2. **Replace the Item ..... (Page .....):**

Current information

With:

Revised information

The following Questions were raised at the site meeting and were answered as follows:

Question 1: The 5kva run silent generator was deemed to be to large and bulky by all 5 the bidders present at the site meeting and that it would not be a viable option to install in the vehicle.

Answer: A normal 5kva generator would be a better option and would not take up as much space.

Question 2: The Panel Van that has to be converted to an IC vehicle has not been delivered yet by the Ford Motor Company and all 5 bidders present requested extra time so that they could view the vehicle for final measurements.

Answer: We would therefore like to request an extension of two weeks for the closing date of the tender from the 20/03/2023 to the 03/04/2023
