein Rd, Williams R towards Gabriels Rd towards February Rd, Valentyn Rd, Pool Rd, Raziet Rd, Ortell Rd, Rhode Rd, King Rd, Hine Rd, Hendrikse Rd, Rhode Rd), as well as Welgevonden, Green Oaks, Stellita Park, Weltevrede, Welgevonden Estate (Red Oak Rd, Belladonna Street, Wildeklawer Welgevonden Boulevard, Olive Rd, Sonnedou Rd, Mountain Silver Rd, Silver Oak Rd, Froetang Rd, Katbos Rd, Everlasting, Fynbos Street, Sourfig Street, Scarlet Cresent, Pin Oak Street, Evergreen, Autumn Close, Nenta, Cherrywood, Candelabra, Froetang, Candelabra, Kouter, Protea Street, Minaret, Gooseberry, Honeybush), Klein Welgevonden (La Belle Vie, Chablis) and the Municipal Flats in Rhode, Kloof and Long Streets, Bertha Wines and Weltevreden Estate, 15 Weltevreden Estate,) The borders of the ward are the R44 Klapmuts road and Long streets.
18	Klapmuts Town Centre, Bennitsville, Weltevrede Park, Klapmuts New Houses, Mandela City and La Rochelle Informal Settlement, Klapmuts Farms (The Purple Windmill, Arrra Vineyards, Hidden Gems Wines, Gravel Junction Wine and Spirtis Company, Wine Estate Le Bonheur, Anura Vinyard, Dalewood Farms, Blueberry Bar, Klapmust Transfer Station, Trophy SA, DKL Transport Pty, Welgelee Estate)
19	De Novo, Kromme Rhee, Vaaldraai, Muldersvlei, Koelenhof and surrounding Farms, Koelenhof Station, Slayley, Hunting, Koelenhof Farms, Poultrey / Mariendahl, De Hoop, Nooitgedacht Village, Bottelary and Surrounding Farms, De Waalshof, Weltevrede 1, Weltevrede 2, Smartie Town.
20	Vlottenberg, Raithby, Mooiberge, Lynedoch

Ward	Areas
21	Brandwacht Aan Rivier, Paradyskloof, Stellenbosch Golf Course, Blaauwklippen / Stellenzicht Farms, De Zalze, Jamestown, Mountainview, Stellenbosch Airfield
22	Die Boord, Dalsig, Brandwacht, Krigeville, Libertas Farm
23	Dorp treet, Krige, Hamman Streets, Schroder Rd, Die Braak, Bird Street from Dorp Street, Denniseg area, Muller Rd, Banghoek Rd, Reyneveld Street, Plankenburg Industrial area and Kayamandi Corridor.

Below is a map of the Cape Winelands District in relation to the provincial district boundaries:

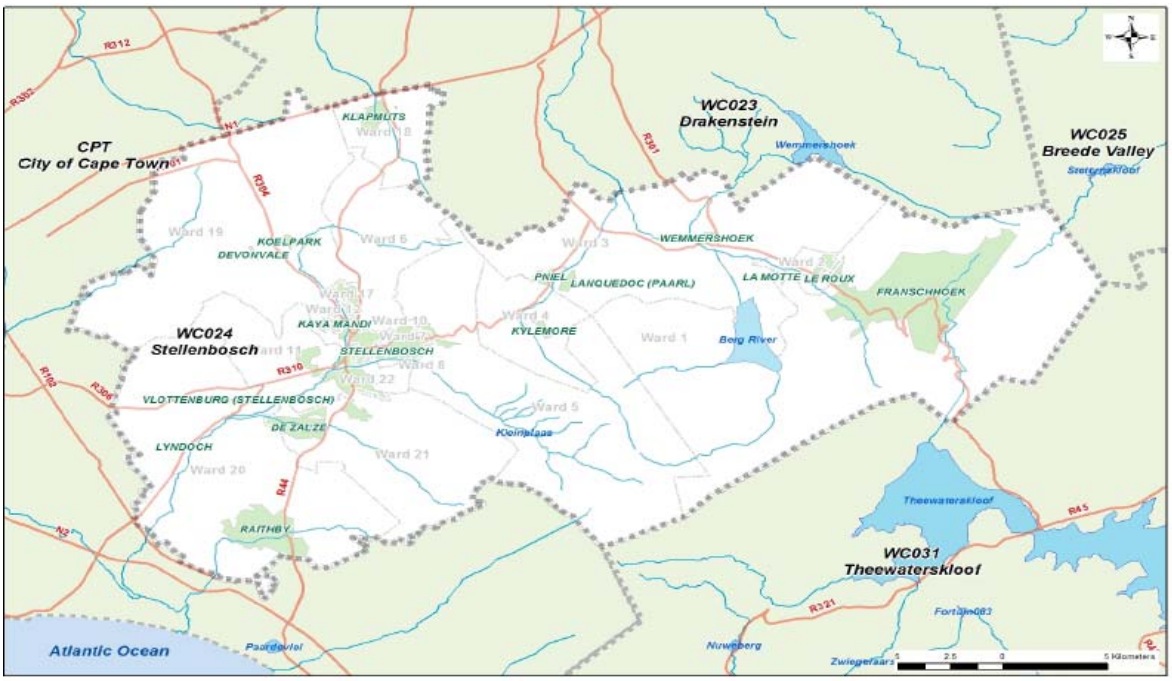


Map 1: Locality of Cape Winelands in relation to Provincial Boundaries

The Western Cape Province, which makes up 10.6% of the country's land surface and encompasses an area of 129 462 km2. The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed Garden Route, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

Below is a map of the municipalities in relation to the Cape Winelands District:

Map 2: Locality map of Stellenbosch Municipality in relation to Cape Winelands District



Boundaries

The Cape Winelands District Municipality is located within close proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second largest container port in the country and a comprehensive road and rail network. This gives the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg and Witzenberg.

Below is a map of the Stellenbosch Municipality's area of jurisdiction:

Map 3: Locality map of municipal boundaries

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to City of Cape Town and Drakenstein Municipality. As a local authority Stellenbosch Municipality governs the towns of Stellenbosch, Pniël, Klapmuts, Kylemore, Jamestown, Raithby, Ida's Valley, Cloetesville, Kayamandi and Vlottenburg, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, Stellenbosch Municipality (SM) forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschhoek, and Klapmuts. There are also a number of smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniël, Johannesdal, Lanquedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vlottenburg. Stellenbosch is a sought-after space, offering opportunity and quality of living, yet in close proximity to city life. This has placed the municipal area under constant development pressure.

Socio – Economic Context

Population and Age Cohorts

Stellenbosch's population totals **196 036** persons in **2021**, the second most populated municipal area in the Cape Winelands District (CWD). This total is expected to grow to **209 854** by **2025**, equating to an average annual growth rate of 1.7 per cent for the period.

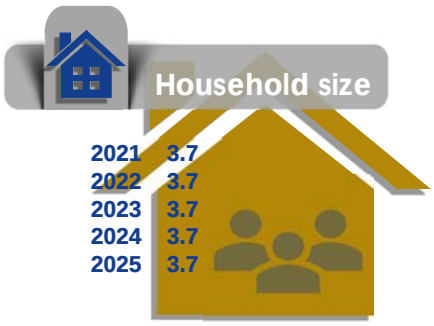
It is evident that Stellenbosch has an ageing population. Between 2021 and 2025, the highest population growth is estimated for the aged cohort, with expected growth for the period reaching an average annual rate of 3.6 per cent. This is more than double the growth in the working age cohort (1.6 per cent). The size of the aged cohort is however relatively small in comparison to the working age category. As such, the dependency ratio remains mostly unchanged between 2021 and 2025.

Figure 1: Age Cohorts and Dependency Ration

Sex Ratio

The overall sex ratio (SR) depicts the number of males per 100 females in the population. The data indicates that there are notably more females than males in the Stellenbosch municipal area with a ratio of 95.8 males per 100 females in 2021. The increasing SR for Stellenbosch could be attributed to a wide range of factors such as a decrease in female mortality rates as well as the potential inflow of working females to the municipal area.

Figure 8:



Source: Western Cape, Social – Economic Profile 2021

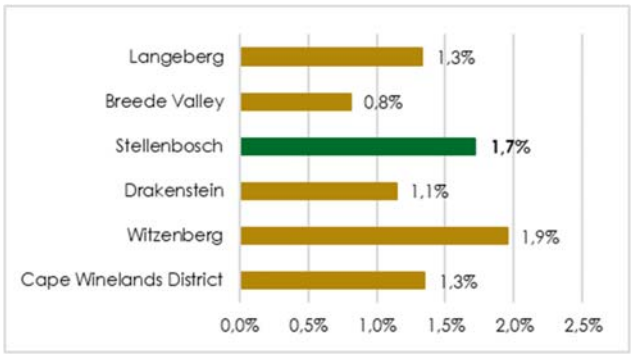
Household Size

Household size refers to the number of people per household. The actual size of households in the municipal area is trending downwards between 2021 and 2025. Contributing factors to a stagnation in household size growth could include, but are not limited to, lower fertility rates, occurrences of divorces, ageing population etc.

Figure 2: Household size

Source: Western Cape, Social – Economic Profile 2021

Population Density



Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision makers to mitigate environmental, health and service delivery risks. In 2021, the population density of the Cape Winelands District was 44 persons per square kilometer.

In order of highest to lowest, the various local municipal areas compare as follows:

- Witzenburg 14 people/km^2
- Drakenstein 192 people/km^2
- Stellenbosch 236 people/km^2
- Breede Valley 51 people/km^2
- Langeberg 27 people/km

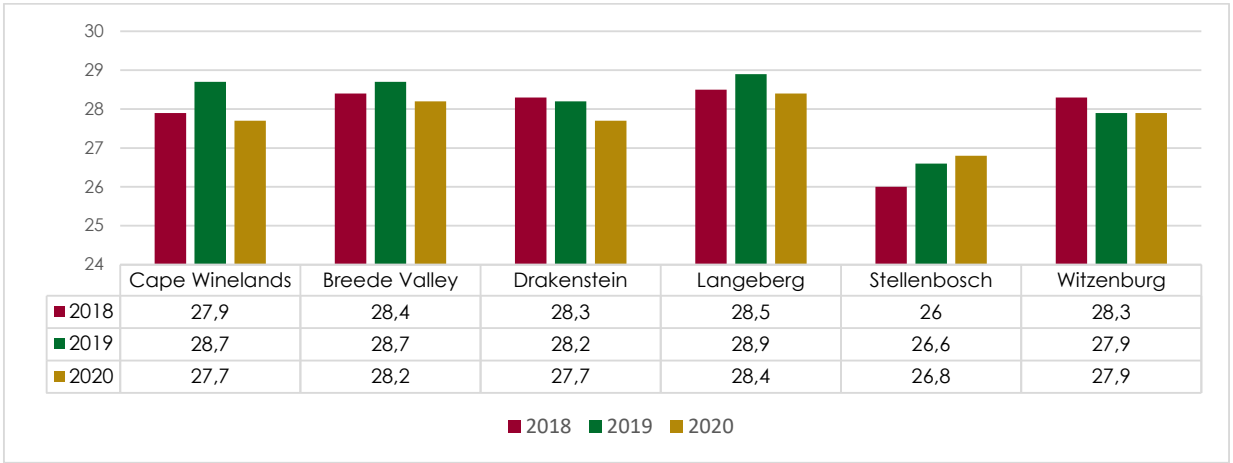
Education

Learner enrolment, the learner-teacher ratio and learner retention rate:

Learner enrolment in the Stellenbosch municipal area increased by 1.7 per cent from 27 087 in 2018 to 28 033 in 2020. The growth rate in learners is slightly above the Western Cape average of 2.1 per cent across the same period.



Graph 1: Learner enrolment

	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenberg
2018	146495	33389	49268	18374	27087	18377
2019	148136	34062	49606	18474	27491	18503

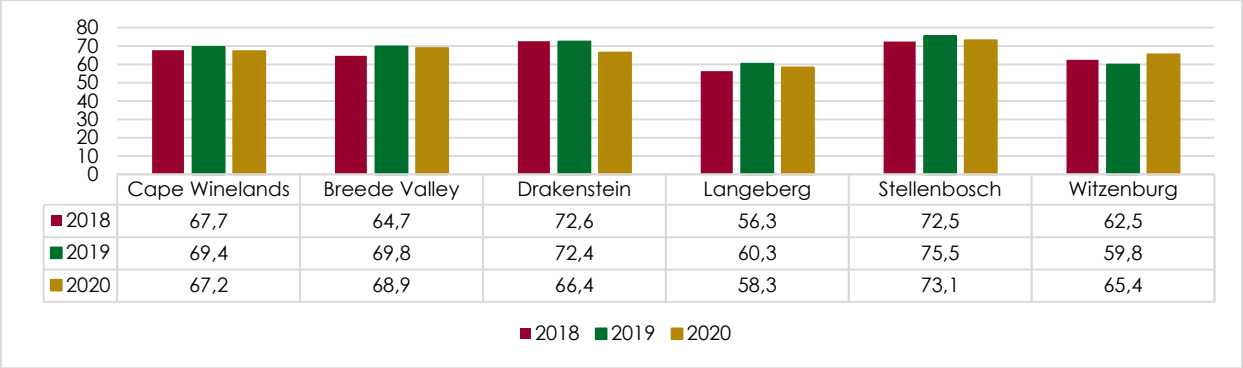
Graph 2: Learner – Teacher Ratio 2018 – 2020

	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenburg
2018	27,9	28,4	28,3	28,5	26	28,3
2019	28,7	28,7	28,2	28,9	26,6	27,9
2020	27,7	28,2	27,7	28,4	26,8	27,9



Source: Western Cape, Social – Economic Profile 2021

The learner-teacher ratio in the Stellenbosch municipal area has gradually been on the rise from 26.0 in 2018 to 26.6 in 2019 and 26.8 in 2020. This is still below the Provincial average of 30.3. It is commonly assumed that children receive less personalised attention in larger class environments

and that high learner-teacher ratios are detrimental to improved educational outcomes. Although the Stellenbosch municipal area has the highest learner retention rate (73.1 per cent) in the Cape Winelands District, school drop-outs remain a grave concern. The learner retention rate is influenced by a wide array of factors, including economic influences such as unemployment, poverty/ very low household income, as well as social concerns such as teenage pregnancies.

Retention rates should be kept in mind when considering education outcomes/ results, as low retention rates are likely to skew outcomes, as drop-outs are automatically excluded from any outcomes/results. Being able to retain learners is essential for overall positive education outcomes.

Graph 3: Learner retention

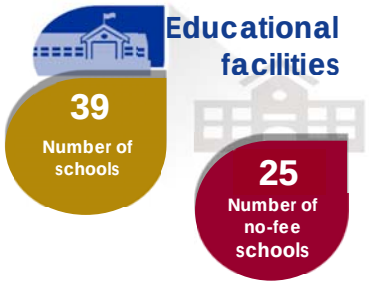
2020	67,2	68,9	66,4	58,3	73,1	65,4



Source: Western Cape, Social – Economic Profile 2021

Number of schools and no – fee schools

Figure 4: Number of schools and no – fee schools

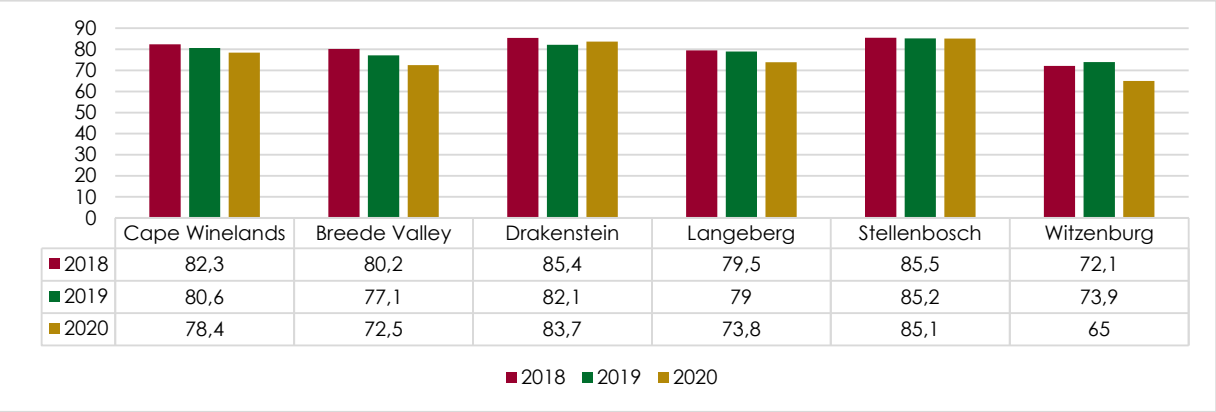
In 2020, the Stellenbosch municipal area had a total of 39 public ordinary schools. The number of schools has remained constant since 2018.

The number of no-fee schools has also remained steady at 39 between 2018 and 2020. This translates into a total of 64.1 per cent of schools being registered with the Western Cape Department of Education as no-fee schools.

Source: Western Cape, Social – Economic Profile 2021

Schools with libraries/media centres

The number of schools with libraries / media centres decreased from 29 in 2018 and 2019 to 22 in 2020. The availability of library facilities within schools contributes towards narrowing the academic attainment gap by allowing students access to information which is in turn directly linked to improved education



Education outcomes (matric pass rate)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagements in the labour market, policy decisions and choices in the sphere of education play a critical role in determining the extent to which future economic and

poverty reduction plans may be realised. Education outcomes across the entire South Africa and Western Cape on general deteriorated as a result of COVID-19. The matric pass rate for Stellenbosch however increased ever so slightly from 85.0 per cent in 2019 to 85.1 per cent in 2020.

Graph 4: Education outcomes (matric pass rate)

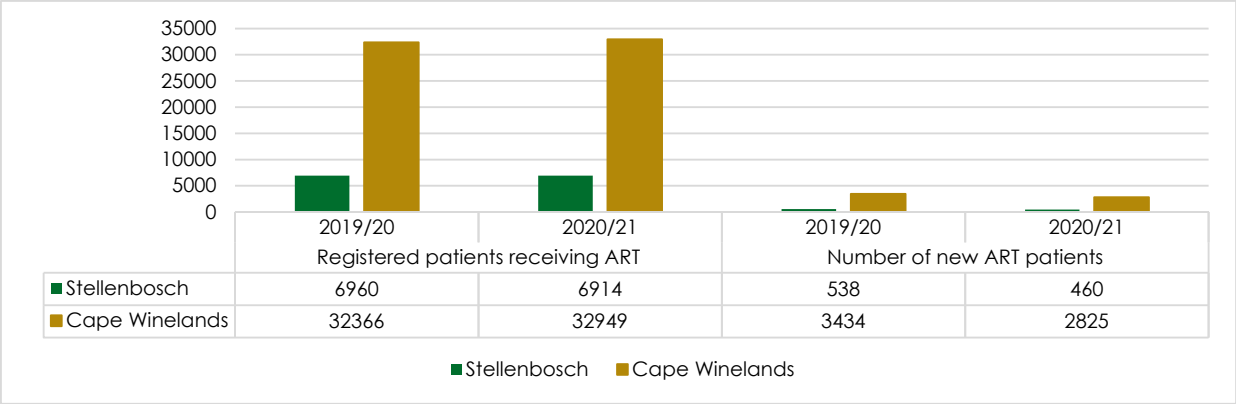
Health

Health Facilities

In 2020, the Stellenbosch municipal area had 8 primary healthcare facilities, which comprised of 7 fixed clinics and 1 community day centre; there were also 6 mobile/satellite clinics. In addition to these primary healthcare facilities, there is also a district hospital, 9 ART treatment sites and 13 TB clinics.

Table 3: Health facilities

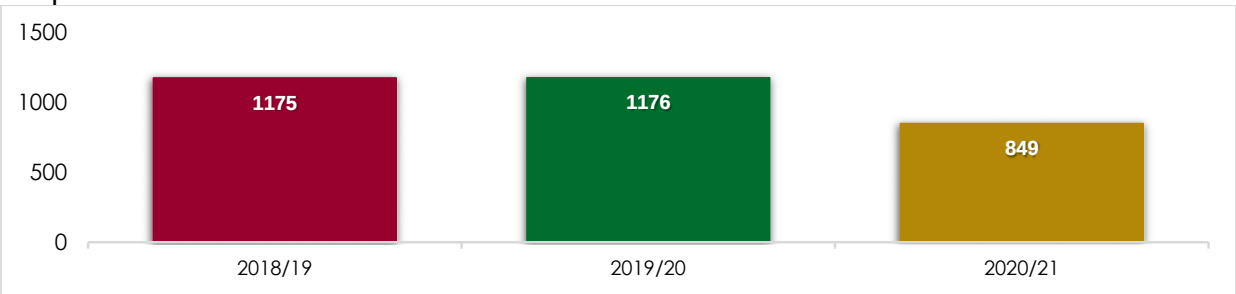
Area	Community Health Centres[1]	Community Day Centres[2]	Regional hospitals	District Hospitals	PHC Clinics (Satellite and Mobile)	PHC Clinics (Fixed)
Stellenbosch	0	1	0	1	6	7
Cape Winelands District	0	5	2	4	33	39



Source: Western Cape, Social – Economic Profile 2021

HIV / AIDS and Tuberculosis

The number of clients (patients) that remain committed to their antiretroviral treatment (ART) plan in the Stellenbosch municipal area decreased by 46 patients between 2019/20 and 2020/21. In total, 6 914 registered patients received antiretroviral treatment in the Stellenbosch municipal area in 2020/21. In turn, the number of new patients receiving ART also declined from 538 in 2019/20 to 460 in 2020/21. There has been an average annual decline of 7.8 per cent between 2016/17 (1 173) and 2020/21 (849) in the number of registered patients receiving TB treatment in the Stellenbosch municipal area.



1 **Community Health Centre:** A facility that normally provides primary health care services, 24 hour maternity, accident and emergency services and beds where health care users can be observed for a maximum of 48 hours and which normally has a procedure room but not an operating theatre.
2 **Community Day Centre:** A health facility that provides a comprehensive health care services during day hours, including mother and child health, chronic diseases care, women's health, HIV and TB care, men's health, acute services, physio therapy, mental health services and oral health care.

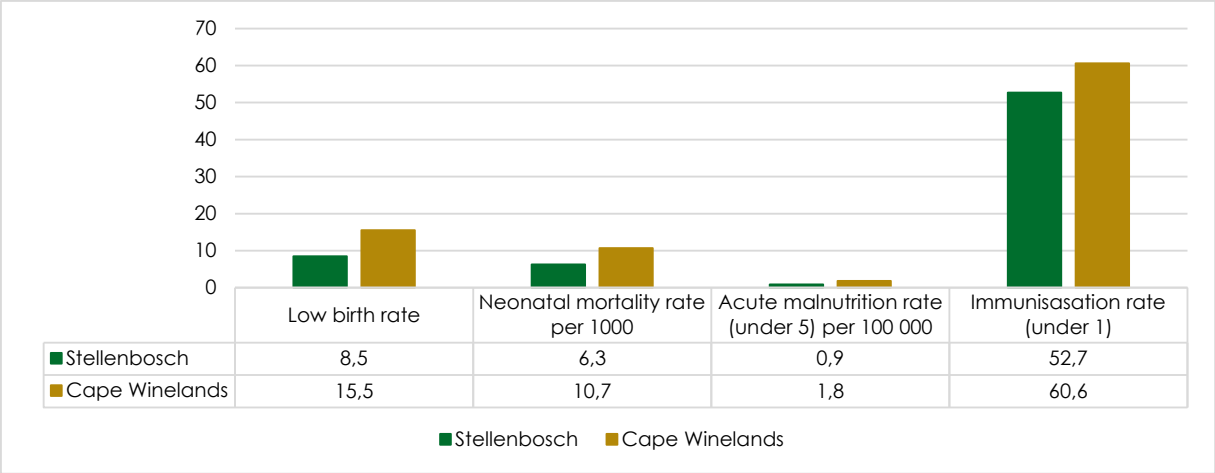
Source: Western Cape, Social – Economic Profile 2021

Graph 6: Tuberculosis

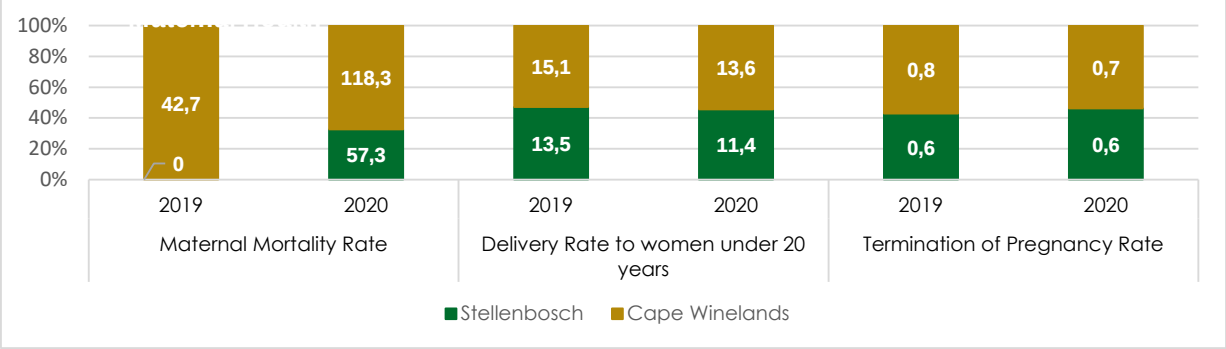


Source: Western Cape, Social – Economic Profile 2021

Child Health

The immunisation coverage rate for children under the age of one in the municipal area declined slightly from 55.1 per cent in 2019/20 to 52.7 per cent in 2020/21. The overall CWD rate also declined from 63.1 to 60.6 per cent across the same period. The number of malnourished children under five years of age (severe acute malnutrition) per 100 000 people in the municipal area declined notably from 2.6 in 2019/20 to 0.9 in 2020/21. The Western Cape average from 1.6 to 0.9. The CWD rate also declined from 3.3 to 1.8 per cent. The neonatal mortality rate (deaths per 1 000 live births before 28 days of life) for the municipal area increased from 5.2 in 2019/20 to 6.3 in 2020/21. The rate was still notably below the CWD average of 10.7. A total of 8.5 per cent of all babies born in facility in the municipal area in 2020/21 weighed less than 2 5000 grams. This is slightly worse than the 8.2 per cent recorded in 2019/20. This total was the lowest amongst all other local municipalities in the district.

Graph 7: Child health



Source: Western Cape, Social – Economic Profile 2021

Maternal Health

In 2020/21, the Stellenbosch municipal area recorded the lowest number of maternal deaths (57.3) and teenage pregnancies (11.4 per cent) in the CWD. Although the number of teenage pregnancies decreased between 2019/20 and 2020/21, there was a significant deterioration in the maternal mortality rate (increase) in the municipal area. The termination of pregnancy rate (0.6 per cent) remained unchanged across this period.

Poverty

GDPR Per Capita

An increase in real regional gross domestic product (GDPR) per capita, i.e. GDPR per person is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDPR per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDPR per capita indicator.

GDPR per capita for the Stellenbosch municipal area was at R89 378 in 2020 (current prices) higher than the CWD (R72 778) and Western Cape (R84 967) averages. Constraint growth, coupled with growing population numbers, has resulted in a downward trend in GDPR per capita across most local municipal areas.

Graph 9: GDP Per Capita

	Western Cape	Cape Winelands	Witzenberg	Drakenstein	Stellenbosch	Breede Valley	Langeberg
2014	74 414	62 170	56 749	66 611	76 984	54 194	48 733
2017	85 816	73 038	68 436	77 611	90 125	63 584	57 912

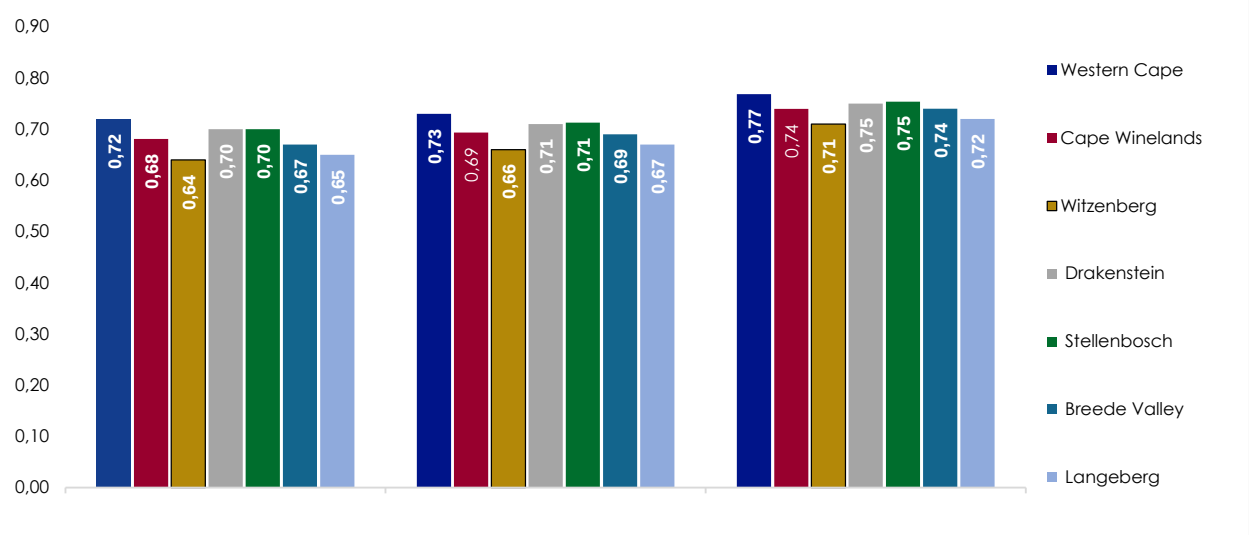
Source: Western Cape, Social – Economic Profile 2021

Income Inequality

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. However, between 2014 and 2020, income inequality in the Stellenbosch municipal area has worsened, with the Gini-coefficient increasing from 0.614 in 2014 to 0.631 in 2020. Worsening income inequality was also observed across the CWD (0.590 in 2014 and 0.615 in 2020) as well as the Western Cape Province (0.603 in 2014 and 0.625 in 2020).

Graph 10: Income Inequality



Source: Western Cape, Social – Economic Profile 2021

Human Development

The Human Development Index (HDI) is a composite indicator reflecting on education levels, health, and income. It is a measure of peoples' ability to live a long and healthy life, to communicate, participate in the community and to have sufficient means to be able to afford a decent living. The HDI is represented by a number between 0 and 1, where 1 indicates a high level of human development and 0 represents no human development. The United Nations uses the HDI to assess the relative level of socio-economic development within countries.

An overall improvement in human development is observed across the entire Western Cape with HDI levels increasing in all districts between 2014, 2017 and 2020. It is interesting to note that despite general economic hardship impacting on households, the HDI score for the Stellenbosch municipal area increase significantly more in recent times i.e., HDI in Stellenbosch was 0.704 in 2014 and increased to 0.709 in 2017; the increase was however more pronounced in 2020 at 0.751. The HDI score for the municipal area was in 2020 higher that the CWD average of 0.740

Graph 11: Human development

Source: Western Cape, Social – Economic Profile 2021

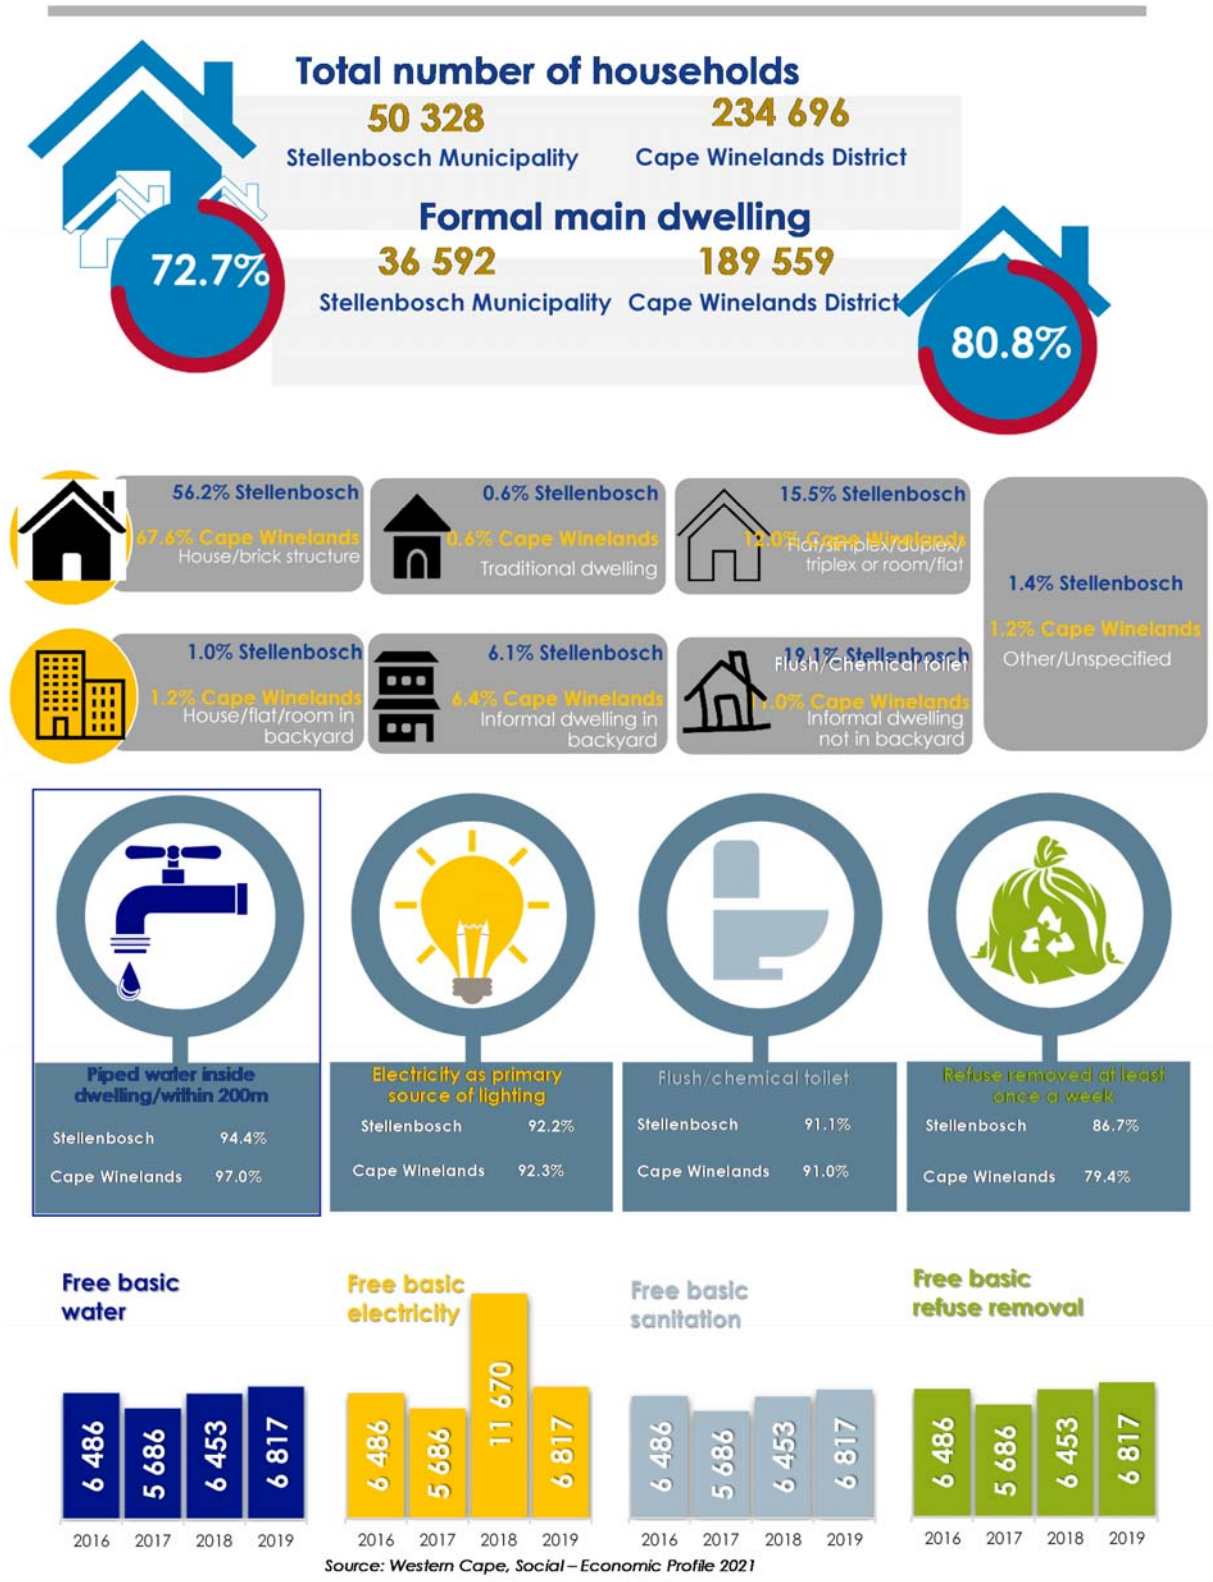
Basic Service Delivery

The Constitution stipulates that every citizen has the right to access to adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living.

This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2020. The latest official statistics was collected by Statistics South Africa for the 2016 Community Survey; the 2022 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities survey findings.

Housing and household services

With a total of 50 328 households in the Stellenbosch municipal area, 72.7 per cent had access to formal housing, the lowest access level when compared with other municipalities in the CWD area; the CWD average was 80.8 per cent. The municipal area also had the highest percentage of people living in informal settlements at 25.2 per cent. In comparison, 17.4 per cent of people across the CWD resided in informal settlements. Access levels to basic services in the municipal area were as follows in 2019:



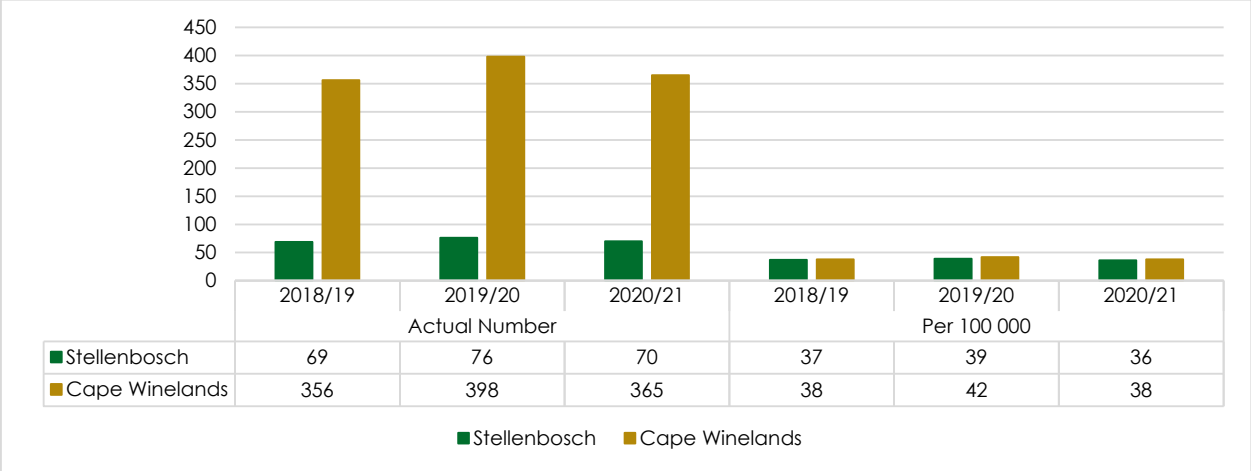
- Piped water inside / within 200 m of the dwelling: 94.4 per cent;
- Flush or chemical toilet: 91.1 per cent;
- Electricity (for lighting): 92.2 per cent; and
- Refuse at least weekly by local authority: 86.7 per cent.

While access to electricity and sanitation services were on par with the CWD average, access to piped water was notably below the district average. Access to refuse removal services were however above the district average.

Free Basic Services

According to the Department of Local Government, the number of registered indigent households in the Stellenbosch municipal area decreased from 6 813 in 2019 to 7 011 in 2020 (2.9 per cent increase). Municipalities provide a package of free basic services to households who are financially vulnerable and struggle to pay for services. The number of households receiving free basic services in the Stellenbosch municipal area has shown an overall increasing trend between 2017 and 2019. The stressed economic conditions continue to exert pressure on household income levels, which in turn is likely to see the number of indigent households and the demand for free basic services increase.

Figure 1: Basic Services



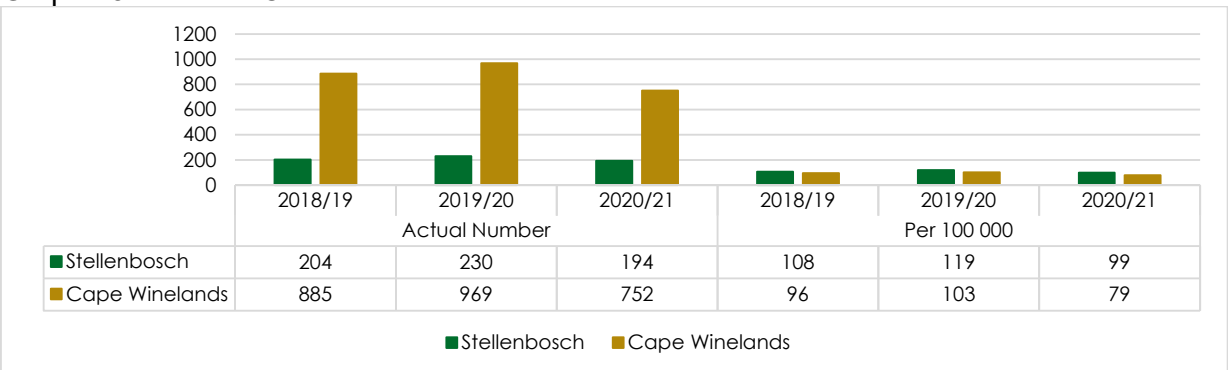
Source: Western Cape, Social – Economic Profile 2021

Safety and Security

Murder

The number of actual murders in the Stellenbosch municipal area decreased from 76 in 2019/20 to 70 in 2020/21. This amounted to a decrease in the murder rate from 39 occurrences per 100 000 people to 36 (-9.2 per cent) which was still slightly below the District average of 38. In comparison, the Provincial average was 53 in 2020/21.

Graph 12: Murder Statistics

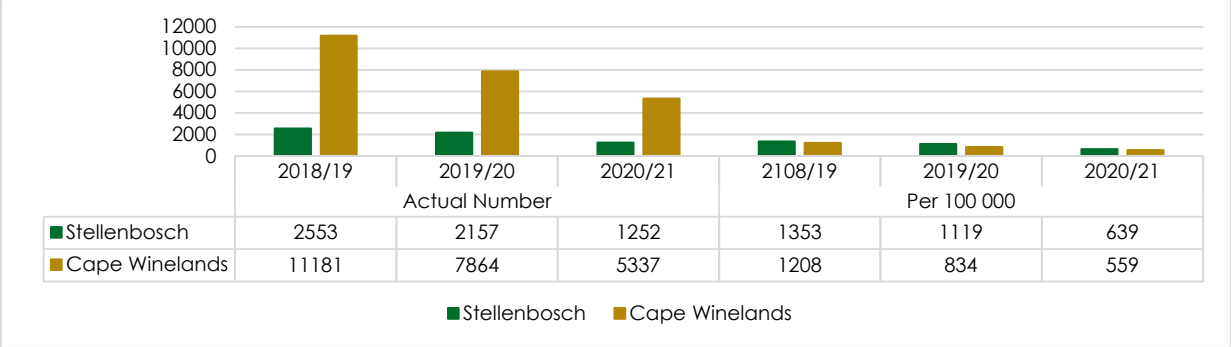


Source: Western Cape, Social – Economic Profile 2021

Sexual Offences

Sexual offences in the municipal area decreased by 17.1 per cent from 119 occurrences per 100 000 people in 2019/20 to 99 in 2020/21, but was still the highest amongst the various municipal areas of the District. Across the same period, the CWD sexual offences rate decreased from 103 occurrences per 100 000 people to 79 (23.4 per cent decline).

Graph 13: Sexual Offences

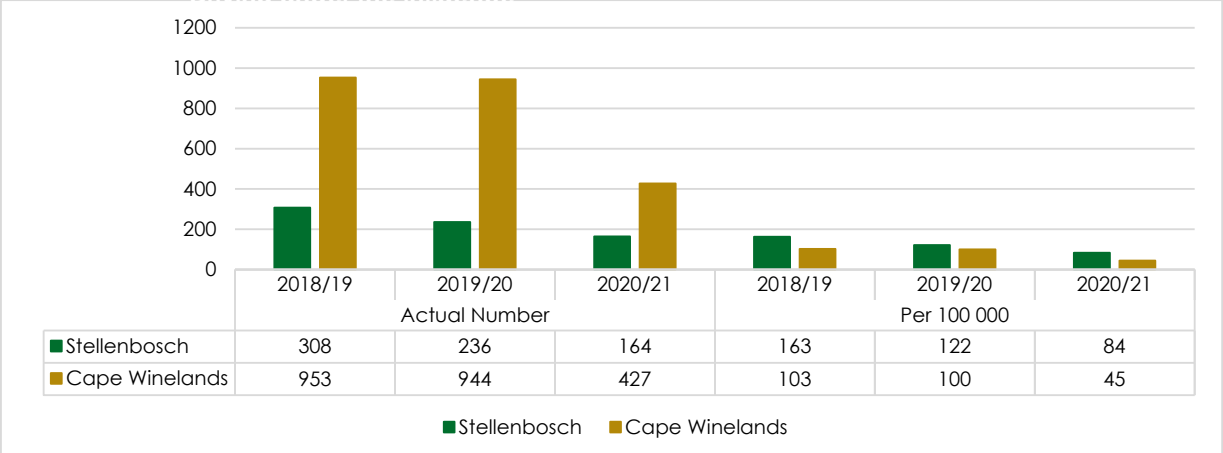


Source: Western Cape, Social – Economic Profile 2021

Drug – related Offences

Occurrences of drug related crimes declined significantly across the entire Western Cape - the drug-related crime rate in the Province decrease by 29.8 per cent from 890 occurrences per 100 000 people in 2019/20 to 625 in 2020/21. Mirroring this trend, the rate in the CWD decreased substantially from 834 to 559 (33.1per cent) while it decreased from 1 119 in 2019/20 to 639 in 2020/21. The municipal area had the second highest drug-related crime rate in the CWD.

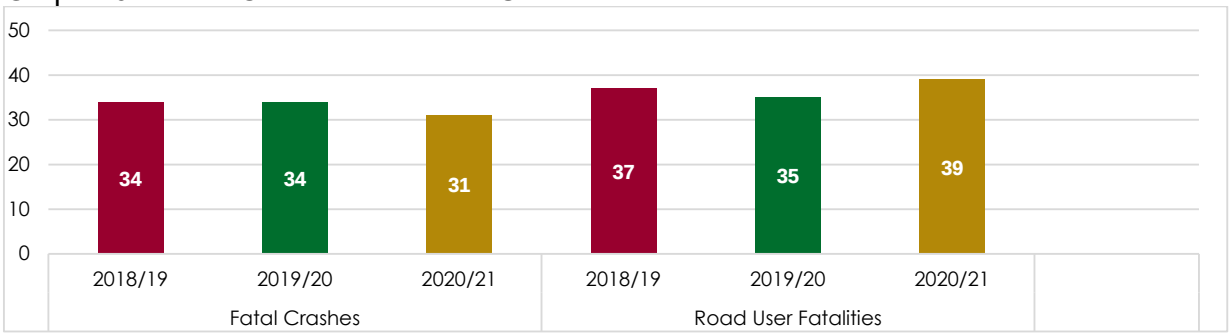
Graph 14: Drug – related Offences



Source: Western Cape, Social – Economic Profile 2021

Driving under the influence (DUI)

Restrictions on the sale of alcohol and limited personal movement outside of a person's dwelling were always going to impact on the number of reported cases of driving under the influence (DUI) and residential burglaries. The total number of DUI cases reported in the Stellenbosch municipal area decreased from 236 in 2019/20 to 164 in 2020/21.

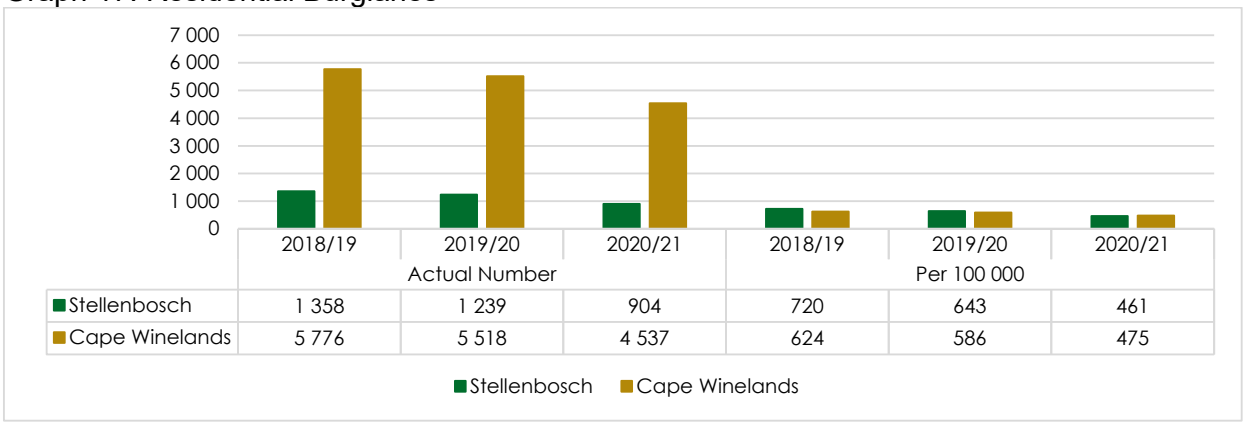


Expressed per 100 000 people, the DUI rate was 84 occurrences in 2020/21 (31.7 per cent decrease). The DUI rate in the CWD in turn declined by 55.4 per cent from 100 to 45 occurrences across the same period. The number of road user fatalities in the Stellenbosch area decreased from 34 in 2019/20 to 31 in 2020/21. The number of fatal crashes decreased from 35 to 39 for the same reference period.

Graph 15: Driving under the influence

Source: Western Cape, Social – Economic Profile 2021

Graph 16: Fatal Crashes and Road User Fatalities



Source: Western Cape, Social – Economic Profile 2021

Residential Burglaries

Residential burglaries in the municipal area decreased sharply from 1 239 reported cases in 2019/20 to 904 in 2020/21. The burglary rate per 100 000 people subsequently decreased by 31.3 per cent from 643 occurrences in 2019/20 to 461 in 2020/21. Across the same period, the burglary rate in the CWD decreased by 18.9 per cent from 586 to 475 occurrences.

Graph 17: Residential Burglaries

	Actual Number			Per 100 000

Economy and Labour Market Performance

Sectoral Overview

In 2019, the economy of the Stellenbosch municipal area was valued at R16.759 billion (current prices) and employed 78 449 people. Historical trends between 2015 and 2019 indicate that the municipal area realised an average annual growth rate of 0.9 per cent which can mostly be attributed to the tertiary sector which registered a positive annual growth rate of 1.9 per cent. The economy is expected to contract by 6.7 per cent in 2020 with 4 659 jobs being shed.

In terms of sectoral contribution, the finance, insurance, real estate and business services (R3.634 billion), wholesale and retail trade, catering and accommodation (R3.530 billion) and the manufacturing (R2.779 billion) sectors were the main drivers that contributed to the positive growth. The former two sectors on average grew by 2.4 and 2.1 per cent respectively between 2015 and 2019, while the manufacturing sector declined by 0.9 per cent. The fastest growing sector across this period was however the transport, storage and communication sector (3.1 per cent). Except for agriculture, all sectors in the municipal area are expected to have contracted in 2020. The

agriculture, forestry and fishing sector, which provides inputs for the manufacturing sector and purchases goods and services from a large portion of the tertiary sector industries, declined by 4.2 per cent between 2015 and 2019. The largest decline is anticipated to be observed in the construction sector which is expected to decline by 19.8 per cent.

The wholesale and retail trade, catering and accommodation (20 675); finance, insurance, real estate and business (13 509) and agriculture (10 610) sectors were in 2019 the largest sources of job creation. Although these sectors experienced positive average job creation between 2015 and 2019, all three are set to shed a significant number of jobs in 2020. The highest number of job losses are expected to be experienced in the wholesale and retail trade, catering and accommodation (-1 298) sector. General government is the only sector to experience job creation in 2020.

Formal and Informal Employment

It is estimated that total employment in the municipal area will in 2020 amount to 73 790 workers, of which 54 341 (73.6 per cent) are in the formal sector while 19 476 (26.4 per cent) are informally employed. Most of the formally employed consisted of semi-skilled (43.5 per cent) and low-skilled (32.1 per cent) workers. Average annual growth in the skilled (0.4 per cent) and semi-skilled (0.5 per cent) categories were relatively equal while low-skilled employment contracted at an average annual rate of 1.4 per cent. The growth in the skilled cohort reflects the market demand for more skilled labour and the ability to sustain and slightly expand the demand for skilled employment even during times of economic hardship. The growth in the skilled and semi-skilled cohorts evidently reflect the need to capacitate and empower low-skilled workers in order to be absorbed in the labour market. Overall, formal and informal employment contracted by 0.4 and 2.1 per cent respectively between 2016 and 2020.

Table 6: Skills Levels Formal Employment

Skill Levels Formal employment	Skill Level Contribution 2020 (%)	Average growth (%) 2016 - 2020	Number of jobs	
			2019	2020
Skilled	24.4	0.4	13 818	13 254
Semi-skilled	43.5	0.5	24 883	23 607
Low-skilled	32.1	-1.4	18 639	17 453
TOTAL	**100.0**	**-0.2**	**57 340**	**54 314**

Source: Western Cape, Social – Economic Profile 2021

Unemployment

Despite above mentioned decline in total employment, the unemployment rate for the municipal area slightly improved from 11.6 per cent in 2019 to 11.3 in 2020. The unemployment rate was however still the second highest in the CWD (10.8 per cent). This is particularly concerning given that the estimate is based on the narrow definition of unemployment i.e. the percentage of people that are able to work, but unable to find employment. In turn, the broad definition generally refers to people that are able to work, but not actively seeking employment (excludes those who have given up looking for work.

Table 8: Unemployment

Unemployment rates	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020

B: LEGISLATIVE ENVIRONMENT

Legal Requirements

The medium term revenue and expenditure framework for 2022/2023, 2023/2024 and 2024/2025 was compiled in accordance with the requirements the relevant legislation, of which the following are the most important:

i) the Constitution, Act 108 of 1996
ii) the Local Government Transition Act, Act 209 of 1993
iii) the Municipal Structures Act, Act 117 of 1998
iv) the Municipal Systems Act, Act 32 of 2000
iv) the Municipal Finance Management Act, Act 56 of 2003

In addition to the above, the Municipal Budget and Reporting Framework as approved on 17 April 2009 gave a clear directive on the prescribed reporting framework and structure to be used.

Guidelines issued by National Treasury

National Treasury issued the following circulars regarding the budget for 2015/2016:

MFMA Circular No. 74 Municipal Budget Circular for the 2015/16 MTREF- 12 December 2014

MFMA Circular No. 75 Municipal Budget Circular for the 2015/16 MTREF- 04 March 2015

Other circulars used during the compilation of the budget:

MFMA: Circulars: All Municipal Budget Circulars from 2 March 2009 until 9 December 2016

- MFMA Circular No. 86 Municipal Budget Circular for 2017/2018 MTREF – 8 March 2017
- MFMA Circular No. 89 Municipal Budget Circular for 2018/2019 MTREF – 8 December 2017
- MFMA Circular No. 91 Municipal Budget Circular for 2018/2019 MTREF – 7 March 2018
- Local Government: Municipal Finance Management Act, 2003-Municipal Cost Containment Regulation (Draft)- 16 February 2018/ Cost Containment regulations issued June 2019
- MFMA Circular No. 93 Municipal Budget Circular for 2019/2020 MTREF – 7 December 2018
- MFMA Circular No. 94 Municipal Budget Circular for 2019/2020 MTREF – 7 March 2019
- Local Government: Municipal Finance Management Act, 2003-Municipal Cost Containment Regulations issued June 2019
- MFMA Circular No. 98 Municipal Budget Circular for 2020/2021 MTREF – 6 December 2019
- MFMA Circular No. 99 Municipal Budget Circular for 2020/2021 MTREF – 9 March 2020
- MFMA Circular No.107 Municipal Budget Circular for 2021/2022 MTREF – 4 December 2020
- MFMA Circular No.108 Municipal Budget Circular for 2021/2022 MTREF – 8 March 2021
- MFMA Circular No.112 Municipal Budget Circular for 2022/2023 MTREF- 6 December 2021
- MFMA Circular No.115 Municipal Budget Circular for 2022/2023 MTREF- 4 March 2022

The following are discussion points that are highlighted in the above:

- National outcomes/priorities
- Economy and Headline inflation forecasts
- Division of Revenue outlook
- Local Government Conditional Grants & additional allocations and Changes to structure of conditional grant allocations
- Unfunded budgets in Local Government
- Municipal Standard Chart of Accounts (mSCOA)
- IDP Consultation process post 2021 Local Government Elections
- Development of Integrated Development Plan (IDP)
- Revising rates, tariffs and other charges
- Eskom Bulk Tariff Increases
- Funding choices and budgeting issues
- Transfers to Municipalities
- Conditional transfers to municipalities
- Unconditional transfers to municipalities
- Borrowing for capital infrastructure
- Revenue Budget
- Cost Containment Measures
- Municipal Budget and Reporting Regulations
- Preparation of Municipal Budgets for 2022/2023 MTREF
- Budget process and submissions for the 2022/23 MTREF and
- Submission of Budget Documentation

The guidelines provided in the above mentioned circulars, annexures and other economic factors were taken into consideration and informed budget preparation and compilation.

C: OVERVIEW OF ANNUAL BUDGET PROCESS

In terms of Section 24 of the MFMA, Council must, at least 30 days before the start of the financial year, consider the annual budget for approval. Section 53 requires the Mayor of a municipality to provide general political guidance over the budget process and the priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations, gazetted on 17 April 2009, states that the Mayor of a municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging with the responsibilities set out in section 53 of the Act.

A time schedule outlining important dates and deadlines as prescribed for the IDP/Budget process was approved on **24 August 2021**. The budget process for the 2022/2023 MTREF period proceeded/will proceed according to the following timeline

Activity	**Time frame**
Formulation of budget assumptions	September 2021
Detailed programmes and projects to further define budget	November 2021 – March 2022
IDP and Budget considered by Council	30 March 2022
IDP and Budget - public participation	April 2022
Final approval of IDP and the Budget	25 May 2022

D: OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH THE INTEGRATED DEVELOPMENT PLAN (IDP)

The intent of the Strategic goals for the Fourth Generation IDP will remain the same as the goals of the Third Generation IDP, although a slight change for 3 of the goals namely: “Preferred Investment Destination” has been amended to “Valley of Possibility” to have a clearer indication that it needs to include possibilities for all and not just investors; “Greenest Municipality” has been amended to “A Green and Sustainable Valley” to incorporate all facets of sustainability; ” Safest Valley” has been amended to “A Safe Valley”, whilst “Dignified Living” and “Good Governance and Compliance”, remain unchanged.

Horizontal Alignment Matrix

Table 9: Horizontal Alignment Matrix

Strategic Focus Areas	National Strategic Outcomes	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
Valley of Possibility	Ensuring decent employment through inclusive economic growth (4) Ensuring decent employment through inclusive economic growth (4)	Creating jobs (1)	Create opportunities for growth and jobs (1)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
Green and Sustainable Valley	Ensuring that the environmental assets and natural resources are well protected and continually enhanced (10)	Transitioning to a low carbon economy (3) Transforming urban and rural spaces (4)	Enable resilient, sustainable, quality and inclusive living environment (4)	To create an environment and forge partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment.

Strategic Focus Areas	National Strategic Outcomes	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
	Ensuring vibrant, equitable and sustainable rural communities with food security for all (7) Promoting sustainable human settlements and improved quality of household life (8)	Transitioning to a low carbon economy (3) Transforming urban and rural spaces (4)	Increase wellness, safety and tackle social ills (3) Enable resilient, sustainable, quality and inclusive living environment (4)	Environmental and social infrastructure investment.
Safe Valley	Ensuring all people in South Africa are and feel safe (3)		Increase wellness, safety and tackle social ills (3).	To create an environment and forging partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District.
Dignified Living	Providing improved quality of basic education (1) Enabling a long, healthy life for all South Africans (2)	Providing quality health care (6)	Improve education outcomes and opportunities for growth and jobs (2) Increase wellness, safety and tackle social ills (3)	To create an environment and forging partnerships that ensures the health, safety, social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.

Strategic Focus Areas	National Strategic Outcomes	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
	Setting up an efficient, competitive and responsive economic infrastructure network (6)	Expanding infrastructure (2)	Create opportunities for growth and jobs (1) Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
Good Governance and Compliance	Achieving an accountable, effective and efficient local government system (9) Creating a better South Africa and a better and safer Africa and world (11) Building an efficient, effective and development oriented public service and an empowered fair and inclusive citizenship (12)	Improving education and training (5) Building a capable state (7) Fighting corruption (8)	Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
	Achieving a responsive, accountable, effective and efficient local government system (9)	Building a capable state (7)	Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	To provide an effective and efficient financial and strategic support service to the Cape Winelands District Municipality.

Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities.

Performance management at Stellenbosch municipality is evaluated to embody the following;

Consistency: Objectives, performance indicators and targets are consistent between planning and reporting documents.

Measurability: Performance indicators are well defined and verifiable, and targets are specific, measurable and time bound.

Relevance: Performance indicators relate logically and directly to an aspect of the municipality's mandate and the realisation of its strategic goals and objectives.

Reliability: Recording, measuring, collating, preparing and presenting information on actual performance / target achievements is valid, accurate and complete.

Stellenbosch municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employees' performance. The performance of the municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations.

The Five-Year Top-Level Service Delivery and Budget Implementation is part of the Integrated Development Plan and the financial performance objectives are captured in supporting table SA7.

E: OVERVIEW OF MUNICIPAL BY-LAWS BUDGET RELATED POLICIES

The following policies are new:

Development Charges Policy

The Municipality derives its authority to impose a development charge in terms of Section 75A. General power to levy and recover fees, charges and tariffs of the Local Government: Municipal Systems Act, 2000, Act 32 of 2000. The Municipality approved its new Land Use Planning Bylaw in terms of the Spatial Planning and Land Use Planning Act, 2013 (Act 16 of 2013) in October 2015 and it was officially promulgated and became effective in December 2015. Since then, the Municipality faces significant changes in the planning environment, amongst others the need for and manner of generating development charges. Refer to Appendix 4.

The following existing policies and by-laws were reviewed and amended

Rates Policy

The revised Rates Policy as required by the Municipal Property Rates Act (Act no 6 of 2004) is attached as Appendix 5.

Rates By-Law

In terms of Section 3 of the Property Rates Act, a municipal council must adopt a policy consistent with the property rates act on levying of rates on rateable properties in the municipality. Refer to Appendix 6.

Indigent Policy

Due to the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for basic municipal services. The provision of free basic services ensures that registered indigent consumers have access to basic services. This policy provides the framework for the administration of free basic services to indigent consumers. Refer to Appendix 7.

Tariff Policy

This policy serves as the implementing tool which guides the levying of tariffs for municipal services in accordance with the provisions of the Municipal Systems Act and any other applicable legislation. Tariffs represent the charges levied by Council on consumers for the utilization of services provided by the Municipality and rates on properties. Tariffs will be calculated in various ways, dependent upon the nature of the service being provided. Refer to Appendix 8.

Tariff By-Law

In terms of section 75(1) of the Systems Act, a municipal council must adopt by-laws to give effect to the implementation and enforcement of its tariff policy. In terms of section 75(2) of the Systems Act, by-laws adopted in terms of section 75(1) of the Systems Act may differentiate between different categories of users, debtors, service providers, services, service standards and geographical areas as long as such differentiation does not amount to unfair discrimination. Refer to Appendix 9.

Credit Control and Debt Collection Policy

This policy provides a framework to enable Council to proactively manage and collect all money due for services rendered and outstanding property taxes, subject to the provisions of the Municipal Systems Act of 2000 and any other applicable legislation and internal policies of Council. Refer to Appendix 10.

Credit Control and Debt Collection By-Law

This by-law give effect to the implementation and enforcement of Municipality's Credit Control and Debt Collection Policy and/or to regulate its implementation and enforcement in the Stellenbosch Municipal Area (WC024) in terms of section 156(2) of the Constitution of the Republic of South Africa (Act 108 of 1996) and sections 96 and 98 of the Municipal Systems Act (Act 32 of 2000);to provide for the collection of all monies due and payable to the Municipality; andto provide for matters incidental thereto. All debt owing to the Municipality must be collected in accordance with this By-law and the Credit Control and Debt Collection Policy. Refer to Appendix 11.

Special Ratings Area Policy

The aim of the policy is to provide the framework to strike an appropriate balance between facilitating self-funded community initiatives that aim to improve and/or upgrade neighbourhoods. Refer to Appendix 12.

Irrecoverable Debt Policy

This policy enables Council and the CFO to write off irrecoverable debt of indigent consumers, debt which cannot be recovered due to consumers not being registered as indigent or not traceable or due to prescription of debt. Refer to Appendix 13.

Travel and Subsistence Policy

This policy sets out the basis for the payment of subsistence, travel allowance, hourly rate when applicable for the purpose of official travelling. Refer to Appendix 14.

Cash Management and Investment Policy

To regulate and provide directives in respect of the investment of funds and to maximize returns from authorized investments, consistent with the primary objective of minimizing risk. Refer to Appendix 15.

Supply Chain Management Policy

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Preferential Procurement Policy Framework Act, no 5 of 2000 and its accompanying regulations influences and dictates process around the evaluation and awarding of points. In this regard, the Minister of Finance acting in terms of section 5 of the Procurement Policy Framework Act, revised the Regulations accompanying this Act on the 20th January 2017 for implementation by all affected public entities by the 1 April 2017. The Supply Chain Management Policy was therefore amended and adopted at Council during February 2017. Refer to Appendix 16.

Wayleave Policy

In terms of S151 of the Constitution of the Republic of South Africa, 108 of 1996, a municipality has the right to govern on its own initiative, the local government affairs of its community, subject to national and provincial legislation. S156 of the Constitution grants the municipalities the right to administer the local government matters listed in Schedule 5B, which include municipal roads. A municipality may make by-laws for the effective administration of municipal roads. This Policy will be converted into municipal by-laws to give it legal effect. Refer to Appendix 17.

Budget Implementation and Monitoring Policy

The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. The framework for virementations is also explained and regulated in this policy as well as monitoring roles and responsibilities. Refer to Appendix 18.

Accounting Policy

This policy provides the accounting framework applicable to the finances of the municipality and is informed by the Municipal Finance Management Act (Act no 56 of 2003). Refer to Appendix 19.

Asset Management Policy

The Municipal Finance Management Act Number 56 of 2003 will be the legislative framework for the Asset Management Policy whilst Generally Recognised Accounting Practice (GRAP) will be the accounting framework.

The Municipal Council of Stellenbosch is in terms of the MFMA and GRAP obliged to adopt an Asset Management Policy to regulate the effective management of all council's assets.

- **And whereas** the municipal manager as accounting officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.
- **And whereas** these assets must be protected over their useful life and may be used in the production or supply of goods and services or for administrative purposes in meeting the municipality's operational requirements.
- **Now therefore** the municipal council of the Stellenbosch Municipality adopts this asset management policy. Refer to Appendix 20.

Ward Allocation Policy

The objective of the Ward Allocations Policy is to create opportunities for Councillors to identify ward projects in line with the identified IDP needs, with the support of their Ward Committees, which would improve the quality of living in all wards. These projects would need to fit into the basket of services of the relevant User Department and must comply with the following, namely, Local Government's mandate; council policies; support the pillars and objectives of the IDP and directly benefit the community. The Policy shall be governed by the underlying principle of ensuring that ward allocation projects meet the requirements of the Integrated Development Plan, including specific reference to, valley of opportunity, green and sustainable valley, safe valley, valley with dignified living and valley of good governance and compliance. Refer to Appendix 21.

The following existing budget related policies and by-laws were reviewed but no amendments were necessary:

Grant-in-aid Policy

This policy provides the framework for grants-in-aid to non-governmental organisations (NGO's), community-based organisations (CBO's) or non-profit organisations (NPO's) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003). Refer Appendix 22.

Special Ratings Area By-Law

A "special rating area" refers to a special rating area approved by the Council in accordance with the provisions of section 22 of the Property Rates Act. This By-law aims to provide for the establishment of special ratings areas, to provide for additional rates and to provide for matter incidental thereto. Refer to Appendix 23.

Petty Cash Policy

All purchases below R 2 000 are regulated by this policy. Clear processes and procedures are stipulated to ensure that all transactions are processed effective and efficiently in a bid to ensure prudent financial control. Refer to Appendix 24.

Cost Containment Policy

The purpose of the policy is to regulate spending and to implement cost containment measures at Stellenbosch Local Municipality. The objectives of this policy are to ensure that the resources of the municipality are used effectively, efficiently and economically and to implement cost containment measures. The cost containment policy will apply to council and all municipal employees. Refer to Appendix 25.

Virementation Policy

The policy sets out the Virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year. The policy shall give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the Approved budget and it will be applicable to all municipal staff and councillors involved in budget implementation. Refer to Appendix 26.

Borrowing, Funds and Reserves

This policy strives to establish a borrowing framework policy for the Municipality and set out the objectives, policies, statutory requirements and guidelines for the borrowing of funds. The policy provides a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year non cash backed liabilities. The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework. Refer to Appendix 27.

Financing of External Bodies performing municipal functions Policy

The purpose of this Policy is to provide a framework for financial assistance by Stellenbosch Municipality ("the Municipality") to external organisations/bodies conducting local government functions to the extent as set out in section 155(6)(a) and (7) of the Constitution as listed in Part B of Schedule 4 and 5. Refer to Appendix 28.

Liquidity Policy

The documented Liquidity Policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to in order to ensure that its current and future liquidity position is managed in a prudent manner. This policy will be implemented to provide guidance on the minimum liquidity level that Stellenbosch Municipality has to maintain in order to comply with required legislative and / or National Treasury directives and within the overall financial management objectives as approved/reviewed by the Council from time to time. Refer to Appendix 29.

Inventory Management Policy

In terms of the MFMA, the Accounting Officer for a municipality must:

(a) be responsible for the effective, efficient, economical and transparent use of the resources of the municipality as per section 62 (1)(a);

(b) take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure and other losses as per section 62(1)(d); and

(c) be responsible for the management, including the safeguarding and the maintenance of the assets, and for the management of the liabilities, of the municipality as per section 63 (1)(a) and (b).

The policy aims to achieve the following objectives which are to provide guidelines that employees of the Municipality must follow in the management and control of inventory, including safeguarding

and disposal of inventory, procure inventory in line with the established procurement principles contained in the Municipality's Supply Chain Management Policy and eliminate any potential misuse of inventory and possible theft. Refer to Appendix 30.

Preferential Procurement Policy

Section 217(1) of the Constitution, 1996 (Act 108 of 1996) provides that when contracting for goods and services, organs of state must do so in accordance with a system that is fair, equitable, transparent, competitive and cost effective. Section 217(2) and (3) of the Constitution allows organs of state to grant preferences when procuring for goods and services within a Framework prescribed by National legislation. The preferential procurement policy is founded on the following principles, namely, value for money, open and effective competition, ethics and fair dealing, accountability and reporting and equity. This policy will be applicable to all active industry sectors within the Stellenbosch Municipal area and must be read with the supply chain management policy of the municipality. Refer to Appendix 31.

F: OVERVIEW OF KEY BUDGET ASSUMPTIONS

Municipalities' long-term financial viability depends largely on the extent to which improved and sustainable revenue capacity on the one hand and sound financial management of its resources on the other hand can be achieved. These imperatives necessitate proper multi-year financial planning. Future impacts of revenue streams, expenditure requirements and the financial implications for the community at large (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programs, projects and sundry service delivery actions.

Taking these principals into consideration, the following assumptions **(ceteris paribus)** were made and relates to the parameters within which the budget was compiled for the next three years

	2022/2023	2024/2025	2024/2025
Percentage Increase:			
Water	6.20%	6.00%	6.00%
Electricity	7.90%	6.00%	6.00%
Sanitation	6.50%	6.00%	6.00%
Refuse	8.00%	8.00%	8.00%
Property Rates	6.20%	6.00%	6.00%
Collection Rates			
Water	96%	96%	96%
Electricity (Post Paid Meters)	96%	96%	96%
Sanitation	96%	96%	96%
Refuse	96%	96%	96%
Rates	96%	96%	96%
Employee Related Costs			
Salaries and Wages and related costs	4.90%	4.50%	4.50%
Notch Increment	2.40%	2.40%	2.40%
Other Assumptions			
Bulk Purchases - Electricity	8.61%	7.00%	7.00%

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions and higher than headline CPI revenue increases to ensure a sustainable budget over the medium term.

The budget theme of “Creating sustainable infrastructure to enable economic growth and job opportunities post Covid-19 pandemic”, resulted from the realization that no, or limited, scope for additional externally- or internally-funded revenue growth existed and the challenge that more needed to be done with the existing resource envelope. This was reiterated in **National Treasury Budget Circular 108** where it states that “…municipalities must adopt a conservative approach when projecting their expected revenues and cash receipts. **Municipalities should also pay particular attention to managing all revenue and cash streams effectively and carefully evaluate all spending decisions**.”

In previous financial year the municipality implemented means to manage the telephone usage which resulted in a reduction in the telephone cost

During the new financial year, the municipality plans to implement measures that will decrease spending on Legal Cost by focusing more on in-house capacity building rather than making use of contracted/ outsourced consulting and legal services.

The municipality will embark on the recruitment drive to fill critical vacancies. This will in return result in a decrease in Professional and Consultant Fees.

These are some of the initiatives the municipality plans to implement under the budget theme “Creating sustainable infrastructure to enable economic growth and job opportunities post Covid-19 pandemic”.

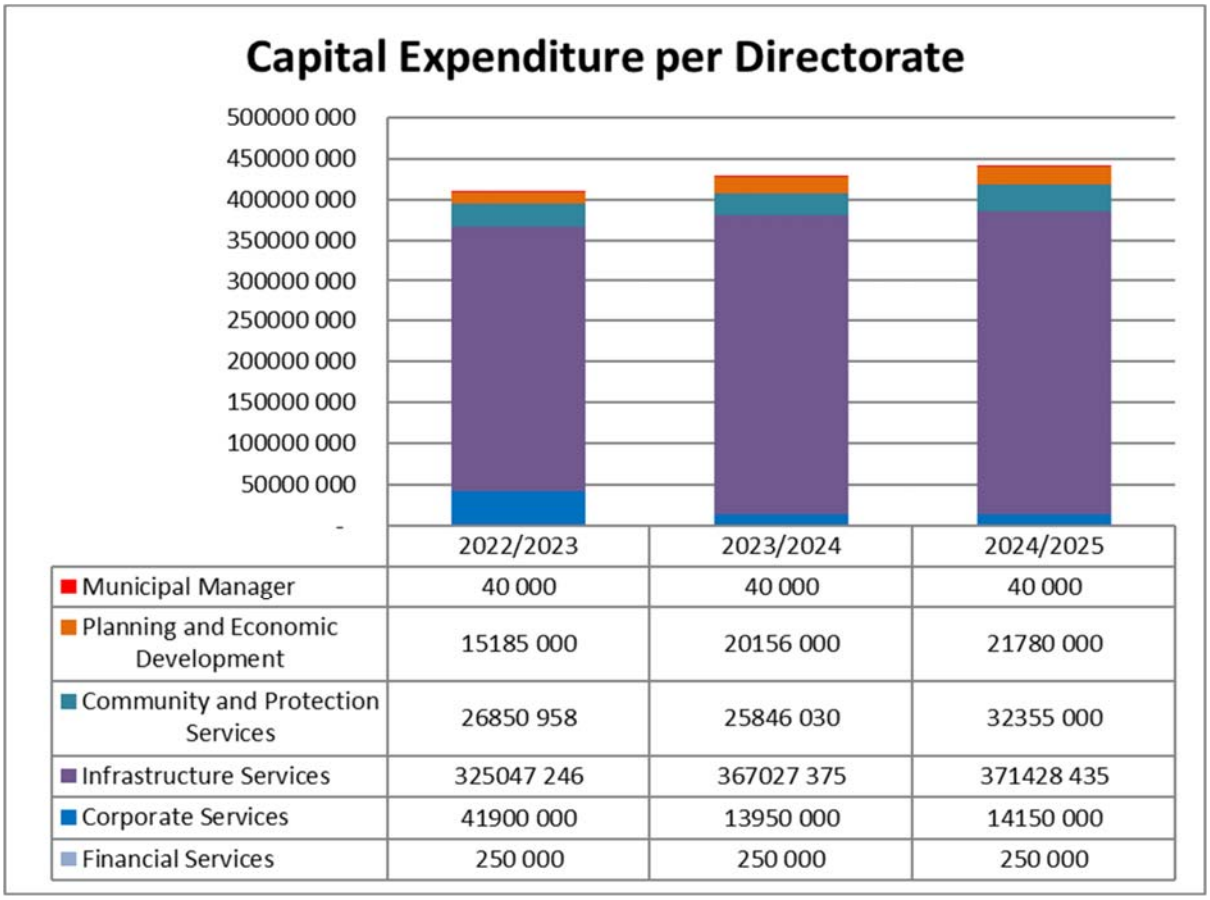
G: HIGH LEVEL BUDGET OVERVIEW

Capital Budget for 2022/2023, 2023/2024 and 2024/2025

Although the capital budget is infrastructure orientated and addresses the very urgent need for the upgrading of infrastructure as addressed by the different infrastructure master plans, it does however speak to the IDP (Integrated Development Plan) and the needs of the community. It's also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the "back to basics" approach. The responsiveness of the budget can be measured against what was identified as priorities by the community and the actual amount allocated, bearing in mind that resources are limited, to address or at least alleviate the most critical needs identified.

In this regard it is important to note that the need for infrastructure upgrades, inclusive of electricity infrastructure were key to ensure the delivery of sustainable services.

The capital budgets as proposed, amounts to:



2022/2023	2023/2024	2024/2025
R	R	R
409,273,204	427,269,405	440,003,435

Compilation of the Capital Budget

The capital budgets depicted per Directorate are as follows:

	2022/2023		2023/2024		2024/2025	
	R	%	R	%	R	%
Municipal Manager	40,000	0.01%	40,000	0.01%	40,000	0.01%

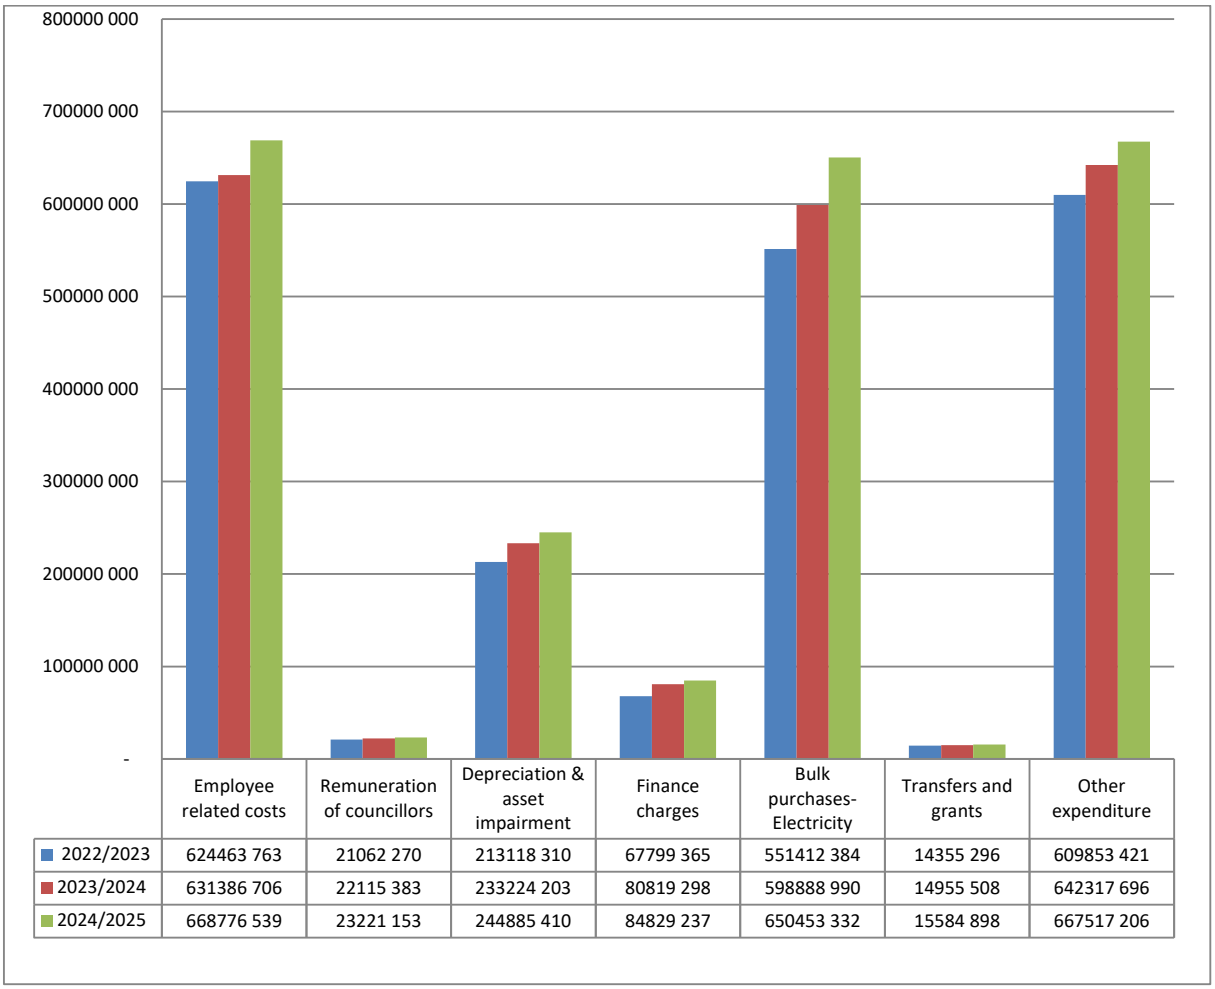
Financing of the Capital Budget

The proposed financing sources of the capital budget for the next three years are as follows:

	2022/20223		**2023/2024**		**2024/2025**	
	R		R		R	
Own Funding						
Capital Replacement Reserve	136,790,031	33.42%	173,637,075	40.64%	203,158,365	46.17%
Development Charges	12,453,523	3.04%	12,761,030	2.99%	40,046,120	9.10%
External Funding						
Grants National Government	90,809,650	22.19%	46 008 300	10.77%	47 898 950	10.89%
Grants Provincial Government	29,220,000	7.14%	34,863,000	8.16%	7 900 000	1.80%
External Loans	140,000,000	34.21%	160,000,000	37.45%	141,000,000	32.05%
	409,273,204	**100.00%**	**427,269,405**	**100.00%**	**440,003,435**	**100.00%**

As alluded to in the before-mentioned text and in the Council item; substantial investment in infrastructure is crucial in order to maintain sustainable levels of service delivery. For the detailed capital projects please refer to **Appendix 1 – Part 2 – Section N**.

Operating Budget for 2022/2023, 2023/2024 and 2024/2025



Expenditure

The operating expenditure budget per Vote (Directorate) is as follows:

	2022/2023	2023/2024	2024/2025
	R	R	R
Municipal Manager	27,432,083	28,603,028	29,839,865
Planning and Development	74,717,884	76,145,957	80,281,006

H: OVERVIEW OF THE BUDGET FUNDING

Financing of the Capital Budget

The proposed financing sources of the capital budget for the next three years are as follows:

	2022/2023	2023/2024	2024/2025
	R	R	R
Capital Replacement Reserve	136,790,031	173,637,075	203,158,365
Grants National Government	90,809,650	46,008,300	47,898,950
Grants Provincial Government	29,220,000	34,863,000	7,900,000
External Loans	140,000,000	160,000,000	141,000,000
Development Charges	12,453,523	12,761,030	40,046,120
	409,273,204	**427,269,405**	**440,003,435**

Grant funding from National Government includes the following:

- Integrated National Electrification Programme (Municipal) Grant
- Integrated Urban Development Grant

Grant funding from Provincial Government includes the following:

- Human Settlement Development Grant
- Informal Settlements Upgrading Partnership Grant: Provinces (Beneficiaries)
- Integrated Transport Planning (2024/2025)
- Development of Sport and Recreational Facilities

Financing of the Operational Budget

The operational budget is financed from the tariff increases as displayed above. In addition to these, the following grant allocations are expected, and expenditure was adjusted accordingly:

- Equitable Share Allocation
- Community Library Services Grant
- Local Government Financial Management Grant
- Municipal Accreditation and Capacity Building Grant
- Financial assistance to municipalities for maintenance and Construction of Transport Infrastructure:
- Community Development Workers Operational Support Grant
- Expanded Public Works Program Incentive Grant
- Human Settlement Development Grant
- Western Cape Municipal Energy Resilience Grant (WC MER Grant)

REPORT RECEIVED FROM COMMUNITY DEVELOPMENT: 2022/2023 GRANT-IN-AID ALLOCATIONS AND DONATIONS

1. SUBJECT

GRANT IN AID APPLICATIONS AND DONATIONS 2022/2023

2. PURPOSE

To obtain Council's approval for Grant-in-Aid (GiA) applications and recommended donations for the financial year 2022-2023.

3. DELEGATED AUTHORITY (FOR DECISION BY MUNICIPAL COUNCIL)

In terms of Municipal Finance Management Act (MFMA), Act (56 of 2003) Section 17. (3) (e) relating to content of annual budgets and supporting documents.

4. EXECUTIVE SUMMARY

The application is in terms of the annual GiA donations made to non-governmental organisations (NGOs), community-based organisations (CBOs), non-profit organisations (NPOs) or non-profit companies (NPC) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by the Grant in Aid Policy approved at the Council Meeting in May 2021.

5. RECOMMENDATIONS

a) That council consider and approve the recommended donations to organizations as per detailed list.

6. DISCUSSION / CONTENTS

6.1. Background

In terms of Council's Grant-in-Aid Policy, proposals were called for by means of advertisement in the press on 7 October 2021 (Eikestad Nuus) and on the municipal website and Facebook page.

The advertisement included an invitation to attend one of three compulsory workshops on either 26, 27 or 28 October 2021 to assist and give guidance on the policy and application procedure. Two hundred and eight (208) persons attended the workshops.

A workshop to assist with capacity building of small, emerging organisations was conducted on 25 October 2021 focussing on financial management. This workshop was also advertised in the local newspaper and is not compulsory. The workshop was attended by eight (8) persons.

By the closing date (29 November 2021), 155 applications were received

6.2 Discussion

The Department Community Development scrutinized and evaluated one hundred and fifty-five (155) applications representing the following categories:

CATEGORY	SUBCATEGORY	APPLICATIONS RECEIVED	APPLICATIONS RECOMMENDED/ CONDITIONALLY RECOMMENDED
Social Development	General	9	1
	Partial Care	73	30
	Disability	3	2
	Elderly	8	2

Environment	1	5, 6, 9-21	40 000.00
Sport Clubs	7	1-6, 12-21	280 000.00
Art and Culture	2	ALL	80 000.00
Total	**61**		**3 892 250.15**

Table 2: Ward based recommendations and financial allocations

The reason for not recommending organizations can be found in the notes column of detailed list of applications.

The Municipality would like to support as many as possible organizations delivering valuable services within our communities but cannot disregard requirements of the MFMA (56 of 2003) Section 67 stipulating the responsibility of council to ensure donations are made to organizations who has the capacity to govern itself according to accepted financial practises and who can deliver the services for which the donation is required and benefiting the intended target audience.

Considering the expected changes in the ECD sector (function migration from the Department of Social Development to the Department of Education), the changes through the Second Amendment Bill to the Children's Act placing more responsibility on Local Government with regards to childcare facilities and the changes to the Municipal Grant in Aid

Policy (to promote compliance with the Children's Act) emphasis should be on supporting local ECD's through the Grant in Aid process.

A second opportunity to comply with the GiA policy will be available to non-qualifying applicants during the appeal during in April 2022.

Declarations of Interest:

The following declarations of interest are registered and documented as part of the Grant in Aid applications.

Process followed with applications where below declarations has relevance:

1. No councillors were involved with the assessment process. In these cases, the officials of the Community Development Section collectively completed the assessments.
2. No officials other than those in the Community Development Section were involved in the assessment process. In these cases, the officials of the Community Development Section collectively completed the assessments.
3. In instances where officials from the Community Development Section were linked to applications, the Manager Community Development completed the assessment of the applicant without inputs from said officials. It must be noted that the only link with Community Development officials is through family members of the officials and not through the official serving on the board of the applicant. In the case of one official, she is linked through her mother serving on the board and the other official is linked through her child attending the creche.

6.3 Financial Implications

This report has the following financial implications:

2022-2023 (Cat A)
2 344 680.00

2022-2023 (Cat B)	2023-2024 (Cat B)	2024-2025 (Cat B)
1 547 570,15	1 634 430,49	0.00

DRAFT BUDGET TOTAL 2022-2023	3 892 250.15

Financial implications after consideration of the comments received:

2022-2023 (Cat A)
3 044 680.00

2022-2023 (Cat B)	2023-2024 (Cat B)	2024-2025 (Cat B)
1 547 570,15	1 634 430,49	0.00

FINAL BUDGET TOTAL 2022-2023	4 592 250.15

6.4 Legal Implications

The recommendations in this report comply with Council's policies and all applicable legislation.

6.5 Staff Implications

This report has no staff implications to the Municipality.

6.6 Previous / Relevant Council Resolutions:

Proposed donations were approved as part of the March 2022 Draft Budget.

6.7 Risk Implications

This report has no risk implications for the Municipality.

6.8 Comments from Senior Management:

6.8.1 Municipal Manager:

Received 25/01/2022: Ensure that the following is included in the item:

1. Detail of declarations of interest listing councillors and officials.
2. The assessment process followed where councillors and officials were linked to applications.

Ensure that all municipal officials and councillors who serve on the boards of local organisations complete a request to perform outside / private work.

6.8.2 Chief Financial Officer:

Financial Services agree with the recommendations. The funding for the Grant in Aid donations will be provided for in the Medium-Term Revenue and Expenditure Framework (MTREF/Budget).

References

1. Must reconcile with 'Budgeted Financial Performance (Revenue and Expenditure)

2. Must reconcile to supporting documentation on staff salaries

3. Insert other categories where revenue or expenditure is of a material nature (list separate items until 'General expenses' is not > 10% of Total Expenditure)

4. Expenditure to meet any 'unfunded obligations'

5 This sub-total must agree with the total on SA22, but excluding councillor and board member items

6. Include a note for each revenue item that is affected by 'revenue foregone'

7. Special consideration may have to be given to including 'goodwill arising' or 'joint venture' budgets where circumstances require this (include separately under relevant notes)

8. Repairs and Maintenance is not a GRAP item. However to facilitate transparency, municipalities must provide a breakdown of the amounts included in the relevant GRAP items that will be spent on Repairs and Maintenance.

9. Must reconcile with Repairs and Maintenance by Asset Class (Total Repairs and Maintenance) on Table SA34c.

10. Only applicable to municipalities that have adopted the 'revaluation method' in GRAP 17. The aim is to prevent overstating 'depreciation and asset impairment'

And so on for the rest of the Votes										

1. Include a measurable performance objective for each revenue source (within a relevant function) and each vote (MFMA s17(3)(b))

2. Include all Basic Services performance targets from 'Basic Service Delivery' to ensure Table SA7 represents all strategic responsibilities

3. Only include prior year comparative information for individual measures where relevant activity occurred in that year/s

References

1. Positive cash balances indicative of minimum compliance - subject to 2

2. Deduct cash and investment applications (defined) from cash balances

3. Indicative of sufficient liquidity to meet average monthly operating payments

4. Indicative of funded operational requirements

5. Indicative of adherence to macro-economic targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)

6. Realistic average cash collection forecasts as % of annual billed revenue

7. Realistic average increase in debt impairment (doubtful debt) provision

8. Indicative of planned capital expenditure level & cash payment timing

9. Indicative of compliance with borrowing 'only' for the capital budget - should not exceed 100% unless refinancing

10. Substantiation of National/Province allocations included in budget

11. Indicative of realistic current arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)

12. Indicative of realistic long term arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)

13. Indicative of a credible allowance for repairs & maintenance of assets - functioning assets revenue protection

14. Indicative of a credible allowance for asset renewal (requires analysis of asset renewal projects as % of total capital projects - detailed capital plan) - functioning assets revenue protection

References

1. All numbers to be expressed as whole numbers except FTEs and Rates in the Rand

2. To give effect to rates policy

3. Full Time Equivalent (FTE) should be expressed to one decimal place and takes into account full time and part time staff

4. Required to implement new system (FTE)

5. Provide relevant information for historical comparisons. Must reconcile to the total of Table SA12

6. Current and budget year must reconcile to Table A4 Budgeted Financial Performance (revenue and expenditure)

7. Included in rate revenue budget

8. In favour of the rate-payer

References

1. Total capital transfers and grants revenue must reconcile to Budgeted Financial Performance and Financial Position; total recurrent grants revenue must reconcile to Budgeted Financial Performance

2. CTBM = conditions to be met

3. National Treasury database will require this reconciliation for each transfer/grant

References

1. Insert description listed by municipal name and demarcation code of recipient

2. Insert description of each entity or external mechanism (an external mechanism may be provided with resources to ensure a minimum level of service)

3. Insert description of each Organ of State (e.g. transfer to electricity provider to compensate for FBS provided)

4. Insert description of each other organisation (e.g. charity)

5 Insert description of each other organisation (e.g. the aged, child-headed households)

6. All descriptions should separate transfers for 'capital purposes' and 'operating purposes'

References

1. Include 'Loans and advances' where applicable if any reportable amounts until phased compliance with s164 of MFMA achieved

2. s57 of the Systems Act

3. In kind benefits (e.g. provision of living quarters) must be shown as the cost (full market value) to the municipality, as part of the relevant allowance

4. B/A, C/B, D/C, E/C, F/C, G/D, H/D, I/D

5. Must agree to the sub-total appearing on Table A1 (Employee costs)

6. Includes pension payments and employer contributions to medical aid

7. Correct as at 30 June

Column Definitions:

A, B and C. Audited actual as per the audited financial statements. If audited amounts are unavailable, unaudited amounts must be provided with a note stating these are unaudited

D. The original budget approved by council for the budget year.

E. The budget for the budget year as adjusted by council resolution in terms of section 28 of the MFMA.

F. An estimate of final actual amounts (pre audit) for the current year at the point in time of preparing the budget for the budget year. This may differ from E.
