RE: ARRANGEMENTS FOR THE PROCESSING OF WAYLEAVE APPLICATIONS FOR BUILDERS HOLIDAY.

Builders holiday officially commences on Friday, 12 December 2025 and contractors return to site as from the 12 January 2022.

To this end, relevant parties that are within a construction mode shall ensure that ALL construction work stops on the 12 December 2025, with all works left in a safe and acceptable condition over the holidays. Construction may only recommence on Monday, 12 January 2025.

The following safety measures will be adhered to:

1. All trenches to be backfilled, compacted and properly re-instated.
2. All open man-hole excavations to be closed.
3. All road crossings to be backfilled, layer works completed, and asphalt placed.
4. Where site camps are applicable, contractors are to ensure that all materials are properly and safely stored and that the camp is adequately cordoned off and locked up.

Wayleave applications received after 28 November 2025 will be processed as from 12 January 2025. No new approvals to construct between 12 December 2025 and 12 January 2025 will be issued. We trust that the above is favourably received and the necessary action is taken to ensure that we keep our infrastructure safe and the community unhindered by incomplete construction work.
