 Director: Planning and Economic Development (A Barnes)
 Director: Infrastructure (S Chandaka)
 Acting Chief Financial Officer (H Mitchell)
 Chief Audit Executive (F Hoosain)
 Senior Administration Officer (T Samuels)

1.	OPENING AND WELCOME
----	----------------------------

The Speaker, Cllr Q Smit, extended a warm welcome to all present in the 13th Council meeting.

2.	MAYORAL ADDRESS
----	------------------------

- “As the month of Ramadaan came to an end this past weekend, I want to wish all our Muslim residents and staff a Happy Eid-al-Fitr, that was celebrated this past Saturday. I trust it was a happy and wonderful day and time that you spent with your families and loved ones.
- Want to welcome Councilor Siegfried Schäfer as the new councilor. He was sworn in by Magistrate Maya Prag on Monday, 24 April 2023.
- On 20 April 2023 in Klipmuts, we handed over 27 title deeds. As Executive Mayor, I remain committed to ensure that the backlog of title deeds are addressed and that more people in the municipal area can become homeowners. Thank you to the Khaya Lam project of the Free-Market Foundation South Africa for assisting with this process.
- Want to thank our Fire and Rescue and Disaster Management teams, who responded quickly on 17 April 2023 to a fire in Mandela City, Klipmuts. The swift response of the teams limited the destruction by the fire to 25 structures that were destroyed. No fatalities or serious injuries have been reported.
- On 11 April 2023, the Executive Mayor hosted the first engagement with student leaders for 2023. This is important as the municipality also needs to take the opportunity to discuss some solutions to challenges that our students’ residents face. Students also had the opportunity to engage with the members of the Mayoral Committee.
- The opening of the Steenenbrug, better known as Distillery Bridge, was opened on 5 April 2023 after extensive upgrades. This is the spot where the first ever bridge in Stellenbosch was constructed. Steenenbrug was the main entrance to Stellenbosch from the Cape for about 260 years - from 1691 to the early 1950s. The bridge has now undergone extensive upgrades and renovations. A new double-lane bridge, that also includes a pedestrian and bicycle crossing, has been constructed while maintaining the exact position and alignment of the original bridge. The central stone pier was also retained in its current location and left as unaltered as possible. The existing bollards at the bridge entrance was also reused as spatial markers.
- Want to thank MM, Directors, ward councilors and all supporting staff assisting with the recent IDP / Budget public participation meetings. It is important that the public give input into the ward priorities and the IDP.
- Tomorrow, 27 April we celebrate Freedom Day - is the commemoration of the first democratic elections held in South Africa on 27 April 1994. Since then, elections take place every five years, at different times for National and Provincial, as well as local government elections. And as we also celebrate Worker’s Day on Monday, 1 May, many people will be taking full advantage of the long weekend. I urge everyone to travel safely and be mindful on the roads, at home, and to be careful.
- Even though we had very good rains this past weekend, our dam levels in the province are lower compared to the same time last year. I urge everyone in the municipal area to use water sparingly, and to still save water where they can.”

3.	COMMUNICATION BY THE SPEAKER
-----------	-------------------------------------

TOOLS OF TRADE

- The Speaker requested Councillors to refrain from using private email addresses (gmail and hotmail) when sending emails relating to any municipal related business. He urged Councillors to please only use their official email addresses allocated to them (...@ Stellenbosch.gov.za) and that he, for the last time, sent out an email in this regard. He cautioned Councillors that in future, emails from private email addresses will be blocked if they don't adhere to this communication and not blame the municipality for not responding on Councilors' emails.

SEASONAL SCHOOL ON 10 MAY 2023

- A seasonal school (re capacity building initiatives) will be rolled out by the Western Cape Government and the Speaker urged Councillors who previously attended these training sessions, afford other Councillors the opportunity to attend. An email in this regard will be sent out during the cause of the day and Councillors who are interested in attending the seasonal school on 10 May 2023, can indicate so.

BIRTHDAYS

- The Speaker congratulated the following Councillors who celebrated their birthdays during April:
 - CLlr R Pheiffer – 4 April
 - CLlr E Groenewald – 18 April
 - CLlr P Crawley – 19 April
 - CLlr N Mcombring – 24 April
 - CLlr M Danana – 30 April

4.	COMMUNICATION BY THE MUNICIPAL MANAGER
-----------	---

- "Congratulations to all our Muslim colleagues and members who celebrated Eid on Saturday, 22 April 2023. I trust you had a blessed day.
- Freedom Day is celebrated on 27 April in South Africa. I want to remind everyone that with freedom comes responsibilities and it is up to all of us to be accountable for all our actions in terms of what we do.
- I want to urge all who will be having a long weekend to please be safe when travelling on the roads.
- South Africa will be celebrating National Workers Day on 1 May and I want to remind all the workers of Stellenbosch Municipality that no work is insignificant. All labour that uplifts humanity has dignity. They should be undertaken with painstaking excellence. Don't undervalue the little bit that you do in your little corner, because in order for this machine to work we need everybody to do their little part. We are serving the community and we must do so with excellence.

Thank you very much."

5.	DISCLOSURE OF INTERESTS
-----------	--------------------------------

Cllr R Pheiffer declared his interest in Item 11.2.1 (he is a member of La Motte Sports Council). Speaker RULED that Cllr Pheiffer do not need to excuse himself from the meeting when Item 11.2.1 is dealt with.

6.	APPLICATION FOR LEAVE OF ABSENCE
-----------	---

6.1 The following applications for leave of absence were approved in terms of the Rules of Order By-law of Council:-

Cllr AJ Hanekom	–	26 April 2023
Cllr N Mananga-Gugushe	–	26 April 2023

8.2	OVERSIGHT ROLE OF COUNCIL: SUPPLY CHAIN MANAGEMENT POLICY-REPORT ON THE IMPLEMENTATION OF THE SUPPLY CHAIN MANAGEMENT POLICY OF STELLENBOSCH MUNICIPALITY: QUARTER 3 (01 JANUARY 2023 – 31 MARCH 2023)
-----	---

Collaborator No:

IDP KPA Ref No:

Good Governance and Compliance

Meeting Date:

19 April 2023 & 26 April 2023

1. **SUBJECT: OVERSIGHT ROLE OF COUNCIL: SUPPLY CHAIN MANAGEMENT POLICY-REPORT ON THE IMPLEMENTATION OF THE SUPPLY CHAIN MANAGEMENT POLICY OF STELLENBOSCH MUNICIPALITY: QUARTER 3 (01 JANUARY 2023 – 31 MARCH 2023)**

2. **PURPOSE**

To submit to Management a report for the period 01 January 2023 – 31 March 2023 on the implementation of Council's Supply Chain Management Policy. The report covers the performance of the various delegated functions and the implementation thereof.

3. **FOR DECISION BY MUNICIPAL COUNCIL**

Section 6 (3) & 4 of the SCM Policy 2022/2023, determines that the Accounting Officer must within 10 days at the end of each quarter; submit a report on the implementation of the SCM Policy to the Executive Mayor. This report must be made public in accordance with section 21A of the Municipal Systems Act (32 of 2000).

4. **EXECUTIVE SUMMARY**

On a quarterly basis the Accounting Officer must submit a report on the implementation of the Supply Chain Management Policy to the Executive Mayor. In terms of the SCM Regulations and Council's SCM Policy the SCM unit has been delegated to perform powers and functions that related to the procurement of goods and services, disposal of goods no longer needed, the selection of contractors to aid in the provision of municipal services.

13TH CONCIL MEETING: 2023-04-26: ITEM 8.2**RESOLVED** (majority vote)

- (a) that Council approves this report and **ANNEXURE A** attached to the report, and
- (b) that the report be made public in accordance with section 21A of the Municipal Systems Act.

MINUTES

13TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2023-04-26

8.3	MFMA SECTION 52 REPORTING UP TO MARCH 2023
-----	--

Collaborator No:

IDP KPA Ref No:

Good Governance and Compliance

Meeting Date:

19 April 2023 & 26 April 2023

1. SUBJECT: MFMA SECTION 52 REPORTING UP TO MARCH 2023**2. PURPOSE**

To comply with section 52(d) of the Municipal Finance Management Act and report to Council on the budget; financial and service delivery budget implementation plan by the Municipality for quarter 3 of the 2022/23 financial year.

3. DELEGATED AUTHORITY**THE EXECUTIVE MAYOR TO SUBMIT TO COUNCIL**

In terms of section 52 (d) of the Municipal Finance Management Act:

"The mayor of a municipality—

(d) must, within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget as well as the non-financial performance of the municipality;"

4. EXECUTIVE SUMMARY

The Executive Mayor must provide general political guidance over the fiscal and financial affairs of the Municipality and is required by Section 52(d) of the Municipal Finance Management Act to submit a report on the implementation of the budget and the financial and non-financial performance of the Municipality, to the Council within 30 days after end of each quarter.

The Section 52 report is a summary of the budget performance. It compares the implementation of the budget to the commitment and made and contained in the Service Delivery and Budget Implementation Plan (SDBIP) and is intended to enable Council to give effect to their oversight responsibility.

This report provides the overall performance of the Municipality for the period 1 January 2023 to 31 March 2023.

13TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2023-04-26

11.	CONSIDERATION OF ITEMS BY THE EXECUTIVE MAYOR: [ALD G VAN DEVENTER (MS)]
11.1	PROTECTION SERVICES
11.1.1	REVIEW OF DISASTER MANAGEMENT PLAN

Collaborator No: 747710
 IDP KPA Ref No: Good Governance and Compliance
 Meeting Date: 19 April 2023 & 26 April 2023

1. SUBJECT: REVIEW OF DISASTER MANAGEMENT PLAN

2. PURPOSE

To notify the Committee of the recently reviewed Disaster Management Plan.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Stellenbosch Municipality, as prescribed by the Disaster Management act, do have a disaster plan. Due to the dynamic nature of disaster management, an annual review of the disaster plan is necessary. The disaster section therefore embarked on a consultative process and engaged widely with various stakeholders and institutions to collect and verify information and data needed to amend the current plan, where required.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.1.1

During deliberations on the matter, Cllrs M van Stade and WF Pietersen requested that a workshop be held on the Review of Disaster Management Plan.

RESOLVED (majority vote)

that Council approves and adopts the revised Disaster Management Plan.

11.2	YOUTH, SPORTS AND CULTURE: [PC: CLLR R ADAMS]
11.2.1	FINAL REPORT ON THE IMPLEMENTATION OF THE HYBRID SPORT FACILITIES MANAGEMENT MODEL (PLAN) FOR STELLENBOSCH MUNICIPALITY (WC024)

Collaborator No:

IDP KPA Ref No:

Good Governance and Compliance

Meeting Date:

19 April 2023 & 26 April 2023

1. SUBJECT: FINAL REPORT ON THE IMPLEMENTATION OF THE HYBRID SPORT FACILITIES MANAGEMENT MODEL (PLAN) FOR STELLENBOSCH MUNICIPALITY (WC024)

2. PURPOSE

2.1 To inform Council on the implementation of the Hybrid Sport Facilities Management Model (Plan) for Stellenbosch Municipality (WC024).

2.2 To inform Council of the User Agreement and the profit-sharing addendum (**ANNEXURE A**) that were used to enter into agreement between Stellenbosch Municipality and Sport Councils.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

All municipal property is funded and maintained from our resources received from rates and taxes paid by our rate payers. It is therefore critical that municipal property be adequately maintained and protected against vandalism and damages to prevent loss to the rate payers. To this end, Council through the department of Community Services engaged with all 15 area sport councils individually to explain and retrieve input and comments on the new Facilities Management Plan.

The new approved Hybrid Model (SFMP) aims to address the issues of proper management and maintenance of the municipal sports facilities. Given that all leases expired, it's the perfect time to introduce this model and new User Agreement. It is important to note that Council have to follow a public participation process in terms of Municipal Assets Transfer Regulations (MTAR). The initial lease will only be for a period of 12 months to ensure that the implementation of the new Facilities Management Plan as per hybrid model is monitored and evaluated for effective and efficient management. Longer term leases will be considered after an initial trail period of 12 months.

The Stellenbosch Sport and Recreation Association (SSRA) has been non-functional since the Covid-19 lockdown restrictions were lifted and sport, and sport facility use returned to normal. A notice was received by the Sport Office that from 09 September 2022 an interim SSRA committee was established to continue the committee activities.

The SSRA interim committee would remain active until a new Annual General Meeting (AGM) date be scheduled. At this AGM a new SSRA Executive would be elected and to date this did not materialise.

During these engagements the replacement of the formal Lease Agreement with a revised "User Agreement" was explained in detail to the various Sport Council representatives.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.2.1

RESOLVED (majority vote)

- (a) that Council takes note of the report;
- (b) that Council mandate the Director Community and Protection Services to enter into an agreement with Sport Councils who have accepted the hybrid model and signed User Agreements;
- (c) that Council takes over the management of the Sport facilities linked to the Sport Council which have not signed the User Agreement; and
- (d) that the department finalise the engagement with Pniel and Raithby Sport Council.

11.3	CORPORATE SERVICES: (PC: CLLR L NKAMISA)
11.3.1	SALARY AND WAGE INCREASE: IMPLEMENTATION OF SALGBC COLLECTIVE AGREEMENT: YEAR 3

Collaborator No:

IDP KPA Ref No: Good Governance and Compliance

Meeting Date: 19 April 2023 & 26 April 2023

1. SUBJECT: SALARY AND WAGE INCREASE: IMPLEMENTATION OF SALGBC COLLECTIVE AGREEMENT: YEAR 3

2. PURPOSE

To inform Council in regard to the salary and wage increase for employees (excluding the Municipal Manager and Section 56 Managers) as per the SALGBC collective agreement 2021 – 2024 – year 3.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

SALGA, SAMWU and IMATU entered into a salary and wage agreement for the period 1 July 2021 until 30 June 2024 during the bargaining process on 16 September 2021. In terms of clauses 6.6 and 6.7 of the agreement the increase for the 2023/24 financial year will be the projected CPI average for 2023. The forecast by the Reserve Bank in January 2023 will be used for this projection.

SALGA send the municipality a circular 01 of 2023 in March 2023 (attached as **APPENDIX 1**) in which municipalities are informed that the following increases shall apply from 1 July 2023. Salary 5,4% and the minimum wage will be R9 531.54. The flat rate for Homeowners allowance will be R1066.41 and the maximum employer contribution to medical aid will increase to R5 277.38 All benefits linked to salary will increase by 5.4%.

Where municipalities are not able to afford the increase SALGA should be notified and an exemption application must be made to the SALGBC with full motivation. There is provision made for this increase in the draft budget approved by Council. Employees who are not at the maximum of their salary scale are entitled to a notch increase over and above the cost-of-living increase which amounts to around a further 2,5% increase in the salary. The Municipal Manager and 56 Managers are excluded from this agreement and therefore will not be receiving the same increase from 1 July 2023. The current prediction for them is 3%.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.3.1**RESOLVED** (nem con)

- (a) that Council note the circular from the SALGBC dated 31 March 2023; and
- (b) that Council takes note that the increase has been provided for in the draft budget for 2023/24.

Collaborator No: 747756
IDP KPA Ref No: Good Governance
Meeting Date: 19 April 2023 & 26 April 2023

1. SUBJECT: REPORT ON REVIEW OF THE CURRENT STELLENBOSCH MUNICIPAL ZONING SCHEME BY-LAW (2019) (SZSB) AND TO REQUEST COUNCIL PERMISSION TO COMMENCE WITH A FULL AMENDMENT PROCESS OF THE CURRENT STELLENBOSCH MUNICIPAL ZONING SCHEME BY-LAW (2019)

2. PURPOSE

Is to present to Council a review of the Stellenbosch Municipal Zoning Scheme By-law (2019) (SZSB) and to request permission from Council to, based on the internal review, commence, and undertake a full amendment of the said Stellenbosch Municipal Zoning Scheme By-law in terms of Section 12(1) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (MSA).

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Following the Land Use Planning law reform process in South Africa the Stellenbosch Municipality adopted and introduced a Stellenbosch Zoning Scheme By-law (SZSB) in 2019.

Since the introduction of the SZSB, several matters have been identified that presents challenges and would necessitate that the subject By-law be updated with improvements, corrections, and additions.

Due to the nature and scope of the required amendments, and the inherent benefits of having the provincial standard draft zoning scheme by-law to adequately address these challenges, it is proposed that this provincial standard draft zoning scheme by-law be used as the foundation to develop a new zoning scheme by-law for Stellenbosch Municipality.

Consequently, the revision and updating of the SZSB is proposed to ensure the delivery of effective and efficient land use planning services and to contribute to economic growth.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.8.1

RESOLVED (nem con)

- (a) that the contents in the report on the internal review of the current Stellenbosch Zoning Scheme By-law (2019) **BE NOTED**;
- (b) that the proposed development of a revised and updated Stellenbosch Zoning Scheme By-law **BE AUTHORISED**; and
- (c) that the provincial standard draft Zoning Scheme By-law be used as the foundation for the development of the revised and updated Stellenbosch Zoning Scheme **BE ADOPTED**.

11.8.2	APPOINTMENT OF NEW TERM OF OFFICE AND MEMBERS OF THE STELLENBOSCH MUNICIPAL PLANNING TRIBUNAL (SMPT)
--------	---

Collaborator No: 747869
IDP KPA Ref No: Good Governance and Compliance
Meeting Date: 19 April 2023 & 26 April 2023

1. SUBJECT: APPOINTMENT OF NEW TERM OF OFFICE AND MEMBERS OF THE STELLENBOSCH MUNICIPAL PLANNING TRIBUNAL (SMPT)

2. PURPOSE

To present for consideration the approval of a new term of office of the Stellenbosch Municipal Planning Tribunal (SMPT) with the associated appointment of new municipal planning tribunal members and associated matters.

3. DELEGATED AUTHORITY

The appointment of municipal planning tribunal members and associated matters, Council by virtue of Delegation LUP57.

4. EXECUTIVE SUMMARY

A Municipality is compelled to establish a Municipal Planning Tribunal (MPT) to decide on a category of land use and land development applications. The current term of office, as extended by Council, will end on 31 May 2023.

A recruitment process was duly authorised by Council and undertaken by the Administration to identify persons that are suitably qualified and experienced in land use planning or the law related thereto.

It is proposed to appoint the SMPT for a term of office of 5 years, with a total of 5 external and 5 internal MPT members.

Suitable external MPT members were identified for appointment, and it is proposed to retain the current internal MPT members, with the addition of the Director: Planning and Economic Development. The proposed external MPT members constitute a healthy mix of existing as well as new members in order to secure long term continuity of experience amongst the membership.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.8.2

During deliberations on the matter Cllr M van Stade raised a concern that Annexure A to the report is not attached to the Agenda, whereafter

Speaker **RULED**

that the item be referred back to a next Special or Urgent Council meeting for completeness.

11.8.3	CONSIDERATION AND APPROVAL OF REPRESENTATIONS ON CLASS 2 – 4 STELLENBOSCH MUNICIPAL BOUNDARY PROPOSALS IN TERMS OF SECTION 26 OF THE LOCAL GOVERNMENT: MUNICIPAL DEMARCATION ACT NO. 27 OF 1998 (MDA) FOR SUBMISSION TO THE MUNICIPAL DEMARCATION BOARD
--------	--

Collaborator No: 747908

IDP KPA Ref No: Good Governance and Compliance

Meeting Date: 19 April 2023 & 26 April 2023

1. SUBJECT: CONSIDERATION AND APPROVAL OF REPRESENTATIONS ON CLASS 2 – 4 STELLENBOSCH MUNICIPAL BOUNDARY PROPOSALS IN TERMS OF SECTION 26 OF THE LOCAL GOVERNMENT: MUNICIPAL DEMARCATION ACT NO. 27 OF 1998 (MDA) FOR SUBMISSION TO THE MUNICIPAL DEMARCATION BOARD

2. PURPOSE

For Council to:

- (a) Note the information contained in Circular 1 of 2023 regarding the class 2 – 4 Stellenbosch municipal boundary redetermination proposals which the Municipal Demarcation Board intends to consider.
- (b) Support and approve the representations on the proposed Stellenbosch municipal boundary redeterminations for submission to the Municipal Demarcation Board.

3. DELEGATED AUTHORITY

Council.

4. EXECUTIVE SUMMARY

The Municipal Demarcation Board (MDB) has initiated the process of municipal boundary redetermination and three (3) proposals were submitted from the public – including the municipality – for consideration. Comments and representations on these redetermination proposals are currently open for comment and based on the proposals, the municipality supports the two proposals contained in DEM8250 (Stellenbosch Municipality submission) and DEM 8252 (City of Cape Town submission); and objects to DEM8251 (private submission).

13TH CONCIL MEETING: 2023-04-26: ITEM 11.8.3

During deliberations on the matter, Speaker RULED that this item stands down to obtain the correct amendments. When the meeting returned to this item, bullet points (a) and (c) in the resolution was amended as follows:

RESOLVED (majority vote with 3 abstentions)

- (a) that Council supports and approves the representations provided on the proposed Stellenbosch municipal boundary redetermination (DEMS250) as detailed motivation provided in annexure E;
- (b) that Council supports the representations provided on the proposed Stellenbosch municipal boundary redetermination (DEM8251) and objects to this proposal;
- (c) that Council supports and approves the representations provided on the proposed Stellenbosch municipal boundary redetermination (DEM 8252); and
- (d) that Council approves these submissions for submission to the Municipal Demarcation Board.

2. PURPOSE OF REPORT

To obtain approval from Council to enter into a Sister City relationship with Coral Gables in Florida.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

The City of Coral Gables is known as The City Beautiful, which stands out as a planned community that blends color, details, and the Mediterranean Revival architectural style. Coral Gables is a major employment center, with almost as many people working in the city as residents. The economy is comprised of local and international businesses.

The International Affairs Coordinating Council for the City of Coral Gables, Florida expressed its desire in respect of the establishment and maintenance of a potential Sister City relationship with Stellenbosch Municipality (attached as **ANNEXURE 1**).

The city's primary goal is cultural exchange and to collaborate with other municipalities to advance in safety (public safety, environmental preparedness), IT and other measures. The Council further aim to grow by establishing relationships with other areas globally.

MINUTES

13TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2023-04-26

However, in order to initiate the process for a potential Sister City relationship between the two governments, a line of communication had to be developed by sending an introductory letter from one Executive Mayor to the other. On 8 August 2022, the Executive Mayor transmitted a letter to Executive Mayor Lago of Coral Gables indicating mutual interest in establishing this Sister City relationship (attached as **ANNEXURE 2**).

13TH CONCIL MEETING: 2023-04-26: ITEM 11.11.1**RESOLVED** (majority vote)

that Council approves the request to enter into a Sister City relationship with Coral Gables.

In terms of Section 7(2) of the Policy relating to External Bodies Performing a Municipal Function of which budget allocation are delegated to the Grants Committee to make recommendations to Council, as approved by Council.

- EXECUTIVE SUMMARY**

In terms of Section 7(2) of the Policy relating to External Bodies Performing a Municipal Function of which budget allocation is delegated to the Grants Committee to make recommendations to Council, as approved by Council.

The following body submitted an additional application to perform the local tourism function for Council for the 2022 / 2023 financial year:

Applicant	2022 / 2023 Funding Approved by Council on 22 June 2022, in Rand Value	2022 / 2023 Total additional Funding Requested
Visit Stellenbosch	3 775 000.00	961 180.00
Dwarsrivier Tourism	<i>(Including funding for Dwarsrivier Tourism Region)</i>	<i>(3 775 000)</i>
Franschhoek Wine Valley Tourism Association	1 940 918.00	1 940 918.00
Total Funding Requested	5 715 918.00	6 677 098.00

Currently, Council allocated the above amount of R5 715 918 to the Local Tourism Organisations (LTO's) for the 2022/23 financial year.

The Directorate: Planning & Economic Development has however received a written application / request dated 23 November 2022, copy attached as **APPENDIX 1**, for additional funding as part of the Municipality's Adjustment Budget Process for the 2022/ 2023 financial year.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.11.2

RESOLVED (majority vote)

that an additional amount of R787 950.00 be allocated to Visit Stellenbosch for the 2022/2023 financial year for the additional projects.

13TH MEETING OF THE COUNCIL
OF STELLENBOSCH MUNICIPALITY

2023-04-26

11.11.3	ADOPTION OF THE NEW ANTI-FRAUD AND CORRUPTION PREVENTION PLAN 2023/24
---------	--

Collaborator No:

IDP KPA Ref No:

Good Governance

Meeting Date:

19 April 2023 & 26 April 2023

1. **SUBJECT: ADOPTION OF THE NEW ANTI-FRAUD AND CORRUPTION PREVENTION PLAN 2023/24**2. **PURPOSE**

To adopt the new Anti- Fraud and Corruption Prevention Plan 2023/24.

3. **DELEGATED AUTHORITY**

Council.

4. **EXECUTIVE SUMMARY**

Fraud, corruption, criminal activity, maladministration and/or negligence is an ever-present threat to public resources. Stellenbosch Municipality is committed to a process of ethical governance, fraud risk management and consequence management that is aligned to the principles of the Local Government: Municipal Finance Management Act 56 of 2003, Local Government Systems Act 32 of 2000 and other related legislative, regulatory and policy frameworks.

Stellenbosch Municipality subscribes to principles of good corporate governance underpinned by values of honesty, good ethics, and transparency. This Municipality is therefore committed to creating and nurturing a culture of zero tolerance toward unethical conduct, corruption, and fraud.

13TH CONCIL MEETING: 2023-04-26: ITEM 11.11.3**RESOLVED** (majority vote)

that Council adopts the new Anti-Fraud and Corruption Prevention Plan 2023/2024 which replaces the Anti-Fraud and Corruption Prevention Plan as approved by Council in 2018.

12.	CONSIDERATION OF ITEMS, REPORTS, COMMUNICATIONS, PETITIONS AND APPLICATIONS SUBMITTED VIA THE OFFICE OF THE MUNICIPAL MANAGER
12.1	MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC): [CLLR WF PIETERSEN]
12.1.1	CONSIDERATION OF EXPENDITURE INCURRED RELATING TO SERVICES RENDERED BY ACTOM POWER TRANSFORMERS: JAN MARAIS S/S TRANSFORMER UPGRADES: EXTENSION OF TRANSFORMER STORAGE

Collaborator No: 747955
 IDP KPA Ref No: Good Governance
 Meeting Date: 20 April 2023 & 26 April 2023

1. SUBJECT: CONSIDERATION OF EXPENDITURE INCURRED RELATING TO SERVICES RENDERED BY ACTOM POWER TRANSFORMERS: JAN MARAIS S/S TRANSFORMER UPGRADES: EXTENSION OF TRANSFORMER STORAGE

2. PURPOSE OF REPORT

To provide information regarding the expenditure incurred for investigation by MPAC and to be recommended to and consideration by Council to write-off the expenditure in terms of the MFMA Section 32 (2). The expenditure with regards to the procurement of services for the extension of transformer storage from October 2022 to 11 April 2023 by means of a deviation dated 22 November 2022, which is regarded as irregular because it breached the procurement process.

3. DELEGATED AUTHORITY

Council to write off the expenditure as irregular expenditure due to the breach of the procurement process. The said breach did not impact in any significant way on the essential fairness, equity, transparency, competitiveness, or cost effectiveness, for the payment Actom Power Transformers.

4. EXECUTIVE SUMMARY

Electrical services department initiated a tender process to procure two 20MVA Transformers for the replacement and upgrade of the transformers at Jan Marais Substation, Jonkershoek area. This was needed to increased power demands and system improvements. This was done under Bid B/SM 101/20, known as Package A in this document and the tender was awarded to Actom Power Transformers in Johannesburg for design and construction and three months free storage. The Transformers were constructed and completed in November 2021 and stored after completion of Factory Acceptance testing.

Three months storage at no cost was included in the B/SM 101/20 Bid. This storage period expired at the end of March 2022. An initial extension was estimated for a further 6 months. A variation process was initiated by Mr. L De Lange Manager: Operations and Maintenance to extend storage for the initial 6 months with the manufacturer which came to an end in September 2022. This variation was approved by BAC.

A deviation, **ANNEXURE A** was prepared by Mr. L De Lange Manager: Operations and Maintenance dated 22 November 2022. This deviation served at a BAC on 13 December 2022. Also find attached the outcome of that BAC, minutes of the BAC is attached, **ANNEXURE B**. The deviation was not approved by the BAC, as the transformers was already at storage from October 2022 and the deviation only reached the BAC in December 2022. The BAC indicated that the expenditure must be reported to MPAC as there was no approval in place and this cost is deemed to be irregular expenditure.

Whilst the Department was finalizing the administrative process the service to continue without an official order number.

As result of this irregular expenditure the Department will introduce various corrective measures such as consequence management, training of staff and Standard Operating Procedures (SOPs).

As result of this irregular expenditure the Department will introduce various corrective measures such as consequence management, training of staff and Standard Operating Procedures (SOPs).

13TH CONCIL MEETING: 2023-04-26: ITEM 12.1.1

RESOLVED (majority vote)

- (a) that Council takes note of the circumstances as provided in the report;
- (b) that Council certifies the irregular expenditure to the amount of R 693 277.50 (including VAT) as irrecoverable; and
- (c) that Council writes off the irregular expenditure as irrecoverable in terms of the MFMA Section 32(2).

13.	REPORTS BY THE MUNICIPAL MANAGER
-----	----------------------------------

13.1	FILLING OF VACANCY ON MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC) AND OVERSIGHT COMMITTEE
------	--

Collaborator No:

IDP KPA Ref No:

Meeting Date:

Good governance and Compliance

26 April 2023

1. SUBJECT: FILLING OF VACANCY ON MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC) AND OVERSIGHT COMMITTEE

2. PURPOSE OF REPORT

To inform Council of a vacancy on the Municipal Public Accounts Committee (MPAC) and Oversight Committee and to request that the vacancy be filled.

3. DELEGATED AUTHORITY

Council.

4. EXECUTIVE SUMMARY

On 10 December 2021, a Municipal Public Accounts Committee (MPAC) in accordance with Section 79 of the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998), and as per the "Guideline for Establishment of Municipal Public Accounts Committees" issued by the Department of Cooperative Governance (CoGTA) and National Treasury was established.

Council resolved to appoint 7 councillors to the Municipal Public Accounts Committee (MPAC): 4 DA (Cllr Crombie, Cllr Ferns, Cllr Kalipa and Cllr Olayi), 1 ANC (Cllr Mananga-Gugushe), 1 PDM (Cllr Pietersen, who was also appointed as Chairperson) and 1 ACDP (Cllr Jooste). Council also resolved to determine their secondi to serve on the Municipal Public Accounts Committee (MPAC). 4 DA, 1 ANC, 1 PDM and 1 ACPD.

A vacancy has occurred due to the untimely passing of Councillor Ansaaf Crombie on 7 March 2023, who served as a member of the Municipal Public Accounts Committee. This vacancy must now be filled by Council. In terms of the 10 December 2021 resolution the DA should nominate the person that should fill the vacancy.

13TH CONCIL MEETING: 2023-04-26: ITEM 13.1

RESOLVED (majority vote with 3 abstentions)

that Councillor Siegfried Schäfer be appointed to fill the vacancy of the MPAC and Oversight Committee.

13.2	ACTING ARRANGEMENTS FOR THE MUNICIPAL MANAGER AND SECTION 56 MANAGERS WHEN THE MUNICIPAL MANAGER AND SECTION 56 MANAGERS ARE NOT AVAILABLE
------	---

Collaborator No:

IDP KPA Ref No:

Good governance and Compliance

Meeting Date:

26 April 2023

1. ACTING ARRANGEMENTS FOR THE MUNICIPAL MANAGER AND SECTION 56 MANAGERS WHEN THE MUNICIPAL MANAGER AND SECTION 56 MANAGERS ARE NOT AVAILABLE

2. PURPOSE OF REPORT

To amend the approval of the Directors who will act as Municipal Manager when the Municipal Manager is not available.

To amend the approval of the acting Section 56 Managers who will act as section 56 managers (Directors) when the section 56 managers are not available.

The arrangements must from time-to-time be reviewed given that changes take place in the staff structure and the incumbents. This is a review of the approved arrangements from 1 April 2023 given that a new Senior Manager has been appointed in Financial Services.

3. DELEGATED AUTHORITY

Council

4. EXECUTIVE SUMMARY

Council approved the Directors to act as Municipal Manager when the Municipal Manager is not available on 24 August 2022. Council also approved the acting arrangements for section 56 Managers when they are not available on the same date. It is good practise to review these arrangements on a regular basis as circumstances change.

Section 54 (A) of the Systems, which has been subsequently declared unconstitutional, and Section 80 of the Structures act provide for the appointment of a Municipal Manager and acting Municipal Managers. Section 54A of the Municipal Systems Act provides that the Municipal Council must appoint an acting Municipal Manager under circumstances and for a period as prescribed. Section 54A(1)(b) provides that such an acting person must at least have the skills, expertise, competencies, and qualifications as prescribed.

It can be anticipated that there will be occasions when the Municipal Manager will be away from office or not available due to a variety of reasons. The payment of an acting allowance is dealt with in the Acting Policy approved by Council on 28 November 2018.

Council must appoint acting section 56 managers when the appointed Section 56 managers are not available. It is not practical to call a council meeting every time a person must act when a director is on leave, on sick leave or out of office. Council therefore appoints acting managers on a roster to fulfil the obligation as Section 56.

There have been several changes to these rosters approved in August 2022 and the acting arrangements are therefore indicated below.

13TH CONCIL MEETING: 2023-04-26: ITEM 13.2**RESOLVED** (nem con)

- (a) that the acting arrangements approved on 24 August 2022 be amended as follows:

The following Directors be appointed to act as Municipal Manager if the Municipal Manager is not available:

November – December : Financial Services (CFO)
 January - February : Corporate Services
 March - April : Infrastructure Services
 May -June : Planning and Economic Development
 July - August : Community and Protection Services
 September : Financial Services (CFO)
 October : Corporate Services

- (b) that the Director next on the rotation schedule acts when the relevant Director is not available as per the schedule.
- (c) that an acting allowance be paid in terms of the approved acting Policy if the Director acted for 10 consecutive days or longer; and
- (d) that the following Managers act as Acting Section 56 Managers for the periods indicated in the different Directorates respectively:

SECTION 56 POST	PERSON ACTING	POST OF ACTING INCUMBENT	ACTING PERIOD APPROVED
DIRECTOR: CORPORATE SERVICES: ANNALENE DE BEER			
	Alexander Kannemeyer	Senior Manager: Human Resources	January; May; July; September;
	Mervin Williams	Senior Manager: Legal Services	February March June December
	Regan Mooideen	Senior Manager: ICT	April August October November
DIRECTOR: INFRASTRUCTURE SERVICES: SHANE CHANDAKA			
	Myra Francis	Senior Manager: Development Services, Assets Management and Systems and Project Management Unit	December; January; June; July
	Nombulelo Zwane	Senior Manager: Electrical Services	February; March; August; September
	Johan Fullard	Senior Manager: Transport, Roads & Stormwater	April; May; October; November

-----	--

14.1	MOTION BY COUNCILLOR C NOBLE OF THE GOOD PARTY: MUNICIPAL MANAGER TO SUBMIT A REPORT ON THE PUBLIC PROTECTOR'S REPORT
------	---

A Notice of a Motion, dated 2023-04-04, was received from Councillor C Noble: The Municipal Manager to submit a report on the Public Protector's Report.

Ruling by the Speaker to follow.

13TH CONCIL MEETING: 2023-04-26: ITEM 14.1

Speaker drew Councillors' attention to the High Court Ruling on the Public Protector's Report which states that "*the report is unconstitutional, invalid and unlawful and is reviewed and set aside*".

The Speaker also referred to Item numbers LEG 15 – LEG 19 on page 208 and 209 of the Systems of Delegations indicating the Council approved delegations regarding who may institute or defend legal matters whereafter

the Speaker **RULED**

that this Motion be denied, based on the High Court Ruling on the Public Protector's Report.

8.1	ADOPTION OF THE 1ST REVIEW OF THE 5TH GENERATION INTEGRATED DEVELOPMENT PLAN (IDP) 2022 – 2027
-----	---

Collaborator No: 749389
 IDP KPA Ref No: Good Governance and Compliance
 Meeting Date: 17 May 2023 & 24 May 2023

1. SUBJECT: ADOPTION OF THE 1ST REVIEW OF THE 5TH GENERATION INTEGRATED DEVELOPMENT PLAN (IDP) 2022 – 2027

2. PURPOSE

To submit the following to the Council for adoption:

- (a) The 1st Review of the 5th Generation Integrated Development Plan (IDP) 2022 – 2017, attached as **ANNEXURE A**; and
- (b) The public participation input and comments, written submissions and the Provincial Government SIME Assessment Report on the Draft 1st Review of the 5th Generation IDP 2022 - 2027, attached as **ANNEXURE B**.

3. DELEGATED AUTHORITY

Council.

4. EXECUTIVE SUMMARY

In terms of Section 34(a)(i)(ii) of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), each municipal council must review its Integrated Development Plan annually in accordance with an assessment of its performance measurements in terms of Section 41 of MSA and to the extent the changing circumstances so demand. Therefore, taking into account the changing circumstances in the municipal environment, including the community's needs and priorities.

The 1st Review of the 5th Generation IDP 2022 – 2027 informs the municipality's budget and details the municipality's actions to address the vision, mission, strategic objectives, and needs of the community.

The municipal IDP must be reviewed annually to ensure that:

- municipalities and communities keep track of progress in implementing development projects and spending the municipal budget; and
- communities are provided with an opportunity to review their needs and make possible revisions to the priorities listed in the municipal IDP.

The IDP and Budget public participation period was open from Monday, 03 – 25 April 2023 (23 days), to allow members of the community and stakeholders sufficient time to provide written inputs and or comments on the Draft 1st Review of the 5th Generation IDP 2022 – 2027. Eight (8) area-based public participation meetings were held from Wednesday, 12 April to Tuesday, 18 April 2023 in the respective areas / wards. This was to allow community members to submit verbal inputs. A virtual stakeholder engagement was held on Thursday, 20 April 2023, attended by councillors, senior management, stakeholders, and role-players in the Stellenbosch Municipal area.

5. RECOMMENDATIONS

- (a) that the Stellenbosch Municipality's 1st Review of the 5th Generation IDP 2022 – 2027, attached as **ANNEXURE A**, be adopted;
- (b) that the public participation inputs and written submissions on the Draft 1st Review of the 5th Generation IDP 2022 – 2027, attached as **ANNEXURE B**, be noted; and
- (c) that an advertisement be placed on the official website of the municipality and in the local newspaper notifying the public that the 1st Review of the 5th Generation IDP 2022 – 2027 has been adopted by the Council.

6. DISCUSSION**6.1 Background**

In terms of the provisions of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), each council must review its Integrated Development Plan in accordance with an assessment of its performance measurements in terms of Section 41 of the MSA and to the extent the changing circumstances so demand.

The key dates for the IDP review process form part of the integrated SDF / IDP / Budget Time Schedule approved by the Council in August 2022 to guide the planning and development of the 1st Review of the 5th Generation IDP 2022 – 2027.

The following processes were followed in accordance with the Time Schedule:

Date	Action(s)
July / August 2022	- Approval of the Spatial Development Framework (SDF) / Integrated Development Plan (IDP) / Budget Time Schedule / Process Plan for 2023/24.
September – November 2022	<ul style="list-style-type: none"> - The IDP public participation period was from 07 – 28 September 2022. - The hybrid public participation meetings were held from 19 – 22 September 2022. - The online stakeholder engagement was held on 27 September 2022. - An electronic written submission form was created on the municipal website for the community and stakeholders to provide input into the 1st Review of the 5th Generation IDP 2022 – 2027. This website link (URL) was shared via Facebook, Twitter, WhatsApp and the Stellenbosch Citizen App. - Hard copies of the submission form were also made available at all libraries and ward offices. - An all-ward councillor session was held on 7 October 2022, for the reprioritisation of ward priorities for the 2023/24 financial year taking into account the community inputs as baseline information for the reprioritisation of ward priorities.
December 2022 – February 2023	<ul style="list-style-type: none"> - Departmental sessions were held to review the IDP deliverables and targets set for the period 2022 – 2027. - An Indaba 2 Engagement was attended on 7 February 2023 to provide the opportunity to the municipality to engage Western Cape Government (WCG) departments on planning priorities, service delivery challenges and WCG-planned projects / programmes. - Management held a strategic session on 15 – 16 February 2023 to consider the external and internal analysis and strategies around the 5-year development priorities and operational strategies (programmes / projects / activities and actions).

Date	Action(s)
March – May 2023	<ul style="list-style-type: none"> - MayCo and Council considered the Draft 1st Review of the 5th Generation IDP 2022 – 2027 for the purpose of obtaining public input and comments. - The IDP and Budget public participation period has commenced on Monday, 3 April – Tuesday, 25 April 2023. - A virtual Stakeholder Engagement was held on 20 April 2023 to provide feedback on major projects / programmes/ initiatives. - The closing date for the IDP and Budget submission was 25 April 2023. - Consultation and refinement of SDF, IDP and Budget documents. - Adoption of final IDP, Budget, Tariffs and budget-related policies. - Submission of the adopted IDP to the Provincial Government and other role-players.

6.2 Financial Implications

The IDP and the Budget have been aligned, taking into account ward priorities and public needs identified through the public participation engagements outlined above.

6.3 Legal Implications

The recommendations in this report comply with Council's policies and all applicable legislation.

Section 25(1):

The municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality which—

- links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality;
- aligns the resources and capacity of the municipality with the implementation of the plan;
- forms the policy framework and general basis on which annual budgets must be based;
- complies with the provisions of this Chapter; and
- is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

Section 26:

An integrated development plan must reflect -

- the municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
- an assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- the council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;

-
- (d) the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
 - (e) a spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality;
 - (f) the council's operational strategies;
 - (g) applicable disaster management plans;
 - (h) a financial plan, which must include a budget projection for at least the next three years; and
 - (i) the key performance indicators and performance targets determined in terms of section 41.

Section 34:**“Annual review and amendment of the integrated development plan**

A municipal council-

- (a) must review its integrated development plan-
 - (i) annually in accordance with an assessment of its performance measurements in terms of Section 41; and
 - (ii) to the extent that changing circumstances so demand; and
- (a) may amend its integrated development plan in accordance with a prescribed process.”

Section 35(1):

An integrated development plan adopted by the council of a municipality—

- (a) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development, in the municipality;
- (b) binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's integrated development plan and national or provincial legislation, in which case such legislation prevails; and
- (c) binds all other persons to the extent that those parts of the integrated development plan that impose duties or affect the rights of those persons have been passed as a by-law.

Section 36:

A municipality must give effect to its integrated development plan and conduct its affairs in a manner that is consistent with its integrated development plan.

The 2nd Review of the 5th Generation IDP 2022 – 2027 will be compiled during the 2023/24 financial year.

6.4 Staff Implications

This report has no additional staff implications for the Municipality.

6.5 Risk Implication

This report has no direct risk implications for the Municipality.

6.6 Previous/Relevant Council Resolutions

- Item 8.2 of the 5th Council Meeting held on 25 May 2022. “*Adoption of the 5th Generation Integrated Development Plan (IDP) 2022 - 2027*”; and
- Item 8.2 of the 12th Council Meeting held on 29 March 2023. “*Approval of the Draft 1st Review of the 5th Generation IDP 2022 - 2027*”.

2.3 Stellenbosch Municipality at a Glance.....	28
2.4 Socio – Economic Context	29
2.4.1 Population Growth	29
2.4.2 Sex Ratio	29
2.4.3 Age Cohorts	30
2.4.4 Household Size	30
2.4.5 Population Density	31
2.5 Education	31
2.5.1 Learner enrolment, the learner-teacher ratio and learner retention rate	31
2.5.2 Number of schools and no-fee schools.....	33
2.5.3 Schools with libraries / media centres	33
2.5.4 Education outcomes (matric pass rate)	33
2.6 Health	34
2.6.1 Health Facilities	34

2.6.2	Emergency Medical Services	34
2.6.3	HIV / AIDS and Tuberculosis	35
2.6.4	Child Health.....	35
2.6.5	Maternal Health	36
2.6.6	Emergency Medical Services	36
2.7	Poverty.....	36
2.7.1	GDPR Per Capita	36
2.7.2	Income Inequality.....	37
2.7.3	Poverty Line	38
2.8	Basic Service Delivery.....	38
2.8.1	Housing and household services.....	38
2.8.2	Free Basic Services.....	39
2.9	Safety and Security	41
2.9.1	Murder.....	41
2.9.2	Sexual Offences.....	41
2.9.3	Drug-Related Offences	42
2.9.4	Driving under the influence (DUI).....	42
2.9.5	Residential Burglaries.....	43
2.10	Economy and Labour Market Performance	43
2.10.1	Sectoral Overview	43
2.10.2	Formal and Informal Employment.....	44
2.10.3	Unemployment	45
CHAPTER 3: Strategic Policy Context.....		46
3.1	Municipal Vision and Strategy	46
3.2	Strategic Focus Areas (SFAs)	47
3.2.1	Strategic Focus Area 1: Valley of Possibility	47
3.2.2	Strategic Focus Area 2: Green and Sustainable Valley.....	48
3.2.3	Strategic Focus Area 3: Safe Valley.....	48
3.2.4	Strategic Focus Area 4: Dignified Living	48
3.2.5	Strategic Focus Area 5: Good Governance and Compliance.....	48
3.3	Strategic Objectives and Predetermined Objectives	50
3.4	Core Principles in Executing Strategy	51
3.4.1	Alignment with institutional structures and processes.....	51
3.4.2	The tools of governance	52
3.5	Global Policy Direction	52
3.5.1	Sustainable Development Goals (SDGs).....	53
3.6	National Policy Direction	53
3.6.1	National Development Plan (NDP) – 2030	54
3.6.2	Medium-Term Strategic Framework 2019 – 2024 (MTSF)	55
3.6.3	National District Development Model and One Plan	56
3.6.4	Integrated Urban Development Framework (IUDF)	57
3.7	Provincial Policy Direction	58
3.7.1	The Western Cape Government Provincial Strategic Plan 2019 – 2024.....	58

3.8	The Cape Winelands District Municipality (CWDM) Strategic Focus	58
3.9	Local Policy Direction.....	59
3.9.1	Stellenbosch Municipality	59
3.10	Municipal Manager: Five-Year Plan.....	61
CHAPTER 4: Spatial Development Framework		65
4.1	The Purpose of the Spatial Development Framework	65
4.2	The relationship between the IDP and SDF.....	65
4.3	The Legislative Framework of Municipal SDFs.....	66
4.4	Stellenbosch Municipality's work on its SDF	68
4.5	The Spatial Challenges and Opportunities identified in the SDF	68
4.6	The Spatial Proposals of the SDF	70
4.6.1	Spatial development 20 -year vision statement.....	70
4.6.2	Strategic Focus and Spatial Alignment between the IDP and SDF.....	70
4.6.3	Spatial Proposals and Structuring elements of the SDF.....	71
4.7	SDF and CEF Implementation Frameworks.....	73
4.7.1	Settlement hierarchy, priority development areas and themes.....	74
4.7.2	Policy Framework.....	76
4.8	Catalytic Initiatives - Adam Tas Corridor (ATC) Local Areas Spatial Development Framework, Development Guidelines (October 2022) and overlay zone	81
4.8.1	Development of Klapmuts.....	84
4.8.2	Alternative rail service along the Baden Powell Drive-Adam Tas-R304 corridor	87
4.9	Institutional Arrangements.....	87
4.9.1	Inter-municipal planning	88
4.9.2	Private Sector Joint Planning	88
4.9.3	Further Planning Work.....	89
4.9.4	Other local planning initiatives.....	89
4.9.5	Checklists in Support of Decision-Making.....	89
4.9.6	Partnerships	89
CHAPTER 5: Performance Summary of the 5th Generation IDP 2022 - 2027		91
5.1	Introduction.....	91
5.2	IDP Performance Reporting: Municipal Manager IDP Priorities for 2022/23	91
5.3	IDP Performance Reporting: Executive Mayor Priorities for 2022/23	92
5.4	IDP Performance Reporting: Mayoral Portfolios for 2022/23	93
5.5	IDP Performance Reporting: Sector Plans Implementation for 2022/23	94
CHAPTER 6: One Plan: Service Delivery, budget, programmes and projects.....		96
6.1	Introduction.....	96
6.2	Relationship between the One Plan and Integrated Development Plan (IDP)	96
6.3	National and Provincial Government Priorities.....	97
6.3.1	State of the Nation Address (SONA) 2023.....	97
6.3.2	State of the Province Address (SOPA) 2023.....	98
6.4	Status Quo on Public Infrastructure Spend	99
6.4.1	Social Infrastructure	99
6.4.2	Economic Infrastructure	100
6.4.3	Trading Services	100

6.5	Intergovernmental Budgetary Allocation	102
6.6	Cape Winelands District (CWD) JDMA Implementation Plan.....	107
6.6.1	The Municipal Energy Resilience Project and Small-Scale Embedded Generations	108
6.6.2	Cape Winelands District Joint District Approach	109
6.7	Agricultural Interventions.....	111
6.8	Stellenbosch Municipality Operational Support Plan	111
6.9	Gender Mainstreaming.....	113
6.9.1	Gender Interventions.....	113
6.9.2	Gender Disaggregated Matrix.....	115
CHAPTER 7: Sector Plans and Implementation.....		118
7.1	Introduction.....	118
7.2	The relationship between the Sector Plans and Strategies.....	119
7.3	Sector Plans and Implementation Strategies	121
7.3.1	Air Quality Management Plan.....	121
7.3.2	Environmental Management Plan.....	122
7.3.3	Integrated Human Settlement Plan.....	126
7.3.4	Comprehensive Integrated Transport Plan	139
7.3.5	Electrical Master Plan	148
7.3.6	Water Services Development Plan	149
7.3.7	Long-Term Water Conservation and Water Demand Management Strategy	160
7.3.8	Safety and Security Strategy	164
7.3.9	Disaster Management Plan	168
7.3.10	Local Economic Development Strategy.....	174
7.3.11	Community Development Strategy.....	180
7.3.12	Human Resource Strategy	184
7.3.13	ICT Strategy	185
CHAPTER 8: Council Term Projects 2022 – 2027		189
8.1	Smart City	189
8.1.1	Guiding principles to create inclusive smart cities	189
8.1.2	A smart city as a holistic ecosystem	189
8.1.3	The nature and purpose of a proposed smart city initiative	190
8.2	Political Leadership: Five-Year Plans	191
8.2.1	Executive Mayor	191
8.3	Mayoral Portfolios.....	214
8.3.1	Portfolio: Human Settlements	215
8.3.2	Portfolio: Rural Management	221
8.3.3	Portfolio: Youth, Sport and Culture.....	223
8.3.4	Portfolio: Planning	226
8.3.5	Portfolio: Local Economic Development and Tourism.....	232
8.3.6	Portfolio: Financial Services.....	236
8.3.7	Portfolio: Protection Services	238
8.3.8	Portfolio: Corporate Services	241
8.3.9	Portfolio: Infrastructure Services.....	243

8.3.10	Portfolio: Community Development (Parks, Open Spaces and Environment)	247
CHAPTER 9: Public Interest and Expression of Needs		249
9.1	Community Participation	249
9.2	Public Participation in the drafting of 1 st Review of the 5 th Generation IDP 2022 – 2027	250
9.3	Public Participation Statistics: September 2022 and April 2023	253
9.4	Summary of Needs and Priorities	254
9.5	Ward Priorities	257
9.5.1	Ward Priorities: Ward 1	257
9.5.2	Ward Priorities: Ward 2	266
9.5.3	Ward Priorities: Ward 3	269
9.5.4	Ward Priorities: Ward 4	271
9.5.5	Ward Priorities: Ward 5	277
9.5.6	Ward Priorities: Ward 6	282
9.5.7	Ward Priorities: Ward 7	290
9.5.8	Ward Priorities: Ward 8	304
9.5.9	Ward Priorities: Ward 9	308
9.5.10	Ward Priorities: Ward 10	312
9.5.11	Ward Priorities: Ward 11	316
9.5.12	Ward Priorities: Ward 12	324
9.5.13	Ward Priorities: Ward 13	329
9.5.14	Ward Priorities: Ward 14	333
9.5.15	Ward Priorities: Ward 15	335
9.5.16	Ward Priorities: Ward 16	338
9.5.17	Ward Priorities: Ward 17	343
9.5.18	Ward Priorities: Ward 18	346
9.5.19	Ward Priorities: Ward 19	351
9.5.20	Ward Priorities: Ward 20	357
9.5.21	Ward Priorities: Ward 21	364
9.5.22	Ward Priorities: Ward 22	367
9.5.23	Ward Priorities: Ward 23	371
CHAPTER 10: Financial Plan		376
10.1	Introduction	376
10.2	Capital and Operating Budget Estimates	376
10.2.1	Budget Assumptions	376
10.2.2	Operating Budget Estimates	376
10.3	Financial Management Arrangements	378
10.4	Financial Strategies and Programmes	379
10.5	Medium – Term Capital Expenditure per Strategic Focus Area	380
10.6	Medium – Term Operational Expenditure	381
10.7	Medium – Term Operational Revenue per Strategic Focus Area	381
10.8	Capital Budget 2023/24 – 2025/26 per Directorate	382
10.8.1	Capital Budget 2023/24 – 2025/26: Office of the Municipal Manager	382
10.8.2	Capital Budget 2023/24 – 2025/26- Directorate: Planning and Economic Development	382

10.8.3	Capital Budget 2023/24 – 2025/26- Directorate: Community and Protection Services	383
10.8.4	Capital Budget 2023/24 – 2025/26- Directorate: Corporate Services	387
10.8.5	Capital Budget 2023/24 – 2025/26- Directorate: Infrastructure Services.....	388
10.8.6	Capital Budget 2023/24 – 2025/26- Directorate: Financial Services.....	397
10.9	National and Provincial Investment	398
CHAPTER 11: Organisational Scorecard (5 – years)		400
11.1	Five-Year Top-Level Service Delivery and Budget Implementation Plan (SDBIP)	400
11.2	SFA 1 – Valley of Possibility	401
11.3	SFA 2 – Green and Sustainable Valley	404
11.4	SFA 3 – Safe Valley.....	408
11.5	SFA 4 – Dignified Living	409
11.6	SFA 5 – Good Governance and Compliance.....	413
CHAPTER 12: Implementation, Monitoring and Review (1-year)		419
12.1	SFA 1 – Valley of Possibility	420
12.2	SFA 2 – Green and Sustainable Valley	422
12.3	SFA 3 – Safe Valley.....	424
12.4	SFA 4 – Dignified Living	425
12.5	SFA 5 – Good Governance and Compliance.....	428

Integrated Development Plan for 2022 – 2027

Compiled in terms of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)

The Integrated Development Plan is the municipality's principal five-year strategic plan that deals with the most critical development needs of the municipal area (external focus) and the organisation's most critical governance needs (internal focus).

The Integrated Development Plan –

- ✦ is adopted by the council within one year after a municipal election and remains in force for the council's elected term (five years);
- ✦ is drafted and reviewed annually in consultation with the local community as well as interested organs of state and other role players;
- ✦ guides and informs all planning and development, and all decisions concerning planning, management and development;
- ✦ forms the framework and basis for the municipality's medium-term expenditure framework, annual budgets and performance management system; and
- ✦ seeks to promote integration by balancing the economic, ecological and social pillars of sustainability without compromising the institutional capacity required in the implementation, and by coordinating actions across sectors and spheres of government.

STRATEGIC OVERVIEW

Vision, Mission and Values

Foreword by the Executive Mayor

Cllr Adv Gesie van Deventer
Executive Mayor

This 1st review of the 5th Generation Integrated Development Plan (IDP) covers the Stellenbosch Municipality's plans for the new five-year term and an evaluation of where we are at and what still needs to be done. The past few years have seen the municipality achieve and, in many instances, exceed its goals and targets, overcoming many challenges in the process.

Our strategy is to implement practical solutions, deliver excellent services to all our residents, focus on economic and social development, and further strengthen our track record of good governance practices and sound financial management.

For me, this IDP is personal. It is not just a document. It is not just a report. It goes to the heart of what the Stellenbosch Council and the municipality is planning, doing, and achieving. It describes in detail what we as a government are planning and

practically implementing to ensure that we create a clean, safe, and stable environment that attracts investment and jobs, stimulates economic growth, and lifts people out of poverty.

Local government remains the closest government body to our residents and communities, and as councillors, we were elected to serve the needs of our various communities or the so-called 14 "dorpies". For me, it is vitally important that we aim to serve all our communities from all of these "dorpies" equitably and sustainably.

The importance of public participation in the IDP and Budget processes cannot be overstated. We are fortunate in Stellenbosch that our residents have used this platform to engage the municipality on their relevant needs and priorities. This greatly assists the municipality in planning accordingly and ensuring sustainable growth throughout the municipal area (WC024).

It further allows us, as a municipality, to continuously plan ahead, work diligently, and deliver the services we are responsible for. The IDP creates the framework for the municipality to fulfil its mandate and apply its budget.

Here are some of the IDP deliverables planned and linked to my Mayoral Outcomes for the 2023/24 financial year:

- ✚ The payment of 90% of SMMEs invoices within 14 days after receipt of an invoice;
- ✚ The installation of standpipes in informal settlements and the construction of ablution facilities;
- ✚ The review of the Economic Development Strategy;
- ✚ The Review the Tourism Development Policy;
- ✚ Review the Municipal Agricultural Land Policy ;
- ✚ The further allocation of two municipal agricultural land units to emerging farmers per financial year;
- ✚ To obtain development rights on Erf 7001, Cloetesville to establish GAP housing;
- ✚ Finalisation of the sub-division plans for Jamestown (Phases 2 and 3);
- ✚ Obtain development rights for mixed-use development for Jamestown Phase 4;
- ✚ To obtain development rights for Kayamandi Town Centre upgrades;
- ✚ To obtain development rights for township establishment for Erf 64, Kylemore and spend 90% of the allocated annual capital budget;
- ✚ Transferring approximately 300 title deeds to approved beneficiaries;

- ⬇ Review the Integrated Zoning Scheme By-Law;
- ⬇ Development of 2 out of 10 Local Spatial Development Frameworks out of the 10 small towns for the 2023/24 financial year;
- ⬇ Conduct Transport Studies for the Adam Tas Corridor (ATC);
- ⬇ Facilitation of 23 ward-based community safety engagements;
- ⬇ Spending of the annual allocated Capital Budget on CCTV cameras and equipment for the Traffic and Law Enforcement Departments;
- ⬇ Spend 90% of the Registered Neighbourhood Watches' annual budget
- ⬇ Establish a new cell at the Stellenbosch Landfill Site.

Of course, there are many other key priorities identified for this term. These include, as always, ensuring an efficient and effective local government service that is accountable and responsive. We have a zero-tolerance approach to corruption and have proven over and over that we will always act when the need arises.

Running a clean and transparent government where we ensure that every cent of public funds is spent on improving services, maintenance, upgrades, and development is also non-negotiable.

We are making good progress on our plans to co-generate electricity to protect our communities from the terrible effects of load shedding. Solar panels have been put up on city property, a record number of private small-scale embedded generation (SSEG) applications are received and approved weekly, and our scientific feasibility study will soon be presented to the Council. This co-generating plan will be open for public participation, and I encourage all stakeholders to provide input.

The burning issue of housing for our residents in all categories remains of utmost importance. All categories, from rental stock to BNG and GAP housing to upgrades of informal settlements and mixed-use developments, continue to receive attention. Although housing is not a municipal competency and we rely on the budget provided to us by the national and provincial governments, we will continue to provide as many housing opportunities as possible with limited resources.

I want to thank the Deputy Mayor, Councillor Jeremy Fasser; the members of my Mayoral Committee; all our Councillors; and the Municipal Manager and Administration, who have drafted this updated roadmap for the future. We are, as always, committed to sticking to this roadmap in realising our vision of becoming a Valley of Opportunity and Innovation for all who live here.

We remain committed to doing everything we can to create opportunities for all our residents, and this document is a meaningful symbol of that.

CLLR ADV GESIE VAN DEVENTER
EXECUTIVE MAYOR

Overview by the Municipal Manager

Geraldine Mettler
Municipal Manager

As a local government, I am proud that the Stellenbosch Municipality has continued delivering basic services despite immense pressure and uncertainty. We have shown that we can adapt and respond to new realities in an ever-changing, dynamic world. We have learned valuable lessons that will serve us well in the future. We have proven to be a resilient organisation and a capable local government that can deliver on our mandate even under the most trying circumstances.

This plan provides a focussed set of objectives to ensure that public funds are channelled to the programmes and projects that deliver the most benefit for the public as equitably as possible. For this reason, the inputs we receive from our communities form the backbone of the entire IDP and budgeting processes; as such, new and innovative ways of communicating with our residents are always needed.

Residents have many ways to talk to us about the IDP and what is important to them in their ward. The Stellenbosch Citizen App, interactive pages on our municipal website, emails, a dedicated WhatsApp line, social media platforms, and traditional written submissions became important tools to engage with communities. These tools, together with community meetings across the entire municipal area, provided residents with ample opportunity to be part of the IDP and Budget processes.

The IDP is our roadmap for where we are and where we want to be. It helps us to evaluate community needs, identify ward priorities, and recommit to our strategic objectives. The IDP in turn informs the municipal budget. If we can't identify a need and provide a practical plan to address it, we simply cannot budget for it. It is therefore critical for us to reach as many residents as possible. We are serious when we say we want people to be part of the decision-making process by having their say! The projects, programmes, and initiatives outlined in this document will be executed with effective performance management and dedicated leadership.

There are various key priorities that I have highlighted for the Administration to focus on as part of the 5th Generation IDP. These include:

- ✚ E-governance (SMART CITY);
- ✚ Bulk infrastructure upgrades to ensure sufficient bulk capacity, critically important for economic development;
- ✚ Critical road infrastructure upgrades from a safety and development point of view;
- ✚ Clean, green electricity generation to ensure economic sustainability;
- ✚ Financial viability and sustainability through long-term financial planning and prudent financial management;
- ✚ A zero-tolerance approach to corruption;
- ✚ Focus on social and gap housing to help backyarders and to give as many people as possible the chance to live in a dignified way;
- ✚ Finalising the Inclusionary Housing Policy to enable developers to assist with housing provision, especially in the gap market;
- ✚ Continuing with wealth creation through our title deed programme;
- ✚ The Adam Tas Corridor development - an excellent private-public partnership for sustainable urban development and inclusive growth;

- 📌 Improvements to business processes in our Planning Department;
- 📌 Establishment of a land invasion unit; and
- 📌 Continuing to improve a safer environment, through adding to our existing cameras and surveillance networks as well as supporting and creating more neighbourhood watches.

What we have achieved in the municipality is because of our commitment to working together, good governance practices, transparency, and organisational stability. The fiscal discipline, operational restraint, and sound corporate governance have positioned the municipality to be able to resiliently weather any storm.

Our ability to partner effectively with industry, investors, residents, and community organisations continues to strengthen. I thank all our partners and stakeholders for the role they have played in recent times. I know that the opportunities for stronger partnerships and more collaboration during the period of implementation of this new IDP will grow.

I want to thank our Executive Mayor, Mayoral Committee, Councillors, and my Directors for guiding this ship and for their immense contributions to making our administration work better for all residents of our municipal area.

Together with the residents and stakeholders of the Stellenbosch Municipality, we can make our towns a place of excellence and opportunity for all.

GERALDINE METTLER
MUNICIPAL MANAGER

CHAPTER 1:

Governance and Institutional Arrangements

1.1 Integrated Development Planning

The Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) mandates South African municipalities to formulate a five-year Integrated Development Plan (IDP) to inform the municipal budget and guide all development within the municipal area. The IDP is considered the municipality's principal strategic plan that deals with the most critical development needs of the municipal area as well as the most critical governance needs of the organisation.

As the principal planning instrument that guides and informs the municipal budget, the planning process has to provide a forum for identifying, unpacking and resolving the real issues that face the residents of Stellenbosch Municipality. Identifying these issues in consultation with communities makes it possible for the municipality to propose realistic and workable solutions that can be budgeted for, implemented and monitored in a controlled environment. These issues may be over-arching issues that affect the whole municipality or may only affect specific communities. It is therefore crucially important that the IDP be developed after the completion of a public participation process in which community stakeholders were thoroughly consulted. The plan is also developed in partnership with the provincial and national governments as well as the district municipality.

At the heart of the IDP lies the improvement in the provision of basic municipal services and expanding livelihood opportunities for the people of the Stellenbosch Municipality. The IDP also focuses on expanding and transforming municipal capacity, enterprise development and crucially, exploring new ways of working and living together. This is especially relevant in an ever-changing environment.

1.2 Compilation and Legal Status of the 5th Generation IDP 2022 – 2027

SECTION 35(1) OF THE MSA

An IDP is adopted by the council of a municipality:

- (a) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development, in the municipality;
- (b) binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's integrated development plan and national or provincial legislation, in which case such legislation prevails; and
- (c) binds all other persons to the extent that those parts of the integrated development plan that impose duties or affect the rights of those persons have been passed as a by-law.

CHAPTER 5 AND SECTION 26 OF THE MSA

Core components of IDPs: An integrated development plan must reflect-

- (a) The municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
- (b) An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- (c) The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;
- (d) The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- (e) A spatial development framework which must include the provision of basic guidelines for a land-use management system for the municipality;
- (f) The council's operational strategies;
- (g) Applicable disaster management plans;
- (h) A financial plan, which must include a budget projection for at least the next three years; and
- (i) The key performance indicators and performance targets determined in terms of section 41.

The IDP is informed by a leadership agenda – as contained in national and provincial policy documents – as well as the needs of local citizens and public, private and community organisations. It directs and is informed by different aspects of the municipality's work, including how the municipality is structured politically and administratively, the municipal budget, the sector plans and service delivery and budget implementation plans of different municipal services, and how the municipality manages its performance.

The 1st Review of the 5th Generation IDP 2022 – 2027 outlines the following chapters:

- Chapter 1: Governance and Institutional Arrangements;
- Chapter 2: State of the Greater Stellenbosch Area;
- Chapter 3: The Strategic Policy Context;
- Chapter 4: Spatial Development Framework;
- Chapter 5: Performance Summary of the 5th Generation IDP 2022 – 2027;
- Chapter 6: One Plan: Service Delivery, Budget, Programme and Projects;
- Chapter 7: Sector Planning and Implementation;
- Chapter 8: Council Term Projects 2022 – 2027;
- Chapter 9: Public Interest and Expression of Needs (Community Participation);
- Chapter 10: Financial Plan;
- Chapter 11: Organisational Scorecard (5 Years); and
- Chapter 12: Implementation, Monitoring and Review (1- year).

1.3 Relationship between the IDP, Budget, Performance Management and Risk Management

The IDP Process, together with the performance management process, should be seamlessly integrated, where the IDP ensures that the planning stage for performance management occurs and performance management fulfils the implementation, monitoring and evaluation of the IDP process. This is prescribed according to the Performance Management Guide for Municipalities, DPLG, 2001.

The role of the Budget is to attach money to the objectives that are contained in the IDP and the Budget gets monitored through the Service Delivery Budget Implementation Plan (SDBIP). The IDP, therefore, provides the strategic direction for the municipality, whereas the Budget should ensure the implementation of the IDP.

Risk Management is one of management's core responsibilities according to section 62 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) and is an integral part of the internal processes of a municipality. It is a systematic process to identify, evaluate and address risks continuously before such risks can impact negatively the service delivery capacity of the Stellenbosch Municipality. Risk management provides reasonable assurance that the institution will be successful in achieving its goals and objectives.

1.4 Relationship between the IDP and One Plan

The One Plan does not replace the Integrated Development Plan (IDP) of the municipality as the "single, inclusive and strategic plan for the development of the municipality". It is envisaged that the One Plan will strengthen and enhance the IDP and other plans of the municipalities. It is foreseen to provide greater certainty and direction for the IDP. During the development of the One Plan, the IDP informed the One Plan. However, after approval of the One Plan, the IDP will be directed by the strategies and priorities outlined in the One Plan. In this regard, the IDP will be the vehicle through which implementation of the One Plan will happen at the local government level.

Figure 1: Relationship between One Plan and IDP

1.5 The IDP and Ward Plans

The **twenty - three (23)** ward plans include:

- ✚ A consensus on priorities for the relevant ward(s);
- ✚ An implementation plan; and
- ✚ The capital budget is available for the relevant wards, including the small capital budget.

Ward plans help make sure that the IDP is more targeted and relevant to the needs of all groups, including the most vulnerable. These plans give ward committees a way to plan and carry out their roles and responsibilities in a systematic way. They are the basis for conversations between the municipality and ward committees about setting priorities and making budget requests. Ward committees will also use them to keep track of and evaluate progress throughout the year. The information is, however, on a detailed level and is not duplicated in the IDP, but a detailed ward plan is available on request.

1.6 The IDP Planning Process (five-year cycle)

According to the MSA, every new council that comes into office after the local government elections have to prepare an IDP that will guide them for the five years that they are in office. The IDP is, therefore, linked to the five-year term of office of councillors. This does, however, not restrict all proposals in the IDP to five years. The strategic goals that are part of the municipality's strategy all have a longer than the five-year horizon, similar to the Spatial Development Framework (SDF) of the municipality.

A clear distinction must also be made between the main IDP, which is compiled every five years (or if a new council comes into power within the five-year period and does not accept the previous council's IDP), and the annual review of the IDP. The annual review is not a replacement for the five-year IDP, and its purpose is not to interfere with the long-term strategic orientation of the municipality. The annual review reflects and progress reports made concerning the five-year strategy (and strategic goals) and proposes adjustments to the strategy, if necessary, because of changing internal and external circumstances that impact the appropriateness of the IDP.

Figure 2: Five-Year IDP Development and review cycle

1.7 Review of the Integrated Development Plan

Section 34 of the MSA prescribes that a municipality -

- a) must review its integrated development plan –
 - (i) annually following an assessment of its performance measurement in terms of section 41; and
 - (ii) to the extent that changing circumstances so demand;

The review process serves as an institutional monitoring process where stakeholders can meet to discuss the successes and progress of the previous financial year. It is not designed to interfere with the long-term strategic objectives of the municipality. The review process is a strategic process to ensure the institution remains in touch with its intentions, informed of the varying needs of residents and up to date with the changing environment within which it functions.

The Stellenbosch Municipality, in collaboration with all relevant stakeholders and following the completion of the IDP public participation engagements during September 2022, must now review its IDP.

This is the first review to occur since the adoption of the 5th Generation IDP 2022 – 2027 in May 2022.

Importantly, this review does not seek to replace or rewrite the IDP that was adopted by the Council on 25 May 2022. The purpose of this review, as instructed by the MSA, is to examine the progress made on the implementation of the IDP and assess the municipality's strategic objectives and targets as set out in the IDP.

The priorities and key performance deliverables identified in this review of the IDP will seek to better inform the municipality's budget, and sector plans and streamline service delivery initiatives. This will ensure that the Stellenbosch Municipality remains on course to attain its strategic objectives.

1.8 Roles and Responsibilities

Section 53 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) stipulates inter alia that the respective roles and areas of responsibility of each political structure and political office bearer of the municipality and the Municipal Manager must be defined.

Figure 3: Roles and Responsibilities

1.9 Municipal Council

The Council performs both legislative and executive functions. It focuses on legislative, oversight, and participatory roles and has delegated its executive function to the Executive Mayor and the Mayoral Committee. Its primary role is to debate issues publicly as well as facilitate political debates and discussions. Apart from their functions as policymakers, councillors are also actively involved with community work and in the various social programmes in the municipal area.

Stellenbosch Municipality is represented by 45 councillors, of whom 23 were elected directly as ward councillors. The rest of the councillors were elected based on the proportion of votes cast for the different political parties. The political composition of the Council is as follows:

Table 1: Council Political Representation

Political Party	Number of Councillors
Democratic Alliance (DA)	28
African National Congress (ANC)	8
GOOD	3
Economic Freedom Fighters (EFF)	2
African Christian Democratic Party (ACDP)	1
People's Democratic Movement (PDM)	1
Patriotic Alliance (PA)	1
Vryheidsfront Plus (VF)	1
Total	45

Below is a table that categorises the councillors within their respective political parties and wards.

Table 2: Ward Councillors and Proportional Councillors

No.	Name of Councillor	Capacity	Political Party	Ward Councillor and Proportional (PR)

1.9.1 Executive Mayor and Mayoral Committee (MayCo)

The Executive Mayor of the municipality, assisted by the Mayoral Committee, heads the political executive arm of the municipality. The Executive Mayor is at the centre of the system of governance since executive powers are vested in the executive mayor to oversee the day-to-day affairs. This encompasses an overarching strategic and political responsibility. The key element of the executive model is that executive power is vested in the Executive Mayor, in addition to delegated powers assigned by the Council. Although accountable for the strategic direction and performance of the municipality, the Executive Mayor operates in consultation with the Mayoral Committee.

Table 3: Executive Mayor and Mayoral Committee (MayCo)

Name of member	Portfolio
Alderman G van Deventer	Executive Mayor
Cllr J Fasser	Deputy Executive Mayor, including Integrated Human Settlements
Cllr P Johnson	MayCo member: Financial Services
Cllr Z Dalling	MayCo member: Infrastructure Services
Vacant	MayCo member: Protection Services
Cllr L Nkamisa	MayCo member: Corporate Services
Cllr R Adams	MayCo member: Youth, Sport and Culture
Cllr J Williams	MayCo member: Rural Management
Cllr R du Toit	MayCo member: Local Economic Development and Tourism
Cllr J Joon	MayCo member: Community Development (Parks, Open Spaces and Environment)
Cllr C van Wyk	MayCo member: Planning

1.9.2 The Administration

The Municipal Manager is the Chief Accounting Officer of the municipality. The Municipal Manager is the head of the administration and primarily has to serve as the chief custodian of service delivery. The Municipal Manager is assisted by the Management Team that reports directly to the Municipal Manager. The structure of the management team is outlined in the diagram below:

Figure 5: Municipal Management Team

1.10 First-Year Process Followed

The table below reflects the preparation for the 5th Generation Integrated Development Plan 2022 – 2027.

Table 4: Preparation for the first year of the 5th Generation IDP 2022 – 2027

Date	Action(s)
July / August 2021	<ul style="list-style-type: none"> Approval of the mSDF / IDP / Budget Process Plan / Time Schedule. Cape Winelands District Municipality hosted a discussion session on the Section 27 Framework.
September 2021 – November 2021	<ul style="list-style-type: none"> With the Local Government Elections completed in November 2021, it was critical for the municipality to carefully manage the process to ensure compliance with legislation and the successful development of the 5th Generation IDP 2022 – 2027, therefore an Amended mSDF / IDP / Budget Process Plan / Time Schedule was submitted to Council on 23 November 2021 for consideration and approval. The IDP public participation period started on 29 November 2021 and ended on 12 January 2022. A link to access IDP pre-recorded videos was published on the municipal Youtube Channel, shared via Facebook, Twitter, WhatsApp, Stellenbosch Citizen App and on the municipal website. Feedback was also provided on the implementation of projects per ward. An electronic written submission form was created on the municipal website for the community and stakeholders to provide input into the development of the 5th Generation IDP 2022 – 2027. This website link (URL) was shared via Facebook, Twitter, WhatsApp and the Stellenbosch Citizen App. Hard copies of the submission form were also made available at all libraries and ward offices.
December 2021 – February 2022	<ul style="list-style-type: none"> An Online Sector Engagement was held on 11 January 2022 to determine the sector needs and collectively devise plans to address the needs. MayCo and management had a strategic session from 13 – 14 January 2022 to consider the external and internal analysis and strategies around the 5-year development priorities and operational strategies (programmes / projects / activities and actions). Departmental sessions were held with all departments to set their 5-year implementation plans for the 5th Generation IDP 2022 – 2027.
March 2022 – April 2022	<ul style="list-style-type: none"> The Process Plan for 2022 – 2027 to guide the planning, drafting, adoption and review of the 5th Generation IDP 2022 – 2027 was approved by the Council on 30 March 2022, for public comment for 21 days. A second revision of the SDF / IDP / Budget Time Schedule for 2022/23 was submitted to the Council on 30 March 2022 for consideration and approval, which in effect moved the adoption of the Process Plan to May 2022. This was done to ensure compliance and alignment between the MSA Section 27 Framework of the CWDM and the Process Plan for 2022 – 2027 of the Stellenbosch Municipality. The draft 5th Generation IDP 2022 – 2027 and draft MTREF 2022/23 – 2024/25 for Stellenbosch Municipality was submitted to the Council on 30 March 2022 for consideration and approval to be released for public comments. The IDP and Budget public participation process within the Stellenbosch Municipal area commenced on 04 – 28 April 2022. Inputs and comments on the draft 5th Generation IDP 2022 – 2027 and draft MTREF 2022/23 – 2024/25 will be compiled and distributed to the directorates for consideration in finalising the IDP and Budget.
May – June 2022	<ul style="list-style-type: none"> Adoption of the final IDP and Budget, Tariffs and Budget-related policies. Submit adopted IDP to Cape Winelands District Municipality, Provincial Government and National Treasury. Approval of SDBIP by the Executive Mayor within 28 days after adoption of the IDP and Budget.

1.11 Second-Year Process Followed

The table below reflects the preparation for the 1st Review of the 5th Generation Integrated Development Plan 2022 – 2027 for the 2023/24 financial year.

Table 5: Preparation for the second year for the 1st Review of the 5th Generation IDP 2022 – 2027

Date	Action(s)
July / August 2022	<ul style="list-style-type: none"> Approval of the Spatial Development Framework (SDF) / Integrated Development Plan (IDP) / Budget Time Schedule / Process Plan for 2023/24
September 2022 – November 2022	<ul style="list-style-type: none"> The IDP public participation period was open from 07 – 28 September 2022. The hybrid public participation meetings were held from 19 – 22 September 2022. The online stakeholder engagement was held on 27 September 2022. An electronic written submission form was created on the municipal website for the community and stakeholders to provide input into the 1st Review of the 5th Generation IDP 2022 – 2027. This website link (URL) was shared via Facebook, Twitter, WhatsApp and the Stellenbosch Citizen App. Hard copies of the “Have Your Say” submission form were also made available at all libraries and ward offices. An all-ward councillor session was held on 7 October 2022, for the reprioritisation of ward priorities for the 2023/24 financial year taking into account the community inputs as baseline information for the reprioritisation of ward priorities.
December 2022 – February 2023	<ul style="list-style-type: none"> Departmental sessions were held to review the IDP deliverables and targets set for the period 2022 – 2027. An Indaba 2 Engagement was attended on 7 February 2023 to provide the opportunity to the municipality to engage Western Cape Government (WCG) departments on planning priorities, service delivery challenges and WCG-planned projects / programmes. Management strategic session on 15 and 16 February 2023 to consider the external and internal analysis and strategies around the 5-year development priorities and operational strategies (programmes / projects / activities and actions).
March – May 2023	<ul style="list-style-type: none"> MayCo and Council considered the Draft 1st Review of the 5th Generation IDP 2022 – 2027 to obtain public input and comments. The IDP and Budget public participation period has commenced on Monday, 3 April – Tuesday, 25 April 2023. A virtual Stakeholder Engagement was held on 20 April 2023 to provide feedback on major projects / programmes/ initiatives. The closing date for the IDP and Budget submission was 25 April 2023. Consultation and refinement of SDF, IDP and Budget documents. Adoption of final IDP, Budget, Tariffs and budget-related policies. Submission of the adopted IDP to the Provincial Government and other role-players.

1.12 Corporate Governance

Corporate governance is the set of processes, practices, policies, laws and stakeholders affecting the way an institution is directed, administered and controlled. Corporate governance also encompasses the relationships among the many stakeholders involved and the goals for which the institution is governed.

1.13 Risk Management

Section 62 of the MFMA, states that the Accounting Officer should take all reasonable steps to ensure that the municipality has and maintains effective, efficient and transparent systems of financial and **risk management** and internal control, as well as the effective, efficient and economical use of the resources of the municipality.

Certain risks have also been revised to ensure that the municipality can appropriately respond to the impact of these risks on municipal service delivery taking into account the changing external and internal factors. Provision was also made for ineffective service delivery due to geopolitical instability and the impact of Ukraine and the Russian war on global commodities, particularly fuel.

The top **5 strategic** risks identified include:

- R** | **01** Availability and cost of electricity
- I** | **02** Increased risk of land invasion
- S** | **03** Economic downturn due to civil unrest and crime
- K** | **04** Scarcity of landfill space
- S** | **05** Increase in community unrest since growth in demand for housing exceeds the resources available for development

The municipal risks have been aligned to the Integrated Development Plan (IDP) through linkages to the Strategic Focus Areas (SFAs). The following table depicts these linkages:

Table 6: Risk and IDP Alignment

Strategic Risks						
Risk Item	Risk Description	Risk Background	Strategic Focus Areas	Impact Rating	Likelihood Ratings	Directorate
1	Availability and cost of electricity	Continuous and persistent load-shedding; sustainability of the national power supplier	Green and Sustainable Valley Dignified Living	10	10	Directorate: Infrastructure Services
2	Increased risk of land invasion	Legal precedents are set under disaster management declaration limiting the municipal scope to evict. Illegal invasions and land grabs. Compromising housing development and housing opportunities	Dignified Living Safe Valley Good Governance and Compliance	9	10	Office of the Municipal Manager All Directorates
3	Economic downturn due to civil unrest, crime and continuous load shedding	Increase in criminal activities, civil unrest, and reputational risk due to perceived increase in the said activities. Impact of prolonged load shedding - not sufficient light at night as street lights, CCTV cameras and traffic lights not functioning can lead to more criminal activities.	Safe Valley Dignified Living	10	8	Directorate: Community and Protection Services
4	Scarcity of landfill space	Unavailability of suitable land; costs of SLAs and alternative waste disposal; legislative requirements i.e., EIA applications and approvals etc.	Green and Sustainable Valley	8	8	Directorate: Infrastructure Services
5	Increase in community unrest since the growth in demand for housing exceeds the resources available for development	Lack of bulk infrastructure; lack of identified and suitable land, unrealistic eviction judgements, housing backlogs, migration.	Dignified Living Safe Valley	8	8	Office of the Municipal Manager Directorate Planning and Economic Development Directorate:

Strategic Risks						
Risk Item	Risk Description	Risk Background	Strategic Focus Areas	Impact Rating	Likelihood Ratings	Directorate
						Community and Protection Services
Operational Risks						
1	Insufficient burial space in the greater Stellenbosch	Planning and funding; land availability. Insufficient funding.	Dignified Living	8	8	Directorate: Community and Protection Services
2	Timeous Capital Spending	A steady increase in budget allocation; growing population and demand for services; demand management.	Good Governance and Compliance	10	4	Directorate: Financial Services
3	COVID-19 Pandemic	Manage the COVID-19 pandemic within the context of the prescribed regulations, taking the possible 4 th wave and intensity of new infections into account.	Safe Valley Dignified Living	8	4	All Directorates
4	Climate Change	Changing weather patterns, unpredictable rainfall, flash floods, drought natural disasters, fires (seasonal and other).	Green and Sustainable Valley Safe Valley	8	4	Office of the Municipal Manager
5	High Vacancy Rate	A skilled and capable workforce is necessary to support growth objectives, and quality and timeous service delivery need to be provided by all departments.	Good Governance and Compliance	8	4	Directorate: Corporate Services

1.14 Anti-Corruption and Anti-Fraud

SECTION 83(C) OF THE MSA

Refers to the implementation of effective bidding structures to minimise the possibility of fraud and corruption.

SECTION 115(1) OF THE MFMA

States that the accounting officer must take reasonable steps to ensure that mechanisms and separation of duties in a supply chain management system are in place to minimise the likelihood of corruption and fraud.

SECTION 62(1) OF THE MFMA

States the following “the accounting officer of a municipality is responsible for managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure: –

- (a) That the resources of the municipality are used affectively, efficiently and economically;
- (b) That the full and proper records of the financial affairs are kept in accordance with any prescribed norms and standards;
- (c) That the municipality has and maintains effective, efficient and transparent systems –
 - (i) Of financial and risk management and internal control;
 - (ii) Of internal audit operating in accordance with any prescribed norms and standards;
- (d) That unauthorised, irregular or fruitless and wasteful expenditure and other losses are prevented; and
- (e) That disciplinary or, when appropriate, criminal proceedings are instituted against any official of the municipality who has allegedly committed an act of financial or an offence in terms of Chapter 15.”

1.15 Audit and Performance Audit Committee (APAC)

The Municipal Audit and Performance Audit Committee (APAC) (refer to Table below for members of the Audit Committee), appointed in terms of section 166 of the MFMA, has also been appointed as the Performance Audit Committee. Section 166(2) of the MFMA states that an audit committee is an independent advisory body that must:

- (a) advise the municipal council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to: –
 - internal financial control and internal audit;
 - risk management;
 - accounting policies;
 - the adequacy, reliability and accuracy of financial reporting information;
 - performance management;
 - effective governance;
 - compliance with this Act, the annual Division of Revenue Act, 2013 (Act No. 2 of 2013) and any other applicable legislation;
 - performance evaluation; and
 - any other issues referred to it by the municipality.

Table 7: Members of the Audit Committee

Name of representative	Capacity
LC Nene (Mr)	Chairperson
J Williams (Ms)	Member
V Botto (Mr)	Member
TW Lesihla (Mr)	Member

1.16 Ward Committees

Stellenbosch Municipality has a ward committee system in place, which plays a crucial role in achieving the aims of local governance and democracy, as mentioned in the Constitution of 1996. A ward committee is independent of the council and not politically aligned. The figure below depicts the main duties of the ward committees.

Figure 6: Main duties of the Ward Committee

1.17 Stakeholders

To ensure effective service delivery, high levels of cooperation must exist between all three spheres of government. Effective inter-governmental relations (IGR) structures are especially important to the developmental role of municipalities. This role can only be fulfilled through the active involvement of all spheres of government in the setting of priorities, resource allocation and development planning.

The demonstration of the importance of partnerships for the municipality is illustrated in the table below.

Table 8: Key Stakeholders

Name of Partner	Purpose of MOU / MOA
@ Heart	The @heart partnership is a long-standing relationship built on experience with youth work and HCT testing from a municipal facility.
City of Cape Town and Drakenstein Municipality	Partnership through the Greater Cape Metro Regional Spatial Implementation Framework has been initiated to improve coordination around the development of the Klappmuts area.
Community structures (Forums, ECD centres, religious fraternities, etc.)	Aim to promote and implement: <ul style="list-style-type: none"> platforms to share knowledge; disaster risk reduction initiatives; community safety programmes; and campaigns to promote safe resilient sustainable communities.
CSIR (Council of Scientific and Industrial Research)	A partnership aimed at multidisciplinary research and development by supporting innovation in Stellenbosch.
Department of Education	Aims to promote a culture of prevention, preparedness and resilience at all levels through knowledge, innovation and education.
Department Social Development, DCAS, Cape Winelands District Municipality	Joint implementation of programmes focusing on common issues within WC024.
Disaster Management Advisory Forum	An advisory forum on all safety issues as well as remedial measures implemented to address and alleviate and / or minimise risks.

Name of Partner	Purpose of MOU / MOA
Executive Mayor and Rector Forum	A partnership with the University of Stellenbosch to ensure aligned development planning and that the municipality draws from the University's expertise and resources.
Memorandum of Cooperation between the Stellenbosch Municipality and Stellenbosch University (SU)	Cooperation in terms of closed-circuit television in the interest of the security of the town and the campus with a view to a crime-free university town.
Genius of Space	This initiative developed from and forms part of the Western Cape 110% Green Initiative. The Biomimicry Genius of Space project is a registered flagship project of 110% Green. This initiative combines two priorities of the Western Cape Government – the Berg River and the Green Economy – to find an innovative solution to water pollution in the Berg River.
Green Cape	The Green Cape partnership represents cooperation with the Province's 110% green initiatives, focusing on alternative waste management initiatives and energy efficiency.
HeartFlow	Helping people on the fringes of society. Provide paper coupons that can be exchanged for a stay at the night shelter, a blanket or a meal. The programme was extended to include an electronic app through which said coupons can be bought to benefit people living on the street.
ICLEI (International Council for Local Environmental Initiatives)	A partnership between the City of Cape Town, ECLEI and Stellenbosch Municipality to discuss developments in Transport, Waste and Electricity Generation, towards ensuring sustainability.
IMESA (Institute for Municipal Engineers South Africa)	A partnership with IMESA aimed at strengthening knowledge and capacity related to municipal infrastructure and service delivery.
Infrastructure Innovation Committee (IIC)	A partnership with the University and other stakeholders aimed at exploring sustainable and innovative infrastructure provisions to meet the needs of the municipality and achieve future sustainability.
Integrated Development Committee (IDC)	A partnership with the University and other stakeholders aimed at exploring spatial and urban planning possibilities for Stellenbosch to meet the needs of the municipality and University.
IPC (Integrated Planning Committee)	The Integrated Planning Committee is a working group between the City of Cape Town, Stellenbosch, Saldanha Bay, Overstrand, Theewaterskloof, and Drakenstein Municipality that discuss all transport-related matters to effectively promote regional planning.
Landfill Monitoring Committee	A partnership with the Devon Valley residents, whereby residents monitor the Stellenbosch landfill site.
LTAB (Land Transport Advisory Board)	A partnership was formed between political leaders to discuss Land Transport related matters that affect transport in the area.
NMT (Non-motorised Transport) Working Group	A working group that discusses all Non-Motorised Transport matters in the Stellenbosch area. The group consists of NMT users, officials, representatives from the University and the disabled fraternity.
Provincial Disaster Management Centre, Cape Winelands District Municipal Disaster Management Centre	Aims to promote the development, implementation and maintenance of effective services within its area of jurisdiction.
Provincial Waste Management Officer's Forum	Quarterly Meetings (All designated Waste Management Officers of Western Cape engage with the Provincial Government's Waste Management Department (DEA&DP on issues relating to policy, best practice, etc.).
Ranyaka	Sustainable and integrated solutions to the challenges facing towns, neighbourhoods and communities.
Roads Safety Management	Assisting with schools and education, special projects, e.g. Learners' license classes.
Safety Forum	An advisory forum to the Executive Mayor on all safety issues as well as remedial measures implemented to address and alleviate threats.
SALGA Municipal Benchmarking Committee	A partnership aimed at improving efficiency and effectiveness through comparative process benchmarking, peer-to-peer operational knowledge sharing, and interactive performance improvements.
SCORE	Youth Sports Development at the Indoor Sports Centre, Franschhoek.
Stellenbosch Alternate Energy Research	A joint working relationship is being launched among the University of Stellenbosch, Council for Scientific and Industrial Research, Western Cape Government and the municipality to investigate the generation of alternate electricity to combat load shedding from Eskom.

Name of Partner	Purpose of MOU / MOA
Visit Stellenbosch	A partnership with the umbrella tourism body for the Greater Stellenbosch area aimed at growing and sustaining the municipality's tourism industry and broadening tourism-related benefits.
Social Housing Regulatory Authority (SHRA)	An informal working partnership on promoting and implementing Social Housing within the Stellenbosch Municipal area.
Stellenbosch and Gotland Municipality Partnership	A partnership with Gotland municipality focusing on programmes in local economic development.
Stellenbosch Heritage Foundation	The initiative is aimed at providing support to the municipality on the interactive website of the Heritage Foundation and assisting with the compilation of the heritage inventory.
Stellenbosch Infrastructure Task Team (SITT)	A partnership with the University of Stellenbosch and other stakeholders aimed at exploring sustainable infrastructure provision to meet the needs of the municipality.
Stellenbosch Night Shelter	A partnership to enable appropriate management of the municipal night shelter.
Stellenbosch River Collaborative Steering Committee	A partnership was formed between various role-players to improve the water quality in the Eerste River catchment, with the focus being on the Plankenbrug River.
Mobility Forum and NMT Working Group	A Mobility Forum and NMT Working Group were established to discuss transport-related matters that affect Stellenbosch, including all relevant governmental institutions and other role-players.
University of Stellenbosch – Student Representative Council	A partnership with the University, whereby students provide: <ul style="list-style-type: none"> 🚒 relief aid (clothing, food); 🚒 placement of students to assist during incidents / disasters; and 🚒 awareness programmes.
University of Stellenbosch – Department of Geography and Environmental Studies	A partnership with the University and other stakeholders focusing on strengthening community-based risk assessment capabilities in disaster-prone areas.
University of Stellenbosch – Maties Sport: Community Interaction	A partnership striving for excellence in meeting the needs of the youth through innovative and sustainable programmes to disseminate information on risk avoidance, hazards and their effects and preventative activities.
Western Cape Planning Heads Forum	A partnership with all local municipalities within the Western Cape and the Western Cape Government Department of Environmental Affairs and Development Planning is aimed at the sharing of best practices and improving coordination on matters related to the Spatial Planning and Land Use Management sector.
Western Cape Government Department of Environmental Affairs and Development Planning.	A partnership around the implementation of the Adam Tas Corridor Catalytic initiative.
Western Cape Government Department of Environmental Affairs and Development Planning.	A Partnership around the development of an Inclusionary Housing Policy Framework for Stellenbosch Municipality.
Western Cape Government Department of Environmental Affairs and Development Planning.	A partnership through the Greater Cape Metro Regional Spatial Implementation Framework has been initiated to improve coordination around the development of the Klampmuts area.
Western Cape Department of Public Works, Roads and Transport	As part of the Provincial Sustainable Transport Programme (PSTP), the Western Cape Department of Public Works, Roads and Transport identified Stellenbosch as a priority municipality for the development of a sustainable transport system. The emphasis will be on the development of a public transport system and the development of infrastructure to improve non-motorised transport.
Western Cape Recycling Action Group Forum	Quarterly Meetings (meetings involving the private sector, industries and government in terms of waste minimisation initiatives).
WOF (Working on Fire)	A partnership aimed at promoting capacity building through various programmes helps to develop social cohesion.

CHAPTER 2:

State of the Greater Stellenbosch Area

2.1 Introduction

Stellenbosch Municipality is located at the edge of the City of Cape Town but still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town's central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa's top (air) links to the global economy, and not much further away from Cape Town harbour, the shipping portal to both the Atlantic and the Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it can sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality's area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as several rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniël, Johannesburg, Languedoc, Groot Drakenstein, Muldersvlei, Klapmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vlootenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes several informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and several prestigious schools. It has a strong business sector, varying from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars abound and the area is the home of the very first Wine Route in South Africa. A variety of sports facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over many generations. The Municipal area has a variety of theatres which include the Stellenbosch University's HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorp Street at Theatre and Aan de Braak Theatre.

2.2 Ward Demarcation

The Stellenbosch Municipality is currently structured into the following **23** wards:

Table 9: Municipal ward demarcation

Ward	Areas
1	Mooiwater, Franschhoek Town and Surrounding Farms
2	Langrug, La Motte, Dennegeur, Groendal
3	Lanquedoc, Wemmershoek to La Motte Wine Farm and Leopard Leap Wine Farm
4	Kylemore, Johannesburg, Pniël and Surrounding Farms
5	Ida's Valley (Hillside Village, La Gratitude Park (Kreefgat), The Ridge, La Roche, Lindida, Bloekomlaan(Moses / Martin) Lindley)
6	The Hydro, Rustenberg and Surrounding Farms, Kelsey Farm
7	Mostersdrift, Karindal, Rozendal, Uniepark, Simanswyk and Universteitsoord
8	Stellenbosch University campus and university residence area; Coetzenburg, (partially:) Koloniesland
9	Stellenbosch CBD, Part of the US campus (residential areas within both these areas), the Southern border is the Eerste River, the Northern border is Merriman Street, the Eastern border is Die Laan and the Western border is Bird Street
10	Tennantville, Lakay Street, Titus Street, Langsuid Street up to Lakay Street, Tennant Street, Lapan Street, Bell Street, Bird Street, La Colline (Dr Malan Street, Dan Pienaar Street, Paul Roos Street, Tobruk Park, Irene Park, La Colline Road, Conde Street, Taylor Street, Mount Albert Street), Kromrivier Road, Jan Celliers Street, Hammanshand, Ds Botha Street, Voorplein Street, Bird Street, Langenhoven Street, Du Toit Station, Ryneveld Street, Karee Street, Oliehout Street, Banghoek Road, Acedemia, Bosman Street, Smuts Road, Joubert Street, De Beer Road, De Villiers Road from Ryneveld Street to Cluver Road on the left-hand side
11	Boundaries of the ward are: Kridge Road, Herte Street, Skone Uitsig Road onto Alexander Street onto Du Toit Street toward Merriman Avenue towards Adam Tas Road onto George Blake Street, Mark Street, Distillery Road, Santhagen Road, Swawel Avenue, Kanarie Road, Tarentaal Road, Bokmakierie Road, Fisant Road, Devon Valley Road, Kiewiet Road, Dagbreek Road, Pelikaan Street, Patrys Road, Hammerkop Road, Loeie Road, Muldersvlei Landgoed, and all areas in Onder Papegaai and businesses
12	Kayamandi: Zone A, Chris Hani Drive, 10th and 13th Street, School Crescent, Snake Valley, Enkanini, Watergang, Watergang TRA 2 and Watergang Informal Settlements
13	Kayamandi: Zone J, Red Bricks, Zone K and L, Hostels, Dairy and University Hostels, Old Bricks Houses Red Roofs, Zwellitsha, Costaland
14	Kayamandi: Zone P, I, F, D and O, Costaland, Marikana, Watergang, Smarties (Mgabadi Street), Monde Crescent
15	Kayamandi: Zone M, N, O, 4 th and 5 th Avenue, 10 th , 12 th and 14 th Street, Long Street, Retreat Street, Forest Drive
16	The borders are Tenant Road, Long Street, Crombi Road to the end of Gabriels Road. Asalea Road, 2nd Road, Noble Road, Bailey Road, Eike Street, Curry Street, Hoop Road, Pansy Road, West Road, Laai Road, Anthony Road, Carriem Road, Archilles Road, Bergstedt Road, Davidse Road, Cupido Road, Pearce Road, Robyn Road, Gonzalves Road, Hercules Road, Chippendale Road, Afrika Road, Arnolds Road, September Road, Jakaranda Street, Short Road, Quarry Road, Middle Road, Primrose Street, Pine (Bo en Onder), North End, Vredelust, Gembok, Daffodil Single, Steps, Sylvia Street, Eiland Street, Last Street (White City), Frikkadel Dorp, September Street
17	A part of Cloetesville (Lakay Road towards Langstraat -Suid Road, Kloof Street, Fir Street, Fontein Road, Williams R towards Gabriels Road towards February Road, Valentyn Road, Pool Road, Raziet Road, Ortel Road, Rhode Road, King Road, Hine Road, Hendrikse Road, Rhode Road), as well as Welgevonden, Green Oaks, Stellita Park, Weltevrede, Welgevonden Estate (Red Oak Road, Belladonna Street, Wildeklaar Welgevonden Boulevard, Olive Road, Sonnedou Road, Mountain Silver Road, Silver Oak Road, Froetang Road, Katbos Road, Everlasting, Fynbos Street, Sourfig Street, Scarlet Crescent, Pin Oak Street, Evergreen, Autumn Close, Nenta, Cherrywood, Candelabra, Froetang, Candelabra, Kouter, Protea Street, Minaret, Gooseberry, Honeybush), Klein Welgevonden (La Belle Vie, Chablis) and the Municipal Flats in Rhode, Kloof and Long Streets, Bertha Wines and Weltevreden Estate, 15 Weltevreden Estate.) Below is a map of the Cape Winelands District concerning the provincial district boundaries:

Map 1: Locality of Cape Winelands concerning Provincial Boundaries

The Western Cape Province makes up 10.6% of the country's land surface and encompasses an area of 129 462 km². The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed Garden Route, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

Below is a map of the municipalities concerning the Cape Winelands District:

Map 2: Locality map of Stellenbosch Municipality concerning Cape Winelands District Boundaries

The Cape Winelands District Municipality is located within proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second-largest container port in the country and a comprehensive road and rail network. This gives the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg and Witzenberg.

Below is a map of the Stellenbosch Municipality's area of jurisdiction:

Map 3: Locality map of municipal boundaries

Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to the City of Cape Town and Drakenstein Municipality. As a local authority, Stellenbosch Municipality governs the towns of Stellenbosch, Pniel, Klipmuts, Kylemore, Jamestown, Raithby, Ida's Valley, Cloetessville, Kayamandi and Vlotenburg, and the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein and Theewaterskloof Municipalities to the east and north. Functionally, Stellenbosch Municipality (SM) forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch and Franschhoek, and Klipmuts. There are also several smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniel, Johannesdal, Lanquedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vlotenburg. Stellenbosch is a sought-after space, offering opportunity and quality of living, yet near city life. This has placed the municipal area under constant development pressure.

2.3 Stellenbosch Municipality at a Glance

Table 10: Stellenbosch Municipality - Summarised Statistics

Population Estimates, 2022			Actual households, 2021			
	Population 199 325			Households 50 792		
Education		2021	Poverty		2021

Source: Western Cape, Social-Economic Profile 2022

¹ According to the Quarterly Labour Force Survey (QLFS) – Q1: 2022, the official unemployment rate was 34.5% in the first quarter of 2022.

2.4 Socio – Economic Context

All socio-economic information is sourced from the Local Government Socio-Economic Profile 2022. The statistical data are primarily sourced from Statistics South Africa, administrative data from sector departments, the Municipal Review and Outlook (MERO), Global Insight Regional Explorer and Quantec.

2.4.1 Population Growth

The current population of Stellenbosch in 2022 are 199 325 persons, which is the most populated municipal area in the Cape Winelands District (CWD). This total is expected to grow to 215 456 by 2026, equating to an average annual growth rate of 2.0 per cent for the period.

The estimated population growth rate of Stellenbosch is therefore 0.3 percentage and points higher than the estimated average annual population growth rate of the Cape Winelands District which is 1.7 per cent.

The table below depicts the population growth from 2022 to 2026:

Table 11: Population Growth

Area	2022	2023	2024	2025	2026
Estimated Population					
%					
Stellenbosch	3.3	2.3	2.0	2.0	1.6
Cape Winelands	2.7	1.8	1.6	1.6	1.6
Western Cape	2.9	1.8	1.7	1.7	1.6

Source: Western Cape, Social-Economic Profile 2022

2.4.2 Sex Ratio

The overall sex ratio depicts the number of males per 100 females in the population. The data indicates that as of 2022, there are more females than males in the Stellenbosch municipal area with a ratio of 51.1 per cent (females) to 48.9 per cent (males).

The sex ratio is therefore 96, meaning that for every 100 women there are 96 men. The ratio increases slightly towards 2023 and remains unchanged from 2023 to 2026. This could be attributed to a wide range of factors such as an increase in female mortality rates as well as the potential inflow of working males to the municipal area.

The table below depicts the sex ratio within the Stellenbosch municipal area.

Table 12: Sex Ratio

Year	Cape Winelands	Witzenberg	Drakenstein	Stellenbosch	Breede Valley	Langeberg
2022	98.0	108.9	97.6	95.7	93.9	96.1
2023	98.7	110.0	98.4	96.2	94.4	96.9
2024	98.8	110.3	98.5	96.3	94.4	97.0
2025	98.9	110.6	98.6	96.3	94.3	97.1
2026	99.0	110.3	98.9	96.3	94.3	97.4

Source: Western Cape, Social-Economic Profile 2022

2.4.3 Age Cohorts

The age cohorts are composed according to the population of Stellenbosch. These groupings are expressed as a dependency ratio which indicates those who are part of the workforce (Aged 15 – 64) and those who are dependent on them (children or senior citizens). A higher dependency ratio implies greater pressure on social systems and the delivery of basic services.

Between 2022 and 2026, the largest population growth projection was recorded in the 65+ age cohort at 2.7 per cent. This reflects possible improvements in life expectancy (an ageing population) or that more people are choosing the Stellenbosch municipal area as a retirement destination. Notable growth is also expected in the working age cohort, which results in an overall decrease in the dependency ratio towards 2026.

The table below depicts the age cohorts between 2022 and 2026.

Table 13: Age Cohorts

Year	Children: 0 – 14 Years	Working Age: 15 – 65 Years	Aged: 65 +	Dependency Ratio
2022	43 801	144 203	11 321	38.2
2024	45 272	150 716	11 932	38.0
2026	76 765	156 091	12 600	38.0
Growth	1.7%	2.0%	2.7%	-

Source: Western Cape, Social-Economic Profile 2022

2.4.4 Household Size

Household size refers to the number of people per household. The average size of households is expected to remain constant at 3.6 people per household from 2022 to 2026. The trend of the constant average household size could be attributed to a wide range of factors but are not limited to, lower fertility rates, ageing population, divorce, cultural patterns surrounding intergenerational co-residence, as well as socioeconomic factors that shape trends in employment, education, and housing markets.

The table below depicts the household sizes from 2022 to 2026:

Figure 7: Household size

Source: Western Cape, Social-Economic Profile 2022

2.4.5 Population Density

Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision-makers in mitigating environmental, health and service delivery risks. In 2022, the population density of the Cape Winelands District was 45 persons per square kilometer. In order of highest to lowest, the various local municipal areas compare as follows:

In order of highest to lowest, the various local municipal areas compare as follows:

📍	Stellenbosch	240 people/km ² ;
📍	Drakenstein	194 people/km ² ;
📍	Breede Valley	51 people/km ² ;
📍	Langeberg	27 people/km ² ; and
📍	Witzenberg	14 people/km ² .

According to the above comparison, Stellenbosch has the **highest density** in the Cape Winelands District. This is helped a lot by the fact that the Municipal Spatial Development Framework (*mSDF*) says that urban development should stay within the limits of the urban edge.

Table 14: Population growth

	2022	2023	2024	2025	2026
Stellenbosch	3.3	2.3	2.0	2.0	1.6
Cape Winelands	2.7	1.8	1.6	1.6	1.6
Western Cape	2.9	1.8	1.7	1.7	1.6

Source: Western Cape, Social-Economic Profile 2022

2.5 Education

Education and training improve access to employment opportunities and help sustain and accelerate overall development. Quality Education is the 4th Sustainable Development Goal, while the National Development Plan (NDP) emphasises the link between education and employment as well as the significant contribution it makes to the development of the capabilities and well-being of the population.

2.5.1 Learner enrolment, the learner-teacher ratio and learner retention rate

Learner enrolment in Stellenbosch increased from 27 491 enrolments in 2019 to 28 594 in 2021 (more than 1 104 learners were enrolled compared to 2019).

The graphics below depict the learner enrollments, learner-teacher ratio and learner retention from 2019 to 2021.

Graph 1: Learner enrolment

Source: Western Cape, Social-Economic Profile 2022

Graph 2: Learner-Teacher Ratio

Source: Western Cape, Social-Economic Profile 2022

The learner retention rate measures the proportion of learners in Grade 12 who were in Grade 10 two years prior.

The inverse of the learner-retention rate is commonly referred to as the drop-out rate. The learner retention rates are influenced by a wide array of factors, including low socio-economic background, student attitudes towards education, overcrowded classrooms, critical thinking skills, study skills and other personal circumstances which can make it difficult for the learner to focus on education.

Although the learner retention rate in the Stellenbosch municipal area improved from 75.5 per cent in 2020 to 79.1 per cent in 2021, more than 20 per cent of the learners did not complete their studies.

Graph 3: Learner retention

Source: Western Cape, Social-Economic Profile 2022

2.5.2 Number of schools and no-fee schools

Figure 8: Number of schools and no-fee schools

The number of schools within the Stellenbosch municipal area is recorded at 39 in 2021. A total of R90 million will be spent in the Stellenbosch municipal area across the MTREF. This allocation will be used for upgrading and additions as well as new and replacement infrastructure in the following schools; Aviation, Elsenburg Agri School, New Klapmuts PS and HS, and New Stellenbosch PS.

The No-fee Schools Policy abolishes school fees in the poorest 40 per cent of schools nationally for learners from Grade R to Grade 9. As per the policy, schools that do not charge fees will be allocated a larger amount of funding from the national budget per learner to make up for the fees that would have been charged.

The proportion of no-fee schools in the Stellenbosch municipal area remains at 64.1 per cent in 2021.

Source: Western Cape, Social-Economic Profile 2021

2.5.3 Schools with libraries / media centres

The Stellenbosch municipal area consist of 39 schools in 2021 of which 27 (69 per cent) were equipped with libraries. The availability of library facilities within schools contributes towards narrowing the academic attainment gap by allowing students access to information which is in turn directly linked to improved education outcomes.

2.5.4 Education outcomes (matric pass rate)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagement in the labour market, policy choices and decisions in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans can be realised. Stellenbosch's matric pass rate improved from 85.1 per cent

in 2020 to 87.9 per cent in 2021; recording the highest matric pass rate in the district in both 2020 and 2021 in the Cape Winelands District.

Graph 4: Education outcomes (matric pass rate)

Source: Western Cape, Social-Economic Profile 2022

2.6 Health

2.6.1 Health Facilities

According to the LGSEP 2022, in 2021, the Stellenbosch municipal area had 8 fixed primary healthcare facilities, comprising 7 fixed clinics, 1 community day centre as well as 6 mobile / satellite clinics. In addition to these primary healthcare facilities, there is one district hospital, 9 ART treatment sites and 10 TB clinics. The municipal area has 14 (17.9 per cent) out of the 78 primary healthcare facilities within the Cape Winelands district.

The table depicts the total healthcare facilities.

Table 15: Health facilities

Area	Community Health Centres ²	Community Day Centres ³	Regional hospitals	District Hospitals	PHC Clinics (Satellite and Mobile)	PHC Clinics (Fixed)
Stellenbosch	0	1	0	1	6	7
Cape Winelands District	0	5	2	4	33	39

Source: Western Cape, Social-Economic Profile 2022

2.6.2 Emergency Medical Services

The provision of more operational ambulances can provide greater coverage of emergency medical services. The Stellenbosch municipal area had a total of 6 ambulances servicing the region, which translates to 0.3 ambulances per 10 000 people in 2021. This number only refers to Provincial ambulances and excludes all private service providers and remained unchanged between 2020/21 and 2021/22.

² **Community Health Centre:** A facility that normally provides primary health care services, 24 hour maternity, accident and emergency services and beds where health care users can be observed for a maximum of 48 hours and which normally has a procedure room but not an operating theatre.

³ **Community Day Centre:** A health facility that provides a comprehensive health care services during day hours, including mother and child health, chronic diseases care, women's health, HIV and TB care, men's health, acute services, physio therapy, mental health services and oral health care.

2.6.3 HIV / AIDS and Tuberculosis

The number of clients (patients) that remain committed to their antiretroviral treatment (ART) plan in the Stellenbosch municipal area increased by one patient between 2020/21 and 2021/22. In total, 6 915 registered patients received antiretroviral treatment in the Stellenbosch municipal area in 2021/22. In turn, the number of new patients receiving ART also increased from 460 in 2020/21 to 481 in 2021/22. There has been an average annual increase of 3.65 per cent between 2020/21 (849) and 2021/22 (880) in the number of registered patients receiving TB treatment in the Stellenbosch municipal area.

Table 16: HIV/AIDS Management

Area	Registered patients receiving ART		Number of new ART patients	
	2020/21	2021/22	2020/21	2021/22
Stellenbosch	6 914	6 919	460	481
Cape Winelands District	32 949	32 719	2 825	3 780

Source: Western Cape, Social-Economic Profile 2022

Graph 5: Tuberculosis

Source: Western Cape, Social-Economic Profile 2022

2.6.4 Child Health

The immunisation coverage rate for children under the age of one in the municipal area improved slightly from 52.7 per cent in 2020/21 to 55.8 per cent in 2021/22. The overall CWD rate increased from 60.6 per cent to 62.2 per cent across the same period. The number of malnourished children under five years of age (severe acute malnutrition) per 100 000 people in the municipal area increased notably from 0.9 in 2020/21 to 1.5 in 2021/22.

The CWD also increased from 1.8 per cent to 2.2 per cent while the provincial average changed from 0.9 to 1.3 per cent. The neonatal mortality rate (deaths per 1 000 live births before 28 days of life) for the municipal area declined from 6.3 in 2020/21 to 3.1 in 2021/22. The rate was still notably below the CWD average of 8.0. A total of 9.8 per cent of all babies born in a facility in the municipal area in 2021/22 weighed less than 2 500 grams, indicating possible challenges with long-term maternal malnutrition and poor health care during pregnancy.

Table 17: Child Health

Area	Low Birth Rate		Neonatal Mortality Rate per 1000		Acute Malnutrition Rate (Under 5) per 100 000		Immunisation Rate (Under 1)	
	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22
Stellenbosch	8,5	9,8	6,3	3,1	0,9	1,5	52,7	55,8
Cape Winelands District	15,5	16,0	10,7	8,0	1,8	2,2	60,6	62,2

Source: Western Cape, Social-Economic Profile 2022

2.6.5 Maternal Health

In 2020/21, the Stellenbosch municipal area recorded the lowest number of maternal deaths (57.3) and teenage pregnancies (11.4 per cent) in the CWD, however, this increased to 61.1 per cent (maternal deaths) and 13.2 per cent (teenage pregnancies) in 2021/22. However, the termination of pregnancy rate (0.6 per cent) remained unchanged across this period.

Table 18: Maternal Health

Area	Maternal Mortality Rate		The delivery rate of women under 20 years		Termination of pregnancy rate	
	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22
Stellenbosch	57.3	61,1	11.4	13,2	0.6	0,6
Cape Winelands District	118.3	120,1	13.6	14,0	0.7	0,7

2.7 Poverty

2.7.1 GDPR Per Capita

An increase in the real regional gross domestic product (GDPR) per capita, i.e., GDPR per person, is experienced only if the real economic growth rate exceeds the population growth rate. Even though real GDPR per capita reflects changes in the overall well-being of the population, not everyone within an economy will earn the same amount of money as estimated by the real GDPR per capita indicator.

An increase in GDPR per capita, i.e., GDPR per person, is experienced only if the economic growth rate exceeds the population growth rate. At R67 798 in 2021, the Cape Winelands District's real GDPR per capita is below that of the Western Cape's figure of R81 650 for the same period. However, Stellenbosch has outperformed both the District and the Province by recording a per capita income figure of R84 325 in 2021.

Cape Winelands District recorded the highest figure across 2021. While the 2021 figure has regressed moderately for the period 2015 – 2021, the robust economic potential of the municipality is highlighted by its persistent high level of per capita incomes recorded, despite the recent recessionary economic environment coupled with the COVID-19 pandemic which restricted economic activity both regionally and globally.

Graph 6: GDP Per Capita

Source: Western Cape, Social-Economic Profile 2022

2.7.2 Income Inequality

South Africa suffers among the highest levels of inequality in the world when measured by the commonly used Gini index. Inequality manifests itself through a skewed income distribution, unequal access to opportunities, and regional disparities.

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. Income inequality has increased in Cape Winelands District between 2015 (0.59) and 2021 (0.62). These disparities in income are certain to worsen across the ensuing MTREF given the potential aftereffects of the COVID-19 pandemic. Stellenbosch has displayed a similar trend to that of the District's trajectory with inequality levels worsening from 0.62 in 2015 to 0.63 in 2021.

Graph 7: Income Inequality

Source: Western Cape, Social-Economic Profile 2022

2.7.3 Poverty Line

The Upper Bound Poverty Line (UBPL) headcount ratio is the proportion of the population living below the UBPL i.e., that cannot afford to purchase adequate levels of food and non-food items. The UBPL in South Africa is R1 227 (in April 2019 prices) per person per month.

Poverty affects the social development of communities through lower life expectancy, malnutrition and food insecurity, higher exposure to crime and substance abuse, lower educational attainment and poor living conditions. The NDP aims to eliminate poverty by 2030.

In 2021, 58.91 per cent of Stellenbosch's population fell below the UBPL. This figure improved marginally from the 60.62 per cent and 60.76 per cent recorded for the periods 2015 and 2018, respectively. Stellenbosch along with Drakenstein (61.96 per cent in 2021) represent the highest proportion of people living in poverty across the Cape Winelands District, while the Stellenbosch figure of 58.91 per cent is marginally above that of the District figure (57.26 per cent) recorded in 2021.

Table 20: Poverty Line

Source: Western Cape, Social-Economic Profile 2022

2.8 Basic Service Delivery

The Constitution stipulates that every citizen has the right to access adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living.

This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2021. The latest official statistics were collected by Statistics South Africa for the 2016 Community Survey; the 2021 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities Survey findings.

2.8.1 Housing and household services

With a total of 50 792 households in the Stellenbosch municipal area, 74.5 per cent had access to formal housing. This is lower than the Cape Winelands District average of 82.4 per cent. The area also had a substantially higher proportion of informal dwellings, a total of 24.7 per cent compared with the District's total of 16.9 per cent.

Service access levels within the municipal area were considerably higher than the access to formal housing, with access to piped water inside the dwelling / yard or communal / neighbour's tap at 99.3 per cent, access to a flush or chemical toilet at 96.4 per cent, access to electricity (including a

generator) for lighting at 96.8 per cent and the removal of refuse at least weekly by the local authority at 82.1 per cent of households. These access levels were above the District figures for electricity and refuse removal services.

2.8.2 Free Basic Services

Municipalities also provide a package of free basic services to households that are financially vulnerable and struggle to pay for services. The number of households receiving free basic services in the Stellenbosch municipal area has declined sharply in 2020. The stressed economic conditions are expected to exert additional pressure on household income, which will likely increase the demand for free basic services and in turn the number of indigent households. However, this is area specific and dependent on the qualifying criteria which are used.

Figure 9: Basic Service

Source: Western Cape, Social-Economic Profile 2022

2.9 Safety and Security

2.9.1 Murder

Murder is defined as the unlawful and intentional killing of another person.

Within the Stellenbosch area, the number of murders increased from 67 in 2019/20 to 70 in 2020/21, increasing further to 87 in 2021/22. The Stellenbosch municipal area's murder rate (per 100 000 people) increased from 36 in 2020/21 to 44 in 2021/22, and the murder rate (per 100 000 people) for the Cape Winelands District also increased from 42 to 43 for the same period.

Graph 8: Murder Statistics

Source: Western Cape, Social-Economic Profile 2022

2.9.2 Sexual Offences

Sexual offences include rape (updated to the new definition of rape to provide for the inclusion of male rape), sex work, pornography, public indecency and human trafficking.

In 2022, there were 226 sexual offences in the Stellenbosch area compared to 806 reported cases in the Cape Winelands District. The incidence of sexual offences (per 100 000 people) in the Stellenbosch municipal area (115) was higher than that of the District (84) in 2021/22.

Graph 9: Sexual Offences per 100 000

Source: Western Cape, Social-Economic Profile 2022

2.9.3 Drug-Related Offences

Drug-related crimes refer to the situation where the perpetrator is found to have, been under the influence of, or selling illegal drugs.

Drug-related crime within the Stellenbosch area decreased from 1 589 cases in 2020/21 to 1 125 cases in 2021/22. The Cape Winelands District's drug-related offences decreased sharply from 5 903 in 2020/21 to 5 729 in 2021/22. When considering the rate per 100 000 people, with 575 drug-related offences per 100 000 people in 2021/22, the Stellenbosch area's rate is below the District's 600 per 100 000 population.

Graph 10: Drug-related Offences per 100 000

Source: Western Cape, Social-Economic Profile 2022

2.9.4 Driving under the influence (DUI)

A situation where the driver of a vehicle is found to be over the legal blood alcohol limit.

The number of cases of driving under the influence of alcohol or drugs in the Stellenbosch area increased from 153 in 2020/21 to 252 in 2021/22. This translates into a rate of 128 per 100 000 people in 2021/22, which is above the District's 86 per 100 000 people.

Graph 11: Driving under the influence

Source: Western Cape, Social-Economic Profile 2022

The type of road user that died in or during a crash i.e. driver, cyclist, passengers, pedestrians.

The number of road user fatalities in the Stellenbosch area increased from 35 in 2020/21 to 39 in 2021/22. While the number of fatal crashes decreased from 34 to 31 for the same reference period.

Graph 12: Fatal Crashes and Road User Fatalities

Source: Western Cape, Social-Economic Profile 2022

2.9.5 Residential Burglaries

The unlawful entry of a residential structure with the intent to commit a crime, usually theft.

The number of residential burglaries in the Stellenbosch area decreased from 971 in 2020/21 to 958 in 2021/22. Stellenbosch municipal area's rate of 489 per 100 000 population is above the District's 448 for 2021/22.

2.10 Economy and Labour Market Performance

2.10.1 Sectoral Overview

In 2020, the economy of Stellenbosch was valued at R18 625.6 billion (current prices) and employed 71 911 people. Historical trends between 2016 and 2020 indicate that the municipal area realised an average annual growth rate of -0.7 per cent. The 2020 recession made a substantial dent in the average growth rate over the period, but load shedding and the drought within the Province also played a major role in prior years.

Estimates for 2021 however indicate a marked recovery in growth (4.6 per cent) from the effects of the COVID-19-related restrictions on economic activity in 2020. It was largely driven by growth in the wholesale and retail trade, catering and accommodation (7.8 per cent) as tourism activity resumed; as well as the finance, insurance, real estate and business services (3.5 per cent); and manufacturing

(5.0 per cent) sectors. The mining and quarrying (-14.2 per cent), construction (-1.0 per cent) and general government (-0.9 per cent) sectors were the only sectors that experienced a further economic decline after the easing of restrictions.

Despite the economic recovery experienced in 2021, the economy continued to shed jobs, with an estimated 2 435 net jobs lost. This was largely driven by job losses in the wholesale and retail trade, catering and accommodation (-945 jobs); manufacturing (-338 jobs); and agriculture, forestry and fishing (-328) sectors, reflecting that employment creation is lagging behind the improved GDP. Only the general government sector was able to create jobs during the year.

Table 21: Economic Sector Overview

	SECTOR	GDPR			Employment		
		R Million value 2019	Trend 2015 – 2019	Real GDPR growth 2020e	Number of jobs in 2019	Average annual change 2015 - 2019	Net change 2020e

2.10.2 Formal and Informal Employment

It is estimated that Stellenbosch's total employed will in 2021 amount to 69 476 workers, of which 55 435 (79.8 per cent) are employed in the formal sector and 14 041 (20.2 per cent) are informally employed. Employment in the formal sector had an annual average increase of only 0.2 per cent from 2016 to 2020 while the informal sector suffered an annual average decline of 5.9 per cent over this period. The informal economy was responsible for the majority of the job losses in 2021. This is a concern as the informal economy should be able to act as a buffer during times of economic recession.

Most of the formally employed consisted of semi-skilled (42 per cent) and low-skilled (32 per cent) workers. The skilled category only contributed 25.8 per cent to total formal employment. The skilled and semi-skilled categories grew at a pace of 0.7 per cent per annum from 2016 to 2020 and notably outpaced low-skilled employment which shed 0.9 per cent of jobs per annum. The growth in the skilled

categories reflects the increasing market demand for skilled labour and the need for skills development initiatives, especially with the growing tertiary sector in the Stellenbosch municipal area.

Table 22: Skills Levels Formal Employment

Skill Levels Formal employment	Skill Level Contribution 2020 (%)	Average growth (%) 2016 - 2020	Number of jobs	
			2020	2021
Skilled	32.0	- 0.9	14 305	14 433
Semi-skilled	42.2	0.7	23 353	23 327
Low-skilled	25.8	0.7	17 688	17 675

2.10.3 Unemployment

To protect South African citizens from the COVID-19 pandemic, the government announced a national lockdown in March 2020 that brought about a shutdown of the economy, which in turn resulted in a shock in the labour market and a big change in the way people went about doing their work.

According to the Quarterly Labour Force Survey (StatsSA, 2021), The number of unemployed persons decreased by 60 000 to 7,9 million in the 1st quarter of 2022 compared to the previous quarter. The number of discouraged jobseekers decreased by 54 000 (1,4%) and the number of people who were not economically active for reasons other than discouragement decreased by 112 000 (0,8%) between the two quarters resulting in a net decrease of 166 000 not economically active population. The above changes in employment and unemployment resulted in the official unemployment rate decreasing by 0,8 of a percentage point from 35,3% in the fourth quarter of 2021 to 34,5% in the first quarter of 2022. The unemployment rate according to the expanded definition of unemployment also decreased by 0,7 percentage points to 45,5 % between April and June 2022 compared to January to March 2022.

The biggest job gains were recorded in community and social services (281 000), manufacturing (263 000) and trade (98 000). However, there were job losses in private households (186 000), finance (72 000), construction (60 000) and agriculture (23 000). The total number of persons employed was 14,9 million in the first quarter of 2022. The expanded unemployment rate⁴ in South Africa increased by 2,2 percentage points to 46,6 per cent (12.5 million people) from July 2021 to September 2021, because people were available for work, but did not actively look for work during the national lockdown.

⁴ Definition: Expanded unemployment rate (aged 15–64 years): were not employed in the reference week; and were available to work but did not look for work either because they are discouraged from looking for work .

CHAPTER 3:

Strategic Policy Context

3.1 Municipal Vision and Strategy

Figure 10: Municipal Vision and Strategy

OUR MISSION: To deliver services in an enabling environment through sustainable, cost-effective and accountable services for our community

OUR VALUES: In all of our work and engagements, we subscribe to the following values:

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Excellence: As a municipality, we will strive to deliver excellent services for all areas within the greater Stellenbosch.

Integrity: As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Innovation: We will continuously review our systems, procedures and processes to make them more responsive to customer needs. In partnership with our stakeholders we will seek innovative solutions to complex problems. We will encourage and reward initiatives which show creativity and ingenuity.

Transformation: We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Responsiveness: The municipality to be a responsive municipal entity with zero tolerance for corruption and illegal actions.

VISION

We describe the vision of where we want to be as a municipality and the Greater Stellenbosch area as the **“An Integrated Valley of Opportunity and Innovation”**

MISSION

Our mission is to deliver services in an enabling environment through sustainable, cost-effective and accountable services for our community

VALUES

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the municipality honestly and ethically.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

Excellence: As a municipality, we will strive to deliver excellent services for all areas within the greater Stellenbosch.

Responsiveness: The municipality is a responsive municipal entity with zero tolerance for corruption and illegal actions.

3.2 Strategic Focus Areas (SFAs)

3.2.1 Strategic Focus Area 1: Valley of Possibility

The Stellenbosch area offers ample possibilities to their stakeholders. The unlocking of these possibilities to encourage opportunity for enterprise, creativity and business development in our cities, towns and villages are an urgent issue in South Africa. Unemployment, poverty, income inequality, and skills shortages are major concerns impacting the economy. This strategic focus area has three broad dimensions that address these challenges: The first relates to the provision of services to citizens, and how these services can assist them to facilitate development and job creation. The second relates to the internal working of the municipality and how municipal procurement of services aids in fostering opportunities for enterprise development and creativity. The third dimension asserts that efficient infrastructure and services lie at the heart of the municipality's mandate. Infrastructure and services of different kinds fulfil the basic needs of citizens and also enable enterprise and business development. Without appropriate, well-maintained infrastructure, the greater Stellenbosch area will fail as a place of living, work and learning.

3.2.2 Strategic Focus Area 2: Green and Sustainable Valley

Several dimensions of the environment underpinned its importance for the greater Stellenbosch area and the people living within it. The first is an ecological dimension, which recognises that the natural environment and its processes provide the setting in which and the basic resources with which, human life is played out.

The second is an economic and productive dimension, which recognises that the natural environment underpins vitally important tourism and agricultural economy. The third is a psychological, social, and recreational dimension, which recognises that human life is qualitatively affected by a sense of place, and the need for places of 'escape' from urban life. The fourth is a cultural dimension, which recognises the inextricable relationship between the characteristics of a place, peoples' activities in that place, and the emergence of cultural expressions and forms.

There are at least three reasons why the spatial direction is important. Firstly, we live our lives in geographic spaces; how activities and infrastructure are organised in space fundamentally impacts people's access to opportunity. For example, prioritising new urban development on agricultural land may harm the overall viability of agriculture and food security of an area. Another example is the location of housing for poor people far away from work opportunities, which impacts disposable income, work productivity and transport infrastructure provision. Secondly, the Municipal strategy has over the last decade taken a strong sectoral approach. The approach looks at development in sectors as reflected in the LED plans, plans for creative industries, small enterprises, tourism, and so on. Unfortunately, much of this work is silent on the impact of space on specific sectors and has assisted to hide spatial inequity in our settlements. Thirdly, the municipal government has considerable influence over the space economy of settlements. Under its mandate, local government can determine the nature and location of key infrastructure and where settlement is to occur and where not. Local government cannot grow the economy, but it impacts economic success through the provision and maintenance of infrastructure and how activities are organised in space.

3.2.3 Strategic Focus Area 3: Safe Valley

Establishing safety and law-abiding behaviour in greater Stellenbosch is an absolute priority. All our efforts to improve services, opportunities and sound financial position – including affordable rates – will come to nothing if by-laws are not respected, our assets are vandalised, or our neighbourhoods, roads, business areas and recreational facilities are not safe. Safety and security, together with cleanliness, are often cited as the most important factors in getting investment into a city or town. A safe and secure greater Stellenbosch area is thus not only a functional necessity but underpins elements of economic and social development strategies.

3.2.4 Strategic Focus Area 4: Dignified Living

All our citizens should have access to a dignified life, irrespective of their relative material wealth or their background. By a dignified life, we mean, inter alia, access to shelter, ethical administration of municipal housing, and sufficient choice in housing opportunities for different income groups, including young people. We also mean neighbourhoods with accessible public facilities and services. Support for vulnerable groups, including the youth, women and the elderly is critical, as is a close working relationship with other government and social agencies that focus on the needs of these groups.

3.2.5 Strategic Focus Area 5: Good Governance and Compliance

As more people become urbanised, towns and cities have become increasingly important foci of political and economic power and service provision. As the 13th largest economy nationally, the greater Stellenbosch area and municipality is a significant seat of power and deliverer of services.

Deciding what to do, when, where and to whose benefit it is, however, is a difficult task. The range of services to be provided is wide in scope, and the needs of citizens and enterprises vary significantly. Given the depth of need in many communities and limited resources, tough choices have to be made. To succeed, municipalities have to develop appropriate policy- and decision-making structures and plan carefully for the long and short term (across territorial areas and sectors). They should also ensure synergy between the work of the political and administrative spheres of the municipality, their work and that of other spheres of government, civil society and the business sector. Municipalities should communicate well, and monitor processes and procedures in a structured manner. It is also important that excellence in service delivery contributions, external and internal to the organisation, needs to be recognised and built upon.

We cannot serve the needs of our citizens without a skilled and customer-focused administration in all the different functional areas and at all levels of the municipality. Given the rapid change in all facets of society, the opportunity must exist for staff to develop their skills, whether in specific functional areas or management. To ensure the best use of public resources, regular performance management is essential. The information must be readily available, and contact between citizens and the municipality should be responsive and as efficient as possible.

The facilities that house the administration also need to be organised in a manner that facilitates integrated and joint work among the staff themselves, and between staff, political leadership and other sectors of the community.

A sound financial basis is central to implementing any strategy. The greater Stellenbosch area is no exception. To deliver on the needs of its citizens, the municipality is required to manage revenue streams sustainably. It also needs to ensure that funds available are utilised for identified projects and that value for money is achieved. In procuring goods and services, ethical conduct is essential to ensure the integrity of the municipality. It is most important that the use of municipal resources supports agreed-upon objectives; in other words, the municipal budget and ongoing expenditure must be strategy-led.

3.3 Strategic Objectives and Predetermined Objectives

Figure 11: Strategic Focus Areas and Predetermined Objectives

3.4 Core Principles in Executing Strategy

The municipality comprises three core components:

- Democratically elected political leadership;
- The administration, comprising officials; and
- Citizens, as individuals, interest groups and organisations (public, community-based and private).

For sustainable municipal management, political leadership and the administration work closely together. Ultimately, democratically elected political leadership is responsible for policy direction. The administration provides advice and implements policy.

International best practice shows that the only way to carry out sustainable urban management is to engage in meaningful partnerships with communities, where communities take full responsibility for the development of their neighbourhoods. Stellenbosch Municipality is committed to ensuring that the real social and economic development of our poorest communities is realised through proper community input and ownership. It is not generally realised that communities are legally part of the municipality. This being the case, however, means that local communities cannot simply play the role of critics or passive bystanders. Local communities must play an active part in the planning and implementation of projects and programmes in their neighbourhoods.

A component of community participation focuses on ward-based planning, where the desired outcome is to have a ward-based plan for each of the 23 wards. Ward-based plans are a form of participatory planning designed to promote community action, with clear linkages to the IDP. Such plans mobilise communities and citizens to take responsibility for their destinies and capture what communities see as their desired outcomes. They also help to speed up the implementation of the IDP. This ensures that the IDP objectives become the collective responsibility of community members, ward councillors, ward committees, the business community, NGOs and CBOs and all other stakeholders in the greater Stellenbosch. This presents an opportunity for visionary local leaders to implement a shared agenda and show tangible and measurable results through collectively addressing the above-mentioned ward priorities.

3.4.1 Alignment with institutional structures and processes

Conventional strategic planning processes aimed at guiding development and management decisions are time-consuming. Preparing a detailed strategic framework and implementation programme can take months. Unfortunately, these processes do not provide for the “now” – the need to guide decisions today. For municipalities, the “now” has become extremely important. Every month counts. We believe that our challenges have become so significant that if we do not find an integrated and commonly shared response to them fast, we may lose much of what is special about an area and be poorly prepared to meet future challenges successfully. We often find that the fact that a strategy is “under preparation” is used as an excuse for inaction or even poor decision-making. The arm’s length approach also appears to neglect local experiential knowledge – what people know through working with services issues daily. With this in mind, we have provided for regular, informal but structured engagements between the MayCo and Director’s Forum to discuss strategic matters and how to best respond to these issues.

These planning methods bridge the gap between local experiential knowledge, the technical requirements of strategy preparation, and the need for strategic frameworks to be available to deal with immediate decision-making. This process is aimed at getting an initial position through intense, structured information-sharing and planning workshops on how to direct the development and management of the municipality. Written up as an initial strategy, provision is made for influencing the

decisions of today and the nature of further work in a manner that supports the strategy. The strategy becomes the broad strategic framework, elaborated on in further technical work.

3.4.2 The tools of governance

Policy: defining / framing the position of government and direction for action concerning issues where clear choices exist (for example, to focus on private or public transport, to grow a settlement outwards or contain it inwards).

Plan making: indicating where resources should focus functionally or spatially, in what form, and when.

Legislation: directing, constraining and rewarding (potentially) the behaviour of different actors in society (in the interest of all citizens).

Regulation: elaborating on behaviour outlined in legislation through guidelines, standards, and so on.

Fiscal measures: fees, charges and taxes for services as a means for raising government revenue, and directing action in support of policy and legislation (through fiscal “incentives”).

Financial measures: the priorities and areas of government spending, including investments in infrastructure, facilities and programmes to support spatial and sectoral or functional area policy and plans.

Institutional measures: arrangements for decision-making, the allocation of powers, responsibilities, agreements and relationships between government and other actors, human resource capacity / competency, and measurement systems within government and between government and other actors.

Asset management: the approach taken to the management of government assets (land, public facilities, and so on).

Knowledge and information management: the government’s investment in and dissemination of knowledge about existing / anticipated conditions that require management.

Advocacy: the positions that government take on issues, “positive” and “negative”. This could be through the media, public meetings / engagements, events, and so on.

3.5 Global Policy Direction

The Stellenbosch Municipality’s strategic planning does not occur within a vacuum. Various key policy directives are being employed that range from a global reach to more specific directives applicable to the municipality and its neighbouring municipalities. All these directives are considered when framing future strategic planning and resource allocation. The sections below outline key policy directives considered when framing Stellenbosch Municipality’s 1st Review of the 5th Generation IDP 2022 – 2027.

3.5.1 Sustainable Development Goals (SDGs)

The Sustainable Development Goals (SDGs), officially known as *Transforming our world: the 2030 Agenda for Sustainable Development* is a set of seventeen aspirational "Global Goals" with 169 targets between them. The Agenda is an action plan for people, the planet, and prosperity, with a focus on strengthening peace and partnerships. The SDGs are integrated and indivisible and balance the three dimensions of sustainable development: the **economic**, **social** and **environmental**. The Goals are the following:

Figure 12: Sustainable Development Goals (SDGs)

Sustainable Development Goals (SDGs) 2030

- 🚩 Goal 1: End poverty in all its forms everywhere.
- 🚩 Goal 2: End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.
- 🚩 Goal 3: Ensure healthy lives and promote well-being for all ages.
- 🚩 Goal 4: Ensure inclusive and equitable quality education and promote life-long learning opportunities for all.
- 🚩 Goal 5: Achieve gender equality and empower all women and girls.
- 🚩 Goal 6: Ensure availability and sustainable management of water and sanitation for all.
- 🚩 Goal 7: Ensure access to affordable, reliable, sustainable, and modern energy for all.
- 🚩 Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
- 🚩 Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialisation, and foster innovation.
- 🚩 Goal 10: Reduce inequality within and among countries.
- 🚩 Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable.
- 🚩 Goal 12: Ensure sustainable consumption and production patterns.
- 🚩 Goal 13: Take urgent action to combat climate change and its impacts.
- 🚩 Goal 14: Conserve and sustainably use the oceans, seas, and marine resources for sustainable development.
- 🚩 Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat deforestation, halt and reverse land degradation, and halt biodiversity loss.
- 🚩 Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all, and build effective, accountable and inclusive institutions at all levels.
- 🚩 Goal 17: Strengthen the means of implementation and revitalise the global partnership for sustainable development.

3.6 National Policy Direction

Based on the National Government's election manifesto and Medium-Term Strategic Framework, a set of twelve outcomes were developed through extensive consultation and discussion at both Ministerial and administrative levels. These outcomes reflect the desired development impacts sought nationally, given the government's policy priorities indicated below:

National Strategic Outcomes

- 🚩 Goal 1: Improved quality of basic education.
- 🚩 Goal 2: A long, healthy life for all South Africans.

- Goal 3: All people in SA are and feel safe.
- Goal 4: Decent employment through inclusive economic growth.
- Goal 5: A skilled and capable workforce to support an inclusive growth path.
- Goal 6: An efficient, competitive and responsive economic infrastructure network.
- Goal 7: Vibrant, equitable and sustainable rural communities with food security for all.
- Goal 8: Sustainable human settlements and improved quality of household life.
- Goal 9: A responsive, accountable, effective and efficient local government system.
- Goal 10: Environmental assets and natural resources that are well protected and continually enhanced.
- Goal 11: Create a better SA and contribute to a better and safer Africa and World.
- Goal 12: An efficient, effective and development-oriented public service and an empowered, fair and inclusive citizenship.

3.6.1 National Development Plan (NDP) – 2030

The President appointed a National Planning Commission in May 2010 to draft a vision and plan for the country. On 9 June 2011, the Commission released a diagnostic document and elements of a vision statement. On 11 November 2011, the vision statement and the plan were released for consideration. The Commission consulted widely on the draft plan. The National Development Plan was adopted by Cabinet in September 2012.

An approach to change

The graphic below demonstrates the close link between capabilities, opportunities and employment on social and living conditions. It shows how leadership, an active citizenry and effective government can help drive development in a socially cohesive environment.

Figure 13: National Development Plan – An approach to change

The plan focuses on the critical capabilities needed to transform the economy and society. Achieving these capabilities is not automatic, nor will they emerge if the country continues on its present trajectory. Rising levels of frustration and impatience suggest that time is of the essence: failure to act will threaten democratic gains. In particular, South Africa must find ways to urgently reduce alarming levels of youth unemployment and provide young people with broader opportunities.

Progress over the next two decades means doing things differently. Given the complexity of national development, the plan sets out six interlinked priorities:

- ✚ Uniting all South Africans around a common programme to achieve prosperity and equity.
- ✚ Promoting active citizenry to strengthen development, democracy and accountability;
- ✚ Bringing about faster economic growth, higher investment and greater labour absorption;
- ✚ Focusing on key capabilities of people and the state;
- ✚ Building a capable and developmental state; and
- ✚ Encouraging strong leadership throughout society to work together to solve problems.

The Plan in brief

By 2030

- ✚ Eliminate income poverty – Reduce the proportion of households with a monthly income below R419 per person (in 2009 prices) from 39% to zero; and
- ✚ Reduce inequality – The Gini coefficient should fall from 0.69 to 0.6.

Enabling milestones

- ✚ Increase employment from 13 million in 2010 to 24 million in 2030.
- ✚ Raise per capita income from R50 000 in 2010 to R120 000 by 2030.
- ✚ Increase the share of national income of the bottom 40% from 6% to 10%.
- ✚ Establish a competitive base of infrastructure, human resources and regulatory frameworks.
- ✚ Ensure that skilled, technical, professional and managerial posts better reflect the country's racial, gender and disability makeup.
- ✚ Broaden ownership of assets to historically disadvantaged groups.
- ✚ Increase the quality of education so that all children have at least two years of preschool education and all children in grade 3 can read and write.
- ✚ Provide affordable access to quality health care while promoting health and well-being.
- ✚ Establish effective, safe and affordable public transport.
- ✚ Produce sufficient energy to support the industry at competitive prices, ensuring access for poor households, while reducing carbon emissions per unit of power by about one-third.
- ✚ Ensure that all South Africans have access to clean running water in their homes.
- ✚ Make high-speed broadband internet universally available at competitive prices.
- ✚ Realise a food trade surplus, with one-third produced by small-scale farmers or households.
- ✚ Ensure household food and nutrition security.
- ✚ Entrench a social security system covering all working people, with social protection for the poor and other groups in need, such as children and people with disabilities.
- ✚ Realise a developmental, capable and ethical state that treats citizens with dignity.
- ✚ Ensure that all people live safely, with an independent and fair criminal justice system.
- ✚ Broaden social cohesion and unity while redressing the inequities of the past.
- ✚ Play a leading role in continental development, economic integration and human rights.

3.6.2 Medium-Term Strategic Framework 2019 – 2024 (MTSF)

The MTSF is a high-level strategic document to guide the five-year implementation and monitoring of the National Development Plan (NDP) 2030. It identifies the priorities to be undertaken during the 2019 – 2024 period to put the country on a positive trajectory towards the achievement of the 2030 vision. It sets targets for the implementation of the priorities and interventions for the five years and states the outcomes and indicators to be monitored.

The implementation of the MTSF 2019-2024 was however disrupted by the outbreak of the COVID-19 pandemic and the declaration of a National State of Disaster on 15 March 2020. The government had to reprioritise its plans and budgets in response to the pandemic, which has had a devastating impact on the health, social and economic aspects of the lives of South Africans. The President launched the Economic Reconstruction and Recovery Plan (ERRP) on 15 October 2020, which sought

to restore much-needed economic growth and employment. The combination of all these factors has meant that the MTSF 2019-2024 had to be revised to include critical interventions that are part of the government's relief and recovery efforts.

The Revised MTSF 2019 – 2024 also prioritises government commitments to prevail over the coronavirus pandemic and to work towards recovery. These commitments are to defeat the coronavirus pandemic, accelerate our economic recovery and implement economic reforms to create sustainable jobs and drive inclusive growth and lastly fight corruption and strengthen the capacity of the state. These commitments are included in the Revised MTSF 2019-2024 and will provide the focus for annual and strategic plans.

The MTSF 2019 – 2024 aims to address the challenges of **unemployment**, **inequality**, and **poverty** through the three pillars of the NDP.

Figure 14: Three NDP Pillars

The priorities, which will be achieved through more focused implementation, coordination and integration by the various levels of government including state-owned enterprises, the private sector and civil society, are as follows:

- Priority 1:** A capable, ethical and developmental state;
- Priority 2:** Economic transformation and job creation;
- Priority 3:** Education, skills and health;
- Priority 4:** Consolidating the social wage through reliable and quality basic services;
- Priority 5:** Spatial integration, human settlements and local government;
- Priority 6:** Social cohesion and safe communities; and
- Priority 7:** A better Africa and world.

3.6.3 National District Development Model and One Plan

Cabinet approved the District Development Model (DDM) as an All of Government and Society Approach providing a method by which all three spheres of government and state entities work in unison in an impact-oriented way to speed up service delivery to ensure that municipalities are properly supported and adequately resourced. The DDM is an intergovernmental approach focusing on 44 districts and 8 metropolitan spaces for more effective joint planning, budgeting and implementation over multi-year planning and electoral cycles. Although each sphere, sector or entity has its distinct constitutional powers, functions and responsibilities, they cooperate and undertake collaborative planning, budgeting and implementation processes converging developmental efforts at the district / metropolitan level.

The objectives of the DDM are to:

- 🏡 solve the silos at a horizontal and vertical level;

- ✦ maximise impact and align plans and resources at our disposal through the development of “One District, One Plan and One Budget”;
- ✦ narrow the distance between people and government by strengthening the coordination role and capacities at the district level;
- ✦ ensure inclusivity through gender-responsive budgeting based on the needs and aspirations of our people and communities at a local level;
- ✦ build government capacity to support municipalities;
- ✦ strengthen monitoring and evaluation at district and local levels;
- ✦ implement a balanced approach towards development between urban and rural areas;
- ✦ ensure sustainable development whilst accelerating initiatives to promote poverty eradication, employment and equality; and
- ✦ exercise oversight over budgets and projects in an accountable and transparent manner.

Nationally, the DDM is expressed through the development of a One Plan. The One Plan is defined as an intergovernmental plan setting out a 25-30 years long-term strategic framework (consisting of short, medium and long-term actions) to guide investment and delivery about each of the districts and metropolitan spaces. This plan for each space is to be jointly developed and agreed to by all three spheres of government.

3.6.4 Integrated Urban Development Framework (IUDF)

The National Development Plan (NPD) indicated that by 2030 South Africa should observe meaningful and measurable progress in creating more functionally integrated, balanced and vibrant urban settlements. To attain this goal, the Department of Cooperative Governance, working in collaboration with other national departments and other role-players, developed the Integrated Urban Development Framework (IUDF) to transform and restructure South Africa’s urban spaces.

The IUDF aims to guide the development of **inclusive**, **resilient** and **liveable urban settlements**, while directly addressing the unique conditions and challenges facing South Africa’s cities and towns.

To achieve the transformation vision, four (4) overall strategic goals were introduced:

Figure 15: IUDF Strategic Goals and Levers

Source: Integrated Urban Development Framework

The above IUDF strategic goals give rise to nine (9) policy levers, the implementation of which depends on its integration into municipal development planning tools such as the Spatial Development Framework (SDF) and Integrated Development Plan (IDP).

3.7 Provincial Policy Direction

3.7.1 The Western Cape Government Provincial Strategic Plan 2019 – 2024

The Western Cape Provincial Government (WCG) committed itself, through its recently adopted Vision Inspired Priorities (VIPs), to building a values-based competent state that enables opportunity and promotes responsibility in a safer Western Cape.

The VIPs are as follows:

1. Safe and Cohesive Communities (VIP 1);
2. Growth and Jobs (VIP 2);
3. Empowering People (VIP 3);
4. Mobility and Spatial Transformation (VIP 4); and
5. Innovation and Culture (VIP 5).

Figure 16: WCG: Vision Inspired Priorities (VIPs)

3.8 The Cape Winelands District Municipality (CWDM) Strategic Focus

The Cape Winelands District Municipality has set the following strategic objectives for their District:

Table 24: CWDM Strategic Objective 2022 – 2027

SOs	Strategic Objective 2022 – 2027
SO 1	Creating an environment and forging partnerships that ensure social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.
SO 2	Promoting sustainable infrastructure services and a transport system which fosters social and economic opportunities.
SO 3	Providing effective and efficient financial and strategic support services to the Cape Winelands District Municipality.

3.9 Local Policy Direction

3.9.1 Stellenbosch Municipality

The intent of the Strategic goals for the 1st Review of the 5th Generation IDP 2022 – 2027 will remain the same as the strategic goals of the 5th Generation IDP 2017 – 2022.

The table below indicates how the municipality's Strategic Focus Areas are aligned with National, Provincial and District Plans.

Table 25: Horizontal Alignment Matrix

Strategic Focus Areas (SFAs)	Sustainable Development Goals (SDGs)	National Strategic Outcomes	Medium-Term Strategic Framework	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
SFA 1- Valley of Possibility	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all (8)	Ensuring decent employment through inclusive economic growth (4)	Economic transformation and job creation (2)	Growth and Jobs (VIP 2)	Promoting sustainable infrastructure services and transport systems which foster social and economic opportunities.
SFA 2- Green and Sustainable Valley	Take urgent action to combat climate change (13) Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss (15)	Ensuring that the environmental assets and natural resources are well protected and continually enhanced (10)	Social cohesion and safe communities (6) Spatial integration, human settlements and local government (5)	Empowering People (VIP 3)	Creating an environment and forging partnerships that ensure the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment.
	Make cities and human settlements inclusive, safe, resilient and sustainable (11)	Ensuring vibrant, equitable and sustainable rural communities with food security for all (7) Promoting sustainable human settlements and improved quality of household life (8)	Social cohesion and safe communities (6)	Mobility and Spatial Transformation (VIP 4)	Promoting sustainable infrastructure services and transport systems which foster social and economic opportunities.
SFA 3- Safe Valley	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels (16)	Ensuring all people in South Africa are and feel safe (3)	Social cohesion and safe communities (6)	Safe and Cohesive Communities (VIP 1)	Creating an environment and forging partnerships that ensure the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District.

Strategic Focus Areas (SFAs)	Sustainable Development Goals (SDGs)	National Strategic Outcomes	Medium-Term Strategic Framework	Western Cape Provincial Government Strategic Plan	CWDM Strategic Objectives
SFA 4- Dignified Living	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all (4) Ensure healthy lives and promote well-being for all at all ages (3)	Providing improved quality of basic education (1) Enabling a long, healthy life for all South Africans (2)	Education, skills and health (3)	Growth and Jobs (VIP 2)	Creating an environment and forging partnerships that ensure the health, safety, social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District.
	Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation (9)	Setting up an efficient, competitive and responsive economic infrastructure network (6)	A capable, ethical and developmental state (1)	Empowering People (VIP 3)	Promoting sustainable infrastructure services and transport systems which foster social and economic opportunities.
SFA 5- Good Governance and Compliance	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels (16)	Achieving an accountable, effective and efficient local government system (9) Creating a better South Africa and a better and safer Africa and the world (11) Building an efficient, effective and development-oriented public service and an empowered fair and inclusive citizenship (12)	A capable, ethical and developmental state (1) Education, skills and health (3) Social cohesion and safe communities (6)	Innovation and Culture (VIP 5)	Promoting sustainable infrastructure services and transport systems which foster social and economic opportunities.
		Achieving a responsive, accountable, effective and efficient local government system (9)	A capable, ethical and developmental state (1)	Embed good governance and integrated service delivery through partnerships and spatial alignment (5)	To provide an effective and efficient financial and strategic support service to the Cape Winelands District Municipality.

CHAPTER 4:

Spatial Development Framework

4.1 The Purpose of the Spatial Development Framework

Spatial Development Frameworks (SDFs) serve to provide strategic direction and align the efforts of all government spheres as they apply within the municipal area. The SDF serves to give a coherent spatial direction to the municipal Integrated Development Plan (IDP) and provide a planned and integrated approach to achieve the shared spatial development vision, goals, and objectives for sector plans of government over a short-term (5 years), as well as over a strategically longer-term (10 – 20 years), to achieve the desired spatial growth and development pattern of the municipality. Most importantly, the SDF outlines the municipality's spatial agenda to its service departments, ensuring that their sector plans, programmes, and projects are grounded in sound and common spatial logic.

In essence, the SDF is a spatial contract between all spheres of government, as well as the private sector, which is binding and must assist in integrating, coordinating, aligning, and expressing development efforts and should be actively supported through the specific arrangement of prioritising, mobilising, sequencing, and implementing of investment in priority spatial structuring areas to achieve the legislated development principles of sustainable development. Therefore, the SDF and the Capital Expenditure Framework (CEF) indicate where and how the municipality intends to channel public investment, influence, and other resources at its disposal. In broad terms, this includes where infrastructure and public facility investment will be prioritised, where private sector partners will be sought in development, and how the municipality will view development applications through its spatial planning and land use management system.

4.2 The relationship between the IDP and SDF

Figure 17: Relationship: IDP and SDF

At its core, SDFs deal with the art and science of shaping places at different scales (or areas of influence, from large regions to municipal jurisdictions or neighbourhood precincts). The SDF aims to:

- ✚ Enable a long-term spatial vision for the future of regions and places to be best developed over time that is based on evidence, local distinctiveness and community-derived objectives;
- ✚ Translate this vision into a set of strategic municipal planning, policies, priorities, programmes,

and land allocations together with the public-sector resources (budget) to deliver them;

- ✚ Create a framework for private investment and regeneration that promotes economic, environmental and social well-being for a specific region or area i.e. the Adam Tas Corridor Local Areas Spatial Development Framework and Development Guidelines (October 2022); and
- ✚ Coordinate and deliver the public-sector components of this vision with other agencies and processes to ensure implementation through its CEF (medium-term) and IDP (short-term).

In the case of Stellenbosch Municipality, the SDF, CEF, and IDP must answer the following questions: “How is Stellenbosch going to develop over the next ten to thirty years? What kind of development will take place, where will it take place, and who will be responsible for what aspect of the development?”

4.3 The Legislative Framework of Municipal SDFs

With the enactment of the Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA), a new planning regime was introduced in South Africa. The coherent legislative system has been designed to spatially transform the country in its democratic era. In broad terms, SPLUMA differentiates between two components of the planning system:

- ✚ Spatial Development Frameworks; and
- ✚ The Land Use Management System (LUMS).

Section 12(1) of SPLUMA sets out general provisions which apply to the preparation of all scales of SDFs. These provisions require that all SDFs must:

- ✚ Interpret and represent the spatial development vision of the responsible sphere of government and competent authority;
- ✚ Be informed by a long-term spatial development vision;
- ✚ Represent the integration and trade-off of all relevant sector policies and plans;
- ✚ Guide planning and development decisions across all sectors of government;
- ✚ Guide a provincial department or municipality in taking any decision or exercising any discretion in terms of this Act or any other law relating to spatial planning and land use management systems;
- ✚ Contribute to a coherent, planned approach to spatial development in the national, provincial and municipal spheres;
- ✚ Provide clear and accessible information to the public and private sectors and provide direction for investment purposes;
- ✚ Include previously disadvantaged areas, areas under traditional leadership, rural areas, informal settlements, slums and land holdings of state-owned enterprises and government agencies and address their inclusion and integration into the spatial, economic, social and environmental objectives of the relevant sphere;
- ✚ Address historical spatial imbalances in development;
- ✚ Identify the long-term risks of spatial patterns of growth and development and the policies and strategies necessary to mitigate those risks;
- ✚ Provide direction for strategic developments, and infrastructure investment, promote efficient, sustainable and planned investments by all sectors and indicate priority areas for investment in land development;
- ✚ Promote a rational and predictable land development environment to create trust and stimulate investment;
- ✚ Take cognisance of any environmental management instrument adopted by the relevant environmental management authority;
- ✚ Give effect to national legislation and policies on mineral resources and sustainable utilisation and protection of agricultural resources; and
- ✚ Consider and, where necessary, incorporate the outcomes of substantial public engagement,

including direct participation in the process through public meetings, public exhibitions, public debates and discourses in the media and any other forum or mechanisms that promote such direct involvement.

Chapter 2 of SPLUMA sets out the development principles that must guide the preparation, adoption and implementation of any SDF, policy or by-law concerning spatial planning and the development or use of land. The table below summarises the five SPLUMA principles and what they mean.

Table 28: SPLUMA and Development Principles

Principle	Meaning
Spatial justice	<ul style="list-style-type: none"> Past spatial and other development imbalances must be redressed through improved access to and use of land. SDFs (and associated policies) must address the inclusion of persons and areas that were previously excluded, with an emphasis on informal settlements, and areas characterised by widespread poverty and deprivation. Spatial planning mechanisms, including zoning scheme by-laws, must incorporate provisions that enable redress in access to land by disadvantaged communities and persons. Land use management systems must include all areas of a municipality and specifically include provisions that are flexible and appropriate for the management of disadvantaged areas and informal settlements. Land development procedures must include provisions that accommodate access to secure tenure and the incremental upgrading of informal areas. In considering an application, a Municipal Planning Tribunal may not impede or restrict the exercise of its discretion solely because the value of land or property is affected by the outcome of the application.
Spatial sustainability	<ul style="list-style-type: none"> Promote land development that is within the fiscal, institutional and administrative means of government. Give special consideration to the protection of prime and unique agricultural land. Uphold consistency of land use measures under environmental management instruments. Promote and stimulate the effective and equitable functioning of land markets. Consider all current and future costs to all parties for the provision of infrastructure and social services in land developments. Promote land development in sustainable locations, limit urban sprawl, and result in viable communities.
Efficiency	<ul style="list-style-type: none"> Land development must optimise the use of existing resources and infrastructure. Decision-making procedures must be designed to minimise negative financial, social, economic or environmental impacts. Development application procedures must be efficient, and streamlined, and timeframes adhered to by all parties.
Spatial resilience	<ul style="list-style-type: none"> The flexibility of spatial plans, policies and land use management systems accommodate to ensure sustainable livelihoods in communities most likely to suffer the impacts of economic and environmental shocks.
Good administration	<ul style="list-style-type: none"> All spheres of government must ensure an integrated approach to land use and land development, guided by spatial planning and land use management systems. All government departments must provide their sector inputs and comply with any other prescribed requirements during the preparation or amendment of SDFs. The requirements of any law relating to land development and land use must be met timeously. Transparent processes of public participation are incorporated within the preparation and amendment of spatial plans, policies, land use schemes and development applications to allow all parties to provide inputs on matters affecting them. Policies, legislation and procedures must be set to inform and empower members of the public.

At the municipal sphere of government, aligned with SPLUMA, and the Western Cape Land Use Planning Act, 2014 (Act No. 3 of 2014) (LUPA), the Stellenbosch Municipal Land Use Planning By-law (dated 1 December 2015) further outlines minimum standards for SDFs, both in the preparation process and content. In support of SPLUMA, the Department of Rural Development and Land Reform (now known as the Department of Agriculture, Land Reform, and Rural Development) prepared a detailed process and content “Guidelines for the Development of Provincial, Regional and Municipal Spatial Development Frameworks and Precinct Plans”. The Stellenbosch Municipality follows these legislative frameworks and guidelines in its work on the municipal and local SDFs, which is subject to an extensive review every five years, with less comprehensive reviews annually.

4.4 Stellenbosch Municipality's work on its SDF

The Stellenbosch Municipality's work on the longer-term SDF has taken place with the input and oversight of an Intergovernmental Steering Committee (ISC), as prescribed in LUPA, and comprising representatives across spheres of government and sectors. Further, it should be noted that the approved longer-term SDF (dated November 2019), as well as specific sector documents and area studies, sought inputs from various organisations and individuals as part of public participation processes undertaken during various stages of preparing these studies. The extensive review of the SDF as part of the IDP process, as noted in the previous section is currently underway through the legislated project committee process in terms of LUPA and the Stellenbosch Municipal Land Use Planning By-law, which will produce a five-year spatial development plan, which will not detract from the longer-term spatial development vision contained in the adopted and approved SDF.

The sections below provide an overview of the spatial challenges, opportunities, strategies and programmes as reflected in the SDF over the longer term.

4.5 The Spatial Challenges and Opportunities identified in the SDF

The Stellenbosch Municipality's SDF attempts to address the spatial dimensions of varied challenges, documented in this IDP and numerous studies and documents produced to date, dealing with spatial and non-spatial matters.

Framed as a question, the key challenge revolves around how to achieve, through managing the spatial distribution and form of development—primarily land use activities and associated structures, both new and existing—shared and inclusive growth, increased access to opportunities (particularly for disadvantaged citizens), improved sustainability by minimising ecological footprints, and maintenance of the unique sense of place of the settlements and surrounding lands that constitute the municipality.

In addressing these challenges, the SDF has two tasks. The first relates to how activities should be organised and accommodated in space to best address challenges. The second is to guide how other sectors, services, or functional areas should adjust their focus and work to support the recommended organisation and accommodation of activities in space.

Without re-stating the varied challenges of the municipality outlined in full in the IDP and sector documents, the table below lists specific spatial challenges addressed by the SDF, following the broad themes contained in the SDF Guidelines.

Table 29: Spatial Challenges

Theme	Spatial Challenges
Biophysical context	<ul style="list-style-type: none"> ⚠ The degradation of key ecological assets and loss of productive agricultural land has been ongoing. ⚠ The condition of the river systems within the municipality has deteriorated. ⚠ Climate change is likely to have a significant impact on the natural resource base of the municipal area, which will include a reduction in water, increased temperatures, increased fire risks, and increased incidences of extreme weather events. This in turn will impact agricultural production, scenic landscapes, the liveability of urban areas and the ability to provide basic services such as water and sewerage treatment.
Socio-economic context	<ul style="list-style-type: none"> ⚠ The population in the municipality will continue to grow above the average provincial rate, and urbanisation rates will increase with settlements absorbing the bulk of growth. ⚠ The ability of the economy to absorb growth, particularly concerning job creation, is concerning. ⚠ The informal sector will continue to provide livelihoods to a significant proportion of residents. ⚠ The growing youthful population, large student population, and the seasonal influx of labour are likely to increase the municipality's dependency ratio, in addition to a smaller base from which the municipality can collect revenue to provide services and opportunities that will improve the lives of the poor. ⚠ Inequality in the municipal area, and particularly in historic towns such as Stellenbosch and Franschhoek, remains significant and current development patterns are not addressing the issue. ⚠ Crime rates remain high and the market response i.e. private security provision for those who can afford it, is likely to exacerbate inequality. ⚠ Upgrading and provision of basic services and housing will remain the focus of the municipality, including other government agencies for the foreseeable future. The focus on these priority areas

Theme	Spatial Challenges
	<p>can lead to foregoing investment in other areas that would likely have more socio-economic spin-offs and result in improved place-making.</p> <p>The municipality's inability to provide basic services (e.g. refuse removal) leads to dumping, environmental degradation and resulting health-related problems.</p>
Built environment context	<p>Infrastructure backlogs – especially in poor areas – and essential municipal infrastructure requires significant investment and maintenance. This applies to all basic services (electricity, water supply, wastewater management and solid waste disposal).</p> <p>The need for housing and shelter – both for the lower-income groups and those with employment – has not been adequately met. The existing housing pipeline will not meet the need of those requiring state assistance, and little is built which is affordable to ordinary workers. A pattern of intermittent land invasions and associated responsive basic infrastructure provision, as well as daily inward commuting of ordinary workers and students, is likely to continue.</p> <p>Property and land are inordinately expensive in the municipality, locking out both the poor and lower / middle-income workers from the property market. Without significant intervention in the property market, this situation is likely to worsen.</p> <p>Inequality in the municipality is particularly evident in the structure of settlements, with low-density development accommodating the wealthy, while the poor are accommodated in high-density, poor-quality peripheral areas. Significant numbers of people live in informal shelters. Many new developments reinforce a pattern of low overall densities and are located in peripheral areas, entrenching dependency on private transport, amongst other inefficiencies.</p> <p>New high-density development mostly focuses on the student market, and target groups using private vehicles.</p> <p>Numerous heritage resources located within the settlements are assets of immense value. Many of these, are underutilised and have the potential to become vehicles for innovative development that can contribute to creating a more inclusive economy.</p> <p>The existing industrial / manufacturing operations and land holdings in the centre of Stellenbosch town impede large-scale restructuring of the settlement.</p> <p>The planned move of Distell – occupying large tracts of strategic land in Stellenbosch town – to Klapmuts presents very significant opportunities for the future development of Stellenbosch, Klapmuts, and the broader regional space economy. If not rigorously managed as a shared initiative between the public and private sectors, the opportunity may be lost. The municipality should focus maximum effort on utilising the opportunity presented to address the needs of the town.</p> <p>Transport planning practice at the provincial level has maintained a regional mobility lens with the bulk of planning effort and funding allocated to road infrastructure rehabilitation and expansions that provide for and respond to demand-side growth, largely attributed to unconstrained low occupancy private vehicles at the cost of local mobility. Too little focus is placed on progressively improving the efficiency of the use of existing road space through shifting modes and altering travel patterns.</p> <p>This regional mobility and growth approach's focus has very high financial, economic, social, and environmental costs, as it is unsustainable and exclusionary to most of the population. The regional focus on private vehicle growth has an adverse consequence on managing transport at the localised level where trips are generated.</p> <p>The provision of public transport, non-motorised modes and travel demand management programmes are generally considered local municipal functions, and not a core responsibility or competency of the Province. Given the extent of transport issues in the municipality, the municipality has limited institutional capacity and funding for the management of transport issues. As a result, sustainable transport approaches have been extensively overlooked in favour of traditional engineering solutions.</p> <p>The municipality continuously updates the online housing demand database and associated mobile applications to provide a valuable source for planning and delivery.</p>
Institutional context	<p>The limited capital budget of the municipality, given the extent and depth of community needs.</p> <p>Limited funds to address critical issues especially related to infrastructure augmentation and maintenance places the municipality in a tenuous position to reverse backlogs or negative trends in shelter or infrastructure needs.</p> <p>Private sector investment is not structured to contribute to the long-term maintenance of common assets or address the developmental needs of the municipal area.</p> <p>The growth in rates of income will largely be used to maintain existing infrastructure and services and will likely not focus on new productive investments.</p> <p>The limited professional resources of the municipality, specifically concerning the rigorous and dedicated full-time management of large-scale projects.</p> <p>Sector planning remains fragmented, and most developments follow a business-as-usual pattern.</p>

4.6 The Spatial Proposals of the SDF

4.6.1 Spatial development 20 -year vision statement

In line with the SM's vision as the "valley of opportunity and innovation" (as contained in the IDP), the vision for spatial development and management is described as follows:

"We envisage a municipal area even more special than it is today; a place of natural beauty, rich in the way it preserves and exposes elements of history and culture, its produce from the land, the quality of its institutions, and the mindfulness and innovations of its people."

It is a future Stellenbosch municipal area that remains familiar; it has retained what differentiates the municipality from other places, its landscapes, historic buildings and settlement patterns, and the specialness of its institutions. It is resilient; it has adapted to the needs of today without losing what is special from the past. It is inclusive; it has accommodated the needs of citizens from all walks of life without fear. It is diverse and therefore productive. Adapting to new needs, and accommodating new people, it becomes the stage for new expressions of culture, new businesses, and new ways of doing.

In form, it comprises a set of compact settlements, large and small, surrounded by natural and productive landscapes, and linked using public transport. Internally, settlements are relatively dense, cyclable and walkable. Each portrays a unique character, closely linked to its surrounding landscape, the reach and extent of its public institutions, and the capacity and opportunity of its infrastructure. Each provides for a range of citizens from all walks of life, with significant choice in place of residence."

4.6.2 Strategic Focus and Spatial Alignment between the IDP and SDF

The table below illustrates how work on the SDF relates – in terms of its focus and contribution – to achieving the five municipal strategic focus areas as contained in the IDP.

Table 30: IDP Strategic Focus Areas and the SDF

IDP Strategic Focus Area	Related concerns of the SDF	SDF Strategic Direction
SFA1: Valley of Possibility	The way settlements, nature and agriculture are spatially developed and managed to enhance individual and collective livelihood opportunities and enterprise development and overcome inequity and exclusion.	 Containment of settlements to protect nature / agricultural areas and enable public and non-motorised transport and movement.  A focus on public and non-motorised transport and movement.
SFA2: Green and Sustainable Valley	The way settlements, nature and agricultural areas are spatially developed and managed to maintain and enhance natural resources and ensure a future balance between human settlement and its use of natural resources and opportunity.	Protection of natural areas, agricultural areas, and river corridors.
SFA3: Safe Valley	The way settlements, nature and agricultural areas are spatially developed and managed to ensure individual and collective safety in living, in movement, at work, institutions, and play.	Denser settlements with diverse activity to ensure surveillance.
SFA4: Dignified Living	The way settlements, nature and agricultural areas are spatially developed and managed to ensure equal access to shelter, facilities and services, notwithstanding material wealth, age, gender, or physical ability.	A specific focus is on the needs of "ordinary" citizens, experiencing limited access to opportunity because of restricted available material resources.
SFA5: Good Governance and Compliance	The way settlements, nature and agricultural areas are spatially developed and managed to ensure individual and collective participation – based on accessible information and open processes – in matters related to spatial planning and land use management.	Presenting information, including opportunities and choices in a manner that assists its internalisation by all.

4.6.3 Spatial Proposals and Structuring elements of the SDF

The conceptual framework extracted from the SDF shows the expression of the seven key principles, which include:

Maintain and grow the assets of Stellenbosch's natural environment and farming areas

- ✚ The spatial policies that relate to this principle, focus on protective actions, also called urban management.
- ✚ The intent is to protect and expand priority conservation areas, establish ecological linkages, and preserve high-potential agricultural land within the municipality.
- ✚ Resist the subdivision of viable agricultural land, unless it forms part of a new balanced, integrated, and inclusive settlement supportive of the SDF objectives (including settlement hierarchy), and rural guidelines.
- ✚ Support compatible and sustainable rural activities outside the urban edge (including tourism) if these activities are of a nature and form appropriate in a rural context, generate positive socio-economic returns, and do not compromise the environment, agricultural sustainability, or the ability of the municipality to deliver on its mandate.

Respect, preserve, and grow our cultural heritage

- ✚ The spatial policies that relate to this principle, focus on protective actions around specific spatial elements, e.g., scenic landscapes, scenic routes, and special places of arrival, while also focusing on improving the landscape and public amenities associated with these cultural assets.
- ✚ The intent is to preserve significant cultural and historic assets within the municipality and to grow the opportunity for new or emerging forms of cultural expression through expanding the use of cultural assets or supporting new uses for areas or structures of historic value.
- ✚ As far as possible, protect cultural landscape assets – including undeveloped ridgelines, view corridors, scenic routes, and vistas – from development.

Direct growth to areas of lesser natural and cultural significance as well as movement opportunity

- ✚ The spatial policies that relate to this principle, focus on protective actions around specific spatial elements e.g. maintaining the urban edge and following the defined settlement hierarchy.
- ✚ In addition to the abovementioned, spatial policies are directed at urban restructuring and spatial transformation (also referred to as change and new development actions) and include, informal settlement upgrading; residential densification and infill development; mixed land use and improved economic opportunity; improved access and mobility; improved access to community facilities; and improved landscaping and public amenities.

The spatial policies are spatially targeted in priority development areas and include Baden Powell Adam Tas-R304 corridor for growth and new development; Stellenbosch town and Klapmuts. Clarify and respect the different roles and functions of existing settlements

- ✚ The spatial policies that relate to this principle, focus on protective actions around specific spatial elements e.g. maintaining the urban edge and following the defined settlement hierarchy. In clarifying and respecting the different roles and potentials for settlements within the municipality, the natural and cultural assets are protected, whilst ensuring that the capacity of existing infrastructure can accommodate change and growth.
- ✚ The spatial policies that are directed at urban restructuring and spatial transformation within the hierarchy of settlements focus on new growth and development primarily in larger settlements (as referenced in principle 3 above), to:
 - a) Minimise associated impacts on the environment, agricultural land, and natural resources.
 - b) Maximise the livelihood opportunity (also referred to as quality of life) by building on the

- availability of existing public facilities and commercial opportunities.
- c) Maximise the sustainability of new facilities and commercial opportunities.
- d) Enable the provision of infrastructure most efficiently and cost-effectively.
- e) Minimise the need for inter-settlement movement.
- f) Maximise opportunity for and use of non-motorised and public transport.
- g) Minimise growth in smaller settlements where opportunity is limited while improving access to local services and facilities (required daily).
- h) Maintain and enhance the unique historic, cultural, and settlement characteristics of different settlements.

Clarify and respect the roles and functions of different elements of the movement structure

- ✚ The spatial policies that are directed at urban restructuring and spatial transformation within the hierarchy of settlements ensure a balanced approach to transport in the municipality, that appropriately serves regional mobility needs and local-level accessibility improvements.
- ✚ The spatial policies actively promote compact, dense, mixed-use development, which reduces and promotes non-motorised and public transport.

Ensure balanced, sustainable communities

- ✚ The spatial policies that are directed at urban restructuring and spatial transformation within the hierarchy of settlements (including maintaining the urban edge) work towards and maintain, for each settlement, a compact urban form and structure to achieve better efficiency in service delivery and resource use, the viability of non-motorised and public transport, and facilitate inclusion, integration, and entrepreneurship development.
- ✚ Adopting a conservative view towards the extension of existing urban edges over the SDF period.
- ✚ Actively support infill development and adaptive reuse of existing structures.
- ✚ Support increased densities in new, infill, and redevelopment projects.
- ✚ Rationalise space standards – especially for social facilities – and release surplus land for other uses, specifically housing.
- ✚ Support the general upgrading and transformation of existing informal settlements.
- ✚ Expand housing opportunities for a broader range of groups – including lower-income groups and students – particularly in settlements forming part of the Baden Powell-Adam Tas-R304 corridor.
- ✚ Provide and maintain a system of accessible social facilities, integrated with public space and non-motorised transport (NMT) routes.
- ✚ Provide and maintain an urban open space / public space system integrated with public transport / NMT, social facilities, and linked to natural assets.
- ✚ Ensure work and commercial opportunities are accessible through public transport and NMT to all communities and provide opportunities to emerging and small entrepreneurs.
- ✚ Ensure that all settlements are balanced and sustainable, providing for different groups, maintaining minimal development footprints, walkability, and so on.

Focus collective energy on a few catalytic areas that offer extensive opportunity and address present risk

- ✚ The spatial policies focussed on major development efforts concerning new mixed-use, industrial, and residential developments and significant changes in access and mobility are spatially targeted in the Adam Tas Corridor (Stellenbosch town) and Klapmuts.

Figure 18: Consolidated Concept for the Municipal Area (Approved November 2019)

4.7 SDF and CEF Implementation Frameworks

The SPLUMA guidelines require, as part of the *mSDF*, a high-level Implementation Framework setting out the required measures that will support the adoption of the SDF proposals while aligning the capital investment and budgeting process moving forward. The SDF, and CEF Implementation Framework comprises the following sections:

A proposed settlement hierarchy.

- A proposed settlement hierarchy to inform and guide the investment rationale.
- Priority development areas and themes.
- A policy framework (linked to strategies).
- Guidelines, studies, and information supporting the policies.
- Implications for sector planning and specific development themes, including:
 - o Movement;
 - o Housing; and
 - o Local economic development.
- Implications for inter-municipal planning
- Land use management and regulations.
- Catalytic initiatives.
- Further planning work.
- Institutional arrangements.
- Checklists in support of decision-making.
- A municipal leadership and advocacy agenda related to spatial development and management.

4.7.1 Settlement hierarchy, priority development areas and themes

In terms of the SDF concept, prioritisation of development – at a broad level – is done through two main spatial structuring elements. The first is spatial and targeted at significant future growth in functional and priority development areas. The second is sectoral or thematic, focused on the kind of development to be prioritised.

The functional and priority development areas are categorised into urban and rural nodes and are depicted in the figure below, with the detailed description provided in the table:

The spatial areas for priority development over the SDF planning period are:

- Stellenbosch Town;
- Klapmuts; and
- Franschhoek (maintenance).

In terms of sectoral or thematic focus, the spatial development priority in all settlements should be to:

- Upgrade the servicing and transformation of informal settlements;
- Provide housing for lower-income groups in well-located areas (specifically through infill of vacant and underutilised land or redevelopment of existing building footprints);
- Expand and improve public and NMT routes;
- Improve public and community facilities and places (e.g. through clustering, framing them with infill development to improve edges and surveillance, prioritisation for landscaping, and so on); and
- Expand the recognition, restoration, and exposure of historically and culturally significant precincts and places (both in the form and use of precincts and places).

Figure 19: Functional and priority development areas (CEF, March 2021)

The proposed settlement hierarchy for SM, supporting the spatial plan and proposals for the settlement as a whole, is outlined in the table below.

Table 31: Proposed settlement hierarchy for the Stellenbosch Municipality

Settlement	Role	Development and Land Use Management Focus
Primary urban settlements		
Stellenbosch town (Urban node - A)	A significant centre comprising extensive education, commercial and government services with a reach both locally and beyond the borders of the municipality, tourism attractions, places of residence, and associated community facilities.	<ul style="list-style-type: none"> Broadening of residential opportunity for lower-income groups, students, and the lower to middle housing market segments. Upgrade of informal settlements. Retention of University functions in the town. Enablement of the Adam Tas Corridor. Sensitive residential infill and compaction. Drive to established “balanced” precincts. Public transport development, travel demand management, parking controls, and NMT improvements.
Klapmuts (Urban node - B)	Focus on economic development (utilising a favourable location for manufacturing, logistics, and warehousing enterprises) and associated residential opportunities	<ul style="list-style-type: none"> Support for the development of RE / Farm 736 as a lever to economic development utilising a favourable location for manufacturing, logistics, and warehousing enterprises. Balanced housing provision in Klapmuts South, focused on those who can benefit from employment provision through unlocking Klapmuts North. Establishing the Klapmuts town centre. NMT improvements.
Franschhoek (Urban node - C)	Secondary service centre, significant tourist destination, and place of residence.	<ul style="list-style-type: none"> Upgrade of informal settlements. NMT improvements. Sensitive infill within urban edge providing inclusive housing and extended commercial opportunity (also for small and emerging entrepreneurs). Retention of historic character.
Secondary urban settlements		
La Motte (Rural node – 11)	Contained rural settlement.	<ul style="list-style-type: none"> Diversification of existing activities to curtail the need for movement. Sensitive location of diversified uses closer to the R45. Limited further housing development.
Wemmershoek (Rural node – 10)	Contained rural settlement.	<ul style="list-style-type: none"> Possible extension of residential opportunity linked to re-use of the saw-mill site and local employment opportunity.
Groot Drakenstein (Rural node – 7)	Contained rural settlement.	<ul style="list-style-type: none"> Accommodation of sensitive private and public sector initiatives offering expanded livelihood (including tourism) and residential opportunities.
Dwars River Valley (Rural nodes – 8 and 9)	Contained historic rural settlements.	<ul style="list-style-type: none"> Accommodation of sensitive private and public sector initiatives offering expanded livelihood (including tourism) and residential opportunities.
Jonkershoek (Rural node)	Contained, but a dispersed collection of institutional, recreational and residential uses.	<ul style="list-style-type: none"> Potential future consolidated, inclusive settlement linked to rail / bus.
Muldersvlei (Rural node – 1)	Contained rural settlement.	<ul style="list-style-type: none"> Potential future consolidated, inclusive settlement linked to rail / bus.
Koelenhof (Rural node – 2)	Contained rural settlement.	<ul style="list-style-type: none"> Potential future consolidated, inclusive settlement linked to rail / bus.
Vlottenburg (Rural node – 3)	Contained rural settlement.	<ul style="list-style-type: none"> Gradual expansion of a unique development model based focused on sustainable living and education.
Lynedoch (Rural node – 5)	Contained village and institutional clusters.	<ul style="list-style-type: none"> Containment and limited expansion of existing offerings.
Spier (Rural node – 4)	Contained tourism and cultural centre.	<ul style="list-style-type: none"> Protection of unique historic settlement structure and form.
Raithby (Rural node – 6)	Contained historic rural settlement.	<ul style="list-style-type: none"> Potential future consolidated, inclusive settlement linked to rail/ bus.

Over the longer term, Muldersvlei / Koelenhof and Vlottenburg / Lynedoch along the Baden Powell-Adam Tas-R304 could accommodate more growth and be established as inclusive settlements offering a range of opportunities. However, much work needs to be done to ensure the appropriate make-up of these settlements (including each providing opportunity for a range of income groups) and integration with the corridor in terms of public transport. They are therefore not prioritised for

significant development over the *SDF* period. Should significant development be enabled in these areas now, it is likely to be focused on private vehicular use and higher-income groups (in gated developments), and will in all probability reduce the potential of initiatives to transform Stellenbosch town and Klappmuts.

The focus on Stellenbosch town and Klappmuts does not exclude all development efforts in Franschhoek and the smaller settlements. Rather, it is argued that these settlements should not accommodate significant growth as the pre-conditions for accommodating such growth do not exist to the same extent as in Stellenbosch town and Klappmuts.

What should be emphasised in Franschhoek and smaller settlements are improving conditions for existing residents and natural growth within the context of retaining what is uniquely special in each (from the perspective of history, settlement structure and form, relationship with nature and agriculture, and so on).

4.7.2 Policy Framework

The table below sets out specific spatial policies to support the *SDF* concept and settlement plans. In using the policy framework, it is important to note that one specific policy or guideline should not be highlighted or used exclusively to support a specific initiative. Rather, each policy supports the other; each "frames" the other. Thus, initiatives or proposals should be evaluated in terms of the policy framework as a whole.

Further, the successful implementation of spatial policies and guidelines is often dependent on related, supportive, non-spatial policies. This implies policy alignment across municipal functional areas and services.

The table also includes specific work guidelines that begin to frame the work to be undertaken or continued in support of proposed policies.

The table also includes specific work guidelines that begin to frame the work to be undertaken or continued in support of proposed policies.

Table 32: Specific work guidelines

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
1.	Maintain and grow the assets of SM's natural environment.	<ul style="list-style-type: none"> As far as possible, protect and expand priority conservation areas, establish ecological linkages, and preserve high-potential agricultural land within the municipality. Resist the subdivision of viable agricultural land unless it forms part of a new balanced, integrated, and inclusive settlement supportive of the <i>mSDF</i> objectives, an agri-village in line with provincial policy for the settlement of farmworkers, or the formalisation of the "urban" component of existing forestry settlements (for example, Jonkershoek and La Motte). Support compatible and sustainable rural activities outside the urban edge (including tourism) if these activities 	<ul style="list-style-type: none"> Proactively maintain and upgrade municipal infrastructure services to limit / mitigate risk to ecological services. Support initiatives to protect water resources, rehabilitate degraded aquatic systems, retrofit or implement water demand management systems, and mainstream water conservation. Support energy diversification and energy efficiency initiatives to enable a transition to a low-carbon, sustainable energy future. Support initiatives to extend public access to natural assets without compromising the integrity of natural areas or ecological services. Support initiatives by the private sector to extend environmental stewardship. Assist in initiatives to diversify, strengthen, and open up new opportunities and jobs in the rural economy, including the identification of strategically located land for land reform purposes. 	<ul style="list-style-type: none"> Prepare and implement management plans for municipal nature reserves and other ecological assets. Prepare and implement invasive species control plans for municipal properties. Prepare and implement initiatives for the rehabilitation of rivers and wetlands in urban areas. Develop resource-efficient strategies for all municipal services and land and building development (e.g. compulsory green energy installations in building development, greywater circulation, sustainable urban drainage, etc.). Utilise and contribute to municipal and provincial mapping and planning initiatives that inform land-use decision-

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		<p>are of a nature and form appropriate in a rural context, generate positive socio-economic returns, and do not compromise the environment, agricultural sustainability, or the ability of the municipality to deliver on its mandate.</p>	<ul style="list-style-type: none"> Support initiatives to utilise municipally-owned agricultural land for small-scale agriculture, forge partnerships with non-governmental or public benefit organisations to assume management responsibilities for commonages, and provide basic agricultural services to commonages. 	<p>making supportive of ecological integrity, securing natural resources, and protecting agricultural land of high value.</p> <ul style="list-style-type: none"> Delineate and manage urban edges and watercourse setbacks in a manner that diverts urban growth pressures away from important natural and agricultural assets. Apply biodiversity offsets in cases where development in areas of endangered and irreplaceable biodiversity cannot be avoided. Actively engage with adjoining municipalities and provincial government to ensure that the integrity of SM's natural environment is maintained (specifically regarding land use management in adjoining municipal areas).
2.	Respect, preserve and grow the cultural heritage of SM.	<ul style="list-style-type: none"> Preserve significant cultural and historic assets within the municipality and grow the opportunity for new or emerging forms of cultural expression through expanding the use of existing cultural assets or supporting new uses for areas or structures of historic value. As far as possible, protect cultural landscape assets – including undeveloped ridgelines, view corridors, scenic routes, and vistas – from development. Support alternative uses for historic structures and places that will enable their preservation (subject to adherence to the general <i>mSDF</i> strategy and policies). 	<ul style="list-style-type: none"> Support the transfer of municipal assets of cultural and historic value to organisations geared to manage these assets sustainably in the interest of the broader community. Manage heritage places and structures in terms of the recommendations of municipal heritage studies. 	<ul style="list-style-type: none"> Maintain and utilise municipal and inter-governmental evaluation and mapping initiatives to inform land-use decision-making supportive of cultural integrity and secure historic places and structures. Actively engage – continuously – with adjoining municipalities and the provincial government to ensure that the integrity of SM's heritage is maintained (specifically regarding land use management in adjoining municipal areas).

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
3.	<p>Direct significant growth or new development in SM to areas:</p> <ul style="list-style-type: none"> • Not identified as having the most critical natural or cultural significance. • Where the most opportunity exists in existing infrastructure investment, whether reconfigured, augmented, or expanded. 	<ul style="list-style-type: none"> • Prioritise the targeted settlements on the Baden Powell-Adam Tas-R304 corridor for growth / new development. • Over the <i>mSDF</i> period, focus on Stellenbosch town and Klapmuts to accommodate significant new growth. 	<ul style="list-style-type: none"> • Align the policy and planning of all municipal services to support accommodating significant growth and new development as proposed in specific areas. • Progressively utilise the municipality's significant asset of land as a resource to direct major growth or new development to areas not identified as of the most critical natural or cultural significance. • Allocate municipal funds for land acquisition in areas identified as most suitable for growth or new development (specifically for development as lower-income housing). 	<ul style="list-style-type: none"> • Together with the WCG, undertake inter-service investigations to determine the exact location, size, nature, and form of new settlement areas to accommodate new growth. • Develop specific framework planning, land use management, infrastructure, financial, and urban design provisions and directives to ensure the optimal development of identified settlement areas to accommodate new growth.
4.	<p>Clarify and respect the different roles and potentials of settlements in SM and maintain the identity of each.</p>	<ul style="list-style-type: none"> • Ensure that each settlement – large and small – remains a distinct entity, surrounded by natural open space and agricultural land. • Maintain a clear hierarchy of settlements that (in general terms) focuses on new growth and development in larger settlements to: <ul style="list-style-type: none"> – Minimise associated impacts on the environment, agricultural land, and natural resources. – Maximise livelihood opportunities by building on the availability of existing public facilities and commercial opportunities. – Maximise the sustainability of new facilities and commercial opportunities. – Enable the provision of infrastructure most efficiently and cost-effectively. – Minimise the need for inter-settlement movement. – Maximise opportunity for and use of non-motorised and public transport. • Minimise growth in smaller settlements where opportunity is limited while improving access to local services and facilities (required daily). • Maintain and enhance the unique historic, 	<ul style="list-style-type: none"> • Align the policy and planning of all municipal services to support the proposed settlement hierarchy and development / management approach. • Reinforce the role of Stellenbosch town as a regional service and tourism centre focused on higher-order educational, health, government, and commercial uses, as well as unique historic assets. • Reinforce the role of Klapmuts as a potential regional logistics / warehousing / manufacturing hub – with associated residential opportunity – based on its location at the intersection of the N1 and regional north / south movement routes. • Maintain Franschhoek as a centre for tourism and culture with limited growth potential. 	<ul style="list-style-type: none"> • Support the re-location of land extensive manufacturing, logistics, and warehousing enterprises from Stellenbosch town to Klapmuts. • Maintain the nature and form of small rural settlements while enabling small changes towards improving livelihood opportunities.

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		cultural, and settlement characteristics of different settlements.		
5.	Ensure a balanced approach to transport in SM, that appropriately serves regional mobility needs and local-level accessibility improvements.	<ul style="list-style-type: none"> Actively promote compact, dense, mixed-use development that reduces car dependence and enables and promotes the use of public and NMT. 	<ul style="list-style-type: none"> Shift municipal resources to include a greater focus on non-motorised, shared vehicle travel, and public transport solutions. Establish measures to ensure that there is inter-service agreement on the settlement hierarchy, settlement roles, associated functions, modes of transport to be carried out, and development / management approach to be followed concerning different sections of the municipal movement network. Work with the provincial and national governments to affirm the proposed categorisation of movement forms, and associated infrastructure and management needs in Stellenbosch. Proactively seek management of travel demand among key stakeholders in SM, in such a manner that significantly higher passenger volumes are gradually achieved from existing transport infrastructure. Proactively allocate resources to improve NMT in the municipal area. Strengthen the role played by rail-based public transport, including advocating for a new, lighter, frequent rail service on the Eerste River / Klapmuts rail line as the backbone of transport movement along the Baden Powell-Adam Tas-R304 corridor. 	<ul style="list-style-type: none"> Assess future transport development / improvements concerning the impact on the complete settlement system. Guard against needed / required vehicular routes of necessity resulting in the development of undeveloped land traversed by the route.
6.	Develop all settlements as balanced, inclusive, appropriately serviced, communities, negotiable through NMT and exhibiting a positive relationship with surrounding nature and agricultural land.	<ul style="list-style-type: none"> Work towards and maintain – for each settlement in the municipality – a compact form and structure to achieve better efficiency in service delivery and resource use, the viability of public and NMT, and facilitate inclusion, integration, and entrepreneurship development. Adopt a conservative view towards the extension of existing urban edges over the <i>mSDF</i> period. Actively support infill development and the adaptive reuse of existing structures. Support increased densities in new, infill, and redevelopment projects. Rationalise space standards – especially for social facilities – and 	<ul style="list-style-type: none"> Proactively drive transport demand management programmes (specifically in and around Stellenbosch town) to curtail private vehicle use. Shift more transport resources to the development and operation of effective public transport services and the comprehensive provision of NMT. 	<ul style="list-style-type: none"> Review the delineation of restructuring zones to support the <i>mSDF</i> objectives. Support development which emphasises public transport / NMT as opposed to private vehicular use. Integrate spatial planning, transport planning (emphasis on public and NMT), and social facilities planning. Move away from self-reinforcing conditions for development in terms of car parking minimum standards, and ensure the active participation and collaboration between landowner, developer, and municipality towards the provision of alternatives to car use. Actively engage – continuously – with adjoining municipalities and provincial

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
		release surplus land for other uses, specifically housing.		government to ensure that the integrity of SM's settlements as contained, and balanced communities are maintained (specifically about land use management in adjoining municipal areas).
		Support the general upgrading and transformation of existing informal settlements.	<ul style="list-style-type: none"> • Prioritise basic residential services for poor households, specifically in informal settlements, backyard dwellings, and a minimum level of basic services to marginalised rural settlements. • Resist existing informal settlements being the only viable settlement option for poor households by supporting the identification and servicing of alternative areas for settlement. • Ensure that asset management best practice is followed to maintain existing infrastructure investment and prevent greater replacement cost in future. • Reinforce basic service delivery with good quality urban management to support household and economic asset development. 	<ul style="list-style-type: none"> • Put in place an inter-governmental portfolio of land (existing and earmarked for purchase), an agreed land preparation programme, and a release strategy, for publicly assisted, lower-income housing (including the BNG, FLISP, social / rental, and GAP markets). • Identify alternative settlement locations for poor households, over and above existing informal settlements. • To assist the municipality in housing provision, and support initiatives to house farmworkers on farms (in a manner that secures tenure).
		Expand housing opportunities for a broader range of groups – including lower-income groups and students – particularly in settlements forming part of the Baden Powell-Adam Tas-R304 corridor.	<ul style="list-style-type: none"> • The planning of infrastructure and social facilities should accommodate the likelihood of back-yarding and its contribution to livelihood strategies. 	<ul style="list-style-type: none"> • Develop an inclusionary housing policy and guidelines. • Prioritise infill housing opportunities on public land for the BNG, FLISP, social / rental, and GAP markets. • Where possible, proactively plan for back-yarding opportunities in lower-income housing projects. • Actively support the development of student housing in Stellenbosch town.
		Provide and maintain a system of accessible social facilities, integrated with public space and public and NMT routes.	<ul style="list-style-type: none"> • Reinforce social facilities with good quality urban management to ensure service excellence and sustainability. • Focus on fewer but better social facilities. 	<ul style="list-style-type: none"> • Cluster social facilities. • Locate facilities in association with public space and public and NMT routes.
		Provide and maintain an urban open space / public space system integrated with public transport / NMT, social facilities, and linked to natural assets (e.g. river corridors).	<ul style="list-style-type: none"> • Prioritise open / public space development in poor and denser neighbourhoods of the municipality. • Reinforce open / public space with good quality urban management to ensure use and safety. 	Ensure that the edges between building development and open spaces promote activity and passive surveillance.
		Ensure work and commercial opportunities are accessible through public and NMT to all communities and provide opportunities for emerging and small entrepreneurs.		<ul style="list-style-type: none"> • Avoid large retail malls and office parks in peripheral locations reliant on private vehicular access and which detract from the viability of established commercial and work

No.	Strategy	Spatial Policy	Non-Spatial, Supportive Policy	Work Guidelines
				areas, and lock out small entrepreneurs.
7.	Actively seek conditions to enable the private and community sectors to align their resources and initiatives with the <i>mSDF</i> principles and proposals.	Conscious of public resource constraints, actively seek and support private and community sector partnerships to expand livelihood opportunities, settlement opportunities for ordinary citizens, and the national imperative to expand participation in the economy.	Develop an incentives package to support private and community sector partnerships in achieving the <i>mSDF</i> principles and proposals.	<ul style="list-style-type: none"> • Enable private and community sector participation by making known the municipality's spatial principles and intent in user-friendly communicate and guidelines. • Require private landowners in key areas to plan and coordinate development collectively (beyond individual property boundaries and interests) to ensure appropriate infrastructure arrangements, the provision of inclusionary housing, public facilities, and so on.
8.	Focus major development energy in SM on a few catalytic development areas that offer extensive, inclusive opportunities.	Focus major development effort in SM on: <ul style="list-style-type: none"> • Unlocking development in Klapmuts North. • The Adam Tas Corridor (in Stellenbosch Town). 	<ul style="list-style-type: none"> • Communicate municipal objectives and principles – across functional areas and services – for development and urban management in catalytic areas. • Seek landowner, provincial government, and national government support to develop catalytic areas in the best public interest. • Support the establishment of institutional arrangements solely dedicated to enabling the development of catalytic areas and proceed with work to detail the broader plan and activity programme. • Align municipal infrastructure and social services planning to support development in catalytic areas. • Use municipal and government-owned land assets to support development in catalytic areas. 	<ul style="list-style-type: none"> • Ensure that catalytic areas be developed as inclusive, appropriately serviced communities, negotiable through NMT and exhibiting a positive relationship with surrounding nature and agricultural land. • Prepare land use management measures to enable development in catalytic areas. • Define catalytic areas as “restructuring” or other special-measure areas to enable benefit from national and provincial support and incentives.

4.8 Catalytic Initiatives - Adam Tas Corridor (ATC) Local Areas Spatial Development Framework, Development Guidelines (October 2022) and overlay zone

Large industrial spaces, including land that was formerly home to Cape Sawmills and Distell facilities, make up the most strategically located land in Stellenbosch town. A significant proportion of these have been vacated or will be vacated in the foreseeable future in response to changes in the operating context of manufacturing enterprises. Thoughtful redevelopment of these spaces – at scale – can contribute meaningfully to meeting existing challenges and SDF objectives.

In simple terms, the concept is to launch a process of re-imagining and re-purposing the land around Adam Tas Road within Stellenbosch town to enable the maximum potential of this space. This will entail the redevelopment of the Adam Tas Corridor, which includes, the area stretching along the R310 and R44 along the foot of Papegaaiberg, from the dis-used Cape Sawmills site to the west of Kayamandi and Cloetesville along the north part of this corridor.

It forms the western edge of the town but is not well integrated with the rest of Stellenbosch, largely because of the barrier / severance effect of the R44 and the railway line. Much of the area was

historically used for light industrial and manufacturing purposes. It includes the disused Sawmill site, the government-owned Droë Dyke area, Distell's Adam Tas facility, Oude Libertas, various Remgro property assets, Bosman's Crossing, the rail station, the Bergkelder complex, the Van der Stel sports complex, the George Blake Road area, and parts of Kayamandi and Cloetesville. Under-utilised and disused land in the area measures more than 300ha.

Conceptually, a linear new district within Stellenbosch is envisaged adjacent to and straddling (in places) Adam Tas Road, the R44, and the railway line. Overall, development should be residentially led with a strong mixed-use basis and high density and should favour non-motorised ("NMT") access to the centre of Stellenbosch Town. It is estimated that the Adam Tas Corridor, through a preliminary development conceptual framework, will produce approximately 3 million square metres of bulk within a 293-hectare area, with 69% earmarked for residential usage.

A central movement system (with an emphasis on public transport and NMT) forms the spine of the area and is linked to adjacent districts south and west of the corridor. The corridor retains west-east and north-south vehicular movement (both destined for Stellenbosch town and through movement) as well as the rail line. Remote parking facilities will enable ease of access within the corridor concept, with passengers transferring via public transport, cycling, and walking to reach destinations within the town of Stellenbosch.

The corridor is not envisaged as homogenous along its length, with uses and built forms responding to existing conditions and its relationship with surrounding areas. Conceptually, three (3) areas could be defined, each linked through a sub-district.

- ✚ Grow Stellenbosch town – and accommodate existing demand – in a manner that prevents sprawl, and creates conditions for efficient, creative living and working;
- ✚ Stimulate and act as a catalyst for the development of improved public transport and NMT;
- ✚ Rethink and reconstruct infrastructure, particularly the movement system, including the possible partial grade separation of east-west and north-south movement systems, in turn, integrating the east and west of town and releasing land for development;
- ✚ Integrate Kayamandi and Stellenbosch town seamlessly;
- ✚ Shift the new development focus to the west of town, with the Die Braak and Rhenish complex forming the centre and seam between the new west and east of Stellenbosch town;
- ✚ Investigating options for alternative parking provision initiatives in and around the town while the corridor provides for and promotes a greater focus -on non-motorised transport;
- ✚ Accommodate uses that meet urgent needs, specifically higher density housing and university expansion, while also assisting in establishing a compact, less sprawling town, public transport, and NMT; and
- ✚ Increases land value east of the R44 and in the area between Kayamandi and the Bergkelder complex.

Along the corridor as a whole – depending on local conditions – significant re-use of existing buildings is envisaged. This is seen as a fundamental prerequisite for diversity, in-built character and activity (as re-purpose offers the opportunity for great a variety of spaces). Aspects of the industrial history of the area should remain visible. A range of housing typologies accommodates different income groups and family types.

Redevelopment in terms of the concept offers the opportunity to:

- ✚ Re-imagine the future use of the land encompassed in the ATC;
- ✚ Grow Stellenbosch town – and accommodate existing demand – in a manner which prevents sprawl, and creates conditions for efficient, creative living and working;
- ✚ Stimulate and act as a catalyst for the development of improved public transport and NMT;
- ✚ Reconstruct infrastructure, and particularly the movement system, including the possible partial grade separation of east-west and north-south movement systems, in turn, integrating the east

- and west of town and releasing land for development;
- Integrate Kayamandi and Stellenbosch town seamlessly;
- Shift new development focus to the west of town, with Die Braak and Rhenish complex forming the centre and seam between the new west and east of Stellenbosch town;
- Investigate options for alternative parking provision initiatives in and around the town whilst the corridor provides for and promotes a greater focus on non-motorised transport; and
- Accommodate uses that meet urgent needs, specifically higher density housing and university expansion, also assisting in establishing a compact, less sprawling town, public transport, and NMT.

Existing manufacturing enterprises can gradually relocate to the north, closer to the N1 logistics corridor (as planned by Distell for their operations).

A Local Spatial Development Framework ("LSDF") for the Adam Tas Corridor as well as comprehensive development guidelines were formally approved by the Council in October 2022 and will be used as the enabling planning framework to realise the implementation of the Adam Tas Corridor over the next 3 – 20 years. This LSDF includes an Implementation Framework that will guide in respect of the following:

- Most appropriate Land Use Strategy;
- Action Areas / Catalytic Projects;
- Framework for Investment; and
- Other enabling Interventions.

Following the implementation framework, the drafting of an overlay zone for the Adam Tas Corridor is currently being prepared and will be included as a special zone in the Stellenbosch Municipality Land Use Planning Bylaw. The purpose of the overlay zone is to award the zoning rights envisaged by the Adam Tas Corridor LSDF to the individual land portions, together with the conditions applicable to each property, for the land owner to take up these rights.

Institutional arrangements are critical, which include all spheres of government, private stakeholder involvement, and established partnerships. It would include a broad agreement between landowners and the municipality to pursue the corridor development concepts.

To assist Stellenbosch Municipality in coordinating the implementation of the Adam Tas Corridor LSDF and development guidelines, a project management unit is envisaged to be created to coordinate, plan, and assist with the implementation of development along the corridor. The project management unit will be formed on an equal basis between the municipality and the private sector involved with the Adam Tas corridor. The purpose of the project management unit is to provide additional capacity and expertise to manage and implement the vision of the Adam Tas corridor.

The Adam Tas Corridor is the start of Stellenbosch's emerging urban transformation district, and the vision is to create an integrated urban development corridor that is liveable, safe, resource-efficient, socially integrated, economically inclusive, and globally competitive, in which all citizens can actively participate. The Adam Tas Corridor concept will require sustained, committed work over a prolonged period, trade-offs, and a departure from current norms, i.e., investigation of overlay zones, e.g., Urban Development Zones ("UDZ"), Special Rating Areas ("SRA"), etc., to be included within the Stellenbosch Municipality Zoning Scheme By-law, 2019.

The emerging objectives for the Adam Tas Corridor are as follows:

- Re-purposing and transforming Stellenbosch Town, using existing under-utilised assets in a manner to benefit all and address critical needs;
- Establishing a process and plan which gives certainty and sufficient flexibility to accommodate the unknown while enabling a *"starting through sharing, learning by doing and using small steps to inform the next methodology"*;

The Greater Cape Metro Regional Spatial Implementation Framework (RSIF) contains very specific policy directives related to Klapmuts, aimed at addressing pressing sub-regional and local space economy issues. Key policy objectives include:

- Using infrastructure assets (e.g. key movement routes) as “drivers” of economic development and job creation;
- Recognition that existing infrastructure in the area (i.e. N1, R101, R44 and the Paarl-Bellville railway line and station) dictate the location of certain transport, modal change or break-of-bulk land uses;
- Recognition of the Klapmuts area as a significant new regional economic node within the metropolitan area and spatial target for developing a “consolidated platform the for export of processed agri-food products (e.g. inland packaging and containerisation port)” and “an inter-municipal growth management priority”;
- The consolidation of and support for existing and emerging regional economic nodes as they offer the best prospects to generate jobs and stimulate innovation;
- The clustering of economic infrastructure and facilities along public transport routes;
- Maintaining valuable agricultural and natural assets; and
- Providing work opportunities in proximity to living areas.

There is no doubt that Klapmuts is a potentially significant centre for economic activity and residence within the metropolitan region and SM, as it is located on the N1 transport corridor, which carries 93% of metropolitan freight traffic. To date, the settlement is characterised by residential use and limited commercial and work-related activity.

Public sector resource constraints have prevented the infrastructure investment required to enable and unlock the full potential of the area for private sector economic development as envisaged in the GCM RSIF.

The decision by Distell Limited to relocate to and consolidate its operations in Klapmuts is critical to the more balanced development of the settlement. Distell Limited proposes to develop a beverage production, bottling, warehousing, and distribution facility on Paarl Farm 736/RE, located north of the N1, consolidating certain existing cellars, processing plants, and distribution centres in the Greater Cape Town area. The farm measures some 200 ha in extent. The beverage production, bottling, warehousing, and distribution facility will take up approximately 53 ha.

The project proposal includes commercial and mixed-use development on the remainder of the site, which is not environmentally sensitive, to provide opportunities for both Distell's suppliers to co-locate and for other business development in the Klapmuts North area. The site does not have municipal services, and the proposed development will therefore require the installation of bulk service infrastructure, including water, wastewater treatment, stormwater electricity, and internal roads.

Significant progress has been made in planning for an "Innovation Precinct" or "Smart City" district west of but contiguous to Klapmuts south. This includes a land agreement with the University of Stellenbosch to possibly establish university-related activities in this area. The urban edge has been adjusted in recognition of the opportunity associated with this initiative (see the figure below for the concept Development Framework).

Figure 21: Concept Development Framework

Figure 56. The proposed Klapmuts "Innovation Precinct" Concept (Osmond Lange Architects and Planners)

Several issues require specific care in managing the development of Klapmuts over the short to medium term.

- ✚ The first is speculative applications for land use change on the back of the proposed Distell development. Already, a draft local plan prepared by DM has indicated very extensive development east of Farm 736/RE. Distell will not fund the extensive infrastructure required to unlock development here, and arguably, land use change to the east of Farm 736/RE could detract from the opportunity inherent in Farm 736/RE;
- ✚ The second is the linkages between Klapmuts north and south, specifically along Groenfontein Road, and a possible NMT crossing over the N1, linking residential areas south of the N1 directly with Farm 736/RE. Without these linkages, residents to the south of the N1 will not be able to benefit from the opportunities enabled north of the N1; and
- ✚ The third is a speculative higher-income residential development in the Klapmuts area, based on the area's regional vehicular accessibility. Higher-income development is not a problem in and of itself, but ideally, it should not be in the form of low-density gated communities.

Given that management of Klapmuts is split between DM and SM (respectively responsible for the area north and south of the N1), special arrangements will be required to ensure that the settlement as a whole develops responsibly in a manner that ensures thoughtful prioritisation, infrastructure investment, and opportunity for a range of income groups.

Arguably, recent LSDF planning work commissioned by DM for the area east of Farm 736/RE begins to illustrate the problem of insufficiently coordinated planning. The LSDF envisages a very significant extent of development for Klapmuts North. Specifically, in terms of a 20-year growth trajectory, commercial office development of 912 354m² is envisaged, commercial retail development of 187 839m², and general light industrial development of 370 120m². Several issues emerge:

Firstly, the realism of these land use projections within the context of the regional economy is questioned. To illustrate:

- ✚ Considering the envisaged commercial office allocation, it is noted that Cape Town CBD currently has some 940 000m² of office space, Sandton in Gauteng is larger at over 1,2m m² of commercial office space, Midrand at some 640 000m², and Century City (some 20 years in the making) at some 340 000m²;
- ✚ Concerning commercial retail space, it is noted that more of this use is envisaged for Klapmuts North than Century City's current 140 000m²;
- ✚ While 370 120m² is provided for general light industrial development, the proposed Distell distribution centre alone will comprise 125 000m², and many new logistic centres recently completed in the Kraaifontein / Brackenfell area range in size between 45 000m² and 120 000m². The master plan prepared as part of the acquisition process of Farm 736/RE foresees a significantly lighter industrial floor area than the 370 120m² indicated in the LSDF.

Secondly, these land use allocations need to be viewed against the policy context, which sees Klapmuts as a regional freight/ logistics hub – with a focus on job creation – and establishing a balanced community. It would appear that the LSDF over-emphasises commercial office and retail development, “exploiting” the areas' access to regional vehicular routes, and private vehicular access, at the expense of job creation at scale – and establishing a regional light industrial hub – serving an existing poorer community in proximity to a freight movement corridor.

Thirdly, it is maintained that the infrastructure service requirements – and affordability – of the projected land use allocations are understated. For example, it is known that any development north of the N1 over and above the proposed Distell distribution centre of 125 000m² will involve very costly reconfiguration and augmentation of intersections with the N1. It would be irresponsible to create expectations around land use without these associated requirements being resolved to a fair degree of detail.

Finally, Farm 736/RE is remarkably unique; comprising some of the least valuable agricultural lands within the Paarl / Stellenbosch area. It would appear that the LSDF, given the development process for Farm 736/RE, assumes that adjacent land to the east, of higher agricultural value, should also be developed.

4.8.2 Alternative rail service along the Baden Powell Drive-Adam Tas-R304 corridor

As indicated above, it is critical, both for the Adam Tas Corridor and the broader Baden Powell-Adam Tas-R304 development corridor, to explore the feasibility of introducing a more frequent and reliable rail service along the Eerste River-Stellenbosch-Muldersvlei-Klapmuts rail line. The aim should be to have a more frequent passenger service along the corridor, connecting larger and smaller settlements. Lighter rail stock – possibly in the form of a “tram” system has been suggested - offering the advantage of safe at grade crossing of the rail line and other modes of transport, in turn, enabling “lighter” infrastructure support for settlement development and concomitant cost savings. Alternatively, the viability of regular bus service along this route should be explored. The SM should commence engagements with PRASA in this regard.

As argued elsewhere in this document, Stellenbosch town and Klapmuts should be the focus of significant settlement growth. It is here, by settlement location concerning broader regional networks and existing opportunities within settlements, that the needs of most people can be met, in a compact settlement form while protecting the municipality’s natural and agricultural assets.

Over the longer term, Muldersvlei / Koelenhof and Vloffenburg along the Baden Powell-Adam Tas-R304 corridor could accommodate more growth, and be established as inclusive settlements offering a range of opportunities. However, much work needs to be done to ensure the appropriate make-up of these settlements (including each providing opportunity for a range of income groups) and integration with the corridor in terms of public transport.

The smaller settlements are therefore not prioritised for significant development over the SDF period. Should significant development be enabled in these areas now, it is likely to be focused on private vehicular use and higher-income groups, and will in all probability reduce the potential of initiatives to transform Stellenbosch town and Klapmuts.

4.9 Institutional Arrangements

The SM has dedicated staff resources for spatial planning, land use management, and environmental management organised as the Planning and Economic Development Directorate. Work occurs within the framework set by annually approved Service Delivery and Budget Implementation Plans (aligned with the IDP), decision-making processes and procedures set by the Council, and a suite of legislation and regulations guiding spatial planning, land use management, and environmental management (including SPLUMA, LUPA, and the National Environmental Management Act, 1998 (Act No. 107 of 1998)).

The Planning and Economic Development Directorate will facilitate the implementation of the SDF in terms of institutional alignment, including:

- ✚ The extent to which the main argument and strategies of the SDF are incorporated into the Capital Expenditure Framework, Annual Reports, annual IDP Reviews, future municipal IDPs, and so on;
- ✚ The annual review of the SDF as part of the IDP review process.
- ✚ The extent to which the main argument and strategies of the SDF inform sector planning and resource allocation;
- ✚ The extent to which the main argument and strategies of the SDF inform land use management decision-making;
- ✚ Alignment with and progress in implementing the municipality’s Human Settlement Plan and Comprehensive Integrated Transport Plan; and

- ✦ The mutual responsiveness of the SDF and national, provincial and regional plans, programmes and actions (including the extent to which SDF implementation can benefit from national and provincial programmes and funding).

Over and above institutional arrangements in place, it appears that two aspects require specific focus in support of the *mSDF*.

4.9.1 Inter-municipal planning

The first relates to inter-municipal planning. As indicated elsewhere in the *SDF*, SM (and other adjoining municipalities) appears to experience increasing challenges related to development pressure in Cape Town. This pressure is of different kinds. The first is pressure on the agricultural edges of Stellenbosch through residential expansion within Cape Town. The second is migration to SM (whether in the form of corporate decentralisation, or both higher and lower-income home seekers), leading to pressure on available resources, service capacity, and land within and around the settlements of SM. While municipal planners do liaise on matters of common concern, there appears to be a need for greater high-level agreement on spatial planning for “both sides” of municipal boundaries. The spatial implications of pressure related to migration to SM could be managed locally, should there be an agreement to redevelop existing settlement footprints rather than enabling further greenfield development (as a general rule). However, the municipality’s increased resource needs to accommodate new growth – a non-spatial issue – should be acknowledged and addressed. These challenges and opportunities.

4.9.2 Private Sector Joint Planning

The second relates to joint planning and action resourced by the private sector, increasingly needed for several reasons:

- ✦ The municipal human and financial resource base is simply too small to achieve the vision of the *SDF* or implement associated strategies and plans;
- ✦ Many matters critical to implementing the *SDF* fall outside the direct control or core business of the municipality. For example, the municipality does not necessarily own the land associated with projects critical to achieving *SDF* objectives;
- ✦ It is increasingly evident that individual landowners are finding it difficult to develop – to make the most of what they have – individually. Specifically, the transport and movement implications of individual proposals require strong and dedicated integration;
- ✦ Individual landowners do not necessarily control the extent of land required to undertake inclusive development, focusing on opportunities for a range of income groups. Inclusive development often requires cross-subsidisation, in turn, enabled by larger land parcels and development yields; and
- ✦ The municipality’s focus is often – and understandably so – on the “immediate”, or shorter-term challenges. Much of what is needed to implement the *SDF* or catalytic projects requires a longer-term view, a committed focus on one challenge, and cushioning from the daily and considerable demands of municipal management.

Partnerships are needed, with different agencies and individuals working in concert with the municipality to implement agreed objectives. Further, partnerships are required between individual corporations and owners of the land. The Adam Tas corridor is a prime example: making the most of the disused sawmill site, Bergkelder complex, Van der Stel complex, Die Braak and Rhenish complex – in a manner which contributes to agreed objectives for developing Stellenbosch town – is only possible if various landowners, the municipality, University, and investors work together, including undertaking joint planning, the “pooling” of land resources, sharing of professional costs, infrastructure investment, and so on. The municipality simply does not have the resources – and is overburdened with varied demands in different locations – to lead the work and investment involved.

4.9.3 Further Planning Work

As indicated above, over the longer term, Muldersvlei / Koelenhof and Vlottenburg along the Baden Powell-Adam Tas-R304 corridor could accommodate more growth, and be established as inclusive settlements offering a range of opportunities. However, these settlements are not prioritised for development at this stage. Critical pre-conditions for significant development include:

- ✚ The measures required to ensure that settlements provide for a range of housing types and income groups (in a balanced manner);
- ✚ Establishing regular public transport services between settlements, including services between the expanded smaller settlements and Stellenbosch town; and
- ✚ Understanding to what extent settlements can provide local employment, in this way minimising the need for transport to other settlements.

4.9.4 Other local planning initiatives

Ideally, each of the settlements in SM should have an LSDF, applying the principles of the *SDF* in more detail. The priority for LSDFs should be determined by the position and role of settlements in the SM settlement hierarchy.

4.9.5 Checklists in Support of Decision-Making

To further assist in aligning day-to-day land use and building development management decision-making and detailed planning – public and private – with the *SDF*, it is proposed that a “checklist” of questions be employed.

If the initiators of development proposals, applicants, officials, and decision-makers all, in general terms, address the same questions in the conceptualisation, assessment, and decision-making related to proposals, a common, shared “culture” could be established where key tenets of the *SDF* is considered and followed continuously.

Although focused on the location, nature, and form of activities in space, the checklist incorporates questions addressing issues beyond space, including matters of resource management, finance, institutional sustainability, and so on.

It is not envisaged that the checklist is followed slavishly in considering every development proposal. Yet, its use is important in ensuring that relevant issues be addressed and discussed to enable decision-making in line with the *SDF* and broader provincial and national planning policy. If, in assessing a proposal or project, posing a question result in a negative answer, the proposal probably requires very careful consideration, further work, or change.

The checklist should not be viewed as static. Rather, it should be reviewed periodically and in parallel with the *SDF* review – perhaps under the leadership of the Municipal Planning Tribunal and with input from all stakeholders – to reflect the municipal spatial planning agenda and challenges.

It is proposed that the questions – together with the SPLUMA principles, and the key *SDF* strategies and policies – are packaged in an easy-to-use and accessible form to facilitate wide usage.

4.9.6 Partnerships

Arguably, the municipal budget is simply too small to achieve the vision of the *SDFs* or implement associated strategies and plans. Also, many matters critical to implementing the *SDF*, fall outside the direct control or core business of the municipality. For example, the municipality does not necessarily own the land associated with projects critical to achieving *SDF* objectives.

Even if the municipal budget is increased ten-fold, or its staff resources significantly enhanced, it would still not have the control to do what is needed for the capacity to drive critical projects. The municipality’s focus is often – and understandably so – on the “immediate”, or the shorter-term

challenges. Much of what is needed requires a longer-term view, a committed focus on one challenge, and cushioning from the daily and considerable demands of municipal management.

Partnerships are needed, with different agencies and individuals working in concert with the municipality to implement agreed objectives. Further, partnerships are required between individual corporations and owners of the land. It is increasingly evident that individual landowners are finding it increasingly difficult to develop – to make the most of what they have – individually. Specifically, the transport and movement implications of individual proposals require strong and dedicated integration. The Adam Tas corridor is a prime example: making the most of the disused sawmill site, Bergkelder complex, Van der Stel complex, Die Braak and Rhenish complex – in a manner which contributes to agreed objectives for developing Stellenbosch town – is only possible if various landowners, the municipality, University, and investors work together, including undertaking joint planning, the “pooling” of land resources, sharing of professional costs, infrastructure investment, and so on.

The municipality simply does not have the resources – and is overburdened with varied demands in different locations – to lead the work and investment involved.

There appears to be an opportunity to establish a new partnership with businesses, to the side of the municipality, to drive major integrated projects, specifically the Adam Tas Corridor. Fortunately, Stellenbosch has established (private sector) institutions with an astounding track record in achieving urban development / management objectives (e.g. Historiese Huise). Their work can be expanded, to assist in meeting new challenges, in partnership with the municipality.

CHAPTER 5:

Performance Summary of the 5th Generation IDP 2022 – 2027

5.1 Introduction

The performance reporting on the IDP deliverables for the financial year 2022/23 relating to the first-year implementation of the 5th Generation IDP 2022 – 2027 covers the period from 01 July 2022 to 28 February 2023. The complete performance report until 30 June 2023, will form part of the 2nd Review of the 5th Generation IDP 2022 – 2027.

The reporting focus on the implementation of the Municipal Manager, Mayoral, Mayoral Portfolio and Sector Plans priorities encapsulated throughout the various sections in the IDP document, and the format reflects the IDP deliverables per priority area. The IDP deliverables were revised in January / February 2022 to allow for adequate planning and implementation in the 2023/24 financial year.

The overall assessment of actual performance against targets set for the IDP deliverables as documented in the various sections of the IDP document is illustrated below:

5.2 IDP Performance Reporting: Municipal Manager IDP Priorities for 2022/23

Nine (9) IDP deliverables linked to the Municipal Manager's Priorities across directorates were measured during the 2022/23 financial year. Of the nine (9) IDP deliverables, 4 (44 per cent) were achieved while 5 (56 per cent) are in progress. The IDP deliverables in progress are expected to be completed by 30 June 2023.

Figure 22: Number of Municipal Manager Priorities achieved in the 2022/23 financial year

Figure 23: Percentage achieved: Municipal Manager Priorities- 2022/23

5.3 IDP Performance Reporting: Executive Mayor Priorities for 2022/23

The **Executive Mayoral** 5 – year plan has a total of 58 IDP deliverables linked to nine mayoral outcomes which are applicable for the 5th Generation IDP 2022 – 2027. Of the 58 IDP deliverables which are being measured in the 2022/23 financial year, 4 (7 per cent) were achieved as at 28 February 2023, while 54 (93 per cent) are in progress. The Mayoral IDP deliverables in progress are expected to be completed by 30 June 2023. The actual results of these deliverables will be reported in the 2nd review of the 5th Generation IDP 2022 – 2027.

Executive Mayor IDP Deliverables: 2022/23

Figure 24: Percentage of Mayoral Priorities achieved for the 2022/23 financial year

5.4 IDP Performance Reporting: Mayoral Portfolios for 2022/23

The (nine) 9 **Mayoral Portfolio's** each have a 5 – year plan with specific IDP deliverables and targets applicable for the 2022/23 financial year. A total of 89 IDP deliverables are linked to nine (9) mayoral portfolios which were applicable for the 2022/23 financial year. Of the 89 IDP deliverables with applicable targets for 2022/23, 11 (12 per cent) were achieved while 29 (33 per cent) are in progress. The mayoral portfolio IDP deliverables in progress are expected to be completed in this financial year 2022/23 and 49 (55 per cent) out of the 89 mayoral portfolio IDP deliverables will only be reported on by 30 June 2023.

Figure 25: Mayoral Portfolio IDP Deliverables: 2022/23

Figure 26: Percentage of the Mayoral Portfolios Priorities achieved for the 2022/23 financial year

5.5 IDP Performance Reporting: Sector Plans Implementation for 2022/23

A total of 50 IDP deliverables are linked to the **nine (9) Sector Plans** for the 2022/23 financial year. Of the 50 IDP deliverables with applicable targets for 2022/23, 12 (24 per cent) were achieved while 35 (70 per cent) are in progress. The Sector Plan IDP deliverables that are currently in progress are expected to be completed in 2022/23 and 3 (6 per cent) out of the 50 IDP deliverables will only be reported on by 30 June 2023.

Figure 27: Sector Plans IDP deliverables: 2022/23

Figure 28: Percentage of Sector Plan IDP deliverables for 2022/23

CHAPTER 6:

One Plan: Service delivery, budget, programmes and projects

6.1 Introduction

Cabinet approved the District Development Model (DDM) as an All of Government and Society Approach providing a method by which all three spheres of government and state entities work in unison in an impact-oriented way, where there is higher performance and accountability for coherent and effective service delivery and development outcomes.

The DDM is an intergovernmental approach focusing on 44 districts and 8 metropolitan spaces for more effective joint planning, budgeting and implementation over multi-year planning and electoral cycles. Although each sphere, sector or entity has its distinct constitutional powers, functions and responsibilities, they cooperate and undertake collaborative planning, budgeting and implementation processes converging developmental efforts at the district / metropolitan level.

It is acknowledged that the DDM introduces a new planning instrument in the form of the **One Plan**. This process comes into a planning environment where there are existing planning instruments at local, provincial, and national levels of government. However, the One Plan is not meant to replace any of the existing prescribed development, departmental strategic and annual performance plans that each sphere, department and state entity is responsible for or required to develop. The One Plan is rather informed by these plans and once in place, it will guide the review of these plans and budgets.

The Western Cape Government-specific approach to the DDM is called the **Joint District and Metro Approach (JDMA)**. The JDMA envisages the three spheres of government to converge, using Intergovernmental (IGR) engagements, to develop similar Western Cape strategic, development and planning priorities with aligned budgets and accelerated implementation for service delivery.

The **Joint District and Metro Approach (JDMA)** -

- ✚ is a geographical (district) and team-based and citizen-focused approach;
- ✚ has the output of a single implementation plan to provide planning and strategic priorities, developmental initiatives, service delivery and capacity building;
- ✚ has the desired outcome of improving the living conditions (lives) of citizens;
- ✚ has a horizontal interface (between provincial departments) and a vertical interface (national, provincial and local government spheres);
- ✚ does not exclude local municipalities;
- ✚ is not a functions and power debate; and
- ✚ promotes collaboration using the District Coordinating Forum as the governance instrument for co-planning, co-budgeting, and co-implementation to strengthen service delivery to communities.

This chapter will provide details from all three spheres of government to give effect to the objectives and strategies contained in the 5th Generation Integrated Development Plan.

6.2 Relationship between the One Plan and Integrated Development Plan (IDP)

The One Plan does not replace the Integrated Development Plans of municipalities as the “single, inclusive and strategic plan for the development of the municipality” but is meant to strengthen and enhance the IDPs and other plans of the municipalities. It is foreseen to provide greater certainty and

direction for the IDPs. The IDP will be the vehicle through which implementation of the One Plan will happen at the local government level.

Below is a comparative analysis of the One Plan and IDP:

Figure 29: Comparative analysis of the One Plan and IDP

6.3 National and Provincial Government Priorities

6.3.1 State of the Nation Address (SONA) 2023

President Cyril Ramaphosa presented the State of the Nation Address (SONA) on 09 February 2023.

The following are key highlights from the SONA:

Load shedding

- Minister of Cooperative Governance and Traditional Affairs Nkosazana Dlamini Zuma had gazetted the declaration of the State of Disaster.
 - The state of disaster will enable the government to provide practical measures that are needed to support businesses in the food production, storage and retail supply chain, including the rollout of generators, solar panels and uninterrupted power supply;
 - It will enable the government to exempt critical infrastructure such as hospitals and water treatment plants from load shedding, if technically possible; and
 - It will enable the government to accelerate energy projects and limit regulatory requirements while also maintaining rigorous environmental protections, procurement principles and technical standards.
- Ensuring the Electricity Regulation Amendment Bill is passed to transform the energy sector and establish a competitive electricity market.

Unemployment

- Implementation of several programmes aimed at ensuring that young people were introduced to the world of work.

Poverty and the rising cost of living

- The National Treasury was considering the feasibility of urgent measures to mitigate the impact of load shedding on food prices.

Crime and Corruption

- Significantly more funding would be made available for the police, the National Prosecuting Authority and the Special Investigation Unit.

6.3.2 State of the Province Address (SOPA) 2023

Premier Alan Winde presented the State of the Province Address (SOPA) on 16 February 2023.

The following are key highlights from the SOPA:

The Energy Crisis

- An Energy Council has been established to focus on both the short-term crisis but also the longer-term;
- Development of an energy plan for the province that informs our short-term responses;
- Responding to the short-term impact of load shedding now on government services;
- Securing diesel to keep essential public services running during load shedding;
- Helping buffer schools from load shedding;
- Providing poorer households with “power packs” that help reduce the impact of load shedding on daily tasks;
- Assisting SMMEs in assessing and implementing alternative energy options.

Water and Health:

- Emergency funding will be made available to municipalities to ensure safe drinking water and working sewage infrastructure during rolling blackouts.
- Funding to be used to purchase backup generators for the treatment and supply of water services.

WiFi and Connectivity:

- Ensuring citizens have access to information.

Renewable Energy / Green Economy

- The Western Cape government is on a drive to increase energy resilience, not only to mitigate the effects of load shedding and the resulting economic damage but also to highlight the immense potential the power generation sector, specifically the green economy, has in being able to stimulate growth, attract investment and create employment.

Municipal Energy Resilience

- Key intervention of the Western Cape Government in addressing the power crisis is the Municipal Energy Resilience (MER) plan, a local government-level programme that develops, supports and builds capacity at municipalities across our province to implement renewable energy projects.
- The municipalities part of the programme is the City of Cape Town, George, Mosselbay, Stellenbosch and Saldanha.
- Stellenbosch is working towards procuring energy from Independent Power Producers.

Infrastructure Development

- The aim is to prioritise the importance of developing and maintaining critical infrastructure in the province, both as a means to ensure roads, bridges, sewerage systems, and other development projects, are of high quality and safe to use.

Education Infrastructure

- The Western Cape Government will continue to expand the province’s schooling environment.

Social Housing

- ✚ The province has committed to creating 9395 housing opportunities.

Health Infrastructure

- ✚ The province government will continuously be expanding health services to meet the needs of a growing population.

Growth For Jobs

- ✚ “Our Growth For Jobs” strategy gives expression to the government’s radical drive to drastically reduce unemployment, achieve breakout growth and offer residents meaningful opportunities to prosper.
- ✚ The strategy sets out a comprehensive and ambitious goal for the Western Cape of growing the provincial economy by between 4 and 6% by 2035.
- ✚ The goal is to fuel and stimulate economic growth to achieve an R1 trillion provincial GDP target by 2035. This would require an annual average growth of 3.8% until 2035, translating into 600 000 new jobs.

Youth Interventions

- ✚ The Western Cape’s employment figures are better than the rest of the country, more must be done to enable job growth.

Agriculture

- ✚ In the new financial year, the WCG is to support 3 000 household food gardens each year over the medium-term, as well as 85 community and school food gardens out of an annual budget of R32 million.

6.4 Status Quo on Public Infrastructure Spend

This section reflects on provincial and municipal infrastructure priorities within the Stellenbosch area for 2021/22.

6.4.1 Social Infrastructure

Spending on social infrastructure aids in social development and has the spill-over effect of enabling economic growth. A total of 41.1 per cent of the total WCG infrastructure allocation towards the Stellenbosch municipal area will be spent on social infrastructure. As displayed in the pie chart, the WCG will be spending 10.2 per cent (R17.0 million) of the total infrastructure budget in the municipal area on the Education function. Spending on education is crucial as it can serve to improve education outcomes and skills levels within a community, and more importantly, alleviate poverty through increased long-term income for individuals. A healthy and resilient community increases productivity and reduces pressures on government resources.

The WCG will in 2021/22 spend R344 000 on Health-related infrastructure within the municipal area. An allocation has also been made by the WCG towards the Housing function (R51.4 million; 25.1 per cent) to improve the quality of life of individuals within the municipal area. The municipality allocated R9.9 million towards the Housing function.

Community safety is a cornerstone of the Western Cape Economic Recovery Plan. Crime has a negative impact on the quality of life of individuals, but also on the economy by deterring private investment and causing business losses. It further creates a burden on government resources in terms of justice system costs, victim assistance and replacement of assets. The municipality has as such allocated R15.6 million (3.3 per cent) of its capital budget towards the Public Safety function.

Figure 30: Provincial Infrastructure Spend

Source: Western Cape, Social-Economic Profile 2021

6.4.2 Economic Infrastructure

Economic infrastructure is defined as infrastructure that promotes economic activity. Considering the sluggish economic growth throughout the country, spending on economic infrastructure is crucial to stimulating economic activity. The WCG will in 2020/21 spend R98.6 million on economic infrastructure, more specifically towards road transport and public works. Road transport infrastructure goes a long way towards unlocking the region's economic potential, especially due to it having the largest natural port in Africa and being a tourist destination.

The municipality assists in this regard with its contribution of R61.5 million (13.0 per cent of total municipal infrastructure spending) towards road transport.

Figure 31: Municipal Infrastructure Spend

Source: Western Cape, Social-Economic Profile 2021

6.4.3 Trading Services

Basic services are crucial to improving the living conditions of citizens within the municipal area and enabling economic activity for businesses via access to water, electricity, sanitation and refuse removal. The municipality will 2021/22 channel R283.2 million towards trading services to reduce backlogs, improve service delivery standards, provide for future residential developments and to roll out basic services to informal settlements.

The 2021/22 trading services budget is mostly focused on water (R100.0 million; 35.2 per cent), wastewater management (R96.1 million; 33.9 per cent) and electricity services (R79.5 million; 28.1 per cent). A smaller allocation of R7.9 million (2.8 per cent) has been made towards the solid waste management function.

Figure 32: Trading Services

6.5 Intergovernmental Budgetary Allocation

The infrastructure projects and related capital projects listed below are in various stages of implementation, with certain projects being in the planning phases, others in implementation with construction in progress and some in the close-up phase of the project.

Table 33: Provincial Infrastructure Projects and Programmes MTEF period 2023/24 – 2025/26

6.6 Cape Winelands District (CWD) JDMA Implementation Plan

A **CWDM JDMA profile** was developed in 2020 and updated in November 2021. The Cape Winelands District Profile - 2020 Perspective is a first-generation knowledge product to provide information and evidence to government stakeholders and also to:

- ✚ Provide an information source that at a glance highlights what needs to be maintained, the strengths and challenges facing the Cape Winelands District (i.e. set the context and provide the government with an intergovernmental understanding of key development trends and patterns within the District); and
- ✚ Assist in informing catalytic or strategic projects for the Joint District and Metro Approach Implementation Plan for the longer-term development of this geographical area that is both focused and targeted, but also implementation-ready, resilient, coordinated and integrated.

Given the above, the following Strategic Priorities have been identified for inclusion in the CWD JDMA Implementation Plan and approved by the District Coordinating Forum (DCF).

- ✚ Waste minimisation and management solutions
 - Regional Landfill
 - Waste Minimisation Strategies
 - Integrated Waste Management Plan
 - Waste Workshop
- ✚ Resource Resilience
 - Climate Change, Water Management and Wildfire Urban Interphase Risks
 - **Municipal Energy Resilience Programme**
- ✚ Infrastructure management and development
 - N1 Eastern by-pass
 - ESKOM Infrastructure delays (Witzenberg)
- ✚ Economic Recovery and Unemployment
 - Economic Recovery Plan - Implementation
- ✚ Urbanisation
 - Develop a guide to inform future developments
 - Monitor mega human settlement projects to inform the Guide
 - Address Land invasions
 - Provision of Basic Services for Prioritised Informal Settlements
- ✚ Community Safety
 - District Plan
 - Area-based Plan (Witzenberg)
 - SANTAM (fire and IT equipment, PPE and smoke alarms)
- ✚ Municipal Business Sustainability
 - Financial Sustainability
 - Revenue Collection: ESKOM
 - Shared Services: Development of 4 Models
- ✚ External Stakeholder involvement

🚩 Communication and IGR

🚩 Data Governance and Profile update

- The development of a dynamic profile to inform JDMA Implementation Plan developmental priorities and projects.

🚩 Digital Transformation Strategy

6.6.1 The Municipal Energy Resilience Project and Small-Scale Embedded Generations

The Municipal Energy Resilience (MER) Project was developed following an amendment to Schedule 2 of the Electricity Regulation Act in 2020, allowing municipalities to generate electricity. The key objectives of the MER Project are development, support, and capacity building to implement renewable energy projects in municipalities across the province for municipalities, businesses, and households to generate, procure and sell electricity. The project aims to secure reliable electricity supplies for the province and increase economic resilience. The project includes four approaches: creating space for small-scale embedded generation (SSEG), providing assistance in procurement processes for municipalities to source energy from independent power producers (IPPs), building a business case for utility-scale to-power generation, and finally, reforming the sector. The Stellenbosch Municipality and five other candidate municipalities are participating in the first phase of the MER Project.

This project will look at several innovative renewable energy technologies and scales, as well as cost options, the size of the investment needed, location issues, risks, municipal readiness needs, infrastructure needs, timelines for getting capacity onto the grid, transaction and procurement mechanisms, and regulatory issues.

SSEG enables solar photovoltaic (PV) systems to be grid-tied and feed in any excess electricity generated. Registering a feed-in system allows one to export excess electricity to the grid and receive credit based on the SSEG tariff. This is structured to support PV system owners while covering the cost of their electricity services.

6.6.2 Cape Winelands District Joint District Approach

The following Strategic Projects apply to the Stellenbosch municipal area:

Figure 33: Cape Winelands District Joint District Approach

IMPLEMENTATION PLAN: CAPE WINELANDS DISTRICT JOINT DISTRICT APPROACH						
Municipal Priority	Key Initiative (s)	Municipalities Involved	Project	Project lead and team ((link to existing technical structures and / or projects)	Action/s	Progress
Provincial Priority (Vision Inspired Priority 2) – Growth and Jobs						
Waste minimisation and management solutions (priority project)	Integrated Waste Management Plan	All municipalities	Review of Integrated Waste Management Plan	CWDM and DEADP	 Update the JDMA Implementation Plan in terms of DEADP lead on Waste.	Integrated Waste Management Plan  Project has commenced
Waste minimisation and management solutions (priority project)	Establishment of a Regional Waste Management Facility	All municipalities	Regional Waste Management Facility: Conduct a section 78 investigation and implement the recommendations		 Western Cape Provincial Government to assist with Supply Chain Management challenges.  Waste Management Conference will be arranged as soon as the new Council is fully functional.	Regional Waste Management  Council approved the purchasing of land for a regional landfill site.  Council approved the appointment of consultants for the design and the compilation of documents.
Resource Resilience	Water Governance and Water Service Development Plan Joint Strategy: Bulk Storage Facilities (to provide for drought) Local Economic Development / Growth and Development Strategy (for the District to address risks associated with Climate Change / Water Security)	All municipalities	Municipal Energy Resilience Programme	DLG, DEDAT, Stellenbosch Municipality and Drakenstein Municipality	 Specific pioneering projects for Drakenstein and Stellenbosch were identified.  DEDAT did a proxy to cost supply studies required by NERSA.  The next step is to compile a roadmap on the pioneering projects and the implementation thereof.  DEDAT to establish a MER Fund, to assist municipalities to prepare for the studies and enable them to look at new generation capacity specifically for Renewable energy.  Wheeling support for individual municipalities is in the process of being finalised.	 The project is in progress with quarterly updates.

IMPLEMENTATION PLAN: CAPE WINELANDS DISTRICT JOINT DISTRICT APPROACH

Municipal Priority	Key Initiative (s)	Municipalities Involved	Project	Project lead and team (link to existing technical structures and / or projects)	Action/s	Progress
Provincial Priority (Vision Inspired Priority 2) – Growth and Jobs						
Economic Recovery, long term unemployment and its consequences (priority project)	Address factors associated with Youth unemployment	All municipalities	Economic Recovery Plan	CWDM and all local municipalities; with WESGRO and DEDAT	Further offline discussions will be held regarding unemployment.	Quarterly updates are done on projects in the Economic Recovery Plan.
Municipal Business Sustainability (priority project)	Saving costs across certain functions	All municipalities	Shared Service Model Development	CWDM and all local municipalities, DLG and IGNITE	Follow up on progress with the appointed service provider.	Audited completed.
Data Governance and JDMA Profile	Towards developing a Dynamic Profile and sharing data	All municipalities	Data Governance and JDMA Profile	DLG, CWDM and all local municipalities, DEADP, DotP, DSD	Data Governance is a transversal JDMA Project. CEI is busy drawing up a Memorandum of Understanding (MOU) for Metros and non-Metros. Provincial governance structures are being set up and aligned with local government in the Western Cape. This is being done with support from the Department of the Premier and will address monitoring and evaluation,	Municipal Interface structures are being finalised. Data Sharing MoUs are being drafted and with consultations underway. The CWDM Data Management Plan was developed. Gaps in the 2020 Profile identified.

6.7 Agricultural Interventions

In support of the Western Cape Department of Agriculture Strategic Plan, the municipality has identified two priority interventions on which the municipality will embark in the **period 2022 – 2027**.

Table 35: Agricultural Interventions for 2022 – 2027

Project Rating					
	Project completed.		Project in progress.		Not completed / No budget available / District Function / Provincial Function

Table 36: Agricultural Interventions

Proposed Municipal Actions in Support of the Strategic Focus Areas of the Western Cape Department of Agriculture					Target and Progress Rating					Performance Comment
Priority Area	Desired Municipal Deliverable	Status Quo within Municipality	Proposed Local Intervention (appropriate municipal action)	Timeframe to deliver (Short / medium / long term or ongoing)	2022/23	2023/24	2024/25	2025/26	2026/27	
Farmer Support	Lease agreement for use of commonage land (e.g. Terms of the lease, roles and responsibilities of each party, preference for individual agreements, and need for longer leases)	In 2020, two (2) land parcels were identified and advertised for emerging farmers. The process is to be finalised.	Through the Municipal Agricultural Land Policy, the municipality aims to identify and allocate an additional 10 parcels of land for emerging farmers	Medium / long term	2	2	2	2	2	Sixteen (16) farming applications have been received.
						n/a	n/a	n/a	n/a	Assessment of farming applications has been completed. Four applications have been shortlisted for potential allocation on the two portions of available land.
Market Access	Infrastructural development that supports agriculture development value chain and market access	Through the Municipal Agricultural Land Policy, the municipality aims to identify and allocate an additional 10 parcels of land for emerging farmers.	Ensuring vibrant, equitable and sustainable rural communities with food security for all	Medium / long term	2	2	2	2	2	An item will be prepared for Council for the approval of the allocation of land.

6.8 Stellenbosch Municipality Operational Support Plan

The projects listed in the table below were identified as projects / programmes / initiatives that would require assistance and funding from other spheres of government:

Table 37: Stellenbosch Municipality Operational Support Plan

Project / Programme/ Initiative	Responsible Internal Department/ Agency	Action/s	Estimated Funds
Climate Change Adaptation Strategy (Alien Clearing, River Management and Wildfire Management)	Department Community Service	Implementation of Alien Clearing, River Management and Wildfire Management Plans.	R2 000 000
Mega-human settlement project monitoring	Department: Housing Development	Kayamandi Town Centre: To obtain development rights/township establishment.	R2 000 000
		Jamestown: Housing (Phase 2, 3 and 4): To obtain development rights / township establishment.	R1 500 000
		Erf 7001 and other possible sites for mix-used development in Cloetesville: To obtain development rights/township establishment.	R1 000 000
Stellenbosch Municipality: Resource Resilience: Municipal Energy Resilience	Municipality / DLG / Water Services	Financial support is required for the development of pico hydropower units.	n/a
Stellenbosch Municipality: Resource Management Resilience: Water Management Resilience	Stellenbosch Municipality and DLG	Financial support is required for the development of real-time management control centres.	n/a
Improvements to public transport facilities in rural and semi-rural areas within the Stellenbosch Municipal area	Department: Roads, Stormwater and Transport	Upgrading and implementing new Taxi and Bus stops in rural and semi-rural areas within the Stellenbosch municipal area.	n/a
Improvements to the NMT network in rural and semi-rural residential settlements located within the Stellenbosch Municipal area	Department: Roads, Stormwater and Transport	Construction of Sidewalks and NMT facilities in rural and semi-rural residential settlements located within the Stellenbosch Municipal area.	n/a
Compilation of the Adam Tas Corridor Local Spatial Development Framework	Department: Development Planning (Spatial Planning)	Compilation of a Local SDF for the Adam Tas Corridor Study Area. The Compilation of a Land Use Framework to develop a Development Incentive Overlay Zone (Urban Development Zone).	n/a
Compilation of a Klapmuts Local Spatial Development Framework	Department: Development Planning (Spatial Planning)	Inclusion of Klapmuts within the Cape Metro Regional Spatial Implementation Framework ("RSIF") in partnership with WCG; CoCT; Cape Winelands District and Drakenstein Municipality which focuses on the following themes: <ul style="list-style-type: none"> Smart City Concept; Economic Development and Job Creation; and Cost-effective Services 	n/a
Other Projects, policies, frameworks, programmes and housing pipeline projects outside of the priority areas	Department: Development Planning (Spatial Planning)	Draft Economic Development Strategy (an Approach to Stimulate Economic Growth). <ul style="list-style-type: none"> Inclusionary Housing Policy. Jamestown Housing Project. De Novo. Vaaldraai. Jonkershoek. Erf 7001, Stellenbosch (Soekmekaar). 	n/a

6.9 Gender Mainstreaming

Gender mainstreaming is the process of assessing the impact on women and men of any planned development projects, including policies and programmes. It is a strategy for making women's as well as men's concerns and experiences an integral dimension in the planning, implementation, monitoring, and evaluation of projects and programmes in all areas of governance, economics, basic services, and social spheres. The ultimate goal of gender mainstreaming in the municipality is to achieve gender equality at all levels of service delivery. The United Nations Organisation defines gender equality as equal rights, responsibilities, and opportunities for women and men. It implies that the interests, needs, and priorities of both women and men are taken into consideration in the planning, decision-making, and performance of organisational functions.

Gender mainstreaming is one of the SDGs and District Development Model (DDM) objectives. The SDG (Goal 5) and DDM advocate that the government should aim for gender equality, empower all women and girls, and ensure inclusivity through gender-responsive budgeting based on the needs and aspirations of our people and communities at a local level. In support of the SDG and DDM objectives, the Stellenbosch Municipality aims to establish an environment that encourages gender mainstreaming interventions at the municipal level. Although priority issues identified by the different segments of the community cannot be addressed at once due to sufficient resources, the municipality is implementing interventions as a start to address gender and gender mainstreaming.

Gender mainstreaming will require the municipality to shift in organisational cultures and ways of thinking, as well as in the goals, structures, and allocation of resources. Through the IDP and in support of the SDG and DDM objectives, the Stellenbosch Municipality will make an effort to incorporate gender into each phase of planning. As a stepping stone to incorporating gender in municipal planning, it will take the form of identifying key gender indicators linked to the projects and programmes encapsulated in the 5th Generation IDP 2022 – 2027. The table below on the gender matrix will be revised during the 2nd Review of the 5th Generation IDP 2022 – 2027 to allow directorates the opportunity to shift to a level of implementing projects, programmes, and policies that take into account the principles of gender mainstreaming as stipulated below:

- ✚ Gender-sensitive language;
- ✚ Gender-specific data collection and analysis;
- ✚ Equal access to and utilisation of services;
- ✚ Women and men are equally involved in decision-making; and
- ✚ Equal treatment is integrated into steering processes.

The benefits of incorporating gender outcomes into the IDP will be:

- ✚ Positive impact on individuals, organisations, and at a societal level;
- ✚ Acceleration of implementation of Sustainable Development Goals (SDGs);
- ✚ Higher rate of growth and development;
- ✚ Improved resource management;
- ✚ Improved productivity; and
- ✚ By examining the overall situation of women and men across municipalities, a stronger analysis could provide a basis for identifying their specific needs and assessing whether certain groups of women and men could be adversely affected by development programmes and projects.

6.9.1 Gender Interventions

In terms of integrated planning and streamlining governance processes, the Department: Community Development and the Provincial Department: Social Development signed an MOU to collectively focus on various programmes with gender as one of the focal points. This includes the implementation of empowering programmes for women, reaching out to single mothers, hosting the 16 Days of Activism / Gender-Based Violence, and establishing a Gender-Based Violence Forum.

The implementation of gender-specific programmes is depicted in the table below:

Table 38: Gender-Based Interventions

Key Activity / Project / Programme / Initiative (measurable action)	Description of Unit of Measurement	Performance Comment
Establishment of the Greater Stellenbosch GBV Forum	Number of Greater Stellenbosch GBV Forums established by 30 June 2024	The provincial Department: Social Development will be the driver of this structure. To be included in the 2023/24 implementation plan of the MOU between the two government entities.
Hosting of 16 days of activism event	Number of 16 days of activism events hosted by 30 November	<p>The 16 days of activism event will be taking each financial year for the period 2022 – 2027.</p> <p>This programme is linked to the Mayoral Outcome, to create safer environments for communities. Implementation and monitoring of the programme will be on a departmental level.</p>

6.9.2 Gender Disaggregated Matrix⁵

Disaggregating information by gender, count males and females separately when gathering information on projects and programmes. Gender-disaggregated data is important because it will assist the municipality to see whether an initiative is successful at targeting and benefiting women and men. The indicators specify that all data about target groups and beneficiaries will be gender disaggregated.

Table 39: Gender Disaggregated Matrix

Directorate	Department		Indicator Description	5-Year Target 2022 – 2027		Target 2022/23		Target 2023/24		Target 2024/25		Target 2025/26		Target 2026/27	
				M	F	M	F	M	F	M	F	M	F	M	F

Community and Protection Services	Community Development	5.7	Number of participants in accredited training programmes, disaggregated by gender	99	93	19	13	20	20	20	20	20	20	20	20
Community and Protection Services	Community Development	5.8	Number of participants in programmes for vulnerable groups (Youth, Elderly and Disability)	1287	3061	807	2581	120	120	120	120	120	120	120	120

Note: All residents, regardless of gender, benefit from the installation of ablution facilities and water points in an informal settlement. The facilities are gender-neutral and hence 100% beneficial to all genders.

CHAPTER 7:

Sector Plans and Implementation

7.1 Introduction

The municipality has several medium- and longer-term sector plans that direct the implementation of the different functional areas. These plans form an integral part of the Integrated Development Plan (IDP).

Although the time periods for sector plans and the IDP differ (e.g., the *mSDF* has a 20-year horizon, IDP has a 5-year horizon and sector plans can be revised annually), the IDP and sector plans inform each other mutually. Like the IDP, sector plans are subject to periodic review. Alignment between sector plans and the IDP allows for more effective budgeting integration.

Other service delivery implementation processes include:

Figure 34: Service Delivery Implementation Plans

The sections below expand on key sector plans of the Stellenbosch Municipality.

7.2 The relationship between the Sector Plans and Strategies

Sector plans need to support and reinforce each other to have meaning and assist in the sustainable development of the municipal area. The table below illustrates how different key sector plans inform and direct each other.

Table 40: The relationship between sector plans

Sector Plan	Spatial Development Framework	Human Settlements Plan	Integrated Transport Plan	Infrastructure Master Plans
Municipal Spatial Development Framework (mSDF)		<ul style="list-style-type: none"> Identifies areas for the satisfaction of human settlement needs Designates areas for developmental needs Indicates areas desirable for specific nature and form of urban development Indicates areas desirable for conservation Spatially reflects the distribution of community facilities Identifies areas to be protected from the settlement (e.g. heritage, agriculture and natural) Designates housing priority / restructuring areas Integrates settlement patterns with infrastructure plans 	<ul style="list-style-type: none"> Identifies areas for the satisfaction of human settlement needs Indicates areas desirable for conservation Spatially reflects the distribution of community facilities Identifies areas to be protected from the settlement (e.g. heritage, agriculture and natural) Designates housing priority / restructuring areas Indicates areas desirable for densification / specific land use / integrated networks Spatially reflects the Council's approved nature and form of urban development 	<ul style="list-style-type: none"> Identifies municipal growth direction Identifies areas to be protected from development (e.g. heritage, agriculture and natural) Identifies priority development areas Identifies infrastructure priority areas

Identifies interventions required to support growth / infill. Provides for services not provided by the municipality, e.g. SANRAL, Provincial Roads, PRASA, Transnet. 	

7.3 Sector Plans and Implementation Strategies

7.3.1 Air Quality Management Plan

Stellenbosch Municipality's 3rd Generation Air Quality Management Plan (AQMP) has been approved by the Council in 2022. This document follows the adoption of the original document approved in 2013 and its first revision in 2018.

7.3.1.1 Vision, Mission and Goals

Aligned with the Cape Winelands District Municipality (CWDM) vision for air quality management the vision for the Stellenbosch Municipality, as defined in the AQMP is: Air quality in the Stellenbosch Municipality is clean and healthy.

The mission statement for achieving the stated vision is:

Air quality in the Stellenbosch Municipality is co-operatively managed for the benefit of present and future generations according to the principles of sustainable development to safeguard health and quality of life, promoting economic and social development.

The goals to achieve the mission of the AQMP are listed below and their linkages to the Western Cape Provincial AQMP (DEA&DP, 2010) and the CWDM AQMP (CWDM, 2012) are highlighted. The three goals for the Stellenbosch Municipality AQMP are:

- ⚙️ **Goal 1:** Air quality governance meets requirements to effectively implement the AQMP: This goal addresses the regulatory framework and the institutional capacity required in the Stellenbosch Municipality to carry out the air quality function. This links directly to the goal of the AQMP for the Western Cape to 'Ensure effective and consistent air quality management and the goal in the CWDM AQMP of 'Effective air quality management;
- ⚙️ **Goal 2:** Reduce atmospheric emissions of harmful pollutants: This goal aims to manage activities that impact air quality to reduce the emissions of harmful pollutants and associated impacts on human health and well-being. This links directly to the Provincial AQMP goal to 'Ensure effective and consistent compliance monitoring and enforcement and 'To ensure that health-based air quality standards are attained and continually met'. It also links to the CWDMAQMP goal of 'Effective air quality management through an 'Emission reduction strategy; and
- ⚙️ **Goal 3:** Systems and tools are established to effectively implement the AQMP: This goal refers to the systems and tools required for effective AQMP implementation, the cornerstone of which is an Air Quality Management System (AQMS). The development of AQMS links directly to the Provincial AQMP goal 'To ensure effective and consistent air quality management through the development of AQM systems. It also links to the CWDM AQMP goal to develop an AQMS. An AQMS is a fundamental unit towards the management of air quality in an area, incorporating the necessary technical elements that provide information on the status of air quality (D: EA&DP, 2010). Included in this goal is the need for stakeholders to actively participate in AQM in the Stellenbosch Municipality, which links to the Provincial AQMP goal 'To continually engage with stakeholders to raise awareness concerning air quality. It also links to the CWDM AQMP goal to 'Promote communication concerning Air Quality Management.
- ⚙️ **Goal 4:** This goal aims to improve the understanding of the impact that climate change is likely to have on the municipality and to implement measures to mitigate such impact.

7.3.1.2 Time frames

The timeframes defined for the Implementation of the AQMP are:

Figure 35: AQMP Time frames

The following immediate items were included in the AQMP:

Table 41: Items in AQMP

Objective	Activity	Responsibility
Sufficient capacity and competence exist to perform the air quality management function.	Identify capacity and competency needs.	Council
The AQMP is included in the IDP.	Prepare air quality input for inclusion in the IDP. Ensure adequate funding in the IDP for AQMP implementation.	Air Quality Officer, Council
A regulatory framework exists in the municipality for air quality management.	Develop an air quality by-law.	Air Quality Officer, Council
Emissions from waste burning are reduced.	Enforcement of the by-law.	Air Quality Officer
An Air Quality Management System exists in Stellenbosch Municipality including an emission inventory, ambient air quality monitoring and reporting.	Prepare an annual report on progress with AQMP implementation and state of air quality including emissions and ambient data and complaints.	Air Quality Officer
Stakeholders participate in AQ management	Participate and provide input / comment on development planning (e.g. EIA, SDF, SEMF).	Air Quality Officer
Dust management	Respond to and attend to odour and dust complaints.	Air Quality Officer
Noise pollution management	Respond and attend to noise complaints.	Air Quality Officer

Stellenbosch Municipality relies on data from the province's monitoring station situated at CWDM in Stellenbosch town to determine air quality or atmospheric emissions. This data is reported on by the relevant Environmental Health Official from CWDM.

7.3.2 Environmental Management Plan

Stellenbosch Municipality is continuously developing its capacity to protect the environment within its boundaries and to strive towards a municipality and communities that recognise the vital importance of their rich natural capital and manage these in a manner that ensures sustainability and fulfils the needs of all concerned.

To this effect, Stellenbosch Municipality has developed the Stellenbosch Environmental Management Framework (SEMF) approved by the Council as a sector plan for the Municipal Spatial Development Framework. The SEMF is a municipal strategic environmental management policy that responds to and complies with the relevant statutes and directives.

Stellenbosch Municipality also implemented its Invasive Alien Plant Management Plan (prepared in terms of the National Environmental Management: Biodiversity Act, 2004 (Act No.10 of 2004), completed during the 2017/18 financial year. This document has been reviewed and adopted by the Council in 2022.

The Stellenbosch Municipality owns various properties regarded as nature areas. Three of these areas have formally been designated to be conservation areas. These are Mont Rochelle Nature Reserve, Jan Marais Park (Nature Reserve) and Papegaaiberg Nature Reserve. The Stellenbosch Municipality is in the process of putting environmental management plans (EMPs) in place for all of these areas, including areas that are not formally declared as protected areas. The status of these is as follows:

- Mont Rochelle Nature Reserve: Approved by the Council in 2022 and will be reviewed in 2026;
- Papegaaiberg Nature Reserve: Approved EMP is in place, currently up for 5-year review;
- Jan Marais Nature Reserve: Final draft EMP prepared, to be advertised for public input;
- Paradyskloof Nature Area: Approved by the Council in 2019 and will be reviewed in 2024; and
- Ida's Valley / Botmaskop Nature Area: The first draft was advertised for public input in 2022.

7.3.2.1 Implementation Plan: Environmental Management Plan

7.3.3 Integrated Human Settlement Plan

7.3.3.1 Overview

An Integrated Human Settlement Plan (IHSP) is the road map for the provision of all forms of housing within a municipal area. This plan is closely linked to the municipal IDP and the Municipal SDF.

Accordingly, Stellenbosch Municipality developed an IHSP to be aligned with the IDP and the *mSDF*. Stellenbosch Municipality originally approved an IHSP in 2008. A service provider was appointed to develop and align the new IHSP with the long-term vision as envisaged in the IDP and the *mSDF*, which will be concluded in the 5th Generation IDP 2022 – 2027. A key component of the IHSP is the Housing Pipeline. The Housing Pipeline has a dual function i.e.

- (i) it is the roadmap for all Council's housing-related projects; and
- (ii) it is the official communication document between the Provincial Department of Human Settlements (PDoHS) and the municipality.

The IHSP and the Housing Pipeline have a five (5) year development horizon. Notwithstanding this, the Housing Pipeline must be reviewed and approved annually by the Municipal Council.

In the absence of an approved IHSP, the Housing Pipeline serves as the housing implementation strategy for the municipality.

7.3.3.2 Housing Pipeline

The PDoHS requires that every municipality must have a Housing Pipeline. The Housing Pipeline is premised on a **five-year horizon** and serves as the planning and budgeting tool for the implementation of Human Settlements initiatives. Each municipality's Housing Pipeline is an integral component of the Department of Human Settlements' Business Plan.

It is required that the Housing Pipeline must be annually reviewed. The latest review of the Housing Pipeline was approved by the Council in March 2023. This revision includes the following:

Figure 36: Housing Pipeline Time Frame, Objective and Estimate Cost

The objective of the Housing Pipeline is to provide more emphasis on the following housing types or programmes:

- Social housing (the National Minister of Human Settlements approved Stellenbosch as a restructuring town and restructuring zones in November 2016);
- Provision of serviced sites;
- Access to affordable housing (GAP housing);
- Upgrading of Informal settlements; and

- ✚ Mixed-use housing (formalised homeownership employer housing - especially farmworker housing).

The estimated cost of this programme will be approximately **R9.6 billion** over **15 years**.

- ✚ Upgrading of informal settlements, (La Rochelle, Klapmuts, Langrug and Franschhoek);
- ✚ Access to basic services (ABS);
- ✚ Jamestown, Farm 527 (phases 2, 3 and 4);
- ✚ Longlands Development;
- ✚ Upgrading of Zone O, Kayamandi;
- ✚ Ida's Valley (Erf 9445 also known as Oak Tree Village) - A key aspect of this project was to utilise municipal land provided at a reduced cost for formal home ownership to cross-subsidise other housing types;
- ✚ Enumeration of people on farms and backyarders;
- ✚ Rectification of Cloetesville subsidy houses at The Steps and Orlean Lounge;
- ✚ Erf 7001, Cloetesville (known as "Soek-mekaar");
- ✚ Upgrade of the Kayamandi CBD; and
- ✚ Northern Extension.

7.3.3.3 Upgrading of Informal Settlements

The municipality manages and coordinates the upgrading of informal settlements through the following broad objectives:

- ✚ In-situ upgrading of informal settlements;
- ✚ Upgrade informal settlements by the provision of basic services;
- ✚ Develop emergency housing sites geared to accommodate evictees;
- ✚ Enumerate / undertake demographic surveys of identified informal settlements;
- ✚ Facilitate tenure security in informal settlements;
- ✚ Assist in short-term job creation through linkages with Expanded Public Works Programme (EPWP) and longer-term job creation through upgrading programmes;
- ✚ Facilitate capacity-building and training for residents and stakeholders through direct service provision and partnerships with outside agencies; and
- ✚ Manage the provision of services and development programmes to informal settlements.

7.3.3.4 Informal backyard dwellings

The municipality through the Housing Pipeline is actively attempting to address the needs and plight of backyard dwellers within the municipal area. Currently, it is required to be registered on the Housing Demand Database and hopefully, this will result in a permanent dwelling in one of the Council's housing projects. This process is long and tedious and the chance of actually obtaining a formal house is very slim. Therefore, Council is actively researching ways in which the service (and basic services) to backyard dwellers can be improved through its various housing programmes (especially Social Housing (affordable rental)).

7.3.3.5 Social Housing

Stellenbosch Municipality was approved as a Restructuring Town in March 2017, by the National Minister of Human Settlements. This approval included the confirmation of the various Restructuring Zones within the municipality and the latter culminated in a Council decision instructing the administration to attract Social Housing Institutions (SHIs) and / or Other Development Agency (ODAs) to effect the municipality's social housing programme.

This programme aims to ensure improved quality of life for communities through a Rental housing programme. This process of integration speaks to the importance of:

- ✚ Economic sustainability: affordability, access to economic opportunities, and promoting job creation via the multiplier effect associated with building medium-density housing stock. etc.;
- ✚ Social sustainability: social integration between various income groups, access to educational, recreational and health facilities, etc.; and
- ✚ Ecological sustainability: conservation of scarce resources.

The figure below depicts areas that have been declared as **Restructuring Zones** for Stellenbosch Municipality.

Figure 37: Restructuring Zones as indicated in green

7.3.3.6 The Western Cape Housing Delivery Model

In 2020, the National Department of Human Settlements (NDoHS) issued a letter to the Provincial Department of Human Settlements (PDoHS) regarding the new directives for human settlements projects. The letter stated that the delivery of top structures was fiscally unsustainable and therefore there is a need to downscale the delivery of top structures to prioritise the delivery of enhanced service sites. The **four newly prioritised categories** for the top structure of the letter were:

- ✚ The elderly;
- ✚ Military veterans;
- ✚ Persons with disabilities; and
- ✚ Child-headed households.

In light of the correspondence received from the NDoHS, the PDoHS added to the above its **existing priority categories**:

- ✚ Backyard residents and
- ✚ Person, longest on the waiting list.

After consultation with the National Department, the PDoHS confirmed that all new projects application received from municipalities, which include top structures, must adhere to the above criteria. All the supporting applicable beneficiary approval information must be attached to the top structure project application.

7.3.3.7 Priority Human Settlements and Housing Development Areas (PDSHDA)

In 2020, the Minister of Human Settlements Gazetted the declaration of the Priority Human Settlements and Housing Development Areas (PHSHDAs). The PHSHDAs intend to advance Human Settlements Spatial Transformation and Consolidation by ensuring that the delivery of housing is used to restructure and revitalise towns and cities, strengthen the livelihood prospects of households and overcome apartheid spatial patterns by fostering integrated urban forms.

The PHSHDAs are underpinned by the principles of the National Development Plan (NDP) and allied objectives of the National Spatial Development Framework (NSDF) and the Integrated Urban Development Framework (IUDF) which include:

- ✚ **Spatial Justice:** reversing segregated development and creation of poverty pockets in the peripheral areas, integrating previously excluded groups and resuscitating declining areas;
- ✚ **Spatial efficiency:** consolidating spaces and promoting densification and efficient communicating patterns;
- ✚ **Access to connectivity, economic and social infrastructure:** ensure the attainment of basic services, job opportunities, transport networks, education, recreation, health and welfare to facilitate and catalyse increased investment and productivity;
- ✚ **Access to adequate accommodation:** the emphasis is on the provision of affordable and fiscally sustainable shelter in areas of high need; and
- ✚ **Provision of quality housing options:** ensure that different housing typologies are delivered to attract different market segments of appropriate quality and innovation.

Emphasis is placed on synchronising national housing programmes in these priority human settlements and housing development areas namely:

- ✚ **Integrated Residential Development Programme** provides a tool to plan, fund and develop integrated settlements that include all the necessary land uses and housing types and price categories to create integrated communities. It provides for subsidised, as well as finance-linked housing, social and rental housing, and commercial, institutional and other land use to be developed.
- ✚ **Social Housing Programme in Restructuring Zones** provides for Social Housing located in specific, defined localities (mostly urban) which have been identified as areas of opportunity (largely economic) where the poor have limited or inadequate access to accommodation, and where the provision of social housing can contribute to redressing structural, economic, social and spatial dysfunctionalities. It is also aimed to improve and contribute to the overall functioning of the housing sector and in particular, the rental sub-component thereof, especially insofar as social housing can contribute to widening the range of housing options available to the poor.
- ✚ **Informal Settlements Upgrading Programme** provides for the structured in situ upgrading of informal settlements to address the social and economic exclusion of communities. It remains evident that informal settlements provide new migrants and the urban poor an affordable point

of access to towns and cities, although they are also associated with high degrees of physical and social vulnerability.

✚ **Finance Linked Individual Subsidy Programme** provides for the creation of an inclusive and vibrant residential property market which can provide state assistance to households who are unable to independently access housing credit to become upwardly mobile and progress up the housing ladder.

✚ **The Special Presidential Package (SPP) Programme on Revitalisation of Distressed Mining Communities** by developing and implementing human settlements spatial transformation plans for identified mining areas.

✚ **Enhanced People's Housing Process** provides for a process in which beneficiaries actively participate in decision-making over the housing process and housing product and make a contribution in such a way that:

- o Beneficiaries are empowered individually and collectively;
- o Various partnerships are created;
- o Social capital is retained and expanded upon, and 4) housing is valued as an asset far beyond its monetary value; and
- o Housing is valued as an asset far beyond its monetary value.

The current status of the PSHDA for Stellenbosch Municipality, namely:

✚ The “Stellenbosch Urban Core Priority Human Settlements and Housing Development Area (PHSHDA) was formally gazette on 15 May 2020 (Government Gazette No. 43316) and consists of the neighbourhoods of Jamestown, Kayamandi and Central Stellenbosch;

✚ To date the Housing Development Agency (HDA) with assistance from the Provincial Department of Human Settlements (PDoHS) has undertaken a Status Quo Analysis in preparation for the drafting of the Stellenbosch PSHDA Development Plan. The Status Quo Analysis has been completed and will inform the drafting of the Development Plan going forward; and

✚ The PDoHS, Stellenbosch Municipality and HDA will proceed with the drafting of the Stellenbosch PSHDA Development Plan shortly.

The figure below depicts areas that have been declared as Priority Human Settlements and Housing Development Areas (PDSHDA):

Figure 38: Priority Human Settlements and Housing Development Areas (PDSHDA)

The approved Housing Pipeline is available on request at the Directorate: Planning and Economic Development, on 021 808 8462 or via email at: lester.vanstavel@ Stellenbosch.gov.za.

7.3.4 Comprehensive Integrated Transport Plan

The National Land Transport Act, 2009 (Act No. 5 of 2009) (NLTA), requires “Type 1” planning authorities (the country’s major cities and towns (including Stellenbosch Municipality), to prepare Comprehensive Integrated Transport Plan (CITP). Generally, a CITP is considered a mechanism by which planning authorities can plan for, develop, manage, integrate and provide for all modes of transport in their areas of jurisdiction.

The current (2016) CITP is valid for a period of at least five years. The latest update was compiled and adopted by the Council on 28 April 2021. The current CITP is valid until the new review / overhaul of the CITP has been approved by the Council. The new review / overhaul of the CITP will be valid from 2023 to 2027 and is in the process of being finalised.

Figure 39: Comprehensive Integrated Transport Plan (CITP)

7.3.4.1 Strategic Interventions

The following areas of strategic intervention have been highlighted:

- 

“Towards Car-Free Living” refers to strategies that encourage more effective modes of travel such as public transport, NMT and other mechanisms to increase the number of passengers per vehicle. The municipality in collaboration with the Provincial Transport Department is investigating strategies that would improve public transport services within and around Stellenbosch.
- 

“Travel Demand Management” refers to strategies that manage overall demand for travel during peak periods such as congestion pricing and parking management.
- 

“Infrastructure and Operational Enhancements” refer to capacity improvements to transport infrastructure but only as part of the overarching transport philosophy in Stellenbosch. The municipality continues to roll out its infrastructure enhancement initiatives such as the Main Road Intersection Improvement Programme, the Traffic Signal Optimisation Programme as well as the implementation of Public Transport Facility upgrades.
- 

“Optimal Land-Use and Interconnected Nodes” refers to integrated land use and transport planning which supports and promotes transit-orientated development (ATC).

7.3.4.3 Integrated Waste Management Plan (IWMP)

This third-generation IWMP was developed in 2020. The development of the IWMP is necessary, as it is an integral tool to identify current needs and act as a guide towards sustainable waste management. With regular updates to this document, changing needs and progress in the waste management sector can be tracked, and strategies can be adjusted as needed.

Figure 40: Integrated Waste Management (IWMP) Purpose, Scope and Status Quo

7.3.4.4 Implementation Plan: Integrated Waste Management Plan (IWMP)

Based on the gaps and needs identified, the aligned goals of the IWMP, and planned projects by the municipality, the plan contains the objectives, timeline, and resources required for the implementation of the IWMP. The gaps and needs identified are linked to the main goals contained in the Western Cape Provincial IWMP.

7.3.5 Electrical Master Plan

With the approval of the SDF in November 2019, which was almost within the time that the Master Plan was due for an update, the review was not done. The complete update was planned for September 2020, but due to the COVID-19 pandemic, the updating of the Masterplan was delayed.

In October 2020, the Minister of DME announced that municipalities would be allowed to purchase electricity from other sources and also generate their electricity in the future. This drastically changed the whole concept of the Stellenbosch Municipality's Masterplan. Where the municipality previously had one supplier of electricity, it would have major intake points from this one supplier. As networks flow from these points to consumers, the size of the cables will depend on the demands of these consumers for electricity. Because the municipality may now receive electricity from multiple sources, the municipal network design will no longer be compatible with this new policy. The entire Masterplan must now change, as cables in certain areas may now be too big and in a few places too small. The whole system of intake points must first be established, and once that is known, the network itself must be redesigned with the knowledge of existing and future intake points and methods of energy acquisition.

To understand what the energy sources for electricity would look like, an **Energy Masterplan** has been launched and is currently being conducted by the Council for Scientific and Industrial Research (CSIR), which will form the basis for how electricity is likely to be generated or purchased. Once this Master Plan has been completed and the SDF has been updated, it would be the ideal time to draft an entirely new Electricity Master Plan. The following timetables are planned:

- Complete the **Energy Master Plan** by December 2022; and
- Complete the **Electricity Master Plan** by June 2023.

The plans aim to provide the Stellenbosch Municipality with a clear view and a long-term plan for the development of the electrical infrastructure required to support the envisaged demand growth in Stellenbosch and surrounding areas. The municipality also evaluated the long-term viability of existing infrastructure and the expansion and refurbishment requirements thereof, where new infrastructure should be located, and which components, either existing or new, will be required.

Apart from spatial changes, the **Electrical Master Plan** is to contain the following main elements:

- Documented assessments of primary equipment at all 66/11 kV substations and 11 kV switching substations within the municipal area;
- Site-specific assessments to provide a systematic estimate of the life remaining in substation facilities, and planning to extend the life of facilities to meet future needs;
- Development of a geographical load forecast based on regional demographic and historical load growth patterns, as informed by the SDF. (The anticipated long-term load forecast was directly used as input to the expansion plan.);
- Development of network strengthening and expansion options and technical evaluations to ensure that load and performance criteria are met over the short, medium and term (2028);
- Preparation of cost estimates for the technically viable expansion and strengthening options; and
- The Electrical Master Plan is updated every five years and is used in medium-term project planning, prioritisation and budgeting.

7.3.6 Water Services Development Plan

As a Water Services Authority (WSA), the Stellenbosch Municipality has a duty, in terms of sections 12 and 13 of the Water Services Act, 1997 (Act No. 108 of 1997) to prepare and maintain a Water Services Development Plan (WSDP). The municipality prepared a comprehensive WSDP in 2007, 2012, and 2019 that is valid for a period of five years. The revision and updating of the WSDP will commence in the 2022/23 financial year.

South Africa's water resources are looked after by the Department of Water and Sanitation. Stellenbosch Municipality's Water Services sees itself as an extension of this caretaking. Water Services is responsible for acting in line with the Water Services Act and the implementation of Municipal By-Laws, policies, and procedures.

As part of the WSDP package, the municipality maintains:

- Water and Sewer Master Plans;
- Water Resources Study;
- Annual water audit;
- A Water Safety Plan;
- A drinking water quality sampling programme;
- Water and sewer pipe replacement prioritisation programme; and
- A Water Demand Management (WDM) Strategy.

The Water Master Plan, Sanitation Master Plan, Bulk Water Resources / Drought Intervention Plan, Asset Register and Pipe Replacement Prioritised Programme were updated in 2019.

A brand-new Master Plan is envisaged to be commenced with and completed in 2023. Since water management has drastically changed with the advent of drought, the use of greywater, and the increasing cleansing of rivers, it is needed to be redone. It will also align the Water Master Plan with the latest changes to the SDF.

The Water Conservation and Water Demand Management (WC and WDM) strategy is a comprehensive study, which includes a 10-year financial plan. The strategy has two goals: the municipality will prioritise the implementation of WC and WDM and will ensure ongoing planning, management, monitoring and an enabling environment. The WC and WDM initiatives include a water pipe replacement programme, indigent domestic leak repair and meter replacement programme, Stellenbosch water meter audit and Stellenbosch in-house water services operation and maintenance.

Poverty reduction and improved water management are closely linked. Section 4B of the Constitution lists water and sanitation services, limited to potable water supply systems and domestic wastewater and sewerage disposal systems, as a local government function.

Access to basic water is defined as 25 liters of potable water per day supplied within 200 meters of a household.

Due to the severe drought experienced recently and very low rainfall recorded in recent years, the municipalities in the Western Cape had to enforce water restrictions that were lifted in recent years.

Stellenbosch Municipality supplies water to its consumers through the following water supply systems:

- Stellenbosch (Jonkershoek and Theewaterskloof tunnel);
- Franschhoek;
- Wemmershoek (treated water imported from the City of Cape Town);
- Blackheath (treated water imported from the City of Cape Town);
- Faure (treated water imported from the City of Cape Town); and

Other own sources (Boreholes).

The total population supplied with water in the Stellenbosch Municipal area amount to approximately 213 710 people. Water is also supplied to a fairly extensive industrial area.

Emergency water is supplied to farm communities that do not get water from the farms that they stay on.

Stellenbosch Municipality manages three water treatment works, namely Ida's Valley, Paradyskloof and Franschhoek. The potable water supply from these works amounts to 21.2 MI/d on average and a further 9.1 MI/d was obtained from the City of Cape Town during the financial year, ensuring a supply of approximately 30.4 MI/d to the municipal area.

Areas supplied by the Wemmershoek Water Treatment Works include half of Franschhoek town, La Motte, Wemmershoek, Pniël, Boschendal, Johannesburg, Kylemore, Lanquedoc, Klappmuts, Koelenhof, Elsenburg, Devon Valley and Muldersvlei. Areas supplied by Blackheath water treatment works include Polkadraai, Spier and Vlootenburg. Areas supplied by the Faure Water Treatment Works are Faure, Jamestown, De Zalze, Raithby and Lynedoch. Although these water treatment works fall within the sphere of responsibility of the City of Cape Town, their impact concerning water quality and quantity needs to be monitored and considered by Stellenbosch Municipality.

Stellenbosch Municipality supplies potable water to the entire municipal area through a network and infrastructure consisting of 56 reservoirs / holding tanks and water towers, 41 water pump stations, 43 pressure-reducing valve installations, 729 kilometers of pipeline and 80 water supply zones. The network is fully controlled and operated by a telemetry system.

The bulk water input into the water network for 2021/2022 was 11 108 208 kl, with an annual average daily demand of 30 433 kl/day. About 42% of the water supplied is purified from its water sources at the Ida's Valley and Franschhoek water treatment plants. The balance is supplied by the City of Cape Town and the Paradyskloof Water Treatment Plant, where raw water supplied by the Department of Water and Sanitation is purified. Potable water supplied by the City of Cape Town is analysed every month by the City of Cape Town.

Figure 41: WCWSS Storage Record (2008 – present)

Ida's Valley and Paradyskloof Water Treatment Works are equipped with some analytical capabilities and routine plant analyses are performed in-house. A full water quality monitoring programme is further performed for the municipality by an accredited external laboratory / contractor. Maintenance of equipment is performed in-house and by specialist contractors.

7.3.6.1 Basic Services and Level of Services

- There is no basic water and sanitation services backlog in the urban areas of the municipality. A small number of households on farms are still without basic water and sanitation services.
- The clinics, hospitals and schools in the municipal area have adequate and safe water supply and sanitation services.
- All indigent households receive free basic water (the first six kilolitres of water) and sanitation services.
- All the formal households in urban areas of the municipality are provided with water connections and waterborne sanitation facilities inside the houses (higher level of service). Communal standpipes and ablution facilities are provided in the informal areas as a temporary emergency service. Communal standpipes represent the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of their already vulnerable and poor users.
- A sustainable type of water and sanitation facility needs to be provided to the households on those farms with current services below the minimum service level standard. Stellenbosch Municipality is committed to supporting the private landowners as far as possible concerning addressing the current services backlog on farms, as identified through the Cape Winelands Rural Survey of Service Levels.
- From a water services perspective, the most significant challenges are the augmentation of the existing water sources, the replacement and upgrading of old infrastructure to accommodate development, the provision of sustainable basic services to informal settlements, and ensuring the provision of basic services to rural communities located on private farms.

7.3.6.2 Maintenance of Infrastructure

Both water infrastructure and sanitation infrastructure require serious remedial investment. About a third of the water supply infrastructure is in poor or very poor condition and the condition backlog is more than R300 million. The bulk of the backlog is made up of the old Asbestos Cement (AC) water reticulation pipeline assets. About 40% of the sanitation infrastructure is in poor or very poor condition and the condition backlog is in the order of R250 million. The bulk of the backlog consists of the old Asbestos Cement (AC) and Pic Fibre sewer reticulation assets in the Stellenbosch area.

Wastewater Treatment Works

An Infrastructure Asset Register is in place for all water and sanitation infrastructure. An Infrastructure Asset Management Plan must be developed and implemented, based on the principle of preventative maintenance to ensure that damage to assets is prevented before it occurs. Assets must be rehabilitated and / or replaced before the end of their economic life and the necessary capital funds must be allocated for this purpose. Maintenance activities have been increasingly focused on reactive maintenance as opposed to preventative maintenance.

7.3.6.4 Water Demand Management (WDM)

Stellenbosch Municipality is actively implementing their adopted WDM Strategy to reduce the current percentage of non-revenue water and to keep the future water demand as low as possible. The municipality has a block-step tariff system that discourages wasteful or inefficient use of water. The restriction of water use by indigent households and non-payers was prioritised with the implementation of the Leak Repair Programme which includes the repairs to private leaks and the installation of Water Demand Management Devices. These devices restrict users to 400 litres per day. More than 1 600 devices have been installed with savings of over 450 000 litres of water per day.

7.3.6.5 Climate Change

In terms of adapting to climate change, water systems will need to be more robust and newer or alternative sources of supply may need to be found. Increased skills will be required from water managers and long-term water projections are required. Although an overall decrease in rainfall is not generally forecast, increased variability in the climate and frequency of extreme events, as well as increased temperature and wind could have an impact on water sources, particularly surface waters. It is, therefore advisable for the municipality to maintain a conservative approach to the management of water sources, including the following actions:

- ✚ Establish assurance of supply levels of all water sources;
- ✚ Increase assurance of supply of water resources by ensuring that there is at least 10% additional capacity (headroom) when considering the maximum 24-hour demand on the peak month of the year;
- ✚ Do not undertake new developments unless a proper investigation of the implication on water sources and sustainability in the long term has been undertaken.
- ✚ Vigorous implementation of WDM measures, especially in terms of increased water efficiency, frequent monitoring of the water supply system from the sources to the consumers, and regular and adequate system maintenance and repairs; and
- ✚ IRIS monitoring system including the Blue Drop Awards system is active in the municipality and in the past with the Blue Drop system, SM was awarded for four of the municipality's five water supply systems. Three awards were received in conjunction with the City of Cape Town, which supplies water to these systems – from where Stellenbosch manages distribution to end-users. A further Blue Drop Award (the fourth consecutive award) recognised the Stellenbosch water supply system for water treated by the municipality's Ida's Valley and Paradyskloof water treatment plants. The Department of Water Affairs acknowledged this exceptional performance by awarding a silver award to Stellenbosch.

The municipality did not receive a Blue Drop Award for the Franschhoek water supply system which receives water from its own Franschhoek water treatment works. This was expected because of certain infrastructure challenges in this system. Projects have been initiated to address these issues.

7.3.6.6 Level of Service

In the rural area, the responsibility lies with the landowner to manage stormwater over his land. In the urban area, the responsibility lies with the local municipality. The objective in stormwater management is to be able to accommodate a 1:5-year storm in the residential areas and 1: 2 in the urban areas as contemplated in the Guideline for Human Settlements Planning and Design. The Water Act, 1998 (Act No. 36 of 1998) determines that flood lines should be indicated on development plans.

Flood line determination has been done in the past but this information is outdated. The municipality is currently busy compiling a hydrological model to determine the latest flood lines on the rivers in Stellenbosch and Franschhoek for the urban area. It is a development condition for all future developments to do a flood-line determination.

7.3.6.7 Risk Mitigation – COVID-19 Influence on Water Services

Household water supplies may fall victim to the COVID-19 pandemic – if users can no longer pay their bills, and municipalities' revenue streams dry up.

"In the short term, there will still be water for people to wash their hands. However, the long-term consequences could be devastating if municipalities are not able to fund their ongoing operations while funds for the President's Infrastructure Investment initiative will also be affected," says Mike Muller, Chair of the Technical Subcommittee for the Water Institute of Southern Africa (WISA).

As the lockdown impacts individuals and companies across the spectrum, prompting job losses and reduced working hours, the Water Institute of South Africa (WISA) warns that proactive interventions to address "the elephant in the room" are already overdue.

"If people are faced with the choice of paying their rates or feeding their children, they are going to choose the latter. And this non-payment, in a scenario already under serious financial pressure, could have a devastating effect on the general cash standing of municipalities," Dan Naidoo, WISA non-executive director, cautioned at a WISA Board meeting held online recently.

To clarify the depth of the negative knock-on effect, he points out that local government is the main driver of South Africa's economy.

"Service delivery, including the provision of water, is the cornerstone of all economies. Non-payment affects the entire value chain upstream, and if our five big metros are already reporting tough times, how can we expect the smaller, poorer municipalities to survive?"

*Water is a prime focus usually, and more so now as we battle the COVID-19 pandemic. But water is not free, and the country must be sure that it can fund and maintain this critical infrastructure into the future."*⁶

The infrastructure capital implementation is hampered by the pandemic which lowers the income from water and wastewater services due to the lockdown. The capital implementation programme is thus delayed.

7.3.6.8 Risk Mitigation – Drought Response Plan

Water is probably the most fundamental and indispensable of natural resources – fundamental to life, the environment, food production, hygiene and power generation.

Due to the threat of re-occurring droughts and very low rainfall recorded in recent years, the municipalities in the Western Cape had to enforce water restrictions. Stellenbosch Municipality implemented water restrictions to lower water consumption.

The success of this initiative is largely dependent on the cooperation of the consumer taking ownership of the new smart meter. The use of the water demand management device (smart meter) has been implemented nationally with huge success and a reduction in water losses.

The project is currently underway and has received a positive reaction from the community.

The new Water Services By-Laws were also finalised and approved by the Council and promulgated. This will contribute to increasing the management and control of water and sanitation-related aspects within the municipality.

During the last official Blue Drop certification (2012), Stellenbosch Municipality achieved Blue Drop certifications for four of its five water supply systems, with a total **Blue Drop score of 95.56%.**

⁶ WISA, Jun 30, 2020

Stellenbosch Municipality's performed well concerning DWS's 2021 Blue Drop Progress Assessment (Drinking Water Process and Quality). The Blue Drop Risk Ratings for the five systems evaluated were 23.5%, 22.5%, 26.3%, 39.9% and 35.2%, which all fall in the low-risk category (<50%).

The municipality achieved a platinum award for the Stellenbosch Water Supply System for achieving Blue Drop accreditation three times, every year since the programme's inception in 2009.

The following planning documents are continuously updated to include the latest planning: the Water Master Plan, Drought Response Plan, Water Services Audit Report and the Pipe Replacement Study and Model and all projects and daily operations are done in line with the aforementioned studies and guidelines.

7.3.6.9 Backlogs in Water and Sanitation Services

A municipality as a Water Services Authority (WSA) has a duty to all its customers or potential customers in its area of jurisdiction to progressively ensure efficient, affordable, economical and sustainable access to water and sanitation services to promote sustainable livelihoods and economic development. To ensure this it is important that the backlogs within the water and sanitation infrastructure should be addressed. Backlogs could be defined in three broad categories:

- ✚ Backlogs regarding access to basic water and sanitation services. (Basic water and sanitation services in terms of RoadP standards);
- ✚ Conditional backlogs (lack of maintenance); and
- ✚ Capacity backlogs (increase in consumers).

7.3.6.10 Backlogs – Access to Basic Levels of Services

All indigent households receive free basic water (the first ten kilolitres of water) and sanitation services.

All the formal households in urban areas of the municipality are provided with water connections and waterborne sanitation facilities inside the houses (higher level of service). Communal standpipes and ablution facilities are provided in the informal areas as a temporary emergency service. Communal standpipes represent the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of their already vulnerable and poor users.

A sustainable type of water and sanitation facility needs to be provided to households with current service levels below RDP standards. Stellenbosch Municipality is committed to supporting the private landowners as far as possible in addressing the current services backlog on farms.

7.3.6.11 Conditional and Capacity Backlogs of Infrastructure

Resolving inequality and growing the economy will require access to water and sanitation services for the 20 000 new residential units proposed for Stellenbosch Municipality. This will require a doubling of infrastructural service points over the next 10 years.

Figure 42: Water supply and accommodating growth (Total for WCO24)

Updated growth in demand: 20-year planning horizon

Detailed water balance and future water demand projection models were developed as part of the WSDP process, to plan adequately for the augmentation of the existing water sources.

Groundwater is now seen as a potential water source and will be investigated and evaluated after the new water resources study is completed.

Based on the municipality's IWA Water Balance sheet for the 2020/21 financial year, the municipality recorded 29.7% for "non-revenue" water which is an increase of 2.3 % from the previous financial year and 14.6% for Real Network Losses.⁷ The no-revenue water for the financial year 2020/21 is 29.7% which is above the target set of 25%. The real physical network losses are at 14.6% which is below the best practice value of 15%.

⁷ Refer to the municipality's IWA Water Balance Sheet

Figure 43: Water Losses from July 2021 to June 2022

System input volume: July 2021 to June 2022 ; kL			11 108 208	100%	
(water demand in reticulation system)					
Potable water	Authorised consumption 82.4%	Revenue water 70.3%	Billed metered	7 807 027	70.3%
			Billed unmetered	0	0.0%
	Water losses 17.6%	Non-revenue water 29.7%	Unbilled metered	0	0.0%
			Unbilled unmetered	1 343 981	12.1%
			Apparent losses	332 724	3.0%
			Real network losses	1 624 476	14.6%
	Non-revenue water (NRW) ; kL			3 301 181	29.7%
Real network losses ; kL			1 624 476	14.6%	

7.3.6.12 Borehole Drilling in WCO24

Part of the drought mitigation plan was to manufacture and install water purification plants in the Stellenbosch Municipality water networks at strategic positions. The containerised water purification plants treat water up to SANS 241 standards before it is included in the water supply networks. This water is however more expensive compared to our Ida's Valley WTP supply and is not used unless necessary.

Figure 44: Stellenbosch Bulk Water Consumption

7.3.7 Long-Term Water Conservation and Water Demand Management Strategy

A comprehensive Water Conservation and Water Demand Management (WC and WDM) Strategy which includes a 10-year financial plan has been developed. The strategy has two goals. The municipality will:

- ✚ Prioritise the implementation of WC and WDM Strategy; and
- ✚ Ensure ongoing planning, management, monitoring and enabling environment.

This long-term WC and WDM Strategy were approved by the Council on Tuesday, 25 February 2014 and was since been implemented. Water Conservation and Water Demand Management (WC/WDM) are more cost-effective and have a less environmental impact when compared with developing new sources of supply, provided there is scope for implementing WC / WDM measures. The payback period for the implementation of WC / WDM in this municipality is 3 years which is considerably less than the 20 years that one would expect with major infrastructure projects. The updating of the long-term plan is underway.

The results of the successful implementation of the strategy are evident with declining input volumes and lower water losses recorded since implementation started. The active Leak Repair Program, the installation of the Water Demand Management Device, the active replacement of faulty water meters and the replacement of asbestos cement pipelines all contributed to below-average Real Network Losses and Non-revenue Water Losses. It is, therefore, an effective way of delaying the development of infrastructure for new water resources and reducing the need to upgrade or construct new bulk water infrastructure.

WC / WDM involves measures which:

Figure 45: WC / WDM Measures

Figure 46: Stellenbosch Bulk Water input volumes

Figure 47: Stellenbosch Bulk Water Sales

The unrestricted growth in water demand versus the growth in water demand assuming WC and WDM is implemented as shown in the figure below.

Figure 48: Unrestricted versus WDM growth in demand

Figure 49: Unrestricted versus WDM growth in demand

Note that each town in the municipality has water supplies independent of each other. When implementing WC / WDM in the municipality it is critical to implement it in those towns where the existing supply will become inadequate for the demand the soonest. This will enable the municipality to delay the implementation of expensive infrastructure. The estimated budget required is about R80 million over 10 years.

The municipality embarked on a Drought Intervention Programme that accelerated and expanded some of the WC / WDM plans and programmes.

Figure 50: Updated growth in demand 20-year planning horizon

7.3.8 Safety and Security Strategy

The purpose of the Safety and Security Strategy is thus to reduce crime and increase safety through an integrated, multi-pronged approach. The strategy is revised annually to ensure that it remains relevant to the real challenges of the day. To this end, the municipality partners with a range of stakeholders ranging from the Western Cape Government, the Cape Winelands District Municipality, SAPS, and Stellenbosch University, as well as various private, public, and community-based safety and security organisations and institutions.

The Stellenbosch Safety Partnership (SSP) serves as an operational platform for safety and security entities to plan and operationalise enforcement plans. The breakdown of silos (between internal departments and private institutions with similar objectives) is of critical importance, as no strategy from any role-player can succeed unless a multi-disciplinary, integrated approach is embraced as part of the process and has been successful in crime prevention. The SSP is open to any registered entity that contributes towards safety and security initiatives in the Stellenbosch Municipality.

The Stellenbosch Municipality has and continues to invest in and support neighbourhood watches (NHWs) and mobilise communities to support them. This includes direct assistance to NHWs to formalise their registration with the Department of Police Oversight and Community Safety (DPOCS) so that they can qualify for financial support and participate in sanctioned safety projects. The NHWs form a critical part of the community-based safety focus of the municipality in that NHWs are located in the communities and understand the particular challenges faced by those communities. In addition to the support received from DOCS, the municipality continues to provide training for under-resourced neighbourhood watches and provides them with radios for swift and effective communication with the municipal control room as and when required. To achieve this, the following role players have been identified as key stakeholders and partners for success:

- South African Police Services (SAPS);
- Department of Community Safety (DOCS);
- Cape Winelands District Municipality (CWDM);
- Neighbourhood watches and Farm Watches;
- Community Policing Forums (CPFs);

- Private and corporate businesses;
- Private security companies;
- Winelands Safety Initiative (WSI);
- Department of Correctional Services (DCS);
- Department of Justice (DoJ);
- University of Stellenbosch (Campus Control); and
- Stellenbosch Municipality
 - Law Enforcement
 - Traffic Services
 - Fire and Rescue
 - Disaster Management.

Building collaborative relationships with our community stakeholders and highlighting Council's commitment to maintaining strong partnerships with primary Law Enforcement Agencies remains the foundation of ensuring safety throughout the Greater Stellenbosch.

The Stellenbosch Municipality has and continues to support neighbourhood watches (NHWs), as well as to mobilise communities to support the neighbourhood watches. This includes providing direct assistance to NHWs in formalising their registration with the Department of Community Safety (DOCS) for the NHWs to qualify for financial support and participate in sanctioned safety projects. The NHWs form a critical part of the municipality's community-based safety strategy since they are positioned in the communities and understand the unique challenges faced by those communities. In addition to the DOCS assistance, the municipality will provide training and equip under-resourced neighbourhood watches with radios for swift and effective communication with the municipal control centre as needed.

The control room is fully functional and situated at the Stellenbosch Fire Department. The municipality still strives and will continue to, as part of the strategy provide a space where all Safety and security stakeholders could jointly monitor and communicate with each other on safety and security matters. This includes the monitoring of municipal bylaw transgressions, criminal activity, emergency response in case of disasters, emergencies and a range of other safety and security-related incidents.

One dedicated emergency number is available to residents within the municipal boundaries which will mobilise all relevant units in response to alerts received on this number: **021 808 8999**. Additionally, the control room also monitors a dedicated WhatsApp number for general and safety complaints within the municipal boundaries of Stellenbosch with WhatsApp number is **079 622 4722**.

All registered NHWs and security companies registered with the SSP have been and are in the process of being allocated space in the control centre.

Awareness initiatives have been and will continue to be launched as it contributes and make communities aware of crime prevention tips and other preventative tips, for example, fire safety and what to do in case of disasters. This will be a joint approach between role-players and supplemented based on crime patterns and situations experienced. Training will also be provided to enhance safety initiatives, for example, road safety (crossing of roads).

The Community Safety Forum (CSF) was approved by the Council on 30 March 2022. The CSF is a multi-stakeholder forum that will address matters of community safety and security in the WC024. The purpose of CSF is to promote the development of communities in a safe environment and have access to high-quality services at the local government level, through multi-agency collaboration between the different spheres of government and communities. The CSF as a multi-sectoral structure would champion the coordination, integration, and implementation of crime and violence prevention community safety initiatives. The CSF will have three Clusters, namely: Law Enforcement, Social Cohesion and Crime Prevention through Environmental Design.

Fire Services

The Stellenbosch Municipal Fire and Rescue section is dedicated towards the provision of services that seek to safeguard the public against fire and other natural and man-made disasters and emergencies.

The role of the Fire and Rescue Services is to deal proactively and reactively with the following:

- ✦ The proactive provision of general fire safety guidance and assistance in respect of venues and their users;
- ✦ Protection and rescue of life and property from any threatening danger;
- ✦ Prevent the outbreak or spread of fire;
- ✦ Extinguish fire;
- ✦ Any other duties as stipulated in the Fire Brigade Services Act;
- ✦ Through the Department of Planning and Development and Building Department, consolidate initial structural damage assessments from other departments, conduct evaluations of structures, and support efforts of property owners to address structural issues;
- ✦ Assist SAPS with inspections at licensed premises to combat illegal activities identified by crime intelligence;
- ✦ Determine slide (land) danger areas of informal settlements, oversee the direction, management and cordoning-off of identified slopes and stabilise;
- ✦ Activate the Disaster Management Unit in case of any life-threatening incident, for example, flooding, loss of residence due to fire, etc; and
- ✦ Conduct annual evacuation drills at designated buildings and premises.

Traffic Services

Stellenbosch Municipality has a legislative mandate to provide traffic services to the general public and its community, and safe road usage in the municipal area. Traffic Services is committed to managing, controlling and improving road safety in the municipal area by providing effective Traffic Administration and Traffic Law Enforcement services.

This will be achieved through the implementation of specific operational activities throughout the year which focuses on enforcement and education. The enforcement of public transport violations, speed violations and sustained education at schools will be a specific focus for this year.

Another focus is also to improve the smart policing concept by optimally utilising technology for our officers, fine devices, and other policing techniques to provide effective and efficient services at our Motor Vehicle Registration and Licensing, Driver License Testing Centre, and our Vehicle Testing Centre.

The Traffic Management Plan contains the full spectrum of road safety programs and projects across all functions, stakeholders, and users in WC024. The plan describes the various challenges in road safety and presents a range of action plans to address or mitigate these challenges.

Traffic Services is committed to:

- ✦ Ensure the road safety of all members of the community insofar by providing quality traffic services in all its divisions (Traffic Administration, Traffic Law Enforcement, Licensing, Education and Accident Statistics);
- ✦ Reducing the accident rate that will result in fewer fatalities and injuries;
- ✦ Increase the voluntary compliance of road users in respect of the rules, legislation, and regulations of the road;
- ✦ Improve management practises throughout all traffic services divisions; and

- Provide a safe environment by integrating the best practices with internal and external agencies and role-players.

Traffic Services will focus on,

- Ensure the constant free flow of traffic;
- Enforcement of the National Road Traffic Act and National Land Transport Act;
- To achieve a measurable improvement in road user behaviour – including the skill level of drivers, safer decision-making, and better regard for other road users;
- To reduce the incidence of traffic offences, including speeding, dangerous driving, drunk-driving, driving under the influence of a narcotic substance, dangerous overtaking, moving violations, etc;
- Parking enforcement/management;
- To ensure that un-roadworthy (including overloaded) vehicles are removed from the road;
- Point duty during morning, midday, and evening peak at critical locations, during loadshedding, as well as school points;
- Special operations team to focus on driving under the influence of alcohol or drugs, illegal racing, and transportation of illegal substances;
- Road safety training and education provided for crèches, nurseries, schools, primary / high schools, colleges, and universities as well as pedestrians, cyclists, farm workers, rehabilitation centres and youth groups. Training also includes learner's license programs for youth and scholar patrol and level-crossing awareness;
- Events (road closures, escort duties);
- Public Transport activities and checking of roadworthy status buses and minibuses;
- ANPR (automatic number-plate recognition) focusing on offenders with outstanding fines;
- Conducting driving and learner's license testing;
- Conducting driver's license conversions/renewals;
- Accepting and processing Professional Driving Permit (PrDP) applications;
- Conducting vehicle testing (all classes of vehicles); and
- Vehicle registration and licensing.

Law Enforcement

With the review of the Safety Strategy, the municipality has to adapt to the changing environment of crime in its area and actively pursued closer working relationships with SAPS, private security, and neighbourhood watches active in the WC024 area to be able to make an impact. It is common knowledge that criminals become smarter and migrate from neighbourhood municipalities which means that the municipality has to think smarter to always be one step ahead.

The municipality has completed all 3 phases of the action plan as identified during the previous review. This includes the installation of License Plate Recognition cameras (LPR) at all the main entrances and exits to Stellenbosch and Franschhoek towns. These LPR cameras are supplemented with additional LPR cameras within residential areas which make it possible to track the direction of suspect vehicles linked to crime picked up by these. The municipality continuously invests in CCTV to enhance safety. The municipality also has a CCTV Master Plan which is a "living" document and is frequently updated based on needs identified concerning safety.

The focus of Law Enforcement

- Effective monitoring and surveillance of CCTV cameras with reaction units to respond immediately;
- Establishment and implementation of the CBD Safety Project – zero tolerance approach;
- Weekly operational planning with SAPS and safety partners;

- Amendment of the structure of Law Enforcement to accommodate identified needs;
- Establishment of a Tactical Response Unit (TRU);
- Strengthening coordination of communication strategies between neighbouring municipalities;
- Social Crime Prevention Strategies in conjunction with the Section: Community Development in terms of Council's Street People Policy and Social Justice SOP;
- Consult with the CWDM in terms of sharing resources and information flow;
- Use of innovative technology to improve enforcement strategies;
- Compile a Security and Safety Camera Master Plan for WC024;
- Completion of the municipal control room – Joint Operating Centre (JOC);
- Issuing of radios to all neighbourhood watches to be able to communicate with and through the Stellenbosch Municipality control room (JOC);
- Provide training to Neighbourhood watches;
- Implementation of the externally funded Law Enforcement (Rent-a-Cop) Policy; and
- Implementation of the Reservist policy.

7.3.9 Disaster Management Plan

The National Disaster Management Centre (NDMC) provided a set of guidelines; developed in terms of section 19(a) of the Disaster Management Act, 2002 (Act No. 57 of 2002) (DMA) and section 3.6 of the National Disaster Management Framework, 2005 (NDMF) provides a uniform structure and checklist to organs of state to develop a Disaster Management Plan.

This plan confirms the arrangements for managing disaster risks and for preparing for – and responding to disasters within the Greater Stellenbosch Municipality as required by the Disaster Management Act, 2002 (Act 57 of 2002).

SECTION 53(1) DISASTER MANAGEMENT ACT, 2002 (ACT NO. 57 OF 2002)

- a) Prepare a disaster management plan for its area according to the circumstances prevailing in the area;
- b) Co - ordinate and align the implementation of its plan with those of other organs of state and institutional role-players; and
- c) Regularly review and update its plan; and through appropriate mechanisms, processes and procedures established in terms of Chapter 4 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) to consult the local community on the preparation or amendment of its plan.

7.3.9.1 The Key Outcome of the Disaster Management Plan

The Disaster Management Plan (DMP) seeks to achieve the following key outcomes:

- integration of Disaster Risk Management into the strategic and operational planning and project implementation of all line functions and role-players within the municipality;
- resilient communities; and
- an integrated, fast and efficient response to emergencies and disasters by all role-players.

7.3.9.2 Linkage to Stellenbosch Municipality's IDP

The MSA and the Disaster Management Act require the inclusion of the Disaster Management Plan into the Integrated Development Plan (IDP) of the Stellenbosch Municipality, as a core component of the IDP document. However, it is not practical to include the entire Disaster Management Plan with annexures within the IDP of the Stellenbosch Municipality. Therefore, a summary of the key points is encapsulated in the IDP.

7.3.9.3 Linkage to the Disaster Management Framework of the CWDM

The Stellenbosch Municipality must prepare and execute its Disaster Management Plan within the Disaster Management Framework of the Cape Winelands District Municipality. The National, Western Cape Provincial and Cape Winelands' frameworks guide the development of the municipal Disaster Management Plan and future versions of this plan.

7.3.9.4 Structure of the Disaster Management Plan

The municipal Disaster Management Plan of the Stellenbosch Municipality consists of the components as indicated in the figure below:

Figure 51: Structure of Disaster Management Plan

7.3.9.5 The Purpose of the Stellenbosch Municipality Disaster Management

The purpose of Stellenbosch Municipality Disaster Management is to ensure coordination of multi-disciplinary and multi-sectorial risk reduction through the integrated institutional capacity for Disaster Risk Management, Risk Assessment, Response and Recovery and implementation of measures aimed at:

- ⬇ Preventing or reducing the risk of disasters;
- ⬇ Mitigating the severity or consequences of disasters;
- ⬇ Emergency preparedness;
- ⬇ Rapid and effective response to disasters; and
- ⬇ Post-disaster recovery and rehabilitation.

7.3.9.6 Risk assessment throughout WCO24

An all-ward-based Disaster Risk Assessment was conducted in collaboration with the Cape Winelands District Municipality to identify all possible hazards that could impact the community and environment of Greater Stellenbosch was undertaken and completed. As the environment is dynamic and constantly changing, so are the risks that affect our communities. In the period since the risk assessments took place, some of these risks would have been addressed by projects implemented by

municipalities, however, new risks might have also emerged. Therefore, it is necessary to regularly review the risk assessments. Several risks were identified, however, six risks were identified to be high-priority risks.

High-priority risks identified that pose a risk to the WCO24 are listed in the table below.

Table 52: High-Priority Risks Identified

High Priority Risks	Description of risks
A. Inability to control urbanisation	<ul style="list-style-type: none"> “Urbanisation – the increase in the number of people living in towns and cities, resulting in the growth of urban populations.” Several disadvantages occur with rapid and unplanned urban growth. These disadvantages include but are not limited to, poor infrastructure / inadequate housing, water and sanitation, waste disposal and pollution, and transport and healthcare services.
B. Increased poverty and unemployment	<ul style="list-style-type: none"> Poverty and unemployment directly correlate with the quality of life of the members of the community. The risk is exacerbated by the expansion of the informal sector and a low skills base population.
C. Access to basic services	<ul style="list-style-type: none"> The lack of basic services results in major personal and environmental health concerns. Lack of formal electrical infrastructure results in structural fire risks within the informal settlements.
D. Safety and Security	<ul style="list-style-type: none"> Human-induced hazards such as crime (which includes theft, robbery, rape, and murder), gangsterism, and alcohol and drug abuse remain one of the top hazards in most wards within the Stellenbosch municipal area.
E. Poor / no electricity	<ul style="list-style-type: none"> Inadequate electricity supply is a result of cable theft, but also the continuing population growth – specifically within the informal settlements. Increased population growth leads to the increased erection of informal structures that require electricity. In most cases, electricity is obtained illegally through illegal electrical connections. Cable theft is becoming more common in larger parts of South Africa and the Stellenbosch municipal area is not excluded from this phenomenon. This hinders the operations of businesses, households and transportation systems
F. Illegal dumping	<ul style="list-style-type: none"> Illegal dumping poses great environmental health risks. Not only are these locations where infectious diseases spread, but they also attract unwanted pests such as cockroaches, mice and rats. In most cases, illegal dumping occurs in highly populated informal settlements due to a lack of proper and frequent waste disposal.

The figure below illustrates the types of disasters that pose the highest risks within the area of the Stellenbosch Municipality, the disaster risk reduction plans and stakeholders in the event of a disaster. The municipality engages at numerous platforms through partnering with stakeholders to gain access to new resources, information, expertise and skills to facilitate service delivery.

7.3.10 Local Economic Development Strategy

Local Economic Development (LED) is not an explicit municipal function as defined in the Constitution of the Republic of South Africa, 1996. Instead, it is an obligation imposed on local government in terms of sections 152 and 153 of the Constitution that stipulates the objectives of local government are to promote social and economic development to strive, within its financial and administrative capacity.

Stellenbosch Municipality is thus legally compelled to promote social and economic development in its area of jurisdiction and should play the leading role in municipal sector planning.

The focus on individual economic sectors and spatial planning as the key focus areas, rather than on social and economic development results tends to delink economic growth benefits (increase in indicators like GDP, per capita income, etc.) into local economic development benefits (improvement in the life expectancy rate, infant mortality rate, literacy rate and poverty rate).

Local economic development is the means of systematic identification, development and utilisation of economic opportunity, to benefit local businesses and create opportunities for local communities to improve the lives of residents.

The growth of the informal economy reduces the demand for jobs while increasing the number of entrepreneurs and potential contributors to the private sector demand.

The health of the entire economy is important. The economy does not divide neatly into the 'formal sector' and the 'informal sector'. Rather, the different sectors, such as manufacturing, tourism, services, and construction, are on a continuum that has a more formal and a more informal end.

The great challenge to local government, in its support for economic development, is to enable job opportunities at different points along the continuum, while ensuring health and safety, orderly planning and management. All work, whether in the more formal or more informal ends of the continuum, has to be valued, especially when unemployment is high, and when there is a highly probable link between unemployment and crime. The number of people relying on the informal economy for work can and will increase and the formal economy struggles to grow and make meaningful progress in global markets.

Given the above, Local Economic Development is therefore a multi-stakeholder effort in support of creating economic opportunities for both the private sector and the local community.

7.3.10.1 Strategic approach

The strategic approach to LED in broad is to create economic opportunities for all citizens residing in the Stellenbosch Municipal area. However, the recent disruptive trends in the economy affected not only Stellenbosch but South Africa and the world as a whole. These economic shocks included the extended drought experienced and thereafter the COVID-19 pandemic. These events have highlighted the vulnerability of society, the municipality's systems to deal with it as well the revenue streams of the municipality. The municipality needs to think and approach LED differently and as the "new normal" is here to stay, hence, the municipality with all the role players in society must review its strategy going forward to ensure the municipality builds better resilience in its economy to deal with future shocks and ensure better livelihoods for all.

Lastly, technology changes especially connectivity become more important for businesses and government to do business, this was highlighted by the lockdown experience that forced the municipalities to work remotely.

The following ways of doing business must be seen within the context of the "new normal":

- ✚ To maximise prospects of sustained economic growth, stakeholders must be permitted to strengthen their competitiveness and collaboration within the local business environment. Networking, local government responsiveness to business needs, effective service delivery and business-oriented organisational structuring will be used to address this aspect;
- ✚ New business development or investment and expansion of existing businesses will be actively promoted, as the consequence of increased investment more often than not resulting in new jobs and local economic growth. Spatial development framework planning, the Integrated Zoning Scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect;
- ✚ It appears that the formal economy is rapidly becoming more informal, as seen in the increase in the number of occupational practices and businesses run from residential premises. The informal economy offers diverse opportunities for absorbing those who have lost their jobs and for new entrants into the economy. The integrated zoning scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect;
- ✚ Create an enabling environment. An enabling environment refers to “a set of policies, institutions, support services and other conditions that collectively improve or create a general business setting where enterprises and business activities can start, develop and thrive.” Spatial Development Framework planning, the integrated zoning scheme, aligned municipal infrastructure services provision and municipal financial management tools will be used to address this aspect; and
- ✚ The formal and informal parts of the economy are mutually interdependent. The good health of one depends on the good health of the other. It is difficult to promote the growth of smaller enterprises if the overall rate of economic growth is slow. Dedicated networking projects to create opportunities for the informal economy to contribute to the demands of the formal economy will be used to address this aspect.

7.3.11 Community Development Strategy

Moreover, Schedule 4b and 5b lists the functions of local government to include the following which has relevance to the community development functions:

- Child care facilities;
- Building regulations (concerning SANS 10400S);
- Municipal Planning (concerning ECD registration applications and provisions to be made for social infrastructure inclusive of education and health services);
- Municipal public works (accessibility);
- Local amenities (concerning the contribution to social development);
- Local sports fields (regarding the contribution to social development);
- Municipal parks and recreation (regarding the contribution to social development); and
- Municipal roads (accessibility).

INTERGOVERNMENTAL RELATIONS FRAMEWORK ACT, 2005 (ACT NO. 13 OF 2005) (IGRFA)

The IGRFA which defines the relationship between the three spheres of government and facilitates coordination in the implementation of policy and legislation, includes coherent government, effective provision of services, monitoring implementation of policy and legislation and realisation of national policies. Because these services are primarily provided by national and provincial spheres of government but significantly affect local communities and residents, this department / function plays a pivotal role.

LOCAL GOVERNMENT: MUNICIPAL SYSTEMS ACT, 2000 (ACT NO. 32 OF 2000) (MSA)

The MSA further demonstrates in Chapter 4 the mandate of the municipality to develop a culture of community participation (16(1)(b)) in order to contribute to building the capacity of— (i) the local community to enable it to participate in the affairs of the municipality (networks and forums) and must do so with specific emphasis on the inclusion of (17(2)) the specific needs of (a) people who cannot read or write; (b) people with disabilities; (c) women; and (d) other disadvantaged groups.

The White Paper on Local Government (1998:23-26) identifies four interrelated characteristics of the role and function of Local Government related to community development:

- Maximising social development and economic growth: The role and function of the Local Government are to promote the development of communities so that the basic needs of the poor and vulnerable are met. It involves regulation of service delivery. This means that the Local Government is not directly responsible for services, but rather takes steps (i.e. strategies) to encourage good service delivery that addresses the specific needs of the specific community. It could therefore be viewed as a facilitation role. Partnerships between organisations could be encouraged, training opportunities could be provided and facilities could be developed to support existing service providers in the community;
- Integrating and coordinating: Coordination should include national and provincial departments, trade unions, community groups and private sector institutions. “Developmental Local Government must provide a vision and leadership for all those who have a role to play in achieving local prosperity.” An IDP could contribute to proper coordination;
- Democratising Development: Local Government practices should be aimed at the involvement of “...citizens and community groups in the design and delivery of municipal programmes”.

Coordination should lead to democratic “...leadership, encouragement, practical support and resources for community action”. Another key aspect is that democratic development should aim to involve all community groups; and

- ✚ Leading and learning: Community development should lead to networks, partnerships, and coalitions. To this extent, a Memorandum of Understanding (MOU) was signed with DSD.

- ✚ It includes training opportunities and awareness programmes. The ultimate aim is to empower communities and create opportunities for sustainable change and growth. The emphasis is therefore on capacity building within communities.

The above characteristics are aimed at the improvement of service delivery within the constraints of available resources. As mentioned before, partnerships with businesses and Non-profit Organisations (NGOs) become a key aspect of this developmental model (White Paper on Local Government, 1998:35). These services are aimed at specific vulnerable groups and social issues also highlighted in policy documents.

Further to the above, the department gives effect to the strategic goal of Dignified Living in the IDP of Stellenbosch Municipality through:

- ✚ The implementation of critical key performance areas and processes associated with the creation of a conducive environment for community / social development forging relations with national, provincial and local stakeholders and the generation of current social data; and

- ✚ The development of six vulnerable groups (youth, gender, children, elderly, people living on the street, and people living with disability) within the municipal area through strategy and policy development and monitoring and reporting on the intended goals of the department's key performance areas.

7.3.12 Human Resource Strategy

High quality and a responsive Stellenbosch Municipality, with a focus on skills identification, supply, demand, retention, employability and social mobility, is essential if the municipality is to realise its IDP ambitions. As such Stellenbosch Municipality needs to be pre-emptive in terms of its human resource requirements and more responsive to service delivery improvement and best practices. The strategic role of Human Resource Management and Development (HRM&D) is ultimately to facilitate performance improvement through people. The table below provides a clarification of roles and involves the following:

- Understanding the business environment within which HRM&D operates;
- Partnering with management in effective people practices;
- Enabling change and transition;
- Engaging constructively with internal and external stakeholders' groups; and
- Delivering service-level commitments.

Table 59: Clarifying the role of HRM&D vis-à-vis Manager and employees

HRM	Line Managers	Employees
<ul style="list-style-type: none"> • Develops HRM&D strategies, principles, policies and procedures in line with business requirements. • Ensures consistency and standardisation of processes and practices across the municipality. • Provides expert advisory services. • Ensure application of appropriate best practice HRM&D service. • Partners line management in effective people practices • Enables change and transition. • Facilitates assimilation of culture and values. • Build the capacity of line managers to effectively manage people. • Ensure good corporate governance around HRM&D practices. • Delivers on service level agreements. • Measures and reports on the effectiveness of HRM&D services within the municipality. • Interaction and negotiations with trade unions and feedback. 	<ul style="list-style-type: none"> • Partners with HRM&D in developing and implementing HRM&D strategies to achieve results. • Manage people according to HRM&D principles, policies and procedures. • Complies with HRM&D legal requirements. • Proactively engages and partners with HRM&D around business and people challenges and solutions. • Initiate and lead change. • Drives the organisational values. • Takes responsibility for being informed of HRM&D matters and building own people management skills. • Follows fair and procedural HRM&D practices and processes. • Ensures high performance through effective performance management and retention practices. • Communicates and gives feedback on service level expectations. • Tracks and measures the impact of HRM&D strategies in functional areas. • Measure and report on the effectiveness of people management within functional areas. 	<ul style="list-style-type: none"> • Partners with line and HRM&D to: • Remain relevant to local; government by taking responsibility for own performance development and career planning; • Taking advantage of appropriate opportunities for development; • Remain informed of HRM&D policy and procedure; • Discuss expectations; • Take personal accountability for and support change initiatives; • Live the organisational values; • Participate in HRM&D surveys and feedback mechanisms; and • Provides feedback to / and liaises with Unions and relevant employee forums.

This HRM&D Framework provides Stellenbosch Municipality with the structure to plan, implement, monitor and improve its HRM&D standards. This framework does not operate in isolation and will be central to all activities involving the human resources of Stellenbosch Municipality. It is, therefore, not an HR document but must be “owned” by the Council, management, staff and trade unions. Since the field of HR management is a dynamic discipline, it is envisaged that this framework will change and develop over time to reflect the realities of the municipality’s environment.

Table 60: Key Strategies

Strategic Focus Area (SFA)	Key strategies	Alignment with HR Standards
SFA 1: Valley of Possibility	Ensuring that infrastructure and services planning and resourcing occur over the long term sustainably and draw on the expertise of other service delivery agencies, the private sector, and the University.	 Strategic HR Management.
SFA 2: Green and Sustainable Valley	Focusing more strongly on the environmental planning and management function, including appropriate resourcing.	 Strategic HR Management.  Talent Management.  Learning and Development.
SFA3: Safe Valley	<p>Securing adequate permanently employed HR, facilities and equipment (specifically fleet) to undertake the specialist functions of traffic management, fire and rescue services, and disaster and event management on a 24/7 basis and to comply with legal standards.</p> <p>Establishing adequate, integrated Law Enforcement capacity, present in every ward of the municipality.</p>	 Strategic HR Management.  Learning and Development.
SFA 4: Dignified Living	Ensuring the delivery of a comprehensive range of services to vulnerable groups, and the coordinated cooperation of service providers at all levels in the delivery and management of services to these groups	 Learning and Development.
SFA 5: Good Governance and Compliance	<p>Ensuring that functional areas have the capacity and readiness to deliver services in terms of short-, medium- and longer-term objectives and targets.</p> <p>Ensuring that all staff has the opportunity for leadership development within their functional areas, and municipal management generally.</p> <p>Ensuring regular performance management of staff at all levels within the organisation.</p> <p>Undertaking strategic planning for the longer and shorter terms, the municipality as a whole, and local areas</p> <p>Implementing regular auditing of processes.</p> <p>Celebrating excellence in service delivery, external and internal to the municipality.</p> <p>Renewing intergovernmental efforts to establish a municipal court in Stellenbosch.</p>	 Strategic HR Management.  Talent Management.  Learning and Development.  Performance Management/ Reward and Recognition.  Strategic HR Management.  HR Risk Management.  Reward and Recognition.  Talent Management.

7.3.13 ICT Strategy

7.3.13.1 Background

Information and Communication Technology (ICT) Systems and Services are playing an ever-increasing role as a strategic enabler of organisational transformation and service delivery in the public sector. There is also a growing acknowledgement at the corporate governance level that ICT services and systems form an integral part of the municipal service delivery value chain.

The continuous alignment of ICT services and systems with the strategic goals and objectives of the municipality, as well as statements of direction from the National Government and the Western Cape Provincial Government impose major challenges on the Department: ICT and its resources.

This document aims to articulate and describe changes in the Stellenbosch Municipality's ICT Strategy with the view to ensure alignment with the Stellenbosch Municipality's Strategy. Emphasis is placed on identifying the municipality's new requirements and opportunities for Information and Communication Technology to move towards meeting the ICT-related requirements of the municipality and

management. The municipality intends to review and update the ICT Strategy for approval in the 2023/24 financial year.

The successful implementation of the municipality's IDP and the achievement of its strategic objectives are highly dependent on several critical enabling resources to be managed effectively to support the IDP, including finances, human resources and information technology.

The achievement of the strategic objectives of the municipality's IDP is indirectly dependent on various information technology services, without which the core and supporting functions of the municipality will not be able to operate. The vital ICT-related services include:

- ✚ Provisioning of Municipal Financial Management and Payroll Management software applications;
- ✚ Hosting of the Municipal website;
- ✚ E-mail and internet services;
- ✚ Data storage;
- ✚ Data recovery;
- ✚ ICT planning;
- ✚ Provisioning of the network, wireless networks and telephony services;
- ✚ End-user support for the ICT environment;
- ✚ Disaster Recovery Management;
- ✚ Business Continuity;
- ✚ ICT Risk Management;
- ✚ ICT Contract Management; and
- ✚ Public Wi-Fi.

7.3.13.2 The Mission and Vision of ICT

ICT's mission is to provide ICT infrastructure and ICT business systems solutions that will assist the Stellenbosch Municipality to deliver sustainable services that are operationally efficient and cost-effective to all its stakeholders and communities which includes:

- ✚ Cost-effective solutions;
- ✚ Quality Service Delivery;
- ✚ Ongoing performance monitoring; and
- ✚ Aligned to business processes.

The vision of the ICT Department is to be a trusted and reliable Information and Communication Technology partner to support the Stellenbosch Municipality management and end-users to achieve their objectives.

7.3.13.3 Success Factors to Adopt in getting closer to the community

The Department: ICT will continue to strive in achieving its goals to close the gap between the municipality and the community by improving services and engagement. These goals include:

- ✚ Understanding the needs of the community;
- ✚ Always deliver a consistent and quality service; and
- ✚ Manage the relationships with vendors and stakeholders providing a service to the public.

CHAPTER 8:

Council Term Projects 2022 – 2027

8.1 Smart City

As cities compete for global investment and talent, efficient cities with less red tape barriers, ICT competitiveness comes centre stage. A smart city is adaptable to change and demands that emanate from growth, and in response applies information and communication technologies to enhance performance and urban services to respond to demand whilst reducing consumption, waste and costs. Smart cities need to capitalise on digital technology to facilitate the speed of information to support more efficient delivery of goods and services and contribute to the greater vibrancy of cities.

A **smart city** is a municipality that uses information and communication technologies to increase operational efficiency, share information with the public and improve both the quality of government services and citizen welfare.

8.1.1 Guiding Principles to create inclusive smart cities

For a smart city to be inclusive, it should adhere to six interdependent principles. The principles provide guidance when decisions have to be made regarding the identification, planning and implementation of smart initiatives and technologies.

Decisions on the nature and purpose of a smart initiative or technology should be guided by the following principles:

1. It should be smart for all;
2. It should use technology as an enabler rather than a driver;
3. It should be shaped by, and respond to, the local context;
4. It should be informed by the real needs of the community;
5. It should embrace innovation, partnership and collaboration; and
6. It should be sustainable, resilient and safe.

8.1.2 A smart city as a holistic ecosystem

Global best practices recommend three primary categories when determining the benefits and priorities for the design and implementation of the smart city roadmap. The smart city roadmap includes the following:

Smart Governance

Transform the institutional systems, processes and organisational structure to one of the high-performance organisations to effectively deliver basic services.

Smart Livelihood

Implementation and integration of innovative digital platforms to enable social upliftment.

Smart Economy

Grow and diversify the local economy through the attraction of new investment, skills development and facilitation of an enabling environment for small business growth and job creation.

8.1.3 The Nature and Purpose of a proposed smart city initiative

The implementation of smart city initiatives should be guided by a clear understanding of the nature and purpose of the proposed interventions. These initiatives could be focussed on benefitting different target services in municipal-driven smart city initiatives, addressing the needs of the entire city (municipal area). Smart City initiatives should be aimed at improving the lives of the people residing in the city, especially in the different services that are delivered to the residents in the municipal area.

Smart city initiatives can be placed within a specific smart city theme, the figure below indicates the different smart city themes:

Figure 53: Smart City components and initiatives

Source: A South African Smart Cities Framework

Realising the goal and implementation of smart city initiatives will need the collaboration of internal and external stakeholders. Within the next five years (2022 – 2027) Stellenbosch Municipality will emphasise on Smart Governance with a focus on E-governance. The aim is to formulate a Smart City Framework for approval by the Council in the 2023/24 financial year.

The purpose of the Smart City Framework will be to guide decision-making and provide internal stakeholders with a structured framework when identifying, planning and implementing the smart city initiatives which are appropriate to the theme of Smart Governance.

The legacy projects will be undertaken by the administration and political leadership, which will remain applicable for the duration of the political term under the leadership of the Executive Mayor and respective portfolios of the Mayoral Committee Members.

8.2 Political Leadership: Five-Year Plans

8.2.1 Executive Mayor

In developing the 1st Review of the 5th Generation IDP 2022 – 2027, the Stellenbosch Municipality ensured proper alignment and integration with the IDP, Budget, SDF and sector plans. There is no fundamental shift in the outstanding projects / programmes and initiatives that were planned in the 4th Generation IDP 2017 – 2022. All outstanding plans have been taken into consideration for the new strategic document.

The 1st Review of the 5th Generation IDP 2022 – 2027 will be the Municipality's road map for the next five years and track the progress on the implementation of projects / programmes and initiatives. It is an exciting journey in working together with the administration, communities, and other spheres of government in making greater Stellenbosch a valley of opportunity. For this to happen, the following mayoral outcomes for the period 2022 – 2027 have been set and are reviewed on an annual basis.

Mayoral Outcome 1: Clean, accountable and responsive local government;

Mayoral Outcome 2: Outcome 2: Excellent service delivery in all areas within the Greater Stellenbosch Municipal Area;

Mayoral Outcome 3: LED post the COVID-19 Pandemic and transfer of land to new farmers;

Mayoral Outcome 4: Provide housing opportunities for all residents in all housing categories (rental stock, BNG, GAP housing, upgrade of informal settlements and mixed-use developments);

Mayoral Outcome 5: Development of the Adam Tas Corridor and town establishment of all ten dorps across the municipality area;

Mayoral Outcome 6: Streamline planning systems and procedures to facilitate desirable growth;

Mayoral Outcome 7: To create safer environments in our communities;

Mayoral Outcome 8: Expansion of the green economy with innovative projects, creating a new reality of service delivery and job creation;

Mayoral Outcome 9: Alternative Energy.

8.3 Mayoral Portfolios

The mayoral portfolios are a tool for the Executive Mayor to use to reach the mayoral goals for 2022 – 2027. In support of the mayoral outcomes, each portfolio has set performance-based strategic priorities that are aligned and will give effect to the mayoral outcomes. The performance-based strategic priorities for the 1st Review of the 5th Generation IDP 2022 – 2027, have a focused approach on the implementation of the strategic projects / programmes and initiatives with set targets and time frames.

The following portfolio performance-based implementation plans are listed below:

1. Portfolio: Human Settlements;
2. Portfolio: Rural Management;
3. Portfolio: Youth, Sport and Culture;
4. Portfolio: Planning;
5. Portfolio: Local Economic Development;
6. Portfolio: Financial Services;
7. Portfolio: Protection Services;
8. Portfolio: Corporate Services;
9. Portfolio: Infrastructure Services; and
10. Portfolio: Community Development (Parks, Open Spaces and Environment).

CHAPTER 9:

Public Interest and Expression of Needs

9.1 Community Participation

Chapter 4 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA) requires municipalities to create a culture of community participation. According to section 16(1)(a)(i) of the MSA, “A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in the preparation, implementation and review of its integrated development plan in terms of Chapter 5”. It is therefore essential to have effective public participation structures in place.

The SDF, IDP, Budget, Sector Plans as well as major municipal policies, by-laws and decisions should be engaged to ensure that they are designed and implemented for and with the community. This also adds to the credibility of the needs reflected in the IDP, the Budget calculated in addressing these needs and the SDBIP drafted in implementing programmes and projects which reflect the communities' needs.

The growing trend of mature and constructive discussions from the public, the level of complexity and the investment made in understanding the municipality's business are encouraging. The direct participation and involvement of the ward councillors, communities and stakeholders in the identification of ward-based priorities and their involvement in the public participation process have added great value to the maturity and quality of the discussions between the public and the municipality. Ward Councillors are a critical link in connecting the municipality with the public. As members of the Council, and recipients of all the decisions taken by the Council, it positions Councillors strategically to ensure that the municipality not only understands the needs of the community, better but also to provide the public with honest and accurate feedback on the municipality's initiatives. These endeavours are supported by well-functioning Ward Committees. Councillors are, however, encouraged to always adhere to the code of ethics for Councillors and to always act with the utmost integrity and accountability toward their constituents and the municipality, as this is the only way in which to form a responsible local government.

Public participation takes place through various means and platforms and is often tailored to suit a specific audience or community. Importantly, communities from different socio-economic backgrounds use different platforms to communicate. It is important to cater for all scenarios and to utilise all available platforms to their optimum potential, given that a certain degree of apathy exists in certain communities.

The maturity level that the public participation process has achieved during the COVID-19 pandemic, has reached new heights from both the community members and the administration. Further feedback will be provided on the comments captured on written submissions made via the various platforms created for public participation. To ensure that the public participation process is a two-way process, all comments have been carefully considered and discussed with internal departments.

9.2 Public Participation in the drafting of 1st Review of the 5th Generation IDP 2022 – 2027

Stellenbosch Municipality implemented a hybrid approach for public participation from **Wednesday, 7 September – Wednesday, 28 September 2022** during the analysis phase to determine the needs of the community in developing the 1st Review of the 5th Generation IDP 2022 – 2027.

A notice was published in the local newspaper and on the municipal website to announce the start of the public participation process for the development of the 1st Review of the 5th Generation IDP 2022 – 2027. At the start of the process, a link to an **electronic submission form** was made available on the municipal website, the Stellenbosch Citizen App, and broadcast via WhatsApp, Facebook, and email.

Members of the community and other interested and affected parties were encouraged to attend the online public participation meeting for their ward / area. Members of the community with no access to WIFI / data and or a device were encouraged to attend the online public participation meeting at a venue closest to their place of residence. The MS Teams links and meeting schedules to the **hybrid public participation meetings** were made available on the communication platforms as indicated in the figure below.

	19:00 – 21:00	20 and 21	Cllr Joseph Joon Cllr Mynard Slabbert	Webergedenk Primary School Hall (Jamestown)

The electronic and verbal submissions made available on the various platforms created for public participation followed the process below:

Figure 55: Process Flow for electronic and verbal submissions

9.3 Public Participation Statistics: September 2022 and April 2023

The graphs below indicate the number of individual line-item submissions received on the various communication platforms.

Graph 14: Total number of individual submissions per platform (Sept 2022 and April 2023)

As noted from the graph above, the electronic form, which was made available on the municipal website, input recorded in the public meeting minutes and the written 'Have your Say' was the most popular platform used by the community and stakeholders to submit their needs and priorities. A total of **330 and 280** 'Have Your Say' individual line items were recorded, with the electronic form on the municipal website as the second most popular platform with **198 and 283** individual line-item submissions recorded.

The graph (dark yellow) below indicates that **Ward 13** and **Ward 21** have the highest number of line items / inputs per ward received and capture during the public participation period for September 2022. In comparison with April 2023, **Ward 8** and **Ward 12** had the highest items / inputs recorded during the IDP and Budget public participation period.

Graph 15: Total number of Ward inputs per ward (Sept 2022)

Graph 16: Total number of Ward inputs per ward (April 2023)

9.4 Summary of Needs and Priorities

The graphs below present a summary of the key priorities and needs raised by communities during the public participation period in September 2022 and April 2023. It is evident from both graphs that the **top 5 priorities** identified for WCO24 by community members are listed below:

1. Safety and Security;
2. Roads, Transport and Stormwater;
3. Access to Housing;
4. Electrical Services; and
5. Basic Services / Water and Sanitation.

Graph 17: Number of community inputs per priority area in Sept 2022

Table 104: Number of Attendees disaggregated by Gender, April 2023

IDP and Budget Public Participation: April 2023 Number of Attendees disaggregated by Gender					
Wards	Area	Male	Female	Unspecified	Total Attendees

		Prevent trucks from bypassing the speedbump on Merriman Road by driving across the parking area. Prevent cars from driving into and turning on the pedestrian / cycle path.	Issue Section 341 fines	Number of Section 341 fines issued in terms of the Criminal Procedure Act, measured quarterly	Community and Protection Services	Protection Services	Local	12000	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The KPI and target refer to all fines issued and not only to which the ward priority refers.

		Prevent the hook-off of large trailers in the parking area.	Issue Section 341 fines	Number of Section 341 fines issued in terms of the Criminal Procedure Act, measured quarterly	Community and Protection Services	Protection Services	Local	12000	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The KPI and target refer to all fines issued and not only to which the ward priority refers.
The Ward wishes to investigate the Home Zone concept within Ward 7.																		
		Discuss the concept with all relevant parties, gaining knowledge and understanding about what the community wants and what they are willing to contribute towards the project.	Conduct an assessment of the concept	Number of Assessments conducted of the concept by 30 June	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	n/a	n/a	n/a	n/a	1	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2026 public participation process.
		Activate the community and implement a pilot – project within the ward without regulatory interference from the municipal authorities.	Conduct an assessment of the concept	Number of Assessments conducted of the concept by 30 June	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	n/a	n/a	n/a	n/a	1	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2026 public participation process.
		Analyse and evaluate the effects of the Home Zone concept after implementation, to demonstrate successes and to determine where alternatives are required.	Conduct an assessment of the concept	Number of Assessments conducted of the concept by 30 June	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	n/a	n/a	n/a	n/a	1	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2026 public participation process.
		Water tariffs: Fair treatment is required concerning the municipal reading of water meters. Residents should first be informed by the Municipality about irregular readings instead of just billing them. Unknown underground leaks may be the cause of the problem and not just over-usage. The current water tariff scale should be revised urgently to acceptable levels for all. Correct and consistent water meter readings are required. Municipal officials should be more helpful when residents approach them for assistance with a bill that is incorrect.	The Leak Rebate Policy is strictly followed.	Not Applicable	Infrastructure Services	Water and Wastewater Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Residents should be informed that all rebate applications are approved depending on compliance with the Leak Rebate Policy.
TBC		Safety at Botmaskop																

Priority 2: Safety and Security	The erection of a security fence along a section of the Helshoogte Pass.	Installation of a security fence along the Helshoogte Pass on the Botmaskop side	Number of security fences installed along the Helshoogte Pass on Botmaskop side by 30 June	Community and Protection Services	Community Services	Local	1	n/a	n/a	n/a	n/a	😊	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
	Implement safety measures for hikers and cyclists. These may include the establishment of a Neighbourhood Watch for the area, where volunteers can patrol the area during certain hours when most people are using the nature area. These measures can be communicated to the public through social media and signboards.	The establishment of NWH is the mandate of the Department of Community Safety (DOCS).	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The establishment of NWH is the mandate of the Provincial Department of Community Safety (DOCS).
	The installation of cameras in key positions must also be investigated.	Installation of CCTV cameras is done per the CCTV Camera Master Plan and is funding-dependent.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
	Cleaning up of Beltana depot (Metal sheets gathered by Red Ants).																
	Find an alternative site for the storage of the metal sheets, away from any neighbourhood.	Completed.	Not Applicable	Community and Protection Services	Community Services	Local	😊	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Completed.
	Remove and clean up all building material and relocate it to the new site.	Beltana depot is the only site of the municipality, therefore closing it is not feasible.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
	Prevent any late-night dumping activities until completion of the clean up	Beltana depot is the only site of the municipality.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Closing of the site is not feasible.

			Improve security at the Hangbrug main entrance gate and along the river down to Koloniesland.															
			Investigate the option to move the fence and gate to create a larger parking area for vehicles, preventing any vehicle from driving and parking close to the river. The vehicles will be in view of security officers on duty, controlling alcohol and drug abuse when visitors carry their goods to the Hangbrug / Brummer Park area.	Further discussions will be facilitated with the ward councillor to determine the feasibility of the request.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
			Hangbrug main entrance gate and along the river down to Koloniesland: Security officers must be on duty over weekends during high season and control visitors actively	Further discussions will be facilitated with the ward councillor to determine the feasibility of the request. TBC	Priority 1: Access to Housing and basic services	Investigation of social housing at farms 739 and 737 Klapmuts.	Klapmuts is currently not registered as a Restructuring Zone for Social Housing.	Not Applicable	Planning and Economic Development	Integrated Human Settlements	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Social Housing can only be implemented if the National Minister of Human Settlements approved a Restructuring Zone (RZ). Land must first be identified for a Social Housing Project and thereafter an application can be submitted to the National and Provincial Governments
		Installation and upgrading of ablution facilities within the La Rochelle and Mandela City informal settlements for all residents	The Department: Informal Settlements monitors and reports on these facilities regularly.	Not Applicable	Infrastructure Services	Water and Sanitation Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.

		Upgrading the electricity network capacity to provide electricity access for residents in La Rochelle informal settlements and the whole of Klapmuts Town	The area is an Eskom area of supply. The project must be implemented by Eskom.	Not Applicable	Infrastructure Services	Electrical Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The Department: Electrical Services will forward the request to Eskom. Progress report to be provided during the September 2023 public participation process.
		Municipality to provide funding to buy land in Klapmuts for 600 RDP housing development units. Various portions of land are available in Klapmuts to buy in Land adjacent to Mandela City at Arra Farms and various other portions are available to supply Klapmuts Communities with residential units	A desktop study was conducted to investigate for potential developable sites in the greater Klapmuts area for future housing developments.	Not Applicable	Planning and Economic Development	Integrated Human Settlements	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The Provincial Department of Human Settlements (PDoHS) is responsible to provide funding to acquire land for housing. A funding application will only be submitted to PDoHS once the Council approves the acquisition of a specific site/s.
	Priority 2: Burial Land / Graveyard	There is currently no burial place for our deceased people in town – We note the municipalities proposal for a regional graveyard – The Klapmuts Community, however, insisted to have a locally based graveyard. Land at the old Refuse station has been identified by the Klapmuts Community for this purpose. The land is currently within the Drakenstein area of jurisdiction. Liaise with Drakenstein Municipality	The development of a Stellenbosch Memorial Park.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Funding is only available for the new Stellenbosch Memorial Park. The residents of Klapmuts will be able to make use of the park once it is developed.

TBC	Priority 3: Local Economic Development	Job creation projects in Klapmuts. EPWP workers / learnership should be made available to young people to be trained as firefighters in Klapmuts to sustain the need	Those who are interested can join the Fire Reservist Project. The Reservist process allows access to training.	Not Applicable	Community and Protection Services	Protection Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Becoming part of the project will make participants eligible to receive training as firefighters depending on the availability of positions and training conducted by the District Municipality. Learnership funding opportunities will be tabled with the Department: LED.
		No jobs currently for the Klapmuts Community. A structured method should be done to secure Klapmuts Community with permanent jobs as security workers at the sports field and EPWP to clean Mandela City and La Rochelle	This is funding-dependent.	Not Applicable	Community and Protection Services	Protection Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Job creation projects - The buying / selling of refuse or Swop Shop idea should be introduced in Klapmuts	The procurement process was concluded to obtain a service provider to operate a Swop Shop, which was unsuccessful.	Not Applicable	Infrastructure Services	Waste Management	Local	n/a	n/a	n/a	n/a	n/a	😬	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.

TBC	Priority 4: Safety and security	Cameras should be put in all strategic areas in the Ward to stop the flow of crime in Ward 18. LPQ and 360 rotating cameras must be installed at the 2 robots on R44 and 1 camera on the N1 Bridge entrance, 1 camera on Groenfontein road, 1 camera in Klapmuts Clubhouse and 1 camera in Mandela City.	Installation of CCTV cameras is done per the CCTV Camera Master Plan and is funding-dependent.	Not Applicable	Community and Protection Services	Protection Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Installation of cameras on the R44 and inside the Klapmuts area to stop the highflyers coming in to rob the business sector of the town	Installation of CCTV cameras is done per the CCTV Camera Master Plan and is funding-dependent.	Not Applicable	Community and Protection Services	Protection Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Increase Law Enforcement personnel to render services in Klapmuts. 15 EPWP workers should be deployed as urgently as possible to address this big shortcoming	Conduct sporadic crime prevention operations within the WCO24	Number of sporadic crime prevention operations conducted within the WCO24 by 30 June	Community and Protection Services	Protection Services	Local	n/a	92	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Traffic calming measures at Groenfontein Street, Klapmuts. Two people have already died on this road within one year. Speed calming should be done urgently.	Due to road classification, it is not possible to construct traffic calming measures.	Not Applicable	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Traffic enforcement is to be increased.

TBC	Priority 5: Spatial Development Planning	The spatial development plan for Klapmuts needs to be updated for the town to be united – as the boundaries of the town are divided into two municipalities - Drakenstein and Stellenbosch. Ward base planning needs to be a continuous function in this area – as apartheid planning is still on in Klapmuts	The application to the Municipal Demarcation Board ("MDB") for the re-alignment of the boundaries between Klapmuts North and South has been submitted on 31 March 2022.	Not Applicable	Planning and Economic Development	Development Planning	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The proposal to include Klapmuts North within the municipal administrative boundaries of Stellenbosch Municipality has been advertised in the media on 30 March 2023 for public comment, by the Municipal Demarcation Board.

9.5.20 Ward Priorities: Ward 20

Ward 20: Cllr. Joseph Joon

Table 125: Ward 20 - Ward Priorities

Project Rating																		
😊	Project completed.			😐	Project in progress.		😞	Not completed / No budget available / District Function / Provincial Function										

WARD PRIORITIES: WARD 20																		Departmental Comment
IDP Ref No	Ward Priority	Description of Ward Priority	Key Performance Deliverables	Unit of Measurement	Linkage to Directorate	Linkage to Department	(National / Provincial / District / Local/	Deliverable Target					Performance Rating					
								2022/23	2023/24	2024/25	2025/26	2026/27	2022/23	2023/24	2024/25	2025/26	2026/27	
TBC	Priority 1: Access to housing	Local farmworker families who have lived generations in this community cannot afford access to safe and decent housing	The municipality does not own any property for possible housing development within the Vlothenburg, Raithby and Lynedoch areas. Therefore, the provision for housing opportunities is extremely limited.	Not Applicable	Planning and Economic Development	Integrated Human Settlements	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Alternative housing opportunities should be considered in line with the approved Housing Pipeline to the south of Stellenbosch.

TBC	Priority 2: Youth, Sports, Arts and Culture	Because of unemployment many of the community needs food security. Projects can be implemented for the youth and parents to be self-sufficient which can then also be used for developing skills and self-employment	The Department: Community Development suggests that the ward committee first establish an interest in home gardens, after which the Provincial Department: Agriculture can be approached to conduct an investigation, with a focus on youth.	Not Applicable	Community and Protection Services	Community Development	Local	n/a	n/a	n/a	n/a	n/a	😞	n/a	n/a	n/a	n/a	Progress feedback will be provided to the Department: Community Development by the ward administrator once interest has been established.
		Activities and facilities for the youth to develop sport, arts and culture in Vlottenburg is urgently needed	Existing skills programmes will be communicated to the youth of the area through the ward administrator.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		There are no sports grounds to practice their soccer, rugby and netball	Land has not been identified yet because municipal land is extremely rare in the Vlottenburg area. At the moment, the municipality hasn't been successful.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		A hall / place is needed to do extra mural activities	There are no available funds on the MTREF.	Not Applicable	Corporate Services	Properties Management and Municipal Building Maintenance	Local	n/a	n/a	n/a	n/a	n/a	😡	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Provide a Ward office for the Ward 20 councillor	There are no available funds on the MTREF.	Not Applicable	Office of the Speaker	Office of the Speaker	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The current space is leased from Vlottenburg Primary School.

		Because of the lack of facilities our youth are walking around aimlessly and this leads to crime and participation in substance abuse	The building of facilities is dependent on land identification.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Facilities are dependent on land identification. A progress report is to be provided during the September 2023 public participation process.
		Because of the lack of facilities our youth are walking around aimlessly and this leads to crime and participation in substance abuse	The building of facilities is dependent on land identification.	Not Applicable	Community and Protection Services	Community Development	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Facilities dependent on land identification. A meeting will be set up with the ward councillor to establish the need of the youth and action plans in Q3.
		The grounds on the outside at the Vlotenburg Primary School can be developed into sports grounds	Department: Community Services will establish ownership of the property.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Department: Community Services will establish ownership of the property. Department: Community services will take the lead with the specific need from a sports perspective and spatial land use management, and property management will assist.
		Upgrading of the Raithby Playpark. Placing sitting benches, shading trees, removing thorns in the park, replacing broken equipment, and flower bowls and placing tar sidewalks.	Further discussions will be facilitated with the ward councillor to determine the feasibility of the request.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Providing a Playpark in Longlands, Vlotenburg	The Section: Parks is in contact with the housing developer about plans to develop a play park area.	Not Applicable	Community and Protection Services	Community Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		A public library will also make a huge difference in developing the children's and	Public libraries are not a municipal function.	Not Applicable	Community and Protection Services	Community Services	Provincial	n/a	n/a	n/a	n/a	n/a	⚠	n/a	n/a	n/a	n/a	The ward priority will be referred to the Provincial Department of Culture Affairs and Sport (DCAS).

TBC	Priority 3: Infrastructure	Making rail transport a priority and liaising with Metrorail and PRASA to get infrastructure back and running again. Employees are severely affected by the lack of alternative transport	Hold a consultation meeting with relevant stakeholders	Number of consultation meetings held with relevant stakeholders by 31 March	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	1	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Relocation of the irrigation water pump / valve from the private property on the Winelands Village Estate to the Municipal Raithby Sport grounds	An assessment will be conducted in conjunction with the Department: Community Services.	Not Applicable	Infrastructure Services	Water and Wastewater Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A progress report is to be provided during the September 2023 public participation process.
		Bus transport with Golden Arrow extending to some routes would also be an option for further consideration. This will also ensure the importance of road safety	There is a service operating from Stellenbosch to Cape Town and from Metro South East to Stellenbosch.	Not Applicable	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	A bus service is operating.

		Prevention of load shedding and implementation of plans and timelines shared for the plan to eliminate loading	Vlottenburg, Raithby, and Lynedoch fall within the Eskom area of supply.	Not Applicable	Infrastructure Services	Electrical Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Stellenbosch Municipality is one of the five pilot sites that the Western Cape Provincial Government is funding through its Municipal Energy Resilience Programme. Various alternative energy projects are being investigated to alleviate load shedding in the Stellenbosch Municipality.
		Streetlights on Raithby Road, Watson Way, Herman Street, Shaw Street, and Raithby Park.	Installation of streetlights in Raithby Road, Watson Way, Herman Street, Shaw Street, and Raithby Park.	Number of streetlights installed in Raithby Road, Watson Way, Herman Street, Shaw Street and the Raithby Park by 31 December	Infrastructure Services	Electrical Services	Local	1	n/a	n/a	n/a	n/a	😊	n/a	n/a	n/a	n/a	The work commenced on 28 November 2022 and was completed by mid-December 2022.
		Water pipes are to be upgraded and the removal of asbestos pipes in Raithby Main Road / Watson Way Raithby	The replacement of old infrastructure remains a priority and will be addressed according to the pipe replacement programme.	Not Applicable	Infrastructure Services	Water and Wastewater Services	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The replacement of the bulk water main is currently in the planning phase. No funds are currently available for this project, but it will be prioritised for possible inclusion and implementation in the 2027/28 financial year.

		Construct sidewalks (with paving) on both sides of Raithby Road from the Winery Road Intersection	The road falls under the provincial government's authority.	Not Applicable	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Provincial	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The municipality will forward the request to the provincial sector department and provide feedback during the September 2023 public participation process.
		Upgrading of all signage and street markings throughout Raithby	Conduct a signage assessment by 30 June 2023.	Not Applicable	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Local	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	Street marking will be completed by 30 June 2023.
		Re-implement the recycling programme in Raithby which includes signage and recycling bins	Installation of bulk underground waste receptacles for recycling (subject to suitable location)	Number of bulk underground waste receptacles installed for recycling (subject to suitable location) by 30 June	Infrastructure Services	Waste Management	Local	1	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	The recycling programme is in place in Raithby in the form of weekly collection.
		Installation of traffic lights at the R44 / Winery Road Intersection	This is a provincial competency. CHAPTER 10:

Financial Plan

To achieve delivery on the 5th Generation IDP 2022 – 2027 strategic focus areas and objectives, it is essential to align the municipal budget with the strategy. The sections below expand on aspects of the Stellenbosch Municipality's medium-term financial planning and the extent to which it is possible to align the budget to all the priorities of the wards, given our financial constraints and the need to concentrate on basic service delivery.

10.1 Introduction

The long-term financial viability of municipalities depends largely on:

- the extent to which improved and sustainable revenue capacity can be achieved; and
- the sound **financial management of its resources**.

These imperatives necessitate proper multi-year financial planning. Future impacts of revenue and expenditure streams and the financial implications for the community (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programmes, projects and sundry service delivery actions.

10.2 Capital and Operating Budget Estimates

10.2.1 Budget Assumptions

The selected key assumptions relating to this budget are as follows:

- Government grants for the years 2023/24 to 2025/26 are as per the Division of Revenue Act and Provincial Gazette (capital and operational); and
- The inflation **rate has been estimated at 5.2% for 2023/24**.

10.2.2 Operating Budget Estimates

A municipality is a non-profit organisation and it should break even after contributing to the different funds and reserves and meeting normal operating expenses. With the structuring of rates and tariffs, both the user-pay principle and the full cost recovery principle are applied. It should be noted that the surplus is calculated in terms of the accrual principle and therefore is not 100% cash-backed.

Table 129: Operating Budget Estimates

	(Current) 2022/23 Budget	Year 1 2023/24 Budget	Year 2 2024/25 Budget	Year 3 2025/26 Budget

10.3 Financial Management Arrangements

For the effective and efficient financial management of the municipality, all role-players, inclusive of the municipal councillors, must provide an environment conducive to good management. Local government legislation and National Treasury circulars articulate and provide regulatory structure. Council and officials define this environment by developing and accepting policy guidelines to govern financial decision-making and fiscal discipline.

The management arrangements of Stellenbosch Municipality are reflected in the policy documents listed in the table below:

Table 131: Management Arrangements

Document	Purpose	Status
Delegation Register	To provide for administrative, managerial and institutional arrangements in respect of the delegation of responsibilities.	In place
Credit Control and Debt Collection Policy	<ul style="list-style-type: none"> To establish consolidated, sound and practically executable credit control measures to be applied in respect of all property owners and consumers. To regulate the actions about arrear accounts, including extensions granted, written arrangements to pay off arrears, the monitoring thereof and legal actions associated with unpaid accounts. 	In place
Indigent Policy	To subsidise indigent households with a specified level of income enabling them to pay for a basic package of municipal services.	In place
Irrecoverable Debt Policy	To provide a framework for the writing off of irrecoverable debt, to ensure that Council is in a position where it is not carrying debt that has been prescribed or which is irrecoverable on its books.	In place
Tariff Policy	To provide a framework to determine rates and tariffs to finance expenditure.	In place
Rates Policy	To ensure that all the stipulations of the Municipal Property Rates Act are effected administratively and also layout and stipulate all the requirements for rebates for all qualifying property owners.	In place
Special Rating Areas Policy	To strike an appropriate balance between facilitating self / funded community initiatives that aim to improve and / or upgrade neighbourhoods.	In place
Supply Chain Management Policy	To provide a system of procurement that gives effect to the principles of: <ul style="list-style-type: none"> Fairness; Equity; Transparency; Competitiveness; and Cost-effectiveness. 	In place
Budget Implementation and Monitoring Policy	<ul style="list-style-type: none"> Sets out the budgeting principles that Stellenbosch Municipality will follow in preparing each annual budget. To give effect to the requirements and stipulations of the Municipal Finance Management Act (MFMA) and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. 	In place
Borrowing, Funding and Reserves Policy	To provide a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year non-cash-backed liabilities.	In place
Cash Management and Investment Policy	To regulate and provide directives in respect of the investment of funds and to maximise returns from authorised investments, consistent with the primary objective of minimising risk.	In place
Travel and Subsistence Policy	To set out the basis for the payment of subsistence, travel allowance, and hourly rate when applying for official travelling.	In place
Accounting Policy	To provide the accounting framework applicable to the finances of the municipality and is informed by the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003).	In place

Document	Purpose	Status
Grant-in-aid Policy	To provide the framework for grants-in-aid to NGOs, CBOs or NPOs and bodies that are used by the government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the MFMA.	In place
Development Contributions for Bulk Engineering Services	<ul style="list-style-type: none"> Local government has the discretionary power when granting development approvals to impose conditions about the provision of engineering services and the payment of money that is directly related to requirements resulting from those approvals in respect of the provision of the necessary services to the land to be developed. To provide the framework for the calculation of these contributions. 	In place
Petty Cash Policy	To stipulate clear processes and procedures to ensure that all transactions are processed effectively and efficiently in a bid to ensure prudent financial control. All purchases below R2 000 are regulated by this policy.	In place
Asset Management Policy	The Municipal Manager as Accounting Officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.	In place
Liquidity Policy	The documented policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to ensure that its current and future liquidity position is managed prudently.	In place
Virement Policy	The policy sets out the virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year.	In place

10.4 Financial Strategies and Programmes

The optimal use of available resources, the maximum raising of revenue and the sustainable delivery of services are the key elements to a successful financial strategy. The municipality has developed and implemented various strategies in this regard. The table below summarises the key strategies:

Table 132: Key Financial Strategies

Strategy	Currently in Place
Financial viability and sustainability through long-term financial planning	<ul style="list-style-type: none"> Long-term financial planning tool effective implementation and monitoring.
COVID-19 Policy Initiatives and Incentives to enhance vaccinations	<ul style="list-style-type: none"> Revise budget and related policies
Clean Audit	<ul style="list-style-type: none"> Audit Action Plan Annual Financial Statement compilation standard operating procedure Monthly Reconciliations Training Sessions Participation in Forums
Staffing	<ul style="list-style-type: none"> Revise Organogram Fill critical vacancies
Capital expenditure	<ul style="list-style-type: none"> Implementation of Project Management System including in-year reporting
Revenue Enhancement Strategy	<ul style="list-style-type: none"> Implementation of Revenue Enhancement Strategy Roll-out of WMD and Pre-payment Water Meters Data cleansing Validity of registered indigent households
Billing system enhancement	<ul style="list-style-type: none"> Web-based billing system Review Municipal Account Layout Investigate payment methods
Debt management	<ul style="list-style-type: none"> Debt Review Committee Quarterly Report on Debt and Possible Debt to be written off

10.5 Medium – Term Capital Expenditure per Strategic Focus Area

The proposed capital expenditure per strategic focus area over the medium term is illustrated in the table below:

Table 133: Capital Expenditure per Strategic Focus Area

Strategic Goal	2023/24	2024/25	2025/26
SFA 1 - Valley of Possibility	177 041 706	155 497 637	201 628 695
SFA 2 - Green and Sustainable Valley	62 400 000	89 749 985	39 642 500
SFA 3 - Safe Valley	45 168 307	47 218 490	61 968 764
SFA 4 - Dignified Living	186 499 880	240 125 378	146 516 698
SFA 5 - Good Governance and Compliance	33 689 972	56 503 974	53 699 318

Figure 56: Capital Expenditure per Strategic Focus Area

Source: Capital Budget 2023/24

The most capital-intensive strategic focus area is Dignified Living with an allocation of R186,5 million in the upcoming financial year, totalling R572,7 million over the MTREF. Water projects dominate this strategic objective receiving an investment of R59,1 million in 2023/24, and it is increasing over the outer years.

The second most capital-intensive strategic focus area is Valley of Possibility, with a total allocation of R534,1 million for the duration of the MTREF. Project highlights include:

- Bien don 66/11kV substation new;
- Electrification INEP;
- Kayamandi(Costa grounds) new substation 11 kV switching station;
- Bulk Water Supply Pipe and Reservoir: Stellenbosch; and
- Bulk Water Supply Pipeline and Reservoir - Jamestown.

The Green and Sustainable Valley strategic focus area receives the 3rd highest capital investment with the total MTREF budget amounting to R191,7 million. Solid Waste Management takes centre stage as part of the broader Green and Sustainable Valley Strategy, for the expansion of the landfill site.

The municipality is also making a concerted effort to improve ICT infrastructure platforms, allocating R31,8 million for this purpose over the multi-year budget period.

10.6 Medium – Term Operational Expenditure

The proposed Operational Expenditure per Strategic Focus Area over the medium term is illustrated in the table below.

Table 134: Operational Expenditure per Strategic Focus Area

Operational Expenditure	2023/24	2024/25	2025/26
SFA 1 - Valley of Possibility	761 893 964	806 355 626	812 619 156

10.9 National and Provincial Investment

The following tables depict the National and Provincial allocations to the municipality over the MTREF period. It should be noted that the information is subject to change depending on fiscal constraints and the availability of resources.

The table below sets out the allocations by the national government for the MTREF period for Stellenbosch Municipality.

As indicated in the table below the total National allocation for Stellenbosch amounts to **R289 337** million for the 2023/24 financial year.

Table 142: National and Provincial Investment

National Allocations / Provincial (R'000)	2023/2024	2024/25	2025/26
Stellenbosch Municipality			
Equitable Share	200 841 000	222 190 000	247 200 000
Integrated Urban Development Grant	59 410 000	44 017 000	45 898 000
Integrated National Electrification Programme (Municipal) Grant (Schedule 5)	22 750 000	16 000 000	15 000 000
Local Government Financial Management Grant	1 550 000	1 550 000	1 688 000
EPWP Integrated Grant for Municipalities	4 786 000	-	-
Total	289 337 000	283 757 000	309 786 000

The table below sets out the allocations by the provincial government for the MTREF period for Stellenbosch Municipality.

As indicated in the table below the total Provincial allocation for Stellenbosch Municipality amounts to **R55 429** million for the 2023/24 financial year.

Table 143: Provincial allocation to the Stellenbosch Municipality

WCG Departments and funding (R'000)	2023/24	2024/25	2025/26
Department of Local Government			
Community Development Workers Operational Support Grant	38 000	38 000	38 000
Human Settlements			
Informal Settlements Upgrading Partnership Grant: Provinces (BENEFICIARIES)	18 633 000	16 080 000	6 000 000
Title Deeds Restoration Grant	1 503 000	-	-
Human Settlements Development Grant	22 413 000	28 169 000	71 400 000
Environmental Affairs and Development Planning			
Regional Socio-Economic Project/violence through urban upgrading (RSEP/VPUU)	1 000 000	-	-
Provincial Treasury			
Municipal Accreditation and Capacity Building Grant	245 000	249 000	249 000
Transport and Public Works			
Integrated Transport Planning	-	628 000	656 000
Financial assistance to municipalities for maintenance and construction of transport infrastructure	345 000	345 000	350 000
Economic Development and Tourism			
Community Library Service Grant	11 252 000	11 691 000	12 216 000

WCG Departments and funding (R'000)	2023/24	2024/25	2025/26
District Municipality

Total	R55 429 000	57 200 000	90 909 000

CHAPTER 11:

Organisational Scorecard (5 – years)

The Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their strategic planning tool, the Integrated Development Plan (IDP). The SDBIP is a contract between Council, administration and the community. It gives effect to the IDP and budget of the municipality.

The municipal budget shall give effect to the Strategic Focus Areas as contained in the IDP. The Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) shall contain details on the execution of the budget and information on programmes and projects. Quarterly, half-yearly and annual performance reports must also be submitted to Council as a means to monitor the implementation of the predetermined objectives as contained in the IDP.

The SDBIP is a one-year detailed implementation plan which gives effect to the IDP and Budget of the municipality. It is a contract between the administration, Council and community expressing the goals and objectives set by the Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis for measuring the performance in service delivery against end-year targets and implementing the budget.

Indicators developed for the Stellenbosch Municipality address the Strategic Focus Areas of the municipality. The municipality utilises the one-year TL SDBIP to ensure that it delivers its service delivery mandate by indicating clear indicators and targets. These indicators also form the basis of the performance plans of the Directors, hence, the Directors are being evaluated on the approved TL SDBIP indicators.

The five necessary components are:

1. Monthly projections of revenue to be collected for each month;
2. Monthly projections of expenditure (operating and capital) and revenue for each vote;
3. Quarterly projections of service delivery targets and performance indicators;
4. Ward information for expenditure and service delivery; and
5. Detailed capital works plan broken down by ward over three years.

11.1 Five-Year Top-Level Service Delivery and Budget Implementation Plan (SDBIP)

The SDBIP gives effect to the Integrated Development Plan (IDP) and is essentially the management and implementation tool setting out the quarterly service delivery targets.

The Top Layer SDBIP include the main service delivery indicators of the municipality. The following table reflects the 5 Year Implementation Plan of the Integrated Development Plan:

Note: The Five-year Municipal Scorecard will be updated in accordance with the approved Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP). The TL SDBIP must be approved by the Executive Mayor within 28 days after the adoption of the Municipal Budget, to be tabled in Council during May.

CHAPTER 12:

Implementation, Monitoring and Review (1 – year)

The Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their strategic planning tool, the Integrated Development Plan (IDP). The SDBIP is a contract between Council, administration and the community. It gives effect to the IDP and budget of the municipality.

The municipal budget shall give effect to the Strategic Focus Areas as contained in the IDP. The Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) shall contain details on the execution of the budget and information on programmes and projects. Quarterly, half-yearly and annual performance reports must also be submitted to Council as a means to monitor the implementation of the predetermined objectives as contained in the IDP.

The SDBIP is a one-year detailed implementation plan which gives effect to the IDP and Budget of the municipality. It is a contract between the administration, Council and community expressing the goals and objectives set by the Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis of measuring the performance in service delivery against end year targets and implementing budget.

Indicators developed for the Stellenbosch Municipality addresses the Strategic Focus Areas of the municipality. The municipality utilises the one-year TL SDBIP to ensure that it delivers of its service delivery mandate by indicating clear indicators and targets. These indicators also forms the basis of the performance plans of the Directors, hence, the Directors are being evaluated on the approved TL SDBIP indicators.

The **five** necessary components are:

- Monthly projections of revenue to be collected for each month;
- Monthly projections of expenditure (operating and capital) and revenue for each vote;
- Quarterly projections of service delivery targets and performance indicators;
- Ward information for expenditure and service delivery; and
- Detailed capital works plan broken down by ward over three years.

Note: *This Chapter, the one-year Municipal Scorecard, will be updated in accordance with the approved Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) 2023/24 during June 2023, and therefore, **is subject to change**. The TL SDBIP 2023/24 must be approved by the Executive Mayor within 28 days after the adoption of the Municipal Budget to be tabled in Council in May 2023.*

1. Strategic and Legacy Projects / Programmes

This Close-Out Report summarises the progress of the 4th Generation IDP 2017 – 2022 implementation. It is important to assess the state of implementation of the IDP deliverables over the previous five-year period for Stellenbosch Municipality to provide the community and stakeholders a true reflection of the successes of 4th Generation IDP 2022 – 2027.

The report will also provide a summary of the revenue and operating expenditure performance versus budgets as well as the 5 highest capital expenditure projects for the period 2017 – 2022.

This will be a once – off close – out report on the 4th Generation IDP 2017 – 2022 and will serve as an annexure to the 1st Review of the 5th Generation IDP 2022 – 2027.

1.1. Strategic Projects / Programmes Implemented Per Strategic Objective: 2017 – 2022

The graph below compares the number of strategic IDP deliverables achieved, in progress, and not achieved to the total number of strategic IDP deliverables implemented between 2017 and 2022. A total of **50** strategic IDP deliverables were identified for 2017-2022, with 39 completed, 10 in progress, and 1 not completed.

Graph 1: Number of Strategic IDP Deliverables for 2017 – 2022

Table 1: Strategic Projects / Programmes Implemented Per Strategic Objective: 2017 – 2022

Directorate	Department	Strategic IDP deliverable	Progress Report 2020 – 2021	Final Close – Out Status Report for 2021 - 2022 (4 th Generation IDP 2017 - 2022)	Rating
SFA 1: VALLEY OF POSSIBILITY					
Planning and Economic Development	Development Management	Development and implementation of the Integrated zoning scheme	Implementation of the Stellenbosch Zoning Scheme By-law, 2019. Preparation of a Report to the Council on the progress with implementation of the Zoning Scheme By-law. Report to be finalised and submitted to the Council in 2021/22 financial year.	Achieved.	😊
Planning and Economic Development	Development Planning	Develop local economic development hubs	The Franschhoek Informal Trading Site was successfully implemented and opened by the Executive Mayor.	Achieved.	😊
Planning and Economic Development	Development Planning	Develop local economic development hubs	Construction of the following markets has been completed and the request for traders has been advertised: 📍 Klapmuts; 📍 Cloeteville; 📍 Groendal; and 📍 Kayamandi.	Achieved.	😊
Planning and Economic Development	Development Planning	Develop local economic development hubs	The Kayamandi Bridge West (Taxi Rank) Informal Trading site is scheduled to be completed during the 2021/22 financial year.	Achieved.	😊
Planning and Economic Development	Development Planning	Develop local economic development hubs	Construction of the Jamestown Hub.	The Jamestown Hub will be aligned with the Jamestown Housing Project in the period 2022 – 2027.	😐
Planning and Economic Development	Integrated Human Settlements	Housing Project Kayamandi Watergang / Zone O	That Residents in Zone O, have been relocated to the various TRAs as planned in the previous IDP cycles.	This project is at its initial stages, and engagements with the community have commenced. The construction period is estimated to be nine (9) months after the contractor has been established on-site. Site establishment is dependent on the successful relocation of the families residing currently on the site identified for construction. Phase 1 comprises 178 sites and it is envisaged that the installation of internal services will commence in 2023/24 financial year. The budget to implement internal services at Zone O in the 2022/23 financial year was moved to 2023/24 financial year. This was to allow ample time for the successful relocation of families on site.	😐
Infrastructure Services	Electrical Services	Electricity 📍 Energy Efficiency and Demand Side Management 📍 Integrated National Electrification	Electricity Network Kick-off Processes by placing them on Priority List. Recruit the University of Stellenbosch and local CSIR as Partners and start the viability study Finish the Viability Assessment. Place the amount on MTREF Budget. Design First Round Tariffs. Obtain buy-in from NERSA, DMRE, COGTA and NT. Integrated National Electrification Programme (INEP) grant received, the municipality managed to construct an	The municipality continued with the Energy and Demand Management project, to replace energy-inefficient streetlight fittings with energy-efficient (LED) fittings. Stellenbosch Municipality is now exploring least-cost electricity pathways that are accessible to mitigate against load shedding amongst other aspirations.	😐

Directorate	Department	Strategic IDP deliverable	Progress Report 2020 – 2021	Final Close – Out Status Report for 2021 - 2022 (4 th Generation IDP 2017 - 2022)	Rating
		Programme ⚡ Electricity Network	electricity network in Enkanini to cater for 1 000 connections in 2020/21.	In the 2021/22 financial year, the Kayamandi Bulk Infrastructure Project was initiated to strengthen the bulk infrastructure to provide for the remaining backlogs in Enkanini. The contractor is on-site implementing the project. During the 2022/23 financial year, 1 300 connections are planned, and the municipality is in the process of appointing consultants for this project.	
Infrastructure Services	Roads, Stormwater and Transport Planning	Roads, Stormwater and Traffic Engineering ⚡ Reconstruction of roads ⚡ Upgrade of Gravel Roads ⚡ Reseal of Roads ⚡ Main Roads Intersection Improvements ⚡ Klapmuts Public Transport Interchange	Implemented the construction phase of the following Programmes ⚡ Gravel Road Upgrading (Franschhoek); and ⚡ Intersection improvement programme (Techno Park and Paradyskloof). New Public Transport facilities (Groendal) and Upgrades to existing Public Transport Facilities (Klapmuts and Kayamandi).	During the 2021-2022 financial year, the municipality has completed the reconstruction of roads in the following areas: Kayamandi, Brandwacht, Die Boord, Mostertsdraif, Ida's Valley, Jamestown, Franschhoek CDB and Stellenbosch CBD. ⚡ Gravel Road upgrading (Franschhoek) is completed. ⚡ Intersection Upgrades completed. ⚡ Public Transport facilities is completed.	😊
Infrastructure Services	Roads, Stormwater and Transport Planning	Roads, Stormwater and Traffic Engineering ⚡ Main Roads Intersection Improvements ⚡ Klapmuts Public Transport Interchange	Implemented the construction phase of the following: ⚡ Intersection improvement programme (Techno Park and Paradyskloof).	The following has been completed in the 2021- 2022 financial year: ⚡ Technopark and Paradyskloof Intersection ⚡ Adam Tas / Vredenberg Road Intersection ⚡ Adam Tas / Devon valley Road Intersection ⚡ Phase 1 of R44 and Helshoogte	😊
Infrastructure Services	Roads, Stormwater and Transport Planning	Roads, Stormwater and Traffic Engineering ⚡ Klapmuts Public Transport Interchange	The following taxi rank had been completed in the 2020/21 financial year: Klapmuts Taxi Rank.	Achieved. During the 2021- 2022 financial year, new Public Transport facilities (Groendal) were completed as well as upgrades to the existing Public Transport Facilities (Klapmuts and Kayamandi).	😊

Directorate	Department	Strategic IDP deliverable	Progress Report 2020 – 2021	Final Close – Out Status Report for 2021 - 2022 (4 th Generation IDP 2017 - 2022)	Rating
SFA 4: DIGNIFIED LIVING					
Planning and Economic Development	Integrated Human Settlements	Develop and implement a housing pipeline	The Housing Pipeline which will be tabled before Council in May 2021 will have to incorporate all the housing projects earmarked for the next 10 years, in a manner that conforms to the latest policy directive of NDoHS and PDoHS.	Housing Pipeline is approved and reviewed once per financial year.	
Planning and Economic Development	Integrated Human Settlements	Implement upgrading of informal settlements programme	Residents in Zone O, Enkanini, Kayamandi and Mandela City in Klapmuts have been relocated to the various TRAs as planned in the previous IDP cycles.	Zone O: Project at initial stages, engagements with the community have commenced.	
				Enkanini: Relocation completed. Mandela City: Relocation completed.	
Planning and Economic Development	Integrated Human Settlements	Implement upgrading of informal settlements programme	The Langrug project in Franschhoek consists of 4 sequential stages, i.e. the development of Erf 3229, as a decanting site, the relocation of inhabitants of the dam in Langrug to Erf 3229, the rehabilitation of the Langrug dam area and the relocation of the original inhabitants of the Langrug dam area.	To commence with the re-blocking of Langrug, a decanting site on Erf 3229, Mooiwater, Franschhoek is being developed (basic services), the process of which is currently underway. The Department: Housing Development will go out on tender to appoint a service provider to finalise detailed planning for the rehabilitation of the freshwater dam and implement an in-situ upgrading project. The implementation stage will be dealt by the Department: PMU.	
Planning and Economic Development	Integrated Human Settlements	Social Housing programme	In terms of its Social Housing Initiatives, Council approved Farms 81/2 and Erf 81/9 , Stellenbosch situated on the R304 as the first Social Housing project. In this regard, a Call for Proposals to appoint a suitable Social Housing Institution (SHIs) and / or Other Development Agency (ODA) is currently being prepared for advertisement.	The tender has been advertised in June 2022 and the closing date is 4 July 2022. On request from the bidders (during the compulsory clarification meeting which was held on 15 June 2022) due to the short period to submit their bids, the Bid Specification Committee approved an extension of the closing date. It should be noted that the tender was cancelled on 1 August 2022 due to a material change to the tender specifications and / or scope of works. The amended tender was re-advertised on 2 September 2022 and a compulsory clarification meeting was held on 15 September 2022. The closing date for the tender was on 3 October 2022. The SCM process to be finalised.	
Planning and Economic Development	Integrated Human Settlements	Housing Consumer Education	Consumer Education was undertaken on an individual basis and with strict COVID-19 protocols in respect of all Title Deed handovers	A total of thirteen (13) workshops were held with mainly tenants in municipal rental stock.	
Community and Protection Services	Community Services	Identify areas to establish new facilities for sports and recreation facilities	Reconsidered due to the drought disaster.	Reconsidered due to the drought disaster.	
Planning and Economic Development	Integrated Human Settlements	Housing consumer education sessions	Housing Consumer Education was undertaken on an individual basis and with strict COVID-19 protocols in respect of all Title Deed handovers (52), TRA (rental stock) recipients and RDP houses handed over (105 individuals).	A total of thirteen (13) workshops were held with mainly tenants in municipal rental stock.	

Directorate	Department	Strategic IDP deliverable	Progress Report 2020 – 2021	Final Close – Out Status Report for 2021 - 2022 (4 th Generation IDP 2017 - 2022)	Rating
			In Pniël, an almost 30-year quest for homeownership culminated in the handover of 16 Title Deeds to their respective owners.	The HCE programmes were also held for beneficiaries of houses that were built between 1994 and 2010. A total of sixteen (16) HCE workshops were held during the 2021/22 financial year inclusive of those held before formal title deed handovers, outreaches for the signing of Deeds of Sale and completion of subsidy applications for the Longlands Housing Project.	
Corporate Services	Property Management	Identify and upgrade facilities for multi-purpose usage	Two of the main halls, namely Eikestad and Stellenbosch Town Hall have been upgraded.	Upgrades completed.	
SFA 5: Good Governance and Compliance					
Financial Services	Financial Services Management	Implement MSCOA requirements on Information Systems	All financial systems are aligned with the mSCOA requirements.	mSCOA compliant.	
Financial Services	Financial Services Management	Update and implement the Asset Management Policy	The Asset Management Policy is in place and was reviewed with the Medium Revenue and Expenditure Framework (Budget).	Assessment Management Policy adopted on 26 May 2021.	
Financial Services		Effective billing systems	An effective billing system is in place and reporting occurs every month as a key revenue-raising strategy.	Implementation of billing systems completed.	
Financial Services		Effective credit control and debt collection processes	Effective credit control and debt collection processes are in place. The Debt Review Committee was established during the 2020/21 financial year.	A Revenue Enhancement Strategy was developed as well as a Debt Review Committee was established to monitor the progress of outstanding debt and deliberate on acceptable and reasonable arrangements for the settlements of arrear debts by all affected municipal debtors. These initiatives will continue to be implemented during the 2022/23 financial year.	
Office of the Municipal Manager	Governance	Implement the performance management plan	The Revised Performance Management Policy was adopted by Council on 30 September 2020 and is being implemented.	The Performance Management Policy 2021/22 is currently under review to be aligned with the new staff regulations 809.	
Office of the Municipal Manager	Governance	Regular compliance reporting to Council committees and other relevant oversight bodies	The Draft and Final Annual Report 2019/20 served before MPAC and was approved without any significant changes.	The Draft Annual Report 2020/21 served before MPAC and was approved without any significant changes.	
Corporate Services	Human Resource Management	Implement the Workplace Skills Plan	A Workplace Skills Plan is drawn up and implemented on annual basis.	A Workplace Skills Plan is drawn up and implemented on annual basis.	

1.2. Legacy Projects for the period 2017 – 2022

The graph below compares the number of Legacy Projects achieved, in progress, and not achieved to the total number of legacy projects implemented between 2017 and 2022. A total of **80** Legacy projects are listed in the 4th Generation 2017 – 2022, with 54 completed, 26 in progress, and no incomplete projects.

Graph 2: Number of Legacy Projects - IDP Deliverables for 2017 - 2022

Table 2: Number of Legacy Projects - IDP Deliverables for 2017 - 2022

Legacy Project/s	IDP deliverable (Specific Initiatives)	Progress 2020/21	Final Close-Out Status Report for 2021/22 (4th Generation IDP 2017 - 2022)	Rating
Municipal Spatial Development Framework (mSDF) amendment and review	mSDF Amendments and full review.	The amendment and review process includes developing a strategy for monitoring the performance of the Stellenbosch Municipality's SDF. This process will hopefully commence in the 4 th quarter of the 2020/21 financial year. A service provider has been appointed and commenced with the Compilation of the Adam Tas Corridor (ATC) Local Spatial Development Framework (LSDF). The draft LSDF for the ATC is scheduled to be submitted to Council by 31 August 2021 for adoption. The DEA&DP (WCG), Stellenbosch Municipality and Drakenstein Municipality are currently engaging in a process to develop a concept regional plan for the greater Klapmuts Area. This concept plan will guide evaluating and promoting of current and future land use applications / development within the area.	The ATC LSDF was completed in September 2021 and went through a rigorous public participation process and be submitted to the Council for approval in October 2022.	
Innovative system to streamline and expedite building plan approvals	Implementation of an electronic building plan application solution	BPAMS was partially implemented on 1 July 2020 due to delays caused by the COVID-19 pandemic. The implementation of the full BPAMS system was effected as of 1 January 2021 and has been fully operational since.	Implementation of BPAMS completed.	
Finalise land use management backlogs	50% reduction in backlog applications by 2020	Even though no operational (as opposed to management capacity) capacity interventions were ever introduced, the original backlog of 144 land use management applications was progressively reduced during 2020 to only 1 outstanding backlog land use management application at present (12 February 2021).	The backlog was successfully reduced.	
Local Economic Development	Agricultural Land Plan adopted by Council	A further ten (10) agricultural land parcels are currently being investigated to be advertised and allocated to emerging farmers. The final report on the additional agricultural land parcels is scheduled to be submitted to Council in April 2021.	Two (2) vacant land that was advertised during November / December 2020 is currently being evaluated in line with the Policy on the Management of Municipal Agricultural Land. The Municipal Council in July 2021 approved the re-establishment of the Operational Committee and will assist with the evaluation of the applications received to provide recommendations to the Council for the allocation of the land parcels. Land parcels will only be awarded in the 2022/23 financial year.	
	LED Hubs identified and constructed	Currently, building plans are in the process of being approved for the Old Clinic Site in Victoria Street, and the Land Use Management (LUM) Section is in the process of finalising the land use management application for the Triangle Site (Erf 230,) in Franschoek.	Achieved.	
	Informal Trading Sites identified and constructed	Groendal Informal Trading Site construction completed in February 2021.	The project is completed.	
	Audit of People on farms and back-yard dwellers	A survey of backyard structures in Klapmuts is currently underway. Ida's Valley's survey was completed in the previous financial year.	A survey of backyard dwellers in Klapmuts was completed during the period from April to May 2021.	

Legacy Project/s	IDP deliverable (Specific Initiatives)	Progress 2020/21	Final Close-Out Status Report for 2021/22 (4th Generation IDP 2017 - 2022)	Rating
Tourism Strategy	Electronic Tourism Boards (Stellenbosch CBD and Franschhoek)	The appointed service provider completed the draft Tourism Plan, which is currently being finalised by the acting Manager: Local Economic Development and Tourism for inclusion within the Economic Strategic Plan for Stellenbosch Municipality. Completion date 30 June 2021.	The municipality is currently reviewing and finalising the 1st draft Tourism Policy which will be completed by 31 March 2023.	☹️
Adopted Rural Management Plan	Rural Management Plan adopted by the Council by 30 June 2020	The Plan was indeed adopted by Council in 2018. In drafting the plan, intense public participation was held on a precinct-by-precinct basis with land workers and workers. It is not at this stage envisaged that a general public participation process for the Rural Area Plan specifically will be held as the RAP was included as a resource document in drafting the now-approved MSDF.	Rural Management Plan was adopted by the Council.	😊
Housing projects	Annual review of the 5-year Housing Pipeline	The review of the Housing Pipeline is scheduled to be tabled at the May 2021 Council meeting for consideration.	Revised Housing Pipeline (documents) was submitted to the MayCo by 31 May 2022.	😊
	Jamestown Housing (bulk sewer 408 opportunities)	The urban edge has been amended as per the Stellenbosch Municipal Spatial Development Framework 2019, which includes extended portions of land for Jamestown. This resulted in the need to review the vision and development proposals for the area. To ensure a broad development view, the Call for Proposals which was being finalised has been cancelled. The proposed housing development for Jamestown Phases 2 – 4 now includes the relevant portion of the Remainder, Portion 3 and a broader Portion of Portion 7 of Farm No 527 Stellenbosch, per the approved urban edge. New tender specifications are in the process to be drawn up for advertisement to proceed with the development proposals for Jamestown Phases 2 – 4.	The municipality appointed a service provider to undertake a Broad Conceptual Urban Design framework and to obtain town planning and development rights. The process and timeframe for Phases 2 and 3 will be concluded over a period of two (2) years. The project is ongoing.	☹️
	Longlands Housing Subsidy implemented	Approximately 80% of the internal services have been completed. A funding application for the top structures, with the Provincial Department of Human Settlements (PDoHS), is in its final stage. The PDoHS has made financial provisions on their 2021/22 financial year budget to build top structures.	The PDoHS approved subsidies for 98 beneficiaries in the Longlands housing project.	😊
	Zone O re-blocking	The funding application for the implementation of Zone O re-blocking (installation of civil services) was approved by PDoHS on 28 January 2021. The project is now in its implementation stage and the Department: Project Management Unit will oversee this project.	The project is in the initial stages, and engagements with the community have commenced.	☹️
	Ida's Valley housing projects implemented	Erf 11330 (Hillside) – The developer has completed 87 BNG houses for the low-income category and 113 GAP houses. All houses have been handed over and the contractor is currently busy with the snags following the retention period.	The project is completed.	😊
	Ida's Valley housing projects implemented	Erf 9445 (Oak Tree Village): Several 166 GAP housing opportunities will be created on Erf 9445. The PDoHS has made provision in their 2021/22 financial year for the installation of internal services.	The expected completion date is the end of 2023.	☹️
	Langrug upgrade concluded by June 2021	The Geotechnical Investigation was concluded. An instruction was issued to the consultant to prepare the procurement documents for the site rehabilitation. The design of the layout plan for the proposed development has been completed. A land use development application has been submitted to obtain development rights for a land use departure to enable the temporary use of the site as a Temporary Relocation Area. The checklist and screening report was submitted to the Department of Environmental Affairs and Development Planning (DEADP), to which the municipality was directed to undertake further specialist studies. The formal quotation process is currently underway to appoint	The density in the number of structures impeded the implementation of these planning interventions. Land invasions at Langrug exacerbated the implementation of these projects. To implement the in-situ upgrading projects, a decanting site is required to relocate households to create enough space for upgrading.	☹️

Legacy Project/s	IDP deliverable (Specific Initiatives)	Progress 2020/21	Final Close-Out Status Report for 2021/22 (4th Generation IDP 2017 - 2022)	Rating
		specialists to deal with the issues as indicated by DEADP. The civil designs have been revised and submitted for final approval on 17 March 2021. The appointment of an electrical engineer has been concluded and the preliminary design for the electrification of approximately 258 sites is due for submission.	To commence with the re-blocking of Langrug, a decanting site on Erf 3229, Mooiwater, Franschhoek is being developed (basic services), the process of which is currently underway. The Section: PMU to go out on tender to appoint a service provider to finalise detailed planning for the rehabilitation of the freshwater dam and implement an in-situ upgrading project.	
	Land for Housing Langrug Franschhoek identified	Stellenbosch Municipality is currently engaged with the Housing Development Agency (HDA) to facilitate the transfer of land in La Motte to the local authority as well as obtain the applicable land use development rights. An Implementation Protocol (IP) was completed by HDA to charter the way forward concerning roles and responsibilities, funding and obtaining development rights.	The HDA submitted a new request for the State Land Release for the subject properties by DPW&I to HDA through Power of Attorney. The target timeframe for releasing land is in the 2022/23 and 2023/24 financial years, respectively. The HDA is to submit a Project Feasibility Report (PFR) requesting funding for land use rights for these projects.	☹️
	Klapmuts upgrade of informal settlement	Phase 1 (187 units) and Phase 2 (76 units) of the project has been completed.	Completed.	😊
	Informal Settlement Strategy developed and implemented	The Informal Settlement Strategy has been reviewed to align with development (proposals and projects) as identified through the Municipal IDP and mSDF.	The Informal Settlement Strategy has been reviewed to align with development (proposals and projects) as identified through the Municipal IDP and mSDF.	😊
Upgrading of the Cloeteville flats	Upgrading of the Steps (Cloeteville)	The project has commenced, and the contractor is on site. Approximately 25% of the units have been completed. The transfer of the units will be programmed to coincide with the rectification programme.	The project is in the construction phase.	☹️
Erf 7001, Cloeteville (known as "Soekmekaar") development	GAP housing	During the public participation process, it was determined that the preferred development should accommodate housing typologies that range from mid to high GAP to conform to the surrounding neighbourhood. The proposed development aims to provide housing opportunities to those families that do not qualify for BNG housing due to their income but can be assisted with affordable GAP housing through the FLISP initiative. The Department: Housing Development is currently in the process of formulating new specifications for a Tender / Call for Proposal.	The goal of this development is the delivery of houses to the medium to upper (GAP) housing market and not aimed at BNG housing units (free houses). A new tender was advertised and closed on 26 July 2021. A service provider was appointed to undertake a Broad Conceptual Urban Design framework for Erf 7001, Cloeteville to obtain town planning and development rights.	☹️
Kayamandi CBD upgrade	Upgrading of the Kayamandi Town Centre	A funding application has been submitted to PDoHS in June 2020 and approved in May 2021. The planning layout has been approved by Council on 24 August 2020. A service provider is currently in the process to finalise all detailed planning and is in process of engaging with the Planning Section of the Stellenbosch Municipality and proceeding with further public participation processes. These planning applications will be submitted to obtain development rights.	The proposed town planning layout consists of ±1 800 housing opportunities (2 to 3-storey BNG walk-ups). The development parameters will include a mix of housing typologies, business units and community facilities. This design methodology was utilised to suit the demand and the needs of the affected community.	☹️

	Complete the Astro-turf, CBD	Because there is no available land in the Stellenbosch CBD, this project was moved to Cloeteville – no funding is presently allocated for this project.	Because there is no available land in Stellenbosch CBD this project was moved to Cloeteville – no funding is presently allocated for this project.	
	Land for Cemeteries identified	Environmental Impact Assessment proceeded on 2 sites, Louw's Bos (Stellenbosch) and Culcatta (Koelenhof). Environmental Authorisation (EA) (in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) [NEMA]) has been granted for both. An appeal, however, on the EA issued for Louw's Bos has been upheld by the Minister (DEADP). Expecting a decision on Water Use Licensing by DWS during 2021. Both proposals' Land Use application was approved by the Municipal Planning Tribunal in 2020.	Consultants were appointed (3 years + project) to assist Stellenbosch Municipality with the identification and planning of two regional cemetery sites to address the critical need for burial space within the municipality. This project is at an advanced stage of acquiring the required environmental-, water and land use approvals. All licences have been received for the commencement of the new Stellenbosch Memorial Park situated alongside the R304 planned at the site known as the Calcutta bush.

Safety and Security	Safety Cameras Stellenbosch CBD	Cameras have been installed in the CBD, with replacements on an ongoing basis. This also forms part of a CCTV Camera Master Plan	CCTV camera installation forms part of a CCTV Camera Master Plan.	
	Speed and safety cameras, Franschoek	Groendal CCTV has been completed. 1 site in Franschoek will be finalised this financial year.	Installation completed.	

Legacy Project/s	IDP deliverable (Specific Initiatives)	Progress 2020/21	Final Close-Out Status Report for 2021/22 (4th Generation IDP 2017 - 2022)	Rating
	LPR Cameras (Cloeteville and Ida's Valley)	Fir Street LPR will be concluded in the 2020/21 financial year.	Project completed.	
		Lilly Street in Ida's Valley LPR will be finalised by end of the 2020/21 financial year.	Installation of LPR cameras completed.	
Area cleaning	Consolidation of Area Cleaning and Solid Waste	The process has been completed but all vacancies have not been filled.	The process has been completed.	
Cemeteries	Cemetery Extension	Environmental Impact Assessment proceeded on 2 sites, Louw's Bos (Stellenbosch) and Culcatta (Koelenhof). Environmental Authorisation (EA) (in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) [NEMA]) have been granted for both. An appeal, however, on the EA issued for Louw's Bos has been upheld by the Minister (DEADP). Expecting a decision on Water Use Licensing by DWS during 2021. Both proposals' Land Use application was approved by the Municipal Planning Tribunal in 2020.	Consultants were appointed (3 years + project) to assist Stellenbosch Municipality with the identification and planning of two regional cemetery sites to address the critical need for burial space within the municipality. This project is at an advanced stage of acquiring the required environmental-, water and land use approvals. All licences have been received for the commencement of the new Stellenbosch Memorial Park situated alongside the R304 planned at the site known as the Calcutta bush.	
Street People	Street People Policy (Replace with Homeless People Policy) and By-Law SRA By-Law	Stellenbosch Municipal Council approved the Street People Policy through which all Homeless People issues are being addressed. The By-Law deals with all issues resulting from deviant behaviour on streets and public places and led to the Social Justice SOP through which persons are dealt with.	Street People Policy approved.	
Customer care initiative to become responsive to community concerns	Operational Call Centre	<p>The Customer Care Interface implementation actively commenced in July 2020, where the 1st pilot department was consulted. The implementation of the 1st pilot started with the Department of Urban Greening. The teething problem with the 1st pilot was resolved in December 2020 which allowed us to continue with other departments.</p> <p>In January 2021 the 2nd phase of the pilot commenced, which included the whole Directorate Infra Structure Services. The Directorate handles the bulk of complaints as they are responsible for most of the core services to residents. The teething problems in this department were much quicker dealt with.</p> <p>In February 2021, an engagement with the remaining Directorates was held which included Financial Services, Planning and Economic Development and Community and Protections Services.</p> <p>In March 2021 a communication strategy will be implemented to make the public aware of the launch of the new Customer Care Interface deployed by the municipality to address all citizen enquiries or complaints.</p> <p>The municipality envisages the Customer Care Interface to reach full (internal and external customer engagement) implementation in April 2021.</p>	The project is in progress.	
	PABX	The telephone system was upgraded with a switchboard function in the 2018/19 financial year.		

Legacy Project/s	IDP deliverable (Specific Initiatives)	Progress 2020/21	Final Close-Out Status Report for 2021/22 (4th Generation IDP 2017 - 2022)	Rating
	TV Systems	All TV screens are connected to the network. Additional budget is needed to procure central control unit to display content. The latter previous unit was damaged by water leaks. Request for R200 000 will be requested on the 2022/23 budget.	All TV screens are connected to the network.	
Human Resources and Organisational Structure	HR Policies Review (Recruitment and Selection, Standby, Smoking, TASK, Essential User Scheme)	Recruitment and Selection Policy: New Recruitment and Selection Policy submitted for consultation in the 3 rd quarter of 2020. During consultations on the previous draft, it became clear that the previous draft was inadequate to deal with progressive recruitment practices. Consultation on the new draft is currently underway. Essential User Car Scheme Final agreement submitted to SALGA HR Workgroup for adoption by municipalities.	The Recruitment and Selection Policy was approved / revised on 22 June 2022.	
	Review System of Delegations	A further review in 2020 was approved. Delegations change from time to time as by-laws and policies are revised. The system is updated on yearly basis.	Delegations change from time to time as by-laws and policies are revised. The system is updated on yearly basis.	
	Re-evaluation of staff job descriptions by the Regional TASK Committee	In process Thus far 323 job descriptions (JDs) have been submitted for evaluation out of a total post compliment of 1 998 posts equating. Not all post needs evaluation as a lot of posts are generic and, in that situation, only one JD will be evaluated covering several posts. The municipality will endeavour to have all outstanding JDs submitted for evaluation by 30 June 2021.	The TASK Evaluation Policy was submitted within the 2021/22 year and is under consideration at the LLF.	

2. Service Delivery Implementation Overview: 2017 – 2022

2.1. Basic Services

The mandate of the Stellenbosch Municipality is to provide adequate basic services to its communities within reasonable legislative and within its available resources to achieve the progressive realisation of this right. These basic services include access to water, basic sanitation, safe energy sources and refuse removal services, to ensure that households live in a safe and dignified environment.

The graph below summarizes the extent to which Stellenbosch Municipality delivered basic services during the period of the 4th Generation 2017-2022.

Figure 1: Access to Basic Services for 2017 - 2022

2.2. Infrastructure: Roads, Transport and Stormwater

The figures below provide an overview of the total kilometers of roads maintained and / or new roads tarred in the period 2017 – 2022: *Tarred (Asphalted) and Gravel Roads*.

Figure 2: Total Kilometres of Roads and Gravel Roads Maintained for 2017 - 2022

The figure below shows the total kilometres of stormwater infrastructure maintained and upgraded as well as the kilometres of new stormwater pipes installed for the period 2017 – 2022.

Figure 3: Total km of Stormwater Infrastructure for 2017 – 2022

2.3. Human Settlements

Stellenbosch Municipality continues in their efforts in addressing the plight of the middle-income and disadvantaged through housing opportunities. The need for housing remains a major challenge as resources and allocations from the National and Provincial Governments remain limited and the backlog tremendous.

Whilst the municipality remains committed to exploring housing opportunities, the availability of land remains a burning issue, which is receiving constant attention.

Below is a list of housing projects in its planning phase (which are being dealt by the Department: Housing Development) and the implementation phase (which are being dealt by the Department: Project Management Unit (PMU)) during the period 2017 – 2022 with the status quo of the progress on each specific project within the period mentioned:

Table 3: List of housing projects identified / implemented during the period 2017 – 2022

Implementation Phase		
Project Name	Number of Housing Opportunities Delivered	Project Status by 30 June 2022
Stellenbosch Ida's Valley (286 opportunities on erf 11330)	113 affordable houses and 87 subsidised houses	Project completed.
Stellenbosch Ida's Valley (erf 9445)	166 Gap houses	Completion expected in the 2022/23 financial year.
Klapmuts: Erf 2181 (298 serviced sites)	298 Serviced sites	Project completed.
Klapmuts TRA (298 Nute c Structures)	298 Nute c Structures	Project completed.
Longlands, Vloottenburg (144 Serviced sites)	144	Completion expected in the 2022/23 financial year.
Cloeteville: Rectification of Smartie Town houses	106	Project completed.
Cloeteville: Rectification of The Steps/Orlean Lounge Houses - (Temporary units with toilets erected for temporary	161	This is a multi-year project, and the anticipated completion date is 30 June 2023.

Implementation Phase		
Project Name	Number of Housing Opportunities Delivered	Project Status by 30 June 2022
relocation of occupants during the rectification of units)		
Longlands, Vlotenburg (144 Serviced sites)	38 enhanced sites and 106 subsidy houses	<p>⬆️ Completion expected in the 2022/23 financial year.</p>
Upgrading of Zone O in Kayamandi	711	<p>⬆️ This project is at its initial stages, and engagements with the community have commenced.</p> <p>⬆️ The construction period is estimated to be nine (9) months after the contractor has been established on-site. Site establishment is dependent on the successful relocation of the families residing currently on the site identified for construction.</p> <p>⬆️ Phase 1 comprises 178 sites and it is envisaged that the installation of internal services will commence in the 2023/24 financial year.</p>
Erf 3229, Mooiwater, Franschhoek	<p>⬆️ Erf 3229 at Mooiwater has been identified as a relocation site to accommodate families impacted by the rehabilitation of the dam wall at Langrug informal settlement.</p> <p>⬆️ The Section: PMU is finalising funding applications for emergency housing, which will be submitted to the National Department of Human Settlement (NDoHS) for consideration. Furthermore, the Department: PMU is compiling funding applications for the implementation of basic services, which will be submitted to the PDoHS for consideration.</p>	

Planning Phase		
Number of Housing Opportunities Delivered	Number of Housing Opportunities Delivered	Number of Housing Opportunities Delivered
Cloetesville: Erf 7001	360 Gap housing	<p>⬆️ The goal of this development is the delivery of houses to the medium to upper (GAP) housing market and not aimed at BNG housing units (free houses).</p> <p>⬆️ A new tender was advertised and closed on 26 July 2021. A service provider was appointed to undertake a Broad Conceptual Urban Design framework for Erf 7001, Cloetesville to obtain town planning and development rights.</p>
Stellenbosch Jamestown Phases 2 and 3	±400 housing opportunities	<p>⬆️ The municipality appointed a service provider to undertake a Broad Conceptual Urban Design framework and to obtain town planning and development rights.</p> <p>⬆️ The process and timeframe for Phases 2 and 3 will be concluded over a period of two (2) years.</p> <p>⬆️ The project is ongoing.</p> <p>⬆️ Subdivision approval is expected in the 2022/23 financial year.</p> <p>⬆️ The PDoHS approved the funding for the outer years after the Business Plan has been Gazetted in March 2022.</p>
Stellenbosch Jamestown Phase 4	To be determined from studies	<p>⬆️ Specialist studies to be conducted before a LUPA application can be prepared which includes a public participation process. Housing opportunities can only be determined after the feasibility studies have been completed for this phase.</p> <p>⬆️ LUPA approvals are expected in the 2025/26 financial year.</p>

Planning Phase		
Number of Housing Opportunities Delivered	Number of Housing Opportunities Delivered	Number of Housing Opportunities Delivered
Social Housing (affordable rental accommodation) on Farm 81/2 and 81/9, Stellenbosch	To be determined from studies	<p>↓ Portions 2 and 9 of Farm No 81 Stellenbosch.</p> <p>↓ The tender has been advertised in June 2022 and the closing date was 8 August 2022.</p>
Northern Extension: Kayamandi	±5 000 – 6 000 residential opportunities	<p>↓ Planning (mix-used development)</p> <p>↓ It is envisaged that the development rights could be obtained during the 2022/23 financial year.</p>
Kayamandi Town Centre	±1 800 (2 to 3 Storey BNG walk-ups)	<p>↓ Planning (mix-used development)</p>
Erf 64 Kylemore	±171	<p>↓ The HDA went out on a procurement process to appoint a team of professionals to finalise detailed planning studies for the preferred development option and to obtain development rights;</p> <p>↓ The HDA is to submit a Project Initiation Document (PID) funding application to the municipality; and</p> <p>↓ The PID funding application is with PDoHS for comments, the PID funding application will be finalised and submitted in August 2022.</p>
La Motte, Franschhoek	<p>↓ The HDA submitted a new request for the State Land Release for the subject property by DPW&I to HDA through Power of Attorney. The target timeframe for the release of the land is the end of the 2022/23 financial year.</p> <p>↓ The HDA to submit a Project Feasibility Report (PFR) requesting funding for land use rights for the project on the release of the property has been completed and is ready for submission to PDoHS to allow funding flow for the 2023/24 financial year.</p>	
Meerlust, Franschhoek Portion 1 of the Farm Meerlust No 1006	<p>↓ Development options have been completed and are ready for presentation to the Stellenbosch Municipality;</p> <p>↓ Detailed costing to be undertaken for the preferred development option;</p> <p>↓ The HDA is assisting the municipality to facilitate the release of land by DPW&I to the Housing Development Agency (HAD) through Power of Attorney; and</p> <p>↓ The HDA is to request funding for land use rights for the project once the release of the property has been completed and is ready for submission to PDHS.</p>	

2.4. Housing Administration

An intense focus on the handing over of title deeds to disadvantaged communities accelerated. As this is a step towards redressing the legacy of our past and bringing more of our residents into the economy. The handing over of title deeds to beneficiaries continued from 2017 to 2022.

A total of 1 503 title deeds were handed over to beneficiaries for the period 2017 – 2022.

Graph 3: Number of Title Deeds for 2017 - 2022

2.5. Development Services

The management of new developments in the municipal area is of utmost importance to ensure that the impact on municipal services and environment applications is adequately and responsibly mitigated. It is also important for the municipality to facilitate the promotion of economic growth, stimulate job creation, expand the municipal revenue stream (Development Contributions and new property rates), and ensure development contributes to the achievement of the strategic goals of the municipality. The graph below indicates the total of building plans, land use applications and wayleave applications received and commented on for the period 2017 – 2022. For the period 2017 – 2022, a total of **5 048** building plans were received and **3 883** were commented on. Concerning the land use applications received and commented on, a total of **981** were received and **595** were commented on.

In total, **1 150** wayleave applications were received between 2017 and 2022, with **891** comments submitted on these applications.

Graph 4: Total Number of Building Plans for 2017 – 2022

Graph 5: Total Number of Land Use Applications for 2017 – 2022**Graph 6: Total Number of Wayleave Applications for 2017 – 2022**

2.6. Job Creation: Expanded Public Works Programme

Job creation, though a serious concern at the local government level, is not a municipal mandate, however, the Stellenbosch Municipality continue to create an enabling environment for investment to contribute to job creation through economic development strategies and business development. The number of Expanded Public Works Programme (EPWP) Projects has been increased and additional funding provided to ensure that more job opportunities are created.

EPWP contracts are awarded in terms of the Memorandum of Agreement (MOA) between the municipality and National Public Works (NPW). The municipality will provide EPWP contracts for residents registered on the Municipal Jobseekers Database, and through the database, the municipality can accurately monitor the manner the contracts are allocated by each user department. The graph below indicates the total number of EPWP projects and jobs created in the timeframe of 2017 – 2022. A total of **364** EPWP projects were implemented between 1 July 2017 – 30 June 2022 and **5 580** jobs were created within this period. In the 2020/21 financial year more projects and jobs were created than in any other financial year.

Graph 7: Number of EPWP Projects and Jobs for 2017 - 2022

3. Financial Revenue, Operating and Capital Expenditure

The table below shows a summary of the revenue and operating expenditure performance against the budgets approved for the period 2017 – 2022.

Table 4: Revenue and Operating Expenditure Performance vs Budget

Financial Year	Revenue				Operating expenditure			
	Budget	Actual	Diff.	%	Budget	Actual	Diff.	%
	R'000				R'000			
2017/18	1 778 647	1 609 729	-168 918	-9.50%	1 575 255	1 363 953	211 302	13.41%
2018/19	1 738 394	1 629 667	-108 727	-6.25%	1 719 105	1 508 629	210 476	12.24%
2019/20	1 834 539	1 742 596	-91 943	-5.01%	1 778 284	1 661 441	116 843	6.57%
2020/21	1 930 252	1 805 680	-124 572	-6.45%	1 830 891	1 812 392	18 499	1.01%
2021/22	2 116 591	2 028 289	88 302	4,17%	1 977 679	1 925 898	51 781	2,62%

The below table shows the 5 highest capital expenditure projects per financial year for 2017 – 2022:

Consolidated IDP and Budget Public Participation Inputs- April 2023

**WhatsApps, sms, website, Have your Say
forms, physical meetings and social media**

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
1	IDP - APRIL 2023- 01	Minutes	Reginald Pheiffer		Housing	Provision of housing opportunities in Franschhoek.	The Housing Development Agency (HDA) with regards to La Motte, submitted a new request for the State Land Release for the subject property by Department of Public Works and Infrastructure (DPW&I) to HDA through Power of Attorney. The target timeframe for the release of the land is the end of the 2023/24 financial year. The HDA to submit a Project Feasibility Report (PFR) requesting funding for land use rights for the project on the release of the property has been completed and is ready for submission to PDoHS to allow funding flow for the 2023/24 financial year, if Power of Attorney is issued.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local
1	IDP - APRIL 2023- 02	Minutes	Reginald Pheiffer	n/a	Health facilities (Clinic)	Cleaning of the Franschhoek Clinic. The clinic needs daily operational cleaning.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Development	Community Development	Cllr Ralphton Adams	Michelle Aalbers	Provincial
1	IDP - APRIL 2023- 03	Minutes	Reginald Pheiffer	n/a	Health facilities (Clinic)	The request is for the Franschhoek Clinic to be operating 24/7.	Feedback will be provided during the September 2023 public participation process.	Corporate Services	Properties Management and Municipal Building Maintenance	Properties Management and Municipal Building Maintenance	Cllr Lwando Nkamisa	Annalene de Beer	Provincial
1	IDP - APRIL 2023- 04	Minutes	Reginald Pheiffer	n/a	Roads and Transport	Maintenance of the La Motte Bridge and the R45.	The R45 is a provincial authority road and will be communicated to the provincial government. Although there is shared responsibility with regard to the bridge, the Provincial Government still need to provide approval for work that needs to be done on the road.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Provincial
1	IDP - APRIL 2023- 05	Minutes	Reginald Pheiffer	n/a	Education	Integration of learners at the Franschhoek High School: It is not a private school and learners should be accommodated at the school.	Feedback will be provided during the September 2023 public participation process.	Corporate Services	Properties Management and Municipal Building Maintenance	Properties Management and Municipal Building Maintenance	Cllr Lwando Nkamisa	Annalene de Beer	Provincial
1	IDP - APRIL 2023- 06	Minutes	Reginald Pheiffer	n/a	Tariffs / Rates	Residents are struggling with high municipal tariffs, particularly on electricity, and the fact that electricity metres are being blocked.	Rates are determined according to your property. It depends on how long payment has been outstanding for outstanding debt before electricity meters are blocked. The municipality will serve the resident with notice, and the meters will be blocked thereafter.	Financial Services	Department: Revenue and Expenditure	Revenue	Cllr Peter Johnson	Pieter Wagenaar	Local
1	IDP - APRIL 2023- 07	Minutes	Reginald Pheiffer	n/a	Sport and culture	Construct a soccer field in Mooiwater.	The site earmarked is going to be used as a temporary housing site. In future, the site will be used to construct a soccer field. Cllr Pietersen indicate she is aware of another piece of land where a field can be constructed. The department will liaise with her to discuss the piece of land she is referring to.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local
1	IDP - APRIL 2023- 08	Minutes	Reginald Pheiffer	n/a	Sport and culture	Request for clarity on the processes to follow to apply for the use of the Groendal Sports Grounds.	The organising of sports events is the mandate of the Sports Council.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local
1	IDP - APRIL 2023- 09	Minutes	Reginald Pheiffer	n/a	Sport and culture	Upgrade of the land in Mooiwater as a soccer field.	The site earmarked is going to be use as a temporary housing site. In future the site will be use to construct a soccer field. Cllr Pietersen indicate she is aware of another piece of land where a field can be constructed. The department will lease with her to discuss the piece of land she is referring to.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local

1	IDP - APRIL 2023- 926	Email	Reginald Pheiffer	5	Spatial Planning	As pointed out in the Memorandum re Fast Food Restaurants in Franschhoek submitted by the FHRPA to the department in June 2021, the Stellenbosch Municipality Zoning Scheme Bylaw of 2019 restricts the use of premises in the Historic Area of Franschhoek for car showrooms and plant nurseries without a Consent Use. The principle of such a restriction is, therefore, established. The proposal is for the same restriction to be applied to formula restaurants as defined in the draft amendment to the Zoning Scheme in the Annexure B Memorandum and there is a policy for deciding such applications.	Feedback will be provided during the September 2023 public participation process.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette du Toit	Craig Alexander	Local	

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
1	IDP - APRIL 2023- 927	Email	Reginald Pheiffer	5	Spatial Planning	The STR Proposal notes that in terms of s28 of the Zoning Scheme Bylaw "should rental [of a dwelling unit] on a short-term basis exceed 30 calendar days per year, the relevant application for a guest house or tourist dwelling unit, as the case may be, shall be required". It is not believed, however, that "The use of private houses and flats for short term rental in Franschhoek is effectively controlled and managed in terms of the Zoning Scheme Bylaw." If such use is being effectively controlled and managed, the department is asked to tell the FHRPA: what criteria are applied in deciding applications for Consent Use for a Tourist Dwelling Unit or a Guest House in Franschhoek; and how many flats and houses in Franschhoek have Consent Use for a Tourist Dwelling Unit or a Guest House in Franschhoek?	Feedback will be provided during the September 2023 public participation process.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette du Toit	Craig Alexander	Local
1	IDP - APRIL 2023- 928	Email	Reginald Pheiffer	5	Spatial Planning	As it appears that even Airbnb now recognises the need for better regulation and management of Short-Term Rentals, it is hoped the municipality will now also do so. The FHRPA would like to meet with the relevant officials in person to discuss this.	Feedback will be provided during the September 2023 public participation process.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette du Toit	Craig Alexander	Local
1	IDP - APRIL 2023- 929	Email	Wilhelmina Petersen	2	Land for housing	The FHRPA is surprised by the Departmental Comment that "Council has requested the administration to investigate possible housing/business options on erven 412 and 217 and 284, Groendal" and there are not as yet more developed plans after the positive and constructive discussion at the Teams Meeting on 22nd November 2022 of the Councillors for Wards 1 and 2, a co-chairperson of the FHRPA, municipal officials facilitated by the Deputy Mayor. After this meeting, the attached memorandum (Annexure D) signed by the Councillors for Wards 1 and 2, and the Chairpersons of the Franschhoek Chamber of Commerce and the FHRPA with proposals for Development Objectives and Design Parameters and Guidelines for erven 412, 217, and 284 was submitted to the municipality. A follow up meeting is requested.	The Department: Housing Development acknowledge the interaction and the positive discussions with the FHRPA and ward councillors. During a follow-up meeting with the ward councillors, an enquiry was raised during these discussions on Erf 284 regarding certain legal matters. The user department has forwarded this enquiry to the Municipality's Directorate: Corporate Services for input. After all comments have been received an item will be referred to Council. If Council approves the draft development proposals and the Land Use Planning process is undertaken, all Interested and Affected parties (I&A) will receive a further opportunity to comment on the proposed developments and a procurement process will be followed to appoint an implementing agent or developer.	Planning and Economic Development	Integrated Human Settlements	Housing development	Cllr Jeremy Fasser	Lester van Stavel	Local

Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local	
6	IDP - APRIL 2023- 98	Minutes	Nateshia Mcombring	n/a	Electricity	Increase the electricity units.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local	
6	IDP - APRIL 2023- 99	Minutes	Nateshia Mcombring	n/a	Electricity	The municipality to establish a solution for the load shedding.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local	
6	IDP - APRIL 2023- 100	Have Your Say	Nateshia Mcombring	n/a	Sport and culture	Convert the BMX track into a practice field. Sports ground are being overused (4 soccer clubs, junior sport clubs and schools). There is no use for a BMX track.	This request will be discuss with the sports council.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local	
6	IDP - APRIL 2023- 101	Have Your Say	Nateshia Mcombring	n/a	Sport and culture	Installation of a fence around Lückhoff High School Sports Ground.	The property does not belong to the municipality, therefore a fence cannot be construct by the municipality.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local	
6	IDP - APRIL 2023- 102	Email	Nateshia Mcombring	n/a	Roads and Transport	Unclogging and cleaning of the drains in Juffernbruch Street. The drains on various plots on Kahler Street have overflowed.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local	
7	IDP - APRIL 2023- 103	Minutes	Annemarie Ferns	n/a	Historic Building	Repair historic houses/buildings that are a fire hazard in Town.	Feedback will be provided during the September 2023 public participation process.	Corporate Services	Properties Management and Municipal Building Maintenance	Properties Management and Municipal Building Maintenance	Cllr Lwando Nkamisa	Annalene de Beer	Local	
7	IDP - APRIL 2023- 104	Minutes	Annemarie Ferns	n/a	Environmental Management	Replacement of the trees that were cut down in the central town.	The municipality does have plans with replacing the trees, but there are some limitations. If there are a lot of underground activities taking place in that area, the municipality is not allowed to plant trees there. To determine the services a process called Wayleave is followed. The municipality is currently identifying empty spaces in Ward 7 to plant trees.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local

9	IDP - APRIL 2023- 112	Municipal Website	Zelda Dalling	1	Roads and Transport	Installation of additional speedhumps and zebra crossings in Bird Street.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local	
10	IDP - APRIL 2023- 113	Minutes	Rozette Du Toit	n/a	Waste Management	Implement the recycling programme at the Lapland Flats and provide the contact details of the responsible municipal official.	Stellenbosch Municipality has created its own recycling facility. The municipality has put out a plan to include all areas of Stellenbosch and Lapland will be prioritised on the list of new areas.	Infrastructure Services	Waste Management	Waste Minimisation and Disposal	Cllr Zelda Dalling	Clayton Hendricks	Local	
10	IDP - APRIL 2023- 114	Minutes	Rozette Du Toit	n/a	Housing Administration	Upgrading of Lapland Flats.	Currently not funded, but minor maintenance is attended to as and when needed.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
10	IDP - APRIL 2023- 115	Minutes	Rozette Du Toit	n/a	Roads and Transport	Restrict / control the use of sidewalks by restaurants for their chairs and tables.	95 restaurants have to apply to use outdoor dining space. Currently, only 37 restaurants have applied. Restaurants must reserve 1.5 meters of sidewalk for pedestrians. The municipality is currently regulating this act, but at the same time wants to protect outdoor dining as it creates the environment for Stellenbosch Town.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette du Toit	Craig Alexander	Local	
10	IDP - APRIL 2023- 116	Minutes	Rozette Du Toit	n/a	Safety and security	Law enforcement to employ residents instead of using private companies for security and safety purposes in town.	Employment of private security companies are done through a municipal process and will only be to safeguard municipal properties and not to enforce bylaws. Residents can form part of NHW's if they want to contribute towards safety.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
10	IDP - APRIL 2023- 117	Minutes	Rozette Du Toit	n/a	Housing Administration	Replacement of water taps and sinks that were removed due to leakages in Lapland Flats.	The municipality is currently busy with the procurement of water taps. Once received from suppliers the municipality will commence with replacement of taps.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023														
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)	
10	IDP - APRIL 2023- 118	Minutes	Rozette Du Toit	n/a	Access to Basic Services	Repair of waterpipes and taps at the Lapland flats.	The senior manager is aware of the piping issue. An assessment has been done and the municipality is waiting for a report to know how much must be budgeted for.	Infrastructure Services	Water and Wastewater Services	Water Treatment	Cllr Zelda Dalling	Paul Joubert	Local	
10	IDP - APRIL 2023- 119	Minutes	Rozette Du Toit	n/a	Safety and Security	Increase the visibility and response of Law Enforcement in Ward 10.	Law Enforcement has limited staff which covers the entire municipality. Law Enforcement does not provide a 24/ 7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. The municipality is trying to launch more programmes to appoint youth to contribute towards safety, thus the importance for youth with a passion for safety to join the NHW's.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
10	IDP - APRIL 2023- 120	Minutes	Rozette Du Toit	n/a	Safety and Security	Provide feedback on CCTV Cameras installed without the resident's permission	The municipality has the right to put up CCTV Cameras in any public space. It is for safety purposes and to capture illegal activities. The recording can also be given through to SAPS. There have been more positive than negative results regarding the installation of CCTV Cameras.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
10	IDP - APRIL 2023- 121	Minutes	Rozette Du Toit	n/a	Water and Sanitation	Appointment of a qualified plumber to fix the water problems at Lavanda Flats. Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local	
12	IDP - APRIL 2023- 149	Minutes	Ayanda Tomose	n/a	Building Maintenance	Upgrade of the municipal flats in Kayamandi.	The municipal flats have been budgeted for the upgrade. The tender will be advertised in the next financial year and the project be rolled-out for 3 years. Housing is not a municipal mandate, the municipality receives funding from the provincial government to construct a certain number of houses. Next month there will be a programme to assist residents with housing applications.	Planning and Economic Development	Integrated Human Settlements	Housing Administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
12	IDP - APRIL 2023- 150	Minutes	Ayanda Tomose	n/a	Grant-in-Aid	The requirements of the Grant-in-Aid are too high / strict for the striving community NGOs.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Development	Community Development	Cllr Ralphton Adams	Michelle Aalbers	Local	
12	IDP - APRIL 2023- 151	Minutes	Ayanda Tomose	n/a	Recreation and Sport	The municipality must build an indoor sports centre for kids in Kayamandi to be assisted with sports, mural activities, and homework.	No funding is available on the capital budget to address this request.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local	
12	IDP - APRIL 2023- 152	Minutes	Ayanda Tomose	n/a	Public Participation	The municipality should consider conducting housing or IDP imbizo, and categorise topics according to sectors to ease communication and involvement of the residents in municipal affairs.	Feedback will be provided during the September 2023 public participation process.	Office of the MM	Governance	IDP/PMS Public Participation	Executive Mayor Gesie Van Deventer	Gurswin Cain	Local	
12	IDP - APRIL 2023- 153	Minutes	Ayanda Tomose	n/a	Unemployment	The municipality is not to recruit the same EPWP workers repeatedly in Kayamandi.	EPWP database applications are available at the LED office. The application must be accompanied by a CV, proof of address, and a certified copy of ID. If not all required documents are submitted the applicant will be disqualified. There will be an office in Kayamandi Corridor assisting with applications.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette Du Toit	Craig Alexander	Local	
12	IDP - APRIL 2023- 154	Minutes	Ayanda Tomose	n/a	Area Cleaning	Increase workers to clean the streets in Kayamandi and the availability of trucks to collect the waste.	EPWP staff will be periodically sourced and employed from the unemployment database.	Infrastructure Services	Waste Management	Waste Minimisation and Disposal	Cllr Zelda Dalling	Clayton Hendricks	Local	
12	IDP - APRIL 2023- 155	Minutes	Ayanda Tomose	n/a	Housing Administration	Handover of title deeds to the Kayamandi residents.	Two (2) title deed handover events have already occurred in Kayamandi and the registration of Title deeds is continuing. The Township establishment processes have been concluded in Kayamandi which will result in the registration of the Amended General Plans, after which the transfers of these properties may commence.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local

Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Water and Wastewater Services	Water Treatment	Cllr Zelda Dalling	Paul Joubert	Local

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
12	IDP - APRIL 2023- 167	Minutes	Ayanda Tomose	n/a	Housing	Request for the municipality to relocate/move the informal houses that are built on the pavement in Luyolo Street for the construction of sidewalks and demolish informal houses of the residents that receive formal housing.	The assessment for the construction of sidewalks in Luyolo Street was conducted and according to the assessment, the construction of sidewalks at Luyolo Street is not feasible. Informal houses on the sidewalks must be moved first. The informal house must be demolished after residents have relocated to a house. But the beneficiaries supported by community members create claims that there are people supported by the beneficiary who will stay behind hence some of the informal houses are not demolished. The Department: Informal Settlements: There is currently no decanting space in Kayamandi in general and therefore the structures cannot be moved immediately. Provision has been made to relocate qualifying residents in the Northern Extension project.	Planning and Economic Development	Integrated Human Settlements	Informal Settlements	Deputy Executive Mayor Jeremy Fasser	Johru Robyn	Local
12	IDP - APRIL 2023- 168	WhatsApp	Ayanda Tomose	n/a	Area cleaning	Regularly cleaning of streets in Snake Valley and the appointment of people from Snake Valley as cleaners.	EPWP staff will be periodically sourced and employed from the unemployment database to work within the respective areas.	Infrastructure Services	Waste Management	Waste Minimisation and Disposal	Cllr Zelda Dalling	Clayton Hendricks	Local
12	IDP - APRIL 2023- 169	WhatsApp	Ayanda Tomose	n/a	Electricity	Installation of electricity connections in Nkanini.	Electrification of Nkanini has started and the service provider has commenced with the work on 8 March 2023. The ward councillor has been updated. The Department: Housing Administration is finalising beneficiary list.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local
12	IDP - APRIL 2023- 170	WhatsApp	Ayanda Tomose	n/a	Parks and Recreation	Relocate the small bin by Snake Valley Park gate to the inside of the park as it is used as a dumping site.	This request will be discussed with the ward councillor.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local
12	IDP - APRIL 2023- 171	WhatsApp	Ayanda Tomose	n/a	Parks and Recreation	Repair and maintain the Snake Valley Park and install equipment that was removed by the municipality.	The request will be investigated.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local
12	IDP - APRIL 2023- 172	WhatsApp	Ayanda Tomose	n/a	Parks and Recreation	Cleaning of Snake Valley Park and implement lock and opening times to ensure safety.	This request will be investigated and discussed with the ward councillor.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local
12	IDP - APRIL 2023- 173	WhatsApp	Ayanda Tomose	n/a	Roads and Transport	Cleaning and maintenance of drains in Snake Valley, Kayamandi.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local
12	IDP - APRIL 2023- 174	Municipal Website	Ayanda Tomose	3	Land for housing	Allow residents to build their own houses as the informal settlements are always on fire in Nkani.	In accordance with the approved Housing Pipeline, housing projects are planned for and implemented taken the available funding into consideration. Given the steep slopes and density of the informal settlement, the upgrading of Enkanini is extremely challenging. When a decanting site and funding from Province is approved, and services are installed the residents will be able to build their own houses in line with Government / Municipal policies.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local
12	IDP - APRIL 2023- 175	Municipal Website	Ayanda Tomose	3	Access to housing	Provision of housing development opportunities in Kayamandi.	The Municipality has appointed a team of professionals to undertake a Broad Conceptual Urban Design Framework which will include ±4 000 – 5 000 residential opportunities for low -medium income earners in the development in the Northern Extension as well as to obtain town planning and development rights. 14	IDP - APRIL 2023- 398	Minutes	Maxwell Danana	n/a	Property Management	Provide details of the rightful owners of identified land when residents enquire about a specific land.	Residents can request land ownership from the municipality and information will be provided.	Corporate Services	Properties Management and Municipal Building Maintenance	Properties Management and Municipal Building Maintenance	Cllr Lwando Nkamisa	Annelene de Beer	Local	
14	IDP - APRIL 2023- 399	Minutes	Maxwell Danana	n/a	Land for housing	The municipality must address corruption within the municipality. Some municipal officials request bribes to render services and authorise flats for themselves.	Any irregularities should be reported on the Anti-fraud line of the municipality whereby the necessary investigations will be conducted.	Planning and Economic Development	Integrated Human Settlements	Housing Development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
14	IDP - APRIL 2023- 400	Municipal Website	Maxwell Danana	1	Housing	Provision of housing opportunities with more rooms for backyard dwellers in Zone P.	The upgrading of Zone P has not been identified as a project on the Housing Pipeline.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
14	IDP - APRIL 2023- 401	Municipal Website	Maxwell Danana	1	Housing Administration	Roof replacement for Zone P houses that are in poor condition.	The formal houses in Zone P is currently not part of the Municipal rental stock. No funding is available to maintain houses in Zone P.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
14	IDP - APRIL 2023- 402	Municipal Website	Maxwell Danana	1	Safety and Security	Increase law enforcement and police visibility, especially in the morning hours when people are going to work and back at night.	Law Enforcement has limited staff which covers the entire municipal area. Law Enforcement does not provide a 24/7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. The municipality is trying to launch more programmes to appoint youth to contribute towards safety, thus the importance for youth with a passion for safety to join the NHWs.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
14	IDP - APRIL 2023- 403	Whatsapp	Maxwell Danana	n/a	Community Development	Removal of the age limit of the learner and licence project and made available for all ages. Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
15	IDP - APRIL 2023- 408	Minutes	Elliot Masimini	n/a	Public Participation	The municipality should extend invitations to the provincial government during IDP public participation meetings to provide feedback on provincial issues.	Feedback will be provided during the September 2023 public participation process.	Office of the MM	Governance	IDP/PMS Public Participation	Executive Mayor Gesie Van Deventer	Gurswin Cain	Local	

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023														
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)	
15	IDP - APRIL 2023- 409	Minutes	Elliot Masimini	n/a	Sport and culture	There is no sports council in Kayamandi. Sports facilities in Kayamandi are not up to standard as compared to other areas.	Sports Council has been established during 2023.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local	
15	IDP - APRIL 2023- 410	Minutes	Elliot Masimini	n/a	Spatial Planning	The municipality must include and consult all areas of Stellenbosch regarding decision-making on ATC.	ATC land belongs to the private sector, only 30% of the 53 000 units are reserved for R3500 – R20 000 income earners.	Planning and Economic Development	Development Planning	Spatial Planning	Cllr Carli van Wyk	Craig Alexander	Local	
15	IDP - APRIL 2023- 411	Minutes	Elliot Masimini	n/a	Local Economic Development	Request for the implementation of a fair application process for stalls in Kayamandi Corridor, and to be informed about Kayamandi Corridor application notifications.	Kayamandi corridor received 5 -6 applications, but still need to evaluate if the places are right. The application notification for spaces in Corridor will be out.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette Du Toit	Craig Alexander	Local	
15	IDP - APRIL 2023- 412	Minutes	Elliot Masimini	n/a	Roads and Transport	To allow residents to extend their homes, the municipality must relocate the drains on their properties near Emazink houses.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local	
16	IDP - APRIL 2023- 413	Minutes	Elsabe Vermeulen	n/a	Safety and security	Request law enforcement near the schools in Cloeteville to assist learners to cross the road.	The department does have a program in place to assist learners, as well as training is given to schools. The ward councillor is to provide specific schools where there is a need so we can see how the school can be assisted through possible wardens/pointmen or training school teachers.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
16	IDP - APRIL 2023- 414	Minutes	Elsabe Vermeulen	n/a	Land for housing	Soek Mekaar erven to be removed from the SDF and include realistic identified land for housing development, houses cannot be built around a reservoir.	A service provider was appointed for Erf 7001, Cloeteville better known as "Soek-mekaar" to obtain development rights and provision for ±250 medium to higher GAP-housing opportunities. Erf 7001 ("Soek-mekaar") housing project is in a planning stage and when the Land Use Application is advertised for public comment, the interested and affected person/parties may comment and/or object accordingly.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
16	IDP - APRIL 2023- 415	Minutes	Elsabe Vermeulen	n/a	Land for housing	Identification of land to build houses for backyard dwellers in Cloeteville.	A public meeting was held on 8 May 2023 regarding all housing-related queries and the processes of funding for housing between the Municipality and Province. The Municipality has identified Social Housing (affordable rental) as a housing programme to amongst others address the backyarder's plight for better living conditions.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
16	IDP - APRIL 2023- 416	Minutes	Elsabe Vermeulen	n/a	Safety and Security	Repair of the CCTV cameras on North - End Street.	Currently experiencing network challenges. The problem is being investigated for urgent repairs.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
16	IDP - APRIL 2023- 417	Minutes	Elsabe Vermeulen	n/a	Safety and Security	Installation of a CCTV camera at The Steps – J Block.	This is funding dependent and attached to the CCTV camera masterplan. The artisan team will investigate and advise the tenants of the timeframes to be followed for the repairs.	Planning and Economic Development	Integrated Human Settlements	Housing Administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
17	IDP - APRIL 2023- 434	Have Your Say	Peter Johnson	n/a	Building Maintenance	Fixing and maintenance of the toilet and geyser at 14 Monterey Flat, Rhode Street, Cloeteville.	The artisan team will investigate and advise the tenants of the timeframes to be followed for the repairs.	Planning and Economic Development	Integrated Human Settlements	Housing Administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
17	IDP - APRIL 2023- 435	Have Your Say	Peter Johnson	n/a	Safety and security	Installation of fences around Monterey Flats.	There is no budget for the installation of a fence.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
17	IDP - APRIL 2023- 436	Have Your Say	Peter Johnson	n/a	Spatial Planning	Make Cloeteville (Ward 16 and 17) one ward.	Feedback will be provided during the September 2023 public participation process.	Planning and Economic Development	Development Planning	Spatial Planning	Cllr Carli van Wyk	Craig Alexander	Local	
17	IDP - APRIL 2023- 603	Municipal Website	Peter Johnson	3	Area Cleaning	Cleaning of illegal dumping sites in Cloeteville.	EPWP staff are deployed into various areas to clean and the Section: Area Cleaning collects all waste.	Infrastructure Services	Waste Management	Waste Minimisation and Disposal	Cllr Zelda Dalling	Clayton Hendricks	Local	
17	IDP - APRIL 2023- 604	Municipal Website	Peter Johnson	1	Area Cleaning	Provide critical skills development training for people employed for area cleaning (StellCare etc) to help them be gainfully employable rather in Cloeteville.	The department will liaise with various stakeholders within the areas to determine the best solution.	Infrastructure Services	Waste Management	Waste Minimisation and Disposal	Cllr Zelda Dalling	Clayton Hendricks	Local	
17	IDP - APRIL 2023- 605	Municipal Website	Peter Johnson	1	Community Development	Implement skills development training opportunities not only for youth under 35 but also for their parents in Cloeteville.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Development	Community Development	Cllr Ralphon Adams	Michelle Aalbers	Local	

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023														
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)	
17	IDP - APRIL 2023- 606	Municipal Website	Peter Johnson	1	Land for housing	Identification of land for housing development for marginalised communities closest to the CBD and economic activity with reserving land closer to CBD for those with the financial means.	The Municipality has embarked on investigations to build Social Housing (affordable rental) near the CBD of Stellenbosch. The first Social Housing project to be awarded to a Social Housing Institution (SHI) to implement affordable housing is at an advance stage.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
17	IDP - APRIL 2023- 607	Municipal Website	Peter Johnson	5	Safety and Security	Deployment of law enforcement officers to "Soekmekaar" the open veld in Cloeteville to combat the criminal activities taking place. Close "Soekmekaar" with a fence with one or two pedestrian gates and one big gate for Adf to petrol or law enforcement.	Law Enforcement has limited staff which covers the entire municipality. Law Enforcement does not provide a 24/ 7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. The municipality is trying to launch more programmes to appoint youth to contribute towards safety, thus the importance for youth with a passion for safety to join the NHWs. Fencing and closure of areas do not resort with Protection services.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
17	IDP - APRIL 2023- 608	Municipal Website	Peter Johnson	2	Roads and Transport	Cleaning of drains and streets in Cloeteville.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local	
17	IDP - APRIL 2023- 609	Municipal Website	Peter Johnson	1	Roads and Transport	Paving of walkways next to the Rhode Street flats along the Pieter Langeveldt Primary fence which will be used by learners and wheelchair-bound citizens. In winter that area is muddy and inaccessible.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local	
17	IDP - APRIL 2023- 610	Municipal Website	Peter Johnson	1	Housing Administration	Monitoring and maintenance of municipal rental flats in Cloeteville to deal with infrastructure complaints.	The maintenance programme is an ongoing programme dependent on the availability of budget.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local	
17	IDP - APRIL 2023- 611	Municipal Website	Peter Johnson	1	Access to housing	Provision of open spaces for recreation in the infill housing projects as contained in the Housing Pipeline.	Funding from the Provincial Department to investigate the development of infill housing projects has been requested and when these studies commence, attention will be given to make provision for open spaces for recreation purposes.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
17	IDP - APRIL 2023- 612	Municipal Website	Peter Johnson	5	Parks and Recreation	Construct a playpark or a gym for kids in Cloeteville.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local	
18	IDP - APRIL 2023- 437	Minutes	JC Anthony	n/a	Land for housing	Identification of land for housing development in Klapmuts.	The residents of Klapmuts must take note that Council does not own property in Klapmuts, except for Remainder of Erf 342 and Farm 739, Paarl Division that is currently not earmarked for housing development. The Department: Housing Development is investigating alternative land for housing development in Klapmuts, the WWTW must be first upgraded to accommodate any further developments.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
18	IDP - APRIL 2023- 438	Minutes	JC Anthony	n/a	Rural development	Identification of land for small farmers in Klapmuts.	The Municipality does not own land in Klapmuts for Farming. Stellenbosch Municipality does lease land to small farmers close to Jamestown. Please contact Craig Alexander for further information.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette Du Toit	Craig Alexander	Local	
18	IDP - APRIL 2023- 439	Minutes	JC Anthony	n/a	Roads and Transport	Request to use the Klapmuts – Stellenbosch Train Station route without getting fined and paying R2500 for parking.	Stellenbosch Municipality is not directly involved with the taxi industry, as it is a Provincial Function. We can only refer the request to Provincial Government.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
18	IDP - APRIL 2023- 480	Have Your Say	JC Anthony	n/a	Safety and security	Visibility of Police and Law Enforcement in Klapmuts.	Law Enforcement has limited staff which covers the entire municipality. Law Enforcement does not provide a 24/ 7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. The municipality is trying to launch more programmes to appoint youth to contribute towards safety, thus the importance for youth with a passion for safety to join the NHW's.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local
18	IDP - APRIL 2023- 481	Have Your Say	JC Anthony	n/a	Local Economic Development	Construction of a Business hub in Klapmuts, as unemployment is high.	Feedback will be provided during the September 2023 public participation process.	Planning and Economic Development	Development Planning	Local Economic Development and Tourism	Cllr Rozette Du Toit	Craig Alexander	Local
18	IDP - APRIL 2023- 482	Have Your Say	JC Anthony	n/a	Housing	Provision of housing opportunities for backyard dwellers.	The residents of Klapmuts must take note that Council does not own property in Klapmuts, except for Remainder of Erf 342 and Farm 739, Paarl Division that is currently not earmarked for housing development. The Department: Housing Development is investigating alternative land for housing development in Klapmuts, the WWTW must be first upgraded to accommodate any further developments.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local
18	IDP - APRIL 2023- 483	Have Your Say	JC Anthony	n/a	Recreation and Sport	Building of swimming pool in Klapmuts.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local
18	IDP - APRIL 2023- 484	Have Your Say	JC Anthony	n/a	Roads and Transport	Extension of the street to the Main Road in Klapmuts.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local
18	IDP - APRIL 2023- 485	Have Your Say	JC Anthony	n/a	Land	The land next to my house was stolen. An advocate will write to the municipality regarding this issue. I have spoken to Mev Groenewald and Mav Mettler twice.	Feedback will be provided during the September 2023 public participation process.	Corporate Services	Properties Management and Municipal Building Maintenance	Properties Management and Municipal Building Maintenance	Cllr Lwando Nkamisa	Annalene de Beer	Local
19	IDP - APRIL 2023- 486	Minutes	James Williams	n/a	Electricity	The allocation of one generator to Klapmuts from the six generators donated to Stellenbosch Municipality by the Provincial Government.	A meeting with the ward councillor will be scheduled to investigate and based on the outcome of that meeting the decision will be made on the way forward.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local
19	IDP - APRIL 2023- 487	Minutes	James Williams	n/a	Access to Housing	Provision of decent housing opportunities for people in Mesko farm in De Novo / Kromme Rhee / Elsenburg.	The nodes in question belongs to the Provincial Department of Public Works and Infrastructure. The Department: Spatial Planning is in the process to readvertising a "Development of Local Community Investment Plans that address Localised Planning and Development Outcomes". This process will entail significant community participation, and only after the outcome of this study a decision can be made about if housing projects can be accommodated.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local
19	IDP - APRIL 2023- 488	Minutes	James Williams	n/a	Housing Administration	Provision of title deeds for Elsenburg residents.	The houses belong to the Western Cape Department of Human Settlements and are not within the mandate of Stellenbosch Municipality.	Planning and Economic Development	Integrated Human Settlements	Housing administration	Deputy Executive Mayor Jeremy Fasser	Rotanda Godlo	Local
19	IDP - APRIL 2023- 489	Minutes	James Williams	n/a	Roads and Transport	Construction of tarred roads in De Novo / Kromme Rhee / Elsenburg.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local
19	IDP - APRIL 2023- 490	Minutes	James Williams	n/a	Electricity	Installation of electricity connections in De Novo / Kromme Rhee / Elsenburg farms.	Eskom area of supply, all new developments will have to apply to Eskom.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local
19	IDP - APRIL 2023- 491	Minutes	James Williams	n/a	Access to housing	Establish an agreement with Public Works to provide housing opportunities in De Novo/ Elsenburg / Vaaldraci.	The Department: Spatial Planning is in the process to readvertising a "Development of Local Community Investment Plans that address Localised Planning and Development Outcomes". This process will entail significant community participation, and only after the outcome of this study a decision can be made about if housing projects can be accommodated.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
19	IDP - APRIL 2023- 492	Minutes	James Williams	n/a	Access to housing	Identification of land for housing development in Klein Akker.	The municipality is not allowed to spend money on private land. Unfortunately, the complaints must be given to the landowner. The municipality can only provide assistance if an agreement or partnership between Stellenbosch Municipality, Public Works, and the land owner has been reached. The ward councillor could arrange a meeting with Public Works to discuss the issues. Public Works relocated the families to Mesco farm and are therefore the responsible department.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local
19	IDP - APRIL 2023- 493	Minutes	James Williams	n/a	Electricity	Installation of a electricity connection in Klein Akker.	The municipality is not allowed to spend money on private land. Unfortunately, the complaints must be given to the landowner. The municipality can only allocate funds if there is an agreement or partnership between Stellenbosch Municipality, Public Works, and the landowner. The ward councillor can arrange a meeting with Public Works to discuss the challenges. It is not the Stellenbosch Municipality that evicts people.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local
19	IDP - APRIL 2023- 494	Minutes	James Williams	n/a	Access to Basic Services	Installation of water services in Klein Akker.	The municipality is not allowed to spend money on private land. Unfortunately, the complaints must be given to the landowner. The municipality can only allocate funds if there is an agreement or partnership between Stellenbosch Municipality, Public Works, and the landowner. The ward councillor can arrange a meeting with Public Works to discuss the challenges. It is not the Stellenbosch Municipality that evicts people.	Infrastructure Services	Water and Wastewater Services	Water Treatment	Cllr Zelda Dalling	Paul Joubert	Local
19	IDP - APRIL 2023- 495	Minutes	James Williams	n/a	Access to Basic Services	Construction of ablution facilities in Klein Akker.	The municipality is not allowed to spend money on private land. Unfortunately, the complaints must be given to the landowner. The municipality can only allocate funds if there is an agreement or partnership between Stellenbosch Municipality, Public Works, and the landowner. The ward councillor can arrange a meeting with Public Works to discuss the challenges. It is not the Stellenbosch Municipality that evicts people.	Infrastructure Services	Water and Wastewater Services	Water Treatment	Cllr Zelda Dalling	Paul Joubert	Local
19	IDP - APRIL 2023- 496	Minutes	James Williams	n/a	Ward Priorities	Request for the inclusion of De Novo and Elsenburg on the ward priorities and budget.	Feedback will be provided during the September 2023 public participation process.	Office of the MM	Governance	IDP/PMS Public Participation	Executive Mayor Gesie Van Deventer	Gurswin Cain	Local
19	IDP - APRIL 2023- 497	Minutes	James Williams	n/a	Public Participation	A request for separate IDP public meetings for De Novo and Elsenburg.	Feedback will be provided during the September 2023 public participation process.	Office of the MM	Governance	IDP/PMS Public Participation	Executive Mayor Gesie Van Deventer	Gurswin Cain	Local
19	IDP - APRIL 2023- 498	Minutes	James Williams	n/a	Rural development	Request the municipality to assist with intervening in the threats of eviction in Mesko Farm.	The municipality is not allowed to spend money on private land. Unfortunately, the complaints must be given to the landowner. The municipality can only put money if there is an agreement or partnership between Stellenbosch Municipality, Public Works, and the landowner. The ward councillor can only arrange a meeting with Public Works to discuss the issues. Public Works put the people out and on that Mesco farm, not Stellenbosch Municipality.	Corporate Services	Properties Management and Municipal Building Maintenance	Properties Management and Municipal Building Maintenance	Cllr Lwando Nkamisa	Annalene de Beer	Local
19	IDP - APRIL 2023- 499	Minutes	James Williams	n/a	Access to Basic Services	Replacement of pipes and water taps in Mesko Farm.	The municipality is not allowed to spend money on private land. Unfortunately, the complaints must be given to the landowner. The municipality can only allocate funds if there is an agreement or partnership between Stellenbosch Municipality, Public Works, and the landowner. The ward councillor can arrange a meeting with Public Works to discuss the challenges. It is not the Stellenbosch Municipality that evicts people.	Infrastructure Services	Water and Wastewater Services	Water Treatment	Cllr Zelda Dalling	Paul Joubert	Local

19	IDP - APRIL 2023- 500	Minutes	James Williams	n/a	Sport and culture	Construction of a netball court in De Novo.	No municipal land available.	Community and Protection Services	Community Services	Recreation, Sport Grounds and Halls	Cllr Ralphton Adams	Albert van der Merwe	Local	
19	IDP - APRIL 2023- 501	Have Your Say	James Williams	n/a	Safety and security	Increase safety and security measures in Cloeteville / Smartietown.	Law Enforcement has limited staff which covers the entire municipality. Law Enforcement does not provide a 24/ 7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. The municipality is trying to launch more programmes to appoint youth to contribute towards safety, thus the importance for youth with a passion for safety to join the NHW's.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
19	IDP - APRIL 2023- 502	Have Your Say	James Williams	n/a	Housing	Municipality to visit Mesco Farm, Bottelary Road and look at living condition of residents. Arrange meeting with Executive Mayor.	The necessary protocol must be followed to arrange a meeting and/or site visit with the Executive Mayor / Deputy Mayor.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
19	IDP - APRIL 2023- 503	Have Your Say	James Williams	n/a	Parks and Recreation	Cleaning and upgrading of the Park on Waaierpalm Street, Weltevrede 2.	The cleaning of parks forms part of a maintenance program.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local	
19	IDP - APRIL 2023- 504	Have Your Say	James Williams	n/a	Roads and Transport	Repaving of partially paved sidewalks in Waaierpalm Street, Weltevrede 2 (Cloeteville).	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local	
19	IDP - APRIL 2023- 505	Have Your Say	James Williams	n/a	Council	Increase the visibility of the ward councillor in Weltevrede 2.	Feedback will be provided during the September 2023 public participation process.	Office of the Speaker	Office of the Speaker	Office of the Speaker	Cllr Quintin Smit	Donovan Muller	Local	
19	IDP - APRIL 2023- 506	Have Your Say	James Williams	n/a	Housing	Provision of new housing opportunities in Soekmekaar.	A service provider was appointed for Erf 7001, Cloeteville better known as "Soek-mekaar" to obtain development rights and provision for ±250 medium to higher GAP-housing opportunities, and the submission of a Land Use Planning Application is at an advance stage.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local	
19	IDP - APRIL 2023- 507	Have Your Say	James Williams	n/a	Area Cleaning	Identification of the responsible official for the supervision of workers on the streets and rivers?	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe		
19	IDP - APRIL 2023- 508	Have Your Say	James Williams	n/a	Environmental Management	Closing off of rivers in Weltevrede 1. The rivers have become a dumping zone.	This request will be investigated.	Community and Protection Services	Community Services	Environmental Management	Cllr Ralphton Adams	Albert van der Merwe	Local	
19	IDP - APRIL 2023- 509	Have Your Say	James Williams	n/a	Safety and security	Municipality to visit Mesco Farm, Bottelary Road and look at living condition of residents. Arrange meeting with Executive Mayor.	Law Enforcement has limited staff which covers the entire municipality. Law Enforcement does not provide a 24/ 7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. The municipality is trying to launch more programmes to appoint youth to contribute towards safety, thus the importance for youth with a passion for safety to join the NHW's.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
19	IDP - APRIL 2023- 510	Have Your Say	James Williams	n/a	Safety and security	Restrict the opening of taverns and drug houses.	Law Enforcement has limited staff which covers the entire municipality. Law Enforcement does not provide a 24/ 7 service, although they have staff on standby. Crime prevention is not the primary responsibility of law enforcement but that of SAPS. WC024	IDP - APRIL 2023- 841	IDP Stakeholder Engagement		n/a	Parks and Recreation	Regularly cutting of grass and addressing the issue of structures that are put inside the park.	Cutting of grass take place every 6 weeks in all parks. The municipality does not have the capacity to provide security in all the parks, hence it needs the by-in of the community to assist.	Community and Protection Services	Community Services	Parks and Open Spaces	Cllr Joseph Joon	Albert van der Merwe	Local	
WC024	IDP - APRIL 2023- 842	IDP Stakeholder Engagement		n/a	Safety and Security	Provide assistance and support Neighbourhood Watches on patrolling.	The municipality is not a custodian of NHW establishment, only assist with equipment, training is provided by Community Services. Request for patrolling support can be directed to the weekly operational planning with local SAPS.	Community and Protection Services	Protection Services	Law Enforcement and Events Management	Cllr Carli van Wyk	Charl Kitching	Local	
WC024	IDP - APRIL 2023- 843	IDP Stakeholder Engagement		n/a	Disabled people	Provision of services and facilities for disabled people. Disabled must be clustered together with Frail Care.	Universal access policy indicate the streaming lining of how to make use of these for disabled functions for the disabled persons.	Community and Protection Services	Community Development	Community Development	Cllr Ralphton Adams	Michelle Aalbers	Local	
WC024	IDP - APRIL 2023- 844	Email	n/a	n/a	Grant-in-Aid	Review of the Grant in Aid funding - recommendation for the Stellenbosch Civil Advocacy Network.	The appeals/comments have been assessed and prepared for submission to council for consideration. The outcome of which will be after the next Council Meeting at the end of May. Successful organisations will be contacted by the municipality during June for the signing of the GiA MOA's.	Community and Protection Services	Community Development	Community Development	Cllr Ralphton Adams	Michelle Aalbers	Local	
WC024	IDP - APRIL 2023- 845	Email	n/a	n/a	Development Charges	Arrange a workshop with the relevant officials and the Agricultural Society, to discuss the following: The proposed Development Contributions policy is not conducive and contradicts the overarching objectives of the IDP as well as relevant provincial plans. The highly inflates rates/tariffs proposed for the establishment of tourism related facilities in the rural areas will restrict and prevent rural investment and associated job opportunities. Any kind of development that does not require rezoning should be evaluated on its own merit and unique circumstances. The rate per square meter (based on Gross Leasable Area) differs substantially in an urban and rural context. The extreme inset cost associated with the DC's policy is counterproductive and does not allow for an enabling environment in support of the creation of tourist related facilities with multiplier economic benefits. The policy and tariffs must be revisited.	In rural areas, the argument is that the road infrastructure is predominantly provincial and not municipal but also that some of these trip starts in Stellenbosch in municipal road networks. The latter must be acknowledged in the calculation of the DC. Provision is made to reduce the DC for rural Ares in the existing DC Policy (13.1): "A scientifically calculated reduction factor of 50% will be however be applied to the trip generation rates as specified for such land uses outside of urban areas". A new category has been added to the draft DC Tariff tables for approval by council: "Outdoor Dining/Function Area (persons)" - This DC new category makes it possible to calculate DCs for outdoor dining areas per person, and not only per m2 GLA, in order to provide a fair and reasonable calculation.	Infrastructure Services	Development Services, Asset Management and Systems & Project Management Unit (PMU)	Development Services	Cllr Zelda Dalling	Myra Francis	Local	
WC024	IDP - APRIL 2023- 846	Email	n/a		Land Use Management	Conduct a feasibility study on Erf 74/13 to develop it to storage facilities. WC024	IDP - APRIL 2023- 861	Email	n/a	n/a	Finance	What is the legal basis of the draft 2023 CEF?	<p>SPLUMA refers to sectoral policies of all municipal departments in section 21.(m) (e.g. infrastructure master plans, CIP, etc.) and the municipality's development programs in section 21.(n) (IDP, MTREF, etc.).</p> <p>The diagram reflects the coordination, alignment, and integration of various Council policies across varying time scales (5 – 10 years) which necessitates strategic alignment both horizontally and vertically across the spheres of government over the long term to achieve the spatial vision (20 – 30 years) as reflected in the MSDP. This is a complex process of coordination, alignment, and integration and a linear or simple line diagram doesn't reflect all the intricacies and only provides a visual representation of an intent/aim of strategic alignment across sectoral policies of all municipal departments [SPLUMA 21 (m)].</p> <p>In addition, the CEF process follows the guidelines and steps as stipulated by the Department of Cooperative Governance in its "Guide to Preparing a Capital Expenditure Framework" and the diagram is a simple representation of some of the steps to compile a CEF which achieves the long term spatial vision of the MSDP. These steps are informed by various legislative requirements from the LG: MFMA (sections 16 & 19); SPLUMA (Chapter 4 - sections 21. (m) & (n)), LG: Municipal Planning and Performance Regulations (section 2); and LG: MSA (Chapter 2). Please note that the aforementioned list is not an extensive list of compliance requirements from the applicable legislation and guidelines applicable to this</p>	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local

Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
WC024	IDP - APRIL 2023- 895	Email	n/a	n/a	Tariffs / Rates	The Stellenbosch Agricultural Society in association with The Stellenbosch Farmworker Forum and the Franschhoek Agricultural Society hereby request and propose that Stellenbosch Municipality adopts the same financial model as currently being implemented by the Bergriver Local Municipality as part of their budget and rates policy framework. The proposed tax rebate policy will apply to bona-fide agricultural owners belonging to agricultural societies affiliated to Agri Western Cape and subsequently also to the SA Agricultural Union, situated in the Stellenbosch WC024 municipal area.	Feedback will be provided during the September 2023 public participation process.	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local
WC024	IDP - APRIL 2023- 896	Email	n/a	n/a	Tariffs / Rates	With Reference to the Rates Policy to Relief Measures it is proposed that cognisance be given to the implementation of a special rebate applicable to the agricultural sector with reference to wine cellars and associated tourism facilities.	Feedback will be provided during the September 2023 public participation process.	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local
WC024	IDP - APRIL 2023- 897	Email	n/a	n/a	Finance	Termination of the 2019 NRM Contract and Tender BSM7/19	Feedback will be provided during the September 2023 public participation process.	Financial Services	Department: Revenue and Expenditure	Revenue	Cllr Peter Johnson	Pieter Wagenaar	Local
WC024	IDP - APRIL 2023- 898	Email	n/a	n/a	Roads and Transport	SM has quietly closed down the Mobility Forum without as much as giving notice to the participants. No mention of the workings and participants of the Stellenbosch Infrastructure Task Team is made anywhere in the IDP. The publicly announced Developers' Forum has not even been mentioned. There is a clear need for SM to become "clean and transparent" on its stakeholder engagements; in other words, please apply IDP Section 8.2.1.1. (Clean	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local
WC024	IDP - APRIL 2023- 899	Email	n/a	n/a	Public Participation	The Strategic Focus Areas (IDP Section 3.2, SFA's) such as Valley of Possibility have become meaningless. The five categories are listed everywhere but they have no impact on decision-making, prioritisation and have information value in themselves. The SFA's should be eliminated from the IDP and related documents such as the MIREF as they just clog up the tables and spaces.	Feedback will be provided during the September 2023 public participation process.	Office of the MM	Governance	IDP/PMS Public Participation	Executive Mayor Gesie Van Deventer	Gurswin Cain	

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
WC024	IDP - APRIL 2023- 900	Email	n/a	n/a	Roads and Transport	4.3.1 FSM will deal with roadbuilding, public transport and NMT in comments pertaining to the CIP and MSDF which are due on 12 May and 30 May respectively. Since relevant information on those plans is contained in the Draft IDP and MTREF, those future CIP and MSDF FSM comments should be read with the present ones. 4.3.2 Section 7.3.4: As indicated elsewhere, the past 2021 CIP is not an update and not compliant with the transport legislation. We note that neither the relevant officials have been disciplined nor has the external consultant Innovative Transport Solutions (ITS) suffered any consequences for the sloppy work and effectively. Facilities and Wasteful	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local
WC024	IDP - APRIL 2023- 901	Email	n/a	n/a	Housing	Housing (IDP Section 7.3.3): Figure 38 on Priority Human Settlements and Housing Development Areas depicts the R44 between Adam Tas and Jamestown as priority. Naturally the Transit-Oriented Development approach also advocates siting housing close to routes of transport. 4.4.1 Housing is intimately tied to public transport and Travel Demand Management (see transport legislation). The R44 route is already congested. This congestion is the direct result of the strong anti-public-transport stance taken by SM. Further housing along the R44 can built only if and	The comments are well noted and with all developments a Traffic Impact Assessment will and must be conducted. The Non-Motorised Transport (NMT) policy (currently under review) will play a significant roll when housing developments that are linked to the R44, is implemented.	Planning and Economic Development	Integrated Human Settlements	Housing development	Deputy Executive Mayor Jeremy Fasser	Lester van Stavel	Local
WC024	IDP - APRIL 2023- 902	Email	n/a	n/a	Electricity	FSM strongly supports electricity generation from renewables and co-generation by private entities. Hence the Energy Masterplan is supported. We note that, unlike the Roads Master Plan, the Energy Masterplan is compliant with national legislation and priorities.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Electrical Services	Operations and Maintenance	Cllr Zelda Dalling	Nombulelo Zwane	Local
WC024	IDP - APRIL 2023- 903	Email	n/a	n/a	Water and Sanitation	4.6.1 water Demand Management is critical. Section 7.3.6.4 is not nearly enough. We must deal not only with water leaks but actively control and limit groundwater use, eg by private and estate boreholes. 4.6.2 Support for Wastewater Treatment Works projects is conditional on understanding whom they serve. If these are being built to accommodate more luxury housing, we do not support them. 4.6.3 IDP Section 7.3.6.5 is generally supported. See Section 6 below for a more detailed treatment of climate change. 4.6.4 IDP Section 7.3.6.12 Boreholes: Accessing groundwater is an absolute last resort and cannot possibly be a sustainable solution. The 2018 emergency drilling measures resulted in significant environmental damage. That may not be repeated. 4.6.5 Decisions may not be driven by the financial needs of SM to sell water. If at all, rates should be increased as an effective measure to reduce water usage.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Water and Wastewater Services	Water Treatment	Cllr Zelda Dalling	Paul Joubert	Local

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023													
Ward	Ref no	Source	Ward Councillor	Priority Ranking (1-5)	Community Need/ Ward Priority	Description of ward issue (Author: community member/ stakeholder)	Departmental Comment	Linkage to Directorate	Department	Section	Responsible Portfolio Councillor	Responsible Senior Manager/ Manager	Government Competency (National / Provincial / District / Municipal)
WC024	IDP - APRIL 2023- 904	Email	n/a	n/a	Environmental Management	The Stellenbosch Environmental Management Framework (SEMF) has been all but ignored. We find little to no reference to its provisions in council agendas, development proposals and SM communications outside of general aspirations and principles. The SEMF exists only on paper. Many provisions of the Paradyskloof Nature Area Environmental Management Plan and other sectoral environmental plans are not being applied. For example, Section 4.2.4 in the Paradyskloof EMP and Section 7.2.4 in the Botmaskop EMP contain detailed specifications on how to prevent soil erosion, including e.g. slope grading, inside ditches and berm construction on jeep tracks, and logs on cycle tracks. Instead, grading is done indiscriminately and with no regard for adjacent vegetation.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Services	Environmental Management	Cllr Ralphton Adams	Albert van der Merwe	Local
WC024	IDP - APRIL 2023- 905	Email	n/a	n/a	Smart City	The benefits seem initially obvious but there is a significant danger in centralisation of control, privacy and data management. This is supported only if from inception the governance structures and resulting databases and data processing are decentralised, i.e. controlled not by a single authority (such as SM or one of the tech giants) but by citizens themselves. There should be clear and transparent rules on data usage and easily accessible mechanisms for private individuals to retrieve and delete data.	Feedback will be provided during the September 2023 public participation process.	Office of the MM	Governance	IDP/PMS Public Participation	Executive Mayor Gesie Van Deventer	Gurswin Cain	
WC024	IDP - APRIL 2023- 906	Email	n/a	n/a	Roads and Transport	Adam Tas Corridor (IDP Section 8.2.1.5): This initiative should be the core and origin of all structural changes in Stellenbosch for decades to come. The ATC and within it the public transport and NMT components must inform and determine the strategy and contents of the MSDP, CEF and CIP and thence the resulting individual projects. We see very little of that happening. Instead, the CEF and CIP simply include the ATC but then proceed to propagate projects which undermine or ignore the central role of the ATC.	Feedback will be provided during the September 2023 public participation process.	Infrastructure Services	Roads, Transport and Storm Water (RTS)	Roads and Storm Water	Cllr Zelda Dalling	Johan Fullard	Local
WC024	IDP - APRIL 2023- 907	Email	n/a	n/a	Environmental Management	The Mayoral Outcomes (five-year plans) exhibit a glaring deficiency in all matters relating to the environment. Note that environment pertains to nature areas, river courses, parks and gardens. Green energy, Green waste and Green economy are nice, but they do not cover the environment per se. A further Mayoral Outcome 8.2.1.10 should be added specifically with respect to the environment. Section 8.3.10 is a small beginning but not enough.	Feedback will be provided during the September 2023 public participation process.	Community and Protection Services	Community Services	Environmental Management	Cllr Ralphton Adams	Albert van der Merwe	Local

1st Review of the 5th Generation Integrated Development Plan 2022 - 2027: Public Participation Comments and Inputs: 3 -25 April 2023

WC024	IDP - APRIL 2023- 908	Email	n/a	n/a	Finance	The entire MTREF makes no reference whatsoever to the 10-year Capital Expenditure Framework (CEF). That is unacceptable and must be changed. There cannot be two disjoint financial planning instruments; one must influence the other.	The Capital Expenditure Framework is a chapter within the CEF and it informs the prioritising of capital projects that is encapsulated within the MTREF budget.	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local
WC024	IDP - APRIL 2023- 909	Email	n/a	n/a	Finance	Page 19: The Capital Replacement Reserve is seen to be contributing funds of R151million and R174million to expenditure. This funding source is second only to that of external loans, which come in at R94m and R200m in the next two years, followed by a further R200m and R175m in the two years thereafter (Page 92). This implies that Stellenbosch Municipality is spending money excessively. Drawing down reserves while taking up loans at the same time seems like a sure road to disaster in the long term. There needs to be a section motivating this and providing a viable roadmap to become financially sustainable. Could this profligacy perhaps have something to do with the upcoming 2024 General Elections?	The Capital Expenditure Framework is a chapter within the CEF and it informs the prioritising of capital projects that is encapsulated within the MTREF budget.	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local
WC024	IDP - APRIL 2023- 910	Email	n/a	n/a	Finance	Employee costs: Page 12 and 17: Re financial sustainability: In particular, there is general agreement that expenditure on employee costs is excessive. The table on MTREF Page 89 pencils in employee related cost increases of 5.4% plus Notch Increments of 2.4% for 2023/2024. This means that municipal employees will perceive an above-inflation increase of 7.6% in this year. That is unacceptable, given the macroeconomic situation and the MFMA circulars. The one exception is the Section Environmental Implementation, which is badly understaffed and underfunded. There needs to be a significant increase in operational funding and filling of posts in this section.	The remuneration as a percentage of total operating expenditure for the MTREF is 28.40%. This is well within the National Treasury norm of between 25% and 40%. The municipality is managing its resources well. The employee salary increases is based on the SALGA collective agreement.	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local
WC024	IDP - APRIL 2023- 911	Email	n/a	n/a	Finance	Councillor remuneration: It is likewise inappropriate to budget a 6.0% increase (above the CPI inflation rate) for councillor remuneration while the country is in recession.	Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints.	Financial Services	Financial Management Services	Budget Office	Cllr Peter Johnson	Monique Steyl	Local

RE: DEVELOPMENT CONTRIBUTIONS TOWARD INCLUSIONARY HOUSING TYPOLOGIES

Dear Madam,

In response to a request for comment regarding Draft Development Contribution Development Policy and the inclusion of Inclusionary Zoning (Housing) Policy, please find comment herewith.

DB Property Development Company owns zoned development land in the Koelenhof-node of Stellenbosch. This area has traditionally been neglected in the provision of Municipal Services, especially so with the lack of a Municipal Electricity network and the road infrastructure not being supported by the Municipality.

The Developer is tasked to provide the infrastructure at its cost and have to do so in addition to paying its share of Development Contributions/Charges as, under the current DC Policy, only certain limited costs can be off set against the prescribed DC's.

Considering the above, the financial point of entry to market is high due to the fact that the Developer has to be able to recover the site establishment costs, the costs associated with the external and internal services upgrades, the Development Charges and the actual build costs.

If the intention of the above-mentioned Inclusionary Zoning (Housing) Policy is to force Developers to provide residential units at a lower rate, it limits the Developer's ability to recover the costs as above. In view hereof, there has to be a financial compromise between the Developer and the Municipality to enable the Developer to meet the requirements as being proposed in the Draft Policy.

Clause 12 of the 2022/23 Development Charges Policy provides for the instances where the Municipality can, and should, reduce the Development Charges imposed on land developments. If the Draft Inclusionary Zoning (Housing) Policy comes into power, this should be such an instance.

In this regard, it is the recommendation from this writer, that the Municipality has to provide a reduction of Development Charges of 40% as determined against the full determination on the land development.

Regards,

Pieter vd Westhuizen

Development Manager

Good Day IDP Office and Adele

See the email below from Gerhard Nel.

Can you regard this as a comment on the Budget (MTREF) documents, which include our DC tariffs and Policy so we can formally deal with it. In my opinion it is a valid request and I think we should add a new DC category in our DC tariff table for storage facilities since it is becoming more common.

Can you please confirm if this is in order?

Regards

Hi Gerhard – sorry for the late reply.

Currently, we do not have a DC category for storage, but I think we need to create one as it is becoming more common.

I will look into it as the municipality is currently dealing with the revision of the municipal tariffs, including DC tariffs for 2023/24. I will keep you posted, but the soonest I can give you a firm answer will be 1 July 2023, after the tariffs are approved by council.

Attachments: Storage Unit Trip Generation Rates

Dear Tyrone

See attached my correspondence to Colin regarding Storage Units. The report refers to peak hour rates and not daily trip generation that is required for DC calculations. However, from the Institute of Transportation Engineers (ITE's) Trip Generation Manual, 10th Edition, the average daily trip generation rate for a self-storage facility is approximately 0.16 trips per unit or 16 daily trips/100 units.

This compares very well to the surveys done at a Storage facility in Somerset-West (AECOM, 2010). The facility has 575 units and generated on average 90 trips per day or 15.6 daily trips per 100 units.

Table 2.1: Daily Statistical Survey Results

RESULT	WEEKDAY			WEEKEND			ALL		
	In	Out	Tot	In	Out	Tot	In	Out	Tot
MAX	69	69	138	51	53	104	69	69	138
MIN	36	38	74	14	14	28	14	14	28
AVERAGE	51	52	103	31	30	61	45	45	90

We would therefore recommend a trip rate of 16 trips per 100 units.

Regards

Hi Dave and Johan

I hope you had a good long weekend.

Please see request below regarding DCs for storage. This type of development is becoming more common and therefore I would like us to add this as a category on our DC table.

Johan, I know you have done some work on this before for Colin. Can you please send your findings on trip generation to Dave, as well as on what it is based.

Dave, can you please include this category in the DC table so it is ready when I have to re-submit to Finance – say two weeks from now. Also include a description of it (definition and on what the demands are based, especially trip generation) in your technical report.

Regards

Hello Catherine

Hoop dit gaan goed aan jou kant te midde van hierdie druk tyd wat julle nou deurgaan.

Daar is een versoek vanuit die buurt wat ons graag bygevoeg wil kry in die GOP dokument alvorens die publieke proses begin. Julle hulp word baie waardeer.

Onder die prioriteit 1 punte rakende Martinson Straat, vra ons asb. dat die volgende bygevoeg word:

“The painting of a pedestrian crossing in Martinson Road, across from the Junior Academy, allowing parents to safely take their small children across this busy road.”

Vriendelike groete

Subject: Aanpassing van die die GOP

Hello Catherine

Ek wil graag 'n verdere toevoeging tot Wyk 7 se GOP maak, na aanleiding van ons onlangse vergadering met Wetstoepassing.

Die versoek was gerig dat 'n telefonies beheerde skuifhek aangebring word, wat toegang tot die Hangbrug area sal beheer en toegang vir belanghebbendes steeds verseker.

Sluit dus asb in onder die Hangbrug prioriteit:

“The replacement of the entrance gate to the Hangbrug, with a sliding gate that can be opened by cellphone. This will grant entrance only to registered persons.”

Baie dankie en sterkte.

Groete
Raymond

1. Summary of Recommendations for Stellenbosch Budget 2023/24

Asivikelane Western Cape (WC) initiative conducted an analysis of the Stellenbosch Municipality's 2023/24 draft budget and Integrated Development Plan. Based on this, informal settlement residents in Stellenbosch along with Development Action Group (DAG), would like to submit the following recommendations to be considered in the final budget:

<i>Municipal service</i>	<i>Stellenbosch 2023/24 IDP and Budget: Key Observations</i>	<i>Asivikelane WC Recommendations</i>
Water	<p>The IDP says that water in informal settlements is a priority yet:</p> <ul style="list-style-type: none"> The 2023/24 budget does not include a specific allocation for water/standpipes to informal settlements. 	<ul style="list-style-type: none"> Set a target for taps in informal settlements, based on need. Asivikelane WC data shows that several informal settlements have no water

	<ul style="list-style-type: none"> No targets are given for new standpipes in informal settlements. (See page 5-6) 	<p>and in some places there is not enough water.</p> <ul style="list-style-type: none"> Specify budget allocation for water/standpipe to informal settlements
Sanitation	<p>The IDP says that the construction of ablution facilities is a priority yet:</p> <ul style="list-style-type: none"> The target for waterborne toilet facilities has declined from 50 in 2022/23 FY to 20 in 2023/24 FY. The budget does not indicate a specific allocation for informal settlement ablution facilities. (See page 6-7) 	<ul style="list-style-type: none"> Increase the target for toilets in informal settlements, based on need. Asivikelane WC data shows that several informal settlements have no sanitation and in some places there are not enough toilets. Specify budget allocation for toilets in informal settlements
Solid waste	<p>The waste removal services budget increases by over 8% in 2023/24 FY. But neither the IDP and Draft Budget it clear whether the increase includes any dedicated allocation for waste collection services in informal settlements. (See page 7-8)</p>	<ul style="list-style-type: none"> Improve solid waste collection to informal settlements. Asivikelane WC data shows that several areas have no waste collection service, other have no skips and skips are overflowing in places. Specify budget allocation for waste collection in informal settlements
Repairs and maintenance	<p>The budget does not show a separate allocation for repairs and maintenance to informal settlement toilets, solid waste and standpipes. We assume that these services will be funded by the maintenance budget for water supply infrastructure, sanitation infrastructure and solid waste infrastructure.</p> <p>The municipality is spending less 1% of its Property, Plant and Equipment budget on repairs and maintenance. This is far less than the National Treasury norm on repairs and maintenance (which is 8%). (See page 9-10)</p>	<ul style="list-style-type: none"> Specify the plans and budget allocation for repairs and maintenance to water, sanitation and solid waste removal services in informal settlements A functional fault-reporting systems should be put in place Increase spending on repairs and maintenance to at least be in line with National Treasury norm of 8%.

2. Asivikelane Western Cape community assessment of informal settlement service delivery in Stellenbosch

Asivikelane Western Cape¹ is an initiative that gives a platform to informal settlement residents who face severe basic service shortages. Asivikelane Western Cape regularly collects data from participating residents in informal settlements in Stellenbosch Municipality. Residents answer questions and report on access and challenges to water, sanitation and refuse removal services. The campaign currently engages over 180 residents who are Asivikelane Western Cape participants, living in 8 informal settlements: Azania, Enkanini, Emaholweni, Kayamandi, Khwezi, Langrug, Mandela City and Strongyard.

Led by Development Action Group (DAG), Asivikelane Western Cape has held several engagements with Stellenbosch Municipality, which have resulted in some instances of improvements in water (2), sanitation (53) and waste collection (9) in informal settlements in 2022. **However, the need for safe, reliable access to water, sanitation and waste collection services remains urgent in many areas. We hope that these budget inputs will support the municipality's efforts to improve the quality of life of those living in informal settlements.**

Water: Informal settlements do not have enough taps

Data collected in February 2023 showed that 85% of residents use communal standpipes in their informal settlements. Residents have reported that communal taps/standpipes are far from their settlement section and they, therefore, collect water from neighbouring settlement sections. Some residents specifically reported that there are not enough communal taps to ensure sufficient water for all households in their settlement. In addition, 25% of the residents did not have enough water in their settlement for at least 7 days. Residents in Kwezi informal settlement said that they do not have water. The gap in water access has an impact on residents' health and hygiene.

Data collected in September 2022 showed that 84% of women said they are primarily responsible for collecting water and 98% of them do so more than once per day. Several women said they feel unsafe walking long distances to collect water and asked for more taps to be installed, closer to where they live.

Sanitation: Too few toilets and toilets are not cleaned often enough

In February 2023, 82% of residents said that they use communal flush/ablution block toilets and many residents said that there are **not enough toilets**. Several residents raised concerns about toilets being dirty and blocked. Forcing them to a different settlement section to use toilets. When residents were asked if the municipality has cleaned their toilets in the last 7 days, 10% of the **residents reported said the toilets were not cleaned**, and 12% of the residents indicated that this question was not applicable to them because they do not have toilets, these are residents in Mandela City and Khwezi.

¹ Asivikelane Western Cape website: <https://asivikelane.org/westerncape-releases/>

Safety is a major concern, especially for women. When toilets are placed in dark, isolated locations it's dangerous for women because they are targeted by criminals. In September 2022, 89% of women said they feel unsafe using communal toilets at night, and 38% feel unsafe during the day.

Residents want more toilets, closer to where they live, and 89% of women asked for separate toilets for men and women. This will be safer and more hygienic.

Refuse collection: Irregular waste collection and lack of skips is a health risk

In February 2023, Asivikelane Western Cape collected asked residents if they received refuse collection services in the last 7 days from the municipality. 13% of residents reported that their settlement does not receive refuse collection services. A further 16% of the residents reported that they usually receive refuse collection services, however, their **refuse was not collected in the last 7 days**. Residents also reported that there are not enough communal dumping skips. In settlements with skips, these are often not emptied. Several residents have resorted to burning their waste, which is both hazardous to health and the environment – just one of the negative consequences of the municipality's failure to collect waste.

Repairs and maintenance: municipality slow to fix broken services

Based on the data collected by Asivikelane Western Cape in November 2022, **36% of the residents reported that it takes the municipality between 1 to 3 months to fix a broken tap or toilet**, a further 26% of the residents reported that it takes a month or less and 14% reported that the municipality never fixed the broken tap or toilet. The lack of repairs means that more residents are relying on fewer services, reducing access levels and placing additional strain on infrastructure.

Asivikelane Western Cape #8 data

How_soon_municipality_fixes_taps_toilets?	Number	Percentage
Between_1_to_3_months	52	36%
In_a_month_or_less	38	26%
I_don't_know	23	16%
Never_they_don't_fix_it	20	14%
In_a_week_or_less	12	8%
TOTAL	145	100%

Source: Asivikelane Western Cape #8 data, collected in November 2022

Maintenance and repairs of existing service infrastructure are cheaper than installing new services and it increases the lifespan of the infrastructure.

3. Analysis of Stellenbosch Municipality's 2023/24 draft budget and Integrated Development Plan

Allocations for the provision of water to informal settlements

We were encouraged to see that Stellenbosch Municipality has identified the installation of standpipes in informal settlements and the construction of ablution facilities as some of the Integrated Development Plan (IDP) deliverables for the 2023/24 budget year.² However, the municipality's **draft 2023/24 IDP does not provide any targets for the delivery of standpipes in 2023/24**. In contrast, a target of 50 new standpipes were set for 2022/23. No information is provided about how the target of 50 standpipes was determined.

TABLE 1: Target for standpipes

	2022/23	2023/24	% change
Infrastructure Services Directorate: Installation of new standpipes	50 new standpipes installed by 30 June	No target	Unclear

Source: Service Delivery and Budget Implementation Plan (SDBIP), page 409

According to the Service Delivery and Budget Implementation Plan (SDBIP), the Infrastructure Services Directorate is responsible for the installation of standpipes. The Infrastructure Services Directorate's capital budget is planned to increase by 46.11% from its adjusted 2022/23 budget of R297 million to R433 million for the budget year 2023/24 as illustrated in Table 2 below.

TABLE 2: Infrastructure Services Directorate Capital Budget

	2022/23		2023/24	
[Rands]	Adopted Budget	Adjusted Budget	Draft Budget	% change
Infrastructure Services Directorate Capital Budget	290 468 879	296 643 879	433 423 363	46.11%

Source: Medium Term Revenue and Expenditure Framework for the Financial Period 2023 – 2026, page 19

Within the Infrastructure Services Directorate capital budget, there is a specific allocation for the Water Network, responsible for supplying water provisioning infrastructure to households. The 2023/24 draft budget indicates an increase of 40.25% from its adjusted budget of R84 million to R117 million for the Water Network for the 2023/24 budget year, illustrated in Table 3 below. However, despite the installation of standpipes in informal settlements being a priority for the 2023/24 budget year for the municipality, **we cannot see**

² Stellenbosch Municipality Draft 2023/24 IDP & SDBIP: <https://stellenbosch.gov.za/download/5th-generation-integrated-development-plan-2022-2027-v22-consolidated-amended/?ind=1680165465897&filename=5th-Generation-Integrated-Development-Plan-2022-2027-v22.-Consolidated.amended.pdf&wpdmdl=20735&refresh=64342c04733eb1681140740>

a specific allocation of how much of the Water Network budget is for standpipes and for water supply to informal settlements.

TABLE 3: Vote 3 - Infrastructure Services Directorate: Water Network

	2022/23		2023/24	
[Rands]	Adopted Budget	Adjusted Budget	Draft Budget	% change
Vote 3 - Infrastructure Services Directorate: Water Network	49 669 000	83 531 000	117 150 000	40.25%

Source: Medium Term Revenue and Expenditure Framework for the Financial Period 2023 – 2026, page 38

The IDP further indicates: “Communal standpipes represent the weakest part of a network’s water supply services. Standpipes are often constructed in ways that cannot withstand excessive use (and abuse) and are often neglected in terms of operation and maintenance, adversely affecting the health of their already vulnerable and poor users.”³

The municipality acknowledges that standpipes are the weakest part of its water network and are constructed in a way that cannot withstand excessive use. In addition, many residents have reported that there are not enough communal taps/standpipes. However, both the draft IDP and budget don't provide any evidence that the municipality plans to install more standpipes (see Table 2 above) that can potentially reduce the household-to-standpipe ratio and alleviate the excessive use per standpipe.

Allocations for sanitation in informal settlements

Stellenbosch Municipality makes the construction of ablution facilities in informal settlements a priority for the budget year 2023/24. The municipality has set a target of 20 waterborne toilet facilities for the budget year 2023/24, in contrast to the previous year’s target, which was 50 waterborne toilet facilities, as illustrated in Table 4. This is 60% less than the previous year’s target, the reduction in the target does not support the municipalities statement that the construction of ablution facilities is a priority for 2023/24. **No reasons are provided for the decrease in the sanitation target as set by the Department: Integrated Human Settlements.** It is also not clear how many households will be served by these ablution facilities and where they will be installed.

TABLE 4: Target for communal ablution facilities

	2022/23	2023/24	% change
Provision of waterborne toilet facilities in informal settlements as identified by the Department: Integrated Human Settlements	50	20	-60%

Source: Service Delivery and Budget Implementation Plan (SDBIP), page 409

³ Source: Stellenbosch Municipality Draft 2023/24 IDP, page 151: <https://stellenbosch.gov.za/download/5th-generation-integrated-development-plan-2022-2027-v22-consolidated-amended/?ind=1680165465897&filename=5th-Generation-Integrated-Development-Plan-2022-2027-v22.-Consolidated.amended.pdf&wpdmdl=20735&refresh=64342c04733eb1681140740>

The Infrastructure Services Directorate provides sanitation services to households via the sewerage network. We see a positive increase of 15.53% from the adjusted budget of R46 million to R53 million for the budget year 2023/24 in the Infrastructure Services: Sewerage Network, shown in Table 5 below.

However, the IDP nor the capital budget does not include a dedicated project for the provision of informal settlement ablution facilities and **it is not clear if the sewerage network budget allocation includes sanitation services to informal settlements.**

TABLE 5: Vote 3 - Infrastructure Services Directorate: Sewerage Network

	2022/23		2023/24	
[Rands]	Adopted Budget	Adjusted Budget	Draft Budget	% change
Vote 3 - Infrastructure Services Directorate: Sewerage Network	57 000 000	45 738 000	52 840 000	15.53%

Source: Medium Term Revenue and Expenditure Framework for the Financial Period 2023 – 2026, page 38

Allocation for the provision of Refuse Removal services to informal settlements

It is encouraging to see the budget for mini waste drop-off facilities at informal settlements has increased from R100 000 in the adopted 2022/23 budget to R200 000 in the 2023/24 draft budget. There are two further capital projects that might benefit informal settlements but those budgets have decreased, skips decrease from R300 000 in the 2022/23 adopted budget down to R200 000 in the 2023/24 draft budget, and street refuse bins from R500 000 in the adopted 2022/23 adopted budget down to R300 000 in the 2023/24 draft budget.

TABLE 6: Refuse Removal Capital Projects

Project	[Rands]	Department	Adopted 2022/23	Draft 2023/24	% change
Mini Waste drop-off facilities at Inf Settlements		Waste Management: Solid Waste Management	100 000	200 000	100%
Skips (5,5kl)		Waste Management: Solid Waste Management	300 000	200 000	-33.33%
Street Refuse Bins		Waste Management: Solid Waste Management	500 000	300 000	-40%

Source: Medium Term Revenue and Expenditure Framework for the Financial Period 2023 – 2026, page 38

Table 7 below illustrates the Trading Services Expenditure for Waste Management as allocated in the 2023/24 draft operating budget. We see an increase from R139 million in the adjusted 2022/23 budget to R151 million in 2023/24 in the draft budget, this is an 8.03% increase. Waste removal services are usually provided either directly by the municipality or through contract services and both will be funded from the operating budget (trading services). **The IDP and Draft Budget do not make it clear whether the increase in the Waste**

Management budget includes any dedicated allocation for waste collection services in informal settlements.

TABLE 7: Trading Services Expenditure

	2022/23		2023/24	
[Rands]	Adopted Budget	Adjusted Budget	Draft Budget	% change
Waste Management	131 508 000	139 418 000	150 616 000	8.03%

Source: Medium Term Revenue and Expenditure Framework for the Financial Period 2023 – 2026, Table A2, page 25

Allocation of Municipal Grants for Informal Settlements

The Informal Settlement Upgrading Partnership Grant (ISUPG) is a funding source dedicated to upgrading of informal settlements and this is allocated by the Western Cape Provincial government to the Municipality. The Integrated Urban Development Grant (IUDG) is also a funding source that can be used to provide basic service delivery to informal settlements. The IUDG is directly allocated to the Municipality by National Government.

ISUPG is set to decrease by 10.63% of its 2022/23 adopted budget of R21 million down to R19 million of the 2023/24 draft budget as well as the IUDG decreases by 4.88% of its 2022/23 adopted budget of R62 million down to R59 million of the budget for 2023/24. **This suggests that less money will be available for informal settlement services.**

TABLE 8: Municipal Grant Funding

	2022/23		2023/24	
[Rands]	Adopted Budget	Adjusted Budget	Draft Budget	% change
Integrated Urban Development Grant (IUDG)	62 460 000	-	59 410 000	-4.88%
Informal Settlement Upgrading Partnership Grant (ISUPG): Provinces (BENEFICIARIES)	20 850 000	-	18 633 000	-10.63%

Source: Integrated Development Plan 2022-2027, page 381, and Adjusted 2022/23 Capital Budget

The Kayamandi Zone O Housing Project is currently underway, and the IDP indicates that ±711 services/number of housing opportunities will benefit from the project. The project is funded from the ISUPG. Kayamandi is one of the Asiviklane Western Cape participating settlements.

The municipality has indicated in the IDP that project is at its initial stages, and engagements with the community have commenced. The construction period is estimated to be 9 months after the contractor has been established on-site. Site establishment is dependent on the successful relocation of the families residing currently on the site identified for construction⁴.

⁴ Source: Stellenbosch Municipality Draft 2023/24 IDP, page 104 and 134:

<https://stellenbosch.gov.za/download/5th-generation-integrated-development-plan-2022-2027-v22->

However, the relocation of families was not achieved. The contractor could not activate it. Construction funding was removed from the adjustment budget (illustrated in Table 9 below). The adopted 2022/23 budget is R13 million and the adjusted 2022/23 budget is R6 million. The 2023/24 draft budget is R13 million, the municipality, in the IDP, has indicated that they are allocated the same amount of money for the next budget year and the current budget year. There have been delays in the Kayamandi housing project as people are still being relocated.

The ISUPG budget for 2023/24 is R19 million and since the housing project budget of R13 million is funded by the ISUPG, this means 68.4% of the ISUPG budget will go towards the Kayamandi housing project. **Services to other informal settlements (beneficiaries of the ISUPG) may be neglected.**

TABLE 9: Kayamandi Zone O Housing Project

[Rands]	2022/23		2023/24
	Adopted Budget	Adjusted Budget	Draft Budget
Kayamandi: Zone O (±711 services) Funding source: ISUPG	13 350 000	5 850 000	13 350 000

Source: Integrated Development Plan 2022-2027, page 104

Allocation of Repairs and maintenance of informal settlements infrastructure

The municipality has indicated in the IDP that communal standpipes are the weakest part of a network's water supply services. Standpipes are often constructed in ways that cannot withstand excessive use and are often neglected in terms of operation and maintenance, adversely affecting the health of their already vulnerable and poor users.

The total budget allocation for repairs and maintenance for the 2023/24 budget year is increased by only 9.72%. We are seeing small percentage increases for water supply infrastructure (10.78%), sanitation infrastructure (4.77%) and solid waste infrastructure (4.35%), as shown in Table 11 below. The budget does not show a separate allocation for repairs and maintenance to informal settlement toilets, solid waste and standpipes. We assume that these services will be funded by the maintenance budget for water supply infrastructure, sanitation infrastructure and solid waste infrastructure.

The municipality is spending less than the National Treasury norm on repairs and maintenance (which is 8%). The analysis shows that 0.0% of the Property, Plant and Equipment (PPE) will be spent on repairs and maintenance. This does not mean that the municipality is spending nothing on R & M, but we assume that the amount is so small in comparison to the value of PPE that it comes to less than 1%.

TABLE 11: Repairs and maintenance

	2022/23		2023/24	
[Rands]	Adopted Budget	Full Year Forecast	Draft Budget	% change
Total Repairs and Maintenance	107 541 000	103 582 000	113 659 000	9.72%
Water Supply Infrastructure	12 423 000	12 423 000	13 750 000	10.68%
Sanitation Infrastructure	10 800 000	10 800 000	11 316 000	4.77%
Solid Waste Infrastructure	4 344 000	4 344 000	4 533 000	4.35%
R&M as a % of PPE	0.0%	0.0%	0.0%	-

Conclusion

In conclusion, it is our hope that Stellenbosch Municipality utilises these inputs to strengthen its budget with an emphasis on fair, inclusive allocations for services to informal settlements. For further engagement with Asivikelane Western Cape, please contact us using the detail below:

Contact person: Crystal West (DAG)

The Municipal Manager
Stellenbosch Municipality

Re: Grands-in-Aid APPEAL

Dear Sir/madam

Our Club noted the reasons for the outcome of our application. We have managed to amend the information accordingly, and listed the adjustments below

- The application form was amended from General support to Specific project.
- All forms are signed.
- Bank signature was added
- AGM minutes correctly adjust as per our Constitution
- AGM minutes signed
- Feedback Report was updated for the 2020/2021 Grant in Aid application.

Kind regards,

Bonita Klaasen
Club secretary

03 November 2022

President, Anneline Houston open met gebed en verwelkom elkeen teenwoordig.

“Old boys” lede is teenwoordig en wil weet of hul stem reg het.

Johan Adonis bevestig dat almal wel teenwoordig het stem regtig is.

Die 2021 se notule word voorgelees deur Sekretaresse.

Stellenbosch Coronations RFC
Algemene Jaar Vergadering (AGM)
03 November 2022

President, Anneline Houston open met gebed en verwelkom elkeen teenwoordig.

“Old boys” lede is teenwoordig en wil weet of hul stem reg het.

Johan Adonis bevestig dat almal wel teenwoordig het stem regtig is.

Die 2021 se notule word voorgelees deur Sekretaresse.

Korreksies word uitgewys wat aangeteken moet word.

Quinton Isaacs se van was verkeerd gespel .

Verslag word aanvaar deur Johan Isaacs met Hinie Philander wat sekondeer.

President se verslag word voorgelees aan die vergadering en word aanvaar deur mnr Asraf Patel snr, met Donovan Lindoor wat sekondeer.

Sekretaris verslag word voorgelees aan vergadering en word aanvaar deur Mnr. Riyaad Adonis met Hinie Philander wat sekondeer.

Trustee verslag word deur Johan Adonis gelewer.

Johan Isaacs wil weet waar die brand blussers is.

Johan Adonis verduidelik dat dit die Munisipaliteit se blussers is. Dit word elke keer vervang deur die Raad

Mnr. Johan Isaacs wil ook weet hoekom kry die klub nie versekering nie.

Johan Adonis verduidelik dat die sportraad moet kyk na verskering, maar noem ook dat dit munisipale eindom is.

Al die klub se bates is tans in veilige bewaring.

Mnr. Celeton Rhode wil weet waar die klub se truie is, waar op Mnr Johan Adonis verseker dat dit ook in veilige bewaring is.

Trustee verslag word aanvaar deur Mnr Riyaad Adonis, met Mev Magdalene Seale wat sekondeer.

BK

Mnr. Franklyn Abrahams wil weet wat die waarde van die klub se bates is. Mev die voorsitster veduidelik dat volgens boekhouer reëls kan daar nie waarde aangeheg word nie, want die waarde verminder elke jaar.

Mnr. Johan Adonis deel die finansiële verslag met die vergadering en maak die vloer oop vir enige vrae.

Geen vrae was op die tafel gelê, so was finansiële verslag aanvaar deur Mnr. Neels Abrahams, met Dillon Philander wat sekondeer.

Mnr. Johan Isaacs sit n voorstel op die tafel rakende die seisoenfooï.

Hy stel voor dat spelers elke tuis wedstryd n R20 moet bring. Wat dan bydra is vir hul seisoen geld.

Geen korrespondensie was ontvang vir wysigings in die Grondwet nie, maar die uitvoerende bestuur was wel gevra om die grondwet te bestuurder en met aanpassings vorendag te kom wat met volgende AGM behandel kan word. Die huidige grondwet word aanvaar in sy huidige vorm.

Mnr Shirage Pool (Ere-President) word versoek om die verkiesing te behartig

Die Klub ere-president neem voorsittende stoel in en verklaar alle bestuurs poste as vakant.

President:

Anneline Houston word deur Nick Jacobs genomineer met Leon Pietersen as sekondeer
James Manuel word deur Magdalene Seale genomineer met Meekaeel Pool as sekondant.
James Manuel wen met 19 oor 10 punte

Vise-President:

Anneline Houston word eenparig verkies

Sekretaris:

Bonita Klaasen word eenparig verkies

Vise-Sekretaris:

Richard Seconds word eenparig verkies

Kassier:

Johan Adonis word eenparig verkies

Vise- Kassier:

BK

Quinton Isaacs word eenparig verkies

W&R Sekretaris en Vise W&R Sekretaris posisies word eenparig verkies

Esmarelda Adams met Peter Seal wat haar asistent sal wees

Hine Philander en Rakeeb Pool word eenparig verkies tot Trustees

Adisionele lede plek word gevul met Nick Jacobs, Neels Abrahams en Johan Isaacs.

Mnr Shirage Pool wens die nuutgekose bestuur met Mnr James Manuel as President geluk en versoek lede om hul plekke in te neem.

Mnr Manuel bedank klublede vir hul vertrouwe in hom en sy mede bestuur. Vra dat lede asb respek moet toon vir mekaar en dat in sy termyn gaan dissipline 'n groot rol speel in die klub se toekoms.

Vergadering sluit af met gebed deur President, James Manuel

A handwritten signature in black ink, appearing to be 'B Klaasen', written in a cursive style.

B Klaasen (Sekretaris)

A small, stylized handwritten mark or signature in the bottom right corner of the page.

Dear Ms Mettler

Comments: Draft Budget 2023/24 – 2025/26

The Stellenbosch Night Shelter sincerely apologises for the incorrect Audited Financial Statements and Constitution that was not signed.

Please find attached the correct documents for your consideration to render this valuable service to homeless adults.

Kind regards

Mrs D. Paulse

Manager

Stellenbosch Night Shelter

The following additional information is not part of the annual financial statements and is unaudited:

Detailed Income Statement	20
---------------------------	----

The annual financial statements and additional information set out on pages 7 to 20, which have been prepared on a going concern basis, have been approved by the Board on 25 August 2022 and signed on its behalf by:

 Antoinette Bruwer (Chairperson)

 Danie Nel (Treasurer)

Independent auditor's report

To the Management Committee of The Stellenbosch Night Shelter

Report on the audit of the financial statements

Our qualified opinion

In our opinion, except for the possible effects of the matter described in the Basis for qualified opinion section of our report, the financial statements of The Stellenbosch Night Shelter (the Organisation) for the year ended 28 February 2022 are prepared, in all material respects, in accordance with the basis of accounting described in note 1 to the financial statements.

What we have audited

The Stellenbosch Night Shelter's financial statements set out on pages 7 to 19 comprise:

- the statement of financial position as at 28 February 2022;
 - the statement of comprehensive income for the year then ended;
 - the statement of changes in equity for the year then ended;
 - the statement of cash flow for the year then ended; and
 - the notes to the financial statements, which include a summary of significant accounting policies.
-

Basis for qualified opinion

Donations received are a significant source of income for The Stellenbosch Night Shelter. The management committee has determined that it is impracticable to establish internal controls over the collection of donations received prior to the initial entry into its financial records. We were therefore unable to confirm whether all donations received were recorded. Our opinion on the financial statements for the year ended 28 February 2022 was modified accordingly.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Independence

We are independent of the Organisation in accordance with the Independent Regulatory Board for Auditors' *Code of Professional Conduct for Registered Auditors* (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)*.

Emphasis of Matter – Basis of Accounting and restriction on distribution and use

We draw attention to note 1 to the financial statements, which describes the basis of accounting. The financial statements are prepared in accordance with the Organisation's own accounting policies to satisfy the financial information needs of the Organisation's management committee. As a result, the financial statements may not be suitable for another purpose.

Our report is intended solely for The Stellenbosch Night Shelter and should not be distributed to or used by parties other than The Stellenbosch Night Shelter. Our opinion is not modified in respect of this matter.

Other information

The management committee is responsible for the other information. The other information comprises the information included in the document titled "The Stellenbosch Night Shelter Annual financial statements for the year ended 28 February 2022". The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the *Basis for qualified opinion* section above, we were unable to obtain sufficient appropriate evidence about whether all donations received were recorded. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to this matter.

Responsibilities of the Management Committee for the financial statements

The management committee is responsible for the preparation of the financial statements in accordance with the basis of accounting described in note 1 to the financial statements and for determining that the basis of preparation is acceptable in the circumstances and for such internal control as the management committee determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management committee is responsible for assessing the Organisation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management committee either intends to liquidate the Organisation or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organisation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management committee.
- Conclude on the appropriateness of the management committee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organisation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organisation to cease to continue as a going concern.

We communicate with the management committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

In accordance with our responsibilities in terms of section 44(4) of the Auditing Profession Act, we report that J du Toit, a director of PricewaterhouseCoopers Inc., was responsible for keeping the books, records or accounts of the Organisation.

In addition to being appointed as independent auditor of The Stellenbosch Night Shelter, we are also appointed as accounting officer of The Stellenbosch Night Shelter. We report, as required in terms of section 17(2) of the Nonprofit Organisations Act of South Africa, having performed such procedures and conducting such enquiries in relation to the accounting records as we considered necessary in the circumstances, that

- the financial statements of the Organisation are consistent with its accounting records;
 - the accounting policies of the Organisation are appropriate and have been appropriately applied in the preparation of the financial statements; and
 - no matters relating to non-compliance with the provisions of this Act and of its constitution relating to financial matters have come to our attention.
-

Accounting Policies

1. Presentation of Annual Financial Statements

The principal accounting policies applied in the preparation of the financial statements are set out below. This policy has been consistently applied in all the years presented, unless otherwise stated.

The financial statements have been prepared on a historical cost basis, as adjusted for the revaluation of investments and are presented in Rands. The financial statements have been prepared to meet the mandatory reporting requirements as contained in the "Non-profit Organisations Act".

1.1 Property, plant and equipment

Property, plant and equipment are tangible items that:

- are held for use in the production or supply of goods and services, for rent to others or for administrative purposes; and
- is expected to be used in more than one period.

Costs include costs initially incurred to acquire and build property, plant and equipment and costs subsequently incurred to build, replace or service a part thereof. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the recognition of the carrying amount of the item in question is reversed.

Property, plant and equipment are carried at cost less any accumulated depreciation and any impairment loss.

Depreciation is provided for using the straight-line method to allocate to their cost or revalued amounts over the useful life of the property, plant and equipment, which is as follows:

Item	Average useful life (Years)
Land	Unlimited
Buildings	Unlimited
Furniture and fixtures	6
Office equipment	3 - 6
IT equipment	3
Computer software	2
Operating assets	5 - 15

No depreciation is provided for on buildings, as the committee members are of the opinion that the current residual value exceeds carrying amount of the buildings.

Profit and loss on sales are calculated by comparing the return with the carrying amount and are recognised in surplus or deficit during the period.

Annual financial statements for the year ended 28 February 2022

1.2 Financial instruments

Trade and other receivables

Trade receivables are initially recognised at transaction cost and subsequently at amortised cost using the effective interest method, less the provision for impairment. Appropriate provision for estimated irrecoverable amounts is recognised in surplus or deficit when there is objective evidence that the asset is irrecoverable.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, trust accounts, demand deposits and other highly liquid short-term investments that are readily convertible into a known amount of cash and are subject to insignificant risks in respect of changes in value. It is recorded initially and thereafter at fair value.

Investments at fair value

Investments are shown at fair value. The adjustment to fair value is recognised annually in the fair value reserve. If an investment is sold, a realisation of the fair value adjustments will be recognised in the statement of comprehensive income.

Trade and other payables

Trade payables are initially calculated at fair value and subsequently at amortised cost using the effective interest method.

1.3 Taxation

Income tax

The organisation is registered under section 18A and has income tax exemption, so no tax liabilities are accrued.

1.4 Income recognition

Income

Income consists of overnight fees, donations, management fees and social grants. Donations and overnight fees are recognised as received. Management fees are recognised in terms of the contract with the Stellenbosch Municipality. Social grants are recognised in terms of the TPA agreement with the Department of Social Services of the Western Cape Local Government. Income also includes donations of property, plant and equipment. The latter is accounted for at market value on the date of donation. The donations received that have not yet been used according to the spending conditions are recognised as deferred income.

Annual financial statements for the year ended 28 February 2022

Accounting Policies

1.4 Income recognition (continued)

Other income

(a) Dividend income

Dividends are recognised in surplus and deficit when the organisation's right to receive the payment is established.

(b) Interest income

Interest income is recognised on the time allocation basis using the effective interest method.

Notes to the Annual Financial Statements

11. Going concern and events after reporting date

During March 2020, the World Health Organization (WHO) declared the outbreak of the coronavirus (Covid-19) a pandemic. South Africa was also affected by the disease and accordingly the president declared a national state of restrictions on 23 March 2020. The implemented measures have and might continue to have an adverse impact on many businesses and organisations. Many non-profit organisations experienced a decrease in income whilst there was an increasing need in this sector. In the case of the Stellenbosch Night Shelter, its income increased due to overwhelming support from the community and others. This enabled the organisation to provide much needed relief and accordingly, its expenses also increased. It is not clear to what extent monetary support will continue.

Management believes that the organisation has sufficient reserves, funding and resources available to fund operations for the near future.

Management is not aware of any other matter or circumstance that has arisen since the end of the financial year.

Amendment to the CONSTITUTION OF STELLENBOSCH NIGHT SHELTER

WHEREAS the STELLENBOSCH NIGHT SHELTER currently operates under their constitution dated 26 February 2007;

AND WHEREAS the constitution needs to be amended for compliance with legislative requirements and for changing circumstances;

AND WHEREAS a written notification of the proposed amendment was given to each member of the organisation at least 15 (fifteen) days before the meeting and the details of the proposed amendment were included in the agenda;

AND WHEREAS a two-third majority of members present at the annual general meeting of 6 September 2016 approved the amendments below;

AND WHEREAS the approval by the Director of Fundraising to the amendments cannot be obtained, since no such designation exists;

AND WHEREAS the members have agreed, for practical reasons, to replace the existing constitution with a new constitution;

NOW THEREFORE it is hereby agreed that this constitution will in future constitute the constitution of the STELLENBOSCH NIGHT SHELTER, namely:

**CONSTITUTION
OF
STELLENBOSCH NIGHT SHELTER**

1 **NAME**

The name of the Organisation is THE STELLENBOSCH NIGHT SHELTER, hereafter referred to as "**The Organisation**".

2 **ADDRESS**

Postal address: P.O. Box 766, Stellenbosch 7599

3 **OBJECTIVES**

The main aim of the Organisation is care for people who are in distress: to achieve this goal, the Organisation has the following objectives:

- 3.1 to assist people who are in distress or destitute and in need of assistance;
- 3.2 to establish and conduct, in affiliation with Matie Gemeenskapsdiens ("**MGD**"), operated by the University of Stellenbosch, a night shelter with rehabilitation facilities in Stellenbosch for the purpose of helping and rehabilitating vagrants in need of care and assistance;
- 3.3 to co-operate with all religious denominations, institutions, organisations, welfare bodies and persons who are concerned with and interested in the care and welfare of vagrants;
- 3.4 to raise funds for the erection, staffing, equipping and maintenance of the shelter and for all matters related thereto; and
- 3.5 The provision of funds, assets, services or other resources by way of donation or loan to public benefit organisations which has been approved in terms of section 30 of the Income Tax Act and institutions, boards or bodies contemplated in section 10 (1) (cA) (i) of the Income Tax Act, which conducts one or more public benefit activities.

All activities of the Organisation are carried on in a non-profit manner and with an altruistic or philanthropic intent.

4 AREA OF OPERATION

The area of operation and fundraising will be the same as for MGD and activities carried on by the Organisation is for the benefit of, or is widely accessible to, the general public at large.

5 MEMBERSHIP

The following persons shall be members of the Organisation:

- 5.1 honorary members elected by the Management Committee on the grounds of exceptional services rendered to the Organisation;
- 5.2 representatives of affiliated organisations and institutions, on invitation;
- 5.3 donors who have contributed an amount more than R500, unless the member has not made any additional financial contributions for a period of 5 (five) years;
- 5.4 members of the management and sub-committees;
- 5.5 all persons present at the advertised meeting held on November 1st, 1989;
- 5.6 the community worker of MGD in the Stellenbosch area; and
- 5.7 the representative of the Department of Social Development of the sub-regional office.

6 MEMBERSHIP REGISTER

The secretary of the Management Committee shall keep a register listing every member and it shall be the duty of every member to furnish the Secretary with all data required.

7 MANAGEMENT COMMITTEE

- 7.1 The affairs of the Organisation shall be controlled by a Management Committee, which shall be responsible for the carrying out of the objective of the Organisation in accordance with the regulations of the laws applicable to welfare organisations and for taking care of the affairs of the Organisation in accordance with the stipulations laid down in this Constitution. At a Management Committee, a quorum will be half plus one of the members.

- The members of the Management Committee shall not be connected persons in relation to each other and must accept the fiduciary responsibility of the Organisation.
- 7.2 The Management Committee shall consist of less than nine but not less than five members elected at the Inaugural Meeting of the Organisation. A Management Committee shall have authority to co-opt additional members to serve on its committee subject to such co-options being limited to five additional members.
- 7.3 A Management Committee will be chosen every 2nd year at the Annual General Meeting.
- 7.4 In case of resignations the positions can be filled by nominations by the Management Committee.
- 7.5 At each Annual General Meeting the period of service of the co-opted members shall terminate but they shall be eligible for election for further co-option to the Committee.
- 7.5.1 The Management Committee shall elect annually from its own members, a Chairman, a Vice-Chairman, a Secretary and a Treasurer.
- 7.5.2 A member shall be deemed to have resigned if he fails to attend three consecutive meetings of the Management Committee, except in the following circumstances: (a) The necessary leave has been granted by the Management Committee; or (b) For reasons deemed satisfactory by the Management Committee.
- 7.5.3 If a member becomes incapable of serving or has been declared insolvent or found guilty of an offence in a criminal court, he shall be deemed to have resigned with immediate effect.

7.6 Meetings of the Management Committee:

- 7.6.1 The Management Committee shall meet as far as practically possible once each month and the business of such meetings will be to review the activities of the Organisation and to plan and deal with on-going business and affairs of the Organisation or its various facets and to conduct such business as may be relevant to the objectives of the Organisation.
- 7.6.2 The Chairman, Deputy Chairman, Secretary and Treasurer shall constitute the Executive of the Management Committee and this executive shall meet as often as the Chairman may deem necessary. The Executive shall report on its functions and performance to the Management Committee at its monthly meetings.
- 7.6.3 Every member present at a Management Committee Meeting shall have one vote and in the event of an equal number of votes for or against a motion the Chairman shall have an additional casting vote.
- 7.6.4 Paid officials of the organisation may serve on the management committee in an advisory capacity, but will have no voting rights.
- 7.6.5 No member of the Management Committee may have a direct interest in or benefit from any contract which the management may conclude with any company.
- 7.6.6 No single person may directly or indirectly control the decision making powers relating to the Organisation.

7.7 Powers of the Management Committee:

- 7.7.1 The Management Committee has the following rights and powers:
- 7.7.2 To buy land, property, building and or goods and supplies which are deemed necessary or useful for the objectives of the organisation.
- 7.7.3 To maintain or alter the Shelter and its facilities as deemed necessary or useful for the objectives of the organisation.

- 7.7.4 To invest funds available, exceeding the value of six months running costs, with financial institutions registered with the FSB, the JSE and stock exchanges in the G7 countries after having obtained financial advice from a financial advisor with a minimum qualification of CFP. If the committee is not in agreement a second opinion from a financial advisor with the aforesaid minimum qualification should first be obtained.
- 7.7.5 To carry out any other rightfully permissible tasks, which may assist in the achievement of the objectives, or any one of them, or anything connected with them.
- 7.8 In addition to the Management Committee's general powers it shall be deemed competent in the name of the Organisation to:
- 7.8.1 Appoint officials and employees, to determine their conditions of service and to discharge, suspend or replace them;
- 7.8.2 Enter into or end an agreement;
- 7.8.3 Make or appose lawsuits;
- 7.8.4 Appoint sub-committees for the proper management of the Organisation. Such sub-committees may include persons who are not members of the Management Committee. Such sub-committees shall also be under the supervision and control of the Management Committee to whom they will be responsible. Decisions of the sub-committees must be submitted to the Management Committee at the next meeting for approval.
- 7.9 The members of the Management Committee shall not be liable for any loss or damage caused by, or resulting from any act of commission or omission in the execution of his duty on the part of any official of the Organisation or member of the Committee.
- 7.10 Duties of the Management Committee:
- 7.10.1 The Management Committee shall keep minutes of the meetings of the Management Committee in which the name of members of the Committee who attended such meeting are given;
- 7.10.2 Deposit all the money received by the Organisation into a banking account in the registered name of the Organisation;

- 7.10.3 Keep books of account which reflect accurately the financial transactions of the Organisation, including details of all property acquired or disposed of;
- 7.10.4 Send a copy of the audited accounts annually to MGD during September each year, after the Annual General Meeting, for their information;
- 7.10.5 Ensure that all cheques issued are properly signed by at least two persons authorised for this purpose by the Management Committee. No monies to be drawn without a Committee decision being taken and minuted;
- 7.10.6 Internet payment and/or transfers must be made by a person with signing power and authorised by a second person with signing power;
- 7.10.7 Ensure that no funds are collected by the Organisation for any objective except as set out in Clause 3 above and that no money or properties be used by the Organisation for any purpose other than as set out in Clause 3 above. The Organisation is prohibited from directly or indirectly distributing any of its funds to any person (otherwise than in the course of undertaking public benefit activities) and is required to utilise its funds solely for the object for which it has been established.
- 7.10.8 Ensure that the books of account and the substantiating documents are kept for at least 3 (three) years unless these are required to be kept for a longer period by virtue of Law;
- 7.10.9 Inform MGD of the names and addresses of the members of the Management Committee and of any changes in such Committee; and
- 7.10.10 Should the services of a fundraiser be made use of for the collection of contributions, the expenses (remuneration and/or commission included) may not exceed 40% of the total proceeds of the collection; which fee is not excessive having regard to what is generally considered reasonable in the sector.
- 7.11 In order to effectively exercise their powers and comply with their duties, the Management Committee is to be solely involved in the general and financial management of the Organisation;

8 ASSETS

- 8.1 All property belonging to the Organisation or to which the Organisation is entitled or may become entitled, shall belong to and be registered in the name of the Organisation and the Management Committee shall be competent to receive , acquire and dispose of in the name of the Organisation such assets in the administration of its affairs. The members and Management Committee of the Organisation do not have rights over things that belong to the Organisation.
- 8.2 The income and assets of the Organisation, however obtained or from wherever derived must only be used to promote the objectives of the Organisation as set out in this Constitution and no part whatsoever thereof may directly or indirectly by means of dividend, bonus or in any other form, be paid out to any member or committee member. This excludes employees of the Shelter, who may only receive reasonable compensation in the form of a salary and performance bonus. The Organisation will not pay any remuneration, as defined in the Fourth Schedule of the Income Tax Act, to any employee, office bearer, member or other person which is excessive, having regard to what is generally considered reasonable in the sector and in relation to the service rendered and will not economically benefit any person in a manner which is not consistent with its objects.

9 OTHER STIPULATIONS

- 9.1 All donations to the Organisation shall be irrevocable and subject to the stipulations of this constitution. The Organisation is prohibited from accepting any donation which is revocable at the instance of the donor for reasons other than a material failure to conform to the designated purposes and conditions of such donation, including any misrepresentation with regard to the tax deductibility thereof in terms of section 18A of the Income Tax Act: Provided that a donor (other than a donor which is an approved public benefit organisation or an institution board or body which is exempt from tax in terms of section 10 (1) (cA) (i) of the Income Tax Act, which has as its sole or principal object the carrying on of any public benefit activity) may not impose conditions which could enable such donor or any connected person in relation to such donor to derive some direct or indirect benefit from the application of such donation.

- 9.2 The Organisation may not conduct business activities (Business activities include, inter alia, ordinary commercial activities, speculative transactions in property of any kind and the systematic hiring out of immoveable property).
- 9.3 The Organisation will within 12 months after the end of the relevant year of assessment distribute or incur the obligation to distribute at least 50 per cent of all funds received by way of donation during that year in respect of which receipts in terms of Section 18A of the Income Tax Act were issued. If, however, funds are accumulated for a specific capital project, approval must be obtained from the Receiver of Revenue (to whom the Organisation submits its annual income tax return);
- 9.4 Loans may only be granted to beneficiaries and not to any other person.
- 9.5 Buildings belonging to the Organisation may not be occupied gratis by any person other than the beneficiaries themselves;
- 9.6 No donor, member of the Organisation or their next of kin may receive any advantage out of the funds or income of the Organisation and no activity of the Organisation is intended to directly or indirectly promote the economic self-interest of any fiduciary or employee of the Organisation, otherwise than by way of reasonable remuneration payable to that fiduciary or employee.
- 9.7 The Organisation will take reasonable steps to ensure that funds provided to other associations carrying on public benefit activities are utilised for the purpose for which it has been provided.
- 9.8 The Organisation will not use its resources directly or indirectly to support, advance or oppose any political party.
- 9.9 The Organisation will insure that all donations received in respect of which receipts were issued in terms of Section 18A of the Income Tax Act, will be utilised solely in carrying on activities contemplated in Part II of the Ninth Schedule of the Income Tax Act.

- 9.10 The Organisation shall, in respect of any amount referred to in clause 9.3 that is not distributed, distribute or incur the obligation to distribute all amounts received in respect of investment assets held by it, other than amounts received in respect of disposals of those investment assets to any public benefit organisation, institution, board or body contemplated in subsection (1)(a) of Section 18A of the Income Tax Act, no later than six months after every five years from 1 March 2015.
- 9.11 The Organisation will insure that funds, in respect of which receipts were issued in terms of Section 18A of the Income Tax Act, provided to public benefit organisations, institutions, boards or bodies that carry on public benefit activities contemplated in Part II of the Ninth Schedule of the Income Tax Act and to other entities, will be utilised solely in carrying on activities contemplated in Part II of the Ninth Schedule of the Income Tax Act.
- 9.12 The Organisation will obtain and retain an audit certificate confirming that all donations received or accrued in that year in respect of which receipts were issued in terms of Section 18A of the Income Tax Act, were utilised in the manner contemplated in the said act.
- 9.13 The financial year of the Organisation ends on February 28 of each year.

10 ANNUAL GENERAL MEETING

- 10.1 The Management Committee shall call a general meeting of the members of the Organisation as soon as possible after the closing of each financial year and not later than September 30th in that calendar year
- 10.2 All members are entitled to attend the Annual General Meeting and to take part in the discussions.
- 10.3 All members must receive notice of the Annual General Meeting at least 15 (fifteen) days before it is due to be held. Such notice must indicate the business to be dealt with at the meeting, which business must include:
- 10.3.1 The presentation of the Annual Report and Audited Final Accounts for approval by the meeting.
- 10.3.2 The election of the Management Committee every 2nd year

- 10.3.3 The appointment of Auditors as prescribed by the Act;
- 10.3.4 Any other business of which notice has already been given;
- 10.4 Each member shall be deemed to have received the notice of meeting if such notice has been mailed to the address of the member which appears in the register.
- 10.5 Members of the Organisation shall be eligible for election to the Management Committee provided that written nominations with formal support shall be furnished to the Secretary of the Management Committee 7 (seven) business days (this excludes weekends and public holidays) prior to the general meeting.
- 10.6 Management Committee members shall be eligible for re-election to the Management Committee provided that nominations are furnished in compliance with point 10.5.
- 10.7 The quorum for an Annual General Meeting shall be 15 (fifteen) members.
- 10.8 In case of there not being a quorum at an Annual General Meeting, Special Meeting or Management Committee Meeting, the meeting shall be adjourned for 7 (seven) days and all members attending such postponed meeting shall constitute a quorum.
- 10.9 In the absence of the Chairman the meeting is chaired by the Vice-Chairman. When both of these office bearers are absent the meeting shall choose a Chairman from amongst the members present.
- 10.10 Everyone entitled to a vote shall have one vote and in the event of an equal number of votes for or against the motion the Chairman has an additional deciding vote.
- 10.11 Any member of the Management Committee has a right to submit a proposal to the meeting provided that the member concerned submits the written proposal to the Secretary 14 (fourteen) days before the meeting in question. The content of the proposal is then included in the notice which is sent to members.

- 10.12 The Management Committee shall have authority in its discretion to convene a Special General Meeting of members at any time and at such time as it may become necessary for the transaction and handling of special business of the Organisation.
- 10.13 A Special General Meeting must be convened by the Secretary if a written request for same be submitted to the Secretary, signed by 25 or more members which sets out clearly the reasons for calling such a meeting and specific business to be discussed at such meetings.
- 10.14 The meeting must be held between 3 and 6 weeks after the receipt by the Secretary of such request and notices are to be sent to members accordingly at least 15 (fifteen) days before the date of the meeting advising the agenda, date, place and time at which such Special General Meeting will be held.
- 10.15 The only business, which may be discussed at such Special General Meeting, is that as set out in the notice of the meeting. The conditions governing the quorum are to be the same as for an Annual General Meeting.

11 **LEGAL STATUS**

The organisation shall exist in its own right, separately from its members and continue to exist even when its membership changes and there are different office bearers. The Organisation shall sue or be sued in its own name. The authority of instituting or defending legal proceedings shall be underwritten Power of Attorney of the Chairman or Vice-Chairman and the Secretary or Treasurer, who shall be authorised thereto by a resolution of the Management Committee.

12 **AMENDMENT OF THE CONSTITUTION**

This constitution may only be amended by a two-third majority of members present at any general meeting, provided that written notification of such proposed revocation, amendment or addition is given, to each member of the Organisation at least 15 (fifteen) days before such meeting and provided that the details of such proposed amendment are included in the agenda of such a meeting. A copy of any amendment must be submitted to the Commissioner for the South African Revenue Service, as well as the Director of Nonprofit Organisations.

13 DISSOLUTION OF THE ORGANISATION

- 13.1 The Organisation can be dissolved if at least two-thirds of the members present at a General Meeting, which has been called for this purpose vote in favour of dissolution. As least 21 (twenty-one) days notice must be given of such a meeting and the notice must clearly state that the question of dissolution of the Organisation and the disposal of its assets will be considered.
- 13.2 If there is no quorum present at such a general meeting, the meeting shall be adjourned for at least a week and the members attending such an adjourned meeting shall constitute a quorum, subject to there being at least 5 (five) members present at such an adjourned meeting.
- 13.3 If upon dissolution of the organisation there remain any assets whatsoever after the satisfaction of all its debts and liabilities, such assets shall not be paid or distributed among its members, but shall be transferred to the University of Stellenbosch Matie Gemeenskapsdiens provided that they are registered as an NPO. Should the University of Stellenbosch Matie Gemeenskapsdiens not qualify to receive such assets in terms of the law, then the remaining assets shall be transferred to another non-profit organisation which has been approved in terms of section 30 of the Income Tax Act or any institution, board or body which is exempt from tax under the provisions of section 10 (1) (cA) (i) of the Income Tax Act, that has similar objectives; or the government of the Republic in the national, provincial or local sphere, contemplated in section 10 (1) (a) of the Income Tax Act, which is required to use those assets solely for purposes of carrying on one or more public benefit activities. The Organisation's general meeting can decide what organisation this should be.

Dear They

Comments: Draft 1st Review of the 5th Generation IDP 2022 – 2027: Item 127 e'Bosch

We wish to rectify your objections in our original proposal as follows:

1 Your comment: "FEEDBACK REPORT DOES NOT CONTAIN POP"

On attachment, please find an amended feedback report with narrative, photos and POPs totaling R41,043.49 as supplied by our auditors Moore Stellenbosch:

2 Your comment: "GENERAL APPLICATION WITHOUT OVERALL BUDGET. SOME BUDGETS FOR 2021? BUDGETS FOR 23/24 PROPOSAL INCLUDE COSTING RANGEING FROM 2019-2023"

On attachment, please find adjusted budget now changed from "OVERALL BUDGET" to include only quotes for one event only namely the e'Bosch Mayor's Honorary Awards Function 2023 totalling R40 094.

I trust you find this sufficient for the e'Bosch Heritage Project to qualify for the R40,000 allocation this year.

Thanks and regards.

Anthony Penderis

Dear They

Feedback report e'Bosch Grant-in-Aid R40 000 2022 llocation

On behalf of the e'Bosch Heritage Project I can confirm that the funds were spent on the Mayor's Honorary Awards Function and the School Choir Festival.

Please find the POPs below for the total amounts spent.

Mayor's Function

5/10/2022 African Sun Media	R522.63
28/10/2022 JK Murray/Silver Solutions	R1,245.87
29/09/2022 SWH Trading	R9,137.49
20/09/2022 SWH Trading	R9,137.50

School Choir Festival

23/10/2022 Stage Pro	R10,500.00
22/09/2023 Stage Pro	R10,500.00

Total	R41,043.49
--------------	-------------------

The narratives for each event are as follows with photos below.

Mayor's Honorary Awards Function 2022

The annual Mayor's Heritage Awards function took place at the US Museum in Ryneveld Street on Wednesday 28 September 2022. Speakers included Dr Sias Mostert, chairperson of the e'Bosch Board of Directors, the Deputy Mayor of Stellenbosch Municipality, Cllr. Jeremy Fasser and the Rector, and Vice-Chancellor of Stellenbosch University, Prof Wim de Villiers.

Eight community members active in the cultural field were awarded e'Bosch Awards for their contribution to culture and heritage. Altogether nine candidates that had completed the leadership course presented by e'Bosch in cooperation with Stellenbosch University's Matie Community Service, also received their certificates.

The e'Bosch Schools Choir Festival 2022

This festival renowned as the largest school choir gathering in the Stellenbosch and Franschhoek area was held as two events on 22 and 23 September 2022. The e'Bosch High Schools Choir Festival on Thursday, September 22, at 7 pm at Stellenbosch High School followed by the e'Bosch Primary Schools Choir Festival on Friday, September 23, at 6 pm at the Coetzenburg Sports Centre.

The six high schools with 260 learners participating were Cloetesville High School, Lückhoff High School, Stellenzicht High School, Makupula High School, Paul Roos Gimnasium, and Stellenbosch High.

The 18 primary schools with 540 learners participating were Cloetesville Primary, Eikestad Laerskool, St. Ida's Rk Primêre Skool, Bruckner De Villiers Primary School, Laerskool Rietenbosch, Pieter Langeveldt Primêr, Ikaya Primary School, Laerskool Af Louw, J.J. Rhode Primêre Skool, Klapmuts Primary School, Dalubuhle Primary School, Joostenberg SSKV Primary School, St. Vincent Rc Primary School, Simondium Primary School, Devon Valley Primary School, Raithby Primary School, Weber Gedenk NGK Primary School, and Dorothea Primary School.

The 18 primary schools grouped into three geographical clusters for songs of their respective groups. The Stellenbosch University Brass Ensemble, under the direction of Pamela Kierman, performed at the High School event and accompanied the mass choir.

A total of some 2000 spectators attended these two events.

We thank you for your contribution

Regards.

Dear They

Budget e'Bosch Mayor's Honorary Awards Function 2023

The annual e'Bosch Mayor's Honorary Awards Function to be staged for the 12th consecutive year will take place on 7 September 2023. The function with the Stellenbosch Mayor and University Stellenbosch Rector as guests of honour will be held at the Stellenbosch Museum. The occasion not only marks the opening of the 2023 season of e'Bosch Projects but also serves as an occasion for the e'Bosch Honorary Awards to individuals and organizations who have made an outstanding contribution to their communities and handing over of certificates to those who have passed the e'Bosch Community Development Leadership Course.

The entire R40 000 allocation of the Grand-in-Aid will be spend on this occasion as below. See quotes of individual contractors included.

Catering 100 attendees SWH Trading	R23 644

Point 4	FOOD GARDENS ENABLING FACTORS - LAND
Point 5	FOOD GARDENS ENABLING FACTORS - WATER
Point 6	FOOD GARDENS ENABLING FACTORS - PARTNERS
Point 7	CONCLUSION

1. INTRODUCTION

The South African Institute of Entrepreneurship (SAIE) has pleasure in submitting its response regarding '**Comments on the Municipality's Draft Budget: Grant-in-Aid Donations**' for the establishment of Backyard and Community Food Security Gardens as stipulated in the original proposal.

The response fulfils the requirements for the establishment of Sustainable Food Gardens in the Stellenbosch Municipality in 2023 - 2024 as regards:

- Ward Priorities
- Beneficiaries
- Access to land
- Access to Water
- Local Partnership Establishment

2. WARD PRIORITIES AND FOOD GARDENS PROJECT

The following Ward Priorities list was extracted from the Stellenbosch Municipality website to guide the process of identifying Wards which have Food Security or Skills Development as a priority. A total of four (4) Wards have indicated Food Gardens as a priority. On the other hand, a total of ten (10) Wards which have stated Skills Development or Job Creation as a priority could still participate in the Food Gardens project depending on the interest of the Councillors and their Community members.

The specific Ward Priorities are as per below:

Ward	Ward Priority	Priority Number	Description	Councillor
12	Food Security	3	Request sustainable food garden	Ayanda Tomose
13	Food Security	3	Request sustainable food garden	Mary Nkopane
16	Local Economic Dev't	3	Backyard garden - self sustaining	Elsabe Vermeulen
5	Local Economic Dev't	1	Land for community garden	Roy van Rooyen
3	Local Economic Dev't	4	Business Hub	Charles Manuel
4	Local Economic Dev't	4	More Job Creation	Ralphton Adams
10	Youth Dev't	3	Learnerships youth skills	Rozette DuToit
17	Local Economic Dev't	5	Job opportunities/ skills for youth	Peter Johnson
18	Local Economic Dev't	3	Job Creation	JC Anthony

19	Local Economic Dev't	1	Learnership/ internships and skills development	James Williams
21	Local Economic Dev't	5	Business Development centre	Rikus Badenhorst
23	Planning and Eco Dev	4	Prioritise job opportunities	Lwando Nkamisa
6	Local Economic Dev't	3	Tourism/ skills development	Nateshia Mcombring
1	Local Economic Dev't	5	Control restaurants / Data Capture	Reginald Pheiffer
2	Other	0	Other	Wilhelmina Petersen
7	Other	0	Other	Annamarie Ferns
8	Other	0	Other	Carli van Wyk
9	Other	0	Other	Zelda Dalling
11	Other	0	Other	Johanna Serdyn
14	Other	0	Other	Maxwell Danana
15	Other	0	Other	Elliot Pakamisa
20	Other	0	Other	Joseph Joon
22	Other	0	Other	Ester Groenewald

Meetings have been held with Councillors of Wards 5, 12, 13, and 16 who have Food Security gardens as one of their priorities to discuss project enabling factors, including the identification and selection of project beneficiaries, as well as land and water availability.

This was followed by a community walk-about to determine household spaces, community open spaces, water sources and availability, as well as potential partners such as schools and others to aid project implementation.

There is also great interest from Councillors of Wards 14, 15, 17 and 18 to participate in the Food Gardens Project. The South African Institute for Entrepreneurship has met the Councillors and visited their Wards. Although these Wards have Skills Development or Job Creation (not Food Security) as a priority, they could still benefit a great deal from the project in question given the state of poverty and unemployment in their communities.

Outcome

There is a huge buy-in from all Councillors concerned, as well as their Ward Committees to play a vital role in the recruitment of interested project beneficiaries.

3. FOOD GARDENS ENABLING FACTORS – PROJECT BENEFICIARIES

Ward Councillors have confirmed community interest in the Food Gardens project. In fact, visits to the communities showed glimpses of flower gardens people have started. On further probing, potential beneficiaries indicated they would like to start a food garden but do not have the know-how. Ward Councillors have given an undertaking to work with The South African Institute for Entrepreneurship to recruit project beneficiaries through their Ward Committees.

SAIE will provide the recruitment guidelines based on the following:

- Interest and willingness to participate in home gardens to produce own food
- Household space for either front yard or backyard gardens
- Willingness to utilise secured open space with access to water

3.1 Project Beneficiaries per Ward

Furthermore, Ward Councillors have supplied SAIE with the potential number of beneficiaries per Ward to participate in the Food Gardens project as per the following:

Ward	Ward Priority Description	Number of Beneficiaries	Councillor
5	Land for community garden	150	Roy van Rooyen
12	Sustainable food garden	300	Ayanda Tomose
13	Sustainable food garden	100	Mary Nkopane
14	Other	30	Maxwell Danana
15	Other	30	Elliot Pakamisa
16	Backyard garden - self sustaining	50	Elsabe.Vermeulen
17	Job opportunities/ skills for youth	10	Peter Johnson
18	Job Creation	50	JC Anthony
Total Beneficiaries		720	

3.2 Baseline Information

SAIE will conduct baseline assessment of all project beneficiaries for project evaluation and analysis purposes.

4. FOOD GARDENS ENABLING FACTORS - ACCESS TO LAND OR SPACE

Meetings and Community Walk-about with Councillors, as well as Ward Committees in some instances, have helped to clarify issues such as **households' available space** and **water utilisation** for home food gardens production.

In fact, there is unanimous agreement that there is space for food gardens in most of the identified communities – Cloeteville (Ward 16), Idas Valley (Ward 5), part of Kayamandi (Wards 13, 14, and 15), and Klapmuts. **About 75% of project household beneficiaries will be establishing their food gardens at home.** Most households can utilise either their front or back house spaces (paved, cemented or not) to establish food gardens. Different planting methods will be employed to accommodate varied situations.

In the case of about 25% interested beneficiaries with no space to grow crops, especially informal dwellers in Kayamandi (Ward 12), **available secured open spaces in schools or otherwise** have been discussed with Ward Councillors and partners such as schools to enable their production. We noted from our visits that most of the available open spaces are not far from water points which could be utilised for production. Councillors have agreed to facilitate the process of utilising such spaces.

The following is the summary of the **household** and **open spaces** to be utilised for the Food Gardens project as agreed to by the respective Ward Councillors:

Wards	Total Beneficiaries	Total Beneficiaries for House or home Spaces	Total Beneficiaries for Open Spaces	Open Spaces Description
5 Idas Valley	150	110	40	Three open spaces in Idas Valley (Ward 5) with access to water to be utilised for food production to benefit 20 households. Utilisation of the space will also help to curb illegal dumping. Beneficiaries will be utilising water from their respective homes adjacent to the open space.
12 Kayamandi	300	200	100	Two schools in Kayamandi (Kayamandi High and Kayamandi Primary) with open spaces and water access to be utilised for food garden production. There is also an open space which is currently

				partly used by youth, but requires attention to accommodate more beneficiaries.
13 Kayamandi	100	80	20	One school ground with access to water
14 Kayamandi	50	50	Not required	Not Applicable
15 Kayamandi	30	30	Not required	One school ground with access to water
16 Cloetesville	30	30	Not required	Not Applicable
17 Cloetesville	10	None	10	Two school grounds with access to water
18 Klapmuts	50	50	Not required	Not Applicable
Total Beneficiaries	720	540	180	

5. FOOD GARDENS ENABLING FACTORS – ACCESS TO WATER

About 75% of beneficiaries in Idas Valley, Cloetesville, part of Kayamandi, and Klapmuts (**see above table**) who will establish food gardens at home will have access to water from their households.

They will, however, be encouraged to use grey water (used water which often gets thrown away as waste) instead of tap water to irrigate their crops, thereby avoiding or minimising additional water cost.

The remaining 25% of beneficiaries who will establish food gardens in open spaces such as schools will have access to water facilities for their gardens. All the schools visited have available water for food gardens. At Kayamandi High for example, water facility already exists. According to the Ward Councillor, the Principal is even prepared to give more space for food production provided there are willing growers.

6. FOOD GARDENS ENABLING FACTORS – PROJECT PARTNERS

The South African Institute for Entrepreneurship seeks to implement the Food Garden project in collaboration with the following critical partners:

- Ward Councillors – have so far been supportive and have agreed to assist SAIE with the beneficiaries list, training venues, and other project needs.
- Ward Committees – have agreed to assist with the recruitment of household beneficiaries
- Schools – are prepared to avail the opens spaces within their premises to communities for food production

7. CONCLUSION

The South African Institute for Entrepreneurship's response to '**Comments on Stellenbosch Municipality Draft Budget: Grant-in-Aid**' has provided solutions to enable the establishment of Sustainable Food Gardens as one of the immediate **Priority Needs** of eight (8) Stellenbosch Municipality Wards.

The above confirms that all the enabling factors required to implement sustainable home food gardens successfully exist for the following reasons:

- The project is aligned with the Ward Priorities of the eight (8) Wards selected.
- There is great interest from the potential beneficiaries to grow their own food
- About 75% of project beneficiaries will establish their food gardens at home and has access to space or land for production.
- About 25% of project beneficiaries, mostly from informal settlements with no space, will have access to secured open spaces such as schools to establish their food gardens. Community schools are prepared to avail space for food production.
- The households and secured open spaces have water points which will be utilised for production.
- Reliable community partners such as Ward Councillors, Ward Committees, Schools, and others have given their commitment and support to ensure the success of the project.

 PO Box 17
 Stellenbosch 7599

Draft 1st Review of the 5th Generation IDP 2022 – 2027 or Draft Budget 2023/24 – 2025/26”.

Dear Municipal Manager,

We hope this letter finds you well.

On behalf of Froggies we would like to express our sincerest gratitude for your previous support and generosity towards our aftercare

With your previous grant, we were able to partly fund a much-needed sports program. However, there is still much work to be done, and we are writing to appeal for your continued support. We at Froggies Aftercare would like to express our gratitude for the opportunity to appeal the decision on our unsuccessful application for the Grant in Aid that we recently applied for.

We are appreciative of the feedback that you provided us and have taken note of the areas where we needed to improve and made the necessary changes to ensure that our applications is completed with all the supporting documents.

Please see the following document attached as requested.

1. Froggies aftercare Audited Financial Statements for 2022
2. Full account of expenditures - period September 2022 to April 2023
3. Narrative Feedback Report
4. All invoices and proof of payments

Once again, we express our sincere appreciation for your past support and generosity. We earnestly hope that you will consider our appeal for a grant and join us in our mission to provide opportunities for children to engage in physical activity, develop social skills, improve self-esteem, and enhance academic performance. By doing so, we can help them thrive and reach their full potential.

Kindest Regards,
Izette Carinus

Directors' Responsibilities and Approval

The directors are required by the Companies Act 71 of 2008, to maintain adequate accounting records and are responsible for the content and integrity of the financial statements and related financial information included in this report. It is their responsibility to ensure that the financial statements fairly present the state of affairs of the company as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with the International Financial Reporting Standard for Small and Medium-sized Entities. The external auditors are engaged to express an independent opinion on the financial statements.

The financial statements are prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the directors sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the company's cash flow forecast for the year to 31 December 2023 and, in the light of this review and the current financial position, they are satisfied that the company has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently auditing and reporting on the company's financial statements. The financial statements have been examined by the company's external auditors and their report is presented on page 5.

The financial statements set out on pages 7 to 14, which have been prepared on the going concern basis, were approved by the directors on 24 April 2023 and signed.

Directors' Report

The directors have pleasure in submitting their report on the financial statements of Froggies Aftercare NPC for the year ended 31 December 2022.

1. Nature of business

Froggies Aftercare Non Profit Company was incorporated in South Africa with interests in the non-profit industry. The company operates in South Africa.

There have been no material changes to the nature of the company's business from the prior year.

2. Directors

The directors in office at the date of this report are as follows:

Directors

S Carinus

C Liebenberg

L Macfarlane

There have been no changes to the directorate for the period under review.

3. Events after the reporting period

The directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

4. Going concern

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

5. Auditors

NSI Audit Stellenbosch Incorporated was appointed to perform a voluntary audit.

6. Secretary

The company had no secretary for the year under review.

Independent Auditor's Report

To the directors of Froggies Aftercare NPC

Qualified opinion

We have audited the financial statements of Froggies Aftercare NPC (the company) set out on pages 7 to 14, which comprise the statement of financial position as at 31 December 2022, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effect of the matter described in the basis for qualified opinion section of our report, the financial statements present fairly, in all material respects, the financial position of Froggies Aftercare NPC as at 31 December 2022, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008.

Basis for qualified opinion

As in the case of similar organisations, it is not possible for the organisation to introduce accounting controls over cash collections from donations, fundraising and grants prior to the initial entry of the collections in the accounting records. Accordingly, it was not practical for us to expand our audit procedures further than the actual recorded receipts. Consequently we could not express a opinion on the completeness of income.

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Froggies Aftercare NPC financial statements for the year ended 31 December 2022", which includes the Directors' Report as required by the Companies Act 71 of 2008 and the Detailed Income Statement, which we obtained prior to the date of this report. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

Responsibilities of the directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Accounting Policies

1. Basis of preparation and summary of significant accounting policies

The financial statements have been prepared on a going concern basis in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities, and the Companies Act 71 of 2008. The financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

1.1 Financial instruments

Initial measurement

Financial instruments are initially measured at the transaction price (including transaction costs except in the initial measurement of financial assets and liabilities that are measured at fair value through profit or loss) unless the arrangement constitutes, in effect, a financing transaction in which case it is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial instruments at amortised cost

These include loans, trade receivables and trade payables. Those debt instruments which meet the criteria in section 11.8(b) of the standard, are subsequently measured at amortised cost using the effective interest method. Debt instruments which are classified as current assets or current liabilities are measured at the undiscounted amount of the cash expected to be received or paid, unless the arrangement effectively constitutes a financing transaction.

At each reporting date, the carrying amounts of assets held in this category are reviewed to determine whether there is any objective evidence of impairment. If there is objective evidence, the recoverable amount is estimated and compared with the carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

Financial instruments at cost

Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured reliably without undue cost or effort are measured at cost less impairment.

1.2 Tax

Tax expenses

The organisation is registered as a non-profit organisation in terms of section 10(1)(nC) of the Income Tax Act Nr 58 of 1962 as amended. No taxation is therefor calculated or provided for.

1.3 Revenue

Revenue is recognised to the extent that donations, fundraising, grants and in kind income are received by the organisation..

NARRATIVE REPORT ON SPORT AND RECREATIONAL BUDGET PROPOSAL

We applied for funds at the 2022/2023 Grant in Aid Funding for sports, recreation as well as life skills programmes to offer sustainable solutions and long-term opportunities for our rural youth.

Currently we're working with 65 children (Grade 0, 1, 2, 3 and 4), Monday to Friday from 14h00-17h00 at our aftercare at Devon Valley Primary School.

With the funding received, we were able to start with our sports and recreational program by implementing the following:

1.1 Outcome reached so far

Sport Coaching – Facilitator / Justin Williams

To train a local member of the community to be our main sport facilitator and provide him with access to skills development programmes. With limited opportunities due to poverty, lack of infra-structure, local programmes and transport it remains a challenge for our facilitators and youth to reach their full potential.

His role is to host daily sport sessions in age-appropriate groups (5 x groups, 1 x hour each). The sessions consist of rugby, soccer, athletics, cycling, gymnastics, soft ball cricket soon with our new balls purchased from Kloppers Sport.

The program also emphasizes the importance of creating an inclusive and welcoming environment for all children, regardless of their backgrounds or skill levels. Our coach are trained to identify and address any barriers that may prevent children from fully participating in sports activities and to promote social and emotional learning through sports.

Fun and sport days hosted and organized by the facilitators and volunteers

1. Family Fun Sports Day – Parents and children took part as a team in different games to promote teamwork, ensure better communication, respect for each other and a better sense of togetherness.
2. Educational Fun Walk – Fun walk in Devon Valley hosted by Bottelary Conservancy to educate the children about our beautiful valley and we need to conserve it.
3. Rainbow / Spring Picnic – To learn and improve on social skills by playing and taking part in different games. This was also our opportunity to celebrate our 1 year anniversary.

4. Water Fun Day – We received sponsorship of swimming costumes for all the children at the aftercare. We had a fun filled afternoon with a waterslide and talked about the basics of water safety.
5. Mother's Day High Tea – The aim was to treat our mothers, grandmothers or primary caregivers with a beautiful morning filled with performances by our children, listening to a positive, uplifting message by a guest speaker while enjoying tea and snacks.

Sports field

The lawnmower was broken since long before we became involved in Sept 2021. The school is a no-fee school, so they kept saying they don't have money to repair the machine. The grass on the playing field and all around the school was so tall that it was impossible for kids to play there - never mind do sports like soccer, rugby/ cricket. From time to time, they would look for a farmer close by with tractor availability, who would good-heartedly cut the grass "shorter" with a farming implement - but still not to a short-enough length to really facilitate sport and training on the grass. Now the machine is repaired, and the janitor can always ensure that the sports field is manicured and ready for sports training.

Learn to Cycle - Cycle2Ride

C2R (www.cycle2ride.co.za) has a comprehensive program to assist schools in the development of cycling, ranging from coaching qualifications, skills track development to toddler development program.

The cycling program at Froggies not only helps children stay active and healthy, but it also gives them an opportunity to learn valuable life skills. Through cycling, they can develop a sense of responsibility, discipline, and teamwork, while reducing the likelihood of engaging in risky behaviors. Additionally, the program encourages participants to set and achieve goals, which can help build confidence and self-esteem.

The program also strengthens community bonds and brings together people from different backgrounds. It's a positive initiative that improves the lives of young people in the area.

Hip Hop Classes - Six Step Studio (https://www.instagram.com/six_step_studio/?hl=en)

Hip hop and dance classes can be an exciting and empowering way for children to express themselves, improve their physical fitness, and gain valuable life skills. However, not all children have equal access to these opportunities. This is where Six Step Studio (35 Erasmus Smit St, Idas Valley, Stellenbosch) dance classes for our Froggies learners comes in.

The classes are designed to be inclusive and accessible to children of all skill levels. Participants learn a variety of hip hop and dance styles. They also receive instruction on dance terminology, choreography, and musicality.

One of the great things about this program is that it is not just a one-time event. Our learners are encouraged to take part on a weekly base, and continue their dance education, building on the skills they have learned and developing a deeper appreciation for the art form. Hopefully at the end of the year we can have a talent show, giving our learners an opportunity to share their talents with the community.

Marissa Claasen – Educational session (My body and pets)

Education is a crucial aspect of any child's development, especially for children at Froggies aftercare. Teaching children about important topics such as their bodies and pets can be an effective way to empower them with knowledge and help them make informed decisions.

Teaching children about their bodies is essential for their physical and emotional well-being. Children need to understand the basics of anatomy, hygiene, and personal safety to ensure they stay healthy and safe. They also need to learn about boundaries, consent, and respect to develop healthy relationships and protect themselves from harm.

1.2 Evaluation of the project

We take great pride in the success of our programs thus far. Our children have provided us with positive feedback, expressing their love for the time allocated each day to engage in sports. This has become a favorite part of their time at Froggies aftercare.

Moreover, we have observed a significant increase in parent attendance from the first sports and social day we hosted to the most recent one. The parents and the community have expressed their appreciation for what we are doing, and they have been actively motivating their children to attend our aftercare regularly, which has presented a challenge.

As we strive to improve our programs, we are also aware of the need to accommodate older children. We are looking into sustainable ways to do so, despite the limited funds, time, and resources at our disposal.

Please see feedback below from our parents on our Parent- WhatsApp group

Dankie Froggies 🐸 vir n lieflike
oggend 🙌 ons as ouers waardeer dit
baie ❤️🌹❤️

13:12

+27 79 788 4362 ~.

Thank You
AND GOD
BLESS YOU

13:38

+27 71 871 7849 ~God First

Ouers ek wil weereens vir een
en elk baie dankie se namens
froggies personeel en bestuur
span 🙌 die event was suksesvol
omdat ons so wonderlike ouers
het wat ons ondersteun en in ons
glo 🙌 well done to you guys
to 🙌🙌🙌

18:19

Ek sal photos aantier so ek dit kry
mooi en n geseende aand verder

18:20

+27 79 788 4362 ~.

Bje dankie ❤️ aan Jle ook 🙌
mag God Jle veder seen vir Jle goeie
werk 🙌🙌

4. CONCLUSION

At Froggies we believe that a good sporting and social program at our aftercare can have a significant impact on the children`s overall well-being and development. By providing our children with opportunities to engage in physical activity, develop social skills, improve self-esteem, and also enhance academic performance, we can help them to thrive and reach their full potential.

Our sports and recreation structured program have showed us it has the potential to develop pride and dignity as well as sense of place amongst the Devon Valley community and provide a space in which our children can learn, develop, and grow.

IMPORTANT NOTES:

Immediate payments to non-Capitec banking clients and regular payments made to Capitec clients will reflect in the beneficiaries account immediately.

Regular payments made to non-Capitec banking clients BEFORE 02:00 PM Monday to Friday, or BEFORE 09:00 AM on a Saturday should reflect in the beneficiary account the following business(work) day.

This is a notification that we received instruction to effect a payment and not a representation of any kind or guarantee that the amount has in fact been transferred or shall be available in the account. The processing of the payment may be delayed, which may impact on the timing of the availability of the funds.

21 April 2023

SUBJECT: List of Executive members for GRANT IN AID 2023/24 APPLICATION

Dear Sir/Madam

We trust your doing good.

Please find a completed list of all of our current executive members. All positions that is vacant will be filled at the following Elective Annual General Congress of the club.

1. Chairman : Peter Smith
2. Vice Chairman & Treasurer : Richard Poole
3. Secretary : Vacant (Mr Quinton Linders passed on in December 2022)
4. Vice Secretary & Assistant coach : Waldo Christians
5. Vice Treasurer : Nolan Williams
6. Junior Convenor : Yazied Williams
7. Women's Convenor : Ilze Jones
8. Referees Convenor : Abraham September
9. Head coach : Jacobus Deyssel
10. Functions Convenor : Fabian Brandt
11. Phisio : Isak Abrahams
12. Assistant Junior convenor : Ivan Christians

As per our constitution we have 13 positions for executive members, but some of our current members has multiple roles in the club.

Yours in Football Development & Transformation

KIND REGARDS

Waldo Christians - Assistant Secretary

Subject: [EX] Draft Budget 2023/24 – 2025/26
Attachments: SCAN Financial report_FY22_Corrected.pdf; SCAN Financial report_FY22_error.pdf

To Whom It May Concern

I would like to appeal and request a review of the Grant in Aid funding recommendation for the Stellenbosch Civil Advocacy Network.

As per Appendix 1 MTREF 2023 - 2024, page 106, Social Development, Nr 6, Grant in Aid funding was NOT RECOMMENDED to SCAN reason given " AFS for incorrect reporting period".

I can confirm that it was a typing error on that one line which read "SCAN FINANCIAL SUMMARY - 1 Apr 2020 - 31 Mar 2021. I've encircled the error on the attached document with the word "error" in the file name. However the financial information was for the correct period as indicated on the top heading of the report which was correct.

I also attach the Corrected Financial Summary with the corrected date but same financial information for the period.

I trust that you will find this in order.

Warm regards

SCAN Management Committee

Marli Goussard (Chair) | Portia Jansen (Secretary) | Daniel Thomae (Treasurer) | Hanli Brink | Lynette Rademeyer-Bosman | Mawethu Nyakatya | Paul Roviss Khambule | Rirhandzu Marivate

R14 839,22			R154 045,11		
31-Mar-22			31-Mar-22		
R2 432,69			R153 557,06		
TRANSACTION HISTORY					
01 Apr 2021 - 31 Mar 2022	Bank Charges	R (1 702,15)	01 Apr 2021 - 31 Mar 2022	Interest	R 6 511,95
	Social Enterprise Academy	R (15 000,00)			
	Website	R (31 100,00)			
	SCAN OPERATING EXPENSES (Including AGM)	R (21 865,26)		Transfer to Bizz account for AGM	R (7 000,00)
Total Expenses		R (76 667,41)			
	Income Membership + interest	R 11 213,03			
	Transfer from money market	R 7 000,00			
	Donations	R 42 500,00			
	Website Refund	R 5 250,00			
Total Income		R 72 474,98			

Notes:

Stellenbosch Civil Advocacy Network (SCAN) had a total collective income of **R 72 474, 98** and expenses adding up to **R 83 667,41**. While two of the detailed expense items indicated above, namely the Website and the Social Enterprise Academy was once off events and services contracted it still adds up to SCAN's expenses exceeding the income.

Up till now SCAN did not make any effort to raise additional funds, I would recommend that this would be reconsidered in the future, due to the role the organization started to play in the greater Stellenbosch Municipal area.

To: idp
Subject: [EX] Comments: Draft 1st Review of the 5th Generation IDP 2022 – 2027 or Draft Budget 2023/24 – 2025/26"
Attachments: Stellumthombo GIA Funding report November 2022.docx

TO WHOM IT CONCERN

Regarding the comment on Stellumthombo NPC (no. 81): "21-21 Fin Year donation feedback not received".

This was submitted alongside our other forms with financial proof of expenditure and budget for 2023. I have attached a digital copy of the form that was submitted. See timestamp on document as it is in Word format.

Weybrand Aucamp's signature would stand next Stellumthombo NPC in the book he signed upon handing in all the required documents.

Can you please provide feedback on whether you can find the Financial donation feedback document among our other documents submitted?

Kind regards
Lionel Hutton

Chief Executive/Bestuurshoof

lionel@stellumthombo.co.za

Stellumthobo is a Non-Profit Company (NPC Reg: 2016/064326/08), a Non-Governmental Organisation (NGO Reg: 167/179) registered with the South African Department of Social Development, and a Public Benefit Organisation (PBO Reg: 930053599) registered with SARS and permitted to issue 18A tax certificates.

Feedback on GIA Funding

(This report is a continuing of our funding report delivered on 28 April 2022 by Rene Momberg)

Making apparatus for use in ECD classrooms

Thanks to the Stellenbosch Municipality Grant In Aid Funding (GIA) we were able to provide each of our partner schools with a crate full of tools they need to make apparatus for their classroom. Most of our school often are not able to afford these tools and therefore can not make apparatus.

Some of these tools included glue, stickers, suckers, scissors, craft paint, paint brushes and much more. Every school nominated a facilitator to represent them at our course. Over two days we spent time teaching them how to safely use the craft tools and made many wonderful apparatus for their classrooms. It was so great to see how creative the facilitators are, we look forward to see all the apparatus they are going to design and make for their schools.

14 Educators attended this workshop that ran over two days.

Educators that was not able to attend will receive their craft boxes with an instructional video on how to make all the different apparatus.

Through this apparatus workshop 18 ECDs are empowered to make learning playbased for the 900 children in their care.

Literacy

We run a literacy support programs in Cloeteville primary as well as AITSA! aftercare centre in Kylemore. Weekly visits to Cloeteville is needed to run this programme effectively. We have 42 Grade One and 40 Grade R learners that is supported through this program on a weekly basis.

The Little Stars early literacy programme is done by trained facilitators at participating ECD centres. We visit these centres to observe these sessions and to guide facilitators where needed.

Stellumthombo staff, therefore, incur traveling expenses to run the program. The costs are reclaimed from the company by tracking the distances traveled and putting in a request for payment. These are reflected on the bank statements as "vervoer eis".

Attached please find all necessary supporting financial documents, photos and attendance registers.

Regards

Arina Scheepers

LETTER OF APPEAL FOR FINANCIAL STATEMENTS SUBMISSION

MUNICIPAL MANAGER
PO BOX 12
STELLENBOSCH
7599

Dear Madam/ Sir

This letter serves to request an appeal for late submissions of documents of our day care. Unakho Day Care Centre would like to submit the financial statements that were requested and have been delayed for submission due to auditors taking time with them.

We would like to inform you that Unakho Day Care is not registered as an ECD but with the Department of Health.

The following documents are attached to this mail:

- NPO Certificate
- Financial Statements
- Licensed Certificate from Health Department

We would like to apologize for the late submission and inconvenience, and looking forward to your response and thank you for considering this letter.

Sincerely,
Principal of Unakho Day Care Centre
Cynthia

Report of the Accounting Officer

To the Management of UNAKHO DAY CARE FOR THE DISABLED

We have performed the duties of accounting officer to UNAKHO DAY CARE FOR THE DISABLED for the year ended 31 March 2022 as required by Section 62 of the Close Corporations Act, 1984. The annual financial statements set out on pages 5 to 9 are the responsibility of management. No assurance is required by the Act to be carried out and no assurance engagement was conducted. Accordingly, we do not imply or express an opinion or any other form of assurance on the annual financial statements.

We report, as required in terms of section 62(1) of the Close Corporations Act of South Africa, having adopted such procedures and conducting such enquiries in relation to the accounting records as we have agreed with you, that:

- the annual financial statements are in agreement with the accounting records, summarised in the manner required by section 58(2)(d) of the Act; and
- the accounting policies presented to us as having been applied in the preparation of the annual financial statements are appropriate.

Annual Financial Statements for the year ended 31 March 2022

Management's Responsibilities and Approval

Management is required to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements satisfy the financial reporting standards as to form and content in the presentation of the statement of financial position, results of operations and business of the organisation, and explain the transactions and financial position of the business of the organisation at the end of the financial year. The annual financial statements are based upon appropriate accounting policies consistently applied throughout the organisation and supported by reasonable and prudent judgements and estimates.

Management acknowledges that they are ultimately responsible for the system of internal financial control established by the organisation and place considerable importance on maintaining a strong control environment. To enable management to meet these responsibilities, the management committee sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the organisation and all employees are required to maintain the highest ethical standards in ensuring the organisations business is conducted in a manner that in all reasonable circumstances is above reproach.

The focus of risk management in the organisation is on identifying, assessing, managing and monitoring all known forms of risk across the organisation. While operating risk cannot be fully eliminated, the organisation endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

Management is of the opinion, based on the information and explanations given by management that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss. The going-concern basis has been adopted in preparing the financial statements. Based on forecasts and available cash resources management has no reason to believe that the organisation will not be a going concern in the foreseeable future. The financial statements support the viability of the organisation.

The accounting officer is responsible for reporting on the organisation's annual financial statements. The accounting officer report is presented on page 2

The annual financial statements as set out on pages 5 to 9 were approved by the management committee on 14 December 2022 and were signed on its behalf by:

Chairperson

Member

Member

(Registration Number NPO 125-312)

Annual Financial Statements for the year ended 31 March 2022

Management's Report

The management committee present their report for the year ended 31 March 2022.

1. Review of activities

Main business and operations

The principal activity of the organisation is that the organisation is a Day care centre for children with intellectually disability. and there were no major changes herein during the year.

The operating results and statement of financial position of the organisation are fully set out in the attached financial statements and do not in our opinion require any further comment.

2. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

3. Events after reporting date

All events subsequent to the date of the annual financial statements and for which the applicable financial reporting framework require adjustment or disclosure have been adjusted or disclosed.

4. Management's interest in contracts

To our knowledge none of the directors had any interest in contracts entered into during the year under review.

5. Accounting officers

JMA Enterpise (Pty) Ltd were the accounting officers for the year under review.

Accounting Policies

1. General information

UNAKHO DAY CARE FOR THE DISABLED is a non-profit organisation.

2. Summary of significant accounting policies

These annual financial statements have been prepared in accordance with the accounting policies as set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

These financial statements have been prepared under the historical cost convention and are presented in South African Rands.

2.1 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods in the ordinary course of the organisation's activities. Revenue is shown net of value-added tax, returns, and discounts.

2.1.1 Services revenue

The service rendered is recognised as revenue by reference to the stage of completion of the transaction at the balance sheet date.

2.1.2 Interest income

Interest income is recognised using the effective interest rate method.

2.2 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown in current liabilities on the statement of financial position.

LICENCE CERTIFICATE

The Head of the Department for the Western Cape Department of Health has decided to licence the facility for the period 01 January 2023 to 31 December 2023.

You are requested to ensure compliance with all relevant legislation for Quality of Care, Governance, Patient, Staff and Public Safety with particular reference to the provisions of the Mental Health Care Act, 2000 (Act 17 of 2002), and the General Regulations promulgated in terms thereof.

This certificate must at all times be displayed on the premises of this establishment in a place that is easily visible to members of the public.

Furthermore, Regulation 43(1)(b) requires that the license to operate is subjected to at least an annual audit by designated officials of the provincial department concerned.

Please also note that if a condition of a licence as contemplated in Regulation 3, subregulation (1) and (2) is not complied with, the Provincial Department concerned may withdraw that licence.

Yours sincerely,

MR N MAVELA

Subject: [EX] FSM comments on 2023 Draft IDP and MTREF
Attachments: 230425-fsm-idp-mtref-comments.pdf

Attached please find comments and feedback on the 2023 Draft IDP and the related MTREF.

Please note that these comments can be read only in conjunction with further comments to be submitted in relation to other major plans such as the MSDF and CITP.

Could you please acknowledge receipt of these comments.

Thank you

HC Eggers

FSM Comments and Questions: 2023 Draft IDP and MTREF

25 April 2023

1 Stellenbosch Municipality is abusing the sub judice rule

The present IDP public participation process is a continuation of the process started late in 2022. In the earlier phases of this process, both in oral questions and in written replies, Stellenbosch Municipality (SM) has repeatedly invoked the *sub judice* rule to not answer questions posed by FSM and others. Specific examples can be found in the written answer by the Municipal Manager of 25 October 2022 (Appendix A) and statements by the Director: Corporate Services as per recorded proceedings of the IDP meeting of 22 September 2022.

Stellenbosch Municipality should stop invoking the *sub judice* rule unless and until it can prove that the resulting prejudice to the administration of justice is *demonstrable and substantial* and that *curtailing the free flow of information outweighs its advantage*. As set out by Pierre de Vos and Advocate de Havilland in pieces reproduced in Appendix B, the scope of the *sub judice* rule was strongly limited by the Supreme Court of Appeal in 2007. To quote the SCA judgement:

*[A] publication will be unlawful, and thus susceptible to being prohibited, only if the prejudice that the publication might cause to the administration of justice is **demonstrable and substantial** and there is a **real risk that the prejudice will occur** if publication takes place. **Mere conjecture or speculation that prejudice might occur will not be enough**. Even then publication will not be unlawful unless a court is satisfied that **the disadvantage of curtailing the free flow of information outweighs its advantage**. In making that evaluation it is not only the interests of those who are associated with the publication that need to be brought to account but, more important, the **interests of every person in having access to information**. Applying the ordinary principles that come into play when a final interdict is sought, if a risk of that kind is clearly established, and it cannot be prevented from occurring by other means, a ban on publication that is confined in scope and in content and in duration to what is necessary to avoid the risk might be considered.*

The onus is therefore on Stellenbosch Municipality to prove — with reasons and supporting documentation — that any SM refusal to answer questions and/or withhold information complies with the SCA ruling. For that reason, FSM below resubmits some of the past questions which have remained unanswered as a whole or incompletely. We do not accept any unsubstantiated *sub judice* claims as grounds for not answering questions and withholding important information from the public.

2 Unanswered questions asked on 22 and 29 September 2022

Annexure A of the 2023 Draft IDP contains a “2017-2022 Close-Out Report”. There are substantial issues and questions which have not been closed out. Here and in the next section, we re-issue questions asked but unanswered in the last year. See also related questions posed on 12 January 2022 as reproduced in Section 3.

2.1 Municipal Manager’s letter of 26 October 2022 in answer to questions posed for the last three years by FSM. Refer to Appendix A.

2.1.1 NRM grant termination: Firstly, the statement that *the grant funding was taken back by the Provincial Government* is obviously untrue. It was DFFE (then called DEA), not the provincial government, which funded and administered the 2018 NRM grant. See again Appendix C as already provided in September 2022.

2.1.2 Deon Klaassen court case

- i. To repeat our earlier question: Did Deon Garden & Construction or any other tender BSM7/19-related service provider charge or use rates or costs different from those laid down by the written 2019 NRM agreement between SM and DFFE?
- ii. See Appendix D. This court case was set down for trial for 27 January 2022, more than a year ago. Following up: what is the status of Cape High Court Case 9140/2021 (Deon Garden & Construction vs Stellenbosch Municipality)?
 - If the case has been brought to judgement: What are the terms of the judge’s order and what costs did the judge award to each party? (As a reminder: Klaassen is apparently claiming R4.3million from the municipality for breach of contract; see e.g. Appendix D.)
 - If the case was settled before judgement: What are the settlement terms?
 - If the case has not been concluded: for which date has it now been set down for trial?
 - In all cases: could SM please provide access to the full court record, including pleadings and written evidence led?

2.2 SM funding of alien clearing

To repeat and amplify our pertinent question of 22 September 2022:

- 2.2.1 How much has Stellenbosch Municipality spent in total from 2019 until now on tenders BSM 102/20, BSM 65/22 and any other tenders related to invasive species?
- 2.2.2 What rates and costs did the successful tenderers charge for tenders BSM 102/20 and BSM 65/22?
- 2.2.3 How much has Stellenbosch Municipality spent in total from 2019 until now on (a) alien clearing, (b) firebreaks, (c) law enforcement in municipal nature areas?
- 2.2.4 From which sources (SM Operational budget, Province or National grants, private funding such as City of Cape Town, The Nature Conservancy etc) were the above tenders and any other alien clearing efforts on SM-owned land funded?

3 Unanswered questions asked in January 2022

3.1 Termination of the 2019 NRM Contract and Tender BSM7/19

The FSM directive request of March 2021 and the refused PAIA application for information of November 2020 were all the direct result of the termination in October 2019, by the Stellenbosch Municipal Manager, of a 2019 NRM grant of R14.26 million from the national DFFE. **The sub judice rule does not apply unless the conditions set out in Section 1 above are met.** Kindly note that the questions below pertain to the EXISTENCE, not

the CONTENT, of the pertinent judicial processes.

QUESTIONS:

- 3.1.1 Which, if any, primary internal disciplinary processes, ie resulting directly from or associated with the alleged irregularities of the said 2019 NRM Contract and/or tender, have been conducted by SM in the past three years?
- 3.1.2 What is the status of each of such processes?
- 3.1.3 Which, if any, legal action or actions have resulted from the said terminations, either in a higher court of law or within the ambit of the CCMA?
- 3.1.4 Which, if any, secondary internal disciplinary processes or external CCMA processes have been initiated in consequence or connected to any of the above?
- 3.1.5 What are the cumulative costs of the abovementioned legal processes over the period 2019 to the present?
- 3.1.6 Are there plans or intentions to pursue any of the above in future, even if they have not yet been initiated?

3.2 Allegation of Fruitless and Wasteful Expenditure: so-called “biomass removal” in Paradyskloof Nature Area (2021)

see Appendix E. The relevant documentation alleging Fruitless and Wasteful Expenditure of more than R300,000 was submitted both electronically and by physical deposition at the offices of the Municipal Manager on 29 November 2021. At the IDP Public Sector Engagement meeting on 11 January 2022, it was stated that SM would reply to the allegations forthwith. An email from SM of 24 January 2022 stated that *Please note that this matter is currently being investigated as per Section 170 (4A) of the Municipal Finance Management Act, as soon as our office receive the outcome same will be communicated to you.* It is now April 2023, 15 months later, but no further communication was received.

QUESTIONS:

- 3.2.1 When will the outcome of this investigation be communicated?
- 3.2.2 What was the outcome?
- 3.2.3 Was any consequence management carried out in accordance with stated SM policy?
- 3.2.4 Was the matter reported to Treasury as required?

3.3 Alleged Financial Misconduct (Logging Operations in Paradyskloof and Botmaskop plantations, 2020-2021): As set out in the January 2022 submission, FSM has strong reasons to suspect that the logging operations carried out between October 2020 and March 2021 violated municipal and national SCM policy and regulations and that SM has in consequence incurred substantial financial losses. The answers provided by SM in 2020 and 2021 are unsatisfactory.

QUESTIONS:

- 3.3.1 Have the irregularities in these logging operations, involving possible financial losses to SM ranging between R800,000 and R2,000,000, been investigated? If not, why not?
- 3.3.2 If an investigation has been completed: Was consequence management applied to any of the municipal officials and/or contractor(s)?
- 3.3.3 Was any money recovered from the said municipal officials and/or contractors? How much?

3.4 Following up on the FSM questions of 12 January 2022 re **human resources within the Section Environmental Management (SEM) within SM:** At the IDP Public Sector Engagement on 11 January 2022, it was stated in answer to a question that “all funded

posts” are filled or are about to be filled. See Appendix F for a copy of the relevant organogram as approved by Council in 2017.

QUESTIONS:

- 3.4.1 Which of the permanent staff posts shown in the first (upper) part of the SEM organogram are currently filled?
- 3.4.2 Which permanent posts in the SEM are currently unfunded?
- 3.4.3 Which funded permanent posts in the SEM are currently unfilled?
- 3.4.4 Which of the permanent staff posts shown in the second (lower) part of the SEM organogram in the “Subsection Environmental Management Implementation” (“Implementation”) are currently filled?
- 3.4.5 Which permanent posts in the Implementation subsection are currently unfunded?
- 3.4.6 Which funded permanent posts in the Implementation subsection are currently unfilled?
- 3.4.7 Which permanent or temporary staff in the Implementation subsection are currently suspended and/or being investigated for any misdemeanour, whether in terms of municipal disciplinary processes, and/or CCMA processes and/or a higher court of law?
- 3.4.8 Which permanent municipal employees in which municipal department and section are responsible for law enforcement duties in municipal nature areas?
- 3.4.9 Which permanent municipal employees in which municipal department and section are responsible for training and supervision of temporary/contract municipal employees working in municipal nature areas?

4 Comments/Questions on the Draft 2023 IDP

- 4.1 **Mobility Forum** (IDP Section 1.17): SM has quietly closed down the Mobility Forum without as much as giving notice to the participants. No mention of the workings and participants of the **Stellenbosch Infrastructure Task Team** is made anywhere in the IDP. The publicly announced **Developers’ Forum** has not even been mentioned. There is a clear need for SM to become “clean and transparent” on its stakeholder engagements; in other words, please apply IDP Section 8.2.1.1. (Clean accountable and responsive government).
- 4.2 The **Strategic Focus Areas** (IDP Section 3.2, SFA’s) such as *Valley of Possibility* have become meaningless. The five categories are listed everywhere but they have no impact on decisionmaking, prioritisation and have information value in themselves. The SFA’s should be eliminated from the IDP and related documents such as the MTREF as they just clog up the tables and spaces.
- 4.3 **Roads, Traffic, NMT**
 - 4.3.1 FSM will deal with roadbuilding, public transport and NMT in comments pertaining to the CITP and MSDF which are due on 12 May and 30 May respectively. Since relevant information on those plans is contained in the Draft IDP and MTREF, those future CITP and MSDF FSM comments should be read with the present ones.
 - 4.3.2 Section 7.3.4: As indicated elsewhere, the past 2021 CITP is not an update and not compliant with the transport legislation. We note that neither the relevant officials have been disciplined nor has the external consultant *Innovative Transport Solutions* (ITS) suffered any consequences for the sloppy work and effectively Fruitless and Wasteful Expenditure which resulted in the 2021 “CITP”.

4.3.3 The “strategic interventions” of Draft IDP Section 7.3.4.1 are not in any way reflected in the prioritisation of projects set out in Section 7.3.4.2. As usual, the focus is strongly on engineering projects while almost nothing is done on urgent non-engineering measures such as Travel Demand Management, Congestion Strategy, Pedestrianisation. The NMT measures are nice but their budget is tiny compared to that of road- and parking-related capital projects. There is a shocking lack of urgency on the part of SM to get started on urgent and critical interventions beyond engineering projects.

4.4 **Housing** (IDP Section 7.3.3): Figure 38 on Priority Human Settlements and Housing Development Areas depicts the R44 between Adam Tas and Jamestown as priority. Naturally the Transit-Oriented Development approach also advocates siting housing close to routes of transport.

4.4.1 Housing is intimately tied to public transport and Travel Demand Management (see transport legislation). The R44 route is already congested. This congestion is the direct result of the strong anti-public-transport stance taken by SM. Further housing along the R44 can be built only if and once the R44 is given the big public transport (*not car-related*) upgrade which allows it to carry significant volumes of people rather than volumes of cars.

4.4.2 Hence Figure 38 of the IDP and the underlying PDSHDA are worthless unless and until corresponding transport measures are taken first, for example park-and-ride projects along the R44, congestion charges along the R44 etc.

4.4.3 Figure 38 does NOT mean that urban sprawl which happens to be close to the R44 is thereby legally compliant. If at all, development along the R44 must necessarily be high-density (several storeys) and confined to a narrow strip along the R44 route. The PDSHDA does not motivate, for example, development of **Farm 1457**, owned by Blaauwklippen Agricultural Estates or the Eastern Link Road.

4.5 **Energy and Electricity** (Section 7.3.5 of the IDP): FSM strongly supports electricity generation from renewables and co-generation by private entities. Hence the **Energy Masterplan** is supported. We note that, unlike the Roads Master Plan, the Energy Masterplan is compliant with national legislation and priorities.

4.6 **Water** (IDP Section 7.3.6)

4.6.1 Water Demand Management is critical. Section 7.3.6.4 is not nearly enough. We must deal not only with water leaks but actively control and limit groundwater use, eg by private and estate boreholes.

4.6.2 Support for **Wastewater Treatment Works** projects is conditional on understanding whom they serve. If these are being built to accommodate more luxury housing, we do not support them.

4.6.3 IDP Section 7.3.6.5 is generally supported. See Section 6 below for a more detailed treatment of climate change.

4.6.4 IDP Section 7.3.6.12 Boreholes: Accessing groundwater is an absolute last resort and cannot possibly be a sustainable solution. The 2018 emergency drilling measures resulted in significant environmental damage. That may not be repeated.

4.6.5 Decisions may not be driven by the financial needs of SM to sell water. If at all, rates should be increased as an effective measure to reduce water usage.

4.7 **Environmental Management Plans** (Section 7.3.2 of the IDP and sectoral EMP's):

4.7.1 The *Stellenbosch Environmental Management Framework (SEMF)* has been all but ignored. We find little to no reference to its provisions in council agendas, development proposals and SM communications outside of general aspirations and principles. The SEMF exists only on paper.

- 4.7.2 Many provisions of the *Paradyskloof Nature Area Environmental Management Plan* and other sectoral environmental plans are not being applied. For example, Section 4.2.4 in the Paradyskloof EMP and Section 7.2.4 in the Botmaskop EMP contain detailed specifications on how to prevent soil erosion, including e.g. slope grading, inside ditches and berm construction on jeep tracks, and logs on cycle tracks. Instead, grading is done indiscriminately and with no regard for adjacent vegetation.
- 4.8 **Smart City** (IDP Section 8.1): The benefits seem initially obvious but there is a significant danger in centralisation of control, privacy and data management. This is supported only if from inception the governance structures and resulting databases and data processing are decentralised, i.e. controlled not by a single authority (such as SM or one of the tech giants) but by citizens themselves. There should be clear and transparent rules on data usage and easily accessible mechanisms for private individuals to retrieve and delete data.
- 4.9 **Clean, accountable and responsive government** (IDP Section 8.2.1.1): As demonstrated above at length, the KPI related to fraud and corruption is not being fulfilled.
- 4.10 **Adam Tas Corridor** (IDP Section 8.2.1.5): This initiative should be the core and origin of all structural changes in Stellenbosch for decades to come. The ATC and within it the public transport and NMT components must inform and determine the strategy and contents of the MSDF, CEF and CITP and thence the resulting individual projects. We see very little of that happening. Instead, the CEF and CITP simply include the ATC but then proceed to propagate projects which undermine or ignore the central role of the ATC.
- 4.11 **Environment** (IDP Section 8.2.1.8): The Mayoral Outcomes (five-year plans) exhibit a glaring deficiency in all matters relating to the environment. Note that *environment* pertains to nature areas, river courses, parks and gardens. *Green energy*, *Green waste* and *Green economy* are nice, but they do not cover the environment per se. A further Mayoral Outcome 8.2.1.10 should be added specifically with respect to the **environment**. Section 8.3.10 is a small beginning but not enough.
- 4.12 The **Financial Plan** (IDP Chapter 10) is treated in the comments on the MTREF below.
- 4.13 **Close-out of previous IDP** (IDP Annexure A): We have already commented on this in Section 2 above.

5 Comments/Questions on the Draft 2023/2024 MTREF

- 5.1 The entire MTREF makes no reference whatsoever to the 10-year **Capital Expenditure Framework** (CEF). That is unacceptable and must be changed. There cannot be two disjoint financial planning instruments; one must influence the other.
- 5.2 Page 19: The *Capital Replacement Reserve* is seen to be contributing funds of R151million and R174million to expenditure. This funding source is second only to that of *external loans*, which come in at R94m and R200m in the next two years, followed by a further R200m and R175m in the two years thereafter (Page 92). This implies that **Stellenbosch Municipality is spending money excessively**. Drawing down reserves while taking up loans at the same time seems like a sure road to disaster in the long term. There needs to be a section motivating this and providing a viable roadmap to become financially sustainable. Could this profligacy perhaps have something to do with the upcoming 2024 General Elections?

5.3 Employee costs

Page 12 and 17: Re financial sustainability: In particular, there is general agreement that expenditure on **employee costs** is excessive.

The table on MTREF Page 89 pencils in employee related cost increases of 5.4% **plus Notch Increments** of 2.4% for 2023/2024. This means that municipal employees will be receiving an above-inflation increase of 7.6% in this year. That is unacceptable, given the macroeconomic situation and the MFMA circulars.

The one exception is the Section Environmental Implementation, which is badly understaffed and underfunded. There needs to be a significant increase in operational funding and filling of posts in this section.

- 5.4 **Councillor remuneration:** It is likewise inappropriate to budget a 6.0% increase (above the CPI inflation rate) for councillor remuneration while the country is in recession.
- 5.5 **Motor vehicle allowances** (MTREF Part 2K): Currently, councillors and officials are incentivised by their motor vehicle allowances to make decisions which favour roadbuilding, parking and car use. Which councillor or official will ever make use of NMT or public transport when his or her pocket suffers as a result? Add to that SARS tax allowances for vehicle use, and the inherent bias acting on municipal decisionmakers is clear.

This is incompatible with stated national and provincial policy. The vehicle allowances of councillors have been reduced, but the motor vehicle allowances for municipal officials have been increased. This allowance should be either reduced substantially or eliminated altogether.
- 5.6 **Other expenditure** Page 17/18: Operating budget: “Other expenditure” worth about R700m needs to be unpacked. This is a huge item and its major components needs to be set out. Mere reference to telephone usage and consulting fees is not enough; consultants cost “only” about R40million per years (Page 156). On which specific expenditure items is the rest of the R700m being spent?
- 5.7 Page 19 Capital budget summary: The 43% increase in Infrastructure Services to R433m (86% of Capital Budget) is excessive. Infrastructure already dominates spending and this further increase cannot be supported.
- 5.8 Page 36: Table A5 does not even have an item on public transport infrastructure. The universal neglect of public transport ranges right into the administrative categories which have not even been created.
- 5.9 There is almost no capital expenditure on Environmental Management and the municipal nature areas.
- 5.10 Page 78 Annexure D (Alignment with the IDP): As stated, reference to the Strategic Focus Areas in a little table is meaningless in proving “alignment”. Real alignment needs to demonstrate how specific projects prioritised in the IDP (and MSDF, and MTREF) tie in to specific sections of **legislation** and the related **regulations**.
- 5.11 Page 96: the Table Y-axis is incorrect and therefore the table of no use.
- 5.12 **Grant programme expenditure:** Page 98 Annexure I: please unpack the sources of the approximate R24m per annum under line item *Private Enterprises*.
- 5.13 **Roads, Stormwater, Transport:** Page 136ff (Annexure N, Detail Capital Budget) We will deal in detail with the projects relating to Roads, Stormwater and Transport in comments on the CITP. Those comments should be read also as input into the IDP and MTREF.
- 5.14 **Litigation and Corporate Services Vote** (Annexures N, P): An indication should be given on the amounts spent on litigation in the past year, and the amounts budgeted for the next years.

6 Climate Change

Climate Change and ecosystem collapse is a global crisis which cuts across all plans, disciplines, needs and budgets. We therefore treat it as an entity on its own.

6.1 The IDP and all SM planning documents are very weak on climate change.

In those rare cases where climate change is mentioned at all, it is always in terms of **adaptation** (ie coping with the consequences of climate change). There is an urgent need to put **mitigation** (prevention and minimisation of climate change) at the forefront of policy. **We need concerted action in other critical areas of climate change PREVENTION such as land use, fossil fuel reliance reduction, carbon auditing, etc.**

6.2 A budget item in the IDP's Table 37 is called *Climate Change Adaptation Strategy*, which is fair enough. The allocated amount of R2,000,000 is, however ridiculously small compared to the need. R2million is not even a fraction of what is needed just for alien clearing, not to speak of river management and wildlife management. **This budget allocation must be increased drastically.**

6.3 Goal 13 in Section 3.5.1 (*Take urgent action to combat climate change and its impacts*) is not put into practice anywhere in the IDP.

6.4 Goal 14 in Section 7.3.1.1 to *improve the understanding of the impact that climate change is likely to have on the municipality and to implement measures to mitigate such impact* is a misnomer because it confuses the terminology. Again, *mitigation* is about preventing climate change, while *adaptation* would be dealing with the consequences. Furthermore, *improving the understanding* of the impact is just kicking the can down the road. The impacts are well understood, as voluminous documentation of eg the International Panel for Climate Change shows. Goal 14 should be reworded to action. And goals and the widely available insights should be implemented in Stellenbosch, not just outsourced to yet another consultant to write a report which gathers dust.

6.5 **Water:** Section 7.3.6.5 of the IDP (on adapting water systems to climate change) is supported, but this is just a small beginning. There is no doubt that the price of water must be increased significantly, especially for large users. In other words, the tariff curve of costs as a function of monthly usage should be much steeper than it is now. Naturally valid large uses such as nurseries will be treated as special cases.

Attention: Mr HC Eggers

Per email: heggers@pm.me

Dear Mr Eggers,

FEEDBACK ON WRITTEN SUBMISSION: IDP PUBLIC PARTICIPATION PERIOD SEPTEMBER 2022

1. COURT CASE 9140/2021: DEON GARDEN AND CONSTRUCTION VS MUNICIPALITY

Your question posed on Thursday, 22 September 2022, during the Online IDP Public Participation meeting for wards 7, 8, 9, 10, 11, 22 and 23 and the written submissions made refer.

The allegations made for the reasons the tender was cancelled is untrue. The tender was cancelled because of suspected illegal activities that was uncovered by an ex – employee after which the grant funding was taken back by Provincial Government. Both the disciplinary process and current Labour Court Litigation is flowing from this situation. The municipality have explained that the matter is sub – judice and will not be further commented on. The municipality is acting within its legal right and is of the view that it is in the best interest of the municipality.

The case of Deon Garden Services is also sub – judice and the municipality had to defend the matter as the applicant is claiming money not owned to him and that he is not entitled to. The municipality is acting within its legal rights and in the best interest of the municipality. Unfortunately, no further comment will be made at this stage.

The same applies to all other legal matters reported in the municipality's financial statements. Stellenbosch Municipality act on the advice of its attorneys and defend the interest of the municipality and is not prepared to comment on any of the sub – judice matters other than what is mentioned in this response.

2. COMPREHENSIVE INTEGRATED TRANSPORT PLAN (CITP)

With reference to the document *"Follow-Up and Questions on the period 2017–2022 (Fourth Review of the Stellenbosch IDP) and Input for the impending Fifth Review of the Stellenbosch IDP"* Item 2.1 (a) – (f), see below the responses on the questions posed related to the Comprehensive Integrated Transport Plan (CITP):

- a) The 2016 – 2021 Comprehensive Integrated Transport Plan (CITP) – including its updates is currently being superseded. Therefore, any figures listed in the document were thus only forecasts and calculated estimates at the time. A more detailed cost estimation will be undertaken for budgeting purposes.
- b) In most cases in the document, it is actually full costs which are being compared. At present, a full review / (update) of the 2022 – 2027 CITP is currently being finalised. New project lists are being compiled, budget forecasting and categorisations are also being improved to ensure updated interpretations of the CITP projects are being planned and budgeted.
- c) The municipality has followed all required legislative prescripts and processes in the 2021 CITP document and processes. The municipality is of the view that all the necessary legal aspects have been complied with.
- d) The CITP flows from the Integrated Development Plan (IDP) and Spatial Development Framework (SDF) strategic documents as well as taken through the municipality's master planning, transport modelling and public consultation processes. Discussions were held with the team and changes will be brought about, such as budget forecasting and categorisation will be updated and improved during the compilation of the 2022 – 2027 CITP.
- e) No, the 2022 – 2027 CITP is a completely new review / overhaul of the document. The current CITP will remain in effect until the review process of the 2021 CITP is completed and the new 2022 – 2027 CITP document is formally adopted.
- f) At the time of the 2016 – 2021 CITP update in 2019, the Adam Tas Corridor (ATC) was proposed in the draft SDF (2019) and was also highlighted in the 2019 CITP update.

Sincerely yours,

GERALDINE METTLER
MUNICIPAL MANAGER

B Legal experts' opinion on the application of sub judice rule

Don't hide behind (non-existent) sub judice rule

Pierre de Vos
18 July 2011

One of the most irritating phenomena of our political life is the manner in which politicians wrongly invoke the so called sub judice rule to avoid accountability. Because they do not want to answer difficult questions or deal with politically awkward issues, such politicians invoke a rule that only exists in their imagination.

Is it possible that such politicians do not know that the rule has been substantially changed by the Supreme Court of Appeal (SCA) to bring it in line with the values and norms enshrined in our democratic Constitution? Or are they cynically invoking a non-existent rule knowing full well that the rule does not exist in the form that they pretend that it does?

The latest culprit is the Minister of Police, who invoked the rule in response to the Human Rights Commission's (HRC) findings and remedial order in the case of Mr Chumani Maxwele, the jogger who is alleged to have given President Zuma's motorcade the middle finger. The HRC found that the Special Protection Unit had violated several of Mr Maxwele's rights and called on the Minister, on behalf of the members involved, to apologise to Mr Maxwele and to take steps to ensure that the SAPS acts in terms of the Constitution and the Law.

Reacting to the HRC's findings, the Minister's spokesman claimed that because Mr Maxwele had instituted civil proceedings against the SAPS the sub judice rule applied. The SAPS had accordingly refused to participate in the investigation and would not abide by the HRC's ruling.

Now, it is an established rule of the common law that the proper administration of justice may not be prejudiced or interfered with and that to do so constitutes the offence of contempt of court. As the SCA has found, the sub judice rule is important as the integrity of the judicial process is an essential component of the rule of law. If the rule of law is itself eroded through compromising the integrity of the judicial process then all constitutional rights and freedoms are also compromised.

The crime of contempt of court thus includes contempt *ex facie curiae* (out of court) and this entails, first, cases where publication of an opinion will violate the dignity, repute or authority of the court (either by criticizing or insulting a particular judicial officer or the judicial system as a whole) and, second, statements which prejudice the administration of justice in pending proceedings. It is this latter aspect that has become known as the sub judice rule.

But in the *Midi Television* case the SCA stated that the broad scope of this rule which was in force in the pre-democratic era has been severely curtailed by the Constitution. In that case, dealing with the sub judice rule in the context of pre-publication censorship, Nugent JA, writing for a full bench of five judges, summarised the new position as follows:

[A] publication will be unlawful, and thus susceptible to being prohibited, only if the prejudice that the publication might cause to the administration of justice is demonstrable and substantial and there is a real risk that the prejudice will occur if publication takes place. Mere conjecture or speculation that prejudice might occur will not be enough. Even then publication will not be unlawful unless a court is satisfied that the disadvantage of curtailing the free flow of information outweighs its advantage. In making that evaluation it is not only the interests of those who are associated with

the publication that need to be brought to account but, more important, the interests of every person in having access to information. Applying the ordinary principles that come into play when a final interdict is sought, if a risk of that kind is clearly established, and it cannot be prevented from occurring by other means, a ban on publication that is confined in scope and in content and in duration to what is necessary to avoid the risk might be considered.

If one applies these basic principles to the case at hand, it must be clear that the sub judice rule is not applicable here. The Minister would have to convince us that there would be a demonstrable and substantial prejudice to the administration of justice if he apologised to Mr Maxwele as requested by the HRC. He will further have to show that it would not be in the interest of society as a whole to obey the request of a Chapter 9 body because the risk to the administration of justice would far outweigh the harm done to the credibility and the dignity of the Chapter 9 institution.

This will obviously be impossible to show. Given the fact that section 181 of the Constitution states that other organs of state – including ministers – through legislative and other measures, must assist and protect these institutions to ensure the independence, impartiality, dignity and effectiveness of these institutions, I cannot think of an example where the Minister would be allowed by the sub judice rule to ignore the HRC and to refuse to institute the remedial action proposed by it in a certain case.

Besides, how the minister could possibly argue that complying with the findings of the HRC – which dealt with the violation of Mr Maxwele’s constitutionally guaranteed rights to human dignity, to freedom and security of the person, to privacy, to freedom of expression and peaceful/unarmed demonstration – could possibly influence the parallel civil proceedings – which deals with a civil claim against the Police – is hard to fathom.

The HRC has already published a finding in which it concluded that Mr Maxwele’s rights have been infringed. Nothing the Minister can do or say will change that. A court dealing with the civil claim of Mr Maxwele will not be swayed by the finding of the HRC as it will have to hear the evidence presented to it and make its own finding on whether damages should be paid.

The fact that the HRC has found that Mr Maxwele’s rights have been infringed can also not be tendered in the civil case as proof that Mr Maxwele is entitled to be compensated financially as a result of any damages suffered. The two issues are therefore entirely different enquiries, and no substantial prejudice to the civil trial can possibly arise through the correct exercise of its rights jurisdiction by the Human Rights Commission.

Surely the Minister and his advisors know this. Can one therefore assume that they are hiding behind the sub judice rule to avoid complying with a finding of the HRC because the President and his seemingly lawless bodyguards were involved in this case? Is the Minister scared of President Zuma and his bodyguards or is he just ill-informed?

In any case, as the law stands now, the sub judice rule will almost never be applicable. Where anyone invoke this rule, they are doing so either because they are ill-informed about the law or because they are using the rule to avoid accountability. Whenever a politician invokes the sub judice rule, I for one will assume that the politician is admitting guilt or other wrongdoing, but is trying to hide from scrutiny and accountability for his or her actions.

So next time you read that a politician has invoked this rule, please do not believe for one second that the rule is applicable. It will not be applicable. Assume instead that the politician is ducking and diving because he or she is scared; or is trying to avoid being caught out in a lie; or is looking

for an excuse to justify a constitutional breach of a duty to show respect for other constitutional institutions like the HRC or the Public Protector.

(Also see statement by Adv Nikki de Havilland, Centre for Constitutional Rights)

Police minister's critique of SAHRC misguided - CFCR

Adv Nikki de Havilland

17 July 2011

Nikki de Havilland says the ministry misapplied the sub judice rule

Respecting the office of the South African Human Rights Commission

The Minister of Police's response to the Human Rights Commission's findings and remedial order in the case of Mr Chumani Maxwele (the jogger who is alleged to have given President Zuma's motorcade 'the finger') is misplaced and has no standing in law. The HRC found that the Special Protection Unit had violated several of Mr Maxwele's rights and called on the Minister, on behalf of the members involved, to apologise to Mr Maxwele and to take steps to ensure that the SAPS acts in terms of the Constitution and the Law.

Reacting to the HRC's findings, the Minister's spokesman claimed that because Mr Maxwele had instituted civil proceedings against the SAPS the sub judice rule applied. The SAPS had accordingly refused to participate in the investigation and would not abide by the HRC's ruling.

The sub judice rule was created to prevent people from commenting on a case where such comments would prejudice the outcome of the case in any way. Historically it was invoked whenever there was any risk of prejudice to a fair trial, regardless of how speculative. However, in the matter of *Midi Television v The Director of Public Prosecutions*, a full bench of the Supreme Court of Appeal effectively put an end to the rule.

Emphasising the importance of freedom of expression, the Court developed an extremely strict test as to when the sub judice rule can be invoked. The court found that it would only be applicable if a substantial and real prejudice to the administration of justice would occur as a result of the communication and the prejudice could not be prevented from occurring by any other means.

The complaint which was filed with the South African Human Rights Commission involved the violation of Mr Maxwele's constitutionally guaranteed rights to human dignity, to freedom and security of the person, to privacy, to freedom of expression and peaceful/unarmed demonstration, to make political choices and to certain rights as a detained person.

The remedy sought was the restoration of his dignity. In contrast, the pending civil claim to which the Minister refers is a damages claim sounding in money. The crisp issue that will have to be decided in that matter is whether Mr Maxwele is entitled to be compensated financially as a result of any damages suffered. The two are thus different enquiries, and no substantial prejudice to the civil trial can possibly arise through the correct exercise of its rights jurisdiction by the Human Rights Commission.

The South African Human Rights Commission is an institution established in terms of the Consti-

tution to support constitutional democracy. It is specifically mandated to monitor the observance of human rights and authorised to take steps to secure appropriate redress where human rights have been violated. Section 181 obliges all organs of state to assist the Commission and prohibits any interference in its proper function. The Minister was thus ill advised not to co-operate with the investigation. It is now hoped that he will be correctly advised to respect and honour the findings within the stipulated 30 day time period.

Statement issued by Adv Nikki de Havilland, Centre for Constitutional Rights, FW de Klerk Foundation, July 15 2011

Stellenbosch Municipality

Annual Financial Statements for the year ended 30 June 2021

Notes to the Annual Financial Statements

Figures in Rand

66. Contingent liabilities (continued)

STELLENBOSCH MUNICIPALITY / LEELYN MANAGEMENT CC	400,000	-
Opinion and institution of Monetary claim against Leelyn Management CC for alleged parking revenue collected on behalf of the Municipality which was not paid over by Leelyn Management CC to the Municipality.		
STELLENBOSCH MUNICIPALITY / CHOISY –LE-ROI OWNERS (PTY) LTD	200,000	-
Review application instituted by the owner of Erf 13500 Technopark, Stellenbosch against the appeal judgment of the Executive Mayor. The Municipality served and filed notice of opposition against the application. Rule 53 record was subsequently filed at court. Choisy-le-Roi supplemented their application and the Municipality served and filed its answering affidavit. A court date needs to be obtained to argue the matter.		
DEON GARDEN & CONSTRUCTION CC / STELLENBOSCH MUNICIPALITY	200,000	-
Monetary claim in the amount of R4 374 192.67 including interest at a rate of 7.75% per annum for alleged damages suffered by Deon Garden & Construction CC. The Municipality defended the claim instituted and is in the process of finalising its plea in the matter.		
SECURITEM (PTY) LTD/ STELLENBOSCH MUNICIPALITY	200,000	-
Securitem instituted legal action against the Municipality to pay VAT on top of their tender price. The Municipality is of the view that VAT was included in the tender price submitted by SECURITEM and opposed the application.		
STELLENBOSCH MUN / MOFFAT & OTHERS	100,000	-
Eviction application against the Moffat family who illegally occupy the Eikestad Hall. The Municipality provided temporary accommodation to the Moffat family pursuant to the Moffat family wendy house being destroyed by a fire. The intension was that the Moffat family should occupy the Eikestad Hall temporarily and to relocate to Mountain View. The Municipality provided emergency accommodation at Mountain View, Jamestown, but the Moffat family refused to relocate. The Moffat's was given notice to vacate the Eikestad Hall and eviction proceedings is being instituted. The draft affidavit to institute eviction proceedings is being circulated for comment.		
STELLENBOSCH MUNICIPALITY/ABSA	9,000,000	-
The municipality is in a dispute with ABSA bank in relation to the fleet vehicle expenditure as controlled by ABSA.		
SHAHIEDA JACOBS / STELLENBOSCH MUNICIPALITY	200,000	-
Shahieda Jacobs instituted legal proceedings against Stellenbosch Municipality and a municipal official for alleged sexual harassment and unfair discrimination in the Labour Court. The Municipality filed its Statement of Response to the Plaintiff's Statement of Claim. The Special Plea on Shahieda's new Statement of Claim will be determine on 29 July 2020 on the papers before the Judge.

Allegation of Fruitless and Wasteful Expenditure incurred during purported "biomass removal"

To the Municipal Manager
 Stellenbosch Municipality

BY HAND AND EMAIL

2021-11-29

Dear Municipal Manager,

1. Attached please find a report compiled by myself on behalf of Friends of Stellenbosch Mountain ("FSM") on the activities pertaining to so-called "biomass removal" on Farm 369, Stellenbosch, between 29 September and 19 November 2021 ("the Activity") as well as copies of emails dated 7, 25 and 27 October and 12 November.
2. In our opinion, the expenditure associated with this Activity exactly matches the definition of Fruitless and Wasteful Expenditure ("FWE") of section 1 of the Municipal Finance Management Act (Act No. 56 of 2003, "MFMA"), being *expenditure that was made in vain and would have been avoided had reasonable care been exercised*.
3. The Activity and associated expenditure in our opinion therefore constitutes Financial Misconduct in terms of section 171(3) of the MFMA.
4. In terms of MFMA Circular 68 of 2019 *fruitless and wasteful expenditure can arise in any circumstance and is not dependent on non-compliance with any legislation*.
5. We do not have access to the municipal financial accounting system and can only estimate the amount of FWE. We conservatively estimate the FWE to amount to not less than R319,000 for the six-week engagement of the contractor's excavator and truck; the actual amount of FWE will have to be determined in the course of the investigation. This amount is to be compared to an estimated cost of less than R20,000 which use of a chipper would have incurred for accomplishing the same task and with much smaller environmental impact, or of other cheap alternatives.
6. In terms of section 171(4) of the MFMA, a municipality must investigate this allegation and, if the investigation warrants such a step, institute disciplinary proceedings against those responsible. In terms of regulation 5(1) of the Financial Misconduct Procedures of the *Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings* of 2014 ("MRFM-PCP"), the matter must be referred to a disciplinary board within seven days of receiving this allegation.
7. It is possible that the expenditure involved in the Activity itself, or negligence in the ensuing investigation, constitutes or may later constitute an Offence in terms of section 173 of the MFMA, Chapter 8 of the MFMA or as defined by the MRFMPCP.
8. We note that the SM Consequence Management Policy of 2019 espouses a zero-tolerance approach to MFMA non-compliance.

FSM to SM: Fruitless and Wasteful Expenditure on Biomass Removal 2021-11-29 Page 1 of 6

9. Specific questions to be posed and answered in the course of the investigations include:
- 9.1 Which official or officials made a determination that an excavator and truck were to be used for the biomass removal rather than cheaper and/or more effective measures? Which person initially determined that tree stumps were to be removed?
 - 9.2 Which person generated the order on the municipal financial system in favour of the contractor APT (Pty) Ltd?
 - 9.3 Which person or persons authorised the said order?
 - 9.4 Did the persons generating and authorising the order consider the rational and cheaper alternative methods for biomass removal (such as use of a chipper) and their respective costs before the order favouring APT was generated and approved?
 - 9.5 Did the agreement with the contractor APT specify a fixed time frame (such as number of workdays) for which APT was to be engaged and paid, or did the agreement specify a particular task or land area to be cleared of biomass?
 - 9.6 Why did no one intervene, over a six-week period, to stop the use of the excavator despite multiple email warnings?
 - 9.7 Given that the expenditure exceeds R200,000, were the supply chain management competitive tender processes followed, not just in general, but for this particular Activity?
 - 9.8 Do the actions or omissions on the part of those persons involved in the Activity constitute *negligence* or *deliberate intent* as referred to in section 171(3) of the MFMA?
 - 9.9 Must the official or officials involved be held liable for the FWE incurred in terms of section 32 of the MFMA?
10. As stated, the biomass which was removed so far constitutes only a small part of the total biomass remaining on Farm 369 and elsewhere, so there is a possibility of further financial loss. MRFMPCP subregulation 10(2) may therefore apply.
 11. Given the manifest environmental impact of the Activity, and given that the process of biomass removal on Farm 369 and elsewhere remains ongoing, decisions to be taken both with respect to the Activity as well as similar future activities impact the environment. Therefore, adequate and appropriate opportunity for information and public participation must be provided in terms of sections 23, 24, 28 and 31 of the National Environmental Management Act of 1998. We therefore do expect regular and timely feedback on the progress of the investigations and proceedings resulting from the present allegations. In particular, the outcome of the preliminary investigation (MRFMPCP regulation 5), of the full investigation (regulation 6), and of the tabling in Council (regulation 6) and possible escalation to National Treasury in terms of regulation 19 of the MRFMPCP are of interest to us and the public at large.
 12. A complaint has been lodged separately with DEADP.
 13. Our investigations into the logging which had taken place in the Paradyskloof and Botmaskop municipal plantations between October 2020 and April 2021 are continuing separately. We shall communicate in due course on that matter.
 14. We reserve our rights to take further steps and approach other bodies and institutions in this and related matters.

Yours respectfully,

Hans C Eggers
Chairperson: Friends of Stellenbosch Mountain

Subject: [EX] Versoeke rakende die GOP, namens die Wyk 11 komitee
Attachments: Afrikaans copy of IDP 2023 Commentary Ward 11 -2023-04-18.pdf

Geagte MM en GOP kantoor personeel

Aangheg vind asseblief wyk 11 se versoeke rakende die huidige hersiening van die GOP.

Byvoorbaat dankie vir u positiewe oorweging van ons prioriteite.

Groete / Regards

Marius Snyman

Mobile: +27 (82) 553-3532

Profile: LinkedIn: <https://www.linkedin.com/in/marius snyman/>

18 April 2023

Geagte GOP-kantoor van Stellenbosch,

Ek skryf namens die wyk 11 wykskomitee om ons bekommernisse te deel oor sommige sake wat ons raak. Ons waardeer die werk wat u doen om ons dorp te verbeter, maar ons het ook 'n paar voorstelle en versoeke wat ons graag onder u aandag wil bring.

1.) Verkeer: Ons is bly dat jy beplan om die verkeer om die "driehoek" (R44, Dorpstraat, Adam Tas) te verlig deur die onderste deel van Dorpstraat te verbreed en hopelik 'n rotonde by Ya Ya te bou. Ons hoop dat hierdie projek binnekort afgehandel sal word en dat dit die verkeersvloei sal verbeter. Ons vra egter dat u ook die behoeftes van die inwoners, stasiegebruikers en kliënte van besighede wat in hierdie area parkeer, in ag neem. Ons stel voor dat jy die bestaande parkeerarea vir hierdie groep mense bespreek.

2.) Adam Tas-brug: Ons is bekommerd oor die toestand van die Adam Tas-brug en die omliggende area. Ons versoek dat u die haweloses wat onder die brug agterbly, ontruim en met maatskaplike dienste in aanraking bring. Ons versoek ook dat u die verbinding met die Eersterivier-wandelpad verbeter en 'n paadjie bou om Agrimark te kan bereik op 'n paadjie wat onder die brug oor die Plackenbrugrivier deurloop. Dit sal nie net die veiligheid en netheid van die gebied verhoog deur verhoogde voetgangerverkeer nie, maar ook die toeganklikheid vir voetgangers en fietsryers tot die SSK.

Hier is 'n diagram van die idee wat hopelik help om ons konsep te verduidelik:

3.) Huis Horison: Ons is dankbaar dat u 'n ooreenkoms met Huis Horison het om die vleilande onder die damwal in die rigting van Devon Valleyweg te bestuur, maar die hawelose mense wat daardie gebied beset is kommerwekkend. Sal u hulle asseblief van die eiendom ontruim?

4.) Woodmill: Ons is teleurgesteld met die vertragsings en onooglikheid van die ingang na Stellenbosch by die Woodmill-kompleks. Ons versoek dat u hierdie projek so gou moontlik prioritiseer en voltooiing ondersteun. Ons glo dat Woodmill 'n belangrike rol speel in die ekonomiese ontwikkeling van ons dorp en dat dit ook 'n estetiese impak op ons omgewing het wat die beplanningsvertragsings vererger.

5.) Ekologiese uitdagings wat dringend aandag verg: Ons het 'n ernstige probleem met kewers

wat ons inheemse bome beskadig. Ons vra dat u asseblief die redding van ons bome prioritiseer. Stellenbosch sonder bome sal 'n dorre en baie minder aantreklike bestemming vir toeriste wees en inwoners eenders. Ons sal dan die nodige stappe doen om die kwekers te beheer en die bome te red. Ons vra ook u samewerking in die verwydering van indringerplante op u eiendomme (soos Papegaaiberg Reserwe en die parke in Onder-Papegaaiberg), veral die rooilyks akasia implexia. Hierdie plante bedreig die biodiversiteit van ons gebied.

6.) Sekuriteit: Ons is bewus dat sekuriteitskwessies ons almal raak.

a.) Ons versoek die oprigting van 'n nuwe heining op Oude Libertas weg vanaf Liberté kompleks tot by die punt van Bokmakieriestraat op die groot park, dit sal ook help om die vandalisme van die grafte daar te beheer. Hierdie heining sal help om ongewenste toegang tot ons area te voorkom. Ons verstaan dat u die sluiting van Nagtegaal Straat sal finaliseer en die heiningonderhoud op Devonvallei sal doen. Is dit nog in die werke?

b.) Verder versoek ons dat batterye vir die kringtelevisiekameras installeer word om beurtkrag onderbrekings te vermy. Ons hoop dat hierdie maatreëls sal bydra tot 'n veiliger en meer vreedsame leefstyl vir almal.

7.) Papegaaiberg-reservaat: Ons is trots op ons unieke reservaat wat 'n ryk verskeidenheid flora en fauna huisves. Ons wil graag hierdie natuurlike erfenis vir toekomstige geslagte bewaar. Daarom is dit noodsaaklik dat ons die reservaat se omheining (toegangsbeheer) voltooi en die grondbesetting hanteer soos vereis deur regulasies.

8.) Dit is met groot kommer dat ons kennis neem hoe swak die verkoop van die munisipale eiendomme in Onder-Papegaaiberg bestuur is en hoe die kopers in die proses in die steek gelaat is en selfs verliese gely het. Hoe gou kan die eiendomme oorgedra word soos ooreengekom in die verkoopsooreenkomste met die kopers? In die algemeen let ons daarop munisipale eiendomme word swak bestuur en moet nie verkoop word as 'n manier om die pligte van bewaarderskap oor hierdie gemeenskapsbates te vermy nie.

9.) Laastens is ons teleurgesteld oor die groot aantal punte op die GOP-terugvoerdokument, wat aandui dat geen of min stappe gedoen sal word om die gevraagde items te verskaf. Hopelik kan die items hierbo dus vir eers jou mees dringende aandag geniet. Ons besef dat begrotings beperk is, maar miskien sal jy die belangrikheid van die punte hierbo bo sommige ander bestedingsitems in die begroting waardeur.

Ons bedank u vir u begrip en ondersteuning in hierdie sake. As jy enige vrae of voorstelle het, kontak ons gerus via raadslid Serdyn..

Met groete

Die Wyk 11 komitee
Stellenbosch

FSM Comments and Questions: 2023 Draft IDP and MTREF

25 April 2023

1 Stellenbosch Municipality is abusing the sub judice rule

The present IDP public participation process is a continuation of the process started late in 2022. In the earlier phases of this process, both in oral questions and in written replies, Stellenbosch Municipality (SM) has repeatedly invoked the *sub judice* rule to not answer questions posed by FSM and others. Specific examples can be found in the written answer by the Municipal Manager of 25 October 2022 (Appendix A) and statements by the Director: Corporate Services as per recorded proceedings of the IDP meeting of 22 September 2022.

Stellenbosch Municipality should stop invoking the *sub judice* rule unless and until it can prove that the resulting prejudice to the administration of justice is *demonstrable and substantial* and that *curtailing the free flow of information outweighs its advantage*. As set out by Pierre de Vos and Advocate de Havilland in pieces reproduced in Appendix B, the scope of the *sub judice* rule was strongly limited by the Supreme Court of Appeal in 2007. To quote the SCA judgement:

*[A] publication will be unlawful, and thus susceptible to being prohibited, only if the prejudice that the publication might cause to the administration of justice is **demonstrable and substantial** and there is a **real risk that the prejudice will occur** if publication takes place. **Mere conjecture or speculation that prejudice might occur will not be enough**. Even then publication will not be unlawful unless a court is satisfied that **the disadvantage of curtailing the free flow of information outweighs its advantage**. In making that evaluation it is not only the interests of those who are associated with the publication that need to be brought to account but, more important, the **interests of every person in having access to information**. Applying the ordinary principles that come into play when a final interdict is sought, if a risk of that kind is clearly established, and it cannot be prevented from occurring by other means, a ban on publication that is confined in scope and in content and in duration to what is necessary to avoid the risk might be considered.*

The onus is therefore on Stellenbosch Municipality to prove — with reasons and supporting documentation — that any SM refusal to answer questions and/or withhold information complies with the SCA ruling. For that reason, FSM below resubmits some of the past questions which have remained unanswered as a whole or incompletely. We do not accept any unsubstantiated *sub judice* claims as grounds for not answering questions and withholding important information from the public.

2 Unanswered questions asked on 22 and 29 September 2022

Annexure A of the 2023 Draft IDP contains a “2017-2022 Close-Out Report”. There are substantial issues and questions which have not been closed out. Here and in the next section, we re-issue questions asked but unanswered in the last year. See also related questions posed on 12 January 2022 as reproduced in Section 3.

2.1 Municipal Manager’s letter of 26 October 2022 in answer to questions posed for the last three years by FSM. Refer to Appendix A.

2.1.1 NRM grant termination: Firstly, the statement that *the grant funding was taken back by the Provincial Government* is obviously untrue. It was DFFE (then called DEA), not the provincial government, which funded and administered the 2018 NRM grant. See again Appendix C as already provided in September 2022.

2.1.2 Deon Klaassen court case

- i. To repeat our earlier question: Did Deon Garden & Construction or any other tender BSM7/19-related service provider charge or use rates or costs different from those laid down by the written 2019 NRM agreement between SM and DFFE?
- ii. See Appendix D. This court case was set down for trial for 27 January 2022, more than a year ago. Following up: what is the status of Cape High Court Case 9140/2021 (Deon Garden & Construction vs Stellenbosch Municipality)?
 - If the case has been brought to judgement: What are the terms of the judge’s order and what costs did the judge award to each party? (As a reminder: Klaassen is apparently claiming R4.3million from the municipality for breach of contract; see e.g. Appendix D.)
 - If the case was settled before judgement: What are the settlement terms?
 - If the case has not been concluded: for which date has it now been set down for trial?
 - In all cases: could SM please provide access to the full court record, including pleadings and written evidence led?

2.2 SM funding of alien clearing

To repeat and amplify our pertinent question of 22 September 2022:

- 2.2.1 How much has Stellenbosch Municipality spent in total from 2019 until now on tenders BSM 102/20, BSM 65/22 and any other tenders related to invasive species?
- 2.2.2 What rates and costs did the successful tenderers charge for tenders BSM 102/20 and BSM 65/22?
- 2.2.3 How much has Stellenbosch Municipality spent in total from 2019 until now on (a) alien clearing, (b) firebreaks, (c) law enforcement in municipal nature areas?
- 2.2.4 From which sources (SM Operational budget, Province or National grants, private funding such as City of Cape Town, The Nature Conservancy etc) were the above tenders and any other alien clearing efforts on SM-owned land funded?

3 Unanswered questions asked in January 2022

3.1 Termination of the 2019 NRM Contract and Tender BSM7/19

The FSM directive request of March 2021 and the refused PAIA application for information of November 2020 were all the direct result of the termination in October 2019, by the Stellenbosch Municipal Manager, of a 2019 NRM grant of R14.26 million from the national DFFE. **The sub judice rule does not apply unless the conditions set out in Section 1 above are met.** Kindly note that the questions below pertain to the EXISTENCE, not

the CONTENT, of the pertinent judicial processes.

QUESTIONS:

- 3.1.1 Which, if any, primary internal disciplinary processes, ie resulting directly from or associated with the alleged irregularities of the said 2019 NRM Contract and/or tender, have been conducted by SM in the past three years?
- 3.1.2 What is the status of each of such processes?
- 3.1.3 Which, if any, legal action or actions have resulted from the said terminations, either in a higher court of law or within the ambit of the CCMA?
- 3.1.4 Which, if any, secondary internal disciplinary processes or external CCMA processes have been initiated in consequence or connected to any of the above?
- 3.1.5 What are the cumulative costs of the abovementioned legal processes over the period 2019 to the present?
- 3.1.6 Are there plans or intentions to pursue any of the above in future, even if they have not yet been initiated?

3.2 Allegation of Fruitless and Wasteful Expenditure: so-called “biomass removal” in Paradyskloof Nature Area (2021)

see Appendix E. The relevant documentation alleging Fruitless and Wasteful Expenditure of more than R300,000 was submitted both electronically and by physical deposition at the offices of the Municipal Manager on 29 November 2021. At the IDP Public Sector Engagement meeting on 11 January 2022, it was stated that SM would reply to the allegations forthwith. An email from SM of 24 January 2022 stated that *Please note that this matter is currently being investigated as per Section 170 (4A) of the Municipal Finance Management Act, as soon as our office receive the outcome same will be communicated to you.* It is now April 2023, 15 months later, but no further communication was received.

QUESTIONS:

- 3.2.1 When will the outcome of this investigation be communicated?
- 3.2.2 What was the outcome?
- 3.2.3 Was any consequence management carried out in accordance with stated SM policy?
- 3.2.4 Was the matter reported to Treasury as required?

3.3 Alleged Financial Misconduct (Logging Operations in Paradyskloof and Botmaskop plantations, 2020-2021): As set out in the January 2022 submission, FSM has strong reasons to suspect that the logging operations carried out between October 2020 and March 2021 violated municipal and national SCM policy and regulations and that SM has in consequence incurred substantial financial losses. The answers provided by SM in 2020 and 2021 are unsatisfactory.

QUESTIONS:

- 3.3.1 Have the irregularities in these logging operations, involving possible financial losses to SM ranging between R800,000 and R2,000,000, been investigated? If not, why not?
- 3.3.2 If an investigation has been completed: Was consequence management applied to any of the municipal officials and/or contractor(s)?
- 3.3.3 Was any money recovered from the said municipal officials and/or contractors? How much?

3.4 Following up on the FSM questions of 12 January 2022 re **human resources within the Section Environmental Management (SEM) within SM:** At the IDP Public Sector Engagement on 11 January 2022, it was stated in answer to a question that “all funded

posts” are filled or are about to be filled. See Appendix F for a copy of the relevant organogram as approved by Council in 2017.

QUESTIONS:

- 3.4.1 Which of the permanent staff posts shown in the first (upper) part of the SEM organogram are currently filled?
- 3.4.2 Which permanent posts in the SEM are currently unfunded?
- 3.4.3 Which funded permanent posts in the SEM are currently unfilled?
- 3.4.4 Which of the permanent staff posts shown in the second (lower) part of the SEM organogram in the “Subsection Environmental Management Implementation” (“Implementation”) are currently filled?
- 3.4.5 Which permanent posts in the Implementation subsection are currently unfunded?
- 3.4.6 Which funded permanent posts in the Implementation subsection are currently unfilled?
- 3.4.7 Which permanent or temporary staff in the Implementation subsection are currently suspended and/or being investigated for any misdemeanour, whether in terms of municipal disciplinary processes, and/or CCMA processes and/or a higher court of law?
- 3.4.8 Which permanent municipal employees in which municipal department and section are responsible for law enforcement duties in municipal nature areas?
- 3.4.9 Which permanent municipal employees in which municipal department and section are responsible for training and supervision of temporary/contract municipal employees working in municipal nature areas?

4 Comments/Questions on the Draft 2023 IDP

- 4.1 **Mobility Forum** (IDP Section 1.17): SM has quietly closed down the Mobility Forum without as much as giving notice to the participants. No mention of the workings and participants of the **Stellenbosch Infrastructure Task Team** is made anywhere in the IDP. The publicly announced **Developers’ Forum** has not even been mentioned. There is a clear need for SM to become “clean and transparent” on its stakeholder engagements; in other words, please apply IDP Section 8.2.1.1. (Clean accountable and responsive government).
- 4.2 The **Strategic Focus Areas** (IDP Section 3.2, SFA’s) such as *Valley of Possibility* have become meaningless. The five categories are listed everywhere but they have no impact on decisionmaking, prioritisation and have information value in themselves. The SFA’s should be eliminated from the IDP and related documents such as the MTREF as they just clog up the tables and spaces.
- 4.3 **Roads, Traffic, NMT**
 - 4.3.1 FSM will deal with roadbuilding, public transport and NMT in comments pertaining to the CITP and MSDF which are due on 12 May and 30 May respectively. Since relevant information on those plans is contained in the Draft IDP and MTREF, those future CITP and MSDF FSM comments should be read with the present ones.
 - 4.3.2 Section 7.3.4: As indicated elsewhere, the past 2021 CITP is not an update and not compliant with the transport legislation. We note that neither the relevant officials have been disciplined nor has the external consultant *Innovative Transport Solutions* (ITS) suffered any consequences for the sloppy work and effectively Fruitless and Wasteful Expenditure which resulted in the 2021 “CITP”.

4.3.3 The “strategic interventions” of Draft IDP Section 7.3.4.1 are not in any way reflected in the prioritisation of projects set out in Section 7.3.4.2. As usual, the focus is strongly on engineering projects while almost nothing is done on urgent non-engineering measures such as Travel Demand Management, Congestion Strategy, Pedestrianisation. The NMT measures are nice but their budget is tiny compared to that of road- and parking-related capital projects. There is a shocking lack of urgency on the part of SM to get started on urgent and critical interventions beyond engineering projects.

4.4 **Housing** (IDP Section 7.3.3): Figure 38 on Priority Human Settlements and Housing Development Areas depicts the R44 between Adam Tas and Jamestown as priority. Naturally the Transit-Oriented Development approach also advocates siting housing close to routes of transport.

4.4.1 Housing is intimately tied to public transport and Travel Demand Management (see transport legislation). The R44 route is already congested. This congestion is the direct result of the strong anti-public-transport stance taken by SM. Further housing along the R44 can be built only if and once the R44 is given the big public transport (*not car-related*) upgrade which allows it to carry significant volumes of people rather than volumes of cars.

4.4.2 Hence Figure 38 of the IDP and the underlying PDSHDA are worthless unless and until corresponding transport measures are taken first, for example park-and-ride projects along the R44, congestion charges along the R44 etc.

4.4.3 Figure 38 does NOT mean that urban sprawl which happens to be close to the R44 is thereby legally compliant. If at all, development along the R44 must necessarily be high-density (several storeys) and confined to a narrow strip along the R44 route. The PDSHDA does not motivate, for example, development of **Farm 1457**, owned by Blaauwklippen Agricultural Estates or the Eastern Link Road.

4.5 **Energy and Electricity** (Section 7.3.5 of the IDP): FSM strongly supports electricity generation from renewables and co-generation by private entities. Hence the **Energy Masterplan** is supported. We note that, unlike the Roads Master Plan, the Energy Masterplan is compliant with national legislation and priorities.

4.6 **Water** (IDP Section 7.3.6)

4.6.1 Water Demand Management is critical. Section 7.3.6.4 is not nearly enough. We must deal not only with water leaks but actively control and limit groundwater use, eg by private and estate boreholes.

4.6.2 Support for **Wastewater Treatment Works** projects is conditional on understanding whom they serve. If these are being built to accommodate more luxury housing, we do not support them.

4.6.3 IDP Section 7.3.6.5 is generally supported. See Section 6 below for a more detailed treatment of climate change.

4.6.4 IDP Section 7.3.6.12 Boreholes: Accessing groundwater is an absolute last resort and cannot possibly be a sustainable solution. The 2018 emergency drilling measures resulted in significant environmental damage. That may not be repeated.

4.6.5 Decisions may not be driven by the financial needs of SM to sell water. If at all, rates should be increased as an effective measure to reduce water usage.

4.7 **Environmental Management Plans** (Section 7.3.2 of the IDP and sectoral EMP's):

4.7.1 The *Stellenbosch Environmental Management Framework (SEMF)* has been all but ignored. We find little to no reference to its provisions in council agendas, development proposals and SM communications outside of general aspirations and principles. The SEMF exists only on paper.

- 4.7.2 Many provisions of the *Paradyskloof Nature Area Environmental Management Plan* and other sectoral environmental plans are not being applied. For example, Section 4.2.4 in the Paradyskloof EMP and Section 7.2.4 in the Botmaskop EMP contain detailed specifications on how to prevent soil erosion, including e.g. slope grading, inside ditches and berm construction on jeep tracks, and logs on cycle tracks. Instead, grading is done indiscriminately and with no regard for adjacent vegetation.
- 4.8 **Smart City** (IDP Section 8.1): The benefits seem initially obvious but there is a significant danger in centralisation of control, privacy and data management. This is supported only if from inception the governance structures and resulting databases and data processing are decentralised, i.e. controlled not by a single authority (such as SM or one of the tech giants) but by citizens themselves. There should be clear and transparent rules on data usage and easily accessible mechanisms for private individuals to retrieve and delete data.
- 4.9 **Clean, accountable and responsive government** (IDP Section 8.2.1.1): As demonstrated above at length, the KPI related to fraud and corruption is not being fulfilled.
- 4.10 **Adam Tas Corridor** (IDP Section 8.2.1.5): This initiative should be the core and origin of all structural changes in Stellenbosch for decades to come. The ATC and within it the public transport and NMT components must inform and determine the strategy and contents of the MSDF, CEF and CITP and thence the resulting individual projects. We see very little of that happening. Instead, the CEF and CITP simply include the ATC but then proceed to propagate projects which undermine or ignore the central role of the ATC.
- 4.11 **Environment** (IDP Section 8.2.1.8): The Mayoral Outcomes (five-year plans) exhibit a glaring deficiency in all matters relating to the environment. Note that *environment* pertains to nature areas, river courses, parks and gardens. *Green energy*, *Green waste* and *Green economy* are nice, but they do not cover the environment per se. A further Mayoral Outcome 8.2.1.10 should be added specifically with respect to the **environment**. Section 8.3.10 is a small beginning but not enough.
- 4.12 The **Financial Plan** (IDP Chapter 10) is treated in the comments on the MTREF below.
- 4.13 **Close-out of previous IDP** (IDP Annexure A): We have already commented on this in Section 2 above.

5 Comments/Questions on the Draft 2023/2024 MTREF

- 5.1 The entire MTREF makes no reference whatsoever to the 10-year **Capital Expenditure Framework** (CEF). That is unacceptable and must be changed. There cannot be two disjoint financial planning instruments; one must influence the other.
- 5.2 Page 19: The *Capital Replacement Reserve* is seen to be contributing funds of R151million and R174million to expenditure. This funding source is second only to that of *external loans*, which come in at R94m and R200m in the next two years, followed by a further R200m and R175m in the two years thereafter (Page 92). This implies that **Stellenbosch Municipality is spending money excessively**. Drawing down reserves while taking up loans at the same time seems like a sure road to disaster in the long term. There needs to be a section motivating this and providing a viable roadmap to become financially sustainable. Could this profligacy perhaps have something to do with the upcoming 2024 General Elections?

5.3 Employee costs

Page 12 and 17: Re financial sustainability: In particular, there is general agreement that expenditure on **employee costs** is excessive.

The table on MTREF Page 89 pencils in employee related cost increases of 5.4% **plus Notch Increments** of 2.4% for 2023/2024. This means that municipal employees will be receiving an above-inflation increase of 7.6% in this year. That is unacceptable, given the macroeconomic situation and the MFMA circulars.

The one exception is the Section Environmental Implementation, which is badly understaffed and underfunded. There needs to be a significant increase in operational funding and filling of posts in this section.

5.4 **Councillor remuneration:** It is likewise inappropriate to budget a 6.0% increase (above the CPI inflation rate) for councillor remuneration while the country is in recession.

5.5 **Motor vehicle allowances** (MTREF Part 2K): Currently, councillors and officials are incentivised by their motor vehicle allowances to make decisions which favour roadbuilding, parking and car use. Which councillor or official will ever make use of NMT or public transport when his or her pocket suffers as a result? Add to that SARS tax allowances for vehicle use, and the inherent bias acting on municipal decisionmakers is clear.

This is incompatible with stated national and provincial policy. The vehicle allowances of councillors have been reduced, but the motor vehicle allowances for municipal officials have been increased. This allowance should be either reduced substantially or eliminated altogether.

5.6 **Other expenditure** Page 17/18: Operating budget: “Other expenditure” worth about R700m needs to be unpacked. This is a huge item and its major components needs to be set out. Mere reference to telephone usage and consulting fees is not enough; consultants cost “only” about R40million per years (Page 156). On which specific expenditure items is the rest of the R700m being spent?

5.7 Page 19 Capital budget summary: The 43% increase in Infrastructure Services to R433m (86% of Capital Budget) is excessive. Infrastructure already dominates spending and this further increase cannot be supported.

5.8 Page 36: Table A5 does not even have an item on public transport infrastructure. The universal neglect of public transport ranges right into the administrative categories which have not even been created.

5.9 There is almost no capital expenditure on Environmental Management and the municipal nature areas.

5.10 Page 78 Annexure D (Alignment with the IDP): As stated, reference to the Strategic Focus Areas in a little table is meaningless in proving “alignment”. Real alignment needs to demonstrate how specific projects prioritised in the IDP (and MSDF, and MTREF) tie in to specific sections of **legislation** and the related **regulations**.

5.11 Page 96: the Table Y-axis is incorrect and therefore the table of no use.

5.12 **Grant programme expenditure:** Page 98 Annexure I: please unpack the sources of the approximate R24m per annum under line item *Private Enterprises*.

5.13 **Roads, Stormwater, Transport:** Page 136ff (Annexure N, Detail Capital Budget) We will deal in detail with the projects relating to Roads, Stormwater and Transport in comments on the CITP. Those comments should be read also as input into the IDP and MTREF.

5.14 **Litigation and Corporate Services Vote** (Annexures N, P): An indication should be given on the amounts spent on litigation in the past year, and the amounts budgeted for the next years.

6 Climate Change

Climate Change and ecosystem collapse is a global crisis which cuts across all plans, disciplines, needs and budgets. We therefore treat it as an entity on its own.

6.1 The IDP and all SM planning documents are very weak on climate change.

In those rare cases where climate change is mentioned at all, it is always in terms of **adaptation** (ie coping with the consequences of climate change). There is an urgent need to put **mitigation** (prevention and minimisation of climate change) at the forefront of policy. **We need concerted action in other critical areas of climate change PREVENTION such as land use, fossil fuel reliance reduction, carbon auditing, etc.**

6.2 A budget item in the IDP's Table 37 is called *Climate Change Adaptation Strategy*, which is fair enough. The allocated amount of R2,000,000 is, however ridiculously small compared to the need. R2million is not even a fraction of what is needed just for alien clearing, not to speak of river management and wildlife management. **This budget allocation must be increased drastically.**

6.3 Goal 13 in Section 3.5.1 (*Take urgent action to combat climate change and its impacts*) is not put into practice anywhere in the IDP.

6.4 Goal 14 in Section 7.3.1.1 to *improve the understanding of the impact that climate change is likely to have on the municipality and to implement measures to mitigate such impact* is a misnomer because it confuses the terminology. Again, *mitigation* is about preventing climate change, while *adaptation* would be dealing with the consequences. Furthermore, *improving the understanding* of the impact is just kicking the can down the road. The impacts are well understood, as voluminous documentation of eg the International Panel for Climate Change shows. Goal 14 should be reworded to action. And goals and the widely available insights should be implemented in Stellenbosch, not just outsourced to yet another consultant to write a report which gathers dust.

6.5 **Water:** Section 7.3.6.5 of the IDP (on adapting water systems to climate change) is supported, but this is just a small beginning. There is no doubt that the price of water must be increased significantly, especially for large users. In other words, the tariff curve of costs as a function of monthly usage should be much steeper than it is now. Naturally valid large uses such as nurseries will be treated as special cases.

Attention: Mr HC Eggers

Per email: heggers@pm.me

Dear Mr Eggers,

FEEDBACK ON WRITTEN SUBMISSION: IDP PUBLIC PARTICIPATION PERIOD SEPTEMBER 2022

1. COURT CASE 9140/2021: DEON GARDEN AND CONSTRUCTION VS MUNICIPALITY

Your question posed on Thursday, 22 September 2022, during the Online IDP Public Participation meeting for wards 7, 8, 9, 10, 11, 22 and 23 and the written submissions made refer.

The allegations made for the reasons the tender was cancelled is untrue. The tender was cancelled because of suspected illegal activities that was uncovered by an ex – employee after which the grant funding was taken back by Provincial Government. Both the disciplinary process and current Labour Court Litigation is flowing from this situation. The municipality have explained that the matter is sub – judice and will not be further commented on. The municipality is acting within its legal right and is of the view that it is in the best interest of the municipality.

The case of Deon Garden Services is also sub – judice and the municipality had to defend the matter as the applicant is claiming money not owned to him and that he is not entitled to. The municipality is acting within its legal rights and in the best interest of the municipality. Unfortunately, no further comment will be made at this stage.

The same applies to all other legal matters reported in the municipality's financial statements. Stellenbosch Municipality act on the advice of its attorneys and defend the interest of the municipality and is not prepared to comment on any of the sub – judice matters other than what is mentioned in this response.

2. COMPREHENSIVE INTEGRATED TRANSPORT PLAN (CITP)

With reference to the document *"Follow-Up and Questions on the period 2017–2022 (Fourth Review of the Stellenbosch IDP) and Input for the impending Fifth Review of the Stellenbosch IDP"* Item 2.1 (a) – (f), see below the responses on the questions posed related to the Comprehensive Integrated Transport Plan (CITP):

- a) The 2016 – 2021 Comprehensive Integrated Transport Plan (CITP) – including its updates is currently being superseded. Therefore, any figures listed in the document were thus only forecasts and calculated estimates at the time. A more detailed cost estimation will be undertaken for budgeting purposes.
- b) In most cases in the document, it is actually full costs which are being compared. At present, a full review / (update) of the 2022 – 2027 CITP is currently being finalised. New project lists are being compiled, budget forecasting and categorisations are also being improved to ensure updated interpretations of the CITP projects are being planned and budgeted.
- c) The municipality has followed all required legislative prescripts and processes in the 2021 CITP document and processes. The municipality is of the view that all the necessary legal aspects have been complied with.
- d) The CITP flows from the Integrated Development Plan (IDP) and Spatial Development Framework (SDF) strategic documents as well as taken through the municipality's master planning, transport modelling and public consultation processes. Discussions were held with the team and changes will be brought about, such as budget forecasting and categorisation will be updated and improved during the compilation of the 2022 – 2027 CITP.
- e) No, the 2022 – 2027 CITP is a completely new review / overhaul of the document. The current CITP will remain in effect until the review process of the 2021 CITP is completed and the new 2022 – 2027 CITP document is formally adopted.
- f) At the time of the 2016 – 2021 CITP update in 2019, the Adam Tas Corridor (ATC) was proposed in the draft SDF (2019) and was also highlighted in the 2019 CITP update.

Sincerely yours,

GERALDINE METTLER
MUNICIPAL MANAGER

B Legal experts' opinion on the application of sub judice rule

Don't hide behind (non-existent) sub judice rule

Pierre de Vos
18 July 2011

One of the most irritating phenomena of our political life is the manner in which politicians wrongly invoke the so called sub judice rule to avoid accountability. Because they do not want to answer difficult questions or deal with politically awkward issues, such politicians invoke a rule that only exists in their imagination.

Is it possible that such politicians do not know that the rule has been substantially changed by the Supreme Court of Appeal (SCA) to bring it in line with the values and norms enshrined in our democratic Constitution? Or are they cynically invoking a non-existent rule knowing full well that the rule does not exist in the form that they pretend that it does?

The latest culprit is the Minister of Police, who invoked the rule in response to the Human Rights Commission's (HRC) findings and remedial order in the case of Mr Chumani Maxwele, the jogger who is alleged to have given President Zuma's motorcade the middle finger. The HRC found that the Special Protection Unit had violated several of Mr Maxwele's rights and called on the Minister, on behalf of the members involved, to apologise to Mr Maxwele and to take steps to ensure that the SAPS acts in terms of the Constitution and the Law.

Reacting to the HRC's findings, the Minister's spokesman claimed that because Mr Maxwele had instituted civil proceedings against the SAPS the sub judice rule applied. The SAPS had accordingly refused to participate in the investigation and would not abide by the HRC's ruling.

Now, it is an established rule of the common law that the proper administration of justice may not be prejudiced or interfered with and that to do so constitutes the offence of contempt of court. As the SCA has found, the sub judice rule is important as the integrity of the judicial process is an essential component of the rule of law. If the rule of law is itself eroded through compromising the integrity of the judicial process then all constitutional rights and freedoms are also compromised.

The crime of contempt of court thus includes contempt *ex facie curiae* (out of court) and this entails, first, cases where publication of an opinion will violate the dignity, repute or authority of the court (either by criticizing or insulting a particular judicial officer or the judicial system as a whole) and, second, statements which prejudice the administration of justice in pending proceedings. It is this latter aspect that has become known as the sub judice rule.

But in the *Midi Television* case the SCA stated that the broad scope of this rule which was in force in the pre-democratic era has been severely curtailed by the Constitution. In that case, dealing with the sub judice rule in the context of pre-publication censorship, Nugent JA, writing for a full bench of five judges, summarised the new position as follows:

[A] publication will be unlawful, and thus susceptible to being prohibited, only if the prejudice that the publication might cause to the administration of justice is demonstrable and substantial and there is a real risk that the prejudice will occur if publication takes place. Mere conjecture or speculation that prejudice might occur will not be enough. Even then publication will not be unlawful unless a court is satisfied that the disadvantage of curtailing the free flow of information outweighs its advantage. In making that evaluation it is not only the interests of those who are associated with

the publication that need to be brought to account but, more important, the interests of every person in having access to information. Applying the ordinary principles that come into play when a final interdict is sought, if a risk of that kind is clearly established, and it cannot be prevented from occurring by other means, a ban on publication that is confined in scope and in content and in duration to what is necessary to avoid the risk might be considered.

If one applies these basic principles to the case at hand, it must be clear that the sub judice rule is not applicable here. The Minister would have to convince us that there would be a demonstrable and substantial prejudice to the administration of justice if he apologised to Mr Maxwele as requested by the HRC. He will further have to show that it would not be in the interest of society as a whole to obey the request of a Chapter 9 body because the risk to the administration of justice would far outweigh the harm done to the credibility and the dignity of the Chapter 9 institution.

This will obviously be impossible to show. Given the fact that section 181 of the Constitution states that other organs of state – including ministers – through legislative and other measures, must assist and protect these institutions to ensure the independence, impartiality, dignity and effectiveness of these institutions, I cannot think of an example where the Minister would be allowed by the sub judice rule to ignore the HRC and to refuse to institute the remedial action proposed by it in a certain case.

Besides, how the minister could possibly argue that complying with the findings of the HRC – which dealt with the violation of Mr Maxwele’s constitutionally guaranteed rights to human dignity, to freedom and security of the person, to privacy, to freedom of expression and peaceful/unarmed demonstration – could possibly influence the parallel civil proceedings – which deals with a civil claim against the Police – is hard to fathom.

The HRC has already published a finding in which it concluded that Mr Maxwele’s rights have been infringed. Nothing the Minister can do or say will change that. A court dealing with the civil claim of Mr Maxwele will not be swayed by the finding of the HRC as it will have to hear the evidence presented to it and make its own finding on whether damages should be paid.

The fact that the HRC has found that Mr Maxwele’s rights have been infringed can also not be tendered in the civil case as proof that Mr Maxwele is entitled to be compensated financially as a result of any damages suffered. The two issues are therefore entirely different enquiries, and no substantial prejudice to the civil trial can possibly arise through the correct exercise of its rights jurisdiction by the Human Rights Commission.

Surely the Minister and his advisors know this. Can one therefore assume that they are hiding behind the sub judice rule to avoid complying with a finding of the HRC because the President and his seemingly lawless bodyguards were involved in this case? Is the Minister scared of President Zuma and his bodyguards or is he just ill-informed?

In any case, as the law stands now, the sub judice rule will almost never be applicable. Where anyone invoke this rule, they are doing so either because they are ill-informed about the law or because they are using the rule to avoid accountability. Whenever a politician invokes the sub judice rule, I for one will assume that the politician is admitting guilt or other wrongdoing, but is trying to hide from scrutiny and accountability for his or her actions.

So next time you read that a politician has invoked this rule, please do not believe for one second that the rule is applicable. It will not be applicable. Assume instead that the politician is ducking and diving because he or she is scared; or is trying to avoid being caught out in a lie; or is looking

for an excuse to justify a constitutional breach of a duty to show respect for other constitutional institutions like the HRC or the Public Protector.

Police minister's critique of SAHRC misguided - CFCR

Adv Nikki de Havilland

17 July 2011

Nikki de Havilland says the ministry misapplied the sub judice rule

Respecting the office of the South African Human Rights Commission

The Minister of Police's response to the Human Rights Commission's findings and remedial order in the case of Mr Chumani Maxwele (the jogger who is alleged to have given President Zuma's motorcade 'the finger') is misplaced and has no standing in law. The HRC found that the Special Protection Unit had violated several of Mr Maxwele's rights and called on the Minister, on behalf of the members involved, to apologise to Mr Maxwele and to take steps to ensure that the SAPS acts in terms of the Constitution and the Law.

Reacting to the HRC's findings, the Minister's spokesman claimed that because Mr Maxwele had instituted civil proceedings against the SAPS the sub judice rule applied. The SAPS had accordingly refused to participate in the investigation and would not abide by the HRC's ruling.

The sub judice rule was created to prevent people from commenting on a case where such comments would prejudice the outcome of the case in any way. Historically it was invoked whenever there was any risk of prejudice to a fair trial, regardless of how speculative. However, in the matter of *Midi Television v The Director of Public Prosecutions*, a full bench of the Supreme Court of Appeal effectively put an end to the rule.

Emphasising the importance of freedom of expression, the Court developed an extremely strict test as to when the sub judice rule can be invoked. The court found that it would only be applicable if a substantial and real prejudice to the administration of justice would occur as a result of the communication and the prejudice could not be prevented from occurring by any other means.

The complaint which was filed with the South African Human Rights Commission involved the violation of Mr Maxwele's constitutionally guaranteed rights to human dignity, to freedom and security of the person, to privacy, to freedom of expression and peaceful/unarmed demonstration, to make political choices and to certain rights as a detained person.

The remedy sought was the restoration of his dignity. In contrast, the pending civil claim to which the Minister refers is a damages claim sounding in money. The crisp issue that will have to be decided in that matter is whether Mr Maxwele is entitled to be compensated financially as a result of any damages suffered. The two are thus different enquiries, and no substantial prejudice to the civil trial can possibly arise through the correct exercise of its rights jurisdiction by the Human Rights Commission.

The South African Human Rights Commission is an institution established in terms of the Consti-

tution to support constitutional democracy. It is specifically mandated to monitor the observance of human rights and authorised to take steps to secure appropriate redress where human rights have been violated. Section 181 obliges all organs of state to assist the Commission and prohibits any interference in its proper function. The Minister was thus ill advised not to co-operate with the investigation. It is now hoped that he will be correctly advised to respect and honour the findings within the stipulated 30 day time period.

Statement issued by Adv Nikki de Havilland, Centre for Constitutional Rights, FW de Klerk Foundation, July 15 2011

Stellenbosch Municipality

Annual Financial Statements for the year ended 30 June 2021

Notes to the Annual Financial Statements

Figures in Rand

66. Contingent liabilities (continued)

STELLENBOSCH MUNICIPALITY / LEELYN MANAGEMENT CC	400,000	-
Opinion and institution of Monetary claim against Leelyn Management CC for alleged parking revenue collected on behalf of the Municipality which was not paid over by Leelyn Management CC to the Municipality.		
STELLENBOSCH MUNICIPALITY / CHOISY –LE-ROI OWNERS (PTY) LTD	200,000	-
Review application instituted by the owner of Erf 13500 Technopark, Stellenbosch against the appeal judgment of the Executive Mayor. The Municipality served and filed notice of opposition against the application. Rule 53 record was subsequently filed at court. Choisy-le-Roi supplemented their application and the Municipality served and filed its answering affidavit. A court date needs to be obtained to argue the matter.		
DEON GARDEN & CONSTRUCTION CC / STELLENBOSCH MUNICIPALITY	200,000	-
Monetary claim in the amount of R4 374 192.67 including interest at a rate of 7.75% per annum for alleged damages suffered by Deon Garden & Construction CC. The Municipality defended the claim instituted and is in the process of finalising its plea in the matter.		
SECURITEM (PTY) LTD/ STELLENBOSCH MUNICIPALITY	200,000	-
Securitem instituted legal action against the Municipality to pay VAT on top of their tender price. The Municipality is of the view that VAT was included in the tender price submitted by SECURITEM and opposed the application.		
STELLENBOSCH MUN / MOFFAT & OTHERS	100,000	-
Eviction application against the Moffat family who illegally occupy the Eikestad Hall. The Municipality provided temporary accommodation to the Moffat family pursuant to the Moffat family wendy house being destroyed by a fire. The intension was that the Moffat family should occupy the Eikestad Hall temporarily and to relocate to Mountain View. The Municipality provided emergency accommodation at Mountain View, Jamestown, but the Moffat family refused to relocate. The Moffat's was given notice to vacate the Eikestad Hall and eviction proceedings is being instituted. The draft affidavit to institute eviction proceedings is being circulated for comment.		
STELLENBOSCH MUNICIPALITY/ABSA	9,000,000	-
The municipality is in a dispute with ABSA bank in relation to the fleet vehicle expenditure as controlled by ABSA.		
SHAHIEDA JACOBS / STELLENBOSCH MUNICIPALITY	200,000	-
Shahieda Jacobs instituted legal proceedings against Stellenbosch Municipality and a municipal official for alleged sexual harassment and unfair discrimination in the Labour Court. The Municipality filed its Statement of Response to the Plaintiff's Statement of Claim. The Special Plea on Shahieda's new Statement of Claim will be determine on 29 July 2020 on the papers before the Judge.

Allegation of Fruitless and Wasteful Expenditure incurred during purported "biomass removal"

To the Municipal Manager
 Stellenbosch Municipality

BY HAND AND EMAIL

2021-11-29

Dear Municipal Manager,

1. Attached please find a report compiled by myself on behalf of Friends of Stellenbosch Mountain ("FSM") on the activities pertaining to so-called "biomass removal" on Farm 369, Stellenbosch, between 29 September and 19 November 2021 ("the Activity") as well as copies of emails dated 7, 25 and 27 October and 12 November.
2. In our opinion, the expenditure associated with this Activity exactly matches the definition of Fruitless and Wasteful Expenditure ("FWE") of section 1 of the Municipal Finance Management Act (Act No. 56 of 2003, "MFMA"), being *expenditure that was made in vain and would have been avoided had reasonable care been exercised*.
3. The Activity and associated expenditure in our opinion therefore constitutes Financial Misconduct in terms of section 171(3) of the MFMA.
4. In terms of MFMA Circular 68 of 2019 *fruitless and wasteful expenditure can arise in any circumstance and is not dependent on non-compliance with any legislation*.
5. We do not have access to the municipal financial accounting system and can only estimate the amount of FWE. We conservatively estimate the FWE to amount to not less than R319,000 for the six-week engagement of the contractor's excavator and truck; the actual amount of FWE will have to be determined in the course of the investigation. This amount is to be compared to an estimated cost of less than R20,000 which use of a chipper would have incurred for accomplishing the same task and with much smaller environmental impact, or of other cheap alternatives.
6. In terms of section 171(4) of the MFMA, a municipality must investigate this allegation and, if the investigation warrants such a step, institute disciplinary proceedings against those responsible. In terms of regulation 5(1) of the Financial Misconduct Procedures of the *Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings* of 2014 ("MRFM-PCP"), the matter must be referred to a disciplinary board within seven days of receiving this allegation.
7. It is possible that the expenditure involved in the Activity itself, or negligence in the ensuing investigation, constitutes or may later constitute an Offence in terms of section 173 of the MFMA, Chapter 8 of the MFMA or as defined by the MRFMPCP.
8. We note that the SM Consequence Management Policy of 2019 espouses a zero-tolerance approach to MFMA non-compliance.

9. Specific questions to be posed and answered in the course of the investigations include:
- 9.1 Which official or officials made a determination that an excavator and truck were to be used for the biomass removal rather than cheaper and/or more effective measures? Which person initially determined that tree stumps were to be removed?
 - 9.2 Which person generated the order on the municipal financial system in favour of the contractor APT (Pty) Ltd?
 - 9.3 Which person or persons authorised the said order?
 - 9.4 Did the persons generating and authorising the order consider the rational and cheaper alternative methods for biomass removal (such as use of a chipper) and their respective costs before the order favouring APT was generated and approved?
 - 9.5 Did the agreement with the contractor APT specify a fixed time frame (such as number of workdays) for which APT was to be engaged and paid, or did the agreement specify a particular task or land area to be cleared of biomass?
 - 9.6 Why did no one intervene, over a six-week period, to stop the use of the excavator despite multiple email warnings?
 - 9.7 Given that the expenditure exceeds R200,000, were the supply chain management competitive tender processes followed, not just in general, but for this particular Activity?
 - 9.8 Do the actions or omissions on the part of those persons involved in the Activity constitute *negligence* or *deliberate intent* as referred to in section 171(3) of the MFMA?
 - 9.9 Must the official or officials involved be held liable for the FWE incurred in terms of section 32 of the MFMA?
10. As stated, the biomass which was removed so far constitutes only a small part of the total biomass remaining on Farm 369 and elsewhere, so there is a possibility of further financial loss. MRFMPCP subregulation 10(2) may therefore apply.
11. Given the manifest environmental impact of the Activity, and given that the process of biomass removal on Farm 369 and elsewhere remains ongoing, decisions to be taken both with respect to the Activity as well as similar future activities impact the environment. Therefore, adequate and appropriate opportunity for information and public participation must be provided in terms of sections 23, 24, 28 and 31 of the National Environmental Management Act of 1998. We therefore do expect regular and timely feedback on the progress of the investigations and proceedings resulting from the present allegations. In particular, the outcome of the preliminary investigation (MRFMPCP regulation 5), of the full investigation (regulation 6), and of the tabling in Council (regulation 6) and possible escalation to National Treasury in terms of regulation 19 of the MRFMPCP are of interest to us and the public at large.
12. A complaint has been lodged separately with DEADP.
13. Our investigations into the logging which had taken place in the Paradyskloof and Botmaskop municipal plantations between October 2020 and April 2021 are continuing separately. We shall communicate in due course on that matter.
14. We reserve our rights to take further steps and approach other bodies and institutions in this and related matters.

Yours respectfully,

Hans C Eggers

Insake : Riooldrein

Hiermee wil die Volkskerk van Afrika, Stellenbosch haar misnoeë uitspreek oor die situasie rondom die riooldreine wat die afgelope paar maande oorspoel het.

Die aangeleentheid is onder die aandag van die betrokke departement gebring en hulle het ontvangs van die klagte erken op 13 Jan 2023 met verwysing nr SN_000006754.

Sederdien was daar weer 2 geleenthede waar die oorspoeling herhaal is, vandaar hierdie skrywe aan u om ons ongelukkigheid oor te dra. Behalwe vir ongerief, kan so iets ook 'n gesondheidsrisiko meebring.

Die oorsaak was blykbaar 'n verstopping in die hoofdrein in Juffernbruchstraat. Die rou menslike afval het by die dreine op ons perseel uitgekom en tot in Kahlerstraat gevloei. Dit was baie onaangenaam en ons moes selfs die Brandweerdienste uitroep om die perseel te kom ontsmet.

Ons kommer is dat met die wintermaande wat aankom, ons weer dieselde onsmaklike belewenis kan ervaar. Daarom doen ons 'n vriendelike beroep dat die dreinstelsel in Juffernbruchstraat vroegtydig nagegaan word om 'n herhaling van die insidente te voorkom.

Hieronder is fotos as bewyse van die klagte.

Ons vertrou dat die aangeleentheid die nodige aandag sal geniet.

Die Uwe

Geagte Raadslid,

Ek sou bittergraag vanaand se beplande IDP vergadering wou bywoon, maar tyd en skedule laat bywoning enter nie toe nie.

Ek het wel 'n paar bekommernisse rakende aspekte binne Groendal, wat my hewig ontstel:

1. Die hoë maandelikse belasting wat ek maandeliks moet opdok, terwyl ek ervaar dat elke onwettige immigrant en mense uit die Oos Kaap in die Langrug Informele Nedersetting, maar net kan kom plak waar en wanneer hulle wil en alles verniet kry, van water, elektrisiteit tot boumateriaal.
2. Die insypeling van onwettige immigrante in die woonbuurt, hul oorneem van werke in restaurante, die sekerheidsbedryf en talle ander werke en geen betaling van belasting.
3. Die oprigting van mobiele winkels om elke hoek en draai, terwyl asielsoekers volgens beleid nie eens bankrekeninge mag open nie.
4. Eienaars van mobiele winkels beroof inwoners daaglik deur ekstra heffings op aankope soos krag, lugtyd en ander koepons, deur R5 - R12 ekstra by elke aankope te voeg, met die verskoning hul kaart masjien se kostes moet gedek word.
5. Die ou plaas opstal by die Taxi rank, waarvoor Agnieszka's Haven jare gelede aansoek gedoen het deur o.a Widmark Moses, Gerald Easu en ook Gesie van Deventer, het agv nepotisme en geldelike gewin in die hande geval van mense wat die plek beplak, bemors en afbreek. Die daarstelling van 'n rehabilitasie Sentrum het nooit gerealiseer nie en word die pragtige postal gevandaliseer en onwettig bewoon.

Dit is my uitsluitlike versoek dat bogenoemde op die IDP Agenda genotuleer moet word en dat ek van antwoorde daarop voorsien moet word en kan 'n vergadering in die verband met my geskeduleer word.

By voorbaat dank.

The continued use of Teams and all the associated technical problems just show that Teams is a big mess.

Meetings can be rescheduled but there is load shedding today (20 April) as it was yesterday starting at 10am.

Covid is long gone. The Teams technology was valuable in its time but this again shows how many disadvantages it brings. It further widens the already huge chasm between this municipality's management and the people. It also excludes all who cannot conveniently sit at home.

Top management should stop using Teams for public engagements and return to in-person meetings.

Please refer to the FSM submission of 29 September 2022 where we already highlighted the problems of Teams usage.

Kindly note that the present problems are NOT the making of the IDP office and management, but of top management. They are responsible for this mess, not the IDP office.

Regards

HC Eggers

Subject: [EX] Re: PUBLIC NOTICE: 1ST DRAFT AMENDED STELLENBOSCH MUNICIPAL SPATIAL DEVELOPMENT FRAMEWORK CALL FOR PUBLIC COMMENT

Good afternoon All

Many thanks for all your efforts in preparing the draft MSDF. I have looked through it in detail and unless I have missed something, it seems like there has been no change to the section on Raithby which is the closest reference point to my property. In my opinion though, the facts stated in the 2019 MSDF and the draft 2023 MSDF, are not entirely correct. The MSDF states that the area has preserved its historical appearance of a small rural village with long residential plots stretching down to the river. In fact there are some modern developments within the Raithby village zone which are not in keeping with that description, but have in my opinion not negatively affected the Raithby appearance or community. I note that there seems to be a stated intention to protect, preserve and improve the facilities and community in Raithby and that focus is on development of undeveloped erven within Raithby.

I also note that the size of the Raithby population in the Stellenbosch area is only 0,5%/0,8% which indicates that Raithby area is unlikely to generate sufficient funds through rates to do any upgrades and by focussing on the development of open erven within Raithby this is unlikely to changes such development will be of marginal value to the rates base. In addition, because the Raithby population number is so small, this is hardly going to be a priority for Stellenbosch. I have also heard that the water plant/sewerage plant in Raithby requires an upgrade to deal with existing demands and this too will be demanding on the rates budget.

There are already a number of small residential erven between Raithby and Winery [Road.To](#) the south of Raithby lies Rustenburg Farm which was originally developed as a dairy farm since the soil quality was deemed too poor for most other types of farming. The dairy farming enterprise was abandoned as being non commercial in that location and not able to compete with the existing dairy producers in the Western Cape. Rustenburg Farm is now an addiction centre and just south of that are the farms of Normandie (Portion 4 of the Farm Rustenburg Annex No 686 measuring 4,3657 hectares), Halliford/Hartley Glen (Portion 4 of the Farm Halliford No 1256 measuring 13,9605 hectares) and my farm Heron Crest (Remainder of Portion 2 of the Farm Halliford No 1256 measuring 13,9606 hectares). None of these farms are operating as commercial farms as they are individually too small and the soil quality is marginal.

I would like to propose to the Council that the above mentioned farms be included in the Raithby node and that focussed development should be allowed on these farms which would significantly increase the rates contribution and at the same time allow for the upgrade of the water/sewerage plant. Such development to be sympathetic to and complimentary with the historical significance of Raithby and supportive of the objectives outlined in the MSDF. There is already considerable cooperation between the farms and Raithby through the Neighbourhood Watch system and charitable donations to the Raithby school.

A relatively high value, low density type development is envisaged which would not negatively impact the historical character of the core Raithby precinct.

Thank you in advance for your consideration of this proposal.

Regards

Gavin Routledge

On 30 Mar 2023, at 15:09, Spatial Planning <Spatial.Planning@ Stellenbosch.gov.za> wrote:

PUBLIC NOTICE: INTERESTED AND AFFECTED PARTIES
CALL FOR PUBLIC COMMENT ON THE FIRST DRAFT AMENDED MUNICIPAL SPATIAL DEVELOPMENT FRAMEWORK

Council approved the Stellenbosch Municipal Spatial Development Framework (MSDF) in November 2019, and the current MSDF is a set of documents, with related plans, which spatially illustrates the desired future growth and spatial development pattern and path of all areas within the Stellenbosch Municipal area, as well as strategies and policies regarding the manner in which to achieve the spatial objectives. The MSDF is a component of the Municipal Integrated Development Plan and various sets of legislation (Municipal Systems Act, 2000 (Act 32 of 2000), read in conjunction with the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013), the Western Cape Land Use Planning Act, 2014 (Act 3 of 2014), and Section 3 of the Stellenbosch Municipality Land Use Planning By-Law (2015) make provision that the MSDF may be reviewed and updated from time to time and that a participative and project steering committee process may be followed.

Stellenbosch Municipality intends to amend the MSDF (2019) and the public and all interested and affected parties was invited to participate in the process of amending the Stellenbosch Municipal Spatial Development Framework and to register as interested and affected parties during September 2022. As a registered interested and affected party please note that approval for commencement of the public participation process for a period of 60 days for comments on the draft amended MSDF as approved at the Council meeting on 29 March 2023. You are hereby invited to submit written comments and representations in connection with the first draft amended MSDF by electronic mail to the Manager: Spatial Planning at Spatial.Planning@ Stellenbosch.gov.za on or before **30 May 2023**.

The first draft amended MSDF is available on the Stellenbosch Municipality's website (www.stellenbosch.gov.za/) and hard copies will be available at the local libraries and satellite offices as reflected in the table below, including the public participation dates and venues.

Area	Place	Public participation date & venue

Subject: [EX] Capital Expenditure Framework and "Infrastructure Master Plans"

Good morning,

the draft IDP and MTREF were together advertised for public comment, for example in Eikestadnuus on 30 March.

No mention was made, however, of the Capital Expenditure public participation process or comments, even though the CEF is supposed to be made available for comment (see item 8.3 of the Council meeting of 2023-03-29).

Could you please clarify exactly what the status is of the CEF:

- * Will there be a separate PPP for it, and if so, when will that be done?

- * According to the attached Figure 1-3 of the CEF, it is supposed to be informed by the existing MSDF. On which complete MSDF version was the CEF dated January 2023 based? The June 2019 MSDF?

- * The same Figure 1-3 and the draft CEF rely on the hierarchy

MSDF --> Infrastructure Master Plans --> CEF --> IDP --> MTREF

I find no legal basis for this hierarchy in SPLUMA. SPLUMA does not refer to "Master Plans" at all, nor to "Sectoral Plans". The Municipal Systems Act also puts the IDP at the top of the planning hierarchy, along with the MSDF, the CIP and the SEMF. The MSA makes no reference to "Master Plans" either.

What is the legal basis for the above approach followed by the 2023 draft CEF?

Thank you

HC Eggers

Good day Catherine

As requested by Gurswin Cain, I resubmit the following input, for inclusion in the Draft IDP:

Please include under the Martinson Road activities as Priority 1: "The painting of a pedestrian crossing and provide signage in Martinson Road, across from the Junior Academy, allowing parents and children safe access across this busy road."

Thank you so much.

Hello Catherine

Hoop dit gaan goed aan jou kant te midde van hierdie druk tyd wat julle nou deurgaang.

Daar is een versoek vanuit die buurt wat ons graag bygevoeg wil kry in die GOP dokument alvorens die publieke proses begin. Julle hulp word baie waardeer.

Onder die prioriteit 1 punte rakende Martinson Straat, vra ons asb. dat die volgende bygevoeg word:

"The painting of a pedestrian crossing in Martinson Road, across from the Junior Academy, allowing parents to safely take their small children across this busy road."

Vriendelike groete

Goeie dag mnr van Wyk,

Dankie vir jou e-pos.

Alle wyksinsette wat tydens die openbare deelnameprosesse van die munisipaliteit ontvang word, word saamgevat en aan die onderskeie wyksraadslede voorgelê. Die wyksraadslede werk deur die lys van insette wat ontvang is en hersien daarna (indien nodig) hul lys van wyksprioriteite.

Dus, as u wens is dat die basketbalbane op die wyksprioriteitslys van u wyk moet wees, is dit my aanbeveling dat u dieselfde met u wyksraadslid en/of wykskomiteelid kommunikeer.

Dit sal mnr Abrahams in staat stel om (indien enige) beskikbare hulpbronne na die basketbalbane te rig, indien so geregverdig deur 'n uitvoerbaarheidstudie.

Vriendelike groete,

Gurswin Cain

Subject: [EX] IDP - Basketball Banne

Goeie dagsê Mr Cain

Ek vertrou dit gaan goed en wens U a voorspoedige 2023.

Ek was Maandag in vergadering met Mr Garth Abrahams...in verband met Basketball op Stellenbosch. Ek het net voor Covid 2019 begin daarmee en wou dit nou hierdie jaar verder vat.

Daar was geen begroting vir banne in die vorige boek jare nie en dit was voorgestel en versoek dat ek vir Basketball bane aansoek doen deur die IDP.

Ek het verlede jaar deur jul WhatsApp stelsel aansoek gedoen.

Soos ek verstaan is daar weer nie begroting toe gedien nie.

Dit was voorgestel dat ek by U klaring moet ontvang.

Kan U asseblief die pad vorentoe verduidelik?

Hoor graag van U.

Groetnis

1st Review of the 5th Generation IDP 2022-2027

Comments by the Franschhoek Heritage & Ratepayers Association (FHRPA)

April 29th 2023

Ward 1 Priorities.

Priority 4: Property Management

Priority

Description:

Development of an Amphitheatre and Wine Museum on the Franschhoek Circus Ground.

IDP Deliverable:

This is a heritage site, therefore, development of an Amphitheatre is not deliverable and the Wine Museum is not feasible.

Departmental Comment:

Unfortunately, the implementation of the ward priority is not feasible due to the heritage status of the site

FHRPA Comments:

As there is now a wine museum at Babylorenstoren, the possibility of a wine museum in Franschhoek will not be pursued at this time. However, it remains the FHRPA's and Ward 1 Committee's absolute conviction that the Circus Ground needs to be developed to provide a better and more attractive recreational space for the benefit of the wider Franschhoek community and an amphitheatre for the benefit of tourism in Franschhoek, Stellenbosch and the regional economy.

Attached as Annexure A is a plan showing how the Circus Ground can be simply and quickly developed. It was included in Franschhoek Heritage & Ratepayers Master Plan for Franschhoek as presented to the Municipal Manager, the Director of Planning and Economic Development, the Director of Infrastructure and other municipal officials in June 2021. Inclusion of the Circus Ground in the Stellenbosch Heritage Inventory as part of a Scenic Landscape requires that a development such as that shown in the Annexure A plan is compatible with and sensitive to that landscape and is not an insuperable impediment to all development.

The FHRPA with its architect members would like to have the opportunity of discussing this at an early date.

Priority 5: Local Economic Development

Priority

Description

Implementation of a policy and effective mechanisms to limit and control formula restaurants in historic areas of Franschhoek.

IDP Deliverable:

Land Use is currently managed in terms of the Stellenbosch Municipality Zoning Scheme Bylaw of 2019. Therefore, the proposed policy will infringe on persons rights to operate a business.

Departmental Comment:

It would rather be suggested that an urban design policy be developed to insure that the historical character (landscapes and building facades etc) of Franschhoek is retained.

FHRPA Comments:

Except as permitted by applicable planning and zoning laws and bylaws, no one has the right to operate a business wherever they choose to do so.

As pointed out in the Memorandum re Fast Food Restaurants in Franschhoek submitted by the FHRPA to the department in June 2021 (Annexure B), the Stellenbosch Municipality Zoning Scheme Bylaw of 2019 restricts the use of premises in the Historic Area of Franschhoek for car showrooms and plant nurseries without a Consent Use. The principle of such a restriction is, therefore, established. The proposal in the Annexure B Memorandum is for the same restriction to be applied to formula restaurants as defined in the draft amendment to the Zoning Scheme in the Annexure B Memorandum and there is a policy for deciding such applications.

Priority**Description**

Establish a policy to control and limit the use of private houses and flats for short term rental in Franschhoek.

IDP Deliverable

The use of private houses and flats for short term rental in Franschhoek is control (sic) and managed in terms of the Zoning Scheme Bylaw.

Departmental Comment

This is regulated by the municipal Zoning Scheme Bylaw.

FHRPA Comments:

Although the data it quotes needs to be updated, the motivation for the better control and regulation of the use of private houses and flats for short term rental (STR) in Franschhoek is given in the Proposal for a Short Term Rental Overlay Zone (STR Proposal) (Annexure C) submitted to the department in September 2020 by the FHRPA and the Van Wijk & Cabriere Street Residents Association and again to the Municipal Manager, the Director of Planning and Economic Development and other municipal officials at a meeting in June 2021 along with the Master Plan and the Memorandum re Fast Food Restaurants in Franschhoek.

As noted in paragraph 5.2 of the STR Proposal, **"in a count on 15th August 2019, around 250 houses and flats within or close to Franschhoek's Urban Edge were listed"** for STR on the AirBnB and Booking.com websites and in paragraph 5.5 that a 2014 study by Professor Donaldson of Stellenbosch University estimated that 36% of houses and flats in Franschhoek were owned as second homes with the "Main function being investment", - i.e. used for STR purposes.

It is believed that since Covid, the number of houses and flats in Franschhoek listed on the AirBnB, Booking.com and similar platforms and bought solely for STR purposes has increased . It is not known how many have Consent Use for a a Guest House or a Tourist Dwelling Unit or but it is thought that very few (if any) have either or the owners are even aware of the need for it.

Furthermore, recent developments of houses and flats in Franschhoek are reasonably believed to have been designed more for STR purposes instead of long term rental where there is an acute shortage houses and flats available at affordable prices and rents due in large measure to the number used for STR purposes.

The STR Proposal notes that in terms of s28 of the Zoning Scheme Bylaw **"should rental [of a dwelling unit] on a short-term basis exceed 30 calendar days per year, the relevant application for a guest house or tourist dwelling unit, as the case may be, shall be required"**.

It is not believed, however, that "The use of private houses and flats for short term rental in Franschhoek is [effectively] control (sic) and managed in terms of the Zoning Scheme Bylaw." If such use is being effectively controlled and managed, the department is asked to tell the FHRPA:

- what criteria are applied in deciding applications for Consent Use for a Tourist Dwelling Unit or a Guest House in Franschhoek; and
- how many flats and houses in Franschhoek have Consent Use for a Tourist Dwelling Unit or a Guest House in Franschhoek.

A. Ward 2 Priorities

Although, "a priority is to Use open Spaces in Bosbou and Groendal to build houses to address the backlog of housing in ward 2", no Deliverable Target year is given.

The FHRPA is surprised by the Departmental Comment that "Council has requested the administration to investigate possible housing/business options on erven 412 and 217 and 284, Groendal" and there are not as yet more developed plans after the positive and constructive discussion at the Teams Meeting on 22nd November 2022 of the Councillors for Wards 1 and 2, a co-chairperson of the FHRPA, municipal officials facilitated by the Deputy Mayor.

After this meeting, the attached memorandum (Annexure D) signed by the Councillors for Wards 1 and 2, and the Chairpersons of the Franschhoek Chamber of Commerce and the FHRPA with proposals for Development Objectives and Design Parameters and Guidelines for erven 412, 217, and 284 was submitted to the municipality. A follow up meeting is requested.

Memorandum re Fast Food Restaurants in the Franschhoek Urban Conservation Overlay Zone

4th June 2021

1. The fake news that Burger King was opening at the ex-Foliage unit alerted us to the possibility of this and the need to take action to prevent it.
2. In 1996, Calistoga (population of about 5,200) in Napa Valley in California defined and banned "formula restaurants" in order to "to preserve the unique and historic character of Calistoga's downtown commercial district ... which has become a cornerstone of the visitor industry which is a key component in the City's economy"
3. In terms of s252 (g) of the Stellenbosch Zoning Scheme By-law of 2019, in the Franschhoek Urban Conservation Overlay Area "... the following land uses shall require the approval of a consent use and may be refused if in the opinion of the Municipality it may have a detrimental impact on the conservation character of the area: (i) motor showrooms, public parking areas and parking garages; (ii) plant nurseries; (iii) supermarkets, shopping centre".
4. By amending the Zoning Scheme by adding a definition and "formula restaurants" as (iv) to s252 (g) they can be made a Consent Use. A draft amendment incorporating the Calistoga definition of "formula restaurants" is below.

Draft Amendments to the Stellenbosch Municipal Zoning Scheme By-law

1. Additional Definition

There shall be inserted in **Clause 1: Definitions** the following definition:

"formula restaurant" means an eating establishment devoted to the preparation and offering of food and beverages for sale to the public for consumption either on or off the premises which, by contractual or other arrangement, established or recognized business practice, or membership affiliation, maintains any of the following:

- A. A business name common to a similar business located elsewhere;
- B. Standardized menus, ingredients, food preparation, uniforms, or other standardized features common to a restaurant located elsewhere;
- C. Interior decor common to a similar business located elsewhere;
- D. Architecture or exterior signs common to a similar business located elsewhere;
- E. Use of a trademark or logo common to a similar business located elsewhere; or
- F. A name, appearance, or food presentation format which causes it to be substantially identical to another restaurant located elsewhere.

In this definition, "located elsewhere" means elsewhere in the Republic of South Africa.

2. Additional Sub-sub clause

"formula restaurants" shall be inserted in Clause 252 (g) as sub-sub-clause (iv) thereof

_____ end of draft memorandum _____

A proposal to Stellenbosch Municipality for a Short-Term Rental Overlay Zone for Franschhoek

Submitted by the Franschhoek Heritage & Ratepayers Association and the Van Wijk & Cabriere Street Residents Association

28th September 2020

1. Executive Summary

1.1 A Short-Term Rental Overlay Zone for Franschhoek as proposed will:

- Be positive for municipal revenue by:
 - making owners pay business rates when STR Permits¹ are issued;
 - charging annual registration fees for STR Permits,
- Help reduce seasonality in employment and demand for goods and services;
- Help make existing and new housing development more affordable for middle income workers to achieve greater demographic and social diversity;
- discourage the purchase of houses and flats in the overlay zone for short term rental ("STR") use;
- protect legal accommodation establishments from unfair competition;
- maintain and protect the heritage of the overlay zone and the cohesion, viability and sense of place of the local community;

1.2 As organisations representative of the local community and a number of legally established guest houses in Franschhoek and registered with the Municipality as Residents or Ratepayers Associations, we are concerned by the proportion of entire dwelling units in the village being listed for short term rental to transient guests ² on platforms such as AirBnB and Booking.com and the implications for village life, its sense of place, heritage, affordability and demographic diversity.

1.3 In terms of s5 of the Municipal Systems Act of 2000, members of the local community (defined in that Act as residents, ratepayers and non-governmental organisations involved in local affairs) have the right to submit recommendations and representations to the Municipality and in terms of s195 of the Constitution it must be responsive to the needs of the local community.

1.4 In terms of s234 (1) of the Stellenbosch Zoning Scheme By-law of 2019 ("MZS"), **The Municipality may adopt, amend or withdraw an overlay zone for a particular area, land unit or the municipal area as a whole.** (emphasis added)

¹ Described in paragraph 1.5

² The MZS defines a "transient guest" as "a person receiving accommodation against payment in a furnished bedroom or suite in a bed and breakfast establishment, guest house, tourist dwelling, hotel or tourist accommodation establishment, where the accommodation is provided on a day-to-day or short-term basis, often quoted on a daily or weekly price;"

1.5 The Council is asked to adopt a Short-Term Rental Overlay Zone applicable to dwelling units in the part of Franschhoek edged green on the map in the Schedule hereto in the Conventional, General and Group Residential Zones to provide in terms of the draft clauses in the Schedule hereto that:

- Subject to the conditions specified below the Council may grant a permit ("STR Permit") for the use of a dwelling unit in the Short-Term Rental Overlay Zone for short-term rental for more than 30 days in a year;
- There may only be a specified number (50 initially) of unexpired STR Permits;
- An STR Permit will be valid for a period of not more than 12 months; and
- An application for an STR Permit in terms of s28 (3) of the MZS (see 4.7 below) will only be granted if the applicant:
 - is a natural person;
 - was a permanent resident of the dwelling unit in the 6 months before the date of the application;
 - pays the application and STR Permit fees.

2. The international context

2.1 In most jurisdictions which regulate them, STR is permitted for up to 30 days a year.

2.2 It is recognised in major tourist destinations that while STR can benefit visitors and homeowners it can also have negative impacts for the local community some of which are mentioned below but typically because they are seen to:

- reduce the number of permanent residents, demographic diversity, cohesion, viability, quality of life and sense of place of local communities;
- reduce the number of dwelling units available for permanent residents;
- increase rents and prices of dwelling units;
- distort development by providing dwelling units more suitable for STR than permanent occupation;
- result in anti-social behaviour;
- enable owners of STR dwelling units to avoid regulatory requirements and tax liabilities and unfairly compete with legal hotels, guest houses etc.
- derogate from core heritage values of the area where these are relevant – e.g. the residential character of Franschhoek which is part of its heritage.

2.3 While there is currently no empirical evidence for Franschhoek, it is reasonable to assume that with the proportion of its housing stock being used for STR (as discussed below) and the empirical evidence from the many other destinations mentioned in studies referred to in this proposal, Franschhoek is affected to some degree by each of these negative impacts and their cumulative impact is even more significant.

2.4 These negative impacts in towns and cities globally are discussed in a comparative analysis and synthesis of the findings of research papers by The Urban Media Lab which concludes that *“the growth of short-term rentals . . . erodes the neighbourhood identity, attracts new investors for buying or developing more and more units [for STR], which in turn increases the scarcity of housing, prompts landlords to raise rents [and] threatens community bonds.”*³ It also quotes a Deputy Mayor of Paris saying, *“Airbnb threatens the soul and identity of a number of neighbourhoods. We cannot remain inert in this situation. All the big cities of the world are facing this problem. If we do not regulate Airbnb, we will no longer have inhabitants in our city centres.”*

2.5 In over 20 of the US cities that licence STR⁴, almost all require that as a condition of an STR licence, the property is the primary residence of the host or the host is present.

3. The national context

3.1 A draft Tourism Amendment Bill was published in April 2019 to amend the Tourism Act of 2014 and to empower the minister to publish *“norms and standards”* for *“short-term rental”* defined as *“the renting or leasing on a temporary basis for reward of a dwelling unit or a part thereof to a visitor”* after a consultation process.

3.2 It was understood in the hospitality industry that this was aimed at regulating AirBnB and similar platforms and representations were made accordingly. As at the date of this proposal a draft *“norms and standards”* has not been published for consultation, there has been no indication as to what they may be or how they may be enforced; and the status of this draft Bill in the legislative process is also unknown.

4. The local heritage, policy and legislative context

4.1 Although its origins as a human settlement can be traced back 150 years or so earlier, Franschhoek was formally established as a human settlement in 1845. Its residential character is, therefore, an essential and integral component of both its heritage and, therefore, the quality of its visitor experience and its value as a tourist asset.

4.2 The residential character of an area is derived from its residential properties giving it a residential appearance but also - and most crucially - from their occupation by permanent residents. Put another way, to the extent houses in an area are occupied by a succession of transient guests instead of permanent residents, its residential character is diminished. And put at its simplest level, a neighbourhood's residential character and sense of place depend on permanent residents knowing each other.

⁴ <https://www.2ndaddress.com/research/short-term-rental-laws/>

- 4.3 A purpose of designating the Historic Area of Franschhoek as an Urban Conservation Zone in the MZS is “the enhancement of the value and amenity of the area, both for present and future users;” which means both permanent residents and visitors.
- 4.4 A Spatial Proposal for Franschhoek in the Municipal Spatial Development Framework of November 2019 (MSDF) is to “Maintain the integrity of historically and culturally significant precincts and places”. The maintenance of the residential character of the Historic Area of Franschhoek accords with this Spatial Proposal.
- 4.5 The MSDF also notes that: “Property and land is inordinately expensive in SM (particularly in Stellenbosch town and Franschhoek), locking out both the poor and lower/ middle income workers from the property market. **Without significant intervention in the property market, this situation is likely to worsen.**” (emphasis added)
- 4.6 In terms of the MZS, letting up to 3 rooms in a “dwelling unit” (as defined in the MZS) on an STR basis to Transient Guests with or without meals hosted by a permanent resident (as defined in the MZS) ⁵ who continues to reside in it is permitted in the Conventional, Less Formal Residential, Mixed Use and other zones as an Additional Use for which only a Technical Consent is required. It allows home owners to supplement their income and provide additional and alternative accommodation for tourists that benefits the local economy. There is no objection to this. There is also no objection to letting a dwelling unit on a long-term basis.
- 4.7 In terms of s28 (3) of the MZS “should rental [of a dwelling unit] on a short-term basis exceed 30 calendar days per year, the relevant application for a guest house⁶ or tourist dwelling unit, as the case may be, shall be required”.

5. The local context

- 5.1 Franschhoek is only a microcosm of towns and cities worldwide that are tourist destinations and regulate STRs, but it has also experienced a dramatic increase in the number of houses and flats being offered for STR on AirBnB and similar platforms and needs to respond in a similar way if its residential character (an essential component of both its heritage and the visitor experience) and population are to be maintained.

⁵ In the MZS a “permanent resident” is defined as meaning “a person who intends to use a dwelling unit for living accommodation of him/herself with or without a family for at least 75% of the days of a calendar year (or proportionately for that part of the year that after date of occupation) and who has been resident in that dwelling for at least 60 consecutive days. A permanent resident may be an owner or a lessee, and the Municipality may request documentary proof of permanent residency in that property, such as a utility account, lease contract, TV license, bank statements or any other proof of permanent residence which in the Municipality’s sole opinion confirms the property as being the person’s permanent residence. A person may only have one permanent residence, and **“permanent residence”** has a corresponding meaning.”

⁶ Having regard to the MZS definition of guest house, an application for a Consent Use for the STR letting of a dwelling unit for more than 30 days in a year would be inappropriate. The appropriate application for such use is for a Consent Use for a tourist dwelling unit in terms of the Municipal Planning By-law of 2015 and the MZS.

- 5.2 The number of entire dwelling units (as distinct from rooms only) available for STR on the Booking.com and AirBnB platforms in Franschhoek varies but in a count on 15th August 2019, around 250 houses and flats within or close to Franschhoek's Urban Edge were listed. On the same date, Franschhoek Tourism listed over 40 B&Bs, guest houses and hotels in approximately the same area.
- 5.3 A study published in 2014 by Professor Ronnie Donaldson of Stellenbosch University and others entitled "*'Living apart together' in Franschhoek, South Africa. The implications of second-home development for equitable and sustainable development*"⁷ ("the Donaldson Study") estimated that 319 (36%) of 883 residential properties in Franschhoek South are "*assumed to be second homes*" with the "*Main function being investment, followed by Vacation home*".
- 5.4 As the main function of ownership of 319 second homes in Franschhoek is investment, it is very likely that most are used for STR purposes to maximise their yield.
- 5.5 If the remaining 564 (883 – 319) residential properties were primary residences, many are likely to have been in the four main gated estates – Petite Provence, Domain des Anges, Ferme Chantelle and the Fransche Hoek Estate – where there is a total of 228 dwelling units and Home Owners' Associations do not permit STRs. The percentage of 336 (564 – 228) residential properties in the village outside the gated estates (i.e. in the proposed Short-Term Rental Overlay Zone) that can be "*assumed to be second homes*" is, therefore, likely to be very significantly higher than 36%.
- 5.6 However, assuming that all of the 336 dwelling units in the proposed Short-Term Rental Overlay Zone were each occupied by an average of 2.5 permanent residents (given the demographic profile described in the Donaldson Study) its population may have been i.r.o. $2.5 \times 336 = 840$ in 2014.
- 5.7 The adverse implications of second-home ownership in Franschhoek for equitable and sustainable development described in the Donaldson Study are likely to have been exacerbated since 2014 by the growth in the number of dwelling units available for STR and developments specifically for STR and priced for investment yield instead of a price affordable for a permanent resident.
- 5.8 As STR dwelling units may be mostly vacant from the end of April to early October, the employment they create can be both seasonal and occasional at all times depending on occupancy rates whereas dwelling units occupied by permanent residents or long-term tenants maintain a more even level of employment and local expenditure throughout the year. Furthermore, as many owners of STR dwelling units

are “investors” who bought them as “vacation homes”, it is unlikely that their STR income feeds into the local economy.

6. Procedures and requirements for establishing overlay zones

6.1 In terms of s234 (2) of the MZS, “Where a new type of overlay zone is envisaged, the provisions for such overlay zone shall be adopted by Council the procedures set out in sections 12 and 13 of the Municipal Systems Act (Act 32 of 2000) and the Planning By-law to establish such overlay zone.” (sic)

6.2 Sections 12 and 13 of the Municipal Systems Act set out the legislative procedures for adoption and publication of by-laws. They do not need to be discussed here.

6.3 The Planning By-law is the Stellenbosch Municipal Planning By-law of 2015. The part of its definition of an overlay zone that is relevant to this proposal is that it is “a category of zoning that applies to land or a land unit in addition to the base zoning and that— (a) stipulates additional development parameters or use rights that may be more or less restrictive than the base zoning; and (b) may include provisions and development parameters relating to— (i) primary or consent uses;”

7. Compliance

7.1 It is understood that enforcement of compliance with by-laws generally is a problem for the Municipality as it has to refer offences to the National Prosecuting Authority where they are a low priority; and it is unrealistic to expect the Municipality to make a High Court interdict application to restrain an unlawful STR use in every case.

7.2 In many cities there are daily penalties for unlawful STR use – e.g. in San Francisco, “short-term rental laws are subject to penalties of at least \$484 per day for each dwelling unit in violation” and “Repeat violations may be subject to escalated penalties.”⁸ Although it has been challenged by AirBnB, in New York it is illegal to list on Airbnb and similar platforms. Fines for violations range from \$1,000 for the first violation, to \$5,000 for the second, to \$7,500 for three or more violations and \$2,500 per day for STR use of certain types of dwelling units.⁹

7.3 Accordingly, the draft overlay zone clauses in the Schedule provide for a cumulative per day penalty for unlawful STR use intended both as a deterrent and to make such use prospectively uneconomic.

7.4 It is proposed that guest houses and hotels in Franschhoek establish an STR Monitoring Unit that would gather and report evidence of unlawful STR and guest house use to the Municipality. It is understood that in the 2019/2020 season, there may have been more than 10 unregistered “pop up” guest houses operating in Franschhoek without the requisite zoning, insurance and payment of business rates.

⁸ <https://sfplanning.org/str/become-certified-host>

⁹ N.Y.C. Admin. Code Sec. 27.287.1

7.5 If there is evidence of unlawful STR use, business rates can then be levied and a Compliance Notice served that would be disclosable to a prospective purchaser and could adversely affect a future sale of the property.

7.6 An STR use may also be a breach of conditions of a bond on the property if given for its purchase as a residence and invalidate insurance.

8. Conclusion

The establishment of a Short-Term Overlay Zone in Franschhoek would:

- Be responsive to the needs of the local community (as per the Constitution of RSA) for the maintenance of the residential character of the village;
- Enhance the value and amenity of the Urban Conservation Area, both for present and future users, as envisaged in the definition of a conservation area in the MZS;
- Be a significant intervention in the property market as per the MSDP by reducing demand for residential properties for STR investment purposes so purchasers are more likely to be permanent residents and investors looking for long term rentals and such properties are priced accordingly;
- Ensure future developments of residential properties are designed for permanent residents instead of transient guests;
- Protect legally established guest houses and hotels from unfair competition;
- Enable the Municipality to benefit from business rates and fees for STR use;
- Help to maintain a more even level of employment throughout the year.

9. Recommendation

It is, therefore, the recommendation of the Franschhoek Heritage & Ratepayers Association and the Van Wijk & Cabriere Street Residents Association in terms of s5 of the Municipal Systems Act of 2000 that the Municipality establishes a Short-Term Rental Overlay Zone in the area of Franschhoek shown on the map and includes the provisions set out in the draft clauses in Schedule hereto.

10. Covid-19

The absence so far of transient guests from overseas in the 2020/2021 season and reduced numbers in the following season or seasons will impact employment and demand for local goods and services more severely than if STR dwelling units had been occupied by permanent residents. Other adverse impacts of STRs are in suspense but will progressively resume as international travel restrictions are lifted. There is now a window of opportunity to mitigate them by implementing this recommendation.

Schedule

Draft clauses for: **SHORT TERM RENTAL OVERLAY ZONE**

1. Zone name and designation on map

- (1) The Short-Term Rental Overlay Zone may be referred to by the code (STROZ) and shall be indicated on the zoning map in a unique colour outline.

2. Purpose of the zone

- (1) The purpose of the Short-Term Rental Overlay Zone is to control the short term letting of dwelling units to transient guests for more than 30 days in a calendar year ("short term rental") to:
- maintain and protect the heritage, cohesion, viability and sense of place of the local community in the overlay zone;
 - reduce seasonality in employment;
 - strike a balance between the need for short term rental accommodation for visitors in the overlay zone and the interests of the local community;
 - discourage the purchase of dwelling units in the overlay zone for short term rental;
 - help to make existing and new housing in the overlay zone more affordable for middle income workers to achieve greater demographic and social diversity;
 - ensure business rates are paid while a dwelling unit is used for short term rental;
 - protect legal accommodation establishments from unfair competition;
- (2) This overlay zone informs owners and permanent residents of dwelling units in the overlay zone of the conditions to be satisfied in making an application in terms of section 28 (3) of this by-law for the consent of the Municipality to such a dwelling unit being a guest house or tourist dwelling unit for short term rental; and provides the Municipality with a framework within which such applications shall be considered and decided.

3. Areas designated as Short-Terms Rental Zones

- (1) The council of the Stellenbosch Municipality may designate an area as a Short Term-Rental Overlay Zone which shall be recorded on a map.
- (2) The area edged green on the map below numbered STROZ1 is the Franschhoek Short-Term Rental Overlay Zone.
- (3) An area may be designated as a Short-Term Rental Overlay Zone having regard to the number of dwelling units therein used or available for short term rental with or without the consent of the Municipality, the purposes of the overlay zone referred to in Clause 2 (1) and any other factors that may adversely affect the local community in the overlay zone.

- (4) Use of a dwelling unit as a guest house or tourist dwelling unit for short term rental is a Consent Use in terms of the Planning By-law and this By-law and a permission of the Municipality to do so is an STR Permit.
- (5) After consulting the local community, the Municipality may specify and vary the maximum number of STR Permits that may be concurrently valid (although with different expiry dates) in an overlay zone.
- (6) The maximum number of STR Permits that may be concurrently valid in the STROZ1 overlay zone shall be 50 or such higher number as the Municipality may specify after consulting the local community.
