KENNISGEWING 11/2021 INSTALLERING VAN WARMWATERTOESTEL SKAKELAAR

Geagte Verbruiker

Stellenbosch Munisipaliteit is tans besig met die implementering van 'n huishoudelike verbruikersreguleringsprojek waartydens huishoudings binne geïdentifiseerde areas in Stellenbosch (uitgesluit huishoudings wat toegerus is met sonverhitte pompe en/of warmwatertoestelle) moet gebruik maak van 'n warmwatertoestel skakelaar wat die warmwatertoestel tydens hoë verbruik sal reguleer vir die verligting van elektrisiteitsverbruik op die nasionale elektrisiteitsnetwerk.

Vanaf 1 Maart 2021 sal u woning besoek word deur 'n verteenwoordiger van System Technology IST. Alle COVID pandemie maatreëls (dra van masker, ontsmetting van hande en die bewys van die daaglikse COVID-19 siftings vorms) sal gehandhaaf word deur die verteenwoordiger alvorens u woning betree word. Toegang tot u eiendom sal waardeer word of 'n afspraak gerieflik vir u, kan gereël word deur 082 601 3878 (Rassie Etechells) te skakel.

Bogenoemde magtiging is verkry vanaf :

Regulasie R773, 18 Julie 2008, Elektrisiteit Reguleringswet (4/2006)

Stellenbosch Munisipaliteit , Elektrisiteit Verordening, PN 7871 gedateer 30 Januarie 2018, S32(4)

Enige navrae rondom die installering van die warmwatertoestel skakelaar, kan gerig word aan Victor Dyusha, 021 808 8333

Munisipale groete,

Deon Louw (Pr Ing)
Direkteur: Infrastruktuurdienste

NOTICE 11/2021 INSTALLATION OF LOAD CONTROL SWITCHES

Dear Consumer

Stellenbosch Municipality is currently implementing a Residential Load Control project whereby every residential household within earmarked areas of Franschhoek (excluding those with fitted and working heat pump and solar panel solutions) must receive a geyser switching device which will control geysers during peak time to relieve the load on the national electricity grid.

Starting from 1 March 2021 your residence will be visited by Integrators of System Technology IST, the contractor representing Stellenbosch Municipality and the contractor will produce an identification card with his name, ID number, contact number and Stellenbosch Municipality's logo. As a safety precaution to curb the spread of COVID-19 each person that will be visiting your residence will be wearing a face mask, sanitize their hands and produce the daily screening questionnaire before entering. It will be appreciated if access to your premises can be granted or arrange appointment convenient to you by contacting 082 601 3878 (Rassie Etchells). Above mentioned authority is obtained from:

1. Regulation R773, of 18 July 2008, Electricity Regulation Act (4/2006).
2. Stellenbosch Municipality, Electricity Supply By-Law, PN 7871 of 30 January 2018 S32(4).

For any further clarifications on the installations of load controller switches, please contact Stellenbosch Municipality on **021 808 8333 (Victor Dyusha)** or your ward councillor

Municipal greetings

Deon Louw (Pr Eng)
Director: Infrastructure Services
