STELLENBOSCH MUNICIPALITY SOCIAL HOUSING PROGRAMME

Stellenbosch Municipality is one of the Leader Towns in the province with requisite constituents and demand to partake in the Social Housing Programme. Consequent to this, the Municipality adopted an Affordable Rental Housing Strategy and Plan in 2016 and underwent a rigorous process of identifying and approving Restructuring Zones for the development of Social Housing. Stellenbosch Restructuring Zone areas were subsequently endorsed by the National Housing Ministry and Gazetted dated 27 April 2017 (No. 40815).

Stellenbosch Municipality is confident that there is sufficient demand in the municipal area for affordable rental housing. The market is not catering to this market, especially on well-located land with good access to socio-economic opportunities. The prevailing property market, especially in town and other areas with amenities, excludes households defined as low to moderate-income earners R1 850 – R22 000 per month as per the SHRA PD&F Circular 1 of 2022/23. The Municipality wants to intervene in the market by using the National Social Housing programme to integrate previously excluded groups into the well-located parts of the Town and its benefits. It is, therefore, commencing with the implementation of Social Housing (SH) to restructure the urban environment pursuant to better urban efficiencies. This will allow the municipality to progressively realize its Spatial development Framework and IDP objectives.

As part of its SH programme preparation, the Municipality has identified several potential sites that can be used for SH delivery. It has organized these into an official SH pipeline approved by the Council. The Social Housing pipeline consists of greenfield and brownfield development opportunities in excellently located parts of the municipal area. Places with access to employment opportunities and other social amenities.

To have successful social housing in the Municipality, partnerships with Social Housing providers are needed, to implement projects and provide quality and property management services in the social housing projects.

The Municipality calls for Social Housing delivery agents to provide proposal bids for a social housing project on land offer Farm 81/2 and Farm 81/9, Stellenbosch. The tenders will be evaluated based on functionality, price and preference. A minimum score of 70% (percent) for functionality must be obtained to qualify for stage two Price and preference evaluation using the 80/20 or 90/10 preferential point system.

The winning bidder will enter land availability agreements and work to finalise the project agreement before final transfer & leasing agreements.

SECTION 1: INTRODUCTION TO THE PROJECT

1.1 BACKGROUND

The Stellenbosch Municipality wants to implement its first social housing project as the beginning of its Social Housing programme rollout. Doing this effectively requires partnerships with Social Housing Delivery agents to submit bids for a new Social Housing development on Farm 81/2 and Farm 81/9, Stellenbosch. The winning proposal will be awarded the properties on a long-term nominal lease to implement and manage the project.

The Municipality identified this opportunity to support residential integration through the Social Housing programme.

This development is the Municipalities response to the need and demand for more affordable housing opportunities accessible to households with low to moderate incomes R1 850 – R22 000. This kind of development in this location contributes to spatial integration and urban restructuring and promotes more efficient use of publicly owned land assets.
