APPENDIX 1

STELLENBOSCH MUNICIPALITY

MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK FOR THE FINANCIAL PERIOD 2024/2025 TO 2026/2027

Vision:

We describe the vision of where we want to be as a Municipality and the Greater Stellenbosch area as the

"An Integrated Valley of Opportunity and Innovation"

Mission:

Our mission is to deliver services in an enabling environment through sustainable, cost-effective and accountable services for our community.

Our Values

In all our work and engagements with the community and other stakeholders, we subscribe to the following values:

Integrity: As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Accountability: As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Transformation: We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Innovation: We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity.

Excellence: As a municipality, we will strive to deliver excellent services for all areas within the greater Stellenbosch.

Responsiveness: The municipality to be a responsive municipal entity with zero tolerance for corruption and illegal actions.

A: RESOLUTIONS

It is recommended to Council,

a) that the High Level Budget Summary, as set out in APPENDIX 1 – PART 1 – SECTION C; be approved;
b) that the Annual Budget Tables as prescribed by the Budgeting and Reporting Regulations, as set out in APPENDIX 1 – PART 1 – SECTION D, be approved;
c) that the proposed Grants-In-Aid allocations as set out in APPENDIX 1 – PART 2 – SECTION J, be approved;
d) that the three-year Capital Budget for 2024/2025, 2025/2026 and 2026/2027, as set out in APPENDIX 1 – PART 2 – SECTION N, be approved;
e) that the proposed rates on properties in WCO24, tariffs, tariff structures and service charges for water, electricity, refuse, sewerage and other municipal services, as set out in APPENDIX 3, be approved;
f) that the proposed amendments to existing budget related policies and other policies as set out in APPENDICES 4 - 34, be approved;
g) that Council specifically note and consider the need to take up an external loan, needed for investment in income generating infrastructure to the amount of R600 millions of which R200 million will be required in year one, R200 million in year two and R200 million in year three (refer to Section G: High Level Budget Overview and Table A1 Budget Summary) and confirm approval of same;
h) that Council specifically take note of the fact that the proposed electricity charges and tariff structure is subject to NERSA approval that could change materially;
i) that Council takes note of MFMA circulars 126 and 128 that was published to guide the MTREF for 2024/2025 to 2026/2027 as set out in APPENDICES 35 – 36;
j) that Council takes note of the Long-Term Financial Plan that contains the financial management principles for sound financial management that was considered with the compilation of the final budget as set out in APPENDIX 37;
k) that Council takes note of the Capital Investment Plan as set out in APPENDIX 38; and
l) that Council takes note that the public comments and submissions were considered with the compilation of the final budget.

B: EXECUTIVE SUMMARY

This MTREF budget is being tabled during a time of weaker global growth and global economic environment. Domestically, loadshedding is still persistent, however there are major progress in this regard due to establishment of various initiatives to address the energy crisis and create alternative energy sources. This issue still impacts service delivery and threaten the survival of many businesses. Households are under pressure from the rising cost of living, and unemployment remains stubbornly high.

In the context of persistent low economic growth government is working to position the economy for sustained growth through a stable macroeconomic framework, rapid implementation of economic and structural reforms, and improvement in the government's capability to remain central to achieving higher growth, employment, and competitiveness.

The Finance Minister, in the *Medium Term Budget Policy Statement* (MTBPS), indicated in the context of persistently low economic growth, government will protect critical services, support and promote economic growth through reforms and public investment, and stabilise public debt. Although South Africa continues to confront difficult economic conditions, a moderate recovery is forecast in the economic outlook. In order to accelerate economic growth, spur job creation and promote a broad improvement in livelihoods, structural reforms are needed to reduce binding constraints to growth. Such reforms remain central to government's medium-term plans, with the focus on creating a competitive electricity market and efficient port and rail logistics systems.

The Policy statement enhances the government's resolve to:

- Stabilise public finances while maintaining support for the most vulnerable and protecting front line services;
- Fast track growth-enhancing reforms. This includes a new financing mechanism for large infrastructure projects; and
- Reconfiguring the structure and size of the state, while strengthening its capacity to deliver quality public services.

The 2024 Budget Review outlines the three elements of fiscal policy

- Firstly, to **achieve fiscal sustainability** through a balanced approach. The government remains committed to a fiscal consolidation that balances the needs of the most vulnerable in society and protects the public finances for future generations. The 2024 Budget strikes a careful balance between fiscal consolidation and development.
- Secondly, **support economic growth** through structural reforms. The economic growth strategy is premised on clear and stable macroeconomic policies, structural reforms and

restoring the capability of the government. Progress is being made on a range of economic reforms to support investment and job creation. Energy supply and logistics failures are being addressed through measures to accelerate private investment in infrastructure.

- And thirdly, **reduce fiscal and economic risks** through improving public finance management and supporting public infrastructure investment.

Fiscal Strategy

The 2024 Budget Review sets the course for a fiscal consolidation strategy consisting of the following measures:

- Lower the risk premium, bolster investor confidence and increase the appetite for domestic assets, which will also support the rand.
- Reduction in fiscal deficit without resorting to tax increases or further cuts in the social wage and infrastructure;
- Achieving a primary fiscal surplus in the current financial year, and maintaining it over the medium term;
- Considering a consolidated position, which includes debt-service costs.
- The estimated consolidated budget deficit for 2023/24 grew from 4 per cent to 4.9 per cent of GDP between the 2023 Budget and the 2024 Budget. The deficit is projected to decline to 3.3 per cent of GDP in 2026/27 as the main budget deficit narrows and social security funds, provinces and public entities move into a combined cash surplus in 2025/26.
- Compared to 2023 MTBPS estimates, the debt-to-GDP trajectory improves. The Eskom debt-relief arrangement remains on schedule to conclude in 2025/26, subject to strict conditions. It will support the utility's ability to restructure operations and conduct critical maintenance.
- Government has decided to further mitigate fiscal risks by reducing borrowing over the medium term using a portion of valuation gains in the Gold and Foreign Exchange Contingency Reserve Account (GFECRA). As a result, debt-service costs will decline by R30.2 billion over the 2024 MTREF period compared with the 2023 MTBPS estimate.
- The consolidated budget deficit is projected to continue declining over the MTREF period, narrowing to 3.3 per cent of GDP in 2026/27. This will be driven by lower debt-service cost projections and rising primary budget surpluses.
- Gross loan debt will stabilise at 75.3 per cent of GDP in 2025/26. Debt-service costs will rise from R356.1 billion in 2023/24 to R440.2 billion in 2026/27. As a result of the fiscal strategy, debt-service costs will peak at 21.3 per cent of revenue in 2025/26 and decline thereafter.

- Gross government debt is projected to reach 73.9 per cent (R5.2 trillion) of GDP, in 2023/24. Gross loan debt is expected to stabilise at 75.3 per cent of GDP in 2025/26, slightly lower than the 77.7 per cent projected in the 2023 MTBPS. Debt-service costs are expected to stabilise in the same year.
- The balanced approach to fiscal consolidation includes expenditure restraint and moderate revenue increases, while continuing to support the social wage and ensuring additional funding for critical services.

The risks, which are largely unchanged since the 2023 MTBPS, to the fiscal outlook include a weaker than expected economic growth, further weakening of the finances of state-owned companies, and an unaffordable public-service wage agreement. Difficult budgeting trade-offs must therefore be made as government continues exercising fiscal restraint.

Government remains committed to a fiscal consolidation that balances the needs of the most vulnerable in society and protects the public finances for future generations. To turn the tide and raise economic growth sustainably, government is prioritising energy and logistics reforms, along with measures to arrest the decline in state capacity. Successful efforts to improve the fiscal position, complete structural reforms and bolster the capacity of the state will, in combination, reduce borrowing costs, raise confidence, increase investment and employment, and accelerate economic growth. The 2024 Budget will yield a primary budget surplus, leading to the stabilisation of debt by 2025/26. Over the medium term, a binding fiscal rule will be introduced to anchor sustainable public finances.

Economic Growth & Domestic Outlook

The economic outlook over the medium term remains weak, reflecting the cumulative effect of power cuts, the poor performance of the logistics sector, high inflation, rising borrowing costs, and a weaker global environment. Global growth is forecast to increase, from 3.1 per cent this year to 3.2 per cent in 2025.

The International Monetary Fund forecasts global growth to slow from 3.5 per cent in 2022 to 3 per cent in 2023 and 2.9 per cent in 2024. South Africa’s 2023 GDP growth estimate has been revised down to 0.6 per cent due to widespread power cuts, operational and maintenance failures in freight rail and at ports, and high living costs.

The medium-term outlook has improved marginally, with average growth of 1.6 per cent forecast, compared with 1.4 per cent at the time of the 2023 Medium Term Budget Policy Statement (MTBPS). GDP growth has averaged only 0.8 per cent since 2012, a rate of economic growth that is insufficient to address high levels of unemployment and poverty. Long-

term growth is highly dependent on improving capacity in energy, freight rail and ports, and on continuing to reduce structural barriers to economic activity. The economic growth strategy prioritises macroeconomic stability, structural reforms and improvements in state capability to raise growth rates in a sustainable manner.

Over the next three years, South Africa's economy is forecast to grow at an average of 1.6 per cent, a moderate improvement on the 1.4 per cent average expected at the time of the 2023 MTBPS. The outlook is supported by an expected recovery in household spending as inflation declines, and an increase in energy-related fixed investments. Despite the improved global outlook for 2024, South Africa's near-term growth remains hamstrung by lower commodity prices and structural constraints.

The economy is estimated to have grown by 0.6 per cent in real terms in 2023. The negative impact of power cuts, the poor state of ports and freight rail, and inflation have taken a toll. The outlook, however, shows moderate improvement. Global inflationary pressures are receding, and interest rates are expected to start declining. Power cuts should become more infrequent as additional generating capacity comes online.

Economic growth is projected to average 1.6 per cent per year from 2024 to 2026. The growth outlook is supported by the expected easing of power cuts as new energy projects begin production, and as lower inflation supports household consumption and credit extension.

Domestically, we forecast a 0.8 per cent growth in real GDP in 2023. This is 0.1 percentage points lower than the growth projection at the time of the 2023 Budget. Growth is projected to average 1.4 per cent from 2024 to 2026. These growth rates are not sufficient to achieve our desired levels of development.

Risks to the global outlook includes:

- Subdued prices for key export commodities and domestic supply side constraints; and
- Further potential increases in the global oil prices due to conflict in the middle east and poor growth in China due to continuing real estate crisis.

The domestic outlook faces a range of risks, and include primary risk such as:

- Continued operational and maintenance failures in electricity, freight rail and ports remain a persistent and binding constraint on output in the near term.
- A longer-than-expected period of high sovereign credit risks could increase borrowing costs further, weighing on investment and growth.

- Domestic interest rates could further erode consumption spending, alongside the risk of continued food inflation.
- On the other hand, the domestic growth outlook may improve if there is less load-shedding than expected in the near term, coupled with a faster-than-expected resolution of the rail and port infrastructure constraints.

The key focus areas outlined in the 2024 Budget Review to enhance economic growth are as follows:

- Establishing a sound macroeconomic framework that promotes lower interest rates and more predictable exchange rates movements, whilst also proactively managing the risks of macroeconomic imbalances such as high budget deficits and it is resilient to external shocks. This stability and resilience support savings, investment decision-making and job creation.
- Stable macroeconomic framework, complemented by rapid implementation of economic reforms and improved state capability.
- Numerous reforms under way through Operation Vulindlela and the economic recovery plan. The most noteworthy reforms include freight logistics, ports, energy sector reforms, generation capacity (electricity), water and telecommunications.
- Boosting growth through a capable state who crafts and enforces regulations to improve the business climate. Initiatives like the National Logistics Crisis Committee and partnerships with the private sector to improve procurement help to bolster state capability.
- Government is committed to professionalising public administration, improving the governance of state-owned enterprises and fostering a more stable and attractive environment for investment.
- Embarking on a broad structural reform agenda aimed to address challenges that hinder economic growth in areas such as electricity, logistics, water, telecommunications and visa reforms.

In summary, the Medium-Term Budget Policy Statement commits government to continue to support the economy, stabilise public finances and protect the social wage by

- Fast tracking the implementation of structural reforms, key being in the electricity and logistics sectors, to lift our growth prospects.
- Adopting a prudent fiscal stance that supports growth, promotes investment and prevents the build-up of systemic risks to the economy.
- Directing scarce fiscal resources towards key priority areas including frontline services and social protection while reducing inefficiencies and wastage.

The President of South Africa, in his State of the Nation Address (SONA), on the 8th February 2024 highlighted/ looked back on the achievements and progress that were made over the past 3 decades of democracy in South Africa, corruptions due to state capture and the covid pandemic and issues, challenges and devastation that it caused.

The pandemic worsened a situation of deep unemployment and negatively affected livelihoods and increased poverty. Till this day households are still struggling to recover from the pandemic and now they are also facing the rising cost of living that are currently in effect. Even though progress is evident in reducing loadshedding, this issue is still impeding our recovery from the effects of these events.

One of the immediate tasks on the agenda for the year ahead is to drastically reduce the severity of loadshedding in the coming months, and ultimately end loadshedding altogether. Many innovative developments are currently driving the restructuring of the electricity sector, which will lead to the end of loadshedding.

The President placed emphasis on the issues concerning South Africa such as,

- Unemployment;
- Poverty and rising cost of living;
- Housing;
- Safety and Security;
- Reducing and eliminating load-shedding and
- State capture, crime and corruption.

The following focus areas were also highlighted, amongst others, during the State of the Nation Address:

- Stabilizing energy supply and fixing the country's logistics system;
- Clear plan to end load-shedding through the National Energy Crisis Committee;
- Major investments and developments in renewable green energy which will create jobs and stimulate local economies;
- Implementation of regulatory reforms to enable private investment in electricity generation;
- Increased financing pledges for the Just Energy Transition Investment Plan from R170 billion to almost R240 billion;
- Climate change: Implementation of just energy transition, to reduce carbon emissions and fight climate change;

- Establishing the Climate Change Response Fund to address the effects of global warming, that are manifested through persistent floods, wildfires and droughts;
- The current conflict in Middle East has resulted in South Africa offering bunkering services for ships that will be re-routed to our shores;
- Modernization of mining rights licensing system to support growth in the mining sector;
- Utilization of new and innovative funding mechanisms to increase construction of infrastructure. Reliable water supply (Department of Water and Sanitation is in the process of investing in major infrastructure projects);
- Implement reforms in key areas such as energy, transport and logistics, water security, employment creation and skills development, investment, social protection, crime and corruption;
- Improvement in access to education for all through various initiatives;
- Government plans to incrementally implement the National Health Insurance (NHI) to improve both the quality of healthcare and the equality of access;
- Provision of housing and access to basic services;
- To address the service delivery challenges in communities the District Development Model were established. This is an effective instrument to enhance cooperative governance and collaboration between the 3 spheres of government;
- Develop master plans in sectors such as automotive, clothing and textiles, poultry, sugar, agriculture and global business services;
- Efficient transport and road infrastructure system;
- Rising cost of living that is deepening poverty and inequality;
- Extension of the Social Relief of Distress (SRD) Grant;
- Promotion and encouragement of black economic empowerment, especially in ownership of farmlands;
- Building of an inclusive economy, focusing on women and black empowerment, advancement of workers' rights, intensifying land reform and pursuing a just energy transition that leaves no one behind;
- Strengthening the SAPS, through launching of Operation Shanela, to target crime hotspot;
- Establishment of the Economic Infrastructure Task Teams in combating cable theft, damage to critical infrastructure and illegal mining in all provinces;
- Border Management Authority were launched to improve border security;
- Development of the National Strategic Plan on Gender-based Violence;
- Use of foreign policy to pursue the government's development goals; and

- Further improvement and progress in establishing the African Continental Free Trade Area, to transform South Africa's economy by creating new jobs and increasing economic participation.

The President focused on the achievements of the last 5 years, which signified a time of recovery, rebuilding and renewal, where government has worked with social partners to address challenges during COVID 19- pandemic and mobilizing a society wide response to gender-based violence, amongst others. In the past year government has worked together with social partners to end loadshedding, address challenges in the logistics sector, tackle crime and corruption, and accelerate job creation.

The President also highlighted the various accomplishments and improvements that the 6th democratic administration has achieved over their term in office, including but not limited to, overcoming/ reducing the electricity crisis, fighting crime and corruption, implementation of measures to improve economic growth and job creation, supporting small businesses, improvement in education and tackling crime and corruption. Notwithstanding all these aforementioned achievements the President placed emphasis on the continued resolve of government to keep building, strengthening and improving on the process of renewal and reform.

Local government plays a very crucial role in service delivery, and in order to provide effective and efficient services to the people local government has to work. The President stated that too many of the municipalities are failing on good governance, financial and service delivery measures. These constraints affect the daily lives of normal citizens.

The government has started to implement a number of measures to address the aforementioned problems by providing support to local government, by professionalizing the civil service and by ensuring that the officials with the right skills are appointed in crucial and key positions. The Presidency, together with National Treasury and COGTA are working together to enhance technical capacity of local government and to improve planning, coordination and fiscal oversight.

The Minister of Finance, in his Budget speech on 24th February 2024, highlighted the following areas of importance for the 2024 Budget:

- Supporting economic growth through electricity and logistics or transport system reforms;
- Supporting public infrastructure investment, to optimize the infrastructure value chain to be effective and efficient;

- Mainstreaming climate financing through development of a multi-layered risk-based approach is being developed to manage the associated fiscal risks;
- Supporting the production of new energy vehicles;
- Leveraging Procurement for Transformation through the establishment of the Public Procurement Bill;
- Two-pot retiring system which ensures a balance between preserving contributions to safeguard a better retirement for members, while addressing the plight of the people to access some of their retirement funds to help ease their financial burdens in times of distress;
- The allocation for the National Health Insurance (NHI) is a demonstration of the government's commitment to this policy. There remain a range of system-strengthening activities, that are key enablers of an improved public health care system that must be undertaken. Such activities include:
    - Building a national health information system and digital patient records;
    - Upgrading health facilities and improving quality of care to ensure that they meet the minimum criteria to be certified and accredited for contracting under NHI;
    - Strengthening facility and district management in preparation for contracting;
    - Granting semi-autonomous status for central (and potentially other) hospitals; and
    - Developing reference prices and provider payment methods for hospitals.
- Significant progress were made in improving access to public transport services for low-income commuters;
- Increasing permanent social grants;
- Improving the COVID 19 Social Relief of Distress Grant through extension of the grant beyond March 2025, the social security policy reforms, together with the funding source, will be finalized.

During his Budget speech the Finance Minister wanted to remind the South African people that the government is making the most of its very limited resources and will continue to:

- Support economic growth;
- Reduce the growth of government debt and the cost of debt; and
- Allocate more funds for core services, provide for the social wage and preserve infrastructure budgets.

The 2024 Budget makes allocations towards infrastructure as well as crime and corruption, to ensure that public resources are used to lay the foundation for a more resilient economy.

The Western Cape Premier in his State of the Province address, on 19th February 2024, stated that his main focus is to ensure that regardless of whatever else is happening in the world, here in the Western Cape, the government will create the space for diverse views to be shared and expressed and that the rule of law is adhered to. He encouraged citizens to speak up wherever there is injustice and to simultaneously focus on residents' critical needs such as safety, growing the economy, enabling jobs, and ending load shedding.

The Premier, reiterated the following sentiments highlighted during the State of the Nation Address, including but not limited to, the president to address the energy crises and reduction and elimination of load shedding permanently, economic growth recovery initiatives, unemployment / job creation (especially youth interventions), sustainable infrastructure development, educational infrastructure, health infrastructure, provision of housing (dignified living), agriculture, crime and safety, as well as campaigns against gender-based violence and femicide.

The State of the Province address focused, amongst others, on the following areas:

- Devolution of critical services through the Western Cape Provincial Powers Bill. This Bill is about being able to better manage critical functions and maintain the high standard of services that the residents receive;
- Protection of most vulnerable citizens with a 365-day approach to gender-based violence through various campaigns and programmes;
- Feeding those in need through establishment of various initiatives such as 102 community nutritional and development centres across the province and the School Nutrition Programme (at schools);
- Creation of employment through the Growth for Jobs (G4) Strategy. Between the second quarter of 2022 and the second quarter of 2023, the Western Cape's official unemployment rate decreased by 6.6% to 20.9%. This is the lowest unemployment rate in the country and substantially lower than any other provinces;
- Providing support to small businesses through the SMME Booster Fund where small businesses are able to grow and create new employment opportunities;
- Continuous building on the province's tourism successes, through introduction of the G4J Tourism Challenge Fund, which invests in the development of new tourism infrastructure and experiences to stimulate private sector investment;
- Infrastructure- led economic growth;
- Investing vast sums of resources into providing dignified, safe places of teaching and learning for our children;

- Keeping up with the ever growing education population through the Rapid School Build Programme (Education Infrastructure)
- Agriculture;
- Safety and Security;
- Youth Interventions;
- Establishment of the Mobility Department which drives the efforts of the province to make the roads and public transport nodes safe and efficient for the residents;
- Devolution of rail responsibility to the provincial government;
- Provision for emergencies by being committed to topping up the Asset Finance Reserve and Budget Facility for Infrastructure. This prudent financial management served the province well during COVID-19 and recent disasters;
- Becoming the first loadshedding free province by making the Western Cape energy resilient by embarking on various initiatives and partnerships, which includes building an energy ecosystem to bring more private sector role players into the fold to help overcome the power crisis. Phelan Energy is one such company that is tapping into the green hydrogen (GH2) sector.
- Load shedding emergency relief grant that makes provision for generators to protect critical services (provision of clean water, etc);
- Ensuring the citizens basic needs are protected;
- Responding to climate crisis through various partnerships with citizens and NGO's with support from the Provincial Disaster Management Centre, establishment of the 15-year Integrated Drought and Water Response Plan;
- Promoting and encouraging good clean ethical governance which is a building block for economic growth and job creation;
- Coalitions of corruption
- Improved service delivery capabilities through various innovative advancements, proofing that a data-based, evidence-led approach taken by policing, healthcare, education (proof that reliance on data, evidence and technology) are working, streamlining services and better utilisation of resources to the benefit of the people.

The Premier reaffirmed the Western Cape government's aim to create certainty, build hope, bolster collective resilience and effect change for the residents.

Provincial treasury reiterated most of the challenges and focus areas highlighted in the Premier's State of the Province address, the SONA and the 2024 Budget Review.

National Treasury encourages municipalities to maintain tariff increases and adopt a tariff setting methodology at levels that reflects an appropriate balance between the affordability to poorer households and other customers, while ensuring the financial sustainability of the municipality. Municipalities must ensure that their budgets are funded from realistically anticipated revenues. This means that the municipality must refrain from assuming collection rates that are unrealistic and unattainable. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act, which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. The municipalities must therefore generate sufficient revenue to fully recover their costs, deliver services to customers sustainably and invest in the infrastructure that promises local economic development.

The municipality's revenue is determined by setting a package of tariffs that is not only considered to be affordable to its ratepayers and the users of it services but deemed to be at fair and realistic levels.

Tariff increases by Eskom and Water Boards is above inflation and should be considered as such while determining cost reflective tariffs. In the instance of bulk tariff increases for electricity, municipalities are encouraged to apply for electricity tariff increases that reflect the total cost of providing the service, to ensure that they are working towards achieving fully cost-reflective tariffs that will assist them to achieve financial sustainability. Municipalities should consider the following facts during the tariff setting process, namely, the costs of bulk purchases and the fluctuation in the seasonal cost thereof; the consumption patterns to enable better demand planning and management; and in the event that municipalities have been under recovering costs, embark on a process to correct their tariff structures over a reasonable time period so that cost reflective tariffs are achieved, which in turn will result in financial sustainability.

Local government confronts tough fiscal choices in the face of financial and institutional problems that result in service-delivery breakdowns and unpaid bills. Municipalities can offset these trends by improving their own revenue collections, working more efficiently and implementing cost-containment measures. In order to maintain a funded budget, municipalities need to not only focus on tariff increases, but also focus on how to eliminate expenditure that is unnecessary. The Cost Containment Regulations were issued on 07 June 2019, as well as the municipality's Cost Containment Policy is embedded in the municipality's operations that assists in driving down costs, ensuring that value for money is achieved and resources of the municipality is used effectively, efficiently and economically.

Municipalities are required to consider the following during the compilation of the 2024/2025 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulation read with MFMA Circular No.82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Prioritize the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

The aforementioned were taking into account during the compilation of the municipality's budget.

The application of sound financial management principles for the compilation of the Stellenbosch municipality's long term financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities. The municipality's business and service delivery priorities were reviewed as part of this year's planning, through the Integrated Development Plan (IDP), and the annual budget process.

Funds were shifted from low to high priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on non-core and 'nice to have' items with regards to expenditure. The municipality has embarked on developing a revenue enhancement strategy to optimize revenue, including the collection of debt owed by consumers. Furthermore, the municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2024/2025 MTREF can be summarized as follows:

- The on-going difficulties in the national and local economy;
- Electricity crises / Load shedding;

- Aging infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope;
- The increased cost of bulk electricity and procuring water inventory, which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Attracting economic investment;
- Water Conservation;
- Reductions in allocations of some of the National and Provincial grants due to a worsening fiscal outlook;
- Limited resources to deal with all key priorities;
- Decline in reserves available to fund capital programmes.

The following budget principles and guidelines directly informed the compilation of the 2024/2025 MTREF:

- Integrated Development Plan was used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be as affordable. However, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- National, provincial and local priorities;
- Headline inflation forecasts; and
- Funding choices and modelling.

The Integrated Development Plan (IDP) were used as a guiding strategic document to inform the budget compilation. The challenge however is still to deliver services more efficiently and effectively with the tight financial envelope.

Stellenbosch municipality's revenue strategy was based on the following fundamentals, namely, tariff policies of the municipality, economic outlook and development for Stellenbosch and surrounding areas, National Treasury's guidelines and macroeconomic policy, National, Provincial and Regional fiscal growth rates and electricity tariffs as approved by National Electricity Regulator of South Africa (NERSA).

The financial resources to fund the Operational Budget will and must consist of realistically anticipated revenue generated from property taxes, service charges and other income.
The municipality were mindful of the estimated headline inflation for 2024/2025 of 4.9% forming the basis of the extensive income modelling exercise, but also taking into account the principles

of economical services that are cost reflective, trading services generating surpluses, the effect of escalating salary costs and bulk purchases. Inflation is forecast to fluctuate around 4.9% to 4.6% over the medium term in line with moderating inflation expectations.

The national budget focuses on fiscal consolidation. This means that we as municipalities must ensure that we do not borrow beyond our ability to repay and we do not spend money we do not have, until we ignite growth and generate revenue, we have to be tough on ourselves.

The total budget quantum for the 2024/2025 year is R3 111 079 435 of which R2 511 734 132 (81%), is allocated to the operating budget and R599 345 303 (19%) to capital investment.

OPERATING BUDGET – REVENUE

Overall revenue budget increase was limited to 6.66% resulting in annual operating revenue increasing from R2 456 088 829 in 2023/2024 to R2 631 276 396 in 2024/2025. Taking cognisance of the economic conditions, the resultant low employment levels and levels of disposable income, it was important to keep services affordable by critically looking at the costs associated with providing the service.

Accordingly, management investigated potential pitfalls and amongst others found that spiralling expenditure on employee costs did not keep trend with realistically anticipated revenue streams, compounded by the decline in electricity surpluses as a result of higher input costs to provide the service.

- Average tariff increases:

Property Rates	6.30%
Electricity	10.99%
Water	6.20%
Sanitation	8.00%
Refuse removal	6.90%

- The proposed electricity tariffs are subject to change based on the final findings and recommendation of the cost of supply study. The proposed electricity charges and tariff structure is subject to National Electricity Regulator of South Africa (NERSA) approval.

- The Municipality succeeded in accessing the EPWP Incentive Grant for Municipalities in a bid to give some relief to the poorest of the poor by means of contract employment opportunities over the short term. The allocation for the 2024/25 financial year is R 2 021 000.

Rates

In the 2024/2025 financial year, the Property Rates Tariff paid by owners will increase with 6.30%, whilst total rates also increased with 7.50%. The increase in total rates is due to interim valuations that were performed. Rates rebates to senior citizens and disabled persons are also available as per the requirements of the amended Rates Policy to qualifying ratepayers with a monthly income of R15 000 or less.

Electricity

According to NERSA, the inclining block rate tariff structure is commonly used to charge for electricity usage. The feature of this tariff structure is that the more you use, the higher the average price. The objective of the inclining block tariff is to provide protection for lower usage customers against high price increases resulting in a reduction in tariffs to these customers. This means that higher consumption customers will see increasingly punitive charges based on their electricity usage. The municipality is implementing the directive from NERSA as part of the Municipality's Licensing Agreement and as a result had to deal with the negative impact of a declining Electricity surplus, year-on year, putting more pressure on the level and quality of services provided.

Council's attention is further drawn to the fact that the proposed electricity tariff is at 10.99% whereas the increase in electricity bulk purchases for the 2024/2025 financial year is 12.70% as approved for Eskom by NERSA (National Electricity Regulator of South Africa. Although the proposed tariffs increase with 10.99%, the municipality is experiencing a decrease in electricity demand as consumers are utilising alternative energy sources.

Municipalities are urged to examine the cost structure of providing electricity services and to apply to NERSA for electricity tariff increases that reflect the total cost of providing the service, so that they work towards achieving fully cost-reflective tariffs that will help them achieve financial sustainability.

The guidelines and benchmark previously provided by the National Energy Regulator of South Africa (NERSA), will no longer be published for annual electricity distributor's tariff increases, NERSA stating that electricity tariff increases will be based on municipal costs. Even though NERSA has not provided guidelines and benchmark, the revenue requirement template provided serves as a useful tool that must be completed and submitted to NERSA as part of the tariff application.

Water

Taking cognizance of the challenges that the country is currently experiencing due to the severe drought, the plight of the poor and the affordability of basic services, the average tariff increase for the rest of the consumptive water scales is 6.20%. The tariff is designed to cater for current and future capital investment in basic water infrastructure and the need to generate surpluses.

Based on the comments received during public participation process the municipality has kept the tariff above 70kl the same as the 2023/2024 financial year. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2024/2025 and not based on the approved budget for the same year.**

Sewerage (Sanitation)

The proposed increase in this tariff is 8.00%. Sanitation services is classified as an economical service. This means that the service charges for sanitation must cover the cost of providing the service, i.e. it must at least break even. This tariff increase is necessitated by operational requirements, maintenance of existing aging infrastructure, new infrastructure financing/provision and to ensure that the service is delivered in a sustainable manner. **It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2024/2025 and not based on the approved budget for the same year.**

Refuse (Solid Waste)

Refuse removal services, like sanitation are also classified as an economical service. This means that the service charges for refuse must cover the cost of providing the service, i.e. it must at least break even. The municipality will implement an above inflation tariff increase as this service does not break even and to provide for the additional expenditure for the transport of the waste from the Stellenbosch Landfill Site. The solid waste tariffs were modelled to give effect to the principle of the service charge being cost reflective as the service cannot be cross-subsidized. It is proposed that the tariff increases by 6.90% as a result of the before mentioned. The very nature of this tariff does not lend it to financing the expansion of the landfill site and therefore the proposed extension by way of constructing the new cell, was funded from council's own reserves.

It is however important to note that the proposed revenue as per table A4 (Appendix 1 – Part 1 – Section D) is based on the anticipated actual performance of the income to be derived in 2024/2025 and not based on the approved budget for the same year.

Debt Management

The municipality is currently executing all credit control and debt collection procedures as required in the approved Credit Control and Debt Collection policy. These internal procedures followed include the disconnection of services, where there are services that can be disconnected, the issuing of final notices, the conclusion of reasonable agreements where the settlement of the accounts is not possible and also the follow up on defaulting debtors not honoring arrangements.

The municipality continuously enforces the above procedures to ensure that debt which is collectable is collected and all debt that is regarded as not recoverable, be written off.

The municipality developed a revenue enhancement strategy. The document focuses on the formulation and implementation of strategies to improve financial management and controls within the municipality. The objective of any successful revenue enhancement strategy is to build and improve on current payment levels and then to recover arrear debt.

The municipality has also promulgated the Credit Control and Debt Collection By-Law on the 4th of March 2011 to strengthen the internal credit control and debt collection procedures through handing over of all debt over 90 days to the appointed attorneys.

A zero-tolerance approach will be followed where consumers are able to pay for services, as this indirectly denies paying consumers the level and standard of service that they are entitled to.

OPERATING BUDGET - EXPENDITURE

The budget sees an increase in annual operating expenditure from R2 360 377 430 in 2023/2024 to R2 511 734 132 in 2024/2025. This 6.03% increase is primarily due to increases in several expenditure categories, examples which are included in the table below:

EXPENDITURE CATEGORIES	2023/2024	2024/2025	% INCR.
Employee related costs	623 835 797	656 454 675	4.97%

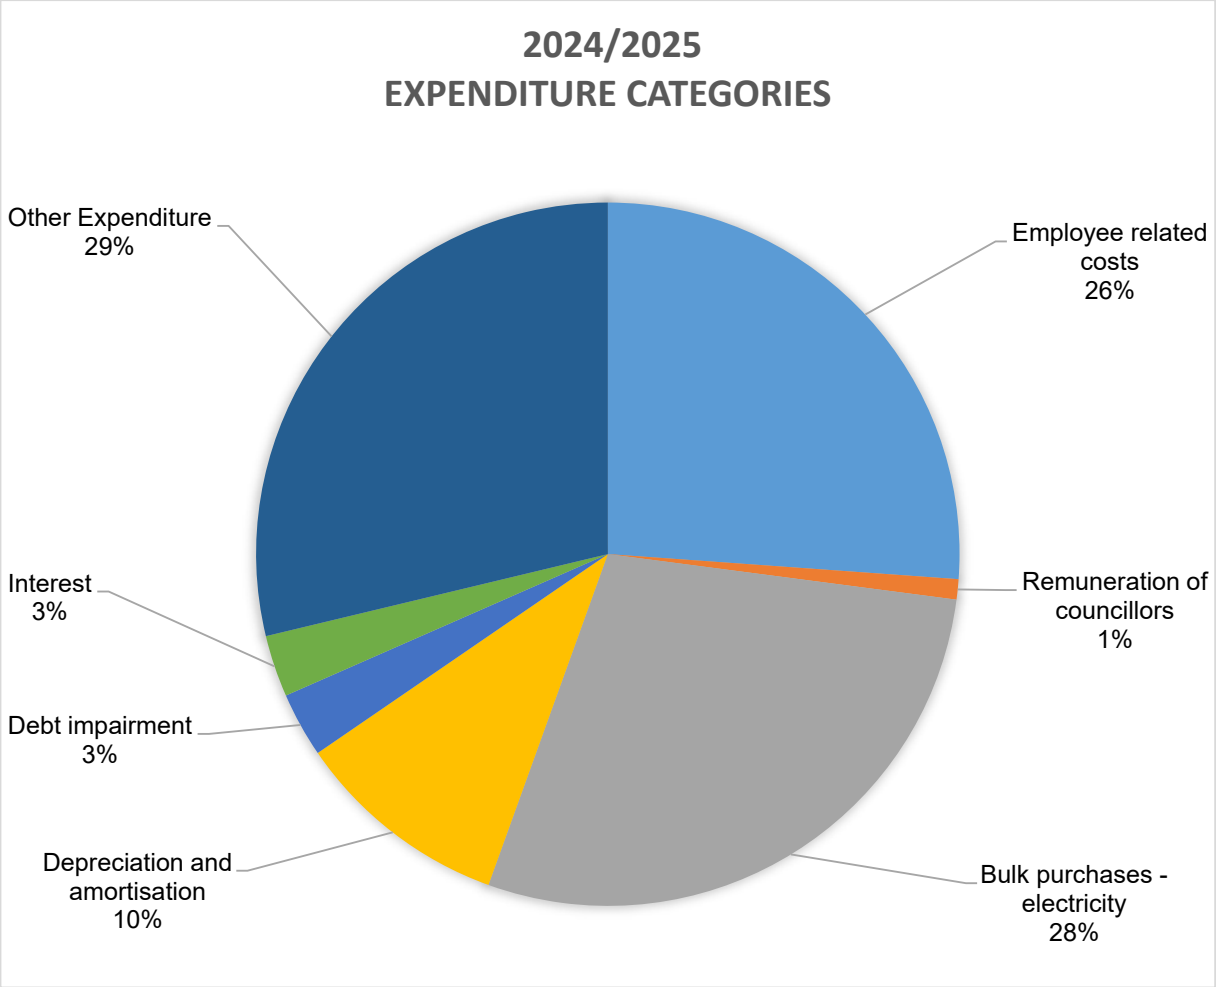
Total Expenditure	**2 360 377 430**	**2 511 734 132**	**6.03%**

Council to note the upward pressure of external borrowing interest (Finance Charges) on future tariffs. In this regard, strong political will and strategic leadership is required to ensure that the municipality maintains the position of being responsive to its communities by ensuring that service charges are kept affordable and realistic by amongst other, critically investigating funding choices and expenditure decisions.



Explanation of significant expenditure variances:

Finance Charges

The interest payable for the 2024/2025 financial year has been calculated on the maximum amount of possible borrowings drawn down up to the end of the 2024/2025 financial year.

Bulk Purchases

The municipal tariff guideline increase issued by NERSA setting the bulk purchase increase at 12.70%.

Other expenditure

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions. These interventions include amongst other, measures to limited telephone usage and filling of critical vacancies that will result in a decrease in consulting fees.

CAPITAL BUDGET

The capital budget increased from R491 726 021 in 2023/2024 to R599 345 303 in 2024/2025.

PART 2

A: OVERVIEW OF STELLENBOSCH MUNICIPALITY

Background

Stellenbosch Municipality is located in the heart of the Cape Winelands. It is situated about 50 km from Cape Town and is flanked by the N1 and N2 main routes. The municipal area covers approximately 900 km².

State of the Greater Stellenbosch Area

Introduction

Stellenbosch Municipality is located at the edge of the City of Cape Town but still manages to retain its distinct small-town character. This undoubtedly gives Stellenbosch a strong competitive advantage – sharply contrasting with similarly sized towns located 400 km or more from the nearest metropolis. Aside from being a mere 50 km from Cape Town's central business district (CBD) and being flanked by the N1 and N2 main routes, Stellenbosch is also just 30 km away from the sea (at Somerset West/Strand) and only a few kilometres away from one of the most attractive mountain ranges of the Boland. In addition, Stellenbosch is a mere 28 km from Cape Town International Airport, one of South Africa's top (air) links to the global economy, and not much further away from Cape Town Harbour, the shipping portal to both the Atlantic and Indian Oceans.

This convergence of environmental resources, scenic quality and business opportunities has two other mutually reinforcing spin-offs: The largest number of JSE-listed companies based in any small South African town have their headquarters in Stellenbosch and the town is home to a disproportionately high number of corporate CEOs and executives, which in turn means that it can sustain a comparatively high level of economic activity and consumer services for a town of its size. This results in other benefits throughout the value-add chain and for employment. The municipal area covers approximately 900 km². The municipality's area of jurisdiction includes the towns of Stellenbosch and Franschhoek, as well as several rural hamlets such as Wemmershoek, La Motte, De Novo, Kylemore, Pniël, Johannesdal, Lanquedoc, Groot Drakenstein, Muldersvlei, Klapmuts, Elsenburg, Raithby, Jamestown, Koelenhof and Vlottenburg (most with a population of less than 5 000). Apart from formal settlement areas, the municipal area also includes several informal settlements.

Stellenbosch town is the second oldest town in South Africa, dating back to 1679 when an island in the Eerste River was named Stellenbosch by the then Governor of the Cape, Simon van der Stel. The first farming activities in the area were started in 1679. Today, the area has become primarily known for its extraordinary wines and fruits. The towns of Stellenbosch and Franschhoek are renowned for various architectural styles such as Dutch, Georgian and Victorian, which reflect their heritage and traditions, but also divisions of the past.

The area houses excellent educational institutions, including the University of Stellenbosch and several prestigious schools. It has a strong business sector, ranging from major South African businesses and corporations to smaller enterprises and home industries. The tourism industry alone is responsible for the creation of about 18 000 jobs in the area. Wine farms and cellars abound, and the area is the home of the very first wine route in South Africa. A variety of sports facilities are available. Coetzenburg, with its athletics and rugby stadiums, has delivered star performances over

many generations. The municipal area has a variety of theatres, which include Stellenbosch University's HB Thom Theatre, Oude Libertas Amphitheatre (renowned for its summer season of music, theatre, and dance), Spier Amphitheatre, as well as Klein Libertas Theatre, Dorp Street Theatre, and Aan de Braak Theatre.

Ward Demarcation

The Stellenbosch Municipality is currently structured into the following **23** wards:

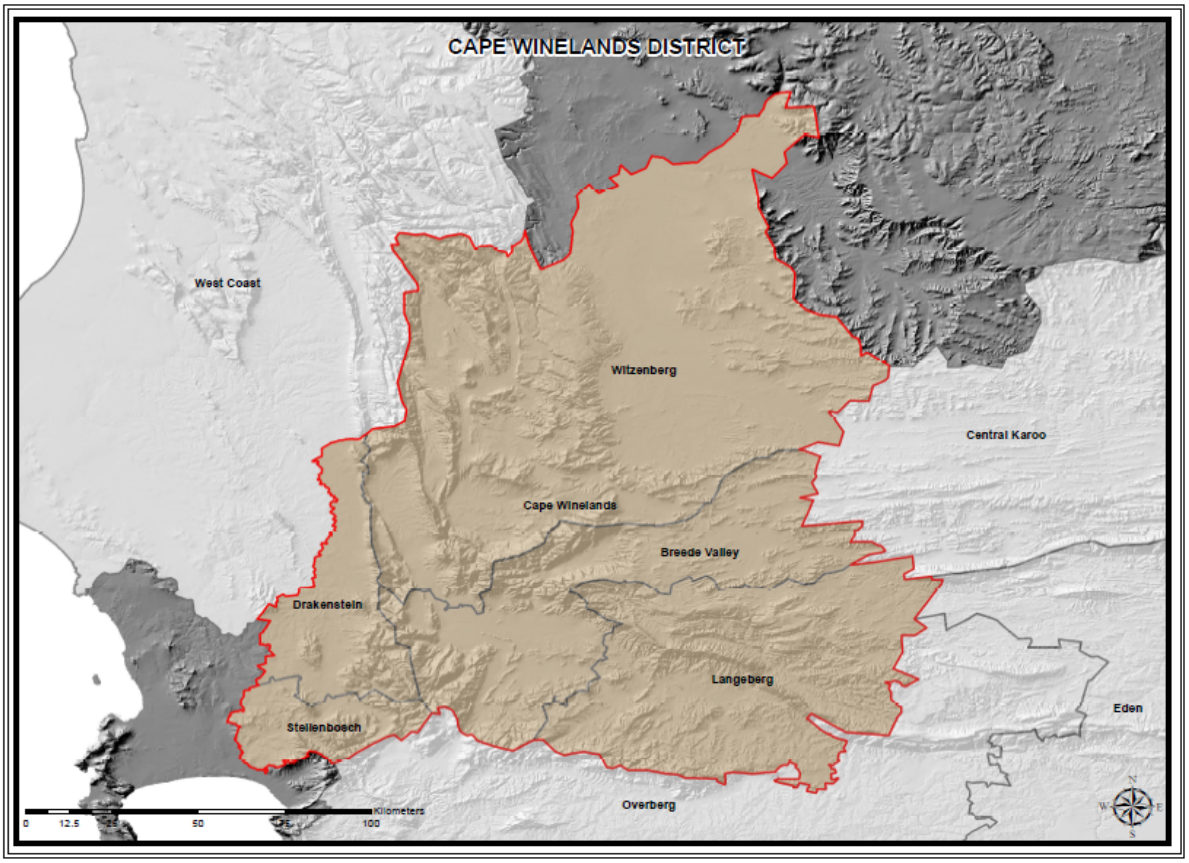
Below is a map of the Cape Winelands District concerning the provincial district boundaries:

Map 1: Locality of Cape Winelands concerning Provincial Boundaries

The Western Cape Province makes up 10.6% of the country's land surface and encompasses an area of 129 462 km2. The province's spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Eden renamed Garden Route, Overberg, Cape Winelands, and West Coast), and 24 local municipalities.

Below is a map of the municipalities concerning the Cape Winelands District:

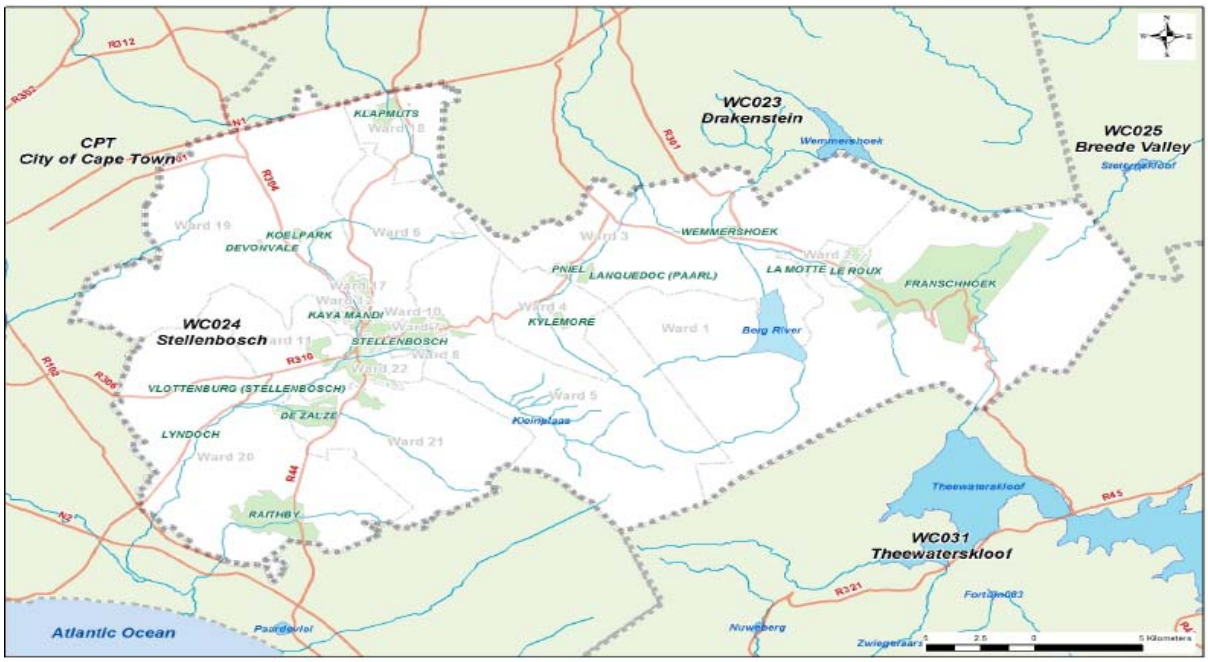
Map 2: Locality map of Stellenbosch Municipality concerning Cape Winelands District Boundaries



The Cape Winelands District Municipality is located within proximity of the City of Cape Town, which offers excellent access to trade opportunities, routes, and infrastructure such as expanding broadband networks, an international airport (with direct flights to international cities), the second-largest container port in the country, and a comprehensive road and rail network. This makes the Cape Winelands district ideally located as an investment destination. The Cape Winelands District municipal area incorporates Drakenstein, Stellenbosch, Breede Valley, Langeberg, and Witzenberg.

Below is a map of the Stellenbosch Municipality's area of jurisdiction:

Map 3: Locality map of municipal boundaries



Stellenbosch Local Municipality is located in the heart of the Cape Winelands and adjacent to the City of Cape Town and Drakenstein Municipality. Stellenbosch Municipality, as a local authority, governs the towns of Stellenbosch, Pniël, Klapmuts, Kylemore, Jamestown, Raithby, Ida's Valley, Cloetesville, Kayamandi, and Vlottenburg, as well as the surrounding rural areas. The area covers 831 square kilometres and adjoins the City of Cape Town (CoCT) to the west and south and the Breede Valley, Drakenstein, and Theewaterskloof Municipalities to the east and north. Functionally, Stellenbosch Municipality (SM) forms part of the Greater Cape Town metropolitan area.

The main settlements in SM are the historic towns of Stellenbosch, Franschhoek, and Klapmuts. There are also several smaller villages, including Jamestown (contiguous with Stellenbosch town), Pniël, Johannesdal, Lanquedoc, Lynedoch, and Raithby. New nodes are emerging around agricultural service centres, for example, Koelenhof and Vlottenburg. Stellenbosch is a sought-after space, offering opportunity and quality of living while being near city life. This has placed the municipal area under constant development pressure.

1.4 Socio – Economic Context

All socio-economic information is sourced from the Local Government Socio-Economic Profile 2022 and 2023. The statistical data are primarily sourced from Statistics South Africa, administrative data from sector departments, the Municipal Review and Outlook (MERO), Global Insight Regional Explorer, and Quantec. The GDPR performance, risk, and vulnerability factors can be read in detail within the Local Government Socio-economic Profile 2023 for the Stellenbosch municipal area.

1.4.1 Population Growth

In 2022, the Stellenbosch municipal area, a prominent region within the Cape Winelands, accommodated 21 per cent of the area's population, totalling **175 411** individuals. Projections indicate a steady rise, estimating a population of **192 951** residents by 2027, marking an average annual population growth rate of 2.0 per cent during this period. This growth rate surpasses the Cape Winelands District's average annual population growth rate of 1.7 per cent by 0.3 percentage points. The socio-economic implications of this demographic shift are multifaceted, impacting various sectors including housing, employment, and education within the region.

The table below depicts the population growth from 2022 to 2027:

1.4.2 Racial Split

The race dynamics in the Stellenbosch municipal area present a diverse demographic landscape. Much of the population comprises Black African individuals, accounting for 37.0 per cent of the total, followed closely by the Coloured community, constituting 37.8 per cent. White residents make up 23.3 per cent of the population, while individuals categorised as Indian / Asian represent a smaller proportion at 0.5 per cent. This cross-analysis highlights the intricate racial composition within the Stellenbosch community, underscoring the significance of cultural diversity and its potential impact on economic and social interactions.

The table and graph below indicate the ratio split within the Cape Winelands District

Table 4: Racial Split

1.4.3 Gender Ratio

According to Stats SA, the Stellenbosch municipal area presented a gender ratio of 94.2, indicating that there are 94.2 men for every 100 women in the population. This ratio translates to 48.5 per cent males and 51.5 per cent females. The slight increase in the ratio observed towards 2023 suggests a potential influx of working males to the area or a rise in female mortality rates. This demographic shift carries significant socio-economic implications, as it impacts workforce dynamics and social structures within the municipal area.

The table below depicts the gender ratio within the Stellenbosch municipal area.

Table 5: Gender Ratio

Year	Cape Winelands	Witzenberg	Drakenstein	Stellenbosch	Breede Valley	Langeberg

1.4.4 Age Cohorts

Within the Stellenbosch municipal area, a distinct age composition was apparent in 2022. The youth population was the largest, accounting for a substantial 73.1 per cent of residents. Following closely behind were those between the ages of 35 and 64, who constituted 31.5 per cent of the population. This composition is primarily attributed to the presence of the acclaimed Stellenbosch University, which attracts students from across South Africa and around the world.

Additionally, the age composition of the population is analysed through dependency ratios, which highlight the proportion of individuals within the working age group (15 – 64) supporting dependents, including children and senior citizens. The higher dependency ratio in the graph below places increased strain on social systems and essential service delivery.

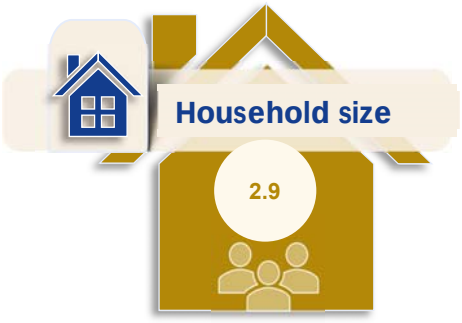
1.4.5 Household Size

Household size refers to the number of people per household. The average size of households is expected to remain an average of 2.9 individuals from 2022 to 2026. The trend of the average household size could be attributed to a wide range of factors, including but not limited to underlying socio-economic factors like patterns in employment opportunities, educational access, and housing market dynamics that shape this trend.

The table below depicts the household sizes from 2022 to 2026:

Figure 3: Household size



Source: Western Cape, Social–Economic Profile 2022 and 2023 (Stellenbosch Municipality) and StatsSA 2022

1.4.6 Population Density

Amidst rapid urbanisation across the Western Cape, population density figures will aid public sector decision-makers in mitigating environmental, health, and service delivery risks. In 2022, the population density of the Cape Winelands District was 45 persons per square kilometer. In order of highest to lowest, the various local municipal areas are compared as follows:

In order of highest to lowest, the various local municipal areas compare as follows:

- Stellenbosch 245 people/km2;
- Drakenstein 194 people/km2;
- Breede Valley 51 people/km2;
- Langeberg 27 people/km2; and
- Witzenberg 14 people/km2.

According to the above comparison, Stellenbosch has the **highest density** in the Cape Winelands District. This is helped a lot by the fact that the Municipal Spatial Development Framework (*m*SDF) says that urban development should stay within the limits of the urban edge.

Graph 2: Level of Urbanisation

1.5 Education

The socio-economic impact of education within municipalities is profound and complex, touching on various aspects of community development and individual well-being. Quality education equips individuals with essential skills, knowledge, and critical thinking abilities, empowering them to participate meaningfully in the local economy. As the educational attainment level rises within a municipality, there is a corresponding increase in employment opportunities and higher earning potential for residents. Additionally, an educated workforce attracts investments and industries, fostering economic growth and stability. Education also plays a pivotal role in reducing poverty and promoting social equity by breaking the cycle of intergenerational poverty.

1.5.1 Learner enrolment, the learner-teacher ratio and learner retention rate

Learner enrolment in Stellenbosch experienced a notable surge from 28 033 enrolments in 2020 to 29 092 in 2022, which reflects an increase of 1 059 learners. It is evident that the educational growth depicts a positive socio-economic trend within the region, presenting an enhanced emphasis on education and potentially indicating improved access to educational facilities.

The graphs below depict learner enrollments, learner-teacher ratios, and learner retention from 2020 to 2022.

Graph 3: Learner Enrolment

	Cape Winelands	Breede Valley	Drakenstein	Langeberg	Stellenbosch	Witzenberg
2020	150 125	34 542	50 186	18 659	28 033	18 705
2021	152 914	35 092	51 128	18 988	28 594	19 112
2022	154 061	35 112	51 730	18 989	29 092	19 138

Source: Western Cape, Social–Economic Profile 2022 and 2023 (Stellenbosch Municipality)

It is crucial to establish healthy learner-teacher ratios to determine the schools' capacity to accommodate the students. Lower learner-teacher ratios are associated with enhanced teacher-student interaction, fostering better-quality education. The 2022 Schools Realities Publications emphasise that government-paid teachers face high learner-teacher ratios, indicating larger class sizes. Despite a minor decrease from 26.8 students per teacher in 2020 to 26.6 in 2022, the ratio remains within the recommended range of 35:1 to 40:1.

This suggests relatively uncrowded classrooms, aligning with established standards and ensuring a conducive learning environment, ultimately impacting the socio-economic landscape positively.

The learner retention rate measures the proportion of learners in Grade 12 who were in Grade 10 two years prior. This can reflect essential socio-economic factors and personal circumstances that have a significant impact on education.

The inverse of the learner-retention rate is commonly referred to as the drop-out rate. Learner retention rates are influenced by a wide array of factors, including low socio-economic background, student attitudes towards education, overcrowded classrooms, critical thinking skills, study skills, and other personal circumstances that can make it difficult for the learner to focus on education.

Despite the learner retention rate progressing in the Stellenbosch municipal area, improving from 79.1 per cent in 2021 to 82 per cent in 2022, 18 per cent of the learners did not complete their studies. Addressing these factors is necessary for encouraging a more conducive learning environment, ensuring higher retention rates, and ultimately enhancing the region's overall socio-economic landscape.

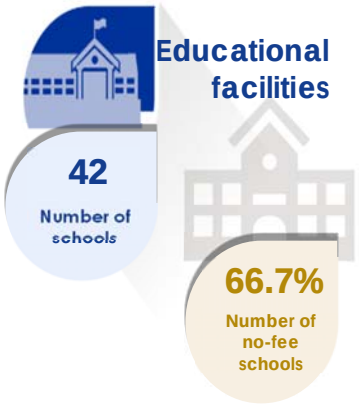
1.5.2 Number of schools and no-fee schools

Figure 4: Number of schools and no-fee schools

The number of schools within the Stellenbosch municipal area was recorded at 42 in 2022. Over the Medium-Term Expenditure Framework (MTEF), a substantial budget has been allocated for vital upgrades, additions, and the construction of new facilities in specific schools. This allocation is slated for use in enhancing the infrastructure of key educational institutions, including Aviation, Elsenburg Agri School, New Klapmuts Primary and High Schools, and New Stellenbosch Primary School. Such investments signify a proactive approach to bolstering the educational landscape, fostering an environment conducive to quality learning.

The proportion of no-fee schools in the Stellenbosch municipal area remains at 66.7 per cent in 2022, whereby 71.4 per cent are equipped with libraries.



Source: Western Cape, Social–Economic Profile 2023

1.5.3 Schools with libraries / media centres

The Stellenbosch municipal area consists of 42 schools in 2022, of which 30 were equipped with libraries. The availability of library facilities within schools contributes towards narrowing the academic attainment gap by allowing students access to information, which is in turn directly linked to improved education outcomes.

1.5.4 Education outcomes (matric pass rate)

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagement in the labour market, policy choices and decisions in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans can be realised.

The graph below depicts the Matric pass rates from 2020 to 2022.

1.6 Health

1.6.1 Health Facilities

According to the LGSEP 2022, in 2021, the Stellenbosch municipal area had 8 fixed primary healthcare facilities, comprising 7 fixed clinics, 1 community day centre, as well as 6 mobile / satellite clinics. In addition to these primary healthcare facilities, there is one district hospital, nine ART treatment sites, and 13 TB clinics. The municipal area has 14 (17.9 per cent) out of the 78 primary healthcare facilities within the Cape Winelands district.

The table depicts the total healthcare facilities.

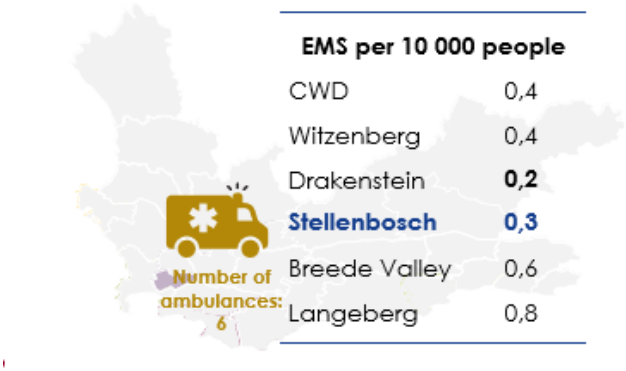
1.6.2 Emergency Medical Services

The provision of more operational ambulances can provide greater coverage for emergency medical services. This number below only refers to provincial ambulances and excludes all private service providers, and it remained unchanged between 2021/22 and 2022/23.

Figure 5: Emergency Medical Services



1.6.3 HIV / AIDS and Tuberculosis

The number of clients (patients) that remain committed to their antiretroviral treatment (ART) plan in the Stellenbosch municipal area increased from 6 915 registered patients in 2021/22 to 7 062 in 2022/23, while the number of new patients receiving ART declined from 481 to 429 during the same period. Similarly, the number of registered patients receiving TB treatment exhibited an average annual decrease of 9.7 per cent between 2021/22 and 2022/23.

1.6.4 Child Health

The immunisation coverage rate for children under the age of one in the municipal area worsened from 73.3 per cent to 64.5 per cent between 2021/22 and 2022/23. The overall Child Welfare and Development (CWD) rate also showed improvement, rising from 60.6 per cent to 62.2 per cent. However, there was a notable increase in malnourished children under the age of five, with severe acute malnutrition rising from 1.5 to 1.6 per 100 000 people between 2021/22 and 2022/23.

The CWD also increased from 1.8 per cent to 2.2 per cent while the provincial average changed from 0.9 to 1.3 per cent. The neonatal mortality rate (deaths per 1 000 live births before 28 days of life) for the municipal area declined from 6.3 in 2020/21 to 3.1 in 2021/22. The rate was still notably below the CWD average of 8.0. A total of 9.8 per cent of all babies born in a facility in the municipal area in 2021/22 weighed less than 2 500 grams, indicating possible challenges with long-term maternal malnutrition and poor health care during pregnancy

1.6.5 Maternal Health

In 2021/22, the Stellenbosch municipal area recorded the second lowest number of maternal deaths (61.1 per cent) and the lowest teenage pregnancies (13.2 per cent) in the CWD; however, these numbers decreased to 60.2 per cent (maternal deaths) and 12.5 per cent (teenage pregnancies) in 2022/23. However, the termination of pregnancy rate (0.7 per cent) remained unchanged across this period.

1.7 Poverty

1.7.1 GDPR Per Capita

In terms of Gross Domestic Product per capita (GDPR), an increase is only witnessed when economic growth surpasses population growth. According to the LGSEP 2023, the real GDPR per capita was R93 873 whereby the Stellenbosch municipal area has grown significantly with a per capita income of R110 7, marking the highest figure in the Cape Winelands District for 2022. All the data below are sourced from the Local Government Socio-economic Profile 2023 for the Stellenbosch Municipal area.

Despite a moderate regression in the period between 2016 and 2022, this highlights the municipality's robust economic potential, particularly noteworthy considering the recent economic challenges posed by the recession and the global COVID-19 pandemic, which impacted economic activities regionally and globally.

1.7.2 Income Inequality

According to the widely used Gini index, South Africa has one of the highest levels of inequality globally. Inequality is seen through a distorted distribution of income, unequal opportunities, and regional discrepancies.

The National Development Plan (NDP) has set a target of reducing income inequality in South Africa from a Gini coefficient of 0.7 in 2010 to 0.6 by 2030. In the Cape Winelands District, income inequality worsened to 0.69 in 2022, a trend expected to exacerbate due to the potential aftermath of the COVID-19 pandemic. Stellenbosch improved its income inequality, with inequality levels declining from 0.63 in 2021 to 0.61 in 2022, aligning below the district's trajectory.

1.7.3 Poverty Line

The Upper Bound Poverty Line (UBPL) headcount ratio is the proportion of the population living below the UBPL, i.e., that cannot afford to purchase adequate levels of food and non-food items.

Poverty affects the social development of communities through lower life expectancy, malnutrition and food insecurity, higher exposure to crime and substance abuse, lower educational attainment, and poor living conditions.

In 2022, 66.7 per cent of Stellenbosch's population fell below the UBPL. In 2022, 66.7 per cent of Stellenbosch's population fell below the UBPL, a slight improvement from 2016 and 2019. Stellenbosch and Drakenstein had the highest poverty rates in the Cape Winelands District, with Stellenbosch's 66.7 per cent slightly below the district's 64.8 per cent in 2022. Addressing these socio-economic challenges is essential for ensuring sustainable growth and development within the municipality.

1.8 Basic Service Delivery

The Constitution stipulates that every citizen has the right to adequate housing access and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to basic services such as potable water, basic sanitation, safe energy sources, and refuse removal services, to ensure that households enjoy a decent standard of living.

This section considers to what extent this has been achieved by reflecting on the latest available information from Quantec Research for 2021. The latest official statistics were collected by Statistics South Africa for the 2016 Community Survey; the 2021 Census will provide the updated official statistics. The information on free basic services is obtained from Statistics South Africa's Non-Financial Census of Municipalities Survey findings.

1.8.1 Housing and household services

During 2023, the Stellenbosch municipal area, which comprises 59 626 households, 87.3 per cent had access to formal housing, lower than the Cape Winelands District average of 88.8 per cent. The area also recorded a significantly higher proportion of informal dwellings, totaling 11.8 per cent, in contrast to the District's 10.3 per cent. Service delivery access levels within the municipal area were considerably higher than the access to formal housing, with access to piped water access (86.4 per cent), flush or chemical toilet access (96.8 per cent), electricity access (including generators) for lighting (96.9 per cent), for lighting at 96.9 per cent and the removal of refuse at least weekly by the local authority at 87.3 per cent of households. These access levels were above the District figures for electricity and refuse removal services.

1.8.2 Free Basic Services

The following table indicates the percentage of average registered indigent households that have access to free basic municipal services. The total number of indigent households excludes all informal households and includes formal households that have been registered as indigent households. The total i.t.o. of free basic electricity includes only indigent households claiming 100 kWh from the Stellenbosch Municipality. Additionally, it excludes the totals for areas where ESKOM manages the electricity distribution. Per the approved Indigent Policy of the municipality, all households earning less than R6 500 per month will receive free basic services as prescribed by national policy and in terms of Stellenbosch Municipality's Indigent Policy.

The table below indicates the number of households receiving free basic services.

Table 11: Access to Free Basic Services

Municipalities offer free basic services to financially vulnerable households, and the number of households receiving these services in the Stellenbosch municipal area sharply declined in 2020. The strained economic conditions are anticipated to increase demand for these services, leading to a rise in the number of indigent households. However, this trend is area-specific and contingent on the qualifying criteria applied. These findings underscore the persistent challenges and socio-economic factors influencing housing and essential service access within the Stellenbosch municipal area, emphasising the need for targeted interventions to uphold citizens' constitutional rights and enhance overall living standards.

1.9 Safety and Security

All the data below are sourced from the Local Government Socio–Economic Profile for 2023 for Stellenbosch Municipal area.

1.9.1 Murder

Murder *is defined as the unlawful and intentional killing of another person.*

Within the Stellenbosch area, the number of murders de-escalated from 90 cases in 2021/22, reaching 77 cases in 2022/23. The Stellenbosch municipal area's murder rate (per 100 000 people) decreased from 46 in 2021/22 to 38 in 2022/23, reflecting a similar trend in the Cape Winelands District, where the rate increased from 45 to 41 for the same period.

1.9.2 Sexual Offences

Sexual offences include rape (updated to the new definition of rape to provide for the inclusion of male rape), sex work, pornography, public indecency, and human trafficking.

In 2022/23, there were 207 sexual offences in the Stellenbosch area, compared to 989 reported cases in the Cape Winelands District. The incidence of sexual offences (per 100 000 people) in the Stellenbosch municipal area (104) was higher than that of the district (102) in 2022/23.

1.9.3 Common Assault

In Stellenbosch, the crime rate per 100 000 people for common assault showed a concerning upward trend, with 510 reported incidents per 100 000 people, which increased from 527 in 2021/22 to 557 in 2022/23. This escalation in common assault cases per capita suggests a challenging security environment, which could potentially have socio-economic implications. Addressing this rising trend is vital to ensuring the safety and well-being of the community and fostering a secure environment for residents, businesses, and investors. Implementing effective crime prevention measures and

community outreach initiatives may be essential to reversing this trend and creating a safer atmosphere conducive to economic growth and development.

1.9.4 Commercial Crime

In Stellenbosch, the crime rate per 100 000 people for commercial crime showed a steady upward trend over the analysed period. In 2020/21, there were 340 reported incidents per 100 000 people, which increased slightly to 443 in 2021/22 but then increased significantly to 528 in 2022/23. This fluctuation in commercial crime rates could indicate varying challenges faced by local businesses and law enforcement in combating economic offences. Addressing this issue is crucial as it directly impacts the business environment, investor confidence, and the overall economic stability of the municipality. Implementing robust measures to combat commercial crimes, such as fraud and embezzlement, is essential for fostering a secure and trustworthy business environment, supporting economic growth, and attracting investments in the Stellenbosch municipal area.

1.9.5 Drug–Related Offences

Drug-related *crimes refer to the situation where the perpetrator is found to have, been under the influence of, or selling illegal drugs.*

Drug-related crime within the Stellenbosch area increased from 1 224 cases in 2021/22 to 1 463 cases in 2022/23. The Cape Winelands District's drug-related offences surged from 6 047 in 2021/22 to 6 783 in 2022/23. When considering the rate per 100 000 people, with 734 drug-related offences per 100 000 people in 2022/23, the Stellenbosch area's rate is above the district's rate of 700 per 100 000 population.

1.9.6 Driving under the influence (DUI)

A situation where the driver of a vehicle is found to be over the legal blood alcohol limit.

The number of cases of driving under the influence of alcohol or drugs in the Stellenbosch area declined from 262 in 2021/22 to 251 in 2022/23. This translates into a rate of 126 per 100 000 people in 2022/23, which is above the district's 79 per 100 000 people.

1.9.7 Residential Burglaries

The unlawful entry of a residential structure with the intent to commit a crime, usually theft.

Stellenbosch's rate of 436 residential burglaries per 100 000 people, which is well below the district's rate of 453 for 2022/23, indicates that the targeted strategies that were implicated to address these crime rates improved the safety and security in the community.

1.10. Economy and Labour Market Performance

1.10.1 Sectoral Overview

In 2021, the economic landscape of the Stellenbosch municipal area boasted a Gross Domestic Product at regional level (GDPR) totaling R20.6 billion and provided gainful employment to 69 012 individuals. The municipality's economy thrives on a robust agriculture sector, primarily specialising in grape cultivation for its globally acclaimed wineries, which serves as a pivotal driver for trade and tourism. Notably, the finance sector emerged as the primary contributor to the local economy, generating R5.3 billion in 2021 and constituting 25.7 per cent of the total GDPR, further solidifying the area's economic significance. The sectors that contributed to GDPR growth in 2022 were finance and transport, both accounting for 1.0 percentage point, followed by trade, which contributed a 0.6 percentage point.

Moreover, the potential for overall Gross Domestic Product at the regional level (GDPR) growth was impeded by declines in the primary and secondary sectors. Apart from agriculture, which experienced growth rates of 20.3 per cent in 2020 and 5.0 per cent in 2021, these sectors have yet to recover to their 2019 levels. The occurrence of load-shedding in 2022 had adverse effects on both farmers and manufacturers, diminishing their production capacities significantly.

In the current economic landscape of South Africa, marked by challenges such as load-shedding, constrained consumer spending, and diminished business confidence, the Stellenbosch municipal area is predicted to experience near-stagnant Gross Domestic Product at regional level (GDPR) growth of 0.3 per cent in 2023, as indicated on the graph below. Several sectors, including agriculture, manufacturing, construction, general government, and personal services, are expected to underperform due to the macroeconomic pressures dampening overall business activities. However, there is a more optimistic outlook for GDPR growth in 2024, projected at 1.0 per cent. This optimism is rooted in the anticipation of increased tourist activities and robust growth in the finance sector, which are poised to bolster the local economy.

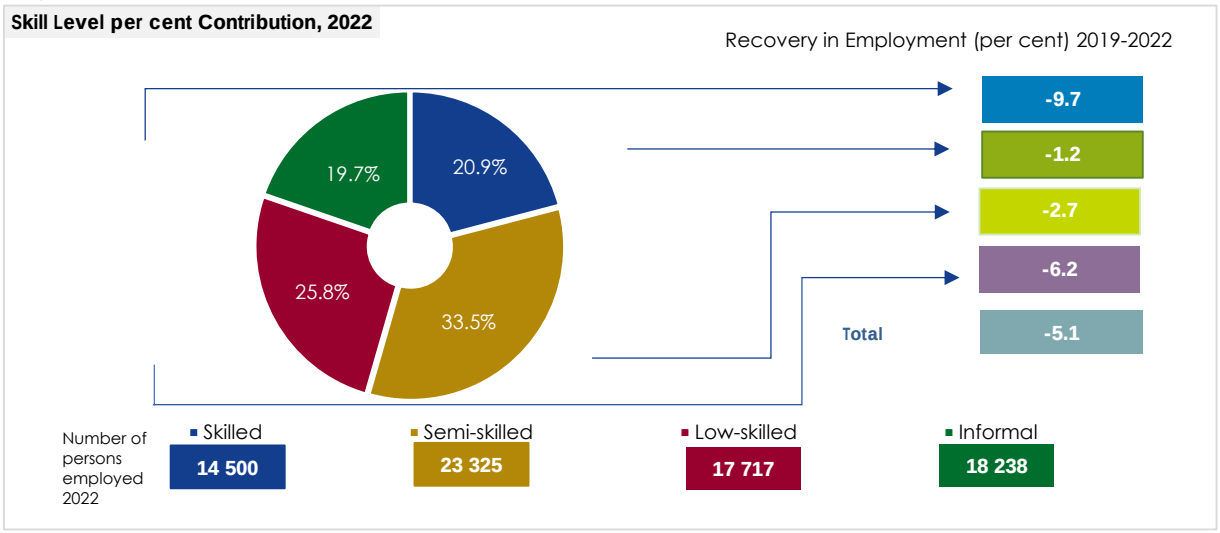
1.10.2 Formal and Informal Employment

The presence of Stellenbosch University and the diverse industries in the area have led to a significant workforce composition, with 20.9 per cent classified as skilled workers and 33.5 per cent as semi-skilled workers. Informal sector activities, particularly in trade, agriculture, and personal services, contribute significantly to employment, accounting for 19.7 per cent of the workforce in 2021. However, a notable challenge exists for low-skilled workers, constituting 25.8 per cent of the workforce, as recent job creation trends have favoured semi-skilled and skilled workers, limiting opportunities for this demographic.

Graph 11: Skills Level Contribution, 2022



Source: Western Cape, Social–Economic Profile 2023

1.10.3 Unemployment

It is crucial to facilitate access to education and skills development initiatives in communities where high unemployment rates occur. Social transformation needs to be promoted and provide enough relevant opportunities and resources for affected demographic areas. Not only does this initiative enhance the socio-economic landscape, but it also has implications for municipal revenue. A skilled and educated workforce can contribute to a more vibrant local economy, generating higher tax revenues to support municipal projects and services.

B: LEGISLATIVE ENVIRONMENT

Legal Requirements

The medium term revenue and expenditure framework for 2023/2024, 2024/2025 and 2025/2026 was compiled in accordance with the requirements the relevant legislation, of which the following are the most important:

i) the Constitution, Act 108 of 1996
ii) the Local Government Transition Act, Act 209 of 1993
iii) the Municipal Structures Act, Act 117 of 1998
iv) the Municipal Systems Act, Act 32 of 2000
iv) the Municipal Finance Management Act, Act 56 of 2003

In addition to the above, the Municipal Budget and Reporting Framework as approved on 17 April 2009 gave a clear directive on the prescribed reporting framework and structure to be used.

Guidelines issued by National Treasury

National Treasury issued the following circulars regarding the budget for 2015/2016:

C: OVERVIEW OF ANNUAL BUDGET PROCESS

In terms of Section 24 of the MFMA, Council must, at least 30 days before the start of the financial year, consider the annual budget for approval. Section 53 requires the Mayor of a municipality to provide general political guidance over the budget process and the priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations, gazetted on 17 April 2009, states that the Mayor of a municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging with the responsibilities set out in section 53 of the Act.

A time schedule outlining important dates and deadlines as prescribed for the IDP/Budget process was approved on **23 August 2023**. The budget process for the 2024/2025 MTREF period proceeded/will proceed according to the following timeline

Activity	**Time frame**
Formulation of budget assumptions	September 2023
Detailed programmes and projects to further define budget	November 2023 – March 2024
IDP and Budget considered by Council	27 March 2024
IDP and Budget - public participation	April 2024
Final approval of IDP and the Budget	22 May 2024

D: OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH THE INTEGRATED DEVELOPMENT PLAN (IDP)

The intent of the Strategic goals for the Fourth Generation IDP will remain the same as the goals of the Third Generation IDP, although a slight change for 3 of the goals namely: “Preferred Investment Destination” has been amended to “Valley of Possibility” to have a clearer indication that it needs to include possibilities for all and not just investors; “Greenest Municipality” has been amended to “A Green and Sustainable Valley” to incorporate all facets of sustainability; ” Safest Valley” has been amended to “A Safe Valley”, whilst “Dignified Living” and “Good Governance and Compliance”, remain unchanged.

Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities.

Performance management at Stellenbosch municipality is evaluated to embody the following;

Consistency: Objectives, performance indicators and targets are consistent between planning and reporting documents.

Measurability: Performance indicators are well defined and verifiable, and targets are specific, measurable and time bound.

Relevance: Performance indicators relate logically and directly to an aspect of the municipality's mandate and the realisation of its strategic goals and objectives.

Reliability: Recording, measuring, collating, preparing and presenting information on actual performance / target achievements is valid, accurate and complete.

Stellenbosch municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employees' performance. The performance of the municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations.

The Five-Year Top-Level Service Delivery and Budget Implementation is part of the Integrated Development Plan and the financial performance objectives are captured in supporting table SA7.

E: OVERVIEW OF MUNICIPAL BY-LAWS BUDGET RELATED POLICIES

The following existing policies were reviewed and amended

Rates Policy

The revised Rates Policy as required by the Municipal Property Rates Act (Act no 6 of 2004) is attached as Appendix 5.

Indigent Policy

Due to the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for basic municipal services. The provision of free basic services ensures that registered indigent consumers have access to basic services. This policy provides the framework for the administration of free basic services to indigent consumers. Refer to Appendix 6.

Credit Control and Debt Collection Policy

This policy provides a framework to enable Council to proactively manage and collect all money due for services rendered and outstanding property taxes, subject to the provisions of the Municipal Systems Act of 2000 and any other applicable legislation and internal policies of Council. Refer to Appendix 7.

Irrecoverable Debt Policy

This policy enables Council and the CFO to write off irrecoverable debt of indigent consumers, debt which cannot be recovered due to consumers not being registered as indigent or not traceable or due to prescription of debt. Refer to Appendix 8.

Tariff Policy

This policy serves as the implementing tool which guides the levying of tariffs for municipal services in accordance with the provisions of the Municipal Systems Act and any other applicable legislation. Tariffs represent the charges levied by Council on consumers for the utilization of services provided by the Municipality and rates on properties. Tariffs will be calculated in various ways, dependent upon the nature of the service being provided. Refer to Appendix 9.

Special Ratings Area Policy

The aim of the policy is to provide the framework to strike an appropriate balance between facilitating self-funded community initiatives that aim to improve and/or upgrade neighbourhoods. Refer to Appendix 10.

Travel and Subsistence Policy

This policy sets out the basis for the payment of subsistence, travel allowance, hourly rate when applicable for the purpose of official travelling. Refer to Appendix 11.

Cash Management and Investment Policy

To regulate and provide directives in respect of the investment of funds and to maximize returns from authorized investments, consistent with the primary objective of minimizing risk. Refer to Appendix 12.

Development Charges Policy

The Municipality derives its authority to impose a development charge in terms of Section 75A. General power to levy and recover fees, charges and tariffs of the Local Government: Municipal Systems Act, 2000, Act 32 of 2000. The Municipality approved its new Land Use Planning Bylaw in terms of the Spatial Planning and Land Use Planning Act, 2013 (Act 16 of 2013) in October 2015 and it was officially promulgated and became effective in December 2015. Since then, the Municipality faces significant changes in the planning environment, amongst others the need for and manner of generating development charges. Refer to Appendix 13.

Accounting Policy

This policy provides the accounting framework applicable to the finances of the municipality and is informed by the Municipal Finance Management Act (Act no 56 of 2003). Refer to Appendix 14.

Financing of External Bodies performing municipal functions Policy

The purpose of this Policy is to provide a framework for financial assistance by Stellenbosch Municipality (“the Municipality”) to external organisations/bodies conducting local government functions to the extent as set out in section 155(6)(a) and (7) of the Constitution as listed in Part B of Schedule 4 and 5. Refer to Appendix 15.

Ward Allocation Policy

The objective of the Ward Allocations Policy is to create opportunities for Councillors to identify ward projects in line with the identified IDP needs, with the support of their Ward Committees, which would improve the quality of living in all wards. These projects would need to fit into the basket of services of the relevant User Department and must comply with the following, namely, Local Government’s mandate; council policies; support the pillars and objectives of the IDP and directly benefit the community.

The Policy shall be governed by the underlying principle of ensuring that ward allocation projects meet the requirements of the Integrated Development Plan, including specific reference to, valley of opportunity, green and sustainable valley, safe valley, valley with dignified living and valley of good governance and compliance. Refer to Appendix 16.

Wayleave Policy

In terms of S151 of the Constitution of the Republic of South Africa, 108 of 1996, a municipality has the right to govern on its own initiative, the local government affairs of its community, subject to national and provincial legislation. S156 of the Constitution grants the municipalities the right to administer the local government matters listed in Schedule 5B, which include municipal roads. A municipality may make by-laws for the effective administration of municipal roads. This Policy will be converted into municipal by-laws to give it legal effect. Refer to Appendix 17.

Ward Committee Policy

This policy is compiled in terms of the Local Government: Municipal Structures Act, 117 of 1998; Local Government: Municipal Systems Act, 32 of 2000 and 2005 DPLG Guidelines.

Preamble of Policy:

WHEREAS the Municipality is committed to encouraging the involvement of communities and community organisations in its affairs.

WHEREAS the Municipality is a municipality with an executive mayoral system combined with a ward participatory system as set out in section 9(d) of the Act.

WHEREAS the Council has resolved in terms of section 72(2) of the Act to adopt the ward participatory system.

IT IS THEREFORE RESOLVED by the Council as follows. Refer to Appendix 18.

The following existing budget related policies and by-laws were reviewed but no amendments were necessary:

Grant-in-aid Policy

This policy provides the framework for grants-in-aid to non-governmental organisations (NGO's), community-based organisations (CBO's) or non-profit organisations (NPO's) and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by Sections 12 and 67 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003). Refer Appendix 19.

Infrastructure Asset Unbundling Policy

This policy is intended to provide a framework for the unbundling of completed infrastructure services capital projects and financial asset year-end processes within the requirements of sections 60, 62, 63, 78, and 79 of the Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA), and the South African Standards of Generally Recognised Accounting Practices (GRAP) as well as to promote good financial management practices. This policy applies to all officials within the Stellenbosch Local Municipality who utilise and/or manage any type of infrastructure assets. The Municipal Council of Stellenbosch have adopted an Asset Management Policy to regulate the effective management of all council's assets and wants to lay down broad guidelines for consistent, effective and efficient asset management principles of Stellenbosch Municipality. The Municipality of Stellenbosch have agreed to adopt an Infrastructure Unbundling Policy that will guide the Municipality with the effective, complete, and accurate capitalisation of their assets and complying with year-end processes relating to assets. Refer to Appendix 20.

Asset Management Policy

The Municipal Finance Management Act Number 56 of 2003 will be the legislative framework for the Asset Management Policy whilst Generally Recognised Accounting Practice (GRAP) will be the accounting framework.

The Municipal Council of Stellenbosch is in terms of the MFMA and GRAP obliged to adopt an Asset Management Policy to regulate the effective management of all council's assets.

- **And whereas** the municipal manager as accounting officer of municipal funds, assets and liabilities is responsible for the effective implementation of the asset management policy which regulates the acquisition, safeguarding, maintenance of all assets and

disposal of assets where the assets are no longer used to provide a minimum level of basic service as regulated in terms of section 14 of the MFMA.

- **And whereas** these assets must be protected over their useful life and may be used in the production or supply of goods and services or for administrative purposes in meeting the municipality's operational requirements.

- **Now therefore** the municipal council of the Stellenbosch Municipality adopts this asset management policy. Refer to Appendix 21.

Borrowing, Funds and Reserves

This policy strives to establish a borrowing framework policy for the Municipality and set out the objectives, policies, statutory requirements and guidelines for the borrowing of funds. The policy provides a framework to ensure that the annual budget of Stellenbosch Municipality is fully funded and that all funds and reserves are maintained at the required level to avoid future year noncash backed liabilities. The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework. Refer to Appendix 22.

Budget Implementation and Monitoring Policy

The policy aims to give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the planning, preparation and approval of the annual and adjustments budgets. The framework for virements is also explained and regulated in this policy as well as monitoring roles and responsibilities. Refer to Appendix 23.

Pool Vehicle Policy

The purpose of this policy is to ensure the proper procedure of booking and utilization of a pool vehicle. The policy clearly stipulates that no person, other than a municipal official in possession of a valid driver's licence may drive a Pool Vehicle and no person other than an official may be transported in a Pool Vehicle, provided that the CFO, Municipal Manager or a director may in exceptional circumstances authorise that other passenger may be transported in such Pool Vehicle. Municipal officials that receive car allowance are NOT allowed to use any pool vehicle. Refer to Appendix 24.

Cost Containment Policy

The purpose of the policy is to regulate spending and to implement cost containment measures at Stellenbosch Local Municipality. The objectives of this policy are to ensure that the resources of the municipality are used effectively, efficiently and economically and to implement cost containment

measures. The cost containment policy will apply to council and all municipal employees. Refer to Appendix 25.

Liquidity Policy

The documented Liquidity Policy sets out the minimum risk management measures that Stellenbosch Municipality has to implement and adhere to in order to ensure that its current and future liquidity position is managed in a prudent manner. This policy will be implemented to provide guidance on the minimum liquidity level that Stellenbosch Municipality has to maintain in order to comply with required legislative and / or National Treasury directives and within the overall financial management objectives as approved/reviewed by the Council from time to time. Refer to Appendix 26.

Virement Policy

The policy sets out the Virement principles and processes which the Stellenbosch Municipality will follow during a financial year. These virements will represent a flexible mechanism to effect budgetary amendments within a municipal financial year. The policy shall give effect to the requirements and stipulations of the Municipal Finance Management Act and Municipal Budget and Reporting Framework in terms of the Approved budget, and it will be applicable to all municipal staff and councillors involved in budget implementation. Refer to Appendix 27.

Petty Cash Policy

All purchases below R 2 000 are regulated by this policy. Clear processes and procedures are stipulated to ensure that all transactions are processed effective and efficiently in a bid to ensure prudent financial control. Refer to Appendix 28.

Supply Chain Management Policy

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Preferential Procurement Policy Framework Act, no 5 of 2000 and its accompanying regulations influences and dictates process around the evaluation and awarding of points. In this regard, the Minister of Finance acting in terms of section 5 of the Procurement Policy Framework Act, revised the Regulations accompanying this Act on the 20th January 2017 for implementation by all affected public entities by the 1 April 2017. The Supply Chain Management Policy was therefore amended and adopted at Council during February 2017. Refer to Appendix 29.

Preferential Procurement Policy

Section 217(1) of the Constitution, 1996 (Act 108 of 1996) provides that when contracting for goods and services, organs of state must do so in accordance with a system that is fair, equitable, transparent, competitive and cost effective. Section 217(2) and (3) of the Constitution allows organs of state to grant preferences when procuring for goods and services within a Framework prescribed by National legislation. The preferential procurement policy is founded on the following principles, namely, value for money, open and effective competition, ethics and fair dealing, accountability and reporting and equity. This policy will be applicable to all active industry sectors within the Stellenbosch Municipal area and must be read with the supply chain management policy of the municipality. Refer to Appendix 30.

Inventory Management Policy

In terms of the MFMA, the Accounting Officer for a municipality must:

(a) be responsible for the effective, efficient, economical and transparent use of the resources of the municipality as per section 62 (1)(a);

(b) take all reasonable steps to prevent unauthorised, irregular and fruitless and wasteful expenditure and other losses as per section 62(1)(d); and

(c) be responsible for the management, including the safeguarding and the maintenance of the assets, and for the management of the liabilities, of the municipality as per section 63 (1)(a) and (b).

The policy aims to achieve the following objectives which are to provide guidelines that employees of the Municipality must follow in the management and control of inventory, including safeguarding and disposal of inventory, procure inventory in line with the established procurement principles contained in the Municipality's Supply Chain Management Policy and eliminate any potential misuse of inventory and possible theft. Refer to Appendix 31.

Credit Control and Debt Collection By-Law

This by-law give effect to the implementation and enforcement of Municipality's Credit Control and Debt Collection Policy and/or to regulate its implementation and enforcement in the Stellenbosch Municipal Area (WC024) in terms of section 156(2) of the Constitution of the Republic of South Africa (Act 108 of 1996) and sections 96 and 98 of the Municipal Systems Act (Act 32 of 2000);to provide for the collection of all monies due and payable to the Municipality; andto provide for matters incidental thereto. All debt owing to the Municipality must be collected in accordance with this By-law and the Credit Control and Debt Collection Policy. Refer to Appendix 32.

Special Ratings Area By-Law

A “special rating area” refers to a special rating area approved by the Council in accordance with the provisions of section 22 of the Property Rates Act. This By-law aims to provide for the establishment of special ratings areas, to provide for additional rates and to provide for matter incidental thereto. Refer to Appendix 33.

Rates By-Law

In terms of Section 3 of the Property Rates Act, a municipal council must adopt a policy consistent with the property rates act on levying of rates on rateable properties in the municipality. Refer to Appendix 34.

Tariff By-Law

In terms of section 75(1) of the Systems Act, a municipal council must adopt by-laws to give effect to the implementation and enforcement of its tariff policy. In terms of section 75(2) of the Systems Act, by-laws adopted in terms of section 75(1) of the Systems Act may differentiate between different categories of users, debtors, service providers, services, service standards and geographical areas as long as such differentiation does not amount to unfair discrimination. Refer to Appendix 35.

F: OVERVIEW OF KEY BUDGET ASSUMPTIONS

Municipalities' long-term financial viability depends largely on the extent to which improved and sustainable revenue capacity on the one hand and sound financial management of its resources on the other hand can be achieved. These imperatives necessitate proper multi-year financial planning. Future impacts of revenue streams, expenditure requirements and the financial implications for the community at large (i.e. the potential influence on rates, tariffs and service charges) must be identified and assessed to determine the sustainability of planned interventions, programs, projects and sundry service delivery actions.

Taking these principals into consideration, the following assumptions **(ceteris paribus)** were made and relates to the parameters within which the budget was compiled for the next three years

	2024/2025	2025/2026	2026/2027
Percentage Increase:			
Water	6.20%	6.00%	6.00%
Electricity	10.99%	11.00%	11.00%
Sanitation	8.00%	8.00%	8.00%
Refuse	6.90%	6.90%	6.90%
Property Rates	6.30%	6.00%	6.00%
Collection Rates			
Water	95%	95%	95%
Electricity (Post Paid Meters)	97%	97%	97%
Sanitation	96%	96%	96%
Refuse	96%	96%	96%
Rates	96%	96%	96%
Employee Related Costs			
Salaries and Wages and related costs	4.90%	4.60%	4.60%
Notch Increment	2.40%	2.40%	2.40%
Other Assumptions			
Bulk Purchases - Electricity	12.70%	12.70%	12.70%

Budgetary constraints and economic challenges meant that the municipality had to apply a combination of cost-saving interventions and higher than headline CPI revenue increases to ensure a sustainable budget over the medium term.

Municipalities should also pay particular attention to managing all revenue and cash streams effectively and carefully evaluate all spending decisions."

G: HIGH LEVEL BUDGET OVERVIEW

Capital Budget for 2024/2025, 2025/2026 and 2026/2027

Although the capital budget is infrastructure orientated and addresses the very urgent need for the upgrading of infrastructure as addressed by the different infrastructure master plans, it does however speak to the IDP (Integrated Development Plan) and the needs of the community. It's also aligned to the strategic priority in the State of the Nation Address of Infrastructure investment and the "back to basics" approach. The responsiveness of the budget can be measured against what was identified as priorities by the community and the actual amount allocated, bearing in mind that resources are limited, to address or at least alleviate the most critical needs identified.

In this regard it is important to note that the need for infrastructure upgrades, inclusive of electricity infrastructure were key to ensure the delivery of sustainable services.

The capital budgets as proposed, amounts to:

2024/2025	2025/2026	2026/2027
R	R	R

REPORT RECEIVED FROM COMMUNITY DEVELOPMENT: 2024/2025 GRANT-IN-AID ALLOCATIONS AND DONATIONS

1. SUBJECT

GRANT IN AID APPLICATIONS AND DONATIONS 2024/2025

2. PURPOSE

To obtain Council's approval for Grant-in-Aid (GiA) applications and recommended donations for the financial year 2024-2025.

3. DELEGATED AUTHORITY (FOR DECISION BY MUNICIPAL COUNCIL)

In terms of Municipal Finance Management Act (MFMA), Act (56 of 2003) Section 17. (3) (e) relating to content of annual budgets and supporting documents.

4. EXECUTIVE SUMMARY

This policy aims to provide a framework for Grant-in-Aid to non-governmental organisations (NGOs), community-based organisations (CBOs), non-profit organisations (NPOs) or non-profit companies (NPC), Public Benefit Organisations (PBO's) in so far as to alleviate the burden on municipal cemeteries and bodies that are used by government as an agency to serve the poor, marginalised or otherwise vulnerable as envisaged by the Grant in Aid Policy approved at the Council Meeting in May 2023.

Draft approval was granted for applications complying with the GiA policy requirements in March 2024. Opportunity was given until 23 April 2024 for organisations to appeal who deemed the assessment of their application incorrect. By the due date 34 combined appeals and final feedback reports were received. Four organisations omitted to provide their final feedback reports even through they committed to do so with the submission of their application. They does do not meet the conditions placed on the draft approvals.

5. RECOMMENDATIONS

a) That council consider and approve the recommended donations to organizations as per detailed list.

6. DISCUSSION / CONTENTS

6.1. Background

In terms of Council's Grant-in-Aid Policy, proposals were called for by means of advertisement in the press on 12 October 2023 (Eikestad Nuus) and on the municipal website and Facebook page.

The advertisement included an invitation to attend one of three compulsory workshops on either 25, 26 or 27 October 2023 to assist and give guidance on the policy and application procedure. One hundred and fifty seven (157) persons attended the workshops.

A workshop to assist with capacity building of small, emerging organisations was conducted on 3 November 2023 focussing on financial management. This workshop was also advertised in the local newspaper and is not compulsory. The workshop was attended by seventeen (17) persons.

By the closing date (1 December 2023), 97 applications were received.

6.2 Discussion

The Department Community Development and the Sport and Recreation Department scrutinized and evaluated ninety-seven (97) applications representing the following categories:

Table 1: Applications and draft grant recommendations per category

The detailed list of applications received and evaluated can be found with the item. Reason for not recommending organizations can be found in the notes column of said list.

The Municipality would like to support as many as possible organizations delivering valuable services within our communities but cannot disregard requirements of the MFMA (56 of 2003) Section 67 stipulating the responsibility of council to ensure donations are made to organizations who has the capacity to govern itself according to accepted financial practises and who can deliver the services for which the donation is required and benefiting the intended target audience.

The municipal Grant in Aid Policy in paragraph 6.1.4 states as follow:

6.1.4 Funding applications however will not be considered in the following instances:

(ii) Where in Council's opinion, an organisation receives sufficient funds from other sources to sustain its activities or the project applied for. For this purpose, organisations must submit financial statements and a budget for the ensuing financial year;

The Stellenbosch Night Shelter submitted AFS including investments to the value of R 13 814 476 in 2023. It is clear that the organisation is run with sound financial management principles contributing to its sustainability.

The shelter proposal is to the value of R 1 789 785,49 (2024/25), R 1 994 748,20 (2025/26) and R2 224 369,90 (2026/27). The amounts for the above years include a line item relating to facility administration to the value of R 316 933,71; R 348 627,08 and R 383 489,79 respectively.

In light of the above it is recommended that the amount requested for facility administration as indicated above is not recommended for approval and subtracted from the requested amount as the organisation has sufficient funds to sustain its activities.

1. Include a measurable performance objective for each revenue source (within a relevant function) and each vote (MFMA s17(3)(b))
2. Include all Basic Services performance targets from 'Basic Service Delivery' to ensure Table SA7 represents all strategic responsibilities
3. Only include prior year comparative information for individual measures where relevant activity occurred in that year/s

References

1. Positive cash balances indicative of minimum compliance - subject to 2
2. Deduct cash and investment applications (defined) from cash balances
3. Indicative of sufficient liquidity to meet average monthly operating payments
4. Indicative of funded operational requirements
5. Indicative of adherence to macro-economic targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
6. Realistic average cash collection forecasts as % of annual billed revenue
7. Realistic average increase in debt impairment (doubtful debt) provision
8. Indicative of planned capital expenditure level & cash payment timing
9. Indicative of compliance with borrowing 'only' for the capital budget - should not exceed 100% unless refinancing
10. Substantiation of National/Province allocations included in budget
11. Indicative of realistic current arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
12. Indicative of realistic long term arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
13. Indicative of a credible allowance for repairs & maintenance of assets - functioning assets revenue protection
14. Indicative of a credible allowance for asset renewal (requires analysis of asset renewal projects as % of total capital projects - detailed capital plan) - functioning assets revenue protection
