## **PART B – SPECIFICATIONS AND PRICING SCHEDULE**

## 16. SPECIFICATIONS

### 1 BACKGROUND

Stellenbosch Municipality (SM) operates a number of waste management facilities within the Municipal area. Waste is required to be transported in containers provided by the transporter between facilities as well as between the Klapmuts Refuse Transfer Station (KRTS) and the Vissershok Waste Management Facility (VHWMF) or to other disposal facilities as directed by the municipality.

The service provider will need to provide on hire both 10 and 30 cubic meter hook-lift /open top containers which will be made available for waste loading at a number of waste management and disposal facilities owned or operated by SM. Once full, the service provider will lift the containers and transport them to the designated waste disposal facilities. Containers will need to be covered to prevent windblown litter or dust from being generated and released during the transportation process.

Cost of disposal will be for the account of Stellenbosch Municipality.

The contract will thus be:

- (1) for the supply of hook-lift Roll-On Roll-Off (RORO) on hire,
- (2) the lifting and transportation of full containers to the VHWMF or other designated waste disposal facility and between 3 Stellenbosch Municipality facilities, i.e  
 Franschhoek Drop Off to Stellenbosch Landfill;  
 Klapmuts Transfer Station to Stellenbosch Landfill ;  
 Integrated waste Management Facility to Stellenbosch Landfill.
- (3) the return of the empty containers,
- (4) covering of full containers pending removal off site and during transportation.

The contract period will be from date of award until 30 June 2025.

It deems to be noted that the number of containers/ lifts transported will change dramatically when the new cell 4 at the Stellenbosch Landfill becomes operational and the need to transport waste to Vissershok no longer required. This is planned to take effect in 2024, subject to the completion and full operation of Cell 4.

Situated on R101, Klapmuts, access is off R101.

**NOTES:**

**1 Disposal Costs:**

This tender excludes disposal costs. All disposal costs will be settled directly with the disposal service provider by the Stellenbosch Municipality.

**2 Escalation:**

The tender prices offered must be fixed per annum and must be based on the current costs of labour and transportation. Escalation for the 2<sup>nd</sup> and 3<sup>rd</sup> years must be included.

**3 Scope Adjustment:**

The quantities given in the pricing schedule may be varied up or down. Thus please note that the Stellenbosch Municipality reserves the right to adjust scope of work or quantities as required. **NB:** It is anticipated that the number of containers/ lifts transported will change dramatically when the new cell 4 at the Stellenbosch Landfill becomes operational and the need to transport waste to Vissershok no longer required. This is planned to take effect in 2024, subject to the completion and full operation of Cell 4. Adequate notice shall be provided to the contractor.

**4 Award:**

The tender will be awarded as a rates based tender. The tender will be awarded to the highest scoring bidder on the 80/20 principle. Award to the 2<sup>nd</sup> highest scoring bidder, only if the 1<sup>st</sup> (preferred ) bidder cannot produce/ deliver and the 2<sup>nd</sup> highest scoring bidder prices are market related. The quantities provided above are an indication of the extent of the service required and will be used for evaluation purposes.
