CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:-

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. BACKGROUND

Various studies have been undertaken over the years regarding the development of erf 412. Most of the studies included extensive public participation processes. The outcome of these studies are that the property should be developed for high density residential units but also includes business (light industrial) opportunities.

Regarding erf 284, the initial plans were to develop an old age home/retirement village, but due to financial constraints, this never materialised.

The subject property is located in Groendal, a suburb of Franschhoek, next to the R45. Erven 412, 217 and 284 is located along Santa Rose Street. The site falls within an area characterized by medium to high-density residential as well as non-residential and light industrial uses. The site in its regional location is indicated on Figure 1.

Figure 1: Regional Location

Figure 2 - Erf 412 and 217: Extent

Figure 3 - Erf 284: Extent

Both properties rests with Stellenbosch Municipality by virtue of Title Deeds T43716/1995 and T14140/1980 respectively.

It is suggested that the proposed Site Development Plan allow for:

- Medium - Higher density residential;
- Residential erven to front onto open space, ensuring improved surveillance as well as ensuring that green space becomes a positive element in the urban fabric;
- Mixed-use activity; and
- Variation of erf sizes, allowing flexibility to the housing typologies that can be accommodated on the sites, thereby catering for a range of different income groups.
- Taking into account the constraints and limitations of the site in question.

The two site development plans should take into consideration the analysis and assessment regarding the physical conditions of the site, the surrounding land uses, visuals, height, traffic and bulk services.

Each site development plan should consider the following requirements:
