Idas Valley Community Market

NOTICE: 25/2019

Residents and community organisations are hereby advised of the availability of the Idas Valley Community Market to host community events

As part of an IDP request by Idas Valley Community to provide a community market, the Stellenbosch Municipality recently opened the Ida's Valley Community Market. The venue acts primarily as a market trading space for informal traders and small business owners and has the ability to perform a secondary function as a multipurpose venue for the community.

The facility provides a space for musical and dance performances, functions and prize giving ceremonies, church and school bazaars, outdoor exercise, self-defence classes, etc. The venue further acts as an assembly point for community or social activity such as group park runs or cycling.

Interested parties are hereby invited to indicate their interest in making use of this space. Enquiries can be directed to Mr Vusumzi Zwelendaba to discuss the proposed event and availability of the venue.

Please note that preference will be given to residents and organisations from Ida's Valley and the Greater Stellenbosch area.

Applicants must be a minimum of 18 years of age

Enquiries: Mr Vusumzi Zwelendaba
