1.	OPENING AND WELCOME
----	----------------------------

The Speaker, Cllr WC Petersen (Ms) welcomed all present at the 40th Council meeting via livestream.

2.	MAYORAL ADDRESS
----	------------------------

“Speaker, Munisipale Bestuurder, Burgemeesterskomiteelede, Direkteure

Goeiedag, Good Morning, Molweni, As-salaam Alaikum

- Welcome back to the Speaker, the Deputy Mayor, Municipal Manager Mayco Members, Councillors, Directors and other officials.
- May this New Year bring us more joy and good news than sorrow and hardship.
- I hope everyone who took some downtime during the Festive Season feels well rested.
 - o 2021 will be another busy and challenging year.
 - o Thank you to all our officials who continued to work throughout the festive season to ensure service delivery continues uninterrupted.
 - o It is a big sacrifice and on behalf of this Council I want to ensure you that it has not gone unnoticed.
- It is my sad duty to formally communicate to Council the passing of two Councillors.
- On 7 January 2020 we lost a member of the Mayco, Councillor Manie Pietersen.
 - o It has been a great shock
 - o I have lost a friend, this Council has lost a truly wonderful hardworking and dedicated Councillor and our community has lost a great leader.
 - o Our deepest condolences go out to his family and friends.
 - o His absence will be felt and he will be greatly missed.
- Op 4 Januarie het ons ook PR Raadslid Derrick Hendrickse aan die dood afgestaan.
 - o Formidabele raadslid.
 - o Hy het 'n hart gehad vir die mense van Stellenbosch en dit ook uitgeleef in die Raad.
 - o Ons innige simpatie en medelye aan sy gesin, familie en vriende.
- COVID-19, as predicted, has return and has ripped through our community, leaving destruction and tears in its wake.
 - o Ek wil graag elke raadslid, amptenaar en inwoner versoek om gehoor te gee aan die regulasies wat deur die nasionale regering afgekondig is.
 - o Dra u masker!!! Oral wanneer u uit u huis gaan.
 - o Was en/of reinig u hande gereeld.
 - o Vermynabye kontak met mense, SOCIAL DISTANCING!
 - o En tot die pandemie afplat, vermy groot groepe ek groot kuiers
 - o Die siekte versprei ongelukkig vinnig wanneer groepe mense bymekaar kom, veral omdat sommige mense wat die virus opdoen geen simptome wys en nie eers weet hulle is siek nie.
 - o Ek raak woedend wanneer mense, wat positief getoets het uitgaan en sê hulle voel gesond en daarom bly hulle nie by die huis nie.
 - o Asseblief, ek smee elke inwoner om sy kant te bring. HOU BY DIE REELS

- Welkom terug aan die studente,
 - o die kolleges het reeds oop gemaak en daar is van die universiteitstudente wat al terug gekeer het
 - o Grootste deel van die universiteit studente gaan eers in Maart terugkeer
 - o Vra dat al ons studente ook asseblief sal hou by die regulasies om COVID te bekamp.
 - o Weet sosiaal verkeer is 'n groot deel van student wees maar tot tyd en wyl, moet ons egter probeer om groepe te vermy en te distansieer van mekaar.

Thank you."

3.	COMMUNICATION BY THE SPEAKER
-----------	-------------------------------------

Good Morning to:

The Executive Mayor, Advocate Gesie Van Deventer

The Acting Municipal Manager, Ms. Annalene de Beer / **note absence of MM due to her Father's death**

Councillors and all Protocols observed:

Executive Mayor, Councillors, MM and the broader **public** - it is a privilege for me to welcome you to the first meeting of this Council for the **New Year 2021**.

En **het** die jaar nie met met 'n hoe spoed begin nie. En **ja** ons is terug by Level 3 van die Covid regulasies. Dit is belangrik - **Gemeenskap van Stellenbosch** dat ons tog by die reëls hou – Please wear a **mask, sanitise and keep your social distance** to avoid being infected. We have lost a lot of our fellow friends and family members, even Councillors – let us **remember** them in this difficult time. We will now proceed to a **moment of silence** for them who have passed on.

On the Council Agenda for the year Councillors is the following:

- Please **diarise** the schedule of Meetings of Council and its section 80 committees as it starts during February 2021.
- Regarding the **previous approved** ward allocations – the administration informed me that the tender for the ward allocation has been approved, ordered and will arrive at your offices soon. You have all received an email on the process – where it all started and where we are now.
- The Stellenbosch Municipality had to adhere to **Covid-19 regulations** in guarding for the **safety** of its personnel – we therefore had to look at the safety of the Ward Administrators before opening of the ward offices. We have agreed with the Administration to open the ward offices where there is no immediate contact with the community and safety gates will be closed. The outstanding ward offices will open as soon as the safety protocols
- The Executive Mayor will soon start a process of preparing the **new** budget 2021/2022
– councillors should please liaise with the relevant officials to get the projects on the budget.

- Councillors – you are aware that this will be our **5th year** in office – there is speculation that the local government election will take place during this year – keep this in mind as you continue to be of service to your electorate. Don't lose paste – we got a community to serve – our families are confronted with sudden death,
- Regarding **birthdays** the following:
 1. **January** it is Councillor Nokuthula Mananga-Gugushe – **5 January**, Ex Councillor DA Hendrickse on **12 January**.
 2. **February** – Cllr Alwin Hanekom and Councillor Donovan Joubert – both on **Sunday , 21st February**, and **myself** will celebrate my birthday already on the **8th February**.

Once again thank you very much Councillors and Administrators – The agenda in front of us has nearly **800 pages** - let us start our Council Meeting with the view to instill total **discipline, enforce respect** to each other and **focus** totally on service delivery to the broader Stellenbosch Community. Please note that the **Council Rules of Order** will be strictly adhere to.

I Thank You.”

4.	COMMUNICATION BY THE ACTING MUNICIPAL MANAGER: MS A DE BEER
-----------	--

“Our thoughts and prayers go out to the Municipal Manager, Ms G Mettler and her family, who lost their father recently. Thoughts and prayers also go out to everyone else who lost someone in death.”

The Acting Municipal Manager acknowledged the letters of appreciation that were received from two members of the public, expressing their gratitude for excellent services rendered:

Letter (1): Mrs Bezuidenhout thanked the following employees that formed part of a team who assisted her within an hour after she logged a call with regard to her water supply: Zaahir Benjamin; Eben Nel; K Sulantsi; E Sebeko and F Ambroza. She expressed her gratitude for their professionalism, dedication and enthusiasm. She also thanked the Administration as a whole for the work they do on a daily basis.

Letter (2): Mr Lambert De Wet expressed his gratitude towards the Traffic License Department. When he visited their offices at 06:40 on the morning of 20 January 2021 to renew his license, the employees were already busy with operational work for the day. The queue moved briskly and when he entered, the surroundings were clean and the aircon was working. He was helped at the traffic-fine-counter, which was not previously open for this purpose, but due to the backlog, was opened to assist, because a considerable number of licenses would have expired the next day, 21 January 2021. He left the Traffic Department at 07:30, his license renewed and in time to still enjoy coffee and be in time for his work. All covid-protocols were observed and adhered to. Mr De Wet thanked everyone for the excellent service he received.

5.	DISCLOSURE OF INTERESTS
-----------	--------------------------------

NONE

6.	APPLICATIONS FOR LEAVE OF ABSENCE
-----------	--

- 6.1 The following applications for leave of absence were approved in terms of the Rules and Order By-law of Council:-

4. EXECUTIVE SUMMARY

The TL SDBIP 2020/21 was approved by the Executive Mayor on 24 June 2020. It is common practice for a municipality, as provided for in the MFMA, to review its performance indicators and targets after approving the adjustments budget. The TL SDBIP 2020/21 (as approved by the Executive Mayor) is attached hereto as **Annexure A**. All changes (for ease of reference) which should be deleted and or amended are indicated with a strikethrough and an underline respectively. It must also be noted that the TL SDBIP 2020/21 is the in-year plan of the municipality and amendments made to the TL SDBIP 2020/21 must also be read in conjunction with the Integrated Development Plan (IDP). Therefore, changes made to the Revised TL SDBIP 2020/21 are considered to be made in the IDP as well.

These changes will be effected with the review process of the IDP 2017-2022 to be submitted to Council for final approval during May 2021.

The reasons for the amendments to the following KPIs are as follows:

- a) KPI080- The target due date for the 2020/21 was moved due to capacity constraints and to negate the effects of the Covid-19 pandemic;
- b) KPI073- Target moved to negate the effects of the Covid-19 pandemic;
- c) KPI018- Target reduced from 90% to 80% as a result of capacity constraints experienced in the Department as well as to deal with the backlogs created by the Covid-19 pandemic;
- d) KPI019- The SMART (specific, measurable, attainable, realistic and time bound) principle is applied. The target was also reduced from 80% to 70% due to infrastructural challenges currently experienced at one of the waste water treatment works;
- e) KPI037- The SMART principle is applied;
- f) KPI042- The SMART principle is applied;
- g) KPI063- The SMART principle is applied;
- h) KPI083- Target moved to negate the effects of the Covid-19 pandemic;
- i) KPI074, KPI076 and KPI077- Targets reduced to bring it in line with the municipal valuation role for residential properties; and
- j) KPI084- New indicator

Any detected spelling and grammatical errors in the document were also corrected, where needed.

40TH COUNCIL MEETING: 2021-01-27: ITEM 8.3**RESOLVED** (majority vote)

- (a) that the Revised TL SDBIP 2020/21 be approved;
- (b) that the Revised TL SDBIP 2020/21 be published on the Municipal Website; and
- (c) that the Revised TL SDBIP 2020/21 be submitted to:
 - (i) Internal Audit Unit (for notification);
 - (ii) Department of Local Government: Western Cape;
 - (iii) Provincial Treasury: Western Cape;
 - (iv) Auditor General of South Africa; and
 - (v) National Treasury.

Councillor LK Horsband (Ms) requested that her vote of dissent be minuted.

8.4	MID-YEAR BUDGET AND PERFORMANCE ASSESSMENT FOR 2020/2021
-----	--

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance and Compliance

20 January 2021 and 27 January 2021

1. SUBJECT: MID-YEAR BUDGET AND PERFORMANCE ASSESSMENT FOR 2020/2021**2. PURPOSE**

To submit the Section 72 report (Mid-year Budget and Performance Assessment Report) to Council.

3. DELEGATED AUTHORITY**FOR NOTICE BY MUNICIPAL COUNCIL**

In terms of Section 54 of the Municipal Finance Management Act (MFMA), 56 of 2003.

4. EXECUTIVE SUMMARY

This report provides the progress made by the Municipality in terms of the Service Delivery Budget and Implementation Plan (SDBIP) for the period 1 July 2020 to 31 December 2020.

40TH COUNCIL MEETING: 2021-01-27: ITEM 8.4**RESOLVED** (majority vote)

- (a) that Council takes note of the report and more specifically the assessment and forecasts contained in the report;
- (b) that Council takes note that an Adjustments Budget will be tabled to Council as a result of the following:
 - i the appropriation of additional allocations received and increased realistically anticipated revenue during the financial year;
 - ii the reprioritization of projects in line with being completed by the communicated cut-off dates to facilitate year- end preparation;
- (c) that Council notes the performance of the Municipality against the set objectives contained in Section 2; and
- (d) that the Accounting Officer attends to ensuring that Directors put the necessary corrective measures in place to ensure that projects are managed proactively in a bid to ensure that Council meets its strategic objectives contained in the Service Delivery and Budget Implementation Plan and to report on same at the end of quarter.

Councillors F Adams and LK Horsband (Ms) requested that their votes of dissent be minuted.

40TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2021-01-27

8.5	MFMA SECTION 52 REPORTING UP TO DECEMBER 2020
-----	---

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance and Compliance

20 January 2021 and 27 January 2021

1. SUBJECT: MFMA SECTION 52 REPORTING UP TO DECEMBER 2020**2. PURPOSE**

To comply with section 52(d) of the Municipal Finance Management Act and report to Council on the budget; financial and service delivery budget implementation plan by the Municipality for quarter 2 of the 2020/21 financial year.

3. DELEGATED AUTHORITY**THE EXECUTIVE MAYOR TO SUBMIT TO COUNCIL**

In terms of section 52 (d) of the Municipal Finance Management Act:

"The mayor of a municipality—

(d) must, within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget as well as the non-financial performance of the municipality;"

4. EXECUTIVE SUMMARY

The Executive Mayor must provide general political guidance over the fiscal and financial affairs of the Municipality and is required by Section 52(d) of the Municipal Finance Management Act to submit a report on the implementation of the budget and the financial and non-financial performance of the Municipality, to the Council within 30 days after end of each quarter.

The Section 52 report is a summary of the budget performance. It compares the implementation of the budget to the commitments made and contained in the Service Delivery and Budget Implementation Plan (SDBIP), and is intended to enable Council to give effect to their oversight responsibility.

This report provides the overall performance of the Municipality for the period 1 October 2020 to 31 December 2020.

40TH COUNCIL MEETING: 2021-01-27: ITEM 8.5**NOTED**

the Section 52 Report (including Quarterly Performance Report) for the Second Quarter.

11.2.1	PAYMENT OF WARD COMMITTEE MEMBERS WHERE WARD COMMITTEES DID NOT CONVENE MEETINGS DURING QUARTER 4 OF 2020
---------------	--

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance and Compliance

20 January 2021 and 27 January 2021

1. SUBJECT: PAYMENT OF WARD COMMITTEE MEMBERS WHERE WARD COMMITTEES DID NOT CONVENE MEETINGS DURING QUARTER 4 OF 2020

2. PURPOSE

To submit to Council a report to consider if payment should be made to ward committee members where their ward committee did not convene meetings during the period October 2020 to December 2020 due to various challenges.

3. DELEGATED AUTHORITY

Council is the decision-making authority.

4. EXECUTIVE SUMMARY

Subsequent to the declaration of a national disaster on the Covid-19 pandemic on 15 March 2020, Council, at an urgent meeting on 25 March 2020, granted permission to the Executive Mayor to exercise powers of the Council with the exception of powers stipulated in Section 160(2) of the Constitution. The Executive Mayor approved the payment of ward committee members despite the fact that they did not meet during lockdown, as committees could not meet.

With the entire country placed on alert level 2 during August 2020 in the wake of a moderate Covid-19 spread of the virus, council meetings took place again although on a virtual platform. Council was fully operational and the full workforce at work although some ward offices were still closed. Council withdrew the delegations to the Executive Mayor on her request in September 2020.

The ward offices, except those of wards 16 and 17, opened on 01 September 2020 after the national lockdown implemented in March 2020. This paved the way for ward committees to convene meetings, strictly adhering to the Covid-19 regulations, health and safety protocols.

The wards indicated in Table 1 below did not convene any ward committee meetings during the period October to December 2020 for the reasons indicated below as received from the respective ward councillor. Payment could not be made to the ward committee members of said ward committees as Clause 25 of the Policy and Procedures for Ward Committees stipulates that payment for out-of-pocket allowances should be made to a ward committee member for attending a ward committee meeting.

The country has subsequently moved to level 1 and was again placed under revised level 3 lockdown regulations from 28 December 2020. The responsibilities of the Ward Committee members are not limited to attending ward meetings, but include working within their respected communities and to assist the Ward Councillor in executing his/her functions/duties. For these reasons it is proposed that the Ward Committee members be paid despite meetings not taking place.

Table 1: List of ward committees that held no meetings during the period October to December 2020

Ward	Meetings scheduled prior to lockdown	Reason/s for not being able to meet
3	6 Oct ; 3 Nov	Unrest within Lanquedoc led to Councillor being protected 24/7
5	6 Oct ; 3 Nov ; 1 Dec	No network connection: ward office could therefore not function – was waiting for equipment to enable ICT to fix the problem at the ward office. Problem only fixed on 15 December 2020
14	14 Oct ; 11 Nov	No ward office – awaiting action from LED to provide office space as per negotiations done by the Office of the Speaker
22	7 Oct ; 4 Nov ; 3 Dec	No ward office – previous office space utilised (Plein Street Library Hall) not available during lockdown and beyond

Council has adopted a revised Policy and Procedures for Ward Committees on 25 November 2020. In terms of the said Policy ward committee members will be paid an amount of R350.00 for out-of-pocket expenses incurred when attending a ward committee meeting.

Council must consider if they want to consider waiving Clause 25 and approving the payment to ward committee members of those wards that could not meet as a result of the challenges as indicated in Table 1 above. It is also advised that Council resolves on the period between January 2021 and March 2021 as it is unclear what the situation will be as the current level 3 has been extended to manage wave 2 of the virus.

MINUTES

40TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2021-01-27

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.2.1**RESOLVED** (majority vote)

- (a) that the report is noted;
- (b) that Council waives clause 25 of the Policy and Procedures for Ward Committees for the last quarter of 2020; and
- (c) that, where meetings could not take place as indicated in the item, the ward committee members be paid for the last quarter of 2020, given the fact that the ward committee members also fulfilled other duties in the wards as ward committee members.

Councillor G Cele (Ms) requested that her vote of dissent be minuted.

11.2.2	PROPOSED AMENDED LEASE AGREEMENT: KARLIEN AND KANDAS CRECHE: ERVEN 12758 AND 12759, STELLENBOSCH
--------	---

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance

20 January 2021 and 27 January 2021

1. SUBJECT: PROPOSED AMENDED LEASE AGREEMENT: KARLIEN AND KANDAS CRECHE: ERVEN 12758 AND 12759, STELLENBOSCH

2. PURPOSE

To obtain Council's approval to amend the Lease Agreement between Stellenbosch Municipality and Karlien and Kandas crèche in regard to erven 12758 and 12759, Stellenbosch.

3. DELEGATED AUTHORITY

The Executive Mayor in consultation with the Executive Mayoral committee has delegated powers to made a decision in regard to lease agreements for less than 10 years and values that will be less than R5 million.

4. EXECUTIVE SUMMARY

Stellenbosch Municipality took over a Lease Agreement between Karlien en Kandas Crèche and the Dutch Reform church when the properties (erven 12758 and 12759) were transferred to Stellenbosch Municipality in 2001. This agreement was for an undetermined period, and had an early termination clause (6 months).

This Agreement was replaced with a new Lease Agreement in 2004, also for an undetermined period (**APPENDIX 3**). Changes to the existing lease can only be implemented with the agreement of the lessee as rights are in existence in terms of the current agreement's term. The Lessee has indicated that they will accept the change in the lease period. The nature of the business of the crèche requires that they get at least 12 months' notice to ensure that the children are accommodated should they need to move out of the current facility

The item served before Mayco in November 2019, but was referred back due to the link the property has with erf 13246. The item on erf 13246 was resubmitted for consideration early in 2020, but the item on erf 13246 was referred back and therefore this item was also not dealt with. Both items are resubmitted for consideration.

The item served before Council in November 2020. No resolution was taken as it stood down for further deliberation. It is resubmitted for consideration.

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.2.2**RESOLVED** (majority vote)

- (a) that it be confirmed that erven 12758 and 12759 were identified as land not needed for municipal purpose for the period for which the rights are awarded;
- (b) that Council notes that a current lease agreement with the Lessee exists;
- (c) that Council approves, in principle, the amendment to the period of lease from an undetermined period to a period of 9 years and 11 months;
- (d) that public comments/objections be requested on the amendment of the lease, and that the item be resubmitted after the public participation process; and
- (e) that the determination of the monthly rental and the decision on the costs for rezoning of the property stand over until after the public participation process has been completed.

Councillors F Adams; G Cele (Ms) and LK Horsband (Ms) requested that their votes of dissent be minuted.

11.2.3	APPLICATION FOR A LONG-TERM LEASE AGREEMENT BETWEEN STELLENBOSCH MUNICIPALITY AND THE STELLENBOSCH FLYING CLUB: PORTION L OF FARM 502, STELLENBOSCH
--------	--

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance

20 January 2021 and 27 January 2021

1. SUBJECT: APPLICATION FOR A LONG-TERM LEASE AGREEMENT BETWEEN STELLENBOSCH MUNICIPALITY AND THE STELLENBOSCH FLYING CLUB: PORTION L OF FARM 502, STELLENBOSCH

2. PURPOSE

The purpose of this report is to:-

- a) Provide feedback on the public participation process envisaged in paragraph 9.2.2.1 of the Policy on the Management of Council-owned property, and
- b) Make a final determination on the request for a long term lease agreement.

3. DELEGATED AUTHORITY

The Executive Mayor in consultation with the Executive Mayoral Committee has delegated powers to decide on lease agreements less than 10 years. Council however has to deal with properties worth more than R5 million even if the proposed agreement is less than 10 years.

4. EXECUTIVE SUMMARY

After following the public participation process prescribed by Regulation 35 of the Asset Transfer Regulation, Council decided on 2010-08-29 *inter alia*, to in principle approve a Lease Agreement with the Flying Club for a period of 9 years and 11 months without following a public competitive process, subject thereto that Council's intention to enter into the agreement be advertised for public comment/inputs/alternative proposals.

The notice was published on 2 October 2020 and the closure for inputs was 23 October 2020.

Only one (1) input was received from the Western Cape Education Department which must now be considered by Council, before making a final determination regarding the proposed long term Lease Agreement (see 6.1.4 below).

The valuation reports are attached as appendices 4 and 5.

A further letter was received from the Western Cape Education department, of which the contents speaks for itself, dated 23 November 2020 and is attached as **APPENDIX 6.**

MINUTES

40TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2021-01-27

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.2.3**RESOLVED** (majority vote)

- (a) that Council takes note of the inputs received from the WCED;
- (b) that the lease be approved to be entered into for a period of 9 years and 11 months with an option to renew the agreement after this initial period;
- (c) that before the lease is signed, proof be submitted from the Western Cape Education Department on the agreement reached between the WCED and the Flying Club;
- (d) that a market-related monthly rental of R30 080.00 (the average of the two new evaluations) be charged from 1 April 2021;
- (e) that the rental be escalated by CPI on the first day of the financial year annually, excluding 1 July 2021;
- (f) that, if the Flying Club wishes to enter into a sub-lease arrangement, such sub-lease must be approved by Council;
- (g) that Council approves the sub-leases with the current companies operating on the field and with whom sub-leases were approved previously;
- (h) that the delegation to approve any other sub-leases be delegated to the Municipal Manager;
- (i) that the agreement may be terminated earlier on a 12 months' notice period if the land is needed for municipal services; and
- (j) that the Flying Club pays the taxes and services punctually.

Councillors F Adams; C Moses (Ms) and LK Horsband (Ms) requested that their votes of dissent be minuted.

IDP KPA Ref No:

Meeting Date:

Good Governance

20 January 2021

- SUBJECT: PROPOSED EXCHANGE OF LAND: LEASE FARMS 502AA, 502AB AND A PORTION OF PORTION 13 OF FARM 491 FOR A PORTION OF PORTION 10 OF FARM 502, STELLENBOSCH: SPIER HOLDINGS (PTY) LTD**

- PURPOSE**

To consider the (in principle) application to exchange land as submitted by Spier Holdings (Pty) Ltd.

- DELEGATED AUTHORITY**

For decision by Municipal Council.

- EXECUTIVE SUMMARY**

Spier Holdings (Pty) Ltd is leasing a number of Municipal-owned Lease Farms. They have now applied for an exchange of portions of Lease Areas for a portion of their own land. Council must now consider this application in principle in terms of the relevant provisions contained in the Property Management Policy.

There are 4 options that are discussed under point 6 below. Council may also decide on any other option. In consideration of the option sit must be taken into account that the properties fall in the above R10 million value categories and the provisions of the asset transfer regulations for the properties therefore needs to be followed which means an Information statement and public participation process must first be followed before a decision can be taken, similar to what took place with the lease process of the Flying club.

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.2.4**RESOLVED** (majority vote with abstentions)

that Council considered the application, and does not approve the land exchange application.

20 January 2021

1. SUBJECT: REQUEST TO COMMENCE WITH THE INVESTIGATION INTO THE USE AND GENERATION OF ALTERNATE ELECTRICITY ENERGY SUPPLIES

2. PURPOSE

To inform Council about the option to investigate alternate forms of Electricity Supplies through own generation or purchases from Independent Power Producers.

3. DELEGATED AUTHORITY

Municipal Council -- for notification.

4. EXECUTIVE SUMMARY

Under previous circumstances, the Constitution did not allow Local Government to enter into the generation of electricity and the Electricity Regulation Act did not allow municipalities to purchase electricity from any company other than Eskom. Through the promulgation of Electricity Regulation Act Regulations, in 16 October 2020, this changed and municipalities are now allowed to generate electricity and purchase electricity from other electricity providers than Eskom.

Stellenbosch Municipality is in the position to make use of internal research entities, Stellenbosch University and the Council for Scientific and Industrial Research (CSIR) as well as the Western Cape Government to facilitate the investigations into viability and feasibility of the following possible projects and other similar possibilities:

- a. Rooftop Solar Panel Generation of Electricity
- b. Methane Mining of the Landfill Site and utilising methane to power engines which in turn generates electricity through generators

11.10	MUNICIPAL MANAGER
11.10.1	ADOPTION OF THE REVISED STRATEGIC AND OPERATIONAL RISK REGISTER FOR THE 2020/21 FINANCIAL YEAR WITH RISK APPETITE

Collaborator No: 700491
 IDP KPA Ref No: Good Governance and Compliance
 Meeting Date: 20 January 2021 and 27 January 2021

1. **SUBJECT: ADOPTION OF THE REVISED STRATEGIC AND OPERATIONAL RISK REGISTER FOR THE 2020/21 FINANCIAL YEAR WITH RISK APPETITE**
2. **PURPOSE**
To submit the Strategic and Operational Risk Register for the 2020/21 financial year for Council approval.
3. **DELEGATED AUTHORITY**
Council.
4. **EXECUTIVE SUMMARY**

Municipal Governance best practice as well the Municipal Finance Management Act (MFMA), Act 56 of 2003, requires municipalities to have an effective risk management mechanism to stay abreast of prevalent risks and to determine the risk appetite. To ensure effectiveness, a municipality must focus its attention and resources on the areas of most significant risk and concern to stakeholders. To this end, Stellenbosch Municipality has undertaken the practice of adopting a Strategic Risk Register which identifies strategic and operational risk at a corporate level to ensure that risks which could hamper service delivery and the strategic objectives are identified and linked to appropriate actions to mitigate the risks.

Due to the changing dynamics in the external environment with impact municipal services, amendments to the Strategic Risk Register were necessitated to ensure that the municipalities remain appropriately responsive to the risk environment.

The Stellenbosch Municipality is committed to effective risk management in order to achieve the municipality's vision, service delivery, and strategic objectives and to ensure appropriate outcomes for the community.

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.10.1**RESOLVED** (majority vote)

that Council adopts the Strategic and Operational Risk Register for the 2020/21 financial year.

20 January 2021 and 27 January 2021

1. SUBJECT: MUNICIPAL PARTNERSHIP FOR HUMAN RIGHTS

2. PURPOSE

To confirm the appointment of the two (2) Councillors and two (2) officials to represent Council in the partnership for Human Rights with Jönköping Municipality (JM) and to submit same as entries into the Inception Application to ICLD.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Stellenbosch Municipality (SM) has been approached by the Swedish International Centre for Local Democracy (ICLD) to explore the possibility of entering into a partnership with a Swedish Municipality selected by ICLD on the topic of Human Rights.

At the Council meeting of 25 November 2020 Council resolved that SM may enter into a partnership agreement (**APPENDIX 1**). This information was passed onto ICLD who identified Jönköping Municipality in the south of Sweden as the preferred municipality to enter into this partnership with SM.

Jönköping Municipality has recently won a prestigious European Union (EU) award which as a by-product unlocks funding and sponsorship from vast array of sources within the European Union (EU) who are interested in human rights and this kind of partnerships. This partnership potentially opens the doors to this funding and could potentially allow SM access to funding sources for human rights projects that were not previously available or accessible.

A Letter of Intent, outlining the broad partnership relations has been concluded and signed by both municipalities subsequent to the Council resolution, **APPENDIX 2**.

In accordance with this letter, as well as subsequent correspondence between the two municipalities the broad terms for the collaboration would be the area of human rights and specific emphasis will be given to the area of social sustainability, with further emphasis on particular issues such as amongst others gender inequality. The collaboration is therefore shaped within ICLD's core areas framework, i.e. equity and inclusion, citizen participation, transparency and the possibility of accountability.

Given the above, it is now required of the two municipalities to submit a joint Inception Application to ICLD. This application must be submitted to ICLD by January 2021.

In order to submit the application there are certain requirements that both municipalities must meet, i.e.

- i. That the application must be submitted in Swedish
- ii. That the suitable participants be confirmed and their details be submitted as part of the Application
- iii. SM's initial understanding of the partnership for Human Rights.

MINUTES

40TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2021-01-27

It must be noted that as a result of the Covid-19 pandemic, there are currently and most probably for the foreseeable future, international travel restrictions in place. This situation might result in using alternative methods of communication other than local visits by the representatives the respective municipalities.

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.10.2**RESOLVED** (majority vote)

- (a) that Council takes note of the requirement to identify and confirm the appointment of two (2) suitable Councillors to represent the Municipality in this partnership;
- (b) that Council takes note of the requirement to identify and confirm the appointment of two (2) suitable Officials to represent the Municipality in this partnership;
- (c) that Council takes note that the traveling and accommodations requirements for the four (4) staff members will be covered by ICLD;
- (d) that Council takes note of the fact that there currently are international travel restrictions in place as a result of the ongoing Covid 19 pandemic;
- (e) that Council confirms the appointment of Cllrs WC Petersen (Ms) and Z Dalling (Ms) – with Cllr E Groenewald (Ms) to be the second- to represent the Municipality in this partnership, whose particulars will be recorded in the Inception Application; and
- (f) that Council confirms the appointment of the Municipal Manager, Ms Geraldine Mettler and the Manager: Housing Administration, Ms Rotanda Nona Swartbooi, as the two (2) suitable Officials to represent the Municipality in this partnership.

Councillor G Cele (Ms) requested that her vote of dissent be minuted.

1. SUBJECT: ALLOCATION OF FUNDS TO ORGANISATIONS PROVIDING FOOD TO THE HOMELESS DURING THE COVID-19 LOCKDOWN PERIOD

2. PURPOSE

To consider a further donation to the Stellenbosch Unite Initiative to procure and distribute food packages to the homeless and vulnerable people of the municipal area during the COVID-19 lockdown period.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

On 20 April 2020, the Executive Mayor under the delegation approved by Council on 25 March 2020 to confer Council power and functions upon the Executive Mayor, approved the recommendations from the Special Grants Committee to donate funding to the Stellenbosch Unite Initiative to provide food parcels and soup to the vulnerable community groups during the COVID-19 lockdown period.

On 11 September 2020, Council approved a further donation to the Stellenbosch Unite Initiative as per the recommendations of the Special Grants Committee to provide soup to the vulnerable community groups during the COVID-19 lockdown period, with the decision *"that Council notes that no further ad-hoc financial donations will be entertained, as any further donations of this nature must be discussed through the IDP and Budget processes."*

The above decision was based on the fact that the Grants Committee noted that our country lowered the COVID-19 Regulations to Level 2, which resulted in a number of businesses being allowed to trade, and that more job opportunities may have been created, however this situation has changed during December 2020 due a surge of

COVID-19 infections, which emanated into the “second wave” COVID-19 infections, and the President announced that the country be placed at Level 3 Lockdown, with the prohibition of sale and distribution of alcohol in all its forms, as well as the announcement of curfew. This had a major impact on especially, the tourism businesses of Stellenbosch Municipality. This resulted in a number of donors not being in the position to financially assist with feeding scheme for the most vulnerable communities, which have increased as the number of hospitality businesses have lost patrons, which resulted in staff being retrenched and /or businesses closing. The need for assistance has thus exponentially increased and may even increase over the next months, with the uncertainty of the availability of the COVID-vaccine and the traditional winter months looming, which may result in a further rise of infections. Essentially funding is needed to continue with the various soup kitchens serving the vulnerable communities in WC024, and also that although Council made the decision that no further ad-hoc contributions will be made, could not have predicted the announcement of a further level 3 lockdown with such restrictive regulations accompanying it, which may have resulted in an already dire economy situation to our country.

40TH COUNCIL MEETING: 2021-01-27: ITEM 11.10.3

RESOLVED (nem con)

that this matter be referred back to the Administration for further refinement, whereafter same be resubmitted at a next Council meeting.

2.	MAYORAL ADDRESS
-----------	------------------------

“Speaker, Munisipale Bestuurder, Burgemeesterskomiteelede, Direkteure

Goeiedag, Good Morning, Molweni, As-salaam Alaikum

- Still continuing online meetings.
- Seems that the second wave of the COVID pandemic is finally flattening out.
 - o Urge all residents to remain vigilant, now is not the time to relax with any of the regulations.
 - o Social gatherings are still restricted
 - o Everyone must wear a mask when moving about in public spaces, sanitise or wash your hands regularly, and maintain social distancing.
 - o These regulations have been proven as effective ways to prevent the spread of COVID-19.
 - o This second wave has been particularly devastating, and we have been warned about a third wave as well, experts project starting as early as April.
 - o The State of disaster has also been extended with another month, now until 15 March.
 - o We remain on level 3 regulations.
- Last Monday, I met with Minister Bongsi Madikizela.
 - o Here on an oversight visit, to see the progress on the R44 upgrade.
 - o The R44 in the direction of Somerset-West has been resurfaced.
 - o I am aware that it was frustrating to many commuters, but this was necessary to maintain the integrity of this critical route in our area.
 - o Now we have a nice newly resurfaced road.
 - o Project costs was more than R 60 million and created 92 job opportunities.
 - o Our thanks goes out to the Provincial Department of Public Works and Transport for their support and hard work to help maintain critical routes in our area.
- This year is the 50th anniversary of the Stellenbosch Wine Route
 - o Wine industry is very iconic in our region and it has been facing some of the most severe challenges in recent years.
 - o However, I want to congratulate the Stellenbosch Wine Routes.

-
- o Stellenbosch Wine Routes represent more than 200 wine farms and grape produces.
 - o This industry provides hundreds and hundreds of jobs, directly or indirectly.
 - o Thank you for what you contribute to our unique region, and I hope that we will be able to celebrate this momentous occasion, sooner rather than later.
 - Conclude with a hearty congratulations to all our 2020 Matric learners with the wonderful results that was released on Monday.
 - o The Matric class of 2020 faced unprecedented challenges.
 - o Schools were closed for long periods at a time and uncertainty about the academic year caused fear and frustration for many.
 - o Students, teachers and parents had to adapt to new ways of learning through virtual platforms and this placed a lot of extra pressure on our matric class of 2020.
 - o The hard work really did pay off for many of our learners! We are once again delighted to hear of the outstanding performances of learners and schools from our municipal area.
 - o We are proud to be home to several schools that consistently rank as some of the best performing schools in the country!
 - o If your results are not what you anticipated, please do not lose hope.
 - o I urge you to try again, apply yourself again,
 - o In the broader picture of your life, this is only one small hurdle, and trying again will help you to persevere throughout your life.

Thank you.”

3.	COMMUNICATION BY THE SPEAKER
-----------	-------------------------------------

“Good Morning to:

The Executive Mayor, Advocate Gesie Van Deventer

Deputy Executive Mayor, Councillor Nyaniso Jindela

The Municipal Manager, Ms. G. Mettler

Councillors and all Protocols observed:

Executive Mayor, Councillors, MM and the broader Stellenbosch **Public** - it is a privilege for me to welcome you to this **Special** Meeting of Council for the **Year 2021**.

The purpose of the meeting is to give effect to the statutory requirement of considering and approving the MID-YEAR ADJUSTMENTS BUDGET AND REVISED SERVICE DELIVERY AND BUDGET and the IMPLEMENATION PLAN FOR 2020/2021

Raadslede soos u weet – moes die item alreeds gedurende Januarie 2021 gedien het – kom ons gee aandag aan die saak sodat die Administrasie kan voortgaan rakende die spandering van die Begroting vir die afhandeling van die belasting jaar.

Allow me to announce the following:

- We have to welcome the two new Councillors – Mnrre RB Van Rooyen and Clint Davidse – Welcome to your new home of **Service to the People**.
- Regarding the All wards meeting – may I acknowledge that the meeting has been postponed to 1st of March 2021. Ward Councillors will be reminded that their ward allocations is currently under discussion but that it will be dealt with in full at the All Wards meeting.
- Allow me also to congratulate our Matriculants of 2020 – for their remarkable achievement in passing their exams. For those who did not make it – please remember that it is not the end of the world.
- Regarding **birthdays** the following:
 1. **March 16** it is Councillor Rikus Badenhorst that will be celebrating his 51st birthday – **16 March**

Once again thank you very much Councillors and Administration for your continuous support to our electorate during this difficult time.

I Thank You”.

4.	COMMUNICATION BY THE MUNICIPAL MANAGER
-----------	---

“Good morning Councillors,

Good morning members of the public and colleagues,

- It’s indeed a privilege to be here with you this morning.
- The Adjustments Budget normally serves before Council at the end of January each year, but due to covid and the challenges the municipality experienced, this matter will only serve before Council today.
- Congratulations to all matriculants who passed, to those who did not make it, never give up, you can always try again. It was indeed very difficult circumstances, but you have proven that you can adapt to the new normal.
- Welcome to all new students who will be joining the University this year. The University will start soon, please take care and be proud of our town, like we are, and observe covid protocols, especially during your orientation, etc.
- Thank you for all the messages of support and condolences which I received with the passing of my father. We’ve heard about the predictions about a third wave, it is everyone’s responsibility to take care of themselves, be safe and take the necessary precautions and observe covid protocols.

I thank you.”

1. SUBJECT: MID-YEAR ADJUSTMENTS BUDGET AND REVISED SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN FOR 2020/2021

2. PURPOSE

To table the adjustments budget as envisaged by Section 28 of the Municipal Finance Management Act (Act No.56 of 2003), for the 2020/2021 financial year together with the revised Service Delivery and Budget Implementation Plan.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

This adjustments budget addresses adjustments in terms of section 28 (2) a, b, d & f of the MFMA and is further explained as required by section 28 (2).

Furthermore Section 54 (1) of the MFMA states the mayor must-consider and, if necessary, make any revisions to the SDBIP, provided that revisions to the SDBIP may only be made with the approval of the council following approval of an adjustments budget. These revisions to the SDBIP was approved by council on 27 January 2021.

The approved revisions to the SDBIP is submitted with the Mid-year adjustments to ensure compliance with Section 54 (1) of the MFMA.

Attached as **APPENDIX 1** is an executive summary by the Accounting Officer.

SPECIAL COUNCIL MEETING: 2021-02-24: ITEM 7.1

The Executive Mayor's Budget Speech is attached as an **APPENDIX**.

RESOLVED (majority vote)

- (a) that the Adjustments Budget as prescribed by the Budgeting and Reporting Regulations, as set out in **APPENDIX 2**, be approved;
- (b) that the list of capital projects be adjusted over the MTREF (2021/2022), as set out in **APPENDIX 1**; and
- (c) that Council reaffirms the revised Service Delivery and Budget Implementation Plan approved on 27 January 2021 as aligned to the Mid-year adjustments budget, as set out in **APPENDIX 4**.

The following Councillors requested that their votes of dissent be minuted:

Cllr G Cele (Ms); FT Bangani-Menziwe (Ms); N Mananga-Gugushe (Ms); C Moses (Ms); RS Nalumango (Ms); N Sinkinya (Ms); P Sitshoti (Ms) and LL Stander.

**EXECUTIVE MAYOR:
Annual Adjustment Budget**

24 February 2021

Speaker;
Deputy Mayor;
Single Whip;
Members of the Mayoral Committee;
Members of Council;
Municipal Manager and senior management;
Members of the public;
Members of the media present; and
All protocol observed

Good Morning ladies and gentlemen.

Introduction

Speaker, it is my obligation as the Executive Mayor of Stellenbosch Municipality to submit the adjustment budget for the current financial year of 2020/21 in accordance with section 28(4) of Municipal Finance Management Act. In terms of section 28(2) of the Municipal Finance Management Act, an adjustments budget:

- a) must adjust the revenue and expenditure estimates downwards if there is material under collection of revenue during the current year;
- b) may appropriate additional revenue that has become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;
- c) may authorize the utilization of projected savings in one vote towards spending in another vote; and
- d) may correct any errors in the annual budget.

In terms of section 23(1) of the Municipal Budget and Reporting Regulations, the above mentioned adjustments can only be done after the mid-year

budget and performance assessment has been tabled to Council, but not later than 28 February.

Speaker, this past year has proven to be most unusual. This was like Alice in Wonderland discovering a beast of a virus and miracles along this journey, stranger than one could ever have imagined possible a year ago. No one could have anticipated the devastating impact of the worldwide COVID pandemic on our communities, our economy and on our municipality. The hard lockdown and the continued limitations imposed by COVID throughout our entire financial year has delayed much of our planning and greatly affected our operational and capital expenditure and revenue.

Even though we tried to anticipate the impact of COVID-19 on our adjusted budget, it was impossible to determine the full extent of this international disaster on us.

Stats SA figures shows how our economy has been affected by the pandemic on a national level:

1. Income generated by the food and beverages industry **decreased** by **36,6%** in November 2020 compared with November 2019.
2. Total income for the tourist accommodation industry **decreased** by **65,5%** in November 2020 compared with November 2019.
3. Income from accommodation **decreased** by **66,8%** year-on-year in November 2020.
4. SA electricity generation **decreased** by **2,4%** year-on-year in November 2020. Whilst, generation only increased by 0,5% in November 2020 compared with October 2020.
5. Manufacturing production (including food and beverages), **decreased** by **3,5%** in November 2020 compared with November 2019.

6. The real value of recorded building plans **decreased** by **40,8%** year-on-year during January to October 2020. The real value of buildings completed **decreased** by **49,9%** over the same period.

These are just some of the national points which reflect directly on our own economy and how it has been affected. We have, however, not lost hope. And we shall never lose hope.

Christopher Reeve said: “Once you choose hope, everything is possible.” And that is what we choose to do every day. We hope, we dream and we believe we shall overcome this virus and rebuild what we lost as a result of this virus.

Years of prudent and responsible governance, has however helped us to weather this storm much better than many other Municipalities. Our focus for the rest of this financial year as well as the next, will be to finish projects that have already started which include critical projects. New multiyear projects will be rescheduled to the outer years will be reflected in the budget for the next financial year.

The main purpose of this adjustment budget is therefore to adjust the material under and over budgeted figures as well as to accommodate additional revenues received or cuts made in terms of government grants. Speaker, the Municipal Manager and the Chief Financial Officer, in accordance with their mandate streamlined the compilation of the adjustments budget in consultation I with the Executive Mayor and the Budget Steering Committee.

1. Capital Adjustment Budget

During the mid-year budget and performance assessment process, it was identified that the approved capital budget had to be adjusted to make necessary amendments to various projects in order to accelerate progress on the priorities identified.

We remain committed to investing in our communities. The limitations of COVID-19 and the lockdown that followed however curbed our capital

spending to 30% of our capital spending for the first 6 months of the financial year, in comparison with 33% for the same period in December 2019.

Taking all proposed adjustments into consideration, will result in the current approved capital budget of R 483 710 958 decreasing by 6,04% with R 29 246 948. The proposed adjusted capital budget for 2020/2021 will be R 454 464 010.

Speaker, this capital budget of R 454 464 010 continues to represent our investment and dedication to our communities throughout the Municipality to improve service delivery and the creation of job opportunities through economic growth. The underperformance for the current financial year is sadly not within our control and we have been working relentlessly, making every effort to balance the needs of our residents with the funds available and the restrictions imposed by the Corona virus.

Stellenbosch municipality vested the majority of the 2020/2021 capital budget in infrastructure services (R317million or 70% of the R 454 million capital budget) This investment is needed to ensure effective service delivery for our people and to ensure that bulk services are available to support development, including the “ municipal” housing projects. Mostly it is important to create an environment attractive to investment and conducive to economic growth. It is vital that we make sure that we have the necessary infrastructure in place to create opportunities for economic growth and improvement of services for our citizens.

Highlights of adjustment budget include, amongst other:

- An additional **R4 100 000** has been allocated to the establishment of the Kayamandi informal trading site. The amount of R2 600 000 of the additional funding has been received as part of a RSEP grant and will see to the completion of this vital project, which will help create job opportunities for local residents.

- Funding for the planning of upgrading projects in Langerug (**R1 000 000**) and Enkanini (**R1 279 000**) has been reduced in accordance with the latest cuts made by the Human Settlements Development Grant. This has been one of the areas adversely affected due to COVID.
- **R948 737** has been rolled over for the expansion of the new landfill site. This is a multiyear project which will continue in the next financial year. This remains a critical project to ensure that we can successfully manage solid waste in our region and ensure a healthy and clean valley.
- **R3 000 000** has been rolled over the next financial year for the upgrading of the Steps/Orlean Lounge. This is a multiyear project and will continue in the next financial year. I know that the residents in this area are eagerly awaiting the completion of this work, and I want to give them the assurance that this remains a top priority for me.
- The upgrade of the Waste Water Treatment Works in Pniel and decommissioning of Franschoek is an ongoing major infrastructure project with long term benefits for the entire community. This is a multiyear project and will continue in the next financial year. The budget for this project has been adjusted with **R22 000 000** to ensure work continues on this vital infrastructure.
- The Upgrade of the Wemmershoek WWTW facility is also ongoing. This project is in the planning phase and **R12 000 000** has been rolled over to continue this project in the next financial year.
- Ensuring a stable and reliable water supply forms part of critical infrastructure. The Kayamandi Bulk Water supply pipe and reservoir project is in the planning phase and will continue into the next financial year. **R15 000 000** has been rolled over for this purpose.

- An additional **R2 300 000** has been given for the procurement and storage of data and infrastructure connected with our CCTV security infrastructure.
- **R1 100 000** has been rolled over for the structural improvements of the Van Der Stel Sport Grounds. This project stretches over several years and we are giving all due attention to the much needed improvement of the infrastructure at this facility.
- Upgrading of the Stellenbosch Fire Station has been increased with **R1 000 000** as additional funding was necessary for phase one of this project.
- The budget for the extension of cemetery infrastructure at Jamestown has been decreased with **R1 000 000**. This project is managed with the assistance of Development Services.

2. Operational Adjustment Budget

With the process followed during the mid-year budget and performance assessment, taking into consideration projected spending or projected billed revenue, versus what was actually processed, it was identified that the operational budget should be adjusted accordingly.

The operational income budget of 2020/2021 decreases with 3,9% from **R2,007 billion** (R2 007 957 045) to the proposed budget of **R1,928 billion (R1 928 409 221)**.

The operational expenditure budget of 2020/2021 decreases with 4% from **R1,907 billion (R1 907 155 005)** to the proposed budget amount of **R1,827 billion (R1 827 604 182)**.

3. Operational Income Budget

Material changes to the operating budget:

The COVID pandemic and lockdown has had a severe impact on our expected revenue stream. We anticipate an underperformance in various line items that will have to be adjusted downward:

- **Water Service Charges:** The municipality has billed R24 846 872 less water charges than initially anticipated. This decline in billings is a result of the decrease in consumption. The categories reflecting the largest underperformance pertains to industrial water (R9 738 131) and the sale of conventional water (R13 287 058). The billings reflect a decline of R12 900 664 in comparison with the same period last year. It is evident that this service charge has been adversely affected by the COVID-19 lockdown regulations and its concomitant impact on the economy. The municipality has re-assessed the water revenue budget and anticipates that a downward adjustment of R20 000 000 will be necessitated during the Mid-year adjustment budget process.
- **Electricity Service Charges:** The municipality has billed R65 388 139 less electricity charges than initially anticipated. The largest under performance relates to the prepaid electricity usage (R17 486 291), Industrial consumption (R14 732 201), low usage during peak times reflected for the time of use tariffs (R24 905 932) and the Commercial users (R6 047 403). The billings reflect a decline of R28 638 538 in comparison with the same period last year. It is evident that this service charge has been adversely affected by the COVID-19 lockdown regulations and its concomitant impact on the economy. The municipality has re-assessed the electricity revenue budget and

anticipates that a downward adjustment of R33 000 000 will be necessitated during the Mid-year adjustment budget process.

- Sanitation Charges: The municipality has billed R12 341 644 less sanitation charges than initially anticipated. The largest under performance has been noted for the industrial waste water at R11 161 565. When taking into account the average monthly utilisation of the service, the risk exist that the municipality will only realise 79 per cent or R93 638 277 of its adjusted budget amount. This service charge has been adversely affected by the COVID-19 lockdown regulations and its concomitant impact on the economy. The municipality has re-assessed the sanitation revenue budget and anticipates that a downward adjustment of R10 000 000 will be necessitated during the Mid-year adjustment budget process.
- Rental of facilities and equipment: An under performance was noted for rental on facilities and equipment to the amount of R3 511 884. The variance is mainly due to the housing rental units. The user department indicated that the occupants of the municipal rental units have been subject to affordability testing since October 2019 which resulted in a decline in rentals. The municipality has re-assessed the rental of facilities and equipment revenue budget and anticipates that a downward adjustment of R5 700 000 will be necessitated during the Mid-year adjustment budget process.
- Interest earned - external investments: An under performance was noted for interest earned – external investments to the amount of R8 091 119. The variance is mainly due to the Covid-19 pandemic which resulted in the prime interest rate being reduced. This reduction has resulted in a significant decrease in our call accounts and primary bank account interest rates. Furthermore, we have received lower rates on offer from investing institutions than the previous financial year. The

interest on the investment journal to the amount of R1 245 179 will be processed during January 2021, which will result in an improvement for the next reporting period. The municipality has re-assessed the interest earned –external investments revenue budget and anticipates that a downward adjustment of R15 000 000 will be necessitated during the Mid-year adjustment budget process.

- Fines, penalties and forfeits: An underperformance was noted to the amount of R31 449 103. The municipality anticipates that a downward adjustment of R10 000 000 will be necessitated during the Mid-year adjustment budget process.

There are however line items where we anticipate receiving additional revenue over and above what has been included in the annual budget. The following has been adjusted upwards:

- Property Rates: The municipality has billed R36 606 865 more property rates than initially anticipated. This is due to the change in the interim valuations done during the year which resulted in additional property rates revenue being billed as well as the improvement in the turnaround for building plan approvals. The functionality of this unit has improved which has resulted in more plans being processed and approved resulting in an increase in revenue. The budget will be increased with R7 000 000 during the Mid-year adjustment budget process.

4. Operational Expenditure Budget

Various line items were adjusted due to requests received from user departments and operational pressure to increase efficiencies.

There are line items where we noted an overspending when compared to the year-to-date budget and we anticipate that additional funds will be required,

over and above those already included and approved in the annual budget. Additional funds were requested for the following expenditure line items:

- Finance Charges: The external loan will only be taken up towards the end of the financial year and it will result in a saving in finance charges.
- Outsourced Services: Security Services: A budget increase has been requested for the security services relating to land invasions and additional security services requests from user departments.
- Outsourced Services: Refuse Removal: A budget increase has been requested to continue service delivery, for the transport and disposal of waste and the landfill operation and management until 30 June 2021.
- Transfer Station Klapmuts: Outsourced Services: Refuse Removal: A budget increase has been requested for the transport and disposal of waste generated at the landfill site until 30 June 2021.

We have identified savings on the following expenditure categories:

- Employee related costs: An under performance of R14 652 008 is noted against the year to date budget projections. The under spending is due to vacancies which have not yet been filled. Various advertisements for vacancies have been issued during the last quarter. The expenditure budget for this line item will have to be adjusted downwards with R 48 835 278 during the Mid-year adjustments budget process.
- Materials and Bulk purchases: An underperformance of R47 893 348 is noted for materials and bulk purchases. A decline in consumption has been noted, as indicated under Service charges, which directly impacts the expenditure incurred on bulk purchases. This decline is largely due to the impact of COVID-19 on the local economy. Although it is envisaged that the demand for electricity will increase during the winter months, the budget will be preliminary decreased by R25 000 000 during the Mid-year adjustment budget process. A decline has also been noted for

water purchases as alluded to under Service charges. The decline in consumption has necessitated a preliminary decrease of R5 000 000 which will be implemented during the Mid-year adjustment budget process.

5. External Loan for 2020/2021

After considering the municipality's cash position as at 31 December 2020 and also taking into account the improved capital spending it would be in council's best interest to take up the external loan of R120 000 000 for the 2020/2021 financial year. However, prudent management of how we apply our external loan means that it will only be taken up towards the end of the financial year and it will result in a saving in finance charges.

6. Financial implications

Funds for various capital projects which have started, but will only be completed in the next financial year, will be rolled over to the next financial year.

Speaker, this is not the adjustment budget we wanted to present at this point of our current term in office. We were hoping to present an adjustment that will be completing all our envisioned projects, creating a springboard from which to launch our next chapter from. Unfortunately we have no control over the path COVID leads us on and we can only adapt and do the best we can.

I want to thank the CFO, the Municipal Manager and the entire administration for their hard work, steering us through this difficult time.

Speaker, this is fortunately not our final budget for the next financial year. That will only be tabled in May of this year, and implemented on 1 July. It is important to be conservative now, and adjust to the impact of COVID to ensure that we remain sustainable. We are in good financial standing and one of the most sustainable Municipalities in SA. I want to assure everybody that I as Mayor shall

do everything I can to keep it this way. Many municipalities in South Africa are not as fortunate.

We had to sacrifice some of our “luxury” projects to ensure that critical projects that benefit our residents, receive priority. We accept that and move forward.

Speaker, in the past year we have proven ourselves as one of the top municipalities in South Africa, because of our diligence, hard work and commitment to our residents. I am not prepared to give that up at any cost and will therefore continue our relentless mission to deliver services and opportunities to our most beautiful valley.

Japanese writer, Haruki Marukani said: And once the storm is over, you won't remember how you made it through, how you managed to survive. You won't even be sure, whether the storm is really over. But one thing is certain. When you come out of the storm, you won't be the same person who walked in. That's what this storm's all about. This is truly the take away from the past year, we have learnt valuable lessons. We have lost a lot, but gained a lot of strength and wisdom. We will continue to apply our newly found, hard learned lessons with conviction.

The road ahead will be difficult. Discussions with the provincial leadership in recent weeks have indicated that the COVID pandemic will continue to affect our people and our budgets and we will realistically enter the next financial year with very tight belts, but I believe we are ready to face these challenges, because we have a committed and dedicated team. There is an African proverb that says:

Smooth seas do not make skilful sailors.

No one could have anticipated the challenges and repercussions of the past year. I am however deeply grateful for the team I have had at my side to ensure that we continue as a caring government during the most trying time in this new century.

I table this adjustment budget, with great responsibility. We shall continue to work hard to provide the best leadership and guidance during this difficult time and to create a business ready environment for when this crisis ends, filled with opportunity for all. Like Alice, I hope that we will all be able to say, sooner rather than later: “What a curious dream I had”, once the horror of COVID has passed. Until then we will bravely continue this odd journey of nightmares and hope.

Speaker, in the item serving before Council the recommendations are set out as recommended in the Adjustments Budget Item. I herewith formally submit recommendations on page 8, a to c, in the Special Council Agenda, for consideration and approval of the 2020/2021 Adjustment Budget.

7.2	REPORT IN TERMS OF SECTION 126 (4) OF THE MUNICIPAL FINANCIAL MANAGEMENT ACT: REASONS FOR THE DELAY IN COMPLETING THE AUDIT OF STELLENBOSCH MUNICIPALITY FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

7.3	MONTHLY FINANCIAL STATUTORY REPORTING: DEVIATIONS FOR JANUARY 2021
-----	--

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance and Compliance

17 February 2021

1. **SUBJECT: MONTHLY FINANCIAL STATUTORY REPORTING: DEVIATIONS FOR JANUARY 2021**2. **PURPOSE**

To comply with Regulation 36(2) of the Municipal Supply Chain Management Regulations and Section 36 of the Supply Chain Management Policy 2020/2021 to report the deviations to Council.

3. **DELEGATED AUTHORITY**

Council

FOR NOTING.

4. **EXECUTIVE SUMMARY**

Regulation 36(2) of the Municipal Supply Chain Management Regulations and Section 36 of the Supply Chain Management Policy (2020/2021) stipulate that SCM deviations be reported to Council. In compliance thereto, this report presents to Council the SCM deviations that occurred during January 2021.

SPECIAL COUNCIL MEETING: 2021-02-24: ITEM 7.3**NOTED**

that there were no deviations listed for the month of January 2021.

8.	ITEMS FOR CONSIDERATION FROM THE EXECUTIVE MAYOR OR MAYORAL COMMITTEE
8.1	CORPORATE SERVICES: (PC: CLLR AR FRAZENBURG)
8.1.1	ERF 13246, STELLENBOSCH: DUTCH REFORM CHURCH: WELGELEGEN: APPLICATION TO ENFORCE FALL-BACK CLAUSE

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance

17 February 2021

1. SUBJECT: ERF 13246, STELLENBOSCH: DUTCH REFORM CHURCH: WELGELEGEN: APPLICATION TO ENFORCE FALL-BACK CLAUSE

2. PURPOSE

To consider the enforcement of the fall-back clause in the Exchange of Land Agreement of 12 May 1995 and to determine the value at which such buy back should take place if approved.

3. DELEGATED AUTHORITY

For decision by Council.

4. EXECUTIVE SUMMARY

Stellenbosch Municipality and the Dutch Reform Church: Welgelegen concluded an Exchange of Land Agreement in 1995 in terms whereof erf 13246, Stellenbosch (municipal land) was exchanged for two residential erven in Die Boord, being erven 12758 and 12759 (church land) on an equal in value basis. The Agreement, however, has a fall-back clause, indicating that the land must be transferred back to the Municipality should it no longer needed for church purposes. Seeing that the Dutch Reform Church: Welgelegen does not want to use the property for church purposes they have requested that the fall-back clause be enforced, as per the Agreement. Council must agree to the value at which the property is bought back, as per the Agreement.

The item served before Mayco in November 2019 and was referred back. We received an update on the Municipal Value for the property on which the rates are base. That information is attached as **APPENDIX 8**.

It was resubmitted in February 2020, but did not serve on the agenda. It is now resubmitted for consideration. The item served before the Mayco meeting in November 2020, but no decision was taken. It is resubmitted for consideration in January and during the discussions the issue of clause 14.2 of the agreement (**APPENDIX 1**) was raised. Clause 14. 2 indicates a special condition requiring rezoning. It was argued that clause 14.2 is a suspensive condition. The Deeds Office did not regard this as a suspensive condition and the erf was transferred to the Municipality. If it was regarded as a suspensive condition it would not have been transferred. The condition in our view requires that the erf in question must be rezoned before it can be used and build on as a church.

There was a rezoning application (see paragraph 2 of **APPENDIX 2**) which was approved. The rezoning will only vest when building is started within the prescribed 2 years from the date of the approval of the application. The rezoning lapsed as there was never a building built on the land. The special clause cannot now be used to claim that the swapping agreement is invalid especially as it was implemented.

SPECIAL COUNCIL MEETING: 2021-02-24: ITEM 8.1

RESOLVED (majority vote)

- (a) that Council invokes the buy-back clause;
- (b) that the Municipal Manager be mandated to negotiate a mutually agreed price to buy back erf 13246, Stellenbosch, from the Dutch Reform Church: Welgelegen; and
- (c) that the Municipal Manager reports back to Council on the price before a final decision is made and the sale agreement is signed.

The following Councillors requested that their votes of dissent be minuted:

Cllr G Cele (Ms); FT Bangani-Menziwe (Ms); N Mananga-Gugushe (Ms); C Moses (Ms); RS Nalumango (Ms); N Sinkinya (Ms); P Sitshoti (Ms) and LL Stander.

8.1	APPROVAL OF THE DRAFT FOURTH REVIEW OF THE FOURTH GENERATION IDP 2017 – 2022
-----	---

Collaborator No: 703774
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 24 March 2021 & 31 March 2021

1. SUBJECT: APPROVAL OF THE DRAFT FOURTH REVIEW OF THE FOURTH GENERATION IDP 2017 – 2022

2. PURPOSE

To submit the following to MayCo and Council for consideration:

- (a) The Draft Fourth Review of the Fourth Generation IDP 2017 – 2022; and
- (b) The Draft Public Participation Schedule, April 2021.

3. DELEGATED AUTHORITY

Council.

4. EXECUTIVE SUMMARY

The Integrated Development Plan is a 5-year Strategic Plan that is reviewed annually to accommodate changes in the municipal environment, including community priorities. It also informs the budget of the Municipality. The Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 details the Municipality's actions to address the needs of the community.

The Municipal IDP must be reviewed every year to ensure that:

- Municipalities and communities keep track of progress in implementing development projects and spending the municipal budget; and
- Communities are provided with an opportunity to review their needs and make possible revisions to the priorities listed in the municipal IDP.

5. RECOMMENDATIONS

- (a) that Council adopts the Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 of the Stellenbosch Municipality as tabled in terms of section 34 of the MSA for the purposes of obtaining public inputs and comments;
- (b) that an advertisement be placed on the official website of the Municipality, municipal notice boards and in the local newspapers notifying the public that the Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 is open for public inputs and comments during April 2021;
- (c) that the Draft Public Participation Schedule, April 2021, be approved; and
- (d) that the Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 be submitted to the Department of Local Government, Provincial Treasury, National Treasury and the Cape Winelands District Municipality.

6. DISCUSSION / CONTENTS**6.1. Background**

In terms of the provisions of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), each Council must, within the prescribed period after the start of its elected term, adopt a single, inclusive, strategic plan. The Fourth Generation IDP 2017 – 2022 serves as this instrument, which was adopted by the new Council on 31 May 2017 for the period 2017 – 2022.

An Integrated Process Plan and Time Schedule was approved by Council in August 2020 to guide the planning, review and adoption of the Fourth Revision of the Fourth Generation IDP 2017 – 2022.

As part of the municipality's consultative process on the Draft IDP and Budget 2021/22, the municipality will be embarking on a public participation process during April 2021. During this consultative process, members of the community and interested and affected parties will have an opportunity to submit input/s into the Draft IDP and Budget 2021/22. The schedule of public participation is attached hereto as **ANNEXURE B**.

The following processes were followed in accordance with the process plan:

DATE	ACTION(S)
August 2020	Approval of IDP/Budget/SDF Process Plan and Time Schedule.
September – November 2020	Online public participation meetings were held in all 22 wards, explaining the processes to be followed for the Fourth Review of the Fourth Generation IDP. Feedback was provided on the implementation of priorities listed by the wards. The priorities in the basic needs assessment were presented and the communities were given time for additional inputs. Ward plan update meetings were held in November 2020 with all 22 wards with the respective ward committees and Ward Councillors.
December 2020 – February 2021	Compilation of Draft IDP document in collaboration with all Directorates. Administration prepared the Draft IDP in finalising the chapters of the document. Administration prepared the Draft Budget. Administration prepared the draft Top Layer SDBIP. Provincial TIME held to support the Fourth Generation IDP.
March – April 2021	Mayco and Council to consider the draft IDP and Budget. SDF/IDP/BUDGET public meetings to be held in all 22 wards. Sector engagements to be held to determine the needs in Stellenbosch Municipal Area and exploring potential partnerships in addressing these needs. Closing date for submission on draft IDP, Budget and SDF (April 2021). Inputs received from the SDF/IDP/BUDGET meetings - collated and distributed to the Directorates for consideration.
May – June 2021	Capital Planning Forum (CPF) – to consider inputs received from SDF/IDP/BUDGET meetings. Consultation and refinement of SDF, IDP and Budget documents. Approval of Final SDF, IDP, Budget, Tariffs and Budget related policies Submit approved IDP to Provincial Government. Approval of Top Layer SDBIP by the Executive Mayor within 28 days after adoption of the IDP and Budget.

6.2. Financial Implications

The IDP and the Budget has been aligned, taking into account ward priorities and public needs identified through the public participation engagements outlined above.

6.3. Legal Implications

The recommendations in this report comply with Council's policies and all applicable legislation.

Section 34 of the MSA prescribes that the Municipal Council: –

“(a) *must review its Integrated Development Plan-*

(i) annually in accordance with an assessment of its performance measurements in terms of section 41; and

(ii) to the extent that changing circumstances so demand”.

6.4. Staff Implications

This report has no additional staff implications to the Municipality.

6.5. Previous / Relevant Council Resolutions:

The adoption by Council of the First, Second and Third Review of the Fourth Generation Integrated Development Plan 2017 - 2022.

6.6. Risk Implications

This report has no risk implications for the Municipality.

RECOMMENDATIONS FROM THE EXECUTIVE MAYOR, IN CONSULTATION WITH THE EXECUTIVE MAYORAL COMMITTEE, TO COUNCIL: 2021-03-24: ITEM 6.1

- (a) that Council adopts the Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 of the Stellenbosch Municipality as tabled in terms of section 34 of the MSA for the purposes of obtaining public inputs and comments;
- (b) that an advertisement be placed on the official website of the Municipality, municipal notice boards and in the local newspapers notifying the public that the Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 is open for public inputs and comments during April 2021;
- (c) that the Draft Public Participation Schedule, April 2021, be approved; and
- (d) that the Draft Fourth Review of the Fourth Generation IDP 2017 – 2022 be submitted to the Department of Local Government, Provincial Treasury, National Treasury and the Cape Winelands District Municipality.

ANNEXURES

Annexure A: The Draft Fourth Review of the Fourth IDP 2017 – 2022

Annexure B: Draft Public Participation Schedule, April 2021.

ANNEXURE A

FOURTH GENERATION Integrated Development Plan

As prescribed by Section 34 of the Local
Government: Municipal Systems Act, 2000
(Act No. 32 of 2000) (MSA)

IDP 2017-2022

Fourth Review

March 2021

Integrated Development Plan for 2017-2022

Compiled in terms of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)

Fourth Generation IDP 2017 – 2022 adopted by the Municipal Council in May 2017. IDP first Revision adopted in Council on 28 May 2018, second revision on 29 May 2019, the First Amendment on 28 August 2019 and the third revision in May 2020.

The Integrated Development Plan is the municipality's principal five-year strategic plan that deals with the most critical development needs of the municipal area (external focus) as well as the most critical governance needs of the organisation (internal focus).

The Integrated Development Plan –

- is adopted by the council within one year after a municipal election and remains in force for the council's elected term (a period of five years);
- is drafted and reviewed annually in consultation with the local community as well as interested organs of state and other role players;
- guides and informs all planning and development, and all decisions with regard to planning, management and development;
- forms the framework and basis for the municipality's medium term expenditure framework, annual budgets and performance management system; and
- seeks to promote integration by balancing the economic, ecological and social pillars of sustainability without compromising the institutional capacity required in the implementation, and by coordinating actions across sectors and spheres of government.

Foreword by the Executive Mayor

Cllr Adv Gesie van Deventer
Executive Mayor

It is my privilege to share with you our fourth and final review of the Fourth Generation Integrated Development Plan (IDP) for the 2021/22 financial year, as this term of the current council draws to a close. The IDP is the business plan of the Municipality. It allows us, as Municipality, to continuously plan ahead, work and deliver the services we are responsible for, over the next five years. The IDP creates the framework within which the municipality will fulfil its mandate and apply its budget. It allows us to do short, medium and long term planning for our entire municipal area, and link these plans to projects implemented by the district, provincial and national governments.

As a Municipality we have made tremendous strides in our efforts to deliver quality services to our residents over the past few years. We have, throughout our term, focussed on projects that impacted the lives of residents immediately, but also had and continuous to have a positive impact and spill over effect the entire region. It is with a profound sense of pride that I reflect on the

performance of the IDP to date with which we have achieved the majority of our planned objectives.

I want to share some of the highlights from the past years with you. We have successfully created a strong foundation over the past few years on which to build for the future. It was however not smooth sailing all the way. The COVID-19 pandemic has been a major and unforeseen obstacle and the effects and fallout of the national lockdown will be felt for years to come. The already difficult economic climate has been exasperated even more with the international fallout of the pandemic and in the past year the South African economy has shrunk with 7%. Despite the challenging national economic climate, we are determined to create a local government environment to improve and enhance economic opportunities and improved living conditions for our residents.

The needs of our community is the guiding principle for everything that we do. We have listened to them and their needs were translated into projects. This resulted in various projects geared towards service delivery improvement and the improvement of the lives of our residents. Some of the highlights for this term include:

The upgrading and launch of the Stellenbosch Waste Water Treatment works. This facility is the single biggest capital expenditure item and bulk infrastructure project in the history of Stellenbosch and will serve our communities for generations to come. This also forms part of our continuous commitment to water and sanitation services as we continue to upgrade other waste water treatment facilities, upgrade sewer systems and improve maintenance.

Economic empowerment by creating an environment for conducive for sustainable economic opportunities as well as creating infrastructure for economic opportunities. This includes a focus on land transformation and empowerment by empowering emerging farmers to start farming

on municipal agricultural land, by means of an Agricultural land policy and signing the first lease agreements; building new trading spaces across the WC024 area; allocating the Victoria Street Clinic Building as an LED HUB; and providing continuous skills training via the Mayoral Youth Skills Development Programme.

Creating housing opportunities and providing secure tenure through the projects like the Ida's Valley Housing project, the Jamestown Housing Project, the upgrade of Mandela City in Klapmuts, the Vlottenburg Project and the upgrading of Steps in Cloetesville.

Serious attention has also been given to the backyarders issue and an audit has been done to establish the extent of this challenge and plan accordingly.

We have also approved the housing pipeline and implemented the new housing demand database along with the VOIS Housing Mobile application to provide easier access to housing opportunities for residents.

The installation of additional CCTV cameras as well as number plate recognition cameras across the region, forming part of our Camera master plan has stepped up safety and security. We have also approved new policies that will allow us to establish an auxiliary law enforcement force as well as externally funded law enforcement officials to increase the number of feet on the ground.

We have successfully taken over the Pniel Electricity network and we are in the process of upgrading the network to bring more stability to it. The electrification of Enkanini is also an ongoing project.

Increasingly cooperation between Town and Gown, resulting in collaboration in innovative projects that benefit our entire community, including solving the water crisis, addressing traffic congestion and cooperation on an alternative electrical resources project.

As our communities change, their needs change and our strategies evolve. We remain committed to the continuous updating of our IDP and the accompanying budget, through extensive public participation, to make sure that the community expresses their needs and that we plan and address it accordingly. The focus of this institution will always be service delivery to its residents and we will continue to listen and be guided by their inputs and interaction with us.

CLLR ADV GESIE VAN DEVENTER
EXECUTIVE MAYOR

Overview by the Municipal Manager

Geraldine Mettler
Municipal Manager

As we table the fourth review of our five-year Integrated Development Plan, I am reminded of the great progress that has been made in our aim to strengthen the integration of service delivery across the greater municipal area. This despite several challenges over the years, the latest of which were brought on by the worldwide COVID-19 pandemic. The subsequent national lockdown and the devastating impact that this had on people's lives and livelihoods will be felt for years to come. The pandemic changed our way of life, the way in which we interact, do business and go about our daily activities. It even affected the way in which we engage with our residents. Our organisation, however, remained fully committed to ensuring that the strategic intent is responsive to what our communities need and that service delivery could continue uninterrupted throughout the lockdown period.

The inputs from our communities form the backbone of the entire IDP process and as such, new and innovative ways of communicating with our residents were needed. Residents were provided with many different ways of interacting with us on the IDP and Ward Priorities. The Stellenbosch Citizen App was launched to serve as a key channel for quick and easy inputs on the IDP. Comments could also be made through a dedicated page placed on the municipal website, through emails, phone calls or WhatsApp messages to our IDP Office. Online Public Participation meetings were held for all wards, with hybrid venues set up in key areas to ensure that those without access to a smart device and internet connection, could still participate. The IDP review provides us with a golden opportunity to revisit the progress made over the past year, re-evaluate community needs, provide feedback on progress made under the Fourth Generation IDP and recommit to our strategic objectives. It was therefore critical for us to reach as many residents as possible for this review.

The pandemic placed immense pressure on our resources, staff complement and ability to provide municipal services in an uninterrupted manner. With the start of the national lockdown in March 2020, the two immediate objectives of the municipality were to ensure that essential and emergency service delivery could continue unabated and that our municipal officials were safe and protected.

During this challenging time, our poorer communities were particularly hard hit. As a caring local government we worked quickly to provide support to our residents in need, within the legal framework of our mandate. Out of this, #StellenboschUnite was born - a collaborative aid action purposed to provide social support to vulnerable community members during the COVID-19 pandemic that brought together Stellenbosch Municipality, Stellenbosch University, Visit Stellenbosch, Stellenbosch Civil Advocacy Network and the Greater Stellenbosch Development Trust.

In addition to our partnership with Stellenbosch Unite, we implemented several bold steps to reduce the economic impact on our residents, particularly our most vulnerable residents. This included payment reprieves on property rates being offered to households, an increase in the indigent water allocation and the unblocking of electricity meters to support households as much as possible during the initial phases of the hard lockdown. We also made provision for homeless residents in the region, who were accommodated at our temporary homeless shelter where they received meals, security and sanitation services.

Our core mandate as a local government, is to ensure that services are delivered to our communities. Our residents demand and deserve service excellence and we are constantly striving to improve the lives of our residents. The hard work and determination of implementing the development plans detailed in the IDP, is paying off and I believe there are numerous legacy projects that will serve as a reminder of this for generations to come. Over the past year alone, we have reached several milestones.

A further ten underutilised agricultural land parcels are currently being investigated to be advertised and allocated to emerging local farmers. New informal trading sites have been completed in Groendal, Klappmuts, Ida's Valley and Franschhoek. In terms of the Ida's Valley Housing Project, 87 Breaking-New-Ground (BNG) houses and 113 GAP houses have been constructed. Residents have already started moving into their new homes. We are expecting a public participation process around the upgrading of the Kayamandi Town Centre to commence within the year. Environmental Management Plans (EMPs) for all our Nature Reserves and Nature Areas are being finalised and will be made available to members of the public. The upgrading of the Cloetesville public park as well as an audit of all parks and open spaces have been completed. The tender for the electrification of 1 000 houses in Enkanini has been awarded and the site has been handed over to the contractor.

One of the highlights for me during this 5 year IDP process, was the opening of the brand new Stellenbosch Waste Water Treatment Works (WWTW). This project is the single biggest capital expenditure in the history of the Stellenbosch Municipality and is expected to serve our communities for generations to come. The new facility has greatly improved our wastewater treatment capacity, making use of a membrane biological reactor (MBR) process – an advanced wastewater treatment process that uses ultrafiltration membranes for liquid solid separation instead of conventional clarifiers. The use of these new technologies has significantly improved the state of the downstream river and the quality of water available to residents. The facility was also designed to be energy efficient by tailoring the technologies used and minimise pumping through the works; making this an eco-friendlier plant that significantly saves on energy costs.

The municipality has already begun with upgrades at several other wastewater treatment facilities across our municipal area, to ensure that all our facilities are able to meet the growing demands of our communities across the broader Stellenbosch.

As a municipality we are proactively looking at solutions to the energy crisis and will embark on a scientific investigation into alternate energy sources with our research partners at the Stellenbosch University, Centre for Scientific and Industrial Research (CSIR) and the Western Cape Government. While there is still a long road ahead in the battle against load shedding, the recent decision by Council to scientifically investigate alternates and the signing of the MOUs, puts Stellenbosch in the lead to potentially become the first municipality in the country to eliminate load shedding.

The investigation will look into the need, viability and opportunities available to us by focussing on various potential sources of energy, including rooftop solar panels, methane gas conversion at our landfill sites, allowing the public to generate electricity and sell this to the municipality and the purchasing of electricity directly from registered Independent Power Producers. As South Africa's Valley of Opportunity and Innovation, we look forward to walking alongside our research partners on this journey towards greater energy independence.

We continued to grow and develop our urban centres to realise a spatial future of which we can all be proud. Stellenbosch Municipal in collaboration with the Stellenbosch University and stakeholders are in the process of planning for the first smart city in the Cape Winelands. The objective is to promote social and technological innovation, entrepreneurship and the optimisation of existing infrastructure on a scale never seen before.

Housing opportunities remains central to our developmental agenda, especially the need to accommodate backyarders. Simultaneously, it is also apparent that the need amongst our more vulnerable members is on the increase. To this end, the municipality is embarking on social housing initiatives to cater for backyarders in particular. Further to this, Stellenbosch Municipality was identified by Provincial Department of Human Settlements (PDoHS) as one of seven leader municipalities which form part of the Social Housing Programme.

What we have achieved in the municipality is as a result of our commitment to working together, good governance practices, transparency and organisational stability. The years ahead should be a significant period of growth and development for our residents, now that so much groundwork has been completed. Together with the residents and stakeholders of the Stellenbosch Municipality, we can make our towns places of excellence and opportunity for all.

Through working together, we can leave a lasting legacy for future generations.

GERALDINE METTLER
MUNICIPAL MANAGER

Chapter 1

INTRODUCTION

1.1 Integrated Development Planning

The Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) mandates South African municipalities to formulate a five-year Integrated Development Plan (IDP) plan to inform the municipal budget and guide all development within the municipal area. The IDP is considered the municipality's principal strategic plan that deals with the most critical development needs of the municipal area as well as the most critical governance needs of the organisation.

As the principal planning instrument that guides and informs the municipal budget, the planning process has to provide a forum for identifying, unpacking and resolving the real issues that face the residents of Stellenbosch Municipality. Clearly identifying these issues in consultation with communities, makes it possible for the municipality to propose realistic and workable solutions that can be budgeted for, implemented and monitored in a controlled environment. These issues may be over-arching issues that affect the whole municipality or may only affect specific communities. It is therefore crucially important that the IDP be developed after the completion of a public participation process in which community stakeholders were thoroughly consulted. The plan is also developed in partnership with the provincial and national government.

At the heart of the IDP lies the improvement in the provision of basic municipal services and expanding livelihood opportunities for the people of the Stellenbosch Municipality. The IDP also focusses on expanding and transforming Municipal capacity, enterprise development and crucially, exploring new ways of working and living together. This is especially relevant in an ever changing environment.

1.2 Review of the Integrated Development Plan

Section 34 of the MSA prescribes that a municipality –

- a) must review its integrated development plan-
 - (i) annually in accordance with an assessment of its performance measurements in terms of section 41; and
 - (ii) to the extent that changing circumstances so demand;
- b) may amend its IDP in accordance with a prescribed process.

The review process serves as an institutional learning process where stakeholders can meet to discuss the successes and frustrations of the previous year. It is not designed to interfere with the long-term strategic objectives of the municipality. The review process is a strategic process to ensure the institution remains in touch with their intentions, informed of the varying needs of residents and up to date with the changing environment within which it functions.

The Stellenbosch Municipality, in collaboration with all relevant stakeholders and following the completion of the IDP focused engagements during the past financial year, must now review its IDP.

This is the fourth IDP revision to occur since the adoption of the Fourth Generation IDP.

Importantly, this review does not seek to replace or rewrite the IDP that was adopted by Council on **31 May of 2017**. The purpose of this review, as instructed by the MSA, is to examine the progresses made and assess the municipality's strategic objectives and targets as set out in the IDP.

The priorities and actions identified in this review of the IDP will seek to better inform the municipality's budget and streamline service delivery initiatives. This will ensure that the Stellenbosch Municipality remains on course to attain its strategic objectives.

The IDP review outlines the following chapter:

- Introduction;
- Governance and Institutional Arrangements;
- State of the Greater Stellenbosch;
- The Strategic Policy Context;
- Public Expression of Needs (Community Participation);
- Legacy Projects and Service Delivery and Implementation Plans;
- Financial Plan;
- Implementation, Monitoring and Review (5 Years); and
- Implementation, Monitoring and Review (one year).

1.3 Legal Status of the IDP and IDP review

In terms of Section 35(1) of the MSA an IDP is adopted by the council of a municipality-

- (a) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development, in the municipality;
- (b) binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's integrated development plan and national or provincial legislation, in which case such legislation prevails; and
- (c) binds all other persons to the extent that those parts of the integrated development plan that impose duties or affect the rights of those persons have been passed as a by-law.

In terms of the core components of IDPs, Chapter 5 and Section 26 of the MSA indicate that:

An integrated development plan must reflect-

- (a) The municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
- (b) An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- (c) The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;
- (d) The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- (e) A spatial development framework which must include the provision of basic guidelines for a land-use management system for the municipality;
- (f) The council's operational strategies;
- (g) Applicable disaster management plans;
- (h) A financial plan, which must include a budget projection for at least the next three years; and
- (i) The key performance indicators and performance targets determined in terms of section 41.

The IDP is informed by a leadership agenda – as contained in national and provincial policy

documents – as well as the needs of local citizens and public, private and community organisations. It directs and is informed by different aspects of the municipality's work, including how the municipality is structured politically and administratively, the municipal budget, the sector plans and service delivery and budget implementation plans of different municipal services, and how the municipality manages its performance.

1.4 Relationship between the IDP, Budget, Performance Management and Risk Management

The IDP Process, together with the performance management process, should be seamlessly integrated, where the IDP ensures that the planning stage for performance management occurs and performance management fulfils the implementation, monitoring and evaluation of the IDP process. This is prescribed according to the Performance Management Guide for Municipalities, DPLG, 2001.

The role of the Budget is to attach money to the objectives that are contained in the IDP and the Budget gets monitored through the Service Delivery Budget Implementation Plan (SDBIP). The IDP therefore provides the strategic direction for the municipality, whereas the Budget should ensure the implementation of the IDP.

Risk Management is one of management's core responsibilities according to section 62 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) and is an integral part of the internal processes of a municipality. It is a systematic process to identify, evaluate and address risks on a continuous basis before such risks can impact negatively on the service delivery capacity of the Stellenbosch Municipality. Risk management provides reasonable assurance that the institution will be successful in achieving its goals and objectives.

1.5 The IDP and Ward Plans

The twenty-two (22) ward plans, include:

-  The profile of the ward, as well as the strengths, weaknesses, opportunities and threats facing the community;
-  A consensus on priorities for the relevant ward(s);
-  An implementation plan; and
-  The capital budget available for the relevant wards, including the small capital budget.

Ward plans help to ensure that the IDP is more targeted and relevant to addressing the priorities of all groups, including the most vulnerable. These plans provide Ward Committees with a systematic planning and implementation tool to perform their roles and responsibilities. They form the basis for dialogue between the municipality and Ward Committees regarding the identification of priorities and budget requests and will also be used by Ward Committees for ongoing monitoring and evaluation throughout the year. The information is however on a detail level and not duplicated in the IDP, but a detailed Ward Plan is available on request.

1.6 The IDP Planning Process (five-year cycle)

According to the MSA, every new council that comes into office after the local government elections has to prepare its own IDP that will guide them for the five years that they are in office. The IDP is therefore linked to the five-year term of office of Councillors. This does, however, not restrict all proposals in the IDP to five years. The strategic goals that are part of the municipality's strategy all have a longer than five-year horizon, similar to the Spatial Development Framework (SDF) of the

municipality.

A clear distinction must also be made between the main IDP which is compiled every five years (or if a new council comes into power within the five-year period and does not accept the previous council's IDP) and the annual review of the IDP. The annual review is not a replacement of the five year IDP and its purpose is not to interfere with the long-term strategic orientation of the Municipality. The annual review reflects and reports on progress made with respect to the five-year strategy (and strategic goals) and proposes adjustments to the strategy if necessary because of changing internal and external circumstances that impact on the appropriateness of the IDP.

(The figure on the right reflects the five-year process of the IDP.)

Figure 1: 5 Year Corporate Strategy

1.7 Roles and Responsibilities

1.7.1 Executive Mayor

In terms of the MSA and the MFMA, the Executive Mayor must:

- ↓ Manage the drafting of the IDP;
- ↓ Assign responsibilities in this regard to the Municipal Manager;
- ↓ Submit the draft plan to the municipal council for adoption; and
- ↓ Co-ordinate the annual revision of the IDP and determine how the IDP is to be taken into account or revised for the purposes of the Budget.

1.7.2 The Municipal Council

The Council is the ultimate decision-making authority. Decisions to approve or amend the municipality's IDP may not be delegated and have to be taken by the full Council.

1.7.3 Proportional Councillors, Ward Councillors and Ward Committee Members (Ward Committees)

- ↓ Assist with public participation process;
- ↓ Assist the ward councillor (who is the chairperson) in identifying challenges and needs of residents;
- ↓ Provide a mechanism for discussion and negotiation between different stakeholders in the ward;
- ↓ Interact with other forums and organisations on matters affecting the ward;
- ↓ Draw up a ward plan that offers suggestions on how to improve service delivery in the particular ward;
- ↓ Disseminate information in the ward; and
- ↓ Monitor the implementation process concerning its area.

1.7.4 Municipal Manager and Management Team

- Provide technical / sector expertise and information;
- Provide inputs related to the various planning steps;
- Summarise / digest / process inputs from the participation process;
- Discuss/comment on inputs from specialists; and
- Address inputs from and give feedback to the community.

1.8 First Year Process Followed

The table below, reflects the preparation for the 2018/19 financial year to complete the first review of the Fourth Generation IDP 2017 - 2022.

Table 1: Preparation for the First Review of the Fourth Generation IDP

Date	Action(s)
July / August 2017	<ul style="list-style-type: none"> • Approval of IDP / Budget / SDF Process Plan and Time Schedule. • Provincial Government hosted a District Alignment Workshop on the Joint Planning Initiative (JPIs).
September – November 2017	<ul style="list-style-type: none"> • Community engagement meetings were held in all 22 wards, explaining the processes to be followed for the next five years and the time schedule for the 2018/19 financial year for the first review of the Fourth Generation IDP. Feedback was provided on the implementation of priorities listed by the wards. The priorities in the basic needs assessment were presented and the communities were given time for additional inputs. • Provincial IDP Manager's Forum hosted by Department Local Government. • Sector engagement was held to determine the basic needs and collectively devise plans to address the needs.
December 2017 – February 2018	<ul style="list-style-type: none"> • Compilation of Draft IDP document in collaboration with all Directorates. • Administration prepared the Draft IDP in finalising the chapters of the document. • Administration prepared the Draft Budget. • Administration prepared the draft high-level SDBIP. • Ward plan update meetings were held in all 22 wards with the respective Ward Committees and Ward Councillors. • Provincial LGMTEC held to agree on Joint Planning Initiatives to support the Fourth Generation IDP. • Various thematic sector engagements held to determine the needs in WC024 and exploring potential partnerships in addressing the needs.
March – April 2018	<ul style="list-style-type: none"> • MayCo and Council considered the draft IDP and Budget. • IDP / Budget / SDF public meetings held in 22 wards within WCO24 (Cluster meetings). • Closing date for submission on draft IDP, Budget and SDF (30 April 2017). • Inputs received from the IDP / Budget / SDF meetings - collated and distributed to the Directorates for inputs.
May – June 2018	<ul style="list-style-type: none"> • Budget Steering Committee – to consider inputs received from IDP/Budget/SDF meetings. • Consultation and refinement of IDP and Budget documents. • Approval of Final IDP, Budget, SDF; Tariffs and Budget related policies. • Submit approved IDP to Provincial Government. • Approval of SDBIP by the Executive Mayor within 28 days after adoption of the IDP and Budget.

1.9 Second Year Process Followed

The table below reflects preparation for the 2019/20 financial year to complete the second review of the Fourth Generation IDP 2017 - 2022.

Table 2: Preparation for the Second Review of the Fourth Generation IDP

CHAPTER 2

GOVERNANCE AND INSTITUTIONAL ARRANGEMENTS

2.1 Roles and Responsibilities

Section 53 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) stipulates inter alia that the respective roles and areas of responsibility of each political structure and political office bearer of the municipality and of the Municipal Manager must be defined.

2.2 Municipal Council

The Council performs both legislative and executive functions. It focuses on legislative, oversight and participatory roles, and has delegated its executive function to the Executive Mayor and the Mayoral Committee. Its primary role is to debate issues publicly as well as facilitating political debate and discussions. Apart from their functions as policy makers, Councillors are also actively involved with community work and in the various social programmes in the municipal area.

Stellenbosch Municipality is represented by 43 councillors (of which one is currently vacant), of whom 22 were elected directly as ward councillors. The rest of the councillors were elected on the basis of the proportion of votes cast for the different political parties. The political composition of the Council is as follows:

Table 5: Council Political Representation

Political Party	Number of Councillors
DA (Democratic Alliance)	30
ANC (African National Congress)	8
EFF (Economic Freedom Fighters)	2
PDM (People's Democratic Movement)	1
ACDP (African Christian Democratic Party)	1
DNCA (Democratic New Civic Association)	1
Total	43

Below is a table that categorises the Councillors within their respective political parties and wards.

Table 6: Ward Councillors and Proportional Representative Councillors

No.	Name of Councillor	Capacity	Political Party	Ward Councillor and Proportional (PR)
1.	F Adams	Part-time	DNCA	PR
2.	R Badenhorst	Part-time	DA	Ward Councillor: Ward 21
3.	FT Bangani-Menziwa (Ms)	Part-time	ANC	Ward Councillor: Ward 13
4.	PW Biscombe	Chief Whip	DA	Ward Councillor: Ward 17

35.	S Schäfer	Part-time	DA	PR
36.	JP Serdyn (Ms)	Part-time	DA	Ward Councillor: Ward 11
37.	N Sinkinya (Ms)	Part-time	ANC	Ward Councillor: Ward 15
38.	P Sitshoti (Ms)	Part-time	ANC	Ward Councillor: Ward 14
39.	Q Smit	MayCo member	DA	Ward Councillor: Ward 8
40.	L Stander	Part-time	ANC	PR
41.	G Van Deventer (Adv)	Executive Mayor	DA	PR
42.	RB Van Rooyen	Part-time	DA	PR
43.	E Vermeulen (Ms)	Part-time	DA	Ward Councillor: Ward 16

2.3 Executive Mayor and Mayoral Committee (MayCo)

The Executive Mayor of the municipality, Cllr Adv Gesie van Deventer, assisted by the Mayoral Committee, heads the political executive arm of the municipality. The Executive Mayor is at the centre of the system of governance, since executive powers are vested in the executive mayor to oversee the day-to-day affairs. This encompasses an overarching strategic and political responsibility. The key element of the executive model is that executive power is vested in the Executive Mayor, in addition delegated powers by the Council were assigned. Although accountable for the strategic direction and performance of the municipality, the Executive Mayor operates in consultation with the Mayoral Committee.

Table 7: Executive Mayor and Mayoral Committee (MayCo)

Name of member	Portfolio
Alderman G van Deventer	Executive Mayor
Cllr N Jindela	Deputy Executive Mayor, including Human Settlements
Cllr P Crawley	MayCo member: Financial Services
Cllr Q Smit	MayCo member: Infrastructure Services
Cllr R Badenhorst	MayCo member: Community and Protection Services
Cllr A Frazenburg	MayCo member: Corporate Services
Cllr J Fasser	MayCo member: Youth, Sport and Culture
Cllr S Peters	MayCo member: Rural Management and Tourism
Cllr E Groenewald	MayCo member: Planning and Economic Development
Cllr X Mdemka	MayCo member: Parks, Open Spaces and Environment

Figure 2: Executive Mayoral Committee

2.4 The Administration

The Municipal Manager is the Chief Accounting Officer of the municipality. The Municipal Manager is the head of the administration, and primarily has to serve as chief custodian of service delivery and implementation of political priorities. The Municipal Manager is assisted by the Management Team that reports directly to the Municipal Manager.

Figure 3: Municipal Management Team

The structure of the Management Team is outlined in the table below:

Table 8: The Administration¹

Directorate / Business Centre	Responsibilities	Name	Designation
Office of the Municipal Manager	Strategic Management; Internal Audit; Corporate Governance; Risk Management; Intergovernmental Relations; International Relations; Integrated Development Planning; Strategic Management; Organisational Performance Management; Communications; and Knowledge Management.	Geraldine Mettler	Municipal Manager
Financial Services	Revenue Management; Expenditure Management; Budget Preparation and Management; Management of Financial Statements; Supply Chain Management; Financial Systems; and Asset Management.	Kevin Carolus	Chief Financial Officer
Corporate Services	Administrative Services; Legal and Compliance; Human Resources Management; Individual Performance Management; Information and Communication Technology; Councillor's Support; Committee Services; Municipal Court; and Properties Management and Municipal Building Maintenance.	Annalene de Beer	Director: Corporate Services
Infrastructure Services	Roads, Transport and Storm Water; Water and Waste Water Services; Electrical Services; Waste Management; and Infrastructure Planning, Development and Implementation.	Deon Louw	Director: Infrastructure Services
Planning and Economic Development	Development Management; Development Planning; Integrated Human Settlements; Building Management; Heritage Resource Management; Spatial Planning and Land Use Management; Local Economic Development and Tourism, Housing Development; Informal Settlements; and Housing Administration.	Anthony Barnes	Director: Planning and Economic Development
Community and Protection Services	Community Development; Protection Services; Disaster Management and Fire Services, Traffic and Law Enforcement Services; Library Services; Parks and Cemeteries; Recreation, Sport and Halls; and Environmental Management.	Gary Boshoff	Director: Community and Protection Services

¹ A revised organisational structure has been approved in Council on 27 February 2019.

The revised Micro-Organisational Structure was approved on 27 February 2019. The municipality is currently in the final stages of the Placement Process which include:

-  Office of the Municipal Manager;
-  Financial Services;
-  Corporate Services;
-  Infrastructure Services;
-  Planning and Economic Development; and
-  Community and Protection Services.

The Human Settlements and Property Management Directorate has been split, with Human Settlements being absorbed into Planning and Economic Development and Property Management into Corporate Services.

2.5 Corporate Governance

Corporate Governance is the set of processes, practices, policies, laws and stakeholders affecting the way an institution is directed, administered and controlled. Corporate governance also encompasses the relationships among the many stakeholders involved and the goals for which the institution is governed.

2.6 Risk Management

Section 62 of the MFMA, states that the Accounting Officer should take all reasonable steps to ensure that the municipality has and maintains effective, efficient and transparent systems of financial and **risk management** and internal control, as well as the effective, efficient and economical use of the resources of the municipality.

The top 5 strategic risk identified include:

1. Increased risk of land invasions;
2. Availability and cost of electricity;
3. Corona-19 Pandemic;
4. Scarcity of landfill space; and
5. Increase community unrest due to the fact that growth in demand for housing exceeds the resources available for development.

The Municipal risks have been aligned to the Integrated Development Plan (IDP) through linkages to the Strategic Focus Areas. The following table depicts these linkages:

Table 9: Risk and IDP Alignment

Revised Strategic Risks						
Risk Item	Risk Description	Risk Background	Strategic Focus Areas	Impact Rating	Likelihood Ratings	Directorate
SR 1	Increased risk of Land Invasions	Political environment leading up to the election. Legal precedents set under disaster management declaration limiting municipal scope to evict. Illegal invasions and landgrabs. Compromising housing development and housing opportunities.	Dignified Living, Safe Valley, Financial Sustainability, Good Governance and Compliance	5	5	Municipal Manager and directors
SR 2	Availability and Cost of Electricity	Continuous and persistent load shedding; sustainability of the national power supplier.	Green and Sustainable Valley, Dignified Living	5	5	Infrastructure Services
SR 3	Corona-19 Pandemic.	Manage the Corona-19 pandemic within the context of the prescribed regulations, taking the second wave and intensity of new infections into account.	Safe Valley, Dignified Living	5	4	Geraldine Mettler and all directors
SR 4	Scarcity of landfill space.	Unavailability of suitable land.	Green and Sustainable Valley	5	5	Infrastructure Services
		Costs of SLA's and alternative waste disposal.				
		Legislative requirements i.e. EIA applications and approvals etc.				
SR 5	Increase community unrest due to the fact that growth in demand for housing exceeds the resources available for development.	Lack of bulk infrastructure; lack of identified and suitable land, unrealistic eviction judgements, housing backlogs, migration.	Dignified Living, Safe Valley	4	5	Geraldine Mettler, Community and Protection Services; Planning and Economic Development
SR 6	Financial Sustainability.	Debt management; cash flow; changing patterns in revenue (more of the grid connections to water and electricity).	Good governance and Compliance, Green and Sustainable Valley	5	4	Financial Services
		Increase in criminal activities.				
SR 7	Economic downturn due to perceived civil unrest and crime.	Civil unrest.	Safe Valley, dignified Living	5	4	Community and Protection Services
		Reputational risk due to perceived increase in the said activities.				
		Lack of bulk infrastructure.				
		Housing backlogs.				
SR 8	Loss of credibility and reputation	Abuse of legislation.	Good Governance	4	4	All Directorates
		Reputational risk and credibility.				

Revised Strategic Risks						
Risk Item	Risk Description	Risk Background	Strategic Focus Areas	Impact Rating	Likelihood Ratings	Directorate
	due to perceived fraud and corruption.	Incorrect media statements and role of social media in incorrect negative reports etc.	and Compliance			
SR 9	Material Misstatements in the AFS that constitutes non-compliance with Section 122 of the MFMA.	System errors.	Good Governance and Compliance	4	3	Financial Services
		Transactions and events not recognised as they occur and accordingly nor recorded in the financial period it occurred.				
SR 10	Cyber-attacks.	Cyber-attacks and cyber safety / security has become essential in municipalities.	Good Governance and Compliance	3	3	Corporate Services
		Investigate security gaps.				
SR 11	Urbanisation and growth.	Comprehensive understanding of the developmental needs in the greater Stellenbosch area housing pipeline.	Valley of Possibility	3	3	Infrastructure Services
		Rapid and continued urbanisation.				
		Changes in the needs of the community; master plans; housing pipeline..				
		IDP and SDF alignment.				
Revised Operational Risks						
OR 1	Insufficient burial space in the greater Stellenbosch	Planning and Funding. Land availability.	Dignified Living	4	4	Community and Protection Services
OR 2	Business Continuity	Disasters, Electricity outages, hacking of systems.	Good Governance and Compliance	4	2	Corporate Services
OR 3	Climate Change	Changing weather patterns Unpredictable rainfall / flash floods. Natural disasters – fires (seasonal and other).	Green and Sustainable Valley; Safe Valley	4	2	Office of the Municipal Manager
OR 4	Timeous Capital Spending	Steady increase in budget allocation. Growing population and demand for services. Demand Management.	Good Governance and Compliance	5	2	Financial Services
OR 5	Water Security	Limited sustainable water sources. Growing population with increase in demand. Pollution of sources.	Dignified Living; Valley of possibility; Green and Sustainable Valley	3	2	Infrastructure Services
OR 6	High Vacancy Rate	A skilled and capable workforce is necessary to support growth objectives, quality and timeous service delivery needs to be provided	Good Governance and Compliance	4	2	Corporate Services

Revised Strategic Risks						
Risk Item	Risk Description	Risk Background	Strategic Focus Areas	Impact Rating	Likelihood Ratings	Directorate
		by all departments.				
OR 7	Lack of integrated Information and Communication Technology	Disparate systems.	Good Governance and Compliance	3	2	All Directorates
OR 8	Losing the historic status of Stellenbosch w.r.t environment (trees, biodiversity, buildings, rivers, etc.)	Keeping the balance - development and the historic status. Occurrence of natural disasters.	Dignified Living; Valley of Possibility; Green and Sustainable Valley	3	2	All Directorates

2.7 Anti-Corruption and Anti-fraud

Section 83(c) of the MSA refers to the implementation of effective bidding structures to minimise the possibility of fraud and corruption. Section 115(1) of the MFMA states that the accounting officer must take reasonable steps to ensure that mechanisms and separation of duties in a supply chain management system are in place to minimise the likelihood of corruption and fraud.

Section 62 (1) of the MFMA, states the following “the accounting officer of a municipality is responsible for managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure: –

- (a) That the resources of the municipality are used affectively, efficiently and economically;
- (b) That the full and proper records of the financial affairs are kept in accordance with any prescribed norms and standards;
- (c) That the municipality has and maintains effective, efficient and transparent systems –
 - (i) Of financial and risk management and internal control;
 - (ii) Of internal audit operating in accordance with any prescribed norms and standards;
- (d) That unauthorised, irregular or fruitless and wasteful expenditure and other losses are prevented; and
- (e) That disciplinary or, when appropriate, criminal proceedings are instituted against any official of the municipality who has allegedly committed an act of financial or an offence in terms of Chapter 15.”

2.8 Audit and Performance Audit Committee (APAC)

The Municipal Audit and Performance Audit Committee (APAC) (refer to Table below for members of the Audit Committee), appointed in terms of Section 166 of the MFMA, has also been appointed as the Performance Audit Committee. Section 166(2) of the MFMA states that an audit committee is an independent advisory body that must:

- (a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to: –

-  internal financial control and internal audit;
-  risk management;
-  accounting policies;
-  the adequacy, reliability and accuracy of financial reporting information;
-  performance management;

-  effective governance;
-  compliance with this Act, the annual Division of Revenue Act, 2013 (Act No. 2 of 2013) and any other applicable legislation; and
-  performance evaluation; and any other issues referred to it by the municipality.

Table 10: Members of the Audit Committee

Name of representative	Capacity
Dr NL. Mortimer (Mr)	Chairperson
J. Williams (Ms)	Member
V. Botto (Mr)	Member
T. Lesihla (Mr)	Member

2.9 Ward Committees

Stellenbosch Municipality has a Ward Committee system in place, which plays a crucial role in achieving the aims of local governance and democracy, as mentioned in the Constitution of 1996. A Ward Committee is independent from council and not politically aligned. The figure below depicts the main duties of the Ward Committees.

Figure 4: Main duties of the Ward Committees

2.10 Partnerships

In order to ensure effective service delivery, it is essential that high levels of cooperation exist between all three spheres of government. Effective inter-governmental relations (IGR) structures are especially important to the developmental role of municipalities. This role can only be fulfilled through the active involvement of all spheres of government in the setting of priorities, resource allocation and development planning.

Figure 5: Partnering

The demonstration of the importance of partnerships for the municipality is illustrated in the table below.

Table 11: Key Partnerships

Name of Partner / Partnership	Purpose
@ Heart	The @heart partnership is a long standing relationship built on past experience with youth work and HCT testing from a municipal facility.
Arte Velden Hoge School in Gent	A partnership for the placement of practical students from Belgium (third year Social Work students). This only applies when they have students who indicate a willingness to come to Stellenbosch for practical training.
Barrier Improvement Programme	A partnership was formed to improve the quality of the storm water runoff from the Langrug Informal Settlement. The project entails the implementation of biomimicry, waste recycling and a Sustainable Urban Drainage lab.
City of Cape Town and Drakenstein Municipality	Partnership through the Greater Cape Metro Regional Spatial Implementation Framework has been initiated in order to improve coordination around the development of the Klapmuts area.
Community Organisation Resource Centre	Partnerships Towards Informal Settlements Upgrading: CORC/ISN - Stellenbosch Municipal Partnership Objectives: <ul style="list-style-type: none"> • build an urban poor platform through a network of informal settlements and informal backyards; • invest in the social institutions of the poor in order to partake in development; and • Share knowledge among stakeholders around informal settlement upgrading strategies.
Community structures (Forums, ECD centres, religious fraternities, etc.)	Aim to promote and implement: <ul style="list-style-type: none"> • platforms to share knowledge; • disaster risk reduction initiatives; • community safety programmes; and • campaigns to promote safe resilient sustainable communities.
CSIR (Council of Scientific and Industrial Research)	A partnership aimed at multidisciplinary research and development by supporting innovation in Stellenbosch.
Department of Education	Aims to promote a culture of prevention, preparedness and resilience at all levels through knowledge, innovation and education.
Department Social Development, DCAS, Cape Winelands District Municipality	Joint implementation of programmes focusing on common issues within WC024.
Dilbeek Twin City Agreement	Dilbeek is a partnership with the Dilbeek Congregation in Belgium focussed on community and youth development. The partnership has recently changed their focus to include LED.
Disaster Management Advisory Forum	An advisory forum on all safety issues as well as remedial measures implemented to address and alleviate and/or minimise risks.
Executive Mayor/ Rector Forum	A partnership with the University of Stellenbosch to ensure aligned development planning and that the municipality draws from the University's expertise and resources.
Fire fighter and Fire Officer Training assistance	To aid in the professional development of fire and emergency responders. Partnership between Stellenbosch Municipality and Provincial Government Western Cape (PGWC).
Fire Services Mutual aid agreement	To ensure that incidents are responded to in a coordinated manner, using existing infrastructure to its optimum effectiveness. Mutual agreement between Stellenbosch Municipality and Cape Winelands District Municipality.
Genius of Space	This initiative developed from, and forms part of the Western Cape 110% Green Initiative. The Biomimicry Genius of Space project is a registered flagship project of 110% Green. This initiative combines two priorities of the Western Cape Government – the Berg River and the Green Economy – to find an innovative solution to water pollution in the Berg River.
Green Cape	The Green Cape partnership represents cooperation with the Province's 110% green initiatives, focusing on alternative waste management initiatives and energy efficiency.

Name of Partner / Partnership	Purpose
HeartFlow	Helping people on fringes of society. Provide paper coupons which can be exchanged a stay at the night-shelter, a blanket or a meal. The programme was extended to include an electronic app through which said coupons can be bought to benefit people living on the street.
ICLEI (International Council for Local Environmental Initiatives)	A partnership between the City of Cape Town, ECLEI and Stellenbosch Municipality to discuss developments in Transport, Waste and Electricity Generation, towards ensuring sustainability.
IMESA (Institute for Municipal Engineers South Africa)	A partnership with IMESA aimed at strengthening knowledge and capacity related to municipal infrastructure and service delivery.
Infrastructure Innovation Committee (IIC)	A partnership with the University and other stakeholders aimed at exploring sustainable and innovative infrastructure provision to meet the needs of the municipality and achieve future sustainability.
Integrated Development Committee (IDC)	A partnership with the University and other stakeholders aimed at exploring spatial and urban planning possibilities for Stellenbosch to meet the needs of the municipality and University.
IPC (Integrated Planning Committee)	The Integrated Planning Committee is a working group between the City of Cape Town, Stellenbosch, Saldanha Bay, Overstrand, Theewaterskloof, and Drakenstein Municipality that discuss all transport related matters to effectively promote regional planning.
Landfill Monitoring Committee	A partnership with the Devon Valley residents, whereby residents monitor the Stellenbosch landfill site.
LTAB (Land Transport Advisory Board)	A partnership was formed between political leaders to discuss Land Transport related matters that affect transport in the area.
Memorandum of Cooperation between the Stellenbosch Municipality and Stellenbosch University (SU)	Cooperation in terms of closed circuit television in the interest of the security of the town and the campus with a view to a crime-free university town.
NMT (Non-motorised Transport) Working Group	A working group that discusses all Non-Motorised Transport matters in the Stellenbosch area. The group consists of NMT users, officials, representatives from the University and the disabled fraternity.
Provincial Disaster Management Centre, Cape Winelands District Municipal Disaster Management Centre	Aims to promote the development, implementation and maintenance of effective services within its area of jurisdiction.
Provincial Waste Management Officer's Forum	Quarterly Meetings (All designated Waste Management Officers of Western Cape engage with Provincial Government's Waste Management Department (D:EA&DP on issues relating to policy, best practice, etc.)
Ranyaka	Sustainable and integrated solutions to the challenges facing towns, neighbourhoods and communities. Activate communities to self-help. Community based data collection, analysis, planning and stakeholder mapping. Project pipeline development for coordination of public, private and NGO partners to achieve collective, sustainable impact. Identify community priorities. Measure improvement of communities against the Ranyaka Protocol.
Roads Safety Management	Assisting with schools and education, special projects, e.g. Learners license classes.
Safety Forum	An advisory forum to the Executive Mayor on all safety issues as well as remedial measures implemented to address and alleviate threats.
SALGA Municipal Benchmarking Committee	A partnership aimed at improving efficiency and effectiveness through comparative process benchmarking, peer-to-peer operational knowledge sharing, and interactive performance improvements.
SCORE	Youth Sport Development at the Indoor Sport Centre, Franschhoek.
Stellenbosch Alternate Energy Research	A joint working relationship is being launched amongst University of Stellenbosch, Council for Scientific and Industrial Research, Western Cape Government and the municipality to investigate the generation of alternate electricity in order to combat load shedding from Eskom.

Name of Partner / Partnership	Purpose
Stellenbosch 360 Advisory Committee	A partnership with the umbrella tourism body for the Greater Stellenbosch area aimed at growing and sustaining the municipality's tourism industry and broadening tourism-related benefits.
Social Housing Regulatory Authority (SHRA)	An informal working partnership on the promoting and implementing Social Housing within the Stellenbosch Municipal area.
Stellenbosch Gotland Municipality Partnership	A partnership with Gotland municipality focusing on programmes in local economic development.
Stellenbosch Heritage Foundation	The initiative is aimed at providing support to the municipality on the interactive website of the Heritage Foundation and to assist with the compilation of the heritage inventory.
Stellenbosch Infrastructure Task Team (SITT)	A partnership with the University of Stellenbosch and other stakeholders aimed at exploring sustainable infrastructure provision to meet the needs of the municipality.
Stellenbosch Night Shelter	A partnership to enable appropriate management of the municipal night shelter.
Stellenbosch River Collaborative Steering Committee	A partnership was formed between various role-players to improve the water quality in the Eerste River catchment, with the focus being on the Plankenbrug river.
Mobility Forum and NMT Working Group	A Mobility Forum and NMT Working Group was established to discuss transport related matters that affects the Stellenbosch, including all relevant governmental institutions and other role-players.
University of Stellenbosch – Student Representative Council	A partnership with the University, whereby students provide: <ul style="list-style-type: none"> • relief aid (clothing, food); • placement of students to assist during incidents / disasters; and • awareness programmes.
University of Stellenbosch – Department of Geography and Environmental Studies	A partnership with the University and other stakeholders focusing on strengthening community-based risk assessment capabilities in disaster prone areas.
University of Stellenbosch – Maties Sport: Community Interaction	A partnership striving for excellence in meeting the needs of the youth through innovative and sustainable programmes to disseminate information on risk avoidance, hazards and their effects and preventative activities.
Western Cape Planning Heads Forum	A partnership with all local municipalities within the Western Cape and the Western Cape Government Department of Environmental Affairs and Development Planning aimed at the sharing of best practice and improving coordination on matters related to the Spatial Planning and Land Use Management sector.
Western Cape Government Department of Environmental Affairs and Development Planning.	A partnership around the implementation of the Adam Tas Corridor Catalytic initiative.
Western Cape Government Department of Environmental Affairs and Development Planning.	A Partnership around the development of an Inclusionary Housing Policy Framework for Stellenbosch Municipality.
Western Cape Government Department of Environmental Affairs and Development Planning.	A Partnership through the Greater Cape Metro Regional Spatial Implementation Framework has been initiated in order to improve coordination around the development of the Klapmuts area.
Western Cape Department of Public Works , Roads and Transport	As part of the Provincial Sustainable Transport Programme (PSTP) the Western Cape Department of Public Works, Roads and Transport identified Stellenbosch as a priority municipality for the development of a sustainable transport system. The emphasis will be the development of a public transport system and the development of infrastructure to improve non-motorised transport.
Western Cape Recycling Action Group Forum	Quarterly Meetings (Meetings involving private sector, industries and government in terms of waste minimisation initiatives).
WOF (Working on Fire)	A partnership aimed at promoting capacity building through various programmes which helps to develop social cohesion.

CHAPTER 3

STATE OF THE GREATER STELLENBOSCH AREA

3.1 Socio-Economic Perspective

3.1.1 Population Growth

Stellenbosch Municipality is located at the edge of the City of Cape Town still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town's central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa's top (air) links to the global economy, and not much further away from Cape Town harbour, the shipping portal to both the Atlantic and the Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it is able to sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality's area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as a number of rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniel, Johannesdal, Languedoc, Groot Drakenstein, Muldersvlei, Klapmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vloffenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes a number of informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect its heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and a number of prestigious schools. It has a strong business sector, varying from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars abound and the area is the home of the very first Wine Route in South Africa. A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over many generations. The Municipal area has a number of theatres, which include the Stellenbosch University's HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorp Street at Theatre and Aan de Braak Theatre.

3.2 Wards

The Stellenbosch Municipality is currently structured into the following **22** Wards:

Table 12: Municipal ward population

Ward	Areas	Population (2011)
1	Franschhoek Town, Bo-Hoek Farms, Mooiwater	12 389
2	Langrug, La Motte, Dennegeur, Groendal	7 519
3	Wemmershoek, Lanquedoc, Meerlust	8 952
4	Pniel, Kylemore, Johannesdal	8 230
5	The Ridge, Lindida, Ida's Valley (The Hydro in the direction of Ida's Valley and Omega Street to Jonkershoek)	5 656
6	Ida's Valley and farms (Nietvoorbij, Timberlea, Morgenhof, Remhoogte, Muratie, Groenhof, Delheim, Lievland, Kanonkop, Uitkyk, Glenelly, Emerie, Laundry, Packham, L'Avenir)	5 856
7	Mostertsdraif, Kolonieshof, Karindal, Rozendal, Uniepark, Simonswyk, Universiteitsoord, De Weides	3 873
8	Stellenbosch Central and university areas	5 682
9	Boundaries of the Eerste River, Krige, Herte, Skone Uitsig, Bird, Merriman, Bosman, Victoria, Neethling, Van Riebeeck, Drostyd and Helderberg Street	822
10	Tenantville, Lappan street to Lackay street, La Colline-Faure, Dr Malan street to Irene Park, Conde Street, Mount Albert, Taylor, Voorplein to Kromriver, Municipal Flats (Lavanda, Aurora, Phyllaria, Molteno Avenue) to Paul Kruger Street and Banghoek Avenue	5 270
11	Dorp Street to Herte Street, Mark Street, Alexander Street, bottom of Bird Street to the Stellenbosch Train Station, all areas in Onder Papegaaiberg and businesses	6 545
12	Kayamandi: Enkanini, Snake Valley, Watergang, Thubelitsha, New Watergang (106), Zone O (next to Enkanini), Chris Hani Drive, Municipal Flats(10TH and 13TH Street), School Crescent, Ekuphumleni, Siyahlala, Zone A and George Blake	8 009
13	Kayamandi: Old Location from Lamla Street to Luyolo Street, Red Bricks and Old Hostels	2 482
14	Kayamandi: Zone I Setona Street), Zone O (lower part) Mgabadeli Crescent, Monde Crescent , Costa Land, Strong Yard, Zone M (8th Avenue)	5 280
15	Kayamandi: Mjandana Street(Zone L), Mputa Close, Zone K, Ndumela Street(Zone J), Distell Hostels, Vineyard, Zone O Middle part(Fire Street), Municipal Workers Flats, Zone N, and M, Old Corrobricks Hostels, Mdala Street(Old Hostels) Eight(8) Close	10 403
16	Long Street to end of Smarty Town, Eike Street, Curry Street, Primrose Street, Pine (Bo en Onder), North End, Vredelust, Gembok, Daffodil Single, Steps, Sylvia Street, Eiland Street, Last Street (White City), Frikkadel Dorp, September Street, Smarty Town and Weltevrede	8 626
17	Kloof and Longstreet flats, Welgevonden and Weltevreden	7 728
18	Klapmuts and surrounding farms	8 763
19	Elsenburg, De Novo	10 493
20	Vlottenburg, Raithby, Lynedoch to Meerlust, Eikendal, Mooiberge, Faure	9 628
21	Jamestown, Paradyskloof, De Zalze, Techno Park, Blaauwklippen, surrounding farms	8 651
22	Die Boord, Dalsig, Brandwacht, Krigeville, Libertas Farm	4 873
Total		155 733

Source: StatsSA

Below is a map of the Cape Winelands District in relation to the provincial district boundaries:

Figure 6: Locality of Cape Winelands District in relation to Provincial Boundaries

Source: Western Cape Provincial Spatial Development Framework

The Western Cape Province, which makes up 10.6% of the country's land surface and encompasses an area of 129 462 km². The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed *Garden Route*, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

Below is a map of the municipalities in relation to the Cape Winelands District:

Figure 7: Locality map of Stellenbosch Municipality in relation to Cape Winelands District Boundaries

The Cape Winelands District Municipality is located within close proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second largest container port in the country and a comprehensive road and rail network. This gives the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg and Witzenberg.

Below is a map of the Stellenbosch Municipality's area of jurisdiction:

Figure 8: Locality map of Municipal Boundaries

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to City of Cape Town and Drakenstein Municipality. As a local authority Stellenbosch Municipality governs the towns of Stellenbosch, Franschoek and Pniel, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, SM forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschoek, and Klappmuts. There are also a number of smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniel, Johannesdal, Langedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vloottenburg. Stellenbosch is a sought after space, offering opportunity and quality of living, yet in close proximity to city life. This has placed the municipal area under constant development pressure.

3.3 State of the Greater Stellenbosch

Stellenbosch is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers roughly 900 km². According to population growth estimates, of the Community Survey the population figures for Stellenbosch for 2020 indicates a number of 192 879 people and 52 374 households. The municipality's area of jurisdiction includes the town of Stellenbosch and stretches past Jamestown to Raithby in the South, Bottelary, Koelenhof, and Klappmuts to the North, and over the Helshoogte Pass to Pniel, Kylemore, Groendal and Franschoek in the East.

Apart from formal settlement areas, the municipal area also includes a number of informal settlements. Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in that year. Today, the area has become primarily known for its extraordinary wines, fruit, world renowned cultural landscapes and exceptional scenic quality. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their rich heritage and traditions, but also the divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch, Boland College, sports and culinary institutions and a number of prestigious schools. It has a strong business sector, varying from major South African businesses and corporations, to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. The area's numerous wine farms and cellars are very popular and the area is the home of the very first wine route in South Africa.

A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has hosted star performances over many generations while the Danie Craven Stadium is the home of Maties rugby, the largest rugby club in the world. The municipal area has a number of theatres, which include the University's HB Thom Theatre, Spier Amphitheatre, Dorp Street Theatre, Aan de Braak Theatre, and Oude Libertas Amphitheatre – well-known for its summer season of music, theatre and dance.

The area is known for its quality, award-winning restaurants and is a tourist haven with many boutiques, galleries, and curio shops. There are several museums and art galleries and the area is host to a number of annual cultural, food, wine and sports festivals. A wide array of accommodation is available for visitors to choose from.

Welfare and community organisations play a leading role in assisting to meet the needs of previously neglected communities.

The following municipalities share their borders with Stellenbosch Municipality:

- The City of Cape Town (South);
- Drakenstein Municipality, Cape Winelands District (North);
- Breede Valley Municipality, (North-east); and
- Theewaterskloof Municipality, (South-west).

Stellenbosch municipal area is now divided into 22 Wards, with recent amendments to some of the ward boundaries by the Municipal Demarcation Board in 2016. The wards consist of urban settlements as well as the surrounding rural areas which contain agricultural and natural environments. The table below describes the urban settlements and rural areas within the different wards and the figure on the next page indicates the ward demarcation for the respective 22 wards within the WCO24 boundary.

3.4 Stellenbosch at a Glance

Table 13: Stellenbosch Municipality: Summarised Statistics

Demographics			Population Estimates		
	Population	192 879		Households	52 374
Education		2019	Poverty		2018
	Matric Pass Rate	85.0%		Gini-Coefficient	0.65
	Learner Retention Rate	75.5%		Human Development Index	0.76

Source: DLG 2020 Socio- Economic Profile- Stellenbosch Municipality

3.5 Socio-Economic Context

3.5.1 Population

The population of Stellenbosch is 192 879 people in 2020, ranking amongst the most populated municipal areas in the CWD. This total is expected to grow to 209 849 by 2024, equating to an average annual growth rate of 2.1 per cent.

Table 14: Age Cohorts and Dependency Ratio

Year	Children: 0 – 14 Years	Working Age: 15 – 65 Years	Aged: 65 +	Dependency Ratio
2020	43 095	139 312	10 472	38.5
2023	44 917	149 263	11 543	37.8
2026	46 390	154 594	12 758	38.3
Growth	+1.2%	+1.7%	+3.3%	-

Source: Western Cape, Socio-Economic Profile 2020

The above table depicts Stellenbosch's population composition by age cohorts. These groupings are also expressed as a dependency ratio which in turn indicates who are part of the workforce (ages 15-64) and those, who are depending on them (children and senior citizens). A higher dependency ratio implies greater pressure on social systems and the delivery of basic services.

Between 2020 and 2026, the largest population growth was recorded in the 65+ aged cohort which grew at an annual average rate of 3.3 per cent. This predicted growth rate increases the dependency ratio towards 2026.

3.5.2 Sex Ratio

The overall sex ratio (SR) depicts the number of males per 100 females in the population. The data indicates that there are less males than females in the Stellenbosch municipal area with a ratio of 49 per cent (males) to 51 per cent (females). The SR for Stellenbosch increases slightly year on year towards 2024 which could be attributed to a wide range of factors such as an increase female mortality rates as well as the potential inflow of working males to the municipal area.

3.5.3 Age Cohorts

Between 2020 and 2026, the largest population growth projection was recorded in the 65+ aged cohort which grew at an annual average rate of 3.3 per cent. The dependency ratio however, decreases towards 2023, and increases towards 2026.

3.5.4 Household sizes

Household size refers to the number of people per household. The actual size of households remains steady at 3.7 from 2020 to 2024. Contributing factors to a stagnation in household size growth could include, but are not limited to, lower fertility rates, occurrences of divorce, ageing population, etc.

3.5.5 Population density

Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision makers to mitigate environmental, individual health and service delivery risks. In 2020, the population density of the Cape Winelands District (CWD) was 44 persons per square kilometre.

In order of highest to lowest, the various local municipal areas in the CWD compare as follows:

- Stellenbosch 232 people/km²
- Drakenstein 189 people/km²
- Breede Valley 50 people/km²
- Langeberg 26 people/km²
- Witzenberg 14 people/km²

According to the above comparison Stellenbosch has the highest densities in the Cape Winelands District. This is strongly aided by the policy position to ensure urban development occurs within the parameters of the urban edge as outlined in the municipal Spatial Development Framework (*mSDF*).

3.6 Education

Education and training improves access to employment opportunities and helps to sustain and accelerate overall development. Quality Education is the 4th Sustainable Development Goal, whilst the National Development Plan (NDP) emphasises the link between education and employment as well as the significant contribution it makes to the development of the capabilities and wellbeing of the population.

Early childhood development (ECD) is one of the priority areas of the South African government and remains a critical policy issue that the Department of Education aims to address. Early years in life are critical for acquisition of perception motor skills required for reading, writing and numeracy in later years.

Early childhood development (ECD) is one of the priority areas of the South African government and remains a critical policy issue that the Department of Education aims to address. Early years in life are critical for acquisition of perception motor skills required for reading, writing and numeracy in later years.

Table 15: Early Childhood Development – attendance levels

Early Childhood Development (ECD)		
Ages	Stellenbosch Municipality	
1	Attending	26.4%
	Not Attending	73.6%
2	Attending	61.9%
	Not Attending	38.1%
3	Attending	72.9%
	Not Attending	27.1%
4	Attending	71.9%
	Not Attending	28.1%
5	Attending	50.6%
	Not Attending	49.4%

Source: Western Cape, Socio-Economic Profile 2018

Attendance of children between 1 and 2 years old at educational facilities fluctuates and is largely attributed to working parents in need of child care. Attendance between 3 and 5 years old shows a promising increase of attendance at early childhood facilities, with attendance of 73% for age group 3 and 72% for age group 4. The results for age group 5 is 51% and comparable to other local municipalities. A number of children within this age group still remain home with a parent or guardian.

3.6.1 Learner enrolment, the learner-teacher ratio and learner retention rate

Learner enrolment in Stellenbosch increased from 27 087 enrolments in 2018 to 27 491 in 2019, an increase of 1.5 per cent. The learner-teacher ratio also reflected an increase from 28.5 in 2018 to 28.9 in 2019. The learner retention rate improved from 72.5 per cent in 2018 to 75.5 per cent in 2019. This could be attributed to a number of factors including improvement in the socio-economic context.

Figure 9: Learner enrolment

Source: Western Cape, Socio-Economic Profile 2020

It is commonly assumed that children receive less personalised attention in larger class environments and that high learner-teacher ratios are detrimental to improved educational outcomes. Factors influencing the learner-teacher ratio is the ability of schools to employ more educators when needed and the ability to collect fees.

The learner retention rate refers to the number of students that start Grade 12 as a percentage of the number of students that enrolled in Grade 10 two year prior. The inverse of the learner-retention rate is commonly referred to as the drop-out rate. Learner-retention rates are influenced by multiple social, economic and psychological factors.

Figure 10: Learner-Teacher Ratio

Source: Western Cape, Socio-Economic Profile 2020

Stellenbosch has the lowest learner-teacher ratio in the District, which bodes well for educational outcomes.

The learner retention rate refers to the number of students that start Grade 12 as a percentage of the number of students that enrolled in Grade 10 two year prior. The inverse of the learner-retention rate is commonly referred to as the drop-out rate. Learner-retention rates are influenced by multiple social, economic and psychological factors.

Figure 11: Learner retention

Source: Western Cape, Socio-Economic Profile 2020

3.6.2 Number of schools and no-fee schools

In 2019, Stellenbosch had a total of 39 public ordinary schools, of which 25 are no-fee schools. In an effort to alleviate some of the funding challenges the Western Cape Department of Education (WCED) offered certain fee-paying schools to become no-fee schools. This means that almost two-thirds of the schools in Stellenbosch, 52 per cent, are registered with the Western Cape Department of Education as no-fee schools.

3.6.3 Schools with libraries and media centres

Schools with libraries and media centres has remained at 29 over the reference period, contributing to the overall quality of education in the area.

3.6.4 Schools with libraries

Schools with libraries and media centres has remained at 29 over the reference period, contributing to the overall quality of education in the area.

There was no change in the number of schools with libraries in the Stellenbosch area from 2016 to 2020. The availability of library facilities within schools contribute towards narrowing the academic attainment gap by allowing students access to information which in turn directly links to improved education outcomes.

3.6.5 Education Outcomes (Matric Pass Rates)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagement in the labour market, policy choices and decisions in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans can be realised. Stellenbosch's matric outcomes has declined slightly from 85.2 per cent in 2018 to 85.0 per cent in 2019.

Figure 12: Education Outcomes

Source: Western Cape, Socio-Economic Profile 2020

3.7 Health

According to the 2019 Inequality Trend Report by Statistics South Africa, 75.1 per cent of households in South Africa usually use public healthcare facilities when a household member gets ill compared to 24.9 per cent who used private healthcare facilities in 2017. This is associated with the low proportion of households with access to Medical Aid, 16.9 per cent for South Africa and 25 per cent for the Western Cape. In terms of healthcare facilities, Stellenbosch had 14 primary healthcare clinics (PHC) in 2019, which comprises of 8 fixed and 6 mobile clinics. In addition, there is a district hospital.

Table 16: Health care facilities

Area	PHC facilities (Fixed clinics, CHCs and CDCs)		Community Health Centres ²	Community Day Centres ³	Hospitals		Treatment Sites	
	Fixed	Non- fixed			District	Regional	ART Clinics	TB Clinics
Stellenbosch	7	6	0	1	1	0	8*	15*
Cape Winelands District	39	33	0	6	4	2	49*	100*

*Source: Western Cape, Socio-Economic Profile 2020

3.7.1 Emergency Medical Services

Provision of more operational ambulances can provide greater coverage of emergency medical services. Stellenbosch has 3 ambulances per 10 000 inhabitants in 2019 which is above the district average of 2 ambulances per 10 000 people. It is worth noting that this number only refers to Provincial ambulances and excludes all private service providers.

3.7.2 HIV / AIDS / TB

Stellenbosch's total registered patients receiving ARTs increased by 896 patients between 2018 and 2019. A total of 32 366 registered patients received antiretroviral treatment in the Cape Winelands District in 2019. Stellenbosch, at 6 960 patients, represent 21.5 per cent of the patients receiving ART in the Cape Winelands District. The number of new antiretroviral patients decreased from 637 to 538 in 2019.

Stellenbosch experienced an increase of in tuberculosis (TB) cases in 2019. 1 176 TB patients were registered in 2019 compared to 1 175 in 2018.

² **Community Health Centre:** A facility that normally provides primary health care services, 24 hour maternity, accident and emergency services and beds where health care users can be observed for a maximum of 48 hours and which normally has a procedure room but not an operating theatre.

³ **Community Day Centre:** A health facility that provides a comprehensive health care services during day hours, including mother and child health, chronic diseases care, women's health, HIV and TB care, men's health, acute services, physio therapy, mental health services and oral health care.

HIV / AIDS management is crucial given its implications for the labour force and the demand for healthcare services.

Table 17: HIV/AIDS Management

Area	Registered patients receiving ART		Number of new ART patients	
	2018	2019	2018	2019
Stellenbosch	6 064	6 960	637	538
Cape Winelands District	30 724	32 366	3 851	3 434

Source: Western Cape, Socio-Economic Profile 2020

Figure 13: Tuberculosis

Source: Western Cape, Socio-Economic Profile 2020

3.7.3 Child Health

Immunisation rates in the Stellenbosch area is at 55.1 per cent in 2019 having decreased slightly from 55.2 per cent in 2018. In 2019, the number of malnourished children under five years (per 100 000) was 2.6, a slight decline from 2018. Neonatal mortality rate (NMR) (per 1 000 live births decreased from 6.6 in 2018 to 5.2 in 2019. The low-birth-weight indicator was recorded at 8.2, a decrease from 9.2 recorded in 2018.

Figure 14: Child Health

Source: Western Cape, Socio-Economic Profile 2020

3.7.4 Maternal Health

The maternal mortality rate in the Stellenbosch area is zero and Cape Winelands District is 42.7 deaths per 100 000 live births in 2019.

The delivery rate to women under 20 years in Stellenbosch and Cape Winelands District was recorded at 13.5 and 15.1 in 2019 per cent respectively.

The termination of pregnancy rate increased from 0.5 to 0.6 from 2018 to 2019 in the Stellenbosch area.

Table 18: Maternal Health

Area	Maternal Mortality Rate		Delivery rate to women under 20 years		Termination of pregnancy rate	
	2018	2019	2018	2019	2018	2019
Stellenbosch	66,5	0,0	13,6	13,5	0,5	0,6
Cape Winelands District	95,5	42,7	14,2	15,1	0,7	0,8

Source: Western Cape, Socio-Economic Profile 2020

3.8 Poverty

3.8.1 GDPR Per Capita

An increase in real GDPR per capita, i.e. GDPR per person, is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDP per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDPR per capita indicator.

At R62 000 in 2018, Stellenbosch's real GDPR per capita is well above that of the Cape Winelands District's figure of R50 000 as well as that of the Western Cape.

Figure 15: GDPR Per Capita

Source: Western Cape, Socio-Economic Profile 2020

3.8.2 Income Inequality

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. Income inequality has increased in Stellenbosch between 2012 (0.60) and 2018 (0.65) with the exception of 2012, when it dropped below 0.58.

Furthermore, income inequality levels were the highest in Stellenbosch for 2018 with a Gini coefficient of 0.60 when compared to neighbouring municipalities across Cape Winelands District and the Western Cape. These disparities in income are certain to worsen across the ensuing MTREF given the potential aftereffects of the COVID-19 pandemic.

Figure 16: Income Inequality

Source: Western Cape, Socio-Economic Profile 2020

3.8.3 Human Development

The United Nations uses the Human Development Index (HDI) to assess the relative level of socio-economic development in countries. Indicators that measure human development are education, housing, access to basic services and health.

The HDI is a composite indicator reflecting education levels, health, and income. It is a measure of peoples' ability to live a long and healthy life, to communicate, participate in the community and to have sufficient means to be able to afford a decent living. The HDI is represented by a number between 0 and 1, where 1 indicates a high level of human development and 0 represents no human development.

There has been a general increase in the HDI in Stellenbosch from 0.72 in 2012 to 0.76 in 2018. The trend for the Cape Winelands District and the Western Cape in general has been similar between 2012 and 2018. Naturally, per capita income as per definition is expected to mimic the trend of HDI and this is clearly displayed in the graph above. In short, what this graph illustrates is that for the most part an increase in GDP per capita across a particular region is generally accompanied by an improvement in HDI levels with a short lag.

Figure 17: Human Development

Source: Western Cape, Socio-Economic Profile 2020

3.9 Basic Service Delivery

The Constitution stipulates that every citizen has the right to access to adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living.

This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2019. The latest official statistics was collected by Statistics South Africa for the 2016 Community Survey; the 2021 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities survey findings.

3.9.1 Housing and Household Services

With a total of 49 332 households in the Stellenbosch municipal area, only 73.4 per cent had access to formal housing, the lowest access level when compared to the other municipalities in the Cape Winelands District area; the District average was 81.2 per cent. The area also had highest proportion of informal households in the District, a total of 24.5 per cent compared with the District average of 17.0 per cent.

Subsequently, service access levels were high in the area, with access to piped water inside / within 200m of the dwelling at 94.5 per cent, access to a flush or chemical toilet at 91.2 per cent, access to electricity (for lighting) at 92.4 per cent and the removal of refuse at least weekly by local authority at 86.7 per cent of households.

3.9.2 Free Basic Services

Municipalities also provide a package of free basic services to households who are financially vulnerable and struggle to pay for services. The number of households receiving free basic services in the Stellenbosch municipal area has shown a generally increasing trend up to 2018. The stressed economic conditions are anticipated to exert pressure on household income levels, which is in turn likely to see the number of indigent households and the demand for free basic services increase.

Figure 18: Total number of households

Source: Western Cape, Socio-Economic Profile 2020

3.10 Safety and Security

3.10.1 Murder

Murder is defined as the unlawful and intentional killing of another person.

Within the Stellenbosch area, the actual number of murders increased from 69 in 2019 to 76 in 2020. The murder rate (per 100 000 people) also increased from 37 in 2019 to 39 in 2020. The murder rate for the CWD increased from 39 in 2019 to 42 in 2020 (per 100 000 people).

Table 19: Murder (per 100 000)

3.10.2 Sexual Offences

Sexual offences include rape (updated to the new definition of rape to provide for the inclusion of male rape), sex work, pornography, public indecency and human trafficking.

In 2020, there were 231 reported sexual offences in the Stellenbosch area compared to 204 in 2019. In 2020, there were 966 reported cases in the Cape Winelands District in total compared to 880 in 2019.

Table 20: Sexual Offences (per 100 000)

Source: Western Cape, Socio-Economic Profile 2020

3.10.3 Drug-related Offences

Drug-related crimes refer to the situation where the perpetrator is found to be in possession of, under the influence of, or selling illegal drugs.

Drug-related incidences within the Stellenbosch area decreased from 2 563 cases in 2019 to 2 166 cases in 2020. The CWD's drug-related offences decreased sharply from 11 225 in 2019 to 7 895 in 2020. When considering the rate per 100 000 people, at 1 172 crimes per 100 000 people in 2020, the Stellenbosch area rate is above that of the District (837).

Table 21: Drug Related Offences (per 100 000)

3.10.4 Driving under the influence (DUI)

A situation where the driver of a vehicle is found to be over the legal blood alcohol limit.

The number of cases of driving under the influence of alcohol or drugs in the Stellenbosch area shows a decrease from 309 in 2019 to 237 in 2020. This translates into a rate of 123 per 100 000 people in 2020, which is above the District's 100 per 100 000 people in 2020.

3.10.5 Road user fatalities

The type of road user that died in or during a crash i.e. driver, cyclist, passengers, pedestrians.

The number of road user fatalities in the Stellenbosch municipal area decreased from 37 in 2018/19 to 35 in 2019/20. The number of fatal crashes remained constant at 34 across the same reference period.

Table 23: Road user fatalities (actual cases)

Road user fatalities (actual cases)

29	37	35

Source: Western Cape, Socio-Economic Profile 2020

3.10.6 Residential Burglaries

The unlawful entry of a residential structure with the intent to commit a crime, usually a theft.

The 2019/20 crime statistics released by SAPS and Stats SA indicate that the number of residential burglaries fell by 6.7 per cent in South Africa. Within the Western Cape Province, burglaries at residential areas decreased by 8.5 per cent between 2019 and 2020. Residential burglary cases within the Stellenbosch area also decreased from 1 363 in 2019 to 1 242 in 2020.

When considering the rate per 100 000 populations, with 644 cases per 100 000 in 2020, Stellenbosch's rate is above the district rate of 587 per 100 000 in the same reporting year.

3.11 Economy and Labour Market Performance

3.11.1 Sectoral Overview

In 2018, the economy of Stellenbosch was valued at R16.2 billion (current prices) and employed 78 701 people. Historical trends between 2014 and 2018 indicate that the municipal area realised an average annual growth rate of 1.4 per cent which can mostly be attributed to the tertiary sector that registered a positive annual growth rate of 2.1 per cent.

In terms of sectoral contribution, the wholesale and retail trade, catering and accommodation (R3.3 billion), finance, insurance, real estate and business services (R3.5 billion), and manufacturing (R2.7 billion) sectors were the main drivers that contributed to the positive growth in the local economy. These sectors are also estimated to have performed well in 2019, particularly the finance, insurance and real estate services and the wholesale and retail trade, catering and accommodation sectors, which are both estimated to have grown by 2.4 per cent. Employment creation in the wholesale and retail trade, catering and accommodation sector mirrored the high growth rate, with 400 new jobs created. In 2019, the transport, storage and communication sector was also an important source of job creation (169 jobs).

Despite its important role in the local economy, particularly as one of the main sources of employment, the agriculture, forestry and fishing sector experienced below-average performance between 2014 and 2018 and is estimated to have contracted by 8.9 per cent in 2019. This contraction led to the loss of 113 jobs. The agriculture, forestry and fishing sector is still recovering from the provincial drought.

3.11.2 Formal and Informal Employment

It is estimated that Stellenbosch's total labour force in 2019 amounted to 78 701 workers of which 56 601 (71.9 per cent) are in the formal sector while 22 100 (28.1 per cent) are informally employed.

Most of the labour force consisted of semi-skilled (43.8 per cent) and low-skilled (32.3 per cent) workers. The skilled category contributed 23.9 per cent to total formal employment and grew on average by 2.5 per cent, while the semi-skilled and low-skilled categories grew at 2.8 and 0.4 per cent respectively. Evidently, the demand for skilled labour is on the rise which implies the need to capacitate and empower low-skilled and semi-skilled workers.

3.11.3 Unemployment

Stellenbosch (11.3 per cent) has the second highest unemployment rate in the Cape Winelands District. It is also higher than the District average (11.3 per cent) but considerably lower than the Western Cape rate of 19.4 per cent. Stellenbosch's high unemployment rate is based on the narrow definition of unemployment i.e. the percentage of people that are able to work, but unable to find employment. The broad definition generally refers to people that are able to work, but not actively seeking employment.

Table 25: Economic Sector Overview

SECTOR	GDPR			Employment		
	R Million value 2018	Trend 2014 - 2018	Real GDPR growth 2019e	Number of jobs 2018	Average annual change 2014 - 2018	Net change 2019e

3.12 Public Infrastructure Spending

3.12.1 Spending on Social Infrastructure

Spending on social infrastructure aids in social development and has the spill-over effect of enabling economic growth. The Western Cape Government (WCG) will spend 22.5 per cent (R49.174 million) of its infrastructure budget on social infrastructure.

As displayed in the pie chart the WCG will be allocating 7.1 per cent of the budget (R15.430 million) towards education in the municipal area. Spending on education is crucial as it can serve to improve education outcomes and skills levels within a community, and more importantly alleviate poverty through increased long-term income for individuals.

A healthy and resilient community increases productivity and reduces pressures on government resources. As such the Department of Health has allocated 0.8 per cent (R1.668 million) of infrastructure spending on health. A further R32.076 million (14.7 per cent) has been allocated by the WCG towards Human Settlements, serving to reduce housing backlogs. This was complemented by R10.361 million in spending on housing infrastructure by the municipality.

Community safety has been prioritised by the WCG due to high levels of crime in the Western Cape. Crime has a negative impact on the quality of lives of individuals, but also on the economy by deterring private investment and causing business losses. It further creates a burden on government resources in terms of justice system costs, victim assistance and replacement of assets. The municipality has as such allocated R6.7 million of its capital budget on community and public safety. The municipality has also made R14.330 million available for sports and recreation and R3.190 million for social development which will serve to improve the quality of life of individuals within the municipal area.

3.12.2 Spending on Economic Infrastructure

Economic infrastructure is defined as infrastructure that promotes economic activity. Considering the sluggish economic growth throughout the country, spending on economic infrastructure is crucial to stimulating economic activity.

The WCG allocated R169.256 million (77.5 per cent) towards economic infrastructure, more specifically towards transport (R147 million) and public works (R22.256 million). Transport and public works infrastructure goes a long way towards unlocking the region's economic potential, especially due to it being a tourist destination and its proximity to the City of Cape Town economic hub. The municipality contributes a further R54.0 million towards road transport. As part of their economic infrastructure allocation, the municipality will also contribute R52.5 million towards planning and development and R1.8 million towards environmental protection.

3.12.3 Spending on Trading Services

Basic services are crucial to improving the living conditions of citizens within the municipal area and enabling economic activity for businesses via access to water, electricity, sanitation and refuse removal. The majority of the municipality's infrastructure budget is allocated towards the provision of basic services. The majority of spending on trading services have been allocated towards waste water management (R109.7 million). This was followed by water management (R53.4 million), electricity (R39.3 million) and waste management (R7.7 million).

CHAPTER 4

Spatial Development Framework

4.1 The Purpose of the Spatial Development Framework

Spatial Development Frameworks (SDFs) are policy statements that seek to influence the overall *spatial* distribution of current and future land use within a municipality or other described region to give effect to the vision, goals and objectives of the municipal Integrated Development Plan (IDP) or related business plans of government.

In the case of Stellenbosch Municipality, the SDF must answer the following questions: "How is Stellenbosch going to develop over the next ten to thirty years? What kind of development will take place, where will it take place, and who will be responsible for what aspect of the development?"

4.2 Why the SDF is Important?

Future growth, expansion and innovation cannot be allowed to unfold in haphazard ways as this is likely to result in expensive outward, low density sprawl of housing and commercial areas and the related destruction of valuable eco-system and agricultural resources. This kind of development is also likely to exacerbate spatial divisions and exclude citizens with lesser material resources from opportunity to live in proximity to work, commercial opportunity, and social facilities.

Ad hoc development removes the certainty that everyone needs to be able to make long-term investment decisions, including municipal leadership – planning for associated infrastructure – and key players like the property developers, financial investors, development planners, municipal officials dealing with associated approval processes, and ordinary households.

4.3 The Subject Matter of SDFs

At its core, SDFs deal with the art and science of shaping places at different scales (or areas of influence, from large regions to municipal jurisdictions or neighbourhood precincts). The SDF aims to:

-  Enable a vision for the future of regions and places that is based on evidence, local distinctiveness and community derived objectives;
-  Translate this vision into a set of policies, priorities, programmes, and land allocations together with the public-sector resources to deliver them;
-  Create a framework for private investment and regeneration that promotes economic, environmental and social well-being for a specific region or area; and
-  Coordinate and deliver the public-sector components of this vision with other agencies and processes to ensure implementation.

4.4 Users of the SDF

The SDF for the Stellenbosch Municipality targets two broad user categories.

The first is the government sector, across spheres from national to local government, and including State Owned Enterprises (SOEs). While the SDF is informed by the spatial direction stated in national, provincial, and district level policy, it also sets out the municipality's spatial agenda for government departments across spheres of government to consider and follow. Most importantly, the SDF outlines the municipality's spatial agenda to its own service departments, ensuring that their sector plans, programmes, and projects are grounded in a sound and common spatial logic.

The second user category is the private sector, comprising business enterprises, non-government organisations, institutions, and private citizens. While the private sector operates with relative freedom spatially – making spatial decisions within the framework of land ownership, zoning, and associated regulations and processes – the SDF gives an indication of where and how the municipality intends to channel public investment, influence, and other resources at its disposal. In broad terms, this includes where infrastructure and public facility investment will be prioritised, where private sector partnership will be sought in development, and how the municipality will view applications for land use change.

4.5 The Legislative Framework for SDFs

With the enactment of the Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA), a new planning regime was introduced in South Africa. It replaced disparate apartheid era laws with a coherent legislative system designed to spatially transform the country in its democratic era.

In broad terms, SPLUMA differentiates between two components of the planning system:

- Spatial Development Frameworks; and
- The Land Use Management System (LUMS).

As indicated above, SDFs are guiding and informing documents that indicate the desired spatial form and define strategies and policies to achieve this. They inform and guide the LUMS, which includes town planning or zoning schemes, allocating development rights, and the procedures and processes for maintaining the maintenance of or changes in development rights.

SPLUMA requires national, provincial, and municipal spheres of government to prepare SDFs that establish a clear vision which must be developed through a thorough inventory and analysis based on national spatial planning principles and local long-term development goals and plans.

SDFs are thus mandatory at all three spheres of government. Sub-section 12(2) of SPLUMA confirms that all three spheres must participate in each other's processes of spatial planning and land use management and each sphere must be guided by its own SDF when taking decisions relating to land use and development.

Section 12 (1) of SPLUMA sets out general provisions which are applicable to the preparation of all scales of SDFs. These provisions require that all SDFs must:

Interpret and represent the spatial development vision of the responsible sphere of government and competent authority;

Be informed by a long-term spatial development vision;

Represent the integration and trade-off of all relevant sector policies and plans;

Guide planning and development decisions across all sectors of government;

Guide a provincial department or municipality in taking any decision or exercising any discretion in terms of this Act or any other law relating to spatial planning and land use management systems;

- Contribute to a coherent, planned approach to spatial development in the national, provincial and municipal spheres;
- Provide clear and accessible information to the public and private sector and provide direction for investment purposes;
- Include previously disadvantaged areas, areas under traditional leadership, rural areas, informal settlements, slums and land holdings of state-owned enterprises and government agencies and address their inclusion and integration into the spatial, economic, social and environmental objectives of the relevant sphere;
- Address historical spatial imbalances in development;
- Identify the long-term risks of spatial patterns of growth and development and the policies and strategies necessary to mitigate those risks;
- Provide direction for strategic developments, infrastructure investment, promote efficient, sustainable and planned investments by all sectors and indicate priority areas for investment in land development;
- Promote a rational and predictable land development environment to create trust and stimulate investment;
- Take cognisance of any environmental management instrument adopted by the relevant environmental management authority;
- Give effect to national legislation and policies on mineral resources and sustainable utilisation and protection of agricultural resources; and
- Consider and, where necessary, incorporate the outcomes of substantial public engagement, including direct participation in the process through public meetings, public exhibitions, public debates and discourses in the media and any other forum or mechanisms that promote such direct involvement.

Chapter 2 of SPLUMA sets out the development principles that must guide the preparation, adoption and implementation of any SDF, policy or by-law concerning spatial planning and the development or use of land. The table below summarises the five SPLUMA principles and what they mean.

Table 29: SPLUMA and Development Principles

Principle	Meaning
Spatial justice	<ul style="list-style-type: none"> • Past spatial and other development imbalances must be redressed through improved access to and use of land. • SDFs (and associated policies) must address the inclusion of persons and areas that were previously excluded, with an emphasis on informal settlements, and areas characterised by widespread poverty and deprivation. • Spatial planning mechanisms, including land use schemes, must incorporate provisions that enable redress in access to land by disadvantaged communities and persons. • Land use management systems must include all areas of a municipality and specifically include provisions that are flexible and appropriate for the management of disadvantaged areas and informal settlements. • Land development procedures must include provisions that accommodate access to secure tenure and the incremental upgrading of informal areas. • In considering an application, a Municipal Planning Tribunal may not be impeded or restricted in the exercise of its discretion solely because the value of land or property is affected by the outcome of the application.
Spatial sustainability	<ul style="list-style-type: none"> • Promote land development that is within the fiscal, institutional and administrative means of government. • Give special consideration to the protection of prime and unique agricultural land. • Uphold consistency of land use measures in accordance with environmental management instruments. • Promote and stimulate the effective and equitable functioning of land markets.

Principle	Meaning
	<ul style="list-style-type: none"> Consider all current and future costs to all parties for the provision of infrastructure and social services in land developments. Promote land development in locations that are sustainable, limit urban sprawl, and result in communities that are viable.
Efficiency	<ul style="list-style-type: none"> Land development must optimise the use of existing resources and infrastructure. Decision-making procedures must be designed to minimise negative financial, social, economic or environmental impacts. Development application procedures must be efficient, streamlined, and timeframes adhered to by all parties.
Spatial resilience	<ul style="list-style-type: none"> Development application procedures must be efficient, streamlined, and timeframes adhered to by all parties.
Good administration	<ul style="list-style-type: none"> All spheres of government must ensure an integrated approach to land use and land development. All government departments must provide their sector inputs and comply with any other prescribed requirements during the preparation or amendment of SDFs. The requirements of any law relating to land development and land use must be met timeously.

At the Provincial sphere of government, aligned with SPLUMA, the Western Cape Land Use Planning Act, 2014 (Act No. 3 of 2014) (LUPA) further outlines minimum standards for SDFs, both in preparation process, and content.

At the municipal level IDPs, which include budget projections, financial and sector plans, are set every five years correlating with political terms of office in local government. SDFs should be subject to a major review every five years, with less comprehensive reviews annually.⁴

In support of SPLUMA, the Department of Rural Development and Land Reform prepared detailed process and content “Guidelines for the Development of Provincial, Regional and Municipal Spatial Development Frameworks and Precinct Plans”. The Stellenbosch Municipality follows these guidelines in its work on the SDF.

4.6 The Policy Framework for the SDF

Numerous policy frameworks, both focused the work of government holistically, the spatial arrangement of activities or specific sectors. These are explored fully in the approved SDF as well as the IDP. In the sections below, only the most specific policy informants are summarised, namely the National Development Plan (NDP), the Western Cape Government's Provincial Spatial Development Framework (PSDF), the Greater Cape Metro (GCM) and Regional Spatial Implementation Framework (RSIF).

4.7 The National Development Plan 2030

The National Development Plan (NDP), developed by the National Planning Commission and adopted in 2012, serves as the strategic framework guiding and structuring the country's development imperatives and is supported by the New Growth Path (NGP) plus other national strategies.

In principle, the NDP is underpinned by, and seeks to advance, a paradigm of development that sees the role of an enabling government creating the conditions, opportunities and capabilities conducive to sustainable and inclusive economic growth that makes poverty alleviation and the sharp reduction of inequality possible by 2030. The NDP sets out the pillars through which to cultivate and expand a

⁴ This does not detract from the SDF including for a longer term spatial development vision, projecting ten to twenty years into the future.

robust, entrepreneurial and innovative economy that will address South Africa's primary challenge of significantly rolling back poverty and inequality.

The legacy of apartheid spatial settlement patterns that hinder inclusivity and access to economic opportunities, as well as the poor location and under-maintenance of major infrastructure, are two of the nine identified core challenges facing the country's development. Aimed at facilitating a virtuous cycle of expanding opportunity for all, the NDP proposes a programme of action that includes the spatial transformation of South Africa's towns, cities and rural settlements given the "enormous social, environmental and financial costs imposed by spatial divides".

4.8 The Provincial Spatial Development Framework

The spatial agenda advocated by the PSDF is summarised in the table below.

Table 30: PSDF Spatial Agenda

Focus	What it involves
Growing the Western Cape economy in partnership with the private sector, non-governmental and community based organisations.	<ul style="list-style-type: none"> • Targeting public investment into the main driver of the Provincial economy (i.e. the Cape Metro functional region, the emerging Saldanha Bay / Vredenburg and George / Mossel Bay regional industrial centres, and the Overstrand and Southern Cape leisure and tourism regions). • Managing urban growth pressures to ensure more efficient, equitable sustainable spatial performance. • Aligning, and coordinating public investments and leveraging private sector and community investment to restructure dysfunctional human settlements. • Supporting municipalities in managing urban informality, making urban land markets work for the poor, broadening access to accommodation options, and improving living conditions. • Promoting an urban rather than suburban approach to settlement development (i.e. diversification, integration and intensification of land uses). • Boosting land reform and rural development, securing the agricultural economy and the vulnerability of farm workers, and diversifying rural livelihood and income earning opportunities.
Using infrastructure investment as primary lever to bring about the required urban and rural spatial transitions.	<ul style="list-style-type: none"> • Aligning infrastructure, transport and spatial planning, the prioritisation of investment and on the ground delivery. • Using public transport and ICT networks to connect markets and communities. • Transitioning to sustainable technologies, as set out in the WCIF. • Maintaining existing infrastructure.

For the agglomeration of urban activity, the Cape Metro functional region, as well as the emerging regional centres of the Greater Saldanha functional region and the George / Mossel Bay functional region, are prioritised. The priority tourism / leisure corridors are the Overstrand and Garden Route leisure corridors (the priority tourism routes are the N2-corridor, R62 between Worcester and Oudtshoorn, the N7 corridor and R43). Two priority rural development corridors – areas of agricultural and rural development opportunity – have been identified. The first is on the west coast – stretching from Lutzville in the north to Clanwilliam in the south. The second rural development corridor stretches from Tulbagh in the north-west to Swellendam in the southeast.

Figure 22: The Provincial Spatial Development Framework

4.9 The Greater Cape Metro Regional Spatial Implementation Framework

The Greater Cape Metro (GCM) Regional Spatial Implementation Framework (RSIF) aims to build consensus between the spheres of government and state-owned companies on what spatial outcomes the GCM should strive for, where in space these should take place, and how they should be configured. The GCM covers the municipal jurisdictions of Cape Town, Saldanha Bay, Swartland, Drakenstein, Stellenbosch, Breede Valley, Theewaterskloof, and Overstrand.

The regional settlement concept proposed by the GCM RSIF is built on the following key tenets:

- Containing settlement footprints by curtailing the further development of peripheral dormitory housing projects;
- Targeting built environment investments within regional centres, specifically in nodes of high accessibility and economic opportunity;
- Targeting these locations for public and private residential investment, especially rental housing, to allow for maximum mobility between centres within the affordable housing sector;
- Using infrastructure assets (specifically key movement routes) as “drivers” of economic development and job creation;
- Promoting regeneration and urban upgrading within strategic economic centres as well as high-population townships across the functional region;
- Shifting to more urban forms of development within town centres including higher densities and urban format social facilities;

- Connecting these nodes within an efficient and flexible regional public transport and freight network; and
- Maintaining valuable agricultural and nature assets.

In terms of role and function, Paarl and Wellington is the Northern Winelands service, administrative, tertiary education, agri-processing and distribution, and tourist centre, with very high/ high growth potential.

Stellenbosch is identified as the Southern Winelands service, administrative, tertiary education and research, and agri-processing centre, as well as home to multi-national enterprise headquarters, a key tourism destination, and focus for technology industry, with very high growth potential.

In relation to Klapmuts, the RSIF recognises that:

- Existing infrastructure in the area (i.e. N1, R101, R44 and the Paarl-Bellville railway line and station), which dictate the location of certain transport, modal change or break-of-bulk land uses; and
- Klapmuts is a significant new regional economic node within metropolitan area and spatial target for developing a "consolidated platform for export of processed agri-food products (e.g. inland packaging and "containerisation port") and "an inter-municipal growth management priority".

Figure 23: The diagram illustrates the GCM RSIF in plan form

4.10 Stellenbosch Municipality's Work on a SDF

Over the last decade, the Stellenbosch Municipality has completed a considerable volume of studies, policy documents, and plans, specifically related to SDFs, as well as studies, policy documents, and plans that should inform or be informed by the SDF (for example comprehensive plans like the IDP

covering all the activities of the Municipality, or sector specific work related to economic development, transport, the environment, housing, and so on). Some of these studies, policy documents, and plans cover the whole Municipal area, while others focus on specific parts of the area.

The below diagram illustrates the varied spatial and related sector documents prepared over the last ten years by Stellenbosch Municipality.

Figure 24: Varied spatial and related sector documents prepared over the last ten years

4.11 Institutional Arrangements for Preparing the SDF

The Stellenbosch Municipality's current work on the SDF have taken place with the inputs and oversight of an Intergovernmental Steering Committee (ISC), as prescribed in LUPA, and comprising representatives across spheres of government and sectors.

Further, it should be noted that the approved SDF, as well as specific sector documents and area studies listed in chapter 7, sought inputs from various organisations and individuals as part of public participation processes undertaken during various stages of preparing these studies.⁵

⁵ For example, the "Shaping Stellenbosch" initiative involved a facilitated process of engagement between Directors of key municipal departments and members of the Mayoral Committee (MayCo), consultations with all ward councillors, meetings with Ward Committees and 72 formal engagements with various groups, and four major workshops that were attended by a wide cross-section of organisations. By August 2014, a total of over 200 ideas were submitted from around 108 stakeholders to a dedicated web-site.

4.12 The Challenges Addressed by the SDF

The Stellenbosch Municipality SDF attempts to address the spatial dimensions of varied challenges, documented in this IDP and numerous studies and documents produced to date, and dealing with spatial and non-spatial matters.

Framed as a question, the key challenge revolves around how to achieve, through managing the spatial distribution and form of development – primarily land use activities and associated structures, both new and existing – shared and inclusive growth, increased access to opportunities (particularly for disadvantaged citizens), improved sustainability by minimising ecological footprints, and maintenance of the unique sense of place of the settlements and surrounding lands which constitute the municipality.

In addressing these challenges, the SDF has two tasks. The first relates to how activities should be organised and accommodated in space to best address challenges. The second is to guide how other sectors, services, or functional areas, should adjust their focus and work to support the recommended organisation and accommodation of activities in space.

Without re-stating the varied challenges of the municipality outlined in full in the IDP and sector documents, the table below lists specific spatial challenges addressed by work on the SDF, following the broad themes contained in the SPLUMA Guidelines.

Table 31: Spatial Challenges

Theme	Spatial Challenges
Bio-physical context	<p>The ongoing loss of agricultural opportunity through urban development and land use change of high value agricultural land.</p> <p>Development which threatens the integrity and value of high worth nature, scenic, cultural, and heritage landscapes and places.</p> <p>The poor state of rivers within the municipal area.</p>
Socio-economic context	<p>The current population of approximately 175 000 is very unequal with the municipality having one of the highest Gini-Coefficients in South Africa. 53% of households are classified as low-income, with 20% of these having no registered income. Unemployment stood at around 20% in 2011, and continues to rise. Despite a relatively positive and resilient economic trend showing some employment growth in the managerial and skilled sectors, job losses continue in the low and semi-skilled sectors. This is of critical concern for the region's sustainability.</p> <p>Although Stellenbosch Municipality has a slightly lower unemployment rate than the Western Cape and the country, its unemployment rate of more than 20% represents a significant social challenge.</p> <p>Almost 23% of the population is under 15 in age, indicating that a large percentage of the population will be entering the labour market in the next two decades.</p>
Built environment context	<p>60% of households do not have access to a car, and are dependent on unsupported informal public transport or travel on foot. Many trip needs remain unsatisfied or are undertaken with great hardship. For these captive populations, access to ever more dispersed activity is increasingly difficult, yet virtually all available funding is allocated to providing general road infrastructure rather than the development of transport systems and approaches that serve the most effective and sustainable movement of people and goods.</p> <p>There has been continuous growth in weekday commuter trips from the Cape Town Metropole and surrounding areas into Stellenbosch. This in part reflects increased employment opportunities but also the shortage of affordable local accommodation requiring many employees to commute from distant locations with cheaper housing.</p> <p>70% of all trips entering Stellenbosch town are by private car. There is worsening peak period congestion, with average traffic speeds pushed down to 13km/h (below cycling speed) and a throughput per lane of only 600 persons per hour due to the very low vehicle occupancies.</p> <p>Local (<5km) peak period person trips within the town of Stellenbosch total twice the number of longer distance (>5km) passenger commute trips. 95% of all NMT trips within the Stellenbosch town are made by low income residents. In contrast over 80% of all local trips by choice-user are made by car. There is great potential for reducing private motor vehicle travel through targeting short trips and market sectors (e.g. University students) to switch to cycling and walking, which will help to significantly improve general traffic flow.</p> <p>Significant unmet and future demand for housing (across housing typologies and income brackets).</p> <p>Large old industrial complexes in well-located areas are disused or underutilised.</p> <p>Inadequate sanitation, stormwater and solid waste infrastructure in some lower income areas / informal settlements are contributing to river pollution.</p>

Theme	Spatial Challenges
Institutional context	The limited capital budget of the municipality, given the extent and depth of community needs. The limited professional resources of the municipality, specifically in relation to the rigorous, and dedicated full-time management of large scale projects.

4.13 Strategic Component of the SDF

4.13.1 Vision

In line with the SM's vision as the "valley of opportunity and innovation" (as contained in the IDP), the vision for spatial development and management is described as follows:

"we envisage a municipal area even more special than it is today; a place of natural beauty, rich in the way it preserves and exposes elements of history and culture, its produce from the land, the quality of its institutions, and the mindfulness and innovations of its people.

It is a future Stellenbosch municipal area that remains familiar; it has retained what differentiates the municipality from other places, its landscapes, historic buildings and settlement patterns, and the specialness of its institutions. It is resilient; it has adapted to the needs of today without losing what is special from the past. It is inclusive; it has accommodated the needs of citizens from all walks of life without fear. It is diverse and therefore productive. In adapting to new needs, and accommodating new people, it has become the stage for new expressions of culture, new businesses, and new ways of doing.

In form, it comprises a set of compact settlements, large and small, surrounded by natural and productive landscapes, and linked by means of public transport. Internally, settlements are relatively dense, cyclable and walkable. Each portrays a unique character, closely linked to its surrounding landscape, the reach and extent of its public institutions, and the capacity and opportunity of its infrastructure. Each provides for a range of citizens from all walks of life, with significant choice in place of residence."

4.13.2 Strategic focus

The table below illustrates how work on the SDF relates – in terms of its focus and contribution – to achieving the five municipal strategic focus areas as contained in the IDP.

Table 32: IDP strategic focus areas and the SDF

IDP Strategic Focus Area	Related concerns of the SDF	SDF Strategic Direction
Valley of possibility	The way settlements, nature and agricultural are spatially developed and managed to enhance individual and collective livelihood opportunities and enterprise development, and overcome inequity and exclusion.	Containment of settlements to protect nature / agricultural areas and enable public and non-motorised transport and movement. A focus on public and non-motorised transport and movement.
Green and sustainable valley	The way settlements, nature and agricultural areas are spatially developed and managed to maintain and enhance natural resources and ensure future balance between human settlement and its use of natural resources and opportunity.	Protection of nature areas, agricultural areas, and river corridors.
Safe valley	The way settlements, nature and agricultural areas are spatially developed and managed to ensure individual and collective safety in living, in movement, at work, institutions, and play.	Denser settlements with diverse activity to ensure surveillance.
Dignified living	The way settlements, nature and agricultural areas are spatially developed and managed to ensure equal access to shelter, facilities and services,	A specific focus on the needs of "ordinary" citizens, experiencing limited access to opportunity because of restricted available material resources.

IDP Strategic Focus Area	Related concerns of the SDF	SDF Strategic Direction
	notwithstanding material wealth, age, gender, or physical ability.	
Good governance and compliance	The way settlements, nature and agricultural areas are spatially developed and managed to ensure individual and collective participation – based on accessible information and open processes – in matters related to spatial planning and land use management.	Presenting information, including opportunities and choices in a manner that assists its internalisation by all.

As it is not specifically mentioned in the strategic focus areas – perhaps as it is more an approach or “way of thinking and doing” about matters generally than a strategic focus area – a note on innovation is justified, specifically in relation to spatial planning and the SDF.

Innovation is not limited to – as it is often perceived to be – information technology. It cuts across all tasks; it must be at the basis of all efforts and approaches to meet challenges. Much of Stellenbosch’s current spatial challenges will not be resolved through conventional spatial planning approaches; ways of doing which have become part of a prevailing culture in planning and development, including accommodating new development on “undeveloped” nature or agricultural land, supporting relatively low density development, attempts to accommodate unimpeded movement by private vehicles with low occupancy, each potential land developer striving to maximise individual development opportunity, and so on. In many ways, these approaches have contributed to varied existing challenges to be addressed today, including inequity in access to opportunity, environmental degradation, and stress on municipal resources.

Arguably, exploring and implementing new approaches or strategy are not easy, as observed by Hamel: “When people sit down and think about strategy ... they take 90 or 95% of industry orthodoxies as a given ... Instead, they must stare down their orthodoxies and determine that they are not going to be bound by them anymore ... The deepest reason [for not doing this] is an unwillingness or inability to look outside of current experiences. It’s the whole set of definitions that grew up over time ... about what business we’re in ... you get convergence around those things. A lot of this is not simply blindness; a lot of this is denial. Yes, we see it, but it is so uncomfortable that we can’t admit to it.”⁶

⁶ An interview with Gary Hamel, strategy + business <http://www.strategy-business.com/press/16635507/13304>

4.13.3 Concept and core argument

The concept for spatial development and management of SM comprises seven key tenets:

1: Maintain and grow our natural assets

Valuable land areas, including critical biodiversity areas, agricultural land, land affecting the maintenance of water resources, and so on, cannot be built upon extensively, it cannot be the focus for significantly accommodating existing or future settlement need spatially.

2: Respect and grow our cultural heritage

The areas and spaces – built and unbuilt – that embody the cultural heritage and opportunity of SM needs to be preserved and exposed further. Some areas and spaces need to be maintained intact, others provide the opportunity for new activity, in turn exposing and enabling new expressions of culture.

3: Direct growth to areas of lesser natural and cultural significance as well as movement opportunity

Within areas of lesser natural and cultural significance, the focus should be on areas where different modes of transport intersect, specifically places where people on foot – or using non-motorised transport – can readily engage with public transport.

4: Clarify and respect the different roles and functions of settlements

The role and potentials of different settlements in Stellenbosch require clarification. In broad terms, the role of a settlement is determined by its relationship to natural and cultural assets and the capacity of existing infrastructure to accommodate change and growth.

5: Clarify and respect the roles and functions of different elements of movement structure

Ensure a balanced approach to transport in SM, appropriately serving regional mobility needs and local level accessibility improvements, aligned with the spatial concept.

6: Ensure balanced, sustainable communities

Ensure that all settlements are balanced and sustainable, providing for different groups, maintaining minimal development footprints, walkability, and so on.

7: Focus collective energy on critical lead projects

Harness available energy and resources to focus on a few catalytic areas that offer extensive opportunity fastest and address present risk.

Figure 25: The overarching concept is illustrated in figure below

4.14 Implementation Framework

4.14.1 Introduction

The SPLUMA guidelines require, as part of the *mSDF*, a high-level Implementation Framework setting out the required measures that will support adoption of the SDF proposals while aligning the capital investment and budgeting process moving forward. The *mSDF* Implementation Framework comprises the following sections:

- A proposed settlement hierarchy.
- Priority development areas and themes.
- A policy framework (linked to strategies).
- Guidelines, studies, and information supporting the policies.
- Implications for sector planning and specific development themes, including:
 - Movement;
 - Housing; and
 - Local economic development.
- Implications for inter-municipal planning
- Land use management and regulations.
- Catalytic initiatives.
- Further planning work.
- Institutional arrangements.
- Checklists in support of decision-making.
- A municipal leadership and advocacy agenda related to spatial development and management.

4.14.2 Proposed Settlement Hierarchy

The proposed settlement hierarchy for SM, supporting the spatial plan and proposals for the settlement as a whole, is outlined in the table below.

Table 33: Proposed settlement hierarchy for the Stellenbosch Municipality

Settlement	Role	Development and Land Use Management Focus
Primary settlements		
Stellenbosch town	A significant centre comprising extensive education, commercial and government services with a reach both locally and beyond the borders of the municipality, tourism attractions, places of residence, and associated community facilities.	Broadening of residential opportunity for lower income groups, students, and the lower to middle housing market segments. Upgrade of informal settlements. Retention of University functions in town. Enablement of the Adam Tas Corridor. Sensitive residential infill and compaction. Drive to established "balanced" precincts. Public transport development, travel demand management, parking controls, and NMT improvements.
Klapmuts	Focus for economic development (utilising a favourable location for manufacturing, logistics, and warehousing enterprises) and associated residential opportunity.	Support for development of RE / Farm 736 as a lever to economic development utilising a favourable location for manufacturing, logistics, and warehousing enterprises. Balanced housing provision in Klapmuts South, focused on those who can benefit from employment provision through unlocking Klapmuts North. Establishing the Klapmuts town centre. NMT improvements.

Settlement	Role	Development and Land Use Management Focus
Franschhoek	Secondary service centre, significant tourist destination, and place of residence.	Upgrade of informal settlements NMT improvements. Sensitive infill within urban edge providing inclusive housing and extended commercial opportunity (also for small and emerging entrepreneurs). Retention of historic character.
Secondary settlements		
La Motte	Contained rural settlement.	Diversification of existing activities to curtail the need for movement. Sensitive location of diversified uses closer to the R45. Limited further housing development.
Wemmershoek	Contained rural settlement.	Possible extension of residential opportunity linked to re-use of saw-mill site and local employment opportunity.
Groot Drakenstein	Contained rural settlement.	Accommodation of sensitive private and public sector initiatives offering expanded livelihood (including tourism) and residential opportunity.
Dwars River Valley	Contained historic rural settlements.	Accommodation of sensitive private and public sector initiatives offering expanded livelihood (including tourism) and residential opportunity.
Jonkershoek	Contained, but dispersed collection of institutional, recreational and residential uses.	Rationalisation and containment of existing occupation rights.
Muldersvlei	Contained rural settlement.	Potential future consolidated, inclusive settlement linked to rail/ bus.
Koelenhof	Contained rural settlement.	Potential future consolidated, inclusive settlement linked to rail/ bus.
Vlottenburg	Contained rural settlement.	Potential future consolidated, inclusive settlement linked to rail/ bus.
Lynedoch	Contained village and institutional cluster.	Gradual expansion of unique development model based focused on sustainable living and education.
Spier	Contained tourism and cultural centre.	Containment and limited expansion of existing offering.
Raithby	Contained historic rural settlement.	Protection of unique historic settlement structure and form.

4.14.3 Priority Development Areas and Trends

In terms of the *mSDF* concept, prioritisation of development – at a broad level – are of two types. The first is spatial and targeted at significant future growth in specific places. The second is sectoral or thematic, focused on the kind of development to be prioritised.

Spatial areas for priority development over the *mSDF* planning period are:

-  Stellenbosch Town.
-  Klapmuts.

As argued elsewhere in this document, it is here, by virtue of settlement location in relation to broader regional networks and existing opportunity within settlements, that the needs of most people can be met, in a compact settlement form while protecting the municipality's nature and agricultural assets.

Over the longer term, Muldersvlei / Koelenhof and Vlottenburg / Lynedoch along the Baden Powell-Adam Tas-R304 could possibly accommodate more growth and be established as inclusive settlements offering a range of opportunities. However, much work needs to be done to ensure the appropriate make-up of these settlements (including each providing opportunity for a range of income groups) and integration with the corridor in terms of public transport. They are therefore not prioritised for significant development over the *mSDF* period.

Should significant development be enabled in these areas now, it is likely to be focused on private vehicular use and higher income groups (in gated developments), and will in all probability reduce the potential of initiatives to transform Stellenbosch town and Klapmuts.

The focus on Stellenbosch town and Klapmuts does not exclude all development focus in Franschhoek and the smaller settlements. Rather, it is argued that these settlements should not accommodate significant growth as the pre-conditions for accommodating such growth does not exist to the same extent as in Stellenbosch town and Klapmuts. What should be emphasised in Franschhoek and smaller settlements is improving conditions for existing residents and natural growth within a context of retaining what is uniquely special in each (from the perspective of history, settlement structure and form, relationship with nature and agriculture, and so on).

In terms of sectoral or thematic focus, the spatial development priority in all settlements should be to:

- Upgrade the servicing and transformation of informal settlements;
- Provide housing for lower income groups in accessible locations (specifically through infill of vacant and underutilised land or redevelopment of existing building footprints);
- Expand and improve public and NMT routes;
- Improve public and community facilities and places (e.g. through clustering, framing them with infill development to improve edges and surveillance, prioritisation for landscaping, and so on); and
- Expand the recognition, restoration, and exposure of historically and culturally significant precincts and places (both in the form and use of precincts and places).

4.14.4 Policy Framework

The table below sets out specific spatial policies to support the *mSDF* concept and settlement plans. In using the policy framework, it is important to note that one specific policy or guideline should not be highlighted or used exclusively to support a specific initiative. Rather, each policy supports the other; each “frames” the other. Thus, initiatives or proposals should be evaluated in terms of the policy framework as a whole.

Further, the successful implementation of spatial policy and guidelines is often dependent on related, supportive, non-spatial policy. This implies policy alignment across municipal functional areas and services.

The table also includes specific work guidelines which begins to frame work to be undertaken – or continued – in support of proposed policies.

Table 34: Specific work guidelines

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
1.	Maintain and grow the assets of SM's natural environment.	<ul style="list-style-type: none"> • As far as is possible, protect and expand priority conservation areas, establish ecological linkages, and preserve high-potential agricultural land within the municipality. • Resist the subdivision of viable agricultural land unless it forms part of a new balanced, integrated, and inclusive settlement supportive of the <i>mSDF</i> objectives, an 	<ul style="list-style-type: none"> • Proactively maintain and upgrade municipal infrastructure services to limit/ mitigate risk to ecological services. • Support initiatives to protect water resources, rehabilitate degraded aquatic systems, retrofit or implement water demand management systems, and mainstream water conservation. • Support energy diversification and energy efficiency initiatives to enable a transition to a low carbon, sustainable energy future. 	<ul style="list-style-type: none"> • Prepare and implement management plans for municipal nature reserves and other ecological assets. • Prepare and implement invasive species control plans for municipal properties. • Prepare and implement initiatives for the rehabilitation of rivers and wetlands in urban areas.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		<p>agri-village in line with provincial policy for the settlement of farm workers, or the formalisation of the "urban" component of existing forestry settlements (for example Jonkershoek and La Motte).</p> <ul style="list-style-type: none"> Support compatible and sustainable rural activities outside the urban edge (including tourism) if these activities are of a nature and form appropriate in a rural context, generate positive socio-economic returns, and do not compromise the environment, agricultural sustainability, or the ability of the municipality to deliver on its mandate. 	<ul style="list-style-type: none"> Support initiatives to extend public access to nature assets without compromising the integrity of nature areas or ecological services. Support initiatives by the private sector to extend environmental stewardship. Assist in initiatives to diversify, strengthen, and open up new opportunities and jobs in the rural economy, including the identification of strategically located land for land reform purposes. Support initiatives to utilise municipally-owned agricultural land for small scale agriculture, forge partnerships with non-governmental or public benefit organisations to assume management responsibilities for commonages, and provide basic agricultural services to commonages. 	<ul style="list-style-type: none"> Develop resource efficient strategies for all municipal services and land and building development (e.g. compulsory green energy installations in building development, grey water circulation, sustainable urban drainage, etc.). Utilise and contribute to municipal and provincial mapping and planning initiatives that inform land use decision-making supportive of ecological integrity, securing natural resources, and protecting agricultural land of high value. Delineate and manage urban edges and watercourse setbacks in a manner which diverts urban growth pressures away from important natural and agricultural assets. Apply biodiversity offsets in cases where development in areas of endangered and irreplaceable biodiversity cannot be avoided. Actively engage with adjoining municipalities and provincial government to ensure that the integrity of SM's natural environment is maintained (specifically in relation to land use management in adjoining municipal areas).
2.	Respect, preserve and grow the cultural heritage of SM.	<ul style="list-style-type: none"> Preserve significant cultural and historic assets within the municipality and grow the opportunity for new or emerging forms of cultural expression through expanding the use of existing cultural assets or supporting new uses for areas or structures of historic value. As far as is possible, protect cultural landscape assets – including undeveloped ridge lines, view corridors, scenic routes, and vistas – from development. Support alternative uses for historic structures and 	<ul style="list-style-type: none"> Support the transfer of municipal assets of cultural and historic value to organisations geared to manage these assets sustainably in the interest of the broader community. Manage heritage places and structures in terms of the recommendations of municipal heritage studies. 	<ul style="list-style-type: none"> Maintain and utilise municipal and inter-governmental evaluation and mapping initiatives to inform land use decision-making supportive of cultural integrity, and securing historic places and structures. Actively engage – on a continuous basis – with adjoining municipalities and provincial government to ensure that the integrity of SM's heritage is maintained (specifically in relation to land use management in adjoining municipal areas).

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		places which will enable its preservation (subject to adherence to general mSDF strategy and policies).		
3.	<p>Direct significant growth or new development in SM to areas:</p> <ul style="list-style-type: none"> Not identified as of the most critical natural or cultural significance. Where the most opportunity exist in existing infrastructure investment, whether reconfigured, augmented, or expanded. 	<ul style="list-style-type: none"> Prioritise the targeted settlements on the Baden Powell-Adam Tas-R304 corridor for growth / new development. Over the mSDF period, focus on Stellenbosch town and Klapmuts to accommodate significant new growth. 	<ul style="list-style-type: none"> Align the policy and planning of all municipal services to support accommodating significant growth and new development as proposed in specific areas. Progressively utilise the municipality's significant asset of land as a resource to direct major growth or new development to areas not identified as of the most critical natural or cultural significance. Allocate municipal funds for land acquisition in areas identified as most suitable for growth or new development (specifically for development as lower income housing). 	<ul style="list-style-type: none"> Together with the WCG, undertake inter-service investigations to determine the exact location, size, nature, and form of new settlement areas to accommodate new growth. Develop specific framework planning, land use management, infrastructure, financial, and urban design provisions and directives to ensure the optimal development of identified settlement areas to accommodate new growth.
4.	<p>Clarify and respect the different roles and potentials of settlements in SM and maintain the identity of each.</p>	<ul style="list-style-type: none"> Ensure that each settlement – large and small – remains a distinct entity, surrounded by natural open space and agricultural land. Maintain a clear hierarchy of settlements which (in general terms) focus new growth and development in larger settlements to: <ul style="list-style-type: none"> Minimise associated impacts on the environment, agricultural land, and natural resources. Maximise livelihood opportunity through building on the availability of existing public facilities, and commercial opportunity. Maximise the sustainability of new facilities and commercial opportunity. Enable the provision of infrastructure in the most efficient and cost effective way. Minimise the need for inter-settlement movement. Maximise opportunity for and use of non- 	<ul style="list-style-type: none"> Align the policy and planning of all municipal services to support the proposed settlement hierarchy and development/ management approach. Reinforce the role of Stellenbosch town as a regional service and tourism centre focused on higher order educational, health, government, and commercial uses, as well as unique historic assets. Reinforce the role of Klapmuts as a potential regional logistics / warehousing / manufacturing hub – with associated residential opportunity – based on its location at the intersection of the N1 and regional north / south movement routes. Maintain Franschhoek as a centre for tourism and culture with limited growth potential. 	<ul style="list-style-type: none"> Support the re-location of land extensive manufacturing, logistics, and warehousing enterprises from Stellenbosch town to Klapmuts. Maintain the nature and form of small rural settlements while enabling small changes towards improving livelihood opportunity.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		<p>motorised and public transport.</p> <ul style="list-style-type: none"> Minimise growth in smaller settlements where opportunity is limited while improving access to local services and facilities (required daily). Maintain and enhance the unique historic, cultural, and settlement characteristics of different settlements. 		
5.	Ensure a balance approach to transport in SM, that appropriately serves regional mobility needs and local level accessibility improvements.	<ul style="list-style-type: none"> Actively promote compact, dense, mixed use development which reduces car dependence and enables and promotes use of public and NMT. 	<ul style="list-style-type: none"> Shift municipal resources to include a greater focus on non-motorised, shared vehicle travel, and public transport solutions. Establish measures to ensure that there is inter-service agreement on the settlement hierarchy, settlement roles, and associated function, modes of transport to be carried, and development / management approach to be followed in relation to different sections of the municipal movement network. Work with provincial and national government to affirm the proposed categorisation of movement forms, and associated infrastructure and management needs in Stellenbosch. Proactively seek management of travel demand among key stakeholders in SM, in a manner that significantly higher passenger volumes are gradually achieved from existing transport infrastructure. Proactively allocate resources to improve NMT in the municipal area. Strengthen the role played by rail based public transport, including advocating for a new, lighter, frequent rail service on the Eerste River / Klipmuts rail line as backbone of transport movement along the Baden Powell-Adam Tas-R304 corridor. 	<ul style="list-style-type: none"> Assess future transport development / improvements in relation to impact on the complete settlement system. Guard against needed / required vehicular routes of necessity resulting in development of undeveloped land traversed by the route.
6.	Develop all settlements as balanced, inclusive, appropriately serviced, communities, negotiable through NMT and exhibiting a positive relationship with surrounding nature and	<ul style="list-style-type: none"> Work towards and maintain – for each settlement in the municipality – a compact form and structure to achieve better efficiency in service delivery and resource use, the viability of public and NMT, and facilitate inclusion, integration, and entrepreneurship development. Adopt a conservative view towards the extension of existing 	<ul style="list-style-type: none"> Proactively drive transport demand management programmes (specifically in and around Stellenbosch town) to curtail private vehicle use. Shift more transport resources to the development and operation of effective public transport services and comprehensive provision of NMT. 	<ul style="list-style-type: none"> Review the delineation of restructuring zones to support the mSDF objectives Support development which emphasises public transport / NMT as opposed to private vehicular use. Integrate spatial planning, transport planning (emphasis on public and NMT), and social facilities planning. Move away from self-reinforcing conditions for development in terms of

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
	agricultural land.	<p>urban edges over the mSDF period.</p> <ul style="list-style-type: none"> Actively support infill development and the adaptive re-use of existing structures. Support increased densities in new, infill, and redevelopment projects. Rationalise space standards – especially of social facilities – and release surplus land for other uses, specifically housing. 		<p>car parking minimum standards, and ensure the active participation and collaboration between land owner, developer, and municipality towards the provision of alternatives to car use.</p> <ul style="list-style-type: none"> Actively engage – on a continuous basis – with adjoining municipalities and provincial government to ensure that the integrity of SM's settlements as contained, balanced communities is maintained (specifically in relation to land use management in adjoining municipal areas).
	Support the general upgrading and transformation of existing informal settlements.		<ul style="list-style-type: none"> Prioritise basic residential services for poor households, specifically in informal settlements, backyard dwellings, and a minimum level of basic services to marginalised rural settlements. Resist existing informal settlements being the only viable settlement option for poor households by supporting the identification and servicing of alternative areas for settlement. Ensure that asset management best practice is followed to maintain existing infrastructure investment and prevent greater replacement cost in future. Reinforce basic service delivery with good quality urban management to support household and economic asset development. 	<ul style="list-style-type: none"> Put in place an inter-governmental portfolio of land (existing and earmarked for purchase), an agreed land preparation programme, and a release strategy, for publicly assisted, lower income housing (including the BNG, FLISP, social / rental, and GAP markets). Identify alternative settlement locations for poor households, over and above existing informal settlements. To assist the municipality in housing provision, support initiatives to house farm workers on farms (in a manner which secures tenure).
	Expand housing opportunity for a broader range of groups – including lower income groups and students – particularly in settlements forming part of the Baden Powell-Adam Tas-R304 corridor.		<ul style="list-style-type: none"> The planning of infrastructure and social facilities should accommodate the likelihood of back-yarding and its contribution to livelihood strategies. 	<ul style="list-style-type: none"> Develop an inclusionary housing policy and guidelines. Prioritise infill housing opportunity on public land for the BNG, FLISP, social / rental, and GAP markets. Where possible, proactively plan for back-yarding opportunity in lower income housing projects. Actively support the development of student housing in Stellenbosch town.
	Provide and maintain a system of accessible social facilities, integrated with		<ul style="list-style-type: none"> Reinforce social facilities with good quality urban management to ensure service excellence and sustainability. 	<ul style="list-style-type: none"> Cluster social facilities. Locate facilities in association with public

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		public space and public and NMT routes.	<ul style="list-style-type: none"> Focus on fewer but better social facilities. 	space and public and NMT routes.
		Provide and maintain an urban open space / public space system integrated with public transport / NMT, social facilities, and linked to natural assets (e.g. river corridors).	<ul style="list-style-type: none"> Prioritise open / public space development in poor and denser neighbourhoods of the municipality. Reinforce open / public space with good quality urban management to ensure use and safety. 	Ensure that the edges between building development and open spaces promote activity and passive surveillance.
		Ensure work and commercial opportunity accessible through public and NMT to all communities and providing opportunities for emerging and small entrepreneurs.		<ul style="list-style-type: none"> Avoid large retail malls and office parks in peripheral locations reliant on private vehicular access and which detract from the viability of established commercial and work areas, and lock out small entrepreneurs.
7.	Actively seek conditions to enable the private and community sectors to align their resources and initiatives with the mSDF principles and proposals.	Conscious of public resource constraints, actively seek and support private and community sector partnership to expand livelihood opportunities, settlement opportunity for ordinary citizens, and the national imperative to expand participation in the economy.	Develop an incentives package to support private and community sector partnerships in achieving the mSDF principles and proposals.	<ul style="list-style-type: none"> Enable private and community sector participation by making known the municipality's spatial principles and intent in user friendly communiques and guidelines. Require private land owners in key areas to plan and coordinate development collectively (beyond individual property boundaries and interests) in order to ensure appropriate infrastructure arrangements, the provision of inclusionary housing, public facilities, and so on.
8.	Focus major development energy in SM on a few catalytic development areas that offer extensive, inclusive opportunity.	Focus major development effort in SM on: <ul style="list-style-type: none"> Unlocking development in Klapmuts North. The Adam Tas Corridor (in Stellenbosch Town). 	<ul style="list-style-type: none"> Clearly communicate municipal objectives and principles – across functional areas and services – for development and urban management in catalytic areas. Seek land owner, provincial government, and national government support to develop catalytic areas in the best public interest. Support the establishment of institutional arrangements solely dedicated to enable development of catalytic areas and proceed with work to detail the broader plan and activity programme. Align municipal infrastructure and social services planning to support development in catalytic areas. Use municipal and government owned land assets to support development in catalytic areas. 	<ul style="list-style-type: none"> Ensure that catalytic areas be developed as inclusive, appropriately serviced communities, negotiable through NMT and exhibiting a positive relationship with surrounding nature and agricultural land. Prepare land use management measures to enable development in catalytic areas. Define catalytic areas as "restructuring" or other special-measure areas to enable benefit from national and provincial support and incentives.

4.15 Catalytic Initiatives

4.15.1 Adam Tas Corridor (ATC)

The most strategically located land in Stellenbosch town comprises large industrial spaces, including land previously occupied by Cape Sawmills and Distell facilities. A significant proportion of these have been vacated or will be vacated in the foreseeable future in response to changes in the operating context of manufacturing enterprises. Thoughtful redevelopment of these spaces – at scale – can contribute meaningfully to meeting existing challenges and mSDF objectives.

In simple terms, the concept is to launch a process of re-imagining and re-purposing the land around the Adam Tas Road within the Stellenbosch town to enable maximum potential of this space. This will entail the redevelopment of the Adam Tas Corridor which includes, the area stretching along the R310 and R44 along the foot of Papegaaiberg, from the disused Cape Sawmills site to the west of Kayamandi and Cloeteville along the north part of this corridor.

It forms the western edge to the town but is not well integrated with the rest of Stellenbosch, largely because of the barrier / severance effect of the R44 and the railway line. Much of the area was historically utilised for light industrial and manufacturing purposes. It includes the dis-used sawmill site, the government owned Droë Dyke area, Distell's Adam Tas facility, Oude Libertas, various Remgro property assets, Bosman's Crossing, the rail station, Bergkelder complex, Van der Stel sports complex, the George Blake Road area, and parts of Kayamandi and Cloeteville. Under-utilised and dis-used land in the area measures more than 300ha.

Conceptually, a linear new district within Stellenbosch is envisaged adjacent to and straddling (in places) Adam Tas Road, the R44, and railway line. Overall, development should be residentially-led with a strong mixed use basis, high density and should favour non-motorised ("NMT") access to the centre of Stellenbosch Town. It is estimated that Adam Tas Corridor through a preliminary development conceptual framework that the ATC will produce approximately 3 million square metres of bulk within a 293ha area, with 69% earmarked for residential usage.

A central movement system (with an emphasis on public transport and NMT) forms the spine of the area and is linked to adjacent districts south and west of the corridor. The corridor retains west-east and north-south vehicular movement (both destined for Stellenbosch town and through movement) as well as the rail line. Remote parking facilities will enable ease of access within the corridor concept, with passengers transferring via public transport, cycling and walking to reach destinations within the town of Stellenbosch.

The corridor is not envisaged as homogenous along its length, with uses and built form responding to existing conditions and its relationship with surrounding areas. Conceptually, three (3) areas could be defined, each linked through a sub-district.

-  Grow Stellenbosch town – and accommodate existing demand – in a manner which prevents sprawl, and create conditions for efficient, creative living and working;
-  Stimulate and act as a catalyst for the development of improved public transport and NMT;
-  Rethink and reconstruct infrastructure, and particularly the movement system, including the possible partial grade separation of east-west and north-south movement systems, in turn, integrating the east and west of town and releasing land for development;
-  Integrate Kayamandi and Stellenbosch town seamlessly;
-  Shift new development focus to the west of town, with Die Braak and Rhenish complex forming the centre and seam between the new west and east of Stellenbosch town;

- Investigating options for alternative parking provision initiatives in and around the town whilst the corridor provides for and promotes a greater focus -for non-motorised transport;
- Accommodate uses which meet urgent needs, specifically higher density housing and university expansion, also assisting in establishing a compact, less sprawling town, public transport, and NMT; and
- Increases land value east of the R44 and in the area between Kayamandi and the Bergkelder complex.

Along the corridor as a whole – depending on local conditions – significant re-use of existing buildings is envisaged. This is seen as a fundamental prerequisite for diversity, in built character and activity (as re-purpose offers the opportunity for great variety of spaces). Aspects of the industrial history of the area should remain visible. A range of housing typologies, accommodating different income groups and family types.

Redevelopment in terms of the concept offers the opportunity to:

- Re-imagine the future use of the land encompassed in the ATC;
- Grow Stellenbosch town – and accommodate existing demand – in a manner which prevents sprawl, and create conditions for efficient, creative living and working;
- Stimulate and act as a catalyst for the development of improved public transport and NMT;
- Reconstruct infrastructure, and particularly the movement system, including the possible partial grade separation of east-west and north-south movement systems, in turn, integrating the east and west of town and releasing land for development;
- Integrate Kayamandi and Stellenbosch town seamlessly;
- Shift new development focus to the west of town, with Die Braak and Rhenish complex forming the centre and seam between the new west and east of Stellenbosch town;
- Investigate options for alternative parking provision initiatives in and around the town whilst the corridor provides for and promotes a greater focus -for non-motorised transport; and
- Accommodate uses which meet urgent needs, specifically higher density housing and university expansion, also assisting in establishing a compact, less sprawling town, public transport, and NMT.

Existing manufacturing enterprises can gradually relocate to the north, closer to the N1 logistics corridor (as planned by Distell for their operations).

A Local Spatial Development Framework ("LSDF") is currently being drafted and will be used as the enabling planning framework to realise the implementation of the Adam Tas Corridor over the next 3 – 20 years. This LSDF will include an Implementation Framework that will provide guidance in respect of the following:

- Most appropriate Land Use Strategy;
- Action Areas / Catalytic Projects;
- Framework for Investment; and
- Other enabling Interventions.

The LSDF and its Implementation Framework will spell out – in broad terms – what activities should ideally happen where (and in what form), where to start, and what infrastructure is anticipated by when. However, a spatial plan is not enough. The preparation of the plan has to be situated within a broader surround of development and transport objectives, institutional arrangements and agreements, and parallel professional work streams, which is currently being initiated in conjunction with the Western Cape Government: Department of Environmental Affairs and Development Planning ("DEA&DP") as

the coordinator within WCG.

Institutional arrangements are critical, which includes all spheres government, private stakeholder involvement and established partnerships. It would include broad agreement between land owners and the municipality to pursue the corridor development concepts.

Critical also, both for the Adam Tas Corridor and the broader Baden Powell-Adam Tas-R304 development corridor is to explore the feasibility of introducing a more reliable and frequent rail service along the Eerste River-Stellenbosch-Muldersvlei-Klapmuts rail line. The aim should be to have a more frequent passenger service along the corridor.

The Adam Tas Corridor is the start of Stellenbosch's emerging urban transformation district and the vision is to create an integrated urban development corridor that is liveable, safe, resource-efficient, socially integrated, economically inclusive and globally competitive, in which all citizens can actively participate. The Adam Tas Corridor concept will require sustained, committed work over a prolonged period, trade-offs, and a departure of current norms, i.e. investigation of overlay zones e.g. Urban Development Zones ("UDZ"), Special Ratings Areas ("SRA"), etc., to be included within the Stellenbosch Municipality Zoning Scheme By-law, 2019.

The emerging objectives for the Adam Tas Corridor are as follows:

- Re-purposing and transforming Stellenbosch Town, using existing under-utilised assets in a manner to benefit all and address critical needs;
- Establishing a process and plan which gives certainty and sufficient flexibility to accommodate the unknown while enabling a *"starting through sharing, learning by doing and using small steps to inform the next methodology"*;
- Broadening opportunity for a range of stakeholders, while accommodating varying degrees of readiness and material means; and
- To place Stellenbosch in the heart of the most important urban development project in the province.

Figure 26: Adam Tas Corridor

Figure 27: ATC development precinct

4.15.2 Development of Klappmuts

The Greater Cape Metro Regional Spatial Implementation Framework (RSIF) contains very specific policy directives related to Klappmuts, aimed at addressing pressing sub-regional and local space economy issues. Key policy objectives include:

- Using infrastructure assets (e.g. key movement routes) as “drivers” of economic development and job creation;
- Recognition that existing infrastructure in the area (i.e. N1, R101, R44 and the Paarl-Bellville railway line and station) dictate the location of certain transport, modal change or break-of-bulk land uses;
- Recognition of the Klappmuts area as a significant new regional economic node within metropolitan area and spatial target for developing a “consolidated platform for export of processed agri-food products (e.g. inland packaging and containerisation port)” and “an inter-municipal growth management priority”;
- The consolidation of and support for existing and emerging regional economic nodes as they offer the best prospects to generate jobs and stimulate innovation;
- The clustering of economic infrastructure and facilities along public transport routes;
- Maintaining valuable agricultural and nature assets; and
- Providing work opportunity in proximity to living areas.

There is no doubt that Klapmuts is a potentially significant centre for economic activity and residence within the metropolitan region and SM, located as it is on the N1 transport corridor which carries 93% of metropolitan freight traffic. To date, the settlement is characterised by residential use and limited commercial and work-related activity. Public sector resource constraints have prevented the infrastructure investment required to enable and unlock the full potential of the area for private sector economic development as envisaged in the GCM RSIF.

The decision by Distell Limited to relocate to and consolidate its operations in Klapmuts is critical to commence more balanced development of the settlement. Distell Limited proposes to develop a beverage production, bottling, warehousing and distribution facility on Paarl Farm 736/RE, located north of the N1, consolidating certain existing cellars, processing plants, and distribution centres in the Greater Cape Town area. The farm measures some 200 ha in extent. The beverage production, bottling, warehousing and distribution facility will take up approximately 53 ha.

The project proposal includes commercial and mixed-use development on the remainder of the site which is not environmentally sensitive to provide opportunities both for Distell's suppliers to co-locate, and for other business development in the Klapmuts North area. The site does not have municipal services, and the proposed development will therefore require the installation of bulk service infrastructure, including water, wastewater treatment, storm water, electricity, and internal roads.

Significant progress has been made in planning for a "Innovation Precinct" or "Smart City" district west of but contiguous to Klapmuts south. This includes a land agreement with the University of Stellenbosch to possibly establish university related activities in this area. The urban edge has been adjusted in recognition of the opportunity associated with this initiative (See Figure 55 for the concept Development Framework).

A number of issues require specific care in managing the development of Klapmuts over the short to medium term.

-  The first is speculative applications for land use change on the back of the proposed Distell development. Already, a draft local plan prepared by DM has indicated very extensive development east of Farm 736/RE. Distell will not fund the extensive infrastructure required to unlock development here, and arguably, land use change to the east of Farm 736/RE could detract from the opportunity inherent in Farm 736/RE;
-  The second is the linkages between Klapmuts north and south, specifically along Groenfontein Road and a possible NMT crossing over the N1 linking residential areas south of the N1 directly with Farm 736/RE. Without these linkages, residents to the south of the N1 will not be able to benefit from the opportunity enabled north of the N1; and
-  The third is speculative higher income residential development in the Klapmuts area, based on the area's regional vehicular accessibility. Higher income development is not a problem in and of itself, but ideally it should not be in the form of low density gated communities.

Given that management of Klapmuts is split between DM and SM (respectively responsible for the area north and south of the N1), special arrangements will be required to ensure that the settlement as a whole develops responsibly, in a manner which ensures thoughtful prioritisation, infrastructure investment, and opportunity for a range of income groups.

Arguably, recent LSDF planning work commissioned by DM for the area east of Farm 736/RE begins to illustrate the problem of insufficient coordinated planning. The LSDF envisages a very significant extent of development for Klapmuts North. Specifically, in terms of a 20-year growth trajectory, Commercial Office development of 912 354m² is envisaged, Commercial Retail development of 187 839m², and General Light Industrial Development of 370 120m². A number of issues emerge:

Firstly, the realism of these land use projections within the context of the regional economy is questioned. To illustrate:

- ✚ Considering the envisaged Commercial Office allocation, it is noted that Cape Town CBD currently has some 940 000m² of office space, Sandton in Gauteng is larger at over 1,2m m² of Commercial Office space, Midrand at some 640 000m², and Century City (some 20 years in the making) at some 340 000m²;
- ✚ In relation to Commercial Retail space, it is noted that more of this use is envisaged for Klapmuts North than Century City's current 140 000m²;
- ✚ While 370 120m² is provided for General Light Industrial Development, the proposed Distell distribution centre alone will comprise 125 000m², and many new logistic centres recently completed in the Kraaifontein / Brackenfell area range in size between 45 000m² and 120 000m². The master plan prepared as part of the acquisition process of Farm 736/RE foresee significantly more light industrial floor area than the 370 120m² indicated in the LSDF.

Secondly, these land use allocations need to be viewed against the policy context, which sees Klapmuts as a regional freight/ logistics hub – with a focus on job creation – and establishing a balanced community. It would appear that the LSDF over-emphasises commercial office and retail development, “exploiting” the areas’ access to regional vehicular routes, and private vehicular access, at the expense of job creation at scale – and establishing a regional light industrial hub – serving an existing poorer community in proximity to a freight movement corridor.

Thirdly, it is maintained that the infrastructure service requirements – and affordability – of the projected land use allocations are understated. For example, it is known that any development north of the N1 over and above the proposed Distell distribution centre of 125 000m² will involve very costly reconfiguration and augmentation of intersections with the N1. It would be irresponsible to create expectations around land use without these associated requirements being resolved to a fair degree of detail.

Finally, Farm 736/RE is remarkably unique; comprising some of the least valuable agricultural land within the Paarl/ Stellenbosch area. It would appear that the LSDF, given the development process for Farm 736/RE, assumes that adjacent land to the east, of higher agricultural value, should also be developed.

4.15.3 Alternative rail service along the Baden Powell Drive-Adam Tas-R304 corridor

As indicated above, it is critical, both for the Adam Tas Corridor and the broader Baden Powell-Adam Tas-R304 development corridor to explore the feasibility of introducing a more frequent and reliable rail service along the Eerste River-Stellenbosch-Muldersvlei-Klapmuts rail line. The aim should be to have a more frequent passenger service along the corridor, connecting larger and smaller settlements. Lighter rail stock – possibly in the form of a “tram” system has been suggested - offering the advantage of safe at grade crossing of the rail line and other modes of transport, in turn, enabling “lighter” infrastructure support for settlement development and concomitant cost savings. Alternatively, the viability of a regular bus service along this route should be explored. The SM should commence engagements with PRASA in this regard.

As argued elsewhere in this document, Stellenbosch town and Klapmuts should be the focus for significant settlement growth. It is here, by virtue of settlement location in relation to broader regional networks and existing opportunity within settlements, that the needs of most people can be met, in a compact settlement form while protecting the municipality’s nature and agricultural assets.

Over the longer term, Muldersvlei / Koelenhof and Vlottenburg along the Baden Powell-Adam Tas-R304 corridor could possibly accommodate more growth, and be established as inclusive settlements offering a range of opportunities. However, much work needs to be done to ensure the appropriate

make-up of these settlements (including each providing opportunity for a range of income groups) and integration with the corridor in terms of public transport.

The smaller settlements are therefore not prioritised for significant development over the *mSDF* period. Should significant development be enabled in these areas now, it is likely to be focused on private vehicular use and higher income groups, and will in all probability reduce the potential of initiatives to transform Stellenbosch town and Klappmuts.

4.16 Institutional Arrangements

The SM has dedicated staff resources for spatial planning, land use management, and environmental management organised as the Planning and Economic Development Directorate). Work occurs within the framework set by annually approved Service Delivery and Budget Implementation Plans (aligned with the IDP), decision-making processes and procedures set by Council, and a suite of legislation and regulations guiding spatial planning, land use management, and environmental management (including SPLUMA, LUPA, and the National Environmental Management Act, 1998 (Act No. 107 of 1998)).

The Planning and Economic Development Directorate will facilitate implementation of the *mSDF* in terms of institutional alignment, including:

-  The extent to which the main argument and strategies of the *mSDF* are incorporated into Annual Reports, annual IDP Reviews, future municipal IDPs, and so on;
-  The annual review of the *mSDF* as part of the IDP review process.
-  The extent to which the main argument and strategies of the *mSDF* inform sector planning and resource allocation;
-  The extent to which the main argument and strategies of the *mSDF* inform land use management decision-making;
-  Alignment with and progress in implementing the municipality's Human Settlement Plan and Comprehensive Integrated Transport Plan; and
-  The mutual responsiveness of the *mSDF* and national, provincial and regional plans, programmes and actions (including the extent to which *mSDF* implementation can benefit from national and provincial programmes and funding).

Over and above institutional arrangements in place, it appears that two aspects require specific focus in support of the *mSDF*.

4.16.1 Inter-municipal planning

The first relates to inter-municipal planning. As indicated elsewhere in the *mSDF*, SM (and other adjoining municipalities) appears to experience increasing challenges related to development pressure in Cape Town. This pressure is of different kinds. The first is pressure on the agricultural edges of Stellenbosch through residential expansion within Cape Town. The second is migration to SM (whether in the form of corporate decentralisation, or both higher and lower income home seekers), leading to pressure on available resources, service capacity, and land within and around the settlements of SM. While municipal planners do liaise on matters of common concern, there appears to be a need for greater high-level agreement on spatial planning for “both sides” of municipal boundaries. The spatial implications of pressure related to migration to SM could be managed locally, should there be agreement to redevelop existing settlement footprints rather than enabling further green-fields development (as a general rule). However, the municipality's increased resource needs to accommodate new growth – a non-spatial issue – should be acknowledged and addressed.

4.16.2 Private sector joint planning

The second relates to joint planning and action resourced by the private sector, increasingly needed for a number of reasons:

-  The municipal human and financial resource base is simply too small to achieve the vision of the *mSDF* or implement associated strategies and plans;
-  Many matters critical to implementing the *mSDF* fall outside the direct control or core business of the municipality. For example, the municipality does not necessarily own the land associated with projects critical to achieve *mSDF* objectives;
-  It is increasingly evident that individual land owners are finding it difficult to develop – to make the most of what they have – individually. Specifically, the transport and movement implications of individual proposals require strong and dedicated integration;
-  Individual land owners do not necessarily control the extent of land required to undertake inclusive development, focusing on opportunity for a range of income groups. Inclusive development often requires cross-subsidisation, in turn, enabled by larger land parcels and development yields; and
-  The municipality's focus is often – and understandably so – on the “immediate”, or shorter-term challenges. Much what is needed to implement the *mSDF* or catalytic projects requires a longer-term view, a committed focus on one challenge, and cushioning from the daily and considerable demands of municipal management.

Partnerships are needed, with different agencies and individuals working in concert with the municipality to implement agreed objectives. Further, partnerships are required between individual corporations and owners of land. The Adam Tas corridor is a prime example: making the most of the disused sawmill site, Bergkelder complex, Van der Stel complex, Die Braak and Rhenish complex – in a manner which contributes to agreed objectives for developing Stellenbosch town – is only possible if various land owners, the municipality, University, and investors work together, including undertaking joint planning, the “pooling” of land resources, sharing of professional costs, infrastructure investment, and so on. The municipality simply do not have the resources – and is overburdened with varied demands in different locations – to lead the work and investment involved.

4.16.3 Further Planning Work

Future settlement along the Baden Powell Drive-Adam Tas-R304 corridor

As indicated above, over the longer term, Muldersvlei / Koelenhof and Vlottenburg along the Baden Powell-Adam Tas-R304 corridor could possibly accommodate more growth, and be established as inclusive settlements offering a range of opportunities. However, these settlements are not prioritised for development at this stage. Critical pre-conditions for significant development include:

-  The measures required to ensure that settlements provide for a range of housing types and income groups (in a balanced manner);
-  Establishing regular public transport services between settlements, including services between the expanded smaller settlements and Stellenbosch town; and
-  Understanding to what extent settlements can provide local employment, in this way minimising the need for transport to other settlements.

4.16.4 Other local planning initiatives

Ideally, each of the settlements in SM should have a LSDF, applying the principles of the *mSDF* in more detail. The priority for LSDFs should be determined by the position and role of settlements in the SM settlement hierarchy.

The SM has appointed service providers to investigate and establish the rights for two regional cemetery sites in the municipal area. All the specialist studies have been completed and the Land Use Planning and Environmental applications was submitted and in progress. The first is the proposed Calcutta Memorial Park, located ± 10 km north-west of Stellenbosch to the east of the R304, on Remainder of Farm 29, Stellenbosch RD. The second is Louws Bos Memorial Park located south-west of Stellenbosch town and south of Annandale Road, on Remainder of Farm 502, Stellenbosch.

4.16.5 Checklists in Support of Decision-Making

To further assist in aligning day-to-day land use and building development management decision-making and detailed planning – public and private – with the *mSDF*, it is proposed that a “checklist” of questions be employed.

If the initiators of development proposals, applicants, officials, and decision-makers all, in general terms, address the same questions in the conceptualisation, assessment, and decision-making related to proposals, a common, shared “culture” could be established where key tenets of the SDF is considered and followed on a continuous basis.

Although focused on the location, nature, and form of activities in space, the checklist incorporates questions addressing issues beyond space, including matters of resource management, finance, institutional sustainability, and so on.

It is not envisaged that the checklist be followed slavishly in considering every development proposal. Yet, its use is important in ensuring that relevant issues be addressed and discussed to enable decision-making in line with the *mSDF* and broader provincial and national planning policy. If, in assessing a proposal or project, posing a question results in a negative answer, the proposal probably requires very careful consideration, further work, or change.

The checklist should not be viewed as static. Rather, it should be reviewed periodically and in parallel with the *mSDF* review – perhaps under the leadership of the Municipal Planning Tribunal and with input from all stakeholders – to reflect the municipal spatial planning agenda and challenges.

It is proposed that the questions – together with the SPLUMA principles, and the key SDF strategies and policies – are packaged in an easy-to-use and accessible form to facilitate wide usage.

4.16.6 Partnerships

Arguably, the municipal budget is simply too small to achieve the vision of the SDF's or implement associated strategies and plans. Also, many matters critical to implementing the SDF, fall outside the direct control or core business of the municipality. For example, the municipality does not necessarily own the land associated with projects critical to achieve SDF objectives.

Even if the municipal budget is increased ten-fold, or its staff resources significantly enhanced, it would still not have the control to do what is needed for the capacity to drive critical projects. The municipality's focus is often – and understandably so – on the “immediate”, or the shorter-term challenges. Much what is needed requires a longer-term view, a committed focus on one challenge, and cushioning from the daily and considerable demands of municipal management.

Partnerships are needed, with different agencies and individuals working in concert with the municipality to implement agreed objectives. Further, partnerships are required between individual corporations and owners of land. It is increasingly evident that individual land owners are finding it increasingly difficult to develop – to make the most of what they have – individually. Specifically, the transport and movement implications of individual proposals require strong and dedicated integration. The Adam Tas corridor is a prime example: making the most of the disused sawmill site, Bergkelder complex, Van der Stel complex, Die Braak and Rynse complex – in a manner which contributes to agreed objectives for developing Stellenbosch town – is only possible if various land owners, the municipality, University, and investors work together, including undertaking joint planning, the “pooling” of land resources, sharing of professional costs, infrastructure investment, and so on.

The municipality simply does not have the resources – and is overburdened with varied demands in different locations – to lead the work and investment involved.

There appears to be an opportunity to establish a new partnership with business, to the side of the municipality, to drive major integrated projects, and specifically the Adam Tas Corridor. Fortunately, Stellenbosch has established (private sector) institutions with an astounding track record in achieving urban development / management objectives (e.g. Historiese Huise). Their work can be expanded, to assist in meeting new challenges, in partnership with the municipality.

CHAPTER 5

Strategic Policy Context

5.1 Municipal Vision and Strategy

The figure below illustrates our overarching strategy of Stellenbosch Municipality.

Figure 29: Overarching Strategy of Stellenbosch Municipality

VISION

We describe the vision of where we want to be as a Municipality and the Greater Stellenbosch area as the **“Valley of Opportunity and Innovation.”**

MISSION

Our mission is to deliver cost-effective services that will provide the most enabling environment for civil and corporate citizens.

VALUES

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

5.2 Strategic Focus Areas

5.2.1 Strategic Focus Area 1: Valley of Possibility

The Stellenbosch area offers ample possibilities to their stakeholders. The unlocking of these possibilities to encourage opportunity for enterprise, creativity and business development in our cities, towns and villages are an urgent issue in South Africa. Unemployment, poverty, income inequality, and skills shortages are major concerns impacting the economy. This strategic focus area has three broad dimensions that addresses these challenges: The first relates to the provision of services to citizens, and how these services can assist them to facilitate development and job creation. The second relates to the internal working of the municipality and how municipal procurement of services aids in fostering opportunity for enterprise development and creativity. The third dimension asserts that efficient infrastructure and services lie at the heart of the municipality's mandate. Infrastructure and services of different kinds fulfil the basic needs of citizens, and also enable enterprise and business development. Without appropriate, well-maintained infrastructure, the greater Stellenbosch area will fail as a place of living, work and learning.

5.2.2 Strategic Focus Area 2: Green and Sustainable Valley

There are a number of dimensions to the environment that underpinned its importance for the greater Stellenbosch area and for the people living within it. The first is an ecological dimension, which recognises that the natural environment and its processes provide the setting in which, and the basic resources with which, human life is played out.

The second is an economic and productive dimension, which recognises that the natural environment underpins a vitally important tourism and agricultural economy. The third is a psychological, social, and recreational dimension, which recognises that human life is qualitatively affected by a sense of place, and the need for places of 'escape' from urban life. The fourth is a cultural dimension, which recognises the inextricable relationship between the characteristics of a place, peoples' activities in that place, and the emergence of cultural expressions and forms.

There are at least three reasons why spatial direction is important. Firstly, we live our lives in geographic spaces; how activities and infrastructure are organised in space fundamentally impact on people's access to opportunity. For example, prioritising new urban development on agricultural land may harm the overall viability of agriculture and food security of an area. Another example is the location of housing for poor people far away from work opportunities, which impacts on disposable income, work productivity and transport infrastructure provision. Secondly, the Municipal strategy has over the last decade taken a strong sectoral approach. The approach looks at development in sectors as reflected in the LED plans, plans for creative industries, small enterprises, tourism, and so on. Unfortunately, much of this work is silent on the impact of space on specific sectors and has assisted to hide spatial inequity in our settlements. Thirdly, municipal government has considerable influence over the space economy of settlements. By virtue of its mandate, local government can determine the nature and location of key infrastructure and where settlement is to occur and where not. Local government cannot grow the economy, but it impacts on economic success through the provision and maintenance of infrastructure and how activities are organised in space.

5.2.3 Strategic Focus Area 3: Safe Valley

Establishing safety and law abiding behaviour in greater Stellenbosch is an absolute priority. All our efforts to improve services, opportunity and sound a financial position – including affordable rates – will come to nothing if by-laws are not respected, our assets are vandalised, or our neighbourhoods, roads, business areas and recreational facilities are not safe. Safety and security, together with cleanliness, are often cited as the most important factors in getting investment into a city or town. A safe and secure greater Stellenbosch area is thus not only a functional necessity, but underpins elements of economic and social development strategies.

5.2.4 Strategic Focus Area 4: Dignified Living

All our citizens should have access to a dignified life, irrespective of their relative material wealth or their background. By a dignified life we mean, inter alia, access to shelter, ethical administration of municipal housing, and sufficient choice in housing opportunity for different income groups, including young people. We also mean neighbourhoods with accessible public facilities and services. Support for vulnerable groups, including the youth, women and the elderly is critical, as is a close working relationship with other government and social agencies that focus on the needs of these groups.

5.2.5 Strategic Focus Area 5: Good Governance and Compliance

As more people become urbanised, towns and cities have become increasingly important foci of political and economic power and service provision. As the 13th largest economy nationally, the greater Stellenbosch area and municipality is a significant seat of power and deliverer of services. Deciding what to do, when, where and to whose benefit it is, however, is a difficult task. The range of services to be provided is wide in scope, and the needs of citizens and enterprises vary significantly. Given the depth of need in many communities and limited resources, tough choices have to be made. To succeed, municipalities have to develop appropriate policy- and decision-making structures and plan carefully for the long and short term (across territorial areas and sectors). They should also ensure

synergy between the work of the political and administrative spheres of the municipality, their own work and that of other spheres of government, civil society and the business sector. Municipalities should communicate well; and monitor processes and procedures in a structured manner. It is also important that excellence in service delivery contributions, external and internal to the organisation, needs to be recognised and built upon.

We cannot service the needs of our citizens without a skilled and customer-focused administration in all the different functional areas and at all levels of the municipality. Given rapid change in all facets of society, the opportunity must exist for staff to develop their skills, whether in specific functional areas or management. To ensure best use of public resources, regular performance management is essential. Information must be readily available, and contact between citizens and the municipality should be responsive and as efficient as possible.

The facilities that house the administration also need to be organised in a manner that facilitates integrated and joint work among the staff themselves, and between staff, political leadership and other sectors of the community.

A sound financial basis is central to implementing any strategy. The greater Stellenbosch area is no exception. In order to deliver on the needs of its citizens, the municipality is required to manage revenue streams in a sustainable manner. It also needs to ensure that funds available are utilised for identified projects and that value for money is achieved. In procuring goods and services, ethical conduct is essential to ensure the integrity of the municipality. It is most important that the use of municipal resources supports agreed upon objectives; in other words, the municipal budget and on-going expenditure must be strategy-led.

5.3 Core Principles in Executing Strategy

Shared work between political leadership, the administration and community.

The municipality comprises three core components:

-  Democratically elected political leadership;
-  The administration, comprising officials; and
-  Citizens, as individuals, interest groups and organisations (public, community-based and private).

For sustainable municipal management, it is critical that political leadership and the administration work closely together. Ultimately, democratically elected political leadership is responsible for policy direction. The administration provides advice and implements policy.

International best practice shows that the only way to carry out sustainable urban management is to engage in meaningful partnerships with communities, where communities take full responsibility for the development of their own neighbourhoods. Stellenbosch Municipality is committed to ensure that real social and economic development of our poorest communities is realised through proper community input and ownership. It is not generally realised that communities are legally part of the municipality. This being the case, however, means that local communities cannot simply play the role of critic or passive bystander. It is vital that local communities play an active part in the planning and implementation of projects and programmes in their neighbourhoods.

A component of community participation focuses on ward-based planning, where the desired outcome is to have a ward-based plan for each of the 22 wards. Ward-based plans are a form of participatory planning designed to promote community action, with clear linkages to the IDP. Such plans mobilise communities and citizens to take responsibility for their own destiny and capture what communities see as their desired outcomes. They also help to speed up the implementation of the IDP. This ensures that the IDP objectives become the collective responsibility of community members, ward

councillors, Ward Committees, the business community, NGOs and CBOs and all other stakeholders in the greater Stellenbosch. This presents an opportunity for visionary local leaders to implement a shared agenda and show tangible and measurable results through collectively addressing the above-mentioned Ward Priorities.

5.3.1 Alignment with institutional structures and processes

Conventional strategic planning processes aimed at guiding development and management decisions are time-consuming. Preparing a detailed strategic framework and implementation programme can take months. Unfortunately, these processes do not provide for the “now” – the need to guide decisions today. For municipalities, the “now” has become extremely important. Every month counts. We believe that our challenges have become so significant that if we do not find an integrated and commonly shared response to them fast, we may lose much of what is special about an area and be poorly prepared to meet future challenges successfully. We often find that the fact that a strategy is “under preparation” is used as an excuse for inaction or even poor decision-making. The arm’s length approach also appears to neglect local experiential knowledge – what people know through working with services issues on a daily basis. With this in mind we have provided for regular, informal but structured engagements between the MayCo and Director’s Forum to discuss strategic matters and how to best respond to these issues.

These planning methods bridge the gap between local experiential knowledge, the technical requirements of strategy preparation, and the need for strategic frameworks to be available to deal with immediate decision-making. This process is aimed at getting an initial position through intense, structured information-sharing and planning workshops on how to direct development and management of the town. Written up as an initial strategy, provision is made for influencing the decisions of today and the nature of further work in a manner that supports the strategy. The strategy becomes the broad strategic framework, elaborated on in further technical work.

5.3.2 Considering the different investment needs of settlement

Figure 30: The different investment needs of settlements

Fundamentally, we believe that sustainable management of any settlement requires continued focus on four investment needs. It has to provide in the basic needs of citizens; it has to maintain its assets and functions; it has to provide for crisis and disaster, and fix past mistakes; and it has to invest productively, making the settlement better for the future.

Successful settlements deal with all four of these investment needs at the same time. This makes for balanced development, allowing for both individual and public needs to be met and for the mistakes of the past to be fixed while preparing for the future.

The proportion of resources to be allocated to each dimension needs to be determined through policy, informed, in turn, by an understanding of settlement and citizen needs. Settlement needs are critical. Unlike citizen needs, settlement needs relate to the collective needs of the settlement (or part of the settlement), and often include things that are not politically popular. Major infrastructure maintenance – the kind of service that is not very visible or takes time to manifest if neglected – is a prime example.

Many local governments remain stuck in basic needs provision, managing crises and asset maintenance – a conventional municipal mandate. As a result, the urban system is merely maintained. Focus must be placed on productive investment and making new partnerships with the private and community sectors; in this way transforming the municipal area for the better.

We therefore propose that the greater Stellenbosch IDP considers these different investment needs in detail in the formulation of objectives and short- and medium-term milestones (as contained in the SDBIPs of the different services).

5.3.3 The tools of governance

All spheres of government have a range of tools available to achieve objectives and maintain relationships with citizens, the private sector, other government organisations, community sector, and so on. What is becoming increasingly true is that the complexity and interconnectedness associated with achieving the desired settlement outcomes in today's settlement context, demand the employment of a range of tools – in concert with each other. This differs from the past, where settlement management focused on infrastructure investment for growth, regulating land subdivision, and land use and built environment management. The paragraphs below outline the range or classes of tools available to government for use in pursuit of its objectives (Adapted from Neilson, L. 2002). Instruments of governance in urban management, *Australian Planner*, 39(2): 97–102).

Policy: defining/framing the position of government and direction for action in relation to issues where clear choices exist (for example, to focus on private or public transport, to grow a settlement outwards or contain it inwards).

Plan making: indicating where resources should focus functionally or spatially, in what form, and when.

Legislation: directing, constraining and rewarding (potentially) the behaviour of different actors in society (in the interest of all citizens).

Regulation: elaborating on behaviour outlined in legislation through guidelines, standards, and so on.

Fiscal measures: fees, charges and taxes for services as a means for raising government revenue, and directing action in support of policy and legislation (through fiscal "incentives").

Financial measures: the priorities and areas of government spending, including investments in infrastructure, facilities and programmes to support spatial and sectoral or functional area policy and plans.

Institutional measures: arrangements for decision-making, the allocation of powers, responsibilities, agreements and relationships between government and other actors, human resource capacity/competency, and measurement systems within government and between government and other actors.

Asset management: the approach taken to the management of government assets (land, public facilities, and so on).

Knowledge and information management: the government's investment in and dissemination of knowledge about existing/anticipated conditions which require management.

Advocacy: the positions that government take on issues, "positive" and "negative". This could be through the media, public meetings/engagements, at events, and so on.

5.3.4 Accessible documents

We firmly believe that strategic documents should be presented in a format accessible to all stakeholders. Attention should be paid specifically to the following:

For integrated service delivery over time, it is necessary for municipal leadership and officials at all levels, representing different services and interests, to understand the strategy. This cannot be achieved by presenting strategy in a number of weighty documents, each prepared by different services. The complete overall strategy needs to be presented in a manner that assists its internalisation by all.

The IDP should also be supported by a clear "story" where successive actions build on each other. Generally, achieving meaningful integration is a difficult task in municipal development strategy formulation. Work is predominantly done within different services or functional areas and then simply

'packaged' together as an 'integrated' strategy. A key aim with the IDP is therefore to show how various actions – of different kinds and often undertaken by different services, are interdependent and only have full meaning if implemented together.

5.4 Reflection, Challenges and Opportunities

To determine our strategy, an assessment of the current situation in the Stellenbosch Municipal Area is necessary. This chapter therefore reflects on the challenges to be addressed and opportunities to be explored. It is informed by the current reality of life, service delivery in the municipality, key policy directives, the expressed needs of citizens and interest groups as well as key findings of various municipal sector plans.

Our region, with its bigger towns of Stellenbosch and Franschhoek, smaller villages, historic farms and impressive valleys and mountain landscapes are imprinted in the minds of many people, nationally and internationally, as an area of environmental richness and scenic beauty, and as a place of learning, history and cultural heritage. Many have engaged with what we offer, for a brief period during a visit, for a number of years as a student, or for a lifetime as a citizen. We believe these engagements will invariably have provided enormously rich opportunities and good memories.

In the light of the current economic situation, many citizens struggle to survive. Challenges such as lack of housing, unemployment and food security impacts greatly on human dignity. Extensive work has been done to ascertain and measure the basic needs in our community, in order to improve service delivery and encourage active citizenry.

5.4.1 The environment and heritage

We know that our environment is increasingly under threat globally, in different ways. We also see it in the greater Stellenbosch area. Although development of infrastructure is crucial for service delivery it has also led to the loss of many hectares of valuable agricultural land, and some pristine nature areas have been scarred or have become less accessible for everyone to enjoy.

On the other hand, we have undermined the value of biodiversity and its impact on valuable ecosystem services such as clean air, water and cultural benefits.

5.4.2 Housing needs

We have a current and future housing backlog, half of which are for middle and upper income households. Over the past ten years Kayamandi has more than doubled its population. Cloetesville has also almost doubled in size. As the population has grown, the release of land for development and housing has not kept pace.

Housing has become so expensive that many of those who work in the Stellenbosch Municipal area commute from outside this area. For these and others, the most basic shelter – even of a temporary nature – within this municipal domain remains an unattainable dream.

5.4.3 Poverty and unemployment

We have not impacted significantly on unemployment, or made significant progress in increasing access to livelihood opportunities for poor families. The ever-increasing pressures on the international and local economy require a more intense focus on entrepreneurship. Capacity-building for the potential workforce should be better aligned with the skills required by local enterprises to ensure increased and successful placement.

5.4.4 Safety, security and wellness

The incidence of crime has increased and evidence of social disintegration is visible in our streets. The result is mistrust, increased withdrawal into private and gated lifestyles, and failure to work together for a better future. We have seen the growth of poor areas, independent of existing settlements and devoid of residential opportunity. Existing poor areas, already limited in capacity and over utilised, are now forced to accommodate new opportunities for affordable accommodation.

5.4.5 Infrastructure stress

Limited Waste Water Treatment (WWT) capacity is increasingly putting pressure on the environment, specifically polluting rivers and underground water systems. The upgrading of the current WWT works is one of the largest capital investments ever made by the Stellenbosch Municipality. It offers the opportunity to alleviate this problem.

Limited landfill space is not only a local, but a regional challenge. Minimisation and diversion of waste is therefore critical. Waste recycling offers entrepreneurial opportunities, and should therefore be encouraged.

Road congestion is a cause for great concern in key areas during peak hours. There is increasing pressure to provide more parking space in Stellenbosch. There is an increased need for initiatives on integrated transport orientated development such as non-motorised transport.

The current drought and water scarcity requires additional measures to ensure that this resource is preserved. Current water-saving initiatives need to be increased, and the percentage of unaccounted-for water needs to be significantly decreased. The limited water capacity should be taken into consideration for future developments.

It is clear that more sustainable and innovative solutions are required for future infrastructural developments.

5.4.6 Stretched municipal resources

Limited municipal resources require an increase in multi-sectoral partnerships to address the broad spectrum of needs in the community. The municipality cannot address the challenges of Stellenbosch on its own, not only because of limited resources, but also because it does not control all the variables impacting on development and management in the town and does not necessarily have the full range of competencies for the task. The municipality remains very much an institution geared to delivering a set of defined services – focused on infrastructure and maintenance.

5.4.7 Untapped capacity

Within a context of resource constraints, partnerships are frequently explored as an option to assist with municipal service delivery. Although Stellenbosch is blessed with strong intellectual, community and business competency, we have not tapped into these resources sufficiently to ensure solutions to our challenges.

This reflection has highlighted a number of considerations for review and they are as follows:

-  A longer-term focus is needed because Stellenbosch is growing. Decisions on investment and development made today will have implications for years to come (legacy projects);
-  Partnerships are essential to expand the range of functions and activities available to citizens and visitors to Stellenbosch. The municipality needs to lead with boldness and to give people a

chance to contribute and be appreciated;

In general, IDP meetings in affluent areas are very poorly attended compared to those in poor areas and a change in approach is required;

A more integrated approach to service delivery is needed in the townships to add proper programmes for maintenance, social services, and safety and security to the usual provision of **housing and infrastructure**; and

In the past, the IDP was not written to be easy to understand. A more user friendly IDP is required.

Influential factors and approaches:

The IDP process was guided by internal engagements that focused on establishing a shared understanding and agreement on the purpose and focus of public participation;

The sector input workshops increased collaboration with civil society and promoted active citizenry during the process;

A new concept was developed for the IDP feedback sessions, which combined presentations with information / helpdesks where individual needs of community were captured and addressed;

Listed Ward Priorities and needs for the past three financial years were listed and analysed and detailed feedback on these were required and received from the different Directorates to promote better engagement and integration;

Dry-run sessions on the IDP presentations assisted to improve accurate feedback to the community;

Improved communication and customer care played a vital role in the process; and

The implementation of the performance management system at the municipality has been cascaded down to managers and heads that directly report to Directors.

5.5 Global Policy Direction

The Stellenbosch Municipality's strategic planning does not occur within a vacuum. Various key policy directives are employed that range from a global reach to more specific directives applicable to the municipality and its neighbouring municipalities. All these directives are considered when framing future strategic planning and resource allocation. The sections below outline key policy directives considered when framing Stellenbosch Municipality's fourth generation IDP.

(a) Sustainable Developmental Goals (SDGs)

In September 2015, the United Nations adopted the Development Agenda, *Transforming our world: the 2030 Agenda for Sustainable Development*. The Agenda is an action plan for people, planet, and prosperity, with a focus on strengthening peace and partnerships. Central in this action plan are 17 Sustainable Development Goals (SDGs) that aim to build on the Millennium Development Goals (MDGs). The MDGs set the momentum for the SDGs to continue the people-centred development agenda.

Substantial headway was made globally after the adoption of the MDGs, with a global reduction in poverty numbers. Since the MDGs expired in 2015 and the new agenda has been taken on, the SDG's hope to expand on that success with more, focused goals. These Sustainable Development Goals are a three-dimensional tool, incorporating and integrating the social, economic and political spheres of society. This agenda also calls for participation and implementation from all sectors of society.

Figure 31: Sustainable Developmental Goals (SDG's)

(b) MDGs

- Goal 1: Eradicate extreme poverty and hunger.
- Goal 2: Achieve universal primary education.
- Goal 3: Promote gender equality and empower women.
- Goal 4: Reduce child mortality.
- Goal 5: Improve maternal health.
- Goal 6: Combating HIV / AIDS, malaria, and other diseases.
- Goal 7: Ensure environmental sustainability.
- Goal 8: Develop a global partnership for development.

(c) SDGs

- Goal 1: End poverty in all its forms everywhere.
- Goal 2: End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.
- Goal 3: Ensure healthy lives and promote well-being for all ages.
- Goal 4: Ensure inclusive and equitable quality education and promote life-long learning opportunities for all.
- Goal 5: Achieve gender equality and empower all women and girls.
- Goal 6: Ensure availability and sustainable management of water and sanitation for all.
- Goal 7: Ensure access to affordable, reliable, sustainable, and modern energy for all.
- Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
- Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialisation, and foster innovation.
- Goal 10: Reduce inequality within and among countries.

- Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable.
- Goal 12: Ensure sustainable consumption and production patterns.
- Goal 13: Take urgent action to combat climate change and its impacts.
- Goal 14: Conserve and sustainably use the oceans, seas, and marine resources for sustainable development.
- Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat deforestation, halt and reverse land degradation, and halt biodiversity loss.
- Goal 16: Promote peaceful and inclusive societies for sustainable development, to provide access to justice for all, and build effective, accountable and inclusive institutions at all levels.
- Goal 17: Strengthen the means of implementation and revitalise the global partnership for sustainable development.

5.6 National Policy Direction

5.6.1 National Strategic Outcomes

Based on the National Government's election manifesto and Medium Term Strategic Framework, a set of twelve outcomes were developed through extensive consultation and discussion at both Ministerial and administrative levels. These outcomes reflect the desired development impacts sought nationally, given government's policy priorities indicated in the diagram.

Figure 32: National Strategic Outcomes

National Strategic Outcomes	
Goal 1	• Improved quality of basic education.
Goal 2	• A long, healthy life for all South Africans.
Goal 3	• All people in SA are and feel safe.
Goal 4	• Decent employment through inclusive economic growth.
Goal 5	• A skilled and capable workforce to support an inclusive growth path.
Goal 6	• An efficient, competitive and responsive economic infrastructure network.
Goal 7	• Vibrant, equitable and sustainable rural communities with food security for all.
Goal 8	• Sustainable human settlements and improved quality of household life.
Goal 9	• A responsive, accountable, effective and efficient local government system.
Goal 10	• Environmental assets and natural resources that is well protected and continually enhanced.
Goal 11	• Create a better SA and contribute to a better and safer Africa and World.
Goal 12	• An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship.

5.6.2 National Development Plan – 2030

The President appointed a National Planning Commission in May 2010 to draft a vision and plan for the country. On 9 June 2011 the Commission released a diagnostic document and elements of a vision statement. On 11 November 2011 the vision statement and the plan was released for consideration. The Commission consulted widely on the draft plan. The National Development Plan was handed to former President Jacob Zuma in August 2012 and was adopted by Cabinet in September 2012.

Figure 33: An approach to change

(a) An approach to change

The graphic to the left demonstrates the close link between capabilities, opportunities and employment on social and living conditions. It shows how leadership, an active citizenry and effective government can help drive development in a socially cohesive environment.

The plan focuses on the critical capabilities needed to transform the economy and society. Achieving these capabilities is not automatic, nor will they emerge if the country continues on its present trajectory. Rising levels of frustration and impatience suggest that time is of the essence: failure to act will threaten democratic gains. In particular, South Africa must find ways to urgently reduce alarming levels of youth unemployment and to provide young people with broader opportunities.

Progress over the next two decades means doing things differently. Given the complexity of national development, the plan sets out six interlinked priorities:

- ✦ Uniting all South Africans around a common programme to achieve prosperity and equity.
- ✦ Promoting active citizenry to strengthen development, democracy and accountability;
- ✦ Bringing about faster economic growth, higher investment and greater labour absorption;
- ✦ Focusing on key capabilities of people and the state;
- ✦ Building a capable and developmental state; and
- ✦ Encouraging strong leadership throughout society to work together to solve problems.

(b) The Plan in brief

By 2030

- ✦ Eliminate income poverty – Reduce the proportion of households with a monthly income below R419 per person (in 2009 prices) from 39% to zero.
- ✦ Reduce inequality – The Gini-coefficient should fall from 0.69 to 0.6.
- ✦ Increase employment from 13 million in 2010 to 24 million in 2030.
- ✦ Raise per capita income from R50 000 in 2010 to R120 000 by 2030.
- ✦ Increase the share of national income of the bottom 40% from 6% to 10%.
- ✦ Establish a competitive base of infrastructure, human resources and regulatory frameworks.

- Ensure that skilled, technical, professional and managerial posts better reflect the country's racial, gender and disability makeup.

5.6.3 National IDP Guidelines and the One Plan

The 2020/21 municipal financial year represents the last year of the current municipal councils' electoral term. Therefore, the next municipal election to usher in new councils is expected to take place between August and November 2021 in terms of the Section 24 (2) of the Local Government: Municipal Structures Act, 2000 (Act No. 32 of 2000) (MSA).⁷

Given the fact that the IDP and budget would need to be reviewed and adopted by 30 June 2021, the current council has an obligation to ensure that these stipulations are complied with. In this regard, the current council will be expected to continue reviewing the IDP and ensuring that it is adopted within the legislated timeframe.

Section 25(3) of the MSA does allow the municipal council to adopt the IDP of the preceding council. However, should the incoming council be unhappy with the priorities set out by the current council, in this case, the incoming municipal council are advised to consider the existing adopted IDP and resolve to initiate or not to initiate an amendment procedure as guided by the MSA and the Municipal Performance and Planning Regulations (2001).

In addition to the preceding, the IDP guideline document, as issued by the Department of Cooperative Governance and Traditional Affairs, is developed in terms of Section 37 of the MSA, which empowers the National Minister responsible for local government to issue guidelines on drafting, adoption, or reviewing on integrated development plans. In this regard, the purpose of the revised IDP guidelines is to:

- Assist municipalities to develop IDPs that are legally compliant, reassert the strategic nature of IDPs, and ensure that they respond to key national and provincial policy imperatives;
- Provide guidance on the adoption of IDPs during an election year;
- Describe the process for transversal planning for municipal departments;
- Clarify the roles and responsibilities of stakeholders in the development, review and implementation of IDPs; and
- Clarify the relationship between IDPs and One Plans.

These IDP guidelines are targeted at:

- All categories of municipalities for the development and implementation of IDPs in the context of the National Development Plan (NDP), Integrated Urban Development Framework (IUDF) and other policy imperatives. Whilst these guidelines are relevant to all types of municipalities, they are specifically geared towards the needs of non-metropolitan municipalities;
- National and provincial departments with regards to their roles and responsibilities in the development and implementation of IDPs; and
- Government entities, traditional leadership, private enterprises (including mining companies) and other stakeholders with regards to their role in the development and implementation of IDPs.

What is the One Plan?

The One Plan is an intergovernmental plan that outlines a common vision and desired future outcomes in each district and metro space. It sets out a long-term strategic framework (25-30 years) to guide

⁷ Municipal Budget Circular for the 2021/22 MTREF, MFMA Circular 108

investment and delivery in each of the 52 district and metropolitan spaces in the country. Furthermore, the One Plan is formulated jointly by all three spheres of government through a series of collaborative intergovernmental planning sessions. This process will facilitate a shared understanding of the district / metro space amongst all spheres of government.

The formulation of a credible One Plan will enable programmatic implementation over multi-term electoral cycles thereby entrenching predictability and stability in the government planning system. This will improve performance and coherent delivery by the State, which is a necessary prerequisite for achieving desired developmental impacts. It is envisaged that the One Plan will be reviewed every 5 years in line with the local government electoral cycle and the development of the 5-year IDPs.

It is important to note that the One Plan is not a summation of government plans and does not necessarily incorporate all the projects and programmes of government departments and State Entities. The One Plan focuses on key and strategic programmes required to catalyse and advance socio-economic transformation. It is however critical for municipalities (district and local municipalities) to be aware of all key investments and plans of other spheres to be implemented within the district space including those that might fall outside the scope of the One Plan. These will be incorporated in the IDPs and other municipal development plans.

What is the relationship between the One Plan and the IDP?

The **ONE PLAN** concept comes into a planning environment where there are existing planning instruments at local, provincial and national levels of government. However, the One Plan is not introduced to replace the IDP or any other existing prescribed development, departmental strategic and annual performance plans that each sphere, department and state entity is responsible for or required to develop. The One Plan is rather informed by these plans and once in place, it will guide the review of these plans and budgets.

The table below depicts the relationship between the One Plan and the IDP.

Table 35: The relationship between the One Plan and the IDP

One Plan (Long Term - 30 Years)	IDP (Medium Term - 5 Years)
Long-term vision of the district area of impact and common understanding of goals and objectives amongst stakeholders in the district area.	Determine how the long-term vision, goals and objectives contribute towards addressing challenges at a local level by directing actions and interventions towards the vision.
Long term vision expressed in policy and long range plans across all spheres of government, i.e. NDP, PGDS, NSDF, PSDF, DSDF, etc.	Implementation of short to medium term service delivery programmes and projects informed by the MTSF, municipal SDFs, sectoral/master plans and long term financial strategies.
Determines government-wide key development strategies and priorities to be addressed.	Address municipal strategies, Council development priorities/objectives and community needs.
Conceptualisation of the desired future and results (outcomes and impact) to be achieved by the district area in the long term.	Plans implemented by municipalities and departments respond directly to the desired outcomes and impact.
Spatially referenced plans and budgets at district and metro level with emphasis on long-term catalytic programmes and interventions to unlock development potential.	Focus on implementation of immediate service delivery interventions and priority projects in the One Plan.

5.7 Provincial Policy Direction

5.7.1 The Western Cape Provincial Strategic Plan: 2019 - 2024

The Western Cape Provincial Government (WCG) committed itself, through its recently adopted Vision Inspired Priorities (VIPs), to building a values-based competent state that enables opportunity and promotes responsibility in a safer Western Cape.

The VIPs are as follows:

1. Safe and Cohesive Communities (**VIP 1**);
2. Growth and Jobs (**VIP 2**);
3. Empowering People (**VIP 3**);
4. Mobility and Spatial Transformation (**VIP4**); and
5. Innovation and Culture (**VIP 5**).

Figure 34: WCG: Vision Inspired Priorities (VIPs)

5.8 Functional Regional and District Policy Direction

5.8.1 The Cape Town Functional Region

Within the Western Cape, there is increasing support to focus strategic planning efforts within the Cape Town Functional Region, incorporates the City of Cape Town, Saldanha Bay, Malmesbury, Paarl, Stellenbosch and Hermanus. This focus recognises shared environmental resources and key regional economic interdependencies, such as commuting workforce, shared consumer catchment area, transport and other infrastructure, a second port at Saldanha, and tourism and agricultural areas amongst others. Key related initiatives include the following:

-  The planned establishment of an Economic Development Agency (EDA) in 2012. The EDA is a joint initiative of the Province and the City of Cape Town, charged with developing and leading a common economic agenda within the broader city region. The increase of unemployment, barriers to making the region more competitive and a relatively weak business brand are key issues to be addressed by the EDA;
-  Joint work by the Province and the City of Cape Town to explore the most appropriate roles for the Cape Town and Saldanha ports (and associated economic and settlement opportunity); and
-  As a key settlement within the functional region, the Stellenbosch Municipality is expected to play an active role in initiatives related to strengthening the region.

5.8.2 The Cape Winelands District Municipality (CWD M)

The Cape Winelands District Municipality has set the following strategic objectives for their District:

Table 36: CWD M Strategic Objectives

NO	Strategic Objective
SO 1	To create an environment and forging partnerships that ensure social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.
SO 2	Promoting sustainable infrastructure services and a transport system which fosters social and economic opportunities
SO 3	Providing effective and efficient financial and strategic support services to the Cape Winelands District Municipality.

(a) Cape Winelands District Rural Development Plan (CWDRDP)

The Cape Winelands District Rural Development Plan (Cape Winelands DRDP) has been prepared specifically to ease integration of the Agri-Park Initiative and accompanying DRDLR (Department Rural Development and Land Reform) projects into the various Local Municipal and District Integrated Development Plans and Spatial Development Frameworks. It is also intended to assist the Local Municipalities, District Municipalities, as well as the other sector departments to invest in a coordinated manner to best enable the development and functioning of the Agri-Park.

(b) Cape Winelands District Agri-Park Vision

The Cape Winelands DM Agri-Park will be a catalyst for rural economic development / industrialisation ensuring development and growth in order to improve the lives of all communities in the district.

(c) Cape Winelands District Agri-Park Mission Statement

Our mission is to strive for a viable and sustainable Agri-Park, delivering good returns for smallholder and emerging farmers, investors, customers, black entrepreneurs, tenants, its owners and all communities in the district by ensuring that the following are achieved:

Achieve a sustainable equilibrium between urbanisation, conservation, and tourism, mining and agricultural activities within the District, by way of proper land use management and in partnership with the private sector and local communities.

Define and establish a functional hierarchy of urban and rural service centres in the District, in order to optimise the delivery of social and engineering services and stimulate the local economy, while protecting valuable agricultural land.

Promote irrigated and cultivated farming activities on suitable land within the District; and to support small scale and/ or family farmers farming throughout the remainder of the area.

Cape Winelands District Agri-Park Goal Statement:

By 2025 Cape Winelands DM's rural areas and small towns would be transformed into thriving areas in terms of jobs, food security and opportunities to prosper.

Proposed Objective One	To transform and modernise rural areas and small towns in the Cape Winelands DM through the development of the Agricultural sector over the next 10 years.
Proposed Objective Two	To develop an integrated and networked Agri-Park Infrastructure over the next 10 years.
Proposed Objective Three	To facilitate the establishment and implementation of a sustainable Agri-Park governance and management model over the next 3 years.
Proposed Objective Four	To facilitate funding and investment for the development of the Agri-Park

	over the next 5 years.
Proposed Objective Five	To provide technical support and extension services to Agri-Park beneficiaries over the next 10 years and beyond.
Proposed Objective Six	To enhance the capacity and capability of officials responsible for the implementation of the Agri-Parks

(d) **FPSU Prioritisation**

The DRDLR has prioritised Agri-park implementation in Saron, Stellenbosch, Ceres within the Fourth Generation IDP for the following areas: Paarl, Robertson, Montagu, Ashton and Worcester. The focus will be on the establishment of the necessary Farmer Production Support (FPSU) Infrastructure as well as support to emerging farmers and the local community within the FPSU catchments.

(e) **Progress on the Agri – Park Programme**

The agri – park project is in the beginning phases in 3 of the 5 local municipalities within Cape Winelands District, i.e. Witzenberg, Drakenstein and Stellenbosch. The progress made on this project is as follows:

Findings

- Council approved the implementation of the FPSU in Stellenbosch.
- 65 hectares has been made available under lease for this initiative (portion BH1 of Farm 502 and portion BH2 of Farm 502).
- 10 emerging farmers have entered into individual lease agreements with the municipality in terms of the Agri - Parks Master Plan developed by Urban Econ.
- There is provision made to ensure that there is enough water supply as Stellenbosch Municipality is currently busy with an extra water line through DWA and DOA.
- A soil survey was conducted by the Department of Agriculture during September 2008 on Farm 502 BH and it was found that the soil is of medium to high potential for the cultivation of vegetables.

Recommendations

- 10 emerging farmers be enterprised into a secondary co –operative to ensure maximum impact.
- In December 2017 the FPSU project was presented to the DAMC, but the DAMC indicated that if beneficiaries require funding, these beneficiaries must present their project and not municipal officials.
- In December 2017 a site visit was conducted by the Department of Rural Development and Land Reform to inform the beneficiaries of the outcome of the DAMC and that the beneficiaries will be invited to come and present their project.
- In February 2018 the beneficiaries presented their project to the DAMC in Saron and the DAMC referred it to the DJOC for consideration. A special DJOC was called to recommend the project to the PJTC.

5.9 Local Policy Direction

5.9.1 Stellenbosch Municipality

The intent of the Strategic goals for the Fourth Generation IDP will remain the same as the goals of the Third Generation IDP, although a slight change for 3 of the goals namely: "Preferred Investment Destination" has been amended to "Valley of Possibility" to have a clearer indication that it needs to include possibilities for all and not just investors; "Greenest Municipality" has been amended to "A Green and Sustainable Valley" to incorporate all facets of sustainability; " Safest Valley" has been

amended to “A Safe Valley”, whilst “Dignified Living” and “Good Governance and Compliance”, remain unchanged.

The table below indicates how the municipality Strategic Focus Areas are aligned to National and Provincial Plans.

Table 37: Horizontal Alignment Matrix

Strategic Focus Areas (SFAs)	National Strategic Outcomes	Sustainable Development Goal	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
SFA 1- Valley of Possibility	Ensuring decent employment through inclusive economic growth (4)	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all (8)	Creating jobs (1)	Growth and Jobs (VIP 2)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
SFA 2- Green and Sustainable Valley	Ensuring that the environmental assets and natural resources are well protected and continually enhanced (10)	Take urgent action to combat climate change (13) Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss (15)	Transitioning to a low carbon economy (3) Transforming urban and rural spaces (4)	Empowering People (VIP 3)	To create an environment and forge partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment.
	Ensuring vibrant, equitable and sustainable rural communities with food security for all (7) Promoting sustainable human settlements and improved quality of household life (8)	Make cities and human settlements inclusive, safe, resilient and sustainable (11)	Transitioning to a low carbon economy (3) Transforming urban and rural spaces (4)	Mobility and Spatial Transformation (VIP 4)	Environmental and social infrastructure investment.
SFA 3- Safe Valley	Ensuring all people in South Africa are and feel safe (3)	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels (16)		Safe and Cohesive Communities (VIP 1)	To create an environment and forging partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District.

Strategic Focus Areas (SFAs)	National Strategic Outcomes	Sustainable Development Goal	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
SFA 4- Dignified Living	<p>Providing improved quality of basic education (1)</p> <p>Enabling a long, healthy life for all South Africans (2)</p>	<p>Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all (4)</p> <p>Ensure healthy lives and promote well-being for all at all ages (3)</p>	<p>Providing quality health care (6)</p>	<p>Growth and Jobs (VIP 2)</p>	<p>To create an environment and forging partnerships that ensures the health, safety, social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.</p>
	<p>Setting up an efficient, competitive and responsive economic infrastructure network (6)</p>	<p>Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation (9)</p>	<p>Expanding infrastructure (2)</p>	<p>Empowering People (VIP 3)</p>	<p>Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.</p>

5.10 Strategy Unpacked

5.10.1 Strategic Focus Areas, Pre-determined Objectives and Programmes

5.10.1.1 SFA 1: Valley of Possibility

Table 38: SFA 1- Strategy Unpacked

STRATEGIC FOCUS AREA 1: VALLEY OF POSSIBILITY					
Predetermined Objectives	Programmes for the next 5 Years	Progress Year 1 2017/18	Progress Year 2 2018/19	Progress Year 3 2019/20	2020/21
1.1 Create an environment conducive to business development and job creation.	. Development and implementation of Integrated zoning scheme.	The draft Integrated Zoning Scheme (IZS) was tabled by Council the end of October 2017 subsequent to a second round of public participation. The additional comments will be reviewed and the edited Integrated Zoning Scheme will be submitted to Council for adoption during 2018.	The draft Integrated Zoning Scheme (IZS) went through two rounds of public participation. After the comments from interested and affected parties were reviewed, the document was edited, where applicable. The final draft Stellenbosch Zoning Scheme, October 2018 will be submitted to Council for consideration and adoption during May 2019.	The Stellenbosch Municipality Zoning Scheme By-law, 2019 was adopted by Council 31 May 2019, with the commencement date of 01 November 2019. The Zoning Scheme By-law is currently fully implemented as per Council resolution.	Implementation of the Stellenbosch Zoning Scheme By-law, 2019. Preparation of a Report to Council on the progress with implementation of the Zoning Scheme By-law. Report to be finalised and submitted to Council in 2021/22 financial year.
	. Develop local economic development hubs.	Stellenbosch Municipality has allocated R11.5 million of its 2018/19 capital budget to local economic development as well as R7.950 million in 2019/20 and R4.250 million in 2020/21. This allocation is for the establishment of Informal Trading Sites in Kayamandi (R4.9 million), Klapmuts (R4.0 million) and Groendal (R2.7 million), a Local Economic Hub for Jamestown (R4.3 million), establishment of informal trading markets in Bird Street (R3.3 million) and a Heritage Tourism Centre in Jamestown (R1.5 million).	The planning phase of the Kayamandi informal trading site has commenced. The planning and the implementation of the upgrading of the Blomhuisie commenced. The Klappmuts and Groendal informal trading sites- planning phase is complete and the construction will commence in the 2018/2019 financial and is anticipated for completion in 2019/20. The Jamestown LED Hub is in the Planning phase and construction is expected to commence in the 2019/20 financial year.	The following informal trading sites has been completed and the process to allocate trading spaces to informal traders is in progress: Klappmuts, Franschhoek and Kayamandi. The Groendal Informal Trading Site will be complete in the current financial year. The Jamestown LED Hub and Bird Street Informal Trading site is in the planning phase and construction will take place in the next financial year.	The Franschhoek Informal Trading Site was successfully implemented and opened by the Executive Mayor. Currently, the construction of the following markets have been completed and the request for traders have been advertised: <ul style="list-style-type: none"> Klappmuts; Cloetesville; Groendal; and Kayamandi. The Kayamandi Bridge West (Taxi Rank) Informal Trading Site is scheduled to be completed during the 2021/22 financial year, whilst the Jamestown Hub will be aligned with the Jamestown Housing Project.

STRATEGIC FOCUS AREA 1: VALLEY OF POSSIBILITY

Predetermined Objectives	Programmes for the next 5 Years	Progress Year 1 2017/18	Progress Year 2 2018/19	Progress Year 3 2019/20	2020/21
	Investment in bulk and connecting engineering infrastructure for development purposes.	Currently, Stellenbosch Municipality allocates 5.0 per cent of its 2018/19 budget to Renewal and Upgrading and Repairs and Maintenance as a percentage of Plant, Property and Equipment which is below the National standard of 8 per cent.	The Directorate: Infrastructure Services continuously budgets for provision and upgrading of services throughout the Stellenbosch Municipal area.	The Directorate: Infrastructure Services continuously budgets for provision and upgrading of services throughout the Stellenbosch Municipal area.	The Directorate: Infrastructure Services continuously budgets for provision and upgrading of services throughout the Stellenbosch Municipal area.
1.2 To facilitate and co-ordinate support to emerging entrepreneurs by utilising internal SCM processes and linking SMME's with opportunities in the market.	Develop a guiding document to link Small Medium and Micro Enterprises to SCM and open market opportunities. Update and implement the Preferential Procurement Policy.	Regular seminars and workshops facilitated by the municipality and Private Sector Partners to establish a networking and mentoring system to ensure SMME development.	Regular seminars and workshops facilitated by the municipality and Private Sector Partners to establish a networking and mentoring system to ensure SMME development.	Regular seminars and workshops facilitated by the municipality and Private Sector Partners to establish a networking and mentoring system to ensure SMME development.	Regular seminars and workshops facilitated by the municipality and Private Sector Partners to establish a networking and mentoring system to ensure continued SMME development.
1.3 To provide, upgrade and maintain an effective engineering infrastructure to support effective service delivery.	1. Major capital expenditure is planned in the following areas during the 2018/2019 financial year: Electricity <ul style="list-style-type: none"> Energy Efficiency and Demand Side Management Integrated National Electrification Programme Electricity Network Roads, Storm water and Traffic Engineering	Implemented in terms of the available capital budget approved for the 2017/18 financial year. Table 41: SFA 4- Strategy Unpacked

STRATEGIC FOCUS AREA 4: DIGNIFIED LIVING				
Predetermined Objectives	Programmes for the next 5 Years	Progress Year 1 2017/18	Progress Year 2 2018/19	Progress Year 3 2019/20
4.1 To develop and maintain sustainable human settlements that will deliver in the diverse range of housing needs	1. Develop and implement a housing pipeline.	The housing pipeline was approved in Council on 30 August 2017 and is currently being implemented.	<p>The main objective is to provide sustainable human settlements in accordance with the approved Housing pipeline. Accept for the current housing projects has the municipality advertised two proposal calls:</p> <p>1. Jamestown- The particular goal of this specific Call for Proposal is the delivery of mix –used development which includes additional state subsidised housing units, serviced sites for affordable housing (plot and plan) and GAP housing units. The tender has closed and is being evaluated.</p> <p>2. Cloetesville- The aim with Erf 7001 is to provide affordable housing for the residents of the area. The tender was advertised and it closed on the 25 February 2019. The Proposal Calls will be evaluated in terms of the Supply Chain Management Policy.</p>	<p>In accordance with the aims and objectives of the Housing Pipeline, the municipality through Provincial funding acquired the Watergang farm north to Kayamandi. This property as well as Council owned-land will enable mixed-used development of more than 5 000 housing opportunities. In La Motte, the National Department of Public Works is in the process of transferring the land to the municipality that would provide approximately 1 000 housing opportunities. In Jamestown, the provision of bulk services to the sites (Phase 2, 3 and 4) for the housing development have commenced. A procurement process has started to appoint a service provider to finalise the Bill of Quantities (BoQ) in order to conclude the appointment of an Implementing Agent. The original Call for Proposal for Erf 7001 , Cloetesville ("Soek-mekaar") has to be cancelled due to non-responsive bidders. A second Call for Proposal has been advertised and the closing date is 20 March 2020. In addition to La Motte, the National Department of Public Works is in the process of transferring Erf 64, Kylemore in favour of Stellenbosch Municipality. The municipality concluded with the land-owner of Langlands and the Provincial Department of Human Settlements a Tripartite Agreement. This will enable the Implementing Agent to immediately commence with the installation of civil -and electrical services. According to project programme submitted by the Implementing Agent, the installation of 144 services sites and 106 top structures will be completed during the 20/21 financial year. Phase 1 of Ida's Valley GAP houses is near completion and the Implementing Agent has also commenced with the subsidised houses. The development on Erf 11330</p>
			<p>The National Department of Human Settlements (NDoHS) submitted a communication dated 30 September 2020 to the Western Cape Government Department of Human Settlements stating that the current budget reductions require a re-think regarding the housing subsidy programme approach. According to the National Department of Human Settlements the delivery of top structures are considered fiscally unsustainable and the instruction is to rather prioritise the delivery of serviced sites.</p> <p>In accordance with the aims and objectives of the NDoHS and PDoHS, an assessment will be conducted to determine the impact of the reprioritisation of the Human Settlement Development Grant (Business Plan) on the future Housing Pipeline of Stellenbosch Municipality. It is therefore imperative that all current integrated housing development projects must take into consideration the new strategy as conveyed by the National Department of Human Settlements. The Housing Pipeline which will be tabled before Council during May 2021 will have to incorporate all the housing projects earmarked for the next 10 years, in a manner that</p>

					provision of basic services in accordance with the ISUP (Informal Settlement Upgrading Programme). These projects are ongoing.
	3. Integrated Residential development programme.	Addressed through the housing pipeline.		The implementation of the housing pipeline is linked to certain funding programmes of which Integrated Residential Development Programme (IRDP) particularly is earmarked to address subsidy – and GAP housing. The housing pipeline indicates which projects will be funded through the IRDP.	The implementation of the housing pipeline is linked to certain funding programmes of which Integrated Residential Development Programme (IRDP) in particular is earmarked to address subsidised development. This includes BNG, GAP and Social housing programmes and will be funded through the HSDG and ISUP. The housing pipeline indicates which projects will be funded through the DORA allocation.
	4. Social Housing programme.	Addressed through the housing pipeline.		Stellenbosch Municipality, was identified as one of the leader towns to promote Social Housing, requested the Provincial Department of Human Settlements and the Social Housing Regulatory Authority (SHRA) for funding to do the necessary feasibility studies in the approved restructuring zone. On the 7th of June 2019, a service provider was appointed by SHRA to carry out feasibility studies to determine the potential for Social Housing project development on three sites located within the Stellenbosch Municipality. Council has now approved that the administration may invite competent Social Housing Institutions (SHI's) or Other Development Agencies (ODA's) to implement Social Housing developments.	As an identified leader town with respect to in Social Housing, Stellenbosch Municipality was selected by the SHRA (Social Housing Regulatory Authority) for its Municipal Support Programme. This programme will enable the municipality to progressively address the need for safe and affordable rental accommodation for families earning between R1 500 to R15 000 per month. In terms of its Social Housing Initiatives, Council approved Erf 81/2 and Erf 81/9, Stellenbosch situated on the R304 as the first Social Housing project. In this regard a Call for Proposal to appoint a suitable Social Housing Institution (SHIs) and / or Other Development Agency (ODA's)

Integrated implementation)					are held online via MS Teams with selected venues made available in communities with challenges to access data and other ICT infrastructure and hardware.
	2. Conduct Project Steering Committee meetings.	Stakeholder engagements are held on a continuous basis to inform beneficiaries and interested parties of progress in terms of Project deliverables and also unpack legislation with regards to project planning.	Housing officials attend community meetings on invitation by Councilors to share information on the National Housing Code and Beneficiary Selection Processes.	5 Community Meetings held in Ida's Valley, New Watergang TRA (Kayamandi) and Longlands.	Community meetings were held in Ida's Valley and Longlands in order to inform the potential beneficiaries on the progress in terms of Project deliverables and enable the election of Beneficiary committee members (Longlands).
	3. Conduct beneficiary community meetings.	Beneficiary meetings are held and beneficiary committees elected for continuous engagement and to keep potential beneficiaries for a project informed of progress. This promotes transparency and fairness and limits any negative human interference in terms of beneficiary selection.	General community meetings are also held as part of information sharing even for those who are still on the Housing Demand Database so that they are aware of future planned projects and available different housing subsidy instruments available as state intervention towards provision of housing opportunities.	6 Beneficiary meetings held in Ida's Valley and Longlands Housing Projects.	Beneficiary administration processes were undertaken in Ida's Valley, Longlands and for the TRA's in Klipmuts. Beneficiary committees were elected in Ida's Valley and Longlands and social compacts signed. Regular interactions with these beneficiary committees have enabled fluent implementation and initiation processes in these projects. Outreaches have also been undertaken to potential beneficiaries living with disabilities on farms on an individual basis, taking government services to them.
	4. Housing consumer education sessions.	Relevant departments host meetings.	In progress.	3 Title Deeds Restoration Programmes Workshops. 2 Temporary Residential Area Workshops. 2 Beneficiary Administration Workshops in preparation for subsidy applications for New Housing. 2 Public Rental Stock dealing with Anti-Social Issues.	Consumer Education was undertaken on an individual basis and with strict COVID-19 protocols in respect of all Title Deed handovers (52), TRA (rental stock) recipients and RDP houses handed over (105 individuals). In Pniel, an almost 30-year quest for homeownership

5.1 To develop, align and implement effective Management Information Systems.	1. Align and integrate current Management Information systems.	There is a continuous alignment of ICT Services and Systems with the strategic goals and objectives of the municipality, as well as statements of direction from National Government and the Western Cape Provincial Government.	The alignment of the ICT services is ongoing due to the rapid change in the ICT environment. It is in line with the strategic goals of the municipality, the Western Cape Provincial Government and National government.	The alignment of the ICT services is ongoing due to the rapid change in the ICT environment. It is in line with the strategic goals of the municipality, the Western Cape Provincial Government and National government.	A system integration business case documentation was circulated to all Directorates for comments and inputs. Subsequently, the office of the CFO conducted sessions to analyse the current municipal systems landscape in line with the 15 MSCOA business processes. An item will be submitted to Council to make recommendations not to procure a new ERP system, but rather to concentrate on integration of current system and to eliminate duplication. A Final System Decision was made on the ICT Steering Committee of 02 December 2020 that SAMRAS Financial System was identified as the core system for the Stellenbosch Municipality. An e-Procurement module has been implemented and rolled out with ongoing training of users. SAMRAS has been requested to present their 5-year implementation roadmap of system modules in line with the MSCOA 15 business processes.
	2. Implement MSCOA requirements on Information Systems.	In consultation with the Legal Department, the ICT Department is in the process to develop a customised Main Agreement for all ICT related services and systems that are fully compliant with all regulatory requirements as per the MFMA and all relevant Auditor General requirements when contracting with external service providers for ICT related services and systems.	A Main Agreement for all ICT related services went for legal advice and has been signed with relevant service providers.	All financial systems are aligned to the MSCOA requirements.	All financial systems are aligned to the MSCOA requirements.

5.6 A skilled and capable workforce that supports the growth objectives of the municipal area	1. Organisational design.	A new organisational structure has been approved on 21 September 2017 for implementation 1 July 2018 for optimal use of human resources.	The placement process is due for completion by the 31 March 2019.	A further review of the structure was approved in February 2019. Placement process completed. 10 employees remaining in the "pool".	A review of the structure is due in 2021 due to operational requirements.
	2. Implement the Workplace Skills Plan.	Workplace skills plan is drawn up and implemented on annual basis.	Workplace skills plan is drawn up and implemented on annual basis.	Workplace skills plan is drawn up and implemented on annual basis.	Workplace skills plan is drawn up and implemented on annual basis.
5.7 A responsive, accountable, effective and efficient local government system	1. Regular compliance reporting to Council committees and other relevant oversight bodies.	Reporting back to Council on a quarterly, bi-annually as well as on an annual basis on the performance of the municipality.	The mSCOA version 6.2 has been implemented and quarterly reporting occurs.	Quarterly and Mid-yearly financial and non-financial performance reports submitted to Council and APAC. The Draft and Final Annual Report 2018/19 served before MPAC.	Quarterly and Mid-yearly financial and non-financial performance reports submitted to Council and APAC. The Draft and Final Annual Report 2019/20 served before MPAC and was approved without any significant changes.
	1. Organisational restructuring to improve revenue management.	A new organisational structure has been approved on 21 September 2017 for implementation 1 July 2018 for optimal use of human resources.	The placement process is due for completion by the 31 March 2019.	Placement process is finalised. The funded vacancies in the Revenue Section will be filled in the 2020/21 financial year.	The placement process is finalised and a number of critical vacancies were filled during the financial year.
5.8 To implement an effective revenue management system.	2. Effective billing systems.	An effective billing system is in place as a key revenue raising strategy.	An effective billing system is in place and reporting occurs on a monthly basis as a key revenue raising strategy.	An effective billing system is in place and reporting occurs on a monthly basis as a key revenue raising strategy.	An effective billing system is in place and reporting occurs on a monthly basis as a key revenue raising strategy.
	3. Effective credit control and debt collection processes.	Addressed through the Credit Control and Debt Collection Policy.	Effective credit control and debt collection processes are followed on a daily basis.	Effective credit control and debt collection processes are followed on a daily basis.	Effective credit control and debt collection processes are in place. The Debt Review Committee was established during the 2020/21 financial year.
5.9 To provide accurate and relevant financial information for decision making.	1. Implement the Municipal Standard Chart of Accounts.	mSCOA was implemented as of 1 July 2017.	The mSCOA version 6.2 has been implemented and monthly and quarterly reporting occurs.	The mSCOA version 6.3 has been implemented. Monthly and quarterly reporting are done in mSCOA version 6.3.	The mSCOA version 6.4 has been implemented. Monthly and quarterly reporting are done in mSCOA version 6.4.

STRATEGIC FOCUS AREA 5: GOOD GOVERNANCE AND COMPLIANCE					
Predetermined Objectives	Programmes for the next 5 Years	Progress Year 1 2017/18	Progress Year 2 2018/19	Progress Year 3 2019/20	2020/21
5.10 To develop and implement a responsive, accountable, effective and efficient customer care structure and system.	1. Organisational restructuring to implement a centralised and integrated customer care system.	A new organisational structure has been approved on 21 September 2017 for implementation 1 July 2018 for optimal use of human resources.	<p>A draft Customer Care framework is developed. The Customer Care Unit that was established by Council will be staffed at least partially by 30 June 2018.</p> <p>The municipality is in the process of procurement of an electronic system to deal with customer care queries organisational wide.</p>	The Medium Term Revenue and Expenditure Framework will be prepared in mSCOA version 6.4.1.	The Medium Term Revenue and Expenditure Framework will be prepared in mSCOA version 6.5.
				<p>After presentation to the Executive Committee an item served before Council and it was resolved to us the customer care module the GIS system that will also be able to do asset management. A Steering Committee was established on the 4th March 2020 to assists with the implementation of a pilot project on customer care.</p>	<p>The Customer Care Interface implementation actively commenced in July 2020, where the 1st pilot department was consulted. The implementation of the 1st pilot started with the Department Urban Greening. The teething problem with the 1st pilot was resolved in December 2020 which allowed us to continue with further departments.</p> <p>In January 2021 the 2nd phase of the pilot commenced, which included the whole Directorate: Infrastructure Services. The Directorate handles the bulk of complains as they are responsible for the most of the core services to residents. The teething problems in this department were dealt with much quicker.</p> <p>In February 2021, an engagement with the balance of the municipality was held which included Financial Services, the Directorate Planning and Economic Development and the Directorate: Community and Protection Services.</p> <p>In March 2021 a communication strategy will be implemented to make the public aware of the launch of the new Customer Care Interface deployed by the municipality to address all citizen enquiries or complaints.</p> <p>The Directorate: Corporate Services envisaged the Customer Care Interface to reach full (internal and external customer engagement) implementation in April 2021.</p>

CHAPTER 6

Public Expression of Needs (Community Participation)

6.1 Effective Community Participation

Chapter 4 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) requires of municipalities to maintain a culture of community participation. According to Section 16(1)(a)(i) of the MSA, "A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in the preparation, implementation and review of its integrated development plan in terms of Chapter 5". It is therefore essential to have effective public participation structures in place.

The SDF, IDP, Budget, Sector Plans as well as major municipal policies, by-laws and decisions should be engaged in order to ensure that they are designed and implemented for and with the community. This also adds to the credibility of the needs reflected in the IDP, the Budget calculated in addressing these needs and the SDBIP drafted in implementing programmes and projects which reflects the communities' needs.

In the spirit of the commitment made by the municipality's Executive Mayor (Cllr Adv Gesie van Deventer) and our Municipal Manager (Ms Geraldine Mettler) to undergo intensive public participation, ward based meetings were held with each ward throughout the Stellenbosch Municipal area. We are therefore confident that this goal was accomplished.

The growing trend of mature and constructive discussions from the public, the level of complexity and the investment made in understanding the municipality's business is encouraging. The direct participation and involvement of the Ward Councillors and Ward Committees in the identification of ward based priorities and their involvement in the ward meetings has added great value to the maturity and quality of the discussions between the public and the municipality. Ward Councillors are a critical link in connecting the municipality with the public. As members in Council, and recipients of all the decisions taken by Council, it positions Councillors strategically to ensure that the municipality not only understand the needs of the community better, but also to provide the public with honest and accurate feedback of the municipality's initiatives. These endeavours are supported by well-functioning Ward Committees. This municipality has the benefit of very experienced politicians which has facilitated a very strong connection between the public and the administration. Councillors are however encouraged to always adhere to the code of ethics for Councillors and to always act with the utmost integrity and accountability toward their constituents and the municipality, as this is the only way in which to form a responsible local government.

Public participation takes place through various means and is often tailored to suit a specific audience or community. Importantly, communities from different socio-economic backgrounds use different platforms to communicate. It is important to cater for all scenarios and to utilise all available platforms

to its optimum potential, given that a certain degree of apathy exists in certain communities.

The maturity of the public participation process has achieved new heights from both the community members and the administration. All of the municipality's directors, strategic and service delivery managers were part and parcel of each of the public sessions allowing for direct feedback on some of the key issues raised. Further feedback will be provided on the comments captured in sessions. To ensure that the public participation process is a two-way process, all comments have been carefully reviewed.

6.2 Public Participation in the Review Process

Individual ward meetings were held in October / November 2020 to determine the needs of the community that need to be addressed to improve the quality of life of residents in the greater Stellenbosch Municipal area. At these meetings feedback was provided on Ward Priorities and to report on initiatives underway.

Information about the schedule of IDP Public Engagement Meetings in October / November 2020 were communicated both internally and externally. Internal communication was sent to management, Councillors, the Executive Mayoral Committee, Council and all officials within the municipality. External communication about the meetings taking place was done through advertising in the main local newspaper as well as the community newspaper distributed free of charge. The schedule and advertisement were also published on the municipality's official website, social media (WhatsApp, Facebook and Twitter), the **Stellenbosch Citizen App** and SMS cellular phone messaging. Notifications sent out were online, via social media and SMS. Reminders were also published on a continuous basis to keep reminding the public to submit their inputs. In addition, thereto, the municipality provided transport to members of the public who wished to attend the public engagements.

The following **public participation** and **Ward Committee programme** gives effect to the review process of the 2021/22 Integrated Development Plan and Budget:

Table 43: Public Participation Engagement Programme

Type of Engagement	Purpose of Meeting	Number of Meetings Held	Timeframes
Online Public Participation Meetings	Platform to provide feedback and obtain public input for the 2021/22 IDP review process.	18	26 October - 04 November 2020
Meetings for the revision (updating) of Ward Priorities	Review and update of Ward Priorities.	19	18 November 2020 - 03 December 2020
IDP Stakeholder Engagement	Stakeholder engagement to be held in April 2021 on a themed structure to gather focused input from the various interest groups on the 2021/22 Draft IDP and Budget.	1	April 2021
Online Public Participation Meetings	Platform to provide feedback and obtain public input for the 2021/22 IDP review process.	22	April 2021

6.3 IDP Public Participation Meetings – October / November 2020

The aim of these public engagements is to provide each ward an opportunity to engage with the municipality with regard to the strategic plan, Ward Priorities and specific initiatives planned for the greater Stellenbosch and wards specifically.

On 15 March 2020, President Cyril Ramaphosa declared a “national state of disaster” as a result of the COVID-19 pandemic followed by a national lockdown for 21 days effective from Thursday 26 March 2020 until 16 April 2020. In support to this, Minister Nkosazana Dlamini Zuma issued the COVID-19 Directives in terms of section 27 of the Disaster Management Act, 2002 (Act No. 57 of 2002) on 25 March 2020, amended on 30 March 2020 and 2 April 2020 with directives to various institutions to curb the spread of COVID-19.

As part of the declaration of a disaster and the lockdown conditions, a number of restrictions has been placed on citizens, with direct impact on large gatherings and meetings. One of the major decisions taken by Cabinet include, a ban on gatherings of 100 people or more. Further to this, the Minister of Cooperative Governance and Traditional Affairs issued directives in directive 6.7.3 (b) to “not convene any meetings, including the IDP community and consultation processes and the consideration and passing of budgets, during the initial 21 Day Lockdown” (Directives of 30 March 2020).

Gatherings and meetings are the traditional form of interacting with communities for purposes of public participation, which was prohibited for duration of the lockdown. Municipalities were directed to “instead of convening contact meetings, develop electronic and alternative methods of consultation ... for municipal governance planning and budgeting processes” in terms of directive 6.7.2 (b) of the Minister’s Directives.

It is for this reason that Stellenbosch Municipality's approach has been adjusted with regards to public participation processes for October / November 2020 in order to respond appropriately to the health threat posed by COVID-19. This included actively encouraging alternative means of communication with the public that mitigated the risk of exposure and spread of the virus by utilising online and local media platforms to facilitate public comment. Stellenbosch Municipality remained vested and facilitated two-way communication as far as reasonably possible during the lockdown period. The different means of communication with communities included:

- 🌸 Notifications and inputs were published and received online, via social media and SMS. Reminders were also published on a continuous basis to keep reminding the public to submit their inputs;
- 🌸 Inputs of stakeholders and residents regarding public participation were received via **email** at idp@stellenbosch.gov.za; and via **WhatsApp at 067 427 1556**.
- 🌸 Notifications via email to stakeholders and residents regarding the public participation period for public comment and extension of public participation period;
- 🌸 Posting of all relevant documents to be viewed on line via the municipal website;
- 🌸 The **Stellenbosch Citizen App** was launched during May 2020 and is available from the Google Play Store;
- 🌸 An IDP and Budget Public Participation Presentation with community feedback per portfolio was sent via email to stakeholders and residents and published on the municipality's website and mobile app;
- 🌸 Public Participation meetings were also held on MS Teams to allow residents and stakeholders to participate in the meetings; and
- 🌸 There were satellite venues per ward with officials to assist with sanitising, scanning temperatures, and ensuring social distancing within the venue.

The public engagements took place in the afternoon and evenings, at 15:00 and 19:00, and were chaired by a municipal official. Minutes of all these meetings were noted and audio recordings serve to verify the content of the minutes.

6.3.1 Meetings for the Revision (updating) of Ward Plans

These engagements were conducted with the Ward Councillors and Ward Committee members to assess and ensure that they agree with their priorities. Where priorities have been concluded, new priorities may be selected by the Ward Committees who are the legislated representative structure of the community. The Ward Priorities must be signed off by the ward councillor and then updated on the ward plan.

The role of departments before and during the ward plan process was to provide inputs and comments on the progress and status of Ward Priorities per ward. Progress on Ward Priorities will be shared with the Ward Councillors and Ward Committee members for them to monitor the 2021/22 Ward Priorities for inclusion in the Budget.

The following meetings were held for the revision of Ward Plans.

6.4 Feedback to Comments Received as part of the Public Participation Process- Oct / Nov 2020

As this Fourth Draft IDP Review process was conducted, South Africans were confronted by a nationwide lockdown limiting most movement and confining South Africans to their homes and forcing businesses to close. The fast response to COVID-19 pandemic and ensuing lockdown was at the time aimed at flattening the curve by reducing the rate of infections. Level 1 of this lockdown was restrictive with measures implemented to contain the spread of the virus. Only limited numbers were allowed in public meetings, social gatherings as means of enforcing the lockdown regulations.

The lockdown from 27 March affected public participation period on the Fourth Review of IDP. Whereas the municipality would have engaged in various forms of public meetings to provide the public the opportunity to share their views and inputs with the municipality, the municipality were confined to online platforms, written comments and limited number of participants in public meeting venues.

In spite of the limitations faced by the lockdown and social distancing in all gatherings and meetings, we remain committed to ensuring that the public participation process is a two-process. We will once again as in previous years make sure that all comments are reviewed with responses provided from the respective departments responsible for different areas of service delivery.

The public comments received from the engagement with the public and with the respective Ward Committees over October and November 2020 were captured and carefully considered by each department. These considerations formed part of the strategic conversations of each directorate in the determination of their strategic approach and budgetary requirements for the year under review and the upcoming medium-term revenue and expenditure framework (2021/22 MTREF). With this we want to put your minds at ease that the IDP and MTREF Budget as tabled this year, is not devoid of the public needs as identified by the community members, businesses, interested parties and key stakeholders.

6.5 Ward Priorities per Ward

The table below includes the updated Ward Priorities listed by each Ward Committee in October 2019.

The analysis in this section is based on the following rating system:

	Ward Priority / Project completed.
	Ward Priority / Project in progress.
	Not completed / No budget available / District Function / Provincial Function

Table 46: Ward Priorities- Ward 1

Ward 1				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	Ward Priorities for 2019/20	Rating 2019/20
 Cllr Aldridge Frazenburg (Franschhoek)	Priority 1: Planning and Development – Upgrading of the existing Mooiwater Building for a multi-purpose centre and 24 hour clinic.		Priority 1: Planning and development of the Mooiwater Building for a multi – purpose centre.	
	Priority 2: General traffic, pedestrian safety/ traffic management and security cameras.		Priority 2: General traffic and safety Circles on the R45. Installations of speed cameras. Reduce speed limits on the R45 and Franschhoek pass. Safety on R45.	
	Priority 3: Transport – Bus service to Paarl and Stellenbosch.		CCTV cameras at various hotspots in Ward 1.	
	Priority 4: Beautification of entrance ward 1 – eco-friendly, management of rivers, dams etc. (Mooiwater dam study).		Priority 3: Transportation: Bus/ Taxi service to Stellenbosch and Paarl.	
			Priority 4: Mooiwater dam: Zoned as a Sports Area (2 soccer field facilities to be built by the municipality).	
			Priority 5: Housing: Land need to be identified for housing.	
	Ward Priorities for 2020/2021	Activity		Rating 2020/21
	Priority 1: Housing  Land for GAP, Social and Medium housing at Vietman area and Robertsvlei.  Housing needs of backyarders dwellers.	Mooiwater: Service providers have been appointed to undertake a Geotech study required in order to make application in terms of the relevant legislation for the development of Erf 3229. To date a draft subdivision plan has been developed and will be finalised once the possible environmental impacts on the site have been mitigated. La Motte: Discussion is currently taking place between the Stellenbosch Municipality and the Housing Development Agency (HDA) to assist with the transfer of land from the National Department of Public Works (NDPW) to the Stellenbosch Municipality and to further attend to the required applications to obtain land use rights, the registration of diagrams / general plans with the Surveyor General and the relevant applications to the Provincial Department of Human Settlements, Western Cape Government (DHS).		
		Priority 2: Safety and Security  Cameras to be installed on the Sportsground, business area (USAVE), Neighbourhood Watch  10 Law Enforcement Officers for Franschhoek.  Constructions of speed humps at Beaucop de Leau, Sports Centre and around the schools in the		Install cameras on the Sportsground business area, business areas (USAVE), Neighbourhood Watch Project completed.
			12 Temporary law enforcement officers (LEOs) + 5 permanent officers dedicated to Franschhoek area.	
		Installation of lighting at Mooiwater Gym Park. This request was attended to in 2019/20 financial year. It is completed.		

Ward 1			
	wards. Pedestrians signs. Installation of lighting.	Speedhump to be assessed and implemented in terms of new Policy.	☹️
		Proposals to be assessed and forwarded to Provincial Roads Department.	☹️
	Priority 3: 24 Hour Health Care Centre Ambulance service.	Matter was raised with the department of Health. Awaiting feedback from them. The municipality does not render health services.	☹️
	Priority 4: Beautification All rivers in ward 1 to be cleaned. Maintenance of the Gym parks. Illegal dumping sites to be cleaned.	the maintenance of play parks takes place on a weekly basis. This action forms part of the maintenance of play parks.	☹️
		Remove all illegal dumping is ongoing. The Department has no permanent staff to render this service and can only provide a limited service with EPWP staff.	☹️
		The tender for alien clearing has been approved and is currently in its appeal period. Once the appeal period lapsed the tender will be implemented, subject to available funds.	☹️
	Priority 5: Job Creation and Skills Development More EPWP contracts. Fixed terms EPWP contracts for both genders.	Currently, the municipality is in process of provide more EPWP job opportunities, through the registration of additional projects on the business plans. A job-seekers database has been established.	☹️
Ward Priorities for 2021/22			
Priority 1: Land and housing Provide Land for GAP, social and medium housing at Vietham and Robertvlei. Provide Housing for backyarder dwellers. Electricity for backyarder dwellers to be installed.			
Priority 2: Safety and security Cameras to be installed on the Sportsground business area. 10 law enforcement officers to be provided for Franschoek. Speedhumps at Beaucoup De L'eau and surrounding areas to be contracted. Pedestrian signs and all kinds of signs to be provided. Installation of lights in Parks, River, etc.			
Priority 3: Water and sanitation Provide toilets ablution for Kleinmooiwater and Riverside. Potable drinking water facilities to be provided. All rivers in ward 1 to be cleaned as well as the bridges. Illegal dumping sites to be cleaned. Newsletter in water-bill accounts and skips to be provided.			
Priority 4: Roads and parks Maintenance of gym parks and play parks around ward 1. Roads for medical and fire facilities to be build. Kleinmooiwater to be maintained.			
Priority 5: EPWP Programme More EPWP contracts. Provide fixed term EPWP contracts for both genders.			

Table 47: Ward Priorities- Ward 2

Ward 2				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	Ward Priorities for 2019/20	Rating 2019/20
 <p>Ward 2: Cllr Wilhelmina Petersen (Franschhoek)</p>	Priority 1: In-situ upgrading in Langrug. drain overflowing and terrible smell from the drain	☹️	Priority 1: Installing tar road in Bosbou.	😊
	Priority 2: 24 Hour Clinic – La Motte	☹️	Priority 2: Re - blocking of structures in Langrug.	☹️
	Priority 3: Building of sidewalks	😊	Priority 3: Infrastructure R45 between Bosbou railway lines needs street lights to be installed.	☹️
	Priority 4: Maintenance of Stiebeul river bank	😊	Bus stop across Dennegeur.	☹️
	Priority 5: Swimming pool	☹️	Priority 4: Circle – La Motte Cross.	☹️
			Priority 5: Housing: Land need to be identified for housing.	☹️
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Land for housing, housing and title deeds <ul style="list-style-type: none"> Land for housing. Title deeds. Services for backyard dwellers (electricity and water). 		La Motte: Land has been identified in La Motte and the necessary feasibility studies have been completed. The municipality is in process to appoint the Housing Development Agency to facilitate the process to acquire the relevant land parcels from the Department of Public Works and to proceed with the necessary processes to establish housing developments in La Motte.	☹️
			The title deeds restoration programme is continuing but due to closure of the Deeds Offices the process has been slow. There are other challenges where the owners have passed away without a will and surviving heirs take too long to report estates at the Office of the Master of High Court.	☹️
			Directive currently allows for more than one service connection in a property. However, funding / payment for such is to be made. The municipality to provide guidance on how services to backyard dwellers would be funded.	☹️
			Installation of cameras will be completed by June 2021 in front municipal town hall, Main Rd Franschhoek.	☹️
	Priority 2: Safety <ul style="list-style-type: none"> Installation of streetlights. Installation of CCTV cameras. Traffic Congestion. Turning lanes. 		Traffic officers sensitised. If there are any specific areas for traffic congestion, it to forwarded via email	☹️
			"* Point of supply has been paid for at Eskom. * Material for the streetlights has been purchased. * Waiting for wayleave approval from provincial roads department."	☹️
			Road marking currently being addressed through operational maintenance.	☹️
			Assessment underway to determine scope and extent of works.	☹️
	Priority 3: Insitu - upgrading of Langrug (site and services) <ul style="list-style-type: none"> Streets opened for more services. Play park. Toilets. 		Service provider investigated and produce a report which include new water borne toilets and 51 new toilets were installed.	☹️
			Planning phase Planning of position / location and amount of toilets	☹️

Ward 2			
	Site and Services.	by Human settlements"	
		Plans submitted for propose road.	☹️
		The department will discuss this request with Cllr Petersen. Lack of human resource capacity and the reduction in overtime work is some of the challenges to open the toilets facilities to the community.	☹️
Priority 4: Waterpark	Construction of a waterpark to be replaced with the swimming pool.	On the current budget there is no funding for a swimming pool in Groendal or a Waterpark.	☹️
Priority 5: Wi-Fi and IT Facilities	To empower youth to do job hunting and searching. To empower youth to type their own CV's and apply for jobs online.		
Ward Priorities for 2021/22			
Priority 1: Land for housing and tittle deeds			
Sites and serviced land to be provided for people.			
Basic services such as water and electricity to be provided for back yard dwellers.			
Historical title deeds to be transferred to homeowners.			
The land for housing was identified in La Motte to be finalised.			
Erf 412 for business and housing project to be provided.			
Erf at the back of Kobout and next to La Province street should be developed for housing.			
Priority 2: Safety and security			
Die Vlei to La Motte needs streetlights.			
CCTV camera to be installed at the entrance of Roux Street and of Boonzaaier Rd.			
Turning lanes at entrance and exit to the R45, intersection at La Province Street and Le Roux street, Dennegeur and La Motte to be constructed.			
Build the bus-stop for Dennegeur Park in Skool street.			
Dei Vlei to La Motte streetlights to be installed.			
Traffic calming is needed ASAP and a slipway for vehicles turning up to Groendal.			
Priority 3: Insitu-upgrading of Langrug to open toilets			
Need a relocation as soon as possible.			
Roads to be cleared in Langrug to allow essential services.			
Langrug needs toilets in line with the basic norms and standards of National Regulation			
Re-location of Mooiwater to be finalised ASAP.			
Re-blocking to open the roads.			
Priority 4: Waterpark and toilets in public spaces			
Swimming and waterpark / park to be build next to the clinic in Groendal opposite the Stieboul Street.			
Eco park – building can be redeveloped into toilets.			
Priority 5: Wi-Fi			
install Wi-Fi in the La Motte Hall and Langrug.			
Build municipal building in Langrug.			
Propose that the municipality explore the possibility of providing a site where Wi-Fi infrastructure can be installed.

 Ward 5 Cllr Donovan Joubert (Ida's Valley / Jonkershoek / Hydro and Surrounding)	Priority 1: Housing – Gap and Subsidised Housing for Jonkershoek, Farms and Ida's Valley	😊	Priority 1: Housing: Gap and Subsidised housing for Jonkershoek, Farms and Ida's Valley.	😊
	Priority 2: Safety – Visible law enforcement, Crime prevention and eradication of drug houses	😊	Priority 2: Safety Programmes: visible law enforcement, crime prevention, eradication of drug houses, spinning cars, drinking on parks, burglary, stray dogs and littering.	😊
	Priority 3: Backyard dwellers – Basic Service delivery in Ida's Valley	😊	Priority 3: Land for Housing.	😊
	Priority 4: Community Hall / Thusong Centre	😊	Priority 4: Youth development.	😊
	Priority 5: Youth Empowerment	😊	Priority 5: Community Hall: building of a community hall.	😞
	Ward Priorities for 2020/21		Activities	Rating 2020/21
Priority 1: Housing and Land for housing 🔧 GAP and Subsidised housing for Jonkershoek Farms and Ida's Valley.			Jonkershoek: Discussion is currently taking place between the Stellenbosch Municipality and the Housing Development Agency (HDA) to assist with the transfer of land from the National Department of Public Works (NDPW) to the Stellenbosch Municipality and to further attend to the required applications to obtain land use rights, the registration of diagrams / general plans with the Surveyor General and the relevant applications to the Provincial Department of Human Settlements, Western Cape Government (DHS). The HDA and the Stellenbosch Municipality are in the process of finalising the Implementation Protocol to enable the further progress of the projects. Once the Implementation Protocol has been finalised, the document will be prepared for final approval by the Municipal Manager. The HDA will then be appointed and instructed to proceed with various projects within the Housing Pipeline. Ida's Valley: The municipality is in the process of finalising the agreement with ASLA on the continuation of the project. Erf 11330 (Hillside) – The developer has completed 87 BNG houses for the low-income category. In terms of the 87 BNG houses, a total number of 86 subsidies has already been approved. 1 further BNG subsidy application has been submitted and awaits approval from PDoHS. 113 GAP houses have been built. All houses have been handed over and the contractor is currently busy with the snags in accordance with the retention period. Erf 9445 (Oak Tree Village) – An amount of 166 GAP housing opportunities will be created on Erf 9445 and PDoHS has indicated that funding to service these sites will be available on the 2021/22 financial year. Implementation will be managed by the municipality's Project Management Unit. Note: in accordance with the housing pipeline, additional land for possible housing development in	😊

Ward 5			
		the Ida's Valley, area is linked to the Botmaskop development for which a tender process is currently underway to appoint a suitable service provider to conduct a feasibility study to commence in the 2020/21 financial year,	
	Priority 2: Backyard dwellers (Basic Service Delivery in Ida's Valley) <ul style="list-style-type: none"> Rubbish bins. Electricity boxes. Smoke detectors. Provision of plastic during winter season. 	Smoke alarms must be provided to backyard dwellers is an ongoing project, monthly feedback is supplied. If there are specific area requirements, it should be sent via email.	😊
		Directive currently allows for more than one service connection in a property. However, funding/payment for such is to be made. The municipality to provide guidance on how services to backyard dwellers would be funded.	😊
		The Department is awaiting the development of a backyard dwellers service delivery policy by the relevant department. This policy will guide user departments on how service delivery points will be identified, how services will be delivered and how revenue will be collected.	😊
	Priority 3: Safety <ul style="list-style-type: none"> Enforcement of by-laws. Satellite station. Visible Law Enforcement. 	Enforcement of by-law is ongoing.	😊
		No satellite stations for Law Enforcement - funding dependent.	😞
		Visible Law Enforcement is ongoing.	😊
	Priority 4: Community Hall <ul style="list-style-type: none"> Building of a community hall on the netball court. 	Not in budget for next three years to build halls.	😞
	Priority 5: Youth development empowerment <ul style="list-style-type: none"> Development of children on farms. 	Pebbles is the only organisation that is currently working on the farms in Stellenbosch Municipal Area and also have ECD Centres at the farms. This function solely lies with DSD for partial care centres and Department of Education for school programmes and not municipal function.	😊
	Priority 6: Community Upliftment Projects	The Youth Skills Development programme was implemented after it was promoted across all wards.	😊
	Priority 7: Employment Creation	The Section: Economic Development and Tourism is in the process of the Compilation of an Economic Development Strategy for the Stellenbosch Municipality, which will be workshopped with Council during April 2021. The draft must be submitted to Council by end June 2021.	😊
Ward Priorities 2021/22			
	Priority 1: Land and housing <ul style="list-style-type: none"> Land for GAP, social and medium housing at Vietham and Robertvlei to be provided. Housing for backyarder dwellers to be built. Electricity for backyarder dwellers to be provided. 		
	Priority 2: Safety and security <ul style="list-style-type: none"> Cameras to be installed on the Sportsground business area. 10 law enforcement officers for Franschoek to be provided. Construction of speedhumps at Beaucoup de leay and surrounding areas. Pedestrian signs and all kinds of signs to be provided. Installation of lights in Parks, River. 		
	Priority 3: Water and sanitation <ul style="list-style-type: none"> Building of Toilets for Kleinmooiwater and Riverside. Potable drinking water facilities to be provided. All rivers in ward 1 to be cleaned as well as the bridges. Illegal dumping sites to be cleaned. Newsletter to be attached in water-bill accounts and skips. 		
	Priority 4: Roads and parks		

Ward 5	
	<ul style="list-style-type: none"> Maintenance of gym parks and play parks around ward 1. Roads for medical and fire facilities to be built. Maintenance of Kleinmooiwater.
	Priority 5: EPWP Programme <ul style="list-style-type: none"> More EPWP contracts to be provided. Fixed term EPWP contracts for both genders to be provided.

Table 51: Ward Priorities: Ward 6

Ward 6				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	2019/20 Ward Priorities	Rating 2019/20
 Ward 6 Cllr Nateshia Mcombring (Ida's Valley and Surrounding Farms)	Priority 1: Flea market at the corner of Rustenburg Road and Sonneblom Street and the starting point of the Green Route.		Priority 1: Flea market at the corner of Rustenburg Road and Sonneblom Street and the starting point of the Green Route.	
	Priority 2: Traffic lights at the corner of Lelie Street and Helshoogte Road.		Priority 2: Launch of the market is in October 2018.	
	Priority 3: Tar of pavements from Tindall Street and the top part of Rustenburg Road, from the mini circle to the directions of the Vine Yard Court.		Priority 3: Infrastructure Parking embayment on the corner of Tindall Street and Old Helshoogte Road in front of Nita's hair salon.	
	Priority 4: Upgrade of Sport facilities e.g. Astro- turf for hockey, upgrading of the tennis and netball courts.		Priority 3: Infrastructure Tar of pavements in Ward 6.	
	Priority 5: Multi - Purpose Centre.		Priority 4: Upgrade of Sports facilities e.g. upgrading of the tennis and netball courts etc.	
			Priority 5: Multi – Purpose Centre (Land to be identified).	
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Infrastructure Parking embayment opposite Community Market/ Flea market at the corner of Rustenburg Road and Sonneblom Street.		Complete.	
	Priority 2: Infrastructure Tar/Paving of Public Parking area next to Ida's Valley Library and the Ward office in Helshoogte Road Plaphysel and (draining system x3) for flowing of water at the public parking area next to Ida's Valley Library. 			No parking signs to be erected by end of April 2021.	
Priority 3: Safety and Security Close circuit cameras on the corner of Lelie Street and Bloekom Avenue opposite Vine Yard Court.		Close circuit cameras will be completed by June 2021. Waiting on wayleaves.		
Priority 4: Recreation and Sport Upgrade of Sports facilities e.g. upgrading of the tennis and netball courts, lights on rugby sports fields and the replacement of the vibracrete wall with a solid wall.		Sport department to action.		

Ward 6			
	Priority 5: Infrastructure <ul style="list-style-type: none"> Tar and pavement from Tindall Street and the top part of Rustenburg Road from the mini circle in the direction of Vine Yard Court. Upgrading and resealing of Botmanskop Road and other roads as required. 	Road-works as needed to be carried out during 2021/22 financial year.	
	Ward Priorities for 2021/22		
	Priority 1: safety and security <ul style="list-style-type: none"> Install close circuit camera on the corner of Lelie Street and Yard Court. Upgrade of the current close circuit camera and better lighting for the Open Air Gym. Use the building in the community market for a satellite Police Station. More visibility and regular patrols of the Police and Law Enforcement officials. Information board (No taxi's and trucks allowed) next to Ida's Valley Library and Ward office (Ward 6). 		
	Priority 2: infrastructure <p>Request traffic lights on the following:</p> <ul style="list-style-type: none"> Turn-off for Kromme Rhee Road in the direction of Koelenhof; Turn-off for Elsenburg (near Kanonkop); Pedestrian crossing between Nietvoorbij and Timberlea in the direction of Cloeterville and Pedestrian crossing between Remhoogte and L'Avenir. 		
	Priority 3: LED (Planning) <p>Ida's Valley Community Market:</p> <ul style="list-style-type: none"> Request waterproof covers for the community Market. Support and funding for nature / tourism / running / cycling / walking / walking route from Ida's Valley Community Market in the direction of Ida's Valley dam (Green Route to promote Tourism in the Ward). Addressing the Skills Development and unemployment in the ward. 		
	Priority 4: Infrastructure <ul style="list-style-type: none"> Construct tar pavements for the following Streets: <ul style="list-style-type: none"> Hahn Street; Mofaat Street; Kahler Street; and Erasmus Smith Street. Upgrading and resealing of roads and potholes as required. More regular cutting of pavements of grass on the R44. Cutting of grass for all side roads in the Ward. 		
	Priority 5: Recreation and Sport <ul style="list-style-type: none"> Upgrading of the tennis and netball courts. Better lightning on the Rugby field. Replacement of the vibracrete wall with a solid wall. Provide a big notice board next to Ida's Valley Library with instruction (in the 3 official languages of the Province) on how to use equipment of the gym. 		

Table 52: Ward Priorities: Ward 7

Ward 7				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/29	2019/20 Ward Priorities	Rating 2019/20
 <p>Ward 7 Cllr Alwyn Hanekom (Mostertdrif / Universiteitsoord)</p>	Priority 1: Running and Cycling routes – Martinson Street		Priority 1: Jan Marais Park: to uplift and better utilise the JMP to benefit the residents, students and visitors to Stellenbosch.	
	Priority 2: Parking Area – Jan Marais Park – Martinson Street		Priority 2: Character: to foster and improve the ward's pleasant character.	
	Priority 3: Safety fence – Botmaskop		Priority 3: Natural Resources: to foster conservation and appreciation of the ward's exceptional natural resources.	
	Priority 4: Traffic at schools – Improve traffic flow around school		Priority 4: Safety: to improve the safety of the residents and their property.	
	Priority 5: Management of ER1 (Hangbrug and River)		Priority 5: Mobility and Recreation facilities: to improve the mobility and recreation facilities in and through the ward.	
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Jan Marais Park		No funding was made available for further development of the northern side of the park, adjacent to Merriman Avenue.	
	<ul style="list-style-type: none"> The unlocking of the full potential of the Park as a community asset, in close liaison with the new JMP Friends Group, e.g. Parking, bicycle plan and tourist consideration. Maintenance and conservation of structures: e.g. Woodwork, stonework, picnic benches etc. 		The department is in conversation with adjacent resident to discuss their involvement and help regarding certain maintenance of woodwork and other items. An official agreement will be formalised.	
	Priority 2: Character of the ward		Feasibility assessment needs to be done. The challenge of lack of enough staff and resources may hamper this request.	
	Priority 3: Natural Resources		The department is in the process of established a "Friends For Jan Marais" group for the Jan Marais Park. The department is also in discussion with adjacent residents more involvement from their side.	
	<ul style="list-style-type: none"> To protect and promote the high biodiversity and natural resources in ward. Rehabilitation of Historical Trees like the oak trees in Jonkershoek way and other areas in the ward needed. Planting of more trees in streets (filling gaps where needed). More regular irrigation of trees in streets during summer time. 		Trees are being managed and maintained as per the annual plan of operations.	
	Priority 4: Safety and Security		Close liaison between the JSRA and law enforcement agencies is already in place.	
	<ul style="list-style-type: none"> Promote close liaison between the JSRA and law enforcement agencies. The installation of LPR cameras to access points to the ward. Improved security at the Hangbrug. 		The installation of LPR cameras to access points to the ward completed.	
			Officers are placed seasonal to manage Hangbrug area and is assisted by JSRA.	

Ward 7				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/29	2019/20 Ward Priorities	Rating 2019/20
	<ul style="list-style-type: none"> Improved learner and pedestrian safety around schools. Traffic Calming measures where needed. 		Ongoing traffic enforcement and awareness sessions are conducted. Any specific schools can be sent via email.	😊
	Priority 5: Upgrading of road infrastructure and mobility facilities		Road resurfacing as needed to be carried out during 2021/22 financial year.	😊
	<ul style="list-style-type: none"> Planned resurfacing of major road in Mostertsdraif as needed. 		Residential road signs currently being assessed.	😊
	<ul style="list-style-type: none"> Residential road signs in Mostertsdraif as needed (speed restriction to 35KM/H). Road signs that restrict vehicles with a weight above 3,5 ton to drive through residential areas (except for municipal and municipal service delivery vehicles). 		Road signs Complete	😊
Ward Priorities 2021/22				
	Priority 1: Jan Marais Park			
	<ul style="list-style-type: none"> The unlocking of the full potential of the park as a community asset, mindful of its special biodiversity value e.g. parking, bicycle plan and tourist considerations. Maintenance and conservation of structures e.g. woodwork, stonework, picnic benches. 			
	Priority 2: Safety and security			
	<ul style="list-style-type: none"> Improve security at the Hangbrug. Implementation of Traffic Calming and safety measure at the intersection of Martinson and Endler to improve the safety for scholars and pedestrians. Implementation of safety measures at Botmaskop as matter of urgency. 			
	Priority 3: Character of the Ward			
	<ul style="list-style-type: none"> Upgrading and maintenance of the neglected open areas. De Jonker Park behind Spar, to be used by elderly residents of Lanverwag and other residents. Addition of various plants and street to contribute to the character of Ward 7. 			
	Priority 4: Natural resources			
	<ul style="list-style-type: none"> To protect and promote the sustainable enjoyment of the high biodiversity and natural assets of the Ward. Rehabilitation of Historical Trees like the oak trees in Jonkershoek way and other areas in the ward where needed. Planting of more trees in streets (filling gaps where needed). More regular irrigation of trees in streets during Summer. 			
	Priority 5: road and infrastructure			
	<ul style="list-style-type: none"> Establishment of various NMT-networks in the ward. Residential road signs for speed restrictions to 35Km/h to be installed. 			

Table 53: Ward Priorities: Ward 8

Ward 8				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	Ward Priorities for 2019/20	Rating 2019/20
 Ward 8 Cllr Quinton Smit	Priority 1: Safety and security		Priority 1: Safety and Security Upgrading of existing CCTV cameras. Investigation into future technologies for the purposes of safety and security. Fixed panic-button system (e.g. Model implemented in Toronto, Canada) potentially at the corner of Die Laan, Van Riebeeck and Marais Streets.	
	Priority 2: Recycling		Priority 2: Recycling Recycling bicycle programme similar to the current local development project – purpose: Create awareness and local job opportunities. Change design of existing “wet/dry” recycling bins within wards.	
	Priority 3: Beautification		Priority 3: Beautification Wrap around flower baskets in Victoria Streets, Marais, Merriman, Helderberg and Van Riebeeck. Greening of open spaces.	
	Priority 4: Tourism		Priority 4: Tourism Development Electronic information boards (interactive- digital).	
			Priority 5: Non-motorised transport Bicycle racks. Explore the possibility of a “bike share” initiative. Launch Lab – “yellow cabs “(electric vehicles) to decrease motorised transport in ward.	
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Safety and Security ⚡ Overall lighting in the ward needs to be improved. Target areas pathway by the Eerste River that runs along Die Laan. Other locations can be discussed further in consultation with Ward Committee and municipality. Investigation into future technologies for the purposes of safety and security. ⚡ Panic Button at the corner of Bosman and Victoria (This can be subject to change depending on University approval alternative can be corner of Bosman and Van Riebeeck). ⚡ Expand CCTV Camera network suggested locations Die Laan / Noordwal-Oos / Neethling / De Vos and Rattery Streets in collaboration with Stellenbosch Trail Fund.		Panic Button at the corner of Bosman and Victoria (This can be subject to change depending on University approval alternative can be corner of Bosman and Van Riebeeck). More detail required via meeting or email.	
			Busy compiling wayleave application and planning of project to improve overall lighting.	
	Priority 2: Environmental Sustainability ⚡ Replace old recycling bins with new bins across ward 8. ⚡ Increase EPWP rotations to improve cleanliness and solve litter problem (Focussed on Die Laan and Van Riebeeck.		The Department has not rolled out recycling bins. Will speak to the relevant Councillor to identify these bins.	
	Priority 3: Ecological Restoration		Trees can only be planted if there are no underlying infrastructure and based on the availability of trees.	

Ward 8			
	 Planting indigenous garden. Potential locations include Die Laan, Noordwal-Oos and Van Riebeeck Street.  Replace invasive plant species with indigenous plants.	The planting of trees will be subjected the wayleave process.	
		Maintenance is done on an ongoing basis, there is currently no funding to procure plants	
		Due lack of resources the department is not in a position to establish gardens on the areas mentioned.	
	Priority 4: Infrastructure Development		
	 Collaborate with other wards to complete the pathway in Suidwal Street.  Replacing Benches in Die Laan, such as those outside of Mon Desir in Die Laan.  Putting up of bollards to prevent parking on pavements, project will be in consultation with the municipality.	Collaboration is work in progress.	
		Project 50% complete.	
		The Department will assess the feasibility of the replacement of benches in Die Laan.	
	Priority 5: Heritage Preservation		
	 Collaborative project with Historical society and the University on signage for more information on the history of Stellenbosch. (Important to consider social inclusion and restorative justice when putting the project together).	Partnership established with Stellenbosch Heritage Foundation in respect of the Stellenbosch Municipality Heritage Inventory.	
	Ward Priorities for 2021/22		
Priority 1: infrastructure development and Parks			
 Improve and extension of walkways / pathways.  Provide independent power station and alternative electricity supply.  Upgrading of existing and / or new parks.  Investigation of new innovative recreational spaces.			
Priority 2: Non-motorised transport (NMT)			
 Investigation of the use of electric modes of transport.  Development of electric modes of transport routes.  Development of safe intersection for NMTs.			
Priority 3: environmental sustainability			
 Establishment of recycling programme.  Planting of indigenous plants along Eersterivier.  Replacement / refurbishment of old bins in the wad.  Water recycling and additional water provision.  Establishment of Water sustainability / water augmentation programme.  Enforcement of environmental by-laws.			
Priority 4: safety and security			
 Increase visible patrols in the Ward.  Improve lighting.  Connect lighting along Eersterivier path.			
Priority 5: universal access			
 Implementation of Universal access policy.  Exploring of implementation of universal access.			

Table 54: Ward Priorities: Ward 9

Ward 9				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	Ward Priorities for 2019/20	Rating 2019/20
 Cllr Z Dalling Ward 9 (Stellenbosch Town)	Priority 1: Visible municipal law enforcement	😊	Priority 1: Prominent visible law enforcement.	😊
	Priority 2: Efficient traffic law enforcement (By-Law Implementation)	😊	Priority 2: Traffic flow and efficient traffic by-law implementation including parking – more park and ride facilities.	😊
	Priority 3: Accessible pavement and walkways in line with the municipal by-laws	😊	Priority 3: Universally accessible pavements and walkways in line with the municipal by-laws.	😊
	Priority 4: Better control over vagrants	😊	Priority 4: Sustainable solutions for street people in line with the Street Peoples Policy.	😊
	Priority 5: Parking (Additional parking or Park and Ride)	😊	Priority 5: Maintenance and aesthetic preservation of historic buildings and municipal buildings.	😊
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Visible Law Enforcement ⚡ Additional / adequate law enforcement (marshals, illegal car guards, Uber Eats parking).	Dedicated LEO in CBD doing enforcement.	😊	
	Priority 2: Universal accessible sidewalks, pavements and walkways. ⚡ Curbs encroachment of tables, chairs and notice boards and advert. ⚡ Even surfaces. ⚡ Adequate lighting.	Councillor confirmed that the residents are happy with the new lighting installations.	😊	
		New Roads By-law compiled to address.	😊	
		Uneven surfaces addressed as required through operational maintenance.	😊	
	Priority 3: Preservation of historic building and properties. ⚡ Transvalia Plein. ⚡ Voorgelegen. ⚡ Die Braak. ⚡ Piet Retief and Bridge.	Current proposals for usage of building and properties being investigated in order to ensure that the building be used for purposes which will ensure the continued preservation and maintenance of the buildings and properties.	😊	
		Council approved the proposal to investigate the use of the Rhenish Complex for economic opportunities. This project is planned for completion end June 2021.	😊	
	Priority 4: Traffic Calming measures. ⚡ Raised pedestrian crossing in front of Utopia or 3-way stop. ⚡ Another raised crossing at crossing of Dorp, Helderberg to Andringa Street.	Pedestrian crossing currently being assessed.	😊	
		Crossing to be completed end May 2021.	😊	
	Priority 5: Public ablution facilities. ⚡ Next to the tourist office.	Council approved the proposal to investigate the use of the Rhenish Complex for economic opportunities. This project is planned for completion end June 2021.	😊	
	Priority 6: Visible street names (on poles) on the sides of buildings and directional signs e.g. Die Braak. ⚡ Visible street names (on poles) on the sides of buildings and directional signs e.g. Die Braak.	Currently being assessed.	😊	
Ward Priorities 2021/22				

Ward 9	
	<p>Priority 1: Safety and security</p> <ul style="list-style-type: none"> Increased visibility of Law Enforcement. Combat vagrancy and loitering by the implementation of the Restorative Justice programme.
	<p>Priority 2: Infrastructure</p> <ul style="list-style-type: none"> Universal accessible sidewalks: constant monitoring and evaluation required. Traffic calming measures through increasing pedestrian crossing in front of Utopia. Visible street names on poles on the side of buildings and directional signs. Improvement of uneven sidewalks caused by installation of fibre. Park and Ride implementation need to be given preference.
	<p>Priority 3: Tourism and general wellbeing of residents</p> <ul style="list-style-type: none"> Preservation of historic buildings and properties. Public toilet facilities require total revamp, daily cleaning, extended open hours and adequate lighting. Clean environment: <ul style="list-style-type: none"> Litter free pavements and streets; Regular cutting of grass on the embankment of the Eersteriver; and Cleaning of bins on a regular basis. Parking solutions: the hours of attendants to be extended.
	<p>Priority 4: Ecological restoration</p> <p>Maintenance and replacement of the historic street trees for risk management and contribution to landscape value for future generations.</p>
	<p>Priority 5: Post Office</p> <p>We accept that post facilities are for the jurisdiction of National Government, however it is our believe that Stellenbosch Municipality always endeavour to deliver.</p>

Table 55: Ward Priorities: Ward 10

Ward 10				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	Ward Priorities for 2019/20	Rating 2019/20

	Priority 3: Rehabilitation of the Wetland area in conjunction with Huis Horison and other donors	😊	Priority 2: Infrastructure Dustbins at the following strategic points: Distellweg Road on the corner, at the side of the electrical box by Adam Tasweg, at the cemetery by Distellweg turnoff to Bosmans Crossing and Kent on Adam Tas Road.	😊
	Priority 4: Greening of Ward 11	😊	Priority 2: Infrastructure Lighting from Sanhagen Road turnoff up to Azara on the R310 (Kuilsvier).	😊
	Priority 5: Replacement of trees identified in lower part of Dorp Street	😊	Priority 2: Infrastructure Sidewalks: From cemetery to Distell, from Adam Tas intersection to Devon Valley road in front of the business and tar surfaces where necessary in Onder – Papegaaiberg.	😊
			Priority 3: Greening Rehabilitation of the wetland area in conjunction with Huis Horison and other donors.	😊
			Priority 3: Greening Greening of Ward 11 and conservation of fona and flora in parks with proper signs.	😊
			Priority 3: Greening Replacement of trees identified in lower part of Dorp Street.	😊
			Priority 4: Fencing of cemeteries and nature reserve.	😊
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: A Safe neighbourhood <ul style="list-style-type: none"> Extension of fence around the Papegaaiberg cemetery. Electrification of Papegaaiberg fence. Monitored cameras to protect the set fences. Stasie Street: A gate to be closed at night, at the pedestrian crossing next to Amatoni to secure the area at night. Decision for taxi rank opposite Stellenbosch station need to be revisited. It originates as drop - and - go point. Request for public participation. 		Fencing of Papegaaiberg cemetery Project is completed.	😊
			Electrification of Papegaaiberg fence, Portion to be done in the current financial year.	😊
			Cameras purchased. Waiting on ITC for Network	😊
			Supply point for the electric fence has been installed.	😊
			Plans are being compiled for relocation of the taxi ranks.	😊

Ward 11			
	Priority 2: Infrastructure	Installation of lights project will be initiated with the Longlands project.	😐
	🔧 Intersection Alexander / R44 streets interchange.	Intersection planning and design in progress	😐
	🔧 Turn Harold Street into a one- way from Dorp Street towards Station Street to avoid the abuse of the area as an ad hoc Taxi drop off and better control during peak traffic.	Turn in Harold Street is currently assessing request	😐
	🔧 Reseal of all road surfaces.	Roads will be assessed and resealed as needed during 2021/22 financial year	😐
	🔧 Installation of lights on Vredenburg Road / Asara on R310.	Sidewalk to be constructed once the proposed upgrade of Libertas / Adam Tas intersection is completed.	😐
	🔧 Placing of street bins as identified by ward.	The Department has procured concrete street bins and has rolled these bins in various wards.	😊
	🔧 Sidewalk extension from Liberte to Adam Tas Road.		
	🔧 Sidewalk intersection Adam Tas to Devon Valley Road - in front of businesses.		
	Priority 3: Nature Conservation	Alien clearing are currently underway.	😐
	🔧 Rehabilitation of the wetland area in conjunction with Huis Horison and other donors.		
	Priority 4: Papegaaiberg Reserve.	The department is currently busy investigating a possible friends group model that is within the requirements of the MFMA.	😐
	🔧 Establishment of the Friends of Mountain Group, taking care of the total set environment requirement for a declared reserve.	Collaboration between Law Enforcement and Nature Conservation.	😐
🔧 Health risk and illegal structures needs to be attended too.			
Priority 5: Recreation.	The department is communicating with tenants on what can and cannot be maintained as per the lease agreements signed. Only structural damages are maintained like geysers etc.	😐	
	🔧 Upgrading of Van der Stel Sport Ground.	No funding is available on the current budget for upgrading of van der Stel Sports Grounds	😞
🔧 Resolve lease agreement - maintenance of building.			
Ward Priorities for 2021/22			
Priority 1: Safety and asset protection			
🔧 Papegaaiberg Reserve:			
- The deployment of fence monitoring camera;			
- The deployment of rangers patrolling the reserve;			
- Combat health risk and illegal structures;			
- A better quality of panels to be used to replace vandalised panels;			
- Redeployment of working cameras to Papegaaiberg;			
- Extension of fence around the Papegaaiberg cemetery; and			
- Permits for access to the reserve as Environment Protection Act requires permits based access to all nature reserves.			
🔧 Safety at the Adam Tas bridge is a challenge for pedestrians and cyclist.			
🔧 Land invasions are major and growing threat.			
🔧 Overall lighting of ward will be an ongoing priority.			
Priority 2: Infrastructure			
🔧 Bosman Cross / Adam Tas historical bridge requires rebuilding.			
🔧 Van der Stel Sport Grounds are in dire need of maintenance.			
🔧 Vredenburg Road require a pedestrian walkway for the workers.			
🔧 Kwikstert Street down to Devon Valley Road require extension of tarred pathway for workers.			
🔧 Sidewalk extension from Libertas to Adam Tas road is required.			
🔧 Sidewalk intersection Adam Tas to Devon Valley Road in front of the businesses is required.			
🔧 Reseal of all road surfaces in Onder Papegaaiberg.			
🔧 The request for sideways must make provision for pedestrian and cyclists.			
🔧 Ward strive to confirm with the NMT requirements of Stellenbosch Municipality.			

Ward 11

Priority 3: Development Applications

- Oude Molen:
 - There is a growing concern around the impact on traffic from development;
 - NMT facilities a prerequisite; and
 - Aggressive stance on the side of the developers.

• Adam Tas Corridor:

- The public had no insight into the exact plans; and
- Developers are looking to exploit the needs for rapid growth.

• Woodmill Development:

Further developments to make provision for Non-Motorising Transport.

Priority 4: Recreational and community

- Request for a leash-free dog park in Onder Papegaaienberg.
- Request for the removal of alien species to support the natural granite renosterveld in Papegaaienberg Reserve.
- Rehabilitation of wetlands area in conjunction with Huis Horison.
- Establish and maintain an active group "The Friends of Reserves" Taking care of the total set environmental requirements for a declared reserve.
- The outdated maintenance plan for the reserve to be revived.
- Promote cycle routes for recreational purposes.

Priority 5: Public Transport

- Taxi rank at Stellenbosch Station:
 - Has taken complete control of the parking area;
 - No facilities available; and
 - No input asked from the public.
- Integrated Transport Plan:
 - The ITP of 2017 or its revisions should receive attention for the implementation in collaboration with the Adam Tas Corridor project and affected wards; and
 - Establishment of park and ride facilities as a support to our public transport system.

	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Housing for farmworkers.		The planning phase for further development of De Novo is ongoing and various studies are being undertaken by the appointed consultants. The houses in De Novo are currently being rectified. This project is managed by the PDoHS.	😊
	Priority 2: Training and job opportunities.		The Department: Economic Development and Tourism is in the process of compiling an Economic Development Strategy for the Stellenbosch Municipality, which will be workshopped with Council during April 2021. The draft must be submitted to Council by 30 June 2021.	😊
	Priority 3: Town establishment.		"During August 2019, a site inspection was done in order to prepare specification to appoint a service provider. The extent of the property in collaboration with Provincial Department of Public Works (PDoPW) is paramount for an accurate feasibility study.	😊

Ward 19			
		The tender was awarded, and the service provider concluded the brief. A feasibility study was submitted to Council and approved. Further discussions with Provincial Department of Public Works will now commence, given the fact that the said area is outside the urban edge with bulk services capacity challenges.	
	Priority 4: Mobile Clinic.	The municipality is in consultation with the Western Cape, Department of Health.	😊
	Priority 5: Safety and security Meeting with SAPS, neighbourhood watches and law enforcement and security companies.	There are two NHWs Weltevrede and Vaaldraci registered. De Novo's forms completed and is currently with Sector Commander of Kraaifontein SAPS to finalise the fingerprints before submission to DOCS.	😊
	Priority 6: Farmworker summit Summit to address the availability of land for farmworker housing.	De Novo: The planning phase for the further development of De Novo is ongoing and various studies are being undertaken by the appointed consultants. The houses in De Novo are currently being rectified. This project is managed by the PDoHS. Vaaldraci, Elsenburg: A service provider was appointed and completed a feasibility study which was approved by Council during April 2020. Stellenbosch Municipality is currently engaging with the National Department of Public Works the challenges with possible township establishment.	😊
	Priority 7: Improved public transport Affordable taxi and public transport (challenge to get to the nearest town, and community members are missing important doctors' appointments).	Currently being investigated.	😊
	Priority 8: Provision of electricity and at Kromme Rhee (from shops and other outlets).	Eskom supply area.	😞
Ward Priorities for 2021/22			
Priority1: Housing and land for housing			
<ul style="list-style-type: none"> Vacant land in Culcatta Bos and Muldersvlei to be utilised for farmworker housing. The municipality must liaise with farm owners and developers to develop land for farmworker housing. The handing of title deeds in Vaaldraci, Elsenburg, Kromme Rhee, Muldersvlei and Helderfontein must be expedited. Elsevier project must also be implemented. The municipality must liaise with all the relevant role-players to commence with this project. To identify open pieces of land to be used for farmworker housing. All relevant stakeholders must be invited to the summit. Basic services must be provided to backyard dwellers. Housing opportunities must be provided to backyard dwellers. 			
Priority 2: Training and job opportunities			
EPWP programme for your residing on farms.			
Priority 3: Mobile Clinic			
<ul style="list-style-type: none"> The Health Department must provide a bigger mobile clinic - short term. Construction of a permanent clinic in the ward- medium term. That the municipality liaise with the Health Department on improved health services in the area. 			
Priority 4: Safety and Security			
<ul style="list-style-type: none"> Regular and increase patrols by SAPS and law enforcement. Support to neighbourhood watches. 			
Priority 5: Improved public transport			
The municipality must investigate how to improve public transport in Koelenhof, Bottelary,			

Ward 19	
	<p>Vaaldraai, Elsenburg and Kromme Rhee.</p> <p>The municipality must convene meetings with the various taxi associations and the community to improve public transport.</p>
	<p>Priority 6: Purchasing of electricity at other outlets</p> <p>The municipality must facilitate how the community can purchase electricity from either the municipality and or ESKOM.</p> <p>Purchasing outlets for electricity in the ward must be freely available.</p>
	<p>Priority 7: Upgrading of sidewalks and streetlights in Weltevrede</p> <p>Upgrading of sidewalks and streetlights in Weltevrede.</p>
	<p>Priority 8: Recreation Centre for Smartietown</p> <p>Recreation Centre for Smartietown.</p>

Table 65: Ward Priorities: Ward 20

 <p>Ward 20 Cllr Ansaaf Crombie (Vlottenburg and Raithby)</p>	Priority 1: Longlands Housing.	😊	Priority 1: Longlands Housing.	😊
	Priority 2: Road entrance for Longlands and Digteby.	😊	Priority 2: Road Entrance for Longlands and Digteby.	😊
	Priority 3: Pedestrian crossing at Railway (Vlottenburg).	😞	Priority 3: Identification of land for a sport facility.	😞
	Priority 4: New reservoir (Polkadraai).	😊	Priority 4: New Polkadraai Reservoir.	😊
	Priority 5: Crime / Safety Neighbourhood Watch.	😊	Priority 5: Crime / Safety Neighbourhood Watch.	😊
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Housing Longlands Housing.		Internal services have been completed. A funding application for the top structures, with the Provincial Department of Human Settlements (PDoHS), is in its final stage. The PDoHS has indicated that financial provision will be made for the top structures on their 2021/22 financial year budget.	😊
	Priority 2: Bus Stop at Annendale Road.		Request being assessed for submission to Provincial Roads Department.	😞
	Priority 3: Electricity Vlottenburg streetlights needs a timer.		Streetlights maintained by Cape Winelands (Adenco).	😞
	Priority 4: Library Building of a Library for Vlottenburg.		Vlottenburg Primary school is Government run school therefore setting up of a library will have to include discussions with the Provincial Library Services, WECED and the municipality. However, the cuts in Conditional Grant Funding, Provincial Library Services has indicated that they have temporarily suspended all library upgrades as well as the building of new libraries. The municipality does not have the available funds to assist on its own with setting up and staffing a library.	😞
	Priority 5: Sports field Sport field for Vlottenburg (Identification of land).		The Department will liaise with the Ward Cllr on the specifics of the community request.	😊

Ward 20			
	Priority 6: Railway bridge at Vlotenburg Walkway bridge over Vlotenburg station.	Request being assessed for submission to PRASA.	⚠️
Ward Priorities for 2021/22			
Priority 1: Housing <ul style="list-style-type: none"> More land must be identified for further housing assistance / opportunities. Longlands housing public info-session about the infrastructure and planning of the Longlands housing development. 			
Priority 2: infrastructure – Roads and Stormwater <ul style="list-style-type: none"> Bus stop Annandale Road. Walkways Bridge Vlotenburg Station. Vlotenburg Streetlights at Stellenbosch Kloof Road. Vlotenburg Station. Stellenbosch Kloof Road. 			
Priority 3: Safety and Security <ul style="list-style-type: none"> Safety cameras at Vlotenburg Road next to BP Garage. Neighbourhood Watch in Vlotenburg and surrounding farms. Mobile police station Vlotenburg Road. Vlotenburg Road (next to BP garage). Vlotenburg and surrounding farms. Vlotenburg Roads. 			
Priority 4: Fully fledged Clinic in Vlotenburg Vlotenburg Primary School or nearby.			
Priority 5: Sport and Recreation <ul style="list-style-type: none"> Sport ground at Bonfoi farm. Library at Vlotenburg Primary (must get permission from school principal). EPWP programme for youth. Skills development programmes for unemployed youth.

	Priority 4: Zoning and management of nature areas.	😊	Priority 4: Zoning and management of nature areas in ward 21, including farms 366, 369 and 502	😊
			Priority 5: Upgrading of Parks.	😊
	Ward Priorities for 2020/21		Activity	Rating 2020/21
	Priority 1: Affordable housing in Jamestown with integrated transport system Feedback meetings on a quarterly basis with the community. The development must include parks and ECD centres.		The Housing Development Department is currently finalising Stage 2 of Call for Proposals. A report will serve before Council to select a preferred concept site development plan. The selected preferred concept site development plan will enable the finalisation of Stage 2 of the Call for Proposal.	😊
	Priority 2: Safety and Security Fencing of Jamestown sport club (Preferably beta fencing with microdots / wall). Law Enforcement patrols in Jamestown and Paradyskloof, specifically parks and temporary emergency housing area. Security cameras in Paradyskloof and Jamestown: Skool Street before the gates of Stellenzicht and Weber Gedenk School. It must be situated on municipal land. Behind Stellenbosch Square. The security guard house at Jamestown graveyard must move to the middle of the graveyard. Paradyskloof: Survey of existing cameras must be done and needs to be upgraded.		Architect to be appointed within the 2020/21 financial year (construction of a wall). Regular patrols and joint operation with SAPS executed. Security cameras in Paradyskloof and Jamestown: Skool Street before the gates of Stellenzicht and Weber Gedenk School will be investigated for 2021/22.	😊
	Priority 3: Light industrial park In Techno Park.		Project completed.	😊
	Priority 4: Parks and Open Spaces Pedestrian walkways / cycling route - the pedestrian walkway between Jamestown and Paradyskloof needs to be completed. Pedestrian walkway from the R44 in Paradyskloof Road towards the entrance of Paradyskloof Bush needs to be completed. Parks - the fencing of Montrose Park in		Tender for fencing of park to be submitted to the BAC within the 2020/21 financial year. Pedestrian walkways / cycling project completed.	😊

Ward 21			
	Jamestown needs to be completed.		
	Priority 5: Local Economic Development Hub	The Jamestown LED Hub Project is being aligned with the Jamestown Housing Project, which implementation is planned for the 2022/23 financial year.	😊
	Priority 6: Alternative entrance / exit for Jamestown Stellenrust Road.	Alterations identified and presented to Ward Committee.	😊
Ward Priorities for 2021/22			
Priority 1: Housing			
<ul style="list-style-type: none"> Affordable housing with integrated transport system in Jamestown. Feedback meeting on a quarterly basis with the community. The development must include parks and ECD centres. 			
Priority 2: Safety and security			
<ul style="list-style-type: none"> Fencing of Jamestown sport club, preferably Betta fencing with microdots / wall Security cameras in Ward 21, investigate the possibility of security cameras at strategic hotspot ex Mountain view TRA, entrance and exit near schools. 			
Priority 3: Light industrial park			
<ul style="list-style-type: none"> In Techno Park or other available / suitable location. Operation of light industrial businesses. 			
Priority 4: Road and Stormwater			
<ul style="list-style-type: none"> Pedestrian walkways / cycling Path from Paradyskloof Rd / Wildenbosch circle to Eden Forest to be completed. Upgrading / maintenance of pedestrian walkway / cycling path from Paradyskloof Engen Garage (Ward 21) to van der Rhee de Road (Ward 22). Traffic calming measures: <ul style="list-style-type: none"> Webersvalley road; Paradyskloof road / Houtkapper road stop street; Anesta; Schuilplaats road; Serruria road; and Poor storm water drainage in Cnr Helderberg / Simonsberg road Mountain View. 			
Priority 5: Local Economic Development Hub			
Business Development Centre / Heritage Centre / Ward Office			

Table 67: Ward Priorities: Ward 22

Ward 22				
Ward Cllr	2018/19 Ward Priorities	Rating 2018/19	Ward Priorities for 2019/20	Rating 2019/20
 <p>Ward 22 Cllr Esther Groenewald</p>	Priority 1: The revised SRA By-law should be aligned with relevant legislation and the SID-Initiative should be implemented locally as a matter of urgency within all wards.	😊	Priority 1: Safety, by means of an integrated plan within Stellenbosch will be approved for all communities. This includes the use of a special unit that will focus on safety within residential areas, use of cameras and any other tools that may be needed, as well as the completion of a control room that will be manned by trained staff 24/7 and connected to all emergency services within the Stellenbosch Municipal Area.	😊
	Priority 2: The municipality should budget for and enforce a Communication Policy that will lead to the improvement and dedicated sharing of relevant information with residents on a daily basis via email, SMS and / or WhatsApp.	😊	Priority 2: The establishment of an arboretum / tree park against the mountain slope of Dalsig / Brandwacht which can serve as declared reserve and special green belt for Stellenbosch residents, as well as tourists. Soil tests will be carried out beforehand and trees that are unique to the environment will take precedence over being planted. Focus should be placed on the protection of endangered plant and flower species found only in the area. Young people from Stellenbosch will be trained to work at various levels within the tree park. The arboretum will be laid out with pedestrian paths and it will be accessible to disabled people. Each tree will be marked with a nameplate, which will be done in Afrikaans, English, Xhosa and Braille. SU's participation / input to the layout of the park will be requested by the Mayor Rector Forum. Ward 22 will allocate funds annually to help with this.	😊
	Priority 3: A revision of the Planning Application By-law, aligned with same of Cape Town, in which the role of the Ward Committee in the approval of building plans and rezoning applications be built in. Green areas within Stellenbosch should highlighted and all heritage applications should be treated in a special manner.	😊		
	Priority 4: Ward 22 would like to see a workshop on the interpretation of public participation, as through the eyes and opinions of the public. Dr Francois Theron and a representative from Province should lead this workshop for the Ward Committees of all wards.	😊	Priority 3: Ward 22 strives to remain part of a municipality where policies and regulations will be put in place, approved and implemented. Stability will be maintained by the municipal administration adhering to community requests and needs.	😊
	Priority 5: Quarterly sessions between officials and Ward Councillors regarding the roll out of the transport plan to be held.	😊		
	Priority 6: The declaration of a Nature Reserve is of utmost importance.	😊		

Ward 22			
	Ward Priorities for 2020/21	Activity	Rating 2020/21
	Priority 1: Safety and Security <ul style="list-style-type: none"> The completion of the municipal control room. Skills of staff members working at the control room to be enhanced. Establishment of safety WhatsApp groups per geographical area. Increased visible traffic and law enforcement officers throughout the Town. Law Enforcement to settle the dispute of the school bus stop in / at Libertas Farm. 	Dedicated law enforcement officer in Central Business District doing enforcement.	😊
		Training will be provided.	😊
		Establishment of safety WhatsApp groups will be investigated.	😊
		Law Enforcement to settle the dispute of the school bus stop in / at Libertas farm more details required.	😞
	Priority 2: Communication <ul style="list-style-type: none"> Regular upgrading and updating of the Municipal Website. The green electricity process to be communicated to residents. Council agenda items and minutes to be distributed electronically to Ward Committee members. 	Regular updating and editing of the website take place on a continuous basis. News, municipal notices, reports and other documents are uploaded as and when required and as and when received from user departments. The municipality also launched a new municipal website at the end of 2020 - specifically designed to improve user experience, make navigation easier and highlight the most important information to members of the public.	😊
		Council and MayCo meeting items are published on the municipal website and links to the agendas are shared on social media platforms. The documents are thus readily available electronically and can easily be distributed by Ward Councillors, ward administrators or the Speaker's Office.	😊
		The municipality is in the process to conduct feasibility studies on alternative energy for implementation. Once this has been concluded, it will be communicated.	😊
	Priority 3: Mobility and Transport <ul style="list-style-type: none"> The feasibility of the Eastern Link Road to be communicated to residents. Representation of all Ward Committees on the Mobility Forum. 	The feasibility of the Eastern Link Road will be tabled at future Mobility Forum meetings.	😊
		Representation of all Ward Committees on the Mobility Forum is supported.	😊
	Priority 4: Brandwacht Nature area <ul style="list-style-type: none"> Research and announcement of the establishment of a Fynbos area within the Nature area. Costing and installing of durable fencing for the above mentioned area. Establishment of a permanent green security team, who will guard the mentioned nature area against vagrants as well as illegal harvesting of threatened Fynbos species. Regulation of the existing cycle routes in terms of permits and entry fees at gated entrances. Tax paying residents to be issued with an entry card, securing free cycling, jogging or walk about within the area. 	The broad area (Paradyskloof Nature Area), including the whole of Portion 2 of Farm 368, is being rehabilitated as a fynbos area.	😊
		The fencing of the area will be investigated as per the Paradyskloof Nature Area Environmental Management Plan. Because of the high cost of such fencing municipal nature areas where a dire need, in terms of security, crime and protection of property exist have received priority. Recent fencing projects have shown that the installation of clearview fencing could cost as much as R1 500 per running m (depending on the site / terrain / amount of site preparation required). If a 7000m - 9000m section of	😊

Ward 22			
		Paradyskloof Nature Area is to be fenced (excluding the portions towards Stellenbosch Mountain) such a project would cost in the order of R10milj - R14milj.	
		Given the fact that the Paradyskloof Nature Area is currently not fenced it is a challenge to regulate recreational access. The fencing of strategic areas of Paradyskloof must be investigated to regulate access.	😊
		Access to municipal owned nature areas for the purposes of cycling, jogging or walking in the area is currently free of cost.	😊
		No funding available to appoint the Forest Guard posts that is on the micro structure.	😞
Ward Priorities for 2021/2022			
Priority 1: Safety and Security Safety cameras at entrances to Ward 22 to be provided with stable internet in order for it to be monitored continuously by the control room officials.			
Priority 2: Communication Public participation process launch re the consumer-friendliness of the Stellenbosch Municipal Website and subsequent implementation of practical comments.			
Priority 3: R44 and Schools Precinct Mobility Proposal to Western Cape Government to build a safe pedestrian bridge over the R44 in the most appropriate place near the Saffraan Street / R44 robot intersection.			
Priority 4: Fynbos – Mountain Area 🚧 Fencing the mountain area above Ward 22 to bring more protection to residents. 🚧 Management of the existing cycle routes- spot above Wards 22, 21 8 and 9.			
Priority 5: Recreation Upgrading of play equipment on parks within Ward 22.			

6.5.1 IDP Stakeholder Engagement– April 2021

The subject of stakeholder governance is embedded in the South African Constitution and implicates all the spheres of government. According to the Constitution (Section 151(1)(e)), municipalities need to encourage the involvement of communities as well as community organisations in the planning of Local Government.

The MSA further states that “A municipality must undertake developmentally-orientated planning so as to ensure that it strives to achieve the objects of local government set out in Section 152 of the Constitution, gives effect to its developmental duties as required by Section 153 of the Constitution and together with other organs of state contribute to the progressive realisation of the fundamental rights contained in sections 24, 25, 26, 27 and 29 of the Constitution”.

The 4th Generation IDP in principal deals with the most critical development needs of the municipal area. In doing so, the municipality seeks to develop integration by balancing the economic, ecological and social pillars without compromising the institutional capacity available to the municipality, and thereby coordinating implementation plans across sectors and spheres and government.

The main purpose is to have a strategic engagement with key sectoral partners across the Greater Stellenbosch Area, the benefit from and / or influence municipal areas of service delivery or contribute to the lives of Stellenbosch communities. These partners include industries, businesses, agriculture and

tourism, various institutions, non-governmental organisation, community based organisations, faith-based organisations and sports councils.

To ensure a fruitful engagement, IDP stakeholder engagements will be held in April 2021 on a themed approach, whereby sectors will be allowed to provide verbal and written inputs.

This engagement aimed to encourage integrated planning and ensure that the municipality's strategy is aligned with the strategic outlook of the respective sectors.

The objectives of the stakeholder engagement are to:

-  Create a platform for all stakeholders to consult on the economic growth and development of the Stellenbosch Municipal Area;
-  To consult on the protection of the the bio-diversity and heritage of the area;
-  Foster a culture of social cohesion and inclusivity through the promotion of arts, craft, sport and tourism;
-  Provide access to housing and basic services thereby promoting a dignified living for all residents; and to
-  Promote the interest of vulnerable groups in society.

6.6 Thusong Programme

The aim of the Thusong Programme is to ensure equitable and effective access to government services and information, through strategic partnerships and engagements with the three spheres of government and relevant stakeholders.

The rationale for the Thusong Programme is set within the development-communication paradigm. This paradigm reflects a democratic approach to a public communication and information system. It aims to put the information needs of citizens first in the communication process. Some of the salient features of this approach relate to the expressed need for face-to-face interaction between government and the people.

The primary focus of development communication and information is to empower the poor and disadvantaged. These communities have limited access to information and are the main target of government's socio-economic programmes. The Thusong Programme is viewed as a means to address information and service imbalances at a local level by bringing government closer to the people.

The Thusong Programme has been tailored to ensure that citizens of the Western Cape Province can seamlessly access a wide range of integrated public services irrespective of where they live. Therefore, the Thusong Programme has been expanded in the Western Cape Province to include the following projects: Thusong Mobiles, Thusong Service Centres, Thusong Service Satellite Centres and Thusong Zones.

Through the Mobile Thusong programme, Stellenbosch Municipality is delivering on the values it embraces. Although the focus is currently only on Thusong Mobiles, the idea is to extend the programme in the municipal area.

CHAPTER 7

Legacy Projects and Service Delivery Implementation Plans

7.1 Introduction

The municipality has a number of medium- and longer term sector plans that direct the implementation of the different functional areas. These plans form an integral part of the Integrated Development Plan (IDP).

Although the time-periods for sector plans and the IDP differ (e.g. the *mSDF* has a 20-year horizon, IDP has a 5-year horizon and sector plan can be revised annually), the IDP and sector plans inform each other mutually. Like the IDP, sector plans are subject to periodic review. Alignment between sector plans and the IDP allows for more effective budgeting integration.

Other service delivery implementation processes include:

-  Integrated Zoning Scheme (IZS);
-  Spatial Development Framework;
-  Air Quality Management Plan;
-  Stellenbosch Integrated Human Settlements Plan (Housing Pipeline);
-  Infrastructure Sector Plans include the Comprehensive Integrated Transport Plan (CITP);
-  Integrated Waste Management Plan (IWMP);
-  Electrical Master Plan;
-  Water Services Development Plan (WSDP);
-  Long Term Water Conservation and Water Demand Management Strategy;
-  Safety and Security Strategy;
-  Disaster Management Plan;
-  Local Economic Development Strategy;
-  Community Development Strategy;
-  Human Resources Strategy; and
-  ICT Strategy.

The Municipal Council also embarked on legacy projects to mark for 5-year political term, as initiatives to target specific areas of development. These legacy projects serve as a symbolic representation of visible legacy of work undertaken during this political term.

The overarching financial planning process culminated in the finalisation of the municipal budget which prioritises development and recognises the importance of addressing critical infrastructure backlogs impinging on the objectives for economic development. Well maintained infrastructure is of considerable strategic importance for the municipality to realise the vision for the greater Stellenbosch area to be a place of living, working and learning. The Local Economic Development Strategy also needs to be closely related to the financial planning process. The sections below expand on key sector plans of the Stellenbosch Municipality.

7.2 Smart City

As cities compete for global investment and talent, efficient cities with less red tape barriers, ICT competitiveness comes centre stage. A smart city is adaptable to change and demands that emanate from growth, and in response applies information and communication technologies to enhance performance and urban services in order to respond to demand whilst reducing consumption, waste and costs. Smart cities need to capitalise on digital technology to facilitate speed of information to support more efficient delivery of goods and service and contribute to the greater vibrancy of cities.

A **smart city** is a municipality that uses information and communication technologies to increase operational efficiency, share information with the public and improve both the quality of government services and citizen welfare.

7.2.1 A smart city is a holistic ecosystem

Where people are interconnected and contributing towards a common vision, creation of knowledge and exchange of ideas.

Global best practices recommend three primary categories when determining the benefits and priorities for the design and implementation of the smart city roadmap. The smart city roadmap includes the following:

1. Smart Governance

Transform the institutional systems, processes and organisational structure to one of high performance organisation to effectively deliver basic services.

2. Smart Livelihood

Implementation and integration of innovative digital platforms to enable social upliftment.

3. Smart Economy

Grow and diversify the local economy through the attraction of new investment, skills development and facilitation of an enabling environment for small business growth and job creation.

Stellenbosch Municipality aims to progressively realise the principles of the smart city.

Figure 39: Smart City Principles

These principles are underpinned by the four commandments of a smart city:

Table 68: Four commandments of a smart city

Commandment	Solution
Environmentally friendly	Open spaces Environmental protection
Mobility and integration	Transport solutions Development linked to transport solutions
Social integration	Basic Services
Current through technology	Develop the municipality's IT platforms Paperless systems development

7.3 Legacy Projects

The following legacy projects was undertaken by the current political leadership, which remains applicable for the duration of the political term under leadership of the respective portfolios of the Mayoral Committee Members.

	Project completed.
	Project in progress.
	Not completed / No budget available / District Function / Provincial Function

Table 69: Legacy Projects

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
Planning, Local Economic Development and Tourism (Cllr Esther Groenewald)	LP1	Municipal Spatial Development Framework (mSDF) amendment and review	mSDF Amendments and full review.		mSDF approved on 11 November 2019. mSDF indicated land for development and particularly focus areas for development i.e. the Adam Tas Corridor and Klipmuts Bridge.	The amendment and review process includes developing a strategy for monitoring the performance of the Stellenbosch Municipality's SDF. This process will hopefully commence in the 4 th quarter of the 2020/21 financial year. A service provider has been appointed and commenced with the Compilation of Adam Tas Corridor (ATC) Local Spatial Development Framework (LSDF). The draft LSDF for the ATC is scheduled to be submitted to Council by 31 August 2021 for adoption. The DEA&DP (WCG), Stellenbosch Municipality and Drakenstein Municipality are currently engaging in a process to develop a concept regional plan for the greater Klipmuts Area. This concept plan will provide guidance on evaluating and promoting current and future land use applications / development within the area.
	LP2	Innovative system to streamline and expedite building plan approvals	Implementation of an electronic building plan application solution		Phase 1: Solution Implementation and initial user requirement and configuration – Jan 2019 to June 2019	BPAMS was partially implemented on 1 July 2020 due to delays caused by the COVID-19 pandemic. The implementation of the full BPAMS system was

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
Rural Management (Cllr Salie Pieters)					Phase 2: Configuration and Training – July 2019 to 29 Feb 2020 Phase 3: Simultaneous Use and final configuration – 2 March 2020 to 30 June 2020 Phase 4 : Go-Live date – 1 July 2020	effectuated as of 1 January 2021 and has been fully operational since.
	LP3	Finalise land use management backlogs	50% reduction in backlog applications by 2020	😊	Capacity intervention to deal with the backlog is not in place. The backlog is not been addressed at present.	Notwithstanding the fact that no operational (as opposed to management capacity) capacity interventions was ever introduced, the original backlog of 144 land use management applications was progressively reduced during 2020 to only 1 outstanding backlog land use management application at present (12 February 2021).
			Agricultural Land Plan adopted by Council	😊	Policy for the Management of Agricultural land adopted by Council.	A further ten (10) agricultural land parcels are currently being investigated to be advertised and allocated to emerging farmers. The final report on the additional agricultural land parcels is scheduled to be submitted to Council in April 2021.
	LP4	Local Economic Development	LED Hubs identified and constructed	😐	Triangle site and Old Clinic ha has been allocated. Agricultural Hall lease agreement to be signed by March 2020.	Currently building plans are in the process of being approved for the Old Clinic Site in Victoria Street, and the Land Use Management (LUM) Section is in the process of finalising the land use management application for the Triangle Site (Erf 230.) in Franschhoek.
			Informal Trading Sites identified and constructed	😊	Groendal informal trading site to be completed by the end of 2019/20 financial year.	Groendal Informal Trading Site construction completed during February 2021.
			Audit of People on farms and back-yard dwellers	😊	Klapmuts, Ida's Valley and Franschhoek trading sites completed.	Survey of backyard structures in Klapmuts is currently underway. Ida's Valley's survey was completed in the previous financial year.
Rural Management (Cllr Salie Pieters)	LP5	Tourism Strategy	Electronic Tourism Boards (Stellenbosch CBD and Franschhoek)	😐	Development of a Tourism Plan. Service Provider has been appointed. Plan in the process of development.	Appointed service provider completed the draft Tourism Plan, which is currently being finalised by the acting Manager: Local Economic Development and Tourism for inclusion within the Economic Strategic Plan for Stellenbosch Municipality. Completion date 30 June 2021.
	LP6	Adopted Rural Management Plan	Rural Management Plan adopted by Council by 30 June 2020	😊	Adopted by Council during December 2018.	The Rural Management Plan is being drafted and will be included within the Stellenbosch Municipality Economic Development Strategic Plan which will be submitted to Council by 30 June 2021 for adoption.

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
Integrated Human Settlements (Deputy Executive Mayor, Cllr Nyaniso Jindela)	LP7 Social housing project implementation		Annual review of the 5 year Housing Pipeline		The review of the Housing Pipeline will be tabled during the March 2020 Council meeting for approval.	The review of the Housing Pipeline is scheduled to be tabled at the May 2021 Council meeting for consideration.
			Jamestown Housing (bulk sewer 408 opportunities)		Bulk sewer upgrading is ongoing. A procurement process has been followed to appoint a service provider to compile a Bill of Quantities. Currently, an evaluation process has been commenced whereby the BAC must appoint service provider. After a latter, Stage 2 of the process will be finalised.	The Housing Development Department is currently finalising Stage 2 of Call for Proposals. A report will serve before Council to select a preferred concept site development plan. The selected preferred concept site development plan will enable the finalisation of Stage 2 of the Call for Proposal.
			Longlands Housing Subsidy implemented		Implementing agent appointed and site establishment took place in November 2019. Expected completion date is during 2020/21 financial year.	Internal services have been completed. A funding application for the top structures, with the Provincial Department of Human Settlements (PDoHS), is in its final stage. The PDoHS has indicated that financial provision will be made for the top structures on their 2021/22 Financial Year budget.
			Zone O re-blocking		Families have successfully been relocated to a decanting site. LUPA application has been submitted to the Land Use Planning department and approved by MPT. After the appeal period has lapsed, a tender process will be followed to appoint a service provider to commence with services and construction. This project will be dealt with in phases.	The funding application for the implementation of Zone O re-blocking (installation of civil services) was approved by PDoHS on 28 January 2021. The project will now be handed over by the Housing Development Department to the Project Management Unit for implementation.
			Ida's Valley housing projects implemented		<p>Erf 11330 (Hillside) Developer has completed a significant amount of Gap houses and has started with the subsidy housing. Estimated date of completion of the BNG by end June 2020.</p> <p>Erf 9445 (Oak Tree Village) Servicing to commence during the latter part of the 2019/20 financial year (April 2020).</p>	<p>Erf 11330 (Hillside) – The developer has completed 87 BNG houses for the low-income category. In terms of the 87 BNG houses, a total number of 86 subsidies has already been approved. 1 further BNG subsidy application has been submitted and awaits approval from PDoHS. 113 GAP houses have been built. All houses have been handed over and the contractor is currently busy with the snags in accordance with the retention period.</p> <p>Erf 9445 (Oak Tree Village) – An amount of 166 GAP housing opportunities will be created on Erf 9445 and PDoHS has indicated that funding to service these sites will be available on the 2021/22 financial year. Implementation will be managed by the municipality's Project Management Unit.</p>
			Langrug upgrade concluded by June 2021		In order to commence with the re-blocking of Langrug, a decanting site on Erf 3229,	Service providers have been appointed to undertake a Geotech study required in order to make application in terms of the relevant

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
					<p>Mooiwater needs to be develop (basic services).</p> <p>A service provider has been appointed and has already completed a geotechnical report with a services cost breakdown.</p> <p>An application for the exemption of the provision of LUPA and Stellenbosch Municipality By-law has been prepared and will be submitted to the Land Use Planning department, soonest. The master planning for the Langrug Informal Settlements is a necessity to address all the challenges the settlement currently experiencing. A service provider will be appointed in due course.</p>	<p>legislation for the development of Erf 3229. To date a draft subdivision plan has been developed and will be finalised once the possible environmental impacts on the site have been mitigated.</p>
					<p>Housing Development Agency (HDA) informed the municipality that the land in La Motte has been released by the National Department of Public Works. A consultant has been appointed to acquire the necessary land use rights in order to implement a mixed used development. This project will also be a catalyst to assist the decanting in Langrug informal settlement and thereby creating open spaces for re-blocking.</p>	<p>Stellenbosch Municipality is currently engaged with the Housing Development Agency (HDA) to facilitate the transfer of land in La Motte to the local authority as well as obtaining the applicable land use development rights.</p> <p>An Implementation Protocol (IP) was compiled by HDA to charter the way forward with regards to roles and responsibilities, funding, administration and projects.</p>
					<p>The upgrading of the Mandela City informal settlement is being executed in an incremental manner. The reason for this approach is that the families need to clear a particular area before services can be installed. Currently 187 sites were services and temporary units build. The civil contractor on site has further more services a further 76 sites and the service provider to build the temporary units has been instructed to commence with the process. Public participation is on-going.</p>	<p>Phase 1 (187 units) and Phase 2 (76 units) of the project has been completed. Phase 3 will be undertaken as soon as more funding becomes available.</p>
					<p>A consultant has been appointed to provide enhanced service sites. Given the slope, the platforms need to be redesigned and a tender to appoint a service provider will be completed.</p> <p>The service provider submitted a technical report with an estimated cost. The Directorate: Infrastructure Services is currently evaluating</p>	<p>As previously reported, the current cost estimates received from the consultant is much higher than anticipated. The financial impact of COVID-19 on the financial position of the Stellenbosch Municipality does not allow for this project to continue at present.</p>

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
					the technical report. The current estimates received from the consultant is much higher than anticipated.	
			Informal Settlement Strategy developed and implemented		Informal Settlement Strategy was adopted by Council and different aspects of this strategy are being implemented by different Integrated Human Settlements departments. The Informal Settlement Strategy is annually reviewed internally and aligned with the approved Housing Pipeline.	The Informal Settlement Strategy has been reviewed in order to align with development (proposals and projects) as identified through the Municipal IDP and mSDF.
	LP8	Upgrading of the Cloetesville flats	Upgrading of the Steps (Cloetesville)		A contractor has been appointed and the rectification of the units will commence in the current financial year.	The project has commenced, and the contractor is on site. An amount of 22 units has been completed. The transfer of the units will be programmed to coincide with the rectification programme.
	LP9	Soekmeaar development	Low cost housinggousingousing		The first proposal call had to be cancelled due to non-responsiveness of the two bidders from which proposals were received. Taking into consideration the outcome of the first proposal call, the second proposal call, which will be advertised on 15 February 2020, capsulated specific outcomes. The advertisement period will be until the end of March 2020, where after the Supply Chain Management process will follow. Estimated development rights to be obtained in 18 months.	The specifications of Stage 2 for the Call for Proposals served at the BSC on 04 November 2020. An agenda item will serve at Council to select a preferred concept site development layout.
	LP10	Kayamandi CBD upgrade	Upgrading of the Kayamandi Town Centre		The service provider has prepared different development concept plans to be presented to the community. After the public participation process has concluded, the LUPA application will be submitted to the Land Use Planning department for approval. It should be noted that the upgrading of the Town Centre is linked to the decanting site that needs to be established in the Northern Extension. At a public meeting that was held during December 2019, the community in principle accepted the development proposal, but with certain concerns. To address these concerns a site visit has been arranged in order to give representatives a first-hand view of high density development modules.	A funding application has been submitted to PDoHS during June 2020. The planning layout has been approved by Council on 24 August 2020. A service provider is currently in the process to finalise all detailed planning and are in process of engaging with the Planning Section of the Stellenbosch Municipality and proceeding with further public participation processes. These planning applications will be submitted to obtain development rights. The municipality is currently awaiting the funding approval from PDoHS.

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
Financial Services (Cllr Patricia Crawley)	LP11	Revenue enhancement	PPP – Feasibility Study concluded		The municipality acquired additional office space in the 2019/20 financial year and therefore no need to continue with the PPP process.	Notwithstanding the ongoing spatial planning initiatives, all land use management applications pertaining to Klapmuts are being duly processed. Stellenbosch Municipality is participating in an inter-governmental workgroup to coordinate and liaise on the development of the greater Klapmuts area.
			Klapmuts Development		mSDF approved on 11 November 2019. mSDF indicated land for development and particularly focus areas for development i.e. the Adam Tas Corridor and Klapmuts Bridge.	Completed - The Revenue enhancement strategy was implemented during the 2020/21 financial year. The municipality established a Debt Review Committee to closely monitor the progress with outstanding debt and deliberating on acceptable and reasonable arrangements for the settlements of arrear debts by all affected municipal debtors.
			Revenue Enhancement Strategy implemented		The Revenue Enhancement Strategy was finalised in the 2019/20 financial year. The implementation of the strategy commenced in the 2019/20 financial year and will continue in the 2020/21 financial year.	At the time of reporting the audit for the 2019/20 financial year was not completed. After finalisation of the 2019/20 Audit, an Audit Action Plan will be compiled to address the audit findings identified during the audit. A service provider is appointed to assist with the review of the annual financial statements and annual performance report.
			Audit Management		The Audit Action Plan for 2019/20 is finalised. The municipality appointed a service provider to assist with the review of the annual financial statements as well as the annual performance report.	
	LP12	Long term financial plan and expenditure framework	Long Term Financial Plan developed and implemented CP3 Model Implemented		The Long Term Financial Plan is completed and forms part of the 10 Capital Expenditure Framework. Three year contract in place.	
Parks, Open Spaces and Environment (Cllr Xoliswa Mdemka)	LP13	Beautification of the towns	Nature Resource Programme implemented		The Department Community Services is in the process of compiling Management Plans for all our Nature reserves and nature areas such as Paradyskloof Nature Area.	The Department Community Services is in the process of compiling Environmental Management Plans (EMPs) for all the municipality's Nature Reserves and Nature Areas. The following EMPs have been completed and approved: <ul style="list-style-type: none"> Paradyskloof Nature Area (Stellenbosch). Corporate Services (Cllr Aldridge Frazenburg)	LP30	Customer care initiative to become responsive to community concerns	Operational Call Centre	😊	The draft Customer Care Framework has been submitted and approved by Council. Various engagements were held with the Administration and Political leadership on methods to address customer services in the Stellenbosch Municipal Area. The Directorate Corporate Services established a Steering Committee on the 4th March 2020 to assist with the implementation of a pilot project on customer care and citizen engagement.	The Customer Care Interface implementation actively commenced in July 2020, where the 1st pilot department was consulted. The implementation of the 1st pilot started with the Department Urban Greening. The teething problem with the 1st pilot was resolved in December 2020 which allowed us to continue with other departments. In January 2021 the 2nd phase of the pilot commenced, which included the whole Directorate Infra Structure Services. The Directorate handles the bulk of complaints as they are responsible for most of the core services to residents. The teething problems in this department were much quicker dealt with. In February 2021, an engagement with the remaining Directorates were held which included Financial Services, the Planning and Economic Development and Community and Protections Services. In March 2021 a communication strategy will be implemented to make the public aware of the launch of the new Customer Care Interface deployed by the municipality to address all citizen enquiries or complaints. The municipality envisage the Customer Care Interface to reach full (internal and external customer engagement) implementation in April 2021.
	LP31	Human Resources and Organisational Structure	PABX	😊	The telephone system was upgraded with a switchboard function in the 2018/19 financial year.	
			TV Systems	😊	All TV screens are in the process to be connected on the Municipal ICT network. This project also forms part of the broader customer care initiatives implemented by the municipality.	All TV screens are connected to the network. Additional budget needed to procure central control unit to display content. The latter previous unit was damaged by water leaks. Request for R200 000 will be requested on 2022/23 budget.
			HR Policies Review (Recruitment and Selection, Standby, Smoking, TASK, Essential User Scheme)	😊	The Recruitment and Selection Policy still under review. Standby Policy was replaced with the overtime Policy (approved in 2018). TASK Implementation Policy approved in February 2020.	Recruitment and Selection Policy: New Recruitment and Selection Policy submitted for consultation in the 3rd quarter of 2020. During consultations on the previous draft it became clear that the previous draft was inadequate to deal with

Portfolio	Ref no.	Legacy Project/s	Specific Initiatives	Rating	Progress 2019/20	Progress 2020/21
					Essential Care User Scheme adopted by SALGA for consultations with unions.	progressive recruitment practices. Consultation on new draft currently underway. Essential User Car Scheme Final agreement submitted to SALGA HR Workgroup for adoption by municipalities.
			Organisational Re-Design	😊	Organogram re-designed and implemented.	Organisational structure is a living document and needs constant review to ensure that it stays relevant. Further reviews under discussions with unions. To be completed in 2021.
			Review System of Delegations	😊	System of Delegations reviewed and adopted by Council in August 2018.	Further review in 2020 approved. Delegations change from time-to-time as by-laws and policies are revised. System updated on yearly basis.
			Re-evaluation of staff job descriptions by the Regional TASK Committee	😐	Intensive process to deal with job descriptions from December 2019 and is currently ongoing.	In process. Thus far 323 job descriptions (JDs) have been submitted for evaluation out of a total post complement of 1 998 posts equating. Not all post needs evaluation as a lot of posts are generic and in that situation only one JD will be evaluated covering several posts. The municipality will endeavour to have all outstanding JDs submitted for evaluation by 31 June 2021.
			Property and Facility Management – monitoring lease agreements and creating synergy between finance to ensure follow-up	😊	Addressed currently in the revision of the existing Sport Facilities Management Plan as instructed by Council.	Municipal Manager requested a portfolio register of all Council properties to provide information on decisions of Council land per category. An interdepartmental team will work on the documents to be produced to Council by December 2021.

7.4 Service Delivery Implementation Plans and Strategies

7.4.1 Integrated Zoning Scheme (IZS)

(a) Background

In terms of Chapter 5 of the Spatial Planning and Land Use Management, 2013 (Act No. 16 of 2013) (SPLUMA) each municipality is required to adopt and approve a single land use scheme for the municipal, subsequent to public consultation. Similarly, the Land Use Planning Act require that a municipality regulate the development, adoption, amendment and review of a zoning scheme for the municipal area.

The effect of the new order planning legislation (Spatial Planning and Land Use Management Act, 2013 (SPLUMA) and Western Cape Land Use Planning Act, 2014 (LUPA)) entails that the municipality has full responsibility for land use planning in its area of jurisdiction and must adopt and approve a single zoning scheme for the entire area.

The Integrated Zoning Scheme aims to develop a single integrated zoning scheme for the Council's land development objectives. Land use management is a means of establishing or implementing any statutory measure to manage, restrict or regulate the use / development of land within the municipal area. Land use management systems of the municipality consist of various mechanisms of which the Stellenbosch Municipal Spatial Development Framework (SMSDF), heritage registers and conservation plans, official municipal land use policies and by-laws, as well as integrated Zoning Scheme by-law form the main or core components.

Together with this requirement, a Municipal Land Use Planning By-law was adopted to regulate the land use administrative processes. i.t.o. SPLUMA the land use scheme must:

- (a) include appropriate categories of land use zoning and regulations for the entire municipal area, including areas not previously subject to a land use scheme;
- (b) take cognisance of any environmental management instrument adopted by the relevant environmental management authority, and must comply with environmental legislation;
- (c) include provisions that permit the incremental introduction of land use management and regulation in areas under traditional leadership, rural areas, informal settlements, slums and areas not previously subject to a land use scheme;
- (d) include provisions to promote the inclusion of affordable housing in residential land development;
- (e) include land use and development incentives to promote the effective implementation of the spatial development framework and other development policies;
- (f) include land use and development provisions specifically to promote the effective implementation of national and provincial policies; and
- (g) give effect to municipal spatial development frameworks and integrated development plans.

Section 24 (3) of SPLUMA furthermore provides that a land use scheme may include provisions relating to:

- (a) the use and development of land only with the written consent of the municipality;
- (b) specific requirements regarding any special zones identified to address the development priorities of the municipality; and
- (c) the variation of conditions of a land use scheme other than a variation which may materially alter or affect conditions relating to the use, size and scale of buildings and the intensity or density of land use.

The zoning of a property determines the land use rights for which it can be used, such as residential, business, industrial, open space or recreational purposes. The zoning of a property also prescribes the

restrictions within which the land may be developed for example height of buildings, distances from street, floor area, parking and access. The overarching objective of zoning schemes is to maintain, protect and upgrade the general welfare, public health and safety of all the inhabitants of a defined area.

A Zoning Scheme is a municipal by-law which allocates development rights to properties within the municipal jurisdiction, outlining all of the development rules applicable to the various types of properties. The zoning scheme contains regulations pertaining to restrictions on such rights and how they may be exercised. Components of a Zoning Scheme include the following:

Figure 40: Components of a Zoning Scheme

Firstly, the **Zoning Scheme by-law** describes how land may be used and developed. This provides for the zoning of land and the adoption of new zones. It should therefore provide for the different zones which determine how land may be used (e.g. residential, commercial, industrial, open spaces, etc.). It also contains development parameters which determine how may developed (e.g. building lines, height, coverage, parking, etc.). Secondly, a **zoning register** is kept to record all planning applications approved by the municipality. Finally, **zoning maps** are developed which spatially records the zoning of land (and all re-zoning of land).

The purpose of the Integrated Zoning Scheme is to:

- Describe how land may be used (the land use);
- Describe how land may be developed (form and scale of buildings);
- Allow certain development and land uses in certain locations;
- Prevent certain development and land uses in other locations;
- Allow/enable urban growth and development according to development principles in SPLUMA and LUPA (spatial justice; spatial sustainability; spatial resilience; spatial efficiency; and good governance);
- Address environmental, heritage, economic, health and welfare issues related to property development;
- Manage development in the light of municipal services and infrastructure; and
- Manage development in the light of public and private transport and parking provision.

Table 70: Different use of the Integrated Zoning Scheme

Different Uses of the Integrated Zoning Scheme	
Primary Use rights	Undertaken or constructed without any further approval from the municipality.
Additional Uses	Technical approval and may be conducted to a limited extent subject to conditions and a Site Development Plan.
Consent Uses	Higher impact, depending on the circumstances; may only be undertaken after an application is made and approved and conditions imposed.

Source: Draft Integrated Zoning Scheme

In accordance with SPLUMA the IZS developed a base zone with general guidelines applicable to all

areas within the base zone, and a number of overlay zones. An overlay zone is a regulatory tool that creates special zoning districts, placed over an existing base zone(s), which identifies special provisions in addition to those in the underlying zone.

The Integrated Zoning Scheme (IZS) went through two rounds of public participation. After the comments from interested and affected parties were reviewed, the document was edited, where applicable and the final draft Stellenbosch Zoning Scheme, October 2018 was submitted to Council for consideration and adoption during May 2019 and was subsequently gazetted as required by SPLUMA. The Stellenbosch Zoning Scheme By-law, 2019 was is being implemented in November 2019.

7.4.2 Air Quality Management Plan (AQMP) for Stellenbosch Municipality

The Stellenbosch Local Municipality Air Quality Management Plan (AQMP) has been completed with the input of the DEA&DP.

7.4.2.1 A Vision and Mission

Aligned with the Cape Winelands District Municipality (CWDM) vision for air quality management the vision for the Stellenbosch Municipality, as defined in the AQMP is: Air quality in the Stellenbosch Municipality is clean and healthy.

The mission statement to achieving the stated vision is:

Air quality in the Stellenbosch Municipality is co-operatively managed for the benefit of present and future generations according to the principles of sustainable development to safeguard health and quality of life, promoting economic and social development.

7.4.2.2 Challenges and threats

The AQMP has identified motor vehicle emissions, industrial and manufacturing emissions, agricultural emissions, residential fuel burning and biomass burning emissions and emissions from the landfill and wastewater treatment plants as main sources of air pollution. The brown haze which forms over Cape Town during the winter months, largely attributed to motor vehicle emissions, extends northwards on occasion and affects air quality over the southern parts of the Stellenbosch Municipality. These sources are relatively small and air quality in Stellenbosch is generally good with respect to the typical pollutants. However, agricultural activities, including seasonal burning and the use of pesticides present challenges for air quality management.

7.4.2.3 Goals

The goals to achieve the mission of the AQMP are listed below and their linkages to the Western Cape Provincial AQMP (D: EA&DP, 2010) and the CWDM AQMP (CWDM, 2012) are highlighted. The three goals for the Stellenbosch Municipality AQMP are:

Goal 1: Air quality governance meets requirements to effectively implement the AQMP: This goal addresses the regulatory framework and the institutional capacity required in the Stellenbosch Municipality to carry out the air quality function. This links directly to the goal the AQMP for the Western Cape to 'Ensure effective and consistent air quality management' and the goal in the CWDM AQMP of 'Effective air quality management';

Goal 2: Reduce atmospheric emissions of harmful pollutants: This goal aims to manage activities that impact on air quality to reduce the emissions of harmful pollutants and associated impacts on human health and well-being. This links directly to the Provincial AQMP goal to 'Ensure effective and consistent compliance monitoring and enforcement' and 'To ensure that health-

based air quality standards are attained and continually met'. It also links to the CWDMAQMP goal of 'Effective air quality management' through an 'Emission reduction strategy'; and

Goal 3: Systems and tools are established to effectively implement the AQMP: This goal refers to the systems and tools required for effective AQMP implementation, the cornerstone of which is an Air Quality Management System (AQMS). The development of an AQMS links directly to the Provincial AQMP goal 'To ensure effective and consistent air quality management' through the development of AQM systems. It also links to the CWDMAQMP goal to develop an AQMS. An AQMS is the fundamental unit towards the management of air quality in an area, incorporating the necessary technical elements that provide information on the status of air quality (D: EA&DP, 2010). Included in this goal is the need for stakeholders to actively participate in AQM in the Stellenbosch Municipality, which links to the Provincial AQMP goal 'To continually engage with stakeholders to raise awareness with respect to air quality'. It also links to the CWDMAQMP goal to 'Promote communication in relation to Air Quality Management'.

7.4.2.4 Time frames

The timeframes defined for the Implementation of the AQMP are:

Immediate: First 3 months of AQMP adoption;

Short term: First 12 months of AQMP adoption;

Medium Term: 2 to 3 years; and

Long term: Year 4 and 5.

The following Immediate items were included in the AQMP, all with reference to Goal 1 above:

Table 71: Items in the AQMP

Objective	Activity	Responsibility
Sufficient capacity and competence exist to perform the air quality management function.	Identify capacity and competency needs.	Council
The AQMP is included in the IDP.	Prepare air quality input for inclusion in the IDP. Ensure adequate funding in the IDP for AQMP implementation.	Air Quality Officer, Council
A regulatory framework exists in the municipality for air quality management.	Develop air quality by-law.	Air Quality Officer, Council

Stellenbosch Municipality relies on data from the Province's monitoring station situated at Cape Winelands District Municipality in Stellenbosch town to determine air quality or atmospheric emissions. This data is reported on by the relevant Environmental Health Official from Cape Winelands District Municipality.

7.4.3 Integrated Human Settlement Plan

7.4.3.1 Overview

An Integrated Human Settlement Plan (IHSP) is the road map for the provision of all forms of housing within a Municipal area. This plan is closely linked to the Municipal IDP (Integrated Development Plan) and the Municipal SDF (Spatial Development Framework).

Accordingly, Stellenbosch Municipality developed an IHSP to be aligned with the IDP and the mSDF. Stellenbosch Municipality originally approved a Human Settlements Plan (HSP) in 2008 and a revision of this plan was done in the 2017/18 financial year. The IHSP and the Housing Pipeline has a ten (10) year development horizon. Notwithstanding this, the Housing Pipeline must be reviewed and approved annually by the Municipal Council.

In the absence of an approved Human Settlements Plan, the Pipeline serves as the housing implementation strategy for the municipality.

7.4.3.2 The Housing Pipeline

The Provincial Department of Human Settlements (PDoHS) requires that every municipality must have a housing pipeline. The housing pipeline is premised on a ten-year horizon and serves as planning and budgeting tool for the implementation of Human Settlements initiatives. Each municipality's Housing Pipeline is an integral component of the Department of Human Settlements' Business Plan.

It is required that the Housing Pipeline must be annually reviewed. The latest review of the Housing Pipeline was approved by Council in March 2020. This revision includes the following:

-  A period of 10 financial years (2020/21 - 2028/29). Provides for 12 098 units on a spread of Housing Intervention programmes that comprise of serviced sites, Informal Settlements Upgrade, integrated residential developments (mix-used development), Institutional Housing and Social Housing; and
-  Provides for a comprehensive list of housing projects with quantitative data on the projects Goals.

The objective of the housing pipeline is to provide more emphasis on the following housing types or programmes:

-  Social housing (the National Minister of Human Settlements approved Stellenbosch as a restructuring town and restructuring zones end November 2016);
-  Provision of serviced sites;
-  Access to affordable housing (GAP housing);
-  Upgrading of Informal settlements; and
-  Mixed use housing (formalised home ownership Employer housing - especially farm worker housing).

The estimated cost of this programme will be approximately R9.6 billion over 10 years.

7.4.3.3 Legacy and Priority Projects

Priority projects which were identified in the housing pipeline as approved Council during March 2020 are:

-  Upgrading of informal settlements, (Mandela City, Klapmuts and Langrug, Franschhoek);
-  Access to Basic Services (ABS);
-  Jamestown, Farm 527 (phases 2, 3 and 4);
-  Rezoning of Enkanini, Kayamandi;
-  Longlands Development;
-  Upgrading of Zone O;
-  Ida's Valley - A key aspect of this project was to utilise municipal land provided at reduced cost for formal home-ownership in order to cross-subsidise other housing types;
-  Enumeration of People on Farm and Backyarders;
-  Rectification of Cloeteville subsidy houses (The Steps, Orlean Lounge and Smartie Town)
-  Soekmeaar Project Development (Erf 7001);
-  Upgrade of Kayamandi CBD; and
-  Northern extension.

7.4.3.4 Upgrading of Informal Settlements

The municipality manages and coordinates the upgrading of informal settlements through the following broad objectives:

-  In-situ upgrading of informal settlements;
-  Upgrade informal settlements by the provision of basic services;
-  Develop emergency housing sites geared to accommodate evictees, amongst others;
-  Enumerate / undertake demographic surveys of identified informal settlements;
-  Facilitate tenure security in informal settlements;
-  Assist in short-term job creation through linkages with EPWP and longer term job creation through upgrading programmes;
-  Facilitate capacity-building and training for residents and stakeholders through direct service provision and partnerships with outside agencies; and
-  Manage the provision of services and development programmes to informal settlements.

7.4.3.5 Informal backyard dwellings

The municipality through the Housing Pipeline is actively attempting to address the needs and plight of backyard dwellers within the Municipal area. Currently it is required to be registered on the Housing Demand Database and hopefully this will result in a permanent dwelling in one of Council's housing projects. This process is long and tedious and the chance of actually obtaining a formal house, is very slim. Therefore, Council is actively researching ways in which the service (and basic services) to backyard dwellers can be improved through its various housing programmes.

7.4.3.6 Social Housing

Stellenbosch Municipality was approved as a Restructuring Town in March 2017, by the National Minister of Human Settlements. This approval included the confirmation of the various Restructuring Zones within the municipality and the latter culminated in a Council decision instructing the administration to attract Social Housing Institutions (SHIs) and / or Other Development Agency (ODAs) in order to effect to the municipality's social housing programme.

The aim of this programme is to ensure improved quality of life for communities through a Rental housing programme. This process of integration speaks to the importance of:

-  Economic sustainability: affordability, access to economic opportunities, and promoting job creation via the multiplier effect associated with building medium density housing stock. etc.;
-  Social sustainability: social integration between various income groups, access to educational, recreational and health facilities, etc.; and
-  Ecological sustainability: conservation of scarce resources.

7.4.3.7 Current housing projects

Table 72: Housing projects under construction – 2019 - 2021

#	Project Name	Project Phase	Number of Subsidised Opportunities
1	Stellenbosch Ida's Valley (286 opportunities on erf 11330)	Construction	87
2	Klapmuts (Upgrading of Mandela City - Phase 1) 505 service sites	Construction	76 (completed)
3	Longlands, Vloffenburg (144 Serviced sites)	Construction	144

#	Project Name	Project Phase	Number of Subsidised Opportunities
4	Cloesteville: Rectification of Smartie Town houses	Construction	106
5	Cloesteville: Rectification of The Steps/Orlean Lounge Houses Temporary units with toilets	Appointment of services provider/Construction	166

Table 73: Housing projects in the pipeline - in planning or construction phase 2019 - 2021

#	Project Name	Project Phase	Number of Subsidised Opportunities
1	Stellenbosch Ida's Valley opportunities on erf 9445)	Construction	166 Gap houses
2	Longlands, Vlothenburg (144 Serviced sites)	Construction	144 service sites 106 subsidy houses
3	Cloesteville: Erf 7001	Planning (Call for Development Proposal - closing date 20/03/2020)	360 Gap housing
4	Cloesteville: Rectification of Smartie Town houses	Construction	106
5	Cloesteville: Rectification of The Steps/Orlean Lounge Houses	Construction	161
6	Klapmuts (Upgrading of Mandela City - Phase 2) (505 serviced sites)	Construction	187 (Phase 1)
7	Upgrading of Zone O in Kayamandi (±710 services)	Planning (LUPA application has been approved by the MPT. <i>Construction will be dealt with in phases</i>)	710
8	Stellenbosch Jamestown (Phases 2, 3 and 4)	Planning (Stage 2 of Proposal Call – financial feasibility to be determined)	To be determined during Township establishment
9	Social Housing (affordable rental accommodation) in Stellenbosch Town-CBD	Planning (SHI's and/or ODA's attract)	To be determined from studies

The approved Housing Pipeline is available on request at the Directorate: Planning and Economic Development.

7.4.4 Comprehensive Integrated Transport Plan

The National Land Transport Act, 2009 (Act No. 5 of 2009) (NLTA), requires "Type 1" planning authorities (the country's major cities and towns (including Stellenbosch Municipality), to prepare Comprehensive Integrated Transport Plans (CITP). Generally, a CITP is considered as a mechanism by which planning authorities can plan for, develop, manage, integrate and provide for all modes of transport in their areas of jurisdiction.

CITPs must, inter alia:

Enhance the effective functioning of cities, towns and rural areas through integrated planning of transport infrastructure and facilities, transport operations including freight movement, bulk services and public transport services within the context of IDP and land development objectives;

- ✚ Direct employment opportunities and activities, mixed land use and high density residential development into high utilisation public transport corridors interconnected through development nodes (thereby discouraging urban sprawl);
- ✚ Give higher priority to public transport than private transport by ensuring the provision of adequate public transport services and applying travel demand management measures in a manner that provides incentives for sustainable mobility management; Maintain and further develop road infrastructure so as to improve travel by all road-based modes of transport where appropriate;
- ✚ Acknowledge and, where necessary, plan for the role of appropriate non-motorised forms of transport such as walking and cycling. The work was supported through structured public participation with other spheres of government, industry stakeholders and citizens; and
- ✚ The CIP is compiled for a five-year period and the latest completed CIP has been prepared and adopted by Council for the 2016-2020 period. This CIP will also be updated on an annual basis.

7.4.4.1 Strategic Interventions

The following areas of strategic intervention have been highlighted:

- ✚ "Towards Car Free Living" which refers to strategies that encourage more effective modes of travel such as public transport, NMT and other mechanisms to increase the number of passengers per vehicle. The municipality in collaboration with the Provincial Transport Department is investigating strategies that would improve public transport services within and around Stellenbosch.
- ✚ "Travel Demand Management" which refers to strategies that manage overall demand for travel during peak periods such as congestion pricing and parking management.
- ✚ "Infrastructure and Operational Enhancements" which refer to capacity improvements to transport infrastructure but only as part of the overarching transport philosophy in Stellenbosch. The municipality continues to roll out its Infrastructure Enhancement initiatives such as the Gravel Road Upgrading programme, its Main Road Intersection Improvement programme, the Traffic Signal Optimisation programme as well as the implementation of Public Transport Facility upgrades.
- ✚ "Optimal Land-Use and Interconnected nodes" which refers to integrated land use and transport planning which supports and promotes transit orientated development (TOD).

Figure 41: Strategic Interventions reflected in the IDP

7.4.5 Integrated Waste Management Plan (IWMP)

A consultant has been appointed by the Stellenbosch Municipality to review and finalise the third generation Integrated Waste Management Plan (IWMP). This third generation IWMP was developed during 2020 and will now replace the draft third generation IWMP developed by Green Cape in 2017. The development of the IWMP is necessary as it is an integral tool to identify current needs and act as a guide towards sustainable waste management. With regular updates of this document the changing needs as well as progress in the waste management field can be tracked and strategies adapted accordingly.

It also provides a framework for budgeting purposes. The IWMP must be incorporated as part of each Municipality's Integrated Development Plan (IDP) but is submitted as a separate document. The IWMP also shows alignment of its goals with the Western Cape IWMP, the District Municipality IWMP and the National Waste Management Strategy (NWMS). This generation IWMP improved upon the previous generation document in that progress has been made with shortcomings identified in the previous draft plan.

The scope of this local municipal IWMP includes an investigation into the current state of the solid waste management system of the Stellenbosch Local Municipality and provides the overview thereof. This investigation aims to include all the various aspects of the solid waste management system which ranges from legislation, waste types and generation, waste facilities and infrastructure to financing and all other details as listed under the terms of reference above.

The status quo is evaluated in order to determine the gaps and needs of the system. The scope also includes goals and objectives to improve the system where required but is limited to implementation on the local authority level. The implementation items in order to improve the waste management system and to achieve goals are coupled with a monitoring and review programme to ensure that the IWMP is up to date and is implemented.

The Plan takes particular note of importance of local authority waste management planning. This document underlines the following principles of the National Waste Management Strategy:

The prevention of waste generation;

The recovery of waste of which the generation cannot be prevented, and

The safe disposal of waste that cannot be recovered.

The Plan will address all areas of waste management – from waste prevention and minimisation (Waste avoidance), to its collection, storage, transport, treatment, recovery and final disposal. It will not only address the practicalities of waste management in context of this Municipality, but also the issues of public education and changing concepts, as these are vital to a successful management system.

7.4.6 Electrical Master Plan

Because the SDF was finally approved in November 2019, which was almost within the time that the masterplan is due for update, the review was not done. The complete update will be done by September 2020.

The previous Electrical Master Plan was completed in September 2015 and will be updated by September 2020 in line with the requirement that it should be updated every five years. The plan aims to provide the Stellenbosch Municipality with a clear view and long-term plan for the development of electrical infrastructure required to support the envisaged demand growth in Stellenbosch and surrounding areas. The municipality also evaluated the long-term viability of existing infrastructure and expansion and refurbishment requirements thereof, where new infrastructure should be located and which components, either existing or new, will be required.

Apart from spatial changes the Electrical Master Plan is to contain the following main elements:

-  Documented assessments of primary equipment at all 66/11 kV substations and 11 kV switching substations within the municipal area;
-  Site-specific assessments to provide a systematic estimate of the life remaining in substation facilities, and planning to extend the life of facilities to meet future needs;
-  Development of a geographical load forecast based on regional demographic and historical load growth patterns, as informed by the SDF. (The anticipated long-term load forecast was directly used as input to the expansion plan.);
-  Development of network strengthening and expansion options and technical evaluations to ensure that load and performance criteria are met over the short, medium and term (2025);
-  Preparation of cost estimates of the technically viable expansion and strengthening options; and
-  The Electrical Master Plan is updated every five years and is used in medium-term project planning, prioritisation and budgeting.

7.4.7 Water Services Development Plan

As a Water Services Authority (WSA), the Stellenbosch Municipality has a duty in terms of Sections 12 and 13 of the Water Services Act, 1997 (Act No. 108 of 1997) to prepare and maintain a Water Services Development Plan (WSDP). The Municipality prepared comprehensive WSDP's in 2007, 2012 and 2019 that is valid for a period of five years.

Where the Department of Water and Sanitation is the custodian of South Africa's water resources, Stellenbosch Municipality's Water Services sees itself as an extension of this custodianship. Water Services is responsible to act in line with the Water Act as well as the implementation of Municipal By-Laws, policies and procedures.

As part of the WSDP package, the municipality maintains:

-  Water and sewer master plans;
-  Water resources study;
-  Annual water audit;
-  A water safety plan;
-  A drinking water quality sampling programme;
-  Water and sewer pipe replacement prioritization programme;
-  A water demand management (WDM) strategy; and
-  Key findings of the WSDP are outlined below.

The Water Master Plan, Sanitation Master Plan, Bulk Water Resources/Drought Intervention Plan, Asset Register and Pipe Replacement Prioritised Programme were updated in 2019.

The Water Conservation and Water Demand Management (WC&WDM) strategy is a comprehensive study, which includes a 10-year financial plan. The strategy has two goals: the Municipality will prioritise the implementation of WC&WDM, and will ensure ongoing planning, management, monitoring and an enabling environment. The WC&WDM initiatives includes water pipe replacement programme, indigent domestic leak repair and meter replacement programme, Stellenbosch water meter audit and Stellenbosch in-house water services operation and maintenance.

Poverty reduction and improved water management are closely linked. Section 4B of the Constitution lists water and sanitation services, limited to potable water supply systems and domestic waste water and sewerage disposal systems, as a local government function.

Basic water is defined as 25 liters of potable water per day supplied within 200 meters of a household.

Due to the severe drought experiences recently and very low rainfall recorded in recent years, the municipalities in the Western Cape had to enforce water restrictions and still have restrictions in place.

Stellenbosch Municipality supplies water to the consumers in their area of jurisdiction through the following water supply systems:

-  Stellenbosch (Jonkershoek and Theewaterskloof tunnel);
-  Franschhoek;
-  Wemmershoek (treated water imported from City of Cape Town);
-  Blackheath (treated water imported from City of Cape Town);
-  Faure (treated water imported from City of Cape Town); and
-  Other own sources (Boreholes).

The total population supplied with water in the Stellenbosch Municipal area amount to approximately 199 800 people. Water is also supplied to a fairly extensive industrial area.

Stellenbosch Local Municipality manages three water treatment works, namely Ida's Valley, Paradyskloof and Franschhoek. The potable water supply from these works amounts to 15.1 MI/d on average and a further 6.8 MI/d was obtained from the City of Cape Town during the financial year, ensuring a supply of approximately 21.9 MI/d to the Municipality's area of responsibility.

Areas supplied from the Wemmershoek water treatment works include half of Franschhoek town, La Motte, Wemmershoek, Pniel, Boschendal, Johannesdal, Kylemore, Lanquedoc, Klapmuts, Koelenhof, Elsenburg, Devon Valley and Muldersvlei. Areas supplied from Blackheath water treatment works include Polkadraai, Spier and Vlottenburg. Areas supplied from Faure water treatment works are Faure, Jamestown, De Zalze, Raithby and Lynedoch. Although these water treatment works fall within the sphere of responsibility of the City of Cape Town, their impact with regard to water quality and quantity needs to be monitored and considered by Stellenbosch Municipality.

Stellenbosch Municipality supplies potable water to the entire municipal area through a network and infrastructure consisting of 56 reservoirs / holding tanks and water towers, 36 water pump stations, 35 pressure reducing valve installations, 667 kilometers of pipeline and 79 water supply zones. The network is fully controlled and operated by a telemetry system.

The bulk water input into the water network for 2019/20 was 8 015 027 MI, with an annual average daily demand of 21.9 kl/day. About 40% of the water supplied is purified from own water sources at the Ida's Valley and Franschhoek water treatment plants. The balance is supplied by the City of Cape Town and the Paradyskloof water treatment plant, where raw water supplied by the Department of Water and Sanitation is purified. Potable water supplied from the City of Cape Town is analysed on a monthly basis by the City of Cape Town.

Figure 42: WCWSS Storage Record (2008 – present)

Ida's Valley and Paradyskloof water treatment works are equipped with some analytical capabilities and routine plant analyses are performed in-house. A full water quality monitoring programme is further performed for the Municipality by an accredited external laboratory / contractor. Maintenance of equipment is performed in-house and by specialist contractors.

7.4.7.1 Basic services and level of service

- There is no basic water and sanitation services backlog in the urban areas of the municipality. A small number of the households on farms are still without basic water and sanitation services.
- The clinics, hospitals and schools in the municipal area have adequate and safe water supply and sanitation services.
- All indigent households receive free basic water (the first six kilolitres of water) and sanitation services.
- All the formal households in urban areas of the municipality are provided with water connections and waterborne sanitation facilities inside the houses (higher level of service). Communal standpipes and ablution facilities are provided in the informal areas as a temporary emergency service. Communal standpipes represent the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of its already vulnerable and poor users.
- A sustainable type of water and sanitation facility needs to be provided to the households on those farms with current services below minimum service level standard. Stellenbosch Municipality is committed to supporting the private landowners as far as possible with regard to addressing the current services backlog on farms, as identified through the Cape Winelands Rural Survey of Service Levels.
- From a water services perspective, the most significant challenges are the augmentation of the existing water sources, the replacement and upgrading of old infrastructure to accommodate development, the provision of sustainable basic services to informal settlements, and to ensure the provision of basic services to rural communities located on private farms.

7.4.7.2 Maintenance of infrastructure

Both water infrastructure and sanitation infrastructure require serious remedial investment. About 38,6% of the water supply infrastructure is in a poor or very poor condition and the condition backlog is in the order of R300 million. The bulk of the backlog is made up of the old Asbestos Cemen (AC) water reticulation pipeline assets. About 43.4% of the sanitation infrastructure is in a poor or very poor

condition and the condition backlog is in the order of R250 million. The bulk of the backlog consists of the old Asbestos Cement (AC) and Pic Fibre sewer reticulation assets in the Stellenbosch area.

Waste Water Treatment Works.

An Infrastructure Asset Register is in place for all water and sanitation infrastructure. It is critical that an Infrastructure Asset Management Plan is developed and implemented, based on the principle of preventative maintenance to ensure that damage to assets is prevented before it occurs. Assets must be rehabilitated and/or replaced before the end of their economic life and the necessary capital funds must be allocated for this purpose. Maintenance activities have been increasingly focused on reactive maintenance as opposed to preventative maintenance.

7.4.7.3 Current infrastructure projects

The upgrading of the Paradyskloof WTW was upgraded from a 17 ML/day to 22 ML/day plant and this was recently completed in July 2019.

During the upgrade the following was done:

- An extra set of four filters were build and the old set totally refurbished;
- The operation of the sand filters was optimised with the installation of upgraded software;
- Remote monitoring and control of pumps were introduced;
- Reuse and recycle opportunities;
- Supernatant water going to sludge dams are being recovered;
- Wash water that otherwise would have been lost;
- With the installation of water meters on the reuse and recycle lines the works are now able to:
 - optimise the usage of water supply to our plant, and
 - optimise the treatment protocol to ensure potable water.
- Stellenbosch WWTWs is currently in the final completion of phases one and two;
- Wemmerhoek WWTW is due for an upgrade due to the amount of new development applications and higher standards required by the department of Water and Sanitation (DWS) for effluent being release into the rivers;
- Pniel is currently on the programme to be refurbished in 2020/22, with a Risk Reduction Action Plan that is being implemented, in order to improve the performance of the existing WWTWs and to ensure that the treated effluent discharged from the WWTWs complies with the legal requirements;
- New reservoirs for the Vlottenburg and Northern Extensions are currently in detail design/tendering stadiums to be implemented during the next few years. A new reservoir for the Jamestown development is also finalised; and
- New and upgraded outfall sewers for Northern Extensions, Dorp Street, Merriman Street is under construction or due to start in near future.

7.4.7.4 Water Demand Management

Although the Municipality has a block step tariff system that discourages wasteful or inefficient use of water, the implementation of comprehensive water demand management interventions has been limited, primarily owing to a lack of human resource capacity to undertake the necessary work, and budget constraints.

The Municipality needs to actively implement the WDM strategy in order to reduce the current percentage of non- revenue water as far as possible and to keep the future water demand as low as possible.

7.4.7.5 Climate Change

In terms of adapting for climate change, water systems will need to be more robust and new or alternative sources of supply may need to be found. Increased skills will be required from water managers and long-term water projections are required. Although an overall decrease in rainfall is not generally forecast, increased variability in the climate and frequency of extreme events, as well as increased temperature and wind could have an impact on water sources, particularly surface waters. It is therefore advisable for the Municipality to maintain a conservative approach to the management of water sources, including the following actions:

-  Establish assurance of supply levels of all water sources;
-  Increase assurance of supply of the water resources by ensuring that there is at least 10% additional capacity (headroom), when considering the maximum 24-hour demand on the peak month of the year;
-  Do not undertake new developments unless a proper investigation of the implication on water sources and sustainability in the long term has been undertaken;
-  Vigorous implementation of WDM measures, especially in terms of increased water efficiency, frequent monitoring of the water supply system from the sources to the consumers, and regular and adequate system maintenance and repairs; and
-  IRIS monitoring system including the Blue Drop Awards system is active in the municipality and in the past with the Blue Crop system, SM was awarded for four of the Municipality's five water supply systems. Three awards were received in conjunction with the City of Cape Town, which supplies water to these systems – from where Stellenbosch manages distribution to end users. A further Blue Drop Award (the fourth consecutive award) recognised the Stellenbosch water supply system for water treated by the Municipality's Ida's Valley and Paradyskloof water treatment plants. The Department of Water Affairs acknowledged this exceptional performance by awarding a silver award to Stellenbosch.

The Municipality did not receive a Blue Drop Award for the Franschhoek water supply system which receives water from its own Franschhoek water treatment works. This was expected because of certain infrastructure challenges in this system. Projects have been initiated to address these issues.

7.4.7.6 Level of Service

In the rural area the responsibility lies with the landowner to manage storm water over his land. In the urban area the responsibility lies with the local Municipality. The objective in storm water management is to be able to accommodate a 1:5-year storm in the residential areas and 1:2 in the urban areas as contemplated in the Guideline for Human Settlements Planning and Design. The Water Act, 1998 (Act No. 36 of 1998) determines that flood lines should be indicated on development plans. Flood line determination has been done in the past but this information is outdated. The Municipality is currently busy compiling a hydrological model to determine the latest flood lines on the rivers in Stellenbosch and Franschhoek for the urban area. It is a development condition for all future developments to do a flood-line determination.

7.4.7.7 Maintenance of Infrastructure

The system is currently maintained on an ad hoc basis during the dry season. A Winter Preparedness plan is rolled out before the onset of winter to clean all storm water infrastructure. Critical areas have been identified and maintenance teams are deployed when high rainfall is predicted. Localised flooding is experienced during high runoff events. The networks in these problem areas are constantly

upgraded to reduce the likelihood of flooding. Priority is given to areas where houses are flooded or likely to be flood.

7.4.7.8 Risk Mitigation

In Stellenbosch erosion of riverbanks is currently a problem and the river maintenance plans and the hydrological model that are currently being determined will give guidance to the interventions that is required to reduce the risk. In some instances, the riverbank erosion will impact on private property. The flood line determination of the La Cotte River in Franschhoek proved that some of the properties along the riverbanks are at risk in the 1:50 and 1: 100 flood events. An environmental process is currently underway to determine the way forward.

7.4.7.9 Risk Mitigation – COVID-19 influence on water services.

Household water supplies may fall victim to the COVID-19 pandemic – if users can no longer pay their bills, and municipalities' revenue streams dry up.

"In the short term there will still be water for people to wash their hands. However, the long term consequences could be devastating if municipalities are not able to fund their ongoing operations while funds for the President's Infrastructure Investment initiative will also be affected," says Mike Muller, Chair of the Technical Subcommittee for the Water Institute of Southern Africa (WISA).

As the lockdown impacts individuals and companies across the spectrum, prompting job losses and reduced working hours, the Water Institute of South Africa (WISA) warns that proactive interventions to address "the elephant in the room" are already overdue.

"If people are faced with the choice of paying their rates or feeding their children, they are going to choose the latter. And this non-payment, in a scenario already under serious financial pressure, could have a devastating effect on the general cash standing of municipalities," Dan Naidoo, WISA non-executive director, cautioned at a WISA Board meeting held online recently.

To clarify the depth of the negative knock-on effect, he points out that local government is the main driver of South Africa's economy.

"Service delivery, including the provision of water, is the cornerstone of all economies. Non-payment affects the entire value chain upstream, and if our five big metros are already reporting tough times, how can we expect the smaller, poorer municipalities to survive?"

*Water is a prime focus usually, and more so now as we battle the COVID-19 pandemic. But water is not free, and the country must be sure that it has the capacity to fund and maintain this critical infrastructure into the future."*⁸

The infrastructure capital implementation is hampered by the pandemic that lower the income from water and wastewater services due to the lockdown. The capital implementation program is thus delayed.

7.4.7.10 Risk Mitigation – Drought Response Plan

Water is probably the most fundamental and indispensable of natural resources – fundamental to life, the environment, food production, hygiene and for power generation.

⁸ WISA, Jun 30, 2020

Due to the thread of re-occurring droughts and very low rainfall recorded in recent years, the municipalities in the Western Cape had to enforce water restrictions. Stellenbosch Municipality implemented water restrictions to lower water consumption.

The success of this initiative is largely dependent on the co-operation of the consumer taking ownership of the new smart meter. The use of the water demand management device (smart meter) has been implemented nationally with huge success and reduction in water losses.

The project is currently underway and has been received with a positive reaction from the community.

The new Water Services By-Laws were also finalised and approved by council and promulgated. This will contribute to increase management and control of water and sanitation related aspects with in the Municipality.

During the last official Blue Drop certification (2012), Stellenbosch Municipality achieved Blue Drop certifications for four of its five water supply systems, with a total Blue Drop score of 95.56%. The Municipality achieved a platinum award for the Stellenbosch Water Supply System for achieving Blue Drop accreditation three times, every year since the programme's inception in 2009.

The following planning documents are continuously updated to include the latest planning: the Water Master Plan, Drought Response Plan, Water Services Audit Report and the Pipe Replacement Study and Model and all projects and daily operations are done in line with the aforementioned studies and guidelines.

7.4.7.11 Backlogs in water and sanitation Services

A municipality as a Water Services Authority (WSA) has a duty to all its customers or potential customers in its area of jurisdiction to progressively ensure efficient, affordable, economical and sustainable access to water and sanitation services to promote sustainable livelihoods and economic development. To ensure this it is important that the backlogs within the water and sanitation infrastructure should be addressed. Backlogs could be defined in three broad categories:

-  Backlogs regarding access to basic water and sanitation services. (Basic water and sanitation services in terms of RDP standards);
-  Conditional backlogs (lack of maintenance); and
-  Capacity backlogs (increase in consumers).

7.4.7.12 Backlogs - Access to basic levels of Services

All indigent households receive free basic water (the first ten kilo-liters of water) and sanitation services. All the formal households in urban areas of the Municipality are provided with water connections and waterborne sanitation facilities inside the houses (higher level of service). Communal standpipes and ablution facilities are provided in the informal areas as a temporary emergency service. Communal standpipes represent the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of its already vulnerable and poor users.

A sustainable type of water and sanitation facility needs to be provided to the households with current services levels below RDP standard. Stellenbosch Municipality is committed to supporting the private landowners as far as possible with regard to addressing the current services backlog on farms.

7.4.7.13 Conditional and Capacity Backlogs of Infrastructure

Resolving inequality and growing the economy will require access to water and sanitation services for the 20 000 new residential units proposed for Stellenbosch Municipality. This will require a doubling of infrastructural service points over the next 10 years.

Figure 43: Water supply and accommodating growth (Total for WC024)

Updated growth in demand: 20 year planning horizon

Detailed water balance and future water demand projection models were developed as part of the WSDP process, in order to plan adequately for the augmentation of the existing water sources.

Groundwater is now seen as a potential water source and will be investigated and evaluated after the new water resources study is completed.

Based on the municipality's IWA Water Balance sheet for the 2019/20 financial year, the municipality recorded 20.5% for "non-revenue" water which is an increase of 0.3 % from the previous financial year and 6.9% for Real Network Losses.⁹

⁹ Refer to the Municipality's IWA Water Balance Sheet

The no-revenue water for the financial year 2019/20 is 20.5% that is below the target set of 25%. The real physical network losses are at 6.5% that is well below the best practice value of 15%.

Figure 44: Water Losses July 2019 to June 2020

Figure 45: Stellenbosch Bulk Water Consumption

7.4.7.14 Borehole Drilling in WC024

Part of the drought mitigation plan was to manufacture and install water purification plants in the Stellenbosch Municipality water networks at strategic positions. The containerised water purification plants treat water up to SANS 0241 standards before it is included in the water supply networks.

Figure 47: Stellenbosch Containerised WTW being manufactured

Figure 46: Stellenbosch Containerised WTW – Van der Stel

7.4.8 Long Term Water Conservation and Water Demand Strategy

The Long Term Water Conservation and Demand Management Strategy was approved by Council on Tuesday, 25 February 2014. Water Conservation and Demand Management (WC/WDM) is mostly more cost effective and has less environmental impact when compared with developing new sources of supply, provided there is scope for implementing WC/WDM measures. The payback period for the implementation of WC/WDM in this municipality is 3 years which is considerably less than the 20 years that one would expect with major infrastructure projects. A service provider has been appointed for the update of the WCWDS. Updating of the plan was finalised during 2019.

It is therefore an effective way of delaying the development of infrastructure for new water resources and reducing the need to new and upgrade bulk infrastructure.

WC / WDM involves measures which:

- ↓ Reduce real water losses in the water network;
- ↓ Reduce the consumption of the municipality and consumers;
- ↓ Increase the re-use of water by the municipality and consumers;
- ↓ Increase the use of alternatives to potable water by the Municipality and consumers; and
- ↓ Implement and use Management Information Systems to monitor and control water consumption.

The current bulk water input into the water network is about 21,900 kiloliters per day (Kl/d) with a level of unaccounted for water (UAW) of 11.5%.

Figure 48: Stellenbosch Bulk Water Input volumes

Figure 49: Stellenbosch Bulk Water sales

Figure 50: Stellenbosch Bulk Water sales

A comprehensive WC / DM strategy which includes a 10-year financial plan has been developed. The strategy has two goals. The municipality will:

-  Prioritise the implementation of Water Conservation (WC) and Water Demand Management (WDM) strategy; and
-  Ensure on-going planning, management, monitoring and enabling environment.

This report recommends that the Municipality adopt WC and WDM as a key service delivery strategy. The WC / WDM Strategy outlines what initiatives need to be taken each year, an estimated budget for each initiative and the water savings that can be expected. The strategy will need to be updated annually incorporating the measures already implemented and those still to be implemented. It is expected that at least a total savings of 7,846 kl/d (26%) can be achieved over the next 10 years.

The unrestricted growth in water demand versus the growth in water demand assuming WC&WDM is implemented as shown in the figure below.

Figure 51: Unrestricted versus WDM growth in demand

Note that each town in the municipality has water supplies independent of each other. When implementing WC/WDM in the municipality it is critical to implement in those towns where the existing supply will become inadequate for the demand the soonest. This will enable the municipality to delay the implementation of expensive infrastructure. The estimated budget required is about R40 million over 10 years.

The municipality embarked on a Drought Intervention Programme that accelerated and expanded some of the WC/WDM plans and programmes.

Figure 52: Updated growth in demand: 20 year planning horizon

Figure 53: Updated growth in demand: 20 year planning horizon

Figure 54: Updated growth in demand: 20 year planning horizon

7.4.9 Safety and Security Strategy

7.4.9.1 Vision

The Safety and Security strategy aims to create and make Stellenbosch Municipality a safer town in the country.

7.4.9.2 Mission

Through multi-disciplinary integrated planning and co-operative governance, maintain a zero tolerance approach towards achieving a safer environment for all residents of/and visitors to the Greater Stellenbosch Municipal area.

7.4.9.3 Objective

Stellenbosch Municipality has identified one of its strategic objectives that have become their focal points namely:

Safest Valley

In order to give effect to this objective, the safety and security strategy, plans to reduce and address crime by jointly taking hands with internal and external role-players. This will promote a safe environment, for all its citizens and visitors to the Greater Stellenbosch area.

7.4.9.4 Background

Stellenbosch Municipality is committed to safety and Security. Safety and security is not just a national, provincial or local government competency but a partnership between formal and informal constituencies and predominantly the community members within its municipal area.

The Constitution upholds the notion that everybody has the right to freedom and security of the person. The safety of persons and property is therefore vitally important to the physical and emotional well-being of people and business. Without the respect of persons and property, it would be impossible for people to live peacefully, without fear of attack and for businesses to flourish. The extent of crime in South Africa does however not only have a significant impact on the livelihood of citizens, but also affects the general economy. Crime hampers growth and discourages investment and capital accumulation. If not addressed with seriousness, it has the potential to derail both social and economic prosperity.

Crime is unwanted in any society because it brings about fear, anger and hatred. As people living in a world of constant change, we tend to strive for innovation and therefore this strategy involves a multi-disciplinary approach by all stakeholders to ensure safety for all communities within the Greater Stellenbosch area including visitors. The purpose of this strategy is thus to reduce crime and increase safety by using an integrated approach to address the community's need for safety and security. To ensure sustainability, the safety and security strategy is a living document that is continuously being revised. Strategies and methods have been improved which led to the implementation and strengthening of a combined strategy between the municipality, SAPS, the University, local communities and all other safety stakeholders.

This Safety and Security Strategy is reviewed on an annual basis and updated to fulfil the on-going demand and challenges for a safer environment to all residents, visitors and tourists.

7.4.9.5 Strategy

Strengthening partnerships and using the platform of the SSI, are the basis of the Stellenbosch Municipalities Safety Strategy. The breakdown of silos is of utmost importance and no strategy from any role-player can succeed unless a multidisciplinary approach is embarked on. With the establishment of the SSI in 2014 only certain role-players joined the SSI and it is now envisaged that the SSI be rolled out to all role-players within every neighbourhood and become part of this initiative.

Extensive stakeholder consultation is part and parcel of the municipality's approach in developing a collective strategy against crime. The municipality's key partners are:

-  South African Police Services;
-  Department of Community Safety (DOCS);
-  Community and Neighbourhood watches;
-  Community Policing Forums (CPFs);
-  Private and Corporate businesses;
-  Private Security companies and Farm watches;
-  Correctional Services;
-  Department of Justice;
-  Campus Control University of Stellenbosch; and
-  Stellenbosch Municipality
 - Law Enforcement
 - Traffic Services

- Fire and Rescue
- Disaster Management.

Building collaborative relationships with our community stakeholders and highlighting Council's commitment to maintain strong partnerships with primary Law Enforcement Agencies, remains the foundation of ensuring safety throughout the Greater Stellenbosch

Communities are being mobilised and supported to establish Neighbourhood watches and formalise their respective neighbourhood watches which will be issued with equipment from DOCS and the municipality to aid in their fight against crime and to be the eyes and ears on the ground. Training will also be provided by the municipality to enhance the training which neighbourhood watches receive from DOCS. Radios will be provided to enable communication with the Municipalities Protection Services control room.

The municipality's control room is envisaged to house role – players from neighbourhood watches, security companies, SAPS, Municipal officers from Protection Services with a link to the University of Stellenbosch control room and cameras which has been established and in place. The SSI is open to any role-player in contributing towards the safety within the municipal boundaries of Stellenbosch. One dedicated emergency number will be provided to residents within the municipal boundaries which will enhance response to emergency services required. The number will be **021 808 8999**. A WhatsApp number to report complaints within the municipal boundaries of Stellenbosch will also be made available for reporting purposes. The number is **079 622 4722**.

Initiatives have and will continue to be launched as it contributes and make communities aware in terms of crime prevention tips and other preventative tips for example fire safety, what to do in case of disasters etc. This will be a joint approach between role-payers and supplemented based on crime patterns and situations experienced. Training will also be provided to enhance safety initiatives for example road safety (crossing of roads) etc.

7.4.9.6 Law Enforcement

With the additional powers of law enforcement officers which were promulgated in the Government Gazette on 19 October 2018 by Declaration 1114 in GG41982, it has given the law enforcement officers more arresting powers in terms of certain offences which was not previously the case. This meant that all law enforcement officers had to undergo appropriate training and be re-issued with competency certificates as peace officers. Stellenbosch Municipality was fortunate that the South African Police Services agreed to provide the basic minimum training which made it possible to have them re-appointed as peace officers.

With the review of the Safety Strategy, the municipality have to adapt to the changing environment of crime in its area and assist the police in every aspect of crime prevention to be able to make an impact. It is common knowledge that criminals become smarter which means that we have to think smarter to always be one step ahead.

The municipality have completed all 3 phases of the action plan as identified during the previous review. This include the installation of License Plate Recognition cameras (LPR) at all the main entrances and exits to Stellenbosch and Franschhoek towns. These LPR cameras are supplemented with additional LPR cameras within residential areas which make it possible to track the direction of suspect vehicles linked to crime picked up by these.

Focus of Law Enforcement:

Effective monitoring and surveillance of CCTV cameras with reaction units to respond immediately;

-  Zero tolerance approach towards petty crime - visible Policing focussing on CBDs;
-  Weekly operational planning with SAPS and Safety Partners;
-  Amendment proposals to the structure of Law Enforcement to accommodate needs;
-  Establishment of a Tactical Response team;
-  Strengthening coordination of communication Strategies between neighbouring municipalities;
-  Social Crime Prevention Strategies in conjunction with Community Development Department in terms of Council's Street People Policy;
-  Liaise with District Municipality in terms of sharing of resources and information flow;
-  Further investigation into technology to improve enforcement strategies;
-  Compiling of camera master plan for WC024 area of Stellenbosch;
-  Enforcement of By-laws;
-  Law Enforcement to form part and execute all actions as planned by the SSI initiative according to crime intelligence and crime analysis, focused on priority crimes;
-  Finalisation of joint control room;
-  Issuing of radios to all neighbourhood watches to be able to communicate with the Stellenbosch Municipality control room/ SSI partners;
-  Extended training interventions to Neighbourhood watches;
-  Supporting Neighbourhood watches with equipment;
-  Implementation of the Rent A Cop / externally funded law enforcement / traffic warden positions; and
-  Implementation of the Reservist policy.

7.4.9.7 Disaster Management

The National Disaster Management Centre (NDMC) provided a set of guidelines; developed in terms of section 19(a) of the Disaster Management Act, 2002 (Act No. 57 of 2002) (DMA) and section 3.6 of the National Disaster Management Framework, 2005 (NDMF) provides a uniform structure and checklist to organs of state to develop a Disaster Management Plan.

This plan confirms the arrangements for managing disaster risks and for preparing for – and responding to disasters within the Greater Stellenbosch Municipality as required by the Disaster Management Act.

As per Section 53 (1) of the Disaster Management Act, 2002 (Act No. 57 of 2002) each municipality must:

-  Prepare a disaster management plan for its area according to the circumstances prevailing in the area;
-  Co-ordinate and align the implementation of its plan with those of other organs of state and institutional role-players; and
-  Regularly review and update its plan; and through appropriate mechanisms, processes and procedures established in terms of Chapter 4 of the Local Government Systems Act, 2000 (Act No. 32 of 2000), consult the local community on the preparation or amendment of its plan.

The purpose

The purpose of Stellenbosch Municipality Disaster Management is to ensure co-ordination of multi-disciplinary and multi-sectorial risk reduction through integrated institutional capacity for Disaster Risk Management, Risk Assessment, Response and Recovery and implementation of measures aimed at:

-  Preventing or reducing the risk of disasters;

-  Mitigating the severity or consequences of disasters;
-  Emergency preparedness;
-  A rapid and effective response to disasters; and
-  Post- disaster recovery and rehabilitation.

Annual review of Plan

Cognisance must be taken that a risk profile changes over time, and it becomes necessary for the comprehensive Disaster Risk Assessment to be reviewed annually, and:

-  anticipate the types of disasters that are likely to occur in its area of jurisdiction and their possible effect;
-  places emphasis on measures that reduce the vulnerability of disaster-prone areas, communities and households at risk;
-  promotes disaster management research;
-  identifies and address weaknesses in capacity to deal with disasters;
-  provides for appropriate prevention and mitigation strategies;
-  Contains contingency plans and emergency procedures in the event of a disaster;
-  facilitates a rapid and effective response to disaster; and
-  Post-disaster recovery and rehabilitation.

Expanded Public Works Programme beneficial for the unit

Disaster Management: EPWP Volunteers participate on a regular basis by assisting in conducting educational campaigns and awareness at crèches, communities and at schools about safety and emergency services. They capacitate the department by doing field work and conducting the required surveys within communities.

A key function attributed to Disaster Management: EPWP Volunteers, is to assist with the incident risk assessments during emergency situations such as fires and floods and the subsequent provision of material and relief aid to the affected. This is all done with the aim to alleviate the effects of a disaster and to restore and rehabilitate the affected, in the shortest possible time.

Volunteers are expected to render administrative support to the superior in the form of feedback-, verification and monthly report, which contributes to skills development. With the onset of the COVID-19 pandemic and it being declared a national disaster, it has become incumbent upon the Disaster Management: EPWP Volunteers to monitor and advise the different communities of the Greater Stellenbosch region, on appropriate actions and behaviour as well as applicable safety measures during such a crisis. These Volunteers also constantly assist the municipal council area's needy communities by providing them with donations collected from various reputable organisations.

The DMA also recognises that disasters know no boundaries and that plans and strategies should be finalised in conjunction with neighbouring municipalities, as well as with higher / lower spheres of government to curb where practical, the onslaught of disaster risk.

Risk assessment throughout WCO24

A comprehensive Disaster Risk Assessment for purposes of identifying all possible hazards that could impact the community and environment of Greater Stellenbosch, was undertaken and completed. Currently hazards identified which poses a risk to the WCO24.

**Table 74: Hazards identified**

No.	Current hazards identified which posed a risk on the WCO24
1.	Aircraft accidents
2.	Alien invasive species
3.	Chemical spills: Hazmat
4.	Chlorine stations
5.	Climate change: (high/strong winds, severe heat/cold)
6.	Communicable disease: (Coronavirus)
7.	Crime
8.	Dam Wall Failure: Ida's Valley
9.	Drought
10.	Environmental pollution: (air, water, ground contamination, pesticides)
11.	Erosion
12.	Explosive storage: (fuel, gas)
13.	Fire – Veld and Runaway Fires
14.	Floods
15.	Gail force winds and thunderstorms
16.	General road accidents
17.	Hazardous material (Hazmat) road accident risk
18.	Infrastructure Decay : No / dysfunctional infrastructure / service delivery (sewerage, toilets, grey water, electricity)
19.	Insufficient hydrants
20.	IT – Failure of system: Access to info
21.	Population density – informal areas
22.	Poverty
23.	Power failure
24.	Rock Falls
25.	Seismic: Earthquakes
26.	Strikes / Social conflict
27.	Structural decay
28.	Substance abuse
29.	Transport incidents (road, railway accidents)

Risk reduction strategies

Provide an advocacy platform for all through the Municipal Advisory Forum	All governments, Disaster Management practitioners, NGOs, civil society groups, businesses, academic and scientific institutions, and other interested groups will be able to demonstrate support, highlight achievements and challenges in so doing with a particular focus on life-saving measures.
Provide innovative thinking to achieve goals	Apply innovative approaches to disaster risk reduction through effective strategies to enable communities to be more resilient, should an occurrence / disaster strike.
Develop community participation programmes	Provide community level awareness raising through education, training and involvement to building a professional level cadre at all levels. Change community norms and values, which are often tied to risk and protective factors and in turn create a wider base of support for changing behaviour.
Develop multi-disciplinary relationships	Engage and reinforce through increased partnership and expanded risk reduction networks.

The key elements of the 2021 programmes include:

- Targeting communities at greatest risk from fire (people with disabilities, elderly etc.);
- developing strong collaborations with individuals and community organisations,
- conducting door-to-door visits (e.g. using a home visitation programmes);

Monitoring and evaluating the programme (site visits, surveys, data collection).

Annual simulation exercises conducted to evaluate and improve on an effective and efficient service delivery system;

The municipality engages at numerous platforms through partnering stakeholders to gain access to new resources, information, expertise and skills to facilitate service delivery.

Project Description		Primary and Secondary Stakeholders	Risk Rating (Very High Risk; High Risk; Low Risk; No Risk)	Risk Reduction – Actions Taken (Prevention/Mitigation/Preparedness)
1.	Safer Communities Project Plan (For implementation throughout the year: Fire Resilient Communities)	Disaster Management and other internal stakeholders	Very High	A preparedness project to prevent unnecessary loss of life or serious injury due to incidents and disasters, e.g. shack fires, drowning, floods, etc. Prevention of malicious ignitions during fire season
2.	COVID-19 is a respiratory illness similar to flu (cough, fever, fatigue and aching body / muscles). More commonly than flu, it can become severe causing viral pneumonia (difficulty breathing). Many people will have a mild illness and recover without treatment. The elderly and those with underlying health conditions have increased risk of severe illness. Cases in children are rare.	Department of Health, Disaster Management and all relevant Stakeholders	Very High Risk	Contain and mitigate.
3.	Flood / Fire Response	Disaster Management	High	Recruit and training groups in vulnerable areas to be on alert and avail themselves to assist DM during an occurrence / disaster / programmes.
4.	Fire Prevention/Safety	Disaster Management	High	Engage with informal trade and shops in combatting fires which could occur at their premises. Distribution of Emergency numbers.
5.	Water Safety Programmes	Disaster Management Santam / NSRI	High	Primary Schools within WCO24.
6.	EPWP – job creation initiative across all departments	EPWP Project-holders	Low	Higher risk projects mitigated.
7.	Risk assessment	Disaster Management	High	Assessments conducted to determine the increase of vulnerability: a. Croydon b. Jamestown c. Lanquedoc d. Langrug e. Kayamandi f. Jonkershoek g. Groot Drakenstein h. Backsberg

7.4.9.8 Traffic Services

Stellenbosch Traffic Services has an obligation in accordance with the Constitution to ensure the safety of all road users within the municipality's area of jurisdiction. Road safety and its high fatality rate has

become a burning issue and rank as one of the most pressing challenges. This is related to Driver behaviour.

The focus of the Traffic Services Section is to deal pro-actively and reactively with the following traffic related matters:

-  To ensure the constant free flow of traffic as far as possible;
-  To perform all duties in terms of the National Road Traffic Act, 1996 (Act No. 93 of 1996);
-  To perform all duties as peace officer in terms of the Criminal Procedure Act, 1977 (Act No. 51 of 1977);
-  Enforcement of the National Land Transportation Act, 2009 (Act No. 5 of 2009);
-  To achieve a measurable improvement in road user behaviour – including skill, safer decisions and better regard for other road users;
-  To reduce the incidence of traffic offences, including speeding, dangerous driving, drunk-driving and driving under the influence of a narcotic substance, dangerous overtaking, moving violations, etc.;
-  To ensure that unfit road users are identified and appropriately removed from traffic;
-  To ensure that un-roadworthy (including overloaded) vehicles are appropriately removed from traffic;
-  To improve the safety level of public transport vehicles and drivers;
-  To improve the risk-taking behaviour of pedestrians;
-  Identify and address key vehicle road user crash sites on a rolling basis;
-  Accident (post-crash) response and information gathering on accident (crash) scenes Ensure that all road safety interventions are intelligence led;
-  Parking enforcement/management (including wheel clamping);
-  Point-duty during morning, midday and evening peak at critical locations as well as school points as far as possible;
-  Special operations focussing on driving under the influence of alcohol or drugs, illegal racing, transportation of illegal substances;
-  To develop educational programmes for vehicle road users to enhance their road safety knowledge;
-  Road safety training and education provided for crèches, nursery, schools, primary / high schools, colleges, university as well as pedestrians, cyclists, farm workers, rehabilitation centres and youth groups. Training also includes learner's licence programmes for youth and scholar patrol and level-crossing awareness;
-  Events (road closures, escort duties);
-  Incident management of national key points including escorting of dangerous substances;
-  Public Transport activities and checking of roadworthy status of governmental appointment of busses;
-  ANPR (Automatic number-plate recognition) focussing on offenders with outstanding fines;
-  Increase in Impoundment facility;
-  Conducting of Driving and learner's license testing;
-  Conducting Driver's license conversions / renewals;
-  Conducting PrDP applications;
-  Conducting Vehicle testing (all class vehicles);
-  Vehicle registration and licensing;

-  Ensure effective court section functioning with the assistance of the appointed external service provider to process all notices; and
-  Sound Financial management of court section.

7.4.9.9 Fire Services

New dawn for fire Services with the introduction of the White Paper on Fire Services.

This reform is fundamental to better position the fire services to respond to the changing and growing needs of society as well as to contribute meaningfully in the achievement of the strategic objectives of the country's National Development Plan.

It seeks to establish fire safety and prevention as core elements of fire services functions in order to prevent fires and ensure that precautionary measures are put in place to reduce the likelihood of fires thereby reducing the loss of lives, injuries, damage to property and the environment as a result of fires.

In this regard, this White Paper amongst others, places an obligation on fire services to constantly engage with the communities they serve with a view to work together to reduce fire risks and ensure that adequate response strategies and systems are put in place to respond to fires and other related incidents rapidly and effectively.

It demonstrates the municipality's commitment to reposition the fire services from response oriented fire services towards a fire risk reduction based approach.

The members of the Stellenbosch Municipal Fire and Rescue Division dedicate their efforts to provide for the safety and welfare of the public through preservation of life, property and the environment.

The role of the Fire and Rescue Services is to deal pro-actively and reactively with the following:

-  The pro-active provision of general fire safety guidance and assistance in respect of the venue and users;
-  The rescue, saving / protection of life and property from a fire / accident or any other threatening danger;
-  Preventing the outbreak or spread of fire;
-  The fighting and extinguishing of fire;
-  Any other duties as stipulated in the Fire Brigade Services Act, 1987 (Act No. 99 of 1987);
-  Through the Department of Planning and Development and building Department, consolidate initial structural damage assessments from other departments, conduct evaluations of structures, support efforts of property owners to address structural issues;
-  Assisting SAPS with inspections at licensed premises to combat illegal activities identified by crime intelligence;
-  Determine slide danger areas of informal settlements, oversee the direction, management and cordoning-off of identified slopes and stabilise;
-  Activate the Disaster Management Unit in case of any life threatening incident, example; flooding, loss of residence due to fire, etc.;
-  Annual evacuations drills are conducted by the Department: Fire Prevention / Disaster; and
-  Management at the above said premises.

Primary Fire Prevention functions focus on public education, fire inspection, Law enforcement, and fire / hazardous material release investigations. The integration of activities in these areas will produce the most effective use of available resources and ultimately, result in achievement of the Division's goal -

preventing fires, saving lives, minimising injuries, educating the public and protecting property and the environment.

It must take care of the vulnerable first	The new Fire Services Act must make adequate provisions for providing fire services to those categories of society most vulnerable to fires.
It must inculcate a culture of fire prevention	Government will encourage both citizens and government structures to take adequate measures to prevent fires thereby protecting lives, properties, livelihoods, and the environment from fires at all times.
It must integrate into development	Fire safety and prevention should be an integral part of development initiatives.
It must have an integrated approach	Fire Services must regularly and systematically consult the users of their services about the services they provide. Consultation will provide essential information about where the priorities of a fire service should lie in improving services.
It must ensure community involvement	Community must know what fire services, fire safety and prevention in particular stand for, what their own responsibilities are, how they prevent fires, how they must handle fires and what they can do to support themselves during fires when necessary.
It must be driven at all spheres of government	All spheres of government have a role in the provision of fire services and must execute such roles and responsibilities effectively and efficiently.
It must be risk based	Fire risk is dynamic and context specific. Strategies to manage fire risk should be informed by the prevailing local risk conditions. Robust and scientific risk assessment should form the premise upon which fire service planning must be based.
It must have legitimacy	Structures tasked with the provision of fire services must be recognised by all key role players in the various government structures, as well as amongst the various community structures with whom liaison is necessary.
It must strive for excellence	In rendering services to communities, fire services must strive for excellence at all times.
It must be based on partnerships	Government cannot meet the development needs of South Africa on its own. Mutual and sustainable partnerships between government and other partners are critical for the effective and efficient delivery of fire services. Business and industry, Non-Governmental Organisations (NGOs), academic institutions and other bodies throughout the community should be encouraged to play a part in supporting fire services.
It must be effective and efficient	The provision of fire services should be outcome driven and cost effective.
It must be needs oriented and prioritised	Fire services must be responsive to the needs of communities and must receive priority including in resource allocation.
It must ensure that the delivery of fire services are based on measurable standards	The delivery of fire services must be measured against clear, attainable, realistic and measurable standards. These standards must not be a 'one size fits all' and must be determined by the respective fire services. A differentiated approach based on risk and capacity of each fire service must form the backbone of these standards.

7.4.9.10 Conclusion

The municipality will focus on its four core mandates as laid out in legislation, and will accordingly conduct operations to focus on these mandates.

Operational outputs will be driven and aimed at achieving our goals as laid out in this Strategy.

The municipality's social awareness / training programmes are aimed at addressing safety as a whole and provide such interventions to all spheres of communities.

The municipality accept that the fight against crime cannot be won by any single entity operating in isolation and therefore place great value and importance in embracing collaborative partnerships with various internal and external role players such as SAPS and many other agencies including the

local community.

In a proactive approach the municipality intends to place more emphasis on the “Broken Windows” approach in crime prevention, and rolling it out by means of training interventions to neighbourhood watches within the municipal boundaries of Stellenbosch Municipality which will be conducted by the municipality's own identified Law Enforcement staff members.

The needs of the community must be taken into account, to enable the rendering of a professional, client-centred service that is sufficient and effective. Safety is thus an integrated and multi-agency approach in sharing responsibility and collectively addresses crime.

Potential criminals must be deterred from committing crimes by the presence of active and visible policing structures and by the knowledge that those who commit crimes will be caught and punished, therefore in line with Section 152 of the Constitution it is imperative that communities and community organisations become actively involved in crime prevention initiatives.

7.4.10 Local Economic Development Strategy

Local Economic Development (LED) is not an explicit municipal function as defined in the Constitution of the republic of South Africa, 1996. Instead it is an obligation imposed on local government in terms of Sections 152 and 153 of The Constitution, which determine amongst others that the objects of local government are to promote social and economic development to strive, within its financial and administrative capacity, to achieve the objects set out in The Constitution, Amongst others through budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community.

Stellenbosch Municipality is thus legally compelled to promote social and economic development in its area of jurisdiction and should play the leading role in municipal sector planning.

The focus on individual economic sectors and spatial planning as the key focus areas, rather than on social and economic development results tends to delink economic growth benefits (increase in indicators like GDP, per capita income, etc.) into local economic development benefits (Improvement in the life expectancy rate, infant mortality rate, literacy rate and poverty rate).

Local economic development is the means of systematic identification, development and utilisation of economic opportunity, to benefit local businesses and create opportunities for local communities in order to improve the lives of residents. (Where there is positive link between economic growth and local economic development).

As the private sector grows inclusively, poverty is reduced sustainably through job creation, and public sector income also increases.

The growth of the informal economy reduces the demand for jobs while increasing the number of entrepreneurs and potential contributors to the private sector demand.

The health of the entire economy is important. The economy does not divide neatly into ‘formal sector’ and ‘informal sector’. Rather, the different sectors, such as manufacturing, tourism, services, and construction, are on a continuum which has a more formal and a more informal end.

The great challenge to local government, in its support for economic development, is to enable the creation of as many opportunities for work as possible, at different points long the continuum, while ensuring health and safety, orderly planning and management. All work, whether in the more formal or more informal ends of the continuum, has to be valued, and especially when unemployment is high, and when there is a highly probable link between unemployment and crime. The numbers of people relying on the informal economy for work can and will increase and the formal economy struggles to grow and make meaningful progress in global markets.

Give the above Local Economic Development is therefore a multi-stakeholder effort in support of creating economic opportunities to for both the private sector and the local community.

7.4.10.1 Strategic approach

The strategic approach to LED in broad is to create economic opportunities for all citizens residing in the Stellenbosch Local Government area. However, the recent disruptive trends in the economy affected not only Stellenbosch but South Africa as a whole. These shocks included the extended drought we experienced and thereafter COVID-19 pandemic. These events have highlighted the vulnerability of the society, the municipality's systems to deal with it as well the revenue stream of the municipality. The municipality need to think and approach LED differently and as the "new normal" is here to stay, hence, the municipality with all the role players in society must review its strategy going forward to ensure the municipality build better resilience in its economy to deal with future shocks and ensure better livelihoods for all.

Lastly, technology changes especially connectivity is becoming more important for business and government to do business, this was highlighted by the lockdowns we experience that forced us to work remotely.

The following ways of doing business must be seen within the context of the "new normal" that we face:

-  To maximise prospects of sustained economic growth, stakeholders must be permitted to strengthen their competitiveness and collaboration within the local business environment. Networking, local government responsiveness to business needs, effective service delivery and business oriented organisational structuring will be used to address this aspect;
-  New business development or investment and expansion of existing businesses will be actively promoted, as the consequence of increased investment more often than not resulting in new jobs and local economic growth. Spatial development framework planning, the Integrated Zoning Scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect;
-  It appears that the formal economy is rapidly becoming more informal, as seen in the increase in the number of occupational practices and businesses run from residential premises. The informal economy offers diverse opportunities for absorbing those who have lost their jobs, and for new entrants into the economy. The integrated zoning scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect;
-  Create an enabling environment. An enabling environment refers to "a set of policies, institutions, support services and other conditions that collectively improve or create a general business setting where enterprises and business activities can start, develop and thrive." Spatial Development framework planning, the integrated zoning scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect; and
-  The formal and informal parts of the economy are mutually interdependent. The good health of one depends on the good health of the other. It is difficult to promote growth of smaller enterprises, if the overall rate of economic growth is slow. Dedicated networking projects to create opportunities for the informal economy to contribute to the demands of the formal economy will be used to address this aspect.

7.4.10.2 Operations

The implementation of the strategic approach is informed by multiple stakeholders, engagements and consists of multiple tactics which are informed by regular engagements with stakeholders. These public participation engagements include sector stakeholder engagements and Integrated Development Plan engagements with all 22 wards within the Stellenbosch Municipal jurisdiction. The strategy is constantly evolving as more relevant information on the local economy and local community becomes available.

To maximise prospects of sustained economic growth, stakeholders must strengthen the systemic competitiveness of the local business environment for key sectors. Investors seek such a competitive place to do business from. Once they invest (new or expansion) the consequence more often than not are new jobs and growth.

Table 75: Strategy 1: Ensure effective local business networking and sector consultation to improve the municipality's responsiveness to local businesses, entrepreneurs and the economic environment

STRATEGY 1: Ensure effective local business networking and sector consultation to improve the municipality's responsiveness to local businesses, entrepreneurs and the economic environment.	
Programme:1	Sectoral Meetings
Description	Design and maintain institutional arrangement with all dominant sector players to ensure alignment and information sharing.

Table 76: Strategy 2: Establish a networking and mentoring system to ensure SMME development

STRATEGY 2: Establish a networking and mentoring system to ensure SMME development.	
Programme :1	Business Outreach Programme
Description	Regular seminars and workshops for SMME facilitated by the municipality and Private Sector Partners.
Programme: 2	Mentorship Programmes
Description	Annual mentorship programme in collaboration with a Non-Profitable Organisation the University and Industry players in the municipal area.

Table 77: Strategy 3: Proactively identify opportunities for new investment and expansion.

STRATEGY 3: Proactively identify opportunities for new investment and expansion.	
Programme: 1	Red Tape Reduction
Description	Align Economic Development Strategies with the SDF of the municipality and ensure service standards are maintained to fast track land development approvals and authorisations to reduce turnaround time for investors.
Programme: 2	Identification of new niche markets and other opportunities in the local economy.
Description	Inclusion of new economic opportunities in the IDP and Economic Development Strategy identified during the municipal public engagement processes for evaluation of feasibility and implementation with stakeholders.

Table 78: Strategy 4: Create an enabling environment in the informal economy.

STRATEGY 4: Create an enabling environment in the informal economy.	
Programme 1	Informal Markets
Description	Establish and regulate informal trading markets by creating enabling by- laws to govern access to, community markets and farmers' markets at appropriate venues, with a focus on high-intensity pedestrian and tourism routes and places.
Programme 2	Local Economic Development Hubs.
Description	Establish local economic development hubs and allow for the outsourcing of the management of the Hubs to improve efficiency and to strengthen local business opportunities. These hubs will provide to provide entrepreneurs, start-up businesses or growth-orientated SMME's access to appropriate rental space, affordable businesses services, flexible leases and access to the mainstream economic activities, where better market access could improve their success ratios.
Programme 4	Development of Public Open Spaces

STRATEGY 4: Create an enabling environment in the informal economy.	
Description	Facilitate the development of recreational attractions in selected natural environments and established cooperatives in local communities to participate in the development, management and marketing of these attractions.

Table 79: Strategy 5: Manage and develop tourism as one of the key economic sectors

STRATEGY 5: Manage and develop tourism as one of the key economic sectors	
Programme 1	Tourism Development
Description	Facilitate the development of tourism attractions, as contained in the Local Economic Development Strategy, in all sectors and at all levels of the local economy.
Programme 2	Development of a Tourism Policy
Description	Ensure implementation of strategies in partnership with Local Tourism bodies to ensure the sustainability of the sector and creation of more job opportunities while transforming the tourism sector to become more inclusive.

Table 80: Strategy 6: Facilitate rural development and farmer support

STRATEGY 6: Facilitate rural development and farmer support	
Programme 1	Access to Municipal Agricultural Land
Description	Facilitate the development of new farming operations for emerging farmers on municipal land and through cooperation with existing farms.
Programme 2	Collaboration
Description	Collaborate with the Departments of Agriculture, Rural Development and Land Affairs around land and farming matters.
Progress	Municipal land has been released for and to be advertised for small holder farmers and the planning of an Agri- Processing Park is underway to provide productive infrastructure for farmers in the Stellenbosch areas. Two areas in the Stellenbosch Municipal area has been identified as possible sites for a proposed Halaal Industrial Park. The feasibility studies on both sides have been completed and intergovernmental engagements are currently taking place to decide on the preferred site.

Table 81: Strategy 7: Facilitate the participation of local and small businesses in the provision of municipal services

STRATEGY 7: Facilitate the participation of local and small businesses in the provision of municipal services	
Programme 1	Implementation of Smart Procurement strategies
Description	Expand capacity building of entrepreneur through partnerships with industry players and the University and ensure access to opportunities for SMME and contractor development through the Supply Chain Management processes of the municipality.

Table 82: Strategy 8: Facilitate income generating opportunities for the unemployed.

STRATEGY 8: Facilitate income generating opportunities for the unemployed.	
Programme 1	Expanded Public Works Programme
Description	The implementation and expansion of the EPWP programme in the municipality by providing income opportunities and skills for the unemployed in Stellenbosch in a fair and transparent manner.

7.4.11 Community Development Strategy

The Department of Community Development must also give effect to the Constitution of South Africa 1996 (Section 152 – the objects of local government) in that it must see to the objects of local government (To promote social and economic development; and to promote a safe and healthy environment).

Moreover, Schedule 4b and 5b also lists functions of local government to include the following which has relevance to Community Development functions:

-  Child care facilities;
-  Building regulations (with reference to SANS 10400S);
-  Municipal Planning (with reference to ECD registration applications and provision to be made for social infrastructure inclusive of education and health services);
-  Municipal public works (accessibility);
-  Local amenities (with reference to the contribution to social development);
-  Local sport fields (with reference to the contribution to social development);
-  Municipal parks and recreation (with reference to the contribution to social development); and
-  Municipal roads (accessibility).

The Intergovernmental Relations Framework Act, 2005 (Act No. 13 of 2005) (IGRFA) which defines the relationship between the three spheres of government and facilitates co-ordination in the implementation of policy and legislation, includes coherent government, effective provision of services, monitoring implementation of policy and legislation and realisation of national policies. Because these services are primarily provided by national and provincial spheres of government, but significantly affect local communities and residents, this department/function plays a pivotal role.

The MSA further demonstrates in chapter 4 the mandate of the municipality to develop a culture of community participation (16(1)(b)) in order to contribute to building the capacity of— (i) the local community to enable it to participate in the affairs of the municipality (networks and forums) and must do so with specific emphasis on the inclusion of (17(2)) the specific needs of (a) people who cannot read or write; (b) people with disabilities; (c) women; and (d) other disadvantaged groups.

The White Paper on Local Government (1998:23-26) identifies four interrelated characteristics of the role and function of Local Government related to community development:

-  Maximising social development and economic growth: The role and function of Local Government is to promote the development of communities so that basic needs of the poor and vulnerable are met. It involves regulation of service delivery. This means that Local Government is not directly responsible for services, but rather to take steps (i.e. strategies) to encourage good service delivery that addresses the specific needs of the specific community. It could therefore be viewed as a facilitation role. Partnerships between organisations could be encouraged, training opportunities could be provided and facilities could be developed to support existing service providers in the community;
-  Integrating and coordinating: Coordination should include national and provincial departments, trade unions, community groups and private sector institutions. "Developmental Local Government must provide a vision and leadership for all those who have a role to play in achieving local prosperity." An IDP could contribute to proper coordination;
-  Democratising development: Local Government practices should be aimed at the involvement of "...citizens and community groups in the design and delivery of municipal programmes". Coordination should lead to democratic "...leadership, encouragement, practical support and resources for community action". Another key aspect is that democratic development should aim to involve all community groups; and
-  Leading and learning: Community development should lead to networks, partnerships and coalitions. It includes training opportunities and awareness programmes. The ultimate aim is to empower communities and to create opportunities for sustainable change and growth. The emphasis is therefore on capacity building within communities.

The above characteristics are aimed at the improvement of service delivery within the constraints of available resources. As mentioned before, partnerships with businesses and Non-profit Organisation's (NGO's) become a key aspect of this developmental model (White Paper on Local Government,

1998:35). These services are aimed at specific vulnerable groups and social issues, also highlighted in policy documents.

Further to the above the Department gives effect to the strategic goal of Dignified Living in the IDP of Stellenbosch Municipality through:

-  The implementation of critical key performance areas and processes associated with the creation of a conducive environment for community / social development forging relations with international, national, provincial and local stakeholders and the generation of current social data; and
-  The development of six vulnerable groups (youth, gender, children, elderly, people living on the street, people living with disability) within the municipal area through strategy and policy development and monitoring and reporting on the intended goals of the department's key performance areas.

Table 83: Youth related functions and current programmes

The Department's main <u>Youth</u> related functions and current programmes		
Programme	Impact	Budget
Job readiness Programmes and capacity building sessions in partnership with DSD and local NGO's.	Reaching about 120 youth.	R 55 000
Accredited Artisan Youth Skills Development and Learner and Driver License training.	Reaching 50 youth per annum.	R1 400 000
DCAS District Drama Festival in partnership with DCAS.	Currently not in operation due to COVID-19. The Department is of the intention to continue with the programme once safe.	-

Table 84: Gender related functions and current programmes

The Department's main <u>Gender</u> related functions and current programmes		
Programme	Impact	Budget
Widow Empowerment	Reaching 60 widows	R 50 000
Domestic Violence against women and children awareness and wellness	Reaching 337 women	55 000
16 Days of Activism - launch	Reaching 50 representatives	R 10 000
Girl sanitary towel project in partnership local NGO's	Reaching 230 female learners	R 10 000

Table 85: Children related functions and current programmes

The Department's main <u>Children</u> related functions and current programmes	
Programme	
 TEEC.	
 Serving: 150 ECD's within the Stellenbosch Municipal Area with a budget of R100 000 per annum.	
 Capacity building of ECDs through the following training programmes: Nutrition and Hygiene, FAS, Fire Safety, Good Governance, Financial Management and Facility Registration, First Aid Training.	
 Assistance with registration: Internal support with planning processes, fire safety certificates.	
 External – DSD, CWDM – health requirements.	
 Monthly GIS Mapping and updating of ECD facilities.	
 Partnering with organisations such as JAM SA to ensure optimal ECD facility development.	
 Municipal Policy Implementation (Policy has been approved).	
 Child safety programmes – Child Protection Week and Holiday Programmes	
 Financial Training for GiA Applications and DSD subsidy applications.	
 COVID-19 Workplace Readiness training and support.	

Table 86: Elderly and disability programmes

Main Programmes		
Programme	Impact	Budget
Disability Programmes		
International Disability Day and other joint programmes	350 people per annum	R25 000
Elderly Programmes		
Golden Games	Affected by COVID-19 regulations. Will resume services as soon as it is safe.	-
Elderly Club Development	Affected by COVID-19 regulations. Will resume services as soon as it is safe.	-
People living on the street		
Policy Implementation	Awareness Raising of the Give Responsibly Campaign Development of local SOP to deal with mentally ill persons on the street involving SAPS, DoH, Municipal Law Enforcement and Justice Extensive support provided to homeless persons during lockdown period with the provision of a temporary shelter and food to Homeless persons from April 2020 to October 2020. This was followed up by a mask-up campaign.	In excess of R 1 000 000
Grant-in-aid Programmes		
Support of local organisations	100 organisations serving vulnerable groups and needs identified through the IDP process per annum	R 3 000 000 per annum
Social Relief		
Social relief of distress	Ave 6 per month	R 1 500 000 per annum

7.4.11.1 Policy development and alignment

-  The Universal Access Policy was reviewed to ensure alignment with the White Paper on the rights of persons with disabilities.
-  Implementation of a Street People Policy for implementation in partnership with local service providers.

The Department's main **Grant-in-aid** related functions and current programmes include the following:

-  The Grant in Aid programme include three capacity building workshops (financial management (1) and "how to apply" workshops (2), assessment of applications and compliance to MFMA requirements, preparation of budget documentation and contracting with successful applications prior to donations being made. Total time span of process = 7 months per annum); and
-  The annual review of the Grant in Aid policy has led to the inclusion of the development of a community network for services for street people.

The Department's main related functions and current programmes related to Social relief of distress include the following:

-  Hot meals;
-  Food parcels;
-  Dignity items;

-  Blankets and mattresses;
-  Coordination of social services required per incident with DSD and SASSA; and
-  Monitoring and documentation of services rendered per incident.

The Department's main **Transversal issues** related functions and current programmes include the following:

-  Substance Abuse – no specific programmes currently. Department currently working on the development of a referral system for persons with substance abuse issues to gain access to in-patient treatment centres along with local NGO's. The establishment of an LDAC is also currently being investigated.
-  Capacity building of local groups / structures and organisations – see under the different functions listed above;
-  Networking and Coordination;
-  Stellenbosch Civil Advocacy Network (SCAN) with quarterly voicing sessions;
-  Stellenbosch Disability Forum; and
-  ECD Forums in Kayamandi, Franschhoek, Cloetesville, Klappmuts and Ida's Valley.

The Community Development Strategy, developed by the Department of Community Development, was approved by Council in October 2014 and reviewed in August 2017. The review focused on measuring implementation of the strategy rather than suggesting major changes to the strategy document. Apart from the literature review, focus group discussions were held with various stakeholders including DoE, SAPS, Doha and DSD and local NGO's and church groupings. This strategy looks at formal agreements between Stellenbosch Municipality and provincial departments, but also outlines the focus areas of these agreements.

The Strategy is divided into three sections. The first contains the literature review and the Goals of this review. The second section contains the goals of the focus group discussions conducted. The important issue here is to look at how Stellenbosch Municipality (with its available resources) can reach or come as close as possible to addressing the issues identified as part of the literature review and focus group discussions. The strategy thus has the following goals (which is addressed with the above mentioned interventions):

Goal 1: To facilitate transparent communication between Provincial Government Departments, Local Government and the community of Stellenbosch LM (external and internal focus).

Goal 2: To facilitate and coordinate the development and sustainment of networks and partnerships (external focus). A renewed interest in bringing the different service providers within the social sector has led to 1. The development of the Stellenbosch Disability Network. This forum currently provides excellent opportunity for sharing of information, but has also lead to a couple of joint initiatives and 2. A new look at the role and function of SWOKK (Stellenbosch Welfare Organisation Coordinating Committee). Although dormant for the past two years' representatives of different role players in the social sector including the university and the municipality has started to take a critical look at the role and function of a network of this nature. We are hoping that this will lead to a format that will leave space for existing networks to continue with the work they are doing, but to also be able to provide a view of what is happening within Stellenbosch across boundaries that influences human and community development. Developments in this regard has led to the adoption of a new networking structure called the Stellenbosch Civil Advocacy Network (SCAN) which has led to exciting electronic monthly newsletters and quarterly engagements focusing on different issues.

Goal 3: To facilitate and coordinate opportunities to build the capacity of community members and resources (internal and external focus). The municipality has built their Grant in Aid programme to a level where it not only provides financial support to organisations, but also built capacity within the

organisation focusing on financial management and governance. Other initiatives include training of ECD practitioners in partnership with DSD.

Goal 4: Internal mainstreaming of social issues and vulnerable groups (internal focus) The municipality has adopted a Universal Access Policy speaking to the mainstreaming of projects within the municipality that will not only speak to persons with disabilities, but will also address issues experienced by elderly persons and mothers with children. A study on the accessibility of municipal infrastructure and facilities were completed which lead to an implementation plan that not only focus on physical access, but also operational deliverables that will look at process and product related in-accessibility. The department is hoping to have this plan approved by council in the near future.

Goal 5: To facilitate and coordinate resource management to ensure accessibility of service delivery in Stellenbosch LM (internal and external focus).

Goal 6: To evaluate the Goals of the strategy. A further review of the strategy is required.

7.4.12 Human Resources Strategy

7.4.12.1 Introduction

A high quality and responsive Stellenbosch Municipality, with a focus on skills identification, supply, demand, retention, employability and social mobility, is essential if we are to realise our IDP ambitions. As such Stellenbosch Municipality needs to be pre-emptive in terms of its human resource requirements and more responsive to service delivery improvement and best practice. The strategic role of HRM&D 9Human Resource Management and Development is ultimately to facilitate performance improvement through people. The table below provides a clarification of roles and involves the following:

-  Understanding the business environment within which HRM&D operates;
-  Partnering with management in effective people practices;
-  Enabling change and transition;
-  Engaging constructively with internal and external stakeholders' groups; and
-  Delivering on service level commitments.

Table 87: Clarifying the role of HRM&D vis-à-vis Manager and employees

HRM	Line	Employees
<ul style="list-style-type: none"> Develops HRM&D strategies, principles, policies and procedures in line with business requirements. Ensures consistency and standardisation of processes and practices across the municipality. Provides expert advisory services. Ensure application of appropriate best practice HRM&D service. Partners line management in effective people practices Enables change and transition. Facilitates assimilation of culture and values. Build capacity of line managers to effectively manage people. Ensure good corporate governance around HRM&D practices. Delivers on service level agreements. Measures and reports on the effectiveness of HRM&D services within municipality. Interaction and negotiations with trade unions and feedback. 	<ul style="list-style-type: none"> Partners with HRM&D in developing and implementing HRM&D strategies to achieve results. Manage people according HRM&D principles, policies and procedures. Complies with HRM&D legal requirements. Proactively engages and partners with HRM&D around business and people challenges and solutions. Initiate and leads change. Drives the organisational values. Takes responsibility for being informed of HRM&D matters and building own people management skills. Follows fair and procedural HRM&D practices and processes. Ensures high performance through effective performance management and retention practices. Communicates and gives feedback on service level expectations. Tracks and measures the impact of HRM&D strategies in functional areas. Measure and reports on the effectiveness of people management within functional areas. 	<p>Partners with line and HRM&D to:</p> <ul style="list-style-type: none"> Remain relevant to local government by taking responsibility for own performance development and career planning; Taking advantage for appropriate opportunities for development; Remain informed of HRM&D policy and procedure; Discuss expectations; Take personal accountability for and support change initiatives; Live the organisational values; Participate in HRM&D surveys and feedback mechanisms; and Provides feedback to / and liaises with Unions and relevant employee forums.

7.4.12.2 Conclusion

This HRM&D Framework provides Stellenbosch Municipality with the structure to plan, implement, monitor and improve its HRM&D standards. This framework does not operate in isolation and will be central to all activities involving the human resources of Stellenbosch Municipality. It is therefore not a HR document but must be “owned” by Council, management, staff and trade unions. Since the field of HR management is a dynamic discipline, it is envisaged that this framework will change and develop over time to reflect the realities of the municipality's environment.

Table 88: Key Strategies

Strategic Objective	Key strategies	Alignment with HR Standards
Valley of Possibility	Ensuring that infrastructure and services planning and resourcing occurs over the long term in a sustainable manner, and draws on the expertise of other service delivery agencies, the private sector, and the University.	 Strategic HR Management.
A Green and Sustainable Valley	Focusing more strongly on the environmental planning and management function, including appropriate resourcing.	 Strategic HR Management.  Talent Management.  Learning and Development.
A Safe Valley	<p>Securing adequate permanently employed HR, facilities and equipment (specifically fleet) to undertake the specialist functions of traffic management, fire and rescue services, and disaster and event management on a 24/7 basis and to comply with legal standards.</p> <p>Establishing adequate, integrated law enforcement capacity, present in every ward of the municipality.</p>	 Strategic HR Management.  Learning and Development.
Dignified Living	Ensuring the delivery of a comprehensive range of services to vulnerable groups, and the coordinated cooperation of service providers at all levels in the delivery and management of services to these groups	 Learning and Development.
Good Governance and Compliance	<p>Ensuring that functional areas have the capacity and readiness to deliver services in terms of short-, medium- and longer-term objectives and targets.</p> <p>Ensuring that all staff has the opportunity for leadership development within their functional areas, and municipal management generally.</p> <p>Ensuring regular performance management of staff at all levels within the organisation.</p> <p>Undertaking strategic planning for the longer and shorter terms, the municipality as a whole, and local areas</p> <p>Implementing regular auditing of processes.</p> <p>Celebrating excellence in service delivery, external and internal to the municipality.</p> <p>Renewing intergovernmental efforts to establish a municipal court in Stellenbosch.</p>	 Strategic HR Management.  Talent Management.  Learning and Development.  Performance Management/ Reward and Recognition.  Strategic HR Management.  HR Risk Management.  Reward and Recognition.  Talent Management.

7.4.13 ICT Strategy

7.4.13.1 Background

The ICT department committed its time in the 2019/20 financial year to purchasing and replacing computer software and hardware to improve the efficiency of the various municipal business units. The ICT department achieved a total spend of 84.72% of the Capital Budget during the 2019/20 financial year. Spending was hampered by the COVID-19 pandemic which closed down business in level 5 and 4 for most of the second half of the financial year.

7.4.13.2 ICT Challenges Going Forward

- Alignment of the structure to be agile.
ICT structure was changed in 2017 and no further proposal on changes to the structure was submitted for consideration. Any further changes will only be considered based on best practises.
- Lack of system integration.
The municipality is going through a process to determine the systems we will be keeping for the foreseeable future and to ensure that integration takes place between those systems. There was a decision not to follow the proposals in the business case to procure a new ERP system specifically as it is clear that no system incorporates all the requirements of MSCOA to provide full integration in one system better than the current SAMRAS financial system.
- After hours' system maintenance resources to ensure continued service provision, especially after load shedding / power failure.
Service providers are in place to deal with service issues and a team of Technicians are on standby.

7.4.13.3 Regulatory Compliance

Recent statements of direction from National Government implies a strategic approach must be introduced by all local government entities to migrate its existing portfolio of legacy ICT services and systems to a business systems architecture that will enable improved access to data and information, as well as the potential to share certain ICT related services and systems between the various spheres of government.

The approved National Broadband Strategy will provide the legal platform *"to pave the way for service integration and inter-operability"*.

mSCOA Implementation strategy from National Treasury to enable a consolidation of 13x multi-vendor system functionalities across all 278 municipalities' country wide, by, establishing a portfolio of preferred business application systems for all municipalities based on best practice Business Systems Architecture Frameworks.

The eventual success of mSCOA will not only be determined by the alignment between business processes and business systems, but also by a fundamental understanding of the ICT business systems design architectures as well as ICT infrastructure architectures to be deployed at the hosting sites to ensure optimum performance and 24/7 availability. mSCOA also aims to respond to the increased focus of the Auditor General of South Africa (AGSA) to ensure that value for money is achieved at all times when investments are made by the ICT Department for Systems and Services. The MFMA, Section 116(1) and (2) furthermore make reference to very specific compliance requirements when contracting with external Service Providers which must be adhered to at all times.

ICT Governance, Risk and Compliance Management Framework was developed to institutionalise the Corporate Governance of ICT and ICT Risk Management as an integral part of corporate governance within municipalities in a uniform and coordinated manner.

7.4.13.4 Disparate ICT Business Application System

This self-inflicted problem can only be resolved if the ICT department has a broader understanding of all the dynamics that impact on the delivery of quality services to communities and residents. On 30 March 2016, Council took a strategic resolution to extend all ICT contracts for only six (6) months pending research and assessment of alternative ERP solution in compliance with National Treasury requirements.

Zimele Technologies was appointed through the SCM tender process to conduct the research and assessment of an alternative ERP solution and produce a business case for Council approval and all ICT contracts were approved for 6 months from (1 July 2016 – 31 December 2016).

An Enterprise Resource Planning system (ERP) is an application that replaces many standalone systems of individual departments – such as finance, budget, procurement, customer billing, project accounting, grants management, payroll and human resource management. It integrates the functions into a single, automated system that runs off a single database.

Council took note that the new central government regulation e.g. the Municipal Standard Charter of Accounts (mSCOA) that has also recommended that the Stellenbosch Municipality relook the efficiency and effectiveness of the current ICT systems in order to comply with the regulations. Council approved that the Accounting Officer proceed in terms of the process plan to investigate an ERP solution for the municipality and in alignment with provincial and national guidelines. This meant that all the current ICT contracts had to be extended till 30 June 2021.

The municipality has through the last year being going through a process to determine the systems we will be keeping for the foreseeable future and to ensure that integration takes place. There was a decision not to follow the proposals in the business case, referred to above, to procure a new ERP system specifically as it is clear that no system incorporates all the requirements of MSCOA to provide full integration in one system more than what the current SAMRAS does. Other systems dealing with GIS, Human Resources and Infrastructure Systems will have to integrate to the SAMRAS system and all of the programmes to run on one platform. Multiple contracts therefore have to be managed by the ICT unit.

7.4.13.5 Legacy ICT Systems

The portfolio of Business Application Systems currently deployed in the Stellenbosch Municipality, in many instances, have exactly the same functionalities, resulting in ongoing increases in, and payment of annual licensing fees and support fees without receiving any substantive value-added services as part of the existing Agreements. Also, ongoing data integration between disparate business application systems results in increased complexities whilst attempting to maintain data integrity between systems.

A seamless and real-time integration between ICT systems are in line with best practice in the ICT industry, as well as the strategic intent of National Treasury to encourage Local Government Institutions to establish a more cost effective and sustainable portfolio of ICT Business Applications Systems.

As part of the process to assess the municipality's current systems the overlapping and duplication of functionalities was determined and systems will be phased out as part of the integration process with SAMRAS and some key other systems.

7.4.13.6 Multiple ICT Vendor Contracts

The day-to-day management of vendor service contracts remains a major challenge for all municipalities. Vendor contracts are usually very one-sided and do not properly mitigate the potential risks, legally or otherwise, to which municipalities might be exposed to during the term of such contracts.

The on-going payment of annual license fees and support fees to multiple service providers for legacy systems that are totally disparate in terms of systems architecture and integration requirements cannot continue indefinitely.

As part of the process to assess the municipality's current systems the overlapping and duplication of functionalities was determined and systems will be phased out as part of the integration process with SAMRAS and some key other systems. Multiple contracts therefore have to be managed by the ICT unit

7.4.13.7 ICT Industry Trends

Latest technology trends are the trademark of the ICT Industry and for local government not to exploit the business opportunities to enhance the municipality's service delivery and collaboration with communities and residents, will be a self-inflicted legacy of estrangement between the Municipality and its communities and residents. The most recent and imminent trends in the ICT Industry are the following:

Cloud Computing (Remote hosting) which will bring its own unique challenges to balance systems integration complexities, security measures and potential cost savings.

Convergence of ICT technologies enabling corporate data and information exchange in a seamless processing environment. Also referenced in the industry as Multi-media – Anytime from anywhere.

Social Media – enabling instant collaboration/communication between individuals and between groups. Also referenced in the industry as SMS, Twitter, Blogs, e-mails, photo's, videos and more.

The Internet of Things (IoT) is the network of physical objects devices, vehicles, buildings and other items embedded with electronics, software, sensors, and network connectivity that enables these objects to collect and exchange data.

Although Social-media is not yet fully integrated with the municipal IDP and Departmental SDBIP's, it is of strategic importance that these services and systems remain on the executive agenda as part of the overall organisational growth strategies.

Also, given the natural progression of social media in the communities and the associated empowerment of individuals and peer groups in the communities, the strategic importance of these technologies may no longer be ignored by local government.

Given the current availability of skills and resources in the ICT Department consultative skills will be required to fully exploit the business benefits of these technologies for the Stellenbosch Municipality.

7.4.13.8 ICT Strategy

The Strategic ICT Plan of the Stellenbosch Municipality 2019/20 was also reviewed internally to align ICT goals and objectives to business strategic goals.

Alignment with IDP Goals and Objectives.

Best practice methodologies must be introduced by the ICT Department by investing its time and resources to improve operational efficiencies in service delivery, rather than spending most of its time and resources to establish and maintain correctives measures.

7.4.13.9 Deployment of an ERP Solution

ICT has developed an Enterprise Architecture Framework to show the view of the current ICT environment with regards to High-level business processes, ICT Governance, ICT Processes, Application and Data Architecture, Infrastructure Architecture and ICT Resources and Skill.

Priorities and timelines to establish the required organisational transformation will be dependent on business needs and available funding over the next three years.

The municipality decided not to acquire an ERP system and rather spend its efforts on integrating the systems the municipality currently have as no system in its view can achieve more. It will also prevent any disruptions in implementation of new systems in the organisation.

7.5 The Relationship Between Service Delivery Plans and Strategies

Sector plans need to support and reinforce each other to have meaning and assist in sustainable development of the Municipal area. The table below illustrates how different key sector plans inform and direct each other.

Table 89: Relationship between sector plans

Sector Plan	Spatial Development Framework	Integrated Zoning Scheme	Human Settlements Plan	Integrated Transport Plan	Infrastructure Master Plans
Municipal Spatial Development Framework (mSDF)			<p>Identifies areas for satisfaction of human settlement needs</p> <p>Designates areas for developmental needs</p> <p>Indicates areas desirable for specific nature and form of urban development</p> <p>Indicates areas desirable for conservation</p> <p>Spatially reflects distribution of community facilities</p> <p>Identifies areas to be protected from settlement (e.g. heritage, agriculture and natural)</p> <p>Designates housing priority / restructuring areas</p> <p>Indicates areas desirable for densification / specific land use / integrated networks</p> <p>Spatially reflects Council's approved nature and form of urban development</p>	<p>Identifies areas for satisfaction of human settlement needs</p> <p>Indicates areas desirable for conservation</p> <p>Spatially reflects distribution of community facilities</p> <p>Identifies areas to be protected from settlement (e.g. heritage, agriculture and natural)</p> <p>Designates housing priority / restructuring areas</p> <p>Indicates areas desirable for densification / specific land use / integrated networks</p> <p>Spatially reflects Council's approved nature and form of urban development</p>	<p>Identifies municipal growth direction</p> <p>Identifies areas to be protected from development (e.g. heritage, agriculture and natural)</p> <p>Identifies priority development areas</p> <p>Identifies infrastructure priority areas</p>
	Designates areas for the accommodation of developmental needs	Indicates areas desirable for densification / specific land use / integrated networks			
	Indicates areas desirable for conservation	Indicates areas desirable for conservation			
	Spatially reflects Council's approved nature and form of urban development	Indicates areas desirable for conservation			
	Identifies special areas for application of overlay zones	Indicates areas desirable for conservation			

Sector Plan	Spatial Development Framework	Integrated Zoning Scheme	Human Settlements Plan	Integrated Transport Plan	Infrastructure Master Plans
Integrated Zoning Scheme	<p> Pro-actively provides for implementation of Council's developmental objectives (given sufficient detail in decision-making)</p> <p> Translates nature and form of urban development needed into supportive by-laws</p> <p> Responsive by-law, i.e. means to implement spatial development objectives</p>		<p> Provides for overlay zones meeting the specific requirements of different human settlements</p> <p> Provides land use management system for improved settlement administration</p>	<p> Provides land use management system that supports efficient transport systems</p> <p> Allows for modelling of networks and systems</p>	<p> Provides land use management system that supports efficient infrastructure provision</p> <p> Indicates extent of land use rights requiring services</p> <p> Allows for modelling of networks and systems</p>
Human Settlements Plan	<p> Identifies current settlements and interventions that should be accommodated in future planning</p> <p> Determines settlement needs</p> <p> Quantifies extent of demand for various housing typologies</p>	<p> Identifies nature and form of human settlement development that is affordable</p> <p> Identifies special areas for application of overlay zones</p>		<p> Identifies current settlements and interventions that should be accommodated in future planning</p> <p> Determines settlement needs</p> <p> Quantifies extent of demand for various housing typologies</p>	<p> Identifies current settlements and interventions which should be accommodated in future planning</p> <p> Determines settlement infrastructure needs</p> <p> Quantifies extent of demand for services according to various housing typologies</p>
Integrated Transport Plan	<p> Determines most efficient responses to transport challenges.</p> <p> Identifies transport and traffic priority areas.</p> <p> Shapes future planning according to most</p>	<p> Identifies ideal route / road classification.</p> <p> Determines development parameters, e.g. parking ratios, access and standards.</p>	<p> Identifies transport and roads priority areas.</p> <p> Determines development parameters, e.g. parking ratios, access and standards</p>		<p> Determines most efficient responses to transport challenges.</p> <p> Identifies transport and traffic priority areas.</p> <p> Shapes future planning according to most</p>

Sector Plan	Spatial Development Framework	Integrated Zoning Scheme	Human Settlements Plan	Integrated Transport Plan	Infrastructure Master Plans
	<p>appropriate modal changes and challenges.</p> <p>Identifies need for services not provided by the municipality, e.g. SANRAL, Provincial Roads, PRASA, Transnet.</p>	<p>Identifies special areas for application of overlay zones.</p>	<p>Shapes settlement planning according to most appropriate modal changes and challenges.</p>		<p>appropriate modal changes and challenges.</p>
Infrastructure Master Plans	<p>Identifies existing infrastructure capacity / constraints.</p> <p>Identifies interventions required to support growth / infill.</p> <p>Designates priority infrastructure development areas / corridors.</p> <p>Provides for services not provided by the municipality, e.g. Telkom, Eskom, raw water supply.</p>	<p>Identifies existing infrastructure capacity / constraints</p> <p>Identifies interventions required to support growth / infill.</p> <p>Designates priority infrastructure development areas / corridors.</p>	<p>Identifies existing infrastructure capacity or / constraints.</p> <p>Identifies interventions required to support growth / infill.</p> <p>Provides for services not provided by the municipality, e.g. Telkom, Eskom, raw water supply.</p>	<p>Identifies existing infrastructure capacity or / constraints.</p> <p>Identifies interventions required to support growth / infill.</p> <p>Provides for services not provided by the municipality, e.g. SANRAL, Provincial Roads, PRASA, Transnet.</p>	

CHAPTER 8

Financial Plan

To achieve delivery on the Fourth Generation IDP strategic focus areas and objectives, it is essential to align the municipal budget with the strategy. The sections below expand on aspects of the Stellenbosch Municipality's medium-term financial planning and the extent to which it is possible to align the budget to all the priorities of the wards, given our financial constraints and the need to concentrate on basic service delivery.

13

14

8.1 Introduction

The long-term financial viability of municipalities depends largely on:

-  the extent to which improved and sustainable revenue capacity can be achieved; and
-  the sound **financial management of its resources**.

These imperatives necessitate proper multi-year financial planning. Future impacts of revenue and expenditure streams and the financial implications for the community (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programmes, projects and sundry service delivery actions.

8.2 Capital and Operating Budget Estimates

8.2.1 Budget Assumptions

The selected key assumptions relating to this budget are as follows:

-  Government grants for the years 2021/22 to 2023/24 are as per the Division of Revenue Act and Provincial Gazette (capital and operational).
-  The inflation **rate has been estimated at 4.1% for 2021/22**.

8.2.2 Operating Budget estimates

A municipality is a non-profit organisation and it should break even after contributing to the different funds and reserves and meeting normal operating expenses. With the structuring of rates and tariffs both the user-pay principal and full cost recovery principle are applied. It should be noted that the surplus is calculated in terms of the accrual principle and therefore is not 100% cash-backed.

Table 90: Operating Budget estimates

	(Current) 2020/21 Budget	Year 1 2021/22 Budget	Year 2 2022/23 Budget	Year 3 2023/24 Budget

8.3 Financial Management Arrangements

For the effective and efficient financial management of the municipality, all role-players, inclusive of the municipal councillors, must provide an environment conducive to good management. Local government legislation and National Treasury circulars articulate and provide regulatory structure. Council and officials define this environment by developing and accepting policy guidelines to govern financial decision-making and fiscal discipline.

The management arrangements of Stellenbosch Municipality are reflected in the policy documents listed the table below:

Table 92: Management Arrangements

Document	Purpose	Status
Delegation Register	To provide for administrative, managerial and institutional arrangements in respect of the delegation of responsibilities.	In place
Credit Control and Debt Collection Policy	<ul style="list-style-type: none"> To establish consolidated, sound and practically executable credit control measures to be applied in respect of all property owners and consumers. To regulate the actions pertaining to arrear accounts, including extensions granted, written arrangements to pay-off arrears, the monitoring thereof and legal actions associated with unpaid accounts. 	In place
Indigent Policy	To subsidise indigent households with a specified level of income enabling them to pay for a basic package of municipal service.	In place
Irrecoverable Debt Policy	To provide a framework for the writing off of irrecoverable debt, in order to ensure that Council is in a position where it is not carrying debt that has prescribed or which is irrecoverable on its books.	In place
Tariff Policy	To provide a framework to determine rates and tariffs to finance expenditure.	In place
Rates Policy	To ensure that all the stipulation of the Municipal Property Rates Act are effected administratively and also lay-out and stipulate all the requirements for rebates for all qualifying property owners.	In place
Special Rating Areas Policy	To strike an appropriate balance between facilitating self/funded community initiatives that aim to improve and/or upgrade neighborhoods.	In place
Supply Chain Management Policy	To provide a system of procurement that gives effect to the principles of: <ul style="list-style-type: none"> Fairness; Equity; Transparency; Competitiveness; and cost effectiveness. 	In place
Budget Implementation and Monitoring Policy	<ul style="list-style-type: none"> Sets out the budgeting principles which Stellenbosch Municipality will follow in preparing each annual budget. To give effect to the requirements and stipulations of the Municipal Finance Management Act (MFMA) and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. 	In place
Borrowing, Funding and Reserves Policy	To provide a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year non-cash-backed liabilities.	In place
Cash Management and Investment Policy	To regulate and provide directives in respect of the investment of funds and to maximise returns from authorised investments, consistent with the primary objective of minimising risk.	In place
Travel and Subsistence Policy	To set out the basis for the payment of subsistence, travel allowance, hourly rate when applicable for the purpose of official travelling.	In place

Document	Purpose	Status
Accounting Policy	To provide the accounting framework applicable to the finances of the municipality and is informed by the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003).	In place
Grant-in-aid Policy	To provide the framework for grants-in-aid to NGOs, CBOs or NPOs and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the MFMA	In place
Development Contributions for Bulk Engineering Services	<ul style="list-style-type: none"> Local government has the discretionary power when granting development approvals to impose conditions in relation to the provision of engineering services and the payment of money that is directly related to requirements resulting from those approvals in respect of the provision of the necessary services to the land to be developed. To provide the framework for the calculation of these contributions. 	In place
Petty Cash Policy	To stipulate clear processes and procedures to ensure that all transactions are processed effectively and efficiently in a bid to ensure prudent financial control. All purchases below R2 000 are regulated by this policy.	In place
Asset Management Policy	The Municipal Manager as Accounting Officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.	In place
Liquidity Policy	The documented policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to in order to ensure that its current and future liquidity position is managed in a prudent manner.	In place
Virementation Policy	The policy sets out the virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year.	In place

8.4 Financial Strategies and Programmes

The optimal use of available resources, the maximum raising of revenue and the sustainable delivery of services are the key elements to a successful financial strategy. The Municipality has developed and implemented various strategies in this regard. The table below summarises the key strategies:

Table 93: Key strategies

Strategy	Currently In Place
Revenue raising strategies	<ul style="list-style-type: none">• Extending of the pre-paid electricity meters programme.• Bringing pre-payment meter vending points within close proximity of all consumers.• Ensuring optimal billing for services rendered and cash collection.• Ensuring effective credit control and debt collection• In the structuring of tariffs, continuing with the user-pay principle and full cost recovery.• Revaluating of all properties as per the Municipal Property Rates Act, at market-related values.• Outsourcing of pay-point facilities.
Asset management strategies	<ul style="list-style-type: none">• Completed process of unbundling all infrastructure assets and compiling a new improved asset register.• Conducting audits on all moveable assets of the organisation.• Improving the over-all management of fixed property
Financial management strategies	<ul style="list-style-type: none">• Continuing cash flow management.• Outsourcing of pay-point facilities.• Implementing of liquidity policy and the relevant monitoring tool.
Capital financing strategies	<ul style="list-style-type: none">• Continuing sustainable use of Own Financial Sources (CRR).• Using of bulk service contributions to fund extensions.• Accessing national and provincial funding through proper requests, business plans and motivations.• Leveraging of private finance.
Operational financing strategies	<ul style="list-style-type: none">• Introducing free basic services within the limits of affordability.• Implementing of proper tariff structures for all the services.• Ensuring that Economic and Trading Services are cost-reflective.
Strategies that would enhance cost-effectiveness	<ul style="list-style-type: none">• Investigating possibilities for utilising new technology to save costs.• Implementing new systems / equipment acquired to address capacity shortages.• Implementing electronic bank reconciliation.

8.5 Medium-Term Capital Expenditure per Strategic Goal

The proposed capital expenditure per strategic focus area over the medium term is illustrated in the table below:

Table 94: Capital Expenditure per Strategic Focus Area

Strategic Goal	2021/22	2022/23	2023/24
SFA 1 - Valley of Possibility	226 455 606	169 063 068	210 428 643
SFA 2 - Green and Sustainable Valley	15 024 347	62 833 200	34 480 000
SFA 3 - Safe Valley	14 395 023	11 830 000	5 200 000
SFA 4 - Dignified Living	112 354 148	119 120 000	110 800 000
SFA 5 - Good Governance and Compliance	29 534 800	21 614 000	20 586 000

Figure 55: Capital Expenditure per Strategic Goal

Source: Draft Capital Budget, 2021/22

The most capital intensive strategic focus area is Valley of Possibility with an allocation of R226,5 million in the upcoming financial year, totaling R605 million over the MTREF. Water projects dominates this strategic objective receiving an investment of R37 million in 2021/22, and it is increasing over the outer years.

The second most capital intensive strategic focus area is Dignified Living, with a total allocation of R342 million for the duration of the MTREF. Project highlights include:

- New Reservoir Rosendal Vlotenburg;
- Northern Extension mixed development;
- Kayamandi Zone O; and

 Alternative energy.

The Green and Sustainable Valley strategic focus area receives the 3rd highest capital investment with the total MTREF budget amounting to R112,3 million. Water Conservation takes centre stage as part of the broader Green and Sustainable Valley Strategy, in order to intensify water demand management whilst the drought persists.

The municipality is also making a concerted effort to improve ICT infrastructure platforms, allocating R14,5 million for this purpose over the multi-year budget period.

8.6 Medium-Term Operational Expenditure

The proposed Operational Expenditure per Strategic Focus Area over the medium term is illustrated in the table below.

Table 95: Operational Expenditure per Strategic Goal

Operational Expenditure	2021/22	2022/23	2023/24
SFA 1 - Valley of Possibility	55 910 166.00	57 162 086.00	65 133 553.44
SFA 2 - Green and Sustainable Valley	8 913 429.00	9 475 441.00	10 045 687.00
SFA 3 - Safe Valley	7 686 016.00	7 956 540.00	8 238 369.00
SFA 4 - Dignified Living	1 385 798 239.00	1 402 437 463.00	1 443 976 107.00
SFA 5 - Good Governance and Compliance	558 682 571.00	606 029 645.00	658 596 055.00

8.7 Medium-Term Operational Revenue per Strategic Goal

The proposed Operational Revenue per Strategic Focus Area over the medium term is illustrated in the table below.

Table 96: Operational Revenue per Strategic Goal

Operational Revenue	2021/22	2022/23	2023/24
SFA 1 - Valley of Possibility	-	-	-
SFA 2 - Green and Sustainable Valley	-	-	-
SFA 3 - Safe Valley	545 875 364	531 590 877	516 862 803
SFA 4 - Dignified Living	1 156 096 667	1 237 779 407	1 317 077 742

8.8 National and Provincial Investment

The following tables depict the National and Provincial allocations to the municipality over the MTREF period. It should be noted that the information is subject to change depending on fiscal constraints and the availability of resources.

The table below sets out the allocations by national government for the MTREF period for Stellenbosch Municipality.

As indicated in the table below the total National allocation for Stellenbosch amounts to **R239.625** million for the 2021/22 financial year.

Table 103: National and Provincial Investment

CHAPTER 9

Implementation, Monitoring and Review (5 Years)

The Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) mandates South African municipalities to formulate a five-year Integrated Development Plan (IDP) plan to inform the municipal budget and guide all development within the municipal area. The IDP is considered the municipality's principal strategic plan that deals with the most critical development needs of the municipal area as well as the most critical governance needs of the organisation.

As the principal planning instrument that guides and informs the municipal budget, the planning process has to provide a forum for identifying, unpacking and resolving the real issues that face the residents of Stellenbosch. Clearly identifying these issues in consultation with communities, makes it possible for the Municipality to propose realistic and workable solutions that can be budgeted for, implemented and monitored in a controlled environment. These issues may be over-arching issues that affect the whole municipality or may only affect specific communities. It is therefore crucially important that the IDP be developed after the completion of a public participation process in which community stakeholders were thoroughly consulted. The plan is also developed in partnership with the provincial and national government.

At the heart of the IDP lies the improvement in the provision of basic municipal services and expanding livelihood opportunities for the people of the Stellenbosch Municipality. The IDP also focusses on expanding and transforming municipal capacity, enterprise development and crucially, exploring new ways of working and living together. This is especially relevant in an ever changing environment.

9.1 Detailed Service Delivery Plans

Parallel with the completion of the fourth generation IDP revision, work has commenced to prepare the SDBIPs for the 2021/22 budget year for the various functional areas and directorates of the municipality. The SDBIP will unpack the IDP strategic focus areas and predetermined objectives into more detailed programmes, projects, budgets, and performance targets and measurement criteria. Section 1 of the MFMA defines the SDBIP as:

"a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include (as part of the top-layer) the following:

(a) projections for each month of-

- (i) revenue to be collected, by source; and*
- (ii) operational and capital expenditure, by vote;*

(b) service delivery targets and performance indicators for each quarter".

The Service Delivery and Budget Implementation Plan (SDBIP) is an implementation plan of the approved Integrated Development Plan (IDP) and Medium Term Revenue and Expenditure Framework. Therefore, only projects that are budgeted for are implemented. The SDBIP serves to address the development objectives as derived from the approved IDP.

The format of the SDBIP is prescribed by MFMA Circular Number 13 issued by National Treasury. In terms of the said Circular Number 13 the SDBIP must provide a picture of service delivery areas, budget allocations and enable monitoring and evaluation. It specifically requires the SDBIP to include, inter alia, the following:

- Monthly projections of revenue to be collected for each source;
- Monthly projections of expenditure (operating and capital) and revenue for each vote;
- Quarterly projections of service delivery targets and performance indicators for each vote;
- Ward information for expenditure and service delivery; and
- Detailed capital works plan broken down by ward over three years.

9.1.1 MFMA Circular No. 13

The SDBIP serves as a "contract" between the administration, council and community expressing the goals and objectives set by council as quantifiable outcomes that can be implemented by the administration over the next twelve months. The SDBIP provides the vital link between the mayor, council (executive) and the administration and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community.

In accordance with Section 53 of the MFMA, the mayor of a municipality must take all reasonable steps to ensure that the municipality's service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget. It also indicates that the annual performance agreements as required in terms of Section 57(1)(b) of the MSA for the municipal manager and all senior managers are linked to the measurable performance objectives approved with the budget and to the service delivery and budget implementation plan.

9.1.2 High Level SDBIP Targets and Indicators

Quarterly projections of service delivery targets and performance indicators for each vote, is one of the five components of the top-layer SDBIP that must be made public as detailed in MFMA Circular 13.

The top level of the SDBIP includes measurable performance objectives in the form of service delivery targets and performance indicators that are provided to the community, that is, what impacts it seeks to achieve. These are drawn from the IDP programmes, services and activities that are relevant to each specific directorate as well as the statutory plans that the Directorate are responsible for. The SDBIPs therefore are the key mechanisms for monitoring the different responsibilities and targets that each Directorate must fulfil in meeting service delivery needs provided to the community.

9.1.3 Reporting on the SDBIP

Various reporting requirements are outlined in the MFMA, both the mayor and the accounting officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports required by the MFMA. The report then allows the Council to monitor the implementation of service delivery programmes and initiatives across the municipality's boundaries.

9.1.4 Monthly Reporting

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. This reporting must be conducted by the accounting officer

of a municipality no later than 10 working days, after the end of each month. Reporting must include the following:

-  Actual revenue, per source;
-  Actual borrowings;
-  Actual expenditure, per vote;
-  Actual capital expenditure, per vote; and
-  The amount of any allocations received.

If necessary, explanation of the following must be included in the monthly reports:

-  Any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote;
-  Any material variances from the service delivery and budget implementation plan; and
-  Any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain with the municipality's approved budget.

9.1.5 Quarterly Reporting

Section 52(d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP provides qualitative information to quarterly report.

9.1.6 Mid-year Reporting

 Section 72 of the MFMA determines that by 25 January of each year the accounting officer must assess the performance of the municipality and report to the Council on inter alia its service delivery performance during the first half of the financial year and the service delivery targets and performance indicators set in the service delivery and budget implementation plan; and

 The section 72 report must include the following:

- The monthly statements submitted in terms of section 71 for the first half of the financial year;
- The municipality's service delivery performance, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan; and
- The past year's annual report, and progress on resolving problems identified in the annual report (s72);
- Performance of service providers;
- Make recommendations as to whether an adjustments budget is necessary (s72); and
- Recommend revised projections for revenue and expenditure to the extent that this may be necessary (s72).

9.1.7 Monitoring and the Adjustment Budget Process

The section 71 and 72 budget monitoring reports required under the MFMA should provide a consolidated analysis of the municipality's financial position including year-end projections. The Executive Mayor must consider these reports under s54 of the MFMA and then make a decision as to whether the SDBIP should be amended. The Adjustments Budget concept is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the municipality's finances. In simple terms, funds can be

transferred within a vote but any movements between votes can only be agreed by an adjustments budget.

In accordance with the Stellenbosch Municipality's approved Performance Management Policy, key performance indicators (KPIs) can only be adjusted after the mid-year assessment and / or after the adjustments budget has been approved. KPIs should be adjusted to be aligned with the adjustment estimate and the reason for the change in KPIs should be documented in a report to the Executive Mayor for approval.

Additional KPIs can be added during the year with the approval of the municipal manager. The approval documents should be safeguarded for audit purposes. The Revised SDBIP 2020/21 is informed by a thorough assessment of the Annual Report 2019/20, Auditor General's Report and the 2020/21 Adjustments Budget.

The Revised Performance Management Policy, 2020, is supported by MFMA Circular No. 13: Service Delivery and Budget Implementation Plan which stipulates that being a management and implementation plan (and not a policy proposal), the SDBIP is not required to be approved by the council – it is however tabled before council and made public for information and for purposes of monitoring. The SDBIP should be seen as a dynamic document that may (at lower layers of the plan) be continually revised by the municipal manager and other top managers, as actual performance after each month or quarter is taken into account.

9.1.8 Internal Auditing of Performance Reports

The municipality's internal audit function will need to be continuously involved in auditing the performance reports based on the organisational and directorate / departmental scorecards. As required by Regulation, they will be required to produce an audit report on a quarterly basis, to be submitted to the Municipal Manager and Performance Audit Committee. The MFMA and the Municipal Planning and Performance Management Regulations require that the municipal council establish an audit committee consisting of a minimum of three members, where the majority of members are not employees of the municipality. No Councillor may be a member of an audit committee. Council shall also appoint a chairperson who is not an employee.

9.1.9 Annual Performance Reviews

At least annually, the Executive Mayor will be required to report to the full council on the overall municipal performance. It is proposed that this reporting take place using the municipal scorecard in an annual performance report format as per the MSA. The said annual performance report will form part of the municipality's Annual Report as per section 121 of the MFMA.

9.2 Project Prioritisation

In the prioritisation of programmes and projects to be included in the SDBIPs, the following criteria will be applied:

-  The extent to which the programme or project demonstrates measurable support for the strategic goals, focus areas and objectives of the Fourth generation IDP (as aligned to global, national, provincial and district policy directives);
-  The location of the project in relation to previously disadvantaged areas and/or the extent to which such areas will benefit from the project;
-  The clear identification of beneficiary communities and the expected positive impacts on beneficiary communities;

-  The extent to which the project will support other programmes and/or projects of the municipality and its service delivery partners;
-  The extent to which the project supports the EPWP;
-  The extent to which the project is intended to enhance a previous project, extends a previous project, or completes an incomplete project;
-  The extent to which the project is supported by other funding allocations, or supports such allocation to provide for richer, more integrated human settlement outcomes or accelerated delivery;
-  The extent to which future operational resources for the project have been secured (including both human and financial resources);
-  The extent to which prerequisite land planning, and associated statutory land and environmental processes are in place or have been completed; and
-  The extent to which detail project milestone and cash-flow planning, and processes for procuring resources are completed and/or highlighted.

9.3 Five-Year Top Level Service Delivery and Budget Implementation Plan (SDBIP)

The SDBIP gives effect to the Integrated Development Plan (IDP) and is essentially the management and implementation tool setting out the quarterly service delivery targets.

The Top Layer SDBIP has been reviewed to include the main service delivery indicators of the municipality and to take into account the recommendations made by the Auditor General. It should be noted that where indicators were removed from the Top Layer SDBIP, it has been moved to the Departmental SDBIP and will be monitored through the respective Directors' performance scorecards.

The following table reflects the 5 Year Implementation Plan of the Integrated Development Plan:

Note: The Five-year Municipal Scorecard will be **updated** in accordance with the approved Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) 2021/22. The TL SDBIP 2021/22 must be approved by the Executive Mayor within 28 days after the adoption of the Municipal Budget, to be tabled in Council during May 2021.

CHAPTER 10

Implementation, Monitoring and Review – one year

The Municipal Finance Management Act No 56 of 2003 (MFMA) requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their strategic planning tool, the Integrated Development Plan (IDP). The SDBIP is a contract between Council, administration and the community. It gives effect to the IDP and budget of the municipality.

The municipal budget shall give effect to the Strategic Focus Areas as contained in the IDP. The Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) shall contain details on the execution of the budget and information on programmes and projects. Quarterly, half-yearly and annual performance reports must also be submitted to Council as a means to monitor the implementation of the predetermined objectives as contained in the IDP.

The SDBIP is a one – year detailed implementation plan which gives effect to the IDP and Budget of the municipality. It is a contract between the administration, Council and community expressing the goals and objectives set by Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis of measuring the performance in service delivery against end year targets and implementing budget.

Indicators developed for the Stellenbosch Municipality addresses the Strategic Focus Areas of the municipality. The municipality utilises the one-year TL SDBIP to ensure that it delivers of its service delivery mandate by indicating clear indicators and targets. These indicators also forms the basis of the performance plans of the Directors, hence, the Directors are being evaluated on the approved TL SDBIP indicators.

The five necessary components are:

1. Monthly projections of revenue to be collected for each month;
2. Monthly projections of expenditure (operating and capital) and revenue for each vote;
3. Quarterly projections of service delivery targets and performance indicators;
4. Ward information for expenditure and service delivery; and
5. Detailed capital works plan broken down by ward over three years.

Note: This Chapter, the one-year Municipal Scorecard, will be updated in accordance with the approved Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) 2021/22 during June 2021, and is subject to change. The TL SDBIP 2021/22 must be approved by the Executive Mayor within 28 days after the adoption of the Municipal Budget to be tabled in Council in May 2021.

ANNEXURE B

ONLINE PUBLIC PARTICIPATION MEETING SCHEDULE: 08 – 21 April 2021

The Stellenbosch Municipality encourages participatory democracy and invites all members of the public, in accordance with the approved Integrated Development Plan (IDP) Process Plan, to participate in the planning process for the review of the Integrated Development Plan for the 2021/22 financial year.

Due to the health and safety concerns of the Covid-19 pandemic, members of the community are requested, where possible, to attend the meetings **online** through one of the links which will be made available on the municipal website and not to attend the physical meeting.

Members of the community and other interested and affected parties are encouraged to attend the **online public participation meeting** for their ward/area, as scheduled below. The links to the online public participation meetings will be made available on the municipality's website and on its social media platforms.

Members of the community who may not have access to data and or a device, to attend the online public participation meeting, are encouraged to attend a venue closest to their place of residence. Unfortunately, due to the Covid-19 regulations, only 50% of the capacity of a hall may be used. Members of the community are therefore required to indicate their interest to attend the meeting at one of the venues (as indicated below) by reserving their place. To reserve a place at a venue, please email the municipality at idp@stellenbosch.gov.za.

ONLINE PUBLIC PARTICIPATION SCHEDULE: APRIL 2021

DATE AND TIME	WARDS	WARD COUNCILLORS	VENUE	Allowable venue capacity	TIMES
Thursday, 08 April 2021	1	Cllr Aldridge Frazenburg	Groendal Community Hall	100 people	18:30 – 20:30
	2	Cllr Wilhelmina Petersen	La Motte Community Hall	100 people	18:30 – 20:30
Monday, 12 April 2021	3	Cllr Charles Manuel	Wemmershoek Community Hall	70 people	18:30 – 20:30
	4	Cllr Malcolm Johnson	Pniel Community Hall	50 people	18:30 – 20:30
			Kylemore Community Hall	90 people	18:30 – 20:30
Tuesday, 13 April 2021	5	Cllr Donovan Joubert	Gratitude Park, Ida's Valley (Kreefgat Park) (Alternative venue, Ida's Valley sport ground)	50 people	18:30 – 20:30
	6	Cllr Nateshia Mcombring	Ida's Valley market (alternative venue, Ida's Valley sports ground)	50 People	18:30 – 20:30
Wednesday, 14 April 2021	7, 8, 9, 10, 11 and 22	Cllr Alwyn Hanekom Cllr Quintin Smit Cllr Zeldia Dalling Cllr Rozette Du Toit Cllr Johannie Serdyn Cllr Esther Groenewald	Stellenbosch Town Hall	100 people	18:30 – 20:30
Thursday, 15 April 2021	12	Cllr Nokuthula Managa-Gugushe	Kayamandi Legacy Hall	90 people	18:00 -20:00
	15	Cllr Nosibulele Sinkinya			
	13	Cllr Faith Bangani-Menziwa	Kayamandi Corridor	40 People Inside 80 people outside	18:00 – 20:00
	14	Cllr Phelisa Sitshoti	Kayamandi Community Hall	50 People	18:00 – 20:00
Monday, 19 April 2021	16	Cllr Elsabe Vermeulen	Eikestad Hall	30 People	18:30 – 20:30
	17	Cllr Paul Biscoombe			
Tuesday, 20 April 2021	18	Cllr Emily Fredericks	Klapmuts Multipurpose Centre	90 People	18:30 – 20:30
	19	Cllr Jan Karel Hendriks	Bottelary Tennis Club	60 People	18:30 – 20:30
Wednesday, 21 April 2021	20	Cllr Ansaaf Crombie	Vlottenburg Methodist Church	50 People	18:30 – 20:30
	21	Cllr Rikus Badenhorst	Jamestown clubhouse	20 People	18:30 – 20:30

Geraldine Mettler
Municipal Manager

8.2	MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK 2021/2022-2023/2024
-----	--

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good Governance and Compliance

24 March 2021

1. **SUBJECT: MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK 2021/2022-2023/2024**

2. **PURPOSE**

The purpose of this report is as follows:

- a) The Executive Mayor to table the Medium Term Revenue and Expenditure Framework (inclusive of property rates charges and taxes, tariffs and service charges), annexures and proposed amendments to the budget related policies and other policies to Council for approval in terms of Section 16(2) of the Municipal Finance Management Act, (Act 56 of 2003).
- b) That Council specifically note and consider the need to take up external loans to fund critically needed refurbishment of infrastructure to the amount of R444 million of which over the MTREF R144 million will be required in year one, R140 million in year two and R160 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirms draft approval of same in order for the Chief Financial Officer to attend to the necessary legislative requirements.

3. **DELEGATED AUTHORITY**

FOR APPROVAL BY MUNICIPAL COUNCIL

4. **EXECUTIVE SUMMARY**

BUDGET

Attached as **APPENDIX 1** is an executive summary by the Accounting Officer.

5. **RECOMMENDATIONS**

- (a) that the Draft High Level Budget Summary, as set out in **APPENDIX 1 – PART 1 – SECTION C**; be approved for public release;
- (b) that the Draft Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in **APPENDIX 1 – PART 1 – SECTION D**, be approved for public release;
- (c) that the proposed Grants-In-Aid allocations as set out in **APPENDIX 1 – PART 2 – SECTION J**, be approved for public release;
- (d) that the three year Capital Budget for 2021/2022, 2022/2023 and 2023/2024, as set out in **APPENDIX 1 – PART 2 – SECTION N**, be approved for public release;
- (e) that the proposed draft rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in **APPENDIX 3**, be approved for public release;

- (f) that the proposed amendments to existing budget-related policies and other policies as set out in **APPENDICES 4 - 31**, be approved for public release;
- (g) that Council specifically notes and considers the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R370 million of which R130 million will be required in year one, R120 million in year two and R120 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirms approval of same;
- (h) that Council specifically takes note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially; and
- (i) that Council takes note of MFMA circulars 107 and 108 that were published to guide the MTREF for 2021/2022 to 2023/2024 as set out in **APPENDICES 32 – 33**.

6. DISCUSSION / CONTENTS

6.1 Background / Legislative Framework

Section 16 of the MFMA states that:

- (1) The council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.
- (2) In order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year.

Furthermore, section 17 of the MFMA states that:

- (1) An annual budget of a municipality must be a schedule in the prescribed format-
 - a) setting out realistically anticipated revenue for the budget year from each revenue source;
 - b) appropriating expenditure for the budget year under the different votes of the municipality;
 - c) setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year;
 - d) setting out-
 - i. estimated revenue and expenditure by vote for the current year;
 - ii. actual revenue and expenditure by vote for the financial year preceding the current year.

6.2 Discussion

This year has had many challenges, the two main challenges being the COVID -19 pandemic that has claimed many lives and on the other hand the weak economy, that has become weaker as a result of the aforementioned pandemic. This resulted in an increase in unemployment, a high budget deficit and rapidly growing public debt. The pandemic is estimated to have caused a 7.2 per cent reduction in GDP growth during 2020. The projected GDP growth for 2021 is 3.3 per cent reducing to an average of 1.9 per cent in 2022 and 2023. GDP is only expected to recover to pre-pandemic levels in 2023. The outlook remains highly uncertain, and the economic effects of the pandemic have far fetching results. It is important to note that although the growth rates are likely to improve, with removal of restrictions, based on current projections, the output is only expected to return to pre-pandemic levels, hopefully by 2024.

Stats SA figures reflect the impact of the pandemic on our economy on a national level as follows:

- Income generated by the food and beverages industry **decreased** by **36,6%** in November 2020 compared with November 2019.
- Total income for the tourist accommodation industry **decreased** by **65,5%** in November 2020 compared with November 2019.
- Income from accommodation **decreased** by **66,8%** year-on-year in November 2020.
- SA electricity generation **decreased** by **2,4%** year-on-year in November 2020. Whilst, generation only increased by 0,5% in November 2020 compared with October 2020.
- Manufacturing production (including food and beverages), **decreased** by **3,5%** in November 2020 compared with November 2019.
- The real value of recorded building plans **decreased** by **40,8%** year-on-year during January to October 2020. The real value of buildings completed **decreased** by **49,9%** over the same period.

The aforementioned are just some of the national points which reflects directly on our own economy and how it has been affected.

The 2020 Medium Term Budget Policy Statement (MTBPS) sets the course for fiscal consolidation and economic recovery as follows:

- Intend to run primary surpluses on the main budget by 2025/26 by constraining non-interest spending growth;
- shift spending from consumption to investment. Over the MTREF period, the fastest-growing item, other than debt service costs, is spending on capital goods, i.e. investment, which is projected to grow at 7.8 per cent a year; and
- allocate resources for the Economic Reconstruction and Recovery Programme.

However, to achieve a faster recovery, characterised by growing investment in job creation, requires broader structural change. Government's economic reforms aims to remove barriers to growth, lower cost of doing business, and bolster confidence and investment. The economic recovery plan focuses on high impact reforms, namely, speeding up the expansion of electricity generation, creating jobs, rolling out infrastructure aligned with the National Development Plan, amongst others.

Government's recovery plans places emphasis on raising the economy's long-term growth rate; structural reforms that will lower the barriers to faster, inclusive growth by improving access to reliable electricity, water and sanitation services; enabling digital services that are cost-effective; promoting green economy and supporting industries with high employment potential such as agriculture and tourism. As a result of these circumstances, the 2021 Budget strikes a difficult balance between providing immediate support for the economy and shoring up the country's public finances. Medium-term fiscal policy focuses on extending temporary support in response to COVID-19, narrowing the budget deficit, stabilising debt and exercising continued restraint in non-interest expenditure growth, while improving the composition of expenditure.

The 2021 Budget Review supports economic recovery through immediate fiscal support and medium-term fiscal reforms. The government's budget of 2021 meets urgent pandemic-related spending pressures, such as procuring COVID-19 vaccines, expanding the public employment initiative, and continuing social and economic relief measures. Over the next MTREF period municipalities will have to adjust to significant changes in expenditure plans while improving accountability. Transfers that focuses on infrastructure, service delivery and COVID-19 spending are protected in the 2021 Budget. The aforementioned budget also includes funding for initiatives to improve municipal revenue collection and support financially distressed municipalities.

Municipalities must exercise caution when preparing their 2021/2022 MTREF budgets. It is advised that municipalities follow a conservative approach when projecting revenue and to eliminate waste and unnecessary expenditure. It is imperative that municipalities should

ensure the following, namely, that budgets they adopt are realistic and funded, that debts owned are collected and that their creditors are paid within 30 days of receipt of invoice. Legislation governing local planning and budgeting places emphasis on community participation in decision-making. The partnerships between municipalities and its stakeholders relies on the households and businesses recognising the value of, and paying for, municipal services. Therefore, the sustainability of the municipality will heavily depend on how they collect and spent their own revenues.

The 2021 Budget is framed by the two policy objectives set out in the 2020 Medium Term Budget Policy Statement (MTBPS), namely, promoting economic recovery and returning the public finances to a sustainable position. The budget addresses urgent economic needs while targeting long-term structural shortcomings and boosting infrastructure spending. It provides continued support to the economy and public health in the short term without adding to long-term spending pressures. Capital spending is the fastest-growing component of non-interest spending. A series of economic and fiscal measures are outlined in the 2021 budget, that will be implemented to move the economy onto a new trajectory and reduce the long-term risks to South Africa's public finances. The central economic policy goal of the government, is to accelerate inclusive growth and create jobs. The main objective is to ensure sustainable finances by containing the budget deficit and stabilising public debt. The Constitution requires the national budget and related budget processes to promote values such as transparency, accountability, as well as effective management of the economy to these requirements in a difficult environment in which economic growth remains weak, public debt and debt service costs have accelerated, and governance and operational concerns are manifest across the public sector. The 2021 Budget confronts these challenges by addressing the central risks of the economy and its public finances, supporting growth-enhancing reforms and maintaining real growth in expenditure on social and economic priorities.

The President of South Africa, in his State of the Nation Address (SONA), on 11th February 2021 conceded that unemployment remains a national challenge and that job creation remains at the center of the national agenda of 2021. During the SONA the President indicated that as a result of the relief measures that were implemented and the phased reopening of the economy, it is expected that a strong recovery in employment will be seen by the end of the year. The overriding priorities of 2021 are to defeat the COVID-19 pandemic, accelerate economic recovery, implement economic reforms to create sustainable jobs and drive inclusive growth, and fight corruption and strengthen the State.

The following focus areas were also highlighted, amongst others, during the State Of Nation Address:

- Safety and Security;
- Fight against corruption;
- State-owned Enterprises (SOE's);
- Agriculture and related initiatives
- Small Business Development;
- Digital Migration;
- Energy generation, transmission and distribution;
- Water Sector;
- Socio-economic support; and
- Job creation through employment stimulus.

Government's central economic policy priority remains to promote faster, job-creating growth. Various programmes and initiatives will be established and the existing one's improved upon to ensure effective implementation of the strategic priorities.

As a means to combat unemployment, the municipality will employ the following measures:

- Full participation in the Expanded Public Works Programme;
- Providing support to small businesses, which will create employment in the medium to long term;
- Establishment of Informal Traders;
- Promoting Internships and in-service training opportunities;
- Filling of critical vacancies within the municipality; and
- Developing partnerships with academic institutions for training opportunities.

The Western Cape Premier in his State of the Province address, on 17th February 2021, reiterated the following sentiments highlighted during the State of the Nation Address, including but not limited to, the challenges that are faced, the recovery plans and initiatives that were implemented to address these challenges with regards to the COVID-19 pandemic, economic growth recovery initiatives, unemployment, especially the youth, education, building of safer communities, sustainable infrastructure development, implementation of related initiatives, provision of housing (dignified living), finding alternative energy sources to assist and reduce the strain on the electrical grid and provision of services to the poor households. The Premier stated that the COVID-19 pandemic will continue to be the biggest challenge because in essence we are not just facing a health crisis. This pandemic has led to job crisis, humanitarian crisis and a dignity crisis and as a result of this government commits to continue fighting for the economy and for job creation.

The Premiers' speech focused, amongst others, on the following areas:

- Health: Comprehensive response plan designed as a result of the COVID-19 pandemic. This is a 5 part plan which will focus on the continuance of prevention behavior, rapidly up scaling testing for identification of COVID-19 cases, retain core field hospital capacity, making additional acute care capacity available in the Western Cape hospitals, and lastly to ensure there is sufficient PPE, staff and oxygen.
- Recovery plan which encapsulates various economic recovery interventions. The Community Economic Recovery Project is one of the successes of this plan.
- Economy: Creation of jobs through the private sector. Government's role is to support the economy and create an environment where the private sector will thrive.
- Infrastructure-led growth: Invest in infrastructure to stimulate economic growth, by building a portfolio of investment projects that can attract private finance where appropriate.
- Reliable and working public transport system.
- "Blue-dot taxi services to ensure safe and efficient taxi network.
- Energy and resilience: Finding alternative means to generate electricity for the province and alleviate the strain on the electrical grid, where the ultimate goal is to beat loadshedding. The province is making progress in achieving this goal through the launching of the Municipal Energy Resilience Project, which will assist municipalities in taking the necessary steps to generate, procure and sell their own electricity. The DEDAT, in partnership with Department of Local Government and Provincial Treasury, has undertaken an assessment process with all the municipalities to determine their readiness for and select those that can be the initial drivers of new energy opportunities. Stellenbosch Municipality has taken the lead in launching the first step of the project.
- Advancement i.t.o Agricultural technology and maintaining a competitive edge in this regard.
- Tourism and recovery of this sector.
- Safety: The province has a safety plan, the biggest in the country, in place with various safety initiatives which focuses on youth development, increasing boots on the ground and reducing violence, to build a safer environment for all.

- Education: Implement initiatives to improve quality of education and access to educational system. Looking at the demands on the education system, the province will continue to embrace innovation and the new, future digital world.
- Housing: Remains a priority for residents to have access to basic services, such as, clean running water, access to sanitation and proper shelter, which is safe and close to economic opportunities.

During his Statement of the Province Address the Premier highlighted the importance of finding ways to manage the pandemic and the impact thereof on the economy, minimise unemployment by creating an environment that encourages job creation, through investment and growth and creating an environment which raises the quality of education and prepares generations for a digital future. The Premier mentioned the successes achieved through the implementation of various initiatives with focus on job creation, improvement of education and creation of an environment which encourages expanding social services through partnership with private partners, building of partnerships to foster safer communities, investments in new initiatives and maintenance of existing transport infrastructure and implementation of various youth development programmes which in return will boost employment opportunities. All of the above focus areas are important; however, the basis of all of this is economic growth and job creation. In essence little else is possible if there is no growth or job opportunities.

Implementation of a revised capacity building initiative, aligned to Back to Basics strategy, where the main focus will be on improving service delivery, accountability and financial management. It is always important that local government be effective and efficient, and this will be measured by its ability to perform the basic mandate of service delivery. The "Back to Basics" programme was launched to promote good governance and effective administration through cutting wastage, spending public funds prudently, hiring competent staff, and ensuring transparency and accountability in local government.

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier's State of the Province address, the SONA and the 2021 Budget Review. Provincial Treasury highlighted that recovery efforts will fail unless structural constraints, including energy, infrastructure and competitiveness, are urgently addressed. Electricity remains a binding constraint on economic recovery, with power interruptions expected to continue in 2021. Job creation is one of the top priorities of the economic recovery plan that will guide policy action over the MTREF period, along with new infrastructure investment and large-scale public employment programmes.

National Treasury encourages municipalities to maintain tariff increases and adopt a tariff setting methodology at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. Cost reflective tariff setting is a requirement of Section 74 (2) of the Municipal Systems Act, 2000 (Act No.32 of 2000, wherein it states that tariffs "must reflect the cost reasonably associated with rendering the service". The municipalities must therefore generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development.

The municipality must first assess the budget, before the tariff setting process, to determine whether it is effective and efficient and must ensure that it is credible for financial sustainability. In sum, the cost considered when setting a cost reflective tariff must include day-to-day operations and maintenance costs, capital financing cost and provision for bad debt, which are collectively referred to as direct costs, and governance and administration costs referred to as indirect costs.

Tariff increases by Eskom and Water Boards is above inflation and should be considered as such while determining cost reflective tariffs. In the instance of bulk tariff increases for electricity, municipalities are encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

Local government confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving their own revenue collections, working more efficiently and implementing cost-containment measures. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary. Cost Containment Regulations were issued on 07 June 2019. The implementation of cost containment measures are important as it will assist municipalities to reprioritise expenditure and to free up resources targeted towards service delivery. It will also be used to eliminate wastage of public resources on non-service delivery items. The main object of the regulations is to ensure that the resources of municipalities are used in an effective, efficient and economical manner.

As a result of the COVID-19 pandemic, the economic landscape, weak tariff setting and increases in key cost drivers to provide basic municipal services, municipalities are under pressure to generate additional revenue. Additional revenue need to be generated because the consumer's ability to pay for services received, continues to decline, which in turn leads to limited revenue collection. The effects of slow growth and economic challenges experienced these past years coupled with the COVID pandemic since 2020, continues to place pressure on the finances of the average consumer (levels of disposable income and savings). This typically results in greater difficulty for the municipality with regards to the revenue collection, which have a direct impact on the municipality's ability to provide effective and efficient services, but also to budget accurately for service delivery over the short to medium term. It is as a result of above challenges, alongside continued unemployment and slow growth that a more conservative approach is advised for revenue projections.

Municipalities are required to consider the following during the compilation of the 2021/2022 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulation read with MFMA Circular No.82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates; and
- Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taking into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. As a result of excellent financial discipline,

the Stellenbosch Municipality has taken the theme of “Driving efficiencies- doing more with less”, to heart. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and ‘nice to have’ items with regards to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2021/2022 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- COVID pandemic and the impact thereof on financial sustainability and the economy;
- Aging infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The increased cost of bulk water and electricity, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Attracting economic investment;
- Water Conservation;
- Electricity/ Load shedding;
- Borrowing for multi-year capital projects and refinancing of existing loans;
- Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook;
- Limited resources to deal with all key priorities; and the
- 2021 Local Government Elections (transitional processes and hand-over reports for the newly elected councils);
- Slowdown in new developments;
- Decline in reserves available to fund capital programmes.

Local government elections are scheduled to take place during 2021. Circular 107 of the MFMA highlights the following four risks that should be managed. Firstly, if elections takes place after the start of the new financial year the outgoing council will be responsible to approve tariffs for the 2021/2022 financial year and newly elected council will implement it, secondly the outgoing council must ensure that they comply with the timeframes for the approval of the budget, thirdly the outgoing council should ensure that the budget is funded, and not prepare a “election friendly” budget that with unrealistically low tariffs and over-ambitious capital expenditure programme. Lastly municipalities must ensure that the public and stakeholder consultation processes are adhered to as required by the relevant legislature. The municipality's financial sustainability should be protected at all times in the build-up to the elections. Sound decision-making is of utmost importance to ensure long-term sustainability of municipal finances and service delivery long after the election period is completed.

The following budget principles and guidelines directly informed the compilation of the 2021/2022 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable as possible and should ideally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) were used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income. The municipality were mindful of the estimated headline inflation for 2021/2022 of between 3% to 6% forming the basis of the extensive income modelling exercise, but also taking into account the principles of economical services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases. Inflation is forecast to fluctuate around 4.1% over the medium term in line with moderating inflation expectations.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.

The total budget quantum for the 2021/2022 year is R2 414 754 347 of which R2 016 990 423 (84%), is allocated to the operating budget and R397 763 924 (16%) to capital investment.

Budget documentation in line with the budget and reporting regulations is attached as **APPENDIX 1 – PART 1**. The report serves as an overview of the budget as a whole, budget assumptions used to compile the budget, funding sources used to fund the capital budget, different income categories to fund priorities of the municipalities, as well as the different expenditure items, including non-cash items.

DRAFT CAPITAL BUDGET 2021/2022 – 2023/2024

The draft capital budget is infrastructure orientated and addresses the huge backlog and urgent need to upgrade/refurbish Council's infrastructure as addressed by the different master plans. It is directed by the IDP (Integrated Development Plan) and the needs of the community. It's also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the "back to basics" approach. Council's attention is however drawn to the fact that not all needs identified by the community can realistically be funded by the municipality. Critical and committed programmes/projects were the focal point for the capital budget.

The main capital projects that the municipality will be investing in, which constitute more than 75% of the capital budget, include:

- Water Pipe Replacement
- Bulk Water Supply Pipeline & Reservoir – Jamestown
- Water Conservation & Demand Management
- Bulk water supply Klapmuts
- New Reservoir Rosendal
- Bulk water supply pipe and Reservoir: Kayamandi
- New Reservoir & Pipeline: Vlottenburg
- Franschhoek Sewer Network Upgrade
- Upgrade of WWTW Wemmershoek
- Bulk Sewer Outfall: Jamestown
- Upgrade of WWTW: Pniel & Decommissioning Of Franschhoek
- Laterra Sub-Station
- Integrated National Electrification Programme (Enkanini)
- Watergang Farm Upgrading
- Upgrading of The Steps/Orlean Lounge
- Kayamandi: Zone O (±711 services)
- Longlands Development
- Bridge Rehabilitation

The detailed draft capital budgets for 2021/2022, 2022/2023 and 2023/2024 are attached as **APPENDIX 1**.

DRAFT OPERATING BUDGET 2021/2022 – 2023/2024

The basis of the operating budget is aligned to the principle of total potential income (less income forgone as an expense where applicable) from all our services as well as a projection of total direct income. The extent, to which tariffs and levies are proposed to increase, is in the main influenced by:

- The increase in bulk purchases (water and electricity)
- Employee related costs, as per SALGBC wage agreement
- Councillor remuneration, as per SALGA upper limits
- Service delivery challenges
- Repairs and maintenance
- Operational projects impacting job creation and economic development
- Contractual commitments
- Day to day operational costs (fuel & oil, telephones, bank costs, etc.)
- Finance costs, influenced by level of borrowing

Taking all of these issues into consideration and to ensure the sustainability of our operations from realistically anticipated income flows, the following tariff and property tax increases are proposed for 2021/2022:

Electricity	14.59%
Sanitation	6%
Refuse removal	12%
Water	5.5%
Rates	-17.17%

Taking cognisance of the plight of the poor and the affordability of basic services, the scale up to 18 kl of water was increased by only 5.5% and usage over 18 kl (18 000 litres) for domestic consumers increases in proportion to consumption.

The impact of the proposed tariff increases on the monthly services account for the various consumer categories is summarized in **APPENDIX 2**.

HIGH LEVEL CAPITAL AND OPERATING BUDGET FOR 2021/2022 – 2023/2024

The draft high level budget depicting the total budget is attached as **APPENDIX 1 – PART 1 – SECTION C**.

TARIFFS

Council's attention is further drawn to the fact that the Tariff List attached as **APPENDIX 3** includes Sundry Tariffs as a basket of services and charges, i.e. Land Use Management Fees, Development contributions, Technical Charges, etc. In this regard, the proposed tariff list must be consulted for the detail.

BUDGET-RELATED POLICIES & BY-LAWS

A summary of changes to budget-related policies is attached as **APPENDIX 4**

The following budget-related policies are new:

Wayleave Policy (**APPENDIX 5**)

The following budget-related policies and by-laws were revised:

Rates Policy (**APPENDIX 6**)

Indigent Policy (**APPENDIX 7**)

Special Ratings By-law (**APPENDIX 8**)

Rates By-law (**APPENDIX 9**)

Credit Control and Debt Collection Policy (**APPENDIX 10**)

Irrecoverable Debt Policy (**APPENDIX 11**)

Petty Cash Policy (**APPENDIX 12**)

Travel and Subsistency Policy (**APPENDIX 13**)

Cost Containment Policy (**APPENDIX 14**)

Cash Management and Investment Policy (**APPENDIX 15**)

Ward Allocation Policy (**APPENDIX 16**)

Supply Chain Management Policy (**APPENDIX 17**)

Development Charges Policy (**APPENDIX 18**)

Grants-In-Aid Policy (**APPENDIX 19**)

Accounting Policy (**APPENDIX 20**)

Asset Management Policy (**APPENDIX 21**)

Unchanged Policies

Special Ratings Area Policy (**APPENDIX 22**)

Tariff Policy (**APPENDIX 23**)

Tariff By-law (**APPENDIX 24**)

Virementation Policy (**APPENDIX 25**)

Budget Implementation and Monitoring Policy (**APPENDIX 26**)

Borrowing, Funds and Reserves Policy (**APPENDIX 27**)

Financing of External Bodies performing municipal functions Policy (**APPENDIX 28**)

Liquidity Policy (**APPENDIX 29**)

Inventory Management Policy (**APPENDIX 30**)

Preferential Procurement Policy (**APPENDIX 31**)

OTHER SUPPORTING DOCUMENTATION

The additional information as prescribed by the budget and reporting regulations are attached as **APPENDIX 1 – PART 2 – SECTION P**.

6.2 Financial Implications

Financial impact already discussed above.

6.3 External Loan for 2021/2022

That Council specifically note and consider the need to take up external loans to fund critically needed refurbishment of infrastructure to the amount of R 444 million of which over the MTREF R144 million will be required in year one, R140 million in year two and R160 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary).

6.4 Legal Implications

The item is compliant with the relevant legislative framework.

6.5 Staff Implications

None

6.6 Previous / Relevant Council Resolutions

6.7 Risk Implications

None

6.8 Comments from Senior Management

6.8.1 Director: Infrastructure Services

Noted

6.8.2 Director: Planning and Development Services

Noted

6.8.3 Director: Community and Protection Services

Noted

6.8.4 Director: Corporate Services

Noted

6.8.5 Chief Financial Officer

Noted

6.8.6 Municipal Manager

Noted

RECOMMENDATIONS FROM THE EXECUTIVE MAYOR, IN CONSULTATION WITH THE EXECUTIVE MAYORAL COMMITTEE, TO COUNCIL: 2021-03-24: ITEM 6.2

- (a) that the Draft High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved for public release;
- (b) that the Draft Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved for public release;
- (c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved for public release;
- (d) that the three-year Capital Budget for 2021/2022, 2022/2023 and 2023/2024, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved for public release;
- (e) that the proposed draft rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3, be approved for public release;
- (f) that the proposed amendments to existing budget-related policies and other policies as set out in APPENDICES 5 - 31, be approved for public release;
- (g) that Council specifically notes and considers the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R444 million of which R144 million will be required in year one, R140 million in year two and R160 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirms approval of same;
- (h) that Council specifically takes note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially; and
- (i) that Council takes note of MFMA circulars 107 and 108 that were published to guide the MTREF for 2021/2022 to 2023/2024 as set out in APPENDICES 32 – 33.

APPENDIX 1

STELLENBOSCH MUNICIPALITY

MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK FOR THE FINANCIAL PERIOD 2021/2022 TO 2023/2024

Vision:

We describe the vision of where we want to be as a Municipality and the Greater Stellenbosch area as:

“Valley of Opportunity and Innovation.”

Mission:

Our mission is to deliver cost-effective services that will provide the most enabling environment for civil and corporate citizens.

Our Values

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

PART A

A: RESOLUTIONS

It is recommended to Council,

- a) that the Draft High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved for public release;
- b) that the Draft Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved for public release;
- c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved for public release;
- d) that the three-year Capital Budget for 2021/2022, 2022/2023 and 2023/2024, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved for public release;
- e) that the proposed draft rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3, be approved for public release;
- f) that the proposed amendments to existing budget related policies and other policies as set out in APPENDICES 4 - 31, be approved for public release.
- g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R444 millions of which R144 million will be required in year one, R140 million in year two and R160 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;
- h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially; and
- i) that Council takes note of MFMA circulars 107 and 108 that was published to guide the MTREF for 2021/2022 to 2023/2024 as set out in APPENDICES 32 – 33.

B: EXECUTIVE SUMMARY

This year has had many challenges, the two main challenges being the COVID -19 pandemic that has claimed many lives and on the other hand the weak economy, that has become weaker as a result of the aforementioned pandemic. This resulted in an increase in unemployment, a high budget deficit and rapidly growing public debt. The pandemic is estimated to have caused a 7.2 per cent reduction in GDP growth during 2020. The projected GDP growth for 2021 is 3.3 per cent reducing to an average of 1.9 per cent in 2022 and 2023. GDP is only expected to recover to pre-pandemic levels in 2023. The outlook remains highly uncertain, and the economic effects of the pandemic have far fetching results. It is important to note that although the growth rates are likely to improve, with removal of restrictions, based on current projections, the output is only expected to return to pre-pandemic levels, hopefully by 2024.

Stats SA figures reflects the impact of the pandemic on our economy on a national level as follow:

- Income generated by the food and beverages industry **decreased** by **36,6%** in November 2020 compared with November 2019.
- Total income for the tourist accommodation industry **decreased** by **65,5%** in November 2020 compared with November 2019.
- Income from accommodation **decreased** by **66,8%** year-on-year in November 2020.
- SA electricity generation **decreased** by **2,4%** year-on-year in November 2020. Whilst, generation only increased by 0,5% in November 2020 compared with October 2020.
- Manufacturing production (including food and beverages), **decreased** by **3,5%** in November 2020 compared with November 2019.
- The real value of recorded building plans **decreased** by **40,8%** year-on-year during January to October 2020. The real value of buildings completed **decreased** by **49,9%** over the same period.

The aforementioned are just some of the national points which reflects directly on our own economy and how it has been affected.

The 2020 Medium Term Budget Policy Statement (MTBPS) sets the course for fiscal consolidation and economic recovery as follow:

-
- Intend to run primary surpluses on the main budget by 2025/26 by constraining non-interest spending growth;
 - shift spending from consumption to investment. Over the MTREF period, the fastest-growing item, other than debt service costs, is spending on capital goods, i.e. investment, which is projected to grow at 7.8 per cent a year; and
 - allocate resources for the Economic Reconstruction and Recovery Programme.

However, to achieve a faster recovery, characterised by growing investment in job creation, requires broader structural change. Government's economic reforms aims to remove barriers to growth, lower cost of doing business, and bolster confidence and investment. The economic recovery plan focuses on high impact reforms, namely, speeding up the expansion of electricity generation, creating jobs, rolling out infrastructure aligned with the National Development Plan, amongst others.

Government's recovery plans places emphasis on raising the economy's long-term growth rate; structural reforms that will lower the barriers to faster, inclusive growth by improving access to reliable electricity, water and sanitation services; enabling digital services that are cost-effective; promoting green economy and supporting industries with high employment potential such as agriculture and tourism. As a result of these circumstances, the 2021 Budget strikes a difficult balance between providing immediate support for the economy and shoring up the country's public finances. Medium-term fiscal policy focuses on extending temporary support in response to COVID-19, narrowing the budget deficit, stabilising debt and exercising continued restraint in non-interest expenditure growth, while improving the composition of expenditure.

The 2021 Budget Review supports economic recovery through immediate fiscal support and medium-term fiscal reforms. The government's budget of 2021 meets urgent pandemic-related spending pressures, such as procuring COVID-19 vaccines, expanding the public employment initiative, and continuing social and economic relief measures. Over the next MTREF period municipalities will have to adjust to significant changes in expenditure plans while improving accountability. Transfers that focuses on infrastructure, service delivery and COVID-19 spending are protected in the 2021 Budget. The aforementioned budget also includes funding for initiatives to improve municipal revenue collection and support financially distressed municipalities.

Municipalities must exercise caution when preparing their 2021/2022 MTREF budgets. It is advised that municipalities follow a conservative approach when projecting revenue and to

eliminate waste and unnecessary expenditure. It is imperative that municipalities should ensure the following, namely, that budgets they adopt are realistic and funded, that debts owned are collected and that their creditors are paid within 30 days of receipt of invoice. Legislation governing local planning and budgeting places emphasis on community participation in decision-making. The partnerships between municipalities and its stakeholders relies on the households and businesses recognising the value of, and paying for, municipal services. Therefore, the sustainability of the municipality will heavily depend on how they collect and spent their own revenues.

The 2021 Budget is framed by the two policy objectives set out in the 2020 Medium Term Budget Policy Statement (MTBPS), namely, promoting economic recovery and returning the public finances to a sustainable position. The budget addresses urgent economic needs while targeting long-term structural shortcomings and boosting infrastructure spending. It provides continued support to the economy and public health in the short term without adding to long-term spending pressures. Capital spending is the fastest-growing component of non-interest spending. A series of economic and fiscal measures are outlined in the 2021 budget, that will be implemented to move the economy onto a new trajectory and reduce the long-term risks to South Africa's public finances. The central economic policy goal of the government, is to accelerate inclusive growth and create jobs. The main objective is to ensure sustainable finances by containing the budget deficit and stabilising public debt. The Constitution requires the national budget and related budget processes to promote values such as transparency, accountability, as well as effective management of the economy to these requirements in a difficult environment in which economic growth remains weak, public debt and debt service costs have accelerated, and governance and operational concerns are manifest across the public sector. The 2021 Budget confronts these challenges by addressing the central risks of the economy and its public finances, supporting growth-enhancing reforms and maintaining real growth in expenditure on social and economic priorities.

The President of South Africa, in his State of the Nation Address (SONA), on 11th February 2021 conceded that unemployment remains a national challenge and that job creation remains at the centre of the national agenda of 2021. During the SONA the President indicated that as a result of the relief measures that were implemented and the phased reopening of the economy, it is expected that a strong recovery in employment will be seen by the end of the year. The overriding priorities of 2021 are to defeat the COVID-19 pandemic, accelerate economic recovery, implement economic reforms to create sustainable jobs and drive inclusive growth, and fight corruption and strengthen the State.

The following focus areas were also highlighted, amongst others, during the State Of Nation Address:

- Safety and Security;
- Fight against corruption;
- State-owned Enterprises (SOE's);
- Agriculture and related initiatives
- Small Business Development;
- Digital Migration;
- Energy generation, transmission and distribution;
- Water Sector;
- Socio-economic support; and
- Job creation through employment stimulus.

Government's central economic policy priority remains to promote faster, job-creating growth. Various programmes and initiatives will be established and the existing one's improved upon to ensure effective implementation of the strategic priorities.

As a means to combat unemployment, the municipality will employ the following measures:

- Full participation in the Expanded Public Works Programme;
- Providing support to small businesses, which will create employment in the medium to long term;
- Establishment of Informal Traders;
- Promoting Internships and in-service training opportunities;
- Filling of critical vacancies within the municipality; and
- Developing partnerships with academic institutions for training opportunities.

The Western Cape Premier in his State of the Province address, on 17th February 2021, reiterated the following sentiments highlighted during the State of the Nation Address, including but not limited to, the challenges that are faced, the recovery plans and initiatives that were implemented to address these challenges with regards to the COVID-19 pandemic, economic growth recovery initiatives, unemployment, especially the youth, education, building of safer communities, sustainable infrastructure development, implementation of related initiatives, provision of housing (dignified living), finding alternative energy sources to assist and reduce the strain on the electrical grid and provision of services to the poor households. The Premier stated that the COVID-19 pandemic will continue to be the biggest challenge because in essence we are not just facing a health crisis. This pandemic has led to job crisis, humanitarian crisis and a dignity crisis and as a result of this government commits to continue fighting for the economy and for job creation.

The Premiers' speech focused, amongst others, on the following areas:

- Health: Comprehensive response plan designed as a result of the COVID-19 pandemic. This is a 5-part plan which will focus on the continuance of prevention behavior, rapidly upscaling testing for identification of COVID-19 cases, retain core field hospital capacity, making additional acute care capacity available in the Western Cape hospitals, and lastly to ensure there is sufficient PPE, staff and oxygen.
- Recovery plan which encapsulates various economic recovery interventions. The Community Economic Recovery Project is one of the successes of this plan.
- Economy: Creation of jobs through the private sector. Government's role is to support the economy and create an environment where the private sector will thrive.
- Infrastructure-led growth: Invest in infrastructure to stimulate economic growth, by building a portfolio of investment projects that can attract private finance where appropriate.
- Reliable and working public transport system.
- "Blue-dot taxi services to ensure safe and efficient taxi network.
- Energy and resilience: Finding alternative means to generate electricity for the province and alleviate the strain on the electrical grid, where the ultimate goal is to beat loadshedding. The province is making progress in achieving this goal through the launching of the Municipal Energy Resilience Project, which will assist municipalities in taking the necessary steps to generate, procure and sell their own

electricity. The DEDAT, in partnership with Department of Local Government and Provincial Treasury, has undertaken an assessment process with all the municipalities to determine their readiness for and select those that can be the initial drivers of new energy opportunities. Stellenbosch Municipality has taken the lead in launching the first step of the project.

- Advancement i.t.o Agricultural technology and maintaining a competitive edge in this regard.
- Tourism and recovery of this sector.
- Safety: The province has a safety plan, the biggest in the country, in place with various safety initiatives which focuses on youth development, increasing boots on the ground and reducing violence, to build a safer environment for all.
- Education: Implement initiatives to improve quality of education and access to educational system. Looking at the demands on the education system, the province will continue to embrace innovation and the new, future digital world.
- Housing: Remains a priority for residents to have access to basic services, such as, clean running water, access to sanitation and proper shelter, which is safe and close to economic opportunities.

During his Statement of the Province Address the Premier highlighted the importance of finding ways to manage the pandemic and the impact thereof on the economy, minimise unemployment by creating an environment that encourages job creation, through investment and growth and creating an environment which raises the quality of education and prepares generations for a digital future. The Premier mentioned the successes achieved through the implementation of various initiatives with focus on job creation, improvement of education and creation of an environment which encourages expanding social services through partnership with private partners, building of partnerships to foster safer communities, investments in new initiatives and maintenance of existing transport infrastructure and implementation of various youth development programmes which in return will boost employment opportunities. All of the above focus areas are important, however, the basis of all of this is economic growth and job creation. In essence little else is possible if there is no growth or job opportunities.

Implementation of a revised capacity building initiative, aligned to Back to Basics strategy, where the main focus will be on improving service delivery, accountability and financial management. It is always important that local government be effective and efficient, and this will

be measured by its ability to perform the basic mandate of service delivery. The “Back to Basics” programme was launched to promote good governance and effective administration through cutting wastage, spending public funds prudently, hiring competent staff, and ensuring transparency and accountability in local government.

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier’s State of the Province address, the SONA and the 2021 Budget Review. Provincial Treasury highlighted that recovery efforts will fail unless structural constraints, including energy, infrastructure and competitiveness, are urgently addressed. Electricity remains a binding constraint on economic recovery, with power interruptions expected to continue in 2021. Job creation is one of the top priorities of the economic recovery plan that will guide policy action over the MTREF period, along with new infrastructure investment and large-scale public employment programmes.

National Treasury encourages municipalities to maintain tariff increases and adopt a tariff setting methodology at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. Cost reflective tariff setting is a requirement of Section 74 (2) of the Municipal Systems Act, 2000 (Act No.32 of 2000, wherein it states that tariffs “must reflect the cost reasonably associated with rendering the service”. The municipalities must therefore generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development.

The municipality must first assess the budget, before the tariff setting process, to determine whether it is effective and efficient and must ensure that it is credible for financial sustainability. In sum, the cost considered when setting a cost reflective tariff must include day-to-day operations and maintenance costs, capital financing cost and provision for bad debt, which are collectively referred to as direct costs, and governance and administration costs referred to as indirect costs.

Tariff increases by Eskom and Water Boards is above inflation and should be considered as such while determining cost reflective tariffs. In the instance of bulk tariff increases for electricity, municipalities are encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective

tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

Local government confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving their own revenue collections, working more efficiently and implementing cost-containment measures. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary. Cost Containment Regulations were issued on 07 June 2019. The implementation of cost containment measures is important as it will assist municipalities to reprioritise expenditure and to free up resources targeted towards service delivery. It will also be used to eliminate wastage of public resources on non-service delivery items. The main object of the regulations is to ensure that the resources of municipalities are used in an effective, efficient and economical manner.

As a result of the COVID-19 pandemic, the economic landscape, weak tariff setting and increases in key cost drivers to provide basic municipal services, municipalities are under pressure to generate additional revenue. Additional revenue need to be generated because the consumer's ability to pay for services received, continues to decline, which in turn leads to limited revenue collection. The effects of slow growth and economic challenges experienced these past years coupled with the COVID pandemic since 2020, continues to place pressure on the finances of the average consumer (levels of disposable income and savings). This typically results in greater difficulty for the municipality with regards to the revenue collection, which have a direct impact on the municipality's ability to provide effective and efficient services, but also to budget accurately for service delivery over the short to medium term. It is as a result of above challenges, alongside continued unemployment and slow growth that a more conservative approach is advised for revenue projections.

Municipalities are required to consider the following during the compilation of the 2021/2022 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;

-
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulation read with MFMA Circular No.82;
 - Ensuring value for money through the procurement process;
 - The affordability of providing free basic services to all households;
 - Not taking on unfunded mandates; and
 - Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taken into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. As a result of excellent financial discipline, the Stellenbosch Municipality has taken the theme of "Driving efficiencies- doing more with less", to heart. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and 'nice to have' items with regards to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2021/2022 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- COVID pandemic and the impact thereof on financial sustainability and the economy;
- Aging infrastructure;

-
- The need to reprioritise projects and expenditure within the existing resource envelope;
 - The increased cost of bulk water and electricity, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
 - Attracting economic investment;
 - Water Conservation;
 - Electricity/ Load shedding;
 - Borrowing for multi-year capital projects and refinancing of existing loans;
 - Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook;
 - Limited resources to deal with all key priorities; and the
 - 2021 Local Government Elections (transitional processes and hand-over reports for the newly elected councils);
 - Slowdown in new developments;
 - Decline in reserves available to fund capital programmes.

Local government elections are scheduled to take place during 2021. Circular 107 of the MFMA highlights the following four risks that should be managed. Firstly, if elections takes place after the start of the new financial year the outgoing council will be responsible to approve tariffs for the 2021/2022 financial year and newly elected council will implement it, secondly the outgoing council must ensure that they comply with the timeframes for the approval of the budget, thirdly the outgoing council should ensure that the budget is funded, and not prepare a “election friendly” budget that with unrealistically low tariffs and over-ambitious capital expenditure programme. Lastly municipalities must ensure that the public and stakeholder consultation processes are adhered to as required by the relevant legislature. The municipality’s financial sustainability should be protected at all times in the build-up to the elections. Sound decision-making is of utmost importance to ensure long-term sustainability of municipal finances and service delivery long after the election period is completed.

The following budget principles and guidelines directly informed the compilation of the 2021/2022 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable as possible and should ideally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) were used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income. The municipality were mindful of the estimated headline inflation for 2021/2022 of between 3% to 6% forming the basis of the extensive income modelling exercise, but also taking into account the principles of economical services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases. Inflation is forecast to fluctuate around 4.1% over the medium term in line with moderating inflation expectations.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.

The total budget quantum for the 2021/2022 year is R2 414 754 347 of which R2 016 990 423 (84%), is allocated to the operating budget and R397 763 924 (16%) to capital investment.

OPERATING BUDGET – REVENUE

Overall revenue budget increase was limited to 9.28% resulting in annual operating revenue increasing from R1 928 409 221 in 2020/2021 to R2 125 604 578 in 2021/2022. Taking cognisance of the economic conditions, the resultant low employment levels and levels of disposable income, it was important to keep services affordable by critically looking at the costs associated with providing the service.

Accordingly, management investigated potential pitfalls and amongst others found that spiralling expenditure on employee costs did not keep trend with realistically anticipated revenue streams, compounded by the decline in electricity surpluses as a result of higher input costs to provide the service.

REVENUE CATEGORIES	2020/2021	2021/2022	% INCR
Property Rates	399,239,042	423,632,547	6.11%
Electricity	674,441,162	787,275,169	16.73%
Water	148,720,115	166,399,721	11.89%
Sewerage	108,311,571	114,485,331	5.70%
Refuse	78,304,939	87,936,446	12.30%
Rental of facilities	10,592,168	11,174,737	5.50%
Fines	130,880,961	147,425,009	12.64%
Licences and Permits	5,502,903	5,778,048	5.00%
Operational + Capital grants	288,727,970	309,867,000	7.32%
Other Income	83,688,390	71,630,569	-14.41%
Operating Revenue	1,928,409,221	2,125,604,578	9.28%

- | | | |
|---------------------------|----------------|---------|
| Average tariff increases: | Property Rates | -17.17% |
| | Electricity | 14.59% |
| | Water | 5.5% |
| | Sanitation | 6.00% |
| | Refuse removal | 12.00% |

Taking cognisance of the plight of the poor and the affordability of basic services, the scale up to 18 kl of water was increased by only 5.5% and usage over 18 kl (18 000 litres) for domestic consumers increases in proportion to consumption.

- The Municipality succeeded in accessing the EPWP Incentive Grant for Municipalities in a bid to give some relief to the poorest of the poor by means of contract employment opportunities over the short term. The allocation for the 2021/22 financial year is R 5 998 000.

Rates

In the 2021/2022 financial year, the Property Rates Tariff paid by owners will decrease with 17.17%, whilst total rates also increased with 6.00%. The increase in total rates is due to interim valuations that were performed. Rates rebates to senior citizens and disabled persons are also available as per the requirements of the amended Rates Policy to qualifying ratepayers with a monthly income of R15 000 or less.

Electricity

According to NERSA, the inclining block rate tariff structure is commonly used to charge for water usage. The feature of this tariff structure is that the more you use, the higher the average price. The objective of the inclining block tariff is to provide protection for lower usage customers against high price increases resulting in a reduction in tariffs to these customers. This means that higher consumption customers will see increasingly punitive charges based on their electricity usage. The municipality is implementing the directive from NERSA as part of the Municipality's Licensing Agreement and as a result had to deal with the negative impact of a declining Electricity surplus, year-on year, putting more pressure on the level and quality of services provided.

Council's attention is further drawn to the fact that the proposed electricity tariff is at 14.59% whereas the increase in electricity bulk purchases for the 2021/2022 financial year is 17.8% as approved by NERSA (National Electricity Regulator of South Africa) for implementation by all municipalities. Although the proposed tariffs increase with 14.59%, the municipality is experiencing a decrease in electricity demand as consumers are utilising alternative energy sources.

Municipalities are urged to examine the cost structure of providing electricity services and to apply to NERSA for electricity tariff increases that reflect the total cost of providing the service, so that they work towards achieving fully cost-reflective tariffs that will help them achieve financial sustainability.

Water

Taking cognizance of the challenges that the country is currently experiencing due to the severe drought, the plight of the poor and the affordability of basic services, the average tariff increase for the rest of the consumptive water scales is 5.50%. The tariff is designed to cater for current and future capital investment in basic water infrastructure and the need to generate surpluses. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2021/2022 and not based on the approved budget for the same year.**

Sewerage (Sanitation)

The proposed increase in this tariff is 6.00%. Sanitation services is classified as an economical service. This means that the service charges for sanitation must cover the cost of providing the service, i.e. it must at least break even. This tariff increase is necessitated by operational requirements, maintenance of existing aging infrastructure, new infrastructure financing/provision and to ensure that the service is delivered in a sustainable manner. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2021/2022 and not based on the approved budget for the same year.**

Refuse (Solid Waste)

Refuse removal services, like sanitation are also classified as an economical service. This means that the service charges for refuse must cover the cost of providing the service, i.e. it must at least break even. The municipality will implement an above inflation tariff increase as this service does not break even and to provide for the additional expenditure for the transport of the waste from the Stellenbosch Landfill Site. The solid waste tariffs were modelled to give effect to the principle of the service charge being cost reflective as the service cannot be cross-subsidized. It is proposed that the tariff increases by 12.00% as a result of the before mentioned. The very nature of this tariff does not lend it to financing the expansion of the landfill site and therefore the proposed extension by way of constructing the new cell, was funded from council's own reserves.

It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2021/2022 and not based on the approved budget for the same year.

Debt Management

The municipality is currently executing all credit control and debt collection procedures as required in the approved Credit Control and Debt Collection policy. These internal procedures followed include the disconnection of services, where there are services that can be disconnected, the issuing of final notices, the conclusion of reasonable agreements where the settlement of the accounts are not possible and also the follow up on defaulting debtors not honoring arrangements. The municipality continuously enforces the above procedures to ensure that debt which is collectable is collected and all debt that is regarded as not recoverable, be written off.

The municipality developed a revenue enhancement strategy. The document focuses on the formulation and implementation of strategies to improve financial management and controls within

the municipality. The objective of any successful revenue enhancement strategy is to build and improve on current payment levels and then to recover arrear debt.

The municipality has also promulgated the Credit Control and Debt Collection By-Law on the 4th of March 2011 to strengthen the internal credit control and debt collection procedures through handing over of all debt over 90 days to the appointed attorneys.

A zero tolerance approach will be followed where consumers are able to pay for services, as this indirectly denies paying consumers the level and standard of service that they are entitled to.

OPERATING BUDGET - EXPENDITURE

The budget sees an increase in annual operating expenditure from R1 827 604 182 in 2020/2021 to R2 016 990 423 in 2021/2022. This 10.36% increase is primarily due to increases in several expenditure categories, examples which are included in the table below:

EXPENDITURE CATEGORIES	2020/2021	2021/2022	% INCR.
Employee Related Costs	529,070,021	607,458,296	14.82%
Remuneration of Councillors	21,132,587	21,977,888	4.00%
Depreciation & Impairment	200,778,636	211,541,195	5.36%
Finance Charges	31,648,891	43,842,076	38.53%
Bulk Purchases	451,195,922	536,028,998	18.80%
Other Expenditure	593,778,125	596,141,970	0.004%
Total Expenditure	1,827,604,182	2,016,990,423	10.36%

Council to note the upward pressure of external borrowing interest (Finance Charges) on future tariffs. In this regard, strong political will and strategic leadership is required to ensure that the municipality maintains the position of being responsive to its communities by ensuring that service charges are kept affordable and realistic by amongst other, critically investigating funding choices and expenditure decisions.

Explanation of significant expenditure variances:

Finance Charges

The interest payable for the 2021/2022 financial year has been calculated on the maximum amount of possible borrowings drawn down up to the end of the 2021/2022 financial year.

Bulk Purchases

The municipal tariff guideline increase issued by NERSA setting the bulk purchase increase at 17.8%, whilst the increase on water was estimated at 8% as the bulk purchase charges of the City was not available at the time of compilation.

Other expenditure

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions. These interventions include amongst other, measures to limited telephone usage and filling of critical vacancies that will result in a decrease in consulting fees.

CAPITAL BUDGET

The capital budget decreased from R 454 464 007 in 2020/2021 to R 397 763 924 in 2021/2022.

DIRECTORATE	2020/2021	2021/2022	% INCR.
Municipal Manager	40,000	44,000	10.00%
Planning and Economic Development	18,088,077	11,513,800	-36.35%
Community and Protection Services	44,297,748	26,557,000	-40.05%
Infrastructure Services	317,493,026	336,174,754	5.88%
Corporate Services	73,695,157	23,274,370	-68.42%
Financial Services	850,000	200,000	-76.47%
Total Expenditure	454,464,007	397,763,924	-12.48%

FUNDING SOURCE	2020/2021	2021/2022	% INCR
Capital Replacement Reserve	249,598,291	148,210,204	-40.62%
External Loan	120,000,000	144,000,000	20.00%
National Government	58,065,300	70,385,720	21.22%
Provincial Government	26,800,416	35,168,000	31.22%
	454,464,007	397,763,924	-12.48%

Major capital expenditure is planned in the following areas during the 2021/2022 financial year:

Water Services

- Water Pipe Replacement
- Bulk Water Supply Pipeline & Reservoir - Jamestown
- Water Conservation & Demand Management
- Bulk water supply Klapmuts
- New Reservoir Rosendal
- Bulk water supply pipe and Reservoir: Kayamandi
- New Reservoir & Pipeline: Vlottenburg

Sanitation

- Franschhoek Sewer Network Upgrade
- Upgrade of WWTW Wemmershoek
- Bulk Sewer Outfall: Jamestown
- Upgrade of WWTW: Pniel & Decommissioning of Franschhoek

Electrical Services

- Laterra Sub Station
- Integrated National Electrification Programme

Infrastructure Plan, Dev and Implement

- Watergang Farm Upgrading
- Upgrading of The Steps/Orlean Lounge
- Kayamandi: Zone O (±711 services)
- Longlands Development
- Bridge Rehabilitation

Property Services

- Upgrading of New Office Space: Ryneveld Street

C: HIGH LEVEL BUDGET SUMMARY

	Operating Income R	Operating Expenditure R	Capital Expenditure R	Total Budget R
Municipal Manager	-	39,988,673	44,000	40,032,673

References

1. Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purposes
2. Total Revenue by functional classification must reconcile to Total Operating Revenue shown in Budgeted Financial Performance (revenue and expenditure)
3. Total Expenditure by Functional Classification must reconcile to Total Operating Expenditure shown in Budgeted Financial Performance (revenue and expenditure)
4. All amounts must be classified under a functional classification. The GFS function 'Other' is only for Abattoirs, Air Transport, Forestry, Licensing and Regulation, Markets and Tourism - and if used must be supported by footnotes. Nothing else may be placed under 'Other'. Assign associate share to relevant classification.

References

1. Classifications are revenue sources and expenditure type
2. Detail to be provided in Table SA1
3. Previously described as 'bad or doubtful debts' - amounts shown should reflect the change in the provision for debt impairment
4. Expenditure type components previously shown under repairs and maintenance should be allocated back to the originating expenditure group/item; e.g. employee costs
5. Repairs & maintenance detailed in Table A9 and Table SA34c
6. Contributions are funds provided by external organisations to assist with infrastructure development; e.g. developer contributions (detail to be provided in Table SA1)
7. Equity method (Includes Joint Ventures)
8. All materials not part of 'bulk' e.g. road making materials, pipe, cable etc.

References

1. Municipalities may choose to appropriate for capital expenditure for three years or for one year (if one year appropriation projected expenditure required for yr2 and yr3).
2. Include capital component of PPP unitary payment. Note that capital transfers are only appropriated to municipalities for the budget year
3. Capital expenditure by functional classification must reconcile to the appropriations by vote
4. Must reconcile to supporting table SA20 and to Budgeted Financial Performance (revenue and expenditure)
5. Must reconcile to Budgeted Financial Performance (revenue and expenditure)
6. Include finance leases and PPP capital funding component of unitary payment - total borrowing/repayments to reconcile to changes in Table SA17
7. Total Capital Funding must balance with Total Capital Expenditure
8. Include any capitalised interest (MFMA section 46) as part of relevant capital budget

References

1. Include services provided by another entity; e.g. Eskom
2. Stand distance <= 200m from dwelling
3. Stand distance > 200m from dwelling
4. Borehole, spring, rain-water tank etc.
5. Must agree to total number of households in municipal area (informal settlements receiving services must be included)
6. Include value of subsidy provided by municipality above provincial subsidy level
7. Show number of households receiving at least these levels of services completely free (informal settlements must be included)
8. Must reflect the cost to the municipality of providing the Free Basic Service
9. Reflect the cost to the municipality in terms of 'revenue foregone' of providing free services (note this will not equal 'Revenue Foregone' on SA1)

PART 2

A: OVERVIEW OF STELLENBOSCH MUNICIPALITY

Background

Stellenbosch Municipality is located in the heart of the Cape Winelands. It is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers approximately 900 km².

STATE OF THE GREATER STELLENBOSCH AREA
3.1 Socio-Economic Perspective**3.1.1 Population Growth**

Stellenbosch Municipality is located at the edge of the City of Cape Town still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town's central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa's top (air) links to the global economy, and not much further away from Cape Town harbour, the shipping portal to both the Atlantic and the Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it is able to sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality's area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as a number of rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniel, Johannesdal, Languedoc, Groot Drakenstein, Muldersvlei, Klapmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vloottenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes a number of informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect its heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and a number of prestigious schools. It has a strong business sector, varying from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars

abound and the area is the home of the very first Wine Route in South Africa. A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over many generations. The Municipal area has a number of theatres, which include the Stellenbosch University's HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorpstraat Theatre and Aan de Braak Theatre.

3.2 Wards

The Stellenbosch Municipality is currently structured into the following 22 Wards:

Table 12: Municipal ward population

WARD	AREAS	Population (2011)
1	Franschhoek Town, Bo-Hoek Farms, Mooiwater	12 389
2	Langrug, La Motte, Dennegeur, Groendal	7 519
3	Wemmershoek, Lanquedoc, Meerlust	8 952
4	Pniel, Kylemore, Johannesburg	8 230
5	The Ridge, Lindida, Ida's Valley (The Hydro in the direction of Ida's Valley and Omega Street to Jonkershoek)	5 656
6	Ida's Valley and farms (Nietvoorbij, Timberlea, Morgenhof, Remhoogte, Muratie, Groenhof, Delheim, Liefvland, Kanonkop, Uitkyk, Glenelly, Emerie, Laundry, Packham, L'Avenir)	5 856
7	Mostertsdraif, Kolonieshof, Karindal, Rozendal, Uniepark, Simonswyk, Universiteitsoord, De Weides	3 873
8	Stellenbosch Central and university areas	5 682

Below is a map of the Cape Winelands District in relation to the provincial district boundaries:

Figure 1: Locality of Cape Winelands District in relation to Provincial Boundaries

Source: Western Cape Provincial Spatial Development Framework

The Western Cape Province, which makes up 10.6% of the country's land surface and encompasses an area of 129 462 km². The province spatial area includes 1 metropolitan area

(City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed Garden Route, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

Below is a map of the municipalities in relation to the Cape Winelands District:

Figure 2: Locality map of Stellenbosch Municipality in relation to Cape Winelands District Boundaries

The Cape Winelands District Municipality is located within close proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second largest container port in the country and a comprehensive road and rail network. This gives the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg and Witzenberg.

Below is a map of the Stellenbosch Municipality's area of jurisdiction:

Figure 3: Locality map of Municipal Boundaries

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to City of Cape Town and Drakenstein Municipality. As a local authority Stellenbosch Municipality governs the towns of Stellenbosch, Franschhoek and Pniel, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, SM forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschhoek, and Klipmuts. There are also a number of smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniel, Johannesdal, Lanquedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vloottenburg. Stellenbosch is a sought after space, offering opportunity and quality of living, yet in close proximity to city life. This has placed the municipal area under constant development pressure.

3.3 State of the Greater Stellenbosch

Stellenbosch is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers roughly 900 km². According to population growth estimates, of the Community Survey the population figures for Stellenbosch for 2020 indicates a number of 192 879 people and 52 374 households.

The municipality's area of jurisdiction includes the town of Stellenbosch and stretches past Jamestown to Raithby in the South, Bottelary, Koelenhof, and Klapmuts to the North, and over the Helshoogte Pass to Pniel, Kylemore, Groendal and Franschhoek in the East.

Apart from formal settlement areas, the municipal area also includes a number of informal settlements. Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in that year. Today, the area has become primarily known for its extraordinary wines, fruit, world renowned cultural landscapes and exceptional scenic quality. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their rich heritage and traditions, but also the divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch, Boland College, sports and culinary institutions and a number of prestigious schools. It has a strong business sector, varying from major South African businesses and corporations, to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. The area's numerous wine farms and cellars are very popular and the area is the home of the very first wine route in South Africa.

A variety of sport facilities are available. Coetzenburg, with its athletics and rugby stadiums, has hosted star performances over many generations while the Danie Craven Stadium is the home of Maties rugby, the largest rugby club in the world. The municipal area has a number of theatres, which include the University's HB Thom Theatre, Spier Amphitheatre, Dorpsstraat Theatre, Aan de Braak Theatre, and Oude Libertas Amphitheatre – well-known for its summer season of music, theatre and dance. The area is known for its quality, award-winning restaurants and is a tourist haven with many boutiques, galleries, and curio shops. There are several museums and art galleries and the area is host to a number of annual cultural, food, wine and sports festivals. A wide array of accommodation is available for visitors to choose from.

Welfare and community organisations play a leading role in assisting to meet the needs of previously neglected communities.

The following municipalities share their borders with Stellenbosch Municipality:

- The City of Cape Town (South);
- Drakenstein Municipality, Cape Winelands District (North);
- Breede Valley Municipality, (North-east); and
- Theewaterskloof Municipality, (South-west).

Stellenbosch municipal area is now divided into 22 Wards, with recent amendments to some of the ward boundaries by the Municipal Demarcation Board in 2016.

The wards consist of urban settlements as well as the surrounding rural areas which contain agricultural and natural environments.

The table below describes the urban settlements and rural areas within the different wards and the figure on the next page indicates the ward demarcation for the respective 22 wards within the WCO24 boundary.

3.5 Socio-Economic Context

3.5.1 Population

The population of Stellenbosch is 192 879 people in 2020, ranking amongst the most populated municipal areas in the CWD. This total is expected to growth to 209 849 by 2024, equating to an average annual growth rate of 2.1 per cent.

Table 2: Age Cohorts and Dependency Ratio

Year	Children: 0 – 14 Years	Working Age: 15 – 65 Years	Aged: 65 +	Dependency Ratio
2020	43 095	139 312	10 472	38.5
2023	44 917	149 263	11 543	37.8
2026	46 390	154 594	12 758	38.3
Growth	+1.2%	+1.7%	+3.3%	-

Source: Western Cape, Socio-Economic Profile 2020

The above table depicts Stellenbosch's population composition by age cohorts. These groupings are also expressed as a dependency ratio which in turn indicates who are part of the workforce (ages 15-64) and those, who are depending on them (children and senior citizens). A higher dependency ratio implies greater pressure on social systems and the delivery of basic services.

Between 2020 and 2026, the largest population growth was recorded in the 65+ aged cohort which grew at an annual average rate of 3.3 per cent. This predicted growth rate increases the dependency ratio towards 2026.

3.5.2 Sex Ratio

The overall sex ratio (SR) depicts the number of males per 100 females in the population. The data indicates that there are less males than females in the Stellenbosch municipal area with a ratio of 49 per cent (males) to 51 per cent (females). The SR for Stellenbosch increases slightly year on year towards 2024 which could be attributed to a wide range of factors such as an increase female mortality rates as well as the potential inflow of working males to the municipal area.

3.5.3 Age Cohorts

Between 2020 and 2026, the largest population growth projection was recorded in the 65+ aged cohort which grew at an annual average rate of 3.3 per cent. The dependency ratio however, decreases towards 2023, and increases towards 2026.

3.5.4 Household sizes

Household size refers to the number of people per household. The actual size of households remains steady at 3.7 from 2020 to 2024. Contributing factors to a stagnation in household size growth could include, but are not limited to, lower fertility rates, occurrences of divorce, ageing population, etc.

3.5.5 Population density

Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision makers to mitigate environmental, individual health and service delivery risks. In 2020, the population density of the Cape Winelands District (CWD) was 44 persons per square kilometre.

In order of highest to lowest, the various local municipal areas in the CWD compare as follows:

- Stellenbosch 232 people/km²
- Drakenstein 189 people/km²
- Breede Valley 50 people/km²
- Langeberg 26 people/km²
- Witzenberg 14 people/km²

According to the above comparison Stellenbosch has the highest densities in the Cape Winelands District. This is strongly aided by the policy position to ensure urban development occurs within the parameters of the urban edge as outlined in the municipal Spatial Development Framework (mSDF).

3.6 Education

Education and training improves access to employment opportunities and helps to sustain and accelerate overall development. Quality Education is the 4th Sustainable Development Goal, whilst the National Development Plan (NDP) emphasises the link between education and employment as well as the significant contribution it makes to the development of the capabilities and wellbeing of the population.

Early childhood development (ECD) is one of the priority areas of the South African government and remains a critical policy issue that the Department of Education aims to address. Early years in life are critical for acquisition of perception motor skills required for reading, writing and numeracy in later years.

Early childhood development (ECD) is one of the priority areas of the South African government and remains a critical policy issue that the Department of Education aims to address. Early years in life are critical for acquisition of perception motor skills required for reading, writing and numeracy in later years.

Table 3: Early Childhood Development – attendance levels

Early Childhood Development (ECD)		
Ages	Stellenbosch Municipality	
1	Attending	26.4%
	Not Attending	73.6%
2	Attending	61.9%
	Not Attending	38.1%
3	Attending	72.9%
	Not Attending	27.1%
4	Attending	71.9%
	Not Attending	28.1%
5	Attending	50.6%
	Not Attending	49.4%

Source: Western Cape, Socio-Economic Profile 2018

Attendance of children between 1 and 2 years old at educational facilities fluctuates and is largely attributed to working parents in need of child care. Attendance between 3 and 5 years old shows a promising increase of attendance at early childhood facilities, with attendance of 73% for age group 3 and 72% for age group 4. The results for age group 5 is 51% and comparable to other local municipalities. A number of children within this age group still remain home with a parent or guardian.

3.6.1 Learner enrolment, the learner-teacher ratio and learner retention rate

Learner enrolment in Stellenbosch increased from 27 087 enrolments in 2018 to 27 491 in 2019, an increase of 1.5 per cent. The learner-teacher ratio also reflected an increase from 28.5 in 2018 to 28.9 in 2019. The learner retention rate improved from 72.5 per cent in 2018 to 75.5 per cent in 2019. This could be attributed to a number of factors including improvement in the socio-economic context.

Figure 4: Learner enrolment

Source: Western Cape, Socio-Economic Profile 2020

It is commonly assumed that children receive less personalised attention in larger class environments and that high learner-teacher ratios are detrimental to improved educational outcomes. Factors influencing the learner-teacher ratio is the ability of schools to employ more educators when needed and the ability to collect fees.

The learner retention rate refers to the number of students that start Grade 12 as a percentage of the number of students that enrolled in Grade 10 two year prior. The inverse of the learner-retention rate is commonly referred to as the drop-out rate. Learner-retention rates are influenced by multiple social, economic and psychological factors.

Figure 5: Learner-Teacher Ratio

Source: Western Cape, Socio-Economic Profile 2020

Stellenbosch has the lowest learner-teacher ratio in the District, which bodes well for educational outcomes.

The learner retention rate refers to the number of students that start Grade 12 as a percentage of the number of students that enrolled in Grade 10 two year prior. The inverse of the learner-retention rate is commonly referred to as the drop-out rate. Learner-retention rates are influenced by multiple social, economic and psychological factors.

Figure 6: Learner retention

Source: Western Cape, Socio-Economic Profile 2020

3.6.2 Number of schools and no-fee schools

In 2019, Stellenbosch had a total of 39 public ordinary schools, of which 25 are no-fee schools. In an effort to alleviate some of the funding challenges the Western Cape Department of Education (WCED) offered certain fee-paying schools to become no-fee schools. This means that almost two-thirds of the schools in Stellenbosch, 52 per cent, are registered with the Western Cape Department of Education as no-fee schools.

3.6.3 Schools with libraries and media centres

Schools with libraries and media centres has remained at 29 over the reference period, contributing to the overall quality of education in the area.

3.6.4 Schools with libraries

Schools with libraries and media centres has remained at 29 over the reference period, contributing to the overall quality of education in the area. There was no change in the number of schools with libraries in the Stellenbosch area from 2016 to 2020. The availability of library facilities within schools contribute towards narrowing the academic attainment gap by allowing students access to information which in turn directly links to improved education outcomes.

3.6.5 Education Outcomes (Matric Pass Rates)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagement in the labour market, policy choices and decisions in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans can be realised. Stellenbosch's matric outcomes has declined slightly from 85.2 per cent in 2018 to 85.0 per cent in 2019.

Figure 7: Education Outcomes

Source: Western Cape, Socio-Economic Profile 2020

3.7 Health

According to the 2019 Inequality Trend Report by Statistics South Africa, 75.1 per cent of households in South Africa usually use public healthcare facilities when a household member gets ill compared to 24.9 per cent who used private healthcare facilities in 2017. This is associated with the low proportion of households with access to Medical Aid, 16.9 per cent for South Africa and 25 per cent for the Western Cape. In terms of healthcare facilities, Stellenbosch had 14 primary healthcare clinics (PHC) in 2019, which comprises of 8 fixed and 6 mobile clinics. In addition, there is a district hospital.

Table 4: Health care facilities

Area	PHC facilities (Fixed clinics, CHCs and	Community Health Centres ¹	Community Day Centres ²	Hospitals	Treatment Sites
------	---	---	--	-----------	-----------------

¹ **Community Health Centre:** A facility that normally provides primary health care services, 24 hour maternity, accident and emergency services and beds where health care users can be observed for a maximum of 48 hours and which normally has a procedure room but not an operating theatre.

² **Community Day Centre:** A health facility that provides a comprehensive health care services during day hours, including mother and child health, chronic diseases care, women's health, HIV and TB care, men's health, acute services, physio therapy, mental health services and oral health care.

	CDCs)							
	Fixed	Non-fixed			District	Regional	ART Clinics	TB Clinics
Stellenbosch	7	6	0	1	1	0	8*	15*
Cape Winelands District	39	33	0	6	4	2	49*	100*

*Source: Western Cape, Socio-Economic Profile 2020

3.7.1 Emergency Medical Services

Provision of more operational ambulances can provide greater coverage of emergency medical services. Stellenbosch has 3 ambulances per 10 000 inhabitants in 2019 which is above the district average of 2 ambulances per 10 000 people. It is worth noting that this number only refers to Provincial ambulances and excludes all private service providers.

3.7.2 HIV / AIDS / TB

Stellenbosch's total registered patients receiving ARTs increased by 896 patients between 2018 and 2019. A total of 32 366 registered patients received antiretroviral treatment in the Cape Winelands District in 2019. Stellenbosch, at 6 960 patients, represent 21.5 per cent of the patients receiving ART in the Cape Winelands District. The number of new antiretroviral patients decreased from 637 to 538 in 2019. Stellenbosch experienced an increase of in tuberculosis (TB) cases in 2019. 1 176 TB patients were registered in 2019 compared to 1 175 in 2018.

HIV/AIDS management is crucial given its implications for the labour force and the demand for healthcare services.

Table 5: HIV/AIDS Management

Area	Registered patients receiving ART		Number of new ART patients	
	2018	2019	2018	2019
Stellenbosch	6 064	6 960	637	538
Cape Winelands District	30 724	32 366	3 851	3 434

Source: Western Cape, Socio-Economic Profile 2020

Figure 8: Tuberculosis

3.7.3 Child Health

Immunisation rates in the Stellenbosch area is at 55.1 per cent in 2019 having decreased slightly from 55.2 per cent in 2018. In 2019, the number of malnourished children under five years (per 100 000) was 2.6, a slight decline from 2018. Neonatal mortality rate (NMR) (per 1 000 live births decreased from 6.6 in 2018 to 5.2 in 2019. The low-birth-weight indicator was recorded at 8.2, a decrease from 9.2 recorded in 2018.

Figure 9: Child Health

Source: Western Cape, Socio-Economic Profile 2020

3.7.4 Maternal Health

The maternal mortality rate in the Stellenbosch area is zero and Cape Winelands District is 42.7 deaths per 100 000 live births in 2019. The delivery rate to women under 20 years in Stellenbosch and Cape Winelands District was recorded at 13.5 and 15.1 in 2019 per cent respectively. The termination of pregnancy rate increased from 0.5 to 0.6 from 2018 to 2019 in the Stellenbosch area.

Table 6: Maternal Health

Area	Maternal Mortality Rate		Delivery rate to women under 20 years		Termination of pregnancy rate	
	2018	2019	2018	2019	2018	2019
Stellenbosch	66,5	0,0	13,6	13,5	0,5	0,6
Cape Winelands District	95,5	42,7	14,2	15,1	0,7	0,8

3.8 Poverty

3.8.1 GDP Per Capita

An increase in real GDP per capita, i.e. GDP per person, is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDP per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDP per capita indicator.

At R62 000 in 2018, Stellenbosch's real GDP per capita is well above that of the Cape Winelands District's figure of R50 000 as well as that of the Western Cape.

Figure 10: GDP Per Capita

Source: Western Cape, Socio-Economic Profile 2020

3.8.2 Income Inequality

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. Income inequality has increased in Stellenbosch between 2012 (0.60) and 2018 (0.65) with the exception of 2012, when it dropped below 0.58.

Furthermore, income inequality levels were the highest in Stellenbosch for 2018 with a Gini coefficient of 0.60 when compared to neighbouring municipalities across Cape Winelands District and the Western Cape. These disparities in income are certain to worsen across the ensuing MTREF given the potential aftereffects of the Covid-19 pandemic.

Figure 11: Income Inequality

Source: Western Cape, Socio-Economic Profile 2020

3.8.3 Human Development

The United Nations uses the Human Development Index (HDI) to assess the relative level of socio-economic development in countries. Indicators that measure human development are education, housing, access to basic services and health. The HDI is a composite indicator reflecting education levels, health, and income. It is a measure of peoples' ability to live a long and healthy life, to communicate, participate in the community and to have sufficient means to be able to afford a decent living. The HDI is represented by a number between 0 and 1, where 1 indicates a high level of human development and 0 represents no human development.

There has been a general increase in the HDI in Stellenbosch from 0.72 in 2012 to 0.76 in 2018. The trend for the Cape Winelands District and the Western Cape in general has been similar between 2012 and 2018. Naturally, per capita income as per definition is expected to mimic the trend of HDI and this is clearly displayed in the graph above. In short, what this graph illustrates is that for the most part an increase in GDP per capita across a particular region is generally accompanied by an improvement in HDI levels with a short lag.

Figure 12: Human Development

Source: Western Cape, Socio-Economic Profile 2020

3.9 Basic Service Delivery

The Constitution stipulates that every citizen has the right to access to adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living.

This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2019. The latest official statistics was collected by Statistics South Africa for the 2016 Community Survey; the 2021 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities survey findings.

3.9.1 Housing and Household Services

With a total of 49 332 households in the Stellenbosch municipal area, only 73.4 per cent had access to formal housing, the lowest access level when compared to the other municipalities in the Cape Winelands District area; the District average was 81.2 per cent. The area also had highest proportion of informal households in the District, a total of 24.5 per cent compared with the District average of 17.0 per cent. Subsequently, service access levels were high in the area, with access to piped water inside / within 200m of the dwelling at 94.5 per cent, access to a flush or chemical toilet at 91.2 per cent, access to electricity (for lighting) at 92.4 per cent and the removal of refuse at least weekly by local authority at 86.7 per cent of households.

3.9.2 Free Basic Services

Municipalities also provide a package of free basic services to households who are financially vulnerable and struggle to pay for services. The number of households receiving free basic services in the Stellenbosch municipal area has shown a generally increasing trend up to 2018. The stressed economic conditions are anticipated to exert pressure on household income levels, which is in turn likely to see the number of indigent households and the demand for free basic services increase.

Figure 13: Total number of households

3.10 Safety and Security

3.10.1 Murder

Murder is defined as the unlawful and intentional killing of another person. Within the Stellenbosch area, the actual number of murders increased from 69 in 2019 to 76 in 2020. The murder rate (per 100 000 people) also increased from 37 in 2019 to 39 in 2020. The murder rate for the CWD increased from 39 in 2019 to 42 in 2020 (per 100 000 people).

3.10.2 Sexual Offences

Sexual offences include rape (updated to the new definition of rape to provide for the inclusion of male rape), sex work, pornography, public indecency and human trafficking. In 2020, there were 231 reported sexual offences in the Stellenbosch area compared to 204 in 2019. In 2020, there were 966 reported cases in the Cape Winelands District in total compared to 880 in 2019.

3.10.3 Drug-related Offences

Drug-related crimes refer to the situation where the perpetrator is found to be in possession of, under the influence of, or selling illegal drugs. Drug-related incidences within the Stellenbosch area decreased from 2 563 cases in 2019 to 2 166 cases in 2020. The CWD's drug-related offences decreased sharply from 11 225 in 2019 to 7 895 in 2020. When considering the rate per 100 000 people, at 1 172 crimes per 100 000 people in 2020, the Stellenbosch area rate is above that of the District (837).

3.10.4 Driving under the influence (DUI)

A situation where the driver of a vehicle is found to be over the legal blood alcohol limit. The number of cases of driving under the influence of alcohol or drugs in the Stellenbosch area shows a decrease from 309 in 2019 to 237 in 2020. This translates into a rate of 123 per 100 000 people in 2020, which is above the District's 100 per 100 000 people in 2020.

Table 10: Driving under the influence (per 100 000)

3.10.5 Road user fatalities

The type of road user that died in or during a crash i.e. driver, cyclist, passengers, pedestrians. The number of road user fatalities in the Stellenbosch municipal area decreased from 37 in 2018/19 to 35 in 2019/20. The number of fatal crashes remained constant at 34 across the same reference period.

3.10.6 Residential Burglaries

The unlawful entry of a residential structure with the intent to commit a crime, usually a theft.

The 2019/20 crime statistics released by SAPS and Stats SA indicate that the number of residential burglaries fell by 6.7 per cent in South Africa. Within the Western Cape Province, burglaries at residential areas decreased by 8.5 per cent between 2019 and 2020. Residential burglary cases within the Stellenbosch area also decreased from 1 363 in 2019 to 1 242 in 2020. When considering the rate per 100 000 populations, with 644 cases per 100 000 in 2020, Stellenbosch's rate is above the district rate of 587 per 100 000 in the same reporting year.

3.11 Economy and Labour Market Performance

3.11.1 Sectoral Overview

In 2018, the economy of Stellenbosch was valued at R16.2 billion (current prices) and employed 78 701 people. Historical trends between 2014 and 2018 indicate that the municipal area realised an average annual growth rate of 1.4 per cent which can mostly be attributed to the tertiary sector that registered a positive annual growth rate of 2.1 per cent.

In terms of sectoral contribution, the wholesale and retail trade, catering and accommodation (R3.3 billion), finance, insurance, real estate and business services (R3.5 billion), and manufacturing (R2.7 billion) sectors were the main drivers that contributed to the positive growth in the local economy. These sectors are also estimated to have performed well in 2019, particularly the finance, insurance and real estate services and the wholesale and retail trade, catering and accommodation sectors, which are both estimated to have grown by 2.4 per cent. Employment creation in the wholesale and retail trade, catering and accommodation sector mirrored the high growth rate, with 400 new jobs created. In 2019, the transport, storage and communication sector was also an important source of job creation (169 jobs).

Despite its important role in the local economy, particularly as one of the main sources of employment, the agriculture, forestry and fishing sector experienced below-average performance between 2014 and 2018 and is estimated to have contracted by 8.9 per cent in 2019. This contraction led to the loss of 113 jobs. The agriculture, forestry and fishing sector is still recovering from the provincial drought.

3.11.2 Formal and Informal Employment

It is estimated that Stellenbosch's total labour force in 2019 amounted to 78 701 workers of which 56 601 (71.9 per cent) are in the formal sector while 22 100 (28.1 per cent) are informally employed.

Most of the labour force consisted of semi-skilled (43.8 per cent) and low-skilled (32.3 per cent) workers. The skilled category contributed 23.9 per cent to total formal employment and grew on average by 2.5 per cent, while the semi-skilled and low-skilled categories grew at 2.8 and 0.4 per cent respectively. Evidently, the demand for skilled labour is on the rise which implies the need to capacitate and empower low-skilled and semi-skilled workers.

3.11.3 Unemployment

Stellenbosch (11.3 per cent) has the second highest unemployment rate in the Cape Winelands District. It is also higher than the District average (11.3 per cent) but considerably lower than the Western Cape rate of 19.4 per cent. Stellenbosch's high unemployment rate is based on the narrow definition of unemployment i.e. the percentage of people that are able to work, but unable to find employment. The broad definition generally refers to people that are able to work, but not actively seeking employment.

Table 13: Economic Sector Overview

SECTOR	GDPR			Employment		
	R Million value 2018	Trend 2014 - 2018	Real GDPR growth 2019e	Number of jobs 2018	Average annual change 2014 - 2018	Net change 2019e

3.12 Public Infrastructure Spending

3.12.1 Spending on Social Infrastructure

Spending on social infrastructure aids in social development and has the spill-over effect of enabling economic growth. The Western Cape Government (WCG) will spend 22.5 per cent (R49.174 million) of its infrastructure budget on social infrastructure.

As displayed in the pie chart the WCG will be allocating 7.1 per cent of the budget (R15.430 million) towards education in the municipal area. Spending on education is crucial as it can serve to improve education outcomes and skills levels within a community, and more importantly alleviate poverty through increased long-term income for individuals.

A healthy and resilient community increases productivity and reduces pressures on government resources. As such the Department of Health has allocated 0.8 per cent (R1.668 million) of infrastructure spending on health. A further R32.076 million (14.7 per cent) has been allocated by the WCG towards Human Settlements, serving to reduce housing backlogs. This was complemented by R10.361 million in spending on housing infrastructure by the municipality.

Community safety has been prioritised by the WCG due to high levels of crime in the Western Cape. Crime has a negative impact on the quality of lives of individuals, but also on the economy by deterring private investment and causing business losses. It further creates a burden on government resources in terms of justice system costs, victim assistance and replacement of assets. The municipality has as such allocated R6.7 million of its capital budget on community and public safety. The municipality has also made R14.330 million available for sports and recreation and R3.190 million for social development which will serve to improve the quality of life of individuals within the municipal area.

3.12.2 Spending on Economic Infrastructure

Economic infrastructure is defined as infrastructure that promotes economic activity. Considering the sluggish economic growth throughout the country, spending on economic infrastructure is crucial to stimulating economic activity.

The WCG allocated R169.256 million (77.5 per cent) towards economic infrastructure, more specifically towards transport (R147 million) and public works (R22.256 million). Transport and public works infrastructure goes a long way towards unlocking the region's economic potential, especially due to it being a tourist destination and its proximity to the City of Cape Town economic hub. The municipality contributes a further R54.0 million towards road transport. As part of their economic infrastructure allocation, the municipality will also contribute R52.5 million towards planning and development and R1.8 million towards environmental protection.

3.12.3 Spending on Trading Services

Basic services are crucial to improving the living conditions of citizens within the municipal area and enabling economic activity for businesses via access to water, electricity, sanitation and refuse removal. The majority of the municipality's infrastructure budget is allocated towards the provision of basic services. The majority of spending on trading services have been allocated towards waste water management (R109.7 million). This was followed by water management (R53.4 million), electricity (R39.3 million) and waste management (R7.7 million).

B: LEGISLATIVE ENVIRONMENT

Legal Requirements

The medium term revenue and expenditure framework for 2020/2021, 2021/2022 and 2022/2023 was compiled in accordance with the requirements the relevant legislation, of which the following are the most important:

- i) the Constitution, Act 108 of 1996
- ii) the Local Government Transition Act, Act 209 of 1993
- iii) the Municipal Structures Act, Act 117 of 1998
- iv) the Municipal Systems Act, Act 32 of 2000
- iv) the Municipal Finance Management Act, Act 56 of 2003

In addition to the above, the Municipal Budget and Reporting Framework as approved on 17 April 2009 gave a clear directive on the prescribed reporting framework and structure to be used

Guidelines issued by National Treasury

National Treasury issued the following circulars regarding the budget for 2015/2016:

MFMA Circular No. 74 Municipal Budget Circular for the 2015/16 MTREF- 12 December 2014

MFMA Circular No. 75 Municipal Budget Circular for the 2015/16 MTREF- 04 March 2015

Other circulars used during the compilation of the budget:

- MFMA Circular No. 48 Municipal Budget Circular for the 2009/10 MTREF – 2 March 2009
- MFMA Circular No. 51 Municipal Budget Circular for the 2010/11 MTREF – 19 February 2010
- MFMA Circular No. 54 Municipal Budget Circular for the 2011/12 MTREF – 10 December 2010
- MFMA Circular No. 55 Municipal Budget Circular for the 2011/12 MTREF – 8 March 2011
- MFMA Circular No. 58 Municipal Budget Circular for the 2012/13 MTREF – 14 December 2011
- MFMA Circular No. 59 Municipal Budget Circular for the 2012/13 MTREF – 16 March 2012
- MFMA Circular No. 64 Municipal Budget Circular for the 2012/13 MTREF – November 2012
- MFMA Circular No. 66 Municipal Budget Circular for the 2013/2014 MTREF – 24 January 2013
- MFMA Circular No. 67 Municipal Budget Circular for the 2012/13 MTREF – 12 March 2013
- MFMA Circular No. 70 Municipal Budget Circular for the 2014/15 MTREF- 4 December 2013
- MFMA Circular No. 78 Municipal Budget Circular for 2016/2017 MTREF - 7 December 2015
- MFMA Circular No.79 Municipal Budget Circular for 2016/2017 MTREF - 7 March 2016
- MFMA Circular No.82 Cost Containment Measures for 2016/2017 MTREF - 30 March 2016
- MFMA Circular No.85 Municipal Budget Circular for 2017/2018 MTREF – 9 December 2016
- MFMA Circular No. 86 Municipal Budget Circular for 2017/2018 MTREF – 8 March 2017
- MFMA Circular No. 89 Municipal Budget Circular for 2018/2019 MTREF – 8 December 2017
- MFMA Circular No. 91 Municipal Budget Circular for 2018/2019 MTREF – 7 March 2018

-
- Local Government: Municipal Finance Management Act, 2003-Municipal Cost Containment Regulation (Draft)- 16 February 2018/ Cost Containment regulations issued June 2019
 - MFMA Circular No. 93 Municipal Budget Circular for 2019/2020 MTREF – 7 December 2018
 - MFMA Circular No. 94 Municipal Budget Circular for 2019/2020 MTREF – 7 March 2019
 - Local Government: Municipal Finance Management Act, 2003-Municipal Cost Containment Regulations issued June 2019
 - MFMA Circular No. 98 Municipal Budget Circular for 2020/2021 MTREF – 6 December 2019
 - MFMA Circular No. 99 Municipal Budget Circular for 2020/2021 MTREF – 9 March 2020
 - MFMA Circular No.107 Municipal Budget Circular for 2021/2022 MTREF – 4 December 2020
 - MFMA Circular No.108 Municipal Budget Circular for 2021/2022 MTREF – 8 March 2021

The following are discussion points that are highlighted in the above:

- National outcomes/priorities
- Economy and Headline inflation forecasts
- Division of Revenue outlook
- Local Government Conditional Grants & additional allocations and Changes to structure of conditional grant allocations
- Unfunded budgets in Local Government
- Municipal Standard Chart of Accounts (mSCOA)
- Development of Integrated Development Plan (IDP)
- Revising rates, tariffs and other charges
- Eskom Bulk Tariff Increases
- Funding choices and budgeting issues
- Conditional transfers to municipalities
- Unconditional transfers to municipalities
- Borrowing for capital infrastructure
- Revenue Budget
- Cost Containment Measures
- Municipal Budget and Reporting Regulations
- Preparation of Municipal Budgets for 2021/2022 MTREF
- Budget process and submissions for the 2021/22 MTREF
- 2021 Local Government Elections (transitional processes and hand-over reports for the newly elected councils);

The guidelines provided in the above mentioned circulars, annexures and other economic factors were taken into consideration and informed budget preparation and compilation.

C: OVERVIEW OF ANNUAL BUDGET PROCESS

In terms of Section 24 of the MFMA, Council must, at least 30 days before the start of the financial year, consider the annual budget for approval. Section 53 requires the Mayor of a municipality to provide general political guidance over the budget process and the priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations, gazetted on 17 April 2009, states that the Mayor of a municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging with the responsibilities set out in section 53 of the Act.

A time schedule outlining important dates and deadlines as prescribed for the IDP/Budget process was approved on **24 August 2020**. The budget process for the 2021/2022 MTREF period proceeded/will proceed according to the following timeline

Activity	Time frame
Formulation of budget assumptions	September 2020
Detailed programmes and projects to further define budget	November 2020 – March 2021
IDP and Budget considered by Council	31 March 2021
IDP and Budget - public participation	April 2021
Final approval of IDP and the Budget	26 May 2021

D: OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH THE INTEGRATED DEVELOPMENT PLAN (IDP)

The intent of the Strategic goals for the Fourth Generation IDP will remain the same as the goals of the Third Generation IDP, although a slight change for 3 of the goals namely: “Preferred Investment Destination” has been amended to “Valley of Possibility” to have a clearer indication that it needs to include possibilities for all and not just investors; “Greenest Municipality” has been amended to “A Green and Sustainable Valley” to incorporate all facets of sustainability; “ Safest Valley” has been amended to “A Safe Valley”, whilst “Dignified Living” and “Good Governance and Compliance”, remain unchanged.

Horizontal Alignment Matrix

Table 17: Horizontal Alignment Matrix

Strategic Focus Areas	National Strategic Outcomes	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
Valley of Possibility	Ensuring decent employment through inclusive economic growth (4) Ensuring decent employment through inclusive economic growth (4)	Creating jobs (1)	Create opportunities for growth and jobs (1)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
Green and Sustainable Valley	Ensuring that the environmental assets and natural resources are well protected and continually enhanced (10)	Transitioning to a low carbon economy (3) Transforming urban and rural spaces (4)	Enable resilient, sustainable, quality and inclusive living environment (4)	To create an environment and forge partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment.

Strategic Focus Areas	National Strategic Outcomes	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
	<p>Ensuring vibrant, equitable and sustainable rural communities with food security for all (7)</p> <p>Promoting sustainable human settlements and improved quality of household life (8)</p>	<p>Transitioning to a low carbon economy (3)</p> <p>Transforming urban and rural spaces (4)</p>	<p>Increase wellness, safety and tackle social ills (3)</p> <p>Enable resilient, sustainable, quality and inclusive living environment (4)</p>	<p>Environmental and social infrastructure investment.</p>
Safe Valley	<p>Ensuring all people in South Africa are and feel safe (3)</p>		<p>Increase wellness, safety and tackle social ills (3).</p>	<p>To create an environment and forging partnerships that ensures the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District.</p>
Dignified Living	<p>Providing improved quality of basic education (1)</p> <p>Enabling a long, healthy life for all South Africans (2)</p>	<p>Providing quality health care (6)</p>	<p>Improve education outcomes and opportunities for growth and jobs (2)</p> <p>Increase wellness, safety and tackle social ills (3)</p>	<p>To create an environment and forging partnerships that ensures the health, safety, social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.</p>

Strategic Focus Areas	National Strategic Outcomes	National Planning Commission	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
	Setting up an efficient, competitive and responsive economic infrastructure network (6)	Expanding infrastructure (2)	Create opportunities for growth and jobs (1) Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
Good Governance and Compliance	Achieving an accountable, effective and efficient local government system (9) Creating a better South Africa and a better and safer Africa and world (11) Building an efficient, effective and development oriented public service and an empowered fair and inclusive citizenship (12)	Improving education and training (5) Building a capable state (7) Fighting corruption (8)	Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	Promoting sustainable infrastructure services and transport system which fosters social and economic opportunities.
	Achieving a responsive, accountable, effective and efficient local government system (9)	Building a capable state (7)	Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	To provide an effective and efficient financial and strategic support service to the Cape Winelands District Municipality.

Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities.

Performance management at Stellenbosch municipality is evaluated to embody the following;

Consistency: Objectives, performance indicators and targets are consistent between planning and reporting documents.

Measurability: Performance indicators are well defined and verifiable, and targets are specific, measurable and time bound.

Relevance: Performance indicators relate logically and directly to an aspect of the municipality's mandate and the realisation of its strategic goals and objectives.

Reliability: Recording, measuring, collating, preparing and presenting information on actual performance / target achievements is valid, accurate and complete.

Stellenbosch municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employees' performance. The performance of the municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations.

The Five Year Top Level Service Delivery and Budget Implementation is part of the Integrated Development Plan and the financial performance objectives are captured in supporting table SA7.

E: OVERVIEW OF MUNICIPAL BY-LAWS BUDGET RELATED POLICIES**The following policies are new:****Wayleave Policy**

In terms of S151 of the Constitution of the Republic of South Africa, 108 of 1996, a municipality has the right to govern on its own initiative, the local government affairs of its community, subject to national and provincial legislation. S156 of the Constitution grants the municipalities the right to administer the local government matters listed in Schedule 5B, which include municipal roads. A municipality may make by-laws for the effective administration of municipal roads. This Policy will be converted into municipal by-laws to give it legal effect. Refer to Appendix 5.

The following existing policies were reviewed and amended**Rates Policy**

The revised Rates Policy as required by the Municipal Property Rates Act (Act no 6 of 2004) is attached as Appendix 6.

Indigent Policy

Due to the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for basic municipal services. The provision of free basic services ensures that registered indigent consumers have access to basic services. This policy provides the framework for the administration of free basic services to indigent consumers. Refer to Appendix 7.

Special Ratings Area By-Law

A “special rating area” refers to a special rating area approved by the Council in accordance with the provisions of section 22 of the Property Rates Act. This By-law aims to provide for the establishment of special ratings areas, to provide for additional rates and to provide for matter incidental thereto. Refer to Appendix 8.

Rates By-Law

In terms of Section 3 of the Property Rates Act, a municipal council must adopt a policy consistent with the property rates act on levying of rates on rateable properties in the municipality. Refer to Appendix 9.

Credit Control and Debt Collection Policy

This policy provides a framework to enable Council to proactively manage and collect all money due for services rendered and outstanding property taxes, subject to the provisions of the Municipal

Systems Act of 2000 and any other applicable legislation and internal policies of Council. Refer to Appendix 10.

Irrecoverable Debt Policy

This policy enables Council and the CFO to write off irrecoverable debt of indigent consumers, debt which cannot be recovered due to consumers not being registered as indigent or not traceable or due to prescription of debt. Refer to Appendix 11.

Petty Cash Policy

All purchases below R 2 000 are regulated by this policy. Clear processes and procedures are stipulated to ensure that all transactions are processed effective and efficiently in a bid to ensure prudent financial control. Refer to Appendix 12.

Travel and Subsistence Policy

This policy sets out the basis for the payment of subsistence, travel allowance, hourly rate when applicable for the purpose of official travelling. Refer to Appendix 13.

Cost Containment Policy

The purpose of the policy is to regulate spending and to implement cost containment measures at Stellenbosch Local Municipality. The objectives of this policy are to ensure that the resources of the municipality are used effectively, efficiently and economically and to implement cost containment measures. The cost containment policy will apply to council and all municipal employees. Refer to Appendix 14.

Cash Management and Investment Policy

To regulate and provide directives in respect of the investment of funds and to maximize returns from authorized investments, consistent with the primary objective of minimizing risk. Refer to Appendix 15.

Ward Allocation Policy

The objective of the Ward Allocations Policy is to create opportunities for Councillors to identify ward projects in line with the identified IDP needs, with the support of their Ward Committees, which would improve the quality of living in all wards. These projects would need to fit into the basket of services of the relevant User Department and must comply with the following, namely, Local Government's mandate; council policies; support the pillars and objectives of the IDP and directly benefit the

community. The Policy shall be governed by the underlying principle of ensuring that ward allocation projects meet the requirements of the Integrated Development Plan, including specific reference to, valley of opportunity, green and sustainable valley, safe valley, valley with dignified living and valley of good governance and compliance. Refer to Appendix 16.

Supply Chain Management Policy

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Preferential Procurement Policy Framework Act, no 5 of 2000 and its accompanying regulations influences and dictates process around the evaluation and awarding of points. In this regard, the Minister of Finance acting in terms of section 5 of the Procurement Policy Framework Act, revised the Regulations accompanying this Act on the 20th January 2017 for implementation by all affected public entities by the 1 April 2017. The Supply Chain Management Policy was therefore amended and adopted at Council during February 2017. Refer to Appendix 17.

Development Charges Policy

The Municipality derives its authority to impose a development charge in terms of Section 75A. General power to levy and recover fees, charges and tariffs of the Local Government: Municipal Systems Act, 2000, Act 32 of 2000. The Municipality approved its new Land Use Planning Bylaw in terms of the Spatial Planning and Land Use Planning Act, 2013 (Act 16 of 2013) in October 2015 and it was officially promulgated and became effective in December 2015. Since then, the Municipality faces significant changes in the planning environment, amongst others the need for and manner of generating development charges.

The intent is aligned with the following:

- Striving to make Stellenbosch the preferred town for investment and business, where investment inflows and new enterprise translate into jobs and prosperity.
- Establishing the greenest municipality which will not only make Stellenbosch attractive for visitors and tourists, but will also provide a desirable environment for new industries.
- Ensuring a dignified living for all Stellenbosch citizens, who feel that they own their town, take pride in it and have a sense of self-worth and belonging.
- Creating a safer Stellenbosch valley, where civic pride and responsibility supplant

crime and destructive behaviour.

Development has an impact on the demand for social infrastructure as much as it does services infrastructure. The infrastructure is essential to support sustainable social and economic development and to ensure the health and well-being of the residents and property owners of the Municipality. Without this infrastructure, investment in Stellenbosch will be hampered and, as the cost to the Municipality in providing social infrastructure is high, funding to cover the cost must be obtained from development charges. Such contributions are a targeted and an equitable way of ensuring that the new beneficiaries make an appropriate and fair contribution to the cost through the developer. Refer to Appendix 18.

Grant-in-aid Policy

This policy provides the framework for grants-in-aid to non-governmental organisations (NGO's), community-based organisations (CBO's) or non-profit organisations (NPO's) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003). Refer Appendix 19.

Accounting Policy

This policy provides the accounting framework applicable to the finances of the municipality and is informed by the Municipal Finance Management Act (Act no 56 of 2003). Refer to Appendix 20.

Asset Management Policy

The Municipal Finance Management Act Number 56 of 2003 will be the legislative framework for the Asset Management Policy whilst Generally Recognised Accounting Practice (GRAP) will be the accounting framework.

The Municipal Council of Stellenbosch is in terms of the MFMA and GRAP obliged to adopt an Asset Management Policy to regulate the effective management of all council's assets.

- **And whereas** the municipal manager as accounting officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.

-
- **And whereas** these assets must be protected over their useful life and may be used in the production or supply of goods and services or for administrative purposes in meeting the municipality's operational requirements.
 - **Now therefore** the municipal council of the Stellenbosch Municipality adopts this asset management policy. Refer to Appendix 21.

The following existing budget related policies were reviewed but no amendments were necessary:

Special Ratings Area Policy

The aim of the policy is to provide the framework to strike an appropriate balance between facilitating self-funded community initiatives that aim to improve and/or upgrade neighbourhoods. Refer to Appendix 22.

Tariff Policy

This policy serves as the implementing tool which guides the levying of tariffs for municipal services in accordance with the provisions of the Municipal Systems Act and any other applicable legislation. Tariffs represent the charges levied by Council on consumers for the utilization of services provided by the Municipality and rates on properties. Tariffs will be calculated in various ways, dependent upon the nature of the service being provided. Refer to Appendix 23.

Tariff By-Law

In terms of section 75(1) of the Systems Act, a municipal council must adopt by-laws to give effect to the implementation and enforcement of its tariff policy. In terms of section 75(2) of the Systems Act, by-laws adopted in terms of section 75(1) of the Systems Act may differentiate between different categories of users, debtors, service providers, services, service standards and geographical areas as long as such differentiation does not amount to unfair discrimination. Refer to Appendix 24.

Virementation Policy

The policy sets out the Virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year. The policy shall give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the Approved budget and it will be applicable to all municipal staff and councillors involved in budget implementation. Refer to Appendix 25.

Budget Implementation and Monitoring Policy

The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. The framework for virementations is also explained and regulated in this policy as well as monitoring roles and responsibilities. Refer to Appendix 26.

Borrowing, Funds and Reserves

This policy strives to establish a borrowing framework policy for the Municipality and set out the objectives, policies, statutory requirements and guidelines for the borrowing of funds. The policy provides a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year non cash backed liabilities. The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework. Refer to Appendix 27.

Financing of External Bodies performing municipal functions Policy

The purpose of this Policy is to provide a framework for financial assistance by Stellenbosch Municipality (“the Municipality”) to external organisations/bodies conducting local government functions to the extent as set out in section 155(6)(a) and (7) of the Constitution as listed in Part B of Schedule 4 and 5. Refer to Appendix 28.

Liquidity Policy

The documented Liquidity Policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to in order to ensure that its current and future liquidity position is managed in a prudent manner. This policy will be implemented to provide guidance on the minimum liquidity level that Stellenbosch Municipality has to maintain in order to comply with required legislative and / or National Treasury directives and within the overall financial management objectives as approved/reviewed by the Council from time to time. Refer to Appendix 29.

Inventory Management Policy

In terms of the MFMA, the Accounting Officer for a municipality must:

- (a) be responsible for the effective, efficient, economical and transparent use of the resources of the municipality as per section 62 (1)(a);

-
- (b) take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure and other losses as per section 62(1)(d); and
 - (c) be responsible for the management, including the safeguarding and the maintenance of the assets, and for the management of the liabilities, of the municipality as per section 63 (1)(a) and (b).

The policy aims to achieve the following objectives which are to provide guidelines that employees of the Municipality must follow in the management and control of inventory, including safeguarding and disposal of inventory, procure inventory in line with the established procurement principles contained in the Municipality's Supply Chain Management Policy and eliminate any potential misuse of inventory and possible theft. Refer to Appendix 30.

Preferential Procurement Policy

Section 217(1) of the Constitution, 1996 (Act 108 of 1996) provides that when contracting for goods and services, organs of state must do so in accordance with a system that is fair, equitable, transparent, competitive and cost effective. Section 217(2) and (3) of the Constitution allows organs of state to grant preferences when procuring for goods and services within a Framework prescribed by National legislation. The preferential procurement policy is founded on the following principles, namely, value for money, open and effective competition, ethics and fair dealing, accountability and reporting and equity. This policy will be applicable to all active industry sectors within the Stellenbosch Municipal area and must be read with the supply chain management policy of the municipality. Refer to Appendix 31.

F: OVERVIEW OF KEY BUDGET ASSUMPTIONS

Municipalities' long-term financial viability depends largely on the extent to which improved and sustainable revenue capacity on the one hand and sound financial management of its resources on the other hand can be achieved. These imperatives necessitate proper multi-year financial planning. Future impacts of revenue streams, expenditure requirements and the financial implications for the community at large (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programs, projects and sundry service delivery actions.

Taking these principals into consideration, the following assumptions (**ceteris paribus**) were made and relates to the parameters within which the budget was compiled for the next three years

	2021/2022	2022/2023	2023/2024
Percentage Increase:			
Water	5.50%	5.50%	5.50%
Electricity	14.59%	7.00%	7.00%
Sanitation	6.00%	6.00%	6.00%
Refuse	12.00%	12.00%	12.00%
Property Rates	-17.17%	6.00%	6.00%
Collection Rates			
Water	96%	96%	96%
Electricity (Post Paid Meters)	96%	96%	96%
Sanitation	96%	96%	96%
Refuse	96%	96%	96%
Rates	96%	96%	96%
Employee Related Costs			
Salaries and Wages and related costs	4.1%	3.5%	3.5%
Notch Increment	2.40%	2.40%	2.40%
Other Assumptions			
Bulk Purchases - Electricity	17.80%	7.00%	7.00%
Bulk Purchases - Water	8.00%	8.00%	8.00%

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions and higher than headline CPI revenue increases to ensure a sustainable budget over the medium term.

The budget theme of *“Driving Efficiencies; i.e. reprioritization of existing resources / current allocations”*, resulted from the realization that no, or limited, scope for additional externally- or internally-funded revenue growth existed and the challenge that more needed to be done with the existing resource envelope. This was reiterated in **National Treasury Budget Circular 108** where it states that “...municipalities must adopt a conservative approach when projecting their expected revenues and cash receipts. **Municipalities should also pay particular attention to managing all revenue and cash streams effectively and carefully evaluate all spending decisions.**”

In previous financial year the municipality implemented means to manage the telephone usage which resulted in a reduction in the telephone cost

During the new financial year, the municipality plans to implement measures that will decrease spending on Legal Cost by focusing more on in-house capacity building rather than making use of contracted/ outsourced consulting and legal services.

The municipality will embark on the recruitment drive to fill critical vacancies. This will in return result in a decrease in Professional and Consultant Fees.

These are some of the initiatives the municipality plans to implement under the budget theme *“Driving Efficiencies; i.e. reprioritization of existing resources / current allocations”*.

G: HIGH LEVEL BUDGET OVERVIEW**Capital Budget for 2021/2022, 2022/2023 and 2023/2024**

Although the capital budget is infrastructure orientated and addresses the very urgent need for the upgrading of infrastructure as addressed by the different infrastructure master plans, it does however speak to the IDP (Integrated Development Plan) and the needs of the community. It's also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the “back to basics” approach. The responsiveness of the budget can be measured against what was identified as priorities by the community and the actual amount allocated, bearing in mind that resources are limited, to address or at least alleviate the most critical needs identified.

In this regard it is important to note that the need for infrastructure upgrades, inclusive of electricity infrastructure were key to ensure the delivery of sustainable services.

The capital budgets as proposed, amounts to:

<u>2021/2022</u>	<u>2022/2023</u>	<u>2023/2024</u>
R	R	R
397,763,924	384,460,268	381,494,643

Compilation of the Capital Budget

The capital budgets depicted per Directorate are as follows:

	<u>2021/2022</u>		<u>2022/2023</u>		<u>2023/2024</u>	
	R	%	R	%	R	%
Municipal Manager	44,000	0.01%	49,000	0.01%	56,000	0.01%
Planning and Economic Development	11,513,800	2.89%	4,540,000	1.18%	13,400,000	3.51%
Community and Protection Services	23,274,370	5.85%	22,510,000	5.85%	22,055,000	5.78%
Corporate Services	26,557,000	6.68%	17,800,000	4.63%	15,550,000	4.08%
Infrastructure Services	336,174,754	84.52%	339,361,268	88.27%	330,223,643	86.56%
Financial Services	200,000	0.05%	200,000	0.05%	210,000	0.06%
	397,763,924	100.00%	384,460,268	100.0%	381,494,643	100.0%

Investment in infrastructure for the next three years' equals:

Financing of the Capital Budget

The proposed financing sources of the capital budget for the next three years are as follows:

	2021/2022		2022/2023		2023/2024	
	R		R		R	
<u>Own Funding</u>						
Capital Replacement Reserve	148,210,204	37.26%	147,572,908	38.38%	155,649,763	40.80%
<u>External Funding</u>						
Grants National Government	70,385,720	17.70%	43,267,360	11.25%	44,744,880	11.73%
Grants Provincial Government	35,168,000	8.84%	53,620,000	13.95%	21,100,000	5.53%
External Loans	144,000,000	36.20%	140,000,000	36.41%	160,000,000	41.94%
	397,763,924	100.00%	384,460,268	100.00%	381,494,643	100.00%

As alluded to in the before-mentioned text and in the Council item; substantial investment in infrastructure is crucial in order to maintain sustainable levels of service delivery. For the detailed capital projects please refer to **Appendix 1 – Part 2 – Section N**.

Operating Budget for 2021/2022, 2022/2023 and 2023/2024
Expenditure

The operating expenditure budget per Vote (Directorate) is as follows:

	<u>2021/2022</u>	<u>2022/2023</u>	<u>2023/2024</u>
	R	R	R
Municipal Manager	39,988,673	41,439,540	42,823,424
Planning and Development	100,874,836	101,205,158	104,439,929
Community and Protection Services	373,981,006	388,417,554	405,261,758

Other Income	545,875,364	531,590,877	516,862,803
Total Income	2,125,604,578	2,218,420,784	2,309,934,076

H: OVERVIEW OF THE BUDGET FUNDING

Financing of the Capital Budget

The proposed financing sources of the capital budget for the next three years are as follows:

	<u>2021/2022</u>	<u>2022/2023</u>	<u>2023/2024</u>
	R	R	R
Capital Replacement Reserve	148,210,204	147,572,908	155,649,763
Grants National Government	70,385,720	43,267,360	44,744,880
Grants Provincial Government	35,168,000	53,620,000	21,100,000
External Loans	144,000,000	140,000,000	160,000,000
	397,763,924	384,460,268	381,494,643

Grant funding from National Government includes the following:

- Integrated National Electrification Programme (Municipal) Grant
- Integrated Urban Development Grant

Grant funding from Provincial Government includes the following:

- Human Settlement Development Grant
- Integrated Transport Planning
- Library Services Grant
- Regional Socio-economic project/ violence prevention through urban upgrading (RSEP/VPUU) municipal projects
- Development of Sport and Recreational Facilities

Financing of the Operational Budget

The operational budget is financed from the tariff increases as displayed above. In addition to these, the following grant allocations are expected and expenditure was adjusted accordingly:

- Equitable Share Allocation
- Financial Management Capacity Building Grant
- Local Government Financial Management Grant
- Municipal Accreditation and Capacity Building Grant
- Financial assistance to municipalities for maintenance and Construction of transport infrastructure
- Community Development Workers Operational Support Grant
- Expanded Public Works Program Incentive Grant
- Human Settlement Development Grant

References

1. Insert description listed by municipal name and demarcation code of recipient
2. Insert description of each entity or external mechanism (an external mechanism may be provided with resources to ensure a minimum level of service)
3. Insert description of each Organ of State (e.g. transfer to electricity provider to compensate for FBS provided)
4. Insert description of each other organisation (e.g. charity)
5. Insert description of each other organisation (e.g. the aged, child-headed households)
6. All descriptions should separate transfers for 'capital purposes' and 'operating purposes'

REPORT RECEIVED FROM COMMUNITY DEVELOPMENT: 2021/2022 GRANT-IN-AID ALLOCATIONS AND DONATIONS

1. SUBJECT

GRANT IN AID APPLICATIONS AND DONATIONS 2021/2022

2. PURPOSE

To obtain Council's approval for Grant-in-Aid (GiA) applications and recommended donations for the financial year 2021-2022.

3. DELEGATED AUTHORITY (FOR DECISION BY MUNICIPAL COUNCIL)

In terms of Municipal Finance Management Act (MFMA), Act (56 of 2003) Section 17. (3) (e) relating to content of annual budgets and supporting documents.

4. EXECUTIVE SUMMARY

The application is in terms of the annual GiA donations made to non-governmental organisations (NGOs), community-based organisations (CBOs), non-profit organisations (NPOs) or non-profit companies (NPC) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by the Grant in Aid Policy approved at the Council Meeting in May 2020.

5. RECOMMENDATIONS

- a) That council consider and approve the recommended donations to organizations as per detailed list.

6. DISCUSSION / CONTENTS

6.1. Background

In terms of Council's Grant-in-Aid Policy, proposals were called for by means of advertisement in the press on 1 October 2020 (Eikestad Nuus) and on the municipal website and facebook page.

The advertisement included an invitation to attend one of three compulsory workshops on either 03, 04 or 05 November 2020 to assist and give guidance on the policy and application procedure. One hundred and sixty-two (162) persons attended the workshops.

By the closing date (27 November 2020), 126 applications were received.

6.2 Discussion

The Department Community Development scrutinized and evaluated one hundred and twenty-six (126) applications representing the following categories:

CATEGORY	SUB CATEGORY	APPLICATIONS RECEIVED	APPLICATIONS RECOMMENDED/ CONDITIONALLY RECOMMENDED
Social Development	General	11	4
	ECD	48	32
	Disability	4	2
	Elderly	6	4
	Youth	13	9
	Substance Abuse	2	2
	Gender	2	0
	Food Security	2	1
	People Living on the Street	1	1
	Skills Development	3	3
Health	Physical and Psychological	3	1
Environment		2	1
Sport, Art and Culture	Sport Clubs	22	16
	Art and Culture	7	5
Total		126	81

Table 1: Applications and grant recommendations per category

The detailed list of applications received and evaluated can be found below the item.

The following wards will benefit from the recommended donations:

SUB CATEGORY	APPLICATIONS RECOMMENDED	WARDS SERVED THROUGH THE ORGANIZATIONS	RECOMMENDED AMOUNT (2021-2022)
General Soc Dev	4	ALL	157 500,00
ECD	32	ALL	1 280 000,00
Disability	2	ALL	80 000,00
Elderly	4	1, 2, 5, 6, 9, 11	152 000,00
Youth	9	1-12, 18, 21	358 500,00
Substance Abuse	2	ALL	80 000,00
Gender	0	-	0,00
Food Security	1	ALL	40 000,00
People living on the street	1	ALL	1 473 230,14
Skills Development	3	ALL	120 000,00
Physical and Psychological Health	1	ALL	40 000,00
Environment	1	12, 13	37 000,00
Sport Clubs	16	ALL	640 000,00
Art and Culture	5	ALL	200 000,00
Total	81		4 658 230,14

Table 2: Ward based recommendations and financial allocations

The reason for not recommending organizations can be found in the notes column of detailed list of applications. The Municipality would like to support as many as possible organizations delivering valuable services within our communities, but cannot disregard requirements of the MFMA (56 of 2003) Section 67 stipulating the responsibility of council to ensure donations are made to organizations who has the capacity to govern itself according to accepted financial practises and who can deliver the services for which the donation is required and benefiting the intended target audience.

6.3 Financial Implications

This report has the following financial implications:

2021-2022 (Cat A)
3 185 000,00

2021-2022 (Cat B)	2022-2023 (Cat B)	2023-2024 (Cat B)
1 473 230,14	1 547 570,15	1 634 430,49

DRAFT BUDGET TOTAL	4 658 230,14
2021-2022	

6.4 Legal Implications

The recommendations in this report comply with Council's policies and all applicable legislation.

6.5 **Staff Implications**

This report has no staff implications to the Municipality.

6.6 **Previous / Relevant Council Resolutions:**

None

6.7 **Risk Implications**

This report has no risk implications for the Municipality.

6.8 **Comments from Senior Management:**

Due to the closing date for Grant in Aid applications, the time required to complete assessments, council recess, staff being on leave and the due date for submissions for the draft budget, this report could not be sent to all senior management.

6.8.1 **Chief Financial Officer:**

Financial Services agree with the recommendations. The funding for the Grant in Aid donations will be provided for in the Medium Term Revenue and Expenditure Framework (MTREF/Budget).

References

1. Must reconcile with 'Budgeted Financial Performance (Revenue and Expenditure)
2. Must reconcile to supporting documentation on staff salaries
3. Insert other categories where revenue or expenditure is of a material nature (list separate items until 'General expenses' is not > 10% of Total Expenditure)
4. Expenditure to meet any 'unfunded obligations'
- 5 This sub-total must agree with the total on SA22, but excluding councillor and board member items
6. Include a note for each revenue item that is affected by 'revenue foregone'
7. Special consideration may have to be given to including 'goodwill arising' or 'joint venture' budgets where circumstances require this (include separately under relevant notes)
8. Repairs and Maintenance is not a GRAP item. However to facilitate transparency, municipalities must provide a breakdown of the amounts included in the relevant GRAP items that will be spent on Repairs and Maintenance.
9. Must reconcile with Repairs and Maintenance by Asset Class (Total Repairs and Maintenance) on Table SA34c.
10. Only applicable to municipalities that have adopted the 'revaluation method' in GRAP 17. The aim is to prevent overstating 'depreciation and asset impairment'

References

1. Positive cash balances indicative of minimum compliance - subject to 2
2. Deduct cash and investment applications (defined) from cash balances
3. Indicative of sufficient liquidity to meet average monthly operating payments
4. Indicative of funded operational requirements
5. Indicative of adherence to macro-economic targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
6. Realistic average cash collection forecasts as % of annual billed revenue
7. Realistic average increase in debt impairment (doubtful debt) provision
8. Indicative of planned capital expenditure level & cash payment timing
9. Indicative of compliance with borrowing 'only' for the capital budget - should not exceed 100% unless refinancing
10. Substantiation of National/Province allocations included in budget
11. Indicative of realistic current arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
12. Indicative of realistic long term arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
13. Indicative of a credible allowance for repairs & maintenance of assets - functioning assets revenue protection
14. Indicative of a credible allowance for asset renewal (requires analysis of asset renewal projects as % of total capital projects - detailed capital plan) - functioning assets revenue protection

References

1. All numbers to be expressed as whole numbers except FTEs and Rates in the Rand
2. To give effect to rates policy
3. Full Time Equivalent (FTE) should be expressed to one decimal place and takes into account full time and part time staff
4. Required to implement new system (FTE)
5. Provide relevant information for historical comparisons. Must reconcile to the total of Table SA12
6. Current and budget year must reconcile to Table A4 Budgeted Financial Performance (revenue and expenditure)
7. Included in rate revenue budget
8. In favour of the rate-payer

Referend 235

1. Insert description listed by municipal name and demarcation code of recipient

2. Insert description of each entity or external mechanism (an external mechanism may be provided with resources to ensure a minimum level of service)

3. Insert description of each Organ of State (e.g. transfer to electricity provider to compensate for FBS provided)

4. Insert description of each other organisation (e.g. charity)

5. Insert description of each other organisation (e.g. the aged, child-headed households)

6. All descriptions should separate transfers for 'capital purposes' and 'operating purposes'

References

1. Include 'Loans and advances' where applicable if any reportable amounts until phased compliance with s164 of MFMA achieved
2. s57 of the Systems Act
3. In kind benefits (e.g. provision of living quarters) must be shown as the cost (full market value) to the municipality, as part of the relevant allowance
4. B/A, C/B, D/C, E/C, F/C, G/D, H/D, I/D
5. Must agree to the sub-total appearing on Table A1 (Employee costs)
6. Includes pension payments and employer contributions to medical aid
7. Correct as at 30 June

Column Definitions:

- A, B and C. Audited actual as per the audited financial statements. If audited amounts are unavailable, unaudited amounts must be provided with a note stating these are unaudited
- D. The original budget approved by council for the budget year.
- E. The budget for the budget year as adjusted by council resolution in terms of section 28 of the MFMA.
- F. An estimate of final actual amounts (pre audit) for the current year at the point in time of preparing the budget for the budget year. This may differ from E.
- G. The amount to be appropriated for the budget year.
- H and I. The indicative projection

References

1. Positions must be funded and aligned to the municipality's current organisational structure
2. Full Time Equivalent (FTE). E.g. One full time person = 1FTE. A person working half time (say 4 hours out of 8) = 0.5FTE.
3. s57 of the Systems Act
4. Include only in Consolidated Statements
5. Include municipal entity employees in Consolidated Statements
6. Include headcount (number of persons, Not FTE) of managers and staff only (exclude councillors)
7. Managers who provide the direction of a critical technical function
8. Total number of employees working on these functions
9. Correct as at 30 June
10. Must account for all budgeted positions, as per the municipal organogram

1. Note that this section of Table SA-30 is deliberately not linked to Table A4 because timing differences between the invoicing of clients and receiving the cash means that the cashflow will differ from budgeted revenue, and similarly for budgeted expenditure. However for the MTREF it is now directly linked to A7.

WC024 Stellenbosch - NOT REQUIRED - municipality does not have entities

STELLENBOSCH MUNICIPALITY

PROPERTY TAX RATES FOR THE PERIOD 1 JULY 2021 TO 30 JUNE 2022

For the applicable provisions refer to the approved Rates Policy and Special Rating Areas Policy of the Municipality

PROPERTY RATES:

Property rates are levied in terms of Section 14(1) of the Local Government : Municipal Property Rates Act 6 of 2004 (the MPRA)

Category of Property	Tariff
Residential	R 0.004481
Industrial	R 0.009858
Business and Commercial	R 0.009410
Agricultural	R 0.001120
Mining	R 0.010306
Public Service Purposes	R 0.009410
Public Service Infrastructure	R 0.001120
Public Benefit Organisation	R 0.001120
Heritage	R 0.003585
Vacant Residential	R 0.008962
Vacant Other (not Residential nor Agricultural)	R 0.017924
Multiple Use Purpose (Each Component is categorised and rated as per above)	Multi Tariff

SPECIAL RATING AREAS (SRA):

Additional rates, for each SRA as approved by Council, are levied in terms of Section 22(1) of the MPRA

Special Rating Area	Tariff (Incl VAT)
Jonkershoek	R 0.0008192
Technopark	R 0.0014435

Relief measures for Special Rating Areas may be granted according to the approved Special Rating Area Policy.

RELIEF MEASURES:

Relief Measures are generally described in paragraph 8 of approved Rates Policy, and will be granted according to the approved Rates Policy. This includes the specific undermentioned relief measures:

1. Gross Monthly Household Income (Qualifying Senior Citizens & Disabled Persons)

A rebate as per the table below may be granted as per paragraph 8.3 of the approved Rates Policy

Gross Monthly Household Income (Income bands)				% Rebate
Up to			R 8 000	100%
From	R 8 001	To	R 10 000	75%
From	R 10 001	To	R 12 000	50%
From	R 12 001	To	R 15 000	25%

2. Municipal Valuation Threshold

On qualifying residential properties, up to a maximum valuation of R 250 000, which amount includes the R15 000 as per Section 17(1)(h) of the MPRA and the R 235 000 Reduction granted as per paragraph 8.2.1(ii) of the approved Rates Policy.

3. Stellenbosch Special Rebates

A rebate of 20% may be granted as per paragraph 8.6 of the approved Rates Policy.

STELLENBOSCH MUNICIPALITY

ELECTRICITY TARIFFS FOR THE PERIOD 1 JULY 2021 TO 30 JUNE 2022

Applicable to services rendered from 1 July 2021

	Approved 2020/2021	Application 2021/2022
1. Domestic		
Domestic: Life Line PP - 0 to 60amp single phase only (For qualifying indigent customers and receiving the first 100 units free per month) (DOM1)		
Fixed Charge per month	-	-
Domestic PP Lifeline DOM1 (c/kWh) (<= 50 kWh)	109.82	125.84
Domestic PP Lifeline DOM1 (c/kWh) (51 – 300 kWh)	137.42	157.47
Domestic PP Lifeline DOM1 (c/kWh) (300 – 600 kWh)	204.82	234.70
Domestic PP Lifeline DOM1 (c/kWh) (> 600 kWh)	235.86	270.27
Domestic PP Lifeline DOM1 BSST	-	-
Domestic: Regular PP meters- (0 to 60amp single and three phase AND Less than 600kWh per month average consumption during the previous financial year and for generation for own use) (DOM2)		
Fixed Charge per month	-	-
Energy Rate (c/kWh) (<= 50kWh)	110.00	126.05
Energy Rate (c/kWh) (51 - 300kWh)	141.50	162.14
Energy Rate (c/kWh) (301 - 600kWh)	199.00	228.03
Energy Rate (c/kWh) (> 600kWh)	234.00	268.14
Domestic: Regular PP meters- (0 to 60 Amp single and three phase using more than 600 kWh per month average consumption during the previous financial year and for generation for own use) (DOM3)		
Fixed Charge per month	150.60	172.57
Energy Rate (c/kWh) (<= 50kWh)	109.82	125.84
Energy Rate (c/kWh) (51 - 300kWh)	140.87	161.42
Energy Rate (c/kWh) (301 - 600kWh)	198.73	227.72
Energy Rate (c/kWh) (> 600kWh)	234.02	268.16
Domestic: Regular (Using Credit Meters 60 Ampere single and three phase maximum and for generation for own use) (DOM4)		
Fixed Charge per month	185.77	212.87
Energy Rate (c/kWh) (<= 50kWh)	109.82	125.84
Energy Rate (c/kWh) (51 - 300kWh)	140.87	161.42
Energy Rate (c/kWh) (301 - 600kWh)	198.73	227.72
Energy Rate (c/kWh) (> 600kWh)	234.02	268.16
Domestic: Renewable Energy (DOM5) Generation for own use and export		
Reading cost R/pm	84.07	96.34
Basic Charge	185.77	212.87
Import		
Energy Rate (c/kWh) (<= 50kWh)	109.82	125.84
Energy Rate (c/kWh) (51 - 300kWh)	140.87	161.42
Energy Rate (c/kWh) (301 - 600kWh)	198.73	227.72
Energy Rate (c/kWh) (> 600kWh)	234.02	268.16

10. Pilot Internal Wheeling Tariffs		
Customer received power at low voltage (<400V) in c/kWh	22.65	25.95
Customer received power at medium voltage (>400V) in c/kWh	19.62	22.48
Upon a successful application Stellenbosch Municipality will permit the retail wheeling of electricity through its network by another electricity supplier that is licensed for the trading of electricity in terms of the Electricity Regulation Act to the customers of this electricity supplier.		
11. Generation for Own Use		
Customers that want to connect their own generation system to the municipal electrical grid without being compensated for reverse power flow can remain on their current tariff and continue to use their current meter.		
12. Generation for Own Use and Export		
Customers that want to connect their own generation system to the municipal electrical grid for own use and export and who want to be reimbursed for exported energy will have to do the following: 1 The Municipality shall provide and install the requisite meters at the customer's cost. 2 The customer will stay on the existing purchase tariff. 3 For reimbursement the basic charge will be increased to include the automated meter reading cost 4 The reimbursement will only be for the export energy. 5 Customer not allowed to generate more than his total consumption per financial year.		
13. Availability Fees (Per Annum)

The following groups have been identified for the discounted tariffs:

- (i) Schools located within the WC024 for an official school function: discounted tariff of 30% on the rental of a hall for the function to a maximum of one (1) function per financial year. Deposit fees must be paid in full.
- (ii) Churches located within WC024 for an official church function: discounted tariff of 30% on the rental of a hall for the function to a maximum of one (1) function per financial year. Deposit fees must be paid in full. Proof of location/residence will be required.
- (iii) Churches using a hall on a regular basis:
 - a Sermons are limited to 2 (two) hours per Sunday to accommodate other denominations/religious groups at the venue.
 - b The two Town Halls (Stellenbosch and Franschhoek), are excluded.
 - c The grant is subject to availability of the hall.
 - d A formal agreement will be entered into between the parties.
A once-off deposit fee per financial year applies as per the approved tariffs. If forfeited due to damage, etc, this will have to be repaid before access for the next event/ service will be granted.
 - e In addition, a rental fee equivalent to the tariff for 1 day applies as a monthly fee. The fee specific to the specific hall will apply.
To accommodate churches during the week, the halls may be used for a maximum of two (2) additional bookings during the week over and above the Sunday sermon. This will be at no additional charge (included in e) above).
 - f Furniture will be free of charge, but must be arranged and put back after the sermon by the hirer.
 - g
 - h Due to the constraints on municipal overtime, no municipal officials will be available on weekdays or weekends to perform any supervisory functions or assistance.
 - i Proof of NPO/NPC registration to be submitted with the application.
- (iv) Non-Governmental Organisations: 30% discount on rental of a hall or facility excluding the relevant deposit fees (which must be paid in full). Furniture, kitchen and utensils are free of charge.
- (v) Government Departments in other spheres of Government: 30% discount on rental of a hall or facility excluding the relevant deposit fees (which must be paid in full). Furniture, kitchen and utensils are free of charge.
- (vi) The six recognised vulnerable groups namely Aged, Disabled, Children, Youth, Women and People living on the Streets: 30% discount on rental of a hall or facility excluding the relevant deposit fees (which must be paid in full). Furniture, kitchen and utensils are free of charge. This discount is not available to individuals but is focused on interest groups representing the vulnerable groups.
- (vii) Individual families registered as indigent at the Municipality will be entitled to a 30% discount on rental of a hall or facility excluding the relevant deposit fees (which must be paid in full): Furniture, kitchen and utensils are free of charge. This rebate is for a maximum of one (1) booking per financial year per indigent family and the two Town Halls (Stellenbosch and Franschhoek are excluded).
- (viii) Organisations promoting the Greater Stellenbosch: 30% discount on rental of a hall or facility excluding the relevant deposit fees (which must be paid in full). Furniture, kitchen and utensils are free of charge. The following are examples of rebates that will be approved:
 - Van Der Stel Festival
 - Wine Festival (Previously Food and Wine Festival)
 - Flower Show (Stellenbosch and Pniel)
 - Stellenbosch Festival
 - Bastille Festival
 - CANSA sub-organizations within the WC024.

- (ix) Free access to municipal halls for youth activities. Provided that prior arrangement is made with the relevant staff.
- (x) Free access to municipal halls for Ward Councillors for functions such as: Meetings, Workshops or any other Ward-related activities. This access will only be granted to a maximum of 2 (two) events per month. This is not transferable for any other festivals, parties, dances, fund raisers, etc.
- (xi) The rebates mentioned in paragraphs i), ii), iv), v), vi) and vii) will only be considered for weekdays. All applications must be in writing and submitted to the Director: Community and Protection Services.
- (xii) The Director: Community and Protection Services may consider motivated applications for discount in line with the abovementioned and approve rebates.

CHAPTER 6: HOUSEKEEPING					
Combustible waste and refuse					
26(1) read with 62(1)	Allowing accumulation of waste or refuse in any area or any manner so as to create a fire hazard or any other threatening danger	R1 600.00	-	-	R 1 600.00
26(2) read with 62(1)	Failure to store combustible waste and refuse in manner determined by controlling authority	R1 600.00	-	-	R 1 600.00
27 read with 62(1)	Allowing accumulation of dust in quantities sufficient to create a fire or threatening danger	R1 600.00	-	-	R 1 600.00
Accumulations in chimneys, flues and ducts					
29 read with 62(1)	Allowing soot or other combustible substance to accumulate in a chimney, flue or duct in quantities/manner as to constitute a fire hazard or threatening danger	R1 600.00	-	-	R 1 600.00
Sources of ignition					
30(1) read with 62(1)	Smoking/carrying of matches/use of flame emitting devices or spark producing equipment in area containing combustible or flammable substances	R1 100.00	-	-	R 1 100.00
30(2) read with 62(1)	Failure to place hot ashes, cinders or smouldering coals in a non-combustible container	R1 100.00	-	-	R 1 100.00
30(3) read with 62(1)	Failure to ensure adequate distance between combustible substances and or flammable substances	R1 100.00	-	-	R 1 100.00
30(4) read with 62(1)	Use of portable heaters where prohibited by the controlling authority	R1 600.00	-	-	R 1 600.00
Smoking					
31(1) read with 62(1)	Failure to display a No Smoking sign/s as directed by the controlling authority	R1 600.00	-	-	R 1 600.00
31(2) read with 62(1))	Removal of a No Smoking sign	R1 600.00	-	-	R 1 600.00
31(3) read with 62(1)	Light of smoke of a cigar, cigarette, pipe, tobacco or other substance or ignite or set fire to hold, possess, throw or deposit any lighted or smouldering substance in any place where expressly prohibited	R1 600.00	-	-	R 1 600.00
31(3A) read with 62(1)	Owner or person in charge allow or permit lighting or smoke a cigar, cigarette, pipe, tobacco or other substance or ignite or set fire to other material in any place where expressly prohibited.	R1 600.00	-	0.00	R 1 600.00
31(4) read with 62(1)	Failure to provide for safe disposal of smoking materials where smoking is allowed.	R1 600.00	-	0.00	R 1 600.00
31(5) read with 62(1)	Throwing/dropping/putting down burning match/cigarette/material/or material capable of spontaneous combustion or self-ignition in a road or other place.	R1 600.00	-	0.00	R 1 600.00
Electrical fittings, equipment and appliances					
32(1) read with 62(1)	Cause or permit an electrical supply outlet to be overloaded.	R1 600.00	-	0.00	R 1 600.00
32(2) read with 62(1)	Cause or permit electrical appliance or extension lead to be used in manner likely to create a fire hazard or other threatening danger	R1 600.00	-	0.00	R 1 600.00
Flame-emitting device					
33 read with 62(1)	Cause or permit flame-emitting device (eg candle/lantern/torch/etc.) to be used in a manner likely to create a fire hazard or other threatening danger	R1 600.00	-	0.00	R 1 600.00

CHAPTER 7:					
Combustible Material					
34(1) read with 62(1)	Storage/transport/use/display or permission thereof inside or outside any premises of combustible material or flammable substances in quantities or positions or manner likely to cause a fire hazard or other threatening danger.	R1 600.00	-	0.00	R 1 600.00
34(2) read with 62(1)	Permit vegetation to grow/accumulate or other combustible material to accumulate on a premise in a manner likely to cause fire hazard or other threatening danger (owner/person in charge).	R1 600.00	-	0.00	R 1 600.00
Lighting of fires and burning of combustible material					
35(1) read with 62(1)	Lighting of fires/disposal of combustible material by burning.	R1 600.00	-	0.00	R 1 600.00
35(3) read with 62(1)	Failure to ensure that a cooking fire or flame-emitting device is placed in designated areas in places of entertainment/public assembly so as to prevent a fire hazard or other threatening danger by the owner/person in charge	R1 600.00	-	0.00	R 1 600.00
35(4) read with 62(1)	Allowing burning to take place on state land, a farm, a small holding, or land within a proclaimed township that is not utilised for residential purposes, provided that the prior approval is obtained from the controlling authority by the owner/person in charge	R1 600.00	-	0.00	R 1 600.00
35(5) read with 62(1)	Entering a municipal nature reserve area, whilst in possession of any flammable substances, fireworks, lighters or matches	R1 600.00	-	0.00	R 1 600.00
Dealing in Fireworks					
38(1)(a) read with 62(1)	Dealing in fireworks without possessing the required fireworks license and written authority from the South African Police Services and the Chief Fire Officer.	R1 600.00	-	0.00	R 1 600.00
Approval of Fireworks Displays					
40(a) read with 62(1)	Presenting any fireworks display without written authorisation from the Fire Chief	R1 600.00	-	0.00	R 1 600.00
40(c) read with 62(1)	Presenting any fireworks display without supervision and control of person in charge at all times	R1 600.00	-	0.00	R 1 600.00
40(d) read with 62(1)	Presenting any fireworks display without attendance of suitably qualified explosives expert from the South African Police Services during its entire duration	R1 600.00	-	0.00	R 1 600.00
40(e) read with 62(1)	Presenting a fireworks out of a clearly demarcated area of a of at least 50 metres radius for the launching of fireworks, measures been taken to prevent any person not involved in the presentation of the display from entering such launching area and the presence of a pyro technician at all times and is responsible for the discharge of fireworks at such display.	R1 600.00	-	0.00	R 1 600.00
CHAPTER 9: FIRE SUBSTANCES					
Storage and use of a flammable substance					
44(1) read with 62(1)	Failure of the owner or person in charge to submit a building plan in accordance with the National Building Regulations to the municipality, prior to the construction of a new installation/alteration of an existing installation either temporary or permanent for the storage of a flammable substance	R1 600.00	-	0.00	R 1 600.00
44(1A) read with 62(1)	Failure of the owner or person in charge of an installation for the storage of a flammable substance to produce a copy of the municipal approved plan available at the site where the installation is being constructed	R1 600.00	-	0.00	R 1 600.00
44(3) read with 62(1)	Failure to pressure test storage tank/liquid petroleum gas installations/ associated pipework on request from the municipality prior to commissioning (owner/person in charge).	R1 600.00	-	0.00	R 1 600.00
44(5) read with 62(1)	Failure to notify controlling authority of alteration that impacts on fire safety of storage tank installation.	R1 600.00	-	-	R 1 600.00
44(6)(i)	Storage/use of flammable gas in excess of 19kg flammable gas of a danger group without obtaining flammable substance certificate.	R1 600.00	-	-	R 1 600.00
Flammable substance certificate					
45(1) read with 62(1)	Failure to submit application for flammable substance certificate	R1 600.00	-	-	R 1 600.00
45(4) read with 62(1)	Failure to renew flammable substance certificate (annual/quantity or class of substance changed)	R1 600.00	-	-	R 1 600.00
45(7) read with 62(1)	Supply of flammable substance in respect of premises which is not in possession of a valid flammable substance certificate	R1 600.00	-	-	R 1 600.00
45(9) read with 62(1)	Failure to have flammable substance certificate available on premises for inspection.	R1 600.00	-	-	R 1 600.00
Permanent or temporary above ground storage tank for a flammable liquid					
46(2)(a) read with 62(1)	Temporary above ground storage tank in excess of 9000 litres/ on premises for period exceeding 6 months/without submitting necessary written application.	R1 600.00	-	-	R 1 600.00
46(3) read with 62(1)	Failure to submit rational design for above ground storage tank in excess of 9000 litres	R1 600.00	-	0.00	R 1 600.00
46(5) read with 62(1)	Permanent/temporary tank with insufficient ullage to permit expansion by reason of temperature rise during storage.	R1 600.00	-	0.00	R 1 600.00
46(6) read with 62(1)	Erection of permanent/temporary tank less than 3,5 metres from boundaries/buildings/other flammable substances/combustible materials.	R1 600.00	-	0.00	R 1 600.00
46(7) read with 62(1)	Permanent/temporary tank not located on firm ground level/ground not adequate strength to support mass of tank and contents	R1 600.00	-	0.00	R 1 600.00
46(8) read with 62(1)	No bund wall or permanent/temporary tank.	R1 600.00	-	0.00	R 1 600.00
46(9) read with 62(1)	Inadequate precautions to prevent spillage during filling of tank.	R1 600.00	-	0.00	R 1 600.00
46(10) read with 62(1)	Failure to provide sufficient fire extinguishers in weather proof boxes	R1 600.00	-	0.00	R 1 600.00
46(11) read with 62(1)	Failure to provide necessary symbolic safety (above ground tanks)	R1 600.00	-	0.00	R 1 600.00
46(12) read with 62(1)	Failure to clearly identify flammable liquid contents with Hazchem placards (above ground tanks).	R1 600.00	-	0.00	R 1 600.00

Small installations for liquefied petroleum gas					
49 read with 62(1)	Liquefied petroleum gas installations involving gas storage combined capacity not exceeding 3 000 litres per installation not installed in accordance with SABS 087: Part 1.	R1 600.00	-	0.00	R 1 600.00
Liquid petroleum gas installation in mobile units and small non-permanent buildings					
50 read with 62(1)	Liquid petroleum gas installation in mobile unit/small non-permanent building not in accordance with SABS 087: Part 2.	R1 600.00	-	0.00	R 1 600.00
The fuelling of forklift trucks and other LP gas operated vehicles					
51 read with 62(1)	The fuelling of forklift trucks and other LP gas operated vehicles not in accordance with SABS 087: Part 8	R1 600.00	-	0.00	R 1 600.00
The storage and filling of refillable liquid petroleum gas containers					
52 read with 62(1)	Storage and filling site for refillable liquid petroleum gas containers of capacity not exceeding 9kg not in accordance with SABS 10087 Part 8	R1 600.00	-	-	R 1 600.00
Bulk storage vessel for liquid petroleum gas					
53 read with 62(1)	The layout, design and operation of installations for the storage of a bulk liquid petroleum vessel and allied facilities not in accordance with the National Building Regulations (T1), read in conjunction with SABS 087: Part 3.	R1 600.00	-	-	R 1 600.00
Termination of the storage and use of flammable substances					
54(1) read with 62(1)	Failure to take prescribed steps when above ground or underground tank installation, liquid petroleum gas installation or associated pipework no longer required.	R1 600.00	-	-	R 1 600.00
54(2) read with 62(1)	Failure to apply in writing to fill unstable installation with liquid cement slurry.	R1 600.00	-	-	R 1 600.00
Reporting accidents					
55 read with 62(1)	Failure to notify controlling authority of accident involving flammable substance.	R1 600.00	-	-	R 1 600.00
Flammable stores					
56 read with 62(1)	Flammable store not conforming to requirements (specify exactly).	R1 600.00	-	-	R 1 600.00
Container handling and storage					
57(1) read with 62(1)	Failure to keep flammable substance closed when not in use. 1500 1,590 0 1,590	R1 600.00	-	0.00	R 1 600.00
57(2) read with 62(1)	Extracting flammable liquids from container exceeding 20 litre capacity which does not have adequately sealed pump/ tap.	R1 600.00	-	0.00	R 1 600.00
57(3) read with 62(1)	Failure to label flammable liquid containers properly.	R1 600.00	-	0.00	R 1 600.00
57(5) read with 62(1)	Inadequate manufacture/maintenance of flammable substance containers allowing leakage of flammable substances or vapours.	R1 600.00	-	0.00	R 1 600.00
57(6) read with 62(1)	Failure to place empty flammable liquid container in a flammable store. 1500 1,590 0 1,590	R1 600.00	-	0.00	R 1 600.00
57(8) read with 62(1)	Failure to securely close empty flammable liquid container	R1 600.00	-	0.00	R 1 600.00
Spray rooms and booths					
58 read with 62(1)	A spray room, booth or area designated for the application of a flammable liquid not constructed compliance with the General Safety Regulations promulgated in terms of the Occupational Health and Safety Act.	R1 600.00	-	0.00	R 1 600.00
Liquid petroleum gas containers					
59(1) read with 62(1)	Manufacture/maintenance/testing of liquid petroleum gas container not in accordance with SABS 087: Part 1 and SABS 019.	R1 600.00	-	0.00	R 1 600.00
59(2) read with 62(1)	Liquid petroleum gas container used/stored in such a manner that damage or leakage of liquid or vapour is possible.	R1 600.00	-	0.00	R 1 600.00
59(3) read with 62(1)	Filling of liquid petroleum gas container not exceeding 9 kilograms not in accordance with SABS 087: Part 7. 1500	R1 600.00	-	0.00	R 1 600.00
CHAPTER 10: TRANSPORTATION OF DANGEROUS GOODS					
Dangerous goods certificate					
60(1) read with 62(1)	Operation of vehicle designated for the transportation of flammable material without a dangerous goods certificate. 1500 1,590 0 1,590	R1 600.00	-	0.00	R 1 600.00
60(2) read with 62(1)	Failure to submit it application for dangerous goods certificate in prescribed form to controlling authority.	R1 100.00	-	0.00	R 1 100.00
60(5) read with 62(1)	Failure to renew dangerous goods certificate annually/when major maintenance or repairs made on vehicle.	R1 100.00	-	0.00	R 1 100.00
60(10) read with 62(1)	Failure to keep dangerous goods certificate available in vehicle for inspection.	R1 100.00	-	0.00	R 1 100.00

FORMULA FOR THE CALCULATION OF EFFLUENT DISCHARGE CHARGES (Schedule C of Bylaws)

Discharge Cost = Basic Tariff + COD Surcharge + Substance Limit Surcharge

Discharge Cost = (Vw) (SVC) + (Vie) (T) ((COD - 1000)/1000) + (Vie) (T) (SF)

SVC = Sewerage Volumetric Charge (T + C) in terms of above tariffs (Conveyancy and Treatment)

Surcharge Factor (SF) = (X - L) / L

X = Concentration in discharge of one or more of parameters listed in Schedule A of Bylaws

L = Limit of applicable parameter as listed in Schedule A of Bylaws

* Special agreements to be approved by council

ASSET MANAGEMENT AND SYSTEMS SECTION WAYLEAVE ADMINISTRATION TARIFFS	Unit	Tariff 2020/21 (Incl. VAT)	Excl. VAT 2021/22	VAT 15%	Tariff 2021/22 (Incl. VAT)
1.1 Administration fee for a miscellaneous wayleave to use the road reserve for a period of one month or less other than to install an underground service PLUS: Inspection Fee (once-off) For the temporary use of the road reserve for less than one month other than for the installation of an underground service, including for: the placement or storage of an item such as a chemical toilet, container, ladder, scaffolding, mobile crane or materials, pumping of concrete, excavation of trial holes. The fee is payable in advance. PLUS: The cost of all inspections during the course of the wayleave from services verification to the site rehabilitation after construction. The fee is payable in advance.	per application per application	R 500.00 R 1 000.00	R 454.35 R 908.70	R 68.15 R 136.30	R 522.50 R 1 045.00
1.2 Administration fee for a wayleave or permit to use the road reserve to install an underground service (total construction duration is less than ten working days) PLUS: Inspection Fee (once-off) For the use of the road reserve to install a pipe, tunnel, cable or duct for water, electricity, communication, or any other service – where the total construction duration is less than ten working days. The fee is payable in advance. PLUS: The cost of all inspections during the course of the wayleave from services verification to the site rehabilitation after construction. The fee is payable in advance.	per application per application	R 1 000.00 R 2 000.00	R 908.70 R 1 817.39	R 136.30 R 272.61	R 1 045.00 R 2 090.00
1.3 Administration fee for a wayleave or permit to use the road reserve to install an underground service PLUS: Inspection Fee (per month, based on the total construction duration) For the use of the road reserve to install a pipe, tunnel, cable or duct for water, electricity, communication, or any other service. The fee is payable in advance. PLUS: The cost of all inspections during the course of the wayleave from services verification to the site rehabilitation after construction. The fee is payable in advance.	per application per month of construction, per application	R 3 000.00 R 2 000.00	R 2 726.09 R 1 817.39	R 408.91 R 272.61	R 3 135.00 R 2 090.00
1.4 Tariff for authorised trenching across a municipal roadway (per metre of trenching) For using an open trench to cross a roadway to install a pipe, cable or duct for water, electricity, communication or any other service. This tariff applies if the municipality grants written authorisation for a roadway trench before digging of the trench commences. The applicant may not begin roadway trenching before paying the roadway open trench fee and the Municipality issues written authorisation. The fee is payable when the written authorisation is issued. The roadway open trench fee is for the increased maintenance and reconstruction costs and inherent degradation of the roadway caused by roadway trenching. It applies even if the trench is reinstated in compliance with the Municipality's requirements and standards.	Per m measured from 0.5m behind the kerb or road edge	R 5 000.00	R 4 543.48	R 681.52	R 5 225.00
1.5 Tariff for unauthorised use of the road reserve for a period of more than one month other than to install an underground service (100% of admin & inspection fee under tariff 1.1) For the use of the road reserve beyond the one month allowed by the miscellaneous wayleave application. This is for holders of an approved miscellaneous wayleave that has expired and has not been renewed.	per month	R 1 500.00	R 1 363.04	R 204.46	R 1 567.50
1.6 Tariff for unauthorised commencement of use of the road reserve For the commencement of use of the road reserve (i.e. encroachment) without an approved wayleave or before Stellenbosch Municipality issues a wayleave.	per month	R 5 000.00	R 4 543.48	R 681.52	R 5 225.00
1.7 Tariff for unauthorised use of the road reserve to install an underground service Where construction period was 10 working days or less (200% of admin & inspection fee under tariff 1.2) Where construction period was more than 10 working days (200% of admin & inspection fee under tariff 1.3) For the commencement of an installation of an underground service without an approved wayleave or before Stellenbosch Municipality issues a wayleave. Includes a 100% surcharge which applies regardless of whether Stellenbosch Municipality issues a wayleave.	per application per application	R 6 000.00 R 10 000.00	R 5 452.17 R 9 086.96	R 817.83 R 1 363.04	R 6 270.00 R 10 450.00

1.8 Tariff for unauthorised trenching across a municipal roadway (per metre of trenching) (200% of tariff 1.6) For commencement of a roadway trench without written authorisation or before the Municipality issues written authorisation for the roadway trench. Includes a 100% surcharge. The surcharge applies regardless of whether the Municipality issues a written	Per m measured from 0.5m behind the kerb or road edge	R 10 000.00	R 9 086.96	R 1 363.04	R 10 450.00
1.9 Tariff for unauthorised after-hours use of the road reserve for the installation of an underground service For the commencement of use of the road reserve to install an underground service outside of business hours. Work performed under an approved wayleave can only be performed in regular working hours (Mondays – Thursdays 08:00-17:00 and Fridays 08:00-15h00). Working after hours, on public holidays or the weekend is not permitted.	per occasion	R 5 000.00	R 4 543.48	R 681.52	R 5 225.00
1.10 Tariff for excavations being left open for longer than ten working days On completion of the Work, all trenches and excavations in the public road reserves must be backfilled and reinstated as soon as possible in accordance with the technical specifications. Failure to do so represents an unacceptable safety hazard.	per occasion	R 5 000.00	R 4 543.48	R 681.52	R 5 225.00
1.11 Tariff for unauthorised site abandonment for a period exceeding 14 days The wayleave holder may not leave the site for more than fourteen days without permanently reinstating the site.	per occasion	R 5 000.00	R 4 543.48	R 681.52	R 5 225.00
1.12 Tariff for not cleaning or reinstating the road reserve within 14 days of completion The construction site's cleaning up, and the reinstatement to its previous condition is considered part of the Work. It must be completed within 14 days after the construction work has been completed.	per occasion	R 5 000.00	R 4 543.48	R 681.52	R 5 225.00
WAYLEAVE ADMINISTRATION REFUNDABLE DEPOSITS					
2.1 Services Deposit A services deposit is required where there is a risk of damage to municipal services. It is determined by the service co-ordinator and is based on the replacement value of the services in close proximity to the Works e.g. Cost of cable repairs: LV – R 40 000, MV – R 240,000, HV – R 1,250,000, 66 KV R – R 2,500,000, etc. This deposit is paid into the recoverable cost account of Stellenbosch Municipality. After completion, damages will be assessed, the site will be inspected, and all additional costs will be communicated to the applicant. Stellenbosch Municipality will refund the balance of the deposit once all works are complete, and upon final inspection where the Municipality's engineers are satisfied that the reinstatement meets the Municipality's standard and requirements.	per application	Determined by Service Co-ordinator			
2.2 Bank Guarantee / Appropriate Business Insurance Another acceptable form of partial deposit is a bank guarantee as surety in favour of Stellenbosch Municipality or appropriate business insurance. NB: The first R25,000 of the Services Deposit must be paid into the recoverable cost account of Stellenbosch Municipality. A Bank Guarantee or appropriate business insurance can cover the balance of the required Services Deposit.	per application	Determined by Service Co-ordinator			
WAYLEAVE ADMINISTRATION TARIFF NOTES					
3.1 Unless the context indicates otherwise, 'road reserve' includes a roadway, sidewalk footway and verge. 3.2 Suppose Stellenbosch Municipality incurs any costs resulting from Work in or use of the road reserve including remedying substandard or non-compliant reinstatement repairing damage, 3rd party claims, or cleaning of the site. In that case, the actual costs will be offset against the deposit (plus 10% administration fee, including VAT). The Municipality will refund the balance if any. 3.3 All internal Departments or State Funded Projects (National or Provincial), where Stellenbosch Municipality will take over the infrastructure, will be exempted from paying the Administrative Fee, Refundable Deposits Non-Refundable Payments and/or 3.4 No micro trenching is allowed in the WC024.

TARIFF RULES
BUILDING DEVELOPMENT MANAGEMENT TARIFF STRUCTURE FOR 2021/2022
1. EFFECTIVE DATE

- 1.1 Fees are effective from 1 July 2021.
- 1.1. These tariffs replace all previous tariffs charged by the Building Development Management branch of Council.

2. METHOD OF PAYMENT

- 2.1 Fees can be paid in cash or electronically.

3. TIME OF PAYMENT

- 3.1 Fees are due on submission of the building plan application.
- 3.2 Building plan applications will only be deemed to have been submitted and no processing of applications will commence until receipt of payment of the fee/s is verified by finance.

4. PROOF OF PAYMENT

- 4.1 A receipt must be issued to the applicant for all fees received. A copy of the receipt must be attached to the application.

5. REFUNDS

- 5.1 All fees payable are set fees and are not deposits.
- 5.2 Applications are valid for 12 months from date of payment [and building plan fees on lapsed plans are not refundable.](#)

6. SUBJECT TO CHANGE

- 6.1 All fees and business rules are subject to change.
- 6.2 The fees applicable at the time of submission of the application are payable.

7. EXEMPTIONS

- 7.1 The following applications are exempt from the payment of scrutiny fees:
- Applications from Central or Provincial Government for work funded by the Government and for use by Government Departments. Building plan applications must however still be submitted and approved prior to commencement of any building works.
 - Building Plans for all buildings and structures erected for and by the Local Authority. Building plan applications must however still be submitted and approved prior to commencement of any building works.
 - All applications required to address / give effect to successful resettlement claims in terms of the Restitution of Land Rights Act, as well as in cases where land has been allocated to a successful claimant, such claimant is allowed to submit only one application (building plan), for residential development only, which application(s) will be exempted from building plan fees as per normal fees.

- Applications from Orphanages and Homes for the Aged registered under the **National Welfare Act 79 of 1965 (As amended)**, as well as any welfare institutions in the discretion of the Director.

Building plan applications must however still be submitted and approved prior to commencement of any building works.

- The Director: Planning & Economic Development may grant or refuse applications for the exemption of some or all the applicable Building Development application fees of a particular application which are necessitated due to changes to developments made at the request of the Spatial Development Planning department of the Stellenbosch Municipality in the interests of environmental or heritage conservation.
- In cases where a successful land claimant submits a building plan for a purely non-residential development (which does not include any residential development) on land so obtained, such non-residential application is subject to all the fees applicable to any other similar application which was not obtained by way of the Restitution of Land Rights Act.
- If a successful land claimant submits a building plan for a mixed use development (which includes non-residential development) on land so obtained, such non-residential building plan gets charged the normal fees as specific for such application as if the non-residential part of the application is a separate application from the residential part of the development.

8. OTHER FEES

- 8.1 Requests for information: if information is specifically requested in terms of the “Access of Information Act,” the relevant fees as prescribed in terms of that Act apply.
- 8.2 Printing fees:
- a) Printing fees are charged per page according to size in accordance with the applicable tariffs. Copies will only be made in the sizes that are available at a particular office.

9. APPLICATION OF THE TARIFFS

- 9.1 Minor Building Work: As defined in the Building Regulations:
Each item charged for separately even if part of a full plan submission.
- Aviary
 - Solid fuel store not exceeding 10m² in area and 2 m in height
 - Tool shed not exceeding 10m² in area
 - Child’s playhouse not exceeding 5m² in area
 - Cycle shed not exceeding 5m² in area
 - Greenhouse not exceeding 15m² in area
 - Open sided car, caravan or boat shelter or a carport where such shelter or carport does not exceed 40m² in area
 - Any pergola
 - Private swimming pool
 - Change room, not exceeding 10m² in area, at a private swimming pool
 - Lapas and gazebos (with any type of roof covering) under 40m² in area
 - Any free-standing wall

- Reconstruction of fire and natural disaster damaged buildings at applicable rate as per single/other/non-residential categories
- Any other structure, not being a Minor Building Work as per definition, are charge per meter square of the applicable category

9.2 Applications for Alterations and Additions: Plans will be assessed as follows:

- Additions: assessed on the area (square metres) per category
- Alterations: assessed on the QS/Architect estimated value and calculated at 0.008% of the value

9.3 Applications for Provisional Authorisation to Commence with the erection of a Building:

Applications for provisional authorisation to proceed with the erection of a building prior to final building plan approval will be considered on condition that:

- The application has been formally submitted (the full scrutiny fees paid) and the plans have been circulated to the applicable service branches.
- The application for provisional authority is in writing and is fully motivated.
- The prescribed provisional authorisation fee is paid. This fee is not refundable.
- The application is for specific items of work clearly defined on the working drawings accompanying the building plan submission.
- The architectural area of the building under consideration (as defined in Section 1 of Act 103 of 1977) is greater than 500 square metres.
- Full Planning (Zoning) approval has been obtained or is otherwise in compliance with all applicable zoning provisions.
- The property must be not encumbered by private restrictive title deed conditions.
- Provisional authorisation may be subject to applicable conditions and may include to limit the extent to which the subject building works may be implemented under such provisional authorisation prior to final approval of the building plan application.
- Any work done prior to the approval the building plans is entirely at the applicants risk and should the plans require amendments or should the application be refused for any reason the work already completed will have to altered or removed as the case may be at the applicant's expense.

TARIFF RULES
LAND USE MANAGEMENT & SPATIAL PLANNING, HERITAGE AND ENVIRONMENT
TARIFF STRUCTURE FOR 2021/2022

1 GENERAL

Period applicable

- 1.1 Fees effective from 1 July 2021.
- 1.2 The fees replace all previous fees charged by Council.

Method of payment

- 2.14 This fee is payable per application.

Permission for reconstruction of existing building constituting a non-conforming use

- 2.15 Permission required for the reconstruction of an existing building that constitutes a non-conforming use that is destroyed or damaged to the extent that it is necessary to demolish a substantial part of the building. This fee is payable per application.

Naming and numbering of Streets, Places and Buildings

- 2.16 This fee is payable per application submitted.

Renaming of Streets, Places and Buildings

- 2.17 This fee is payable per application submitted.

3 ADVERTISING FEES**Advertising framework**

- 3.1 Advertising: is required in terms of the relevant land use legislation.
- 3.2 Advertising will be done in accordance with the land use legislation and fees will be charged accordingly.

- 3.3 Advertising in the press and advertising which consists of the serving of notices to interested and affected parties are charged independently (with different fees being applicable). No 'serving of notice' fee is applicable when notifying the applicant of the outcome of an application or notifying any objectors of the right of appeal.

Advertising in the press

- 3.4 The fee for advertising in the press is applicable whenever press advertising is required in a local weekly newspaper or daily newspaper and/or Provincial Gazette. This fee is only payable when Council undertakes the advertising.
- 3.5 Advertising in the press is a basic advertising fee. Should the actual costs be more, the applicant is liable for such extra costs upon receipt of a quote.
- 3.6 Composite applications for the same property when advertised collectively in the press carry a single advertising fee.

Serving of notices

- 3.7 The fee for serving of notices is payable when Council conducts the serving of notices. This fee is not applicable when the applicant conducts the advertising.
- 3.8 The fee applicable for every 10 notices or part thereof to be served by Council is depicted in the schedule.
- 3.9 The 'serving of notices' fee is also applicable when notices are delivered by Council to interested and affected parties.

4 OTHER

Deviation from Council Policies and By-laws

- 4.1 Deviation from Council Policies and By-laws are charged per application per property.

Appeal

- 4.2 Appeal fees are charged and are payable per appeal submitted in respect of any decision taken by Council.

Intervener Status

- 4.3 This fee is payable per application submitted.

Transfer clearance

- 4.4 Transfer clearance fees are payable per erf for which application is made for clearance in terms of the applicable land use legislation.

Zoning Certificate

- 4.5 This fee is payable when a formal zoning certificate is issued. Payment of this fee is required in respect of each erf for which a zoning certificate is requested.

Business Licence

- 4.6 This fee is payable in respect of each application received for the issuing of a business licence.

5 CONTRAVENTION PENALTY

- 5.1 Contravention penalty is applied in accordance with a Council Policy, By-law and/or any such enabling planning legislation and associated provisions.
- 5.2 A contravention penalty as stipulated in terms of section 88 (1) (g) of the Stellenbosch Municipal Land Use Planning By-Law, dated 20 October 2015, is payable within 30 days after approval of the utilization of the land and/or construction activity.
- 5.3 The Contravention penalty is payable within 30 days from date of approval of the land use application that was submitted as a result of a contravention notice that was served.
- 5.4 If the property is to be transferred, the Municipality will only issue a certificate in terms of section 28 of the Stellenbosch Municipal Land Use Planning By-Law dated 20 October 2015, upon proof of payment of the contravention penalty.
- 5.5 No occupancy certificate for the building construction will be issued unless proof of the payment of the contravention penalty is submitted by the applicant.
- 5.6 Formula for Contravention Penalty: **((actual area/m² multiply by penalty rate A) + (indirect area /m² multiply by penalty rate B)) x (valuation/m²) = R/m²**
- The area of the construction activity (actual area per square meter x penalty rate A) and/or land area (indirect area per square meter x penalty rate B) that is unlawfully utilised in terms of the relevant zoning of the property) multiplied by (the municipal value per square meter (m²) of the land and/or building as stipulated in the current valuation roll of the municipality as on the date that is indicated on the contravention notice)*
- 5.7 **Definitions :**
- 5.7.1 “Area” refers to the utilisation of the land and/or work on the land and/or construction activity on the land and/or any building on the land and/or structure on the land that is being utilised in a manner other than permitted in the zoning scheme without the prior approval of the municipality.
- 5.7.2 “Valuation” refers to the municipal valuation of any land and/or building as indicated in the current Municipal Valuation Roll.
- 5.7.3 “Date” refers to the date as indicated on the contravention notice.
- 5.7.4 “Property value” refers to the Value of property as reflected in the most recent municipal valuation roll.
- 5.7.5 “Valuation year” refers to the year of the last municipal valuation.
- 5.7.6 “Annual adjustment” refers to the Value adjustment (if any) on house price index or any other approved by the municipality.
- 5.7.7 “Size of property” refers to the area in square meters of the property as indicated on the title deed.
- 5.7.8 “Direct area of contravention” refers to the area in which the contravention occurs, e.g. rooms, floor area, coverage, and contravention measured in square meters.
- 5.7.9 “Indirect area of contravention” refers to the area complementary to the contravention, e.g. area used for parking, storage, outdoor activities or purposes.
- 5.7.10 “Penalty Rate A” refers to the rate at which penalty amount will be calculated on area of contravention as approved annually by Council.
- 5.7.11 “Penalty Rate B” refers to the rate at which penalty amount will be calculated on indirect area of contravention as approved annually by Council.
- 5.7.12 “Amount payable” refers to the total amount payable as a contravention penalty in terms of the relevant bylaw.

6 PRINTING FEES

- 6.1 Printing fees are charged per page according to size and colour. The three types of copies/prints are mono (black & white), Colour line prints and Full Colour prints (photo). Copies will only be made in the sizes that are available at a particular office.
- 6.2 The fee charged for electronic information does not include the CD, which must be supplied by the applicant.
- 6.3 If information is specifically requested in terms of the Access of Information Act, the relevant fees as prescribed in terms of that Act applies.

SPATIAL PLANNING, HERITAGE AND ENVIRONMENT

7 PLANNING ADVISORY COMMITTEE SCRUTINY FEE

- 7.1 Planning Advisory Committee Scrutiny fees (Aesthetics Committee) are charged when a matter needs to be submitted to the Planning Advisory Committee (Heritage/Aesthetics Committee) for scrutiny, when buildings are older than 60 years or situated in the historical core. The fees are payable per application and are categorized as follows:
 - 7.1.1 Minor alterations to existing buildings <500m²;
 - 7.1.2 Major alterations to existing buildings >500m² and new developments.

8 COMPLEXITY FEES (ADDITIONAL FEES FOR HIGH IMPACT APPLICATIONS) AND AMENDMENT OF URBAN EDGES.

Description

- 8.1 Additional fees are charged on top of the basic application fees when a Heritage Impact Assessment (HIA), Environmental Impact Assessment (EIA) and Traffic Impact Statement / Assessment (TIA/S) are required, since such applications are more complex and involve more work. The complexity fees are charged to cover additional expenses due to the processing of complex applications, resulting from the fact that such applications normally are more complicated to process and due to the fact that it requires input from specialised staff which would not normally be involved in the assessment of applications which doesn't require an impact statement/assessment. The EIA and HIA fees are charged up front like all other fees if the application requires assessment in terms of the NEMA and/or NHRA. If an EIA and/or HIA fee has been paid when the SPLUMA/LUPA/By-law application was submitted and it turns out in the end that it did not lead to a full EIA / HIA, the EIA/HIA fee is not refundable. Complexity fees are charged per assessment/study.

9 APPLICATION FOR SIGNAGE

- 9.1 Application fees for signage (including flags) are paid in respect of each sign applied for. A minimum fee for signs smaller than 1m² is in place, but when signs are larger than 1m², the minimum fee plus the enhancement fee will be payable for every additional m².

10 EXEMPTIONS

- 10.1 All indigent residents which are registered as such with the Municipality and with proof submitted together with all applications for all permanent Departures will be exempted from the application fees applicable to permanent Departures.
- 10.2 All applications submitted by or on behalf of Council are exempt from all the application, advertising and other fees in the attached table. This exemption only applies to applications made by Council or where Council is the developer. All other government institutions must pay the normal fees.
- 10.3 Applications for the establishment of state, provincial and/or council subsidised housing schemes are exempt from all the application and other fees in the attached table. Advertising fees are payable in this regard. Application fees are, however, applicable in subsidized housing areas after the establishment of the areas has been completed; subject to the conditions in the establishment of any of the less formal townships.
- 10.4 All applications required to address / give effect to successful resettlement claims in terms of the Restitution of Land Rights Act, as well as in cases where land has been allocated to a successful claimant, such claimant is allowed to submit only one application, for residential development only (but including subdivision, removal of restrictions, etc, related to such residential development), which application(s) are exempt from all the application and other fees in the attached table. Advertising fees are payable in this regard. If a successful land claimant submits a mixed use development application (which includes non-residential development) on land so obtained, such non-residential development gets charged the normal fees as specified for such application, including advertising and service of notice fees, as if the non-residential part of the application is a separate application from the residential part of the development. In cases where a successful land claimant submits a purely non-residential development application (which does not includes any residential development) on land so obtained, such non-residential development application is subject to all the fees applicable to any other similar application which wasn't obtained by way of the Restitution of Land Rights Act/Rural Act 9.
- 10.5 The above fees, if not specifically exempted, also applies to applications in the BCDA areas where Council is the commenting authority.
- 10.6 The Director: Planning & Economic Development may grant or refuse applications for the exemption of some or all the applicable fees of particular applications which are necessitated due to changes to the developments made at the request of the Environmental Management Services in the interest of environmental or heritage conservation.

<p>These business rules must be read in conjunction with the "LAND USE MANAGEMENT & SPATIAL PLANNING, HERITAGE AND ENVIRONMENT TARIFF STRUCTURE FOR 2020/2021".</p>

STELLENBOSCH

STELLENBOSCH MUNICIPALITY

SUMMARY OF POLICIES

2021/2022

STELLENBOSCH MUNICIPALITY

SUMMARY OF POLICIES

Policy/ By-law	Summarized Nature of change
Wayleave Policy	New Policy
Rates Policy	<p>Changes were made to the following sections within the policy</p> <p>4. DEFINITIONS</p> <p>Furthermore, specific terms or phrases used, but not defined in the MPRA are defined herein to explain said term or phrase for a specific perspective of the MPRA by the Municipality:</p> <p>“bed & breakfast” in relation to Accommodation Establishment means an enterprise operated on a property of which the residential character is maintained, where the owner or operator permanently resides in the same dwelling, where normally only breakfast is served and sleeping accommodation to transient guests is limited to no more than 3 guest bedrooms and provided further, that the enterprise has not been registered as a Guesthouse. This property will be deemed to be a Residential Category.</p> <p>“household income” means the gross sum of all monthly income from all sources. Income sources may include wages, salaries, profits, dividends, pensions, rentals, board & lodging, interest received, grants or investment income and other forms of financial contributions.</p> <p>“residential purposes” in relation to the use of the property means improved property primarily intended for human habitation and inhabited as such; taking cognisance of paragraph 7.9 of this Policy and provided that:</p> <ul style="list-style-type: none"> the following properties are specifically excluded from this definition: hostels, old age homes, guesthouses, and vacant land; <p>6. CATEGORIES</p> <p>6.1 Categories of Property</p> <p>Property Categories, each of which correlates to a distinct use of a property, have been determined as described below.</p> <p>The codes that have been associated with each property Category are listed in paragraph 18.1 of this Policy. In addition, paragraph 18.1 identifies the attributes and criteria that determines the basis for application.</p> <p>The Municipality will apply the following property Categories:</p> <p>(j) Heritage Refer Section 15(2A)(b) in the MPRA.</p> <p>6.2 Categories for Relief Measures</p> <p>The Municipality will consider relief measures on rates, being Exemptions, Rebates and/or Reductions on properties, according to various criteria as described in this Policy.</p> <p>The codes (referred to as the Rebate Codes), associated with the specific relief measure, are listed in paragraph 18.2 of this Policy.</p> <p>8.RELIEF MEASURES</p> <p>8.2 Residential Property</p>

Policy/ By-law	Summarized Nature of change
	<p>8.2.1 The Municipality will not levy a rate on the initial portion of the valuation of a residential property being the sum of:</p> <p>(i) the first R15 000 exclusion on the basis set out in Section 17 (1) (h) of the MPRA; and</p> <p>(ii) on a further R235 000 reduction, provided it does not exceed the remaining valuation in respect of a residential property, or the primary component of a multiple use property, that is categorised for residential purposes, as per the definition in paragraph 4 of this Policy. This reduction will only apply if the total valuation of said property does not exceed R 5 000 000. All non-primary components of a multiple use property or the adjoining units of a sectional title scheme as per paragraph 7.9 of this policy, do not qualify.</p> <p>8.3 Senior Citizens and Disabled Persons</p> <p>Designated owners being registered owners of properties or allocated beneficiaries as per paragraph 7.6 of this Policy who are senior citizens or who are disabled persons may qualify for a rebate according to their household income.</p> <p>8.3.1 Occupy the property as his/her normal residence; and</p> <p>(b) be in receipt of a monthly household income not exceeding the highest income amount as referenced in the table of paragraph 8.3.4 of this Policy; and</p> <p>8.8 Non-Profit Organizations (NPO)</p> <p>Abovementioned organisations which have a total revenue/income not exceeding one million Rand per annum, will receive a 80% rebate. On the other hand, those organisations having a revenue/income exceeding one million Rand per annum will receive a rebate percentage of 20%.</p> <p>8.8.1 Prescribed not-for-gain organisations</p> <p>(f) WERE REMOVED FROM POLICY</p> <p>8.9 Heritage Properties – HEADING AND PARAGRAPH REMOVED</p> <p>16 CONTACT OF RESPONSIBLE OFFICE</p> <p>The contact details for Property Rates enquiries:</p> <p>E-mail Address: enquiries.navrae@stellenbosch.gov.za</p> <p>Telephone Numbers: See Municipal Account for relevant telephone numbers</p> <p>Postal Address: PO Box 17, Stellenbosch, 7601</p> <p>Any Municipal Office in the jurisdiction of Stellenbosch Municipality</p>

	<p>18. CATEGORY AND REBATE CODES</p> <p>18.1 Category Codes</p> <p>RESIDENTIAL:</p> <p>RES RESA Adjoining residential; the Policy paragraph 7.9</p> <p>RES RESIF Municipal Owned: Informal settlements, 100% exclusion will apply</p> <p>Heritage: HER HER MPRA Section 15(2A)(b)</p> <p>Vacant Other: VACO: MUNV Vacant Municipal properties</p> <p>18.2 Rebate Codes</p> <p>NPO Non-Profit Organisation (80% rebate) Rates Policy paragraph 8.8</p> <p>EGVI Exceptional General Valuation Rates Increases Rates Policy paragraph 8.10</p>
Indigent Policy	Policy were reviewed ,with No major changes
Special Ratings By-law	<p>Changes were made within the following sections of the policy:</p> <p>18. SHORT TITLE AND EFFECTIVE DATE</p> <p>(1) This By-Law is called the Special Rating Area By-Law of Stellenbosch Municipality and shall take effect on 01 July 2021.</p> <p>(2) No new special rating area determined in terms of this By-Law may implement its implementation plan prior to 01 July 2020.</p>
Rates By-law	<p>Changes were made within the following sections of the policy:</p> <p>1. PREAMBLE</p> <p>(1) Section 229(1) of the Constitution authorizes a municipality to impose rates on property and surcharges on fees for services provided by or on behalf of the municipality.</p> <p>(2) Section 13 of the Systems Act read with Section 162 of the Constitution requires a municipality to promulgate municipal by-laws by publishing them in the gazette of the relevant province,</p> <p>(3) In terms of Section 3 of the Property Rates Act, a municipal council must adopt a policy consistent with the Property Rates Act on the levying of rates on rateable properties in the municipality.</p> <p>(4) In terms of Section 6(1) of the Property Rates Act, a municipality must adopt by laws to give effect to the implementation of its rates policy.</p> <p>(5) In terms of Section 6(2) of the Property Rates Act, by-laws adopted in terms of Section 6(1) may differentiate between different categories of properties; and different categories of owners of properties liable for the payment of rates.</p> <p>(6) To that effect the Council of Stellenbosch Municipality has enacted a Property Rates By law, as follows:</p> <p>2. INTERPRETATIONDEFINITIONS</p> <p>"Rates Policy" means the Municipality's Property Rates Policy adopted by the Council of the Municipality by a resolution for a specific financial year in terms of Section 3(1) of the Property Rates Act and in terms of this By Law.</p> <p>"Rates" means a municipal rate on property as envisaged in section Section 229(1)(a) of the Constitution.</p>

Policy/ By-law	Summarized Nature of change
	<p>3. OBJECTS</p> <p>The object of this By-Law is to give effect to the implementation of the Rates Policy as contemplated in Section 6 of the Property Rates Act.</p> <p>4. ADOPTION AND IMPLEMENTATION OF RATES POLICY</p> <p>(1) The Council shall adopt and implement a Rates Policy as contemplated in terms of the provisions of Section 3(1) and consistent with the Property Rates Act on the levying of Rates on rateable properties within the jurisdiction of the Municipality.</p> <p>(2) The Rates Policy outlines the Municipality's rating practices; therefore, it is not necessary for this By-law to restate and repeat same.</p> <p>(3) The Rates Policy applicable to a financial year is hereby incorporated by reference in this By-law. All amendments to the Rates Policy as the Council may approve/adopt from time to time, shall be deemed to be likewise incorporated.</p> <p>(4) The Municipality shall not be entitled to levy Rates other than in terms of the valid Rates Policy for an applicable financial year and the annually promulgated resolution which reflects the cent amount in the Rand rate for each category of rateable property.</p> <p>(5) The Rates Policy is available at the Municipality's head office, satellite offices, libraries and website.</p> <p>5. CONTENTS OF RATES POLICY</p> <p>The Municipality's Rates Policy shall, inter alia:</p> <p>(1) Apply to all the Rates levied by the Municipality pursuant to the adoption of the Municipality's annual budget.</p> <p>(2) Comply with requirements for;</p> <p>(a) the adoption and contents of a rates Rates Policy specified in Section 3 of the Property Rates Act.</p> <p>(b) the differentiation of categories of properties and categories of owners of properties as provided for in section Sections 6, 8 and 15 of the Property Rates Act.</p> <p>(c) the process of community participation specified in Section 4 of the Property Rates Act.</p> <p>(d) the annual review of a rates Rates Policy specified in terms of Section 5 of the Property Rates Act.</p> <p>(e) the publication of the adopted By-law in the Provincial Gazette as provided by Section 13 of the Systems Act.</p> <p>(3) Specify principles, criteria, and implementation measures for categories of rateable properties in terms of Section 8 and consistent with the Property Rates Act for the levying of Rates which the Council may wish to adopt.</p> <p>(4) Specify principles, criteria, and implementation measures for the judicious granting of relief measures by means of Exclusions, Exemptions, Reductions and/or Rebates consistent with Section 15 of the Property Rates Act which the Council may wish to adopt.</p> <p>(5) Include such further administrative, control and enforcement mechanisms if any that are consistent with the Property Rates Act and the Systems Act, as the Council may wish to impose in addition to those contained in the Credit Control and Debt Collection By-Law and its associated Policy.</p> <p>6. ENFORCEMENT OF RATES POLICY</p> <p>The Municipality's Rates Policy is enforced through the Municipality's Credit Control and Debt Collection By-Law and its associated Policy and any further enforcement mechanisms stipulated in the Property Rates Act and the Municipality's Rates Policy.</p> <p>7. REPEAL</p> <p>The provisions of any By-laws relating to Property Rates by the Municipality are hereby repealed insofar as they relate to matters provided for in this By-Law.</p>

Policy/ By-law	Summarized Nature of change																														
	<p>9. SHORT TITLE and EFFECTIVE DATE/COMMENCEMENT</p> <p>This By-Law is called the Stellenbosch Municipal Property Rates By-Law and shall take effect on 01 July 2021.</p>																														
Credit Control and Debt Collection Policy	<p>Changes were made within the following sections of the policy:</p> <p>3. ARRANGEMENTS</p> <p>(i) Arrears of Councillors and other Municipal Officials must be settled in full or arrangements to pay off such amounts, by means of salary deductions, may be entered into. This includes the seizure of bonuses or any other additional allowances (this paragraph (i) must be read in conjunction with the relevant sections of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000)).</p> <p>The Stellenbosch Municipality is entitled to recover all arrears more than ninety days by means of salary deductions and proportionally from increases and/or the official's bonus/performance bonus. In this regard, all temporary contract workers are also regarded as municipal officials.</p> <p>12. Ward Allocation Policy	<p>Changes were made within the following sections of the policy:</p> <p>8. CRITERIA FOR THE SELECTION OF PROJECTS</p>

Policy/ By-law	Summarized Nature of change																														
	<p>In response to the current COVID-19 pandemic and the realignment of the budget for 2021/22, with severe budget cuts and adjustments, the following measures will be in place regarding ward allocations until further notice, and replace the information regarding capital and operational ward projects in this policy:</p> <p>i) The CAPEX for ward allocations is withdrawn from ward allocations for 2021/22;</p> <p>ii) The OPEX ward allocation is reduced to R50 000 per ward for 2021/22;</p> <p>iii) That OPEX be utilised to fund COVID prevention projects; this is in line with the request from Western Cape Government – Department of Local Government that ward allocation projects be aligned to address COVID-19 pandemic;</p> <p>iv) The following list of goods will be circulated for councillors to choose from in order to be utilised for the COVID prevention projects:</p> <table><tr><th colspan="3">GOODS AVAILABLE FOR COVID PREVENTION PROJECTS (2021 -22)</th></tr><tr><th>ITEM</th><th>PRICE</th><th>QUANTITY NEEDED</th></tr><tr><td>Masks for children</td><td></td><td></td></tr><tr><td>Masks for adults</td><td></td><td></td></tr><tr><td>Face cloths</td><td></td><td></td></tr><tr><td>Hand towels</td><td></td><td></td></tr><tr><td>Polar fleece blankets</td><td></td><td></td></tr><tr><td>250 ml refill sanitiser spray bottle</td><td></td><td></td></tr><tr><td>5L bulk sanitiser</td><td></td><td></td></tr><tr><td>Hand soap (per box)</td><td></td><td></td></tr></table> <p>v) Prices for the goods will be communicated as soon as the 2021/22 financial year commences. Current prices of goods will be made available to assist with planning processes.</p> <p>vi) A separate form similar to the table above will be issued that must be completed by ward councillors to register the COVID prevention project.</p> <p>vii) The goods will not be issued with a municipal logo, as the logo is only used for officials and official municipal branding.</p> <p>viii) Ward councillors must be discouraged from requesting nutritional support assistance. Currently, the Special Investigations Unit are investigating numerous municipalities around the country on matters related to food parcel / nutritional support irregularities, distribution and allocation.</p> <p>Projects that are to be implemented under the Ward Allocations Policy must comply with the following criteria:</p> <p>8.1 Be within Local Government mandate as defined in legislation.</p> <p>8.14 Projects from the capital budget will be included in the main budget. No ward allocation will be made available for capital projects. Supply Chain Management Policy	<p>Changes were made within the following sections of the policy:</p> <p>DEFINITIONS</p> <p>1.1.5. “Competitive bidding process” means a competitive bidding process referred to in paragraph 12 (b)(i) of this Policy;</p> <p>13. GENERAL PRECONDITIONS FOR CONSIDERATION OF WRITTEN QUOTATIONS OR BIDS</p>																														

Policy/ By-law	Summarized Nature of change
	<p>(b) Has authorised the Stellenbosch Municipality to obtain a tax clearance by means of the Tax Compliance Status Pin from, if applicable from the South African Revenue Services and Central Supplier Database Number (CSD) that the provider's tax matters are in order; and</p> <p>23. PROCEDURE FOR HANDLING, OPENING AND RECORDING OF COMPETITIVE BIDS AND FORMAL WRITTEN PRICE QUOTATIONS IN EXCESS OF R 30,000.</p> <p>(g) Site Inspections / clarification meeting –</p> <p>(ii) If site inspections / clarification meeting are to be held, full details must be included in the bid notice. Service providers that are late for the commencement of the site inspection/clarification meeting will be disqualified.</p> <p>(iii) Minutes of all site inspection/clarification meetings must be kept for record purposes</p> <p>(iv) Any proposed Addendums to the advertised bid document must be tabled at the Bid Specification Committee Meeting for consideration and approval.</p> <p>26. COMMITTEE SYSTEM FOR COMPETITIVE BIDS</p> <p>(2) The Accounting Officer appoints the members of each committee, taking into account section 117 of the Act; and</p> <p>(3) The committee system must be consistent with –</p> <p>(a) Paragraph 27, 28 and 29 of this Policy;</p> <p>(b) Any other applicable legislation; and</p> <p>(c) The Accounting Officer may apply the committee system to formal written price quotations.</p> <p>28. BID EVALUATION COMMITTEES</p> <p>(14) The relevant User Department in consultation with the SCM Unit may, before the bid is considered by the Bid Evaluation Committee, provide a reasonable opportunity to a bidder who made an innocent error and / or omission in their bid document, to correct the innocent error and / or omission, provided that such opportunity will not unduly prejudice any of the other bidders.</p> <p>(15) In an event as described in sub-paragraph 14, bidders shall be afforded a minimum of two (2) working days up to a maximum of five (5) working days (in consultation with the relevant User Department or the Manager: Supply Chain Management) from time of notification to correct such innocent errors and / or omissions. If no response is received from such bidders at the deadline the bid may be deemed to be non-responsive.</p> <p>40. DISPOSAL MANAGEMENT</p> <p>(4) All matters relating to the alienation of movable and immovable assets shall be dealt with in terms of Council's Asset Transfer Policy and the Asset Transfer Regulations, 2008 and Council's adopted Immovable Assets Policy.</p> <p>(7) The Accounting Officer is hereby authorized to dispose of movable capital assets:</p> <p>(8) (a) Up to a value of R 2 000 000.00</p> <p>(7) (b) Up to a value of R1 000 000.00 (CFO and BAC Members)</p> <p>43. PROHIBITION ON AWARDS TO PERSONS WHOSE TAX MATTERS ARE NOT IN ORDER</p>

Policy/ By-law	Summarized Nature of change
	<p>(3) If SARS does not respond within 7 days such person's tax matters may for purposes of subparagraph (1) be presumed to be in order.</p> <p>(4) Where the recommended bidder is not tax compliant on the date of award, the bidder should be notified of the non-compliant status and be requested to submit written proof of tax compliance from SARS within 7 working days from the date of award. The proof of tax compliance submitted by the bidder must be verified by the Municipality. The Municipality will reject a bid submitted by the bidder if such bidder fails to provide proof of tax compliance within the timeframe as set out in this sub-paragraph.</p> <p>53. INCREASE / EXTENSION IN APPROVED CONTRACT SUM / PERIOD</p> <p>57. THE SUSPENSION OF SERVICE PROVIDERS FOR POOR PERFORMANCE AND OTHER BREACHES</p> <p>(3) The municipality must consider imposing following sanctions, subject to sub-clause (2) above:</p> <p>d) All the above will be applicable based on the gravity of the poor performance and will be analysed on a case by case basis co-ordinated by the Contract Management Section.</p> <p>59. GENERAL</p> <p>The Framework for Infrastructure Delivery and Procurement Management (FIDPM) and relevant Circular is attached as Annexures A and B respectively, depending on the ability of Stellenbosch Municipality to implement the content of the Framework, only those parts that are practically implementable will be applied. The proper assessments will be done accordingly.</p>
Development Charges Policy	<p>Changes were made within the following sections of the policy:</p> <p>1. DEFINITIONS</p> <p>1.6 'consumer' means a person who purchases electricity, water or a service relating to the supply of electricity, water or removal of sewerage.</p> <p>1.8 'development charge (DC)' means a charge imposed by the Municipality on a developer or consumer in terms of any applicable law referred to in this policy, or a condition of the approval, payment of which will contribute towards the Municipality's expenditure on capital investment in municipal infrastructure services;</p> <p>1.9 "Engineer" means an eEngineer employed by the "Municipality" or any person appointed by the "Municipality" from time to time and notified as such in writing to the "Developer" to perform the duties envisaged in terms of this Agreement Policy;</p> <p>6. OBLIGATION TO IMPOSE A DEVELOPMENT CHARGE</p> <p>6.2 Development Charges will not apply to the following land use applications, which are deemed to have no significant impact on provision of bulk infrastructure, and which has a social and/or economic benefit to the municipality and/or the community:</p> <p>6.2.1 Home / non-commercial early childhood development centres that serve the surrounding community.</p> <p>6.2.8 Public schools, hospitals, clinics and other public infrastructure projects developed and funded by government which provides a service to especially the poorer communities. These projects will have a social and economic benefit to these communities and the municipality in its whole and in so doing will alleviate some institutional and financial pressure on the Municipality in terms of providing social infrastructure and social development programmes.</p> <p>8. CALCULATION OF DEVELOPMENT CHARGES</p> <p>8.4 The basis upon which development charges unit costs of the civil services and community services will be determined, as envisaged in Paragraph 8.7, shall be consistent with National Treasury's "Policy Framework</p>

for Municipal Development Charges (as amended). The methodology for calculating unit costs can be summarised as follows:

- Choose a planning horizon in the future (say 20 years).
- Use town-planning scenarios and engineering masterplanning to determine what new services are required, such that at that point in the future, the joint capacity of existing and future services matches the number of consumption units that will be in place, being the existing amount plus the future development amount.
- Estimate the costs of the existing and future infrastructure, as though it was all being constructed at the present day, i.e. replacement cost for existing infrastructure or present-day cost for future infrastructure.
- Establish the number of consumption units that the total infrastructure will cater for i.e. existing consumption plus future consumption.
- From the above calculate the cost per unit consumption factor.
- The DC for the development in question is then calculated by multiplying the nett additional consumption needed for that development, by the cost per unit consumption factor.

8.7 Where possible, unit costs for each municipal infrastructure service should be re-calculated every five years to take into account the current and planned capacity for each municipal infrastructure service at the date of re-calculation, and any other relevant factors.

9. ACTUAL COSTS

9.1.4 Where a development is situated outside the urban area and was not taken into account during the determination of the Development Charges tariffs, then the Development Charges of that development will be based on its actual impact, as confirmed by a report by a professionally registered Consultant, appointed by the Developer, and as approved by the Municipality. Examples of such a scenario would be development on farms that supports the primary farming activity, i.e. a cellar on a wine farm. The actual trip generation might be less than what is allowed for in the Development Charges tariff tables and if it can be justified the Development Charges can be based on the actual impact/demand on the bulk infrastructure.

13. SUBSIDIES AND EXEMPTIONS

13.3 Developers will be allowed to apply for exemption for developments that comply with the following criteria:

13.3.1 In the case of registered non-profit organisations/community organisations/charity organisation developing social development projects that is beneficial to the community and where the applicant is able to demonstrate how the proposed development will have a social and/or economic benefit to the municipality. The use of any land or buildings, or any part thereof, shall not be for the private financial benefit of any individual, including as a shareholder in a company or otherwise.

14. OTHER PRINCIPLES TO BE APPLIED

14.2 Development Charges in rural areas/farms: Development Charges will be determined in terms of paragraph 9.1.4 for buildings/development related to the primary farming activities and can be classified

Policy/ By-law	Summarized Nature of change
	<p>as an agricultural building/agricultural industry i.e.: cellar and bottling facilities on a wine farm or a fruit packaging and storage facility on a fruit farm. It can be assumed that in most cases, the people already working or residing on the farm will work in these buildings and not place a significant additional demand on the bulk services. The approved Development Charges tariffs will be applicable for any other development on a farm i.e. a farm stall, function venues, tourist accommodation facilities, conference facilities or other business and commercial activities including wine tasting since these land uses attract people from outside and places an additional demand on the bulk infrastructure.</p> <p>14.8 Handling of properties with historical land use rights: If a property (especially business and industrial zoned property) has an existing zoning right, it does not necessarily mean that DCs have been paid on the full development potential of the property when such zoning was approved. A DC credit can only be granted if a DC for a specific development or building has been paid in the past, or if there are existing permanent, legal buildings (has building plan approval) on the site which service demand has already been absorbed into the bulk service networks. Otherwise there is no justification for granting such a credit. The onus to prove that DCs have been paid is on the Developer/Applicant.</p> <p>14.9 Any increase of the demand of a service, such as electricity, water and sanitation, will trigger the equivalent payment of DCs, whether such property has gone through a town planning development exercise or not. Such DCs will be payable and the increase of services will not be allowed until such DCs have been paid, as provided for in Section 7 of the Norms & Standards for Water Services Authorities as allowed for by the Water Services Act as well as the NRS 069 CODE OF PRACTICE FOR RECOVERY OF CAPITAL COSTS FOR DISTRIBUTION NETWORK ASSETS as allowed for by the Electricity Regulation Act, Section 15</p> <p>14.10 Temporary Departures: No DCs will be charged on a temporary departure application, since the impact will be of a temporary nature. However, any further application to extend such right will trigger a DC. Should any upgrades be required due to the impact, even if of a temporary nature, the Developer will have to construct such upgrade at his own cost.</p>
Grant-in-Aid	<p>Changes were made within the following sections of the policy:</p> <p>6. GENERAL GUIDELINES AND CATEGORIES</p> <p>6.1. General Guidelines</p> <p>P7: 6.1.4: Insert word “applications” after funding at the start of the sentence.</p> <p>P7: 6.1.4 Insert (vii): “Where an applicant did not attend the compulsory clarification session as advertised”</p>

Policy/ By-law	Summarized Nature of change
	<p>6.1.4. Funding applications however will not be considered in the following instances:</p> <ul style="list-style-type: none"> (i) Where a project or organisation is already receiving funds from Council in terms of Council's functions. Applicants are required to disclose other sources of funding; (ii) Where in Council's opinion, an organisation receives sufficient funds from other sources to sustain its activities or the project applied for. For this purpose, organisations must submit financial statements and a budget for the ensuing financial year; (iii) Where only an individual will benefit; (iv) For political or ratepayers organisations/groupings; (v) Projects outside the boundaries of the Municipality; (vi) Where expenses have already been incurred, (vii) Where an applicant did not attend the compulsory clarification session as advertised, and (viii) Where applications were received after the due date and time for submissions.
Accounting Policy	<p>Changes were made within the following sections of the policy:</p> <p>1. Basis of Preparation</p> <p>In the absence of an issued and effective Standard of GRAP, accounting policies for material transactions, events or conditions were developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 as read with Directive 5.</p> <p>The principal accounting policies adopted in the preparation of these annual financial statements are set out below.</p> <p>1.1 Going concern assumption</p> <p>These unaudited annual financial statements have been prepared based on the expectation that the municipality will continue to operate as a going concern for at least the next 12 months.</p> <p>1.3 Internal reserves</p> <p>Self-insurance reserve</p> <p>The municipality has a Self-insurance reserve to set aside amounts to offset potential losses or claims that cannot be insured externally. The balance of the self-insurance fund is invested in short-term investments. Claims are settled by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.</p> <p>Accumulated surplus</p> <p>The accumulated surplus/deficit represent the net difference between the total assets and the total liabilities of the municipality. Any surpluses and deficits realised during a specific financial year are credited/debited against accumulated surplus/deficit. Prior year adjustments, relating to income and expenditure, are debited/credited against accumulated surplus when retrospective adjustments are made.</p> <p>1.4 Materiality</p> <p>Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or</p>

misstatement judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor.

Assessing whether an omission or misstatement could influence decisions of users, and so be material, requires consideration of the characteristics of those users. The Framework for the Preparation and Presentation of Financial Statements states that users are assumed to have a reasonable knowledge of government, its activities, accounting and a willingness to study the information with reasonable diligence. Therefore, the assessment takes into account how users with such attributes could reasonably be expected to be influenced in making and evaluating decisions.

Sources of estimation uncertainty

Revenue recognition

Accounting Policy 1.16 on Revenue from Exchange Transactions and Accounting Policy 1.17 on Revenue from Nonexchange Transactions describes the conditions under which revenue will be recorded by the management of the municipality.

In concluding judgement, management considered the detailed criteria for recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and, in particular, whether the municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services are rendered, whether the service has been rendered. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

Impairment of financial assets

Accounting Policy 1.11: Financial Instruments, referring to the paragraph on impairment of financial assets, describes the process followed to determine the value with which financial assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment of financial assets as set out in GRAP 104: Financial Instruments - Recognition and Measurement. The management of the municipality is satisfied that impairment of financial assets recorded during the year is appropriate. Details of the impairment loss calculation are provided in the applicable notes to the annual financial statements.

Useful lives of property, plant and equipment and intangible assets

As described in Accounting Policy 1.8 and 1.9 the municipality depreciates its property, plant and equipment and intangible assets over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful life, which is determined when the assets are brought into use. The review of useful life and residual values of assets are only reviewed if one of the indicators of potential review is triggered.

Employee benefit obligations

The municipality obtains actuarial valuations of its employee benefit obligations. The employee benefit obligations of the municipality that were identified are post-retirement health benefit obligations and long-service awards. The estimated liabilities are recorded in accordance with the requirements of GRAP 25. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in the applicable notes to the annual Financial Statements.

Impairment of non-financial assets

The recoverable amounts of cash generating units have been determined based on the higher of value in use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

The recoverable amounts of individual assets have been determined based on the higher of value in use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

Impairment of statutory receivables

If there is an indication that a statutory receivable, may be impaired, the municipality measures the impairment loss. The impairment loss is measured as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable, are reduced, either directly or through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

In estimating the future cash flows, the municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and, if applicable, any risks specific to the statutory receivable, or group of statutory receivables, for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable are revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows.

Measurement

Incomplete construction work is stated at historical cost. Depreciation only commences when the asset is available for use.

Depreciation

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

1.9 Intangible assets

Item	Useful life
Computer software	3 - 30 years
Internally generated: Capital development	Straight-line 5 - 7 years
Service operating and land rights	Straight-line 5 - 30 years

Derecognition

Financial assets

Cash includes cash on hand and cash with banks. Cash equivalents are short term highly liquid investments that are held with registered banking institutions with a maturity period of between three and twelve months and are subject to an insignificant risk of change in value. Cash and cash equivalents are carried in the balance sheet at amortised cost.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand and cash with bank, net of bank overdrafts.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

1.15 Impairment of cash-generating assets

Cash generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:

- ☐ the period of time over which an asset is expected to be used by the municipality; or
- ☐ the number of production or similar units expected to be obtained from the asset by the municipality.

Management has judged all assets as non cash generating assets.

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

1.16 Impairment of non- cash generating assets

Non cash generating assets are assets other than cash generating assets.

Identification

When the carrying amount of a non cash generating asset exceeds its recoverable service amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a non cash generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the entity also tests a non cash generating intangible asset with an indefinite useful life or a non cash generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable

service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Value in use

Value in use of non cash generating assets is the present value of the non cash generating assets remaining service potential.

The present value of the remaining service potential of a non cash generating assets is determined using the following approach:

Depreciated replacement cost approach

The present value of the remaining service potential of a non cash generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the current reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the municipality would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

Recognition and measurement

If the recoverable service amount of a non cash generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non cash generating asset is adjusted in future periods to allocate the non cash generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Reversal of an impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non cash generating asset may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non cash generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non cash generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non cash generating asset is adjusted in future periods to allocate the non cash generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Multi employer plans

The municipality classifies a multi employer plan and/or state plans and/or composite social security programmes as a defined contribution plan or a defined benefit plan under the terms of the plan (including any constructive obligation that goes beyond the formal terms).

Where a plan is a defined contribution plan, the municipality accounts for in the same way as for any other defined contribution plan.

Where a plan is a defined benefit plan, the municipality account for its proportionate share of the defined benefit obligation, plan assets and cost associated with the plan in the same way as for any other defined benefit plan.

When sufficient information is not available to use defined benefit accounting for a plan, that is a defined benefit plan, the municipality account for the plan as if it was a defined contribution plan.

Other long term employee benefits

The municipality provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

Long term service awards is payable after 10 years of continuous service and after every 5 years thereafter to employees. Additional to this employees shall be entitled to a 14th cheque for continuous employment on their 30th and every 5th year onward. Furthermore a retirement gift is payable on retirement to employees with 10 years or more service. The provision is an estimate of the long service award based on historical staff turnover based on historical staff turnover. No other long service benefits are provided to employees.

1.22 Accounting by principles and agents

2 Identification

An agent is an entity that has been directed by another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf, and for the benefit of, another entity (the principal).

Identifying whether an entity is a principal or an agent

When the municipality is party to a principal agent arrangement, it assesses whether it is the principal or the agent in accounting for revenue, expenses, assets and/or liabilities that result from transactions with third parties undertaken in terms of the arrangement.

The assessment of whether a municipality is a principal or an agent requires the municipality to assess whether the transactions it undertakes with third parties are for the benefit of another entity or for its own benefit.

Binding arrangement

The municipality assesses whether it is an agent or a principal by assessing the rights and obligations of the various parties established in the binding arrangement.

Where the terms of a binding arrangement are modified, the parties to the arrangement re assess whether they act as a principal or an agent.

Assessing which entity benefits from the transactions with third parties

When the municipality in a principal agent arrangement concludes that it undertakes transactions with third parties for the benefit of another entity, then it is the agent. If the municipality concludes that it is not the agent, then it is the principal in the transactions.

The municipality is an agent when, in relation to transactions with third parties, all three of the following criteria are present:

- It does not have the power to determine the significant terms and conditions of the transaction.
- It does not have the ability to use all, or substantially all, of the resources that result from the transaction for its own benefit.
- It is not exposed to variability in the results of the transaction.

Where the municipality has been granted specific powers in terms of legislation to direct the terms and conditions of particular transactions, it is not required to consider the criteria of whether it does not have the power to determine the significant terms and conditions of the transaction, to conclude that is an agent. The municipality applies judgement in determining whether such powers exist and whether they are relevant in assessing whether the municipality is an agent.

Recognition

The municipality, as a principal, recognises revenue and expenses that arise from transactions with third parties in a principal agent arrangement in accordance with the requirements of the relevant Standards of GRAP.

The municipality, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The municipality recognises assets and liabilities arising from principal agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

1.29 Changes in accounting policies, estimates and errors

Changes in accounting policies that are affected by management have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period specific effects or the cumulative effect of the change in policy. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Changes in accounting estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the notes to the annual financial statements where applicable.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

1.30 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments are not recognised in the statement of financial position as a liability, but are included in the disclosure notes in the following cases:

- approved and contracted commitments;
- where the expenditure has been approved and the contract has been awarded at the reporting date; and
- where disclosure is required by a specific standard of GRAP.

1.31 Value Added Tax

The municipality accounts for Value Added Tax on the cash (receipt) basis.

1.34 Construction contracts and receivables

Construction contract is a contract, or a similar binding arrangement, specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated or interdependent in terms of their design, technology and function or their ultimate purpose or use.

Contractor is an entity that performs construction work pursuant to a construction contract.

A contractor is an entity that enters into a contract to build structures, construct facilities, produce goods, or render services to the specifications of another entity either itself or through the use of sub contractors. The term "contractor" thus includes a general or prime contractor, a subcontractor to a general contractor, or a construction manager.

2.2 Standards and interpretations issued, but not yet effective

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2020 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
☐ GRAP 34: Separate Financial Statements	01 April 2020	Unlikely there will be a material impact
☐ GRAP 35: Consolidated Financial Statements	01 April 2020	Unlikely there will be a material impact
☐ GRAP 36: Investments in Associates and Joint Ventures	01 April 2020	Unlikely there will be a material

Policy/ By-law	Summarized Nature of change			
				impact
	☐	GRAP 37: Joint Arrangements	01 April 2020	Unlikely there will be a material impact
	☐	GRAP 38: Disclosure of Interests in Other Entities	01 April 2020	Unlikely there will be a material impact
	☐	GRAP 110 (as amended 2016): Living and Non-living Resources	01 April 2020	Unlikely there will be a material impact
	☐	GRAP 18 (as amended 2016): Segment Reporting	01 April 2020	Not expected to impact results but may result in additional disclosure
Asset Management Policy	Changes were made within the following sections of the policy: Review of residual value and useful life <ul style="list-style-type: none">• The municipality should assess whether there is any indication that the expected useful life of the asset has changed based on whether the condition of the asset has improved or declined. This is based on any condition assessments undertaken by the entity on its assets during the reporting period. Paragraph .60(f) of GRAP 17 should not be read as requiring a condition assessment at each reporting date. Condition assessments will be undertaken by entities on selected or identified assets as part of its on-going asset management. Instead, any information available from any condition assessments undertaken during the reporting period should be used to assess whether the useful life of particular assets should be changed.The residual value and useful life of an asset should be reviewed at least at each reporting date (GRAP 17.61).• All movable assets with a useful life of two years or less will be reviewed on an annual basis to ensure adherence to GRAP 1757 (c) if no other indicators are present or detected during the year under review.• The residual value of an asset may increase to an amount equal to or greater than the asset’s carrying amount. If it does, the asset’s depreciation charge is zero unless and until its residual value subsequently decreases to an amount below the asset’s carrying amount (GRAP 17.654)

1. INTRODUCTION

1.1 Legal Context

In terms of S151 of the Constitution of the Republic of South Africa, 108 of 1996, a municipality has the right to govern on its own initiative, the local government affairs of its community, subject to national and provincial legislation.

S156 of the Constitution grants the municipalities the right to administer the local government matters listed in Schedule 5B, which include municipal roads. A municipality may make by-laws for the effective administration of municipal roads.

This Policy will be converted into municipal by-laws to give it legal effect.

1.2 Need for Co-ordination

The collective value of services infrastructure contained within the Public Road Reserve and the road itself amounts to a considerable value. This infrastructure needs to be maintained, periodically rehabilitated and replaced from time to time. Such activities can result in considerable delays, inconvenience, danger and additional costs to the road users and Municipality itself if not well planned and coordinated. The potential damages that can be suffered by either party include:

- Damage to roads and other Services;
- Damage to vehicles;
- Injury to vehicle occupants or pedestrians;
- Reduction of the useful life of the road, footway or other Services; and
- Time and social costs caused by delays.

It is apparent that careful control and co-ordination of all Work in the public road reserves is a prerequisite for effective service delivery. This responsibility resides with The Stellenbosch Municipality and its Service Departments to continuously improve their capability to provide such services.

Being the custodian of all municipal Road Reserves, the Infrastructure Services Directorate – Roads, Transportation and Stormwater Sub-Unit within The Stellenbosch Municipality initiated a programme to establish the necessary co-ordination activities and policies regarding Work in the public road reserves. This document is the first deliverable of the programme as implemented by the Asset Management and Wayleaves Sub-Unit. It attempts to provide a basic framework for ensuring proper co-ordination and co-operation between the various departments as well as external parties who conduct Work in the public road reserves.

The document was prepared with the aim to minimise the effect of all Work in the public road reserves to the benefit of all concerned and in particular the ratepayers, road users (motorists and pedestrians), and eventually the coordinating body within The Stellenbosch Municipality. Included in this document are the procedures to apply for, process and approve Wayleaves, procedures to follow for undertaking and completion of Work, as well as a reference to specifications according to which the Work must be done.

This initiative can only succeed if all internal and external parties that work in the public road reserves constructively cooperate by working according to this Code and by providing feedback on how the system can be improved.

1.3 Establishing a Service Co-ordinator

The Infrastructure Services Directorate has identified that this co-ordination function will need to:

- Improve the interdepartmental communication on annual Work plans and the execution of such Work;
- Coordinate and regulate all Work carried out within the public road reserves;
- Minimise the danger and inconvenience to the public;
- Minimise the damage to existing Services;
- Reduce the number of legal claims; and,
- Promote the use of technology, such as Geographical Information Systems (GIS) to locate Services.

In order to effectively implement and sustain such a function a Service Co-ordinator and a Quality Control Engineer (collectively the Asset Management & Wayleaves section) are being established within The Stellenbosch Municipality. The four essential tasks that must be accomplished in the process of establishing the Service Coordinator and the Quality Control Engineer are:

- Establishing the necessary Council Policy in this regard (covered by this document);
- Establishing effective and simplistic procedures (covered by this document);
- Establishing effective Municipal Bylaws (future activity); and,
- Establishing an effective Organisational Structure (future activity).
- Proper record-keeping of each approval and work done on-site (future activity).

The process to develop the Policy included the following activities:

- Identifying and documenting the Stellenbosch Municipality requirements in terms of the Policy and procedures;
- Identifying representatives for both internal and external stakeholders to participate in the policy formulation process;
- Researching existing documentation and other information sources as provided by the Stellenbosch Municipality and representatives;
- Developing of a draft Policy and Procedures;
- Facilitating workshops on the document; and
- Finalising documentation and getting approval from the Stellenbosch Municipality Council.

1.4 Document Structure

This document is organised into three sections. The following is a brief description of each section:

Section 1 – Introduction: This section aims to illustrate the need for coordination and responsibility of the custodian of the public road reserves to coordinate. It continues by explaining the development approach that was followed.

Section 2 – Definitions: This section is a summary of definitions of terms used throughout the document.

Section 3 – Policy: The Wayleave Policy as adopted by Council is explained under a collection of topics, including the Basic Wayleave Procedure. This structure was used in order to simplify the use of the document.

1.5 Supporting Documents

Three supporting documents, which documents are incorporated and form part of this Policy.

- The General Conditions relating to Wayleave Applications. These general conditions may be amended by the Service Co-ordinator depending on the nature of the Work to be carried out.
- Wayleave Work Permit/Approval form.
- Services Verification Meeting Certificate.
- Wayleave Guarantee Checklist.
- Wayleave Tariffs as contained in the Municipal Tariff Book.
- Certificate of Completion.

DRAFT

2. DEFINITIONS

The following words and phrases have the meaning assigned to them in this Code unless the context otherwise indicates:

"Authorised Agent" means an agent who is authorised by the Service Co-ordinator to perform specified Services;

"Backfilling" refers to the replacement of the structural layers in the trench or excavation and includes the base, sub-base, selected subgrade and subgrade, but excludes the surfacing (see Reinstatement);

"Certificate of Completion" means the document issued by the Professional Engineer appointed by the Wayleave Holder as proof that Work in the public road reserves has been completed according to the specifications of this document;

"Code" means the Policy for Work in the Public Road Reserve (PRR) as approved by the Council and as agreed to by the Parties including any appendices attached thereto;

"Council" means the Municipal Council of The Stellenbosch Municipality established by Provincial Notice No. 352 of 2000 dated 19 September 2000, as amended, or its successor in title, and any committee or person to which or whom an instruction has been given or any power, function or duty has been delegated or sub-delegated in terms of, or as contemplated in, section 59 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000);

"Distance of Excavation" means the shortest horizontal distance between the electrical equipment or electrical structure nearest to the excavation. "Electric structure" means any power line tower, electric pole, switch box, miniature substation fence or building or any other structure used in the distribution of electricity;

"Emergency Work" is defined as any Work that is required to prevent or end a dangerous situation, to prevent or end an unplanned interruption in the supply of a Service, or to avoid any substantial losses. It is important to note that a lack of proper planning of Work to be carried out will not justify Emergency Work and such activities will be stopped by the Service Coordinator;

"Lane Rentals" mean the rentals that are paid to the Service Coordinator by a Service Agency, excluding a Municipal Department, whose Work in the Public Road Reserve (PRR) results in time delay costs (TDC) being incurred by the users of the Public Road Reserve (PRR);

"Municipal Department" means any Department that belongs to or is controlled by the Council;

"Professional Engineer" means a person registered as a Professional Engineer/Technologist in terms of the Engineering Professions Act, 2000, appointed and funded by the Wayleave Holder to ensure compliance with the Conditions of Approval of the Wayleave. Appointment of such a person is required to control the Works wherever any excavation is involved.

"Public Road Reserve" means the full width of a public road, and includes the verge and the roadway;

"Reinstatement" refers to replacing the bituminous surfacing, paving blocks or grass, as applicable, in the case of roads, footways and verges;

"Routine Maintenance Work" is defined as all types of Work involved in maintaining the services in the public road reserves and does not require excavation, traffic control or reinstatement activities;

"Security Deposit" means the refundable deposit required to be paid to the Municipality in respect of each Wayleave approval issued, either a fixed amount per the tariff register (for smaller projects), a percentage of the costs of the works to be undertaken or in an approved and valid form of bank guarantee;

"Service" means any system for supplying a public need that a Service Agency has on/in the Public Road Reserve (PRR);

"Service Agency" means any Municipal Department, Public Agency or utility that has a Service in the Public Road Reserve (PRR);

"Service Coordinator" means the person/official/institutional body established by the Council with the sole responsibility to carry out the administrative functions of receiving and processing applications for wayleaves, obtaining comments from the various internal and external service agencies, and (following the decision by the Strategic Management Committee) conveying this decision in writing to the Applicant, namely to approve with conditions, or reject with reasons, any application, and to provide record-keeping of each application and installation;

"Service-Sharing Installation" means installations of a service which are designed to utilise existing ducting or pipelines without the need for excavations, except minimal excavation/construction at junctions or terminals;

"Quality Control Engineer" means the person/official/institutional body identified by the Stellenbosch Municipality to coordinate and regulate any work undertaken in those sections of the public road reserves that fall within the Municipal area of the Council;

"Wayleave" generally means the formal approval to carry out Work in the Public Road Reserve in specific positions and during a specific period.

"Wayleave Applicant" means the institution or Service Agency who currently owns or would own the future Service, who applies for a Wayleave;

"Wayleave Holder" means the person, institution or Service Agency who is in possession of a Wayleave Approval Document/Work Permit approved by the Service Co-ordinator;

"Wayleave Work Approval Document/ Work Permit" means the signed document/s issued by the Service Coordinator, detailing the Work which has been approved and the period during which the Work shall be carried out, and includes approved drawings/plans and Conditions of Approval;

"Work" in the Public Road Reserve means any activity, including the activities provided for in Section 1 of this Code, carried out within the Public Road Reserve. It includes any project related activities, irrespective of the size of the project.

3. POLICY

3.1 Overview

3.1.1 The coordination of Work in the public road reserves deals with two aspects, namely:

3.1.1.1 Planning the time schedule for future Work in the public road reserves so that the Work can be executed in a logical sequence, e.g. avoiding the placement of a Service in a road that was surfaced during the previous month. This could involve new construction, rehabilitation or Routine Maintenance Work; and

3.1.1.2 The application for and approval of a Wayleave for the execution of any Work in the public road reserves.

3.1.2 The co-ordination of Work schedules described under 3.1.1.1 above may result in specific co-ordination issues where the Service Co-ordinator, in consultation with the Quality Control Engineer, has to ensure that an acceptable solution is defined by the Service Agencies involved.

3.1.3 The role of the Quality Control Engineer is to facilitate coordination between the various Service Agencies. Each Service Agency will have its own project leaders and Professional Engineers. They are responsible for the implementation of their projects together with compliance with the Council's policies, procedures and standards.

3.1.4 The approval of a Wayleave means that:

3.1.4.1 The Wayleave Holder has permission to:

3.1.4.1.1 place a new Service in the Public Road Reserve;

3.1.4.1.2 do excavations in the Public Road Reserve;

3.1.4.1.3 do vehicular and pedestrian control in the Public Road Reserve; and,

3.1.4.1.4 do Reinstatement Work on the road and pavement surfaces where excavations have been made.

3.1.4.2 The Council intends to protect the new Service in its position in the public road reserves against damage by other parties while working in the public road reserves. However, it cannot be held responsible for any damages incurred.

3.1.4.3 The cost associated with relocating the Service when a road is widened or rebuilt remains with the Service Agency that owns the Service.

3.1.4.4 The cost to relocate a Service owned by the Council must be included in the project cost.

3.2 Planning Work Time Schedules

3.2.1 The necessary procedure that must be followed for planning the time schedule of future Work is as follows:

3.2.1.1 Within a designated time period from the approval of this Policy and publication of the by-laws each external Service Agency shall provide to the Council digital records for capture into the Council's GIS, of all of its services within the jurisdiction of Stellenbosch Municipality. This will form the basis for all future planning and updating of new installations.

- 3.2.1.2 By 30 March of each year, the various internal and external Service Agencies shall submit Work Plans, for the next 1-year period to the Service Co-ordinator.
- 3.2.1.3 These Work Plans shall show:
 - a) The nature of the Work, e.g. the placement of new water main, or the replacement of a water/ sewer line.
 - b) The location of the Work in terms of street blocks and the side of the public road reserves where the Work will be executed, with due regard for the Councils typical cross-section for the public road reserves.
 - c) The extent of the Work, i.e. the start and end positions.
 - d) The planned timing of the Work, i.e. from month/year to month/year.
 - e) Reference to the Work in the latest approved Integrated Development Plan of Council if applicable.
- 3.2.1.4 The Service Coordinator, in consultation with the Quality Control Engineer, shall review the Work plans in order to determine possible conflicts in the planned Work.
- 3.2.1.5 Before the end of June each year the Service Coordinator, in consultation with the Quality Control Engineer, shall schedule a Service co-ordination meeting with the internal and external Service Agencies where the identified conflicts will be discussed and resolved.
- 3.2.1.6 A second co-ordination meeting may be held in July/August to resolve any changes that may have resulted out of the budget approval process.

3.3 Basic Wayleave Procedure

- 3.3.1 The basic procedure that is required for Work in the public road reserves is as follows:
 - 3.3.1.1 Permission to work in the public road reserves must be obtained from the Service Coordinator through a formal Wayleave application in the form of a letter describing the Work to be done with details and design drawings/plans.
 - 3.3.1.2 The Wayleave Applicant must firstly obtain Service plans, indicating the positions of existing Services from the Service Agencies identified by the Service Coordinator, where available. The Service plans must indicate the positions and type of Services in the area where Work will be undertaken. It may be necessary for the Applicant to carry out certain preliminary Work in order to determine precise positions and dimensions of any existing services which are not clear from the Service Plans which have been consulted.
 - 3.3.1.3 The Wayleave Applicant shall ensure that the control section on the Wayleave application form is signed by each Service Agency, indicating that in principle there is no objection to the issuing of the Wayleave, alternatively where there is an objection then detailed reasons and motivations for such objection must be given. This approval will be subject to technical compliance with the standards of the Service Agencies involved as well as compliance with the standards of The Stellenbosch Municipality and the Work planned by the Council within the area under consideration.
 - 3.3.1.4 Once the control section has been completed by all the Service Agencies, the application must be made for the issuing of a Wayleave Work Permit in accordance with the procedure set out in this document. No Work in the

- public road reserves may commence before a Wayleave has been approved and a Wayleave Work Permit issued for that Work
- 3.3.1.5 The Service Coordinator, in consultation with the Quality Control Engineer, will review the Wayleave application and prepare a report on the application, with recommendations.
- 3.3.1.6 The Service Co-ordinator shall submit the report to the Manager: Asset Management and Systems detailing the application, the various Service Agencies consulted, their comments received, confirmation of payment of the processing fees and the relevant security deposit, and confirmation of the appointment by the Applicant of a Professional Engineer or Technologist if any excavation is involved in the proposed Works, and after consultation with the Quality Control Engineer, the proposed decision, with conditions to be imposed upon approval, or the reasons for refusal.
- 3.3.1.7 Once approved, the decision to approve with conditions, or to refuse with reasons, shall be forwarded by the Service Co-ordinator to the Applicant. In the case of approval, the documents forwarded to the Applicant will include two copies of each of the letter indicating approval of the application and the conditions under which the approval is given, the signed approved plans, Signed Site Services Verification Certificate and the signed Wayleave Work Permit form. One copy of the letter of approval with Conditions imposed by Council together with the approved plans for a specific project must be signed as accepted by the Applicant and returned for filing.
- 3.3.1.8 The security deposit must be deposited in a Municipal suspense account for the purpose and will be used to correct unsatisfactory Work or reinstatements if need be.
- 3.3.1.9 The Work must be carried out according to this Policy, any other applicable laws and policies, and the procedures and specifications as referred to in the Conditions of Approval.
- 3.3.1.10 The Wayleave Work Permit and the Service plans of the Service Agencies must be kept on-site while the Work is in progress.
- 3.3.1.11 Additional copies of the Work Permit and approval documents may be obtained from the Service Coordinator if the Wayleave is applicable to more than one Work area or Work team.
- 3.3.1.12 Work will be stopped if either the Wayleave Work Permit or the Service plans are not available during inspections on-site or if any of the Wayleave Conditions are not being met. Work will be stopped until the required documents are available on site. Failure to comply with the Wayleave Conditions may impact other applications being made by the same Service Provider.
- 3.3.1.13 On completion of the Work, all trenches and excavations in the public road reserves must be Backfilled and Reinstated according to the specifications of the Quality Control Engineer, referred to by this document.
- 3.3.1.14 On completion of the Work and permanent Reinstatement, a Certificate of Completion signed by the Wayleave Holder's Professional Engineer must be sent to the Service Coordinator by the Wayleave Holder.
- 3.3.1.15 The Quality Control Engineer must review the Completion Certificate as well as carry out an inspection of the site after receiving the Completion Certificate, and sign the certificate confirming that all conditions have been met.
- 3.3.1.16 The applicable guarantee period will be stated in the letter of approval/conditions (usually 12 months).
- 3.3.1.17 Work performed under an approved Wayleave can only be performed in

normal working hours (Mondays – Thursdays 08:00-17:00 and Fridays 08:00-15h00). Working after hours, on public holidays or on the weekend is not permitted. Any work performed outside of business hours will attract a tariff as per the Municipal Tariffs. This tariff will apply before any new applications will be accepted from the Wayleave Applicant or non-Wayleave Holder.

3.3.1.18 Where work in the road reserve has been performed without an approved wayleave, the tariff for unauthorised work as per the Municipal Tariffs will apply. This tariff will apply before any new applications will be accepted from the Wayleave Applicant or non-Wayleave Holder.

3.3.2 This Code applies to all persons that carry out Work in the public road reserves in the Municipal area of the Council, such as internal Municipal Departments, external organisations, Service Agencies and contractors. It does not apply to work in national or provincial Road Reserves within the judicial area of the Council.

3.4 Work in the Public Road Reserve

3.4.1 Work in the public road reserves includes the digging of trenches, tunnelling, erection of signboards, erection of structures, street shaping, planting of trees in the public road reserves and any other Work that may affect motorists, cyclists, pedestrians, the road, footways, kerbing, traffic signs, traffic signals, street lighting, underground or overhead Services or any other structure or Service that is contained within the public road reserves.

3.4.2 The types of Work that require approval from the relevant Service Agencies before a Wayleave is granted are deemed to be a provision of a new Service and will be conducted according to the procedures in Section 3.3 above. In general, such Work refers to the positioning of a new Service, excavation in the public road reserves, traffic control and Reinstatement of the roadway and pavements. Examples include inter alia:

3.4.2.1 Work relating to the installation or maintenance of underground or overhead Services by Council's Service Agencies like Roads and Transportation, Water and Sanitation, Electricity, Land and Environmental Planning and City Planning.

3.4.2.2 Work relating to the installation or maintenance of underground or overhead Services done by non-Council Service Agencies such as telecommunication, data cables, electricity, gas, oil and regional water supply.

3.4.2.3 The erection of structures that require approved building plans in terms of the National Building Regulations and Building Standards Act 103 of 1977;

3.4.2.4 The erection of advertising signs and structures that require approval in terms of the relevant by-laws;

3.4.2.5 Works in the public road reserves, such as the construction of new roads, road widening or accesses to developments, paving, bollards, garden walls, etc. undertaken by developers or private property owners;

3.4.2.6 The installation of new connection points for municipal Services, such as water, sewers, electricity and stormwater drainage from developments.

3.4.3 The types of Work for which prior approval from Service Agencies cannot be obtained due to the nature of the Work is deemed Emergency Work and must be undertaken according to the procedures set out in Section 3.17.

3.4.4 The types of Work that do not include any construction Work are deemed Routine.

- 3.4.5 Maintenance Work and must be executed according to the procedures set out in S
- 3.4.6 An application shall also be made in respect of Works classified as Service-Sharing Installations which involve minimal or no excavation. Only if there is absolutely no excavation involved does it become unnecessary to appoint a Professional Engineer to be in control of the Works.

3.5 Wayleave

- 3.5.1 All Work in the public road reserves is controlled by a Wayleave. A Wayleave is simply permission to work at a specified time in a specified area in the public road reserves according to approved conditions.
- 3.5.2 A Wayleave Application may be submitted for a small or large project that covers Work in any part of the Municipal Area, provided that the position and expected start/end dates of all Work in the public road reserves are adequately described under the description of the Work to be done.
- 3.5.3 General conditions are stated on the Wayleave form and may include, but are not restricted to, the following:
 - 3.5.3.1 Description of Work to be done;
 - 3.5.3.2 Timeframe within which the Work must be done;
 - 3.5.3.3 Location of Work to be done. (Provision can be made for big projects with multiple locations. The scope of big projects must be limited to manageable portions from the Wayleave perspective. The Service Coordinator/Quality Control Engineer will be able to direct project managers in this regard;
- 3.5.4 Additionally, there may be Specific conditions relating to the Wayleave which will be stated on or referred to on the Wayleave. Such conditions may include:
 - 3.5.4.1 Specific working conditions required in terms of the Occupational Health and Safety Act (Act no 85 of 1993);
 - 3.5.4.2 Methods of Work execution in protected roads and precincts; and,
 - 3.5.4.3 Reinstatement requirements.
 - 3.5.4.4 A Wayleave Work Permit must be obtained before any approved Work may be done in the public road reserves.
- 3.5.5 To obtain a Wayleave, a Wayleave application form must be submitted, together with:
 - 3.5.5.1 A traffic control plan showing how vehicular and pedestrian traffic will be accommodated during the execution of the Works in the public road reserves.
 - 3.5.5.2 Two (2) copies of the design drawing/plans showing details of the proposed Work. An additional legible digital copy is also required.
 - 3.5.5.3 Subject to 3.5.7 below, proof of payment of the required processing fee and the applicable deposit or submission of proof of sureties already held by the Council over the Work.
 - 3.5.5.4 Proof of appointment of Professional Engineer or Technologist appointed to monitor the construction and Reinstatement and to provide a Completion Certificate once completed.
 - 3.5.5.5 Proof of appropriate public liability insurance and indemnity insurance.

- 3.5.6 Details required on the design drawing referred to in 3.5.5.2 are:
- 3.5.6.1 A clear depiction of the proposed Work.
 - 3.5.6.2 Indication where Services are to be installed and the depth of the Service below the surface level of the relevant portion of the public road reserves.
 - 3.5.6.3 Distance of the Service from the public road reserves boundary (i.e. the property boundary).
 - 3.5.6.4 Position and extent of all structures, including underground structures such as manholes, chambers and junction boxes.
 - 3.5.6.5 The location of all other Services in the public road reserves in relation to the proposed services to be installed. Services are located by obtaining information from the Service Agencies within the Council and by doing cross-cuts where required. The use of cross cuts, as explained in paragraph 3.14, is strongly recommended.
 - 3.5.6.6 A Wayleave Work Permit will only be issued once all the requirements have been complied with and will be subject to any conditions specified in Section 3.3 and issued in terms of this Policy.
- 3.5.7 When the Wayleave Applicant is an internal Council Department, then the Wayleave Applicant shall provide a written assurance that they will be responsible for obtaining the deposit or proof of sureties (see 3.5.5.3) and the appointment, either internally or externally, of a suitably qualified engineer to supervise the project (see 3.5.5.4) that are required to protect the Council's interests.
- 3.5.8 The application for a Wayleave must be submitted timeously to ensure that the Wayleave can be issued before the Work is programmed to start. **WORK BEING CARRIED OUT IN THE PUBLIC ROAD RESERVE WITHOUT A WAYLEAVE MUST BE REPORTED TO THE SERVICE CO-ORDINATOR AND WILL BE STOPPED BY THE COUNCIL OFFICIAL ON SITE.** A copy of the Wayleave Work Permit and other documents as defined must therefore always be on site when Work is being done in the public road reserves.
- 3.5.9 The Service Coordinator will strive to limit the duration of the application review process to thirty (30) working days.
- 3.5.10 The Wayleave Holder accepts full responsibility for all costs (Refer to Section 3.10) associated with and resulting from the Work carried out in the public road reserves.
- 3.5.11 Only Work described in the Wayleave Work Permit may be executed. If the conditions on-site necessitate a deviation from the planned Work, the Service Coordinator must be informed before any work is done. These deviations may be in relation to the placement of the Service or the timing of the Works. The Service Coordinator may inform the Wayleave Holder of additional approvals that must be obtained from the Service Agencies affected by the deviation as well as further requirements in terms of drawings and specifications. Work will only be allowed to continue once the Service Co-ordinator is satisfied that all the additional requirements have been met.
- 3.5.12 The Wayleave Holder must complete the Work within the time specified on the Wayleave Work Permit or the approved time extension.
- 3.5.13 A Wayleave Holder who fails to complete the Work within the specified time window will be given a two (2) day notice period to either complete the Work or apply for a time extension.
- 3.5.14 If upon expiry of the notice period referred to in 3.5.12 or 3.5.13 the Wayleave Holder is still in default, the Work will be stopped, and the Wayleave Holder will be given a further specific timeframe by the Quality Control Engineer to make the site safe. If the

Wayleave Holder fails to do so the site may be made safe by the Quality Control Engineer, at the expense of the Wayleave Holder.

3.6 Existing Services and Planned Services

- 3.6.1 The Wayleave Applicant must submit Service drawings indicating the position of all Services in the area of Work with the Wayleave application form. This information is obtained from the relevant Service Agencies.
- 3.6.2 Service Agencies may require additional precautions relating to Work in the vicinity of their Services and must specify these in writing to the Wayleave Applicant.
- 3.6.3 As part of the Undertaking/Indemnity on the Wayleave application form, the Applicant has to confirm that the necessary information has been obtained from the Service Agencies and undertakes to adhere to the additional conditions laid down by the various Service Agencies. The control section on the Wayleave application form, signed by the Service Agencies, will serve as proof that the Service Agencies approved that a Wayleave Work Permit may be issued.
- 3.6.4 The Wayleave Applicant will verify with all Service Agencies whether future Work is planned for the area indicated in the Wayleave application. Such planned Work may dictate whether a Wayleave is approved and the conditions under which a Wayleave is approved. The planning horizon will depend on the planned life of the new Service as well as the Council's five year Work plan.

3.7 Road Categories

- 3.7.1 All roads are classified into one of the functional categories described below. The functional category of a road determines the Backfilling and Reinstatement specifications applicable to that road.
- 3.7.2 The following definitions apply for the road categories:

Category	Road Type	Administration
1	National Roads Primary – (inter) provincial Urban Freeway/Motorways	SANRAL PGWC PGWC
2	Primary – (inter) provincial Major (inter) urban arterials	PGWC PGWC
3	(Inter) district connectors Minor (intra) urban arterials	PGWC PGWC
4	Major and minor collectors Inter neighbourhood distributors Intra neighbourhood distributors	PGWC Service Coordinator (STM) Service Coordinator (STM)
5	Residential streets	Service Coordinator (STM)

- 3.7.3 All roads will be categorised into one of the above by the Council. For a specific road, this information can be obtained from the Quality Control Engineer.

- 3.7.4 Work carried out on arterials, major collectors and central business district roads will

be restricted to outside the following periods, namely from 6:30 to 09:00 and 15:30 to 18:00, to ensure the free flow of traffic during peak hours. These times apply seven days a week.

3.8 Restricted Roads

- 3.8.1 Over and above the road categories defined in Section 3.7 of this Code, certain roads are further classified as restricted roads (no-dig roads).
- 3.8.2 Restricted roads are roads across which no digging of trenches is permitted. A road is protected if it has been designated a restricted road by the Council. Roads are designated as restricted when they are of particular strategic importance (Categories 1 to 4 in the new road asset classification) or if they pose special engineering difficulties.
- 3.8.3 Any road that has been newly constructed, overlaid or resurfaced will be restricted for a seven (7) year period. A list of roads that falls in this category is available from the Quality Control Engineer.
- 3.8.4 If a road is restricted, it will be indicated as such on the Wayleave Work Approval/Permit.
- 3.8.5 Restricted roads may only be crossed using trenchless methods. If trenchless methods for some reason cannot be used, special permission to excavate must be obtained from the Quality Control Engineer.
- 3.8.6 For the purpose of planning Work done by Service Agencies, categories 4 and 5 may be regarded as unrestricted unless they have been newly constructed, overlaid or resurfaced and fall within the protected period and provided that the first 20m from an intersection with any other road category is considered to be restricted.

3.9 Protected Precincts

- 3.9.1 Works in protected precincts are subject to special trenching methods and care to ensure minimal damage to specialised and expensive material and furniture. The Quality Control Engineer will inform the Wayleave Applicant of the required methods and might request that a third-party contractor must be used to carry out the Work.
- 3.9.2 A list of protected precincts is available from the Senior Manager: Roads and Transport.

3.10 Costs

3.10.1 Administration & Inspection Fees

- 3.10.1.1 The administration and inspection fees are the tariff amounts that are payable by the Applicant upon submission of a Wayleave application form. These fee amounts will be determined by the Council on the recommendation of the Quality Control Engineer from time to time, and included in the Municipal Tariffs.
- 3.10.1.2 The administration and inspection fees covers the Council's costs for Work done by the Service Co-ordinator to process the Wayleave application.

3.10.2 Security Deposit

- 3.10.2.1 A refundable security deposit will be charged for each Wayleave being issued. Security deposits will not be charged for Work done by Internal Service Agencies (Council Departments) themselves.
- 3.10.2.2 The deposit amount will be based on a percentage of the value of Work to be carried out or the greatest value based on the on-site service verification, as per the Council's tariffs.
- 3.10.2.3 The Council will have the right to use the deposit to cover costs incurred by the Service Coordinator in relation to the Wayleave under consideration. This does not detract from the Municipality's legal remedies in enforcing this Policy or by-laws.
- 3.10.2.4 The responsibility remains with the Wayleave Holder to ensure that any of its contractors or agents engaged in the implementation of the Work is in possession of valid and sufficient public liability insurance. It is an express condition of this approval that the Wayleave Holder indemnifies and holds the Council harmless against any claims, demands or losses incurred as a result of any work performed in terms of the Application Form and under any Wayleave approval.

3.10.3 Reinstatement Cost

- 3.10.3.1 The total cost of the permanent Reinstatement on the site of the installation in terms of the Wayleave Approval/Work Permit will be borne by the Wayleave Holder plus 10% Administration Fee.

3.10.4 Other Costs

- 3.10.4.1 Other costs can result from any of the following:
 - 3.10.4.1.1 Damages to existing Services;
 - 3.10.4.1.2 Relocation of existing Services;
 - 3.10.4.1.3 Testing of Services and Backfills;
 - 3.10.4.1.4 Costs claimed by the Council's Municipal Traffic from external Service Agencies for loss in revenue due to disestablished parking bays;
 - 3.10.4.1.5 Rentals (Lane rentals during construction and perpetual rental after completion of the Works); (See Tariff)
 - 3.10.4.1.6 Services rendered by the Service Coordinator in completing Work or altering Work to conform to Wayleave specifications; and
 - 3.10.4.1.7 Claims that may result from the Work. In this case, it is expressly recorded that the Wayleave Holder shall be responsible for any shortfalls in the Security deposit and insurances in respect of any claim arising from the execution of the Works;
 - 3.10.4.1.8 Any penalties in terms of the Municipal tariffs (See Tariff).
 - 3.10.4.1.9 Loss of income to the Council as a result of disestablished parking bays (See Tariff).
- 3.10.4.2 All such costs will be borne by the Wayleave Holder. An additional 10% Wayleave Administration Fee will also apply.

- 3.10.4.3 A party wishing to dispute the costs charged to him as a result of any of the above reasons will do so at their own cost.

3.11 Traffic Control

- 3.11.1 It is the responsibility of the Wayleave Holder working in the public road reserves to ensure that all laws regarding traffic, safety, traffic signs and barricading are complied with while executing Work.
- 3.11.2 The Wayleave Holder working in the public road reserves shall, therefore, take all necessary measures and provide all necessary facilities to ensure an adequately safe and easy passage for traffic and pedestrians through areas in which Work is in progress, or is incomplete.
- 3.11.3 The Service Coordinator can request that a traffic control plan be submitted Manager: Transport, Roads and Stormwater for approval. Any such Approved Traffic Control Plan shall be kept available on site.
- 3.11.4 Traffic signs and barricading shall be done according to the latest edition of the Southern African Development Community Roads Traffic Signs Manual.
- 3.11.5 The Wayleave Holder must contact the relevant traffic authority to ensure that all requirements have been met for the particular location where the Work is being done and whether points-men will be required.
- 3.11.6 The importance of adequate traffic signs and barricading is emphasised. These measures are intended to ensure the maximum safety for motorists, pedestrians and workers and also the minimum disruption of vehicles and pedestrians. Worksites must be properly barricaded and signed irrespective of how long the Work will last. The safety precautions must be maintained for the full time that risks exist in the public road reserves due to Work being performed in the public road reserves.

3.12 Road Closure

- 3.12.1 The granting of a Wayleave does not give the Wayleave Holder the authority to close the road completely to traffic. Methods of construction and programmes of Work must, therefore, be determined on the basis that no road, or portion of the road, may be completely closed to traffic for any considerable period.
- 3.12.2 In exceptional circumstances, permission may be granted for the closure of a road or portion of the road to traffic. The Wayleave Holder must apply to the Council separately for approval two weeks prior to the road being closed. A road closure will be approved for a specific period only, i.e. from and to a specific time on a specific date and is only valid for that specific period. If the Work is not carried out in that period, an application for a new road closure will have to be made.

3.13 Lane Rental

- 3.13.1 Lane rental refers to the rental of space in the public road reserves for the storage of construction materials, site offices or the closure of lanes for a period exceeding two weeks.
- 3.13.2 Lane rental is managed by the Council's Roads and Transportation Division.

- 3.13.3 The rates for Lane Rentals are to be set by the Council and will be included in the tariffs.

3.14 Preliminary Works and Cross-Cuts

- 3.14.1 In respect of all preliminary Work requested by the Service Agencies and cross-cuts, the specifications from the relevant Service Agencies and in this document must be adhered to before Work will be allowed to start. Such requests include inter alia that:
- 3.14.1.1 The Municipal Traffic Department must always be notified in writing seven (7) working days in advance by the Wayleave Holder.
 - 3.14.1.2 The Service Coordinator and the contact person of each Service Agency involved must be informed 48 hours prior to commencing with the Work by the Wayleave Holder.
 - 3.14.1.3 Alternatively, notice periods specified by the Service Agencies must be adhered to.
 - 3.14.1.4 The Municipal Traffic Department must be requested to remove parking meter heads where Work necessitates the temporary disestablishment of parking bays with the due agreement for compensation in loss of revenue where applicable.
- 3.14.2 The Applicant may be required to do cross cuts in the area where Work is planned. The purpose of cross cuts is to establish and confirm the position of Services in areas where the information on Services are unclear.
- 3.14.3 A cross-cut is done by excavating a trench that runs from the verge of the road up to the property boundary, perpendicular to the normal direction of Services. Excavation must always be done by hand.
- 3.14.4 The minimum depth of the cross-cut trench is 1 meter below the lowest point of the public road reserves.
- 3.14.5 A separate Wayleave Work Permit approval needs to be obtained for prior preliminary or cross-cut Work to be undertaken.
- 3.14.6 A non refundable Roadway Open Trench Fee will apply as well as outlined in the Municipal Tariffs.

3.15 Excavations

The Wayleave Holder shall be responsible for ensuring that:

- 3.15.1 The area that is excavated must always be kept to a minimum. The width of the trench must be uniform in length and depth; in other words, the sides must be parallel and vertical. The top of the trench must be cut with a saw to ensure smooth, uniform edges.
- 3.15.2 All excavations must comply with the statutory requirements for health and safety. The Wayleave Holder must pay specific attention to:
- 3.15.2.1 Excavations must be executed according to the Occupational Health and Safety Act referred to in Section 5.
 - 3.15.2.2 Excavations deeper than 1.5 m must be shored or V-cut according to the Occupational Health and Safety Act.

- 3.15.2.3 Excavations deeper than 1.5 m must be registered with the Department of Labour prior to commencement of the Work. The registration includes the scope of the Work, depth of the trench and the construction method (shoring or V-cut method according to the Occupational Health and Safety Act).
- 3.15.3 The minimum depth that any Service may be placed under a road is 800 mm measured from the level of the surfacing of the road to the top of the Service. The minimum depth at any other place in the public road reserves, e.g. on a verge, is also 800 mm measured from the level of the surfacing of the road and not from natural ground level. Services not subject to being laid at a specific grade such as water pipes and cables should not be placed at depths in excess of the 800 mm as this could interfere with future Services that has to be laid at a specific grade, such as sewers and stormwater pipes.
- 3.15.4 All excavated material and equipment must be placed and demarcated in such a way as to cause the minimum disruption to vehicles and pedestrians.
- 3.15.5 The view of motorists must at all times be kept clear of any obstructions such as excavated material, road signs or hoardings.
- 3.15.6 Safe passage must be kept open for pedestrians at all times.
- 3.15.7 Excavation areas must be clearly demarcated with warning signs that allow ample time for motorists and pedestrians to alter their routes.
- 3.15.8 The Wayleave Holder is held responsible for any damage to existing Services. Services, indicated on the drawings or on-site by representatives from the relevant Service Agencies, must be opened by careful hand excavating. If the Services cannot be found, the relevant organisation must be contacted again for further instructions. Under no circumstances may a Wayleave Holder excavate with mechanical equipment before known Services have been found and marked. When found, Services must be marked and protected or supported as required by the owner. If Services need to be relocated, instructions from the owner must be followed carefully. The Wayleave Holder will be responsible for all relocation costs. If any Service is damaged as a result of the Work, the relevant Service Agency and the Service Coordinator must be contacted immediately.
- 3.15.9 Under no circumstances will the Council be held liable for any incorrect information provided by any external service agency or for any damages, losses and claims resulting from such incorrect information.
- 3.15.10 Adequate preventative measures must be taken to ensure that no water (e.g. due to rain) flows into the open trenches since this will result in the weakening of the structural layers of the road. Any water that is present in the trenches must be pumped out before Backfilling. Water must be pumped into the stormwater system and not into sewer manholes. Any material that has become wet must be removed from the bottom of the trench before Backfilling.
- 3.15.11 The Wayleave Holder must prevent foreign materials from entering the drains and ensure that silting does not occur either from pumping operations or as a result of rain. If any silting or other contamination does occur, the Wayleave Holder must clean the drains or request the Service Coordinator to do it at the cost of the Wayleave Holder.
- 3.15.12 All re-usable materials such as concrete blocks, slabs, kerbs, gutters, channels and stormwater inlets must be removed with care and re-used if possible. Any surplus material must be returned to the Roads and Transportation stores. The address will be available at the Service Coordinator.

- 3.15.13 If any street furniture (e.g. street names, traffic signs, bus shelters, etc.) have to be removed, arrangements must be made with the relevant authority for the removal, storage and re-erection. The cost specified by the relevant authority will be for the Wayleave Holders account.
- 3.15.14 Where excavations are made through entrances to properties, access must be maintained by using steel plates, planks or other temporary bridges of sufficient strength that are adequately secured against movement. The occupants of the properties must be kept informed at all times of how their accesses will be affected.
- 3.15.15 The cleaning up of the construction site and the Reinstatement to its previous condition is considered part of the Work and must be completed within 14 days after Reinstatement of the trench has been done. If the Wayleave Holder fails to do so, action will be taken by the Council as indicated in Sections 3.5.12 – 3.5.14.
- 3.15.16 Where a roadway is crossed, a non refundable Roadway Open Trench Fee will apply as well as outlined in the Municipal Tariffs.
- 3.15.17 Backfilling of road crossings: excavated material CANNOT be used to backfill road crossing trenches. The Wayleave Approval will specify the acceptable backfilling material. All excavated material must be removed from site as soon as possible to avoid reuse.

3.16 Trenchless Methods

- 3.16.1 If trenchless methods are used, disruption of traffic flow and pedestrian movements can be reduced considerably or totally eliminated. However, it is crucial that the Wayleave Holder using such methods must have all the necessary equipment and expertise to complete the Work successfully. The trenchless method can be used for all road categories but shall be used for all roads classified as "Restricted" (Refer to Sections 3.7 & 3.8).
- 3.16.1 The position of existing Services must be located accurately. If any Services are damaged, the Wayleave Holder will be responsible for all costs.
- 3.16.2 The depth to the top of any tunnel that is drilled for the installation of new Services must be at least 800 mm measured from the lowest level of the road surfacing.

3.17 Emergency Work

- 3.17.1 Emergency Work is defined as any Work that is required to prevent or end a dangerous situation, to prevent or end an unplanned interruption in the supply of a Service, or to avoid any substantial losses. It is important to note that a lack of proper planning of Work to be carried out will not justify Emergency Work, and such activities will be stopped by the Service Co-ordinator.
- 3.17.2 A categorised list of Emergency Work will be maintained by the Service Coordinator. It will serve as a guideline for Service Agencies as well as the Service Co-ordinator in determining whether Work is an Emergency.
- 3.17.3 The Service Coordinator will provide an emergency number for the use of Service Agencies that requires information on the position of Services in the area where Emergency Work is to be carried out.
- 3.17.4 The Service Coordinator must be notified in writing within one working day from commencing with Emergency Work. The Emergency notification certificate must be

used for this purpose. If the Service Co-ordinator is not notified within 24 hours from the first working day, the Work will be reinstated by the Service Coordinator, and the cost thereof will be invoiced against the Service Agency. The Emergency notification document can be obtained from the Service Co-ordinator.

- 3.17.5 The emergency notification must always be certified by an Authorised Agent of the Service Agency as an emergency situation that requires their immediate attention.
- 3.17.6 Emergency Work must be done in accordance with all procedures as set out in paragraph 3.15 above and specifications applicable to the type of Work as set out in the Municipality's specifications.
- 3.17.7 Backfilling must be done immediately, and full Reinstatement of the area must be done as soon as possible in accordance with the provisions of paragraph 3.19 below.
- 3.17.8 The responsibility remains with the Service Agency to ensure that their drawing information is updated according to the alterations made during the Emergency Work.

3.18 Routine Maintenance Work

- 3.18.1 Routine Maintenance Work is defined as all types of Work involved with maintaining the Services in the public road reserves and does not require excavation, traffic control or Reinstatement of the public road reserves as part of the Work.
- 3.18.2 A categorised list of Routine Maintenance Work will be maintained by the Service Coordinator. It will serve as a guideline for Service Agencies as well as the Service Coordinator in determining whether Work is Routine Maintenance Work.
- 3.18.3 Such Work can include inter alia:
 - 3.18.3.1 Any Work that relates to maintaining the vegetation in the road reserve through cutting planting, removing or relocating of plants.
 - 3.18.3.2 The placement of advertising material on or within structures pre-erected for that purpose.
 - 3.18.3.3 Temporary diversion of traffic for public events, i.e. sport, mass action, parades.

3.19 Backfilling and Reinstatement

- 3.19.1 Any trenching activity disturbs the structural integrity of a road or footway. Backfilling and Reinstatement must, therefore, be done in such a way as to ensure that the reinstated trench and its immediate surroundings do not fail structurally, thus resulting in road user discomfort and increased costs.
- 3.19.2 Backfilling refers to the replacement of the structural layers in the trench or excavation and includes the base, sub-base, selected subgrade and subgrade, but exclude the surfacing.
- 3.19.3 Reinstatement refers to replacing the bituminous surfacing or paving blocks in the case of roads, or the paving blocks, paving slabs, bituminous surfacing or grass in the case of footways and verges.
- 3.19.4 Backfilling must in all cases be done by the Wayleave Holder in accordance with the

Council's specifications. The Service Agency is responsible for the maintenance of the site in a safe condition until the final Reinstatement has been done.

- 3.19.5 Permanent Reinstatement must be done by all external Service Agencies within five (5) working days. Reinstatement of the public road reserves will be done by the Council's Roads, Transportation and Stormwater Sub-Unit only for internal Council Service Agencies, upon receipt of a notification from the respective Municipal Department that the Work has been completed.
- 3.19.6 The Wayleave Holder must obtain prior written approval from the Council's Roads, Transportation and Stormwater Sub-Unit for the project specification to be used for backfilling public road reserves. The proposed specification shall be submitted to the Council's Roads, Transportation and Stormwater Sub-Unit, who shall provide written comments on the specification, or an alternative specification, within seven working days after the receipt of the request.
- 3.19.7 Permanent Backfilling and Reinstatement done by the Wayleave Holder will be subject to a guarantee period of one year based on the performance specifications described in the specifications document. Please note that no tarring/paving will be allowed without an acceptable Compaction Test Result approved by the Manager: Roads and Stormwater.
- 3.19.8 If the Reinstatement done by the Wayleave Holder fails during the one year guarantee period, the Wayleave Holder will be required to rectify the situation within 14 days of notification. If the Wayleave Holder fails to rectify it, then the Quality Control Engineer will carry out the permanent Reinstatement at the applicable rates defined by the Council and will deduct the costs from the security deposit of the Wayleave Holder.
- 3.19.9 Temporary Reinstatement must be done where the Wayleave Holder leaves the site with the view of returning to complete the Work. The Wayleave Holder must maintain this temporary Reinstatement.
- 3.19.10 The Wayleave Holder may not leave the site for more than fourteen days without permanently reinstating the site.
- 3.19.11 If a Wayleave Holder who leaves the site unattended for more than the period specified in 3.19.10, a tariff fee will be charged. The amount will be determined by the Council.

3.20 Certificate of Completion

- 3.20.1 On completion of the Work, the Professional Engineer appointed by the Wayleave Holder must provide the Completion Certificate to the Service Coordinator within two working days. The Quality Control Engineer will then set up a site meeting with the Wayleave Holder to carry out an inspection and will sign off the Certificate of Completion if all requirements have been met. The 12-month guarantee period for Reinstatements by the Wayleave Holder then commences.
- 3.20.2 Completion of the Work means that all Work has been completed, the Reinstatement has been done by the Wayleave Holder and that all materials, equipment and rubble have been removed and the site is completely cleared and cleaned. Furthermore, it requires that all applicable documentation and as-built drawings as specified on the Wayleave form have been handed to the Service Coordinator for recording.
- 3.20.3 If Work involves more than one street link (street block), then a Completion Notice must be submitted after completion of each phase of the Work.

3.21 Policy Enforcement

- 3.21.1 Council reserves its right to exercise its discretion in the implementation and enforcement of this Policy.
- 3.21.2 Notwithstanding any tariff or remedy expressly provided for in this Policy; the Council reserves the right to exercise any other legal remedy it may have in enforcing this Policy.

3.22 Exemption, Appeal and Revoking

- 3.22.1 The Accounting Officer may, upon written motivation by a Wayleave Applicant or Wayleave Holder or the Wayleave Service Co-ordinating Department, and after having considered any comment and advice on such motivation by other interested parties, authorise a deviation from this Policy or revoking of an approved wayleave. Such deviation or revoking shall be subject to such conditions as the Accounting Officer may stipulate in writing.
- 3.22.2 The Accounting Officer may authorise an amendment to any conditions imposed by the Council in respect of a Wayleave Approval, provided that an application for such amendment shall be referred to all interested and affected parties for comment, which comments shall be duly considered by the Accounting Officer.
- 3.22.3 Any person affected by or having an interest in the administration of this Policy shall have a right of appeal as determined in terms of S62 of the Local Government Municipal Systems Act in respect of any decision taken by the Council.

1. BACKGROUND

In 2007, Stellenbosch Municipality initiated a process to prepare a General Valuation (GV) Roll of all property situated within the geographical boundaries of Stellenbosch Municipality (WC024) in terms of the requirements of the Local Government: Municipal Property Rates Act, 2004 (Act 6 of 2004) including any subsequent amendments and consequential regulations (the MPRA) which became effective on 1 July 2009 at Stellenbosch Municipality. This Policy is formulated in terms of Section 3 of the MPRA.

2. LEGISLATIVE CONTEXT

- 2.1 In terms of Section 229 of the Constitution, 1996 (Act 108 of 1996), a municipality may impose rates on property.
- 2.2 In terms of Section 4 (1) (c) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), a municipality has the right to finance the affairs of the municipality by imposing, *inter alia*, rates on property.
- 2.3 In terms of Section 2 (1) of the MPRA a metropolitan or Local municipality may levy a rate on property in its area in accordance with the provisions of the MPRA.
- 2.4 This Policy must be read together with, and is subject to the provisions of the MPRA.
- 2.5 In terms of Section 62 (1) (f) (ii) of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (the MFMA), a municipality must have and implement a rates policy as may be prescribed by any applicable national legislation.
- 2.6 In terms of Section 8(1) of the MPRA, the Municipality will, as the primary instrument, levy rates on the use of property, but implemented as per paragraph 5.5 of this Policy.
- 2.7 All citations to applicable Acts as referenced in this Policy shall include all amendments and regulations to such as promulgated.

3. GUIDING PRINCIPLES

- 3.1 The rating of property will be implemented impartially, fairly, equitably and without bias, and these principles also apply to the setting of criteria for exemptions, reductions, and rebates contemplated in Section 15 of the MPRA.
- 3.2 The rating of property will be implemented in a way that:-
 - is developmentally oriented;
 - supports sustainable local government by providing a stable and buoyant revenue source within the legislative control of the Municipality;
 - supports local and socio-economic development;
 - promotes simplicity, uniformity, and certainty in the property rates assessment process;
 - gives due consideration to the need for simple and practical process of billing and collection of property rates;
 - promotes sustainable land management, especially that which reduces the risk from natural disasters;
 - achieves national and local environmental management objectives; and
 - balances the affordability to the public versus the financial sustainability of the Municipality.
- 3.3 Other principles that will steer the processes of this Policy:
 - All ratepayers within a specific category will be treated equally and reasonably.

- The Municipality will, when levying property rates for each financial year, take cognizance of the aggregate burden of rates on property owners in the various categories of property ownership.
- Rates Increases/Decreases will be guided by the budget requirements of the Municipality, and by Section 20 of the MPRA.
- In dealing with the poor/indigent ratepayers the Municipality may provide relief measures through exemptions, reductions or rebates.

3.4 Further determinants that will guide the processes of this Policy:

- The Zoning Scheme of the Municipality determines, via the provisions therein, the zoning and thus the legally binding use of a given property.
- However, the rating of said property is governed by the MPRA which determines a collection of rules that by implication sets the conditions by which the use of a property is categorised. It is therefore possible that even though an owner is using a property within the set rules of the Zoning Scheme, said property would not be rated on the same basis due to the definitions and provisions as applied according to the MPRA and this Policy.
- Moreover, such categorisation instituted according to the MPRA or this Policy does not condone any unlawful use of a property regardless of circumstances.

4. DEFINITIONS

In this Policy, a word or expression derived from a word or expression as defined, has a corresponding meaning unless the context indicates that another meaning is intended.

The following four definitions in the MPRA are merely shown for clarity:

“Exclusion”, in relation to a municipality's rating power, means a restriction of that power.

“Exemption”, in relation to the payment of a rate, means an exemption granted by a municipality.

“Reduction”, in relation to a rate payable on a property, means the lowering of the amount for which the property was valued and the rating of the property at that lower amount.

“Rebate”, in relation to a rate payable on a property, means a discount granted on the amount of the rate payable on the property.

In addition to the definitions contained in the MPRA, the following definitions apply for the purpose of the application of this Rates Policy.

Furthermore, specific terms or phrases used, but not defined in the MPRA are defined herein to [elucidate/explain](#) said term or phrase for a specific perspective of the MPRA by the Municipality:

-

“the Municipality” means Stellenbosch Municipality (WC024).

“MPRA” refers to the Local Government: Municipal Property Rates Act, 2004 (Act 6 of 2004) including any subsequent amendments and consequential regulations.

“Accommodation Establishment” means a property used for the supply of overnight sleeping facilities to transient guests at a fee.

“agricultural activities” means the intensive cultivation of soils for purposes of planting or growing, and gathering of trees or crops in a managed and structured manner; the intensive rearing of livestock or aquaculture. In addition, all the provisions as detailed in the definition of **“Agricultural Property”** in the MPRA persist in this Policy.

"agricultural purposes" refers to the active pursuit by a *bona fide* farmer to derive the principle source of income, which is commercially sustainable, from agricultural activities exclusively on Agricultural Properties.

"bed & breakfast" in relation to *Accommodation Establishment* means an enterprise operated on a property of which the residential character is maintained, where the owner or operator permanently resides in the same dwelling, where normally only breakfast is served and sleeping accommodation to transient guests is limited to no more than 3 guest bedrooms-and Provided provided further, that the enterprise has not been registered as a Guesthouse. This property will be deemed to be a Residential Category.

"bona fide farmer" is a person or legal entity that is a legitimate farmer whose primary income originates from agricultural activities and the business of which must be registered with SARS.

"business and commercial property" means a property that is used for the purpose described as the activity of buying, selling or trade in goods, commodities or services and includes any office or other buildings on the same property, the use of which is incidental to such business. This definition excludes the business of mining and agriculture activities.

"Chief Financial Officer (CFO)" means a person designated in terms of Section 80(2) (a) of the Local government: Municipal Finance Management Act, 2003 (Act 56 of 2003).

"Conservation Area" means:

- a Protected Area as defined in Section 1 of the MPRA and listed in the "Protected Areas Register" as stipulated in Section 10 of the Protected Areas Act defined in the MPRA as the National Environmental Management: Protected Areas Act, 2003 (Act 57 of 2003); nevertheless, specifically those parts of properties as described in Section 17 (1) (e) of the MPRA; or
- a mountain catchment area as described in Section 9 of the *Protected Areas Act* and declared in terms of the Mountain Catchment Areas Act, 1970 (Act 63 of 1970).

"Guesthouse" in relation to *Accommodation Establishment* means an enterprise that has either been registered as a Guesthouse; or an enterprise that is operated on a property of which the residential character is maintained and where the sleeping accommodation to transient guests exceeds 3 but limited to 16 guest bedrooms and/or if any services is offered beyond the limited breakfast only service of a Bed and Breakfast establishment. This property will be deemed to be a Business Category.

"household income" means the gross sum of all monthly income from all sources. Income sources may include wages, salaries, profits, dividends, pensions, rentals, board & lodging, interest received, grants or investment income and other forms of financial contributions.

"industrial property" means a property that is used for the purpose described as the branch of trade or manufacturing, production assembling or processing of finished or partially finished products from raw materials or fabricated parts, typically via a high-volume production process and on such large scale that capital and labour are significantly necessitated; and includes any office or other buildings on the same property, the use of which is incidental to such business.

"Open Space" means a property, but specifically land that is used as a park, garden, for passive leisure or maintained in its natural state and which is zoned as open space. These properties may either be publicly owned being commonly open to public access; or privately owned and used without financial gain.

"SARS" means the South African Revenue Service.

Formatted: Font: Not Bold

“ratepayer” means a person or legal entity that is liable in terms of the MPRA for the payment of rates on property levied by the Municipality. The term “Ratepayer” is herein considered to be synonymous with the MPRA definition of the term “owner”.

“residential purposes” in relation to the use of the property means improved property primarily intended for human habitation and inhabited as such; taking cognisance of paragraph 7.9 of this Policy and provided that:

- the following properties are specifically excluded from this definition: hostels, old age homes, guesthouses, and vacant land; **and**
- to qualify, the predominant use of a property with not more than two dwelling units on said property, must be 80% or more (based upon a percentage of the total area of buildings and structures) for this purpose; or
- to qualify, properties registered in terms of the Sectional Title Act, 1986 (Act 95 of 1986) must solely be used for this purpose; or
- to qualify, properties owned by a share-block company must solely be used for this purpose; or
- to qualify, a block of flats must solely be used for this purpose; or
- to qualify, a dwelling used for this purpose must be situated on property used for or related to educational purposes; or
- to qualify, the predominant use of a retirement scheme or life right scheme must be 60% or more for this purpose.

“vacant land” means a property without any buildings or structures, and where no immovable improvements have been erected.

“valuation roll” means a valuation roll drawn up in terms of Section 30 of the MPRA or a supplementary valuation roll drawn up in terms of Section 78 of the MPRA.

5. IMPOSITION OF RATES

- 5.1 The Municipality shall as part of the annual budgeting cycle, set for each category a rate, (being a cent amount in the Rand) that will be imposed, in accordance with the MPRA, on the market value of a property, for all rateable properties as recorded in the Municipality's valuation roll, drawn up in terms of the MPRA. The amount so determined together with any relief measures as described in this Policy shall be the Rates due and payable by the owner of said property.

The levying of rates forms part of the Municipality's annual budget process as set out in Chapter 4 of the MFMA.

Details of the resolution pertaining to the rate for each of the various property categories are to be published in the *Provincial Gazette* as set out in Section 14 of the MPRA.

- 5.2 The rates charged as a cent amount in the Rand for the residential property as per paragraph 6.1 (a) of this Policy is the base rate and the rate charged to all other categories of properties are reflected as a ratio to the residential rate if so prescribed by Regulations promulgated in accordance with the MPRA.
- 5.3 The Municipality will be guided by the definition of “ratio” in the MPRA and directed by Regulations pertaining to rate ratios as promulgated in terms of Section 19 of the MPRA and as applicable to the prescribed non-residential properties.
- 5.4 For properties used for multiple purposes, the Municipality may apply the category of multiple use. For such properties, the Municipal Valuer will apportion a value to each distinct use and apply the appropriate category for billing at the applicable rate.

5.5 For the purposes of determining a property's category, the Municipality will determine such as per Section 8 (1) of the MPRA. It should be noted that the Municipality considers permitted use to be appropriate on vacant properties and that all other properties would be categorised according to the actual use of said property.

5.6 Building Clause references

Obligations pertaining to Building Clauses as per the development agreements or contracts will be dealt with according to the contract obligations.

Properties that have attached building clause obligations as per the development agreements or contracts will not be considered as being vacant.

5.7 Period for which rates are levied

The Valuation Roll will, according to Section 32(1) of the MPRA, remain valid for a General Valuation cycle of four years.

5.8 Valuation value constraints

(a) For the purposes of valuing a property, no valuation value shall be less than R1 000 unless the valuer determines that said property's valuation value must be zero.

(b) For administrative purposes all valuation values exceeding R1 000 will be rounded to the nearest R1 000 interval. For example, for values with an interval less than R1 500 will be rounded to a R1 000 interval whereas values with an interval not less than R1 500 will be rounded to a R2 000 interval.

6. CATEGORIES

6.1 Categories of Property

Property Categories, each of which correlates to a distinct use of a property, have been determined as described below.

The codes that have been associated with each property Category are listed in paragraph [4718.1](#) of this Policy. In addition, paragraph [4718.1](#) identifies the attributes and criteria that determines the basis for application.

The Municipality will apply the following property Categories:

Item	Category (of property)	Purpose/Use
(a)	Residential	Refer Section 1 ("Definitions") in the MPRA and the defined term "Residential Purposes" as per paragraph 4 in this Policy.
(b)	Industrial	Refer the definitions as per paragraph 4 in this Policy.
(c)	Business and commercial	Refer the definitions as per paragraph 4 in this Policy.
(d)	Agricultural	Refer Section 1 ("Definitions") in the MPRA and the defined term "Agricultural Purposes" as per paragraph 4 in this Policy.
(e)	Mining	Refer Section 1 ("Definitions") in the MPRA.
(f)	Public Service Purposes	Refer Section 1 ("Definitions") in the MPRA.
(g)	Public Service Infrastructure	Refer Sections 1 and Sub-sections 17(1)(a) and 17(1)(aA) in the MPRA.
(h)	Public Benefit Organisation	Used for a "Specified public benefit activity" as defined in Section 1 in the MPRA.
(i)	Multiple Use	Refer paragraph 7.2 in this Policy.
(j)	Heritage	Refer paragraph 8.9 in this Policy and Section 15(2A)(b) in the MPRA.
(k)	Vacant Residential	Vacant and Permitted use set for a Residential property.
(l)	Vacant Other	Vacant and Permitted use set for a property category other than Residential.

6.2 Categories for Relief Measures

The Municipality will consider relief measures on rates, being Exemptions, Rebates and/or Reductions on properties, according to various criteria as described in this Policy.

The codes (referred to as the Rebate Codes), associated with the specific relief measure, are listed in paragraph 178.2 of this Policy.

7. APPLICATION OF RATING

The Municipality will, in addition to the various criteria referenced above, apply the following criteria when rating a property:

7.1 Vacant Properties

Vacant residential property will be rated as per the Vacant Residential Category.

Vacant property other than residential property will be rated as per the Vacant Other Category.

Normally, Agricultural properties will not be considered as being vacant, however this consideration lapses if the ambit (scope) of either of the terms “*agricultural activities*” or “*bona fide farmer*” as defined in this Policy is not relevant or cannot be applied to said property.

The Category of Vacant properties will be determined according to the property’s permitted use and these properties will not qualify for any relief measures.

7.2 Multiple use Properties

Properties with multiple uses as per Section 9 of the MPRA may be categorised for each distinct use as determined by the Municipality and which category will be applied for billing at the appropriate and applicable rate.

The different uses will be grouped into two or more components. The first component, which will be determined by the largest apportioned area of the property will be the primary component; the other components (sub-components) will be identified by their generalised functional name.

The category of the primary component of such a property will be directed in the first instance by the dominant use of the property, but at the sole discretion of the Municipality.

A multiple use property may only qualify for the valuation exclusion as per paragraph 8.2.1 (i) of this Policy, provided that at least one of the components has been categorised as residential.

7.3 Public Service Purposes Properties

Properties used for Public Service Purposes will be categorised as per paragraph 6.1 (f) of this Policy and will be rated at the applicable rate. The exclusions, exemptions, rebates and reductions relating to the usage of properties as detailed in this Policy and the MPRA, will apply if applicable.

7.4 Public Service Infrastructure properties (PSI)

The Municipality will apply the rate ratio as set out in the MPRA to public service infrastructure. Furthermore, the Municipality will grant 100% exclusion on all such properties.

7.5 Rural Properties

The categorizing and/or qualification of all rural properties will be dealt with at the sole discretion of the Municipality.

7.5.1 Agricultural Use

The Municipality will apply the rate ratio as set out in the MPRA to properties that are used for agricultural purposes by *bona fide* farmers. These properties will however not qualify for any relief measures.

The Municipality deems property with extent less than two hectares not to be agricultural property.

7.5.2 Alternate Criteria and Use

- (a) Where a property in a rural area is being used for business, mining, or industrial purposes, such as truck depots, construction yards, restaurants, functioning venue, guesthouses, and/or factories, said property will be valued and rated according to the category for business, mining or industrial properties as applicable. The Municipality may however, consider valuating said property as a Multiple Use Property (refer to paragraph 7.2 of this Policy).
- (b) Properties in rural areas that are primarily used for residential purposes will be valued and rated as residential properties and may thus qualify in terms of the definition of residential property for the applicable relief measures (refer to paragraph 8 of this Policy).
- (c) Owners of a property in rural areas which is not categorised as agricultural, but which in the opinion of the owner should be agricultural, must apply (refer to paragraph 14.1 of this Policy) for a revaluation, submit documentation as required by the CFO and declare in an affidavit, that no contraventions of the criteria for agricultural activities are taking place on the property. The application will be dealt with according to the supplementary valuation process.

7.6 Municipal Properties

Municipal-owned properties which are leased in terms of a lease agreement or those properties which are allocated to beneficiaries but not yet transferred, will be rated as per the provisions of this Policy. The exclusions, exemptions, rebates, and reductions relating to the usage of properties as detailed in this Policy and the MPRA, will apply if applicable. The rates of said non-excluded property will be passed on to the lessee or the allocated beneficiary.

All other Municipal-owned properties as described in Section 7 (2) (a) (i) of the MPRA, will be excluded from paying property rates.

7.7 Special Rating Area (SRA)

The Municipality may consider the application for a Special Rating Area (SRA) provided that the owners of the predefined demarcated area have approved the budget and the specifics relating to such SRA. The process must adhere to Section 22 of the MPRA and to the Municipality's Special Rating Area Policy and By-Law.

The budget for such SRA will be raised via a pre-determined tariff applied on the municipal valuation of each property. This pre-determined tariff is linked to the annual budget proposal and would therefore be unique to a specific SRA and for a given financial year.

7.8 Land Reform Beneficiary properties

The Municipality will apply a category for a Land Reform Beneficiary Property that corresponds to the use of said property. The said category will be applied for billing at the appropriate and applicable rate. However, the Municipality will exclude such properties from rates for a period

of 10 years subject to Section 17(1)(g) and phase-in the rates as per Section 21(1)(b) of the MPRA.

7.9 Adjoining properties

The Municipality acknowledges that there are residential properties, registered in the name of the same owner, which are used basically as if such properties were one property. Consequently, these properties will be regarded as one residential property for the application of relief measures.

Such grouping usually consists of adjoining properties but may include in the case of properties registered in terms of the Sectional Title Act, 1986 (Act 95 of 1986) any units such as a garage or domestic worker's quarters, in the same sectional title scheme registered in the name of the same owner.

Administratively a link between the adjoining property and its associated parent property must be set so as to facilitate tracking of such pairing.

8. RELIEF MEASURES

8.1 Applying relief measures on Rates

Notwithstanding that the Municipality is obligated as per the MPRA to exclude specific properties or parts thereof from rating, the Municipality will consider applying relief measures on property rates, being Exemptions, Rebates and/or Reductions as described in this Policy.

- (a) The Municipality may grant exemptions, rebates and/or reductions to the categories of properties and/or categories of owners that meet the specified criteria as indicated in sub-paragraphs of paragraph (7) above or as indicated below.
- (b) The Municipality will exclude specific properties or parts thereof as indicated in sub-paragraphs of paragraph (7) above or as indicated below.
- (c) The Municipality will not grant relief in respect of payments for rates to any category of owners or properties other than that as provided for in this Policy, nor to owners of properties on an individual basis.
- (d) Any application (when required or as requested) for a relief on rates must be submitted as per paragraph 14.1 of this Policy.

8.2 Residential Property

8.2.1 The Municipality will not levy a rate on the initial portion of the valuation of a residential property being the sum of:

- (i) the first R15 000 exclusion on the basis set out in Section 17 (1) (h) of the MPRA; and
- (ii) on a further ~~R485~~ ~~R235~~ 000 reduction, provided it does not exceed the remaining valuation in respect of a residential property, or the primary component of a multiple use property, that is categorised for *residential purposes*, as per the definition in paragraph 4 of this Policy. This reduction will only apply if the total valuation of said property does not exceed R 5 000 000. All non-primary components of a multiple use property or the adjoining units of a sectional title scheme as per paragraph 7.9 of this policy, do not qualify.

The above where applicable, will be applied once only per property.

8.3 Senior Citizens and Disabled Persons

Designated owners being registered owners of properties or allocated beneficiaries as per paragraph 7.6 of this Policy who are senior citizens or who are disabled persons may qualify for a rebate according to their *gross monthly household income*.

Formatted: Font: Italic, Font color: Black

To qualify for the rebate referred to above, the designated owner must be a natural person, registered as a South African citizen. If not a South African citizen, the designated owner must be the registered owner of the property within the jurisdiction of the Municipality and must submit proof of his/her permanent residency in South Africa. The property in question must satisfy the residential property requirements as per this Policy and in addition to the above-mentioned, the designated owner must also:

8.3.1 Occupy the property as his/her normal residence; and

- (a) be at least 60 years of age, or in receipt of a disability grant; and
- (b) be in receipt of a *gross monthly household income from all sources (including financial contributions of all members of the household permanently residing at that property)* not exceeding the highest income amount as referenced in the table of paragraph 8.3.4 of this Policy; and
- (c) when being the designated owner of more than one property, a rebate will be granted only on the occupied property; and
- (d) where the designated owner is unable to occupy the property due to no fault of his/her own, the spouse or minor children may satisfy the occupancy requirement; and
- (e) where the occupant of a residential property is a senior citizen or a disabled person and is the usufructuary of the property, he/she may satisfy the occupancy requirement.

Formatted: Font: Italic, Font color: Black

8.3.2 Apply as per paragraph 14.1 of this Policy with proof of income, which may include proof of a SARS assessment or any other relevant document as requested.

8.3.3 If the property in question is alienated by the designated owner, then that owner would be liable for the *pro rata* rates, inclusive of the pension rebate. The new owner will be liable for the full *pro rata* portion of the rates excluding any pension rebates.

8.3.4 The percentage rebate granted to different monthly *household income* levels will be determined according to the schedule below. The income bands and rebates for the effective financial period of this Policy are as follows:

Formatted: Font: Italic, Font color: Black

Gross Monthly Household Income				% Rebate
Income bands				
Up to			8 000	100%
From	8 001	to	10 000	75%
From	10 001	to	12 000	50%
From	12 001	to	15 000	25%

Formatted: Font: Bold, Italic, Font color: Black

8.4 Conservation Area

The Municipality will exclude those portions of a property within the ambit of a conservative area as defined in this Policy.

The apportioned value of any portion of such property, utilized for any purpose other than that used for such conservation purposes, or developed and used for commercial, business, agricultural or residential purposes will be categorised accordingly and rated at the applicable rate as described in paragraph 7.2 of this Policy.

The Municipality will apply Section 17 (2) of the MPRA upon withdrawal of said property from the conservation agreements inferred in Section 17 (1) (e) of the MPRA.

8.5 Religious Organisations

In terms of Sections 1 and 17 (1) (i) of the MPRA, the Municipality will not levy a rate on a property used primarily as a place of public worship by a religious community, including the official residence which is occupied by the office bearer of that community who officiates at services at that place of worship.

The Municipality will apply Section 17 (5) of the MPRA if as per Section 17 (5) (a) of the MPRA said property is no longer used or has been disposed by the religious community.

8.6 Stellenbosch Special Rebate

The Municipality may, for the organisations not meeting all the public benefit organisations criteria as described in paragraph 8.7 below, nor the criteria for NPO organisations as described in paragraph 8.8 below, consider a rebate which shall be identified as "Stellenbosch Special Rebate" (SSR). The Municipal Council will annually during the budget processes approve this rebates' discount percentage.

This rebate will only be applicable to said organisations that apply as per paragraph 14.1 of this Policy for such rebate.

8.7 Public Benefit Organizations (PBO)

The Municipality will apply the rate ratio as set out in the MPRA to public benefit organisations.

As per the MPRA the specific public benefit activity listed in Item 1 (Welfare and Humanitarian), Item 2 (Health Care), and Item 4 (Education and Development) of Part I of the Ninth Schedule of the Income Tax Act will be applicable and must be conducted/executed on said property.

All Public Benefit Organisations must annually submit, according to paragraph 14.1 of this Policy proof of their status as per the above criteria.

8.8 Non-Profit Organizations (NPO)

An organisation must be registered as a Non-Profit Organisation (NPO) under the Non-profit Organisations Act, 1997 (Act 71 of 1997) to be considered as a candidate for the relief measures described below.

Organizations listed in paragraph 8.8.1 below that are operated as not-for-gain (declared or registered by law) or organisations that execute activities as per Item 6 (Cultural), item 7 (Conservation, Environment and Animal Welfare) and Item 9 (Sport) of Part 1 of the Ninth Schedule to the Income Tax Act may receive a rebate. All abovementioned organisations being privately controlled must be the owner of said properties.

These rebates are not applicable to any vacant land irrespective of its zoning or intended usage unless stated otherwise in this Policy.

All NPO must annually submit, according to paragraph 14.1 of this Policy proof of their status as per the above criteria.

Abovementioned organisations which have a total revenue/income not exceeding one million Rand per annum, will receive a ~~40080~~ 40% rebate. On the other hand, those organisations having a revenue/income exceeding one million Rand per annum will receive a rebate percentage of 20%.

8.8.1 Prescribed not-for-gain organisations

(a) *Health and welfare institutions*

Privately owned properties used exclusively as a hospital, clinic, mental hospital, orphanage, non-profit retirement village, old age home or benevolent institution, including workshops used by the members or patients, laundry or cafeteria facilities.

(b) *Charitable institutions*

Properties used solely for the performance of charitable work.

(c) *Agricultural societies*

Property owned by agricultural societies used for the purposes of the society.

(d) *Cemeteries and crematoria*

Privately owned properties used as cemeteries and crematoria.

(e) *War veterans*

Property registered in the name of a trustee or organisation in terms of the Social Assistance Act, 2004 (Act 13 of 2004), maintained for the welfare of war veterans and their families.

~~(f) *Heritage properties*~~

~~Open to the public and used as historical monuments, museums, libraries, and art galleries. This provision will apply only until the transition of the new General Valuation to be implemented on 01 July 2021.~~

~~8.9 Heritage Properties~~

~~The Municipality recognises properties as described in Section 15(2A)(b) of the MPRA and as per paragraph 6.1 (j) of this Policy as Heritage properties which will be rated at the applicable rate.~~

~~Owners of heritage properties must annually submit, according to paragraph 14.1 of this Policy proof of their status as per the above criteria.~~

8.109 Properties affected by Disaster or adverse Economic Conditions

The Municipality may consider additional relief measures as envisaged in Section 15(2)(d) of the MPRA and as approved by Council.

8.110 Exceptional General Valuation Rates Increases: Phasing in

The Municipality may consider a relief measure for owners of property adversely affected by exceptional rates increase of a new General Valuation (GV) cycle. This incentive will only be implemented as from the implementation date of a GV and on proviso that:

- (a) for a property to qualify, the Rates for the first financial year of the GV cycle for the property, as result of the property valuation of a GV cycle, must be at least four (4) times more than that of the rates for said property during the financial year preceding the start of the GV cycle.
- (b) the rates for the financial year preceding the start of the GV cycle must be greater than R1 000 per annum;
- (c) the rebate granted would be phased-out over two financial years;
- (d) the rebate for the first financial year will be 50% and during the second year it will be 25% rebate on the rates applicable for that year;
- (e) this incentive will not be cumulative on any other rebate that may be granted to said owner;

- (f) the most beneficial rebate between this incentive and any other rebate which said owner may receive in each financial year will prevail;
- (g) improvements or errors of valuations to said property that could have influenced the GV valuation will be reviewed during the application approval;
- (h) applications will only be considered until the end of the initial 6 months of a GV cycle; and
- (i) owners of such property must apply as per paragraph 14.1 of this Policy.

9. LIABILITY FOR AND PAYMENT OF RATES

9.1 Liability for and payment of rates

Liability for and payment of rates is governed by criteria in this Policy, by the MPRA, the Municipality's Credit Control and Debt Collection Policy, By-Laws and any other applicable legislation. Actions as per the applicable By-Laws and/or Policies shall be taken against defaulters.

There are one of two methods of payment that the owner of the property must agree upon, namely (i) paying the rates on a monthly basis or (ii) paying the rates in one amount every annum.

The paying of rates on a monthly basis will be the preferred method unless the owner has selected the annual method of payment via a written request before 31 May preceding a financial year.

- (i) When paying on a monthly basis the amount due shall be paid not later than the date as specified on the monthly accounts. The cycle of such payments will start on the first day of July (the start of a financial year) and extend to the 30th of June the following year.
- (ii) When paying a once-off amount (the full rates for that financial year), then that amount shall be paid in full not later than the date as specified on the account. Please note that additional annual payments may be triggered during a financial year by a supplementary valuation on said property.

Changes to the preferred method of payment must be exercised by the owner before 31 May of a financial year and once set the method of payment will not be changed during a current financial year.

9.2 Rates in arrears for longer than 90 days

When an owner's rates account is in arrears for longer than 90 (ninety) days, then the Municipality may initiate the proceedings as described in Sections 28 or 29 of the MPRA.

A notice to this effect will be forwarded to the tenant, occupier or agent providing the required legal information regarding their payments to the owner, which are to be redirected to the Municipality so as to cover the arrear rates account.

A notice will be forwarded to the owner in question to indicate the legal proceedings and the actions that the Municipality has initiated.

10. QUANTIFICATION OF COSTS TO MUNICIPALITY AND BENEFITS TO COMMUNITY

The cost to the Municipality and benefit to the local community in terms of exemptions, rebates, reductions and exclusions referred to in the MPRA and rates on properties that must be phased-in in terms of the MPRA will be reflected in the Municipality's budget.

11. OBJECTION AND APPEALS

- (a) Any person may lodge an objection to a valuation subject to Section 50 of the MPRA but within the period stated in the notice referred to in Sections 49(1)(a) and 78(5)(b) of the MPRA.
- (b) An appeal to an appeal board against a decision of a municipal valuer in terms of section 51 of the MPRA may be lodged in the prescribed manner subject to Section 54 of the MPRA. The appeal must be lodged (as a guideline), within a period of 30 days nonetheless, as set out in Section 54(2) of the MPRA.
- (c) The administrative actions or processes as described in the MPRA for the handling of objections or appeals will be the basis that the Municipality will follow.
- (d) The lodging of an objection or appeal: -
 - (i) In terms of Section 50 of the MPRA does not defer liability for the payment of rates in terms of this Policy; or
 - (ii) In terms of Section 54 of the MPRA does not defer liability for the payment of rates in terms of this Policy.

12. CLEARANCE CERTIFICATES

All monies collected by the Municipality, specifically in respect of Special Rating Areas and any estimated amounts in terms of Section 118(1A) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (the Systems Act), or Section 89 of the Insolvency Act, 1936 (Act 24 of 1936), are for the purpose of Section 118 of the Systems Act, deemed to be due and must be paid in order to facilitate the transfer of immovable property:

- (i) All amounts that are due must be paid in full prior to the issuing of any clearance certificate in terms of Section 118, of the Systems Act; and
- (ii) No interest shall be paid by the Municipality to the registered seller in respect of these payments which are deemed to be due.
- (iii) The Municipality will not be responsible for the apportionment of rates and/or services due or paid in respect of any rates clearances and registrations.
- (iv) The Municipality may issue only one clearance certificate for properties deemed to be in an adjoining state as per paragraph 7.9 of this Policy.

13. ADJUSTMENTS OF RATES PRIOR TO SUPPLEMENTARY VALUATION

13.1 If the owner of a property which has been subdivided or consolidated after the last general valuation wishes to sell the consolidated erf, or one or more of the erven which have been subdivided from the parent erf, as the case may be, applies to the Municipality for a clearance certificate in terms of Section 118 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), and if the Municipality has not yet included such valuation of the relevant property(ies) in a supplementary valuation:-

- (a) the Municipal Valuer shall conduct a valuation of the relevant property(ies) for purposes of a supplementary valuation; and
- (b) the valuation shall be submitted to the CFO for approval of the levying of rates on such property(ies) in accordance with such valuation, with effect from the date on which the relevant subdivision or consolidation (as the case may be) was registered in the Deeds Office

- 13.2 Any valuations performed in terms of paragraph 13 shall be included in the next supplementary valuation process as per the provisions in Sections 78 (1) to (5) of the MPRA.

14. GENERAL

14.1 Applications for Relief Measures

- (a) All applications, required in terms of this Policy for a specific relief measure must be submitted to the Municipality by 30 November of each year, which date precedes the financial year in which the rate is to be levied. If the relief measure applied for is granted, the relief measure will apply for the full financial year. All successful applicants are bound by all the criteria as per paragraph 14.1 of this Policy.
- (b) Any applicant who, during a financial year, for the first time, meets all the criteria other than (a) above, may apply to receive the relief measure initiated from the month following the approval by the Municipality of said application for the remainder of that financial year, thereafter all the criteria as per paragraph (a) above will apply to applications for subsequent financial years.
- (c) Late applications received after 30 November of a given year may be considered by the Municipality, in which case, if the relief measure applied for is granted, a *pro rata* rebate for the remainder of the next (new) financial year may be applicable.
- (d) Persons who have submitted false information and/or false affidavits will have the relief measure withdrawn with effect from the commencement of the financial year in question.
- (e) All applications for relief measures will require the applicant's municipal accounts to have been paid up to date or the conclusion of a suitable arrangement with the Municipality as provided for in the Municipality's Credit Control and Debt Collection By-Law and Policy.
- (f) The Municipality reserves the right to request current and/or previous audited financial statements or to inspect all properties before or after implementing the applicable rate and to revoke or amend any decision made prior to such investigation or financial review.
- (g) The Municipality reserves the right to recover any rates and/or relief measures from owners of properties after the status of said properties have changed.
- (h) The Municipality reserves the right to request any additional information as may be deemed necessary.

14.2 Regular policy review processes

This Policy will be reviewed on an annual basis to ensure that it complies with the Municipality's strategic objectives and with legislation.

14.3 Language Interpretation

The legal interpretation of the English version of this Policy only shall prevail above all other language translations of this Policy.

14.4 Severance

If any provision of this Policy is struck down as invalid by a court of law, such provision shall be severed from this Policy, and shall not affect the validity of the remaining provisions.

15 BY-LAWS

The principles contained in this Policy will be reflected in the By-Law as promulgated and adjusted by Council from time to time.

PREAMBLE

The Stellenbosch Municipal Council accepts and acknowledges its Constitutional duties and mandate relating to indigent support in terms of Sections 152 and 153 of the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) towards the community/consumers within the jurisdiction of Stellenbosch Municipality (WC024).

Council further acknowledges that because of the level of unemployment and consequential poverty in the municipal area, that correlated households are incapable of paying for basic municipal services.

Indigent relief measures are thus a fundamental requirement that is achievable only within sustainable budgets set by Council as well as support and direction via National Government.

Concomitantly, indigent households equally have the responsibility of managing their levels of consumption and that they are responsible for the payment of municipal services that are consumed in excess of the reduced cost or Free Basic Service levels as described in this Policy.

The effective implementation of such a program depends principally on affordability and is supported by the socio-economic analysis of various areas as included in the Council's Integrated Development Planning. The Council's mandate regarding affordability of basic services to poor households is directed by mechanisms in Section 74(2)(c) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) and Section 15 of the Local Government: Municipal Property Rates Act, 2004 (Act 6 of 2004).

In order to give effect to the foregoing, the Council of Stellenbosch Municipality has adopted a policy relating to indigence as set out hereinafter.

1. DEFINITIONS

In this Policy, a word or expression derived from a word or expression as defined, has a corresponding meaning unless the context indicates that another meaning is intended. Implicit definitions as defined in various paragraphs of this Policy are set in addition to the explicit definitions as set below:

“the Municipality” means Stellenbosch Municipality (WC024).

“Basic Services” means that level of services delivered by the Municipality at a reduced cost or at no cost to the Indigent consumer and which the Council has considered reasonable and sustainable within budget constraints.

“Child-headed household” means a household where the main caregiver of said household is not older than 18 years of age and is a child as defined in Section 28(3) of the Constitution.

“Constitution” refers to the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996)

“Household” means a family unit comprising a head of the family, being a natural person. The family may include blood related or adopted dependents. This is further described in paragraph 5.2 of this Policy.

“Indigent” means the lack of necessities of life such as sufficient water, basic sanitation, refuse removal, environmental health, basic energy, health care, housing, food and clothing.

“Indigent Income Threshold” means the qualifying monthly income as described in paragraph 5.5 and as set in paragraph 5.5(b) of this Policy.

“Valuation Threshold” means that value of municipal valuation as set for residential properties in paragraph 8.2 of the Municipality’s Rates Policy.

2. POLICY OBJECTIVES

The objectives of this Policy are to:

- (a) Provide a framework within which the Municipality can exercise its executive and legislative authority regarding the identification of indigent households and the implementation of financial aid to such.
- (a) ensure the provision of basic services to indigent households within the jurisdiction of the Municipality in a sustainable manner and within the financial and administrative capacity of the Municipality.
- (b) ensure the establishment of procedures and guidelines for the effective subsidisation of basic services charges to such approved indigent households within budgetary and national grant guidelines.

3. POLICY PRINCIPLES

The following guiding principles for the formulation of this Policy, are to:

- (a) ensure that the portion for free basic services allocated as part of the equitable share received annually, be utilised for the benefit of indigent households.
- (b) promote an integrated approach to subsidised basic service delivery.
- (c) optionally use external services and/or references to verify the information provided by the applicants.
- (d) maintain the relief measures to indigent households for as long as such indigent household remains registered on the municipality's indigent data base or register and the municipality continues to receive equitable share for this purpose.
- (e) review the relief measures by random sampling to ensure *bona fide* indigent support.
- (f) engage the community in the development and implementation of this Policy.

4. LEGISLATIVE CONTEXT

4.1 This policy is implemented within the framework of the following legislation:

All citations to applicable Acts as referenced in this Policy shall include all amendments and regulations to such as promulgated.

- (a) The Constitution of the Republic of South Africa, 1996 (Act 108 of 1996), in particular Sections 152 and 153.
- (b) Local Government: Municipal Systems Act, 2000 (Act 32 of 2000).
- (c) Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003).
- (d) Local Government: Municipal Property Rates Act, 2004 (Act 6 of 2004), in particular Section 15 and/or.
- (e) any other legislation that may be applicable

4.2 This Policy was developed using the following guideline(s):

- (a) National Framework for Municipal Policies.
- (b) National Indigent Policy Assessment tool, 2018 - COGTA

5. QUALIFICATIONS AND SCOPE

The introduction of reduced cost or free basic services will ensure that indigent consumers have access to basic services.

5.1 Subsidy:

Subsidies are granted from external funds, allocated by the National Government as an Equitable Share allocation, to subsidize Indigent households with specified levels of basic services. This is based on a:

- (a) Level of income enabling Indigent households to pay for a basic package of municipal services; and/or

- (b) Municipal property valuation value that sets the level at which indigent support may be granted.
- (c) Subsidy scheme that is promoted through the press and by means of personal referral, but principally via referrals by the credit control and debt recovery section of the Municipality.

5.2 Household:

- (a) The head of the household must be a South African citizen and have permanent residency.
- (b) The head of the household should be:
 - (i) the registered owner or part owner of the property; or
 - (ii) the registered lessee of a Council housing unit; or
 - (iii) the registered lessee of a Government owned housing unit; or
 - (iv) a person, being the head of the household, who is incapable of paying for basic municipal services and who resides in said property/unit.

The head of the child-headed household shall be deemed to meet these criteria.
- (c) To register as an indigent consumer the head of the household must personally complete and sign the registration form.
- (d) Child-headed households will only be approved based on the following criteria:
 - (i) both parents of the household are deceased, or one parent and/or guardian is deceased, and the other is totally alienated from the household;
 - (ii) a minor has assumed the role of caregiver in respect of the other minor(s) in the household;
 - (iii) such minors reside permanently on the property;
 - (iv) such minors, and exclusively only minors occupy the property as their normal residence;
 - (v) such minors are scholars or unemployed and if income is derived, the household earns less than the qualifying income as envisaged by the defined Indigent Income Threshold;
 - (vi) the situation pertaining to the household has been verified by the Municipality; and
 - (vii) the situation pertaining to the household will be reviewed when the caregiver as per (ii) above reaches the age older than 18 years.
- (e) Indigent households living in homes for senior citizens shall be eligible to qualify for assistance and support under this Policy, subject to the following rules and procedures:
 - (i) For the purposes of passing/issuing the free basic electricity units to such indigent household, the onus will be on the unit owner or lessee to apply and submit proof that the electricity connection is in the name of the

Indigent consumer and not in the name of the organization providing the accommodation.

- (ii) In the event of the unit being occupied by a single individual without any dependents as per the definition of a household above, the level of income to qualify shall be equal to or less than 50% (fifty percent) of the defined Indigent Income Threshold per month.

5.3 Basis of Subsidy:

- (a) Only formal or informal housing units utilized for residential purposes will be taken into consideration for the purpose of this subsidy, being the provision of free basic services.
- (b) All informal structures where a prepaid electricity meter has been installed by the Municipality will qualify for this subsidy. In the cases where off-grid electricity is supplied by an authorised service provider appointed in terms of paragraph 5.7.2(b) of this Policy such households will also qualify for a subsidy, which subsidy will be paid directly to the authorised service provider.
- (c) Applications deviating from the above will only be considered after a detailed investigation and evaluation by the Municipality.

5.4 Liability for payment of municipal accounts:

- (a) Subsidies will only be granted to households liable for the payment of municipal service fees.
- (b) Subsidies will only be granted by means of a credit on municipal accounts and free basic electricity vouchers or in the form of subsidy paid directly to the authorised service providers of off-grid electricity as envisaged in paragraph 5.7.2(b) of this Policy. No subsidy will be paid directly to any Indigent consumer or household in the form of cash or any such disbursement.
- (c) Households are liable for the payment of fees, as stated on the monthly account, for any service in any given month that exceeds that service's subsidy.
- (d) Monthly accounts, as well as the instalments arranged in respect of the repayment of debt, must be paid punctually and in full. If required, and after reasonable alternatives have been exhausted, the process to recover debt from indigent consumers will be dealt with in terms of the Credit Control and Debt Collection Policy and procedures of the Municipality.
- (e) Prepaid electricity meters will be installed on all properties of formal households before receiving indigent subsidies to prevent escalation of debt.
- (f) Water management devices may be installed on properties of formal households before receiving indigent subsidies to prevent escalation of debt.

5.5 Qualifying income:

- (a) Gross household income is defined as the earnings of the head of the family, plus any other financial contribution towards the household income by any other dependant or occupant. Government grants as received by dependent minors will be ignored and not be added as a financial contribution towards the household income.

- (b) The maximum qualifying income level defined as the Indigent Income Threshold for a household as described in paragraph 5.2 of this Policy will be equal to or less than R 6 500 per month. Proof must be produced in the form of pay slips, unemployment certificates, income certificates or other acceptable proof of income.
- (c) Should proof of income not be available, income may be declared by means of a sworn statement. Such applications may be verified by means of a full investigation and a socio-economic survey.

5.6 Targeting mechanisms:

The following principles for the granting of free basic services apply:

- (a) Properties in respect of which property tax is levied on a municipal valuation amount will qualify as follows:
 - (i) The municipal valuation of a property being less than or equal to the defined Valuation Threshold will be used as the guiding threshold.
- (b) Indigent subsidies will only be considered by the Municipality upon application on a prescribed form by households which consider themselves as being indigent.

5.7 Basic services :

The Municipality will provide the following basic services at reduced or at no cost to the Indigent consumer:

5.7.1 Formal Households

Free basic services for Formal households will consist of the following:

- (a) 100 kWh electricity per household per month subject to it being supplied via a prepayment metering system as the qualifying criteria for a registered indigent household to be placed on the Lifeline Electricity Tariff. Free electricity units will not be applicable should the Indigent Household choose not to install a pre-paid meter;
- (b) a basic charge for water and a maximum of 6 kl water per household per month;
- (c) a service subsidy not exceeding the cost of one refuse unit in respect of a single residential;
- (d) a service subsidy not exceeding the cost of one sewerage service unit supplied to residential properties with a maximum area of 250m²; and/or
- (e) 50% of the applicable tariff for clearances of septic tanks.

5.7.2 Informal Settlement Households

Free basic services for Informal Settlement Households will consist of the following:

- (a) 100 kWh electricity per household per month; or
- (b) a maintenance and operations subsidy (equivalent in Rand value to 100kWh electricity per household per month) for off-grid solar home systems, operated by a municipal approved service provider or Energy Service Company (ESCO).

(In the case of off-grid electricity subsidies as contemplated above, the Municipality may, subject to a detailed review by the Revenue Section appoint an authorised service provider to provide the maintenance and operations function for a group or groups of indigent recipients of off-grid electricity at a maximum rand equivalence of the value of 100 kWh electricity per household per month.)

- (c) Other services (specifically water, sewerage and refuse removal services) are not billed for.

5.7.3 Indigent households residing in homes for senior citizens

Free basic services for qualifying households residing in homes for senior citizens as per paragraph 5.2(e) of this Policy will consist of 100 kWh electricity per household per month.

5.8 Free bulk services

Free Bulk Services shall be the provision of services (water standpipes, high mast lighting, ablution facilities and refuse removal) to informal settlements.

The cost of the provision of free bulk services is recovered from the Equitable Share Allocation from National Government and processed monthly.

5.9 Other concessions

- (a) Registered indigent consumers limited to the immediate occupants of the household occupying the property excluding any extended family members could qualify for a discount of up to 50% (fifty percent) on the approved fees and tariffs for non-trading services (refer paragraph (d) below) as defined by Council from time to time subject to application to the relevant Director.
- (b) Proof of registration as an indigent consumer must be obtained from the Credit Control Section of Financial Services prior to the application for the discount being made.
- (c) For the purposes of clarity, other categories of consumers (other than registered indigent consumers) such as back yard dwellers, farm workers and lessees of other property earning equal to or below the Indigent Income Threshold per month, may also qualify for the concessions (i.e. a discount of up to 50% (fifty percent) on the approved fees and tariffs, limited to the services envisaged in paragraph (d) below.
- (d) Discounted non-trading Services; refers to:
 - (i) Community hall discounts.
 - (ii) Burial fees in sections of cemeteries without head stones (i.e. crosses or flat stone areas only) and cremations when available. This concession is only applicable for burials on Mondays to Saturdays, excluding Public Holidays. Farm workers must provide written confirmation regarding the burial site from the farm owner.

6. ALLOCATION OF SUBSIDIES

- (a) The subsidy in any given month and service will be an amount not exceeding the amount as reflected in the Council's approved Tariff Schedules for services for Indigent households as per paragraphs 5.7 and 5.9 of this Policy.
- (b) Only one subsidy per service per property may be allocated in any given month.
- (c) Subsidy levels may be adjusted from time to time, depending on the availability of funds.
- (d) Lessees of subsidized housing units already receiving a municipal subsidy for the alleviation of municipal service costs included in rentals will not qualify for an Indigent subsidy. Should the latter subsidy be more advantageous, such a lessee may request that the Indigent subsidy replace the Rental subsidy.

7. APPLICATIONS FOR INDIGENT SUBSIDIES

- (a) Applications (i.e. applications submitted by individuals) will be required by any household which considers themselves to be an indigent household.
- (b) Only applications lodged by means of the prescribed application form will be considered by the Municipality.
- (c) Such households may be visited by employees of the Municipality or approved service providers, where after a written recommendation would be considered.
- (d) The maximum subsidy may be granted to households with no income, even if the corresponding accounts are not paid in full
- (e) Indigent assistance will be applicable for as long as an indigent household remains registered as such on the indigent data base or register and the Municipality continues to receive equitable share for this purpose.
- (f) The Municipality has the right to disclose a list of Indigent households for public inspection, which may include the publication thereof.
- (g) In a case of misrepresentation or any other transgression of the conditions for the provision of subsidies, the subsidy will be withdrawn with immediate effect and not be reconsidered for a period of at least 12 months. Legal actions may be instituted to recover subsidies obtained under false pretences.
- (h) Indigent relief will not apply in respect of property owners with more than one property, whether such property is situated inside or outside the area of jurisdiction of the Municipality.
- (i) Subsidies will not be granted on a pro-rata basis and applications received after the twentieth day of a month will be granted in the following month.
- (j) The onus is on the recipient of indigent subsidy to inform the Municipality immediately of any changes in personal circumstances that may warrant a review of his/her indigent status. For example, the status of any change of employment or to the Gross Household income as per paragraph 5.5 above must be reported to the Municipality.

- (k) The municipality reserves the right to review and/or to conduct home visits on a random basis with the view of assessing whether a household would still qualify for receiving indigent assistance. Upon cancellation of indigent assistance normal credit control procedures will be applicable on arrear accounts of such cancelled applications.

8. PROPERTY TAX REBATES BASED ON MUNICIPAL VALUATION

This Policy only addresses indigent subsidies and any form of rates relief is addressed as provided for in the Rates Policy of the Municipality.

9. INDIGENT REGISTER

- (a) The Municipality shall draw up and maintain a register in respect of properties and households receiving indigent assistance.
- (b) The register will be open for inspection by the public during office hours.
- (c) The Municipality will at regular intervals review the register and apply randomly selected checks as to the status of an application.

MISCELLANEOUS PROVISIONS

17. Repeal	12
18. Short Title and Effective Date	12

To provide for the establishment of special rating areas; to provide for additional rates; and to provide for matters incidental thereto.

BE IT ENACTED by Stellenbosch Municipality as follows:-

CHAPTER 1

ESTABLISHMENT OF SPECIAL RATING AREAS

1. DEFINITIONS

In this By-law words or expressions shall bear the meaning assigned to them and, unless context otherwise indicates.

In addition to the definitions contained in the Property Rates Act, the following definitions apply for the purpose of the application of this By-law.

“additional rate” means an additional rate contemplated in sections 19(1)(d) and 22(1)(b) of the Property Rates Act in section 12(2) of this By-Law;

“applicant” means any owner who makes an application for the determination of a special rating area in accordance with provisions of Chapter 1 of this By-Law, or if a management body is established in terms of section 10 of this By-Law any reference to **“the Applicant”** means the management body;

“CFO” means the Chief Financial Officer of Stellenbosch Municipality, or his or her nominee.

“Council” means Council of Stellenbosch Municipality;

“implementation plan” means an Implementation Plan as contemplated in section 6 of this By-Law;

“limited special rating area” means a limited special rating area approved by the Council in terms of section 9 of this By-Law;

“majority” means the majority of properties represented by the members of the local community in the proposed special rating area who will be liable for paying the additional rate;

“management body” means the management body of a special rating area to be established in accordance with the provision of section 10 of this By-Law;

“motivation report” means a motivation report as contemplated in section 6 of this By-Law;

“owner” has the meaning assigned to it in section 1 of the Property Rates Act;

“Policy” means the Policy for the determination of special rating areas named the Special Rating Area Policy of the Stellenbosch Municipality;

“Property Rates Act” means the Local Government: Municipal Property Rates Act, 2004 (Act No.6 of 2004);

“rateable property” has the meaning assigned to it in section 1 of the Property Rates Act;

“special rating area” means a special rating area approved by the Council in accordance with the provisions of section 22 of the Property Rates Act and section 8 of this By-Law.

2. INTERPRETATION

In the event of any conflict with the Afrikaans or isiXhosa texts the English text prevails.

3. DETERMINATION OF SPECIAL RATING AREAS

Stellenbosch Municipality may by resolution of the Council determine special rating areas.

4. APPLICATION

(1) Any owner located within the area of jurisdiction of Stellenbosch Municipality and who owns property within the proposed special rating area, may lodge an application to the Stellenbosch Municipality for the determination of a special rating area.

(2) All costs incurred by the applicant in respect of the establishment of a special rating area shall be for his or her own account, provided that after implementation of the implementation plan the management body may reimburse the applicant for some or all of those costs.

(3) Any application contemplated in subsection (1) above must –

(a) be in writing and be in the form as the CFO may determine;

(b) be submitted not more than nine months after the date on which the public meeting referred to in section 5 of this By-Law is held, or if a second public meeting is held as provided for in section 6(2) of this By-Law, nine months after the date of the second public meeting;

(c) be accompanied by –

(i) a motivation report and an implementation plan;

(ii) the written consent submitted by the members of the local community in the proposed special rating area who will be liable for paying the additional rate. All

owners of each property in the proposed special rating area must sign the consent form. The majority shall be determined by the number of properties in the proposed special rating area for which duly preformed consent forms were received in relation to the number of properties in the proposed special rating area. Under specific conditions, aimed at a more inclusive approval process, the majority may be set at a higher percentage as determined in the Special Rating Area policy. The format of the consent may be determined by the CFO;

- (iii) payment of such fee as the Council may determine.

5. PUBLIC MEETINGS

- (1) An application for the determination of a special rating area must be preceded by the holding of a public meeting.
- (2) The purpose of the public meeting is to enable the applicant to consult with those owners within the proposed special rating area regarding the proposed boundaries of the area and the proposed improvement or upgrading of the area.
- (3) Prior to the holding of the public meeting, the applicant must –
 - (a) give notice in a manner approved by the CFO in terms of this By-law owners of rateable property, who will be liable for payment of the additional rate, of the applicant's intention to apply for the determination of a special rating area
 - (b) in the notice referred to in subsection (3)(a) above, give notice of a public meeting, which notice must –
 - (i) state the purpose of such meeting; and
 - (ii) contain details of the place, date and time when such meeting is to be held.
- (4) The public meeting must be held not less than seven days and not more than 30 days after the date of the notice.
- (5) The public meeting must be held at such place, date and time as stated in the notice, provided that it must be held at a place which is within the boundaries of the proposed special rating area unless the CFO approves another venue in writing before the public meeting is held.
- (6) The public meeting must be chaired by a suitable qualified and experienced person appointed by the CFO.
- (7) Any interested person must, at the public meeting, be –

(a) Furnished with all relevant information relating to the proposed special rating area, including the information to be set out in the motivation report and implementation plan; and

(b) given an opportunity to ask questions, express their views and make representations.

6. MOTIVATION REPORT AND IMPLEMENTATION PLAN

(1) Any application for the establishment of a special rating area must include a motivation report and an implementation plan covering a period commencing on 1 July of a year and ending on 30 June of the fifth year or covering such lesser period as may be determined by the CFO.

(2) If the motivation report or the implementation plan are materially amended, as determined by the CFO, after the public meeting referred to in section 5 of this By-Law, the applicant must call a second public meeting for approval of the special rating area as amended.

(3) The provision of section 5 of this By-Law applies with the necessary changes to the second public meeting.

7. ADVERTISING OF APPLICATION AND OBJECTIONS

(1) The applicant must within 14 days after the application is lodged in accordance with section 4 of this By-Law, or within such further period which the CFO may approve –

(a) Cause a notice of the application to be published in a manner approved by the CFO; and

(b) Either before or up to seven days after the date of publication of the notice, give written notice of the application to all owners within the proposed special rating area, who will be liable for payment of the additional rate. Such notice must be served by pre-paid registered post, hand delivery or in any other manner approved of in writing by the CFO.

(2) Every notice contemplated in terms of subsection (1) above must state that written objections to the determination of a special rating area or the provisions of the motivation report and implementation plan may be lodged with the Stellenbosch Municipality by a date specified in the notice, which shall not be less than 30 days after the date of publication in terms of subsection (1)(a) above, and must state where the documentation specified in subsection (5) below will be available for inspection.

(3) Any owner of rateable property who will be liable for paying the additional rate may submit written objections to the determination of the special rating area, which objections must be

received by the Stellenbosch Municipality not later than the date stipulated in the notice referred to in subsection (1) above.

- (4) Any objector to the application who owns property within the proposed special rating area may make oral representation to the CFO.
- (5) The application, including the motivation report and the implementation plan, and all objections must be available for inspection at the office of Stellenbosch Municipality and at a venue determined by the CFO within the proposed special rating area, for the period referred to in subsection (2) above.

8. DECISION

- (1) After the provision of sections 4 and 7 of this By-Law have been complied with, the Council must, at a meeting of the Council held within 90 days after the last date for the submission of objections in accordance with section 7(2) of this By-Law, consider the application and –
 - (a) determine a special rating area which must be implemented in accordance with the motivation report and implementation plan;
 - (b) determine a special rating area with such amendments or conditions as the Council considers to be in public interest;
 - (c) determine a special rating area in respect of a limited area in terms of section 9 of this By-Law;
 - (d) refuse the application, in which event the Council must, within 30 days, furnish the applicant with written reasons for not approving the determination of a special rating area; or
 - (e) refer the application back to the applicant for amendments in such manner as the Council may direct.
- (2) If an application is refused by the Council in accordance with the provisions of subsection (1)(d) above or referred back to the applicant in accordance with the provisions of subsection (1)(e) above, the applicant may, within six months of the Council's decision, re-apply to the Council for the determination of the special rating area, provided that such re-application has been appropriately amended in the light of the reasons for refusal or referral, as the case may be.
- (3) If the motivation report or implementation plan is amended in any material respect at any time before the determination, the Council may require that the amended application be re-advertised in accordance with the provision of section 7 of this By-law, with the necessary changes.

9. DETERMINATION OF A LIMITED SPECIAL RATING AREA

If an application in terms of section 4 of this By-Law is not accompanied by the majority of the members of the local community in the proposed special rating area required by section 4(3)(c) of this By-Law, but the applicant can demonstrate to the satisfaction of the Council, that –

- (a) there are such confirmations from owners of rateable properties in a limited geographical area within the proposed special rating area that would meet the requirements of section 4(3)(c) of this By-Law if they were to be applied to that area; and
- (b) the level of services to be provided will not be reduced and the budget will be reduced accordingly as a result of the provision of those services in the limited area alone, as compared to the provision of those services in the whole of the proposed special rating area,

then the Council may, subject to the other provisions of this By-Law, determine a limited special rating area.

CHAPTER 2

SPECIAL RATING AREAS – STRUCTURES AND FINANCES

10. COMMENCEMENT OF THE IMPLEMENTATION PLAN

Once the Council has approved the establishment of the special rating area, the implementation plan may only be implemented after the management body has been established in accordance with section 11 of this By-Law.

11. ESTABLISHMENT, COMPOSITION, POWERS AND DUTIES OF MANAGEMENT BODY

- (1) The applicant must establish a management body for the purposes of implementing the provisions of the implementation plan.
- (2) The management body must be a company incorporated in accordance with the provisions of a Non-Profit company (company not for gain) as per the Companies Act, Act 71 of 2008 (as amended or replaced).
- (3) Stellenbosch Municipality shall monitor compliance by the management body with the applicable provisions of this By-Law, any guidelines or policies adopted by Stellenbosch Municipality and any agreements entered into with the management body and Stellenbosch Municipality.

- (4) The Council must nominate the relevant ward councillor and one other person, as representatives to attend and participate, but not vote, at the meetings of the management body.
- (5) Within two months after receipt of the first payment of the additional rate, the management body must begin carrying out the objectives of the implementation plan.
- (6) Within two months of the end of each financial year, the management body must provide the CFO with –
 - (a) Its audited financial statements for the immediately preceding year; and
 - (b) an annual report on its progress in carrying out the objectives of the implementation plan in the preceding year to improve and upgrade the special rating area.
- (7) Within two months after the Annual General Meeting, the management body must provide the Finance Portfolio Committee with –
 - (c) Its audited financial statements for the immediately preceding year; and
 - (d) An annual report on its progress in carrying out the objectives of the implementation plan in the preceding year to improve and upgrade the special rating area.

12. FINANCES

- (1) The financial year of the management body must coincide with the financial year of the Stellenbosch Municipality.
- (2) Where a special rating area has been determined, the Council must levy in accordance with the provisions of the Property Rates Act, a property rate in addition to the rates that it already charges on the owners of rateable property in the special rating area for the purposes of realizing the implementation plan. Provided that the Council may in terms of the Property Rates Act, Stellenbosch Rates Policy, Stellenbosch Credit Control and Debt Collection By-Law and the Stellenbosch Credit Control and Debt Collection Policy, exempt the indigent, senior citizens, disabled persons or any other category of owners from the additional rates.
- (3) When determining the additional rate referred to in subsection (2) above, the Council may consider imposing differential additional rates on one or more of the categories set out in section 8 of the Property Rates Act or any category as set out in the Stellenbosch Rates Policy.
- (4) The additional rate due in terms of this By-Law is a debt due to the Council and is payable and must be collected in the same manner as other property rates imposed by the Council.

- (5) The Council may, for the purpose of carrying out the provisions of the implementation plan of special rating area and subject to section 67 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 200), make payment to the management body of a special rating area.
- (6) The payment contemplated in subsection (5) above is conditional upon the conclusion of a finance agreement to be entered into between the Council and the relevant management body, and such agreement must regulate, among other things –
 - (a) the mechanisms and manner of payment; and
 - (b) terms on which payment to the relevant management body is to be made.
- (7) Subject to the provisions of its memorandum and articles of association, the management body is entitled to raise its own funds through commercial activities, donations or any other lawful means.
- (8) The Council, may determine and impose on the management body an administrative charge.

13. THE ROLE OF THE CFO

In addition to the other responsibilities and obligations of the CFO as set out elsewhere in this By-Law, the CFO must –

- (a) Establish separate ring-fenced budget votes and other record-keeping systems regarding the revenue generated by the additional rate and the improvement and upgrading of the special rating area;
- (b) Monitor compliance with the applicable legislation, including this By-Law and the Policy, by –
 - (i) receiving and considering the audited financial statements and reports regarding the carrying out of duties laid out in the implementation plan;
 - (ii) nominating, if he or she elects to do so, representatives to attend and participate but not vote at meetings of the management body.

CHAPTER 3

AMENDMENT AND EXTENSION OF IMPLEMENTATION PLANS

14. AMENDMENT TO IMPLEMENTATION PLANS

- (1) An implementation plan, including the geographical boundaries of the special rating area, may be amended by the Council on written application by the management body at any time after the formation of the special rating area.
- (2) The council may approve an application for an amendment referred to in subsection (1) above where the Council considers it not likely to materially affect the rights or interests of any owner, provided that the Council may require the management body to cause a notice of the application for such amendments to be published as approved by the CFO.
- (3) The Council may only approve an amendment in terms of subsection (1) above, with the changes required by the context, in accordance with the provisions of Chapter 1 of this By-Law, which the Council considers is likely to –
 - (a) materially affect the rights or interests of any person;
 - (b) affect the approved budget for the special rating area; and
 - (c) change the boundaries of the special rating area.
- (4) The Council may, for good reason, on written application by the management body, exempt the management body from complying with the provisions, or condone any non-compliance with any provisions, of Chapter 1 of this By-Law.

15. EXTENSION OF IMPLEMENTATION PLANS

A management body must, if it elects to extend the term of the implementation plan for a further period, on or before January in the year in which the implementation plan is due to terminate, submit an application to Stellenbosch Municipality for approval of extension of the term of the implementation plan, provided that –

- (a) the extension of the implementation plan may only be approved by the Council in accordance with the provisions of Chapter 1 of this By-Law, with the changes required by the context, and the Council may, for good reason, on written application by the management body, exempt the management body from complying, or condone any non-compliance, with any such provisions;
- (b) the provisions of section 14 of this By-Law shall apply to any amendment of an implementation plan which has been extended in terms of this section.

CHAPTER 4

DISSOLUTION OF A SPECIAL RATING AREA

16. DISSOLUTION

- (1) The Council may terminate the municipality's business relationship (connection and commitment) to a management body of a specific special rating area –
 - (a) Upon written application signed by owners of the majority of properties within the boundaries of the special rating area who are liable for paying the additional rate; or
 - (b) After prior consultation by the CFO with the management body or the community, whereupon for any good cause he or she may cause the necessary steps or processes to terminate the business relationship with the management body.
 - (c) Upon the decision by the CFO to terminate the business relationship to the specific special rating area, notices shall be forwarded to the management body and to all the property owners of the specific special rating area presenting the reasons for the proposed termination and any other pertinent details.
- (2) Upon the approval by Council to terminate the business relationship with the management body the additional rates applicable to said special rating area will no longer be raised and the associated payments to the management body shall cease.

CHAPTER 5

MISCELLANEOUS PROVISIONS

17. REPEAL

The provisions of any By-laws relating to special rating areas by Stellenbosch Municipality are hereby repealed insofar as they relate to matters provided for in this By-law.

18. SHORT TITLE AND EFFECTIVE DATE

- (1) This By-Law is called the Special Rating Area By-Law of Stellenbosch Municipality and shall take effect on 01 July 2021.

- (2) No new special rating area determined in terms of this By-Law may implement its implementation plan prior to 01 July 2020.

1. PREAMBLE

- (1) Section 229(1) of the Constitution authorizes a municipality to impose rates on property and surcharges on fees for services provided by or on behalf of the municipality.
- (2) Section 13 of the Systems Act read with ~~section-Section~~ 162 of the Constitution requires a municipality to promulgate municipal by-laws by publishing them in the gazette of the relevant province.
- (3) In terms of ~~section-Section~~ 3 of the Property Rates Act, a municipal council must adopt a policy consistent with the Property Rates Act on the levying of rates on rateable properties in the municipality.
- (4) In terms of ~~section-Section~~ 6(1) of the Property Rates Act, a municipality must adopt by-laws to give effect to the implementation of its rates policy.
- (5) In terms of ~~section-Section~~ 6(2) of the Property Rates Act, by-laws adopted in terms of ~~section-Section~~ 6(1) may differentiate between different categories of properties; and different categories of owners of properties liable for the payment of rates.
- (6) To that effect the Council of Stellenbosch Municipality has enacted a Property Rates By-law, as follows:

Formatted: CLM 0.1 Preamble Para (a)

2. INTERPRETATIONDEFINITIONS

In this By-Law, any word or expression to which a meaning has been assigned in the Local Government: Municipal Property Rates Act, (Act 6 of 2004) shall bear the same meaning unless the context indicates otherwise.

"Municipality" means the Stellenbosch Municipality (WC024).

"Rates Policy" means the Municipality's Property Rates Policy adopted by the Council of the Municipality by a resolution for a specific financial year in terms of Section 3(1) of the Property Rates Act and in terms of this By-Law.

"Constitution" means the Constitution of the Republic of South Africa.

"Council" means the Council of the Municipality.

"Credit Control and Debt Collection Policy" means the Municipality's Credit Control and Debt Collection Policy as stipulated by sections 96(b) and 97 of the Systems Act.

"Systems Act" means the Local Government: Municipal Systems Act, (Act 32 of 2000).

"Property Rates Act" means the Local Government: Municipal Property Rates Act, (Act 6 of 2004) including the amendment Acts and Regulations pertaining to the same.

"Rates" means a municipal rate on property as envisaged in ~~section-Section~~ 229(1)(a) of the Constitution.

3. OBJECTS

The object of this By-Law is to give effect to the implementation of the Rates Policy as contemplated in ~~section~~Section 6 of the Property Rates Act.

4. ADOPTION AND IMPLEMENTATION OF RATES POLICY

- (1) The Council shall adopt and implement a ~~rates~~Rates policy~~Policy as contemplated in terms of the provisions of Section 3(1) and~~ consistent with the Property Rates Act on the levying of ~~rates~~Rates on rateable properties within the jurisdiction of the Municipality.
- (2) The Rates Policy outlines the Municipality's rating practices; therefore, it is not necessary for this By-law to restate and repeat same.
- (3) The Rates Policy applicable to a financial year is hereby incorporated ??by reference?? in this By-law. All amendments to the Rates Policy as the Council may approve/adopt from time to time, shall be deemed to be likewise incorporated.
- (24) The Municipality Council shall not be entitled to levy ~~rates~~Rates other than in terms of the ~~valid~~Rates Policy for an applicable financial year and the annually promulgated resolution which reflects the cent amount in the Rand rate for each category of rateable property.
- (5) The Rates Policy is available at the Municipality's head office, satellite offices, libraries and website.

5. CONTENTS OF RATES POLICY

The Municipality's Rates Policy shall, inter alia:

- (1) Apply to all the ~~rates~~Rates levied by the Municipality pursuant to the adoption of the Municipality's annual budget.
- (2) Comply with requirements for;
 - (a) the adoption and contents of a ~~rates~~Rates policy~~Policy~~ specified in ~~section~~Section 3 of the Property Rates Act.
 - (b) the differentiation of categories of properties and categories of owners of properties as provided for in ~~section~~Sections 6, 8 and 15 of the Property Rates Act.
 - (c) the process of community participation specified in ~~section~~Section 4 of the Property Rates Act.
 - (d) the annual review of a ~~rates~~Rates policy~~Policy~~ specified in terms of ~~section~~Section 5 of the Property Rates Act.
 - (e) the publication of the adopted By-law in the Provincial Gazette as provided by Section 13 of the Systems Act.
- (3) Specify principles, ~~criteria~~criteria, and implementation measures for categories of rateable properties in terms of Section 8 and consistent with the Property Rates Act for the levying of ~~rates~~Rates which the Council may wish to adopt.

Formatted: Font: 11 pt, Not Bold, Font color: Auto, English (South Africa)

Formatted: Font: 11 pt, Not Bold, Font color: Auto, English (South Africa)

- (4) Specify principles, ~~criteria~~criteria, and implementation measures for the judicious granting of relief measures by means of Exclusions. Exemptions, Reductions and/or Rebates consistent with Section 15 of the Property Rates Act which the Council may wish to adopt.
- (5) Include such further administrative, control and enforcement mechanisms if any that are consistent with the Property Rates Act and the Systems Act, as the Council may wish to impose in addition to those contained in the Credit Control and Debt Collection By-Law and its associated Policy.

PREAMBLE

In terms of Section 96 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000)

a Municipality shall-

- (a) collect all money due and payable to it, subject to the provisions of said Act and any other applicable legislation and By-laws; and
- (b) for this purpose, implement and maintain a credit control and debt collection system which is not in conflict with its Rates and Tariffs policies and which complies with the provisions of said Act.
- (c) In order to give effect to the afore going provisions of said Act, the Council of the Stellenbosch Municipality (WC024), herein after refer to as the Municipality, has adopted a policy relating to credit control and debt collection as set out hereinafter.

1. PRINCIPLES

This Policy supports the following principles:

- (a) Human dignity must be upheld at all times.
- (b) This Policy must be implemented with equity, fairness and consistency.
- (c) Endeavours shall be focused such that data related to owners/debtors/consumers and accounts are correct at all times.
- (d) The implementation of this Policy shall be based on sound business principles, which may include credit worthiness checks and assessments of the credit risks involved.
- (e) New services will only be provided if supported by the relevant service contract(s) and payment of a consumer deposit alternatively, a bank guarantee in a form acceptable to the Municipality's Chief Financial Officer will be considered.
- (f) Interest on overdue accounts will be charged at the South African Reserve Bank's prime interest rate plus one percent, and will be levied on accounts outstanding after the relevant due dates thereof. For the purposes of calculation, a portion of a month will be deemed to constitute a full month.
- (g) Deposits/Bank guarantees will be utilised to proactively mitigate the potential of unnecessary credit risk exposure to Council.
- (h) An administration fee and/or collection fee will be charged on overdue accounts, according to Council's approved tariffs and the By-laws of Stellenbosch Municipality (WC024). Such fees will not apply to the accounts of unemployed registered indigent consumers.
- (i) The rates components on overdue accounts may be processed in terms of Sections 28 and 29 of the Local Government: Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA) and as described in the Rates Policy of Stellenbosch Municipality.

2. MUNICIPAL ACCOUNTS and ADDITIONAL MECHANISMS

2.1 Notices and Demands

The Owner's/Debtor's/Consumer's attention is drawn to the note on the municipal account, which states that the supply of services will be discontinued/restricted without further notice if the accounts are not settled in full. This serves as a warning to a defaulting owner/debtor/consumer that services will be discontinued/restricted upon defaulting on payments.

Notices, e-mails, cell phone text messages (SMS) or any available informative actions will however be issued to account holders as a first attempt (first notice) after the due date as a means to recover debt and to remind consumers/debtors/owners of their obligation to pay for services.

The aim of such reminders is to urge co-operation to settle accounts without the necessity to employ more drastic steps and to offer the opportunity to make arrangements to pay off such debt where the financial position of a consumer is such that relief is possible as per criteria in the Municipality's Rates or Indigent Policies.

Failure to respond to the aforesaid first notice will result in the disconnection and/or restriction of services and a final demand being issued where applicable.

Failure to respond to a final demand and in the event of arrears not being settled within the period stipulated in the final demand, or an arrangement not being concluded, legal action may be instituted (with the Municipality's rights reserved, notwithstanding the fact that services were disconnected/restricted or not) to recover the full outstanding debt.

In this regard the Municipality may consolidate any separate accounts of a debtor, credit a payment by a debtor against any account of that debtor and implement any of the measures provided for in this policy or the Credit Control and Debt Collection By-law in relation to any arrears of any of the accounts of such a debtor.

In the case of housing rental contracts, the Municipality may consider procedures for eviction or right sizing.

2.2 Additional Mechanisms

2.2.1 Electricity Services:

In the event of an owner/debtor/consumer other than a registered unemployed Indigent consumer regulated by Stellenbosch Municipality's Indigent Policy, failing to pay for electrical services due and payable, and in the event of such consumer having been placed on the disconnection list 3 times within a twelve (12) month period prior to such event, then Stellenbosch Municipality will have the right to install pre-paid electricity meters in a bid to limit credit risk. The Municipality may also consider upward adjustment of the relevant consumer deposit/bank guarantee.

2.2.2 Water Services:

The Stellenbosch Municipality may in the event of an owner/debtor/consumer exhibiting a trend of non-payment of accounts during a twelve (12) month period prior to a non-payment event (i.e. 3 times or more non-payment events) consider the installation of water demand management devices with pre-paid functionality in a bid to limit credit risk. The Municipality may also consider upward adjustment of the relevant consumer deposit/bank guarantee.

2.2.3 Rental Services:

Actions against defaulters are regulated to a degree by the contracts involved.

All contracts must at minimum and where appropriate, include the following criteria/requirements:

- (i) Due date for payments.
- (ii) Applicable procedures upon the defaulting of payments.
- (iii) Handover procedures.
- (iv) Eviction or right sizing actions.

3. ARRANGEMENTS

Should owners/debtors/consumers wish to make arrangements to pay off accounts in arrears, the following guidelines shall apply:

- (a) The main aim of arrangements should be to ensure that current accounts (which may include penalties/interest and/or any admin fees) are at least paid in full, before entering into acceptable arrangements to pay off arrears.
- (b) The Municipality may enter into an arrangement with a tenant or occupier of a property which is linked to an account in arrears, on proviso that:
 - (i) a written affidavit is received which certifies that the registered owner of said property, at which such tenant or occupier resides; is:
 - untraceable;
 - not contactable;
 - of unknown whereabouts; or
 - not co-operating with said tenant or occupier.
 - (ii) such tenant or occupier has substantiated the ability to pay and the right to occupation stating the rental due and the time period of such occupation and providing the last known address of the registered owner;
 - (iii) such tenant or occupier undertakes to advise the registered owner, at the first reasonable opportunity, of the current situation and further agrees to obtain the consent of the registered owner to condone the process as described in this paragraph 3 (b); and
 - (iv) where applicable, such tenant or occupier provides comprehensive details of the non-co-operation of the registered owner.
- (c) Care must be taken to ensure that all reasonable financial and social assistance, as provided for in various Municipality's Policies, is rendered to assist owners/debtors/consumers before drastic action is taken to recover debt e.g. subsidies for Free Basic Services and relief measures on property tax.
- (d) All arrangements must be concluded in writing and the debtor must be provided with a copy thereof. Arrangements will be invalid unless signed by the debtor and one or more delegated representative(s) of the municipality.
- (e) Arrangements must be entered into that are both affordable to the consumer and protect the Municipality's interest by ensuring the most cost-effective debt recovery.
- (f) Arrangements must be final and debtors will not be allowed to re-arrange debt repayments. The Municipality may for a meritorious case, upon presentation of proof of current difficulties, consider delaying the receipt of the arranged instalment. This delay may not exceed 3 months.
- (g) It is of vital importance to ensure that the settlement of current accounts (which may include penalties/interest and/or any admin fees), together with the debt repayment instalment, is seen as the minimum requirement for any agreement.
- (h) Arrangements must be compiled in a format that facilitates legal action, upon breach of contract. Written arrangements must as far as possible be in the form

of agreements in terms of Section 57 of the Magistrate's Courts Act, 1944 (Act 32 of 1944) and as amended by the Jurisdiction of Regional Courts Amendment Act, 2008 (Act 32 of 2008) (hereinafter referred to the Section 57 Agreements).

All debt repayment arrangements will be logged on the financial system to ensure maximum accessibility and to enable the effective administration of such repayments.

- (i) Arrears of Councillors and other Municipal Officials must be settled in full or arrangements to pay off such amounts, by means of salary deductions, may be entered into. This includes the seizure of bonuses or any other additional allowances (this paragraph (i) must be read in conjunction with the relevant sections of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000)).

The Stellenbosch Municipality is entitled to recover all arrears more than ninety days by means of salary deductions and proportionally from increases and/or the official's ~~thirteenth cheque~~ bonus/performance bonus. In this regard, all temporary contract workers are also regarded as municipal officials.

- (j) No interest will be levied on outstanding amounts for which arranged agreements have been entered into.
- (k) It is a preferable that a water demand management device and/or a prepaid electricity meter be installed when any arrangement is entered into.
- (l) Arrangements may only be concluded upon submission of the following documentation:
 - (i) Proof of identification;
 - (ii) Proof of Income;
 - (iii) Supporting documentation relating to expenses;
 - (iv) Three-month bank statements and/or payslips; and/or
 - (v) Any other relevant documentation as may be requested by the Credit Control Section.

4. ADJUSTMENT OF DEPOSITS/BANK GUARANTEES

Deposits/Bank guarantees may be increased to cover the additional risk as regulated in terms of the Municipality's By-Laws. Increases in deposits/bank guarantees shall be utilised to cover the additional risk resulting from default payments. The latter deposits will be utilised only after closing of account by debtor or transfer of property. Should the account remain unpaid, such deposit will be utilised for the unpaid portion. Any credits will be refunded to the consumer.

The Stellenbosch Municipality will not pay any interest on any deposits.

5. FURTHER ACTIONS

- (a) Should arrangements not be made, or not be accepted or not be adhered to, services are discontinued or restricted; or pre-paid services are restricted, provided that a fair and equitable procedure, including reasonable notice of the intention to discontinue or limit is followed. Where legislation does not allow for the complete termination of services, the Credit Control Section will determine the appropriate minimum level of service provision, where after, all amounts owing become due and must be paid in full before services are restored to full capacity.
- (b) Should amounts owed not be settled by the final date, i.e. after the date for payment set out in a final demand, such accounts and the relevant Agreements, where applicable, will be handed over to the Municipality's Collection Attorneys for recovery and/or to consider instituting further legal action.
- (c) The Municipality shall at its own discretion in compliance to the measures provided for in the Municipality's By-Laws, be entitled to withhold or limit the supply of services until the total costs, penalties, other fees, tariffs and rates due and owing to the Municipality have been paid in full. This will include the restriction of supply of water or electricity to a debtor who is found guilty by the Municipality or any Court of Law:
 - (i) of fraud or theft of water and electricity,
 - (ii) any another criminal activity relating to the supply or unauthorised consumption of water and electricity, or
 - (iii) if it is evident that fraud, theft or any other criminal activity has occurred relating to such supply or consumption.
- (d) Stellenbosch Municipality may consider an auxiliary levy of up to 50% on the purchase of pre-paid electricity to recover arrear debt.
- (e) Stellenbosch Municipality may consider black-listing consumers in cases where the consumer was handed over to institute legal proceedings.
- (f) The Municipality may attach the rental income in whole or in part from a tenant or occupier of a property which is left unpaid by the owner thereof, provided that Section 115 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) is adhered to.
- (g) Once the Municipality has exhausted all reasonable and practicable debt recovery measures and, in an effort to recover outstanding debt, the Municipal Manager will have sole discretion to approve the litigation process for the disposal of the movable and/or immovable assets of defaulting owners/debtors/consumers by means of a Sale in Execution order.

6. NEW APPLICATIONS FOR SERVICES

- 6.1 No transfer of services from an owner to a tenant (Municipal property excluded) will be allowed. The status quo of contracts signed before 01 July 2011 will be maintained, provided that the tenant does not default on payments.

- 6.2 The owner or his/her proxy applying for a service to be rendered must be positively identified by means of a generally acceptable means of identification as used by financial institutions. A copy of the identification details (such as a copy of the person's ID and proof of residence (for business users)) must be kept for reference purposes.
- 6.3 The payment of a service deposit/bank guarantee will be based on tariffs as determined by the Council.
- 6.4 Adjustments to deposits/bank guarantees will be determined by the debtor's payment record of municipal accounts and consumption levels.
- 6.5 The provision of all services not regulated by acts and by-laws will be subject to the signing and acceptance of the conditions of supply contained in a service contract.
- 6.6 Where the consumer is not the owner of a property, the owner must, on his/her request, regularly be served with a copy of a statement of the amount due.
- 6.7 The Municipality may subscribe to the services of a credit bureau in order to enhance the effectiveness of credit checks.

7. THE RENDERING OF ACCOUNTS

- 7.1 Accounts must be rendered regularly and timeously to all property owners and consumers utilising municipal services.
- 7.2 Accounts must be consumer friendly and must clearly reflect the following minimum information:
 - (a) the name, address and contact numbers of Stellenbosch Municipality;
 - (b) the name and postal address of the account holder;
 - (c) details of the property in respect of which the account is issued;
 - (d) the contents of the account will be reflected in at least one of the three official languages of the Western Cape province;
 - (e) the balance brought forward from the previous account, as well as a summary of transactions for the present period;
 - (f) all services for which the account is rendered, as well as amounts billed for such services;
 - (g) the final amount payable;
 - (h) the final date for payment;
 - (i) soft reminders in respect of interest levies and discontinuation of services; and
 - (j) the situation of payment facilities, and modes of payment accepted and office hours for payment.

8. ACCOUNT QUERIES

- 8.1 Consumers have the right to query accounts. In order to ensure the correctness of accounts and the satisfaction of consumers, all queries must be attended to swiftly and effectively.

8.2 Claims of not having received an account do not constitute a valid reason for non-payment of accounts. Queries regarding such non-receipt must be followed up with the Revenue Section in order for same to be addressed. A consumer liable for any services rendered by, or rates due to the Municipality must furnish the Municipality with an address where correspondence can be directed to. Consumers should be encouraged to provide the Municipality with e-mail addresses where accounts could be sent to, rather than traditional postal addresses.

8.3 Duplicate accounts shall be available upon request at a prescribed fee.

8.4 Accounts in Dispute

8.4.1 Should an account in respect of water or electricity consumption be disputed, the concerned consumer must at minimum pay the average amount of the previous 12 (twelve) month's accounts. This shall be applicable only for the month in which the dispute was raised. Subsequent accounts issued in months thereafter (barring any new dispute raised) shall be considered unrelated to the dispute in question.

All other Municipal services or rates disputed will be dealt with at the discretion of the Municipality.

8.4.2 The dispute in question shall be considered to be resolved after all actions have been taken by the Municipality; including but not limited to the following:

- (i) determining the correctness of the account;
- (ii) relevant procedures were taken to adjust the account accordingly; and
- (iii) a written notice or a telephonic confirmation to such effect has been given to the concerned consumer.

8.4.3 In the event that a consumer declaring a dispute does not adhere to paragraph 8.4.1 above the disputed account will be subject to the normal Credit Control and Debt collection procedures.

8.5 Errors or Omissions

8.5.1 The Municipality strives to ensure the accuracy of consumer accounts. The onus of the consumer is however to verify that the services as stipulated on the account statement has been delivered and is correct. Upon detection of any errors or omissions the consumer should raise the dispute and notify the Municipality soonest and preferably in writing.

8.5.2 Accounts will only be rectified as from the date such errors or omissions was brought under the Municipality's attention. The adjustment (if applicable) to the account will be

processed as per paragraph 8.4 above and applied after the date of inspection or confirmation by the specific Services Department.

- 8.5.3 Upon the sole discretion of Council serious nonconformities of an account may be adjusted as from the start of the current financial year.

9. DUE DATES OF ACCOUNTS

Accounts are payable by the 7th day of each month or the first working day thereafter, should the 7th day fall on a weekend or public holiday.

10. ALLOW SUFFICIENT TIME TO SETTLE ACCOUNTS

In order to allow sufficient time to settle accounts, the account should, where possible, be ready for delivery at least two weeks before the due date.

This necessitates proper scheduling of all processes leading to the issuing of accounts to meet the Municipality's commitment to its consumers.

11. CONSOLIDATION OF ACCOUNTS

In order to reduce cost and to enhance credit control and debt collection measures, separate accounts for services rendered in respect of a property or separate accounts of a debtor will be consolidated as far as possible. This will not be limited to consumer accounts only but may be extended to any other amount payable arising from any liability or obligation due to the Municipality.

12. PAYMENT OF ACCOUNTS – GENERAL

- 12.1 In order to promote the payment of accounts, payment facilities and hours for payment must be convenient to consumers, but the establishment of such facilities should still be subject to normal business principles and the economy of the provision of such services.

- 12.2 The following facilities are presently available – with the office hours and modes of payment indicated. Facilities are extended on an on-going basis.

<i>Facility</i>	<i>Hours</i>	<i>Payment methods accepted</i>
Cash offices at Stellenbosch, Kayamandi, Franschoek and Pniel	Office hours: Monday to Friday	Cash, bank-guaranteed cheques , debit cards
Cash offices at Klappmuts	Office hours: Wednesdays only	Cash, bank-guaranteed cheques , debit cards
Debit orders	Application during office hours	Bank transfers
EasyPay and Pay@Third Party Service Providers: Countrywide outlets of Pick 'n Pay, Shoprite/Checkers, Pep Stores, Ackermans and other stores	Trading hours: 7 days per week	Cash, cheques , credit cards, debit cards
Internet payments	All hours	Bank transfers
Direct bank deposits	Banking hours	Bank transfers

Personnel deductions	Office hours	Direct deductions from earnings
24 hour Utility shops at petrol stations	All hours	Cash, cheques , credit cards, debit cards
Approved Pre-Paid Vending Agents	Trading hours	Cash, cheques

- 12.3 The use of correct account references for electronic payments and/or direct deposits is a requirement to ensure correct allocation of payment and to avoid any penalties and administration costs. It is the responsibility of the consumer making the payment to ensure that the correct reference number is made known to the Municipality.
- 12.4 All payments by means of Electronic Funds Transfer (EFT) or payments via the facilities as approved must be made in time so as to reflect in the Municipality's bank account before close of business on the due date.
- 12.5 Payment prioritisation of payments received will be allocated in the following order:
- (i) Penalties.
 - (ii) Municipal Rates.
 - (iii) Special Rating Area Levies.
 - (iv) Sewerage.
 - (v) Refuse.
 - (vi) Rentals.
 - (vii) Sundries.
 - (viii) Water.
 - (ix) Electricity.

13. DISHONoured PAYMENTS

- 13.1 Receipts issued in respect of dishonoured [cheques and ACB deductions](#) must be written back upon receipt of such notices. Interest on arrears must be raised where applicable and administration costs be debited to debtors account. Debtors must be notified and debt recovery actions be instituted where necessary.
- 13.2 Should payments be dishonoured twice, the debtors system must be encoded not to accept [cheques or](#) debit order transactions of such a debtor and he/she must be informed thereof in writing.
- 13.3 If payments are dishonoured twice in a financial year, consumer deposits/bank guarantees may be adjusted to mitigate increased financial risk.

14. PENDING LEGAL ACTIONS AGAINST CONSUMERS

Legal actions, such as notices of intended sales in execution, press releases regarding pending insolvency's, etc. may be followed up to evaluate the credit rating of such debtors in order to take steps to minimize the risk of financial loss for the Municipality.

15. INTEREST

- 15.1 Interest will be raised monthly, on a reasonable time after due date, to allow finalization of EFT payments, journal processing, system updates, etc. The latter interest raising will be on all arrear balances of all services (excluding housing services), property rates or arrangements as per paragraph 3 of this Policy, remaining unpaid.
- 15.2 A portion of a month is deemed to be a full month for the purposes of calculation of interest payable.
- 15.3 Interest on outstanding arrear accounts will be calculated and charged at the South African Reserve Bank's prime interest rate plus one percent.

16. GENERAL AND OTHER SERVICES

16.1 Monthly Consumer accounts:

- 16.1.1 Debtor's records must be coded correctly and timeously to ensure the rendering of accurate accounts to consumers.
- 16.1.2 The supply of water and electricity must conform to the conditions of supply set out in the By-Laws for Stellenbosch Municipality, as promulgated in the *Provincial Gazette*.
- 16.1.3 Due to the inclined block tariffs employed for these services, care must be taken to ensure meter readings are taken accurately and at intervals as close as possible to 30 days. Should this not be possible, consumption may be estimated as set out in the Municipality's By-Laws. As a general rule it is accepted that deviations in consumption periods exceeding 10% should be guarded against.

16.2 Sundry Services:

- 16.2.1 Accounts for recovery of cost encountered by the Municipality in respect of sundry services rendered are issued if and when such services are rendered to consumers.
- 16.2.2 As these services are usually not based on formal service contracts, it is essential that it be billed as soon as possible, and the recovery of such debt must receive priority, as the risk of loss to the Municipality is more eminent than in the case of other services.
- 16.2.3 Care should be taken to obtain full and accurate information of such debtors and to obtain prepayment for such services where possible.
- 16.2.4 Actions applied to follow up unpaid accounts will be determined by the nature and extent of the debt and the cost effectiveness of such actions.

17. CONDITIONS RELATING TO RENTAL AND PURCHASING OF MUNICIPAL PROPERTY

- 17.1 Municipal property may only be leased or sold after approval of such transactions and the signing of a rental or purchase agreement. Such approvals may be by way of specific Council resolutions or in the form of delegations.
- 17.2 The conditions for payment of instalments and deposits are regulated by the contents of the rental and purchase agreements and the Municipality explicitly reserves its rights to

discontinue services for non-payment not only limited to the leased property but any other property of the lessee within the jurisdiction of Stellenbosch Municipality (WC024).

- 17.3 Other specific rental and purchase agreements are tailored to the specific nature and requirements of such transactions.
- 17.4 Full details of remedies for defaulting lessees and purchasers and procedures to address such defaults must be contained in the relevant contracts, but must not have the effect of limiting the Municipality in terms of this or any other Policy regulating arrears.
- 17.5 These remedies usually commence with written reminders, leading to the cancellation of the contracts and the institution of further legal action where necessary.
- 17.6 Rental and purchase agreements represent formalised individual contracts that form the basis of all actions by the parties involved. Both parties are bound to such conditions, failing which may lead to the cancellation of such contracts by the parties involved and claims for damages.
- 17.7 Lessees whom may qualify for rental subsidies must be referred to the housing office to apply for such subsidies in an effort to make rentals more affordable.

18. RENTALS IN RESPECT OF MUNICIPAL EMPLOYEES

Apart from the general conditions applicable to general rental the following conditions will also be applied:

- (a) Rent will be based on the principle of market related rentals as required by Municipal Supply Chain Management (SCM) Regulation 40.
- (b) Rent, and optionally rates and service charges, where applicable, may only be paid by means of salary deductions. A specific clause to this effect must form part of the contract.
- (c) The relevant Director, or his/her delegated official, must co-sign rental agreements of employees to ensure that financial conditions are met.

19. INDIGENT CONSUMERS

- 19.1 The Stellenbosch Municipality supports the principle of providing support to indigent consumers by way of providing Free Basic Services in accordance with the provisions of the Municipality's Indigent Policy. All effort must be made to limit the re-occurrence or accumulation of indigent debt of such consumers.

219. SHORT TITLE

This Policy is the Credit Control and Debt Collection Policy of the Stellenbosch Municipality.

STELLENBOSCH MUNICIPALITY

IRRECOVERABLE DEBT POLICY

2021/2022

REVISED

STELLENBOSCH MUNICIPALITY

IRRECOVERABLE DEBT POLICY

TABLE OF CONTENTS

	PAGE
PREAMBLE	1
1. Requirements before writing-off debt	2
2. Bad Debt Recovered	2
3. Thresholds for writing-off of debt	2
4. Provision for irrecoverable debt	2
5. Rescission of Judgments	2
6. Short Title	3

PREAMBLE

The Stellenbosch Municipal Council accepts and acknowledges its Constitutional duties and mandate towards the community/consumers of Stellenbosch Municipality (WC024).

Council further acknowledges that in order to deliver services in a sustainable manner, that same be managed in terms of Council's Credit Control and Debt Collection Policy having due regard of its limited financial resources and the need to manage cash flows.

Council therefore is aware of its duty to prepare financial statements that gives a true reflection of the financial position for a given period.

[In order to give effect to the foregoing, the Council of Stellenbosch Municipality has adopted a policy relating to the management of irrecoverable debt as set out hereinafter.](#)

1. Requirements before writing-off debt

All applicable actions as contained in the approved Credit Control and Debt Collection Policy of Stellenbosch Municipality must have been executed/implemented before any debt, owed to the Municipality for any reason whatsoever will be considered for writing-off. However, in special cases where the requirements in terms of the Municipality's Credit Control and Debt Collection Policy were impossible/impractical to implement, the administration must motivate such write-off.

2. Bad Debt Recovered

Bad debt recovered after having been written-off will be treated in terms of the Municipality's Accounting Policy.

The approval of Council for the write-off of any debt does not mean that actions to recover the debt will be terminated. Conditionally, further actions may be instituted, depending on the costs involved. Should the debt be recovered, it will accordingly be recorded in the financial records of Council.

3. Thresholds for writing-off of debt

3.1 The writing-off of debt per individual case may be considered as follows:

- (i) Above twenty thousand rand (R20 000) will be effected after Council approval.
- (ii) Amounting to twenty thousand rand (R20 000) and below may be effected after motivation to and approval by the Chief Financial Officer (CFO) or his/her delegate.
- (iii) Amounting to ten thousand rand (R10 000) and below may be effected after motivation to and approval by the Senior Manager: Revenue and Expenditure.
- (iv) Amounting to five thousand rand (R5 000) and below may be effected after motivation to and approval by the Manager Revenue.

3.2 The writing-off of any interest (or part thereof) component of debt, providing that the debt excluding the interest component, is paid in full, may be considered as follows:

- (i) Above one hundred thousand rand (R100 000) will be effected after Council approval.
- (ii) Amounting to one hundred thousand rand (R100 000) and below may be effected after motivation to and approval by the Chief Financial Officer (CFO).
- (iii) Amounting to five thousand rand (R5 000) and below may be effected after motivation to and approval by the Senior Manager Revenue and Expenditure or Manager Revenue.

4. Provision for irrecoverable debt

Provision for bad/irrecoverable debt will be dealt with in terms of the Municipality's Accounting Policy.

5. Rescission of Judgments

Stellenbosch Municipality will consider applications for the consent to rescission of judgments, obtained by the Stellenbosch Municipality for the recovering of debt, provided that the following conditions are applicable:

5.1 All outstanding debt accrued on all accounts of the said property have been settled in full, and

- 5.2 A period of at least five years has lapsed since the date of the applicable judgment, in the case where the Stellenbosch Municipality has written off any debt.

6. Short Title

This Policy is the Irrecoverable Debt Policy of the Stellenbosch Municipality.

STELLENBOSCH MUNICIPALITY

PETTY CASH POLICY

2021/2022

REVISED

STELLENBOSCH MUNICIPALITY
PETTY CASH POLICY

TABLE OF CONTENTS

PAGE

1. INTRODUCTION 1

2. REGULATORY FRAMEWORK..... 1

3. OBJECTIVES..... 1

4. RESPONSIBILITY AND ACCOUNTABILITY 1

5. PETTY CASH FRAMEWORK..... 2

1. INTRODUCTION

The accounting officer of a municipality is responsible for the management of the expenditure of the municipality in an effective and controlled manner. Therefore the Stellenbosch Municipality adopts the following petty cash policy.

2. REGULATORY FRAMEWORK

- a) The Municipal Finance Management Act (56 of 2003);
- b) Section 15 of the Municipal Supply Chain Regulations;
- c) Treasury regulations in terms of Section 13(1) of the Act;
- d) MFMA Circular 897 (Cost Containment Measures);
- e) Cost Containment Policy;
- f) Municipal Cost Containment Regulations, 2019; and
- g) Any subsequent MFMA Circulars relevant to Petty Cash or Cost Containment in general that may be issued By National Treasury from time to time.

3. OBJECTIVES

Compliance with the regulatory framework in terms of the relevant legislation is required.

4. RESPONSIBILITY AND ACCOUNTABILITY

The key responsibilities in terms of the MFMA (Section 65) are:

Accounting Officer (Municipal Manager)-

- (1) The accounting officer of a municipality is responsible for the management of the expenditure of the municipality.
- (2) The accounting officer must for the purpose of subsection (1) take all reasonable steps to ensure—
 - (a) That the municipality has and maintains an effective system of expenditure control, including procedures for the approval, authorisation, withdrawal and payment of funds;
 - (b) That the municipality has and maintains a management, accounting and information system which—

- (i) recognises expenditure when it is incurred;
 - (ii) accounts for creditors of the municipality; and
 - (iii) accounts for payments made by the municipality;
- (c) that the municipality has and maintains a system of internal control in respect of creditors and payments;
- (d) that payments by the municipality are made—
- (i) directly to the person to whom it is due unless agreed otherwise for reasons as may be prescribed; and
 - (ii) either electronically or by way of non-transferable cheques, provided that cash payments and payments by way of cash cheques may be made for exceptional reasons only, and only up to a prescribed limit;

The Municipal Manager delegates authority to the Chief Financial Officer to ensure compliance and adherence to the principles established by this policy.

5. PETTY CASH FRAMEWORK

5.1 General Policy

- a. The use of petty cash floats is strictly confined to individual cash purchases of:
- i) up to a maximum of R500, where the petty cash floats in other departments are used to make purchases,
 - ii) up to a maximum of R2 000, when claimed from the Financial Services Petty Cash Float.

All Petty Cash expenditure must be in compliance with this Policy, the Municipal Cost Containment Regulations 2019, Cost Containment Policy and MFMA Circular 97 (Cost Containment Measures).

- i) The municipality may not incur catering expenses for meetings that are only attended by persons in the employ of the municipality, unless prior written approval is obtained from the accounting officer.
- ii) Catering expenses may be incurred by the accounting officer for the following, provided they exceed five (5) hours in duration:
 - Hosting of meetings
 - Conferences

- Workshops
 - Courses
 - Forums
 - Recruitment interviews
 - Council proceedings
- iii) Expenses may not be incurred on alcoholic beverages.
- iv) The accounting officer must ensure that expenses are not incurred on social events. This provision is not intended to impede the constitutional obligation of the municipality, therefore the following events are excluded:
- Economic development events
 - Cultural festivals
 - Local tourism festivals
 - Youth, aged, disabled and other vulnerable persons development events
 - Civic honours events
 - Staff recognition or achievement awards and functions
 - Town centennial or other significant municipal commemorating events
 - Opening of facilities and buildings
 - Strategic planning sessions
 - Non-recreational team building events
 - Non-recreational staff wellness functions.
- v) Expenditure may not be incurred on corporate branded items like clotting or goods for personal use by officials, other than uniforms, office supplies and tools of trade, unless the costs thereto are recovered from the affected officials or is an integral part of the business model of a specific project or drive.
- vi) The accounting officer must ensure that any sporting events, and expenditure directly related to sporting events such as travel and accommodation cost, sporting gear and sporting regalia are not financed from the budget of the municipality or by suppliers or sponsors. This provision does not apply to sporting events that are held in terms of the municipality's constitutional function.
- The accounting officer may incur expenditure not exceeding the limits of this Policy for one transaction usage, to host farewell functions in recognition of officials who retire after serving the municipality for ten or more years or retire due to ill health.

Under no circumstances may Petty Cash be abused for purposes of avoiding Supply Chain Management procedures. It is not acceptable for one receipt or a number of receipts, in respect of the same event, which have been obtained by the same person, to be split over multiple cash purchase claims.

- d. The Directorate making use of Petty Cash for smaller purchases is responsible for ensuring that sufficient budget is available on the relevant votes.
- e. A petty cash float is not to be used for any of the following:
 - i) the cashing of cheques;
 - ii) loans to any person whatsoever;
 - iii) payment of personal remuneration to any employee whatsoever, whether for fees, salaries, wages, travel allowance as part of remuneration, honorarium or other reason; or
 - iv) Purchase of capital items.
 - v) Any item or service that does not fall within the ambit of the Cost Containment Policy and –Regulations.
- f. Examples of permissible Petty Cash Expenditure may include, but is not limited to:
 - i) Toll Fees
 - ii) Parking Fees
 - iii) Postage
 - iv) PDP and Licence fees
 - v) Keys
 - vi) Car Wash
 - vii) Fire Arm Licencing
- g. Should there be any uncertainty, the relevant Director may exercise discretion and approve a requisition for Petty Cash, or in the case of an own Petty Cash Float, approve such expenditure provided that all such approvals remain within the confines of the Cost Containment Policy and –Regulations..

Other cash floats may also be established for the purpose of providing change, for a cash register, or any other purpose approved by the Chief Financial Officer. Use of such floats is restricted to the purpose for which they were established.
- i. The Chief Financial Officer may approve the use of petty cash for specific use, based on practical reasons or cost-benefit reasons. Such an authority will be done on a case by case basis for the purposes of considering merit.
- j. The CFO may determine and approve the maximum amount to be held in any individual petty cash float.

5.2 Purchases through Petty Cash Float – Supply Chain Management Office

- a. Purchases from SCM database suppliers shall be allowed in the following instance, provided that a monthly submission are made to the CFO of all purchases and the respective director confirming the enforcement of rotation of suppliers:
 - i) When the amount of the individual purchase / event is less than R250.00, irrespective of it being an emergency or not.
- b. Purchases from SCM database suppliers are NOT allowed for capital items or fuel.
- c. Petty claims will be dealt with on a first come, first serve basis and it is subject to the monetary limit of the petty cash.

5.3 Establishing and Operating a Petty Cash Float

- a. To establish a new petty cash float or increase an existing advance, a written application is to be made to the Chief Financial Officer by the relevant Department, motivating the need for such petty cash float.
- b. The total value of the advance requested will be an amount which would normally necessitate reimbursement approximately once a fortnight. This level of advances keeps to a minimum the overall cash in the buildings on municipal property and ensures regular inclusion of information regarding expenditure in financial reports and for budget control purposes.
- c. A request for the establishment of an advance will indicate the name and status of senior administrative or clerical staff to be held responsible for the operation of the petty cash float. The staff member's specimen signature must also be submitted by the Department to the Chief Financial Officer, together with the application documentation.
- d. The application will indicate the security arrangement in place to ensure safe custody of funds in the office. The minimal security arrangement that will be acceptable is that the float will be kept in a locked box which will be kept in a locked filing cabinet or safe.
If an advance is approved, the Assistant Accountant: Creditors will advise the Department accordingly and request that the responsible staff member collect the advance. This establishing advance will be charged to a "Petty Cash Advances - ...Name/Dept..." in the General Ledger and not against any expenditure votes. A register of advances is thus maintained per Ledger Account for the purpose of accounting for all petty cash floats.

5.4 Security of Petty Cash Floats

- a. The cash on hand and used petty cash vouchers are to be kept in a locked box for which there should be two keys. One key is to be retained by the officer (on their person) normally responsible for the petty cash and the other to be kept in a sealed envelope in the office safe or other secure place, to be used only in an emergency.
- b. The locked petty cash box must be kept in a secure place when not in use and should be removed and returned by the responsible staff member only. At no stage should staff other than the responsible administrative/clerical staff member have access to the storage place of the petty cash box.
- c. Under no circumstance are keys to be left in the lock to the petty cash box, cabinet or safe.
- d. If the responsible officer is either going on leave or is leaving the Municipality's employment, the petty cash float is to be reconciled and signed by the departing- as well as replacement staff members, to indicate their agreement as to its balance. The replacement staff specimen signature must also be submitted to the Chief Financial Officer.

5.5 Completing a Cash Purchase Claim Form

- a. Petty cash stationery is available from the Expenditure Section (Financial Services). The form consists of two parts:
 - (i) Cash Purchase Claim page
 - (ii) Cash Purchase Record page
 - (iii) Receipt for cash advance (Only when appropriate, refer paragraph on Advances).
- b. All details entered on the Cash Purchase Claim appear on the Cash Purchase record page.
- c. The Cash Purchase Claim must be completed as follows:
 - (i) description and cost of the goods/services purchased
 - (ii) purchaser's signature
 - (iii) vote number to be charged
 - (iv) Signature of the Officer in Charge of Petty Cash.

- d. Original receipts or other valid documentation as required must be attached as proof of payment, with the signature of an appropriate financial delegate on this documentation. A financial delegate cannot authorise a cash purchase claim where she or he is the purchaser.

5.6 Sub-Advances to staff members

- a. If it is necessary to make an initial sub-advance to a staff member for various needs, a receipt for cash advance must be completed. The receipt for Cash Advance Form must be completed as follows:
 - (i) description and *estimated* cost of the goods/services purchased
 - (ii) purchaser's signature
 - (iii) vote number to be charged
 - (iv) Signature of the Officer in Charge of Petty Cash.
- b. On completion of the purchase, the recording-, documentation- and authorization requirements will be as stated in the above paragraph: Completing a Cash Purchase Claim Form.

All such sub-advances will be accounted for within 24 hours, by submitting original receipts and other applicable documentation required, attached as proof of payment (with the approval signature on the documentation). Where this cannot be achieved, the buyer will be liable to pay back the advance without any delay or the money will be deducted on his/her next salary irrespective of consent being given or noted. Not more than one advance will be made to any one person at a time.

5.7 Out-of-Pocket Payments

- a. Where a staff member has made purchases from their own funds and now seeks reimbursement from the petty cash, supporting documentation must be provided to substantiate the claim.
- b. The supporting documentation is to be attached to the Claim.
- c. The recording-, documentation- and authorization requirements will be as stated in the above paragraph (**Completing a Cash Purchase Claim Form**).

5.8 Reimbursement of Petty Cash Floats

- a. A petty cash float is operated on the basis that expenditure from the float is periodically reimbursed. Such reimbursement-
 - (i) returns the cash level of the petty cash float to its original level and
 - (ii) Charges the expenditure which has been made, to the correct expenditure vote.
- b. Accordingly, at any point of time, the sum of the cash on hand, i.e. remaining unspent, plus the cash advances for un-finalised purchases, plus the completed cash purchase claim forms, will equal the level of the petty cash advanced to the Department.
- c. Completed Cash Purchase Claim forms, with attached cash register slips, etc., must be taken by the officer in charge of the Petty Cash in a Directorate/Department, to the Assistant Accountant: Accounts Payable for reimbursement, after the Summary Claim Cover Page and attached documentation have been authorised by a financial delegate at least once in 14 days. Reimbursement of claims where supporting documentation is missing will not be entertained.
- d. The prescribed Summary Cash Purchase Claim form as well as other relevant forms attached to it must be completed in full.
- e. The most recently completed Cash Purchase Claim form must record the reconciliation of the petty cash float. The Assistant Accountant: Accounts Payable will refuse reimbursement of claims where this is not supplied.
- f. A petty cash float must never be reimbursed with funds derived from any other source whatsoever.

5.9 Shortages

- a. Any shortages in respect of a petty cash float must be paid in immediately.
- b. Where a petty cash float is stolen the incident must be reported promptly to the Chief Financial Officer in the required format, after which same needs to be reported to the South African Police Services and a case number provided to the Assistant Accountant: Accounts Payable.

5.10 Procedure applicable when a Petty Cash Float is repaid/cancelled

When an advance is no longer required, a statement in a form of a memorandum is to be completed and signed by the Head of the relevant Department and submitted to the Assistant Accountant: Accounts Payable, with the balance of cash on hand and completed and authorized Cash Purchase Claim forms. The most recently completed Cash Purchase Claim form will record the reconciliation of the petty cash float, where after a cheque will be issued to the relevant person to effect completion of the transaction..

The Cashier will issue a receipt to the affected department.

5.11 Financial year-end procedures

Reconciled petty cash registers (cash slips attached), accompanied with the cash balance must be returned to the Senior Accountant: Expenditure a week before the financial year end.

12. SHORT TITLE	10

1. OBJECTIVE

It is essential that representatives of this municipality from time to time travel in order to establish and maintain links and relationships with other municipalities, government bodies, and other parties, institutions and organizations operating in the sphere of local government. It should also be read together with paragraph 2 of MFMA Circular 82 of 30 March 2016 as well as the Cost Containment Regulations as far as it is applicable to travel and subsistence issues.

This policy sets out the basis for the payment of a subsistence travel allowance, hourly rate when applicable and for the purpose of such official traveling.

In the event of any conflict between a provision of this policy and the Cost Containment Policy, the latter policy shall apply.

2. TRAVEL

2.1 *Responsibilities of Representatives who travel on Business of the Municipality*

- a) Every representative who travels on the business of the municipality must comply with this policy in letter and in spirit.
- b) Representatives who travel on the business of the municipality must take note that their actions, conduct and statements must be in the best interest of the municipality, and they must comply with any specific mandates they have been given.

2.2 Air Travel

- a) **The Accounting Officer in respect of all officials or political office bearers and the Executive Mayor in respect of the Accounting Officer only approve the purchase of economy class tickets for air travel.**
- b) All flights by representatives of the municipality shall be in economy class, unless another class of travel is specifically authorized by-
 - (i) the executive committee, with regard to Holders of Public Office and the Municipal Manager, or
 - (ii) The Municipal Manager, with regard to officials and applicants for interviews

2.3 International Travel

- a) International travel for any official or political office bearer can only be approved by the municipal council in a meeting open to the public with a supporting vote of the majority of the members of the municipal council present.
- b) The report to council for approval of international travel must include:
 - (i) A motivation why the international travel is seen as critical and fully setting out the anticipated benefit that the municipality will derive from attending the event, meeting or function;
 - (ii) If international travel to the destination or event was previously undertaken, state what benefits if any derived from the previous attendance;
 - (iii) The full cost of the international travel including travel allowances and visas if applicable to be paid; and
 - (iv) The proposed officials and political office bearers, not exceeding three, to travel and why they have been identified.
- c) The following events will not be considered critical to justify international travel whether the full cost of the travel is paid by another institution or not:
 - (i) Attendance of international sporting events;
 - (ii) Attendance of international social events;
 - (iii) Attendance of international party-political events;
 - (iv) The opening of another country's parliament or any other country's government's celebration events.
- d) The accounting officer or delegated official must ensure that requirements for international travel by officials or political office bearers are not inserted into bid documents, whether it is for inspection of products at source of construction/assembly or for any other reason.

2.4 Car Rental, Travel Costs and rates

- a) Only "A" or "B" category vehicles may be rented, unless it is more cost-effective to hire any other category (for example, when the number of representatives involved could justify the hire of a micro-bus).
- b) Car rental must be approved as part of the travel package before the trip is embarked on. A representative who rents a vehicle whilst traveling on the business of the municipality without having received prior authorization will only be reimbursed for the cost of the vehicle rental if proof of expenditure can be produced and the representative can demonstrate that vehicle rental was reasonably but unexpectedly necessitated by the circumstances.
- c) Parking and toll fee – actual cost will be reimbursed via Petty Cash after the submission of proof of expenditure.
- d) If a representative has to utilize his or her personal motor vehicle, he or she will be reimbursed at the tariffs listed below. The distance to which the reimbursement applies, must be the shortest distance via tarred road between the municipality's offices and the location where the official business is to be transacted.
 - o Councillors:
Will be reimbursed in terms of the Private Column of Department Transport monthly circulars pertaining to Tariffs for the Use of Motor Transport to a maximum of R4.50 per kilometer.
 - o Officials with vehicle/car allowance:
Will be reimbursed at a flat rate of R4.50 per kilometer where motor vehicles are used and R2.00 per kilometer where motor cycles are used. Where it is possible to fly to a destination, but the official prefers to drive with his own vehicle, the lower value between kilometer claim and a flight ticket will be used as basis for reimbursement.
 - o Officials who are in receipt of an Essential User Transportation Allowance:
Will be reimbursed according to the official Cost Tables contained in the "Essential User Scheme: Transport Allowance" circulars of the South African Local Government Bargaining Council – Western Cape Division applicable.

Commented [A1]: Also in line with Upper Limits Gazette

- o Officials without a car allowance and Members of a Committee: established in terms of applicable legislation, as per the Rate per kilometer fixed by the Minister of Finance under section 8(1) (b) (ii) and (iii) of the Income Tax Act, 1962. . If the total number of kilometers for which such reimbursement is received exceeds 8 000 in any tax year, reimbursement for the excess kilometers over 8 000 must be taxed for PAYE purposes. If the cost of any one trip exceeds that of an air ticket, the lesser amount will be paid.

The number of employees travelling to conferences or meetings on official duty for the same matter is limited to three (3) employees, unless otherwise approved in advance by the relevant Director, or Accounting Officer in the case of Directors travelling.

- e) Similar to the above, the number of employees travelling by air to other centers to attend an official engagement on the same matter is also limited to three (3) employees, unless otherwise approved in advance by the relevant Director or Accounting Officer in the case of Directors travelling.
- f) For the purpose of this policy, domestic travel shall mean travel within South Africa, and international travel shall mean travel to any country other than South Africa.
- g) The Accounting Officer will when appropriate determine an hourly rate for the different committees serving Council.
- h) Notwithstanding the above provisions, all employees must make use of shuttle services if the cost of such services is below the cost of hiring a vehicle.

3. SUBSISTENCE

3.1 Subsistence Allowance

- a) A representative may claim a daily subsistence allowance as provided in this policy with the understanding that all authorized personal expenses are covered by the subsistence allowance. No further expenses, with the exception of certain business expenses (see below), may be claimed.
- b) In line with SARS guidelines on Subsistence Allowances and Advances, A daily subsistence allowance will only be applicable where-
 - (i) The representative is obliged to spend at least one night away from his or her usual place of residence on business; R416 per day, or

- (ii) The representative will be on official business for a period exceeding 12 consecutive hours per day, without having to spend a night away from his or her usual place of residence; R128 per day.
 - c) A representative of the municipality must claim his or her subsistence allowance, as provided in this policy before embarking on any official trip, with the exception where such claim reaches the creditors section at least three days before the trip; in which case such claim must be submitted after the event. Such a claim must be accompanied by details of the conference or workshop or emailed/faxed invitation.
 - d) No subsistence allowance will be paid, and no representative will be entitled to a subsistence allowance, if the trip or travel is not related to the official business of the municipality. All travel on business of the municipality must be approved as such before a representative is entitled to a subsistence allowance.
 - e) For the purpose of a subsistence allowance, a representative shall mean-
 - (i) mayor or executive mayor, as the case may be
 - (ii) deputy-mayor
 - (iii) speaker
 - (iv) members of the executive committee or mayoral committee, as the case may be
 - (v) other councillors specifically authorized to represent the municipality on a particular occasion
 - (vi) municipal manager
 - (vii) directors
 - (viii) any other official/representative specifically authorized to represent the municipality on a particular occasion
 - (ix) any official or councilor who is a member of a recognized professional institution and is granted permission to attend meetings and conferences of such institution.
 - f) The subsistence allowance of international travel will be the lesser of:
 - (i) an amount equivalent to the rates as determined by SARS, at the beginning of 1 July every year.
- Or**
- (ii) US\$190 per day where the exchange rate of ZAR is more than 5:1 in relation to the currency of the destination country; and

- (iii) US\$100 per day where the exchange rate of ZAR is less than, or equal to 5:1 in relation to the currency of the destination country;

4. ACCOMMODATION

4.1 Accommodation Costs

- a) Overnight accommodation may only be booked where the return trip exceeds 500 kilometres.
- b) Notwithstanding the provision in paragraph 4.1(a) overnight accommodation where the return trip is 500 kilometres or less, may be booked where in the view of the Accounting Officer or delegated official the limitation may be impractical and any of the following instances are present:
 - (i) The road or any other conditions could jeopardise the safety, health and security of officials or political office bearers;
 - (ii) The trips are to be undertaken over a number of consecutive days provided that a return trip is in excess of 200 kilometres;
 - (iii) The starting time of the meeting or event would require the official or councillor to leave his/her place of residence before 05h00 in order to be punctual.
 - (iv) Should the circumstances as stated in paragraph 4.1 (b)(i) – (iii) not be applicable, but an official still prefers to sleep over and not travel every day, the relevant director may approve travelling and accommodation expenses to be paid in the following manner:
 - The cost of one return trip at the applicable rates stated in this policy to be claimed and reimbursed to the official, plus
 - The Daily Allowance referred to in paragraph 3.1 (b) (ii) of this policy for every night the official spends away from the work place to be claimed and paid to the official and
 - Accommodation paid directly to the relevant establishment equal to the monetary value of R4.50 per kilometer, the potential travel claim for every night that officials sleep over instead of travelling. In cases where more than one official was to travel together, the travel claim will be equally divided between the accommodation costs of the respective officials. Any excess accommodation costs must be borne by the official concerned.
- c) Any request for overnight accommodation and/or travel must be motivated on a prescribed form and approved by the municipal manager or delegated official prior to the arrangement for overnight stay or travel.

- d) The actual cost of accommodation will be borne by the municipality, subject to a maximum of 3- to 4-star rating for the accommodation itself in respect of domestic travel. Where such accommodation is available, the rate for a single room will be payable.
- e) If no such accommodation is available, higher rating accommodation can be used subject to the prior approval of the Municipal Manager.
- f) If a representative stays with a relative or friend, no accommodation allowance may be claimed, but the representative may claim a subsistence allowance of R416.00 per day.
- g) The recoverable cost of accommodation for international travel may not exceed US\$350 per day.
- h) The municipality will at all times firstly consider accommodation where the National Treasury has negotiated discounts for rates as per MFMA circular 97. In the absence of such accommodation or failure to secure space, only then will the municipality consider accommodation outside the "NT negotiated accommodation".
- i) Notwithstanding the provisions of 4 (1) (c), the procurement of all accommodation services will be subjected to the municipality's SCM policy and preferential procurement policy. The written approval in terms of paragraph 4.1(c) must be filed with the relevant supply chain documents for the accommodation booking.

5 CONFERENCES, MEETINGS AND STUDY TOURS

5.1 Applications for conferences, meetings and conferences, both within or outside South African borders, must be done on the prescribed form. Applications for conferences, study tours and similar events must be accompanied by a motivation that takes the under mentioned aspects into account:

- a) The official's or political office bearer's roles and responsibilities and the anticipated benefits of the conference or event;
- b) Whether the conference or event addresses relevant concerns of the institution;
- c) The appropriate number of officials or political office bearers, not exceeding three, attending the conference or event;
- d) The availability of funds to meet expenses related to the conference or event.

5.2 The accounting officer may consider appropriate benchmark costs with other professional bodies or regulatory bodies prior to granting approval for an official to attend a conference or event within and without the borders of South Africa.

Formatted: Font: Bold

Formatted: Font: Bold

- a) Such benchmark costs may not exceed an amount as determined from time to time by the National Treasury through a notice.
- b) The costs exclude costs related to travel, accommodation and related expenses, but include conference or event registration expenses and any other expenses in relation to the conference or event.
- c) When considering costs for conferences or events these may not include items such as laptops, tablets or other similar tokens that are built into the price of such conferences or events.
- d) The accounting officer must grant the approval for officials and in the case of political office bearers and the accounting officer, the mayor for attendance of conferences and events.

5.3 The accounting officer must ensure that meetings and planning sessions that entail the use of municipal funds are, as far as may be practically possible, held in-house.

Formatted: Font: Bold

- a) Municipal or provincial office facilities must be unitized for conference, meeting, strategic planning sessions, *inter alia* where an appropriate venue exists within the municipal jurisdiction.

5.4 The municipality must, where applicable, take advantage of early registration discounts by granting the required approvals to attend the conference, event or study tour, in advance.

Formatted: Font: Bold

6. TRAVEL AND SUBSISTANCE ALLOWANCES FOR APPLICANTS INVITED FOR INTERVIEWS

- (a) If an invited for an interview has to utilize his or her personal motor vehicle he or she will be reimbursed at the same rates as stipulated in paragraph 2.4 (d) of this policy. The actual cost of air travel will be reimbursed subject to the prior approval of the Municipal Manager or the Director Corporate Services.
- (b) Candidates residing outside the boundaries of Stellenbosch municipality will be reimbursed for reasonable costs of travelling as provided for in this policy. Where the distance to travel and interview circumstances is such that a candidate requires accommodation, suitable accommodation may be pre-authorized by the relevant director and the candidate may be reimbursed.
- (c) If a candidate is made an offer of appointment and declines the offer, no reimbursement of costs will be made.
- (d) Where necessary the User Department in consultation with Human Resources will make suitable travelling and accommodation arrangements and provide budget for the costs.

7. AUTHORISATION

7.1 For purposes of implementing this policy

- a) Only the Municipal Manager may authorize any travel to be undertaken by Directors, but provided the expenses to be incurred are on the approved budget of the relevant department. Claims by other officials to be authorized by directors concerned.
- b) Only the Director Strategic and Corporate Services or the Municipal Manager may authorize payments to be made for persons invited for interviews, but provided that the expenses to be incurred are on the approved budget.
- c) Only the Executive Mayor together with the relevant director may authorize any travel to be undertaken by Holders of Public Office, or the municipal manager, but provided the expenses to be incurred are on the approved budget of the municipality.
- d) Only Directors may authorize any travel to be undertaken by employees in the respective Directorate, but provided the expenses to be incurred are on the approved budget of the municipality.
- e) As far as is practically possible, authorization for the above must be obtained prior to the occasion by any representative who travels on the business of the municipality.

An invitation to attend a workshop, meeting or related event is not an automatic authorization to attend such workshop or event. The required authorization must still be obtained from the municipal manager or executive mayor, executive committee or director as the case may be.

8. COUNCIL DELEGATES

Council delegates or representatives to any conference, workshop or meeting must ensure that they arrive on time and attend until the conclusion of such event. If any representative fails to do so, the executive mayor or executive committee, the municipal manager or director as the case may be, may recover all allowances and disbursements paid to enable such delegate or representative to attend such event, provided that such delegate or representative is afforded the opportunity to submit reasons for not being able to be present from the commencement to conclusion of such event.

9. COMMITTEES ESTABLISHED AS A RESULT OF PRESCRIBED LEGISLATION

Any committee established as a result of prescriptions in relevant legislation, will for the purposes of application of this policy, qualify for an allowance equal to that paid to Holders of Public Office.

10. AUTHORITY

Any deviation from this policy for whatsoever reason must be authorized by the Municipal Manager and in the case of the Municipal Manager, the Executive Mayor will authorize.

In any instance where a delegate did not attend business as approved in accordance with this policy, any expenditure incurred by the council should be refunded by the representative. All deviations in this regard must be approved by council.

11. TRAVEL AND SUBSISTENCE ALLOWANCE CLAIM FORM

The official Travel and Subsistence Allowance claim form, as prescribed by Chief Financial Officer must be used with regard to Travel and Subsistence Allowance applications. The approved form should reach the creditors office 3 days before the intended day of departure in order for allowances to be paid to the representative timeously.

12. SHORT TITLE

This Policy will be known as the Travel and Subsistence Policy.

1. **DEFINITIONS**

“*Act*” means the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003);

“*Consultant*” means a professional person, individual partnership, corporation, or a company appointed to provide technical and specialist advice or to assist with a design and implementation of projects or to assist the municipality to achieve its objectives of local government in terms of section 152 of the Constitution;

“*Cost containment*” means the measures implemented to curtail spending in terms of this policy;

“*Credit Card*” means a card issued by a financial services provider, which creates a revolving account and grants a line of credit to the cardholder;

“*Debit Card*” means a card issued by a financial services provider allowing the cardholder to transfer money electronically from any bank account held by the Municipality when making a purchase;

“*Municipality*” means Stellenbosch Local Municipality;

“*Persons in the employ of the municipality*” means any employee of the municipality whether employed on a permanent or temporary basis and any public office bearer serving on the Council;

“*Procurement Documentation*” means any documentation used for the procurement of consultants, whether it is documentation used for tenders or formal quotations;

2. **PURPOSE**

The purpose of the policy is to regulate spending and to implement cost containment measures at Stellenbosch Local Municipality.

3. **OBJECTIVES OF THE POLICY**

3.1 The objectives of this policy are to:

3.1.1 To ensure that the resources of the municipality are used effectively, efficiently and economically;

3.1.2 To implement cost containment measures.

4. **SCOPE OF THE POLICY**

4.1 This policy will apply to all:

4.1.1 Councillors'; and

4.1.2 Municipal employees.

4.2 In the event of any conflict between a provision of this policy and any other policy of council, the provision of this policy shall apply.

5. **LEGISLATIVE FRAMEWORK**

5.1 This policy must be read in conjunction with the -

5.1.1 The Municipal Finance Management Act,

5.1.2 MFMA Circular 97, published on 31 July 2019;

5.1.3 Municipal Cost Containment Regulations, 2019; and

5.1.4 Travelling and subsistence policy.

6. **POLICY PRINCIPLES**

6.1 This policy will apply to the procurement of the following goods and/or services:

- 6.1.1 Use of consultants
- 6.1.2 Vehicles used for political office-bearers
- 6.1.3 Travel and subsistence
- 6.1.4 Domestic accommodation
- 6.1.5 Credit cards
- 6.1.6 Sponsorships, events and catering
- 6.1.7 Communication
- 6.1.8 Conferences, meetings and study tours
- 6.1.9 Any other related expenditure items

7 **USE OF CONSULTANTS**

7.1 Consultants may only be appointed after an assessment of the needs and requirements has been conducted to support the requirement of the use of consultants.

7.2 The assessment referred to in 7.1 must confirm that the municipality does not have requisite skills or resources in its full time employ to perform the function that the consultant will carry out.

7.3 Procurement documentation for the appointment of consultants must include a clause that remuneration rates will be subject to negotiation and will not exceed the applicable rates stated below:

- 7.3.1 Rates determined in the “Guideline on fees for audits undertaken on behalf of the Auditor-General of South Africa” issued by the South African Institute of Chartered Accountants;
- 7.3.2 Rates set out in the “Guide on Hourly Fee Rates for Consultants” issued by the Department of Public Service and Administration;
- 7.3.3 Rates prescribed by the body regulating the profession of the consultant.

- 7.4 When negotiating cost effective rates for international consultants, the Accounting officer may take into account the relevant international and market determined rates.
- 7.5 When consultants are appointed the following should be included in the Service Level Agreements:
- 7.5.1 Consultants should be appointed on a time and cost basis that has specific start and end dates;
 - 7.5.2 Consultants should [be](#) appointed on an output-specific basis, with specified deliverables and the associated remuneration;
 - 7.5.3 Ensure that cost ceilings are included to specify the contract price as well travel and subsistence disbursements and whether the contract price is inclusive or exclusive of travel and subsistence;
 - 7.5.4 A clause ensuring that skills transfer is done by the consultant to the relevant Municipal officials. This requirement must also be specified in Procurement Documentation.
 - 7.5.5 All engagements with consultants should be undertaken in accordance with the municipality's supply chain management policy and Supply Chain Regulations.
- 7.6 The travel and subsistence costs of consultants must be in accordance with the national travel policy issued by the National Department of Transport as updated periodically.
- 7.7 Consultancy reduction plans should be developed to reduce the reliance on consultants.
- 7.8 All contracts with consultants must include a retention fee or a penalty clause for poor performance.
- 7.9 The specifications and performance of the service provider must be used as a monitoring tool for the work that is to be undertaken and performance must be appropriately recorded and monitored.

8. **VEHICLES USED FOR POLITICAL OFFICE-BEARERS**

- 8.1 Should the approved capital budget of the municipality include the purchase of vehicles for official use by political office bearers, the threshold limit for such vehicle purchases may not exceed seven hundred thousand rand (R700 000) or 70% (VAT inclusive) of the total annual remuneration package for the different grades, whichever is greater.
- 8.2 The procurement of vehicles must be undertaken using the national government transversal mechanism unless it can be procured at a lower cost through other procurement mechanisms.
- 8.3 Before deciding on the procurement of a vehicle as contemplated in 8.2, the chief financial officer must provide the council with information relating to the following criteria which must be considered:
 - 8.3.1 Status of current vehicles;
 - 8.3.2 Affordability, including options of purchasing vs. renting;
 - 8.3.3 Extent of service delivery backlogs;
 - 8.3.4 Terrain for effective usage of vehicle; and
 - 8.3.5 Any other policy of council.
- 8.4 If the rental option is preferred, the Accounting officer must review the costs incurred on a quarterly basis to ensure that value for money is obtained.
- 8.5 Regardless of their usage, vehicles for official use by public office bearers may only be replaced after completion of 120 000 kilometres.
- 8.6 Notwithstanding 8.5, a municipality may replace vehicles for official use by public office bearers before the completion of 120 000 kilometres only in instances where the vehicle experiences serious mechanical problems and is in a poor condition, and subject to obtaining a detailed mechanical report by the vehicle manufacturer or approved dealer.

9 TRAVEL, SUBSISTENCE AND ACCOMMODATION

Air Travel

- 9.1 The Accounting officer in respect of all officials or political office bearers and the Executive mayor in respect of the Accounting officer may only approve the purchase of economy class tickets for air travel.

International Travel

- 9.2 International travel for any official or political office bearer can only be approved by the municipal council in a council meeting open to the public with a supporting vote of the majority of the members of the municipal council present.

- 9.3 The report to council for approval of international travel must include:

9.3.1 A motivation why the international travel is seen as critical and fully setting out the anticipated benefit that the municipality will derive from attending the event, meeting or function;

9.3.2 If international travel to the destination or event was previously undertaken, state what benefits if any derived from the previous attendance;

9.3.3 The full cost of the international travel including travel allowances to be paid; and

9.3.4 The proposed officials and political office bearers, not exceeding three, to travel and why they have been identified.

- 9.4 The following events will not be considered critical to justify international travel whether the full cost of the travel is paid by another institution or not:

9.4.1 Attendance of international sporting events;

9.4.2 Attendance of international social events;

9.4.3 Attendance of international party-political events;

9.4.4 The opening of another country's parliament or any other country's government's celebration events.

- 9.5 The accounting officer or delegated official must ensure that requirements for international travel by officials or political office bearers are not inserted into bid documents, whether it is for inspection of products at source of construction/assembly or for any other reason.

Domestic Accommodation

- 9.6 Overnight accommodation may only be booked where the return trip exceeds 500 kilometres.
- 9.7 Notwithstanding the provision in paragraph 9.6 overnight accommodation, where the return trip is 500 kilometres or less, may be booked where in the view of the accounting officer or delegated official the limitation may be impractical and any of the following instances are present:
- 9.7.1 The road or any other conditions could jeopardise the safety, health and security of officials or political office bearers;
 - 9.7.2 The trips are to be undertaken over a number of consecutive days provided that a return trip is in excess of 200 kilometres;
 - 9.7.3 The starting time of the meeting or event would require the official or councillor to leave his/her place of residence before 05:00 in order to be punctual; and
 - 9.7.4 Overnight accommodation is cheaper than the travelling expenses payable under council policy on travel and subsistence.
- 9.8 Any request for overnight accommodation in compliance with paragraph 9.6 or 9.7 must be motivated on a prescribed form and approved by the municipal manager or delegated official prior to the arrangement for overnight stay;
- 9.9 The written approval in terms of paragraph 9.8 must be filed with the relevant supply chain documents for the accommodation booking; and
- 9.10 A copy of such written approval in terms of paragraph 9.8 must also accompany the request for travel and subsistence.

10. **CREDIT CARDS**

- 10.1 The accounting officer must ensure that no credit card or debit card linked to a bank account of the municipality is issued to any official or public office-bearer.
- 10.2 Where officials or public office bearers must incur expenditure in relation to approved official municipal activities, such officials and public office bearers may use their personal bank cards or cash, and may request reimbursement from the municipality in accordance with approved policies and processes.

11 **SPONSORSHIPS, EVENTS & CATERING**

- 11.1 The municipality may not incur catering expenses for meetings that are only attended by persons in the employ of the municipality, unless prior written approval is obtained from the accounting officer.
- 11.2 Catering expenses may be incurred by the accounting officer for the following, if they exceed five (5) hours:
 - 11.2.1 Hosting of meetings;
 - 11.2.2 Conferences;
 - 11.2.3 Workshops;
 - 11.2.4 Courses;
 - 11.2.5 Forums;
 - 11.2.6 Recruitment interviews; and
 - 11.2.7 Council proceedings
- 11.3 Entertainment allowances of officials may not exceed two thousand rand (R2 000.00) per person per financial year, unless otherwise approved by the accounting officer.
- 11.4 Expenses may not be incurred on alcoholic beverages.

11.5 The regulations require *inter alia* that the accounting officer must ensure that social events are not financed from the municipality's budget however, this provision is not intended to impede on the constitutional obligation of the municipality as particularly set out in section 152, 153, 195(1)(h) and Schedule 4 Part B of the Constitution to promote and cultivate social development, economic development, good human-resource management and local tourism.

~

11.6 Social events exclude the following events linked to the strategic objectives of the municipality:

11.6.1 Economic development events;

11.6.2 Cultural festivals;

11.6.3 Local tourism festivals;

11.6.4 Youth, aged, disable and other vulnerable persons developmental events;

11.6.5 Civic honours events;

11.6.6 Staff recognition or achievement awards and functions;

11.6.7 Town centennial or other significant municipal commemorating events;

11.6.8 Opening of facilities and buildings;

11.6.9 Strategic planning sessions;

11.6.10 Non-recreational team building events; and

11.6.11 Non-recreational staff wellness functions.

11.7 Expenditure may not be incurred on corporate branded items like clothing or goods for personal use of officials, other than uniforms, office supplies and tools of trade, unless the costs thereto are recovered from the affected officials or is an integral part of the business model of a specific project or drive.

11.8 The accounting officer must ensure that any sporting events, and expenditure directly or indirectly related to sporting events such as travel and accommodation cost, sporting gear and sporting regalia are not financed from the budget of the municipality or by any suppliers or sponsors. This provision does not prohibit the municipality to incur

expenditure on municipal sport facilities as per its constitutional function.

- 11.9 The accounting officer or delegated official may incur expenditure not exceeding the limits for petty cash as per the municipal Petty Cash Policy for one transaction usage, to host farewell functions in recognition of officials who retire after serving the municipality for ten or more years or retire on grounds of ill health.

12 **COMMUNICATION**

- 12.1 Stellenbosch Municipality may, if matters are not required to be notified through the media to the local community in terms of section 21 of the Municipal Systems Act or any other applicable legislation, advertise municipal related events on its website instead of advertising in magazines or newspapers.
- 12.2 The accounting officer must ensure that allowances to officials for private calls and data costs are limited to the amounts as determined in Council's Cellular Telephone Policy or any other applicable policy that regulates cellular calls and data cost.
- 12.3 Newspaper and other related publications for the use of officials and political office bearers must be discontinued on expiry of existing contracts; unless, authorised by the accounting officer for officials and by the executive mayor for political office bearers that it is required for professional purposes.
- 12.4 Stellenbosch Municipality may participate in the transversal term contract arranged by the National Treasury for the acquisition of mobile communication services provided that the municipality cannot procure it at cheaper rates.

13 **CONFERENCES, MEETINGS & STUDY TOURS**

- 13.1 Cost containment measures with regards to conferences, meetings and study tours are dealt with in the approved Travel and Subsistence Policy.

14 **OTHER RELATED EXPENDITURE ITEMS**

- 14.1 All commodities, services and products covered by a transversal contract by the National Treasury must be procured through that transversal contract before approaching the market, in order to benefit from savings and lower prices or rates that have already been negotiated.
- 14.2 Municipal resources may not be used to fund elections, campaign activities, including the provision of food, clothing and other inducements as part of, or during the election periods.
- 14.3 Procurement of elaborate and expensive office furniture must be avoided.
- 14.4 If considered a requirement, only the services of the South African Police Service may be used to conduct security threat assessments of political office bearers and key officials. A report must be submitted to the Office of the Speaker.

15 **ENFORCEMENT PROCEDURES**

- 15.1 Failure to implement or comply with this policy may result in any official of the municipality or political office bearer that has authorized or incurred any expenditure contrary to those stipulated herein being held liable for financial misconduct or a financial offence in the case of political office bearers as defined in Chapter 15 of the Act read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014.

16 **DISCLOSURES OF COST CONTAINMENT MEASURES**

- 16.1 Cost containment measures applied by the municipality must be included in the municipal in-year budget report and annual cost savings must be disclosed in the annual report.

16.2 The measures implemented and aggregate amounts saved per quarter, together with the regular reports on reprioritization of cost savings, on the implementation of the cost containment measures must be submitted to the municipal council for review and resolution. The municipal council can refer such reports to an appropriate council committee for further recommendations and actions.

16.3 Such reports must be copied to the National Treasury and relevant provincial treasuries within seven calendar days after the report is submitted to municipal council.

17 **REVIEW PROCESS**

17.1 This policy is a budget related policy and will be reviewed at least annually or when required by way of a council resolution, or when an update is issued by National Treasury.

18 **SHORT TITLE AND IMPLEMENTATION**

19.1 This policy is called the Cost Containment Policy and takes effect on 1 October 2019.

APPENDIX A	12

PREAMBLE

Whereas Section 13 of the Local Government: Municipal Finance Management Act, 2003 (No. 56 of 2003) (the Act) determines that a municipality must introduce an appropriate and effective cash management and investment arrangement;

and whereas a bank, in accordance with the provisions of Section 13 of the Act, has to disclose details regarding a municipalities' investments;

and whereas councillors and officials, as trustees of public funds have an obligation to ensure that cash resources are managed as effectively, efficiently, and economically as possible;

now therefore the Stellenbosch Municipality adopted the Cash and Investment Management Policy set out in this document.

1. LEGAL FRAMEWORK

- a) Legislation – Local Government: Municipal Finance Management Act 56 of 2003 (As amended).
- b) Treasury regulations in terms of Section 13(1) of the Act (As amended).

In this Policy, the terms “*the Act*” or “*MFMA*” refers to the Local Government: Municipal Finance Management Act, 2003 (No. 56 of 2003).

2. OBJECTIVES

- a) To maximize returns from authorized investments, consistent with the secondary objective of minimizing risk.
- b) To ensure compliance with all legislation governing the investment of funds.
- c) To maintain adequate liquidity to meet cash flow needs.
- d) To undertake the investment of funds not immediately required for operational purposes in a prudent financial manner.
- e) To ensure diversification of permitted investment.

3. CASH MANAGEMENT

3.1 Guiding Principles

It is recognised that from time to time, Council has cash flow surpluses and borrowing requirements due to daily receipts and payments.

Council maintains a daily cash position summary and a yearly cash flow projection is prepared during the annual planning process and is updated monthly. This determines Council’s borrowing requirements and surpluses for investment. Cash invested “outside” the bank account is covered by paragraph 5 of this Policy.

3.2 Bank Accounts

Council operates one primary bank account for its day to day operational activity requirements and two secondary accounts specifically for service charges and revenue derived from fines.

All monies due to Council and due by Council emanating from Council activities must pass through this primary account, therefore secondary accounts are swept daily, and all balances are transferred to the primary bank account.

3.2.1 Revenue Management

Revenue Management Section 64 of the Act clearly states that all moneys received must be promptly deposited in the Municipality's primary and other bank accounts, therefore:

- all revenue received by the Municipality, including revenue received by any collecting agent on its behalf, is recorded at least on a weekly basis.
- all monies collected by the Municipality on behalf of another organ of state must be transferred to that organ of state at least on a weekly basis.

3.2.2 Cheque Management

Cheques are printed in batch format. To prevent the removing of cheques, cheques are delivered in sealed boxes where strict control is exercised over the numerical sequence of cheques on the expenditure system by means of a cheque register.

3.2.3 Delegation/Rights

The incumbents of the following posts are authorized to sign cheques on behalf of Council:

3.2.3.1 Cheques

A-Signatories:	Chief Financial Officer
	SNR Manager: Financial Management Services
	SNR Manager: Revenue and Expenditure
	Manager: Expenditure Management
	Manager: Revenue
	SNR Manager: Supply Chain Management
	Manager: Budget and Costing
B-Signatories:	Manager: Financial Statements, Compliance and Reporting
	Chief Accountant: Consumer Accounts and Valuations
	Senior Accountant: Cash Management and Credit Control
	Chief Accountant: MFMA Reporting and Compliance
	Chief Accountant: Financial Statements and Reconciliations
	Chief Accountant: Asset Management
	Senior Accountant: Creditors and Payroll

Each cheque needs to be signed by at least two A-Signatories, or one A-Signatory and one B-Signatory.

3.2.3.2 Electronic Funds Transfer (EFT)

A-Signatories:	Chief Financial Officer
	SNR Manager: Financial Management Services
	SNR Manager: Revenue and Expenditure
	Manager: Expenditure
	Manager: Revenue
	SNR Manager: Supply Chain Management
	Manager: Budget and Costing
	Manager: Financial Statements, Compliance and Reporting
B-Signatories:	Chief Accountant: Consumer Accounts and Valuations
	Senior Accountant: Cash Management and Credit Control
	Chief Accountant: MFMA Reporting and Compliance
	Chief Accountant: Financial Statements and Reconciliations
	Chief Accountant: Asset Management
	Chief Accountant: SDBIP Monitoring and Budget Control x2
	Senior Accountant: Creditors and Payroll

Each electronic payment needs to be authorized by at least two A-Signatories, or one A-Signatory and one B-Signatory.

3.3 Bank Overdraft

- 3.3.1 Council made the decision to not request an overdraft facility with its primary banker. as the general policy is to avoid going into overdraft.

In the instance that short-term debt is incurred based on expected income it must be repaid within the same financial year. (Section 45 of the MFMA)

- 3.3.2 Any overdrawn bank account at any date must be reported without avail to Council supported by reasons therefore.
- 3.3.3 Any short-term facility that requires review must first be approved by the Accounting Officer.

4. CASH MANAGEMENT PROCEDURES

4.1 Internal Controls

The supervisor and/or Accountant do a monthly audit on the cashier floats, manual receipt books and the compilation of daily cash-up and banking documents.

4.2 Issuing of Receipts

The cashier will only issue an official enumerated receipt when a client pays his/her municipal account in full or partially.

4.3 Cancellation of Receipts

An official enumerated receipt will only be cancelled whilst the client is still at the cash office and only for the following reasons;

- a) cashier made an error.
- b) client made an error.

The cashier will re-issue a correct receipt and the cancelled receipt will be signed by the incumbent and the supervisor. In cases where the client wants his money back a prescribed official document must be completed and signed by the Client, Cashier and the Supervisor stating the reason(s) for cancelation.

4.4 Cash Balancing

After the end of each shift, the cashier will count the monies received, and do a daily end of day cashier procedure. The supervisor will then re-count the money to ensure that the cashier's daily takings balances with the supervisor's end-of-day totals. The cashier will do a final end-of-day procedure when he/she balances, and the supervisor will do a receipting end of day shut-down procedure.

4.4.1 Cashier surplus and shortage

If the cashier is short, he/she will then pay the monies in immediately. If there is a surplus the cashier will receipt the surplus on the same day. Management discretion can be used should there be substantial evidence and motivation that it was out of the control of a cashier to avoid a shortage the Manager can exonerate the cashier from paying the shortfall and in such an instance the shortage should be allocated to an expense line item.

4.4.2 Cashier resources

The Cashier will be supplied with the necessary tools and equipment to perform a proper cashier function. (E.g. Ultra violet lights, etc.)

4.5 Deposit Books

Each cashier has an enumerated deposit book, as each pay point has a number. The Senior Clerk: Cashier orders books from the bank when needed.

4.6 Other payment methods

4.6.1 Direct Deposits and ACB

Direct deposits can be made into Municipal bank account via the Internet or by deposit slip via their bank, using the applicable Municipal account number as reference. This information is extracted and uploaded on a daily basis from the bank and is then credited against the client's accounts. Accounts are also paid by means of a debit order (ACB) payment.

4.6.2 3rd Party

Payments can be made at any EasyPay and Pay@ pay points. This information is extracted and uploaded on a daily basis from EasyPay and Pay@ and credited against the client's accounts.

4.6.3 Cheque Deposit (Only bank guaranteed cheques will be accepted)

The cashier will issue an official enumerated receipt when a client pays his/her Municipal account with a bank guaranteed cheque. Bank guaranteed cheques that are dropped into the cheque deposit box at the Municipal office are taken out of the box on a daily basis, receipted by the cashier and the receipt is posted to client on request.

4.6.4 Mailed Bank Guaranteed Cheques

Bank guaranteed cheques attached to the Municipal account are collected from the post office on a daily basis and is recorded in a register at the Records department. It is then collected by the Supervisor: Cashiers who will write all the bank guaranteed cheques up in a register. The supervisor will hand it to the cashier to be receipted and the receipt details will be entered in the register.

4.6.5 Returned Cheques and Debit Orders

If cheques and debit orders are returned and marked as "Refer to Drawer", the full balance will immediately become payable.

4.6.5.1 The cost that is payable by the consumer must be equal to the prescribed fee that has been approved by Council in all cases where a cheque bears the status of "Refer to Drawer".

4.6.5.2 Bank charges in this regard will be payable by the consumer. In the event of a customer having tendered a "refer to drawer cheque" for the second time, no further cheques will be accepted from him/her, excluding bank guarantee cheques.

4.6.5.3 A cashier must not accept a cheque that was issued by a Consumer in the event the cheque bears the status as a post-dated cheque, altered and/or an unsigned cheque. In the event this occurs and notwithstanding the aforementioned provisions, all bank charges that would arise and be incurred by Stellenbosch Municipality will then be

recovered from the said cashier. The cashier will be required to pay back the bank costs as approved by Council within 24 hours for recovery of the said amount.

4.6.6 Private Money

No Municipal employee is allowed to:

- Use Council's cash funds at any stage to be replaced at a later stage.
- Use his/her own money as cashier float.
- Change a Municipal official's cheque for cash.
- Safeguard private money amongst Council's cash (e.g. Cashier drawers, petty cash boxes, safes etc.)

5. INVESTMENTS

5.1 Guiding Principles

Generally, Council will invest surplus funds with deposit taking institutions registered in terms of the Bank's Act, 1990 (Act 94 of 1990) for terms not exceeding one year in anticipation of cash flow expectations. From time to time, with prior Executive Mayoral Committee approval, investments can exceed 1 [one] year and be made at other institutions/instruments as approved in the National Treasury regulations from time to time.

5.2 Permitted Investments

The Account Officer must ensure that only the following investment types are utilized in terms of Section 6 of the Municipal Investment Regulations (No. R. 308) dated 1 April 2005:

- a) Securities issued by national government.
- b) Listed corporate bonds with an investment grade rating from a recognized credit rating agency.
- c) Deposits with banks registered in terms of the Banks Act (Act 45 of 1984).
- d) Deposits with the Public Investment Commissioners.
- e) Deposits with the Corporation for Public Deposits.
- f) Banker's acceptance certificate or negotiable certificates of deposits of registered banks.
- g) Guaranteed endowment policies with the intention of establishing a sinking fund.
- h) Repurchase agreements with registered banks.
- i) Municipal bonds issued by a municipality.
- j) Any other investment type as identified by the Minister of Finance in consultation with the Financial Services Board.

5.3 Diversification

Council will only make investments, as prescribed by Section 6 of the Municipal Investment Regulations, with approved institutions which have a rating as defined per Appendix A. Excluding investments made per Executive Mayoral Committee resolution not more than 50% of available funds will be placed with a single institution. The discretion of management should be used when investing funds into the institution quoting the highest rate versus diversification of investment portfolio. Should the difference between the investment quotes be minimal, a decision can be made to invest in the lower quote for the diversification of investment portfolios.

5.4 Investment Managers

5.4.1 In the event of the appointment of an external Investment Managers

Where the above means a natural person or legal entity that is a portfolio manager registered in terms of the Financial Markets Control Act, 1989 (Act 55 of 1989), and Stock Exchanges Control Act, 1985 (Act 1 of 1985), contracted by a municipality or municipal entity to-

- a) advise it on investments;
- b) manage investments on its behalf; or
- c) advise it on investments and manage investments on its behalf.

The External Investment Manager will be appointed in terms of Supply Chain Management Policy and a service level agreement will govern the functions and responsibility of the service provider. All investments made by the External Investment Manager on behalf of the Council of Stellenbosch Municipality must be made within the ambit of this Policy and with National Treasury's investment regulations.

5.5 Internal Controls Over Investments

5.5.1 Delegations

5.5.1.1 In terms of Section 60(2) of the Local Government: Municipal Systems Act, (Act 32 of 2000) (the MSA), the Council may only delegate to the Municipal Manager (MM) the power to make decisions on investments on behalf of the Municipality.

5.5.1.2 In terms of section 79 of the Act, the Accounting Officer has delegated to the Chief Financial Officer (CFO), in writing, his duty under section 65(2) (h) to manage the Council's available working capital effectively and economically in terms of the prescribed cash management and investment framework.

5.5.2 Obtaining quotations and concluding deals

Request are emailed to all approved institutions the day before, or the morning thereof a cut-off is requested to ensure timeous processing of transactions. Quotes are captured on the decision report rates are compared and chosen in terms of the policy. Writing mandates, signed by the CFO and MM, shall be issued to all investees with whom the Council of Stellenbosch Municipality invests funds setting out the following:

- 5.5.2.1 Authorised dealers: name and particulars of the Council's officials who are authorised to transact investments deals with the investees;
- 5.5.2.2 Authorised signatories: name and particulars of the Council's officials who are authorised to sign written confirmations or any other correspondence in respect of investments transactions.
- 5.5.2.3 A dealing sheet, signed by an authorised dealer, shall be prepared in all instances for each individual investment, detailing the quotations received and the recommended investee. The CFO shall advice the MM to approve the transaction.

A written confirmation of the terms of each investment transaction shall be prepared, and signed off by the CFO and MM.

5.5.3 A monthly investment register should be kept of all investments made. The following information must be recorded:-

- name of institution;
- capital invested;
- date invested;
- interest rate;
- maturation date;
- interest received;
- Investment balance;
- total withdrawal amount;
- total interest earned.

5.5.3.1 The investment register and accounting records must be reconciled on a monthly basis.

6. OWNERSHIP

All investments must be made in the name of the Council of Stellenbosch Municipality.

Written proof of investments made must be obtained from the institution where the investment is made and must be kept on file.

7. DUE CARE

In dealing with financial institutions, the following ethical principles must be observed:

- 7.1 The Chief Financial Officer and all staff in his/her directorate shall not accede to any influence by or interference from Councillors, investment agents, institutions, or any other outsiders;
- 7.2 Under no circumstances may inducements to invest be accepted;
- 7.3 Interest rates quoted by one institution must not be disclosed to another institution; and
- 7.4 The business ethics of any controlling body of which the relevant financial institution is a member must be observed by such institution or body at all times.

8. PERFORMANCE MEASUREMENT

Measuring the effectiveness of Council's treasury activities is achieved through a mixture of subjective measures. The predominant subjective measure is the overall quality of treasury management information. The Chief Financial Officer has primary responsibility for determining this overall quality.

Objective measures include: -

- (a) Adherence to policy.
- (b) Timely receipt of interest income.

9. REPORTING**9.1 Reports**

The following reports are produced:

REPORT NAME	FREQUENCY	PREPARED BY	RECIPIENT
Bank Balance report	Daily	Senior Clerk: Electronic Payments	Chief Finance Officer
Investments	Monthly	Chief Accountant: Financial Statements and Reconciliations	Manager: Financial Statements and Reporting

10. ANNUAL REVIEW OF POLICY

This Policy will be reviewed annually or earlier if so required by legislation.

Any changes to this Policy must be adopted by Council and be consistent with the applicable Acts and any National Treasury Regulations.

11. EFFECTIVE DATE

The effective date of this Policy is 1 July 2020 and will be reviewed on an annual basis to ensure that it is in line with the Municipality's strategic objectives and with legislation.

12. SHORT TITLE

This Policy is the Cash Management and Investments Policy of the Stellenbosch Municipality.

APPENDIX A**LONG-TERM RATINGS - FITCH**

AAA - Obligations which have the highest rating assigned by Fitch IBCA on its national rating scale for that country. This rating is automatically assigned to all obligations issued or guaranteed by the sovereign state. Capacity for timely repayment of principal and interest is extremely strong, relative to other obligors in the same country.

AA - Obligations for which capacity for timely repayment of principal and interest is very strong relative to other obligors in the same country. The risk attached to these obligations differs only slightly from the country's highest rated debt.

A - Obligations for which capacity for timely repayment of principal and interest is strong relative to other obligors in the same country. However, adverse changes in business economic or financial conditions are more likely to affect the capacity for timely repayment than for obligations in higher rated categories.

SHORT-TERM RATINGS - FITCH

F1 – Obligations assigned this rating have the highest capacity for timely repayment under Fitch Ratings Ltd national rating scale for that country, relative to other obligations in the same country. This rating is automatically assigned to all obligations issued or guaranteed by the sovereign state. Where issues possess a particularly strong credit feature, a “+” is added to the assigned rating.

F2 – Obligations supported by a strong capacity for timely repayment relative to other obligors in the same country. However, the relative degree of risk is slightly higher than for issues classified as ‘A1’ and capacity for timely repayment may be susceptible to adverse changes in business, economic or financial conditions.

F3 – Obligations supported by an adequate capacity for timely repayment relative to other obligors in the same country. Such capacity is more susceptible to adverse changes in business, economic, or financial conditions than for obligations in higher categories.

LONG-TERM RATINGS – MOODY’S

AAA – Obligations rated “AAA” have the highest rating assigned by Moody’s -Ratings. The capacity of the issuer to pay interest and repay capital is extremely strong, relative to other South African obligors.

AA – Indicates very strong capacity of the issuer to pay interest and repay capital relative to other South African obligors.

A – Indicates strong capacity of the issuer to pay interest and repay capital, relative to other South African obligors, although it is slightly more susceptible to adverse changes in economic conditions and circumstances than debt in categories rated higher.

SHORT-TERM RATINGS – MOODY'S

A-1 – Indicates that the degree of safety regarding timely payment is either overwhelming or very strong, relative to other South African obligors. Issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign designation.

A-2 – Indicates that capacity for timely payment on issues with this designation is strong, relative to other South African obligors.

A-3 – Indicates satisfactory capacity for timely payment, relative to other South African obligors. They are, however, somewhat more vulnerable to the adverse effects of changes in circumstances than obligations carrying the higher designations.

1. INTERPRETATION

1.1. Acronyms

"IDP"	-	Integrated Development Plan
"SDBIP"	-	Service Delivery and Budget Implementation Plan
"EPWP"	-	Expanded Public Works Programme

1.2. Definitions

"Capital budget" is expenditure relating to the purchase, upgrade or refurbishment of a Council asset (property, plant and/or equipment);

"Town / municipality" means the Greater Stellenbosch also known as WC024, a local municipality established in terms of section 12 of the Local Government Municipal Structures Act (Act 117 of 1998)

"Municipal Manager" means the accounting officer of the municipality of Stellenbosch, appointed in terms of section 54A of the Local Government: Municipal Systems Act (Act No. 32 of 2000) being the head of administration and accounting officer in terms of section 55 of the Local Government: Municipal Systems Act (Act No. 32 of 2000);

"Council" means the municipal Council of Stellenbosch Municipality;

"Councillor" means a member of the Council of the Stellenbosch Municipality;

"Lead directorate" is the directorate whose core business encompasses the ward allocation project, which is the dominant user or beneficiary of the outcome of the ward allocation project and which accepts responsibility and ownership of the ward allocation project;

"Legacy project" is a project that is executed in a financial year and of which the benefits to the community continues into the future;

"User Department" is the department whose core business encompasses the ward allocation project, which is the dominant user or beneficiary of the outcome of the ward allocation project and which accepts responsibility and ownership of the ward allocation project;

"Operating budget" refers to expenditure, other than capital, in respect of Council activities and includes repairs and maintenance of Council assets;

"Ukey" refers to a unique numerical key consisting of 7 segments describing the allocation of funds. All budget items must be linked to a Ukey.

"Veriment" refers to the administrative process required to request and approve the transfer of funds from one cost centre to another. Apart from

re-allocation of funds through the adjustment budget, transfer of funds can only be done between cost centres within a directorate.

“Ward committee” means a committee that has been established for each ward in terms of section 73 of the Local Government: Municipal Structures Act (Act No. 117 of 1998);

“Ward project” a project identified by the ward councillor in line with the identified IDP needs, in consultation with the ward committee and financed by the ward allocation;

2. INTRODUCTION

The Republic of South Africa Constitution, 1996 requires the Municipality to encourage the public participation of community members and community organizations in the matters of local government. The Local Government: Municipal Structures Act, 1998 (Act 117 of 1998) (“Structures Act”) provides for the establishment of ward committees as formal mechanisms to give effect to this Constitutional obligation. Ward committees play a vital role in bridging the gap between the Community, the Municipality and its Council and also play an important role in:

- a) Enhancing participatory democracy;
- b) Neighbourhood and ward based planning including the encouragement of communities to take charge of their own livelihoods;
- c) Assisting the Municipality in service delivery improvement;
- d) Assisting in the economic empowerment of communities;
- e) Enhancing local democracy and accountability;
- f) Enhancing social cohesion, nation building and integration of communities across class, race, culture

Along with many other responsibilities the Municipality provide support to the Councillors and Ward Committees through the Ward Allocation policy. The policy intends to establish uniform rules and regulations in the identification, planning and implementation of ward projects. It will further encourage accountability and regulate all administrative processes in the execution phases.

3. POLICY OBJECTIVE

- 3.1. The objective of the Ward Allocations Policy is to create opportunities for Councillors to identify ward projects in line with the identified IDP needs, with the support of their Ward Committees, which would improve the quality of living in all wards. These projects would need to fit into the basket of services of the relevant User Department and must comply with the following:

- 3.1.1. Local Government’s mandate;

- 3.1.2. Council policies;
- 3.1.3. Support the pillars and objectives of the IDP;
- 3.1.4. Directly benefit the community.
- 3.2. Ward project must be:
 - 3.2.1. Additional projects identified by Councillors as identified through the IDP community participation processes,
 - 3.2.2. Supported by the ward committees, and
 - 3.2.3. Approved by Council.
- 3.3. Ward Allocation funds must be utilised in the manner contemplated in sections
 - 3.3.1. **7(e)** categorising municipalities according to their system of municipal government. B Municipalities include a ward participatory system which allows for matters of local concern to be dealt with by committees established for wards;
 - 3.3.2. **72 (3)** describing the object of a ward committee as being to enhance participatory democracy in local government; and
 - 3.3.3. **74** describing the powers and functions of ward committees

of the Local Government: Municipal Structures Act (Act No. 117 of 1998).

4. STRATEGIC INTENT

The Policy shall be governed by the underlying principle of ensuring that ward allocation projects meet the requirements of the Integrated Development Plan including specific reference to the following:

- 4.1. A “**valley of possibility**” that creates an environment conducive to business development and job creation. To facilitate and coordinate support to emerging entrepreneurs by utilizing internal SCM processes and linking SMME's with opportunities in the market. To provide, upgrade and maintain an effective engineering infrastructure to support effective service delivery and to ensure the provision of non-motorised transport routes as a functional mode of transport.
- 4.2. A “**green and sustainable valley**” that ensures the management of human use of the biosphere and its resources, enhancing the integrity of the environment as an imperative for long-term sustainability and incorporates bio-diversity into the environment as an imperative for long-term sustainability. A valley that ensures spatial sustainability and facilitate efficient use of all forms of capital available to the Town including human capacity and ability and information management.
- 4.3. A “**safe valley**” where integrated safety strategies with multi-stakeholder engagements are implemented to focus on institutional, situational and social crime prevention interventions that will improve law enforcement and neighbourhood watches.

- 4.4. A “**valley with dignified living**” inclusive of sustainable human settlements, social infrastructure through the involvement and building of capacity of stakeholders in the planning and management of the areas where they live. This includes access to basic services to households.
- 4.5. A “**valley of good governance and compliance**” that ensures transparency and is corruption-free, establishes an efficient and productive administration to prioritise service delivery and ensures financial prudence, with clean audits by the Auditor-General;

5. POLICY PARAMETERS

- 5.1. The provisions of this policy apply to Ward Councillors, Ward Committees and all Directorates and Departments of the municipality;
- 5.2. This policy applies to all programmes and projects within the jurisdiction of Stellenbosch Municipality that are funded through ward allocations and which are approved by Council in accordance with this policy.

6. REGULATORY CONTEXT

This Policy draws its legal mandate from the following laws and relevant policies, as amended from time to time:

- 6.1. Legislation:
 - 6.1.1. The Constitution of the Republic of South Africa, 1996
 - 6.1.2. Local Government: Municipal Systems Act, (Act No. 32 of 2000);
 - 6.1.3. Local Government: Municipal Finance Management Act, (Act No. 56 of 2003);
 - 6.1.4. The Municipal Budget and Reporting Regulations with specific reference to Circular 82 adopted by Stellenbosch Council on 25 May 2016.
- 6.2. Policies and documents
 - 6.2.1. Stellenbosch Municipality: Integrated Development Plan (IDP);
 - 6.2.2. Stellenbosch Municipality: Asset Management Policy;
 - 6.2.3. Stellenbosch Municipality: Supply Chain Management Policy;
 - 6.2.4. Stellenbosch Municipality: Virement Policy

7. ROLE PLAYERS, ROLES AND RESPONSIBILITIES

The relevant role players include, but are not limited to:

- 7.1. The Ward Councillors and members of Ward Committees;

- 7.2. Manager: Councillor Support;
- 7.3. Council support staff;
- 7.4. Directors;
- 7.5. Budget office;
- 7.6. Technical or functional representatives in User Departments;
- 7.7. Ward Administrators; and
- 7.8. IDP Department

Official / Councillor	Role and responsibility
Manager: Councillor Support	<p>Owner and driver of Ward Allocation Policy.</p> <p>Collations of all ward projects.</p> <p>Submission of ward allocation projects for draft budget.</p> <p>Facilitation of meetings with councillors.</p> <p>Manage ward administrators in this process.</p> <p>Monthly and annual collations of all ward-project progress reporting on all ward projects.</p> <p>Elevate problems to MM.</p>
Councillor and Ward Committee	<p>Project identification, development, submission for draft budget inclusion to Manager Councillor Support.</p> <p>Signing of commitment form.</p> <p>Finalization and submission of project plans to lead departments.</p> <p>Attending meetings with lead departments.</p> <p>Identification of IDP link.</p> <p>Identification of beneficiaries.</p> <p>Attendance, overseeing and reporting (incl. pictures) on projects.</p> <p>Return service provider goods/equipment (if applicable).</p> <p>It is important to note that Ward Committees play a supporting and advisory role to the Ward Councillor.</p>
Ward Administrator	<p>Minute keeping of Ward Committee meetings and provision of said minutes relating to project identification to lead departments.</p> <p>Administrative support for the execution of ward projects (communication and arrangements)</p> <p>Administrative and coordinating link between lead department, councillor and community (ie. Transport plans, attendance registers, beneficiary communication, indemnity forms, etc.).</p> <p>Assist with the drawing up of project evaluation reports and submission thereof to lead department.</p> <p>Compilation of photographic portfolio of evidence of completed projects with specific focus on goods and services procured.</p> <p>Asset registers and general asset management of furniture, tools and equipment procured.</p>

Speaker after consultation with the Executive Mayor	<p>Identify the annual strategic intent of ward projects.</p> <p>Verify that the identified projects comply with the mandate of local government,</p> <p>Respond in writing to the Ward Councillor if projects are approved.</p> <p>Has the prerogative to refuse funding for projects outside the scope of the policy.</p> <p>Continuously, monitor and evaluate the progress of the Ward projects.</p> <p>Provide advice and support to Ward Councillors where necessary in terms of the Ward Allocation projects.</p> <p>Keep record of all proposals and projects arrange All Wards meetings discussing the projects.</p>
MM	<p>The Municipal Manager as head of the administration is responsible and accountable for tasks and functions as provided for in, but not limited to the Local Government: Municipal Systems Act, No. 32 of 2000, Chapter 8 of the Local Government: Municipal Finance Management Act, No. 56 of 2003, other functions/tasks.</p>
IDP and Public Participation	<p>Identification of needs and priorities in the different wards through a valid public participation process.</p> <p>Provide ward committees and ward councillors with updated lists of community needs and ward priorities.</p> <p>Provide feedback to community on project implementation linked to their needs.</p>
CFO	<p>Submission of recommended projects as part of draft and final budget for council approval.</p> <p>The Finance Directorate with the approval of the Speaker may, depending on the circumstances approve the use of the Ward Allocation for projects outside this framework but within the mandate of the Municipality.</p>
Directors	<p>Ensure implementation ownership of projects at manager level.</p> <p>Recommend projects for inclusion after costing.</p> <p>Authorization of procurement documents.</p> <p>Address elevated problems with lead managers.</p>
User department	<p>Costing of projects.</p> <p>Completion of procurement plans and inclusion of ward projects in implementation planning for the year.</p> <p>Implementation of projects.</p> <p>Procurement of services.</p> <p>Arranging meetings with councillors to guide, and explain process to follow.</p> <p>Communication between procured service provider, Ward Administrator and Ward Councillor.</p> <p>Signing off and submission of invoices.</p>

	Monthly reporting on overall departmental expenditure for ward projects.
SCM	Procurement of goods and services.

8. CRITERIA FOR THE SELECTION OF PROJECTS

In response to the current COVID-19 pandemic and the realignment of the budget for 2021/22, with severe budget cuts and adjustments, the following measures will be in place regarding ward allocations until further notice, and replace the information regarding capital and operational ward projects in this policy:

- i) The CAPEX for ward allocations is withdrawn from ward allocations for 2021/22;
- ii) The OPEX ward allocation is reduced to R50 000 per ward for 2021/22;
- iii) That OPEX be utilised to fund COVID prevention projects; this is in line with the request from Western Cape Government – Department of Local Government that ward allocation projects be aligned to address COVID-19 pandemic;
- iv) The following list of goods will be circulated for councillors to choose from in order to be utilised for the COVID prevention projects:

GOODS AVAILABLE FOR COVID PREVENTION PROJECTS (2021 -22)		
ITEM	PRICE	QUANTITY NEEDED
Masks for children		
Masks for adults		
Face cloths		
Hand towels		
Polar fleece blankets		
250 ml refill sanitiser spray bottle		
5L bulk sanitiser		
Hand soap (per box)		

Commented [DM1]: Included as additional item

- v) Prices for the goods will be communicated as soon as the 2021/22 financial year commences. Current prices of goods will be made available to assist with planning processes.
- vi) A separate form similar to the table above will be issued that must be completed by ward councillors to register the COVID prevention project.

vii) The goods will not be issued with a municipal logo, as the logo is only used for officials and official municipal branding.

viii) Ward councillors must be discouraged from requesting nutritional support assistance. Currently, the Special Investigations Unit are investigating numerous municipalities around the country on matters related to food parcel / nutritional support irregularities, distribution and allocation.

Commented [DM2]: New addition of information on the criteria for the selection of projects to the ward allocation policy, as per the directive of the MM.

Projects that are to be implemented under the Ward Allocations Policy must comply with the following criteria:

~~8.1~~ Proposed projects must focus on COVID prevention.

Commented [DM3]: remove

~~8.28.1~~ Be within Local Government mandate as defined in legislation.

8.3 Be aligned with the objectives and pillars of the Integrated Development Plan and with the approved strategic intent identified by the Speaker.

8.4 Comply with all the Policies of Council.

8.5 Be informed by the ward based needs of the wards and municipal infrastructure needs that have been –

8.5.1 assessed by the Ward Councillor and Manager Councillor Support, and

8.5.2 reported and supported by the ward committee in accordance with the budget and IDP timelines.

8.6 Fall within the core business activity of the Lead Directorate and shall form part of the Lead Directorate's SDBIP.

8.7 Preferably be legacy projects that will address a need and be of a sufficient scale to have a significant impact in the ward.

8.8 **Not** be projects that directly benefit an individual.

8.9 **Not** be projects that benefit a private property – including repairs and maintenance of property not owned by Stellenbosch Municipality.

8.10 Projects shall, as far as possible, be completed within the financial year in respect of which they are approved but capital funds may be rolled over to the next financial year at the August Adjustment Budget (MFMA Sec 28 (2) (e) where compelling reasons exist for such roll-over. Funds remaining after the successful completion of projects will be deemed savings and re-allocated to existing approved projects requiring additional funding during the adjustment budget in January of each year.

- 8.11 Projects may cross ward boundaries provided that the relevant ward councillors are in agreement on collaborative planning, funding and implementation of such projects.
- 8.12 The lead directorate must technically evaluate and cost all projects in order to ensure that they are technically feasible, cost effective and comply with budgetary priorities before council considers a project for approval.
- 8.13 Labour intensive approaches shall be developed to maximise EPWP opportunities wherever possible for projects in both the capital and operating budget components. Councillors should note the timelines for submission of EPWP projects as part of the National EPWP Business Plan. These requirements entail that EPWP project identification must be completed and submitted to the LED Department by March each year.

~~8.14 Projects from the capital budget will be included in the main budget. No ward allocation will be made available for capital projects.~~

Formatted: Strikethrough

- 8.15 In the case of projects undertaken on the **capital budget**, the assets created must:
- 8.15.1 Be on council property that is appropriately zoned and reserved for the lead directorate.
 - 8.15.2 Have a provision for maintenance and operating costs (inclusive of human resources) on the operating budget of the user directorate for subsequent years. These projects must adhere to sections 18 and 19 of the Local Government: Municipal Finance Management Act, (Act no. 56 of 2003) describing the funding sources and requirements for capital projects.
 - 8.15.3 Be placed on the asset register of the user directorate responsible for the facility.
 - 8.15.4 Be adequately insured and secured by the user directorate responsible for the facility.
- 8.16 In the case of projects undertaken on the **operating budget**:
- 8.16.1 Adequate supervisory control shall be provided by the user directorate.
 - 8.14.2. Projects will be undertaken on council property, except in cases where:
 - 8.14.2.1. A ward hosts a function or event at facilities that are not council owned - subject to adequate supervisory control provided by the relevant user directorate, or
 - 8.14.2.2. A ward funds or supports a local government function (for example; additional law enforcement officers) that is not necessarily performed on council property.

- 8.14.3. All operational projects will comply with the requirements of National Treasury Circular 82 specifying requirements to be adhered to when providing catering as adopted by Stellenbosch council.
- 8.14.4. Community events aimed at vulnerable groups must contain an educational component that speaks to the strategic intent as identified by the Speaker.
- 8.15. To contribute to maximum impact through meaningful legacy projects within communities, projects must be limited to **two operational and two capital** projects per ward. (Except for wards consisting of mostly rural areas where council does not own property.)

9. OWNERSHIP AND ACCOUNTABILITY

Directors are responsible for ensuring that all ward allocation projects within their respective directorates are completed during the financial year in respect of the projects approved by Council. Capital funds may be rolled over to the next financial year where compelling reasons exist for such roll-over and after approval has been obtained.

Directors must ensure timeous monthly and annual reporting on constraints and/or progress to the Manager Councillor Support for inclusion in Council documents.

10. BASIS FOR ALLOCATING WARD ALLOCATION BUDGET

- 10.1. Council may allocate as part of the municipal annual budgetary process certain funding from the rates accounts towards the Ward Allocations which may be an Operating Budget allocation and/or a Capital Budget allocation. The funding provided for each ward in the municipality must be equal;
- 10.2. Ward allocation funding is approved annually as part of the budgeting process with a percentage distribution between capital and operational funding. All capital projects must be captured on the municipality's capital project identification, planning and prioritization system.

11. POOLING OF FUNDS BETWEEN WARDS

Subject to the clause ~~8.118-19~~ ward allocations may be pooled in order to achieve higher impact and enable legacy projects.

12. PROJECT SELECTION AND IMPLEMENTATION PROCESS

The different stages of selection and implementation are set out hereunder and are subject to the timelines set out in the IDP and Budget Preparation process approved by Council in August of each year. See Ward Allocation SOP for detail and roles and responsibilities. **(ANNEXURE 1) Note that the stages are completed in the**

preceding financial year to ensure implementation of projects within one financial year.

ACTION	RESPONSIBLE	TIME LINE
STAGE 1: STRATEGIC INTENT		
Determine and announce strategic intent of all ward projects for the ensuing financial year.	Speaker	July
STAGE 2: INTRODUCTION		
Report submitted at All Wards Meeting containing: 1. Clear strategic intent 2. Timeframes 3. Roles and responsibilities 4. Process 5. Updated ward priorities, ward plans and baseline needs	Manager: Councillor Support supported by 1. Manager IDP 2. Manager Budget Office Representation required from all user departments at meeting.	July
Documentation required for this stage: 1. Minutes of meeting 2. Attendance Register 3. Ward Allocation Policy 4. Updated IDP ward priorities	Manager Councillor Support	July
STAGE 3: WORKSHOP AND CONSULTATION PHASE		
Arrange series of workshops with Ward Councillors and Ward Committees to: 1. Discuss strategic intent, ward priorities, process, timelines and costing of proposed projects 2. Explain the project prioritisation and provide technical information regarding projects. 3. Signing of Commitment Form (ANNEXURE 2)	User Departments through Ward Administrator	July - August
Documentation of meetings containing the following: 1. Minutes 2. Attendance Registers 3. Completed Commitment Forms	Ward Administrator	August
STAGE 4: PROJECT IDENTIFICATION, COSTING AND TECHNICAL REVIEW		

[illegible]

Obtain recommendation from Executive Mayor and submit all ward projects to Mayco as part of draft budget.	Manager Council Support via Budget Office	November
Creation and allocation of Ukeys for all ward projects	Budget Office with support from User Departments	November
Council approval of ward project plans as part of draft and final budget.	Council	March and May
Documentation required for this stage include: 1. Completed and signed Ward Project Plans per ward. 2. Minutes of meetings	Manager Council Support Secretariat	May
STAGE 6: IMPLEMENTATION		
Monthly reporting on implementation of projects submitted to Manager Council Support	User Department	Monthly starting in July of each financial year.
Collation and monthly reporting on progress to Executive Mayor and Speaker	Manager Council Support	Monthly starting in August of each financial year.
Changes to approved Ward Allocation Projects can be done as part of the adjustment budget following the same processes and approvals as departmental adjustment budget requests. It is important to note that the adjustment budget does not allow for the creation of new projects, but only for the movement of budget between previously approved projects on the existing budget.		

13. DEVIATION FROM POLICY

- 13.1. Deviation from the project selection criteria as listed in section 8 above may be considered by the Municipal Manager on receipt of a written request from the Manager Councillor Support, supported by the User Directorate, detailing the motivation for such a deviation.
- 13.2. The basis of the Municipal Manager's consideration of a deviation shall be whether the deviation would further the Policy Objective as set out in section 3 of the Policy.
- 13.3. The Municipal Manager shall report to Council on the requests received for deviations from the Policy.

14. PROJECT REVIEW

- 14.1. After every financial year there shall be a review of the projects undertaken by the Ward Allocation process. This review will be undertaken by the Manager Councillor Support and reported to the Municipal Manager and Director's Forum. Once supported the reviewed document must be submitted to Council;

- 14.2. The review must cover the following for all the projects undertaken in the municipal area:
 - 14.2.1. Ward number and Ward Councillor name;
 - 14.2.2. List of projects per User Directorate responsible;
 - 14.2.3. Budgeted cost against projects;
 - 14.2.4. Whether the project was completed within the planned time by the User Directorate – if not, reasons must be supplied;
 - 14.2.5. Assessment of project as to whether the original objectives of the project were achieved;
 - 14.2.6. Assessment of projects in terms of quality;
 - 14.2.7. Assessment of the sustainability of the projects in terms of maintenance and operating cost;
 - 14.2.8. Check list for Asset Register and Insurance;
 - 14.2.9. Reason for the under spending of allocated funds in order to reflect savings or over-quoting

15. ANNEXURES TO POLICY

ANNEXURE 1: Ward Allocation SOP

ANNEXURE 2: Ward Allocation Commitment Form

ANNEXURE 3: Ward Allocation Project Plan

ANNEXURE 4: Ward Allocation Project approval budget submission format

Stellenbosch Municipality
Standard Operating Procedures

SOP #		Version #	1.1	Date	2018-10-19
Responsible Directorate	Strategic and Corporate Services	Responsible Person	Manager Councillor Support	Author	Manager Community Development
Delegation ref #		Description/ Delegation Name	Determine Operational Procedures		
SOP Title	Ward Allocation Projects and Funding				
Purpose	This SOP explains the process to through which Ward Allocation funds are approved, starting with the identification and costing of projects through to the implementation and reporting on completed ward projects.				
Scope	Council may allocate as part of the municipal annual budgetary process certain funding from the rates accounts towards the Ward Allocations which may be an Operating Budget allocation and/or a Capital Budget allocation. The objective of the Ward Allocations is to create opportunities for the Councillors to identify ward projects, with the support of their Ward Committees, which would uplift their communities. These projects would need to fit into the basket of services of the relevant User Department.

This document serves as an agreement between the User Department and the Ward Councillor to commit to costing, planning and implementation of ward allocation projects and the agreed upon timeframes in order to achieve identified outcomes.

User Department Representative:
Name:
Date:

Ward Councillor:
Name:
Date:

I have read and understand the Ward Allocation Policy of Stellenbosch Municipality;

And thus commit as follow:

Nr:	Commitment	Councillor Initial	User Department Initial
1	That I will abide by the prescription of the all policies of Stellenbosch Municipality.		
2	As Ward Councillor, I commit to involve my ward committee members in the written identification of projects all projects will be captured in the minutes of the ward committee meeting and will be supplied to the User Department. The projects will be accompanied by a detailed description of what is envisaged in order to enable the User Department to cost the project accurately.		
3	The projects identified by the ward committee and the Ward Councillor will be prioritised and aligned with the IDP strategic objectives, ward based plans and identified baseline needs.
