

**APPENDIX 1**

**STELLENBOSCH MUNICIPALITY**

**MEDIUM TERM REVENUE AND EXPENDITURE  
FRAMEWORK FOR THE FINANCIAL PERIOD  
2020/2021 TO 2022/2023**

*We describe the vision of where we want to be as a municipality and the Greater Stellenbosch area as:*

**“VALLEY OF OPPORTUNITY AND INNOVATION”**

**Mission:**

Our mission is to deliver cost-effective services that will provide the most enabling environment for civil and corporate citizens.

**Our Values**

In all of our work and engagements with the community and other stakeholders, we subscribe to the following values:

**Integrity:** As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

**Accountability:** As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

**Transformation:** We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

**Innovation:** We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

## PART 1

### A: RESOLUTIONS

It is recommended to Council,

- (a) that the High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved;
- (b) that the Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved;
- (c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved;
- (d) that the three year Capital Budget for 2020/2021, 2021/2022 and 2022/2023, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved;
- (e) that the proposed rates on properties in WC024, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3 , be approved;
- (f) that the proposed amendments to existing budget related policies and other policies as set out in APPENDICES 4 - 28, be approved;
- (g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the tune of R375 579 511 of which R102 779 511 will be required in year 1 and R103 800 000 in year 2 and R169 000 000 in year 3 (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;
- (h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially; and
- (i) that Council takes note of MFMA circulars 98 and 99 that was published to guide the MTREF for 2020/2021 to 2022/2023 as set out in APPENDICES 29 – 30;
- (j) that Council takes note that the public comments and submissions were taken into account in the compilation of the final budget.
- (k) that Council notes the Jonkershoek and Techstel SRA applications for the extension of the SRAs for a further period of five years and exempts both management bodies in terms of paragraph 15(a) of the SRA By-Law, from compliance with the provisions of Chapter 1 of the SRA By-Law;
- (m) that proposed extension of the Jonkershoek and Techstel SRAs for a further period of five years beginning 1 July 2020 and ending 30 June 2025 be approved; and
- (n) that the proposed five year budgets with a combined total of R30 943 773.35 (VAT included) for Jonkershoek SRA and R15 713 218.21 (VAT included) for Techstel SRA as detailed in Annexures 31 (c) and 32 (c) be approved.

## **B: EXECUTIVE SUMMARY**

The 2020 Budget review published by National Treasury notes that since the publication of the October 2019 Medium Term Budget Policy Statement (MTBPS) regardless of the growth potential the economic output has weakened following lower than expected growth in the second half of the year.

The aforementioned review highlighted the following government reforms that are underway to improve spending efficiency and reduce waste:

- Procurement: The state has a complex and often ineffective procurement system, which at times hamper government's ability to efficiently contract for goods and services. The draft procurement bill has been gazetted for public comment.
- Provincial grants: Government is piloting initiatives to improve municipal revenue collection and has made progress in reducing unfunded municipal budgets.
- Medico-legal claims: Work has begun to limit unreasonable claims against government.
- Public office bearers: There will be no increases in the salaries of public office bearers during 2020/2021.

Municipal governments face multiple pressures with the years ahead with local government expected to expand access to free basic services to poor households, while ensuring that those who can afford to pay for services do so. The 2020 MTREF includes large reductions in planned transfers to municipalities. This means that municipalities will be required to prioritise projects. Municipalities therefore must exercise caution when preparing their 2020/2021 MTREF budgets. It is advised that municipalities follow a conservative approach when projecting revenue and to eliminate wastage and unnecessary expenditure. It is imperative that municipalities should ensure the following, namely, that budgets they adopt are realistic and funded, that debts owned are collected and that their creditors are paid within 30 days of receipt of invoice. Legislation governing local planning and budgeting places emphasis on community participation in decision-making. The partnerships between municipalities and its stakeholders relies on the households and businesses recognising the value of, and paying for, municipal services. Therefore, the sustainability of the municipality will heavily depend on how they collect and spent their own revenues.

The Budget of 2020 outlines a series of economic and fiscal measures to be implemented to move the economy onto a new trajectory and reduce the long-term risks to South Africa's public finances. The central economic policy goal of the government, is to accelerate inclusive growth and create jobs. The main objective is to ensure sustainable finances by containing the budget deficit and stabilising public debt. The Constitution requires the national budget and related budget processes

to promote values such as transparency, accountability, as well as effective management of the economy to these requirements in a difficult environment in which economic growth remains weak, public debt and debt service costs have accelerated, and governance and operational concerns are manifest across the public sector.

The 2020 Budget confronts these challenges by addressing the central risks of the economy and its public finances, supporting growth-enhancing reforms and maintaining real growth in expenditure on social and economic priorities.

As a means to combat unemployment, the municipality will employ the following measures:

- Full participation in the Expanded Public Works Programme;
- Providing support to small businesses, which will create employment in the medium to long term;
- Establishment of Informal Traders;
- Promoting Internships and in-service training opportunities;
- Filling of funded vacancies within the municipality; and
- Developing partnerships with academic institutions for training opportunities.
- Implementation of a revised capacity building initiative, aligned to Back to Basics strategy, where the main focus will be on improving service delivery, accountability and financial management. It is always important that local government be effective and efficient, and this will be measured by its ability to perform the basic mandate of service delivery. The “Back to Basics” programme was launched to promote good governance and effective administration through cutting wastage, spending public funds prudently, hiring competent staff, and ensuring transparency and accountability in local government.

The President of South Africa, in his State of the Nation Address (SONA), on 13<sup>th</sup> February 2020 conceded that unemployment remains a national challenge and that job creation remains at the centre of the national agenda of 2020. The following focus areas were highlighted during SONA and in the 2019 MTBPS, which will be used as instruments to reignite growth so that the economy can create much-needed jobs:

- SMMEs: Expanding the small business incubation programme which provides entrepreneurs with the physical space, infrastructure and shared services, access to specialised knowledge market linkages, training in the use of new technologies and access to finance.
- National Minimum Wage (one of the demands of the Freedom Charter) to ensure greater coherence and consistency in the implementation of economic policy
- Mining

- Youth Development and Employment through the implementation of various initiatives
- Safety and security
- Agriculture and related initiatives
- Implementation of Procurement Bill: This bill will empower black and emerging businesses and advance radical economic transformation.
- Water Conservation Initiatives
- Encourage significant new investments and promoting greater investment in key manufacturing sectors
- Provision of Infrastructure through Infrastructure Investments
- Expansion of the Tourism Sector
- Developing capabilities in science, technology and innovation towards digital industrial revolution

Government's central economic policy priority remains to promote faster, job-creating growth. Various programmes and initiatives will be established and the existing ones improved upon to ensure effective implementation of the strategic priorities.

The Western Cape Premier in his State of the Province address, on 20<sup>th</sup> February 2020, reiterated the sentiments highlighted during the State of the Nation Address and also the challenges that are faced and the initiatives that were implemented to address these challenges with regards to unemployment, especially the youth, education, building of safer communities, sustainable infrastructure development, implementation of related initiatives, provision of housing (dignified living), finding alternative energy sources to assist and reduce the strain on the electrical grid, provision of services to the poor households, among others.

The Premiers' speech focused on the following areas:

- Safety: The province has a safety plan, the biggest in the country, in place with various safety initiatives which focuses on increasing boots on the ground and reducing violence, to build a safer environment for all. Focus also to help boost the Chrysalis Academy( live-in leadership development programme) aimed at empowering our most at-risk youth to become self-confident, economically-active role models within their respective communities.
- Economy : Focused on job creation initiatives to assist the private sector to create the jobs required, One of these initiatives is the Premier's Advancement of Youth Internship Programme, that helps unemployed people get the on-the-job training and experience they need to find a suitable job,

- Energy and resilience: Finding alternative means to generate electricity for the province and alleviate the strain on the electrical grid,
- Ease of business: creating job opportunities through provision of support to smaller businesses,
- Education: Implement initiatives to improve quality of education and access to educational system,
- Health: To maintain our current and health system and improve upon it. With regards to the recent outbreak of the coronavirus - or COVID-19 provincial treasury, (in their 2020 Budget) have stated that they have made provision for unanticipated events,
- Transport,
- Human settlements (implementing new initiatives to ensure that housing database is updated and backyard dwellers are prioritised) and
- Culture change and innovation.

During his Statement of the Province Address the Premier highlighted the importance of finding ways to minimise unemployment by creating an environment that encourages job creation, through investment and growth and creating an environment which raises the quality of education and prepares generations for a digital future. The Premier mentioned the successes achieved through the implementation of various initiatives with focus on job creation, improvement of education and creation of an environment which encourages expanding social services through partnership with private partners, building of partnerships to foster safer communities, investments in new initiatives and maintenance of existing transport infrastructure and implementation of various youth development programmes which in return will boost employment opportunities. All of the above focus areas are important, however, the basis of all of this is economic growth, investment and job creation. In essence little else is possible if there is no growth or job opportunities.

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier's State of the Province address, the SONA and the 2020 Budget Review. Provincial Treasury placed emphasis on the new Provincial Strategic Plan which will focus on five key Vision Inspired Priorities over the next five years, namely, to create "A Safe Western Cape Where Everyone Prospers"; Growth and Jobs; Empowering People; Mobility and Spatial Transformation and Innovation and Culture. Emphasis was also placed on the following areas of importance, namely, education, health and social development, investment in new and existing infrastructure assets, envision a new cleaner and greener energy future and readiness for future risks that may negatively impact the province.

In his weekly open letter to South Africa on Monday (16 March), president Cyril Ramaphosa warned that the coronavirus will be extremely disruptive and will likely cause damage to the economy.

“We have to address the inevitable economic fallout. We must expect a decline in exports, a drop in tourist arrivals and a severe impact on production, business viability and job creation and retention,” he said.

The municipality had to factor in the negative impact that the Coronavirus (Covid-19) would have on the community of the greater Stellenbosch and surrounding areas with the draft MTREF budget preparation process. The municipality is concerned about the impact that the virus will have on healthcare, education and the most vulnerable people who live in informal settlements, specifically those with chronic diseases, HIV/Aids, tuberculosis and commuters that have to make use of the public transport system.

Economic security, with realistic anticipated revenues were of the many factors that had to be considered with the compilation of the draft MTREF budget. The budget takes into account the current economic climate and the impact that Covid-19 will have on the greater WC024.

National Treasury encourages municipalities to maintain tariff increases at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Curtailing non-core expenditure has always been emphasized by National Treasury. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary.

The initial cost containment measures were introduced through a MFMA Circular. Building on the MFMA Circular, National Treasury and other stakeholders thereafter drafted The Municipal Cost Containment Regulations that promotes the cost containment measures introduced in a number of spending areas. Cost Containment Regulations were issued on 07 June 2019. The implementation of cost containment measures is important as it will assist municipalities to reprioritise expenditure and to free up resources targeted towards service delivery. It will also be used to eliminate wastage of public resources on non-service delivery items. The main object of the regulations is to ensure that the resources of municipalities are used in an effective, efficient and economical manner.

The National Budget places emphasis on municipalities to ensure that expenditure is allocated in an efficient manner, that management is enhanced and that elimination of wastage occurs. The 2020 Budget allocates resources to core social and economic priorities while containing aggregate expenditure growth. Spending plans give effect to priorities of the National Development Plan and the Medium Term Strategic Framework.

---

The economic situation has not improved since the previous financial year. Municipalities are also faced with a difficult fiscal environment as the demand for services rises, weak economic growth put strain on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. While some municipalities have handled these challenges well, others have fallen into financial distress and face liquidity problems. As a result of above mentioned challenges there is a need for municipalities to focus on collecting revenues owed to them, and eliminate any wasteful and non-core spending. It is therefore important that municipalities make adequate provision to service their debt obligations and they must ensure that expenditure is limited to the maximum revenue collected and not spend funds they do not have.

Municipalities are encouraged by National Treasury to maintain tariff increases and adopt a tariff setting methodology that achieves an appropriate balance between the interests of poor households and other customers while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. Cost reflective tariff setting is a requirement of Section 74 (2) of the Municipal Systems Act, 2000 (Act No.32 of 2000). It states that tariffs "must reflect the cost reasonably associated with rendering the service". This means that municipalities must generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development.

Before a municipality can start with the tariff setting process they must first assess the budget to determine whether it is effective and efficient and they must ensure that it is credible for financial sustainability. In sum, the cost considered when setting a cost reflective tariff must include day-to-day operations and maintenance costs, capital financing cost and provision for bad debt, which are collectively referred to as direct costs, and governance and administration costs referred to as indirect costs.

In the instance of bulk tariff increases for electricity municipalities are also encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

---

Drought conditions makes it challenging and difficult for some municipalities to improve their revenue generation from provision of water services. In respect of water services, the following important aspects should be focused on such as improving demand management, maintenance of infrastructure, management of losses, meter reading and tariff setting. The municipality should take strategic action to ensure effective water management and resilience to drought, including the security of water supply, environmental degradation, and pollution of resources to achieve economic growth, development and socio-economic priorities in an equitable and sustainable manner. When setting the tariffs municipalities must ensure that the tariffs charged will be able to cover for the cost of bulk purchases, ongoing operations as well as provision for any future infrastructure.

As a result of the economic landscape and weak tariff setting, municipalities are under pressure to generate additional revenue. Additional revenue needs to be generated because the consumer's ability to pay for services received, continues to decline, which leads to limited revenue collection. The effects of slow growth and economic challenges experienced these past years, still have an impact and continue to place pressure on the finances of the average consumer (levels of disposable income and savings). This typically results in greater difficulty for the municipality with regards to the revenue collection, which have a direct impact on the municipality's ability to provide effective and efficient services, but also to budget accurately for service delivery over the short to medium term.

Continued policy uncertainty and the deterioration in the finances of state-owned companies are some of the main risks and challenges that can hinder the economic outlook. It is as a result of above economic challenges, alongside continued unemployment and slow growth that a more conservative approach is advised for revenue projections. Municipalities affected by the drought should thus consider its impact on revenue generation. The municipalities will also have to improve their efforts to limit non-priority spending and implement stringent cost-containment measures.

Municipalities are required to focus on the following during the compilation of the 2020/2021 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Paying special attention to cost containment measures by, amongst other things, controlling unnecessary spending on nice-to-have items and non-essential activities as per the Cost Containment Regulations issued on 07 June 2019;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households; and
- Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taken into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. As a result of excellent financial discipline, the Stellenbosch Municipality has taken the theme of "Driving efficiencies- doing more with less", to heart. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and 'nice to have' items with regards to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2020/21 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- The effect of COVID-19 on the local economy
- Aging infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The increased cost of bulk water and electricity, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- The Wage Bill: The 2020 Budget Review highlighted the proposed wage bill reduction for public service, wherein municipalities are encouraged to take decisive action to address bloated organisational structures and above inflation increases;
- Attracting economic investment;
- Water Conservation and drought;
- Electricity/ Loadshedding;
- Borrowing for multi-year capital projects and refinancing of existing loans;
- Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook; and
- Limited resources to deal with all key priorities.

---

The following budget principles and guidelines directly informed the compilation of the 2020/21 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable as possible and should ideally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) was used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income. The municipality is mindful of the estimated headline inflation for 2020/2021 of around 4.5 per cent, forming the basis of the extensive income modelling exercise, and also taking into account the principles of economical services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.

The total budget quantum for the 2020/2021 year is R2 263 213 713 of which R1 887 463 402 (83.40%), is allocated to the operating budget and R375 750 311 (16.60%) to capital investment.

---

**OPERATING BUDGET – REVENUE**

Overall revenue budget increase was limited to 2.99% resulting in annual operating revenue increasing from R1 952 927 162 in 2019/2020 to R2 013 159 873 in 2020/2021. Taking cognisance of the economic conditions, the resultant low employment levels and levels of disposable income, it was important to keep services affordable by critically looking at the costs associated with providing the service.

Accordingly management investigated potential pitfalls and amongst others found that spiralling expenditure on employee costs did not keep trend with realistically anticipated revenue streams, compounded by the decline in electricity surpluses as a result of higher input costs to provide the service.

<b>REVENUE CATEGORIES</b>	<b>2019/2020</b>	<b>2020/2021</b>	<b>% INCR.</b>

|---------------------------|----------------|--------|
| Average tariff increases: | Property Rates | 6.50%  |
|                           | Electricity    | 6.43%  |

|                           | Refuse removal | 16.50% |

Taking cognisance of the plight of the poor and the affordability of basic services, the scale up to 20 kl of water was increased by only 6% and usage over 20 kl (20 000 litres) for domestic consumers increases in proportion to consumption.

- The Municipality succeeded in accessing the EPWP Incentive Grant for Municipalities in a bid to give some relief to the poorest of the poor by means of contract employment opportunities over the short term. The allocation for the 2020/21 financial year is R 4 961 000.

---

## Rates

In the 2020/2021 financial year, the Property Rates Tariff paid by owners will increase with 6.50%, whilst total rates also increased with 8.5%. The increase in total rates is due to interim valuations that were performed. Rates rebates to senior citizens and disabled persons are also available as per the requirements of the amended Rates Policy to qualifying ratepayers with a monthly income of R15 000 or less.

## Electricity

According to NERSA, the inclining block rate tariff structure is commonly used to charge for water usage. The feature of this tariff structure is that the more you use, the higher the average price. The objective of the inclining block tariff is to provide protection for lower usage customers against high price increases resulting in a reduction in tariffs to these customers. This means that higher consumption customers will see increasingly punitive charges based on their electricity usage. The municipality is implementing the directive from NERSA as part of the Municipality's Licensing Agreement and as a result had to deal with the negative impact of a declining Electricity surplus, year-on year, putting more pressure on the level and quality of services provided.

Council's attention is further drawn to the fact that the proposed electricity tariff is at 6.43% whereas the increase in electricity bulk purchases for the 2020/2021 financial year is 6.90% as approved by NERSA (National Electricity Regulator of South Africa) for implementation by all municipalities. Although the proposed tariffs increases with 6.43%, the municipality is experiencing a decrease in electricity demand as consumers are utilising alternative energy sources.

Municipalities are urged to examine the cost structure of providing electricity services and to apply to NERSA for electricity tariff increases that reflect the total cost of providing the service, so that they work towards achieving fully cost-reflective tariffs that will help them achieve financial sustainability.

## Water

Taking cognizance of the challenges that the country is currently experiencing due to the severe drought, the plight of the poor and the affordability of basic services, the average tariff increase for the rest of the consumptive water scales is 6.00%. The tariff is designed to cater for current and future capital investment in basic water infrastructure and the need to generate surpluses. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2020/2021 and not based on the approved budget for the same year.**

---

### **Sewerage (Sanitation)**

The proposed increase in this tariff is 6.50%. Sanitation services is classified as an economical service. This means that the service charges for sanitation must cover the cost of providing the service, i.e. it must at least break even. This tariff increase is necessitated by operational requirements, maintenance of existing aging infrastructure, new infrastructure financing/provision and to ensure that the service is delivered in a sustainable manner. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2020/2021 and not based on the approved budget for the same year.**

### **Refuse (Solid Waste)**

Refuse removal services, like sanitation are also classified as an economical service. This means that the service charges for refuse must cover the cost of providing the service, i.e. it must at least break even. The municipality will implement an above inflation tariff increase as this service does not break even and to provide for the additional expenditure for the transport of the waste from the Stellenbosch Landfill Site. The solid waste tariffs were modelled to give effect to the principle of the service charge being cost reflective as the service cannot be cross-subsidized. It is proposed that the tariff increases by 16.50% as a result of the before mentioned. The very nature of this tariff does not lend it to financing the expansion of the landfill site and therefore the proposed extension by way of constructing the new cell, was funded from council's own reserves.

**It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2020/2021 and not based on the approved budget for the same year.**

### **Debt Management**

The municipality is currently executing all credit control and debt collection procedures as required in the approved Credit Control and Debt Collection policy. These internal procedures followed include the disconnection of services, where there are services that can be disconnected, the issuing of final notices, the conclusion of reasonable agreements where the settlement of the accounts are not possible and also the follow up on defaulting debtors not honoring arrangements. The municipality continuously enforces the above procedures to ensure that debt which is collectable is collected and all debt that is regarded as not recoverable, be written off.

The municipality developed a revenue enhancement strategy. The document focuses on the formulation and implementation of strategies to improve financial management and controls within

the municipality. The objective of any successful revenue enhancement strategy is to build and improve on current payment levels and then to recover arrear debt.

The municipality has also promulgated the Credit Control and Debt Collection By-Law on the 4<sup>th</sup> of March 2011 to strengthen the internal credit control and debt collection procedures through handing over of all debt over 90 days to the appointed attorneys.

A zero tolerance approach will be followed where consumers are able to pay for services, as this indirectly denies paying consumers the level and standard of service that they are entitled to.

**OPERATING BUDGET - EXPENDITURE**

The budget sees an increase in annual operating expenditure from R 1 842 012 085 in 2019/2020 to R1 887 463 402 in 2020/2021. This 2.47% increase is primarily due to increases in several expenditure categories, examples which are included in the table below:

<b>EXPENDITURE CATEGORIES</b>	<b>2019/2020</b>	<b>2020/2021</b>	<b>% INCR.</b>
Employee Related Costs	557,267,891	579,439,085	3.98%
Remuneration of Councillors	19,936,393	21,132,587	6.00%
Depreciation & Impairment	206,956,223	205,627,580	-0.64%
Finance Charges	29,877,000	39,348,891	31.70%
Bulk Purchases	453,958,271	482,195,922	6.22%
Other Expenditure	574,016,306	559,719,337	-0.02%
<b>Total Expenditure</b>	<b>1,842,012,084</b>	<b>1,887,463,402</b>	<b>2.47%</b>

**Council to note the upward pressure of external borrowing interest (Finance Charges) on future tariffs. In this regard, strong political will and strategic leadership is required to ensure that the municipality maintains the position of being responsive to its communities by ensuring that service charges are kept affordable and realistic by amongst other, critically investigating funding choices and expenditure decisions.**

***Explanation of significant expenditure variances:***

**Finance Charges**

The interest payable for the 2020/2021 financial year has been calculated on the maximum amount of possible borrowings drawn down up to the end of the 2020/2021 financial year.

**Bulk Purchases**

The municipal tariff guideline increase issued by NERSA setting the bulk purchase increase at 6.90%, whilst the increase on water was estimated at 8% as the bulk purchase charges of the City was not available at the time of compilation.

**Other expenditure**

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions. These interventions includes amongst other, measures to limited telephone usage and filling of critical vacancies that will result in a decrease in consulting fees. As a result of these interventions other expenditure decreased with 0.02% from R574 016 306 in 2019/20 to R 559 719 337 in 2020/21.

## PART 2

### A: OVERVIEW OF STELLENBOSCH MUNICIPALITY

#### Background

Stellenbosch Municipality is located in the heart of the Cape Winelands. It is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers approximately 900 km<sup>2</sup>.

## **State of the Greater Stellenbosch Area**

Apart from formal settlement areas, the municipal area also includes a number of informal settlements. Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in that year. Today, the area has become primarily known for its extraordinary wines, fruit, world renowned cultural landscapes and exceptional scenic quality. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their rich heritage and traditions, but also the divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch, Boland College, sports and culinary institutions and a number of prestigious schools. It has a strong business sector, varying from major South African businesses and corporations, to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. The area's numerous wine farms and cellars are very popular and the area is the home of the very first wine route in South Africa.

A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has hosted star performances over many generations while the Danie Craven Stadium is the home of Maties rugby, the largest rugby club in the world. The municipal area has a number of theatres, which include the University's HB Thom Theatre, Spier Amphitheatre, Dorpstraat Theatre, Aan de Braak Theatre, and Oude Libertas Amphitheatre – well-known for its summer season of music, theatre and dance.

Limited municipal resources require an increase in multi-sectoral partnerships to address the broad spectrum of needs in the community. The Municipality cannot address the challenges of Stellenbosch on its own, not only because of limited resources, but also because it does not control all the variables impacting on development and management in the town. Welfare and community organisations play a leading role in assisting to meet the needs of previously neglected communities. The business sector also play a key role in shaping the economic development of the Municipal area.

### 3.2 Location

Below is a map of the Stellenbosch Municipality’s area of jurisdiction:

**Figure 1: Locality map of Municipal Boundaries**

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to the City of Cape Town and Drakenstein Municipality. As a local authority Stellenbosch Municipality governs the towns of Stellenbosch, Franschoek and Pniel, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, Stellenbosch Municipality (SM) forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschoek, and Klapmuts. There are also a number of smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniel, Johannesdal, Lanquedoc, Lyndoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vloottenburg. Stellenbosch is a sought after space, offering opportunity and quality of living, yet in close proximity to city life. This has placed the municipal area under constant development pressure.

Stellenbosch is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. According to population growth estimates, of the Community Survey the population figures for Stellenbosch for 2019 indicates a number of 186 274 people and 52 374 households. The Municipality’s area of jurisdiction includes the town of Stellenbosch and stretches past Jamestown to Raithby in the South, Bottelary, Koelenhof, and Klapmuts to the North, and over the Helshoogte Pass to Pniel, Kylemore, Groendal and Franschhoek in the East.

The following municipalities share their borders with Stellenbosch Municipality:

- 🍷 The City of Cape Town (South);
- 🍷 Drakenstein Municipality, Cape Winelands District (North);
- 🍷 Breede Valley Municipality, (North-east); and
- 🍷 Theewaterskloof Municipality, (South-west).

Below is a map of the Cape Winelands District in relation to the provincial district boundaries:

The Western Cape Province, which makes up 10.6% of the country's land surface and encompasses an area of 129 462 km<sup>2</sup>. The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden *renamed Garden Route*, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

### 3.3 Socio-Economic Perspective

#### 3.3.1 Population Growth

With an estimated population of 186 274 in 2019, Stellenbosch is the third most populated municipal area in the Cape Winelands District (CWD). The area is expected to grow to 200 157 by 2023, equating to an average annual growth rate of 1.8 per cent, and set to become the second most populated area in the District after Drakenstein from 2020 onwards. The estimated population growth rate of Stellenbosch is slightly higher than that of the CWD at 1.6 per cent and on par with the Western Cape average annual growth rate of 1.8 per cent over the same period.

The table below depicts Stellenbosch's population composition by age cohorts. These groupings are also expressed as a dependency ratio which in turn indicates who are part of the workforce (ages 15-64) and those, who are depending on them (children and senior citizens). A higher dependency ratio implies greater pressure on social systems and the delivery of basic services. Between 2019 and 2025, the largest population growth was recorded in the 65+ aged cohort which grew at an annual average rate of 4.1 per cent. This predicted growth rate increases the dependency ratio towards 2025.

**Table 2: Age Cohorts and Dependency Ratio**

Year	Children: 0 – 14 Years	Working Age: 15 – 65 Years	Aged: 65 +	Dependency Ratio
2019	45,105	131,887	9,282	41.2
2022	47,544	140,077	10,647	41.5
2025	49,749	145,910	11,806	42.2

#### 3.3.2 Access to Services and Housing

Since no new household survey information is available (compared to SEPLG 2017), this section highlights housing and household services access levels from the most recent available information from Statistics South Africa's Community Survey 2016. The next household survey which includes municipal level access to household services will be the Census in 2021.

The table below indicates access to housing and services in the Stellenbosch Municipal area. With a total of 52 374 households, only 65.1% have access to formal housing.

**Table 3: Access to Services**

Community Survey 2016	Stellenbosch	Cape Winelands District
<b>Total number of households</b>	<b>52 374</b>	<b>236 006</b>
<b>Formal main dwelling</b>	34 071	191 077
	65,1%	81,0%
<b>Water (piped inside dwelling/ within 200m)</b>	51 581	232 605
	98,5%	98,6%
<b>Electricity (primary source of lighting)</b>	51 386	228 650
	98,1%	96,9%
<b>Sanitation (flush/chemical toilet)</b>	47 594	218 483
	90,9%	92,6%
<b>Refuse removal (at least weekly)</b>	37 207	192 974
	71,0%	81,8%

Source: Western Cape, Socio-Economic Profile 2018

Access to water, electricity and sanitation services were however significantly higher as at 98.5%, 98.1% and 90.9% respectively while household access to refuse removal services was at 71.0%. With the exception of refuse removal service, these figures are on par or above that of the Cape Winelands District.

### 3.3.3 Education

Education and training improves access to employment opportunities and helps to sustain and accelerate overall development. Quality Education is the 4th Sustainable Development Goal, whilst the National Development Plan (NDP) emphasises the link between education and employment as well as the significant contribution it makes to the development of the capabilities and wellbeing of the population. Early childhood development (ECD) is one of the priority areas of the South African government and remains a critical policy issue that the Department of Education aims to address. Early years in life are critical for acquisition of perception motor skills required for reading, writing and numeracy in later years.

Attendance of children between 1 and 2 years old at educational facilities fluctuates and is largely attributed to working parents in need of child care. Attendance between 3 and 5 years old shows a promising increase of attendance at early childhood facilities, with attendance of 73% for age group 3 and 72% for age group 4. The results for age group 5 is 51% and comparable to other local municipalities. A number of children within this age group still remain home with a parent or guardian.

Figure 3: Learner enrolment

Source: Western Cape, Socio-Economic Profile 2018

It is commonly assumed that children receive less personalised attention in larger class environments and that high learner-teacher ratios are detrimental to improved educational outcomes. Factors influencing the learner-teacher ratio is the ability of schools to employ more educators when needed and the ability to collect fees.

**Figure 9: Learner-Teacher Ratio**

Source: Western Cape, Socio-Economic Profile 2018

Stellenbosch has the lowest learner-teacher ratio in the District, which bodes well for educational outcomes. The school **drop-out rates** for learners within Stellenbosch Municipal area increased from a low 21.7% in 2015 to 23.0% in 2016, increasing further to 25.6% in 2017 and 27.5% in 2018.

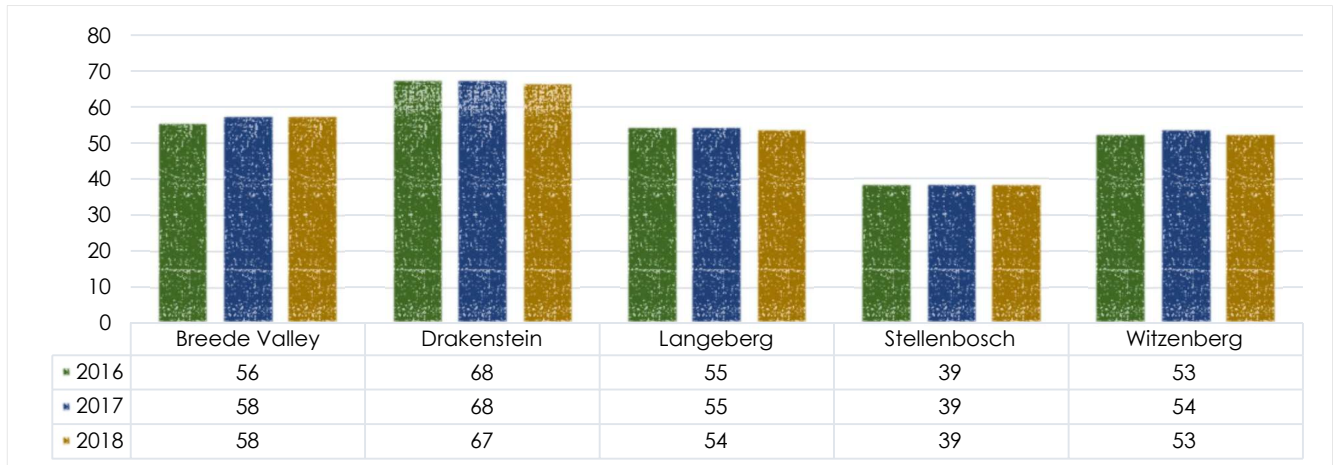

**Figure 4: School drop-out Rates**

Source: Western Cape, Socio-Economic Profile 2019

The learner retention rate for Stellenbosch has been regressing, from 77.0 per cent in 2016 to 74.4 per cent in 2017 and 72.5 per cent in 2018. Despite the regression, it remains above the retention rate for the Western Cape which was 66.8 per cent in 2018.

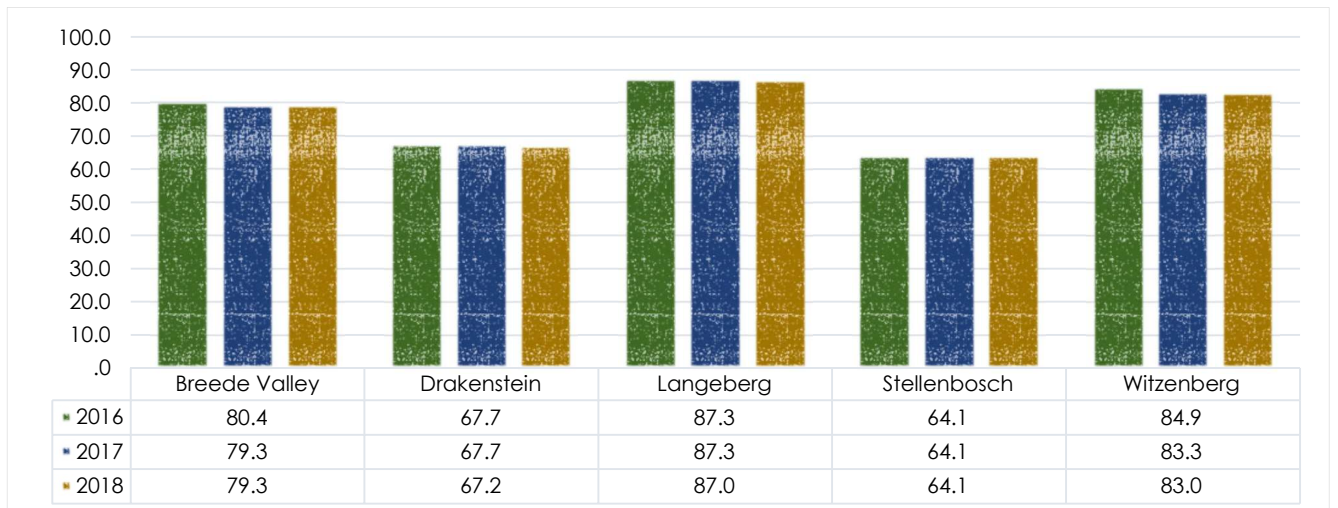

**Figure 5: Educational Facilities**

Source: Western Cape, Socio-Economic Profile 2019

The number of schools in the Stellenbosch municipal area and across the CWD remains mostly unchanged in recent years, the exception being the closure of one school in the Witzenberg and Drakenstein municipal areas between 2017 and 2018. The closure of these schools could have a negative impact on education outcomes given the gradual increase in learner enrolment.

**Figure 6: No Fee Schools**

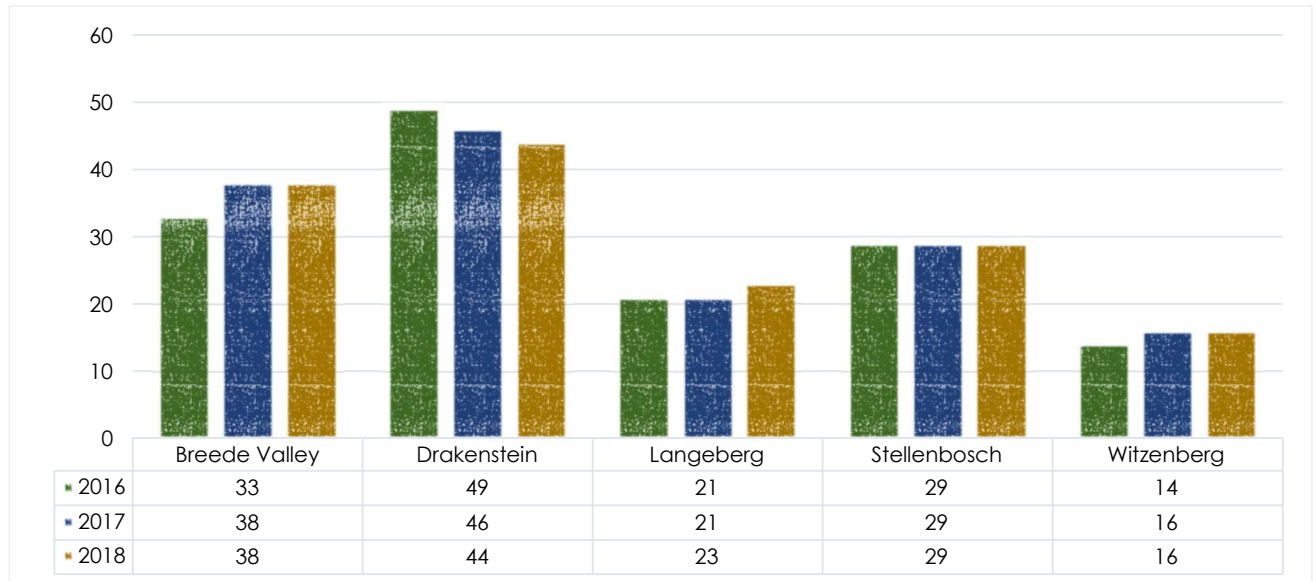

Source: Western Cape, Socio-Economic Profile 2019

The proportion of no-fee schools in the Stellenbosch Municipal area remained the same at 64.1 per cent from 2016 to 2018. The proportion of no-fee schools decreased in Breede Valley, Drakenstein, Langeberg and Witzenberg. A decrease in the number of no fee schools could have a negative impact on education outcomes.

**Figure 7: Schools with libraries**

Source: Western Cape, Socio-Economic Profile 2019

There were no changes in the number of schools with libraries in the Stellenbosch area from 2016 to 2018. The availability of library facilities within schools contribute towards narrowing the academic attainment gap by allowing students access to information which in turn directly links to improved education outcomes.

**Figure 8: Educational outcomes**

Source: Western Cape, Socio-Economic Profile 2019

The matric pass rates for the CWD declined overall in 2018, with all areas except for Witzenberg experiencing an increase in their matric pass rates. The 2018 pass rate in the Stellenbosch municipal area (85.2 per cent) is the highest in the District and above the District average (79.5 per cent). Decreasing pass rates should be seen within context where more students potentially pass matric within a certain region than the previous year (in terms of actual numbers), but that less passed as a percentage of the overall enrolment figure. It could also very well be the case where pass rates overall declined, but that the quality of the pass result improved i.e. more students passed with subjects such as maths and science or more students passed with matriculation exemption

(requirement for first-degree study at a South African university).

### 3.3.4 Health

Health is another major factor contributing to the general quality of life in the Western Cape. It is therefore important to monitor the public health facilities as well as a variety of factors such as Human Immunodeficiency Virus (HIV)/Acquired Immunodeficiency Syndrome (AIDS) or Tuberculosis (TB) and general topics that affect the community, like maternal health. This Socio-economic Profile provides the basic statistics concerning these issues. Since this profile focusses on public health facilities, data on private facilities are not included.

**Table 5: Health care facilities**

Area	PHC Clinics		Community Health Centres <sup>1</sup>	Community Day Centres <sup>2</sup>	Hospitals		Treatment Sites	
	Fixed	Non-fixed			District	Regional	ART Clinics	TB Clinics
Stellenbosch	7	6	0	1	1	0	8	15
Cape Winelands District	39	33	0	6	4	2	49	100

Source: Western Cape, Socio-Economic Profile 2019

In 2018, there were a total of 13 primary healthcare clinics (PHC) in Stellenbosch – 7 fixed and 6 mobile facilities. Although there are no community health centres in Stellenbosch, there is one community day centre. There is also 1 district hospital as well as 8 antiretroviral treatment clinics/sites and 15 Tuberculosis clinics/ sites. Access to emergency medical services is critical for rural citizens due to distances between towns and health facilities being much greater than in urban areas. Combined with the relatively lower population per square kilometre in rural areas, ambulance coverage is greater in rural areas to maintain adequate coverage for rural communities.

In 2018, Stellenbosch had 1 ambulance for every 10 000 inhabitants. It is worth noting that this number only refers to Provincial ambulances and excludes all private service providers.

HIV/AIDS management is crucial given its implications for the labour force and the demand for healthcare services

**Table 6: HIV/AIDS Management**

Area	ART clients that remain with treatment month end		Number of new ART patients	
	2017/18	2018/19	2017/18	2018/19

<sup>1</sup> Community Health Centre: A facility that normally provides primary health care services, 24 hour maternity, accident and emergency services and beds where health care users can be observed for a maximum of 48 hours and which normally has a procedure room but not an operating theatre.

<sup>2</sup> Community Day Centre: A health facility that provides a comprehensive health care services during day hours, including mother and child health, chronic diseases care, women's health, HIV and TB care, men's health, acute services, physio therapy, mental health services and oral health care.

The number of clients (patients) that remain committed to their antiretroviral treatment (ART) plan in the Stellenbosch municipal area increased by 6.3 per cent from 5 702 patients in 2017/18 to 6 064 in 2018/19. There is a notable decrease in the number of new clients starting ART treatment – the number of new patients in the Stellenbosch municipal area decreased by 20.5 per cent from 801 in 2017/18 to 637 in 2018/19. This could be an indication that the HIV infections are decreasing or an indication that less people are being tested and access HIV treatment.

**Figure 1: Tuberculosis**

Source: Western Cape, Socio-Economic Profile 2019

Tuberculosis (TB) accounted for 7.6 per cent of the premature deaths in the Province in 2016. The number of TB patients within the Stellenbosch municipal area has gradually decreased from 1 173 in 2016/17 to 1 151 in 2017/18 before increasing to 1 175 in 2018/19. The 1 175 registered TB patients received treatment at 15 TB clinics/treatment sites. Above figures refer to registered patients and should not be interpreted as a general decline in TB infections.

## Child Health

**Table 7: Child Health**

Area	Immunisation Rate		Malnutrition		Neonatal Mortality Rate		Low birth weight	
	2017/18	2018/19	2017/18	2018/19	2017/18	2018/19	2017/18	2018/19

Cape Winelands District	58.9	61.8	4.7	4.4	9.5	9.3	16.0	15.8

Source: Western Cape, Socio-Economic Profile 2019

The **immunisation coverage rate** for children under the age of one in the Stellenbosch municipal area increased from 52.3 per cent in 2017/18 to 59.2 per cent in 2018/19. This is the second lowest immunisation rate within the CWD.

In 2018/19, there were 1.8 **malnourished children** under five years of age (severe acute malnutrition) per 100 000 people in the Stellenbosch municipal area. This is an improvement from 2.7 the previous year. In 2018/19, the Cape Winelands District was the worst performing district for malnourished children.

The **neonatal mortality rate** (NMR) (deaths per 1 000 live births before 28 days of life) for the Stellenbosch municipal area declined from 5.6 deaths in 2017/18 to 6.6 in 2018/19. A fall in the NMR may indicate improvement in new-born health outcomes, or it may potentially reflect reporting constraints.

A total of 9.2 per cent of all babies born in facility in the Stellenbosch municipal area in 2018/19 **weighed less than 2 500 grams**. This is an improvement from the 9.6 per cent recorded in 2017/18 and below the District average of 15.8.

### 3.3.5 Safety and Security

South African society is becoming more and more violent. This was confirmed by the 2018/19 crime statistics released by the South African Police Service (SAPS) and Stats SA.

**Table 8: Safety and Security Statistics**

---

According to the official 2018/19 crime statistics, the Western Cape murder rate increased by 4.4 per cent between 2017 and 2018. In comparison, the rate decreased within the Stellenbosch municipal area and most of the broader CWD over the same period, with the exception of Drakenstein. The number of murders in the Stellenbosch municipal area decreased by 1.7 per cent even though the number per 100 000 people remains at 31 whilst in turn decreasing by 2.6 per cent from 38 in 2017 to 37 in 2018 in the District.

The actual number of reported sexual offences in Stellenbosch has decreased from 2017 to 2018. The number of reported occurrences per 100 000 people decreased from 108 in 2017/18 to 99 in 2018/19 (8.3 per cent decrease). The sexual offences rate for Stellenbosch for 2018/19 was higher than that of the District which also decreased from 105 in 2017/18 to 92 in 2018/19 (12.4 per cent decrease).

Although there was an improvement between 2017/18 and 2018/19, the Western Cape still has the highest drug-related crime rate in the country at 1 203 reported incidents per 100 000 people in 2018/19. The drug-related crime rate for Stellenbosch decreased from 1 459 reported incidents per 100 000 people in 2017/18 to 1 166 in 2018/19, a 20.1 per cent drop. The incidences of drug-related crime rate decreased amongst all local municipal areas across the District between 2017/18 and 2018/19 with the District average decreasing from 1 727 to 1 186 respectively, a 31.3 per cent decrease.

The number of reported cases of driving under the influence (DUI) of alcohol or drugs per 100 000 people in the Stellenbosch municipal area increased by 3.0 per cent from 101 incidences in 2017/18 to 104 in 2018/19. The DUI rate across the CWD decreased from 94 incidences per 100 000 people in 2017/18 to 90 in 2018/19 (4.3 per cent). Overall, the DUI rate for the Western Cape on average has declined.

The 2018/19 crime statistics indicate that residential burglaries per 100 000 people in the Western Cape decreased from 644 in 2017/18 to 583 in 2018/19 (9.5 per cent decrease). Overall the incidence of residential burglaries in the CWD and Stellenbosch also decreased by 4.1 per cent and 24.1 per cent respectively.

According to a recent study, most road fatalities in Africa fall within the working age cohort - between the ages of 15 – 64 years – whilst three out of four fatalities were found to be male (Peden et al., 2013). The untimely death of these primary breadwinners therefore impacts directly upon not only the livelihood of family structures, but deprive society of active economic participants that contribute towards growth and development. The socio-economic impact of such road fatalities has proven to be particularly devastating in South Africa where most road users hail from poor and vulnerable communities.

The number of road user fatalities in the Stellenbosch municipal area increased from 29 in 2017 to 37 in 2018. (27.6 per cent increase). In comparison, the number of fatalities across the broader CWD region increased by 10.2 per cent from 215 in 2017 to 237 in 2018. Contributing factors to road fatalities include driver fatigue and distractions, excessive speeding and reckless driving as well as road obstacles such as pedestrians and animal.

### 3.3.6 Economic Outlook

In 2017, the total GDP for Stellenbosch amounted to R15.639 billion with economic activity mostly focussed within the tertiary sector (R10.953 billion; 70.0 per cent). The overall economy grew by 1.9 per cent between 2008 and 2017. From 2014 – 2018 (estimated) economic growth in the municipal area slowed to 1.4 per cent compared to the District's growth of 1.0 per cent over the same period. Stellenbosch's GDP economy is expected to grow at 0.8 per cent 2018.

The **primary sector** is almost exclusively supported by the agriculture, forestry and fishing sector which contributed 6.2 per cent (R974.0 million) to total GDP in 2017. The agriculture, forestry and fishing sector which grew at an average rate of 2.1 per cent between 2008 and 2017, which is slower when compared to the other sectors. The sector contracted by 0.3 per cent from 2014 to 2018 dropping off mainly due to the impact of the drought.

Challenges were encountered in the **secondary sector**, specifically in the manufacturing and electricity, gas and water sectors. The secondary sector contributed 23.5 per cent (R3.682 billion) to total GDP in 2017 and contracted by 0.6 per cent between 2008 and 2017. Strong growth within the construction sector (4.0 per cent) was offset by weakened performance in the manufacturing (-1.5 per cent) and electricity, gas and water (0.1 per cent) sectors. From 2014 to 2018 growth in the construction sector slowed to 2.2 per cent while the manufacturing sector shrunk by -0.8 per cent.

The finance, insurance, real estate and business services sector is the most dominant sector in the tertiary sector and the largest contributor to GDP in 2017 (R3.359 billion; 21.5 per cent), followed closely by the wholesale and retail trade, catering and accommodation sector (R3.179 billion; 20.3 per cent). From 2008 to 2017, the fastest growing sector was the transport, storage and communication sector, growing at 4.7 per cent on average per annum. It is also expected to be the fastest growing sector in 2018, with a growth rate of 3.3 per cent.

In 2017, the CWD economy grew by an estimated 1.7% which is higher than the provincial growth of 1%. In 2016, the CWD contributed R60.6 billion to the economy of the Western Cape, with the largest contributions made by the Drakenstein (R19.9 billion) and Stellenbosch (R14.6 billion) municipal areas. The economies of these two municipal areas grow at very similar rates, and it is estimated that between 2013 and 2017, the Drakenstein and Stellenbosch Municipal areas' economies grew at an annual average rate of 1.7%.

The local economies were influenced by the volatile national economy, especially in 2015, 2016 and 2017. The economic growth in these three years has fluctuated sporadically and is still much lower than the average 10-year economic growth rates.

The local economy of the Stellenbosch Municipal area is driven by the wholesale and retail trade sector; the finance, insurance, real estate and business services sector; and the manufacturing sector. Collectively, these sectors contribute 58.7% (R8.6 billion) to the Municipal GDP. The manufacturing sector in the Stellenbosch Municipal area is highly reliant on the agriculture, forestry and fishing sector, as 40% of manufacturing sector activities are within the food, beverages and tobacco subsector.

The Stellenbosch Municipal area has a large farming community; the agriculture, forestry and fishing sector contributed 14.7 per cent to employment in 2016 making it the 3rd largest contributor to employment. Stellenbosch contributed 76 585 jobs to formal employment in the CWD in 2017.

In 2017, employment within the Stellenbosch Municipality was mostly concentrated within wholesale and retail trade catering and accommodation (25.4 per cent; 19 444), the finance, insurance, real estate and business services sector (16.7 per cent; 12 794) and the Community, social and personal services (14.4 per cent, 11 006) sectors. Collectively, these three sectors in contributed 56.5 per cent to total employment in the municipal area.

Between 2008 and 2017, a net total of 9 611 jobs were created in Stellenbosch – notable job creation in the wholesale and retail trade catering and accommodation (5 631) and the finance, insurance, real estate and business services (3 541) sectors were offset by job losses in the agriculture, forestry and fishing (-4 526) and manufacturing (-546) sectors. Job losses in the agriculture, forestry and fishing sector can mostly be attributed to the impact of the drought, although other factors such as mechanisation also contributed to job losses.

In 2017, Stellenbosch's labour force mostly consisted of semi-skilled (43.1 per cent) and low-skilled (33.0 per cent) workers. The semi-skilled category (3.5 per cent) grew faster than the skilled (2.6 per cent) and the low-skilled (2.5 per cent) categories. The demand for more skilled labour is on the rise which implies the need to capacitate and empower low-skilled workers.

In 2018, unemployment in Stellenbosch stood at 9.9 per cent, higher than the CWD at 9.5 per cent, but still significantly lower than the Provincial average of 17.7 per cent. This estimate is based on the narrow definition of unemployment i.e. the percentage of people that are able to work, but unable to find employment.

### 3.3.8 Agri-Parks

Agro-processing opportunities, such as vegetable packing facility, an abattoir and feedlot, cold storage for fruit as well as a fruit pulp processing plant, is fast becoming a key economic contributor in Stellenbosch. The below diagram outlines the locations for Farmer Production Support Units (FPSUs), the Agri-Hub and the RUMC within the CWD. The Agri-Park Programme will not only focus on the main commodities (wine grapes and fruit), but also on other commodities that are unique to the areas around each FPSU. These commodities include livestock and lucerne, as well as essential oils, traditional herbs and vegetables.

Figure 9: Agri-Park Implementation

Due to the importance of the agricultural value chain, initiatives such as the Agri-Park Programme has the potential for widespread economic benefits since it will not only support farming activities but also promote local processing. Not only will these development support and generate new farming activities in the District, it will also stimulate the economy through the construction sector, the manufacturing sector (forward and backward linkages), the wholesale and retail trade, catering and accommodation sector and the transport, storage and communication sector, contributing to economic growth and employment creation.

Due to the importance of the agricultural value chain within the District, initiatives such as the Agri-Park Programme has the potential for widespread economic benefits since it will not only support farming activities but also promote local processing.

### 3.3.9 General Demographics of Farmworkers

The Farmworker Household Survey Report of 2014/15 reports on general demographic trends of farmworker households within the Cape Winelands area. According to the study, Stellenbosch had 811 households and approximately 3 351 people living and working on farms. The study further indicated that there is approximately an equal split between males and females with an average age of 27.37 years. It was also found that over 66% of individuals were below the age of 35, i.e. classified as youth.

The study found that an overall of 62.63% of individuals living in farmworker households have permanent jobs both on and off the farm on which they reside. Approximately 18.1% of individuals living on farms were unemployed, while 19.27% had either temporary or seasonal work.

### 3.3.10 Poverty Context

Inflation adjusted poverty lines show that food poverty increased from R219 in 2006 to R531 per person per month in 2017. The lower-bound poverty line has increased from R370 in 2006 to R758 per person per month in 2017 while the upper-bound poverty line has increased from R575 in 2006 to R1 138 per person per month in 2017.

The United Nations uses the Human Development Index (HDI)<sup>3</sup> to assess the relative level of socio-economic development in countries. Indicators used to measure human development include education, housing, access to basic services and health indicators. Per capita income is the average income per person of the population per year; per capita income does not represent individual income within the population. The life expectancy and infant mortality rates are other important criteria for measuring development.

Figure 10: Human Development Index (HDI)

Source: Global Insight, 2017

There has been a general increase in the HDI in Stellenbosch, Cape Winelands and the whole of the Western Cape between 2011 and 2015. With the exception of a drop in HDI levels for the Western Cape for 2016. The human development index increased to 0.72 in Stellenbosch, 0.71 in the Cape Winelands District, and 0.73 in the Province.

An increase in real GDP per capita, i.e. GDP per person, is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDP per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDP per capita indicator.

<sup>3</sup> The HDI is a composite indicator reflecting education levels, health, and income. It is a measure of peoples' ability to live a long and healthy life, to communicate, participate in the community and to have sufficient means to be able to afford a decent living. The HDI is represented by a number between 0 and 1, where 1 indicates a high level of human development and 0 represents no human development.

**Figure 11: GDP per Capita – 2008 to 2017**

At R88 431 in 2017, Stellenbosch Municipal area’s real GDP per capita is significantly above that of the Cape Winelands District’s figure of R71 426 as well as slightly above that of the Western Cape (R87 110).

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a gini-coefficient<sup>4</sup> of 0.7 in 2010 to 0.6 by 2030. Income inequality in the Stellenbosch Municipal area has generally increased between 2008 and 2011, decreasing to 2015 before picking up again, reaching 0.63 in 2017. For the entire period it has been beyond the NDP’s 0.6 target and the increasing trend could see it moving further beyond this level.

**Figure 12: Income Inequality – 2008 to 2017**

Source: Global Insight, 2017

<sup>4</sup> Gini-coefficient or income inequality is the measure of deviation of the distribution of income among individuals or households within a country. A value of 0 represents absolute equality and a value of 1 represents absolute inequality.

Income inequality levels were slightly higher in Stellenbosch than in the Cape Winelands District and the Western Cape. According to the United Nations Development Report on Human Development for 2018, South Africa ranked 113 on the list after the Philippines, classified as medium Human Development.

The objective of the indigent policies of municipalities is to alleviate poverty in economically disadvantaged communities.

**Table 15: Indigent Households – 2014 to 2017**

Area	2016/2017	2017/2018	2018/2019

The Stellenbosch municipal area experienced an increase in the number of indigent households between 2017 and 2019, implying an increased demand for indigent support and additional burden on municipal financial resources. Similarly, the number of indigent household.

### **3.3.11 Broadband Penetration**

Broadband penetration offers immense economic benefits by fostering competition, encouraging innovation, developing human capital and by building infrastructure. Improved connectivity will attract new business and investments, reduce the cost of doing business and will offer small, medium and micro- enterprises access to new markets.

The location of the Wi-Fi hotspots is reflected in the map below.

### 3.3.12 Law Reform – Implementation of SPLUMA/LUPA in municipalities

The Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA), implemented on 1 July 2015, and the Western Cape Land Use Planning Act of 2014 (LUPA) ushers in a new era of planning and development decision-making where the responsibility rests largely on local municipalities to fulfil their role as land use planning decision-makers as per constitutional mandates and obligations. Section 24(1) of SPLUMA determines that a municipality must, after consultation as prescribed in the Act, adopt and approve a single land use scheme for its entire area within five years from the commencement of this Act.

Stellenbosch Municipality currently has a Land Use Management Scheme in the form of Zoning Schemes compliant with the provisions of the Land Use Planning Ordinance 15 of 1985 (LUPO). Stellenbosch Municipality has developed a draft Integrated Zoning Scheme and is busy with the stakeholder engagement process.

### 3.3.13 From Waste Management to Integrated Waste Management

There is a shortage of available landfill airspace across the province. The recovery of waste material for the waste economy is only at 9%. It is paramount to move away from the landfill bias to integrated

---

waste management. To achieve this, more integrated waste management infrastructure is urgently needed. This will increase the recovery of waste material and thereby save landfill airspace, promote the waste economy, reduce the environmental impacts of waste management and create jobs. A mind shift is also needed from municipalities to move away from seeing waste just as a nuisance and risk to realise the intrinsic value of waste and to utilise the potential value of it.

### **3.3.14 Climate Change**

To date, the implementation of climate change responses to this changed climate has been slow, but it has to be incorporated into every facet of spatial and land use planning, service delivery, infrastructure development and economic planning. Failure would compromise basic service delivery, exacerbate poverty and undermine the most vulnerable communities.

There is a unique opportunity in the immediate short term to radically shift planning and infrastructure development to become climate resilient and to reduce greenhouse gas emissions that are directly driving the problem. The window of opportunity is however short and closing rapidly, implying that climate change response is urgently needed if the Western Cape aims to continue with a thriving local economy and to continue reducing inequality and poverty.

## **B: LEGISLATIVE ENVIRONMENT**

### **Legal Requirements**

The medium term revenue and expenditure framework for 2020/2021, 2021/2022 and 2022/2023 was compiled in accordance with the requirements the relevant legislation, of which the following are the most important:

- i) the Constitution, Act 108 of 1996
- ii) the Local Government Transition Act, Act 209 of 1993
- iii) the Municipal Structures Act, Act 117 of 1998
- iv) the Municipal Systems Act, Act 32 of 2000
- iv) the Municipal Finance Management Act, Act 56 of 2003

In addition to the above, the Municipal Budget and Reporting Framework as approved on 17 April 2009 gave a clear directive on the prescribed reporting framework and structure to be used.

### **Guidelines issued by National Treasury**

National Treasury issued the following circulars regarding the budget for 2015/2016:

## C: OVERVIEW OF ANNUAL BUDGET PROCESS

In terms of Section 24 of the MFMA, Council must, at least 30 days before the start of the financial year, consider the annual budget for approval. Section 53 requires the Mayor of a municipality to provide general political guidance over the budget process and the priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations, gazetted on 17 April 2009, states that the Mayor of a municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging with the responsibilities set out in section 53 of the Act.

A time schedule outlining important dates and deadlines as prescribed for the IDP/Budget process was approved on **14 August 2019**. The budget process for the 2019/2020 MTREF period proceeded/will proceed according to the following timeline

<b>Activity</b>	<b>Time frame</b>
Formulation of budget assumptions	September 2019
Detailed programmes and projects to further define budget	November 2019 – March 2020
IDP and Budget considered by Council	30 March 2020
IDP and Budget - public participation	April 2020
Final approval of IDP and the Budget	27 May 2020

**D: OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH THE INTEGRATED DEVELOPMENT PLAN (IDP)**

The intent of the Strategic goals for the Fourth Generation IDP will remain the same as the goals of the Third Generation IDP, although a slight change for 3 of the goals namely: “Preferred Investment Destination” has been amended to “Valley of Possibility” to have a clearer indication that it needs to include possibilities for all and not just investors; “Greenest Municipality” has been amended to “A Green and Sustainable Valley” to incorporate all facets of sustainability; “ Safest Valley” has been amended to “A Safe Valley”, whilst “Dignified Living” and “Good Governance and Compliance”, remain unchanged.

**Measurable performance objectives and indicators**

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities.

**Performance management at Stellenbosch municipality is evaluated to embody the following;**

**Consistency:** Objectives, performance indicators and targets are consistent between planning and reporting documents.

**Measurability:** Performance indicators are well defined and verifiable, and targets are specific, measurable and time bound.

**Relevance:** Performance indicators relate logically and directly to an aspect of the municipality's mandate and the realisation of its strategic goals and objectives.

**Reliability:** Recording, measuring, collating, preparing and presenting information on actual performance / target achievements is valid, accurate and complete.

Stellenbosch municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employees' performance. The performance of the municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations.

The Five Year Top Level Service Delivery and Budget Implementation is part of the Integrated Development Plan and the financial performance objectives are captured in supporting table SA7.

**E: OVERVIEW OF MUNICIPAL BY-LAWS BUDGET RELATED POLICIES****The following existing policies were reviewed and amended****Ward Allocation Policy**

The objective of the Ward Allocations Policy is to create opportunities for Councillors to identify ward projects in line with the identified IDP needs, with the support of their Ward Committees, which would improve the quality of living in all wards. These projects would need to fit into the basket of services of the relevant User Department and must comply with the following, namely, Local Government's mandate; council policies; support the pillars and objectives of the IDP and directly benefit the community. The Policy shall be governed by the underlying principle of ensuring that ward allocation projects meet the requirements of the Integrated Development Plan, including specific reference to, valley of opportunity, green and sustainable valley, safe valley, valley with dignified living and valley of good governance and compliance. Refer to Appendix 4.

**Rates Policy**

The revised Rates Policy as required by the Municipal Property Rates Act (Act no 6 of 2004) is attached as Appendix 5.

**Tariff Policy**

This policy serves as the implementing tool which guides the levying of tariffs for municipal services in accordance with the provisions of the Municipal Systems Act and any other applicable legislation. Tariffs represent the charges levied by Council on consumers for the utilization of services provided by the Municipality and rates on properties. Tariffs will be calculated in various ways, dependent upon the nature of the service being provided. Refer to Appendix 6.

**Indigent Policy**

Due to the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for basic municipal services. The provision of free basic services ensures that registered indigent consumers have access to basic services. This policy provides the framework for the administration of free basic services to indigent consumers. Refer to Appendix 7.

**Special Ratings Area Policy**

The aim of the policy is to provide the framework to strike an appropriate balance between facilitating self-funded community initiatives that aim to improve and/or upgrade neighbourhoods. Refer to Appendix 8.

---

**Special Ratings Area By-Law**

A “special rating area” refers to a special rating area approved by the Council in accordance with the provisions of section 22 of the Property Rates Act. This By-law aims to provide for the establishment of special ratings areas, to provide for additional rates and to provide for matter incidental thereto. Refer to Appendix 9.

**Credit Control and Debt Collection Policy**

This policy provides a framework to enable Council to proactively manage and collect all money due for services rendered and outstanding property taxes, subject to the provisions of the Municipal Systems Act of 2000 and any other applicable legislation and internal policies of Council. Refer to Appendix 10.

**Irrecoverable Debt Policy**

This policy enables Council and the CFO to write off irrecoverable debt of indigent consumers, debt which cannot be recovered due to consumers not being registered as indigent or not traceable or due to prescription of debt. Refer to Appendix 11.

**Petty Cash Policy**

All purchases below R 2 000 are regulated by this policy. Clear processes and procedures are stipulated to ensure that all transactions are processed effective and efficiently in a bid to ensure prudent financial control. Refer to Appendix 12.

**Travel and Subsistence Policy**

This policy sets out the basis for the payment of subsistence, travel allowance, hourly rate when applicable for the purpose of official travelling. Refer to Appendix 13.

**Cost Containment Policy**

The purpose of the policy is to regulate spending and to implement cost containment measures at Stellenbosch Local Municipality. The objectives of this policy are to ensure that the resources of the municipality are used effectively, efficiently and economically and to implement cost containment measures. The cost containment policy will apply to council and all municipal employees. Refer to Appendix 14.

**Accounting Policy**

This policy provides the accounting framework applicable to the finances of the municipality and is informed by the Municipal Finance Management Act (Act no 56 of 2003). Refer to Appendix 15.

---

**Cash Management and Investment Policy**

To regulate and provide directives in respect of the investment of funds and to maximize returns from authorized investments, consistent with the primary objective of minimizing risk. Refer to Appendix 16.

**Supply Chain Management Policy**

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Preferential Procurement Policy Framework Act, no 5 of 2000 and its accompanying regulations influences and dictates process around the evaluation and awarding of points. In this regard, the Minister of Finance acting in terms of section 5 of the Procurement Policy Framework Act, revised the Regulations accompanying this Act on the 20<sup>th</sup> January 2017 for implementation by all affected public entities by the 1 April 2017. The Supply Chain Management Policy was therefore amended and adopted at Council during February 2017. Refer to Appendix 17.

**Development Charges Policy**

The Municipality derives its authority to impose a development charge in terms of Section 75A. General power to levy and recover fees, charges and tariffs of the Local Government: Municipal Systems Act, 2000, Act 32 of 2000. The Municipality approved its new Land Use Planning Bylaw in terms of the Spatial Planning and Land Use Planning Act, 2013 (Act 16 of 2013) in October 2015 and it was officially promulgated and became effective in December 2015. Since then, the Municipality faces significant changes in the planning environment, amongst others the need for and manner of generating development charges.

The intent is aligned with the following:

- Striving to make Stellenbosch the preferred town for investment and business, where investment inflows and new enterprise translate into jobs and prosperity.
- Establishing the greenest municipality which will not only make Stellenbosch attractive for visitors and tourists, but will also provide a desirable environment for new industries.
- Ensuring a dignified living for all Stellenbosch citizens, who feel that they own their town, take pride in it and have a sense of self-worth and belonging.
- Creating a safer Stellenbosch valley, where civic pride and responsibility supplant crime and destructive behaviour.

Development has an impact on the demand for social infrastructure as much as it does services infrastructure. The infrastructure is essential to support sustainable social and economic development and to ensure the health and well-being of the residents and property owners of the Municipality. Without this infrastructure, investment in Stellenbosch will be hampered and, as the cost to the Municipality in providing social infrastructure is high, funding to cover the cost must be

---

obtained from development charges. Such contributions are a targeted and an equitable way of ensuring that the new beneficiaries make an appropriate and fair contribution to the cost through the developer. Refer to Appendix 18.

**The following existing budget related policies were reviewed but no amendments were necessary:**

#### **Grant-in-aid Policy**

This policy provide the framework for grants-in-aid to non-governmental organisations (NGO's), community-based organisations (CBO's) or non-profit organisations (NPO's) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003). Refer Appendix 19.

#### **Virementation Policy**

The policy sets out the Virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year. The policy shall give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the Approved budget and it will be applicable to all municipal staff and councillors involved in budget implementation. Refer to Appendix 20.

#### **Asset Management Policy**

The Municipal Finance Management Act Number 56 of 2003 will be the legislative framework for the Asset Management Policy whilst Generally Recognised Accounting Practice (GRAP) will be the accounting framework.

The Municipal Council of Stellenbosch is in terms of the MFMA and GRAP obliged to adopt an Asset Management Policy to regulate the effective management of all council's assets.

- **And whereas** the municipal manager as accounting officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.

- 
- **And whereas** these assets must be protected over their useful life and may be used in the production or supply of goods and services or for administrative purposes in meeting the municipality's operational requirements.
  - **Now therefore** the municipal council of the Stellenbosch Municipality adopts this asset management policy. Refer to Appendix 21.

### **Budget Implementation and Monitoring Policy**

The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. The framework for virementations is also explained and regulated in this policy as well as monitoring roles and responsibilities. Refer to Appendix 22.

### **Borrowing, Funds and Reserves**

This policy strives to establish a borrowing framework policy for the Municipality and set out the objectives, policies, statutory requirements and guidelines for the borrowing of funds. The policy provides a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year non cash backed liabilities. The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework. Refer to Appendix 23.

### **Financing of External Bodies performing municipal functions Policy**

The purpose of this Policy is to provide a framework for financial assistance by Stellenbosch Municipality ("the Municipality") to external organisations/bodies conducting local government functions to the extent as set out in section 155(6)(a) and (7) of the Constitution as listed in Part B of Schedule 4 and 5. Refer to Appendix 24.

### **Liquidity Policy**

The documented Liquidity Policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to in order to ensure that its current and future liquidity position is managed in a prudent manner. This policy will be implemented to provide guidance on the minimum liquidity level that Stellenbosch Municipality has to maintain in order to comply with required legislative and / or National Treasury directives and within the overall financial management objectives as approved/reviewed by the Council from time to time. Refer to Appendix 25.

## **Supply Chain Management Policy for Standard for Infrastructure Procurement and Delivery Management (SIPDM)**

This policy establishes the Stellenbosch Municipality's policy for infrastructure delivery management in accordance with the provisions of the regulatory frameworks for procurement and supply chain management. It includes the procurement for a new facility to be occupied and used as a functional entity. Refer to Appendix 26.

### **Inventory Management Policy**

In terms of the MFMA, the Accounting Officer for a municipality must:

- (a) be responsible for the effective, efficient, economical and transparent use of the resources of the municipality as per section 62 (1)(a);
- (b) take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure and other losses as per section 62(1)(d); and
- (c) be responsible for the management, including the safeguarding and the maintenance of the assets, and for the management of the liabilities, of the municipality as per section 63 (1)(a) and (b).

The policy aims to achieve the following objectives which are to provide guidelines that employees of the Municipality must follow in the management and control of inventory, including safeguarding and disposal of inventory, procure inventory in line with the established procurement principles contained in the Municipality's Supply Chain Management Policy and eliminate any potential misuse of inventory and possible theft. Refer to Appendix 27.

### **Preferential Procurement Policy**

Section 217(1) of the Constitution, 1996 (Act 108 of 1996) provides that when contracting for goods and services, organs of state must do so in accordance with a system that is fair, equitable, transparent, competitive and cost effective. Section 217(2) and (3) of the Constitution allows organs of state to grant preferences when procuring for goods and services within a Framework prescribed by National legislation. The preferential procurement policy is founded on the following principles, namely, value for money, open and effective competition, ethics and fair dealing, accountability and reporting and equity. This policy will be applicable to all active industry sectors within the Stellenbosch Municipal area and must be read with the supply chain management policy of the municipality. Refer to Appendix 28.

## F: OVERVIEW OF KEY BUDGET ASSUMPTIONS

Municipalities' long-term financial viability depends largely on the extent to which improved and sustainable revenue capacity on the one hand and sound financial management of its resources on the other hand can be achieved. These imperatives necessitate proper multi-year financial planning. Future impacts of revenue streams, expenditure requirements and the financial implications for the community at large (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programs, projects and sundry service delivery actions.

Taking these principals into consideration, the following assumptions (**ceteris paribus**) were made and relates to the parameters within which the budget was compiled for the next three years

	2020/2021	2021/2022	2022/2023
<b>Percentage Increase:</b>			
Water	6.00%	6.50%	6.50%
Electricity	6.43%	7.00%	7.00%
Sanitation	6.50%	6.50%	6.50%
Refuse	16.50%	16.50%	16.50%
Property Rates	6.50%	6.50%	6.50%
<b>Collection Rates</b>			
Water	96%	96%	96%
Electricity (Post Paid Meters)	96%	96%	96%
Sanitation	96%	96%	96%
Refuse	96%	96%	96%
Rates	96%	96%	96%
<b>Employee Related Costs</b>			
Salaries and Wages and related costs	6.25%	7.00%	7.00%
Notch Increment	2.40%	2.40%	2.40%
<b>Other Assumptions</b>			
Bulk Purchases - Electricity	6.90%	7.00%	7.00%
Bulk Purchases - Water	8.00%	8.00%	8.00%

---

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions and higher than headline CPI revenue increases to ensure a sustainable budget over the medium term.

The budget theme of “*Driving Efficiencies; i.e. reprioritization of existing resources / current allocations*”, resulted from the realization that no, or limited, scope for additional externally- or internally-funded revenue growth existed and the challenge that more needed to be done with the existing resource envelope. This was reiterated in **National Treasury Budget Circular 99** where it states that “...municipalities must adopt a conservative approach when projecting their expected revenues and cash receipts. **Municipalities should also pay particular attention to managing all revenue and cash streams effectively and carefully evaluate all spending decisions.**”

In previous financial year the municipality implemented means to manage the telephone usage which resulted in a reduction in the telephone cost.

During the new financial year the municipality plans to implement measures that will decrease spending on Legal Cost by focusing more on in-house capacity building rather than making use of contracted/ outsourced consulting and legal services.

The municipality will embark on the recruitment drive to fill critical vacancies. This will in return result in a decrease in Professional and Consultant Fees.

These are some of the initiatives the municipality plans to implement under the budget theme “*Driving Efficiencies; i.e. reprioritization of existing resources / current allocations*”,

## G: HIGH LEVEL BUDGET OVERVIEW

### Capital Budget for 2020/2021, 2021/2022 and 2022/2023

Although the capital budget is infrastructure orientated and addresses the very urgent need for the upgrading of infrastructure as addressed by the different infrastructure master plans, it does however speak to the IDP (Integrated Development Plan) and the needs of the community. It's also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the "back to basics" approach. The responsiveness of the budget can be measured against what was identified as priorities by the community and the actual amount allocated, bearing in mind that resources are limited, to address or at least alleviate the most critical needs identified.

In this regard it is important to note that the need for infrastructure upgrades, inclusive of electricity infrastructure were key to ensure the delivery of sustainable services.

The capital budgets as proposed, amounts to:

<u>2020/2021</u>	<u>2021/2022</u>	<u>2022/2023</u>
R	R	R
375,750,311	436,267,624	458,119,392

### Compilation of the Capital Budget

The capital budgets depicted per Directorate are as follows:

## **REPORT RECEIVED FROM COMMUNITY DEVELOPMENT: 2020/2021 GRANT-IN-AID ALLOCATIONS AND DONATIONS**

### **1. SUBJECT**

GRANT IN AID APPLICATIONS AND DONATIONS 2020/2021

### **2. PURPOSE**

To obtain Council's approval for Grant-in-Aid (GiA) applications and recommended donations for the financial year 2020-2021.

### **3. DELEGATED AUTHORITY (FOR DECISION BY MUNICIPAL COUNCIL)**

For decision by the Municipal Council in terms of the Municipal Finance Management Act (MFMA), Act (56 of 2003) Section 17.(3) (e) relating to content of annual budgets and supporting documents.

### **4. EXECUTIVE SUMMARY**

The applications referenced are in terms of the annual GiA donations made to non-governmental organisations (NGOs), community-based organisations (CBOs), non-profit organisations (NPOs) or non-profit companies (NPC) and bodies that are used by government as agencies to serve the poor, marginalised or otherwise vulnerable as envisaged by the Grant in Aid Policy approved at the Special Council Meeting in May 2019.

### **5. RECOMMENDATIONS**

That council approve the recommended and conditional donations as per the attached list.

### **6. DISCUSSION / CONTENTS**

#### **6.1. Background**

In terms of Council's Grant-in-Aid Policy, proposals were called for by means of advertisement in the press on 10 October 2019 (Eikestad Nuus) and on the municipal website and facebook page.

The advertisement included an invitation to attend one of two compulsory workshops on either 05 November 2019 or 12 November 2019 to assist and give guidance on the policy and application procedure. Two hundred and Twenty (220) persons attended the workshops.

The above mentioned workshop followed a financial management workshop for emerging organizations on 29 October 2019 to build management capacity within organizations and to promote compliance with policy requirements. This workshop was attended by 76 participants.

By the closing date (29 November 2019), 119 applications were received.

## 6.2 **Discussion**

The Community Development section scrutinized and evaluated one hundred and nineteen (119) applications representing the following categories:

CATEGORY	SUB CATEGORY	APPLICATIONS RECEIVED	APPLICATIONS RECOMMENDED/ CONDITIONALLY RECOMMENDED

<b>Total</b>	<b>63</b>		<b>3 868 901.90</b>

Table 2: Ward based recommendations and financial allocations

The reason for not recommending organizations can be found in the notes column of detailed list of applications.

The Municipality would like to support as many as possible organizations delivering valuable services within our communities, but cannot disregard requirements of the MFMA (56 of 2003) Section 67 stipulating the responsibility of council to ensure donations are made to organizations who has the capacity to govern itself according to accepted financial practises and who can deliver the services for which the donation is required and benefiting the intended target audience.

### 6.3. Financial Implications

This report has the following financial implications:

Prior to dealing with appeals and the final feedback reports by April 2020 as part of the comment period on the draft budget for 2020-2021, in accepting the recommendations, council will need to approve the following amounts for Grant in Aid donations:

2020-2021 (Cat A)	2020-2021 (Cat B)
2 503 700.00	1 365 201.90

---

#### **6.4. Legal Implications**

The recommendations in this report comply with Council's policies and all applicable legislation.

#### **6.5 Staff Implications**

This report has no staff implications to the Municipality.

#### **6.6 Previous / Relevant Council Resolutions:**

Draft Budget Approval March 2020

#### **6.7 Risk Implications**

After approval of the Draft Budget in March 2020, Council incurred unplanned expenditure in relation to the State of Disaster declared by President Ramaphosa. A donation of R 300 000 towards humanitarian relief through Stellenbosch Unite was approved. Council must take into consideration the additional expenditure required to address service delivery needs to mitigate the effects of the Covid 19 pandemic when considering the annual Grant in Aid donations for 2020-2021.

#### **6.8 Comments from Senior Management:**

The item was discussed with the Municipal Manager who indicated her support for the item.

##### **6.8.1 Chief Financial Officer:**

Financial Services agree with the recommendations. The funding for the Grant in Aid donations will be provided for in the Medium Term Revenue and Expenditure Framework (MTREF/Budget).

### **7. FURTHER COMMENTS AND APPEALS RECEIVED**

**7.1** A total of 51 appeals were received during the period for comments on the IDP and Draft Budget. Due to the limitations put on movement as a result of the Level 5 Lock Down, organisations were given an opportunity to direct their appeals to a specially created email address. The request for appeals allowed for organisations to commit to providing signatures (if this was the outstanding matter on their application) when lock down was lifted. This concession resulted in some appeals being upheld on condition that the signatures being provided at a later stage. The outcome of the appeals can be viewed on the attached register of appeals.

1. Note that this section of Table SA 30 is deliberately not linked to Table A4 because timing differences between the invoicing of clients and receiving the cash means that the cashflow will differ from budgeted revenue, and similarly for budgeted expenditure. However for the MTREF it is now directly linked to A7.
