**STELLENBOSCH MUNICIPAL LAND USE PLANNING BY-LAW (2015) AND THE  
STELLENBOSCH MUNICIPAL ZONING SCHEME BY-LAW (2019)**

**Stellenbosch Municipal Land Use Planning By-Law (2015)**

Section 52 of the By-Law allows for an applicant to amend the application at any time before the approval of the application (see extract below)

**Amendments before approval**

52. (1) An applicant may amend his or her application at any time before the approval of the application—  
(a) at the applicant's own initiative:

The application as previously submitted is hereby amended as follows:

1. The relocation of the breakfast and dining area (454m<sup>2</sup>) to the new swimming pool area as shown on the SDP and floor plan drawn by Ivan McCarthy Peens Architect (drawing no 2.01 and 101).
2. To formalise the existing guest suites (13 ) that have been developed on the old tennis court to the immediate south of the main homestead as shown on the drawings of Ivan McCarthy Peens Architect (drawing 2.01 and 101). The applications in respect of the development of the 3 additional guest cottages are hereby omitted.

**Zoning Scheme By-Law**

The guest suites (referred to in 2 above) in terms of the newly adopted zoning by-law can be accommodated as tourist accommodation establishment that is defined as follows:

"tourist accommodation establishment" (toeriste-akkommodasie-onderneming) means an enterprise which provides the accommodation for transient guests which exceeds the scale and extent of tourist dwelling unit or guest house, and which is also not a hotel with its ancillary public facilities, and:

- i) may have an informal, clustered layout which takes cognisance of the natural features of the site and where internal road standards do not necessarily comply with formal township standards;
- ii) may consist of self-catering units;
- iii) and where enabled by the Scheme, may include tourist facilities subject to the development parameters of the particular zone;
- iv) where the following land uses may only be undertaken only with the specific further consent use approval of the Municipality regardless of whether tourist accommodation or tourist facilities is a primary right in that zone or not:
  - a) additional facilities for day visitors;
  - b) wellness centres and meeting rooms which serve resident guests;
  - c) camping sites with ancillary facilities;
  - d) tented accommodation, tree houses, mobile accommodation or the use of any construction materials and methodologies that are not ordinarily used;

## **DESIRABILITY AND CRITERIA FOR DECISION-MAKING**

The application with associated proposals can be accommodated in terms of the development parameters of the applicable zoning scheme with reference to the following:

- The primary use will remain agriculture (vineyards)
- The proposed use is subservient to the primary agricultural activities
- The proposals will not impact on the production capacity of the farming unit as it is and will be located on areas that are not used for agricultural purposes.
- The directorate engineering services have indicated that the previous proposal will not impact on the service level capacity of the farm. It is envisaged that the revised application will have a minimal impact on the service infrastructure of the farming unit
- Sufficient parking is available on site
- The breakfast and dining facility will be open for residing guest only. It therefore will not be accessible for the general public.
- The proposals are consistent with the development principles of spatial justice, spatial sustainability and spatial efficiency as contemplated in terms of Section 7 of the Spatial Planning and Land Use Management Act
- The proposals conform to and are aligned with the land use planning principles set out on Section 59 of the Land Use Planning Act (2014) in so far the following:
  - Prime, unique and high potential agricultural land will be protected
  - The proposal will not promote urban sprawl and related development located outside the urban edge
  - The proposals are consistent with the approved principles and guidelines of the Stellenbosch Municipal Spatial Development Framework that supports small scale tourism development outside the urban edge
  - The proposals will have a minimum impact on the rural character of the winelands landscape
  - The proposals are not visible from the Helshoogte Road and will not lead to a proliferation of the unique and scenic quality of the area;
  - The provision of tourism related facilities are conducive to local employment opportunities as supported in terms of the Municipal Integrated Development Plan and Local Economic Development Framework
  - The proposed land uses are compatible with the surrounding character of the area that comprise various tourism related development facilities
