## Unemployment and Job Creation

Job creation, though a serious concern at the local government level, is not a municipal mandate, however, the Stellenbosch Municipality continue to create an enabling environment for investment to contribute to job creation through economic development strategies and business development.

Currently, the number of Expanded Public Works Programme (EPWP) Projects have been increased and additional funding provided to ensure that more job opportunities are created.

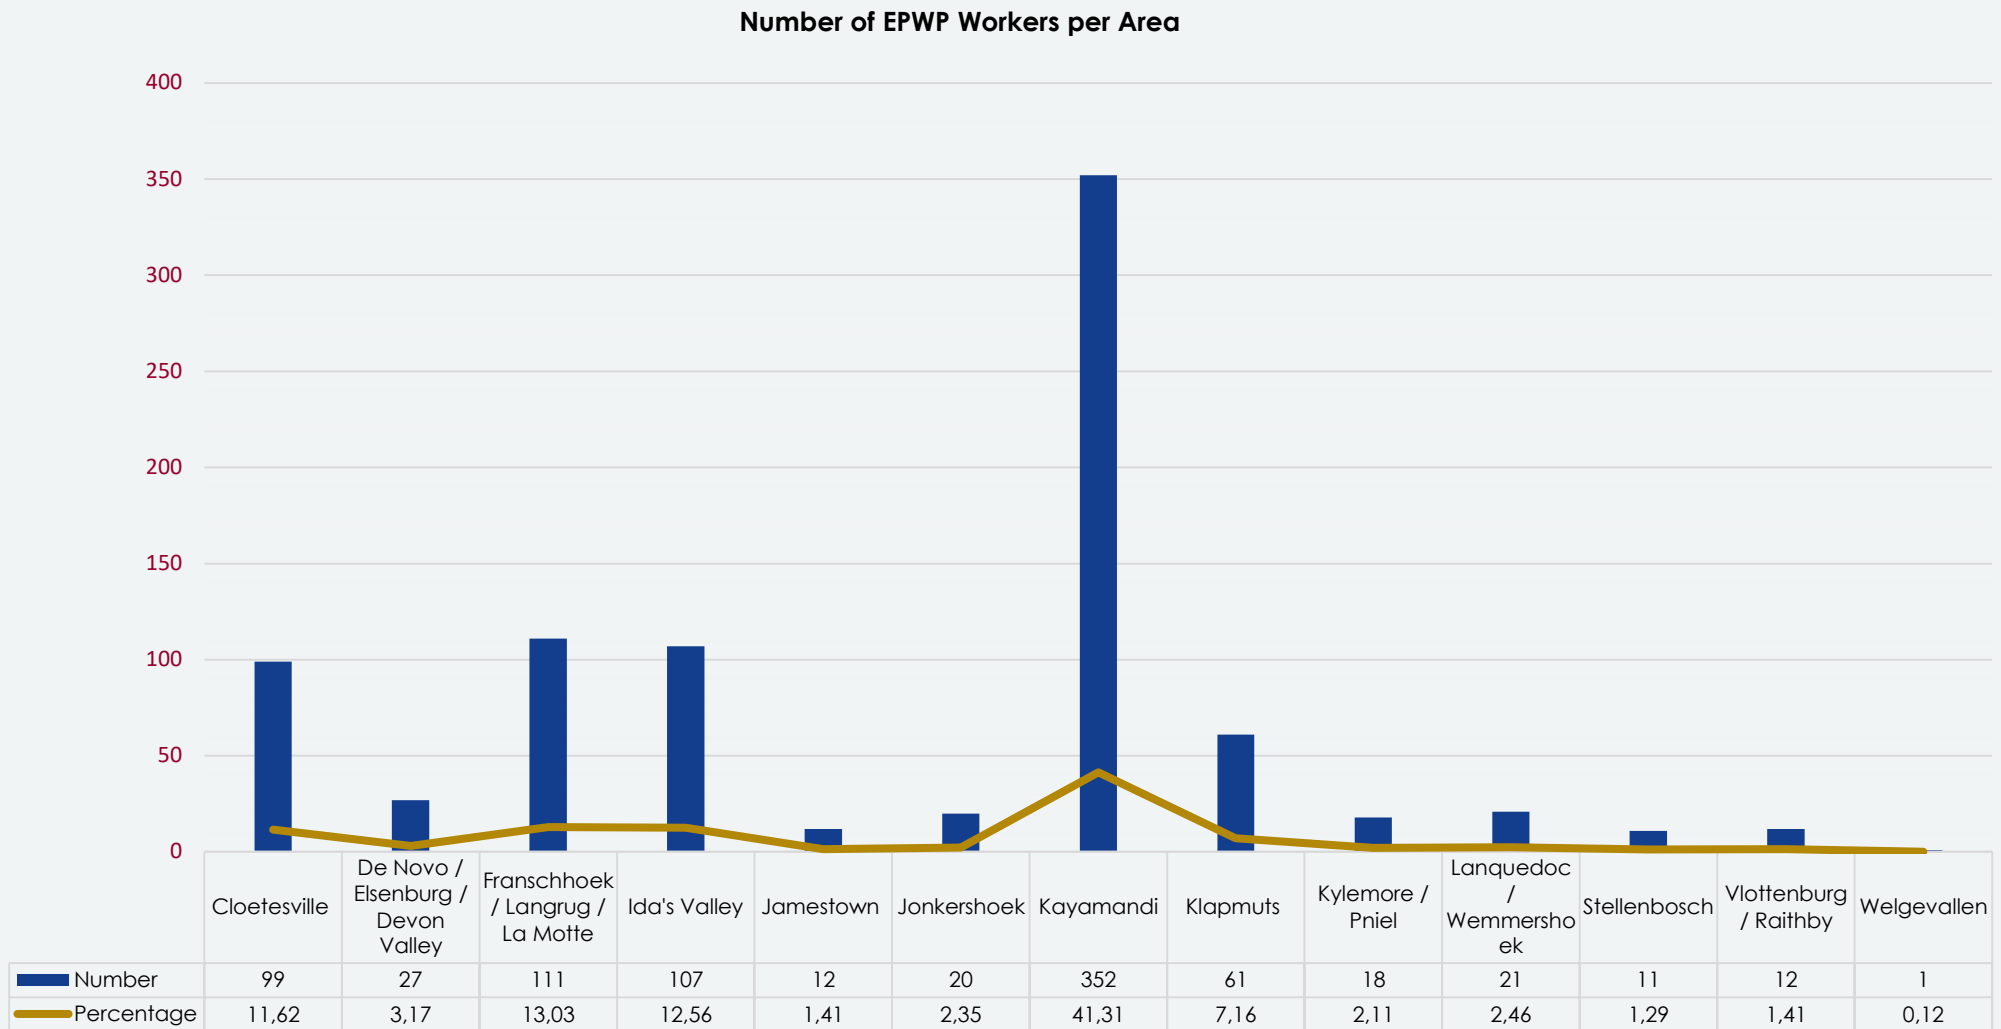

EPWP contracts are awarded in terms of the Memorandum of Agreement (MOA) between the municipality and National Public Works (NPW). The EPWP is therefore different from the Fixed-Term Contracts offered by the municipality.

The municipality will provide EPWP contracts for residents registered on the Municipal Jobseekers Database, and through the database, the municipality can accurately monitor the manner the contracts are allocated by each user department.

Currently, all employment opportunities within the municipality are made available through the Human Resources Policy governing recruitment and selection. There are also other employment mechanisms that are implemented within the municipality through various funding resources, e.g. EPWP, Provincial and National Government funded internships, etc.

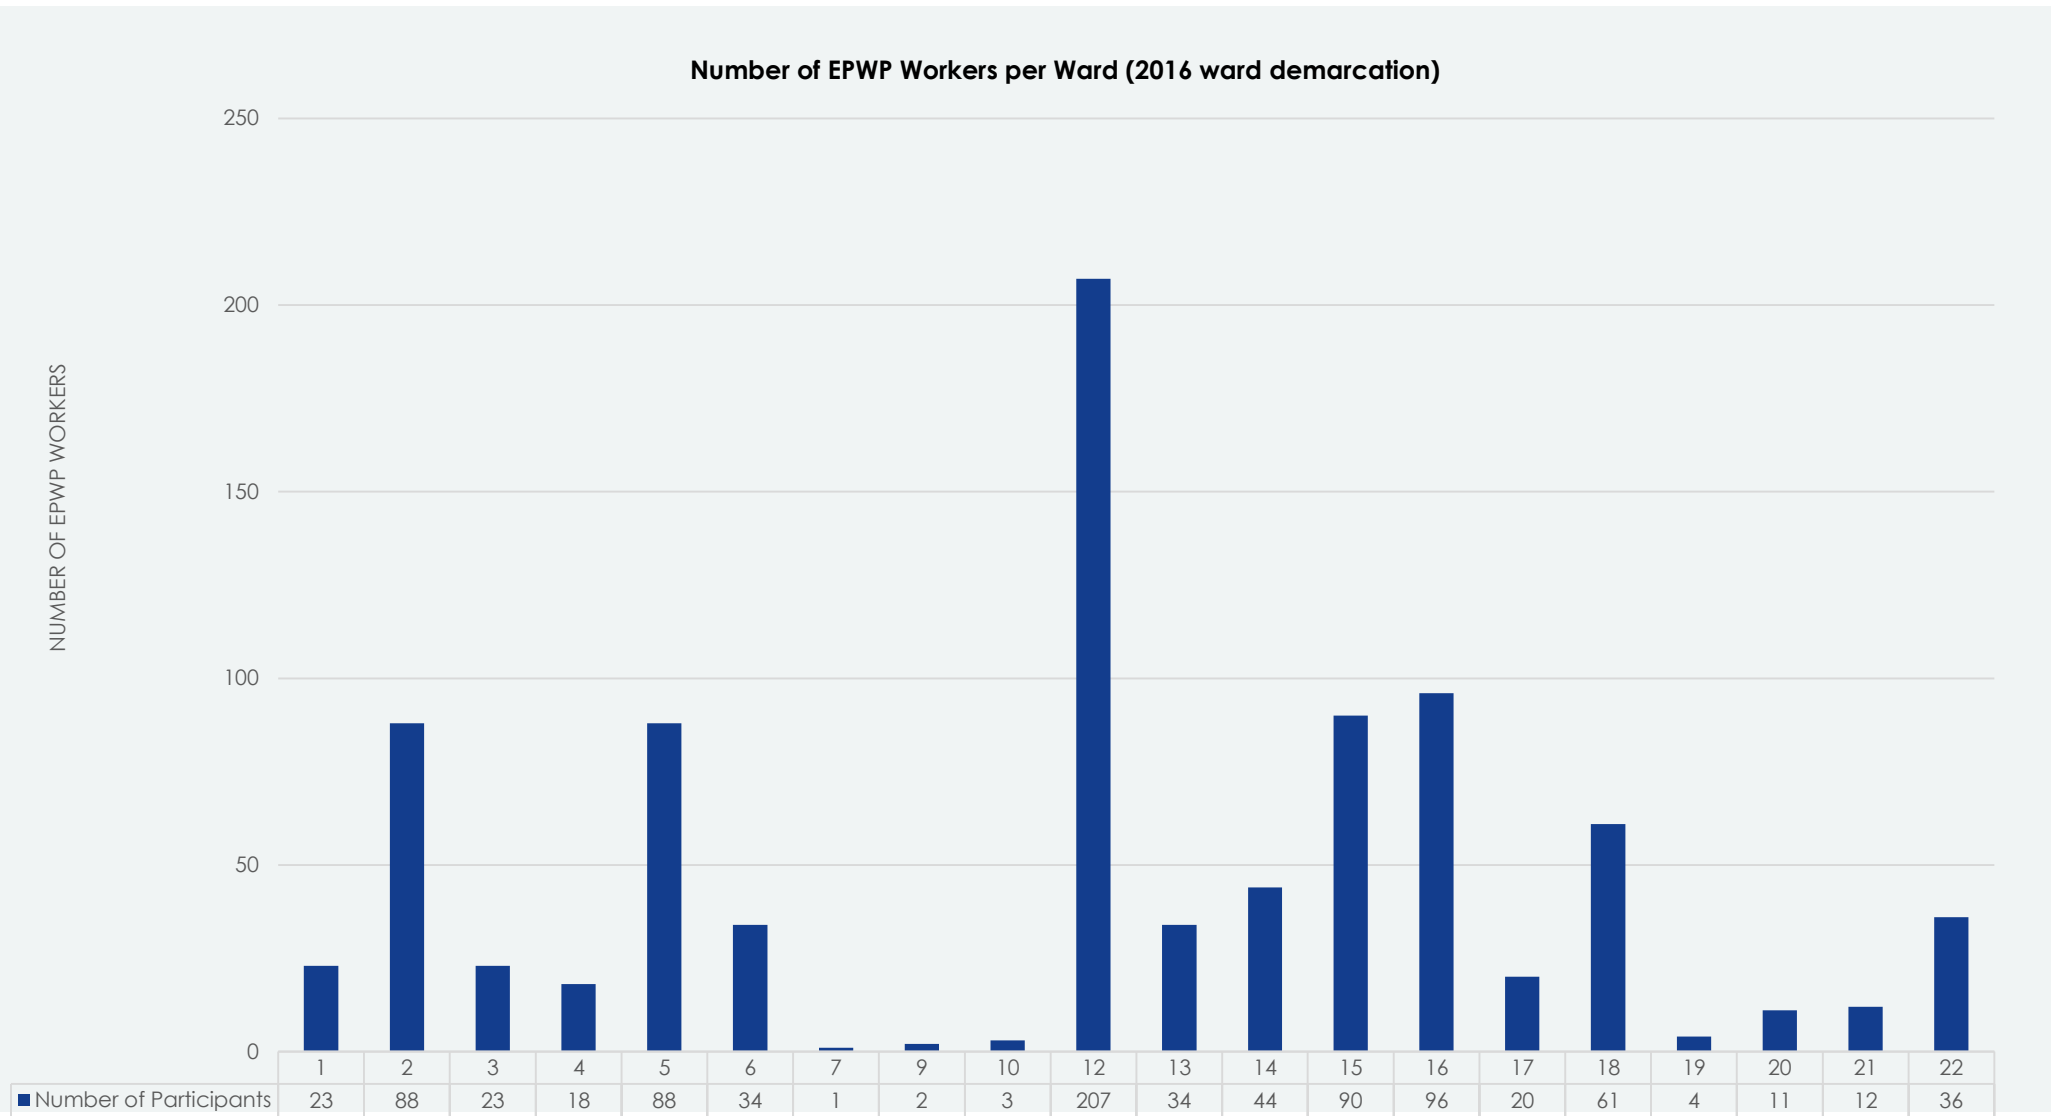

## Number of EPWP Workers Per Area (Q1 and Q2 of 2021/22)

## Housing Development

Housing is a challenge as resources and allocations from the National and Provincial governments remain limited, and the backlog is tremendous.

### Backyard Dwellers

- ✦ The Directorate: Infrastructure Services has launched an investigation into the possibilities of providing basic services for backyarders, by taking into account the necessary legislation that prohibits the municipality from working on privately owned land.
- ✦ A backyard dwellers survey was completed during the 2020/21 financial year.

### Land for housing plots

- ✦ All housing projects are done in accordance with the Housing Pipeline for the entire municipal area (WC024).
- ✦ The Housing Pipeline, as well as guidelines from the National and Provincial Human Settlements Department, determine the scale of housing projects.
- ✦ Currently, there is a preference for the regionality (across Wards) and mega-developments and a departure from settlement / neighbourhood-based housing projects.

## Housing Development

### Cloetesville

- ✦ Council approved a feasibility study that included open spaces in Cloetesville for possible housing developments. Funding applications were submitted to the Provincial Department of Human Settlements to obtain development rights for these sites.
- ✦ Funding for housing developments is currently a National and Provincial competency. Therefore, all housing funding applications must be submitted to the relevant provincial departments.

### Backyard dwellers and GAP Houses

- ✦ The feasibility study that was presented to the Council and took the plight of the backyarders into consideration, hence the acceleration of the funding application to the Provincial Department of Human Settlements.
- ✦ The funding application when approved by the Provincial Department of Human Settlements will kick start the process to provide housing opportunities.

## Housing Development

### **Stand-alone plots / service sites**

- ✦ The feasibility study that was presented to Council also took into consideration the request for stand-alone plots / service sites.
- ✦ The funding application when approved by the Provincial Department of Human Settlements will kick start the process to provide housing opportunities.

### **GAP Houses on Erf 7001, Cloetesville**

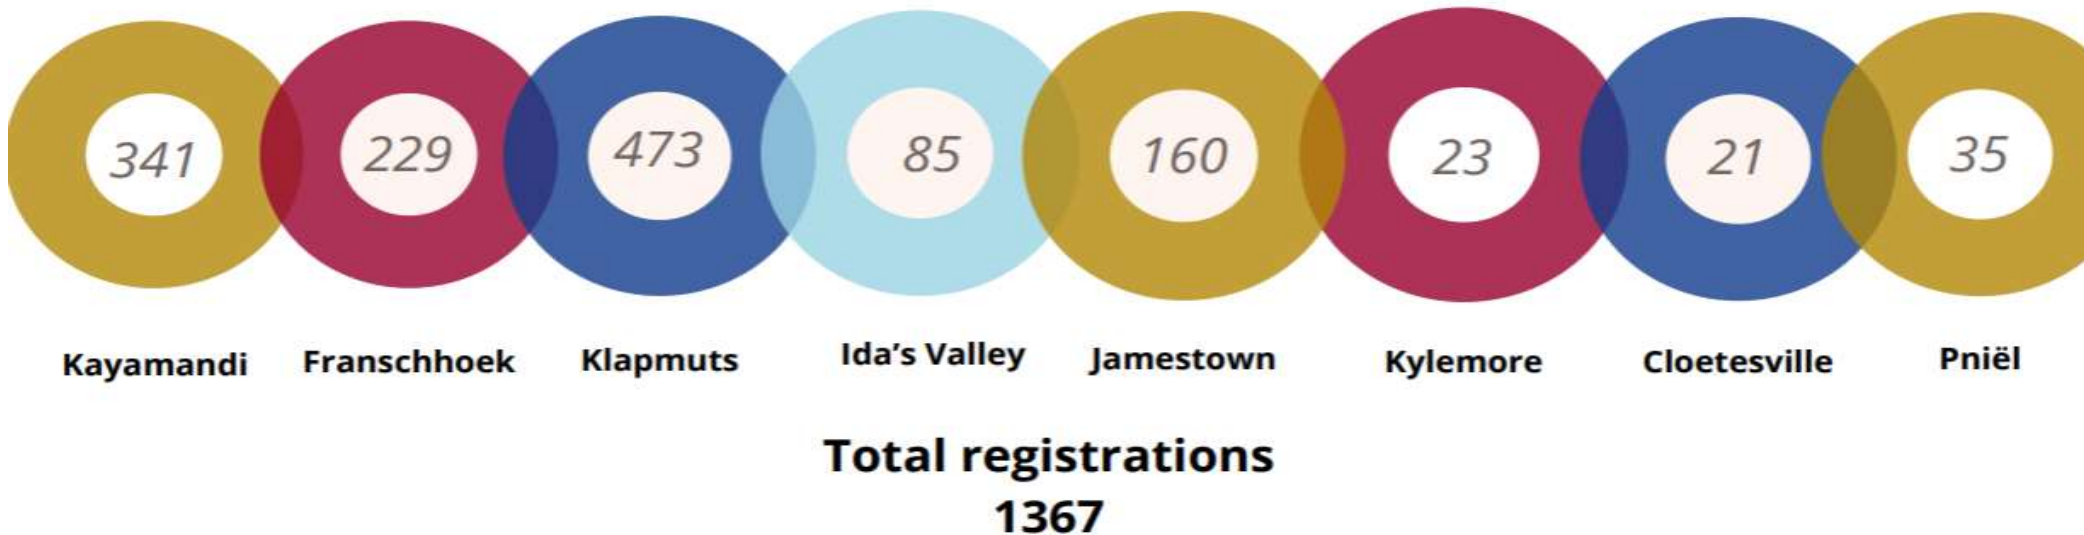

- ✦ The public participation process has highlighted that the community would prefer medium to high GAP development.
- ✦ The inputs of the community were taken into account and a tender process was followed accordingly.
- ✦ The tender is closed and evaluated by the user department, it is currently in a final procurement process.
- ✦ The successful service provider will be required to obtain development rights which includes a public participation process.

## Title Deeds

- The Title Deeds Restoration Programme is currently ongoing. However, challenges have been encountered with deceased owners who have passed on without having a Will in place and dependents failing to report deceased estates at the Office of the Master of the High Court for an estate administrator to be appointed to commence with the transfer process.
- The number of title deeds handed over in these wards during the 1<sup>st</sup> & 2<sup>nd</sup> quarters of the financial year, **2021/22 amounts to 1.**
- The handover of historical and new title deeds to their rightful beneficiaries is a continuous and ongoing process.

## Relationship between the SDF & IDP

The SDF is a **core component** that is part of the IDP. Council adopted to amend the SDF for the **new 5-year IDP term** → **29 September 2021**.

The SDF provides guidance on **where** and **when** budget (of all government & private sector) should be spent in the municipal space to **achieve** spatial transformation and developmental outcomes of the municipality.

Importantly the SDF considers how a municipal area should be **best developed over time**.

The SDF provides a map of the **long-term spatial vision** and a path to get there.

## SDF Amendment Process

The need to amend the SDF arose from the review of the SDF and other municipal strategic plans, policies, and decisions (i.e. Housing Pipeline, Inclusionary Housing, ATC etc.).

The changing circumstances requires an amendment of the 2019 adopted SDF to ensure strategic alignment with the new Council's delivery compact which is informed by the needs, interests & priorities of communities and service delivery departments.

The amendment of an SDF will be prepared as part of the municipality's IDP in accordance with the legislative provisions, namely – MSA, SPLUMA, WC: LUPA, & SM: MPBL.

The process that will be followed as set out & approved in the 2022 – 2023 IDP Process Plan will be the Project Steering Committee and not an IGR.

All stakeholders, government departments & the public will be consulted & afforded opportunities to make representations during the process.
