MUNICIPAL NOTICE No.: 115/2024

TESTING FOR PROPOSED PEDESTRIAN BRIDGES MOOIWATER, LANGRUG & GROENDAL - FRANSCHHOEK

Stellenbosch Municipality plans to construct three pedestrian bridges across the Stiebeuel River at the above-mentioned areas in Franschhoek. The proposed upgraded concrete structures will replace the existing wooden bridges. See arial view below for location:

In order for planning and design of the bridges to proceed, information on ground and soil conditions are required. Drilling and Soil Laboratory Contractors will therefore be carrying out assessments on the ground conditions at each of the bridge sites. The works comprises drilling and excavations to assess the soil conditions.

Work is expected to commence around the 30th of August, and the duration will be approximately six weeks.

We thank you in anticipation for your understanding and patience. **For further enquiries please contact our office on 021 808 8222.**
