

STELLENBOSCH MUNICIPALITY

MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK FOR THE FINANCIAL PERIOD 2023/2024 TO 2025/2026

Vision:

We describe the vision of where we want to be as a Municipality and the Greater Stellenbosch area as the

“An Integrated Valley of Opportunity and Innovation”

Mission:

Our mission is to deliver services in an enabling environment through sustainable, cost-effective and accountable services for our community.

Our Values

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

Excellence: As a municipality, we will strive to deliver excellent services for all areas within the greater Stellenbosch.

Responsiveness: The municipality to be a responsive municipal entity with zero tolerance for corruption and illegal actions.

PART A

A: RESOLUTIONS

It is recommended to Council,

- a) that the Draft High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved for public release and comment;
- b) that the Draft Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved for public release and comment;
- c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved for public release and comment;
- d) that the three-year Capital Budget for 2023/2024, 2024/2025 and 2025/2026, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved for public release and comment;
- e) that the proposed draft rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3, be approved for public release and comment;
- f) that the proposed amendments to existing budget related policies and other policies as set out in APPENDICES 4 - 34, be approved for public release and comment.
- g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R575 millions of which R200 million will be required in year one, R200 million in year two and R175 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;
- h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially; and
- i) that Council takes note of MFMA circulars 122 and 123 that was published to guide the MTREF for 2023/2024 to 2025/2026 as set out in APPENDICES 35 – 36.

B: EXECUTIVE SUMMARY

This MTREF budget is being tabled during a difficult domestic and global economic environment. Domestically, load-shedding has become more persistent and prolonged, impacting on service delivery and threatening the survival of many businesses. Households are under pressure from the rising cost of living, and unemployment remains stubbornly high.

The Finance Minister, in the *Medium Term Budget Policy Statement* (MTBPS), indicated South Africa is prioritising stable and clear policies that promote economic growth and fiscal health in the midst of an uncertain outlook.

The pursuit of higher growth remains anchored on the following three pillars:

- Firstly, ensuring a stable macroeconomic framework to create a conducive environment for savings, investment and growth.
- Secondly, implementing growth-enhancing reforms in key sectors, particularly in energy and transport.
- And thirdly, strengthening the capacity of the state to deliver quality public services, invest in infrastructure and fight crime and corruption.

Fiscal Strategy

The 2023 Medium Term Budget Policy Statement (MTBPS) sets the course for a fiscal consolidation strategy consisting of the following measures:

- Reduction in fiscal deficit without resorting to tax increases or further cuts in the social wage and infrastructure;
- Achieving a primary fiscal surplus in the current financial year, and maintaining it over the medium term;
- Considering a consolidated position, which includes debt-service costs.
- The consolidated fiscal deficit is projected at 4.2 per cent of GDP for 2022/23, and this will reach 3.2 per cent in 2025/26. (These figures include the impact of the partial take-over of Eskom debt amounting to R254 billion)
- Due to this Eskom debt relief, government debt will stabilise at a higher level of 73.6 per cent of GDP and in 2025/26.
- Government debt is high and as such the debt-service costs as a per cent of main budget revenue will increase from 18 per cent in 2022/23 to 19.8per cent in 2025/26. The gross debt stock is projected to increase from R4.73 trillion in 2022/23 to R5.84 trillion in 2025/26. Debt-service costs are projected to average R366.8 billion annually over the medium term, reaching R397.1 billion in 2025/26.

The risks to the fiscal outlook include a worsening of the economic outlook, a further weakening of the finances of state-owned companies, and an unaffordable public-service wage agreement. Difficult budgeting trade-offs must therefore be made as government continues exercising fiscal restraint.

Accordingly, government non-interest spending will be kept below the level of revenue into the future, and will continue targeting the stabilisation of debt.

Economic Growth & Domestic Outlook

Since the 2022 Budget, global growth estimates for 2023 have been revised lower. The International Monetary Fund projects global growth to slow from an estimated 3.4 per cent in 2022 to 2.9 per cent in 2023. South Africa is expected to register better-than-expected GDP growth of 2.5 per cent in 2022, largely due to higher-than-expected agriculture and services sector growth in the third quarter.

Real GDP growth is now projected to average 1.4 per cent from 2023 to 2025, compared with 1.6 per cent in the 2022 MTBPS, as a result of persistent structural constraints especially power cuts, and a less supportive global environment.

Although output has recovered to pre-pandemic levels, the persistent scarring impact of the pandemic on employment and investment decisions continues to weigh on the recovery.

Risks to the global outlook include:

- Weaker-than-expected global growth, including the effects of monetary policy tightening in major economies.
- Further disruptions to global supply chains, renewed inflationary pressures, and constrained food and energy supplies stemming from the war in Ukraine.
- A sustained period of lower growth and elevated borrowing costs, which poses a threat to highly indebted countries.

The domestic outlook faces a range of risks, and include:

- Continued power cuts and a deterioration in port and rail infrastructure.
- Slow implementation of structural reforms could lower business confidence and deter new investment.
- Widespread criminal activity poses a threat to economic growth and national security.
- A deterioration of the fiscal outlook due to unfunded spending pressures or the materialisation of contingent liabilities could increase borrowing costs, and crowd out both private and public investment.

The key focus areas outlined in the Medium-Term Budget Policy Statement (MTBPS) is to enhance economic growth are as follows:

- Higher economic growth and a durable recovery in economic activity require a stable macroeconomic framework, complemented by rapid implementation of economic reforms and improved state capability;
- Government continues to provide a stable macroeconomic policy framework, underpinned by a flexible exchange rate, inflation targeting and sustainable fiscal policy, to encourage investment;
- Numerous reforms under way through Operation Vulindlela and the economic recovery plan. However, the most pressing reforms are required in electricity and freight rail
- Implementing urgent measures to reduce load shedding in the short term and transform the sector through market reforms to achieve long term energy security National Energy Crisis Committee (NECOM) interventions include:
 - Improving Eskom’s plant performance
 - Clearing regulatory obstacles by establishing a one stop shop to bring electricity onto the grid more rapidly. This will be supported by the Energy Security Bill, which removes regulatory impediments for independent power producers
 - Supporting the rollout of rooftop solar for households and businesses, including through tax incentives
 - Implementing a wheeling framework and grid capacity rules to provide certainty to private producers investing in energy projects
- Several reforms are underway to support recovery in the transport sector, arrest the decline and increase the volume of freight rail. These include:
 - The Economic Regulation of Transport Bill, which will establish the transport regulator, has been tabled in Parliament and is now with the National Council of Provinces.
 - Software upgrades to increase efficiency through better signaling.
 - Steps to prevent theft and vandalism and resolving legal challenges in relation to locomotive procurement.
 - Granting third-party access to the rail network.
 - To facilitate competition and improve pricing, the operations and infrastructure management functions of Transnet Freight Rail are due to be separated by October 2023.
- The 2023 Budget makes allocations towards infrastructure as well as crime and corruption, to ensure that public resources are used to lay the foundation for a more resilient economy.

The President of South Africa, in his State of the Nation Address (SONA), on the 9th of February 2023 spoke about how our country has, for many months, endured a debilitating electricity shortage that has caused immense damage to our economy. And for two years before that, our society was devastated by the COVID-19 pandemic that caused great loss of life and much hardship. The pandemic worsened a situation of deep unemployment, as the country lost two million jobs. The pandemic negatively affected livelihoods and increased poverty. Now, persistent load-shedding is impeding our recovery from the effects of these events.

The most immediate task on the agenda for the year ahead is to drastically reduce the severity of loadshedding in the coming months, and ultimately end loadshedding altogether.

The President spoke about the issues concerning South Africa most is:

- Loadshedding;
- Unemployment;
- Poverty and rising cost of living; and
- Crime and corruption

The following focus areas were also highlighted, amongst others, during the State Of Nation Address:

- National State of Disaster due to the electricity crises and its effects;
- Extreme weather events (drought, floods and wild fires);
- Climate change;
- Just Energy Transition Investment Plan (R1.5 trillion invested over 5-years into projects such as renewable energy, green hydrogen and electric vehicles);
- Major investments and developments in renewable energy which will create jobs and stimulate local economies;
- To conclude a social compact and work on a framework to enable joint action in key areas such as energy, transport and logistics, employment creation and skills development, investment and localization, social protection, crime and corruption;
- Covid-19 vaccinations;
- Initiatives like the Solidarity Fund being mobilized to end gender-based violence and femicide, and to respond to the effects of climate change;
- Develop master plans in sectors such as automotive, clothing and textiles, poultry, sugar, agriculture and global business services;
- Reliable water supply (Department of Water and Sanitation is in the process of investing in major infrastructure projects);
- Efficient transport and road infrastructure system;

- National Rail policy to guide the modernization and reform of the rail sector, providing for third-party access to our rail network;
- Challenges in the transportation of commuters on passenger rail;
- A comprehensive turnaround plan is being implemented to streamline the process for water use license applications;
- Building bridges;
- Roll-out of 5G mobile networks will reduce the cost of data;
- Mobilising greater levels of investments;
- Investment conference on 13 April 2023;
- Unlocking investment in the hemp and cannabis sector;
- Bounce-back loan scheme for companies that need finance to recover from the effects of the pandemic;
- Employment Tax incentives has been expanded to address the challenge of youth unemployment;
- Finalizing amendments to the business Act, 1991 (Act 71 of 1991) to reduce regulatory impediments for small, medium and micro enterprises (SMMEs) and co-operatives
- Presidential Employment Stimulus in providing work and livelihood opportunities;
- Rising cost of living that is deepening poverty and inequality;
- Extension of the Social Relief of Distress (SRD) Grant;
- Focus on eradicating the backlog in the processing of title deeds;
- Strengthening the SAPS, improving the capacity of the NPA and courts to ensure perpetrators are brought to justice

The President stated that poor performance of many local governments remains an area of concern. There are 163 out of 257 municipalities that are dysfunctional or in distress due to poor governance, ineffective and sometimes corrupt financial and administrative management and poor service delivery.

Government is implementing a number of interventions to address failures at local government level and improve basic service delivery.

Government interventions include:

- Enhancing the capacity of public representatives and officials;
- Maintaining and upgrading local infrastructure;
- Invoking the powers of national government to intervene where municipalities fail to meet their responsibilities;
- Integrity assessments will become a mandatory requirement for recruitment to the public service and entry exams will be introduced;

- Legislation will be amended to strengthen the role of the Public Service Commission to ensure that qualified people are appointed to senior management positions.

The Western Cape Premier in his State of the Province address, on 16th February 2023, reiterated the following sentiments highlighted during the State of the Nation Address, including but not limited to, the new National State of Disaster, the president to address the energy crises, establishing an oversight committee to monitor government expenditure related to the energy crises, economic growth recovery initiatives, unemployment / job creation (especially youth interventions), sustainable infrastructure development, educational infrastructure, health infrastructure, provision of housing (dignified living), agriculture, crime and safety, as well as campaigns against gender-based violence and femicide.

The Premiers' speech focused, amongst others, on the following areas:

- The new National State of Disaster due to the energy crises;
- Ensuring the citizens basic needs are protected (Water, Wifi and health);
- Renewable energy / green economy push
 - Drive to increase energy resilience, mitigate effects of loadshedding and potential of the power generation sector to stimulate growth and create employment opportunities
- Municipal Energy Resilience plan
 - A local government-level programme that develops, supports and builds capacity at municipalities across our province to implement renewable energy projects.
 - Stellenbosch is working towards procuring energy from Independent Power Producers.
- Establishment of the Infrastructure Department
 - Aimed to further prioritise the importance of developing and maintaining critical infrastructure in the Western Cape
- Rapid School Build Programme (Education Infrastructure)
- Provision of housing opportunities
- Health infrastructure
- “Our Growth For Jobs” strategy
 - Radical drive to reduce unemployment
 - Youth interventions
 - Agriculture
- Crime & Safety
- SAPS Devolution
- Campaigns against Gender-based violence and femicide

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier's State of the Province address, the SONA and the 2023 Budget Review.

National Treasury encourages municipalities to maintain tariff increases and adopt a tariff setting methodology at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. The municipalities must therefore generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development. The municipality's revenue is determined by setting a package of tariffs that is not only considered to be affordable to its ratepayers and the users of its services but deemed to be at fair and realistic levels.

Tariff increases by Eskom and Water Boards is above inflation and should be considered as such while determining cost reflective tariffs. In the instance of bulk tariff increases for electricity, municipalities are encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

Local government confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving their own revenue collections, working more efficiently and implementing cost-containment measures. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary. The Cost Containment Regulations were issued on 07 June 2019, as well as the municipality's Cost Containment Policy is embedded in the municipality's operations that assists in driving down costs, ensuring that value for money is achieved and resources of the municipality is used effectively, efficiently and economically.

Municipalities are required to consider the following during the compilation of the 2023/2024 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulation read with MFMA Circular No.82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Prioritise the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taken into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and 'nice to have' items with regards to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2023/2024 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- National State of Disaster – Electricity crises / Load shedding;
- Aging infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope;

- The increased cost of bulk electricity and procuring water inventory, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Attracting economic investment
- Water Conservation;
- Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook;
- Limited resources to deal with all key priorities;
- Decline in reserves available to fund capital programmes.

The following budget principles and guidelines directly informed the compilation of the 2023/2024 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable as possible and should ideally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) were used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income. The municipality were mindful of the estimated headline inflation for 2023/2024 of between 3% to 6% forming the basis of the extensive income modelling exercise, but also taking into account the principles of economical

services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases. Inflation is forecast to fluctuate around 5.2% over the medium term in line with moderating inflation expectations.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.

It is expected that fuel prices will increase substantially in the next financial year, and this will be provided for in the budget.

The total budget quantum for the 2023/2024 year is R2 778 066 062 of which R2 276 266 197 (82%), is allocated to the operating budget and R501 799 865 (18%) to capital investment.

OPERATING BUDGET – REVENUE

Overall revenue budget increase was limited to 7.42% resulting in annual operating revenue increasing from R2 209 698 098 in 2022/2023 to R2 386 813 668 in 2023/2024. Taking cognisance of the economic conditions, the resultant low employment levels and levels of disposable income, it was important to keep services affordable by critically looking at the costs associated with providing the service.

Accordingly, management investigated potential pitfalls and amongst others found that spiralling expenditure on employee costs did not keep trend with realistically anticipated revenue streams, compounded by the decline in electricity surpluses as a result of higher input costs to provide the service.

REVENUE CATEGORIES	2022/2023	2023/2024	% INCR

| Average tariff increases: | Property Rates | 7.00% |
| | Electricity | 17.61% |
| | Water | 6.00% |
| | Sanitation | 6.50% |
| | Refuse removal | 9.10% |
- The proposed electricity tariffs are subject to change based on the final findings and recommendation of the cost of supply study. The proposed electricity charges and tariff structure is subject to National Electricity Regulator of South Africa (NERSA) approval.
- The Municipality succeeded in accessing the EPWP Incentive Grant for Municipalities in a bid to give some relief to the poorest of the poor by means of contract employment opportunities over the short term. The allocation for the 2023/24 financial year is R 4 786 000.

Rates

In the 2023/2024 financial year, the Property Rates Tariff paid by owners will increase with 7.00%, whilst total rates also increased with 8.38%. The increase in total rates is due to interim valuations that were performed. Rates rebates to senior citizens and disabled persons are also available as per the requirements of the amended Rates Policy to qualifying ratepayers with a monthly income of R15 000 or less.

Electricity

According to NERSA, the inclining block rate tariff structure is commonly used to charge for water usage. The feature of this tariff structure is that the more you use, the higher the average price. The objective of the inclining block tariff is to provide protection for lower usage customers against high price increases resulting in a reduction in tariffs to these customers. This means that higher consumption customers will see increasingly punitive charges based on their electricity usage. The municipality is implementing the directive from NERSA as part of the Municipality's Licensing Agreement and as a result had to deal with the negative impact of a declining Electricity surplus, year-on-year, putting more pressure on the level and quality of services provided.

Council's attention is further drawn to the fact that the proposed electricity tariff is at 17.61% whereas the increase in electricity bulk purchases for the 2023/2024 financial year is 22% as approved by NERSA (National Electricity Regulator of South Africa) for implementation by all municipalities. Although the proposed tariffs increase with 17.61%, the municipality is experiencing a decrease in electricity demand as consumers are utilising alternative energy sources.

Municipalities are urged to examine the cost structure of providing electricity services and to apply to NERSA for electricity tariff increases that reflect the total cost of providing the service, so that they work towards achieving fully cost-reflective tariffs that will help them achieve financial sustainability.

Water

Taking cognizance of the challenges that the country is currently experiencing due to the severe drought, the plight of the poor and the affordability of basic services, the average tariff increase for the rest of the consumptive water scales is 6.00%. The tariff is designed to cater for current and future capital investment in basic water infrastructure and the need to generate surpluses. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2023/2024 and not based on the approved budget for the same year.**

Sewerage (Sanitation)

The proposed increase in this tariff is 6.50%. Sanitation services is classified as an economical service. This means that the service charges for sanitation must cover the cost of providing the service, i.e. it must at least break even. This tariff increase is necessitated by operational requirements, maintenance of existing aging infrastructure, new infrastructure financing/provision and to ensure that the service is delivered in a sustainable manner. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2023/2024 and not based on the approved budget for the same year.**

Refuse (Solid Waste)

Refuse removal services, like sanitation are also classified as an economical service. This means that the service charges for refuse must cover the cost of providing the service, i.e. it must at least break even. The municipality will implement an above inflation tariff increase as this service does not break even and to provide for the additional expenditure for the transport of the waste from the Stellenbosch Landfill Site. The solid waste tariffs were modelled to give effect to the principle of the service charge being cost reflective as the service cannot be cross-subsidized. It is proposed that the tariff increases by 9.10% as a result of the before mentioned. The very nature of this tariff does not lend it to financing the expansion of the landfill site and therefore the proposed extension by way of constructing the new cell, was funded from council's own reserves.

It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2023/2024 and not based on the approved budget for the same year.

Debt Management

The municipality is currently executing all credit control and debt collection procedures as required in the approved Credit Control and Debt Collection policy. These internal procedures followed include the disconnection of services, where there are services that can be disconnected, the issuing of final notices, the conclusion of reasonable agreements where the settlement of the accounts is not possible and also the follow up on defaulting debtors not honoring arrangements. The municipality continuously enforces the above procedures to ensure that debt which is collectable is collected and all debt that is regarded as not recoverable, be written off.

The municipality developed a revenue enhancement strategy. The document focuses on the formulation and implementation of strategies to improve financial management and controls within the municipality. The objective of any successful revenue enhancement strategy is to build and improve on current payment levels and then to recover arrear debt.

The municipality has also promulgated the Credit Control and Debt Collection By-Law on the 4th of March 2011 to strengthen the internal credit control and debt collection procedures through handing over of all debt over 90 days to the appointed attorneys.

A zero-tolerance approach will be followed where consumers are able to pay for services, as this indirectly denies paying consumers the level and standard of service that they are entitled to.

OPERATING BUDGET - EXPENDITURE

The budget sees an increase in annual operating expenditure from R 2 119 664 507 in 2022/2023 to R2 276 266 197 in 2023/2024. This 7.39% increase is primarily due to increases in several expenditure categories, examples which are included in the table below:

EXPENDITURE CATEGORIES	2022/2023	2023/2024	% INCR.
Employee Related Costs	590 885 967	617 695 992	4.54%
Remuneration of Councillors	20 845 768	22 096 514	6.00%
Depreciation & Impairment	214 992 797	220 283 469	2.46%
Finance Charges	68 069 222	59 688 487	-12.31%
Bulk Purchases Electricity	543 925 482	636 392 814	17.00%
Other Expenditure	680 945 271	720 108 921	5.75%
Total Expenditure	2 119 664 507	2 276 266 197	7.39%

Council to note the upward pressure of external borrowing interest (Finance Charges) on future tariffs. In this regard, strong political will and strategic leadership is required to ensure that the municipality maintains the position of being responsive to its communities by ensuring that service charges are kept affordable and realistic by amongst other, critically investigating funding choices and expenditure decisions.

Explanation of significant expenditure variances:

Finance Charges

The interest payable for the 2023/2024 financial year has been calculated on the maximum amount of possible borrowings drawn down up to the end of the 2023/2024 financial year.

Bulk Purchases

The municipal tariff guideline increase issued by NERSA setting the bulk purchase increase at 22%.

Other expenditure

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions. These interventions include amongst other, measures to limited telephone usage and filling of critical vacancies that will result in a decrease in consulting fees.

PART 2

A: OVERVIEW OF STELLENBOSCH MUNICIPALITY

Background

Stellenbosch Municipality is located in the heart of the Cape Winelands. It is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers approximately 900 km².

State of the Greater Stellenbosch Area

Introduction

Stellenbosch Municipality is located at the edge of the City of Cape Town but still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town’s central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa’s top (air) links to the global economy, and not much further away from Cape Town harbour, the shipping portal to both the Atlantic and the Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it can sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality’s area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as a number of rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniël, Johannesdal, Languedoc, Groot Drakenstein, Muldersvlei, Klappmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vlottenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes a number of informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and several prestigious schools. It has a strong business sector, varying from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars abound and the area is the home of the very first Wine Route in South Africa. A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over many generations. The Municipal area has a nuseveralatres, which include the Stellenbosch University’s HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorp Street at Theatre and Aan de Braak Theatre.

Below is a map of the Cape Winelands District in relation to the provincial district boundaries:

Map 1: Locality of Cape Winelands in relation to Provincial Boundaries

The Western Cape Province makes up 10.6% of the country's land surface and encompasses an area of 129 462 km². The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed Garden Route, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

Below is a map of the municipalities in relation to the Cape Winelands District:

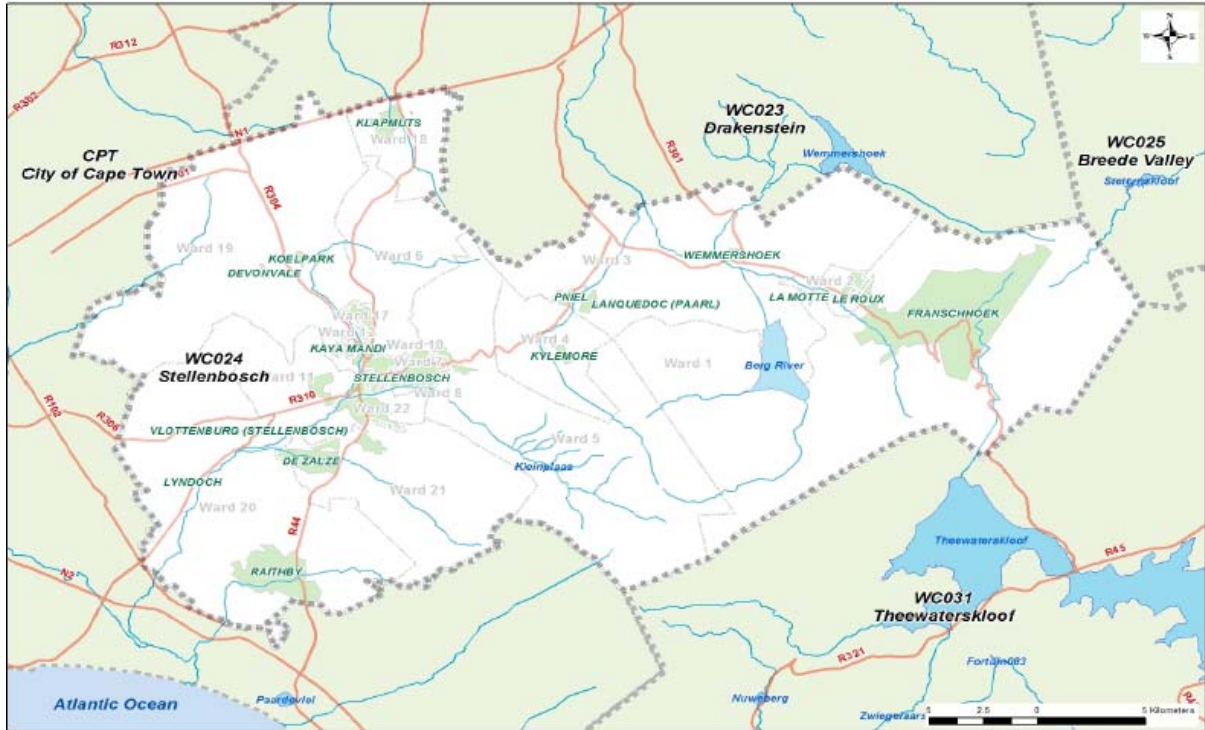

Map 2: Locality map of Stellenbosch Municipality in relation to Cape Winelands District Boundaries

The Cape Winelands District Municipality is located within close proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second-largest container port in the country and a comprehensive road and rail network. This gives the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg and Witzenberg.

Below is a map of the Stellenbosch Municipality’s area of jurisdiction:

Map 3: Locality map of municipal boundaries

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to the City of Cape Town and Drakenstein Municipality. As a local authority, Stellenbosch Municipality governs the towns of Stellenbosch, Pniël, Klapmuts, Kylemore, Jamestown, Raithby, Ida’s Valley, Cloetesville, Kayamandi and Vlottenburg, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, Stellenbosch Municipality (SM) forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschhoek, and Klapmuts. There are also several smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniël, Johannesdal, Lanquedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vlottenburg. Stellenbosch is a sought-after space, offering opportunity and quality of living, yet in close proximity to city life. This has placed the municipal area under constant development pressure.

Socio – Economic Context

All socio-economic information is sourced from the Local Government Socio-Economic Profile 2022. The statistical data are primarily sourced from Statistics South Africa, administrative data from sector departments, the Municipal Review and Outlook (MERO), Global Insight Regional Explorer and Quantec.

Population Growth

The current population of Stellenbosch in 2022 are 199 325 persons, which is the most populated municipal area in the Cape Winelands District (CWD). This total is expected to grow to 215 456 by 2026, equating to an average annual growth rate of 2.0 per cent for the period.

The estimated population growth rate of Stellenbosch is therefore 0.3 percentage and points higher than the estimated average annual population growth rate of the Cape Winelands District which is 1.7 per cent.

The table below depicts the population growth from 2022 to 2026:

Sex Ratio

The overall sex ratio depicts the number of males per 100 females in the population. The data indicates that as of 2022, there are more females than males in the Stellenbosch municipal area with a ratio of 51.1 per cent (females) to 48.9 per cent (males).

The sex ratio is therefore 96, meaning that for every 100 women there are 96 men. The ratio increases slightly towards 2023 and remains unchanged from 2023 to 2026. This could be attributed to a wide range of factors such as an increase in female mortality rates as well as the potential inflow of working males to the municipal area.

The table below depicts the sex ratio within the Stellenbosch municipal area.

Age Cohorts

The age cohorts are composed according to the population of Stellenbosch. These groupings are expressed as a dependency ratio which indicates those who are part of the workforce (Aged 15 – 64) and those who are dependent on them (children or senior citizens). A higher dependency ratio implies greater pressure on social systems and the delivery of basic services.

Between 2022 and 2026, the largest population growth projection was recorded in the 65+ age cohort at 2.7 per cent. This reflects possible improvements in life expectancy (an ageing population) or that more people are choosing the Stellenbosch municipal area as a retirement destination. Notable growth is also expected in the working age cohort, which results in an overall decrease in the dependency ratio towards 2026.

The table below depicts the age cohorts between 2022 and 2026.

Table 2: Age Cohorts

Household Size

Household size refers to the number of people per household. The average size of households is expected to remain constant at 3.6 people per household from 2022 to 2026. The trend of the constant average household size could be attributed to a wide range of factors but are not limited to, lower fertility rates, ageing population, divorce, cultural patterns surrounding intergenerational co-residence, as well as socioeconomic factors that shape trends in employment, education, and housing markets.

The table below depicts the household sizes from 2022 to 2026:

Population Density

Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision-makers in mitigating environmental, health and service delivery risks. In 2022, the population density of the Cape Winelands District was 45 persons per square kilometer. In order of highest to lowest, the various local municipal areas compare as follows:

In order of highest to lowest, the various local municipal areas compare as follows:

- ⬇ Stellenbosch 240 people/km²;
- ⬇ Drakenstein 194 people/km²;
- ⬇ Breede Valley 51 people/km²;
- ⬇ Langeberg 27 people/km²; and
- ⬇ Witzenberg 14 people/km².

According to the above comparison, Stellenbosch has the highest density in the Cape Winelands District. This is helped a lot by the fact that the municipal Spatial Development Framework (mSDF) says that urban development should stay within the limits of the urban edge.

Education

Education and training improve access to employment opportunities and help sustain and accelerate overall development. Quality Education is the 4th Sustainable Development Goal, while the National Development Plan (NDP) emphasises the link between education and employment as well as the

significant contribution it makes to the development of the capabilities and well-being of the population.

Learner enrolment, the learner-teacher ratio and learner retention rate

Learner enrolment in Stellenbosch increased from 27 491 enrolments in 2019 to 28 594 in 2021 (more than 1 104 learners were enrolled compared to 2019).

The graphics below depict the learner enrollments, learner-teacher ratio and learner retention from 2019 to 2021.

Graph 1: Learner enrolment

Graph 2: Learner – Teacher Ratio

Source: Western Cape, Social – Economic Profile 2022

The learner retention rate measures the proportion of learners in Grade 12 who were in Grade 10 two years prior. The inverse of the learner-retention rate is commonly referred to as the drop-out rate. The learner retention rates are influenced by a wide array of factors, including low socio-economic background, student attitudes towards education, overcrowded classrooms, critical thinking skills, study skills and other personal circumstances which can make it difficult for the learner to focus on

education. Although the learner retention rate in the Stellenbosch municipal area improved from 75.5 per cent in 2020 to 79.1 per cent in 2021, more than 20 per cent of the learners did not complete their studies.

Number of schools and no – fee schools

Figure 2: Number of schools and no – fee schools

The number of schools within the Stellenbosch municipal area is recorded at 39 in 2021. A total of R90 million will be spent in the Stellenbosch municipal area across the MTREF. This allocation will be used for upgrading and additions as well as new and replacement infrastructure in the following schools; Aviation, Elsenburg Agri School, New Klapmuts PS and HS, and New Stellenbosch PS. The No-fee Schools Policy abolishes school fees in the poorest 40 per cent of schools nationally for learners from Grade R to Grade 9. As per the policy, schools that do not charge fees will be allocated a larger amount of funding from the national budget per learner to

Schools with libraries/media centres

The Stellenbosch municipal area consist of 39 schools in 2021 of which 27 (69 per cent) were equipped with libraries. The availability of library facilities within schools contributes towards narrowing the academic attainment gap by allowing students access to information which is in turn directly linked to improved education outcomes.

Education outcomes (matric pass rate)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagement in the labour market, policy choices and decisions in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans can be realised.

Stellenbosch’s matric pass rate improved from 85.1 per cent in 2020 to 87.9 per cent in 2021; recording the highest matric pass rate in the district in both 2020 and 2021 in the Cape Winelands District.

Health

Health Facilities

According to the LGSEP 2022, in 2021, the Stellenbosch municipal area had 8 fixed primary healthcare facilities, comprising 7 fixed clinics, 1 community day centre as well as 6 mobile / satellite clinics. In addition to these primary healthcare facilities, there is one district hospital, 9 ART treatment sites and 10 TB clinics.

The municipal area has 14 (17.9 per cent) out of the 78 primary healthcare facilities within the Cape Winelands district.

The table depicts the total healthcare facilities.

Emergency Medical Services

The provision of more operational ambulances can provide greater coverage of emergency medical services. The Stellenbosch municipal area had a total of 6 ambulances servicing the region, which translates to 0.3 ambulances per 10 000 people in 2021. This number only refers to Provincial ambulances and excludes all private service providers and remained unchanged between 2020/21 and 2021/22.

HIV / AIDS and Tuberculosis

The number of clients (patients) that remain committed to their antiretroviral treatment (ART) plan in the Stellenbosch municipal area increased by one patient between 2020/21 and 2021/22. In total, 6 915 registered patients received antiretroviral treatment in the Stellenbosch municipal area in 2021/22. In turn, the number of new patients receiving ART also increased from 460 in 2020/21 to 481 in 2021/22. There has been an average annual increase of 3.65 per cent between 2020/21 (849) and 2021/22 (880) in the number of registered patients receiving TB treatment in the Stellenbosch municipal area.

Child Health

The immunisation coverage rate for children under the age of one in the municipal area improved slightly from 52.7 per cent in 2020/21 to 55.8 per cent in 2021/22. The overall CWD rate increased from 60.6 per cent to 62.2 per cent across the same period. The number of malnourished children under five years of age (severe acute malnutrition) per 100 000 people in the municipal area increased notably from 0.9 in 2020/21 to 1.5 in 2021/22.

The CWD also increased from 1.8 per cent to 2.2 per cent while the provincial average changed from 0.9 to 1.3 per cent. The neonatal mortality rate (deaths per 1 000 live births before 28 days of life) for the municipal area declined from 6.3 in 2020/21 to 3.1 in 2021/22. The rate was still notably below the CWD average of 8.0. A total of 9.8 per cent of all babies born in a facility in the municipal area in 2021/22 weighed less than 2 500 grams, indicating possible challenges with long-term maternal malnutrition and poor health care during pregnancy.

Maternal Health

In 2020/21, the Stellenbosch municipal area recorded the lowest number of maternal deaths (57.3) and teenage pregnancies (11.4 per cent) in the CWD, however, this increased to 61.1 per cent (maternal deaths) and 13.2 per cent (teenage pregnancies) in 2021/22. However, the termination of pregnancy rate (0.6 per cent) remained unchanged across this period.

Poverty

GDPR Per Capita

An increase in the real regional gross domestic product (GDPR) per capita, i.e., GDPR per person, is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDPR per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDPR per capita indicator.

An increase in GDPR per capita, i.e., GDPR per person, is experienced only if the economic growth rate exceeds the population growth rate. At R67 798 in 2021, the Cape Winelands District’s real GDPR per capita is below that of the Western Cape’s figure of R81 650 for the same period. However, Stellenbosch has outperformed both the District and the Province by recording a per capita income figure of R84 325 in 2021.

Cape Winelands District recorded the highest figure across 2021. While the 2021 figure has regressed moderately for the period 2015 – 2021, the robust economic potential of the municipality is highlighted by its persistent high level of per capita incomes recorded, despite the recent recessionary economic environment coupled with the COVID-19 pandemic which restricted economic activity both regionally and globally.

Graph 6: GDP Per Capita

Income Inequality

South Africa suffers among the highest levels of inequality in the world when measured by the commonly used Gini index. Inequality manifests itself through a skewed income distribution, unequal access to opportunities, and regional disparities.

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. Income inequality has increased in Cape Winelands District between 2015 (0.59) and 2021 (0.62). These disparities in income are certain to worsen across the ensuing MTREF given the potential aftereffects of the COVID-19 pandemic. Stellenbosch has displayed a similar trend to that of the District’s trajectory with inequality levels worsening from 0.62 in 2015 to 0.63 in 2021.

Graph 7: Income Inequality

Poverty Line

The Upper Bound Poverty Line (UBPL) headcount ratio is the proportion of the population living below the UBPL i.e., that cannot afford to purchase adequate levels of food and non-food items. The UBPL in South Africa is R1 227 (in April 2019 prices) per person per month.

Poverty affects the social development of communities through lower life expectancy, malnutrition and food insecurity, higher exposure to crime and substance abuse, lower educational attainment and poor living conditions. The NDP aims to eliminate poverty by 2030.

In 2021, 58.91 per cent of Stellenbosch's population fell below the UBPL. This figure improved marginally from the 60.62 per cent and 60.76 per cent recorded for the periods 2015 and 2018, respectively. Stellenbosch along with Drakenstein (61.96 per cent in 2021) represent the highest proportion of people living in poverty across the Cape Winelands District, while the Stellenbosch figure of 58.91 per cent is marginally above that of the District figure (57.26 per cent) recorded in 2021.

Basic Service Delivery

The Constitution stipulates that every citizen has the right to access adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living. This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2021. The latest official statistics were collected by Statistics South Africa for the 2016 Community Survey; the 2021 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities Survey findings.

Housing and household services

With a total of 50 792 households in the Stellenbosch municipal area, 74.5 per cent had access to formal housing. This is lower than the Cape Winelands District average of 82.4 per cent. The area also had a

substantially higher proportion of informal dwellings, a total of 24.7 per cent compared with the District's total of 16.9 per cent.

Service access levels within the municipal area were considerably higher than the access to formal housing, with access to piped water inside the dwelling / yard or communal / neighbour's tap at 99.3 per cent, access to a flush or chemical toilet at 96.4 per cent, access to electricity (including a generator) for lighting at 96.8 per cent and the removal of refuse at least weekly by the local authority at 82.1 per cent of households. These access levels were above the District figures for electricity and refuse removal services.

Free Basic Services

Municipalities also provide a package of free basic services to households that are financially vulnerable and struggle to pay for services. The number of households receiving free basic services in the Stellenbosch municipal area has declined sharply in 2020. The stressed economic conditions are expected to exert additional pressure on household income, which will likely increase the demand for free basic services and in turn the number of indigent households. However, this is area specific and dependent on the qualifying criteria which are used.

Safety and Security

Murder

Murder is defined as the unlawful and intentional killing of another person.

Within the Stellenbosch area, the number of murders increased from 67 in 2019/20 to 70 in 2020/21, increasing further to 87 in 2021/22. The Stellenbosch municipal area’s murder rate (per 100 000 people) increased from 36 in 2020/21 to 44 in 2021/22, and the murder rate (per 100 000 people) for the Cape Winelands District also increased from 42 to 43 for the same period.

Sexual Offences

Sexual offences include rape (updated to the new definition of rape to provide for the inclusion of male rape), sex work, pornography, public indecency and human trafficking.

In 2022, there were 226 sexual offences in the Stellenbosch area compared to 806 reported cases in the Cape Winelands District. The incidence of sexual offences (per 100 000 people) in the Stellenbosch municipal area (115) was higher than that of the District (84) in 2021/22.

Drug – related Offences

Drug-related crimes refer to the situation where the perpetrator is found to have, been under the influence of, or selling illegal drugs.

Drug-related crime within the Stellenbosch area decreased from 1 589 cases in 2020/21 to 1 125 cases in 2021/22. The Cape Winelands District’s drug-related offences decreased sharply from 5 903 in 2020/21 to 5 729 in 2021/22. When considering the rate per 100 000 people, with 575 drug-related offences per 100 000 people in 2021/22, the Stellenbosch area’s rate is below the District’s 600 per 100 000 population.

Driving under the influence (DUI)

A situation where the driver of a vehicle is found to be over the legal blood alcohol limit.

The number of cases of driving under the influence of alcohol or drugs in the Stellenbosch area increased from 153 in 2020/21 to 252 in 2021/22. This translates into a rate of 128 per 100 000 people in 2021/22, which is above the District’s 86 per 100 000 people.

The unlawful entry of a residential structure with the intent to commit a crime, usually theft.

The number of residential burglaries in the Stellenbosch area decreased from 971 in 2020/21 to 958 in 2021/22. Stellenbosch municipal area’s rate of 489 per 100 000 population is above the District’s 448 for 2021/22.

Economy and Labour Market Performance

Sectoral Overview

In 2020, the economy of Stellenbosch was valued at R18 625.6 billion (current prices) and employed 71 911 people. Historical trends between 2016 and 2020 indicate that the municipal area realised an average annual growth rate of -0.7 per cent. The 2020 recession made a substantial dent in the average growth rate over the period, but load shedding and the drought within the Province also played a major role in prior years.

Estimates for 2021 however indicate a marked recovery in growth (4.6 per cent) from the effects of the COVID-19 related restrictions on economic activity in 2020. It was largely driven by growth in the wholesale and retail trade, catering and accommodation (7.8 per cent) as tourism activity resumed; as well as the finance, insurance, real estate and business services (3.5 per cent); and manufacturing (5.0 per cent) sectors. The mining and quarrying (-14.2 per cent), construction (-1.0 per cent) and general government (-0.9 per cent) sectors were the only sectors that experienced a further economic decline after the easing of restrictions.

Despite the economic recovery experienced in 2021, the economy continued to shed jobs, with an estimated 2 435 net jobs lost. This was largely driven by job losses in the wholesale and retail trade, catering and accommodation (-945 jobs); manufacturing (-338 jobs); and agriculture, forestry and

fishing (-328) sectors, reflecting that employment creation is lagging behind the improved GDP. Only the general government sector was able to create jobs during the year.

Formal and Informal Employment

It is estimated that Stellenbosch’s total employed will in 2021 amount to 69 476 workers, of which 55 435 (79.8 per cent) are employed in the formal sector and 14 041 (20.2 per cent) are informally employed. Employment in the formal sector had an annual average increase of only 0.2 per cent from 2016 to 2020 while the informal sector suffered an annual average decline of 5.9 per cent over this period. The informal economy was responsible for the majority of the job losses in 2021. This is a concern as the informal economy should be able to act as a buffer during times of economic recession.

Most of the formally employed consisted of semi-skilled (42 per cent) and low-skilled (32 per cent) workers. The skilled category only contributed 25.8 per cent to total formal employment. The skilled and semi-skilled categories grew at a pace of 0.7 per cent per annum from 2016 to 2020 and notably outpaced low-skilled employment which shed 0.9 per cent of jobs per annum. The growth in the skilled

categories reflects the increasing market demand for skilled labour and the need for skills development initiatives, especially with the growing tertiary sector in the Stellenbosch municipal area.

Unemployment

To protect South African citizens from the COVID-19 pandemic, the government announced a national lockdown in March 2020 that brought about a shutdown of the economy, which in turn resulted in a shock in the labour market and a big change in the way people went about doing their work. According to the Quarterly Labour Force Survey (StatsSA, 2021), The number of unemployed persons decreased by 60 000 to 7,9 million in the 1st quarter of 2022 compared to the previous quarter. The number of discouraged jobseekers decreased by 54 000 (1,4%) and the number of people who were not economically active for reasons other than discouragement decreased by 112 000 (0,8%) between the two quarters resulting in a net decrease of 166 000 not economically active population.

The above changes in employment and unemployment resulted in the official unemployment rate decreasing by 0,8 of a percentage point from 35,3% in the fourth quarter of 2021 to 34,5% in the first quarter of 2022. The unemployment rate according to the expanded definition of unemployment also decreased by 0,7 of a percentage point to 45,5 % between April and June 2022 compared to January to March 2022. The biggest job gains were recorded in community and social services (281 000), manufacturing (263 000) and trade (98 000). However, there were job losses in private households (186 000), finance (72 000), construction (60 000) and agriculture (23 000). The total number of persons employed was 14,9 million in the first quarter of 2022. The expanded unemployment rate⁴ in South Africa increased by 2,2 percentage points to 46,6 per cent (12.5 million people) from July 2021 to September 2021, due to the fact that people were available for work but did not actively look for work during the national lockdown.

⁴ Definition: Expanded unemployment rate (aged 15–64 years): were not employed in the reference week; and were available to work but did not look for work either because they are discouraged from looking for work .

B: LEGISLATIVE ENVIRONMENT

Legal Requirements

The medium term revenue and expenditure framework for 2023/2024, 2024/2025 and 2025/2026 was compiled in accordance with the requirements the relevant legislation, of which the following are the most important:

C: OVERVIEW OF ANNUAL BUDGET PROCESS

In terms of Section 24 of the MFMA, Council must, at least 30 days before the start of the financial year, consider the annual budget for approval. Section 53 requires the Mayor of a municipality to provide general political guidance over the budget process and the priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations, gazetted on 17 April 2009, states that the Mayor of a municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging with the responsibilities set out in section 53 of the Act.

A time schedule outlining important dates and deadlines as prescribed for the IDP/Budget process was approved on **24 August 2022**. The budget process for the 2023/2024 MTREF period proceeded/will proceed according to the following timeline

Activity	Time frame
Formulation of budget assumptions	September 2022
Detailed programmes and projects to further define budget	November 2022 – March 2023
IDP and Budget considered by Council	29 March 2023
IDP and Budget - public participation	April 2023
Final approval of IDP and the Budget	24 May 2023

D: OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH THE INTEGRATED DEVELOPMENT PLAN (IDP)

The intent of the Strategic goals for the Fourth Generation IDP will remain the same as the goals of the Third Generation IDP, although a slight change for 3 of the goals namely: “Preferred Investment Destination” has been amended to “Valley of Possibility” to have a clearer indication that it needs to include possibilities for all and not just investors; “Greenest Municipality” has been amended to “A Green and Sustainable Valley” to incorporate all facets of sustainability; ” Safest Valley” has been amended to “A Safe Valley”, whilst “Dignified Living” and “Good Governance and Compliance”, remain unchanged.

Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities.

Performance management at Stellenbosch municipality is evaluated to embody the following;

Consistency: Objectives, performance indicators and targets are consistent between planning and reporting documents.

Measurability: Performance indicators are well defined and verifiable, and targets are specific, measurable and time bound.

Relevance: Performance indicators relate logically and directly to an aspect of the municipality's mandate and the realisation of its strategic goals and objectives.

Reliability: Recording, measuring, collating, preparing and presenting information on actual performance / target achievements is valid, accurate and complete.

Stellenbosch municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employees' performance. The performance of the municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations.

The Five-Year Top-Level Service Delivery and Budget Implementation is part of the Integrated Development Plan and the financial performance objectives are captured in supporting table SA7.

E: OVERVIEW OF MUNICIPAL BY-LAWS BUDGET RELATED POLICIES

The following policies are new:

Infrastructure Asset Unbundling Policy

This policy is intended to provide a framework for the unbundling of completed infrastructure services capital projects and financial asset year-end processes within the requirements of sections 60, 62, 63, 78, and 79 of the Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA), and the South African Standards of Generally Recognised Accounting Practices (GRAP) as well as to promote good financial management practices. This policy applies to all officials within the Stellenbosch Local Municipality who utilise and/or manage any type of infrastructure assets. The Municipal Council of Stellenbosch have adopted an Asset Management Policy to regulate the effective management of all council's assets and wants to lay down broad guidelines for consistent, effective and efficient asset management principles of Stellenbosch Municipality. The Municipality of Stellenbosch have agreed to adopt an Infrastructure Unbundling Policy that will guide the Municipality with the effective, complete, and accurate capitalisation of their assets and complying with year-end processes relating to assets. Refer to Appendix 5.

Pool Vehicle Policy

The purpose of this policy is to ensure the proper procedure of booking and utilization of a pool vehicle. The policy clearly stipulates that no person, other than a municipal official in possession of a valid driver's licence may drive a Pool Vehicle and no person other than an official may be transported in a Pool Vehicle, provided that the CFO, Municipal Manager or a director may in exceptional circumstances authorise that other passenger may be transported in such Pool Vehicle. Municipal officials that receive car allowance are NOT allowed to use any pool vehicle. Refer to Appendix 6.

The following existing policies were reviewed and amended

Borrowing, Funds and Reserves

This policy strives to establish a borrowing framework policy for the Municipality and set out the objectives, policies, statutory requirements and guidelines for the borrowing of funds. The policy provides a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year noncash

backed liabilities. The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework. Refer to Appendix 7.

Budget Implementation and Monitoring Policy

The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. The framework for virements is also explained and regulated in this policy as well as monitoring roles and responsibilities. Refer to Appendix 8.

Cash Management and Investment Policy

To regulate and provide directives in respect of the investment of funds and to maximize returns from authorized investments, consistent with the primary objective of minimizing risk. Refer to Appendix 9.

Credit Control and Debt Collection Policy

This policy provides a framework to enable Council to proactively manage and collect all money due for services rendered and outstanding property taxes, subject to the provisions of the Municipal Systems Act of 2000 and any other applicable legislation and internal policies of Council. Refer to Appendix 10.

Development Charges Policy

The Municipality derives its authority to impose a development charge in terms of Section 75A. General power to levy and recover fees, charges and tariffs of the Local Government: Municipal Systems Act, 2000, Act 32 of 2000. The Municipality approved its new Land Use Planning Bylaw in terms of the Spatial Planning and Land Use Planning Act, 2013 (Act 16 of 2013) in October 2015 and it was officially promulgated and became effective in December 2015. Since then, the Municipality faces significant changes in the planning environment, amongst others the need for and manner of generating development charges. Refer to Appendix 11.

Grant-in-aid Policy

This policy provides the framework for grants-in-aid to non-governmental organisations (NGO's), community-based organisations (CBO's) or non-profit organisations (NPO's) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003). Refer Appendix 12.

Indigent Policy

Due to the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for basic municipal services. The provision of free basic services ensures that registered indigent consumers have access to basic services. This policy provides the framework for the administration of free basic services to indigent consumers. Refer to Appendix 13.

Irrecoverable Debt Policy

This policy enables Council and the CFO to write off irrecoverable debt of indigent consumers, debt which cannot be recovered due to consumers not being registered as indigent or not traceable or due to prescription of debt. Refer to Appendix 14.

Rates Policy

The revised Rates Policy as required by the Municipal Property Rates Act (Act no 6 of 2004) is attached as Appendix 15.

Supply Chain Management Policy

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Preferential Procurement Policy Framework Act, no 5 of 2000 and its accompanying regulations influences and dictates process around the evaluation and awarding of points. In this regard, the Minister of Finance acting in terms of section 5 of the Procurement Policy Framework Act, revised the Regulations accompanying this Act on the 20th January 2017 for implementation by all affected public entities by the 1 April 2017. The Supply Chain Management Policy was therefore amended and adopted at Council during February 2017. Refer to Appendix 16.

Travel and Subsistence Policy

This policy sets out the basis for the payment of subsistence, travel allowance, hourly rate when applicable for the purpose of official travelling. Refer to Appendix 17.

Virement Policy

The policy sets out the Virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year. The policy shall give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the Approved budget, and it will be applicable to all municipal staff and councillors involved in budget implementation. Refer to Appendix 18.

Ward Allocation Policy

The objective of the Ward Allocations Policy is to create opportunities for Councillors to identify ward projects in line with the identified IDP needs, with the support of their Ward Committees, which would improve the quality of living in all wards. These projects would need to fit into the basket of services of the relevant User Department and must comply with the following, namely, Local Government's mandate; council policies; support the pillars and objectives of the IDP and directly benefit the community. The Policy shall be governed by the underlying principle of ensuring that ward allocation projects meet the requirements of the Integrated Development Plan, including specific reference to, valley of opportunity, green and sustainable valley, safe valley, valley with dignified living and valley of good governance and compliance. Refer to Appendix 19.

The following existing budget related policies and by-laws were reviewed but no amendments were necessary:

Accounting Policy

This policy provides the accounting framework applicable to the finances of the municipality and is informed by the Municipal Finance Management Act (Act no 56 of 2003). Refer to Appendix 20.

Asset Management Policy

The Municipal Finance Management Act Number 56 of 2003 will be the legislative framework for the Asset Management Policy whilst Generally Recognised Accounting Practice (GRAP) will be the accounting framework.

The Municipal Council of Stellenbosch is in terms of the MFMA and GRAP obliged to adopt an Asset Management Policy to regulate the effective management of all council's assets.

- **And whereas** the municipal manager as accounting officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.
- **And whereas** these assets must be protected over their useful life and may be used in the production or supply of goods and services or for administrative purposes in meeting the municipality's operational requirements.

- **Now therefore** the municipal council of the Stellenbosch Municipality adopts this asset management policy. Refer to Appendix 21.

Cost Containment Policy

The purpose of the policy is to regulate spending and to implement cost containment measures at Stellenbosch Local Municipality. The objectives of this policy are to ensure that the resources of the municipality are used effectively, efficiently and economically and to implement cost containment measures. The cost containment policy will apply to council and all municipal employees. Refer to Appendix 22.

Inventory Management Policy

In terms of the MFMA, the Accounting Officer for a municipality must:

- (a) be responsible for the effective, efficient, economical and transparent use of the resources of the municipality as per section 62 (1)(a);
- (b) take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure and other losses as per section 62(1)(d); and
- (c) be responsible for the management, including the safeguarding and the maintenance of the assets, and for the management of the liabilities, of the municipality as per section 63 (1)(a) and (b).

The policy aims to achieve the following objectives which are to provide guidelines that employees of the Municipality must follow in the management and control of inventory, including safeguarding and disposal of inventory, procure inventory in line with the established procurement principles contained in the Municipality's Supply Chain Management Policy and eliminate any potential misuse of inventory and possible theft. Refer to Appendix 23.

Liquidity Policy

The documented Liquidity Policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to in order to ensure that its current and future liquidity position is managed in a prudent manner. This policy will be implemented to provide guidance on the minimum liquidity level that Stellenbosch Municipality has to maintain in order to comply with required legislative and / or National Treasury directives and within the overall financial management objectives as approved/reviewed by the Council from time to time. Refer to Appendix 24.

Preferential Procurement Policy

Section 217(1) of the Constitution, 1996 (Act 108 of 1996) provides that when contracting for goods and services, organs of state must do so in accordance with a system that is fair, equitable, transparent, competitive and cost effective. Section 217(2) and (3) of the Constitution allows organs of state to grant preferences when procuring for goods and services within a Framework prescribed by National legislation. The preferential procurement policy is founded on the following principles, namely, value for money, open and effective competition, ethics and fair dealing, accountability and reporting and equity. This policy will be applicable to all active industry sectors within the Stellenbosch Municipal area and must be read with the supply chain management policy of the municipality. Refer to Appendix 25.

Petty Cash Policy

All purchases below R 2 000 are regulated by this policy. Clear processes and procedures are stipulated to ensure that all transactions are processed effective and efficiently in a bid to ensure prudent financial control. Refer to Appendix 26.

Credit Control and Debt Collection By-Law

This by-law give effect to the implementation and enforcement of Municipality's Credit Control and Debt Collection Policy and/or to regulate its implementation and enforcement in the Stellenbosch Municipal Area (WC024) in terms of section 156(2) of the Constitution of the Republic of South Africa (Act 108 of 1996) and sections 96 and 98 of the Municipal Systems Act (Act 32 of 2000);to provide for the collection of all monies due and payable to the Municipality; andto provide for matters incidental thereto. All debt owing to the Municipality must be collected in accordance with this By-law and the Credit Control and Debt Collection Policy. Refer to Appendix 27.

Special Ratings Area Policy

The aim of the policy is to provide the framework to strike an appropriate balance between facilitating self-funded community initiatives that aim to improve and/or upgrade neighbourhoods. Refer to Appendix 28.

Special Ratings Area By-Law

A "special rating area" refers to a special rating area approved by the Council in accordance with the provisions of section 22 of the Property Rates Act. This By-law aims to provide for the establishment of special ratings areas, to provide for additional rates and to provide for matter incidental thereto. Refer to Appendix 29.

Tariff By-Law

In terms of section 75(1) of the Systems Act, a municipal council must adopt by-laws to give effect to the implementation and enforcement of its tariff policy. In terms of section 75(2) of the Systems Act, by-laws adopted in terms of section 75(1) of the Systems Act may differentiate between different categories of users, debtors, service providers, services, service standards and geographical areas as long as such differentiation does not amount to unfair discrimination. Refer to Appendix 30.

Tariff Policy

This policy serves as the implementing tool which guides the levying of tariffs for municipal services in accordance with the provisions of the Municipal Systems Act and any other applicable legislation. Tariffs represent the charges levied by Council on consumers for the utilization of services provided by the Municipality and rates on properties. Tariffs will be calculated in various ways, dependent upon the nature of the service being provided. Refer to Appendix 31.

Rates By-Law

In terms of Section 3 of the Property Rates Act, a municipal council must adopt a policy consistent with the property rates act on levying of rates on rateable properties in the municipality. Refer to Appendix 32.

Financing of External Bodies performing municipal functions Policy

The purpose of this Policy is to provide a framework for financial assistance by Stellenbosch Municipality (“the Municipality”) to external organisations/bodies conducting local government functions to the extent as set out in section 155(6)(a) and (7) of the Constitution as listed in Part B of Schedule 4 and 5. Refer to Appendix 33.

Wayleave Policy

In terms of S151 of the Constitution of the Republic of South Africa, 108 of 1996, a municipality has the right to govern on its own initiative, the local government affairs of its community, subject to national and provincial legislation. S156 of the Constitution grants the municipalities the right to administer the local government matters listed in Schedule 5B, which include municipal roads. A municipality may make by-laws for the effective administration of municipal roads. This Policy will be converted into municipal by-laws to give it legal effect. Refer to Appendix 34.

F: OVERVIEW OF KEY BUDGET ASSUMPTIONS

Municipalities’ long-term financial viability depends largely on the extent to which improved and sustainable revenue capacity on the one hand and sound financial management of its resources on the other hand can be achieved. These imperatives necessitate proper multi-year financial planning. Future impacts of revenue streams, expenditure requirements and the financial implications for the community at large (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programs, projects and sundry service delivery actions.

Taking these principals into consideration, the following assumptions (**ceteris paribus**) were made and relates to the parameters within which the budget was compiled for the next three years

	2023/2024	2024/2025	2025/2026
Percentage Increase:			
Water	6.00%	5.50%	5.50%
Electricity	17.61%	14.50%	10.90%
Sanitation	6.50%	6.00%	6.00%
Refuse	9.10%	9.00%	9.00%
Property Rates	7.00%	6.00%	6.00%
Collection Rates			
Water	95%	95%	95%
Electricity (Post Paid Meters)	97%	97%	97%
Sanitation	96%	96%	96%
Refuse	96%	96%	96%
Rates	96%	96%	96%
Employee Related Costs			
Salaries and Wages and related costs	5.40%	4.70%	4.70%
Notch Increment	2.40%	2.40%	2.40%
Other Assumptions			
Bulk Purchases - Electricity	22.00%	14.50%	10.90%

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions and higher than headline CPI revenue increases to ensure a sustainable budget over the medium term.

Municipalities should also pay particular attention to managing all revenue and cash streams effectively and carefully evaluate all spending decisions.”

G: HIGH LEVEL BUDGET OVERVIEW

Capital Budget for 2023/2024, 2024/2025 and 2025/2026

Although the capital budget is infrastructure orientated and addresses the very urgent need for the upgrading of infrastructure as addressed by the different infrastructure master plans, it does however speak to the IDP (Integrated Development Plan) and the needs of the community. It’s also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the “back to basics” approach. The responsiveness of the budget can be measured against what was identified as priorities by the community and the actual amount allocated, bearing in mind that resources are limited, to address or at least alleviate the most critical needs identified.

In this regard it is important to note that the need for infrastructure upgrades, inclusive of electricity infrastructure were key to ensure the delivery of sustainable services.

The capital budgets as proposed, amounts to:

<u>2023/2024</u>	<u>2024/2025</u>	<u>2025/2026</u>

REPORT RECEIVED FROM COMMUNITY DEVELOPMENT: 2023/2024 GRANT-IN-AID ALLOCATIONS AND DONATIONS

1. SUBJECT

GRANT IN AID APPLICATIONS AND DONATIONS 2023/2024

2. PURPOSE

To obtain Council's approval for Grant-in-Aid (GiA) applications and recommended donations for the financial year 2023-2024.

3. DELEGATED AUTHORITY (FOR DECISION BY MUNICIPAL COUNCIL)

In terms of Municipal Finance Management Act (MFMA), Act (56 of 2003) Section 17. (3) (e) relating to content of annual budgets and supporting documents.

4. EXECUTIVE SUMMARY

The application is in terms of the annual GiA donations made to non-governmental organisations (NGOs), community-based organisations (CBOs), non-profit organisations (NPOs) or non-profit companies (NPC) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by the Grant in Aid Policy approved at the Council Meeting in May 2022.

5. RECOMMENDATIONS

- a) That council consider and approve the recommended donations to organizations as per detailed list.

6. DISCUSSION / CONTENTS

6.1. Background

In terms of Council's Grant-in-Aid Policy, proposals were called for by means of advertisement in the press on 13 October 2022 (Eikestad Nuus) and on the municipal website and Facebook page.

The advertisement included an invitation to attend one of three compulsory workshops on either 1, 2 or 3 November 2022 to assist and give guidance on the policy and application procedure. Two hundred and eleven (211) persons attended the workshops.

A workshop to assist with capacity building of small, emerging organisations was conducted on 4 November 2022 focussing on financial management.

This workshop was also advertised in the local newspaper and is not compulsory. The workshop was attended by fifteen (15) persons.

By the closing date (2 December 2022), 132 applications were received.

6.2 Discussion

The Department Community Development scrutinized and evaluated one hundred and thirty two (132) applications representing the following categories:

CATEGORY	SUB CATEGORY	APP'S RECEIVED	APP'S RECOMMENDED / CONDITIONALLY RECOMMENDED	WARDS SERVED THROUGH THE ORGANIZATIONS	RECOMMENDED AMOUNT (2023-2024)

Table 1: Applications and grant recommendations per category

The detailed list of applications received and evaluated can be found with the item. Reason for not recommending organizations can be found in the note's column of detailed list of applications.

The Municipality would like to support as many as possible organizations delivering valuable services within our communities but cannot disregard requirements of the MFMA (56 of 2003)

Section 67 stipulating the responsibility of council to ensure donations are made to organizations who has the capacity to govern itself according to accepted financial practises and who can deliver the services for which the donation is required and benefiting the intended target audience.

Considering the changes in the ECD sector (function migration from the Department of Social Development to the Department of Education), the changes through the Second Amendment Bill to the Children’s Act placing more responsibility on Local Government with regards to childcare facilities and the changes to the Municipal Grant in Aid Policy (to promote compliance with the Children’s Act) emphasis should be on supporting local ECD’s through the Grant in Aid process.

A second opportunity to comply with the GiA policy will be available to non-qualifying applicants during the comment period in April 2023.

Declarations of Interest:

Communication was distributed to all municipal officials and councillors with a possible vested interest to ensure that applications for outside work forms were completed.

All assessments were done by Community Development Department officials with inputs from the Sr Manager Community Services and the Manager Sport, Halls and Recreation for all applications received from sport clubs. Where declarations of interests were received relating to officials in the Community Development Department, the applicable officials were removed from the assessment process.

The following declarations relating to municipal officials and councillors are noted.
