6. STANDARD CONDITIONS OF TENDER (CIDB)

F.1 General

F.1.1 Actions

F.1.1.1 The employer and each tenderer submitting a tender offer shall comply with these conditions of tender. In their dealings with each other, they shall discharge their duties and obligations as set out in F.2 and F.3, timeously and with integrity, and behave equitably, honestly and transparently, comply with all legal obligations and not engage in anticompetitive practices.

F.1.1.2 The employer and the tenderer and all their agents and employees involved in the tender process shall avoid conflicts of interest and where a conflict of interest is perceived or known, declare any such conflict of interest, indicating the nature of such conflict. Tenderers shall declare any potential conflict of interest in their tender submissions. Employees, agents and advisors of the employer shall declare any conflict of interest to whoever is responsible for overseeing the procurement process at the start of any deliberations relating to the procurement process or as soon as they become aware of such conflict, and abstain from any decisions where such conflict exists or recuse themselves from the procurement process, as appropriate.

Note

- 1) *A conflict of interest may arise due to a conflict of roles, which might provide an incentive for improper acts in some circumstances. A conflict of interest can create an appearance of impropriety that can undermine confidence in the ability of that person to act properly in his or her position even if no improper acts result.*
- 2) *Conflicts of interest in respect of those engaged in the procurement process include direct, indirect or family interests in the tender or outcome of the procurement process and any personal bias, inclination, obligation, allegiance or loyalty, which would in any way, affect any decisions taken.*

F.1.1.3 The employer shall not seek and a tenderer shall not submit a tender without having a firm intention and the capacity to proceed with the contract.

F.1.2 Tender Documents

The documents issued by the employer for the purpose of a tender offer are listed in the tender data.

F.1.3 Interpretation

F.1.3.1 The tender data and additional requirements contained in the tender schedules that are included in the returnable documents are deemed to be part of these conditions of tender.

F.1.3.2 These conditions of tender, the tender data and tender schedules, which are only required for tender evaluation purposes, shall not form part of any contract arising from the invitation to tender.

F.1.3.3 For the purposes of these conditions of tender, the following definitions apply:

- a) **conflict of interest** means any situation in which:
 - i) someone in a position of trust has competing professional or personal interests which make it difficult to fulfil his or her duties impartially;
 - ii) an individual or organisation is in a position to exploit a professional or official capacity in some way for their personal or corporate benefit; or
 - iii) incompatibility or contradictory interests exist between an employee and the organisation which employs that employee.
- b) **comparative offer** means the price after the factors of a non-firm price and all unconditional discounts it can be utilised to have been taken into consideration;

-
- c) **corrupt practice** means the offering, giving, receiving or soliciting of anything of value to influence the action of the employer or his staff or agents in the tender process;
 - d) **fraudulent practice** means the misrepresentation of the facts in order to influence the tender process or the award of a contract arising from a tender offer to the detriment of the employer, including collusive practices intended to establish prices at artificial levels;
 - e) **organization** means a company, firm, enterprise, association or other legal entity, whether incorporated or not, or a public body;
 - f) **functionality** means the measurement according to the predetermined norms of a service or commodity designed to be practical and useful, working or operating, taking into account quality, reliability, viability and durability of a service and technical capacity and ability of a tenderer.

F.1.4 Communication and employer's agent

Each communication between the employer and a tenderer shall be to or from the employer's agent only, and in a form that can be readily read, copied and recorded. Communications shall be in the English language. The employer shall not take any responsibility for non- receipt of communications from or by a tenderer. The name and contact details of the employer's agent are stated in the tender data.

F.1.5 Cancellation and Re-Invitation of Tenders

F1.5.1 An organ of state may, prior to the award of the tender, cancel a tender if-

- (a) due to changed circumstances, there is no longer a need for the services, works or goods requested; or
- (b) funds are no longer available to cover the total envisaged expenditure; or
- (c) no acceptable tenders are received.

F1.5.2 The decision to cancel a tender must be published in the cidb website and in the government Tender Bulletin for the media in which the original tender invitation was advertised.

F.1.6 Procurement procedures

F.1.6.1 General

Unless otherwise stated in the tender data, a contract will, subject to F.3.13, be concluded with the tenderer who in terms of F.3.11 is the highest ranked or the tenderer scoring the highest number of tender evaluation points, as relevant, based on the tender submissions that are received at the closing time for tenders.

F.1.6.2 Competitive negotiation procedure

F.1.6.2.1 Where the tender data require that the competitive negotiation procedure is to be followed, tenderers shall submit tender offers in response to the proposed contract in the first round of submissions. Notwithstanding the requirements of F.3.4, the employer shall announce only the names of the tenderers who make a submission. The requirements of F.3.8 relating to the material deviations or qualifications which affect the competitive position of tenderers shall not apply.

F.1.6.2.2 All responsive tenderers, or not less than three responsive tenderers that are highest ranked in terms of the evaluation method and evaluation criteria stated in the tender data, shall be invited in each round to enter into competitive negotiations, based on the principle of equal treatment and keeping confidential the proposed solutions and associated information. Notwithstanding the provisions of F.2.17, the employer may request that tenders be clarified, specified and fine-tuned in order to improve a tenderer's

competitive position provided that such clarification, specification, fine-tuning or additional information does not alter any fundamental aspects of the offers or impose substantial new requirements which restrict or distort competition or have a discriminatory effect.

F.1.6.2.3 At the conclusion of each round of negotiations, tenderers shall be invited by the employer to make a fresh tender offer, based on the same evaluation criteria, with or without adjusted weightings. Tenderers shall be advised when they are to submit their best and final offer.

F.1.6.2.4 The contract shall be awarded in accordance with the provisions of F.3.11 and F.3.13 after tenderers have been requested to submit their best and final offer.

F.1.6.3 Proposal procedure using the two stage-system

F.1.6.3.1 Option 1

Tenderers shall in the first stage submit technical proposals and, if required, cost parameters around which a contract may be negotiated. The employer shall evaluate each responsive submission in terms of the method of evaluation stated in the tender data, and in the second stage negotiate a contract with the tenderer scoring the highest number of evaluation points and award the contract in terms of these conditions of tender.

F.1.6.3.2 Option 2

F.1.6.3.2.1 Tenderers shall submit in the first stage only technical proposals. The employer shall invite all responsive tenderers to submit tender offers in the second stage, following the issuing of procurement documents.

F.1.6.3.2.2 The employer shall evaluate tenders received during the second stage in terms of the method of evaluation stated in the tender data, and award the contract in terms of these conditions of tender.

F.2 Tenderer's obligations

F.2.1 Eligibility

F.2.1.1 Submit a tender offer only if the tenderer satisfies the criteria stated in the tender data and the tenderer, or any of his principals, is not under any restriction to do business with employer.

F.2.1.2 Notify the employer of any proposed material change in the capabilities or formation of the tendering entity (or both) or any other criteria which formed part of the qualifying requirements used by the employer as the basis in a prior process to invite the tenderer to submit a tender offer and obtain the employer's written approval to do so prior to the closing time for tenders.

F.2.2 Cost of tendering

F.2.2.1 Accept that, unless otherwise stated in the tender data, the employer will not compensate the tenderer for any costs incurred in the preparation and submission of a tender offer, including the costs of any testing necessary to demonstrate that aspects of the offer complies with requirements.

F.2.2.2 The cost of the tender documents charged by the employer shall be limited to the actual cost incurred by the employer for printing the documents. Employers must attempt to make available the tender documents on its website so as not to incur any costs pertaining to the printing of the tender documents.

F.2.3 Check documents

Check the tender documents on receipt for completeness and notify the employer of any discrepancy or omission.

F.2.4 Confidentiality and copyright of documents

Treat as confidential all matters arising in connection with the tender. Use and copy the documents issued by the employer only for the purpose of preparing and submitting a tender offer in response to the invitation.

F.2.5 Reference documents

Obtain, as necessary for submitting a tender offer, copies of the latest versions of standards, specifications, conditions of contract and other publications, which are not attached but which are incorporated into the tender documents by reference.

F.2.6 Acknowledge addenda

Acknowledge receipt of addenda to the tender documents, which the employer may issue, and if necessary apply for an extension to the closing time stated in the tender data, in order to take the addenda into account.

F.2.7 Clarification meeting

Attend, where required, a clarification meeting at which tenderers may familiarize themselves with aspects of the proposed work, services or supply and raise questions. Details of the meeting(s) are stated in the tender data.

F.2.8 Seek clarification

Request clarification of the tender documents, if necessary, by notifying the employer at least five working days before the closing time stated in the tender data.

F.2.9 Insurance

Be aware that the extent of insurance to be provided by the employer (if any) might not be for the full cover required in terms of the conditions of contract identified in the contract data. The tenderer is advised to seek qualified advice regarding insurance.

F.2.10 Pricing the tender offer

F.2.10.1 Include in the rates, prices, and the tendered total of the prices (if any) all duties, taxes (except Value Added Tax (VAT), and other levies payable by the successful tenderer, such duties, taxes and levies being those applicable 14 days before the closing time stated in the tender data.

F.2.10.2 Show VAT payable by the employer separately as an addition to the tendered total of the prices.

F.2.10.3 Provide rates and prices that are fixed for the duration of the contract and not subject to adjustment except as provided for in the conditions of contract identified in the contract data.

F.2.10.4 State the rates and prices in Rand unless instructed otherwise in the tender data. The conditions of contract identified in the contract data may provide for part payment in other currencies.

F.2.11 Alterations to documents

Do not make any alterations or additions to the tender documents, except to comply with instructions issued by the employer, or necessary to correct errors made by the tenderer. All signatories to the tender offer shall initial all such alterations.

F.2.12 Alternative tender offers

F.2.12.1 Unless otherwise stated in the tender data, submit alternative tender offers only if a main tender offer, strictly in accordance with all the requirements of the tender documents, is also submitted as well as a schedule that compares the requirements of the tender documents with the alternative requirements that are proposed.

F.2.12.2 Accept that an alternative tender offer may be based only on the criteria stated in the tender data or criteria otherwise acceptable to the employer.

F.2.12.3 An alternative tender offer may only be considered in the event that the main tender offer is the winning tender.

F.2.13 Submitting a tender offer

F.2.13.1 Submit one tender offer only, either as a single tendering entity or as a member in a joint venture to provide the whole of the works, services or supply identified in the contract data and described in the scope of works, unless stated otherwise in the tender data.

F.2.13.2 Return all returnable documents to the employer after completing them in their entirety, either electronically (if they were issued in electronic format) or by writing legibly in non-erasable ink.

F.2.13.3 Submit the parts of the tender offer communicated on paper as an original plus the number of copies stated in the tender data, with an English translation of any documentation in a language other than English, and the parts communicated electronically in the same format as they were issued by the employer.

F.2.13.4 Sign the original and all copies of the tender offer where required in terms of the tender data. The employer will hold all authorized signatories liable on behalf of the tenderer. Signatories for tenderers proposing to contract as joint ventures shall state which of the signatories is the lead partner whom the employer shall hold liable for the purpose of the tender offer.

F.2.13.5 Seal the original and each copy of the tender offer as separate packages marking the packages as "ORIGINAL" and "COPY". Each package shall state on the outside the employer's address and identification details stated in the tender data, as well as the tenderer's name and contact address.

F.2.13.6 Where a two-envelope system is required in terms of the tender data, place and seal the returnable documents listed in the tender data in an envelope marked "financial proposal" and place the remaining returnable documents in an envelope marked "technical proposal". Each envelope shall state on the outside the employer's address and identification details stated in the tender data, as well as the tenderer's name and contact address.

F.2.13.7 Seal the original tender offer and copy packages together in an outer package that states on the outside only the employer's address and identification details as stated in the tender data.

F.2.13.8 Accept that the employer will not assume any responsibility for the misplacement or premature opening of the tender offer if the outer package is not sealed and marked as stated.

F.2.13.9 Accept that tender offers submitted by facsimile or e-mail will be rejected by the employer, unless stated otherwise in the tender data.

F.2.14 Information and data to be completed in all respects

Accept that tender offers, which do not provide all the data or information requested completely and in the form required, may be regarded by the employer as non-responsive.

F.2.15 Closing time

F.2.15.1 Ensure that the employer receives the tender offer at the address specified in the tender data not later than the closing time stated in the tender data. Accept that proof of posting shall not be accepted as proof of delivery.

F.2.15.2 Accept that, if the employer extends the closing time stated in the tender data for any reason, the requirements of these conditions of tender apply equally to the extended deadline.

F.2.16 Tender offer validity

- F.2.16.1** Hold the tender offer(s) valid for acceptance by the employer at any time during the validity period stated in the tender data after the closing time stated in the tender data.
- F.2.16.2** If requested by the employer, consider extending the validity period stated in the tender data for an agreed additional period with or without any conditions attached to such extension.
- F.2.16.3** Accept that a tender submission that has been submitted to the employer may only be withdrawn or substituted by giving the employer's agent written notice before the closing time for tenders that a tender is to be withdrawn or substituted.
- F.2.16.4** Where a tender submission is to be substituted, submit a substitute tender in accordance with the requirements of F.2.13 with the packages clearly marked as "SUBSTITUTE".

F.2.17 Clarification of tender offer after submission

Provide clarification of a tender offer in response to a request to do so from the employer during the evaluation of tender offers. This may include providing a breakdown of rates or prices and correction of arithmetical errors by the adjustment of certain rates or item prices (or both). No change in the competitive position of tenderers or substance of the tender offer is sought, offered, or permitted.

Note: Sub-clause F.2.17 does not preclude the negotiation of the final terms of the contract with a preferred tenderer following a competitive selection process, should the Employer elect to do so.

F.2.18 Provide other material

- F.2.18.1** Provide, on request by the employer, any other material that has a bearing on the tender offer, the tenderer's commercial position (including notarized joint venture agreements), preferencing arrangements, or samples of materials, considered necessary by the employer for the purpose of a full and fair risk assessment. Should the tenderer not provide the material, or a satisfactory reason as to why it cannot be provided, by the time for submission stated in the employer's request, the employer may regard the tender offer as non-responsive.
- F.2.18.2** Dispose of samples of materials provided for evaluation by the employer, where required.

F.2.19 Inspections, tests and analysis

Provide access during working hours to premises for inspections, tests and analysis as provided for in the tender data.

F.2.20 Submit securities, bonds and policies

If requested, submit for the employer's acceptance before formation of the contract, all securities, bonds, guarantees, policies and certificates of insurance required in terms of the conditions of contract identified in the contract data.

F.2.21 Check final draft

Check the final draft of the contract provided by the employer within the time available for the employer to issue the contract.

F.2.22 Return of other tender documents

If so instructed by the employer, return all retained tender documents within 28 days after the expiry of the validity period stated in the tender data.

F.2.23 Certificates

Include in the tender submission or provide the employer with any certificates as stated in the tender data.

F.3 The employer's undertakings

F.3.1 Respond to requests from the tenderer

- F.3.1.1** Unless otherwise stated in the tender Data, respond to a request for clarification received up to five working days before the tender closing time stated in the Tender Data and notify all tenderers who drew procurement documents.
- F.3.1.2** Consider any request to make a material change in the capabilities or formation of the tendering entity (or both) or any other criteria which formed part of the qualifying requirements used to prequalify a tenderer to submit a tender offer in terms of a previous procurement process and deny any such request if as a consequence:
- an individual firm, or a joint venture as a whole, or any individual member of the joint venture fails to meet any of the collective or individual qualifying requirements;
 - the new partners to a joint venture were not prequalified in the first instance, either as individual firms or as another joint venture; or
 - in the opinion of the Employer, acceptance of the material change would compromise the outcome of the prequalification process.

F.3.2 Issue Addenda

If necessary, issue addenda that may amend or amplify the tender documents to each tenderer during the period from the date that tender documents are available until three days before the tender closing time stated in the Tender Data. If, as a result a tenderer applies for an extension to the closing time stated in the Tender Data, the Employer may grant such extension and, shall then notify all tenderers who drew documents.

F.3.3 Return late tender offers

Return tender offers received after the closing time stated in the Tender Data, unopened, (unless it is necessary to open a tender submission to obtain a forwarding address), to the tenderer concerned.

F.3.4 Opening of tender submissions

- F.3.4.1** Unless the two-envelope system is to be followed, open valid tender submissions in the presence of tenderers' agents who choose to attend at the time and place stated in the tender data. Tender submissions for which acceptable reasons for withdrawal have been submitted will not be opened.
- F.3.4.2** Announce at the meeting held immediately after the opening of tender submissions, at a venue indicated in the tender data, the name of each tenderer whose tender offer is opened and, where applicable, the total of his prices, number of points claimed for its B-BBEE status level and time for completion for the main tender offer only.
- F.3.4.3** Make available the record outlined in F.3.4.2 to all interested persons upon request.

F.3.5 Two-envelope system

- F.3.5.1** Where stated in the tender data that a two-envelope system is to be followed, open only the technical proposal of valid tenders in the presence of tenderers' agents who choose to attend at the time and place stated in the tender data and announce the name of each tenderer whose technical proposal is opened.
- F.3.5.2** Evaluate functionality of the technical proposals offered by tenderers, then advise tenderers who remain in contention for the award of the contract of the time and place when the financial proposals will be opened. Open only the financial proposals of tenderers, who score in the functionality evaluation more than the minimum number of points for functionality stated in the tender data, and announce the score obtained for the technical proposals and the total price and any points claimed on B-BBEE status level. Return unopened financial proposals to tenderers whose technical proposals failed to achieve the minimum number of points for functionality.
-

F.3.6 Non-disclosure

Not disclose to tenderers, or to any other person not officially concerned with such processes, information relating to the evaluation and comparison of tender offers, the final evaluation price and recommendations for the award of a contract, until after the award of the contract to the successful tenderer.

F.3.7 Grounds for rejection and disqualification

Determine whether there has been any effort by a tenderer to influence the processing of tender offers and instantly disqualify a tenderer (and his tender offer) if it is established that he engaged in corrupt or fraudulent practices.

F.3.8 Test for responsiveness

F.3.8.1 Determine, after opening and before detailed evaluation, whether each tender offer properly received:

- a) complies with the requirements of these Conditions of Tender,
- b) has been properly and fully completed and signed, and
- c) is responsive to the other requirements of the tender documents.

F.3.8.2 A responsive tender is one that conforms to all the terms, conditions, and specifications of the tender documents without material deviation or qualification. A material deviation or qualification is one which, in the Employer's opinion, would:

- a) detrimentally affect the scope, quality, or performance of the works, services or supply identified in the Scope of Work,
- b) significantly change the Employer's or the tenderer's risks and responsibilities under the contract, or
- c) affect the competitive position of other tenderers presenting responsive tenders, if it were to be rectified.

Reject a non-responsive tender offer, and not allow it to be subsequently made responsive by correction or withdrawal of the non-conforming deviation or reservation.

F.3.9 Arithmetical errors, omissions and discrepancies

F.3.9.1 Check the highest ranked tender or tenderer with the highest number of tender evaluation points after the evaluation of tender offers in accordance with F.3.11 for:

- a) the gross misplacement of the decimal point in any unit rate;
- b) omissions made in completing the pricing schedule or bills of quantities; or
- c) arithmetic errors in:
 - i) line item totals resulting from the product of a unit rate and a quantity in bills of quantities or schedules of prices; or
 - ii) the summation of the prices.

F3.9.2 The employer must correct the arithmetical errors in the following manner:

- a) Where there is a discrepancy between the amounts in words and amounts in figures, the amount in words shall govern.
 - b) If bills of quantities or pricing schedules apply and there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted shall govern, and the unit rate shall be corrected.
-

- c) Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer's addition of prices, the total of the prices shall govern and the tenderer will be asked to revise selected item prices (and their rates if bills of quantities apply) to achieve the tendered total of the prices.

Consider the rejection of a tender offer if the tenderer does not correct or accept the correction of the arithmetical error in the manner described above.

F.3.10 Clarification of a tender offer

Obtain clarification from a tenderer on any matter that could give rise to ambiguity in a contract arising from the tender offer.

F.3.11 Evaluation of tender offers

F.3.11.1 General

Appoint an evaluation panel of not less than three persons. Reduce each responsive tender offer to a comparative offer and evaluate them using the tender evaluation methods and associated evaluation criteria and weightings that are specified in the tender data.

F.3.11.2 Method 1: Price and Preference

In the case of a price and preference:

- 1) Score tender evaluation points for price
- 2) Score points for preference
- 3) Add the points scored for price and preference

F.3.11.3 Method 2: Functionality, Price and Preference

In the case of a functionality, price and preference:

- 1) Score functionality, rejecting all tender offers that fail to achieve the minimum number of points for functionality as stated in the Tender Data.
- 2) No tender must be regarded as an acceptable tender if it fails to achieve the minimum qualifying score for functionality as indicated in the tender invitation.
- 3) Tenders that have received the minimum qualification score for functionality must be evaluated further in terms of the preference points system prescribed in paragraphs 4 and 5 below.

The 80/20 point system for acquisition of services, works or goods up to Rand value of R50 million.

The following formula must be used to calculate the points for price in respect of tender (including price quotation) with a rand value equal to, or above R30 000 and up to Rand value of R50 000 000 (all applicable taxes included):

$$P_s = 80 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right)$$

Where:

- P_s = Points scored for price of bid under consideration;
 P_t = Price of bid under consideration; and
 P_{min} = Price of lowest acceptable tender or offer.

- 1) (a)(1) A maximum of 20 points (80/20 preference points system) or 10 (90/10)

preference points system), must be allocated for specific goals. These goals are :

- (i) contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender or disability;
 - (ii) Promotion of enterprises located in the municipal area (WCO24)
- 2) Regarding par 1(a)(1)(i) at least 50% of the 20/10 points must be allocated to promote this goal and points will be allocated in terms of the BBBEE scorecard as follows.

| B-BBEE Status Level of Contributor | Number of Points for 80/20 Preference Points System |
|------------------------------------|---|
| 1 | 20 |
| 2 | 18 |
| 3 | 16 |
| 4 | 12 |
| 5 | 8 |
| 6 | 6 |
| 7 | 4 |
| 8 | 2 |
| Non-compliant contributor | 0 |

- A tenderer must submit proof of its BBBEE status level contributor.
 - A tenderer failing to submit proof of BBBEE status level of contributor may only score in terms of the 80/90-point formula for price; and scores 0 points out of 10/5 BBBEE status level of contributor, which is in line with section 2 (1) (d) (i) of the Act, where the supplier or service provider did not provide proof thereof.
- 3) Regarding par 1(a)(1)(ii) a maximum of 50% of the 20/10 points must be allocated to promote this goal. Maximum points will be allocated as follows.

| Locality of supplier | Number of Points for 80/20 Preference Points System | Number of Points for 90/10 Preference Points System |
|---|---|---|
| Within the boundaries of the municipality | 10 | N/A |
| Outside of the boundaries of the municipality | 0 | 0 |

The maximum will be proportionately adjusted depending on the number of points allocated for this goal. E.G., 40% will equate to 8/4 points.

- 4) An employer of state may apply the formula in paragraph (i) for price quotations with a value less than R30 000, if and when appropriate:

- 5) Subject to paragraph 4.3.8 of “Standard for Uniformity in Procurement, April 2017”, the contract must be awarded to the tender who scores the highest total number of points.

The 90/10 preference points system for acquisition of services, works or goods with a Rand value above R50 million

- 5) (a) The following formula must be used to calculate the points for price in respect of tenders with a Rand value above R50 000 000 (all applicable taxes included):

$$P_s = 90 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right)$$

Where:

- P_s = Points scored for price of bid under consideration;
 P_t = Price of bid under consideration; and
 P_{min} = Price of lowest acceptable bid.

- 6) (a)(i) A maximum of 20 points (80/20 preference points system) or 10 (90/10 preference points system), must be allocated for specific goals. These goals are :
- (ii) contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender or disability;
- (iii) Promotion of enterprises located in the municipal area (WCO24)
- 7) Regarding par 6(a)(i) at least 50% of the 20/10 points must be allocated to promote this goal and points will be allocated in terms of the BBBEE scorecard as follows.

| B-BBEE status level of contributor | Number of points |
|------------------------------------|------------------|
| 1 | 10 |
| 2 | 9 |
| 3 | 6 |
| 4 | 5 |
| 5 | 4 |
| 6 | 3 |
| 7 | 2 |
| 8 | 1 |
| Non-compliant contributor | 0 |

- A tenderer must submit proof of its BBBEE status level contributor.
- A tenderer failing to submit proof of BBBEE status level of contributor may only score in terms of the 80/90-point formula for price; and

scores 0 points out of 10/5 BBEE status level of contributor, which is in line with section 2 (1) (d) (i) of the Act, where the supplier or service provider did not provide proof thereof.

- 8) Regarding par 6(a)(1)(ii) a maximum of 50% of the 20/10 points must be allocated to promote this goal. Maximum points will be allocated as follows.

| Locality of supplier | Number of Points for 80/20 Preference Points System | Number of Points for 90/10 Preference Points System |
|---|---|---|
| Within the boundaries of the municipality | 10 | N/A |
| Outside of the boundaries of the municipality | 0 | 0 |

The maximum will be proportionately adjusted depending on the number of points allocated for this goal. E.G., 40% will equate to 8/4 points.

- 5) (c) A maximum of 10 points may be allocated in accordance with subparagraph (5)(b).
- 5) (d) The points scored by tender in respect of B-BBEE contribution must be added to the points scored for price as calculated
- 5) (e) Subject to paragraph 4.3.8 of “Standard for Uniformity in Procurement, April 2017”, the contract must be awarded to the tender who scores the highest total number of points.

F.3.11.6 Decimal places

Score price, preference and functionality, as relevant, to two decimal places.

F.3.11.7 Scoring Price

Score price of remaining responsive tender offers using the following formula:

$$N_{FO} = W_1 \times A$$

Where:

N_{FO} = the number of tender evaluation points awarded for price.

W_1 = the maximum possible number of tender evaluation points awarded for price as stated in the Tender Data.

A = a number calculated using the formula and option described in Table F.1 as stated in the Tender Data.

Table F.1: Formulae for calculating the value of A

| Formula | Comparison aimed at achieving | Option 1 ^a | Option 2 ^a |
|--|---|--|-----------------------|
| 1 | Highest price or discount | $A = \left(1 + \frac{P - P_m}{P_m}\right)$ | $A = P / P_m$ |
| 2 | Lowest price or percentage commission / fee | $A = \left(1 - \frac{P - P_m}{P_m}\right)$ | $A = P_m / P$ |
| ^a P_m = is the comparative offer of the most favourable comparative offer. P = is the comparative offer of the tender offer under consideration. | | | |

F.3.11.8 Scoring preferences

Confirm that tenderers are eligible for the preferences claimed in accordance with the provisions of the tender data and reject all claims for preferences where tenderers are

not eligible for such preferences. Calculate the total number of tender evaluation points for preferences claimed in accordance with the provisions of the tender data.

F.3.11.9 Scoring functionality

Score each of the criteria and sub-criteria for quality in accordance with the provisions of the Tender Data.

Calculate the total number of tender evaluation points for quality using the following formula:

$$N_Q = W_2 \times S_O / M_S$$

Where:

S_O = the score for quality allocated to the submission under consideration;

M_S = the maximum possible score for quality in respect of a submission; and

W_2 = the maximum possible number of tender evaluation points awarded for the quality as stated in the tender data

F.3.12 Insurance provided by the employer

If requested by the proposed successful tenderer, submit for the tenderer's information the policies and / or certificates of insurance which the conditions of contract identified in the contract data, require the employer to provide.

F.3.13 Acceptance of tender offer

Accept the tender offer; if in the opinion of the employer, it does not present any risk and only if the tenderer:

- a) is not under restrictions, or has principals who are under restrictions, preventing participating in the employer's procurement,
- b) can, as necessary and in relation to the proposed contract, demonstrate that he or she possesses the professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, experience and reputation, expertise and the personnel, to perform the contract,
- c) has the legal capacity to enter into the contract,
- d) is not insolvent, in receivership, under Business Rescue as provided for in chapter 6 of the Companies Act, 2008, bankrupt or being wound up, has his affairs administered by a court or a judicial officer, has suspended his business activities, or is subject to legal proceedings in respect of any of the foregoing,
- e) complies with the legal requirements, if any, stated in the tender data, and
- f) is able, in the opinion of the employer, to perform the contract free of conflicts of interest.

F.3.14 Prepare contract documents

F.3.14.1 If necessary, revise documents that shall form part of the contract and that were issued by the employer as part of the tender documents to take account of:

- a) addenda issued during the tender period,
- b) inclusion of some of the returnable documents, and
- c) other revisions agreed between the employer and the successful tenderer.

F.3.14.2 Complete the schedule of deviations attached to the form of offer and acceptance, if any.

F.3.15 Complete adjudicator's contract

Unless alternative arrangements have been agreed or otherwise provided for in the contract, arrange for both parties to complete formalities for appointing the selected adjudicator at the same time as the main contract is signed.

F.3.16 Notice to unsuccessful tenderers

F.3.16.1 Notify the successful tenderer of the employer's acceptance of his tender offer by completing and returning one copy of the form of offer and acceptance before the expiry of the validity period stated in the tender data, or agreed additional period.

F.3.16.2 After the successful tenderer has been notified of the employer's acceptance of the tender, notify other tenderers that their tender offers have not been accepted.

F.3.17 Provide copies of the contracts

Provide to the successful tenderer the number of copies stated in the Tender Data of the signed copy of the contract as soon as possible after completion and signing of the form of offer and acceptance.

F.3.18 Provide written reasons for actions taken

Provide upon request written reasons to tenderers for any action that is taken in applying these conditions of tender, but withhold information, which is not in the public interest to be divulged, which is considered to prejudice the legitimate commercial interests of tenderers or might prejudice fair competition between tenderers.

F3.19 Transparency in the procurement process

F3.19.1 The cidb prescripts require that tenders must be advertised and be registered on the cidb i-Tender system.

F3.19.2 The employer must adopt a transparency model that incorporates the disclosure and accountability as transparency requirements in the procurement process.

F3.19.3 The transparency model must identify the criteria for selection of projects, project information template and the threshold value of the projects to be disclosed in the public domain at various intervals of delivery of infrastructure projects.

F3.19.4 The client must publish the information on a quarterly basis, which contains the following information:

- Procurement planning process
- Procurement method and evaluation process
- Contract type
- Contract status
- Number of firms tendering
- Cost estimate
- Contract title
- Contract firm(s)
- Contract price
- Contract scope of work
- Contract start date and duration
- Contract evaluation reports

F3.19.5 The employer must establish a Consultative Forum which will conduct a random audit in the implementation of the transparency requirements in the procurement process.

F3.19.6 Consultative Forum must be an independent structure from the bid committees. F3.19.7 The information must be published on the employer's website.

F 3.19.8 Records of such disclosed information must be retained for audit purposes.

-
- 1.18. "Local content" means that portion of the bidding price which is not included in the imported content provided that local manufacture does take place.
- 1.19. "Manufacture" means the production of products in a factory using labour, materials, components and machinery and includes other related value-adding activities.
- 1.20. "Order" means an official written order issued for the supply of goods or works or the rendering of a service.
- 1.21. "Project site" where applicable, means the place indicated in bidding documents.
- 1.22. "Purchaser" means the organization purchasing the goods.
- 1.23. "Republic" means the Republic of South Africa.
- 1.24. "SCC" means the Special Conditions of Contract.
- 1.25. "Services" means those functional services ancillary to the supply of the goods, such as transportation and any other incidental services, such as installation, commissioning, provision of technical assistance, training, catering, gardening, security, maintenance and other such obligations of the supplier covered under the contract.
- 1.26. "Supplier" means the successful bidder who is awarded the contract to maintain and administer the required and specified service(s) to the State.
- 1.27. "Tort" means in breach of contract.
- 1.28. "Turnkey" means a procurement process where one service provider assumes total responsibility for all aspects of the project and delivers the full end product / service required by the contract.
- 1.29. "Written" or "in writing" means handwritten in ink or any form of electronic or mechanical writing.

2. Application

- 2.1. These general conditions are applicable to all bids, contracts and orders including bids for functional and professional services, sales, hiring, letting and the granting or acquiring of rights, but excluding immovable property, unless otherwise indicated in the bidding documents.
- 2.2. Where applicable, special conditions of contract are also laid down to cover specific supplies, services or works.
- 2.3. Where such special conditions of contract are in conflict with these general conditions, the special conditions shall apply.

3. General

- 3.1. Unless otherwise indicated in the bidding documents, the purchaser shall not be liable for any expense incurred in the preparation and submission of a bid. Where applicable a non-refundable fee for documents may be charged.
- 3.2. Invitations to bid are usually published in locally distributed news media and on the municipality / municipal entity website.

4. Standards

- 4.1. The goods supplied shall conform to the standards mentioned in the bidding documents and specifications.

5. Use of contract documents and information; inspection.

- 5.1. The supplier shall not, without the purchaser's prior written consent, disclose the contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the purchaser in connection therewith, to any person other than a person employed by the supplier in the performance of the contract. Disclosure to any such employed person shall be made in confidence and shall extend only as far as may be necessary for purposes of such performance.
- 5.2. The supplier shall not, without the purchaser's prior written consent, make use of any document or information mentioned in GCC clause 5.1 except for purposes of performing the contract.

5.3. Any document, other than the contract itself mentioned in GCC clause 5.1 shall remain the property of the purchaser and shall be returned (all copies) to the purchaser on completion of the supplier's performance under the contract if so required by the purchaser.

5.4. The supplier shall permit the purchaser to inspect the supplier's records relating to the performance of the supplier and to have them audited by auditors appointed by the purchaser, if so required by the purchaser.

6. Patent rights

6.1. The supplier shall indemnify the purchaser against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the goods or any part thereof by the purchaser.

6.2. When a supplier developed documentation / projects for the municipality / municipal entity, the intellectual, copy and patent rights or ownership of such documents or projects will vest in the municipality / municipal entity.

7. Performance security

7.1. Within thirty (30) days of receipt of the notification of contract award, the successful bidder shall furnish to the purchaser the performance security of the amount specified in SCC.

7.2. The proceeds of the performance security shall be payable to the purchaser as compensation for any loss resulting from the supplier's failure to complete his obligations under the contract.

7.3. The performance security shall be denominated in the currency of the contract or in a freely convertible currency acceptable to the purchaser and shall be in one of the following forms:

7.3.1. bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the purchaser's country or abroad, acceptable to the purchaser, in the form provided in the bidding documents or another form acceptable to the purchaser; or

7.3.2. a cashier's or certified cheque

7.4. The performance security will be discharged by the purchaser and returned to the supplier not later than thirty (30) days following the date of completion of the supplier's performance obligations under the contract, including any warranty obligations, unless otherwise specified.

8. Inspections, tests and analyses

8.1. All pre-bidding testing will be for the account of the bidder. If it is a bid condition that supplies to be produced or services to be rendered should at any stage during production or execution or on completion be subject to inspections tests and analysis, the bidder or contractor's premises shall be open, at all reasonable hours, for inspection by a representative of the purchaser or an organization acting on behalf of the purchaser.

8.2. If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make the necessary arrangements, including payment arrangements with the testing authority concerned.

8.3. If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the goods to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the purchaser.

8.4. Where the goods or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such goods or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.

8.5. Supplies and services which are referred to in clauses 8.2 and 8.3 and which do not comply with the contract requirements may be rejected.

8.6. Any contract goods may on or after delivery be inspected, tested or analyzed and may be rejected if found not to comply with the requirements of the contract. Such rejected goods shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with goods which do comply with the requirements of the contract. Failing such removal the rejected goods shall be returned at the suppliers cost and risk. Should the supplier fail to provide the substitute goods forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected goods, purchase such goods as may be necessary at the expense of the supplier.

8.7. The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on account of a breach of the conditions thereof, or to act in terms of Clause 22 of GCC.

9. Packing

9.1. The supplier shall provide such packing of the goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing, case size and weights shall take into consideration, where appropriate, the remoteness of the goods' final destination and the absence of heavy handling facilities at all points in transit.

9.2. The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the contract, including additional requirements, and in any subsequent instructions ordered by the purchaser.

10. Delivery

Delivery of the goods shall be made by the supplier in accordance with the documents and terms specified in the contract. The details of shipping and/or other documents to be furnished by the supplier are specified.

11. Insurance

The goods supplied under the contract shall be fully insured in a freely convertible currency against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the manner specified.

12. Transportation

Should a price other than an all-inclusive delivered price be required, this shall be specified.

13. Incidental

13.1. The supplier may be required to provide any or all of the following services, including additional services, if any:

13.1.1. performance or supervision of on-site assembly and/or commissioning of the supplied goods;

13.1.2. furnishing of tools required for assembly and/or maintenance of the supplied goods;

13.1.3. furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;

13.1.4. performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and

13.1.5. training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.

13.2. Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

14. Spare parts

14.1. As specified, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:

14.1.1. such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and;

14.1.2. in the event of termination of production of the spare parts:

14.1.2.1. advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and

14.1.2.2. following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

15. Warranty

15.1. The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.

15.2. This warranty shall remain valid for twelve (12) months after the goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in SCC.

15.3. The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.

15.4. Upon receipt of such notice, the supplier shall, within the period specified in SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.

15.5. If the supplier, having been notified, fails to remedy the defect(s) within the period specified, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

16. Payment

16.1. The method and conditions of payment to be made to the supplier under this contract shall be specified.

16.2. The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfillment of other obligations stipulated in the contract.

16.3. Payments shall be made by the purchaser **no later than thirty (30) days** after submission of an **invoice, statement** or claim by the supplier.

16.4. Payment will be made in Rand unless otherwise stipulated.

17. Prices

Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices quoted by the supplier in his bid, with the exception of any price adjustments authorized or in the purchaser's request for bid validity extension, as the case may be.

18. Variation orders

In cases where the estimated value of the envisaged changes in purchase does not vary more than 15% of the total value of the original contract, the contractor may be instructed to deliver the goods or render the services as such. In cases of measurable quantities, the contractor may be approached to reduce the unit price and such offers, may be accepted provided that there is no escalation in price.

19. Assignment

The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.

20. Subcontracts

The supplier shall notify the purchaser in writing of all subcontracts awarded under this contract, if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

21. Delays in the supplier's performance

21.1. Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.

21.2. If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.

21.3. The right is reserved to procure outside of the contract small quantities or to have minor essential services executed if an emergency arises, the supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.4. Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 22 without the application of penalties.

21.5. Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without cancelling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services using the current prime interest rate calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1. The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

23.1.1. if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;

23.1.2. if the Supplier fails to perform any other obligation(s) under the contract; or

23.1.3. if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2. In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

- 23.3. Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.
- 23.4. If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard the supplier as having no objection and proceed with the restriction.
- 23.5. Any restriction imposed on any person by the purchaser will, at the discretion of the purchaser, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the purchase actively associated.
- 23.6. If a restriction is imposed, the purchaser must, within five (5) working days of such imposition, furnish the National Treasury, with the following information:
- 23.6.1. the name and address of the supplier and / or person restricted by the purchaser;
 - 23.6.2. the date of commencement of the restriction
 - 23.6.3. the period of restriction; and
 - 23.6.4. the reasons for the restriction.
- These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.
- 23.7. If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24. Anti-dumping and countervailing duties and rights

When, after the date of bid, provisional payments are required, or antidumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidized import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall on demand be paid forthwith by the contractor to the State or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him.

25. Force Majeure

- 25.1. Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if and to the extent that his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.
- 25.2. If a force majeure situation arises, the supplier shall promptly notify the purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

27.1.If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.

27.2.If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3.Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4.Notwithstanding any reference to mediation and/or court proceedings herein,

27.4.1. the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and

27.4.2. the purchaser shall pay the supplier any monies due for goods delivered and / or services rendered according to the prescripts of the contract.

28. Limitation of liability

28.1.Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 6;

28.1.1. the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and

28.1.2. the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment

29. Governing language

The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.

30. Applicable law

The contract shall be interpreted in accordance with South African laws, unless otherwise specified.

31. Notices

31.1.Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail and any other notice to him shall be posted by ordinary mail to the address furnished in his bid or to the address notified later by him in writing and such posting shall be deemed to be proper service of such notice

31.2.The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.

32. Taxes and duties

32.1.A foreign supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the purchaser's country.

32.2.A local supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted goods to the purchaser.

32.3. No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid SARS must have certified that the tax matters of the preferred bidder are in order.

32.4. No contract shall be concluded with any bidder whose municipal rates and taxes and municipal services charges are in arrears.

33. Transfer of contracts

The contractor shall not abandon, transfer, cede, assign or sublet a contract or part thereof without the written permission of the purchaser.

34. Amendment of contracts

No agreement to amend or vary a contract or order or the conditions, stipulations or provisions thereof shall be valid and of any force unless such agreement to amend or vary is entered into in writing and signed by the contracting parties. Any waiver of the requirement that the agreement to amend or vary shall be in writing, shall also be in writing.

35. Prohibition of restrictive practices.

35.1. In terms of section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, an agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder(s) is / are or a contractor(s) was / were involved in collusive bidding.

35.2. If a bidder(s) or contractor(s) based on reasonable grounds or evidence obtained by the purchaser has / have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in section 59 of the Competition Act No 89 Of 1998.

35.3. If a bidder(s) or contractor(s) has / have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and / or terminate the contract in whole or part, and / or restrict the bidder(s) or contractor(s) from conducting business with the public sector for a period not exceeding ten (10) years and / or claim damages from the bidder(s) or contractor(s) concerned.

General Conditions of Contract (revised July 2010)

8. GENERAL CONDITIONS OF TENDER

1. Sealed tenders, with the “**Tender Number and Title**” clearly endorsed on the envelope, must be deposited in the **tender box** at the offices of the Stellenbosch Municipality, Plein Street, Stellenbosch.

13. MBD 9 – CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).⁴ Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - 3.1. take all reasonable steps to prevent such abuse;
 - 3.2. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - 3.3. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

CERTIFICATE OF INDEPENDENT BID DETERMINATION:

In response to the invitation for the bid made by:

STELLENBOSCH MUNICIPALITY

I, the undersigned, in submitting the accompanying bid, hereby make the following statements that I certify to be true and complete in every respect:

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:

⁴ Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

- 5.1. has been requested to submit a bid in response to this bid invitation;
 - 5.2. could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - 5.3. provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium⁵ will not be construed as collusive bidding.
 7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - 7.1. prices;
 - 7.2. geographical area where product or service will be rendered (market allocation)
 - 7.3. methods, factors or formulas used to calculate prices;
 - 7.4. the intention or decision to submit or not to submit, a bid;
 - 7.5. the submission of a bid which does not meet the specifications and conditions of the bid; or
 - 7.6. bidding with the intention not to win the bid.
 8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
 9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
 10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.

PART B – SPECIFICATIONS AND PRICING SCHEDULE

17. SPECIFICATIONS

DESCRIPTION OF WORKS

2.1 Employer's Objectives

The Stellenbosch Municipality Infrastructure needs regular and effective electrical maintenance work in order to keep the equipment functioning in its optimal operation condition. The services of an experienced and proficient Service Provider is required to regularly maintain the electrical equipment of the Stellenbosch Municipal Infrastructure – hereinafter referred to the “Works”. The service to be provided shall be deemed to include preventative maintenance, condition monitoring and emergency repairs. The maintenance work should aim to offer rapid response to any breakdowns and keep equipment functioning at optimal operating conditions.

The Appointed Service Provider shall have substantial capacity and facilities to handle all the equipment listed in Part 2 Section 2.3: Equipment Description. Sub-contractors may be appointed for specialised activities, subject to the approval of the Employer. All services tendered on must be **ISO 9001** quality listed. Tenderers shall submit with tenders the details, names and addresses of all sub-Contractors whom they propose to employ for any work listed as activities to be performed. Payment of these sub-Contractors will be the responsibility of the Appointed Service Provider. Rates will be as tendered and no mark-up will be offered.

The Employer reserves the right to require from the Appointed Service Provider urgent repair services in the event of an emergency within 2 hours from the time the emergency reported to the Service Provider. Should the Service Provider not be able to respond or affect repairs in the specified timeframe, the municipality may use any of the other service providers appointed on the tender. Under these circumstances the Employer Representative reserves the right to require the Appointed Service Provider to provide such urgent repair facilities to be available 24 hours a day for 7 days a week at the rates quoted in Part 10 Section 1: Rates.

The appointed Service Provider must have the facilities or have acceptable written agreements with associate companies to do a preponderance of the work listed in Part 2 Section 2.3. It is envisage that Stellenbosch Municipality will appoint a panel of main Service Providers for the services required. In instances when the preferred Service Provider is not available the service provider who is the second highest point scorer in the category will be requested to provide the service.

Control of the Contract is vested in the Engineer in terms of the General Conditions of Contract and will be the Manager Wastewater Treatment or such Engineering Representative as he may appoint from time to time.

2.3 Extent of the works

Water Pump Stations

The Works require a Service Provider to provide Emergency Maintenance to all electrical equipment at municipal water and sanitation infrastructure. The intended Emergency Maintenance Work shall be undertaken for the period ending 30 June 2026. The Stellenbosch Municipality may at their discretion increase or decrease the frequency of Emergency Maintenance Work which will be communicated to the Service Provider.

Details of the water and sanitation installations are listed in the tables below. Although the installations that are listed here is in accordance with the best knowledge and information available to the Employer, the Service Provider shall be responsible to ensure that all equipment that requires maintenance is included in his tendered rates. The legend below which refers to all water pump stations (30 in total) **must** be completed to indicate the scope of repairs for which the tenderer submit a bid.

This tender is subject to the General Conditions of Contract (GCC) 2015 and Special conditions for Tender.

2.4 Engineering Requirements

1. Design services and activity matrix

No re-design work will be required under this contract.

2. Employer's design

Details of the Employer's performance are given throughout this Scope of Works.

3. Design brief

No design work will be required under this contract.

4. Design procedures

No re-design work will be required under this contract.

5. Preferential procurement procedures

Tenders will be evaluated in terms of the Preferential Procurement Regulations 2022 which are bound into this document. Resource standards pertaining to targeted procurement.

Tenders will be evaluated in terms of the preferential procurement policy of the Stellenbosch Municipality.

6. Scope of mandatory subcontract works.

Should any portion of the Works be subcontracted, this should be done in accordance with the subcontracting procedures described in this scope of work. The Service Provider shall have substantial capacity and facilities to handle all the equipment listed in Part 2 Section 2.3: Equipment Description. Sub-contractors may be appointed for specialised activities, subject to the approval of the Employer. All services tendered on must be **ISO 9001** quality

listed. Tenderers shall submit with tenders the details, names and addresses of all sub-Contractors whom they propose to employ for any work listed as activities to be performed. **By appointing a sub-Contractor, the Appointed Contractor shall not diminish his responsibility to the Department.** The Appointed Service Provider shall be solely responsible for all work performed under this tender. Payment of these sub-Contractors will be the responsibility of the Appointed Service Provider. **Rates will be as tendered and a maximum mark-up of 10% on subcontracting work will be allowed.**

7 Quotations

For all work to be performed in terms of this contract a detailed quotation for the material/parts cost must be provided. In the event that the sum of any parts, consumables or replacement equipment must be procured above the value of R30 000 including VAT, Stellenbosch Municipality may procure the parts, consumables or replacement equipment from the panel of service providers appointed under this tender, or alternative approved municipal procurement routes. All quotes of this type must be accompanied by all subcontractor or sub-supplier quotations.

In the event of an emergency, the municipality may decide to use the Service Provider that quotes first to perform the work.

The municipality may request that the Service Provider provide a quote from the original OEM.

The municipality can at any stage ask for original quotations of parts quoted.

All quotations shall be addressed to the official initiating the work and shall include all of the following:

The Contract/Tender Number

The quotation number

Organisation for which the quotation is intended

Material costs, lead time and data sheets
Correct Labour Rate as per tender (Rate x Estimate Quantity)

Note¹: Labour quantity to be separated for onsite work, work performed on the Service Provider's premises and travel labour.

Note²: Travel time must be quoted separately for 1 hour per trip per day (2 hours total per day).

Note³: Any additional travel time required by the Service Provider must be covered by their labour rates.

8 Standard Operating Procedure for Work Performed on this Tender

1. On equipment failure, a representative from the affected department will request a quotation from the preferred service provider.
2. The department representative will determine if the failure constitutes an emergency.
3. If the failure is an emergency, a technical representative of the service provider must be on site within two hours (overtime hours will be applicable outside working hours). If not an emergency, the department representative will determine when the service provider must be on site.
4. For a normal breakdown the service provider is expected to respond within three working (3) days for an assessment and provide a quotation within seven (7) working days after the assessment for necessary repairs .
5. The municipality will inform the service provider via email if the level of services is not met and provide one single opportunity for the service provider to correct before moving on to other service providers as per step 4 above.
6. The service provider provides a quotation as per clause 7 above.
7. The manager of the specific municipal department (or the senior manager) sign and date the quotation as approval to perform the work on the bulk order.
8. The service provider performs the work as per approved quotation, lead time and any other work permit procedure.
9. When the work is satisfactory completed, a delivery note / work completion certificate must be signed by a relevant municipal employee (list will be provided

| | | | |
|-------------|--|--------------|--|

by the municipality).

10. The service provider submits the final invoice, account statement and the repair report to the official who requested work to be done, and the manager for the relevant department. The invoice must reflect the actual hours worked. In the event that the actual hours worked could exceed the estimated hours quoted, the service provider must engage with department prior to exceeding the quoted hours with a satisfactory explanation for the expected increase in time, for example an increase in scope.
11. The relevant municipal officials scrutinize the invoice and account statement for correctness and submit for payment if correct. If the invoice is incorrect, the service provider must submit the corrected invoice at the new date and provide a credit note for the incorrect invoice and accompanying updated account statement.

Note¹: Level of service in the above steps refer to responsiveness in terms of providing quotations, updating quotations, quality and correctness of quotations, availability during an emergency, responding to phone calls and emails and adhering to stated lead times.

Note²: Repair report means: a description of the work performed, test certificates after repair, commissioning certificates after re-installation (example pump test report against pump curve)

Note³: A commissioning certificate must show that all parameters of the equipment operate within the OEM datasheet specifications, including but not limited to: duty, electrical current drawn, noise levels, efficiency, no fluid leaks.

Note⁴: A test certificate must show that all parameters of the equipment operate within the OEM datasheet specifications. Should this be performed in the Service Provider's workshop, an opportunity must always be provided for a municipal representative to witness the test.

9 Works specifications

It shall be the responsibility of the Service Provider to obtain the most recent copies of the relevant editions of the documents referred to in this document. The Service Provider shall obtain copies of the Standard Specifications listed, which are available from the South African Bureau of Standards.

surrounding areas are maintained in a clean and safe condition at all times, to the satisfaction of the Employer.

Maintenance of an installation shall be performed in accordance with the General Maintenance Specifications, the Maintenance Schedules, the Operating and Maintenance Manuals, as well as the Maintenance Control Plan.

PSC 2 MAINTENANCE REQUIREMENTS

PSC 2.1 Service Provider's Responsibilities

The Service Provider shall be required to perform Emergency maintenance at existing Installations for the period ending 30 June 2026. The frequency of Emergency maintenance requirements will be earned out in accordance with the Employers written requests.

The Intended Maintenance Work shall include corrective maintenance, as well as breakdown maintenance on all components of the specified Installations. Each inspection, test or breakdown shall be recorded in an approved format and listed in a monthly report.

As part of repairs or replacement of each installation. the Service Provider shall submit a set of Operating and Maintenance Manuals where applicable. The Service Provider shall ensure that the operating and maintenance personnel are conversant with the instructions as presented in the Operating and Maintenance Manuals.

The Operating and Maintenance Manuals for all existing equipment within the Works, as provided by the Employer, shall be used as a basis for preventative maintenance.

Where an Operating and Maintenance Manual is either unavailable or incomplete for an existing piece of equipment, the Service Provider shall corroborate with the Employer to ensure that they are provided at the start of the Maintenance period. All costs for obtaining Operating and Maintenance Manuals for existing equipment shall be borne by the Employer.

The Service Provider shall, as part of his maintenance responsibilities, repair or replace faulty equipment upon logging of a breakdown, within the down-time as defined in Clause PSC 5.1 at the Service Provider's cost, except in

| | | | |
|-------------|--|--------------|--|
| PRINT NAME: | | | |
| CAPACITY: | | Name of firm | |
| SIGNATURE: | | DATE: | |

the event of replacement being labeled as exceeding liability as specified in Clause PSC 2.3, in which case the Employer will bear part of the costs.

The Service Provider shall not claim additional establishment costs where repair work is to be carried out during the maintenance phase.

The Service Provider shall rectify any faulty condition of which he becomes aware. Such rectification shall also be logged and listed in the monthly report,

PSC 2.2 Definitions of Maintenance Requirements

1. Corrective maintenance

This entails regular observation of the equipment identifying pending breakdowns; maladjustment or anomalies of equipment, units or parts of installations and subsequent action to restore installations to the functional condition as before the breakdown.

2. Breakdown maintenance

This entails repair and/or replacement of defective equipment units or parts of Installations following a breakdown that leaves the Installation inoperable or unsafe and subsequent action to restore installations to their normal functional condition, within the maximum down-time allowed.

PSC 2.3 Conditions for Exceeding the Service Provider's Liability due to Operational Damage Breakdowns.

Operational damage shall be defined for the purpose of this clause as being any damage caused on purpose, by accident or through negligence by the User Client's employees, suppliers, sub-contractors, etc., for any reason whatsoever. Where repair work is necessitated during the contract as a result of operational damage caused by the User Client's or their associates or any other reason beyond the Service Provider's control, the Service Provider will be requested to:

1. perform the work on receipt of an order from the Employer, within the time

| | | | |
|-------------|--|--------------|--|
| PRINT NAME: | | | |
| CAPACITY: | | Name of firm | |
| SIGNATURE: | | DATE: | |

offered,

2. notify the Employer well in advance of completion of the repair work in order to enable inspection, and
3. refrain from claiming additional establishment costs for such work.

Operational damage caused by the employees, suppliers, subcontractors, etc., of the Service Provider, shall be repaired by the Service Provider at his own cost.

PSC 2.5 Supply of labour, Equipment and Materials

Only competent personnel that have been adequately trained by the Service Provider shall execute all maintenance work.

All tools, equipment and consumables that are required for maintenance work shall be provided by the Service Provider at his cost.

All materials, spare parts, components, equipment and appurtenances necessary for the repairs due to the Operational Damage Breakdowns of each installation shall be supplied and installed by the Service Provider but paid for by the Employer as specified in Sub-clause PSC 2.3 for exceeding Service Provider's Liability.

The Service Provider shall cede any supplier's or factory guarantee of repaired or replaced components to the Employer to ensure that such guarantees are not jeopardised in any way. All workmanship materials and components used for breakdown repair shall be guaranteed for a minimum of twelve (12) months.

All replacement parts shall be new, unused or fully refurbished and comply fully with the original manufacturers specifications or as otherwise stated by the Engineer.

Replacement parts will preferably be obtained from the original manufacturer or as otherwise approved by the Engineer.

If the original manufacturer is unable or unwilling to supply the parts as may be required, refurbished parts may be used subject to the written authority

of the Engineer. The Service Provider shall guarantee these parts for a period of no less than 12 months from date of installation or as otherwise specified in writing by the engineer.

Any replacement part that was not obtained from the original manufacturer, as well as the supplier of the replacement part, shall be clearly specified on the service report.

Where spare parts are obsolete it is expected from the Service Provider to reverse engineer components where possible and provide the necessary guarantee.

PSC 2.6 Identification of Equipment

A unique identification number will be allocated to each mechanical and electrical item forming part of an Installation. This identification number will be allocated and administered in collaboration with the operating personnel and must be described in the maintenance control plan.

Reference shall be made to identification numbers in the maintenance control plan, operating and maintenance manuals and during all maintenance activities, including the logging of breakdowns other correspondence.

PSC 3 MAINTENANCE CONTROL

PSC 3.1 Scope

Maintenance control shall be the responsibility of the Service Provider who shall introduce a maintenance control plan to assist him in ensuring that corrective and breakdown maintenance are performed as described in the Operating and Maintenance Manuals and Maintenance Schedules.

PSC 3.2 Maintenance Control Plan

1. The maintenance control plan shall be bound in a neat, A4-sized ring-bound document with a cover page and back cover. The contents of the document shall be indexed. **This will only apply if schedule maintenance form part of the service providers appointment.**

2. To ensure that the Employer is satisfied that the Service Provider understands the purpose and advantage of carrying out maintenance working according to a maintenance control plan he shall, as an introduction to the control plan document set out his views as to what they believe the implementation of a maintenance control plan will achieve.
- 3 The maintenance control plan shall also contain the following:
 1. A detailed schedule of all equipment requiring maintenance.
 2. Details of all standard maintenance instructions or procedures to be carried out for preventative (or routine) maintenance of all equipment. This shall include descriptions of all routine activities that are required to be carried out for particular items during the scheduled maintenance periods.
 3. Details of how the Service Provider intends to carry out the various types of maintenance work especially breakdown maintenance should breakdowns occur.
 4. Reports to be submitted after every routine inspection (all reports, checklists, breakdown records, score card results. etc. for each system of an installation shall be kept on the site in a hard cover file).
 5. Procedures to address complaints and logged breakdowns;
 - 6 Details of repairs and replacements, together with testing of repaired equipment shall also be reflected in this report, and
 - 7 The codes of practice as set out in ISO 10006 and ISO 9004 for quality systems and management shall be used as a guideline for compiling a maintenance control plan ISO accreditation is not a requirement in terms of this Contract.

- 8 Pertinent data contained in the Operating and Maintenance Manual may be transferred to the Maintenance control plan to make it a document which can be used as an independent handbook for maintenance work.

The Service Provider is referred to the contents of paragraph (a) above regarding the reproduction of data, as this shall also be applicable to data reproduced from Operating and Maintenance Manual.

PSC 3.3 Maintenance Quality Control Plan

1. A quality control plan (QCP) shall be developed in line with the requirement of ISO 9001 and submitted for major repair work, refurbishment of equipment or on request of the Employer. The QCP shall stipulate the activities/inspections required to ensure a quality product is delivered. A QCP shall be approved by the Employer before the repair work is executed and shall be used to indicate an intervention point the Employer would want to verify/witness. This include QCPs developed by subcontractors. The following shall be recorded as a minimum of the QCP:
 1. Details of equipment, task, location, personal responsible.
 2. The acceptance criteria of the particular intervention task.
 3. Signatures of the persons executing the task, verifying the quality (supervisor) and Representative of the Employer.
 4. The supporting documents shall be provided with the QCP to verify the activities where applicable and shall be provided in a hard and soft copy after the completion of the work.

6. PSC 3.4 Method Statement, program and risk mitigation

1. A detailed method statement shall be developed by the Service Provider for activities identified by the Employer to assist with planning and risk mitigation. The method statement shall as a minimum include the following:
 1. Activities that will be carried out and the equipment/personal that will be require to carry out the activities.
 2. The estimated duration of each activity.

| | | | |

| SIGNATURE: | | DATE: | |

3. External resources/activities required before execution of work.
4. Possible risks associated with the repair work which can influence quality/repair time with possible mitigation actions.

PSC 4 COMMUNICATION

1. The Service Provider shall establish a telephone and email and a cellular telephone connection to ensure that he can be reached at any time.
2. The Employer shall supply the Service Provider with a list of contact details of all his operating personnel at the various installations.
3. The Service Provider shall primarily be responsible for determining the items requiring preventative corrective and breakdown maintenance, and shall communicate this information directly to his maintenance workforce as well as the Employer.
4. Should the Employer or operating personnel determine or suspect that preventative, corrective or breakdown maintenance is required, a call shall be logged through the respective maintenance force as per point 3 above provided as soon as possible.
5. Reaction times will be as described in Clause PSC 5.1.
6. All complaints of the operating personnel shall be reported to the Service Provider via the call centre, as set out in the maintenance control plan and the Employer shall issue instructions to the Service Provider. The breakdown registration form will be completed and faxed to the Service Provider. After the Service Provider has attended to the complaint, the Service Provider will provide feedback to the call centre both telephonically and via fax. The breakdown close out form shall be completed by the Service Provider and emailed to the Employer as soon as the breakdown is repaired by the Service Provider.

PSC 5 PERFORMANCE MEASUREMENT

The Service Providers performance shall be measured according to the following parameters:

PSC 5.1 Maximum Maintenance Down-Time

After a complaint has been logged and forwarded to the Service Provider the Service Provider shall be expected to minimise the maintenance down-time until the system component is fully operational to the satisfaction of the Employer. Should the Service Provider not respond within the maximum down-time, the Employer may arrange, at the cost of the Service Provider for the necessary repair work to be done by others.

The Service Provider shall respond to a breakdown registration by travelling to Site to evaluate the breakdown (scope of repair work) estimate the realistic downtime and provide back to the Employer.

Should the Service Provider not be able to complete the required repair work within the maximum down-time period allowed, it shall be his responsibility to obtain extension of down-time from the Employer. The written report shall clearly state the reasons for the extension, as well as the actual extension required.

Extension of down-time will only be granted by the Employer if:

1. the maximum down time is unreasonable in relation to the scope of the repair work required;
2. the delivery time of a new component/subassembly/machine or spares required for the repair of the defective component/subassembly does not enable the Service Provider to successfully complete the repair work within the maximum breakdown down-time allowed.

| | | | |
|-------------|--|--------------|--|
| PRINT NAME: | | | |
| CAPACITY: | | Name of firm | |
| SIGNATURE: | | DATE: | |

Should the actual down-time exceed the maximum down-time the Service Provider shall be liable to a payment reduction for the difference between actual down-time and maximum down-time. This is reflected in the table below:

| REQUIRED MAINTENANCE | MAXIMUM DOWN-TIME ALLOWED | PAYMENT REDUCTION IF EXCEEDED |
|----------------------|---------------------------|-------------------------------|
| Response time | 6 hours | R500/hour |
| Breakdown repair | 1 day | R2000/day |

"Maximum down-time" shall mean the period of time allowed repairing a breakdown, and "actual down-time" shall mean 'the measured period from the instant when the breakdown was logged with the Service Provider until the installation has been repaired to its functional specification.

PSC 5 2 Score-Card

The Employer will inspect each installation quarterly and will use a score-card to measure the quality of corrective maintenance rendered by the Service Provider during the preceding month on all components that form part of the installation. The Employer will record his inspection directly onto the score-card. The score-card shall serve to **evaluate performance indicators monthly** in the manner set out below.

The Service Provider shall always have the opportunity to score the maximum points, provided that his preventative and corrective maintenance work comply with the Specifications. The Employer will therefore be protected against a reduced or unsatisfactory service level and may refuse payment on such points

| | | | |

| PRINT NAME: | | | |
| CAPACITY: | | Name of firm | |
| SIGNATURE: | | DATE: | |

PSC 5 2 2 Performance indicators:

Performance indicators shall be used to focus on certain key aspects of the work and shall in no way limit the Service Provider's responsibility to do all the required work. Various performance indicators have been allocated for each type of installation as included in the score-cards set out in PSC 6 below.

PSC 6 GUIDELINE FOR THE USE OF THE MAINTENANCE SCORE-CARD

The score-card and performance indicators must be used as a maintenance management tool the aim with each score-card is to ensure that-

1. the project focuses on key aspects of maintenance per month.
2. the Service Provider receives payment for his work , and
3. The Employer receives value for money and a sustained high level of service.

Performance indicators must be selected to measure the Service Provider's service level of preventative and corrective maintenance that will be based on the Maintenance Control Plan and the Operating and Maintenance Manuals.

Breakdowns must be dealt with if and when necessary by logging of the breakdown and monitoring the downtime

PSC 7 SETTLEMENT OF DISPUTES

Should the parties fail to resolve any dispute by way of mutual consultation, either party shall be entitled to refer the matter for mediation. Such referral shall be done by either party giving written notice to the other of its intention to commence with mediation. No mediation may be commenced unless such notice is given to the other party.

Irrespective whether the mediation resolves the dispute, the parties shall bear their own costs concerning the mediation and share the costs of the mediator and related costs equally.

Where the parties reach settlement of the dispute or any part thereof, the mediator shall record such agreement and on signing thereof by the parties the

agreement shall be final and binding.

Save for reference to any portion of any settlement or decision which has been agreed to be final and binding on the parties, no reference shall be made by or on behalf of either party in any subsequent court proceedings, to any outcome of an amicable settlement by mutual consultation, or the fact that any particular evidence was given, or to any submission, statement or admission made in the course of amicable settlement by mutual consultation or mediation.

If the parties cannot reach an agreement, the Mediator must refer the matter to Arbitration.

Arbitration

Arbitrator will be appointed by mutual agreement as per the provisions of the Arbitration Act of 1965 as amended, nominated from the Association of Arbitrators (Southern Africa).

The Arbitrator must be a legal practitioner with more than 10 years legal experience. Must have a good knowledge of the Municipal Finance Management Act and other relevant Municipal Legislation, and may in addition be qualified in respect of the main nature of the Contract (Engineer, Quantity Surveyor, Accountant, etc.).

The Arbitrator shall hear arguments both in writing and oral representations and parties shall have the right to contend the position of the other party and shall have the right to defend its own position.

The ruling of the Arbitrator shall be executed, but the matter may thereafter be defended in court if parties still do not agree.

PREAMBLE

1. The Tender Data, the Contract Data, the Scope of Work and the Site Information are to be read in conjunction with the Bill of Quantities.
2. The Bill of Quantities comprises items covering the Contractor's profit and costs of general liabilities and of construction and installation of temporary and permanent Works.
3. Except that they shall not Include Value Added Tax (VAT), the prices and rates to be inserted in the Bill of Quantities are to be the full inclusive prices to the Employer For the work described under each item. Such prices shall cover all costs and expenses that may be required in and for the construction and installation of the work described and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the documents on which the Tender is based. Provision is made in the Summary to the Bill of Quantities for VAT to be added.
4. A price or rate is to be entered against each item in the Bill of Quantities, whether the quantities are stated or not An item against which no price is entered will be considered to have a price or rate of R0,00.
5. The Tenderer must price and extend each item total each page and carry the total of each section in the Bill of Quantities to the Summary page.
6. Where an item has been provided for the tenderer to price any further work considered necessary by the tenderer, the tenderer must provide full details of what has been allowed for under that item(s). Where such item(s) are not priced, it will be held that rates supplied for each of the priced items adequately cover the cost of carrying out the required work.

PSC 1 MEASUREMENT AND PAYMENT

PSC 1.1 Call-out charge in response to a breakdown

| | | | |
|--------------|--|-----------------|--|
| SIGNATURE | | NAME (PRINT) | |
| CAPACITY | | DATE | |
| NAME OF FIRM | | | |

Stellenbosch WC024 has a radius of 30km from Stellenbosch central. This radius should be use when compiling the rates to be submitted as per the bill of quantities.

The call-out charge rate per professional, technical or support staff shall include full compensation for all costs related to Labour, travelling, inspecting, assessing and reporting of dysfunctional components or installation. (please note if the workshop is outside of Western Cape the rate should include all travelling and disbursements)

Operational damage shall be defined for the purpose of this clause as being any damage caused on purpose or by accident or through negligence by the User Client's employees, sub-contractors, etc., for any reason whatsoever. Where repair work is necessitated during the contract as a result of operational damage caused by the User Client's or their associates or any other reason beyond the Contractor's control, the Contractor will be requested to:

1. perform the work on receipt of an order from the Employer, within the time offered,
2. notify the Employer well in advance of completion of the repair work in order to enable inspection, and
3. refrain from claiming additional establishment costs for such work.

Operational damage caused by the employees, suppliers, subcontractors, etc., of the Service Provider, shall be repaired by the Service Provider at his own cost.

PSC 1.2 Payment reduction due to exceeding maximum allowable response time during when the breakdown was logged first with the Service Provider and up until he travels to Site to evaluate the breakdown (scope of repair work), estimate the realistic downtime and provide feedback to the Employer.

The negative fixed rate shall include full compensation for the User Client's loss in productivity and, multiplied by the number of hours measured, shall be deducted from the certified amount due to the Service Provider.

Should the actual down-time exceed the maximum down-time the Service Provider shall be liable to a payment reduction for the difference between actual down-time and maximum down-time. This is reflected in the table below:

| REQUIRED MAINTENANCE | MAXIMUM DOWN- TIME ALLOWED | PAYMENT REDUCTION IF EXCEEDED |
|-------------------------|-------------------------------|----------------------------------|
|-------------------------|-------------------------------|----------------------------------|

| | | | |
|--------------|--|-----------------|--|

| | | |
|------------------|---------|-----------|
| | | |
| Response time | 6 hours | R500/hour |
| Breakdown repair | 1 day | R2000/day |

"Maximum down-time" shall mean the period of time allowed repairing a breakdown, and "actual down-time" shall mean the measured period from the instant when the breakdown was logged with the Service Provider until the installation has been corrected to functional specification.

PSC 1.3 Maintenance Control Plan

The maintenance control plan shall be based on the Service Provider's preliminary maintenance control plan and shall be bound in a neat, A4-sized ring-bound document with a cover page and back cover. The contents of the document shall be indexed. **This will only apply if schedule maintenance form part of the service providers appointment**

In drawing up the document the Service Provider may reproduce relevant paragraphs and clauses from any or the specifications forming part of the Contract documents, but should there are any discrepancies between such clauses and paragraphs in the maintenance control plan and those in the Contract documents, those in the Contract documents shall be regarded as being correct and shall apply.

To ensure that the Employer is satisfied that the Service Provider understands the purpose and advantage of carrying out maintenance work according to a maintenance control plan he shall, as an introduction to the control plan document set out his views as to what he believes the implementation of a maintenance control plan will achieve.

The maintenance control plan shall also contain the following:

| | | | |
|--------------|--|--------------|--|
| SIGNATURE | | NAME (PRINT) | |
| CAPACITY | | DATE | |
| NAME OF FIRM | | | |

A summary of the repair and maintenance work to be carried out under the Contract giving details of the conditions of the various installations at the facility/s affected by the activities under the Contract. The Service Provider shall bear in mind that maintenance work may have to be earned out before the repair phase or the installation has been entirely completed and the summary mentioned above shall therefore differentiate maintenance work before and after the repair phase has been completed

A detailed schedule of all equipment requiring maintenance.

Details of all standard maintenance Instructions or procedures to be carried out for preventative (or routine) maintenance of all equipment. This shall include descriptions of all routine activities that are required to be carried out for particular items during the scheduled maintenance periods.

- (iv) Details of how the Service Provider intends to carry out the various types of maintenance work especially breakdown maintenance should breakdowns occur.

Details of how the call centre works, as specified in PSC 4, as well as all statistics of breakdowns, leakages, blockages, etc. available from the call centre for the installation and the age of the installation that has been taken into account in compiling the contents of the maintenance control plan.

A list of organisations and persons directly involved with the Contract or whose requirements have to be taken into account during the entire Contract Period such as the STELLENBOSCH MUNICIPALITY, the operating personnel, the Service Provider, the Local Authority, etc. Each person's position within his organisation as well as the applicable phone numbers shall be given.
