Stellenbosch municipality is not dependent on grant funding to fund the operating budget as is evident in the graph below.

Funding of the operating budget

Own revenue consists mainly of service charges at 64,94% per cent of the R1 890 402 246 own revenue budget.

Composition of own revenue

Operating Revenue Variance Report

The variances between actual operating revenue and the planned operating revenue contained in the SDBIP are explained per revenue source and are as follows:

Revenue by Source

3.1 Property Rates

Property rates are billed monthly, and service charges water are billed monthly. However, some consumers applied to have their property rates and service charges billed annually. This has resulted in an over performance of R5 143 939 for property rates when compared to the year-to-date budget projections as the annual applications did not form part of the monthly budgeted revenue projections.

3.2 Service charges – sanitation revenue

The municipality has billed R2 920 349 less water charges than initially anticipated in the year-to-date budget. The largest under performances were noted for Higher level services (R4 275 546) and Industrial waste water (R3 553 096).

3.3 Service charges – electricity revenue

The municipality has billed R6 971 543 less electricity charges than initially anticipated in the year-to-date budget. The largest under performances were noted for the Electricity Availability charges (R3 114 080) and Electricity sales Domestic High (R21 674 207).

The decrease in electricity sales/consumption can be largely attributed to consumers utilising alternative energy resources due to the hike in electricity prices and load shedding.

3.4 Interest earned – external investments

An under performance was noted for interest earned – external investments to the amount of R1 416 781. The variance is mainly due to the Covid- 19 pandemic which resulted in the prime interest rate being reduced. This reduction has resulted in a significant decrease in our call accounts and primary bank account interest rates. Furthermore, we have received lower rates on offer from investing institutions than the previous financial years and a decline in the availability of capital investment further negatively impacts this line item. However, an improvement in the prime interest rate has been noted and a slight improvement in turn noted in the underperformance.

3.5 Fines, penalties, and forfeits

An underperformance was noted to the amount of R10 234 361. The recognition of traffic fines in terms of interpretation generally recognised accounting practice (iGRAP) 1 will be done monthly, including the journal processed on the financial system.

3.6 Transfer and subsidies

An over performance is noted for government grants received to the amount of R52 416 142. The over performance is due to tranche payments of the Equitable share, Integrated National Electrification programme and Integrated urban development Grant disbursements which had not been anticipated.

3.7 Other revenue

An under performance is noted for other revenue to the amount of R1 184 213. The largest attributor to the underperformance is as follows;

- Sales of Goods and Rendering of Services: Parking fees: An underperformance of R1 126 563 was noted. This under performance is mainly due to the university holidays which resulted in a decreased demand for parking services. Cognisance is taken on the deployment of new parking marshalls which will improve the parking revenue performance.
- Sales of Goods and Rendering of Services: Building Plan Approval: An underperformance of R382 935 was noted. This underperformance is a result of less applications being submitted than had been anticipated.
