CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:-

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. BACKGROUND

Stellenbosch Municipality has in this phase of its Social Housing programme implementation identified Erf 81/2 and Erf 81/9, Stellenbosch, a piece of land that lies between Cloetesville and Kayamandi (adjacent to a residential development known as Mount Simon). It is the intention of the Municipality to give effect to the social housing programme by making available land portions in the Restructuring Zones to SHI's and/or ODA's who then will undertake all the necessary processes for the development of Social Housing Estates. Restructuring Zones were identified based on their close proximity to social and economic amenities and their potential to promote integration, access to economic opportunities and spatial restructuring. It is envisaged that the proposed building types are multi-storey walk up blocks of rental flats. A feasibility study was conducted during February 2020 and is attached as **Annexure 1**.

The property (Erf 81/2 and Erf 81/9, Stellenbosch) is located between the Khayamandi and Cloetesville settlements. Its boundary is framed by the R304 to the west and the railway line to the east. The Plankenburg River traverses the property along the eastern boundary. The southern boundary of property includes portions of the Khayamandi Tourism Centre, as well as a bridge over the railway line. The northern boundary is framed by the Mount Simon residential development.

The property has a triangular shape with its widest part on the northern boundary with the Mount Simon residential development. The total erf size is approximately 17.47ha this area includes the road, the river as well as a portion of the Khayamandi Tourism Corridor. These features must all be subtracted from the total area to determine the developable area. The road reserve for the R304 is approximately 45m wide. This implies that the area of the road reserve is approximately 5.4ha and this area must also be subtracted from the developable area which leaves approximately 12.07ha. Another development constraint is the Plankenburg River area that also borders the site. The latter area measures approximately 8.6ha **which leaves an effective developable area of 3.47ha**. The R304 passes through the property. The road reserve must still be subdivided from the property in order arrive at the developable area. The proposed future road widening must occur within this space.

SCOPE AND OBJECTIVE

2.1. Objective

The objective of the flood line delineation of the 1:100 year flood lines study is to calculate and plot the 1:100 year flood lines in the Plankenburg river and to examine all aspects of the feasibility of establishing a medium to high density residential area (3-4 storey walk ups) on Erf 81/2 and Erf 81/9, Stellenbosch.

According to Section 144 of the National Water Act (ACT No. 36 of 1998), no person may establish a development unless the layout plan shows (in a form acceptable to the local authority concerned) lines indicating the maximum level likely to be reached by floodwaters on average once in every 100 years.
