RE: FARM BENGALE NO. 1440, STELLENBOSCH: APPLICATION FOR A CONSENT USE (ADDITIONAL DWELLING) AND A PERMANENT DEPARTURE

We refer to your pre-submission consultation with Dr Johan van Zyl (Jonkersdrift) on 1 February 2024.

1. Land use planning applications

Pertaining to the Farm Bengale No. 1440, Stellenbosch (hereafter referred to as the subject property) application is made:

- In terms of Section 15.(2)(o) of the Stellenbosch Municipality Planning By-law, 2015 for a consent use: additional dwelling; and

- In terms of Section 15.(2)(b) of the Stellenbosch Municipality Planning By-law, 2015 for a (coverage) permanent departure from the development parameters of the zoning scheme to permit a ±198m² coverage (in lieu of the prescribed 120m² coverage).

2. Property details

The subject property is located on the Jonkershoek Road, in Stellenbosch – see image below.

Figure 1: The Farm Bengale No. 1440, Stellenbosch

The subject property is described in the Deed of Transfer No. T19284/2019 as the Farm Bengale No. 1440, Division of Stellenbosch.

Stoney Meadows Investments 11 (Pty) Ltd is the registered owner of the subject property.

The subject property is 141.5295ha in extent.

3. Title deed search

A title deed search was undertaken and there are no title conditions that will restrict the proposed additional dwelling. A copy of the subject property's Deed of Transfer and SG Diagram is included in this submission.

4. Background to the application

There are several existing buildings on the subject property that forms a traditional and historic Cape farm *werf*. These existing buildings consist of the primary dwelling house, out-buildings, and a historic cottage (currently a 2nd dwelling) – see image below.

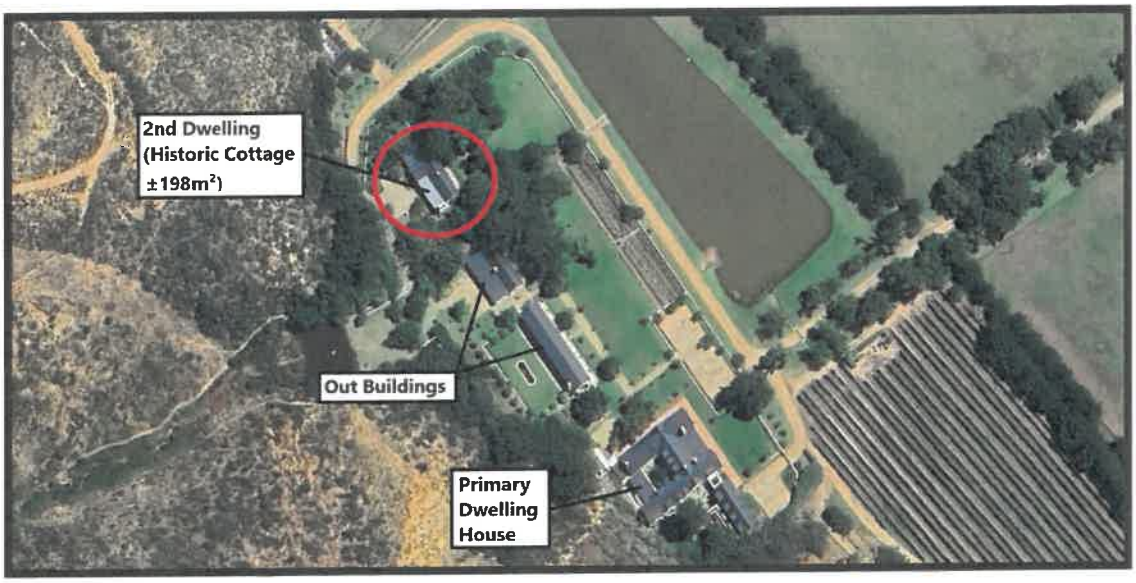

Figure 2: Existing buildings and Cape farm werf

The cottage (currently the subject property's 2nd dwelling) is a historic building constructed before 1813. This historic building has a coverage of ±198m² and (owing to its historic value) should not be altered – see images below.

Figure 3: Historic cottage on Farm 1440, Stellenbosch

Figure 4: Historic cottage on Farm 1440, Stellenbosch

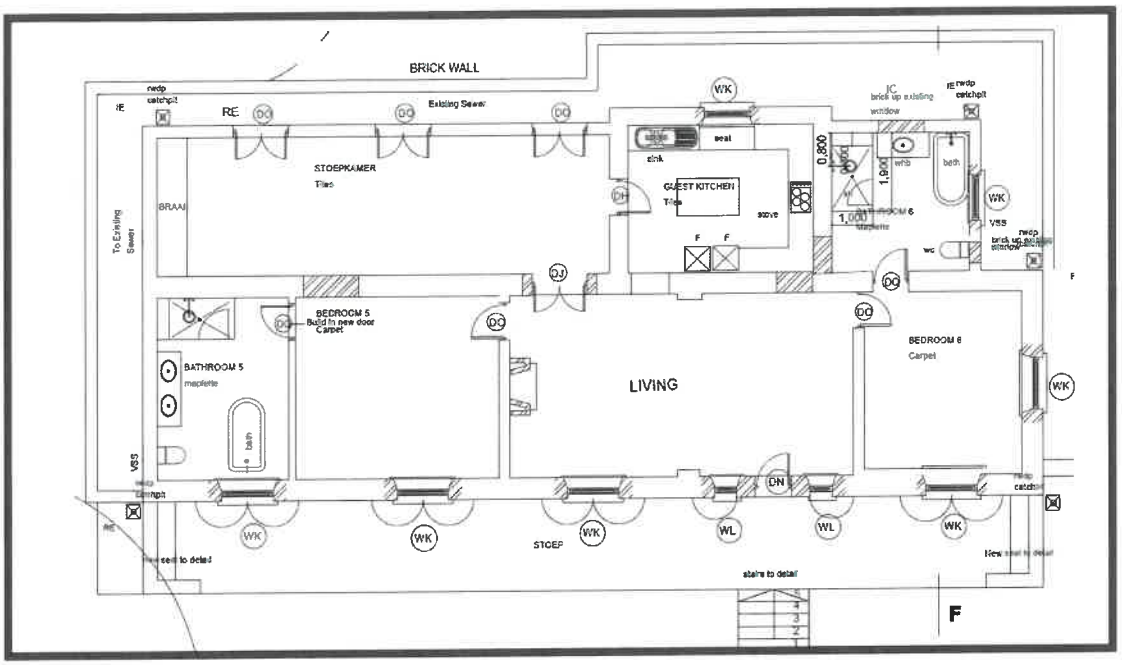

Figure 5: Ground floor plan of historic cottage

The purpose of this application is to have the historic cottage classified as an additional dwelling. This will allow the landowner to construct a 2nd dwelling on the subject property (consistent with the development rules for a 2nd dwelling).

5. Motivation for an additional dwelling and coverage departure

Our land use planning application is motivated as follows:

- The subject property is 141.5295ha in extent. In terms of the Stellenbosch Municipality's Zoning Scheme Regulations, 2023 a primary dwelling and a 2nd dwelling are primary development rights. Furthermore, four additional dwellings may also be constructed on the subject property (with Council's consent).

- Application is made for a consent land use (for one additional dwelling) and for a permanent departure to permit a ±198m² coverage for this additional historic dwelling (in lieu of 120m²). A Site Plan that clearly illustrates the existing buildings comprising the historic *werf* on the subject property, is included in this submission.

- Our client wishes to construct a new dwelling on the subject property which will exceed the permissible 120m² coverage. The historic cottage is currently the subject

property's 2nd dwelling. However, as the historic cottage building should not be demolished or altered, it consequently cannot serve our client's needs. For this reason, application is made to have the historic cottage classified as an additional dwelling so that our client may proceed with the submission of building plans for a 2nd dwelling.

- The historic cottage has a coverage of ±198m² and to accommodate the classification of the cottage as an additional dwelling, a departure is required from the development rules to permit a coverage of ±198m² in lieu of the permissible coverage of 120m². No changes are proposed to the historic cottage.

- A heritage study of the subject property was undertaken in 2010 by Mr. Stephen Townsend (a copy of the heritage report is available on request). In his heritage report, Mr. Townsend stated (with regards to the historic cottage) that it had many different uses and that it was probably used as a farm manager's house. In other words, even though the historic cottage is currently a 2nd dwelling, it was previously used (amongst other things) as a farm building (to provide accommodation for a farm employee). The historical *werf* is therefore described as a main residence with farm buildings.

- By approving this application, the farm's cultural and historic value will be preserved and the historic Cape farm *werf* – which forms a unit – will not be disturbed. It will remain as is. The new 2nd dwelling will be located ±300m northwest from the *werf*, so as not to adversely affect the subject property's heritage value.

- No new engineering services are required for the historic cottage.

- Regarding the proposed 2nd dwelling. Please note that detailed building plans will be submitted to all the relevant authorities and departments for their approvals, to ensure that the design complies with all the development rules, heritage considerations, engineering requirements, etc.

- Since the application will not adversely affect any of the surrounding landowners, we respectfully request that the public participation process be set aside.

6. List of supporting documents

The following supporting documents are included in this submission:

- Land Use Planning Application Form
- Power of Attorney
- Title Deed and SG Diagram
- Locality Map
- Site Plan

7. Conclusion

The purpose of these applications is to have the historic cottage classified as an additional dwelling so that the landowner may construct a 2nd dwelling. It forms part of the historic Cape farm *werf*, and by granting the application the historic character of the farm will be preserved.

We deem the proposal to be desirable as it will not adversely affect any person or group and will allow the landowner to construct a 2nd dwelling that will respect the heritage value of the historic farm buildings and be consistent with the subject property's development rights. For this reason, we respectfully request the applications to be granted.

Please feel free to contact the undersigned at 021 861 3800 or clifford@tv3.co.za if you have any queries or require any additional information to process the application.

Yours faithfully
