CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:-

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by **Stellenbosch Municipality**

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf

of: _____ that:
(Name of Bidder)

6. I have read and I understand the contents of this Certificate;
7. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
8. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
9. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
10. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:-
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder.
11. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
12. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:-
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

13. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
14. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
15. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.

19. EVALUATION OF BIDS

- a) All bids received shall be evaluated in terms of the Municipal Supply Chain Management Regulations, the Preferential Procurement Policy Framework Act no 5 of 2000, the Stellenbosch Preferential Procurement Policy of 2024/2025 in accordance with Preferential Procurement Regulations of 2022.
- b) The municipality reserves the right to accept all, some, or none of the bids submitted — either wholly or in part — and it is not obligated to accept the lowest bid.

PART C: TECHNICAL SPECIFICATIONS AND PRICING SCHEDULE

The following minimum specifications are applicable and must be complied with.

NB: Service providers are required to read and study the specification, its general condition of contract, as well as the instructions to them very carefully before submitting their offers.

All bids received shall be evaluated in terms of the Municipal Supply Chain Management Regulations, the Preferential Procurement Policy Framework Act no 5 of 2000, the Stellenbosch Preferential Procurement Policy of 2024/2025 in accordance with Preferential Procurement Regulations of 2022

PROVISION OF PROFESSIONAL SERVICES TO UNDERTAKE A COMMUNITY FACILITY ANALYSIS FOR STELLENBOSCH MUNICIPALITY

1. INTRODUCTION

- 1.1 The Stellenbosch Municipality's Department: Community Services, within the Directorate: Community & Protection Services, aims to procure the services of a suitable and experienced service provider to undertake a community facility availability analysis, which is required to plan for and to provide sport fields, recreation facilities and community halls.
- 1.2 The intention of this bid is to utilise baseline information to determine the demand for community facilities within the jurisdiction of Stellenbosch Municipality and to generate a register and map that reflects the existing facilities and areas of need. The administrative data and records must be captured and verified and integrated into the municipality's geographic information systems.

2. BACKGROUND AND STUDY AREA

- 2.1 Significant pressure for development is experienced within the Stellenbosch municipal area. Subsequently there is a need to undertake a community facility scenario planning exercise across the municipality, but with a focus in the growth nodes as identified in the Municipal Spatial Development Framework (MSDF). While growth in the urban nodes is inevitable, what is needed is to avoid planning or provision for ad hoc development within parts of a town and where development (project)-based decisions are made in isolation from each other. Coordinated planning, budgeting and decision-making as to where community facilities should be established will assist in catering for the needs and aspirations of all communities.
- 2.2 The community facility analysis must deal with growth projections based on information from the current situation and the interpretation of data (Census, GIS and other) for future needs. The intention of the work is to inform the capital expenditure framework of the Municipality and for this reason municipal departments must jointly agree on a long-term plan for the provision of community facilities, considering its implication on land availability, infrastructure and service provision.

- 2.3 Community facilities for the purpose of this study refers to civic services such as community halls and recreation facilities, including sport fields. The study will use and provide information on community sports fields, recreational facilities and community halls that must be provided by the Municipality for the entire Stellenbosch municipal area, with a specific focus on the main growth nodes, namely the towns of Stellenbosch, Klapmuts and Franschhoek.

3. SCOPE OF WORK

- 3.1 The scope of the project will be to understand and articulate the extent, use and geographical location of existing facilities that serve the communities of Stellenbosch and to determine what is needed in terms of facility, land and infrastructure provision going forward, based on various growth scenarios.
- 3.2 As part of the scope of the project, the Status Quo must be determined and a gap analysis undertaken, and recommendations made.
- 3.3 Collect baseline information as a guide to carry out an analysis of infrastructure in the provision of community facilities for sports, recreation and halls as provided by the Municipality.
- 3.4 Compile a Community Facility database by identifying and listing all existing land units used or set aside for the purpose, the zoning of the property, the type of facility, size, and capacity based on info made available by the Municipality.
- 3.5 Compile and present a register table (alternatively known as a schema in GIS terms) with standardised field entries (including a metadata report with definitions), for the verification and approval by the Project Manager prior to the capturing the facility data. Data captured should be geolocated and linked to the SG 24-digit code of the Surveyor-General cadastre database.
- 3.6 Generate a Community Facility map. Development of the register in a SQL database format for inclusion into the GIS, which is currently an ESRI based GIS System to enable the Municipality to maintain the register and map.
- 3.7 An evaluation of the access norms and standards based on a desk top analysis of relevant policies, guidelines, and strategies to determine what, if any, their implications may be for the provision of community facilities by the Municipality.
- 3.8 Identify the needs to accommodate anticipated growth. It requires long-term scenario planning to determine the demand using an up-to-date socio-economic and spatial demographic profile of the Municipality and the future population estimates, as well as settlement growth planned for in the MSDF. This task will largely be based on a desk-top analysis and interviews with role-players as identified by the Project Manager.
- 3.9 Once the socio-economic profile of suburbs and database of available facilities have been established and appropriate standards and guidelines decided on, an availability or service delivery gap analysis can be undertaken. The needs identified in the IDP Process must be taken into consideration. In other words, what is needed where to ensure that all people have equitable access to the relevant community facilities, e.g., community sport fields, recreation facilities and community halls.

- 3.10 Using the information gathered, the following should be determined:
- the current shortfalls / limits (e.g., capacity, size, type of services / sport codes) at current facilities.
 - assumptions made in respect of sharing and/or clustering facilities; and
 - the shortfalls and/or needs identified in the IDP process.
- 3.11 The study will assist in defining where the analysed municipal services should be concentrated by producing spatial maps that indicate the following:
- Well-served, poorly served and over-served areas;
 - Well-located facilities that are optimally utilized; poorly located/ under-utilized facilities as well as over-burdened facilities;
 - The need to increase the number of facilities, reduce/ downscale and/ or to relocate existing facilities to more optimal locations; and
 - The optimum geographic location of service points to meet the service demand of the population.
- 3.12 To determine supply and demand accurately, data must be available at sub-place level and norms and standards with reference to applicable policies, guidelines, and strategies must be considered. In addition, determine the location and space requirements, and spatial implications of the required facilities to serve the future need.
- 3.13 The desired output is to provide a base on which the Municipality can build a capital investment framework for community facilities.
- 3.14 The work to be undertaken should, amongst others be informed and underpinned by:
- a) Stellenbosch Municipal plan: Identification and Mapping of all Current and Planned Social Infrastructure
 - b) IDP needs relating to community facilities
 - c) Stellenbosch Municipality Zoning register and map
 - d) Stellenbosch Municipal Spatial Development Framework
 - e) National and / or provincial guidelines such as the following:
- CSIR, 2012: Guidelines for the Provision of Social Facilities in South African Settlements (First Edition: August 2012).
 - Isikhungusethu Environmental Services in association with Louw and Dewar, 2016: Draft Guidelines for the Provision of Open Space. Prepared for the National Department of Rural Development and Land Reform, December 2016.
 - Green, C. & Argue, T., 2016: Guidelines for the Differentiated Provision of Social Services in Rural Areas. Commissioned by the Department of Rural Development and Land Reform
- 3.15 The elements of the project for the prospective service provider will entail the following:
- a) Full project management of the project and its deliverables, including any sub-deliverables quoted for by the service provider.
 - b) Full engagement with the Project Manager (Municipal Official responsible for managing the project) as well as other municipal representatives, and any other stakeholders that these parties deem relevant at all stages of the project.

- c) Attend and participate in all meetings.
- d) Provision to be made for at least three in person meetings to take place in suitable venues of the Stellenbosch Municipality. Additional meetings, if required to be conducted via MS Teams. No provision is to be made for catering.
- e) Must perform all tasks which is required to successfully complete the project.
- f) Service provider is responsible for ensuring that minutes of meetings are recorded, and distributed as agreed by the Project Manager, and that agendas for meetings are prepared and distributed.

4. PROJECT DELIVERABLES

4.1 The deliverables of the process will include:

- a) Written monthly progress reports as per the template that will be provided to the service provider by the Project Manager.
- b) A Community Facility Register table in SQL format of which the schema is to be endorsed by the Project Manager and GIS Manager before finalization of the register and map for incorporation in the existing Municipal GIS.
- c) A draft outline of the Status Quo and Gap Analysis for endorsement by the Project Manager.
- d) A draft outline of recommendations for discussion and endorsement by the Project Manager.
- e) A final report.
- f) A Community Facility register and map, including a metadata report fully incorporated into the existing Municipal GIS.

4.2 The deliverables must be submitted to the Municipality on the completion of the required work on the dates mutually agreed upon. All information, presentations, maps, etc. collected during the course of the project must also form part of the package (in an electronic and hard copy format) submitted to the Municipality.

4.3 Technical Specifications:

- a) All reports and other written documents, data and maps generated and submitted to the Municipality for consideration shall be prepared in English and in any format applicable and readable by systems used by the Municipality.
- b) Reports, documents and maps shall be branded as collectively agreed.
- c) Reports, documents and maps shall be proofread and copy edited.
- d) The reports, documentation and maps shall be supplied electronically in an editable format for translation, updating and printing purposes.
- e) All GIS information, including the SQL database and maps must be prepared in ESRI suite of products – ArcGIS® or any subsequent releases. Both a pdf. copy and the geodatabase (.gdb) of the maps must be submitted electronically to the Municipality who will place the information and maps in the public domain.
- f) Electronic and/or hard copies of all agendas, minutes and attendance registers pertaining to the project.
- g) All presentations or other material presented during all stages of the project.

4.4 All documents and presentations that are to be submitted must be done using the Corporate Guidelines as prescribed by the Stellenbosch Municipality.

- 4.5 Only completed activities will be remunerated and payment will be subject to receipt of a detailed progress report or deliverable and in accordance with the approved project plan and stated milestones.

5. COMPETENCIES OF SERVICE PROVIDER

- 5.1 The bid requires the provision of professional services, that must at least include the services of a Professional Registered Town Planner at the South African Council of Planners (SACPLAN) with at least five years of experience.
- 5.2 Service providers may have to employ other people to execute activities or tasks which require specific skills, whether professional and/or administrative which must be duly listed to substantiate the tender and bid pricing. However, the successful service provider is still responsible for the delivery of all services and the Municipality would not be bound by separate third-party agreements.
- 5.3 After the submission of the bid, a project team member can only be replaced subject to a written agreement by the Municipality.
- 5.4 The project team members must be readily available and accessible for regular on-site meetings at Stellenbosch Municipality.
