THE STELLENBOSCH MUNICIPALITY			
PLANNING REPORT: LAND USE AND LAND DEVELOPMENT APPLICATION: APPLICATION FOR CLOSURE OF PUBLIC PLACE, AMENDMENT OF GENERAL PLAN, CONSOLIDATION, REZONING, SUBDIVISION & DEPARTURES: ERVEN 1113 - 1154, KAYAMANDI (ALSO KNOWN AS PROJECT 5A)			
Application Reference	File Ref: LU/14055	**Application Date**	2022/05/17
		Last day for comments or additional information	2022/11/18

PART A: APPLICANT DETAILS			
First name(s) & Surname	Martin Jonker		
Company name	Plan 4 SA (PTY) LTD		
SACPLAN registration number	N/A		
Registered owner(s)	Stellenbosch Municipality	**Is the applicant properly authorised to submit the application**	Yes

PART B: PROPERTY DETAILS			
Property description	`Erven 1113 - 1154	**Administrative District**	Kayamandi, Stellenbosch
Physical address	Located between Forest Drive, School Crescent and the School (see **ANNEXURE A** for locality plan)		
Extent (m² /ha)	±1,2837 ha	**Nearest Town**	Kayamandi
Existing Development and Current land use	The properties are already built-up and includes buildings used for residential purposes.		

Any unauthorised building work	Yes
Title Deed Nr.	T59362/2002 (see **ANNEXURE B** for copy of title deed and conveyancer certificate)
Current zoning and approved land use rights as per Zoning Scheme Bylaw 2019	Conventional Residential Zone and Public Place

PART C: APPLICATION DETAILS	
Applications(s)	The application is made in terms of the Stellenbosch Municipal Land Use Planning By-Law, promulgated by notice number 354/2015, dated 20 October 2015, for the following: 1. The **closure of a public place** in terms of Section 15(2)(n) of the said bylaw of Erf 1120, Kayamandi. 2. **Amendment of the General Plan** GP3443/1993 in terms of Section 15(2)(k) of the said bylaw in order to facilitate the proposed development insofar as it relates to Erven 1113 – 1154, Kayamandi. 3. **Consolidation** in terms of section 15(2)(e) of the said bylaw of Erven 1113 to 1122, Kayamandi to form consolidated Erf 1981, Kayamandi (±3 615m² in extent); and Erven 1123 to 1154, Kayamandi to form consolidated Erf 1980 (±9 221m² in extent)). 4. **Rezoning** in terms section 15(2)(a) of the said bylaw of Erven 1113 – 1154 (consolidated Erf 1980 and Erf 1981), Kayamandi from Multi-Unit Residential and Public Place to Subdivisional Area to allow for the following uses (and in accordance with the land use framework plan as depicted in plan referenced **Zoning Plan 21P004(5A)-TRP-ZP-20220126-Rev D01, Plan Nr 4, drawn by Plan4SA Professional Planners & Project Managers)**:

4.1 175 x **Less Formal Zone** erven and ±8 290,12m² in extent for less formal housing purposes

4.2 9 x **Public Road and Paring Zone** erven and ±4 544,97m² in extent for road and parking purposes.

5. **Subdivision** in terms of section 15(2)(d) of the said bylaw of consolidated Erf 1980 and Erf 1981, Kayamandi into 184 erven and in accordance with **Zoning Plan 21P004(5A)-TRP-ZP-20220126-Rev D01, Plan Nr 4, drawn by Plan4SA Professional Planners & Project Managers** to allow the residential development in accordance with the subdivisional zone above.

6. **Departure** in terms of section 15(2)(b) of the said bylaw to increase the permissible coverage as follows:

   a) *on unregistered Erven 2021 and 2029 from **80%** to **81%;***
   b) *on unregistered Erven 1994, 2038, 2057 & 2159 from **80%** to **82%;***
   c) *on unregistered Erf 2055 from **80%** to **83%;***
   d) *on unregistered Erven 1993, 2018 & 2149 from **80%** to **84%;***
   e) *on unregistered Erven 2134 and 2154 from **80%** to **86%;***
   f) *on unregistered Erf 2155 from **80%** to **88%;***
   g) *on unregistered Erf 2014 from **80%** to **90%;***
   h) *on unregistered Erf 2106 from **80%** to **91%;***
   i) *on unregistered Erf 2092 from **80%** to **93%;***
   j) *on unregistered Erf 2093 from **80%** to **94%;***
   k) *on unregistered Erf 2073 from **80%** to **95%;***
   l) *on unregistered Erven 1995, 2000, 2010, 2017, 2046, 2047, 2080, 2085, 2087, 2097, 2114 & 2157 from **80%** to **100%**.*

7. **Departure** in terms of section 15(2)(b) of the said bylaw by reducing the minimum required on-site parking bays from **one** (1) parking bay per dwelling house to **0** bays per dwelling house on all residential erven.

8. **Departure** in terms of section 15(2)(b) of the said bylaw for the relaxation of the building lines (for all other buildings) as follows:

   a) the street building line from **1,0m** to **0m** on one of the streets for the following unregistered erven: 1985, 1987, 1991 – 1994, 1996, 1998, 2000, 2001, 2005, 2007, 2009 – 2011, 2014, 2015, 2017, 2019, 2021, 2023, 2024, 2027 – 2031, 2033, 2035, 2038 – 2040, 2045 – 2048, 2050, 2052, 2053, 2056 – 2058, 2061, 2062, 2065, 2067 – 2070, 2072, 2073, 2076, 2077, 2080 – 2085, 2087 – 2089, 2091, 2092, 2095 – 2098, 2102, 2103, 2106, 2107, 2110 – 2111, 2116 – 2119, 2122, 2123, 2125 – 2128, 2130, 2134, 2135, 2137, 2138, 2141, 2143, 2144, 2147, 2148, 2150, 2152 – 2154, 2156 – 2160, 2162 - 2164;

   b) the street building line from **1,0m** to **0m** on two of the streets for the following unregistered erven: 2060, 2063 & 2066;

   c) the common building lines from **1,0m** to **0m** on the following unregistered erven: 1982-1984, 1988, 1990, 1995, 1999, 2002 – 2004, 2008, 2011-2013, 2016, 2018, 2022, 2025-2027, 2030-2032, 2036, 2037, 2040-2045, 2047-2051, 2054, 2055, 2057, 2061, 2062, 2064, 2069, 2070, 2071, 2074, 2075, 2078, 2079, 2086, 2090, 2093, 2094, 2099-2101, 2104, 2105, 2108-2110, 2114, 2115, 2120, 2121, 2124, 2129, 2131-2133, 2136, 2139, 2140, 2144-2146, 2149, 2153-2155, 2161.

9. **Departure** in terms of section 15(2)(b) of the said bylaw for the relaxation of the building line (for shelters) as follows:

   a) the street building lines from **1,0** to **0m** on one street building line for the following unregistered erven: 1982, 1991, 1998, 1999, 2002-2005, 2008, 2012, 2013, 2016, 2019, 2022, 2026, 2028, 2031, 2040, 2041, 2045, 2048, 2050, 2057, 2065, 2070, 2071, 2077, 2079, 2082, 2086, 2089, 2091, 2093, 2098-2101, 2103, 2108, 2110, 2112, 2114, 2115, 2121, 2123, 2127, 2128, 2133, 2136, 2140, 2143, 2145, 2146, 2149, 2153, 2154, 2156, 2161, 2163, 2164;

	b) the street building line from **1,0m** to **0m** on two streets for the following erven: 1987, 1992-1994, 1996, 2007, 2014, 2015, 2018, 2021, 2023, 2024, 2029, 2033, 2035, 2038, 2039, 2046, 2047, 2049, 2055, 2058, 2064, 2068, 2069, 2072, 2076, 2084, 2095, 2096, 2102, 2113, 2119, 2124, 2130, 2134, 2135, 2137, 2138, 2141, 2147, 2148, 2152, 2155, 2158,, 2159, 2162; c) the street building line from **1,0** to **0m** on three streets for unregistered Erven 1995, 2000, 2010, 2017, 2073, 2080, 2085, 2087, 2092, 2097, 2106, 2125, 2157; d) the common building line from **1,0m** to **0m** for the following unregistered erven: 1984, 1990, 1991, 1993, 2000, 2005, 2010, 2014, 2015, 2021-2024, 2028, 2029, 2033, 2035, 2038, 2039, 2045, 2046, 2050, 2058, 2061, 2065, 2068, 2072, 2073, 2076, 2079, 2080, 2084-2087, 2091, 2095, 2096, 2103, 2106, 2110, 2112, 2119, 2121, 2123, 2124, 2127, 2130, 2134, 2135, 2137, 2140, 2141, 2143, 2146-2148, 2152, 2153, 2156-2159, 2162; e) the common building lines from 1,0m to 0m on two common building lines for the following unregistered erven: 1982, 1995, 1996, 1998, 1999, 2002-2004, 2008, 2009, 2012, 2013, 2016-2018, 2026, 2031, 2032, 2040, 2041, 2047-2049, 2057, 2064, 2069-2071, 2074, 2075, 2082, 2090, 2097-2101, 2108, 2113, 2114, 2132, 2133, 2136, 2145, 2149, 2154,, 2155, 2160, 2161, 2163, 2164; f) the common building lines from **1,0m** to **0m** on three common building lines for the following unregistered erven: 2055, 2089, 2093 & 2115.
Purpose of Application	The purpose of the application is to obtain the necessary land use rights for Project 5A. This project entailed the development of 175 high density units and public open spaces. This is necessary to enable the Municipality to finalize the formal registration of the respective properties with the Surveyor-General and the Deeds Office so that the title deeds of the properties can be transferred to their respective owners.

Pre-consultation	No

PART D: APPLICATION BACKGROUND

1. Location of the property

The subject property (also known as Project 5A) is located between Forest Drive, School Crescent and the School in the old township area of Kayamandi, Stellenbosch. Kayamandi is located in the northern part of the town and houses the lower income communities of Stellenbosch. See **ANNEXURE A** for the locality plan.

2. Development context of surrounding area

The subject properties are surrounded by a mix of land uses that includes mainly less formal residential units, multi-residential, educational uses (school), private open spaces (stadium) and other mixed uses.

3. Historic use and development of subject property

The Kayamandi Township was originally proclaimed in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) and established as a development area with the creation of Erf 288, Kayamandi. The aforementioned erf was then subdivided after which the township register was opened in terms of the Upgrading of Land Tenure Rights Act, 1991 (Act 112 of 1991).

Kayamandi was then extended in terms of Proclamation Notice G.K 598/1991 with the acquisition of Portion 56 of Farm No. 183 (Erf 707, Portion 3 of Farm No. 181 (Erf 1070) and Portion 59 of Farm No. 183 (Erf 634). The new development area was then surveyed and established in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) with the registration of General Plans 7988/1991, 3443/1991 and 7989/1991.

The former Stellenbosch Transitional Council commissioned the preparation of a Spatial Development Framework for Kayamandi in 1995 to guide and direct the severe development pressure that existed in the Kayamandi Township at the time. During this process a number of

high priority housing projects were identified. This culminated in the approval of the Kayamandi SDF in September 1996 and the Housing Projects Plan in January 1997. The subject property was one of the priority housing projects that was identified.

The majority of the erven have never been formally registered in order to enable the individual transfer of these properties to their respective beneficiaries. The main reason for the aforesaid challenge was the Stellenbosch Municipality did not have the necessary authority to consider and approve the formal amendments of the General Plans due to the statutory provisions that applied in terms of the Black Communities Development Act, 1984 (Act 4 of 1984).

PART E: APPLICATION OVERVIEW AND MOTIVATION (See ANNEXURE D)

1. The land use rights for the properties in this project should already have been finalized approximately 20 years ago, however, due to various reasons, beyond the control of the Municipality, these land use rights were not finalized, and ownership of properties could not yet be transferred.

2. The primary objectives of this land use application are to legalize the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.

3. The properties in this project are located in an established urban area within the urban edge of Kayamandi.

4. The properties in this project have already been developed and dwelling units are already occupied.

5. The properties in this project have access to existing infrastructure and engineering services within Kayamandi.

6. No additional dwelling units will currently be constructed on the subject properties.

7. The existing land uses are compliant with the Stellenbosch SDF and consistent with other relevant local and provincial policies.

8. There are no negative environmental and heritage impacts as confirmed by the Western Cape Department of Environmental Affairs and Development Planning and Heritage Western Cape.

9. A letter dated 25 August 2021 from DEADP (reference: 16/3/3/6/1/B4/22/1270/21) confirmed that no listed activities in terms of NEMA EIA Regulations 2014 are triggered by the proposed land use applications.

10. Heritage Western Cape (HWC) confirmed in a letter dated 3 September 2021 that "*since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kayamandi, Stellenbosch will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.*"

PART F: PUBLIC PARTICIPATION, COMMENTS AND RESPONSE

1. Process followed

An application was made and motivated in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014), to exempt all five Kayamandi projects (known as 4A, 4B, 5A, 5B & 8) from the Publication and Serving of Notices as normally required by the provisions of Sections 43, 44 and 47 of LUPA (Act 3 of 2014).

On 13 October 2021, the Minister of Local Government, Environmental Affairs and Development Planning approved the municipality's exemption request and stated the resolution as follows:

"*That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch BE APPROVED in terms of Section 60(1) of the LUPA*". See **ANNEXURE E.**

2. Public & stakeholder inputs

Advertising was waived.

3. Government related inputs received

a) The **Heritage Western Cape** supported the proposal (see **ANNEXURE F** for letter dated 03 September 2021).

b) The **Department of Environmental Affairs and Development Planning** supported the proposal (see **ANNEXURE G** for letter dated 25 August 2021).

4. Comments from internal service departments

a) The **Director: Engineering Services** supported the proposal subject to conditions (see **ANNEXURE H** for memo dated 18 November 2022.

5. Response by Applicant to comments received

Not applicable.

PART G: ASSESSMENT OF LAND USE AND LAND DEVELOPMENT APPLICATION

1. Legislative and Policy Context of land use and land development application

The legislative/ principles/ policies/ guidelines/ plans which are considered as relevant to the subject land use and land development application, are as follows:

1.1 Stellenbosch Municipality Land Use Planning Bylaw, 2015

1.2 Stellenbosch Municipal Integrated Development Plan (2017 – 2022)

1.3 Stellenbosch Municipality Spatial Development Framework (2018)

2. Assessment of grounds of the land use and land development application

2.1 Land use principles

The application under consideration has insignificant bearing on development principles of spatial justice, sustainability, efficiency, and good administration as specified in Section 2 of SPLUMA. See table below:

DEVELOPMENT PRINCIPLES	KEY CONSIDERATIONS
Spatial Justice	The proposed development redresses past spatial and development imbalances by providing access to land for the previously disadvantaged communities in Kayamandi. The aim is to finalize the land use rights on the project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries. It therefore provides for security of tenure.
Spatial Sustainability	•The properties are located within the existing approved urban edge in the established urban area of Kayamandi. •The development already exists and does not encourage urban sprawl. •No new development will take place. •It is currently and will in future continue to make use of existing available infrastructure services capacity. •There are no environmentally or heritage sensitive areas in this part of Kayamandi.
Efficiency	•It optimises the use of existing infrastructure. •It optimises the use of existing available state-owned land. •It is already integrated in the current urban space economy of Kayamandi and will have no negative financial, social, economic or environmental impacts.

Good Administration	The application complies with and is submitted in accordance with the legislated land development processes and procedures.
Spatial Resilience	A key objective of the development/land use application is to finalize the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries and thereby improving the livelihood of the affected communities to ensure sustainable growth and development.

2.2 Applicable spatial development frameworks, guidelines, policies

The site is well located within the urban edge and within the neighbourhood of Kayamandi, Stellenbosch

2.3 Service infrastructure capacity and sustainability

Inani Infrastructure (Pty) Ltd was appointed to provide civil engineering services for the planning phases to formalize the existing structures on the five proposed project sites in Kayamandi. See **ANNEXURE I** for bulk services report.

The properties are located in an area that is already serviced. No additional/new development will take place and therefore there will not be an increase in demand for services.

The engineering department did not initially support the proposal due to outstanding information. The department requested a conceptual reticulation and erf connection layout for water and sewer to indicate how each erf is serviced. After the necessary information was submitted, the engineering department supported the application subject to certain conditions (see **ANNEXURE H** for comment).

2.4 Any investigations carried out in terms of other laws that are relevant (e.g. EIA, TIA, HIA etc.)

The **Western Cape Department of Environmental Affairs and Development Planning** confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorization is required.

Heritage Western Cape confirmed in a letter dated 03 September 2021 that "since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kayamandi, Stellenbosch, will impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

2.5 Applicable provisions of the zoning scheme

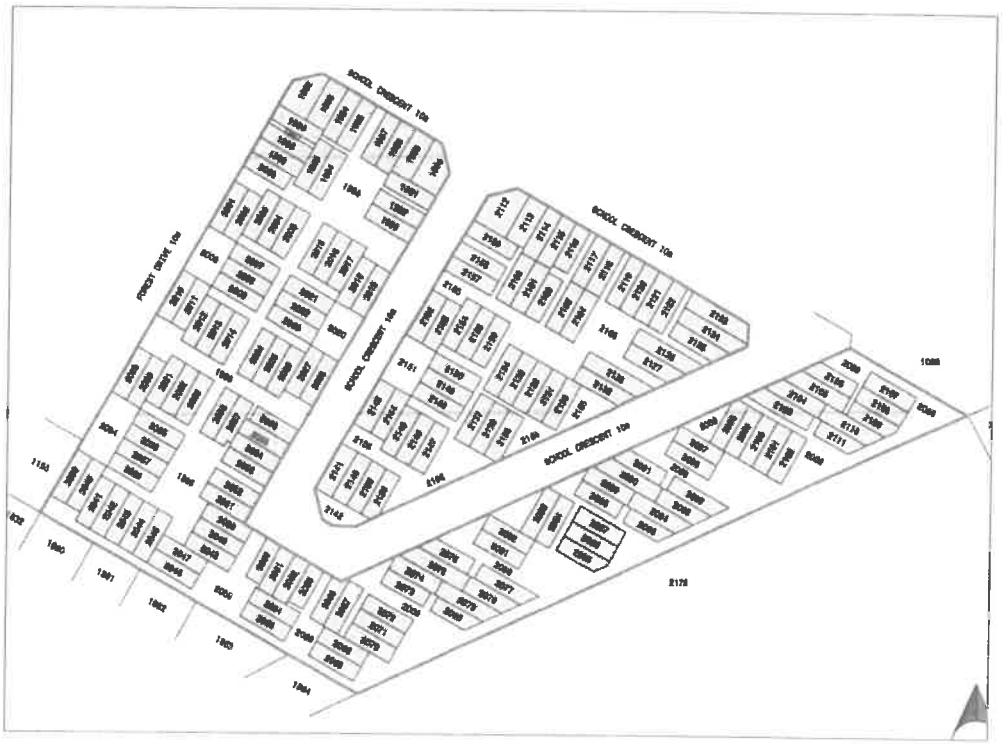

FIGURE 1: ZONING PLAN FOR PROJECT 5A

This project entailed the development of 175 high density units and public open spaces on Erven 1113 to 1154 Kayamandi. Although the General Plan was submitted for approval to the Western Cape Government, the registration could not be done since Erf 1120 was not closed as a public place. This project formed part of the envisaged hostel upgrading

programme for Kayamandi and was implemented and constructed during 2004. The amendment of the general plan to accommodate the registration of the new erven was not done to date, hence the new application.

The proposal is to close the public place on Erf 1120, Kayamandi; to consolidate erven 1113 – 1154 into two (2) portions; and to subdivide the two portions into 184 erven consisting of 175 residential erven and nine (9) public places. The proposed residential erf sizes will range from ±38,84m² and ±82,17m². The respective erf sizes for the public places are as follows:

	Erf Number	**Erf Size (m²)**
1.	1986	±1 191,98
2.	1997	±12,07
3.	2006	±88,39
4.	2020	±89,00
5.	2034	±120,04
6.	2059	±1922,65
7.	2142	±52,06
8.	2151	±93,77
9.	2165	±975,01
	TOTAL	**±4 544,97**

The existing properties contain 175 formal dwelling units. In addition to the 175 formal dwelling units, there are approximately 183 informal structures or "shelters" on the existing properties (*this was counted from an undated areal image obtained from TV3*). See **ANNEXURE C4** for dwelling unit plan.

It should be noted that many of the informal structures were erected across the proposed erf boundaries; some properties extend into the road reserve and some informal structures have been constructed on the erven earmarked for use as public road and parking purposes. The main purpose of the application is to transfer the ownership of the properties to the intended beneficiaries, therefore the illegal structures erected will be dealt with separately by the relevant department/s and will not be discussed in this application.

The following primary uses are allowed as a primary use on less formal residential zone erven: *dwelling house, group housing, second dwelling, shelter, bed and breakfast establishment,*

home day care centre, home occupation practice, house shop, home lodging, occasional use (one event/year), other social, educational, religious, occupational or business purposes and private road (subject to certain parameters).

The purpose of this zone is inter alia to make provision for the use of the land for informal and/or subsidised housing, as well as group housing where more than one dwelling house may be permitted on the same cadastral land unit.

The parameters for Informal Residential Zone are as follows:

Building type	Street boundary building lines (m)	Common boundary building lines (m)	Coverage	Height
Shelters	1m	1m	80%	2 storeys
All other buildings	1m	0m on one boundary 1m on all other boundaries	80%	3 storeys

The application also involves the encroachment of the street and side building lines, as well as the permissible coverage, as additional structures have been erected, over time, across the proposed erf boundaries; some properties extend into the road reserve and some properties the existing dwelling houses have been extended.

In terms of the Zoning Scheme Bylaw, 175 x off-street parking bays are required in this development. A desktop analysis shows that only 30 off-street parking bays can be provided. However, this should not be a problem since unregistered Erven 1986, 1997, 2006, 2020, 2034, 2059, 2142, 2151 and 2165 has been earmarked for parking and circulation purposes and is proposed to be zoned to public roads and parking zone.

It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 1 bay per dwelling to 0bays per dwelling house on all residential erven in the development.

Since some of the properties have already been built to full capacity, the encroachment of the building lines and coverage is granted for all properties concerned. Even though the application involves numerous departures, it will still not have a negative impact on the environment because it entails the formalization of what already exists.

The application also entails the amendment of General Plan GP 3443/1993 to accommodate the amended layout. The land surveyor however confirmed that an application for the amendment of the general plan is not required as the application involves the closure of the whole of Erf 1120. The Surveyor General endorses the closure as a note once the closure procedure has been finalised.

2.6 General desirability

The proposal is compatible with the surrounding neighbourhood as it is located within an urban area and the area is characterized by high density development. It will also not detract from the surrounding area as no additional residential units are envisaged. The proposal will not have a negative impact on the surrounding properties as it entails the formalization of an existing neighbourhood.

The aim is to finalize the land use rights on the project in order to transfer the ownership of the properties to the intended beneficiaries. It therefore provides for security of tenure.

It is already integrated in the current urban space economy of Kayamandi and will have no negative financial, social, economic or environmental impacts.

It is currently and will in future continue to make use of existing available infrastructure services capacity.

2.7 Assessment of comments on application

Not applicable.

PART H: SUMMARY OF KEY FINDINGS OF ASSESSMENT

After having independently considered and weighted all the relevant information the evaluation of the subject land use and land development application concludes that:

1. The land use rights for the properties in this project should already have been finalised approximately 20 years ago, however, due to various reasons, beyond the control of

Stellenbosch Municipality, these land use rights were not finalised and ownership of the properties could not yet be transferred.

2. The primary objective of this land use application is to legalise the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.

3. The properties in this project are located in an established urban area within the urban edge of Kayamandi.

4. The existing land uses are compliant with the Stellenbosch SDF and consistent with other relevant local and provincial policies.

6. There are no negative environmental and heritage impacts as confirmed by the Western Cape Department of Environmental Affairs and Development Planning and Heritage Western Cape.

7. No additional dwelling units will currently be constructed on the subject properties.

8. Even though the application involves numerous departures (i.e building lines, coverage and parking), the proposal will not have a negative impact on the environment as it entails the formalization of existing dwelling units/structires in the neighbourhood.

The subject land use and land development application is, having regard to the conclusions above, viewed as in Compliance to the relevant MSDF and consequently grounds for the support of the subject land use and land development application.

PART I: RECOMMENDATION

1. That the following application(s) in terms of Section 15(2) of the Stellenbosch Municipal Land Use Planning Bylaw, promulgated by notice number 354/2015, dated 20 October 2015 on Erven 1113 – 1154, (Project 5A), Kayamandi, namely:

   1.1 The **closure of a public place** in terms of Section 15(2)(n) of the said bylaw of Erf 1120, Kayamandi.

   1.2 **Consolidation** in terms of section 15(2)(e) of the said bylaw of Erven 1113 to 1122, Kayamandi to form consolidated Erf 1981, Kayamandi (±3 615m² in extent); and Erven 1123 to 1154, Kayamandi to form consolidated Erf 1980 (±9 221m² in extent).

   1.3 **Rezoning** in terms section 15(2)(a) of the said bylaw of Erven 1113 – 1154 (consolidated Erf 1980 and Erf 1981), Kayamandi from **Multi-Unit Residential and Public Place** to **Subdivisional Area** to allow for the following uses (and in accordance with the land use framework plan as depicted in plan referenced **Zoning Plan 21P004(5A)-TRP-ZP-20220126-Rev D01, Plan Nr 4, drawn by Plan4SA Professional Planners & Project Manager**):

      1.3.1 175 x **Less Formal Zone** erven and ±8 290,12m² in extent for less formal housing purposes

      1.3.2 9 x **Public Road and Parking Zone** erven and ±4 544,97m² in extent for road and parking purposes

   1.4 **Subdivision** in terms of section 15(2)(d) of the said bylaw of consolidated Erf 1980 and Erf 1981, Kayamandi into 184 erven and in accordance with **Zoning Plan 21P004(5A)-TRP-ZP-20220126-Rev D01, Plan Nr 4, drawn by Plan4SA Professional Planners & Project Managers** to allow the residential development in accordance with the subdivisional zone above.

1.6 **Departure** in terms of section 15(2)(b) of the said bylaw:

a) To **increase the permissible coverage** from **80%** to **100%** for all respective erven.

b) By **reducing the minimum required on-site parking bays** from **one** (1) parking bay per dwelling house to **0** bays per dwelling house on all residential erven.

c) For the **relaxation of all building lines** for shelters as well as other buildings to **0m** for all respective erven.

BE APPROVED in terms of Section 60 of the said Bylaw and subject to conditions of approval.

2. The approval is subject to the following conditions imposed in terms of Section 66 of the said Bylaw:

2.1 The approval only applies to the proposed development under consideration and shall not be construed as authority to depart from any other legal prescriptions or requirements from Council or other legislation or Bylaws or Regulations that may be applicable.

2.2 The approval granted shall not exempt the applicant from complying with any other legal prescriptions or requirements that might have a bearing on the proposed use.

2.3 The development be implemented in accordance with the Consolidation Plan, Subdivisional Plan and Zoning Plan with reference:

2.3.1 Consolidation Plan - **21P004 (5A)-TRP-CP-20220126-Rev D01 Plan Nr 2**
2.3.2 Subdivisional Plan - **21P004(5A)-TRP-SUB-20220126-Rev D01 Plan Nr 3;**
2.3.3 Zoning Plan - **21P004(5A)-TRP-ZP-20220126-Rev D01 Plan Nr 4;** attached as **ANNEXURE C1, C2 & C3.**

2.4 New erf diagrams or general plans for the newly created land units be submitted to this municipality for clearance and record purposes

2.5 The applicant submits an electronic copy (shp,dwg,dxf) of the General Plan which was preliminary approved by the SG. The following information must be indicated:
a) Newly allocated Erf Numbers

b) Co-ordinates

c) Survey Dimensions

2.6 The conditions imposed by the **Director: Engineering Services** as contained in their memo dated 18 November 2022, attached as **ANNEXURE H**, be complied with.

3. The reasons for the above decision are as follows:

3.1 The proposal will not have a negative impact on the surrounding properties and their rights as it is in keeping with the character of the area.

3.2 The development is compatible with the surrounding land uses and built environment.

3.3 The proposal will provide for security of tenure.

3.4 The properties are located in an established urban area within the urban edge of Kayamandi.

4. Matters to be noted:

4.1 Building plans of all structures within the erf boundaries of the new residential erven, to be submitted to the Municipality for approval.

4.2 A **Street Name and Numbering Plan** to be submitted to the delegated official for approval.

JACOBUS PETRUS RETIEF in my hoedanigheid as WAARNEMENDE MUNISIPALE BESTUURDER van die MUNISIPALITEIT STELLENBOSCH, behoorlik daartoe gemagtig

aansoek gedoen het om die uitreiking aan die MUNISIPALITEIT STELLENBOSCH van 'n Sertifikaat van Geregistreerde Titel kragtens Artikel 43 van die Registrasie van Aktes Wet 1937, ten opsigte van die hierondergenoemde grond synde 'n gedeelte van die grond geregistreer op die MUNISIPALITEIT STELLENBOSCH se naam deur Transportakte No T 61262/1993.

SO IS DIT DAT ingevolge die bepalings van genoemde Wet, ek die Registrateur van Aktes te Kaapstad hierby sertifiseer dat voornoemde

MUNISIPALITEIT STELLENBOSCH

die se Administrateurs of Regverkrygendes

die geregistreerde Eienaar van:

ERF 1070 KAYA MANDI in die Munisipaliteit en Afdeling STELLENBOSCH, Provinsie WES-KAAP

GROOT: 6,5851 (Ses Komma Vyf Agt Vyf Een) Hektaar

SOOS AANGEDUI op die aangehegte Diagram S.G. No 11135/1992 en gehou kragtens Transportakte No T 61262/1993.

I. **WAT BETREF die figuur vBCDEFGmnYμ op die hierby aangehegte Diagram S.G. No 11135/92:**

A. ONDERHEWIG aan die voorwaardes genoem in Grondbrief, Stellenbosch Eiendomsbriewe Boekdeel 5 Nr 36 gedateer 24 Maart 1887.

B. ONDERHEWIG VERDER aan die volgende voorwaardes vervat in Stellenbosch Eiendomsbriewe, Boekdeel 5 Nr 36 gedateer 24 Maart 1887, naamlik:

"That all roads and thoroughfare existing over the land hereby granted, whether they are described in the diagram or not, shall remain free and uninterrupted. The land thus granted being further subject to all such duties and Regulations as are either already or shall in future be established with regard to such lands."

C. GEREGTIG op die voordele van die voorwaardes waarna verwys word in die volgende aantekening gedateer 22 Maart 1955 op die gemelde Grondbrief, Stellenbosch Eiendomsbriewe, Boekdeel 5 Nr 36 gedateer 24 Maart 1887, naamlik:

"Endorsement (Remainder)

By Deed of Transfer No 3840/55 dated this day, Portion 9 of Lot LIII, Portion 10 of Lot LIII and Portion 8 of Lots XXVI to XXXVII thereby transferred and subject to conditions relative to use thereof for accomodation of buses, erection of buildings value thereof, restoration or damages in lieu restraint against sale of said land, fences, etc. the construction and maintenance of water, sewerage and drain pipes, electric way-leaves etc. over the said land and maintenance of cleanliness of the land, which conditions are in favour of the remainder of Lots XXVI to XXXVII in extent as such 220 mgn 43594 sq ft held hereunder and other land.

As will more fully appear from said Deed of Transfer."

II. **WAT BETREF die figure KLMNPQRSTUVWXnmHJ$_A$ en AvuŻ op die hierby aangehegte Diagram S.G. No 11135/1992:**

A. ONDERHEWIG VERDER aan die volgende voorwaardes genoem in die gemelde Grondbrief Stellenbosch Eiendomsbriewe Boekdeel 8 Nr 15 gedateer 22 Junie 1908.

"II. That all roads and thoroughfares being or existing on the said land described in the plan or diagram of the same shall remain free and uninterrupted unless the same be closed or altered by competent authority.

III. That all rights to gold, silver and precious stones found or discovered at any time on or in the said land shall be reserved to the State together with a right of ingress to and egress from any mines or works undertaken for mining or prospecting purposes by any person or persons authorised by the Minister; but subject always to the provisions of any Law for the time being regulating the prospecting and mining for precious stones and minerals."

B. ONDERHEWIG VERDER soos genoem in die gemelde Grondbrief Stellenbosch Eiendomsbriewe Boekdeel 8 Nr 15 gedateer 22 Junie 1908:

"Subject, however, to all such duties and regulations as are either already or shall in future be established with regard to such lands."

C. GEREGTIG VERDER op die voordele van die Serwituut waarna verwys word in die volgende aantekeninge gedateer 20 September 1938 op die gemelde Grondbrief Stellenbosch Eiendomsbriewe Boekdeel 8 Nr 15 gedateer 22 Junie 1908, naamlik:

"Remainder

Registration of Servitude

By Transfer 9729/1938 dated 20/9/1938

(a) a right of way 24 feet wide over property thereby conveyed and numbered Zhgvz on the diagram thereto annexed joining up with the right of way from g to 1 indicated on the said diagram has been granted in favour of the owner and his successors in title of the property held hereunder.

(b) a strip of land 20 feet wide along the boundary market gt on the said diagram shall not be cultivated but only be used for road purposes as will more fully appear on reference to the said Transfer."

D. GEREGTIG VERDER op die voordeel van die Serwituut waarna verwys word in die volgende aantekeninge gedateer 20 September 1938 op die gemelde Grondbrief Stellenbosch Eiendomsbriewe Boekdeel 8 Nr 15 gedateer 22 Junie 1908, naamlik:

"Remainder

Registration of Servitude

By Transfer 9730 dated 20.9.1938 a right of way 24 feet wide from the beacon h to the beacon j on the property held hereunder and indicated on the diagram thereof is granted in favour of the remainder of the land held hereunder subject to conditions as will more fully appear on reference to the said Transfer."

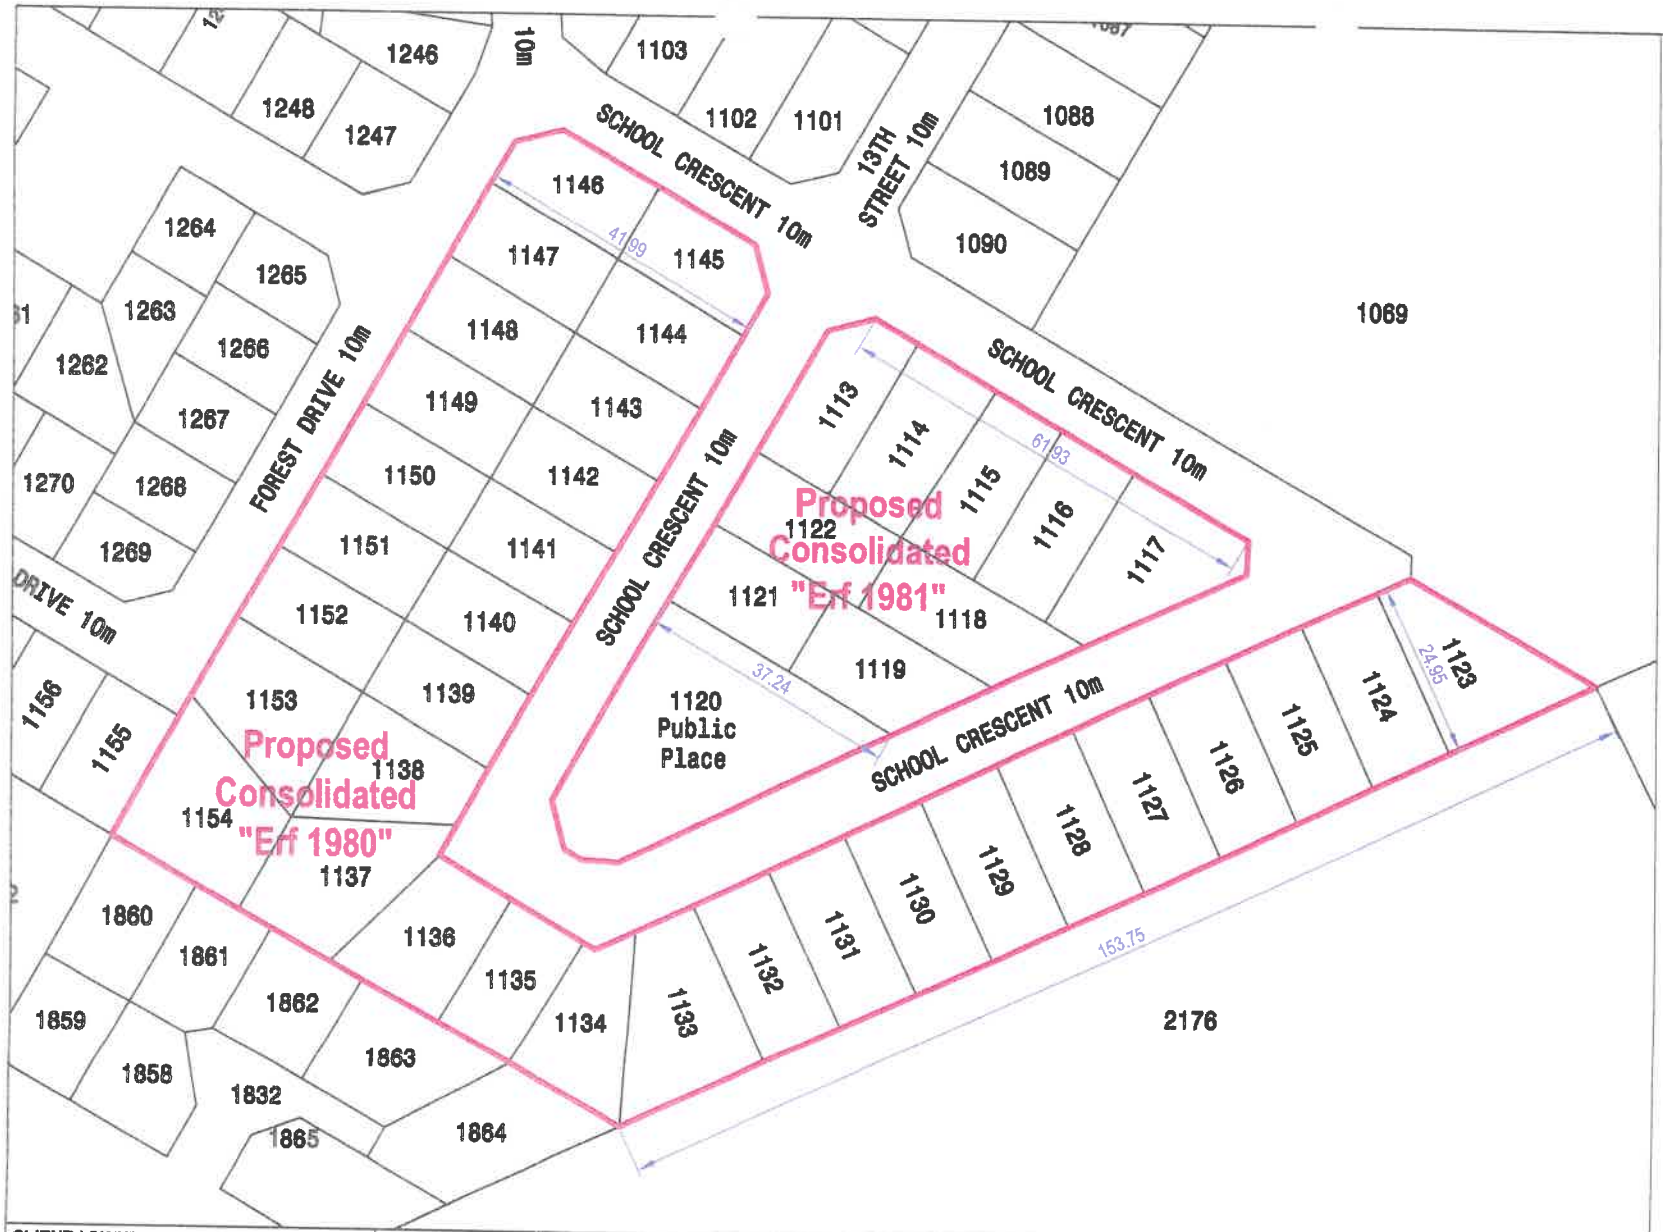
APPLICATION FOR CLOSURE OF PUBLIC PLACE, REZONING, CONSOLIDATION, SUBDIVISION, AMENDMENT OF GENERAL PLAN & DEPARTURES: ERVEN 1113 - 1154, KAYAMANDI (ALSO KNOWN AS PROJECT 5A)

CONSOLIDATION PLAN/REZONING PLAN/SUBDIVIONAL PLAN/DEPARTURE PLAN



CONSOLIDATION PLAN
Kayamandi Housing Project 5A

	DESCRIPTION	COMMENTS
	Kayamandi Project 5A	±1.2837 ha
	Proposed Consolidated "Erf 1981"	±3815m²
	Proposed Consolidated "Erf 1980"	±9221m²
	Current Number of Erven	42 erven
	Current Erf Numbers	1113 to 1154
	Current Erf Sizes (m²)	±240m² to ±895m²
	Current Erf Sizes (m²)(excl. Erf 1120)	±240m² to ±397m²
	Erf 1120 is an existing Public Place	±895m²
	General Plans / SG Diagrams	GP 3443/1993
	Current Owner	Stellenbosch Municipality
	Title Deed	T59362/2002

Notes:

1. Project 5A is located between Forest Drive, School Crescent and the School in Ward 12, of Kayamandi, Stellenbosch.
2. The existing project area includes 42 erven, being Erven 1113 to 1154.
3. It is proposed to close the Public Place on Erf 1120 and then to consolidated Erven 1113 to 1122 into proposed "Erf 1981". "Erf 1981" will then be subdivided into 54 erven (51 residential erven & 3 public places) being unregistered erven 2112 to 2165.
4. It is proposed to consolidate Erven 1123 to 1154 into proposed "Erf 1980". "Erf 1980" will then be subdivided into 130 erven (124 residential erven & 6 public places) being unregistered erven 1982 to 2111.
5. The existing properties contain 175 formal dwelling units.
6. In addition to the 175 formal dwelling units, there are approximately 183 informal structures on the existing properties. This was counted from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
7. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
8. Distances are given in meters (m).
9. Cadastral information was provided by Messrs FBV Professional Land Surveyors

SUBDIVISION PLAN
Kayamandi Housing Project 5A

	DESCRIPTION	COMMENTS
	Consolidated "Erf 1980" & "Erf 1981"	±1.2837 ha
	Current Number of Erven	42 erven
	Current Erf Numbers	1113 to 1154
	Proposed Number of Erven	184 erven
	Proposed Number of Residential Erven	179 erven
	Proposed Number of Public Space Erven	5 erven
	Proposed Unregistered Residential Erf Numbers	1992-1995, 1997-1998, 1999-2005, 2007-2019, 2021-2033, 2035-2038, 2080-2141, 2143-2150, 2152-2184
	Proposed Unregistered Public Space Erf Numbers	1969, 1997, 2006, 2020, 2034, 2059, 2142, 2151, 2185
	Existing Residential Units	175 dwelling units

Notes:

1. It is proposed to close the Public Place on existing Erf 1120 and then to consolidate Erven 1113 to 1122 into proposed "Erf 1981". "Erf 1981" is then proposed to be subdivided into 54 erven (51 residential erven & 3 public places) being unregistered erven 2132 to 2185.
2. It is proposed to consolidate existing Erven 1123 to 1154 into proposed "Erf 1980". "Erf 1980" is then proposed to be subdivided into 130 erven (124 residential erven & 6 public places) being unregistered erven 1992 to 2111.
3. Existing Number of Dwelling Units:
   3.1. The existing properties contain 175 formal dwelling units.
   3.2. In addition to the 175 formal dwelling units, there are approximately 183 informal structures on the existing properties. This was sourced from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that updates be obtained for new aerial footage and/or the conducting of physical surveys.
4. Proposed Zonings:
   4.1. The 175 Residential Erven is to be zoned Less Formal Residential Zone (LFR).
   4.2. The 5 Public Space erven is to be zoned Public Roads & Parking Zone (PR).
5. Coverage (measured in terms of formal dwelling units only):
   5.1. The coverage of all erven are less than the maximum permitted 60% in the LFR Zone.
6. Coverage (measured in terms of formal dwelling units & the informal structures):
   6.1. From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 1993, 1994, 1995, 2000, 2010, 2014, 2017, 2018, 2021, 2026, 2028, 2046, 2047, 2055, 2057, 2073, 2080, 2065, 2067, 2082, 2083, 2087, 2105, 2114, 2134, 2148, 2154, 2155, 2157 and 2159 have increased the coverage on these erven to more than 60%, which means that departures would be required on these erven if the informal structures are not removed.
7. Height: The height of the existing buildings and structures do not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.
8. Parking:
   8.1. In terms of the Zoning Scheme, 175 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 30 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erven 1968, 1997, 2006, 2020, 2034, 2059, 2142, 2151 and 2185 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).
   8.2. It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 175 bays to 30 bays.
9. Building Lines (for "All Other Buildings" in the LFR Zone):
   9.1. A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 1968, 1987, 1991-1994, 1996, 1998, 2000-2001, 2008, 2007, 2009-2011, 2014-2015, 2017, 2019, 2021, 2022-2024, 2027-2031, 2033, 2036, 2038-2040, 2045-2048, 2050, 2063-2063, 2066-2068, 2081-2082, 2085, 2087-2070, 2072-2073, 2078-2077, 2080-2085, 2087-2088, 2091-2092, 2095-2099, 2102-2103, 2105-2107, 2110-2111, 2116-2119, 2123-2123, 2125-2126, 2130, 2134-2135, 2137-2138, 2141, 2143-2144, 2147-2148, 2150, 2152-2154, 2156-2158, 2163-2164.
   9.2. A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2060, 2063, 2069.
   9.3. A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 1993-1994, 1998, 1999, 1999, 2002-2004, 2006, 2011-2015, 2016-2018, 2022, 2025-2027, 2030-2032, 2035-2037, 2040-2046, 2047-2051, 2054-2055, 2057, 2061, 2062, 2064, 2069, 2070-2071, 2074-2075, 2078-2079, 2038, 2080, 2083-2084, 2089-2101, 2104-2105, 2108-2110, 2114-2115, 2120-2121, 2124, 2129, 2131-2133, 2138, 2139-2140, 2144-2145, 2149, 2153-2155, 2161.
10. Building Lines (for "Shelters" in the LFR Zone):
   10.1. A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 1992, 1997, 1998-1999, 2002-2006, 2008, 2012-2013, 2018, 2019, 2022, 2026, 2029, 2031, 2040-2041, 2045, 2048, 2050, 2057, 2065, 2070-2071, 2077, 2079, 2082, 2086, 2088, 2091, 2093, 2096-2101, 2103, 2106, 2110, 2112, 2114-2115, 2121, 2123, 2127-2128, 2133, 2139, 2140, 2143, 2145-2146, 2149, 2153-2154, 2156, 2161, 2165-2164.
   10.2. A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 1997, 1992-1994, 1998, 2007, 2014-2015, 2018, 2021, 2023-2024, 2029, 2033, 2035, 2036-2039, 2045-2047, 2048, 2055, 2058, 2064, 2065-2069, 2072, 2076, 2084, 2085-2088, 2102, 2115, 2119, 2124, 2130, 2134-2135, 2137-2138, 2141, 2147-2148, 2152, 2155, 2158-2159, 2162.
   10.3. A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 1998, 2000, 2010, 2017, 2073, 2040, 2060, 2067, 2092, 2097, 2106, 2122, 2157.
   10.4. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on some common boundary on the following unregistered erven: 1994, 1995-1991, 1993, 2000, 2006, 2010, 2014-2018, 2021-2024, 2026-2028, 2032, 2035-2038, 2045-2046, 2050, 2055, 2061, 2065, 2068, 2072-2073, 2076, 2079-2080, 2084-2087, 2091, 2095-2096, 2103, 2108, 2110, 2112, 2119, 2121, 2125-2124, 2127, 2130, 2134-2135, 2137, 2140-2141, 2143, 2146-2148, 2152-2153, 2155-2159, 2162, 2165-2166, 2168-2169, 2171-2172, 2174-2175, 2177-2178, 2180-2181, 2183-2184.
   10.5. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 1992, 1995-1996, 1998-1999, 2002-2004, 2008-2009, 2012-2013, 2018-2019, 2026, 2031-2032, 2040-2041, 2047-2048, 2057, 2064, 2066-2071, 2074-2076, 2082, 2086, 2087-2101, 2108, 2113-2114, 2133-2133, 2136, 2145, 2149, 2164-2165, 2160-2161, 2183-2184.
   10.6. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2056, 2059, 2063, 2115.
11. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
12. Distances are given in metres (m).
13. Cadastral information was provided by Messrs FBV Professional Land Surveyors

ZONING PLAN
Kayamandi Housing Project 5A

	DESCRIPTION	COMMENTS
	Consolidated "Erf 1960" & "Erf 1961"	±1.2637 ha
	Current Number of Erven	42 erven
	Current Erf Numbers	1113 to 1154
	Proposed Number of Erven	184 erven
	Proposed Number of Residential Erven	175 erven
	Proposed Number of Public Space Erven	9 erven
	Proposed Unregistered Residential Erf Numbers	1982-1985, 1987-1998, 1999-2005, 2007-2019, 2021-2033, 2036-2058, 2060-2141, 2143-2150, 2152-2164
	Proposed Unregistered Public Space Erf Numbers	1986, 1997, 2006, 2020, 2034, 2059, 2142, 2151, 2165
	Less Formal Residential Zone (LFR)	±0.8280 ha
	Public Roads & Parking Zone (PR)	±0.4545 ha

Notes:

1. It is proposed to close the Public Place on existing Erf 1120 and then to consolidate Erven 1113 to 1122 into proposed "Erf 1960". "Erf 1961" is then proposed to be subdivided into 54 erven (51 residential erven & 3 public places) being unregistered erven 2112 to 2165.
2. It is proposed to consolidate existing Erven 1123 to 1154 into proposed "Erf 1962". "Erf 1963" is then proposed to be subdivided into 130 erven (124 residential erven & 6 public places) being unregistered erven 1982 to 2111.
3. Existing Number of Dwelling Units:
   3.1. The existing properties contain 175 formal dwelling units.
   3.2. In addition to the 175 formal dwelling units, there are approximately 163 informal structures on the existing properties. This was counted from an undated aerial image obtained from Mosaro TVS. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
4. Proposed Zonings:
   4.1. The 175 Residential Erven is to be zoned Less Formal Residential Zone (LFR).
   4.2. The 9 Public Spaces erven is to be zoned Public Roads & Parking Zone (PR).
5. Coverage (measured in terms of formal dwelling units only):
   5.1. The coverage of all erven are less than the maximum permitted 60% in the LFR Zone.
6. Coverage (measured in terms of formal dwelling units & the informal structures):
   6.1. From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 1993, 1994, 1995, 2003, 2010, 2014, 2017, 2018, 2021, 2029, 2053, 2046, 2047, 2055, 2057, 2075, 2080, 2085, 2087, 2092, 2093, 2097, 2105, 2114, 2146, 2154, 2158, 2157 and 2159 have increased the coverage on these erven to more than 60%, which means that departures would be required on these erven if the informal structures are not removed.
7. Height: The height of the existing buildings and structures do not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.
8. Parking:
   8.1. In terms of the Zoning Scheme, 178 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 36 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erven 1958, 1997, 2006, 2020, 2034, 2059, 2142, 2151 and 2165 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).
   8.2. It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 178 bays to 36 bays.
9. Building Lines (for "All Other Buildings" in the LFR Zone):
   9.1. A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 1985, 1987, 1991-1994, 1998, 1999, 2002-2007, 2009, 2011, 2014-2016, 2017, 2018, 2021, 2025-2024, 2027-2031, 2033, 2036, 2038-2041, 2045-2046, 2052, 2053-2061, 2065-2066, 2081-2082, 2085, 2087-2070, 2072-2073, 2076-2077, 2080-2085, 2087-2088, 2091-2092, 2095-2098, 2102-2109, 2105-2107, 2110-2111, 2115-2119, 2122-2125, 2125-2128, 2130, 2134-2135, 2137-2138, 2141, 2143-2144, 2147-2149, 2150, 2153-2154, 2156-2160, 2162-2164.
   9.2. A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2060, 2063, 2068.
   9.3. A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 1982-1984, 1988, 1990, 1995, 1999, 2002-2004, 2008, 2011-2013, 2015-2018, 2022, 2025-2027, 2030-2032, 2036-2037, 2040-2045, 2047-2051, 2054-2056, 2057, 2061, 2062, 2064, 2069, 2070-2071, 2074-2075, 2078-2079, 2084, 2090, 2093-2094, 2099-2101, 2104-2103, 2108-2110, 2114-2116, 2120-2121, 2124, 2129, 2131-2133, 2138, 2139-2140, 2144-2145, 2149, 2153-2155, 2161.
10. Building Lines (for "Stripes" in the LFR Zone):
   10.1. A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 1982, 1991, 1995-1999, 2002-2005, 2008, 2012-2013, 2016, 2018, 2022, 2026, 2028, 2031, 2040-2041, 2045, 2048, 2050, 2057, 2065, 2073-2071, 2077, 2079, 2082, 2086, 2089, 2091, 2093, 2096-2101, 2103, 2108, 2110, 2112, 2116-2118, 2121, 2126, 2127-2128, 2133, 2136, 2140, 2143, 2145-2146, 2148, 2153-2154, 2155, 2161, 2163-2164.
   10.2. A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 1987, 1992-1994, 1996, 2007, 2014-2013, 2019, 2021, 2023-2024, 2029, 2035, 2038, 2038-2039, 2042-2047, 2052, 2058, 2064, 2068-2069, 2072, 2076, 2094, 2095-2096, 2102, 2113, 2116, 2124, 2130, 2134-2135, 2137-2138, 2141, 2147-2148, 2152, 2158, 2156-2159, 2162.
   10.3. A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 1995, 2000, 2010, 2017, 2073, 2083, 2088, 2097, 2032, 2097, 2108, 2128, 2197.
   10.4. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 1984, 1990-1991, 1993, 2000, 2003, 2010, 2014-2015, 2021-2024, 2026-2029, 2031, 2035, 2038-2039, 2045-2048, 2050, 2056, 2061, 2063, 2066, 2073-2073, 2075, 2079-2080, 2084-2087, 2091, 2095-2096, 2103, 2108, 2110, 2112, 2118, 2121, 2123-2124, 2127, 2130, 2134-2135, 2137, 2143-2141, 2143, 2148-2149, 2152-2153, 2158-2159, 2162.
   10.5. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 1982, 1985-1986, 1988-1989, 2002-2004, 2008-2009, 2013-2015, 2018-2018, 2026, 2031-2032, 2040-2041, 2047-2049, 2057, 2064, 2069-2071, 2074-2075, 2082, 2090, 2097-2101, 2106, 2113-2114, 2132-2133, 2136, 2149, 2149, 2154-2155, 2160-2161, 2163-2164.
   10.6. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2065, 2059, 2063, 2116, subdivision survey.
11. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
12. Distances are given in metres (m).

	Informal Structures (Shelters)	±183 structures (shelters)

Notes:

1. It is proposed to close the Public Place on existing Erf 1120 and then to consolidate Erven 1113 to 1122 into proposed "Erf 1961", "Erf 1981" is then proposed to be subdivided into 54 erven (51 residential erven & 3 public places) being unregistered erven 2112 to 2165.
2. It is proposed to consolidate existing Erven 1123 to 1154 into proposed "Erf 1960", "Erf 1960" is then proposed to be subdivided into 130 erven (124 residential erven & 6 public places) being unregistered erven 1982 to 2111.
3. Existing Number of Dwelling Units:
   - 3.1. The existing properties contain 175 formal dwelling units.
   - 3.2. In addition to the 175 formal dwelling units, there are approximately 183 informal structures on the existing properties. This was counted from an updated aerial image obtained from Mosaro TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
4. Proposed Zonings:
   - 4.1. The 175 Residential Erven is to be zoned Less Formal Residential Zone (LFR).
   - 4.2. The 9 Public Space erven is to be zoned Public Roads & Parking Zone (PR).
5. Coverage (measured in terms of formal dwelling units only):
   - 5.1. The coverage of all erven are less than the maximum permitted 80% in the LFR Zone.
6. Coverage (measured in terms of formal dwelling units & the informal structures):
   - 6.1. From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 1993, 1994, 1995, 2000, 2010, 2014, 2017, 2041, 2031, 2038, 2038, 2046, 2047, 2050, 2057, 2073, 2080, 2085, 2087, 2092, 2093, 2097, 2105, 2114, 2134, 2148, 2154, 2156, 2157 and 2158 have increased the coverage on these erven to more than 80%, which means that departures would be required on these erven if the informal structures are not removed.
7. Height: The height of the existing buildings and structures do not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.
8. Parking:
   - 8.1. In terms of the Zoning Scheme, 175 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 90 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erven 1988, 1997, 2005, 2020, 2034, 2058, 2142, 2181 and 2185 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).
   - 8.2. It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 175 bays to 90 bays.
9. Building Lines (for "All Other Buildings" in the LFR Zone):
   - 9.1. A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 1985, 1987, 1991-1994, 1996, 1998, 2002-2007, 2008, 2027, 2008-2011, 2014-2018, 2017, 2019, 2021, 2023-2024, 2027-2031, 2035, 2035, 2038-2042, 2045-2048, 2060, 2062-2063, 2065-2066, 2051-2062, 2068, 2067-2070, 2072-2073, 2076-2077, 2080-2086, 2087-2088, 2091-2092, 2095-2098, 2103-2103, 2105-2107, 2110-2111, 2116-2119, 2123-2123, 2125-2126, 2130, 2134-2135, 2137-2138, 2141, 2143-2144, 2147-2148, 2150, 2152-2154, 2158-2160, 2163-2164.
   - 9.2. A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2060, 2063, 2066.
   - 9.3. A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 1982-1984, 1988, 1990, 1995, 1999, 2002-2004, 2006, 2011-2013, 2015-2018, 2022, 2025-2027, 2030-2032, 2035-2037, 2040-2048, 2047-2051, 2054-2055, 2057, 2061, 2062, 2064, 2069, 2070-2071, 2074-2075, 2078-2079, 2088, 2090, 2095-2084, 2099-2101, 2104-2105, 2108-2110, 2114-2115, 2120-2121, 2124, 2126, 2131-2133, 2139, 2139-2140, 2144-2145, 2148, 2153-2155, 2161.
10. Building Lines (for "Shelters" in the LFR Zone):
   - 10.1. A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 1982, 1991, 1988-1999, 2002-2005, 2008, 2012-2015, 2018, 2019, 2022, 2026, 2028, 2031, 2040-2041, 2048, 2048, 2050, 2057, 2065, 2070-2071, 2077, 2079, 2082, 2085, 2089, 2091, 2093, 2098-2101, 2103, 2108, 2110, 2112, 2114-2115, 2121, 2123, 2127-2128, 2133, 2135, 2140, 2143, 2145-2148, 2149, 2153-2154, 2158, 2161, 2163-2164.
   - 10.2. A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 1987, 1992-1994, 1998, 2007, 2014-2015, 2018, 2021, 2025-2024, 2029, 2033, 2038, 2038-2039, 2046-2047, 2048, 2056, 2058, 2064, 2088-2089, 2072, 2076, 2084, 2086-2088, 2102, 2113, 2116, 2124, 2130, 2134-2135, 2137-2138, 2141, 2147-2148, 2152, 2158, 2158-2159, 2162.
   - 10.3. A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 1995, 2003, 2010, 2017, 2073, 2040, 2055, 2057, 2092, 2097, 2105, 2123, 2157.
   - 10.4. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 1984, 1990-1991, 1999, 2000, 2005, 2010, 2014-2015, 2021-2024, 2026-2029, 2033, 2035, 2036-2039, 2045-2044, 2050, 2055, 2091, 2095, 2063, 2072-2073, 2078, 2079-2080, 2084-2087, 2091, 2095-2098, 2105, 2108, 2110, 2112, 2118, 2121, 2123-2124, 2127, 2130, 2134-2135, 2137, 2140-2141, 2143, 2145-2148, 2152-2153, 2158-2159, 2162.
   - 10.5. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 1982-1985-1988, 1998-1999, 2002-2004, 2008-2009, 2012-2013, 2015-2016, 2026, 2031-2032, 2040-2041, 2043-2048, 2057, 2064, 2066-2071, 2074-2075, 2082, 2090, 2097-2101, 2105, 2113-2114, 2132-2133, 2136, 2145, 2149, 2154-2156, 2160-2161, 2165-2164.
   - 10.6. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2003, 2083, 2083, 2115.
11. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
12. Distances are given in meters (m).
13. Cadastral information was provided by Messrs FBV Professional Land Surveyors

1. INTRODUCTION

1.1 BACKGROUND AND APPOINTMENT

The background information was sourced from a report prepared by Emile van der Merwe Town Planning Consultants in May 2020, titled "Kayamandi Housing Projects Appraisal: Status Quo and Statutory Requirements".

The Kayamandi Township was originally proclaimed in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) and established as a development area with the creation of Erf 288, Kaya Mandi (34.4957ha in extent). The aforementioned erf was then subdivided in accordance with General Plan L149/1987 after which the township register was opened in terms of the Upgrading of Land Tenure Rights Act, 1991 (Act 112 of 1991).

Kayamandi was then extended in terms of Proclamation Notice G.K. 598/1991 with the acquisition of Portion 56 of Farm 183 (Erf 707), Portion 3 of Farm 181 (Erf 1070) and Portion 59 of Farm 183 (Erf 634). The new development area (18.5ha in extent) was then surveyed and established in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) with the registration of General Plans 7988/1991, 3443/1991 and 7989/1991.

The former Stellenbosch Transitional Council commissioned the preparation of a Spatial Development Framework for Kayamandi in 1995 to guide and direct the severe development pressure that existed in the Kayamandi Township at the time. During this process a number of high priority housing projects were identified. This culminated in the approval of the Kayamandi SDF in September 1996 and the Housing Projects Plan in January 1997. The eight high priority housing projects that were identified included the following:

- Project 1: Costa Land Development (246 erven, greenfield development)
- Project 2: Snake Valley (132 erven, greenfield development)
- Project 3: Watergang (greenfield development)
- Project 4A: Rental Apartments (146 units, town centre upgrade)
- Project 4B: Red Brick Hostels (town centre upgrade)
- Project 5A: High Density Units (175 units, town centre upgrade)
- Project 5B: High Density Units (137 units, town centre upgrade)
- Project 8: Mpelazwe (town centre upgrade)

Although the abovementioned projects (excluding Project 3: Watergang) were implemented during this period, the majority of erven have never been formally registered in order to enable the individual transfer of these properties to their respectively beneficiaries. The main reason for the aforesaid challenge was that Stellenbosch Municipality did not have the necessary authority to consider and approve the formal amendments of the General Plans due to the statutory provisions that applied in terms of the Black Communities Development Act, 1984 (Act 4 of 1984).

Stellenbosch Municipality subsequently appointed **Plan 4 SA (Pty) Ltd** and a team of sub-consultants to assist the municipality in obtaining the necessary land use rights for five projects in Kayamandi, known as Projects 4A, 4B, 5A, 5B and 8 (Mpelazwe). This is necessary to enable the Municipality to finalise the formal registration of these properties with the Surveyor-General and the Deeds Office so that the title deeds of the properties can be transferred to their respective new owners.

The relationship of the aforementioned five projects to the original Erf 288 and Erf 1070 (Portion 3 of Farm 181) is shown in the following two diagrams:

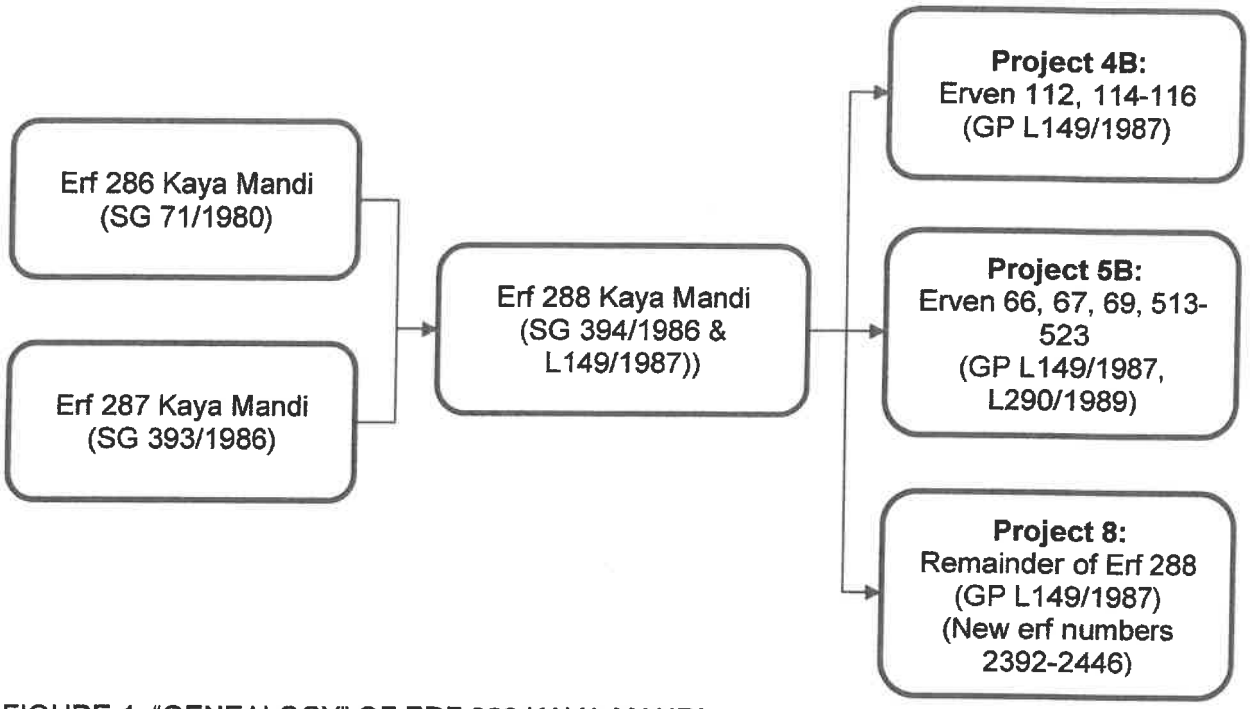

FIGURE 1: "GENEALOGY" OF ERF 288 KAYA MANDI

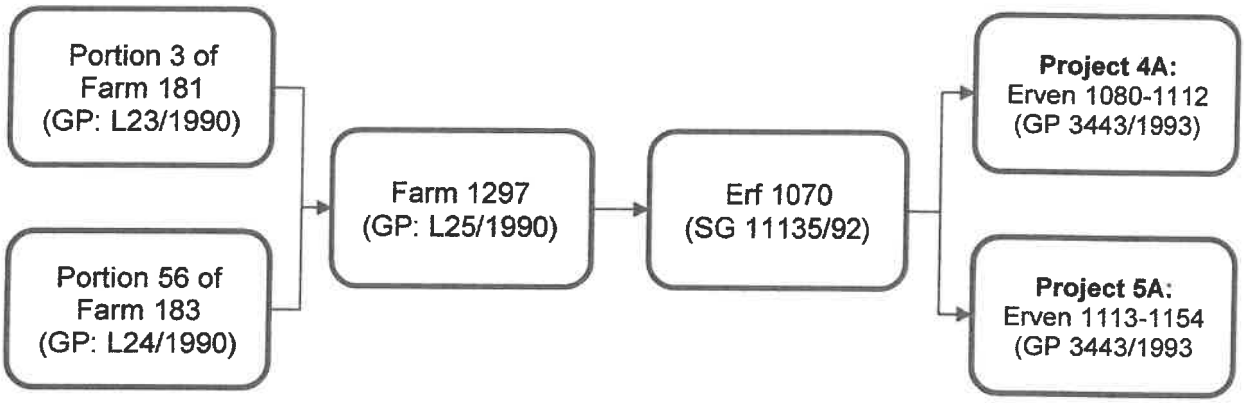

FIGURE 2: "GENEALOGY" OF ERF 1070 KAYA MANDI

1.2 POWER OF ATTORNEY

The owner of the property(ies) gave Power of Attorney to **PLAN 4 SA (Pty) Ltd** or its **nominee (Mr Martin Jonker; ID 7010175034083** and **SACPLAN Registration Number A/1090/1999)**.

The aforesaid Power of Attorney is attached to the land use application as **ANNEXURE 1**.

1.3 REPORT LAYOUT

The report has been structured as follows:

- **Section 1: Introduction:** This section gives the background to the appointment and shows to whom power of attorney has been given to deal with this application.
- **Section 2: Land Use Application:** This section describes the purpose of the application; identifies the applicable by-law, zoning scheme and overlay zones; describes the types of land use application and finally indicates whether any national and provincial legislation are triggered by the application.
- **Section 3: Property Information:** This section provides basic information about the subject property(ies) such as its cadastral description, its extent, the title deed number of the property and whether there are any restrictive conditions in the title deed. Other information includes its current zoning, current land uses, whether there is a bond registered against the property, and whether there are any pending land claims or court cases/orders.
- **Section 4: Contextual Analysis:** This section analyses the site in terms of the characteristics of the surrounding area, its location and the surrounding zonings and land uses.
- **Section 5: Site Analysis:** In this section the site is analysed in terms of the availability of engineering services, roads & transport, servitudes, geotechnical status, topography, environmental and heritage characteristics.
- **Section 6: Development Proposal:** The proposed development or land use is described in more detail in this section including the proposed planning parameters.
- **Section 7: Planning Motivation in Support of the Application:** This section motivates the application from a planning perspective. It looks at, amongst others, the consistency of the application in terms of planning policies and frameworks.
- **Section 8: Conclusion:** Provides concluding remarks and recommendations regarding the application.

2. LAND USE APPLICATION

2.1 PURPOSE OF THE APPLICATION

This project entailed the development of 175 high density units and public open spaces on Erven 1113-1154 Kaya Mandi. Although the General Plan was submitted for approval to the Western Cape Government, the registration could not be done since Erf 1120 was not closed as a public place.

The purpose of this application is thus the following:

- To close the public place on Erf 1120 Kaya Mandi.
- To consolidate Erven 1113-1122 and 1123-1154 Kaya Mandi
- To subdivide consolidated Erf 1980 Kaya Mandi into 130 erven consisting of 124 residential erven and 6 public places.
- To subdivide consolidated Erf 1981 Kaya Mandi into 54 erven consisting of 51 residential erven and 3 public places.

2.2 APPLICABLE BY-LAW, ZONING SCHEME & OVERLAY ZONES

The following by-law and zoning scheme(s) are applicable to this land use application:

- Stellenbosch Municipal Land Use Planning By-Law, 2015; and the
- Stellenbosch Municipality: Zoning Scheme By-Law, 2019.

The subject properties fall outside the Historical Center of Stellenbosch.

2.3 EXEMPTIONS IN TERMS OF SECTION 60 OF LUPA (ACT 3 OF 2014)

The finalisation of the land use rights of the 5 x Kayamandi Projects (Projects 4A, 4B, 5A, 5B and 8), the registration of the properties with the SG's Office and the transfer of ownership to the beneficiaries has become a matter of extreme urgency.

It would be in the best interest of the beneficiary community to shorten the land use authorisation processes for these five (5) projects, due to, amongst others, the historical delays on these projects. One way to speed up the process of finalising the necessary land use approvals is to deal with it as a "technical approval" and not putting it through the normal advertisement (publication and serving of notices) processes. In this way, the approval timeframe can be shortened by at least 90-days.

In this regard, an application was made and motivated, in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014), to exempt all five (5) Kayamandi projects (known as 4A, 4B, 5A, 5B and 8) from the Publication and Serving of Notices as normally required by the provisions of Sections 43, 44 and 47 of LUPA (Act 3 of 2014).

A letter was subsequently drafted and submitted to the municipality on 1 September 2021 for their finalisation and submission to the Western Cape Province. The Stellenbosch Municipality's Executive Mayor signed the letter on 22 September 2021 after which it was submitted to the Western Cape MEC of Local Government, Environmental Affairs and Development Planning (DEADP).

In its letter dated 13 October 2021, the Minister of Local Government, Environmental Affairs and Development Planning approved the municipality's exemption request and stated the resolution as follows:

> *"That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch,* ***BE APPROVED*** *in terms of Section 60(1) of the LUPA."*

The exemption approval of the Minister was published in the Provincial Gazette on 19 October 2021 (PG Extraordinary 8507, Provincial Notice 129/2021 dated 19 October 2021).

The municipality's motivation letter, the Minister's letter of approval and the Provincial Gazette Notice is attached hereto as **ANNEXURE 2**.

2.4 TYPE OF LAND USE APPLICATIONS

Application is made in terms of **Section 15** of the **Stellenbosch Municipal Land Use Planning By-Law, 2015** for the following:

- The closure of Erf 1120 (Public Place) Kaya Mandi in terms of Section 15(2)(n) of the Stellenbosch Municipal Land Use Planning By-Law, 2015.
- The rezoning of Erven 1113 to 1154 Kaya Mandi in terms of Section 15(2)(a) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 from Multi-Unit Residential Zone (MUR)[1] to Subdivisional Area Overlay Zone (SAO), to accommodate Less Formal Residential Zone (LFR), and Public Road and Parking Zone (PR)[2] land uses.
- The consolidation of Erven 1113 to1122 Kaya Mandi in terms of Section 15(2)(e) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 to form consolidated Erf 1981 (approximately 3615m² in extent) Kaya Mandi (refer to **PLAN 2: CONSOLIDATION PLAN (5A)**).
- The consolidation of Erven 1123 to 1154 Kaya Mandi in terms of Section 15(2)(e) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 to form consolidated Erf 1980 (approximately 9221m² in extent) Kaya Mandi (refer to **PLAN 2: CONSOLIDATION PLAN (5A)**).
- The subdivision of the consolidated Erf 1980 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into the following (refer to **PLAN 3: SUBDIVISION PLAN (5A)**):
    - 124 x Less Formal Residential Zone (LFR) erven; and
    - 6 x Public Roads and Parking Zone (PR) erven
- The subdivision of the consolidated Erf 1981 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into the following (refer to **PLAN 3: SUBDIVISION PLAN (5A)**):
    - 51 x Less Formal Residential Zone (LFR) erven; and
    - 3 x Public Roads and Parking Zone (PR) erven
- The compilation and submission of an application to the Surveyor-General for the amendment of General Plan GP 3443/1993 in terms of Section 15(2)(k) of the Stellenbosch Municipal Land Use Planning By-Law, 2015.

---

1 The Status Quo Report indicates that the existing zoning is "Conventional Residential Zone". According to the Stellenbosch Municipality's latest zoning map (Kayamandi Zoning Scheme 2018, downloaded from the Municipality's website) the erven (except for Erf 1120) is currently zoned "Multi-Unit Residential Zone" whilst Erf 1120 (Public Place) is currently zoned "Less Formal Residential Zone". Ms Louisa Guntz confirmed in an email dated 13 April 2022 that the current zoning of the properties is Multi-Unit Residential.
2 The Status Quo Report referred here to Public Street and Parking Zone.

- A permanent departure on **coverage** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, as follows:
  - Increase the coverage on unregistered erven 2021, and 2029 from 80% to 81%.
  - Increase the coverage on unregistered erven 1994, 2038, 2057, and 2159 from 80% to 82%.
  - Increase the coverage on unregistered erf 2055 from 80% to 83%.
  - Increase the coverage on unregistered erven 1993, 2018, and 2149 from 80% to 84%.
  - Increase the coverage on unregistered erven 2134, and 2154 from 80% to 86%.
  - Increase the coverage on unregistered erf 2155 from 80% to 88%.
  - Increase the coverage on unregistered erf 2014 from 80% to 90%.
  - Increase the coverage on unregistered erf 2106 from 80% to 91%.
  - Increase the coverage on unregistered erf 2092 from 80% to 93%.
  - Increase the coverage on unregistered erf 2093 from 80% to 94%.
  - Increase the coverage on unregistered erf 2073 from 80% to 95%.
  - Increase the coverage on unregistered erven 1995, 2000, 2010, 2017, 2046, 2047, 2080, 2085, 2087, 2097, 2114, and 2157 from 80% to 100%.
- A permanent departure on **off-street parking** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, by reducing the minimum required off-street parking bays from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven[3].
- A permanent departure on building lines (for "All other buildings" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[4]:
  - A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 1985, 1987, 1991-1994, 1996, 1998, 2000-2001, 2005, 2007, 2009-2011, 2014-2015, 2017, 2019, 2021, 2023-2024, 2027-2031, 2033, 2035, 2038-2040, 2045-2048, 2050, 2052-2053, 2056-2058, 2061-2062, 2065, 2067-2070, 2072-2073, 2076-2077, 2080-2085, 2087-2089, 2091-2092, 2095-2098, 2102-2103, 2106-2107, 2110-2111, 2116-2119, 2122-2123, 2125-2128, 2130, 2134-2135, 2137-2138, 2141, 2143-2144, 2147-2148, 2150, 2152-2154, 2156-2160, 2162-2164.
  - A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2060, 2063, 2066.
  - A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 1982-1984, 1988, 1990, 1995, 1999, 2002-2004, 2008, 2011-2013, 2016-2018, 2022, 2025-2027, 2030-2032, 2036-2037, 2040-2045, 2047-2051, 2054-2055, 2057, 2061, 2062, 2064, 2069, 2070-2071, 2074-2075, 2078-2079, 2086, 2090, 2093-2094, 2099-2101, 2104-2105, 2108-2110, 2114-2115, 2120-2121, 2124, 2129, 2131-2133, 2136, 2139-2140, 2144-2146, 2149, 2153-2155, 2161.
- A permanent departure on building lines (for "Shelters" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[5]:
  - A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 1982, 1991, 1998-1999, 2002-2005, 2008, 2012-2013, 2016, 2019, 2022, 2026, 2028, 2031, 2040-2041, 2045, 2048, 2050, 2057, 2065, 2070-2071, 2077, 2079, 2082, 2086, 2089, 2091, 2093, 2098-2101, 2103, 2108, 2110, 2112, 2114-2115, 2121, 2123, 2127-2128, 2133, 2136, 2140, 2143, 2145-2146, 2149, 2153-2154, 2156, 2161, 2163-2164.
  - A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 1987, 1992-1994, 1996, 2007, 2014-2015, 2018, 2021,

[3] From an undated aerial photo it seems that only approximately 30 of the 175 residential erven have sufficient space to allow for off-street parking. Due to the fact that alternative parking is proposed on unregistered erven 1986, 1997, 2006, 2020, 2034, 2059, 2142, 2151, and 2165 (which is earmarked for Public Roads & Parking (PR Zone) purposes), it is therefore proposed that the parking bay requirement be amended from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven in this development.

[4] The building line parameters in the LFR Zone for "all other buildings" (except for shelters) are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; 0m on one common boundary; and 1m on all other common boundaries.

[5] The building line parameters in the LFR Zone for "Shelters" are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; and 1m on all common boundaries.

2023-2024, 2029, 2033, 2035, 2038-2039, 2046-2047, 2049, 2055, 2058, 2064, 2068-2069, 2072, 2076, 2084, 2095-2096, 2102, 2113, 2119, 2124, 2130, 2134-2135, 2137-2138, 2141, 2147-2148, 2152, 2155, 2158-2159, 2162.

- A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 1995, 2000, 2010, 2017, 2073, 2080, 2085, 2087, 2092, 2097, 2106, 2125, 2157.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 1984, 1990-1991, 1993, 2000, 2005, 2010, 2014-2015, 2021-2024, 2028-2029, 2033, 2035, 2038-2039, 2045-2046, 2050, 2058, 2061, 2065, 2068, 2072-2073, 2076, 2079-2080, 2084-2087, 2091, 2095-2096, 2103, 2106, 2110, 2112, 2119, 2121, 2123-2124, 2127, 2130, 2134-2135, 2137, 2140-2141, 2143, 2146-2148, 2152-2153, 2156-2159, 2162.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 1982, 1995-1996, 1998-1999, 2002-2004, 2008-2009, 2012-2013, 2016-2018, 2026, 2031-2032, 2040-2041, 2047-2049, 2057, 2064, 2069-2071, 2074-2075, 2082, 2090, 2097-2101, 2108, 2113-2114, 2132-2133, 2136, 2145, 2149, 2154-2155, 2160-2161, 2163-2164.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2055, 2089, 2093, 2115.

2.5 APPROVAL REQUIRED IN TERMS OF OTHER LEGISLATION (IF APPLICABLE)

The following table indicates whether the proposed land use triggers any approvals required in terms of the Spatial Planning and Land Use Management Act (SPLUMA), Act 16 of 2013.

TABLE 1: SPLUMA (Act 16 of 2013) TRIGGERS

APPLICABLE SECTIONS OF SPLUMA	TRIGGERED (YES / NO / N/A)	COMMENTS
Status of spatial development frameworks S22(1) A Municipal Planning Tribunal or any other authority required or mandated to make a land development decision in terms of this Act or any other law relating to land development, may not make a decision which is inconsistent with a municipal spatial development framework	No	The proposed development is consistent / compliant with the latest approved SDF. Refer to Section 7 of this report.
S22(2) Subject to section 42, a Municipal Planning Tribunal or any other authority required or mandated to make a land development decision, may depart from the provisions of a municipal spatial development framework only if site-specific circumstances justify a departure from the provisions of such municipal spatial development framework.	No	It is not necessary to depart from the provisions of the SDF.
Development application affecting national interest S52.(1) Subject to the Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000), a land development application must be referred to the Minister where such an application materially impacts on – (a) matters within the exclusive functional area of the national sphere in terms of the Constitution; (b) strategic national policy objectives, principles or priorities, including food security, international relations and co-operation, defence and economic unity; or (c) land use for a purpose which falls within the functional area of the national sphere of government.	No	This section is not triggered.
S52.(2) A land development application must be referred to the Minister where the outcome of the application – (a) may be prejudicial to the economic, health or security interests of one or more provinces or the Republic as a whole; or (b) may impede the effective performance of the functions by one or more municipalities or provinces relating to matters within their functional area of legislative competence.	No	This section is not triggered.

APPLICABLE SECTIONS OF SPLUMA	TRIGGERED (YES / NO / N/A)	COMMENTS
S52.(3) Where an applicant believes that his or her application is likely to affect the national interest, he or she must submit a copy of that application to the Minister.	No	This section is not triggered.

The following table indicates whether any other national legislation is triggered by the proposed change in land use.

TABLE 2: OTHER NATIONAL LEGISLATIVE TRIGGERS

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
National Heritage Resource Act, 1999 (Act 25 of 1999)	Sections that trigger the need to submit a Notification of Intent to Develop		HWC confirmed in a letter dated 3 September 2021 that *"since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required"*. The letter from HWC is attached hereto as **ANNEXURE 11**.
	S38(1)(a) Construction of a road, wall, powerline, pipeline, canal or other similar form of linear development or barrier over 300m in length	No	This section is not triggered.
	S38(1)(b) Construction of a bridge or similar structure exceeding 50m in length	No	This section is not triggered.
	S38(1)(c) Any development or activity that will change the character of a site – i. Exceeding 5,000m² in extent; or ii. Involving three or more existing erven or subdivisions thereof; or iii. Involving three or more divisions thereof which have been consolidated within the past five years.	No	This section is not triggered. The properties are already developed, and its character will not be changed. The purpose of this application is to legalize the existing land uses, then register the properties with the SG's Office after which it can be transferred to the intended beneficiaries.

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	S38(1)(d) Rezoning of a site exceeding 10,000m² in extent.	No	This section is not triggered. The properties are already developed and used for its intended purpose. The purpose of this application is to legalize the existing land uses, then register the properties with the SG's Office after which it can be transferred to the intended beneficiaries.
	S38(1)(e) Any other category of development provided for in regulations by SAHRA or a provincial heritage resources authority.	No	To the best of our knowledge and interpretation, the proposed development does not trigger any other category of development as referred to in this Section of the Act.
National Environmental Management Act, 1998 (Act 107 of 1998); EIA Regulations, 2014 (GN No. R. 982, R. 983, R.984 and R.985), as amended (amended 7 April 2017)	Listing Notice 1 of 2014 (as amended 7 April 2017) Listing Notice 2 of 2014 (as amended 7 April 2017) Listing Notice 3 of 2014 (as amended 7 April 2017)	No	The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects. The letter from WC DEADP is attached hereto as **ANNEXURE 10**.
National Environmental Management: Biodiversity Act (Act No. 10 of 2004) list of ecosystems that are threatened and in need of protection, (G 34809, GN 1002), 9 December 2011	Any process or activity identified in terms of section 53(1) of the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004) – will trigger Activity 30 on EIA Listing Notice 1 of 2014 (as amended 7 April 2017). List of Threatened Terrestrial Ecosystems (Government Gazette, 2011)	No	The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects. The letter from WC DEADP is attached hereto as **ANNEXURE 10**.
Environmental Conservation Act, 1989 (Act 73 of 1989), GN R.1182 dated 5 September 1997, GN R.1355 dated 17 October 1997, GN R.448 dated 27 March 1998, GN R.670 dated 10 May 2002 GN R.672 dated 10 May 2002	Part 5 (Control of Activities which may have Detrimental Effect on the Environment), Section 21	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of this Act which requires Environmental Authorisation.

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
National Environmental Management: Air Quality Act, 2004 (Act 39 of 2004),	Chapter 4, Part 2 (Listing of activities resulting in atmospheric emissions) Chapter 5 (Licensing of Listed Activities)(Atmospheric Emissions Licenses)	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of this Act which requires the issuing of an Atmospheric Emissions License.
National Environmental Management: Waste Act, 2008 (Act 59 of 2008),	Chapter 4, Part 4, Section 19: Listed waste management activities (Schedule 1 of the Act) Chapter 4, Part 8 (Contaminated Land)(Decommissioning of existing facilities, structures or infrastructure) Chapter 5 (Licensing of Waste Management Activities)(Waste Management Licenses)	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of Schedule 1A or Schedule 1B of the Act which requires a Waste Management License.
National Water Act, 1998 (Act 36 of 1998)	Chapter 4 (Use of Water) Schedule 1 (Permissible Use of Water)	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of this Act which requires the issuing of a Water Use License.
Subdivision of Agricultural Land Act, 1970 (Act 70 of 1970)	S3 Subject to the provisions of section 2 – (a) agricultural land shall not be subdivided; S4(1) Any application for the consent of the Minister for the purposes of section 3 shall be lodged with the Secretary and shall be in such form and be accompanied by such plans, documents and information as are determined by the Secretary.	No	The properties are located within the existing urban edge. The properties are furthermore owned by the Stellenbosch Municipality. *"1. In this Act, unless the context otherwise indicates –* *(i) "agricultural land" means any land, except –* *(c) land of which the State is the owner or which is held in trust by the State or a Minister for any person;".*
Conservation of Agricultural Resources Act, 1983 (Act 43 of 1983)	*"2. (1) Subject to the provisions of subsection (2) this Act shall not apply-* *(a) to any land which is situated in an urban area;* *(2) (a) The provisions of this Act relating to weeds and invader plants shall also apply to land which is situated within an urban area."*	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity or authorisation in terms of this Act.
Occupational Health and Safety Act, 1993 (Act 85 of 1993): Major Hazard Installations Regulations		No	N/A The proposed development does not involve Major Hazard Installations.

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
Advertising on Roads and Ribbon Development Act, 1940 (Act 21 of 1940)	Section 2: Prohibition of certain advertisements visible from public roads Section 9: Prohibition of erection of structures near certain roads Section 10: Restriction of access to land through fence etc., along certain roads Section 11: Restriction on establishment or extension of townships	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity or authorisation in terms of this Act.

The following table indicates whether the proposed use triggers any provincial legislative approvals.

TABLE 3: PROVINCIAL LEGISLATIVE TRIGGERS

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
Western Cape Land Use Planning Act, 2014 (Act 3 of 2014)	Compliance or consistency with, and deviation from, spatial development frameworks or structure plans S19(1) If a spatial development framework or structure plan specifically provides for the utilisation or development of land as proposed in a land use application or land development application, the proposed utilisation or development is regarded as complying with that spatial development framework or structure plan.	Yes	The proposed development is compliant with the latest approved SDF. Refer to Section 7 of this report.
	S19(2) If a spatial development framework or structure plan does not specifically provide for the utilisation or development of land as proposed in a land use application or a land development application, but the proposed utilisation or development is not in conflict with the purpose of the relevant designation in the spatial development framework or structure plan, the utilisation or development is regarded as being consistent with that spatial development framework or structure plan.	No	The proposed development is compliant with the latest approved SDF. Refer to Section 7 of this report.
	S19(3) If the proposed utilisation or development of land in a land use application or a land development application does not comply with and is not consistent with the relevant designation for the utilisation of land in an applicable spatial development framework or structure plan, the proposed utilisation or development deviates from that spatial development framework or structure plan.	No	N/A

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	Provincial comment on land use applications S45(1) A municipality must refer a land use application relating to the following to the Head of Department for written provincial comment once the application is complete in accordance with the requirements of the municipality and section 42:	No	N/A
	S45(1)(a) a development outside the municipality's planned outer limit of urban expansion as reflected in its municipal spatial development framework;	No	The proposed development is located within the urban edge.
	S45(1)(b) if the municipality has no approved municipal spatial development framework, a development outside the physical edge, including existing urban land use approvals, of the existing urban area;	No	N/A
	S45(1)(c) a rezoning of land zoned for agricultural or conservation purposes;	No	N/A
	S45(1)(d) any development as determined by the municipal manager;	No	N/A
	S45(1)(e) development as prescribed that affects a provincial functional area;	No	N/A
	S45(1)(f) any other category of land use applications as may be prescribed for the purpose of supporting and strengthening the capacity of municipalities.	No	N/A

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	Provincial approval of land development S53(1) No person may without an approval under subsection (2) or an exemption under subsection (3) develop land that will have a substantial effect on— (a) the orderly, coordinated or harmonious development of a region or the Province; (b) the general welfare of the inhabitants of a region or the Province; or (c) agriculture, due to— (i) the nature or scale of the proposed land use; or (ii) the cumulative effect of multiple developments.	No	N/A
	S53(2) The owner of the land concerned or a person authorised by the owner may apply to the Head of Department for approval to develop land that will have the effect contemplated in subsection (1).	No	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered.
	S53(3) "(3) The Provincial Minister may exempt categories of land development from requiring approval under subsection (1) in one or more of the following circumstances: (a) where the land development complies with the applicable spatial development frameworks; (b) where the land development is consistent with other provincial policy; (c) to provide for government infrastructure projects; or (d) where provincial approval was granted in terms of other legislation."	No	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered.

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
Western Cape Land Use Planning Regulations, 2015 (Provincial Gazette 7412 dated 26 June 2015)(P.N. 203/2015) Western Cape Land Use Planning Regulations, 2015: Amendment, 2019 (Provincial Gazette 8083 dated 15 April 2019)(P.N. 51/2019)	Land development requiring provincial approval and exempted categories of land development Reg 10.(1) Subject to subregulation (2), land development contemplated in section 53(1) read with section 53(4) of the Act consists of the following categories: (a) proposed land development— (i) in respect of which an approval in terms of the Ordinance does not exist immediately before the commencement of the Act; and (ii) that falls within a category of land development that has been listed in the Provincial Gazette as a category that requires approval under section 53(1) of the Act; (b) proposed land development that utilises an area of five hectares or more of agricultural land that has been cultivated or irrigated during the 10-year period immediately preceding the proposed land development that involves urban development or urban expansion, including residential, resort, business, industrial and community development, utility services or transport uses, but excluding agricultural land uses or land development ordinarily associated with agricultural use such as agricultural storing and packing facilities, agricultural industries or accommodation for bona fide agricultural workers;" (c) proposed land development for prospecting, mining or quarrying that utilises an area of five hectares or more of agricultural land; (d) proposed land development for any shale gas mining activity, but excluding any exploration activities involving seismic testing and stratified drilling; and (e) proposed land development for any nuclear electricity generation facility.	No	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered.

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	Reg 10.(2) The following categories of land development contemplated in subregulation (1) are exempted under section 53(3) of the Act from requiring approval under section 53(1) of the Act: (a) proposed land development in respect of which a provincial approval exists immediately before the commencement of the Act in terms of any of the following legislation: (i) section 24(2) of the National Environmental Management Act, 1998 (Act 107 of 1998), excluding an approval that is suspended in terms of section 43(7) of that Act; (ii) section 3 or 14 of the Less Formal Township Establishment Act, 1991 (Act 113 of 1991); (iii) regulations 2 to 7 of the regulations made under section 66(1) of the Black Communities Development Act, 1984 (Act 4 of 1984), published under Government Notice R.1897/1986 in Government Gazette 10431 of 12 September 1986; (iv) regulation 16, 17, 19(5) or 19(7) of the regulations made under section 66(1) of the Black Communities Development Act, 1984, published under Provincial Notice 733/1989 in Provincial Gazette 4606 of 22 September 1989; (v) section 20 of the Rural Areas Act, 1987 (Act 9 of 1987); (b) proposed land development that is specifically provided for in the applicable local municipal spatial development framework that was submitted to the Provincial Minister as contemplated in section 14 of the Act.	N/A	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered. Regulation 10.(2)(b) applies to this land use application.

2.6 AFFECTED SURROUNDING PROPERTY OWNERS

A meeting was held via MS Teams on Friday, 27 August 2021 (at 09h00) to discuss the project with officials from the Stellenbosch Municipality's Town Planning Department. The meeting was attended by the following people:

- Stiaan Carstens, Stellenbosch Municipality
- Chrizelle Kriel, Stellenbosch Municipality
- Lester van Stavel, Stellenbosch Municipality
- Shaun October, Stellenbosch Municipality
- Martin Jonker, Plan 4 SA (Pty) Ltd

It was recommended at this meeting that due to, amongst other reasons, the project's history and urgency to finalise the land use rights and transfer of ownership, this land use application be exempted (in terms of Section 60 of the Western Cape LUPA, Act 3 of 2014) from the publication and serving of notices as required by Sections 43 and 44 of LUPA (Act 3 of 2014) and the similarly relevant Sections 45 and 46 of the Stellenbosch Municipality: Land Use Planning By-Law (2015).

A letter was subsequently drafted and submitted to the municipality on 1 September 2021 for their finalisation and submission to the Western Cape Province. The Stellenbosch Municipality's Executive Mayor signed the letter on 22 September 2021 after which it was submitted to the Western Cape MEC of Local Government, Environmental Affairs and Development Planning (DEADP).

In its letter dated 13 October 2021, the Minister of Local Government, Environmental Affairs and Development Planning approved the municipality's exemption request and stated the resolution as follows:

> *"That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch,* ***BE APPROVED*** *in terms of Section 60(1) of the LUPA."*

The exemption approval of the Minister was published in the Provincial Gazette on 19 October 2021 (PG Extraordinary 8507, Provincial Notice 129/2021 dated 19 October 2021).

The municipality's motivation letter, the Minister's letter of approval and the Provincial Gazette Notice is attached hereto as **ANNEXURE 2**.

In terms of the aforementioned exemption, it is therefore not required to notify surrounding property owners of the land use application.

3. PROPERTY INFORMATION

3.1 PROPERTY DESCRIPTION & EXTENT

The property descriptions, their extent and relevant General Plan / SG Diagram information is summarised in the table below.

TABLE 4: PROPERTY CADASTRAL INFORMATION

ERF NUMBER	TOWNSHIP	SIZE		GP / SG DIAGRAM
		m²	ha	
1113	Kaya Mandi	288	0.0288	GP3443/1993

TOTAL		**12,837**	**1.2837**	

The SG Diagram(s) / General Plan(s) is attached to the land use application as **ANNEXURE 3**.

3.2 OWNERSHIP & TITLE DEED

The properties are owned by the Stellenbosch Municipality. The Title Deeds associated with each property is shown in the following table.

TABLE 5: TITLE DEED INFORMATION

PROJECT	TITLE DEEDS	ERF NUMBERS	SUBDIVIDED FROM	TOWNSHIP
5A	T59362/2002	1113 to 1154	Erf 1070	Kaya Mandi

Proof of registered ownership is attached to the land use application as **ANNEXURE 4**. The Title Deed(s) is attached to the land use application as **ANNEXURE 5**.

3.3 CONVEYANCING CERTIFICATE & TITLE DEED RESTRICTIONS

A Conveyancing Certificate has been issued for each of the properties by Messrs STBB and is attached to the land use application as **ANNEXURE 6**.

Clauses I(C) and II(B) of T59362/2002 stipulates conditions relating to the use of land, whilst Clauses II(C) and II(D) stipulates servitudes that may be registered over or in favour of the property.

The conditions relating to the use of the land do NOT restrict the existing (proposed) use of the land for residential purposes.

The land surveyor (Mr Damien Burger) confirmed in an email dated 15 November 2021 that the servitudes mentioned in the title deeds and the SG Diagrams are all servitudes that the properties are entitled to, so they will not affect the layout as the properties are not subject to any servitudes.

In an email dated 25 January 2022, Mrs Annemarie van Vuuren (of Messrs STBB) confirmed the following:

> *"...We have perused all the title deeds and we could not identify any condition restricting the use of the Kaya Mandi properties for residential purposes. We further confirm that it will not be necessary to apply for the removal of any restrictive conditions...."*

3.4 CURRENT ZONING

The application properties are currently zoned as follows:

TABLE 6: CURRENT ZONING

PROJECT	EXISTING ERF NUMBERS	TOWNSHIP	CURRENT ZONING	CURRENT ZONING
			(Status Quo Report, 2020)	**Email of Ms Louisa Guntz**
5A	1113-1119, 1121-1154	Kaya Mandi	Conventional Residential Zone (CR)	Multi-Unit Residential Zone (MUR)
	1120	Kaya Mandi	Public Place	Multi-Unit Residential Zone (MUR)

The email of Ms Louisa Guntz dated 13 April 2022 in which the current zoning of the properties are confirmed is attached to the land use application as **ANNEXURE 7**.

3.5 EXISTING BUILDINGS & LAND USES

The properties are already built-up and includes buildings used for residential purposes.

TABLE 7: EXISTING BUILDINGS & LAND USES

EXISTING BUILDINGS	EXISTING LAND USES	LEGAL STATUS (Authorised or Unauthorised)	IF "UNAUTHORISED", IS THIS APPLICATION TO LEGALIZE THE LAND USE?
Used for Residential purposes	Residential	Unauthorised	Yes

Examples of the existing land uses for each project are shown in the table below.

PROJECT	EXISTING LAND USES	PHOTOS
5A	175 x Formal Dwelling Units currently located on Erven 1113-1122 and 1123-1154 Kaya Mandi	 View along School Crescent

3.6 BOND HOLDER

There are no bonds registered against the subject property(ies).

3.7 PENDING LAND CLAIMS

The Office of the Regional Land Claims Commissioner: Western Cape confirmed in a letter dated 13 August 2021 that *"...at the date of this letter no land claims appear on our database in respect of ..."* the subject properties.

The letter from the Western Cape Regional Land Claims Commissioner is attached hereto as **ANNEXURE 8**.

3.8 PENDING COURT CASES / ORDERS

The conveyancer (Mrs Annemarie van Vuuren of Messrs STBB) confirmed in an email dated 25 January 2022 the following:

> *"...It is also confirmed that, during our investigation, we did not pick up any pending court cases or orders, noted in the deeds office....."*

4. CONTEXTUAL ANALYSIS

4.1 LOCATION & PHYSICAL ADDRESS

Project 5A is located between Forest Drive, School Crescent and the School in Ward 12, Kayamandi, Stellenbosch. The coordinates of the approximate center point of this project are 33°55'20" S and 18°50'52" E.

The location is shown in the image below and on **PLAN 1: LOCALITY PLAN**.

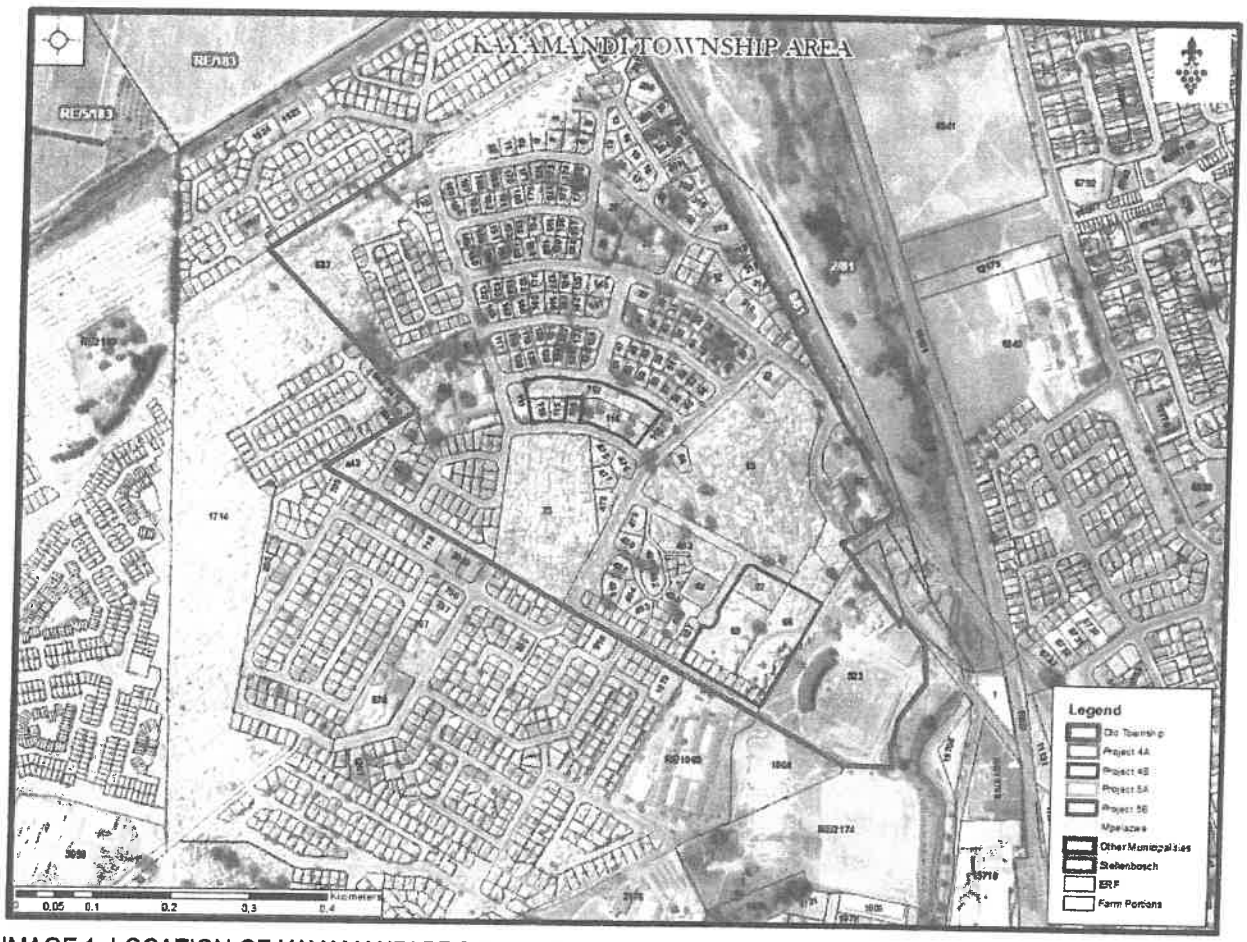

IMAGE 1: LOCATION OF KAYAMANDI PROJECT 5A

4.2 SURROUNDING ZONINGS AND LAND USES

Stellenbosch town has 5 independent urban villages characterised by mixed-uses and mixed-income. Kayamandi is located in the northern part of the town and houses the lower income communities of Stellenbosch.

The subject properties are surrounded by a mix of land uses that includes mainly less formal residential units, multi-unit residential, education uses (school), private open spaces (stadium) and other mixed uses.

The Stellenbosch Municipality Zoning Scheme By-Law's (2019) zoning map for Kayamandi is shown below.

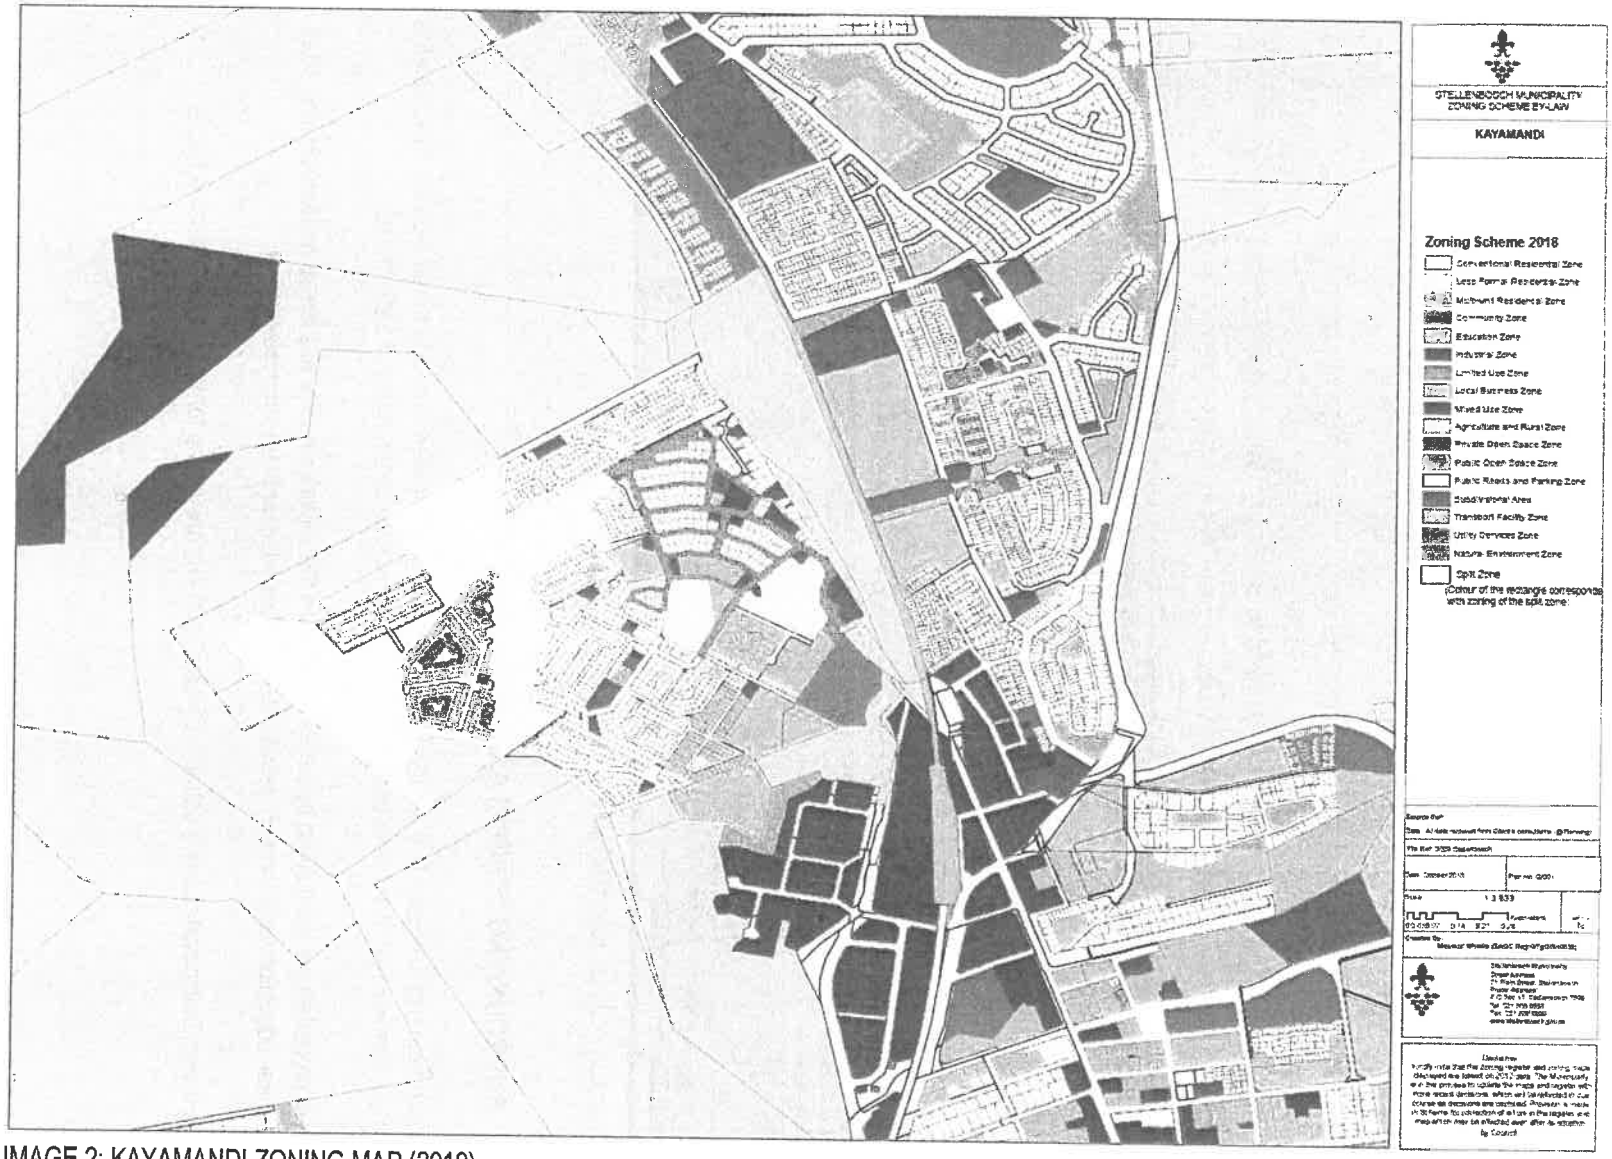

IMAGE 2: KAYAMANDI ZONING MAP (2019)

77

5. SITE ANALYSIS

An analysis of the key site characteristics is summarised below.

5.1 ENGINEERING SERVICES

The engineering services reports prepared by Messrs GLS and Inani Infrastructure are attached hereto as **ANNEXURE 9**. For detail, please refer to the aforementioned reports.

The proposed project site is located within an established suburb (within the urban edge) with infrastructure, which offers the possibility for service connections to assist with the formalisation of the sites.

GLS Consulting provided the comments on the bulk water supply and sewer discharge for the proposed formalisation of existing structures project. GLS Consulting commented that the water demand for the existing structures was accounted for in the June 2019 master plans for water and sewer networks, however, no provision was made for densification in these areas. ***Please note that comment is in some instances given as if the developments are still proposed.***

5.1.1 Water

The reticulation networks for the appropriate zones have sufficient capacity for the development areas but the Kayamandi reservoir has marginally insufficient storage capacity. Since the current Stellenbosch bulk supply to the Papegaaiberg reservoir is at capacity, it does not have sufficient capacity to supply bulk water to the proposed development areas. To augment this, the master plan items SSW6.8a & SSW.B20 (part of the larger Helshoogte transfer system) are proposed, and the master plan items SSW.B29, SSW.B30 & SSW.B31 are required to augment the reservoir storage capacity of the Kayamandi water system.

c) Project 5A
Project 5A is situated within the Kayamandi reservoir PRV1 zone (see Figure 3 or Annexure D) and has an existing 100mm AC diameter pipeline in School Crescent and Forest Drive for supply (GLS Consulting, 2021).

5.1.2 Sewer

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch WWTW have sufficient capacity to accommodate the proposed development areas.

c) Project 5A
There is an existing 150mm diameter outfall sewer pipe that runs through and adjacent to the proposed project area (GLS Consulting, 2021).

5.1.3 Electrical

The Cloetesville HV/MV Electrical Substation and the Switching Stations for the supply areas have sufficient capacity for the development sites. However, the capacity of some of the Internal MV feeders is exceeded and the additional load of Projects 4A, 5A and 5B may not be able to be accommodated. The implementation of a masterplanning item is being planned that will increase the reliability of the internal network.

Projects 4A, 5A and 5B:

- Kayamandi SS: MS Corridor Feeder and MS 6th Avenue Feeder (Ring Network)
    - The MS Corridor Feeder (35mm² PILC) has a capacity of 2.48MVA and MS 6th Avenue Feeder (35mm² PILC) has a capacity of 2.48MVA. These feeders form a ring therefore the total capacity is 5MVA.
    - These feeders currently supply 14 miniature substations and have an installed capacity of 5.8MVA which exceeds the capacity of the feeders.
- - The proposed additional load of 1.47MVA may not be able to be accommodated. Note: From the information received and calculated, the feeders will not be able to accommodate the additional load unless the actual loading is less than the installed capacity. Information regarding the actual load vs the installed load is needed to determine the way forward with regards to the supply.

5.1.4 Roads & Transport

The development sites form part of the developed and build-up areas. All properties within the project sites are well served by paved roads, close to public transport routes and can be accessed through the existing road network.

Access to the properties can be obtained from Forest Drive, and School Crescent.

5.2 SERVITUDES

The land surveyor (Mr Damien Burger) confirmed in an email dated 15 November 2021 that the servitudes mentioned in the title deeds and the SG Diagrams are all servitudes that the properties are entitled to, so they will not affect the layout as the properties are not subject to any servitudes.

5.3 TOPOGRAPHY & GEOTECHNICAL STATUS

A topographical survey was previously done for this site by Messrs FBV. The project site has a slope of approximately 1:8 and falls ±20m (from 150m to 130m) in an east-south-easterly direction. No information could be sourced on existing geotechnical conditions; however, it is believed that a geotechnical report is not required due to the fact that the project site has already been developed.

5.4 ENVIRONMENTAL CHARACTERISTICS

The subject properties are located in an established urban area and is already transformed and built-up. The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects.

The letter from WC DEADP is attached hereto as **ANNEXURE 10**.

5.5 HERITAGE CHARACTERISTICS

The property is located outside the historical centre of Stellenbosch. The buildings are not older than 60-years. An NID was submitted to Heritage Western Cape (HWC) on 8 August 2021. HWC confirmed in a letter dated 3 September 2021 that "since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required".

The letter from HWC is attached hereto as **ANNEXURE 11**.

6. DEVELOPMENT PROPOSAL

6.1 BACKGROUND

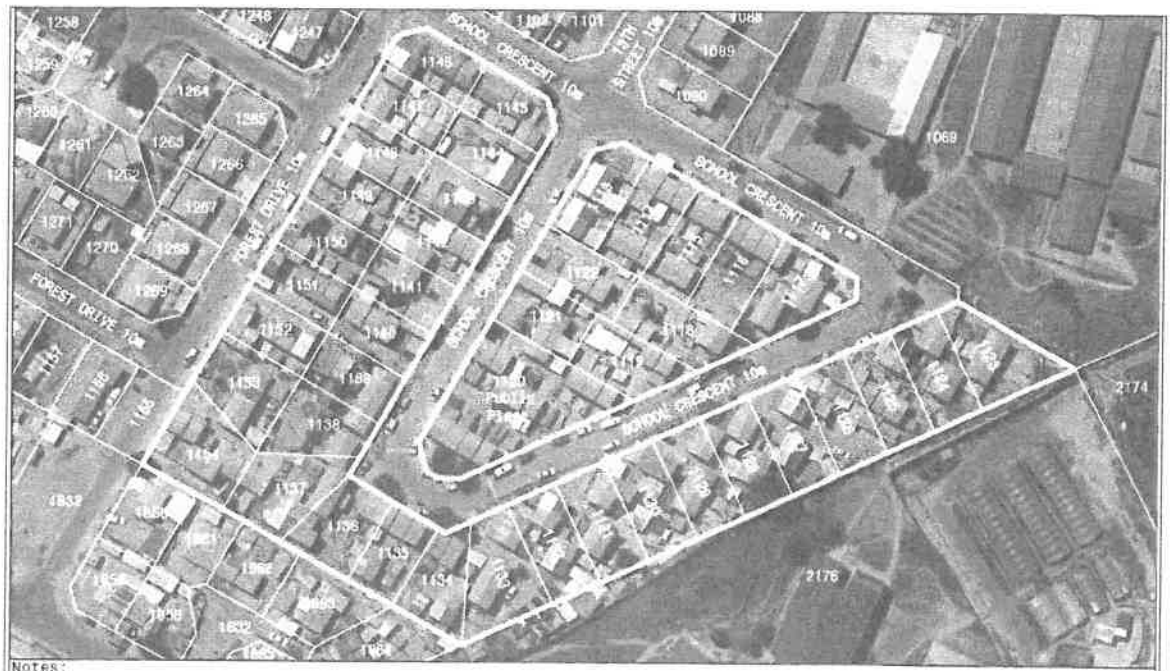
This project entailed the development of 175 high density units and public open spaces on Erven 1113-1154 Kaya Mandi. Although the General Plan was submitted for approval to the Western Cape Government, the registration could not be done since Erf 1120 was not closed as a public place.

6.2 PROPOSED DEVELOPMENT CONCEPT

The purpose of this application is thus the following:

- To close the public place on Erf 1120 Kaya Mandi.
- To consolidate Erven 1113-1122 (into consolidated Erf 1981) and 1123-1154 (into consolidated Erf 1980) Kaya Mandi
- To subdivide consolidated Erf 1980 Kaya Mandi into 130 erven consisting of 124 residential erven and 6 public places.
- To subdivide consolidated Erf 1981 Kaya Mandi into 54 erven consisting of 51 residential erven and 3 public places.

The existing cadastral information, the proposed consolidation of the various erven and the proposed subdivision of the consolidated erf are shown in the figures below and on **PLAN 2: CONSOLIDATION PLAN (PROJECT 5A)**, and **PLAN 3: SUBDIVISION PLAN (PROJECT 5A)** respectively. The proposed zonings are shown on **PLAN 4: ZONING PLAN (PROJECT 5A).**



Notes:
1. Erf 1120 (Public Place) to be closed.
2. Erven 1113 - 1122 to be consolidated.
3. Erven 1123 - 1154 to be consolidated.

TN	Caveat 1. Any areas and dimensions are provisional and will be finalized at time of subdivision survey. 2. All levels are to be confirmed prior to construction.	Scale 1:1000 @ A4	Date: 11 August 2021	System: WG 19
		CADASTRAL PLAN PROJECT 5A KAYA MANDI		bv friedlaender, burger & volkmann
		Ref:KM1980	Dwg:CADAS-REV1	

FIGURE 3: PROJECT 5A – EXISTING CADASTRAL INFO & PROPOSED CONSOLIDATION

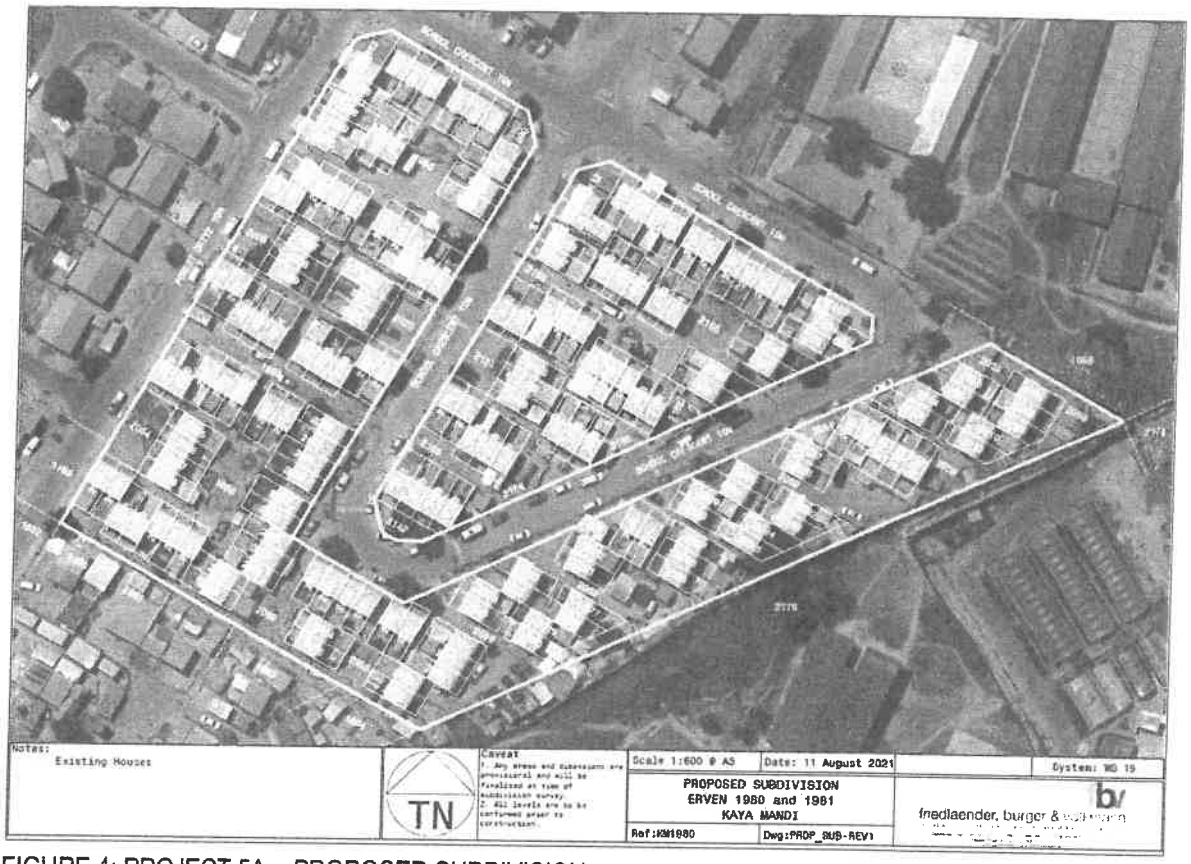


FIGURE 4: PROJECT 5A – PROPOSED SUBDIVISION

In order to obtain these objectives, the following land use applications are made:

- The closure of Erf 1120 (Public Place) Kaya Mandi in terms of Section 15(2)(n) of the Stellenbosch Municipal Land Use Planning By-Law, 2015.
- The rezoning of Erven 1113 to 1154 Kaya Mandi in terms of Section 15(2)(a) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 from Multi-Unit Residential Zone (MUR)[6] to Subdivisional Area Overlay Zone (SAO), to accommodate Less Formal Residential Zone (LFR), and Public Road and Parking Zone (PR)[7] land uses.
- The consolidation of Erven 1113 to1122 Kaya Mandi in terms of Section 15(2)(e) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 to form consolidated Erf 1981 (approximately 3615m² in extent) Kaya Mandi (refer to **PLAN 2: CONSOLIDATION PLAN (5A)**).
- The consolidation of Erven 1123 to 1154 Kaya Mandi in terms of Section 15(2)(e) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 to form consolidated Erf 1980 (approximately 9221m² in extent) Kaya Mandi (refer to **PLAN 2: CONSOLIDATION PLAN (5A)**).
- The subdivision of the consolidated Erf 1980 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into the following (refer to **PLAN 3: SUBDIVISION PLAN (5A)**):
    - 124 x Less Formal Residential Zone (LFR) erven; and
    - 6 x Public Roads and Parking Zone (PR) erven

6 The Status Quo Report indicates that the existing zoning is "Conventional Residential Zone". According to the Stellenbosch Municipality's latest zoning map (Kayamandi Zoning Scheme 2018, downloaded from the Municipality's website) the erven (except for Erf 1120) is currently zoned "Multi-Unit Residential Zone" whilst Erf 1120 (Public Place) is currently zoned "Less Formal Residential Zone". Ms Louisa Guntz confirmed in an email dated 13 April 2022 that the current zoning of the properties is Multi-Unit Residential.
7 The Status Quo Report referred here to Public Street and Parking Zone.

- The subdivision of the consolidated Erf 1981 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into the following (refer to **PLAN 3: SUBDIVISION PLAN (5A)**):
    - 51 x Less Formal Residential Zone (LFR) erven; and
    - 3 x Public Roads and Parking Zone (PR) erven
- The compilation and submission of an application to the Surveyor-General for the amendment of General Plan GP 3443/1993 in terms of Section 15(2)(k) of the Stellenbosch Municipal Land Use Planning By-Law, 2015.
- A permanent departure on **coverage** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, as follows:
    - Increase the coverage on unregistered erven 2021, and 2029 from 80% to 81%.
    - Increase the coverage on unregistered erven 1994, 2038, 2057, and 2159 from 80% to 82%.
    - Increase the coverage on unregistered erf 2055 from 80% to 83%.
    - Increase the coverage on unregistered erven 1993, 2018, and 2149 from 80% to 84%.
    - Increase the coverage on unregistered erven 2134, and 2154 from 80% to 86%.
    - Increase the coverage on unregistered erf 2155 from 80% to 88%.
    - Increase the coverage on unregistered erf 2014 from 80% to 90%.
    - Increase the coverage on unregistered erf 2106 from 80% to 91%.
    - Increase the coverage on unregistered erf 2092 from 80% to 93%.
    - Increase the coverage on unregistered erf 2093 from 80% to 94%.
    - Increase the coverage on unregistered erf 2073 from 80% to 95%.
    - Increase the coverage on unregistered erven 1995, 2000, 2010, 2017, 2046, 2047, 2080, 2085, 2087, 2097, 2114, and 2157 from 80% to 100%.
- A permanent departure on **off-street parking** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, by reducing the minimum required off-street parking bays from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven[8].
- A permanent departure on building lines (for "All other buildings" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[9]:
    - A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 1985, 1987, 1991-1994, 1996, 1998, 2000-2001, 2005, 2007, 2009-2011, 2014-2015, 2017, 2019, 2021, 2023-2024, 2027-2031, 2033, 2035, 2038-2040, 2045-2048, 2050, 2052-2053, 2056-2058, 2061-2062, 2065, 2067-2070, 2072-2073, 2076-2077, 2080-2085, 2087-2089, 2091-2092, 2095-2098, 2102-2103, 2106-2107, 2110-2111, 2116-2119, 2122-2123, 2125-2128, 2130, 2134-2135, 2137-2138, 2141, 2143-2144, 2147-2148, 2150, 2152-2154, 2156-2160, 2162-2164.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2060, 2063, 2066.
    - A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 1982-1984, 1988, 1990, 1995, 1999, 2002-2004, 2008, 2011-2013, 2016-2018, 2022, 2025-2027, 2030-2032, 2036-2037, 2040-2045, 2047-2051, 2054-2055, 2057, 2061, 2062, 2064, 2069, 2070-2071, 2074-2075, 2078-2079, 2086, 2090, 2093-2094, 2099-2101, 2104-2105, 2108-2110, 2114-2115, 2120-2121, 2124, 2129, 2131-2133, 2136, 2139-2140, 2144-2146, 2149, 2153-2155, 2161.

[8] From an undated aerial photo it seems that only approximately 30 of the 175 residential erven have sufficient space to allow for off-street parking. Due to the fact that alternative parking is proposed on unregistered erven 1986, 1997, 2006, 2020, 2034, 2059, 2142, 2151, and 2165 (which is earmarked for Public Roads & Parking (PR Zone) purposes), it is therefore proposed that the parking bay requirement be amended from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven in this development.

[9] The building line parameters in the LFR Zone for "all other buildings" (except for shelters) are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; 0m on one common boundary; and 1m on all other common boundaries.

- A permanent departure on building lines (for "Shelters" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[10]:
    - A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 1982, 1991, 1998-1999, 2002-2005, 2008, 2012-2013, 2016, 2019, 2022, 2026, 2028, 2031, 2040-2041, 2045, 2048, 2050, 2057, 2065, 2070-2071, 2077, 2079, 2082, 2086, 2089, 2091, 2093, 2098-2101, 2103, 2108, 2110, 2112, 2114-2115, 2121, 2123, 2127-2128, 2133, 2136, 2140, 2143, 2145-2146, 2149, 2153-2154, 2156, 2161, 2163-2164.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 1987, 1992-1994, 1996, 2007, 2014-2015, 2018, 2021, 2023-2024, 2029, 2033, 2035, 2038-2039, 2046-2047, 2049, 2055, 2058, 2064, 2068-2069, 2072, 2076, 2084, 2095-2096, 2102, 2113, 2119, 2124, 2130, 2134-2135, 2137-2138, 2141, 2147-2148, 2152, 2155, 2158-2159, 2162.
    - A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 1995, 2000, 2010, 2017, 2073, 2080, 2085, 2087, 2092, 2097, 2106, 2125, 2157.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 1984, 1990-1991, 1993, 2000, 2005, 2010, 2014-2015, 2021-2024, 2028-2029, 2033, 2035, 2038-2039, 2045-2046, 2050, 2058, 2061, 2065, 2068, 2072-2073, 2076, 2079-2080, 2084-2087, 2091, 2095-2096, 2103, 2106, 2110, 2112, 2119, 2121, 2123-2124, 2127, 2130, 2134-2135, 2137, 2140-2141, 2143, 2146-2148, 2152-2153, 2156-2159, 2162.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 1982, 1995-1996, 1998-1999, 2002-2004, 2008-2009, 2012-2013, 2016-2018, 2026, 2031-2032, 2040-2041, 2047-2049, 2057, 2064, 2069-2071, 2074-2075, 2082, 2090, 2097-2101, 2108, 2113-2114, 2132-2133, 2136, 2145, 2149, 2154-2155, 2160-2161, 2163-2164.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2055, 2089, 2093, 2115.

6.3 PROPOSED SUBDIVISION, CONSOLIDATION, ZONINGS AND LAND USES

This section must be read with **PLAN 2: CONSOLIDATION PLAN**, **PLAN 3: SUBDIVISION PLAN** and **PLAN 4: ZONING PLAN.**.

The area (m²), number of dwelling units, existing land uses, and the proposed zoning of the new properties are shown in the following table.

TABLE 8: PROPOSED SUBDIVISION / CONSOLIDATION, ZONING AND LAND USES

TEMP ERF NUMBER	ESTIMATED ERF SIZE		NU OF FORMAL DWELLING UNITS	ESTIMATED NUMBER OF INFORMAL / OTHER STRUCTURES	EXISTING LAND USES	PROPOSED ZONING
	m²	ha				

[10] The building line parameters in the LFR Zone for "Shelters" are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; and 1m on all common boundaries.

6.4 PROPOSED DEVELOPMENT PARAMETERS

The following tables describes the planning parameters (coverage, height, building lines, and parking) for each of the proposed land uses as proposed for this development.

6.4.1 Coverage

Coverage was measured as follows:

- Coverage of formal dwelling units only; and
- Coverage of both formal dwelling units and informal structures (shelters)

Coverage (measured in terms of formal dwelling units only):

- The coverage of all erven is less than the maximum permitted 80% in the LFR Zone.

Coverage (measured in terms of formal dwelling units & the informal structures):

- From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 1993, 1995, 2000, 2010, 2014, 2017, 2018, 2021, 2029, 2038, 2046, 2047, 2055, 2057, 2073, 2080, 2085, 2087, 2092, 2093, 2097, 2106, 2114, 2134, 2149, 2154, 2155, 2157 and 2159 have increased the coverage on these erven to more than 80%, which means that departures would be required on these erven if the informal structures are not removed.

The definition of "building" in the Stellenbosch Municipal Zoning Scheme By-Law (2019) includes "*... any structure, whether of a temporary or permanent nature irrespective of the materials used in the erection thereof; ...*". The definition of "coverage" states that it "*... means the total area of a land unit that may be covered by buildings with a roof, expressed in square meters or as a percentage of the area of the land unit*".

The coverage of the existing formal buildings (dwelling houses) does not exceed the permissible coverage in the LFR Zone, however, a number of informal structures are found on many of the erven which increases the coverage on these erven. Based on the aforementioned an amendment of this parameter is therefore required for some of the erven as shown below.

A permanent departure on coverage in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, as follows:

- Increase the coverage on unregistered erven 2021, and 2029 from 80% to 81%.
- Increase the coverage on unregistered erven 1994, 2038, 2057, and 2159 from 80% to 82%.
- Increase the coverage on unregistered erf 2055 from 80% to 83%.
- Increase the coverage on unregistered erven 1993, 2018, and 2149 from 80% to 84%.
- Increase the coverage on unregistered erven 2134, and 2154 from 80% to 86%.
- Increase the coverage on unregistered erf 2155 from 80% to 88%.
- Increase the coverage on unregistered erf 2014 from 80% to 90%.
- Increase the coverage on unregistered erf 2106 from 80% to 91%.
- Increase the coverage on unregistered erf 2092 from 80% to 93%.
- Increase the coverage on unregistered erf 2093 from 80% to 94%.
- Increase the coverage on unregistered erf 2073 from 80% to 95%.
- Increase the coverage on unregistered erven 1995, 2000, 2010, 2017, 2046, 2047, 2080, 2085, 2087, 2097, 2114, and 2157 from 80% to 100%.

The coverage of the new properties is shown in the following table.

TABLE 9: PROPOSED COVERAGE

6.4.2 Height

The height of the existing buildings does not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.

The height of the new properties is shown in the following table.

TABLE 10: PROPOSED HEIGHT

TEMP ERF NUMBER	NU OF FORMAL DWELLING UNITS	NU OF INFORMAL STRUCTURES	EXISTING LAND USES	PROPOSED ZONING	HEIGHT			
					Max Permitted	Actual / Proposed	Change / Amend	
							From	To
1982	1	2	Dwelling house	LFR	2-Storeys (Shelters); 3-Storeys (All other buildings)	Actual storeys is less than what is permitted. Proposed height to be the same as what is permitted.	N/A	N/A

TOTAL	175	183						

6.4.3 Building Lines

The existing properties contain 175 formal dwelling units. In addition to the 175 formal dwelling units, there are approximately 183 informal structures or "Shelters" on the existing properties. This was counted from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.

An inspection of the available undated aerial photo reveals the following:

- Many of the informal structures seem to be erected across the proposed erf boundaries.
- Some properties extend into the road reserve.
- On some properties the existing dwelling houses have been extended.
- The erf boundaries of certain properties do not coincide with the proposed erf boundaries on the subdivision plan.
- Some informal structures have been constructed on the erven that is earmarked for use as public road and parking purposes.

Many of the existing buildings exceed the permissible building lines in the LFR Zone and therefore an amendment of this parameter is required as indicated below.

- Building Lines (for "All Other Buildings" in the LFR Zone):
    - A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 1985, 1987, 1991-1994, 1996, 1998, 2000-2001, 2005, 2007, 2009-2011, 2014-2015, 2017, 2019, 2021, 2023-2024, 2027-2031, 2033, 2035, 2038-2040, 2045-2048, 2050, 2052-2053, 2056-2058, 2061-2062, 2065, 2067-2070, 2072-2073, 2076-2077, 2080-2085, 2087-2089, 2091-2092, 2095-2098, 2102-2103, 2106-2107, 2110-2111, 2116-2119, 2122-2123, 2125-2128, 2130, 2134-2135, 2137-2138, 2141, 2143-2144, 2147-2148, 2150, 2152-2154, 2156-2160, 2162-2164.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2060, 2063, 2066.
    - A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 1982-1984, 1988, 1990, 1995, 1999, 2002-2004, 2008, 2011-2013, 2016-2018, 2022, 2025-2027, 2030-2032, 2036-2037, 2040-2045, 2047-2051, 2054-2055, 2057, 2061, 2062, 2064, 2069, 2070-2071, 2074-2075, 2078-2079, 2086, 2090, 2093-2094, 2099-2101, 2104-2105, 2108-2110, 2114-2115, 2120-2121, 2124, 2129, 2131-2133, 2136, 2139-2140, 2144-2146, 2149, 2153-2155, 2161.

- Building Lines (for "Shelters" in the LFR Zone):
    - A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 1982, 1991, 1998-1999, 2002-2005, 2008, 2012-2013, 2016, 2019, 2022, 2026, 2028, 2031, 2040-2041, 2045, 2048, 2050, 2057, 2065, 2070-2071, 2077, 2079, 2082, 2086, 2089, 2091, 2093, 2098-2101, 2103, 2108, 2110, 2112, 2114-2115, 2121, 2123, 2127-2128, 2133, 2136, 2140, 2143, 2145-2146, 2149, 2153-2154, 2156, 2161, 2163-2164.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 1987, 1992-1994, 1996, 2007, 2014-2015, 2018, 2021, 2023-2024, 2029, 2033, 2035, 2038-2039, 2046-2047, 2049, 2055, 2058, 2064, 2068-2069, 2072, 2076, 2084, 2095-2096, 2102, 2113, 2119, 2124, 2130, 2134-2135, 2137-2138, 2141, 2147-2148, 2152, 2155, 2158-2159, 2162.

- A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 1995, 2000, 2010, 2017, 2073, 2080, 2085, 2087, 2092, 2097, 2106, 2125, 2157.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 1984, 1990-1991, 1993, 2000, 2005, 2010, 2014-2015, 2021-2024, 2028-2029, 2033, 2035, 2038-2039, 2045-2046, 2050, 2058, 2061, 2065, 2068, 2072-2073, 2076, 2079-2080, 2084-2087, 2091, 2095-2096, 2103, 2106, 2110, 2112, 2119, 2121, 2123-2124, 2127, 2130, 2134-2135, 2137, 2140-2141, 2143, 2146-2148, 2152-2153, 2156-2159, 2162.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 1982, 1995-1996, 1998-1999, 2002-2004, 2008-2009, 2012-2013, 2016-2018, 2026, 2031-2032, 2040-2041, 2047-2049, 2057, 2064, 2069-2071, 2074-2075, 2082, 2090, 2097-2101, 2108, 2113-2114, 2132-2133, 2136, 2145, 2149, 2154-2155, 2160-2161, 2163-2164.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2055, 2089, 2093, 2115.

Information on the building lines of the new properties is shown in the following two tables. The first table shows the building line information for "All Other Buildings" in the LFR Zone whilst the second table provide building line information for "Shelters" in the LFR Zone.

TABLE 11: PROPOSED BUILDING LINES ("ALL OTHER BUILDINGS")

6.4.4 Parking

In terms of the Zoning Scheme, 175 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 30 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erven 1986, 1997, 2006, 2020, 2034, 2059, 2142, 2151 and 2165 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).

It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven in the development.

Information on off-street parking is shown in the table below.

TABLE 13: PROPOSED PARKING

7. PLANNING MOTIVATION IN SUPPORT OF THE APPLICATION

7.1 LAND USE DECISION CRITERIA

Section 65 of the Stellenbosch Land Use Planning By-Law, 2015, sets out the general criteria that needs to be considered when a land use application is submitted. Section 38(1)(f) indicates that the written motivation of the application must be based on the criteria in Section 65.

7.2 CONSISTENCY WITH RELEVANT NATIONAL & PROVINCIAL DEVELOPMENT PRINCIPLES

The proposed land use is consistent with the development principles contained in Chapter 2, Section 7 of SPLUMA (Act 16 of 2013) and Chapter 6, Section 59 of LUPA (Act 3 of 2014).

TABLE 14: CONSISTENCY WITH SPLUMA (Act 16 of 2013) AND LUPA (Act 3 of 2014)

APPLICABLE SECTIONS	DEVELOPMENT PRINCIPLES	COMMENTS
SPLUMA, Section 7(a) LUPA, Section 59(1)	Spatial Justice	The proposed development is consistent with the principle of spatial justice: • It redresses past spatial and development imbalances by providing access to land for the previously disadvantaged communities in Kayamandi. • The aim is to finalise the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries. It therefore provides for security of tenure.
SPLUMA, Section 7(b) LUPA, Section 59(2)	Spatial Sustainability	The proposed development is consistent with the principle of spatial sustainability: • The properties are located within the existing approved urban edge in the established urban area of Kayamandi. • The development already exists and does not encourage urban sprawl. • No new development will take place. • It is currently and will in future continue to make use of existing available infrastructure services capacity. • There are no environmentally or heritage sensitive areas in this part of Kayamandi. • It does not have an impact on prime and unique agricultural land.
SPLUMA, Section 7(c) LUPA, Section 59(3)	Efficiency	The development is consistent with the principle of efficiency: • It optimises the use of existing infrastructure. • It optimises the use of existing available state-owned land. • It is already integrated in the current urban space economy of Kayamandi and will have no negative financial, social, economic or environmental impacts.
SPLUMA, Section 7(d) LUPA, Section 59(5)	Spatial Resilience	• A key objective of the development / land use application is to finalise the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries and thereby improving the livelihood of the affected communities to ensure sustainable growth and development.

APPLICABLE SECTIONS	DEVELOPMENT PRINCIPLES	COMMENTS
		• According to the principle of spatial resilience (S59(5) of LUPA), *"flexibility in spatial plans, policy and land use* management *systems is accommodated to ensure sustainable livelihoods in communities most likely to suffer the impact of economic and environmental shocks".*
SPLUMA, Section 7(e) LUPA, Section 59(4)	Good Administration	The application complies with and is submitted in accordance with the legislated land development processes and procedures.

7.3 CONSISTENCY WITH RELEVANT NATIONAL & PROVINCIAL PLANNING FRAMEWORKS AND POLICIES

7.3.1 National Development Plan (NDP), 2012

The National Development Plan identified nine (9) main challenges that need to be addressed in South Africa. The land use(s) in this application contributes as a response to some of those national challenges. The national challenges, the suggested national responses and the relevance to this land use application is highlighted in the table below.

TABLE 15: CONSISTENCY WITH NATIONAL DEVELOPMENT PLAN (NDP), 2012

NDP CHALLENGES		NDP RESPONSE	HOW THIS PROPOSED DEVELOPMENT RESPONDS
1	Unemployment	Create jobs and livelihoods	Not applicable to this application.
2	Infrastructure poorly located and inadequate	Expand infrastructure	The aim is to finalise the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries. There will be no new developments. The existing properties are already making use of the existing infrastructure capacity within Kayamandi.
3	Exclusive spatial patterns	Transform urban and rural spaces	This urban area is already transformed, and the land uses and buildings already exist. The aim with this land use application is therefore to legalise the existing land uses so that ownership can be transferred to the intended beneficiaries.
4	Resource consumptive economy	Transition to a low-carbon economy	Not applicable to this application.
5	Poor quality education	Improve education and training	Not applicable to this application.
6	Widespread disease burden and poor services	Provide quality health care	Not applicable to this application.
7	Poor quality public service	Build a capable state	Not applicable to this application.
8	Corruption	Fight corruption and increase accountability	Not applicable to this application.
9	Divided society	Transform society and unite the nation.	This land use application will contribute to the transformation of society because it will provide security of tenure to the intended beneficiaries in Kayamandi.

7.3.2 OneCape 2040

The OneCape 2040 strategy is a Western Cape initiative that aims to *"scope a long-term economic vision and plan involving all key Western Cape economic leaders as well as citizens for the next 30 to 40 years"*. Its primary goal is to create *"a resilient, inclusive and competitive Western Cape with higher rates of employment producing growing incomes, greater equality and an improved quality of life"*. Its vision is to have *"a highly-skilled, innovation driven, resource efficient, connected, high opportunity and collaborative society"*. Local government's role in achieving this vision is as follows:

- Integrated neighbourhoods and upgrading the built environment;
- Integrated services planning and provision

Two of the six transitional areas identified in this strategy relates to

- ***"Economic Access Transition (Working Cape)"***. The aim is to change from a currently *"Factor and efficiency-driven economy with high barriers to entry and low productivity and entrepreneurship rates"* to a *"Innovation-driven economy with low barriers to entry, high productivity and entrepreneurship rates"*.
- ***"Settlement Transition (Living Cape)"***. The aim is to change from the current "Unhealthy, low access, often alienated, low opportunity neighbourhoods" to "Healthy, accessible, liveable, multi-opportunity communities.

This project and land uses are part of the municipality's initiatives to fulfil its role in the OneCape 2040 vision.

7.3.3 WC Provincial Spatial Development Framework (PSDF), 2014

The latest approved PSDF is dated March 2014. The Western Cape PSDF aims to:

- Give spatial expression to the National and Provincial development agendas;
- Serve as a basis for coordinating, integrating and aligning 'on the ground' delivery of National and Provincial departmental programmes;
- Support municipalities to fulfil their municipal planning mandate in line with the National and Provincial agendas; and
- Communicates government's spatial development intentions to the private sector and civil society.

The 2014 PSDF applies five (5) key principles to achieve its spatial vision for the province. These five principles are aligned with the development principles contained in Section 7 of SPLUMA (Act 16 of 2013) and Section 59 of LUPA (Act 3 of 2014) and talks about Spatial Efficiency, Spatial Justice, Sustainability & Resilience, Quality & Liveability and Accessibility. This existing land uses in this project's consistency with these principles have already been highlighted in a previous section. This proposed land use is also consistent with the three spatial themes of the Western Cape PSDF:

- **Resources:** The existing land uses currently and will in future continue to make use of existing resources within the urban edge. It also does not threaten or impact negatively on any scenic and unique cultural landscapes.
- **Space Economy:** The project and its land uses are already integrated in the space-economy of Kayamandi.
- **Settlement:** The project and its land uses are located within the established urban area of Kayamandi and promotes densification, consolidation, integration and a sense of place. All properties are already occupied for many years and well-integrated with the urban fabric of Kayamandi.

7.4 CONSISTENCY WITH RELEVANT LOCAL PLANNING FRAMEWORKS AND POLICIES

7.4.1 Municipal IDP

Projects 4A, 5A and 5B are located in Ward 12 whilst Projects 4B and 8 (Mpelazwe) is located in Ward 13 of the Stellenbosch Municipality.

The latest IDP summarises the ward priorities in Tables 58 (Ward 12) and 59 (Ward 13) respectively. Ward 12's top five priorities for the 2021/22 financial year are the following:

- Priority 1: Recreation (Swimming Pool)
- Priority 2: Safety & Security
- Priority 3: Elderly & disabled
- Priority 4: Wi-Fi facilities
- Priority 5: ECD Centers

Ward 13's top five priorities for the 2021/22 financial year are the following:

- Priority 1: Housing – Hostels, Shacks and Backyard dwellers
- Priority 2: Old age & youth recreational center
- Priority 3: Community Hall
- Priority 4: Initiation site
- Priority 5: Remembrance Hall in Kayamandi library

Legacy projects are discussed in Table 70 of the IDP with specific reference to human settlements project on pages 193-196. An overview of the Integrated Human Settlements Plan is provided in paragraph 7.4.3 on pages 208-211.

Although this project is not specifically mentioned in the IDP, it is a priority for the Stellenbosch Human Settlement's Department who appointed the professional team through tender number B/SM 42/21 to finalise the land use rights for these properties so that the properties can be transferred to the intended beneficiaries.

7.4.2 Municipal SDF

Section 22 of SPLUMA indicates the following:

> *"22. (1) A Municipal Planning Tribunal or any other authority required or mandated to make a land development decision in terms of this Act or any other law relating to land development, may not make a decision which is inconsistent with a municipal spatial development framework.*
> *22. (2) Subject to section 42, a Municipal Planning Tribunal or any other authority required or mandated to make a land development decision, may depart from the provisions of a municipal spatial development framework only if site-specific circumstances justify a departure from the provisions of such municipal spatial development framework."*

Similar to SPLUMA, Section 19 of the Western Cape Land Use Planning Act (LUPA), Act 3 of 2014 states the following:

> *"19. (1) If a spatial development framework or structure plan specifically provides for the utilisation or development of land as proposed in a land use application or land development application, the proposed utilisation or development is regarded as complying with that spatial development framework or structure plan.*

(2) If a spatial development framework or structure plan does not specifically provide for the utilisation or development of land as proposed in a land use application or a land development application, but the proposed utilisation or development is not in conflict with the purpose of the relevant designation in the spatial development framework or structure plan, the utilisation or development is regarded as being consistent with that spatial development framework or structure plan.
(3) If the proposed utilisation or development of land in a land use application or a land development application does not comply with and is not consistent with the relevant designation for the utilisation of land in an applicable spatial development framework or structure plan, the proposed utilisation or development deviates from that spatial development framework or structure plan."

The current approved MSDF of Stellenbosch Municipality is dated 11 November 2019.

The subject properties (Projects 4A, 4B, 5A, 5B and 8) are located in an established urban area within the urban edge and fall within the "Urban Development" spatial planning category (SPC)(MSDF Figure 26, p66).

In terms of the Stellenbosch Framework, Projects 4B, 5B and 8 are also located within the area designated as "Strategic Sites, Projects and/or Infill Opportunities" (MSDF Figure 28, p70).

In conclusion, it can be argued that the currently approved SDF specifically provides for the utilisation of the sites as proposed in this land use application and therefore the existing (and proposed) utilisation of the sites is regarded as compliant with the approved municipal SDF, as described in Section 19(1) of LUPA (Act 3 of 2014).

It is therefore NOT necessary to motivate for deviation from the provisions of the existing approved SDF (2019).

7.5 SUITABILITY OF THE SITE

The suitability of the project site in terms of its location, accessibility and physical characteristics is discussed in the table below.

TABLE 16: MOTIVATION IN TERMS OF SITE SUITABILITY

	SUITABILITY IN TERMS OF	MOTIVATION / COMMENTS
1	Location	The site / properties are well located within the urban edge and within the neighbourhood of Kayamandi, Stellenbosch.
2	Roads & Transport	The area is well served with local roads, public transport routes and public transport services. No additional traffic will be generated because the properties are already developed, and no additional / new development is proposed.
3	Parking	All the properties have already been developed and have people living there for a number of years. A combination of onsite and off-site (on-street) parking is currently used in the area. No additional / new development will take place and therefore no additional parking would be required. The purpose of this land use application is to legalise the status quo, register the properties with the SG's Office and therewith enable the municipality to transfer ownership of the properties to the intended beneficiaries. Existing space for parking is thus sufficient.
4	Engineering Services	The properties are located in an area that is already serviced. No additional / new development will take place in terms of this land use application and therefore there will not be an increase in demand for services. An engineering services report is attached hereto as **ANNEXURE 9**.

	SUITABILITY IN TERMS OF	MOTIVATION / COMMENTS
		A CLO has been appointed, on request of the Stellenbosch Municipality, to conduct a survey to determine whether each property has access to a water and electricity meter and to record the location and details of these meters. This survey was completed in 2021 and a separate report was submitted to the Stellenbosch Municipality's Human Settlements Department with detail of the outcome of the aforementioned survey.
5	Servitudes	To the best of our knowledge and interpretation of the existing available information, there are no known servitudes that affects the properties in this land use application.
6	Topography	All the properties are already developed and hence the topographical characteristics of the area does not have a negative impact on the existing land uses.
7	Geotechnical Conditions	All the properties are already developed and hence the geotechnical characteristics of the area does not have a negative impact on the existing land uses.
8	Flood Lines	There are no known floodlines that affects the subject properties.
9	Alternative Uses	All the properties are already developed and therefore discussing alternative uses for these properties is irrelevant to the purpose / objectives of this land use application.

7.6 OTHER IMPLICATIONS OF THE PROPOSED LAND USE(S)

Comments on other possible implications of the proposed land uses are provided in the table below.

TABLE 17: OTHER IMPLICATIONS OF THE PROPOSED LAND USE(S)

IMPACT	MOTIVATION / COMMENT
Environmental Impact	The subject properties are located inside the urban edge in an already developed area. All the sites are already developed, and the intention of this land use application is to formalise what is currently on the ground. There will thus be no negative impact on any environmental resources. The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects. The letter from WC DEADP is attached hereto as **ANNEXURE 10**.
Heritage Impact	The subject properties are located inside the urban edge in an already developed area. All the sites are already developed, and the intention of this land use application is to formalise what is currently on the ground. The sites are not located within the historical centre of Stellenbosch and the buildings are not older than 60-years. An NID was submitted to Heritage Western Cape (HWC) on 8 August 2021. HWC confirmed in a letter dated 3 September 2021 that *"since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required".* The letter from HWC is attached hereto as **ANNEXURE 11**.
Compatibility with the Surrounding Area	The properties have been well integrated into the space-economy and urban fabric of Kayamandi for a number of years and is fully compatible with the surrounding area.
Socio-Economic Impact	The primary objective is to obtain the necessary land use rights so that the properties can be registered with the SG's Office and then transferred to the intended beneficiaries. This in itself has a positive socio-economic impact on this community.
Social & Public Facilities	There will be no negative impact on the existing number of social and public facilities in the area. The application also does not trigger the need for additional public / social facilities because there will be no densification or additional / new greenfield development.
Surrounding Property Values	There will be no negative impact on surrounding property values.

IMPACT	MOTIVATION / COMMENT
Safety & well-being of the Surrounding Community	There will be no negative impact on safety of the surrounding community. The finalisation of the land use rights, registration and transfer of the properties will have a positive impact on the well-being of the beneficiary community.

8. CONCLUSION

In conclusion, the primary objective of this land use application is to finalise and conclude a process that should have been finalised many years ago. The approval of the land use applications in paragraph 2.3 of this report should therefore be a formality for the following reasons:

- The land use rights for the properties in this project should already have been finalised approximately 20-years ago, however, due to various reasons, beyond the control of Stellenbosch Municipality, these land use rights were not finalised, and ownership of the properties could not yet be transferred.
- The primary objective of this land use application is to legalize the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.
- The properties in this project are located in an established urban area within the urban edge of Kaya Mandi.
- The properties in this project have already been developed and dwelling units are already occupied.
- The properties in this project have access to existing infrastructure and engineering services within Kaya Mandi.
- No additional dwelling units will currently be constructed on the subject properties.
- The existing land uses are compliant with the Stellenbosch SDF and consistent with other relevant local and provincial policies.
- There are no negative environmental and heritage impacts as confirmed by the Western Cape Department of Environmental Affairs and Development Planning and Heritage Western Cape.
- A letter dated 25 August 2021 from the Western Cape Department of Environmental Affairs and Development Planning (reference: 16/3/3/6/1/B4/22/1270/21) confirmed that no listed activities in terms of the NEMA EIA Regulations 2014 are triggered by the proposed land use applications.
- Heritage Western Cape (HWC) confirmed in a letter dated 3 September 2021 that *"since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required"*.

The finalisation of the land use rights, the registration of the properties with the SG's Office and the transfer of ownership to the beneficiaries has become a matter of extreme urgency. Many of the original intended beneficiaries do not live there anymore and the community is becoming increasingly impatient with the delays in this process.

It is therefore recommended that the land use applications (listed in paragraph 2.3 of this report) be approved in order to comply with / adhere to the principles of good administration listed in Section 7(e) of the SPLUMA (Act 16 of 2013) and Section 59(4) of the Western Cape LUPA (Act 3 of 2014).

ANNEXURE E

APPLICATION FOR CLOSURE OF PUBLIC PLACE, REZONING, CONSOLIDATION, SUBDIVISION, AMENDMENT OF GENERAL PLAN & DEPARTURES: ERVEN 1113 - 1154, KAYAMANDI (ALSO KNOWN AS PROJECT 5A)

EXEMPTION FROM THE DEPARMENT OF MINISTRY OF LOCAL GOVERNMENT, ENVIRONMENTAL AFFAIRS AND DEVELOPMENT PLANNING FROM CERTAIN PROVISIONS FOR PUBLIC PARTICIPATION

Western Cape Government

MINISTRY OF LOCAL GOVERNMENT, ENVIRONMENTAL AFFAIRS AND DEVELOPMENT PLANNING

Per e-mail: Mayor@stellenbosch.gov.za
Donovan.Muller@stellenbosch.gov.za
Mayor.PA@stellenbosch.gov.za

Dear Mayor van Deventer

STELLENBOSCH MUNICIPALITY: REQUEST FOR AUTHORISATION FOR EXEMPTION FROM CERTAIN PROVISIONS (PUBLIC PARTICIPATION REQUIREMENTS) IN TERMS OF SECTION 60 (1) OF THE LAND USE PLANNING ACT, 2014 (ACT NO 3 OF 2014): FIVE HOUSING PROJECTS IN KAYAMANDI, STELLENBOSCH

1. Your request for the exemption from certain public participation provisions/requirements in terms of Section 60(1)(b) of the Western Cape Land Use Planning Act, 2014 (Act 3 of 2014) (LUPA), dated 27 September 2021, refers.

2. As the Authorised Decision maker, I hereby confirm that I have had access to and considered all the relevant information and I have accordingly resolved as follows:

   That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch, **BE APPROVED** in terms of Section 60(1) of the LUPA.

3. The reasons for my decision are as follows:

   i) The request satisfies the requirements of the enabling legislative prescript in terms of Section 60(1)(b) of LUPA;
   ii) The request is in the interest of meeting the needs of the poor and vulnerable; and
   iii) The request is reasonable as there has been no change in the applicable spatial planning, policy or development context of the area since the original approval.

Please note that this decision will become effective by notice in the *Provincial Gazette* in accordance with Section 60(1) of LUPA. A copy of the notice will be made available upon publication.

Sincerely

A BREDELL
MINISTER

P.N. 129/2021

19 October 2021

DEPARTMENT OF ENVIRONMENTAL AFFAIRS AND DEVELOPMENT PLANNING

WESTERN CAPE LAND USE PLANNING ACT, 2014 (ACT 3 OF 2014)

EXEMPTION FROM PROVISIONS OF ACT

I, Anton Wilhelm Bredell, Provincial Minister of Local Government, Environmental Affairs and Development Planning in the Western Cape, under section 60(1)*(b)* of the Western Cape Land Use Planning Act, 2014 (Act 3 of 2014) (the Act), exempt Stellenbosch Municipality from the provisions of sections 43, 44 and 47 of the Act, in respect of the intended land use applications for:

- Project 4A: 148 x flats currently located on Erven 1091 – 1112 and 1080 – 1090, Kayamandi;
- Project 4B: 51 x formal dwelling units currently located on Erven 112, 114, 115 and 116, Kayamandi;
- Project 5A: 175 x formal dwelling units currently located on Erven 1113 – 1122 and 1123 – 1154, Kayamandi;
- Project 5B: 48 x formal dwelling units currently located on Erven 66, 69, 514 – 522 and a portion of Erf 523, Kayamandi;
- Project 8: 54 x formal dwelling units currently located on the Remainder of Erf 288, Kayamandi.

Signed at Cape Town on this 13th day of October 2021.

AW BREDELL

Dear Sir

APPLICATION FOR PROVINCIAL EXEMPTION IN TERMS OF SECTION 60 OF THE WESTERN CAPE LAND USE PLANNING ACT (LUPA), ACT 3 OF 2014: OBTAINING THE NECESSARY LAND USE RIGHTS AND REGISTRATION OF DIAGRAMS IN THE SURVEYOR-GENERAL'S OFFICE FOR FIVE (5) HOUSING PROJECTS IN KAYAMANDI, STELLENBOSCH

Stellenbosch Municipality appointed a Service Provider to assist in obtaining the necessary land use rights and registration of diagrams in the Surveyor General's Office for five (5) **completed** housing projects in Kayamandi, Stellenbosch.

The purpose of this letter is to apply for exemption from the Publication and Serving of Notices (Sections 43 and 44 of LUPA, Act 3 of 2014) for all five (5) completed projects, in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014).

More information regarding the five (5) projects in Kayamandi is provided below and in the following **Annexures** to this letter:

1. Annexure 1: Location of the five (5) projects.
2. Annexure 2: Current Cadastral Information for each of the five (5) projects
3. Annexure 3: Proposed consolidations and subdivisions applicable to each of the five (5) projects.

The reasons for requesting the aforementioned exemption, follows towards the end of this letter.

BACKGROUND

The Kayamandi Township was originally proclaimed in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) and established as a development area with the creation of Erf 288, Kaya Mandi (34.4957ha in extent). The aforementioned erf was then subdivided in accordance with General Plan L149/1987 after which the township register was opened in terms of the Upgrading of Land Tenure Rights Act, 1991 (Act 112 of 1991).

Kayamandi was then extended in terms of Proclamation Notice G.K. 598/1991 with the acquisition of Portion 56 of Farm 183 (Erf 707), Portion 3 of Farm 181 (Erf 1070) and Portion 59 of Farm 183 (Erf 634). The new development area (18.5ha in extent) was then surveyed and established in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) with the registration of General Plans 7988/1991, 3443/1991 and 7989/1991.

The former Stellenbosch Transitional Council commissioned the preparation of a Spatial Development Framework for Kayamandi in 1995 to guide and direct the severe development pressure that existed in the Kayamandi Township at the time. During this process a number of high priority housing projects were identified. This culminated in the approval of the Kayamandi SDF in September 1996 and the Housing Projects Plan in January 1997. The eight high priority housing projects that were identified included the following:

- Project 1: Costa Land Development (greenfield development)
- Project 2: Snake Valley (greenfield development)
- Project 3: Watergang (greenfield development)
- Project 4A: Rental Apartments (town centre upgrade)
- Project 4B: Red Brick Hostels (town centre upgrade)
- Project 5A: High Density Units (town centre upgrade)
- Project 5B: High Density Units (town centre upgrade)
- Project 8: Mpelazwe (town centre upgrade)

Although the abovementioned projects (excluding Project 3: Watergang) were implemented during this period, the majority of erven have never been formally registered in order to enable the individual transfer of these properties to their respectively beneficiaries. The main reason for the aforesaid challenge was that Stellenbosch Municipality did not have the necessary authority to consider and approve the formal amendments of the General Plans due to the statutory provisions that applied in terms of the Black Communities Development Act, 1984 (Act 4 of 1984).

Stellenbosch Municipality subsequently appointed **Plan 4 SA (Pty) Ltd** and a team of sub-consultants to assist the municipality in obtaining the necessary land use rights for five projects in Kayamandi, known as Projects 4A, 4B, 5A, 5B and 8 (Mpelazwe). This is

necessary to enable the Municipality to finalise the formal registration of these properties with the Surveyor-General and the Deeds Office so that the title deeds of the properties can be transferred to their respective new owners.

The relationship of the aforementioned five projects to the original Erf 288 and Erf 1070 (Portion 3 of Farm 181) is shown in the following two diagrams:

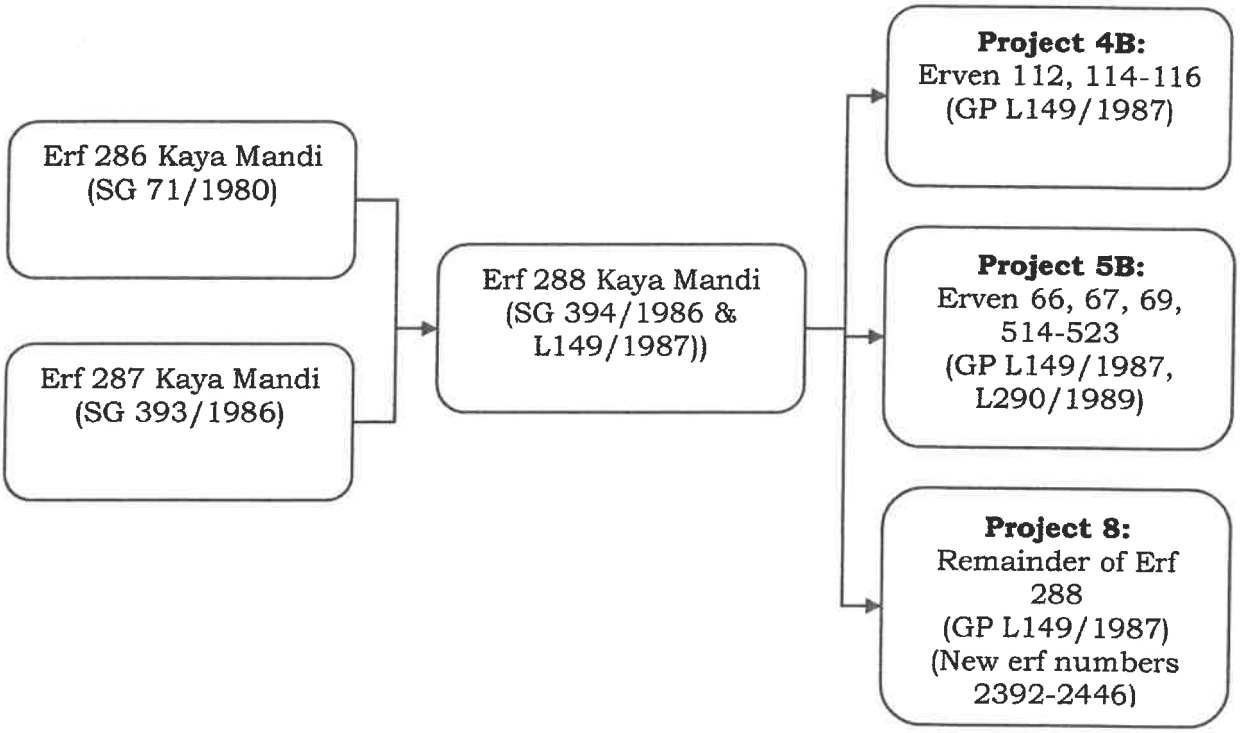

FIGURE 1: "GENEALOGY" OF ERF 288 KAYA MANDI

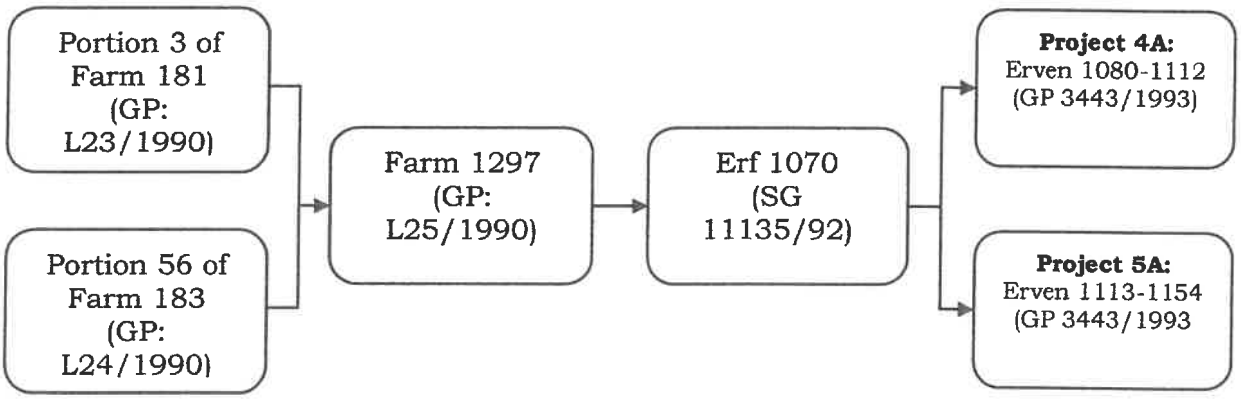

FIGURE 2: "GENEALOGY" OF ERF 1070 KAYA MANDI

EXISTING LAND USES

Examples of the existing land uses for each project are shown in the table below.

PROJECT	EXISTING LAND USES	PHOTOS
4A	148 x Flats currently located on Erven 1091-1112 and 1080-1090 Kaya Mandi.	View along 13th Street
4B	51 x Formal Dwelling Units currently located on Erven 112, 114, 115 and 116 Kaya Mandi.	View along Mdala Street
5A	175 x Formal Dwelling Units currently located on Erven 1113-1122 and 1123-1154 Kaya Mandi	View along School Crescent

PROJECT	EXISTING LAND USES	PHOTOS
5B	48 x Formal Dwelling Units currently located on Erven 66, 69, 514-522 and a portion of Erf 523 Kaya Mandi	 View along Mjandana Street
8	54 x Formal Dwelling Units currently located on the Remainder of Erf 288 Kaya Mandi.	 View along Luyolo Road

PURPOSE OF EACH LAND USE APPLICATION

Project 4A:

This project was approved by Council in 1996 and comprised the development of 146 family units by Stocks Housing Cape (Pty) Ltd. The 148 units were developed and completed in 1998 as rental stock units on Erven 1080-1112. The purpose of this application is thus the following:

- To consolidate Erven 1091-1112 and 1080-1090 Kayamandi to enable the registration of a Sectional Title Scheme.
- To obtain approval (condonation) of 9 minor encroachments of existing staircases into the street.

Project 4B:

This project, also known as Red Bricks Hostels, formed part of the Kayamandi hostel upgrading programme and was constructed in 2004. The purpose of this application is thus the following:

- To consolidate Erven 112, 114, 115 and 116 Kayamandi
- To subdivide the consolidated erf into 56 erven consisting of 51 residential erven and 5 public places.

Project 5A:

This project entailed the development of 175 high density units and public open spaces on Erven 1113-1154 Kaya Mandi. Although the General Plan was submitted for approval to the Western Cape Government, the registration could not be done since Erf 1120 was not closed as a public place. The purpose of this application is thus the following:

- To close the public place on Erf 1120 Kaya Mandi.
- To consolidate Erven 1113-1122 and 1123-1154 Kaya Mandi
- To subdivide consolidated Erf 1980 Kaya Mandi into 130 erven consisting of 124 residential erven and 6 public places.
- To subdivide consolidated Erf 1981 Kaya Mandi into 54 erven consisting of 51 residential erven and 3 public places.

Project 5B:

This project formed part of the Kayamandi Town Centre upgrade. The development originally made provision for 137 high density units, a new road and several open spaces. Construction of the project was partially completed (48 residential units constructed) in 2004 due to an influx of people who occupied (in informal structures) the remainder of the project area. There will be two land use applications that will be submitted consecutively for this project:

- An application by Plan 4 SA (Pty) Ltd which deals with the area that contains the existing constructed units.
- An application by TV3 which deals with the area that contains the informal settlement.

The purpose of the first application (to be submitted by Plan 4 SA) is thus the following:

- To subdivide Erven 69, 514, 515, 523 and 1969 Kaya Mandi.
- To consolidate the aforementioned subdivided erven with Erven 516-522 Kaya Mandi.
- To subdivide the consolidated erf into 52 erven consisting of 48 residential erven and 4 public open places.

Project 8:

This project, known as Mpelazwe, formed part of the hostel upgrading programme and consists of 54 residential units and 1 public open space. However, it still forms part of the Remainder of Erf 288, Kayamandi. New erf numbers have been allocated but the formal subdivision and closure of a public place have not been completed to date. The purpose of this application is thus the following:

- To close the public road for a portion of Erf 288 Kaya Mandi.
- To subdivide the closed road portion from the Remainder of Erf 288.
- To subdivide the new erf into 55 erven consisting of 54 residential erven and 1 public open place.

OWNERSHIP

All the current properties, except for Erf 66 Kayamandi, is owned by the Stellenbosch Municipality. Erf 66 Kayamandi is currently privately owned however, Stellenbosch Municipality is in the process of negotiating the transfer of this property to the Municipality.

MOTIVATION FOR EXEMPTION FROM SECTIONS 43 AND 44 OF LUPA

As stated earlier, the purpose of this letter is to apply for exemption from the Publication and Serving of Notices (Sections 43 and 44 of LUPA, Act 3 of 2014) for all five (5) completed projects, in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014).

We would like to highlight the following, as motivation for our request:

1. All five (5) projects are located in an established urban area within the urban edge of Kayamandi.
2. All five (5) projects have already been developed and dwelling units are already occupied.
3. All five (5) projects have access to existing engineering services within Kaya Mandi.
4. No additional dwelling units will currently be constructed on the subject properties.
5. The primary objective of the five (5) land use applications is to legalize the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.
6. The land use rights for these projects should already have been finalised approximately 20-years ago, however, due to various reasons, beyond the control

of Stellenbosch Municipality, these land use rights were not finalised, and ownership of the properties could not yet be transferred.

7. A letter dated 25 August 2021 from your department (reference: 16/3/3/6/1/B4/22/1270/21) confirmed that no listed activities in terms of the NEMA EIA Regulations 2014 are triggered by the proposed land use applications.
8. We have submitted an NID to Heritage Western Cape (HWC) on 11 August 2021 and is awaiting the response from HWC. However, to the best of our knowledge and interpretation, the land use applications have no impact on heritage resources and therefore no further heritage studies would be required in terms of the relevant Heritage legislation.

The finalisation of the land use rights the registration of the properties with the SG's Office and the transfer of ownership to the beneficiaries has become a matter of extreme urgency. Many of the original intended beneficiaries do not live there anymore and the community is becoming increasingly impatient with the delays in this process.

We believe that it would be in the best interest of the beneficiary community to shorten the land use authorisation processes for these five (5) projects, due to the historical delays and reasons given above. The opportunity now exists to shorten the land use process for these five (5) projects by dealing with it as a "technical approval" and not putting it through the normal advertisement (publication and serving of notices) processes. In this way, the approval timeframe can be shortened by at least 90-days.

After an approximately 20-year delay, it is also in the best interest of the Stellenbosch Municipality as well as the Western Cape Provincial Government to "pull out all the stops" to finalise this matter.

IN CONCLUSION

We sincerely hope that you will understand the importance and urgency of this matter and we thank you in advance for your favourable consideration of our request.

Yours sincerely

RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: FINAL
In terms of Section 38(1) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO SUBDIVDE AND REZONE ON VARIOUS ERVEN IN KYAMANDI STELLENBOSCH, SUBMITTED IN TERMS OF SECTION 38(4) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

CASE NUMBER: 20210709AM0811E

The matter above has reference.

Heritage Western Cape is in receipt of additional information for the above matter received. This matter was discussed at the Heritage Officers Meeting held on 26 August 2021.

You are hereby notified that, since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

However, should any heritage resources, including evidence of graves and human burials, archaeological material and paleontological material be discovered during the execution of the activities above, all works must be stopped immediately, and Heritage Western Cape must be notified without delay.

This letter does not exonerate the applicant from obtaining any necessary approval from any other applicable statutory authority.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.

Yours faithfully

Dear Sir

RE: APPLICABILITY OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") ENVIRONMENTAL IMPACT ASSESSMENT ("EIA") REGULATIONS, 2014 (AS AMENDED), WITH RESPECT TO THE PROPOSED REZONING, CONSOLIDATION AND SUBDIVISION OF VARIOUS ERVEN AS WELL AS THE COMPILATION AND SUBMISSION, KHAYAMANDI

1. The electronic correspondence dated 5 August 2021, as received by this Department on the same day, refers.

2. Following the review of the above-mentioned correspondence, this Department draws your attention to the following:

   2.1 The project involves obtaining the land use rights for 5 projects in Kayamandi, Stellenbosch. These projects have already been constructed but the majority of the erven however have not been formally registered and individual transfers to the respective end users/beneficiaries cannot take place.

   2.2 The projects will therefore involve the rezoning, consolidation and subdivision of various erven as well as the compilation and submission of an application to the Surveyor-General for the registration of the Sectional Title Scheme.

   The 5 projects are:
   Project 4 A
   - The rezoning of Erven 1080 to 1112.
   - The consolidation of Erven 1080 to 1112.
   - The subdivision of the consolidated property to enable the registration of a sectional title housing scheme (rental stock).
   - The compilation and submission of an application to the Surveyor-General for the registration of the Sectional Title Scheme.

   Project 4B
   - The rezoning of Erven 112, 114, 115 and 116.

- The consolidation of Erven 112, 114, 115 and 116.
- The subdivision of the consolidated property into 51 erven and 5 private open spaces.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

Project 5A

- The rezoning of Erven 1123 to 1154.
- The consolidation of Erven 1123 to 1154.
- The closure of Erf 1123.
- The subdivision of the consolidated property into 175 erven and remainder public parking and streets.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

Project 5B

- The rezoning of Erven 513-522, Remainder Erf 66, Erf 67 and a Portion of Erf 523.
- The consolidation of Erven 513-522, Remainder Erf 66, Erf 67 and a Portion of Erf 523.
- The subdivision of the consolidated property to establish 135 erven and remainder Public Road and Parking Zone.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

Project 8: Mpelazwe

- The rezoning of a Portion of Remainder Erf 288 Kayamandi.
- The closure of a Portion of Remainder Public Road.
- The subdivision of the consolidated property into 65 erven and remainder public parking and streets.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

3. Your attention is therefore drawn to the listed activities in terms of the NEMA EIA Regulations 2014 (as amended) as defined in Listing Notices ("LN") 1, 2 and 3 of 7 April 2017. Be advised that, based on the information provided, the proposed rezoning, consolidation and subdivision on the above-mentioned properties, **does not** constitute any listed activities as defined in terms of the NEMA EIA Regulations 2014 (as amended). Environmental Authorisation is therefore not required prior to the proposed development.

4. The above-mentioned is based on the following:

   4.1 The site is located with the urban area and is completely transformed.
   4.2 There are no watercourses on the site.

5. However, should any future development of the consolidated portions trigger any listed activity in terms of the EIA Regulations, 2014 (as amended), an application form for Environmental Authorisation must be submitted to the Competent Authority and the Environmental Authorisation obtained prior to the development proposal being commenced with on the proposed site. The relevant application forms are available on this Department's website: www.westerncape.gov.za/eadp.

6. You are further reminded of your general duty of care towards the environment in terms of section 28(1) of NEMA which states:
"Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorised by law or cannot reasonably be avoided or stopped, to minimise and rectify such pollution or degradation of the environment."

7. Please note that the applicant must comply with any other statutory requirements that may be applicable to the undertaking of the activity.

8. Kindly quote the abovementioned reference number in any future correspondence concerning the proposed development.

9. This Department reserves the right to revise or withdraw its comments and request further information based on any information received.

Yours faithfully

Good morning Colin and Abdullah

Herewith please receive drawings that were compiled from old information and through site visits.
The drawings show the water and sewer lines and house connections to the erven for the three areas.
The drawings numbers are as follows:

1. C1942/FA101/Z – Sewer As-built Services – Phase 8
2. C1942/FA102/Z – Sewer As-built Services – Phase 4b & 5B
3. C1942/WA101/Z – Water As-built Services – Phase 8
4. C1942/WA102/Z – Water As-built Services – Phase 4b & 5B

The CAD drawing is also included.

Please let me know if you need any further information.

Hello Abdullah and Colin

Herewith a summary of our discussion yesterday.

Present were Abdullah Daniels, Colin Taylor and Henk van Renssen

At this stage, the as-built information for Phases 4A and 5A, showing sewer and water services with house connections was located and is available in Cad format.
The information available for Phases 4B, 5B and 8 is the main sewer lines and the electrical and water meter positions. The as-built drawings could not be sourced.

The plan of action will be to firstly look for the house plans to see if we can locate the connections from there. Abdullah and Colin will speak to the appropriate department.
If that does not work, we will produce a drawing with house connections shown on the lower side of the erven. This will then be checked on site, where possible, for correctness and submitted.

Tyrone, can I perhaps come and sit with you guys to see what as-built information there may still be for the other projects?
I have marked the 3 projects up on the scan that we received. If we can identify any of the other as-built drawings, we can try to locate the owners again and see if they can help.

I am in Stellenbosch on Friday. Will 9:00 in the morning suit?

Good afternoon Tyrone
With reference to the e-mails below, we have now received the CAD files for the attached Water and Sewer as-built drawing. See also attached.
These as-builts date back to 1993, but we got hold of the files from Knight Piesolt (formerly Kayad) and could convert them to CAD.

The information includes all the sewer and water lines and house connections for Project 4A and 5A for your GIS requirements as requested at the meeting.

Hi Martin

We are currently evaluating this application. Can you please assist with the following information that will help us:

1. A clear pdf of the subdivision layout + aerial image – so roads dept can comment on "road" layout and parking areas.
2. A conceptual reticulation and erf connection layout for water and sewer to indicate how each erf will be serviced. Drawing must indicate if there are any clashes of structures with the sewer/water and how it will be addressed. If sewer/water runs across a proposed erf, then a servitude must be indicated and registered, or it must be relocated if possible.

This is initial info required, if I require any further info, I will let you know.

Regards

Annexure G – Existing 11kV Infrastructure in Cloetesville – Medium Voltage Layout

1 Introduction

Inani Infrastructure (Pty) Ltd was appointed by Stellenbosch Municipality as part of the professional team to provide civil engineering services for the planning phases to formalise the existing structures on five proposed project sites in Kayamandi.

2 Site descriptions

Stellenbosch Municipality intends to formalise these land parcels as there are already existing structures on these properties. Table 1 provides a summary of the project sites.

Table 1 Summary of Project Sites

Reference No.	Site Location and Description	Area (ha)	No. of Erven
Project 4A	Erven 1080-1090 along 13th Street & 1091-1112 along 13th Street and 10th Street	0.93	144
Project 4B	Erven 1112 on Manyano Street and 114-116 along Noumela Street	0.71	56
Project 5A	Erven 113-1122 and 1123-1154	1.28	184
Project 5B	Portions of erven 66, 69 and 523 and erven 515-522 along Mjandana Street	4.53	52
Project 8	Portion of erf 288 along Sokuqala Road	34.30	55

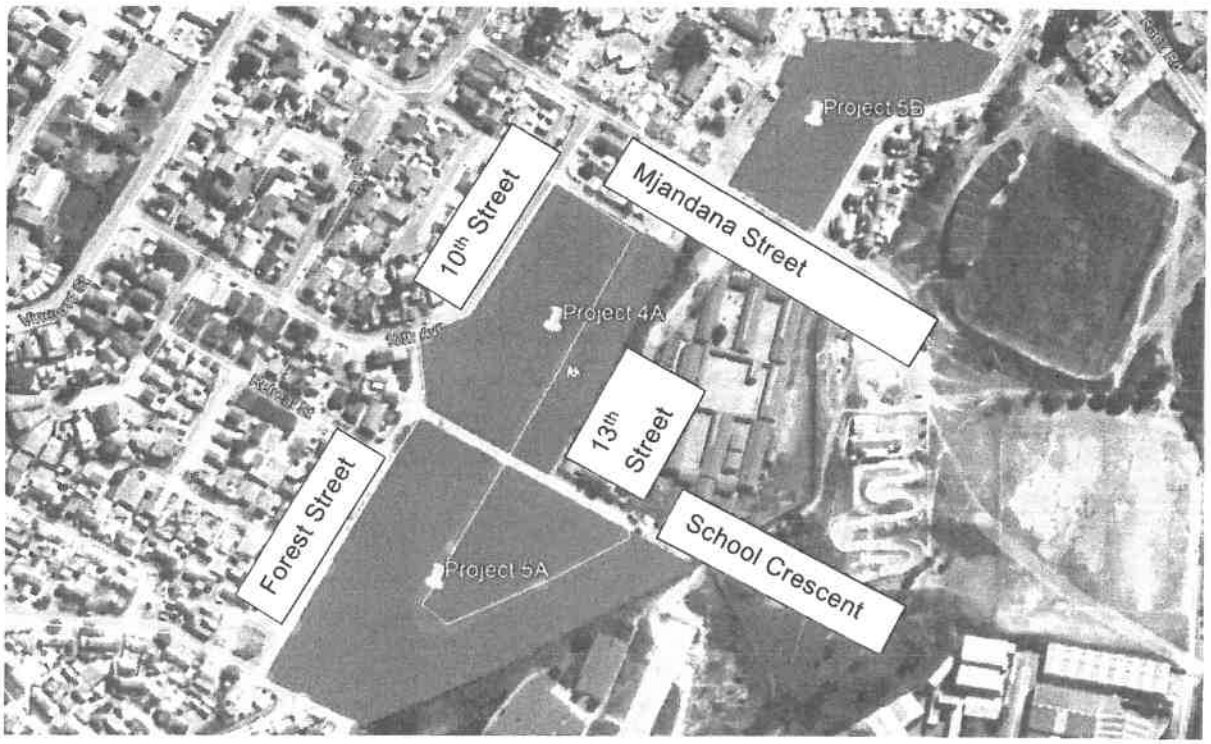

Figure 1 Site locations of Projects 4A, 5A and 5B

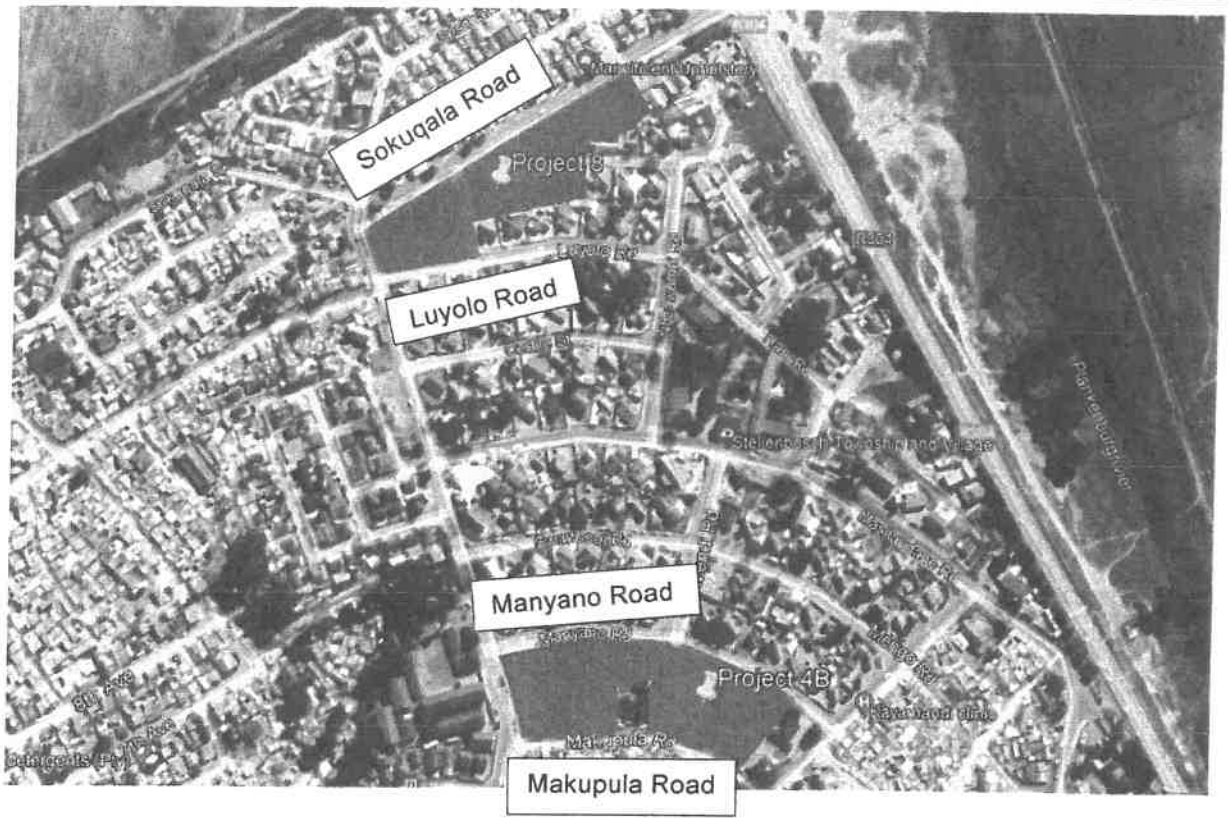

Figure 2 Site location of Project 8 and Project 4B

2.1 Project 4A

Project 4A is bounded by 10th Street and School Cresent with 13th Street separating the project site. The total site area is 0.93 ha. It is proposed to consolidate the erven 1080 to 1090 and 1091 to 1112 and to formalise the sectional title plans for the existing 144 apartments. (Freidland, Burger & Volkmann, 2021).

2.2 Project 4B

Project 4B is located between Manyano Road and Makupula Road and has a total site are of 0.71 ha. The site comprises of erven 112 to 116 and it is proposed to consolidate the erf into 56 erven which will include 51 residential plots and 5 public places (Freidland, Burger & Volkmann, 2021).

2.3 Project 5A

Project 5A is bounded by Forest Street and School Crescent and has a total site area of 1.28ha. It is proposed to close the public space on erf 1120, consolidate the erven 1113 to 1122 and 1123 to 1154. The municipality also proposes to consolidate erf 1980 into 130 erven (124 residential plots and 6 public places) and erf 1981 into 54 erven (51 residential plots with 3 public places) (Freidland, Burger & Volkmann, 2021).

2.4 Project 5B

Project 5B is situated along Mjandana Street with a site area of 4.53ha. It is proposed to subdivide erven 66, 69, 514, 515 and 523, and consolidate erven 516 to 522, which will be consolidated into 52 erven that will comprise of 48 residential plots and 4 public places (Freidland, Burger & Volkmann, 2021).

2.5 Project 8

Project 8 is located between Sokuqala Road and Luyolo Road with a total site are of 34.3ha. It is proposed to close erf 288 and close the road portion for erf 288 and subdivide this into 55 erven which will comprise of 54 residential plots and 1 public place (Freidland, Burger & Volkmann, 2021).

3 Documents and guidelines

The following documents and guidelines were referenced for calculations and design considerations:

- Stellenbosch Municipality's Design Guidelines and Minimum Standards for Civil Engineering Services, June 2015
- Red Book – Guidelines for Human Settlement Planning and Design, 2005 by CSIR for the Department of Human Settlements

4 Existing and proposed engineering services

The proposed project sites are located within an established suburb with infrastructure, which offers the possibility for service connections to assist with the formalisation of the sites. This section of the report discusses the existing services and the availability of services and connection points.

GLS Consulting provided the comments on the bulk water supply and sewer discharge for the proposed formalisation of existing structures project. GLS Consulting commented that the water demand for the existing structures was accounted for in the June 2019 master plans for water and sewer networks, however no provision was made for densification in these areas. Please note that comment is in some instances given as if the developments are still proposed.

4.1 Water distribution system

This section of the report discusses the water distribution network for Kayamandi and the proposed development areas by considering the distribution zones, the water demand and assesses the present situation.

4.1.1 Distribution zone

The Kayamandi reservoirs are divided into four distribution zones, namely PRV1, PRV2, PRV3 and PRV 4. Each project area falls within one of these water distribution zones and is also located within a water priority area.

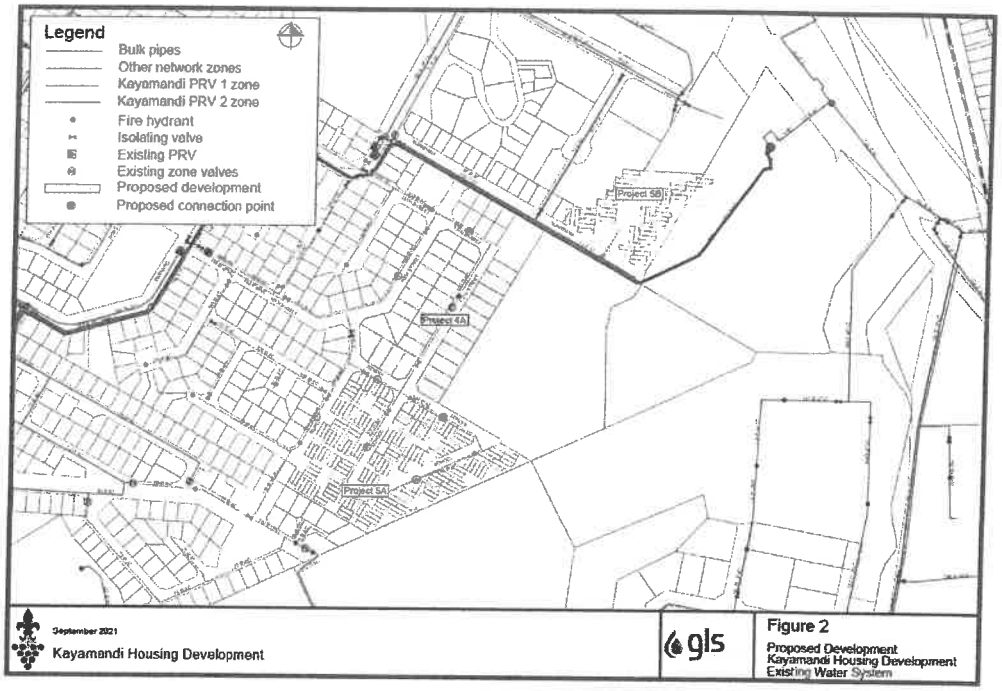

Figure 3 Demand Zones PRV1 and PRV2

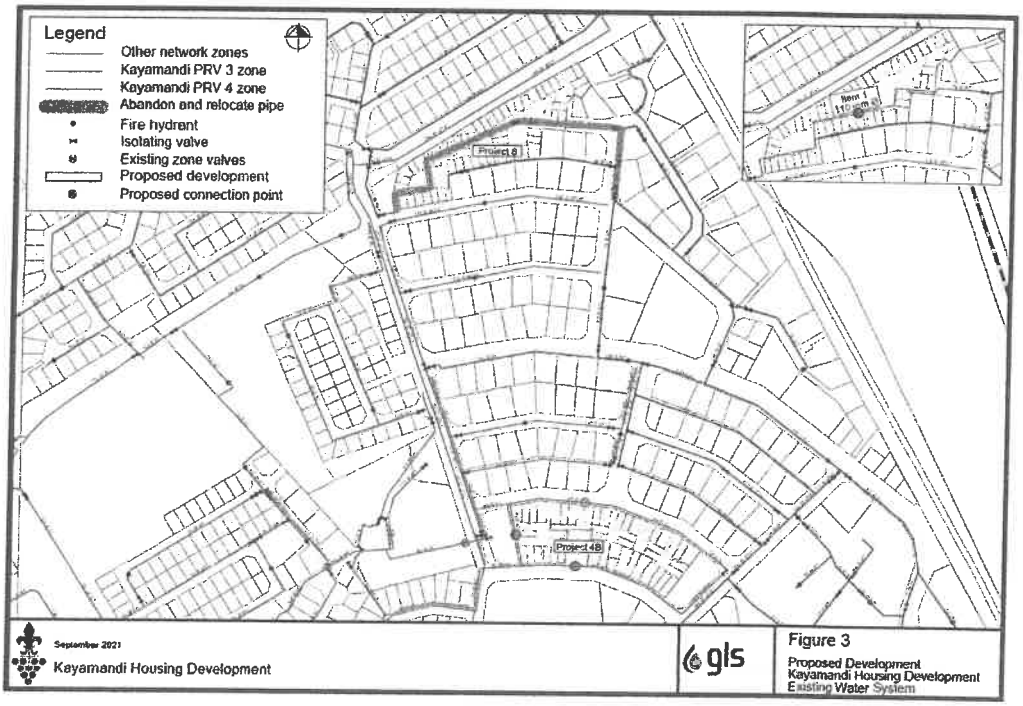

Figure 4 Demand Zones PRV3 and PRV4

a) Project 4A

This site is located within the Kayamandi Reservoir PRV 1 zone (see Figure 3 or Annexure D). There is an existing 100mm AC diameter pipeline in 10th Street, 13th Street and School Crescent for the supply to the area (GLS Consulting, 2021).

b) Project 4B

The site for Project 4B is situated within the Kayamandi reservoir PRV4 zone (see Figure 4 or Annexure D). There is an existing 75 / 100mm AC diameter pipeline in Lamla Street and Ndumela Street and an existing 75mm diameter pipe that runs parallel to Makupla Street (GLS Consulting, 2021).

c) Project 5A

Project 5A is situated within the Kayamandi reservoir PRV1 zone (see Figure 3 or Annexure D) and has an existing 100mm AC diameter pipeline in School Crescent and Forest Drive for supply (GLS Consulting, 2021).

d) Project 5B

Project 5B is located within the Kayamandoi PRV2 zone (see Figure 3 or Annexure D) with a connection point on the existing 75mm AC diameter pipeline along Mjandana Street (GLS Consulting, 2021).

e) Project 8

Project 8 is located within the Kayamandi reservoir PRV3 and PRV4 zones. There is a 50mm AC diameter pipe that serves the properties on Sokuqala Road (PRV3) and a 110mm uPVC diameter pipe in Luyolo Street (PRV4) (GLS Consulting, 2021).

4.1.2 Water demand

In the original water master plan (June 2019), a 68.6 kL/d water demand allowance was made for the existing structures on the proposed development areas. GLS Consulting revised the annual average daily demand (AADD) and fire flow estimations. Table 2 provides a summary of the calculations.

Table 2 Water Demand Estimations

Project Area	No. Residential Units	Demand Factor (kL/unit/day)	AADD (kL/d)
Project 4A	144	0.4	57.6
Project 4B	51	0.45	23.0
Project 5A	175	0.45	78.8
Project 5B	48	0.45	21.6
Project 8	54	0.45	24.3
Total AADD for the proposed development			**205.3**
Fire flow criteria (Low risk)			**15 L/s at 10m**

Due to the densification of the project areas 4A, 4B, 5A, 5B and 8, the potential increase in water demand was calculated to be 136.7 kL/d (GLS Consulting, 2021).

4.1.3 Present situation

This section considered the current conditions of the water system and will discuss the water reticulation network, the bulk water supply, reservoir capacity and the implementation of the Water Master Plan.

4.1.3.1 Reticulation network

Within the existing Kayamandi reservoir water distribution network, there is sufficient capacity to accommodate the proposed development. The Kaymandi water reservoir network supplies water via an existing 250mm diameter and 315mm diameter water main from a top water level (TWL) of 224.3 m above mean sea level (GLS Consulting, 2021).

Each project will be supplied with water from different zones within the Kayamandi reservoir, specifically zones 1, 2, 3 and 4 (refer to Figure 3 and Figure 4 or Annexure D). The existing reticulation network of the Kayamandi distribution zones have sufficient spare capacity to accommodate the proposed development areas (GLS Consulting, 2021).

It is recommended that the small 50mm diameter AC water reticulation pipe that runs through the proposed development area of Project 8 be re-routed and replaces to accommodate the proposed development within the existing Kayamandi reservoir PRV 3 zone. This 50mm diameter pipe is located within the proposed development's building footprints and is not sufficient to supply the area (GLS Consulting, 2021). The cost to re-route and replace the pipe with a 110mm diameter pipe is listed in Section 5 in the cost summary as Link Services Item 1.

4.1.3.2 Bulk supply

The bulk water supply originates from Idas Valley no. 2 reservoir, located at the Idas Valley water treatment works (WTW) and is gravity fed to the Papegaaiberg reservoir, where it is then pumped to the Kayamandi no. 1 (2 ML) and Kayamandi no.2 (4 ML) reservoirs.

The bulk system, which includes the Papeggaiberg reservoirs to the Kayamandi reservoirs, has sufficient capacity to accommodate the proposed development areas. However, the existing bulk supply from Idas Valley reservoir no. 2 to the Papegaaiberg reservoir is at capacity and it is recommended to upgrade this in accordance with the water master plan to support any additional development within Kayamandi (GLS Consulting, 2021).

4.1.3.3 Reservoir capacity

The Stellenbosch Water Master Plan uses 48 hours of the AADD (of the reservoir supply zone) as a criterion for determining the total reservoir volume. Based on the 2019 water master plan figures, the combined AADD of Kayamandi reservoir supply areas is currently around 3 050 kL/d. The existing Kayamandi reservoirs have a capacity of 6 000 kL, so there is a storage capacity of approximately 48 hours regardless of the amount of AADD supplied. Consequently, the existing Kayamandi reservoirs do not have sufficient storage capacity (marginal) to accommodate additional development. It is important to note, however, that the proposed development areas will consume approximately 5% of the existing storage capacity of the Kayamandi reservoirs (GLS Consulting, 2021).

It is thus recommended that additional storage capacity be provided to support any additional development within the Kayamandi area.

As part of Stellenbosch's long-term planning to be more resilient to future droughts, to maximize the use of existing water resources, and to safeguard the town's water supply during power outages, a new 10

ML Kayamandi Upper reservoir is proposed (GLS Consulting, 2021). Refer to "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report.

Within this newly proposed system, bulk water will be transferred from the Papegaaiberg reserve to the proposed Kayamandi Upper reservoir, which will enable Stellenbosch Municipality to supply water to new development projects to the north and to the west of the Kayamandi suburb. It is also proposed that surplus water from the Stellenbosch town system's resources could possibly be transferred to the Koelenhof system from the Kayamandi Upper reservoir (GLS Consulting, 2021).

Furthermore, the proposed Kayamandi Upper reservoir will provide additional reservoir storage capacity to the existing Kayamandi and Enkanini suburbs that is currently supplied from the existing Kayamandi reservoirs. This system would allow that emergency storage capacity in the proposed Kayamandi Upper reservoir can be transferred to the existing Kayamandi reservoirs if required (GLS Consulting, 2021).

4.1.4 Master plan implementation

It is recommended that the bulk supply from Idas Valley no. 2 reservoir to the Papegaaiberg reservoir be upgraded. The following master plan items were proposed as part of the Helshoogte transfer scheme to augment the bulk water supply to the Papegaaiberg reservoir to support the proposed development areas as well as any other future developments. See Annexure C for the master plan schematic.

Bulk supply (Helshoogte transfer scheme)

- SSW6.8a: 240 m x 560 mm Ø New HDPE bulk supply pipe
- SSW.B20: 4 630 m x 450 mm Ø New HDPE bulk supply pipe

The Kayamandi Upper system is required to transfer bulk water from the Papegaaiberg reservoir to the proposed Kayamandi Upper reservoir. As part of the Kayamandi Upper system the following mater plan items were proposed:

Bulk supply (Kayamandi Upper system)

- SSW.B29 : 150 L/s @ 135 m new bulk pump station
- SSW.B30 : 3 200 m x 450 mm Ø New HDPE Pipe to install
- SSW.B31 : New 10,0 ML (TWL = 246,7 m) Kayamandi Upper reservoir

Note: the routes of the proposed pipelines and locations of the proposed pumpstations and reservoirs are schematically represented in Annexure C and must still be finalised during detail design.

The municipality has already appointed consultants for the design of the bulk pipeline from the Idas Valley reservoir no 2, the proposed pump station at the Papegaaiberg reservoir, the bulk pipeline to the Kayamandi Upper reservoir and the proposed 10,0 ML Kayamandi Upper reservoir (GLS Consulting, 2021).

4.2 Sewer network

This section will discuss the sewer network. Refer to Annexure E for the sewer network plans.

4.2.1 Drainage area

a) Project 4A

There is an existing 150mm diameter sewer outfall that runs parallel to 10th Street and 13th Street for connection (GLS Consulting, 2021).

b) Project 4B

There is an existing 150mm diameter outfall sewer pipe that runs through the development into in Lamla Street (GLS Consulting, 2021).

c) Project 5A

There is an existing 150mm diameter outfall sewer pipe that runs through and adjacent to the proposed project area (GLS Consulting, 2021).

d) Project 5B

There is an existing 200mm diameter outfall sewer pipe to the north of the proposed project area (GLS Consulting, 2021).

e) Project 8

There is an existing 200mm diameter outfall sewer pipe in Sokuqala Road and/or the existing 150mm diameter outfall sewer that run along in Luxolo Street or parallel to Luyolo Street (GLS Consulting, 2021).

4.2.2 Sewer flow

The original analysis of the master plan made allowance for a sewer demand of 48.0 kL/d for the existing structures on the proposed development areas. GLS Consulting revised these estimations and determined that the peak daily dry weather flow (PDDWF) for the proposed development areas is 164.2 kL/d (GLS Consulting, 2021).

Due to the densification of the project areas, the potential increase in sewage flow was estimated to be 116.2 kL/d (GLS Consulting, 2021).

4.2.3 Present situation

The existing Kayamandi sewer reticulation network and Adam Tas bulk sewer system that gravity feeds from Kayamandi to Stellenbosch waste water treatment works (WWTW) has sufficient capacity to accommodate the sewer demands of the proposed project areas (GLS Consulting, 2021).

4.3 Traffic and access

The development sites form part of the developed and build-up areas. All properties within the project sites can be accessed through the existing road network.

4.4 Electrical

4.4.1.1 Bulk Demand

According to the document provided by GLS and the requirements by Stellenbosch Municipality, the proposed units will be designed at an ADMD of 4kVA per unit.

Table 3 Electrical Demand Estimations

Project Area	No. Residential Units	Demand ADMD (kVA/unit)	Total (kVA)
Project 4A	144	4	576
Project 4B	51	4	204
Project 5A	175	4	700
Project 5B	48	4	192
Project 8	54	4	216
Total kVA proposed for the development			**1888**
Total Demand (MVA)			**1.88MVA**

As per the document, the by-laws allow for densification by allowing one additional dwelling on a single residential stand. For estimation GLS allowed one additional dwelling for every second residential stand thus the new estimated demand is as per Table 4 below.

Table 4 Electrical Demand Estimations with backyard dwellers

Project Area	No. Residential Units	Demand ADMD (kVA/unit)	Total (kVA)
Project 4A	144	4	576
Project 4B	77	4	308
Project 5A	263	4	1052
Project 5B	72	4	288
Project 8	81	4	324
Total kVA proposed for the development			**2548**
Total Demand (MVA)			**2.548MVA**

For the purposes of this report and as per GLS's information, we will work with a Total demand of 1.88MVA.

4.4.1.2 Bulk Supply

Cloetesville HV/MV Substation does have sufficient capacity for the development sites. Cloetesville supplies Curry Switching Station (SS) which in turn suppliers Kayamandi SS, Watergang SS and RMU Costa. The proposed developments fall withing the supply areas of Kayamandi SS, Watergang SS and RMU Costa. These Switching Stations have sufficient capacity for the proposed projects.

4.4.1.3 Internal MV Reticulation

The proposed developments are near existing electrical infrastructure. This infrastructure is currently suppling the existing customers in the area.

Projects 4A, 5A and 5B:

- Kayamandi SS: MS Corridor Feeder and MS 6th Avenue Feeder (Ring Network)
    - The MS Corridor Feeder (35mm² PILC) has a capacity of 2.48MVA and MS 6th Avenue Feeder (35mm² PILC) has a capacity of 2.48MVA. These feeders form a ring therefore the total capacity is 5MVA.
    - These feeders currently supply 14 miniature substations and have an installed capacity of 5.8MVA which exceeds the capacity of the feeders.
- The proposed additional load of 1.47MVA may not be able to be accommodated.

Note: From the information received and calculated, the feeders will not be able to accommodate the additional load unless the actual loading is less than the installed capacity. Information regarding the actual load vs the installed load is needed to determine the way forward with regards to the supply.

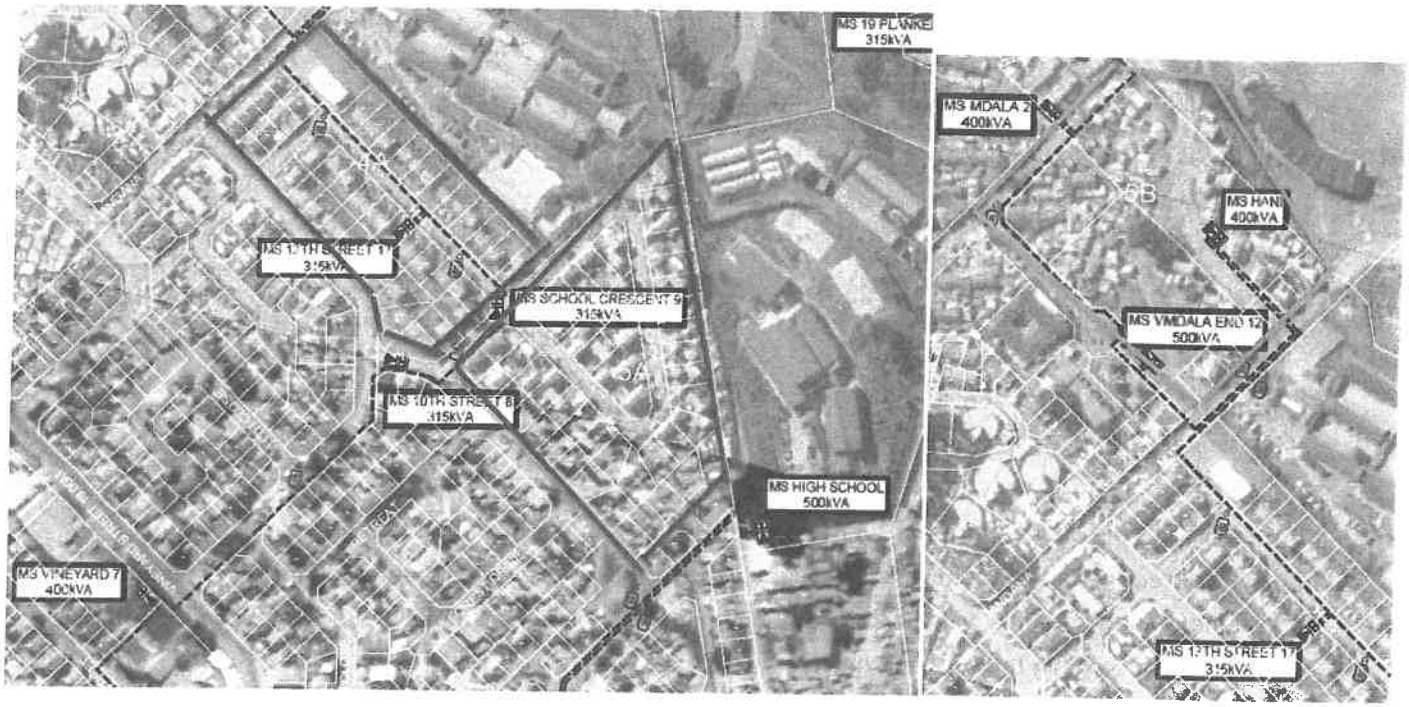

Figure 5 Existing MV Network and Minisubs

Projects 4B and 8:

- Kayamandi SS: MS Mode Crescent Feeder interconnecting with RMU Costa: MS Sesihlanu 16 Feeder
    - The MS Mode Crescent Feeder (35mm² PILC) and RMU Costa MS Sesihlanu 16 Feeder (35mm² PILC) has a capacity of 2.48MVA. These feeders combined therefore have a capacity of 5MVA.
    - These feeders currently supply 4 miniature substations and has an installed capacity of 1.8MVA. An additional load of 700kVA can be accommodated on these feeders
- The proposed load of 420kVA (0.42MVA) and can be accommodated by this feeder network.

Figure 6 Existing MV Network and Minisubs

4.4.1.4 Master Plan Implementation

According to the GLS report, part of the Master Planning is the implementation of the planned electrical redundancy project which will soon go out on tender to increase the reliability within the Kayamandi network, this will assist with splitting the load with newly installed feeders between Watergang SS within the ring and between Kayamandi SS.

5 Cost items

Estimated Cost of Water Upgrades

The water master plan proposed upgrades to augment the bulk water system to supply the Kayamandi area. These items are summarised in Table below. All costs include P & G, Contingencies and Fees, but excluding VAT - Year 2020/21 Rand Value. This is a rough estimate, which does not include major unforeseen costs.

Table 5 Water Master plan cost items

Item no.	Description	Price (ex VAT)
Reticulation Network		
Link Services Item 1	210m x 110mm Ø to replace the existing 50mm Ø AC pipe	R230 000
Bulk supply – Helshoogte transfer scheme		
SSW6.8a	240m x 560mm Ø New HDPE bulk supply pipe	R2 600 000
SSW.B20	4 630m x 450mm Ø New HDPE bulk supply pipe	R32 500 000
Bulk supply – Kayamandi Upper system		
SSW.B29	150 L/s @ 135m new bulk pump station	R30 000 000
SSW.B30	3 200m x 450mm Ø New HDPE Pipe to install	R22 500 000
SSW.B31	New 10,0 ML (TWL = 246,7 m) Kayamandi Upper reservoir	R26 500 000
Total		**R114 330 000**

Estimated Cost of MV Network Upgrade

Table 6 Electrical cost items

Item no.	Description	Price (ex VAT)
MV Reticulation Network		
1	Upgrade MV Cable: Supply and Install 4500m of Cable including terminations.	R4 580 000.00
Total		**R4 580 000.00**

Note: No upgrade cost estimates provided in Masterplan or GLS report for the Kayamandi SS MV Network.

6 Terms and conditions

The developer of the proposed development areas in Kayamandi may be liable for the payment of a Development Contribution as calculated by Stellenbosch Municipality for the bulk water and sewer infrastructure.

7 Conclusions

The reticulation networks for the appropriate zones have sufficient capacity for the development areas but the Kayamandi reservoir has marginally insufficient storage capacity.

Since the current Stellenbosch bulk supply to the Papegaaiberg reservoir is at capacity, it does not have sufficient capacity to supply bulk water to the proposed development areas. To augment this, the master plan items SSW6.8a & SSW.B20 (part of the larger Helshoogte transfer system) are proposed, and the

master plan items SSW.B29, SSW.B30 & SSW.B31 are required to augment the reservoir storage capacity of the Kayamandi water system.

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch WWTW have sufficient capacity to accommodate the proposed development areas.

The Cloetesville HV/MV Electrical Substation and the Switching Stations for the supply areas have sufficient capacity for the development sites. However, the capacity of some of the Internal MV feeders is exceeded and the additional load of Projects 4A, 5A and 5B may not be able to be accommodated. The implementation of a masterplanning item is being planned that will increase the reliability of the internal network.

Attention: Mr Martin Jonker

Dear Sir,

PROPOSED FORMALISATION OF EXISTING STRUCTURES ON ERVEN 1080–1090 & 1091–1112 (PROJECT 4A), ERVEN 112 & 114–116 (PROJECT 4B), ERVEN 1113–1122 & 1123-1154 (PROJECT 5A), PORTIONS OF ERVEN 66, 69 & 523 AND ERVEN 515 - 522 (PROJECT 5B) AND A PORTION OF ERF 288 (PROJECT 8), KAYAMANDI: CAPACITY ANALYSIS OF THE BULK WATER AND SEWER SERVICES

Your request regarding comments on the bulk water supply and sewer discharge of the proposed development (proposed formalisation of existing structures in Kayamandi), refers.

This document should inter alia be read in conjunction with the following documents:

- Water Master Plan (performed by GLS for the Stellenbosch Municipality) dated June 2019.
- Sewer Master Plan (performed by GLS for the Stellenbosch Municipality) dated June 2019
- Bulk Water Resources: Drought Intervention Projects (performed by GLS for the Stellenbosch Municipality) dated June 2019.
- Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System (performed by GLS for Zutari (Pty) Ltd) dated 15 September 2021.

The water demand of the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) was taken into consideration for the June 2019 master plans for the water and sewer networks. No provision was however made in the June 2019 water and sewer master plans for densification on these areas.

1. WATER DISTRIBUTION SYSTEM

1.1 *Distribution zone*

The master plan indicated that the proposed development areas should be accommodated within the following water distribution zones as per Figures 2 & 3 attached:

Project 4A: Proceed by making connections to the existing 100 mm Ø pipes in 10th Street, 13th Street and School Crescent in the Kayamandi reservoir PRV 1 zone;

Project 4B: Proceed by making connections to the existing 75/100 mm Ø pipes in Lamla Street and Ndumela Street as well as the 75 mm Ø pipe running parallel to Makupla Street in the Kayamandi reservoir PRV 4 zone;

Project 5A: Proceed by making connections to the existing 100 mm Ø pipes in School Crescent and Forest Drive in the Kayamandi reservoir PRV 1 zone;

Project 5B: Proceed by making a connection to the existing 75 mm Ø pipe Mjandana Street in the Kayamandi reservoir PRV 2 zone; and

GLS Consulting (Pty) Ltd
T +27 21 880 0388
Stellenpark, Block D North, Cnr of R44 and School Rd, Jamestown, Stellenbosch, 7600, ZA | PO Box 814, Stellenbosch, 7599, ZA
Reg no: 2007/003039/07
www.gls.co.za

Directors: HA Baartman, AG Hingeston

Project 8: Proceed by making a connection to the proposed 110 mm Ø pipe in the Kayamandi reservoir PRV 3 zone.

The proposed development is situated inside the water priority area.

1.2 *Water demand*

Allowance was made for a water demand of 68,6 kL/d for the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) in the original analysis of the water master plan.

For this re-analysis, the average annual daily demand (AADD) and fire flows for the proposed development were calculated as follows:

- Project 4A: 144 Residential flat units @ 0,4 kL/d/unit = 57,6 kL/d
- Project 4B: 51 Residential erven @ 0,45 kL/d/unit = 23,0 kL/d
- Project 5A: 175 Residential erven @ 0,45 kL/d/unit = 78,8 kL/d
- Project 5B: 48 Residential erven @ 0,45 kL/d/unit = 21,6 kL/d
- Project 8: 54 Residential erven @ 0,45 kL/d/unit = 24,3 kL/d

- Total AADD of proposed development = 205,3 kL/d

- Fire flow criteria (Low risk) = 15 L/s @ 10 m

The potential increase in water demand due to the densification of project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 136,7 kL/d.

1.3 Present situation

1.3.1 Reticulation network

The existing Kayamandi reservoir water distribution network has sufficient capacity in order to accommodate the proposed development within the existing Kayamandi water system. The Kayamandi reservoir water network supplies water via the existing 250 mm Ø and 315 mm Ø water mains from a Top Water Level (TWL) of 224,3 metres above mean sea level (m.a.s.l.). The proposed projects should each be supplied by different water demand zones within the Kayamandi reservoir, namely: Kayamandi reservoir PRV zones 1, 2, 3 & 4 (refer to Par 1.1 above). The existing reticulation networks of the Kayamandi reservoir PRV zones have sufficient spare capacity available to accommodate the proposed development within the existing Kayamandi water system.

The small 50 mm Ø AC water reticulation pipe running through the proposed development area of Project 8 will however have to be replaced and re-routed to accommodate the proposed development within the existing Kayamandi reservoir PRV 3 zone. The 50 mm Ø pipe is not only insufficient to supply the development but is also located inside the building footprints of the current site development plan.

Link services item:

Item 1: 210m x 110 mm Ø replace existing 50 mm Ø AC pipe R 230 000 *

(* Including P & G, Contingencies and Fees, but excluding VAT - Year 2020/21 Rand Value. This is a rough estimate, which does not include major unforeseen costs).

Take note that the route of the proposed pipeline is schematically shown on Figure 3 attached, but have to be finalised subsequent to detail pipeline route investigations.

1.3.2 *Bulk supply*

Bulk water is supplied from the Idas Valley no. 2 reservoir (located at the Idas Vallei WTW site) to the Papegaaiberg reservoir under gravity and then pumped from the Papegaaiberg reservoir to the Kayamandi no. 1 (2.0 ML) and Kayamandi no. 2 (4.0 ML) reservoirs.

The bulk system from the Papegaaiberg reservoir to the Kayamandi reservoirs has sufficient capacity to accommodate the proposed development areas.

The existing bulk supply from the Idas Valley reservoir no. 2 to the Papegaaiberg reservoir is however at capacity and should be upgraded according to the water master plan in order to accommodate any additional development in Kayamandi.

1.3.3 *Reservoir capacity*

The criteria for total reservoir volume used in the Stellenbosch Water Master Plan is 48 hours of the AADD (of the reservoir supply zone).

According to the water master plan the combined AADD of the Kayamandi reservoirs supply areas is currently approximately 3 050 kL/d (based on the 2019 Water Master Plan demand figures). The capacity of the existing Kayamandi reservoirs is 6 000 kL, which results in a current reservoir storage capacity of approximately 48 hours of the AADD supplied.

The existing Kayamandi reservoirs therefore have insufficient storage capacity (only marginally) to accommodate additional development. The impact of the proposed development areas on the existing Kayamandi reservoirs storage capacity is however significant as the development areas will use approximately 5% of the existing storage capacity available.

Additional reservoir storage capacity should therefore be provided in order to accommodate any additional development in Kayamandi.

As part of die longer term planning of Stellenbosch town to be more resilient against future droughts, to utilise existing water resources optimally and to plan for water security during potential power outages, a new 10,0 ML Kayamandi Upper reservoir is proposed as part of the Kayamandi Upper system (refer to "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report).

The Kayamandi Upper system is required to transfer bulk water from the Papegaaiberg reservoir to the proposed Kayamandi Upper reservoir. This will enable the SM to supply water to affordable housing projects to the north and west of the existing Kayamandi suburb. Surplus water from the Stellenbosch town system's resources could possibly be transferred to the Koelenhof system from the Kayamandi Upper reservoir.

The proposed Kayamandi Upper reservoir will provide additional reservoir storage capacity for the existing Kayamandi and Enkanini suburbs that is supplied with water from the existing Kayamandi reservoirs (the system allows that emergency storage capacity in the proposed Kayamandi Upper reservoir can be transferred to the existing Kayamandi reservoirs if required)..

1.4 Implementation of the *master plan*

Bulk supply from the Idas Valley no. 2 reservoir (located at the Idas Vallei WTW site) to the Papegaaiberg reservoir is at capacity and should be upgraded. The following master plan items are proposed as part of the so-called "Helshoogte transfer scheme" (refer to "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report) to augment bulk supply to the Papegaaiberg reservoir in order to accommodate the proposed development together with other future development areas, as shown on Figure 4:

Bulk supply (part of Helshoogte transfer scheme)

• SSW6.8a:	240 m x 560 mm Ø New HDPE bulk supply pipe		R 2 600 000 *
• SSW.B20:	4 630 m x 450 mm Ø New HDPE bulk supply pipe		R 32 500 000 *
		Total	R 35 100 000 *

The following master plan items are proposed to implement the so-called "Kayamandi Upper system" (refer to the "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report). The Kayamandi Upper system is required to transfer bulk water from the Papegaaiberg reservoir to the proposed Kayamandi Upper reservoir. This will enable the SM to supply water to affordable housing projects to the north and west of the existing Kayamandi suburb and will provide additional reservoir storage capacity for the existing Kayamandi and Enkanini suburbs that is supplied with water from the existing Kayamandi reservoirs:

Bulk supply (Kayamandi Upper system)

• SSW.B29 : 150 L/s @ 135 m new bulk pump station		R 30 000 000 *
• SSW.B30 : 3 200 m x 450 mm Ø New HDPE Pipe to install		R 22 500 000 *
• SSW.B31 : New 10,0 ML (TWL = 246,7 m) Kayamandi Upper reservoir		R 26 500 000 *
	Total	R 79 000 000 *

(* Including P & G, Contingencies and Fees, but excluding VAT - Year 2020/21 Rand Value. This is a rough estimate, which does not include major unforeseen costs).

Take note that the routes of the proposed pipelines and locations of the proposed pump station and reservoir are schematically shown on Figure 4 attached, but have to be finalised subsequent to detail pipeline route and location investigations.

Stellenbosch Municipality has already appoint consultants for the design of the bulk pipeline from the Idas Valley reservoir no. 2, the proposed pump station at the Papegaaiberg reservoir, the bulk pipeline to the Kayamandi Upper reservoir and the proposed 10,0 ML Kayamandi Upper reservoir.

2. SEWER NETWORK

2.1 Drainage area

The development falls within the existing Adam Tas sewer drainage area. The connections to the existing Kayamandi sewer system can be do done as per Figures 5 & 6 attached.

Project 4A: Proceed by making connections to the existing 150 mm Ø outfall sewer pipes running parallel to 10th Street and 13th Street;

Project 4B: Proceed by making connections to the existing 150 mm Ø outfall sewer pipe running through the development into Lamla Street;

Project 5A: Proceed by making connections to the existing 150 mm Ø outfall sewer pipes running through and adjacent to the proposed development;

Project 5B: Proceed by making a connection to the existing 200 mm Ø outfall sewer pipe to the north of the proposed development; and

Project 8: Proceed by making a connection to the existing 200 mm Ø in Sokuqala Street and/or 150 mm Ø outfall sewers running in Luxolo Street or parallel to Luyolo Street.

The proposed development is situated inside the sewer priority area.

2.2 Sewer flow

Allowance was made for a sewer demand of 48,0 kL/d for the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) in the original analysis of the sewer master plan..

For this re-analysis, the peak daily dry weather flow (PDDWF) for the proposed development was calculated as 164,2 kL/d.

The potential increase in sewage flow due to the densification of project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 116,2 kL/d.

2.3 Present situation

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch waste water treatment works (WWTWs) have sufficient capacity to accommodate the proposed development areas.

3. CONCLUSION

The developer of the proposed development areas in Kayamandi may be liable for the payment of a Development Contribution (as calculated by Stellenbosch Municipality) for bulk water and sewer infrastructure as per Council Policy.

The existing reticulation networks of the Kayamandi reservoir PRV zones have sufficient spare capacity available to accommodate the proposed development within the existing Kayamandi water system. The existing Kayamandi reservoir has insufficient storage capacity (only marginally) to accommodate the proposed development. Connections to the existing water system can be made as stated in Paragraph 1.1 and shown on Figures 1 & 2.

The existing Stellenbosch bulk supply to the Papegaaiberg reservoir is at capacity and therefore has insufficient capacity in order to accommodate the proposed development.

Master plan items SSW6.8a & SSW.B20 (part of the larger Helshoogte transfer system) are proposed to augment bulk water supply to the Papegaaiberg reservoir. Master plan items SSW.B29, SSW.B30 & SSW.B31 are required to augment the reservoir storage capacity of the Kayamandi water system.

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch WWTW have sufficient capacity to accommodate the proposed development areas. Connections to the existing sewer system can be made as stated in Paragraph 2.1 and shown on Figures 5 & 6.

We trust you find this of value.

Yours sincerely

ANNEXURE F
BULK ELECTRICAL COMMENT REPORT FROM GLS CONSULTING

10 November 2021

Plan 4 SA (Pty) Ltd
PO Box 1152
Cape Gate
7562

Attention: Mr Martin Jonker

Dear Sir,

PROPOSED FORMALISATION OF EXISTING STRUCTURES ON ERVEN 1080–1090 & 1091–1112 (PROJECT 4A), ERVEN 112 & 114–116 (PROJECT 4B), ERVEN 1113–1122 & 1123-1154 (PROJECT 5A), PORTIONS OF ERVEN 66, 69 & 523 AND ERVEN 515 - 522 (PROJECT 5B) AND A PORTION OF ERF 288 (PROJECT 8), KAYAMANDI: CAPACITY ANALYSIS OF THE BULK ELECTRICAL SERVICES

Your request regarding comments on the bulk electrical supply and reticulation of the proposed development (proposed formalisation of existing structures in Kayamandi), refers.

This document should inter alia be read in conjunction with the following documents:

- Electrical Master Plan (performed by Royal HaskoningDHV for the Stellenbosch Municipality) dated September 2015.
- NRS 034-1 (2007) /SANS 507 (2007): Electricity distribution — Guidelines for the provision of electricity distribution networks in residential areas
- Information document no 1 Stellenbosch Municipality zoning scheme by-law November 2016
- Latest electrical network diagrams for Stellenbosch Municipality from Lyners and Partners:
  - *E19191-01 Existing MV Layout - OVERALL (4000)*
  - *E19191-02 Existing Single line Diagram - Colours*

The calculated demand of the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) were considered in this assessment. Some provision was however made in the September 2015 electrical master plan for densification on these areas and there is an existing load demand for the proposed formalised areas.

1. HIGH AND MEDIUM VOLTAGE DISTRIBUTION SYSTEM

1.1. Distribution Zone

The proposed formalised areas resides in the Kayamandi suburb. The suburb falls within the Cloetesville HV (High Voltage)/MV (Medium Voltage) Substation distribution zone. The 2015 electrical master plan indicated that the proposed development areas should be accommodated within the Cloetesville HV/MV Substation distribution zone. The Cloetesville HV/MV Substation has two incoming feeders from Eskom supplying the substation at 66kV. The substation is currently fitted with 2x 20 MVA 66/11 kV Transformers, and 1x 300kVA local transformer. The substation has an installed capacity of 40 MVA, firm capacity of 20 MVA and a NMD (Notified Maximum Demand) of 16 MVA.

As per the latest MV reticulation diagrams created by Lyners and Partners, the Cloetesville HV/MV Substation transforms the incoming 66kV to 11kV and distributes the power through the Curry SS(Switching Station) to Kayamandi SS. Curry SS is fed through 4x 11kV 95mm^2 copper cables from Cloetesville HV/MV Substation. There are two switching stations supplying power in the area and a RMU (Ring Main Unit), these include Kayamandi SS, Watergang SS and Costa RMU respectively. The Kayamandi SS is the station supplying to the proposed formalised area and receives 11kV through 2x 185mm^2 copper conductors.

1.2. *Electrical Demand*

The Stellenbosch Municipality electrical master plan utilises the SANS 507 recommendations (Standards South Africa, 2007) to guide the After Diversity Maximum Demand (ADMD) estimates for developments. The ADMD used for the future demand of 4 kVA/Unit for Lower Income Residential Areas is used. The existing structures on the proposed development region of Kayamandi will be assessed based on the latest demand provided by the Stellenbosch Municipality.

For this re-analysis, the demand for the proposed development were calculated as follows: With a ADMD of 4 kVA/unit:

Table 1: Demand calculation

Project	No. Units	Estimated Demand [kVA]
Project 4A	144	576
Project 4B	51	204
Project 5A	175	700
Project 5B	48	192
Project 8	54	216
Total	**472**	**1,888**

The estimated demand utilised in these proposed formalised areas due to the densification of project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 1888 kVA.

According to the Stellenbosch 2017-2022 Integrated Development Plan, Kayamandi has experienced significant population growth with the number of residents having more than doubled in the past ten years. This has created a backlog in housing needs within the municipality. Another key feature is the cost of housing in Stellenbosch has become expensive with many opting to commute from outside of the Stellenbosch municipal area to work. For those who cannot afford to commute from outside of Stellenbosch for work, affordable rental accommodation is still the best option.

Due to the nature of the land use in the area, there is a high possibility of backyard dwellers occupying some of these estimated number of units. This will result in the increase in demand as there will be more electricity users occupying these units. For this report, the number of dwellings on one residential dwelling will be guided by the Stellenbosch municipal zoning scheme by-laws for conventional residential zones. The by-law allows limited densification through allowing one additional dwelling on a single residential dwelling. For this assessment an assumption that only the second erven will have an additional dwelling. An increase of 1.5 times the units will represent this assumed uptake of back dwellers is utilised to estimate the potential increase in the number of units on these proposed projects.

With the potential backyard dwellers, the demand for the proposed formal development were calculated as follows: With a ADMD of 4 kVA/unit:

Table 2: Demand calculation including the potential of backyard dwellers

Project	No. Units (Including potential backyard dwellers)	Estimated Demand [kVA]
Project 4A	144	576
Project 4B	77	306
Project 5A	263	1050
Project 5B	72	288
Project 8	81	324
Total	**637**	**2,544**

The estimated demand utilised due to the impact of backyard dwellers for the project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 2544 kVA. This is an increase of 656 kVA.

1.3. Present Situation

1.3.1. *Reticulation Network*

The existing Cloetesville HV/MV Substation distribution network has sufficient capacity to accommodate the proposed development within the existing Kayamandi area. The loading on the substation is sitting at around 16 MVA and the substation installed capacity is 40 MVA. The Kayamandi SS and Watergang SS supply electricity through the Kayamadi area via the existing 35mm^2 Cu PILC network. The proposed project areas are supplied by different miniature substations in the suburb.

Project 4A: The proposed project is situated between 13th and School Streets. The area has 3x 315 kVA Miniature substations (MS) installed in close proximity, namely, MS 13th Street, MS School Crescent and MS 10th Street; The estimated demand for this project is 576 kVA as calculated above in 1.2

Project 4B: The proposed project is situated between Noumela and Manyano Streets. The area has 2x 500 kVA Miniature substations installed in close proximity, namely MS Makapula and MS Mondi Crescent End; The estimated demand for this project is 204 kVA as calculated above in 1.2

Project 5A: Situated between School and Forest Streets. The area has 2x 315 kVA and 1x 500 kVA Miniature substations installed in close proximity, namely, MS School Crescent, MS 10th Street and MS Highschool; The estimated demand for this project is 700 kVA as calculated above in 1.2

Project 5B: Situated along Mjandana Street. The area has 1x 400 kVA and 1x 500 kVA Miniature substations installed in proximity, namely, MS Hani and MS VMdala End; The estimated demand for this project is 192 kVA as calculated above in 1.2 and,

Project 8: Situated along Luyolo Street. The area has 1x 400 kVA Miniature substation installed in proximity, namely, MS Luyolo. The estimated demand for this project is 216 kVA as calculated above in 1.2

The total miniature substation installed capacity in the proposed formalised areas is 4060 kVA. The estimated electrical demand for the projects is sitting at 1888 kVA. This leaves an excess of 2172 kVA. This is not including the other existing loads within the area.

The medium voltage reticulation is connected via of 11 kV 35mm^2 copper cables as per the E19191-02 Existing Single line Diagram from Lyners and Partners. The network is primarily fed from Kayamandi SS at the moment, with the exception of MS Mondi Crescent and MS Luyolo, the rest of the miniature substations form a ring from Kayamandi SS. The feeder supplying MS Mondi Crescent and MS Luyolo interconnects Costa RMU which is also supplied by Curry SS through 1x 11 kV 70mm^2 copper cable with Kayamandi SS.

1.3.2. *Substation Capacity*

The existing Stellenbosch northern region 11 kV distribution network is supplied from a 66 kV HV network from Eskom which has adequate capacity and provides good operational flexibility under contingency conditions. Eskom's 66 kV rural network supplies Cloetesville HV/MV Substation. According to the Stellenbosch electrical master plan, the HV/MV substations has sufficient transformer capacity and the voltage regulation within the network is within accepted limits.

1.3.3. *Switching Station Capacity*

The Kayamandi residential area is supplied 11 kV by two switching stations, namely Kayamandi SS and Watergang SS. Kayamandi SS is fed from two 185mm² copper PILC conductors from Curry SS. The total carrying capacity of the feeders supplying power to the switching station is 12 MVA as calculated in the below Table 1 and the loading on the switching station currently is sitting on 5.5 MVA from the loading data provided by Lyners and Partners.

The switching station feeds all the proposed project areas with one ring feeding Projects 4A, 5A and 5B and one feeder supplying Projects 4B and 8 which is interconnected with Costa RMU. The ring which feeds Projects 4A, 5A and 5B has a total of 14 miniature substation connected on the ring with a total capacity of 5.8 MVA and the feeders connecting the ring are made up of 35mm² copper PILC conductors, the capacity of this conductor is 2.45MVA and since it forms a ring, it is 5 MVA. This implies the full capacity of the miniature substation exceed the maximum capacity of the conductors which is a cause of concern.

Table 3: Kayamandi SS Intake Carrying Capacity

Intake Feeder	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	185	11000	335	6.38
Feeder 2	PILC	Copper	185	11000	335	6.38
Total Installed Capacity						**12.77**

The N-1 intake feeder capacity for the switching station is sitting on 6.4 MVA. The loading on the switching station is around 5.5 MVA.

Watergang SS is also supplied by Curry SS but by two 70mm² copper PILC conductors. The total carrying capacity of the feeders supplying the Watergang SS is 7.43 MVA in total as calculated in the below Table 2 and the loading on the switching station is currently sitting on 0.8 MVA from the loading data provided by Lyners and Partners. The switching station does not directly supply power to any of the proposed projects.

Table 4: Watergang SS Intake Carrying Capacity

Intake Feeder	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	70	11000	195	3.72
Feeder 2	PILC	Copper	70	11000	195	3.72
Total Installed Capacity						**7.43**

The N-1 intake feeder capacity for the switching station is sitting at 3.72 MVA. With the current loading on the switching station, the feeder has enough capacity to carry this contingency load.

Costa RMU also receives a supply of power from Curry SS through two 70mm² copper PILC conductors. The RMU feeds a portion of the Kayamandi area network. Particularly the line feeding Projects 4B and 8, this line is interconnected with Kayamandi SS. The line has a total of 4 miniature substations connected with a total

capacity of 1.8 MVA. The feeders connecting the line is also made up of 35mm² copper PILC conductors, this means the total carrying capacity for the line is 3.72 MVA as calculated in the below Table 3, a total of almost 7.43 MVA. There is not much concern as this line can carry a higher capacity than the full load from the miniature substations.

Table 5: Costa RMU Intake Carrying Capacity

Intake Feeder	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	70	11000	195	3.72
Feeder 2	PILC	Copper	70	11000	195	3.72
Total Installed Capacity						**7.43**

The N-1 intake feeder capacity for the RMU feeders is 3.72 kVA. This capacity is sufficient to sustain portions of the loads carried by Kayamandi SS and Watergang SS.

1.3.4. *Network Feeder Capacity*

The individual rings feeding the proposed project areas include a ring connected to and from Kayamandi SS, and a feeder interconnecting Kayamandi SS and Costa RMU. The first ring connected to and from Kayamandi SS, is made up of 35mm² copper PILC conductors connected through the ring. The ring feeds the 4A, 5A and 5B projects. The total carrying capacity of the ring is 4.95 MVA.

Table 6: Ring 1 feeding proposed projects 4A, 5A, and 5B

Feeder Number	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	35	11000	130	2.48
Feeder 2	PILC	Copper	35	11000	130	2.48
Ring 1 Total Installed Capacity						**4.95**
Ring 1 Firm (N-1) Capacity						**2.48**

The N-1 capacity of the ring supplying the proposed projects 4A, 5A and 5B is sitting on 2.48 MVA. This value is lower than the installed capacity of the ring. The total installed capacity of miniature substations on the ring is 5.76 MVA and the estimated demand for the above-mentioned projects is 1.47 MVA. During a contingency, the feeder will be constraint and will potentially carry a load higher than it's carrying capacity as the load continues to grow.

The second ring feeding the proposed project area is the feeder interconnecting Kayamandi SS and Costa RMU. The line is comprised of 35mm² copper PILC conductors. The line feeds the 4B and 8 projects. The total carrying capacity of the line is 4.95 MVA.

Table 7: Ring 2 feeding proposed projects 4B and 8

Feeder Number	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1 (Kayamandi SS)	PILC	Copper	35	11000	130	2.48
Feeder 2 (Costa RMU)	PILC	Copper	35	11000	130	2.48
Ring 2 Total Installed Capacity						**4.95**
Ring 2 Firm (N-1) Capacity						**2.48**

The N-1 capacity of the ring supplying the proposed projects 4B and 8 is sitting on 2.48 MVA. This value is sufficient to carry the installed capacity of the ring. The total installed capacity of miniature substations on the

ring is 1.8 MVA and the estimated demand for the above-mentioned projects is 0.42 MVA. During a contingency, the feeder will be able to carry this load and higher as the load continues to grow.

1.4. Implementation of Planned Projects

The Stellenbosch integrated development plan signals out several land that may be available for potential future housing and industrial developments. Kayamandi and Groendal expansions are the notable low-income housing developments with 4600 and 1500 units planned for each. The Stellenbosch electrical master plan makes mention of the planned housing projects and pro-active electrical redundancy projects in the Kayamandi area have been proposed and planned to accommodate this anticipated growth. This electrical redundancy will protect the reliability and ensure the integrity of the network.

A tender for the first phase will be advertised soon, which will include a new PILC cable feeder from Cloetesville HV/MV substation directly to Watergang switching station. This project will increase the capacity of the switching station, provide redundancy, and share the load in the Kayamandi area between the Watergate and Kayamandi switching station, allowing for further development projects in the Kayamandi area. If there is sufficient funding available, the first phase will also include additional feeders between the Watergate and Kayamandi switching stations.

2. CONCLUSION

Cloetesville HV/MV Substation currently has enough capacity to carry the estimated existing load on the proposed formalised ervens. The network supplying the proposed projects area is said not to be experiencing major trips, recurring failures, and power interruptions due to overloading.

The ervens identified for formalisation are situated on an existing area which is currently utilising demand. The network around these ervens are currently mainly supplied by the Kayamandi SS. The switching stations supplying the Kayamandi area has sufficient capacity to carry the existing load including the proposed projects capacities and other existing loads.

One concern within the Kayamandi area network is the capacity of the ring feeding Projects 4A, 5A and 5B from Kayamandi SS, the estimated demand from the projects is higher than the N-1 carrying capacity of the feeder connected on the ring. This can potentially pose a problem with overloading the feeder and any future increased loads on that ring. A possible solution will be implementing the planned electrical redundancy project which will soon go out on tender to increase the reliability within the Kayamandi network, this will assist with splitting the load with newly installed feeders between Watergang SS within the ring and between Kayamandi SS.

We trust you find this of value.

Yours sincerely

PART B: PROPERTY DETAILS			
Property description	Remainder Erf 288	**Administrative District**	Kayamandi, Stellenbosch
Physical address	Located between Luyolo, Ndzawumbi and Sokuqala Road, Kayamandi (see **ANNEXURE A** for locality plan)		
Extent (m² /ha)	34,2986 ha	**Nearest Town**	Kayamandi
Existing Development and Current land use	The properties are already built-up and includes buildings used for residential purposes.		

Any unauthorised building work	Yes
Title Deed Nr.	T43399/2000 (see **ANNEXURE B** for copy of title deed and conveyancer certificate)
Current zoning and approved land use rights as per Zoning Scheme Bylaw 2019	Public Roads and Parking Zone

PART C: APPLICATION DETAILS	
Applications(s)	The application is made in terms of the Stellenbosch Municipal Land Use Planning By-Law, promulgated by notice number 354/2015, dated 20 October 2015, for the following: 1. **Amendment of General Plan** GP L149/1987 in terms of section 15(2)(k) of the said bylaw in order to facilitate the proposed development. 2. **Subdivision** in terms of section 15(2)(d) of the said bylaw to subdivide Remainder Erf 288, Kayamandi in two portions, namely Portion A (± 7 158m² in extent) and the Remainder of Erf 288, Kayamandi (±33,5828ha in extent). See **ANNEXURE C1** for Subdivisional Plan of Remainder Erf 288, Kayamandi. 3. **Closure of a public place** in terms of section 15(2)(n) of the said bylaw of subdivided Portion A (±7 158m² in extent) of Remainder Erf 288, Kayamandi. 4. **Rezoning** in terms of section 15(2)(a) of the said bylaw of Portion A (±7 158m² in extent) from **Public Road and Public Parking** to **Subdivisional Area** to allow for following uses (and in accordance with the land use framework plan as depicted in plan referenced **Zoning Plan 21P004(8)-TRP-ZP-20220130Rev D01, Plan Nr. 4, drawn by Plan4SA Professional Planners & Project Managers**):

1.4.1 **54** x **Less Formal Residential Zone** erven and ±4 448,79m² in extent for less formal housing purposes.

1.4.2 **1** x **Public Road and Parking Zone** and ±2 709,15m² in extent for road and parking area.

5. **Subdivision** in terms of section 15(2)(d) of the said bylaw of closed Portion A (±7 158m²) into 55 erven and in accordance with **Zoning Plan 21P004(8)-TRP-ZP-20220130Rev D01, Plan Nr. 4, drawn by Plan4SA Professional Planners & Project Managers**, to allow for the residential development in accordance with the subdivsional zone above.

6. **Departure** in terms of section 15(2)(b) of the said bylaw to increase the permissible coverage as follows:

   a) *on unregistered Erf 2415 from **80%** to **80,1%;***
   b) *on unregistered Erf 2432 and Erf 2443 from **80%** to **81%;***
   c) *on unregistered Erf 2414 from **80%** to **83%;***
   d) *on unregistered Erf 2420 from **80%** to **85%;***
   e) *on unregistered Erf 2440 from **80%** to **87%;***
   f) *on unregistered Erf 2426 from **80%** to **88%;***
   g) *on unregistered Erf 2418 from **80%** to **89%;***
   h) *on unregistered Erf 2408 from **80%** to **92%;***
   i) *on unregistered Erf 2428 from **80%** to **95%;***
   j) *on unregistered Erven 2403, 2407, 2410, 2422, 2424, 2429 & 2435 from **80%** to **100%**.*

7. **Departure** in terms of section 15(2)(b) of the said bylaw by reducing the minimum required on-site parking bays from **one** (1) parking bay per dwelling house to **0** bays per dwelling house on all residential erven.

8. **Departure** in terms of section 15(2)(b) of the said bylaw for the relaxation of the building lines (for all other buildings) as follows:

	a) *the street building line from* ***1,0m*** *to* ***0m*** *on one of the streets for the following unregistered erven: 2394, 2395, 2400, 2402, 2407, 2408, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446;* b) *the street building line from* ***1,0m*** *to* ***0m*** *on two of the streets for the following unregistered erven: 2396, 2406, 2413, 2414, 2420, 2433, 2434;* c) *the common building lines from* ***1,0m*** *to* ***0m*** *on the following unregistered erven: 2393-2395, 2398, 2399, 2403, 2406, 2409, 2410, 2412, 2415, 2417, 2419, 2422, 2424, 2426, 2429, 2430, 2431, 2436, 2437, 2443-2445.* 9. **Departure** in terms of section 15(2)(b) of the said bylaw for the relaxation of the building line (for shelters) as follows: a) *the street building lines from* ***1,0*** *to* ***0m*** *on one street building line for the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445;* b) *the street building line from* ***1,0m*** *to* ***0m*** *on two streets for the following erven: 2396, 2408, 2415, 2428, 2432, 2435;* c) *the street building line from* ***1,0*** *to* ***0m*** *on three streets for unregistered Erf 2429;* d) *the common building line from* ***1,0m*** *to* ***0m*** *for the following unregistered erven: 2392, 2396, 2403, 2404, 2418-2420, 2423, 2428, 2435, 2436, 2438-2440, 2442, 2445;* e) *the common building lines from 1,0m to 0m on two common building lines for the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429, 2430, 2443-2444;* f) *the common building lines from* ***1,0m*** *to* ***0m*** *on three common building lines for the following unregistered erven: 2395, 2410, 2412.*
Purpose of Application	The purpose of the application is to obtain the necessary land use rights for Project 8 (Mpelazwe). This is necessary to enable the Municipality to finalize the formal registration of the respective properties with the Surveyor-General and the Deeds Office so that the title deeds of the properties can be transferred to their respective owners.

Pre-consultation	No

PART D: APPLICATION BACKGROUND

1. Location of the property

The subject property (also known as Project 8 Mpelazwe) is located between Luyolo, Ndzawumbi and Sokuqala Streets in the old township area of Kayamandi, Stellenbosch. Kayamandi is located in the northern part of the town and houses the lower income communities of Stellenbosch. See **ANNEXURE A** for the locality plan.

2. Development context of surrounding area

The subject properties are surrounded by a mix of land uses that includes mainly less formal residential units, multi-residential, educational uses (school), private open spaces (stadium) and other mixed uses.

3. Historic use and development of subject property

The Kayamandi Township was originally proclaimed in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) and established as a development area with the creation of Erf 288, Kayamandi. The aforementioned erf was then subdivided after which the township register was opened in terms of the Upgrading of Land Tenure Rights Act, 1991 (Act 112 of 1991).

Kayamandi was then extended in terms of Proclamation Notice G.K 598/1991 with the acquisition of Portion 56 of Farm No. 183 (Erf 707, Portion 3 of Farm No. 181 (Erf 1070) and Portion 59 of Farm No. 183 (Erf 634). The new development area was then surveyed and established in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) with the registration of General Plans 7988/1991, 3443/1991 and 7989/1991.

The former Stellenbosch Transitional Council commissioned the preparation of a Spatial Development Framework for Kayamandi in 1995 to guide and direct the severe development

pressure that existed in the Kayamandi Township at the time. During this process a number of high priority housing projects were identified. This culminated in the approval of the Kayamandi SDF in September 1996 and the Housing Projects Plan in January 1997. The subject property was one of the priority housing projects that was identified.

The majority of the erven have never been formally registered in order to enable the individual transfer of these properties to their respective beneficiaries. The main reason for the aforesaid challenge was the Stellenbosch Municipality did not have the necessary authority to consider and approve the formal amendments of the General Plans due to the statutory provisions that applied in terms of the Black Communities Development Act, 1984 (Act 4 of 1984).

PART E: APPLICATION OVERVIEW AND MOTIVATION (See ANNEXURE D)

1. The land use rights for the properties in this project should already have been finalized approximately 20 years ago, however, due to various reasons, beyond the control of the Municipality, these land use rights were not finalized, and ownership of properties could not yet be transferred.

2. The primary objectives of this land use application are to legalize the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.

3. The properties in this project are located in an established urban area within the urban edge of Kayamandi.

4. The properties in this project have already been developed and dwelling units are already occupied.

5. The properties in this project have access to existing infrastructure and engineering services within Kayamandi.

6. No additional dwelling units will currently be constructed on the subject properties.

7. The existing land uses are compliant with the Stellenbosch SDF and consistent with other relevant local and provincial policies.

8. There are no negative environmental and heritage impacts as confirmed by the Western Cape Department of Environmental Affairs and Development Planning and Heritage Western Cape.

9. A letter dated 25 August 2021 from DEADP (reference: 16/3/3/6/1/B4/22/1270/21) confirmed that no listed activities in terms of NEMA EIA Regulations 2014 are triggered by the proposed land use applications.

10. Heritage Western Cape (HWC) confirmed in a letter dated 3 September 2021 that "*since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kayamandi, Stellenbosch will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.*"

PART F: PUBLIC PARTICIPATION, COMMENTS AND RESPONSE

1. Process followed

An application was made and motivated in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014), to exempt all five Kayamandi projects (known as 4A, 4B, 5A, 5B & 8) from the Publication and Serving of Notices as normally required by the provisions of Sections 43, 44 and 47 of LUPA (Act 3 of 2014).

On 13 October 2021, the Minister of Local Government, Environmental Affairs and Development Planning approved the municipality's exemption request and stated the resolution as follows:

"*That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch BE APPROVED in terms of Section 60(1) of the LUPA*". See **ANNEXURE E.**

2. Public & stakeholder inputs

Advertising was waived.

3. Government related inputs received

a) The **Heritage Western Cape** supported the proposal (see **ANNEXURE F** for letter dated 03 September 2021).

b) The **Department of Environmental Affairs and Development Planning** supported the proposal (see **ANNEXURE G** for letter dated 25 August 2021).

4. Comments from internal service departments

a) The **Director: Engineering Services** supported the proposal subject to conditions (see **ANNEXURE H** for memo dated November 2022.

5. Response by Applicant to comments received

Not applicable.

PART G: ASSESSMENT OF LAND USE AND LAND DEVELOPMENT APPLICATION

1. Legislative and Policy Context of land use and land development application

The legislative/ principles/ policies/ guidelines/ plans which are considered as relevant to the subject land use and land development application, are as follows:

1.1 Stellenbosch Municipality Land Use Planning Bylaw, 2015

1.2 Stellenbosch Municipal Integrated Development Plan (2017 – 2022)

1.3 Stellenbosch Municipality Spatial Development Framework (2018)

2. Assessment of grounds of the land use and land development application

2.1 Land use principles

The application under consideration has insignificant bearing on development principles of spatial justice, sustainability, efficiency, and good administration as specified in Section 2 of SPLUMA. See table below:

DEVELOPMENT PRINCIPLES	KEY CONSIDERATIONS
Spatial Justice	The proposed development redresses past spatial and development imbalances by providing access to land for the previously disadvantaged communities in Kayamandi. The aim is to finalize the land use rights on the project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries. It therefore provides for security of tenure.
Spatial Sustainability	•The properties are located within the existing approved urban edge in the established urban area of Kayamandi. •The development already exists and does not encourage urban sprawl. •No new development will take place. •It is currently and will in future continue to make use of existing available infrastructure services capacity. •There are no environmentally or heritage sensitive areas in this part of Kayamandi.
Efficiency	•It optimises the use of existing infrastructure. •It optimises the use of existing available state-owned land. •It is already integrated in the current urban space economy of Kayamandi and will have no negative financial, social, economic or environmental impacts.

Good Administration	The application complies with and is submitted in accordance with the legislated land development processes and procedures.
Spatial Resilience	A key objective of the development/land use application is to finalize the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries and thereby improving the livelihood of the affected communities to ensure sustainable growth and development.

2.2 Applicable spatial development frameworks, guidelines, policies

The site is well located within the urban edge and within the neighbourhood of Kayamandi, Stellenbosch

2.3 Service infrastructure capacity and sustainability

Inani Infrastructure (Pty) Ltd was appointed to provide civil engineering services for the planning phases to formalize the existing structures on the five proposed project sites in Kayamandi. See **ANNEXURE I** for bulk services report.

The properties are located in an area that is already serviced. No additional/new development will take place and therefore there will not be an increase in demand for services.

The engineering department did not initially support the proposal due to outstanding information. The department requested a conceptual reticulation and erf connection layout for water and sewer to indicate how each erf is serviced. After the necessary information was submitted, the engineering department supported the application subject to certain conditions (see **ANNEXURE H** for comment).

2.4 Any investigations carried out in terms of other laws that are relevant (e.g. EIA, TIA, HIA etc.)

The **Western Cape Department of Environmental Affairs and Development Planning** confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorization is required.

Heritage Western Cape confirmed in a letter dated 03 September 2021 that "since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kayamandi, Stellenbosch, will impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

2.5 Applicable provisions of the zoning scheme

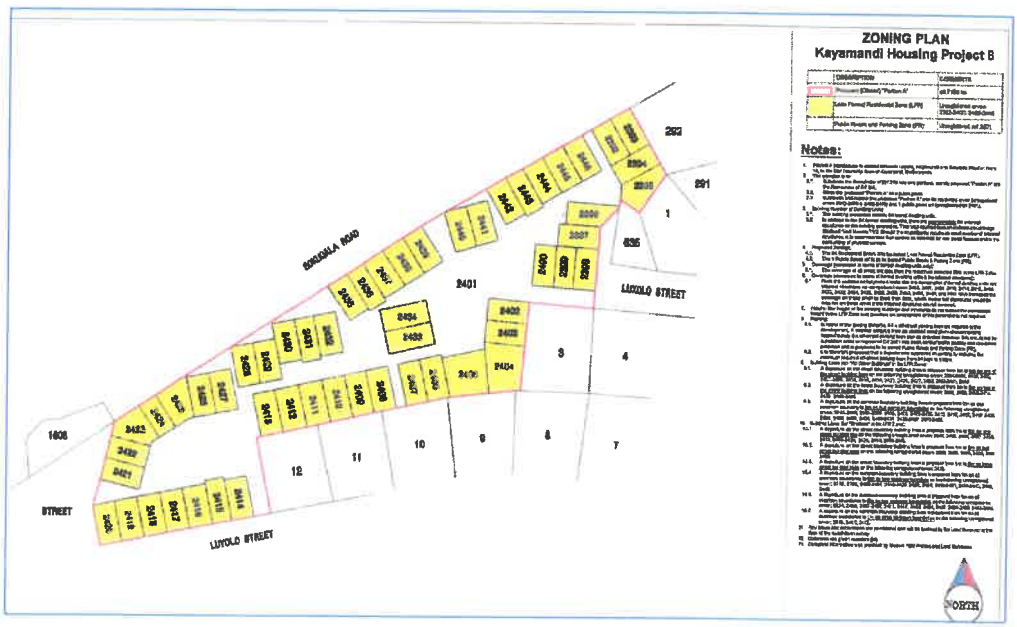

FIGURE 1: ZONING PLAN FOR PROJECT 8 - MPELAZWE

Mpelazwe is one of the oldest parts of the Kayamandi dorp and the formal development thereof resulted from the approval of the original project plan. The development formed of the overall hostel upgrading programme and comprised the development of 54 residential units and one (1) public open space. The property however still forms part of Remainder Erf

288, Kayamandi. Although erf numbers have been allocated the formal subdivision and closure of public road have not been completed, hence the current application.

The proposal is to subdivide a public place, close a portion thereof (±7 158m² in extent) and rezoned the closed portion to subdivisional area to establish less formal residential zone erven and a public road and parking area.

The following primary uses are allowed as a primary use on less formal residential zone erven: *dwelling house, group housing, second dwelling, shelter, bed and breakfast establishment, home day care centre, home occupation practice, house shop, home lodging, occasional use (one event/year), other social, educational, religious, occupational or business purposes and private road (subject to certain parameters).*

The purpose of this zone is inter alia to make provision for the use of the land for informal and/or subsidised housing, as well as group housing where more than one dwelling house may be permitted on the same cadastral land unit.

The development currently consists of 54 formal dwelling units and 59 informal other structures. Some of the informal structures are placed outside of the erf boundaries (see **ANNEXURE C4** for dwelling unit plan).

The issue regarding the structures which is located outside the erf boundaries, will be handed over to the building department for further attention and will not be discussed in this application.

The parameters for Informal Residential Zone are as follows:

Building type	Street boundary building lines (m)	Common boundary building lines (m)	Coverage	Height
Shelters	1m	1m	80%	2 storeys
All other buildings	1m	0m on one boundary 1m on all other boundaries	80%	3 storeys

The application also involves the encroachment of the street and side building lines, as well as the permissible coverage, as additional structures have been erected over time on the relevant properties.

Due to the fact that the erven are built-up, it also means that the parking requirements (one bay/dwelling house) cannot be met. However, unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be rezoned to "Public Road and Parking Zone".

Since some of the properties have already been built to full capacity, the encroachment of the building lines and coverage is granted for all properties concerned. Even though the application involves numerous departures, it will still not have a negative impact on the environment because it entails the formalization of what already exists.

The application also entails the amendment of general plan 149/1987 to accommodate the amended layout. The application involves the closing of part of a public street, hence the application to amend the general plan.

2.6 General desirability

The proposal is compatible with the surrounding neighbourhood as it is located within an urban area and the area is characterized by high density development. It will also not detract from the surrounding area as no additional residential units are envisaged. The proposal will not have a negative impact on the surrounding properties as it entails the formalization of an existing neighbourhood.

The aim is to finalize the land use rights on the project in order to transfer the ownership of the properties to the intended beneficiaries. It therefore provides for security of tenure.

It is already integrated in the current urban space economy of Kayamandi and will have no negative financial, social, economic or environmental impacts.

It is currently and will in future continue to make use of existing available infrastructure services capacity.

2.7 Assessment of comments on application

Not applicable.

PART H: SUMMARY OF KEY FINDINGS OF ASSESSMENT

After having independently considered and weighted all the relevant information the evaluation of the subject land use and land development application concludes that:

1. The land use rights for the properties in this project should already have been finalised approximately 20 years ago, however, due to various reasons, beyond the control of Stellenbosch Municipality, these land use rights were not finalised and ownership of the properties could not yet be transferred.
2. The primary objective of this land use application is to legalise the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.
3. The properties in this project are located in an established urban area within the urban edge of Kayamandi.
4. The existing land uses are compliant with the Stellenbosch SDF and consistent with other relevant local and provincial policies.
6. There are no negative environmental and heritage impacts as confirmed by the Western Cape Department of Environmental Affairs and Development Planning and Heritage Western Cape.
7. No additional dwelling units will currently be constructed on the subject properties.
8. Even though the application involves numerous departures (i.e building lines, coverage and parking), the proposal will not have a negative impact on the environment as it entails the formalization of existing dwelling units/structures in the neighbourhood.

The subject land use and land development application is, having regard to the conclusions above, viewed as in Compliance to the relevant MSDF and consequently grounds for the support of the subject land use and land development application.

PART I: RECOMMENDATION

1. That the following application(s) in terms of Section 15(2) of the Stellenbosch Municipal Land Use Planning Bylaw, promulgated by notice number 354/2015, dated 20 October 2015 on Remainder Erf 288, Kayamandi (Project 8), namely:

1.1 **Amendment of General Plan** GP L149/1987 in terms of section 15(2)(k) of the said bylaw in order to facilitate the proposed development.

1.2 The **Subdivision** in terms of Section 15(2)(d) of the said Bylaw to subdivide Remainder Erf 288, Kayamandi in two portions, namely Portion A (± 7 158m² in extent) and the Remainder of Erf 288, Kayamandi (±33,5828ha in extent).

1.3 **Closure of a public place** in terms of section 15(2)(n) of the said bylaw of subdivided Portion A (±7 158m² in extent) of Remainder Erf 288, Kayamandi.

1.4 **Rezoning** in terms of section 15(2)(a) of the said bylaw of Portion A (±7 158m² in extent) from **Public Road and Public Parking** to **Subdivisional Area** to allow for following uses (and in accordance with the land use framework plan as depicted in plan referenced **Zoning Plan 21P004(8)-TRP-ZP-20220130Rev D01, Plan Nr. 4, drawn by Plan4SA Professional Planners & Project Managers**):

1.4.1 54 x **Less Formal Residential Zone** erven and ±4 448,79m² in extent for less formal housing purposes.

1.4.2 1 x **Public Road and Parking Zone** and ±2 709,15m² in extent for road and parking area.

1.5 **Subdivision** in terms of section 15(2)(d) of the said bylaw of closed Portion A (±7 158m²) into 55 erven and in accordance with **Zoning Plan 21P004(8)-TRP-ZP-20220130Rev D01, Plan Nr. 4, drawn by Plan4SA Professional Planners & Project Managers**, to allow for the residential development in accordance with the subdivisional zone above.

1.6 **Departure** in terms of section 15(2)(b) of the said bylaw:

a) To **increase the permissible coverage** from **80%** to **100%** for the respectively erven.

b) By **reducing the minimum required on-site parking bays** from **one** (1) parking bay per dwelling house to **0** bays per dwelling house on all residential erven.

c) For the **relaxation of all building lines** for shelters as well as other buildings to **0m**.

BE APPROVED in terms of Section 60 of the said Bylaw and subject to conditions of approval.

2. The approval is subject to the following conditions imposed in terms of Section 66 of the said Bylaw:

2.1 The approval only applies to the proposed development under consideration and shall not be construed as authority to depart from any other legal prescriptions or requirements from Council or other legislation or Bylaws or Regulations that may be applicable.

2.2 The approval granted shall not exempt the applicant from complying with any other legal prescriptions or requirements that might have a bearing on the proposed use.

2.3 The development be implemented in accordance with the Subdivisional Plans and Zoning Plan with reference:

2,3,1 Subdivisional Cadastral Plan - **21P004(8)-TRP-ECP-20220130-Rev D01 – Plan Nr 2**;

2.3.2 Zoning Plan - **21P004(8)-TRP-ZP-20220130-Rev D01- Plan Nr 4**

2.3.3 Subdivisional Plan - **21P004(8)-TRP-SUB-20220130-Rev D01 – Plan Nr 3**; attached as **ANNEXURE C1, C2 & C3**.

2.4 New erf diagrams or general plans for the newly created land units be submitted to this municipality for clearance and record purposes

2.5 The applicant submits an electronic copy (shp,dwg,dxf) of the General Plan which was preliminary approved by the SG. The following information must be indicated:

a) Newly allocated Erf Numbers

b) Co-ordinates

c) Survey Dimensions

2.6 The conditions imposed by the **Director: Engineering Services** as contained in their memo dated 18 November 2022, attached as **ANNEXURE H**, be complied with.

3. The reasons for the above decision are as follows:

3.1 The proposal will not have a negative impact on the surrounding properties and their rights as it is in keeping with the character of the area.

3.2 The development is compatible with the surrounding land uses and built environment.

3.3 The proposal will provide for security of tenure.

3.4 The properties are located in an established urban area within the urban edge of Kayamandi.

4. Matters to be noted:

4.1 Building plans of all structures within the erf boundaries of the new residential erven, to be submitted to the Municipality for approval.

4.2 A **Street Name and Numbering Plan** to be submitted to the delegated official for approval.

BESKRYWING VAN BAKENS

A — Swaar ysterhoekdraadpaal in beton
B — Swaar ysterhoekdraadpaal afgeroes op beton
C — Wa-as 0,9m hoog
D, E — 25mm ysterpyp
H — 16mm ysterpen
L — Nie gebaken nie
M, O, P, Q, R — 20mm ysterpen
N — Ysterpyp 0,5m diep
S — Ysterpaalpen
F, G, T — 12mm ysterpenen

VM2-6, VM8-9, VM16 — Gat in beton randsteen
VM12 — Gat in beton sloot, 15cm van randsteen
VM1, VM7, VM13, VM15-a — 12mm ysterpen in beton 10cm diep

A2-3, A6-7, B1-7, C1-8, D1, D3, D12-14, F3-8, G2-6, G8, H1-2, N6-7, N13-14, P1-10, Q1-3, Q8-10, R1-2, R11-17, S1-3, S6-10, 4a, 5a, 7c, 8c, 9c, 10c, 11c, 12c, 14b, 16b, 19c, 19d, 20c, 24d, 34b, 35b, 37a, 39d, 41c, 41d, 44c, 57c, 47e, 49a, 49b, 51a, 51b, 53b, 54d, 57d, 61c, 63c, 63d, 63e, 111c, 113a, 113f, 117c, 119a, 119b, 121b, 123a, 123b, 128d, 128f, 130c, 130d, 132a, 134b, 136a, 138a, 140a, 142c, 142d, 144c, 146d, 148a, 165c, 166c, 168a, 168b, 170a, 174b, 172a, 173a, 173b, 175a, 177c, 177d, 181d, 183c, 183d — 1,4m ysterhoekdraadpaal

E3-4, E7, 26c, 28c, 37d — 2-3m ysterhoekdraadpaal

D8, H1, H5-14, H9-10, N16, 187a, 187j, 186d, 186c — 2m ysterpyphoekdraadpaal

B8-9, B11, G1, G9-10, R3, R9, 6a, 6b, 7a, 10a, 11a, 39c, 42f, 46b, 46c, 53a, 59c, 59d, 111c, 117c, 124d, 149c, 153a, 155a, 159c, 163c, 166e, 179a, 179d, 183a, 183b — 1,4m houthoekdraadpaal

9a, 33b, 35a, 55e, 57c, 64d, 64e, 110c, 110d, 138b, 161d, 179a, 179b, 181a — Betonhoekpaal

26d, 28a, 151a — 2m houthoekdraadpaal

H15, 29c, 31a, 132c, 134a, 181c — Hoek van pilaar of muur

K6, S4-5, 68a, 175d, 71g — 12 mm ysterpen in beton

Alle ander bakens is 12mm ysterpenne

	General Plans / SG Diagrams	SG394/1986 & L149/87
	Current Owner	Stellenbosch Municipality
	Current Owner	T43399/2000

Notes:

1. Project 8 (Mpelazwe) is located between Luyolo, Ndzawumbi and Sokuqala Road in Ward 13, in the Old Township Area of Kayamandi, Stellenbosch.
2. The project formed part of the hostel upgrading programme and consists of 54 residential units and 1 public space. However, it still forms part of the Remainder of Erf 288, Kayamandi. New erf numbers have been allocated but the formal subdivision and closure of a public place have not been completed to date.
3. The intention is to:
   - 3.1. Subdivide the Remainder of Erf 288 into two portions, namely proposed "Portion A" and the Remainder of Erf 288,
   - 3.2. Close the proposed "Portion A" as a public place.
   - 3.3. Subdivide and rezone the proposed "Portion A" into 54 residential erven (unregistered erven 2392-2400 & 2402-2446) and 1 public place erf (unregistered erf 2401).
4. Existing Number of Dwelling Units:
   - 4.1. The existing property contain 54 formal dwelling units.
   - 4.2. In addition to the 54 formal dwelling units, there are approximately 59 informal structures on the existing properties. This was counted from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
5. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
6. Distances are given in meters (m).
7. Cadastral information was provided by Messrs FBV Professional Land Surveyors

ZONING PLAN
Kayamandi Housing Project 8

	DESCRIPTION	COMMENTS
	Proposed (Closed) "Portion A"	±0.7158 ha
	Less Formal Residential Zone (LFR)	Unregistered erven 2392-2400; 2402-2446
	Public Roads and Parking Zone (PR)	Unregistered erf 2401

Notes:

1. Project 8 (Mpetuzwe) is located between Luyolo, Ndzwundi and Sokuqala Road in Ward 19, in the Old Township Area of Kayamandi, Stellenbosch.
2. The intention is to:
   - 2.1. Subdivide the Remainder of Erf 268 into two portions, namely proposed "Portion A" and the Remainder of Erf 268.
   - 2.2. Close the proposed "Portion A" as a public place.
   - 2.3. Subdivide and rezone the proposed "Portion A" into 54 residential erven (unregistered erven 2392-2400 & 2402-2446) and 1 public place erf (unregistered erf 2401).
3. Existing Number of Dwelling Units:
   - 3.1. The existing properties contain 54 formal dwelling units.
   - 3.2. In addition to the 54 formal dwelling units, there are approximately 69 informal structures on the existing properties. This was counted from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
4. Proposed Zonings:
   - 4.1. The 54 Residential Erven is to be zoned Less Formal Residential Zone (LFR).
   - 4.2. The 1 Public Space erf is to be zoned Public Roads & Parking Zone (PR).
5. Coverage (measured in terms of formal dwelling units only):
   - 5.1. The coverage of all erven are less than the maximum permitted 60% in the LFR Zone.
6. Coverage (measured in terms of formal dwelling units & the informal structures):
   - 6.1. From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 2403, 2407, 2408, 2410, 2414, 2416, 2418, 2420, 2422, 2424, 2426, 2428, 2429, 2432, 2436, 2440, and 2443 have increased the coverage on these erven to more than 60%, which means that departures would be required on these erven if the informal structures are not removed.
7. Height: The height of the existing buildings and structures do not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.
8. Parking:
   - 8.1. In terms of the Zoning Scheme, 54 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 8 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).
   - 8.2. It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 54 bays to 0 bays.
9. Building Lines (for "All Other Buildings" in the LFR Zone):
   - 9.1. A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 2384-2386, 2401, 2402, 2407-2408, 2412, 2418, 2421, 2426, 2427, 2432, 2438-2441, 2443.
   - 9.2. A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2388, 2406, 2413-2414, 2420, 2433-2434.
   - 9.3. A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 2393-2395, 2396-2399, 2403, 2409, 2409-2410, 2412, 2416, 2417, 2418, 2422, 2424, 2428, 2429, 2430, 2430-2431, 2435-2437, 2443-2445.
10. Building Lines (for "Shelters" in the LFR Zone):
    - 10.1. A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 2393, 2403, 2406, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445.
    - 10.2. A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 2386, 2408, 2416, 2428, 2432, 2436.
    - 10.3. A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 2429.
    - 10.4. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 2392, 2396, 2403-2404, 2418-2420, 2423, 2428, 2438-2439, 2438-2440, 2442, 2445.
    - 10.5. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 2394, 2405, 2407-2408, 2411, 2413, 2422, 2424, 2426, 2429-2430, 2443-2444.
    - 10.6. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2385, 2410, 2412.
11. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
12. Distances are given in meters (m).
13. Cadastral information was provided by Messrs FBV Professional Land Surveyors

SUBDIVISION PLAN
Kayamandi Housing Project 8

	DESCRIPTION	COMMENTS
	Proposed (Closed) "Portion A"	±0.7168 ha
	Current Number of Erven	1 Erf
	Current Erf Numbers	Remainder of Erf 286
	Proposed Number of Erven	55 erven
	Proposed Number of Residential Erven	54 erven
	Proposed Number of Public Space Erven	1 erf
	Proposed Unregistered Residential Erf Numbers	2392-2400; 2402-2448
	Proposed Unregistered Public Space Erf Numbers	2401
	Existing Residential Units	54 dwelling units

Notes:

1. Project 8 (Mpelazwe) is located between Luyolo, Ndzawumbi and Sokupela Road in Ward 19, in the Old Township Area of Kayamandi, Stellenbosch.
2. The intention is to:
   - 2.1. Subdivide the Remainder of Erf 286 into two portions, namely proposed "Portion A" and the Remainder of Erf 286.
   - 2.2. Close the proposed "Portion A" as a public place.
   - 2.3. Subdivide and rezone the proposed "Portion A" into 54 residential erven (unregistered erven 2392-2400 & 2402-2448) and 1 public place erf (unregistered erf 2401).
3. Existing Number of Dwelling Units:
   - 3.1. The existing properties contain 54 formal dwelling units.
   - 3.2. In addition to the 54 formal dwelling units, there are approximately 58 informal structures on the existing properties. This was counted from an undated aerial image obtained from Messrs TYS. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
4. Proposed Zonings:
   - 4.1. The 54 Residential Erven is to be zoned Less Formal Residential Zone (LFR).
   - 4.2. The 1 Public Space erf is to be zoned Public Roads & Parking Zone (PR).
5. Coverage (measured in terms of formal dwelling units only):
   - 5.1. The coverage of all erven are less than the maximum permitted 60% in the LFR Zone.
6. Coverage (measured in terms of formal dwelling units & the informal structures):
   - 6.1. From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 2403, 2407, 2408, 2410, 2414, 2415, 2418, 2420, 2422, 2424, 2428, 2429, 2432, 2435, 2440, and 2443 have increased the coverage on these erven to more than 60%, which means that departures would be required or these erven if the informal structures are not removed.
7. Height: The height of the existing buildings and structures do not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.
8. Parking:
   - 8.1. In terms of the Zoning Scheme, 64 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 8 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).
   - 8.2. It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 64 bays to 0 bays.
9. Building Lines (for "All Other Buildings" in the LFR Zone):
   - 9.1. A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 2394-2395, 2400, 2402, 2407-2409, 2412, 2418, 2419, 2421, 2425, 2427, 2432, 2438-2441, 2448.
   - 9.2. A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2396, 2406, 2413-2414, 2420, 2433-2434.
   - 9.3. A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 2393-2395, 2396-2399, 2403, 2408-2410, 2412, 2415, 2417, 2419, 2422, 2424, 2428, 2429, 2430, 2430-2431, 2436-2437, 2443-2445.
10. Building Lines (for "Shelters" in the LFR Zone):
    - 10.1. A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 2393, 2403, 2406, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2448.
    - 10.2. A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 2396, 2408, 2415, 2428, 2432, 2438.
    - 10.3. A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 2429.
    - 10.4. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 2382, 2398, 2403-2404, 2416-2420, 2423, 2428, 2436-2438, 2438-2440, 244-2, 2445.
    - 10.5. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 2394, 2405, 2407-2408, 2411, 2413, 2422, 2424, 2426, 2428-2430, 2443-2444.
    - 10.6. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2395, 2410, 2412.
11. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.

DWELLING UNITS PLAN
Kayamandi Housing Project 8

	DESCRIPTION	COMMENTS
	Proposed (Closed) "Portion A"	±0,7158 ha
	Current Number of Erven	1 Erf
	Current Erf Numbers	Remainder of Erf 288
	Processed Number of Erven	56 erven
	Processed Number of Residential Erven	54 erven
	Processed Number of Public Space Erven	1 erf
	Proposed Unregistered Residential Erf Numbers	2392-2400; 2402-2446
	Proposed Unregistered Public Space Erf Numbers	2401
	Existing Residential Units	54 dwelling units
	Informal Structures (Shelters)	±59 structures (shelters)

Notes:

1. Project 8 (Mpelazwe) is located between Luyolo, Ndzawumbi and Sotunjela Road in Ward 19, in the Old Township Area of Kayamandi, Stellenbosch.
2. The intention is to:
   - 2.1. Subdivide the Remainder of Erf 288 into two portions, namely proposed "Portion A" and the Remainder of Erf 288.
   - 2.2. Close the proposed "Portion A" as a public place.
   - 2.3. Subdivide and rezone the proposed "Portion A" into 54 residential erven (unregistered erven 2392-2400 & 2402-2446) and 1 public place erf (unregistered erf 2401).
3. Existing Number of Dwelling Units:
   - 3.1. The existing properties contain 54 formal dwelling units.
   - 3.2. In addition to the 54 formal dwelling units, there are approximately 59 informal structures on the existing properties. This was counted from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.
4. Proposed Zonings:
   - 4.1. The 54 Residential Erven is to be zoned Less Formal Residential Zone (LFR).
   - 4.2. The 1 Public Space erf is to be zoned Public Roads & Parking Zone (PR).
5. Coverage (measured in terms of formal dwelling units only):
   - 5.1. The coverage of all erven are less than the maximum permitted 80% in the LFR Zone.
6. Coverage (measured in terms of formal dwelling units & the informal structures):
   - 6.1. From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 2403, 2407, 2408, 2410, 2414, 2415, 2418, 2420, 2422, 2424, 2426, 2428, 2429, 2432, 2433, 2440, and 2443 have increased the coverage on these erven to more than 80%, which means that departures would be required on these erven if the informal structures are not removed.
7. Height: The height of the existing buildings and structures do not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.
8. Parking:
   - 8.1. In terms of the Zoning Scheme, 54 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 6 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).
   - 8.2. It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 54 bays to 0 bays.
9. Building Lines (for "All Other Buildings" in the LFR Zone):
   - 9.1. A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 2394-2395, 2401, 2402, 2407-2409, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446.
   - 9.2. A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2399, 2406, 2413-2414, 2420, 2422-2434.
   - 9.3. A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 2393-2395, 2398-2399, 2403, 2406, 2409-2410, 2412, 2415, 2417, 2419, 2422, 2424, 2428, 2429, 2430, 2430-2431, 2438-2437, 2443-2445.
10. Building Lines (for "Shelters" in the LFR Zone):
    - 10.1. A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2446.
    - 10.2. A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 2398, 2409, 2415, 2428, 2432, 2439.
    - 10.3. A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 2429.
    - 10.4. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 2392, 2396, 2405-2404, 2418-2420, 2423, 2436, 2435-2436, 2438-2440, 2440, 2445.
    - 10.5. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429-2430, 2443-2444.
    - 10.6. A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2395, 2410, 2412.
11. Any areas and dimensions are provisional and will be finalised by the Land Surveyor at the time of the subdivision survey.
12. Distances are given in meters (m).

1. INTRODUCTION

1.1 BACKGROUND AND APPOINTMENT

The background information was sourced from a report prepared by Emile van der Merwe Town Planning Consultants in May 2020, titled "Kayamandi Housing Projects Appraisal: Status Quo and Statutory Requirements".

The Kayamandi Township was originally proclaimed in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) and established as a development area with the creation of Erf 288, Kaya Mandi (34.4957ha in extent). The aforementioned erf was then subdivided in accordance with General Plan L149/1987 after which the township register was opened in terms of the Upgrading of Land Tenure Rights Act, 1991 (Act 112 of 1991).

Kayamandi was then extended in terms of Proclamation Notice G.K. 598/1991 with the acquisition of Portion 56 of Farm 183 (Erf 707), Portion 3 of Farm 181 (Erf 1070) and Portion 59 of Farm 183 (Erf 634). The new development area (18.5ha in extent) was then surveyed and established in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) with the registration of General Plans 7988/1991, 3443/1991 and 7989/1991.

The former Stellenbosch Transitional Council commissioned the preparation of a Spatial Development Framework for Kayamandi in 1995 to guide and direct the severe development pressure that existed in the Kayamandi Township at the time. During this process a number of high priority housing projects were identified. This culminated in the approval of the Kayamandi SDF in September 1996 and the Housing Projects Plan in January 1997. The eight high priority housing projects that were identified included the following:

- Project 1: Costa Land Development (246 erven, greenfield development)
- Project 2: Snake Valley (132 erven, greenfield development)
- Project 3: Watergang (greenfield development)
- Project 4A: Rental Apartments (146 units, town centre upgrade)
- Project 4B: Red Brick Hostels (town centre upgrade)
- Project 5A: High Density Units (175 units, town centre upgrade)
- Project 5B: High Density Units (137 units, town centre upgrade)
- Project 8: Mpelazwe (town centre upgrade)

Although the abovementioned projects (excluding Project 3: Watergang) were implemented during this period, the majority of erven have never been formally registered in order to enable the individual transfer of these properties to their respectively beneficiaries. The main reason for the aforesaid challenge was that Stellenbosch Municipality did not have the necessary authority to consider and approve the formal amendments of the General Plans due to the statutory provisions that applied in terms of the Black Communities Development Act, 1984 (Act 4 of 1984).

Stellenbosch Municipality subsequently appointed **Plan 4 SA (Pty) Ltd** and a team of sub-consultants to assist the municipality in obtaining the necessary land use rights for five projects in Kayamandi, known as Projects 4A, 4B, 5A, 5B and 8 (Mpelazwe). This is necessary to enable the Municipality to finalise the formal registration of these properties with the Surveyor-General and the Deeds Office so that the title deeds of the properties can be transferred to their respective new owners.

The relationship of the aforementioned five projects to the original Erf 288 and Erf 1070 (Portion 3 of Farm 181) is shown in the following two diagrams:

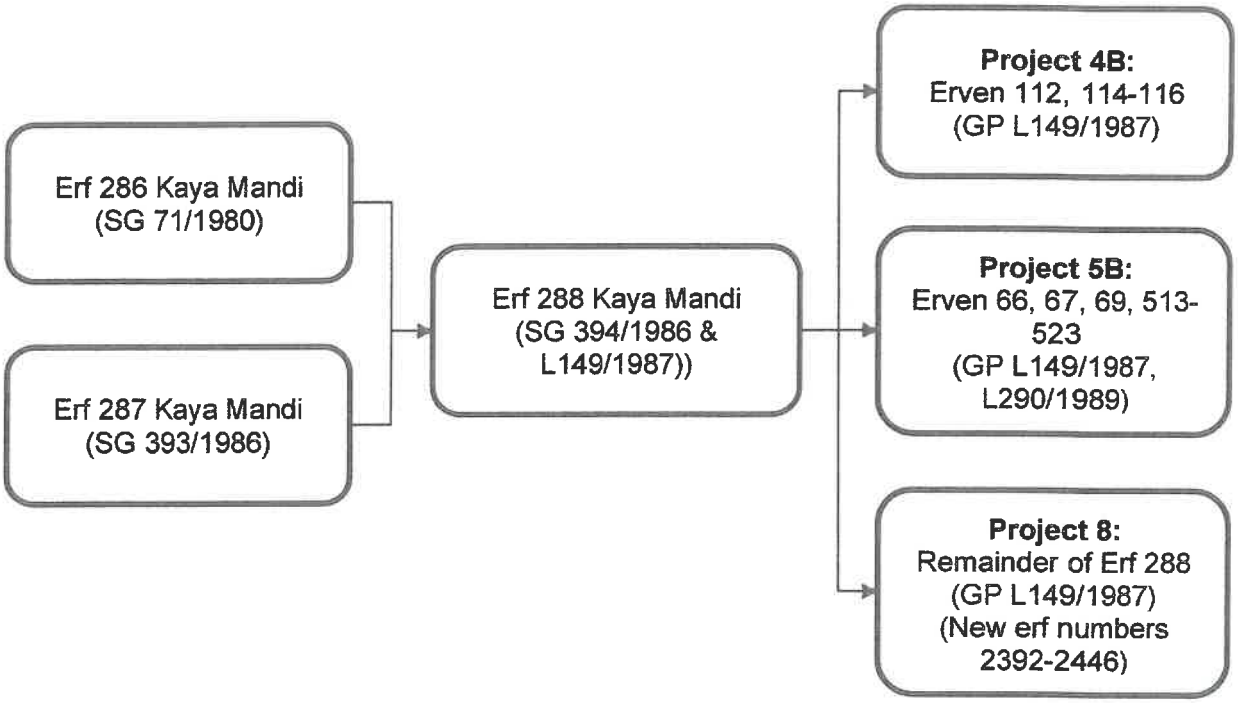

FIGURE 1: "GENEALOGY" OF ERF 288 KAYA MANDI

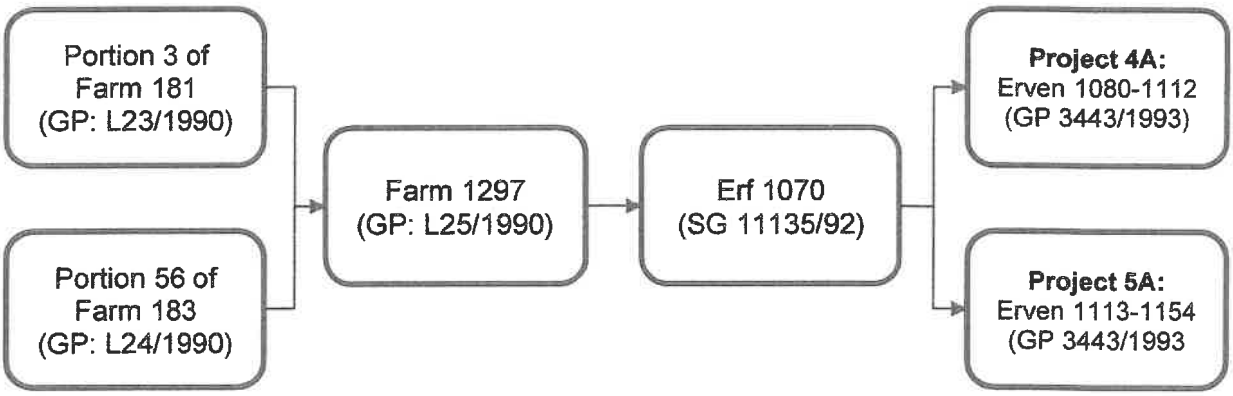

FIGURE 2: "GENEALOGY" OF ERF 1070 KAYA MANDI

1.2 POWER OF ATTORNEY

The owner of the property(ies) gave Power of Attorney to **PLAN 4 SA (Pty) Ltd** or its **nominee (Mr Martin Jonker; ID 7010175034083** and **SACPLAN Registration Number A/1090/1999)**.

The aforesaid Power of Attorney is attached to the land use application as **ANNEXURE 1**.

1.3 REPORT LAYOUT

The report has been structured as follows:

- **Section 1: Introduction:** This section gives the background to the appointment and shows to whom power of attorney has been given to deal with this application.
- **Section 2: Land Use Application:** This section describes the purpose of the application; identifies the applicable by-law, zoning scheme and overlay zones; describes the types of land use application and finally indicates whether any national and provincial legislation are triggered by the application.
- **Section 3: Property Information:** This section provides basic information about the subject property(ies) such as its cadastral description, its extent, the title deed number of the property and whether there are any restrictive conditions in the title deed. Other information includes its current zoning, current land uses, whether there is a bond registered against the property, and whether there are any pending land claims or court cases/orders.
- **Section 4: Contextual Analysis:** This section analyses the site in terms of the characteristics of the surrounding area, its location and the surrounding zonings and land uses.
- **Section 5: Site Analysis:** In this section the site is analysed in terms of the availability of engineering services, roads & transport, servitudes, geotechnical status, topography, environmental and heritage characteristics.
- **Section 6: Development Proposal:** The proposed development or land use is described in more detail in this section including the proposed planning parameters.
- **Section 7: Planning Motivation in Support of the Application:** This section motivates the application from a planning perspective. It looks at, amongst others, the consistency of the application in terms of planning policies and frameworks.
- **Section 8: Conclusion:** Provides concluding remarks and recommendations regarding the application.

2. LAND USE APPLICATION

2.1 PURPOSE OF THE APPLICATION

This project, known as Mpelazwe, formed part of the hostel upgrading programme and consists of 54 residential units and 1 public open space. However, it still forms part of the Remainder of Erf 288, Kaya Mandi. New erf numbers have been allocated but the formal subdivision and closure of a public place have not been completed to date.

The purpose of this application is thus the following:

- To close the public road for a portion of Erf 288 Kaya Mandi.
- To subdivide the closed road portion from the Remainder of Erf 288.
- To subdivide the new erf into 55 erven consisting of 54 residential erven and 1 public open place.

2.2 APPLICABLE BY-LAW, ZONING SCHEME & OVERLAY ZONES

The following by-law and zoning scheme(s) are applicable to this land use application:

- Stellenbosch Municipal Land Use Planning By-Law, 2015; and the
- Stellenbosch Municipality: Zoning Scheme By-Law, 2019.

The subject properties fall outside the Historical Center of Stellenbosch.

2.3 EXEMPTIONS IN TERMS OF SECTION 60 OF LUPA (ACT 3 OF 2014)

The finalisation of the land use rights of the 5 x Kayamandi Projects (Projects 4A, 4B, 5A, 5B and 8), the registration of the properties with the SG's Office and the transfer of ownership to the beneficiaries has become a matter of extreme urgency.

It would be in the best interest of the beneficiary community to shorten the land use authorisation processes for these five (5) projects, due to, amongst others, the historical delays on these projects. One way to speed up the process of finalising the necessary land use approvals is to deal with it as a "technical approval" and not putting it through the normal advertisement (publication and serving of notices) processes. In this way, the approval timeframe can be shortened by at least 90-days.

In this regard, an application was made and motivated, in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014), to exempt all five (5) Kayamandi projects (known as 4A, 4B, 5A, 5B and 8) from the Publication and Serving of Notices as normally required by the provisions of Sections 43, 44 and 47 of LUPA (Act 3 of 2014).

A letter was subsequently drafted and submitted to the municipality on 1 September 2021 for their finalisation and submission to the Western Cape Province. The Stellenbosch Municipality's Executive Mayor signed the letter on 22 September 2021 after which it was submitted to the Western Cape MEC of Local Government, Environmental Affairs and Development Planning (DEADP).

In its letter dated 13 October 2021, the Minister of Local Government, Environmental Affairs and Development Planning approved the municipality's exemption request and stated the resolution as follows:

"That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch, ***BE APPROVED*** *in terms of Section 60(1) of the LUPA."*

The exemption approval of the Minister was published in the Provincial Gazette on 19 October 2021 (PG Extraordinary 8507, Provincial Notice 129/2021 dated 19 October 2021).

The municipality's motivation letter, the Minister's letter of approval and the Provincial Gazette Notice is attached hereto as **ANNEXURE 2**.

2.4 TYPE OF LAND USE APPLICATIONS

Application is made in terms of **Section 15** of the **Stellenbosch Municipal Land Use Planning By-Law, 2015** for the following:

- The subdivision of the Remainder of Erf 288 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into two portions, namely "Portion A" (approximately 7158m² in extent) of the Erf 288 and the Remainder of Erf 288 Kaya Mandi (refer to **PLAN 2: EXISTING CADASTRAL PLAN (8)**).
- The closure of subdivided "Portion A" (approximately 7158m² in extent) of the Erf 288 (Public Road) Kaya Mandi in terms of Section 15(2)(n) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 (refer to **PLAN 2: EXISTING CADASTRAL PLAN (8)**).
- The rezoning of the closed "Portion A" (approximately 7158m² in extent) of Erf 288 Kaya Mandi in terms of Section 15(2)(a) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 from Public Roads and Parking Zone (PR)[1] to Subdivisional Area Overlay Zone (SAO) to accommodate Less Formal Residential Zone (LFR), and Public Road and Parking Zone (PR) erven.
- The subdivision of the closed "Portion A" (approximately 7158m² in extent) of Erf 288 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into the following (refer to **PLAN 3: SUBDIVISION PLAN (8)**):
    - 54[2] x Less Formal Residential Zone (LFR) erven; and
    - 1 x Public Roads and Parking Zone (PR) erf.
- The compilation and submission of an application to the Surveyor-General for the amendment of General Plan GP L149/1987 in terms of Section 15(2)(k) of the Stellenbosch Municipal Land Use Planning By-Law, 2015.
- A permanent departure on **coverage** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, as follows:
    - Increase the coverage on unregistered erf 2415 from 80% to 80.1%.
    - Increase the coverage on unregistered erven 2432, and 2443 from 80% to 81%.
    - Increase the coverage on unregistered erf 2414 from 80% to 83%.
    - Increase the coverage on unregistered erf 2420 from 80% to 85%.
    - Increase the coverage on unregistered erf 2440 from 80% to 87%.
    - Increase the coverage on unregistered erf 2426 from 80% to 88%.

1 The Status Quo Report indicates that the existing zoning is "Conventional Residential Zone" and "Public Place". According to the Stellenbosch Municipality's latest zoning map (Kayamandi Zoning Scheme 2018, downloaded from the Municipality's website) this portion of the Remainder of Erf 288 is currently zoned "Limited Use Zone (LU)". Ms Louisa Guntz of the Stellenbosch Municipality confirmed in an email dated 12 April 2022 that the current zoning is Public Roads and Parking Zone.
2 The Status Quo Report indicates that the property be subdivided into 65 erven and the remainder being public roads and parking.

- Increase the coverage on unregistered erf 2418 from 80% to 89%.
- Increase the coverage on unregistered erf 2408 from 80% to 92%.
- Increase the coverage on unregistered erf 2428 from 80% to 95%.
- Increase the coverage on unregistered erven 2403, 2407, 2410, 2422, 2424, 2429, and 2435 from 80% to 100%.

- A permanent departure on **off-street parking** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, by reducing the minimum required off-street parking bays from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven[3].
- A permanent departure on building lines (for "All other buildings" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[4]:
  - A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 2394-2395, 2400, 2402, 2407-2408, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446.
  - A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2396, 2406, 2413-2414, 2420, 2433-2434.
  - A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 2393-2395, 2398-2399, 2403, 2406, 2409-2410, 2412, 2415, 2417, 2419, 2422, 2424, 2426, 2429, 2430, 2430-2431, 2436-2437, 2443-2445.
- A permanent departure on building lines (for "Shelters" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[5]:
  - A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445.
  - A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 2396, 2408, 2415, 2428, 2432, 2435.
  - A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 2429.
  - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 2392, 2396, 2403-2404, 2418-2420, 2423, 2428, 2435-2436, 2438-2440, 2442, 2445.
  - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429-2430, 2443-2444.
  - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2395, 2410, 2412.

[3] A desktop analysis from an undated aerial photo shows that there is not sufficient space on the proposed new erven to accommodate any off-street parking bays. However, this should not be a problem since unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR). It is therefore proposed that the parking bay requirement be amended from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven in this development.

[4] The building line parameters in the LFR Zone for "all other buildings" (except for shelters) are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; 0m on one common boundary; and 1m on all other common boundaries.

[5] The building line parameters in the LFR Zone for "Shelters" are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; and 1m on all common boundaries.

2.5 APPROVAL REQUIRED IN TERMS OF OTHER LEGISLATION (IF APPLICABLE)

The following table indicates whether the proposed land use triggers any approvals required in terms of the Spatial Planning and Land Use Management Act (SPLUMA), Act 16 of 2013.

TABLE 1: SPLUMA (Act 16 of 2013) TRIGGERS

APPLICABLE SECTIONS OF SPLUMA	TRIGGERED (YES / NO / N/A)	COMMENTS
Status of spatial development frameworks S22(1) A Municipal Planning Tribunal or any other authority required or mandated to make a land development decision in terms of this Act or any other law relating to land development, may not make a decision which is inconsistent with a municipal spatial development framework	No	The proposed development is consistent / compliant with the latest approved SDF. Refer to Section 7 of this report.
S22(2) Subject to section 42, a Municipal Planning Tribunal or any other authority required or mandated to make a land development decision, may depart from the provisions of a municipal spatial development framework only if site-specific circumstances justify a departure from the provisions of such municipal spatial development framework.	No	It is not necessary to depart from the provisions of the SDF.
Development application affecting national interest S52.(1) Subject to the Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000), a land development application must be referred to the Minister where such an application materially impacts on – (a) matters within the exclusive functional area of the national sphere in terms of the Constitution; (b) strategic national policy objectives, principles or priorities, including food security, international relations and co-operation, defence and economic unity; or (c) land use for a purpose which falls within the functional area of the national sphere of government.	No	This section is not triggered.
S52.(2) A land development application must be referred to the Minister where the outcome of the application – (a) may be prejudicial to the economic, health or security interests of one or more provinces or the Republic as a whole; or (b) may impede the effective performance of the functions by one or more municipalities or provinces relating to matters within their functional area of legislative competence.	No	This section is not triggered.

APPLICABLE SECTIONS OF SPLUMA	TRIGGERED (YES / NO / N/A)	COMMENTS
S52.(3) Where an applicant believes that his or her application is likely to affect the national interest, he or she must submit a copy of that application to the Minister.	No	This section is not triggered.

The following table indicates whether any other national legislation is triggered by the proposed change in land use.

TABLE 2: OTHER NATIONAL LEGISLATIVE TRIGGERS

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
National Heritage Resource Act, 1999 (Act 25 of 1999)	Sections that trigger the need to submit a Notification of Intent to Develop		HWC confirmed in a letter dated 3 September 2021 that *"since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required"*. The letter from HWC is attached hereto as **ANNEXURE 11**.
	S38(1)(a) Construction of a road, wall, powerline, pipeline, canal or other similar form of linear development or barrier over 300m in length	No	This section is not triggered.
	S38(1)(b) Construction of a bridge or similar structure exceeding 50m in length	No	This section is not triggered.
	S38(1)(c) Any development or activity that will change the character of a site – i. Exceeding 5,000m² in extent; or ii. Involving three or more existing erven or subdivisions thereof; or iii. Involving three or more divisions thereof which have been consolidated within the past five years.	No	This section is not triggered. The properties are already developed, and its character will not be changed. The purpose of this application is to legalize the existing land uses, then register the properties with the SG's Office after which it can be transferred to the intended beneficiaries.

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	S38(1)(d) Rezoning of a site exceeding 10,000m² in extent.	No	This section is not triggered. The properties are already developed and used for its intended purpose. The purpose of this application is to legalize the existing land uses, then register the properties with the SG's Office after which it can be transferred to the intended beneficiaries.
	S38(1)(e) Any other category of development provided for in regulations by SAHRA or a provincial heritage resources authority.	No	To the best of our knowledge and interpretation, the proposed development does not trigger any other category of development as referred to in this Section of the Act.
National Environmental Management Act, 1998 (Act 107 of 1998); EIA Regulations, 2014 (GN No. R. 982, R. 983, R.984 and R.985), as amended (amended 7 April 2017)	Listing Notice 1 of 2014 (as amended 7 April 2017) Listing Notice 2 of 2014 (as amended 7 April 2017) Listing Notice 3 of 2014 (as amended 7 April 2017)	No	The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects. The letter from WC DEADP is attached hereto as **ANNEXURE 10**.
National Environmental Management: Biodiversity Act (Act No. 10 of 2004) list of ecosystems that are threatened and in need of protection, (G 34809, GN 1002), 9 December 2011	Any process or activity identified in terms of section 53(1) of the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004) – will trigger Activity 30 on EIA Listing Notice 1 of 2014 (as amended 7 April 2017). List of Threatened Terrestrial Ecosystems (Government Gazette, 2011)	No	The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects. The letter from WC DEADP is attached hereto as **ANNEXURE 10**.
Environmental Conservation Act, 1989 (Act 73 of 1989), GN R.1182 dated 5 September 1997, GN R.1355 dated 17 October 1997, GN R.448 dated 27 March 1998, GN R.670 dated 10 May 2002 GN R.672 dated 10 May 2002	Part 5 (Control of Activities which may have Detrimental Effect on the Environment), Section 21	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of this Act which requires Environmental Authorisation.

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
National Environmental Management: Air Quality Act, 2004 (Act 39 of 2004),	Chapter 4, Part 2 (Listing of activities resulting in atmospheric emissions) Chapter 5 (Licensing of Listed Activities)(Atmospheric Emissions Licenses)	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of this Act which requires the issuing of an Atmospheric Emissions License.
National Environmental Management: Waste Act, 2008 (Act 59 of 2008),	Chapter 4, Part 4, Section 19: Listed waste management activities (Schedule 1 of the Act) Chapter 4, Part 8 (Contaminated Land)(Decommissioning of existing facilities, structures or infrastructure) Chapter 5 (Licensing of Waste Management Activities)(Waste Management Licenses)	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of Schedule 1A or Schedule 1B of the Act which requires a Waste Management License.
National Water Act, 1998 (Act 36 of 1998)	Chapter 4 (Use of Water) Schedule 1 (Permissible Use of Water)	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity in terms of this Act which requires the issuing of a Water Use License.
Subdivision of Agricultural Land Act, 1970 (Act 70 of 1970)	S3 Subject to the provisions of section 2 – (a) agricultural land shall not be subdivided; S4(1) Any application for the consent of the Minister for the purposes of section 3 shall be lodged with the Secretary and shall be in such form and be accompanied by such plans, documents and information as are determined by the Secretary.	No	The properties are located within the existing urban edge. The properties are furthermore owned by the Stellenbosch Municipality. *"1. In this Act, unless the context otherwise indicates –* *(i) "agricultural land" means any land, except –* *(c) land of which the State is the owner or which is held in trust by the State or a Minister for any person;".*
Conservation of Agricultural Resources Act, 1983 (Act 43 of 1983)	*"2. (1) Subject to the provisions of subsection (2) this Act shall not apply-* *(a) to any land which is situated in an urban area;* *(2) (a) The provisions of this Act relating to weeds and invader plants shall also apply to land which is situated within an urban area."*	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity or authorisation in terms of this Act.
Occupational Health and Safety Act, 1993 (Act 85 of 1993): Major Hazard Installations Regulations		No	N/A The proposed development does not involve Major Hazard Installations.

OTHER NATIONAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
Advertising on Roads and Ribbon Development Act, 1940 (Act 21 of 1940)	Section 2: Prohibition of certain advertisements visible from public roads Section 9: Prohibition of erection of structures near certain roads Section 10: Restriction of access to land through fence etc., along certain roads Section 11: Restriction on establishment or extension of townships	No	To the best of our knowledge and interpretation, the proposed development does not trigger any listed activity or authorisation in terms of this Act.

The following table indicates whether the proposed use triggers any provincial legislative approvals.

TABLE 3: PROVINCIAL LEGISLATIVE TRIGGERS

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
Western Cape Land Use Planning Act, 2014 (Act 3 of 2014)	Compliance or consistency with, and deviation from, spatial development frameworks or structure plans S19(1) If a spatial development framework or structure plan specifically provides for the utilisation or development of land as proposed in a land use application or land development application, the proposed utilisation or development is regarded as complying with that spatial development framework or structure plan.	Yes	The proposed development is compliant with the latest approved SDF. Refer to Section 7 of this report.
	S19(2) If a spatial development framework or structure plan does not specifically provide for the utilisation or development of land as proposed in a land use application or a land development application, but the proposed utilisation or development is not in conflict with the purpose of the relevant designation in the spatial development framework or structure plan, the utilisation or development is regarded as being consistent with that spatial development framework or structure plan.	No	The proposed development is compliant with the latest approved SDF. Refer to Section 7 of this report.
	S19(3) If the proposed utilisation or development of land in a land use application or a land development application does not comply with and is not consistent with the relevant designation for the utilisation of land in an applicable spatial development framework or structure plan, the proposed utilisation or development deviates from that spatial development framework or structure plan.	No	N/A

402

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	Provincial comment on land use applications S45(1) A municipality must refer a land use application relating to the following to the Head of Department for written provincial comment once the application is complete in accordance with the requirements of the municipality and section 42:	No	N/A
	S45(1)(a) a development outside the municipality's planned outer limit of urban expansion as reflected in its municipal spatial development framework;	No	The proposed development is located within the urban edge.
	S45(1)(b) if the municipality has no approved municipal spatial development framework, a development outside the physical edge, including existing urban land use approvals, of the existing urban area;	No	N/A
	S45(1)(c) a rezoning of land zoned for agricultural or conservation purposes;	No	N/A
	S45(1)(d) any development as determined by the municipal manager;	No	N/A
	S45(1)(e) development as prescribed that affects a provincial functional area;	No	N/A
	S45(1)(f) any other category of land use applications as may be prescribed for the purpose of supporting and strengthening the capacity of municipalities.	No	N/A

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	Provincial approval of land development S53(1) No person may without an approval under subsection (2) or an exemption under subsection (3) develop land that will have a substantial effect on— (a) the orderly, coordinated or harmonious development of a region or the Province; (b) the general welfare of the inhabitants of a region or the Province; or (c) agriculture, due to— (i) the nature or scale of the proposed land use; or (ii) the cumulative effect of multiple developments.	No	N/A
	S53(2) The owner of the land concerned or a person authorised by the owner may apply to the Head of Department for approval to develop land that will have the effect contemplated in subsection (1).	No	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered.
	S53(3) "(3) The Provincial Minister may exempt categories of land development from requiring approval under subsection (1) in one or more of the following circumstances: (a) where the land development complies with the applicable spatial development frameworks; (b) where the land development is consistent with other provincial policy; (c) to provide for government infrastructure projects; or (d) where provincial approval was granted in terms of other legislation."	No	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered.

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
Western Cape Land Use Planning Regulations, 2015 (Provincial Gazette 7412 dated 26 June 2015)(P.N. 203/2015) Western Cape Land Use Planning Regulations, 2015: Amendment, 2019 (Provincial Gazette 8083 dated 15 April 2019)(P.N. 51/2019)	Land development requiring provincial approval and exempted categories of land development Reg 10.(1) Subject to subregulation (2), land development contemplated in section 53(1) read with section 53(4) of the Act consists of the following categories: (a) proposed land development— (i) in respect of which an approval in terms of the Ordinance does not exist immediately before the commencement of the Act; and (ii) that falls within a category of land development that has been listed in the Provincial Gazette as a category that requires approval under section 53(1) of the Act; (b) proposed land development that utilises an area of five hectares or more of agricultural land that has been cultivated or irrigated during the 10-year period immediately preceding the proposed land development that involves urban development or urban expansion, including residential, resort, business, industrial and community development, utility services or transport uses, but excluding agricultural land uses or land development ordinarily associated with agricultural use such as agricultural storing and packing facilities, agricultural industries or accommodation for bona fide agricultural workers;" (c) proposed land development for prospecting, mining or quarrying that utilises an area of five hectares or more of agricultural land; (d) proposed land development for any shale gas mining activity, but excluding any exploration activities involving seismic testing and stratified drilling; and (e) proposed land development for any nuclear electricity generation facility.	No	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered.

PROVINCIAL LEGISLATION	APPLICABLE SECTIONS	TRIGGERED (YES / NO / N/A)	COMMENTS
	Reg 10.(2) The following categories of land development contemplated in subregulation (1) are exempted under section 53(3) of the Act from requiring approval under section 53(1) of the Act: (a) proposed land development in respect of which a provincial approval exists immediately before the commencement of the Act in terms of any of the following legislation: (i) section 24(2) of the National Environmental Management Act, 1998 (Act 107 of 1998), excluding an approval that is suspended in terms of section 43(7) of that Act; (ii) section 3 or 14 of the Less Formal Township Establishment Act, 1991 (Act 113 of 1991); (iii) regulations 2 to 7 of the regulations made under section 66(1) of the Black Communities Development Act, 1984 (Act 4 of 1984), published under Government Notice R.1897/1986 in Government Gazette 10431 of 12 September 1986; (iv) regulation 16, 17, 19(5) or 19(7) of the regulations made under section 66(1) of the Black Communities Development Act, 1984, published under Provincial Notice 733/1989 in Provincial Gazette 4606 of 22 September 1989; (v) section 20 of the Rural Areas Act, 1987 (Act 9 of 1987); (b) proposed land development that is specifically provided for in the applicable local municipal spatial development framework that was submitted to the Provincial Minister as contemplated in section 14 of the Act.	N/A	N/A because S53(1) of LUPA (Act 3 of 2014) is not triggered. Regulation 10.(2)(b) applies to this land use application.

2.6 AFFECTED SURROUNDING PROPERTY OWNERS

A meeting was held via MS Teams on Friday, 27 August 2021 (at 09h00) to discuss the project with officials from the Stellenbosch Municipality's Town Planning Department. The meeting was attended by the following people:

- Stiaan Carstens, Stellenbosch Municipality
- Chrizelle Kriel, Stellenbosch Municipality
- Lester van Stavel, Stellenbosch Municipality
- Shaun October, Stellenbosch Municipality
- Martin Jonker, Plan 4 SA (Pty) Ltd

It was recommended at this meeting that due to, amongst other reasons, the project's history and urgency to finalise the land use rights and transfer of ownership, this land use application be exempted (in terms of Section 60 of the Western Cape LUPA, Act 3 of 2014) from the publication and serving of notices as required by Sections 43 and 44 of LUPA (Act 3 of 2014) and the similarly relevant Sections 45 and 46 of the Stellenbosch Municipality: Land Use Planning By-Law (2015).

A letter was subsequently drafted and submitted to the municipality on 1 September 2021 for their finalisation and submission to the Western Cape Province. The Stellenbosch Municipality's Executive Mayor signed the letter on 22 September 2021 after which it was submitted to the Western Cape MEC of Local Government, Environmental Affairs and Development Planning (DEADP).

In its letter dated 13 October 2021, the Minister of Local Government, Environmental Affairs and Development Planning approved the municipality's exemption request and stated the resolution as follows:

> *"That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch,* ***BE APPROVED*** *in terms of Section 60(1) of the LUPA."*

The exemption approval of the Minister was published in the Provincial Gazette on 19 October 2021 (PG Extraordinary 8507, Provincial Notice 129/2021 dated 19 October 2021).

The municipality's motivation letter, the Minister's letter of approval and the Provincial Gazette Notice is attached hereto as **ANNEXURE 2**.

In terms of the aforementioned exemption, it is therefore not required to notify surrounding property owners of the land use application.

3. PROPERTY INFORMATION

3.1 PROPERTY DESCRIPTION & EXTENT

The property descriptions, their extent and relevant General Plan / SG Diagram information is summarised in the table below.

TABLE 4: PROPERTY CADASTRAL INFORMATION

ERF NUMBER	TOWNSHIP	SIZE		GP / SG DIAGRAM
		m²	ha	
Remainder of Erf 288	Kaya Mandi	342,986	34.2986	L149/87 & SG394/1986
TOTAL		**342,986**	**34.2986**	

The SG Diagram(s) / General Plan(s) is attached to the land use application as **ANNEXURE 3**.

3.2 OWNERSHIP & TITLE DEED

The property is owned by the Stellenbosch Municipality. The Title Deeds associated with each property is shown in the following table.

TABLE 5: TITLE DEED INFORMATION

PROJECT	TITLE DEEDS	ERF NUMBERS	SUBDIVIDED FROM	TOWNSHIP
8	T43399/2000	Remainder of Erf 288	Erf 288	Kaya Mandi

Proof of registered ownership is attached to the land use application as **ANNEXURE 4**. The Title Deed(s) is attached to the land use application as **ANNEXURE 5**.

3.3 CONVEYANCING CERTIFICATE & TITLE DEED RESTRICTIONS

A Conveyancing Certificate has been issued for each of the properties by Messrs STBB and is attached to the land use application as **ANNEXURE 6**.

Clauses I(B)(I), I(C) and II(B) of T43399/2000 (relating to the remainder of Erf 288 Kaya Mandi) stipulates conditions relating to the use of land, whilst Clause I(D) stipulates servitudes that may be registered over or in favour of the property. Clauses II(C) and III(C) of T43399/2000 relates to other restrictive conditions.

The conditions relating to the use of the land and "other restrictive conditions" do NOT restrict the existing (proposed) use of the land for residential purposes.

The land surveyor (Mr Damien Burger) confirmed in an email dated 15 November 2021 that the servitudes mentioned in the title deeds and the SG Diagrams are all servitudes that the properties are entitled to, so they will not affect the layout as the properties are not subject to any servitudes.

In an email dated 25 January 2022, Mrs Annemarie van Vuuren (of Messrs STBB) confirmed the following:

"...We have perused all the title deeds and we could not identify any condition restricting the use of the Kaya Mandi properties for residential purposes. We further confirm that it will not be necessary to apply for the removal of any restrictive conditions...."

3.4 CURRENT ZONING

The application properties are currently zoned as follows:

TABLE 6: CURRENT ZONING

PROJECT	EXISTING ERF NUMBERS	TOWNSHIP	CURRENT ZONING
8	Remainder of Erf 288	Kaya Mandi	Public Roads and Parking Zone

The email of Ms Louisa Guntz dated 12 April 2022 in which the current zoning is confirmed is attached to the land use application as **ANNEXURE 7.**

3.5 EXISTING BUILDINGS & LAND USES

The properties are already built-up and includes buildings used for residential purposes.

TABLE 7: EXISTING BUILDINGS & LAND USES

EXISTING BUILDINGS	EXISTING LAND USES	LEGAL STATUS (Authorised or Unauthorised)	IF "UNAUTHORISED", IS THIS APPLICATION TO LEGALIZE THE LAND USE?
Used for Residential purposes	Residential	Unauthorised	Yes

Examples of the existing land uses for each project are shown in the table below.

PROJECT	EXISTING LAND USES	PHOTOS
8	54 x Formal Dwelling Units currently located on the Remainder of Erf 288 Kaya Mandi.	View along Luyolo Road

3.6 BOND HOLDER

There are no bonds registered against the subject property(ies).

3.7 PENDING LAND CLAIMS

The Office of the Regional Land Claims Commissioner: Western Cape confirmed in a letter dated 13 August 2021 that *"...at the date of this letter no land claims appear on our database in respect of ..."* the subject properties.

The letter from the Western Cape Regional Land Claims Commissioner is attached hereto as **ANNEXURE 8**.

3.8 PENDING COURT CASES / ORDERS

The conveyancer (Mrs Annemarie van Vuuren of Messrs STBB) confirmed in an email dated 25 January 2022 the following:

> *"...It is also confirmed that, during our investigation, we did not pick up any pending court cases or orders, noted in the deeds office....."*

4. CONTEXTUAL ANALYSIS

4.1 LOCATION & PHYSICAL ADDRESS

Project 8 (Mpelazwe) is located between Luyolo, Ndzawumbi and Sokuqala Road in Ward 13, in the Old Township Area of Kayamandi, Stellenbosch. The coordinates of the approximate center point of this project are 33°54'52" S and 18°50'48" E.

The location is shown in the image below and on **PLAN 1: LOCALITY PLAN**.

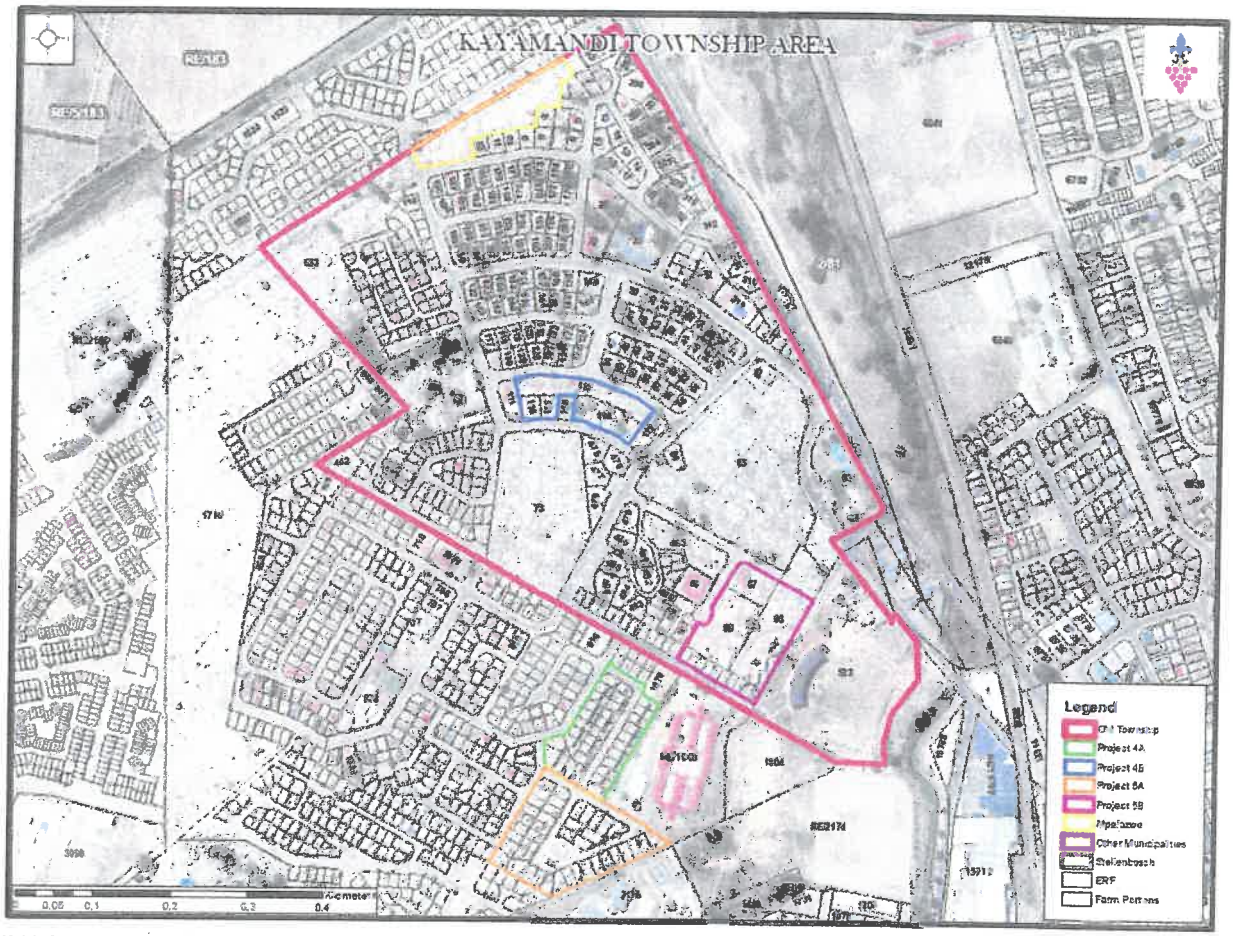

IMAGE 1: LOCATION OF KAYAMANDI PROJECT 8

4.2 SURROUNDING ZONINGS AND LAND USES

Stellenbosch town has 5 independent urban villages characterised by mixed-uses and mixed-income. Kayamandi is located in the northern part of the town and houses the lower income communities of Stellenbosch.

The subject properties are surrounded by a mix of land uses that includes mainly less formal residential units, multi-unit residential, education uses (school), private open spaces (stadium) and other mixed uses.

The Stellenbosch Municipality Zoning Scheme By-Law's (2019) zoning map for Kayamandi is shown below.

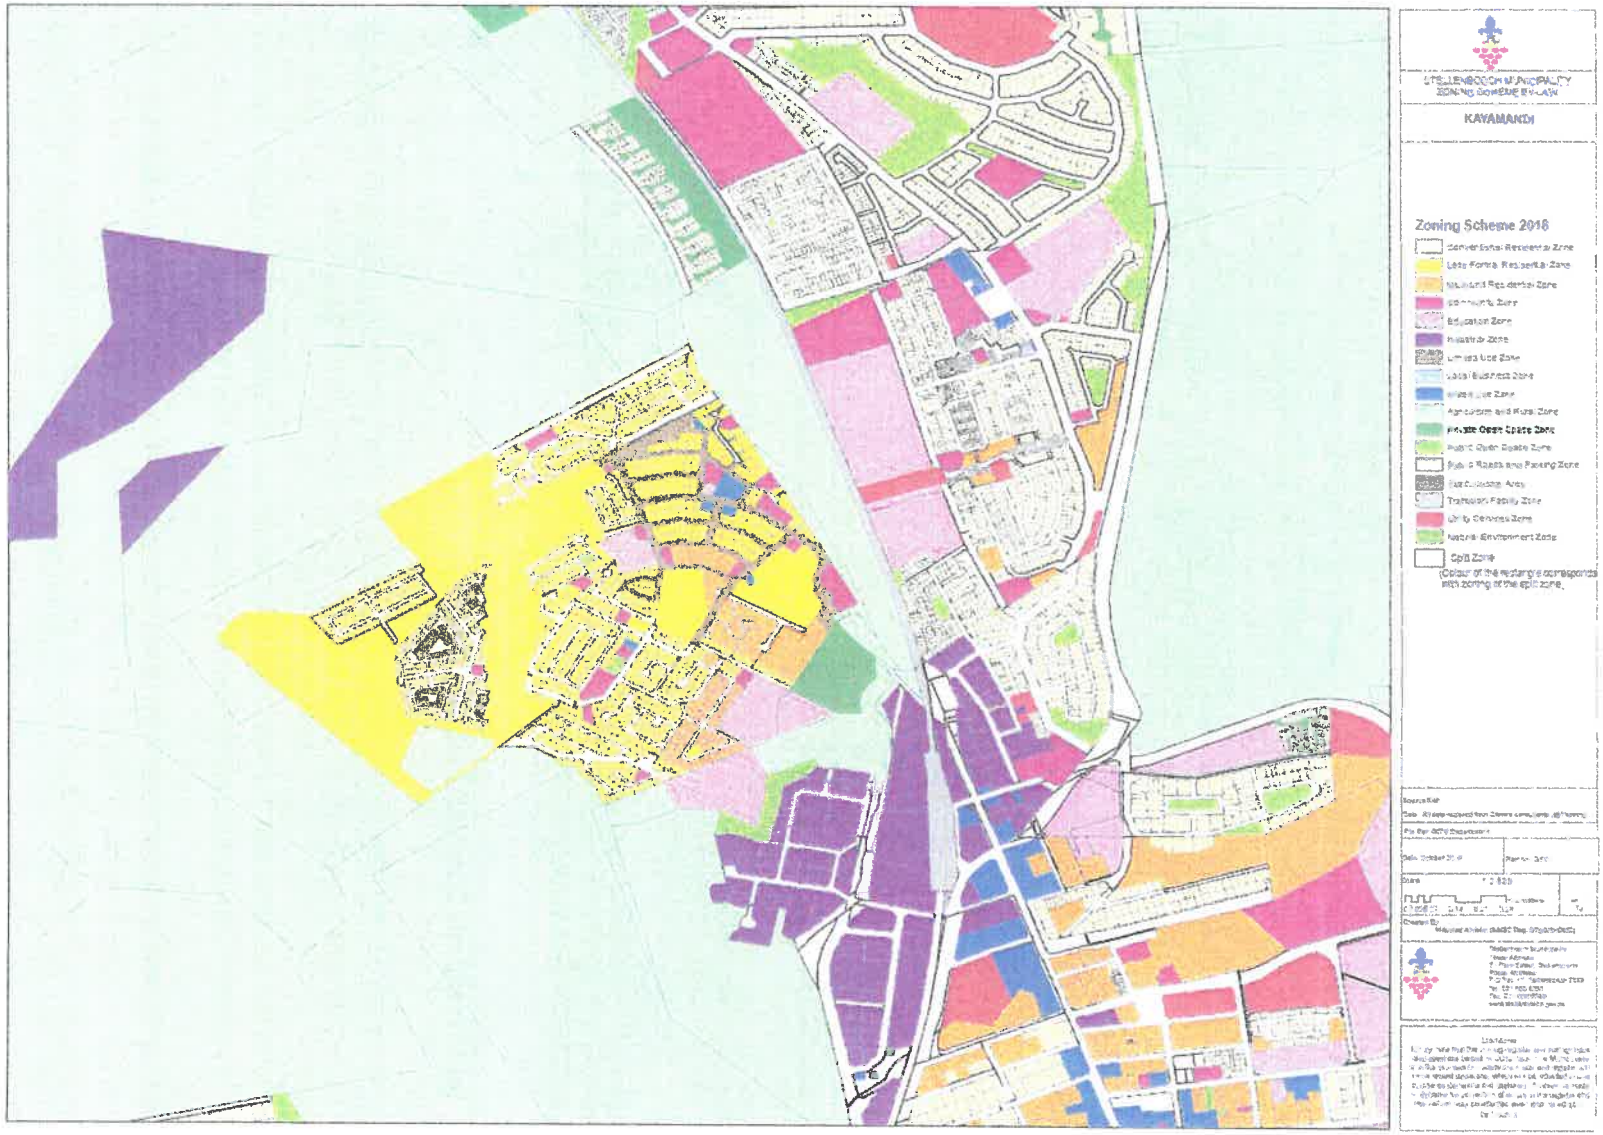

IMAGE 2: KAYAMANDI ZONING MAP (2019)

5. SITE ANALYSIS

An analysis of the key site characteristics is summarised below.

5.1 ENGINEERING SERVICES

The engineering services reports prepared by Messrs GLS and Inani Infrastructure are attached hereto as **ANNEXURE 9**. For detail, please refer to the aforementioned reports.

The proposed project site is located within an established suburb (within the urban edge) with infrastructure, which offers the possibility for service connections to assist with the formalisation of the sites.

GLS Consulting provided the comments on the bulk water supply and sewer discharge for the proposed formalisation of existing structures project. GLS Consulting commented that the water demand for the existing structures was accounted for in the June 2019 master plans for water and sewer networks, however, no provision was made for densification in these areas. ***Please note that comment is in some instances given as if the developments are still proposed.***

5.1.1 Water

The reticulation networks for the appropriate zones have sufficient capacity for the development areas but the Kayamandi reservoir has marginally insufficient storage capacity. Since the current Stellenbosch bulk supply to the Papegaaiberg reservoir is at capacity, it does not have sufficient capacity to supply bulk water to the proposed development areas. To augment this, the master plan items SSW6.8a & SSW.B20 (part of the larger Helshoogte transfer system) are proposed, and the master plan items SSW.B29, SSW.B30 & SSW.B31 are required to augment the reservoir storage capacity of the Kayamandi water system.

e) Project 8
Project 8 is located within the Kayamandi reservoir PRV3 and PRV4 zones. There is a 50mm AC diameter pipe that serves the properties on Sokuqala Road (PRV3) and a 110mm uPVC diameter pipe in Luyolo Street (PRV4) (GLS Consulting, 2021).

5.1.2 Sewer

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch WWTW have sufficient capacity to accommodate the proposed development areas.

e) Project 8
There is an existing 200mm diameter outfall sewer pipe in Sokuqala Road and/or the existing 150mm diameter outfall sewer that run along in Luxolo Street or parallel to Luyolo Street (GLS Consulting, 2021).

5.1.3 Electrical

The Cloetesville HV/MV Electrical Substation and the Switching Stations for the supply areas have sufficient capacity for the development sites. However, the capacity of some of the Internal MV feeders is exceeded and the additional load of Projects 4A, 5A and 5B may not be able to be accommodated. The implementation of a masterplanning item is being planned that will increase the reliability of the internal network.

Projects 4B and 8:

- - Kayamandi SS: MS Mode Crescent Feeder interconnecting with RMU Costa: MS Sesihlanu 16 Feeder
    - The MS Mode Crescent Feeder (35mm² PILC) and RMU Costa MS Sesihlanu 16 Feeder (35mm² PILC) has a capacity of 2.48MVA. These feeders combined therefore have a capacity of 5MVA.
    - These feeders currently supply 4 miniature substations and has an installed capacity of 1.8MVA. An additional load of 700kVA can be accommodated on these feeders
- - The proposed load of 420kVA (0.42MVA) and can be accommodated by this feeder network.

5.1.4 Roads & Transport

The development sites form part of the developed and build-up areas. All properties within the project sites are well served by paved roads, close to public transport routes and can be accessed through the existing road network.

Project 8 (Mpelazwe):

Access to the properties can be obtained from Luyolo, Ndzawumbi and Sokuqala Roads.

5.2 SERVITUDES

The land surveyor (Mr Damien Burger) confirmed in an email dated 15 November 2021 that the servitudes mentioned in the title deeds and the SG Diagrams are all servitudes that the properties are entitled to, so they will not affect the layout as the properties are not subject to any servitudes.

5.3 TOPOGRAPHY & GEOTECHNICAL STATUS

A topographical survey was previously done for this site by Messrs FBV. The project site has a slope of approximately 1:19 and falls ±11m (from 133.5m to 122m) in an east-north-easterly direction from the south-western to the north-eastern corner of the project site. No information could be sourced on existing geotechnical conditions; however, it is believed that a geotechnical report is not required due to the fact that the project site has already been developed.

5.4 ENVIRONMENTAL CHARACTERISTICS

The subject properties are located in an established urban area and is already transformed and built-up. The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects.

The letter from WC DEADP is attached hereto as **ANNEXURE 10**.

5.5 HERITAGE CHARACTERISTICS

The property is located outside the historical centre of Stellenbosch. The buildings are not older than 60-years. An NID was submitted to Heritage Western Cape (HWC) on 8 August 2021. HWC confirmed in a letter dated 3 September 2021 that "since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required".

The letter from HWC is attached hereto as **ANNEXURE 11**.

6. DEVELOPMENT PROPOSAL

6.1 BACKGROUND

This project, known as Mpelazwe, formed part of the hostel upgrading programme and consists of 54 residential units and 1 public open space. However, it still forms part of the Remainder of Erf 288, Kaya Mandi. New erf numbers have been allocated but the formal subdivision and closure of a public place have not been completed to date.

6.2 PROPOSED DEVELOPMENT CONCEPT

The purpose of this application is thus the following:

- To close the public road for a portion of Erf 288 Kaya Mandi.
- To subdivide the closed road portion from the Remainder of Erf 288.
- To subdivide the new erf into 55 erven consisting of 54 residential erven and 1 public open place.

The existing cadastral information, the proposed consolidation of the various erven and the proposed subdivision of the consolidated erf are shown in the figures below and on **PLAN 2: EXISTING CADASTRAL PLAN (PROJECT 8)**, and **PLAN 3: SUBDIVISION PLAN (PROJECT 8)** respectively. The proposed zoning of the new erven is shown on **PLAN 4: ZONING PLAN (PROJECT 8)**.

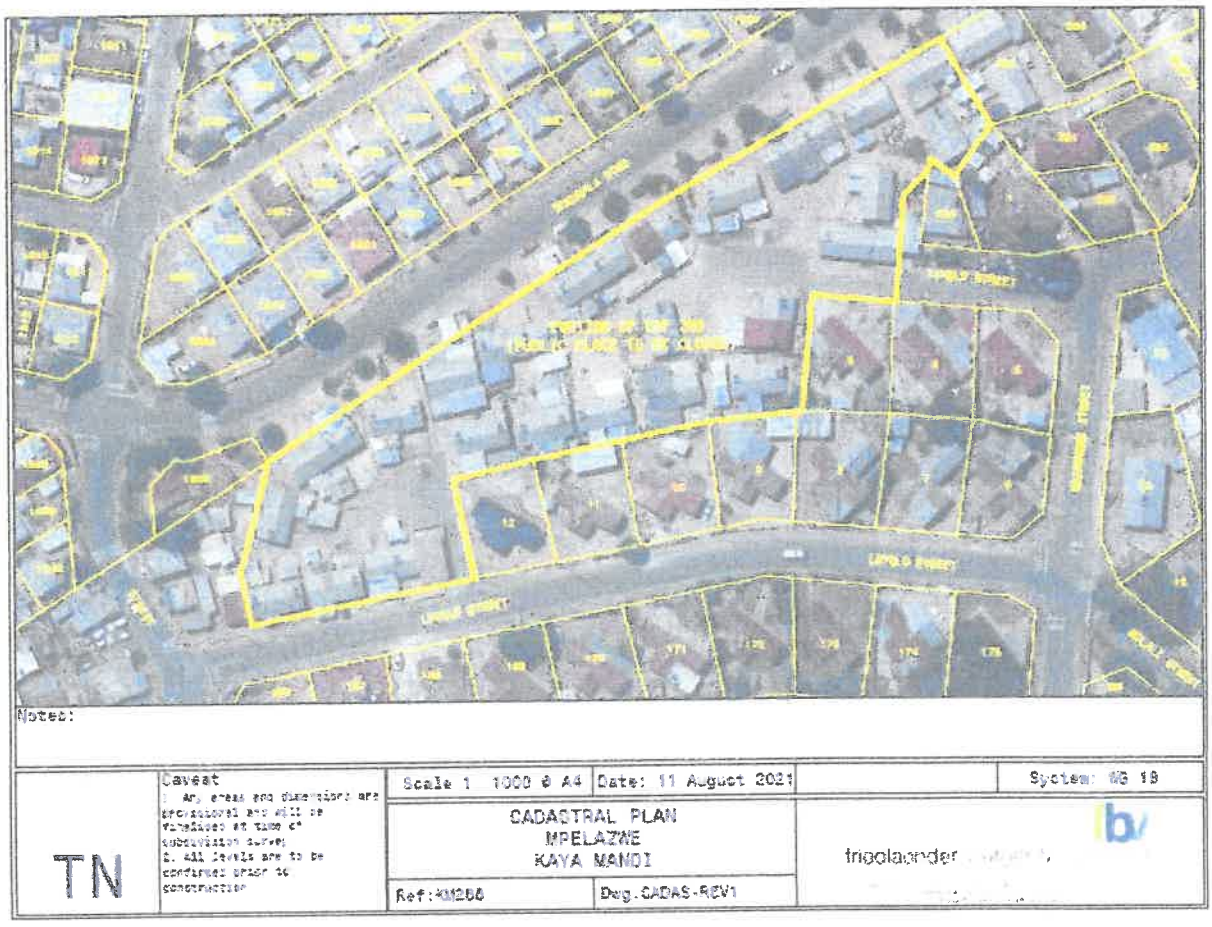

FIGURE 3: PROJECT 8 – EXISTING CADASTRAL INFORMATION

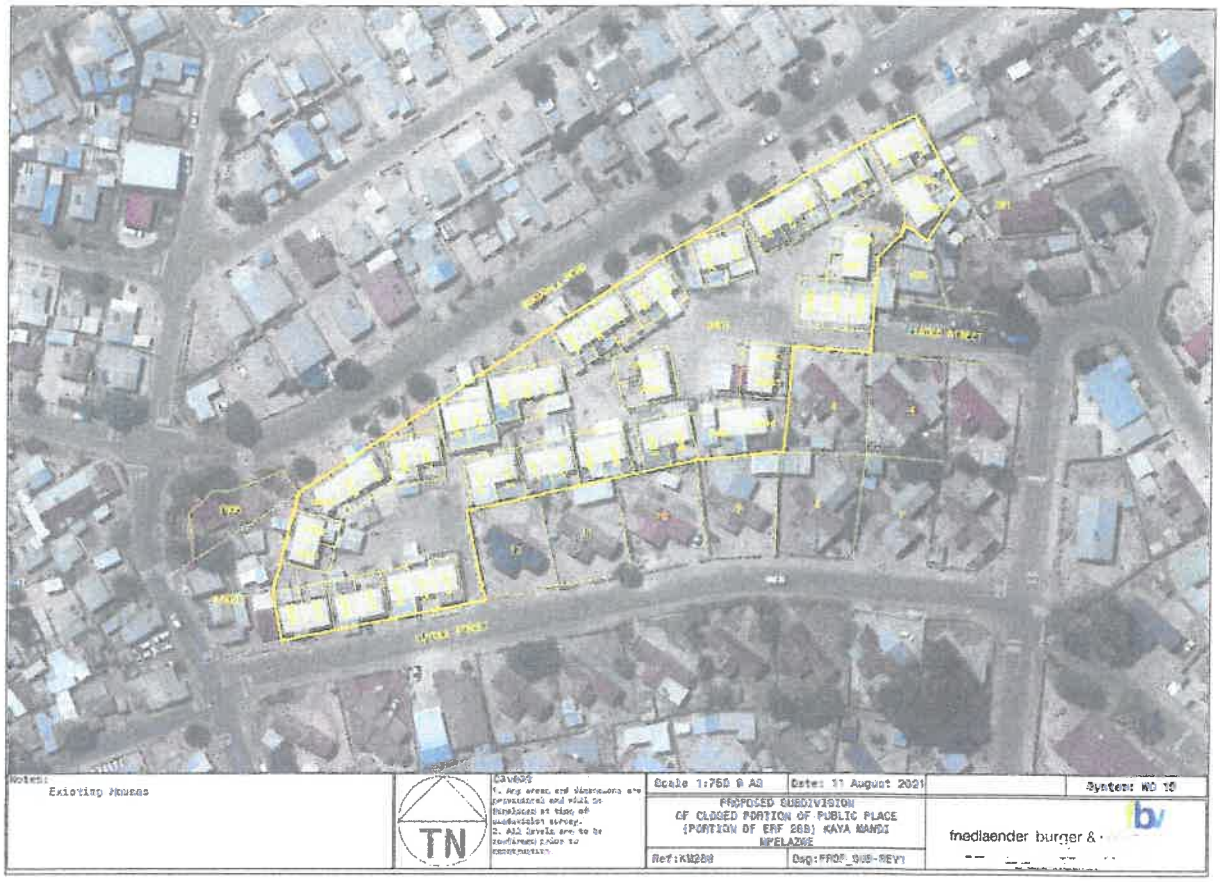

FIGURE 4: PROJECT 8 – PROPOSED SUBDIVISION

In order to obtain these objectives, the following land use applications are made:

- The subdivision of the Remainder of Erf 288 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into two portions, namely "Portion A" (approximately 7158m² in extent) of the Erf 288 and the Remainder of Erf 288 Kaya Mandi (refer to **PLAN 2: EXISTING CADASTRAL PLAN (8)**).
- The closure of subdivided "Portion A" (approximately 7158m² in extent) of the Erf 288 (Public Road) Kaya Mandi in terms of Section 15(2)(n) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 (refer to **PLAN 2: EXISTING CADASTRAL PLAN (8)**).
- The rezoning of the closed "Portion A" (approximately 7158m² in extent) of Erf 288 Kaya Mandi in terms of Section 15(2)(a) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 from Public Roads and Parking Zone (PR)[6] to Subdivisional Area Overlay Zone (SAO) to accommodate Less Formal Residential Zone (LFR), and Public Road and Parking Zone (PR) erven.
- The subdivision of the closed "Portion A" (approximately 7158m² in extent) of Erf 288 Kaya Mandi in terms of Section 15(2)(d) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 into the following (refer to **PLAN 3: SUBDIVISION PLAN (8)**):
    - 54[7] x Less Formal Residential Zone (LFR) erven; and
    - 1 x Public Roads and Parking Zone (PR) erf.

6 The Status Quo Report indicates that the existing zoning is "Conventional Residential Zone" and "Public Place". According to the Stellenbosch Municipality's latest zoning map (Kayamandi Zoning Scheme 2018, downloaded from the Municipality's website) this portion of the Remainder of Erf 288 is currently zoned "Limited Use Zone (LU)". Ms Louisa Guntz of the Stellenbosch Municipality confirmed in an email dated 12 April 2022 that the current zoning is Public Roads and Parking Zone.

7 The Status Quo Report indicates that the property be subdivided into 65 erven and the remainder being public roads and parking.

- The compilation and submission of an application to the Surveyor-General for the amendment of General Plan GP L149/1987 in terms of Section 15(2)(k) of the Stellenbosch Municipal Land Use Planning By-Law, 2015.
- A permanent departure on **coverage** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, as follows:
    - Increase the coverage on unregistered erf 2415 from 80% to 80.1%.
    - Increase the coverage on unregistered erven 2432, and 2443 from 80% to 81%.
    - Increase the coverage on unregistered erf 2414 from 80% to 83%.
    - Increase the coverage on unregistered erf 2420 from 80% to 85%.
    - Increase the coverage on unregistered erf 2440 from 80% to 87%.
    - Increase the coverage on unregistered erf 2426 from 80% to 88%.
    - Increase the coverage on unregistered erf 2418 from 80% to 89%.
    - Increase the coverage on unregistered erf 2408 from 80% to 92%.
    - Increase the coverage on unregistered erf 2428 from 80% to 95%.
    - Increase the coverage on unregistered erven 2403, 2407, 2410, 2422, 2424, 2429, and 2435 from 80% to 100%.
- A permanent departure on **off-street parking** in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, by reducing the minimum required off-street parking bays from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven[8].
- A permanent departure on building lines (for "All other buildings" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[9]:
    - A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 2394-2395, 2400, 2402, 2407-2408, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2396, 2406, 2413-2414, 2420, 2433-2434.
    - A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 2393-2395, 2398-2399, 2403, 2406, 2409-2410, 2412, 2415, 2417, 2419, 2422, 2424, 2426, 2429, 2430, 2430-2431, 2436-2437, 2443-2445.
- A permanent departure on building lines (for "Shelters" in the LFR Zone) in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015 as follows[10]:
    - A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 2396, 2408, 2415, 2428, 2432, 2435.
    - A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 2429.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 2392, 2396, 2403-2404, 2418-2420, 2423, 2428, 2435-2436, 2438-2440, 2442, 2445.

---

[8] A desktop analysis from an undated aerial photo shows that there is not sufficient space on the proposed new erven to accommodate any off-street parking bays. However, this should not be a problem since unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR). It is therefore proposed that the parking bay requirement be amended from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven in this development.

[9] The building line parameters in the LFR Zone for "all other buildings" (except for shelters) are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; 0m on one common boundary; and 1m on all other common boundaries.

[10] The building line parameters in the LFR Zone for "Shelters" are 1m (5m on a proclaimed road (S69(2)(h))) on the street boundary; and 1m on all common boundaries.

- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429-2430, 2443-2444.
- A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2395, 2410, 2412.

6.3 PROPOSED SUBDIVISION, CONSOLIDATION, ZONINGS AND LAND USES

This section must be read with **PLAN 2: EXISTING CADASTRAL PLAN, PLAN 3: SUBDIVISION PLAN,** and **PLAN 4: ZONING PLAN**.

The area (m²), number of dwelling units, existing land uses, and the proposed zoning of the new properties are shown in the following table.

TABLE 8: PROPOSED SUBDIVISION, ZONING AND LAND USES

TEMP ERF NUMBER	ESTIMATED ERF SIZE		NU OF FORMAL DWELLING UNITS	ESTIMATED NUMBER OF INFORMAL / OTHER STRUCTURES	EXISTING LAND USES	PROPOSED ZONING
	m²	ha

6.4 PROPOSED DEVELOPMENT PARAMETERS

The following tables describes the planning parameters (coverage, height, building lines, and parking) for each of the proposed land uses as it is proposed for this development.

6.4.1 Coverage

Coverage was measured as follows:

- Coverage of formal dwelling units only; and
- Coverage of both formal dwelling units and informal structures (shelters).

Coverage (measured in terms of formal dwelling units only):

- The coverage of all erven is less than the maximum permitted 80% in the LFR Zone.

Coverage (measured in terms of formal dwelling units & the informal structures):

- From the undated aerial photo it looks like the combination of formal dwelling units and informal structures on unregistered erven 2403, 2407, 2408, 2410, 2414, 2415, 2418, 2420, 2422, 2424, 2426, 2428, 2429, 2432, 2435, 2440, and 2443 have increased the coverage on these erven to more than 80%, which means that departures would be required on these erven if the informal structures are not removed.

A permanent departure on coverage in terms of Section 15(2)(b) of the Stellenbosch Municipal Land Use Planning By-Law, 2015, as follows:

- Increase the coverage on unregistered erf 2415 from 80% to 80.1%.
- Increase the coverage on unregistered erven 2432, and 2443 from 80% to 81%.
- Increase the coverage on unregistered erf 2414 from 80% to 83%.
- Increase the coverage on unregistered erf 2420 from 80% to 85%.
- Increase the coverage on unregistered erf 2440 from 80% to 87%.
- Increase the coverage on unregistered erf 2426 from 80% to 88%.
- Increase the coverage on unregistered erf 2418 from 80% to 89%.
- Increase the coverage on unregistered erf 2408 from 80% to 92%.
- Increase the coverage on unregistered erf 2428 from 80% to 95%.
- Increase the coverage on unregistered erven 2403, 2407, 2410, 2422, 2424, 2429, and 2435 from 80% to 100%.

The coverage of the new properties is shown in the following table.

TABLE 9: PROPOSED COVERAGE

TEMP ERF NUMBER	ESTIMATED ERF SIZE		COVERAGE								
	m²	ha	Max Permitted	Estimated Actual (Formal Structures)		Estimated Actual (Informal Structures)		Estimated Actual Total		Change / Amend	
			%	m²	%	m²	%	m²	%	From	To

6.4.2 Height

The height of the existing buildings does not exceed the permissible height in the LFR Zone and therefore an amendment of this parameter is not required.

The height of the new properties is shown in the following table.

TABLE 10: PROPOSED HEIGHT

TOTAL	54	59						

6.4.3 Building Lines

The existing properties contain 54 formal dwelling units. In addition to the 54 formal dwelling units, there are approximately 59 informal structures or "Shelters" on the existing properties. This was counted from an undated aerial image obtained from Messrs TV3. Should the municipality require an exact number of informal structures, it is recommended that quotes be obtained for new aerial footage and/or the conducting of physical surveys.

An inspection of the available undated aerial photo reveals the following:

- Many of the informal structures seem to be erected across the proposed erf boundaries.
- Some properties extend into the road reserve.
- On some properties the existing dwelling houses have been extended.
- The erf boundaries of certain properties do not coincide with the proposed erf boundaries on the subdivision plan.
- Some informal structures have been constructed on the erven that is earmarked for use as public road and parking purposes.

Many of the existing buildings exceed the permissible building lines in the LFR Zone and therefore an amendment of this parameter is required as indicated below.

- Building Lines (for "All Other Buildings" in the LFR Zone):
    - A departure on the street boundary building lines is proposed from 1m to 0m on one of the street building lines on the following unregistered erven: 2394-2395, 2400, 2402, 2407-2408, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two of the street building lines on the following unregistered erven: 2396, 2406, 2413-2414, 2420, 2433-2434.
    - A departure on the common boundary building lines is proposed from 0m on one common boundary to 0m on two common boundaries on the following unregistered erven: 2393-2395, 2398-2399, 2403, 2406, 2409-2410, 2412, 2415, 2417, 2419, 2422, 2424, 2426, 2429, 2430, 2430-2431, 2436-2437, 2443-2445.

- Building Lines (for "Shelters" in the LFR Zone):
    - A departure on the street boundary building lines is proposed from 1m to 0m on one street building line on the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445.
    - A departure on the street boundary building lines is proposed from 1m to 0m on two street building lines on the following unregistered erven: 2396, 2408, 2415, 2428, 2432, 2435.
    - A departure on the street boundary building lines is proposed from 1m to 0m on three street building lines on the following unregistered erven: 2429.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on one common boundary on the following unregistered erven: 2392, 2396, 2403-2404, 2418-2420, 2423, 2428, 2435-2436, 2438-2440, 2442, 2445.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on two common boundaries on the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429-2430, 2443-2444.
    - A departure on the common boundary building lines is proposed from 1m on all common boundaries to 0m on three common boundaries on the following unregistered erven: 2395, 2410, 2412.

Information on the building lines of the new properties is shown in the following two tables. The first table shows the building line information for "All Other Buildings" in the LFR Zone whilst the second table provide building line information for "Shelters" in the LFR Zone.

TABLE 11: PROPOSED BUILDING LINES ("ALL OTHER BUILDINGS")

6.4.4 Parking

In terms of the Zoning Scheme, 54 x off-street parking bays are required in this development. A desktop analysis from an undated aerial photo shows that only approximately 8 x off-street parking bays can be provided. However, this should not be a problem since unregistered Erf 2401 has been earmarked for parking and circulation purposes and is proposed to be zoned Public Roads and Parking Zone (PR).

It is therefore proposed that a departure be approved on parking by reducing the minimum required off-street parking bays from 1 bay per dwelling house to 0 bays per dwelling house on all residential erven in the development.

Information on off-street parking is shown in the table below.

7. PLANNING MOTIVATION IN SUPPORT OF THE APPLICATION

7.1 LAND USE DECISION CRITERIA

Section 65 of the Stellenbosch Land Use Planning By-Law, 2015, sets out the general criteria that needs to be considered when a land use application is submitted. Section 38(1)(f) indicates that the written motivation of the application must be based on the criteria in Section 65.

7.2 CONSISTENCY WITH RELEVANT NATIONAL & PROVINCIAL DEVELOPMENT PRINCIPLES

The proposed land use is consistent with the development principles contained in Chapter 2, Section 7 of SPLUMA (Act 16 of 2013) and Chapter 6, Section 59 of LUPA (Act 3 of 2014).

TABLE 14: CONSISTENCY WITH SPLUMA (Act 16 of 2013) AND LUPA (Act 3 of 2014)

APPLICABLE SECTIONS	DEVELOPMENT PRINCIPLES	COMMENTS
SPLUMA, Section 7(a) LUPA, Section 59(1)	Spatial Justice	The proposed development is consistent with the principle of spatial justice: • It redresses past spatial and development imbalances by providing access to land for the previously disadvantaged communities in Kayamandi. • The aim is to finalise the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries. It therefore provides for security of tenure.
SPLUMA, Section 7(b) LUPA, Section 59(2)	Spatial Sustainability	The proposed development is consistent with the principle of spatial sustainability: • The properties are located within the existing approved urban edge in the established urban area of Kayamandi. • The development already exists and does not encourage urban sprawl. • No new development will take place. • It is currently and will in future continue to make use of existing available infrastructure services capacity. • There are no environmentally or heritage sensitive areas in this part of Kayamandi. • It does not have an impact on prime and unique agricultural land.
SPLUMA, Section 7(c) LUPA, Section 59(3)	Efficiency	The development is consistent with the principle of efficiency: • It optimises the use of existing infrastructure. • It optimises the use of existing available state-owned land. • It is already integrated in the current urban space economy of Kayamandi and will have no negative financial, social, economic or environmental impacts.
SPLUMA, Section 7(d) LUPA, Section 59(5)	Spatial Resilience	• A key objective of the development / land use application is to finalise the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries and thereby improving the livelihood of the affected communities to ensure sustainable growth and development.

APPLICABLE SECTIONS	DEVELOPMENT PRINCIPLES	COMMENTS
		• According to the principle of spatial resilience (S59(5) of LUPA), *"flexibility in spatial plans, policy and land use* management *systems is accommodated to ensure sustainable livelihoods in communities most likely to suffer the impact of economic and environmental shocks"*.
SPLUMA, Section 7(e) LUPA, Section 59(4)	Good Administration	The application complies with and is submitted in accordance with the legislated land development processes and procedures.

7.3 CONSISTENCY WITH RELEVANT NATIONAL & PROVINCIAL PLANNING FRAMEWORKS AND POLICIES

7.3.1 National Development Plan (NDP), 2012

The National Development Plan identified nine (9) main challenges that need to be addressed in South Africa. The land use(s) in this application contributes as a response to some of those national challenges. The national challenges, the suggested national responses and the relevance to this land use application is highlighted in the table below.

TABLE 15: CONSISTENCY WITH NATIONAL DEVELOPMENT PLAN (NDP), 2012

NDP CHALLENGES		NDP RESPONSE	HOW THIS PROPOSED DEVELOPMENT RESPONDS
1	Unemployment	Create jobs and livelihoods	Not applicable to this application.
2	Infrastructure poorly located and inadequate	Expand infrastructure	The aim is to finalise the land use rights on this project that was started many years ago in order to transfer the ownership of the properties to the intended beneficiaries. There will be no new developments. The existing properties are already making use of the existing infrastructure capacity within Kayamandi.
3	Exclusive spatial patterns	Transform urban and rural spaces	This urban area is already transformed, and the land uses and buildings already exist. The aim with this land use application is therefore to legalise the existing land uses so that ownership can be transferred to the intended beneficiaries.
4	Resource consumptive economy	Transition to a low-carbon economy	Not applicable to this application.
5	Poor quality education	Improve education and training	Not applicable to this application.
6	Widespread disease burden and poor services	Provide quality health care	Not applicable to this application.
7	Poor quality public service	Build a capable state	Not applicable to this application.
8	Corruption	Fight corruption and increase accountability	Not applicable to this application.
9	Divided society	Transform society and unite the nation.	This land use application will contribute to the transformation of society because it will provide security of tenure to the intended beneficiaries in Kayamandi.

7.3.2 OneCape 2040

The OneCape 2040 strategy is a Western Cape initiative that aims to *"scope a long-term economic vision and plan involving all key Western Cape economic leaders as well as citizens for the next 30 to 40 years"*. Its primary goal is to create *"a resilient, inclusive and competitive Western Cape with higher rates of employment producing growing incomes, greater equality and an improved quality of life"*. Its vision is to have *"a highly-skilled, innovation driven, resource efficient, connected, high opportunity and collaborative society"*. Local government's role in achieving this vision is as follows:

- Integrated neighbourhoods and upgrading the built environment;
- Integrated services planning and provision

Two of the six transitional areas identified in this strategy relates to

- ***"Economic Access Transition (Working Cape)"***. The aim is to change from a currently *"Factor and efficiency-driven economy with high barriers to entry and low productivity and entrepreneurship rates"* to a *"Innovation-driven economy with low barriers to entry, high productivity and entrepreneurship rates"*.
- ***"Settlement Transition (Living Cape)"***. The aim is to change from the current "Unhealthy, low access, often alienated, low opportunity neighbourhoods" to "Healthy, accessible, liveable, multi-opportunity communities.

This project and land uses are part of the municipality's initiatives to fulfil its role in the OneCape 2040 vision.

7.3.3 WC Provincial Spatial Development Framework (PSDF), 2014

The latest approved PSDF is dated March 2014. The Western Cape PSDF aims to:

- Give spatial expression to the National and Provincial development agendas;
- Serve as a basis for coordinating, integrating and aligning 'on the ground' delivery of National and Provincial departmental programmes;
- Support municipalities to fulfil their municipal planning mandate in line with the National and Provincial agendas; and
- Communicates government's spatial development intentions to the private sector and civil society.

The 2014 PSDF applies five (5) key principles to achieve its spatial vision for the province. These five principles are aligned with the development principles contained in Section 7 of SPLUMA (Act 16 of 2013) and Section 59 of LUPA (Act 3 of 2014) and talks about Spatial Efficiency, Spatial Justice, Sustainability & Resilience, Quality & Liveability and Accessibility. This existing land uses in this project's consistency with these principles have already been highlighted in a previous section. This proposed land use is also consistent with the three spatial themes of the Western Cape PSDF:

- **Resources:** The existing land uses currently and will in future continue to make use of existing resources within the urban edge. It also does not threaten or impact negatively on any scenic and unique cultural landscapes.
- **Space Economy:** The project and its land uses are already integrated in the space-economy of Kayamandi.
- **Settlement:** The project and its land uses are located within the established urban area of Kayamandi and promotes densification, consolidation, integration and a sense of place. All properties are already occupied for many years and well-integrated with the urban fabric of Kayamandi.

7.4 CONSISTENCY WITH RELEVANT LOCAL PLANNING FRAMEWORKS AND POLICIES

7.4.1 Municipal IDP

Projects 4A, 5A and 5B are located in Ward 12 whilst Projects 4B and 8 (Mpelazwe) is located in Ward 13 of the Stellenbosch Municipality.

The latest IDP summarises the ward priorities in Tables 58 (Ward 12) and 59 (Ward 13) respectively. Ward 12's top five priorities for the 2021/22 financial year are the following:

- Priority 1: Recreation (Swimming Pool)
- Priority 2: Safety & Security
- Priority 3: Elderly & disabled
- Priority 4: Wi-Fi facilities
- Priority 5: ECD Centers

Ward 13's top five priorities for the 2021/22 financial year are the following:

- Priority 1: Housing – Hostels, Shacks and Backyard dwellers
- Priority 2: Old age & youth recreational center
- Priority 3: Community Hall
- Priority 4: Initiation site
- Priority 5: Remembrance Hall in Kayamandi library

Legacy projects are discussed in Table 70 of the IDP with specific reference to human settlements project on pages 193-196. An overview of the Integrated Human Settlements Plan is provided in paragraph 7.4.3 on pages 208-211.

Although this project is not specifically mentioned in the IDP, it is a priority for the Stellenbosch Human Settlement's Department who appointed the professional team through tender number B/SM 42/21 to finalise the land use rights for these properties so that the properties can be transferred to the intended beneficiaries.

7.4.2 Municipal SDF

Section 22 of SPLUMA indicates the following:

> *"22. (1) A Municipal Planning Tribunal or any other authority required or mandated to make a land development decision in terms of this Act or any other law relating to land development, may not make a decision which is inconsistent with a municipal spatial development framework.*
> *22. (2) Subject to section 42, a Municipal Planning Tribunal or any other authority required or mandated to make a land development decision, may depart from the provisions of a municipal spatial development framework only if site-specific circumstances justify a departure from the provisions of such municipal spatial development framework."*

Similar to SPLUMA, Section 19 of the Western Cape Land Use Planning Act (LUPA), Act 3 of 2014 states the following:

> *"19. (1) If a spatial development framework or structure plan specifically provides for the utilisation or development of land as proposed in a land use application or land development application, the proposed utilisation or development is regarded as complying with that spatial development framework or structure plan.*

(2) If a spatial development framework or structure plan does not specifically provide for the utilisation or development of land as proposed in a land use application or a land development application, but the proposed utilisation or development is not in conflict with the purpose of the relevant designation in the spatial development framework or structure plan, the utilisation or development is regarded as being consistent with that spatial development framework or structure plan.

(3) If the proposed utilisation or development of land in a land use application or a land development application does not comply with and is not consistent with the relevant designation for the utilisation of land in an applicable spatial development framework or structure plan, the proposed utilisation or development deviates from that spatial development framework or structure plan."

The current approved MSDF of Stellenbosch Municipality is dated 11 November 2019.

The subject properties (Projects 4A, 4B, 5A, 5B and 8) are located in an established urban area within the urban edge and fall within the "Urban Development" spatial planning category (SPC)(MSDF Figure 26, p66).

In terms of the Stellenbosch Framework, Projects 4B, 5B and 8 are also located within the area designated as "Strategic Sites, Projects and/or Infill Opportunities" (MSDF Figure 28, p70).

In conclusion, it can be argued that the currently approved SDF specifically provides for the utilisation of the sites as proposed in this land use application and therefore the existing (and proposed) utilisation of the sites is regarded as compliant with the approved municipal SDF, as described in Section 19(1) of LUPA (Act 3 of 2014).

It is therefore NOT necessary to motivate for deviation from the provisions of the existing approved SDF (2019).

7.5 SUITABILITY OF THE SITE

The suitability of the project site in terms of its location, accessibility and physical characteristics is discussed in the table below.

TABLE 16: MOTIVATION IN TERMS OF SITE SUITABILITY

	SUITABILITY IN TERMS OF	MOTIVATION / COMMENTS
1	Location	The site / properties are well located within the urban edge and within the neighbourhood of Kayamandi, Stellenbosch.
2	Roads & Transport	The area is well served with local roads, public transport routes and public transport services. No additional traffic will be generated because the properties are already developed, and no additional / new development is proposed.
3	Parking	All the properties have already been developed and have people living there for a number of years. A combination of onsite and off-site (on-street) parking is currently used in the area. No additional / new development will take place and therefore no additional parking would be required. The purpose of this land use application is to legalise the status quo, register the properties with the SG's Office and therewith enable the municipality to transfer ownership of the properties to the intended beneficiaries. Existing space for parking is thus sufficient.
4	Engineering Services	The properties are located in an area that is already serviced. No additional / new development will take place in terms of this land use application and therefore there will not be an increase in demand for services. An engineering services report is also attached to this motivation.

	SUITABILITY IN TERMS OF	MOTIVATION / COMMENTS
		A CLO has been appointed, on request of the Stellenbosch Municipality, to conduct a survey to determine whether each property has access to a water and electricity meter and to record the location and details of these meters. This survey was completed in 2021 and a separate report was submitted to the Stellenbosch Municipality's Human Settlements Department with detail of the outcome of the aforementioned survey.
5	Servitudes	To the best of our knowledge and interpretation of the existing available information, there are no known servitudes that affects the properties in this land use application.
6	Topography	All the properties are already developed and hence the topographical characteristics of the area does not have a negative impact on the existing land uses.
7	Geotechnical Conditions	All the properties are already developed and hence the geotechnical characteristics of the area does not have a negative impact on the existing land uses.
8	Flood Lines	There are no known floodlines that affects the subject properties.
9	Alternative Uses	All the properties are already developed and therefore discussing alternative uses for these properties is irrelevant to the purpose / objectives of this land use application.

7.6 OTHER IMPLICATIONS OF THE PROPOSED LAND USE(S)

Comments on other possible implications of the proposed land uses are provided in the table below.

TABLE 17: OTHER IMPLICATIONS OF THE PROPOSED LAND USE(S)

IMPACT	MOTIVATION / COMMENT
Environmental Impact	The subject properties are located inside the urban edge in an already developed area. All the sites are already developed, and the intention of this land use application is to formalise what is currently on the ground. There will thus be no negative impact on any environmental resources. The Western Cape Department of Environmental Affairs and Development Planning (DEADP) confirmed in a letter dated 25 August 2021 that no listed activities in terms of the NEMA EIA Regulations 2014 (as amended) are triggered and therefore no environmental authorisation is required for these projects. The letter from WC DEADP is attached hereto as **ANNEXURE 10**.
Heritage Impact	The subject properties are located inside the urban edge in an already developed area. All the sites are already developed, and the intention of this land use application is to formalise what is currently on the ground. The sites are not located within the historical centre of Stellenbosch and the buildings are not older than 60-years. An NID was submitted to Heritage Western Cape (HWC) on 8 August 2021. HWC confirmed in a letter dated 3 September 2021 that *"since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required"*. The letter from HWC is attached hereto as **ANNEXURE 11**.
Compatibility with the Surrounding Area	The properties have been well integrated into the space-economy and urban fabric of Kayamandi for a number of years and is fully compatible with the surrounding area.
Socio-Economic Impact	The primary objective is to obtain the necessary land use rights so that the properties can be registered with the SG's Office and then transferred to the intended beneficiaries. This in itself has a positive socio-economic impact on this community.
Social & Public Facilities	There will be no negative impact on the existing number of social and public facilities in the area. The application also does not trigger the need for additional public / social facilities because there will be no densification or additional / new greenfield development.
Surrounding Property Values	There will be no negative impact on surrounding property values.

IMPACT	MOTIVATION / COMMENT
Safety & well-being of the Surrounding Community	There will be no negative impact on safety of the surrounding community. The finalisation of the land use rights, registration and transfer of the properties will have a positive impact on the well-being of the beneficiary community.

8. CONCLUSION

In conclusion, the primary objective of this land use application is to finalise and conclude a process that should have been finalised many years ago. The approval of the land use applications in paragraph 2.3 of this report should therefore be a formality for the following reasons:

- The land use rights for the properties in this project should already have been finalised approximately 20-years ago, however, due to various reasons, beyond the control of Stellenbosch Municipality, these land use rights were not finalised, and ownership of the properties could not yet be transferred.
- The primary objective of this land use application is to legalize the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.
- The properties in this project are located in an established urban area within the urban edge of Kaya Mandi.
- The properties in this project have already been developed and dwelling units are already occupied.
- The properties in this project have access to existing infrastructure and engineering services within Kaya Mandi.
- No additional dwelling units will currently be constructed on the subject properties.
- The existing land uses are compliant with the Stellenbosch SDF and consistent with other relevant local and provincial policies.
- There are no negative environmental and heritage impacts as confirmed by the Western Cape Department of Environmental Affairs and Development Planning and Heritage Western Cape.
- A letter dated 25 August 2021 from the Western Cape Department of Environmental Affairs and Development Planning (reference: 16/3/3/6/1/B4/22/1270/21) confirmed that no listed activities in terms of the NEMA EIA Regulations 2014 are triggered by the proposed land use applications.
- Heritage Western Cape (HWC) confirmed in a letter dated 3 September 2021 that *"since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required"*.

The finalisation of the land use rights, the registration of the properties with the SG's Office and the transfer of ownership to the beneficiaries has become a matter of extreme urgency. Many of the original intended beneficiaries do not live there anymore and the community is becoming increasingly impatient with the delays in this process.

It is therefore recommended that the land use applications (listed in paragraph 2.3 of this report) be approved in order to comply with / adhere to the principles of good administration listed in Section 7(e) of the SPLUMA (Act 16 of 2013) and Section 59(4) of the Western Cape LUPA (Act 3 of 2014).

ANNEXURE E

APPLICATION FOR SUDIVISION, CLOSURE OF A PUBLIC PLACE, REZONING, AMENDMENT OF GENERAL PLAN & DEPARTURES: REMAINDER ERF 288, KAYAMANDI (ALSO KNOWN AS PROJECT 8: MPELAZWE)

EXEMPTION FROM THE DEPARTMENT OF MINISTRY OF LOCAL GOVERNMENT, ENVIRONMENTAL AFFAIRS AND DEVELOPMENT PLANNING FROM CERTAIN PROVISIONS FOR PUBLIC PARTICIPATION

Western Cape Government

Mayor.PA@stellenbosch.gov.za

Dear Mayor van Deventer

STELLENBOSCH MUNICIPALITY: REQUEST FOR AUTHORISATION FOR EXEMPTION FROM CERTAIN PROVISIONS (PUBLIC PARTICIPATION REQUIREMENTS) IN TERMS OF SECTION 60 (1) OF THE LAND USE PLANNING ACT, 2014 (ACT NO 3 OF 2014): FIVE HOUSING PROJECTS IN KAYAMANDI, STELLENBOSCH

1. Your request for the exemption from certain public participation provisions/requirements in terms of Section 60(1)(b) of the Western Cape Land Use Planning Act, 2014 (Act 3 of 2014) (LUPA), dated 27 September 2021, refers.

2. As the Authorised Decision maker, I hereby confirm that I have had access to and considered all the relevant information and I have accordingly resolved as follows:

   That the request by Stellenbosch Municipality for authorisation for exemption in terms of Section 60(1) of the LUPA from the provisions of sections 43, 44 and 47 of LUPA in respect of the intended land use applications for Projects 4A, 4B, 5A, 5B and 8 as contained in your above-mentioned letter, to obtain the necessary land use rights for five housing projects in Kayamandi, Stellenbosch, **BE APPROVED** in terms of Section 60(1) of the LUPA.

3. The reasons for my decision are as follows:

   i) The request satisfies the requirements of the enabling legislative prescript in terms of Section 60(1)(b) of LUPA;
   ii) The request is in the interest of meeting the needs of the poor and vulnerable; and
   iii) The request is reasonable as there has been no change in the applicable spatial planning, policy or development context of the area since the original approval.

Please note that this decision will become effective by notice in the *Provincial Gazette* in accordance with Section 60(1) of LUPA. A copy of the notice will be made available upon publication.

Sincerely

A BREDELL
MINISTER

Dear Sir

APPLICATION FOR PROVINCIAL EXEMPTION IN TERMS OF SECTION 60 OF THE WESTERN CAPE LAND USE PLANNING ACT (LUPA), ACT 3 OF 2014: OBTAINING THE NECESSARY LAND USE RIGHTS AND REGISTRATION OF DIAGRAMS IN THE SURVEYOR-GENERAL'S OFFICE FOR FIVE (5) HOUSING PROJECTS IN KAYAMANDI, STELLENBOSCH

Stellenbosch Municipality appointed a Service Provider to assist in obtaining the necessary land use rights and registration of diagrams in the Surveyor General's Office for five (5) **completed** housing projects in Kayamandi, Stellenbosch.

The purpose of this letter is to apply for exemption from the Publication and Serving of Notices (Sections 43 and 44 of LUPA, Act 3 of 2014) for all five (5) completed projects, in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014).

More information regarding the five (5) projects in Kayamandi is provided below and in the following **Annexures** to this letter:

1. Annexure 1: Location of the five (5) projects.
2. Annexure 2: Current Cadastral Information for each of the five (5) projects
3. Annexure 3: Proposed consolidations and subdivisions applicable to each of the five (5) projects.

The reasons for requesting the aforementioned exemption, follows towards the end of this letter.

BACKGROUND

The Kayamandi Township was originally proclaimed in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) and established as a development area with the creation of Erf 288, Kaya Mandi (34.4957ha in extent). The aforementioned erf was then subdivided in accordance with General Plan L149/1987 after which the township register was opened in terms of the Upgrading of Land Tenure Rights Act, 1991 (Act 112 of 1991).

Kayamandi was then extended in terms of Proclamation Notice G.K. 598/1991 with the acquisition of Portion 56 of Farm 183 (Erf 707), Portion 3 of Farm 181 (Erf 1070) and Portion 59 of Farm 183 (Erf 634). The new development area (18.5ha in extent) was then surveyed and established in terms of the Black Communities Development Act, 1984 (Act 4 of 1984) with the registration of General Plans 7988/1991, 3443/1991 and 7989/1991.

The former Stellenbosch Transitional Council commissioned the preparation of a Spatial Development Framework for Kayamandi in 1995 to guide and direct the severe development pressure that existed in the Kayamandi Township at the time. During this process a number of high priority housing projects were identified. This culminated in the approval of the Kayamandi SDF in September 1996 and the Housing Projects Plan in January 1997. The eight high priority housing projects that were identified included the following:

- Project 1: Costa Land Development (greenfield development)
- Project 2: Snake Valley (greenfield development)
- Project 3: Watergang (greenfield development)
- Project 4A: Rental Apartments (town centre upgrade)
- Project 4B: Red Brick Hostels (town centre upgrade)
- Project 5A: High Density Units (town centre upgrade)
- Project 5B: High Density Units (town centre upgrade)
- Project 8: Mpelazwe (town centre upgrade)

Although the abovementioned projects (excluding Project 3: Watergang) were implemented during this period, the majority of erven have never been formally registered in order to enable the individual transfer of these properties to their respectively beneficiaries. The main reason for the aforesaid challenge was that Stellenbosch Municipality did not have the necessary authority to consider and approve the formal amendments of the General Plans due to the statutory provisions that applied in terms of the Black Communities Development Act, 1984 (Act 4 of 1984).

Stellenbosch Municipality subsequently appointed **Plan 4 SA (Pty) Ltd** and a team of sub-consultants to assist the municipality in obtaining the necessary land use rights for five projects in Kayamandi, known as Projects 4A, 4B, 5A, 5B and 8 (Mpelazwe). This is

necessary to enable the Municipality to finalise the formal registration of these properties with the Surveyor-General and the Deeds Office so that the title deeds of the properties can be transferred to their respective new owners.

The relationship of the aforementioned five projects to the original Erf 288 and Erf 1070 (Portion 3 of Farm 181) is shown in the following two diagrams:

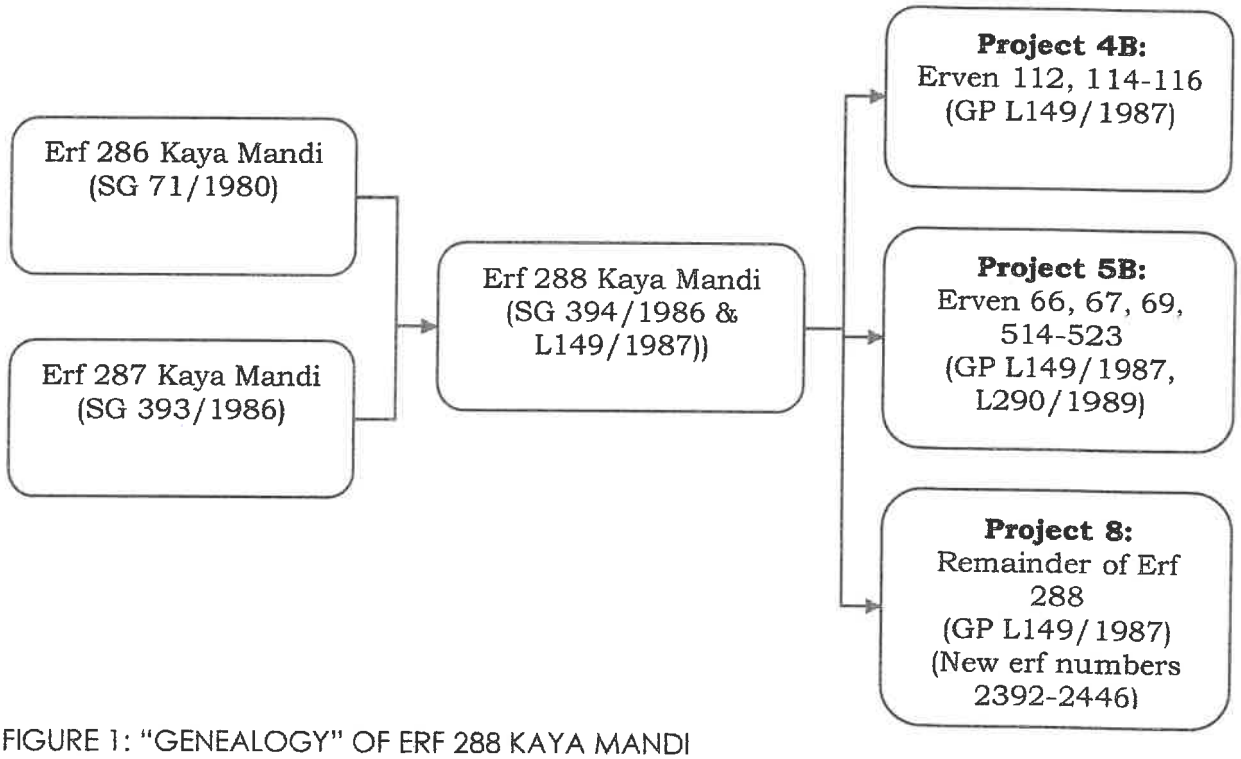

FIGURE 1: "GENEALOGY" OF ERF 288 KAYA MANDI

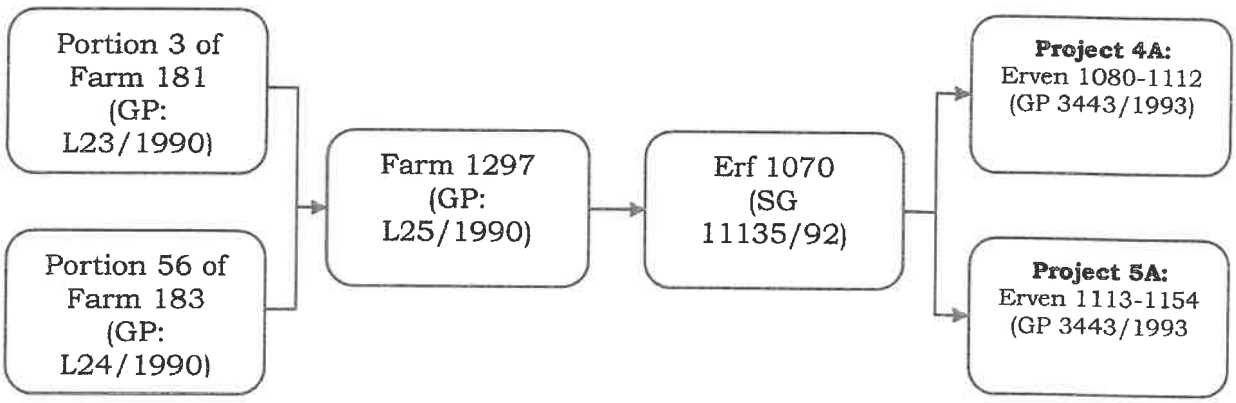

FIGURE 2: "GENEALOGY" OF ERF 1070 KAYA MANDI

EXISTING LAND USES

Examples of the existing land uses for each project are shown in the table below.

PROJECT	EXISTING LAND USES	PHOTOS
4A	148 x Flats currently located on Erven 1091-1112 and 1080-1090 Kaya Mandi.	View along 13th Street
4B	51 x Formal Dwelling Units currently located on Erven 112, 114, 115 and 116 Kaya Mandi.	View along Mdala Street
5A	175 x Formal Dwelling Units currently located on Erven 1113-1122 and 1123-1154 Kaya Mandi	View along School Crescent

PROJECT	EXISTING LAND USES	PHOTOS
5B	48 x Formal Dwelling Units currently located on Erven 66, 69, 514-522 and a portion of Erf 523 Kaya Mandi	View along Mjandana Street
8	54 x Formal Dwelling Units currently located on the Remainder of Erf 288 Kaya Mandi.	View along Luyolo Road

PURPOSE OF EACH LAND USE APPLICATION

Project 4A:

This project was approved by Council in 1996 and comprised the development of 146 family units by Stocks Housing Cape (Pty) Ltd. The 148 units were developed and completed in 1998 as rental stock units on Erven 1080-1112. The purpose of this application is thus the following:

- To consolidate Erven 1091-1112 and 1080-1090 Kayamandi to enable the registration of a Sectional Title Scheme.
- To obtain approval (condonation) of 9 minor encroachments of existing staircases into the street.

Project 4B:

This project, also known as Red Bricks Hostels, formed part of the Kayamandi hostel upgrading programme and was constructed in 2004. The purpose of this application is thus the following:

- To consolidate Erven 112, 114, 115 and 116 Kayamandi
- To subdivide the consolidated erf into 56 erven consisting of 51 residential erven and 5 public places.

Project 5A:

This project entailed the development of 175 high density units and public open spaces on Erven 1113-1154 Kaya Mandi. Although the General Plan was submitted for approval to the Western Cape Government, the registration could not be done since Erf 1120 was not closed as a public place. The purpose of this application is thus the following:

- To close the public place on Erf 1120 Kaya Mandi.
- To consolidate Erven 1113-1122 and 1123-1154 Kaya Mandi
- To subdivide consolidated Erf 1980 Kaya Mandi into 130 erven consisting of 124 residential erven and 6 public places.
- To subdivide consolidated Erf 1981 Kaya Mandi into 54 erven consisting of 51 residential erven and 3 public places.

Project 5B:

This project formed part of the Kayamandi Town Centre upgrade. The development originally made provision for 137 high density units, a new road and several open spaces. Construction of the project was partially completed (48 residential units constructed) in 2004 due to an influx of people who occupied (in informal structures) the remainder of the project area. There will be two land use applications that will be submitted consecutively for this project:

- An application by Plan 4 SA (Pty) Ltd which deals with the area that contains the existing constructed units.
- An application by TV3 which deals with the area that contains the informal settlement.

The purpose of the first application (to be submitted by Plan 4 SA) is thus the following:

- To subdivide Erven 69, 514, 515, 523 and 1969 Kaya Mandi.
- To consolidate the aforementioned subdivided erven with Erven 516-522 Kaya Mandi.
- To subdivide the consolidated erf into 52 erven consisting of 48 residential erven and 4 public open places.

Project 8:

This project, known as Mpelazwe, formed part of the hostel upgrading programme and consists of 54 residential units and 1 public open space. However, it still forms part of the Remainder of Erf 288, Kayamandi. New erf numbers have been allocated but the formal subdivision and closure of a public place have not been completed to date. The purpose of this application is thus the following:

- To close the public road for a portion of Erf 288 Kaya Mandi.
- To subdivide the closed road portion from the Remainder of Erf 288.
- To subdivide the new erf into 55 erven consisting of 54 residential erven and 1 public open place.

OWNERSHIP

All the current properties, except for Erf 66 Kayamandi, is owned by the Stellenbosch Municipality. Erf 66 Kayamandi is currently privately owned however, Stellenbosch Municipality is in the process of negotiating the transfer of this property to the Municipality.

MOTIVATION FOR EXEMPTION FROM SECTIONS 43 AND 44 OF LUPA

As stated earlier, the purpose of this letter is to apply for exemption from the Publication and Serving of Notices (Sections 43 and 44 of LUPA, Act 3 of 2014) for all five (5) completed projects, in terms of Section 60 of the Western Cape Land Use Planning Act (Act 3 of 2014).

We would like to highlight the following, as motivation for our request:

1. All five (5) projects are located in an established urban area within the urban edge of Kayamandi.
2. All five (5) projects have already been developed and dwelling units are already occupied.
3. All five (5) projects have access to existing engineering services within Kaya Mandi.
4. No additional dwelling units will currently be constructed on the subject properties.
5. The primary objective of the five (5) land use applications is to legalize the existing land uses on the various properties so that the properties can be registered with the Surveyor-General and thereby enabling the municipality to transfer ownership of the registered properties to the intended beneficiaries.
6. The land use rights for these projects should already have been finalised approximately 20-years ago, however, due to various reasons, beyond the control

of Stellenbosch Municipality, these land use rights were not finalised, and ownership of the properties could not yet be transferred.

7. A letter dated 25 August 2021 from your department (reference: 16/3/3/6/1/B4/22/1270/21) confirmed that no listed activities in terms of the NEMA EIA Regulations 2014 are triggered by the proposed land use applications.
8. We have submitted an NID to Heritage Western Cape (HWC) on 11 August 2021 and is awaiting the response from HWC. However, to the best of our knowledge and interpretation, the land use applications have no impact on heritage resources and therefore no further heritage studies would be required in terms of the relevant Heritage legislation.

The finalisation of the land use rights the registration of the properties with the SG's Office and the transfer of ownership to the beneficiaries has become a matter of extreme urgency. Many of the original intended beneficiaries do not live there anymore and the community is becoming increasingly impatient with the delays in this process.

We believe that it would be in the best interest of the beneficiary community to shorten the land use authorisation processes for these five (5) projects, due to the historical delays and reasons given above. The opportunity now exists to shorten the land use process for these five (5) projects by dealing with it as a "technical approval" and not putting it through the normal advertisement (publication and serving of notices) processes. In this way, the approval timeframe can be shortened by at least 90-days.

After an approximately 20-year delay, it is also in the best interest of the Stellenbosch Municipality as well as the Western Cape Provincial Government to "pull out all the stops" to finalise this matter.

IN CONCLUSION

We sincerely hope that you will understand the importance and urgency of this matter and we thank you in advance for your favourable consideration of our request.

Yours sincerely

ADV G VAN DEVENTER
EXECUTIVE MAYOR

RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: FINAL
In terms of Section 38(1) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO SUBDIVDE AND REZONE ON VARIOUS ERVEN IN KYAMANDI STELLENBOSCH, SUBMITTED IN TERMS OF SECTION 38(4) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

CASE NUMBER: 20210709AM0811E

The matter above has reference.

Heritage Western Cape is in receipt of additional information for the above matter received. This matter was discussed at the Heritage Officers Meeting held on 26 August 2021.

You are hereby notified that, since there is no reason to believe that the proposed subdivision and rezoning on various erven in Kyamandi Stellenbosch, will impact on heritage resource, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

However, should any heritage resources, including evidence of graves and human burials, archaeological material and paleontological material be discovered during the execution of the activities above, all works must be stopped immediately, and Heritage Western Cape must be notified without delay.

This letter does not exonerate the applicant from obtaining any necessary approval from any other applicable statutory authority.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.

Yours faithfully

.....
Michael Janse Van Rensburg

Dear Sir

RE: APPLICABILITY OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ("NEMA") ENVIRONMENTAL IMPACT ASSESSMENT ("EIA") REGULATIONS, 2014 (AS AMENDED), WITH RESPECT TO THE PROPOSED REZONING, CONSOLIDATION AND SUBDIVISION OF VARIOUS ERVEN AS WELL AS THE COMPILATION AND SUBMISSION, KHAYAMANDI

1. The electronic correspondence dated 5 August 2021, as received by this Department on the same day, refers.

2. Following the review of the above-mentioned correspondence, this Department draws your attention to the following:

   2.1 The project involves obtaining the land use rights for 5 projects in Kayamandi, Stellenbosch. These projects have already been constructed but the majority of the erven however have not been formally registered and individual transfers to the respective end users/beneficiaries cannot take place.

   2.2 The projects will therefore involve the rezoning, consolidation and subdivision of various erven as well as the compilation and submission of an application to the Surveyor-General for the registration of the Sectional Title Scheme.

   The 5 projects are:
   Project 4 A
   - The rezoning of Erven 1080 to 1112.
   - The consolidation of Erven 1080 to 1112.
   - The subdivision of the consolidated property to enable the registration of a sectional title housing scheme (rental stock).
   - The compilation and submission of an application to the Surveyor-General for the registration of the Sectional Title Scheme.

   Project 4B
   - The rezoning of Erven 112, 114, 115 and 116.

- The consolidation of Erven 112, 114, 115 and 116.
- The subdivision of the consolidated property into 51 erven and 5 private open spaces.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

Project 5A

- The rezoning of Erven 1123 to 1154.
- The consolidation of Erven 1123 to 1154.
- The closure of Erf 1123.
- The subdivision of the consolidated property into 175 erven and remainder public parking and streets.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

Project 5B

- The rezoning of Erven 513-522, Remainder Erf 66, Erf 67 and a Portion of Erf 523.
- The consolidation of Erven 513-522, Remainder Erf 66, Erf 67 and a Portion of Erf 523.
- The subdivision of the consolidated property to establish 135 erven and remainder Public Road and Parking Zone.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

Project 8: Mpelazwe

- The rezoning of a Portion of Remainder Erf 288 Kayamandi.
- The closure of a Portion of Remainder Public Road.
- The subdivision of the consolidated property into 65 erven and remainder public parking and streets.
- The compilation and submission of an application to the Surveyor-General for the approval of the General Plan.

3. Your attention is therefore drawn to the listed activities in terms of the NEMA EIA Regulations 2014 (as amended) as defined in Listing Notices ("LN") 1, 2 and 3 of 7 April 2017. Be advised that, based on the information provided, the proposed rezoning, consolidation and subdivision on the above-mentioned properties, **does not** constitute any listed activities as defined in terms of the NEMA EIA Regulations 2014 (as amended). Environmental Authorisation is therefore not required prior to the proposed development.

4. The above-mentioned is based on the following:

   4.1 The site is located with the urban area and is completely transformed.
   4.2 There are no watercourses on the site.

5. However, should any future development of the consolidated portions trigger any listed activity in terms of the EIA Regulations, 2014 (as amended), an application form for Environmental Authorisation must be submitted to the Competent Authority and the Environmental Authorisation obtained prior to the development proposal being commenced with on the proposed site. The relevant application forms are available on this Department's website: www.westerncape.gov.za/eadp.

6. You are further reminded of your general duty of care towards the environment in terms of section 28(1) of NEMA which states:
"Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorised by law or cannot reasonably be avoided or stopped, to minimise and rectify such pollution or degradation of the environment."

7. Please note that the applicant must comply with any other statutory requirements that may be applicable to the undertaking of the activity.

8. Kindly quote the abovementioned reference number in any future correspondence concerning the proposed development.

9. This Department reserves the right to revise or withdraw its comments and request further information based on any information received.

Yours faithfully

Re ▫ Insake:	**Erf 288, Kayamandi: The application is made in terms of the Stellenbosch Municipal Land Use Planning By-Law, promulgated by notice number 354/2015, dated 20 October 2015, for the following: 1.Subdivision in terms of section 15(2)(d) of the said bylaw to subdivide Remainder Erf 288, Kayamandi in two portions, namely Portion A (± 7 158m² in extent) and the Remainder of Erf 288, Kayamandi (±33,5828ha in extent).2. Closure of a public place in terms of section 15(2)(n) of the said bylaw of subdivided Portion A (±7 158m² in extent) of Remainder Erf 288, Kayamandi.3. Rezoning in terms of section 15(2)(a) of the said bylaw of Portion A (±7 158m² in extent) from Public Road and Public Parking to Subdivisional Area to accommodate "Less Formal Residential Zone" erven and "Public Road and a Public Parking" erf. 4. Subdivision in terms of section 15(2)(d) of the said bylaw of closed Portion A (±7 158m²) into the following: a) 54 x Less Formal Residential Zone erven; b) 1 x Public Road and Parking area.5. Amendment of General Plan GP L149/1987 in terms of section 15(2)(k) of the said bylaw.**

6. Departure in terms of section 15(2)(b) of the said bylaw to increase the permissible coverage as follows: a) on unregistered Erf 2415 from 80% to 80,1%; b) on unregistered Erf 2432 and Erf 2443 from 80% to 81%; c) on unregistered Erf 2414 from 80% to 83%; d) on unregistered Erf 2420 from 80% to 85%;e) on unregistered Erf 2440 from 80% to 87%; f) on unregistered Erf 2426 from 80% to 88%; g) on unregistered Erf 2418 from 80% to 89%; h) on unregistered Erf 2408 from 80% to 92%; i) on unregistered Erf 2428 from 80% to 95%; j) on unregistered Erven 2403, 2407, 2410, 2422, 2424, 2429 & 2435 from 80% to 100%. 7. Departure in terms of section 15(2)(b) of the said bylaw by reducing the minimum required on-site parking bays from one (1) parking bay per dwelling house to 0 bays per dwelling house on all residential erven. 8. Departure in terms of section 15(2)(b) of the said bylaw for the relaxation of the building lines (for all other buildings) as follows: a) the street building line from 1,0m to 0m on one of the streets for the following unregistered erven: 2394, 2395, 2400, 2402, 2407, 2408, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446; b) the street building line from 1,0m to 0m on two of the streets for the following unregistered erven: 2396, 2406, 2413, 2414, 2420, 2433, 2434;c) the common building lines from 1,0m to 0m on the following unregistered erven: 2393-2395, 2398, 2399, 2403, 2406, 2409, 2410, 2412, 2415, 2417, 2419, 2422, 2424, 2426, 2429, 2430, 2431, 2436, 2437, 2443-2445. 9. Departure in terms of section 15(2)(b) of the said bylaw for the relaxation of the building line (for shelters) as follows: a) the street building lines from 1,0 to 0m on one street building line for the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445; b) the street building line from 1,0m to 0m on two streets for the following erven: 2396, 2408, 2415, 2428, 2432, 2435; c) the street building line from 1,0 to 0m on three streets for unregistered Erf 2429;

d) the common building line from 1,0m to 0m for the following unregistered erven: 2392, 2396, 2403, 2404, 2418-2420, 2423, 2428, 2435, 2436, 2438-2440, 2442, 2445; e) the common building lines from 1,0m to 0m on two common building lines for the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429, 2430, 2443-2444; f) the common building lines from 1,0m to 0m on three common building lines for the following unregistered erven: 2395, 2410, 2412.

The application is recommended for approval, subject to the following:

1. Water Connections

1.1 Each erf must have its own water connection and water meter installed.

2. Sewer Connections

2.1 Each erf must have its own sewer connection.

3. Electrical Engineering

3.1 Refer to **Annexure: Electrical**

6. Departure in terms of section 15(2)(b) of the said bylaw to increase the permissible coverage as follows: a) on unregistered Erf 2415 from 80% to 80,1%; b) on unregistered Erf 2432 and Erf 2443 from 80% to 81%; c) on unregistered Erf 2414 from 80% to 83%; d) on unregistered Erf 2420 from 80% to 85%;e) on unregistered Erf 2440 from 80% to 87%; f) on unregistered Erf 2426 from 80% to 88%; g) on unregistered Erf 2418 from 80% to 89%; h) on unregistered Erf 2408 from 80% to 92%; i) on unregistered Erf 2428 from 80% to 95%; j) on unregistered Erven 2403, 2407, 2410, 2422, 2424, 2429 & 2435 from 80% to 100%. 7. Departure in terms of section 15(2)(b) of the said bylaw by reducing the minimum required on-site parking bays from one (1) parking bay per dwelling house to 0 bays per dwelling house on all residential erven. 8. Departure in terms of section 15(2)(b) of the said bylaw for the relaxation of the building lines (for all other buildings) as follows: a) the street building line from 1,0m to 0m on one of the streets for the following unregistered erven: 2394, 2395, 2400, 2402, 2407, 2408, 2412, 2416, 2418, 2421, 2425, 2427, 2432, 2439-2441, 2446; b) the street building line from 1,0m to 0m on two of the streets for the following unregistered erven: 2396, 2406, 2413, 2414, 2420, 2433, 2434;c) the common building lines from 1,0m to 0m on the following unregistered erven: 2393-2395, 2398, 2399, 2403, 2406, 2409, 2410, 2412, 2415, 2417, 2419, 2422, 2424, 2426, 2429, 2430, 2431, 2436, 2437, 2443-2445. 9. Departure in terms of section 15(2)(b) of the said bylaw for the relaxation of the building line (for shelters) as follows: a) the street building lines from 1,0 to 0m on one street building line for the following unregistered erven: 2393, 2403, 2405, 2407, 2410, 2413, 2418-2424, 2426, 2430, 2438-2445; b) the street building line from 1,0m to 0m on two streets for the following erven: 2396, 2408, 2415, 2428, 2432, 2435; c) the street building line from 1,0 to 0m on three streets for unregistered Erf 2429;

d) the common building line from 1,0m to 0m for the following unregistered erven: 2392, 2396, 2403, 2404, 2418-2420, 2423, 2428, 2435, 2436, 2438-2440, 2442, 2445; e) the common building lines from 1,0m to 0m on two common building lines for the following unregistered erven: 2394, 2405, 2407-2409, 2411, 2413, 2422, 2424, 2426, 2429, 2430, 2443-2444; f) the common building lines from 1,0m to 0m on three common building lines for the following unregistered erven: 2395, 2410, 2412.

The application is not recommended for approval, the following information is required in order to fully assess the application:

1.1 A conceptual reticulation and erf connection layout for water and sewer must be provided to indicate how each erf is serviced. Drawing must indicate if there are any clashes of structures with the sewer/water and how it will be addressed. If sewer/water runs across a proposed erf, then a servitude must be indicated and registered, or it must be relocated if possible. The engineering layouts are therefore required in order to determine the way forward and if the application can be approved or not.

1 Introduction

Inani Infrastructure (Pty) Ltd was appointed by Stellenbosch Municipality as part of the professional team to provide civil engineering services for the planning phases to formalise the existing structures on five proposed project sites in Kayamandi.

2 Site descriptions

Stellenbosch Municipality intends to formalise these land parcels as there are already existing structures on these properties. Table 1 provides a summary of the project sites.

Table 1 Summary of Project Sites

Reference No.	Site Location and Description	Area (ha)	No. of Erven
Project 4A	Erven 1080-1090 along 13th Street & 1091-1112 along 13th Street and 10th Street	0.93	144
Project 4B	Erven 1112 on Manyano Street and 114-116 along Noumela Street	0.71	56
Project 5A	Erven 113-1122 and 1123-1154	1.28	184
Project 5B	Portions of erven 66, 69 and 523 and erven 515-522 along Mjandana Street	4.53	52
Project 8	Portion of erf 288 along Sokuqala Road	34.30	55

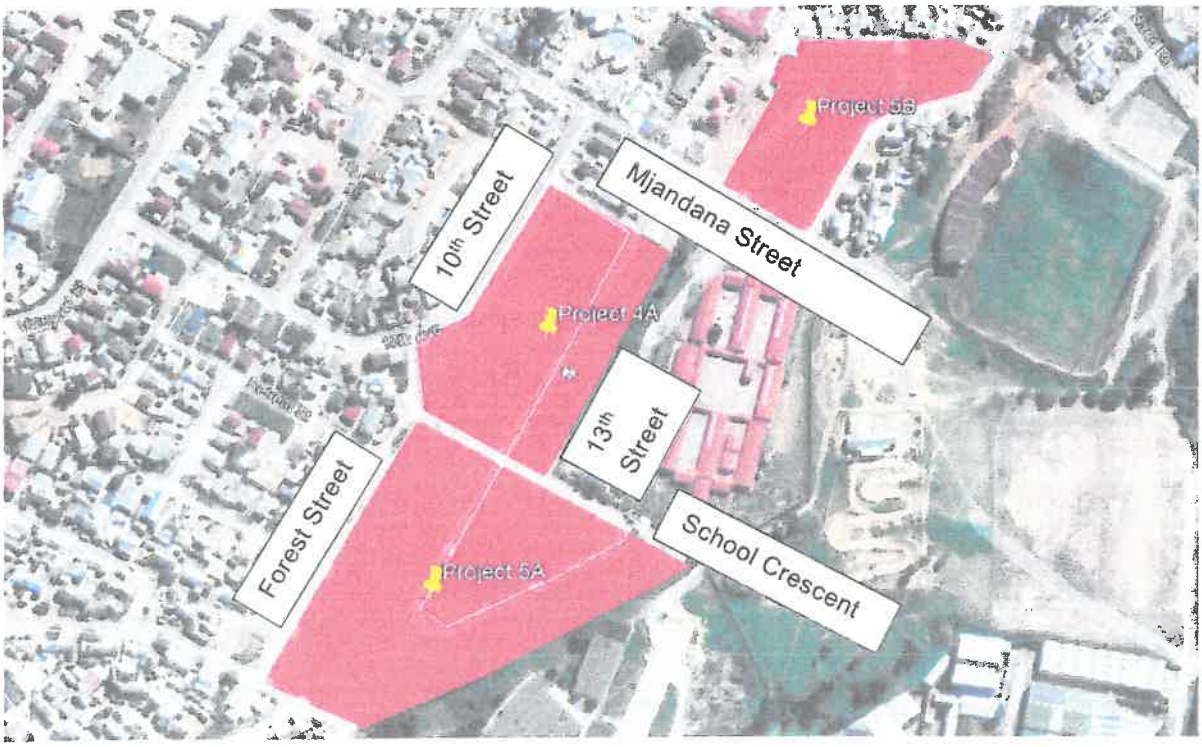

Figure 1 Site locations of Projects 4A, 5A and 5B

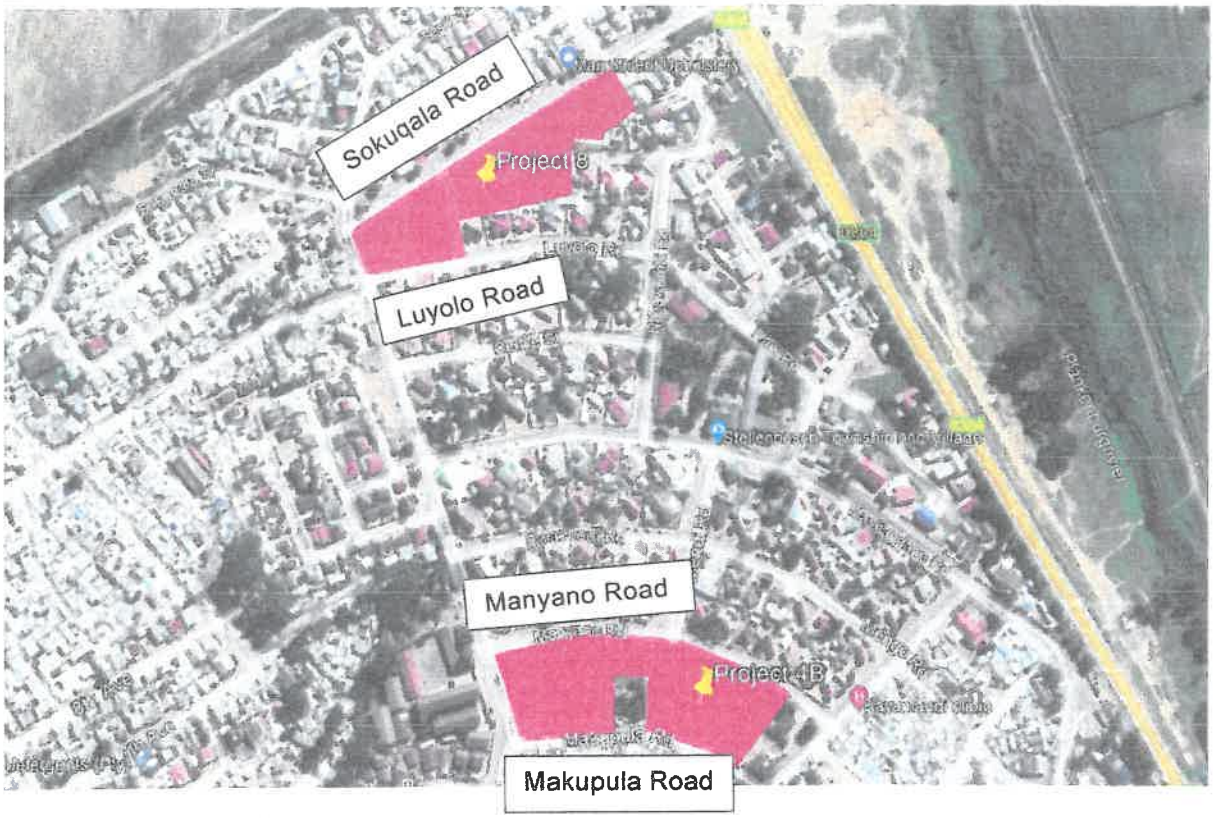

Figure 2 Site location of Project 8 and Project 4B

2.1 Project 4A

Project 4A is bounded by 10th Street and School Cresent with 13th Street separating the project site. The total site area is 0.93 ha. It is proposed to consolidate the erven 1080 to 1090 and 1091 to 1112 and to formalise the sectional title plans for the existing 144 apartments. (Freidland, Burger & Volkmann, 2021).

2.2 Project 4B

Project 4B is located between Manyano Road and Makupula Road and has a total site are of 0.71 ha. The site comprises of erven 112 to 116 and it is proposed to consolidate the erf into 56 erven which will include 51 residential plots and 5 public places (Freidland, Burger & Volkmann, 2021).

2.3 Project 5A

Project 5A is bounded by Forest Street and School Crescent and has a total site area of 1.28ha. It is proposed to close the public space on erf 1120, consolidate the erven 1113 to 1122 and 1123 to 1154. The municipality also proposes to consolidate erf 1980 into 130 erven (124 residential plots and 6 public places) and erf 1981 into 54 erven (51 residential plots with 3 public places) (Freidland, Burger & Volkmann, 2021).

2.4 Project 5B

Project 5B is situated along Mjandana Street with a site area of 4.53ha. It is proposed to subdivide erven 66, 69, 514, 515 and 523, and consolidate erven 516 to 522, which will be consolidated into 52 erven that will comprise of 48 residential plots and 4 public places (Freidland, Burger & Volkmann, 2021).

2.5 Project 8

Project 8 is located between Sokuqala Road and Luyolo Road with a total site are of 34.3ha. It is proposed to close erf 288 and close the road portion for erf 288 and subdivide this into 55 erven which will comprise of 54 residential plots and 1 public place (Freidland, Burger & Volkmann, 2021).

3 Documents and guidelines

The following documents and guidelines were referenced for calculations and design considerations:

- Stellenbosch Municipality's Design Guidelines and Minimum Standards for Civil Engineering Services, June 2015
- Red Book – Guidelines for Human Settlement Planning and Design, 2005 by CSIR for the Department of Human Settlements

4 Existing and proposed engineering services

The proposed project sites are located within an established suburb with infrastructure, which offers the possibility for service connections to assist with the formalisation of the sites. This section of the report discusses the existing services and the availability of services and connection points.

GLS Consulting provided the comments on the bulk water supply and sewer discharge for the proposed formalisation of existing structures project. GLS Consulting commented that the water demand for the existing structures was accounted for in the June 2019 master plans for water and sewer networks, however no provision was made for densification in these areas. Please note that comment is in some instances given as if the developments are still proposed.

4.1 Water distribution system

This section of the report discusses the water distribution network for Kayamandi and the proposed development areas by considering the distribution zones, the water demand and assesses the present situation.

4.1.1 Distribution zone

The Kayamandi reservoirs are divided into four distribution zones, namely PRV1, PRV2, PRV3 and PRV 4. Each project area falls within one of these water distribution zones and is also located within a water priority area.

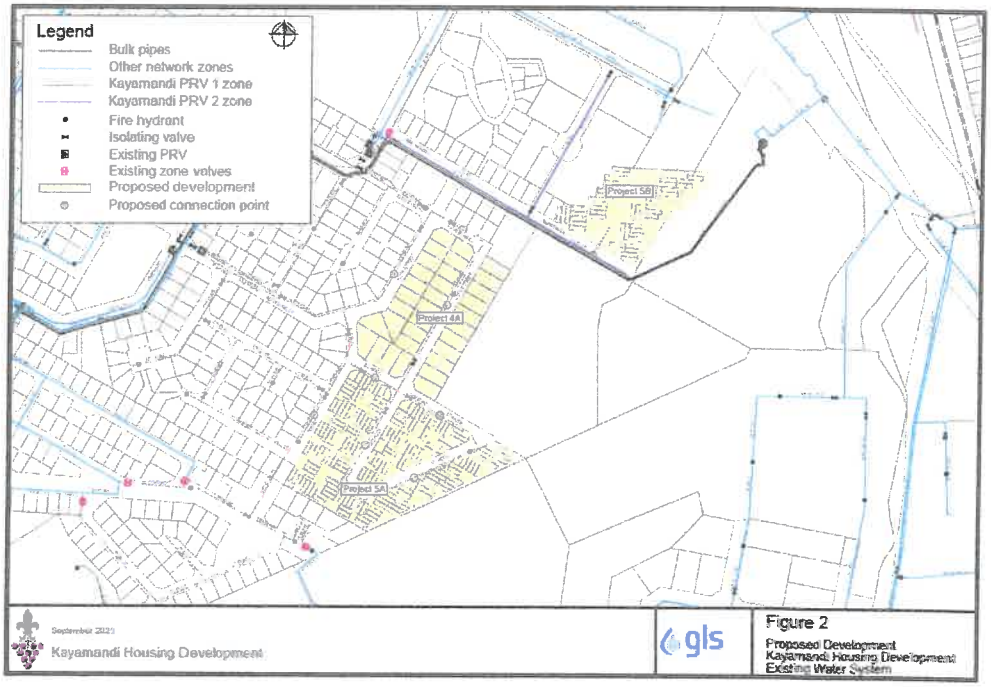

Figure 3 Demand Zones PRV1 and PRV2

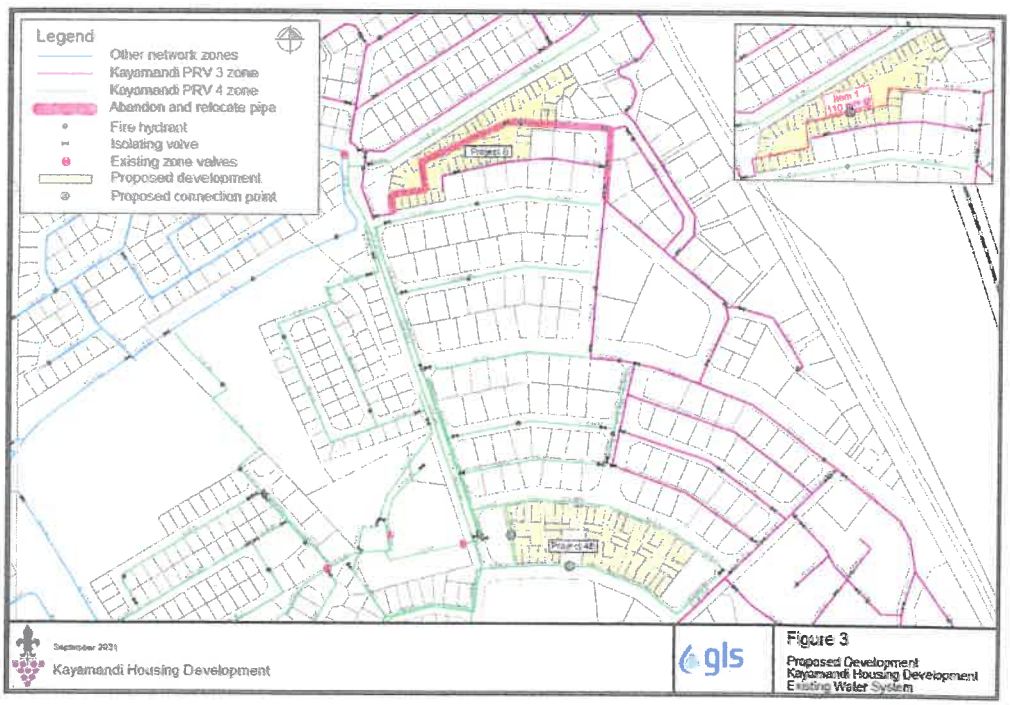

Figure 4 Demand Zones PRV3 and PRV4

a) Project 4A

This site is located within the Kayamandi Reservoir PRV 1 zone (see Figure 3 or Annexure D). There is an existing 100mm AC diameter pipeline in 10th Street, 13th Street and School Crescent for the supply to the area (GLS Consulting, 2021).

b) Project 4B

The site for Project 4B is situated within the Kayamandi reservoir PRV4 zone (see Figure 4 or Annexure D). There is an existing 75 / 100mm AC diameter pipeline in Lamla Street and Ndumela Street and an existing 75mm diameter pipe that runs parallel to Makupla Street (GLS Consulting, 2021).

c) Project 5A

Project 5A is situated within the Kayamandi reservoir PRV1 zone (see Figure 3 or Annexure D) and has an existing 100mm AC diameter pipeline in School Crescent and Forest Drive for supply (GLS Consulting, 2021).

d) Project 5B

Project 5B is located within the Kayamandoi PRV2 zone (see Figure 3 or Annexure D) with a connection point on the existing 75mm AC diameter pipeline along Mjandana Street (GLS Consulting, 2021).

e) Project 8

Project 8 is located within the Kayamandi reservoir PRV3 and PRV4 zones. There is a 50mm AC diameter pipe that serves the properties on Sokuqala Road (PRV3) and a 110mm uPVC diameter pipe in Luyolo Street (PRV4) (GLS Consulting, 2021).

4.1.2 Water demand

In the original water master plan (June 2019), a 68.6 kL/d water demand allowance was made for the existing structures on the proposed development areas. GLS Consulting revised the annual average daily demand (AADD) and fire flow estimations. Table 2 provides a summary of the calculations.

Table 2 Water Demand Estimations

Project Area	No. Residential Units	Demand Factor (kL/unit/day)	AADD (kL/d)
Project 4A	144	0.4	57.6
Project 4B	51	0.45	23.0
Project 5A	175	0.45	78.8
Project 5B	48	0.45	21.6
Project 8	54	0.45	24.3
Total AADD for the proposed development			**205.3**
Fire flow criteria (Low risk)			**15 L/s at 10m**

Due to the densification of the project areas 4A, 4B, 5A, 5B and 8, the potential increase in water demand was calculated to be 136.7 kL/d (GLS Consulting, 2021).

4.1.3 Present situation

This section considered the current conditions of the water system and will discuss the water reticulation network, the bulk water supply, reservoir capacity and the implementation of the Water Master Plan.

4.1.3.1 Reticulation network

Within the existing Kayamandi reservoir water distribution network, there is sufficient capacity to accommodate the proposed development. The Kaymandi water reservoir network supplies water via an existing 250mm diameter and 315mm diameter water main from a top water level (TWL) of 224.3 m above mean sea level (GLS Consulting, 2021).

Each project will be supplied with water from different zones within the Kayamandi reservoir, specifically zones 1, 2, 3 and 4 (refer to Figure 3 and Figure 4 or Annexure D). The existing reticulation network of the Kayamandi distribution zones have sufficient spare capacity to accommodate the proposed development areas (GLS Consulting, 2021).

It is recommended that the small 50mm diameter AC water reticulation pipe that runs through the proposed development area of Project 8 be re-routed and replaces to accommodate the proposed development within the existing Kayamandi reservoir PRV 3 zone. This 50mm diameter pipe is located within the proposed development's building footprints and is not sufficient to supply the area (GLS Consulting, 2021). The cost to re-route and replace the pipe with a 110mm diameter pipe is listed in Section 5 in the cost summary as Link Services Item 1.

4.1.3.2 Bulk supply

The bulk water supply originates from Idas Valley no. 2 reservoir, located at the Idas Valley water treatment works (WTW) and is gravity fed to the Papegaaiberg reservoir, where it is then pumped to the Kayamandi no. 1 (2 ML) and Kayamandi no.2 (4 ML) reservoirs.

The bulk system, which includes the Papeggaiberg reservoirs to the Kayamandi reservoirs, has sufficient capacity to accommodate the proposed development areas. However, the existing bulk supply from Idas Valley reservoir no. 2 to the Papegaaiberg reservoir is at capacity and it is recommended to upgrade this in accordance with the water master plan to support any additional development within Kayamandi (GLS Consulting, 2021).

4.1.3.3 Reservoir capacity

The Stellenbosch Water Master Plan uses 48 hours of the AADD (of the reservoir supply zone) as a criterion for determining the total reservoir volume. Based on the 2019 water master plan figures, the combined AADD of Kayamandi reservoir supply areas is currently around 3 050 kL/d. The existing Kayamandi reservoirs have a capacity of 6 000 kL, so there is a storage capacity of approximately 48 hours regardless of the amount of AADD supplied. Consequently, the existing Kayamandi reservoirs do not have sufficient storage capacity (marginal) to accommodate additional development. It is important to note, however, that the proposed development areas will consume approximately 5% of the existing storage capacity of the Kayamandi reservoirs (GLS Consulting, 2021).

It is thus recommended that additional storage capacity be provided to support any additional development within the Kayamandi area.

As part of Stellenbosch's long-term planning to be more resilient to future droughts, to maximize the use of existing water resources, and to safeguard the town's water supply during power outages, a new 10

ML Kayamandi Upper reservoir is proposed (GLS Consulting, 2021). Refer to "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report.

Within this newly proposed system, bulk water will be transferred from the Papegaaiberg reserve to the proposed Kayamandi Upper reservoir, which will enable Stellenbosch Municipality to supply water to new development projects to the north and to the west of the Kayamandi suburb. It is also proposed that surplus water from the Stellenbosch town system's resources could possibly be transferred to the Koelenhof system from the Kayamandi Upper reservoir (GLS Consulting, 2021).

Furthermore, the proposed Kayamandi Upper reservoir will provide additional reservoir storage capacity to the existing Kayamandi and Enkanini suburbs that is currently supplied from the existing Kayamandi reservoirs. This system would allow that emergency storage capacity in the proposed Kayamandi Upper reservoir can be transferred to the existing Kayamandi reservoirs if required (GLS Consulting, 2021).

4.1.4 Master plan implementation

It is recommended that the bulk supply from Idas Valley no. 2 reservoir to the Papegaaiberg reservoir be upgraded. The following master plan items were proposed as part of the Helshoogte transfer scheme to augment the bulk water supply to the Papegaaiberg reservoir to support the proposed development areas as well as any other future developments. See Annexure C for the master plan schematic.

Bulk supply (Helshoogte transfer scheme)

- SSW6.8a: 240 m x 560 mm Ø New HDPE bulk supply pipe
- SSW.B20: 4 630 m x 450 mm Ø New HDPE bulk supply pipe

The Kayamandi Upper system is required to transfer bulk water from the Papegaaiberg reservoir to the proposed Kayamandi Upper reservoir. As part of the Kayamandi Upper system the following mater plan items were proposed:

Bulk supply (Kayamandi Upper system)

- SSW.B29 : 150 L/s @ 135 m new bulk pump station
- SSW.B30 : 3 200 m x 450 mm Ø New HDPE Pipe to install
- SSW.B31 : New 10,0 ML (TWL = 246,7 m) Kayamandi Upper reservoir

Note: the routes of the proposed pipelines and locations of the proposed pumpstations and reservoirs are schematically represented in Annexure C and must still be finalised during detail design.

The municipality has already appointed consultants for the design of the bulk pipeline from the Idas Valley reservoir no 2, the proposed pump station at the Papegaaiberg reservoir, the bulk pipeline to the Kayamandi Upper reservoir and the proposed 10,0 ML Kayamandi Upper reservoir (GLS Consulting, 2021).

4.2 Sewer network

This section will discuss the sewer network. Refer to Annexure E for the sewer network plans.

4.2.1 Drainage area

a) Project 4A

There is an existing 150mm diameter sewer outfall that runs parallel to 10th Street and 13th Street for connection (GLS Consulting, 2021).

b) Project 4B

There is an existing 150mm diameter outfall sewer pipe that runs through the development into in Lamla Street (GLS Consulting, 2021).

c) Project 5A

There is an existing 150mm diameter outfall sewer pipe that runs through and adjacent to the proposed project area (GLS Consulting, 2021).

d) Project 5B

There is an existing 200mm diameter outfall sewer pipe to the north of the proposed project area (GLS Consulting, 2021).

e) Project 8

There is an existing 200mm diameter outfall sewer pipe in Sokuqala Road and/or the existing 150mm diameter outfall sewer that run along in Luxolo Street or parallel to Luyolo Street (GLS Consulting, 2021).

4.2.2 Sewer flow

The original analysis of the master plan made allowance for a sewer demand of 48.0 kL/d for the existing structures on the proposed development areas. GLS Consulting revised these estimations and determined that the peak daily dry weather flow (PDDWF) for the proposed development areas is 164.2 kL/d (GLS Consulting, 2021).

Due to the densification of the project areas, the potential increase in sewage flow was estimated to be 116.2 kL/d (GLS Consulting, 2021).

4.2.3 Present situation

The existing Kayamandi sewer reticulation network and Adam Tas bulk sewer system that gravity feeds from Kayamandi to Stellenbosch waste water treatment works (WWTW) has sufficient capacity to accommodate the sewer demands of the proposed project areas (GLS Consulting, 2021).

4.3 Traffic and access

The development sites form part of the developed and build-up areas. All properties within the project sites can be accessed through the existing road network.

4.4 Electrical

4.4.1.1 Bulk Demand

According to the document provided by GLS and the requirements by Stellenbosch Municipality, the proposed units will be designed at an ADMD of 4kVA per unit.

Table 3 Electrical Demand Estimations

Project Area	No. Residential Units	Demand ADMD (kVA/unit)	Total (kVA)
Project 4A	144	4	576
Project 4B	51	4	204
Project 5A	175	4	700
Project 5B	48	4	192
Project 8	54	4	216
Total kVA proposed for the development			**1888**
Total Demand (MVA)			**1.88MVA**

As per the document, the by-laws allow for densification by allowing one additional dwelling on a single residential stand. For estimation GLS allowed one additional dwelling for every second residential stand thus the new estimated demand is as per Table 4 below.

Table 4 Electrical Demand Estimations with backyard dwellers

Project Area	No. Residential Units	Demand ADMD (kVA/unit)	Total (kVA)
Project 4A	144	4	576
Project 4B	77	4	308
Project 5A	263	4	1052
Project 5B	72	4	288
Project 8	81	4	324
Total kVA proposed for the development			**2548**
Total Demand (MVA)			**2.548MVA**

For the purposes of this report and as per GLS's information, we will work with a Total demand of 1.88MVA.

4.4.1.2 Bulk Supply

Cloetesville HV/MV Substation does have sufficient capacity for the development sites. Cloetesville supplies Curry Switching Station (SS) which in turn suppliers Kayamandi SS, Watergang SS and RMU Costa. The proposed developments fall withing the supply areas of Kayamandi SS, Watergang SS and RMU Costa. These Switching Stations have sufficient capacity for the proposed projects.

4.4.1.3 Internal MV Reticulation

The proposed developments are near existing electrical infrastructure. This infrastructure is currently suppling the existing customers in the area.

Projects 4A, 5A and 5B:

- Kayamandi SS: MS Corridor Feeder and MS 6th Avenue Feeder (Ring Network)
    - The MS Corridor Feeder (35mm² PILC) has a capacity of 2.48MVA and MS 6th Avenue Feeder (35mm² PILC) has a capacity of 2.48MVA. These feeders form a ring therefore the total capacity is 5MVA.
    - These feeders currently supply 14 miniature substations and have an installed capacity of 5.8MVA which exceeds the capacity of the feeders.
- The proposed additional load of 1.47MVA may not be able to be accommodated.

Note: From the information received and calculated, the feeders will not be able to accommodate the additional load unless the actual loading is less than the installed capacity. Information regarding the actual load vs the installed load is needed to determine the way forward with regards to the supply.

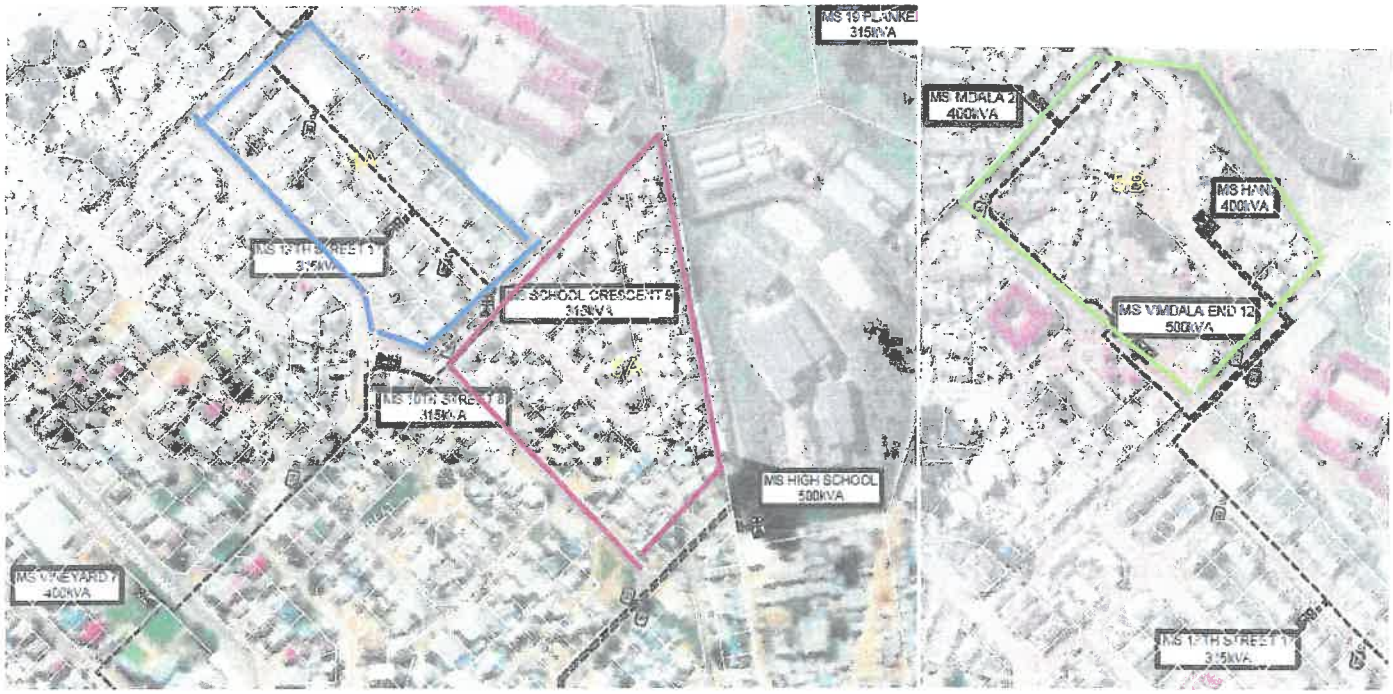

Figure 5 Existing MV Network and Minisubs

Projects 4B and 8:

- Kayamandi SS: MS Mode Crescent Feeder interconnecting with RMU Costa: MS Sesihlanu 16 Feeder
    - The MS Mode Crescent Feeder (35mm² PILC) and RMU Costa MS Sesihlanu 16 Feeder (35mm² PILC) has a capacity of 2.48MVA. These feeders combined therefore have a capacity of 5MVA.
    - These feeders currently supply 4 miniature substations and has an installed capacity of 1.8MVA. An additional load of 700kVA can be accommodated on these feeders
- The proposed load of 420kVA (0.42MVA) and can be accommodated by this feeder network.

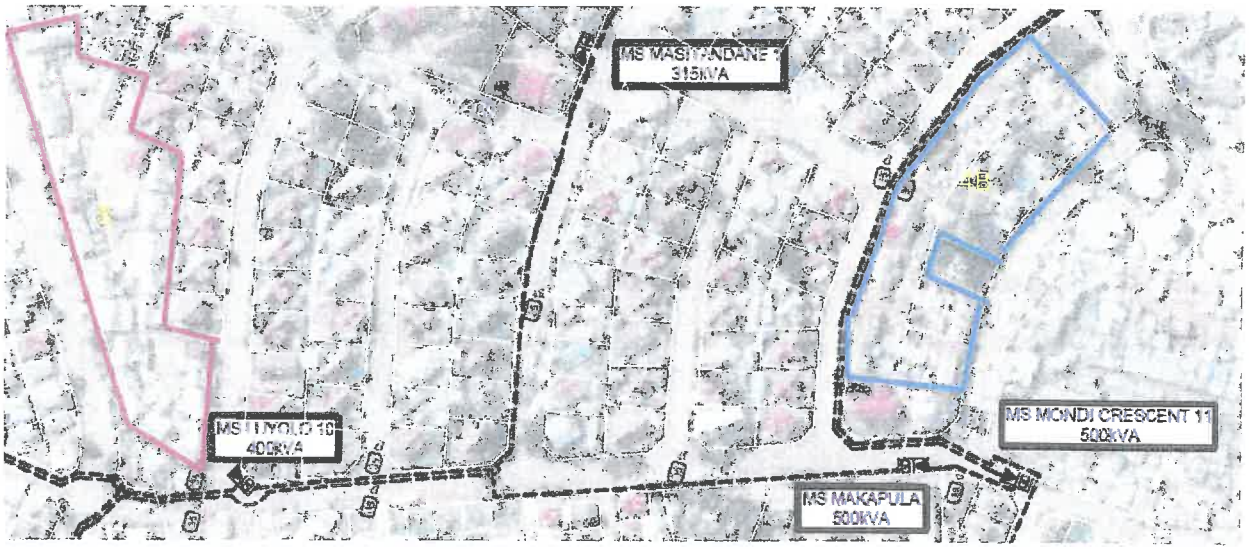

Figure 6 Existing MV Network and Minisubs

4.4.1.4 Master Plan Implementation

According to the GLS report, part of the Master Planning is the implementation of the planned electrical redundancy project which will soon go out on tender to increase the reliability within the Kayamandi network, this will assist with splitting the load with newly installed feeders between Watergang SS within the ring and between Kayamandi SS.

5 Cost items

Estimated Cost of Water Upgrades

The water master plan proposed upgrades to augment the bulk water system to supply the Kayamandi area. These items are summarised in Table below. All costs include P & G, Contingencies and Fees, but excluding VAT - Year 2020/21 Rand Value. This is a rough estimate, which does not include major unforeseen costs.

Table 5 Water Master plan cost items

Item no.	Description	Price (ex VAT)
Reticulation Network		
Link Services Item 1	210m x 110mm Ø to replace the existing 50mm Ø AC pipe	R230 000
Bulk supply – Helshoogte transfer scheme		
SSW6.8a	240m x 560mm Ø New HDPE bulk supply pipe	R2 600 000
SSW.B20	4 630m x 450mm Ø New HDPE bulk supply pipe	R32 500 000
Bulk supply – Kayamandi Upper system		
SSW.B29	150 L/s @ 135m new bulk pump station	R30 000 000
SSW.B30	3 200m x 450mm Ø New HDPE Pipe to install	R22 500 000
SSW.B31	New 10,0 ML (TWL = 246,7 m) Kayamandi Upper reservoir	R26 500 000
Total		**R114 330 000**

Estimated Cost of MV Network Upgrade

Table 6 Electrical cost items

Item no.	Description	Price (ex VAT)
MV Reticulation Network		
1	Upgrade MV Cable: Supply and Install 4500m of Cable including terminations.	R4 580 000.00
Total		**R4 580 000.00**

Note: No upgrade cost estimates provided in Masterplan or GLS report for the Kayamandi SS MV Network.

6 Terms and conditions

The developer of the proposed development areas in Kayamandi may be liable for the payment of a Development Contribution as calculated by Stellenbosch Municipality for the bulk water and sewer infrastructure.

7 Conclusions

The reticulation networks for the appropriate zones have sufficient capacity for the development areas but the Kayamandi reservoir has marginally insufficient storage capacity.

Since the current Stellenbosch bulk supply to the Papegaaiberg reservoir is at capacity, it does not have sufficient capacity to supply bulk water to the proposed development areas. To augment this, the master plan items SSW6.8a & SSW.B20 (part of the larger Helshoogte transfer system) are proposed, and the

master plan items SSW.B29, SSW.B30 & SSW.B31 are required to augment the reservoir storage capacity of the Kayamandi water system.

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch WWTW have sufficient capacity to accommodate the proposed development areas.

The Cloetesville HV/MV Electrical Substation and the Switching Stations for the supply areas have sufficient capacity for the development sites. However, the capacity of some of the Internal MV feeders is exceeded and the additional load of Projects 4A, 5A and 5B may not be able to be accommodated. The implementation of a masterplanning item is being planned that will increase the reliability of the internal network.

ANNEXURE B

BULK WATER AND SEWER COMMENTS FROM GLS CONSULTING

20 September 2021

Plan 4 SA (Pty) Ltd
PO Box 1152
Cape Gate
7562

Attention: Mr Martin Jonker

Dear Sir,

PROPOSED FORMALISATION OF EXISTING STRUCTURES ON ERVEN 1080–1090 & 1091–1112 (PROJECT 4A), ERVEN 112 & 114–116 (PROJECT 4B), ERVEN 1113–1122 & 1123-1154 (PROJECT 5A), PORTIONS OF ERVEN 66, 69 & 523 AND ERVEN 515 - 522 (PROJECT 5B) AND A PORTION OF ERF 288 (PROJECT 8), KAYAMANDI: CAPACITY ANALYSIS OF THE BULK WATER AND SEWER SERVICES

Your request regarding comments on the bulk water supply and sewer discharge of the proposed development (proposed formalisation of existing structures in Kayamandi), refers.

This document should inter alia be read in conjunction with the following documents:

- Water Master Plan (performed by GLS for the Stellenbosch Municipality) dated June 2019.
- Sewer Master Plan (performed by GLS for the Stellenbosch Municipality) dated June 2019
- Bulk Water Resources: Drought Intervention Projects (performed by GLS for the Stellenbosch Municipality) dated June 2019.
- Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System (performed by GLS for Zutari (Pty) Ltd) dated 15 September 2021.

The water demand of the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) was taken into consideration for the June 2019 master plans for the water and sewer networks. No provision was however made in the June 2019 water and sewer master plans for densification on these areas.

1. WATER DISTRIBUTION SYSTEM

1.1 *Distribution zone*

The master plan indicated that the proposed development areas should be accommodated within the following water distribution zones as per Figures 2 & 3 attached:

Project 4A: Proceed by making connections to the existing 100 mm Ø pipes in 10th Street, 13th Street and School Crescent in the Kayamandi reservoir PRV 1 zone;

Project 4B: Proceed by making connections to the existing 75/100 mm Ø pipes in Lamla Street and Ndumela Street as well as the 75 mm Ø pipe running parallel to Makupla Street in the Kayamandi reservoir PRV 4 zone;

Project 5A: Proceed by making connections to the existing 100 mm Ø pipes in School Crescent and Forest Drive in the Kayamandi reservoir PRV 1 zone;

Project 5B: Proceed by making a connection to the existing 75 mm Ø pipe Mjandana Street in the Kayamandi reservoir PRV 2 zone; and

GLS Consulting (Pty) Ltd
T +27 21 880 0388
Stellenpark, Block D North, Cnr of R44 and School Rd, Jamestown, Stellenbosch, 7600, ZA | PO Box 814, Stellenbosch, 7599, ZA
Reg no: 2007/003039/07
www.gls.co.za

Directors: HA Baartman, AG Hingeston

Project 8: Proceed by making a connection to the proposed 110 mm Ø pipe in the Kayamandi reservoir PRV 3 zone.

The proposed development is situated inside the water priority area.

1.2 *Water demand*

Allowance was made for a water demand of 68,6 kL/d for the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) in the original analysis of the water master plan.

For this re-analysis, the average annual daily demand (AADD) and fire flows for the proposed development were calculated as follows:

- Project 4A: 144 Residential flat units @ 0,4 kL/d/unit = 57,6 kL/d
- Project 4B: 51 Residential erven @ 0,45 kL/d/unit = 23,0 kL/d
- Project 5A: 175 Residential erven @ 0,45 kL/d/unit = 78,8 kL/d
- Project 5B: 48 Residential erven @ 0,45 kL/d/unit = 21,6 kL/d
- Project 8: 54 Residential erven @ 0,45 kL/d/unit = 24,3 kL/d

- Total AADD of proposed development = 205,3 kL/d

- Fire flow criteria (Low risk) = 15 L/s @ 10 m

The potential increase in water demand due to the densification of project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 136,7 kL/d.

1.3 Present situation

1.3.1 Reticulation network

The existing Kayamandi reservoir water distribution network has sufficient capacity in order to accommodate the proposed development within the existing Kayamandi water system. The Kayamandi reservoir water network supplies water via the existing 250 mm Ø and 315 mm Ø water mains from a Top Water Level (TWL) of 224,3 metres above mean sea level (m.a.s.l.). The proposed projects should each be supplied by different water demand zones within the Kayamandi reservoir, namely: Kayamandi reservoir PRV zones 1, 2, 3 & 4 (refer to Par 1.1 above). The existing reticulation networks of the Kayamandi reservoir PRV zones have sufficient spare capacity available to accommodate the proposed development within the existing Kayamandi water system.

The small 50 mm Ø AC water reticulation pipe running through the proposed development area of Project 8 will however have to be replaced and re-routed to accommodate the proposed development within the existing Kayamandi reservoir PRV 3 zone. The 50 mm Ø pipe is not only insufficient to supply the development but is also located inside the building footprints of the current site development plan.

Link services item:

Item 1: 210m x 110 mm Ø replace existing 50 mm Ø AC pipe R 230 000 *

(* Including P & G, Contingencies and Fees, but excluding VAT - Year 2020/21 Rand Value. This is a rough estimate, which does not include major unforeseen costs).

Take note that the route of the proposed pipeline is schematically shown on Figure 3 attached, but have to be finalised subsequent to detail pipeline route investigations.

1.3.2 *Bulk supply*

Bulk water is supplied from the Idas Valley no. 2 reservoir (located at the Idas Vallei WTW site) to the Papegaaiberg reservoir under gravity and then pumped from the Papegaaiberg reservoir to the Kayamandi no. 1 (2.0 ML) and Kayamandi no. 2 (4.0 ML) reservoirs.

The bulk system from the Papegaaiberg reservoir to the Kayamandi reservoirs has sufficient capacity to accommodate the proposed development areas.

The existing bulk supply from the Idas Valley reservoir no. 2 to the Papegaaiberg reservoir is however at capacity and should be upgraded according to the water master plan in order to accommodate any additional development in Kayamandi.

1.3.3 *Reservoir capacity*

The criteria for total reservoir volume used in the Stellenbosch Water Master Plan is 48 hours of the AADD (of the reservoir supply zone).

According to the water master plan the combined AADD of the Kayamandi reservoirs supply areas is currently approximately 3 050 kL/d (based on the 2019 Water Master Plan demand figures). The capacity of the existing Kayamandi reservoirs is 6 000 kL, which results in a current reservoir storage capacity of approximately 48 hours of the AADD supplied.

The existing Kayamandi reservoirs therefore have insufficient storage capacity (only marginally) to accommodate additional development. The impact of the proposed development areas on the existing Kayamandi reservoirs storage capacity is however significant as the development areas will use approximately 5% of the existing storage capacity available.

Additional reservoir storage capacity should therefore be provided in order to accommodate any additional development in Kayamandi.

As part of die longer term planning of Stellenbosch town to be more resilient against future droughts, to utilise existing water resources optimally and to plan for water security during potential power outages, a new 10,0 ML Kayamandi Upper reservoir is proposed as part of the Kayamandi Upper system (refer to "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report).

The Kayamandi Upper system is required to transfer bulk water from the Papegaaiberg reservoir to the proposed Kayamandi Upper reservoir. This will enable the SM to supply water to affordable housing projects to the north and west of the existing Kayamandi suburb. Surplus water from the Stellenbosch town system's resources could possibly be transferred to the Koelenhof system from the Kayamandi Upper reservoir.

The proposed Kayamandi Upper reservoir will provide additional reservoir storage capacity for the existing Kayamandi and Enkanini suburbs that is supplied with water from the existing Kayamandi reservoirs (the system allows that emergency storage capacity in the proposed Kayamandi Upper reservoir can be transferred to the existing Kayamandi reservoirs if required)..

1.4 Implementation of the m*aster plan*

Bulk supply from the Idas Valley no. 2 reservoir (located at the Idas Vallei WTW site) to the Papegaaiberg reservoir is at capacity and should be upgraded. The following master plan items are proposed as part of the so-called "Helshoogte transfer scheme" (refer to "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report) to augment bulk supply to the Papegaaiberg reservoir in order to accommodate the proposed development together with other future development areas, as shown on Figure 4:

Bulk supply (part of Helshoogte transfer scheme)

• SSW6.8a:	240 m x 560 mm Ø New HDPE bulk supply pipe		R 2 600 000 *
• SSW.B20:	4 630 m x 450 mm Ø New HDPE bulk supply pipe		R 32 500 000 *
		Total	R 35 100 000 *

The following master plan items are proposed to implement the so-called "Kayamandi Upper system" (refer to the "Bulk Water Resources: Water Resilience Master Planning for the Stellenbosch System" report). The Kayamandi Upper system is required to transfer bulk water from the Papegaaiberg reservoir to the proposed Kayamandi Upper reservoir. This will enable the SM to supply water to affordable housing projects to the north and west of the existing Kayamandi suburb and will provide additional reservoir storage capacity for the existing Kayamandi and Enkanini suburbs that is supplied with water from the existing Kayamandi reservoirs:

Bulk supply (Kayamandi Upper system)

• SSW.B29 : 150 L/s @ 135 m new bulk pump station		R 30 000 000 *
• SSW.B30 : 3 200 m x 450 mm Ø New HDPE Pipe to install		R 22 500 000 *
• SSW.B31 : New 10,0 ML (TWL = 246,7 m) Kayamandi Upper reservoir		R 26 500 000 *
	Total	R 79 000 000 *

(* Including P & G, Contingencies and Fees, but excluding VAT - Year 2020/21 Rand Value. This is a rough estimate, which does not include major unforeseen costs).

Take note that the routes of the proposed pipelines and locations of the proposed pump station and reservoir are schematically shown on Figure 4 attached, but have to be finalised subsequent to detail pipeline route and location investigations.

Stellenbosch Municipality has already appoint consultants for the design of the bulk pipeline from the Idas Valley reservoir no. 2, the proposed pump station at the Papegaaiberg reservoir, the bulk pipeline to the Kayamandi Upper reservoir and the proposed 10,0 ML Kayamandi Upper reservoir.

2. SEWER NETWORK

2.1 Drainage area

The development falls within the existing Adam Tas sewer drainage area. The connections to the existing Kayamandi sewer system can be do done as per Figures 5 & 6 attached.

Project 4A: Proceed by making connections to the existing 150 mm Ø outfall sewer pipes running parallel to 10th Street and 13th Street;

Project 4B: Proceed by making connections to the existing 150 mm Ø outfall sewer pipe running through the development into Lamla Street;

Project 5A: Proceed by making connections to the existing 150 mm Ø outfall sewer pipes running through and adjacent to the proposed development;

Project 5B: Proceed by making a connection to the existing 200 mm Ø outfall sewer pipe to the north of the proposed development; and

Project 8: Proceed by making a connection to the existing 200 mm Ø in Sokuqala Street and/or 150 mm Ø outfall sewers running in Luxolo Street or parallel to Luyolo Street.

The proposed development is situated inside the sewer priority area.

2.2 Sewer flow

Allowance was made for a sewer demand of 48,0 kL/d for the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) in the original analysis of the sewer master plan..

For this re-analysis, the peak daily dry weather flow (PDDWF) for the proposed development was calculated as 164,2 kL/d.

The potential increase in sewage flow due to the densification of project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 116,2 kL/d.

2.3 Present situation

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch waste water treatment works (WWTWs) have sufficient capacity to accommodate the proposed development areas.

3. CONCLUSION

The developer of the proposed development areas in Kayamandi may be liable for the payment of a Development Contribution (as calculated by Stellenbosch Municipality) for bulk water and sewer infrastructure as per Council Policy.

The existing reticulation networks of the Kayamandi reservoir PRV zones have sufficient spare capacity available to accommodate the proposed development within the existing Kayamandi water system. The existing Kayamandi reservoir has insufficient storage capacity (only marginally) to accommodate the proposed development. Connections to the existing water system can be made as stated in Paragraph 1.1 and shown on Figures 1 & 2.

The existing Stellenbosch bulk supply to the Papegaaiberg reservoir is at capacity and therefore has insufficient capacity in order to accommodate the proposed development.

Master plan items SSW6.8a & SSW.B20 (part of the larger Helshoogte transfer system) are proposed to augment bulk water supply to the Papegaaiberg reservoir. Master plan items SSW.B29, SSW.B30 & SSW.B31 are required to augment the reservoir storage capacity of the Kayamandi water system.

The existing Kayamandi sewer reticulation network in Kayamandi and the existing Adam Tas bulk sewer system gravitating from Kayamandi to the Stellenbosch WWTW have sufficient capacity to accommodate the proposed development areas. Connections to the existing sewer system can be made as stated in Paragraph 2.1 and shown on Figures 5 & 6.

We trust you find this of value.

Yours sincerely

  - *E19191-01 Existing MV Layout - OVERALL (4000)*
  - *E19191-02 Existing Single line Diagram - Colours*

The calculated demand of the existing structures on the proposed development areas (project areas 4A, 4B, 5A, 5B & 8) were considered in this assessment. Some provision was however made in the September 2015 electrical master plan for densification on these areas and there is an existing load demand for the proposed formalised areas.

1. HIGH AND MEDIUM VOLTAGE DISTRIBUTION SYSTEM

1.1. Distribution Zone

The proposed formalised areas resides in the Kayamandi suburb. The suburb falls within the Cloetesville HV (High Voltage)/MV (Medium Voltage) Substation distribution zone. The 2015 electrical master plan indicated that the proposed development areas should be accommodated within the Cloetesville HV/MV Substation distribution zone. The Cloetesville HV/MV Substation has two incoming feeders from Eskom supplying the substation at 66kV. The substation is currently fitted with 2x 20 MVA 66/11 kV Transformers, and 1x 300kVA local transformer. The substation has an installed capacity of 40 MVA, firm capacity of 20 MVA and a NMD (Notified Maximum Demand) of 16 MVA.

As per the latest MV reticulation diagrams created by Lyners and Partners, the Cloetesville HV/MV Substation transforms the incoming 66kV to 11kV and distributes the power through the Curry SS(Switching Station) to Kayamandi SS. Curry SS is fed through 4x 11kV 95mm^2 copper cables from Cloetesville HV/MV Substation. There are two switching stations supplying power in the area and a RMU (Ring Main Unit), these include Kayamandi SS, Watergang SS and Costa RMU respectively. The Kayamandi SS is the station supplying to the proposed formalised area and receives 11kV through 2x 185mm^2 copper conductors.

1.2. *Electrical Demand*

The Stellenbosch Municipality electrical master plan utilises the SANS 507 recommendations (Standards South Africa, 2007) to guide the After Diversity Maximum Demand (ADMD) estimates for developments. The ADMD used for the future demand of 4 kVA/Unit for Lower Income Residential Areas is used. The existing structures on the proposed development region of Kayamandi will be assessed based on the latest demand provided by the Stellenbosch Municipality.

For this re-analysis, the demand for the proposed development were calculated as follows: With a ADMD of 4 kVA/unit:

Table 1: Demand calculation

Project	No. Units	Estimated Demand [kVA]
Project 4A	144	576
Project 4B	51	204
Project 5A	175	700
Project 5B	48	192
Project 8	54	216
Total	**472**	**1,888**

The estimated demand utilised in these proposed formalised areas due to the densification of project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 1888 kVA.

According to the Stellenbosch 2017-2022 Integrated Development Plan, Kayamandi has experienced significant population growth with the number of residents having more than doubled in the past ten years. This has created a backlog in housing needs within the municipality. Another key feature is the cost of housing in Stellenbosch has become expensive with many opting to commute from outside of the Stellenbosch municipal area to work. For those who cannot afford to commute from outside of Stellenbosch for work, affordable rental accommodation is still the best option.

Due to the nature of the land use in the area, there is a high possibility of backyard dwellers occupying some of these estimated number of units. This will result in the increase in demand as there will be more electricity users occupying these units. For this report, the number of dwellings on one residential dwelling will be guided by the Stellenbosch municipal zoning scheme by-laws for conventional residential zones. The by-law allows limited densification through allowing one additional dwelling on a single residential dwelling. For this assessment an assumption that only the second erven will have an additional dwelling. An increase of 1.5 times the units will represent this assumed uptake of back dwellers is utilised to estimate the potential increase in the number of units on these proposed projects.

With the potential backyard dwellers, the demand for the proposed formal development were calculated as follows: With a ADMD of 4 kVA/unit:

Table 2: Demand calculation including the potential of backyard dwellers

Project	No. Units (Including potential backyard dwellers)	Estimated Demand [kVA]
Project 4A	144	576
Project 4B	77	306
Project 5A	263	1050
Project 5B	72	288
Project 8	81	324
Total	**637**	**2,544**

The estimated demand utilised due to the impact of backyard dwellers for the project areas 4A, 4B, 5A, 5B & 8 is therefore calculated at 2544 kVA. This is an increase of 656 kVA.

1.3. Present Situation

1.3.1. *Reticulation Network*

The existing Cloetesville HV/MV Substation distribution network has sufficient capacity to accommodate the proposed development within the existing Kayamandi area. The loading on the substation is sitting at around 16 MVA and the substation installed capacity is 40 MVA. The Kayamandi SS and Watergang SS supply electricity through the Kayamadi area via the existing 35mm^2 Cu PILC network. The proposed project areas are supplied by different miniature substations in the suburb.

Project 4A: The proposed project is situated between 13th and School Streets. The area has 3x 315 kVA Miniature substations (MS) installed in close proximity, namely, MS 13th Street, MS School Crescent and MS 10th Street; The estimated demand for this project is 576 kVA as calculated above in 1.2

Project 4B: The proposed project is situated between Noumela and Manyano Streets. The area has 2x 500 kVA Miniature substations installed in close proximity, namely MS Makapula and MS Mondi Crescent End; The estimated demand for this project is 204 kVA as calculated above in 1.2

Project 5A: Situated between School and Forest Streets. The area has 2x 315 kVA and 1x 500 kVA Miniature substations installed in close proximity, namely, MS School Crescent, MS 10th Street and MS Highschool; The estimated demand for this project is 700 kVA as calculated above in 1.2

Project 5B: Situated along Mjandana Street. The area has 1x 400 kVA and 1x 500 kVA Miniature substations installed in proximity, namely, MS Hani and MS VMdala End; The estimated demand for this project is 192 kVA as calculated above in 1.2 and,

Project 8: Situated along Luyolo Street. The area has 1x 400 kVA Miniature substation installed in proximity, namely, MS Luyolo. The estimated demand for this project is 216 kVA as calculated above in 1.2

The total miniature substation installed capacity in the proposed formalised areas is 4060 kVA. The estimated electrical demand for the projects is sitting at 1888 kVA. This leaves an excess of 2172 kVA. This is not including the other existing loads within the area.

The medium voltage reticulation is connected via of 11 kV 35mm^2 copper cables as per the E19191-02 Existing Single line Diagram from Lyners and Partners. The network is primarily fed from Kayamandi SS at the moment, with the exception of MS Mondi Crescent and MS Luyolo, the rest of the miniature substations form a ring from Kayamandi SS. The feeder supplying MS Mondi Crescent and MS Luyolo interconnects Costa RMU which is also supplied by Curry SS through 1x 11 kV 70mm^2 copper cable with Kayamandi SS.

1.3.2. *Substation Capacity*

The existing Stellenbosch northern region 11 kV distribution network is supplied from a 66 kV HV network from Eskom which has adequate capacity and provides good operational flexibility under contingency conditions. Eskom's 66 kV rural network supplies Cloetesville HV/MV Substation. According to the Stellenbosch electrical master plan, the HV/MV substations has sufficient transformer capacity and the voltage regulation within the network is within accepted limits.

1.3.3. *Switching Station Capacity*

The Kayamandi residential area is supplied 11 kV by two switching stations, namely Kayamandi SS and Watergang SS. Kayamandi SS is fed from two 185mm^2 copper PILC conductors from Curry SS. The total carrying capacity of the feeders supplying power to the switching station is 12 MVA as calculated in the below Table 1 and the loading on the switching station currently is sitting on 5.5 MVA from the loading data provided by Lyners and Partners.

The switching station feeds all the proposed project areas with one ring feeding Projects 4A, 5A and 5B and one feeder supplying Projects 4B and 8 which is interconnected with Costa RMU. The ring which feeds Projects 4A, 5A and 5B has a total of 14 miniature substation connected on the ring with a total capacity of 5.8 MVA and the feeders connecting the ring are made up of 35mm^2 copper PILC conductors, the capacity of this conductor is 2.45MVA and since it forms a ring, it is 5 MVA. This implies the full capacity of the miniature substation exceed the maximum capacity of the conductors which is a cause of concern.

Table 3: Kayamandi SS Intake Carrying Capacity

Intake Feeder	Conductor Type	Material	Size (mm^2)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	185	11000	335	6.38
Feeder 2	PILC	Copper	185	11000	335	6.38
Total Installed Capacity						**12.77**

The N-1 intake feeder capacity for the switching station is sitting on 6.4 MVA. The loading on the switching station is around 5.5 MVA.

Watergang SS is also supplied by Curry SS but by two 70mm^2 copper PILC conductors. The total carrying capacity of the feeders supplying the Watergang SS is 7.43 MVA in total as calculated in the below Table 2 and the loading on the switching station is currently sitting on 0.8 MVA from the loading data provided by Lyners and Partners. The switching station does not directly supply power to any of the proposed projects.

Table 4: Watergang SS Intake Carrying Capacity

Intake Feeder	Conductor Type	Material	Size (mm^2)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	70	11000	195	3.72
Feeder 2	PILC	Copper	70	11000	195	3.72
Total Installed Capacity						**7.43**

The N-1 intake feeder capacity for the switching station is sitting at 3.72 MVA. With the current loading on the switching station, the feeder has enough capacity to carry this contingency load.

Costa RMU also receives a supply of power from Curry SS through two 70mm^2 copper PILC conductors. The RMU feeds a portion of the Kayamandi area network. Particularly the line feeding Projects 4B and 8, this line is interconnected with Kayamandi SS. The line has a total of 4 miniature substations connected with a total

capacity of 1.8 MVA. The feeders connecting the line is also made up of 35mm² copper PILC conductors, this means the total carrying capacity for the line is 3.72 MVA as calculated in the below Table 3, a total of almost 7.43 MVA. There is not much concern as this line can carry a higher capacity than the full load from the miniature substations.

Table 5: Costa RMU Intake Carrying Capacity

Intake Feeder	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	70	11000	195	3.72
Feeder 2	PILC	Copper	70	11000	195	3.72
Total Installed Capacity						**7.43**

The N-1 intake feeder capacity for the RMU feeders is 3.72 kVA. This capacity is sufficient to sustain portions of the loads carried by Kayamandi SS and Watergang SS.

1.3.4. *Network Feeder Capacity*

The individual rings feeding the proposed project areas include a ring connected to and from Kayamandi SS, and a feeder interconnecting Kayamandi SS and Costa RMU. The first ring connected to and from Kayamandi SS, is made up of 35mm² copper PILC conductors connected through the ring. The ring feeds the 4A, 5A and 5B projects. The total carrying capacity of the ring is 4.95 MVA.

Table 6: Ring 1 feeding proposed projects 4A, 5A, and 5B

Feeder Number	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1	PILC	Copper	35	11000	130	2.48
Feeder 2	PILC	Copper	35	11000	130	2.48
Ring 1 Total Installed Capacity						**4.95**
Ring 1 Firm (N-1) Capacity						**2.48**

The N-1 capacity of the ring supplying the proposed projects 4A, 5A and 5B is sitting on 2.48 MVA. This value is lower than the installed capacity of the ring. The total installed capacity of miniature substations on the ring is 5.76 MVA and the estimated demand for the above-mentioned projects is 1.47 MVA. During a contingency, the feeder will be constraint and will potentially carry a load higher than it's carrying capacity as the load continues to grow.

The second ring feeding the proposed project area is the feeder interconnecting Kayamandi SS and Costa RMU. The line is comprised of 35mm² copper PILC conductors. The line feeds the 4B and 8 projects. The total carrying capacity of the line is 4.95 MVA.

Table 7: Ring 2 feeding proposed projects 4B and 8

Feeder Number	Conductor Type	Material	Size (mm²)	Voltage (V)	Ampacity	MVA
Feeder 1 (Kayamandi SS)	PILC	Copper	35	11000	130	2.48
Feeder 2 (Costa RMU)	PILC	Copper	35	11000	130	2.48
Ring 2 Total Installed Capacity						**4.95**
Ring 2 Firm (N-1) Capacity						**2.48**

The N-1 capacity of the ring supplying the proposed projects 4B and 8 is sitting on 2.48 MVA. This value is sufficient to carry the installed capacity of the ring. The total installed capacity of miniature substations on the

ring is 1.8 MVA and the estimated demand for the above-mentioned projects is 0.42 MVA. During a contingency, the feeder will be able to carry this load and higher as the load continues to grow.

1.4. Implementation of Planned Projects

The Stellenbosch integrated development plan signals out several land that may be available for potential future housing and industrial developments. Kayamandi and Groendal expansions are the notable low-income housing developments with 4600 and 1500 units planned for each. The Stellenbosch electrical master plan makes mention of the planned housing projects and pro-active electrical redundancy projects in the Kayamandi area have been proposed and planned to accommodate this anticipated growth. This electrical redundancy will protect the reliability and ensure the integrity of the network.

A tender for the first phase will be advertised soon, which will include a new PILC cable feeder from Cloetesville HV/MV substation directly to Watergang switching station. This project will increase the capacity of the switching station, provide redundancy, and share the load in the Kayamandi area between the Watergate and Kayamandi switching station, allowing for further development projects in the Kayamandi area. If there is sufficient funding available, the first phase will also include additional feeders between the Watergate and Kayamandi switching stations.

2. CONCLUSION

Cloetesville HV/MV Substation currently has enough capacity to carry the estimated existing load on the proposed formalised ervens. The network supplying the proposed projects area is said not to be experiencing major trips, recurring failures, and power interruptions due to overloading.

The ervens identified for formalisation are situated on an existing area which is currently utilising demand. The network around these ervens are currently mainly supplied by the Kayamandi SS. The switching stations supplying the Kayamandi area has sufficient capacity to carry the existing load including the proposed projects capacities and other existing loads.

One concern within the Kayamandi area network is the capacity of the ring feeding Projects 4A, 5A and 5B from Kayamandi SS, the estimated demand from the projects is higher than the N-1 carrying capacity of the feeder connected on the ring. This can potentially pose a problem with overloading the feeder and any future increased loads on that ring. A possible solution will be implementing the planned electrical redundancy project which will soon go out on tender to increase the reliability within the Kayamandi network, this will assist with splitting the load with newly installed feeders between Watergang SS within the ring and between Kayamandi SS.

We trust you find this of value.

Yours sincerely
