

ADDENDUM TO FQ/SM 98/22 RESURFACING OF NETBALL COURTS AT GROENDAL SPORT FACILITY

The Stellenbosch Municipality has concluded the following amendment(s) that will be made to the official request in formal quotation documentation.

The inclusion of a line item in the specifications and the amendment of the square metre surface area.

9. Levelling must be done using crusher dust and sludge to ensure a level surface.

Below the new specifications including the levelling as an item in the specifications.

Specifications:

1. High pressure clean surface to remove existing dirt.
2. Apply anti-fungal treatment.
3. Remove grass from expansion joints and cracks, apply chemical weed killer to manufacturers specification.
4. Apply fibre reinforced bitumen slurry to cracks
5. Flood courts and raise visible low spots with netball court patch emulsion and seal with fibre reinforced bitumen slurry.
6. Apply a minimum of six coat Tru-Flex or similar netball court fibre reinforced emulsion surface coatings. 2 coats coarse surface sealer
 - 1 coat coarse sand filler layer
 - 1 coat fine silica sand surface layer
 - 1 coat fine silica sand Green colour layer
 - 1 coat fine Green finish layer
7. Mark and paint lines to Netball South Africa standard, using a non-skid acrylic white paint.
8. All generated rubble must be discarded in a legal manner and must be for the bidder's account.
9. Levelling of existing courts must be done using crusher dust and sludge to ensure a level surface.

The new pricing schedule includes the amendment of the m² surface from 2310m² to 1225m² and the addition of the levelling line item.

Pricing schedule:
