TEMPORARY DELAY IN WHEELIE BIN SUPPLY

Dear Resident,

Please be advised that the Municipality is currently experiencing a temporary shortage of black wheelie bins. We are in the process of appointing a new service provider and expect this process to be concluded shortly, after which the supply of bins will resume.

We apologise for any inconvenience this may cause and appreciate your patience and understanding while we work to resolve the matter.

In the meantime, residents are kindly requested to place their household waste in black refuse bags for collection until new wheelie bins become available.

Thank you for your cooperation.
