FINAL

**SERVICE DELIVERY AND BUDGET
IMPLEMENTATION PLAN**

MUNICIPAL MANAGER'S QUALITY CERTIFICATE

I, Annalene De Beer, the Acting Municipal Manager of Stellenbosch Municipality, submit the Final Top Layer Service Delivery and Budget Implementation Plan (SDBIP) for the 2017/18 financial year for approval by the Executive Mayor. This SDBIP has been prepared in terms of the stipulated requirements as documented in the Local Government: Municipal Finance Management Act, No.56 of 2003 and regulations made under the Act.

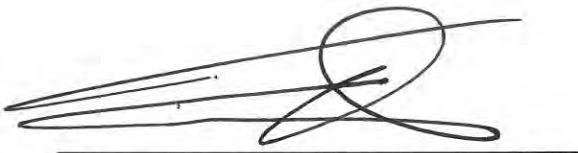

Ms. Annalene De Beer
Acting Municipal Manager

28/06/2017
Date

EXECUTIVE MAYOR'S CERTIFICATE OF APPROVAL

I, Nyaniso Jindela, in my capacity as the Acting Executive Mayor of the Stellenbosch Municipality, hereby approve the Service Delivery and Budget Implementation Plan (SDBIP) for the 2017/18 financial year as required in terms of Section 53(1)(c)(ii) of the Local Government: Municipal Finance Management Act of 2003.

A handwritten signature in black ink, consisting of several overlapping loops and lines, positioned above a horizontal line.

Nyaniso Jindela
Acting Executive Mayor

1. SDBIP LEGISLATIVE FRAMEWORK

1.1 INTRODUCTION

Section 1 of the MFMA defines the SDBIP as:

“a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) for implementing the municipality’s delivery of services and the execution of its annual budget and which must include (as part of the top-layer) the following:

(a) projections for each month of-

(i) revenue to be collected, by source; and

(ii) operational and capital expenditure, by vote;

(b) service delivery targets and performance indicators for each quarter

The Service Delivery and Budget Implementation Plan (SDBIP) is an implementation plan of the approved Integrated Development Plan (IDP) and Medium Term Revenue and Expenditure Framework. Therefore, only projects that are budgeted for are implemented. The SDBIP serves to address the development objectives as derived from the approved IDP.

The format of the SDBIP is prescribed by MFMA Circular Number 13 issued by National Treasury, in terms of which the SDBIP must provide a picture of service delivery areas, budget allocations and enable monitoring and evaluation. It specifically requires the SDBIP to include, inter alia, the following:

1. Monthly projections of revenue to be collected for each source;
2. Monthly projections of expenditure (operating and capital) and revenue for each vote;
3. Quarterly projections of service delivery targets and performance indicators for each vote;
4. Ward information for expenditure and service delivery; and
5. Detailed capital works plan broken down by ward over three years.

MFMA Circular No. 13

“The SDBIP serves as a “contract” between the administration, Council and community expressing the goals and objectives set by Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. The SDBIP provides the vital link between the mayor, Council (executive) and the administration and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community.”

In accordance with Section 53 of the MFMA, the mayor of a municipality must-

“(1)(c)(ii) take all reasonable steps to ensure that the municipality’s service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget

(1)(c)(iii)(bb) that the annual performance agreements as required in terms of Section 57(1)(b) of the MSA for the Municipal Manager and all senior managers are linked to the measurable performance objectives approved with the budget and to the service delivery and budget implementation plan.”

1.2 HIGH LEVEL SDBIP TARGETS AND INDICATORS

Quarterly projections of service delivery targets and performance indicators for each vote, is one of the five components of the top-layer SDBIP that must be made public as detailed in MFMA Circular 13.

The top level of the SDBIP includes measurable performance objectives in the form of service delivery targets and performance indicators that are provided to the community, that is, what impacts it seeks to achieve. These are drawn from the IDP programmes, services and activities that are relevant to each specific Directorate as well as the statutory plans that the Directorate are responsible for. The SDBIP’s therefore are the key mechanisms for monitoring the different responsibilities and targets that each Directorate must fulfil in meeting service delivery needs provided to the community.

1.3 REPORTING ON THE SDBIP

Various reporting requirements are outlined in the MFMA, both the Executive Mayor and the Accounting Officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports required by the MFMA. The report then allows the Council to monitor the implementation of service delivery programs and initiatives across the Municipality’s boundaries.

Monthly Reporting

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. This reporting must be conducted by the Accounting Officer of a municipality no later than 10 working days, after the end of each month.

Reporting must include the following:

1. Actual revenue, per source;

2. Actual borrowings;
3. Actual expenditure, per vote;
4. Actual capital expenditure, per vote; and
5. The amount of any allocations received

If necessary, explanation of the following must be included in the monthly reports:

- a) Any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote;
- b) Any material variances from the Service Delivery and Budget Implementation Plan; and
- c) Any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain within the municipality's approved budget.

Quarterly Reporting

Section 52(d) of the MFMA compels the Executive Mayor to submit a report to the Council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the Executive Mayor's quarterly report.

Mid-year Reporting

Section 72 of the Local Government: Municipal Finance Management Act, Act No. 5 of 2003, determines that by 25 January of each year the Accounting Officer must assess the performance of the municipality and report to the Council on inter alia its service delivery performance during the first half of the financial year and the service delivery targets and performance indicators set in the Service Delivery and Budget Implementation Plan.

The section 72 report must include the following:

- the monthly statements submitted in terms of section 71 for the first half of the financial year;
- the municipality's service delivery performance, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan; and
- the past year's annual report, and progress on resolving problems identified in the annual report (s72);
- performance of service providers;
- make recommendations as to whether an adjustments budget is necessary (s72); and
- recommend revised projections for revenue and expenditure to the extent that this may be necessary (s72).

1.4 MONITORING AND THE ADJUSTMENTS BUDGET PROCESS

The section 71 and 72 budget monitoring reports required under the MFMA should provide a consolidated analysis of the Municipality's financial position including year-end projections. The Executive Mayor must consider these reports under s54 of the MFMA and then make a decision as to whether the SDBIP should be amended. The Adjustments Budget concept is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the municipality's finances. In simple terms, funds can be transferred within a vote but any movements between votes can only be agreed by an adjustments budget.

In accordance with the Stellenbosch Municipality's approved **Performance Management Policy Framework**, KPI's can be adjusted after the mid-year assessment and/or after the adjustments budget has been approved. KPI's should be adjusted to be aligned with the adjustment estimate and the reason for the change in KPI's should be documented in a report to the Executive Mayor for approval.

Additional KPI's can be added during the year with the approval of the Municipal Manager. The approval documents should be safeguarded for audit purposes.

This policy framework is supported by **MFMA Circular No. 13: Service Delivery and Budget Implementation Plan** which stipulates that being a management and implementation plan (and not a policy proposal), the SDBIP is not required to be approved by the Council – it is however tabled before Council and made public for information and for purposes of monitoring. The SDBIP should be seen as a dynamic document that may (at lower layers of the plan) be continually revised by the Municipal Manager and other top managers, as actual performance after each month or quarter is taken into account. However, the top-layer of the SDBIP and its targets cannot be revised without notifying the Council, and if there is to be changes in service delivery targets and performance indicators, this must be with the approval of the Council, following approval of an adjustments budget (section 54(1)(c) of MFMA). This Council approval is necessary to ensure that the mayor or Municipal Manager do not revise service delivery targets downwards in the event where there is poor performance.

Many of the indicators in the municipal scorecard will only be measurable on an annual basis. The quarterly reviews should thus culminate in a comprehensive annual review of performance in terms of all the scorecards. The Executive Mayor will need to ensure that targets committed to in the municipal scorecard are being met, where they are not, that satisfactory and sufficient reasons are provided and that the corrective action being proposed is sufficient to address the poor performance.

The review should also focus on reviewing the systematic compliance to the Performance Management System, by Directorates, Departments, Portfolio Councillors and the Municipal Manager.

The review will also include:

- An evaluation of the validity and suitability of the Key Performance Indicators and recommending any changes;
- An evaluation of the annual and 5 year targets to determine whether the targets are overstated or understated. These changes need to be considered;
- Changes to KPI' s and 5 year targets for submission to Council for approval. (The reason for this is that the original KPI' s and 5 year targets would have been published with the IDP, which would have been approved and adopted by Council at the beginning of the financial year.);
- An analysis to determine whether the Municipality is performing adequately or underperforming; and
- It is important that the Executive Mayor not only pay attention to poor performance but also to reward good performance. It is expected that the Executive Mayor will acknowledge good performance, where Directorates or departments have successfully met targets in their Directorate/departmental scorecards.

1.5 INTERNAL AUDITING OF PERFORMANCE REPORTS

The Municipality's Internal Audit function will need to be continuously involved in auditing the performance reports based on the organisational and Directorate/Departmental scorecards. As required by Regulation, they will be required to produce an audit report on a quarterly basis, to be submitted to the Municipal Manager and Performance Audit Committee.

The MFMA and the Municipal Planning and Performance Management Regulations require that the municipal Council establish an Audit Committee consisting of a minimum of three members, where the majority of members are not employees of the Municipality. No Councillor may be a member of an Audit Committee. Council shall also appoint a Chairperson who is not an employee.

1.6 ANNUAL PERFORMANCE REVIEW

At least annually, the Executive Mayor will be required to report to the full Council on the overall municipal performance. It is proposed that this reporting take place using the municipal scorecard in an Annual Performance Report format as per the Municipal Systems Act (MSA). The said Annual Performance Report will form part of the municipality's Annual Report as per section 121 of the Municipal Finance Management Act.

2. STRATEGIC INTENT

We are officially known as the Stellenbosch Municipality; it is our legal description.

To stress our inclusiveness – a municipality which includes a number of Towns and Villages and the areas between them – all with much endeared historic names, histories and local hopes and aspirations – we make every effort refer to the “Greater” Stellenbosch area or Municipality.

We are not responsible for only one – albeit significant town – in this larger constellation. We share an equal commitment to all areas that make up the Greater Stellenbosch Municipality.

Towards the achievement of its long-term vision, and as informed by the priority issues confirmed through the situational analysis, the municipality has crafted a set of broad development objectives (also referred to as Strategic Focus Areas) to create a sense of focus around key priority issues. These development objectives are aimed at bridging the gap between the current priorities or challenges and the municipality’s long-term vision by offering a high level focus of what needs to be achieved in the short to medium term.

Our Vision

The Stellenbosch Municipality is led into the future by the following vision: “Valley of Opportunity and Innovation”. Five Strategic Focus Areas define the framework within which we wish to accomplish this vision and this is illustrated in the following graphic presentation:

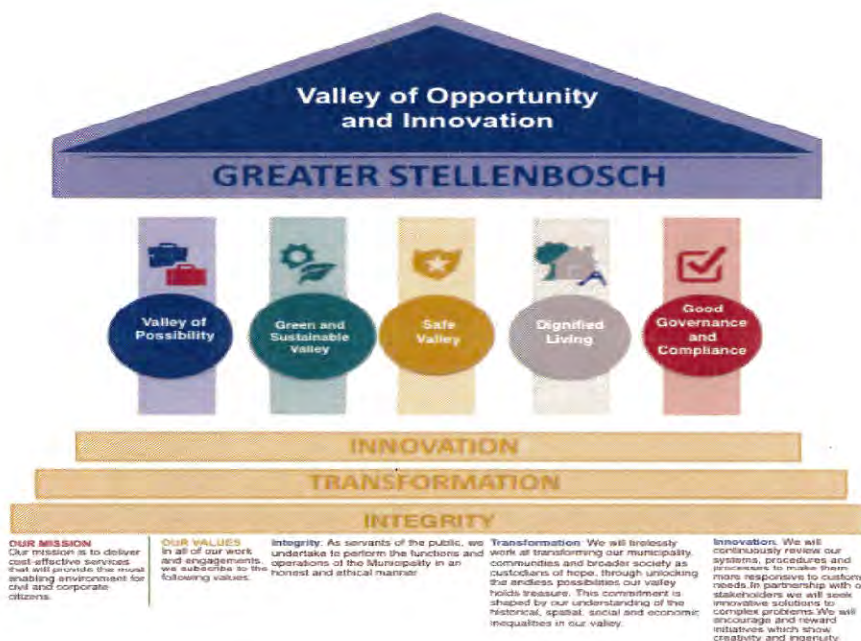

Diagram 1: Illustration of the Greater Stellenbosch area’s overarching strategy

Our mission

Our mission is to deliver cost-effective services that will provide the most enabling environment for civil and corporate citizens.

Our values

In all of our work and engagements, we subscribe to the following values:

Character Leadership: We undertake to involve Communities in planning development in their areas, provide regular progress reports on the implementation of those plans and deal decisively and swiftly with poor performance, mismanagement of Council assets, corruption and fraud that are all impediments to good municipal governance.

Transformation: We will tirelessly work at transforming our Municipality, Communities and broader society as custodians of hope through unlocking the endless possibilities our valley holds treasure. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities rive in our Valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives which show creativity and ingenuity.

*The Municipality's strategic vision is informed by our desire to be the **Valley of Opportunity and Innovation**. The 5 pillars which help us to realise this vision include: Valley of Possibility, Green and Sustainable Valley, Safe Valley, Dignified Living and Good Governance & Compliance. The foundation of our vision is to tackle everything we do in an innovative manner, finding new and better ways of delivering on our mandate. This is then informed by our values: Character Leadership and Innovation. Lastly we need to question whether we are transforming people's lives. Key to achieving true transformation is the creation of an environment conducive for business development, expansion and retention.*

3. CONCLUSION

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets, set in the Budget and IDP. It determines the Performance Agreements for the Municipal Manager and all Top Managers, whose performance can then be monitored through Section 71 monthly reports, and evaluated through the Annual Report process.
