ADDENDUM TO FQ/SM 107/23 WATERPROOFING OF VAN DER STEL SQUASH COURT FACILITY

The Stellenbosch Municipality has concluded the following amendment(s) that will be made to the official request in formal quotation documentation.

After the compulsory clarification site meeting on Friday, 20 April 2023, the following amendments must be made to the specifications by means of this addendum.

Previous specifications as below:

Specifications

- New gutters must be supplied
- The gutters and parapet walls on both roofs must be waterproofed.
- All old waterproofing must be stripped.
- Roof sheets must be waterproofed and gutters sealed
- Apply an aluminum coating to protect against adverse weather conditions.
- All product and equipment must be supplied and be quoted for.
- All generated refuse must be discarded in a legal manner and must be included in the quote.

The new amended specifications to be used as seen below;

Specifications

- The existing gutters must be cleaned and the old waterproofing must be removed. Then the gutters must be re-sealed using the equivalent waterproofing as before.
- Supply and install new PVC down pipes that replaces the existing down pipes.
- Install new channel to lead away water accumulated by down pipes.
- The gutters and parapet walls on both roofs must be waterproofed (33m x 12m).
- All old waterproofing must be stripped.
- Roof sheets must be waterproofed and gutters sealed
- Apply an aluminum coating to protect against adverse weather conditions.
- All product and equipment must be supplied and be quoted for.
- All generated refuse must be discarded in a legal manner and must be included in the quote.
