CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:-

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

13. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
14. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

Appointment of a service provider for the removal of illegal connections in Stellenbosch Municipality (WC024 area)

1. Introduction

Illegal connections negatively affect the electricity supply and can potentially overload distribution transformers and mini substations, leading to system instability. This places strain on the electrical network, which may result in prolonged outages, equipment damage, revenue loss, and, in extreme cases, fatalities. It is therefore essential to remove all illegal connections to prevent these adverse effects and maintain network stability.

2. Background

Due to the high number of residents who have illegally connected to the electrical network in Stellenbosch Municipality (WC024 area), it is necessary to appoint a service provider to remove, load, and offload the illegally connected wiring. These illegal connections negatively affect the continuity of supply, as they may cause overloading of the network, equipment failures, and financial losses to the municipality.

3. Scope of work

The objective of this exercise is to safely and effectively remove all illegal electrical connections within designated informal settlements to ensure the stability, safety, and reliability of the municipal electrical network.

The appointed external service provider shall:

- Conduct inspections and identify all illegal electrical connections within the specified areas.
- Safely remove, disconnect, and collect all illegal wiring and associated materials in accordance with applicable electrical and safety standards.

- Load, transport, and offload all removed materials to a designated municipal depot or storage facility.
- Work in coordination with internal law enforcement units and the South African Police Service (SAPS) to ensure safe execution of the operation and to prevent community interference or resistance.
- Record and document all removed connections, including locations, quantities, and any incidents that occur during the operation.
- Report daily progress and submit a final completion report to the responsible municipal department.

Safety and Compliance

- The contractor must adhere to all Occupational Health and Safety (OHS) regulations and municipal safety requirements.
- All work must be performed using appropriate personal protective equipment (PPE) and in compliance with applicable electrical safety standards.
- Coordination with law enforcement and SAPS is mandatory before and during site operations to ensure personnel safety.

4. General Conditions of the contract

4.1 Evaluation shall be based on the positive response of a minimum of two (2) references for rendering a similar service

4.2 The technical evaluation will be based on the compliance of bidders with the General conditions of the contract.

4.3 Bids shall be evaluated in total and shall be awarded to a single Bidder. The evaluation and acceptance of this contract will be based on the procurement policy of Stellenbosch Municipality.
