Unemployment and Job Creation

Job creation, though a serious concern at the local government level, is not a municipal mandate, however, the Stellenbosch Municipality continue to create an enabling environment for investment to contribute to job creation through economic development strategies and business development.

Currently, the number of Expanded Public Works Programme (EPWP) Projects have been increased and additional funding provided to ensure that more job opportunities are created.

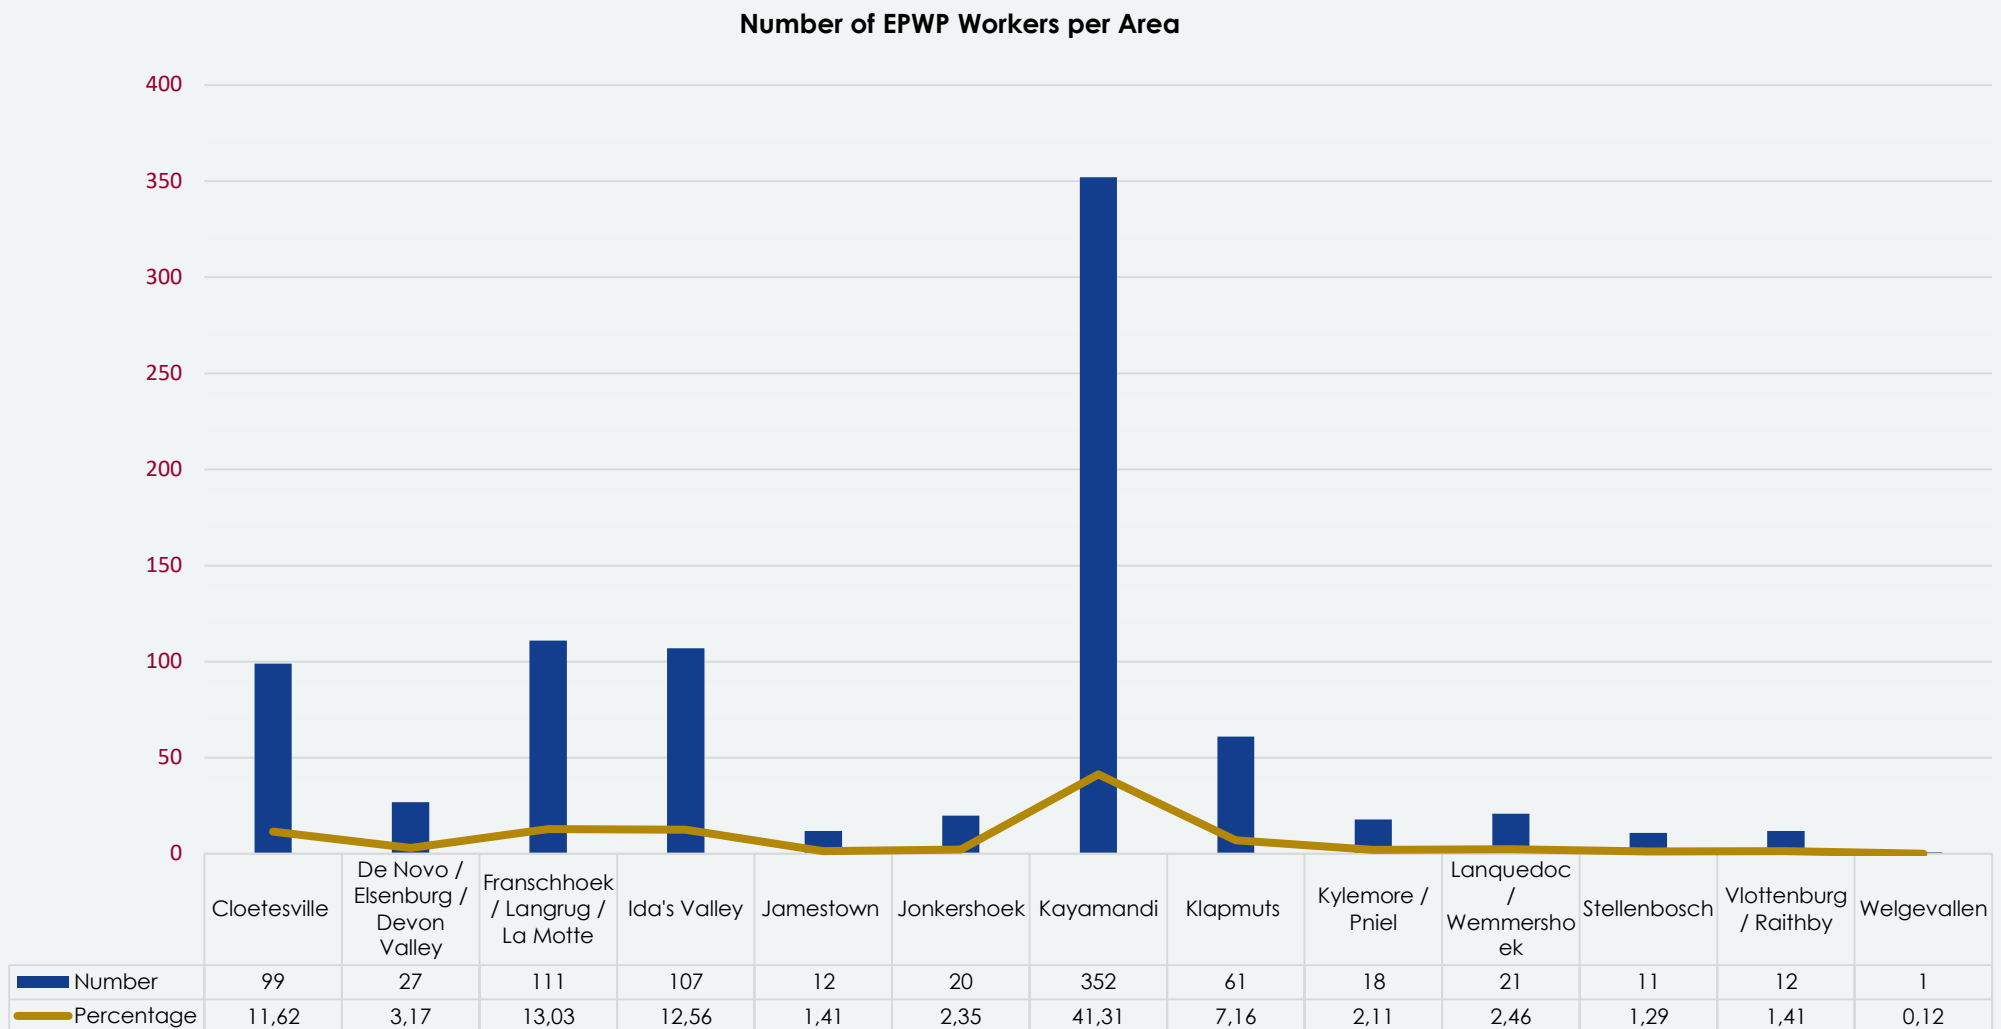

EPWP contracts are awarded in terms of the Memorandum of Agreement (MOA) between the municipality and National Public Works (NPW). The EPWP is therefore different from the Fixed-Term Contracts offered by the municipality.

The municipality will provide EPWP contracts for residents registered on the Municipal Jobseekers Database, and through the database, the municipality can accurately monitor the manner the contracts are allocated by each user department.

Currently, all employment opportunities within the municipality are made available through the Human Resources Policy governing recruitment and selection. There are also other employment mechanisms that are implemented within the municipality through various funding resources, e.g. EPWP, Provincial and National Government funded internships, etc.

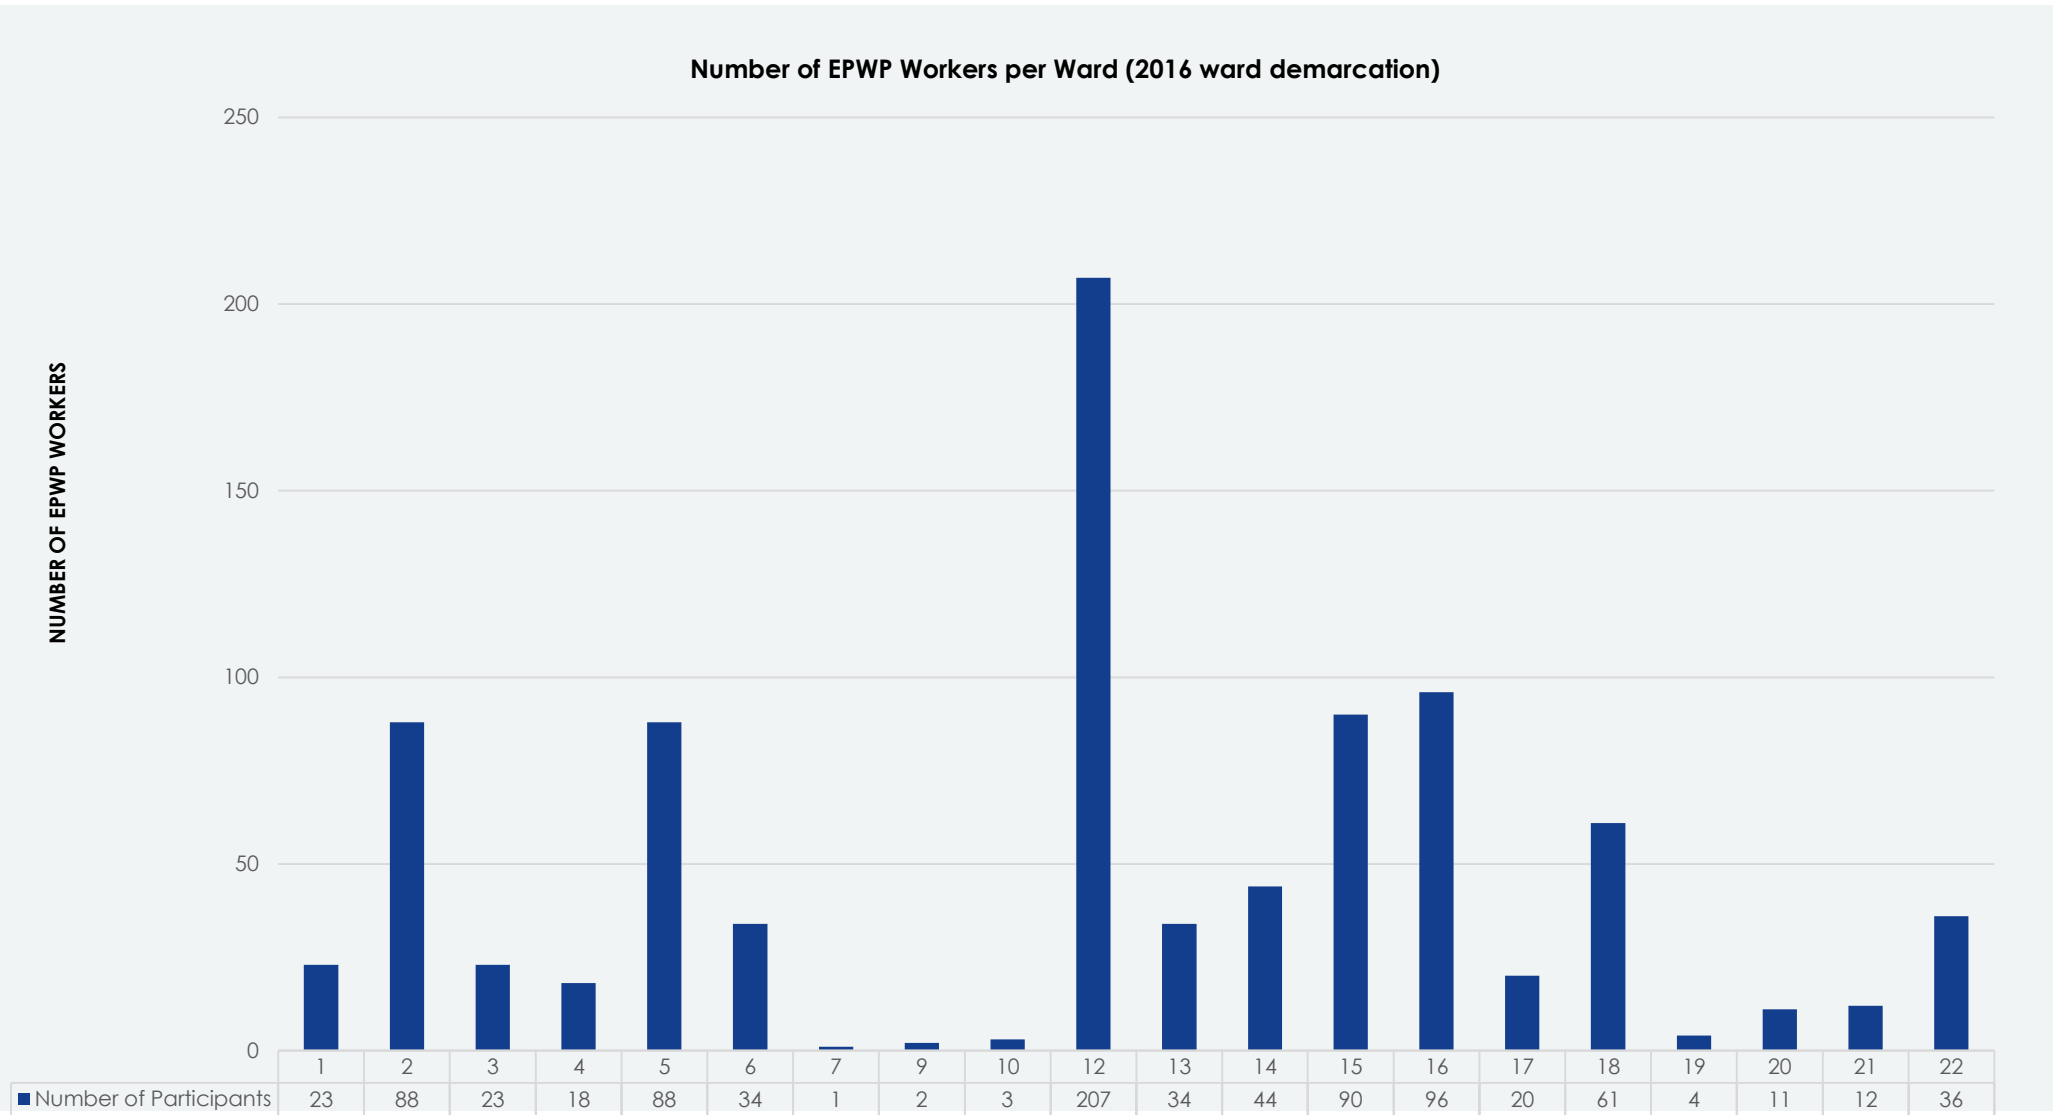

Number of EPWP Workers Per Area (Q1 and Q2 of 2021/22)

Housing Development

Housing is a challenge as resources and allocations from the National and Provincial governments remain limited, and the housing backlog remains tremendous.

Backyard Dwellers

- The Directorate: Infrastructure Services has launched an investigation into the possibilities of providing basic services for backyarders, by taking into account the necessary legislation that prohibits the municipality from working on privately owned land.

Land for housing plots

- All housing projects are done in accordance with the approved Housing Pipeline for the entire municipal area (WC024).
- The Housing Pipeline as well as guidelines from the National and Provincial Human Settlements Department determine the scale of Housing Projects. Currently, there is a preference for the regionality (across Wards) and mega-developments and a departure from settlement / neighbourhood-based housing projects.

Housing Development

Lanquedoc, Meerlust and Wemmershoek

- ✦ **Meerlust:** The Housing Development Agency has been appointed to investigate and report on the potential for township establishment for Meerlust. The Housing Development Agency is currently in negotiations with the National Department of Public Works and Infrastructure for the transfer of the settlement to the municipality.
- ✦ **Lanquedoc:** The municipality does not own any land parcels in Lanquedoc, therefore no further development options can be undertaken.
- ✦ **Wemmershoek:** A feasibility study that served before Council indicated that no housing development possible in this area given the environmental sensitivity of the area.

Kylemore and Pniël

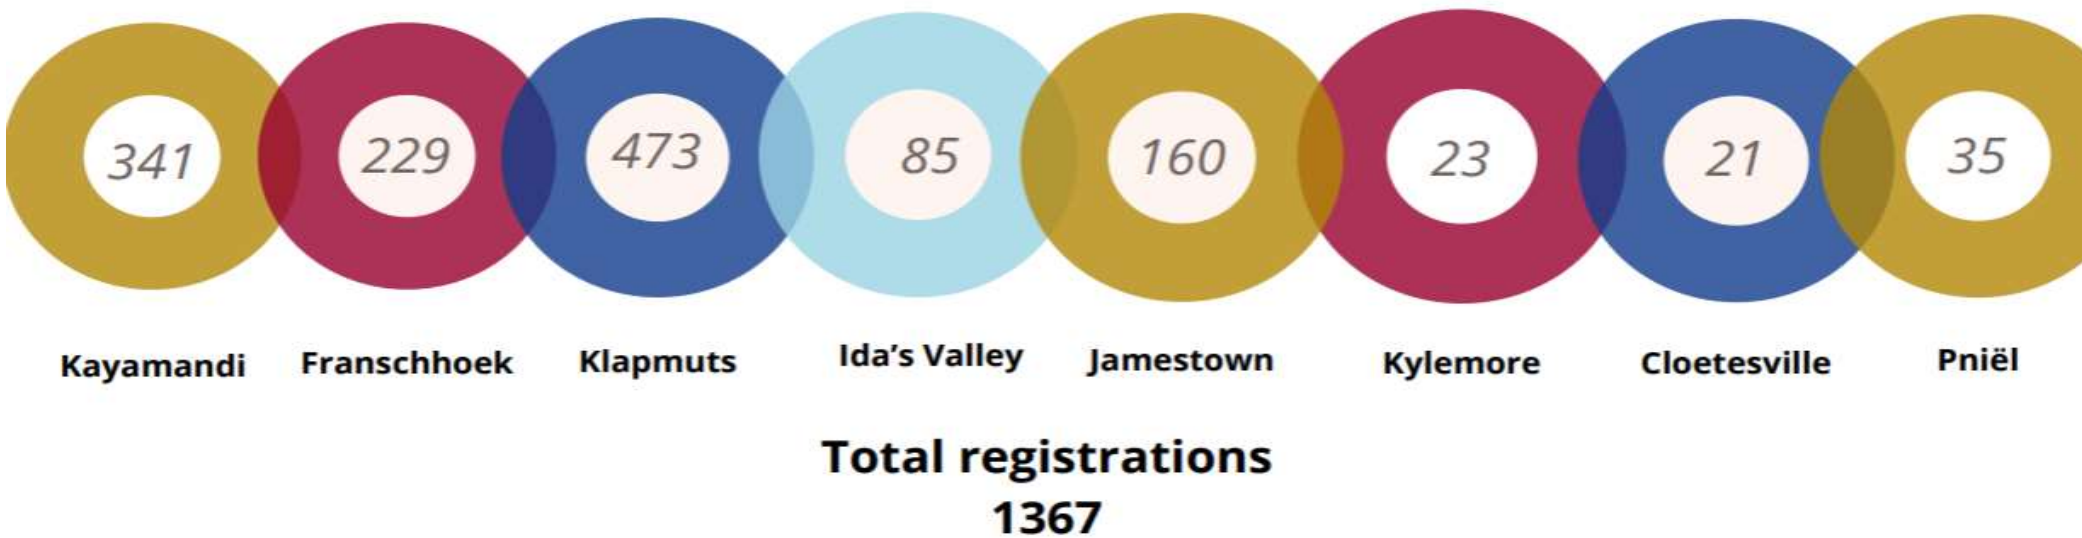

- ✦ **Kylemore:** In accordance with the Housing Pipeline, that was approved by Council, the only housing opportunity is currently being explored on Erf 64 in Kylemore that is currently owned by the National Department of Public Works and Infrastructure.
- ✦ Regarding Erf 64, the Housing Development Agency has been appointed to facilitate the transfer of land in favour of Stellenbosch Municipality. The municipality was informed in early November 2021 that National Treasury has approved the transfer and a Power of Attorney will be issued shortly.
- ✦ **Pniël:** No land has been identified or investigated in Johannesdal or Pniël.

Title Deeds

- ✦ The Title Deeds Restoration Programme is currently ongoing. However, challenges have been encountered with deceased owners who have passed on without having a Will in place and dependents failing to report deceased estates at the Office of the Master of the High Court for an estate administrator to be appointed to commence with the transfer process.
- ✦ The number of title deeds handed over in these wards during the 1st & 2nd quarters of the 2021/22 amounts to 3.
- ✦ The handover of historical and new title deeds to their rightful beneficiaries is a continuous and ongoing process.

Number of title deeds issued from 2016 - 2021

Spatial Development Framework (SDF) Amendment Process

STELLENBOSCH • PNIEL • FRANSCHHOEK

MUNISIPALITEIT • UMASIPALA • MUNICIPALITY

Relationship between the SDF & IDP

The SDF is a **core component** that is part of the IDP. Council adopted to amend the SDF for the **new 5-year IDP term** → **29 September 2021**.

The SDF provides guidance on **where** and **when** budget (of all government & private sector) should be spent in the municipal space to achieve spatial transformation and developmental outcomes of the municipality.

Importantly the SDF considers how a municipal area should be best developed over time.

The SDF provides a map of the **long-term spatial vision** and a path to get there.

SDF Amendment Process

The need to amend the SDF arose from the review of the SDF and other municipal strategic plans, policies, and decisions (i.e. Housing Pipeline, Inclusionary Housing, ATC etc.).

The changing circumstances requires an amendment of the 2019 adopted SDF to ensure strategic alignment with the new Council's delivery compact which is informed by the needs, interests & priorities of communities and service delivery departments.

The amendment of an SDF will be prepared as part of the municipality's IDP in accordance with the legislative provisions, namely – MSA, SPLUMA, WC: LUPA, & SM: MPBL.

The process that will be followed as set out & approved in the 2022 – 2023 IDP Process Plan will be the Project Steering Committee and not an IGR.

All stakeholders, government departments & the public will be consulted & afforded opportunities to make representations during the process.
